### **Secretary of State Jesse White Announces New Expedited Title Service**

Secretary of State Jesse White announced beginning January 1, 2010 his office will offer expedited title service on titles, duplicate titles, corrected titles and standard ownership changes.

“This new program allows people who need their title right away to obtain it in an easy and convenient manner,” said White. “The expedited title service is the latest of many innovative initiatives my office has implemented over the years to better serve Illinois residents.”

Expedited title requests submitted by noon will be shipped UPS overnight that day. Requests submitted after noon will be shipped UPS overnight the next day. A \$30 expedited fee will be added to the normal transaction fee.

Titles will be sent to the address on the title, or to a dealer, remitter, or financial institution with interest in the vehicle. In order to qualify for an expedited title, the surrendered title must be a current Illinois title or a new car title that has not been registered in any state. Transactions requiring special documentation (bonds, estate work, etc.) are not eligible.

Applications by mail should be sent by express delivery service to:
