Section 30. The Adoption Act is amended by changing Sections 12.1 and 18.3a as follows:

Sec. 12.1. Putative Father Registry. The Department of Children and Family Services shall establish a Putative Father Registry for the purpose of determining the identity and location of a putative father of a minor child who is, or is expected to be, the subject of an adoption proceeding, in order to provide notice of such proceeding to the putative father. The Department of Children and Family Services shall establish rules and informational material necessary to implement the provisions of this Section. The Department shall have the authority to set reasonable fees for the use of the Registry. All such fees for the use of the Registry that are received by the Department or its agent shall be deposited into the fund authorized under subsection (b) of Section 25 of the Children and Family Services Act. The Department shall use the moneys in that fund for the purpose of maintaining the Registry.

(a) The Department shall maintain the following information in the Registry:

(1) With respect to the putative father:
   (i) Name, including any other names by which the putative father may be known and that he may provide to the Registry;
   (ii) Address at which he may be served with notice of a petition under this Act, including any change of address;
   (iii) Social Security Number;
   (iv) Date of birth; and
   (v) If applicable, a certified copy of an order by a court of this State or of another state or territory of the United States adjudicating the putative father to be the father of the child.

(2) With respect to the mother of the child:

New matter indicated by italics - deletions by strikeout
(i) Name, including all other names known to the putative father by which the mother may be known;
(ii) If known to the putative father, her last address;
(iii) Social Security Number; and
(iv) Date of birth.

(3) If known to the putative father, the name, gender, place of birth, and date of birth or anticipated date of birth of the child.

(4) The date that the Department received the putative father's registration.

(5) Other information as the Department may by rule determine necessary for the orderly administration of the Registry.

(b) A putative father may register with the Department before the birth of the child but shall register no later than 30 days after the birth of the child. All registrations shall be in writing and signed by the putative father. No fee shall be charged for the initial registration. The Department shall have no independent obligation to gather the information to be maintained.

(c) An interested party, including persons intending to adopt a child, a child welfare agency with whom the mother has placed or has given written notice of her intention to place a child for adoption, the mother of the child, or an attorney representing an interested party may request that the Department search the Registry to determine whether a putative father is registered in relation to a child who is or may be the subject to an adoption petition.

(d) A search of the Registry may be proven by the production of a certified copy of the registration form, or by the certified statement of the administrator of the Registry that after a search, no registration of a putative father in relation to a child who is or may be the subject of an adoption petition could be located.

(e) Except as otherwise provided, information contained within the Registry is confidential and shall not be published or open to public inspection.

(f) A person who knowingly or intentionally registers false information under this Section commits a Class B misdemeanor. A person

who knowingly or intentionally releases confidential information in violation of this Section commits a Class B misdemeanor.

(g) Except as provided in subsections (b) or (c) of Section 8 of this Act, a putative father who fails to register with the Putative Father Registry as provided in this Section is barred from thereafter bringing or maintaining any action to assert any interest in the child, unless he proves by clear and convincing evidence that:

(1) it was not possible for him to register within the period of time specified in subsection (b) of this Section; and
(2) his failure to register was through no fault of his own; and
(3) he registered within 10 days after it became possible for him to file.

A lack of knowledge of the pregnancy or birth is not an acceptable reason for failure to register.

(h) Except as provided in subsection (b) or (c) of Section 8 of this Act, failure to timely register with the Putative Father Registry (i) shall be deemed to be a waiver and surrender of any right to notice of any hearing in any judicial proceeding for the adoption of the child, and the consent or surrender of that person to the adoption of the child is not required, and (ii) shall constitute an abandonment of the child and shall be prima facie evidence of sufficient grounds to support termination of such father's parental rights under this Act.

(i) In any adoption proceeding pertaining to a child born out of wedlock, if there is no showing that a putative father has executed a consent or surrender or waived his rights regarding the proposed adoption, certification as specified in subsection (d) shall be filed with the court prior to entry of a final judgment order of adoption.

(j) The Registry shall not be used to notify a putative father who is the father of a child as a result of criminal sexual abuse or assault as defined under Article 12 of the Criminal Code of 1961.

Notwithstanding any other provision of this Act, any adopted or surrendered person 21 years of age or over, any adoptive parent or legal guardian of an adopted or surrendered person under the age of 21, or any birth parent of an adopted or surrendered person who is 21 years of age or over may petition the court in any county in the State of Illinois for appointment of a confidential intermediary as provided in this Section for the purpose of exchanging medical information with one or more mutually consenting biological relatives, obtaining identifying information about one or more mutually consenting biological relatives, or arranging contact with one or more mutually consenting biological relatives. Additionally, in cases where an adopted or surrendered person is deceased, an adult child of the adopted or surrendered person or his or her adoptive parents or surviving spouse may file a petition under this Section and in cases where the birth parent is deceased, an adult birth sibling of the adopted or surrendered person or of the deceased birth parent may file a petition under this Section for the purpose of exchanging medical information with one or more mutually consenting biological relatives of the adopted or surrendered person, obtaining identifying information about one or more mutually consenting biological relatives of the adopted or surrendered person, or arranging contact with one or more mutually consenting biological relatives of the adopted or surrendered person. Beginning January 1, 2006, any adopted or surrendered person 21 years of age or over; any adoptive parent or legal guardian of an adopted or surrendered person under the age of 21; any birth parent, birth sibling, birth aunt, or birth uncle of an adopted or surrendered person over the age of 21; any surviving child, adoptive parent, or surviving spouse of a deceased adopted or surrendered person who wishes to petition the court for the appointment of a confidential intermediary shall be required to accompany their petition with proof of registration with the Illinois Adoption Registry and Medical Information Exchange.

(b) Petition. Upon petition by an adopted or surrendered person 21 years of age or over, an adoptive parent or legal guardian of an adopted or surrendered person under the age of 21, or a birth parent of an adopted or surrendered person under the age of 21, or any adult child of an adopted or surrendered person or his or her adoptive parents or surviving spouse may file a petition under this Section for the purpose of exchanging medical information with one or more mutually consenting biological relatives, obtaining identifying information about one or more mutually consenting biological relatives, or arranging contact with one or more mutually consenting biological relatives.
surrendered person who is 21 years of age or over, the court shall appoint a confidential intermediary. Upon petition by an adult child, adoptive parent or surviving spouse of an adopted or surrendered person who is deceased, by an adult birth sibling of an adopted or surrendered person whose common birth parent is deceased and whose adopted or surrendered birth sibling is 21 years of age or over, or by an adult sibling of a birth parent who is deceased, and whose surrendered child is 21 years of age or over, the court may appoint a confidential intermediary if the court finds that the disclosure is of greater benefit than nondisclosure. The petition shall state which biological relative or relatives are being sought and shall indicate if the petitioner wants to do any one or more of the following: exchange medical information with the biological relative or relatives, obtain identifying information from the biological relative or relatives, or to arrange contact with the biological relative.

(c) Order. The order appointing the confidential intermediary shall allow that intermediary to conduct a search for the sought-after relative by accessing those records described in subsection (g) of this Section.

(d) Fees and expenses. The court shall condition the appointment of the confidential intermediary on the petitioner's payment of the intermediary's fees and expenses in advance of the commencement of the work of the confidential intermediary.

(e) Eligibility of intermediary. The court may appoint as confidential intermediary any person certified by the Department of Children and Family Services as qualified to serve as a confidential intermediary. Certification shall be dependent upon the confidential intermediary completing a course of training including, but not limited to, applicable federal and State privacy laws.

(f) Confidential Intermediary Council. There shall be established under the Department of Children and Family Services a Confidential Intermediary Advisory Council. One member shall be an attorney representing the Attorney General's Office appointed by the Attorney General. One member shall be a currently certified confidential intermediary appointed by the Director of the Department of Children and Family Services. The Director shall also appoint 5 additional members.

New matter indicated by italics - deletions by strikeout
When making those appointments, the Director shall consider advocates for adopted persons, adoptive parents, birth parents, lawyers who represent clients in private adoptions, lawyers specializing in privacy law, and representatives of agencies involved in adoptions. The Director shall appoint one of the 7 members as the chairperson. An attorney from the Department of Children and Family Services and the person directly responsible for administering the confidential intermediary program shall serve as ex-officio, non-voting advisors to the Council. Council members shall serve at the discretion of the Director and shall receive no compensation other than reasonable expenses approved by the Director. The Council shall meet no less than twice yearly, and shall make recommendations to the Director regarding the development of rules, procedures, and forms that will ensure efficient and effective operation of the confidential intermediary process, including:

(1) Standards for certification for confidential intermediaries.

(2) Oversight of methods used to verify that intermediaries are complying with the appropriate laws.

(3) Training for confidential intermediaries, including training with respect to federal and State privacy laws.

(4) The relationship between confidential intermediaries and the court system, including the development of sample orders defining the scope of the intermediaries' access to information.

(5) Any recent violations of policy or procedures by confidential intermediaries and remedial steps, including decertification, to prevent future violations.

(g) Access. Subject to the limitations of subsection (i) of this Section, the confidential intermediary shall have access to vital records maintained by the Department of Public Health and its local designees for the maintenance of vital records and all records of the court or any adoption agency, public or private, as limited in this Section, which relate to the adoption or the identity and location of an adopted or surrendered person, of an adult child or surviving spouse of a deceased adopted or surrendered person, or of a birth parent, birth sibling, or the sibling of a

deceased birth parent. The confidential intermediary shall not have access to any personal health information protected by the Standards for Privacy of Individually Identifiable Health Information adopted by the U.S. Department of Health and Human Services under the Health Insurance Portability and Accountability Act of 1996 unless the confidential intermediary has obtained written consent from the person whose information is being sought or, if that person is a minor child, that person's parent or guardian. Confidential intermediaries shall be authorized to inspect confidential relinquishment and adoption records. The confidential intermediary shall not be authorized to access medical records, financial records, credit records, banking records, home studies, attorney file records, or other personal records. In cases where a birth parent is being sought, an adoption agency shall inform the confidential intermediary of any statement filed pursuant to Section 18.3, hereinafter referred to as "the 18.3 statement", indicating a desire of the surrendering birth parent to have identifying information shared or to not have identifying information shared. If there was a clear statement of intent by the sought-after birth parent not to have identifying information shared, the confidential intermediary shall discontinue the search and inform the petitioning party of the sought-after relative's intent. Information provided to the confidential intermediary by an adoption agency shall be restricted to the full name, date of birth, place of birth, last known address, last known telephone number of the sought-after relative or, if applicable, of the children or siblings of the sought-after relative, and the 18.3 statement.

(h) Adoption agency disclosure of medical information. If the petitioner is an adult adopted or surrendered person or the adoptive parent of a minor and if the petitioner has signed a written authorization to disclose personal medical information, an adoption agency disclosing information to a confidential intermediary shall disclose available medical information about the adopted or surrendered person from birth through adoption.

(i) Duties of confidential intermediary in conducting a search. In conducting a search under this Section, the confidential intermediary shall first confirm that there is no Denial of Information Exchange on file with

the Illinois Adoption Registry. If the petitioner is an adult child of an adopted or surrendered person who is deceased, the confidential intermediary shall additionally confirm that the adopted or surrendered person did not file a Denial of Information Exchange with the Illinois Adoption Registry during his or her life. If the petitioner is an adult birth sibling of an adopted or surrendered person or an adult sibling of a birth parent who is deceased, the confidential intermediary shall additionally confirm that the birth parent did not file a Denial of Information Exchange with the Registry during his or her life. If the confidential intermediary learns that a sought-after birth parent signed a statement indicating his or her intent not to have identifying information shared, and did not later file an Information Exchange Authorization with the Adoption Registry, the confidential intermediary shall discontinue the search and inform the petitioning party of the birth parent's intent.

In conducting a search under this Section, the confidential intermediary shall attempt to locate the relative or relatives from whom the petitioner has requested information. If the sought-after relative is deceased or cannot be located after a diligent search, the confidential intermediary may contact other adult relatives of the sought-after relative.

The confidential intermediary shall contact a sought-after relative on behalf of the petitioner in a manner that respects the sought-after relative's privacy and shall inform the sought-after relative of the petitioner's request for medical information, identifying information or contact as stated in the petition. Based upon the terms of the petitioner's request, the confidential intermediary shall contact a sought-after relative on behalf of the petitioner and inform the sought-after relative of the following options:

(1) The sought-after relative may totally reject one or all of the requests for medical information, identifying information or contact. The sought-after relative shall be informed that they can provide a medical questionnaire to be forwarded to the petitioner without releasing any identifying information. The confidential intermediary shall inform the petitioner of the sought-after relative's decision to reject the sharing of information or contact.

New matter indicated by italics - deletions by strikeout
(2) The sought-after relative may consent to completing a medical questionnaire only. In this case, the confidential intermediary shall provide the questionnaire and ask the sought-after relative to complete it. The confidential intermediary shall forward the completed questionnaire to the petitioner and inform the petitioner of the sought-after relative's desire to not provide any additional information. (3) The sought-after relative may communicate with the petitioner without having his or her identity disclosed. In this case, the confidential intermediary shall arrange the desired communication in a manner that protects the identity of the sought-after relative. The confidential intermediary shall inform the petitioner of the sought-after relative's decision to communicate but not disclose his or her identity.

(4) The sought after relative may consent to initiate contact with the petitioner. If both the petitioner and the sought-after relative or relatives are eligible to register with the Illinois Adoption Registry, the confidential intermediary shall provide the necessary application forms and request that the sought-after relative register with the Illinois Adoption Registry. If either the petitioner or the sought-after relative or relatives are ineligible to register with the Illinois Adoption Registry, the confidential intermediary shall obtain written consents from both parties that they wish to disclose their identities to each other and to have contact with each other.

(j) Oath. The confidential intermediary shall sign an oath of confidentiality substantially as follows: "I, ..........., being duly sworn, on oath depose and say: As a condition of appointment as a confidential intermediary, I affirm that:

(1) I will not disclose to the petitioner, directly or indirectly, any confidential information except in a manner consistent with the law.

(2) I recognize that violation of this oath subjects me to civil liability and to a potential finding of contempt of court.

(k) Sanctions.

(1) Any confidential intermediary who improperly discloses confidential information identifying a sought-after relative shall be liable to the sought-after relative for damages and may also be found in contempt of court.

(2) Any person who learns a sought-after relative's identity, directly or indirectly, through the use of procedures provided in this Section and who improperly discloses information identifying the sought-after relative shall be liable to the sought-after relative for actual damages plus minimum punitive damages of $10,000.

