PUBLIC ACT 93-0845
(Senate Bill No. 2349)

Section 5. The School Code is amended by changing Sections 2-3.33 and 2-3.84 as follows:

(105 ILCS 5/2-3.33) (from Ch. 122, par. 2-3.33)
Sec. 2-3.33. Recomputation of claims. To recompute within 3 years from the final date for filing of a claim any claim for reimbursement to any school district if the claim has been found to be incorrect and to adjust subsequent claims accordingly, and to recompute and adjust any such claims within 6 years from the final date for filing when there has been an adverse court or administrative agency decision on the merits affecting the tax revenues of the school district. However, no such adjustment shall be made regarding equalized assessed valuation unless the district's equalized assessed valuation is changed by greater than $250,000 or 2%.

Except in the case of an adverse court or administrative agency decision no recomputation of a State aid claim shall be made pursuant to this Section as a result of a reduction in the assessed valuation of a school district from the assessed valuation of the district reported to the State Board of Education by the Department of Revenue under Section 18-8.05 unless the requirements of Section 16-15 of the Property Tax Code and Section 2-3.84 of this Code Act are complied with in all respects.

This paragraph applies to all requests for recomputation of a general State aid claim received after June 30, 2003. In recomputing a general State aid claim that was originally calculated using an extension
limitation equalized assessed valuation under paragraph (3) of subsection (G) of Section 18-8.05 of this Code, a qualifying reduction in equalized assessed valuation shall be deducted from the extension limitation equalized assessed valuation that was used in calculating the original claim.

If it is necessary to prorate claims under this paragraph, then that portion of each prorated claim that is approved but not paid in the current fiscal year may be resubmitted as a valid claim in the following fiscal year.

From the total amount of general State aid to be provided to districts, adjustments under this Section together with adjustments as a result of recomputation under Section 2-3.33 must not exceed $25 million, in the aggregate for all districts under both Sections combined, of the general State aid appropriation in any fiscal year; if necessary, amounts shall be prorated among districts. If it is necessary to prorate claims under this paragraph, then that portion of each prorated claim that is approved but not paid in the current fiscal year may be resubmitted as a valid claim in the following fiscal year.

Space shall be provided upon the face of each registration record card for the notation of the voting record of the person registered thereon.

Each registration record card shall be numbered according to precincts, and may be serially or otherwise marked for identification in such manner as the county clerk may determine.

The registration cards shall be deemed public records and shall be open to inspection during regular business hours, except during the 27 days immediately preceding any election. Copies of the tapes, discs, or other electronic data shall be furnished by the county clerk to local political committees and governmental entities at their request and at a reasonable cost. Reasonable cost of the tapes, discs, et cetera for this purpose would be the cost of duplication plus 15% for administration. The individual representing a political committee requesting copies of such tapes shall make a sworn affidavit that the information shall be used only for bona fide political purposes, including by or for candidates for office or incumbent office holders. Such tapes, discs or other electronic data shall not be used under any circumstances by any political committee or individuals for purposes of commercial solicitation or other business purposes. If such tapes contain information on county residents related to the operations of county government in addition to registration information, that information shall not be used under any circumstances for commercial solicitation or other business purposes. (10 ILCS 5/7-8) (from Ch. 46, par. 7-8)

Sec. 7-8. The State central committee shall be composed of one or two members from each congressional district in the State and shall be elected as follows:

State Central Committee

(a) Within 30 days after the effective date of this amendatory Act of 1983 the State central committee of each political party shall certify to the State Board of Elections which of the following alternatives it wishes to apply to the State central committee of that party.

Alternative A. At the primary held on the third Tuesday in March 1970, and at the primary held every 4 years thereafter, each primary elector may vote for one candidate of his party for member of the State central committee for the congressional district in which he resides. The candidate receiving the highest number of votes shall be declared elected State
central committeeman from the district. A political party may, in lieu of the foregoing, by a majority vote of delegates at any State convention of such party, determine to thereafter elect the State central committeemen in the manner following:

At the county convention held by such political party State central committeemen shall be elected in the same manner as provided in this Article for the election of officers of the county central committee, and such election shall follow the election of officers of the county central committee. Each elected ward, township or precinct committeeman shall cast as his vote one vote for each ballot voted in his ward, township, part of a township or precinct in the last preceding primary election of his political party. In the case of a county lying partially within one congressional district and partially within another congressional district, each ward, township or precinct committeeman shall vote only with respect to the congressional district in which his ward, township, part of a township or precinct is located. In the case of a congressional district which encompasses more than one county, each ward, township or precinct committeeman residing within the congressional district shall cast as his vote one vote for each ballot voted in his ward, township, part of a township or precinct in the last preceding primary election of his political party for one candidate of his party for member of the State central committee for the congressional district in which he resides and the Chairman of the county central committee shall report the results of the election to the State Board of Elections. The State Board of Elections shall certify the candidate receiving the highest number of votes elected State central committeeman for that congressional district.

The State central committee shall adopt rules to provide for and govern the procedures to be followed in the election of members of the State central committee.

After the effective date of this amendatory Act of the 91st General Assembly, whenever a vacancy occurs in the office of Chairman of a State central committee, or at the end of the term of office of Chairman, the State central committee of each political party that has selected Alternative A shall elect a Chairman who shall not be required to be a member of the State Central Committee. The Chairman shall be a registered voter in this State and of the same political party as the State central committee.

Alternative B. Each congressional committee shall, within 30 days after the adoption of this alternative, appoint a person of the sex opposite that of the incumbent member for that congressional district to serve as an

additional member of the State central committee until his or her successor is elected at the general primary election in 1986. Each congressional committee shall make this appointment by voting on the basis set forth in paragraph (e) of this Section. In each congressional district at the general primary election held in 1986 and every 4 years thereafter, the male candidate receiving the highest number of votes of the party's male candidates for State central committeeman, and the female candidate receiving the highest number of votes of the party's female candidates for State central committeewoman, shall be declared elected State central committeeman and State central committeewoman from the district. At the general primary election held in 1986 and every 4 years thereafter, if all a party's candidates for State central committeemen or State central committeewomen from a congressional district are of the same sex, the candidate receiving the highest number of votes shall be declared elected a State central committeeman or State central committeewoman from the district, and, because of a failure to elect one male and one female to the committee, a vacancy shall be declared to exist in the office of the second member of the State central committee from the district. This vacancy shall be filled by appointment by the congressional committee of the political party, and the person appointed to fill the vacancy shall be a resident of the congressional district and of the sex opposite that of the committeeman or committeewoman elected at the general primary election. Each congressional committee shall make this appointment by voting on the basis set forth in paragraph (e) of this Section.

The Chairman of a State central committee composed as provided in this Alternative B must be selected from the committee's members.

Except as provided for in Alternative A with respect to the selection of the Chairman of the State central committee, under both of the foregoing alternatives, the State central committee of each political party shall be composed of members elected or appointed from the several congressional districts of the State, and of no other person or persons whatsoever. The members of the State central committee shall, within 30 days after each quadrennial election of the full committee, meet in the city of Springfield and organize by electing a chairman, and may at such time elect such officers from among their own number (or otherwise), as they may deem necessary or expedient. The outgoing chairman of the State central committee of the party shall, 10 days before the meeting, notify each member of the State central committee elected at the primary of the time and place of such meeting. In the organization and proceedings of the

State central committee, each State central committeeman and State central committeewoman shall have one vote for each ballot voted in his or her congressional district by the primary electors of his or her party at the primary election immediately preceding the meeting of the State central committee. Whenever a vacancy occurs in the State central committee of any political party, the vacancy shall be filled by appointment of the chairmen of the county central committees of the political party of the counties located within the congressional district in which the vacancy occurs and, if applicable, the ward and township committeemen of the political party in counties of 2,000,000 or more inhabitants located within the congressional district. If the congressional district in which the vacancy occurs lies wholly within a county of 2,000,000 or more inhabitants, the ward and township committeemen of the political party in that congressional district shall vote to fill the vacancy. In voting to fill the vacancy, each chairman of a county central committee and each ward and township committeeman in counties of 2,000,000 or more inhabitants shall have one vote for each ballot voted in each precinct of the congressional district in which the vacancy exists of his or her county, township, or ward cast by the primary electors of his or her party at the primary election immediately preceding the meeting to fill the vacancy in the State central committee. The person appointed to fill the vacancy shall be a resident of the congressional district in which the vacancy occurs, shall be a qualified voter, and, in a committee composed as provided in Alternative B, shall be of the same sex as his or her predecessor. A political party may, by a majority vote of the delegates of any State convention of such party, determine to return to the election of State central committeeman and State central committeewoman by the vote of primary electors. Any action taken by a political party at a State convention in accordance with this Section shall be reported to the State Board of Elections by the chairman and secretary of such convention within 10 days after such action.

(b) At the primary held on the third Tuesday in March, 1972, and every 4 years thereafter, each primary elector in cities having a population of 200,000 or over may vote for one candidate of his party in his ward for ward committeeman. Sec. 7-41. (a) All officers upon whom is imposed by law the duty
of designating and providing polling places for general elections, shall
provide in each such polling place so designated and provided, a sufficient
number of booths for such primary election, which booths shall be
provided with shelves, such supplies and pencils as will enable the voter to
prepare his ballot for voting and in which voters may prepare their ballots
screened from all observation as to the manner in which they do so. Such
booths shall be within plain view of the election officers and both they and
the ballot boxes shall be within plain view of those within the proximity of
the voting booths. No person other than election officers and the
challengers allowed by law and those admitted for the purpose of voting,
as hereinafter provided, shall be permitted within the proximity of the
voting booths, except by authority of the primary officers to keep order

private business, a public or private school, or a church or other organization founded for the purpose of religious worship and the distance of 100 horizontal feet ends within the interior of the building, then the markers shall be placed outside of the building at each entrance used by voters to enter that building on the grounds adjacent to the thoroughfare or walkway. If the polling room is located within a public or private building with 2 or more floors and the polling room is located on the ground floor, then the markers shall be placed 100 horizontal feet from each entrance to the polling room used by voters to engage in voting. If the polling room is located in a public or private building with 2 or more floors and the polling room is located on a floor above or below the ground floor, then the markers shall be placed a distance of 100 feet from the nearest elevator or staircase used by voters on the ground floor to access the floor where the polling room is located. The area within where the markers are placed shall be known as a campaign free zone, and electioneering is prohibited pursuant to this subsection. Notwithstanding any other provision of this Section, a church or private school may choose to apply the campaign free zone to its entire property, and, if so, the markers shall be placed near the boundaries on the grounds adjacent to the thoroughfares or walkways leading to the entrances used by the voters.

The area on polling place property beyond the campaign free zone, whether publicly or privately owned, is a public forum for the time that the polls are open on an election day. At the request of election officers any publicly owned building must be made available for use as a polling place. A person shall have the right to congregate and engage in electioneering on any polling place property while the polls are open beyond the campaign free zone, including but not limited to, the placement of temporary signs. This subsection shall be construed liberally in favor of persons engaging in electioneering on all polling place property beyond the campaign free zone for the time that the polls are open on an election day.

(d) The regulation of electioneering on polling place property on an election day, including but not limited to the placement of temporary signs, is an exclusive power and function of the State. A home rule unit may not regulate electioneering and any ordinance or local law contrary to subsection (c) is declared void. This is a denial and limitation of home rule powers and functions under subsection (h) of Section 6 of Article VII of the Illinois Constitution.

Sec. 3.1-20-25. Redistricting a city.

(a) In the formation of wards, the number of inhabitants of the city immediately preceding the division of the city into wards shall be as nearly equal in population, and the wards shall be of as compact and contiguous territory, as practicable. Wards shall be created in a manner so that, as far as practicable, no precinct shall be divided between 2 or more wards.

(b) Whenever an official census shows that a city contains more or fewer wards than it is entitled to, the city council of the city, by ordinance, shall redistrict the city into as many wards as the city is entitled. This redistricting shall be completed not less than 30 days before the first day set by the general election law for the filing of candidate petitions for the next succeeding election for city officers. At this election there shall be elected the number of aldermen to which the city is entitled, except as provided in subsection (c).

(c) If it appears from any official census that a city has the requisite number of inhabitants to authorize it to increase the number of aldermen, the city council shall immediately proceed to redistrict the city and shall hold the next city election in accordance with the new redistricting. At this election the aldermen whose terms of office are not expiring shall be considered aldermen for the new wards respectively in which their residences are situated. At this election a candidate for alderman may be elected from any ward that contains a part of the ward in which he or she resided at least one year next preceding the election that follows the redistricting, and, if elected, that person may be reelected from the new ward he or she represents if he or she resides in that ward for at least one year next preceding reelection. If there are 2 or more aldermen with terms of office not expiring and residing in the same ward under the new redistricting, the alderman who holds over for that ward shall be

determined by lot in the presence of the city council, in the manner directed by the council, and all other aldermen shall fill their unexpired terms as aldermen-at-large. The aldermen-at-large, if any, shall have the same powers and duties as all other aldermen, but upon the expiration of their terms the offices of aldermen-at-large shall be abolished.

(d) If the redistricting results in one or more wards in which no aldermen reside whose terms of office have not expired, 2 aldermen shall be elected in accordance with Section 3.1-20-35, unless the city elected only one alderman per ward pursuant to a referendum under subsection (a) of Section 3.1-20-20.

(e) A redistricting ordinance that has decreased the number of wards of a city because of a decrease in population of the city shall not be effective if, not less than 60 days before the time fixed for the next succeeding general municipal election, an official census is officially published that shows that the city has regained a population that entitles it to the number of wards that it had just before the passage of the last redistricting ordinance.

(65 ILCS 5/5-2-2) (from Ch. 24, par. 5-2-2)
Sec. 5-2-2. In all cities of less than 500,000, 20 aldermen shall be the maximum number permitted except as otherwise provided in the case of aldermen-at-large. No redistricting shall be required in order to reduce the number of aldermen heretofore provided for. Two aldermen shall be elected to represent each ward.

If it appears from any census specified in Section 5-2-5 and taken not earlier than 1940 that any city has the requisite number of inhabitants to authorize it to increase the number of aldermen, the city council shall immediately proceed to redistrict the city in accordance with the provisions of Section 5-2-5, and it shall hold the next city election in accordance with the new redistricting. At this election the aldermen whose terms of office are not expiring shall be considered aldermen for the new wards respectively in which their residences are situated. At this election a candidate for alderman may be elected from any ward that contains a part
of the ward in which he or she resided at least one year next preceding the election that follows the redistricting, and, if elected, that person may be reelected from the new ward he or she represents if he or she resides in that ward for at least one year next preceding reelection. If there are 2 or more aldermen with terms of office not expiring and residing in the same ward under the new redistricting, the alderman who holds over for that ward shall be determined by lot in the presence of the city council, in whatever manner the council shall direct and all other aldermen shall fill their unexpired terms as aldermen-at-large. The aldermen-at-large, if any, shall have the same power and duties as all other aldermen but upon expiration of their terms the offices of aldermen-at-large shall be abolished.

If the re-districting results in one or more wards in which no aldermen reside whose terms of office have not expired, 2 aldermen shall be elected in accordance with the provisions of Section 5-2-8.

Sec. 5-5-1. Petition for abandonment of managerial form; referendum; succeeding elections of officers and aldermen or trustees.

(a) A city or village that has operated for 4 years or more under the managerial form of municipal government may abandon that organization as provided in this Section. For the purposes of this Article, the operation of the managerial form of municipal government shall be deemed to begin on the date of the appointment of the first manager in the city or village. When a petition for abandonment signed by electors of the municipality equal in number to at least 10% of the number of votes cast for candidates for mayor at the preceding general quadrennial municipal election is filed with the circuit court for the county in which that city or village is located, the court shall set a date not less than 10 nor more than 30 days thereafter for a hearing on the sufficiency of the petition. Notice of the filing of the petition and of the date of the hearing shall be given in writing to the city or village clerk and to the mayor or village president at least 7 days before the date of the hearing. If the petition is found sufficient, the court shall enter an order directing that the proposition be submitted at an election other than a primary election for the municipality. The clerk of the court shall certify the proposition to the proper election authorities for submission.

The proposition shall be in substantially the following form:

Shall (name of city or village) retain the managerial form of municipal government?

(b) If the majority of the votes at the election are "yes", then the proposition to abandon is rejected and the municipality shall continue operating under this Article 5. If the majority of the votes are "no", then the proposition to abandon operation under this Article 5 is approved.

(c) If the proposition for abandonment is approved, the city or village shall become subject to Article 3.1 or Article 4, whichever Article was in force in the city or village immediately before the adoption of the plan authorized by this Article 5, upon the election and qualification of officers to be elected at the next succeeding general municipal election. Those officers shall be those prescribed by Article 3.1 or Article 4, as the case may be, but the change shall not in any manner or degree affect the property rights or liabilities of the city or village. The mayor, clerk, and treasurer and all other elected officers of a city or village in office at the time the proposition for abandonment is approved shall continue in office until the expiration of the term for which they were elected.

(d) If a city or village operating under this Article 5 has aldermen or trustees elected from wards or districts and a proposition to abandon operation under this Article 5 is approved, then the officers to be elected at the next succeeding general municipal election shall be elected from the same wards or districts as exist immediately before the abandonment.

(e) If a city or village operating under this Article 5 has a council or village board elected from the municipality at large and a proposition to abandon operation under this Article 5 is approved, then the first group of aldermen, board of trustees, or commissioners so elected shall be of the same number as was provided for in the municipality at the time of the adoption of a plan under this Article 5, with the same ward or district boundaries in cities or villages that immediately before the adoption of this Article 5 had wards or districts, unless the municipal boundaries have been changed. If there has been such a change, the council or village board shall so alter the former ward or district boundaries so as to conform as nearly as possible to the former division. If the plan authorized by this Article 5 is abandoned, the next general municipal election for officers shall be held at the time specified in Section 3.1-10-75 or 3.1-25-15 for that election. The aldermen or trustees elected at that election shall, if the city or village was operating under Article 3 at the time of adoption of this Article 5 and had at that time staggered 4 year terms of office for the aldermen or trustees, choose by lot which shall serve initial 2 year terms as provided by Section

3.1-20-35 or 3.1-15-5, whichever may be applicable, in the case of election of those officers at the first election after a municipality is incorporated.

(f) The proposition to abandon the managerial form of municipal government shall not be submitted in any city or village oftener than once in 1246 months.

(a) No life company doing business in this State shall make or permit any distinction or discrimination in favor of individuals among insured persons of the same class and equal expectation of life in the issuance of its policies, in the amount of payment of premiums or rates charged for policies of insurance, in the amount of any dividends or other benefits payable thereon, or in any other of the terms and conditions of the contracts it makes.

(b) No life company shall make or permit any distinction or discrimination against individuals with handicaps or disabilities in the amount of payment of premiums or rates charged for policies of life insurance, in the amount of any dividends or death benefits payable thereon, or in any other terms and conditions of the contract it makes unless the rate differential is based on sound actuarial principles and a reasonable system of classification and is related to actual or reasonably anticipated experience directly associated with the handicap or disability.

However, an insurer may exclude from coverage disabilities consisting solely of blindness or partial blindness when such condition existed at the time the policy was issued.

(d) No life company shall refuse to insure or to continue to insure an individual solely because of the individual's status as a member of the United States Air Force, Army, Coast Guard, Marines, or Navy or solely because of the individual's status as a member of the National Guard or Armed Forces Reserve.

(b) For purposes of the Illinois Insurance Code, except for Sections 444 and 444.1 and Articles XIII and XIII 1/2, Health Maintenance Organizations in the following categories are deemed to be "domestic companies":

   (B) pro forma financial statements reflecting the combined balance sheets of the acquiring company and the Health Maintenance Organization sought to be acquired as of the end of the preceding year and as of a date 90 days prior to the acquisition, as well as pro forma financial statements reflecting projected combined operation for a period of 2 years;
   (C) a pro forma business plan detailing an acquiring party's plans with respect to the operation of the Health Maintenance Organization sought to be acquired for a period of not less than 3 years; and
   (D) such other information as the Director shall require.

(d) The provisions of Article VIII 1/2 of the Illinois Insurance Code and this Section 5-3 shall apply to the sale by any health maintenance organization of greater than 10% of its enrollee population (including without limitation the health maintenance organization's right, title, and interest in and to its health care certificates).

(e) In considering any management contract or service agreement subject to Section 141.1 of the Illinois Insurance Code, the Director (i) shall, in addition to the criteria specified in Section 141.2 of the Illinois Insurance Code, take into account the effect of the management contract or service agreement on the continuation of benefits to enrollees and the financial condition of the health maintenance organization to be managed or serviced, and (ii) need not take into account the effect of the management contract or service agreement on competition.

(f) Except for small employer groups as defined in the Small Employer Rating, Renewability and Portability Health Insurance Act and except for medicare supplement policies as defined in Section 363 of the Illinois Insurance Code, a Health Maintenance Organization may by contract agree with a group or other enrollment unit to effect refunds or charge additional premiums under the following terms and conditions:

New matter indicated by italics - deletions by strikeout.
(i) the amount of, and other terms and conditions with respect to, the refund or additional premium are set forth in the group or enrollment unit contract agreed in advance of the period for which a refund is to be paid or additional premium is to be charged (which period shall not be less than one year); and

(ii) the amount of the refund or additional premium shall not exceed 20% of the Health Maintenance Organization's profitable or unprofitable experience with respect to the group or other enrollment unit for the period (and, for purposes of a refund or additional premium, the profitable or unprofitable experience shall be calculated taking into account a pro rata share of the Health Maintenance Organization's administrative and marketing expenses, but shall not include any refund to be made or additional premium to be paid pursuant to this subsection (f)). The Health Maintenance Organization and the group or enrollment unit may agree that the profitable or unprofitable experience may be calculated taking into account the refund period and the immediately preceding 2 plan years.

The Health Maintenance Organization shall include a statement in the evidence of coverage issued to each enrollee describing the possibility of a refund or additional premium, and upon request of any group or enrollment unit, provide to the group or enrollment unit a description of the method used to calculate (1) the Health Maintenance Organization's profitable experience with respect to the group or enrollment unit and the resulting refund to the group or enrollment unit or (2) the Health Maintenance Organization's unprofitable experience with respect to the group or enrollment unit and the resulting additional premium to be paid by the group or enrollment unit.

In no event shall the Illinois Health Maintenance Organization Guaranty Association be liable to pay any contractual obligation of an insolvent organization to pay any refund authorized under this Section.

PUBLIC ACT 93-0854
(House Bill No. 4374)

AN ACT concerning labor relations.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:
Section 5. The Illinois Public Labor Relations Act is amended by changing Section 6 as follows:
(5 ILCS 315/6)(from Ch. 48, par. 1606)
Sec. 6. Right to organize and bargain collectively; exclusive representation; and fair share arrangements. (a) Employees of the State and any political subdivision of the State, excluding employees of the General Assembly of the State of Illinois, have, and are protected in the exercise of, the right of self-organization, and may form, join or assist any labor organization, to bargain collectively through representatives of their own choosing on questions of wages, hours and other conditions of employment, not excluded by Section 4 of this Act, and to engage in other concerted activities not otherwise prohibited by law for the purposes of collective bargaining or other mutual aid or protection, free from

New matter indicated by italics - deletions by strikeout.
interference, restraint or coercion. Employees also have, and are protected in the exercise of, the right to refrain from participating in any such concerted activities. Employees may be required, pursuant to the terms of a lawful fair share agreement, to pay a fee which shall be their proportionate share of the costs of the collective bargaining process, contract administration and pursuing matters affecting wages, hours and other conditions of employment as defined in Section 3(g).

(b) Nothing in this Act prevents an employee from presenting a grievance to the employer and having the grievance heard and settled without the intervention of an employee organization; provided that the exclusive bargaining representative is afforded the opportunity to be present at such conference and that any settlement made shall not be inconsistent with the terms of any agreement in effect between the employer and the exclusive bargaining representative.

(c) A labor organization designated by the Board as the representative of the majority of public employees in an appropriate unit in accordance with the procedures herein or recognized by a public employer as the representative of the majority of public employees in an appropriate unit is the exclusive representative for the employees of such unit for the purpose of collective bargaining with respect to rates of pay, wages, hours and other conditions of employment not excluded by Section 4 of this Act.

(d) Labor organizations recognized by a public employer as the exclusive representative or so designated in accordance with the provisions of this Act are responsible for representing the interests of all public employees in the unit. Nothing herein shall be construed to limit an exclusive representative's right to exercise its discretion to refuse to process grievances of employees that are unmeritorious.

(e) When a collective bargaining agreement is entered into with an exclusive representative, it may include in the agreement a provision requiring employees covered by the agreement who are not members of the organization to pay their proportionate share of the costs of the collective bargaining process, contract administration and pursuing matters affecting wages, hours and conditions of employment, as defined in Section 3 (g), but not to exceed the amount of dues uniformly required of members. The organization shall certify to the employer the amount constituting each nonmember employee's proportionate share which shall not exceed dues uniformly required of members. In such case, the proportionate share payment in this Section shall be deducted by the

New matter indicated by italics - deletions by strikeout.
employer from the earnings of the nonmember employees and paid to the employee organization.

(f) Only the exclusive representative may negotiate provisions in a collective bargaining agreement providing for the payroll deduction of labor organization dues, fair share payment, initiation fees and assessments. Except as provided in subsection (e) of this Section, any such deductions shall only be made upon an employee's written authorization, and continued until revoked in writing in the same manner or until the termination date of an applicable collective bargaining agreement. Such payments shall be paid to the exclusive representative.

Where a collective bargaining agreement is terminated, or continues in effect beyond its scheduled expiration date pending the negotiation of a successor agreement or the resolution of an impasse under Section 14, the employer shall continue to honor and abide by any dues deduction or fair share clause contained therein until a new agreement is reached including dues deduction or a fair share clause. For the benefit of any successor exclusive representative certified under this Act, this provision shall be applicable, provided the successor exclusive representative:

(i) certifies to the employer the amount constituting each non-member's proportionate share under subsection (e); or

(ii) presents the employer with employee written authorizations for the deduction of dues, assessments, and fees under this subsection.

Failure to so honor and abide by dues deduction or fair share clauses for the benefit of any exclusive representative, including a successor, shall be a violation of the duty to bargain and an unfair labor practice.

(g) Agreements containing a fair share agreement must safeguard the right of nonassociation of employees based upon bona fide religious tenets or teachings of a church or religious body of which such employees are members. Such employees may be required to pay an amount equal to their fair share, determined under a lawful fair share agreement, to a nonreligious charitable organization mutually agreed upon by the employees affected and the exclusive bargaining representative to which such employees would otherwise pay such service fee. If the affected employees and the bargaining representative are unable to reach an agreement on the matter, the Board may establish an approved list of charitable organizations to which such payments may be made.

AN ACT concerning taxes.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Property Tax Code is amended by changing Section 18-157 as follows:

(35 ILCS 200/18-157)

Sec. 18-157. Apportionment; tax objections; court decisions; adjustments of levies and refunds to tax objectors. If a court, in any tax objection based on the apportionment of an overlapping taxing district under Section 18-155, for any year prior to the year of the effective date of this amendatory Act of the 92nd General Assembly, enters a final judgment that there was an over extension or under extension of taxes for an overlapping taxing district based on the apportionment under Section 18-155 for the year for which the objection was filed, the county clerks of each county in which there was an under extension shall proportionately increase the levy of that taxing district by an amount specified in the court order in that county in the subsequent year or in any subsequent year following the final judgment of the court. The increase in the levy, when extended, shall be set forth as a separate item on the tax bills of affected taxpayers. Notwithstanding any other provision of law, the increase in the levy and the extension thereof shall not be subject to any limitations on levies or extensions imposed by the School Code or this Code. The funds collected pursuant to a levy increase authorized by this Section shall be delivered to the county collector of each county in which there was an over extension for distribution to the tax objectors in accordance with the court order.

No person who, under any other provision of this Code, has received any payment in satisfaction of a tax objection based in whole or in part on apportionment under Section 18-155 may receive any payment under this Section in satisfaction of a tax objection based in whole or in part on apportionment under Section 18-155.

AN ACT concerning higher education.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Higher Education Student Assistance Act is amended by changing Section 45 as follows:

(110 ILCS 947/45)

Sec. 45. Illinois National Guard grant program.

(a) As used in this Section:

"State controlled university or community college" means those institutions under the administration of the Chicago State University Board of Trustees, the Eastern Illinois University Board of Trustees, the Governors State University Board of Trustees, the Illinois State University Board of Trustees, the Northeastern Illinois University Board of Trustees, the Northern Illinois University Board of Trustees, the Western Illinois University Board of Trustees, the Illinois State University Board of Trustees, University of Illinois Board of Trustees, Southern Illinois University Board of Trustees, or the Illinois Community College Board.

"Tuition and fees" shall not include expenses for any sectarian or denominational instruction, the construction or maintenance of sectarian or denominational facilities, or any other sectarian or denominational purposes or activity.

"Fees" means matriculation, graduation, activity, term, or incidental fees. Exemption shall not be granted from any other fees, including book rental, service, laboratory, supply, and union building fees, hospital and medical insurance fees, and any fees established for the operation and maintenance of buildings, the income of which is pledged to the payment of interest and principal on bonds issued by the governing board of any university or community college.
(b) Any enlisted person or any company grade officer, including warrant officers, First and Second Lieutenants, and Captains in the Army and Air National Guard, who has served at least one year in the Illinois National Guard and who possesses all necessary entrance requirements shall, upon application and proper proof, be awarded a grant to the State-controlled university or community college of his or her choice, consisting of exemption from tuition and fees for not more than the equivalent of 4 years of full-time enrollment in relation to his or her course of study at that State controlled university or community college while he or she is a member of the Illinois National Guard. *Except as otherwise provided in this Section, if the recipient of any grant awarded under this Section ceases to be a member of the Illinois National Guard while enrolled in a course of study under that grant, the grant shall be terminated as of the date membership in the Illinois National Guard ended, and the recipient shall be permitted to complete the school term in which he or she is then enrolled only upon payment of tuition and other fees allocable to the part of the term then remaining. If the recipient of a grant awarded under this Section ceases to be a member of the Illinois National Guard while enrolled in a course of study under that grant but (i) has served in the Illinois National Guard for at least 5 years and (ii) has served a cumulative total of at least 6 months of active duty, then that recipient shall continue to be eligible for a grant for one year after membership in the Illinois National Guard ended, provided that the recipient has not already received the exemption from tuition and fees for the equivalent of 4 years of full-time enrollment under this Section. If the recipient of the grant fails to complete his or her military service obligations or requirements for satisfactory participation, the Department of Military Affairs shall require the recipient to repay the amount of the grant received, prorated according to the fraction of the service obligation not completed, and, if applicable, reasonable collection fees. The Department of Military Affairs may adopt rules relating to its collection activities for repayment of the grant under this Section. Unsatisfactory participation shall be defined by rules adopted by the Department of Military Affairs. Repayments shall be deposited in the National Guard Grant Fund. The National Guard Grant Fund is created as a special fund in the State treasury. All money in the National Guard Grant Fund shall be used, subject to appropriation, by the Department of Military Affairs for the purposes of this Section.*
A grant awarded under this Section shall be considered an entitlement which the State-controlled university or community college in which the holder is enrolled shall honor without any condition other than the holder's maintenance of minimum grade levels and a satisfactory student loan repayment record pursuant to subsection (c) of Section 20 of this Act.

(c) Subject to a separate appropriation for such purposes, the Commission may reimburse the State-controlled university or community college for grants authorized by this Section.

Section 99. Effective date. This Act takes effect upon becoming law.

PUBLIC ACT 93-0857
(Senate Bill No. 2769)

AN ACT concerning education.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The School Code is amended by changing Section 2-3.64 as follows

(105 ILCS 5/2-3.64) (from Ch. 122, par. 2-3.64)

Sec. 2-3.64. State goals and assessment.

(a) Beginning in the 1998-1999 school year, the State Board of Education shall establish standards and periodically, in collaboration with local school districts, conduct studies of student performance in the learning areas of fine arts and physical development/health.

Beginning with the 1998-1999 school year until the 2005-2006 school year at the latest, the State Board of Education shall annually test: (i) all pupils enrolled in the 3rd, 5th, and 8th grades in English language arts (reading, writing, and English grammar) and mathematics; and (ii) all pupils enrolled in the 4th and 7th grades in the biological and physical sciences and the social sciences (history, geography, civics, economics, and government). The maximum time allowed for all actual testing required under this paragraph shall not exceed 25 hours, as allocated

New matter indicated by italics - deletions by strikeout.
among the required tests by the State Board of Education, across all grades tested.

Beginning no later than the 2005-2006 school year, the State Board of Education shall annually test: (i) all pupils enrolled in the 3rd, 4th, 5th, 6th, 7th, and 8th grades in reading and mathematics; (ii) all pupils enrolled in 3rd, 4th, 6th, and 8th grades in writing; (iii) all pupils enrolled in the 4th and 7th grades in the biological and physical sciences; and (iv) all pupils enrolled in 5th and 8th grades in the social sciences (history, geography, economics, civics, and government). The State Board of Education shall sample student performance in the learning area of physical development and health in grades 4 and 7 through the science tests and in the learning area of fine arts in grades 5 and 8 through the social sciences tests. After the addition of subjects and grades as delineated in this paragraph and including whatever other tests that may be approved from time to time no later than the 2005-2006 school year, the maximum time allowed for all State testing in grades 3 through 8 shall not exceed 38 hours across those grades.

The State Board of Education shall establish the academic standards that are to be applicable to pupils who are subject to State tests under this Section beginning with the 1998-1999 school year. However, the State Board of Education shall not establish any such standards in final form without first providing opportunities for public participation and local input in the development of the final academic standards. Those opportunities shall include a well-publicized period of public comment, public hearings throughout the State, and opportunities to file written comments. Beginning with the 1998-99 school year and thereafter, the State tests will identify pupils in the 3rd grade or 5th grade who do not meet the State standards.

If, by performance on the State tests or local assessments or by teacher judgment, a student's performance is determined to be 2 or more grades below current placement, the student shall be provided a remediation program developed by the district in consultation with a parent or guardian. Such remediation programs may include, but shall not be limited to, increased or concentrated instructional time, a remedial summer school program of not less than 90 hours, improved instructional approaches, tutorial sessions, retention in grade, and modifications to instructional materials. Each pupil for whom a remediation program is developed under this subsection shall be required to enroll in and attend whatever program the district determines is appropriate for the pupil.

New matter indicated by italics - deletions by strikeout.
Districts may combine students in remediation programs where appropriate and may cooperate with other districts in the design and delivery of those programs. The parent or guardian of a student required to attend a remediation program under this Section shall be given written notice of that requirement by the school district a reasonable time prior to commencement of the remediation program that the student is to attend. The State shall be responsible for providing school districts with the new and additional funding, under Section 2-3.51.5 or by other or additional means, that is required to enable the districts to operate remediation programs for the pupils who are required to enroll in and attend those programs under this Section. Every individualized educational program as described in Article 14 shall identify if the State test or components thereof are appropriate for that student. The State Board of Education shall develop rules and regulations governing the administration of alternative tests prescribed within each student's individualized educational program which are appropriate to the disability of each student.

All pupils who are in a State approved transitional bilingual education program or transitional program of instruction shall participate in the State tests. Any student who has been enrolled in a State approved bilingual education program less than 3 cumulative academic years may take an accommodated State test, to be known as the Illinois Measure of Annual Growth in English (IMAGE), if the student's lack of English as determined by an English language proficiency test would keep the student from understanding the regular State test. If the school district determines, on a case-by-case individual basis, that IMAGE would likely yield more accurate and reliable information on what the student knows and can do, the school district may make a determination to assess the student using IMAGE for a period that does not exceed 2 additional consecutive years, provided that the student has not yet reached a level of English language proficiency sufficient to yield valid and reliable information on what the student knows and can do on the regular State test.

Reasonable accommodations as prescribed by the State Board of Education shall be provided for individual students in the testing procedure. All test procedures prescribed by the State Board of Education shall require: (i) that each test used for State and local student testing under this Section identify by name the pupil taking the test; (ii) that the name of the pupil taking the test be placed on the test at the time the test is taken; (iii) that the results or scores of each test taken under this Section by a pupil of the school district be reported to that district and identify by

New matter indicated by italics - deletions by strikeout.
name the pupil who received the reported results or scores; and (iv) that the results or scores of each test taken under this Section be made available to the parents of the pupil. In addition, in each school year the highest scores attained by a student on the Prairie State Achievement Examination administered under subsection (c) of this Section and any Prairie State Achievement Awards received by the student shall become part of the student's permanent record and shall be entered on the student's transcript pursuant to regulations that the State Board of Education shall promulgate for that purpose in accordance with Section 3 and subsection (e) of Section 2 of the Illinois School Student Records Act. Beginning with the 1998-1999 school year and in every school year thereafter, scores received by students on the State assessment tests administered in grades 3 through 8 shall be placed into students' temporary records.

The State Board of Education shall establish a period of time, to be referred to as the State test window, in each school year for which State testing shall occur to meet the objectives of this Section. However, if the schools of a district are closed and classes are not scheduled during any week that is established by the State Board of Education as the State test window, the school district may (at the discretion of the State Board of Education) move its State test window one week earlier or one week later than the established State test window, so long as the school district gives the State Board of Education written notice of its intention to deviate from the established schedule by December 1 of the school year in which falls the State test window established by the State Board of Education for the testing.

(a-5) All tests administered pursuant to this Section shall be academically based. For the purposes of this Section "academically based tests" shall mean tests consisting of questions and answers that are measurable and quantifiable to measure the knowledge, skill, and ability of students in the subject matters covered by tests. The scoring of academically based tests shall be reliable, valid, unbiased and shall meet the guidelines for test development and use prescribed by the American Psychological Association, the National Council of Measurement and Evaluation, and the American Educational Research Association. Academically based tests shall not include assessments or evaluations of attitudes, values, or beliefs, or testing of personality, self-esteem, or self-concept. Nothing in this amendatory Act is intended, nor shall it be construed, to nullify, supersede, or contradict the legislative intent on academic testing expressed during the passage of HB 1005/P.A. 90-296.

New matter indicated by italics - deletions by strikeout.
Nothing in this Section is intended, nor shall it be construed, to nullify, supersede, or contradict the legislative intent on academic testing expressed in the preamble of this amendatory Act of the 93rd General Assembly.

The State Board of Education shall monitor the use of short answer questions in the math and reading assessments or in other assessments in order to demonstrate that the use of short answer questions results in a statistically significant improvement in student achievement as measured on the State assessments for math and reading or on other State assessments and is justifiable in terms of cost and student performance.

(b) It shall be the policy of the State to encourage school districts to continuously test pupil proficiency in the fundamental learning areas in order to: (i) provide timely information on individual students' performance relative to State standards that is adequate to guide instructional strategies; (ii) improve future instruction; and (iii) complement the information provided by the State testing system described in this Section. Each district's school improvement plan must address specific activities the district intends to implement to assist pupils who by teacher judgment and test results as prescribed in subsection (a) of this Section demonstrate that they are not meeting State standards or local objectives. Such activities may include, but shall not be limited to, summer school, extended school day, special homework, tutorial sessions, modified instructional materials, other modifications in the instructional program, reduced class size or retention in grade. To assist school districts in testing pupil proficiency in reading in the primary grades, the State Board shall make optional reading inventories for diagnostic purposes available to each school district that requests such assistance. Districts that administer the reading inventories may develop remediation programs for students who perform in the bottom half of the student population. Those remediation programs may be funded by moneys provided under the School Safety and Educational Improvement Block Grant Program established under Section 2-3.51.5. Nothing in this Section shall prevent school districts from implementing testing and remediation policies for grades not required under this Section.

(c) Beginning with the 2000-2001 school year, each school district that operates a high school program for students in grades 9 through 12 shall annually administer the Prairie State Achievement Examination established under this subsection to its students as set forth below. The Prairie State Achievement Examination shall be developed by the State
Board of Education to measure student performance in the academic areas of reading, writing, mathematics, science, and social sciences. The State Board of Education shall establish the academic standards that are to apply in measuring student performance on the Prairie State Achievement Examination including the minimum examination score in each area that will qualify a student to receive a Prairie State Achievement Award from the State in recognition of the student's excellent performance. Each school district that is subject to the requirements of this subsection (c) shall afford all students 2 opportunities to take the Prairie State Achievement Examination beginning as late as practical during the second semester of grade 11, but in no event before March 1. The State Board of Education shall annually notify districts of the weeks during which these test administrations shall be required to occur. Every individualized educational program as described in Article 14 shall identify if the Prairie State Achievement Examination or components thereof are appropriate for that student. Each student, exclusive of a student whose individualized educational program developed under Article 14 identifies the Prairie State Achievement Examination as inappropriate for the student, shall be required to take the examination in grade 11. For each academic area the State Board of Education shall establish the score that qualifies for the Prairie State Achievement Award on that portion of the examination. Any student who fails to earn a qualifying score for a Prairie State Achievement Award in any one or more of the academic areas on the initial test administration or who wishes to improve his or her score on any portion of the examination shall be permitted to retake such portion or portions of the examination during grade 12. Districts shall inform their students of the timelines and procedures applicable to their participation in every yearly administration of the Prairie State Achievement Examination. Students receiving special education services whose individualized educational programs identify the Prairie State Achievement Examination as inappropriate for them nevertheless shall have the option of taking the examination, which shall be administered to those students in accordance with standards adopted by the State Board of Education to accommodate the respective disabilities of those students. A student who successfully completes all other applicable high school graduation requirements but fails to receive a score on the Prairie State Achievement Examination that qualifies the student for receipt of a Prairie State Achievement Award shall nevertheless qualify for the receipt of a regular high school diploma.

\textit{In no case, however, shall a student receive a regular high school diploma}
without taking the Prairie State Achievement Examination, unless the student is exempted from taking the Prairie State Achievement Examination under this subsection (c) because the student's individualized educational program developed under Article 14 of this Code identifies the Prairie State Achievement Examination as inappropriate for the student, (ii) the student is exempt due to the student's lack of English language proficiency under subsection (a) of this Section, or (iii) the student is enrolled in a program of Adult and Continuing Education as defined in the Adult Education Act.

(d) Beginning with the 2002-2003 school year, all schools in this State that are part of the sample drawn by the National Center for Education Statistics, in collaboration with their school districts and the State Board of Education, shall administer the biennial State academic assessments of 4th and 8th grade reading and mathematics under the National Assessment of Educational Progress carried out under Section m11(b)(2) of the National Education Statistics Act of 1994 (20 U.S.C. 9010) if the Secretary of Education pays the costs of administering the assessments.

(e) Beginning no later than the 2005-2006 school year, subject to available federal funds to this State for the purpose of student assessment, the State Board of Education shall provide additional tests and assessment resources that may be used by school districts for local diagnostic purposes. These tests and resources shall include without limitation additional high school writing, physical development and health, and fine arts assessments. The State Board of Education shall annually distribute a listing of these additional tests and resources, using funds available from appropriations made for student assessment purposes.

PUBLIC ACT 93-0859
(Senate Bill No. 3109)

AN ACT concerning education.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The School Code is amended by changing Section 2-3.13a as follows:

(105 ILCS 5/2-3.13a) (from Ch. 122, par. 2-3.13a)
Sec. 2-3.13a. School Scholastic records; transferring students.

(a) The State Board of Education shall establish and implement rules requiring all of the public schools and all private or nonpublic elementary and secondary schools located in this State, whenever any such school has a student who is transferring to any other public elementary or secondary school located in this or in any other state, to forward within 10 days of notice of the student's transfer an unofficial record of that student's grades to the school to which such student is transferring. Each public school at the same time also shall forward to the school to which the student is transferring the remainder of the student's school student records as required by the Illinois School Student Records Act. In addition, if a student is transferring from a public school, whether located in this or any other state, from which the student has been suspended or expelled for knowingly possessing in a school building or on school grounds a weapon as defined in the Gun Free Schools Act (20 U.S.C. 8921 et seq.), for knowingly possessing, selling, or delivering in a school building or on school grounds a controlled substance or cannabis, or for battering a staff member of the school, and if the period of suspension or expulsion has not expired at the time the student attempts to transfer into another public school in the same or any other school district: (i) any school student records required to be transferred shall include the date and duration of the period of suspension or expulsion; and (ii) with the exception of transfers into the Department of Corrections school district, the student shall not be

permitted to attend class in the public school into which he or she is transferring until the student has served the entire period of the suspension or expulsion imposed by the school from which the student is transferring, provided that the school board may approve the placement of the student in an alternative school program established under Article 13A of this Code. A school district may adopt a policy providing that if a student is suspended or expelled for any reason from any public or private school in this or any other state, the student must complete the entire term of the suspension or expulsion before being admitted into the school district. This policy may allow placement of the student in an alternative school program established under Article 13A of this Code, if available, for the remainder of the suspension or expulsion. Each public school and each private or nonpublic elementary or secondary school in this State shall within 10 days after the student has paid all of his or her outstanding fines and fees and at its own expense forward an official transcript of the scholastic records of each student transferring from that school in strict accordance with the provisions of this Section and the rules established by the State Board of Education as herein provided.

(b) The State Board of Education shall develop a one-page standard form that Illinois school districts are required to provide to any student who is moving out of the school district and that contains the information about whether or not the student is "in good standing" and whether or not his or her medical records are up-to-date and complete. As used in this Section, "in good standing" means that the student is not being disciplined by a suspension or expulsion, but is entitled to attend classes. No school district is required to admit a new student who is transferring from another Illinois school district unless he or she can produce the standard form from the student's previous school district enrollment. No school district is required to admit a new student who is transferring from an out-of-state public school unless the parent or guardian of the student certifies in writing that the student is not currently serving a suspension or expulsion imposed by the school from which the student is transferring.

(c) The State Board of Education shall, by rule, establish a system to provide for the accurate tracking of transfer students. This system shall, at a minimum, require that a student be counted as a dropout in the calculation of a school's or school district's annual student dropout rate unless the school or school district to which the student transferred (known hereafter in this subsection (c) as the transferee school or school district) sends notification to the school or school district from which the student was transferred.
student transferred (known hereafter in this subsection (c) as the transferor school or school district) documenting that the student has enrolled in the transferee school or school district. This notification must occur within 150 days after the date the student withdraws from the transferor school or school district or the student shall be counted in the calculation of the transferor school’s or school district’s annual student dropout rate. A request by the transferee school or school district to the transferor school or school district seeking the student’s academic transcripts or medical records shall be considered without limitation adequate documentation of enrollment. Each transferor school or school district shall keep documentation of such transfer students for the minimum period provided in the Illinois School Student Records Act. All records indicating the school or school district to which a student transferred are subject to the Illinois School Student Records Act.

(105 ILCS 5/27A-4)
Sec. 27A-4. General Provisions.

New matter indicated by italics - deletions by strikeout.
(a) The General Assembly does not intend to alter or amend the provisions of any court-ordered desegregation plan in effect for any school district. A charter school shall be subject to all federal and State laws and constitutional provisions prohibiting discrimination on the basis of disability, race, creed, color, gender, national origin, religion, ancestry, marital status, or need for special education services.

(b) The total number of charter schools operating under this Article at any one time shall not exceed 60. Not more than 30 charter schools shall operate at any one time in any city having a population exceeding 500,000; not more than 15 charter schools shall operate at any one time in the counties of DuPage, Kane, Lake, McHenry, Will, and that portion of Cook County that is located outside a city having a population exceeding 500,000, with not more than one charter school that has been initiated by a board of education, or by an intergovernmental agreement between or among boards of education, operating at any one time in the school district where the charter school is located; and not more than 15 charter schools shall operate at any one time in the remainder of the State, with not more than one charter school that has been initiated by a board of education, or by an intergovernmental agreement between or among boards of education, operating at any one time in the school district where the charter school is located.

For purposes of implementing this Section, the State Board shall assign a number to each charter submission it receives under Section 27A-6 for its review and certification, based on the chronological order in which the submission is received by it. The State Board shall promptly notify local school boards when the maximum numbers of certified charter schools authorized to operate have been reached.

(c) No charter shall be granted under this Article that would convert any existing private, parochial, or non-public school to a charter school.

(d) Enrollment in a charter school shall be open to any pupil who resides within the geographic boundaries of the area served by the local school board, provided that the board of education in a city having a population exceeding 500,000 may designate attendance boundaries for no more than one-third of the charter schools permitted in the city if the board of education determines that attendance boundaries are needed to relieve overcrowding or to better serve low-income and at-risk students. Students residing within an attendance boundary may be given priority for enrollment, but must not be required to attend the charter school.

New matter indicated by italics - deletions by strikeout.
(e) Nothing in this Article shall prevent 2 or more local school boards from jointly issuing a charter to a single shared charter school, provided that all of the provisions of this Article are met as to those local school boards.

(f) No local school board shall require any employee of the school district to be employed in a charter school.

(g) No local school board shall require any pupil residing within the geographic boundary of its district to enroll in a charter school.

