**EFFECTIVE DATES OF PUBLIC ACTS**

---

**1970 CONSTITUTION, ARTICLE IV**

"§ 10. Effective Date of Laws

The General Assembly shall provide by law for a uniform effective date for laws passed prior to July 1 of a calendar year. The General Assembly may provide for a different effective date in any law passed prior to July 1. A bill passed after June 30 shall not become effective prior to July 1 of the next calendar year unless the General Assembly by the vote of three-fifths of the members elected to each house provides for an earlier effective date."

**5 ILLINOIS COMPiled STATUTES CHAPTER 75**

75/1. Effective Date of Laws

"§1 (a) A bill passed after June 30 of a calendar year shall become effective on July 1 of the next calendar year unless the General Assembly by a vote of three-fifths of the members elected to each house provides for an earlier effective date in the terms of the bill or unless the General Assembly provides for a later effective date in the terms of the bill; provided that if the effective date provided in the terms of the bill is prior to the date the bill becomes a law then the date the bill becomes a law shall be the effective date." (a) A bill passed prior to July 1 of a calendar year that does not provide for an effective date in the terms of the bill shall become effective on January 1 of the following year, or upon its becoming a law, whichever is later.

(b) A bill passed prior to July 1 of a calendar year that does provide for an effective date in the terms of the bill shall become effective on that date if that date is the same as or subsequent to the date the bill becomes a law; provided that if the effective date provided in the terms of the bill is prior to the date the bill becomes a law then the date the bill becomes a law shall be the effective date."

75/2. Special Effective Dates

"§2 A bill passed after June 30 of a calendar year shall become effective on July 1 of the next calendar year unless the General Assembly by a vote of three-fifths of the members elected to each house provides for an earlier effective date in the terms of the bill or unless the General Assembly provides for a later effective date in the terms of the bill; provided that if the effective date provided in the terms of the bill is prior to the date the bill becomes a law then the date the bill becomes a law shall be the effective date."

Revenue Fund to the Common School Fund 1/24 or so much thereof as may be necessary of the amount appropriated to the State Board of Education for distribution to all school districts from such Common School Fund, for fiscal year 1994, including interest on the School Fund proportionate for that distribution for such year; and on or before the 21st day of August, 1993 at a time or times designated by the Governor, the State Treasurer and the State Comptroller shall transfer from the General Revenue Fund to the Common School Fund 3/24 or so much thereof as may be necessary of the amount appropriated to the State Board of Education for distribution to all school districts from the Common School Fund, for fiscal year 1994, including interest proportionate for that distribution on the School Fund for such fiscal year.

The amounts of the payments made in July of each year: (i) shall be considered an outstanding liability as of the 30th day of June immediately preceding those July payments, within the meaning of Section 25 of this Act; (ii) shall be payable from the appropriation for the fiscal year that ended on that 30th day of June; and (iii) shall be considered payments for claims covering the school year that commenced during the immediately preceding calendar year.

Notwithstanding the foregoing provisions of this subsection, as soon as may be after the 10th and 20th days of each of the months of August through May, 1/24, and on or as soon as may be after the 10th and 20th days of June, 1/12 of the annual amount appropriated to the State Board of Education for distribution and payment during that fiscal year from the Common School Fund to and for the benefit of the Teachers' Retirement System of the State of Illinois (until the end of State fiscal year 1995) and the Public School Teachers' Pension and Retirement Fund of Chicago as provided by the Illinois Pension Code and Section 18-7 of the School Code, or so much thereof as may be necessary, shall be transferred by the State Treasurer and the State Comptroller from the General Revenue Fund to the Common School Fund to permit semi-monthly payments from the Common School Fund to and for the benefit of such teacher retirement systems as required by Section 18-7 of the School Code.

Notwithstanding the other provisions of this Section, on or as soon as may be after the 15th day of each month, beginning in July of 1995, 1/12 of the annual amount appropriated for that fiscal year from the Common School Fund to the Teachers' Retirement System of the State of Illinois (other than amounts appropriated under Section 1.1 of the State

Amounts appropriated to the Teachers' Retirement System of the State of Illinois under Section 1.1 of the State Pension Funds Continuing Appropriation Act shall be transferred by the State Treasurer and the State Comptroller from the General Revenue Fund to the Common School Fund as necessary to provide for the payment of vouchers drawn against those appropriations.

The Governor may notify the State Treasurer and the State Comptroller to transfer, at a time designated by the Governor, such additional amount as may be necessary to effect advance distribution to school districts of amounts that otherwise would be payable in the next month pursuant to Sections 18-8 through 18-10 of the School Code. The State Treasurer and the State Comptroller shall thereupon transfer such additional amount. The aggregate amount transferred from the General Revenue Fund to the Common School Fund in the eleven months beginning August 1 of any fiscal year shall not be in excess of the amount necessary for payment of claims certified by the State Superintendent of Education pursuant to the appropriation of the Common School Fund for that fiscal year. Notwithstanding the provisions of the first paragraph in this section, no transfer to effect an advance distribution shall be made in any month except on notification, as provided above, by the Governor.

The State Comptroller and State Treasurer shall transfer from the General Revenue Fund to the Common School Fund and the Education Assistance Fund such amounts as may be required to honor the vouchers presented by the State Board of Education pursuant to Sections 18-3, 18-4.3, 18-5, 18-6 and 18-7 of the School Code.

The State Comptroller shall report all transfers provided for in this Act to the President of the Senate, Minority Leader of the Senate, Speaker of the House, and Minority Leader of the House.

(b) On or before the 11th and 21st days of each of the months of June, 1982 through July, 1983, at a time or times designated by the Governor, the State Treasurer and the State Comptroller shall transfer from the General Revenue Fund to the Common School Fund 1/24 or so much thereof as may be necessary of the amount appropriated to the State Board of Education for distribution from such Common School Fund, for that same fiscal year, including interest on the School Fund for such year. The amounts of the payments in the months of July, 1982 and July, 1983 shall be considered an outstanding liability as of the 30th day of June immediately preceding such July payment, within the meaning of Section 25 of this Act, and shall be payable from the appropriation for the fiscal year which ended on such 30th day of June, and such July payments shall be considered payments for claims covering school years 1981-1982 and 1982-1983 respectively.

In the event the Governor makes notification to effect advanced distribution under the provisions of subsection (a) of this Section, the aggregate amount transferred from the General Revenue Fund to the Common School Fund in the 12 months beginning August 1, 1981 or the 12 months beginning August 1, 1982 shall not be in excess of the amount necessary for payment of claims certified by the State Superintendent of Education pursuant to the appropriation of the Common School Fund for the fiscal years commencing on the first of July of the years 1981 and 1982.

continuing appropriation for this purpose contained in the State Pension Funds Continuing Appropriation Act.

(a-1) Beginning on the effective date of this amendatory Act of the 93rd General Assembly through the payment of the final payroll from fiscal year 2004 appropriations, appropriations for State contributions to the State Employees' Retirement System of Illinois shall be expended in the manner provided in this subsection (a-1). At the time of each payment of salary to an employee under the personal services line item from a fund other than the General Revenue Fund, payment shall be made for deposit into the General Revenue Fund from the amount appropriated for State contributions to the State Employees' Retirement System of an amount calculated at the rate certified for fiscal year 2004 by the Board of Trustees of the State Employees' Retirement System under Section 14-135.08 of the Illinois Pension Code. (b) Except during the period beginning on the effective date of this amendatory Act of the 93rd General Assembly and ending at the time of the payment of the final payroll from fiscal year 2004 appropriations, the State Comptroller shall not approve for payment any payroll voucher that (1) includes payments of salary to eligible employees in the State Employees' Retirement System of Illinois and (2) does not include the corresponding payment of State contributions to that retirement system at the full rate certified under Section 14-135.08 for that fiscal year for eligible employees, unless the balance in the fund on which the payroll voucher is drawn is insufficient to pay the total payroll voucher. If the State Comptroller approves a payroll voucher under this Section for which the fund balance is insufficient to pay the full amount of the required State contribution to the State Employees' Retirement System, the Comptroller shall promptly so notify the Retirement System.

Section 10. The General Obligation Bond Act is amended by changing Section 7.2 as follows:

(30 ILCS 330/7.2)

Sec. 7.2. State pension funding.

New matter indicated by italics - deletions by strikeout.
(a) The amount of $10,000,000,000 is authorized to be used for the purpose of making contributions to the designated retirement systems. For the purposes of this Section, "designated retirement systems" means the State Employees’ Retirement System of Illinois; the Teachers’ Retirement System of the State of Illinois; the State Universities Retirement System; the Judges Retirement System of Illinois; and the General Assembly Retirement System.

(b) The Pension Contribution Fund is created as a special fund in the State Treasury.

The proceeds of the additional $10,000,000,000 of Bonds authorized by this amendatory Act of the 93rd General Assembly, less the amounts authorized in the Bond Sale Order to be deposited directly into the capitalized interest account of the General Obligation Bond Retirement and Interest Fund or otherwise directly paid out for bond sale expenses under Section 8, shall be deposited into the Pension Contribution Fund and used as provided in this Section.

(c) Of the amount of Bond proceeds first deposited into the Pension Contribution Fund, there shall be reserved for transfers under this subsection the sum of $300,000,000, representing the required State contributions to the designated retirement systems for the last quarter of State fiscal year 2003, plus the sum of $1,860,000,000, representing the required State contributions to the designated retirement systems for State fiscal year 2004.

Upon the deposit of sufficient moneys into the Pension Contribution Fund, the Comptroller and Treasurer shall immediately transfer the sum of $300,000,000 from the Pension Contribution Fund to the General Revenue Fund.

Whenever any payment of required State contributions for State fiscal year 2004 is made to one of the designated retirement systems, the Comptroller and Treasurer shall, as soon as practicable, transfer from the Pension Contribution Fund to the General Revenue Fund an amount equal to the amount of that payment to the designated retirement system. Beginning on the effective date of this amendatory Act of the 93rd General Assembly, the transfers from the Pension Contribution Fund to the General Revenue Fund shall be suspended until June 30, 2004, and the remaining balance in the Pension Contribution Fund shall be transferred directly to the designated retirement systems as provided in Section 6z-61 of the State Finance Act. On and after July 1, 2004, in the event that any amount is on deposit in the Pension Contribution Fund from time to time
If the amount reserved for these transfers exceeds the total amount of fiscal year 2004 payments of required State contributions to the designated retirement systems, the Comptroller and Treasurer shall continue to make such transfers based on fiscal year 2005 payments until the entire amount on deposit reserved has been transferred.

(d) All amounts deposited into the Pension Contribution Fund, other than the amounts reserved for the transfers under subsection (c), shall be appropriated to the designated retirement systems to reduce their actuarial reserve deficiencies. The amount of the appropriation to each designated retirement system shall constitute a portion of the total appropriation under this subsection that is the same as that retirement system's portion of the total actuarial reserve deficiency of the systems, as most recently determined by the Governor's Office of Management and Budget Bureau of the Budget under Section 8.12 of the State Finance Act.

Within 15 days after any Bond proceeds in excess of the amounts initially reserved under subsection (c) are deposited into the Pension Contribution Fund, the Governor's Office of Management and Budget Bureau of the Budget shall (i) allocate those proceeds among the designated retirement systems in proportion to their respective actuarial reserve deficiencies, as most recently determined under Section 8.12 of the State Finance Act, and (ii) certify those allocations to the designated retirement systems and the Comptroller.

Upon receiving certification of an allocation under this subsection, a designated retirement system shall submit to the Comptroller a voucher for the amount of its allocation. The voucher shall be paid out of the amount appropriated to that designated retirement system from the Pension Contribution Fund pursuant to this subsection.

System for State fiscal year 2005, taking into account the amounts appropriated to and received by the System under subsection (d) of Section 7.2 of the General Obligation Bond Act.

(b) Beginning in State fiscal year 1996, on or as soon as possible after the 15th day of each month the Board shall submit vouchers for payment of State contributions to the System, in a total monthly amount of one-twelfth of the required annual State contribution certified under subsection (a). From the effective date of this amendatory Act of the 93rd General Assembly through June 30, 2004, the Board shall not submit vouchers for the remainder of fiscal year 2004 in excess of the fiscal year 2004 certified contribution amount determined under this Section after taking into consideration the transfer to the System under subsection (d) of Section 6z-61 of the State Finance Act. These vouchers shall be paid by the State Comptroller and Treasurer by warrants drawn on the funds appropriated to the System for that fiscal year. If in any month the amount remaining unexpended from all other appropriations to the System for the applicable fiscal year (including the appropriations to the System under Section 8.12 of the State Finance Act and Section 1 of the State Pension Funds Continuing Appropriation Act) is less than the amount lawfully vouchered under this Section, the difference shall be paid from the General Revenue Fund under the continuing appropriation authority provided in Section 1.1 of the State Pension Funds Continuing Appropriation Act.

(c) The full amount of any annual appropriation for the System for State fiscal year 1995 shall be transferred and made available to the System at the beginning of that fiscal year at the request of the Board. Any excess funds remaining at the end of any fiscal year from appropriations shall be retained by the System as a general reserve to meet the System's accrued liabilities.

(40 ILCS 5/14-131) (from Ch. 108 1/2, par. 14-131)
Sec. 14-131. Contributions by State.

(a) The State shall make contributions to the System by appropriations of amounts which, together with other employer contributions from trust, federal, and other funds, employee contributions, investment income, and other income, will be sufficient to meet the cost of maintaining and administering the System on a 90% funded basis in accordance with actuarial recommendations.

For the purposes of this Section and Section 14-135.08, references to State contributions refer only to employer contributions and do not

include employee contributions that are picked up or otherwise paid by the State or a department on behalf of the employee.  

(b) The Board shall determine the total amount of State contributions required for each fiscal year on the basis of the actuarial tables and other assumptions adopted by the Board, using the formula in subsection (c).

The Board shall also determine a State contribution rate for each fiscal year, expressed as a percentage of payroll, based on the total required State contribution for that fiscal year (less the amount received by the System from appropriations under Section 8.12 of the State Finance Act and Section 1 of the State Pension Funds Continuing Appropriation Act, if any, for the fiscal year ending on the June 30 immediately preceding the applicable November 15 certification deadline), the estimated payroll (including all forms of compensation) for personal services rendered by eligible employees, and the recommendations of the actuary.

For the purposes of this Section and Section 14.1 of the State Finance Act, the term "eligible employees" includes employees who participate in the System, persons who may elect to participate in the System but have not so elected, persons who are serving a qualifying period that is required for participation, and annuitants employed by a department as described in subdivision (a)(1) or (a)(2) of Section 14-111.

(c) Contributions shall be made by the several departments for each pay period by warrants drawn by the State Comptroller against their respective funds or appropriations based upon vouchers stating the amount to be so contributed. These amounts shall be based on the full rate certified by the Board under Section 14-135.08 for that fiscal year. From the effective date of this amendatory Act of the 93rd General Assembly through the payment of the final payroll from fiscal year 2004 appropriations, the several departments shall not make contributions for the remainder of fiscal year 2004 but shall instead make payments as required under subsection (a-1) of Section 14.1 of the State Finance Act. The several departments shall resume those contributions at the commencement of fiscal year 2005.

(d) If an employee is paid from trust funds or federal funds, the department or other employer shall pay employer contributions from those funds to the System at the certified rate, unless the terms of the trust or the federal-State agreement preclude the use of the funds for that purpose, in which case the required employer contributions shall be paid by the State. From the effective date of this amendatory Act of the 93rd General

Assembly through the payment of the final payroll from fiscal year 2004 appropriations, the department or other employer shall not pay contributions for the remainder of fiscal year 2004 but shall instead make payments as required under subsection (a-1) of Section 14.1 of the State Finance Act. The department or other employer shall resume payment of contributions at the commencement of fiscal year 2005.

(e) For State fiscal years 2011 through 2045, the minimum contribution to the System to be made by the State for each fiscal year shall be an amount determined by the System to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of State fiscal year 2045. In making these determinations, the required State contribution shall be calculated each year as a level percentage of payroll over the years remaining to and including fiscal year 2045 and shall be determined under the projected unit credit actuarial cost method.

For State fiscal years 1996 through 2010, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments so that by State fiscal year 2011, the State is contributing at the rate required under this Section; except that (i) for State fiscal year 1998, for all purposes of this Code and any other law of this State, the certified percentage of the applicable employee payroll shall be 5.052% for employees earning eligible creditable service under Section 14-110 and 6.500% for all other employees, notwithstanding any contrary certification made under Section 14-135.08 before the effective date of this amendatory Act of 1997, and (ii) in the following specified State fiscal years, the State contribution to the System shall not be less than the following indicated percentages of the applicable employee payroll, even if the indicated percentage will produce a State contribution in excess of the amount otherwise required under this subsection and subsection (a): 9.8% in FY 1999; 10.0% in FY 2000; 10.2% in FY 2001; 10.4% in FY 2002; 10.6% in FY 2003; and 10.8% in FY 2004.

Beginning in State fiscal year 2046, the minimum State contribution for each fiscal year shall be the amount needed to maintain the total assets of the System at 90% of the total actuarial liabilities of the System.

Notwithstanding any other provision of this Section, the required State contribution for State fiscal year 2005 and each fiscal year thereafter, as calculated under this Section and certified under Section 14-135.08, shall not exceed an amount equal to (i) the amount of the required State

New matter indicated by italics - deletions by strikeout.
contribution that would have been calculated under this Section for that fiscal year if the System had not received any payments under subsection (d) of Section 7.2 of the General Obligation Bond Act, minus (ii) the portion of the State's total debt service payments for that fiscal year on the bonds issued for the purposes of that Section 7.2, as determined and certified by the Comptroller, that is the same as the System's portion of the total moneys distributed under subsection (d) of Section 7.2 of the General Obligation Bond Act.

(f) After the submission of all payments for eligible employees from personal services line items in fiscal year 2004 have been made, the Comptroller shall provide to the System a certification of the sum of all fiscal year 2004 expenditures for personal services that would have been covered by payments to the System under this Section if the provisions of this amendatory Act of the 93rd General Assembly had not been enacted. Upon receipt of the certification, the System shall determine the amount due to the System based on the full rate certified by the Board under Section 14-135.08 for fiscal year 2004 in order to meet the State's obligation under this Section. The System shall compare this amount due to the amount received by the System in fiscal year 2004 through payments under this Section and under Section 6z-61 of the State Finance Act. If the amount due is more than the amount received, the difference shall be termed the "Fiscal Year 2004 Shortfall" for purposes of this Section, and the Fiscal Year 2004 Shortfall shall be satisfied under Section 1.2 of the State Pension Funds Continuing Appropriation Act. If the amount due is less than the amount received, the difference shall be termed the "Fiscal Year 2004 Overpayment" for purposes of this Section, and the Fiscal Year 2004 Overpayment shall be repaid by the System to the Pension Contribution Fund as soon as practicable after the certification.

Sec. 16-158. Contributions by State and other employing units.

(a) The State shall make contributions to the System by means of appropriations from the Common School Fund and other State funds of amounts which, together with other employer contributions, employee contributions, investment income, and other income, will be sufficient to meet the cost of maintaining and administering the System on a 90% funded basis in accordance with actuarial recommendations.

The Board shall determine the amount of State contributions required for each fiscal year on the basis of the actuarial tables and other
assumptions adopted by the Board and the recommendations of the actuary, using the formula in subsection (b-3).

(a-1) Annually, on or before November 15, the Board shall certify to the Governor the amount of the required State contribution for the coming fiscal year. The certification shall include a copy of the actuarial recommendations upon which it is based.

On or before May 1, 2004, the Board shall recalculate and recertify to the Governor the amount of the required State contribution to the System for State fiscal year 2005, taking into account the amounts appropriated to and received by the System under subsection (d) of Section 7.2 of the General Obligation Bond Act.

(b) Through State fiscal year 1995, the State contributions shall be paid to the System in accordance with Section 18-7 of the School Code.

(b-1) Beginning in State fiscal year 1996, on the 15th day of each month, or as soon thereafter as may be practicable, the Board shall submit vouchers for payment of State contributions to the System, in a total monthly amount of one-twelfth of the required annual State contribution certified under subsection (a-1). From the effective date of this amendatory Act of the 93rd General Assembly through June 30, 2004, the Board shall not submit vouchers for the remainder of fiscal year 2004 in excess of the fiscal year 2004 certified contribution amount determined under this Section after taking into consideration the transfer to the System under subsection (a) of Section 6z-61 of the State Finance Act. These vouchers shall be paid by the State Comptroller and Treasurer by warrants drawn on the funds appropriated to the System for that fiscal year.

If in any month the amount remaining unexpended from all other appropriations to the System for the applicable fiscal year (including the appropriations to the System under Section 8.12 of the State Finance Act and Section 1 of the State Pension Funds Continuing Appropriation Act) is less than the amount lawfully vouchered under this subsection, the difference shall be paid from the Common School Fund under the continuing appropriation authority provided in Section 1.1 of the State Pension Funds Continuing Appropriation Act.

(b-2) Allocations from the Common School Fund apportioned to school districts not coming under this System shall not be diminished or affected by the provisions of this Article.

(b-3) For State fiscal years 2011 through 2045, the minimum contribution to the System to be made by the State for each fiscal year shall be an amount determined by the System to be sufficient to bring the

total assets of the System up to 90% of the total actuarial liabilities of the System by the end of State fiscal year 2045. In making these determinations, the required State contribution shall be calculated each year as a level percentage of payroll over the years remaining to and including fiscal year 2045 and shall be determined under the projected unit credit actuarial cost method.

For State fiscal years 1996 through 2010, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments so that by State fiscal year 2011, the State is contributing at the rate required under this Section; except that in the following specified State fiscal years, the State contribution to the System shall not be less than the following indicated percentages of the applicable employee payroll, even if the indicated percentage will produce a State contribution in excess of the amount otherwise required under this subsection and subsection (a), and notwithstanding any contrary certification made under subsection (a-1) before the effective date of this amendatory Act of 1998: 10.02% in FY 1999; 10.77% in FY 2000; 11.47% in FY 2001; 12.16% in FY 2002; 12.86% in FY 2003; and 13.56% in FY 2004.

Beginning in State fiscal year 2046, the minimum State contribution for each fiscal year shall be the amount needed to maintain the total assets of the System at 90% of the total actuarial liabilities of the System.

Notwithstanding any other provision of this Section, the required State contribution for State fiscal year 2005 and each fiscal year thereafter, as calculated under this Section and certified under subsection (a-1), shall not exceed an amount equal to (i) the amount of the required State contribution that would have been calculated under this Section for that fiscal year if the System had not received any payments under subsection (d) of Section 7.2 of the General Obligation Bond Act, minus (ii) the portion of the State's total debt service payments for that fiscal year on the bonds issued for the purposes of that Section 7.2, as determined and certified by the Comptroller, that is the same as the System's portion of the total moneys distributed under subsection (d) of Section 7.2 of the General Obligation Bond Act.

(c) Payment of the required State contributions and of all pensions, retirement annuities, death benefits, refunds, and other benefits granted under or assumed by this System, and all expenses in connection with the administration and operation thereof, are obligations of the State.

If members are paid from special trust or federal funds which are
administered by the employing unit, whether school district or other unit,
the employing unit shall pay to the System from such funds the full
accruing retirement costs based upon that service, as determined by the
System. Employer contributions, based on salary paid to members from
federal funds, may be forwarded by the distributing agency of the State of
Illinois to the System prior to allocation, in an amount determined in
accordance with guidelines established by such agency and the System.

(d) Effective July 1, 1986, any employer of a teacher as defined in
paragraph (8) of Section 16-106 shall pay the employer's normal cost of
benefits based upon the teacher's service, in addition to employee
contributions, as determined by the System. Such employer contributions
shall be forwarded monthly in accordance with guidelines established by
the System.

However, with respect to benefits granted under Section 16-133.4
or 16-133.5 to a teacher as defined in paragraph (8) of Section 16-106, the
employer's contribution shall be 12% (rather than 20%) of the member's
highest annual salary rate for each year of creditable service granted, and
the employer shall also pay the required employee contribution on behalf
of the teacher. For the purposes of Sections 16-133.4 and 16-133.5, a
teacher as defined in paragraph (8) of Section 16-106 who is serving in
that capacity while on leave of absence from another employer under this
Article shall not be considered an employee of the employer from which
the teacher is on leave.

(e) Beginning July 1, 1998, every employer of a teacher shall pay
to the System an employer contribution computed as follows:

(1) Beginning July 1, 1998 through June 30, 1999, the
employer contribution shall be equal to 0.3% of each teacher's
salary.

(2) Beginning July 1, 1999 and thereafter, the employer
contribution shall be equal to 0.58% of each teacher's salary.
The school district or other employing unit may pay these employer
contributions out of any source of funding available for that purpose and
shall forward the contributions to the System on the schedule established
for the payment of member contributions.

These employer contributions are intended to offset a portion of the
cost to the System of the increases in retirement benefits resulting from
this amendatory Act of 1998.

Each employer of teachers is entitled to a credit against the contributions required under this subsection (e) with respect to salaries paid to teachers for the period January 1, 2002 through June 30, 2003, equal to the amount paid by that employer under subsection (a-5) of Section 6.6 of the State Employees Group Insurance Act of 1971 with respect to salaries paid to teachers for that period.

The additional 1% employee contribution required under Section 16-152 by this amendatory Act of 1998 is the responsibility of the teacher and not the teacher's employer, unless the employer agrees, through collective bargaining or otherwise, to make the contribution on behalf of the teacher.

If an employer is required by a contract in effect on May 1, 1998 between the employer and an employee organization to pay, on behalf of all its full-time employees covered by this Article, all mandatory employee contributions required under this Article, then the employer shall be excused from paying the employer contribution required under this subsection (e) for the balance of the term of that contract. The employer and the employee organization shall jointly certify to the System the existence of the contractual requirement, in such form as the System may prescribe. This exclusion shall cease upon the termination, extension, or renewal of the contract at any time after May 1, 1998.

Sec. 1.2. Appropriations for the State Employees' Retirement System.

(a) From each fund from which an amount is appropriated for personal services to a department or other employer under Article 14 of the Illinois Pension Code, there is hereby appropriated to that department or other employer, on a continuing annual basis for each State fiscal year,
an additional amount equal to the amount, if any, by which (1) an amount equal to the percentage of the personal services line item for that department or employer from that fund for that fiscal year that the Board of Trustees of the State Employees' Retirement System of Illinois has certified under Section 14-135.08 of the Illinois Pension Code to be necessary to meet the State's obligation under Section 14-131 of the Illinois Pension Code for that fiscal year, exceeds (2) the amounts otherwise appropriated to that department or employer from that fund for State contributions to the State Employees' Retirement System for that fiscal year. Section 5. The General Obligation Bond Act is amended by changing Section 9 as follows:

(30 ILCS 330/9) (from Ch. 127, par. 659)

New matter indicated by italics - deletions by strikeout.
Sec. 9. Conditions for Issuance and Sale of Bonds - Requirements for Bonds.

(a) Bonds shall be issued and sold from time to time, in one or more series, in such amounts and at such prices as may be directed by the Governor, upon recommendation by the Director of the Governor's Office of Management and Budget Bureau of the Budget. Bonds shall be in such form (either coupon, registered or book entry), in such denominations, payable within 30 years from their date, subject to such terms of redemption with or without premium, bear interest payable at such times and at such fixed or variable rate or rates, and be dated as shall be fixed and determined by the Director of the Governor's Office of Management and Budget Bureau of the Budget in the order authorizing the issuance and sale of any series of Bonds, which order shall be approved by the Governor and is herein called a "Bond Sale Order"; provided however, that interest payable at fixed or variable rates shall not exceed that permitted in the Bond Authorization Act, as now or hereafter amended. Bonds shall be payable at such place or places, within or without the State of Illinois, and may be made registrable as to either principal or as to both principal and interest, as shall be specified in the Bond Sale Order. Bonds may be callable or subject to purchase and retirement or tender and remarketing as fixed and determined in the Bond Sale Order.

In the case of any series of Bonds bearing interest at a variable interest rate ("Variable Rate Bonds"), in lieu of determining the rate or rates at which such series of Variable Rate Bonds shall bear interest and the price or prices at which such Variable Rate Bonds shall be initially sold or remarshaled (in the event of purchase and subsequent resale), the Bond Sale Order may provide that such interest rates and prices may vary from time to time depending on criteria established in such Bond Sale Order, which criteria may include, without limitation, references to indices or variations in interest rates as may, in the judgment of a remarketing agent, be necessary to cause Variable Rate Bonds of such series to be remarketable from time to time at a price equal to their principal amount, and may provide for appointment of a bank, trust company, investment bank, or other financial institution to serve as remarketing agent in that connection. The Bond Sale Order may provide that alternative interest rates or provisions for establishing alternative interest rates, different security or claim priorities, or different call or amortization provisions will apply during such times as Variable Rate Bonds of any series are held by a person providing credit or liquidity enhancement arrangements for such

Bonds as authorized in subsection (b) of this Section. The Bond Sale Order may also provide for such variable interest rates to be established pursuant to a process generally known as an auction rate process and may provide for appointment of one or more financial institutions to serve as auction agents and broker-dealers in connection with the establishment of such interest rates and the sale and remarketing of such Bonds.

(b) In connection with the issuance of any series of Bonds, the State may enter into arrangements to provide additional security and liquidity for such Bonds, including, without limitation, bond or interest rate insurance or letters of credit, lines of credit, bond purchase contracts, or other arrangements whereby funds are made available to retire or purchase Bonds, thereby assuring the ability of owners of the Bonds to sell or redeem their Bonds. The State may enter into contracts and may agree to pay fees to persons providing such arrangements, but only under circumstances where the Director of the Governor's Office of Management and Budget Bureau of the Budget certifies that he or she reasonably expects the total interest paid or to be paid on the Bonds, together with the fees for the arrangements (being treated as if interest), would not, taken together, cause the Bonds to bear interest, calculated to their stated maturity, at a rate in excess of the rate that the Bonds would bear in the absence of such arrangements.

The State may, with respect to Bonds issued or anticipated to be issued, participate in and enter into arrangements with respect to interest rate protection or exchange agreements, guarantees, or financial futures contracts for the purpose of limiting, reducing, or managing or restricting interest rate exposure risk. The authority granted under this paragraph, however, shall not increase the principal amount of Bonds authorized to be issued by law. The arrangements may be executed and delivered by the Director of the Governor's Office of Management and Budget Bureau of the Budget on behalf of the State. Net payments for such arrangements shall constitute interest on the Bonds and shall be paid from the General Obligation Bond Retirement and Interest Fund. The Director of the Governor's Office of Management and Budget Bureau of the Budget shall at least annually certify to the Governor and the State Comptroller his or her estimate of the amounts of such net payments to be included in the calculation of interest required to be paid by the State.

(c) Prior to the issuance of any Variable Rate Bonds pursuant to subsection (a), the Director of the Governor's Office of Management and Budget Bureau of the Budget shall adopt an interest rate risk management

policy providing that the amount of the State's variable rate exposure with respect to Bonds shall not exceed 20%. This policy shall remain in effect while any Bonds are outstanding and the issuance of Bonds shall be subject to the terms of such policy. The terms of this policy may be amended from time to time by the Director of the Governor's Office of Management and Budget but in no event shall any amendment cause the permitted level of the State's variable rate exposure with respect to Bonds to exceed 20%.

of this suspension, a permit may be issued for the remainder of the suspension period.

Any person who falsely states any fact in the affidavit required herein shall be guilty of perjury under Section 6-302 and upon conviction thereof shall have all driving privileges revoked without further rights.

3. At the conclusion of a hearing under Section 2-118 of this Code, the Secretary of State shall either rescind or continue an order of revocation or shall substitute an order of suspension; or, good cause appearing therefor, rescind, continue, change, or extend the order of suspension. If the Secretary of State does not rescind the order, the Secretary may upon application, to relieve undue hardship, issue a restricted driving permit granting the privilege of driving a motor vehicle between the petitioner's residence and petitioner's place of employment or within the scope of his employment related duties, or to allow transportation for the petitioner, or a household member of the petitioner's family, to receive necessary medical care and if the professional evaluation indicates, provide transportation for alcohol remedial or rehabilitative activity, or for the petitioner to attend classes, as a student, in an accredited educational institution; if the petitioner is able to demonstrate that no alternative means of transportation is reasonably available and the petitioner will not endanger the public safety or welfare.

If a person's license or permit has been revoked or suspended due to 2 or more convictions of violating Section 11-501 of this Code or a similar provision of a local ordinance or a similar out-of-state offense, arising out of separate occurrences, that person, if issued a restricted driving permit, may not operate a vehicle unless it has been equipped with an ignition interlock device as defined in Section 1-129.1.

If a person's license or permit has been revoked or suspended 2 or more times within a 10 year period due to a single conviction of violating Section 11-501 of this Code or a similar provision of a local ordinance or a similar out-of-state offense, and
a statutory summary suspension under Section 11-501.1, or 2 or more statutory summary suspensions, or combination of 2 offenses, or of an offense and a statutory summary suspension, arising out of separate occurrences, that person, if issued a restricted driving permit, may not operate a vehicle unless it has been equipped with an ignition interlock device as defined in Section 1-129.1. The person must pay to the Secretary of State DUI Administration Fund an amount not to exceed $20 per month. The Secretary shall establish by rule the amount and the procedures, terms, and conditions relating to these fees. If the restricted driving permit was issued for employment purposes, then this provision does not apply to the operation of an occupational vehicle owned or leased by that person's employer. In each case the Secretary may issue a restricted driving permit for a period deemed appropriate, except that all permits shall expire within one year from the date of issuance. The Secretary may not, however, issue a restricted driving permit to any person whose current revocation is the result of a second or subsequent conviction for a violation of Section 11-501 of this Code or a similar provision of a local ordinance relating to the offense of operating or being in physical control of a motor vehicle while under the influence of alcohol, other drug or drugs, intoxicating compound or compounds, or any similar out-of-state offense, or any combination of those offenses, until the expiration of at least one year from the date of the revocation. A restricted driving permit issued under this Section shall be subject to cancellation, revocation, and suspension by the Secretary of State in like manner and for like cause as a driver's license issued under this Code may be cancelled, revoked, or suspended; except that a conviction upon one or more offenses against laws or ordinances regulating the movement of traffic shall be deemed sufficient cause for the revocation, suspension, or cancellation of a restricted driving permit. The Secretary of State may, as a condition to the issuance of a restricted driving permit, require the applicant to participate in a designated driver remedial or rehabilitative program. The Secretary of State is authorized to cancel a restricted driving permit if the permit holder does not successfully complete the program.

(c-5) The Secretary of State may, as a condition of the reissuance of a driver's license or permit to an applicant whose driver's license or

permit has been suspended before he or she reached the age of 18 years pursuant to any of the provisions of this Section, require the applicant to participate in a driver remedial education course and be retested under Section 6-109 of this Code.

(d) This Section is subject to the provisions of the Drivers License Compact.

(e) The Secretary of State shall not issue a restricted driving permit to a person under the age of 16 years whose driving privileges have been suspended or revoked under any provisions of this Code.

Section 5. The Trusts and Trustees Act is amended by adding Section 15.2 as follows:

(760 ILCS 5/15.2 new)
Sec. 15.2. Trusts for domestic or pet animals.
(a) A trust for the care of one or more designated domestic or pet animals is valid. The trust terminates when no living animal is covered by the trust. A governing instrument shall be liberally construed to bring the transfer within this Section, to presume against a merely precatory or honorary nature of its disposition, and to carry out the general intent of the transferor. Extrinsic evidence is admissible in determining the transferor’s intent.

(b) A trust for the care of one or more designated domestic or pet animals is subject to the following provisions:

(1) Except as expressly provided otherwise in the instrument creating the trust, no portion of the principal or income of the trust may be converted to the use of the trustee or to a use other than for the trust’s purposes or for the benefit of a covered animal.

(2) Upon termination, the trustee shall transfer the unexpended trust property in the following order:

(A) as directed in the trust instrument;

(B) if there is no such direction in the trust instrument and if the trust was created in a non-residuary clause in the transferor’s will, then under the residuary clause in the transferor’s will; or

(3) The intended use of the principal or income may be enforced by an individual designated for that purpose in the trust instrument or, if none, by an individual appointed by a court having jurisdiction of the matter and parties, upon petition to it by an individual.

(4) Except as ordered by the court or required by the trust instrument, no filing, report, registration, periodic accounting, separate maintenance of funds, appointment, or fee is required by reason of the existence of the fiduciary relationship of the trustee.

(5) The court may reduce the amount of the property transferred if it determines that the amount substantially exceeds the amount required for the intended use. The amount of the reduction, if any, passes as unexpended trust property under paragraph (2).

(6) If a trustee is not designated or no designated trustee is willing and able to serve, the court shall name a trustee. The court may order the transfer of the property to another trustee if the transfer is necessary to ensure that the intended use is carried out, and if a successor trustee is not designated in the trust instrument or if no designated successor trustee agrees to serve and is able to serve. The court may also make other orders and determinations as are advisable to carry out the intent of the transferor and the purpose of this Section.

   (1) That USEPA has issued a Final Rule published in the Federal Register on October 27, 1998, entitled "Finding of Significant Contribution and Rulemaking for Certain States in the Ozone Transport Assessment Group Region for Purposes of Reducing Regional Transport of Ozone", hereinafter referred to as the "NOx SIP Call", compliance with which will require reducing emissions of nitrogen oxides ("NOx");

   (2) That reducing emissions of NOx in the State helps the State to meet the national ambient air quality standard for ozone;

   (3) That emissions trading is a cost-effective means of obtaining reductions of NOx emissions.

(b) The Agency shall propose and the Board shall adopt regulations to implement an interstate NOx trading program (hereinafter referred to as the "NOx Trading Program") as provided for in 40 CFR Part 96, including incorporation by reference of appropriate provisions of 40 CFR Part 96 and regulations to address 40 CFR Section 96.4(b), Section 96.55(c), Subpart E, and Subpart I. In addition, the Agency shall propose and the Board shall adopt regulations to implement NOx emission reduction programs for cement kilns and stationary internal combustion engines.

(c) Allocations of NOx allowances to large electric generating units ("EGUs") and large non-electric generating units ("non-EGUs"), as defined by 40 CFR Part 96.4(a), shall not exceed the State's trading budget for those source categories to be included in the State Implementation Plan for NOx.

(d) In adopting regulations to implement the NOx Trading Program, the Board shall:

   (2) provide that emission units, as defined in Section 39.5(1) of this Act, may opt into the NOx Trading Program;

allocated by the Agency. The regulations shall further provide that such voluntary reductions are verifiable, quantifiable, permanent, and federally enforceable;

(4) provide that the Agency allocate to non-EGUs allowances that are designated in the rule, unless the Agency has been directed to transfer the allocations to another unit subject to the requirements of the NOx Trading Program, and that upon shutdown of a non-EGU, the unit may transfer or sell the NOx allowances that are allocated to such unit; and

(5) provide that the Agency shall set aside annually a number of allowances, not to exceed 5% of the total EGU trading budget, to be made available to new EGUs; and:

(6) (A) provide that those EGUs that commence commercial operation, as defined in 40 CFR Section 96.2, at a time that is more than half way through the control period in 2003 shall return to the Agency any allowances that were issued to it by the Agency and were not used for compliance in 2004. (B) The Agency may sell NOx allowances to sources in Illinois that are subject to 35 Ill. Adm. Code 217, either Subpart U or W, as follows:

(1) any unearned Early Reduction Credits set aside for non-EGUs under 35 Ill. Adm. Code 217, Subpart U, but only to those sources that make qualifying early reductions of NOx in 2003 pursuant to 35 Ill. Adm. Code 217 for which the source did not receive an allocation thereunder. If the Agency receives requests to purchase more ERCs than are available for sale, allowances shall be offered for sale to qualifying sources on a pro-rata basis;

(2) any remaining Early Reduction Credits allocated under 35 Ill. Adm. Code 217, Subpart U or W, that could not be allocated on a pro-rata, whole allowance basis, but only to those sources that made qualifying early reductions of NOx in 2003 pursuant to 35 Ill. Adm. Code 217 for which the source did not receive an allocation;

be allocated on a pro-rata, whole allowance basis pursuant to the provisions of Subpart W; and

(4) any allowances requested from the New Source Set Aside for those sources that commenced operation, as defined in 40 CFR Section 96.2, on or after January 1, 2004.

(d-10) The selling price for ERC allowances shall be 70% of the market price index for 2005 NOx allowances, determined by the Agency as follows:

(1) using the mean of 2 or more published market price indexes for the 2005 NOx allowances as of October 6, 2003; or
(2) if there are not 2 published market price indexes for 2005 NOx allowances as of October 6, 2003, the Agency may use any reasonable indication of market price.

(e) The Agency may adopt procedural rules, as necessary, to implement the regulations promulgated by the Board pursuant to subsections (b) and (d) and to implement subsections (d-5), (d-10), (i), and (j) subsection (i) of this Section.

(f) Notwithstanding any provisions in subparts T, U, and W of Section 217 of Title 35 of the Illinois Administrative Code to the contrary, compliance with the regulations promulgated by the Board pursuant to subsections (b) and (d) of this Section is required by May 31, 2004.

(g) To the extent that a court of competent jurisdiction finds a provision of 40 CFR Part 96 invalid, the corresponding Illinois provision shall be stayed until such provision of 40 CFR Part 96 is found to be valid or is re-promulgated. To the extent that USEPA or any court of competent jurisdiction stays the applicability of any provision of the NOx SIP Call to any person or circumstance relating to Illinois, during the period of that stay, the effectiveness of the corresponding Illinois provision shall be stayed. To the extent that the invalidity of the particular requirement or application does not affect other provisions or applications of the NOx SIP Call pursuant to 40 CFR 51.121 or the NOx trading program pursuant to 40 CFR Part 96 or 40 CFR Part 97, this Section, and rules or regulations promulgated hereunder, will be given effect without the invalid provisions or applications.

(h) Notwithstanding any other provision of this Act, any source or other authorized person that participates in the NOx Trading Program shall be eligible to exchange NOx allowances with other sources in accordance with this Section and with regulations promulgated by the Board or the Agency.

(House Bill No. 0953)

AN ACT in relation to State finances.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:
Section 5. The State Finance Act is amended by changing Section 8h and by adding Sections 5.625 and 6z-62 as follows:

New matter indicated by italics - deletions by strikeout.
Sec. 5.625. The Medicaid Provider Relief Fund.
(30 ILCS 105/6z-62 new)
Sec. 6z-62. Medicaid Provider Relief Fund.
(a) The Medicaid Provider Relief Fund ("the Fund") is created as a special fund in the State treasury. The Fund is created for the purpose of paying medical bills for which the State is responsible under Title XIX of the Social Security Act and under the Children's Health Insurance Program Act.

(b) The Fund shall consist of the following:
(1) All money received by the State from short-term borrowing pursuant to the Short Term Borrowing Act or the Medicaid Liability Liquidity Borrowing Act on or after the effective date of this amendatory Act of the 93rd General Assembly and before July 1, 2004.
(2) All federal matching funds received as a result of expenditures that are attributable to moneys deposited into the Fund.
(3) Interest earned on moneys in the Fund.
(c) On July 1, 2004, the State Treasurer and the Comptroller shall transfer the balance in the Medicaid Provider Relief Fund to the General Revenue Fund. After July 1, 2004, the State Treasurer and the Comptroller shall automatically transfer all moneys deposited into the Medicaid Provider Relief Fund from that Fund to the General Revenue Fund.

(d) This Section is repealed on June 30, 2005, and the State Treasurer and the Comptroller shall promptly transfer the balance remaining in the Fund on that date to the General Revenue Fund.

(30 ILCS 105/8h)
Sec. 8h. Transfers to General Revenue Fund. Notwithstanding any other State law to the contrary, the Director of the Governor's Office of Management and Budget may from time to time direct the State Treasurer and Comptroller to transfer a specified sum from any fund held by the State Treasurer to the General Revenue Fund in order to help defray the State's operating costs for the fiscal year. The total transfer under this Section from any fund in any fiscal year shall not exceed the lesser of 8% of the revenues to be deposited into the fund during that year or 25% of the beginning balance in the fund. No transfer may be made from a fund under this Section that would have the effect of reducing the available balance in the fund to an amount less than the amount remaining unexpended and

unreserved from the total appropriation from that fund for that fiscal year. This Section does not apply to any funds that are restricted by federal law to a specific use or to any funds in the Motor Fuel Tax Fund, or the Hospital Provider Fund, or the Medicaid Provider Relief Fund. Notwithstanding any other provision of this Section, the total transfer under this Section from the Road Fund or the State Construction Account Fund shall not exceed 5% of the revenues to be deposited into the fund during that year.

In determining the available balance in a fund, the Director of the Governor's Office of Management and Budget may include receipts, transfers into the fund, and other resources anticipated to be available in the fund in that fiscal year.

The State Treasurer and Comptroller shall transfer the amounts designated under this Section as soon as may be practicable after receiving the direction to transfer from the Director of the Governor's Office of Management and Budget.

(30 ILCS 340/3) (from Ch. 120, par. 408)

Sec. 3. There shall be prepared under the direction of the officers named in this Act such form of bonds or certificates as they shall deem advisable, which, when issued, shall be signed by the Governor, Comptroller and Treasurer, and shall be recorded by the Comptroller in a book to be kept by him or her for that purpose. The interest and principal of such loan shall be paid by the treasurer out of the General Obligation Bond Retirement and Interest Fund.

There is hereby appropriated out of any money in the Treasury a sum sufficient for the payment of the interest and principal of any debts contracted under this Act.

The Governor, Comptroller, and Treasurer are authorized to order pursuant to the proceedings authorizing those debts the transfer of any moneys on deposit in the treasury into the General Obligation Bond Retirement and Interest Fund at times and in amounts they deem necessary to provide for the payment of that interest and principal.

The Comptroller is hereby authorized and directed to draw his warrant on the State Treasurer for the amount of all such payments.

The directive authorizing borrowing under Section 1 or 1.1 of this Act shall set forth a pro forma cash flow statement that identifies

This contracted debt, when added to amounts borrowed under the Short Term Borrowing Act during the then-current fiscal year, may not exceed 15% of the State's appropriations for that fiscal year. Moneys thus borrowed shall be applied to the purpose of paying for medical services as described in this Section, or to pay the debts and associated expenses thus incurred created, and to no other purpose. All proceeds from any borrowing under this Act received by the State on or after the effective date of this amendatory Act of the 93rd General Assembly and before July 1, 2004 shall be deposited into the Medicaid Provider Relief Fund. Section 20. The Illinois Public Aid Code is amended by adding Section 5-16.13 as follows:

(305 ILCS 5/5-16.13 new)

Sec. 5-16.13. Medicaid Managed Care Task Force.

(a) Medicaid, the medical assistance program jointly administered by the State of Illinois and the United States governments for low-income and uninsured populations, is the largest single insurance provider in the State. In Illinois, one in every 7 adults, one in 3 children, and 2 of every 3 nursing home residents are all provided health care under the State’s Medicaid program.

Over the past 10 years, Medicaid in Illinois has grown an average of 8% annually, which requires at least $500,000,000 in additional State resources every year.

Medicaid in Illinois is a cost-reimbursement system that does little to promote health or encourage improvements in the quality of health care services being delivered to the growing populations needing assistance.

The advent of managed care plans in the insurance industry has driven down health care costs for many while amply managing individual needs in a system to deliver cost-efficient health care services.

(b) To better examine and evaluate the application of managed care within the State’s Medicaid program, there is hereby established the bipartisan Medicaid Managed Care Task Force.

The Task Force shall consist of 8 voting members, as follows: 2 members of the Senate appointed by the President of the Senate, 2 members of the Senate appointed by the Senate Minority Leader, 2 members of the House of Representatives appointed by the Speaker of the House of Representatives, and 2 members of the House of Representatives
appointed by the House Minority Leader. All actions of the Task Force require the affirmative vote of at least 5 voting members.

Members appointed to the Task Force shall elect from among themselves 2 co-chairs.

Members appointed by the legislative leaders shall be appointed for the duration of the Task Force; in the event of a vacancy, the appointment to fill the vacancy shall be made by the same legislative leader who made the original appointment.

The following persons shall serve, ex officio, as nonvoting members of the Task Force: the Director of the Governor's Office of Management and Budget, the Director of Public Aid, and the Secretary of Human Services.

The Task Force shall begin to conduct business upon the appointment of a majority of the voting members. If the co-chairs have not both been appointed, the co-chair that has been appointed shall preside.

Members shall serve without compensation but may be reimbursed for their expenses from appropriations for that purpose.

(c) The Task Force shall gather information and make recommendations relating to the financing and expenditures of the Illinois Medicaid program and the program's level of ability to provide quality health care services in the most cost-efficient manner. The Task Force shall examine and evaluate the application of managed care within the State's Medicaid program. The Task Force shall further assess whether the State's Medicaid services delivery system meets or exceeds the goals of quality, efficiency, accountability, and financial responsibility and shall make recommendations in keeping with those goals concerning the cost-efficient delivery of Medicaid services throughout Illinois.

(d) The Task Force shall conduct at least 6 public hearings beginning the later of July 2004 or upon the appointment of a majority of its members, through October 2004.

Locations for public hearings are to be different and determined by the co-chairs in consultation with the other members of the Task Force.

Comment and testimony at public hearing is to be sought from Medicaid recipients, health care providers and other health care professionals, related advocates, health care finance experts, insurance industry professionals, and public officials from throughout the State.

(e) The Governor's Office of Management and Budget, the Department of Public Aid, and the Department of Human Services are directed to provide information and assistance to the Task Force.

New matter indicated by italics - deletions by strikeout.
(f) The Task Force shall submit a full report of its findings and recommendations to the General Assembly not later than November 8, 2004. It may submit other reports as it deems appropriate.

(g) The Task Force is abolished and this Section is repealed on December 31, 2004.

(310 ILCS 67/20)

Sec. 20. Determination of exempt local governments.

(a) Beginning October 1, 2004 January 1, 2006, the Illinois Housing Development Authority shall determine which local governments are exempt and not exempt from the operation of this Act based on an identification of the total number of year-round housing units in the most recent decennial census for each local government within the State and by an inventory of for-sale and rental affordable housing units, as defined in this Act, for each local government from the decennial census and other relevant sources.

(b) The Illinois Housing Development Authority shall make this determination by:

(i) totaling the number of for-sale housing units in each local government that are affordable to households with a gross household income that is less than 80% of the median household income within the county or primary metropolitan statistical area.

New matter indicated by italics - deletions by strikeout.
(ii) totaling the number of rental units in each local
government that are affordable to households with a gross
household income that is less than 60% of the median household
income within the county or primary metropolitan statistical area;

local government from items (i) and (ii); and
(iv) dividing the sum of (iii) above by the total number of
year-round housing units in the local government as contained in
the latest decennial census and multiplying the result by 100 to
determine the percentage of affordable housing units within the
jurisdiction of the local government.

(c) Beginning October 1, 2004 January 1, 2006, the Illinois
Housing Development Authority shall publish on an annual basis a list of
exempt and non-exempt local governments and the data that it used to
calculate its determination. The data shall be shown for each local
government in the State and for the State as a whole. Upon publishing a
list of exempt and non-exempt local governments, the Illinois Housing
Development Authority shall notify a local government that it is not
exempt from the operation of this Act and provide to it the data used to
calculate its determination.

(d) A local government or developer of affordable housing may
appeal the determination of the Illinois Housing Development Authority as
to whether the local government is exempt or non-exempt under this Act
in connection with an appeal under Section 30 of this Act.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The State Employees Group Insurance Act of 1971 is amended by changing Sections 6.5 and 6.6 as follows:

(5 ILCS 375/6.5)
(Section scheduled to be repealed on July 1, 2004)
Sec. 6.5. Health benefits for TRS benefit recipients and TRS dependent beneficiaries.

(a) Purpose. It is the purpose of this amendatory Act of 1995 to transfer the administration of the program of health benefits established for benefit recipients and their dependent beneficiaries under Article 16 of the Illinois Pension Code to the Department of Central Management Services.

New matter indicated by italics - deletions by strikeout.
(b) Transition provisions. The Board of Trustees of the Teachers' Retirement System shall continue to administer the health benefit program established under Article 16 of the Illinois Pension Code through December 31, 1995. Beginning January 1, 1996, the Department of Central Management Services shall be responsible for administering a program of health benefits for TRS benefit recipients and TRS dependent beneficiaries under this Section. The Department of Central Management Services and the Teachers' Retirement System shall cooperate in this endeavor and shall coordinate their activities so as to ensure a smooth transition and uninterrupted health benefit coverage.

(c) Eligibility. All persons who were enrolled in the Article 16 program at the time of the transfer shall be eligible to participate in the program established under this Section without any interruption or delay in coverage or limitation as to pre-existing medical conditions. Eligibility to participate shall be determined by the Teachers' Retirement System. Eligibility information shall be communicated to the Department of Central Management Services in a format acceptable to the Department.

A TRS dependent beneficiary who is an unmarried child age 19 or over and mentally or physically disabled handicapped does not become ineligible to participate by reason of (i) becoming ineligible to be claimed as a dependent for Illinois or federal income tax purposes or (ii) receiving earned income, so long as those earnings are insufficient for the child to be fully self-sufficient.

(d) Coverage. The level of health benefits provided under this Section shall be similar to the level of benefits provided by the program previously established under Article 16 of the Illinois Pension Code.

Group life insurance benefits are not included in the benefits to be provided to TRS benefit recipients and TRS dependent beneficiaries under this Act.

The program of health benefits under this Section may include any or all of the benefit limitations, including but not limited to a reduction in benefits based on eligibility for federal medicare benefits, that are provided under subsection (a) of Section 6 of this Act for other health benefit programs under this Act.

(e) Insurance rates and premiums. The Director shall determine the insurance rates and premiums for TRS benefit recipients and TRS dependent beneficiaries, and shall present to the Teachers' Retirement System of the State of Illinois, by April 15 of each calendar year, the rate-
setting methodology (including but not limited to utilization levels and costs) used to determine the amount of the health care premiums.

For Fiscal Year 1996, the premium shall be equal to the premium actually charged in Fiscal Year 1995; in subsequent years, the premium shall never be lower than the premium charged in Fiscal Year 1995.

For Fiscal Year 2003, the premium shall not exceed 110% of the premium actually charged in Fiscal Year 2002.

For Fiscal Year 2004, the premium shall not exceed 112% of the premium actually charged in Fiscal Year 2003.

For Fiscal Year 2005, the premium shall not exceed a weighted average of 106.6% of the premium actually charged in Fiscal Year 2004.

For Fiscal Year 2006, the premium shall not exceed a weighted average of 109.1% of the premium actually charged in Fiscal Year 2005.

For Fiscal Year 2007, the premium shall not exceed a weighted average of 103.9% of the premium actually charged in Fiscal Year 2006.

For Fiscal Year 2008 and thereafter, the premium in each fiscal year shall not exceed 105% of the premium actually charged in the previous fiscal year.

Rates and premiums may be based in part on age and eligibility for federal medicare coverage. However, the cost of participation for a TRS dependent beneficiary who is an unmarried child age 19 or over and mentally or physically disabled handicapped shall not exceed the cost for a TRS dependent beneficiary who is an unmarried child under age 19 and participates in the same major medical or managed care program.

The cost of health benefits under the program shall be paid as follows:

(1) For a TRS benefit recipient selecting a managed care program, up to 75% of the total insurance rate shall be paid from the Teacher Health Insurance Security Fund. Effective with Fiscal Year 2007 and thereafter, for a TRS benefit recipient selecting a managed care program, 75% of the total insurance rate shall be paid from the Teacher Health Insurance Security Fund.

