Sec. 2-3.13a. School records; transferring students.

(a) The State Board of Education shall establish and implement rules requiring all of the public schools and all private or nonpublic elementary and secondary schools located in this State, whenever any such school has a student who is transferring to any other public elementary or secondary school located in this or in any other state, to forward within 10 days of notice of the student's transfer an unofficial record of that student's grades to the school to which such student is transferring. Each public school at the same time also shall forward to the school to which the student is transferring the remainder of the student's school student records as required by the Illinois School Student Records Act. In addition, if a student is transferring from a public school, whether located in this or any other state, from which the student has been suspended or expelled for knowingly possessing in a school building or on school grounds a weapon as defined in the Gun Free Schools Act (20 U.S.C. 8921 et seq.), for knowingly possessing, selling, or delivering in a school building or on school grounds a controlled substance or cannabis, or for battering a staff member of the school, and if the period of suspension or expulsion has not expired at the time the student attempts to transfer into another public school in the same or any other school district: (i) any school student records required to be transferred shall include the date and duration of the period of suspension or expulsion; and (ii) with the exception of transfers into the Department of Juvenile Justice Corrections school district, the student shall not be permitted to attend class in the public school into which he or she is transferring until the student has served the entire period of the suspension or expulsion imposed by the school from

which the student is transferring, provided that the school board may approve the placement of the student in an alternative school program established under Article 13A of this Code. A school district may adopt a policy providing that if a student is suspended or expelled for any reason from any public or private school in this or any other state, the student must complete the entire term of the suspension or expulsion before being admitted into the school district. This policy may allow placement of the student in an alternative school program established under Article 13A of this Code, if available, for the remainder of the suspension or expulsion. Each public school and each private or nonpublic elementary or secondary school in this State shall within 10 days after the student has paid all of his or her outstanding fines and fees and at its own expense forward an official transcript of the scholastic records of each student transferring from that school in strict accordance with the provisions of this Section and the rules established by the State Board of Education as herein provided.

(b) The State Board of Education shall develop a one-page standard form that Illinois school districts are required to provide to any student who is moving out of the school district and that contains the information about whether or not the student is "in good standing" and whether or not his or her medical records are up-to-date and complete. As used in this Section, "in good standing" means that the student is not being disciplined by a suspension or expulsion, but is entitled to attend classes. No school district is required to admit a new student who is transferring from another Illinois school district unless he or she can produce the standard form from the student's previous school district enrollment. No school district is required to admit a new student who is transferring from an out-of-state public school unless the parent or guardian of the student certifies in writing that the student is not currently serving a suspension or expulsion imposed by the school from which the student is transferring.

(c) The State Board of Education shall, by rule, establish a system to provide for the accurate tracking of transfer students. This system shall, at a minimum, require that a student be counted as a dropout in the calculation of a school's or school district's annual student dropout rate unless the school or school district to which the student transferred (known hereafter in this subsection (c) as the transferee school or school district) sends notification to the school or school district from which the student transferred (known hereafter in this subsection (c) as the transferor school or school district) documenting that the student has enrolled in the transferee school or school district. This notification must occur within 150 days after the date the

student withdraws from the transferor school or school district or the student shall be counted in the calculation of the transferor school's or school district's annual student dropout rate. A request by the transferee school or school district to the transferor school or school district seeking the student's academic transcripts or medical records shall be considered without limitation adequate documentation of enrollment. Each transferor school or school district shall keep documentation of such transfer students for the minimum period provided in the Illinois School Student Records Act. In making its determination, the court shall consider among other matters: (a) whether there is evidence that the offense was committed in an aggressive and premeditated manner; (b) the age of the minor; (c) the previous delinquent history of the minor; (d) whether there are facilities particularly available to the Juvenile Court or the Department of Juvenile Justice for the treatment and rehabilitation of the minor; (e) whether the security of the public requires sentencing under Chapter V of the Unified Code of Corrections; and (f) whether the minor possessed a deadly weapon when committing the offense. The rules of evidence shall be the same as if at trial. If after the hearing the court finds that the minor should be sentenced under Chapter V of the Unified Code of Corrections, then the court shall sentence the minor accordingly having available to it any or all dispositions so prescribed.

(6) The definition of delinquent minor under Section 5-120 of this Article shall not apply to any minor who, pursuant to subsection (1); or (3) or Section 5-805; or 5-810, has previously been placed under the jurisdiction of the criminal court and has been convicted of a crime under an adult criminal or penal statute. Such a minor shall be subject to prosecution under the criminal laws of this State.

(7) The procedures set out in this Article for the investigation, arrest and prosecution of juvenile offenders shall not apply to minors who are excluded from jurisdiction of the Juvenile Court, except that minors under 17 years of age shall be kept separate from confined adults.

(8) Nothing in this Act prohibits or limits the prosecution of any minor for an offense committed on or after his or her 17th birthday even though he or she is at the time of the offense a ward of the court.

(9) If an original petition for adjudication of wardship alleges the
commission by a minor 13 years of age or over of an act that constitutes a crime under the laws of this State, the minor, with the consent of his or her counsel, may, at any time before commencement of the adjudicatory hearing, file with the court a motion that criminal prosecution be ordered and that the petition be dismissed insofar as the act or acts involved in the criminal proceedings are concerned. If such a motion is filed as herein provided, the court shall enter its order accordingly.

(10) If, prior to August 12, 2005 (the effective date of Public Act 94-574) this amendatory Act of the 94th General Assembly, a minor is charged with a violation of Section 401 of the Illinois Controlled Substances Act under the criminal laws of this State, other than a minor charged with a Class X felony violation of the Illinois Controlled Substances Act or the Methamphetamine Control and Community Protection Act, any party including the minor or the court sua sponte may, before trial, move for a hearing for the purpose of trying and sentencing the minor as a delinquent minor. To request a hearing, the party must file a motion prior to trial. Reasonable notice of the motion shall be given to all parties. On its own motion or upon the filing of a motion by one of the parties including the minor, the court shall conduct a hearing to determine whether the minor should be tried and sentenced as a delinquent minor under this Article. In making its determination, the court shall consider among other matters:

(a) The age of the minor;
(b) Any previous delinquent or criminal history of the minor;
(c) Any previous abuse or neglect history of the minor;
(d) Any mental health or educational history of the minor, or both;
and
(e) Whether there is probable cause to support the charge, whether the minor is charged through accountability, and whether there is evidence the minor possessed a deadly weapon or caused serious bodily harm during the offense.

Any material that is relevant and reliable shall be admissible at the hearing. In all cases, the judge shall enter an order permitting prosecution under the criminal laws of Illinois unless the judge makes a finding based on a preponderance of the evidence that the minor would be amenable to the care, treatment, and training programs available through the facilities of the juvenile court based on an evaluation of the factors listed in this subsection (10).

Sec. 5-705. Sentencing hearing; evidence; continuance.

(1) At the sentencing hearing, the court shall determine whether it is in the best interests of the minor or the public that he or she be made a ward of the court, and, if he or she is to be made a ward of the court, the court shall determine the proper disposition best serving the interests of the minor and the public. All evidence helpful in determining these questions, including oral and written reports, may be admitted and may be relied upon to the extent of its probative value, even though not competent for the purposes of the trial. A record of a prior continuance under supervision under Section 5-615, whether successfully completed or not, is admissible at the sentencing hearing. No order of commitment to the Department of Juvenile Justice Corrections, Juvenile Division; shall be entered against a minor before a written report of social investigation, which has been completed within the previous 60 days, is presented to and considered by the court.

(2) Once a party has been served in compliance with Section 5-525, no further service or notice must be given to that party prior to proceeding to a sentencing hearing. Before imposing sentence the court shall advise the State's Attorney and the parties who are present or their counsel of the factual contents and the conclusions of the reports prepared for the use of the court and considered by it, and afford fair opportunity, if requested, to controvert them. Factual contents, conclusions, documents and sources disclosed by the court under this paragraph shall not be further disclosed without the express approval of the court.

(3) On its own motion or that of the State's Attorney, a parent, guardian, legal custodian, or counsel, the court may adjourn the hearing for a reasonable period to receive reports or other evidence and, in such event, shall make an appropriate order for detention of the minor or his or her release from detention subject to supervision by the court during the period of the continuance. In the event the court shall order detention hereunder, the period of the continuance shall not exceed 30 court days. At the end of such time, the court shall release the minor from detention unless notice is served at least 3 days prior to the hearing on the continued date that the State will be seeking an extension of the period of detention, which notice shall state the reason for the request for the extension. The extension of detention may be for a maximum period of an additional 15 court days or a lesser number of days at the discretion of the court. However, at the expiration of the period of extension, the court shall release the minor from detention if a further continuance is granted. In scheduling investigations and hearings, the court shall give priority to proceedings in which a minor is in detention or has

otherwise been removed from his or her home before a sentencing order has been made.  (4) When commitment to the Department of Juvenile Justice Corrections, Juvenile Division, is ordered, the court shall state the basis for selecting the particular disposition, and the court shall prepare such a statement for inclusion in the record.

   (i) put on probation or conditional discharge and released to his or her parents, guardian or legal custodian, provided, however, that any such minor who is not committed to the Department of Juvenile Justice Corrections, Juvenile Division under this subsection and who is found to be a delinquent for an offense which is first degree murder, a Class X felony, or a forcible felony shall be placed on probation;

However, the 30-day limitation may be extended by further order of the court for a minor under age 13 committed to the Department of Children and Family Services if the court finds that the minor is a danger to himself or others. The minor shall be given credit on the sentencing order of detention for time spent in detention under Sections 5-501, 5-601, 5-710, or 5-720 of this
Article as a result of the offense for which the sentencing order was imposed. The court may grant credit on a sentencing order of detention entered under a violation of probation or violation of conditional discharge under Section 5-720 of this Article for time spent in detention before the filing of the petition alleging the violation. (ix) ordered to undergo a medical or other procedure to have a tattoo symbolizing allegiance to a street gang removed from his or her body.

(b) A minor found to be guilty may be committed to the Department of Juvenile Justice Corrections, Juvenile Division, under Section 5-750 if the minor is 13 years of age or older, provided that the commitment to the Department of Juvenile Justice Corrections, Juvenile Division, shall be made only if a term of incarceration is permitted by law for adults found guilty of the offense for which the minor was adjudicated delinquent. The time during which a minor is in custody before being released upon the request of a parent, guardian or legal custodian shall be considered as time spent in detention.

(c) When a minor is found to be guilty for an offense which is a violation of the Illinois Controlled Substances Act, the Cannabis Control Act, or the Methamphetamine Control and Community

Protection Act and made a ward of the court, the court may enter a disposition order requiring the minor to undergo assessment, counseling or treatment in a substance abuse program approved by the Department of Human Services.

(2) Any sentencing order other than commitment to the Department of Juvenile Justice Corrections, Juvenile Division, may provide for protective supervision under Section 5-725 and may include an order of protection under Section 5-730.

(3) Unless the sentencing order expressly so provides, it does not operate to close proceedings on the pending petition, but is subject to modification until final closing and discharge of the proceedings under Section 5-750.

(4) In addition to any other sentence, the court may order any minor found to be delinquent to make restitution, in monetary or non-monetary form, under the terms and conditions of Section 5-5-6 of the Unified Code of Corrections, except that the "presentencing hearing" referred to in that Section shall be the sentencing hearing for purposes of this Section. The parent, guardian or legal custodian of the minor may be ordered by the court to pay some or all of the restitution on the minor's behalf, pursuant to the Parental Responsibility Law. The State's Attorney is authorized to act on behalf of any victim in seeking restitution in proceedings under this Section, up to the maximum amount allowed in Section 5 of the Parental Responsibility Law.

(5) Any sentencing order where the minor is committed or placed in accordance with Section 5-740 shall provide for the parents or guardian of the estate of the minor to pay to the legal custodian or guardian of the person of the minor such sums as are determined by the custodian or guardian of the person of the minor as necessary for the minor's needs. The payments may not exceed the maximum amounts provided for by Section 9.1 of the Children and Family Services Act.

(6) Whenever the sentencing order requires the minor to attend school or participate in a program of training, the truant officer or designated school official shall regularly report to the court if the minor is a chronic or habitual truant under Section 26-2a of the School Code.

(7) In no event shall a guilty minor be committed to the Department of Juvenile Justice Corrections, Juvenile Division for a period of time in excess of that period for which an adult could be committed for the same act.

(8) A minor found to be guilty for reasons that include a violation of Section 21-1.3 of the Criminal Code of 1961 shall be ordered to perform
community service for not less than 30 and not more than 120 hours, if community service is available in the jurisdiction. The order may be in addition to any other order authorized by this Section.

(8.5) A minor found to be guilty for reasons that include a violation of Section 3.02 or Section 3.03 of the Humane Care for Animals Act or paragraph (d) of subsection (1) of Section 21-1 of the Criminal Code of 1961 shall be ordered to undergo medical or psychiatric treatment rendered by a psychiatrist or psychological treatment rendered by a clinical psychologist. Any medical test shall be performed only by appropriately licensed medical practitioners and may include an analysis of any bodily fluids as well as an examination of the minor's person. Except as otherwise provided by law, the results of the test shall be kept strictly confidential by all medical personnel involved in the testing and must be personally delivered in a sealed envelope to the judge of the court in which the sentencing order was entered for the judge's inspection in camera. Acting in accordance with the best interests of the victim and the public, the judge shall have the discretion to determine to whom the results of the testing may be revealed. The court shall notify the minor of the results of the test for infection with the human immunodeficiency virus (HIV). The court shall also notify the victim if requested by the victim, and if the victim is under the age of 15 and if requested by the victim's parents or legal guardian, the court shall notify the victim's parents or the legal guardian, of the results of the test for infection with the human immunodeficiency virus (HIV). The court shall provide information on the availability of HIV testing and counseling at the Department of Public Health facilities to all parties to whom the results of the testing are revealed. The court shall order that the cost of any test shall be paid by the county and may be taxed as costs against the minor.

(10) When a court finds a minor to be guilty the court shall, before entering a sentencing order under this Section, make a finding whether the offense committed either: (a) was related to or in furtherance of the criminal activities of an organized gang or was motivated by the minor's membership in or allegiance to an organized gang, or (b) involved a violation of subsection (a) of Section 12-7.1 of the Criminal Code of 1961, a violation of any Section of Article 24 of the Criminal Code of 1961, or a violation of any statute that involved the wrongful use of a firearm. If the court determines the question in the affirmative, and the court does not commit the minor to the Department of Juvenile Justice Corrections, Juvenile Division, the court shall order the minor to perform community service for not less than 30 hours nor more than 120 hours, provided that community service is available in the jurisdiction and is funded and approved by the county board of the county where the offense was committed. The community service shall include, but need not be limited to, the cleanup and repair of any damage caused by a violation of Section 21-1.3 of the Criminal Code of 1961 and similar damage to property located in the municipality or county in which the violation occurred. When possible and reasonable, the community service shall be performed in the minor's neighborhood. This order shall be in addition to any other order authorized by this Section except for an order to place the minor in the custody of the Department of Juvenile Justice Corrections, Juvenile Division. For the purposes of this Section, "organized gang" has the meaning ascribed to it in Section 10 of the Illinois Streetgang Terrorism Omnibus Prevention Act.

Sec. 5-750. Commitment to the Department of Juvenile Justice Corrections, Juvenile Division.

(1) Except as provided in subsection (2) of this Section, when any delinquent has been adjudged a ward of the court under this Act, the court may commit him or her to the Department of Juvenile Justice Corrections, Juvenile Division, if it finds that (a) his or her parents, guardian or legal custodian are unfit or are unable, for some reason other than financial circumstances alone, to care for, protect, train or discipline the minor, or are unwilling to do so, and the best interests of the minor and the public will not be served by placement under Section 5-740 or; (b) it is necessary to ensure the protection of the public from the consequences of criminal activity of the delinquent.

(2) When a minor of the age of at least 13 years is adjudged
delinquent for the offense of first degree murder, the court shall declare the minor a ward of the court and order the minor committed to the Department of Juvenile Justice Corrections, Juvenile Division, until the minor's 21st birthday, without the possibility of parole, furlough, or non-emergency authorized absence for a period of 5 years from the date the minor was committed to the Department of Juvenile Justice Corrections, except that the time that a minor spent in custody for the instant offense before being committed to the Department of Juvenile Justice shall be considered as time credited towards that 5 year period. Nothing in this subsection (2) shall preclude the State's Attorney from seeking to prosecute a minor as an adult as an alternative to proceeding under this Act.

(3) Except as provided in subsection (2), the commitment of a delinquent to the Department of Juvenile Justice Corrections shall be for an indeterminate term which shall automatically terminate upon the delinquent attaining the age of 21 years unless the delinquent is sooner discharged from parole or custodianship is otherwise terminated in accordance with this Act or as otherwise provided for by law.

(4) When the court commits a minor to the Department of Juvenile Justice Corrections, it shall order him or her conveyed forthwith to the appropriate reception station or other place designated by the Department of Juvenile Justice Corrections, and shall appoint the Assistant Director of Juvenile Justice Corrections, Juvenile Division, legal custodian of the minor. The clerk of the court shall issue to the Assistant Director of Juvenile Justice Corrections, Juvenile Division, a certified copy of the order, which constitutes proof of the Director's authority. No other process need issue to warrant the keeping of the minor.

(5) If a minor is committed to the Department of Juvenile Justice Corrections, Juvenile Division, the clerk of the court shall forward to the Department:

(a) the disposition ordered;
(b) all reports;
(c) the court's statement of the basis for ordering the disposition; and
(d) all additional matters which the court directs the clerk to transmit.

(6) Whenever the Department of Juvenile Justice Corrections lawfully discharges from its custody and control a minor committed to it, the Assistant Director of Juvenile Justice Corrections, Juvenile Division, shall petition the court for an order terminating his or her custodianship. The custodianship
shall terminate automatically 30 days after receipt of the petition unless the court orders otherwise.

Sec. 5-815. Habitual Juvenile Offender.
(a) Definition. Any minor having been twice adjudicated a delinquent minor for offenses which, had he been prosecuted as an adult, would have been felonies under the laws of this State, and who is thereafter adjudicated a delinquent minor for a third time shall be adjudged an Habitual Juvenile Offender where:

1. the third adjudication is for an offense occurring after adjudication on the second; and
2. the second adjudication was for an offense occurring after adjudication on the first; and
3. the third offense occurred after January 1, 1980; and
4. the third offense was based upon the commission of or attempted commission of the following offenses: first degree murder, second degree murder or involuntary manslaughter; criminal sexual assault or aggravated criminal sexual assault; aggravated or heinous battery involving permanent disability or disfigurement or great bodily harm to the victim; burglary of a home or other residence intended for use as a temporary or permanent dwelling place for human beings; home invasion; robbery or armed robbery; or aggravated arson.

Nothing in this Section shall preclude the State's Attorney from seeking to prosecute a minor as an adult as an alternative to prosecution as an habitual juvenile offender.

A continuance under supervision authorized by Section 5-615 of this Act shall not be permitted under this Section.

(b) Notice to minor. The State shall serve upon the minor written notice of intention to prosecute under the provisions of this Section within 5 judicial days of the filing of any delinquency petition, adjudication upon which would mandate the minor's disposition as an Habitual Juvenile Offender.

(c) Petition; service. A notice to seek adjudication as an Habitual Juvenile Offender shall be filed only by the State's Attorney.

The petition upon which such Habitual Juvenile Offender notice is based shall contain the information and averments required for all other delinquency petitions filed under this Act and its service shall be according

to the provisions of this Act.

No prior adjudication shall be alleged in the petition.

(d) Trial. Trial on such petition shall be by jury unless the minor demands, in open court and with advice of counsel, a trial by the court without jury.

Except as otherwise provided herein, the provisions of this Act concerning delinquency proceedings generally shall be applicable to Habitual Juvenile Offender proceedings.

(e) Proof of prior adjudications. No evidence or other disclosure of prior adjudications shall be presented to the court or jury during any adjudicatory hearing provided for under this Section unless otherwise permitted by the issues properly raised in such hearing. In the event the minor who is the subject of these proceedings elects to testify on his own behalf, it shall be competent to introduce evidence, for purposes of impeachment, that he has previously been adjudicated a delinquent minor upon facts which, had he been tried as an adult, would have resulted in his conviction of a felony or of any offense that involved dishonesty or false statement. Introduction of such evidence shall be according to the rules and procedures applicable to the impeachment of an adult defendant by prior conviction.

After an admission of the facts in the petition or adjudication of delinquency, the State's Attorney may file with the court a verified written statement signed by the State’s Attorney concerning any prior adjudication of an offense set forth in subsection (a) of this Section which offense would have been a felony or of any offense that involved dishonesty or false statement had the minor been tried as an adult.

The court shall then cause the minor to be brought before it; shall inform him of the allegations of the statement so filed, and of his right to a hearing before the court on the issue of such prior adjudication and of his right to counsel at such hearing; and unless the minor admits such adjudication, the court shall hear and determine such issue, and shall make a written finding thereon.

A duly authenticated copy of the record of any such alleged prior adjudication shall be prima facie evidence of such prior adjudication or of any offense that involved dishonesty or false statement.

Any claim that a previous adjudication offered by the State's Attorney is not a former adjudication of an offense which, had the minor been prosecuted as an adult, would have resulted in his conviction of a felony or of any offense that involved dishonesty or false statement, is waived unless duly raised at the hearing on such adjudication, or unless the State's
Attorney's proof shows that such prior adjudication was not based upon proof of what would have been a felony.

(f) Disposition. If the court finds that the prerequisites established in subsection (a) of this Section have been proven, it shall adjudicate the minor an Habitual Juvenile Offender and commit him to the Department of Juvenile Justice Corrections, Juvenile Division, until his 21st birthday, without possibility of parole, furlough, or non-emergency authorized absence. However, the minor shall be entitled to earn one day of good conduct credit for each day served as reductions against the period of his confinement. Such good conduct credits shall be earned or revoked according to the procedures applicable to the allowance and revocation of good conduct credit for adult prisoners serving determinate sentences for felonies.

For purposes of determining good conduct credit, commitment as an Habitual Juvenile Offender shall be considered a determinate commitment, and the difference between the date of the commitment and the minor's 21st birthday shall be considered the determinate period of his confinement.

Sec. 5-820. Violent Juvenile Offender.

(a) Definition. A minor having been previously adjudicated a delinquent minor for an offense which, had he or she been prosecuted as an adult, would have been a Class 2 or greater felony involving the use or threat of physical force or violence against an individual or a Class 2 or greater felony for which an element of the offense is possession or use of a firearm, and who is thereafter adjudicated a delinquent minor for a second time for any of those offenses shall be adjudicated a Violent Juvenile Offender if:

   (1) The second adjudication is for an offense occurring after adjudication on the first; and
   
   (2) The second offense occurred on or after January 1, 1995.

(b) Notice to minor. The State shall serve upon the minor written notice of intention to prosecute under the provisions of this Section within 5 judicial days of the filing of a delinquency petition, adjudication upon which would mandate the minor's disposition as a Violent Juvenile Offender.

(c) Petition; service. A notice to seek adjudication as a Violent Juvenile Offender shall be filed only by the State's Attorney.

The petition upon which the Violent Juvenile Offender notice is based shall contain the information and averments required for all other delinquency petitions filed under this Act and its service shall be according to the provisions of this Act.
No prior adjudication shall be alleged in the petition.

(d) Trial. Trial on the petition shall be by jury unless the minor demands, in open court and with advice of counsel, a trial by the court without a jury.

Except as otherwise provided in this Section, the provisions of this Act concerning delinquency proceedings generally shall be applicable to Violent Juvenile Offender proceedings.

(e) Proof of prior adjudications. No evidence or other disclosure of prior adjudications shall be presented to the court or jury during an adjudicatory hearing provided for under this Section unless otherwise permitted by the issues properly raised in that hearing. In the event the minor who is the subject of these proceedings elects to testify on his or her own behalf, it shall be competent to introduce evidence, for purposes of impeachment, that he or she has previously been adjudicated a delinquent minor upon facts which, had the minor been tried as an adult, would have resulted in the minor's conviction of a felony or of any offense that involved dishonesty or false statement. Introduction of such evidence shall be according to the rules and procedures applicable to the impeachment of an adult defendant by prior conviction.

After an admission of the facts in the petition or adjudication of delinquency, the State's Attorney may file with the court a verified written statement signed by the State's Attorney concerning any prior adjudication of an offense set forth in subsection (a) of this Section that would have been a felony or of any offense that involved dishonesty or false statement had the minor been tried as an adult.

The court shall then cause the minor to be brought before it; shall inform the minor of the allegations of the statement so filed, of his or her right to a hearing before the court on the issue of the prior adjudication and of his or her right to counsel at the hearing; and unless the minor admits the adjudication, the court shall hear and determine the issue, and shall make a written finding of the issue.

A duly authenticated copy of the record of any alleged prior adjudication shall be prima facie evidence of the prior adjudication or of any offense that involved dishonesty or false statement.

Any claim that a previous adjudication offered by the State's Attorney is not a former adjudication of an offense which, had the minor been prosecuted as an adult, would have resulted in his or her conviction of a Class 2 or greater felony involving the use or threat of force or violence, or a firearm, a felony or of any offense that involved dishonesty or false statement

However, the minor shall be entitled to earn one day of good conduct credit for each day served as reductions against the period of his or her confinement.    (i) The adjudication of delinquency was based upon the minor's commission of first degree murder, attempt to commit first degree murder, aggravated criminal sexual assault, or criminal sexual assault; or

   (ii) The court has made a finding that the minor was at least 13 years of age at the time the act was committed and the adjudication of delinquency was based upon the minor's commission of: (A) an act in furtherance of the commission of a felony as a member of or on behalf of a criminal street gang, (B) an act involving the use of a firearm in the commission of a felony, (C) an act that would be a Class X felony offense under or the minor's second or subsequent Class 2 or greater felony offense under the Cannabis Control Act if committed by an adult, (D) an act that would be a second or subsequent offense under Section 402 of the Illinois Controlled Substances Act if committed by an adult, (E) an act that would be an offense under Section 401 of the Illinois Controlled Substances Act if committed by an adult, or (F) an act that would be an offense under the Methamphetamine Control and Community Protection Act if committed by an adult.

(b) The court shall allow the general public to have access to the name, address, and offense of a minor who is at least 13 years of age at the time the offense is committed and who is convicted, in criminal proceedings permitted or required under Section 5-805, under either of the following circumstances:

   (i) The minor has been convicted of first degree murder, attempt to commit first degree murder, aggravated...
criminal sexual assault, or criminal sexual assault,

(ii) The court has made a finding that the minor was at least 13 years of age at the time the offense was committed and the conviction was based upon the minor's commission of: (A) an offense in furtherance of the commission of a felony as a member of or on behalf of a criminal street gang, (B) an offense involving the use of a firearm in the commission of a felony, (C) a Class X felony offense under the Cannabis Control Act or a second or subsequent Class 2 or greater felony offense under the Cannabis Control Act, (D) a second or subsequent offense under Section 402 of the Illinois Controlled Substances Act, (E) an offense under Section 401 of the Illinois Controlled Substances Act, or (F) an offense under the Methamphetamine Control and Community Protection Act.

(6) Nothing in this Section shall be construed to limit the use of a adjudication of delinquency as evidence in any juvenile or criminal proceeding, where it would otherwise be admissible under the rules of evidence, including but not limited to, use as impeachment evidence against any witness, including the minor if he or she testifies.

(7) Nothing in this Section shall affect the right of a Civil Service Commission or appointing authority examining the character and fitness of an applicant for a position as a law enforcement officer to ascertain whether that applicant was ever adjudicated to be a delinquent minor and, if so, to examine the records or evidence which were made in proceedings under this Act.

(8) Following any adjudication of delinquency for a crime which would be a felony if committed by an adult, or following any adjudication of delinquency for a violation of Section 24-1, 24-3, 24-3.1, or 24-5 of the Criminal Code of 1961, the State's Attorney shall ascertain whether the minor respondent is enrolled in school and, if so, shall provide a copy of the sentencing order to the principal or chief administrative officer of the school. Access to such juvenile records shall be limited to the principal or chief administrative officer of the school and any guidance counselor designated by him or her.

(9) Nothing contained in this Act prevents the sharing of information or records relating or pertaining to juveniles subject to the provisions of the Serious Habitual Offender Comprehensive Action Program when that information is used to assist in the early identification and
treatment of habitual juvenile offenders.

(11) The Clerk of the Circuit Court shall report to the Department of State Police, in the form and manner required by the Department of State Police, the final disposition of each minor who has been arrested or taken into custody before his or her 17th birthday for those offenses required to be reported under Section 5 of the Criminal Identification Act. Information reported to the Department under this Section may be maintained with records that the Department files under Section 2.1 of the Criminal Identification Act.

(12) Information or records may be disclosed to the general public when the court is conducting hearings under Section 5-805 or 5-810.

Sec. 5-905. Law enforcement records.

(1) Law Enforcement Records. Inspection and copying of law enforcement records maintained by law enforcement agencies that relate to a minor who has been arrested or taken into custody before his or her 17th birthday shall be restricted to the following and when necessary for the discharge of their official duties:

(a) A judge of the circuit court and members of the staff of the court designated by the judge;

(b) Law enforcement officers, probation officers or prosecutors or their staff;

(c) The minor, the minor's parents or legal guardian and their attorneys, but only when the juvenile has been charged with an offense;

(d) Adult and Juvenile Prisoner Review Boards;

(e) Authorized military personnel;

(f) Persons engaged in bona fide research, with the permission of the judge of juvenile court and the chief executive of the agency that prepared the particular recording: provided that publication of such research results in no disclosure of a minor's identity and protects the confidentiality of the record;

(g) Individuals responsible for supervising or providing temporary or permanent care and custody of minors pursuant to orders of the juvenile court or directives from officials of the Department of Children and Family Services or the Department of Human Services who certify in writing that the information will not be disclosed to any other party except as provided under law or order

of court;

(h) The appropriate school official. Inspection and copying shall be limited to law enforcement records transmitted to the appropriate school official by a local law enforcement agency under a reciprocal reporting system established and maintained between the school district and the local law enforcement agency under Section 10-20.14 of the School Code concerning a minor enrolled in a school within the school district who has been arrested for any offense classified as a felony or a Class A or B misdemeanor.

(2) Information identifying victims and alleged victims of sex offenses, shall not be disclosed or open to public inspection under any circumstances. Nothing in this Section shall prohibit the victim or alleged victim of any sex offense from voluntarily disclosing his or her identity.

(3) Relevant information, reports and records shall be made available to the Department of Juvenile Justice Corrections when a juvenile offender has been placed in the custody of the Department of Juvenile Justice Corrections, Juvenile Division.

(4) Nothing in this Section shall prohibit the inspection or disclosure to victims and witnesses of photographs contained in the records of law enforcement agencies when the inspection or disclosure is conducted in the presence of a law enforcement officer for purposes of identification or apprehension of any person in the course of any criminal investigation or prosecution.

(5) The records of law enforcement officers concerning all minors under 17 years of age must be maintained separate from the records of adults and may not be open to public inspection or their contents disclosed to the public except by order of the court or when the institution of criminal proceedings has been permitted under Section 5-130 or 5-805 or required under Section 5-130 or 5-805 or such a person has been convicted of a crime and is the subject of pre-sentence investigation or when provided by law.

(6) Except as otherwise provided in this subsection (6), law enforcement officers may not disclose the identity of any minor in releasing information to the general public as to the arrest, investigation or disposition of any case involving a minor. Any victim or parent or legal guardian of a victim may petition the court to disclose the name and address of the minor and the minor's parents or legal guardian, or both. minor, then the court may order the disclosure of the information to the victim or to the parent or legal guardian of the victim only for the purpose of the victim pursuing a civil remedy against the minor or the minor's parents or legal guardian, or both, or to protect the victim's person or property from the minor.

(7) Nothing contained in this Section shall prohibit law enforcement agencies when acting in their official capacity from communicating with each other by letter, memorandum, teletype or intelligence alert bulletin or other means the identity or other relevant information pertaining to a person under 17 years of age. The information provided under this subsection (7) shall remain confidential and shall not be publicly disclosed, except as otherwise allowed by law.

Sec. 5-915. Expungement of juvenile law enforcement and court records.

(1) Whenever any person has attained the age of 17 or whenever all juvenile court proceedings relating to that person have been terminated, whichever is later, the person may petition the court to expunge law enforcement records relating to incidents occurring before his or her 17th birthday or his or her juvenile court records, or both, but only in the following circumstances:

(a) the minor was arrested and no petition for delinquency was filed with the clerk of the circuit court; or
(b) the minor was charged with an offense and was found not delinquent of that offense; or
(c) the minor was placed under supervision pursuant to Section 5-615, and the order of supervision has since been successfully terminated; or
(d) the minor was adjudicated for an offense which would be a Class B misdemeanor, Class C misdemeanor, or a petty or business offense if committed by an adult.

(2) Any person may petition the court to expunge all law enforcement records relating to any incidents occurring before his or her 17th birthday which did not result in proceedings in criminal court and all juvenile court records with respect to any adjudications except those based upon first degree

New matter indicated by italics - deletions by strikeout
murder and sex offenses which would be felonies if committed by an adult, if the person for whom expungement is sought has had no convictions for any crime since his or her 17th birthday and:

(a) has attained the age of 21 years; or
(b) 5 years have elapsed since all juvenile court proceedings relating to him or her have been terminated or his or her commitment to the Department of Juvenile Justice Corrections, Juvenile Division pursuant to this Act has been terminated; whichever is later of (a) or (b).

(2.5) If a minor is arrested and no petition for delinquency is filed with the clerk of the circuit court as provided in paragraph (a) of subsection (1) at the time the minor is released from custody, the youth officer, if applicable, or other designated person from the arresting agency, shall notify verbally and in writing to the minor or the minor's parents or guardians that if the State's Attorney does not file a petition for delinquency, the minor has a right to petition to have his or her arrest record expunged when the minor attains the age of 17 or when all juvenile court proceedings relating to that minor have been terminated and that unless a petition to expunge is filed, the minor shall have an arrest record and shall provide the minor and the minor's parents or guardians with an expungement information packet, including a petition to expunge juvenile records obtained from the clerk of the circuit court.

(2.6) If a minor is charged with an offense and is found not delinquent of that offense; or if a minor is placed under supervision under Section 5-615, and the order of supervision is successfully terminated; or if a minor is adjudicated for an offense that would be a Class B misdemeanor, a Class C misdemeanor, or a business or petty offense if committed by an adult; or if a minor has incidents occurring before his or her 17th birthday that have not resulted in proceedings in criminal court, or resulted in proceedings in juvenile court, and the adjudications were not based upon first degree murder or sex offenses that would be felonies if committed by an adult; then at the time of sentencing or dismissal of the case, the judge shall inform the delinquent minor of his or her right to petition for expungement as provided by law, and the clerk of the circuit court shall provide an expungement information packet to the delinquent minor, written in plain language, including a petition for expungement, a sample of a completed petition, expungement instructions that shall include information informing the minor that (i) once the case is expunged, it shall be treated as if it never occurred, (ii) he or she may apply to have petition fees waived, (iii) once he or she
obtains an expungement, he or she may not be required to disclose that he or she had a juvenile record, and (iv) he or she may file the petition on his or her own or with the assistance of an attorney. The failure of the judge to inform the delinquent minor of his or her right to petition for expungement as provided by law does not create a substantive right, nor is that failure grounds for: (i) a reversal of an adjudication of delinquency, (ii) a new trial; or (iii) an appeal.

(2.7) For counties with a population over 3,000,000, the clerk of the circuit court shall send a "Notification of a Possible Right to Expungement" postcard to the minor at the address last received by the clerk of the circuit court on the date that the minor attains the age of 17 based on the birthdate provided to the court by the minor or his or her guardian in cases under paragraphs (b), (c), and (d) of subsection (1); and when the minor attains the age of 21 based on the birthdate provided to the court by the minor or his or her guardian in cases under subsection (2).

Section 21. The Rights of Crime Victims and Witnesses Act is amended by changing Sections 4.5, 5, 8.5, and 9 as follows:

(725 ILCS 120/4.5)
Sec. 4.5. Procedures to implement the rights of crime victims. To
afford crime victims their rights, law enforcement, prosecutors, judges and corrections will provide information, as appropriate of the following procedures:

(a) At the request of the crime victim, law enforcement authorities investigating the case shall provide notice of the status of the investigation, except where the State's Attorney determines that disclosure of such information would unreasonably interfere with the investigation, until such time as the alleged assailant is apprehended or the investigation is closed.

(b) The office of the State's Attorney:

  (1) shall provide notice of the filing of information, the return of an indictment by which a prosecution for any violent crime is commenced, or the filing of a petition to adjudicate a minor as a delinquent for a violent crime;

  (2) shall provide notice of the date, time, and place of trial;

  (3) or victim advocate personnel shall provide information of social services and financial assistance available for victims of crime, including information of how to apply for these services and assistance;

  (5) or victim advocate personnel shall provide appropriate employer intercession services to ensure that employers of victims will cooperate with the criminal justice system in order to minimize an employee's loss of pay and other benefits resulting from court appearances;

  (6) shall provide information whenever possible, of a secure waiting area during court proceedings that does not require victims to be in close proximity to defendant or juveniles accused of a violent crime, and their families and friends;

  (7) shall provide notice to the crime victim of the right to have a translator present at all court proceedings;

  (8) in the case of the death of a person, which death occurred in the same transaction or occurrence in which acts occurred for which a defendant is charged with an offense, shall notify the spouse, parent, child or sibling of the decedent of the date of the trial of the person or persons allegedly responsible for the death;

court proceedings, subject to the rules of evidence, an advocate or other support person of the victim's choice, and the right to retain an attorney, at the victim's own expense, who, upon written notice filed with the clerk of the court and State's Attorney, is to receive copies of all notices, motions and court orders filed thereafter in the case, in the same manner as if the victim were a named party in the case; and

(10) at the sentencing hearing shall make a good faith attempt to explain the minimum amount of time during which the defendant may actually be physically imprisoned. The Office of the State's Attorney shall further notify the crime victim of the right to request from the Prisoner Review Board information concerning the release of the defendant under subparagraph (d)(1) of this Section; and

(11) shall request restitution at sentencing and shall consider restitution in any plea negotiation, as provided by law.

(c) At the written request of the crime victim, the office of the State's Attorney shall:

Sec. 3-3-5. Hearing and Determination.

(a) The Prisoner Review Board shall meet as often as need requires to consider the cases of persons eligible for parole. Except as otherwise provided in paragraph (2) of subsection (a) of Section 3-3-2 of this Act, the Prisoner Review Board may meet and order its actions in panels of 3 or more members. The action of a majority of the panel shall be the action of the Board. In consideration of persons committed to the Department of Juvenile Justice Juvenile Division, the panel shall have at least a majority of members experienced in juvenile matters.

(b) If the person under consideration for parole is in the custody of the Department, at least one member of the Board shall interview him, and a report of that interview shall be available for the Board's consideration. However, in the discretion of the Board, the interview need not be conducted if a psychiatric examination determines that the person could not meaningfully contribute to the Board's consideration. The Board may in its discretion parole a person who is then outside the jurisdiction on his record without an interview. The Board need not hold a hearing or interview a person who is paroled under paragraphs (d) or (e) of this Section or released on Mandatory release under Section 3-3-10.

(c) The Board shall not parole a person eligible for parole if it determines that:

New matter indicated by italics - deletions by strikeout
(1) there is a substantial risk that he will not conform to reasonable conditions of parole; or
(2) his release at that time would deprecate the seriousness of his offense or promote disrespect for the law; or
(3) his release would have a substantially adverse effect on institutional discipline.

(d) A person committed under the Juvenile Court Act or the Juvenile Court Act of 1987 who has not been sooner released shall be paroled on or before his 20th birthday to begin serving a period of parole under Section 3-3-8.

(e) A person who has served the maximum term of imprisonment imposed at the time of sentencing less time credit for good behavior shall be released on parole to serve a period of parole under Section 5-8-1.

(f) The Board shall render its decision within a reasonable time after hearing and shall state the basis therefor both in the records of the Board and in written notice to the person on whose application it has acted. In its decision, the Board shall set the person's time for parole, or if it denies parole it shall provide for a rehearing not less frequently than once every year, except that the Board may, after denying parole, schedule a rehearing no later than 3 years from the date of the parole denial, if the Board finds that it is not reasonable to expect that parole would be granted at a hearing prior to the scheduled rehearing date. If the Board shall parole a person, and, if he is not released within 90 days from the effective date of the order granting parole, the matter shall be returned to the Board for review.

(g) The Board shall maintain a registry of decisions in which parole has been granted, which shall include the name and case number of the prisoner, the highest charge for which the prisoner was sentenced, the length of sentence imposed, the date of the sentence, the date of the parole, the basis for the decision of the Board to grant parole and the vote of the Board on any such decisions. The registry shall be made available for public inspection and copying during business hours and shall be a public record pursuant to the provisions of the Freedom of Information Act.

(h) The Board shall promulgate rules regarding the exercise of its discretion under this Section.

   (i) (A) For those sentenced under the law in effect prior to this amendatory Act of 1977, the commitment shall be for any portion of the imposed maximum term of imprisonment or confinement which had not been served at the time of parole and the parole term, less the time elapsed between the parole of the person and the commission of the violation for which parole was revoked;

   (B) Except as set forth in paragraph (C), for those subject to mandatory supervised release under paragraph (d) of Section 5-8-1 of this Code, the commitment shall be for the total mandatory supervised release term, less the time elapsed between the release of the person and the commission of the violation for which mandatory supervised release is revoked. (c) A person charged with violating a condition of parole or mandatory supervised release shall have a preliminary hearing before a hearing officer designated by the Board to determine if there is cause to hold the person for a revocation hearing. However, no preliminary hearing need be held when revocation is based upon new criminal charges and a court finds probable cause on the new criminal charges or when the revocation is based upon a new criminal conviction and a certified copy of that conviction is available.

(d) Parole or mandatory supervised release shall not be revoked without written notice to the offender setting forth the violation of parole or mandatory supervised release charged against him.

(e) A hearing on revocation shall be conducted before at least one member of the Prisoner Review Board. The Board may meet and order its actions in panels of 3 or more members. Access to social records, probation reports or any other reports which are considered by the court for the purpose of transfer shall be made available to counsel for the juvenile at least 30 days prior to the date of the transfer hearing. The Sentencing Court, upon granting a transfer order, shall accompany such order with a statement of reasons.

(f) The Department of Juvenile Justice may identify in a comprehensive parole case management plan any special conditions for parole supervision and establish sanctions for a participant who fails to comply with the program requirements or who violates parole rules. Sec. 5-8-6. Place of Confinement. (a) Offenders sentenced to a term of imprisonment for a felony shall be committed to the penitentiary system of the Department of Corrections. However, such sentence shall not limit the powers of the Department of Children and Family Services in relation to any child under the age of one year in the sole custody of a person so sentenced, nor in relation to any child delivered by a female so sentenced while she is so confined as a consequence of such sentence. A person sentenced for a felony

(b) Offenders sentenced to a term of imprisonment for less than one year shall be committed to the custody of the sheriff. A person committed to the Department of Corrections, prior to July 14, 1983, for less than one year may be assigned by the Department to any of its institutions, facilities or programs.

(c) All offenders under 17 years of age when sentenced to imprisonment shall be committed to the Department of Juvenile Justice Juvenile Division of the Department of Corrections and the court in its order of commitment shall set a definite term. The Attorney General of the United States, or the authorized representative of the Attorney General of the United States, shall be furnished with the warrant of commitment from the court imposing sentence, which warrant of commitment shall provide that, when the offender is released from federal confinement, whether by parole or by termination of sentence, the offender shall be transferred by the Sheriff of the committing county to the Department of Corrections. standards designed to generally improve the quality of probation and court services and reduce the rate of adult or juvenile offenders committed to the Department of Corrections.

(m) establish such other standards and regulations and do all acts necessary to carry out the intent and purposes of this Act. The Division shall establish a model list of structured intermediate sanctions that may be imposed by a probation agency for violations of terms and conditions of a sentence of probation, conditional discharge, or supervision.

The State of Illinois shall provide for the costs of personnel, travel, equipment, telecommunications, postage, commodities, printing, space, contractual services and other related costs necessary to carry out the intent of this Act.

(2) (a) The chief judge of each circuit shall provide full-time probation services for all counties within the circuit, in a manner consistent with the annual probation plan, the standards, policies, and regulations established by the Supreme Court. A probation district of two or more counties within a circuit may be created for the purposes of providing full-time probation services. Every county or group of counties within a circuit shall maintain a probation department which shall be under the authority of the Chief Judge of the circuit or some other judge designated by the Chief Judge. The Chief Judge, through the Probation and Court Services Department shall submit annual plans to the Division for probation and related services.

(b) The Chief Judge of each circuit shall appoint the Chief Probation Officer and all other probation officers for his or her circuit from lists of qualified applicants supplied by the Supreme Court. Candidates for chief managing officer and other probation officer positions must apply with both the Chief Judge of the circuit and the Supreme Court.

(3) A Probation and Court Service Department shall apply to the Supreme Court for funds for basic services, and may apply for funds for new and expanded programs or Individualized Services and Programs. Costs shall be reimbursed monthly based on a plan and budget approved by the Supreme Court. No Department may be reimbursed for costs which exceed or are not provided for in the approved annual plan and budget. After the effective date of this amendatory Act of 1985, each county must provide basic services in accordance with the annual plan and standards created by the division. No department may receive funds for new or expanded programs or individualized services and programs unless they are in compliance with
standards as enumerated in paragraph (h) of subsection (1) of this Section, the annual plan, and standards for basic services.

(4) The Division shall reimburse the county or counties for probation services as follows:

(a) 100% of the salary of all chief managing officers designated as such by the Chief Judge and the division.

(b) 100% of the salary for all probation officer and supervisor positions approved for reimbursement by the division after April 1, 1984, to meet workload standards and to implement intensive sanction and probation supervision programs and other basic services as defined in this Act.

(c) 100% of the salary for all secure detention personnel and non-secure group home personnel approved for reimbursement after December 1, 1990. For all such positions approved for reimbursement before December 1, 1990, the counties shall be reimbursed $1,250 per month beginning July 1, 1995, and an additional $250 per month beginning each July 1st thereafter until the positions receive 100% salary reimbursement. Allocation of such positions will be based on comparative need considering capacity, staff/resident ratio, physical plant and program.

(d) $1,000 per month for salaries for the remaining probation officer positions engaged in basic services and new or expanded services. All such positions shall be approved by the division in accordance with this Act and division standards.

(e) 100% of the travel expenses in accordance with Division standards for all Probation positions approved under paragraph (b) of subsection 4 of this Section.

(f) If the amount of funds reimbursed to the county under paragraphs (a) through (e) of subsection 4 of this Section on an annual basis is less than the amount the county had received during the 12 month period immediately prior to the effective date of this amendatory Act of 1985, then the Division shall reimburse the amount of the difference to the county. The effect of paragraph (b) of subsection 7 of this Section shall be considered in implementing this supplemental reimbursement provision.

(5) The Division shall provide funds beginning on April 1, 1987 for the counties to provide Individualized Services and Programs as provided in Section 16 of this Act.

(6) A Probation and Court Services Department in order to be eligible
for the reimbursement must submit to the Supreme Court an application containing such information and in such a form and by such dates as the Supreme Court may require. Departments to be eligible for funding must satisfy the following conditions:

(a) The Department shall have on file with the Supreme Court an annual Probation plan for continuing, improved, and new Probation and Court Services Programs approved by the Supreme Court or its designee. This plan shall indicate the manner in which Probation and Court Services will be delivered and improved, consistent with the minimum standards and regulations for Probation and Court Services, as established by the Supreme Court. In counties with more than one Probation and Court Services Department eligible to receive funds, all Departments within that county must submit plans which are approved by the Supreme Court.

(b) The annual probation plan shall seek to generally improve the quality of probation services and to reduce the commitment of adult and juvenile offenders to the Department of Corrections and to reduce the commitment of juvenile offenders to the Department of Juvenile Justice and shall require, when appropriate, coordination with the Department of Corrections, the Department of Juvenile Justice, and the Department of Children and Family Services in the development and use of community resources, information systems, case review and permanency planning systems to avoid the duplication of services.

(c) The Department shall be in compliance with standards developed by the Supreme Court for basic, new and expanded services, training, personnel hiring and promotion.

(d) The Department shall in its annual plan indicate the manner in which it will support the rights of crime victims and in which manner it will implement Article I, Section 8.1 of the Illinois Constitution and in what manner it will coordinate crime victims' support services with other criminal justice agencies within its jurisdiction, including but not limited to, the State's Attorney, the Sheriff and any municipal police department.

(7) No statement shall be verified by the Supreme Court or its designee or vouchedered by the Comptroller unless each of the following conditions have been met:

(a) The probation officer is a full-time employee appointed by the Chief Judge to provide probation services.

New matter indicated by italics - deletions by strikeout
(b) The probation officer, in order to be eligible for State reimbursement, is receiving a salary of at least $17,000 per year.

(c) The probation officer is appointed or was reappointed in accordance with minimum qualifications or criteria established by the Supreme Court; however, all probation officers appointed prior to January 1, 1978, shall be exempted from the minimum requirements established by the Supreme Court. Payments shall be made to counties employing these exempted probation officers as long as they are employed in the position held on the effective date of this amendatory Act of 1985. Promotions shall be governed by minimum qualifications established by the Supreme Court.

(d) The Department has an established compensation schedule approved by the Supreme Court. The compensation schedule shall include salary ranges with necessary increments to compensate each employee. The increments shall, within the salary ranges, be based on such factors as bona fide occupational qualifications, performance, and length of service. Each position in the Department shall be placed on the compensation schedule according to job duties and responsibilities of such position. The policy and procedures of the compensation schedule shall be made available to each employee.

(8) In order to obtain full reimbursement of all approved costs, each Department must continue to employ at least the same number of probation officers and probation managers as were authorized for employment for the fiscal year which includes January 1, 1985. This number shall be designated as the base amount of the Department. No positions approved by the Division under paragraph (b) of subsection 4 will be included in the base amount. In the event that the Department employs fewer Probation officers and Probation managers than the base amount for a period of 90 days, funding received by the Department under subsection 4 of this Section may be reduced on a monthly basis by the amount of the current salaries of any positions below the base amount.

(9) Before the 15th day of each month, the treasurer of any county which has a Probation and Court Services Department, or the treasurer of the most populous county, in the case of a Probation or Court Services Department funded by more than one county, shall submit an itemized statement of all approved costs incurred in the delivery of Basic Probation and Court Services under this Act to the Supreme Court. The treasurer may also submit an itemized statement of all approved costs incurred in the delivery of new and expanded Probation and Court Services as well as

New matter indicated by italics - deletions by strikeout
Individualized Services and Programs. The Supreme Court or its designee shall verify compliance with this Section and shall examine and audit the monthly statement and, upon finding them to be correct, shall forward them to the Comptroller for payment to the county treasurer. In the case of payment to a treasurer of a county which is the most populous of counties sharing the salary and expenses of a Probation and Court Services Department, the treasurer shall divide the money between the counties in a manner that reflects each county's share of the cost incurred by the Department.

(10) The county treasurer must certify that funds received under this Section shall be used solely to maintain and improve Probation and Court Services. The county or circuit shall remain in compliance with all standards, policies and regulations established by the Supreme Court. If at any time the Supreme Court determines that a county or circuit is not in compliance, the Supreme Court shall immediately notify the Chief Judge, county board chairman and the Director of Court Services Chief Probation Officer. If after 90 days of written notice the noncompliance still exists, the Supreme Court shall be required to reduce the amount of monthly reimbursement by 10%. An additional 10% reduction of monthly reimbursement shall occur for each consecutive month of noncompliance. Except as provided in subsection 5 of Section 15, funding to counties shall commence on April 1, 1986. Funds received under this Act shall be used to provide for Probation Department expenses including those required under Section 13 of this Act. For State fiscal years 2004, 2005, and 2006 only, the Mandatory Arbitration Fund may be used to provide for Probation Department expenses, including those required under Section 13 of this Act.

(11) The respective counties shall be responsible for capital and space costs, fringe benefits, clerical costs, equipment, telecommunications, postage, commodities and printing.

(12) For purposes of this Act only, probation officers shall be considered peace officers. In the exercise of their official duties, probation officers, sheriffs, and police officers may, anywhere within the State, arrest any probationer who is in violation of any of the conditions of his or her probation, conditional discharge, or supervision, and it shall be the duty of the officer making the arrest to take the probationer before the Court having jurisdiction over the probationer for further order.

Sec. 16.1. Redeploy Illinois Program.

New matter indicated by italics - deletions by strikeout
(a) The purpose of this Section is to encourage the deinstitutionalization of juvenile offenders establishing pilot projects in counties or groups of counties that reallocate State funds from juvenile correctional confinement to local jurisdictions, which will establish a continuum of local, community-based sanctions and treatment alternatives for juvenile offenders who would be incarcerated if those local services and sanctions did not exist. The allotment of funds will be based on a formula that rewards local jurisdictions for the establishment or expansion of local alternatives to incarceration, and requires them to pay for utilization of incarceration as a sanction. This redeployment of funds shall be made in a manner consistent with the Juvenile Court Act of 1987 and the following purposes and policies:

(1) The juvenile justice system should protect the community, impose accountability to victims and communities for violations of law, and equip juvenile offenders with competencies to live responsibly and productively.

(2) Juveniles should be treated in the least restrictive manner possible while maintaining the safety of the community.

(3) A continuum of services and sanctions from least restrictive to most restrictive should be available in every community.

(4) There should be local responsibility and authority for planning, organizing, and coordinating service resources in the community. People in the community can best choose a range of services which reflect community values and meet the needs of their own youth.

(5) Juveniles who pose a threat to the community or themselves need special care, including secure settings. Such services as detention, long-term incarceration, or residential treatment are too costly to provide in each community and should be coordinated and provided on a regional or Statewide basis.

(6) The roles of State and local government in creating and maintaining services to youth in the juvenile justice system should be clearly defined. The role of the State is to fund services, set standards of care, train service providers, and monitor the integration and coordination of services. The role of local government should be to oversee the provision of services.

(b) Each county or circuit participating in the pilot program must create a local plan demonstrating how it will reduce the county or circuit's utilization of secure confinement of juvenile offenders in the Illinois
Department of Juvenile Justice Corrections or county detention centers by the creation or expansion of individualized services or programs that may include but are not limited to the following:

(1) Assessment and evaluation services to provide the juvenile justice system with accurate individualized case information on each juvenile offender including mental health, substance abuse, educational, and family information;

(2) Direct services to individual juvenile offenders including educational, vocational, mental health, substance abuse, supervision, and service coordination; and

(3) Programs that seek to restore the offender to the community, such as victim offender panels, teen courts, competency building, enhanced accountability measures, restitution, and community service. The local plan must be directed in such a manner as to emphasize an individualized approach to providing services to juvenile offenders in an integrated community-based system including probation as the broker of services. The plan must also detail the reduction in utilization of secure confinement. The local plan shall be limited to services and shall not include costs for:

(i) capital expenditures;
(ii) renovations or remodeling;
(iii) personnel costs for probation.

The local plan shall be submitted to the Department of Human Services.

(c) A county or group of counties may develop an agreement with the Department of Human Services to reduce their number of commitments of juvenile offenders, excluding minors sentenced based upon a finding of guilt of first degree murder or an offense which is a Class X forcible felony as defined in the Criminal Code of 1961, to the Department of Juvenile Justice Corrections, and then use the savings to develop local programming for youth who would otherwise have been committed to the Department of Juvenile Justice Corrections. The county or group of counties shall agree to limit their commitments to 75% of the level of commitments from the average number of juvenile commitments for the past 3 years, and will receive the savings to redeploy for local programming for juveniles who would otherwise be held in confinement. The agreement shall set forth the following:

(1) a Statement of the number and type of juvenile offenders from the county who were held in secure confinement by the Illinois Department of Juvenile Justice Corrections or in county detention the

New matter indicated by italics - deletions by strikeout
previous year, and an explanation of which, and how many, of these offenders might be served through the proposed Redeploy Illinois Program for which the funds shall be used;

(2) a Statement of the service needs of currently confined juveniles;

(3) a Statement of the type of services and programs to provide for the individual needs of the juvenile offenders, and the research or evidence base that qualifies those services and programs as proven or promising practices;

(4) a budget indicating the costs of each service or program to be funded under the plan;

(5) a summary of contracts and service agreements indicating the treatment goals and number of juvenile offenders to be served by each service provider; and

(6) a Statement indicating that the Redeploy Illinois Program will not duplicate existing services and programs. Funds for this plan shall not supplant existing county funded programs.

(d) (Blank).

(e) The Department of Human Services shall be responsible for the following:

(1) Reviewing each Redeploy Illinois Program plan for compliance with standards established for such plans. A plan may be approved as submitted, approved with modifications, or rejected. No plan shall be considered for approval if the circuit or county is not in full compliance with all regulations, standards and guidelines pertaining to the delivery of basic probation services as established by the Supreme Court.

(2) Monitoring on a continual basis and evaluating annually both the program and its fiscal activities in all counties receiving an allocation under the Redeploy Illinois Program. Any program or service that has not met the goals and objectives of its contract or service agreement shall be subject to denial for funding in subsequent years. The Department of Human Services shall evaluate the effectiveness of the Redeploy Illinois Program in each circuit or county. In determining the future funding for the Redeploy Illinois Program under this Act, the evaluation shall include, as a primary indicator of success, a decreased number of confinement days for the county's juvenile offenders.

(f) Any Redeploy Illinois Program allocations not applied for and
approved by the Department of Human Services shall be available for redistribution to approved plans for the remainder of that fiscal year. Any county that invests local moneys in the Redeploy Illinois Program shall be given first consideration for any redistribution of allocations. Jurisdictions participating in Redeploy Illinois that exceed their agreed upon level of commitments to the Department of Juvenile Justice Corrections shall reimburse the Department of Corrections for each commitment above the agreed upon level.

(g) Implementation of Redeploy Illinois.

(1) Planning Phase.

(i) Redeploy Illinois Oversight Board. The Department of Human Services shall convene an oversight board to develop plans for a pilot Redeploy Illinois Program. The Board shall include, but not be limited to, designees from the Department of Juvenile Justice Corrections, the Administrative Office of Illinois Courts, the Illinois Juvenile Justice Commission, the Illinois Criminal Justice Information Authority, the Department of Children and Family Services, the State Board of Education, the Cook County State's Attorney, and a State's Attorney selected by the President of the Illinois State's Attorney's Association.

(ii) Responsibilities of the Redeploy Illinois Oversight Board. The Oversight Board shall:

(A) Identify jurisdictions to be invited in the initial pilot program of Redeploy Illinois.

(B) Develop a formula for reimbursement of local jurisdictions for local and community-based services utilized in lieu of commitment to the Department of Juvenile Justice Corrections, as well as for any charges for local jurisdictions for commitments above the agreed upon limit in the approved plan.

(C) Identify resources sufficient to support the administration and evaluation of Redeploy Illinois.

(D) Develop a process and identify resources to support on-going monitoring and evaluation of Redeploy Illinois.

(E) Develop a process and identify resources to support training on Redeploy Illinois.

New matter indicated by italics - deletions by strikeout
(F) Report to the Governor and the General Assembly on an annual basis on the progress of Redeploy Illinois.

(iii) Length of Planning Phase. The planning phase may last up to, but may in no event last longer than, July 1, 2004.

(2) Pilot Phase. In the second phase of the Redeploy Illinois program, the Department of Human Services shall implement several pilot programs of Redeploy Illinois in counties or groups of counties as identified by the Oversight Board. Annual review of the Redeploy Illinois program by the Oversight Board shall include recommendations for future sites for Redeploy Illinois.

After the effective date of this Act, the State shall not contract with a private contractor or private vendor for the provision of services relating to the operation of a correctional facility or the incarceration of persons in the custody of the Department of Corrections or of the Department of Juvenile Justice; however, this Act does not apply to (1) State work release centers or juvenile residential facilities that provide separate care or special treatment operated in whole or part by private contractors or (2) contracts for ancillary services, including medical services, educational services, repair and maintenance contracts, or other services not directly related to the ownership, management or operation of security services in a correctional facility.

Sec. 2. As used in this Act, unless the context otherwise requires:

(a) "Law enforcement officer" or "officer" means any person employed by the State or a local governmental entity as a policeman, peace officer, auxiliary policeman or in some like position involving the enforcement of the law and protection of the public interest at the risk of that person's life. In the case of a State employee, "killed in the line of duty" means losing one's life as a result of injury received in the active performance of one's duties as a State employee, if the death occurs within one year from the date the injury was received and if that injury arose from a willful act of violence by another State employee committed during such other employee's course of employment and after January 1, 1988. The term excludes death resulting from the willful misconduct or intoxication of the officer, civil defense worker, civil air patrol member, paramedic, fireman, chaplain, or State employee. However, the burden of proof of such willful misconduct or intoxication of the officer, civil defense worker, civil air patrol member, paramedic, fireman, chaplain, or State employee is on the Attorney General. (1) the injury is received as a result of a wilful act of violence committed other than by the officer and a relationship exists between the commission of such act and the officer's performance of his duties as a law enforcement officer, whether or not the injury is received while the officer is on duty as a law enforcement officer;

The annually established payment rate shall take effect on July 1 in 1984 and subsequent years. No rate increase and no update for inflation shall be provided on or after July 1, 1994 and before July 1, 2006, unless specifically provided for in this Section. The Department of Public Aid shall develop the new payment methodology using the Minimum Data Set (MDS) as the instrument to collect information concerning nursing home resident condition necessary to compute the rate. The Department of Public Aid shall develop the new payment methodology to meet the unique needs of Illinois nursing home residents while remaining subject to the appropriations provided by the General Assembly. A transition period from the payment methodology in effect on June 30, 2003 to the payment methodology in effect on July 1, 2003 shall be provided for a period not exceeding 3 years after implementation of the new payment methodology as follows:

(A) For a facility that would receive a lower nursing component rate per patient day under the new system than the facility received effective on the date immediately preceding the date that the Department implements the new payment methodology, the nursing component rate per patient day for the facility shall be held at the level in effect on the date immediately preceding the date that the Department implements the new payment methodology until a higher nursing component rate of reimbursement is achieved by that facility.

(B) For a facility that would receive a higher nursing component rate per patient day under the new system than the facility received effective on the date immediately preceding the date that the Department implements the new payment methodology, the nursing component rate per patient day for the facility shall be held at the level in effect on the date immediately preceding the date that the Department implements the new payment methodology.
component rate per patient day under the payment methodology in effect on July 1, 2003 than the facility received effective on the date immediately preceding the date that the Department implements the new payment methodology, the nursing component rate per patient day for the facility shall be adjusted.

(C) Notwithstanding paragraphs (A) and (B), the nursing component rate per patient day for the facility shall be adjusted subject to appropriations provided by the General Assembly.

This increase terminates on July 1, 2002; beginning July 1, 2002 these rates are reduced to the level of the rates in effect on March 31, 2002, as defined by the Department.

For facilities licensed by the Department of Public Health under the Nursing Home Care Act as skilled nursing facilities or intermediate care facilities, the rates taking effect on July 1, 2001 shall be computed using the most recent cost reports on file with the Department of Public Aid no later than April 1, 2000, updated for inflation to January 1, 2001. For rates effective July 1, 2001 only, rates shall be the greater of the rate computed for July 1, 2001 or the rate effective on June 30, 2001.

Notwithstanding any other provisions of this Section, for facilities licensed by the Department of Public Health under the Nursing Home Care Act as skilled nursing facilities or intermediate care facilities, the rates taking effect on January 1, 2005 shall be 3% more than the rates in effect on December 31, 2004.

These costs shall be passed through to the facility without caps or limitations, except for adjustments required under normal auditing procedures.

Rates established effective each July 1 shall govern payment for services rendered throughout that fiscal year, except that rates established on July 1, 1996 shall be increased by 6.8% for services provided on or after January 1, 1997. Such rates will be based upon the rates calculated for the year beginning July 1, 1990, and for subsequent years thereafter until June 30, 2001 shall be based on the facility cost reports for the facility fiscal year ending at any point in time during the previous calendar year, updated to the midpoint of the rate year. Should the cost report not be on file by April 1, the Department shall base the rate on the latest cost report filed by each skilled care facility and intermediate care facility, updated to the midpoint of the current rate year. In determining rates for services rendered on and after July 1, 1985, fixed time shall not be computed at less than zero. The Department shall not make any alterations of regulations which would reduce any component of the Medicaid rate to a level below what that component would have been utilizing in the rate effective on July 1, 1984.

AN ACT concerning State government.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Illinois Procurement Code is amended by changing Section 30-30 as follows:

(30 ILCS 500/30-30)

Sec. 30-30. Contracts in excess of $250,000. For building construction contracts in excess of $250,000, separate specifications shall be prepared for all equipment, labor, and materials in connection with the following 5 subdivisions of the work to be performed:

(1) plumbing;
(2) heating, piping, refrigeration, and automatic temperature control systems, including the testing and balancing of those systems;
(3) ventilating and distribution systems for conditioned air, including the testing and balancing of those systems;
(4) electric wiring; and

The specifications must be so drawn as to permit separate and independent bidding upon each of the 5 subdivisions of work. All contracts awarded for any part thereof shall award the 5 subdivisions of work separately to responsible and reliable persons, firms, or corporations engaged in these classes of work. The contracts, at the discretion of the construction agency, may be assigned to the successful bidder on the general contract work or to the successful bidder on the subdivision of work designated by the construction agency before the bidding as the prime subdivision of work,
provided that all payments will be made directly to the contractors for the 5 subdivisions of work upon compliance with the conditions of the contract. A contract may be let for one or more buildings in any project to the same contractor. The specifications shall require, however, that unless the buildings are identical, a separate price shall be submitted for each building. The contract may be awarded to the lowest responsible bidder for each or all of the buildings included in the specifications.

Until a date 2 years after the effective date of this amendatory Act of the 93rd General Assembly, the requirements of this Section do not apply to the construction of an Emergency Operations Center for the Illinois Emergency Management Agency if (i) the majority of the funding for the project is from federal funds, (ii) the bid of the successful bidder identifies the name of the subcontractor, if any, and the bid proposal costs for each of the 5 subdivisions of work set forth in this Section, and (iii) the contract entered into with the successful bidder provides that no identified subcontractor may be terminated without the written consent of the Capital Development Board.

Until a date 5 years after the effective date of this amendatory Act of the 94th General Assembly, the requirements of this Section do not apply to the Capitol Building HVAC upgrade project if (i) the bid of the successful bidder identifies the name of the subcontractor, if any, and the bid proposal costs for each of the 5 subdivisions of work set forth in this Section, and (ii) the contract entered into with the successful bidder provides that no identified subcontractor may be terminated without the written consent of the Capital Development Board.

Upon conviction of a person for theft of motor fuel, the court shall order the person to surrender his or her driver's license to the clerk of the court who shall forward the suspended license to the Secretary.

Section 10. The Criminal Code of 1961 is amended by adding Article 16J as follows:

(720 ILCS 5/Art. 16J heading new)

ARTICLE 16J. THEFT OF MOTOR FUEL

(720 ILCS 5/16J-5 new)

Sec. 16J-5. Legislative declaration. It is the public policy of this State that the substantial burden placed upon the economy of this State resulting from the rising incidence of theft of motor fuel is a matter of grave concern to the people of this State who have a right to be protected in their health, safety and welfare from the effects of this crime.

(720 ILCS 5/16J-10 new)

Sec. 16J-10. Definitions. For the purposes of this Article:

"Motor fuel" means a liquid, regardless of its properties, used to propel a vehicle, including gasoline and diesel.

"Retailer" means a person, business, or establishment that sells motor fuel at retail. "Vehicle" means a motor vehicle, motorcycle, or farm implement that is self-propelled and that uses motor fuel for propulsion.

(720 ILCS 5/16J-15 new)

Sec. 16J-15. Offense of theft of motor fuel. A person commits the offense of theft of motor fuel when he or she knowingly dispenses motor fuel into a storage container or the fuel tank of a motor vehicle at an establishment in which motor fuel is offered for retail sale and leaves the premises of the establishment without making payment or the authorized charge for the motor fuel with the intention of depriving the establishment in which the motor fuel is offered for retail sale of the possession, use, or benefit of that motor fuel without paying the full retail value of the motor fuel.

(720 ILCS 5/16J-25 new)

Sec. 16J-25. Civil liability. A person who commits the offense of theft of motor fuel as described in Section 16J-15 is civilly liable to the retailer as prescribed in Section 16A-7.

(b) A person who has been convicted of theft of motor fuel, the full retail value of which does not exceed $150, and who has been previously convicted of any type of theft, robbery, armed robbery, burglary, residential burglary, possession of burglary tools or home invasion is guilty of a Class 4 felony. When a person has any such prior conviction, the information or indictment charging that person shall state such prior conviction so as to give notice of the State's intention to treat the charge as a felony. The fact of such prior conviction is not an element of the offense and may not be disclosed to the jury during trial unless otherwise permitted by issues properly raised during such trial.
(c) Any theft of motor fuel, the full retail value of which exceeds $150, is a Class 3 felony. When a charge of theft of motor fuel, the full value of which exceeds $150, is brought, the value of the motor fuel involved is an element of the offense to be resolved by the trier of fact as either exceeding or not exceeding $150.

(720 ILCS 5/16J-35 new)
Sec. 16J-35. Continuation of prior law. The provisions of this Article insofar as they are the same or substantially the same as those of Article 16 of this Code shall be construed as a continuation of that Article 16 and not as a new enactment.

PUBLIC ACT 94-0702
(House Bill 1142)

AN ACT concerning local government.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Illinois Municipal Code is amended by changing Sections 11-74.4-3 and 11-74.4-7 as follows:

(65 ILCS 5/11-74.4-3) (from Ch. 24, par. 11-74.4-3)
Sec. 11-74.4-3. Definitions. The following terms, wherever used or referred to in this Division 74.4 shall have the following respective meanings, unless in any case a different meaning clearly appears from the context.

(a) For any redevelopment project area that has been designated pursuant to this Section by an ordinance adopted prior to November 1, 1999 (the effective date of Public Act 91-478), "blighted area" shall have the meaning set forth in this Section prior to that date.

On and after November 1, 1999, "blighted area" means any improved or vacant area within the boundaries of a redevelopment project area located within the territorial limits of the municipality where:

(1) If improved, industrial, commercial, and residential
buildings or improvements are detrimental to the public safety, health, or welfare because of a combination of 5 or more of the following factors, each of which is (i) present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) reasonably distributed throughout the improved part of the redevelopment project area:

(A) Dilapidation. An advanced state of disrepair or neglect of necessary repairs to the primary structural components of buildings or improvements in such a combination that a documented building condition analysis determines that major repair is required or the defects are so serious and so extensive that the buildings must be removed.

(B) Obsolescence. The condition or process of falling into disuse. Structures have become ill-suited for the original use.

(C) Deterioration. With respect to buildings, defects including, but not limited to, major defects in the secondary building components such as doors, windows, porches, gutters and downspouts, and fascia. With respect to surface improvements, that the condition of roadways, alleys, curbs, gutters, sidewalks, off-street parking, and surface storage areas evidence deterioration, including, but not limited to, surface cracking, crumbling, potholes, depressions, loose paving material, and weeds protruding through paved surfaces.

(D) Presence of structures below minimum code standards. All structures that do not meet the standards of zoning, subdivision, building, fire, and other governmental codes applicable to property, but not including housing and property maintenance codes.

(E) Illegal use of individual structures. The use of structures in violation of applicable federal, State, or local laws, exclusive of those applicable to the presence of structures below minimum code standards.

(F) Excessive vacancies. The presence of buildings that are unoccupied or under-utilized and that represent an adverse influence on the area because of the frequency, extent, or duration of the vacancies.

New matter indicated by italics - deletions by strikeout
(G) Lack of ventilation, light, or sanitary facilities. The absence of adequate ventilation for light or air circulation in spaces or rooms without windows, or that require the removal of dust, odor, gas, smoke, or other noxious airborne materials. Inadequate natural light and ventilation means the absence of skylights or windows for interior spaces or rooms and improper window sizes and amounts by room area to window area ratios. Inadequate sanitary facilities refers to the absence or inadequacy of garbage storage and enclosure, bathroom facilities, hot water and kitchens, and structural inadequacies preventing ingress and egress to and from all rooms and units within a building.

(H) Inadequate utilities. Underground and overhead utilities such as storm sewers and storm drainage, sanitary sewers, water lines, and gas, telephone, and electrical services that are shown to be inadequate. Inadequate utilities are those that are: (i) of insufficient capacity to serve the uses in the redevelopment project area, (ii) deteriorated, antiquated, obsolete, or in disrepair, or (iii) lacking within the redevelopment project area.

(I) Excessive land coverage and overcrowding of structures and community facilities. The over-intensive use of property and the crowding of buildings and accessory facilities onto a site. Examples of problem conditions warranting the designation of an area as one exhibiting excessive land coverage are: (i) the presence of buildings either improperly situated on parcels or located on parcels of inadequate size and shape in relation to present-day standards of development for health and safety and (ii) the presence of multiple buildings on a single parcel. For there to be a finding of excessive land coverage, these parcels must exhibit one or more of the following conditions: insufficient provision for light and air within or around buildings, increased threat of spread of fire due to the close proximity of buildings, lack of adequate or proper access to a public right-of-way, lack of reasonably required off-street parking, or inadequate provision for loading and service.

(J) Deleterious land use or layout. The existence of incompatible land-use relationships, buildings occupied by
inappropriate mixed-uses, or uses considered to be noxious, offensive, or unsuitable for the surrounding area.

(K) Environmental clean-up. The proposed redevelopment project area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

(L) Lack of community planning. The proposed redevelopment project area was developed prior to or without the benefit or guidance of a community plan. This means that the development occurred prior to the adoption by the municipality of a comprehensive or other community plan or that the plan was not followed at the time of the area's development. This factor must be documented by evidence of adverse or incompatible land-use relationships, inadequate street layout, improper subdivision, parcels of inadequate shape and size to meet contemporary development standards, or other evidence demonstrating an absence of effective community planning.

(M) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated.

(2) If vacant, the sound growth of the redevelopment project area is impaired by a combination of 2 or more of the following factors, each of which is (i) present, with that presence documented,
to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) reasonably distributed throughout the vacant part of the redevelopment project area to which it pertains:

(A) Obsolete platting of vacant land that results in parcels of limited or narrow size or configurations of parcels of irregular size or shape that would be difficult to develop on a planned basis and in a manner compatible with contemporary standards and requirements, or platting that failed to create rights-of-ways for streets or alleys or that created inadequate right-of-way widths for streets, alleys, or other public rights-of-way or that omitted easements for public utilities.

(B) Diversity of ownership of parcels of vacant land sufficient in number to retard or impede the ability to assemble the land for development.

(C) Tax and special assessment delinquencies exist or the property has been the subject of tax sales under the Property Tax Code within the last 5 years.

(D) Deterioration of structures or site improvements in neighboring areas adjacent to the vacant land.

(E) The area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

(F) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor.

States Department of Labor or successor agency for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated.

(3) If vacant, the sound growth of the redevelopment project area is impaired by one of the following factors that (i) is present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) is reasonably distributed throughout the vacant part of the redevelopment project area to which it pertains:

(A) The area consists of one or more unused quarries, mines, or strip mine ponds.

(B) The area consists of unused rail yards, rail tracks, or railroad rights-of-way.

(C) The area, prior to its designation, is subject to (i) chronic flooding that adversely impacts on real property in the area as certified by a registered professional engineer or appropriate regulatory agency or (ii) surface water that discharges from all or a part of the area and contributes to flooding within the same watershed, but only if the redevelopment project provides for facilities or improvements to contribute to the alleviation of all or part of the flooding.

(D) The area consists of an unused or illegal disposal site containing earth, stone, building debris, or similar materials that were removed from construction, demolition, excavation, or dredge sites.

(E) Prior to November 1, 1999, the area is not less than 50 nor more than 100 acres and 75% of which is vacant (notwithstanding that the area has been used for commercial agricultural purposes within 5 years prior to the designation of the redevelopment project area), and the area meets at least one of the factors itemized in paragraph (1) of this subsection, the area has been designated as a town or village center by ordinance or comprehensive plan adopted prior to January 1, 1982, and the area has not been developed for that designated purpose.

(F) The area qualified as a blighted improved area immediately prior to becoming vacant, unless there has been substantial private investment in the immediately surrounding

area.

(b) For any redevelopment project area that has been designated pursuant to this Section by an ordinance adopted prior to November 1, 1999 (the effective date of Public Act 91-478), "conservation area" shall have the meaning set forth in this Section prior to that date.

On and after November 1, 1999, "conservation area" means any improved area within the boundaries of a redevelopment project area located within the territorial limits of the municipality in which 50% or more of the structures in the area have an age of 35 years or more. Such an area is not yet a blighted area but because of a combination of 3 or more of the following factors is detrimental to the public safety, health, morals or welfare and such an area may become a blighted area:

1. Dilapidation. An advanced state of disrepair or neglect of necessary repairs to the primary structural components of buildings or improvements in such a combination that a documented building condition analysis determines that major repair is required or the defects are so serious and so extensive that the buildings must be removed.

2. Obsolescence. The condition or process of falling into disuse. Structures have become ill-suited for the original use.

3. Deterioration. With respect to buildings, defects including, but not limited to, major defects in the secondary building components such as doors, windows, porches, gutters and downspouts, and fascia. With respect to surface improvements, that the condition of roadways, alleys, curbs, gutters, sidewalks, off-street parking, and surface storage areas evidence deterioration, including, but not limited to, surface cracking, crumbling, potholes, depressions, loose paving material, and weeds protruding through paved surfaces.

4. Presence of structures below minimum code standards. All structures that do not meet the standards of zoning, subdivision, building, fire, and other governmental codes applicable to property, but not including housing and property maintenance codes.

5. Illegal use of individual structures. The use of structures in violation of applicable federal, State, or local laws, exclusive of those applicable to the presence of structures below minimum code standards.

6. Excessive vacancies. The presence of buildings that are unoccupied or under-utilized and that represent an adverse influence on the area because of the frequency, extent, or duration of the

(7) Lack of ventilation, light, or sanitary facilities. The absence of adequate ventilation for light or air circulation in spaces or rooms without windows, or that require the removal of dust, odor, gas, smoke, or other noxious airborne materials. Inadequate natural light and ventilation means the absence or inadequacy of skylights or windows for interior spaces or rooms and improper window sizes and amounts by room area to window area ratios. Inadequate sanitary facilities refers to the absence or inadequacy of garbage storage and enclosure, bathroom facilities, hot water and kitchens, and structural inadequacies preventing ingress and egress to and from all rooms and units within a building.

(8) Inadequate utilities. Underground and overhead utilities such as storm sewers and storm drainage, sanitary sewers, water lines, and gas, telephone, and electrical services that are shown to be inadequate. Inadequate utilities are those that are: (i) of insufficient capacity to serve the uses in the redevelopment project area, (ii) deteriorated, antiquated, obsolete, or in disrepair, or (iii) lacking within the redevelopment project area.

(9) Excessive land coverage and overcrowding of structures and community facilities. The over-intensive use of property and the crowding of buildings and accessory facilities onto a site. Examples of problem conditions warranting the designation of an area as one exhibiting excessive land coverage are: the presence of buildings either improperly situated on parcels or located on parcels of inadequate size and shape in relation to present-day standards of development for health and safety and the presence of multiple buildings on a single parcel. For there to be a finding of excessive land coverage, these parcels must exhibit one or more of the following conditions: insufficient provision for light and air within or around buildings, increased threat of spread of fire due to the close proximity of buildings, lack of adequate or proper access to a public right-of-way, lack of reasonably required off-street parking, or inadequate provision for loading and service.

(10) Deleterious land use or layout. The existence of incompatible land-use relationships, buildings occupied by inappropriate mixed-uses, or uses considered to be noxious, offensive, or unsuitable for the surrounding area.

(11) Lack of community planning. The proposed
redevelopment project area was developed prior to or without the benefit or guidance of a community plan. This means that the development occurred prior to the adoption by the municipality of a comprehensive or other community plan or that the plan was not followed at the time of the area's development. This factor must be documented by evidence of adverse or incompatible land-use relationships, inadequate street layout, improper subdivision, parcels of inadequate shape and size to meet contemporary development standards, or other evidence demonstrating an absence of effective community planning.

(12) The area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

(13) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years for which information is available.

(c) "Industrial park" means an area in a blighted or conservation area suitable for use by any manufacturing, industrial, research or transportation enterprise, of facilities to include but not be limited to factories, mills, processing plants, assembly plants, packing plants, fabricating plants, industrial distribution centers, warehouses, repair overhaul or service facilities, freight terminals, research facilities, test facilities or railroad facilities.

(d) "Industrial park conservation area" means an area within the boundaries of a redevelopment project area located within the territorial limits of a municipality that is a labor surplus municipality or within 1 1/2 miles of the territorial limits of a municipality that is a labor surplus

municipality if the area is annexed to the municipality; which area is zoned as industrial no later than at the time the municipality by ordinance designates the redevelopment project area, and which area includes both vacant land suitable for use as an industrial park and a blighted area or conservation area contiguous to such vacant land.

(e) "Labor surplus municipality" means a municipality in which, at any time during the 6 months before the municipality by ordinance designates an industrial park conservation area, the unemployment rate was over 6% and was also 100% or more of the national average unemployment rate for that same time as published in the United States Department of Labor Bureau of Labor Statistics publication entitled "The Employment Situation" or its successor publication. For the purpose of this subsection, if unemployment rate statistics for the municipality are not available, the unemployment rate in the municipality shall be deemed to be the same as the unemployment rate in the principal county in which the municipality is located.

(f) "Municipality" shall mean a city, village or incorporated town.

(g) "Initial Sales Tax Amounts" means the amount of taxes paid under the Retailers' Occupation Tax Act, Use Tax Act, Service Use Tax Act, the Service Occupation Tax Act, the Municipal Retailers' Occupation Tax Act, and the Municipal Service Occupation Tax Act by retailers and servicemen on transactions at places located in a State Sales Tax Boundary during the calendar year 1985.

(g-1) "Revised Initial Sales Tax Amounts" means the amount of taxes paid under the Retailers' Occupation Tax Act, Use Tax Act, Service Use Tax Act, the Service Occupation Tax Act, the Municipal Retailers' Occupation Tax Act, and the Municipal Service Occupation Tax Act by retailers and servicemen on transactions at places located within the State Sales Tax Boundary revised pursuant to Section 11-74.4-8a(9) of this Act.

(h) "Municipal Sales Tax Increment" means an amount equal to the increase in the aggregate amount of taxes paid to a municipality from the Local Government Tax Fund arising from sales by retailers and servicemen within the redevelopment project area or State Sales Tax Boundary, as the case may be, for as long as the redevelopment project area or State Sales Tax Boundary, as the case may be, exist over and above the aggregate amount of taxes as certified by the Illinois Department of Revenue and paid under the Municipal Retailers' Occupation Tax Act and the Municipal Service Occupation Tax Act by retailers and servicemen, on transactions at places of business located in the redevelopment project area or State Sales Tax Boundary, as the case may be, during the base year which shall be the
calendar year immediately prior to the year in which the municipality adopted tax increment allocation financing. For purposes of computing the aggregate amount of such taxes for base years occurring prior to 1985, the Department of Revenue shall determine the Initial Sales Tax Amounts for such taxes and deduct therefrom an amount equal to 4% of the aggregate amount of taxes per year for each year the base year is prior to 1985, but not to exceed a total deduction of 12%. The amount so determined shall be known as the "Adjusted Initial Sales Tax Amounts". For purposes of determining the Municipal Sales Tax Increment, the Department of Revenue shall for each period subtract from the amount paid to the municipality from the Local Government Tax Fund arising from sales by retailers and servicemen on transactions located in the redevelopment project area or the State Sales Tax Boundary, as the case may be, the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts for the Municipal Retailers' Occupation Tax Act and the Municipal Service Occupation Tax Act. For the State Fiscal Year 1989, this calculation shall be made by utilizing the calendar year 1987 to determine the tax amounts received. For the State Fiscal Year 1990, this calculation shall be made by utilizing the period from January 1, 1988, until September 30, 1988, to determine the tax amounts received from retailers and servicemen pursuant to the Municipal Retailers' Occupation Tax and the Municipal Service Occupation Tax Act, which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For the State Fiscal Year 1991, this calculation shall be made by utilizing the period from October 1, 1988, to June 30, 1989, to determine the tax amounts received from retailers and servicemen pursuant to the Municipal Retailers' Occupation Tax and the Municipal Service Occupation Tax Act which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For every State Fiscal Year thereafter, the applicable period shall be the 12 months beginning July 1 and ending June 30 to determine the tax amounts received which shall have deducted therefrom the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts, as the case may be.

(i) "Net State Sales Tax Increment" means the sum of the following: (a) 80% of the first $100,000 of State Sales Tax Increment annually generated within a State Sales Tax Boundary; (b) 60% of the amount in excess of $100,000 but not exceeding $500,000 of State Sales Tax Increment annually

New matter indicated by italics - deletions by strikeout
generated within a State Sales Tax Boundary; and (c) 40% of all amounts in excess of $500,000 of State Sales Tax Increment annually generated within a State Sales Tax Boundary. If, however, a municipality established a tax increment financing district in a county with a population in excess of 3,000,000 before January 1, 1986, and the municipality entered into a contract or issued bonds after January 1, 1986, but before December 31, 1986, to finance redevelopment project costs within a State Sales Tax Boundary, then the Net State Sales Tax Increment means, for the fiscal years beginning July 1, 1990, and July 1, 1991, 100% of the State Sales Tax Increment annually generated within a State Sales Tax Boundary; and notwithstanding any other provision of this Act, for those fiscal years the Department of Revenue shall distribute to those municipalities 100% of their Net State Sales Tax Increment before any distribution to any other municipality and regardless of whether or not those other municipalities will receive 100% of their Net State Sales Tax Increment. For Fiscal Year 1999, and every year thereafter until the year 2007, for any municipality that has not entered into a contract or has not issued bonds prior to June 1, 1988 to finance redevelopment project costs within a State Sales Tax Boundary, the Net State Sales Tax Increment shall be calculated as follows: By multiplying the Net State Sales Tax Increment by 90% in the State Fiscal Year 1999; 80% in the State Fiscal Year 2000; 70% in the State Fiscal Year 2001; 60% in the State Fiscal Year 2002; 50% in the State Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006; and 10% in the State Fiscal Year 2007. No payment shall be made for State Fiscal Year 2008 and thereafter.

Municipalities that issued bonds in connection with a redevelopment project in a redevelopment project area within the State Sales Tax Boundary prior to July 29, 1991, or that entered into contracts in connection with a redevelopment project in a redevelopment project area before June 1, 1988, shall continue to receive their proportional share of the Illinois Tax Increment Fund distribution until the date on which the redevelopment project is completed or terminated. If, however, a municipality that issued bonds in connection with a redevelopment project in a redevelopment project area within the State Sales Tax Boundary prior to July 29, 1991 retires the bonds prior to June 30, 2007 or a municipality that entered into contracts in connection with a redevelopment project in a redevelopment project area before June 1, 1988 completes the contracts prior to June 30, 2007, then so long as the redevelopment project is not completed or is not terminated, the Net State Sales Tax Increment shall be calculated, beginning on the date on

which the bonds are retired or the contracts are completed, as follows: By multiplying the Net State Sales Tax Increment by 60% in the State Fiscal Year 2002; 50% in the State Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006; and 10% in the State Fiscal Year 2007. No payment shall be made for State Fiscal Year 2008 and thereafter. Refunding of any bonds issued prior to July 29, 1991, shall not alter the Net State Sales Tax Increment.

(j) "State Utility Tax Increment Amount" means an amount equal to the aggregate increase in State electric and gas tax charges imposed on owners and tenants, other than residential customers, of properties located within the redevelopment project area under Section 9-222 of the Public Utilities Act, over and above the aggregate of such charges as certified by the Department of Revenue and paid by owners and tenants, other than residential customers, of properties within the redevelopment project area during the base year, which shall be the calendar year immediately prior to the year of the adoption of the ordinance authorizing tax increment allocation financing.

(k) "Net State Utility Tax Increment" means the sum of the following: (a) 80% of the first $100,000 of State Utility Tax Increment annually generated by a redevelopment project area; (b) 60% of the amount in excess of $100,000 but not exceeding $500,000 of the State Utility Tax Increment annually generated by a redevelopment project area; and (c) 40% of all amounts in excess of $500,000 of State Utility Tax Increment annually generated by a redevelopment project area. For the State Fiscal Year 1999, and every year thereafter until the year 2007, for any municipality that has not entered into a contract or has not issued bonds prior to June 1, 1988 to finance redevelopment project costs within a redevelopment project area, the Net State Utility Tax Increment shall be calculated as follows: By multiplying the Net State Utility Tax Increment by 90% in the State Fiscal Year 1999; 80% in the State Fiscal Year 2000; 70% in the State Fiscal Year 2001; 60% in the State Fiscal Year 2002; 50% in the State Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006; and 10% in the State Fiscal Year 2007. No payment shall be made for the State Fiscal Year 2008 and thereafter.

Municipalities that issue bonds in connection with the redevelopment project during the period from June 1, 1988 until 3 years after the effective date of this Amendatory Act of 1988 shall receive the Net State Utility Tax Increment, subject to appropriation, for 15 State Fiscal Years after the issuance of such bonds. For the 16th through the 20th State Fiscal Years after
issuance of the bonds, the Net State Utility Tax Increment shall be calculated as follows: By multiplying the Net State Utility Tax Increment by 90% in year 16; 80% in year 17; 70% in year 18; 60% in year 19; and 50% in year 20. Refunding of any bonds issued prior to June 1, 1988, shall not alter the revised Net State Utility Tax Increment payments set forth above.

(1) "Obligations" mean bonds, loans, debentures, notes, special certificates or other evidence of indebtedness issued by the municipality to carry out a redevelopment project or to refund outstanding obligations.

(m) "Payment in lieu of taxes" means those estimated tax revenues from real property in a redevelopment project area derived from real property that has been acquired by a municipality which according to the redevelopment project or plan is to be used for a private use which taxing districts would have received had a municipality not acquired the real property and adopted tax increment allocation financing and which would result from levies made after the time of the adoption of tax increment allocation financing to the time the current equalized value of real property in the redevelopment project area exceeds the total initial equalized value of real property in said area.

(n) "Redevelopment plan" means the comprehensive program of the municipality for development or redevelopment intended by the payment of redevelopment project costs to reduce or eliminate those conditions the existence of which qualified the redevelopment project area as a "blighted area" or "conservation area" or combination thereof or "industrial park conservation area," and thereby to enhance the tax bases of the taxing districts which extend into the redevelopment project area. On and after November 1, 1999 (the effective date of Public Act 91-478), no redevelopment plan may be approved or amended that includes the development of vacant land (i) with a golf course and related clubhouse and other facilities or (ii) designated by federal, State, county, or municipal government as public land for outdoor recreational activities or for nature preserves and used for that purpose within 5 years prior to the adoption of the redevelopment plan. For the purpose of this subsection, "recreational activities" is limited to mean camping and hunting. Each redevelopment plan shall set forth in writing the program to be undertaken to accomplish the objectives and shall include but not be limited to:

(A) an itemized list of estimated redevelopment project costs;
(B) evidence indicating that the redevelopment project area on the whole has not been subject to growth and development through investment by private enterprise;

New matter indicated by italics - deletions by strikeout
(C) an assessment of any financial impact of the redevelopment project area on or any increased demand for services from any taxing district affected by the plan and any program to address such financial impact or increased demand;

(D) the sources of funds to pay costs;

(E) the nature and term of the obligations to be issued;

(F) the most recent equalized assessed valuation of the redevelopment project area;

(G) an estimate as to the equalized assessed valuation after redevelopment and the general land uses to apply in the redevelopment project area;

(H) a commitment to fair employment practices and an affirmative action plan;

(I) if it concerns an industrial park conservation area, the plan shall also include a general description of any proposed developer, user and tenant of any property, a description of the type, structure and general character of the facilities to be developed, a description of the type, class and number of new employees to be employed in the operation of the facilities to be developed; and

(J) if property is to be annexed to the municipality, the plan shall include the terms of the annexation agreement.

The provisions of items (B) and (C) of this subsection (n) shall not apply to a municipality that before March 14, 1994 (the effective date of Public Act 88-537) had fixed, either by its corporate authorities or by a commission designated under subsection (k) of Section 11-74.4-4, a time and place for a public hearing as required by subsection (a) of Section 11-74.4-5.

No redevelopment plan shall be adopted unless a municipality complies with all of the following requirements:

(1) The municipality finds that the redevelopment project area on the whole has not been subject to growth and development through investment by private enterprise and would not reasonably be anticipated to be developed without the adoption of the redevelopment plan.

(2) The municipality finds that the redevelopment plan and project conform to the comprehensive plan for the development of the municipality as a whole, or, for municipalities with a population of 100,000 or more, regardless of when the redevelopment plan and project was adopted, the redevelopment plan and project either: (i) conforms to the strategic economic development or redevelopment

plan issued by the designated planning authority of the municipality, or (ii) includes land uses that have been approved by the planning commission of the municipality.

(3) The redevelopment plan establishes the estimated dates of completion of the redevelopment project and retirement of obligations issued to finance redevelopment project costs. Those dates shall not be later than December 31 of the year in which the payment to the municipal treasurer as provided in subsection (b) of Section 11-74.4-8 of this Act is to be made with respect to ad valorem taxes levied in the twenty-third calendar year after the year in which the ordinance approving the redevelopment project area is adopted if the ordinance was adopted on or after January 15, 1981, and not later than December 31 of the year in which the payment to the municipal treasurer as provided in subsection (b) of Section 11-74.4-8 of this Act is to be made with respect to ad valorem taxes levied in the thirty-fifth calendar year after the year in which the ordinance approving the redevelopment project area is adopted:

However, for redevelopment project areas for which bonds were issued before July 29, 1991, or for which contracts were entered into before June 1, 1988, in connection with a redevelopment project in the area within the State Sales Tax Boundary, the estimated dates of completion of the redevelopment project and retirement of obligations to finance redevelopment project costs may be extended by municipal ordinance to December 31, 2013. The termination procedures of subsection (b) of Section 11-74.4-8 are not required for

these redevelopment project areas in 2009 but are required in 2013. The extension allowed by this amendatory Act of 1993 shall not apply to real property tax increment allocation financing under Section 11-74.4-8.

A municipality may by municipal ordinance amend an existing redevelopment plan to conform to this paragraph (3) as amended by Public Act 91-478, which municipal ordinance may be adopted without further hearing or notice and without complying with the procedures provided in this Act pertaining to an amendment to or the initial approval of a redevelopment plan and project and designation of a redevelopment project area.

Those dates, for purposes of real property tax increment allocation financing pursuant to Section 11-74.4-8 only, shall be not more than 35 years for redevelopment project areas that were adopted on or after December 16, 1986 and for which at least $8 million worth of municipal bonds were authorized on or after December 19, 1989 but before January 1, 1990; provided that the municipality elects to extend the life of the redevelopment project area to 35 years by the adoption of an ordinance after at least 14 but not more than 30 days' written notice to the taxing bodies, that would otherwise constitute the joint review board for the redevelopment project area, before the adoption of the ordinance.

Those dates, for purposes of real property tax increment allocation financing pursuant to Section 11-74.4-8 only, shall be not more than 35 years for redevelopment project areas that were established on or after December 1, 1981 but before January 1, 1982 and for which at least $1,500,000 worth of tax increment revenue bonds were authorized on or after September 30, 1990 but before July 1, 1991; provided that the municipality elects to extend the life of the redevelopment project area to 35 years by the adoption of an ordinance after at least 14 but not more than 30 days' written notice to the taxing bodies, that would otherwise constitute the joint review board for the redevelopment project area, before the adoption of the ordinance.

(3.5) The municipality finds, in the case of an industrial park conservation area, also that the municipality is a labor surplus municipality and that the implementation of the redevelopment plan will reduce unemployment, create new jobs and by the provision of new facilities enhance the tax base of the taxing districts that extend

into the redevelopment project area.

(4) If any incremental revenues are being utilized under Section 8(a)(1) or 8(a)(2) of this Act in redevelopment project areas approved by ordinance after January 1, 1986, the municipality finds: (a) that the redevelopment project area would not reasonably be developed without the use of such incremental revenues, and (b) that such incremental revenues will be exclusively utilized for the development of the redevelopment project area.

(5) If the redevelopment plan will not result in displacement of residents from 10 or more inhabited residential units, and the municipality certifies in the plan that such displacement will not result from the plan, a housing impact study need not be performed. If, however, the redevelopment plan would result in the displacement of residents from 10 or more inhabited residential units, or if the redevelopment project area contains 75 or more inhabited residential units and no certification is made, then the municipality shall prepare, as part of the separate feasibility report required by subsection (a) of Section 11-74.4-5, a housing impact study.

Part I of the housing impact study shall include (i) data as to whether the residential units are single family or multi-family units, (ii) the number and type of rooms within the units, if that information is available, (iii) whether the units are inhabited or uninhabited, as determined not less than 45 days before the date that the ordinance or resolution required by subsection (a) of Section 11-74.4-5 is passed, and (iv) data as to the racial and ethnic composition of the residents in the inhabited residential units. The data requirement as to the racial and ethnic composition of the residents in the inhabited residential units shall be deemed to be fully satisfied by data from the most recent federal census.

Part II of the housing impact study shall identify the inhabited residential units in the proposed redevelopment project area that are to be or may be removed. If inhabited residential units are to be removed, then the housing impact study shall identify (i) the number and location of those units that will or may be removed, (ii) the municipality's plans for relocation assistance for those residents in the proposed redevelopment project area whose residences are to be removed, (iii) the availability of replacement housing for those residents whose residences are to be removed, and shall identify the type, location, and cost of the housing, and (iv) the type and extent of

relocation assistance to be provided.

(6) On and after November 1, 1999, the housing impact study required by paragraph (5) shall be incorporated in the redevelopment plan for the redevelopment project area.

(7) On and after November 1, 1999, no redevelopment plan shall be adopted, nor an existing plan amended, nor shall residential housing that is occupied by households of low-income and very low-income persons in currently existing redevelopment project areas be removed after November 1, 1999 unless the redevelopment plan provides, with respect to inhabited housing units that are to be removed for households of low-income and very low-income persons, affordable housing and relocation assistance not less than that which would be provided under the federal Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 and the regulations under that Act, including the eligibility criteria. Affordable housing may be either existing or newly constructed housing. For purposes of this paragraph (7), "low-income households", "very low-income households", and "affordable housing" have the meanings set forth in the Illinois Affordable Housing Act. The municipality shall make a good faith effort to ensure that this affordable housing is located in or near the redevelopment project area within the municipality.

(8) On and after November 1, 1999, if, after the adoption of the redevelopment plan for the redevelopment project area, any municipality desires to amend its redevelopment plan to remove more inhabited residential units than specified in its original redevelopment plan, that change shall be made in accordance with the procedures in subsection (c) of Section 11-74.4-5.

(9) For redevelopment project areas designated prior to November 1, 1999, the redevelopment plan may be amended without further joint review board meeting or hearing, provided that the municipality shall give notice of any such changes by mail to each affected taxing district and registrant on the interested party registry, to authorize the municipality to expend tax increment revenues for redevelopment project costs defined by paragraphs (5) and (7.5), subparagraphs (E) and (F) of paragraph (11), and paragraph (11.5) of subsection (q) of Section 11-74.4-3, so long as the changes do not increase the total estimated redevelopment project costs set out in the redevelopment plan by more than 5% after adjustment for inflation.
from the date the plan was adopted.

(o) "Redevelopment project" means any public and private development project in furtherance of the objectives of a redevelopment plan. On and after November 1, 1999 (the effective date of Public Act 91-478), no redevelopment plan may be approved or amended that includes the development of vacant land (i) with a golf course and related clubhouse and other facilities or (ii) designated by federal, State, county, or municipal government as public land for outdoor recreational activities or for nature preserves and used for that purpose within 5 years prior to the adoption of the redevelopment plan. For the purpose of this subsection, "recreational activities" is limited to mean camping and hunting.

(p) "Redevelopment project area" means an area designated by the municipality, which is not less in the aggregate than 1 1/2 acres and in respect to which the municipality has made a finding that there exist conditions which cause the area to be classified as an industrial park conservation area or a blighted area or a conservation area, or a combination of both blighted areas and conservation areas.

(q) "Redevelopment project costs" mean and include the sum total of all reasonable or necessary costs incurred or estimated to be incurred, and any such costs incidental to a redevelopment plan and a redevelopment project. Such costs include, without limitation, the following:

1. Costs of studies, surveys, development of plans, and specifications, implementation and administration of the redevelopment plan including but not limited to staff and professional service costs for architectural, engineering, legal, financial, planning or other services, provided however that no charges for professional services may be based on a percentage of the tax increment collected; except that on and after November 1, 1999 (the effective date of Public Act 91-478), no contracts for professional services, excluding architectural and engineering services, may be entered into if the terms of the contract extend beyond a period of 3 years. In addition, "redevelopment project costs" shall not include lobbying expenses. After consultation with the municipality, each tax increment consultant or advisor to a municipality that plans to designate or has designated a redevelopment project area shall inform the municipality in writing of any contracts that the consultant or advisor has entered into with entities or individuals that have received, or are receiving, payments financed by tax increment revenues produced by the redevelopment project area with respect to which the consultant or
advisor has performed, or will be performing, service for the municipality. This requirement shall be satisfied by the consultant or advisor before the commencement of services for the municipality and thereafter whenever any other contracts with those individuals or entities are executed by the consultant or advisor;

(1.5) After July 1, 1999, annual administrative costs shall not include general overhead or administrative costs of the municipality that would still have been incurred by the municipality if the municipality had not designated a redevelopment project area or approved a redevelopment plan;

(1.6) The cost of marketing sites within the redevelopment project area to prospective businesses, developers, and investors;

(2) Property assembly costs, including but not limited to acquisition of land and other property, real or personal, or rights or interests therein, demolition of buildings, site preparation, site improvements that serve as an engineered barrier addressing ground level or below ground environmental contamination, including, but not limited to parking lots and other concrete or asphalt barriers, and the clearing and grading of land;

(3) Costs of rehabilitation, reconstruction or repair or remodeling of existing public or private buildings, fixtures, and leasehold improvements; and the cost of replacing an existing public building if pursuant to the implementation of a redevelopment project the existing public building is to be demolished to use the site for private investment or devoted to a different use requiring private investment;

(4) Costs of the construction of public works or improvements, except that on and after November 1, 1999, redevelopment project costs shall not include the cost of constructing a new municipal public building principally used to provide offices, storage space, or conference facilities or vehicle storage, maintenance, or repair for administrative, public safety, or public works personnel and that is not intended to replace an existing public building as provided under paragraph (3) of subsection (q) of Section 11-74.4-3 unless either (i) the construction of the new municipal building implements a redevelopment project that was included in a redevelopment plan that was adopted by the municipality prior to November 1, 1999 or (ii) the municipality makes a reasonable determination in the redevelopment plan, supported by information

New matter indicated by italics - deletions by strikeout
that provides the basis for that determination, that the new municipal building is required to meet an increase in the need for public safety purposes anticipated to result from the implementation of the redevelopment plan;

(5) Costs of job training and retraining projects, including the cost of "welfare to work" programs implemented by businesses located within the redevelopment project area;

(6) Financing costs, including but not limited to all necessary and incidental expenses related to the issuance of obligations and which may include payment of interest on any obligations issued hereunder including interest accruing during the estimated period of construction of any redevelopment project for which such obligations are issued and for not exceeding 36 months thereafter and including reasonable reserves related thereto;

(7) To the extent the municipality by written agreement accepts and approves the same, all or a portion of a taxing district's capital costs resulting from the redevelopment project necessarily incurred or to be incurred within a taxing district in furtherance of the objectives of the redevelopment plan and project.

(7.5) For redevelopment project areas designated (or redevelopment project areas amended to add or increase the number of tax-increment-financing assisted housing units) on or after November 1, 1999, an elementary, secondary, or unit school district's increased costs attributable to assisted housing units located within the redevelopment project area for which the developer or redeveloper receives financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the assisted housing sites necessary for the completion of that housing as authorized by this Act, and which costs shall be paid by the municipality from the Special Tax Allocation Fund when the tax increment revenue is received as a result of the assisted housing units and shall be calculated annually as follows:

(A) for foundation districts, excluding any school district in a municipality with a population in excess of 1,000,000, by multiplying the district's increase in attendance resulting from the net increase in new students enrolled in that school district who reside in housing units within the redevelopment project area that have received financial

assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by the most recently available per capita tuition cost as defined in Section 10-20.12a of the School Code less any increase in general State aid as defined in Section 18-8.05 of the School Code attributable to these added new students subject to the following annual limitations:

(i) for unit school districts with a district average 1995-96 Per Capita Tuition Charge of less than $5,900, no more than 25% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act;

(ii) for elementary school districts with a district average 1995-96 Per Capita Tuition Charge of less than $5,900, no more than 17% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act; and

(iii) for secondary school districts with a district average 1995-96 Per Capita Tuition Charge of less than $5,900, no more than 8% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act.

(B) For alternate method districts, flat grant districts, and foundation districts with a district average 1995-96 Per Capita Tuition Charge equal to or more than $5,900, excluding any school district with a population in excess of 1,000,000, by multiplying the district's increase in attendance resulting from the net increase in new students enrolled in that school district who reside in housing units within the redevelopment project area that have received financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary

   (i) for unit school districts, no more than 40% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act;

   (ii) for elementary school districts, no more than 27% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act; and

   (iii) for secondary school districts, no more than 13% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act.

   (C) For any school district in a municipality with a population in excess of 1,000,000, the following restrictions shall apply to the reimbursement of increased costs under this paragraph (7.5):

   (i) no increased costs shall be reimbursed unless the school district certifies that each of the schools affected by the assisted housing project is at or over its student capacity;

   (ii) the amount reimbursable shall be reduced by the value of any land donated to the school district by the municipality or developer, and by the value of any physical improvements made to the schools by the municipality or developer; and

   (iii) the amount reimbursed may not affect amounts otherwise obligated by the terms of any bonds, notes, or other funding instruments, or the

terms of any redevelopment agreement.

Any school district seeking payment under this paragraph (7.5) shall, after July 1 and before September 30 of each year, provide the municipality with reasonable evidence to support its claim for reimbursement before the municipality shall be required to approve or make the payment to the school district. If the school district fails to provide the information during this period in any year, it shall forfeit any claim to reimbursement for that year. School districts may adopt a resolution waiving the right to all or a portion of the reimbursement otherwise required by this paragraph (7.5). By acceptance of this reimbursement the school district waives the right to directly or indirectly set aside, modify, or contest in any manner the establishment of the redevelopment project area or projects;

(7.7) For redevelopment project areas designated (or redevelopment project areas amended to add or increase the number of tax-increment-financing assisted housing units) on or after January 1, 2005 (the effective date of Public Act 93-961) this amendatory Act of the 93rd General Assembly, a public library district's increased costs attributable to assisted housing units located within the redevelopment project area for which the developer or redeveloper receives financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the assisted housing sites necessary for the completion of that housing as authorized by this Act shall be paid to the library district by the municipality from the Special Tax Allocation Fund when the tax increment revenue is received as a result of the assisted housing units. This paragraph (7.7) applies only if (i) the library district is located in a county that is subject to the Property Tax Extension Limitation Law or (ii) the library district is not located in a county that is subject to the Property Tax Extension Limitation Law but the district is prohibited by any other law from increasing its tax levy rate without a prior voter referendum.

The amount paid to a library district under this paragraph (7.7) shall be calculated by multiplying (i) the net increase in the number of persons eligible to obtain a library card in that district who reside in housing units within the redevelopment project area that have received financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary

New matter indicated by italics - deletions by strikeout
infrastructure improvements within the boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by (i) the per-patron cost of providing library services so long as it does not exceed $120. The per-patron cost shall be the Total Operating Expenditures Per Capita as stated in the most recent Illinois Public Library Statistics produced by the Library Research Center at the University of Illinois. The municipality may deduct from the amount that it must pay to a library district under this paragraph any amount that it has voluntarily paid to the library district from the tax increment revenue. The amount paid to a library district under this paragraph (7.7) shall be no more than 2% of the amount produced by the assisted housing units and deposited into the Special Tax Allocation Fund.

A library district is not eligible for any payment under this paragraph (7.7) unless the library district has experienced an increase in the number of patrons from the municipality that created the tax-increment-financing district since the designation of the redevelopment project area.

Any library district seeking payment under this paragraph (7.7) shall, after July 1 and before September 30 of each year, provide the municipality with convincing evidence to support its claim for reimbursement before the municipality shall be required to approve or make the payment to the library district. If the library district fails to provide the information during this period in any year, it shall forfeit any claim to reimbursement for that year. Library districts may adopt a resolution waiving the right to all or a portion of the reimbursement otherwise required by this paragraph (7.7). By acceptance of such reimbursement, the library district shall forfeit any right to directly or indirectly set aside, modify, or contest in any manner whatsoever the establishment of the redevelopment project area or projects;

(8) Relocation costs to the extent that a municipality determines that relocation costs shall be paid or is required to make payment of relocation costs by federal or State law or in order to satisfy subparagraph (7) of subsection (n);

(9) Payment in lieu of taxes;

(10) Costs of job training, retraining, advanced vocational education or career education, including but not limited to courses in

occupational, semi-technical or technical fields leading directly to employment, incurred by one or more taxing districts, provided that such costs (i) are related to the establishment and maintenance of additional job training, advanced vocational education or career education programs for persons employed or to be employed by employers located in a redevelopment project area; and (ii) when incurred by a taxing district or taxing districts other than the municipality, are set forth in a written agreement by or among the municipality and the taxing district or taxing districts, which agreement describes the program to be undertaken, including but not limited to the number of employees to be trained, a description of the training and services to be provided, the number and type of positions available or to be available, itemized costs of the program and sources of funds to pay for the same, and the term of the agreement. Such costs include, specifically, the payment by community college districts of costs pursuant to Sections 3-37, 3-38, 3-40 and 3-40.1 of the Public Community College Act and by school districts of costs pursuant to Sections 10-22.20a and 10-23.3a of The School Code;

(11) Interest cost incurred by a redeveloper related to the construction, renovation or rehabilitation of a redevelopment project provided that:

(A) such costs are to be paid directly from the special tax allocation fund established pursuant to this Act;

(B) such payments in any one year may not exceed 30% of the annual interest costs incurred by the redeveloper with regard to the redevelopment project during that year;

(C) if there are not sufficient funds available in the special tax allocation fund to make the payment pursuant to this paragraph (11) then the amounts so due shall accrue and be payable when sufficient funds are available in the special tax allocation fund;

(D) the total of such interest payments paid pursuant to this Act may not exceed 30% of the total (i) cost paid or incurred by the redeveloper for the redevelopment project plus (ii) redevelopment project costs excluding any property assembly costs and any relocation costs incurred by a municipality pursuant to this Act; and

(E) the cost limits set forth in subparagraphs (B) and (D) of paragraph (11) shall be modified for the financing of

rehabilitated or new housing units for low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act. The percentage of 75% shall be substituted for 30% in subparagraphs (B) and (D) of paragraph (11).

(F) Instead of the eligible costs provided by subparagraphs (B) and (D) of paragraph (11), as modified by this subparagraph, and notwithstanding any other provisions of this Act to the contrary, the municipality may pay from tax increment revenues up to 50% of the cost of construction of new housing units to be occupied by low-income households and very low-income households as defined in Section 3 of the Illinois Affordable Housing Act. The cost of construction of those units may be derived from the proceeds of bonds issued by the municipality under this Act or other constitutional or statutory authority or from other sources of municipal revenue that may be reimbursed from tax increment revenues or the proceeds of bonds issued to finance the construction of that housing.

The eligible costs provided under this subparagraph (F) of paragraph (11) shall be an eligible cost for the construction, renovation, and rehabilitation of all low and very low-income housing units, as defined in Section 3 of the Illinois Affordable Housing Act, within the redevelopment project area. If the low and very low-income units are part of a residential redevelopment project that includes units not affordable to low and very low-income households, only the low and very low-income units shall be eligible for benefits under subparagraph (F) of paragraph (11). The standards for maintaining the occupancy by low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act, of those units constructed with eligible costs made available under the provisions of this subparagraph (F) of paragraph (11) shall be established by guidelines adopted by the municipality. The responsibility for annually documenting the initial occupancy of the units by low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act, shall be that of the then current owner of the property. For
ownership units, the guidelines will provide, at a minimum, for a reasonable recapture of funds, or other appropriate methods designed to preserve the original affordability of the ownership units. For rental units, the guidelines will provide, at a minimum, for the affordability of rent to low and very low-income households. As units become available, they shall be rented to income-eligible tenants. The municipality may modify these guidelines from time to time; the guidelines, however, shall be in effect for as long as tax increment revenue is being used to pay for costs associated with the units or for the retirement of bonds issued to finance the units or for the life of the redevelopment project area, whichever is later.

(11.5) If the redevelopment project area is located within a municipality with a population of more than 100,000, the cost of day care services for children of employees from low-income families working for businesses located within the redevelopment project area and all or a portion of the cost of operation of day care centers established by redevelopment project area businesses to serve employees from low-income families working in businesses located in the redevelopment project area. For the purposes of this paragraph, "low-income families" means families whose annual income does not exceed 80% of the municipal, county, or regional median income, adjusted for family size, as the annual income and municipal, county, or regional median income are determined from time to time by the United States Department of Housing and Urban Development.

(12) Unless explicitly stated herein the cost of construction of new privately-owned buildings shall not be an eligible redevelopment project cost.

(13) After November 1, 1999 (the effective date of Public Act 91-478), none of the redevelopment project costs enumerated in this subsection shall be eligible redevelopment project costs if those costs would provide direct financial support to a retail entity initiating operations in the redevelopment project area while terminating operations at another Illinois location within 10 miles of the redevelopment project area but outside the boundaries of the redevelopment project area municipality. For purposes of this paragraph, termination means a closing of a retail operation that is directly related to the opening of the same operation or like retail

entity owned or operated by more than 50% of the original ownership in a redevelopment project area, but it does not mean closing an operation for reasons beyond the control of the retail entity, as documented by the retail entity, subject to a reasonable finding by the municipality that the current location contained inadequate space, had become economically obsolete, or was no longer a viable location for the retailer or serviceman.

If a special service area has been established pursuant to the Special Service Area Tax Act or Special Service Area Tax Law, then any tax increment revenues derived from the tax imposed pursuant to the Special Service Area Tax Act or Special Service Area Tax Law may be used within the redevelopment project area for the purposes permitted by that Act or Law as well as the purposes permitted by this Act.

(r) "State Sales Tax Boundary" means the redevelopment project area or the amended redevelopment project area boundaries which are determined pursuant to subsection (9) of Section 11-74.4-8a of this Act. The Department of Revenue shall certify pursuant to subsection (9) of Section 11-74.4-8a the appropriate boundaries eligible for the determination of State Sales Tax Increment.

(s) "State Sales Tax Increment" means an amount equal to the increase in the aggregate amount of taxes paid by retailers and servicemen, other than retailers and servicemen subject to the Public Utilities Act, on transactions at places of business located within a State Sales Tax Boundary pursuant to the Retailers' Occupation Tax Act, the Use Tax Act, the Service Use Tax Act, and the Service Occupation Tax Act, except such portion of such increase that is paid into the State and Local Sales Tax Reform Fund, the Local Government Distributive Fund, the Local Government Tax Fund and the County and Mass Transit District Fund, for as long as State participation exists, over and above the Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts for such taxes as certified by the Department of Revenue and paid under those Acts by retailers and servicemen on transactions at places of business located within the State Sales Tax Boundary during the base year which shall be the calendar year immediately prior to the year in which the municipality adopted tax increment allocation financing, less 3.0% of such amounts generated under the Retailers' Occupation Tax Act, Use Tax Act and Service Use Tax Act and the Service Occupation Tax Act, which sum shall be appropriated to the Department of Revenue to cover its costs of administering and enforcing this Section. For purposes of computing the aggregate amount of such taxes

for base years occurring prior to 1985, the Department of Revenue shall compute the Initial Sales Tax Amount for such taxes and deduct therefrom an amount equal to 4% of the aggregate amount of taxes per year for each year the base year is prior to 1985, but not to exceed a total deduction of 12%. The amount so determined shall be known as the "Adjusted Initial Sales Tax Amount". For purposes of determining the State Sales Tax Increment the Department of Revenue shall for each period subtract from the tax amounts received from retailers and servicemen on transactions located in the State Sales Tax Boundary, the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or Revised Initial Sales Tax Amounts for the Retailers' Occupation Tax Act, the Use Tax Act, the Service Use Tax Act and the Service Occupation Tax Act. For the State Fiscal Year 1989 this calculation shall be made by utilizing the calendar year 1987 to determine the tax amounts received. For the State Fiscal Year 1990, this calculation shall be made by utilizing the period from January 1, 1988, until September 30, 1988, to determine the tax amounts received from retailers and servicemen, which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For the State Fiscal Year 1991, this calculation shall be made by utilizing the period from October 1, 1988, until June 30, 1989, to determine the tax amounts received from retailers and servicemen, which shall have deducted therefrom nine-twelfths of the certified Initial State Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For every State Fiscal Year thereafter, the applicable period shall be the 12 months beginning July 1 and ending on June 30, to determine the tax amounts received which shall have deducted therefrom the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. Municipalities intending to receive a distribution of State Sales Tax Increment must report a list of retailers to the Department of Revenue by October 31, 1988 and by July 31, of each year thereafter.

(t) "Taxing districts" means counties, townships, cities and incorporated towns and villages, school, road, park, sanitary, mosquito abatement, forest preserve, public health, fire protection, river conservancy, tuberculosis sanitarium and any other municipal corporations or districts with the power to levy taxes.

(u) "Taxing districts' capital costs" means those costs of taxing districts for capital improvements that are found by the municipal corporate authorities to be necessary and directly result from the redevelopment project.

(v) As used in subsection (a) of Section 11-74.4-3 of this Act, "vacant land" means any parcel or combination of parcels of real property without industrial, commercial, and residential buildings which has not been used for commercial agricultural purposes within 5 years prior to the designation of the redevelopment project area, unless the parcel is included in an industrial park conservation area or the parcel has been subdivided; provided that if the parcel was part of a larger tract that has been divided into 3 or more smaller tracts that were accepted for recording during the period from 1950 to 1990, then the parcel shall be deemed to have been subdivided, and all proceedings and actions of the municipality taken in that connection with respect to any previously approved or designated redevelopment project area or amended redevelopment project area are hereby validated and hereby declared to be legally sufficient for all purposes of this Act. For purposes of this Section and only for land subject to the subdivision requirements of the Plat Act, land is subdivided when the original plat of the proposed Redevelopment Project Area or relevant portion thereof has been properly certified, acknowledged, approved, and recorded or filed in accordance with the Plat Act and a preliminary plat, if any, for any subsequent phases of the proposed Redevelopment Project Area or relevant portion thereof has been properly approved and filed in accordance with the applicable ordinance of the municipality.

(w) "Annual Total Increment" means the sum of each municipality's annual Net Sales Tax Increment and each municipality's annual Net Utility Tax Increment. The ratio of the Annual Total Increment of each municipality to the Annual Total Increment for all municipalities, as most recently calculated by the Department, shall determine the proportional shares of the Illinois Tax Increment Fund to be distributed to each municipality.

Sec. 11-74.4-7. Obligations secured by the special tax allocation fund set forth in Section 11-74.4-8 for the redevelopment project area may be issued to provide for redevelopment project costs. Such obligations, when so issued, shall be retired in the manner provided in the ordinance authorizing the issuance of such obligations by the receipts of taxes levied as specified in

Section 11-74.4-9 against the taxable property included in the area, by revenues as specified by Section 11-74.4-8a and other revenue designated by the municipality. A municipality may in the ordinance pledge all or any part of the funds in and to be deposited in the special tax allocation fund created pursuant to Section 11-74.4-8 to the payment of the redevelopment project costs and obligations. Any pledge of funds in the special tax allocation fund shall provide for distribution to the taxing districts and to the Illinois Department of Revenue of moneys not required, pledged, earmarked, or otherwise designated for payment and securing of the obligations and anticipated redevelopment project costs and such excess funds shall be calculated annually and deemed to be "surplus" funds. In the event a municipality only applies or pledges a portion of the funds in the special tax allocation fund for the payment or securing of anticipated redevelopment project costs or of obligations, any such funds remaining in the special tax allocation fund after complying with the requirements of the application or pledge, shall also be calculated annually and deemed "surplus" funds. All surplus funds in the special tax allocation fund shall be distributed annually within 180 days after the close of the municipality's fiscal year by being paid by the municipal treasurer to the County Collector, to the Department of Revenue and to the municipality in direct proportion to the tax incremental revenue received as a result of an increase in the equalized assessed value of property in the redevelopment project area, tax incremental revenue received from the State and tax incremental revenue received from the municipality, but not to exceed as to each such source the total incremental revenue received from that source. The County Collector shall thereafter make distribution to the respective taxing districts in the same manner and proportion as the most recent distribution by the county collector to the affected districts of real property taxes from real property in the redevelopment project area.

Without limiting the foregoing in this Section, the municipality may in addition to obligations secured by the special tax allocation fund pledge for a period not greater than the term of the obligations any part or any combination of the following: (a) net revenues of all or part of any redevelopment project; (b) taxes levied and collected on any or all property in the municipality; (c) the full faith and credit of the municipality; (d) a mortgage on part or all of the redevelopment project; or (e) any other taxes or anticipated receipts that the municipality may lawfully pledge.

Such obligations may be issued in one or more series bearing interest
at such rate or rates as the corporate authorities of the municipality shall determine by ordinance. Such obligations shall bear such date or dates, mature at such time or times not exceeding 20 years from their respective dates, be in such denomination, carry such registration privileges, be executed in such manner, be payable in such medium of payment at such place or places, contain such covenants, terms and conditions, and be subject to redemption as such ordinance shall provide. Obligations issued pursuant to this Act may be sold at public or private sale at such price as shall be determined by the corporate authorities of the municipalities. No referendum approval of the electors shall be required as a condition to the issuance of obligations pursuant to this Division except as provided in this Section.

In the event the municipality authorizes issuance of obligations pursuant to the authority of this Division secured by the full faith and credit of the municipality, which obligations are other than obligations which may be issued under home rule powers provided by Article VII, Section 6 of the Illinois Constitution, or pledges taxes pursuant to (b) or (c) of the second paragraph of this section, the ordinance authorizing the issuance of such obligations or pledging such taxes shall be published within 10 days after such ordinance has been passed in one or more newspapers, with general circulation within such municipality. The publication of the ordinance shall be accompanied by a notice of (1) the specific number of voters required to sign a petition requesting the question of the issuance of such obligations or pledging taxes to be submitted to the electors; (2) the time in which such petition must be filed; and (3) the date of the prospective referendum. The municipal clerk shall provide a petition form to any individual requesting one.

If no petition is filed with the municipal clerk, as hereinafter provided in this Section, within 30 days after the publication of the ordinance, the ordinance shall be in effect. But, if within that 30 day period a petition is filed with the municipal clerk, signed by electors in the municipality numbering 10% or more of the number of registered voters in the municipality, asking that the question of issuing obligations using full faith and credit of the municipality as security for the cost of paying for redevelopment project costs, or of pledging taxes for the payment of such obligations, or both, be submitted to the electors of the municipality, the corporate authorities of the municipality shall call a special election in the manner provided by law to vote upon that question, or, if a general, State or municipal election is to be held within a period of not less than 30 or more than 90 days from the date such petition is filed, shall submit the question at the next general, State or

municipal election. If it appears upon the canvass of the election by the corporate authorities that a majority of electors voting upon the question voted in favor thereof; the ordinance shall be in effect, but if a majority of the electors voting upon the question are not in favor thereof, the ordinance shall not take effect.

The ordinance authorizing the obligations may provide that the obligations shall contain a recital that they are issued pursuant to this Division, which recital shall be conclusive evidence of their validity and of the regularity of their issuance.

In the event the municipality authorizes issuance of obligations pursuant to this Section secured by the full faith and credit of the municipality, the ordinance authorizing the obligations may provide for the levy and collection of a direct annual tax upon all taxable property within the municipality sufficient to pay the principal thereof and interest thereon as it matures, which levy may be in addition to and exclusive of the maximum of all other taxes authorized to be levied by the municipality, which levy, however, shall be abated to the extent that monies from other sources are available for payment of the obligations and the municipality certifies the amount of said monies available to the county clerk.

A certified copy of such ordinance shall be filed with the county clerk of each county in which any portion of the municipality is situated, and shall constitute the authority for the extension and collection of the taxes to be deposited in the special tax allocation fund.

A municipality may also issue its obligations to refund in whole or in part, obligations theretofore issued by such municipality under the authority of this Act, whether at or prior to maturity, provided however, that the last maturity of the refunding obligations shall not be expressed to mature later than December 31 of the year in which the payment to the municipal treasurer as provided in subsection (b) of Section 11-74.4-8 of this Act is to be made with respect to ad valorem taxes levied in the twenty-third calendar year after the year in which the ordinance approving the redevelopment project area is adopted if the ordinance was adopted on or after January 15, 1981, and not later than December 31 of the year in which the payment to the municipal treasurer as provided in subsection (b) of Section 11-74.4-8 of this Act is to be made with respect to ad valorem taxes levied in the thirty-fifth calendar year after the year in which the ordinance approving the redevelopment project area is adopted (A) if the ordinance was adopted before January 15, 1981, or (B) if the ordinance was adopted in December 1983, April 1984, July 1985, or December 1989, or (C) if the ordinance was adopted in
December, 1987 and the redevelopment project is located within one mile of Midway Airport, or (D) if the ordinance was adopted before January 1, 1987 by a municipality in Mason County, or (E) if the municipality is subject to the Local Government Financial Planning and Supervision Act or the Financially Distressed City Law, or (F) if the ordinance was adopted in December 1984 by the Village of Rosemont, or (G) if the ordinance was adopted on December 31, 1986 by a municipality located in Clinton County for which at least $250,000 of tax increment bonds were authorized on June 17, 1997, or if the ordinance was adopted on December 31, 1986 by a municipality with a population in 1990 of less than 3,600 that is located in a county with a population in 1990 of less than 34,000 and for which at least $250,000 of tax increment bonds were authorized on June 17, 1997, or (H) if the ordinance was adopted on October 5, 1982 by the City of Kankakee, or (I) if the ordinance was adopted on December 29, 1986 by East St. Louis, or if the ordinance was adopted on November 12, 1991 by the Village of Sauget, or (J) if the ordinance was adopted on February 11, 1985 by the City of Rock Island, or (K) if the ordinance was adopted before December 18, 1986 by the City of Moline, or (L) if the ordinance was adopted in September 1988 by Sauk Village, or (M) if the ordinance was adopted in October 1993 by Sauk Village, or (N) if the ordinance was adopted on December 29, 1986 by the City of Galva, or (O) if the ordinance was adopted in March 1991 by the City of Centreville, or (P) if the ordinance was adopted on January 23, 1991 by the City of East St. Louis, or (Q) if the ordinance was adopted on December 22, 1986 by the City of Aledo, or (R) if the ordinance was adopted on February 5, 1990 by the City of Clinton, or (S) if the ordinance was adopted on September 6, 1994 by the City of Freeport, or (T) if the ordinance was adopted on December 22, 1986 by the City of Tuscola, or (U) if the ordinance was adopted on December 23, 1986 by the City of Sparta, or (V) if the ordinance was adopted on December 23, 1986 by the City of Beardstown, or (W) if the ordinance was adopted on April 27, 1981, October 21, 1985, or December 30, 1986 by the City of Belleville, or (X) if the ordinance was adopted on December 29, 1986 by the City of Collinsville, or (Y) if the ordinance was adopted on September 14, 1994 by the City of Alton, or (Z) if the ordinance was adopted on November 11, 1996 by the City of Lexington, or (AA) if the ordinance was adopted on November 5, 1984 by the City of LeRoy, or (BB) if the ordinance was adopted on April 3, 1991 or June 3, 1992 by the City of Markham, or (CC) if the ordinance was adopted on November 11, 1986 by the City of Pekin, or (DD) (EE) if the ordinance was adopted on December 15, 1981 by the City of Champaign, or (EE) (EE) if the

In the event a municipality issues obligations under home rule powers or other legislative authority the proceeds of which are pledged to pay for redevelopment project costs, the municipality may, if it has followed the procedures in conformance with this division, retire said obligations from funds in the special tax allocation fund in amounts and in such manner as if such obligations had been issued pursuant to the provisions of this division.

All obligations heretofore or hereafter issued pursuant to this Act shall not be regarded as indebtedness of the municipality issuing such obligations or any other taxing district for the purpose of any limitation imposed by law. Sec. 2.07. The Department shall employ and maintain sufficient and qualified staff at the veterans' homes to fulfill the requirements of this Act. The Department shall report to the General Assembly, by January 1 and July 1 of each year, the number of staff employed in providing direct patient care at their veterans' homes, the compliance or noncompliance with staffing standards established by the United States Department of Veterans Affairs for such care, and in the event of noncompliance with such standards, the number of staff required for compliance. AN ACT concerning revenue.

Be it enacted by the People of the State of Illinois, represented in the
General Assembly:

Section 5. The Illinois Municipal Code is amended by changing Sections 11-74.4-3 and 11-74.4-7 as follows:

(65 ILCS 5/11-74.4-3) (from Ch. 24, par. 11-74.4-3)

Sec. 11-74.4-3. Definitions. The following terms, wherever used or referred to in this Division 74.4 shall have the following respective meanings, unless in any case a different meaning clearly appears from the context.

(a) For any redevelopment project area that has been designated pursuant to this Section by an ordinance adopted prior to November 1, 1999 (the effective date of Public Act 91-478), "blighted area" shall have the meaning set forth in this Section prior to that date.

On and after November 1, 1999, "blighted area" means any improved or vacant area within the boundaries of a redevelopment project area located within the territorial limits of the municipality where:

(1) If improved, industrial, commercial, and residential buildings or improvements are detrimental to the public safety, health, or welfare because of a combination of 5 or more of the following factors, each of which is (i) present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) reasonably distributed throughout the improved part of the redevelopment project area:

   (A) Dilapidation. An advanced state of disrepair or neglect of necessary repairs to the primary structural components of buildings or improvements in such a combination that a documented building condition analysis determines that major repair is required or the defects are so serious and so extensive that the buildings must be removed.

   (B) Obsolescence. The condition or process of falling into disuse. Structures have become ill-suited for the original use.

   (C) Deterioration. With respect to buildings, defects including, but not limited to, major defects in the secondary building components such as doors, windows, porches, gutters and downspouts, and fascia. With respect to surface improvements, that the condition of roadways, alleys, curbs, gutters, sidewalks, off-street parking, and surface storage areas evidence deterioration, including, but not limited to, surface cracking, crumbling, potholes, depressions, loose

paving material, and weeds protruding through paved surfaces.

(D) Presence of structures below minimum code standards. All structures that do not meet the standards of zoning, subdivision, building, fire, and other governmental codes applicable to property, but not including housing and property maintenance codes.

(E) Illegal use of individual structures. The use of structures in violation of applicable federal, State, or local laws, exclusive of those applicable to the presence of structures below minimum code standards.

(F) Excessive vacancies. The presence of buildings that are unoccupied or under-utilized and that represent an adverse influence on the area because of the frequency, extent, or duration of the vacancies.

(G) Lack of ventilation, light, or sanitary facilities. The absence of adequate ventilation for light or air circulation in spaces or rooms without windows, or that require the removal of dust, odor, gas, smoke, or other noxious airborne materials. Inadequate natural light and ventilation means the absence of skylights or windows for interior spaces or rooms and improper window sizes and amounts by room area to window area ratios. Inadequate sanitary facilities refers to the absence or inadequacy of garbage storage and enclosure, bathroom facilities, hot water and kitchens, and structural inadequacies preventing ingress and egress to and from all rooms and units within a building.

(H) Inadequate utilities. Underground and overhead utilities such as storm sewers and storm drainage, sanitary sewers, water lines, and gas, telephone, and electrical services that are shown to be inadequate. Inadequate utilities are those that are: (i) of insufficient capacity to serve the uses in the redevelopment project area, (ii) deteriorated, antiquated, obsolete, or in disrepair, or (iii) lacking within the redevelopment project area.

(I) Excessive land coverage and overcrowding of structures and community facilities. The over-intensive use of property and the crowding of buildings and accessory facilities onto a site. Examples of problem conditions

New matter indicated by italics - deletions by strikeout
warranting the designation of an area as one exhibiting excessive land coverage are: (i) the presence of buildings either improperly situated on parcels or located on parcels of inadequate size and shape in relation to present-day standards of development for health and safety and (ii) the presence of multiple buildings on a single parcel. For there to be a finding of excessive land coverage, these parcels must exhibit one or more of the following conditions: insufficient provision for light and air within or around buildings, increased threat of spread of fire due to the close proximity of buildings, lack of adequate or proper access to a public right-of-way, lack of reasonably required off-street parking, or inadequate provision for loading and service.

(J) Deleterious land use or layout. The existence of incompatible land-use relationships, buildings occupied by inappropriate mixed-uses, or uses considered to be noxious, offensive, or unsuitable for the surrounding area.

(K) Environmental clean-up. The proposed redevelopment project area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

(L) Lack of community planning. The proposed redevelopment project area was developed prior to or without the benefit or guidance of a community plan. This means that the development occurred prior to the adoption by the municipality of a comprehensive or other community plan or that the plan was not followed at the time of the area's development. This factor must be documented by evidence of adverse or incompatible land-use relationships, inadequate street layout, improper subdivision, parcels of inadequate shape and size to meet contemporary development standards, or other evidence demonstrating an absence of effective

community planning.

(M) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated.

(2) If vacant, the sound growth of the redevelopment project area is impaired by a combination of 2 or more of the following factors, each of which is (i) present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) reasonably distributed throughout the vacant part of the redevelopment project area to which it pertains:

(A) Obsolete platting of vacant land that results in parcels of limited or narrow size or configurations of parcels of irregular size or shape that would be difficult to develop on a planned basis and in a manner compatible with contemporary standards and requirements, or platting that failed to create rights-of-ways for streets or alleys or that created inadequate right-of-way widths for streets, alleys, or other public rights-of-way or that omitted easements for public utilities.

(B) Diversity of ownership of parcels of vacant land sufficient in number to retard or impede the ability to assemble the land for development.

(C) Tax and special assessment delinquencies exist or the property has been the subject of tax sales under the Property Tax Code within the last 5 years.

(D) Deterioration of structures or site improvements in neighboring areas adjacent to the vacant land.

(E) The area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an
independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

(F) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated.

(3) If vacant, the sound growth of the redevelopment project area is impaired by one of the following factors that (i) is present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) is reasonably distributed throughout the vacant part of the redevelopment project area to which it pertains:

(A) The area consists of one or more unused quarries, mines, or strip mine ponds.

(B) The area consists of unused rail yards, rail tracks, or railroad rights-of-way.

(C) The area, prior to its designation, is subject to (i) chronic flooding that adversely impacts on real property in the area as certified by a registered professional engineer or appropriate regulatory agency or (ii) surface water that discharges from all or a part of the area and contributes to flooding within the same watershed, but only if the redevelopment project provides for facilities or improvements to contribute to the alleviation of all or part of the flooding.

(D) The area consists of an unused or illegal disposal site containing earth, stone, building debris, or similar

materials that were removed from construction, demolition, excavation, or dredge sites.

(E) Prior to November 1, 1999, the area is not less than 50 nor more than 100 acres and 75% of which is vacant (notwithstanding that the area has been used for commercial agricultural purposes within 5 years prior to the designation of the redevelopment project area), and the area meets at least one of the factors itemized in paragraph (1) of this subsection, the area has been designated as a town or village center by ordinance or comprehensive plan adopted prior to January 1, 1982, and the area has not been developed for that designated purpose.

(F) The area qualified as a blighted improved area immediately prior to becoming vacant, unless there has been substantial private investment in the immediately surrounding area.

(b) For any redevelopment project area that has been designated pursuant to this Section by an ordinance adopted prior to November 1, 1999 (the effective date of Public Act 91-478), "conservation area" shall have the meaning set forth in this Section prior to that date.

On and after November 1, 1999, "conservation area" means any improved area within the boundaries of a redevelopment project area located within the territorial limits of the municipality in which 50% or more of the structures in the area have an age of 35 years or more. Such an area is not yet a blighted area but because of a combination of 3 or more of the following factors is detrimental to the public safety, health, morals or welfare and such an area may become a blighted area:

(1) Dilapidation. An advanced state of disrepair or neglect of necessary repairs to the primary structural components of buildings or improvements in such a combination that a documented building condition analysis determines that major repair is required or the defects are so serious and so extensive that the buildings must be removed.

(2) Obsolescence. The condition or process of falling into disuse. Structures have become ill-suited for the original use.

(3) Deterioration. With respect to buildings, defects including, but not limited to, major defects in the secondary building components such as doors, windows, porches, gutters and downspouts, and fascia. With respect to surface improvements, that
the condition of roadways, alleys, curbs, gutters, sidewalks, off-street parking, and surface storage areas evidence deterioration, including, but not limited to, surface cracking, crumbling, potholes, depressions, loose paving material, and weeds protruding through paved surfaces.

(4) Presence of structures below minimum code standards. All structures that do not meet the standards of zoning, subdivision, building, fire, and other governmental codes applicable to property, but not including housing and property maintenance codes.

(5) Illegal use of individual structures. The use of structures in violation of applicable federal, State, or local laws, exclusive of those applicable to the presence of structures below minimum code standards.

(6) Excessive vacancies. The presence of buildings that are unoccupied or under-utilized and that represent an adverse influence on the area because of the frequency, extent, or duration of the vacancies.

(7) Lack of ventilation, light, or sanitary facilities. The absence of adequate ventilation for light or air circulation in spaces or rooms without windows, or that require the removal of dust, odor, gas, smoke, or other noxious airborne materials. Inadequate natural light and ventilation means the absence or inadequacy of skylights or windows for interior spaces or rooms and improper window sizes and amounts by room area to window area ratios. Inadequate sanitary facilities refers to the absence or inadequacy of garbage storage and enclosure, bathroom facilities, hot water and kitchens, and structural inadequacies preventing ingress and egress to and from all rooms and units within a building.

(8) Inadequate utilities. Underground and overhead utilities such as storm sewers and storm drainage, sanitary sewers, water lines, and gas, telephone, and electrical services that are shown to be inadequate. Inadequate utilities are those that are: (i) of insufficient capacity to serve the uses in the redevelopment project area, (ii) deteriorated, antiquated, obsolete, or in disrepair, or (iii) lacking within the redevelopment project area.

(9) Excessive land coverage and overcrowding of structures and community facilities. The over-intensive use of property and the crowding of buildings and accessory facilities onto a site. Examples of problem conditions warranting the designation of an area as one exhibiting excessive land coverage are: the presence of buildings

either improperly situated on parcels or located on parcels of inadequate size and shape in relation to present-day standards of development for health and safety and the presence of multiple buildings on a single parcel. For there to be a finding of excessive land coverage, these parcels must exhibit one or more of the following conditions: insufficient provision for light and air within or around buildings, increased threat of spread of fire due to the close proximity of buildings, lack of adequate or proper access to a public right-of-way, lack of reasonably required off-street parking, or inadequate provision for loading and service.

(10) Deleterious land use or layout. The existence of incompatible land-use relationships, buildings occupied by inappropriate mixed-uses, or uses considered to be noxious, offensive, or unsuitable for the surrounding area.

(11) Lack of community planning. The proposed redevelopment project area was developed prior to or without the benefit or guidance of a community plan. This means that the development occurred prior to the adoption by the municipality of a comprehensive or other community plan or that the plan was not followed at the time of the area's development. This factor must be documented by evidence of adverse or incompatible land-use relationships, inadequate street layout, improper subdivision, parcels of inadequate shape and size to meet contemporary development standards, or other evidence demonstrating an absence of effective community planning.

(12) The area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

(13) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at

an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years for which information is available.

(c) "Industrial park" means an area in a blighted or conservation area suitable for use by any manufacturing, industrial, research or transportation enterprise, of facilities to include but not be limited to factories, mills, processing plants, assembly plants, packing plants, fabricating plants, industrial distribution centers, warehouses, repair overhaul or service facilities, freight terminals, research facilities, test facilities or railroad facilities.

(d) "Industrial park conservation area" means an area within the boundaries of a redevelopment project area located within the territorial limits of a municipality that is a labor surplus municipality or within 1 1/2 miles of the territorial limits of a municipality that is a labor surplus municipality if the area is annexed to the municipality; which area is zoned as industrial no later than at the time the municipality by ordinance designates the redevelopment project area, and which area includes both vacant land suitable for use as an industrial park and a blighted area or conservation area contiguous to such vacant land.

(e) "Labor surplus municipality" means a municipality in which, at any time during the 6 months before the municipality by ordinance designates an industrial park conservation area, the unemployment rate was over 6% and was also 100% or more of the national average unemployment rate for that same time as published in the United States Department of Labor Bureau of Labor Statistics publication entitled "The Employment Situation" or its successor publication. For the purpose of this subsection, if unemployment rate statistics for the municipality are not available, the unemployment rate in the municipality shall be deemed to be the same as the unemployment rate in the principal county in which the municipality is located.

(f) "Municipality" shall mean a city, village or incorporated town.

(g) "Initial Sales Tax Amounts" means the amount of taxes paid under the Retailers' Occupation Tax Act, Use Tax Act, Service Use Tax Act, the Service Occupation Tax Act, the Municipal Retailers' Occupation Tax Act, and the Municipal Service Occupation Tax Act by retailers and servicemen on transactions at places located in a State Sales Tax Boundary during the calendar year 1985.

(g-1) "Revised Initial Sales Tax Amounts" means the amount of taxes paid under the Retailers' Occupation Tax Act, Use Tax Act, Service Use Tax Act, the Service Occupation Tax Act, the Municipal Retailers' Occupation Tax Act, and the Municipal Service Occupation Tax Act by retailers and servicemen on transactions at places located in a State Sales Tax Boundary during the calendar year 1985.
Act, the Service Occupation Tax Act, the Municipal Retailers' Occupation Tax Act, and the Municipal Service Occupation Tax Act by retailers and servicemen on transactions at places located within the State Sales Tax Boundary revised pursuant to Section 11-74.4-8a(9) of this Act.

(h) "Municipal Sales Tax Increment" means an amount equal to the increase in the aggregate amount of taxes paid to a municipality from the Local Government Tax Fund arising from sales by retailers and servicemen within the redevelopment project area or State Sales Tax Boundary, as the case may be, for as long as the redevelopment project area or State Sales Tax Boundary, as the case may be, exist over and above the aggregate amount of taxes as certified by the Illinois Department of Revenue and paid under the Municipal Retailers' Occupation Tax Act and the Municipal Service Occupation Tax Act by retailers and servicemen, on transactions at places of business located in the redevelopment project area or State Sales Tax Boundary, as the case may be, during the base year which shall be the calendar year immediately prior to the year in which the municipality adopted tax increment allocation financing. For purposes of computing the aggregate amount of such taxes for base years occurring prior to 1985, the Department of Revenue shall determine the Initial Sales Tax Amounts for such taxes and deduct therefrom an amount equal to 4% of the aggregate amount of taxes per year for each year the base year is prior to 1985, but not to exceed a total deduction of 12%. The amount so determined shall be known as the "Adjusted Initial Sales Tax Amounts". For purposes of determining the Municipal Sales Tax Increment, the Department of Revenue shall for each period subtract from the amount paid to the municipality from the Local Government Tax Fund arising from sales by retailers and servicemen on transactions located in the redevelopment project area or the State Sales Tax Boundary, as the case may be, the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts for the Municipal Retailers' Occupation Tax Act and the Municipal Service Occupation Tax Act. For the State Fiscal Year 1989, this calculation shall be made by utilizing the calendar year 1987 to determine the tax amounts received. For the State Fiscal Year 1990, this calculation shall be made by utilizing the period from January 1, 1988, until September 30, 1988, to determine the tax amounts received from retailers and servicemen pursuant to the Municipal Retailers' Occupation Tax and the Municipal Service Occupation Tax Act, which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For the
State Fiscal Year 1991, this calculation shall be made by utilizing the period from October 1, 1988, to June 30, 1989, to determine the tax amounts received from retailers and servicemen pursuant to the Municipal Retailers' Occupation Tax and the Municipal Service Occupation Tax Act which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For every State Fiscal Year thereafter, the applicable period shall be the 12 months beginning July 1 and ending June 30 to determine the tax amounts received which shall have deducted therefrom the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts, as the case may be.

(i) "Net State Sales Tax Increment" means the sum of the following:
(a) 80% of the first $100,000 of State Sales Tax Increment annually generated within a State Sales Tax Boundary; (b) 60% of the amount in excess of $100,000 but not exceeding $500,000 of State Sales Tax Increment annually generated within a State Sales Tax Boundary; and (c) 40% of all amounts in excess of $500,000 of State Sales Tax Increment annually generated within a State Sales Tax Boundary. If, however, a municipality established a tax increment financing district in a county with a population in excess of 3,000,000 before January 1, 1986, and the municipality entered into a contract or issued bonds after January 1, 1986, but before December 31, 1986, to finance redevelopment project costs within a State Sales Tax Boundary, then the Net State Sales Tax Increment means, for the fiscal years beginning July 1, 1990, and July 1, 1991, 100% of the State Sales Tax Increment annually generated within a State Sales Tax Boundary; and notwithstanding any other provision of this Act, for those fiscal years the Department of Revenue shall distribute to those municipalities 100% of their Net State Sales Tax Increment before any distribution to any other municipality and regardless of whether or not those other municipalities will receive 100% of their Net State Sales Tax Increment. For Fiscal Year 1999, and every year thereafter until the year 2007, for any municipality that has not entered into a contract or has not issued bonds prior to June 1, 1988 to finance redevelopment project costs within a State Sales Tax Boundary, the Net State Sales Tax Increment shall be calculated as follows: By multiplying the Net State Sales Tax Increment by 90% in the State Fiscal Year 1999; 80% in the State Fiscal Year 2000; 70% in the State Fiscal Year 2001; 60% in the State Fiscal Year 2002; 50% in the State Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006; and 10% in the State Fiscal Year 2007. No payment shall be made
for State Fiscal Year 2008 and thereafter.

Municipalities that issued bonds in connection with a redevelopment project in a redevelopment project area within the State Sales Tax Boundary prior to July 29, 1991, or that entered into contracts in connection with a redevelopment project in a redevelopment project area before June 1, 1988, shall continue to receive their proportional share of the Illinois Tax Increment Fund distribution until the date on which the redevelopment project is completed or terminated. If, however, a municipality that issued bonds in connection with a redevelopment project in a redevelopment project area within the State Sales Tax Boundary prior to July 29, 1991 retires the bonds prior to June 30, 2007 or a municipality that entered into contracts in connection with a redevelopment project in a redevelopment project area before June 1, 1988 completes the contracts prior to June 30, 2007, then so long as the redevelopment project is not completed or is not terminated, the Net State Sales Tax Increment shall be calculated, beginning on the date on which the bonds are retired or the contracts are completed, as follows: By multiplying the Net State Sales Tax Increment by 60% in the State Fiscal Year 2002; 50% in the State Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006; and 10% in the State Fiscal Year 2007. No payment shall be made for State Fiscal Year 2008 and thereafter. Refunding of any bonds issued prior to July 29, 1991, shall not alter the Net State Sales Tax Increment.

(j) "State Utility Tax Increment Amount" means an amount equal to the aggregate increase in State electric and gas tax charges imposed on owners and tenants, other than residential customers, of properties located within the redevelopment project area under Section 9-222 of the Public Utilities Act, over and above the aggregate of such charges as certified by the Department of Revenue and paid by owners and tenants, other than residential customers, of properties within the redevelopment project area during the base year, which shall be the calendar year immediately prior to the year of the adoption of the ordinance authorizing tax increment allocation financing.

(k) "Net State Utility Tax Increment" means the sum of the following: (a) 80% of the first $100,000 of State Utility Tax Increment annually generated by a redevelopment project area; (b) 60% of the amount in excess of $100,000 but not exceeding $500,000 of the State Utility Tax Increment annually generated by a redevelopment project area; and (c) 40% of all amounts in excess of $500,000 of State Utility Tax Increment annually generated by a redevelopment project area. For the State Fiscal Year 1999,
and every year thereafter until the year 2007, for any municipality that has not entered into a contract or has not issued bonds prior to June 1, 1988 to finance redevelopment project costs within a redevelopment project area, the Net State Utility Tax Increment shall be calculated as follows: By multiplying the Net State Utility Tax Increment by 90% in the State Fiscal Year 1999; 80% in the State Fiscal Year 2000; 70% in the State Fiscal Year 2001; 60% in the State Fiscal Year 2002; 50% in the State Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006; and 10% in the State Fiscal Year 2007. No payment shall be made for the State Fiscal Year 2008 and thereafter.

Municipalities that issue bonds in connection with the redevelopment project during the period from June 1, 1988 until 3 years after the effective date of this Amendatory Act of 1988 shall receive the Net State Utility Tax Increment, subject to appropriation, for 15 State Fiscal Years after the issuance of such bonds. For the 16th through the 20th State Fiscal Years after issuance of the bonds, the Net State Utility Tax Increment shall be calculated as follows: By multiplying the Net State Utility Tax Increment by 90% in year 16; 80% in year 17; 70% in year 18; 60% in year 19; and 50% in year 20. Refunding of any bonds issued prior to June 1, 1988, shall not alter the revised Net State Utility Tax Increment payments set forth above.

(l) "Obligations" mean bonds, loans, debentures, notes, special certificates or other evidence of indebtedness issued by the municipality to carry out a redevelopment project or to refund outstanding obligations.

(m) "Payment in lieu of taxes" means those estimated tax revenues from real property in a redevelopment project area derived from real property that has been acquired by a municipality which according to the redevelopment project or plan is to be used for a private use which taxing districts would have received had a municipality not acquired the real property and adopted tax increment allocation financing and which would result from levies made after the time of the adoption of tax increment allocation financing to the time the current equalized value of real property in the redevelopment project area exceeds the total initial equalized value of real property in said area.

(n) "Redevelopment plan" means the comprehensive program of the municipality for development or redevelopment intended by the payment of redevelopment project costs to reduce or eliminate those conditions the existence of which qualified the redevelopment project area as a "blighted area" or "conservation area" or combination thereof or "industrial park conservation area," and thereby to enhance the tax bases of the taxing districts

which extend into the redevelopment project area. On and after November 1, 1999 (the effective date of Public Act 91-478), no redevelopment plan may be approved or amended that includes the development of vacant land (i) with a golf course and related clubhouse and other facilities or (ii) designated by federal, State, county, or municipal government as public land for outdoor recreational activities or for nature preserves and used for that purpose within 5 years prior to the adoption of the redevelopment plan. For the purpose of this subsection, "recreational activities" is limited to mean camping and hunting. Each redevelopment plan shall set forth in writing the program to be undertaken to accomplish the objectives and shall include but not be limited to:

(A) an itemized list of estimated redevelopment project costs;
(B) evidence indicating that the redevelopment project area on the whole has not been subject to growth and development through investment by private enterprise;
(C) an assessment of any financial impact of the redevelopment project area on or any increased demand for services from any taxing district affected by the plan and any program to address such financial impact or increased demand;
(D) the sources of funds to pay costs;
(E) the nature and term of the obligations to be issued;
(F) the most recent equalized assessed valuation of the redevelopment project area;
(G) an estimate as to the equalized assessed valuation after redevelopment and the general land uses to apply in the redevelopment project area;
(H) a commitment to fair employment practices and an affirmative action plan;
(I) if it concerns an industrial park conservation area, the plan shall also include a general description of any proposed developer, user and tenant of any property, a description of the type, structure and general character of the facilities to be developed, a description of the type, class and number of new employees to be employed in the operation of the facilities to be developed; and
(J) if property is to be annexed to the municipality, the plan shall include the terms of the annexation agreement.

The provisions of items (B) and (C) of this subsection (n) shall not apply to a municipality that before March 14, 1994 (the effective date of Public Act 88-537) had fixed, either by its corporate authorities or by a

commission designated under subsection (k) of Section 11-74.4-4, a time and place for a public hearing as required by subsection (a) of Section 11-74.4-5. No redevelopment plan shall be adopted unless a municipality complies with all of the following requirements:

(1) The municipality finds that the redevelopment project area on the whole has not been subject to growth and development through investment by private enterprise and would not reasonably be anticipated to be developed without the adoption of the redevelopment plan.

(2) The municipality finds that the redevelopment plan and project conform to the comprehensive plan for the development of the municipality as a whole, or, for municipalities with a population of 100,000 or more, regardless of when the redevelopment plan and project was adopted, the redevelopment plan and project either: (i) conforms to the strategic economic development or redevelopment plan issued by the designated planning authority of the municipality, or (ii) includes land uses that have been approved by the planning commission of the municipality.

(3) The redevelopment plan establishes the estimated dates of completion of the redevelopment project and retirement of obligations issued to finance redevelopment project costs. Those dates shall not be later than December 31 of the year in which the payment to the municipal treasurer as provided in subsection (b) of Section 11-74.4-8 of this Act is to be made with respect to ad valorem taxes levied in the twenty-third calendar year after the year in which the ordinance approving the redevelopment project area is adopted if the ordinance was adopted on or after January 15, 1981, and not later than December 31 of the year in which the payment to the municipal treasurer as provided in subsection (b) of Section 11-74.4-8 of this Act is to be made with respect to ad valorem taxes levied in the thirty-fifth calendar year after the year in which the ordinance approving the redevelopment project area is adopted:

(A) if the ordinance was adopted before January 15, 1981, or

(B) if the ordinance was adopted in December 1983, April 1984, July 1985, or December 1989, or

However, for redevelopment project areas for which bonds
were issued before July 29, 1991, or for which contracts were entered
into before June 1, 1988, in connection with a redevelopment project
in the area within the State Sales Tax Boundary, the estimated dates
of completion of the redevelopment project and retirement of
obligations to finance redevelopment project costs may be extended
by municipal ordinance to December 31, 2013. The termination
procedures of subsection (b) of Section 11-74.4-8 are not required
for these redevelopment project areas in 2009 but are required in 2013.
The extension allowed by this amendatory Act of 1993 shall not apply
to real property tax increment allocation financing under Section 11-
74.4-8.

A municipality may by municipal ordinance amend an
existing redevelopment plan to conform to this paragraph (3) as
amended by Public Act 91-478, which municipal ordinance may be
adopted without further hearing or notice and without complying with
the procedures provided in this Act pertaining to an amendment to or
the initial approval of a redevelopment plan and project and
designation of a redevelopment project area.

Those dates, for purposes of real property tax increment
allocation financing pursuant to Section 11-74.4-8 only, shall be not
more than 35 years for redevelopment project areas that were adopted
on or after December 16, 1986 and for which at least $8 million
worth of municipal bonds were authorized on or after December 19,
1989 but before January 1, 1990; provided that the municipality elects
to extend the life of the redevelopment project area to 35 years by the
adoption of an ordinance after at least 14 but not more than 30 days'
written notice to the taxing bodies, that would otherwise constitute
the joint review board for the redevelopment project area, before the
adoption of the ordinance.

Those dates, for purposes of real property tax increment allocation financing pursuant to Section 11-74.4-8 only, shall be not more than 35 years for redevelopment project areas that were established on or after December 1, 1981 but before January 1, 1982 and for which at least $1,500,000 worth of tax increment revenue bonds were authorized on or after September 30, 1990 but before July 1, 1991; provided that the municipality elects to extend the life of the redevelopment project area to 35 years by the adoption of an ordinance after at least 14 but not more than 30 days' written notice to the taxing bodies, that would otherwise constitute the joint review board for the redevelopment project area, before the adoption of the ordinance.

(3.5) The municipality finds, in the case of an industrial park conservation area, also that the municipality is a labor surplus municipality and that the implementation of the redevelopment plan will reduce unemployment, create new jobs and by the provision of new facilities enhance the tax base of the taxing districts that extend into the redevelopment project area.

(4) If any incremental revenues are being utilized under Section 8(a)(1) or 8(a)(2) of this Act in redevelopment project areas approved by ordinance after January 1, 1986, the municipality finds: (a) that the redevelopment project area would not reasonably be developed without the use of such incremental revenues, and (b) that such incremental revenues will be exclusively utilized for the development of the redevelopment project area.

(5) If the redevelopment plan will not result in displacement of residents from 10 or more inhabited residential units, and the municipality certifies in the plan that such displacement will not result from the plan, a housing impact study need not be performed. If, however, the redevelopment plan would result in the displacement of residents from 10 or more inhabited residential units, or if the redevelopment project area contains 75 or more inhabited residential units and no certification is made, then the municipality shall prepare, as part of the separate feasibility report required by subsection (a) of Section 11-74.4-5, a housing impact study. Part I of the housing impact study shall include (i) data as to whether the residential units are single family or multi-family units, (ii) the number and type of rooms within the units, if that information is available, (iii) whether the units are inhabited or uninhabited, as
determined not less than 45 days before the date that the ordinance or resolution required by subsection (a) of Section 11-74.4-5 is passed, and (iv) data as to the racial and ethnic composition of the residents in the inhabited residential units. The data requirement as to the racial and ethnic composition of the residents in the inhabited residential units shall be deemed to be fully satisfied by data from the most recent federal census.

Part II of the housing impact study shall identify the inhabited residential units in the proposed redevelopment project area that are to be or may be removed. If inhabited residential units are to be removed, then the housing impact study shall identify (i) the number and location of those units that will or may be removed, (ii) the municipality's plans for relocation assistance for those residents in the proposed redevelopment project area whose residences are to be removed, (iii) the availability of replacement housing for those residents whose residences are to be removed, and shall identify the type, location, and cost of the housing, and (iv) the type and extent of relocation assistance to be provided.

(6) On and after November 1, 1999, the housing impact study required by paragraph (5) shall be incorporated in the redevelopment plan for the redevelopment project area.

(7) On and after November 1, 1999, no redevelopment plan shall be adopted, nor an existing plan amended, nor shall residential housing that is occupied by households of low-income and very low-income persons in currently existing redevelopment project areas be removed after November 1, 1999 unless the redevelopment plan provides, with respect to inhabited housing units that are to be removed for households of low-income and very low-income persons, affordable housing and relocation assistance not less than that which would be provided under the federal Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 and the regulations under that Act, including the eligibility criteria. Affordable housing may be either existing or newly constructed housing. For purposes of this paragraph (7), "low-income households", "very low-income households", and "affordable housing" have the meanings set forth in the Illinois Affordable Housing Act. The municipality shall make a good faith effort to ensure that this affordable housing is located in or near the redevelopment project area within the municipality.

(8) On and after November 1, 1999, if, after the adoption of the redevelopment plan for the redevelopment project area, any municipality desires to amend its redevelopment plan to remove more inhabited residential units than specified in its original redevelopment plan, that change shall be made in accordance with the procedures in subsection (c) of Section 11-74.4-5.

(9) For redevelopment project areas designated prior to November 1, 1999, the redevelopment plan may be amended without further joint review board meeting or hearing, provided that the municipality shall give notice of any such changes by mail to each affected taxing district and registrant on the interested party registry, to authorize the municipality to expend tax increment revenues for redevelopment project costs defined by paragraphs (5) and (7.5), subparagraphs (E) and (F) of paragraph (11), and paragraph (11.5) of subsection (q) of Section 11-74.4-3, so long as the changes do not increase the total estimated redevelopment project costs set out in the redevelopment plan by more than 5% after adjustment for inflation from the date the plan was adopted.

(o) "Redevelopment project" means any public and private development project in furtherance of the objectives of a redevelopment plan. On and after November 1, 1999 (the effective date of Public Act 91-478), no redevelopment plan may be approved or amended that includes the development of vacant land (i) with a golf course and related clubhouse and other facilities or (ii) designated by federal, State, county, or municipal government as public land for outdoor recreational activities or for nature preserves and used for that purpose within 5 years prior to the adoption of the redevelopment plan. For the purpose of this subsection, "recreational activities" is limited to mean camping and hunting.

(p) "Redevelopment project area" means an area designated by the municipality, which is not less in the aggregate than 1 1/2 acres and in respect to which the municipality has made a finding that there exist conditions which cause the area to be classified as an industrial park conservation area or a blighted area or a conservation area, or a combination of both blighted areas and conservation areas.

(q) "Redevelopment project costs" mean and include the sum total of all reasonable or necessary costs incurred or estimated to be incurred, and any such costs incidental to a redevelopment plan and a redevelopment project. Such costs include, without limitation, the following:

(1) Costs of studies, surveys, development of plans, and
specifications, implementation and administration of the redevelopment plan including but not limited to staff and professional service costs for architectural, engineering, legal, financial, planning or other services, provided however that no charges for professional services may be based on a percentage of the tax increment collected; except that on and after November 1, 1999 (the effective date of Public Act 91-478), no contracts for professional services, excluding architectural and engineering services, may be entered into if the terms of the contract extend beyond a period of 3 years. In addition, "redevelopment project costs" shall not include lobbying expenses. After consultation with the municipality, each tax increment consultant or advisor to a municipality that plans to designate or has designated a redevelopment project area shall inform the municipality in writing of any contracts that the consultant or advisor has entered into with entities or individuals that have received, or are receiving, payments financed by tax increment revenues produced by the redevelopment project area with respect to which the consultant or advisor has performed, or will be performing, service for the municipality. This requirement shall be satisfied by the consultant or advisor before the commencement of services for the municipality and thereafter whenever any other contracts with those individuals or entities are executed by the consultant or advisor;

(1.5) After July 1, 1999, annual administrative costs shall not include general overhead or administrative costs of the municipality that would still have been incurred by the municipality if the municipality had not designated a redevelopment project area or approved a redevelopment plan;

(1.6) The cost of marketing sites within the redevelopment project area to prospective businesses, developers, and investors;

(2) Property assembly costs, including but not limited to acquisition of land and other property, real or personal, or rights or interests therein, demolition of buildings, site preparation, site improvements that serve as an engineered barrier addressing ground level or below ground environmental contamination, including, but not limited to parking lots and other concrete or asphalt barriers, and the clearing and grading of land;

(3) Costs of rehabilitation, reconstruction or repair or remodeling of existing public or private buildings, fixtures, and leasehold improvements; and the cost of replacing an existing public
building if pursuant to the implementation of a redevelopment project the existing public building is to be demolished to use the site for private investment or devoted to a different use requiring private investment;

(4) Costs of the construction of public works or improvements, except that on and after November 1, 1999, redevelopment project costs shall not include the cost of constructing a new municipal public building principally used to provide offices, storage space, or conference facilities or vehicle storage, maintenance, or repair for administrative, public safety, or public works personnel and that is not intended to replace an existing public building as provided under paragraph (3) of subsection (q) of Section 11-74.4-3 unless either (i) the construction of the new municipal building implements a redevelopment project that was included in a redevelopment plan that was adopted by the municipality prior to November 1, 1999 or (ii) the municipality makes a reasonable determination in the redevelopment plan, supported by information that provides the basis for that determination, that the new municipal building is required to meet an increase in the need for public safety purposes anticipated to result from the implementation of the redevelopment plan;

(5) Costs of job training and retraining projects, including the cost of "welfare to work" programs implemented by businesses located within the redevelopment project area;

(6) Financing costs, including but not limited to all necessary and incidental expenses related to the issuance of obligations and which may include payment of interest on any obligations issued hereunder including interest accruing during the estimated period of construction of any redevelopment project for which such obligations are issued and for not exceeding 36 months thereafter and including reasonable reserves related thereto;

(7) To the extent the municipality by written agreement accepts and approves the same, all or a portion of a taxing district's capital costs resulting from the redevelopment project necessarily incurred or to be incurred within a taxing district in furtherance of the objectives of the redevelopment plan and project.

(7.5) For redevelopment project areas designated (or redevelopment project areas amended to add or increase the number of tax-increment-financing assisted housing units) on or after

November 1, 1999, an elementary, secondary, or unit school district's increased costs attributable to assisted housing units located within the redevelopment project area for which the developer or redeveloper receives financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the assisted housing sites necessary for the completion of that housing as authorized by this Act, and which costs shall be paid by the municipality from the Special Tax Allocation Fund when the tax increment revenue is received as a result of the assisted housing units and shall be calculated annually as follows:

(A) for foundation districts, excluding any school district in a municipality with a population in excess of 1,000,000, by multiplying the district's increase in attendance resulting from the net increase in new students enrolled in that school district who reside in housing units within the redevelopment project area that have received financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by the most recently available per capita tuition cost as defined in Section 10-20.12a of the School Code less any increase in general State aid as defined in Section 18-8.05 of the School Code attributable to these added new students subject to the following annual limitations:

(i) for unit school districts with a district average 1995-96 Per Capita Tuition Charge of less than $5,900, no more than 25% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act;

(ii) for elementary school districts with a district average 1995-96 Per Capita Tuition Charge of less than $5,900, no more than 17% of the total amount of property tax increment revenue produced by those housing units that have received tax

increment finance assistance under this Act; and

(iii) for secondary school districts with a district average 1995-96 Per Capita Tuition Charge of less than $5,900, no more than 8% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act.

(B) For alternate method districts, flat grant districts, and foundation districts with a district average 1995-96 Per Capita Tuition Charge equal to or more than $5,900, excluding any school district with a population in excess of 1,000,000, by multiplying the district's increase in attendance resulting from the net increase in new students enrolled in that school district who reside in housing units within the redevelopment project area that have received financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by the most recently available per capita tuition cost as defined in Section 10-20.12a of the School Code less any increase in general state aid as defined in Section 18-8.05 of the School Code attributable to these added new students subject to the following annual limitations:

(i) for unit school districts, no more than 40% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act;

(ii) for elementary school districts, no more than 27% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act; and

(iii) for secondary school districts, no more than 13% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance.
under this Act.

(C) For any school district in a municipality with a population in excess of 1,000,000, the following restrictions shall apply to the reimbursement of increased costs under this paragraph (7.5):

(i) no increased costs shall be reimbursed unless the school district certifies that each of the schools affected by the assisted housing project is at or over its student capacity;

(ii) the amount reimbursable shall be reduced by the value of any land donated to the school district by the municipality or developer, and by the value of any physical improvements made to the schools by the municipality or developer; and

(iii) the amount reimbursed may not affect amounts otherwise obligated by the terms of any bonds, notes, or other funding instruments, or the terms of any redevelopment agreement.

Any school district seeking payment under this paragraph (7.5) shall, after July 1 and before September 30 of each year, provide the municipality with reasonable evidence to support its claim for reimbursement before the municipality shall be required to approve or make the payment to the school district. If the school district fails to provide the information during this period in any year, it shall forfeit any claim to reimbursement for that year. School districts may adopt a resolution waiving the right to all or a portion of the reimbursement otherwise required by this paragraph (7.5). By acceptance of this reimbursement the school district waives the right to directly or indirectly set aside, modify, or contest in any manner the establishment of the redevelopment project area or projects;

(7.7) For redevelopment project areas designated (or redevelopment project areas amended to add or increase the number of tax-increment-financing assisted housing units) on or after January 1, 2005 (the effective date of Public Act 93-961) this amendatory Act of the 93rd General Assembly, a public library district's increased costs attributable to assisted housing units located within the redevelopment project area for which the developer or redeveloper receives financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary

infrastructure improvements within the boundaries of the assisted housing sites necessary for the completion of that housing as authorized by this Act shall be paid to the library district by the municipality from the Special Tax Allocation Fund when the tax increment revenue is received as a result of the assisted housing units. This paragraph (7.7) applies only if (i) the library district is located in a county that is subject to the Property Tax Extension Limitation Law or (ii) the library district is not located in a county that is subject to the Property Tax Extension Limitation Law but the district is prohibited by any other law from increasing its tax levy rate without a prior voter referendum.

The amount paid to a library district under this paragraph (7.7) shall be calculated by multiplying (i) the net increase in the number of persons eligible to obtain a library card in that district who reside in housing units within the redevelopment project area that have received financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by (ii) the per-patron cost of providing library services so long as it does not exceed $120. The per-patron cost shall be the Total Operating Expenditures Per Capita as stated in the most recent Illinois Public Library Statistics produced by the Library Research Center at the University of Illinois. The municipality may deduct from the amount that it must pay to a library district under this paragraph any amount that it has voluntarily paid to the library district from the tax increment revenue. The amount paid to a library district under this paragraph (7.7) shall be no more than 2% of the amount produced by the assisted housing units and deposited into the Special Tax Allocation Fund.

A library district is not eligible for any payment under this paragraph (7.7) unless the library district has experienced an increase in the number of patrons from the municipality that created the tax-increment-financing district since the designation of the redevelopment project area.

Any library district seeking payment under this paragraph (7.7) shall, after July 1 and before September 30 of each year, provide the municipality with convincing evidence to support its claim for

reimbursement before the municipality shall be required to approve or make the payment to the library district. If the library district fails to provide the information during this period in any year, it shall forfeit any claim to reimbursement for that year. Library districts may adopt a resolution waiving the right to all or a portion of the reimbursement otherwise required by this paragraph (7.7). By acceptance of such reimbursement, the library district shall forfeit any right to directly or indirectly set aside, modify, or contest in any manner whatsoever the establishment of the redevelopment project area or projects;

(8) Relocation costs to the extent that a municipality determines that relocation costs shall be paid or is required to make payment of relocation costs by federal or State law or in order to satisfy subparagraph (7) of subsection (n);

(9) Payment in lieu of taxes;

(10) Costs of job training, retraining, advanced vocational education or career education, including but not limited to courses in occupational, semi-technical or technical fields leading directly to employment, incurred by one or more taxing districts, provided that such costs (i) are related to the establishment and maintenance of additional job training, advanced vocational education or career education programs for persons employed or to be employed by employers located in a redevelopment project area; and (ii) when incurred by a taxing district or taxing districts other than the municipality, are set forth in a written agreement by or among the municipality and the taxing district or taxing districts, which agreement describes the program to be undertaken, including but not limited to the number of employees to be trained, a description of the training and services to be provided, the number and type of positions available or to be available, itemized costs of the program and sources of funds to pay for the same, and the term of the agreement. Such costs include, specifically, the payment by community college districts of costs pursuant to Sections 3-37, 3-38, 3-40 and 3-40.1 of the Public Community College Act and by school districts of costs pursuant to Sections 10-22.20a and 10-23.3a of The School Code;

(11) Interest cost incurred by a redeveloper related to the construction, renovation or rehabilitation of a redevelopment project provided that:

(A) such costs are to be paid directly from the special
tax allocation fund established pursuant to this Act;

(B) such payments in any one year may not exceed 30% of the annual interest costs incurred by the redeveloper with regard to the redevelopment project during that year;

(C) if there are not sufficient funds available in the special tax allocation fund to make the payment pursuant to this paragraph (11) then the amounts so due shall accrue and be payable when sufficient funds are available in the special tax allocation fund;

(D) the total of such interest payments paid pursuant to this Act may not exceed 30% of the total (i) cost paid or incurred by the redeveloper for the redevelopment project plus (ii) redevelopment project costs excluding any property assembly costs and any relocation costs incurred by a municipality pursuant to this Act; and

(E) the cost limits set forth in subparagraphs (B) and (D) of paragraph (11) shall be modified for the financing of rehabilitated or new housing units for low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act. The percentage of 75% shall be substituted for 30% in subparagraphs (B) and (D) of paragraph (11).

(F) Instead of the eligible costs provided by subparagraphs (B) and (D) of paragraph (11), as modified by this subparagraph, and notwithstanding any other provisions of this Act to the contrary, the municipality may pay from tax increment revenues up to 50% of the cost of construction of new housing units to be occupied by low-income households and very low-income households as defined in Section 3 of the Illinois Affordable Housing Act. The cost of construction of those units may be derived from the proceeds of bonds issued by the municipality under this Act or other constitutional or statutory authority or from other sources of municipal revenue that may be reimbursed from tax increment revenues or the proceeds of bonds issued to finance the construction of that housing.

The eligible costs provided under this subparagraph (F) of paragraph (11) shall be an eligible cost for the construction, renovation, and rehabilitation of all low and

New matter indicated by italics - deletions by strikeout
very low-income housing units, as defined in Section 3 of the Illinois Affordable Housing Act, within the redevelopment project area. If the low and very low-income units are part of a residential redevelopment project that includes units not affordable to low and very low-income households, only the low and very low-income units shall be eligible for benefits under subparagraph (F) of paragraph (11). The standards for maintaining the occupancy by low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act, of those units constructed with eligible costs made available under the provisions of this subparagraph (F) of paragraph (11) shall be established by guidelines adopted by the municipality. The responsibility for annually documenting the initial occupancy of the units by low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act, shall be that of the then current owner of the property. For ownership units, the guidelines will provide, at a minimum, for a reasonable recapture of funds, or other appropriate methods designed to preserve the original affordability of the ownership units. For rental units, the guidelines will provide, at a minimum, for the affordability of rent to low and very low-income households. As units become available, they shall be rented to income-eligible tenants. The municipality may modify these guidelines from time to time; the guidelines, however, shall be in effect for as long as tax increment revenue is being used to pay for costs associated with the units or for the retirement of bonds issued to finance the units or for the life of the redevelopment project area, whichever is later.

(11.5) If the redevelopment project area is located within a municipality with a population of more than 100,000, the cost of day care services for children of employees from low-income families working for businesses located within the redevelopment project area and all or a portion of the cost of operation of day care centers established by redevelopment project area businesses to serve employees from low-income families working in businesses located in the redevelopment project area. For the purposes of this paragraph, "low-income families" means families whose annual income does not

New matter indicated by italics - deletions by strikeout
exceed 80% of the municipal, county, or regional median income, adjusted for family size, as the annual income and municipal, county, or regional median income are determined from time to time by the United States Department of Housing and Urban Development.

(12) Unless explicitly stated herein the cost of construction of new privately-owned buildings shall not be an eligible redevelopment project cost.

(13) After November 1, 1999 (the effective date of Public Act 91-478), none of the redevelopment project costs enumerated in this subsection shall be eligible redevelopment project costs if those costs would provide direct financial support to a retail entity initiating operations in the redevelopment project area while terminating operations at another Illinois location within 10 miles of the redevelopment project area but outside the boundaries of the redevelopment project area municipality. For purposes of this paragraph, termination means a closing of a retail operation that is directly related to the opening of the same operation or like retail entity owned or operated by more than 50% of the original ownership in a redevelopment project area, but it does not mean closing an operation for reasons beyond the control of the retail entity, as documented by the retail entity, subject to a reasonable finding by the municipality that the current location contained inadequate space, had become economically obsolete, or was no longer a viable location for the retailer or serviceman.

If a special service area has been established pursuant to the Special Service Area Tax Act or Special Service Area Tax Law, then any tax increment revenues derived from the tax imposed pursuant to the Special Service Area Tax Act or Special Service Area Tax Law may be used within the redevelopment project area for the purposes permitted by that Act or Law as well as the purposes permitted by this Act.

(r) "State Sales Tax Boundary" means the redevelopment project area or the amended redevelopment project area boundaries which are determined pursuant to subsection (9) of Section 11-74.4-8a of this Act. The Department of Revenue shall certify pursuant to subsection (9) of Section 11-74.4-8a the appropriate boundaries eligible for the determination of State Sales Tax Increment.

