INTRODUCTION

The Illinois Register is the official state document for publishing public notice of rulemaking activity initiated by State governmental agencies. The table of contents is arranged categorically by rulemaking activity and alphabetically by agency within each category.

Rulemaking activity consists of proposed or adopted new rules; amendments to or repealers of existing rules; and rules promulgated by emergency or preemptory action. Executive Orders and Proclamations issued by the Governor; notices of public information required by State Statute; and activities (meeting agendas; Statements of Objection or Recommendation, etc.) of the Joint Committee on Administrative Rules (JCAR), a legislative oversight committee which monitors the rulemaking activities of State Agencies; is also published in the Register.

The Register is a weekly update of the Illinois Administrative Code (a compilation of the rules adopted by State agencies). The most recent edition of the Code, along with the Register, comprise the most current accounting of State agencies' rulemakings.

The Illinois Register is the property of the State of Illinois, granted by the authority of the Illinois Administrative Procedure Act [5 ILCS 100/1-1, et seq.].

water quality by reduction of sediment and nutrients; and

wildlife habitats for rare and declining species as well as for State and federally listed threatened and endangered species in the Illinois River and Kaskaskia River watersheds, as identified in Exhibit A.

"Conservation Reserve Program" or "CRP" means the federal land conservation program administered by the USDA Farm Service Agency. In exchange for a yearly rental payment, farmers enrolled in the federal CRP agree to remove environmentally sensitive land from agricultural production and plant species that will improve environmental health and quality.

"Department" or "IDNR" means the Illinois Department of Natural Resources.

"Erodibility Index" or "EI" means the technical value calculated by dividing all potential erosion sources by the maximum average soil loss (in tons) that will still allow the current level of crop production in the future. This index is used to determine highly erodible land.

"Farm Service Agency" or "FSA" means the division of USDA that administers many farm commodity, crop insurance, credit, environmental, conservation and emergency assistance programs for farmers and ranchers.

A minimum of 20 acres is required for CRP sign-up. If, however, unless the total eligible acreage held by the landowner is less than 20 acres, all acres are included in the CRP sign-up ~~if, and~~ the acres have been approved by IDNR on the basis of~~due to~~ location and relationship with adjacent enrollments.
- B) If the landowner elects a permanent CREP easement option, additional cropped or non-cropped acres adjacent to acres that satisfy Section 1515.20 criteria, or acres in another CRP sign-up ~~(additional acres)~~ may be eligible for payment for ~~a offered for the~~ permanent CREP easement. (See Section 1515.20.) The landowner will receive a lump sum payment based on the formula set forth for the CREP State bonus payment (see subsection (c)(1)) for permanent easements, using the soil types on the additional acres. A conservation plan will be written and approved by IDNR based on the CREP program and the landowners' conservation goals~~The landowner must agree to a conservation plan written and approved by the SWCD and IDNR and established at the time of enrollment~~ for the total acreage in the permanent easement. However, the landowner will not~~but will~~ receive any~~no~~ CREP State-cost-share payment for any conservation practice previously established on the additional non-cropped acres or other CRP acres. If applicable, the landowner may use another federal~~Federal~~ and/or State cost-share program to implement acceptable conservation practices on additional acres. CPs~~Practices~~ that enhance or create habitat or desired environment as part of an IDNR approved conservation plan may be eligible for cost-share on the enrolled property through IDNR. (See subsection (b).) The ~~criteria~~ eligibility criteria for a permanent easement on additional acres are:

- ii) the acres are adjacent to cropped acres enrolled in a CREP permanent easement or are adjacent to the stream but on the opposite stream bank (same landowner); and
- iii) the acres are already in acceptable conservation practices based on soil types and wildlife benefits or the landowner is willing to put the acres in an acceptable practice at landowner's expense. If applicable, the landowner may use another ~~federal~~Federal and/or State cost-share program to implement the practices. A site visit by appropriate IDNR field staff may be required to determine the acceptability of the additional acres (non-cropped acres or acres in another CRP sign-up) offered for permanent easement.

2) Payment for 15-Year Easement

The payment to a landowner for a 15-year easement will be a lump sum payment that will equal ~~50% percent~~ of the payment for a voluntary, permanent easement, which is determined as follows: (CRP maximum annual soil rental rate, exclusive of any ~~federal~~Federal incentive payments, times 15 years, times ~~30% percent~~ times number of acres enrolled).

3) Payment for 35-Year Easement

The payment to a landowner for a 35-year easement will be a lump sum payment that will equal ~~75% percent~~ of the payment for a voluntary, permanent easement, which is determined as follows: (CRP maximum annual soil rental rate, exclusive of any ~~federal~~Federal incentive payments, times 15 years, times ~~30% percent~~ times number of acres enrolled).

