

Currently, **Illinois State Library** patron access to eBook titles provided in the eRead Illinois Axis 360 collection is limited to either PC download (PDF and ePub formats; Adobe Digital Editions), or by downloading and reading via the Bluefire app from Bluefire Productions. To read Axis 360 eBooks on mobile devices, please follow these steps:

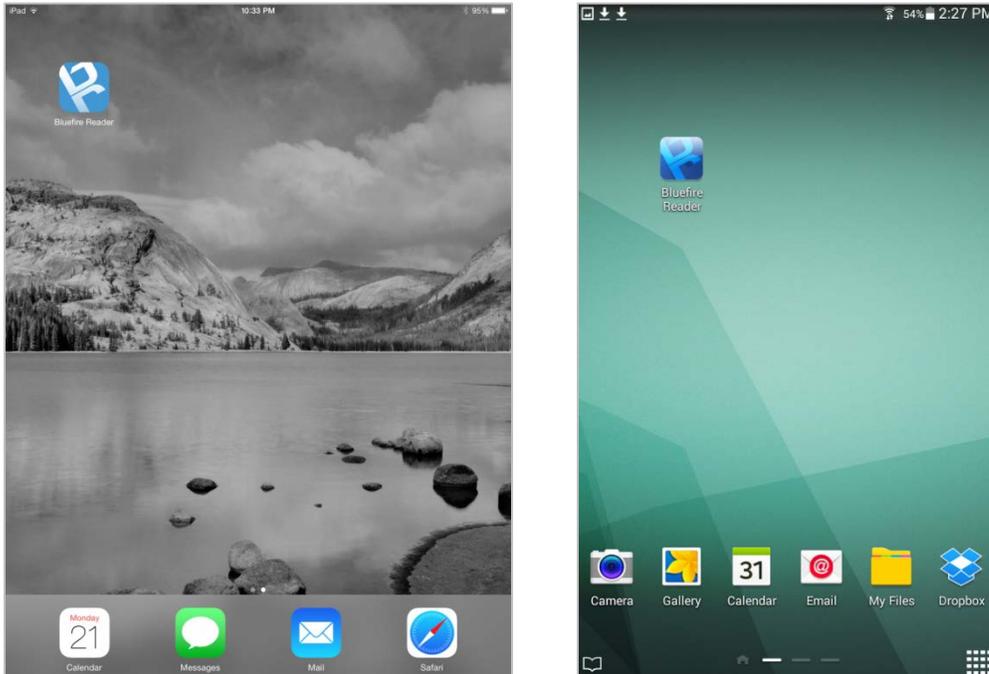

1. For iOS and Android devices, search for the **Bluefire Reader** in the search bar of the Apple app or Google Play store. Select 'Get' or 'Install' to begin downloading.

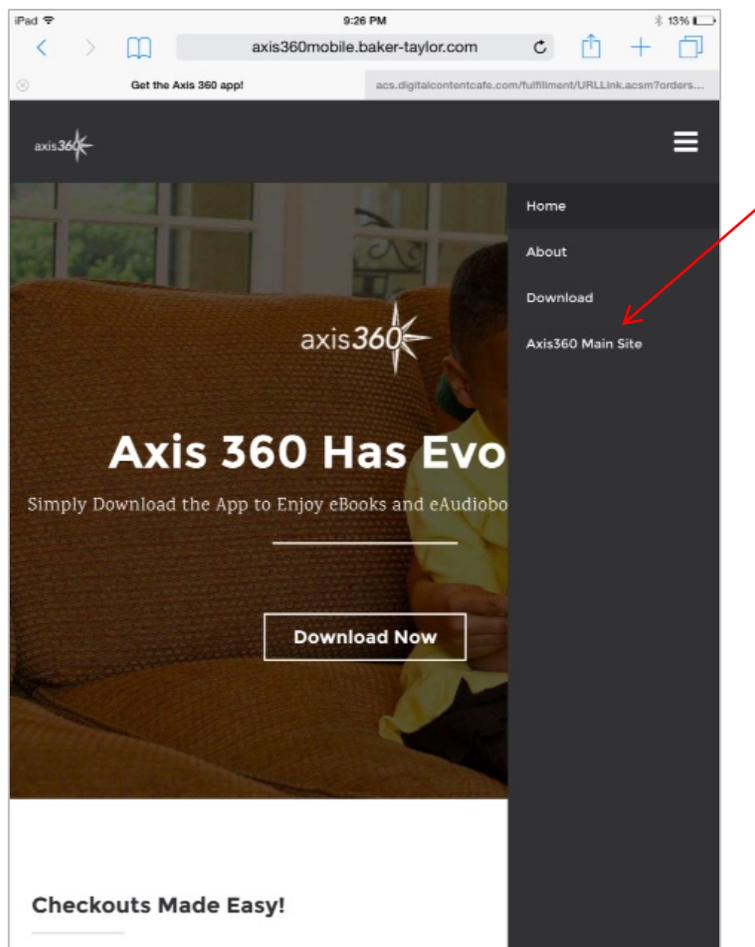

2. Once downloaded, click **Open**. You will be asked to provide your **Adobe ID** and **Password** to authorize the device to read DRM-protected e-books. If you don't have an Adobe ID, you can create one.