(s) "State Sales Tax Increment" means an amount equal to the increase in the aggregate amount of taxes paid by retailers and servicemen, other than retailers and servicemen subject to the Public Utilities Act, on
transactions at places of business located within a State Sales Tax Boundary pursuant to the Retailers' Occupation Tax Act, the Use Tax Act, the Service Use Tax Act, and the Service Occupation Tax Act, except such portion of such increase that is paid into the State and Local Sales Tax Reform Fund, the Local Government Distributive Fund, the Local Government Tax Fund and the County and Mass Transit District Fund, for as long as State participation exists, over and above the Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts for such taxes as certified by the Department of Revenue and paid under those Acts by retailers and servicemen on transactions at places of business located within the State Sales Tax Boundary during the base year which shall be the calendar year immediately prior to the year in which the municipality adopted tax increment allocation financing, less 3.0% of such amounts generated under the Retailers' Occupation Tax Act, Use Tax Act and Service Use Tax Act and the Service Occupation Tax Act, which sum shall be appropriated to the Department of Revenue to cover its costs of administering and enforcing this Section. For purposes of computing the aggregate amount of such taxes for base years occurring prior to 1985, the Department of Revenue shall compute the Initial Sales Tax Amount for such taxes and deduct therefrom an amount equal to 4% of the aggregate amount of taxes per year for each year the base year is prior to 1985, but not to exceed a total deduction of 12%. The amount so determined shall be known as the "Adjusted Initial Sales Tax Amount". For purposes of determining the State Sales Tax Increment the Department of Revenue shall for each period subtract from the tax amounts received from retailers and servicemen on transactions located in the State Sales Tax Boundary, the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or Revised Initial Sales Tax Amounts for the Retailers' Occupation Tax Act, the Use Tax Act, the Service Use Tax Act and the Service Occupation Tax Act. For the State Fiscal Year 1989 this calculation shall be made by utilizing the calendar year 1987 to determine the tax amounts received. For the State Fiscal Year 1990, this calculation shall be made by utilizing the period from January 1, 1988, until September 30, 1988, to determine the tax amounts received from retailers and servicemen, which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For the State Fiscal Year 1991, this calculation shall be made by utilizing the period from October 1, 1988, until June 30, 1989, to determine the tax amounts received from retailers and servicemen, which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts.
State Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For every State Fiscal Year thereafter, the applicable period shall be the 12 months beginning July 1 and ending on June 30, to determine the tax amounts received which shall have deducted therefrom the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts. Municipalities intending to receive a distribution of State Sales Tax Increment must report a list of retailers to the Department of Revenue by October 31, 1988 and by July 31, of each year thereafter.

(t) "Taxing districts" means counties, townships, cities and incorporated towns and villages, school, road, park, sanitary, mosquito abatement, forest preserve, public health, fire protection, river conservancy, tuberculosis sanitarium and any other municipal corporations or districts with the power to levy taxes.

(u) "Taxing districts' capital costs" means those costs of taxing districts for capital improvements that are found by the municipal corporate authorities to be necessary and directly result from the redevelopment project.

(v) As used in subsection (a) of Section 11-74.4-3 of this Act, "vacant land" means any parcel or combination of parcels of real property without industrial, commercial, and residential buildings which has not been used for commercial agricultural purposes within 5 years prior to the designation of the redevelopment project area, unless the parcel is included in an industrial park conservation area or the parcel has been subdivided; provided that if the parcel was part of a larger tract that has been divided into 3 or more smaller tracts that were accepted for recording during the period from 1950 to 1990, then the parcel shall be deemed to have been subdivided, and all proceedings and actions of the municipality taken in that connection with respect to any previously approved or designated redevelopment project area or amended redevelopment project area are hereby validated and hereby declared to be legally sufficient for all purposes of this Act. For purposes of this Section and only for land subject to the subdivision requirements of the Plat Act, land is subdivided when the original plat of the proposed Redevelopment Project Area or relevant portion thereof has been properly certified, acknowledged, approved, and recorded or filed in accordance with the Plat Act and a preliminary plat, if any, for any subsequent phases of the proposed Redevelopment Project Area or relevant portion thereof has been properly approved and filed in accordance with the applicable ordinance of the municipality.

(w) "Annual Total Increment" means the sum of each municipality's

New matter indicated by italics - deletions by strikeout
annual Net Sales Tax Increment and each municipality's annual Net Utility Tax Increment. The ratio of the Annual Total Increment of each municipality to the Annual Total Increment for all municipalities, as most recently calculated by the Department, shall determine the proportional shares of the Illinois Tax Increment Fund to be distributed to each municipality.

(65 ILCS 5/11-74.4-7) (from Ch. 24, par. 11-74.4-7)

Sec. 11-74.4-7. Obligations secured by the special tax allocation fund set forth in Section 11-74.4-8 for the redevelopment project area may be issued to provide for redevelopment project costs. Such obligations, when so issued, shall be retired in the manner provided in the ordinance authorizing the issuance of such obligations by the receipts of taxes levied as specified in Section 11-74.4-9 against the taxable property included in the area, by revenues as specified by Section 11-74.4-8a and other revenue designated by the municipality. A municipality may in the ordinance pledge all or any part of the funds in and to be deposited in the special tax allocation fund created pursuant to Section 11-74.4-8 to the payment of the redevelopment project costs and obligations. Any pledge of funds in the special tax allocation fund shall provide for distribution to the taxing districts and to the Illinois Department of Revenue of moneys not required, pledged, earmarked, or otherwise designated for payment and securing of the obligations and anticipated redevelopment project costs and such excess funds shall be calculated annually and deemed to be "surplus" funds. In the event a municipality only applies or pledges a portion of the funds in the special tax allocation fund for the payment or securing of anticipated redevelopment project costs or of obligations, any such funds remaining in the special tax allocation fund after complying with the requirements of the application or pledge, shall also be calculated annually and deemed "surplus" funds. All surplus funds in the special tax allocation fund shall be distributed annually within 180 days after the close of the municipality's fiscal year by being paid by the municipal treasurer to the County Collector, to the Department of Revenue and to the municipality in direct proportion to the tax incremental revenue received as a result of an increase in the equalized assessed value of property in the redevelopment project area, tax incremental revenue received

from the State and tax incremental revenue received from the municipality, but not to exceed as to each such source the total incremental revenue received from that source. The County Collector shall thereafter make distribution to the respective taxing districts in the same manner and proportion as the most recent distribution by the county collector to the affected districts of real property taxes from real property in the redevelopment project area.

Without limiting the foregoing in this Section, the municipality may in addition to obligations secured by the special tax allocation fund pledge for a period not greater than the term of the obligations towards payment of such obligations any part or any combination of the following: (a) net revenues of all or part of any redevelopment project; (b) taxes levied and collected on any or all property in the municipality; (c) the full faith and credit of the municipality; (d) a mortgage on part or all of the redevelopment project; or (e) any other taxes or anticipated receipts that the municipality may lawfully pledge.

Such obligations may be issued in one or more series bearing interest at such rate or rates as the corporate authorities of the municipality shall determine by ordinance. Such obligations shall bear such date or dates, mature at such time or times not exceeding 20 years from their respective dates, be in such denomination, carry such registration privileges, be executed in such manner, be payable in such medium of payment at such place or places, contain such covenants, terms and conditions, and be subject to redemption as such ordinance shall provide. Obligations issued pursuant to this Act may be sold at public or private sale at such price as shall be determined by the corporate authorities of the municipalities. No referendum approval of the electors shall be required as a condition to the issuance of obligations pursuant to this Division except as provided in this Section.

In the event the municipality authorizes issuance of obligations pursuant to the authority of this Division secured by the full faith and credit of the municipality, which obligations are other than obligations which may be issued under home rule powers provided by Article VII, Section 6 of the Illinois Constitution, or pledges taxes pursuant to (b) or (c) of the second paragraph of this section, the ordinance authorizing the issuance of such obligations or pledging such taxes shall be published within 10 days after such ordinance has been passed in one or more newspapers, with general circulation within such municipality. The publication of the ordinance shall be accompanied by a notice of (1) the specific number of voters required to sign a petition requesting the question of the issuance of such obligations or

pledging taxes to be submitted to the electors; (2) the time in which such petition must be filed; and (3) the date of the prospective referendum. The municipal clerk shall provide a petition form to any individual requesting one.

If no petition is filed with the municipal clerk, as hereinafter provided in this Section, within 30 days after the publication of the ordinance, the ordinance shall be in effect. But, if within that 30 day period a petition is filed with the municipal clerk, signed by electors in the municipality numbering 10% or more of the number of registered voters in the municipality, asking that the question of issuing obligations using full faith and credit of the municipality as security for the cost of paying for redevelopment project costs, or of pledging taxes for the payment of such obligations, or both, be submitted to the electors of the municipality, the corporate authorities of the municipality shall call a special election in the manner provided by law to vote upon that question, or, if a general, State or municipal election is to be held within a period of not less than 30 or more than 90 days from the date such petition is filed, shall submit the question at the next general, State or municipal election. If it appears upon the canvass of the election by the corporate authorities that a majority of electors voting upon the question voted in favor thereof, the ordinance shall be in effect, but if a majority of the electors voting upon the question are not in favor thereof, the ordinance shall not take effect.

The ordinance authorizing the obligations may provide that the obligations shall contain a recital that they are issued pursuant to this Division, which recital shall be conclusive evidence of their validity and of the regularity of their issuance.

In the event the municipality authorizes issuance of obligations pursuant to this Section secured by the full faith and credit of the municipality, the ordinance authorizing the obligations may provide for the levy and collection of a direct annual tax upon all taxable property within the municipality sufficient to pay the principal thereof and interest thereon as it matures, which levy may be in addition to and exclusive of the maximum of all other taxes authorized to be levied by the municipality, which levy, however, shall be abated to the extent that monies from other sources are available for payment of the obligations and the municipality certifies the amount of said monies available to the county clerk.

A certified copy of such ordinance shall be filed with the county clerk of each county in which any portion of the municipality is situated, and shall constitute the authority for the extension and collection of the taxes to be

deposited in the special tax allocation fund.

A municipality may also issue its obligations to refund in whole or in part, obligations theretofore issued by such municipality under the authority of this Act, whether at or prior to maturity, provided however, that the last maturity of the refunding obligations shall not be expressed to mature later than December 31 of the year in which the payment to the municipal treasurer as provided in subsection (b) of Section 11-74.4-8 of this Act is to be made with respect to ad valorem taxes levied in the twenty-third calendar year after the year in which the ordinance approving the redevelopment project area is adopted if the ordinance was adopted on or after January 15, 1981, and not later than December 31 of the year in which the payment to the municipal treasurer as provided in subsection (b) of Section 11-74.4-8 of this Act is to be made with respect to ad valorem taxes levied in the thirty-fifth calendar year after the year in which the ordinance approving the redevelopment project area is adopted (A) if the ordinance was adopted before January 15, 1981, or (B) if the ordinance was adopted in December 1983, April 1984, July 1985, or December 1989, or (C) if the ordinance was adopted in December, 1987 and the redevelopment project is located within one mile of Midway Airport, or (D) if the ordinance was adopted before January 1, 1987 by a municipality in Mason County, or (E) if the municipality is subject to the Local Government Financial Planning and Supervision Act or the Financially Distressed City Law, or (F) if the ordinance was adopted in December 1984 by the Village of Rosemont, or (G) if the ordinance was adopted on December 31, 1986 by a municipality located in Clinton County for which at least $250,000 of tax increment bonds were authorized on June 17, 1997, or if the ordinance was adopted on December 31, 1986 by a municipality with a population in 1990 of less than 3,600 that is located in a county with a population in 1990 of less than 34,000 and for which at least $250,000 of tax increment bonds were authorized on June 17, 1997, or (H) if the ordinance was adopted on October 5, 1982 by the City of Kankakee, or (I) if the ordinance was adopted on December 29, 1986 by East St. Louis, or if the ordinance was adopted on November 12, 1991 by the Village of Sauget, or (J) if the ordinance was adopted on February 11, 1985 by the City of Rock Island, or (K) if the ordinance was adopted before December 18, 1986 by the City of Moline, or (L) if the ordinance was adopted in September 1988 by Sauk Village, or (M) if the ordinance was adopted in October 1993 by Sauk Village, or (N) if the ordinance was adopted on December 29, 1986 by the City of Galva, or (O) if the ordinance was adopted in March 1991 by the City of Centreville, or (P) if the ordinance was adopted on January 23, 1991 by the...

Section 5. Definitions.
"Matriculant" means an individual who is conditionally admitted as a student to a medical school located in Illinois, pending the medical school's consideration of his or her criminal history records check under this Act.

"Sex offender" means any person who is convicted pursuant to Illinois law or any substantially similar federal, Uniform Code of Military Justice, sister state, or foreign country law with any of the following sex offenses set forth in the Criminal Code of 1961:

1. Indecent solicitation of a child.
2. Sexual exploitation of a child.
3. Custodial sexual misconduct.
4. Exploitation of a child.
5. Child pornography.

"Violent felony" means any of the following offenses, as defined by the Criminal Code of 1961:

1. First degree murder.

8. Kidnapping.
9. Aggravated battery resulting in great bodily harm or permanent disability or disfigurement.

conducted by the Department of State Police and the Federal Bureau of
Investigation as part of the medical school admissions process. A medical
school shall forward the name, sex, race, date of birth, social security number,
and fingerprints of each of its matriculants to the Department of State Police
to be searched against the Statewide Sex Offender Database and the
fingerprint records now and hereafter filed in the Department of State Police
and Federal Bureau of Investigation criminal history records databases. The
fingerprints of each matriculant must be submitted in the form and manner
prescribed by the Department of State Police. The Department of State Police
shall furnish, pursuant to positive identification, records of a matriculant's
violent felony convictions and any record of a matriculant's adjudication as
a sex offender to the medical school that requested the criminal history
records check.

Section 15. Fees. The Department of State Police shall charge each
requesting medical school a fee for conducting the criminal history records
check under Section 10 of this Act, which shall be deposited in the State
Police Services Fund and shall not exceed the cost of the inquiry. Each
requesting medical school is solely responsible for payment of this fee to the
Department of State Police. Each medical school may impose its own fee
upon a matriculant to cover the cost of the criminal history records check at
the time the matriculant submits to the criminal history records check.

Section 20. Admissions decision. The information collected under this
Act as a result of the criminal history records check must be considered by
the requesting medical school in determining whether or not to officially
admit a matriculant. Upon a medical school's evaluation of a matriculant's
criminal history records check, a matriculant who has been convicted of a
violent felony conviction or adjudicated a sex offender may be precluded
from gaining official admission to that medical school; however, a violent
felony conviction or an adjudication as a sex offender shall not serve as an
automatic bar to official admission to a medical school located in Illinois.

Section 25. Civil immunity. Except for wilful or wanton misconduct,
no medical school acting under the provisions of this Act shall be civilly
liable to any matriculant for any decision made pursuant to Section 20 of this
Act.

Section 30. Applicability. This Act applies only to matriculants who
are conditionally admitted to a medical school located in Illinois on or after
the effective date of this Act.

Section 90. The Department of State Police Law of the Civil
Administrative Code of Illinois is amended by adding Section 2605-327 as

Pursuant to the Medical School Matriculant Criminal History Records Check Act, the Department shall conduct a fingerprint-based criminal history records check of the Statewide Sex Offender Database, the Illinois criminal history records database, and the Federal Bureau of Investigation criminal history records database. The Department may charge the requesting medical school a fee for conducting the fingerprint-based criminal history records check. The fee shall not exceed the cost of the inquiry and shall be deposited into the State Police Services Fund.

(d) Elections shall be held on May 1, unless May 1 falls on a Saturday

each teacher or annuitant of this system as of the latest date practicable, at the

containing the marked ballot in the return envelope addressed to the board,
and mail it. Whether a person is eligible to vote for the teacher nominees or
the annuitant nominees shall be determined from system payroll records as
of March 1.

Upon receipt of the return envelopes, the system shall open them and
set aside unopened the envelopes marked "For Ballot Only". On election day
ballots shall be publicly opened and counted by the trustees or canvassers
appointed therefor. Each vote cast for a candidate represents one vote only.
No ballot arriving after 10 o'clock a.m. on election day shall be counted. The
2 teacher candidates and the annuitant candidate receiving the highest number
of votes shall be elected. The board shall declare the results of the election,
keep a record thereof, and notify the candidates of the results thereof within
30 days after the election.

If, for either class of members, there are only as many qualified
nominees as there are positions available, the balloting as described in this
Section shall not be conducted for those nominees, and the board shall
declare them duly elected.

(a) For any redevelopment project area that has been designated pursuant to this Section by an ordinance adopted prior to November 1, 1999 (the effective date of Public Act 91-478), "blighted area" shall have the meaning set forth in this Section prior to that date.
On and after November 1, 1999, "blighted area" means any improved or vacant area within the boundaries of a redevelopment project area located within the territorial limits of the municipality where:

(1) If improved, industrial, commercial, and residential buildings or improvements are detrimental to the public safety, health, or welfare because of a combination of 5 or more of the following factors, each of which is (i) present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) reasonably distributed throughout the improved part of the redevelopment project area:

New matter indicated by italics - deletions by strikeout
(A) Dilapidation. An advanced state of disrepair or neglect of necessary repairs to the primary structural components of buildings or improvements in such a combination that a documented building condition analysis determines that major repair is required or the defects are so serious and so extensive that the buildings must be removed.

(B) Obsolescence. The condition or process of falling into disuse. Structures have become ill-suited for the original use.

(C) Deterioration. With respect to buildings, defects including, but not limited to, major defects in the secondary building components such as doors, windows, porches, gutters and downspouts, and fascia. With respect to surface improvements, that the condition of roadways, alleys, curbs, gutters, sidewalks, off-street parking, and surface storage areas evidence deterioration, including, but not limited to, surface cracking, crumbling, potholes, depressions, loose paving material, and weeds protruding through paved surfaces.

(D) Presence of structures below minimum code standards. All structures that do not meet the standards of zoning, subdivision, building, fire, and other governmental codes applicable to property, but not including housing and property maintenance codes.

(E) Illegal use of individual structures. The use of structures in violation of applicable federal, State, or local laws, exclusive of those applicable to the presence of structures below minimum code standards.

(F) Excessive vacancies. The presence of buildings that are unoccupied or under-utilized and that represent an adverse influence on the area because of the frequency, extent, or duration of the vacancies.

(G) Lack of ventilation, light, or sanitary facilities. The absence of adequate ventilation for light or air circulation in spaces or rooms without windows, or that require the removal of dust, odor, gas, smoke, or other noxious airborne materials. Inadequate natural light and ventilation means the absence of skylights or windows for interior spaces or rooms and improper window sizes and amounts by room area to
window area ratios. Inadequate sanitary facilities refers to the absence or inadequacy of garbage storage and enclosure, bathroom facilities, hot water and kitchens, and structural inadequacies preventing ingress and egress to and from all rooms and units within a building.

(H) Inadequate utilities. Underground and overhead utilities such as storm sewers and storm drainage, sanitary sewers, water lines, and gas, telephone, and electrical services that are shown to be inadequate. Inadequate utilities are those that are: (i) of insufficient capacity to serve the uses in the redevelopment project area, (ii) deteriorated, antiquated, obsolete, or in disrepair, or (iii) lacking within the redevelopment project area.

(I) Excessive land coverage and overcrowding of structures and community facilities. The over-intensive use of property and the crowding of buildings and accessory facilities onto a site. Examples of problem conditions warranting the designation of an area as one exhibiting excessive land coverage are: (i) the presence of buildings either improperly situated on parcels or located on parcels of inadequate size and shape in relation to present-day standards of development for health and safety and (ii) the presence of multiple buildings on a single parcel. For there to be a finding of excessive land coverage, these parcels must exhibit one or more of the following conditions: insufficient provision for light and air within or around buildings, increased threat of spread of fire due to the close proximity of buildings, lack of adequate or proper access to a public right-of-way, lack of reasonably required off-street parking, or inadequate provision for loading and service.

(J) Deleterious land use or layout. The existence of incompatible land-use relationships, buildings occupied by inappropriate mixed-uses, or uses considered to be noxious, offensive, or unsuitable for the surrounding area.

(K) Environmental clean-up. The proposed redevelopment project area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as
having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

(L) Lack of community planning. The proposed redevelopment project area was developed prior to or without the benefit or guidance of a community plan. This means that the development occurred prior to the adoption by the municipality of a comprehensive or other community plan or that the plan was not followed at the time of the area's development. This factor must be documented by evidence of adverse or incompatible land-use relationships, inadequate street layout, improper subdivision, parcels of inadequate shape and size to meet contemporary development standards, or other evidence demonstrating an absence of effective community planning.

(M) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated.

(2) If vacant, the sound growth of the redevelopment project area is impaired by a combination of 2 or more of the following factors, each of which is (i) present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) reasonably distributed throughout the vacant part of the redevelopment project area to which it pertains:

(A) Obsolete platting of vacant land that results in parcels of limited or narrow size or configurations of parcels of irregular size or shape that would be difficult to develop on

a planned basis and in a manner compatible with contemporary standards and requirements, or platting that failed to create rights-of-ways for streets or alleys or that created inadequate right-of-way widths for streets, alleys, or other public rights-of-way or that omitted easements for public utilities.

(B) Diversity of ownership of parcels of vacant land sufficient in number to retard or impede the ability to assemble the land for development.

(C) Tax and special assessment delinquencies exist or the property has been the subject of tax sales under the Property Tax Code within the last 5 years.

(D) Deterioration of structures or site improvements in neighboring areas adjacent to the vacant land.

(E) The area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

(F) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated.

(3) If vacant, the sound growth of the redevelopment project area is impaired by one of the following factors that (i) is present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present

within the intent of the Act and (ii) is reasonably distributed throughout the vacant part of the redevelopment project area to which it pertains:

(A) The area consists of one or more unused quarries, mines, or strip mine ponds.
(B) The area consists of unused rail yards, rail tracks, or railroad rights-of-way.
(C) The area, prior to its designation, is subject to (i) chronic flooding that adversely impacts on real property in the area as certified by a registered professional engineer or appropriate regulatory agency or (ii) surface water that discharges from all or a part of the area and contributes to flooding within the same watershed, but only if the redevelopment project provides for facilities or improvements to contribute to the alleviation of all or part of the flooding.
(D) The area consists of an unused or illegal disposal site containing earth, stone, building debris, or similar materials that were removed from construction, demolition, excavation, or dredge sites.
(E) Prior to November 1, 1999, the area is not less than 50 nor more than 100 acres and 75% of which is vacant (notwithstanding that the area has been used for commercial agricultural purposes within 5 years prior to the designation of the redevelopment project area), and the area meets at least one of the factors itemized in paragraph (1) of this subsection, the area has been designated as a town or village center by ordinance or comprehensive plan adopted prior to January 1, 1982, and the area has not been developed for that designated purpose.
(F) The area qualified as a blighted improved area immediately prior to becoming vacant, unless there has been substantial private investment in the immediately surrounding area.

(b) For any redevelopment project area that has been designated pursuant to this Section by an ordinance adopted prior to November 1, 1999 (the effective date of Public Act 91-478), "conservation area" shall have the meaning set forth in this Section prior to that date.

On and after November 1, 1999, "conservation area" means any improved area within the boundaries of a redevelopment project area located
within the territorial limits of the municipality in which 50% or more of the structures in the area have an age of 35 years or more. Such an area is not yet a blighted area but because of a combination of 3 or more of the following factors is detrimental to the public safety, health, morals or welfare and such an area may become a blighted area:

(1) Dilapidation. An advanced state of disrepair or neglect of necessary repairs to the primary structural components of buildings or improvements in such a combination that a documented building condition analysis determines that major repair is required or the defects are so serious and so extensive that the buildings must be removed.

(2) Obsolescence. The condition or process of falling into disuse. Structures have become ill-suited for the original use.

(3) Deterioration. With respect to buildings, defects including, but not limited to, major defects in the secondary building components such as doors, windows, porches, gutters and downspouts, and fascia. With respect to surface improvements, that the condition of roadways, alleys, curbs, gutters, sidewalks, off-street parking, and surface storage areas evidence deterioration, including, but not limited to, surface cracking, crumbling, potholes, depressions, loose paving material, and weeds protruding through paved surfaces.

(4) Presence of structures below minimum code standards. All structures that do not meet the standards of zoning, subdivision, building, fire, and other governmental codes applicable to property, but not including housing and property maintenance codes.

(5) Illegal use of individual structures. The use of structures in violation of applicable federal, State, or local laws, exclusive of those applicable to the presence of structures below minimum code standards.

(6) Excessive vacancies. The presence of buildings that are unoccupied or under-utilized and that represent an adverse influence on the area because of the frequency, extent, or duration of the vacancies.

(7) Lack of ventilation, light, or sanitary facilities. The absence of adequate ventilation for light or air circulation in spaces or rooms without windows, or that require the removal of dust, odor, gas, smoke, or other noxious airborne materials. Inadequate natural light and ventilation means the absence or inadequacy of skylights or windows for interior spaces or rooms and improper window sizes and

amounts by room area to window area ratios. Inadequate sanitary facilities refers to the absence or inadequacy of garbage storage and enclosure, bathroom facilities, hot water and kitchens, and structural inadequacies preventing ingress and egress to and from all rooms and units within a building.

(8) Inadequate utilities. Underground and overhead utilities such as storm sewers and storm drainage, sanitary sewers, water lines, and gas, telephone, and electrical services that are shown to be inadequate. Inadequate utilities are those that are: (i) of insufficient capacity to serve the uses in the redevelopment project area, (ii) deteriorated, antiquated, obsolete, or in disrepair, or (iii) lacking within the redevelopment project area.

(9) Excessive land coverage and overcrowding of structures and community facilities. The over-intensive use of property and the crowding of buildings and accessory facilities onto a site. Examples of problem conditions warranting the designation of an area as one exhibiting excessive land coverage are: the presence of buildings either improperly situated on parcels or located on parcels of inadequate size and shape in relation to present-day standards of development for health and safety and the presence of multiple buildings on a single parcel. For there to be a finding of excessive land coverage, these parcels must exhibit one or more of the following conditions: insufficient provision for light and air within or around buildings, increased threat of spread of fire due to the close proximity of buildings, lack of adequate or proper access to a public right-of-way, lack of reasonably required off-street parking, or inadequate provision for loading and service.

(10) Deleterious land use or layout. The existence of incompatible land-use relationships, buildings occupied by inappropriate mixed-uses, or uses considered to be noxious, offensive, or unsuitable for the surrounding area.

(11) Lack of community planning. The proposed redevelopment project area was developed prior to or without the benefit or guidance of a community plan. This means that the development occurred prior to the adoption by the municipality of a comprehensive or other community plan or that the plan was not followed at the time of the area's development. This factor must be documented by evidence of adverse or incompatible land-use relationships, inadequate street layout, improper subdivision, parcels

of inadequate shape and size to meet contemporary development standards, or other evidence demonstrating an absence of effective community planning.

(12) The area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

(13) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years for which information is available.

(c) "Industrial park" means an area in a blighted or conservation area suitable for use by any manufacturing, industrial, research or transportation enterprise, of facilities to include but not be limited to factories, mills, processing plants, assembly plants, packing plants, fabricating plants, industrial distribution centers, warehouses, repair overhaul or service facilities, freight terminals, research facilities, test facilities or railroad facilities.

(d) "Industrial park conservation area" means an area within the boundaries of a redevelopment project area located within the territorial limits of a municipality that is a labor surplus municipality or within 1 1/2 miles of the territorial limits of a municipality that is a labor surplus municipality if the area is annexed to the municipality; which area is zoned as industrial no later than at the time the municipality by ordinance designates the redevelopment project area, and which area includes both vacant land suitable for use as an industrial park and a blighted area or conservation area contiguous to such vacant land.

(e) "Labor surplus municipality" means a municipality in which, at any time during the 6 months before the municipality by ordinance designates

an industrial park conservation area, the unemployment rate was over 6% and was also 100% or more of the national average unemployment rate for that same time as published in the United States Department of Labor Bureau of Labor Statistics publication entitled "The Employment Situation" or its successor publication. For the purpose of this subsection, if unemployment rate statistics for the municipality are not available, the unemployment rate in the municipality shall be deemed to be the same as the unemployment rate in the principal county in which the municipality is located.

(f) "Municipality" shall mean a city, village or incorporated town.

(g) "Initial Sales Tax Amounts" means the amount of taxes paid under the Retailers' Occupation Tax Act, Use Tax Act, Service Use Tax Act, the Service Occupation Tax Act, the Municipal Retailers' Occupation Tax Act, and the Municipal Service Occupation Tax Act by retailers and servicemen on transactions at places located in a State Sales Tax Boundary during the calendar year 1985.

(g-1) "Revised Initial Sales Tax Amounts" means the amount of taxes paid under the Retailers' Occupation Tax Act, Use Tax Act, Service Use Tax Act, the Service Occupation Tax Act, the Municipal Retailers' Occupation Tax Act, and the Municipal Service Occupation Tax Act by retailers and servicemen on transactions at places located within the State Sales Tax Boundary revised pursuant to Section 11-74.4-8a(9) of this Act.

(h) "Municipal Sales Tax Increment" means an amount equal to the increase in the aggregate amount of taxes paid to a municipality from the Local Government Tax Fund arising from sales by retailers and servicemen within the redevelopment project area or State Sales Tax Boundary, as the case may be, for as long as the redevelopment project area or State Sales Tax Boundary, as the case may be, exist over and above the aggregate amount of taxes as certified by the Illinois Department of Revenue and paid under the Municipal Retailers' Occupation Tax Act and the Municipal Service Occupation Tax Act by retailers and servicemen on transactions at places of business located in the redevelopment project area or State Sales Tax Boundary, as the case may be, during the base year which shall be the calendar year immediately prior to the year in which the municipality adopted tax increment allocation financing. For purposes of computing the aggregate amount of such taxes for base years occurring prior to 1985, the Department of Revenue shall determine the Initial Sales Tax Amounts for such taxes and deduct therefrom an amount equal to 4% of the aggregate amount of taxes per year for each year the base year is prior to 1985, but not to exceed a total deduction of 12%. The amount so determined shall be known as the

"Adjusted Initial Sales Tax Amounts". For purposes of determining the Municipal Sales Tax Increment, the Department of Revenue shall for each period subtract from the amount paid to the municipality from the Local Government Tax Fund arising from sales by retailers and servicemen on transactions located in the redevelopment project area or the State Sales Tax Boundary, as the case may be, the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts for the Municipal Retailers' Occupation Tax Act and the Municipal Service Occupation Tax Act. For the State Fiscal Year 1989, this calculation shall be made by utilizing the calendar year 1987 to determine the tax amounts received. For the State Fiscal Year 1990, this calculation shall be made by utilizing the period from January 1, 1988, until September 30, 1988, to determine the tax amounts received from retailers and servicemen pursuant to the Municipal Retailers' Occupation Tax and the Municipal Service Occupation Tax Act, which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For the State Fiscal Year 1991, this calculation shall be made by utilizing the period from October 1, 1988, to June 30, 1989, to determine the tax amounts received from retailers and servicemen pursuant to the Municipal Retailers' Occupation Tax and the Municipal Service Occupation Tax Act which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For every State Fiscal Year thereafter, the applicable period shall be the 12 months beginning July 1 and ending June 30 to determine the tax amounts received which shall have deducted therefrom the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts, as the case may be.

(i) "Net State Sales Tax Increment" means the sum of the following:
(a) 80% of the first $100,000 of State Sales Tax Increment annually generated within a State Sales Tax Boundary; (b) 60% of the amount in excess of $100,000 but not exceeding $500,000 of State Sales Tax Increment annually generated within a State Sales Tax Boundary; and (c) 40% of all amounts in excess of $500,000 of State Sales Tax Increment annually generated within a State Sales Tax Boundary. If, however, a municipality established a tax increment financing district in a county with a population in excess of 3,000,000 before January 1, 1986, and the municipality entered into a contract or issued bonds after January 1, 1986, but before December 31, 1986, to finance redevelopment project costs within a State Sales Tax
Boundary, then the Net State Sales Tax Increment means, for the fiscal years beginning July 1, 1990, and July 1, 1991, 100% of the State Sales Tax Increment annually generated within a State Sales Tax Boundary; and notwithstanding any other provision of this Act, for those fiscal years the Department of Revenue shall distribute to those municipalities 100% of their Net State Sales Tax Increment before any distribution to any other municipality and regardless of whether or not those other municipalities will receive 100% of their Net State Sales Tax Increment. For Fiscal Year 1999, and every year thereafter until the year 2007, for any municipality that has not entered into a contract or has not issued bonds prior to June 1, 1988 to finance redevelopment project costs within a State Sales Tax Boundary, the Net State Sales Tax Increment shall be calculated as follows: By multiplying the Net State Sales Tax Increment by 90% in the State Fiscal Year 1999; 80% in the State Fiscal Year 2000; 70% in the State Fiscal Year 2001; 60% in the State Fiscal Year 2002; 50% in the State Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006; and 10% in the State Fiscal Year 2007. No payment shall be made for State Fiscal Year 2008 and thereafter.

Municipalities that issued bonds in connection with a redevelopment project in a redevelopment project area within the State Sales Tax Boundary prior to July 29, 1991, or that entered into contracts in connection with a redevelopment project in a redevelopment project area before June 1, 1988, shall continue to receive their proportional share of the Illinois Tax Increment Fund distribution until the date on which the redevelopment project is completed or terminated. If, however, a municipality that issued bonds in connection with a redevelopment project in a redevelopment project area within the State Sales Tax Boundary prior to July 29, 1991 retires the bonds prior to June 30, 2007 or a municipality that entered into contracts in connection with a redevelopment project in a redevelopment project area before June 1, 1988 completes the contracts prior to June 30, 2007, then so long as the redevelopment project is not completed or is not terminated, the Net State Sales Tax Increment shall be calculated, beginning on the date on which the bonds are retired or the contracts are completed, as follows: By multiplying the Net State Sales Tax Increment by 60% in the State Fiscal Year 2002; 50% in the State Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006; and 10% in the State Fiscal Year 2007. No payment shall be made for State Fiscal Year 2008 and thereafter. Refunding of any bonds issued prior to July 29, 1991, shall not alter the Net State Sales Tax Increment.

Public Act 94-0711

(j) "State Utility Tax Increment Amount" means an amount equal to the aggregate increase in State electric and gas tax charges imposed on owners and tenants, other than residential customers, of properties located within the redevelopment project area under Section 9-222 of the Public Utilities Act, over and above the aggregate of such charges as certified by the Department of Revenue and paid by owners and tenants, other than residential customers, of properties within the redevelopment project area during the base year, which shall be the calendar year immediately prior to the year of the adoption of the ordinance authorizing tax increment allocation financing.

(k) "Net State Utility Tax Increment" means the sum of the following:
(a) 80% of the first $100,000 of State Utility Tax Increment annually generated by a redevelopment project area; (b) 60% of the amount in excess of $100,000 but not exceeding $500,000 of the State Utility Tax Increment annually generated by a redevelopment project area; and (c) 40% of all amounts in excess of $500,000 of State Utility Tax Increment annually generated by a redevelopment project area. For the State Fiscal Year 1999, and every year thereafter until the year 2007, for any municipality that has not entered into a contract or has not issued bonds prior to June 1, 1988 to finance redevelopment project costs within a redevelopment project area, the Net State Utility Tax Increment shall be calculated as follows: By multiplying the Net State Utility Tax Increment by 90% in the State Fiscal Year 1999; 80% in the State Fiscal Year 2000; 70% in the State Fiscal Year 2001; 60% in the State Fiscal Year 2002; 50% in the State Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006; and 10% in the State Fiscal Year 2007. No payment shall be made for the State Fiscal Year 2008 and thereafter.

Municipalities that issue bonds in connection with the redevelopment project during the period from June 1, 1988 until 3 years after the effective date of this Amendatory Act of 1988 shall receive the Net State Utility Tax Increment, subject to appropriation, for 15 State Fiscal Years after the issuance of such bonds. For the 16th through the 20th State Fiscal Years after issuance of the bonds, the Net State Utility Tax Increment shall be calculated as follows: By multiplying the Net State Utility Tax Increment by 90% in year 16; 80% in year 17; 70% in year 18; 60% in year 19; and 50% in year 20. Refunding of any bonds issued prior to June 1, 1988, shall not alter the revised Net State Utility Tax Increment payments set forth above.

(l) "Obligations" mean bonds, loans, debentures, notes, special certificates or other evidence of indebtedness issued by the municipality to
carry out a redevelopment project or to refund outstanding obligations.

(m) "Payment in lieu of taxes" means those estimated tax revenues from real property in a redevelopment project area derived from real property that has been acquired by a municipality which according to the redevelopment project or plan is to be used for a private use which taxing districts would have received had a municipality not acquired the real property and adopted tax increment allocation financing and which would result from levies made after the time of the adoption of tax increment allocation financing to the time the current equalized value of real property in the redevelopment project area exceeds the total initial equalized value of real property in said area.

(n) "Redevelopment plan" means the comprehensive program of the municipality for development or redevelopment intended by the payment of redevelopment project costs to reduce or eliminate those conditions the existence of which qualified the redevelopment project area as a "blighted area" or "conservation area" or combination thereof or "industrial park conservation area," and thereby to enhance the tax bases of the taxing districts which extend into the redevelopment project area. On and after November 1, 1999 (the effective date of Public Act 91-478), no redevelopment plan may be approved or amended that includes the development of vacant land (i) with a golf course and related clubhouse and other facilities or (ii) designated by federal, State, county, or municipal government as public land for outdoor recreational activities or for nature preserves and used for that purpose within 5 years prior to the adoption of the redevelopment plan. For the purpose of this subsection, "recreational activities" is limited to mean camping and hunting. Each redevelopment plan shall set forth in writing the program to be undertaken to accomplish the objectives and shall include but not be limited to:

(A) an itemized list of estimated redevelopment project costs;
(B) evidence indicating that the redevelopment project area on the whole has not been subject to growth and development through investment by private enterprise;
(C) an assessment of any financial impact of the redevelopment project area on or any increased demand for services from any taxing district affected by the plan and any program to address such financial impact or increased demand;
(D) the sources of funds to pay costs;
(E) the nature and term of the obligations to be issued;
(F) the most recent equalized assessed valuation of the

redevelopment project area;

(G) an estimate as to the equalized assessed valuation after redevelopment and the general land uses to apply in the redevelopment project area;

(H) a commitment to fair employment practices and an affirmative action plan;

(I) if it concerns an industrial park conservation area, the plan shall also include a general description of any proposed developer, user and tenant of any property, a description of the type, structure and general character of the facilities to be developed, a description of the type, class and number of new employees to be employed in the operation of the facilities to be developed; and

(J) if property is to be annexed to the municipality, the plan shall include the terms of the annexation agreement.

The provisions of items (B) and (C) of this subsection (n) shall not apply to a municipality that before March 14, 1994 (the effective date of Public Act 88-537) had fixed, either by its corporate authorities or by a commission designated under subsection (k) of Section 11-74.4-4, a time and place for a public hearing as required by subsection (a) of Section 11-74.4-5. No redevelopment plan shall be adopted unless a municipality complies with all of the following requirements:

(1) The municipality finds that the redevelopment project area on the whole has not been subject to growth and development through investment by private enterprise and would not reasonably be anticipated to be developed without the adoption of the redevelopment plan.

(2) The municipality finds that the redevelopment plan and project conform to the comprehensive plan for the development of the municipality as a whole, or, for municipalities with a population of 100,000 or more, regardless of when the redevelopment plan and project was adopted, the redevelopment plan and project either: (i) conforms to the strategic economic development or redevelopment plan issued by the designated planning authority of the municipality, or (ii) includes land uses that have been approved by the planning commission of the municipality.

(3) The redevelopment plan establishes the estimated dates of completion of the redevelopment project and retirement of obligations issued to finance redevelopment project costs. Those dates shall not be later than December 31 of the year in which the
payment to the municipal treasurer as provided in subsection (b) of Section 11-74.4-8 of this Act is to be made with respect to ad valorem taxes levied in the twenty-third calendar year after the year in which the ordinance approving the redevelopment project area is adopted if the ordinance was adopted on or after January 15, 1981, and not later than December 31 of the year in which the payment to the municipal treasurer as provided in subsection (b) of Section 11-74.4-8 of this Act is to be made with respect to ad valorem taxes levied in the thirty-fifth calendar year after the year in which the ordinance approving the redevelopment project area is adopted:

(A) if the ordinance was adopted before January 15, 1981, or

(B) if the ordinance was adopted in December 1983, April 1984, July 1985, or December 1989, or

(C) if the ordinance was adopted in December 1987 and the redevelopment project is located within one mile of Midway Airport, or

(D) if the ordinance was adopted before January 1, 1987 by a municipality in Mason County, or

(E) if the municipality is subject to the Local Government Financial Planning and Supervision Act or the Financially Distressed City Law, or

(F) if the ordinance was adopted in December 1984 by the Village of Rosemont, or

(G) if the ordinance was adopted on December 31, 1986 by a municipality located in Clinton County for which at least $250,000 of tax increment bonds were authorized on June 17, 1997, or if the ordinance was adopted on December 31, 1986 by a municipality with a population in 1990 of less than 3,600 that is located in a county with a population in 1990 of less than 34,000 and for which at least $250,000 of tax increment bonds were authorized on June 17, 1997, or

(H) if the ordinance was adopted on October 5, 1982 by the City of Kankakee, or if the ordinance was adopted on December 29, 1986 by East St. Louis, or

However, for redevelopment project areas for which bonds were issued before July 29, 1991, or for which contracts were entered into before June 1, 1988, in connection with a redevelopment project in the area within the State Sales Tax Boundary, the estimated dates of completion of the redevelopment project and retirement of obligations to finance redevelopment project costs may be extended by municipal ordinance to December 31, 2013. The termination procedures of subsection (b) of Section 11-74.4-8 are not required for these redevelopment project areas in 2009 but are required in 2013. The extension allowed by this amendatory Act of 1993 shall not apply to real property tax increment allocation financing under Section 11-74.4-8.

A municipality may by municipal ordinance amend an existing redevelopment plan to conform to this paragraph (3) as amended by Public Act 91-478, which municipal ordinance may be adopted without further hearing or notice and without complying with the procedures provided in this Act pertaining to an amendment to or the initial approval of a redevelopment

plan and project and designation of a redevelopment project area.

Those dates, for purposes of real property tax increment allocation financing pursuant to Section 11-74.4-8 only, shall be not more than 35 years for redevelopment project areas that were adopted on or after December 16, 1986 and for which at least $8 million worth of municipal bonds were authorized on or after December 19, 1989 but before January 1, 1990; provided that the municipality elects to extend the life of the redevelopment project area to 35 years by the adoption of an ordinance after at least 14 but not more than 30 days' written notice to the taxing bodies, that would otherwise constitute the joint review board for the redevelopment project area, before the adoption of the ordinance.

Those dates, for purposes of real property tax increment allocation financing pursuant to Section 11-74.4-8 only, shall be not more than 35 years for redevelopment project areas that were established on or after December 1, 1981 but before January 1, 1982 and for which at least $1,500,000 worth of tax increment revenue bonds were authorized on or after September 30, 1990 but before July 1, 1991; provided that the municipality elects to extend the life of the redevelopment project area to 35 years by the adoption of an ordinance after at least 14 but not more than 30 days' written notice to the taxing bodies, that would otherwise constitute the joint review board for the redevelopment project area, before the adoption of the ordinance.

(3.5) The municipality finds, in the case of an industrial park conservation area, also that the municipality is a labor surplus municipality and that the implementation of the redevelopment plan will reduce unemployment, create new jobs and by the provision of new facilities enhance the tax base of the taxing districts that extend into the redevelopment project area.

(4) If any incremental revenues are being utilized under Section 8(a)(1) or 8(a)(2) of this Act in redevelopment project areas approved by ordinance after January 1, 1986, the municipality finds:
(a) that the redevelopment project area would not reasonably be developed without the use of such incremental revenues, and
(b) that such incremental revenues will be exclusively utilized for the development of the redevelopment project area.

(5) If the redevelopment plan will not result in displacement of residents from 10 or more inhabited residential units, and the municipality certifies in the plan that such displacement will not result from the plan, a housing impact study need not be performed. If, however, the redevelopment plan would result in the displacement

of residents from 10 or more inhabited residential units, or if the redevelopment project area contains 75 or more inhabited residential units and no certification is made, then the municipality shall prepare, as part of the separate feasibility report required by subsection (a) of Section 11-74.4-5, a housing impact study.

Part I of the housing impact study shall include (i) data as to whether the residential units are single family or multi-family units, (ii) the number and type of rooms within the units, if that information is available, (iii) whether the units are inhabited or uninhabited, as determined not less than 45 days before the date that the ordinance or resolution required by subsection (a) of Section 11-74.4-5 is passed, and (iv) data as to the racial and ethnic composition of the residents in the inhabited residential units. The data requirement as to the racial and ethnic composition of the residents in the inhabited residential units shall be deemed to be fully satisfied by data from the most recent federal census.