4) For those landowners who amend an existing CREP conservation easement from a 15-year easement or a 35-year easement to a permanent easement, the payment to the landowner will be as follows:

A) Payment for 15-year Easement Amended to a Permanent Easement

DEPARTMENT OF NATURAL RESOURCES

Section 1515.80 Modifications to Grant of Conservation Right and Easementa) Storage Buildings

- 1) Landowners may apply for approval from IDNR to amend Section 3 Restrictions and Covenants of their CREP Grant of Conservation Right and Easement and to build a storage building to aid solely in the implementation of approved conservation practices as described in the conservation plan or in an IDNR approved management plan of the easement. A storage building may be permitted on properties encumbered by a CREP easement if the landowner can demonstrate hardship in implementing the approved conservation practices as follows:
 - A) the landowner does not own any adjacent property or properties in close proximity that could serve as an adequate site for equipment storage; and
 - B) other facts supporting the petition of hardship.
- 2) If IDNR determines that the landowner has successfully demonstrated hardship, as provided in subsection (a)(1), the landowner shall agree that:
 - A) the storage building will not allow for or accommodate human habitation;
 - B) any stored equipment will be used only for on-site maintenance of the CREP easement property;
 - C) the storage building will not be used for bulk storage of flammable or ignitable materials in commercial tanks or containers; and
 - D) the storage building will not be used for any agriculture, livestock, infrastructure, hunting or residential purposes.
- 3) Any storage building permitted and constructed on the CREP easement property shall conform to, or be modified in accordance with, the storage building specifications approved by IDNR.

- 4) The storage building shall be made available for inspection by the SWCD and/or IDNR. If the building is utilized for any purpose other than equipment storage intended for on-site maintenance, IDNR may initiate enforcement proceedings against the landowner for eviction and/or removal of the storage building at the landowner's expense. (See Section 1515.70.)
- b) Public Benefit
- 1) IDNR and/or the SWCD may subordinate the Grant of Conservation Right and Easement and provide a partial release or full release of portions of the CREP easement land for public benefit purposes such as improvements in transportation or public utilities, or mitigation of eminent public danger.
- 2) IDNR may work with the SWCD and the landowner to negotiate reasonable alternatives to the terms of the Grant of Conservation Right and Easement. If no reasonable alternative can be identified, IDNR will work with the SWCD and the landowner to facilitate a release and to recoup transaction costs and current market value of the area of the CREP easement released or subordinated for the public works project.

- a) Licensees required to perform cost estimates, as described in Sections 326.60 and 326.70(b) ~~of this Part~~, shall submit reclamation plans and cost estimates to the Agency for approval prior to securing financial assurance arrangements. The Agency shall allow material described in Section 326.50(b) ~~of this Part~~ as exempt to be excluded from all financial assurance estimates. For licensees described in Section 326.70(b) ~~of this Part~~, the material described in Section 326.50(c) ~~of this Part~~ shall also be excluded from financial assurance estimates. The plan shall describe reclamation actions to be taken in order to terminate the license in accordance with the requirements of 32 Ill. Adm. Code 330. ~~The Agency shall consider, but is not limited to, the following in approving the reclamation plan and cost estimates, and determining the financial assurance requirements for each individual licensee:~~
- b) The reclamation plan and cost estimate shall include the following:
- 1a) The probable extent of contamination resulting from the use or possession of radioactive material as authorized by a radioactive material license at the facility or site, and the probable cost of removal of ~~thesuch~~ contamination in order to terminate the license in accordance with the requirements of 32 Ill. Adm. Code 330. This consideration shall encompass probable contaminating events associated with the licensee's methods or modes of operation and shall be based on factors such as quantities, half-lives, radiation hazards and toxicities, and chemical and physical forms;
- 2b) The extent of possible offsite property damage caused by operation of the facility or site that is to be reclaimed;
- 3e) The ~~costseost~~ and ~~methods;method~~ of the following: removal and disposal of radioactive material and sources of radiation that are or would be generated, stored, processed, or otherwise present at the facility or site; ~~and~~

- A) Removal and disposal of radioactive material and sources of radiation that are or would be generated, stored, processed or otherwise present at the facility or site, including the volume of onsite subsurface material containing residual radioactivity in order to meet 32 Ill. Adm. Code 330.325 requirements for unrestricted use; and
- B) Reclamation of the site or the property where the facility is located and all other properties contaminated by radioactive material authorized by the license in order to meet 32 Ill. Adm. Code 330.325 requirements for unrestricted use;
- 4) The cost of an independent contractor to perform all decommissioning and decontamination activities;
- 5) A contingency factor of 25 percent of the total cost estimate;
- 6) Identification of and justification for using key assumptions contained in the reclamation plan;
- 7) A description of the method of assuring funds for decommissioning from the financial assurance arrangements authorized by Sections 326.100 through 326.160, including means for adjusting cost estimates and associated funding levels periodically over the life of the facility; and
- 8) A certification by the licensee that the financial assurance for decommissioning has been provided in the amount of the cost for decommissioning.
- c) The Agency shall consider, but is not limited to, the requirements of subsection (b) in approving the reclamation plan and cost estimates and determining the financial assurance requirements for each individual licensee.
- d) At the time of license renewal and at intervals not to exceed 3 years, the reclamation funding plan shall be resubmitted to the Agency for approval, with adjustments as necessary to account for changes in costs and the extent of contamination. If the amount of financial assurance will be adjusted downward, this cannot be done until the updated reclamation funding plan is approved. The

reclamation funding plan shall update the information submitted with the original or prior approved plan and shall specifically consider the effect of the following events on decommissioning costs:

- 1) Spills of radioactive material producing additional residual radioactivity in onsite subsurface material;
 - 2) Waste inventory increasing above the amount previously estimated;
 - 3) Waste disposal costs increasing above the amount previously estimated;
 - 4) Facility modifications;
 - 5) Changes in authorized possession limits;
 - 6) Actual remediation costs that exceed the previous cost estimate;
 - 7) Onsite disposal; and
 - 8) Use of a settling pond.
- d) ~~The costs and methods involved in reclamation of the site or the property on which the facility is located and all other properties contaminated by radioactive material authorized by the license.~~

Section 326.90 Financial Assurance Arrangements

This Section shall apply to applicants for specific licenses and general and specific licensees required to secure and file financial assurance arrangements with the Agency.÷

- a) The licensee or applicant shall choose from the financial assurance arrangements specified in Sections 326.100 through 326.160 ~~of this Part.~~
- b) The wording of the financial assurance arrangement shall contain the provisions described in this Part, and may use wording identical to the wording of the corresponding arrangement in Appendices B through F ~~of this Part.~~ No additional restrictions may be placed on any financial assurance arrangement filed with the

Agency.