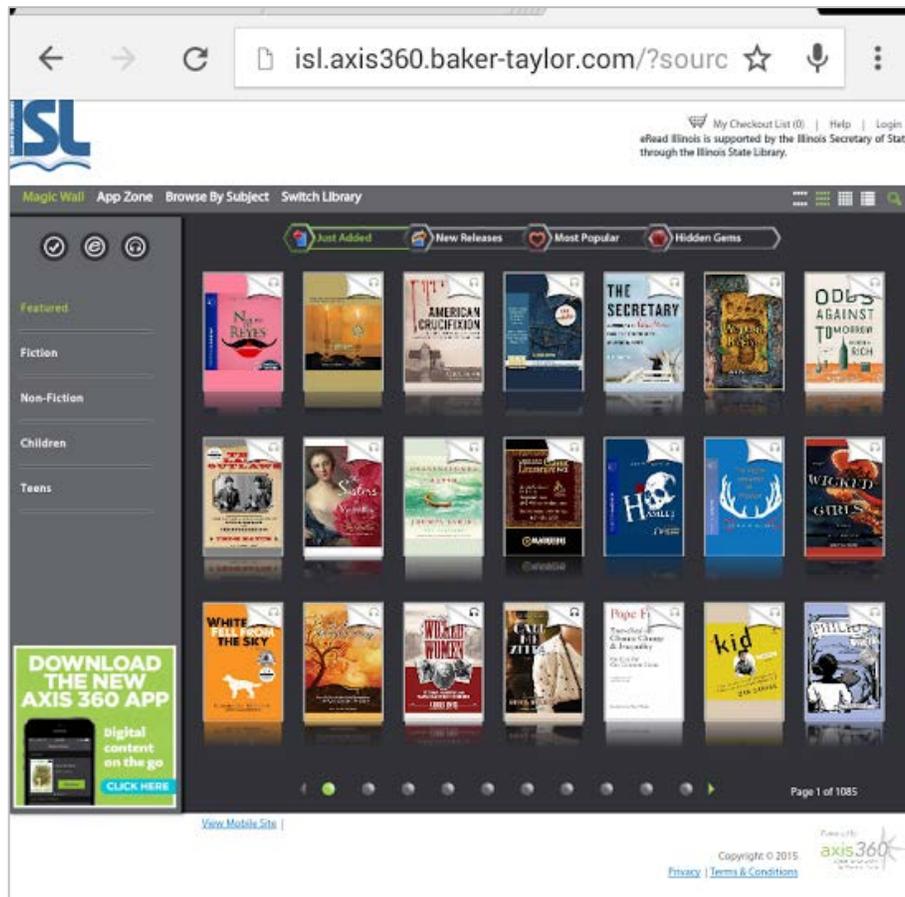

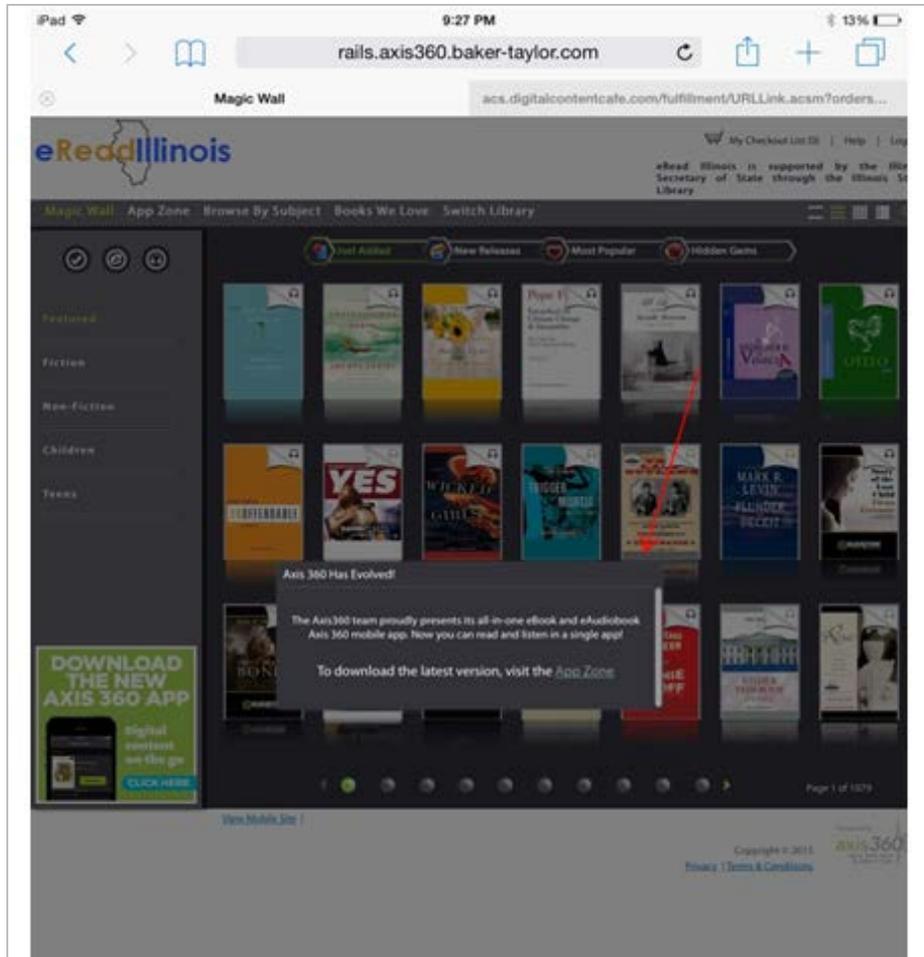

3. You will now have the Bluefire Reader icon on your home screen.

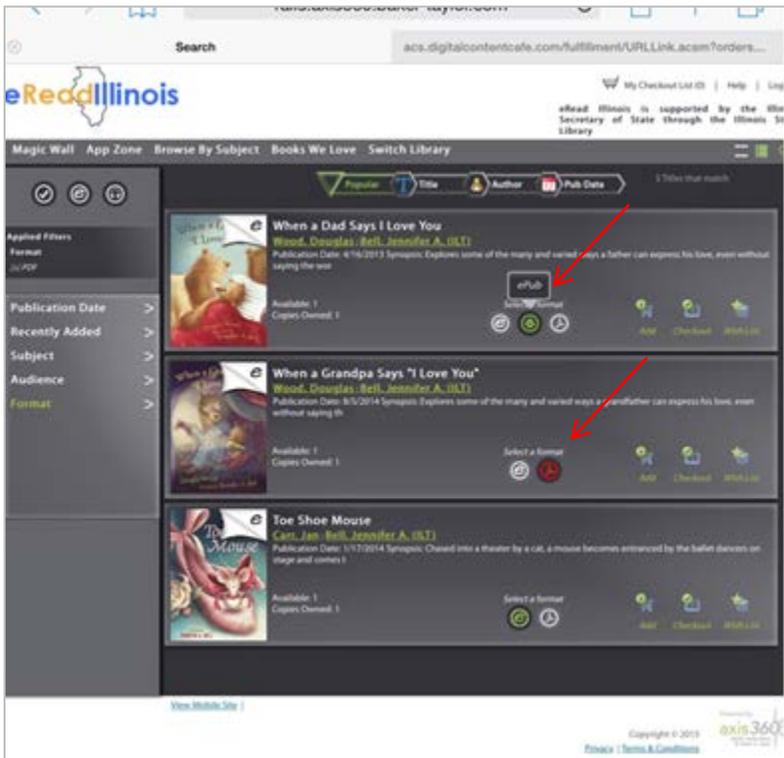

4. In your mobile browser, enter the URL for the website: isl.axis360.baker-taylor.com. This is an