(h) If there are more eligible applicants for enrollment in a charter school than there are spaces available, successful applicants shall be selected by lottery. However, priority shall be given to siblings of pupils enrolled in the charter school and to pupils who were enrolled in the charter school the previous school year, unless expelled for cause, and priority may be given to pupils residing within the charter school's attendance boundary, if a boundary has been designated by the board of education in a city having a population exceeding 500,000. Dual enrollment at both a charter school and a public school or non-public school shall not be allowed. PUBLIC ACT 93-0864
(House Bill No. 6706)

AN ACT in relation to aging.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 1. Short title. This Act may be cited as the Family Caregiver Act.

Section 5. Legislative findings. The General Assembly recognizes the following:

(1) Family caregivers, serving without compensation, have been the mainstay of the long-term care system in this country. Care provided by these informal caregivers is the most crucial factor in avoiding or postponing institutionalization of the State's residents.

(2) Among non-institutionalized persons needing assistance with personal care needs, two-thirds depend solely on family and friends for assistance. Another 25% supplement family care with services from paid providers. Only a little more than 5% rely exclusively on paid services.

New matter indicated by italics - deletions by strikeout.
(3) Family caregivers are frequently under substantial physical, psychological, and financial stress. Unrelieved by support services available to the caregiver, this stress may lead to premature or unnecessary institutionalization of the care recipient or deterioration in the health condition and family circumstances of the caregiver.

(4) Two out of 3 family caregivers, due to being employed outside the home, experience additional stress. Two-thirds of working caregivers report conflicts between work and caregiving, requiring them to rearrange their work schedules, work fewer than normal hours, or take an unpaid leave of absence. For this population, caregiver support services have the added benefit of allowing family caregivers to remain active members of our State's workforce.

Section 10. Legislative intent. It is the intent of the General Assembly to establish a multi-faceted family caregiver support program to assist unpaid family caregivers and grandparents or other older individuals who are relative caregivers, who are informal providers of in-home and community care to older individuals or children.

Services provided under this program shall do the following:

(1) Provide information, relief, and support to family and other unpaid caregivers of older individuals and children.

(2) Encourage family members to provide care for their family members who are older individuals and children.

(3) Provide temporary substitute support services or living arrangements to allow a period of relief or rest for caregivers.

(4) Be provided in the least restrictive setting available consistent with the individually assessed needs of older individuals and children.

(5) Include services appropriate to the needs of family members caring for older individuals and children, including older individuals with dementia.

(6) Provide family caregivers with services that enable them to make informed decisions about current and future care plans, solve day-to-day caregiving problems, learn essential caregiving skills, and locate services that may strengthen their capacity to provide care.

Section 90. The Respite Program Act is amended by changing Sections 1.5, 2, 3, 4, 5, 6, 8, 11, and 12 as follows:

(320 ILCS 10/1.5) (from Ch. 23, par. 6201.5)
Sec. 1.5. Purpose. It is hereby found and determined by the General Assembly that respite care provides relief and support to the primary caregiver of a frail older adult or abused or functionally disabled or cognitively impaired older adult and provides by providing a break for the caregiver from the continuous responsibilities of care-giving. Without this support, the primary caregiver's ability to continue in his or her role would be jeopardized; thereby increasing the risk of institutionalization of the frail or abused or functionally disabled or cognitively impaired older adult.

By providing improving and expanding the in-home respite care services currently available through intermittent planned or emergency relief to the caregiver during the regular week-day, evening, and weekend hours, both the special physical and psychological needs of the primary caregiver and the frail or abused or functionally disabled, or cognitively impaired older adult, who is the recipient of continuous care, shall be met reducing or preventing the need for institutionalization.

New matter indicated by italics - deletions by strikeout.
Furthermore, the primary care-giver providing continuous care is frequently under substantial financial stress. Respite care and other supportive services sustain and preserve the primary care-giver and family caregiving unit. It is the intent of the General Assembly that this amendatory Act of 1992 ensure that Illinois primary care-givers of frail or abused or functionally disabled or cognitively impaired older adults have access to affordable, appropriate in-home respite care services.

(Source: P.A. 87-974.)

(320 ILCS 10/2) (from Ch. 23, par. 6202)

Sec. 2. Definitions. As used in this Act:

(1) "Respite care" means the provision of intermittent and temporary substitute care or supervision of frail or abused or functionally disabled or cognitively impaired older adults on behalf of and in the absence of the primary care-giver, for the purpose of providing relief from the stress or responsibilities concomitant with providing constant care, so as to enable the care-giver to continue the provision of care in the home. Respite care should be available to sustain the primary care-giver throughout the period of care-giving, which can vary from several months to a number of years. Respite care can be provided in the home, in a community-based day care setting during the day, overnight, in a substitute residential setting such as a long-term care facility required to be licensed under the Nursing Home Care Act or the Assisted Living and Shared Housing Act, or for more extended periods of time on a temporary basis.

(1.5) "In-home respite care" means care provided by an appropriately trained paid worker providing short-term intermittent care, supervision, or companionship to the frail or disabled adult in the home while relieving the care-giver, by permitting a short-term break from the care-giver's care-giving role. This support may contribute to the delay, reduction, and prevention of institutionalization by enabling the care-giver to continue in his or her care-giving role. In-home respite care should be flexible and available in a manner that is responsive to the needs of the care-giver. This may consist of evening respite care services that are available from 6:00 p.m. to 8:00 a.m. Monday through Friday and weekend respite care services from 6:00 p.m. Friday to 8:00 a.m. Monday.

(2) "Care-giver" shall mean the family member or other natural person who normally provides the daily care or supervision of a frail; abused or disabled elderly adult. Such care-giver may, but need not, reside in the same household as the frail or disabled adult.

(5) (Blank). "Director" shall mean the Director of Aging.

(6) "Department" shall mean the Department on Aging.

(7) (Blank). "Abused" shall have the same meaning ascribed to it in Section 103 of the Illinois Domestic Violence Act of 1986.

(9) "Emergency respite care" means the immediate placement of a trained, in-home respite care worker in the home during an emergency or unplanned event, or during a temporary placement outside the home, to substitute for the primary care-giver. Emergency respite care may be provided in the home on one or more occasions unless an extension is deemed necessary by the case coordination unit or by another agency designated by the Department and area agencies on aging to conduct needs assessments for respite care services. When there is an urgent need for emergency respite care, procedures to accommodate this need must be determined. An emergency is:

(a) An unplanned event that results in the immediate and unavoidable absence of the primary care-giver from the home in an excess of 4 hours at a time when no other qualified care-giver is available.

(b) An unplanned situation that prevents the primary care-giver from providing the care required by a frail or abused or functionally disabled or cognitively impaired adult living at home.

"Private water source" means a privately owned source of water in Illinois, other than a public water system or private water system as defined in the Illinois Groundwater Protection Act, that is used for bottled or vended water and meets the requirements of an approved source for bottled water as defined in Section 129.3 of Title 21 of the Code of Federal Regulations.

"Retail water facility" means any commercial establishment where vended water is sold, and placed in customers' containers, or placed in containers sold or given to customers who come to the establishment to obtain water.

"Vended water" means any water that is dispensed by a water-vending machine or retail water facility, or water from a private water source, and that is dispensed by a water-vending machine, retail water facility, water hauler, or any other person or facility for drinking, culinary, or other purposes involving a likelihood of the water being ingested by humans. "Vended water" does not include water from a public water system that has not undergone additional treatment. Water sold without further treatment is not "vended water".

"Water-bottling plant" means any facility in which bottled water is produced.

"Water-vending machine" means any self-service device that, upon insertion of a coin, coins, or token, or upon receipt of payment by any other means, dispenses a unit volume of water to be used for drinking, culinary, or other purposes involving a likelihood of the water being ingested by humans.

(d) The licensing of activities relating to bottled water as provided in this Section is an exclusive power and function of the State. A home rule unit may not license any activities relating to bottled water that are licensed under this Section. This subsection is a denial and limitation of home rule powers and functions under subsection (h) of Section 6 of Article VII of the Illinois Constitution.

(b) Within 7 days after notification by the Department, the bottler, distributor, or vendor of bottled water, owner or operator of a water-vending machine, water hauler, retail water facility operator, or private water source operator must conduct an analysis of the water source and submit the results of the analysis to the Department.

(c) If evidence of contamination is found, the Department may, by order, require the bottler of bottled water, owner or operator of a water-vending machine, or private water source operator to conduct an analysis of the finished water product for the contaminants of concern in accordance with conditions specified by the Department. The water analysis must be conducted and reported on an annual basis, unless the Department finds that reasonable action requires either more frequent or less frequent analysis.

PUBLIC ACT 93-0867
(Senate Bill No. 3208)

AN ACT concerning commissions.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 1. Short title. This Act may be cited as the Illinois African-American Family Commission Act.

New matter indicated by italics - deletions by strikeout.
Section 5. Legislative findings. It is the policy of this State to promote family preservation and to preserve and strengthen families. Over 12 million people live in Illinois. African-Americans represent 15% of the population and 26% of the residents living in Cook County. Despite some progress over the last few decades, African-Americans in Illinois continue to lag behind other racial groups relative to indicators of well-being in education, employment, income, and health. According to the 2000 U.S. Census, just 26% of the African-American population over 25 years of age in Illinois completed their high school education; 6% held an associate's degree; less than 10% (9%) held a bachelor's degree; less than 5% (3%) held a master's degree; and less than one percent held either a professional (.8%) or doctoral (.4%) degree.

These levels of education attainment reflect more fundamental problems with retaining African-Americans in school. The Illinois State Board of Education reported that for the 2001-2002 school year, 36,373, or 6%, of students enrolled in public high schools dropped out. Thirty-nine percent of these students were African-Americans; 38% were White; 21% were Hispanic; and 2% were classified as Other.

Although African-Americans make up 18% of the high school population, they are disproportionately represented in the number of students who are suspended and expelled. In the 2001-2002 school year, 29,068 students were suspended from school. Forty-seven percent were White, 37% were African-American, 14% were Hispanic, and 1% were classified as Other. In regards to expulsions Statewide, the total number of high school students expelled was 1,651. Forty-three percent were African-American, 41% were White, 14% were Hispanic, and 2% were classified as Other. Within Chicago public schools, 448 students were expelled. Seventy-seven of these students were African-American; 27% were White; 14% were Hispanic; and 4% were classified as Other. The fact that African-Americans are more likely to be suspended or expelled from school also contributes to the high dropout rate among African-American high school students.

In addition to educational challenges, African-Americans face challenges in the areas of employment and income. In the year 2000, the unemployment rate for African-Americans age 16 years or older was 15% compared to only 6% for the total Illinois population. Moreover, the median household income of African-Americans in Illinois was $31,699 compared to $46,590 for the total Illinois population, and the percentage of African-American families below the poverty level in Illinois was 26%

New matter indicated by italics - deletions by strikeout.
percent in 1999 compared to 10.7% for the total Illinois population in that same year.

Indicators of child welfare and criminal justice reveal still more challenges that African-American families face in Illinois. In 2000, African-American children represented 18% of children 18 years of age and under, but comprised 73% of children in substitute care. African-Americans are also overrepresented in the criminal justice population. Of the total Illinois adult inmate population in the year 2000, 65% were African-American. During this same time period, African-American youth represented 58% of the juvenile inmate population in Illinois.

While the leading causes of death among African-Americans are the same as those for the general population in Illinois, African-Americans have a higher rate of death per 100,000 residents. The rate of overall deaths per 100,000 residents among African-Americans in the year 2000 was 1,181; 847 for Whites; and 411 for those classified as Other. The rate of cancer-related deaths per 100,000 residents by racial or ethnic groups in 2000 was: 278 African-Americans; 206 Whites; and 110 of those classified as Other. The rate of diabetes-related deaths per 100,000 residents among African-Americans in 2000 was 41 compared to 23 for Whites and 13 for those classified as Other. The rate of deaths per 100,000 residents by heart disease among African-Americans in 2000 was 352 compared to 257 for Whites and 120 for those classified as Other. The rate of deaths per 100,000 residents by stroke among African-Americans in 2000 was 75; 60 for Whites; and 35 for those classified as Other.

African-Americans had higher rates of smoking and obesity than other racial groups in Illinois in 2001. African-Americans accounted for more of the new adult/adolescent AIDS cases, cumulative adult/adolescent AIDS cases, and number of people living with AIDS than other racial groups in Illinois in the year 2002. Still, 23% of uninsured persons in Illinois are African-American.

These huge disparities in education, employment, income, child welfare, criminal justice, and health demonstrate the tremendous challenges facing the African-American family in Illinois. These challenges are severe. There is a need for government, child and family advocates, and other key stakeholders to create and implement public policies to address the health and social crises facing African-American families. The development of given solutions clearly transcends any one State agency and requires a coordinated effort. The Illinois African-American Family Commission shall assist State agencies with this task.

New matter indicated by italics - deletions by strikeout.
The African-American Family Commission was created in October 1994 by Executive Order to assist the Illinois Department of Children and Family Services in developing and implementing programs and public policies that affect the State's child welfare system. The Commission has a proven track record of bringing State agencies, community providers, and consumers together to address child welfare issues. The ability of the Commission to address the above-mentioned health issues, community factors, and the personal well-being of African-American families and children has been limited due to the Executive Order's focus on child welfare. It is apparent that broader issues of health, mental health, criminal justice, education, and economic development also directly affect the health and well-being of African-American families and children. Accordingly, the role of the African-American Family Commission is hereby expanded to encompass working relationships with every department, agency, and commission within State government if any of its activities impact African-American children and families. The focus of the Commission is hereby restructured and shall exist by legislative mandate to engage State agencies in its efforts to preserve and strengthen African-American families.

Section 15. Purpose and objectives.
(a) The purpose of the Illinois African-American Family Commission is to guide the efforts of and collaborate with the Department on Aging, the Department of Children and Family Services, the Department of Commerce and Economic Opportunity, the Department of Corrections, the Department of Human Services, the Department of Public Aid, the Department of Public Health, the Department of Transportation, and others to improve and expand existing human services and educational and community development programs for African-Americans. This will be achieved by:

(1) Monitoring existing legislation and programs designed to address the needs of African-Americans in Illinois;

(2) Assisting State agencies in developing programs, services, public policies, and research strategies that will expand and enhance the social and economic well-being of African-American children and families; and

(3) Facilitating the participation of African-Americans in the development, implementation, and planning of community-based services.

The work of the Illinois African-American Family Commission shall include the use of existing reports, research and planning efforts, procedures, and programs.

Section 20. Appointment; terms. The Illinois African-American Family Commission shall be comprised of 15 members who shall be appointed by the Governor. Each member shall have a working knowledge of human services, community development, and economic public policies in Illinois. The Governor shall appoint the chairperson or chairpersons.

The members shall reflect regional representation to ensure that the needs of African-American families and children throughout the State of Illinois are met. The members shall be selected from a variety of disciplines. They shall be representative of a partnership and collaborative effort between public and private agencies, the business sector, and community-based human services organizations.

Members shall serve 3-year terms, except in the case of initial appointments. One-third of initially appointed members, as determined by lot, shall be appointed to 1-year terms; 1/3 shall be appointed to 2-year terms; and 1/3 shall be appointed to 3-year terms, so that the terms are staggered. Members will serve without compensation, but shall be reimbursed for Commission-related expenses.

The Department on Aging, the Department of Children and Family Services, the Department of Commerce and Economic Opportunity, the Department of Corrections, the Department of Human Services, the Department of Public Aid, the Department of Public Health, and the Department of Transportation shall each appoint a liaison to serve ex-officio on the Commission.

Section 25. Funding. The African-American Family Commission shall receive funding through appropriations available for its purposes made to the Department on Aging, the Department of Children and Family Services, the Department of Commerce and Economic Opportunity, the Department of Corrections, the Department of Human Services, the Department of Public Aid, the Department of Public Health, and the Department of Transportation.

Section 30. Reporting. The Illinois African-American Family Commission shall annually report to the Governor and the General Assembly on the Commission's progress toward its goals and objectives.

There shall be allowed an additional credit equal to .5% of the basis of qualified property placed in service during the taxable year, provided such property is placed in service on or after July 1, 1986, and the taxpayer's base employment within Illinois has increased by 1% or more over the preceding year as determined by the taxpayer's employment records filed with the Illinois Department of Employment Security. Taxpayers who are new to Illinois shall be deemed to have met the 1% growth in base employment for the first year in which they file employment records with the Illinois Department of Employment Security. The provisions added to this Section by Public Act 85-1200 (and restored by Public Act 87-895) shall be construed as declaratory of existing law and not as a new enactment. If, in any year, the increase in base employment within Illinois over the preceding year is less than 1%, the additional credit shall be limited to that percentage times a fraction, the numerator of which is .5% and the denominator of which is 1%, but shall not exceed .5%. The investment credit shall not be allowed to the extent that it would reduce a taxpayer's liability in any tax year below zero, nor may any credit for qualified property be allowed for any year other than the year in which the property was placed in service in Illinois. For tax years ending on or after December 31, 1987, and on or before December 31, 1988, the credit shall be allowed for the tax year in which the property is placed in service, or, if the amount of the credit exceeds the tax liability for that year, whether it exceeds the

original liability or the liability as later amended, such excess may be carried forward and applied to the tax liability of the 5 taxable years following the excess credit years if the taxpayer (i) makes investments which cause the creation of a minimum of 2,000 full-time equivalent jobs in Illinois, (ii) is located in an enterprise zone established pursuant to the Illinois Enterprise Zone Act and (iii) is certified by the Department of Commerce and Community Affairs (now Department of Commerce and Economic Opportunity) as complying with the requirements specified in clause (i) and (ii) by July 1, 1986. The Department of Commerce and Community Affairs (now Department of Commerce and Economic Opportunity) shall notify the Department of Revenue of all such certifications immediately. For tax years ending after December 31, 1988, the credit shall be allowed for the tax year in which the property is placed in service, or, if the amount of the credit exceeds the tax liability for that year, whether it exceeds the original liability or the liability as later amended, such excess may be carried forward and applied to the tax liability of the 5 taxable years following the excess credit years. The credit shall be applied to the earliest year for which there is a liability. If there is credit from more than one tax year that is available to offset a liability, earlier credit shall be applied first.

(2) The term "qualified property" means property which:

(A) is tangible, whether new or used, including buildings and structural components of buildings and signs that are real property, but not including land or improvements to real property that are not a structural component of a building such as landscaping, sewer lines, local access roads, fencing, parking lots, and other appurtenances;

(B) is depreciable pursuant to Section 167 of the Internal Revenue Code, except that "3-year property" as defined in Section 168(c)(2)(A) of that Code is not eligible for the credit provided by this subsection (e);

(C) is acquired by purchase as defined in Section 179(d) of the Internal Revenue Code;

(D) is used in Illinois by a taxpayer who is primarily engaged in manufacturing, or in mining coal or fluorite, or in retailing; and

(E) has not previously been used in Illinois in such a manner and by such a person as would qualify for the credit provided by this subsection (e) or subsection (f).

(3) For purposes of this subsection (e), "manufacturing" means the material staging and production of tangible personal property by procedures commonly regarded as manufacturing, processing, fabrication, or assembling which changes some existing material into new shapes, new qualities, or new combinations. For purposes of this subsection (e) the term "mining" shall have the same meaning as the term "mining" in Section 613(c) of the Internal Revenue Code. For purposes of this subsection (e), the term "retailing" means the sale of tangible personal property or services rendered in conjunction with the sale of tangible consumer goods or commodities.

(4) The basis of qualified property shall be the basis used to compute the depreciation deduction for federal income tax purposes.

(5) If the basis of the property for federal income tax depreciation purposes is increased after it has been placed in service in Illinois by the taxpayer, the amount of such increase shall be deemed property placed in service on the date of such increase in basis.

(6) The term "placed in service" shall have the same meaning as under Section 46 of the Internal Revenue Code.

(7) If during any taxable year, any property ceases to be qualified property in the hands of the taxpayer within 48 months after being placed in service, or the situs of any qualified property is moved outside Illinois within 48 months after being placed in service, the Personal Property Tax Replacement Income Tax for such taxable year shall be increased. Such increase shall be determined by (i) recomputing the investment credit which would have been allowed for the year in which credit for such property was originally allowed by eliminating such property from such computation and, (ii) subtracting such recomputed credit from the amount of credit previously allowed. For the purposes of this paragraph (7), a reduction of the basis of qualified property resulting from a redetermination of the purchase price shall be deemed a disposition of qualified property to the extent of such reduction.

New matter indicated by italics - deletions by strikeout.
(8) Unless the investment credit is extended by law, the basis of qualified property shall not include costs incurred after December 31, 2008, except for costs incurred pursuant to a binding contract entered into on or before December 31, 2008.

(9) Each taxable year ending before December 31, 2000, a partnership may elect to pass through to its partners the credits to which the partnership is entitled under this subsection (e) for the taxable year. A partner may use the credit allocated to him or her under this paragraph only against the tax imposed in subsections (c) and (d) of this Section. If the partnership makes that election, those credits shall be allocated among the partners in the partnership in accordance with the rules set forth in Section 704(b) of the Internal Revenue Code, and the rules promulgated under that Section, and the allocated amount of the credits shall be allowed to the partners for that taxable year. The partnership shall make this election on its Personal Property Tax Replacement Income Tax return for that taxable year. The election to pass through the credits shall be irrevocable.

For taxable years ending on or after December 31, 2000, a partner that qualifies its partnership for a subtraction under subparagraph (I) of paragraph (2) of subsection (d) of Section 203 or a shareholder that qualifies a Subchapter S corporation for a subtraction under subparagraph (S) of paragraph (2) of subsection (b) of Section 203 shall be allowed a credit under this subsection equal to its share of the credit earned under this subsection during the taxable year by the partnership or Subchapter S corporation, determined in accordance with the determination of income and distributive share of income under Sections 702 and 704 and Subchapter S of the Internal Revenue Code. This paragraph is exempt from the provisions of Section 250.

(f) Investment credit; Enterprise Zone.

(1) A taxpayer shall be allowed a credit against the tax imposed by subsections (a) and (b) of this Section for investment in qualified property which is placed in service in an Enterprise Zone created pursuant to the Illinois Enterprise Zone Act. shall be allowed a credit under this subsection (f) to be determined in accordance with the determination of income and distributive share of income under Sections 702 and 704 and Subchapter S of the Internal Revenue Code. The credit shall be .5% of the basis for such property. The credit shall be available only in the taxable year in which the property is placed in service in the Enterprise Zone and shall not be allowed to the extent that it would reduce a taxpayer's liability for the tax imposed by subsections (a) and (b) of this Section to below zero. For tax years ending on or after December 31, 1985, the credit shall be allowed for the tax year in which the property is placed in service, or, if the amount of the credit exceeds the tax liability for that year, whether it exceeds the original liability or the liability as later amended, such excess may be carried forward and applied to the tax liability of the 5 taxable years following the excess credit year. The credit shall be applied to the earliest year for which there is a liability. If there is credit from more than one tax year that is available to offset a liability, the credit accruing first in time shall be applied first.

(2) The term qualified property means property which:
   (A) is tangible, whether new or used, including buildings and structural components of buildings;
   (B) is depreciable pursuant to Section 167 of the Internal Revenue Code, except that "3-year property" as defined in Section 168(c)(2)(A) of that Code is not eligible for the credit provided by this subsection (f);
   (C) is acquired by purchase as defined in Section 179(d) of the Internal Revenue Code;
   (D) is used in the Enterprise Zone by the taxpayer; and
   (E) has not been previously used in Illinois in such a manner and by such a person as would qualify for the credit provided by this subsection (f) or subsection (e).

(3) The basis of qualified property shall be the basis used to compute the depreciation deduction for federal income tax purposes.

(4) If the basis of the property for federal income tax depreciation purposes is increased after it has been placed in service in the Enterprise Zone by the taxpayer, the amount of such
increase shall be deemed property placed in service on the date of such increase in basis.

(5) The term "placed in service" shall have the same meaning as under Section 46 of the Internal Revenue Code.

(6) If during any taxable year, any property ceases to be qualified property in the hands of the taxpayer within 48 months after being placed in service, or the situs of any qualified property is moved outside the Enterprise Zone within 48 months after being placed in service, the tax imposed under subsections (a) and (b) of this Section for such taxable year shall be increased. Such increase shall be determined by (i) recomputing the investment credit which would have been allowed for the year in which credit for such property was originally allowed by eliminating such property from such computation, and (ii) subtracting such recomputed credit from the amount of credit previously allowed. For the purposes of this paragraph (6), a reduction of the basis of qualified property resulting from a redetermination of the purchase price shall be deemed a disposition of qualified property to the extent of such reduction.

(g) Jobs Tax Credit; Enterprise Zone and Foreign Trade Zone or Sub-Zone.

(1) A taxpayer conducting a trade or business in an enterprise zone or a High Impact Business designated by the Department of Commerce and Economic Opportunity Community Affairs conducting a trade or business in a federally designated Foreign Trade Zone or Sub-Zone shall be allowed a credit against the tax imposed by subsections (a) and (b) of this Section in the amount of $500 per eligible employee hired to work in the zone during the taxable year.

(2) To qualify for the credit:

(A) the taxpayer must hire 5 or more eligible employees to work in an enterprise zone or federally designated Foreign Trade Zone or Sub-Zone during the taxable year;

(B) the taxpayer's total employment within the enterprise zone or federally designated Foreign Trade Zone or Sub-Zone must increase by 5 or more full-time employees beyond the total employed in that zone at the end of the previous tax year for which a jobs tax credit

(C) the eligible employees must be employed 180 consecutive days in order to be deemed hired for purposes of this subsection.

(3) An "eligible employee" means an employee who is:

(A) Certified by the Department of Commerce and Economic Opportunity Community Affairs as "eligible for services" pursuant to regulations promulgated in accordance with Title II of the Job Training Partnership Act, Training Services for the Disadvantaged or Title III of the Job Training Partnership Act, Employment and Training Assistance for Dislocated Workers Program.

(B) Hired after the enterprise zone or federally designated Foreign Trade Zone or Sub-Zone was designated or the trade or business was located in that zone, whichever is later.

(C) Employed in the enterprise zone or Foreign Trade Zone or Sub-Zone. An employee is employed in an enterprise zone or federally designated Foreign Trade Zone or Sub-Zone if his services are rendered there or it is the base of operations for the services performed.

(D) A full-time employee working 30 or more hours per week.

(4) For tax years ending on or after December 31, 1985 and prior to December 31, 1988, the credit shall be allowed for the tax year in which the eligible employees are hired. For tax years ending on or after December 31, 1988, the credit shall be allowed for the tax year immediately following the tax year in which the eligible employees are hired. If the amount of the credit exceeds the tax liability for that year, whether it exceeds the original liability or the liability as later amended, such excess may be carried forward and applied to the tax liability of the 5 taxable years following the excess credit year. The credit shall be applied to the earliest year for which there is a liability. If there is credit from more than one tax year that is available to offset a liability, earlier credit shall be applied first.

(5) The Department of Revenue shall promulgate such rules and regulations as may be deemed necessary to carry out the purposes of this subsection (g).

(6) The credit shall be available for eligible employees hired on or after January 1, 1986.

(h) Investment credit; High Impact Business.

(1) Subject to subsections (b) and (b-5) of Section 5.5 of the Illinois Enterprise Zone Act, a taxpayer shall be allowed a credit against the tax imposed by subsections (a) and (b) of this Section for investment in qualified property which is placed in service by a Department of Commerce and Economic Opportunity Community Affairs designated High Impact Business. The credit shall be .5% of the basis for such property. The credit shall not be available (i) until the minimum investments in qualified property set forth in subdivision (a)(3)(A) of Section 5.5 of the Illinois Enterprise Zone Act have been satisfied or (ii) until the time authorized in subsection (b-5) of the Illinois Enterprise Zone Act for entities designated as High Impact Businesses under subdivisions (a)(3)(B), (a)(3)(C), and (a)(3)(D) of Section 5.5 of the Illinois Enterprise Zone Act, and shall not be allowed to the extent that it would reduce a taxpayer's liability for the tax imposed by subsections (a) and (b) of this Section to below zero. The credit applicable to such investments shall be taken in the taxable year in which such investments have been completed. The credit for additional investments beyond the minimum investment by a designated high impact business authorized under subdivision (a)(3)(A) of Section 5.5 of the Illinois Enterprise Zone Act shall be available only in the taxable year in which the property is placed in service and shall not be allowed to the extent that it would reduce a taxpayer's liability for the tax imposed by subsections (a) and (b) of this Section to below zero. For tax years ending on or after December 31, 1987, the credit shall be allowed for the tax year in which the property is placed in service, or, if the amount of the credit exceeds the tax liability for that year, whether it exceeds the original liability or the liability as later amended, such excess may be carried forward and applied to the tax liability of the 5 taxable years following the excess credit year. The credit shall be applied to the earliest year for which there is a liability. If there is credit

from more than one tax year that is available to offset a liability, the credit accruing first in time shall be applied first.

Changes made in this subdivision (h)(1) by Public Act 88-670 restore changes made by Public Act 85-1182 and reflect existing law.

(2) The term qualified property means property which:
   (A) is tangible, whether new or used, including buildings and structural components of buildings;
   (B) is depreciable pursuant to Section 167 of the Internal Revenue Code, except that "3-year property" as defined in Section 168(c)(2)(A) of that Code is not eligible for the credit provided by this subsection (h);
   (C) is acquired by purchase as defined in Section 179(d) of the Internal Revenue Code; and
   (D) is not eligible for the Enterprise Zone Investment Credit provided by subsection (f) of this Section.

(3) The basis of qualified property shall be the basis used to compute the depreciation deduction for federal income tax purposes.

(4) If the basis of the property for federal income tax depreciation purposes is increased after it has been placed in service in a federally designated Foreign Trade Zone or Sub-Zone located in Illinois by the taxpayer, the amount of such increase shall be deemed property placed in service on the date of such increase in basis.

(5) The term "placed in service" shall have the same meaning as under Section 46 of the Internal Revenue Code.

(6) If during any taxable year ending on or before December 31, 1996, any property ceases to be qualified property in the hands of the taxpayer within 48 months after being placed in service, or the situs of any qualified property is moved outside Illinois within 48 months after being placed in service, the tax imposed under subsections (a) and (b) of this Section for such taxable year shall be increased. Such increase shall be determined by (i) recomputing the investment credit which would have been allowed for the year in which credit for such property was originally allowed by eliminating such property from such computation, and (ii) subtracting such recomputed credit from the
amount of credit previously allowed. For the purposes of this paragraph (6), a reduction of the basis of qualified property resulting from a redetermination of the purchase price shall be deemed a disposition of qualified property to the extent of such reduction.

(7) Beginning with tax years ending after December 31, 1996, if a taxpayer qualifies for the credit under this subsection (h) and thereby is granted a tax abatement and the taxpayer relocates its entire facility in violation of the explicit terms and length of the contract under Section 18-183 of the Property Tax Code, the tax imposed under subsections (a) and (b) of this Section shall be increased for the taxable year in which the taxpayer relocated its facility by an amount equal to the amount of credit received by the taxpayer under this subsection (h).

(i) Credit for Personal Property Tax Replacement Income Tax. For tax years ending prior to December 31, 2003, a credit shall be allowed against the tax imposed by subsections (a) and (b) of this Section for the tax imposed by subsections (c) and (d) of this Section. This credit shall be computed by multiplying the tax imposed by subsections (c) and (d) of this Section by a fraction, the numerator of which is base income allocable to Illinois and the denominator of which is Illinois base income, and further multiplying the product by the tax rate imposed by subsections (a) and (b) of this Section.

Any credit earned on or after December 31, 1986 under this subsection which is unused in the year the credit is computed because it exceeds the tax liability imposed by subsections (a) and (b) for that year (whether it exceeds the original liability or the liability as later amended) may be carried forward and applied to the tax liability imposed by subsections (a) and (b) of the 5 taxable years following the excess credit year, provided that no credit may be carried forward to any year ending on or after December 31, 2003. This credit shall be applied first to the earliest year for which there is a liability. If there is a credit under this subsection from more than one tax year that is available to offset a liability the earliest credit arising under this subsection shall be applied first.

If, during any taxable year ending on or after December 31, 1986, the tax imposed by subsections (c) and (d) of this Section for which a taxpayer has claimed a credit under this subsection (i) is reduced, the amount of credit for such tax shall also be reduced. Such reduction shall be determined by recomputing the credit to take into account the reduced

New matter indicated by italics - deletions by strikeout.
tax imposed by subsections (c) and (d). If any portion of the reduced amount of credit has been carried to a different taxable year, an amended return shall be filed for such taxable year to reduce the amount of credit claimed.

(j) Training expense credit. Beginning with tax years ending on or after December 31, 1986 and prior to December 31, 2003, a taxpayer shall be allowed a credit against the tax imposed by subsections (a) and (b) under this Section for all amounts paid or accrued, on behalf of all persons employed by the taxpayer in Illinois or Illinois residents employed outside of Illinois by a taxpayer, for educational or vocational training in semi-technical or technical fields or semi-skilled or skilled fields, which were deducted from gross income in the computation of taxable income. The credit against the tax imposed by subsections (a) and (b) shall be 1.6% of such training expenses. For partners, shareholders of subchapter S corporations, and owners of limited liability companies, if the liability company is treated as a partnership for purposes of federal and State income taxation, there shall be allowed a credit under this subsection (j) to be determined in accordance with the determination of income and distributive share of income under Sections 702 and 704 and subchapter S of the Internal Revenue Code.

Any credit allowed under this subsection which is unused in the year the credit is earned may be carried forward to each of the 5 taxable years following the year for which the credit is first computed until it is used. This credit shall be applied first to the earliest year for which there is a liability. If there is a credit under this subsection from more than one tax year that is available to offset a liability the earliest credit arising under this subsection shall be applied first. No carryforward credit may be claimed in any tax year ending on or after December 31, 2003.

(k) Research and development credit.

For tax years ending after July 1, 1990 and prior to December 31, 2003, a taxpayer shall be allowed a credit against the tax imposed by subsections (a) and (b) of this Section for increasing research activities in this State. The credit allowed against the tax imposed by subsections (a) and (b) shall be equal to 6 1/2% of the qualifying expenditures for increasing research activities in this State. For partners, shareholders of subchapter S corporations, and owners of limited liability companies, if the liability company is treated as a partnership for purposes of federal and State income taxation, there shall be allowed a credit under this subsection to be determined in accordance with the determination of income and
distributive share of income under Sections 702 and 704 and subchapter S of the Internal Revenue Code.

For purposes of this subsection, "qualifying expenditures" means the qualifying expenditures as defined for the federal credit for increasing research activities which would be allowable under Section 41 of the Internal Revenue Code and which are conducted in this State, "qualifying expenditures for increasing research activities in this State" means the excess of qualifying expenditures for the taxable year in which incurred over qualifying expenditures for the base period, "qualifying expenditures for the base period" means the average of the qualifying expenditures for each year in the base period, and "base period" means the 3 taxable years immediately preceding the taxable year for which the determination is being made.

Any credit in excess of the tax liability for the taxable year may be carried forward. A taxpayer may elect to have the unused credit shown on its final completed return carried over as a credit against the tax liability for the following 5 taxable years or until it has been fully used, whichever occurs first; provided that no credit may be carried forward to any year ending on or after December 31, 2003.

If an unused credit is carried forward to a given year from 2 or more earlier years, that credit arising in the earliest year will be applied first against the tax liability for the given year. If a tax liability for the given year still remains, the credit from the next earliest year will then be applied, and so on, until all credits have been used or no tax liability for the given year remains. Any remaining unused credit or credits then will be carried forward to the next following year in which a tax liability is incurred, except that no credit can be carried forward to a year which is more than 5 years after the year in which the expense for which the credit is given was incurred.

No inference shall be drawn from this amendatory Act of the 91st General Assembly in construing this Section for taxable years beginning before January 1, 1999.

(l) Environmental Remediation Tax Credit.

(i) For tax years ending after December 31, 1997 and on or before December 31, 2001, a taxpayer shall be allowed a credit against the tax imposed by subsections (a) and (b) of this Section for certain amounts paid for unreimbursed eligible remediation costs, as specified in this subsection. For purposes of this Section, "unreimbursed eligible remediation costs" means costs approved...
by the Illinois Environmental Protection Agency ("Agency") under Section 58.14 of the Environmental Protection Act that were paid in performing environmental remediation at a site for which a No Further Remediation Letter was issued by the Agency and recorded under Section 58.10 of the Environmental Protection Act. The credit must be claimed for the taxable year in which Agency approval of the eligible remediation costs is granted. The credit is not available to any taxpayer if the taxpayer or any related party caused or contributed to, in any material respect, a release of regulated substances on, in, or under the site that was identified and addressed by the remedial action pursuant to the Site Remediation Program of the Environmental Protection Act. After the Pollution Control Board rules are adopted pursuant to the Illinois Administrative Procedure Act for the administration and enforcement of Section 58.9 of the Environmental Protection Act, determinations as to credit availability for purposes of this Section shall be made consistent with those rules. For purposes of this Section, "taxpayer" includes a person whose tax attributes the taxpayer has succeeded to under Section 381 of the Internal Revenue Code and "related party" includes the persons disallowed a deduction for losses by paragraphs (b), (c), and (f)(1) of Section 267 of the Internal Revenue Code by virtue of being a related taxpayer, as well as any of its partners. The credit allowed against the tax imposed by subsections (a) and (b) shall be equal to 25% of the unreimbursed eligible remediation costs in excess of $100,000 per site, except that the $100,000 threshold shall not apply to any site contained in an enterprise zone as determined by the Department of Commerce and Community Affairs (now Department of Commerce and Economic Opportunity). The total credit allowed shall not exceed $40,000 per year with a maximum total of $150,000 per site. For partners and shareholders of subchapter S corporations, there shall be allowed a credit under this subsection to be determined in accordance with the determination of income and distributive share of income under Sections 702 and 704 and subchapter S of the Internal Revenue Code.

(ii) A credit allowed under this subsection that is unused in the year the credit is earned may be carried forward to each of the 5 taxable years following the year for which the credit is first earned

until it is used. The term "unused credit" does not include any amounts of unreimbursed eligible remediation costs in excess of the maximum credit per site authorized under paragraph (i). This credit shall be applied first to the earliest year for which there is a liability. If there is a credit under this subsection from more than one tax year that is available to offset a liability, the earliest credit arising under this subsection shall be applied first. A credit allowed under this subsection may be sold to a buyer as part of a sale of all or part of the remediation site for which the credit was granted. The purchaser of a remediation site and the tax credit shall succeed to the unused credit and remaining carry-forward period of the seller. To perfect the transfer, the assignor shall record the transfer in the chain of title for the site and provide written notice to the Director of the Illinois Department of Revenue of the assignor's intent to sell the remediation site and the amount of the tax credit to be transferred as a portion of the sale. In no event may a credit be transferred to any taxpayer if the taxpayer or a related party would not be eligible under the provisions of subsection (i).

(iii) For purposes of this Section, the term "site" shall have the same meaning as under Section 58.2 of the Environmental Protection Act.

(m) Education expense credit. Beginning with tax years ending after December 31, 1999, a taxpayer who is the custodian of one or more qualifying pupils shall be allowed a credit against the tax imposed by subsections (a) and (b) of this Section for qualified education expenses incurred on behalf of the qualifying pupils. The credit shall be equal to 25% of qualified education expenses, but in no event may the total credit under this subsection claimed by a family that is the custodian of qualifying pupils exceed $500. In no event shall a credit under this subsection reduce the taxpayer's liability under this Act to less than zero. This subsection is exempt from the provisions of Section 250 of this Act.

For purposes of this subsection:

"Qualifying pupils" means individuals who (i) are residents of the State of Illinois, (ii) are under the age of 21 at the close of the school year for which a credit is sought, and (iii) during the school year for which a credit is sought were full-time pupils enrolled in a kindergarten through twelfth grade education program at any school, as defined in this subsection.

New matter indicated by italics - deletions by strikeout.
"Qualified education expense" means the amount incurred on behalf of a qualifying pupil in excess of $250 for tuition, book fees, and lab fees at the school in which the pupil is enrolled during the regular school year.

"School" means any public or nonpublic elementary or secondary school in Illinois that is in compliance with Title VI of the Civil Rights Act of 1964 and attendance at which satisfies the requirements of Section 26-1 of the School Code, except that nothing shall be construed to require a child to attend any particular public or nonpublic school to qualify for the credit under this Section.

"Custodian" means, with respect to qualifying pupils, an Illinois resident who is a parent, the parents, a legal guardian, or the legal guardians of the qualifying pupils.

PUBLIC ACT 93-0873
(House Bill No. 5075)

AN ACT concerning insurance.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:
Section 5. The Illinois Insurance Code is amended by changing Section 229.4 and adding Section 229.4a as follows:
(215 ILCS 5/229.4) (from Ch. 73, par. 841.4)
Sec. 229.4. Standard Non-forfeiture Law for Individual Deferred Annuities.

(1) No contract of annuity issued on or after the operative date of this Section except as stated in subsection (11) shall be delivered or issued for delivery in this State unless it contains in substance the following provisions or corresponding provisions which in the opinion of the Director are at least as favorable to the contract holder upon cessation of payment of considerations under the contract:

(a) That upon cessation of payment of considerations under a contract, the company will grant a paid-up annuity benefit on a

plan stipulated in the contract of such value as is specified in subsections (3), (4), (5), (6) and (8).

(b) If a contract provides for a lump sum settlement at maturity, or at any other time, that upon surrender of the contract at or prior to the commencement of any annuity payments, the company will pay in lieu of any paid-up annuity benefit a cash surrender benefit of such amount as is specified in subsections (3), (4), (6) and (8). The company shall reserve the right to defer the payment of such cash surrender benefit for a period of 6 months after demand therefor with surrender of the contract.

(c) A statement of the mortality table, if any, and interest rates used in calculating any minimum paid-up annuity, cash surrender or death benefits that are guaranteed under the contract, together with sufficient information to determine the amount of such benefits.

(d) A statement that any paid-up annuity, cash surrender or death benefits that may be available under the contract are not less than the minimum benefits required by any statute of the state in which the contract is delivered and an explanation of the manner in which such benefits are altered by the existence of any additional amounts credited by the company to the contract, any indebtedness to the company on the contract or any prior withdrawals from or partial surrenders of the contract.

Notwithstanding the requirements of this subsection, any deferred annuity contract may provide that if no considerations have been received under a contract for a period of 2 full years and the portion of the paid-up annuity benefit at maturity on the plan stipulated in the contract arising from considerations paid prior to such period would be less than $20.00 monthly, the company may at its option terminate such contract by payment in cash of the present value of such portion of the paid-up annuity benefit, calculated on the basis of the mortality table, if any, and interest rate specified in the contract for determining the paid-up annuity benefit, and by such payment shall be relieved of any further obligation under such contract.

(2) The minimum values as specified in subsections (3), (4), (5), (6) and (8) of any paid-up annuity, cash surrender or death benefits available under an annuity contract shall be based upon minimum nonforfeiture amounts as defined in this subsection.

New matter indicated by italics - deletions by strikeout.
(a) With respect to contracts providing for flexible considerations, the minimum nonforfeiture amount at any time at or prior to the commencement of any annuity payments shall be equal to an accumulation up to such time at a rate of interest of 3% per annum of percentages of the net considerations, as hereinafter defined, paid prior to such time, decreased by the sum of (i) any prior withdrawals from or partial surrenders of the contract accumulated at a rate of interest of 3% per annum and (ii) the amount of any indebtedness to the company on the contract, including interest due and accrued, and increased by any existing additional amounts credited by the company to the contract.

The net considerations for a given contract year used to define the minimum nonforfeiture amount shall be an amount not less than zero and shall be equal to the corresponding gross considerations credited to the contract during that contract year less an annual contract charge of $30.00 and less a collection charge of $1.25 per consideration credited to the contract during that contract year. The percentages of net considerations shall be 65% of the net consideration for the first contract year and 87 1/2% of the net considerations for the second and later contract years. Notwithstanding the provisions of the preceding sentence, the percentage shall be 65% of the portion of the total net consideration for any renewal contract year which exceeds by not more than two times the sum of those portions of the net considerations in all prior contract years for which the percentage was 65%.

(a-5) Notwithstanding the provisions of paragraph (a) of this subsection, the minimum nonforfeiture amount for any contract issued on or after July 1, 2002 and before July 1, 2005 shall be based on a rate of interest of 1.5% per annum.

(b) With respect to contracts providing for fixed scheduled considerations, minimum nonforfeiture amounts shall be calculated on the assumption that considerations are paid annually in advance and shall be defined as for contracts with flexible considerations which are paid annually, with two exceptions:

(i) The portion of the net consideration for the first contract year to be accumulated shall be the sum of 65% of the net consideration for the first contract year plus 22 1/2% of the excess of the net consideration for the first contract

New matter indicated by italics - deletions by strikeout.
year over the lesser of the net considerations for the second and third contract years.

(ii) The annual contract charge shall be the lesser of (A) $30.00 or (B) 10% of the gross annual consideration.

(c) With respect to contracts providing for a single consideration, minimum nonforfeiture amounts shall be defined as for contracts with flexible considerations except that the percentage of net consideration used to determine the minimum nonforfeiture amount shall be equal to 90% and the net consideration shall be the gross consideration less a contract charge of $75.00.

(3) Any paid-up annuity benefit available under a contract shall be such that its present value on the date annuity payments are to commence is at least equal to the minimum nonforfeiture amount on that date. Such present value shall be computed using the mortality table, if any, and the interest rate specified in the contract for determining the minimum paid-up annuity benefits guaranteed in the contract.

(4) For contracts which provide cash surrender benefits, such cash surrender benefits available prior to maturity shall not be less than the present value as of the date of surrender of that portion of the maturity value of the paid-up annuity benefit which would be provided under the contract at maturity arising from considerations paid prior to the time of cash surrender reduced by the amount appropriate to reflect any prior withdrawals from or partial surrenders of the contract, such present value being calculated on the basis of an interest rate not more than 1% higher than the interest rate specified in the contract for accumulating the net considerations to determine such maturity value, decreased by the amount of any indebtedness to the company on the contract, including interest due and accrued, and increased by any existing additional amounts credited by the company to the contract. In no event shall any cash surrender benefit be less than the minimum nonforfeiture amount at that time. The death benefit under such contracts shall be at least equal to the cash surrender benefit.

(5) For contracts which do not provide cash surrender benefits, the present value of any paid-up annuity benefit available as a nonforfeiture option at any time prior to maturity shall not be less than the present value of that portion of the maturity value of the paid-up benefit provided under the contract arising from considerations paid prior to the time of the contract is surrendered in exchange for, or changed to, a deferred paid-up annuity, such present value being calculated for the period prior to the

New matter indicated by italics - deletions by strikeout.
maturity date on the basis of the interest rate specified in the contract for accumulating the net considerations to determine such maturity value, and increased by any existing additional amounts credited by the company to the contract. For contracts which do not provide any death benefits prior to the commencement of any annuity payments, such present values shall be calculated on the basis of such interest rate and the mortality table specified in the contract for determining the maturity value of the paid-up annuity benefit. However, in no event shall the present value of a paid-up annuity benefit be less than the minimum nonforfeiture amount at that time.

(6) For the purpose of determining the benefits calculated under subsections (4) and (5), in the case of annuity contracts under which an election may be made to have annuity payments commence at optional maturity dates, the maturity date shall be deemed to be the latest date for which election shall be permitted by the contract, but shall not be deemed to be later than the anniversary of the contract next following the annuitant's seventieth birthday or the tenth anniversary of the contract, whichever is later.

(7) Any contract which does not provide cash surrender benefits or does not provide death benefits at least equal to the minimum nonforfeiture amount prior to the commencement of any annuity payments shall include a statement in a prominent place in the contract that such benefits are not provided.

(8) Any paid-up annuity, cash surrender or death benefits available at any time, other than on the contract anniversary under any contract with fixed scheduled considerations, shall be calculated with allowance for the lapse of time and the payment of any scheduled considerations beyond the beginning of the contract year in which cessation of payment of considerations under the contract occurs.

(9) For any contract which provides, within the same contract by rider or supplemental contract provision, both annuity benefits and life insurance benefits that are in excess of the greater of cash surrender benefits or a return of the gross considerations with interest, the minimum nonforfeiture benefits shall be equal to the sum of the minimum nonforfeiture benefits for the annuity portion and the minimum nonforfeiture benefits, if any, for the life insurance portion computed as if each portion were a separate contract. Notwithstanding the provisions of subsections (3), (4), (5), (6) and (8), additional benefits payable (a) in the event of total and permanent disability, (b) as reversionary annuity or

New matter indicated by italics - deletions by strikeout.
deferred reversionary annuity benefits, or (c) as other policy benefits additional to life insurance, endowment, and annuity benefits, and considerations for all such additional benefits, shall be disregarded in ascertaining the minimum nonforfeiture amounts, paid-up annuity, cash surrender and death benefits that may be required by this section. The inclusion of such additional benefits shall not be required in any paid-up benefits, unless such additional benefits separately would require minimum nonforfeiture amounts, paid-up annuity, cash surrender and death benefits.

(10) After the effective date of this Section, any company may file with the Director a written notice of its election to comply with the provisions of this Section after a specified date before the second anniversary of the effective date of this Section. After the filing of such notice, then upon such specified date, which shall be the operative date of this section for such company, this Section shall become operative with respect to annuity contracts thereafter issued by such company. If a company makes no such election, the operative date of this section for such company shall be the second anniversary of the effective date of this Section.