- c) A signed original of the~~The~~ financial assurance ~~arrangement~~arrangements shall be provided to and filed with the Agency in a dollar amount greater than or equal to either the amount specified in Section 326.70(a) ~~of this Part~~ or the amount specified in a cost estimate approved by the Agency in order to continuously cover the cost estimate for decommissioning.
- 1) The cost estimate and reclamation plan shall be reviewed annually by the licensee or when required by the Agency. The Agency may require the licensee to adjust the value of the cost estimate and reclamation plan to recognize any increases or decreases resulting from inflation or deflation, changes in engineering plans, activities performed and any other condition affecting costs for reclamation. These changes will be required to ensure that sufficient financial assurance amounts are provided and retained to cover cost of reclamation.
 - 2) When a change in activities not requiring a license amendment would raise the cost estimate for reclamation to an amount greater than the amount of the financial assurance arrangements currently filed with the Agency, the licensee shall notify the Agency within 60 days after the increase. This notification shall include submission of revised cost estimates and reclamation plans for Agency review and approval. Upon approval of the revised cost estimates, the licensee may be required to file additional financial assurance arrangements at least equal to this increase.
 - 3) When a license amendment would raise the cost estimate for reclamation to an amount greater than the amount of the financial assurance arrangements currently filed with the Agency, the amendment shall be held until the required financial assurance arrangements are established.
 - 4) When the current reclamation cost estimate decreases, upon the written request of the licensee, and provided that the decrease is verified by the Agency, the Agency shall authorize the reduction in the amount of financial assurance required for the facility to the amount of the approved amended reclamation cost estimate.

AGENCY NOTE: If the license is amended and the licensee no longer meets the criteria for needing a reclamation plan (specified in Section

ILLINOIS EMERGENCY MANAGEMENT AGENCY

NOTICE OF ADOPTED AMENDMENTS

326.60 or 326.70(b) ~~of this Part~~, but still must secure financial assurance in accordance with Section 326.70(a) ~~of this Part~~, the licensee may substitute new arrangements to meet the requirements of Section 326.70(a) ~~of this Part~~.

- 5) For specific licensees, the term of the financial assurance arrangement shall be for the period from issuance of the license until termination of the license by the Agency in accordance with 32 Ill. Adm. Code 330.
 - 6) For general licensees, the term of the financial assurance arrangement shall be for the period from approval of the financial assurance arrangement until all devices covered by the instrument have been properly transferred or disposed of.
 - 7) The Agency will release all financial assurance arrangements not drawn upon pursuant to Section 326.180 ~~of this Part~~, upon termination of the license, or if the license is amended so that the license is no longer subject to financial assurance requirements of Section 326.60 or 326.70 ~~of this Part~~.
- d) Use of Multiple Financial Assurance Arrangements. The licensee or applicant may utilize more than one financial assurance arrangement per facility to satisfy the requirement specified in this Section. Unless agreed otherwise by the Agency and the licensee, financial assurance arrangements may be drawn upon in any order determined by the Agency. The arrangements shall be as specified in Appendices B-F ~~of this Part~~, and the sum value of all arrangements shall be in an amount greater than or equal to either the amount specified in Section 326.70(a) ~~of this Part~~, or the amount specified in a cost estimate approved by the Agency.
- e) Use of a Financial Assurance Arrangement for Multiple Facilities or Multiple Licensees at a Facility. The licensee or applicant may use a financial assurance arrangement specified in Appendices B-F ~~of this Part~~ to meet the requirements of this Section for more than one license, or more than one facility owned or operated in Illinois. The arrangement submitted to the Agency shall include a list indicating, for each facility, the registration numbers, license numbers, names, addresses and amounts of funds for reclamation assured by the arrangement. The amount of funds available through the financial assurance arrangement shall not be less than the aggregate total of the funds that would be available if separate arrangement had been filed and maintained for each license or facility. If more

than one license exists for a facility, the amount of funds for each license shall be specified.

- f) Any applicant or licensee who fulfills the requirements of this Section by obtaining a surety bond or letter of credit will be deemed to be without the required financial assurance arrangement in the event of commencement of bankruptcy proceedings involving the issuing institution, or a suspension, termination, or revocation of the authority of the institution issuing the surety bond or letter of credit to issue ~~those such~~ instruments. The applicant or licensee shall establish other Agency-approved financial assurance arrangements within 30 days after such an event.

applicable license conditions, provisions of the Act, and all applicable rules, regulations and orders of the Agency.