(3) The Department shall fine any confidential intermediary who improperly discloses confidential information in violation of item (1) or (2) of this subsection (k) an amount up to $2,000 per improper disclosure. This fine does not affect civil liability under item (2) of this subsection (k). The Department shall deposit all fines and penalties collected under this Section into the Illinois Adoption Registry and Medical Information Fund.

(l) Death of person being sought. Notwithstanding any other provision of this Act, if the confidential intermediary discovers that the person being sought has died, he or she shall report this fact to the court, along with a copy of the death certificate.

(m) Any confidential information obtained by the confidential intermediary during the course of his or her search shall be kept strictly confidential and shall be used for the purpose of arranging contact between the petitioner and the sought-after birth relative. At the time the case is closed, all identifying information shall be returned to the court for inclusion in the impounded adoption file.

(n) If the petitioner is an adopted or surrendered person 21 years of age or over or the adoptive parent or legal guardian of an adopted or surrendered person under the age of 21, any non-identifying information,
as defined in Section 18.4, that is ascertained during the course of the
search may be given in writing to the petitioner before the case is closed.

(o) Except as provided in subsection (k) of this Section,
no liability shall accrue to the State, any State agency, any judge, any
officer or employee of the court, any certified confidential intermediary, or
any agency designated to oversee confidential intermediary services for
acts, omissions, or efforts made in good faith within the scope of this
Section.

(p) An adoption agency that has received a request from a
confidential intermediary for the full name, date of birth, last known
address, or last known telephone number of a sought-after relative
pursuant to subsection (g) of Section 18.3, or for medical information
regarding a sought-after relative pursuant to subsection (h) of Section
18.3, must satisfactorily comply with this court order within a period of 45
days. The court shall order the adoption agency to reimburse the
petitioner in an amount equal to all payments made by the petitioner to the
confidential intermediary, and the adoption agency shall be subject to a
civil monetary penalty of $1,000 to be paid to the Department of Children
and Family Services. Following the issuance of a court order finding that
the adoption agency has not complied with Section 18.3, the adoption
agency shall be subject to a monetary penalty of $500 per day for each
subsequent day of non-compliance.

Any reimbursements and fines, notwithstanding any reimbursement
directly to the petitioner, paid under this subsection are in addition to
other remedies a court may otherwise impose by law.

Proceeds from the penalties paid to the Department of Children
and Family Services shall be deposited into the DCFS Children’s Services
Fund. The Department of Children and Family Services shall submit
reports to the Confidential Intermediary Advisory Council by July 1 and
January 1 of each year in order to report the penalties assessed and
collected under this subsection, the amounts of related deposits into the
DCFS Children’s Services Fund, and any expenditures from such deposits.

These ordinances may include a graduated fine schedule for repeat violations, which may not exceed $100, or community service, or both, for violators 10 years of age or older and may provide for enforcement by citation or through administrative hearings as determined by ordinance. If the violator is under 10 years of age, the parent or custodian of the violator is subject to the fine or community service, or both. This Section is a limitation under subsection (i) of Section 6 of Article VII of the Illinois Constitution on the concurrent exercise by home rule units of the powers and functions exercised by the State.

Section 11. The School Code is amended by changing Section 34-4.5 as follows:

(105 ILCS 5/34-4.5)
Sec. 34-4.5. Chronic truants.
(a) Office of Chronic Truant Adjudication. The board shall establish and implement an Office of Chronic Truant Adjudication, which shall be responsible for administratively adjudicating cases of chronic truancy and imposing appropriate sanctions. The board shall appoint or employ hearing officers to perform the adjudicatory functions of that Office. Principals and other appropriate personnel may refer pupils suspected of being chronic truants, as defined in Section 26-2a of this Code, to the Office of Chronic Truant Adjudication.

(b) Notices. Before any hearing may be held under subsection (c), the principal of the school attended by the pupil or the principal's designee shall notify the pupil's parent or guardian by personal visit, letter, or telephone of each unexcused absence of the pupil. After giving the parent or guardian notice of the tenth unexcused absence of the pupil, the principal or the principal's designee shall send the pupil's parent or guardian a letter, by certified mail, return receipt requested, notifying the parent or guardian that he or she is subjecting himself or herself to a hearing procedure as provided under subsection (c) and clearly describing any and all possible penalties that may be imposed as provided for in subsections (d) and (e) of this Section.

Once a pupil has been referred to the Office of Chronic Truant Adjudication, a hearing shall be scheduled before an appointed hearing officer, and the pupil and the pupil's parents or guardian shall be notified by certified mail, return receipt requested stating the time, place, and purpose of the hearing. The hearing officer shall hold a hearing and render a written decision within 14 days determining whether the pupil is a chronic truant as defined in Section 26-2a of this Code and whether the parent or guardian took reasonable steps to assure the pupil's attendance at school. The hearing shall be private unless a public hearing is requested by the pupil's parent or guardian, and the pupil may be present at the hearing with a representative in addition to the pupil's parent or guardian. The board shall present evidence of the pupil's truancy, and the pupil and the parent or guardian or representative of the pupil may cross examine witnesses, present witnesses and evidence, and present defenses to the charges. All testimony at the hearing shall be taken under oath administered by the hearing officer. The decision of the hearing officer shall constitute an "administrative decision" for purposes of judicial review under the Administrative Review Law.

(d) Penalties. The hearing officer may require the pupil or the pupil's parent or guardian or both the pupil and the pupil's parent or guardian to do any or all of the following: perform reasonable school or community services for a period not to exceed 30 days; complete a parenting education program; obtain counseling or other supportive services; and comply with an individualized educational plan or service plan as provided by appropriate school officials. If the parent or guardian of the chronic truant shows that he or she took reasonable steps to insure attendance of the pupil at school, he or she shall not be required to perform services.

(e) Non-compliance with sanctions. If a pupil determined by a hearing officer to be a chronic truant or the parent or guardian of the pupil fails to comply with the sanctions ordered by the hearing officer under subsection (c) of this Section, the Office of Chronic Truant Adjudication may refer the matter to the State's Attorney for prosecution under Section 3-33.5 of the Juvenile Court Act of 1987.

Sec. 3-33.5. Truant minors in need of supervision.
(a) Definition. A minor who is reported by the office of the regional superintendent of schools, or, in cities of over 500,000 inhabitants, by the Office of Chronic Truant Adjudication, as a chronic truant may be subject to a petition for adjudication and adjudged a truant minor in need of supervision, provided that prior to the filing of the petition, the office of the regional superintendent of schools, the Office of Chronic Truant Adjudication, or a community truancy review board certifies that the local school has provided appropriate truancy intervention services to the truant minor and his or her family. For purposes of this Section, "truancy intervention services" means services designed to assist the minor's return to an educational program, and includes but is not limited to: assessments, counseling, mental health services, shelter, optional and alternative education programs, tutoring, and educational advocacy. If, after review by the regional office of education, the Office of Chronic Truant Adjudication, or community truancy review board it is determined the local school did not provide the appropriate interventions, then the minor shall be referred to a comprehensive community based youth service agency for truancy intervention services. If the comprehensive community based youth service agency is incapable to provide intervention services, then this requirement for services is not applicable. The comprehensive community based youth service agency shall submit reports to the office of the regional superintendent of schools, the Office of Chronic Truant Adjudication, or truancy review board within 20, 40, and 80 school days of the initial referral or at any other time requested by the office of the regional superintendent of schools, the Office of Chronic

Truant Adjudication, or truancy review board, which reports each shall certify the date of the minor's referral and the extent of the minor's progress and participation in truancy intervention services provided by the comprehensive community based youth service agency. In addition, if, after referral by the office of the regional superintendent of schools, the Office of Chronic Truant Adjudication, or community truancy review board, the minor declines or refuses to fully participate in truancy intervention services provided by the comprehensive community based youth service agency, then the agency shall immediately certify such facts to the office of the regional superintendent of schools, the Office of Chronic Truant Adjudication, or community truancy review board.

PUBLIC ACT 94-1016
(Senate Bill No. 2475)

AN ACT concerning families.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:
Section 5. The Illinois Marriage and Dissolution of Marriage Act is amended by changing Section 508 as follows:
(750 ILCS 5/508) (from Ch. 40, par. 508)
Sec. 508. Attorney's Fees; Client's Rights and Responsibilities Respecting Fees and Costs.
(a) The court from time to time, after due notice and hearing, and after considering the financial resources of the parties, may order any party to pay a reasonable amount for his own or the other party's costs and attorney's fees. Interim attorney's fees and costs may be awarded from the opposing party, in accordance with subsection (c-1) of Section 501. At the conclusion of the case, contribution to attorney's fees and costs may be awarded from the opposing party in accordance with subsection (j) of Section 503. Fees and costs may be awarded to counsel from a former client in accordance with subsection (c) of this Section. Awards may be made in connection with the following:

New matter indicated by italics - deletions by strikeout
(1) The maintenance or defense of any proceeding under this Act.

(2) The enforcement or modification of any order or judgment under this Act.

(3) The defense of an appeal of any order or judgment under this Act, including the defense of appeals of post-judgment orders.

(3.1) The prosecution of any claim on appeal (if the prosecuting party has substantially prevailed).

(4) The maintenance or defense of a petition brought under Section 2-1401 of the Code of Civil Procedure seeking relief from a final order or judgment under this Act.

(5) The costs and legal services of an attorney rendered in preparation of the commencement of the proceeding brought under this Act.

(6) Ancillary litigation incident to, or reasonably connected with, a proceeding under this Act.

The court may order that the award of attorney's fees and costs (including an interim or contribution award) shall be paid directly to the attorney, who may enforce the order in his or her name, or that it shall be paid to the appropriate party. Judgment may be entered and enforcement had accordingly. Except as otherwise provided in subdivision (e)(1) of this Section, subsection (c) of this Section is exclusive as to the right of any counsel (or former counsel) of record to petition a court for an award and judgment for final fees and costs during the pendency of a proceeding under this Act.

(b) In every proceeding for the enforcement of an order or judgment when the court finds that the failure to comply with the order or judgment was without compelling cause or justification, the court shall order the party against whom the proceeding is brought to pay promptly the costs and reasonable attorney's fees of the prevailing party. If non-compliance is with respect to a discovery order, the non-compliance is presumptively without compelling cause or justification, and the presumption may only be rebutted by clear and convincing evidence. If at

any time a court finds that a hearing under this Section was precipitated or conducted for any improper purpose, the court shall allocate fees and costs of all parties for the hearing to the party or counsel found to have acted improperly. Improper purposes include, but are not limited to, harassment, unnecessary delay, or other acts needlessly increasing the cost of litigation.

(c) Final hearings for attorney's fees and costs against an attorney's own client, pursuant to a Petition for Setting Final Fees and Costs of either a counsel or a client, shall be governed by the following:

(1) No petition of a counsel of record may be filed against a client unless the filing counsel previously has been granted leave to withdraw as counsel of record or has filed a motion for leave to withdraw as counsel. On receipt of a petition of a client under this subsection (c), the counsel of record shall promptly file a motion for leave to withdraw as counsel. If the client and the counsel of record agree, however, a hearing on the motion for leave to withdraw as counsel filed pursuant to this subdivision (c)(1) may be deferred until completion of any alternative dispute resolution procedure under subdivision (c)(4). As to any Petition for Setting Final Fees and Costs against a client or counsel over whom the court has not obtained jurisdiction, a separate summons shall issue. Whenever a separate summons is not required, original notice as to a Petition for Setting Final Fees and Costs may be given, and documents served, in accordance with Illinois Supreme Court Rules 11 and 12.

(2) No final hearing under this subsection (c) is permitted unless: (i) the counsel and the client had entered into a written engagement agreement at the time the client retained the counsel (or reasonably soon thereafter) and the agreement meets the requirements of subsection (f); (ii) the written engagement agreement is attached to an affidavit of counsel that is filed with the petition or with the counsel's response to a client's petition; (iii) judgment in any contribution hearing on behalf of the client has been entered or the right to a contribution hearing under subsection (j) of Section 503 has been waived; (iv) the counsel has withdrawn

as counsel of record; and (v) the petition seeks adjudication of all unresolved claims for fees and costs between the counsel and the client. Irrespective of a Petition for Setting Final Fees and Costs being heard in conjunction with an original proceeding under this Act, the relief requested under a Petition for Setting Final Fees and Costs constitutes a distinct cause of action. A pending but undetermined Petition for Setting Final Fees and Costs shall not affect appealability of any judgment or other adjudication in the original proceeding.

(3) The determination of reasonable attorney's fees and costs either under this subsection (c), whether initiated by a counsel or a client, or in an independent proceeding for services within the scope of subdivisions (1) through (5) of subsection (a), is within the sound discretion of the trial court. The court shall first consider the written engagement agreement and, if the court finds that the former client and the filing counsel, pursuant to their written engagement agreement, entered into a contract which meets applicable requirements of court rules and addresses all material terms, then the contract shall be enforceable in accordance with its terms, subject to the further requirements of this subdivision (c)(3). Before ordering enforcement, however, the court shall consider the performance pursuant to the contract. Any amount awarded by the court must be found to be fair compensation for the services, pursuant to the contract, that the court finds were reasonable and necessary. Quantum meruit principles shall govern any award for legal services performed that is not based on the terms of the written engagement agreement (except that, if a court expressly finds in a particular case that aggregate billings to a client were unconscionably excessive, the court in its discretion may reduce the award otherwise determined appropriate or deny fees altogether).

(4) No final hearing under this subsection (c) is permitted unless any controversy over fees and costs (that is not otherwise subject to some form of alternative dispute resolution) has first

New matter indicated by italics - deletions by strikeout
been submitted to mediation, arbitration, or any other court approved alternative dispute resolution procedure, except as follows:

(A) In any circuit court for a single county with a population in excess of 1,000,000, the requirement of the controversy being submitted to an alternative dispute resolution procedure is mandatory unless the client and the counsel both affirmatively opt out of such procedures; or

(B) In any other circuit court, the requirement of the controversy being submitted to an alternative dispute resolution procedure is mandatory only if neither the client nor the counsel affirmatively opts out of such procedures.

After completion of any such procedure (or after one or both sides has opted out of such procedures), if the dispute is unresolved, any pending motion for leave to withdraw as counsel shall be promptly granted and a final hearing under this subsection (c) shall be expeditiously set and completed.

(5) A petition (or a praecipe for fee hearing without the petition) shall be filed no later than the end of the period in which it is permissible to file a motion pursuant to Section 2-1203 of the Code of Civil Procedure. A praecipe for fee hearing shall be dismissed if a Petition for Setting Final Fees and Costs is not filed within 60 days after the filing of the praecipe. A counsel who becomes a party by filing a Petition for Setting Final Fees and Costs, or as a result of the client filing a Petition for Setting Final Fees and Costs, shall not be entitled to exercise the right to a substitution of a judge without cause under subdivision (a)(2) of Section 2-1001 of the Code of Civil Procedure.

(d) A consent judgment, in favor of a current counsel of record against his or her own client for a specific amount in a marital settlement agreement, dissolution judgment, or any other instrument involving the other litigant, is prohibited. A consent judgment between client and counsel, however, is permissible if it is entered pursuant to a verified petition for entry of consent judgment, supported by an affidavit of the
counsel of record that incorporates an itemization of the billing or billings to the client, detailing hourly costs, time spent, and tasks performed, and by an affidavit of the client acknowledging receipt of that documentation, awareness of the right to a hearing, the right to be represented by counsel (other than counsel to whom the consent judgment is in favor), and the right to be present at the time of presentation of the petition, and agreement to the terms of the judgment. The petition may be filed at any time during which it is permissible for counsel of record to file a petition (or a praecipe) for a final fee hearing, except that no such petition for entry of consent judgment may be filed before adjudication (or waiver) of the client's right to contribution under subsection (j) of Section 503 or filed after the filing of a petition (or a praecipe) by counsel of record for a fee hearing under subsection (c) if the petition (or praecipe) remains pending. No consent security arrangement between a client and a counsel of record, pursuant to which assets of a client are collateralized to secure payment of legal fees or costs, is permissible unless approved in advance by the court as being reasonable under the circumstances.

(e) Counsel may pursue an award and judgment against a former client for legal fees and costs in an independent proceeding in the following circumstances:

(1) While a case under this Act is still pending, a former counsel may pursue such an award and judgment at any time subsequent to 90 days after the entry of an order granting counsel leave to withdraw; and

(2) After the close of the period during which a petition (or praecipe) may be filed under subdivision (c)(5), if no such petition (or praecipe) for the counsel remains pending, any counsel or former counsel may pursue such an award and judgment in an independent proceeding; provided the complaint in the independent proceeding is filed within one year after the close of the foregoing period.

In an independent proceeding, the prior applicability of this Section shall in no way be deemed to have diminished any other right of any counsel (or former counsel) to pursue an award and judgment for legal fees and costs.

on the basis of remedies that may otherwise exist under applicable law; and the limitations period for breach of contract shall apply. In an independent proceeding under subdivision (e)(1) in which the former counsel had represented a former client in a dissolution case that is still pending, the former client may bring in his or her spouse as a third-party defendant, provided on or before the final date for filing a petition (or praecipe) under subsection (c), the party files an appropriate third-party complaint under Section 2-406 of the Code of Civil Procedure. In any such case, any judgment later obtained by the former counsel shall be against both spouses or ex-spouses, jointly and severally (except that, if a hearing under subsection (j) of Section 503 has already been concluded and the court hearing the contribution issue has imposed a percentage allocation between the parties as to fees and costs otherwise being adjudicated in the independent proceeding, the allocation shall be applied without deviation by the court in the independent proceeding and a separate judgment shall be entered against each spouse for the appropriate amount). After the period for the commencement of a proceeding under subsection (c), the provisions of this Section (other than the standard set forth in subdivision (c)(3) and the terms respecting consent security arrangements in subsection (d) of this Section 508) shall be inapplicable.

The changes made by this amendatory Act of the 94th General Assembly are declarative of existing law.

(f) Unless the Supreme Court by rule addresses the matters set out in this subsection (f), a written engagement agreement within the scope of subdivision (c)(2) shall have appended to it verbatim the following Statement:

"STATEMENT OF CLIENT'S RIGHTS AND RESPONSIBILITIES

(1) WRITTEN ENGAGEMENT AGREEMENT. The written engagement agreement, prepared by the counsel, shall clearly address the objectives of representation and detail the fee arrangement, including all material terms. If fees are to be based on criteria apart from, or in addition to, hourly rates, such criteria (e.g., unique time demands and/or utilization of unique expertise) shall be delineated. The client shall receive a copy of the written engagement agreement and any additional clarification.
requested and is advised not to sign any such agreement which the client finds to be unsatisfactory or does not understand.

(2) REPRESENTATION. Representation will commence upon the signing of the written engagement agreement. The counsel will provide competent representation, which requires legal knowledge, skill, thoroughness and preparation to handle those matters set forth in the written engagement agreement. Once employed, the counsel will act with reasonable diligence and promptness, as well as use his best efforts on behalf of the client, but he cannot guarantee results. The counsel will abide by the client's decision concerning the objectives of representation, including whether or not to accept an offer of settlement, and will endeavor to explain any matter to the extent reasonably necessary to permit the client to make informed decisions regarding representation. During the course of representation and afterwards, the counsel may not use or reveal a client's confidence or secrets, except as required or permitted by law.

(3) COMMUNICATION. The counsel will keep the client reasonably informed about the status of representation and will promptly respond to reasonable requests for information, including any reasonable request for an estimate respecting future costs of the representation or an appropriate portion of it. The client shall be truthful in all discussions with the counsel and provide all information or documentation required to enable the counsel to provide competent representation. During representation, the client is entitled to receive all pleadings and substantive documents prepared on behalf of the client and every document received from any other counsel of record. At the end of the representation and on written request from the client, the counsel will return to the client all original documents and exhibits. In the event that the counsel withdraws from representation, or is discharged by the client, the counsel will turn over to the substituting counsel (or, if no substitutions, to the client) all original documents and exhibits together with complete copies of all pleadings and discovery within thirty (30) days of the counsel's withdrawal or discharge.
(4) ETHICAL CONDUCT. The counsel cannot be required to engage in conduct which is illegal, unethical, or fraudulent. In matters involving minor children, the counsel may refuse to engage in conduct which, in the counsel's professional judgment, would be contrary to the best interest of the client's minor child or children. A counsel who cannot ethically abide by his client's directions shall be allowed to withdraw from representation.

(5) FEES. The counsel's fee for services may not be contingent upon the securing of a dissolution of marriage, upon obtaining custody, or be based upon the amount of maintenance, child support, or property settlement received, except as specifically permitted under Supreme Court rules. The counsel may not require a non-refundable retainer fee, but must remit back any overpayment at the end of the representation. The counsel may enter into a consensual security arrangement with the client whereby assets of the client are pledged to secure payment of legal fees or costs, but only if the counsel first obtains approval of the Court. The counsel will prepare and provide the client with an itemized billing statement detailing hourly rates (and/or other criteria), time spent, tasks performed, and costs incurred on a regular basis, at least quarterly. The client should review each billing statement promptly and address any objection or error in a timely manner. The client will not be billed for time spent to explain or correct a billing statement. If an appropriately detailed written estimate is submitted to a client as to future costs for a counsel's representation or a portion of the contemplated services (i.e., relative to specific steps recommended by the counsel in the estimate) and, without objection from the client, the counsel then performs the contemplated services, all such services are presumptively reasonable and necessary, as well as to be deemed pursuant to the client's direction. In an appropriate case, the client may pursue contribution to his or her fees and costs from the other party.

(6) DISPUTES. The counsel-client relationship is regulated by the Illinois Rules of Professional Conduct (Article VIII of the Illinois Supreme Court Rules), and any dispute shall be reviewed under the terms of such Rules."

(b) The purpose of this Article 1 is to re-enact the provisions of the Criminal Code of 1961 and the Unified Code of Corrections that were affected by Public Act 88-669 and to minimize or prevent any problems concerning those provisions that may arise from the unconstitutionality of Public Act 88-669. This re-enactment is intended to remove any question as to the validity and content of those provisions; it is not intended to supersede any other Public Act that amends the provisions re-enacted in this Article 1. The re-enacted material is shown in this Article 1 as existing text (i.e., without underscoring) and may include changes made by subsequent amendments.

(c) The re-enactment of provisions of the Criminal Code of 1961 and the Unified Code of Corrections by this Article 1 is not intended, and shall not be construed, to impair any legal argument concerning whether those provisions were substantially re-enacted by any other Public Act.

(d) All otherwise lawful actions taken before the effective date of this Article 1 in reliance on or pursuant to the provisions re-enacted by this Article 1, as those provisions were set forth in Public Act 88-669 or as subsequently amended, by any officer, employee, or agency of State government or by any other person or entity, are hereby validated, except to the extent prohibited under the Illinois or United States Constitution.

(e) This Article 1 applies, without limitation, to actions pending on or after the effective date of this Article 1, except to the extent prohibited under the Illinois or United States Constitution.

Section 1-5. The Criminal Code of 1961 is amended by re-enacting Section 36-1 as follows:

Within 15 days after such delivery the sheriff shall give notice of seizure to each person according to the following method: Upon each such person whose right, title or interest is of record in the office of the Secretary of State, the Secretary of Transportation, the Administrator of the Federal Aviation Agency, or any other Department of this State, or any other state of the United States if such vessel, vehicle or aircraft is required to be so registered, as the case may be, by mailing a copy of the notice by certified mail to the address as given upon the records of the Secretary of State, the Department of Aeronautics, Department of Public Works and Buildings or any other Department of this State or the United States if such vessel, vehicle or aircraft is required to be so registered. Within that 15 day period the sheriff shall also notify the State's Attorney of the county of seizure about the seizure.

In addition, any mobile or portable equipment used in the commission of an act which is in violation of Section 7g of the Metropolitan Water Reclamation District Act shall be subject to seizure and forfeiture under the same procedures provided in this Article for the

seizure and forfeiture of vessels, vehicles and aircraft, and any such equipment shall be deemed a vessel, vehicle or aircraft for purposes of this Article.

When a person discharges a firearm at another individual from a vehicle with the knowledge and consent of the owner of the vehicle and with the intent to cause death or great bodily harm to that individual and as a result causes death or great bodily harm to that individual, the vehicle shall be subject to seizure and forfeiture under the same procedures provided in this Article for the seizure and forfeiture of vehicles used in violations of clauses (a), (b), (c), or (d) of this Section.

If the spouse of the owner of a vehicle seized for an offense described in subsection (g) of Section 6-303 of the Illinois Vehicle Code, a violation of subdivision (c-1)(1), (c-1)(2), (c-1)(3), (d)(1)(A), or (d)(1)(D) of Section 11-501 of the Illinois Vehicle Code, or Section 9-3 of this Code makes a showing that the seized vehicle is the only source of transportation and it is determined that the financial hardship to the family as a result of the seizure outweighs the benefit to the State from the seizure, the vehicle may be forfeited to the spouse or family member and the title to the vehicle shall be transferred to the spouse or family member who is properly licensed and who requires the use of the vehicle for employment or family transportation purposes. A written declaration of forfeiture of a vehicle under this Section shall be sufficient cause for the title to be transferred to the spouse or family member. The provisions of this paragraph shall apply only to one forfeiture per vehicle. If the vehicle is the subject of a subsequent forfeiture proceeding by virtue of a subsequent conviction of either spouse or the family member, the spouse or family member to whom the vehicle was forfeited under the first forfeiture proceeding may not utilize the provisions of this paragraph in another forfeiture proceeding. If the owner of the vehicle seized owns more than one vehicle, the procedure set out in this paragraph may be used for only one vehicle.

Property declared contraband under Section 40 of the Illinois Streetgang Terrorism Omnibus Prevention Act may be seized and forfeited under this Article.
Section 1-10. The Unified Code of Corrections is amended by re-enacting Sections 3-7-6, 3-12-2, and 3-12-5 as follows:

(730 ILCS 5/3-7-6) (from Ch. 38, par. 1003-7-6)
Sec. 3-7-6. Reimbursement for expenses.
(a) Responsibility of committed persons. For the purposes of this Section, "committed persons" mean those persons who through judicial determination have been placed in the custody of the Department on the basis of a conviction as an adult. Committed persons shall be responsible to reimburse the Department for the expenses incurred by their incarceration at a rate to be determined by the Department in accordance with this Section.

(1) Committed persons shall fully cooperate with the Department by providing complete financial information for the purposes under this Section.

(2) The failure of a committed person to fully cooperate as provided for in clauses (3) and (4) of subsection (a-5) shall be considered for purposes of a parole determination. Any committed person who willfully refuses to cooperate with the obligations set forth in this Section may be subject to the loss of good conduct credit towards his or her sentence of up to 180 days.

(a-5) Assets information form.

(1) The Department shall develop a form, which shall be used by the Department to obtain information from all committed persons regarding assets of the persons.

(2) In order to enable the Department to determine the financial status of the committed person, the form shall provide for obtaining the age and marital status of a committed person, the number and ages of children of the person, the number and ages of other dependents, the type and value of real estate, the type and value of personal property, cash and bank accounts, the location of any lock boxes, the type and value of investments, pensions and annuities and any other personalty of significant cash value, including but not limited to jewelry, art work and collectables, and
all medical or dental insurance policies covering the committed person. The form may also provide for other information deemed pertinent by the Department in the investigation of a committed person's assets.

(3) Upon being developed, the form shall be submitted to each committed person as of the date the form is developed and to every committed person who thereafter is sentenced to imprisonment under the jurisdiction of the Department. The form may be resubmitted to a committed person by the Department for purpose of obtaining current information regarding the assets of the person.

(4) Every committed person shall complete the form or provide for completion of the form and the committed person shall swear under oath or affirm that to the best of his or her knowledge the information provided is complete and accurate.

(b) Expenses. The rate at which sums to be charged for the expenses incurred by a committed person for his or her confinement shall be computed by the Department as the average per capita cost per day for all inmates of that institution or facility for that fiscal year. The average per capita cost per day shall be computed by the Department based on the average per capita cost per day for the operation of that institution or facility for the fiscal year immediately preceding the period of incarceration for which the rate is being calculated. The Department shall establish rules and regulations providing for the computation of the above costs, and shall determine the average per capita cost per day for each of its institutions or facilities for each fiscal year. The Department shall have the power to modify its rules and regulations, so as to provide for the most accurate and most current average per capita cost per day computation. Where the committed person is placed in a facility outside the Department, the Department may pay the actual cost of services in that facility, and may collect reimbursement for the entire amount paid from the committed person receiving those services.