(11) This Section shall not apply to any reinsurance, group annuity purchased under a retirement plan or plan of deferred compensation established or maintained by an employer (including a partnership or sole proprietorship) or by an employee organization, or by both, other than a plan providing individual retirement accounts or individual retirement annuities under Section 408 of the Internal Revenue Code, as now or hereafter amended, premium deposit fund, variable annuity, investment annuity, immediate annuity, any deferred annuity contract after annuity payments have commenced, or reversionary annuity, nor to any contract which shall be delivered outside this State through an agent or other representative of the company issuing the contract.

(12) This Section is repealed on July 1, 2006.

(3) Nonforfeiture Requirements.

(A) In the case of contracts issued on or after the operative date of this Section as defined in subsection (13), no contract of annuity, except as stated in subsection (2), shall be delivered or issued for delivery in this State unless it contains in substance the following provisions, or corresponding provisions which in the opinion of the Director of Insurance are at least as favorable to the contract holder, upon cessation of payment of considerations under the contract:

(i) That upon cessation of payment of considerations under a contract, or upon the written request of the contract owner, the company shall grant a paid-up annuity benefit on a plan stipulated in the contract of such value as is specified in subsections (5), (6), (7), (8) and (10);

(ii) If a contract provides for a lump sum settlement at maturity, or at any other time, that upon surrender of the contract at or prior to the commencement of any annuity payments, the company shall pay in lieu of a paid-up annuity benefit a cash surrender benefit of such amount as is specified in subsections (5), (6), (8) and (10). The company may reserve the right to defer the payment of the cash surrender benefit for a period not to exceed 6 months after demand therefor with surrender of the contract after making written request and receiving written approval of the Director. The request shall address the necessity and equitability to all policyholders of the deferral;

annuity, cash surrender, or death benefits that are guaranteed under the contract, together with sufficient information to determine the amounts of the benefits; and

(iv) A statement that any paid-up annuity, cash surrender or death benefits that may be available under the contract are not less than the minimum benefits required by any statute of the state in which the contract is delivered and an explanation of the manner in which the benefits are altered by the existence of any additional amounts credited by the company to the contract, any indebtedness to the company on the contract or any prior withdrawals from or partial surrenders of the contract.

(B) Notwithstanding the requirements of this Section, a deferred annuity contract may provide that if no considerations have been received under a contract for a period of 2 full years and the portion of the paid-up annuity benefit at maturity on the plan stipulated in the contract arising from prior considerations paid would be less than $20 monthly, the company may at its option terminate the contract by payment in cash of the then present value of the portion of the paid-up annuity benefit, calculated on the basis on the mortality table, if any, and interest rate specified in the contract for determining the paid-up annuity benefit, and by this payment shall be relieved of any further obligation under the contract.

(4) Minimum values. The minimum values as specified in subsections (5), (6), (7), (8) and (10) of any paid-up annuity, cash surrender or death benefits available under an annuity contract shall be based upon minimum nonforfeiture amounts as defined in this subsection.

(A)(i) The minimum nonforfeiture amount at any time at or prior to the commencement of any annuity payments shall be equal to an accumulation up to such time at rates of interest as indicated in subdivision (4)(B) of the net considerations (as hereinafter defined) paid prior to such time, decreased by the sum of paragraphs (a) through (d) below:

(a) Any prior withdrawals from or partial surrenders of the contract accumulated at rates of interest as indicated in subdivision (4)(B);

(b) An annual contract charge of $50, accumulated at rates of interest as indicated in subdivision (4)(B);

(c) Any premium tax paid by the company for the contract, accumulated at rates of interest as indicated in subdivision (4)(B); and

(d) The amount of any indebtedness to the company on the contract, including interest due and accrued.

(ii) The net considerations for a given contract year used to define the minimum nonforfeiture amount shall be an amount equal to 87.5% of the gross considerations, credited to the contract during that contract year.

(B) The interest rate used in determining minimum nonforfeiture amounts shall be an annual rate of interest determined as the lesser of 3% per annum and the following, which shall be specified in the contract if the interest rate will be reset:

(i) The five-year Constant Maturity Treasury Rate reported by the Federal Reserve as of a date, or average over a period, rounded to the nearest 1/20th of one percent, specified in the contract no longer than 15 months prior to the contract issue date or redetermination date under subdivision (4)(B)(iv);

(ii) Reduced by 125 basis points;

(iii) Where the resulting interest rate is not less than 1%; and

(iv) The interest rate shall apply for an initial period and may be redetermined for additional periods. The redetermination date, basis and period, if any, shall be stated in the contract. The basis is the date or average over a specified period that produces the value of the 5-year Constant Maturity Treasury Rate to be used at each redetermination date.

(C) During the period or term that a contract provides substantive participation in an equity indexed benefit, it may increase the reduction described in subdivision (4)(B)(ii) above by up to an additional 100 basis points to reflect the value of the equity index benefit. The present value at the contract issue date, and at each redetermination date thereafter, of the additional reduction shall not exceed market value of the benefit. The Director may require a demonstration that the present value of the additional reduction does not exceed the market value of the benefit. Lacking such a demonstration that is acceptable to the

Director, the Director may disallow or limit the additional reduction.

(D) The Director may adopt rules to implement the provisions of subdivision (4)(C) and to provide for further adjustments to the calculation of minimum nonforfeiture amounts for contracts that provide substantive participation in an equity index benefit and for other contracts that the Director determines adjustments are justified.

(5) Computation of Present Value. Any paid-up annuity benefit available under a contract shall be such that its present value on the date annuity payments are to commence is at least equal to the minimum nonforfeiture amount on that date. Present value shall be computed using the mortality table, if any, and the interest rates specified in the contract for determining the minimum paid-up annuity benefits guaranteed in the contract.

(6) Calculation of Cash Surrender Value. For contracts that provide cash surrender benefits, the cash surrender benefits available prior to maturity shall not be less than the present value as of the date of surrender of that portion of the maturity value of the paid-up annuity benefit that would be provided under the contract at maturity arising from considerations paid prior to the time of cash surrender reduced by the amount appropriate to reflect any prior withdrawals from or partial surrenders of the contract, such present value being calculated on the basis of an interest rate not more than 1% higher than the interest rate specified in the contract for accumulating the net considerations to determine maturity value, decreased by the amount of any indebtedness to the company on the contract, including interest due and accrued, and increased by any existing additional amounts credited by the company to the contract. In no event shall any cash surrender benefit be less than the minimum nonforfeiture amount at that time. The death benefit under such contracts shall be at least equal to the cash surrender benefit.

(7) Calculation of Paid-up Annuity Benefits. For contracts that do not provide cash surrender benefits, the present value of any paid-up annuity benefit available as a nonforfeiture option at any time prior to maturity shall not be less than the present value of that portion of the maturity value of the paid-up annuity benefit provided under the contract arising from considerations paid prior to the time the contract is surrendered in exchange for, or changed to, a deferred paid-up annuity, such present value being calculated for the period prior to the maturity

date on the basis of the interest rate specified in the contract for accumulating the net considerations to determine maturity value, and increased by any additional amounts credited by the company to the contract. For contracts that do not provide any death benefits prior to the commencement of any annuity payments, present values shall be calculated on the basis of such interest rate and the mortality table specified in the contract for determining the maturity value of the paid-up annuity benefit. However, in no event shall the present value of a paid-up annuity benefit be less than the minimum nonforfeiture amount at that time.

(8) Maturity Date. For the purpose of determining the benefits calculated under subsections (6) and (7), in the case of annuity contracts under which an election may be made to have annuity payments commence at optional maturity dates, the maturity date shall be deemed to be the latest date for which election shall be permitted by the contract, but shall not be deemed to be later than the anniversary of the contract next following the annuitant's seventieth birthday or the tenth anniversary of the contract, whichever is later.

(9) Disclosure of Limited Death Benefits. A contract that does not provide cash surrender benefits or does not provide death benefits at least equal to the minimum nonforfeiture amount prior to the commencement of any annuity payments shall include a statement in a prominent place in the contract that such benefits are not provided.

(10) Inclusion of Lapse of Time Considerations. Any paid-up annuity, cash surrender or death benefits available at any time, other than on the contract anniversary under any contract with fixed scheduled considerations, shall be calculated with allowance for the lapse of time and the payment of any scheduled considerations beyond the beginning of the contract year in which cessation of payment of considerations under the contract occurs.

(11) Proration of Values; Additional Benefits. For a contract which provides, within the same contract by rider or supplemental contract provision, both annuity benefits and life insurance benefits that are in excess of the greater of cash surrender benefits or a return of the gross considerations with interest, the minimum nonforfeiture benefits shall be equal to the sum of the minimum nonforfeiture benefits for the annuity portion and the minimum nonforfeiture benefits, if any, for the life insurance portion computed as if each portion were a separate contract. Notwithstanding the provisions of subsections (5), (6), (7), (8) and (10),

additional benefits payable in the event of total and permanent disability, as reversionary annuity or deferred reversionary annuity benefits, or as other policy benefits additional to life insurance, endowment and annuity benefits, and considerations for all such additional benefits, shall be disregarded in ascertaining the minimum nonforfeiture amounts, paid-up annuity, cash surrender and death benefits that may be required under this Section. The inclusion of such benefits shall not be required in any paid-up benefits, unless the additional benefits separately would require minimum nonforfeiture amounts, paid-up annuity, cash surrender and death benefits.

(12) Rules. The Director may adopt rules to implement the provisions of this Section.

(13) Effective Date. After the effective date of this amendatory Act of the 93rd General Assembly, a company may elect to apply its provisions to annuity contracts on a contract form-by-contract form basis before July 1, 2006. In all other instances, this Section shall become operative with respect to annuity contracts issued by the company on or after July 1, 2006.

PUBLIC ACT 93-0874
(Senate Bill No. 1914)

AN ACT in relation to economic development.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. Short title. This Act may be cited as the Western Illinois Economic Development Authority Act.

Section 10. Findings. The General Assembly determines and declares the following:
(1) that labor surplus areas currently exist in western Illinois;
(2) that the economic burdens resulting from involuntary unemployment fall, in part, upon the State in the form of increased need for public assistance and reduced tax revenues and, in the event that the unemployed worker and his or her family migrate elsewhere to find work,

New matter indicated by italics - deletions by strikeout.
the burden may also fall upon the municipalities and other taxing districts within the areas of unemployment in the form of reduced tax revenues, thereby endangering their financial ability to support necessary governmental services for their remaining inhabitants;

(3) that the State has a responsibility to help create a favorable climate for new and improved job opportunities for its citizens by encouraging the development of commercial and service businesses and industrial and manufacturing plants within the western region of Illinois;

(4) that a lack of decent housing contributes to urban blight, crime, anti-social behavior, disease, a higher need for public assistance, reduced tax revenues, and the migration of workers and their families away from areas which fail to offer adequate, decent, and affordable housing;

(5) that decent, affordable housing is a necessary ingredient of life affording each citizen basic human dignity, a sense of self-worth, confidence, and a firm foundation upon which to build a family and educate children;

(6) that in order to foster civic and neighborhood pride, citizens require access to educational institutions, recreation, parks and open spaces, entertainment, sports, a reliable transportation network, cultural facilities, and theaters; and

(7) that the main purpose of this Act is to promote industrial, commercial, residential, service, transportation, and recreational activities and facilities, thereby reducing the evils attendant upon unemployment and enhancing the public health, safety, morals, happiness, and general welfare of the State.

In addition, the State pledges to and agrees with the holders of the bonds and notes of the Authority issued pursuant to this Section that the State will not limit or alter the basis on which State funds are to be paid to the Authority as provided in this Act, or the use of such funds, so as to impair the terms of any such contract. The exemption from taxation provided by the preceding sentence shall apply to the income on any notes or bonds of the Authority only if the Authority in its sole judgment determines that the exemption enhances the marketability of the bonds or notes or reduces the interest rates that would otherwise be borne by the bonds or notes. For purposes of Section 250 of the Illinois Income Tax Act, the exemption of the Authority shall terminate after all of the bonds have been paid. The amount of such income that shall be added and then subtracted on the Illinois income tax return of a taxpayer, subject to Section 203 of the Illinois Income Tax Act, from federal adjusted gross income or federal taxable income in computing Illinois base income shall be the interest net of any bond premium amortization.

A subsidiary corporation formed pursuant to this paragraph shall (i) be deemed a telecommunications carrier, as that term is defined in Section 13-202 of the Public Utilities Act, (ii) have the right to apply to the Illinois Commerce Commission for a Certificate of Service Authority or a Certificate of Interexchange Service Authority, and (iii) have the powers necessary to carry out lawful orders of the Illinois Commerce Commission;

28. To improve, develop, or redevelop any former military base situated within the boundaries of the District, in Madison County, Illinois, and acquired by the District from the federal government, acting by and through the United States Maritime Administration, pursuant to any plan for redevelopment, development, or improvement of that military base by the District that is approved by the United States Maritime Administration under the terms and conditions of conveyance of the former military base to the District by the federal government.

Section 999. Effective date. This Act takes effect upon becoming law.

Approved August 6, 2004.
Effective August 6, 2004.

PUBLIC ACT 93-0875
(Senate Bill No. 2362)

AN ACT concerning education.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The School Code is amended by changing Section 18-8.05 as follows:

(105 ILCS 5/18-8.05)
Sec. 18-8.05. Basis for apportionment of general State financial aid and supplemental general State aid to the common schools for the 1998-1999 and subsequent school years.

New matter indicated by italics - deletions by strikeout.
(A) General Provisions.

(1) The provisions of this Section apply to the 1998-1999 and subsequent school years. The system of general State financial aid provided for in this Section is designed to assure that, through a combination of State financial aid and required local resources, the financial support provided each pupil in Average Daily Attendance equals or exceeds a prescribed per pupil Foundation Level. This formula approach imputes a level of per pupil Available Local Resources and provides for the basis to calculate a per pupil level of general State financial aid that, when added to Available Local Resources, equals or exceeds the Foundation Level. The amount of per pupil general State financial aid for school districts, in general, varies in inverse relation to Available Local Resources. Per pupil amounts are based upon each school district's Average Daily Attendance as that term is defined in this Section.

(2) In addition to general State financial aid, school districts with specified levels or concentrations of pupils from low income households are eligible to receive supplemental general State financial aid grants as provided pursuant to subsection (H). The supplemental State aid grants provided for school districts under subsection (H) shall be appropriated for distribution to school districts as part of the same line item in which the general State financial aid of school districts is appropriated under this Section.

(3) To receive financial assistance under this Section, school districts are required to file claims with the State Board of Education, subject to the following requirements:

(a) Any school district which fails for any given school year to maintain school as required by law, or to maintain a recognized school is not eligible to file for such school year any claim upon the Common School Fund. In case of nonrecognition of one or more attendance centers in a school district otherwise operating recognized schools, the claim of the district shall be reduced in the proportion which the Average Daily Attendance in the attendance center or centers bear to the Average Daily Attendance in the school district. A "recognized school" means any public school which meets the standards as established for recognition by the State Board of Education. A school district or attendance center not having recognition status at the end of a school term is entitled to receive State aid payments due upon a legal claim which was filed while it was recognized.

New matter indicated by italics - deletions by strikeout.
(b) School district claims filed under this Section are subject to Sections 18-9, 18-10, and 18-12, except as otherwise provided in this Section.

(c) If a school district operates a full year school under Section 10-19.1, the general State aid to the school district shall be determined by the State Board of Education in accordance with this Section as near as may be applicable.

(d) (Blank).

(4) Except as provided in subsections (H) and (L), the board of any district receiving any of the grants provided for in this Section may apply those funds to any fund so received for which that board is authorized to make expenditures by law. School districts are not required to exert a minimum Operating Tax Rate in order to qualify for assistance under this Section.

(5) As used in this Section the following terms, when capitalized, shall have the meaning ascribed herein:

(a) "Average Daily Attendance": A count of pupil attendance in school, averaged as provided for in subsection (C) and utilized in deriving per pupil financial support levels.

(b) "Available Local Resources": A computation of local financial support, calculated on the basis of Average Daily Attendance and derived as provided pursuant to subsection (D).

(c) "Corporate Personal Property Replacement Taxes": Funds paid to local school districts pursuant to "An Act in relation to the abolition of ad valorem personal property tax and the replacement of revenues lost thereby, and amending and repealing certain Acts and parts of Acts in connection therewith", certified August 14, 1979, as amended (Public Act 81-1st S.S.-1).

(d) "Foundation Level": A prescribed level of per pupil financial support as provided for in subsection (B).

(e) "Operating Tax Rate": All school district property taxes extended for all purposes, except Bond and Interest, Summer School, Rent, Capital Improvement, and Vocational Education Building purposes.

(B) Foundation Level.

(1) The Foundation Level is a figure established by the State representing the minimum level of per pupil financial support that should be available to provide for the basic education of each pupil in Average Daily Attendance. As set forth in this Section, each school district is

New matter indicated by italics - deletions by strikeout.
assumed to exert a sufficient local taxing effort such that, in combination with the aggregate of general State financial aid provided the district, an aggregate of State and local resources are available to meet the basic education needs of pupils in the district.

(2) For the 1998-1999 school year, the Foundation Level of support is $4,225. For the 1999-2000 school year, the Foundation Level of support is $4,325. For the 2000-2001 school year, the Foundation Level of support is $4,425.

(3) For the 2001-2002 school year and 2002-2003 school year, the Foundation Level of support is $4,560.

(4) For the 2003-2004 school year and each school year thereafter, the Foundation Level of support is $4,810 or such greater amount as may be established by law by the General Assembly.

(C) Average Daily Attendance.

(1) For purposes of calculating general State aid pursuant to subsection (E), an Average Daily Attendance figure shall be utilized. The Average Daily Attendance figure for formula calculation purposes shall be the monthly average of the actual number of pupils in attendance of each school district, as further averaged for the best 3 months of pupil attendance for each school district. In compiling the figures for the number of pupils in attendance, school districts and the State Board of Education shall, for purposes of general State aid funding, conform attendance figures to the requirements of subsection (F).

(2) The Average Daily Attendance figures utilized in subsection (E) shall be the requisite attendance data for the school year immediately preceding the school year for which general State aid is being calculated or the average of the attendance data for the 3 preceding school years, whichever is greater. The Average Daily Attendance figures utilized in subsection (H) shall be the requisite attendance data for the school year immediately preceding the school year for which general State aid is being calculated.

(D) Available Local Resources.

(1) For purposes of calculating general State aid pursuant to subsection (E), a representation of Available Local Resources per pupil, as that term is defined and determined in this subsection, shall be utilized. Available Local Resources per pupil shall include a calculated dollar amount representing local school district revenues from local property taxes and from Corporate Personal Property Replacement Taxes, expressed on the basis of pupils in Average Daily Attendance. Calculation

New matter indicated by italics - deletions by strikeout.
of Available Local Resources shall exclude any tax amnesty funds received as a result of Public Act 93-26.

(2) In determining a school district's revenue from local property taxes, the State Board of Education shall utilize the equalized assessed valuation of all taxable property of each school district as of September 30 of the previous year. The equalized assessed valuation utilized shall be obtained and determined as provided in subsection (G).

(3) For school districts maintaining grades kindergarten through 12, local property tax revenues per pupil shall be calculated as the product of the applicable equalized assessed valuation for the district multiplied by 3.00%, and divided by the district's Average Daily Attendance figure. For school districts maintaining grades kindergarten through 8, local property tax revenues per pupil shall be calculated as the product of the applicable equalized assessed valuation for the district multiplied by 2.30%, and divided by the district's Average Daily Attendance figure. For school districts maintaining grades 9 through 12, local property tax revenues per pupil shall be the applicable equalized assessed valuation of the district multiplied by 1.05%, and divided by the district's Average Daily Attendance figure.

(4) The Corporate Personal Property Replacement Taxes paid to each school district during the calendar year 2 years before the calendar year in which a school year begins, divided by the Average Daily Attendance figure for that district, shall be added to the local property tax revenues per pupil as derived by the application of the immediately preceding paragraph (3). The sum of these per pupil figures for each school district shall constitute Available Local Resources as that term is utilized in subsection (E) in the calculation of general State aid.

(E) Computation of General State Aid.

(1) For each school year, the amount of general State aid allotted to a school district shall be computed by the State Board of Education as provided in this subsection.

(2) For any school district for which Available Local Resources per pupil is less than the product of 0.93 times the Foundation Level, general State aid for that district shall be calculated as an amount equal to the Foundation Level minus Available Local Resources, multiplied by the Average Daily Attendance of the school district.

(3) For any school district for which Available Local Resources per pupil is equal to or greater than the product of 0.93 times the Foundation Level and less than the product of 1.75 times the Foundation Level, the

New matter indicated by italics - deletions by strikeout.
general State aid per pupil shall be a decimal proportion of the Foundation Level derived using a linear algorithm. Under this linear algorithm, the calculated general State aid per pupil shall decline in direct linear fashion from 0.07 times the Foundation Level for a school district with Available Local Resources equal to the product of 0.93 times the Foundation Level, to 0.05 times the Foundation Level for a school district with Available Local Resources equal to the product of 1.75 times the Foundation Level. The allocation of general State aid for school districts subject to this paragraph 3 shall be the calculated general State aid per pupil figure multiplied by the Average Daily Attendance of the school district.

(4) For any school district for which Available Local Resources per pupil equals or exceeds the product of 1.75 times the Foundation Level, the general State aid for the school district shall be calculated as the product of $218 multiplied by the Average Daily Attendance of the school district.

(5) The amount of general State aid allocated to a school district for the 1999-2000 school year meeting the requirements set forth in paragraph (4) of subsection (G) shall be increased by an amount equal to the general State aid that would have been received by the district for the 1998-1999 school year by utilizing the Extension Limitation Equalized Assessed Valuation as calculated in paragraph (4) of subsection (G) less the general State aid allotted for the 1998-1999 school year. This amount shall be deemed a one time increase, and shall not affect any future general State aid allocations.

(F) Compilation of Average Daily Attendance.

(1) Each school district shall, by July 1 of each year, submit to the State Board of Education, on forms prescribed by the State Board of Education, attendance figures for the school year that began in the preceding calendar year. The attendance information so transmitted shall identify the average daily attendance figures for each month of the school year. Beginning with the general State aid claim form for the 2002-2003 school year, districts shall calculate Average Daily Attendance as provided in subdivisions (a), (b), and (c) of this paragraph (1).

(a) In districts that do not hold year-round classes, days of attendance in August shall be added to the month of September and any days of attendance in June shall be added to the month of May.

(b) In districts in which all buildings hold year-round classes, days of attendance in July and August shall be added to the
month of September and any days of attendance in June shall be added to the month of May.

(c) In districts in which some buildings, but not all, hold year-round classes, for the non-year-round buildings, days of attendance in August shall be added to the month of September and any days of attendance in June shall be added to the month of May. The average daily attendance for the year-round buildings shall be computed as provided in subdivision (b) of this paragraph (1). To calculate the Average Daily Attendance for the district, the average daily attendance for the year-round buildings shall be multiplied by the days in session for the non-year-round buildings for each month and added to the monthly attendance of the non-year-round buildings.

Except as otherwise provided in this Section, days of attendance by pupils shall be counted only for sessions of not less than 5 clock hours of school work per day under direct supervision of: (i) teachers, or (ii) non-teaching personnel or volunteer personnel when engaging in non-teaching duties and supervising in those instances specified in subsection (a) of Section 10-22.34 and paragraph 10 of Section 34-18, with pupils of legal school age and in kindergarten and grades 1 through 12.

Days of attendance by tuition pupils shall be accredited only to the districts that pay the tuition to a recognized school.

(2) Days of attendance by pupils of less than 5 clock hours of school shall be subject to the following provisions in the compilation of Average Daily Attendance.

(a) Pupils regularly enrolled in a public school for only a part of the school day may be counted on the basis of 1/6 day for every class hour of instruction of 40 minutes or more attended pursuant to such enrollment, unless a pupil is enrolled in a block-schedule format of 80 minutes or more of instruction, in which case the pupil may be counted on the basis of the proportion of minutes of school work completed each day to the minimum number of minutes that school work is required to be held that day.

(b) Days of attendance may be less than 5 clock hours on the opening and closing of the school term, and upon the first day of pupil attendance, if preceded by a day or days utilized as an institute or teachers' workshop.

(c) A session of 4 or more clock hours may be counted as a day of attendance upon certification by the regional superintendent,

New matter indicated by italics - deletions by strikeout.
and approved by the State Superintendent of Education to the extent that the district has been forced to use daily multiple sessions.

(d) A session of 3 or more clock hours may be counted as a day of attendance (1) when the remainder of the school day or at least 2 hours in the evening of that day is utilized for an in-service training program for teachers, up to a maximum of 5 days per school year of which a maximum of 4 days of such 5 days may be used for parent-teacher conferences, provided a district conducts an in-service training program for teachers which has been approved by the State Superintendent of Education; or, in lieu of 4 such days, 2 full days may be used, in which event each such day may be counted as a day of attendance; and (2) when days in addition to those provided in item (1) are scheduled by a school pursuant to its school improvement plan adopted under Article 34 or its revised or amended school improvement plan adopted under Article 2, provided that (i) such sessions of 3 or more clock hours are scheduled to occur at regular intervals, (ii) the remainder of the school days in which such sessions occur are utilized for in-service training programs or other staff development activities for teachers, and (iii) a sufficient number of minutes of school work under the direct supervision of teachers are added to the school days between such regularly scheduled sessions to accumulate not less than the number of minutes by which such sessions of 3 or more clock hours fall short of 5 clock hours. Any full days used for the purposes of this paragraph shall not be considered for computing average daily attendance. Days scheduled for in-service training programs, staff development activities, or parent-teacher conferences may be scheduled separately for different grade levels and different attendance centers of the district.

(e) A session of not less than one clock hour of teaching hospitalized or homebound pupils on-site or by telephone to the classroom may be counted as 1/2 day of attendance, however these pupils must receive 4 or more clock hours of instruction to be counted for a full day of attendance.

(f) A session of at least 4 clock hours may be counted as a day of attendance for first grade pupils, and pupils in full day kindergartens, and a session of 2 or more hours may be counted as

New matter indicated by italics - deletions by strikeout.
1/2 day of attendance by pupils in kindergartens which provide only 1/2 day of attendance.

(g) For children with disabilities who are below the age of 6 years and who cannot attend 2 or more clock hours because of their disability or immaturity, a session of not less than one clock hour may be counted as 1/2 day of attendance; however for such children whose educational needs so require a session of 4 or more clock hours may be counted as a full day of attendance.

(h) A recognized kindergarten which provides for only 1/2 day of attendance by each pupil shall not have more than 1/2 day of attendance counted in any one day. However, kindergartens may count 2 1/2 days of attendance in any 5 consecutive school days. When a pupil attends such a kindergarten for 2 half days on any one school day, the pupil shall have the following day as a day absent from school, unless the school district obtains permission in writing from the State Superintendent of Education. Attendance at kindergartens which provide for a full day of attendance by each pupil shall be counted the same as attendance by first grade pupils. Only the first year of attendance in one kindergarten shall be counted, except in case of children who entered the kindergarten in their fifth year whose educational development requires a second year of kindergarten as determined under the rules and regulations of the State Board of Education.

(G) Equalized Assessed Valuation Data.

(1) For purposes of the calculation of Available Local Resources required pursuant to subsection (D), the State Board of Education shall secure from the Department of Revenue the value as equalized or assessed by the Department of Revenue of all taxable property of every school district, together with (i) the applicable tax rate used in extending taxes for the funds of the district as of September 30 of the previous year and (ii) the limiting rate for all school districts subject to property tax extension limitations as imposed under the Property Tax Extension Limitation Law.

This equalized assessed valuation, as adjusted further by the requirements of this subsection, shall be utilized in the calculation of Available Local Resources.

(2) The equalized assessed valuation in paragraph (1) shall be adjusted, as applicable, in the following manner:

(a) For the purposes of calculating State aid under this Section, with respect to any part of a school district within a
redevelopment project area in respect to which a municipality has adopted tax increment allocation financing pursuant to the Tax Increment Allocation Redevelopment Act, Sections 11-74.4-1 through 11-74.4-11 of the Illinois Municipal Code or the Industrial Jobs Recovery Law, Sections 11-74.6-1 through 11-74.6-50 of the Illinois Municipal Code, no part of the current equalized assessed valuation of real property located in any such project area which is attributable to an increase above the total initial equalized assessed valuation of such property shall be used as part of the equalized assessed valuation of the district, until such time as all redevelopment project costs have been paid, as provided in Section 11-74.4-8 of the Tax Increment Allocation Redevelopment Act or in Section 11-74.6-35 of the Industrial Jobs Recovery Law. For the purpose of the equalized assessed valuation of the district, the total initial equalized assessed valuation or the current equalized assessed valuation, whichever is lower, shall be used until such time as all redevelopment project costs have been paid.

(b) The real property equalized assessed valuation for a school district shall be adjusted by subtracting from the real property value as equalized or assessed by the Department of Revenue for the district an amount computed by dividing the amount of any abatement of taxes under Section 18-170 of the Property Tax Code by 3.00% for a district maintaining grades kindergarten through 12, by 2.30% for a district maintaining grades kindergarten through 8, or by 1.05% for a district maintaining grades 9 through 12 and adjusted by an amount computed by dividing the amount of any abatement of taxes under subsection (a) of Section 18-165 of the Property Tax Code by the same percentage rates for district type as specified in this subparagraph (b).

(3) For the 1999-2000 school year and each school year thereafter, if a school district meets all of the criteria of this subsection (G)(3), the school district's Available Local Resources shall be calculated under subsection (D) using the district's Extension Limitation Equalized Assessed Valuation as calculated under this subsection (G)(3).

For purposes of this subsection (G)(3) the following terms shall have the following meanings:

"Budget Year": The school year for which general State aid is calculated and awarded under subsection (E).

New matter indicated by italics - deletions by strikeout.
"Base Tax Year": The property tax levy year used to calculate the Budget Year allocation of general State aid.

"Preceding Tax Year": The property tax levy year immediately preceding the Base Tax Year.

"Base Tax Year's Tax Extension": The product of the equalized assessed valuation utilized by the County Clerk in the Base Tax Year multiplied by the limiting rate as calculated by the County Clerk and defined in the Property Tax Extension Limitation Law.

"Preceding Tax Year's Tax Extension": The product of the equalized assessed valuation utilized by the County Clerk in the Preceding Tax Year multiplied by the Operating Tax Rate as defined in subsection (A).

"Extension Limitation Ratio": A numerical ratio, certified by the County Clerk, in which the numerator is the Base Tax Year's Tax Extension and the denominator is the Preceding Tax Year's Tax Extension.

"Operating Tax Rate": The operating tax rate as defined in subsection (A).

If a school district is subject to property tax extension limitations as imposed under the Property Tax Extension Limitation Law, the State Board of Education shall calculate the Extension Limitation Equalized Assessed Valuation of that district. For the 1999-2000 school year, the Extension Limitation Equalized Assessed Valuation of a school district as calculated by the State Board of Education shall be equal to the product of the district's 1996 Equalized Assessed Valuation and the district's Extension Limitation Ratio. For the 2000-2001 school year and each school year thereafter, the Extension Limitation Equalized Assessed Valuation of a school district as calculated by the State Board of Education shall be equal to the product of the Equalized Assessed Valuation last used in the calculation of general State aid and the district's Extension Limitation Ratio. If the Extension Limitation Equalized Assessed Valuation of a school district as calculated under this subsection (G)(3) is less than the district's equalized assessed valuation as calculated pursuant to subsections (G)(1) and (G)(2), then for purposes of calculating the district's general State aid for the Budget Year pursuant to subsection (E), that Extension Limitation Equalized Assessed Valuation shall be utilized to calculate the district's Available Local Resources under subsection (D).
(4) For the purposes of calculating general State aid for the 1999-2000 school year only, if a school district experienced a triennial reassessment on the equalized assessed valuation used in calculating its general State financial aid apportionment for the 1998-1999 school year, the State Board of Education shall calculate the Extension Limitation Equalized Assessed Valuation that would have been used to calculate the district's 1998-1999 general State aid. This amount shall equal the product of the equalized assessed valuation used to calculate general State aid for the 1997-1998 school year and the district's Extension Limitation Ratio. If the Extension Limitation Equalized Assessed Valuation of the school district as calculated under this paragraph (4) is less than the district's equalized assessed valuation utilized in calculating the district's 1998-1999 general State aid allocation, then for purposes of calculating the district's general State aid pursuant to paragraph (5) of subsection (E), that Extension Limitation Equalized Assessed Valuation shall be utilized to calculate the district's Available Local Resources.

(5) For school districts having a majority of their equalized assessed valuation in any county except Cook, DuPage, Kane, Lake, McHenry, or Will, if the amount of general State aid allocated to the school district for the 1999-2000 school year under the provisions of subsection (E), (H), and (J) of this Section is less than the amount of general State aid allocated to the district for the 1998-1999 school year under these subsections, then the general State aid of the district for the 1999-2000 school year only shall be increased by the difference between these amounts. The total payments made under this paragraph (5) shall not exceed $14,000,000. Claims shall be prorated if they exceed $14,000,000.

(H) Supplemental General State Aid.

(1) In addition to the general State aid a school district is allotted pursuant to subsection (E), qualifying school districts shall receive a grant, paid in conjunction with a district's payments of general State aid, for supplemental general State aid based upon the concentration level of children from low-income households within the school district. Supplemental State aid grants provided for school districts under this subsection shall be appropriated for distribution to school districts as part of the same line item in which the general State financial aid of school districts is appropriated under this Section. If the appropriation in any fiscal year for general State aid and supplemental general State aid is insufficient to pay the amounts required under the general State aid and supplemental general State aid calculations, then the State Board of
Education shall ensure that each school district receives the full amount due for general State aid and the remainder of the appropriation shall be used for supplemental general State aid, which the State Board of Education shall calculate and pay to eligible districts on a prorated basis.

(1.5) This paragraph (1.5) applies only to those school years preceding the 2003-2004 school year. For purposes of this subsection (H), the term "Low-Income Concentration Level" shall be the low-income eligible pupil count from the most recently available federal census divided by the Average Daily Attendance of the school district. If, however, (i) the percentage decrease from the 2 most recent federal censuses in the low-income eligible pupil count of a high school district with fewer than 400 students exceeds by 75% or more the percentage change in the total low-income eligible pupil count of contiguous elementary school districts, whose boundaries are coterminous with the high school district, or (ii) a high school district within 2 counties and serving 5 elementary school districts, whose boundaries are coterminous with the high school district, has a percentage decrease from the 2 most recent federal censuses in the low-income eligible pupil count and there is a percentage increase in the total low-income eligible pupil count of a majority of the elementary school districts in excess of 50% from the 2 most recent federal censuses, then the high school district's low-income eligible pupil count from the earlier federal census shall be the number used as the low-income eligible pupil count for the high school district, for purposes of this subsection (H). The changes made to this paragraph (1) by Public Act 92-28 shall apply to supplemental general State aid grants for school years preceding the 2003-2004 school year that are paid in fiscal year 1999 or thereafter and to any State aid payments made in fiscal year 1994 through fiscal year 1998 pursuant to subsection 1(n) of Section 18-8 of this Code (which was repealed on July 1, 1998), and any high school district that is affected by Public Act 92-28 is entitled to a recomputation of its supplemental general State aid grant or State aid paid in any of those fiscal years. This recomputation shall not be affected by any other funding.

(1.10) This paragraph (1.10) applies to the 2003-2004 school year and each school year thereafter. For purposes of this subsection (H), the term "Low-Income Concentration Level" shall, for each fiscal year, be the low-income eligible pupil count as of July 1 of the immediately preceding fiscal year (as determined by the Department of Human Services based on the number of pupils who are eligible for at least one of the following low income programs: Medicaid, KidCare, TANF, or Food Stamps, excluding
pupils who are eligible for services provided by the Department of Children and Family Services, averaged over the 2 immediately preceding fiscal years for fiscal year 2004 and over the 3 immediately preceding fiscal years for each fiscal year thereafter) divided by the Average Daily Attendance of the school district.

(2) Supplemental general State aid pursuant to this subsection (H) shall be provided as follows for the 1998-1999, 1999-2000, and 2000-2001 school years only:

(a) For any school district with a Low Income Concentration Level of at least 20% and less than 35%, the grant for any school year shall be $800 multiplied by the low income eligible pupil count.

(b) For any school district with a Low Income Concentration Level of at least 35% and less than 50%, the grant for the 1998-1999 school year shall be $1,100 multiplied by the low income eligible pupil count.

(c) For any school district with a Low Income Concentration Level of at least 50% and less than 60%, the grant for the 1998-99 school year shall be $1,500 multiplied by the low income eligible pupil count.

(d) For any school district with a Low Income Concentration Level of 60% or more, the grant for the 1998-99 school year shall be $1,900 multiplied by the low income eligible pupil count.

(e) For the 1999-2000 school year, the per pupil amount specified in subparagraphs (b), (c), and (d) immediately above shall be increased to $1,243, $1,600, and $2,000, respectively.

(f) For the 2000-2001 school year, the per pupil amounts specified in subparagraphs (b), (c), and (d) immediately above shall be $1,273, $1,640, and $2,050, respectively.

(2.5) Supplemental general State aid pursuant to this subsection (H) shall be provided as follows for the 2002-2003 school year:

(a) For any school district with a Low Income Concentration Level of less than 10%, the grant for each school year shall be $355 multiplied by the low income eligible pupil count.

(b) For any school district with a Low Income Concentration Level of at least 10% and less than 20%, the grant

for each school year shall be $675 multiplied by the low income eligible pupil count.

(c) For any school district with a Low Income Concentration Level of at least 20% and less than 35%, the grant for each school year shall be $1,330 multiplied by the low income eligible pupil count.

(d) For any school district with a Low Income Concentration Level of at least 35% and less than 50%, the grant for each school year shall be $1,362 multiplied by the low income eligible pupil count.

(e) For any school district with a Low Income Concentration Level of at least 50% and less than 60%, the grant for each school year shall be $1,680 multiplied by the low income eligible pupil count.

(f) For any school district with a Low Income Concentration Level of 60% or more, the grant for each school year shall be $2,080 multiplied by the low income eligible pupil count.

(2.10) Except as otherwise provided, supplemental general State aid pursuant to this subsection (H) shall be provided as follows for the 2003-2004 school year and each school year thereafter:

(a) For any school district with a Low Income Concentration Level of 15% or less, the grant for each school year shall be $355 multiplied by the low income eligible pupil count.

(b) For any school district with a Low Income Concentration Level greater than 15%, the grant for each school year shall be $294.25 added to the product of $2,700 and the square of the Low Income Concentration Level, all multiplied by the low income eligible pupil count.

For the 2003-2004 school year only, the grant shall be no less than the grant for the 2002-2003 school year. For the 2004-2005 school year only, the grant shall be no less than the grant for the 2002-2003 school year multiplied by 0.66. For the 2005-2006 school year only, the grant shall be no less than the grant for the 2002-2003 school year multiplied by 0.33.

For
the 2004-2005 school year only, the grant shall be no greater than the grant received during the 2002-2003 school year added to the product of 0.50 multiplied by the difference between the grant amount calculated under subsection (a) or (b) of this paragraph (2.10), whichever is applicable, and the grant received during the 2002-2003 school year. For the 2005-2006 school year only, the grant shall be no greater than the grant received during the 2002-2003 school year added to the product of 0.75 multiplied by the difference between the grant amount calculated under subsection (a) or (b) of this paragraph (2.10), whichever is applicable, and the grant received during the 2002-2003 school year.

(3) School districts with an Average Daily Attendance of more than 1,000 and less than 50,000 that qualify for supplemental general State aid pursuant to this subsection shall submit a plan to the State Board of Education prior to October 30 of each year for the use of the funds resulting from this grant of supplemental general State aid for the improvement of instruction in which priority is given to meeting the education needs of disadvantaged children. Such plan shall be submitted in accordance with rules and regulations promulgated by the State Board of Education.

(4) School districts with an Average Daily Attendance of 50,000 or more that qualify for supplemental general State aid pursuant to this subsection shall be required to distribute from funds available pursuant to this Section, no less than $261,000 in accordance with the following requirements:

(a) The required amounts shall be distributed to the attendance centers within the district in proportion to the number of pupils enrolled at each attendance center who are eligible to receive free or reduced-price lunches or breakfasts under the federal Child Nutrition Act of 1966 and under the National School Lunch Act during the immediately preceding school year.

(b) The distribution of these portions of supplemental and general State aid among attendance centers according to these requirements shall not be compensated for or contravened by adjustments of the total of other funds appropriated to any attendance centers, and the Board of Education shall utilize funding from one or several sources in order to fully implement this provision annually prior to the opening of school.

(c) Each attendance center shall be provided by the school district a distribution of noncategorical funds and other categorical

funds to which an attendance center is entitled under law in order that the general State aid and supplemental general State aid provided by application of this subsection supplements rather than supplants the noncategorical funds and other categorical funds provided by the school district to the attendance centers.

(d) Any funds made available under this subsection that by reason of the provisions of this subsection are not required to be allocated and provided to attendance centers may be used and appropriated by the board of the district for any lawful school purpose.

(e) Funds received by an attendance center pursuant to this subsection shall be used by the attendance center at the discretion of the principal and local school council for programs to improve educational opportunities at qualifying schools through the following programs and services: early childhood education, reduced class size or improved adult to student classroom ratio, enrichment programs, remedial assistance, attendance improvement, and other educationally beneficial expenditures which supplement the regular and basic programs as determined by the State Board of Education. Funds provided shall not be expended for any political or lobbying purposes as defined by board rule.

(f) Each district subject to the provisions of this subdivision (H)(4) shall submit an acceptable plan to meet the educational needs of disadvantaged children, in compliance with the requirements of this paragraph, to the State Board of Education prior to July 15 of each year. This plan shall be consistent with the decisions of local school councils concerning the school expenditure plans developed in accordance with part 4 of Section 34-2.3. The State Board shall approve or reject the plan within 60 days after its submission. If the plan is rejected, the district shall give written notice of intent to modify the plan within 15 days of the notification of rejection and then submit a modified plan within 30 days after the date of the written notice of intent to modify. Districts may amend approved plans pursuant to rules promulgated by the State Board of Education.

Upon notification by the State Board of Education that the district has not submitted a plan prior to July 15 or a modified plan within the time period specified herein, the State aid funds affected

by that plan or modified plan shall be withheld by the State Board of Education until a plan or modified plan is submitted.

If the district fails to distribute State aid to attendance centers in accordance with an approved plan, the plan for the following year shall allocate funds, in addition to the funds otherwise required by this subsection, to those attendance centers which were underfunded during the previous year in amounts equal to such underfunding.

For purposes of determining compliance with this subsection in relation to the requirements of attendance center funding, each district subject to the provisions of this subsection shall submit as a separate document by December 1 of each year a report of expenditure data for the prior year in addition to any modification of its current plan. If it is determined that there has been a failure to comply with the expenditure provisions of this subsection regarding contravention or supplanting, the State Superintendent of Education shall, within 60 days of receipt of the report, notify the district and any affected local school council. The district shall within 45 days of receipt of that notification inform the State Superintendent of Education of the remedial or corrective action to be taken, whether by amendment of the current plan, if feasible, or by adjustment in the plan for the following year. Failure to provide the expenditure report or the notification of remedial or corrective action in a timely manner shall result in a withholding of the affected funds.

The State Board of Education shall promulgate rules and regulations to implement the provisions of this subsection. No funds shall be released under this subdivision (H)(4) to any district that has not submitted a plan that has been approved by the State Board of Education.

(I) General State Aid for Newly Configured School Districts.

(1) For a new school district formed by combining property included totally within 2 or more previously existing school districts, for its first year of existence the general State aid and supplemental general State aid calculated under this Section shall be computed for the new district and for the previously existing districts for which property is totally included within the new district. If the computation on the basis of the previously existing districts is greater, a supplementary payment equal

to the difference shall be made for the first 4 years of existence of the new district.

(2) For a school district which annexes all of the territory of one or more entire other school districts, for the first year during which the change of boundaries attributable to such annexation becomes effective for all purposes as determined under Section 7-9 or 7A-8, the general State aid and supplemental general State aid calculated under this Section shall be computed for the annexing district as constituted after the annexation and for the annexing and each annexed district as constituted prior to the annexation; and if the computation on the basis of the annexing and annexed districts as constituted prior to the annexation is greater, a supplementary payment equal to the difference shall be made for the first 4 years of existence of the annexing school district as constituted upon such annexation.

(3) For 2 or more school districts which annex all of the territory of one or more entire other school districts, and for 2 or more community unit districts which result upon the division (pursuant to petition under Section 11A-2) of one or more other unit school districts into 2 or more parts and which together include all of the parts into which such other unit school district or districts are so divided, for the first year during which the change of boundaries attributable to such annexation or division becomes effective for all purposes as determined under Section 7-9 or 11A-10, as the case may be, the general State aid and supplemental general State aid calculated under this Section shall be computed for each annexing or resulting district as constituted after the annexation or division and for each annexing and annexed district, or for each resulting and divided district, as constituted prior to the annexation or division; and if the aggregate of the general State aid and supplemental general State aid as so computed for the annexing or resulting districts as constituted after the annexation or division is less than the aggregate of the general State aid and supplemental general State aid as so computed for the annexing and annexed districts, or for the resulting and divided districts, as constituted prior to the annexation or division, then a supplementary payment equal to the difference shall be made and allocated between or among the annexing or resulting districts, as constituted upon such annexation or division, for the first 4 years of their existence. The total difference payment shall be allocated between or among the annexing or resulting districts in the same ratio as the pupil enrollment from that portion of the annexed or divided district or districts which is annexed to or included in each such annexing district.
or resulting district bears to the total pupil enrollment from the entire annexed or divided district or districts, as such pupil enrollment is determined for the school year last ending prior to the date when the change of boundaries attributable to the annexation or division becomes effective for all purposes. The amount of the total difference payment and the amount thereof to be allocated to the annexing or resulting districts shall be computed by the State Board of Education on the basis of pupil enrollment and other data which shall be certified to the State Board of Education, on forms which it shall provide for that purpose, by the regional superintendent of schools for each educational service region in which the annexing and annexed districts, or resulting and divided districts are located.

(3.5) Claims for financial assistance under this subsection (I) shall not be recomputed except as expressly provided under this Section.

(4) Any supplementary payment made under this subsection (I) shall be treated as separate from all other payments made pursuant to this Section.

(J) Supplementary Grants in Aid.

(1) Notwithstanding any other provisions of this Section, the amount of the aggregate general State aid in combination with supplemental general State aid under this Section for which each school district is eligible shall be no less than the amount of the aggregate general State aid entitlement that was received by the district under Section 18-8 (exclusive of amounts received under subsections 5(p) and 5(p-5) of that Section) for the 1997-98 school year, pursuant to the provisions of that Section as it was then in effect. If a school district qualifies to receive a supplementary payment made under this subsection (J), the amount of the aggregate general State aid in combination with supplemental general State aid under this Section which that district is eligible to receive for each school year shall be no less than the amount of the aggregate general State aid entitlement that was received by the district under Section 18-8 (exclusive of amounts received under subsections 5(p) and 5(p-5) of that Section) for the 1997-1998 school year, pursuant to the provisions of that Section as it was then in effect.

(2) If, as provided in paragraph (1) of this subsection (J), a school district is to receive aggregate general State aid in combination with supplemental general State aid under this Section for the 1998-99 school year and any subsequent school year that in any such school year is less than the amount of the aggregate general State aid entitlement that the

In calculating the amount to be paid to the governing board of a public university that operates a laboratory school under this Section or to any alternative school that is operated by a regional superintendent of schools, the State Board of Education shall require by rule such reporting requirements as it deems necessary.

As used in this Section, "laboratory school" means a public school which is created and operated by a public university and approved by the State Board of Education. The governing board of a public university which receives funds from the State Board under this subsection (K) may not increase the number of students enrolled in its laboratory school from a single district, if that district is already sending 50 or more students, except under a mutual agreement between the school board of a student's district of residence and the university which operates the laboratory school. As used in this Section, "alternative school" means a public school which is created and operated by a Regional Superintendent of Schools and approved by the State Board of Education. A regional superintendent of schools may contract with a school district or a public community college district to operate an alternative school. An alternative school serving more than one educational service region may be established by the regional superintendents of schools of the affected educational service regions. An alternative school serving more than one educational service region may be operated under such terms as the regional superintendents of schools of those educational service regions may agree.

Each laboratory and alternative school shall file, on forms provided by the State Superintendent of Education, an annual State aid claim which states the Average Daily Attendance of the school's students by month. The best 3 months' Average Daily Attendance shall be computed for each

(L) Payments, Additional Grants in Aid and Other Requirements.

(1) For a school district operating under the financial supervision of an Authority created under Article 34A, the general State aid otherwise payable to that district under this Section, but not the supplemental general State aid, shall be reduced by an amount equal to the budget for the operations of the Authority as certified by the Authority to the State Board of Education, and an amount equal to such reduction shall be paid to the Authority created for such district for its operating expenses in the manner provided in Section 18-11. The remainder of general State school aid for any such district shall be paid in accordance with Article 34A when that Article provides for a disposition other than that provided by this Article.