- b) Each person granted a general license by this Part shall provide information required by the Agency to track the location and use of generally-licensed radioactive material. The information shall be in the format prescribed by the Agency, shall be complete and accurate, and shall be due within the time frame indicated on the notification. In accordance with 32 Ill. Adm. Code 310.50, the Agency may inspect and investigate premises, operations or personnel and have access to or copy records:
- 1) Of a person who fails to provide information as required by this subsection (b); or
 - 2) For the purpose of evaluating past, current or potential hazards to the public health, workers or the environment resulting from radiation.
- c) No specific license issued or granted to any person pursuant to this Part and no right to possess or use radioactive material granted to any person by any specific license issued pursuant to this Part shall be transferred, assigned, or in any manner disposed of, either voluntarily or involuntarily, directly or indirectly, through transfer of control of the specific license to any other person unless the Agency, after securing full information, including the identity and technical qualifications of the proposed transferee, first:

ILLINOIS EMERGENCY MANAGEMENT AGENCY

NOTICE OF ADOPTED AMENDMENTS

- d) Upon approval from the Agency under subsection (c)(2) for transfer, assignment or disposal of a specific license, the transferor shall ensure the following information is provided to the transferee:
- 1) The radioactive material license and all documents referenced in the license;
 - 2) Records maintained in accordance with 32 Ill. Adm. Code 340, Subpart L, inventory records, and any other records required by subsections (k) and (l); and
 - 3) Any other information required by the Agency pursuant to the approval granted.
- e) Each person licensed by the Agency pursuant to this Part shall confine use and possession of the material licensed to the locations and purposes authorized in the license and, to the extent practical, conduct operations to minimize the introduction of residual radioactivity into the site and/or facility of operation, including the subsurface.
- f) Each person issued a specific license pursuant to this Part shall maintain the license in accordance with the requirements of Section 330.320.
- g) When temporary jobsites are authorized on a specific license, radioactive material may be used at temporary jobsites, in areas not under exclusive federal jurisdiction, throughout the State of Illinois.

AGENCY NOTE: Authorization for use of byproduct radioactive materials at jobsites under exclusive federal jurisdiction must be obtained from NRC, either by filing an NRC Form-241 in accordance with 10 CFR 150.20(b), "Recognition of Agreement State Licenses", or by applying for a specific license from NRC. Also, specific licenses issued by the Agency do not authorize activities in other states. Before radioactive materials can be used at a temporary jobsite in another state, a license must be obtained from the appropriate state or federal regulatory agency.

- h) Each person issued a specific license pursuant to this Part shall apply for an appropriate license amendment not later than 30 days after a Radiation Safety

ILLINOIS EMERGENCY MANAGEMENT AGENCY

NOTICE OF ADOPTED AMENDMENTS

Officer permanently discontinues performance of duties under the license.

i) Notification

- 1) Each specific licensee shall notify the Agency in writing not later than 60 days after principal activities involving the use of radioactive materials, other than sealed sources, at the site or in a separate building or outdoor area have not occurred for a period of 2 years, and the licensee has not decontaminated the site or area.

AGENCY NOTE: Principal activities are those originally authorized on the license for that site or location. For example, licensees could not store radioactive material in an otherwise unused building to avoid end-of-use decommissioning, unless storage was a principal activity for that building.

- 2) This notification shall include a description of the location of the site, building or outdoor area and a plan for reclaiming or decommissioning these facilities (including a proposed schedule) for release in accordance with applicable regulations. The notification shall include an evaluation of any changes, if required, to financial assurance arrangements submitted in accordance with 32 Ill. Adm. Code 326. Upon approval of the plan by the Agency, implementation shall begin within 6 months and be completed within 24 months after approval (unless the Agency approves a different schedule).

 - F) The name of the person in possession and control of the licensed radiation source if the licensee no longer maintains possession or control; and
 - G) Whether the Agency has been named in the bankruptcy petition either as a creditor or in some other capacity.
- k) Recordkeeping Requirements for Potentially Contaminated Areas. Except for areas containing only sealed sources, provided the sources have not leaked, or no contamination remains after any leakage, and except for areas where only radioactive materials with half-lives less than 90 days were used or stored, each specific licensee shall keep:
- 1) Records of spills or other unusual occurrences involving the spread of contamination in and around the facility, equipment or site, when contamination remains after any cleanup procedures or when there is

reasonable likelihood the contaminants may have spread to inaccessible areas (as in the case of possible seepage into porous materials such as concrete). These records must include the location and any known information on identification of involved radionuclides, quantities, chemical and physical forms, and concentrations.

- 2) Drawings and subsequent modifications of structures and equipment in restricted areas where radioactive materials are used or stored, and of locations of possible inaccessible contamination, such as buried or enclosed pipes, that may be subject to contamination. If required drawings are referenced, each relevant document need not be indexed individually. If drawings are not available, the licensee shall substitute appropriate records of available information concerning these areas and locations.
- 1) Each licensee shall maintain the following records, if applicable:
 - 1) Records of all areas where low-level radioactive wastes were buried, including areas previously authorized by and documented pursuant to 10 CFR 20.2108.
 - 2) Records of the Agency-approved cost estimate for the amount certified for reclaiming and the associated reclamation plan, for licensees required by 32 Ill. Adm. Code 326 to secure financial assurance arrangements.
 - 3) All records required to be maintained pursuant to 32 Ill. Adm. Code Chapter II, Subchapters b and d.
 - m) To lawfully obtain termination for a specific license, each licensee shall meet the termination requirements of this Part.

Section 332.260 Financial Surety Requirements

ILLINOIS EMERGENCY MANAGEMENT AGENCY

NOTICE OF ADOPTED AMENDMENTS

- a) The license applicant shall establish financial surety arrangements, prior to the Agency authorization of commencement of operations, to assure the availability of sufficient funds for decontaminating, decommissioning and reclaiming the source material milling facility, including reclamation of any tailings or waste disposal areas, and licensed site, as well as the stabilization and closure of the byproduct material disposal site and the long-term care payment.
- b) An acceptable surety arrangement may consist of cash or negotiable securities deposited with the Agency, irrevocable assignments of savings or certificates of deposit, or the deposit of an instrument executed by the applicant or licensee and a corporate surety or financial institution with the Agency designated as the beneficiary. However, self insurance, or any arrangement that essentially constitutes self insurance (e.g., a contract with a State or federal agency) will not satisfy the surety requirement since this provides no additional assurance other than that which already exists through license requirements. The value of the deposit shall be equal to or greater than the amount of the surety required by subsection (c). Any surety arrangement must be available in Illinois subject to judicial process and execution in the event required for the purposes set forth in this Part.
- c) The amount of funds to be ensured by ~~thesueh~~ surety arrangements shall be greater than or equal to the Agency approved decommissioning cost estimates. Each decommissioning cost estimate shall be submitted for review and Agency approval and shall contain for:
- 1) A detailed cost estimate for the decontamination, decommissioning, restoration and reclamation of buildings and the licensed site, stabilization and closure of the disposal area and the requirements of Section 332.270 for the long-term care payment in the amount reflecting:
- A) The cost of an independent contractor to perform all decommissioning activities;
- B) The cost of meeting Section 332.150 for unrestricted use;
- C) The volume of onsite subsurface material containing residual radioactivity that will require remediation; and

ILLINOIS EMERGENCY MANAGEMENT AGENCY

NOTICE OF ADOPTED AMENDMENTS

- D) A contingency factor of 25 percent of the total decommissioning cost estimate.
- 2) Identification of and justification for using the key assumptions contained in the decommissioning cost estimate; stabilization and closure of the disposal area; and
- 3) A description of the method outlined in subsection (b) that will be used to assure funds for decommissioning, including means for adjusting cost estimates and associated funding levels periodically over the life of the facility; the requirements of Section 332.270 for the long-term care payment.
- 4) A certification by the licensee that financial assurance for decommissioning has been provided in the amount of the cost estimate for decommissioning; and
- 5) A signed original of the financial surety instrument obtained to satisfy the requirements of subsection (b), unless a previously submitted and accepted financial surety instrument continues to cover the cost estimate for decommissioning.
- d) ~~In establishing specific surety arrangements, the applicant's or licensee's cost estimates shall take into account the total costs that would be incurred if an independent contractor were hired to perform the work identified in subsections (c)(1) and (2).~~
- de) To avoid duplication and expense, the Agency will accept surety arrangements that have been consolidated with surety arrangements established to meet requirements of other agencies in Illinois for decontamination, reclamation, restoration and disposal, if the applicant demonstrates, in writing, that the surety provides the same or a greater degree of protection for the licensed site, provided that the arrangements are adequate to satisfy these requirements and that the portion of the surety that covers the decommissioning, decontamination, reclamation and stabilization of the site and the long-term site surveillance and control~~care payment~~ is specifically identified and committed for use in accomplishing these activities.
- ef) The applicant's or licensee's surety arrangements and decommissioning cost

ILLINOIS EMERGENCY MANAGEMENT AGENCY

NOTICE OF ADOPTED AMENDMENTS

estimate will be reviewed annually and at the time of license renewal by the Agency to assure that sufficient funds will be available for completion of the closure plan if the work was to be performed by an independent contractor. The amount of surety shall be adjusted to recognize any increases or decreases resulting from inflation, changes in engineering plans, activities performed, spills, leakage or migration of radioactive material producing additional contamination in onsite subsurface material that must be remediated to meet applicable remediation criteria, waste inventory increasing above the amount previously estimated, waste disposal cost increasing above the amount previously estimated, facility modifications, changes in authorized possession limits, actual remediation costs that exceed the previous cost estimate, onsite disposal, use of settling ponds, and any other conditions affecting costs. Financial surety shall be sufficient at all times to cover the cost of decommissioning and reclamation of the areas that are expected to be disturbed before the next license renewal. Regardless of whether closure is phased through the life of the operation or takes place at the end of operations, an appropriatea portion of the surety shall be retained until final compliance with the closure plan is determined by the Agency. The appropriate portion of the surety to be retained shall be determined by the Agency based on review and analysis of the decommissioning cost estimate.

- f.g) The term of the surety mechanism shall be open-ended, unless the licensee proposes another arrangement that provides an equivalent or greater level of assurance. The surety instrument shall provide that the surety mechanism will be automatically renewed and will not be cancelled unless the surety notifies both the Agency and the licensee at least 90 days prior to cancellation. Upon notice by the surety, the licensee shall submit to the Agency an acceptable replacement surety within 30 days after the notice. Proof of forfeiture shall not be necessary to collect the surety so that, in the event the licensee could not provide an acceptable replacement surety within the required time, the surety shall be automatically collected prior to its expiration or cancellation.