(c) Records. The records of the Department, including, but not limited to, those relating to: the average per capita cost per day for a
particular institution or facility for a particular year, and the calculation of
the average per capita cost per day; the average daily population of a
particular Department correctional institution or facility for a particular
year; the specific placement of a particular committed person in various
Department correctional institutions or facilities for various periods of
time; and the record of transactions of a particular committed person’s trust
account under Section 3-4-3 of this Act; may be proved in any legal
proceeding, by a reproduced copy thereof or by a computer printout of
Department records, under the certificate of the Director. If reproduced
copies are used, the Director must certify that those are true and exact
copies of the records on file with the Department. If computer printouts of
records of the Department are offered as proof, the Director must certify
that those computer printouts are true and exact representations of records
properly entered into standard electronic computing equipment, in the
regular course of the Department's business, at or reasonably near the time
of the occurrence of the facts recorded, from trustworthy and reliable
information. The reproduced copy or computer printout shall, without
further proof, be admitted into evidence in any legal proceeding, and shall
be prima facie correct and prima facie evidence of the accuracy of the
information contained therein.

(d) Authority. The Director, or the Director's designee, may, when
he or she knows or reasonably believes that a committed person, or the
estate of that person, has assets which may be used to satisfy all or part of
a judgment rendered under this Act, or when he or she knows or
reasonably believes that a committed person is engaged in gang-related
activity and has a substantial sum of money or other assets, provide for the
forwarding to the Attorney General of a report on the committed person
and that report shall contain a completed form under subsection (a-5)
together with all other information available concerning the assets of the
committed person and an estimate of the total expenses for that committed
person, and authorize the Attorney General to institute proceedings to
require the persons, or the estates of the persons, to reimburse the
Department for the expenses incurred by their incarceration. The Attorney
General, upon authorization of the Director, or the Director's designee,

shall institute actions on behalf of the Department and pursue claims on the Department's behalf in probate and bankruptcy proceedings, to recover from committed persons the expenses incurred by their confinement. For purposes of this subsection (d), "gang-related" activity has the meaning ascribed to it in Section 10 of the Illinois Streetgang Terrorism Omnibus Prevention Act.

(e) Scope and limitations.

(1) No action under this Section shall be initiated more than 2 years after the release or death of the committed person in question.

(2) The death of a convicted person, by execution or otherwise, while committed to a Department correctional institution or facility shall not act as a bar to any action or proceeding under this Section.

(3) The assets of a committed person, for the purposes of this Section, shall include any property, tangible or intangible, real or personal, belonging to or due to a committed or formerly committed person including income or payments to the person from social security, worker's compensation, veteran's compensation, pension benefits, or from any other source whatsoever and any and all assets and property of whatever character held in the name of the person, held for the benefit of the person, or payable or otherwise deliverable to the person. Any trust, or portion of a trust, of which a convicted person is a beneficiary, shall be construed as an asset of the person, to the extent that benefits thereunder are required to be paid to the person, or shall in fact be paid to the person. At the time of a legal proceeding by the Attorney General under this Section, if it appears that the committed person has any assets which ought to be subjected to the claim of the Department under this Section, the court may issue an order requiring any person, corporation, or other legal entity possessed or having custody of those assets to appropriate any of the assets or a portion thereof toward reimbursing the Department as provided for under this Section. No

provision of this Section shall be construed in violation of any State or federal limitation on the collection of money judgments.

(4) Nothing in this Section shall preclude the Department from applying federal benefits that are specifically provided for the care and treatment of a committed person toward the cost of care provided by a State facility or private agency.

Sec. 3-12-2. Types of employment.

(a) The Department may establish, maintain, train and employ committed persons in industries for the production of articles, materials or supplies for resale to authorized purchasers. It may also employ committed persons on public works, buildings and property, the conservation of natural resources of the State, anti-pollution or environmental control projects, or for other public purposes, for the maintenance of the Department's buildings and properties and for the production of food or other necessities for its programs. The Department may establish, maintain and employ committed persons in the production of vehicle registration plates. A committed person's labor shall not be sold, contracted or hired out by the Department except under this Article and under Section 3-9-2.

(b) Works of art, literature, handicraft or other items produced by committed persons as an avocation and not as a product of a work program of the Department may be sold to the public under rules and regulations established by the Department. The cost of selling such products may be deducted from the proceeds, and the balance shall be credited to the person's account under Section 3-4-3. The Department shall notify the Attorney General of the existence of any proceeds which it believes should be applied towards a satisfaction, in whole or in part, of the person's incarceration costs.

Department shall consider the effort, skill and economic value of the work performed. Compensation may be given to persons who participate in other programs of the Department. Of the compensation earned pursuant to this Section, a portion, as determined by the Department, shall be used to offset the cost of the committed person's incarceration. If the committed person files a lawsuit determined frivolous under Article XXII of the Code of Civil Procedure, 50% of the compensation shall be used to offset the filing fees and costs of the lawsuit as provided in that Article until all fees and costs are paid in full. All other wages shall be deposited in the individual's account under rules and regulations of the Department. The Department shall notify the Attorney General of any compensation applied towards a satisfaction, in whole or in part, of the person's incarceration costs.

Article 2.
Section 2-1. Findings; purpose.
(a) The General Assembly finds and declares that:
   (1) Public Act 89-688, effective June 1, 1997, contained provisions amending Sections 31A-1.1 and 31A-1.2 of the Criminal Code of 1961 relating to bringing contraband into a penal institution; possessing contraband in a penal institution; and unauthorized bringing of contraband into a penal institution by an employee. Public Act 89-688 also contained other provisions.
   (2) On October 20, 2000, in People v. Jerry Lee Foster, 316 Ill. App. 3d 855, the Illinois Appellate Court, Fourth District, ruled that Public Act 89-688 violates the single subject clause of the Illinois Constitution (Article IV, Section 8 (d)) and is therefore unconstitutional in its entirety. The Illinois Supreme Court agreed with the reasoning of that court in People v. Burdunice, 211 Ill. 2d 264 (2004).
   (3) The provisions added to Sections 31A-1.1 and 31A-1.2 of the Criminal Code of 1961 by Public Act 89-688 are of vital concern to the people of this State. Prompt legislative action concerning those provisions is necessary.

New matter indicated by italics - deletions by strikeout
(4) Section 31A-1.1 of the Criminal Code of 1961 has subsequently been amended by Public Act 94-556. Section 31A-1.2 of the Criminal Code of 1961 has subsequently been amended by Public Acts 90-655, 91-357, and 94-556.

(b) It is the purpose of this Article 2 to re-enact Sections 31A-1.1 and 31A-1.2 of the Criminal Code of 1961, including the provisions added by Public Act 89-688 and the subsequent amendment to Section 31A-1.1 by Public Act 94-556 and subsequent amendments to Section 31A-1.2 by Public Acts 90-655, 91-357, and 94-556. This re-enactment is intended to remove any question as to the validity or content of those provisions; it is not intended to supersede any other Public Act that amends the text of the Sections as set forth in this Article 2. The re-enacted material is shown in this Article 2 as existing text (i.e., without underscoring).

Section 2-5. The Criminal Code of 1961 is amended by re-enacting Sections 31A-1.1 and 31A-1.2 as follows:

(a) Except as otherwise provided in this Section, petitions for the submission of public questions to referendum must be filed with the appropriate officer or board not less than 78 days prior to a regular election to be eligible for submission on the ballot at such election; and petitions for the submission of a question under Section 18-120 of the Property Tax Code must be filed with the appropriate officer or board not more than 10 months nor less than 6 months prior to the election at which such question is to be submitted to the voters.

(b) However, petitions for the submission of a public question to referendum which proposes the creation or formation of a political subdivision must be filed with the appropriate officer or board not less than 108 days prior to a regular election to be eligible for submission on the ballot at such election.

(c) Resolutions or ordinances of governing boards of political subdivisions which initiate the submission of public questions pursuant to

New matter indicated by italics - deletions by strikeout
law must be adopted not less than 65 days before a regularly scheduled election to be eligible for submission on the ballot at such election.

(d) A petition, resolution or ordinance initiating the submission of a public question may specify a regular election at which the question is to be submitted, and must so specify if the statute authorizing the public question requires submission at a particular election. However, no petition, resolution or ordinance initiating the submission of a public question, other than a legislative resolution initiating an amendment to the Constitution, may specify such submission at an election more than one year, or 15 months in the case of a back door referendum as defined in subsection (f), after the date on which it is filed or adopted, as the case may be. A petition, resolution or ordinance initiating a public question which specifies a particular election at which the question is to be submitted shall be so limited, and shall not be valid as to any other election, other than an emergency referendum ordered pursuant to Section 2A-1.4.

(e) If a petition initiating a public question does not specify a regularly scheduled election, the public question shall be submitted to referendum at the next regular election occurring not less than 78 days after the filing of the petition, or not less than 108 days after the filing of a petition for referendum to create a political subdivision. If a resolution or ordinance initiating a public question does not specify a regularly scheduled election, the public question shall be submitted to referendum at the next regular election occurring not less than 65 days after the adoption of the resolution or ordinance.

(f) In the case of back door referenda, any limitations in another statute authorizing such a referendum which restrict the time in which the initiating petition may be validly filed shall apply to such petition, in addition to the filing deadlines specified in this Section for submission at a particular election. In the case of any back door referendum, the publication of the ordinance or resolution of the political subdivision shall include a notice of (1) the specific number of voters required to sign a petition requesting that a public question be submitted to the voters of the subdivision; (2) the time within which the petition must be filed; and (3)
the date of the prospective referendum. The secretary or clerk of the political subdivision shall provide a petition form to any individual requesting one. The legal sufficiency of that form, if provided by the secretary or clerk of the political subdivision, cannot be the basis of a challenge to placing the back door referendum on the ballot. As used herein, a "back door referendum" is the submission of a public question to the voters of a political subdivision, initiated by a petition of voters or residents of such political subdivision, to determine whether an action by the governing body of such subdivision shall be adopted or rejected.

(g) A petition for the incorporation or formation of a new political subdivision whose officers are to be elected rather than appointed must have attached to it an affidavit attesting that at least 108 days and no more than 138 days prior to such election notice of intention to file such petition was published in a newspaper published within the proposed political subdivision, or if none, in a newspaper of general circulation within the territory of the proposed political subdivision in substantially the following form:

Sec. 5-32. Failure to maintain schools - Transportation and tuition. If any school district other than a non-high school district shall for 1 year fail to maintain within the boundaries of the school district a recognized public school as required by law, such district shall become automatically dissolved and the property and territory of such district shall be disposed of in the manner provided for the disposal of territory and property in Section 7-11 of this Act. However, a school district shall not be dissolved where the State Board of Education and the regional superintendent of the region in which a district has legally authorized the building of a school and legally selected a school house site and has issued bonds for such building shall jointly find and certify that such building has been authorized, site selected and bonds issued.

If a district has its territory included within a petition to form a community unit district under Article 11E of this Code Act, that district may not be dissolved under this Section until the end of the school year in which all proceedings relating to formation of that community unit district are finally concluded, whether by disallowance of the petition, by referendum, by a final court decision or otherwise. Until such proceedings are finally concluded, the regional superintendent having jurisdiction of the district that is not maintaining a recognized school shall assign the pupils of that district to an adjoining school district, subject to Section 11-12 of this Act and subject to the requirement that the district from which the pupils are so assigned shall pay tuition for such pupils to the district to which the pupils are assigned, in accordance with Section 10-20.12a of this Act or in such lesser amount as may be agreed to by the 2 districts.

However, until July 1, 1969 or one year after the entry of a final decision by a court of competent jurisdiction in the event of litigation with respect to any of the matters set forth in this Section, whichever is the later, notwithstanding the provisions of this Section, any protectorate high school district composed of contiguous and compact territory having not less than 2,000 inhabitants and which has an equalized assessed valuation of not less than $6,000,000, shall be and remain a protectorate high school district if a majority of the pupils attend a high school in a special charter district maintaining grades 1 through 12 and if during that period the

voters of the district, by referendum to be ordered by the board, vote in favor of the proposition that such district maintain and operate a high school within such district, and also authorize the purchase of a school site, the building of a school building and the issuance of bonds for such purpose, which bonds are duly issued. The Board shall certify the proposition to the proper election authorities for submission, in accordance with the general election law.

The proposition to maintain and operate a high school within such district shall be in substantially the following form:

and is approved if a majority of the voters voting on the proposition is in favor thereof. The proposition of purchasing a school site, the building of a school building and the issuance of bonds for such purpose shall be submitted to the voters and may be voted upon at the same election that the proposition of maintaining and operating a high school within the district is submitted or at any regularly scheduled election subsequent thereto as may be ordered by the board. Thereupon, that protectorate high school district shall thereafter exist as a community high school district and possess and enjoy all of the powers, duties and authorities of a community high school district organized under Article 12 of this Act.

Throughout its existence as a protectorate district and until the legal voters residing in the district have determined to maintain and operate a high school within the district and have been authorized to purchase a school site, build a school building and to issue bonds for such purpose and which bonds are duly issued, or until the dissolution of the district as required by this Section, such protectorate district may use its

Whenever due to fire, explosion, tornado or any Act of God the school buildings or one or more of the principal school buildings comprising an attendance center within a school district are destroyed or substantially destroyed and rendered unfit for school purposes, the provisions of this Article shall not be available to permit a division of that district, or a dissolution, detachment or annexation of any part thereof, or any combination of such results during a period from the date of such destruction or substantial destruction until 30 days after the second regular election of board members following such destruction or substantial destruction. (a) Upon the filing of a petition with the secretary of the regional board of school trustees under the provisions of Section 7-1 or 7-2 of this Act the secretary shall cause a copy of such petition to be given to each board of any district involved in the proposed boundary change and shall cause a notice thereof to be published once in a newspaper having general circulation within the area of the territory described in the petition for the proposed change of boundaries.

(b) When a joint hearing is required under the provisions of Section 7-2, the secretary also shall cause a copy of the notice to be sent to

the regional board of school trustees of each region affected. Notwithstanding the foregoing provisions of this Section, if the secretary of the regional board of school trustees with whom a petition is filed under Section 7-2 fails, within 30 days after the filing of such petition, to cause notice thereof to be published and sent as required by this Section, then the secretary of the regional board of school trustees of any other region affected may cause the required notice to be published and sent, and the joint hearing may be held in any region affected as provided in the notice so published.