(2) For a TRS benefit recipient selecting the major medical coverage program, up to 50% of the total insurance rate shall be paid from the Teacher Health Insurance Security Fund if a

managed care program is accessible, as determined by the Teachers' Retirement System. **Effective with Fiscal Year 2007 and thereafter, for a TRS benefit recipient selecting the major medical coverage program, 50% of the total insurance rate shall be paid from the Teacher Health Insurance Security Fund if a managed care program is accessible, as determined by the Department of Central Management Services.**

(3) For a TRS benefit recipient selecting the major medical coverage program, up to 75% of the total insurance rate shall be paid from the Teacher Health Insurance Security Fund if a managed care program is not accessible, as determined by the Teachers' Retirement System. **Effective with Fiscal Year 2007 and thereafter, for a TRS benefit recipient selecting the major medical coverage program, 75% of the total insurance rate shall be paid from the Teacher Health Insurance Security Fund if a managed care program is not accessible, as determined by the Department of Central Management Services.**

(3.1) **For a TRS dependent beneficiary who is Medicare primary and enrolled in a managed care plan, or the major medical coverage program if a managed care plan is not available, 25% of the total insurance rate shall be paid from the Teacher Health Security Fund as determined by the Department of Central Management Services. For the purpose of this item (3.1), the term “TRS dependent beneficiary who is Medicare primary” means a TRS dependent beneficiary who is participating in Medicare Parts A and B.**

(4) **Except as otherwise provided in item (3.1), the balance of the rate of insurance, including the entire premium of any coverage for TRS dependent beneficiaries that has been elected, shall be paid by deductions authorized by the TRS benefit recipient to be withheld from his or her monthly annuity or benefit payment from the Teachers' Retirement System; except that (i) if the balance of the cost of coverage exceeds the amount of the monthly annuity or benefit payment, the difference shall be paid directly to the Teachers' Retirement System by the TRS benefit recipient, and (ii) all or part of the balance of the cost of coverage may, at the school board's option, be paid to the Teachers' Retirement System by the school board of the school district from which the TRS benefit recipient retired, in accordance with Section**

10-22.3b of the School Code. The Teachers' Retirement System
shall promptly deposit all moneys withheld by or paid to it under
this subdivision (e)(4) into the Teacher Health Insurance Security
Fund. These moneys shall not be considered assets of the
Retirement System.

(f) Financing. Beginning July 1, 1995, all revenues arising from the
administration of the health benefit programs established under Article 16
of the Illinois Pension Code or this Section shall be deposited into the
Teacher Health Insurance Security Fund, which is hereby created as a
nonappropriated trust fund to be held outside the State Treasury, with the
State Treasurer as custodian. Any interest earned on moneys in the
Teacher Health Insurance Security Fund shall be deposited into the Fund.

Moneys in the Teacher Health Insurance Security Fund shall be
used only to pay the costs of the health benefit program established under
this Section, including associated administrative costs, and the costs
associated with the health benefit program established under Article 16 of
the Illinois Pension Code, as authorized in this Section. Beginning July 1,
1995, the Department of Central Management Services may make
expenditures from the Teacher Health Insurance Security Fund for those
costs.

After other funds authorized for the payment of the costs of the
health benefit program established under Article 16 of the Illinois Pension
Code are exhausted and until January 1, 1996 (or such later date as may be
agreed upon by the Director of Central Management Services and the
Secretary of the Teachers' Retirement System), the Secretary of the
Teachers' Retirement System may make expenditures from the Teacher
Health Insurance Security Fund as necessary to pay up to 75% of the cost
of providing health coverage to eligible benefit recipients (as defined in
Sections 16-153.1 and 16-153.3 of the Illinois Pension Code) who are
enrolled in the Article 16 health benefit program and to facilitate the
transfer of administration of the health benefit program to the Department
of Central Management Services.

(g) Contract for benefits. The Director shall by contract, self-
insurance, or otherwise make available the program of health benefits for
TRS benefit recipients and their TRS dependent beneficiaries that is
provided for in this Section. The contract or other arrangement for the
provision of these health benefits shall be on terms deemed by the Director
to be in the best interest of the State of Illinois and the TRS benefit
recipients based on, but not limited to, such criteria as administrative cost,
service capabilities of the carrier or other contractor, and the costs of the benefits.

(g-5) Committee. A Teacher Retirement Insurance Program Committee shall be established, to consist of 10 persons appointed by the Governor.

The Committee shall convene at least 4 times each year, and shall consider and make recommendations on issues affecting the program of health benefits provided under this Section. Recommendations of the Committee shall be based on a consensus of the members of the Committee.

If the Teacher Health Insurance Security Fund experiences a deficit balance based upon the contribution and subsidy rates established in this Section and Section 6.6 for Fiscal Year 2008 or thereafter, the Committee shall make recommendations for adjustments to the funding sources established under these Sections.

(h) Continuation and termination of program. It is the intention of the General Assembly that the program of health benefits provided under this Section be maintained on an ongoing, affordable basis through June 30, 2004. The program of health benefits provided under this Section is terminated on July 1, 2004.

The program of health benefits provided under this Section may be amended by the State and is not intended to be a pension or retirement benefit subject to protection under Article XII, Section 5 of the Illinois Constitution.

(i) Repeal. (Blank). This Section is repealed on July 1, 2004.

Sec. 6.6. Contributions to the Teacher Health Insurance Security Fund.

(a) Beginning July 1, 1995, all active contributors of the Teachers' Retirement System (established under Article 16 of the Illinois Pension Code) who are not employees of a department as defined in Section 3 of this Act shall make contributions toward the cost of annuitant and survivor health benefits. which in each fiscal year shall not exceed 105% of the percentage of
salary actually required to be paid in the previous fiscal year.

These contributions shall be deducted by the employer and paid to
the System as service agent for the Department of Central Management
Services. The System may use the same processes for collecting the
contributions required by this subsection that it uses to collect
contributions received from school districts and other covered employers

An employer may agree to pick up or pay the contributions
required under this subsection on behalf of the teacher; such contributions
shall be deemed to have to have been paid by the teacher. Beginning
January 1, 2002, if the employer does not directly pay the required member
contribution, then the employer shall reduce the member's salary by an
amount equal to the required contribution and shall then pay the
contribution on behalf of the member. This reduction shall not change the
amounts reported as creditable earnings to the Teachers' Retirement
System.

A person who purchases optional service credit under Article 16 of
the Illinois Pension Code for a period after June 30, 1995 must also make
a contribution under this subsection for that optional credit, at the rate
provided in subsection (a), based on the salary used in computing the
optional service credit, plus interest on this employee contribution. This
contribution shall be collected by the System as service agent for the
Department of Central Management Services. The contribution required
under this subsection for the optional service credit must be paid in full
before any annuity based on that credit begins.

(a-5) Beginning January 1, 2002, every employer of a teacher
(other than an employer that is a department as defined in Section 3 of this
Act) shall pay an employer contribution toward the cost of annuitant and
survivor health benefits. These contributions shall be computed as follows:

(1) Beginning January 1, 2002 through June 30, 2003, the
employer contribution shall be equal to 0.4% of each teacher's
salary.

(2) Beginning July 1, 2003, the employer contribution shall
be equal to 0.5% of each teacher's salary.

(3) Beginning July 1, 2005, the employer contribution shall
be equal to 0.6% of each teacher's salary.

(4) Beginning July 1, 2007, the employer contribution shall
be a percentage of each teacher's salary to be determined by the

Department of Central Management Services by rule, which in each fiscal year shall not exceed 105% of the percentage of each teacher's salary actually required to be paid in the previous fiscal year.

These contributions shall be paid by the employer to the System as service agent for the Department of Central Management Services. The System may use the same processes for collecting the contributions required by this subsection that it uses to collect contributions received from school districts and other covered employers under the Illinois Pension Code.

The school district or other employing unit may pay these employer contributions out of any source of funding available for that purpose and shall forward the contributions to the System on the schedule established for the payment of member contributions.

(b) The Teachers' Retirement System shall promptly deposit all moneys collected under subsections (a) and (a-5) of this Section into the Teacher Health Insurance Security Fund created in Section 6.5 of this Act. The moneys collected under this Section shall be used only for the purposes authorized in Section 6.5 of this Act and shall not be considered to be assets of the Teachers' Retirement System. Contributions made under this Section are not transferable to other pension funds or retirement systems and are not refundable upon termination of service.

(c) On or before November 15 of each year, the Board of Trustees of the Teachers' Retirement System shall certify to the Governor, the Director of Central Management Services, and the State Comptroller its estimate of the total amount of contributions to be paid under subsection (a) of this Section 6.6 for the next fiscal year. The amount certified shall be decreased or increased each year by the amount that the actual active teacher contributions either fell short of or exceeded the estimate used by the Board in making the certification for the previous fiscal year. The certification shall include a detailed explanation of the methods and information that the Board relied upon in preparing its estimate. As soon as possible after the effective date of this amendatory Act of the 92nd General Assembly, the Board shall recalculate and recertify its certifications for fiscal years 2002 and 2003.

(d) Beginning in fiscal year 1996, on the first day of each month, or as soon thereafter as may be practical, the State Treasurer and the State Comptroller shall transfer from the General Revenue Fund to the Teacher Health Insurance Security Fund 1/12 of the annual amount appropriated

for that fiscal year to the State Comptroller for deposit into the Teacher Health Insurance Security Fund under Section 1.3 of the State Pension Funds Continuing Appropriation Act.

A person who holds a valid and comparable out-of-state certificate, however, is not required to take a test of basic skills and is not required to take a test of subject matter knowledge, provided that the person has successfully passed a test of subject matter knowledge in another state or territory of the United States that is directly related in content to the specific subject area of certification. The tests of basic skills and subject matter knowledge shall be the tests which from time to time are designated by the State Board of Education in consultation with the State Teacher Certification Board and may be tests prepared by an educational testing organization or tests designed by the State Board of Education in consultation with the State Teacher Certification Board. The areas to be covered by the test of basic skills shall include the basic skills of reading, writing, grammar and mathematics. The test of subject matter knowledge shall assess content knowledge in the specific subject field. The tests shall be designed to be racially neutral to assure that no person in taking the tests is thereby discriminated against on the basis of race, color, national origin or other factors unrelated to the person's ability to perform as a certificated employee. The score required to pass the tests of basic skills and subject matter knowledge shall be fixed by the State Board of Education in consultation with the State Teacher Certification Board. The tests shall be held not fewer than 3 times a year at such time and place as may be designated by the State Board of Education in consultation with the State Teacher Certification Board.

(b) Except as provided in Section 34-6, the provisions of subsection (a) of this Section shall apply equally in any school district subject to Article 34, provided that the State Board of Education shall determine which certificates issued under Sections 34-8.1 and 34-83 prior to July 1, 1988 are comparable to any early childhood certificate, elementary school certificate, special certificate, high school certificate, school service personnel certificate or administrative certificate issued under this Article as of July 1, 1988.

(c) A person who holds an early childhood, elementary, special, high school or school service personnel certificate issued under this Article on or at any time before July 1, 1988, including a person who has been issued any such certificate pursuant to Section 21-11.1 or in exchange for a

(d) The State Board of Education in consultation with the State Teacher Certification Board shall conduct a pilot administration of the tests by administering the test to students completing teacher education programs in the 1986-87 school year for the purpose of determining the effect and impact of testing candidates for certification.

Beginning with the 2002-2003 academic year, a student may not enroll in a teacher preparation program at a recognized teacher training institution until he or she has passed the basic skills test.

Beginning with the 2004-2005 academic year, a preservice education teacher may not student teach until he or she has passed the subject matter test in the discipline in which he or she will student teach.

(e) The rules and regulations developed to implement the required test of basic skills and subject matter knowledge shall include the requirements of subsections (a), (b), and (c) and shall include specific regulations to govern test selection; test validation and determination of a passing score; administration of the tests; frequency of administration; applicant fees; frequency of applicants' taking the tests; the years for which a score is valid; and, waiving certain additional tests for additional certificates to individuals who have satisfactorily passed the test of basic skills and subject matter knowledge as required in subsection (a). The State Board of Education shall provide, by rule, specific policies that assure uniformity in the difficulty level of each form of the basic skills test and each subject matter knowledge test from test-to-test and year-to-year. The State Board of Education shall also set a passing score for the tests.

(f) The State Teacher Certification Board may issue a nonrenewable temporary certificate between July 1, 1988 and August 31, 1988 to individuals who have taken the tests of basic skills and subject matter knowledge prescribed by this Section but have not received such test scores by August 31, 1988. Such temporary certificates shall expire on December 31, 1988.

(g) Beginning February 15, 2000, the State Board of Education, in consultation with the State Teacher Certification Board, shall implement and administer a new system of certification for teachers in the State of Illinois. The State Board of Education, in consultation with the State Teacher Certification Board, shall design and implement a system of examinations and various other criteria which shall be required prior to the
issuance of Initial Teaching Certificates and Standard Teaching Certificates. These examinations and indicators shall be based on national and State professional teaching standards, as determined by the State Board of Education, in consultation with the State Teacher Certification Board. The State Board of Education may adopt any and all regulations necessary to implement and administer this Section.

Sec. 21-23. Suspension or revocation of certificate

(a) Any certificate issued pursuant to this Article, including but not limited to any administrative certificate or endorsement, may be suspended for a period not to exceed one calendar year by the regional superintendent or for a period not to exceed 5 calendar years by the State Superintendent of Education upon evidence of immorality, a condition of health detrimental to the welfare of pupils, incompetency, unprofessional conduct, the neglect of any professional duty, willful failure to report an instance of suspected child abuse or neglect as required by the Abused and Neglected Child Reporting Act, failure to establish satisfactory repayment on an educational loan guaranteed by the Illinois Student Assistance Commission, or other just cause. Unprofessional conduct shall include refusal to attend or participate in, institutes, teachers' meetings, professional readings, or to meet other reasonable requirements of the regional superintendent or State Superintendent of Education. Unprofessional conduct also includes conduct that violates the standards, ethics, or rules applicable to the security, administration, monitoring, or scoring of, or the reporting of scores from, any assessment test or the Prairie State Achievement Examination administered under Section 2-3.64 or that is known or intended to produce or report manipulated or artificial, rather than actual, assessment or achievement results or gains from the administration of those tests or examinations. It shall also include neglect or unnecessary delay in making of statistical and other reports required by school officers. The regional superintendent or State Superintendent of Education shall upon receipt of evidence of immorality, a condition of health detrimental to the welfare of pupils, incompetency, unprofessional conduct, the neglect of any professional duty or other just cause serve written notice to the individual and afford the individual opportunity for a hearing prior to suspension. If a hearing is requested within 10 days of notice of opportunity for hearing it shall act as a stay of proceedings not to exceed 30 days, unless the individual requests a delay. In such an instance, the stay of proceedings must be continued for another 30 days.

the right of appeal shall lie to the State Teacher Certification Board. When an appeal is taken within 10 days after notice of suspension it shall act as a stay of proceedings not to exceed 120 days. If a certificate is suspended for a period greater than one year, the State Superintendent of Education shall review the suspension prior to the expiration of that period to determine whether the cause for the suspension has been remedied or continues to exist. Upon determining that the cause for suspension has not abated, the State Superintendent of Education may order that the suspension be continued for an appropriate period. Nothing in this Section prohibits the continuance of such a suspension for an indefinite period if the State Superintendent determines that the cause for the suspension remains unabated. Any certificate may be revoked for the same reasons as for suspension by the State Superintendent of Education. No certificate shall be revoked until the teacher has an opportunity for a hearing before the State Teacher Certification Board, which hearing must be held within 120 days from the date the appeal is taken, unless the State Teacher Certification Board requests a delay. In such an instance, the stay of the revocation proceedings must be continued until the completion of the proceedings.

The State Board may refuse to issue or may suspend the certificate of any person who fails to file a return, or to pay the tax, penalty or interest shown in a filed return, or to pay any final assessment of tax, penalty or interest, as required by any tax Act administered by the Illinois Department of Revenue, until such time as the requirements of any such tax Act are satisfied.

(b) Any certificate issued pursuant to this Article may be suspended for an appropriate length of time as determined by either the regional superintendent or State Superintendent of Education upon evidence that the holder of the certificate has been named as a perpetrator in an indicated report filed pursuant to the Abused and Neglected Child Reporting Act, approved June 26, 1975, as amended, and upon proof by clear and convincing evidence that the licensee has caused a child to be an abused child or neglected child as defined in the Abused and Neglected Child Reporting Act.

The regional superintendent or State Superintendent of Education shall, upon receipt of evidence that the certificate holder has been named a perpetrator in any indicated report, serve written notice to the individual and afford the individual opportunity for a hearing prior to suspension. The State Superintendent may revoke any certificate upon proof at hearing by clear and convincing evidence that the certificate holder has caused a child to be an abused child or neglected child as defined in the Abused and Neglected Child Reporting Act. No certificate shall be revoked until the teacher has an opportunity for a hearing before the State Teacher Certification Board, which hearing must be held within 120 days from the date the appeal is taken, unless the teacher or the hearing officer appointed by the State Teacher Certification Board requests a delay. In such an instance, the stay of the revocation proceedings must be continued until the completion of the proceedings.

(c) The State Superintendent of Education or a person designated by him shall have the power to administer oaths to witnesses at any hearing conducted before the State Teacher Certification Board pursuant to this Section. The State Superintendent of Education or a person designated by him is authorized to subpoena and bring before the State Teacher Certification Board any person in this State and to take testimony either orally or by deposition or by exhibit, with the same fees and mileage and in the same manner as prescribed by law in judicial proceedings in the civil cases in circuit courts of this State.

Any circuit court, upon the application of the State Superintendent of Education, may, by order duly entered, require the attendance of witnesses and the production of relevant books and papers at any hearing the State Superintendent of Education is authorized to conduct pursuant to this Section, and the court may compel obedience to its orders by proceedings for contempt.

(d) As used in this Section, "teacher" means any school district employee regularly required to be certified, as provided in this Article, in order to teach or supervise in the public schools.

The State Board of Education shall develop standards for the determination of priority needs concerning school construction projects based upon approved district facilities plans. (4) Replacement or reconstruction of school facilities determined to be severe and continuing health or life safety hazards;

(5) Alterations necessary to provide accessibility for qualified individuals with disabilities; and

Section 5. The State Finance Act is amended by changing Section 13.2 as follows:

(30 ILCS 105/13.2) (from Ch. 127, par. 149.2)
Sec. 13.2. Transfers among line item appropriations.
(a) Transfers among line item appropriations from the same treasury fund for the objects specified in this Section may be made in the manner provided in this Section when the balance remaining in one or more such line item appropriations is insufficient for the purpose for which the appropriation was made.

(a-1) No transfers may be made from one agency to another agency, nor may transfers be made from one institution of higher education to another institution of higher education.

(a-2) Transfers may be made only among the objects of expenditure enumerated in this Section, except that no funds may be transferred from any appropriation for personal services, from any appropriation for State contributions to the State Employees' Retirement System, from any separate appropriation for employee retirement contributions paid by the employer, nor from any appropriation for State contribution for employee group insurance.

The Illinois Department of Public Aid is authorized to make transfers representing savings attributable to not increasing grants due to the births of additional children from line items for payments of cash grants to line items for payments for employment and social services for the purposes outlined in subsection (f) of Section 4-2 of the Illinois Public Aid Code.

The Department of Children and Family Services is authorized to make transfers not exceeding 2% of the aggregate amount appropriated to it within the same treasury fund for the following line items among these same line items: Foster Home and Specialized Foster Care and Prevention, Institutions and Group Homes and Prevention, and Purchase of Adoption and Guardianship Services.

(c) The sum of such transfers for an agency in a fiscal year shall not exceed 2% of the aggregate amount appropriated to it within the same treasury fund for the following objects: Personal Services; Extra Help; Student and Inmate Compensation; State Contributions to Retirement Systems; State Contributions to Social Security; State Contribution for Employee Group Insurance; Contractual Services; Travel; Commodities; Printing; Equipment; Electronic Data Processing; Operation of Automotive Equipment; Telecommunications Services; Travel and

Notwithstanding the above, any amounts appropriated for payment of workers' compensation claims to an agency to which the authority to evaluate, administer and pay such claims has been delegated by the Department of Central Management Services may be transferred to any other expenditure object where such amounts exceed the amount necessary for the payment of such claims.

(c-1) Special provisions for State fiscal year 2003. Notwithstanding any other provision of this Section to the contrary, for State fiscal year 2003 only, transfers among line item appropriations to an agency from the same treasury fund may be made provided that the sum of such transfers for an agency in State fiscal year 2003 shall not exceed 3% of the aggregate amount appropriated to that State agency for State fiscal year 2003 for the following objects: personal services, except that no transfer may be approved which reduces the aggregate appropriations for personal services within an agency; extra help; student and inmate compensation; State contributions to retirement systems; State contributions to social security; State contributions for employee group insurance; contractual services; travel; commodities; printing; equipment; electronic data processing; operation of automotive equipment; telecommunications services; travel and allowance for committed, paroled, and discharged prisoners; library books; federal matching grants for student loans; refunds; workers' compensation, occupational disease, and tort claims; and, in appropriations to institutions of higher education, awards and grants.

Section 10. The Election Code is amended by changing Section 9-8.10 as follows:

(10 ILCS 5/9-8.10)
Sec. 9-8.10. Use of political committee and other reporting organization funds.

(a) A political committee, or organization subject to Section 9-7.5, shall not make expenditures:

(1) In violation of any law of the United States or of this State.

(2) Clearly in excess of the fair market value of the services, materials, facilities, or other things of value received in exchange.

(3) For satisfaction or repayment of any debts other than loans made to the committee or to the public official or candidate on behalf of the committee or repayment of goods and services purchased by the committee under a credit agreement. Nothing in this Section authorizes the use of campaign funds to repay personal loans. The repayments shall be made by check written to the person who made the loan or credit agreement. The terms and conditions of any loan or credit agreement to a committee shall be set forth in a written agreement, including but not limited to the method and amount of repayment, that shall be executed by the chairman or treasurer of the committee at the time of the loan or credit agreement. The loan or agreement shall also set forth the rate of interest for the loan, if any, which may not substantially exceed the prevailing market interest rate at the time the agreement is executed.

(4) For the satisfaction or repayment of any debts or for the payment of any expenses relating to a personal residence. Campaign funds may not be used as collateral for home mortgages.

(5) For clothing or personal laundry expenses, except clothing items rented by the public official or candidate for his or her own use exclusively for a specific campaign-related event, provided that committees may purchase costumes, novelty items, or other accessories worn primarily to advertise the candidacy.

(6) For the travel expenses of any person unless the travel is necessary for fulfillment of political, governmental, or public policy duties, activities, or purposes.
(7) For membership or club dues charged by organizations, clubs, or facilities that are primarily engaged in providing health, exercise, or recreational services; provided, however, that funds received under this Article may be used to rent the clubs or facilities for a specific campaign-related event.
(8) In payment for anything of value or for reimbursement of any expenditure for which any person has been reimbursed by the State or any person. For purposes of this item (8), a per diem allowance is not a reimbursement.
(9) For the purchase of or installment payment for a motor vehicle unless the political committee can demonstrate that purchase of a motor vehicle is more cost-effective than leasing a motor vehicle as permitted under this item (9). A political committee may lease or purchase and insure, maintain, and repair a motor vehicle if the vehicle will be used primarily for campaign purposes or for the performance of governmental duties. A committee shall not make expenditures for use of the vehicle for non-campaign or non-governmental purposes. Persons using vehicles not purchased or leased by a political committee may be reimbursed for actual mileage for the use of the vehicle for campaign purposes or for the performance of governmental duties. The mileage reimbursements shall be made at a rate not to exceed the standard mileage rate method for computation of business expenses under the Internal Revenue Code.
(10) Directly for an individual's tuition or other educational expenses, except for governmental or political purposes directly related to a candidate's or public official's duties and responsibilities.

(b) The Board shall have the authority to investigate, upon receipt of a verified complaint, violations of the provisions of this Section. The Board may levy a fine on any person who knowingly makes expenditures in violation of this Section and on any person who knowingly makes a malicious and false accusation of a violation of this Section. The Board may act under this subsection only upon the affirmative vote of at least 5 of its members. The fine shall not exceed $500 for each expenditure of $500 or less and shall not exceed the amount of the expenditure plus $500 for each expenditure greater than $500. The Board shall also have the authority to render rulings and issue opinions relating to compliance with this Section.

(c) Nothing in this Section prohibits the expenditure of funds of (i) a political committee controlled by an officeholder or by a candidate or (ii) an organization subject to Section 9-7.5 to defray the customary and reasonable ordinary and necessary expenses of an officeholder in connection with the performance of governmental and public service functions duties. For the purposes of this subsection, "ordinary and necessary expenses" include, but are not limited to, expenses in relation to the operation of the district office of a member of the General Assembly.

the initial equalized assessed value of each property in the redevelopment project area. In the first year after a municipality removes a taxable lot, block, tract, or parcel of real property from a redevelopment project area established under the Tax Increment Allocation Development Act in the Illinois Municipal Code, the Industrial Jobs Recovery Law in the Illinois Municipal Code, or the Economic Development Area Tax Increment Allocation Act, "recovered tax increment value" means the amount of the current year's equalized assessed value of each taxable lot, block, tract, or parcel of real property removed from the redevelopment project area over and above the initial equalized assessed value of that real property before removal from the redevelopment project area.

Except as otherwise provided in this Section, "limiting rate" means a fraction the numerator of which is the last preceding aggregate extension base times an amount equal to one plus the extension limitation defined in this Section and the denominator of which is the current year's equalized assessed value of all real property in the territory under the jurisdiction of the taxing district during the prior levy year. For those taxing districts that reduced their aggregate extension for the last preceding levy year, the highest aggregate extension in any of the last 3 preceding levy years shall be used for the purpose of computing the limiting rate. The denominator shall not include new property. The denominator shall not include the recovered tax increment value.

(40 ILCS 5/4-109.3 new)

Sec. 4-109.3. Employee creditable service.

(a) As used in this Section:

"Final monthly salary" means the monthly salary attached to the rank held by the firefighter at the time of his or her last withdrawal from service under a particular pension fund.

"Last pension fund" means the pension fund in which the firefighter was participating at the time of his or her last withdrawal from service.

(b) The benefits provided under this Section are available only to a firefighter who:

(1) is a firefighter at the time of withdrawal from the last pension fund and for at least the final 3 years of employment prior to that withdrawal;

(2) has established service credit with at least one pension fund established under this Article other than the last pension fund;

(3) has a total of at least 20 years of service under the various pension funds established under this Article and has attained age 50; and

(4) is in service on or after the effective date of this amendatory Act of the 93rd General Assembly.

(c) A firefighter who is eligible for benefits under this Section may elect to receive a retirement pension from each pension fund under this Article in which the firefighter has at least one year of service credit but has not received a refund under Section 4-116 (unless the firefighter repays that refund under subsection (g)) or subsection (c) of Section 4-118.1, by applying in writing and paying the contribution required under subsection (i).

New matter indicated by italics - deletions by strikeout.
(d) From each such pension fund other than the last pension fund, in lieu of any retirement pension otherwise payable under this Article, a firefighter to whom this Section applies may elect to receive a monthly pension of 1/12th of 2.5% of his or her final monthly salary under that fund for each month of service in that fund, subject to a maximum of 75% of that final monthly salary.

(e) From the last pension fund, in lieu of any retirement pension otherwise payable under this Article, a firefighter to whom this Section applies may elect to receive a monthly pension calculated as follows:

The last pension fund shall calculate the retirement pension that would be payable to the firefighter under subsection (a) of Section 4-109 as if he or she had participated in that last pension fund during his or her entire period of service under all pension funds established under this Article (excluding any period of service for which the firefighter has received a refund under Section 4-116, unless the firefighter repays that refund under subsection (g), or for which the firefighter has received a refund under subsection (c) of Section 4-118.1). From this hypothetical pension there shall be subtracted the original amounts of the retirement pensions payable to the firefighter by all other pension funds under subsection (d). The remainder is the retirement pension payable to the firefighter by the last pension fund under this subsection (e).

(f) Pensions elected under this Section shall be subject to increases as provided in subsection (d) of Section 4-109.1.

(g) A current firefighter may reinstate creditable service in a pension fund established under this Article that was terminated upon receipt of a refund, by payment to that pension fund of the amount of the refund together with interest thereon at the rate of 6% per year, compounded annually, from the date of the refund to the date of payment. A repayment of a refund under this Section may be made in equal installments over a period of up to 10 years, but must be paid in full prior to retirement.

(h) As a condition of being hired to a position as a firefighter on or after the effective date of this amendatory Act of the 93rd General Assembly, a firefighter must notify the new employer, all of his or her previous employers under this Article, and the Public Pension Division of the Department of Insurance, within one year of being hired, of all periods of service of at least one year under a pension fund established under this Article.

(i) In order to receive a pension under this Section or an occupational disease disability pension for which he or she becomes eligible due to the application of subsection (m) of this Section, a firefighter must pay to each pension fund from which he or she has elected to receive a pension under this Section a contribution equal to 1/12th of 1% of monthly salary for each month of service credit that the firefighter has in that fund (other than service credit for which the firefighter has already paid the additional contribution required under subsection (c) of Section 4-118.1), together with interest thereon at the rate of 6% per annum, compounded annually, from the time the service was rendered to the date of payment.

(j) A retired firefighter who is receiving pension payments under Section 4-109 may reenter active service under this Article. Subject to the provisions of Section 4-117, the firefighter may receive credit for service performed after the reentry if the firefighter (1) applies to receive credit for that service, (2) suspends his or her pensions under this Section, and (3) makes the contributions required under subsection (i).

(k) A firefighter who is newly hired or promoted to a position as a firefighter shall not be denied participation in a fund under this Article based on his or her age.

(l) If a firefighter who elects to make contributions under subsection (c) of Section 4-118.1 for the pension benefits provided under this Section becomes entitled to a disability pension under Section 4-110, the last pension fund is responsible to pay that disability pension and the amount of that disability pension shall be based only on the firefighter's service with the last pension fund.

(m) Notwithstanding any provision in Section 4-110.1 to the contrary, if a firefighter who elects to make contributions under subsection (c) of Section 4-118.1 for the pension benefits provided under this Section becomes entitled to an occupational disease disability pension under Section 4-110.1, each pension fund to which the firefighter has made contributions under subsection (c) of Section 4-118.1 must pay a portion of that occupational disease disability pension equal to the proportion that the firefighter's service credit with that pension fund for which the contributions under subsection (c) of Section 4-118.1 have been made bears to the firefighter's total service credit with all of the pension funds for which the contributions under subsection (c) of Section 4-118.1 have been made. A firefighter who has made contributions under subsection (c) of Section 4-118.1 for at least 5 years of creditable service

shall be deemed to have met the 5-year creditable service requirement under Section 4-110.1, regardless of whether the firefighter has 5 years of creditable service with the last pension fund.

(n) If a firefighter who elects to make contributions under subsection (c) of Section 4-118.1 for the pension benefits provided under this Section becomes entitled to a disability pension under Section 4-111, the last pension fund is responsible to pay that disability pension, provided that the firefighter has at least 7 years of creditable service with the last pension fund.

(40 ILCS 5/4-114) (from Ch. 108 1/2, par. 4-114)

Sec. 4-114. Pension to survivors. If a firefighter who is not receiving a disability pension under Section 4-110 or 4-110.1 dies (1) as a result of any illness or accident, or (2) from any cause while in receipt of a disability pension under this Article, or (3) during retirement after 20 years service, or (4) while vested for or in receipt of a pension payable under subsection (b) of Section 4-109, or (5) while a deferred pensioner, having made all required contributions, a pension shall be paid to his or her survivors, based on the monthly salary attached to the firefighter's rank on the last day of service in the fire department, as follows:

(a) To the surviving spouse, a monthly pension of 40% of the monthly salary, and to the guardian of any minor child or children including a child which has been conceived but not yet born, 12% of such monthly salary for each such child until attainment of age 18 or until the child's marriage, whichever occurs first. Beginning July 1, 1993, the monthly pension to the surviving spouse shall be 54% of the monthly salary for all persons receiving a surviving spouse pension under this Article, regardless of whether the deceased firefighter was in service on or after the effective date of this amendatory Act of 1993.

Beginning July 1, 2004, the total monthly pension payable under this paragraph (a) to the surviving spouse of a firefighter who died while receiving a retirement pension, including any amount payable on account of children, shall be no less than 100% of the monthly retirement pension that the deceased firefighter was receiving at the time of death, including any increases under Section 4-109.1. This minimum applies to all such surviving spouses who are eligible to receive a surviving spouse pension, regardless of whether the deceased firefighter was in service on or after the effective date of this amendatory Act of the 93rd General Assembly, and notwithstanding any limitation on maximum pension under paragraph (d) or any other provision of this Article.

New matter indicated by italics - deletions by strikeout.
The pension to the surviving spouse shall terminate in the event of the surviving spouse's remarriage prior to July 1, 1993; remarriage on or after that date does not affect the surviving spouse's pension, regardless of whether the deceased firefighter was in service on or after the effective date of this amendatory Act of 1993.

The surviving spouse's pension shall be subject to the minimum established in Section 4-109.2.

(b) Upon the death of the surviving spouse leaving one or more minor children, to the duly appointed guardian of each such child, for support and maintenance of each such child until the child reaches age 18 or marries, whichever occurs first, a monthly pension of 20% of the monthly salary.

(c) If a deceased firefighter leaves no surviving spouse or unmarried minor children under age 18, but leaves a dependent father or mother, to each dependent parent a monthly pension of 18% of the monthly salary. To qualify for the pension, a dependent parent must furnish satisfactory proof that the deceased firefighter was at the time of his or her death the sole supporter of the parent or that the parent was the deceased's dependent for federal income tax purposes.

(d) The total pension provided under paragraphs (a), (b) and (c) of this Section shall not exceed 75% of the monthly salary of the deceased firefighter (1) when paid to the survivor of a firefighter who has attained 20 or more years of service credit and who receives or is eligible to receive a retirement pension under this Article, or (2) when paid to the survivor of a firefighter who dies as a result of illness or accident, or (3) when paid to the survivor of a firefighter who dies from any cause while in receipt of a disability pension under this Article, or (4) when paid to the survivor of a deferred pensioner. For all other survivors of deceased firefighters, the total pension provided under paragraphs (a), (b) and (c) of this Section shall not exceed 50% of the retirement annuity the firefighter would have received on the date of death.

The maximum pension limitations in this paragraph (d) do not control over any contrary provision of this Article explicitly establishing a minimum amount of pension or granting a one-time or annual increase in pension.

(e) If a firefighter leaves no eligible survivors under paragraphs (a), (b) and (c), the board shall refund to the firefighter's estate the amount of his or her accumulated contributions, less the amount of pension payments, if any, made to the firefighter while living.
(f) An adopted child is eligible for the pension provided under paragraph (a) if the child was adopted before the firefighter attained age 50.

(g) If a judgment of dissolution of marriage between a firefighter and spouse is judicially set aside subsequent to the firefighter's death, the surviving spouse is eligible for the pension provided in paragraph (a) only if the judicial proceedings are filed within 2 years after the date of the dissolution of marriage and within one year after the firefighter's death and the board is made a party to the proceedings. In such case the pension shall be payable only from the date of the court's order setting aside the judgment of dissolution of marriage.

(h) Benefits payable on account of a child under this Section shall not be reduced or terminated by reason of the child's attainment of age 18 if he or she is then dependent by reason of a physical or mental disability but shall continue to be paid as long as such dependency continues. Individuals over the age of 18 and adjudged as a disabled person pursuant to Article Xla of the Probate Act of 1975, except for persons receiving benefits under Article III of the Illinois Public Aid Code, shall be eligible to receive benefits under this Act.

(i) Beginning January 1, 2000, the pension of the surviving spouse of a firefighter who dies on or after January 1, 1994 as a result of sickness, accident, or injury incurred in or resulting from the performance of an act of duty or from the cumulative effects of acts of duty shall not be less than 100% of the salary attached to the rank held by the deceased firefighter on the last day of service, notwithstanding subsection (d) or any other provision of this Article.

(j) Beginning July 1, 2004, the pension of the surviving spouse of a firefighter who dies on or after January 1, 1988 as a result of sickness, accident, or injury incurred in or resulting from the performance of an act of duty or from the cumulative effects of acts of duty shall not be less than 100% of the salary attached to the rank held by the deceased firefighter on the last day of service, notwithstanding subsection (d) or any other provision of this Article.

her pension. Beginning on the effective date of this amendatory Act of the 91st General Assembly, each firefighter shall contribute to the pension fund 6.955% of salary towards the cost of his or her pension.

(b) In addition, beginning January 1, 1976, each firefighter shall contribute 1% of salary toward the cost of the increase in pension provided in Section 4-109.1; beginning January 1, 1987, such contribution shall be 1.5% of salary; beginning July 1, 2004, the contribution shall be 2.5% of salary.

In the event that a firefighter does not elect to receive a retirement pension provided under Section 4-109.3 from one or more of the pension funds in which the firefighter has credit, he or she shall, upon withdrawal from the last pension fund as defined in Section 4-109.3, be entitled to receive, from each such fund to which he or she has paid additional contributions under this subsection (c) and from which he or she does not receive a refund under Section 4-116, a refund of those contributions without interest.

A refund of total contributions to a particular firefighter pension fund under Section 4-116 shall include any refund of additional contributions paid to that fund under this subsection (c), but a firefighter who accepts a refund from a pension fund under Section 4-116 is thereafter ineligible to receive a pension provided under Section 4-109.3 from that fund. A firefighter who meets the eligibility requirements of Section 4-109.3 may receive a pension under Section 4-109.3 from any pension fund from which the firefighter has not received a refund under Section 4-116 or under this subsection (c).

(d) "Salary" means the annual salary, including longevity, attached to the firefighter's rank, as established by the municipality appropriation ordinance, including any compensation for overtime which is included in the salary so established, but excluding any "overtime pay", "holiday pay", "bonus pay", "merit pay", or any other cash benefit not included in the salary so established.

For the taxes which are extended for the 1997 levy year, the recovered tax increment value for a non-home rule taxing district that first became subject to this Law for the 1995 levy year because a majority of its 1994 equalized assessed value was in an affected county or counties shall be increased if a municipality terminated the designation of an area in 1993 as a redevelopment project area previously established under the Tax Increment Allocation Development Act in the Illinois Municipal Code, previously established under the Industrial Jobs Recovery Law in the Illinois Municipal Code, or previously established under the Economic

Except as otherwise provided in this Section, "limiting rate" means a fraction the numerator of which is the last preceding aggregate extension base times an amount equal to one plus the extension limitation defined in this Section and the denominator of which is the current year's equalized assessed value of all real property in the territory under the jurisdiction of the taxing district during the prior levy year. For those taxing districts that reduced their aggregate extension for the last preceding levy year, the highest aggregate extension in any of the last 3 preceding levy years shall be used for the purpose of computing the limiting rate. The denominator shall not include new property. The denominator shall not include the recovered tax increment value.

Any premium and all interest earnings on the proceeds of the bonds so issued shall be used for the purposes for which the bonds were issued. The proceeds of any bonds issued under this Section shall be deposited and accounted for separately within the district's site and construction/capital improvements fund. The recording officer of the board shall file in the office of the county clerk of each county in which a portion of the district is situated a certified copy of the resolution providing for the issuance of the bonds and levy of a tax without limit as to rate or amount to pay the bonds. (f) If bonds under this Section have been issued by the school district and the purposes for which the bonds have been issued are accomplished and paid for in full and there remain funds on hand from the proceeds of the bonds or interest earnings or premiums, then the school board, by resolution, shall transfer those excess funds to the district's bond and interest fund for the purpose of abating taxes to pay debt service on the bonds or for defeasance of the debt or both.

If the project is completed and, therefore, all costs have been paid for in full and there remain funds on hand, including any interest earnings thereon, from the insurance coverage, legal judgment, or settlement, then a portion of those excess funds equal to the State's share of the construction cost of the project shall be paid to the State of Illinois for deposit into the School Construction Fund or other State fund from which the construction grant was paid, and the remainder of the excess funds shall be transferred to the district's bond and interest fund for the purpose of abating taxes to pay debt service on the bonds or for defeasance of the debt or both. AN ACT in relation to zoning.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Illinois Municipal Code is amended by changing Section 11-13-1 as follows:

(65 ILCS 5/11-13-1) (from Ch. 24, par. 11-13-1)
Sec. 11-13-1. To the end that adequate light, pure air, and safety from fire and other dangers may be secured, that the taxable value of land and buildings throughout the municipality may be conserved, that congestion in the public streets may be lessened or avoided, that the hazards to persons and damage to property resulting from the accumulation or runoff of storm or flood waters may be lessened or avoided, and that the public health, safety, comfort, morals, and welfare may otherwise be promoted, and to insure and facilitate the preservation of sites, areas, and structures of historical, architectural and aesthetic importance; the corporate authorities in each municipality have the following powers:

(1) To regulate and limit the height and bulk of buildings hereafter to be erected; (2) to establish, regulate and limit, subject to the provisions of Division 14 of this Article 11, the building or set-back lines on or along any street, traffic-way, drive, parkway or storm or floodwater runoff channel or basin; (3) to regulate and limit the intensity of the use of lot areas, and to regulate and determine the area of open spaces, within and surrounding such buildings; (4) to classify, regulate and restrict the location of trades and industries and the location of buildings designed for specified industrial, business, residential, and other uses; (5) to divide the entire municipality into districts of such number, shape, area, and of such different classes (according to use of land and buildings, height and bulk of buildings, intensity of the use of lot area, area of open spaces, or other classification) as may be deemed best suited to carry out the purposes of this Division 13; (6) to fix standards to which buildings or structures therein shall conform; (7) to prohibit uses, buildings, or structures incompatible with the character of such districts; (8) to prevent additions to and alteration or remodeling of existing buildings or structures in such a way as to avoid the restrictions and limitations lawfully imposed under this Division 13; (9) to classify, to regulate and restrict the use of property on the basis of family relationship, which family relationship may be defined as one or more persons each related to

the other by blood, marriage or adoption and maintaining a common household; and (10) to regulate or forbid any structure or activity which may hinder access to solar energy necessary for the proper functioning of a solar energy system, as defined in Section 1.2 of The Comprehensive Solar Energy Act of 1977.