Axis360 informational screen now. Click the **Menu** icon in the top right corner. Highlight **Axis360 Main Site**.

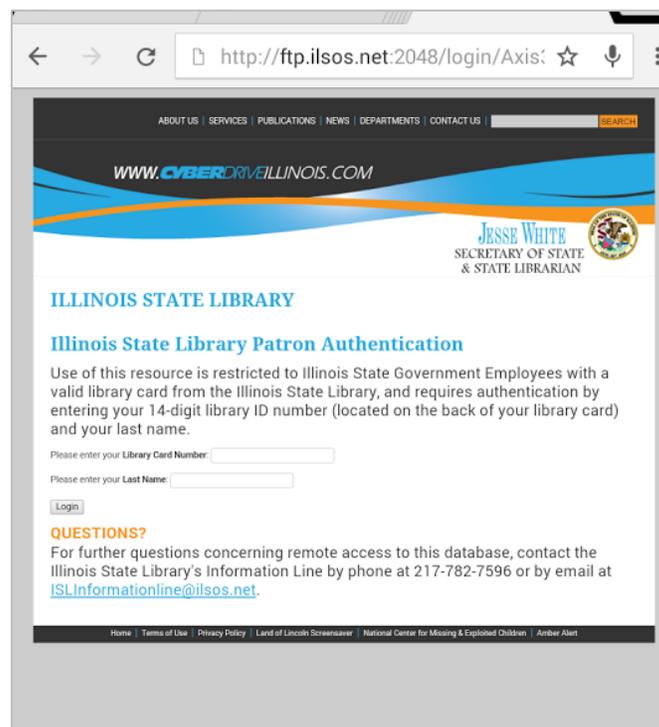

- You will be redirected to the branded Magic Wall. Tap the “Axis 360 Has Evolved!” pop-up in the top right hand corner to close it.