(b-5) If a petition filed under subsection (a) of Section 7-1 or under Section 7-2 proposes to annex all the territory of a school district to another school district, the petition shall request the submission of a proposition at a regular scheduled election for the purpose of voting for or against the annexation of the territory described in the petition to the school district proposing to annex that territory. No petition filed or election held under this Article shall be null and void, invalidated, or deemed in noncompliance with the Election Code because of a failure to publish a notice with respect to the petition or referendum as required under subsection (g) of Section 28-2 of that Code for petitions that are not filed under this Article or Article 11E 7A, 11A, 11B, or 11D of this the School Code.

(c) When a petition contains more than 10 signatures the petition shall designate a committee of 10 of the petitioners as attorney in fact for all petitioners, any 7 of whom may make binding stipulations on behalf of all petitioners as to any question with respect to the petition or hearing or joint hearing, and the regional board of school trustees, or regional boards of school trustees in cases of a joint hearing may accept such stipulation in lieu of evidence or proof of the matter stipulated. The committee of petitioners shall have the same power to stipulate to accountings or waiver thereof between school districts; however, the regional board of school trustees, or regional boards of school trustees in cases of a joint hearing may refuse to accept such stipulation. Those designated as the committee of 10 shall serve in that capacity until such time as the regional superintendent of schools or the committee of 10 determines that, because

of death, resignation, transfer of residency from the territory, or failure to qualify, the office of a particular member of the committee of 10 is vacant. Upon determination that a vacancy exists, the remaining members shall appoint a petitioner to fill the designated vacancy on the committee of 10. The appointment of any new members by the committee of 10 shall be made by a simple majority vote of the remaining designated members.

(d) The petition may be amended to withdraw not to exceed a total of 10% of the territory in the petition at any time prior to the hearing or joint hearing; provided that the petition shall after amendment comply with the requirements as to the number of signatures required on an original petition.

(e) The petitioners shall pay the expenses of publishing the notice and of any transcript taken at the hearing or joint hearing; and in case of an appeal from the decision of the regional board of school trustees, or regional boards of school trustees in cases of a joint hearing, or State Superintendent of Education in cases determined under subsection (l) of this Section, the appellants shall pay the cost of preparing the record for appeal.

(f) The notice shall state when the petition was filed, the description of the territory, the prayer of the petition and the return day on which the hearing or joint hearing upon the petition will be held which shall not be more than 15 nor less than 10 days after the publication of notice.

(g) On such return day or on a day to which the regional board of school trustees, or regional boards of school trustees in cases of a joint hearing shall continue the hearing or joint hearing the regional board of school trustees, or regional boards of school trustees in cases of a joint hearing shall hear the petition but may adjourn the hearing or joint hearing from time to time or may continue the matter for want of sufficient notice or other good cause.

(h) Prior to the hearing or joint hearing the secretary of the regional board of school trustees shall submit to the regional board of school trustees, or regional boards of school trustees in cases of a joint hearing maps showing the districts involved, a written report of financial and
educational conditions of districts involved and the probable effect of the proposed changes. The reports and maps submitted shall be made a part of the record of the proceedings of the regional board of school trustees, or regional boards of school trustees in cases of a joint hearing. A copy of the report and maps submitted shall be sent by the secretary of the regional board of school trustees to each board of the districts involved, not less than 5 days prior to the day upon which the hearing or joint hearing is to be held.

(i) The regional board of school trustees, or regional boards of school trustees in cases of a joint hearing shall hear evidence as to the school needs and conditions of the territory in the area within and adjacent thereto and as to the ability of the districts affected to meet the standards of recognition as prescribed by the State Board of Education, and shall take into consideration the division of funds and assets which will result from the change of boundaries and shall determine whether it is to the best interests of the schools of the area and the educational welfare of the pupils that such change in boundaries be granted, and in case non-high school territory is contained in the petition the normal high school attendance pattern of the children shall be taken into consideration. If the non-high school territory overlies an elementary district, a part of which is in a high school district, such territory may be annexed to such high school district even though not contiguous to the high school district. However, upon resolution by the regional board of school trustees, or regional boards of school trustees in cases of a joint hearing the secretary or secretaries thereof shall conduct the hearing or joint hearing upon any boundary petition and present a transcript of such hearing to the trustees who shall base their decision upon the transcript, maps and information and any presentation of counsel.

(j) At the hearing or joint hearing any resident of the territory described in the petition or any resident in any district affected by the proposed change of boundaries may appear in person or by an attorney in support of the petition or to object to the granting of the petition and may present evidence in support of his position.
(k) At the conclusion of the hearing, other than a joint hearing, the regional superintendent of schools as ex officio member of the regional board of school trustees shall within 30 days enter an order either granting or denying the petition and shall deliver to the committee of petitioners, if any, and any person who has filed his appearance in writing at the hearing and any attorney who appears for any person and any objector who testifies at the hearing and the regional superintendent of schools a certified copy of its order.

(l) Notwithstanding the foregoing provisions of this Section, if within 9 months after a petition is submitted under the provisions of Section 7-1 the petition is not approved or denied by the regional board of school trustees and the order approving or denying that petition entered and a copy thereof served as provided in this Section, the school boards or registered voters of the districts affected that submitted the petition (or the committee of 10, or an attorney acting on its behalf, if designated in the petition) may submit a copy of the petition directly to the State Superintendent of Education for approval or denial. The copy of the petition as so submitted shall be accompanied by a record of all proceedings had with respect to the petition up to the time the copy of the petition is submitted to the State Superintendent of Education (including a copy of any notice given or published, any certificate or other proof of publication, copies of any maps or written report of the financial and educational conditions of the school districts affected if furnished by the secretary of the regional board of school trustees, copies of any amendments to the petition and stipulations made, accepted or refused, a transcript of any hearing or part of a hearing held, continued or adjourned on the petition, and any orders entered with respect to the petition or any hearing held thereon). The school boards, registered voters or committee of 10 submitting the petition and record of proceedings to the State Superintendent of Education shall give written notice by certified mail, return receipt requested to the regional board of school trustees and to the secretary of that board that the petition has been submitted to the State Superintendent of Education for approval or denial, and shall furnish a copy of the notice so given to the State Superintendent of Education. The
cost of assembling the record of proceedings for submission to the State Superintendent of Education shall be the responsibility of the school boards, registered voters or committee of 10 that submits the petition and record of proceedings to the State Superintendent of Education. When a petition is submitted to the State Superintendent of Education in accordance with the provisions of this paragraph:

(1) The regional board of school trustees loses all jurisdiction over the petition and shall have no further authority to hear, approve, deny or otherwise act with respect to the petition.

(2) All jurisdiction over the petition and the right and duty to hear, approve, deny or otherwise act with respect to the petition is transferred to and shall be assumed and exercised by the State Superintendent of Education.

(3) The State Superintendent of Education shall not be required to repeat any proceedings that were conducted in accordance with the provisions of this Section prior to the time jurisdiction over the petition is transferred to him, but the State Superintendent of Education shall be required to give and publish any notices and hold or complete any hearings that were not given, held or completed by the regional board of school trustees or its secretary as required by this Section prior to the time jurisdiction over the petition is transferred to the State Superintendent of Education.

(4) If so directed by the State Superintendent of Education, the regional superintendent of schools shall submit to the State Superintendent of Education and to such school boards as the State Superintendent of Education shall prescribe accurate maps and a written report of the financial and educational conditions of the districts affected and the probable effect of the proposed boundary changes.

(5) The State Superintendent is authorized to conduct further hearings, or appoint a hearing officer to conduct further hearings, on the petition even though a hearing thereon was held as
provided in this Section prior to the time jurisdiction over the petition is transferred to the State Superintendent of Education.

(6) The State Superintendent of Education or the hearing officer shall hear evidence and approve or deny the petition and shall enter an order to that effect and deliver and serve the same as required in other cases to be done by the regional board of school trustees and the regional superintendent of schools as an ex officio member of that board.

(m) Within 10 days after the conclusion of a joint hearing required under the provisions of Section 7-2, each regional board of school trustees shall meet together and render a decision with regard to the joint hearing on the petition. If the regional boards of school trustees fail to enter a joint order either granting or denying the petition, the regional superintendent of schools for the educational service region in which the joint hearing is held shall enter an order denying the petition, and within 30 days after the conclusion of the joint hearing shall deliver a copy of the order denying the petition to the regional boards of school trustees of each region affected, to the committee of petitioners, if any, to any person who has filed his appearance in writing at the hearing and to any attorney who appears for any person at the joint hearing. If the regional boards of school trustees enter a joint order either granting or denying the petition, the regional superintendent of schools for the educational service region in which the joint hearing is held shall, within 30 days of the conclusion of the hearing, deliver a copy of the joint order to those same committees and persons as are entitled to receive copies of the regional superintendent's order in cases where the regional boards of school trustees have failed to enter a joint order.

(n) Within 10 days after service of a copy of the order granting or denying the petition, any person so served may petition for a rehearing and, upon sufficient cause being shown, a rehearing may be granted. The filing of a petition for rehearing shall operate as a stay of enforcement until the regional board of school trustees, or regional boards of school trustees in cases of a joint hearing, or State Superintendent of Education in cases
determined under subsection (l) of this Section enter the final order on such petition for rehearing.

(o) If a petition filed under subsection (a) of Section 7-1 or under Section 7-2 is required under the provisions of subsection (b-5) of this Section 7-6 to request submission of a proposition at a regular scheduled election for the purpose of voting for or against the annexation of the territory described in the petition to the school district proposing to annex that territory, and if the petition is granted or approved by the regional board or regional boards of school trustees or by the State Superintendent of Education, the proposition shall be placed on the ballot at the next regular scheduled election.

Sec. 7-11. Annexation of dissolved non-operating districts. If any school district has become dissolved as provided in Section 5-32, or if a petition for dissolution is filed under subsection (b) of Section 7-2a, the regional board of school trustees shall attach the territory of such dissolved district to one or more districts and, if the territory is added to 2 or more districts, shall divide the property of the dissolved district among the districts to which its territory is added, in the manner provided for the division of property in case of the organization of a new district from a part of another district. The regional board of school trustees of the region in which the regional superintendent has supervision over the school district that is dissolved shall have all power necessary to annex the territory of the dissolved district as provided in this Section, including the power to attach the territory to a school district under the supervision of the regional superintendent of another educational service region. The annexation of the territory of a dissolved school district under this Section shall entitle the school districts involved in the annexation to payments from the State Board of Education under subsection (A)(5)(m) of Section 18-8 or subsection (I) of Section 18-8.05 and under Sections 18-8.2 and 18-8.3 in the same manner and to the same extent authorized in the case of other annexations under this Article. Other provisions of this Article 7 of The School Code shall apply to and govern dissolutions and annexations.
under this Section and Section 7-2a, except that it is the intent of the General Assembly that in the case of conflict the provisions of this Section and Section 7-2a shall control over the other provisions of this Article.

The regional board of school trustees shall give notice of a hearing, to be held not less than 50 days nor more than 70 days after a school district is dissolved under Section 5-32 or a petition is filed under subsection (b) of Section 7-2a, on the disposition of the territory of such school district by publishing a notice thereof at least once each week for 2 successive weeks in at least one newspaper having a general circulation within the area of the territory involved. At such hearing, the regional board of school trustees shall hear evidence as to the school needs and conditions of the territory and of the area within and adjacent thereto, and shall take into consideration the educational welfare of the pupils of the territory and the normal high school attendance pattern of the children. In the case of an elementary school district if all the eighth grade graduates of such district customarily attend high school in the same high school district, the regional board of school trustees shall, unless it be impossible because of the restrictions of a special charter district, annex the territory of the district to a contiguous elementary school district whose eighth grade graduates customarily attend that high school, and that has an elementary school building nearest to the center of the territory to be annexed, but if such eighth grade graduates customarily attend more than one high school the regional board of school trustees shall determine the attendance pattern of such graduates and divide the territory of the district among the contiguous elementary districts whose graduates attend the same respective high schools.

The decision of the regional board of school trustees in such matter shall be issued within 10 days after the conclusion of the hearing and deemed an "administrative decision" as defined in Section 3-101 of the Code of Civil Procedure and any resident who appears at the hearing or any petitioner may within 10 days after a copy of the decision sought to be reviewed was served by registered mail upon the party affected thereby file a complaint for the judicial review of such decision in accordance with the "Administrative Review Law", and all amendments and modifications

The final decision of the regional board of school trustees or of any court upon judicial review shall become effective under Section 7-9 in the case of a petition for dissolution filed under subsection (b) of Section 7-2a, and a final decision shall become effective immediately following the date no further appeal is allowable in the case of a district dissolved under Section 5-32.

Notwithstanding the foregoing provisions of this Section or any other provision of law to the contrary, the school board of the Mt. Morris School District is authorized to donate to the City of Mount Morris, Illinois the school building and other real property used as a school site by the Mt. Sec. 10-10. Board of education; Term; Vacancy. All school districts having a population of not fewer than 1,000 and not more than 500,000 inhabitants, as ascertained by any special or general census, and not governed by special Acts, shall be governed by a board of education consisting of 7 members, serving without compensation except as herein provided. Each member shall be elected for a term of 4 years except as otherwise provided in subsection (a-5) of Section 11B-7 for the initial members of the board of education of a combined school district to which that subsection applies. If 5 members are elected in 1983 pursuant to the extension of terms provided by law for transition to the consolidated election schedule under the general election law, 2 of those members shall be elected to serve terms of 2 years and 3 shall be elected to serve terms of 4 years; their successors shall serve for a 4 year term. When the voters of a district have voted to elect members of the board of education for 6 year terms, as provided in Section 9-5, the terms of office of members of the board of education of that district expire when their successors assume office but not later than 7 days after such election. If at the regular school election held in the first odd-numbered year after the determination to elect members for 6 year terms 2 members are elected, they shall serve for a 6 year term; and of the members elected at the next regular school election 3 shall serve for a term of 6 years and 2 shall serve a term of 2 years.
Thereafter members elected in such districts shall be elected to a 6 year term. If at the regular school election held in the first odd-numbered year after the determination to elect members for 6 year terms 3 members are elected, they shall serve for a 6 year term; and of the members elected at the next regular school election 2 shall serve for a term of 2 years and 2 shall serve for a term of 6 years. Thereafter members elected in such districts shall be elected to a 6 year term. If at the regular school election held in the first odd-numbered year after the determination to elect members for 6 year terms 4 members are elected, 3 shall serve for a term of 6 years and one shall serve for a term of 2 years; and of the members elected at the next regular school election 2 shall serve for terms of 6 years and 2 shall serve for terms of 2 years. Thereafter members elected in such districts shall be elected to a 6 year term. If at the regular school election held in the first odd-numbered year after the determination to elect members for a 6 year term 5 members are elected, 3 shall serve for a term of 6 years and 2 shall serve for a term of 2 years; and of the members elected at the next regular school election 2 shall serve for terms of 6 years and 2 shall serve for terms of 2 years. Thereafter members elected in such districts shall be elected to a 6 year term. An election for board members shall not be held in school districts which by consolidation, annexation or otherwise shall cease to exist as a school district within 6 months after the election date, and the term of all board members which would otherwise terminate shall be continued until such district shall cease to exist. Each member, on the date of his or her election, shall be a citizen of the United States of the age of 18 years or over, shall be a resident of the State and the territory of the district for at least one year immediately preceding his or her election, shall be a registered voter as provided in the general election law, shall not be a school trustee or a school treasurer, and shall not be a child sex offender as defined in Section 11-9.3 of the Criminal Code of 1961. When the board of education is the successor of the school directors, all rights of property, and all rights regarding causes of action existing or vested in such directors, shall vest in it as fully as they were vested in the school directors. Terms of members are subject to Section 2A-54 of the Election Code.