If a vacancy in membership occurs at a time when the Senate is not in session, the Governor shall make a temporary appointment until the next meeting of the Senate, when he or she shall appoint, by and with the advice and consent of the Senate, a person to fill that membership for the unexpired term. If the Senate is not in session when the initial appointments are made, those appointments shall be made as in the case of vacancies.

The Education Funding Advisory Board shall be deemed established, and the initial members appointed by the Governor to serve as members of the Board shall take office, on the date that the Governor makes his or her appointment of the fifth initial member of the Board, whether those initial members are then serving pursuant to appointment and confirmation or pursuant to temporary appointments that are made by the Governor as in the case of vacancies.

The State Board of Education shall provide such staff assistance to the Education Funding Advisory Board as is reasonably required for the proper performance by the Board of its responsibilities.

For school years after the 2000-2001 school year, the Education Funding Advisory Board, in consultation with the State Board of Education, shall make recommendations as provided in this subsection (M) to the General Assembly for the foundation level under subdivision (B)(3) of this Section and for the supplemental general State aid grant level under subsection (H) of this Section for districts with high concentrations of children from poverty. The recommended foundation level shall be determined based on a methodology which incorporates the basic education expenditures of low-spending schools exhibiting high academic performance. The Education Funding Advisory Board shall make such recommendations to the General Assembly on January 1 of odd numbered years, beginning January 1, 2001.

PUBLIC ACT 93-0876
(Senate Bill No. 2560)

AN ACT concerning insurance.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:
Section 5. The Illinois Insurance Code is amended by changing Section 445 as follows:
(215 ILCS 5/445)(from Ch. 73, par. 1057)
Sec. 445. Surplus line.
(1) Surplus line defined; surplus line insurer requirements.
"Surplus line insurance" means insurance on an Illinois risk of the kinds specified in Classes 2 and 3 of Section 4 of this Code procured from an unauthorized insurer or a domestic surplus line insurer as defined in Section 445a after the insurance producer representing the insured or the surplus line producer is unable, after diligent effort, to procure said insurance from authorized insurers which are authorized to transact business in this State other than domestic surplus line insurers as defined in Section 445a.
"Authorized insurer" means an insurer that holds a certificate of authority issued by the Director but, for the purposes of this Section, does not include a domestic surplus line insurer as defined in Section 445a or any residual market mechanism.
"Residual market mechanism" means an association, organization, or other entity described in Article XXXIII of this Code or Section 7-501 of the Illinois Vehicle Code or any similar association, organization, or other entity.

New matter indicated by italics - deletions by strikeout.
"Unauthorized insurer" means an insurer that does not hold a valid certificate of authority issued by the Director but, for the purposes of this Section, shall also include a domestic surplus line insurer as defined in Section 445a.

Insurance producers may procure surplus line insurance only if licensed as a surplus line producer under this Section and may procure that insurance only from an unauthorized insurer or from a domestic surplus line insurer as defined in Section 445a:

(a) that based upon information available to the surplus line producer has a policyholders surplus of not less than $15,000,000 determined in accordance with accounting rules that are applicable to authorized insurers; and

(b) that has standards of solvency and management that are adequate for the protection of policyholders; and

(c) where an unauthorized insurer does not meet the standards set forth in (a) and (b) above, a surplus line producer may, if necessary, procure insurance from that insurer only if prior written warning of such fact or condition is given to the insured by the insurance producer or surplus line producer.

Insurance producers shall not procure from an unauthorized insurer an insurance policy:

(i) that is designed to satisfy the proof of financial responsibility and insurance requirements in any Illinois law where the law requires that the proof of insurance is issued by an authorized insurer or residual market mechanism;

(ii) that covers the risk of accidental injury to employees arising out of and in the course of employment according to the provisions of the Workers' Compensation Act; or

(iii) that insures any Illinois personal lines risk, as defined in subsection (a), (b), or (c) of Section 143.13 of this Code, that is eligible for residual market mechanism coverage, unless the insured or prospective insured requests limits of liability greater than the limits provided by the residual market mechanism. In the course of making a diligent effort to procure insurance from authorized insurers, an insurance producer shall not be required to submit a risk to a residual market mechanism when the risk is not eligible for coverage or exceeds the limits available in the residual market mechanism.

New matter indicated by italics - deletions by strikeout.
Where there is an insurance policy issued by an authorized insurer or residual market mechanism insuring a risk described in item (i), (ii), or (iii) above, nothing in this paragraph shall be construed to prohibit a surplus line producer from procuring from an unauthorized insurer a policy insuring the risk on an excess or umbrella basis where the excess or umbrella policy is written over one or more underlying policies.

(2) Surplus line producer; license. Any licensed producer who is a resident of this State, or any nonresident who qualifies under Section 500-40, may be licensed as a surplus line producer upon:

   (a) completing a prelicensing course of study. The course provided for by this Section shall be conducted under rules and regulations prescribed by the Director. The Director may administer the course or may make arrangements, including contracting with an outside educational service, for administering the course and collecting the non-refundable application fee provided for in this subsection. Any charges assessed by the Director or the educational service for administering the course shall be paid directly by the individual applicants. Each applicant required to take the course shall enclose with the application a non-refundable $20 application fee payable to the Director plus a separate course administration fee. An applicant who fails to appear for the course as scheduled, or appears but fails to complete the course, shall not be entitled to any refund, and shall be required to submit a new request to attend the course together with all the requisite fees before being rescheduled for another course at a later date; and

   (b) payment of an annual license fee of $400; and

   (c) procurement of the surety bond required in subsection (4) of this Section.

A surplus line producer so licensed shall keep a separate account of the business transacted thereunder which shall be open at all times to the inspection of the Director or his representative.

The prelicensing course of study requirement in (a) above shall not apply to insurance producers who were licensed under the Illinois surplus line law on or before January 1, 2002 the effective date of this amendatory Act of the 92nd General Assembly.

(3) Taxes and reports.

   (a) Surplus line tax and penalty for late payment.

New matter indicated by italics - deletions by strikeout.
A surplus line producer shall file with the Director on or before February 1 and August 1 of each year a report in the form prescribed by the Director on all surplus line insurance procured from unauthorized insurers during the preceding 6 month period ending December 31 or June 30 respectively, and on the filing of such report shall pay to the Director for the use and benefit of the State a sum equal to 3.5% of the gross premiums less returned premiums upon all surplus line insurance procured or cancelled during the preceding 6 months.

Any surplus line producer who fails to pay the full amount due under this subsection is liable, in addition to the amount due, for such penalty and interest charges as are provided for under Section 412 of this Code. The Director, through the Attorney General, may institute an action in the name of the People of the State of Illinois, in any court of competent jurisdiction, for the recovery of the amount of such taxes and penalties due, and prosecute the same to final judgment, and take such steps as are necessary to collect the same.

(b) Fire Marshal Tax.

Each surplus line producer shall file with the Director on or before March 31 of each year a report in the form prescribed by the Director on all fire insurance procured from unauthorized insurers subject to tax under Section 12 of the Fire Investigation Act and shall pay to the Director the fire marshal tax required thereunder.

(c) Taxes and fees charged to insured. The taxes imposed under this subsection and the countersigning fees charged by the Surplus Line Association of Illinois may be charged to and collected from surplus line insureds.

(4) Bond. Each surplus line producer, as a condition to receiving a surplus line producer's license, shall execute and deliver to the Director a surety bond to the People of the State in the penal sum of $20,000, with a surety which is authorized to transact business in this State, conditioned that the surplus line producer will pay to the Director the tax, interest and penalties levied under subsection (3) of this Section.

(5) Submission of documents to Surplus Line Association of Illinois. A surplus line producer shall submit every insurance contract issued under his or her license to the Surplus Line Association of Illinois for recording and countersignature. The submission and countersignature may be effected through electronic means. The submission shall set forth:

Public Act 93-0876

(a) the name of the insured;
(b) the description and location of the insured property or risk;
(c) the amount insured;
(d) the gross premiums charged or returned;
(e) the name of the unauthorized insurer or domestic surplus line insurer as defined in Section 445a from whom coverage has been procured;
(f) the kind or kinds of insurance procured; and
(g) amount of premium subject to tax required by Section 12 of the Fire Investigation Act.

Proposals, endorsements, and other documents which are incidental to the insurance but which do not affect the premium charged are exempted from filing and countersignature.

The submission of insuring contracts to the Surplus Line Association of Illinois constitutes a certification by the surplus line producer or by the insurance producer who presented the risk to the surplus line producer for placement as a surplus line risk that after diligent effort the required insurance could not be procured from authorized insurers which are authorized to transact business in this State other than domestic surplus line insurers as defined in Section 445a and that such procurement was otherwise in accordance with the surplus line law.

(6) Countersignature required. It shall be unlawful for an insurance producer to deliver any unauthorized insurer contract or domestic surplus line insurer contract unless such insurance contract is countersigned by the Surplus Line Association of Illinois.

(7) Inspection of records. A surplus line producer shall maintain separate records of the business transacted under his or her license, including complete copies of surplus line insurance contracts maintained on paper or by electronic means, which records shall be open at all times for inspection by the Director and by the Surplus Line Association of Illinois.

(8) Violations and penalties. The Director may suspend or revoke or refuse to renew a surplus line producer license for any violation of this Code. In addition to or in lieu of suspension or revocation, the Director may subject a surplus line producer to a civil penalty of up to $2,000 for each cause for suspension or revocation. Such penalty is enforceable under subsection (5) of Section 403A of this Code.

New matter indicated by italics - deletions by strikeout.
(9) Director may declare insurer ineligible. If the Director determines that the further assumption of risks might be hazardous to the policyholders of an unauthorized insurer, the Director may order the Surplus Line Association of Illinois not to countersign insurance contracts evidencing insurance in such insurer and order surplus line producers to cease procuring insurance from such insurer.

(10) Service of process upon Director. Insurance contracts delivered under this Section from unauthorized insurers, other than domestic surplus line insurers as defined in Section 445a, shall contain a provision designating the Director and his successors in office the true and lawful attorney of the insurer upon whom may be served all lawful process in any action, suit or proceeding arising out of such insurance. Service of process made upon the Director to be valid hereunder must state the name of the insured, the name of the unauthorized insurer and identify the contract of insurance. The Director at his option is authorized to forward a copy of the process to the Surplus Line Association of Illinois for delivery to the unauthorized insurer or the Director may deliver the process to the unauthorized insurer by other means which he considers to be reasonably prompt and certain.

(10.5) Insurance contracts delivered under this Section from unauthorized insurers, other than domestic surplus line insurers as defined in Section 445a, shall have stamped or imprinted on the first page thereof in not less than 12-pt. bold face type the following legend: "Notice to Policyholder: This contract is issued, pursuant to Section 445 of the Illinois Insurance Code, by a company not authorized and licensed to transact business in Illinois and as such is not covered by the Illinois Insurance Guaranty Fund." Insurance contracts delivered under this Section from domestic surplus line insurers as defined in Section 445a shall have stamped or imprinted on the first page thereof in not less than 12-pt. bold face type the following legend: "Notice to Policyholder: This contract is issued by a domestic surplus line insurer, as defined in Section 445a of the Illinois Insurance Code, pursuant to Section 445, and as such is not covered by the Illinois Insurance Guaranty Fund."

must request the deferment in writing from the Department. A recipient shall notify program staff within 30 days if he or she spends up to 4 years in military service before or after graduation. Any person who fails to fulfill the nursing employment obligation shall pay to the Department an amount equal to the amount of scholarship funds received per year for each unfulfilled year of the nursing employment obligation, together with interest at 7% per year on the unpaid balance. Payment must begin within 6 months following the date of the occurrence initiating the repayment. All repayments must be completed within 6 years from the date of the occurrence initiating the repayment. However, this obligation may be deferred and re-evaluated every 6 months when the failure to fulfill the nursing employment obligation results from involuntarily leaving the profession due to a decrease in the number of nurses employed in the State or when the failure to fulfill the nursing employment obligation results from total and permanent disability. The repayment obligation shall be excused if the failure to fulfill the nursing employment obligation results from the death or adjudication as incompetent of the person holding the scholarship. No claim for repayment may be filed against the estate of such a decedent or incompetent.

Each person applying for such a scholarship shall be provided with a copy of this Section at the time of application for the benefits of such scholarship.

Using information provided annually by the Illinois Student Assistance Commission, 75% of the weighted tuition and fees charged by community colleges in Illinois shall be added to the uniform living allowance reported in the weighted Monetary Award Program (MAP) budget to determine the full-time scholarship amount for students pursuing
an associate degree or diploma in nursing at an Illinois community college. Scholarship amounts for students pursuing associate, baccalaureate, or graduate degrees in nursing at a college or university shall include 75% of the weighted tuition and fees charged by public universities in Illinois plus the uniform living allowance reported in the weighted MAP budget. Scholarship amounts for students in practical nursing programs shall include 75% of the average of tuition charges at all practical nursing programs plus the uniform living allowance reported in the weighted MAP budget. The Department may provide that scholarships shall be on a quarterly or semi-annual basis and shall be contingent upon the student's diligently pursuing nursing studies and being a student in good standing. Scholarship awards may be provided to part-time students; the amount shall be determined by applying the proportion represented by the part-time enrollment to full-time enrollment ratio to the average per-term scholarship amount for a student in the same nursing degree category.

Notwithstanding any provision of the law to the contrary, the
General Assembly hereby authorizes the use of such funds for the
purposes set forth in this Section.

New matter indicated by italics - deletions by strikeout.
These provisions do not apply to funds classified by the Comptroller as federal trust funds or State trust funds. The Audit Expense Fund may receive transfers from those trust funds only as directed herein, except where prohibited by the terms of the trust fund agreement. The Auditor General shall notify the trustees of those funds of the estimated cost of the audit to be incurred under the Illinois State Auditing Act for the fund. The trustees of those funds shall direct the State Comptroller and Treasurer to transfer the estimated amount to the Audit Expense Fund.

The Auditor General may bill entities that are not subject to the above transfer provisions, including private entities, related organizations and entities whose funds are locally-held, for the cost of audits, studies, and investigations incurred on their behalf. Any revenues received under this provision shall be deposited into the Audit Expense Fund.

In the event that moneys on deposit in any fund are unavailable, by reason of deficiency or any other reason preventing their lawful transfer, the State Comptroller shall order transferred and the State Treasurer shall transfer the amount deficient or otherwise unavailable from the General Revenue Fund for deposit into the Audit Expense Fund.

On or before December 1, 1992, and each December 1 thereafter, the Auditor General shall notify the Governor's Office of Management and Budget (formerly Bureau of the Budget) of the amount estimated to be necessary to pay for audits, studies, and investigations in accordance with the Illinois State Auditing Act during the next succeeding fiscal year for each State fund for which a transfer or reimbursement is anticipated.

Beginning with fiscal year 1994 and during each fiscal year thereafter, the Auditor General may direct the State Comptroller and Treasurer to transfer moneys from funds authorized by the General Assembly for that fund. In the event funds, including federal and State trust funds but excluding the General Revenue Fund, are transferred, during fiscal year 1994 and during each fiscal year thereafter, in excess of the amount to pay actual costs attributable to audits, studies, and investigations as permitted or required by the Illinois State Auditing Act or specific action of the General Assembly, the Auditor General shall, on September 30, or as soon thereafter as is practicable, direct the State Comptroller and Treasurer to transfer the excess amount back to the fund from which it was originally transferred.

The Institute must fulfill its purposes with unbiased integrity.

Section 15. Governing board. The Institute is governed by a board of 15 voting members who are appointed by the Governor and who must ensure unbiased information. Five of the Governor's appointees must represent food animal production. Five of the Governor's appointees must represent allied agribusiness aspects of the food animal industry. Five of the Governor's appointees must represent other, non-agribusiness aspects of the food animal industry.

PUBLIC ACT 93-0884
(Senate Bill No. 2447)

AN ACT concerning minors.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Juvenile Court Act of 1987 is amended by changing Section 2-18 as follows:

(705 ILCS 405/2-18) (from Ch. 37, par. 802-18)
Sec. 2-18. Evidence.

(1) At the adjudicatory hearing, the court shall first consider only the question whether the minor is abused, neglected or dependent. The standard of proof and the rules of evidence in the nature of civil proceedings in this State are applicable to proceedings under this Article. If the petition also seeks the appointment of a guardian of the person with power to consent to adoption of the minor under Section 2-29, the court may also consider legally admissible evidence at the adjudicatory hearing that one or more grounds of unfitness exists under subdivision D of Section 1 of the Adoption Act.

(2) In any hearing under this Act, the following shall constitute prima facie evidence of abuse or neglect, as the case may be:

(a) proof that a minor has a medical diagnosis of battered child syndrome is prima facie evidence of abuse;

New matter indicated by italics - deletions by strikeout.
(b) proof that a minor has a medical diagnosis of failure to thrive syndrome is prima facie evidence of neglect;

(c) proof that a minor has a medical diagnosis of fetal alcohol syndrome is prima facie evidence of neglect;

(d) proof that a minor has a medical diagnosis at birth of withdrawal symptoms from narcotics or barbiturates is prima facie evidence of neglect;

(e) proof of injuries sustained by a minor or of the condition of a minor of such a nature as would ordinarily not be sustained or exist except by reason of the acts or omissions of the parent, custodian or guardian of such minor shall be prima facie evidence of abuse or neglect, as the case may be;

(f) proof that a parent, custodian or guardian of a minor repeatedly used a drug, to the extent that it has or would ordinarily have the effect of producing in the user a substantial state of stupor, unconsciousness, intoxication, hallucination, disorientation or incompetence, or a substantial impairment of judgment, or a substantial manifestation of irrationality, shall be prima facie evidence of neglect;

(g) proof that a parent, custodian, or guardian of a minor repeatedly used a controlled substance, as defined in subsection (f) of Section 102 of the Illinois Controlled Substances Act, in the presence of the minor or a sibling of the minor is prima facie evidence of neglect. "Repeated use", for the purpose of this subsection, means more than one use of a controlled substance as defined in subsection (f) of Section 102 of the Illinois Controlled Substances Act;

(h) proof that a newborn infant's blood, urine, or meconium contains any amount of a controlled substance as defined in subsection (f) of Section 102 of the Illinois Controlled Substances Act, or a metabolite of a controlled substance, with the exception of controlled substances or metabolites of those substances, the presence of which is the result of medical treatment administered to the mother or the newborn, is prima facie evidence of neglect;

(i) proof that a minor was present in a structure or vehicle in which the minor's parent, custodian, or guardian was involved in the manufacture of methamphetamine constitutes prima facie evidence of abuse and neglect.

New matter indicated by italics - deletions by strikeout.
(3) In any hearing under this Act, proof of the abuse, neglect or dependency of one minor shall be admissible evidence on the issue of the abuse, neglect or dependency of any other minor for whom the respondent is responsible.

(4) (a) Any writing, record, photograph or x-ray of any hospital or public or private agency, whether in the form of an entry in a book or otherwise, made as a memorandum or record of any condition, act, transaction, occurrence or event relating to a minor in an abuse, neglect or dependency proceeding, shall be admissible in evidence as proof of that condition, act, transaction, occurrence or event, if the court finds that the document was made in the regular course of the business of the hospital or agency and that it was in the regular course of such business to make it, at the time of the act, transaction, occurrence or event, or within a reasonable time thereafter. A certification by the head or responsible employee of the hospital or agency that the writing, record, photograph or x-ray is the full and complete record of the condition, act, transaction, occurrence or event and that it satisfies the conditions of this paragraph shall be prima facie evidence of the facts contained in such certification. A certification by someone other than the head of the hospital or agency shall be accompanied by a photocopy of a delegation of authority signed by both the head of the hospital or agency and by such other employee. All other circumstances of the making of the memorandum, record, photograph or x-ray, including lack of personal knowledge of the maker, may be proved to affect the weight to be accorded such evidence, but shall not affect its admissibility.

(b) Any indicated report filed pursuant to the Abused and Neglected Child Reporting Act shall be admissible in evidence.

(c) Previous statements made by the minor relating to any allegations of abuse or neglect shall be admissible in evidence. However, no such statement, if uncorroborated and not subject to cross-examination, shall be sufficient in itself to support a finding of abuse or neglect.

(d) There shall be a rebuttable presumption that a minor is competent to testify in abuse or neglect proceedings. The court shall determine how much weight to give to the minor's testimony, and may allow the minor to testify in chambers with only the court, the court reporter and attorneys for the parties present.

(e) The privileged character of communication between any professional person and patient or client, except privilege between attorney and client, shall not apply to proceedings subject to this Article.

New matter indicated by italics - deletions by strikeout.
(f) Proof of the impairment of emotional health or impairment of mental or emotional condition as a result of the failure of the respondent to exercise a minimum degree of care toward a minor may include competent opinion or expert testimony, and may include proof that such impairment lessened during a period when the minor was in the care, custody or supervision of a person or agency other than the respondent.

(5) In any hearing under this Act alleging neglect for failure to provide education as required by law under subsection (1) of Section 2-3, proof that a minor under 13 years of age who is subject to compulsory school attendance under the School Code is a chronic truant as defined under the School Code shall be prima facie evidence of neglect by the parent or guardian in any hearing under this Act and proof that a minor who is 13 years of age or older who is subject to compulsory school attendance under the School Code is a chronic truant shall raise a rebuttable presumption of neglect by the parent or guardian. This subsection (5) shall not apply in counties with 2,000,000 or more inhabitants.

(225 ILCS 425/2.04) (from Ch. 111, par. 2005.1)

Section scheduled to be repealed on January 1, 2006

Sec. 2.04. Child support indebtedness.

(a) Persons, associations, partnerships, or corporations engaged in the business of collecting child support indebtedness owing under a court order as provided under the Illinois Public Aid Code, the Illinois Marriage and Dissolution of Marriage Act, the Non-Support of Spouse and Children Act, the Non-Support Punishment Act, the Illinois Parentage Act of 1984, or similar laws of other states are not restricted (i) in the frequency of contact with an obligor who is in arrears, whether by phone, mail, or other means, (ii) from contacting the employer of an obligor who is in arrears, (iii) from publishing or threatening to publish a list of obligors in arrears, (iv) from disclosing or threatening to disclose an arrearage that the obligor disputes, but for which a verified notice of delinquency has been served under the Income Withholding for Support Act (or any of its predecessors, Section 10-16.2 of the Illinois Public Aid Code, Section 706.1 of the Illinois Marriage and Dissolution of Marriage Act, Section 4.1 of the Non-Support of Spouse and Children Act, Section 26.1 of the Revised Uniform Reciprocal Enforcement of Support Act, or Section 20 of the Illinois Parentage Act of 1984), or (v) from engaging in conduct that would not cause a reasonable person mental or physical illness. For purposes of this subsection, "obligor" means an individual who owes a duty to make periodic payments, under a court order, for the support of a child. "Arrearage" means the total amount of an obligor's unpaid child support obligations.

(a-5) A collection agency may not impose a fee or charge, including costs, for any child support payments collected through the efforts of a federal, State, or local government agency, including but not limited to child support collected from federal or State tax refunds, unemployment benefits, or Social Security benefits.

New matter indicated by italics - deletions by strikeout.
No collection agency that collects child support payments shall (i) impose a charge or fee, including costs, for collection of a current child support payment, (ii) fail to apply collections to current support as specified in the order for support before applying collection to arrears or other amounts, or (iii) designate a current child support payment as arrears or other amount owed. In all circumstances, the collection agency shall turn over to the obligee all support collected in a month up to the amount of current support required to be paid for that month.

As to any fees or charges, including costs, retained by the collection agency, that agency shall provide documentation to the obligee demonstrating that the child support payments resulted from the actions of the agency.

After collection of the total amount or arrearage, including statutory interest, due as of the date of execution of the collection contract, no further fees may be charged.

(a-10) The Department of Professional Regulation shall determine a fee rate of not less than 25% but not greater than 35%, based upon presentation by the licensees as to costs to provide the service and a fair rate of return. This rate shall be established by administrative rule.

Without prejudice to the determination by the Department of the appropriate rate through administrative rule, a collection agency shall impose a fee of not more than 29% of the amount of child support actually collected by the collection agency subject to the provisions of subsection (a-5). This interim rate is based upon the March 2002 General Account Office report "Child Support Enforcement", GAO-02-349. This rate shall apply until a fee rate is established by administrative rule.

(b) The Department shall adopt rules necessary to administer and enforce the provisions of this Section.

(House Bill No. 4652)

AN ACT concerning electronic fund transfer terminals.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Electronic Fund Transfer Act is amended by changing Section 50 as follows:

(205 ILCS 616/50)

New matter indicated by italics - deletions by strikeout.
Sec. 50. Terminal requirements.
(a) To assure maximum safety and security against malfunction, fraud, theft, and other accidents or abuses and to assure that all access devices will have the capability of activating all terminals established in this State, no terminal shall accept an access device that does not conform to specifications that are generally accepted. In the case of a dispute concerning the specifications, the Commissioner, in accordance with the provisions of Section 20 of this Act, shall have the authority to determine the specifications.

(b) No terminal that does not accept an access device that conforms with those specifications shall be established or operated.

(c) A terminal shall bear a logotype or other identification symbol designed to advise customers which access devices may activate the terminal.

(d) When used to perform an interchange transaction, a terminal shall not bear any form of proprietary advertising of products and services not offered at the terminal; provided, however, that a terminal screen may bear proprietary advertising of products or services offered by a financial institution when a person uses an access device issued by that financial institution.

(e) No person operating a terminal in this State shall impose any surcharge on a consumer for the usage of that terminal, whether or not the consumer is using an access device issued by that person, unless that surcharge is clearly disclosed to the consumer both (i) by a sign that is clearly visible to the consumer on or at the terminal being used and (ii) electronically on the terminal screen. Following presentation of the electronic disclosure on the terminal screen, the consumer shall be provided an opportunity to cancel that transaction without incurring any surcharge or other obligation. If a surcharge is imposed on a consumer using an access device not issued by the person operating the terminal, that person shall disclose on the sign and on the terminal screen that the surcharge is in addition to any fee that may be assessed by the consumer's own institution. As used in this subsection, "surcharge" means any charge imposed by the person operating the terminal solely for the use of the terminal.

(f) A receipt given at a terminal to a person who initiates an electronic fund transfer shall include a number or code that identifies the consumer initiating the transfer, the consumer's account or accounts, or the access device used to initiate the transfer. If the number or code shown on
the receipt is a number that identifies the access device, the number must be truncated as printed on the receipt so that fewer than all of the digits of the number or code are printed on the receipt. The Commissioner may, however, modify or waive the requirements imposed by this subsection (f) if the Commissioner determines that the modifications or waivers are necessary to alleviate any undue compliance burden.

(g) No terminal shall operate in this State unless, with respect to each interchange transaction initiated at the terminal, the access code entered by the consumer to authorize the transaction is encrypted by the device into which the access code is manually entered by the consumer and is transmitted from the terminal only in encrypted form. Any terminal that cannot meet the foregoing encryption requirements shall immediately cease forwarding information with respect to any interchange transaction or attempted interchange transaction.

(h) No person that directly or indirectly provides data processing support to any terminal in this State shall authorize or forward for authorization any interchange transaction unless the access code intended to authorize the interchange transaction is encrypted when received by that person and is encrypted when forwarded to any other person.

(i) A terminal operated in this State may be designed and programmed so that when a consumer enters his or her personal identification number in reverse order, the terminal automatically sends an alarm to the local law enforcement agency having jurisdiction over the terminal location. The Commissioner shall promulgate rules necessary for the implementation of this subsection (i). The provisions of this subsection (i) shall not be construed to require an owner or operator of a terminal to design and program the terminal to accept a personal identification number in reverse order.

(j) A person operating a terminal in this State may not impose a fee upon a consumer for usage of the terminal if the consumer is using a Link Card or other access device issued by a government agency for use in obtaining financial aid under the Illinois Public Aid Code.

For the purpose of this subsection (j), the term "person operating a terminal" means the person who has control over and is responsible for a terminal. The term "person operating a terminal" does not mean the person who owns or controls the property or building in which a terminal is located, unless he or she also has control over and is responsible for the terminal.

The county collector must present proof of the mailing to the court along with the application for judgement.

In counties with less than 3,000,000 inhabitants, a copy of this notice shall also be mailed by the county collector by registered or certified mail to any lienholder of record who annually requests a copy of the notice. The failure of the county collector to mail a notice or its non-delivery to the lienholder shall not affect the validity of the judgment.

In counties with 3,000,000 or more inhabitants, notice shall not be mailed to any person when, under Section 14-15, a certificate of error has been executed by the county assessor or by both the county assessor and board of appeals (until the first Monday in December 1998 and the board of review beginning the first Monday in December 1998 and thereafter), except as provided by court order under Section 21-120.
The collector shall collect $10 from the proceeds of each sale to cover the costs of registered or certified mailing and the costs of advertisement and publication. If a taxpayer pays the taxes on the property after the notice of the forthcoming application for judgment and sale is mailed but before the sale is made, then the collector shall collect $10 from the taxpayer to cover the costs of registered or certified mailing and the costs of advertisement and publication.

The notice shall include the intended dates of application for judgment and sale and commencement of the sale, and a description of the mobile homes. The county collector must present proof of the mailing to the court along with the application for judgment.

In counties with less than 3,000,000 inhabitants, a copy of this notice shall also be mailed by the county collector by registered or certified mail to any lienholder of record who annually requests a copy of the notice. The failure of the county collector to mail a notice or its non-delivery to the lienholder shall not affect the validity of the judgment.

The collector shall collect $10 from the proceeds of each sale to cover the costs of registered or certified mailing and the costs of advertisement and publication. If a taxpayer pays the taxes on the mobile home after the notice of the forthcoming application for judgment and sale is mailed but before the sale is made, then the collector shall collect $10 from the taxpayer to cover the costs of registered or certified mailing and the costs of advertisement and publication.

PUBLIC ACT 93-0902
(House Bill No. 5057)

AN ACT concerning seniors.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Illinois Act on the Aging is amended by changing Section 4.02 and by adding Section 4.12 as follows:

(20 ILCS 105/4.02) (from Ch. 23, par. 6104.02)

Sec. 4.02. The Department shall establish a program of services to prevent unnecessary institutionalization of persons age 60 and older in need of long term care or who are established as persons who suffer from Alzheimer's disease or a related disorder under the Alzheimer's Disease Assistance Act, thereby enabling them to remain in their own homes or in other living arrangements. Such preventive services, which may be coordinated with other programs for the aged and monitored by area agencies on aging in cooperation with the Department, may include, but are not limited to, any or all of the following:

(a) home health services;
(b) home nursing services;
(c) homemaker services;
(d) chore and housekeeping services;
(e) day care services;

New matter indicated by italics - deletions by strikeout.
(f) home-delivered meals;
(g) education in self-care;
(h) personal care services;
(i) adult day health services;
(j) habilitation services;
(k) respite care;
(k-5) community reintegration services;
(l) other nonmedical social services that may enable the
person to become self-supporting; or
(m) clearinghouse for information provided by senior
citizen home owners who want to rent rooms to or share living
space with other senior citizens.

The Department shall establish eligibility standards for such
services taking into consideration the unique economic and social needs of
the target population for whom they are to be provided. Such eligibility
standards shall be based on the recipient's ability to pay for services;
provided, however, that in determining the amount and nature of services
for which a person may qualify, consideration shall not be given to the
value of cash, property or other assets held in the name of the person's
spouse pursuant to a written agreement dividing marital property into
equal but separate shares or pursuant to a transfer of the person's interest in
a home to his spouse, provided that the spouse's share of the marital
property is not made available to the person seeking such services.

Beginning July 1, 2002, the Department shall require as a condition
of eligibility that all financially eligible applicants and recipients apply for
medical assistance under Article V of the Illinois Public Aid Code in
accordance with rules promulgated by the Department.

The Department shall, in conjunction with the Department of
Public Aid, seek appropriate amendments under Sections 1915 and 1924
of the Social Security Act. The purpose of the amendments shall be to
extend eligibility for home and community based services under Sections
1915 and 1924 of the Social Security Act to persons who transfer to or for
the benefit of a spouse those amounts of income and resources allowed
under Section 1924 of the Social Security Act. Subject to the approval of
such amendments, the Department shall extend the provisions of Section
5-4 of the Illinois Public Aid Code to persons who, but for the provision of
home or community-based services, would require the level of care
provided in an institution, as is provided for in federal law. Those persons
no longer found to be eligible for receiving noninstitutional services due to

changes in the eligibility criteria shall be given 60 days notice prior to actual termination. Those persons receiving notice of termination may contact the Department and request the determination be appealed at any time during the 60 day notice period. With the exception of the lengthened notice and time frame for the appeal request, the appeal process shall follow the normal procedure. In addition, each person affected regardless of the circumstances for discontinued eligibility shall be given notice and the opportunity to purchase the necessary services through the Community Care Program. If the individual does not elect to purchase services, the Department shall advise the individual of alternative services. The target population identified for the purposes of this Section are persons age 60 and older with an identified service need. Priority shall be given to those who are at imminent risk of institutionalization. The services shall be provided to eligible persons age 60 and older to the extent that the cost of the services together with the other personal maintenance expenses of the persons are reasonably related to the standards established for care in a group facility appropriate to the person's condition. These non-institutional services, pilot projects or experimental facilities may be provided as part of or in addition to those authorized by federal law or those funded and administered by the Department of Human Services. The Departments of Human Services, Public Aid, Public Health, Veterans' Affairs, and Commerce and Economic Opportunity Community Affairs and other appropriate agencies of State, federal and local governments shall cooperate with the Department on Aging in the establishment and development of the non-institutional services. The Department shall require an annual audit from all chore/housekeeping and homemaker vendors contracting with the Department under this Section. The annual audit shall assure that each audited vendor's procedures are in compliance with Department's financial reporting guidelines requiring a 27% administrative cost split and a 73% employee wages and benefits cost split. The audit is a public record under the Freedom of Information Act. The Department shall execute, relative to the nursing home prescreening project, written inter-agency agreements with the Department of Human Services and the Department of Public Aid, to effect the following: (1) intake procedures and common eligibility criteria for those persons who are receiving non-institutional services; and (2) the establishment and development of non-institutional services in areas of the State where they are not currently available or are undeveloped. On and after July 1, 1996,

New matter indicated by italics - deletions by strikeout.
all nursing home prescreenings for individuals 60 years of age or older shall be conducted by the Department.

The Department is authorized to establish a system of recipient copayment for services provided under this Section, such copayment to be based upon the recipient's ability to pay but in no case to exceed the actual cost of the services provided. Additionally, any portion of a person's income which is equal to or less than the federal poverty standard shall not be considered by the Department in determining the copayment. The level of such copayment shall be adjusted whenever necessary to reflect any change in the officially designated federal poverty standard.

The Department, or the Department's authorized representative, shall recover the amount of moneys expended for services provided to or in behalf of a person under this Section by a claim against the person's estate or against the estate of the person's surviving spouse, but no recovery may be had until after the death of the surviving spouse, if any, and then only at such time when there is no surviving child who is under age 21, blind, or permanently and totally disabled. This paragraph, however, shall not bar recovery, at the death of the person, of moneys for services provided to the person or in behalf of the person under this Section to which the person was not entitled; provided that such recovery shall not be enforced against any real estate while it is occupied as a homestead by the surviving spouse or other dependent, if no claims by other creditors have been filed against the estate, or, if such claims have been filed, they remain dormant for failure of prosecution or failure of the claimant to compel administration of the estate for the purpose of payment. This paragraph shall not bar recovery from the estate of a spouse, under Sections 1915 and 1924 of the Social Security Act and Section 5-4 of the Illinois Public Aid Code, who precedes a person receiving services under this Section in death. All moneys for services paid to or in behalf of the person under this Section shall be claimed for recovery from the deceased spouse's estate. "Homestead", as used in this paragraph, means the dwelling house and contiguous real estate occupied by a surviving spouse or relative, as defined by the rules and regulations of the Illinois Department of Public Aid, regardless of the value of the property.

The Department shall develop procedures to enhance availability of services on evenings, weekends, and on an emergency basis to meet the respite needs of caregivers. Procedures shall be developed to permit the utilization of services in successive blocks of 24 hours up to the monthly

maximum established by the Department. Workers providing these services shall be appropriately trained.

Beginning on the effective date of this Amendatory Act of 1991, no person may perform chore/housekeeping and homemaker services under a program authorized by this Section unless that person has been issued a certificate of pre-service to do so by his or her employing agency. Information gathered to effect such certification shall include (i) the person's name, (ii) the date the person was hired by his or her current employer, and (iii) the training, including dates and levels. Persons engaged in the program authorized by this Section before the effective date of this amendatory Act of 1991 shall be issued a certificate of all pre- and in-service training from his or her employer upon submitting the necessary information. The employing agency shall be required to retain records of all staff pre- and in-service training, and shall provide such records to the Department upon request and upon termination of the employer's contract with the Department. In addition, the employing agency is responsible for the issuance of certifications of in-service training completed to their employees.

The Department is required to develop a system to ensure that persons working as homemakers and chore housekeepers receive increases in their wages when the federal minimum wage is increased by requiring vendors to certify that they are meeting the federal minimum wage statute for homemakers and chore housekeepers. An employer that cannot ensure that the minimum wage increase is being given to homemakers and chore housekeepers shall be denied any increase in reimbursement costs.

The Department on Aging and the Department of Human Services shall cooperate in the development and submission of an annual report on programs and services provided under this Section. Such joint report shall be filed with the Governor and the General Assembly on or before September 30 each year.

The requirement for reporting to the General Assembly shall be satisfied by filing copies of the report with the Speaker, the Minority Leader and the Clerk of the House of Representatives and the President, the Minority Leader and the Secretary of the Senate and the Legislative Research Unit, as required by Section 3.1 of the General Assembly Organization Act and filing such additional copies with the State Government Report Distribution Center for the General Assembly as is required under paragraph (t) of Section 7 of the State Library Act.

Those persons previously found eligible for receiving non-institutional services whose services were discontinued under the Emergency Budget Act of Fiscal Year 1992, and who do not meet the eligibility standards in effect on or after July 1, 1992, shall remain ineligible on and after July 1, 1992. Those persons previously not required to cost-share and who were required to cost-share effective March 1, 1992, shall continue to meet cost-share requirements on and after July 1, 1992. Beginning July 1, 1992, all clients will be required to meet eligibility, cost-share, and other requirements and will have services discontinued or altered when they fail to meet these requirements.

(720 ILCS 5/335/1) (from Ch. 121 1/2, par. 157.13)

Sec. 99. Effective date. This Act takes effect upon becoming law.

AN ACT concerning public health.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 1. Short title. This Act may be cited as the Suicide Prevention, Education, and Treatment Act.

Section 5. Legislative findings. The General Assembly makes the following findings:

(1) The Surgeon General of the United States has described suicide prevention as a serious public health priority and has called upon each state to develop a statewide comprehensive suicide prevention strategy using a public health approach. Suicide now ranks 10th among causes of death, nationally.

(2) In 1998, 1,064 Illinoisans lost their lives to suicide, an average of 3 Illinois residents per day. It is estimated that there are between 21,000 and 35,000 suicide attempts in Illinois every year. Three and one-half percent of all suicides in the nation take place in Illinois.

(3) Among older adults, suicide rates are increasing, making suicide the leading fatal injury among the elderly population in Illinois. As the proportion of Illinois' population age 75 and older increases, the number of suicides among persons in this age group will also increase, unless an effective suicide prevention strategy is implemented.

(4) Adolescents are far more likely to attempt suicide than other age groups in Illinois. The data indicates that there are 100 attempts for every adolescent suicide completed. In 1998, 156 Illinois youths died by suicide, between the ages of 15 through 24. Using this estimate, there were likely more than 15,500 suicide attempts made by Illinois adolescents or approximately 50% of all estimated suicide attempts that occurred in Illinois were made by adolescents.

(5) Homicide and suicide rank as the second and third leading causes of death in Illinois for youth, respectively. Both are preventable. While the death rates for unintentional injuries decreased by more than 35% between 1979 and 1996, the death rates for homicide and suicide increased for youth. Evidence is
growing in terms of the links between suicide and other forms of violence. This provides compelling reasons for broadening the State's scope in identifying risk factors for self-harmful behavior. The number of estimated youth suicide attempts and the growing concerns of youth violence can best be addressed through the implementation of successful gatekeeper-training programs to identify and refer youth at risk for self-harmful behavior.

(6) The American Association of Suicidology conservatively estimates that the lives of at least 6 persons related to or connected to individuals who attempt or complete suicide are impacted. Using these estimates, in 1998, more than 6,000 Illinoisans struggled to cope with the impact of suicide.

(7) Decreases in alcohol and other drug abuse, as well as decreases in access to lethal means, significantly reduce the number of suicides.

(8) Suicide attempts are expected to be higher than reported because attempts not requiring medical attention are not required to be reported. The underreporting of suicide completion is also likely because suicide classification involves conclusions regarding the intent of the deceased. The stigma associated with suicide is also likely to contribute to underreporting. Without interagency collaboration and support for proven, community-based, culturally-competent suicide prevention and intervention programs, suicides are likely to rise.

(9) Emerging data on rates of suicide based on gender, ethnicity, age, and geographic areas demand a new strategy that responds to the needs of a diverse population.

(10) According to Children's Safety Network Economics Insurance, the cost of youth suicide acts by persons in Illinois who are under 21 years of age totals $539,000,000, including medical costs, future earnings lost, and a measure of quality of life.

(11) Suicide is the second leading cause of death in Illinois for persons between the ages of 15 and 24.

(12) In 1998, there were 1,116 homicides in Illinois, which outnumbered suicides by only 52. Yet, so far, only homicide has received funding, programs, and media attention.

(13) According to the 1999 national report on statistics for suicide of the American Association of Suicidology, categories of unintentional injury, motor vehicle deaths, and all other deaths

New matter indicated by italics - deletions by strikeout.
include many reported and unsubstantiated suicides that are not identified correctly because of poor investigatory techniques, unsophisticated inquest jurors, and stigmas that cause families to cover up evidence.

(14) Programs for HIV infectious diseases are very well funded even though, in Illinois, HIV deaths number 30% less than suicide deaths.

Section 10. Definitions. For the purpose of this Act, unless the context otherwise requires:

"Committee" means the Illinois Suicide Prevention Strategic Planning Committee.

A copy of the record of convictions obtained from the Department of State Police shall be provided to the applicant for employment. If a check an investigation of an applicant for employment as a substitute or concurrent part-time teacher or concurrent educational support personnel employee in more than one school district was requested by the regional superintendent, and the Department of State Police upon a check investigation ascertains that the applicant has not been convicted of any of the enumerated criminal or drug offenses in subsection (c) or has not been convicted, within 7 years of the application for employment with the school district, of any other felony under the laws of this State or of any offense committed or attempted in any other state or against the laws of the United States that, if committed or attempted in this State, would have been punishable as a felony under the laws of this State and so notifies the regional superintendent, then the regional superintendent shall issue to the applicant a certificate evidencing that as of the date specified by the Department of State Police the applicant has not been convicted of any of the enumerated criminal or drug offenses in subsection (c) or has not been convicted, within 7 years of the application for employment with the school district, of any other felony under the laws of this State or of any offense committed or attempted in any other state or against the laws of the United States that, if committed or attempted in this State, would have been punishable as a felony under

Any person who releases any confidential information concerning any criminal convictions of an applicant for employment shall be guilty of a Class A misdemeanor, unless the release of such information is authorized by this Section.

(c) No school board shall knowingly employ a person who has been convicted for committing attempted first degree murder or for committing or attempting to commit first degree murder or a Class X felony or any one or more of the following offenses: (i) those defined in Sections 11-6, 11-9, 11-14, 11-15, 11-15.1, 11-16, 11-17, 11-18, 11-19, 11-19.1, 11-19.2, 11-20, 11-20.1, 11-21, 12-13, 12-14, 12-14.1, 12-15 and 12-16 of the "Criminal Code of 1961"; (ii) those defined in the "Cannabis Control Act" except those defined in Sections 4(a), 4(b) and 5(a) of that Act; (iii) those defined in the "Illinois Controlled Substances Act"; and (iv) any offense committed or attempted in any other state or against the laws of the United States, which if committed or attempted in this State, would have been punishable as one or more of the foregoing offenses. The regional superintendent submitting the requisite information to the Department of State Police shall promptly notify the school districts in which the applicant is seeking employment as a substitute or concurrent part-time teacher or concurrent educational support personnel employee that the check investigation of the applicant has been requested. The Department of State Police and the Federal Bureau of Investigation shall furnish, pursuant to a fingerprint-based criminal history records check, records of convictions, until expunged, to the president of the school board for the school district that requested the check, or to the regional superintendent who requested the check. shall conduct a search of the Illinois Criminal history record information database to ascertain if the applicant being considered for employment has been convicted of committing or attempting to commit any of the enumerated criminal or drug offenses in subsection (c) or has been convicted of committing or attempting to commit, within 7 years of the application for employment with the school district, any other felony under the laws of this State. The Department shall charge the school district or the appropriate regional superintendent a fee for conducting such check investigation, which fee shall be deposited in the State Police Services Fund and shall not exceed the cost of the inquiry; and the applicant shall not be charged a fee for such check investigation by the school district or by the regional superintendent. attempting to commit any of the enumerated criminal or drug offenses in subsection (c) or has been convicted of committing or attempting to commit, within 7 years of the application for employment with the school district, any other felony under the laws of this State, the Department and the Federal Bureau of Investigation shall furnish, pursuant to a fingerprint based background check, records of convictions, until expunged, to the president of the board of education for the school district which requested the investigation, or to the regional superintendent who requested the investigation. Any information concerning the record of convictions obtained by the president of the board of education or the regional superintendent shall be confidential and may only be transmitted to the general superintendent of the school district or his designee, the appropriate regional superintendent if the check investigation was requested by the board of education for the school district, the presidents of the appropriate board of education or school boards if the check investigation was requested from the Department of State Police by the regional superintendent, the State Superintendent of Education, the State Teacher Certification Board or any other person necessary to the decision of hiring the applicant for employment. A copy of the record of convictions obtained from the Department of State Police shall be provided to the applicant for employment. If a check an investigation of an applicant for employment as a substitute or concurrent part-time teacher or concurrent educational support personnel employee in more than one school district was requested by the regional superintendent, and the Department of State Police upon a check investigation ascertains that the applicant has not been convicted of any of the enumerated criminal or drug offenses in subsection (c) or has not been convicted, within 7 years of the application for employment with the school district, of any other felony under the laws of this State or of any offense committed or attempted in any other state or against the laws of the United States that, if committed or attempted in this State, would have been punishable as a felony under the laws of this State and so notifies the regional superintendent, then the regional superintendent shall issue to the applicant a certificate evidencing that as of the date specified by the Department of State Police the applicant has not been convicted of any of the enumerated criminal or drug offenses in subsection (c) or has not been convicted, within 7 years of the application for employment with the school district, of any other felony under the laws of this State or of any offense committed or attempted in any other state or against the laws of the United States that, if committed

or attempted in this State, would have been punishable as a felony under the laws of this State. The school board of any school district located in the educational service region served by the regional superintendent who issues such a certificate to an applicant for employment as a substitute or concurrent part-time teacher or concurrent educational support personnel employee in more than one such district may rely on the certificate issued by the regional superintendent to that applicant, or may initiate its own criminal history records check investigation of the applicant through the Department of State Police as provided in subsection (a). Any person who releases any confidential information concerning any criminal convictions of an applicant for employment shall be guilty of a Class A misdemeanor, unless the release of such information is authorized by this Section.

(c) The board of education shall not knowingly employ a person who has been convicted for committing attempted first degree murder or for committing or attempting to commit first degree murder or a Class X felony or any one or more of the following offenses: (i) those defined in Sections 11-6, 11-9, 11-14, 11-15, 11-15.1, 11-16, 11-17, 11-18, 11-19, 11-19.1, 11-19.2, 11-20, 11-20.1, 11-21, 12-13, 12-14, 12-14.1, 12-15 and 12-16 of the Criminal Code of 1961; (ii) those defined in the Cannabis Control Act, except those defined in Sections 4(a), 4(b) and 5(a) of that Act; (iii) those defined in the Illinois Controlled Substances Act; and (iv) any offense committed or attempted in any other state or against the laws of the United States, which if committed or attempted in this State, would have been punishable as one or more of the foregoing offenses. Further, the board of education shall not knowingly employ a person who has been found to be the perpetrator of sexual or physical abuse of any minor under 18 years of age pursuant to proceedings under Article II of the Juvenile Court Act of 1987.

(d) The board of education shall not knowingly employ a person for whom a criminal history records check background investigation has not been initiated.