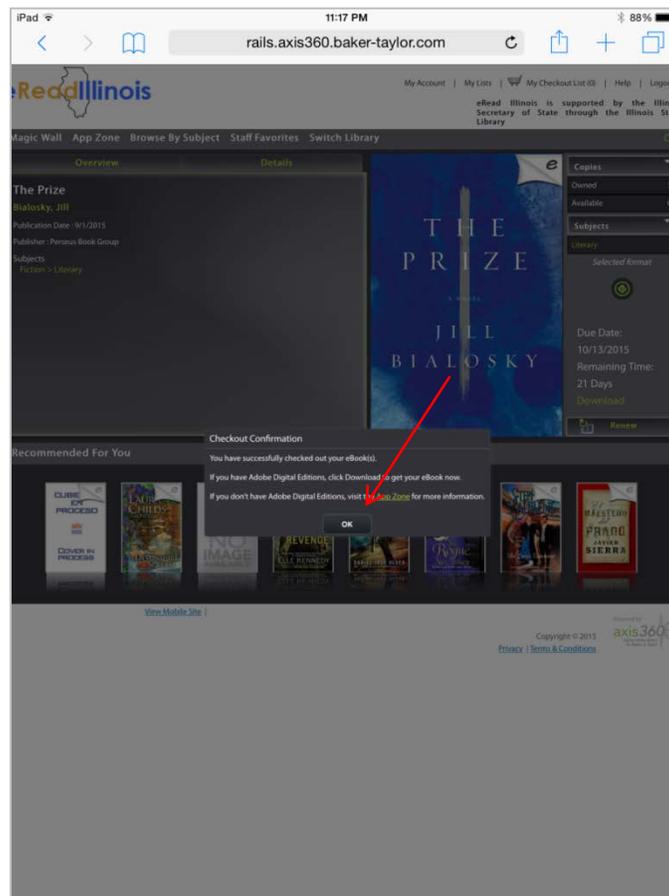

6. Tap the book jacket you want to check out. In the *Select a format* section, choose either the **PDF** format or **ePub** format, then click **Checkout**.

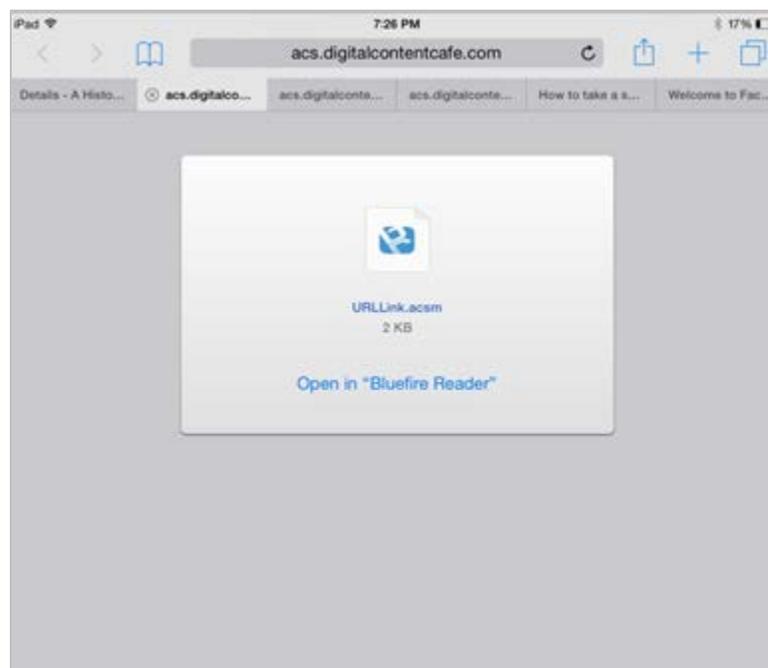

7. At the Illinois State Library Patron Authentication screen, enter your library card number and last name.

8. On the Checkout Confirmation pop-up, click **OK**; then click **Download**.

9. On the following screen, click **Open in "Bluefire Reader"**.

10. Your item will appear on your Bluefire Reader bookshelf. Choose **Read Later** or **Read Now**.