Such receipt shall be so filed either previously during the calendar year in which his nomination papers were filed or within the period for the filing of nomination papers in accordance with the general election law.

Whenever a vacancy occurs, the remaining members shall notify the regional superintendent of that vacancy within 5 days after its occurrence and shall proceed to fill the vacancy until the next regular school election, at which election a successor shall be elected to serve the remainder of the unexpired term. However, if the vacancy occurs with less than 868 days remaining in the term, or if the vacancy occurs less than 88 days before the next regularly scheduled election for this office then the person so appointed shall serve the remainder of the unexpired term, and no election to fill the vacancy shall be held. Should they fail so to act, within 45 days after the vacancy occurs, the regional superintendent of schools under whose supervision and control the district is operating, as defined in Section 3-14.2 of this Act, shall within 30 days after the remaining members have failed to fill the vacancy, fill the vacancy as provided for herein. (b) For a unit district formation, whenever a part of a district is included within the boundaries of a newly created unit district, the regional superintendent of schools shall cause an accounting to be had between the districts affected by the change in boundaries as provided for in Article 11C of this Code. In this event, the provisions of Section 19-29 shall be applied to determine the debt incurring power of the newly created elementary district and of the school district serving the newly created elementary district for high school purposes.

(3) Without regard to whether the receipt of assets and the assumption of liabilities and obligations of the dissolved unit district is determined pursuant to paragraph (1) or (2) of this subsection (c), the tax rate for bonded indebtedness shall be determined in the manner provided in Section 19-7, and, notwithstanding the creation of this new elementary district, the county clerk or clerks shall annually extend taxes for each outstanding bond issue against all of the taxable property that was situated within the boundaries of the dissolved unit district as those boundaries existed at the time of the issuance of the bond issue, regardless of whether the property was still contained in that unit district at the time of its dissolution and regardless of whether the property is contained in the newly created elementary district at the time of the extension of the taxes by the county clerk or clerks.

(2) positions of teachers in contractual continued service that, during the 5 school years immediately preceding the effective date of the change, as determined under Section 11E-70 of this Code, were full-time positions in which all of the time required of the position was spent in one or more of grades kindergarten through 8 shall be transferred to the control of the school board of the newly created successor elementary district; and

(3) positions of teachers in contractual continued service that were full-time positions not required to be transferred to the control of the school board of the new high school district or combined high school - unit district, as the case may be, or the school board of the newly created successor elementary district under the provisions of subdivision (1) or (2) of this subsection (a) shall be transferred to the control of whichever of the boards the teacher shall request.

The contractual continued service status of any teacher thereby transferred to the newly created district is not lost and the new school board is subject to this Code with respect to the transferred teacher in the same manner as if the teacher was that district's employee and had been its employee during the time the teacher was actually employed by the school board of the district from which the position was transferred.

Sec. 11E-135. Incentives. For districts reorganizing under this Article and for a district or districts that annex all of the territory of one or more entire other school districts in accordance with Article 7 of this Code, the following payments shall be made from appropriations made for these purposes:

(a)(1) For a combined school district, as defined in Section 11E-20 of this Code, or for a unit district, as defined in Section 11E-25 of this Code, for its first year of existence, the general State aid and supplemental general State aid calculated under Section 18-8.05 of this Code shall be computed for the new district and for the previously existing districts for which property is totally included within the new district. If the computation on the basis of the previously existing districts is greater, a
supplementary payment equal to the difference shall be made for the first 4 years of existence of the new district.

(2) For a school district that annexes all of the territory of one or more entire other school districts as defined in Article 7 of this Code, for the first year during which the change of boundaries attributable to the annexation becomes effective for all purposes, as determined under Section 7-9 of this Code, the general State aid and supplemental general State aid calculated under Section 18-8.05 of this Code shall be computed for the annexing district as constituted after the annexation and for the annexing and each annexed district as constituted prior to the annexation; and if the computation on the basis of the annexing and annexed districts as constituted prior to the annexation is greater, then a supplementary payment equal to the difference shall be made for the first 4 years of existence of the annexing school district as constituted upon the annexation.

(3) For 2 or more school districts that annex all of the territory of one or more entire other school districts, as defined in Article 7 of this Code, for the first year during which the change of boundaries attributable to the annexation becomes effective for all purposes, as determined under Section 7-9 of this Code, the general State aid and supplemental general State aid calculated under Section 18-8.05 of this Code shall be computed for each annexing district as constituted after the annexation and for each annexing and annexed district as constituted prior to the annexation; and if the aggregate of the general State aid and supplemental general State aid as so computed for the annexing districts as constituted after the annexation is less than the aggregate of the general State aid and supplemental general State aid as so computed for the annexing and annexed districts, as constituted prior to the annexation, then a supplementary payment equal to the difference shall be made and allocated between or among the annexing districts, as constituted upon the annexation, for the first 4 years of their existence. The total difference payment

shall be allocated between or among the annexing districts in the same ratio as the pupil enrollment from that portion of the annexed district or districts that is annexed to each annexing district bears to the total pupil enrollment from the entire annexed district or districts, as such pupil enrollment is determined for the school year last ending prior to the date when the change of boundaries attributable to the annexation becomes effective for all purposes. The amount of the total difference payment and the amount thereof to be allocated to the annexing districts shall be computed by the State Board of Education on the basis of pupil enrollment and other data that shall be certified to the State Board of Education, on forms that it shall provide for that purpose, by the regional superintendent of schools for each educational service region in which the annexing and annexed districts are located.

(4) For a school district conversion, as defined in Section 11E-15 of this Code, or a multi-unit conversion, as defined in subsection (b) of Section 11E-30 of this Code, if in their first year of existence the newly created elementary districts and the newly created high school district, from a school district conversion, or the newly created elementary district or districts and newly created combined high school - unit district, from a multi-unit conversion, qualify for less general State aid under Section 18-8.05 of this Code than would have been payable under Section 18-8.05 for that same year to the previously existing districts, then a supplementary payment equal to that difference shall be made for the first 4 years of existence of the newly created districts. The aggregate amount of each supplementary payment shall be allocated among the newly created districts in the proportion that the deemed pupil enrollment in each district during its first year of existence bears to the actual aggregate pupil enrollment in all of the districts during their first year of existence. For purposes of each allocation:

(A) the deemed pupil enrollment of the newly created high school district from a school district
conversion shall be an amount equal to its actual pupil enrollment for its first year of existence multiplied by 1.25;

(B) the deemed pupil enrollment of each newly created elementary district from a school district conversion shall be an amount equal to its actual pupil enrollment for its first year of existence reduced by an amount equal to the product obtained when the amount by which the newly created high school district’s deemed pupil enrollment exceeds its actual pupil enrollment for its first year of existence is multiplied by a fraction, the numerator of which is the actual pupil enrollment of the newly created elementary district for its first year of existence and the denominator of which is the actual aggregate pupil enrollment of all of the newly created elementary districts for their first year of existence;

(C) the deemed high school pupil enrollment of the newly created combined high school - unit district from a multi-unit conversion shall be an amount equal to its actual grades 9 through 12 pupil enrollment for its first year of existence multiplied by 1.25; and

(D) the deemed elementary pupil enrollment of each newly created district from a multi-unit conversion shall be an amount equal to each district’s actual grade K through 8 pupil enrollment for its first year of existence, reduced by an amount equal to the product obtained when the amount by which the newly created combined high school - unit district’s deemed high school pupil enrollment exceeds its actual grade 9 through 12 pupil enrollment for its first year of existence is multiplied by a fraction, the numerator of which is the actual grade K through 8 pupil enrollment of each newly created district for its first year of existence and the denominator of which is the actual aggregate grade K through 8 pupil enrollment of all such newly created districts for their first year of existence.

The aggregate amount of each supplementary payment under this subdivision (4) and the amount thereof to be allocated to the newly created districts shall be computed by the State Board of Education on the basis of pupil enrollment and other data, which shall be certified to the State Board of Education, on forms that it shall provide for that purpose, by the regional superintendent of schools for each educational service region in which the newly created districts are located.

(5) For a partial elementary unit district, as defined in subsection (a) or (c) of Section 11E-30 of this Code, if, in the first year of existence, the newly created partial elementary unit district qualifies for less general State aid and supplemental general State aid under Section 18-8.05 of this Code than would have been payable under that Section for that same year to the previously existing districts that formed the partial elementary unit district, then a supplementary payment equal to that difference shall be made to the partial elementary unit district for the first 4 years of existence of that newly created district.

(6) For an elementary opt-in, as described in subsection (d) of Section 11E-30 of this Code, the general State aid difference shall be computed in accordance with paragraph (5) of this subsection (a) as if the elementary opt-in was included in an optional elementary unit district at the optional elementary unit district's original effective date. If the calculation in this paragraph (6) is less than that calculated in paragraph (5) of this subsection (a) at the optional elementary unit district's original effective date, then no adjustments may be made. If the calculation in this paragraph (6) is more than that calculated in paragraph (5) of this subsection (a) at the optional elementary unit district's original effective date, then the excess must be paid as follows:

(A) If the effective date for the elementary opt-in is one year after the effective date for the optional elementary unit district, 100% of the calculated excess shall be paid to
the optional elementary unit district in each of the first 4 years after the effective date of the elementary opt-in.

(B) If the effective date for the elementary opt-in is 2 years after the effective date for the optional elementary unit district, 75% of the calculated excess shall be paid to the optional elementary unit district in each of the first 4 years after the effective date of the elementary opt-in.

(C) If the effective date for the elementary opt-in is 3 years after the effective date for the optional elementary unit district, 50% of the calculated excess shall be paid to the optional elementary unit district in each of the first 4 years after the effective date of the elementary opt-in.

(D) If the effective date for the elementary opt-in is 4 years after the effective date for the optional elementary unit district, 25% of the calculated excess shall be paid to the optional elementary unit district in each of the first 4 years after the effective date of the elementary opt-in.

(E) If the effective date for the elementary opt-in is 5 years after the effective date for the optional elementary unit district, the optional elementary unit district is not eligible for any additional incentives due to the elementary opt-in.

(7) Claims for financial assistance under this subsection (a) may not be recomputed except as expressly provided under Section 18-8.05 of this Code.

(8) Any supplementary payment made under this subsection (a) must be treated as separate from all other payments made pursuant to Section 18-8.05 of this Code.

(b)(1) After the formation of a combined school district, as defined in Section 11E-20 of this Code, or a unit district, as defined in Section 11E-25 of this Code, a computation shall be made to determine the difference between the salaries effective in each of the previously existing districts on June 30, prior to the creation of the new district. For the first 4 years after the formation of the new district, a supplementary State aid
reimbursement shall be paid to the new district equal to the difference between the sum of the salaries earned by each of the certificated members of the new district, while employed in one of the previously existing districts during the year immediately preceding the formation of the new district, and the sum of the salaries those certificated members would have been paid during the year immediately prior to the formation of the new district if placed on the salary schedule of the previously existing district with the highest salary schedule.

(2) After the territory of one or more school districts is annexed by one or more other school districts as defined in Article 7 of this Code, a computation shall be made to determine the difference between the salaries effective in each annexed district and in the annexing district or districts as they were each constituted on June 30 preceding the date when the change of boundaries attributable to the annexation became effective for all purposes, as determined under Section 7-9 of this Code. For the first 4 years after the annexation, a supplementary State aid reimbursement shall be paid to each annexing district as constituted after the annexation equal to the difference between the sum of the salaries earned by each of the certificated members of the annexing district as constituted after the annexation, while employed in an annexed or annexing district during the year immediately preceding the annexation, and the sum of the salaries those certificated members would have been paid during the immediately preceding year if placed on the salary schedule of whichever of the annexing or annexed districts had the highest salary schedule during the immediately preceding year.

(3) For each new high school district formed under a school district conversion, as defined in Section 11E-15 of this Code, the State shall make a supplementary payment for 4 years equal to the difference between the sum of the salaries earned by each certified member of the new high school district, while employed in one of the previously existing districts, and the sum of the salaries those certified members would have been paid if
placed on the salary schedule of the previously existing district with the highest salary schedule.

(4) For each newly created partial elementary unit district, the State shall make a supplementary payment for 4 years equal to the difference between the sum of the salaries earned by each certified member of the newly created partial elementary unit district, while employed in one of the previously existing districts that formed the partial elementary unit district, and the sum of the salaries those certified members would have been paid if placed on the salary schedule of the previously existing district with the highest salary schedule. The salary schedules used in the calculation shall be those in effect in the previously existing districts for the school year prior to the creation of the new partial elementary unit district.

(5) For an elementary district opt-in, as described in subsection (d) of Section 11E-30 of this Code, the salary difference incentive shall be computed in accordance with paragraph (4) of this subsection (b) as if the opted-in elementary district was included in the optional elementary unit district at the optional elementary unit district's original effective date. If the calculation in this paragraph (5) is less than that calculated in paragraph (4) of this subsection (b) at the optional elementary unit district's original effective date, then no adjustments may be made. If the calculation in this paragraph (5) is more than that calculated in paragraph (4) of this subsection (b) at the optional elementary unit district's original effective date, then the excess must be paid as follows:

(A) If the effective date for the elementary opt-in is one year after the effective date for the optional elementary unit district, 100% of the calculated excess shall be paid to the optional elementary unit district in each of the first 4 years after the effective date of the elementary opt-in.