(e) Upon receipt of the record of a conviction of or a finding of child abuse by a holder of any certificate issued pursuant to Article 21 or Section 34-8.1 or 34-83 of the School Code, the board of education or the State Superintendent of Education shall initiate the certificate suspension and revocation proceedings authorized by law.

drivers and other transportation employees, who have direct, daily contact with the pupils of any school in such district. For purposes of criminal history records checks, background investigations on employees of persons or firms holding contracts with more than one school district and assigned to more than one school district, the regional superintendent of the educational service region in which the contracting school districts are located may, at the request of any such school district, be responsible for receiving the authorization for a check investigation prepared by each such employee and submitting the same to the Department of State Police. Section 15. The Juvenile Court Act of 1987 is amended by changing Section 2-21 as follows:

(705 ILCS 405/2-21) (from Ch. 37, par. 802-21)
Sec. 2-21. Findings and adjudication.
(1) The court shall state for the record the manner in which the parties received service of process and shall note whether the return or returns of service, postal return receipt or receipts for notice by certified mail, or certificate or certificates of publication have been filed in the court record. The court shall enter any appropriate orders of default against any parent who has been properly served in any manner and fails to appear.

No further service of process as defined in Sections 2-15 and 2-16 is required in any subsequent proceeding for a parent who was properly served in any manner, except as required by Supreme Court Rule 11.

The caseworker shall testify about the diligent search conducted for the parent.

After hearing the evidence the court shall determine whether or not the minor is abused, neglected, or dependent. If it finds that the minor is not such a person, the court shall order the petition dismissed and the minor discharged. The court's determination of whether the minor is abused, neglected, or dependent shall be stated in writing with the factual basis supporting that determination.

If the court finds that the minor is abused, neglected, or dependent, the court shall then determine and put in writing the factual basis supporting that determination, and specify, to the extent possible, the acts or omissions or both of each parent, guardian, or legal custodian that form

the basis of the court's findings. That finding shall appear in the order of the court.

If the court finds that the child has been abused, neglected or dependent, the court shall admonish the parents that they must cooperate with the Department of Children and Family Services, comply with the terms of the service plan, and correct the conditions that require the child to be in care, or risk termination of parental rights.

If the court determines that a person has inflicted physical or sexual abuse upon a minor, the court shall report that determination to the Department of State Police, which shall include that information in its report to the President of the school board for a school district that requests a criminal history records check of that person, or the regional superintendent of schools who requests a check of that person, as required under Section 10-21.9 or 34-18.5 of the School Code.

(2) If, pursuant to subsection (1) of this Section, the court determines and puts in writing the factual basis supporting the determination that the minor is either abused or neglected or dependent, the court shall then set a time not later than 30 days after the entry of the finding for a dispositional hearing (unless an earlier date is required pursuant to Section 2-13.1) to be conducted under Section 2-22 at which hearing the court shall determine whether it is consistent with the health, safety and best interests of the minor and the public that he be made a ward of the court. To assist the court in making this and other determinations at the dispositional hearing, the court may order that an investigation be conducted and a dispositional report be prepared concerning the minor's physical and mental history and condition, family situation and background, economic status, education, occupation, history of delinquency or criminality, personal habits, and any other information that may be helpful to the court. The dispositional hearing may be continued once for a period not to exceed 30 days if the court finds that such continuance is necessary to complete the dispositional report.

(3) The time limits of this Section may be waived only by consent of all parties and approval by the court, as determined to be consistent with the health, safety and best interests of the minor.

(4) For all cases adjudicated prior to July 1, 1991, for which no dispositional hearing has been held prior to that date, a dispositional hearing under Section 2-22 shall be held within 90 days of July 1, 1991.

(5) The court may terminate the parental rights of a parent at the initial dispositional hearing if all of the following conditions are met:

(i) the original or amended petition contains a request for termination of parental rights and appointment of a guardian with power to consent to adoption; and

(ii) the court has found by a preponderance of evidence, introduced or stipulated to at an adjudicatory hearing, that the child comes under the jurisdiction of the court as an abused, neglected, or dependent minor under Section 2-18; and

(iii) the court finds, on the basis of clear and convincing evidence admitted at the adjudicatory hearing that the parent is an unfit person under subdivision D of Section 1 of the Adoption Act; and

(iv) the court determines in accordance with the rules of evidence for dispositional proceedings, that:

(A) it is in the best interest of the minor and public that the child be made a ward of the court;

(A-5) reasonable efforts under subsection (l-1) of Section 5 of the Children and Family Services Act are inappropriate or such efforts were made and were unsuccessful; and

(B) termination of parental rights and appointment of a guardian with power to consent to adoption is in the best interest of the child pursuant to Section 2-29.

AN ACT concerning visitation.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Illinois Marriage and Dissolution of Marriage Act is amended by changing Section 607 as follows:

(750 ILCS 5/607) (from Ch. 40, par. 607)

Sec. 607. Visitation.

(a) A parent not granted custody of the child is entitled to reasonable visitation rights unless the court finds, after a hearing, that visitation would endanger seriously the child's physical, mental, moral or emotional health. If the custodian's street address is not identified, pursuant to Section 708, the court shall require the parties to identify reasonable alternative arrangements for visitation by a non-custodial parent, including but not limited to visitation of the minor child at the residence of another person or at a local public or private facility.

(a-3) Nothing in subsection (a-5) of this Section shall apply to a child in whose interests a petition under Section 2-13 of the Juvenile Court Act of 1987 is pending.

(a-5)(1) Except as otherwise provided in this subsection (a-5), any grandparent, great-grandparent, or sibling may file a petition for visitation rights to a minor child if there is an unreasonable denial of visitation by a parent and at least one of the following conditions exists:

(A) one parent of the child is incompetent as a matter of law or deceased or has been sentenced to a period of imprisonment for more than 1 year;

(B) the child's mother and father are divorced or have been legally separated from each other during the 3 month period prior to the filing of the petition and at least one parent does not object to the grandparent, great-grandparent, or sibling having visitation with the child. The visitation of the grandparent, great-grandparent, or sibling must not diminish the visitation of the parent who is not related to the grandparent, great-grandparent, or sibling seeking visitation;

(C) the court, other than a Juvenile Court, has terminated a parent-child relationship and the grandparent, great-grandparent, or sibling is the parent of the person whose parental rights have

New matter indicated by italics - deletions by strikeout.
been terminated, except in cases of adoption. The visitation must not be used to allow the parent who lost parental rights to unlawfully visit with the child;

(D) the child is illegitimate, the parents are not living together, and the petitioner is a maternal grandparent, great-grandparent, or sibling of the illegitimate child; or

(E) the child is illegitimate, the parents are not living together, the petitioner is a paternal grandparent, great-grandparent, or sibling, and the paternity has been established by a court of competent jurisdiction.

(2) The grandparent, great-grandparent, or sibling of a parent whose parental rights have been terminated through an adoption proceeding may not petition for visitation rights.

(3) In making a determination under this subsection (a-5), there is a rebuttable presumption that a fit parent’s actions and decisions regarding grandparent, great-grandparent, or sibling visitation are not harmful to the child’s mental, physical, or emotional health. The burden is on the party filing a petition under this Section to prove that the parent’s actions and decisions regarding visitation times are harmful to the child’s mental, physical, or emotional health.

(4) In determining whether to grant visitation, the court shall consider the following:

(A) the preference of the child if the child is determined to be of sufficient maturity to express a preference;

(B) the mental and physical health of the child;

(C) the mental and physical health of the grandparent, great-grandparent, or sibling;

(D) the length and quality of the prior relationship between the child and the grandparent, great-grandparent, or sibling;

(E) the good faith of the party in filing the petition;

(F) the good faith of the person denying visitation;

(G) the quantity of the visitation time requested and the potential adverse impact that visitation would have on the child’s customary activities;

(H) whether the child resided with the petitioner for at least 6 consecutive months with or without the current custodian present;

(I) whether the petitioner had frequent or regular contact with the child for at least 12 consecutive months; and

New matter indicated by italics - deletions by strikeout.
(J) any other fact that establishes that the loss of the relationship between the petitioner and the child is likely to harm the child's mental, physical, or emotional health.

(5) The court may order visitation rights for the grandparent, great-grandparent, or sibling that include reasonable access without requiring overnight or possessory visitation.

(a-7)(1) Unless by stipulation of the parties, no motion to modify a grandparent, great-grandparent, or sibling visitation order may be made earlier than 2 years after the date the order was filed, unless the court permits it to be made on the basis of affidavits that there is reason to believe the child's present environment may endanger seriously the child's mental, physical, or emotional health.

(2) The court shall not modify a prior grandparent, great-grandparent, or sibling visitation order unless it finds by clear and convincing evidence, upon the basis of facts that have arisen since the prior visitation order or that were unknown to the court at the time of entry of the prior visitation, that a change has occurred in the circumstances of the child or his or her custodian, and that the modification is necessary to protect the mental, physical, or emotional health of the child. The court shall state in its decision specific findings of fact in support of its modification or termination of the grandparent, great-grandparent, or sibling visitation.

(3) Attorney fees and costs shall be assessed against a party seeking modification of the visitation order if the court finds that the modification action is vexatious and constitutes harassment.

(4) Notice under this subsection (a-7) shall be given as provided in subsections (c) and (d) of Section 601.

(b) (1) (Blank.) The court may grant reasonable visitation privileges to a grandparent, great-grandparent, or sibling of any minor child upon petition to the court by the grandparents or great-grandparents or on behalf of the sibling, with notice to the parties required to be notified under Section 601 of this Act, if the court determines that it is in the best interests and welfare of the child, and may issue any necessary orders to enforce such visitation privileges. Except as provided in paragraph (2) of this subsection (b), a petition for visitation privileges may be filed under this paragraph (1) whether or not a petition pursuant to this Act has been previously filed or is currently pending if one or more of the following circumstances exist:

New matter indicated by italics - deletions by strikeout.

(C) one of the parents is deceased;
(D) one of the parents joins in the petition with the grandparents, great-grandparents, or sibling; or
(E) a sibling is in State custody.

(1.5) The Court may grant reasonable visitation privileges to a stepparent upon petition to the court by the stepparent, with notice to the parties required to be notified under Section 601 of this Act, if the court determines that it is in the best interests and welfare of the child, and may issue any necessary orders to enforce those visitation privileges. A petition for visitation privileges may be filed under this paragraph (1.5) whether or not a petition pursuant to this Act has been previously filed or is currently pending if the following circumstances are met:
(A) the child is at least 12 years old;
(B) the child resided continuously with the parent and stepparent for at least 5 years;
(C) the parent is deceased or is disabled and is unable to care for the child;
(D) the child wishes to have reasonable visitation with the stepparent; and
(E) the stepparent was providing for the care, control, and welfare to the child prior to the initiation of the petition for visitation.

(2)(A) A petition for visitation privileges shall not be filed pursuant to this subsection (b) by the parents or grandparents of a putative father if the paternity of the putative father has not been legally established.

(B) A petition for visitation privileges may not be filed under this subsection (b) if the child who is the subject of the grandparents' or great-grandparents' petition has been voluntarily surrendered by the parent or parents, except for a surrender to the Illinois Department of Children and Family Services or a foster care facility, or has been previously adopted by an individual or individuals who are not related to the biological parents of the child or is the subject of a pending adoption petition by an individual or individuals who are not related to the biological parents of the child.

(3) (Blank). When one parent is deceased, the surviving parent shall not interfere with the visitation rights of the grandparents.

(c) The court may modify an order granting or denying visitation rights of a parent whenever modification would serve the best interest of the child; but the court shall not restrict a parent's visitation rights unless it finds that the visitation would endanger seriously the child's physical, mental, moral or emotional health. The court may modify an order granting, denying, or limiting visitation rights of a grandparent, great-grandparent, or sibling of any minor child whenever a change of circumstances has occurred based on facts occurring subsequent to the judgment and the court finds by clear and convincing evidence that the modification is in the best interest of the minor child.

(d) If any court has entered an order prohibiting a non-custodial parent of a child from any contact with a child or restricting the non-custodial parent's contact with the child, the following provisions shall apply:

(1) If an order has been entered granting visitation privileges with the child to a grandparent or great-grandparent who is related to the child through the non-custodial parent, the visitation privileges of the grandparent or great-grandparent may be revoked if:

(i) a court has entered an order prohibiting the non-custodial parent from any contact with the child, and the grandparent or great-grandparent is found to have used his or her visitation privileges to facilitate contact between the child and the non-custodial parent; or

(ii) a court has entered an order restricting the non-custodial parent's contact with the child, and the grandparent or great-grandparent is found to have used his or her visitation privileges to facilitate contact between the child and the non-custodial parent in a manner that violates the terms of the order restricting the non-custodial parent's contact with the child.

Nothing in this subdivision (1) limits the authority of the court to enforce its orders in any manner permitted by law.

(2) Any order granting visitation privileges with the child to a grandparent or great-grandparent who is related to the child through the non-custodial parent shall contain the following provision:

New matter indicated by italics - deletions by strikeout.
"If the (grandparent or great-grandparent, whichever is applicable) who has been granted visitation privileges under this order uses the visitation privileges to facilitate contact between the child and the child's non-custodial parent, the visitation privileges granted under this order shall be permanently revoked."

(e) No parent, not granted custody of the child, or grandparent, or great-grandparent, or stepparent, or sibling of any minor child, convicted of any offense involving an illegal sex act perpetrated upon a victim less than 18 years of age including but not limited to offenses for violations of Article 12 of the Criminal Code of 1961, is entitled to visitation rights while incarcerated or while on parole, probation, conditional discharge, periodic imprisonment, or mandatory supervised release for that offense, and upon discharge from incarceration for a misdemeanor offense or upon discharge from parole, probation, conditional discharge, periodic imprisonment, or mandatory supervised release for a felony offense, visitation shall be denied until the person successfully completes a treatment program approved by the court.

(f) Unless the court determines, after considering all relevant factors, including but not limited to those set forth in Section 602(a), that it would be in the best interests of the child to allow visitation, the court shall not enter an order providing visitation rights and pursuant to a motion to modify visitation shall revoke visitation rights previously granted to any person who would otherwise be entitled to petition for visitation rights under this Section who has been convicted of first degree murder of the parent, grandparent, great-grandparent, or sibling of the child who is the subject of the order. Until an order is entered pursuant to this subsection, no person shall visit, with the child present, a person who has been convicted of first degree murder of the parent, grandparent, great-grandparent, or sibling of the child without the consent of the child's parent, other than a parent convicted of first degree murder as set forth herein, or legal guardian.

(g) If an order has been entered limiting, for cause, a minor child's contact or visitation with a grandparent, great-grandparent, or sibling on the grounds that it was in the best interest of the child to do so, that order may be modified only upon a showing of a substantial change in circumstances occurring subsequent to the entry of the order with proof by clear and convincing evidence that modification is in the best interest of the minor child.
AN ACT concerning minors.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Juvenile Court Act of 1987 is amended by changing Section 5-915 as follows:

(705 ILCS 405/5-915)
Sec. 5-915. Expungement of juvenile law enforcement and juvenile court records.

(1) Whenever any person has attained the age of 17 or whenever all juvenile court proceedings relating to that person have been terminated, whichever is later, the person may petition the court to expunge law enforcement records relating to incidents occurring before his or her 17th birthday or his or her juvenile court records, or both, but only in the following circumstances:

(a) the minor was arrested and no petition for delinquency was filed with the clerk of the circuit court; or
(b) the minor was charged with an offense and was found not delinquent of that offense; or
(c) the minor was placed under supervision pursuant to Section 5-615, and the order of supervision has since been successfully terminated; or
(d) the minor was adjudicated for an offense which would be a Class B misdemeanor, Class C misdemeanor, or a petty or business offense if committed by an adult.

(2) Any person may petition the court to expunge all law enforcement records relating to any incidents occurring before his or her 17th birthday which did not result in proceedings in criminal court and all juvenile court records with respect to any adjudications except those based upon first degree murder and sex offenses which would be felonies if
committed by an adult, if the person for whom expungement is sought has had no convictions for any crime since his or her 17th birthday and:

(a) has attained the age of 21 years; or

(b) 5 years have elapsed since all juvenile court proceedings relating to him or her have been terminated or his or her commitment to the Department of Corrections, Juvenile Division pursuant to this Act has been terminated; whichever is later of (a) or (b).

(2.5) If a minor is arrested and no petition for delinquency is filed with the clerk of the circuit court as provided in paragraph (a) of subsection (1) at the time the minor is released from custody, the youth officer, if applicable, or other designated person from the arresting agency, shall notify verbally and in writing to the minor or the minor's parents or guardians that if the State's Attorney does not file a petition for delinquency, the minor has a right to petition to have his or her arrest record expunged when the minor attains the age of 17 or when all juvenile court proceedings relating to that minor have been terminated and that unless a petition to expunge is filed, the minor shall have an arrest record and shall provide the minor and the minor's parents or guardians with an expungement information packet, including a petition to expunge juvenile records obtained from the clerk of the circuit court.

(2.6) If a minor is charged with an offense and is found not delinquent of that offense; or if a minor is placed under supervision under Section 5-615, and the order of supervision is successfully terminated; or if a minor is adjudicated for an offense that would be a Class B misdemeanor, a Class C misdemeanor, or a business or petty offense if committed by an adult; or if a minor has incidents occurring before his or her 17th birthday that have not resulted in proceedings in criminal court, or resulted in proceedings in juvenile court, and the adjudications were not based upon first degree murder or sex offenses that would be felonies if committed by an adult; then at the time of sentencing or dismissal of the case, the judge shall inform the delinquent minor of his or her right to petition for expungement as provided by law, and the clerk of the circuit court shall provide an expungement information packet to the delinquent minor, written in plain language, including a petition for expungement, a sample of a completed petition, expungement instructions that shall include information informing the minor that (i) once the case is expunged, it shall be treated as if it never occurred, (ii) he or she may apply to have petition fees waived, (iii) once he or she obtains an

expungement, he or she may not be required to disclose that he or she had a juvenile record, and (iv) he or she may file the petition on his or her own or with the assistance of an attorney. The failure of the judge to inform the delinquent minor of his or her right to petition for expungement as provided by law does not create a substantive right, nor is that failure grounds for: (i) a reversal of an adjudication of delinquency, (ii) a new trial; or (iii) an appeal.

(2.7) For counties with a population over 3,000,000, the clerk of the circuit court shall send a "Notification of a Possible Right to Expungement" postcard to the minor at the address last received by the clerk of the circuit court on the date that the minor attains the age of 17 based on the birthdate provided to the court by the minor or his or her guardian in cases under paragraphs (b), (c), and (d) of subsection (1); and when the minor attains the age of 21 based on the birthdate provided to the court by the minor or his or her guardian in cases under subsection (2).

Sec. 5-5-5. Loss and Restoration of Rights.

suspension or revocation of a license to operate a motor vehicle under the Illinois Vehicle Code.

(e) Upon a person's discharge from incarceration or parole, or upon a person's discharge from probation or at any time thereafter, the committing court may enter an order certifying that the sentence has been satisfactorily completed when the court believes it would assist in the rehabilitation of the person and be consistent with the public welfare. (1) the public policy of this State, as expressed in Article 5.5 of this Chapter, to encourage the licensure and employment of persons previously convicted of one or more criminal offenses;

(2) the specific duties and responsibilities necessarily related to the license being sought;

(3) the bearing, if any, the criminal offenses or offenses for which the person was previously convicted will have on his or her fitness or ability to perform one or more such duties and responsibilities;

(7) any information produced by the person or produced on his or her behalf in regard to his or her rehabilitation and good conduct, including a certificate of relief from disabilities issued to the applicant, which certificate shall create a presumption of rehabilitation in regard to the offense or offenses specified in the certificate; and
(8) the legitimate interest of the licensing agency in protecting property, and the safety and welfare of specific individuals or the general public.

(i) A certificate of relief from disabilities shall be issued only for a license or certification issued under the following Acts:

      (A) at least 33% of the employees (excluding any part-time employees) and at least 25 employees (excluding any part-time employees); or
      (B) at least 250 employees (excluding any part-time employees).

(g) "Representative" means an exclusive representative of employees within the meaning of Section 9(a) or 8(f) of the National Labor Relations Act (29 U.S.C. 159(a), 158(f)) or Section 2 of the Railway Labor Act (45 U.S.C. 152).

Section 10. Notice.

(a) An employer may not order a mass layoff, relocation, or employment loss unless, 60 days before the order takes effect, the employer gives written notice of the order to the following:
   (1) affected employees and representatives of affected employees; and
   (2) the Department of Commerce and Economic Opportunity and the chief elected official of each municipal and county government within which the employment loss, relocation, or mass layoff occurs.

(b) An employer required to give notice of any mass layoff, relocation, or employment loss under this Act shall include in its notice the elements required by the federal Worker Adjustment and Retraining Notification Act (29 U.S.C. 2101 et seq.).

(c) Notwithstanding the requirements of subsection (a), an employer is not required to provide notice if a mass layoff, relocation, or
employment loss is necessitated by a physical calamity or an act of terrorism or war.

(d) The mailing of notice to an employee's last known address or inclusion of notice in the employee's paycheck shall be considered acceptable methods for fulfillment of the employer's obligation to give notice to each affected employee under this Act.

(e) In the case of a sale of part or all of an employer's business, the seller shall be responsible for providing notice for any plant closing or mass layoff in accordance with this Section, up to and including the effective date of the sale. After the effective date of the sale of part or all of an employer's business, the purchaser shall be responsible for providing notice for any plant closing or mass layoff in accordance with this Section. Notwithstanding any other provision of this Act, any person who is an employee of the seller (other than a part-time employee) as of the effective date of the sale shall be considered an employee of the purchaser immediately after the effective date of the sale.

(f) An employer which is receiving State or local economic development incentives for doing or continuing to do business in this State may be required to provide additional notice pursuant to Section 15 of the Business Economic Support Act.

(g) The rights and remedies provided to employees by this Act are in addition to, and not in lieu of, any other contractual or statutory rights and remedies of the employees, and are not intended to alter or affect such rights and remedies, except that the period of notification required by this Act shall run concurrently with any period of notification required by contract or by any other law.

(h) It is the sense of the General Assembly that an employer who is not required to comply with the notice requirements of this Section should, to the extent possible, provide notice to its employees about a proposal to close a plant or permanently reduce its workforce.

Section 15. Exceptions.

(a) In the case of a plant closing, an employer is not required to comply with the notice requirement in subsection (a) of Section 10 if:

(1) the Department of Labor determines:

(A) at the time that notice would have been required, the employer was actively seeking capital or business; and

New matter indicated by italics - deletions by strikeout.
(B) the capital or business sought, if obtained, would have enabled the employer to avoid or postpone the relocation or termination; and

(C) the employer reasonably and in good faith believed that giving the notice required by subsection (a) of Section 10 would have precluded the employer from obtaining the needed capital or business; or

(2) the Department of Labor determines that the need for a notice was not reasonably foreseeable at the time the notice would have been required.

(b) To determine whether the employer was actively seeking capital or business, or that the need for notice was not reasonably foreseeable under subsection (a), the employer shall provide to the Department of Labor:

(1) a written record consisting of those documents relevant to the determination of whether the employer was actively seeking capital or business, or that the need for notice was not reasonably foreseeable; and

(2) an affidavit verifying the contents of the documents contained in the record.

(c) An employer is not required to comply with the notice requirement in subsection (a) of Section 10 if:

(1) the plant closing is of a temporary facility or the plant closing or layoff is the result of the completion of a particular project or undertaking, and the affected employees were hired with the understanding that their employment was limited to the duration of the facility or the project or undertaking; or

(2) the closing or layoff constitutes a strike or constitutes a lockout not intended to evade the requirements of this Act. Nothing in this Act shall require an employer to serve written notice when permanently replacing a person who is deemed to be an economic striker under the National Labor Relations Act (29 U.S.C. 151 et seq.). Nothing in this Act shall be deemed to validate or invalidate any judicial or administrative ruling relating to the hiring of permanent replacements for economic strikers under the National Labor Relations Act.

(d) An employer relying on this Section shall provide as much notice as is practicable and at that time shall provide a brief statement of the basis for reducing the notification period.

New matter indicated by italics - deletions by strikeout.
Section 20. Extension of layoff period. A layoff of more than 6 months which, at its outset, was announced to be a layoff of 6 months or less shall be treated as an employment loss under this Act unless:

(1) the extension beyond 6 months is caused by business circumstances (including unforeseeable changes in price or cost) not reasonably foreseeable at the time of the initial layoff; and

(2) notice is given at the time it becomes reasonably foreseeable that the extension beyond 6 months will be required.

Section 25. Determinations with respect to employment loss. In determining whether a plant closing or mass layoff has occurred or will occur, employment losses for 2 or more groups at a single site of employment, each of which is less than the minimum number of employees specified in subsection (d) or (f) of Section 5 of this Act but which in the aggregate exceed that minimum number, and which occur within any 90-day period shall be considered to be a plant closing or mass layoff unless the employer demonstrates that the employment losses are the result of separate and distinct actions and causes and are not an attempt by the employer to evade the requirements of this Act.

Section 30. Powers of Director of Labor.

(a) Pursuant to the Illinois Administrative Procedure Act, the Director of Labor shall prescribe such rules as may be necessary to carry out this Act. The rules shall, at a minimum, include provisions that allow the parties access to administrative hearings for any actions of the Department under this Act. The provisions of the Administrative Review Law, and the rules adopted pursuant thereto, apply to and govern all proceedings for the judicial review of decisions under this Act.

(b) In any investigation or proceeding under this Act, the Director of Labor has, in addition to all other powers granted by law, the authority to examine the books and records of an employer, but only to the extent to determine whether a violation of this Act has occurred.

(c) Except as provided in this Section, information obtained from any employer subject to this Act regarding the books, records, or wages paid to workers during the administration of this Act shall:

(1) be confidential;

(2) not be published or open to public inspection;

(3) not be used in any court in any pending action or proceeding; and

(4) not be admissible in evidence in any action or proceeding other than one arising out of this Act.

(d) No finding, determination, decision, ruling, or order (including any finding of fact, statement, or conclusion made therein) issued pursuant to this Act shall be admissible or used in evidence in any action other than one arising out of this Act, nor shall it be binding or conclusive except as provided in the Act, nor shall it constitute res judicata, regardless of whether the actions were between the same or related parties or involved the same facts.

(e) Any officer or employer of this State, any officer or employee of any entity authorized to obtain information pursuant to this Section, and any agent of this State or of such entity who, except with authority of the Director under this Section, discloses information is guilty of a Class B misdemeanor and is disqualified from holding any appointment or employment by the State.

(f) The Director of Labor has the authority to determine any liabilities or civil penalties under Section 35 and Section 40 of this Act.

Section 35. Violation; liability.

(a) An employer who fails to give notice as required by paragraph (1) of subsection (a) of Section 10 before ordering a mass layoff, relocation, or employment loss is liable to each employee entitled to notice who lost his or her employment for:

(1) Back pay at the average regular rate of compensation received by the employee during the last three years of his or her employment, or the employee's final rate of compensation, whichever is higher.

(2) The value of the cost of any benefits to which the employee would have been entitled had his or her employment not been lost, including the cost of any medical expenses incurred by the employee that would have been covered under an employee benefit plan.

(b) Liability under this Section is calculated for the period of the employer's violation, up to a maximum of 60 days, or one-half the number of days that the employee was employed by the employer, whichever period is smaller.

(c) The amount of an employer's liability under subsection (a) is reduced by the following:

(1) Any wages, except vacation moneys accrued before the period of the employer's violation, paid by the employer to the employee during the period of the employer's violation.
(2) Any voluntary and unconditional payments made by the employer to the employee that were not required to satisfy any legal obligation.

(3) Any payments by the employer to a third party or trustee, such as premiums for health benefits or payments to a defined contribution pension plan, on behalf of and attributable to the employee for the period of the violation.

(4) Any liability paid by the employer under federal law.

(d) Any liability incurred by an employer under subsection (a) of this Section with respect to a defined benefit pension plan may be reduced by crediting the employee with service for all purposes under such a plan for the period of the violation.

(e) If an employer proves to the satisfaction of the Director that the act or omission that violated this Act was in good faith and that the employer had reasonable grounds for believing that the act or omission was not a violation of this Act, the Director may in his or her discretion reduce the amount of liability provided for in this Section.

Section 40. Civil penalty.

(a) An employer who fails to give notice as required by paragraph (2) of subsection (a) of Section 10 is subject to a civil penalty of not more than $500 for each day of the employer's violation. The employer is not subject to a civil penalty under this Section if the employer pays to all applicable employees the amounts for which the employer is liable under Section 35 within 3 weeks from the date the employer orders the mass layoff, relocation, or employment loss.

(b) The total amount of penalties for which an employer may be liable under this Section shall not exceed the maximum amount of penalties for which the employer may be liable under federal law for the same violation.

(c) Any penalty amount paid by the employer under federal law shall be considered a payment made under this Act.

(d) If an employer proves to the satisfaction of the Director that the act or omission that violated this Act was in good faith and that the employer had reasonable grounds for believing that the act or omission was not a violation of this Act, the Director may in his or her discretion reduce the amount of the penalty provided for in this Section.

Section 45. Advisory notice from Department of Commerce and Economic Opportunity. Before September 30 of each year, the Department of Commerce and Economic Opportunity, with the cooperation of the

Department of Employment Security, must issue a written notice to each employer that reported to the Department of Employment Security that the employer paid wages to 75 or more individuals with respect to any quarter in the immediately preceding calendar year. The notice must indicate that the employer may be subject to this Act and must generally advise the employer about the requirements of this Act and the remedies provided for violations of this Act.

Section 50. Applicability. This Act applies to plant closings or relocations occurring on or after January 1, 2005.

Section 55. Interpretation. Whenever possible, this Act shall be interpreted in a manner consistent with the federal Worker Adjustment and Retraining Notification Act and the federal regulations and court decisions interpreting that Act to the extent that the provisions of federal and State law are the same.

PUBLIC ACT 93-0924
(House Bill No. 5734)

AN ACT in relation to tax increment financing.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Illinois Municipal Code is amended by changing Sections 11-74.4-3 and 11-74.4-7 as follows:

(65 ILCS 5/11-74.4-3) (from Ch. 24, par. 11-74.4-3)

New matter indicated by italics - deletions by strikeout.
Sec. 11-74.4-3. Definitions. The following terms, wherever used or referred to in this Division 74.4 shall have the following respective meanings, unless in any case a different meaning clearly appears from the context.

(a) For any redevelopment project area that has been designated pursuant to this Section by an ordinance adopted prior to November 1, 1999 (the effective date of Public Act 91-478), "blighted area" shall have the meaning set forth in this Section prior to that date.

On and after November 1, 1999, "blighted area" means any improved or vacant area within the boundaries of a redevelopment project area located within the territorial limits of the municipality where:

(1) If improved, industrial, commercial, and residential buildings or improvements are detrimental to the public safety, health, or welfare because of a combination of 5 or more of the following factors, each of which is (i) present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) reasonably distributed throughout the improved part of the redevelopment project area:

(A) Dilapidation. An advanced state of disrepair or neglect of necessary repairs to the primary structural components of buildings or improvements in such a combination that a documented building condition analysis determines that major repair is required or the defects are so serious and so extensive that the buildings must be removed.

(B) Obsolescence. The condition or process of falling into disuse. Structures have become ill-suited for the original use.

(C) Deterioration. With respect to buildings, defects including, but not limited to, major defects in the secondary building components such as doors, windows, porches, gutters and downspouts, and fascia. With respect to surface improvements, that the condition of roadways, alleys, curbs, gutters, sidewalks, off-street parking, and surface storage areas evidence deterioration, including, but not limited to, surface cracking, crumbling, potholes, depressions, loose paving material, and weeds protruding through paved surfaces.

New matter indicated by italics - deletions by strikeout.
(D) Presence of structures below minimum code standards. All structures that do not meet the standards of zoning, subdivision, building, fire, and other governmental codes applicable to property, but not including housing and property maintenance codes.

(E) Illegal use of individual structures. The use of structures in violation of applicable federal, State, or local laws, exclusive of those applicable to the presence of structures below minimum code standards.

(F) Excessive vacancies. The presence of buildings that are unoccupied or under-utilized and that represent an adverse influence on the area because of the frequency, extent, or duration of the vacancies.

(G) Lack of ventilation, light, or sanitary facilities. The absence of adequate ventilation for light or air circulation in spaces or rooms without windows, or that require the removal of dust, odor, gas, smoke, or other noxious airborne materials. Inadequate natural light and ventilation means the absence of skylights or windows for interior spaces or rooms and improper window sizes and amounts by room area to window area ratios. Inadequate sanitary facilities refers to the absence or inadequacy of garbage storage and enclosure, bathroom facilities, hot water and kitchens, and structural inadequacies preventing ingress and egress to and from all rooms and units within a building.

(H) Inadequate utilities. Underground and overhead utilities such as storm sewers and storm drainage, sanitary sewers, water lines, and gas, telephone, and electrical services that are shown to be inadequate. Inadequate utilities are those that are: (i) of insufficient capacity to serve the uses in the redevelopment project area, (ii) deteriorated, antiquated, obsolete, or in disrepair, or (iii) lacking within the redevelopment project area.

(I) Excessive land coverage and overcrowding of structures and community facilities. The over-intensive use of property and the crowding of buildings and accessory facilities onto a site. Examples of problem conditions warranting the designation of an area as one exhibiting
excessive land coverage are: (i) the presence of buildings either improperly situated on parcels or located on parcels of inadequate size and shape in relation to present-day standards of development for health and safety and (ii) the presence of multiple buildings on a single parcel. For there to be a finding of excessive land coverage, these parcels must exhibit one or more of the following conditions: insufficient provision for light and air within or around buildings, increased threat of spread of fire due to the close proximity of buildings, lack of adequate or proper access to a public right-of-way, lack of reasonably required off-street parking, or inadequate provision for loading and service.

(J) Deleterious land use or layout. The existence of incompatible land-use relationships, buildings occupied by inappropriate mixed-uses, or uses considered to be noxious, offensive, or unsuitable for the surrounding area.

(K) Environmental clean-up. The proposed redevelopment project area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

(L) Lack of community planning. The proposed redevelopment project area was developed prior to or without the benefit or guidance of a community plan. This means that the development occurred prior to the adoption by the municipality of a comprehensive or other community plan or that the plan was not followed at the time of the area's development. This factor must be documented by evidence of adverse or incompatible land-use relationships, inadequate street layout, improper subdivision, parcels of inadequate shape and size to meet contemporary

New matter indicated by italics - deletions by strikeout.
development standards, or other evidence demonstrating an absence of effective community planning.

(M) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated.

(2) If vacant, the sound growth of the redevelopment project area is impaired by a combination of 2 or more of the following factors, each of which is (i) present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) reasonably distributed throughout the vacant part of the redevelopment project area to which it pertains:

(A) Obsolete platting of vacant land that results in parcels of limited or narrow size or configurations of parcels of irregular size or shape that would be difficult to develop on a planned basis and in a manner compatible with contemporary standards and requirements, or platting that failed to create rights-of-ways for streets or alleys or that created inadequate right-of-way widths for streets, alleys, or other public rights-of-way or that omitted easements for public utilities.

(B) Diversity of ownership of parcels of vacant land sufficient in number to retard or impede the ability to assemble the land for development.

(C) Tax and special assessment delinquencies exist or the property has been the subject of tax sales under the Property Tax Code within the last 5 years.

(D) Deterioration of structures or site improvements in neighboring areas adjacent to the vacant land.
(E) The area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

(F) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated.

(3) If vacant, the sound growth of the redevelopment project area is impaired by one of the following factors that (i) is present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) is reasonably distributed throughout the vacant part of the redevelopment project area to which it pertains:

(A) The area consists of one or more unused quarries, mines, or strip mine ponds.

(B) The area consists of unused railyards, rail tracks, or railroad rights-of-way.

(C) The area, prior to its designation, is subject to (i) chronic flooding that adversely impacts on real property in the area as certified by a registered professional engineer or appropriate regulatory agency or (ii) surface water that discharges from all or a part of the area and contributes to

New matter indicated by italics - deletions by strikeout.
flooding within the same watershed, but only if the redevelopment project provides for facilities or improvements to contribute to the alleviation of all or part of the flooding.

(D) The area consists of an unused or illegal disposal site containing earth, stone, building debris, or similar materials that were removed from construction, demolition, excavation, or dredge sites.

(E) Prior to November 1, 1999, the area is not less than 50 nor more than 100 acres and 75% of which is vacant (notwithstanding that the area has been used for commercial agricultural purposes within 5 years prior to the designation of the redevelopment project area), and the area meets at least one of the factors itemized in paragraph (1) of this subsection, the area has been designated as a town or village center by ordinance or comprehensive plan adopted prior to January 1, 1982, and the area has not been developed for that designated purpose.

(F) The area qualified as a blighted improved area immediately prior to becoming vacant, unless there has been substantial private investment in the immediately surrounding area.

(b) For any redevelopment project area that has been designated pursuant to this Section by an ordinance adopted prior to November 1, 1999 (the effective date of Public Act 91-478), "conservation area" shall have the meaning set forth in this Section prior to that date.

On and after November 1, 1999, "conservation area" means any improved area within the boundaries of a redevelopment project area located within the territorial limits of the municipality in which 50% or more of the structures in the area have an age of 35 years or more. Such an area is not yet a blighted area but because of a combination of 3 or more of the following factors is detrimental to the public safety, health, morals or welfare and such an area may become a blighted area:

(1) Dilapidation. An advanced state of disrepair or neglect of necessary repairs to the primary structural components of buildings or improvements in such a combination that a documented building condition analysis determines that major repair is required or the defects are so serious and so extensive that the buildings must be removed.

New matter indicated by italics - deletions by strikeout.
(2) Obsolescence. The condition or process of falling into disuse. Structures have become ill-suited for the original use.

(3) Deterioration. With respect to buildings, defects including, but not limited to, major defects in the secondary building components such as doors, windows, porches, gutters and downspouts, and fascia. With respect to surface improvements, that the condition of roadways, alleys, curbs, gutters, sidewalks, off-street parking, and surface storage areas evidence deterioration, including, but not limited to, surface cracking, crumbling, potholes, depressions, loose paving material, and weeds protruding through paved surfaces.

(4) Presence of structures below minimum code standards. All structures that do not meet the standards of zoning, subdivision, building, fire, and other governmental codes applicable to property, but not including housing and property maintenance codes.

(5) Illegal use of individual structures. The use of structures in violation of applicable federal, State, or local laws, exclusive of those applicable to the presence of structures below minimum code standards.

(6) Excessive vacancies. The presence of buildings that are unoccupied or under-utilized and that represent an adverse influence on the area because of the frequency, extent, or duration of the vacancies.

(7) Lack of ventilation, light, or sanitary facilities. The absence of adequate ventilation for light or air circulation in spaces or rooms without windows, or that require the removal of dust, odor, gas, smoke, or other noxious airborne materials. Inadequate natural light and ventilation means the absence or inadequacy of skylights or windows for interior spaces or rooms and improper window sizes and amounts by room area to window area ratios. Inadequate sanitary facilities refers to the absence or inadequacy of garbage storage and enclosure, bathroom facilities, hot water and kitchens, and structural inadequacies preventing ingress and egress to and from all rooms and units within a building.

(8) Inadequate utilities. Underground and overhead utilities such as storm sewers and storm drainage, sanitary sewers, water lines, and gas, telephone, and electrical services that are shown to be inadequate. Inadequate utilities are those that are: (i) of
insufficient capacity to serve the uses in the redevelopment project area, (ii) deteriorated, antiquated, obsolete, or in disrepair, or (iii) lacking within the redevelopment project area.

(9) Excessive land coverage and overcrowding of structures and community facilities. The over-intensive use of property and the crowding of buildings and accessory facilities onto a site. Examples of problem conditions warranting the designation of an area as one exhibiting excessive land coverage are: the presence of buildings either improperly situated on parcels or located on parcels of inadequate size and shape in relation to present-day standards of development for health and safety and the presence of multiple buildings on a single parcel. For there to be a finding of excessive land coverage, these parcels must exhibit one or more of the following conditions: insufficient provision for light and air within or around buildings, increased threat of spread of fire due to the close proximity of buildings, lack of adequate or proper access to a public right-of-way, lack of reasonably required off-street parking, or inadequate provision for loading and service.

(10) Deleterious land use or layout. The existence of incompatible land-use relationships, buildings occupied by inappropriate mixed-uses, or uses considered to be noxious, offensive, or unsuitable for the surrounding area.

(11) Lack of community planning. The proposed redevelopment project area was developed prior to or without the benefit or guidance of a community plan. This means that the development occurred prior to the adoption by the municipality of a comprehensive or other community plan or that the plan was not followed at the time of the area's development. This factor must be documented by evidence of adverse or incompatible land-use relationships, inadequate street layout, improper subdivision, parcels of inadequate shape and size to meet contemporary development standards, or other evidence demonstrating an absence of effective community planning.

(12) The area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage

tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

(13) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years for which information is available.

(c) "Industrial park" means an area in a blighted or conservation area suitable for use by any manufacturing, industrial, research or transportation enterprise, or facilities to include but not be limited to factories, mills, processing plants, assembly plants, packing plants, fabricating plants, industrial distribution centers, warehouses, repair overhaul or service facilities, freight terminals, research facilities, test facilities or railroad facilities.

(d) "Industrial park conservation area" means an area within the boundaries of a redevelopment project area located within the territorial limits of a municipality that is a labor surplus municipality or within 1 1/2 miles of the territorial limits of a municipality that is a labor surplus municipality if the area is annexed to the municipality; which area is zoned as industrial no later than at the time the municipality by ordinance designates the redevelopment project area, and which area includes both vacant land suitable for use as an industrial park and a blighted area or conservation area contiguous to such vacant land.

(e) "Labor surplus municipality" means a municipality in which, at any time during the 6 months before the municipality by ordinance designates an industrial park conservation area, the unemployment rate was over 6% and was also 100% or more of the national average unemployment rate for that same time as published in the United States Department of Labor Bureau of Labor Statistics publication entitled "The Employment Situation" or its successor publication. For the purpose of this subsection, if unemployment rate statistics for the municipality are not available, the unemployment rate in the municipality shall be deemed to be the same as the unemployment rate in the principal county in which the municipality is located.

For purposes of computing the aggregate amount of such taxes for base years occurring prior to 1985, the Department of Revenue shall determine the Initial Sales Tax Amounts for such taxes and deduct therefrom an amount equal to 4% of the aggregate amount of taxes per year for each year the base year is prior to 1985, but not to exceed a total deduction of 12%. The amount so determined shall be known as the "Adjusted Initial Sales Tax Amounts". For purposes of determining the Municipal Sales Tax Increment, the Department of Revenue shall for each period subtract from the amount paid to the municipality from the Local Government Tax Fund arising from sales by retailers and servicemen on transactions located in the redevelopment project area or the State Sales Tax Boundary, as the case may be, the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts for the Municipal

For the State Fiscal Year 1990, this calculation shall be made by utilizing the period from January 1, 1988, until September 30, 1988, to determine the tax amounts received from retailers and servicemen pursuant to the Municipal Retailers' Occupation Tax and the Municipal Service Occupation Tax Act, which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For the State Fiscal Year 1991, this calculation shall be made by utilizing the period from October 1, 1988, to June 30, 1989, to determine the tax amounts received from retailers and servicemen pursuant to the Municipal Retailers' Occupation Tax and the Municipal Service Occupation Tax Act which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For every State Fiscal Year thereafter, the applicable period shall be the 12 months beginning July 1 and ending June 30 to determine the tax amounts received which shall have deducted therefrom the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts, as the case may be.

For Fiscal Year 1999, and every year thereafter until the year 2007, for any municipality that has not entered into a contract or has not issued bonds prior to June 1, 1988 to finance redevelopment project costs within a State Sales Tax Boundary, the Net State Sales Tax Increment shall be calculated as follows: By multiplying the Net State Sales Tax Increment by 90% in the State Fiscal Year 1999; 80% in the State Fiscal Year 2000; 70% in the State Fiscal Year 2001; 60% in the State Fiscal Year 2002; 50% in the State Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006; and 10% in the State Fiscal Year 2007. If, however, a municipality that issued bonds in connection with a redevelopment project in a redevelopment project area within the State Sales Tax Boundary prior to July 29, 1991 retires the bonds prior to June 30, 2007 or a municipality that entered into contracts in connection with a redevelopment project in a redevelopment project area before June 1, 1988 completes the contracts prior to June 30, 2007, then so long as the redevelopment project is not completed or is not terminated, the Net State Sales Tax Increment shall be calculated, beginning on the date on which the bonds are retired or the contracts are completed, as follows: By multiplying the Net State Sales Tax Increment by 60% in the State Fiscal Year 2002; 50% in the State Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006; and 10% in the State Fiscal Year 2007. No payment shall be made for State Fiscal Year 2008 and thereafter. Refunding of any bonds issued prior to July 29, 1991, shall not alter the Net State Sales Tax Increment.

(k) "Net State Utility Tax Increment" means the sum of the following: (a) 80% of the first $100,000 of State Utility Tax Increment annually generated by a redevelopment project area; (b) 60% of the amount in excess of $100,000 but not exceeding $500,000 of the State Utility Tax Increment annually generated by a redevelopment project area; and (c) 40% of all amounts in excess of $500,000 of State Utility Tax Increment annually generated by a redevelopment project area. For the State Fiscal Year 1999, and every year thereafter until the year 2007, for any municipality that has not entered into a contract or has not issued bonds prior to June 1, 1988 to finance redevelopment project costs within a redevelopment project area, the Net State Utility Tax Increment shall be calculated as follows: By multiplying the Net State Utility Tax Increment by 90% in the State Fiscal Year 1999; 80% in the State Fiscal Year 2000; 70% in the State Fiscal Year 2001; 60% in the State Fiscal Year 2002; 50% in the State Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006; and 10% in the State Fiscal Year 2007. No payment shall be made for the State Fiscal Year 2008 and thereafter.

(m) "Payment in lieu of taxes" means those estimated tax revenues from real property in a redevelopment project area derived from real property that has been acquired by a municipality which according to the redevelopment project or plan is to be used for a private use which taxing districts would have received had a municipality not acquired the real property and adopted tax increment allocation financing and which would result from levies made after the time of the adoption of tax increment allocation financing to the time the current equalized value of real property in the redevelopment project area exceeds the total initial equalized value of real property in said area.

(n) "Redevelopment plan" means the comprehensive program of the municipality for development or redevelopment intended by the payment of redevelopment project costs to reduce or eliminate those conditions the existence of which qualified the redevelopment project area as a "blighted area" or "conservation area" or combination thereof or "industrial park conservation area," and thereby to enhance the tax bases of the taxing districts which extend into the redevelopment project area. On and after November 1, 1999 (the effective date of Public Act 91-478), no redevelopment plan may be approved or amended that includes the development of vacant land (i) with a golf course and related clubhouse and other facilities or (ii) designated by federal, State, county, or municipal government as public land for outdoor recreational activities or for nature preserves and used for that purpose within 5 years prior to the adoption of the redevelopment plan. No redevelopment plan shall be adopted unless a municipality complies with all of the following requirements:

However, for redevelopment project areas for which bonds were issued before July 29, 1991, or for which contracts were entered into before June 1, 1988, in connection with a redevelopment project in the area within the State Sales Tax Boundary, the estimated dates of completion of the redevelopment project and retirement of obligations to finance redevelopment project costs may be extended by municipal ordinance to December 31, 2013. The termination procedures of subsection (b) of Section 11-74.4-8 are not required for these redevelopment project areas in 2009 but are required in 2013. The extension allowed by this amendatory Act of 1993 shall not apply to real property tax increment allocation financing under Section 11-74.4-8.

A municipality may by municipal ordinance amend an existing redevelopment plan to conform to this paragraph (3) as amended by Public Act 91-478, which municipal ordinance may be adopted without further hearing or notice and without complying with the procedures provided in this Act pertaining to an amendment to or the initial approval of a redevelopment plan and project and designation of a redevelopment project area.

Those dates, for purposes of real property tax increment allocation financing pursuant to Section 11-74.4-8 only, shall be not more than 35 years for redevelopment project areas that were adopted on or after December 16, 1986 and for which at least $8 million worth of municipal bonds were authorized on or after December 19, 1989 but before January 1, 1990; provided that the municipality elects to extend the life of the redevelopment project area to 35 years by the adoption of an ordinance after at least 14 but not more than 30 days' written notice to the taxing bodies, that would otherwise constitute the joint review board for the redevelopment project area, before the adoption of the ordinance.

Those dates, for purposes of real property tax increment allocation financing pursuant to Section 11-74.4-8 only, shall be not more than 35 years for redevelopment project areas that were established on or after December 1, 1981 but before January 1, 1982 and for which at least $1,500,000 worth of tax increment revenue bonds were authorized on or after September 30, 1990 but before July 1, 1991; provided that the municipality elects to extend the life of the redevelopment project area to 35 years by the adoption of an ordinance after at least 14 but not more than 30 days' written notice to the taxing bodies, that would otherwise constitute the joint review board for the redevelopment project area, before the adoption of the ordinance.

(3.5) The municipality finds, in the case of an industrial park conservation area, also that the municipality is a labor surplus municipality and that the implementation of the redevelopment plan will reduce unemployment, create new jobs and by the provision of new facilities enhance the tax base of the taxing districts that extend into the redevelopment project area.

(4) If any incremental revenues are being utilized under Section 8(a)(1) or 8(a)(2) of this Act in redevelopment project areas approved by ordinance after January 1, 1986, the municipality finds: (a) that the redevelopment project area would not reasonably be developed without the use of such incremental revenues, and (b) that such incremental revenues will be exclusively utilized for the development of the redevelopment project area.

(5) If the redevelopment plan will not result in displacement of residents from 10 or more inhabited residential units, and the municipality certifies in the plan that such displacement will not result from the plan, a housing impact study need not be performed. If, however, the redevelopment plan would result in the displacement of residents from 10 or more inhabited residential units, or if the redevelopment project area contains 75 or more inhabited residential units and no certification is made, then the municipality shall prepare, as part of the separate feasibility report required by subsection (a) of Section 11-74.4-5, a housing impact study.

Part I of the housing impact study shall include (i) data as to whether the residential units are single family or multi-family

units, (ii) the number and type of rooms within the units, if that information is available, (iii) whether the units are inhabited or uninhabited, as determined not less than 45 days before the date that the ordinance or resolution required by subsection (a) of Section 11-74.4-5 is passed, and (iv) data as to the racial and ethnic composition of the residents in the inhabited residential units. The data requirement as to the racial and ethnic composition of the residents in the inhabited residential units shall be deemed to be fully satisfied by data from the most recent federal census.

Part II of the housing impact study shall identify the inhabited residential units in the proposed redevelopment project area that are to be or may be removed. If inhabited residential units are to be removed, then the housing impact study shall identify (i) the number and location of those units that will or may be removed, (ii) the municipality's plans for relocation assistance for those residents in the proposed redevelopment project area whose residences are to be removed, (iii) the availability of replacement housing for those residents whose residences are to be removed, and shall identify the type, location, and cost of the housing, and (iv) the type and extent of relocation assistance to be provided.

(6) On and after November 1, 1999, the housing impact study required by paragraph (5) shall be incorporated in the redevelopment plan for the redevelopment project area.

(7) On and after November 1, 1999, no redevelopment plan shall be adopted, nor an existing plan amended, nor shall residential housing that is occupied by households of low-income and very low-income persons in currently existing redevelopment project areas be removed after November 1, 1999 unless the redevelopment plan provides, with respect to inhabited housing units that are to be removed for households of low-income and very low-income persons, affordable housing and relocation assistance not less than that which would be provided under the federal Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 and the regulations under that Act, including the eligibility criteria. Affordable housing may be either existing or newly constructed housing. For purposes of this paragraph (7), "low-income households", "very low-income households", and "affordable housing" have the meanings set forth in the Illinois Affordable Housing Act. The municipality shall

make a good faith effort to ensure that this affordable housing is located in or near the redevelopment project area within the municipality.

(8) On and after November 1, 1999, if, after the adoption of the redevelopment plan for the redevelopment project area, any municipality desires to amend its redevelopment plan to remove more inhabited residential units than specified in its original redevelopment plan, that change shall be made in accordance with the procedures in subsection (c) of Section 11-74.4-5.

(9) For redevelopment project areas designated prior to November 1, 1999, the redevelopment plan may be amended without further joint review board meeting or hearing, provided that the municipality shall give notice of any such changes by mail to each affected taxing district and registrant on the interested party registry, to authorize the municipality to expend tax increment revenues for redevelopment project costs defined by paragraphs (5) and (7.5), subparagraphs (E) and (F) of paragraph (11), and paragraph (11.5) of subsection (q) of Section 11-74.4-3, so long as the changes do not increase the total estimated redevelopment project costs set out in the redevelopment plan by more than 5% after adjustment for inflation from the date the plan was adopted.

(o) "Redevelopment project" means any public and private development project in furtherance of the objectives of a redevelopment plan. On and after November 1, 1999 (the effective date of Public Act 91-478), no redevelopment plan may be approved or amended that includes the development of vacant land (i) with a golf course and related clubhouse and other facilities or (ii) designated by federal, State, county, or municipal government as public land for outdoor recreational activities or for nature preserves and used for that purpose within 5 years prior to the adoption of the redevelopment plan. For the purpose of this subsection, "recreational activities" is limited to mean camping and hunting.

(p) "Redevelopment project area" means an area designated by the municipality, which is not less in the aggregate than 1 1/2 acres and in respect to which the municipality has made a finding that there exist conditions which cause the area to be classified as an industrial park conservation area or a blighted area or a conservation area, or a combination of both blighted areas and conservation areas.

(q) "Redevelopment project costs" mean and include the sum total of all reasonable or necessary costs incurred or estimated to be incurred,

and any such costs incidental to a redevelopment plan and a redevelopment project. Such costs include, without limitation, the following:

(1) Costs of studies, surveys, development of plans, and specifications, implementation and administration of the redevelopment plan including but not limited to staff and professional service costs for architectural, engineering, legal, financial, planning or other services, provided however that no charges for professional services may be based on a percentage of the tax increment collected; except that on and after November 1, 1999 (the effective date of Public Act 91-478), no contracts for professional services, excluding architectural and engineering services, may be entered into if the terms of the contract extend beyond a period of 3 years. In addition, "redevelopment project costs" shall not include lobbying expenses. After consultation with the municipality, each tax increment consultant or advisor to a municipality that plans to designate or has designated a redevelopment project area shall inform the municipality in writing of any contracts that the consultant or advisor has entered into with entities or individuals that have received, or are receiving, payments financed by tax increment revenues produced by the redevelopment project area with respect to which the consultant or advisor has performed, or will be performing, service for the municipality. This requirement shall be satisfied by the consultant or advisor before the commencement of services for the municipality and thereafter whenever any other contracts with those individuals or entities are executed by the consultant or advisor;

(1.5) After July 1, 1999, annual administrative costs shall not include general overhead or administrative costs of the municipality that would still have been incurred by the municipality if the municipality had not designated a redevelopment project area or approved a redevelopment plan;

(4) Costs of the construction of public works or improvements, except that on and after November 1, 1999, redevelopment project costs shall not include the cost of constructing a new municipal public building principally used to provide offices, storage space, or conference facilities or vehicle storage, maintenance, or repair for administrative, public safety, or public works personnel and that is not intended to replace an existing public building as provided under paragraph (3) of subsection (q) of Section 11-74.4-3 unless either (i) the construction of the new municipal building implements a redevelopment project that was included in a redevelopment plan that was adopted by the municipality prior to November 1, 1999 or (ii) the municipality makes a reasonable determination in the redevelopment plan, supported by information that provides the basis for that determination, that the new municipal building is required to meet an increase in the need for public safety purposes anticipated to result from the implementation of the redevelopment plan;

(5) Costs of job training and retraining projects, including the cost of "welfare to work" programs implemented by businesses located within the redevelopment project area;

(6) Financing costs, including but not limited to all necessary and incidental expenses related to the issuance of obligations and which may include payment of interest on any obligations issued hereunder including interest accruing during the estimated period of construction of any redevelopment project for which such obligations are issued and for not exceeding 36 months thereafter and including reasonable reserves related thereto;

(A) for foundation districts, excluding any school district in a municipality with a population in excess of 1,000,000, by multiplying the district's increase in attendance resulting from the net increase in new students enrolled in that school district who reside in new students enrolled in that school district within the redevelopment project area that have received financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by the most recently available per capita tuition cost as defined in Section 10-20.12a of the School Code less any increase in general State aid as defined in Section 18-8.05 of the School Code attributable to these added new students subject to the following annual limitations:

than $5,900, no more than 25% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act;

(ii) for elementary school districts with a district average 1995-96 Per Capita Tuition Charge of less than $5,900, no more than 17% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act; and

(B) For alternate method districts, flat grant districts, and foundation districts with a district average 1995-96 Per Capita Tuition Charge equal to or more than $5,900, excluding any school district with a population in excess of 1,000,000, by multiplying the district's increase in attendance resulting from the net increase in new students enrolled in that school district who reside in housing units within the redevelopment project area that have received financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by the most recently available per capita tuition cost as defined in Section 10-20.12a of the School Code less any increase in general state aid as defined in Section 18-8.05 of the School Code attributable to these added new students subject to the following annual limitations:

(i) for unit school districts, no more than 40% of the total amount of property tax increment revenue produced by those housing units that have
received tax increment finance assistance under this Act;

(iii) for secondary school districts, no more than 13% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act.

(C) For any school district in a municipality with a population in excess of 1,000,000, the following restrictions shall apply to the reimbursement of increased costs under this paragraph (7.5):

(i) no increased costs shall be reimbursed unless the school district certifies that each of the schools affected by the assisted housing project is at or over its student capacity;

(ii) the amount reimbursable shall be reduced by the value of any land donated to the school district by the municipality or developer, and by the value of any physical improvements made to the schools by the municipality or developer; and

(iii) the amount reimbursed may not affect amounts otherwise obligated by the terms of any bonds, notes, or other funding instruments, or the terms of any redevelopment agreement.

Any school district seeking payment under this paragraph (7.5) shall, after July 1 and before September 30 of each year, provide the municipality with reasonable evidence to support its claim for reimbursement before the municipality shall be required to approve or make the payment to the school district. If the school district fails to provide the information during this period in any year, it shall forfeit any claim to reimbursement for that year. School districts may adopt a resolution waiving the right to all or a portion of the reimbursement otherwise required by this paragraph.

(7.5). By acceptance of this reimbursement the school district waives the right to directly or indirectly set aside, modify, or contest in any manner the establishment of the redevelopment project area or projects;

(8) Relocation costs to the extent that a municipality determines that relocation costs shall be paid or is required to make payment of relocation costs by federal or State law or in order to satisfy subparagraph (7) of subsection (n);

(9) Payment in lieu of taxes;

(10) Costs of job training, retraining, advanced vocational education or career education, including but not limited to courses in occupational, semi-technical or technical fields leading directly to employment, incurred by one or more taxing districts, provided that such costs (i) are related to the establishment and maintenance of additional job training, advanced vocational education or career education programs for persons employed or to be employed by employers located in a redevelopment project area; and (ii) when incurred by a taxing district or taxing districts other than the municipality, are set forth in a written agreement by or among the municipality and the taxing district or taxing districts, which agreement describes the program to be undertaken, including but not limited to the number of employees to be trained, a description of the training and services to be provided, the number and type of positions available or to be available, itemized costs of the program and sources of funds to pay for the same, and the term of the agreement. Such costs include, specifically, the payment by community college districts of costs pursuant to Sections 3-37, 3-38, 3-40 and 3-40.1 of the Public Community College Act and by school districts of costs pursuant to Sections 10-22.20a and 10-23.3a of The School Code;

(11) Interest cost incurred by a redeveloper related to the construction, renovation or rehabilitation of a redevelopment project provided that:

(A) such costs are to be paid directly from the special tax allocation fund established pursuant to this Act;

(B) such payments in any one year may not exceed 30% of the annual interest costs incurred by the redeveloper with regard to the redevelopment project during that year;

New matter indicated by italics - deletions by strikeout.
(C) if there are not sufficient funds available in the special tax allocation fund to make the payment pursuant to this paragraph (11) then the amounts so due shall accrue and be payable when sufficient funds are available in the special tax allocation fund;

(D) the total of such interest payments paid pursuant to this Act may not exceed 30% of the total (i) cost paid or incurred by the redeveloper for the redevelopment project plus (ii) redevelopment project costs excluding any property assembly costs and any relocation costs incurred by a municipality pursuant to this Act; and

(E) the cost limits set forth in subparagraphs (B) and (D) of paragraph (11) shall be modified for the financing of rehabilitated or new housing units for low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act. The percentage of 75% shall be substituted for 30% in subparagraphs (B) and (D) of paragraph (11).

(F) Instead of the eligible costs provided by subparagraphs (B) and (D) of paragraph (11), as modified by this subparagraph, and notwithstanding any other provisions of this Act to the contrary, the municipality may pay from tax increment revenues up to 50% of the cost of construction of new housing units to be occupied by low-income households and very low-income households as defined in Section 3 of the Illinois Affordable Housing Act. The cost of construction of those units may be derived from the proceeds of bonds issued by the municipality under this Act or other constitutional or statutory authority or from other sources of municipal revenue that may be reimbursed from tax increment revenues or the proceeds of bonds issued to finance the construction of that housing.

The eligible costs provided under this subparagraph (F) of paragraph (11) shall be an eligible cost for the construction, renovation, and rehabilitation of all low and very low-income housing units, as defined in Section 3 of the Illinois Affordable Housing Act, within the redevelopment project area. If the low and very low-income units are part of a residential redevelopment project that

includes units not affordable to low and very low-income households, only the low and very low-income units shall be eligible for benefits under subparagraph (F) of paragraph (11). The standards for maintaining the occupancy by low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act, of those units constructed with eligible costs made available under the provisions of this subparagraph (F) of paragraph (11) shall be established by guidelines adopted by the municipality. The responsibility for annually documenting the initial occupancy of the units by low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act, shall be that of the then current owner of the property. For ownership units, the guidelines will provide, at a minimum, for a reasonable recapture of funds, or other appropriate methods designed to preserve the original affordability of the ownership units. For rental units, the guidelines will provide, at a minimum, for the affordability of rent to low and very low-income households. As units become available, they shall be rented to income-eligible tenants. The municipality may modify these guidelines from time to time; the guidelines, however, shall be in effect for as long as tax increment revenue is being used to pay for costs associated with the units or for the retirement of bonds issued to finance the units or for the life of the redevelopment project area, whichever is later.

(11.5) If the redevelopment project area is located within a municipality with a population of more than 100,000, the cost of day care services for children of employees from low-income families working for businesses located within the redevelopment project area and all or a portion of the cost of operation of day care centers established by redevelopment project area businesses to serve employees from low-income families working in businesses located in the redevelopment project area. For the purposes of this paragraph, "low-income families" means families whose annual income does not exceed 80% of the municipal, county, or regional median income, adjusted for family size, as the annual income and municipal, county, or regional median income are determined from

time to time by the United States Department of Housing and Urban Development.

(12) Unless explicitly stated herein the cost of construction of new privately-owned buildings shall not be an eligible redevelopment project cost.

(13) After November 1, 1999 (the effective date of Public Act 91-478), none of the redevelopment project costs enumerated in this subsection shall be eligible redevelopment project costs if those costs would provide direct financial support to a retail entity initiating operations in the redevelopment project area while terminating operations at another Illinois location within 10 miles of the redevelopment project area but outside the boundaries of the redevelopment project area municipality. For purposes of this paragraph, termination means a closing of a retail operation that is directly related to the opening of the same operation or like retail entity owned or operated by more than 50% of the original ownership in a redevelopment project area, but it does not mean closing an operation for reasons beyond the control of the retail entity, as documented by the retail entity, subject to a reasonable finding by the municipality that the current location contained inadequate space, had become economically obsolete, or was no longer a viable location for the retailer or serviceman.

If a special service area has been established pursuant to the Special Service Area Tax Act or Special Service Area Tax Law, then any tax increment revenues derived from the tax imposed pursuant to the Special Service Area Tax Act or Special Service Area Tax Law may be used within the redevelopment project area for the purposes permitted by that Act or Law as well as the purposes permitted by this Act.

(r) "State Sales Tax Boundary" means the redevelopment project area or the amended redevelopment project area boundaries which are determined pursuant to subsection (9) of Section 11-74.4-8a of this Act. The Department of Revenue shall certify pursuant to subsection (9) of Section 11-74.4-8a the appropriate boundaries eligible for the determination of State Sales Tax Increment.

(s) "State Sales Tax Increment" means an amount equal to the increase in the aggregate amount of taxes paid by retailers and servicemen, other than retailers and servicemen subject to the Public Utilities Act, on transactions at places of business located within a State Sales Tax Boundary pursuant to the Retailers' Occupation Tax Act, the Use Tax Act,
the Service Use Tax Act, and the Service Occupation Tax Act, except such portion of such increase that is paid into the State and Local Sales Tax Reform Fund, the Local Government Distributive Fund, the Local Government Tax Fund and the County and Mass Transit District Fund, for as long as State participation exists, over and above the Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts for such taxes as certified by the Department of Revenue and paid under those Acts by retailers and servicemen on transactions at places of business located within the State Sales Tax Boundary during the base year which shall be the calendar year immediately prior to the year in which the municipality adopted tax increment allocation financing, less 3.0% of such amounts generated under the Retailers' Occupation Tax Act, Use Tax Act and Service Use Tax Act and the Service Occupation Tax Act, which sum shall be appropriated to the Department of Revenue to cover its costs of administering and enforcing this Section. For purposes of computing the aggregate amount of such taxes for base years occurring prior to 1985, the Department of Revenue shall compute the Initial Sales Tax Amount for such taxes and deduct therefrom an amount equal to 4% of the aggregate amount of taxes per year for each year the base year is prior to 1985, but not to exceed a total deduction of 12%. The amount so determined shall be known as the "Adjusted Initial Sales Tax Amount". For purposes of determining the State Sales Tax Increment the Department of Revenue shall for each period subtract from the tax amounts received from retailers and servicemen on transactions located in the State Sales Tax Boundary, the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or Revised Initial Sales Tax Amounts for the Retailers' Occupation Tax Act, the Use Tax Act, the Service Use Tax Act and the Service Occupation Tax Act. For the State Fiscal Year 1989 this calculation shall be made by utilizing the calendar year 1987 to determine the tax amounts received. For the State Fiscal Year 1990, this calculation shall be made by utilizing the period from January 1, 1988, until September 30, 1988, to determine the tax amounts received from retailers and servicemen, which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For the State Fiscal Year 1991, this calculation shall be made by utilizing the period from October 1, 1988, until June 30, 1989, to determine the tax amounts received from retailers and servicemen, which shall have deducted therefrom nine-twelfths of the certified Initial State Sales Tax Amounts,
Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For every State Fiscal Year thereafter, the applicable period shall be the 12 months beginning July 1 and ending on June 30, to determine the tax amounts received which shall have deducted therefrom the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts. Municipalities intending to receive a distribution of State Sales Tax Increment must report a list of retailers to the Department of Revenue by October 31, 1988 and by July 31, of each year thereafter.

(t) "Taxing districts" means counties, townships, cities and incorporated towns and villages, school, road, park, sanitary, mosquito abatement, forest preserve, public health, fire protection, river conservancy, tuberculosis sanitarium and any other municipal corporations or districts with the power to levy taxes.

(u) "Taxing districts' capital costs" means those costs of taxing districts for capital improvements that are found by the municipal corporate authorities to be necessary and directly result from the redevelopment project.

(v) As used in subsection (a) of Section 11-74.4-3 of this Act, "vacant land" means any parcel or combination of parcels of real property without industrial, commercial, and residential buildings which has not been used for commercial agricultural purposes within 5 years prior to the designation of the redevelopment project area, unless the parcel is included in an industrial park conservation area or the parcel has been subdivided; provided that if the parcel was part of a larger tract that has been divided into 3 or more smaller tracts that were accepted for recording during the period from 1950 to 1990, then the parcel shall be deemed to have been subdivided, and all proceedings and actions of the municipality taken in that connection with respect to any previously approved or designated redevelopment project area or amended redevelopment project area are hereby validated and hereby declared to be legally sufficient for all purposes of this Act. For purposes of this Section and only for land subject to the subdivision requirements of the Plat Act, land is subdivided when the original plat of the proposed Redevelopment Project Area or relevant portion thereof has been properly certified, acknowledged, approved, and recorded or filed in accordance with the Plat Act and a preliminary plat, if any, for any subsequent phases of the proposed Redevelopment Project Area or relevant portion thereof has been properly

approved and filed in accordance with the applicable ordinance of the municipality.

(w) "Annual Total Increment" means the sum of each municipality's annual Net Sales Tax Increment and each municipality's annual Net Utility Tax Increment. The ratio of the Annual Total Increment of each municipality to the Annual Total Increment for all municipalities, as most recently calculated by the Department, shall determine the proportional shares of the Illinois Tax Increment Fund to be distributed to each municipality.

(65 ILCS 5/11-74.4-7) (from Ch. 24, par. 11-74.4-7)

Sec. 11-74.4-7. Obligations secured by the special tax allocation fund set forth in Section 11-74.4-8 for the redevelopment project area may be issued to provide for redevelopment project costs. Such obligations, when so issued, shall be retired in the manner provided in the ordinance authorizing the issuance of such obligations by the receipts of taxes levied as specified in Section 11-74.4-9 against the taxable property included in the area, by revenues as specified by Section 11-74.4-8a and other revenue designated by the municipality. A municipality may in the ordinance pledge all or any part of the funds in and to be deposited in the special tax allocation fund created pursuant to Section 11-74.4-8 to the payment of the redevelopment project costs and obligations. Any pledge of funds in the special tax allocation fund shall provide for distribution to the taxing districts and to the Illinois Department of Revenue of moneys not required, pledged, earmarked, or otherwise designated for payment and securing of the obligations and anticipated redevelopment project costs and such excess funds shall be calculated annually and deemed to be "surplus" funds. In the event a municipality only applies or pledges a portion of the funds in the special tax allocation fund for the payment or securing of anticipated redevelopment project costs or of obligations, any such funds remaining in the special tax allocation fund after complying with the requirements of the application or pledge, shall also be calculated annually and deemed "surplus" funds. All surplus funds in the special tax allocation fund shall be distributed annually within 180 days after the close of the municipality's fiscal year by being paid by the municipal treasurer to the County Collector, to the Department of Revenue and to the municipality in direct proportion to the tax incremental revenue received as a result of an increase in the equalized assessed value of property in the redevelopment

project area, tax incremental revenue received from the State and tax
incremental revenue received from the municipality, but not to exceed as
to each such source the total incremental revenue received from that
source. The County Collector shall thereafter make distribution to the
respective taxing districts in the same manner and proportion as the most
recent distribution by the county collector to the affected districts of real
property taxes from real property in the redevelopment project area.

Without limiting the foregoing in this Section, the municipality
may in addition to obligations secured by the special tax allocation fund
pledge for a period not greater than the term of the obligations towards
payment of such obligations any part or any combination of the following:
(a) net revenues of all or part of any redevelopment project; (b) taxes
levied and collected on any or all property in the municipality; (c) the full
faith and credit of the municipality; (d) a mortgage on part or all of the
redevelopment project; or (e) any other taxes or anticipated receipts that
the municipality may lawfully pledge.

Such obligations may be issued in one or more series bearing
interest at such rate or rates as the corporate authorities of the municipality
shall determine by ordinance. Such obligations shall bear such date or
dates, mature at such time or times not exceeding 20 years from their
respective dates, be in such denomination, carry such registration
privileges, be executed in such manner, be payable in such medium of
payment at such place or places, contain such covenants, terms and
conditions, and be subject to redemption as such ordinance shall provide.
Obligations issued pursuant to this Act may be sold at public or private
sale at such price as shall be determined by the corporate authorities of the
municipalities. No referendum approval of the electors shall be required as
a condition to the issuance of obligations pursuant to this Division except
as provided in this Section.

In the event the municipality authorizes issuance of obligations
pursuant to the authority of this Division secured by the full faith and
credit of the municipality, which obligations are other than obligations
which may be issued under home rule powers provided by Article VII,
Section 6 of the Illinois Constitution, or pledges taxes pursuant to (b) or
(c) of the second paragraph of this section, the ordinance authorizing the
issuance of such obligations or pledging such taxes shall be published
within 10 days after such ordinance has been passed in one or more
newspapers, with general circulation within such municipality. The
publication of the ordinance shall be accompanied by a notice of (1) the

specific number of voters required to sign a petition requesting the question of the issuance of such obligations or pledging taxes to be submitted to the electors; (2) the time in which such petition must be filed; and (3) the date of the prospective referendum. The municipal clerk shall provide a petition form to any individual requesting one.

If no petition is filed with the municipal clerk, as hereinafter provided in this Section, within 30 days after the publication of the ordinance, the ordinance shall be in effect. But, if within that 30 day period a petition is filed with the municipal clerk, signed by electors in the municipality numbering 10% or more of the number of registered voters in the municipality, asking that the question of issuing obligations using full faith and credit of the municipality as security for the cost of paying for redevelopment project costs, or of pledging taxes for the payment of such obligations, or both, be submitted to the electors of the municipality, the corporate authorities of the municipality shall call a special election in the manner provided by law to vote upon that question, or, if a general, State or municipal election is to be held within a period of not less than 30 or more than 90 days from the date such petition is filed, shall submit the question at the next general, State or municipal election. If it appears upon the canvass of the election by the corporate authorities that a majority of electors voting upon the question voted in favor thereof, the ordinance shall be in effect, but if a majority of the electors voting upon the question are not in favor thereof, the ordinance shall not take effect.

The ordinance authorizing the obligations may provide that the obligations shall contain a recital that they are issued pursuant to this Division, which recital shall be conclusive evidence of their validity and of the regularity of their issuance.

In the event the municipality authorizes issuance of obligations pursuant to this Section secured by the full faith and credit of the municipality, the ordinance authorizing the obligations may provide for the levy and collection of a direct annual tax upon all taxable property within the municipality sufficient to pay the principal thereof and interest thereon as it matures, which levy may be in addition to and exclusive of the maximum of all other taxes authorized to be levied by the municipality, which levy, however, shall be abated to the extent that monies from other sources are available for payment of the obligations and the municipality certifies the amount of said monies available to the county clerk.

New matter indicated by italics - deletions by strikeout.
A certified copy of such ordinance shall be filed with the county clerk of each county in which any portion of the municipality is situated, and shall constitute the authority for the extension and collection of the taxes to be deposited in the special tax allocation fund.

A municipality may also issue its obligations to refund in whole or in part, obligations theretofore issued by such municipality under the authority of this Act, whether at or prior to maturity, provided however, that the last maturity of the refunding obligations shall not be expressed to mature later than December 31 of the year in which the payment to the municipal treasurer as provided in subsection (b) of Section 11-74.4-8 of this Act is to be made with respect to ad valorem taxes levied in the twenty-third calendar year after the year in which the ordinance approving the redevelopment project area is adopted if the ordinance was adopted on or after January 15, 1981, and not later than December 31 of the year in which the payment to the municipal treasurer as provided in subsection (b) of Section 11-74.4-8 of this Act is to be made with respect to ad valorem taxes levied in the thirty-fifth calendar year after the year in which the ordinance approving the redevelopment project area is adopted (A) if the ordinance was adopted before January 15, 1981, or (B) if the ordinance was adopted in December 1983, April 1984, July 1985, or December 1989, or (C) if the ordinance was adopted in December, 1987 and the redevelopment project is located within one mile of Midway Airport, or (D) if the ordinance was adopted before January 1, 1987 by a municipality in Mason County, or (E) if the municipality is subject to the Local Government Financial Planning and Supervision Act or the Financially Distressed City Law, or (F) if the ordinance was adopted in December 1984 by the Village of Rosemont, or (G) if the ordinance was adopted on December 31, 1986 by a municipality located in Clinton County for which at least $250,000 of tax increment bonds were authorized on June 17, 1997, or if the ordinance was adopted on December 31, 1986 by a municipality with a population in 1990 of less than 3,600 that is located in a county with a population in 1990 of less than 34,000 and for which at least $250,000 of tax increment bonds were authorized on June 17, 1997, or (H) if the ordinance was adopted on October 5, 1982 by the City of Kankakee, or (I) if the ordinance was adopted on December 29, 1986 by East St. Louis, or if the ordinance was adopted on November 12, 1991 by the Village of Sauget, or (J) if the ordinance was adopted on February 11, 1985 by the City of Rock Island, or (K) if the ordinance was adopted before December 18, 1986 by the City of Moline, or (L) if the ordinance

adopted on December 15, 1981 by the City of Champaign and, for
redevelopment project areas for which bonds were issued before July 29,
1991, in connection with a redevelopment project in the area within the
State Sales Tax Boundary and which were extended by municipal
ordinance under subsection (n) of Section 11-74.4-3, the last maturity of
the refunding obligations shall not be expressed to mature later than the
date on which the redevelopment project area is terminated or December
31, 2013, whichever date occurs first.

In the event a municipality issues obligations under home rule
powers or other legislative authority the proceeds of which are pledged to
pay for redevelopment project costs, the municipality may, if it has
followed the procedures in conformance with this division, retire said
obligations from funds in the special tax allocation fund in amounts and in
such manner as if such obligations had been issued pursuant to the
provisions of this division.

All obligations heretofore or hereafter issued pursuant to this Act
shall not be regarded as indebtedness of the municipality issuing such
obligations or any other taxing district for the purpose of any limitation
imposed by law.

AN ACT concerning property.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Code of Civil Procedure is amended by changing Sections 17-101, 17-105, 17-106, and 17-112 as follows:

(735 ILCS 5/17-101) (from Ch. 110, par. 17-101)

Sec. 17-101. Compelling partition. When lands, tenements, or hereditaments are held in joint tenancy or tenancy in common or other form of co-ownership and regardless of whether such right or title is derived by purchase, legacy or descent, or whether any or all of the claimants are minors or adults, any one or more of the persons interested therein may compel a partition thereof by a verified complaint in the circuit court of the county where the premises or part of the premises are situated. If lands, tenements or hereditaments held in joint tenancy or tenancy in common are situated in 2 or more counties, the venue may be in any one of such counties, and the circuit court of any such county first acquiring jurisdiction shall retain sole and exclusive jurisdiction. Ownership of an interest in the surface of lands, tenements, or hereditaments by a co-owner of an interest in minerals underlying the surface does not prevent partition of the mineral estate. This amendatory Act of the 92nd General Assembly is a declaration of existing law and is intended to remove any possible conflicts or ambiguities, thereby confirming existing law pertinent to the partition of interests in minerals and applies to all actions for the partition of minerals now pending or filed on or after the effective date of this amendatory Act of the 92nd General Assembly. Nothing in this amendatory Act of the 92nd General Assembly shall be construed as allowing an owner of a mineral interest in coal to mine and remove the coal by the surface method of mining without first

obtaining the consent of all of the owners of the surface to the mining and removal of coal by the surface method of mining. *Ownership of an interest in minerals by a co-owner of an interest in the surface does not prevent partition of the surface. The ownership of an interest in some, but not all, of the mineral estate by a co-owner of an interest in other minerals does not prevent the partition of the co-owned mineral estate.*

Sec. 17-105. Judgment. The court shall ascertain and declare the rights, titles and interest of all the parties in such action, the plaintiffs as well as the defendants, and shall enter judgment according to the rights of the parties. *After entry of judgment adjudicating the rights, titles, and interests of the parties, the court upon further hearing shall determine whether or not the premises or any part thereof can be divided among the parties without manifest prejudice to the parties in interest. If the court finds that a division can be made, then the court shall enter further judgment fairly and impartially dividing the premises among the parties with or without awelty. If the court finds that the whole or any part of the premises sought to be partitioned cannot be divided without manifest prejudice to the owners thereof, then the court shall order the premises not susceptible of division to be sold at public sale in such manner and upon such terms and notice of sale as the court directs. If the court orders the sale of the premises or any part thereof, the court shall fix the value of the premises to be sold. No sale may be approved for less than two-thirds of the total amount of the valuation of the premises to be sold. If it appears to the court that any of the premises will not sell for two-thirds of the amount of the valuation thereof, the court upon further hearing may either revalue the premise and approve the sale or order a new sale.*

Sec. 17-106. Appointment of commissioner and surveyor. The court in its discretion, sua sponte, or on the motion of any interested party, may appoint a disinterested commissioner who, subject to direction by the court, shall report to the court in writing under oath as to whether or not the premises are subject to division without manifest prejudice to the rights of the parties and, if so, report how the division may be made. The court may authorize the employment of a surveyor to carry out or assist in the division of the premises. *The fees and expenses of the commissioner and of the surveyor*
and the person making the sale shall be taxed as costs in the proceedings. When the court orders a partition of any premises to be made, it shall appoint 3 commissioners, not connected with any of the parties, either by consanguinity or affinity, and entirely disinterested, to make partition of the premises, and such commissioners shall be allowed a reasonable sum for their services and expenses, to be fixed by the court, and taxed in the bill of costs.

The Court may in its discretion appoint one commissioner who shall have all the rights and powers and be under the same obligations as set forth in Article XVII of this Act whenever 3 commissioners are appointed.

Section 5. The Retailers' Occupation Tax Act is amended by
changing Section 3 as follows:
(35 ILCS 120/3)(from Ch. 120, par. 442)
Sec. 3. Except as provided in this Section, on or before the
twentieth day of each calendar month, every person engaged in the
business of selling tangible personal property at retail in this State during
the preceding calendar month shall file a return with the Department,
stating:

1. The name of the seller;
2. His residence address and the address of his principal
place of business and the address of the principal place of business
(if that is a different address) from which he engages in the
business of selling tangible personal property at retail in this State;
3. Total amount of receipts received by him during the
preceding calendar month or quarter, as the case may be, from
sales of tangible personal property, and from services furnished, by
him during such preceding calendar month or quarter;
4. Total amount received by him during the preceding
calendar month or quarter on charge and time sales of tangible
personal property, and from services furnished, by him prior to the
month or quarter for which the return is filed;
5. Deductions allowed by law;
6. Gross receipts which were received by him during the
preceding calendar month or quarter and upon the basis of which
the tax is imposed;
7. The amount of credit provided in Section 2d of this Act;
8. The amount of tax due;
9. The signature of the taxpayer; and
10. Such other reasonable information as the Department
may require.
If a taxpayer fails to sign a return within 30 days after the proper
notice and demand for signature by the Department, the return shall be

considered valid and any amount shown to be due on the return shall be deemed assessed.

Each return shall be accompanied by the statement of prepaid tax issued pursuant to Section 2e for which credit is claimed.

Prior to October 1, 2003, a retailer may accept a Manufacturer's Purchase Credit certification from a purchaser in satisfaction of Use Tax as provided in Section 3-85 of the Use Tax Act if the purchaser provides the appropriate documentation as required by Section 3-85 of the Use Tax Act. A Manufacturer's Purchase Credit certification, accepted by a retailer prior to October 1, 2003 as provided in Section 3-85 of the Use Tax Act, may be used by that retailer to satisfy Retailers' Occupation Tax liability in the amount claimed in the certification, not to exceed 6.25% of the receipts subject to tax from a qualifying purchase. A Manufacturer's Purchase Credit reported on any original or amended return filed under this Act after October 20, 2003 shall be disallowed. No Manufacturer's Purchase Credit may be used after September 30, 2003 to satisfy any tax liability imposed under this Act, including any audit liability.

The Department may require returns to be filed on a quarterly basis. If so required, a return for each calendar quarter shall be filed on or before the twentieth day of the calendar month following the end of such calendar quarter. The taxpayer shall also file a return with the Department for each of the first two months of each calendar quarter, on or before the twentieth day of the following calendar month, stating:

1. The name of the seller;
2. The address of the principal place of business from which he engages in the business of selling tangible personal property at retail in this State;
3. The total amount of taxable receipts received by him during the preceding calendar month from sales of tangible personal property by him during such preceding calendar month, including receipts from charge and time sales, but less all deductions allowed by law;
4. The amount of credit provided in Section 2d of this Act;
5. The amount of tax due; and
6. Such other reasonable information as the Department may require.

Beginning on October 1, 2003, any person who is not a licensed distributor, importing distributor, or manufacturer, as defined in the Liquor Control Act of 1934, but is engaged in the business of selling, at retail,

alcoholic liquor shall file a statement with the Department of Revenue, in a format and at a time prescribed by the Department, showing the total amount paid for alcoholic liquor purchased during the preceding month and such other information as is reasonably required by the Department. The Department may adopt rules to require that this statement be filed in an electronic or telephonic format. Such rules may provide for exceptions from the filing requirements of this paragraph. For the purposes of this paragraph, the term "alcoholic liquor" shall have the meaning prescribed in the Liquor Control Act of 1934.

Beginning on October 1, 2003, every distributor, importing distributor, and manufacturer of alcoholic liquor as defined in the Liquor Control Act of 1934, shall file a statement with the Department of Revenue, no later than the 10th day of the month for the preceding month during which transactions occurred, by electronic means, showing the total amount of gross receipts from the sale of alcoholic liquor sold or distributed during the preceding month to purchasers; identifying the purchaser to whom it was sold or distributed; the purchaser's tax registration number; and such other information reasonably required by the Department. A distributor, importing distributor, or manufacturer of alcoholic liquor must personally deliver, mail, or provide by electronic means to each retailer listed on the monthly statement a report containing a cumulative total of that distributor's, importing distributor's, or manufacturer's total sales of alcoholic liquor to that retailer no later than the 10th day of the month for the preceding month during which the transaction occurred. The distributor, importing distributor, or manufacturer shall notify the retailer as to the method by which the distributor, importing distributor, or manufacturer will provide the sales information. If the retailer is unable to receive the sales information by electronic means, the distributor, importing distributor, or manufacturer shall furnish the sales information by personal delivery or by mail. For purposes of this paragraph, the term "electronic means" includes, but is not limited to, the use of a secure Internet website, e-mail, or facsimile. A copy of the monthly statement shall be sent to the retailer no later than the 10th day of the month for the preceding month during which transactions occurred.

If a total amount of less than $1 is payable, refundable or creditable, such amount shall be disregarded if it is less than 50 cents and shall be increased to $1 if it is 50 cents or more.

Beginning October 1, 1993, a taxpayer who has an average monthly tax liability of $150,000 or more shall make all payments required by rules of the Department by electronic funds transfer. Beginning October 1, 1994, a taxpayer who has an average monthly tax liability of $100,000 or more shall make all payments required by rules of the Department by electronic funds transfer. Beginning October 1, 1995, a taxpayer who has an average monthly tax liability of $50,000 or more shall make all payments required by rules of the Department by electronic funds transfer. Beginning October 1, 2000, a taxpayer who has an annual tax liability of $200,000 or more shall make all payments required by rules of the Department by electronic funds transfer. The term "annual tax liability" shall be the sum of the taxpayer's liabilities under this Act, and under all other State and local occupation and use tax laws administered by the Department, for the immediately preceding calendar year. The term "average monthly tax liability" shall be the sum of the taxpayer's liabilities under this Act, and under all other State and local occupation and use tax laws administered by the Department, for the immediately preceding calendar year divided by 12. Beginning on October 1, 2002, a taxpayer who has a tax liability in the amount set forth in subsection (b) of Section 2505-210 of the Department of Revenue Law shall make all payments required by rules of the Department by electronic funds transfer.

Before August 1 of each year beginning in 1993, the Department shall notify all taxpayers required to make payments by electronic funds transfer. All taxpayers required to make payments by electronic funds transfer shall make those payments for a minimum of one year beginning on October 1.

Any taxpayer not required to make payments by electronic funds transfer may make payments by electronic funds transfer with the permission of the Department.

All taxpayers required to make payment by electronic funds transfer and any taxpayers authorized to voluntarily make payments by electronic funds transfer shall make those payments in the manner authorized by the Department.

The Department shall adopt such rules as are necessary to effectuate a program of electronic funds transfer and the requirements of this Section.

Any amount which is required to be shown or reported on any return or other document under this Act shall, if such amount is not a whole-dollar amount, be increased to the nearest whole-dollar amount in
any case where the fractional part of a dollar is 50 cents or more, and decreased to the nearest whole-dollar amount where the fractional part of a dollar is less than 50 cents.

If the retailer is otherwise required to file a monthly return and if the retailer's average monthly tax liability to the Department does not exceed $200, the Department may authorize his returns to be filed on a quarter annual basis, with the return for January, February and March of a given year being due by April 20 of such year; with the return for April, May and June of a given year being due by July 20 of such year; with the return for July, August and September of a given year being due by October 20 of such year, and with the return for October, November and December of a given year being due by January 20 of the following year.

If the retailer is otherwise required to file a monthly or quarterly return and if the retailer's average monthly tax liability with the Department does not exceed $50, the Department may authorize his returns to be filed on an annual basis, with the return for a given year being due by January 20 of the following year.

Such quarter annual and annual returns, as to form and substance, shall be subject to the same requirements as monthly returns.

Notwithstanding any other provision in this Act concerning the time within which a retailer may file his return, in the case of any retailer who ceases to engage in a kind of business which makes him responsible for filing returns under this Act, such retailer shall file a final return under this Act with the Department not more than one month after discontinuing such business.

Where the same person has more than one business registered with the Department under separate registrations under this Act, such person may not file each return that is due as a single return covering all such registered businesses, but shall file separate returns for each such registered business.

In addition, with respect to motor vehicles, watercraft, aircraft, and trailers that are required to be registered with an agency of this State, every retailer selling this kind of tangible personal property shall file, with the Department, upon a form to be prescribed and supplied by the Department, a separate return for each such item of tangible personal property which the retailer sells, except that if, in the same transaction, (i) a retailer of aircraft, watercraft, motor vehicles or trailers transfers more than one aircraft, watercraft, motor vehicle or trailer to another aircraft, watercraft, motor vehicle retailer or trailer retailer for the purpose of resale or (ii) a
retailer of aircraft, watercraft, motor vehicles, or trailers transfers more than one aircraft, watercraft, motor vehicle, or trailer to a purchaser for use as a qualifying rolling stock as provided in Section 2-5 of this Act, then that seller may report the transfer of all aircraft, watercraft, motor vehicles or trailers involved in that transaction to the Department on the same uniform invoice-transaction reporting return form. For purposes of this Section, "watercraft" means a Class 2, Class 3, or Class 4 watercraft as defined in Section 3-2 of the Boat Registration and Safety Act, a personal watercraft, or any boat equipped with an inboard motor.

Any retailer who sells only motor vehicles, watercraft, aircraft, or trailers that are required to be registered with an agency of this State, so that all retailers' occupation tax liability is required to be reported, and is reported, on such transaction reporting returns and who is not otherwise required to file monthly or quarterly returns, need not file monthly or quarterly returns. However, those retailers shall be required to file returns on an annual basis.

The transaction reporting return, in the case of motor vehicles or trailers that are required to be registered with an agency of this State, shall be the same document as the Uniform Invoice referred to in Section 5-402 of The Illinois Vehicle Code and must show the name and address of the seller; the name and address of the purchaser; the amount of the selling price including the amount allowed by the retailer for traded-in property, if any; the amount allowed by the retailer for the traded-in tangible personal property, if any, to the extent to which Section 1 of this Act allows an exemption for the value of traded-in property; the balance payable after deducting such trade-in allowance from the total selling price; the amount of tax due from the retailer with respect to such transaction; the amount of tax collected from the purchaser by the retailer on such transaction (or satisfactory evidence that such tax is not due in that particular instance, if that is claimed to be the fact); the place and date of the sale; a sufficient identification of the property sold; such other information as is required in Section 5-402 of The Illinois Vehicle Code, and such other information as the Department may reasonably require.

The transaction reporting return in the case of watercraft or aircraft must show the name and address of the seller; the name and address of the purchaser; the amount of the selling price including the amount allowed by the retailer for traded-in property, if any; the amount allowed by the retailer for the traded-in tangible personal property, if any, to the extent to which Section 1 of this Act allows an exemption for the value of traded-in

property; the balance payable after deducting such trade-in allowance from the total selling price; the amount of tax due from the retailer with respect to such transaction; the amount of tax collected from the purchaser by the retailer on such transaction (or satisfactory evidence that such tax is not due in that particular instance, if that is claimed to be the fact); the place and date of the sale, a sufficient identification of the property sold, and such other information as the Department may reasonably require.

Such transaction reporting return shall be filed not later than 20 days after the day of delivery of the item that is being sold, but may be filed by the retailer at any time sooner than that if he chooses to do so. The transaction reporting return and tax remittance or proof of exemption from the Illinois use tax may be transmitted to the Department by way of the State agency with which, or State officer with whom the tangible personal property must be titled or registered (if titling or registration is required) if the Department and such agency or State officer determine that this procedure will expedite the processing of applications for title or registration.

With each such transaction reporting return, the retailer shall remit the proper amount of tax due (or shall submit satisfactory evidence that the sale is not taxable if that is the case), to the Department or its agents, whereupon the Department shall issue, in the purchaser's name, a use tax receipt (or a certificate of exemption if the Department is satisfied that the particular sale is tax exempt) which such purchaser may submit to the agency with which, or State officer with whom, he must title or register the tangible personal property that is involved (if titling or registration is required) in support of such purchaser's application for an Illinois certificate or other evidence of title or registration to such tangible personal property.

No retailer's failure or refusal to remit tax under this Act precludes a user, who has paid the proper tax to the retailer, from obtaining his certificate of title or other evidence of title or registration (if titling or registration is required) upon satisfying the Department that such user has paid the proper tax (if tax is due) to the retailer. The Department shall adopt appropriate rules to carry out the mandate of this paragraph.

If the user who would otherwise pay tax to the retailer wants the transaction reporting return filed and the payment of the tax or proof of exemption made to the Department before the retailer is willing to take these actions and such user has not paid the tax to the retailer, such user may certify to the fact of such delay by the retailer and may (upon the

Department being satisfied of the truth of such certification) transmit the information required by the transaction reporting return and the remittance for tax or proof of exemption directly to the Department and obtain his tax receipt or exemption determination, in which event the transaction reporting return and tax remittance (if a tax payment was required) shall be credited by the Department to the proper retailer's account with the Department, but without the 2.1% or 1.75% discount provided for in this Section being allowed. When the user pays the tax directly to the Department, he shall pay the tax in the same amount and in the same form in which it would be remitted if the tax had been remitted to the Department by the retailer.

Refunds made by the seller during the preceding return period to purchasers, on account of tangible personal property returned to the seller, shall be allowed as a deduction under subdivision 5 of his monthly or quarterly return, as the case may be, in case the seller had theretofore included the receipts from the sale of such tangible personal property in a return filed by him and had paid the tax imposed by this Act with respect to such receipts.

Where the seller is a corporation, the return filed on behalf of such corporation shall be signed by the president, vice-president, secretary or treasurer or by the properly accredited agent of such corporation.

Where the seller is a limited liability company, the return filed on behalf of the limited liability company shall be signed by a manager, member, or properly accredited agent of the limited liability company.

Except as provided in this Section, the retailer filing the return under this Section shall, at the time of filing such return, pay to the Department the amount of tax imposed by this Act less a discount of 2.1% prior to January 1, 1990 and 1.75% on and after January 1, 1990, or $5 per calendar year, whichever is greater, which is allowed to reimburse the retailer for the expenses incurred in keeping records, preparing and filing returns, remitting the tax and supplying data to the Department on request. Any prepayment made pursuant to Section 2d of this Act shall be included in the amount on which such 2.1% or 1.75% discount is computed. In the case of retailers who report and pay the tax on a transaction by transaction basis, as provided in this Section, such discount shall be taken with each such tax remittance instead of when such retailer files his periodic return.

Before October 1, 2000, if the taxpayer's average monthly tax liability to the Department under this Act, the Use Tax Act, the Service Occupation Tax Act, and the Service Use Tax Act, excluding any liability

for prepaid sales tax to be remitted in accordance with Section 2d of this Act, was $10,000 or more during the preceding 4 complete calendar quarters, he shall file a return with the Department each month by the 20th day of the month next following the month during which such tax liability is incurred and shall make payments to the Department on or before the 7th, 15th, 22nd and last day of the month during which such liability is incurred. On and after October 1, 2000, if the taxpayer's average monthly tax liability to the Department under this Act, the Use Tax Act, the Service Occupation Tax Act, and the Service Use Tax Act, excluding any liability for prepaid sales tax to be remitted in accordance with Section 2d of this Act, was $20,000 or more during the preceding 4 complete calendar quarters, he shall file a return with the Department each month by the 20th day of the month next following the month during which such tax liability is incurred and shall make payment to the Department on or before the 7th, 15th, 22nd and last day of the month during which such liability is incurred. If the month during which such tax liability is incurred began prior to January 1, 1985, each payment shall be in an amount equal to 1/4 of the taxpayer's actual liability for the month or an amount set by the Department not to exceed 1/4 of the average monthly liability of the taxpayer to the Department for the preceding 4 complete calendar quarters (excluding the month of highest liability and the month of lowest liability in such 4 quarter period). If the month during which such tax liability is incurred begins on or after January 1, 1985 and prior to January 1, 1987, each payment shall be in an amount equal to 22.5% of the taxpayer's actual liability for the month or 27.5% of the taxpayer's liability for the same calendar month of the preceding year. If the month during which such tax liability is incurred begins on or after January 1, 1987 and prior to January 1, 1988, each payment shall be in an amount equal to 22.5% of the taxpayer's actual liability for the month or 26.25% of the taxpayer's liability for the same calendar month of the preceding year. If the month during which such tax liability is incurred begins on or after January 1, 1988, and prior to January 1, 1989, each payment shall be in an amount equal to 22.5% of the taxpayer's actual liability for the month or 25% of the taxpayer's liability for the same calendar month of the preceding year. If the month during which such tax liability is incurred begins on or after January 1, 1989, and prior to January 1, 1996, each payment shall be in an amount equal to 22.5% of the taxpayer's actual liability for the month or 25% of the taxpayer's liability for the same calendar month of the preceding year or 100% of the

taxpayer's actual liability for the quarter monthly reporting period. The amount of such quarter monthly payments shall be credited against the final tax liability of the taxpayer's return for that month. Before October 1, 2000, once applicable, the requirement of the making of quarter monthly payments to the Department by taxpayers having an average monthly tax liability of $10,000 or more as determined in the manner provided above shall continue until such taxpayer's average monthly liability to the Department during the preceding 4 complete calendar quarters (excluding the month of highest liability and the month of lowest liability) is less than $9,000, or until such taxpayer's average monthly liability to the Department as computed for each calendar quarter of the 4 preceding complete calendar quarter period is less than $10,000. However, if a taxpayer can show the Department that a substantial change in the taxpayer's business has occurred which causes the taxpayer to anticipate that his average monthly tax liability for the reasonably foreseeable future will fall below the $10,000 threshold stated above, then such taxpayer may petition the Department for a change in such taxpayer's reporting status. On and after October 1, 2000, once applicable, the requirement of the making of quarter monthly payments to the Department by taxpayers having an average monthly tax liability of $20,000 or more as determined in the manner provided above shall continue until such taxpayer's average monthly liability to the Department during the preceding 4 complete calendar quarters (excluding the month of highest liability and the month of lowest liability) is less than $19,000 or until such taxpayer's average monthly liability to the Department as computed for each calendar quarter of the 4 preceding complete calendar quarter period is less than $20,000. However, if a taxpayer can show the Department that a substantial change in the taxpayer's business has occurred which causes the taxpayer to anticipate that his average monthly tax liability for the reasonably foreseeable future will fall below the $20,000 threshold stated above, then such taxpayer may petition the Department for a change in such taxpayer's reporting status. The Department shall change such taxpayer's reporting status unless it finds that such change is seasonal in nature and not likely to be long term. If any such quarter monthly payment is not paid at the time or in the amount required by this Section, then the taxpayer shall be liable for penalties and interest on the difference between the minimum amount due as a payment and the amount of such quarter monthly payment actually and timely paid, except insofar as the taxpayer has previously made payments for that month to the Department in excess of the

minimum payments previously due as provided in this Section. The Department shall make reasonable rules and regulations to govern the quarter monthly payment amount and quarter monthly payment dates for taxpayers who file on other than a calendar monthly basis.

The provisions of this paragraph apply before October 1, 2001. Without regard to whether a taxpayer is required to make quarter monthly payments as specified above, any taxpayer who is required by Section 2d of this Act to collect and remit prepaid taxes and has collected prepaid taxes which average in excess of $25,000 per month during the preceding 2 complete calendar quarters, shall file a return with the Department as required by Section 2f and shall make payments to the Department on or before the 7th, 15th, 22nd and last day of the month during which such liability is incurred. If the month during which such tax liability is incurred began prior to the effective date of this amendatory Act of 1985, each payment shall be in an amount not less than 22.5% of the taxpayer's actual liability under Section 2d. If the month during which such tax liability is incurred begins on or after January 1, 1986, each payment shall be in an amount equal to 22.5% of the taxpayer's actual liability for the month or 27.5% of the taxpayer's liability for the same calendar month of the preceding calendar year. If the month during which such tax liability is incurred begins on or after January 1, 1987, each payment shall be in an amount equal to 22.5% of the taxpayer's actual liability for the month or 26.25% of the taxpayer's liability for the same calendar month of the preceding year. The amount of such quarter monthly payments shall be credited against the final tax liability of the taxpayer's return for that month filed under this Section or Section 2f, as the case may be. Once applicable, the requirement of the making of quarter monthly payments to the Department pursuant to this paragraph shall continue until such taxpayer's average monthly prepaid tax collections during the preceding 2 complete calendar quarters is $25,000 or less. If any such quarter monthly payment is not paid at the time or in the amount required, the taxpayer shall be liable for penalties and interest on such difference, except insofar as the taxpayer has previously made payments for that month in excess of the minimum payments previously due.

The provisions of this paragraph apply on and after October 1, 2001. Without regard to whether a taxpayer is required to make quarter monthly payments as specified above, any taxpayer who is required by Section 2d of this Act to collect and remit prepaid taxes and has collected prepaid taxes that average in excess of $20,000 per month during the
preceding 4 complete calendar quarters shall file a return with the Department as required by Section 2f and shall make payments to the Department on or before the 7th, 15th, 22nd and last day of the month during which the liability is incurred. Each payment shall be in an amount equal to 22.5% of the taxpayer's actual liability for the month or 25% of the taxpayer's liability for the same calendar month of the preceding year. The amount of the quarterly payments shall be credited against the final tax liability of the taxpayer's return for that month filed under this Section or Section 2f, as the case may be. Once applicable, the requirement of the making of quarterly payments to the Department pursuant to this paragraph shall continue until the taxpayer's average monthly prepaid tax collections during the preceding 4 complete calendar quarters (excluding the month of highest liability and the month of lowest liability) is less than $19,000 or until such taxpayer's average monthly liability to the Department as computed for each calendar quarter of the 4 preceding complete calendar quarters is less than $20,000. If any such quarterly payment is not paid at the time or in the amount required, the taxpayer shall be liable for penalties and interest on such difference, except insofar as the taxpayer has previously made payments for that month in excess of the minimum payments previously due.

If any payment provided for in this Section exceeds the taxpayer's liabilities under this Act, the Use Tax Act, the Service Occupation Tax Act and the Service Use Tax Act, as shown on an original monthly return, the Department shall, if requested by the taxpayer, issue to the taxpayer a credit memorandum no later than 30 days after the date of payment. The credit evidenced by such credit memorandum may be assigned by the taxpayer to a similar taxpayer under this Act, the Use Tax Act, the Service Occupation Tax Act or the Service Use Tax Act, in accordance with reasonable rules and regulations to be prescribed by the Department. If no such request is made, the taxpayer may credit such excess payment against tax liability subsequently to be remitted to the Department under this Act, the Use Tax Act, the Service Occupation Tax Act or the Service Use Tax Act, in accordance with reasonable rules and regulations prescribed by the Department. If the Department subsequently determined that all or any part of the credit taken was not actually due to the taxpayer, the taxpayer's 2.1% and 1.75% vendor's discount shall be reduced by 2.1% or 1.75% of the difference between the credit taken and that actually due, and that taxpayer shall be liable for penalties and interest on such difference.

McCormick Place Expansion Project Fund, until the full amount requested for the fiscal year, but not in excess of the amount specified above as "Total Deposit", has been deposited.

Subject to payment of amounts into the Build Illinois Fund and the McCormick Place Expansion Project Fund pursuant to the preceding paragraphs or in any amendments thereto hereafter enacted, beginning July 1, 1993, the Department shall each month pay into the Illinois Tax Increment Fund 0.27% of 80% of the net revenue realized for the preceding month from the 6.25% general rate on the selling price of tangible personal property.

Subject to payment of amounts into the Build Illinois Fund and the McCormick Place Expansion Project Fund pursuant to the preceding paragraphs or in any amendments thereto hereafter enacted, beginning with the receipt of the first report of taxes paid by an eligible business and continuing for a 25-year period, the Department shall each month pay into the Energy Infrastructure Fund 80% of the net revenue realized from the 6.25% general rate on the selling price of Illinois-mined coal that was sold to an eligible business. For purposes of this paragraph, the term "eligible business" means a new electric generating facility certified pursuant to Section 605-332 of the Department of Commerce and Economic Opportunity Community Affairs Law of the Civil Administrative Code of Illinois.

Of the remainder of the moneys received by the Department pursuant to this Act, 75% thereof shall be paid into the State Treasury and 25% shall be reserved in a special account and used only for the transfer to the Common School Fund as part of the monthly transfer from the General Revenue Fund in accordance with Section 8a of the State Finance Act.

The Department may, upon separate written notice to a taxpayer, require the taxpayer to prepare and file with the Department on a form prescribed by the Department within not less than 60 days after receipt of the notice an annual information return for the tax year specified in the notice. Such annual return to the Department shall include a statement of gross receipts as shown by the retailer's last Federal income tax return. If the total receipts of the business as reported in the Federal income tax return do not agree with the gross receipts reported to the Department of Revenue for the same period, the retailer shall attach to his annual return a schedule showing a reconciliation of the 2 amounts and the reasons for the difference. The retailer's annual return to the Department shall also disclose the cost of goods sold by the retailer during the year covered by

such return, opening and closing inventories of such goods for such year, costs of goods used from stock or taken from stock and given away by the retailer during such year, payroll information of the retailer's business during such year and any additional reasonable information which the Department deems would be helpful in determining the accuracy of the monthly, quarterly or annual returns filed by such retailer as provided for in this Section.

If the annual information return required by this Section is not filed when and as required, the taxpayer shall be liable as follows:

(i) Until January 1, 1994, the taxpayer shall be liable for a penalty equal to 1/6 of 1% of the tax due from such taxpayer under this Act during the period to be covered by the annual return for each month or fraction of a month until such return is filed as required, the penalty to be assessed and collected in the same manner as any other penalty provided for in this Act.

(ii) On and after January 1, 1994, the taxpayer shall be liable for a penalty as described in Section 3-4 of the Uniform Penalty and Interest Act.

The chief executive officer, proprietor, owner or highest ranking manager shall sign the annual return to certify the accuracy of the information contained therein. Any person who willfully signs the annual return containing false or inaccurate information shall be guilty of perjury and punished accordingly. The annual return form prescribed by the Department shall include a warning that the person signing the return may be liable for perjury.

The provisions of this Section concerning the filing of an annual information return do not apply to a retailer who is not required to file an income tax return with the United States Government.

As soon as possible after the first day of each month, upon certification of the Department of Revenue, the Comptroller shall order transferred and the Treasurer shall transfer from the General Revenue Fund to the Motor Fuel Tax Fund an amount equal to 1.7% of 80% of the net revenue realized under this Act for the second preceding month. Beginning April 1, 2000, this transfer is no longer required and shall not be made.

Net revenue realized for a month shall be the revenue collected by the State pursuant to this Act, less the amount paid out during that month as refunds to taxpayers for overpayment of liability.
For greater simplicity of administration, manufacturers, importers and wholesalers whose products are sold at retail in Illinois by numerous retailers, and who wish to do so, may assume the responsibility for accounting and paying to the Department all tax accruing under this Act with respect to such sales, if the retailers who are affected do not make written objection to the Department to this arrangement.

Any person who promotes, organizes, provides retail selling space for concessionaires or other types of sellers at the Illinois State Fair, DuQuoin State Fair, county fairs, local fairs, art shows, flea markets and similar exhibitions or events, including any transient merchant as defined by Section 2 of the Transient Merchant Act of 1987, is required to file a report with the Department providing the name of the merchant's business, the name of the person or persons engaged in merchant's business, the permanent address and Illinois Retailers Occupation Tax Registration Number of the merchant, the dates and location of the event and other reasonable information that the Department may require. The report must be filed not later than the 20th day of the month next following the month during which the event with retail sales was held. Any person who fails to file a report required by this Section commits a business offense and is subject to a fine not to exceed $250.

Any person engaged in the business of selling tangible personal property at retail as a concessionaire or other type of seller at the Illinois State Fair, county fairs, art shows, flea markets and similar exhibitions or events, or any transient merchants, as defined by Section 2 of the Transient Merchant Act of 1987, may be required to make a daily report of the amount of such sales to the Department and to make a daily payment of the full amount of tax due. The Department shall impose this requirement when it finds that there is a significant risk of loss of revenue to the State at such an exhibition or event. Such a finding shall be based on evidence that a substantial number of concessionaires or other sellers who are not residents of Illinois will be engaging in the business of selling tangible personal property at retail at the exhibition or event, or other evidence of a significant risk of loss of revenue to the State. The Department shall notify concessionaires and other sellers affected by the imposition of this requirement. In the absence of notification by the Department, the concessionaires and other sellers shall file their returns as otherwise required in this Section.

If the premises for which the license was issued are located outside of a city, village or incorporated town having a population of 500,000 or more inhabitants, the licensee after the receipt of such order of suspension or revocation shall have the privilege within a period of 20 days after the receipt of such order of suspension or revocation of appealing the order to the State commission for a decision sustaining, reversing or modifying the order of the local liquor control commissioner. If the State commission affirms the local commissioner's order to suspend or revoke the license at the first hearing, the appellant shall cease to engage in the business for which the license was issued, until the local commissioner's order is terminated by its own provisions or reversed upon rehearing or by the courts.

All such proceedings and all proceedings for the revocation or suspension of a retailer's license before
the State commission shall be in accordance with rules and regulations established by it not inconsistent with law. However, no such license shall be so revoked or suspended except after a hearing by the State commission with reasonable notice to the licensee served by registered or certified mail with return receipt requested at least 10 days prior to the hearings at the last known place of business of the licensee and after an opportunity to appear and defend. This means that approximately 200,000 to 111,000 Illinois citizens are victims. The General Assembly also finds that

50% of all nursing home admissions in the State may be attributable to the Alzheimer's disease and related disorders and that these conditions are the fourth leading cause of death among the elderly. It is the opinion of the General Assembly that Alzheimer's disease and related disorders cause serious financial, social and emotional hardships on the victims and their families of such a major consequence that it is essential for the State to develop and implement policies, plans, programs and services to alleviate such hardships.

The General Assembly recognizes that there is no known cause or cure of Alzheimer's disease at this time, and that it can progress over an extended period of time and to such a degree that the victim's deteriorated condition makes him or her susceptible to other medical disorders that generally prove fatal. It is the intent of the General Assembly, through implementation of this Act, to establish a program for the conduct of research regarding the cause, cure and treatment of Alzheimer's disease and related disorders; and, through the establishment of Regional Alzheimer's Disease Assistance Centers and a comprehensive, Statewide system of regional and community-based services, to provide for the identification, evaluation, diagnosis, referral and treatment of victims of such health problems.

Guardianship and Advocacy Commission.

Each voting member appointed by the Director of Public Health
shall serve for a term of 2 years, and until his successor is appointed and

be reimbursed for expenses actually incurred in the performance of their
duties. No more than 11 voting members may be of the same political
party. Vacancies shall be filled in the same manner as original
appointments.

Section 5. The Tobacco Products Manufacturers’ Escrow Enforcement Act of 2003 is amended by changing Sections 15 and 30 as follows:

(1) A participating manufacturer shall include in its certification a list of its brand families. The participating manufacturer shall update the list 30 days prior to any addition to or modification of its brand families by executing and delivering a supplemental certification to the Attorney General.

(2) A non-participating manufacturer shall include in its certification a complete list of all of its brand families: (i) separately listing brand families of cigarettes and the number of units sold for each brand family that were sold in the State during the preceding calendar year; (ii) listing all of its brand families that have been sold in the State at any time during the current calendar year; (iii) indicating by an asterisk, any brand family sold in the
State during the preceding calendar year that is no longer being sold in the State as of the date of the certification; and (iv) identifying by name and address any other manufacturer of the brand families in the preceding calendar year. escrow fund into which it ever made escrow payments pursuant to Section 15 of the Escrow Act and all regulations promulgated thereto.

(4) A tobacco product manufacturer may not include a brand family in its certification unless: (i) in the case of a participating manufacturer, the participating manufacturer affirms that the brand family is to be deemed to be its cigarettes for purposes of calculating its payments under the master settlement agreement for the relevant year, in the volume and shares determined pursuant to the master settlement agreement; and (ii) in the case of a non-participating manufacturer, the non-participating manufacturer affirms that the brand family is to be deemed to be its cigarettes for purposes of Section 15 of the Escrow Act.

Nothing in this Section shall be construed as limiting or otherwise affecting the State's right to maintain that a brand family constitutes cigarettes of a different tobacco product manufacturer for purposes of calculating payments under the master settlement agreement or for purposes of Section 15 of the Escrow Act.

(5) The tobacco product manufacturers shall maintain all invoices and documentation of sales and other information relied upon for certification for a period of 5 years, unless otherwise required by law to maintain them for a greater period of time.

(1) The Attorney General shall not include or retain in the directory the name or brand families of any non-participating manufacturer that fails to provide the required certification or whose certification the Attorney General determines is not in compliance with subsections (a)(2) or (a)(3) of Section 15, unless the Attorney General has determined that the violation has been cured to the satisfaction of the Attorney General.

(2) Neither a tobacco product manufacturer nor brand family shall be included or retained in the directory if the Attorney General concludes that: (i) in the case of a non-participating manufacturer all escrow payments required pursuant to Section 15
of the Escrow Act for any period for any brand family, whether or not listed by the non-participating manufacturer, have not been fully paid into a qualified escrow fund governed by a qualified escrow agreement that has been approved by the Attorney General; or (ii) all outstanding final judgments, including interest thereon, for violations of Section 15 of the Escrow Act have not been fully satisfied for that brand family and manufacturer.

(c) The Attorney General shall update the directory as necessary in order to correct mistakes and to add or remove a tobacco product manufacturer or brand families to keep the directory in conformity with the requirements of this Act.

(d) Every distributor shall provide and update as necessary an electronic mail address to the Attorney General for the purpose of receiving any notifications as may be required by this Act.

(e) It shall be unlawful for any person: (i) to affix a stamp to a package or other container of cigarettes of a tobacco product manufacturer or brand family not included in the directory; or (ii) to sell, offer for sale, or possess for sale in this State, or import for personal consumption in this State, cigarettes of a tobacco product manufacturer or brand family not included in the directory.

Sec. 7-139. Credits and creditable service to employees.

(a) Each participating employee shall be granted credits and creditable service, for purposes of determining the amount of any annuity or benefit to which he or a beneficiary is entitled, as follows:

1. For prior service: Each participating employee who is an employee of a participating municipality or participating instrumentality on the effective date shall be granted creditable

service, but no credits under paragraph 2 of this subsection (a), for periods of prior service for which credit has not been received under any other pension fund or retirement system established under this Code, as follows:

If the effective date of participation for the participating municipality or participating instrumentality is on or before January 1, 1998, creditable service shall be granted for the entire period of prior service with that employer without any employee contribution.

If the effective date of participation for the participating municipality or participating instrumentality is after January 1, 1998, creditable service shall be granted for the last 20% of the period of prior service with that employer, but no more than 5 years, without any employee contribution. A participating employee may establish creditable service for the remainder of the period of prior service with that employer by making an application in writing, accompanied by payment of an employee contribution in an amount determined by the Fund, based on the employee contribution rates in effect at the time of application for the creditable service and the employee's salary rate on the effective date of participation for that employer, plus interest at the effective rate from the date of the prior service to the date of payment. Application for this creditable service may be made at any time while the employee is still in service.

A municipality that (i) has at least 35 employees; (ii) is located in a county with at least 2,000,000 inhabitants; and (iii) maintains an independent defined benefit pension plan for the benefit of its eligible employees may restrict creditable service in whole or in part for periods of prior service with the employer if the governing body of the municipality adopts an irrevocable resolution to restrict that creditable service and files the resolution with the board before the municipality's effective date of participation.

Any person who has withdrawn from the service of a participating municipality or participating instrumentality prior to the effective date, who reenters the service of the same municipality or participating instrumentality after the effective date and becomes a participating employee is entitled to creditable service for prior service as otherwise provided in this subdivision

(a)(1) only if he or she renders 2 years of service as a participating employee after the effective date. Application for such service must be made while in a participating status. The salary rate to be used in the calculation of the required employee contribution, if any, shall be the employee's salary rate at the time of first reentering service with the employer after the employer's effective date of participation.

2. For current service, each participating employee shall be credited with:

   a. Additional credits of amounts equal to each payment of additional contributions received from him under Section 7-173, as of the date the corresponding payment of earnings is payable to him.

   b. Normal credits of amounts equal to each payment of normal contributions received from him, as of the date the corresponding payment of earnings is payable to him, and normal contributions made for the purpose of establishing out-of-state service credits as permitted under the conditions set forth in paragraph 6 of this subsection (a).

   c. Municipality credits in an amount equal to 1.4 times the normal credits, except those established by out-of-state service credits, as of the date of computation of any benefit if these credits would increase the benefit.

   d. Survivor credits equal to each payment of survivor contributions received from the participating employee as of the date the corresponding payment of earnings is payable, and survivor contributions made for the purpose of establishing out-of-state service credits.

3. For periods of temporary and total and permanent disability benefits, each employee receiving disability benefits shall be granted creditable service for the period during which disability benefits are payable. Normal and survivor credits, based upon the rate of earnings applied for disability benefits, shall also be granted if such credits would result in a higher benefit to any such employee or his beneficiary.

4. For authorized leave of absence without pay: A participating employee shall be granted credits and creditable

service for periods of authorized leave of absence without pay under the following conditions:

a. An application for credits and creditable service is submitted to the board while the employee is in a status of active employment, and within 2 years after termination of the leave of absence period for which credits and creditable service are sought.

b. Not more than 12 complete months of creditable service for authorized leave of absence without pay shall be counted for purposes of determining any benefits payable under this Article.

c. Credits and creditable service shall be granted for leave of absence only if such leave is approved by the governing body of the municipality, including approval of the estimated cost thereof to the municipality as determined by the fund, and employee contributions, plus interest at the effective rate applicable for each year from the end of the period of leave to date of payment, have been paid to the fund in accordance with Section 7-173. The contributions shall be computed upon the assumption earnings continued during the period of leave at the rate in effect when the leave began.

d. Benefits under the provisions of Sections 7-141, 7-146, 7-150 and 7-163 shall become payable to employees on authorized leave of absence, or their designated beneficiary, only if such leave of absence is creditable hereunder, and if the employee has at least one year of creditable service other than the service granted for leave of absence. Any employee contributions due may be deducted from any benefits payable.

e. No credits or creditable service shall be allowed for leave of absence without pay during any period of prior service.

5. For military service: The governing body of a municipality or participating instrumentality may elect to allow creditable service to participating employees who leave their employment to serve in the armed forces of the United States for all periods of such service, provided that the person returns to active employment within 90 days after completion of full time

active duty, but no creditable service shall be allowed such person for any period that can be used in the computation of a pension or any other pay or benefit, other than pay for active duty, for service in any branch of the armed forces of the United States. If necessary to the computation of any benefit, the board shall establish municipality credits for participating employees under this paragraph on the assumption that the employee received earnings at the rate received at the time he left the employment to enter the armed forces. A participating employee in the armed forces shall not be considered an employee during such period of service and no additional death and no disability benefits are payable for death or disability during such period.

Any participating employee who left his employment with a municipality or participating instrumentality to serve in the armed forces of the United States and who again became a participating employee within 90 days after completion of full time active duty by entering the service of a different municipality or participating instrumentality, which has elected to allow creditable service for periods of military service under the preceding paragraph, shall also be allowed creditable service for his period of military service on the same terms that would apply if he had been employed, before entering military service, by the municipality or instrumentality which employed him after he left the military service and the employer costs arising in relation to such grant of creditable service shall be charged to and paid by that municipality or instrumentality.

Notwithstanding the foregoing, any participating employee shall be entitled to creditable service as required by any federal law relating to re-employment rights of persons who served in the United States Armed Services. Such creditable service shall be granted upon payment by the member of an amount equal to the employee contributions which would have been required had the employee continued in service at the same rate of earnings during the military leave period, plus interest at the effective rate.

5.1. In addition to any creditable service established under paragraph 5 of this subsection (a), creditable service may be granted for up to 24 months of service in the armed forces of the United States.

New matter indicated by italics - deletions by strikeout.
In order to receive creditable service for military service under this paragraph 5.1, a participating employee must (1) apply to the Fund in writing and provide evidence of the military service that is satisfactory to the Board; (2) obtain the written approval of the current employer; and (3) make contributions to the Fund equal to (i) the employee contributions that would have been required had the service been rendered as a member, plus (ii) an amount determined by the board to be equal to the employer's normal cost of the benefits accrued for that military service, plus (iii) interest on items (i) and (ii) from the date of first membership in the Fund to the date of payment. If payment is made during the 6-month period that begins 3 months after the effective date of this amendatory Act of 1997, the required interest shall be at the rate of 2.5% per year, compounded annually; otherwise, the required interest shall be calculated at the regular interest rate.

6. For out-of-state service: Creditable service shall be granted for service rendered to an out-of-state local governmental body under the following conditions: The employee had participated and has irrevocably forfeited all rights to benefits in the out-of-state public employees pension system; the governing body of his participating municipality or instrumentality authorizes the employee to establish such service; the employee has 2 years current service with this municipality or participating instrumentality; the employee makes a payment of contributions, which shall be computed at 8% (normal) plus 2% (survivor) times length of service purchased times the average rate of earnings for the first 2 years of service with the municipality or participating instrumentality whose governing body authorizes the service established plus interest at the effective rate on the date such credits are established, payable from the date the employee completes the required 2 years of current service to date of payment. In no case shall more than 120 months of creditable service be granted under this provision.

7. For retroactive service: Any employee who could have but did not elect to become a participating employee, or who should have been a participant in the Municipal Public Utilities Annuity and Benefit Fund before that fund was superseded, may receive creditable service for the period of service not to exceed 50 months; however, a current or former elected or appointed official

of a participating municipality may establish credit under this paragraph 7 for more than 50 months of service as an official of that municipality, if the excess over 50 months is approved by resolution of the governing body of the affected municipality filed with the Fund before January 1, 2002.

Any employee who is a participating employee on or after September 24, 1981 and who was excluded from participation by the age restrictions removed by Public Act 82-596 may receive creditable service for the period, on or after January 1, 1979, excluded by the age restriction and, in addition, if the governing body of the participating municipality or participating instrumentality elects to allow creditable service for all employees excluded by the age restriction prior to January 1, 1979, for service during the period prior to that date excluded by the age restriction.

Any employee who was excluded from participation by the age restriction removed by Public Act 82-596 and who is not a participating employee on or after September 24, 1981 may receive creditable service for service after January 1, 1979. Creditable service under this paragraph shall be granted upon payment of the employee contributions which would have been required had he participated, with interest at the effective rate for each year from the end of the period of service established to date of payment.

8. For accumulated unused sick leave: A participating employee who is applying for a retirement annuity shall be entitled to creditable service for that portion of the employee's accumulated unused sick leave for which payment is not received, as follows:

   a. Sick leave days shall be limited to those accumulated under a sick leave plan established by a participating municipality or participating instrumentality which is available to all employees or a class of employees.

   b. Only sick leave days accumulated with a participating municipality or participating instrumentality with which the employee was in service within 60 days of the effective date of his retirement annuity shall be credited; If the employee was in service with more than one employer during this period only the sick leave days with the employer with which the employee has the greatest number of unpaid sick leave days shall be considered.
c. The creditable service granted shall be considered solely for the purpose of computing the amount of the retirement annuity and shall not be used to establish any minimum service period required by any provision of the Illinois Pension Code, the effective date of the retirement annuity, or the final rate of earnings.

d. The creditable service shall be at the rate of 1/20 of a month for each full sick day, provided that no more than 12 months may be credited under this subdivision 8.

e. Employee contributions shall not be required for creditable service under this subdivision 8.

f. Each participating municipality and participating instrumentality with which an employee has service within 60 days of the effective date of his retirement annuity shall certify to the board the number of accumulated unpaid sick leave days credited to the employee at the time of termination of service.

9. For service transferred from another system: Credits and creditable service shall be granted for service under Article 3, 4, 5, 14 or 16 of this Act, to any active member of this Fund, and to any inactive member who has been a county sheriff, upon transfer of such credits pursuant to Section 3-110.3, 4-108.3, 5-235, 14-105.6 or 16-131.4, and payment by the member of the amount by which (1) the employer and employee contributions that would have been required if he had participated in this Fund as a sheriff's law enforcement employee during the period for which credit is being transferred, plus interest thereon at the effective rate for each year, compounded annually, from the date of termination of the service for which credit is being transferred to the date of payment, exceeds (2) the amount actually transferred to the Fund. Such transferred service shall be deemed to be service as a sheriff's law enforcement employee for the purposes of Section 7-142.1.

(b) Creditable service - amount:

1. One month of creditable service shall be allowed for each month for which a participating employee made contributions as required under Section 7-173, or for which creditable service is otherwise granted hereunder. Not more than 1 month of service shall be credited and counted for 1 calendar month, and not more than 1 year of service shall be credited and counted for any

calendar year. A calendar month means a nominal month beginning on the first day thereof, and a calendar year means a year beginning January 1 and ending December 31.

2. A seasonal employee shall be given 12 months of creditable service if he renders the number of months of service normally required by the position in a 12-month period and he remains in service for the entire 12-month period. Otherwise a fractional year of service in the number of months of service rendered shall be credited.

3. An intermittent employee shall be given creditable service for only those months in which a contribution is made under Section 7-173.

(c) No application for correction of credits or creditable service shall be considered unless the board receives an application for correction while (1) the applicant is a participating employee and in active employment with a participating municipality or instrumentality, or (2) while the applicant is actively participating in a pension fund or retirement system which is a participating system under the Retirement Systems Reciprocal Act. A participating employee or other applicant shall not be entitled to credits or creditable service unless the required employee contributions are made in a lump sum or in installments made in accordance with board rule.

(d) Upon the granting of a retirement, surviving spouse or child annuity, a death benefit or a separation benefit, on account of any employee, all individual accumulated credits shall thereupon terminate. Upon the withdrawal of additional contributions, the credits applicable thereto shall thereupon terminate. Terminated credits shall not be applied to increase the benefits any remaining employee would otherwise receive under this Article.

However, if a demonstration project under that Act applies for a certificate of need to convert to a nursing facility, it shall meet the licensure and certificate of need requirements in effect as of the date of application.

This Act shall not apply to the closure of an entity or a portion of an entity licensed under the Nursing Home Care Act that elects to convert, in whole or in part, to an assisted living or shared housing establishment licensed under the Assisted Living and Shared Housing Act.

With the exception of those health care facilities specifically included in this Section, nothing in this Act shall be intended to include facilities operated as a part of the practice of a physician or other licensed health care professional, whether practicing in his individual capacity or within the legal structure of any partnership, medical or professional corporation, or unincorporated medical or professional group. "Capital Expenditure" means an expenditure: (A) made by or on behalf of a health care facility (as such a facility is defined in this Act); and (B) which under generally accepted accounting principles is not properly chargeable as an expense of operation and maintenance, or is made to obtain by lease or comparable arrangement any facility or part...

(House Bill No. 4099)

AN ACT in relation to energy conservation.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 1. Short title. This Act may be cited as the Energy Efficient Commercial Building Act.

Section 5. Findings.
(a) The legislature finds that an effective energy efficient commercial building code is essential to:
(1) reduce the air pollutant emissions from energy consumption that are affecting the health of residents of this State;
(2) moderate future peak electric power demand;
(3) assure the reliability of the electrical grid and an adequate supply of heating oil and natural gas; and
(4) control energy costs for residents and businesses in this State.
(b) The legislature further finds that this State has a number of different climate types, all of which require energy for both cooling and heating, and that there are many cost-effective measures that can reduce

peak energy use and reduce cooling, heating, lighting, and other energy costs in commercial buildings.

Section 10. Definitions.
"Board" means the Capital Development Board.
"Code" means the 2000 International Energy Conservation Code, the ASHRAE 90.1-1999 Standard, which is included within that Code, the 2001 supplement to that Code, and the adaptations to the Code that are made by the Board.
"Commercial building" means any building except a building that is a residential building, as defined in this Section.
"Department" means the Department of Commerce and Economic Opportunity.
"Municipality" means any city, village, or incorporated town.
"Residential building" means (i) a detached one-family or 2-family dwelling or (ii) any building that is 3 stories or less in height above grade that contains multiple dwelling units, in which the occupants reside on a primarily permanent basis, such as a townhouse, a row house, an apartment house, a convent, a monastery, a rectory, a fraternity or sorority house, a dormitory, and a rooming house.

Section 15. Energy Efficient Building Code. The Board, in consultation with the Department, shall adopt the Code as minimum requirements applying to the construction of, renovations to, and additions to all commercial buildings in the State. The Board may appropriately adapt the International Energy Conservation Code to apply to the particular economy, population distribution, geography, and climate of the State and construction therein, consistent with the public policy objectives of this Act.

Section 20. Applicability.
(a) The Code shall take effect one year after it is adopted by the Board and shall apply to any commercial building or structure in this State for which a building permit application is received by a municipality or county, except as otherwise provided by this Act. In the case of any addition, alteration, renovation, or repair to an existing commercial structure, the Code adopted under this Act applies only to the portions of that structure that are being added, altered, renovated, or repaired.

(b) The following buildings shall be exempt from the Code:
(1) Buildings otherwise exempt from the provisions of a locally adopted building code and buildings that do not contain a conditioned space.

New matter indicated by italics - deletions by strikeout.
(2) Buildings that do not use either electricity or fossil fuel for comfort conditioning. For purposes of determining whether this exemption applies, a building will be presumed to be heated by electricity, even in the absence of equipment used for electric comfort heating, whenever the building is provided with electrical service in excess of 100 amps, unless the code enforcement official determines that this electrical service is necessary for purposes other than providing electric comfort heating.

(3) Historic buildings. This exemption shall apply to those buildings that are listed on the National Register of Historic Places or the Illinois Register of Historic Places, and to those buildings that have been designated as historically significant by a local governing body that is authorized to make such designations.

(4) Residential buildings.

(5) Other buildings specified as exempt by the International Energy Conservation Code.

(c) The Department shall provide local jurisdictions with technical assistance concerning implementation and enforcement of the Code.

Section 30. Enforcement. The Board, in consultation with the Department, shall determine procedures for compliance with the Code. These procedures may include but need not be limited to certification by a national, State, or local accredited energy conservation program or inspections from private Code-certified inspectors using the Code.

Section 35. Rules. The Board may adopt any rules that are necessary for the furtherance of this Act.

Section 45. Home rule. No unit of local government, including any home rule unit, may regulate energy efficient building standards in a manner that is less stringent than the provisions contained in this Act. This Section is a denial and limitation of home rule powers and functions under subsection (i) of Section 6 of Article VII of the Illinois Constitution on the concurrent exercise by home rule units of powers and functions exercised by the State. PUBLIC ACT 93-0948
(House Bill No. 4108)

AN ACT concerning local government.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:

New matter indicated by italics - deletions by strikeout.
Section 1. Short title. This Act may be cited as the Addison Creek Restoration Commission Act.

Section 5. Legislative declaration. The General Assembly declares that the welfare, health, prosperity, and moral and general well being of the people of the State are, in large measure, dependent upon the sound and orderly development of municipal areas. The Village of Bellwood, the City of Northlake, the Village of Melrose Park, the Village of Stone Park, the Village of Broadview, the Village of Westchester, and the Village of North Riverside are, by reason of the location of Addison Creek, adversely affected by a floodplain designated by the Federal Emergency Management Agency (FEMA). Certain development opportunities may exist in the project area that would stabilize and enhance the tax base of existing communities, maintain and revitalize existing commerce and industry, and promote comprehensive planning within and between communities. The relocation of the retention pond, restoration of creek banks, and enhanced fencing for security and safety around areas of Addison Creek is important for the orderly expansion of industry and commerce and for progress of the region. The ultimate goal is to get FEMA to reconsider the size of the floodplain. Once this is accomplished, it will greatly reduce the cost of insurance to homeowners and increase the value of property within the current designated floodplain.

Section 10. Creation; duration. There is created a body politic and corporate, a unit of local government, named the Addison Creek Restoration Commission. The territory of the Commission boundaries consists of the corporate borders of the Village of Bellwood, the City of Northlake, the Village of Melrose Park, the Village of Stone Park, the Village of Broadview, the Village of Westchester, and the Village of North Riverside. The Commission shall continue in existence until the accomplishment of its objective, the relocation of Addison Creek retention pond within the Village of Bellwood, the restoration of creek beds, and enhanced fencing for security and safety around areas of Addison Creek, or until the Commission officially resolves that it is impossible or economically unfeasible to fulfill the objectives.

Section 15. Acceptance of grants and appropriations. The Commission may apply for and accept grants and appropriations from the federal government and from the State of Illinois or any agency or instrumentality thereof to be used for the purposes of the Commission and may enter into any agreement in relation to these grants and appropriations. The Commission may also accept from the State, any State

agency, department, or commission, any unit of local government, any railroad, school authority, or jointly therefrom, grants of funds or services for any of the purposes of this Act.

Section 20. Taxing powers. The Commission shall not have the power to levy real property taxes for any purpose whatsoever.

Section 25. Board; composition; qualification; compensation and expenses. The Commission shall be governed by a board consisting of 7 members. The members of the Commission shall serve without compensation, but may be reimbursed from the affected municipalities for actual expenses incurred by them in the performance of duties prescribed by the Commission.

Section 30. Appointments; tenure; oaths; vacancies. One member shall be appointed by the village president of the Village of Bellwood, one member shall be appointed by the village president of the Village of Westchester, one member shall be appointed by the mayor of the City of Northlake, one member shall be appointed by the village president of the Village of Melrose Park, one member shall be appointed by the village president of the Village of Broadview, one member shall be appointed by the village president of the Village of Stone Park, and one member shall be appointed by the village president of the Village of North Riverside. The office of the chair shall rotate annually. Each representative member of the Commission shall take and subscribe to the constitutional oath of office and file it with the Secretary of State. If a vacancy occurs by death, resignation, or otherwise, the vacancy shall be filled by the appropriate selecting party. Each member of the Commission shall hold office for a term of 3 years from the third Monday in January of the year in which his predecessor's term expires. Each member may continue to serve an additional 3-year term unless that member is replaced by appointment within 60 days after the end of his or her term. Of the members initially appointed under this Section, 2 members shall be appointed for terms of office that expire on the third Monday of January, 2006, 2 members shall be appointed for terms of office that expire on the third Monday of January, 2007, 2 members shall be appointed for a term of office that expire on the third Monday of January, 2008, and one member shall be appointed for a term of office that expires on the third Monday of January, 2009. Each respective successor shall be appointed for a term of 3 years from the third Monday of January of the year in which his or her predecessor's term expires.

New matter indicated by italics - deletions by strikeout.
Section 35. Removal of members. Any member of the Commission may be immediately removed from office by the appropriate selecting party or by a majority vote of the Commission in case of incompetency, neglect of duty, or malfeasance of office or otherwise upon 15 days written notice to the other members. Absence from any 3 consecutive regular meetings of the Commission is deemed to be neglect of duty.

Section 40. Organization; chair and temporary secretary. As soon as possible after the appointment of the initial members, the Commission shall organize for the transaction of business, select a chair and a temporary secretary from its own number, and adopt bylaws to govern its proceedings. The initial chair and successors shall be elected by the Commission from time to time from among members. The Commission may act through its members by entering into an agreement that a member act on the Commission's behalf, in which instance the act or performance directed shall be deemed to be exclusively of, for, and by the Commission and not the individual act of the member or its represented person.

Section 45. Meetings; quorum; resolutions. Regular meetings of the Commission shall be held at least quarterly, the time and place of those meetings to be fixed by the Commission. Special meetings may be called by the chair or by any 4 members of the Commission by giving notice in writing, stating the time, place, and purpose of the special meeting. The notice shall be served by certified letter deposited in the U.S. mail at least 48 hours before the meeting. If there is no vacancy on the Commission, 5 members of the Commission shall constitute a quorum to transact business; otherwise, a majority of the Commission shall constitute a quorum to transact business, and no vacancy shall impair the right of the remaining commissioners to exercise all of the powers of the Commission. Every finding, order, or decision approved by a majority of the members of the Commission shall be deemed to be the finding, order, or decision of the Commission. All action of the Commission shall be by resolution and, except as otherwise provided in this Act, the affirmative vote of at least a majority of the total available votes is necessary for the adoption of any resolution. The weight of each member's vote shall be based on the assessed value of the property in the municipality from which the member was recommended in the flood plain designated by FEMA. The chair may vote on any and all matters coming before the Commission.

Section 50. Secretary and treasurer; oaths; bond of treasurer. The Commission may appoint a secretary and a treasurer, who need not be members of the Commission, to hold office at the pleasure of the

Before entering upon the duties of their respective offices, the secretary and treasurer must take and subscribe to the constitutional oath of office, and the treasurer must execute a bond with corporate sureties to be approved by the Commission. The bond shall be payable to the Commission in whatever penal sum may be directed by the Commission conditioned upon the faithful performance of the duties of the office and the payment of all money received by the treasurer according to law and the orders of the Commission. The Commission may, at any time, require a new bond for the treasurer in any penal sum determined by the Commission.

Section 55. Deposit and withdrawal of funds; signatures. All funds deposited by the treasurer in any bank or savings and loan association shall be placed in the name of the Commission and may be withdrawn or paid out only by check or draft upon the bank or savings and loan association that is signed by the treasurer and countersigned by the chair of the Commission. Subject to prior approval of the designations by a majority of the Commission, the chair may designate any other member or any officer of the Commission to affix the signature of the treasurer to any Commission check or draft for payment of salaries or wages and for payment of any other obligation of not more than $2,500. No bank or savings and loan association may receive public funds as permitted by this Section unless it has complied with the requirements established under Section 6 of the Public Funds Investment Act.

Section 60. Delivery of check after executing officer ceases to hold office. If any officer whose signature appears upon any check or draft issued under this Act ceases to hold office before the delivery of the check or draft to the payee, the officer's signature nevertheless shall be valid and sufficient for all purposes with the same effect as if the officer had remained in office until delivery of the check or draft.

Section 65. Rules. The Commission may adopt any rules that are proper or necessary and to carry into effect the powers granted to it.

Section 70. Fiscal year. The Commission shall designate its fiscal year.

PUBLIC ACT 93-0953
(House Bill 5215)

AN ACT concerning schools.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:
Section 5. The School Code is amended by changing Section 29-6.4 as follows:
(105 ILCS 5/29-6.4)
Sec. 29-6.4. Non-contract transportation; bids; reimbursement. A school board of a school district that provides transportation of its pupils to and from school on buses that are owned by the district that are operated by drivers who are employed by the district shall, if it receives a timely request from an interested private school bus contractor that the district provide that transportation under contract, solicit sealed bids for that purpose. A district or special education cooperative is not required to respond to such a request more than once every 2 years. For purposes of this Section, a request shall not be considered timely if unless it is made in writing by certified mail, return receipt requested, addressed to the school board of the district at the administrative offices or any school of the district, postmarked not more than 24 months or nor less than 3 months before the expiration of the collective bargaining or other agreement that is in effect at the time the request is made and that governs the terms and conditions of employment of the school bus drivers employed by the district. All requests shall be made in writing by certified mail, return receipt requested, addressed to the school board of the district at the administrative offices or any school of the district. At the conclusion of the bidding process, the school board shall publicly announce the district's fully allocated costs of providing transportation of its pupils to and from school under its present system and thereupon may (i) elect to enter into a contract as provided in Section 29-6.1 with the lowest responsible bidder for transportation of the district's pupils to and
from school or (ii) elect to continue providing transportation of its pupils to and from school under its present system. In the event the school board elects to continue providing transportation of the district's pupils to and from school under its present system even though the district's fully allocated costs of doing so exceed the amount of the lowest responsible bid received by the school board for transportation of the district's pupils to and from school, the school board shall publicly announce at a regularly scheduled meeting of the board held within 30 days after making its election to continue providing pupil transportation under its present system (i) the fully allocated costs of providing transportation of the district's pupils to and from school under its present system, and (ii) the amount of each of the sealed bids submitted to the school board, identifying which of the sealed bid amounts was the lowest responsible bid.

As used in this Section the term "fully allocated costs" includes both the fixed and variable direct costs of the labor, capital, and material resources that are used by the school district exclusively for purposes of providing transportation of the district's pupils to and from school plus that portion of the district's shared costs as is fairly allocable to the products, services, and facilities necessary to provide transportation of the district's pupils to and from school. Direct costs of labor, capital, and material resources used exclusively to provide pupil transportation include the wages, payroll costs, and associated fringe benefits of school bus drivers, mechanics, and any supervisory or administrative personnel whose services relate exclusively to pupil transportation personnel or services, fuel, lubricants, tires, tubes, related material costs incurred in providing pupil transportation, depreciation costs associated with school buses and other vehicles, including spare vehicles, used to provide pupil transportation, and costs of facilities and equipment maintained exclusively to service, garage, or park vehicles used for pupil transportation purposes. "Shared costs" means the aggregate cost of the labor, capital, and material resources that are used in common by the district for a multiplicity of purposes, including the purpose of providing transportation of the district's pupils to and from school. The costs of the management, administration, and underlying infrastructure that support a multiplicity of services provided by the school district (including pupil transportation services) constitute shared costs within the meaning of this Section, and to the extent they are fairly allocable to pupil transportation services they are included within the term fully allocated costs as used in this Section. The State Board of Education shall promulgate rules setting

forth the manner in which a district's fully allocated costs of providing transportation of its pupils to and from school under a non-contractual system shall be determined and computed for purposes of this Section. However, those rules shall be consistent with the provisions of this paragraph and shall follow recognized principles of fully allocated costing analysis in the transit industry, including generally accepted methods of identifying and estimating the principal cost elements of maintaining and operating a pupil transportation system.

A restricted driving permit issued under this Section shall be subject to cancellation, revocation, and suspension by the Secretary of State in like manner and for like cause as a driver's license issued under this Code may be cancelled, revoked, or suspended; except that a conviction upon one or more offenses against laws or ordinances regulating the movement of traffic shall be deemed sufficient cause for the revocation, suspension, or cancellation of a restricted driving permit. The Secretary of State may, as a condition to the issuance of a restricted driving permit, require the applicant to participate in a designated driver remedial or rehabilitative program. The Secretary of State is authorized to cancel a restricted driving permit if the permit holder does not successfully complete the program.

(c-5) The Secretary of State may, as a condition of the reissuance of a driver's license or permit to an applicant whose driver's license or permit has been suspended before he or she reached the age of 18 years pursuant to any of the provisions of this Section, require the applicant to participate in a driver remedial education course and be retested under Section 6-109 of this Code.

Sec. 11-605. Special speed limit while passing schools or while traveling through highway construction or maintenance zones.

(a) For the purpose of this Section, "school" means the following entities:

(1) A public or private primary or secondary school.

(2) A primary or secondary school operated by a religious institution.

(3) A public, private, or religious nursery school.

On a school day when school children are present and so close thereto that a potential hazard exists because of the close proximity of the motorized traffic, no person shall drive a motor vehicle at a speed in excess of 20 miles per hour while passing a school zone or while traveling on a roadway on public school property or upon any public thoroughfare where children pass going to and from school.

For the purpose of this Section a school day shall begin at seven ante meridian and shall conclude at four post meridian.

This Section shall not be applicable unless appropriate signs are posted upon streets and highways under their respective jurisdiction and maintained by the Department, township, county, park district, city, village or incorporated town wherein the school zone is located. (b) (Blank). No person shall operate a motor vehicle in a construction or maintenance zone at a speed in excess of the posted speed limit when workers are present and so close to the moving traffic that a potential hazard exists because of the motorized traffic.

(c) Nothing in this Chapter shall prohibit the use of electronic speed-detecting devices within 500 feet of signs within a special school speed zone or a construction or maintenance zone indicating such zone, as defined in this Section, nor shall evidence obtained thereby be inadmissible in any prosecution for speeding provided the use of such device shall apply only to the enforcement of the speed limit in such special school speed zone or a construction or maintenance zone.

(d) (Blank). For the purpose of this Section, a construction or maintenance zone is an area in which the Department, Toll Highway Authority, or local agency has determined that the preexisting established speed limit through a highway construction or maintenance project is
greater than is reasonable or safe with respect to the conditions expected to exist in the construction or maintenance zone and has posted a lower speed limit with a highway construction or maintenance zone special speed limit sign. Highway construction or maintenance zone special speed limit signs shall be of a design approved by the Department. The signs shall give proper due warning that a construction or maintenance zone is being approached and shall indicate the maximum speed limit in effect. The signs shall also state the amount of the minimum fine for a violation when workers are present:

(e) A first violation of this Section is a petty offense with a minimum fine of $150. A second or subsequent violation of this Section is a petty offense with a minimum fine of $300.

(f) When a fine for a violation of subsection (a) is $150 or greater, the person who violates subsection (a) shall be charged an additional $50 to be paid to the unit school district where the violation occurred for school safety purposes. If the violation occurred in a dual school district, $25 of the surcharge shall be paid to the elementary school district for school safety purposes and $25 of the surcharge shall be paid to the high school district for school safety purposes. Notwithstanding any other provision of law, the entire $50 surcharge shall be paid to the appropriate school district or districts.

For purposes of this subsection (f), "school safety purposes" includes the costs associated with school zone safety education and the purchase, installation, and maintenance of caution lights which are mounted on school speed zone signs.

(g) (Blank). When a fine for a violation of subsection (b) is $150 or greater, the person who violates subsection (b) shall be charged an additional $50. The $50 surcharge shall be deposited into the Transportation Safety Highway Hire-back Fund.

(h) (Blank). The Transportation Safety Highway Hire-back Fund is created as a special fund in the State treasury. Subject to appropriation by the General Assembly and approval by the Secretary, the Secretary of Transportation shall use all moneys in the Transportation Safety Highway Hire-back Fund to hire off-duty Department of State Police officers to monitor construction or maintenance zones.

Such notice shall advise each chief executive officer of the date, time and place of the first meeting of such joint review board, which shall occur not less than 30 days prior to the date of the public hearing. Such notice by mail shall be given by depositing such notice in the United States Postal Service by certified mail.