NOTICE OF ADOPTED AMENDMENTS

SUBPART F: SURVEYS AND MONITORING

Section 340.510 General

- a) Each licensee or registrant shall make, or cause to be made, surveys, including surveys of the subsurface, where appropriate:
 - 1) That demonstrate compliance with this Part; and
 - 2) That evaluate:
 - A) The extent of radiation levels;
 - B) Concentrations or quantities of radioactive material; and
 - C) The potential radiological hazards of radiation levels and residual radioactivity detected~~that could be present~~.
- b) The licensee or registrant shall ensure that instruments and equipment used for quantitative radiation measurements (e.g., dose rate and effluent monitoring) are calibrated at intervals not to exceed 12 months for the radiation measured or at alternative intervals specified in regulations of the Agency, the U.S. Nuclear Regulatory Commission, an Agreement State or a Licensing State. To satisfy this requirement, the licensee shall:
 - 1) Post a legible note on the instrument showing the date of calibration; and
 - 2) Ensure that instrument calibrations are performed by persons specifically licensed by the Agency, the U.S. Nuclear Regulatory Commission, an Agreement State or a Licensing State to perform such calibrations.
- c) On each day of use, prior to using an instrument to perform required monitoring, the licensee or registrant shall verify that the instrument is operational. Operational checks for radiation measurement or radiation detection instruments shall include verification of response to a source of radiation.
- d) Except for those dosimeters used to measure the dose to any extremity, personnel dosimeters that require processing to determine the radiation dose and that are used by licensees or registrants to comply with Section 340.210 ~~of this Part~~, with

other applicable provisions of 32 Ill. Adm. Code: Chapter II, Subchapters b and d or with conditions specified in a license shall be processed and evaluated by a qualified dosimetry processor. A dosimetry processor is qualified if:

- 1) It holds current personnel dosimetry accreditation from the National Voluntary Laboratory Accreditation Program (NVLAP) of the National Institute of Standards and Technology; and
 - 2) It is approved by NVLAP for the type of radiation or radiations that most closely approximate the type of radiation or radiations for which the individual wearing the dosimeter is monitored.
- e) A licensee or registrant shall obtain Agency approval prior to using pocket ionization chambers or electronic dosimeters to determine radiation dose, to comply with Section 340.210 ~~of this Part~~, or with other applicable provisions of 32 Ill. Adm. Code: Chapter II, Subchapters b and d or with conditions specified in a license. The Agency will grant approval provided the licensee or registrant submits information describing the type and range of the dosimeters and describes a program to ensure the accuracy, reliability, precision and security of the dosimetry data.
- f) The licensee or registrant shall ensure that adequate precautions are taken to prevent deceptive exposure of an individual monitoring device.

- 7) Do these rulemakings contain incorporations by reference? No
- 8) A copy of the adopted rules, including any material incorporated by reference, is on file in the Agency's principal office and is available for public inspection.
- 9) Date Notice of Proposal published in the *Illinois Register*: 39 Ill. Reg. 9759; July 17, 2015
- 10) Has JCAR issued a Statement of Objection to this Rulemaking? No
- 11) Differences between Proposal and Final Version: In Section 1150.10, the current language for completion of the education requirements as specified in the National Council of Architectural Registration Boards (NCARB) Education Standard (1150.10 (a)(1)(B)) has been moved up in the same Section so that it will still be valid after January 1, 2016. This change also updates the current Education Evaluation Services for Architects (EESA) requirements to have an NCARB record before EESA will allow an evaluation-put in place in 2015.

DEPARTMENT OF FINANCIAL AND PROFESSIONAL REGULATION

NOTICE OF ADOPTED AMENDMENTS

In Section 1150.60, the adopted version eliminates certain specifics relating to proof of qualifications for applicants for licensure by endorsement and changes them to the "NCARB Certificate Guidelines" in order to simplify in the event of future changes to NCARB agreements. Specifying the Broadly Experienced Architect (BEA), Broadly Experienced Foreign Architect (BEFA) or Mutual Recognition Agreement (MRA) will still require additional changes in the future, especially since the names of these programs are due to be changed within the next year.

- 12) Have all the changes agreed upon by the Agency and JCAR been made as indicated in the agreement letter issued by JCAR? Yes
- 13) Will this rulemaking replace any emergency rule currently in effect? No
- 14) Are there any rulemakings pending on this Part? No
- 15) Summary and Purpose of Rulemaking: PA 98-993 allowed an exemption from having to take the currently required Test of English as a Foreign Language (TOEFL-iBT) exam for those who have subsequently earned an advanced degree from an accredited institution in the United States. This adopted rulemaking codified that provision in the rules. It made changes to the Intern Development Program (IDP) of the NCARB requirements to meet the new IDP 2.0/NCARB guidelines and it also added historical data for extension of the pre-professional degree.

The adopted amendments also allowed certification from NCARB for meeting Canadian requirements to be approved without looking behind the "Blue Cover" Section 1150.60. They also allowed electronic signatures per the PA 98-289 and made changes to the late restoration fee to be in compliance with the late fee in Section 1150.75. The adopted amendments also added a provision which states that pursuant to PA 98-288, the acceptance of a pre-professional degree for licensure was extended to January 1, 2016. After that date, approvals to sit for the Architecture Registration Exams (ARE) or for licensure requires a National Architectural Accrediting Board (NAAB) accredited professional degree. The adopted amendments also eliminated current language for partnerships that are covered under the Professional Design Firm requirements and they also changed/updated the address of the Education Evaluation Services for Architects (EESA).