(B) If the effective date for the elementary opt-in is 2 years after the effective date for the optional elementary district
unit district, 75% of the calculated excess shall be paid to the optional elementary unit district in each of the first 4 years after the effective date of the elementary opt-in.

(C) If the effective date for the elementary opt-in is 3 years after the effective date for the optional elementary unit district, 50% of the calculated excess shall be paid to the optional elementary unit district in each of the first 4 years after the effective date of the elementary opt-in.

(D) If the effective date for the elementary opt-in is 4 years after the effective date for the partial elementary unit district, 25% of the calculated excess shall be paid to the optional elementary unit district in each of the first 4 years after the effective date of the elementary opt-in.

(E) If the effective date for the elementary opt-in is 5 years after the effective date for the optional elementary unit district, the optional elementary unit district is not eligible for any additional incentives due to the elementary opt-in.

(6) The supplementary State aid reimbursement under this subsection (b) shall be treated as separate from all other payments made pursuant to Section 18-8.05 of this Code. In the case of the formation of a new district, reimbursement shall begin during the first year of operation of the new district, and in the case of an annexation of the territory of one or more school districts by one or more other school districts, reimbursement shall begin during the first year when the change in boundaries attributable to the annexation or division becomes effective for all purposes as determined pursuant to Section 7-9 of this Code. Each year that the new, annexing, or resulting district, as the case may be, is entitled to receive reimbursement, the number of eligible certified members who are employed on October 1 in the district shall be certified to the State Board of Education on prescribed forms by October 15 and payment shall be made on or before November 15 of that year.
(c)(1) For the first year after the formation of a combined school
district, as defined in Section 11E-20 of this Code or a unit district, as
defined in Section 11E-25 of this Code, a computation shall be made
totaling each previously existing district's audited fund balances in the
educational fund, working cash fund, operations and maintenance fund,
and transportation fund for the year ending June 30 prior to the
referendum for the creation of the new district. The new district shall be
paid supplementary State aid equal to the sum of the differences between
the deficit of the previously existing district with the smallest deficit and
the deficits of each of the other previously existing districts.

(2) For the first year after the annexation of all of the
territory of one or more entire school districts by another school
district, as defined in Article 7 of this Code, computations shall be
made, for the year ending June 30 prior to the date that the change
of boundaries attributable to the annexation is allowed by the
affirmative decision issued by the regional board of school trustees
under Section 7-6 of this Code, notwithstanding any effort to seek
administrative review of the decision, totaling the annexing
district's and totaling each annexed district's audited fund
balances in their respective educational, working cash, operations
and maintenance, and transportation funds. The annexing district
as constituted after the annexation shall be paid supplementary
State aid equal to the sum of the differences between the deficit of
whichever of the annexing or annexed districts as constituted prior
to the annexation had the smallest deficit and the deficits of each of
the other districts as constituted prior to the annexation.

(3) For the first year after the annexation of all of the
territory of one or more entire school districts by 2 or more other
school districts, as defined by Article 7 of this Code, computations
shall be made, for the year ending June 30 prior to the date that
the change of boundaries attributable to the annexation is allowed
by the affirmative decision of the regional board of school trustees
under Section 7-6 of this Code, notwithstanding any action for
administrative review of the decision, totaling each annexing and

annexed district's audited fund balances in their respective educational, working cash, operations and maintenance, and transportation funds. The annexing districts as constituted after the annexation shall be paid supplementary State aid, allocated as provided in this paragraph (3), in an aggregate amount equal to the sum of the differences between the deficit of whichever of the annexing or annexed districts as constituted prior to the annexation had the smallest deficit and the deficits of each of the other districts as constituted prior to the annexation. The aggregate amount of the supplementary State aid payable under this paragraph (3) shall be allocated between or among the annexing districts as follows:

(A) the regional superintendent of schools for each educational service region in which an annexed district is located prior to the annexation shall certify to the State Board of Education, on forms that it shall provide for that purpose, the value of all taxable property in each annexed district, as last equalized or assessed by the Department of Revenue prior to the annexation, and the equalized assessed value of each part of the annexed district that was annexed to or included as a part of an annexing district;

(B) using equalized assessed values as certified by the regional superintendent of schools under clause (A) of this paragraph (3), the combined audited fund balance deficit of each annexed district as determined under this Section shall be apportioned between or among the annexing districts in the same ratio as the equalized assessed value of that part of the annexed district that was annexed to or included as a part of an annexing district bears to the total equalized assessed value of the annexed district; and

(C) the aggregate supplementary State aid payment under this paragraph (3) shall be allocated between or among, and shall be paid to, the annexing districts in the

same ratio as the sum of the combined audited fund balance deficit of each annexing district as constituted prior to the annexation, plus all combined audited fund balance deficit amounts apportioned to that annexing district under clause (B) of this subsection, bears to the aggregate of the combined audited fund balance deficits of all of the annexing and annexed districts as constituted prior to the annexation.

(4) For the new elementary districts and new high school district formed through a school district conversion, as defined in subsection (b) of Section 11E-15 of this Code or the new elementary district or districts and new combined high school - unit district formed through a multi-unit conversion, as defined in subsection (b) of Section 11E-30 of this Code, a computation shall be made totaling each previously existing district’s audited fund balances in the educational fund, working cash fund, operations and maintenance fund, and transportation fund for the year ending June 30 prior to the referendum establishing the new districts. In the first year of the new districts, the State shall make a one-time supplementary payment equal to the sum of the differences between the deficit of the previously existing district with the smallest deficit and the deficits of each of the other previously existing districts. A district with a combined balance among the 4 funds that is positive shall be considered to have a deficit of zero. The supplementary payment shall be allocated among the newly formed high school and elementary districts in the manner provided by the petition for the formation of the districts, in the form in which the petition is approved by the regional superintendent of schools or State Superintendent of Education under Section 11E-50 of this Code.

(5) For each newly created partial elementary unit district, as defined in subsection (a) or (c) of Section 11E-30 of this Code, a computation shall be made totaling the audited fund balances of each previously existing district that formed the new partial...
elementary unit district in the educational fund, working cash fund, operations and maintenance fund, and transportation fund for the year ending June 30 prior to the referendum for the formation of the partial elementary unit district. In the first year of the new partial elementary unit district, the State shall make a one-time supplementary payment to the new district equal to the sum of the differences between the deficit of the previously existing district with the smallest deficit and the deficits of each of the other previously existing districts. A district with a combined balance among the 4 funds that is positive shall be considered to have a deficit of zero.

(6) For an elementary opt-in as defined in subsection (d) of Section 11E-30 of this Code, the deficit fund balance incentive shall be computed in accordance with paragraph (5) of this subsection (c) as if the opted-in elementary was included in the optional elementary unit district at the optional elementary unit district's original effective date. If the calculation in this paragraph (6) is less than that calculated in paragraph (5) of this subsection (c) at the optional elementary unit district's original effective date, then no adjustments may be made. If the calculation in this paragraph (6) is more than that calculated in paragraph (5) of this subsection (c) at the optional elementary unit district's original effective date, then the excess must be paid as follows:

(A) If the effective date for the elementary opt-in is one year after the effective date for the optional elementary unit district, 100% of the calculated excess shall be paid to the optional elementary unit district in the first year after the effective date of the elementary opt-in.

(B) If the effective date for the elementary opt-in is 2 years after the effective date for the optional elementary unit district, 75% of the calculated excess shall be paid to the optional elementary unit district in the first year after the effective date of the elementary opt-in.
(C) If the effective date for the elementary opt-in is 3 years after the effective date for the optional elementary unit district, 50% of the calculated excess shall be paid to the optional elementary unit district in the first year after the effective date of the elementary opt-in.

(D) If the effective date for the elementary opt-in is 4 years after the effective date for the optional elementary unit district, 25% of the calculated excess shall be paid to the optional elementary unit district in the first year after the effective date of the elementary opt-in.

(E) If the effective date for the elementary opt-in is 5 years after the effective date for the optional elementary unit district, the optional elementary unit district is not eligible for any additional incentives due to the elementary opt-in.

(7) For purposes of any calculation required under paragraph (1), (2), (3), (4), (5), or (6) of this subsection (c), a district with a combined fund balance that is positive shall be considered to have a deficit of zero. For purposes of determining each district’s audited fund balances in its educational fund, working cash fund, operations and maintenance fund, and transportation fund for the specified year ending June 30, as provided in paragraphs (1), (2), (3), (4), (5), and (6) of this subsection (c), the balance of each fund shall be deemed decreased by an amount equal to the amount of the annual property tax theretofore levied in the fund by the district for collection and payment to the district during the calendar year in which the June 30 fell, but only to the extent that the tax so levied in the fund actually was received by the district on or before or comprised a part of the fund on such June 30. For purposes of determining each district’s audited fund balances, a calculation shall be made for each fund to determine the average for the 3 years prior to the specified year ending June 30, as provided in paragraphs (1), (2), (3), (4), (5), and (6) of this subsection (c), of the district’s
expenditures in the categories "purchased services", "supplies and materials", and "capital outlay", as those categories are defined in rules of the State Board of Education. If this 3-year average is less than the district's expenditures in these categories for the specified year ending June 30, as provided in paragraphs (1), (2), (3), (4), (5), and (6) of this subsection (c), then the 3-year average shall be used in calculating the amounts payable under this Section in place of the amounts shown in these categories for the specified year ending June 30, as provided in paragraphs (1), (2), (3), (4), (5), and (6) of this subsection (c). Any deficit because of State aid not yet received may not be considered in determining the June 30 deficits. The same basis of accounting shall be used by all previously existing districts and by all annexing or annexed districts, as constituted prior to the annexation, in making any computation required under paragraphs (1), (2), (3), (4), (5), and (6) of this subsection (c).

(8) The supplementary State aid payments under this subsection (c) shall be treated as separate from all other payments made pursuant to Section 18-8.05 of this Code.

(d)(1) Following the formation of a combined school district, as defined in Section 11E-20 of this Code, a new elementary district or districts and a new high school district formed through a school district conversion, as defined in subsection (b) of Section 11E-15 of this Code, a new partial elementary unit district, as defined in Section 11E-30 of this Code, or a new elementary district or districts formed through a multi-unit conversion, as defined in subsection (b) of Section 11E-30 of this Code, or the annexation of all of the territory of one or more entire school districts by one or more other school districts, as defined in Article 7 of this Code, a supplementary State aid reimbursement shall be paid for the number of school years determined under the following table to each new or annexing district equal to the sum of $4,000 for each certified employee who is employed by the district on a full-time basis for the regular term of the school year:

The State Board of Education shall make a one-time calculation of a reorganized district's quintile ranks. The average daily attendance used in this calculation shall be the best 3 months' average daily attendance for the district's first year. The equalized assessed value per pupil shall be the district's real property equalized assessed value used in calculating the district's first-year general State aid claim, under Section 18-8.05 of this Code, divided by the best 3 months' average daily attendance.

No annexing or resulting school district shall be entitled to supplementary State aid under this subsection (d) unless the district acquires at least 30% of the average daily attendance of the district from which the territory is being detached or divided.

If a district results from multiple reorganizations that would otherwise qualify the district for multiple payments under this subsection (d) in any year, then the district shall receive a single payment only for that year based solely on the most recent reorganization.

(2) For an elementary opt-in, as defined in subsection (d) of Section 11E-30 of this Code, the full-time certified staff incentive shall be computed in accordance with paragraph (1) of this subsection (d), equal to the sum of $4,000 for each certified employee of the elementary district that opts-in who is employed by the optional elementary unit district on a full-time basis for the

regular term of the school year. The calculation from this paragraph (2) must be paid as follows:

(A) If the effective date for the elementary opt-in is one year after the effective date for the optional elementary unit district, 100% of the amount calculated in this paragraph (2) shall be paid to the optional elementary unit district for the number of years calculated in paragraph (1) of this subsection (d) at the optional elementary unit district's original effective date, starting in the second year after the effective date of the elementary opt-in.

(B) If the effective date for the elementary opt-in is 2 years after the effective date for the optional elementary unit district, 75% of the amount calculated in this paragraph (2) shall be paid to the optional elementary unit district for the number of years calculated in paragraph (1) of this subsection (d) at the optional elementary unit district's original effective date, starting in the second year after the effective date of the elementary opt-in.

(C) If the effective date for the elementary opt-in is 3 years after the effective date for the optional elementary unit district, 50% of the amount calculated in this paragraph (2) shall be paid to the optional elementary unit district for the number of years calculated in paragraph (1) of this subsection (d) at the optional elementary unit district's original effective date, starting in the second year after the effective date of the elementary opt-in.

(D) If the effective date for the elementary opt-in is 4 years after the effective date for the optional elementary unit district, 25% of the amount calculated in this paragraph (2) shall be paid to the optional elementary unit district for the number of years calculated in paragraph (1) of this subsection (d) at the optional elementary unit district's original effective date, starting in the second year after the effective date of the elementary opt-in.

(E) If the effective date for the elementary opt-in is 5 years after the effective date for the optional elementary unit district, the optional elementary unit district is not eligible for any additional incentives due to the elementary opt-in.

(3) The supplementary State aid reimbursement payable under this subsection (d) shall be separate from and in addition to all other payments made to the district pursuant to any other Section of this Article.

(4) During May of each school year for which a supplementary State aid reimbursement is to be paid to a new or annexing school district pursuant to this subsection (d), the school board shall certify to the State Board of Education, on forms furnished to the school board by the State Board of Education for purposes of this subsection (d), the number of certified employees for which the district is entitled to reimbursement under this Section, together with the names, certificate numbers, and positions held by the certified employees.

(5) Upon certification by the State Board of Education to the State Comptroller of the amount of the supplementary State aid reimbursement to which a school district is entitled under this subsection (d), the State Comptroller shall draw his or her warrant upon the State Treasurer for the payment thereof to the school district and shall promptly transmit the payment to the school district through the appropriate school treasurer.

Sec. 18-8.05. Basis for apportionment of general State financial aid and supplemental general State aid to the common schools for the 1998-1999 and subsequent school years.

(A) General Provisions.

(1) The provisions of this Section apply to the 1998-1999 and subsequent school years. The system of general State financial aid provided for in this Section is designed to assure that, through a combination of State financial aid and required local resources, the

New matter indicated by italics - deletions by strikeout
financial support provided each pupil in Average Daily Attendance equals or exceeds a prescribed per pupil Foundation Level. This formula approach imputes a level of per pupil Available Local Resources and provides for the basis to calculate a per pupil level of general State financial aid that, when added to Available Local Resources, equals or exceeds the Foundation Level. The amount of per pupil general State financial aid for school districts, in general, varies in inverse relation to Available Local Resources. Per pupil amounts are based upon each school district's Average Daily Attendance as that term is defined in this Section.