At or prior to the first meeting of such joint review board the county shall furnish to any member of such joint review board copies of the proposed economic development plan and any related documents which such member shall reasonably request. A majority of the members of such joint review board present at any meeting shall constitute a quorum. Additional meetings may be called by any member of a joint review board upon the giving of notice not less than 72 hours prior to the date of any additional meeting to all members of the joint review board. The joint review board shall review such information and material as its members reasonably deem relevant to the county’s proposals to approve economic development plans and economic development projects and to designate economic development project areas. The county shall provide such information and material promptly upon the request of the joint review board and may also provide administrative support and facilities as the joint review board may reasonably require.

Within 30 days of its first meeting, a joint review board shall provide the county with a written report of its review of any proposal to approve an economic development plan and economic development

Such written report shall include such information and advisory, nonbinding recommendations as a majority of the members of the joint review board shall deem relevant. Written reports of joint review boards may include information and advisory, nonbinding recommendations provided by a minority of the members thereof. Any joint review board which does not provide such written report within such 30-day period shall be deemed to have recommended that the county proceed with a proposal to approve an economic development plan and economic development project and to designate an economic development project area.

(1) Notice by publication shall be given by publication at least twice, the first publication to be not more than 30 nor less than 10 days prior to the hearing in a newspaper of general circulation within the taxing districts having property in the proposed economic development project area. Notice by mailing shall be given by depositing such notice together with a copy of the proposed economic development plan in the United States Postal Service by certified mail addressed to the person or persons in whose name the general taxes for the last preceding year were paid on each lot, block, tract, or parcel of land lying within the proposed economic development project area. The notice shall be mailed not less than 10 days prior to the dates set for the public hearing. In addition to the other requirements under this subsection (c), the notice shall include an invitation to the Department and each taxing district to submit comments to the county concerning the subject matter of the hearing prior to the date of the hearing.

(d) At the public hearing any interested person, the Department or any affected taxing district may file written objections with the county clerk and may be heard orally with respect to any issues embodied in the notice. The county shall hear and determine all alternate proposals or bids for any proposed conveyance, lease, mortgage or other disposition of land and all protests and objections at the hearing, and the hearing may be adjourned to another date without further notice other than a motion to be entered upon the minutes fixing the time and place of the adjourned hearing. Public hearings with regard to an economic development plan, economic development project area, or economic development project may be held simultaneously.

(e) At the public hearing, or at any time prior to the adoption by the county of an ordinance approving an economic development plan, the county may make changes in the economic development plan. Changes which (1) alter the exterior boundaries of the proposed economic development project area, (2) substantially affect the general land uses established in the proposed economic development plan, (3) substantially change the nature of the proposed economic development plan, (4) change the general description of any proposed developer, user or tenant of any property to be located or improved within the economic development project area, or (5) change the description of the type, class and number of employees to be employed in the operation of the facilities to be developed or improved within the economic development project area shall be made only after review by joint review board, notice and hearing pursuant to the procedures set forth in this Section. Changes which do not (1) alter the exterior boundaries of a proposed economic development project area, (2)
substantially affect the general land uses established in the proposed plan, (3) substantially change the nature of the proposed economic development plan, (4) change the general description of any proposed developer, user or tenant of any property to be located or improved within the economic development project area, or (5) change the description of the type, class and number of employees to be employed in the operation of the facilities to be developed or improved within the economic development project area may be made without further notice or hearing, provided that the county shall give notice of its changes by mail to the Department and to each affected taxing district and by publication in a newspaper or newspapers of general circulation with the affected taxing districts. Such notice by mail and by publication shall each occur not later than 10 days following the adoption by ordinance of such changes.

(f) At any time within 90 days of the final adjournment of the public hearing, a county may, by ordinance, approve the economic development plan, establish the economic development project area, and authorize property tax allocation financing for such economic development project area.

Any ordinance adopted by Whiteside County which approves the economic development plan shall contain findings that the economic development project is reasonably expected to create or retain not less than 500 full-time equivalent jobs, that private investment in an amount not less than $25,000,000 is reasonably expected to occur in the economic development project area, that the economic development project will encourage the increase of commerce and industry within the State, thereby reducing the evils attendant upon unemployment and increasing opportunities for personal income, and that the economic development project will increase or maintain the property, sales and income tax bases of the county and of the State.

Any ordinance adopted by Stephenson County that approves an economic development plan shall contain findings that (i) the economic development project is reasonably expected to create or retain not less than 500 full-time equivalent jobs; (ii) private investment in an amount not less than $10,000,000 is reasonably expected to occur in the economic development area; (iii) the economic development project will encourage the increase of commerce and industry within the State, thereby reducing the evils attendant upon unemployment and increasing opportunities for personal income; and (iv) the economic development project will increase or maintain the property, sales, and income tax bases of the county and of the State.

The ordinance shall also state that the economic development project area shall not include parcels to be used for purposes of residential development. Any ordinance adopted which establishes an economic development project area shall contain the boundaries of such area by legal description and, where possible, by street location. Any ordinance adopted which authorizes property tax allocation financing shall provide that the ad valorem taxes, if any, arising from the levies upon taxable real property in such economic development project area by taxing districts and tax rates determined in the manner provided in subsection (b) of Section 6 of this Act each year after the effective date of the ordinance until economic development project costs and all county obligations financing economic development project costs incurred under this Act have been paid shall be divided as follows:

(1) That portion of taxes levied upon each taxable lot, block, tract or parcel of real property which is attributable to the lower of the current equalized assessed value or the initial equalized assessed value of each such taxable lot, block, tract or parcel of real property in the economic development project area shall be allocated to, and when collected, shall be paid by the county collector to the respective affected taxing districts in the manner required by law in the absence of the adoption of property tax allocation financing.

(2) That portion, if any, of such taxes which is attributable to the increase in the current equalized assessed valuation of each taxable lot, block, tract or parcel of real property in the economic development project area over and above the initial equalized assessed value of each property in the economic development project area shall be allocated to and when collected shall be paid to the county treasurer who shall deposit those taxes into a special fund called the special tax allocation fund of the county for the purpose of paying economic development project costs and obligations incurred in the payment thereof.

(g) After a county has by ordinance approved an economic development plan and established an economic development project area, the plan may be amended and the boundaries of the area may be altered only as herein provided. Amendments which (1) alter the exterior boundaries of an economic development project area, (2) substantially affect the general land uses established pursuant to the economic development plan, (3) substantially change the nature of the economic development plan, (4) change the general description of any proposed developer, user, or tenant of any property to be located or improved within the economic development project area, or (5) change the description of the type, class and number of employees to be employed in the operation of the facilities to be developed or improved shall be made only after review by a joint review board, notice and hearing pursuant to the procedures set forth in this Section. Such notices by mail and by publication shall each occur not later than 10 days following the adoption by ordinance of such amendments.

(h) After the adoption of an ordinance adopting property tax allocation financing for an economic development project area, the county shall annually report to each taxing district having taxable property within such economic development project area (i) any increase or decrease in the equalized assessed value of the real property located within such economic development project area above or below the initial equalized assessed value of such real property, (ii) that portion, if any, of the ad valorem taxes arising from the levies upon taxable real property in such economic development project area by the taxing districts which is attributable to the increase in the current equalized assessed valuation of each lot, block, tract or parcel of real property in the economic development project area over and above the initial equalized value of each property and which has been allocated to the county in the current year, and (iii) such other information as the county may deem relevant.

(i) The county shall give notice by mail as provided in this Section and shall reconvene the joint review board not less than annually for each of the 2 years following its adoption of an ordinance adopting property tax allocation financing for an economic development project area and not less than once in each 3-year period thereafter. The county shall provide such information, and may provide administrative support and facilities as the joint review board may reasonably require for each of such meetings.

project is reasonably expected to create or retain not less than 500 full-
time equivalent jobs and (ii) that private investment in the amount of not
less than $25,000,000 for all ordinances adopted by Whiteside County and
in the amount of not less than $10,000,000 for any ordinance adopted by
Stephenson County is reasonably expected to occur in the economic
development project area, (4) an estimate of the economic impact of the

financing upon the revenues of the county and the affected taxing districts,
(5) a record of all public hearings held in connection with the
establishment of the economic development project area, and (6) such
other information as the Department by regulation may require.

(b) Upon receipt of an application from a county the Department
shall review the application to determine whether the economic
development project area qualifies as an economic development project
area under this Act. At its discretion, the Department may accept or reject
the application or may request such additional information as it deems
necessary or advisable to aid its review. If any such area is found to be
qualified to be an economic development project area, the Department
shall approve and certify such economic development project area and
shall provide written notice of its approval and certification to the county
and to the county clerk. In determining whether an economic development
project area shall be approved and certified, the Department shall consider
(1) whether, without public intervention, the State would suffer substantial
economic dislocation, such as relocation of a commercial business or
industrial or manufacturing facility to another state, territory or country, or
would not otherwise benefit from private investment offering substantial
employment opportunities and economic growth, and (2) the impact on the
revenues of the county and the affected taxing districts of the use of tax
increment allocation financing in connection with the economic
development project.

(c) On or before July 1, 2007 2006, the Department shall submit to
the General Assembly a report detailing the number of economic
development project areas it has approved and certified, the number and
type of jobs created or retained therein, the aggregate amount of private
investment therein, the impact in the revenues of counties and affected
taxing districts of the use of property tax allocation financing therein, and
such additional information as the Department may determine to be
relevant. On July 1, 2008 the authority granted hereunder to counties to

Section 99. Effective date. This Act takes effect July 1, 2004.

PUBLIC ACT 93-0961
(Senate Bill No. 2158)
AN ACT concerning taxes.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Illinois Municipal Code is amended by changing Sections 11-74.4-3 and 11-74.4-4 as follows:

(65 ILCS 5/11-74.4-3) (from Ch. 24, par. 11-74.4-3)
Sec. 11-74.4-3. Definitions. The following terms, wherever used or referred to in this Division 74.4 shall have the following respective meanings, unless in any case a different meaning clearly appears from the context.

(a) For any redevelopment project area that has been designated pursuant to this Section by an ordinance adopted prior to November 1, 1999 (the effective date of Public Act 91-478), "blighted area" shall have the meaning set forth in this Section prior to that date.

New matter indicated by italics - deletions by strikeout.
On and after November 1, 1999, "blighted area" means any improved or vacant area within the boundaries of a redevelopment project area located within the territorial limits of the municipality where:

(1) If improved, industrial, commercial, and residential buildings or improvements are detrimental to the public safety, health, or welfare because of a combination of 5 or more of the following factors, each of which is (i) present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) reasonably distributed throughout the improved part of the redevelopment project area:

(A) Dilapidation. An advanced state of disrepair or neglect of necessary repairs to the primary structural components of buildings or improvements in such a combination that a documented building condition analysis determines that major repair is required or the defects are so serious and so extensive that the buildings must be removed.

(B) Obsolescence. The condition or process of falling into disuse. Structures have become ill-suited for the original use.

(C) Deterioration. With respect to buildings, defects including, but not limited to, major defects in the secondary building components such as doors, windows, porches, gutters and downspouts, and fascia. With respect to surface improvements, that the condition of roadways, alleys, curbs, gutters, sidewalks, off-street parking, and surface storage areas evidence deterioration, including, but not limited to, surface cracking, crumbling, potholes, depressions, loose paving material, and weeds protruding through paved surfaces.

(D) Presence of structures below minimum code standards. All structures that do not meet the standards of zoning, subdivision, building, fire, and other governmental codes applicable to property, but not including housing and property maintenance codes.

(E) Illegal use of individual structures. The use of structures in violation of applicable federal, State, or local

New matter indicated by italics - deletions by strikeout.
laws, exclusive of those applicable to the presence of structures below minimum code standards.

(F) Excessive vacancies. The presence of buildings that are unoccupied or under-utilized and that represent an adverse influence on the area because of the frequency, extent, or duration of the vacancies.

(G) Lack of ventilation, light, or sanitary facilities. The absence of adequate ventilation for light or air circulation in spaces or rooms without windows, or that require the removal of dust, odor, gas, smoke, or other noxious airborne materials. Inadequate natural light and ventilation means the absence of skylights or windows for interior spaces or rooms and improper window sizes and amounts by room area to window area ratios. Inadequate sanitary facilities refers to the absence or inadequacy of garbage storage and enclosure, bathroom facilities, hot water and kitchens, and structural inadequacies preventing ingress and egress to and from all rooms and units within a building.

(H) Inadequate utilities. Underground and overhead utilities such as storm sewers and storm drainage, sanitary sewers, water lines, and gas, telephone, and electrical services that are shown to be inadequate. Inadequate utilities are those that are: (i) of insufficient capacity to serve the uses in the redevelopment project area, (ii) deteriorated, antiquated, obsolete, or in disrepair, or (iii) lacking within the redevelopment project area.

(I) Excessive land coverage and overcrowding of structures and community facilities. The over-intensive use of property and the crowding of buildings and accessory facilities onto a site. Examples of problem conditions warranting the designation of an area as one exhibiting excessive land coverage are: (i) the presence of buildings either improperly situated on parcels or located on parcels of inadequate size and shape in relation to present-day standards of development for health and safety and (ii) the presence of multiple buildings on a single parcel. For there to be a finding of excessive land coverage, these parcels must exhibit one or more of the following conditions:
insufficient provision for light and air within or around buildings, increased threat of spread of fire due to the close proximity of buildings, lack of adequate or proper access to a public right-of-way, lack of reasonably required off-street parking, or inadequate provision for loading and service.

(J) Deleterious land use or layout. The existence of incompatible land-use relationships, buildings occupied by inappropriate mixed-uses, or uses considered to be noxious, offensive, or unsuitable for the surrounding area.

(K) Environmental clean-up. The proposed redevelopment project area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

(L) Lack of community planning. The proposed redevelopment project area was developed prior to or without the benefit or guidance of a community plan. This means that the development occurred prior to the adoption by the municipality of a comprehensive or other community plan or that the plan was not followed at the time of the area's development. This factor must be documented by evidence of adverse or incompatible land-use relationships, inadequate street layout, improper subdivision, parcels of inadequate shape and size to meet contemporary development standards, or other evidence demonstrating an absence of effective community planning.

(M) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which
information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated.

(2) If vacant, the sound growth of the redevelopment project area is impaired by a combination of 2 or more of the following factors, each of which is (i) present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) reasonably distributed throughout the vacant part of the redevelopment project area to which it pertains:

(A) Obsolete platting of vacant land that results in parcels of limited or narrow size or configurations of parcels of irregular size or shape that would be difficult to develop on a planned basis and in a manner compatible with contemporary standards and requirements, or platting that failed to create rights-of-ways for streets or alleys or that created inadequate right-of-way widths for streets, alleys, or other public rights-of-way or that omitted easements for public utilities.

(B) Diversity of ownership of parcels of vacant land sufficient in number to retard or impede the ability to assemble the land for development.

(C) Tax and special assessment delinquencies exist or the property has been the subject of tax sales under the Property Tax Code within the last 5 years.

(D) Deterioration of structures or site improvements in neighboring areas adjacent to the vacant land.

(E) The area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the

development or redevelopment of the redevelopment project area.

(F) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated.

(3) If vacant, the sound growth of the redevelopment project area is impaired by one of the following factors that (i) is present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) is reasonably distributed throughout the vacant part of the redevelopment project area to which it pertains:

   (A) The area consists of one or more unused quarries, mines, or strip mine ponds.

   (B) The area consists of unused railyards, railroad tracks, or railroad rights-of-way.

   (C) The area, prior to its designation, is subject to (i) chronic flooding that adversely impacts on real property in the area as certified by a registered professional engineer or appropriate regulatory agency or (ii) surface water that discharges from all or a part of the area and contributes to flooding within the same watershed, but only if the redevelopment project provides for facilities or improvements to contribute to the alleviation of all or part of the flooding.

   (D) The area consists of an unused or illegal disposal site containing earth, stone, building debris, or similar materials that were removed from construction, demolition, excavation, or dredge sites.

New matter indicated by italics - deletions by strikeout.
(E) Prior to November 1, 1999, the area is not less than 50 nor more than 100 acres and 75% of which is vacant (notwithstanding that the area has been used for commercial agricultural purposes within 5 years prior to the designation of the redevelopment project area), and the area meets at least one of the factors itemized in paragraph (1) of this subsection, the area has been designated as a town or village center by ordinance or comprehensive plan adopted prior to January 1, 1982, and the area has not been developed for that designated purpose.

(F) The area qualified as a blighted improved area immediately prior to becoming vacant, unless there has been substantial private investment in the immediately surrounding area.

(b) For any redevelopment project area that has been designated pursuant to this Section by an ordinance adopted prior to November 1, 1999 (the effective date of Public Act 91-478), "conservation area" shall have the meaning set forth in this Section prior to that date.

On and after November 1, 1999, "conservation area" means any improved area within the boundaries of a redevelopment project area located within the territorial limits of the municipality in which 50% or more of the structures in the area have an age of 35 years or more. Such an area is not yet a blighted area but because of a combination of 3 or more of the following factors is detrimental to the public safety, health, morals or welfare and such an area may become a blighted area:

1. Dilapidation. An advanced state of disrepair or neglect of necessary repairs to the primary structural components of buildings or improvements in such a combination that a documented building condition analysis determines that major repair is required or the defects are so serious and so extensive that the buildings must be removed.

2. Obsolescence. The condition or process of falling into disuse. Structures have become ill-suited for the original use.

3. Deterioration. With respect to buildings, defects including, but not limited to, major defects in the secondary building components such as doors, windows, porches, gutters and downspouts, and fascia. With respect to surface improvements, that the condition of roadways, alleys, curbs, gutters, sidewalks, off-street parking, and surface storage areas evidence deterioration,

buildings either improperly situated on parcels or located on parcels of inadequate size and shape in relation to present-day standards of development for health and safety and the presence of multiple buildings on a single parcel. For there to be a finding of excessive land coverage, these parcels must exhibit one or more of the following conditions: insufficient provision for light and air within or around buildings, increased threat of spread of fire due to the close proximity of buildings, lack of adequate or proper access to a public right-of-way, lack of reasonably required off-street parking, or inadequate provision for loading and service.

For purposes of computing the aggregate amount of such taxes for base years occurring prior to 1985, the Department of Revenue shall determine the Initial Sales Tax Amounts for such taxes and deduct therefrom an amount equal to 4% of the aggregate amount of taxes per year for each year the base year is prior to 1985, but not to exceed a total deduction of 12%. The amount so determined shall be known as the "Adjusted Initial Sales Tax Amounts". For purposes of determining the Municipal Sales Tax Increment, the Department of Revenue shall for each period subtract from the amount paid to the municipality from the Local Government Tax Fund arising from sales by retailers and servicemen on transactions located in the redevelopment project area or the State Sales Tax Boundary, as the case may be, the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts for the Municipal Retailers' Occupation Tax Act and the Municipal Service Occupation Tax Act. For the State Fiscal Year 1991, this calculation shall be made by utilizing the period from October 1, 1988, to June 30, 1989, to determine the tax amounts received from retailers and servicemen pursuant to the Municipal Retailers' Occupation Tax and the Municipal Service Occupation Tax Act which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For every State Fiscal Year thereafter, the applicable period shall be the 12 months beginning July 1 and ending June 30 to determine the tax amounts received which shall have deducted therefrom the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts, as the case may be.

For Fiscal Year 1999, and every year thereafter until the year 2007, for any municipality that has not entered into a contract or has not issued bonds prior to June 1, 1988 to finance redevelopment project costs within a State Sales Tax Boundary, the Net State Sales Tax Increment shall be calculated as follows: By multiplying the Net State Sales Tax

No payment shall be made for State Fiscal Year 2008 and thereafter. Refunding of any bonds issued prior to July 29, 1991, shall not alter the Net State Sales Tax Increment.

For the State Fiscal Year 1999, and every year thereafter until the year 2007, for any municipality that has not entered into a contract or has not issued bonds prior to June 1, 1988 to finance redevelopment project costs within a redevelopment project area, the Net State Utility Tax Increment shall be calculated as follows: By multiplying the Net State Utility Tax Increment by 90% in the State Fiscal Year 1999; 80% in the State Fiscal Year 2000; 70% in the State Fiscal Year 2001; 60% in the State Fiscal Year 2002; 50% in the State Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006; and 10% in the State Fiscal Year 2007. No payment shall be made for the State Fiscal Year 2008 and thereafter.

Municipalities that issue bonds in connection with the redevelopment project during the period from June 1, 1988 until 3 years after the effective date of this Amendatory Act of 1988 shall receive the Net State Utility Tax Increment, subject to appropriation, for 15 State Fiscal Years after the issuance of such bonds. For the 16th through the 20th State Fiscal Years after issuance of the bonds, the Net State Utility Tax Increment shall be calculated as follows: By multiplying the Net State Utility Tax Increment by 90% in year 16; 80% in year 17; 70% in year 18; 60% in year 19; and 50% in year 20. Boundary, the estimated dates of completion of the redevelopment project and retirement of obligations to finance redevelopment project costs may be extended by municipal ordinance to December 31, 2013. The termination procedures of subsection (b) of Section 11-74.4-8 are not required for these redevelopment project areas in 2009 but are required in 2013. The extension allowed by this amendatory Act of 1993 shall not apply to real property tax increment allocation financing under Section 11-74.4-8.

A municipality may by municipal ordinance amend an existing redevelopment plan to conform to this paragraph (3) as amended by Public Act 91-478, which municipal ordinance may be adopted without further hearing or notice and without complying with the procedures provided in this Act pertaining to an amendment to or the initial approval of a redevelopment plan and project and designation of a redevelopment project area.

Those dates, for purposes of real property tax increment allocation financing pursuant to Section 11-74.4-8 only, shall be not more than 35 years for redevelopment project areas that were adopted on or after December 16, 1986 and for which at least $8 million worth of municipal bonds were authorized on or after December 19, 1989 but before January 1, 1990; provided that the municipality elects to extend the life of the redevelopment project area to 35 years by the adoption of an ordinance after at least 14 but not more than 30 days' written notice to the taxing bodies, that would otherwise constitute the joint review board for the redevelopment project area, before the adoption of the ordinance.

(3.5) The municipality finds, in the case of an industrial park conservation area, also that the municipality is a labor surplus municipality and that the implementation of the redevelopment plan will reduce unemployment, create new jobs and by the provision of new facilities enhance the tax base of the taxing districts that extend into the redevelopment project area.

(4) If any incremental revenues are being utilized under Section 8(a)(1) or 8(a)(2) of this Act in redevelopment project areas approved by ordinance after January 1, 1986, the municipality finds: (a) that the redevelopment project area would not reasonably be developed without the use of such incremental revenues, and (b) that such incremental revenues will be exclusively utilized for the development of the redevelopment project area.

(5) If the redevelopment plan will not result in displacement of residents from 10 or more inhabited residential units, and the municipality certifies in the plan that such displacement will not result from the plan, a housing impact study need not be performed. If, however, the redevelopment plan would result in the displacement of residents from 10 or more inhabited residential units, or if the redevelopment project area contains 75 or more inhabited residential units and no certification is made, then the municipality shall prepare, as part of the separate feasibility report required by subsection (a) of Section 11-74.4-5, a housing impact study.

Part I of the housing impact study shall include (i) data as to whether the residential units are single family or multi-family units, (ii) the number and type of rooms within the units, if that information is available, (iii) whether the units are inhabited or uninhabited, as determined not less than 45 days before the date that the ordinance or resolution required by subsection (a) of Section 11-74.4-5 is passed, and (iv) data as to the racial and ethnic composition of the residents in the inhabited residential units. The data requirement as to the racial and ethnic composition of the residents in the inhabited residential units shall be deemed to be fully satisfied by data from the most recent federal census.

Part II of the housing impact study shall identify the inhabited residential units in the proposed redevelopment project area that are to be or may be removed. If inhabited residential units

are to be removed, then the housing impact study shall identify (i) the number and location of those units that will or may be removed, (ii) the municipality's plans for relocation assistance for those residents in the proposed redevelopment project area whose residences are to be removed, (iii) the availability of replacement housing for those residents whose residences are to be removed, and shall identify the type, location, and cost of the housing, and (iv) the type and extent of relocation assistance to be provided.

(6) On and after November 1, 1999, the housing impact study required by paragraph (5) shall be incorporated in the redevelopment plan for the redevelopment project area.

(7) On and after November 1, 1999, no redevelopment plan shall be adopted, nor an existing plan amended, nor shall residential housing that is occupied by households of low-income and very low-income persons in currently existing redevelopment project areas be removed after November 1, 1999 unless the redevelopment plan provides, with respect to inhabited housing units that are to be removed for households of low-income and very low-income persons, affordable housing and relocation assistance not less than that which would be provided under the federal Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 and the regulations under that Act, including the eligibility criteria. Affordable housing may be either existing or newly constructed housing. For purposes of this paragraph (7), "low-income households", "very low-income households", and "affordable housing" have the meanings set forth in the Illinois Affordable Housing Act. The municipality shall make a good faith effort to ensure that this affordable housing is located in or near the redevelopment project area within the municipality.

(8) On and after November 1, 1999, if, after the adoption of the redevelopment plan for the redevelopment project area, any municipality desires to amend its redevelopment plan to remove more inhabited residential units than specified in its original redevelopment plan, that change shall be made in accordance with the procedures in subsection (c) of Section 11-74.4-5.

(9) For redevelopment project areas designated prior to November 1, 1999, the redevelopment plan may be amended without further joint review board meeting or hearing, provided

to each affected taxing district and registrant on the interested party
registry, to authorize the municipality to expend tax increment
revenues for redevelopment project costs defined by paragraphs (5)
and (7.5), subparagraphs (E) and (F) of paragraph (11), and
paragraph (11.5) of subsection (q) of Section 11-74.4-3, so long as

project costs set out in the redevelopment plan by more than 5%
after adjustment for inflation from the date the plan was adopted.

combination of both blighted areas and conservation areas.

(q) "Redevelopment project costs" mean and include the sum total

services, may be entered into if the terms of the contract extend beyond a period of 3 years. In addition, "redevelopment project costs" shall not include lobbying expenses. After consultation with the municipality, each tax increment consultant or advisor to a municipality that plans to designate or has designated a redevelopment project area shall inform the municipality in writing of any contracts that the consultant or advisor has entered into with entities or individuals that have received, or are receiving, payments financed by tax increment revenues produced by the redevelopment project area with respect to which the consultant or advisor has performed, or will be performing, service for the municipality. This requirement shall be satisfied by the consultant or advisor before the commencement of services for the municipality and thereafter whenever any other contracts with those individuals or entities are executed by the consultant or advisor;

(1.5) After July 1, 1999, annual administrative costs shall not include general overhead or administrative costs of the municipality that would still have been incurred by the municipality if the municipality had not designated a redevelopment project area or approved a redevelopment plan;

(2) Property assembly costs, including but not limited to acquisition of land and other property, real or personal, or rights or interests therein, demolition of buildings, site preparation, site improvements that serve as an engineered barrier addressing ground level or below ground environmental contamination, including, but not limited to parking lots and other concrete or asphalt barriers, and the clearing and grading of land;

(3) Costs of rehabilitation, reconstruction or repair or remodeling of existing public or private buildings, fixtures, and leasehold improvements; and the cost of replacing an existing public building if pursuant to the implementation of a redevelopment project the existing public building is to be demolished to use the site for private investment or devoted to a different use requiring private investment;

(4) Costs of the construction of public works or improvements, except that on and after November 1, 1999,
redevelopment project costs shall not include the cost of constructing a new municipal public building principally used to provide offices, storage space, or conference facilities or vehicle storage, maintenance, or repair for administrative, public safety, or public works personnel and that is not intended to replace an existing public building as provided under paragraph (3) of subsection (q) of Section 11-74.4-3 unless either (i) the construction of the new municipal building implements a redevelopment project that was included in a redevelopment plan that was adopted by the municipality prior to November 1, 1999 or (ii) the municipality makes a reasonable determination in the redevelopment plan, supported by information that provides the basis for that determination, that the new municipal building is required to meet an increase in the need for public safety purposes anticipated to result from the implementation of the redevelopment plan;

(5) Costs of job training and retraining projects, including the cost of "welfare to work" programs implemented by businesses located within the redevelopment project area;

(6) Financing costs, including but not limited to all necessary and incidental expenses related to the issuance of obligations and which may include payment of interest on any obligations issued hereunder including interest accruing during the estimated period of construction of any redevelopment project for which such obligations are issued and for not exceeding 36 months thereafter and including reasonable reserves related thereto;

(7) To the extent the municipality by written agreement accepts and approves the same, all or a portion of a taxing district's capital costs resulting from the redevelopment project necessarily incurred or to be incurred within a taxing district in furtherance of the objectives of the redevelopment plan and project.

(7.5) For redevelopment project areas designated (or redevelopment project areas amended to add or increase the number of tax-increment-financing assisted housing units) on or after November 1, 1999, an elementary, secondary, or unit school district's increased costs attributable to assisted housing units located within the redevelopment project area for which the developer or redeveloper receives financial assistance through an agreement with the municipality or because the municipality incurs

the cost of necessary infrastructure improvements within the boundaries of the assisted housing sites necessary for the completion of that housing as authorized by this Act, and which costs shall be paid by the municipality from the Special Tax Allocation Fund when the tax increment revenue is received as a result of the assisted housing units and shall be calculated annually as follows:

(A) for foundation districts, excluding any school district in a municipality with a population in excess of 1,000,000, by multiplying the district's increase in attendance resulting from the net increase in new students enrolled in that school district who reside in housing units within the redevelopment project area that have received financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by the most recently available per capita tuition cost as defined in Section 10-20.12a of the School Code less any increase in general State aid as defined in Section 18-8.05 of the School Code attributable to these added new students subject to the following annual limitations:

   (i) for unit school districts with a district average 1995-96 Per Capita Tuition Charge of less than $5,900, no more than 25% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act;

   (ii) for elementary school districts with a district average 1995-96 Per Capita Tuition Charge of less than $5,900, no more than 17% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act; and

amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act.

(B) For alternate method districts, flat grant districts, and foundation districts with a district average 1995-96 Per Capita Tuition Charge equal to or more than $5,900, excluding any school district with a population in excess of 1,000,000, by multiplying the district's increase in attendance resulting from the net increase in new students enrolled in that school district who reside in housing units within the redevelopment project area that have received financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by the most recently available per capita tuition cost as defined in Section 10-20.12a of the School Code less any increase in general state aid as defined in Section 18-8.05 of the School Code attributable to these added new students subject to the following annual limitations:

(i) for unit school districts, no more than 40% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act;

(ii) for elementary school districts, no more than 27% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act; and

(iii) for secondary school districts, no more than 13% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act.

(C) For any school district in a municipality with a population in excess of 1,000,000, the following

restrictions shall apply to the reimbursement of increased costs under this paragraph (7.5):

(i) no increased costs shall be reimbursed unless the school district certifies that each of the schools affected by the assisted housing project is at or over its student capacity;

(ii) the amount reimbursable shall be reduced by the value of any land donated to the school district by the municipality or developer, and by the value of any physical improvements made to the schools by the municipality or developer; and

(iii) the amount reimbursed may not affect amounts otherwise obligated by the terms of any bonds, notes, or other funding instruments, or the terms of any redevelopment agreement.

Any school district seeking payment under this paragraph (7.5) shall, after July 1 and before September 30 of each year, provide the municipality with reasonable evidence to support its claim for reimbursement before the municipality shall be required to approve or make the payment to the school district. If the school district fails to provide the information during this period in any year, it shall forfeit any claim to reimbursement for that year. School districts may adopt a resolution waiving the right to all or a portion of the reimbursement otherwise required by this paragraph (7.5). By acceptance of this reimbursement the school district waives the right to directly or indirectly set aside, modify, or contest in any manner the establishment of the redevelopment project area or projects;

(7.7) For redevelopment project areas designated (or redevelopment project areas amended to add or increase the number of tax-increment-financing assisted housing units) on or after the effective date of this amendatory Act of the 93rd General Assembly, a public library district’s increased costs attributable to assisted housing units located within the redevelopment project area for which the developer or redeveloper receives financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the assisted housing sites

necessary for the completion of that housing as authorized by this Act shall be paid to the library district by the municipality from the Special Tax Allocation Fund when the tax increment revenue is received as a result of the assisted housing units. This paragraph (7.7) applies only if (i) the library district is located in a county that is subject to the Property Tax Extension Limitation Law or (ii) the library district is not located in a county that is subject to the Property Tax Extension Limitation Law but the district is prohibited by any other law from increasing its tax levy rate without a prior voter referendum.

The amount paid to a library district under this paragraph (7.7) shall be calculated by multiplying (i) the net increase in the number of persons eligible to obtain a library card in that district who reside in housing units within the redevelopment project area that have received financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by (ii) the per-patron cost of providing library services so long as it does not exceed $120. The per-patron cost shall be the Total Operating Expenditures Per Capita as stated in the most recent Illinois Public Library Statistics produced by the Library Research Center at the University of Illinois. The municipality may deduct from the amount that it must pay to a library district under this paragraph any amount that it has voluntarily paid to the library district from the tax increment revenue. The amount paid to a library district under this paragraph (7.7) shall be no more than 2% of the amount produced by the assisted housing units and deposited into the Special Tax Allocation Fund.

A library district is not eligible for any payment under this paragraph (7.7) unless the library district has experienced an increase in the number of patrons from the municipality that created the tax-increment-financing district since the designation of the redevelopment project area.

Any library district seeking payment under this paragraph (7.7) shall, after July 1 and before September 30 of each year, provide the municipality with convincing evidence to support its

claim for reimbursement before the municipality shall be required to approve or make the payment to the library district. If the library district fails to provide the information during this period in any year, it shall forfeit any claim to reimbursement for that year. Library districts may adopt a resolution waiving the right to all or a portion of the reimbursement otherwise required by this paragraph (7.7). By acceptance of such reimbursement, the library district shall forfeit any right to directly or indirectly set aside, modify, or contest in any manner whatsoever the establishment of the redevelopment project area or projects;

(8) Relocation costs to the extent that a municipality determines that relocation costs shall be paid or is required to make payment of relocation costs by federal or State law or in order to satisfy subparagraph (7) of subsection (n);

(9) Payment in lieu of taxes;

(10) Costs of job training, retraining, advanced vocational education or career education, including but not limited to courses in occupational, semi-technical or technical fields leading directly to employment, incurred by one or more taxing districts, provided that such costs (i) are related to the establishment and maintenance of additional job training, advanced vocational education or career education programs for persons employed or to be employed by employers located in a redevelopment project area; and (ii) when incurred by a taxing district or taxing districts other than the municipality, are set forth in a written agreement by or among the municipality and the taxing district or taxing districts, which agreement describes the program to be undertaken, including but not limited to the number of employees to be trained, a description of the training and services to be provided, the number and type of positions available or to be available, itemized costs of the program and sources of funds to pay for the same, and the term of the agreement. Such costs include, specifically, the payment by community college districts of costs pursuant to Sections 3-37, 3-38, 3-40 and 3-40.1 of the Public Community College Act and by school districts of costs pursuant to Sections 10-22.20a and 10-23.3a of The School Code;

(11) Interest cost incurred by a redeveloper related to the construction, renovation or rehabilitation of a redevelopment project provided that:

New matter indicated by italics - deletions by strikeout.
(A) such costs are to be paid directly from the special tax allocation fund established pursuant to this Act;
(B) such payments in any one year may not exceed 30% of the annual interest costs incurred by the redeveloper with regard to the redevelopment project during that year;
(C) if there are not sufficient funds available in the special tax allocation fund to make the payment pursuant to this paragraph (11) then the amounts so due shall accrue and be payable when sufficient funds are available in the special tax allocation fund;
(D) the total of such interest payments paid pursuant to this Act may not exceed 30% of the total (i) cost paid or incurred by the redeveloper for the redevelopment project plus (ii) redevelopment project costs excluding any property assembly costs and any relocation costs incurred by a municipality pursuant to this Act; and
(E) the cost limits set forth in subparagraphs (B) and (D) of paragraph (11) shall be modified for the financing of rehabilitated or new housing units for low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act. The percentage of 75% shall be substituted for 30% in subparagraphs (B) and (D) of paragraph (11).
(F) Instead of the eligible costs provided by subparagraphs (B) and (D) of paragraph (11), as modified by this subparagraph, and notwithstanding any other provisions of this Act to the contrary, the municipality may pay from tax increment revenues up to 50% of the cost of construction of new housing units to be occupied by low-income households and very low-income households as defined in Section 3 of the Illinois Affordable Housing Act. The cost of construction of those units may be derived from the proceeds of bonds issued by the municipality under this Act or other constitutional or statutory authority or from other sources of municipal revenue that may be reimbursed from tax increment revenues or the proceeds of bonds issued to finance the construction of that housing.

The eligible costs provided under this subparagraph (F) of paragraph (11) shall be an eligible cost for the

construction, renovation, and rehabilitation of all low and very low-income housing units, as defined in Section 3 of the Illinois Affordable Housing Act, within the redevelopment project area. If the low and very low-income units are part of a residential redevelopment project that includes units not affordable to low and very low-income households, only the low and very low-income units shall be eligible for benefits under subparagraph (F) of paragraph (11). The standards for maintaining the occupancy by low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act, of those units constructed with eligible costs made available under the provisions of this subparagraph (F) of paragraph (11) shall be established by guidelines adopted by the municipality. The responsibility for annually documenting the initial occupancy of the units by low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act, shall be that of the then current owner of the property. For ownership units, the guidelines will provide, at a minimum, for a reasonable recapture of funds, or other appropriate methods designed to preserve the original affordability of the ownership units. For rental units, the guidelines will provide, at a minimum, for the affordability of rent to low and very low-income households. As units become available, they shall be rented to income-eligible tenants. The municipality may modify these guidelines from time to time; the guidelines, however, shall be in effect for as long as tax increment revenue is being used to pay for costs associated with the units or for the retirement of bonds issued to finance the units or for the life of the redevelopment project area, whichever is later.

(11.5) If the redevelopment project area is located within a municipality with a population of more than 100,000, the cost of day care services for children of employees from low-income families working for businesses located within the redevelopment project area and all or a portion of the cost of operation of day care centers established by redevelopment project area businesses to serve employees from low-income families working in businesses

located in the redevelopment project area. For the purposes of this paragraph, "low-income families" means families whose annual income does not exceed 80% of the municipal, county, or regional median income, adjusted for family size, as the annual income and municipal, county, or regional median income are determined from time to time by the United States Department of Housing and Urban Development.

(12) Unless explicitly stated herein the cost of construction of new privately-owned buildings shall not be an eligible redevelopment project cost.

(13) After November 1, 1999 (the effective date of Public Act 91-478), none of the redevelopment project costs enumerated in this subsection shall be eligible redevelopment project costs if those costs would provide direct financial support to a retail entity initiating operations in the redevelopment project area while terminating operations at another Illinois location within 10 miles of the redevelopment project area but outside the boundaries of the redevelopment project area municipality. For purposes of this paragraph, termination means a closing of a retail operation that is directly related to the opening of the same operation or like retail entity owned or operated by more than 50% of the original ownership in a redevelopment project area, but it does not mean closing an operation for reasons beyond the control of the retail entity, as documented by the retail entity, subject to a reasonable finding by the municipality that the current location contained inadequate space, had become economically obsolete, or was no longer a viable location for the retailer or serviceman.

If a special service area has been established pursuant to the Special Service Area Tax Act or Special Service Area Tax Law, then any tax increment revenues derived from the tax imposed pursuant to the Special Service Area Tax Act or Special Service Area Tax Law may be used within the redevelopment project area for the purposes permitted by that Act or Law as well as the purposes permitted by this Act.

(r) "State Sales Tax Boundary" means the redevelopment project area or the amended redevelopment project area boundaries which are determined pursuant to subsection (9) of Section 11-74.4-8a of this Act. The Department of Revenue shall certify pursuant to subsection (9) of Section 11-74.4-8a the appropriate boundaries eligible for the determination of State Sales Tax Increment.

(s) "State Sales Tax Increment" means an amount equal to the increase in the aggregate amount of taxes paid by retailers and servicemen, other than retailers and servicemen subject to the Public Utilities Act, on transactions at places of business located within a State Sales Tax Boundary pursuant to the Retailers' Occupation Tax Act, the Use Tax Act, the Service Use Tax Act, and the Service Occupation Tax Act, except such portion of such increase that is paid into the State and Local Sales Tax Reform Fund, the Local Government Distributive Fund, the Local Government Tax Fund and the County and Mass Transit District Fund, for as long as State participation exists, over and above the Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts for such taxes as certified by the Department of Revenue and paid under those Acts by retailers and servicemen on transactions at places of business located within the State Sales Tax Boundary during the base year which shall be the calendar year immediately prior to the year in which the municipality adopted tax increment allocation financing, less 3.0% of such amounts generated under the Retailers' Occupation Tax Act, Use Tax Act and Service Use Tax Act and the Service Occupation Tax Act, which sum shall be appropriated to the Department of Revenue to cover its costs of administering and enforcing this Section. For purposes of computing the aggregate amount of such taxes for base years occurring prior to 1985, the Department of Revenue shall compute the Initial Sales Tax Amount for such taxes and deduct therefrom an amount equal to 4% of the aggregate amount of taxes per year for each year the base year is prior to 1985, but not to exceed a total deduction of 12%. The amount so determined shall be known as the "Adjusted Initial Sales Tax Amount". For purposes of determining the State Sales Tax Increment the Department of Revenue shall for each period subtract from the tax amounts received from retailers and servicemen on transactions located in the State Sales Tax Boundary, the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or Revised Initial Sales Tax Amounts for the Retailers' Occupation Tax Act, the Use Tax Act, the Service Use Tax Act and the Service Occupation Tax Act. For the State Fiscal Year 1989 this calculation shall be made by utilizing the calendar year 1987 to determine the tax amounts received. For the State Fiscal Year 1990, this calculation shall be made by utilizing the period from January 1, 1988, until September 30, 1988, to determine the tax amounts received from retailers and servicemen, which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or

the Revised Initial Sales Tax Amounts as appropriate. For the State Fiscal Year 1991, this calculation shall be made by utilizing the period from October 1, 1988, until June 30, 1989, to determine the tax amounts received from retailers and servicemen, which shall have deducted therefrom nine-twelveths of the certified Initial State Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For every State Fiscal Year thereafter, the applicable period shall be the 12 months beginning July 1 and ending on June 30, to determine the tax amounts received which shall have deducted therefrom the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts. Municipalities intending to receive a distribution of State Sales Tax Increment must report a list of retailers to the Department of Revenue by October 31, 1988 and by July 31, of each year thereafter.

(t) "Taxing districts" means counties, townships, cities and incorporated towns and villages, school, road, park, sanitary, mosquito abatement, forest preserve, public health, fire protection, river conservancy, tuberculosis sanitarium and any other municipal corporations or districts with the power to levy taxes.

(u) "Taxing districts' capital costs" means those costs of taxing districts for capital improvements that are found by the municipal corporate authorities to be necessary and directly result from the redevelopment project.

(v) As used in subsection (a) of Section 11-74.4-3 of this Act, "vacant land" means any parcel or combination of parcels of real property without industrial, commercial, and residential buildings which has not been used for commercial agricultural purposes within 5 years prior to the designation of the redevelopment project area, unless the parcel is included in an industrial park conservation area or the parcel has been subdivided; provided that if the parcel was part of a larger tract that has been divided into 3 or more smaller tracts that were accepted for recording during the period from 1950 to 1990, then the parcel shall be deemed to have been subdivided, and all proceedings and actions of the municipality taken in that connection with respect to any previously approved or designated redevelopment project area or amended redevelopment project area are hereby validated and hereby declared to be legally sufficient for all purposes of this Act. For purposes of this Section and only for land subject to the subdivision requirements of the Plat Act, land is subdivided when the original plat of the proposed Redevelopment Project Area or

relevant portion thereof has been properly certified, acknowledged, approved, and recorded or filed in accordance with the Plat Act and a preliminary plat, if any, for any subsequent phases of the proposed Redevelopment Project Area or relevant portion thereof has been properly approved and filed in accordance with the applicable ordinance of the municipality.

(w) "Annual Total Increment" means the sum of each municipality's annual Net Sales Tax Increment and each municipality's annual Net Utility Tax Increment. The ratio of the Annual Total Increment of each municipality to the Annual Total Increment for all municipalities, as most recently calculated by the Department, shall determine the proportional shares of the Illinois Tax Increment Fund to be distributed to each municipality.

Upon adoption of the ordinances, the municipality shall forthwith transmit to the county clerk of the county or counties within which the redevelopment project area is located a certified copy of the ordinances, a legal description of the redevelopment project area, a map of the redevelopment project area, identification of the year that the county clerk shall use for determining the total initial equalized assessed value of the redevelopment project area consistent with subsection (a) of Section 11-74.4-9, and a list of the parcel or tax identification number of each parcel of property included in the redevelopment project area.

(b) Make and enter into all contracts with property owners, developers, tenants, overlapping taxing bodies, and others necessary or incidental to the implementation and furtherance of its redevelopment plan and project. Payments received under contracts entered into by the municipality prior to the effective date of this amendatory Act of the 93rd General Assembly that are received after the redevelopment project area has been terminated by municipal ordinance shall be deposited into a special fund of the municipality to be used for other community redevelopment needs within the redevelopment project area.

No conveyance, lease, mortgage, disposition of land or other property owned by a municipality, or agreement relating to the development of such municipal property shall be made except upon the adoption of an ordinance by the corporate authorities of the municipality. Furthermore, no conveyance, lease, mortgage, or other disposition of land

owned by a municipality or agreement relating to the development of such
municipal property shall be made without making public disclosure of the
terms of the disposition and all bids and proposals made in response to the
municipality's request. The procedures for obtaining such bids and

alternative proposals or bids.

(d) Within a redevelopment project area, clear any area by
demolition or removal of any existing buildings and structures.

(e) Within a redevelopment project area, renovate or rehabilitate or
construct any structure or building, as permitted under this Act.

(f) Install, repair, construct, reconstruct or relocate streets, utilities

project redevelopment area.

who incur redevelopment project costs authorized by a redevelopment
agreement; provided, however, that on and after the effective date of this
amendatory Act of the 91st General Assembly, no municipality shall incur
redevelopment project costs (except for planning costs and any other
eligible costs authorized by municipal ordinance or resolution that are
subsequently included in the redevelopment plan for the area and are
incurred by the municipality after the ordinance or resolution is adopted)
that are not consistent with the program for accomplishing the objectives
of the redevelopment plan as included in that plan and approved by the
municipality until the municipality has amended the redevelopment plan as
provided elsewhere in this Act.

(k) Create a commission of not less than 5 or more than 15 persons

(m) Exercise any and all other powers necessary to effectuate the purposes of this Act.

(n) If any member of the corporate authority, a member of a commission established pursuant to Section 11-74.4-4(k) of this Act, or an employee or consultant of the municipality involved in the planning and preparation of a redevelopment plan, or project for a redevelopment project area or proposed redevelopment project area, as defined in Sections 11-74.4-3(i) through (k) of this Act, owns or controls an interest, direct or indirect, in any property included in any redevelopment area, or proposed redevelopment area, he or she shall disclose the same in writing to the clerk of the municipality, and shall also so disclose the dates and terms and conditions of any disposition of any such interest, which disclosures shall be acknowledged by the corporate authorities and entered upon the minute books of the corporate authorities. If an individual holds such an interest then that individual shall refrain from any further official involvement in regard to such redevelopment plan, project or area, from voting on any matter pertaining to such redevelopment plan, project or area, or communicating with other members concerning corporate authorities, commission or employees concerning any matter pertaining to said redevelopment plan, project or area. Section 15. The Sexual Assault Survivors Emergency Treatment Act is amended by changing Sections 2.2, 5, and 6.4 as follows:

(410 ILCS 70/2.2)
Sec. 2.2. Emergency contraception.
(a) The General Assembly finds:
(1) Crimes of sexual violence cause significant physical, emotional, and psychological trauma to the victims. This trauma is compounded by a victim's fear of becoming pregnant and bearing a child as a result of the sexual assault.
(2) Each year over 32,000 women become pregnant in the United States as the result of rape and approximately 50% of these pregnancies end in abortion.
(3) As approved for use by the Federal Food and Drug Administration (FDA), emergency contraception can significantly reduce the risk of pregnancy if taken within 72 hours after the sexual assault.
(4) By providing emergency contraception to rape victims in a timely manner, the trauma of rape can be significantly reduced.
(b) Within 120 days after the effective date of this amendatory Act of the 92nd General Assembly, every hospital providing services to alleged sexual assault survivors in accordance with a plan approved under Section 2 must develop a protocol that ensures that each survivor of sexual assault will receive medically and factually accurate and written and oral information about emergency contraception; the indications and counterindications and risks associated with the use of emergency contraception; and a description of how and when victims may be provided emergency contraception upon the written order of a physician licensed to practice medicine in all its branches, an advanced practice nurse who has a written collaborative agreement with a collaborating physician that authorizes prescription of emergency contraception, or a physician assistant who has been delegated authority to prescribe emergency contraception. The Department shall approve the protocol if it finds that the implementation of the protocol would provide sufficient protection for survivors of an alleged sexual assault.

The hospital shall implement the protocol upon approval by the Department. The Department shall adopt rules and regulations establishing one or more safe harbor protocols and setting minimum acceptable protocol standards that hospitals may develop and implement.
