## FAM Statistical Report Penny Severns Family Literacy Program Definitions and Instructions

**Note: To count families on the statistical report, all adults must have been pre-tested and received at least one hour of ABE or ESL instruction.**

**1 Enrolled:** An enrolled family consists of:

- Adult(s) over age 17 who reads, writes, computes or comprehends below the 9th-grade level (GLE) in English, or who tests below student performance level (SPL) 7 in ESL. Testing of the adult is required.
- Child(ren)-at-risk between ages 0 and 16 who lives in the same household as the adult participant. The child(ren) qualifies for service by enrollment in a child-at-risk program.
- Both adults and children must participate in the required program components.
- Adults in adult education or ESL, parenting education, parent-child together activities (PACT) and library services.
- Children in children's education, PACT and library services.

**2 Goal:** The number proposed in your agency's grant application on page FAM 4. Number of Adult Learners and Children to be Instructed.

**3 Unduplicated:** Count each learner once. For adults, in either 1:1 or group instructional setting for either ABE or ESL. For children, either pre-school or school-age instruction.

**4 GLE:** Grade Level Equivalent.

**5 Adult Participation Hours:** Number of hours of instruction in Adult Education, Parenting or PACT multiplied by the number of adults who attended.

**6 Adult Education Hours:** Time an adult learner spends learning with a teacher or tutor.

**7 Parenting:** Instructional hours spent studying issues related to the parental role of adults. Hours are calculated by multiplying by the number of individuals that attended each Parenting session. (Session 1: 10 parents attended a 1-hour parenting workshop for a total of 10 hours of parenting; Session 2: 8 parents attended a 1-hour parenting workshop for a total of 8 hours of parenting; add 10+8 for a total of 18 hours of participation in Parenting.)

**8 PACT:** Parents interactive time spent by the parent and child together teaching and learning. Hours are calculated by multiplying by the number of adults that attended each PACT session. (PACT activity 1: 10 parents attended a 2-hour PACT activity – 10 parents x 2 hours = 20 hours of PACT; Session 2: 8 parents attended a 1-hour PACT activity – 8 individuals x 1 hours = 8 hours of PACT; add 20+8 for a total of 28 hours of participation in PACT.)

**9 Children's Participation Hours:** Instructional time spent by the child learning, including time directly paid for by the grant and donated in-kind to the project by a partner agency. Please include school instruction for school-age children. However, only include children who have participated in all five components of the program.

**10 Library:** Program hours spent in the library or in the presence of a librarian employed by the library partner agency. This does not include independent library use. Hours are not multiplied by each person attending.

**11 Number Who Obtained Library Card:** Number of new library cards obtained for both adults and children during the current fiscal year.