The powers enumerated may be exercised within the corporate limits or within contiguous territory not more than one and one-half miles beyond the corporate limits and not included within any municipality. However, if any municipality adopts a plan pursuant to Division 12 of Article 11 which plan includes in its provisions a provision that the plan applies to such contiguous territory not more than one and one-half miles beyond the corporate limits and not included in any municipality, then no other municipality shall adopt a plan that shall apply to any territory included within the territory provided in the plan first so adopted by another municipality. No municipality shall exercise any power set forth in this Division 13 outside the corporate limits thereof, if the county in which such municipality is situated has adopted "An Act in relation to county zoning", approved June 12, 1935, as amended. Nothing in this Section prevents a municipality of more than 112,000 population located in a county of less than 185,000 population that has adopted a zoning ordinance and the county that adopted the zoning ordinance from entering into an intergovernmental agreement that allows the municipality to exercise its zoning powers beyond its territorial limits; provided, however, that the intergovernmental agreement must be limited to the territory within the municipality's planning jurisdiction as defined by law or any existing boundary agreement. The county and the municipality must amend their individual zoning maps in the same manner as other zoning changes are incorporated into revised zoning maps. No such intergovernmental agreement may authorize a municipality to exercise its zoning powers, other than powers that a county may exercise under Section 5-12001 of the Counties Code, with respect to land used for agricultural purposes. This amendatory Act of the 92nd General Assembly is declarative of existing law. No municipality may exercise any power set forth in this Division 13 outside the corporate limits of the municipality with respect to a facility of a telecommunications carrier defined in Section 5-12001.1 of the Counties Code.

Notwithstanding any other provision of law to the contrary, at least 30 days prior to commencing construction of a new telecommunications facility within 1.5 miles of a municipality, the

telecommunications carrier constructing the facility shall provide written notice of its intent to construct the facility. The notice shall include, but not be limited to, the following information: (i) the name, address, and telephone number of the company responsible for the construction of the facility and (ii) the address and telephone number of the governmental entity that issued the building permit for the telecommunications facility. The notice shall be provided in person, by overnight private courier, or by certified mail to all owners of property within 250 feet of the parcel in which the telecommunications carrier has a leasehold or ownership interest. For the purposes of this notice requirement, "owners" means those persons or entities identified from the authentic tax records of the county in which the telecommunications facility is to be located. If, after a bona fide effort by the telecommunications carrier to determine the owner and his or her address, the owner of the property on whom the notice must be served cannot be found at the owner’s last known address, or if the mailed notice is returned because the owner cannot be found at the last known address, the notice requirement of this paragraph is deemed satisfied. For the purposes of this paragraph, “facility” means that term as it is defined in Section 5-12001.1 of the Counties Code.

If a municipality adopts a zoning plan covering an area outside its corporate limits, the plan adopted shall be reasonable with respect to the area outside the corporate limits so that future development will not be hindered or impaired; it is reasonable for a municipality to regulate or prohibit the extraction of sand, gravel, or limestone even when those activities are related to an agricultural purpose. If all or any part of the area outside the corporate limits of a municipality which has been zoned in accordance with the provisions of this Division 13 is annexed to another municipality or municipalities, the annexing unit shall thereafter exercise all zoning powers and regulations over the annexed area.

In all ordinances passed under the authority of this Division 13, due allowance shall be made for existing conditions, the conservation of property values, the direction of building development to the best advantage of the entire municipality and the uses to which the property is devoted at the time of the enactment of such an ordinance. The powers conferred by this Division 13 shall not be exercised so as to deprive the owner of any existing property of its use or maintenance for the purpose to which it is then lawfully devoted, but provisions may be made for the gradual elimination of uses, buildings and structures which are incompatible with the character of the districts in which they are made or

located, including, without being limited thereto, provisions (a) for the
elimination of such uses of unimproved lands or lot areas when the
existing rights of the persons in possession thereof are terminated or when
the uses to which they are devoted are discontinued; (b) for the elimination
of uses to which such buildings and structures are devoted, if they are
adaptable for permitted uses; and (c) for the elimination of such buildings
and structures when they are destroyed or damaged in major part, or when
they have reached the age fixed by the corporate authorities of the
municipality as the normal useful life of such buildings or structures.

This amendatory Act of 1971 does not apply to any municipality
which is a home rule unit.

For purposes of this paragraph, the defendant may not be considered the victim's representative. If the court finds that the fine would impose an undue burden on the victim, the court may reduce or waive the fine. The court shall order that the defendant may not use funds belonging solely to the victim of the offense for payment of the fine.

(2) Sexual assault fines shall be assessed by the court imposing the sentence and shall be collected by the circuit clerk. The circuit clerk shall retain 10% of the penalty to cover the costs.

(h) Restitution. The court shall, in addition to any other sentence authorized by law, sentence a person convicted of violating Section 16-19 to make restitution in the manner provided in Article 5 of Chapter V of the Unified Code of Corrections.

(i) Forfeiture of unlawful communication or access devices. Upon conviction of a defendant under Section 16-19, the court may, in addition to any other sentence authorized by law, direct that the defendant forfeit any unlawful communication or access devices in the defendant's possession or control which were involved in the violation for which the defendant was convicted.

AN ACT concerning municipalities.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Illinois Municipal Code is amended by changing Section 11-91-1 as follows:

(65 ILCS 5/11-91-1) (from Ch. 24, par. 11-91-1)
Sec. 11-91-1. Whenever the corporate authorities of any municipality, whether incorporated by special act or under any general law, determine that the public interest will be subserved by vacating any street or alley, or part thereof, within their jurisdiction in any incorporated area, they may vacate that street or alley, or part thereof, by an ordinance. The ordinance shall provide the legal description or permanent index number of the particular parcel or parcels of property acquiring title to the vacated property. But this ordinance shall be passed by the affirmative vote of at least three-fourths of the aldermen, trustees or commissioners then holding office. This vote shall be taken by ayes and noes and entered on the records of the corporate authorities.

No ordinance shall be passed vacating any street or alley under a municipality's jurisdiction and within an unincorporated area without notice thereof and a hearing thereon. At least 15 days prior to such a hearing, notice of its time, place and subject matter shall be published in a newspaper of general circulation within the unincorporated area which the street or alley proposed for vacation serves. At the hearing all interested persons shall be heard concerning the proposal for vacation.

The ordinance may provide that it shall not become effective until the owners of all property or the owner or owners of a particular parcel or

parcels of property abutting upon the street or alley, or part thereof so
vacated, shall pay compensation in an amount which, in the judgment of
the corporate authorities, shall be the fair market value of the property
acquired or of the benefits which will accrue to them by reason of that
vacation, and if there are any public service facilities in such street or
alley, or part thereof, the ordinance shall may also reserve to the
municipality or to the public utility, as the case may be, owning such
facilities, such property, rights of way and easements as, in the judgment
of the corporate authorities, are necessary or desirable for continuing
public service by means of those facilities and for the maintenance,
renewal and reconstruction thereof. If the ordinance provides that only the
owner or owners of one particular parcel of abutting property shall make
payment, then the owner or owners of the particular parcel shall acquire
title to the entire vacated street or alley, or the part thereof vacated.

The determination of the corporate authorities that the nature and
extent of the public use or public interest to be subserved in such as to
warrant the vacation of any street or alley, or part thereof, is conclusive,
and the passage of such an ordinance is sufficient evidence of that
determination, whether so recited in the ordinance or not. The relief to the
public from further burden and responsibility of maintaining any street or
alley, or part thereof, constitutes a public use or public interest authorizing
the vacation.

When property is damaged by the vacation or closing of any street
or alley, the damage shall be ascertained and paid as provided by law.

Following receipt of the request, the State Board shall have 45 days to review the application and request. If the State Board fails to disapprove the application within that 45 day period, the waiver or modification shall be deemed granted. The State Board may disapprove any request if it is not based upon sound educational practices, endangers the health or safety of students or staff, compromises equal opportunities for learning, or fails to demonstrate that the intent of the rule or mandate can be addressed in a more effective, efficient, or economical manner or have improved student performance as a primary goal. Any request disapproved by the State Board may be appealed to the General Assembly by the eligible applicant requesting school district as outlined in this Section.

A request for a waiver from mandates contained in this School Code shall be submitted to the State Board within 15 days after approval by the board or regional superintendent of schools of education. The application as submitted to the State Board of Education shall include a description of the public hearing. The description shall include, but need not be limited to, the means of notice, the number of people in attendance, the number of people who spoke as proponents or opponents of the waiver, a brief description of their comments, and whether there were any written statements submitted. The State Board shall review the applications and requests for completeness and shall compile the requests in reports to be filed with the General Assembly. The State Board shall file reports outlining the waivers requested by eligible applicants school districts and appeals by eligible applicants school districts of requests disapproved by the State Board with the Senate and the House of Representatives before each May 1 and October 1. The General Assembly may disapprove the report of the State Board in whole or in part within 30

calendar days after each house of the General Assembly next convenes after the report is filed by adoption of a resolution by a record vote of the majority of members elected in each house. If the General Assembly fails to disapprove any waiver request or appealed request within such 30 day period, the waiver or modification shall be deemed granted. Any resolution adopted by the General Assembly disapproving a report of the State Board in whole or in part shall be binding on the State Board.

(e) An approved waiver or modification may remain in effect for a period not to exceed 5 school years and may be renewed upon application by the eligible applicant school district. However, such waiver or modification may be changed within that 5-year period by a local school district board or regional superintendent of schools applying on behalf of schools or programs operated by the regional office of education following the procedure as set forth in this Section for the initial waiver or modification request. If neither the State Board of Education nor the General Assembly disapproves, the change is deemed granted.

(f) On or before February 1, 1998, and each year thereafter, the State Board of Education shall submit a cumulative report summarizing all types of waivers of waiver mandates and modifications of mandates granted by the State Board or the General Assembly. The report shall identify the topic of the waiver along with the number and percentage of eligible applicants school districts for which the waiver has been granted. The report shall also include any recommendations from the State Board regarding the repeal or modification of waived mandates.

Sec. 11-74.4-3. Definitions. The following terms, wherever used or referred to in this Division 74.4 shall have the following respective meanings, unless in any case a different meaning clearly appears from the context.

(a) For any redevelopment project area that has been designated pursuant to this Section by an ordinance adopted prior to November 1, 1999 (the effective date of Public Act 91-478), "blighted area" shall have the meaning set forth in this Section prior to that date.

On and after November 1, 1999, "blighted area" means any improved or vacant area within the boundaries of a redevelopment project area located within the territorial limits of the municipality where:

(1) If improved, industrial, commercial, and residential buildings or improvements are detrimental to the public safety, health, or welfare because of a combination of 5 or more of the following factors, each of which is (i) present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) reasonably distributed throughout the improved part of the redevelopment project area:

(A) Dilapidation. An advanced state of disrepair or neglect of necessary repairs to the primary structural components of buildings or improvements in such a combination that a documented building condition analysis determines that major repair is required or the defects are so serious and so extensive that the buildings must be removed.

(B) Obsolescence. The condition or process of falling into disuse. Structures have become ill-suited for the original use.

(C) Deterioration. With respect to buildings, defects including, but not limited to, major defects in the secondary building components such as doors, windows, porches, gutters and downspouts, and fascia. With respect to surface improvements, that the condition of roadways, alleys, curbs, gutters, sidewalks, off-street parking, and surface storage areas evidence deterioration, including, but not limited to, surface cracking, crumbling, potholes,
depressions, loose paving material, and weeds protruding through paved surfaces.

(D) Presence of structures below minimum code standards. All structures that do not meet the standards of zoning, subdivision, building, fire, and other governmental codes applicable to property, but not including housing and property maintenance codes.

(E) Illegal use of individual structures. The use of structures in violation of applicable federal, State, or local laws, exclusive of those applicable to the presence of structures below minimum code standards.

(F) Excessive vacancies. The presence of buildings that are unoccupied or under-utilized and that represent an adverse influence on the area because of the frequency, extent, or duration of the vacancies.

(G) Lack of ventilation, light, or sanitary facilities. The absence of adequate ventilation for light or air circulation in spaces or rooms without windows, or that require the removal of dust, odor, gas, smoke, or other noxious airborne materials. Inadequate natural light and ventilation means the absence of skylights or windows for interior spaces or rooms and improper window sizes and amounts by room area to window area ratios. Inadequate sanitary facilities refers to the absence or inadequacy of garbage storage and enclosure, bathroom facilities, hot water and kitchens, and structural inadequacies preventing ingress and egress to and from all rooms and units within a building.

(H) Inadequate utilities. Underground and overhead utilities such as storm sewers and storm drainage, sanitary sewers, water lines, and gas, telephone, and electrical services that are shown to be inadequate. Inadequate utilities are those that are: (i) of insufficient capacity to serve the uses in the redevelopment project area, (ii) deteriorated, antiquated, obsolete, or in disrepair, or (iii) lacking within the redevelopment project area.

(I) Excessive land coverage and overcrowding of structures and community facilities. The over-intensive use of property and the crowding of buildings and accessory

facilities onto a site. Examples of problem conditions warranting the designation of an area as one exhibiting excessive land coverage are: (i) the presence of buildings either improperly situated on parcels or located on parcels of inadequate size and shape in relation to present-day standards of development for health and safety and (ii) the presence of multiple buildings on a single parcel. For there to be a finding of excessive land coverage, these parcels must exhibit one or more of the following conditions: insufficient provision for light and air within or around buildings, increased threat of spread of fire due to the close proximity of buildings, lack of adequate or proper access to a public right-of-way, lack of reasonably required off-street parking, or inadequate provision for loading and service.

(J) Deleterious land use or layout. The existence of incompatible land-use relationships, buildings occupied by inappropriate mixed-uses, or uses considered to be noxious, offensive, or unsuitable for the surrounding area.

(K) Environmental clean-up. The proposed redevelopment project area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.