- 9) Date Notice of Proposal published in the *Illinois Register*: 38 Ill. Reg. 22373; December 5, 2014
- 10) Has JCAR issued a Statement of Objection to this rulemaking? No
- 11) Differences between Proposal and Final Version: The dates for applying for the pilot program and for the program itself have been changed. Various references to nursing homes were changed to "skilled nursing facilities" and references to "medication aides" were made consistent. In Section 1300.610 of the adopted version, the Department added the Health & Safety Institute (HSI) as an approved provider of the required CPR certification. In that same Section of the adopted version, clarification is made that the CNA must provide evidence of good standing on the Illinois Department of Public Health (IDPH) Health Care Worker Registry. In terms of proof of the 2,000 hour requirement, the Division will provide a form as part of the application. In Section 1300.620 of the adopted version, clarification is made that applicants failing to pass the exam within one year must retake the education program before again being allowed to take the exam; failure to pass the exam within 3 years will result in denial of the application.

In Section 1300.630 of the adopted version, clarifications are made that the Five Star Quality Rating shall be at the time of application and that an RN be on duty to supervise when the medication aide is dispensing medication. In addition, the facilities must be free from "type B violation or above" deficiencies, and the names and locations of approved qualified facilities will be submitted to IDPH and be available on the Division's website. The standards for termination from the pilot program in Section 1300.640 have also been tightened in the adopted version. In Section 1300.660 of the adopted version, the Division has added that the program administrator must be an Illinois licensed RN with at least a baccalaureate degree in nursing and 2 years clinical experience in a long term care facility, and that a facility may use the National Council of State Boards of Nursing (NCSBN) Medication Assistant-Certified (MA-C) model curriculum unless it conflicts with the Act or rules. Under the scope of practice in Section 1300.670 of the adopted version, the Division has agreed to remove "with or without compensation" and to clarify that an RN be on duty whenever a medication aide is administering medication. Finally, Section 1300.680 in the adopted version has been amended to clarify the written quarterly reports that are to be submitted by the qualified facilities and to clarify that the Division report after the end of the pilot program is to be submitted to the General Assembly and may include consultation with individuals from institutions of higher learning. The adopted version also removed the requirement in the proposed version that records provided to the Division or IDPH be certified.

- 15) Summary and Purpose of Rulemaking: PA 98-990, effective August 18, 2014, mandated the Department create and administer a Licensed Medication Aide Pilot Program; this adopted rule implements this pilot program. DEPARTMENT OF CENTRAL MANAGEMENT SERVICES

NOTICE OF PEREMPTORY AMENDMENT

- 1) Heading of the Part: Pay Plan
- 2) Code Citation: 80 Ill. Adm. Code 310
- 3) Section Number: 310.APPENDIX A TABLE F Peremptory Action: Amendment
- 4) Reference to the Specific State or Federal Court Order, Federal Rule or Statute which Requires this Peremptory Rulemaking: The Department of Central Management Services is amending the Pay Plan (80 Ill. Adm. Code 310) Section 310.Appendix A Table F to reflect the Agreement between the Departments of Central Management Services, Corrections, Human Services, State Police, Veterans' Affairs, Natural Resources and Transportation and the Teamsters Downstate Illinois State Employee Negotiating Committee signed October 28, 2015. The Agreement is effective July 1, 2015 through June 30, 2019. The changes noted here are in the Agreement's 10.1, 10.7, 12.27(d), 12.28(b) and Side Letter In-Hire Rates.

Effective July 1, 2015, all current rates that are in effect are frozen for the duration of the Agreement including in-hire rates.

A Merit Incentive Program (MIP) is to be developed and implemented to reward and incentivize high-performing employees or a group or unit's performance. The State may create a MIP annual bonus fund for payout to those individuals deemed high performers or for a group's and/or unit's level of performance for the specific group and/or unit. Payment from the MIP annual bonus fund is based on the satisfaction of performance standards to be developed by the State in consultation with the Union. The compensation either for a group and/or unit or an individual shall be considered a one-time bonus and will be offered only as a non-pensionable incentive, and that any employee who accepts merit pay compensation does so voluntarily and with the knowledge and on the express condition that the merit pay compensation will not be included in any pension calculations.

Additionally, as a part of overall efforts to improve efficiency of state operations and align the incentives of the State with its employees, the State may develop gain sharing programs. Under gain sharing programs, employees or departments may propose initiatives to achieve substantial savings for the State. Upon realization of the savings, the State may elect to return a portion of this savings to the employees who participated in the identified initiative. The compensation either for a group and/or unit or an individual shall be considered a one-time bonus and will be offered only as a non-

pensionable incentive, and that any employee who accepts merit pay compensation does so voluntarily and with the knowledge and on the express condition that the merit pay compensation will not be included in any pension calculations.

In each contract year in which a MIP is created, no less than 25% of the employees subject to the Agreement will receive some form of merit compensation under the programs. Funding for the performance bonuses is subject to annual approval as a part of the State's overall budget.