Part II of the housing impact study shall identify the inhabited residential units in the proposed redevelopment project area that are to be or may be removed. If inhabited residential units are to be removed, then the housing impact study shall identify (i) the number and location of those units that will or may be removed, (ii) the municipality's plans for relocation assistance for those residents in the proposed redevelopment project area whose residences are to be removed, (iii) the availability of replacement housing for those residents whose residences are to be removed, and shall identify the type, location, and cost of the housing, and (iv) the type and extent of relocation assistance to be provided.

(6) On and after November 1, 1999, the housing impact study required by paragraph (5) shall be incorporated in the redevelopment plan for the redevelopment project area.

(7) On and after November 1, 1999, no redevelopment plan shall be adopted, nor an existing plan amended, nor shall residential housing that is occupied by households of low-income and very low-income persons in currently existing redevelopment project areas be removed after November 1, 1999 unless the redevelopment plan provides, with respect to inhabited housing units that are to be removed for households of low-income and very low-income persons, affordable housing and relocation assistance not less than that which would be provided under the federal Uniform Relocation Assistance

and Real Property Acquisition Policies Act of 1970 and the regulations under that Act, including the eligibility criteria. Affordable housing may be either existing or newly constructed housing. For purposes of this paragraph (7), "low-income households", "very low-income households", and "affordable housing" have the meanings set forth in the Illinois Affordable Housing Act. The municipality shall make a good faith effort to ensure that this affordable housing is located in or near the redevelopment project area within the municipality.

(8) On and after November 1, 1999, if, after the adoption of the redevelopment plan for the redevelopment project area, any municipality desires to amend its redevelopment plan to remove more inhabited residential units than specified in its original redevelopment plan, that change shall be made in accordance with the procedures in subsection (c) of Section 11-74.4-5.

(9) For redevelopment project areas designated prior to November 1, 1999, the redevelopment plan may be amended without further joint review board meeting or hearing, provided that the municipality shall give notice of any such changes by mail to each affected taxing district and registrant on the interested party registry, to authorize the municipality to expend tax increment revenues for redevelopment project costs defined by paragraphs (5) and (7.5), subparagraphs (E) and (F) of paragraph (11), and paragraph (11.5) of subsection (q) of Section 11-74.4-3, so long as the changes do not increase the total estimated redevelopment project costs set out in the redevelopment plan by more than 5% after adjustment for inflation from the date the plan was adopted.

(o) "Redevelopment project" means any public and private development project in furtherance of the objectives of a redevelopment plan. On and after November 1, 1999 (the effective date of Public Act 91-478), no redevelopment plan may be approved or amended that includes the development of vacant land (i) with a golf course and related clubhouse and other facilities or (ii) designated by federal, State, county, or municipal government as public land for outdoor recreational activities or for nature preserves and used for that purpose within 5 years prior to the adoption of the redevelopment plan. For the purpose of this subsection, "recreational activities" is limited to mean camping and hunting.

(p) "Redevelopment project area" means an area designated by the municipality, which is not less in the aggregate than 1 1/2 acres and in respect

to which the municipality has made a finding that there exist conditions which cause the area to be classified as an industrial park conservation area or a blighted area or a conservation area, or a combination of both blighted areas and conservation areas.

(q) "Redevelopment project costs" mean and include the sum total of all reasonable or necessary costs incurred or estimated to be incurred, and any such costs incidental to a redevelopment plan and a redevelopment project. Such costs include, without limitation, the following:

(1) Costs of studies, surveys, development of plans, and specifications, implementation and administration of the redevelopment plan including but not limited to staff and professional service costs for architectural, engineering, legal, financial, planning or other services, provided however that no charges for professional services may be based on a percentage of the tax increment collected; except that on and after November 1, 1999 (the effective date of Public Act 91-478), no contracts for professional services, excluding architectural and engineering services, may be entered into if the terms of the contract extend beyond a period of 3 years. In addition, "redevelopment project costs" shall not include lobbying expenses. After consultation with the municipality, each tax increment consultant or advisor to a municipality that plans to designate or has designated a redevelopment project area shall inform the municipality in writing of any contracts that the consultant or advisor has entered into with entities or individuals that have received, or are receiving, payments financed by tax increment revenues produced by the redevelopment project area with respect to which the consultant or advisor has performed, or will be performing, service for the municipality. This requirement shall be satisfied by the consultant or advisor before the commencement of services for the municipality and thereafter whenever any other contracts with those individuals or entities are executed by the consultant or advisor;

(1.5) After July 1, 1999, annual administrative costs shall not include general overhead or administrative costs of the municipality that would still have been incurred by the municipality if the municipality had not designated a redevelopment project area or approved a redevelopment plan;

(1.6) The cost of marketing sites within the redevelopment project area to prospective businesses, developers, and investors;

(2) Property assembly costs, including but not limited to

acquisition of land and other property, real or personal, or rights or interests therein, demolition of buildings, site preparation, site improvements that serve as an engineered barrier addressing ground level or below ground environmental contamination, including, but not limited to parking lots and other concrete or asphalt barriers, and the clearing and grading of land;

(3) Costs of rehabilitation, reconstruction or repair or remodeling of existing public or private buildings, fixtures, and leasehold improvements; and the cost of replacing an existing public building if pursuant to the implementation of a redevelopment project the existing public building is to be demolished to use the site for private investment or devoted to a different use requiring private investment;

(4) Costs of the construction of public works or improvements, except that on and after November 1, 1999, redevelopment project costs shall not include the cost of constructing a new municipal public building principally used to provide offices, storage space, or conference facilities or vehicle storage, maintenance, or repair for administrative, public safety, or public works personnel and that is not intended to replace an existing public building as provided under paragraph (3) of subsection (q) of Section 11-74.4-3 unless either (i) the construction of the new municipal building implements a redevelopment project that was included in a redevelopment plan that was adopted by the municipality prior to November 1, 1999 or (ii) the municipality makes a reasonable determination in the redevelopment plan, supported by information that provides the basis for that determination, that the new municipal building is required to meet an increase in the need for public safety purposes anticipated to result from the implementation of the redevelopment plan;

(5) Costs of job training and retraining projects, including the cost of "welfare to work" programs implemented by businesses located within the redevelopment project area;

(6) Financing costs, including but not limited to all necessary and incidental expenses related to the issuance of obligations and which may include payment of interest on any obligations issued hereunder including interest accruing during the estimated period of construction of any redevelopment project for which such obligations are issued and for not exceeding 36 months thereafter and including

reasonable reserves related thereto;

(7) To the extent the municipality by written agreement accepts and approves the same, all or a portion of a taxing district's capital costs resulting from the redevelopment project necessarily incurred or to be incurred within a taxing district in furtherance of the objectives of the redevelopment plan and project.

(7.5) For redevelopment project areas designated (or redevelopment project areas amended to add or increase the number of tax-increment-financing assisted housing units) on or after November 1, 1999, an elementary, secondary, or unit school district's increased costs attributable to assisted housing units located within the redevelopment project area for which the developer or redeveloper receives financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the assisted housing sites necessary for the completion of that housing as authorized by this Act, and which costs shall be paid by the municipality from the Special Tax Allocation Fund when the tax increment revenue is received as a result of the assisted housing units and shall be calculated annually as follows:

(A) for foundation districts, excluding any school district in a municipality with a population in excess of 1,000,000, by multiplying the district's increase in attendance resulting from the net increase in new students enrolled in that school district who reside in housing units within the redevelopment project area that have received financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by the most recently available per capita tuition cost as defined in Section 10-20.12a of the School Code less any increase in general State aid as defined in Section 18-8.05 of the School Code attributable to these added new students subject to the following annual limitations:

(i) for unit school districts with a district average 1995-96 Per Capita Tuition Charge of less
than $5,900, no more than 25% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act;

(ii) for elementary school districts with a district average 1995-96 Per Capita Tuition Charge of less than $5,900, no more than 17% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act; and

(iii) for secondary school districts with a district average 1995-96 Per Capita Tuition Charge of less than $5,900, no more than 8% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act.

(B) For alternate method districts, flat grant districts, and foundation districts with a district average 1995-96 Per Capita Tuition Charge equal to or more than $5,900, excluding any school district with a population in excess of 1,000,000, by multiplying the district's increase in attendance resulting from the net increase in new students enrolled in that school district who reside in housing units within the redevelopment project area that have received financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by the most recently available per capita tuition cost as defined in Section 10-20.12a of the School Code less any increase in general state aid as defined in Section 18-8.05 of the School Code attributable to these added new students subject to the following annual limitations:

(i) for unit school districts, no more than 40% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act;
(ii) for elementary school districts, no more than 27% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act; and
(iii) for secondary school districts, no more than 13% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act.

(C) For any school district in a municipality with a population in excess of 1,000,000, the following restrictions shall apply to the reimbursement of increased costs under this paragraph (7.5):

(i) no increased costs shall be reimbursed unless the school district certifies that each of the schools affected by the assisted housing project is at or over its student capacity;
(ii) the amount reimbursable shall be reduced by the value of any land donated to the school district by the municipality or developer, and by the value of any physical improvements made to the schools by the municipality or developer; and
(iii) the amount reimbursed may not affect amounts otherwise obligated by the terms of any bonds, notes, or other funding instruments, or the terms of any redevelopment agreement.

Any school district seeking payment under this paragraph (7.5) shall, after July 1 and before September 30 of each year, provide the municipality with reasonable evidence to support its claim for reimbursement before the municipality shall be required to approve or make the payment to the school district. If the school district fails to provide the information during this period in any year, it shall forfeit any claim to reimbursement for that year. School districts may adopt a resolution waiving the right to all or a portion of the reimbursement otherwise required by this paragraph (7.5). By acceptance of this reimbursement the school district waives the right to directly or indirectly set aside, modify, or contest

in any manner the establishment of the redevelopment project area or projects;

(7.7) For redevelopment project areas designated (or redevelopment project areas amended to add or increase the number of tax-increment-financing assisted housing units) on or after January 1, 2005 (the effective date of Public Act 93-961) this amendatory Act of the 93rd General Assembly, a public library district's increased costs attributable to assisted housing units located within the redevelopment project area for which the developer or redeveloper receives financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the assisted housing sites necessary for the completion of that housing as authorized by this Act shall be paid to the library district by the municipality from the Special Tax Allocation Fund when the tax increment revenue is received as a result of the assisted housing units. This paragraph (7.7) applies only if (i) the library district is located in a county that is subject to the Property Tax Extension Limitation Law or (ii) the library district is not located in a county that is subject to the Property Tax Extension Limitation Law but the district is prohibited by any other law from increasing its tax levy rate without a prior voter referendum.

The amount paid to a library district under this paragraph (7.7) shall be calculated by multiplying (i) the net increase in the number of persons eligible to obtain a library card in that district who reside in housing units within the redevelopment project area that have received financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by (ii) the per-patron cost of providing library services so long as it does not exceed $120. The per-patron cost shall be the Total Operating Expenditures Per Capita as stated in the most recent Illinois Public Library Statistics produced by the Library Research Center at the University of Illinois. The municipality may deduct from the amount that it must pay to a library district under this paragraph any amount that it has voluntarily paid to the library district from the tax increment revenue. The amount paid to a library district under this paragraph (7.7) shall be calculated by multiplying (i) the net increase in the number of persons eligible to obtain a library card in that district who reside in housing units within the redevelopment project area that have received financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by (ii) the per-patron cost of providing library services so long as it does not exceed $120. The per-patron cost shall be the Total Operating Expenditures Per Capita as stated in the most recent Illinois Public Library Statistics produced by the Library Research Center at the University of Illinois. The municipality may deduct from the amount that it must pay to a library district under this paragraph any amount that it has voluntarily paid to the library district from the tax increment revenue. The amount paid to a library district under this paragraph (7.7) shall be calculated by multiplying (i) the net increase in the number of persons eligible to obtain a library card in that district who reside in housing units within the redevelopment project area that have received financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by (ii) the per-patron cost of providing library services so long as it does not exceed $120. The per-patron cost shall be the Total Operating Expenditures Per Capita as stated in the most recent Illinois Public Library Statistics produced by the Library Research Center at the University of Illinois. The municipality may deduct from the amount that it must pay to a library district under this paragraph any amount that it has voluntarily paid to the library district from the tax increment revenue. The per-patron cost shall be the Total Operating Expenditures Per Capita as stated in the most recent Illinois Public Library Statistics produced by the Library Research Center at the University of Illinois. The municipality may deduct from the amount that it must pay to a library district under this paragraph any amount that it has voluntarily paid to the library district from the tax increment revenue. The amount paid to a library district under this
paragraph (7.7) shall be no more than 2% of the amount produced by the assisted housing units and deposited into the Special Tax Allocation Fund.

A library district is not eligible for any payment under this paragraph (7.7) unless the library district has experienced an increase in the number of patrons from the municipality that created the tax-increment-financing district since the designation of the redevelopment project area.

Any library district seeking payment under this paragraph (7.7) shall, after July 1 and before September 30 of each year, provide the municipality with convincing evidence to support its claim for reimbursement before the municipality shall be required to approve or make the payment to the library district. If the library district fails to provide the information during this period in any year, it shall forfeit any claim to reimbursement for that year. Library districts may adopt a resolution waiving the right to all or a portion of the reimbursement otherwise required by this paragraph (7.7). By acceptance of such reimbursement, the library district shall forfeit any right to directly or indirectly set aside, modify, or contest in any manner whatsoever the establishment of the redevelopment project area or projects;

(8) Relocation costs to the extent that a municipality determines that relocation costs shall be paid or is required to make payment of relocation costs by federal or State law or in order to satisfy subparagraph (7) of subsection (n);

(9) Payment in lieu of taxes;

(10) Costs of job training, retraining, advanced vocational education or career education, including but not limited to courses in occupational, semi-technical or technical fields leading directly to employment, incurred by one or more taxing districts, provided that such costs (i) are related to the establishment and maintenance of additional job training, advanced vocational education or career education programs for persons employed or to be employed by employers located in a redevelopment project area; and (ii) when incurred by a taxing district or taxing districts other than the municipality, are set forth in a written agreement by or among the municipality and the taxing district or taxing districts, which agreement describes the program to be undertaken, including but not limited to the number of employees to be trained, a description of the

training and services to be provided, the number and type of positions available or to be available, itemized costs of the program and sources of funds to pay for the same, and the term of the agreement. Such costs include, specifically, the payment by community college districts of costs pursuant to Sections 3-37, 3-38, 3-40 and 3-40.1 of the Public Community College Act and by school districts of costs pursuant to Sections 10-22.20a and 10-23.3a of The School Code;

(11) Interest cost incurred by a redeveloper related to the construction, renovation or rehabilitation of a redevelopment project provided that:

(A) such costs are to be paid directly from the special tax allocation fund established pursuant to this Act;

(B) such payments in any one year may not exceed 30% of the annual interest costs incurred by the redeveloper with regard to the redevelopment project during that year;

(C) if there are not sufficient funds available in the special tax allocation fund to make the payment pursuant to this paragraph (11) then the amounts so due shall accrue and be payable when sufficient funds are available in the special tax allocation fund;

(D) the total of such interest payments paid pursuant to this Act may not exceed 30% of the total (i) cost paid or incurred by the redeveloper for the redevelopment project plus (ii) redevelopment project costs excluding any property assembly costs and any relocation costs incurred by a municipality pursuant to this Act; and

(E) the cost limits set forth in subparagraphs (B) and (D) of paragraph (11) shall be modified for the financing of rehabilitated or new housing units for low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act. The percentage of 75% shall be substituted for 30% in subparagraphs (B) and (D) of paragraph (11).

(F) Instead of the eligible costs provided by subparagraphs (B) and (D) of paragraph (11), as modified by this subparagraph, and notwithstanding any other provisions of this Act to the contrary, the municipality may pay from tax increment revenues up to 50% of the cost of construction of new housing units to be occupied by low-income households.
and very low-income households as defined in Section 3 of the Illinois Affordable Housing Act. The cost of construction of those units may be derived from the proceeds of bonds issued by the municipality under this Act or other constitutional or statutory authority or from other sources of municipal revenue that may be reimbursed from tax increment revenues or the proceeds of bonds issued to finance the construction of that housing.

The eligible costs provided under this subparagraph (F) of paragraph (11) shall be an eligible cost for the construction, renovation, and rehabilitation of all low and very low-income housing units, as defined in Section 3 of the Illinois Affordable Housing Act, within the redevelopment project area. If the low and very low-income units are part of a residential redevelopment project that includes units not affordable to low and very low-income households, only the low and very low-income units shall be eligible for benefits under subparagraph (F) of paragraph (11). The standards for maintaining the occupancy by low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act, of those units constructed with eligible costs made available under the provisions of this subparagraph (F) of paragraph (11) shall be established by guidelines adopted by the municipality. The responsibility for annually documenting the initial occupancy of the units by low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act, shall be that of the then current owner of the property. For ownership units, the guidelines will provide, at a minimum, for a reasonable recapture of funds, or other appropriate methods designed to preserve the original affordability of the ownership units. For rental units, the guidelines will provide, at a minimum, for the affordability of rent to low and very low-income households. As units become available, they shall be rented to income-eligible tenants. The municipality may modify these guidelines from time to time; the guidelines, however, shall be in effect for as long as tax increment revenue is being used to pay for costs associated with the units or for the retirement of bonds issued to finance the units.
or for the life of the redevelopment project area, whichever is later.

(11.5) If the redevelopment project area is located within a municipality with a population of more than 100,000, the cost of day care services for children of employees from low-income families working for businesses located within the redevelopment project area and all or a portion of the cost of operation of day care centers established by redevelopment project area businesses to serve employees from low-income families working in businesses located in the redevelopment project area. For the purposes of this paragraph, "low-income families" means families whose annual income does not exceed 80% of the municipal, county, or regional median income, adjusted for family size, as the annual income and municipal, county, or regional median income are determined from time to time by the United States Department of Housing and Urban Development.

(12) Unless explicitly stated herein the cost of construction of new privately-owned buildings shall not be an eligible redevelopment project cost.

(13) After November 1, 1999 (the effective date of Public Act 91-478), none of the redevelopment project costs enumerated in this subsection shall be eligible redevelopment project costs if those costs would provide direct financial support to a retail entity initiating operations in the redevelopment project area while terminating operations at another Illinois location within 10 miles of the redevelopment project area but outside the boundaries of the redevelopment project area municipality. For purposes of this paragraph, termination means a closing of a retail operation that is directly related to the opening of the same operation or like retail entity owned or operated by more than 50% of the original ownership in a redevelopment project area, but it does not mean closing an operation for reasons beyond the control of the retail entity, as documented by the retail entity, subject to a reasonable finding by the municipality that the current location contained inadequate space, had become economically obsolete, or was no longer a viable location for the retailer or serviceman.

If a special service area has been established pursuant to the Special Service Area Tax Act or Special Service Area Tax Law, then any tax increment revenues derived from the tax imposed pursuant to the Special Service Area Tax Act or Special Service Area Tax Law may be used within

the redevelopment project area for the purposes permitted by that Act or Law as well as the purposes permitted by this Act.

(r) "State Sales Tax Boundary" means the redevelopment project area or the amended redevelopment project area boundaries which are determined pursuant to subsection (9) of Section 11-74.4-8a of this Act. The Department of Revenue shall certify pursuant to subsection (9) of Section 11-74.4-8a the appropriate boundaries eligible for the determination of State Sales Tax Increment.

(s) "State Sales Tax Increment" means an amount equal to the increase in the aggregate amount of taxes paid by retailers and servicemen, other than retailers and servicemen subject to the Public Utilities Act, on transactions at places of business located within a State Sales Tax Boundary pursuant to the Retailers' Occupation Tax Act, the Use Tax Act, the Service Use Tax Act, and the Service Occupation Tax Act, except such portion of such increase that is paid into the State and Local Sales Tax Reform Fund, the Local Government Distributive Fund, the Local Government Tax Fund and the County and Mass Transit District Fund, for as long as State participation exists, over and above the Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts for such taxes as certified by the Department of Revenue and paid under those Acts by retailers and servicemen on transactions at places of business located within the State Sales Tax Boundary during the base year which shall be the calendar year immediately prior to the year in which the municipality adopted tax increment allocation financing, less 3.0% of such amounts generated under the Retailers' Occupation Tax Act, Use Tax Act and Service Use Tax Act and the Service Occupation Tax Act, which sum shall be appropriated to the Department of Revenue to cover its costs of administering and enforcing this Section. For purposes of computing the aggregate amount of such taxes for base years occurring prior to 1985, the Department of Revenue shall compute the Initial Sales Tax Amount for such taxes and deduct therefrom an amount equal to 4% of the aggregate amount of taxes per year for each year the base year is prior to 1985, but not to exceed a total deduction of 12%. The amount so determined shall be known as the "Adjusted Initial Sales Tax Amount". For purposes of determining the State Sales Tax Increment the Department of Revenue shall for each period subtract from the tax amounts received from retailers and servicemen on transactions located in the State Sales Tax Boundary, the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or Revised Initial Sales Tax Amounts for the Retailers' Occupation Tax Act, the Use Tax Act, the Service Use Tax Act and the
Service Occupation Tax Act. For the State Fiscal Year 1989 this calculation shall be made by utilizing the calendar year 1987 to determine the tax amounts received. For the State Fiscal Year 1990, this calculation shall be made by utilizing the period from January 1, 1988, until September 30, 1988, to determine the tax amounts received from retailers and servicemen, which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For the State Fiscal Year 1991, this calculation shall be made by utilizing the period from October 1, 1988, until June 30, 1989, to determine the tax amounts received from retailers and servicemen, which shall have deducted therefrom nine-twelfths of the certified Initial State Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For every State Fiscal Year thereafter, the applicable period shall be the 12 months beginning July 1 and ending on June 30, to determine the tax amounts received which shall have deducted therefrom the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts. Municipalities intending to receive a distribution of State Sales Tax Increment must report a list of retailers to the Department of Revenue by October 31, 1988 and by July 31, of each year thereafter.

(t) "Taxing districts" means counties, townships, cities and incorporated towns and villages, school, road, park, sanitary, mosquito abatement, forest preserve, public health, fire protection, river conservancy, tuberculosis sanitarium and any other municipal corporations or districts with the power to levy taxes.

(u) "Taxing districts' capital costs" means those costs of taxing districts for capital improvements that are found by the municipal corporate authorities to be necessary and directly result from the redevelopment project.

(v) As used in subsection (a) of Section 11-74.4-3 of this Act, "vacant land" means any parcel or combination of parcels of real property without industrial, commercial, and residential buildings which has not been used for commercial agricultural purposes within 5 years prior to the designation of the redevelopment project area, unless the parcel is included in an industrial park conservation area or the parcel has been subdivided; provided that if the parcel was part of a larger tract that has been divided into 3 or more smaller tracts that were accepted for recording during the period from 1950 to 1990, then the parcel shall be deemed to have been subdivided, and all proceedings and actions of the municipality taken in that connection with respect to any previously approved or designated redevelopment project area or amended

redevelopment project area are hereby validated and hereby declared to be legally sufficient for all purposes of this Act. For purposes of this Section and only for land subject to the subdivision requirements of the Plat Act, land is subdivided when the original plat of the proposed Redevelopment Project Area or relevant portion thereof has been properly certified, acknowledged, approved, and recorded or filed in accordance with the Plat Act and a preliminary plat, if any, for any subsequent phases of the proposed Redevelopment Project Area or relevant portion thereof has been properly approved and filed in accordance with the applicable ordinance of the municipality.

(w) "Annual Total Increment" means the sum of each municipality's annual Net Sales Tax Increment and each municipality's annual Net Utility Tax Increment. The ratio of the Annual Total Increment of each municipality to the Annual Total Increment for all municipalities, as most recently calculated by the Department, shall determine the proportional shares of the Illinois Tax Increment Fund to be distributed to each municipality.

Sec. 11-74.4-7. Obligations secured by the special tax allocation fund set forth in Section 11-74.4-8 for the redevelopment project area may be issued to provide for redevelopment project costs. Such obligations, when so issued, shall be retired in the manner provided in the ordinance authorizing the issuance of such obligations by the receipts of taxes levied as specified in Section 11-74.4-9 against the taxable property included in the area, by revenues as specified by Section 11-74.4-8a and other revenue designated by the municipality. A municipality may in the ordinance pledge all or any part of the funds in and to be deposited in the special tax allocation fund created pursuant to Section 11-74.4-8 to the payment of the redevelopment project costs and obligations. Any pledge of funds in the special tax allocation fund shall provide for distribution to the taxing districts and to the Illinois Department of Revenue of moneys not required, pledged, earmarked, or otherwise designated for payment and securing of the obligations and anticipated redevelopment project costs and such excess funds shall be calculated annually and deemed to be "surplus" funds. In the event a

municipality only applies or pledges a portion of the funds in the special tax allocation fund for the payment or securing of anticipated redevelopment project costs or of obligations, any such funds remaining in the special tax allocation fund after complying with the requirements of the application or pledge, shall also be calculated annually and deemed "surplus" funds. All surplus funds in the special tax allocation fund shall be distributed annually within 180 days after the close of the municipality's fiscal year by being paid by the municipal treasurer to the County Collector, to the Department of Revenue and to the municipality in direct proportion to the tax incremental revenue received as a result of an increase in the equalized assessed value of property in the redevelopment project area, tax incremental revenue received from the State and tax incremental revenue received from the municipality, but not to exceed as to each such source the total incremental revenue received from that source. The County Collector shall thereafter make distribution to the respective taxing districts in the same manner and proportion as the most recent distribution by the county collector to the affected districts of real property taxes from real property in the redevelopment project area.

Without limiting the foregoing in this Section, the municipality may in addition to obligations secured by the special tax allocation fund pledge for a period not greater than the term of the obligations towards payment of such obligations any part or any combination of the following: (a) net revenues of all or part of any redevelopment project; (b) taxes levied and collected on any or all property in the municipality; (c) the full faith and credit of the municipality; (d) a mortgage on part or all of the redevelopment project; or (e) any other taxes or anticipated receipts that the municipality may lawfully pledge.

Such obligations may be issued in one or more series bearing interest at such rate or rates as the corporate authorities of the municipality shall determine by ordinance. Such obligations shall bear such date or dates, mature at such time or times not exceeding 20 years from their respective dates, be in such denomination, carry such registration privileges, be executed in such manner, be payable in such medium of payment at such place or places, contain such covenants, terms and conditions, and be subject to redemption as such ordinance shall provide. Obligations issued pursuant to this Act may be sold at public or private sale at such price as shall be determined by the corporate authorities of the municipalities. No referendum approval of the electors shall be required as a condition to the issuance of obligations pursuant to this Division except as provided in this Section.

New matter indicated by italics - deletions by strikeout
In the event the municipality authorizes issuance of obligations pursuant to the authority of this Division secured by the full faith and credit of the municipality, which obligations are other than obligations which may be issued under home rule powers provided by Article VII, Section 6 of the Illinois Constitution, or pledges taxes pursuant to (b) or (c) of the second paragraph of this section, the ordinance authorizing the issuance of such obligations or pledging such taxes shall be published within 10 days after such ordinance has been passed in one or more newspapers, with general circulation within such municipality. The publication of the ordinance shall be accompanied by a notice of (1) the specific number of voters required to sign a petition requesting the question of the issuance of such obligations or pledging taxes to be submitted to the electors; (2) the time in which such petition must be filed; and (3) the date of the prospective referendum. The municipal clerk shall provide a petition form to any individual requesting one.

If no petition is filed with the municipal clerk, as hereinafter provided in this Section, within 30 days after the publication of the ordinance, the ordinance shall be in effect. But, if within that 30 day period a petition is filed with the municipal clerk, signed by electors in the municipality numbering 10% or more of the number of registered voters in the municipality, asking that the question of issuing obligations using full faith and credit of the municipality as security for the cost of paying for redevelopment project costs, or of pledging taxes for the payment of such obligations, or both, be submitted to the electors of the municipality, the corporate authorities of the municipality shall call a special election in the manner provided by law to vote upon that question, or, if a general, State or municipal election is to be held within a period of not less than 30 or more than 90 days from the date such petition is filed, shall submit the question at the next general, State or municipal election. If it appears upon the canvass of the election by the corporate authorities that a majority of electors voting upon the question voted in favor thereof, the ordinance shall be in effect, but if a majority of the electors voting upon the question are not in favor thereof, the ordinance shall not take effect.

The ordinance authorizing the obligations may provide that the obligations shall contain a recital that they are issued pursuant to this Division, which recital shall be conclusive evidence of their validity and of the regularity of their issuance.

In the event the municipality authorizes issuance of obligations pursuant to this Section secured by the full faith and credit of the

municipality, the ordinance authorizing the obligations may provide for the levy and collection of a direct annual tax upon all taxable property within the municipality sufficient to pay the principal thereof and interest thereon as it matures, which levy may be in addition to and exclusive of the maximum of all other taxes authorized to be levied by the municipality, which levy, however, shall be abated to the extent that monies from other sources are available for payment of the obligations and the municipality certifies the amount of said monies available to the county clerk.

A certified copy of such ordinance shall be filed with the county clerk of each county in which any portion of the municipality is situated, and shall constitute the authority for the extension and collection of the taxes to be deposited in the special tax allocation fund.

A municipality may also issue its obligations to refund in whole or in part, obligations theretofore issued by such municipality under the authority of this Act, whether at or prior to maturity, provided however, that the last maturity of the refunding obligations shall not be expressed to mature later than December 31 of the year in which the payment to the municipal treasurer as provided in subsection (b) of Section 11-74.4-8 of this Act is to be made with respect to ad valorem taxes levied in the twenty-third calendar year after the year in which the ordinance approving the redevelopment project area is adopted if the ordinance was adopted on or after January 15, 1981, and not later than December 31 of the year in which the payment to the municipal treasurer as provided in subsection (b) of Section 11-74.4-8 of this Act is to be made with respect to ad valorem taxes levied in the thirty-fifth calendar year after the year in which the ordinance approving the redevelopment project area is adopted (A) if the ordinance was adopted before January 15, 1981, or (B) if the ordinance was adopted in December 1983, April 1984, July 1985, or December 1989, or (C) if the ordinance was adopted in December, 1987 and the redevelopment project is located within one mile of Midway Airport, or (D) if the ordinance was adopted before January 1, 1987 by a municipality in Mason County, or (E) if the municipality is subject to the Local Government Financial Planning and Supervision Act or the Financially Distressed City Law, or (F) if the ordinance was adopted in December 1984 by the Village of Rosemont, or (G) if the ordinance was adopted on December 31, 1986 by a municipality located in Clinton County for which at least $250,000 of tax increment bonds were authorized on June 17, 1997, or if the ordinance was adopted on December 31, 1986 by a municipality with a population in 1990 of less than 3,600 that is located in a county with a population in 1990 of less than 34,000 and for which at least $250,000 of tax...

Sec. 7-156. Surviving spouse annuities - amount.

(a) The amount of surviving spouse annuity shall be:

1. Upon the death of an employee annuitant or such person entitled, upon application, to a retirement annuity at date of death, (i) an amount equal to 1/2 of the retirement annuity which was or would have been payable exclusive of the amount so payable which was provided from additional credits, and disregarding any election made under paragraph (b) of Section 7-142, plus (ii) an annuity which could be provided at the then attained age of the surviving spouse and under actuarial tables then in effect, from the excess of the additional credits, (excluding any such credits used to create a reversionary annuity) used to provide the annuity granted pursuant to paragraph (a) (2) of Section 7-142 of this article over the total annuity payments made pursuant thereto.

2. Upon the death of a participating employee on or after attainment of age 55, an amount equal to 1/2 of the retirement annuity which he could have had as of the date of death had he then retired and applied for annuity, exclusive of the portion thereof which could have been provided from additional credits, and disregarding paragraph (b) of Section 7-142, plus an amount equal to the annuity which could be provided from the total of his accumulated additional credits at date of death, on the basis of the attained age of the surviving spouse on such date.

amount equal to 1/2 of the retirement annuity which he could have had as of
his attained age on the date of death, had he then retired and applied for

until the employee has attained at least age 55 were not applicable, exclusive
of the portion thereof which could have been provided from additional credits
and disregarding paragraph (b) of Section 7-142, plus an amount equal to the
annuity which could be provided from the total of his accumulated additional
credits at date of death, on the basis of the attained age of the surviving
spouse on such date.

In the case of the surviving spouse of a person who dies before the
effective date of this amendatory Act of the 94th General Assembly, if the a
 surviving spouse is more than 5 years younger than the deceased, that portion
of the annuity which is not based on additional credits shall be reduced in the
ratio of the value of a life annuity of $1 per year at an age of 5 years less than
the attained age of the deceased, at the earlier of the date of the death or the
date his retirement annuity begins, to the value of a life annuity of $1 per year
at the attained age of the surviving spouse on such date, according to actuarial
tables approved by the Board. This reduction does not apply to the surviving

increases of retirement annuities to the date of death of the employee
annuitant shall be considered.

since the date the annuity began.

On each January 1 after the date of the initial increase under this
subsection, each surviving spouse annuity shall be increased by 3% of the
originally granted amount of the annuity.

(b) A separate municipality contribution rate shall be determined for each calendar year for all participating municipalities together with all instrumentalities thereof. The municipality contribution rate shall be
determined for participating instrumentalities as if they were participating municipalities. The municipality contribution rate shall be the sum of the following percentages:

1. The percentage of earnings of all the participating employees of all participating municipalities and participating instrumentalities which, if paid over the entire period of their service, will be sufficient when combined with all employee contributions available for the payment of benefits, to provide all annuities for participating employees, and the $3,000 death benefit payable under Sections 7-158 and 7-164, such percentage to be known as the normal cost rate.

2. The percentage of earnings of the participating employees of each participating municipality and participating instrumentalities necessary to adjust for the difference between the present value of all benefits, excluding temporary and total and permanent disability and death benefits, to be provided for its participating employees and the sum of its accumulated municipality contributions and the accumulated employee contributions and the present value of expected future employee and municipality contributions pursuant to subparagraph 1 of this paragraph (b). This adjustment shall be spread over the remainder of the period that is allowable under generally accepted accounting principles.

3. The percentage of earnings of the participating employees of all municipalities and participating instrumentalities necessary to provide the present value of all temporary and total and permanent disability benefits granted during the most recent year for which information is available.

4. The percentage of earnings of the participating employees of all participating municipalities and participating instrumentalities necessary to provide the present value of the net single sum death benefits expected to become payable from the reserve established under Section 7-206 during the year for which this rate is fixed.

5. The percentage of earnings necessary to meet any deficiency arising in the Terminated Municipality Reserve.

(c) A separate municipality contribution rate shall be computed for each participating municipality or participating instrumentality for its sheriff's law enforcement employees.

A separate municipality contribution rate shall be computed for the sheriff's law enforcement employees of each forest preserve district that elects

to have such employees. For the period from January 1, 1986 to December 31, 1986, such rate shall be the forest preserve district's regular rate plus 2%.

In the event that the Board determines that there is an actuarial deficiency in the account of any municipality with respect to a person who has elected to participate in the Fund under Section 3-109.1 of this Code, the Board may adjust the municipality's contribution rate so as to make up that deficiency over such reasonable period of time as the Board may determine.

(d) The Board may establish a separate municipality contribution rate for all employees who are program participants employed under the federal Comprehensive Employment Training Act by all of the participating municipalities and instrumentalities. The Board may also provide that, in lieu of a separate municipality rate for these employees, a portion of the municipality contributions for such program participants shall be refunded or an extra charge assessed so that the amount of municipality contributions retained or received by the fund for all CETA program participants shall be an amount equal to that which would be provided by the separate municipality contribution rate for all such program participants. Refunds shall be made to prime sponsors of programs upon submission of a claim therefor and extra charges shall be assessed to participating municipalities and instrumentalities. In establishing the municipality contribution rate as provided in paragraph (b) of this Section, the use of a separate municipality contribution rate for program participants or the refund of a portion of the municipality contributions, as the case may be, may be considered.

(e) Computations of municipality contribution rates for the following calendar year shall be made prior to the beginning of each year, from the information available at the time the computations are made, and on the assumption that the employees in each participating municipality or participating instrumentality at such time will continue in service until the end of such calendar year at their respective rates of earnings at such time.

(f) Any municipality which is the recipient of State allocations representing that municipality's contributions for retirement annuity purposes on behalf of its employees as provided in Section 12-21.16 of the Illinois Public Aid Code shall pay the allocations so received to the Board for such purpose. Estimates of State allocations to be received during any taxable year shall be considered in the determination of the municipality's tax rate for that year under Section 7-171. If a special tax is levied under Section 7-171, none of the proceeds may be used to reimburse the municipality for the amount of State allocations received and paid to the Board. Any multiple-county or consolidated health department which receives contributions from a county...
under Section 11.2 of "An Act in relation to establishment and maintenance of county and multiple-county health departments", approved July 9, 1943, as amended, or distributions under Section 3 of the Department of Public Health Act, shall use these only for municipality contributions by the health department.

(g) Municipality contributions for the several purposes specified shall, for township treasurers and employees in the offices of the township treasurers who meet the qualifying conditions for coverage hereunder, be allocated among the several school districts and parts of school districts serviced by such treasurers and employees in the proportion which the amount of school funds of each district or part of a district handled by the treasurer bears to the total amount of all school funds handled by the treasurer.

From the funds subject to allocation among districts and parts of districts pursuant to the School Code, the trustees shall withhold the proportionate share of the liability for municipality contributions imposed upon such districts by this Section, in respect to such township treasurers and employees and remit the same to the Board.

The municipality contribution rate for an educational service center shall initially be the same rate for each year as the regional office of education or school district which serves as its administrative agent. When actuarial data become available, a separate rate shall be established as provided in subparagraph (i) of this Section.

The municipality contribution rate for a public agency, other than a vocational education cooperative, formed under the Intergovernmental Cooperation Act shall initially be the average rate for the municipalities which are parties to the intergovernmental agreement. When actuarial data become available, a separate rate shall be established as provided in subparagraph (i) of this Section.

(h) Each participating municipality and participating instrumentality shall make the contributions in the amounts provided in this Section in the manner prescribed from time to time by the Board and all such contributions shall be obligations of the respective participating municipalities and participating instrumentalities to this fund. The failure to deduct any employee contributions shall not relieve the participating municipality or participating instrumentality of its obligation to this fund. Delinquent payments of contributions due under this Section may, with interest, be recovered by civil action against the participating municipalities or participating instrumentalities. Municipality contributions, other than the
amount necessary for employee contributions and Social Security contributions, for periods of service by employees from whose earnings no deductions were made for employee contributions to the fund, may be charged to the municipality reserve for the municipality or participating instrumentality.

(i) Contributions by participating instrumentalities shall be determined as provided herein except that the percentage derived under subparagraph 2 of paragraph (b) of this Section, and the amount payable under subparagraph 5 of paragraph (a) of this Section, shall be based on an amortization period of 10 years.

(j) Notwithstanding the other provisions of this Section, the additional unfunded liability accruing as a result of this amendatory Act of the 94th General Assembly shall be amortized over a period of 30 years beginning on January 1 of the second calendar year following the calendar year in which this amendatory Act takes effect, except that the employer may provide for a longer amortization period by adopting a resolution or ordinance specifying a 35-year or 40-year period and submitting a certified copy of the ordinance or resolution to the fund no later than June 1 of the calendar year following the calendar year in which this amendatory Act takes effect.

Sec. 7-173.1. Additional contribution by sheriff's law enforcement employees.

(a) Each sheriff's law enforcement employee shall make an additional contribution of 1% of earnings, which shall be considered as normal contributions. For earnings on or after July 1, 1988, the additional contribution shall be 2% of earnings. For earnings on or after the effective date of this amendatory Act of the 94th General Assembly, the additional contribution shall be 3% of earnings; this increase is intended to defray the employee's portion of the cost of the benefit increases provided by this amendatory Act of the 94th General Assembly.

This additional contribution shall be payable for retroactive service periods which the employee elects to establish and to periods of authorized leave of absence.

(b) If the employee is awarded a retirement annuity under Section 7-142 and not under Section 7-142.1, then the additional contribution required under this Section shall be refunded with interest or paid as provided in subsection (c). If the employee returns to a participating status as a sheriff's law enforcement employee, the employee may repay the amount refunded

with interest and upon subsequent retirement be entitled to a recomputation of the retirement annuity under Section 7-142.1 if the total service as a sheriff's law enforcement employee meets the requirements of that Section.

(c) Instead of a refund under subsection (b), the retiring employee may elect to convert the amount of the refund into an annuity, payable separately from the retirement annuity. If the annuitant dies before the guaranteed amount has been distributed, the remainder shall be paid in a lump sum to the designated beneficiary of the annuitant. The Board shall adopt any rules necessary for the implementation of this subsection.

(b) On all non-State highways, the maximum length of vehicles in combinations is as follows:

  (1) A truck tractor in combination with a semitrailer may not exceed 55 feet overall dimension.
  (2) A truck tractor-semitrailer-trailer may not exceed 60 feet overall dimension.
  (3) Combinations specially designed to transport motor vehicles or boats may not exceed 60 feet overall dimension.

  Vehicles operating during daylight hours when transporting poles, pipes, machinery, or other objects of a structural nature that cannot readily be dismembered are exempt from length limitations, provided that no object may exceed 80 feet in length and the overall dimension of the vehicle including the load may not exceed 100 feet. This exemption does not apply to operation on a Saturday, Sunday, or legal holiday. Legal holidays referred to in this Section are the days on which the following traditional holidays are celebrated: New Year's Day; Memorial Day; Independence Day; Labor Day; Thanksgiving Day; and Christmas Day.

  Vehicles and loads operated by a public utility while en route to make emergency repairs to public service facilities or properties are exempt from length limitations, provided that during night operations every vehicle and its load must be equipped with a sufficient number of clearance lamps on both sides and marker lamps on the extreme ends of any projecting load to clearly mark the dimensions of the load.

  A tow truck in combination with a disabled vehicle or combination of disabled vehicles, as provided in paragraph (6) of subsection (c) of this Section, is exempt from length limitations.

  All other combinations not listed in this subsection (b) may not exceed 60 feet overall dimension.

(c) Except as provided in subsections (c-1) and (c-2), combinations of vehicles may not exceed a total of 2 vehicles except the following:

Code.

The Department may by rule or regulation prescribe additional requirements regarding length limitations for a tow truck towing another vehicle. (A) The total overall dimension does not exceed 65 feet.

(B) The towing vehicle is a properly registered vehicle capable of towing another vehicle using a fifth-wheel type assembly or a goose-neck hitch ball.

(b-5) To require all contracts and agreements that pertain to goods and services and that are intended to generate additional revenue and other remunerations for the school district in excess of $1,000, including without limitation vending machine contracts, sports and other attire, class rings, and photographic services, to be approved by the school board. The school board shall file as an attachment to its annual budget a report, in a form as determined by the State Board of Education, indicating for the prior year the name of the vendor, the product or service provided, and the actual net revenue and non-monetary remuneration from each of the contracts or agreements. In addition, the report shall indicate for what purpose the revenue was used and how and to whom the non-monetary remuneration was distributed.

Section 99. Effective date. This Act takes effect upon becoming law.
Passed in General Assembly November 3, 2005.
Approved December 13, 2005.
Effective December 13, 2005.

AN ACT concerning procurement.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 1. Short title. This Act may be cited as the Design-Build Procurement Act.

Section 5. Legislative policy. It is the intent of the General Assembly that the Capital Development Board be allowed to use the design-build delivery method for public projects if it is shown to be in the State's best interest for that particular project. It shall be the policy of the Capital Development Board in the procurement of design-build services to publicly announce all requirements for design-build services and to procure these services on the basis of demonstrated competence and qualifications and with due regard for the principles of competitive selection.

The Capital Development Board shall, prior to issuing requests for proposals, promulgate and publish procedures for the solicitation and award

of contracts pursuant to this Act.

The Capital Development Board shall, for each public project or projects permitted under this Act, make a written determination, including a description as to the particular advantages of the design-build procurement method, that it is in the best interests of this State to enter into a design-build contract for the project or projects. In making that determination, the following factors shall be considered:

(1) The probability that the design-build procurement method will be in the best interests of the State by providing a material savings of time or cost over the design-bid-build or other delivery system.

(2) The type and size of the project and its suitability to the design-build procurement method.

(3) The ability of the State construction agency to define and provide comprehensive scope and performance criteria for the project. No State construction agency may use a design-build procurement method unless the agency determines in writing that the project will comply with the disadvantaged business and equal employment practices of the State as established in the Business Enterprise for Minorities, Females, and Persons with Disabilities Act and Section 2-105 of the Illinois Human Rights Act.

The Capital Development Board shall within 15 days after the initial determination provide an advisory copy to the Procurement Policy Board and maintain the full record of determination for 5 years.

Section 10. Definitions. As used in this Act:
"State construction agency" means the Capital Development Board.
"Delivery system" means the design and construction approach used to develop and construct a project.
"Design-bid-build" means the traditional delivery system used on public projects in this State that incorporates the Architectural, Engineering, and Land Surveying Qualification Based Selection Act (30 ILCS 535/) and the principles of competitive selection in the Illinois Procurement Code (30 ILCS 500/).
"Design-build" means a delivery system that provides responsibility within a single contract for the furnishing of architecture, engineering, land surveying and related services as required, and the labor, materials, equipment, and other construction services for the project.
"Design-build contract" means a contract for a public project under this Act between the State construction agency and a design-build entity to furnish architecture, engineering, land surveying, and related services as
required, and to furnish the labor, materials, equipment, and other construction services for the project. The design-build contract may be conditioned upon subsequent refinements in scope and price and may allow the State construction agency to make modifications in the project scope without invalidating the design-build contract.

"Design-build entity" means any individual, sole proprietorship, firm, partnership, joint venture, corporation, professional corporation, or other entity that proposes to design and construct any public project under this Act. A design-build entity and associated design-build professionals shall conduct themselves in accordance with the laws of this State and the related provisions of the Illinois Administrative Code, as referenced by the licensed design professionals Acts of this State.

"Evaluation criteria" means the requirements for the separate phases of the selection process as defined in this Act and may include the specialized experience, technical qualifications and competence, capacity to perform, past performance, experience with similar projects, assignment of personnel to the project, and other appropriate factors. Price may not be used as a factor in the evaluation of Phase I proposals.

"Proposal" means the offer to enter into a design-build contract as submitted by a design-build entity in accordance with this Act.

"Request for proposal" means the document used by the State construction agency to solicit proposals for a design-build contract.

"Scope and performance criteria" means the requirements for the public project, including but not limited to, the intended usage, capacity, size, scope, quality and performance standards, life-cycle costs, and other programmatic criteria that are expressed in performance-oriented and quantifiable specifications and drawings that can be reasonably inferred and are suited to allow a design-build entity to develop a proposal.

Section 15. Solicitation of proposals.

(a) When the State construction agency elects to use the design-build delivery method, it must issue a notice of intent to receive requests for proposals for the project at least 14 days before issuing the request for the

New matter indicated by italics - deletions by strikeout
The State construction agency must publish the advance notice in the official procurement bulletin of the State or the professional services bulletin of the State construction agency, if any. The agency is encouraged to use publication of the notice in related construction industry service publications. A brief description of the proposed procurement must be included in the notice. The State construction agency must provide a copy of the request for proposal to any party requesting a copy.

(b) The request for proposal shall be prepared for each project and must contain, without limitation, the following information:

(1) The name of the State construction agency.
(2) A preliminary schedule for the completion of the contract.
(3) The proposed budget for the project, the source of funds, and the currently available funds at the time the request for proposal is submitted.
(4) Prequalification criteria for design-build entities wishing to submit proposals. The State construction agency shall include, at a minimum, its normal prequalification, licensing, registration, and other requirements, but nothing contained herein precludes the use of additional prequalification criteria by the State construction agency.
(5) Material requirements of the contract, including but not limited to, the proposed terms and conditions, required performance and payment bonds, insurance, and the entity's plan to comply with the utilization goals for business enterprises established in the Business Enterprise for Minorities, Females, and Persons with Disabilities Act, and with Section 2-105 of the Illinois Human Rights Act.
(6) The performance criteria.
(7) The evaluation criteria for each phase of the solicitation.
(8) The number of entities that will be considered for the technical and cost evaluation phase.

(c) The State construction agency may include any other relevant information that it chooses to supply. The design-build entity shall be entitled to rely upon the accuracy of this documentation in the development of its proposal.

(d) The date that proposals are due must be at least 21 calendar days after the date of issuance of the request for proposal. In the event the cost of the project is estimated to exceed $10 million, then the proposal due date must be at least 28 calendar days after the date of issuance of the request for proposal. The State construction agency shall include in the request for proposal.
Section 20. Development of scope and performance criteria.

(a) The State construction agency shall develop, with the assistance of a licensed design professional, a request for proposal, which shall include scope and performance criteria. The scope and performance criteria must be in sufficient detail and contain adequate information to reasonably apprise the qualified design-build entities of the State construction agency's overall programmatic needs and goals, including criteria and preliminary design plans, general budget parameters, schedule, and delivery requirements.

(b) Each request for proposal shall also include a description of the level of design to be provided in the proposals. This description must include the scope and type of renderings, drawings, and specifications that, at a minimum, will be required by the State construction agency to be produced by the design-build entities.

(c) The scope and performance criteria shall be prepared by a design professional who is an employee of the State construction agency, or the State construction agency may contract with an independent design professional selected under the Architectural, Engineering and Land Surveying Qualification Based Selection Act (30 ILCS 535/) to provide these services.

(d) The design professional that prepares the scope and performance criteria is prohibited from participating in any design-build entity proposal for the project.

Section 25. Selection Committee.

(a) When the State construction agency elects to use the design-build delivery method, it shall establish a committee to evaluate and select the design-build entity. The committee, under the discretion of the State construction agency, shall consist of 5 or 7 members and shall include at least one licensed design professional and 2 members of the public. Public members may not be employed or associated with any firm holding a contract with the State construction agency. One public member shall be nominated by associations representing the general design or construction industry and one member shall be nominated by associations that represent minority or female-owned design or construction industry businesses. The selection committee may be designated for a set term or for the particular project subject to the request for proposal.

(b) The members of the selection committee must certify for each request for proposal that no conflict of interest exists between the members and the design-build entities submitting proposals. If a conflict exists, the
member must be replaced before any review of proposals.

Section 30. Procedures for Selection.

(a) The State construction agency must use a two-phase procedure for the selection of the successful design-build entity. Phase I of the procedure will evaluate and shortlist the design-build entities based on qualifications, and Phase II will evaluate the technical and cost proposals.

(b) The State construction agency shall include in the request for proposal the evaluating factors to be used in Phase I. These factors are in addition to any prequalification requirements of design-build entities that the agency has set forth. Each request for proposal shall establish the relative importance assigned to each evaluation factor and subfactor, including any weighting of criteria to be employed by the State construction agency. The State construction agency must maintain a record of the evaluation scoring to be disclosed in event of a protest regarding the solicitation.

The State construction agency shall include the following criteria in every Phase I evaluation of design-build entities: (1) experience of personnel; (2) successful experience with similar project types; (3) financial capability; (4) timeliness of past performance; (5) experience with similarly sized projects; (6) successful reference checks of the firm; (7) commitment to assign personnel for the duration of the project and qualifications of the entity's consultants; and (8) ability or past performance in meeting or exhausting good faith efforts to meet the utilization goals for business enterprises established in the Business Enterprise for Minorities, Females, and Persons with Disabilities Act and with Section 2-105 of the Illinois Human Rights Act. The State construction agency may include any additional relevant criteria in Phase I that it deems necessary for a proper qualification review.

The State construction agency may not consider any design-build entity for evaluation or award if the entity has any pecuniary interest in the project or has other relationships or circumstances, including but not limited to, long-term leasehold, mutual performance, or development contracts with the State construction agency, that may give the design-build entity a financial or tangible advantage over other design-build entities in the preparation, evaluation, or performance of the design-build contract or that create the appearance of impropriety. No proposal shall be considered that does not include an entity's plan to comply with the requirements established in the Business Enterprise for Minorities, Females, and Persons with Disabilities Act and with Section 2-105 of the Illinois Human Rights Act.

Upon completion of the qualifications evaluation, the State

New matter indicated by italics - deletions by strikeout
construction agency shall create a shortlist of the most highly qualified design-build entities. The State construction agency, in its discretion, is not required to shortlist the maximum number of entities as identified for Phase II evaluation, provided however, no less than 2 design-build entities nor more than 6 are selected to submit Phase II proposals.

The State construction agency shall notify the entities selected for the shortlist in writing. This notification shall commence the period for the preparation of the Phase II technical and cost evaluations. The State construction agency must allow sufficient time for the shortlist entities to prepare their Phase II submittals considering the scope and detail requested by the State agency.

(c) The State construction agency shall include in the request for proposal the evaluating factors to be used in the technical and cost submission components of Phase II. Each request for proposal shall establish, for both the technical and cost submission components of Phase II, the relative importance assigned to each evaluation factor and subfactor, including any weighting of criteria to be employed by the State construction agency. The State construction agency must maintain a record of the evaluation scoring to be disclosed in event of a protest regarding the solicitation.

The State construction agency shall include the following criteria in every Phase II technical evaluation of design-build entities: (1) compliance with objectives of the project; (2) compliance of proposed services to the request for proposal requirements; (3) quality of products or materials proposed; (4) quality of design parameters; (5) design concepts; (6) innovation in meeting the scope and performance criteria; and (7) constructability of the proposed project. The State construction agency may include any additional relevant technical evaluation factors it deems necessary for proper selection.

The State construction agency shall include the following criteria in every Phase II cost evaluation: the total project cost, the construction costs, and the time of completion. The State construction agency may include any additional relevant technical evaluation factors it deems necessary for proper selection. The total project cost criteria weighing factor shall be 25%.

The State construction agency shall directly employ or retain a licensed design professional to evaluate the technical and cost submissions to determine if the technical submissions are in accordance with generally accepted industry standards.

Upon completion of the technical submissions and cost submittals

evaluation, the State construction agency may award the design-build contract to the highest overall ranked entity.

Section 35. Small projects. In any case where the total overall cost of the project is estimated to be less than $10 million, the State construction agency may combine the two-phase procedure for selection described in Section 30 into one combined step, provided that all the requirements of evaluation are performed in accordance with Section 30.

Section 40. Submission of proposals. Proposals must be properly identified and sealed. Proposals may not be reviewed until after the deadline for submission has passed as set forth in the request for proposals. All design-build entities submitting proposals shall be disclosed after the deadline for submission, and all design-build entities who are selected for Phase II evaluation shall also be disclosed at the time of that determination.

Proposals shall include a bid bond in the form and security as designated in the request for proposals. Proposals shall also contain a separate sealed envelope with the cost information within the overall proposal submission. Proposals shall include a list of all design professionals and other entities as defined in Section 30-30 of the Illinois Procurement Code to which any work may be subcontracted during the performance of the contract. Any entity that will perform any of the 5 subdivisions of work defined in Section 30-30 of the Illinois Procurement Code must meet prequalification standards of the State construction agency.

Proposals must meet all material requirements of the request for proposal or they may be rejected as non-responsive. The State construction agency shall have the right to reject any and all proposals.

The drawings and specifications of the proposal shall remain the property of the design-build entity.

The State construction agency shall review the proposals for compliance with the performance criteria and evaluation factors.

Proposals may be withdrawn prior to evaluation for any cause. After evaluation begins by the State construction agency, clear and convincing evidence of error is required for withdrawal.

Section 45. Award. The State construction agency may award the contract to the highest overall ranked entity. Notice of award shall be made in writing. Unsuccessful entities shall also be notified in writing. The State construction agency may not request a best and final offer after the receipt of proposals. The State construction agency may negotiate with the selected design-build entity after award but prior to contract execution for the purpose of securing better terms than originally proposed, provided that the salient

features of the request for proposal are not diminished.

Section 46. Reports and evaluation. At the end of every 6 month period following the contract award, and again prior to final contract payout and closure, a selected design-build entity shall detail, in a written report submitted to the State agency, its efforts and success in implementing the entity's plan to comply with the utilization goals for business enterprises established in the Business Enterprise for Minorities, Females, and Persons with Disabilities Act and the provisions of Section 2-105 of the Illinois Human Rights Act. If the entity's performance in implementing the plan falls short of the performance measures and outcomes set forth in the plans submitted by the entity during the proposal process, the entity shall, in a detailed written report, inform the General Assembly and the Governor whether and to what degree each design-build contract authorized under this Act promoted the utilization goals for business enterprises established in the Business Enterprise for Minorities, Females, and Persons with Disabilities Act and the provisions of Section 2-105 of the Illinois Human Rights Act.

Section 50. Administrative Procedure Act. The Illinois Administrative Procedure Act (5 ILCS 100/) applies to all administrative rules and procedures of the State construction agency under this Act except that nothing herein shall be construed to render any prequalification or other responsibility criteria as a "license" or "licensing" under that Act.

Section 53. Federal requirements. In the procurement of design-build contracts, the State construction agency shall comply with federal law and regulations and take all necessary steps to adapt their rules, policies, and procedures to remain eligible for federal aid.

Section 90. Repealer. This Act is repealed on July 1, 2009.

Section 95. Severability. The provisions of this Act are severable under Section 1.31 of the Statute on Statutes.

(c) No person shall rent a motorcycle to another unless the latter person is then duly licensed hereunder as a motorcycle operator, and in the case of a nonresident, then duly licensed under the laws of the State or country of his residence, unless the State or country of his residence does not require that a driver be licensed.

(d) (Blank).

(e) (Blank).

(f) Subject to subsection (l), any person who rents a motor vehicle to another shall only advertise, quote, and charge a rental rate that includes the entire amount except taxes and a mileage charge, if any, which a renter must pay to hire or lease the vehicle for the period of time to which the rental rate applies. The person must provide, on the request of the renter, based on the available information, an estimated total of the daily rental rate, including all applicable taxes, fees, and other charges, or an estimated total rental charge, based on the return date of the vehicle noted on the rental agreement. Further, if the rental agreement does not already provide an estimated total rental charge, the following statement must be included in the rental agreement:

Such person shall not charge in addition to the rental rate, taxes, and mileage charge, if any, any fee which must be paid by the renter as a condition of hiring or leasing the vehicle, such as, but not limited to, required fuel or airport surcharges, nor any fee for transporting the renter to the location where the rented vehicle will be delivered to the renter. In addition to the rental rate, taxes, and mileage charge, if any, such person may charge for an item or service provided in connection with a particular rental transaction if the renter can avoid incurring the charge by choosing not to obtain or utilize the optional item or service. Items and services for which such person may impose an additional charge include, but are not limited to, optional insurance and accessories requested by the renter, service charges incident to the renter's optional return of the vehicle to a location other than the location where the vehicle was hired or leased, and charges for refueling the vehicle at the conclusion of the rental transaction in the event the renter did not return the vehicle with as much fuel as was in the fuel tank at the beginning of the rental.

(g) Every person renting a motor vehicle to another shall keep a record of the registration number of the motor vehicle so rented, the name and address of the person to whom the vehicle is rented, the number of the license, if any, of said latter person, and the date and place when and where the license, if any, was issued. Such record shall be open to inspection by any police officer or designated agent of the Secretary of State.

(h) A person licensed as a new car dealer under Section 5-101 of this Code shall not be subject to the provisions of this Section regarding the rental of private passenger motor vehicles when providing, free of charge, temporary substitute vehicles for customers to operate during a period when a customer's vehicle, which is either leased or owned by that customer, is being repaired, serviced, replaced or otherwise made unavailable to the customer in accordance with an agreement with the licensed new car dealer or vehicle manufacturer, so long as the customer orally or in writing is made aware that the temporary substitute vehicle will be covered by his or her insurance policy and the customer shall only be liable to the extent of any amount deductible from such insurance coverage in accordance with the terms of the policy.

(i) This Section, except the requirements of subsection (g), also applies to rental agreements of 30 continuous days or less involving a motor vehicle that was delivered by an out of State person or business to a renter in
this State.

(j) A public airport may, if approved by its local government corporate authorities or its airport authority, impose a customer facility charge upon customers of rental car companies for the purposes of financing, designing, constructing, operating, and maintaining consolidated car rental facilities and common use transportation equipment and facilities, which are used to transport the customer, connecting consolidated car rental facilities with other airport facilities.

Notwithstanding subsection (f) of this Section, the customer facility charge shall be collected by the rental car company as a separate charge, and clearly indicated as a separate charge on the rental agreement and invoice. Facility charges shall be immediately deposited into a trust account for the benefit of the airport and remitted at the direction of the airport, but not more often than once per month. The charge shall be uniformly calculated on a per-contract or per-day basis. Facility charges imposed by the airport may not exceed the reasonable costs of financing, designing, constructing, operating, and maintaining the consolidated car rental facilities and common use transportation equipment and facilities and may not be used for any other purpose.

Notwithstanding any other provision of law, the charges collected under this Section are not subject to retailer occupation, sales, use, or transaction taxes.

(k) When a rental car company states a rental rate in any of its rate advertisements, its proprietary computer reservation systems, or its in-person quotations intended to apply to an airport rental, a company that collects from its customers a customer facility charge for that rental under subsection (j) shall do all of the following:

1. Clearly and conspicuously disclose in any radio, television, or other electronic media advertisements the existence and amount of the charge if the advertisement is intended for rentals at an airport imposing the charge or, if the advertisement covers an area with multiple airports with different charges, a range of amounts of customer facility charges if the advertisement is intended for rentals at an airport imposing the charge.

2. Clearly and conspicuously disclose in any print rate advertising the existence and amount of the charge if the advertisement is intended for rentals at an airport imposing the charge or, if the print rate advertisement covers an area with multiple airports with different charges, a range of amounts of customer facility charges.

(3) Clearly and conspicuously disclose the existence and amount of the charge in any telephonic, in-person, or computer-transmitted quotation from the rental car company's proprietary computer reservation system at the time of making an initial quotation of a rental rate if the quotation is made by a rental car company location at an airport imposing the charge and at the time of making a reservation of a rental car if the reservation is made by a rental car company location at an airport imposing the charge.

(4) Clearly and conspicuously display the charge in any proprietary computer-assisted reservation or transaction directly between the rental car company and the customer, shown or referenced on the same page on the computer screen viewed by the customer as the displayed rental rate and in a print size not smaller than the print size of the rental rate.

(5) Clearly and conspicuously disclose and separately identify the existence and amount of the charge on its rental agreement.

(6) A rental car company that collects from its customers a customer facility charge under subsection (j) and engages in a practice which does not comply with subsections (f), (j), and (k) commits an unlawful practice within the meaning of the Consumer Fraud and Deceptive Business Practices Act.

Sec. 5-167.1. Automatic increase in annuity; retirement from service after September 1, 1967.

The city, in addition to the contributions otherwise made by it for annuity purposes under other provisions of this Article, shall make matching contributions concurrently with such salary deductions.

Each such 1/2 of 1% deduction from salary and each such contribution by the city of 1/2 of 1% of salary shall be credited to the Automatic Increase Reserve, to be used to defray the cost of the 1 1/2% annuity increase provided by this Section. Sec. 19-1. Debt limitations of school districts.

(a) School districts shall not be subject to the provisions limiting their indebtedness prescribed in "An Act to limit the indebtedness of counties having a population of less than 500,000 and townships, school districts and other municipal corporations having a population of less than 300,000", approved February 15, 1928, as amended.

No school districts maintaining grades K through 8 or 9 through 12 shall become indebted in any manner or for any purpose to an amount, including existing indebtedness, in the aggregate exceeding 6.9% on the value of the taxable property therein to be ascertained by the last assessment for State and county taxes or, until January 1, 1983, if greater, the sum that is produced by multiplying the school district's 1978 equalized assessed valuation by the debt limitation percentage in effect on January 1, 1979, previous to the incurring of such indebtedness.

No school districts maintaining grades K through 12 shall become indebted in any manner or for any purpose to an amount, including existing indebtedness, in the aggregate exceeding 13.8% on the value of the taxable property therein to be ascertained by the last assessment for State and county taxes or, until January 1, 1983, if greater, the sum that is produced by multiplying the school district's 1978 equalized assessed valuation by the debt limitation percentage in effect on January 1, 1979, previous to the incurring of such indebtedness.

Notwithstanding the provisions of any other law to the contrary, in any case in which the voters of a school district have approved a proposition for the issuance of bonds of such school district at an election held prior to January 1, 1979, and all of the bonds approved at such election have not been issued, the debt limitation applicable to such school district during the calendar year 1979 shall be computed by multiplying the value of taxable property therein, including personal property, as ascertained by the last assessment for State and county taxes, previous to the incurring of such indebtedness, by the percentage limitation applicable to such school district under the provisions of this subsection (a).

(b) Notwithstanding the debt limitation prescribed in subsection (a) of this Section, additional indebtedness may be incurred in an amount not to exceed the estimated cost of acquiring or improving school sites or constructing and equipping additional building facilities under the following conditions:

New matter indicated by italics - deletions by strikeout
(1) Whenever the enrollment of students for the next school year is estimated by the board of education to increase over the actual present enrollment by not less than 35% or by not less than 200 students or the actual present enrollment of students has increased over the previous school year by not less than 35% or by not less than 200 students and the board of education determines that additional school sites or building facilities are required as a result of such increase in enrollment; and

(2) When the Regional Superintendent of Schools having jurisdiction over the school district and the State Superintendent of Education concur in such enrollment projection or increase and approve the need for such additional school sites or building facilities and the estimated cost thereof; and

(3) When the voters in the school district approve a proposition for the issuance of bonds for the purpose of acquiring or improving such needed school sites or constructing and equipping such needed additional building facilities at an election called and held for that purpose. Notice of such an election shall state that the amount of indebtedness proposed to be incurred would exceed the debt limitation otherwise applicable to the school district. The ballot for such proposition shall state what percentage of the equalized assessed valuation will be outstanding in bonds if the proposed issuance of bonds is approved by the voters; or

(4) Notwithstanding the provisions of paragraphs (1) through (3) of this subsection (b), if the school board determines that additional facilities are needed to provide a quality educational program and not less than 2/3 of those voting in an election called by the school board on the question approve the issuance of bonds for the construction of such facilities, the school district may issue bonds for this purpose; or

approve the issuance of bonds for the construction of such facilities, the school district may issue bonds for this purpose.

In no event shall the indebtedness incurred pursuant to this subsection (b) and the existing indebtedness of the school district exceed 15% of the value of the taxable property therein to be ascertained by the last assessment for State and county taxes, previous to the incurring of such indebtedness or, until January 1, 1983, if greater, the sum that is produced by multiplying the school district's 1978 equalized assessed valuation by the debt limitation percentage in effect on January 1, 1979.

The indebtedness provided for by this subsection (b) shall be in addition to and in excess of any other debt limitation.

(c) Notwithstanding the debt limitation prescribed in subsection (a) of this Section, in any case in which a public question for the issuance of bonds of a proposed school district maintaining grades kindergarten through 12 received at least 60% of the valid ballots cast on the question at an election held on or prior to November 8, 1994, and in which the bonds approved at such election have not been issued, the school district pursuant to the requirements of Section 11A-10 may issue the total amount of bonds approved at such election for the purpose stated in the question.

(d) Notwithstanding the debt limitation prescribed in subsection (a) of this Section, a school district that meets all the criteria set forth in paragraphs (1) and (2) of this subsection (d) may incur an additional indebtedness in an amount not to exceed $4,500,000, even though the amount of the additional indebtedness authorized by this subsection (d), when incurred and added to the aggregate amount of indebtedness of the district existing immediately prior to the district incurring the additional indebtedness authorized by this subsection (d), causes the aggregate indebtedness of the district to exceed the debt limitation otherwise applicable to that district under subsection (a):

(1) The additional indebtedness authorized by this subsection (d) is incurred by the school district through the issuance of bonds under and in accordance with Section 17-2.11a for the purpose of replacing a school building which, because of mine subsidence damage, has been closed as provided in paragraph (2) of this subsection (d) or through the issuance of bonds under and in accordance with Section 19-3 for the purpose of increasing the size of, or providing for additional functions in, such replacement school buildings, or both such purposes.

(2) The bonds issued by the school district as provided in
paragraph (1) above are issued for the purposes of construction by the school district of a new school building pursuant to Section 17-2.11, to replace an existing school building that, because of mine subsidence damage, is closed as of the end of the 1992-93 school year pursuant to action of the regional superintendent of schools of the educational service region in which the district is located under Section 3-14.22 or are issued for the purpose of increasing the size of, or providing for additional functions in, the new school building being constructed to replace a school building closed as the result of mine subsidence damage, or both such purposes.

(e) Notwithstanding the debt limitation prescribed in subsection (a) of this Section, a school district that meets all the criteria set forth in paragraphs (1) through (5) of this subsection (e) may, without referendum, incur an additional indebtedness in an amount not to exceed the lesser of $5,000,000 or 1.5% of the value of the taxable property within the district even though the amount of the additional indebtedness authorized by this subsection (e), when incurred and added to the aggregate amount of indebtedness of the district existing immediately prior to the district incurring that additional indebtedness, causes the aggregate indebtedness of the district to exceed or increases the amount by which the aggregate indebtedness of the district already exceeds the debt limitation otherwise applicable to that district under subsection (a):

(1) The State Board of Education certifies the school district under Section 19-1.5 as a financially distressed district.

(2) The additional indebtedness authorized by this subsection (e) is incurred by the financially distressed district during the school year or school years in which the certification of the district as a financially distressed district continues in effect through the issuance of bonds for the lawful school purposes of the district, pursuant to resolution of the school board and without referendum, as provided in paragraph (5) of this subsection.

(3) The aggregate amount of bonds issued by the financially distressed district during a fiscal year in which it is authorized to issue bonds under this subsection does not exceed the amount by which the aggregate expenditures of the district for operational purposes during the immediately preceding fiscal year exceeds the amount appropriated for the operational purposes of the district in the annual school budget adopted by the school board of the district for the fiscal year in which the bonds are issued.

Sec. 19-1. Debt limitations of school districts.

(a) School districts shall not be subject to the provisions limiting their indebtedness prescribed in "An Act to limit the indebtedness of counties having a population of less than 500,000 and townships, school districts and
other municipal corporations having a population of less than 300,000", approved February 15, 1928, as amended.

No school districts maintaining grades K through 8 or 9 through 12 shall become indebted in any manner or for any purpose to an amount, including existing indebtedness, in the aggregate exceeding 6.9% on the value of the taxable property therein to be ascertained by the last assessment for State and county taxes or, until January 1, 1983, if greater, the sum that is produced by multiplying the school district's 1978 equalized assessed valuation by the debt limitation percentage in effect on January 1, 1979, previous to the incurring of such indebtedness.

No school districts maintaining grades K through 12 shall become indebted in any manner or for any purpose to an amount, including existing indebtedness, in the aggregate exceeding 13.8% on the value of the taxable property therein to be ascertained by the last assessment for State and county taxes or, until January 1, 1983, if greater, the sum that is produced by multiplying the school district's 1978 equalized assessed valuation by the debt limitation percentage in effect on January 1, 1979, previous to the incurring of such indebtedness.

Notwithstanding the provisions of any other law to the contrary, in any case in which the voters of a school district have approved a proposition for the issuance of bonds of such school district at an election held prior to January 1, 1979, and all of the bonds approved at such election have not been issued, the debt limitation applicable to such school district during the calendar year 1979 shall be computed by multiplying the value of taxable property therein, including personal property, as ascertained by the last assessment for State and county taxes, previous to the incurring of such indebtedness, by the percentage limitation applicable to such school district under the provisions of this subsection (a).

(b) Notwithstanding the debt limitation prescribed in subsection (a) of this Section, additional indebtedness may be incurred in an amount not to exceed the estimated cost of acquiring or improving school sites or constructing and equipping additional building facilities under the following conditions:

school sites or building facilities are required as a result of such increase in enrollment; and

(2) When the Regional Superintendent of Schools having jurisdiction over the school district and the State Superintendent of Education concur in such enrollment projection or increase and approve the need for such additional school sites or building facilities and the estimated cost thereof; and

(3) When the voters in the school district approve a proposition for the issuance of bonds for the purpose of acquiring or improving such needed school sites or constructing and equipping such needed additional building facilities at an election called and held for that purpose. Notice of such an election shall state that the amount of indebtedness proposed to be incurred would exceed the debt limitation otherwise applicable to the school district. The ballot for such proposition shall state what percentage of the equalized assessed valuation will be outstanding in bonds if the proposed issuance of bonds is approved by the voters; or

(4) Notwithstanding the provisions of paragraphs (1) through (3) of this subsection (b), if the school board determines that additional facilities are needed to provide a quality educational program and not less than 2/3 of those voting in an election called by the school board on the question approve the issuance of bonds for the construction of such facilities, the school district may issue bonds for this purpose; or

(5) Notwithstanding the provisions of paragraphs (1) through (3) of this subsection (b), if (i) the school district has previously availed itself of the provisions of paragraph (4) of this subsection (b) to enable it to issue bonds, (ii) the voters of the school district have not defeated a proposition for the issuance of bonds since the referendum described in paragraph (4) of this subsection (b) was held, (iii) the school board determines that additional facilities are needed to provide a quality educational program, and (iv) a majority of those voting in an election called by the school board on the question approve the issuance of bonds for the construction of such facilities, the school district may issue bonds for this purpose.

(1) The additional indebtedness authorized by this subsection (d) is incurred by the school district through the issuance of bonds under and in accordance with Section 17-2.11 for the purpose of replacing a school building which, because of mine subsidence damage, has been closed as provided in paragraph (2) of this subsection (d) or through the issuance of bonds under and in accordance with Section 19-3 for the purpose of increasing the size of, or providing for additional functions in, such replacement school buildings, or both such purposes.

(iv) The bonds are issued pursuant to Sections 19-2 through 19-7 of this Code.

(p-5) Notwithstanding any other provisions of this Section or the provisions of any other law, bonds issued by a community unit school district maintaining grades K through 12 shall not be considered indebtedness for purposes of any statutory limitation and may be issued in an amount or amounts, including existing indebtedness, in excess of any heretofore or hereafter imposed statutory limitation as to indebtedness, if all of the following conditions are met:

PUBLIC ACT 94-0723
(House Bill No. 2133)

AN ACT concerning employment.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Unemployment Insurance Act is amended by changing Sections 1400 and 1402 and by adding Section 1400.2 as follows:

(820 ILCS 405/1400) (from Ch. 48, par. 550)

Sec. 1400. Payment of contributions. On and after July 1, 1937, contributions shall accrue and become payable by each employer for each calendar year in which he is subject to this Act, with respect to wages payable for employment occurring during the six months' period beginning July 1, 1937, and the calendar years 1938, 1939, and 1940. For the year 1941 and for each calendar year thereafter, contributions shall accrue and become payable by each employer upon the wages paid with respect to employment after December 31, 1940. Except as otherwise provided in Section 1400.2, such contributions shall become due and shall be paid quarterly on or before the last day of the month next following the calendar quarter for which such contributions have accrued; except that any employer who is delinquent in filing a contribution report or in paying his contributions for any calendar quarter may, at the discretion of the Director, be required to report and to pay contributions on a calendar month basis. Such contributions shall not be deducted, in whole or in part, from the wages of individuals in such employer's employ. If the Director shall find that the collection of any contributions will be jeopardized by delay, he may declare the same to be

immediately due and payable.

In the payment of any contributions, interest, or penalties, a fractional part of a cent shall be disregarded unless it amounts to one-half cent or more, in which case it shall be increased to one cent.

The Director may by regulation provide that if, at any time, a total amount of less than $2 is payable with respect to a quarter, including any contributions, payments in lieu of contributions, interest or penalties, such amount may be disregarded. Any amounts disregarded under this paragraph are deemed to have been paid for all other purposes of this Act. Nothing in this paragraph is intended to relieve any employer from filing any reports required by this Act or by any rules or regulations adopted by the Director pursuant to this Act.

Except with respect to the provisions concerning amounts that may be disregarded pursuant to regulation, this Section does not apply to any nonprofit organization or any governmental entity referred to in subsection B of Section 1405 for any period with respect to which it does not incur liability for the payment of contributions by reason of having elected to make payments in lieu of contributions, or to any political subdivision or municipal corporation for any period with respect to which it is not subject to payments in lieu of contributions under the provisions of paragraph 1 of Section 302C by reason of having elected to make payments in lieu of contributions under paragraph 2 of that Section, or to the State of Illinois or any of its instrumentalities.

(820 ILCS 405/1400.2 new)

Sec. 1400.2. Annual reporting and paying; household workers. This Section applies to an employer who solely employs one or more household workers with respect to whom the employer files federal unemployment taxes as part of his or her federal income tax return, or could file federal unemployment taxes as part of his or her federal income tax return if the worker or workers were providing services in employment for purposes of the federal unemployment tax. For purposes of this Section, "household worker" has the meaning ascribed to it for purposes of Section 3510 of the federal Internal Revenue Code. If an employer to whom this Section applies notifies the Director, in writing, that he or she wishes to pay his or her contributions for each quarter and submit his or her wage and contribution reports for each quarter on an annual basis, then the due date for filing the reports and paying the contributions shall be April 15 of the calendar year immediately following the close of the quarters to which the reports and contributions

apply, except that the Director may, by rule, establish a different due date for good cause.

(820 ILCS 405/1402) (from Ch. 48, par. 552)

Sec. 1402. Penalties. A. If any employer fails, within the time prescribed in this Act as amended and in effect on October 5, 1980, and the regulations of the Director, to file a report of wages paid to each of his workers, or to file a sufficient report of such wages after having been notified by the Director to do so, for any period which begins prior to January 1, 1982, he shall pay to the Director as a penalty a sum determined in accordance with the provisions of this Act as amended and in effect on October 5, 1980.

B. Except as otherwise provided in this Section, any employer who fails to file a report of wages paid to each of his workers for any period which begins on or after January 1, 1982, within the time prescribed by the provisions of this Act and the regulations of the Director, or, if the Director pursuant to such regulations extends the time for filing the report, fails to file it within the extended time, shall, in addition to any sum otherwise payable by him under the provisions of this Act, pay to the Director as a penalty a sum equal to the lesser of (1) $5 for each $10,000 or fraction thereof of the total wages for insured work paid by him during the period or (2) $2,500, for each month or part thereof of such failure to file the report. With respect to an employer who has elected to file reports of wages on an annual basis pursuant to Section 1400.2, in assessing penalties for the failure to submit all reports by the due date established pursuant to that Section, the 30-day period immediately following the due date shall be considered as one month.

If the Director deems an employer's report of wages paid to each of his workers for any period which begins on or after January 1, 1982, insufficient, he shall notify the employer to file a sufficient report. If the employer fails to file such sufficient report within 30 days after the mailing of the notice to him, he shall, in addition to any sum otherwise payable by him under the provisions of this Act, pay to the Director as a penalty a sum determined in accordance with the provisions of the first paragraph of this subsection, for each month or part thereof of such failure to file such sufficient report after the date of the notice.

For wages paid in calendar years prior to 1988, the penalty or penalties which accrue under the two foregoing paragraphs with respect to a report for any period shall not be less than $100, and shall not exceed the lesser of (1) $10 for each $10,000 or fraction thereof of the total wages for insured work paid during the period or (2) $5,000. For wages paid in calendar years after 1987, the penalty or penalties which accrue under the 2 foregoing

paragraphs with respect to a report for any period shall not be less than $50, and shall not exceed the lesser of (1) $10 for each $10,000 or fraction of the total wages for insured work paid during the period or (2) $5,000. *With respect to an employer who has elected to file reports of wages on an annual basis pursuant to Section 1400.2, for purposes of calculating the minimum penalty prescribed by this Section for failure to file the reports on a timely basis, a calendar year shall constitute a single period.* For reports of wages paid after 1986, the Director shall not, however, impose a penalty pursuant to either of the two foregoing paragraphs on any employer who can prove within 30 working days after the mailing of a notice of his failure to file such a report, that (1) the failure to file the report is his first such failure during the previous 20 consecutive calendar quarters, and (2) the amount of the total contributions due for the calendar quarter of such report is less than $500.

Any employer who willfully fails to pay any contribution or part thereof, based upon wages paid prior to 1987, when required by the provisions of this Act and the regulations of the Director, with intent to defraud the Director, shall in addition to such contribution or part thereof pay to the Director a penalty equal to 50 percent of the amount of such contribution or part thereof, as the case may be, provided that the penalty shall not be less than $200.

Any employer who willfully fails to pay any contribution or part thereof, based upon wages paid in 1987 and in each calendar year thereafter, when required by the provisions of this Act and the regulations of the Director, with intent to defraud the Director, shall in addition to such contribution or part thereof pay to the Director a penalty equal to 60% of the amount of such contribution or part thereof, as the case may be, provided that the penalty shall not be less than $400.

However, all or part of any penalty may be waived by the Director for good cause shown.

will not cause a violation of this Act or of regulations hereunder. The Agency shall adopt such procedures as are necessary to carry out its duties under this Section. In making its determinations on permit applications under this Section the Agency may consider prior adjudications of noncompliance with this Act by the applicant that involved a release of a contaminant into the environment. In granting permits, the Agency may impose reasonable conditions specifically related to the applicant's past compliance history with this Act as necessary to correct, detect, or prevent noncompliance. The Agency may impose such other conditions as may be necessary to accomplish the purposes of this Act, and as are not inconsistent with the regulations promulgated by the Board hereunder. Except as otherwise provided in this Act, a bond or other security shall not be required as a condition for the issuance of a permit. If the Agency denies any permit under this Section, the Agency shall transmit to the applicant within the time limitations of this Section specific, detailed statements as to the reasons the permit application was denied. Such statements shall include, but not be limited to the following:

modifications for lateral expansions for existing MSWLF units one time in a newspaper of general circulation in the county in which the unit is or is proposed to be located.

After January 1, 1994 and until July 1, 1998, operating permits issued under this Section by the Agency for sources of air pollution permitted to emit less than 25 tons per year of any combination of regulated air pollutants, as defined in Section 39.5 of this Act, shall be required to be renewed only upon written request by the Agency consistent with applicable provisions of this Act and regulations promulgated hereunder. Such operating permits shall expire 180 days after the date of such a request. The Board shall revise its regulations for the existing State air pollution operating permit program consistent with this provision by January 1, 1994.

After June 30, 1998, operating permits issued under this Section by the Agency for sources of air pollution that are not subject to Section 39.5 of this Act and are not required to have a federally enforceable State operating permit shall be required to be renewed only upon written request by the Agency consistent with applicable provisions of this Act and its rules. Such operating permits shall expire 180 days after the date of such a request. Before July 1, 1998, the Board shall revise its rules for the existing State air pollution operating permit program consistent with this paragraph and shall adopt rules that require a source to demonstrate that it qualifies for a permit under this paragraph.

(b) The Agency may issue NPDES permits exclusively under this subsection for the discharge of contaminants from point sources into navigable waters, all as defined in the Federal Water Pollution Control Act, as now or hereafter amended, within the jurisdiction of the State, or into any well.

All NPDES permits shall contain those terms and conditions, including but not limited to schedules of compliance, which may be required to accomplish the purposes and provisions of this Act.

The Agency may issue general NPDES permits for discharges from categories of point sources which are subject to the same permit limitations and conditions. Such general permits may be issued without individual applications and shall conform to regulations promulgated under Section 402 of the Federal Water Pollution Control Act, as now or hereafter amended.

The Agency may include, among such conditions, effluent limitations and other requirements established under this Act, Board regulations, the Federal Water Pollution Control Act, as now or hereafter amended, and regulations pursuant thereto, and schedules for achieving compliance

therewith at the earliest reasonable date.

The Agency shall adopt filing requirements and procedures which are necessary and appropriate for the issuance of NPDES permits, and which are consistent with the Act or regulations adopted by the Board, and with the Federal Water Pollution Control Act, as now or hereafter amended, and regulations pursuant thereto.

The Agency, subject to any conditions which may be prescribed by Board regulations, may issue NPDES permits to allow discharges beyond deadlines established by this Act or by regulations of the Board without the requirement of a variance, subject to the Federal Water Pollution Control Act, as now or hereafter amended, and regulations pursuant thereto.

(c) Except for those facilities owned or operated by sanitary districts organized under the Metropolitan Water Reclamation District Act, no permit for the development or construction of a new pollution control facility may be granted by the Agency unless the applicant submits proof to the Agency that the location of the facility has been approved by the County Board of the county if in an unincorporated area, or the governing body of the municipality when in an incorporated area, in which the facility is to be located in accordance with Section 39.2 of this Act.

In the event that siting approval granted pursuant to Section 39.2 has been transferred to a subsequent owner or operator, that subsequent owner or operator may apply to the Agency for, and the Agency may grant, a development or construction permit for the facility for which local siting approval was granted. Upon application to the Agency for a development or construction permit by that subsequent owner or operator, the permit applicant shall cause written notice of the permit application to be served upon the appropriate county board or governing body of the municipality that granted siting approval for that facility and upon any party to the siting proceeding pursuant to which siting approval was granted. In that event, the Agency shall conduct an evaluation of the subsequent owner or operator's prior experience in waste management operations in the manner conducted under subsection (i) of Section 39 of this Act.

Beginning August 20, 1993, if the pollution control facility consists of a hazardous or solid waste disposal facility for which the proposed site is located in an unincorporated area of a county with a population of less than 100,000 and includes all or a portion of a parcel of land that was, on April 1, 1993, adjacent to a municipality having a population of less than 5,000, then the local siting review required under this subsection (c) in conjunction with any permit applied for after that date shall be performed by the governing

body of that adjacent municipality rather than the county board of the county in which the proposed site is located; and for the purposes of that local siting review, any references in this Act to the county board shall be deemed to mean the governing body of that adjacent municipality; provided, however, that the provisions of this paragraph shall not apply to any proposed site which was, on April 1, 1993, owned in whole or in part by another municipality.

In the case of a pollution control facility for which a development permit was issued before November 12, 1981, if an operating permit has not been issued by the Agency prior to August 31, 1989 for any portion of the facility, then the Agency may not issue or renew any development permit nor issue an original operating permit for any portion of such facility unless the applicant has submitted proof to the Agency that the location of the facility has been approved by the appropriate county board or municipal governing body pursuant to Section 39.2 of this Act.

After January 1, 1994, if a solid waste disposal facility, any portion for which an operating permit has been issued by the Agency, has not accepted waste disposal for 5 or more consecutive calendar years, before that facility may accept any new or additional waste for disposal, the owner and operator must obtain a new operating permit under this Act for that facility unless the owner and operator have applied to the Agency for a permit authorizing the temporary suspension of waste acceptance. The Agency may not issue a new operation permit under this Act for the facility unless the applicant has submitted proof to the Agency that the location of the facility has been approved or re-approved by the appropriate county board or municipal governing body under Section 39.2 of this Act after the facility ceased accepting waste.

Except for those facilities owned or operated by sanitary districts organized under the Metropolitan Water Reclamation District Act, and except for new pollution control facilities governed by Section 39.2, and except for fossil fuel mining facilities, the granting of a permit under this Act shall not relieve the applicant from meeting and securing all necessary zoning approvals from the unit of government having zoning jurisdiction over the proposed facility.

Before beginning construction on any new sewage treatment plant or sludge drying site to be owned or operated by a sanitary district organized under the Metropolitan Water Reclamation District Act for which a new permit (rather than the renewal or amendment of an existing permit) is required, such sanitary district shall hold a public hearing within the

municipality within which the proposed facility is to be located, or within the nearest community if the proposed facility is to be located within an unincorporated area, at which information concerning the proposed facility shall be made available to the public, and members of the public shall be given the opportunity to express their views concerning the proposed facility.

The Agency may issue a permit for a municipal waste transfer station without requiring approval pursuant to Section 39.2 provided that the following demonstration is made:

(1) the municipal waste transfer station was in existence on or before January 1, 1979 and was in continuous operation from January 1, 1979 to January 1, 1993;
(2) the operator submitted a permit application to the Agency to develop and operate the municipal waste transfer station during April of 1994;
(3) the operator can demonstrate that the county board of the county, if the municipal waste transfer station is in an unincorporated area, or the governing body of the municipality, if the station is in an incorporated area, does not object to resumption of the operation of the station; and
(4) the site has local zoning approval.

(d) The Agency may issue RCRA permits exclusively under this subsection to persons owning or operating a facility for the treatment, storage, or disposal of hazardous waste as defined under this Act.

All RCRA permits shall contain those terms and conditions, including but not limited to schedules of compliance, which may be required to accomplish the purposes and provisions of this Act. The Agency may include among such conditions standards and other requirements established under this Act, Board regulations, the Resource Conservation and Recovery Act of 1976 (P.L. 94-580), as amended, and regulations pursuant thereto, and may include schedules for achieving compliance therewith as soon as possible. The Agency shall require that a performance bond or other security be provided as a condition for the issuance of a RCRA permit.

In the case of a permit to operate a hazardous waste or PCB incinerator as defined in subsection (k) of Section 44, the Agency shall require, as a condition of the permit, that the operator of the facility perform such analyses of the waste to be incinerated as may be necessary and appropriate to ensure the safe operation of the incinerator.

The Agency shall adopt filing requirements and procedures which are necessary and appropriate for the issuance of RCRA permits, and which are

consistent with the Act or regulations adopted by the Board, and with the Resource Conservation and Recovery Act of 1976 (P.L. 94-580), as amended, and regulations pursuant thereto.

The applicant shall make available to the public for inspection all documents submitted by the applicant to the Agency in furtherance of an application, with the exception of trade secrets, at the office of the county board or governing body of the municipality. Such documents may be copied upon payment of the actual cost of reproduction during regular business hours of the local office. The Agency shall issue a written statement concurrent with its grant or denial of the permit explaining the basis for its decision.

(e) The Agency may issue UIC permits exclusively under this subsection to persons owning or operating a facility for the underground injection of contaminants as defined under this Act. All UIC permits shall contain those terms and conditions, including but not limited to schedules of compliance, which may be required to accomplish the purposes and provisions of this Act. The Agency may include among such conditions standards and other requirements established under this Act, Board regulations, the Safe Drinking Water Act (P.L. 93-523), as amended, and regulations pursuant thereto, and may include schedules for achieving compliance therewith. The Agency shall require that a performance bond or other security be provided as a condition for the issuance of a UIC permit.

The Agency shall adopt filing requirements and procedures which are necessary and appropriate for the issuance of UIC permits, and which are consistent with the Act or regulations adopted by the Board, and with the Safe Drinking Water Act (P.L. 93-523), as amended, and regulations pursuant thereto.

The applicant shall make available to the public for inspection, all documents submitted by the applicant to the Agency in furtherance of an application, with the exception of trade secrets, at the office of the county board or governing body of the municipality. Such documents may be copied upon payment of the actual cost of reproduction during regular business hours of the local office. The Agency shall issue a written statement concurrent with its grant or denial of the permit explaining the basis for its decision.

(f) In making any determination pursuant to Section 9.1 of this Act:

(1) The Agency shall have authority to make the determination of any question required to be determined by the Clean Air Act, as now or hereafter amended, this Act, or the regulations of the Board, including the determination of the Lowest Achievable
Emission Rate, Maximum Achievable Control Technology, or Best Available Control Technology, consistent with the Board's regulations, if any.

(2) The Agency shall, after conferring with the applicant, give written notice to the applicant of its proposed decision on the application including the terms and conditions of the permit to be issued and the facts, conduct or other basis upon which the Agency will rely to support its proposed action.

(3) Following such notice, the Agency shall give the applicant an opportunity for a hearing in accordance with the provisions of Sections 10-25 through 10-60 of the Illinois Administrative Procedure Act.

(g) The Agency shall include as conditions upon all permits issued for hazardous waste disposal sites such restrictions upon the future use of such sites as are reasonably necessary to protect public health and the environment, including permanent prohibition of the use of such sites for purposes which may create an unreasonable risk of injury to human health or to the environment. After administrative and judicial challenges to such restrictions have been exhausted, the Agency shall file such restrictions of record in the Office of the Recorder of the county in which the hazardous waste disposal site is located.

(h) A hazardous waste stream may not be deposited in a permitted hazardous waste site unless specific authorization is obtained from the Agency by the generator and disposal site owner and operator for the deposit of that specific hazardous waste stream. The Agency may grant specific authorization for disposal of hazardous waste streams only after the generator has reasonably demonstrated that, considering technological feasibility and economic reasonableness, the hazardous waste cannot be reasonably recycled for reuse, nor incinerated or chemically, physically or biologically treated so as to neutralize the hazardous waste and render it nonhazardous. In granting authorization under this Section, the Agency may impose such conditions as may be necessary to accomplish the purposes of the Act and are consistent with this Act and regulations promulgated by the Board hereunder. If the Agency refuses to grant authorization under this Section, the applicant may appeal as if the Agency refused to grant a permit, pursuant to the provisions of subsection (a) of Section 40 of this Act. For purposes of this subsection (h), the term "generator" has the meaning given in Section 3.205 of this Act, unless: (1) the hazardous waste is treated, incinerated, or partially recycled for reuse prior to disposal, in which case the last person who treats,
incinerates, or partially recycles the hazardous waste prior to disposal is the
generator; or (2) the hazardous waste is from a response action, in which case the 
person performing the response action is the generator. This subsection (h) does not apply 
to any hazardous waste that is restricted from land disposal under 35 Ill. Adm. Code 728.

(i) Before issuing any RCRA permit, any permit for a waste storage site, sanitary landfill, waste disposal site, waste transfer station, waste treatment facility, waste incinerator, or any waste-transportation operation, or any permit or interim authorization for a clean construction or demolition debris fill operation, the Agency shall conduct an evaluation of the prospective owner's or operator's prior experience in waste management operations and clean construction or demolition debris fill operations. The Agency may deny such a permit, or deny or revoke interim authorization, if the prospective owner or operator or any employee or officer of the prospective owner or operator has a history of:

(1) repeated violations of federal, State, or local laws, regulations, standards, or ordinances in the operation of waste management facilities or sites or clean construction or demolition debris fill operation facilities or sites; or

(2) conviction in this or another State of any crime which is a felony under the laws of this State, or conviction of a felony in a federal court; or conviction in this or another state or federal court of any of the following crimes: forgery, official misconduct, bribery, perjury, or knowingly submitting false information under any environmental law, regulation, or permit term or condition; or

(3) proof of gross carelessness or incompetence in handling, storing, processing, transporting or disposing of waste or clean construction or demolition debris, or proof of gross carelessness or incompetence in using clean construction or demolition debris as fill.

(i-5) Before issuing any permit or approving any interim authorization for a clean construction or demolition debris fill operation in which any ownership interest is transferred between January 1, 2005, and the effective date of the prohibition set forth in Section 22.52 of this Act, the Agency shall conduct an evaluation of the operation if any previous activities at the site or facility may have caused or allowed contamination of the site. It shall be the responsibility of the owner or operator seeking the permit or interim authorization to provide to the Agency all of the information necessary for the Agency to conduct its evaluation. The Agency may deny a permit or interim authorization if previous activities at the site may have caused or allowed

contamination at the site, unless such contamination is authorized under any permit issued by the Agency.

(j) The issuance under this Act of a permit to engage in the surface mining of any resources other than fossil fuels shall not relieve the permittee from its duty to comply with any applicable local law regulating the commencement, location or operation of surface mining facilities.

(k) A development permit issued under subsection (a) of Section 39 for any facility or site which is required to have a permit under subsection (d) of Section 21 shall expire at the end of 2 calendar years from the date upon which it was issued, unless within that period the applicant has taken action to develop the facility or the site. In the event that review of the conditions of the development permit is sought pursuant to Section 40 or 41, or permittee is prevented from commencing development of the facility or site by any other litigation beyond the permittee's control, such two-year period shall be deemed to begin on the date upon which such review process or litigation is concluded.

(l) No permit shall be issued by the Agency under this Act for construction or operation of any facility or site located within the boundaries of any setback zone established pursuant to this Act, where such construction or operation is prohibited.

(m) The Agency may issue permits to persons owning or operating a facility for composting landscape waste. In granting such permits, the Agency may impose such conditions as may be necessary to accomplish the purposes of this Act, and as are not inconsistent with applicable regulations promulgated by the Board. Except as otherwise provided in this Act, a bond or other security shall not be required as a condition for the issuance of a permit. If the Agency denies any permit pursuant to this subsection, the Agency shall transmit to the applicant within the time limitations of this subsection specific, detailed statements as to the reasons the permit application was denied. Such statements shall include but not be limited to the following:

(1) the Sections of this Act that may be violated if the permit were granted;
(2) the specific regulations promulgated pursuant to this Act that may be violated if the permit were granted;
(3) the specific information, if any, the Agency deems the applicant did not provide in its application to the Agency; and
(4) a statement of specific reasons why the Act and the regulations might be violated if the permit were granted.

If no final action is taken by the Agency within 90 days after the filing of the application for permit, the applicant may deem the permit issued. Any applicant for a permit may waive the 90 day limitation by filing a written statement with the Agency.

The Agency shall issue permits for such facilities upon receipt of an application that includes a legal description of the site, a topographic map of the site drawn to the scale of 200 feet to the inch or larger, a description of the operation, including the area served, an estimate of the volume of materials to be processed, and documentation that:

1. The facility includes a setback of at least 200 feet from the nearest potable water supply well;
2. The facility is located outside the boundary of the 10-year floodplain or the site will be floodproofed;
3. The facility is located so as to minimize incompatibility with the character of the surrounding area, including at least a 200 foot setback from any residence, and in the case of a facility that is developed or the permitted composting area of which is expanded after November 17, 1991, the composting area is located at least 1/8 mile from the nearest residence (other than a residence located on the same property as the facility);
4. The design of the facility will prevent any compost material from being placed within 5 feet of the water table, will adequately control runoff from the site, and will collect and manage any leachate that is generated on the site;
5. The operation of the facility will include appropriate dust and odor control measures, limitations on operating hours, appropriate noise control measures for shredding, chipping and similar equipment, management procedures for composting, containment and disposal of non-compostable wastes, procedures to be used for terminating operations at the site, and recordkeeping sufficient to document the amount of materials received, composted and otherwise disposed of; and
6. The operation will be conducted in accordance with any applicable rules adopted by the Board.

The Agency shall issue renewable permits of not longer than 10 years in duration for the composting of landscape wastes, as defined in Section 3.155 of this Act, based on the above requirements.

The operator of any facility permitted under this subsection (m) must submit a written annual statement to the Agency on or before April 1 of each year.

year that includes an estimate of the amount of material, in tons, received for composting.

(n) The Agency shall issue permits jointly with the Department of Transportation for the dredging or deposit of material in Lake Michigan in accordance with Section 18 of the Rivers, Lakes, and Streams Act.

(o) (Blank.)

(p) (1) Any person submitting an application for a permit for a new MSWLF unit or for a lateral expansion under subsection (t) of Section 21 of this Act for an existing MSWLF unit that has not received and is not subject to local siting approval under Section 39.2 of this Act shall publish notice of the application in a newspaper of general circulation in the county in which the MSWLF unit is or is proposed to be located. The notice must be published at least 15 days before submission of the permit application to the Agency. The notice shall state the name and address of the applicant, the location of the MSWLF unit or proposed MSWLF unit, the nature and size of the MSWLF unit or proposed MSWLF unit, the nature of the activity proposed, the probable life of the proposed activity, the date the permit application will be submitted, and a statement that persons may file written comments with the Agency concerning the permit application within 30 days after the filing of the permit application unless the time period to submit comments is extended by the Agency.

When a permit applicant submits information to the Agency to supplement a permit application being reviewed by the Agency, the applicant shall not be required to reissue the notice under this subsection.

(2) The Agency shall accept written comments concerning the permit application that are postmarked no later than 30 days after the filing of the permit application, unless the time period to accept comments is extended by the Agency.

(3) Each applicant for a permit described in part (1) of this subsection shall file a copy of the permit application with the county board or governing body of the municipality in which the MSWLF unit is or is proposed to be located at the same time the application is submitted to the Agency. The permit application filed with the county board or governing body of the municipality shall include all documents submitted to or to be submitted to the Agency, except trade secrets as determined under Section 7.1 of this Act. The permit application and other documents on file with the county board or governing body of the municipality shall be made available for public inspection during regular business hours at the office of the county board or the governing body of the municipality and may be copied upon payment of

Sec. 8h. Transfers to General Revenue Fund.
(a) Except as provided in subsection (b), notwithstanding any other State law to the contrary, the Governor may, through June 30, 2007, from time to time direct the State Treasurer and Comptroller to transfer a specified sum from any fund held by the State Treasurer to the General Revenue Fund in order to help defray the State's operating costs for the fiscal year. The total transfer under this Section from any fund in any fiscal year shall not exceed the lesser of (i) 8% of the revenues to be deposited into the fund during that fiscal year or (ii) an amount that leaves a remaining fund balance of 25% of the July 1 fund balance of that fiscal year. In fiscal year 2005 only, prior to calculating the July 1, 2004 final balances, the Governor may calculate and direct the State Treasurer with the Comptroller to transfer additional amounts determined by applying the formula authorized in Public Act 93-839 to the funds balances on July 1, 2003. No transfer may be made from a fund under this Section that would have the effect of reducing the available balance in the fund to an amount less than the amount remaining unexpended and unreserved from the total appropriation from that fund estimated to be expended for that fiscal year. This Section does not apply to any funds that are restricted by federal law to a specific use, to any funds in the Motor Fuel Tax Fund, the Hospital Provider Fund, the Medicaid Provider Relief Fund, or the Reviewing Court Alternative Dispute Resolution Fund, or to any funds to which subsection (f) of Section 20-40 of the Nursing and Advanced Practice Nursing Act applies. Notwithstanding any other provision of this Section, for fiscal year 2004, the total transfer under this Section from the

Road Fund or the State Construction Account Fund shall not exceed the lesser of (i) 5% of the revenues to be deposited into the fund during that fiscal year or (ii) 25% of the beginning balance in the fund. For fiscal year 2005 through fiscal year 2007, no amounts may be transferred under this Section from the Road Fund, the State Construction Account Fund, the Criminal Justice Information Systems Trust Fund, the Wireless Service Emergency Fund, or the Mandatory Arbitration Fund.

In determining the available balance in a fund, the Governor may include receipts, transfers into the fund, and other resources anticipated to be available in the fund in that fiscal year. The State Treasurer and Comptroller shall transfer the amounts designated under this Section as soon as may be practicable after receiving the direction to transfer from the Governor.

(b) This Section does not apply to any fund established under the Community Senior Services and Resources Act.

(c) This Section does not apply to moneys set aside in the Illinois State Podiatric Disciplinary Fund for podiatric scholarships and residency programs under the Podiatric Scholarship and Residency Act.

Sec. 19. Disciplinary Fund. All fees and fines received by the Department under this Act shall be deposited in the Illinois State Podiatric Disciplinary Fund, a special fund created hereunder in the State Treasury. Of the moneys deposited into the Illinois State Podiatric Disciplinary Fund, during each 2-year renewal period, $200,000 ±5% of the money received from the payment of renewal fees shall be used for podiatric scholarships and residency programs under the Podiatric Scholarship and Residency Act and the remainder shall be appropriated to the Department for expenses of the Department and of the Podiatric Medical Licensing Board and for podiatric scholarships and residency programs under the Podiatric Scholarship and Residency Act.

Money in the Illinois State Podiatric Disciplinary Fund may be invested and reinvested in investments authorized for the investment of funds of the State Employees' Retirement System of Illinois.

All earnings received from such investments shall be deposited in the

Illinois State Podiatric Disciplinary Fund and may be used for the same purposes as fees deposited in such fund.

Moneys in the Fund may be transferred to the Professions Indirect Cost Fund as authorized under Section 2105-300 of the Department of Professional Regulation Law (20 ILCS 2105/2105-300).

Moneys set aside for podiatric scholarships and residency programs under the Podiatric Scholarship and Residency Act, as provided for in this Section, may not be transferred under Section 8h of the State Finance Act.

WHEREAS, The State of Illinois recognizes certain dates of the year for honoring specific patriotic, civic, cultural and historic persons, activities, symbols, or events; and

WHEREAS, On June 20, 1782, the American eagle was designated as the National Emblem of the United States when the Great Seal of the United States was adopted, and is the living symbol of the United States' freedoms, spirit and strength; in December 1818, shortly after the Illinois Territory gained statehood, the bald eagle became part of the Great Seal of the State of Illinois; and

WHEREAS, Found only in North America and once on the endangered species list, the bald eagle population is now growing again, especially along the western border of Illinois; while the natural domain of bald eagles is from Alaska to California, and Maine to Florida, the great State of Illinois provides a winter home for thousands of these majestic birds as they make their journey northwards to the upper Midwest and Canada for spring nesting; and

WHEREAS, From December through February, Illinois is home to the largest concentration of wintering bald eagles in the Continental United States; eagle-watching has become a thriving hobby and form of State tourism in at least 27 Illinois counties; many organizations and municipalities across the State host annual eagle viewing and educational events and celebrations; and

WHEREAS, Illinois is home to two major waterways; our treasured Illinois River as it connects Lake Michigan to the Mississippi River, and the mighty Mississippi River as it flows along the western border, perfect habitats for eagles who must live near large bodies of open water where there are fish to eat and tall trees for nesting and roosts; therefore, be it

RESOLVED, BY THE SENATE OF THE NINETY-FOURTH GENERAL ASSEMBLY OF THE STATE OF ILLINOIS, THE HOUSE OF REPRESENTATIVES CONCURRING HEREIN, that we recognize the fourth Saturday in January as American Eagle Day in Illinois and encourage public and private entities of the State to celebrate these magnificent birds and strive to keep them flying free.

WHEREAS, Kentucky Congressman Ed Whitfield introduced H.R. 327 in the 108th Congress to authorize the President to award a Medal of Honor posthumously to Lieutenant Garlin Murl Conner; and
WHEREAS, Lieutenant Garlin Murl Conner is Kentucky's most decorated war hero, who served on the front lines for over eight hundred days in eight major campaigns; he was wounded seven times but returned to combat and continued to fight on the front lines after each wound; and
WHEREAS, During World War II, over forty 3rd Division soldiers received Medals of Honor, more than any other Division; however, Lieutenant Garlin Murl Conner was not awarded the Medal of Honor due to an oversight and failure to process the paperwork; and
WHEREAS, Lieutenant Conner served in the 3rd Infantry Division with Audie L. Murphy, America's most decorated hero of all wars; as compared to Audie L. Murphy, Lieutenant Conner was awarded more Silver Stars for acts of valor, fought in more campaigns, served on the front lines longer, and was wounded more times; he was awarded many honors, including the Distinguished Service Cross, the Silver Star with three Oak Leaf Clusters, the Bronze Star, the Purple Heart with six Oak Leaf Clusters, and other medals; and
WHEREAS, On June 20, 1945, Lieutenant Conner was awarded the Croix de Guerre, the French Medal of Honor, that was also awarded to Sergeant Alvin C. York, America's most decorated World War I soldier,
who was a friend of Lieutenant Conner and lived a few miles from Lieutenant Conner's home on the Kentucky-Tennessee border; and

WHEREAS, Major General Lloyd B. Ramsey (Ret.), who was Lieutenant Conner's battalion commander during combat in World War II, is still living and has signed the necessary documents for awarding the Medal of Honor to Lieutenant Conner; in 1945, Major General Ramsey wrote that Lieutenant Conner was "one of the outstanding soldiers of this war, if not the outstanding....I've never seen a man with as much courage and ability as he has"; and

WHEREAS, Stephen Ambrose, America's foremost World War II historian, founder of the D-Day Museum in New Orleans, Louisiana, and author of many books, wrote on November 11, 2000, "I am in complete support of the effort to make Lieutenant Garlin M. Conner a Medal of Honor recipient. What Lieutenant Conner did in stopping the German assault near Houssen, France in January 1945 was far above the call of duty. I've met and talked at length with many Medal of Honor recipients and am sure they would all agree that Lieutenant Conner more than deserves the honor of joining them"; and

WHEREAS, On April 3, 2001, 3rd Infantry Division leaders named the new EAGLE BASE in Bosnia-Herzegovina after Lieutenant Conner because of his gallantry in World War II and because "It's a company-grade forward operating base named after a soldier with a company-grade rank"; and

WHEREAS, Richard Chilton, a former Green Beret from Genoa City, Wisconsin, has been on a mission since 1996 to have the Medal of Honor awarded to Lieutenant Conner; his research has documented that Lieutenant Conner is one of the great combat heroes of World War II, equal in every way to Audie L. Murphy; Chilton has made presentations to dozens of schools about Lieutenant Conner's war record and has copies of over 2,500 letters written by students to President George W. Bush requesting the Medal of Honor be awarded; after reviewing Chilton's information, a host of former war veterans have written Congress requesting passage of H.R. 327 to award the Medal of Honor to one of America's greatest citizen soldiers, Lieutenant Garlin Murl Conner; therefore, be it

TINLEY PARK MEDICAL HEALTH CENTER
(Senate Joint Resolution No. 9)

WHEREAS, Tinley Park Mental Health Center (MHC) is an essential element in the network of mental health care providers serving Chicago's south side, south suburban Cook County, and Will, Grundy, and Kankakee counties; and

WHEREAS, Community-based agencies in this region provide outpatient therapy, housing assistance, and case management for many thousands of individuals with mental illness; and

WHEREAS, Tinley Park MHC effectively functions as a safety net for community-based agencies that can refer mentally ill individuals to
Tinley Park MHC when they are in crisis and represent a danger to themselves or others or are in need of more intensive psychiatric services; and

WHEREAS, Tinley Park MHC is a nationally accredited, highly regarded treatment center which offers an exceptional and comprehensive range of medical, social, and psychiatric supports to clients in acute phases of their illness; and

WHEREAS, Tinley Park MHC also functions as an essential alternative to incarceration for individuals with mental illness who engage in anti-social behavior that brings them into contact with law enforcement officials; and

WHEREAS, The communities served by Tinley Park MHC already suffer from a shortage of affordable, accessible mental health services; and

WHEREAS, With over 140 beds, Tinley Park MHC is the largest inpatient psychiatric treatment center in the region, with more than 2,000 admissions annually; and

WHEREAS, Tinley Park MHC has excelled at stabilizing individuals in crisis and aiding them to return to independent lives in their communities, with an average length of inpatient treatment of just ten days; and

WHEREAS, Tinley Park MHC maintains close working relationships with community-based mental health agencies and services, jointly developing discharge plans, linking patients with community resources, and providing transition services; and

WHEREAS, Those private hospitals in the region that do have inpatient psychiatric units frequently refer their poorest and most difficult patients to Tinley Park MHC and few have the comprehensive level of services that Tinley Park MHC offers; and

WHEREAS, As a State-operated facility, Tinley Park MHC treats patients who have no insurance or who have exhausted their mental health coverage and is the only mental health resource in the region that reliably provides inpatient treatment to those who cannot pay; and

WHEREAS, The costs at Tinley Park MHC are more than 50% below those of comparable private hospitals in the area; and

WHEREAS, Although the Department of Human Services' (DHS) FY05 budget includes full-year funding for Tinley Park MHC, the budget narrative states that the budget is premised on the "closure and sale of the Tinley Park mental health facility"; and

WHEREAS, DHS has established a Metro South Planning Task Force to develop the best possible network of services for the Chicago "Southland" region; and
WHEREAS, The Cook County Board and more than two dozen Southland elected officials, as well as professional and advocacy organizations, have spoken out against closing Tinley Park MHC; and

WHEREAS, This broad consensus makes clear that closing down the Southland region's only public inpatient mental health center would violate the will of the affected communities; and

WHEREAS, Tinley Park MHC has a dedicated and skilled workforce with a unique body of experience in treating the most severely mentally ill; therefore, be it

RESOLVED, BY THE SENATE OF THE NINETY-FOURTH GENERAL ASSEMBLY OF THE STATE OF ILLINOIS, THE HOUSE OF REPRESENTATIVES CONCURRING HEREIN, that Chicago's South Side, South Suburban Cook County, Will County, Kankakee County, and Grundy County, all of which are now served by Tinley Park MHC, must continue to have a public inpatient mental health facility that can appropriately serve the most severely mentally ill; and be it further

RESOLVED, That if the Metro Task Force determines that the current Tinley Park MHC facility cannot continue to meet the needs of these communities, a new facility should be purchased or built; and be it further

RESOLVED, That Tinley Park MHC should remain open at its current location unless and until a new DHS-operated inpatient mental health center is opened in the Southland region; and be it further

RESOLVED, That the Department of Human Services maintain its full admission and service capacity at the Tinley Park MHC; and be it further

RESOLVED, That the Department of Human Services should continue to work to foster a comprehensive array of services throughout the region; and be it further

WHEREAS, day care homes provide essential services to Illinois children and families in need as part of the State’s child care assistance program administered by the Department of Human Services under 305 ILCS 5/9A-11 and 89 Ill. Admin. Code 50.210 et seq.; and

WHEREAS, the State Department of Human Services has adopted as priority goals: fully implementing a child care assistance system that enables all Illinois families to access quality care; supporting quality child care through a system of adequate base rates and financial incentives for implementing progressively higher quality standards; and supporting a child care workforce dedicated to providing the highest quality care;

WHEREAS, there is a continuing need to expand access to quality child care including that provided by day care home providers and low reimbursement rates have contributed to the decreasing numbers of licensed homes and the difficulties of parents in finding adequate care;

WHEREAS, there is a need to stabilize the day care home workforce which includes licensed and license exempt home providers;

WHEREAS, it is important to preserve freedom of choice for parents in selecting appropriate day care services for their children and to do so, the State must be able to ensure the availability of quality child care services on terms that will attract and retain sufficient numbers of licensed and license exempt day care home providers in the State’s child care assistance program; and

WHEREAS, individual families receiving services through the State’s child care assistance program do not control all the economic terms of the delivery of services and therefore cannot effectively address concerns common to day care home providers; and

WHEREAS, day care home providers are located throughout the State and therefore may not be able to effectively voice their common concerns about the State’s child care assistance program, their role in the program, or the terms and conditions of their provision of services under the program without representation; and

WHEREAS, it is essential for the State to receive input from the day care home providers in order to improve the delivery of services under the State’s child care assistance program; and

WHEREAS, the Department of Human Services would benefit from a system of representation for day care home providers in implementing its goals for improvement of the State’s child care assistance program and in particular the delivery of quality day care home
services; and

WHEREAS, a system of representation for providers should provide for a fair election, instituted by a reasonable percentage of providers, given the 70% provider turnover every year, and held promptly in accordance with nationally recognized standards for consent elections; and

WHEREAS, the Department of Human Services, subject to my constitutional authority to ensure the faithful execution of the laws, has plenary authority to determine the terms and conditions under which day care services are provided in the State’s child care assistance program, including setting rates and other compensation and devising a process for ensuring that those rates are fair and reasonable; and

WHEREAS, day care home providers are not State employees for the purposes of eligibility to receive statutory benefits because the State does not hire, supervise or terminate their services.

THEREFORE, I hereby order the following:

I. The State shall recognize a representative designated by a majority of day care home licensed and license exempt providers, voting in a mail ballot election, as the exclusive representative of day care home providers that participate in the State’s child care assistance program, accord said representative the same rights and duties granted to employee representatives by the Illinois Labor Relations Act, 5 ILCS 315/1 et seq., and engage in collective negotiations with said representative concerning all terms and conditions of the provision of services for day care home providers under the State’s child care assistance program that are within the State’s control. Any organization that can show that at least 10% of providers wish to be represented by it may participate in such an election, which shall be held within 42 days of a request for an election.

II. In according the day care home providers and their selected representative these rights, the State intends that the “State action exemption” to application of the federal antitrust laws be fully available to the State, day care home providers and their selected representative to the extent that their activities are authorized pursuant to this Executive Order.
III. This Executive Order is not intended to and will not alter in any way either (1) the role of parents in selecting, directing and terminating the services of day care home providers under the State’s child care assistance program nor (2) the fact that the providers are not state employees.

This Executive Order #1 shall take effect upon filing with the Secretary of State.

Issued by the Governor February 18, 2005.

EXECUTIVE ORDER ON A SWEATSHOP FREE PROCUREMENT POLICY

WHEREAS, each year the State spends millions of dollars contracting with the private sector for the purchase, rental, and laundering of apparel and textile products;

WHEREAS, the prudent expenditure of public dollars requires that the State’s procurement process leads to the selection of qualified and responsible contractors who have the ability to perform the contract;

WHEREAS, the State of Illinois has long supported the premise that employers should fairly compensate employees, that the health and safety of workers should be protected, and that no form of discrimination or abuse should be tolerated;

WHEREAS, occasionally, laws and regulations designed to safeguard basic tenets of ethical business practice are disregarded in some workplaces, commonly referred to as “sweatshops”; and

WHEREAS, the State’s procurement interests are served by doing
business with contractors who make a good faith effort to ensure that they and their subcontractors shun sweatshop practices and adhere to Illinois workplace standards;

THEREFORE, I hereby order the following:

I. Affidavit Requirement
Seeking to protect these interests, the State requires that all contractors subject to this Administrative Order sign an affidavit stating that they and, to the best of their knowledge, their subcontractors will comply with the standards set forth in this Order.

II. Definitions.
The following definitions shall apply to this Order:
1. “Contract” means an agreement to procure or launder apparel and textile products and related supplies to the State. Contract includes, but is not limited to, the procurement and laundering of garments, uniforms, footwear, related accessories, and textile products.
2. “Contractor”, “Vendor”, or “Bidder” means a person, partnership, corporation or other entity which has a contract or seeks to have a contract with the State.
3. “Procurement” means State purchasing, renting, leasing or laundering of apparel and textile products and related goods, including allowance and voucher programs.
4. “Subcontractor” means a person, partnership, corporation or other entity which enters into a contract with a contractor for performance of some or all of the State contracted work.

III. Scope
This Order applies to all apparel and textile products procured by or laundered for all departments, agencies, boards and commissions under the jurisdiction of the Governor. All other agencies, boards, commissions, authorities, universities, and other state institutions are urged to adopt similar procedures. This Order applies to contractors who enter into contracts with a value in excess of $25,000.

IV. Substantive Standards
All apparel and textiles procured by the State of Illinois must be manufactured and laundered (if applicable) in facilities that meet the following requirements:
1. Provide working conditions that meet or exceed the International Labor Organization (ILO) Conventions’
standards, including the ILO Declaration on Fundamental Principles and Rights at Work, governing freedom of association, forced labor, child labor, and nondiscrimination, as well as payment of wages, hours of work, occupational health, occupational safety, and that are in compliance with all applicable local, county, and state laws of the locality of manufacture, except where such a condition is preempted by federal or state law.

2. Employees are paid a “non-poverty” level of wages & benefits at least equivalent to the U.S. federal poverty line for a family of three. For manufacturing operations in countries other than the U.S., the wage shall be comparable to the wage for domestic manufacturers as defined above, adjusted to reflect the country’s level of economic development.

3. Employees are not terminated for other than just cause and have access to a mediator to resolve workplace disputes that fall outside of the jurisdiction of the National Labor Relations Board.

4. Employees shall have at least one day off in every seven-day period and at least 40 hours of paid time off per year, and all overtime hours shall be worked voluntarily.

5. There shall be no discrimination in employment - including in hiring, salary, benefits, advancement, discipline, termination or retirement - on the basis of gender, race, religion, age, disability, sexual orientation, or nationality. Workers are not subjected to sexual, psychological or verbal harassment, abuse or corporal punishment, nor are they subjected to forced use of contraceptives or pregnancy tests by their employer.

6. Maintenance of verifiable wage and hour records for each worker that shall be provided to each worker.

phone number, and the average wage paid to workers for each facility.

! An affidavit that each of the proposed facilities, including any subcontractors, meets all of the substantive standards defined above.

! This information will be made available to the public as soon as possible, but in no case less than 30 days before a decision is made to award a contract to a particular vendor. Any changes to the submitted information during the term of a contract must be reported by the vendor to the procuring agency.

VI. Violations & Enforcement:
CMS will establish an oversight process with an “Apparel Procurement Advisory Board” to receive and assess evidence of non-compliance by bidders, contractors, or vendors, and to consider issues relating to implementation and enforcement of this Order and to make recommendations to address such issues. The Board may coordinate with an independent non-profit organization to investigate allegations of non-compliance with this Order. A vendor’s, bidder’s, or contractor’s refusal to allow an independent non-profit organization access to its facilities to investigate alleged violations of this Order shall itself constitute a violation of this Order.

The Apparel Procurement Advisory Board shall be composed of:

2. Three individuals selected by the Governor representing uniformed unions of employees of the State.

! require immediate corrective action by the bidder or vendor to come into compliance;

! terminate an existing apparel contract;

! bar the vendor or bidder from receiving pending or subsequent contracts.

VII. Waiver
Specific requirements of this Order may be waived if it is determined by the public body that there is no vendor able to meet those specific requirements. In such event, the public body shall take every reasonable measure to contract with a vendor who is able to satisfy most closely the requirements of this section. The provisions of this order may be waived by express waiver in a bona fide collective bargaining agreement.

VIII. Severability
If any provision of this Order is found invalid by a court of competent jurisdiction, the remaining provisions shall remain in full force and effect.

WHEREAS, millions of Illinoisans and their families suffer through debilitating diseases and injuries, and these conditions place enormous emotional and financial stress on the people afflicted and all those who care for them; and

WHEREAS, several states have taken their own independent action in pursuit of developing better treatments and finding cures by implementing or proposing public funding initiatives for the development of embryonic stem cell research in their states; and

WHEREAS, the State of Illinois should maximize the use of state research funds by giving priority to stem cell research that has the greatest potential for therapies and cures that cannot or are unlikely to receive sufficient federal funding; and

WHEREAS, medical research advances that lead to better treatments of diseases and ultimately cures will help reduce long-term health care costs on Illinois taxpayers; and

THEREFORE, I HEREBY ORDER THE FOLLOWING:
Illinois Department of Public Health (Grant program/Rulemaking)
The Director of the Illinois Department of Public Health shall develop an Illinois Regenerative Medicine Institute (IRMI) program within the

For the purposes of this paragraph, payment of customary medical charges for the removal, processing, disposal, preservation, quality control, storage, transplantation, or implantation of the tissue does not constitute valuable consideration. This paragraph does not prohibit reimbursement for removal, storage, or transportation of embryonic fetal tissue for research purposes pursuant to this Executive Order.

future program directions.

MUSEUM OF SCIENCE AND INDUSTRY U-505
SUBMARINE MONTH

WHEREAS, during World Wars I and II, 55,000 American sailors lost their lives in battles in the Atlantic Ocean, many as a result of German U-boat attacks. Frighteningly, many of those attacks occurred in close proximity to the United States; and

WHEREAS, one such U-boat, the U-505, was single-handedly responsible for sinking three American ships, along with two ships from Britain, one from Norway, one from the Netherlands and one from Columbia; and

WHEREAS, in 1943, the Allied Forces devised a plan to defeat the U-boats. Led by a Chicagoan, Navy Captain Daniel Gallery, a task force of six ships set out to capture a German U-boat in the Atlantic; and

WHEREAS, on June 4, 1944, Gallery’s Task Force was successful in the first phase of its mission, making sonar contact with the submerged U-505, only 600 yards away. The Americans began their attack, and in the ensuing minutes and hours, the U-505 surfaced, the crew surrendered, and the Americans bravely boarded the sinking submarine to secure its capture; and

WHEREAS, more than just a trophy of war, the U-505 and its seizure were instrumental in helping the Allies understand German technology and codes, as well as halting the destruction of Allied ships; and

WHEREAS, after the war, Gallery was determined to bring this amazing artifact from Portsmouth, New Hampshire to Chicago, and in 1954, he was successful in that effort. On September 3rd of that year, more than 15,000 people gathered to witness the U-505 come ashore to it’s new home, Chicago’s Museum of Science and Industry; and

WHEREAS, over the last 50 years, an estimated 24 million people have toured the inside of the U-505 at the Museum, learning about what life
was like on a submarine and how the capture took place. In April 2004, after more than seven years of planning, restoration, relocation and construction, the U-505 was moved to an underground exhibit hall for a brand new exhibit to open on June 5, 2005 that will enrich and educate visitors about the story of America’s entry into World War II, the events surrounding the Battle for the Atlantic, the daring plan to seize a German war vessel on the high seas and the technological benefits we have derived from the submarine’s capture; and

WHEREAS, the U-505 not only teaches us about the history of World War II, and specifically, about warfare on the Atlantic Ocean, but it also gives us the opportunity to commemorate the lives of all the brave Americans who have given the ultimate sacrifice for their countries in both World Wars, and throughout all American conflicts. My administration is proud to congratulate the Museum of Science of Industry as they open this historic exhibit:

WHEREAS, if we accept that we do not choose who we are born as, then we must accept the basic idea that all humans are entitled to the same opportunities regardless of age, citizenship, ethnicity, gender, race, religion, and sexual orientation; and

WHEREAS, indeed, equality is a birthright affirmed by our nation’s founders who declared: “We hold these truths to be self-evident, that all men are created equal.” Although that promise went unfulfilled for too many Americans for far too long, those words speak a truth that we all hold dear; and

WHEREAS, just this year, we took a monumental step in human rights by amending the Illinois Human Rights Act to include sexual orientation. Whether gay, lesbian, bi-sexual, transgender or straight, we are all entitled to the same opportunities for success and advancement; and

WHEREAS, legislation by itself will not prevent discrimination. That is why the Illinois Department of Human Rights and the Illinois Human Rights Commission are invested with full authority to investigate and adjudicate all violations of human rights; and

WHEREAS, we have a long road ahead of us before the human rights of all are protected, but as we celebrate the 25th anniversary of the Illinois Human Rights Act, we have much to be proud of in our state’s and our nation’s history:

THEREFORE, I, Rod R. Blagojevich, Governor of the State of Illinois, do hereby proclaim November 16, 2005 as HUMAN RIGHTS DAY in Illinois to reaffirm the noble truths so eloquently proclaimed by our founders and articulated by our favorite son, to honor the remarkable heritage

slavery, the nineteenth amendment that guaranteed all women the right to
vote, and the Civil Rights Acts of 1964 and 1965; and

contributions to it. It was our favorite son, Abraham Lincoln, who guided us
through the nation’s greatest crisis and with a masterful stroke of his pen
emancipated 4 million slaves; and

human rights, and in 1980, instituted a comprehensive human rights act that
prohibits discrimination in employment, housing, credit transactions, and
public accommodations based on age, citizenship, ethnicity, gender, race, and
religion; and
WHEREAS, just this year, we took a monumental step in human
rights by amending the Illinois Human Rights Act to include sexual
orientation. Whether or not one is gay, lesbian, bi-sexual, or transgender, we
are all entitled to the same opportunities for success and advancement; and
WHEREAS, legislation by itself will not prevent discrimination. That
is why the Illinois Department of Human Rights and the Illinois Human
Rights Commission are invested with full authority to investigate and
adjudicate all violations of human rights; and
WHEREAS, we have a long road ahead of us before the human rights
of all are protected, but as we celebrate the 25th anniversary of the Illinois
Human Rights Act, we have much to be proud of in our state’s and our
nation’s history:

THEREFORE, I, Rod R. Blagojevich, Governor of the State of Illinois, do hereby proclaim November 16, 2005 as HUMAN RIGHTS DAY in Illinois to reaffirm the noble truths so eloquently proclaimed by our founders and articulated by our favorite son, to honor the remarkable heritage of human rights in our state, and to thank all those that have contributed to the pursuit of equality in Illinois.

ROSA PARKS WEEK

WHEREAS, most historians consider December 1, 1955 the beginning of the modern Civil Rights Movement in the United States. That was the day when an unknown African-American seamstress named Rosa Parks refused to give up her bus seat for a white passenger; and

WHEREAS, born on February 4, 1913 in Tuskegee, Alabama as Rosa Louise McCauley, Mrs. Parks was the daughter of James McCauley, a carpenter, and Leona McCauley, a teacher; and

WHEREAS, at the age of 11, Mrs. Parks began school at the Montgomery Industrial School for Girls, a private school founded by liberal-minded women. While there, Mrs. Parks’ mother encouraged her daughter to “take advantage of the opportunities, no matter how few they were;” and

WHEREAS, after attending Alabama State Teachers College, Mrs. Parks settled in Montgomery with her husband, Raymond Parks. There, the couple joined the local chapter of the NAACP, where Mrs. Parks served as Secretary, and they both worked quietly for many years to improve life for African-Americans in the segregated South; and

WHEREAS, then, on that fateful December day in 1955, Mrs. Parks was arrested and fined for violating a city ordinance. The bus incident led to the formation of the Montgomery Improvement Association, led by a young pastor of the Dexter Avenue Baptist Church, Dr. Martin Luther King, Jr.; and

WHEREAS, the Association called for a boycott of the city-owned bus company, which lasted an unprecedented 381 days and broke only after the Supreme Court struck down the city ordinance that Mrs. Parks so bravely and courageously defied. Subsequently, a general movement led to the desegregation of the South; and

WHEREAS, ever since then, Mrs. Parks has been a remarkable American icon, and an inspiration to people throughout the world who cherish freedom and liberty. Her death on October 24 is a great loss to all of us, but we will always remember her dignity and the magnanimous spirit that
she shared with everyone:

THEREFORE, I, Rod R. Blagojevich, Governor of the State of Illinois, do hereby proclaim October 25-31, 2005 as ROSA PARKS WEEK in Illinois in honor and remembrance of Rosa Parks and her incredible contributions to human liberty and freedom.

2005-355
WORLD CHAMPION CHICAGO WHITE SOX DAY

WHEREAS, after winning 99 games in the regular season and capturing their first American League Central Division crown since 2000, the 2005 Chicago White Sox dispatched their first two playoffs opponents, the Boston Red Sox and the Los Angeles Angels of Anaheim, in quick fashion, losing only one contest among the two series and clinching their first World Series berth since 1959. Their World Series opponent would be the National League Champion Houston Astros; and

WHEREAS, boasting one of the best pitching staffs in the National League, the Astros presented a sizeable challenge for the White Sox, but the Sox were unfazed, winning 5-3 in game one on the heels of good pitching by starter Jose Contreras and relievers Neil Cotts and Bobby Jenks, and RBIs by Jermaine Dye, Joe Crede, A.J. Pierzynski, Juan Uribe, and Scott Podsednik; and

WHEREAS, in game two of the World Series, after being outscored 4-2 through the first six and a half innings, the White Sox scored four runs in the seventh inning on Paul Konerko’s grand slam, and won the game in the bottom of the ninth on a walk-off homerun by an unlikely hero, leadoff hitter Scott Podsednik, to capture a 2-0 lead in the Series and send it to Houston for game three; and

WHEREAS, after playing 14 innings, lasting five hours and forty-one minutes, which made game three the longest World Series game ever, the White Sox came out victorious on a solo homerun by backup infielder and former Astro, Geoff Blum in the top of the 14th. With a commanding 3-0 lead in the Series, the Sox were just one win away from their first World Championship since 1917; and

WHEREAS, ready to complete the second World Series sweep by an American League team in as many years, the White Sox again won in dramatic fashion in game four, with both teams going scoreless through the first seven innings, and the Sox jumping out on top in the eighth on an RBI single by Jermaine Dye. One inning later, closer Bobby Jenks nailed down the save and the Chicago White Sox became the World Champions of
baseball for the first time in 88 years. Their eight consecutive victories dating back to the American League Championship Series tied a postseason record set by last year’s Boston Red Sox. Dye was named Most Valuable Player of the Series after hitting .438 with one homerun and three RBIs, and playing a solid defensive right field; and

WHEREAS, the State of Illinois could not be prouder of all the White Sox players, along with Chairman Jerry Reinsdorf, General Manager Ken Williams, Manager Ozzie Guillen, and all the coaches and front office staff, for winning the 2005 World Series. A true team effort all season led to their stunning and momentous victory, and this achievement is proof of their commitment to baseball excellence:

THEREFORE, I, Rod R. Blagojevich, Governor of the State of Illinois, do hereby proclaim Friday, October 28, 2005 as WORLD CHAMPION CHICAGO WHITE SOX DAY in Illinois, and join the City of Chicago and the rest of the State in congratulating the Sox on their remarkable championship season.