The State will develop specific policies for both of these programs and will give the Union an opportunity to review and comment on the policies prior to their implementation. The State's intent is to develop policies that will reward employees or units of employees based on specific achievements and to prevent payouts that are influenced by favoritism, politics, or other purely subjective criteria. Compliance with the policies for both of these programs shall be subject to the grievance and arbitration procedure. The exercise of the rights by management may not conflict with the provisions of the Agreement, except that it is understood that compensation payable pursuant to the programs shall be performance-based only. Moreover, an employee's failure or refusal to participate in this program may not be grounds for any form of discipline.

Effective January 1, 2016, employees newly hired into the bargaining unit shall receive a vacation payout of no more than 45 days. This is for payment in lieu of vacation and for vacation benefits on death of employee.

The in-hire rates as amended to 75% for the 2008 – 2012 Collective Bargaining Agreement remain in effect. All classification shall have a 75% in-hire rate as agreed to in the 2012-2015 Agreement. Effective July 1, 2015, all employees' pay is frozen at the current rate for the duration of the July 1, 2015 through June 30, 2019 Agreement. Employees who are promoted and in the in-hire progression will promote to the next step of the in-hire rate of the higher classification and then frozen at the new in-hire rate. Temporary assignments to a higher-level classification shall also be calculated at the in-hire rate. All employees receiving the full scale rate will be promoted to the full-scale rate of the next higher classification, upon promotion.

hours, or snow or ice season.

Clothing Allowance – Effective July 1, 2011, the clothing allowance for Highway Maintainers, Highway Maintenance Lead Workers, Highway Maintenance Lead Lead Workers, Deck Hands and Power Shovel Operator Maintenance employees increases to \$200. Effective July 1, 2011, the clothing allowance for all other titles increases to \$100. Effective July 1, 2013, employees who are required to wear steel-toe safety shoes shall receive an additional \$100 clothing allowance. The total will not exceed \$200 per contract year.

Rates and Movements – Effective July 1, 2015, all current rates that are in effect will be frozen for the duration of the agreement (including contractual in-hire movements)

Merit Incentive Program and Gain Sharing Programs – The parties agree to develop and implement a merit incentive program to reward and incentivize high-performing employees, or a group's/unit's performance. As a part of such efforts, the Employer may create an annual bonus fund for payout to those individuals deemed high performers or for a group's/unit's level of performance for the specific group/unit. Payment from this bonus fund will be based on the satisfaction of performance standards to be developed by the Employer in consultation with the Union. Such compensation either for a group/unit or an individual shall be considered a one-time bonus and will be offered only as a non-pensionable incentive, and that any employee who accepts merit pay compensation does so voluntarily and with the knowledge and on the express condition that the merit pay compensation will not be included in any pension calculations.

Additionally, as a part of overall efforts to improve efficiency of state operations and align the incentives of the Employer with its employees, the Employer may develop gain sharing programs. Under such programs, employees or departments may propose initiatives that would achieve substantial savings for the State. Upon realization of such savings, the Employer may elect to return a portion of this savings to the employees who participated in the identified initiative. Such compensation either for a group/unit or an individual shall be considered a one-time bonus and will be offered only as a non-pensionable incentive, and that any employee who accepts merit pay compensation does so voluntarily and with the knowledge and on the express condition that the merit pay compensation will not be included in any pension calculations.

DEPARTMENT OF CENTRAL MANAGEMENT SERVICES

NOTICE OF PEREMPTORY AMENDMENT

In each contract year in which a merit incentive program is created, no less than 25% of the employees subject to this agreement will receive some form of merit compensation under such programs. Funding for these performance bonuses is subject to annual approval as a part of the State's overall budget.

The Employer will develop specific policies for both of these programs and will give the Union an opportunity to review and comment on such policies prior to their implementation. The Employer's intent is to develop policies that will reward employees or units of employees based on specific achievements and to prevent payouts that are influenced by favoritism, politics, or other purely subjective criteria. Compliance with the policies for both of these programs shall be subject to the grievance and arbitration procedure.

The exercise of such rights by management may not conflict with the provisions of this agreement, except that it is understood that compensation payable pursuant to such programs shall be performance-based only. Moreover, an employee's failure or refusal to participate in this program may not be grounds for any form of discipline.

Restriction Payment in Lieu of Vacation and Vacation Benefits on Death of Employee – Effective January 1, 2016, employees newly-hired into the bargaining unit shall be entitled to a vacation payout of no more than 45 days.

In-Hire Rate – The parties agree the in-hire rate as was amended to 75% for the 2008-2012 Collective Bargaining Agreement shall continue in effect. The parties also agree that all classifications shall have a 75% in-hire rate as agreed to in the 2012-2015 agreement, however, effective July 1, 2015 all employees will be frozen at their current rate for the duration of this agreement. Employees within this bargaining unit who are promoted and are in the in-hire progression will promote to the next step of the in-hire rate of the higher classification and would then be frozen at that new in-hire rate. In addition, temporary assignments to higher-level classifications shall also be calculated at the in-hire rates. All full-scale employees will be promoted to the full-scale rate of the next higher classifications, upon promotion. Stipend – Employees shall receive a one-time 2.25% stipend that will not be added into the base salary effective June 1, 2013. Permanent part-time employees will be paid a prorated stipend based upon their regular work schedule, which will not be added into the base salary. To be eligible for the stipend, the employee must be on payroll June 1, 2013. Employees on leave of absence who would otherwise be eligible will receive the lump sum stipend to which they are entitled upon return to the active payroll during fiscal year 2013. An employee who worked during fiscal year 2013 (July 1, 2012 through