(2) In addition to general State financial aid, school districts with specified levels or concentrations of pupils from low income households are eligible to receive supplemental general State financial aid grants as provided pursuant to subsection (H). The supplemental State aid grants provided for school districts under subsection (H) shall be appropriated for distribution to school districts as part of the same line item in which the general State financial aid of school districts is appropriated under this Section.

(3) To receive financial assistance under this Section, school districts are required to file claims with the State Board of Education, subject to the following requirements:

(a) Any school district which fails for any given school year to maintain school as required by law, or to maintain a recognized school is not eligible to file for such school year any claim upon the Common School Fund. In case of nonrecognition of one or more attendance centers in a school district otherwise operating recognized schools, the claim of the district shall be reduced in the proportion which the Average Daily Attendance in the attendance center or centers bear to the Average Daily Attendance in the school district. A "recognized school" means any public school which meets the standards as established for recognition by the State Board of Education. A school district or attendance center not having recognition status at the end of a school term is entitled to receive State aid payments due upon a legal claim which was filed while it was recognized.

New matter indicated by italics - deletions by strikeout
(b) School district claims filed under this Section are subject to Sections 18-9, 18-10, and 18-12, except as otherwise provided in this Section.

(c) If a school district operates a full year school under Section 10-19.1, the general State aid to the school district shall be determined by the State Board of Education in accordance with this Section as near as may be applicable.

(d) (Blank).

(4) Except as provided in subsections (H) and (L), the board of any district receiving any of the grants provided for in this Section may apply those funds to any fund so received for which that board is authorized to make expenditures by law.

School districts are not required to exert a minimum Operating Tax Rate in order to qualify for assistance under this Section.

(5) As used in this Section the following terms, when capitalized, shall have the meaning ascribed herein:

(a) "Average Daily Attendance": A count of pupil attendance in school, averaged as provided for in subsection (C) and utilized in deriving per pupil financial support levels.

(b) "Available Local Resources": A computation of local financial support, calculated on the basis of Average Daily Attendance and derived as provided pursuant to subsection (D).

(c) "Corporate Personal Property Replacement Taxes": Funds paid to local school districts pursuant to "An Act in relation to the abolition of ad valorem personal property tax and the replacement of revenues lost thereby, and amending and repealing certain Acts and parts of Acts in connection therewith", certified August 14, 1979, as amended (Public Act 81-1st S.S.-1).

(d) "Foundation Level": A prescribed level of per pupil financial support as provided for in subsection (B).

(e) "Operating Tax Rate": All school district property taxes extended for all purposes, except Bond and Interest, Summer School, Rent, Capital Improvement, and Vocational Education Building purposes.

(B) Foundation Level.

(1) The Foundation Level is a figure established by the State representing the minimum level of per pupil financial support that should be available to provide for the basic education of each pupil in Average Daily Attendance. As set forth in this Section, each school district is assumed to exert a sufficient local taxing effort such that, in combination with the aggregate of general State financial aid provided the district, an aggregate of State and local resources are available to meet the basic education needs of pupils in the district.

(2) For the 1998-1999 school year, the Foundation Level of support is $4,225. For the 1999-2000 school year, the Foundation Level of support is $4,325. For the 2000-2001 school year, the Foundation Level of support is $4,425. For the 2001-2002 school year and 2002-2003 school year, the Foundation Level of support is $4,560. For the 2003-2004 school year, the Foundation Level of support is $4,810. For the 2004-2005 school year, the Foundation Level of support is $4,964.

(3) For the 2005-2006 school year and each school year thereafter, the Foundation Level of support is $5,164 or such greater amount as may be established by law by the General Assembly.

(C) Average Daily Attendance.

(1) For purposes of calculating general State aid pursuant to subsection (E), an Average Daily Attendance figure shall be utilized. The Average Daily Attendance figure for formula calculation purposes shall be the monthly average of the actual number of pupils in attendance of each school district, as further averaged for the best 3 months of pupil attendance for each school district. In compiling the figures for the number of pupils in attendance, school districts and the State Board of Education shall, for purposes of general State aid funding, conform attendance figures to the requirements of subsection (F).

(2) The Average Daily Attendance figures utilized in subsection (E) shall be the requisite attendance data for the school year immediately preceding the school year for which general State aid is being calculated or the average of the attendance data for the 3 preceding school years, whichever is greater. The Average Daily Attendance figures utilized in

New matter indicated by italics - deletions by strikeout
subsection (H) shall be the requisite attendance data for the school year immediately preceding the school year for which general State aid is being calculated.

(D) Available Local Resources.

(1) For purposes of calculating general State aid pursuant to subsection (E), a representation of Available Local Resources per pupil, as that term is defined and determined in this subsection, shall be utilized. Available Local Resources per pupil shall include a calculated dollar amount representing local school district revenues from local property taxes and from Corporate Personal Property Replacement Taxes, expressed on the basis of pupils in Average Daily Attendance. Calculation of Available Local Resources shall exclude any tax amnesty funds received as a result of Public Act 93-26.

(2) In determining a school district's revenue from local property taxes, the State Board of Education shall utilize the equalized assessed valuation of all taxable property of each school district as of September 30 of the previous year. The equalized assessed valuation utilized shall be obtained and determined as provided in subsection (G).

(3) For school districts maintaining grades kindergarten through 12, local property tax revenues per pupil shall be calculated as the product of the applicable equalized assessed valuation for the district multiplied by 3.00%, and divided by the district's Average Daily Attendance figure. For school districts maintaining grades kindergarten through 8, local property tax revenues per pupil shall be calculated as the product of the applicable equalized assessed valuation for the district multiplied by 2.30%, and divided by the district's Average Daily Attendance figure. For school districts maintaining grades 9 through 12, local property tax revenues per pupil shall be the applicable equalized assessed valuation of the district multiplied by 1.05%, and divided by the district's Average Daily Attendance figure.

For partial elementary unit districts created pursuant to Article 11E of this Code, local property tax revenues per pupil shall be calculated as the product of the equalized assessed valuation for property within the elementary and high school classification of the partial elementary unit

(4) The Corporate Personal Property Replacement Taxes paid to each school district during the calendar year 2 years before the calendar year in which a school year begins, divided by the Average Daily Attendance figure for that district, shall be added to the local property tax revenues per pupil as derived by the application of the immediately preceding paragraph (3). The sum of these per pupil figures for each school district shall constitute Available Local Resources as that term is utilized in subsection (E) in the calculation of general State aid.

(E) Computation of General State Aid.

(1) For each school year, the amount of general State aid allotted to a school district shall be computed by the State Board of Education as provided in this subsection.

(2) For any school district for which Available Local Resources per pupil is less than the product of 0.93 times the Foundation Level, general State aid for that district shall be calculated as an amount equal to the Foundation Level minus Available Local Resources, multiplied by the Average Daily Attendance of the school district.

(3) For any school district for which Available Local Resources per pupil is equal to or greater than the product of 0.93 times the Foundation Level and less than the product of 1.75 times the Foundation Level, the general State aid per pupil shall be a decimal proportion of the Foundation Level derived using a linear algorithm. Under this linear algorithm, the calculated general State aid per pupil shall decline in direct linear fashion from 0.07 times the Foundation Level for a school district with Available Local Resources equal to the product of 0.93 times the Foundation Level, to 0.05 times the Foundation Level for a school district with Available Local Resources equal to the product of 1.75 times the Foundation Level. The allocation of general State aid for school districts subject to this
paragraph 3 shall be the calculated general State aid per pupil figure multiplied by the Average Daily Attendance of the school district.

(4) For any school district for which Available Local Resources per pupil equals or exceeds the product of 1.75 times the Foundation Level, the general State aid for the school district shall be calculated as the product of $218 multiplied by the Average Daily Attendance of the school district.

(5) The amount of general State aid allocated to a school district for the 1999-2000 school year meeting the requirements set forth in paragraph (4) of subsection (G) shall be increased by an amount equal to the general State aid that would have been received by the district for the 1998-1999 school year by utilizing the Extension Limitation Equalized Assessed Valuation as calculated in paragraph (4) of subsection (G) less the general State aid allotted for the 1998-1999 school year. This amount shall be deemed a one time increase, and shall not affect any future general State aid allocations.

(F) Compilation of Average Daily Attendance.

(1) Each school district shall, by July 1 of each year, submit to the State Board of Education, on forms prescribed by the State Board of Education, attendance figures for the school year that began in the preceding calendar year. The attendance information so transmitted shall identify the average daily attendance figures for each month of the school year. Beginning with the general State aid claim form for the 2002-2003 school year, districts shall calculate Average Daily Attendance as provided in subdivisions (a), (b), and (c) of this paragraph (1).

(a) In districts that do not hold year-round classes, days of attendance in August shall be added to the month of September and any days of attendance in June shall be added to the month of May.

(b) In districts in which all buildings hold year-round classes, days of attendance in July and August shall be added to the month of September and any days of attendance in June shall be added to the month of May.

(c) In districts in which some buildings, but not all, hold year-round classes, for the non-year-round buildings, days of attendance in July and August shall be added to the month of September and any days of attendance in June shall be added to the month of May.
attendance in August shall be added to the month of September and any days of attendance in June shall be added to the month of May. The average daily attendance for the year-round buildings shall be computed as provided in subdivision (b) of this paragraph (1). To calculate the Average Daily Attendance for the district, the average daily attendance for the year-round buildings shall be multiplied by the days in session for the non-year-round buildings for each month and added to the monthly attendance of the non-year-round buildings.

Except as otherwise provided in this Section, days of attendance by pupils shall be counted only for sessions of not less than 5 clock hours of school work per day under direct supervision of: (i) teachers, or (ii) non-teaching personnel or volunteer personnel when engaging in non-teaching duties and supervising in those instances specified in subsection (a) of Section 10-22.34 and paragraph 10 of Section 34-18, with pupils of legal school age and in kindergarten and grades 1 through 12.

Days of attendance by tuition pupils shall be accredited only to the districts that pay the tuition to a recognized school.

(2) Days of attendance by pupils of less than 5 clock hours of school shall be subject to the following provisions in the compilation of Average Daily Attendance.

(a) Pupils regularly enrolled in a public school for only a part of the school day may be counted on the basis of 1/6 day for every class hour of instruction of 40 minutes or more attended pursuant to such enrollment, unless a pupil is enrolled in a block-schedule format of 80 minutes or more of instruction, in which case the pupil may be counted on the basis of the proportion of minutes of school work completed each day to the minimum number of minutes that school work is required to be held that day.

(b) Days of attendance may be less than 5 clock hours on the opening and closing of the school term, and upon the first day of pupil attendance, if preceded by a day or days utilized as an institute or teachers' workshop.

(c) A session of 4 or more clock hours may be counted as a day of attendance upon certification by the regional superintendent, and approved by the State Superintendent of Education to the extent that the district has been forced to use daily multiple sessions.

(d) A session of 3 or more clock hours may be counted as a day of attendance (1) when the remainder of the school day or at least 2 hours in the evening of that day is utilized for an in-service training program for teachers, up to a maximum of 5 days per school year of which a maximum of 4 days of such 5 days may be used for parent-teacher conferences, provided a district conducts an in-service training program for teachers which has been approved by the State Superintendent of Education; or, in lieu of 4 such days, 2 full days may be used, in which event each such day may be counted as a day of attendance; and (2) when days in addition to those provided in item (1) are scheduled by a school pursuant to its school improvement plan adopted under Article 34 or its revised or amended school improvement plan adopted under Article 2, provided that (i) such sessions of 3 or more clock hours are scheduled to occur at regular intervals, (ii) the remainder of the school days in which such sessions occur are utilized for in-service training programs or other staff development activities for teachers, and (iii) a sufficient number of minutes of school work under the direct supervision of teachers are added to the school days between such regularly scheduled sessions to accumulate not less than the number of minutes by which such sessions of 3 or more clock hours fall short of 5 clock hours. Any full days used for the purposes of this paragraph shall not be considered for computing average daily attendance. Days scheduled for in-service training programs, staff development activities, or parent-teacher conferences may be scheduled separately for different grade levels and different attendance centers of the district.

(e) A session of not less than one clock hour of teaching hospitalized or homebound pupils on-site or by telephone to the

New matter indicated by italics - deletions by strikeout
classroom may be counted as 1/2 day of attendance, however these pupils must receive 4 or more clock hours of instruction to be counted for a full day of attendance.

(f) A session of at least 4 clock hours may be counted as a day of attendance for first grade pupils, and pupils in full day kindergartens, and a session of 2 or more hours may be counted as 1/2 day of attendance by pupils in kindergartens which provide only 1/2 day of attendance.

(g) For children with disabilities who are below the age of 6 years and who cannot attend 2 or more clock hours because of their disability or immaturity, a session of not less than one clock hour may be counted as 1/2 day of attendance; however for such children whose educational needs so require a session of 4 or more clock hours may be counted as a full day of attendance.

(h) A recognized kindergarten which provides for only 1/2 day of attendance by each pupil shall not have more than 1/2 day of attendance counted in any one day. However, kindergartens may count 2 1/2 days of attendance in any 5 consecutive school days. When a pupil attends such a kindergarten for 2 half days on any one school day, the pupil shall have the following day as a day absent from school, unless the school district obtains permission in writing from the State Superintendent of Education. Attendance at kindergartens which provide for a full day of attendance by each pupil shall be counted the same as attendance by first grade pupils. Only the first year of attendance in one kindergarten shall be counted, except in case of children who entered the kindergarten in their fifth year whose educational development requires a second year of kindergarten as determined under the rules and regulations of the State Board of Education.

(i) On the days when the Prairie State Achievement Examination is administered under subsection (c) of Section 2-3.64 of this Code, the day of attendance for a pupil whose school day must be shortened to accommodate required testing procedures may be less than 5 clock hours and shall be counted towards the
176 days of actual pupil attendance required under Section 10-19 of this Code, provided that a sufficient number of minutes of school work in excess of 5 clock hours are first completed on other school days to compensate for the loss of school work on the examination days.

(G) Equalized Assessed Valuation Data.

(1) For purposes of the calculation of Available Local Resources required pursuant to subsection (D), the State Board of Education shall secure from the Department of Revenue the value as equalized or assessed by the Department of Revenue of all taxable property of every school district, together with (i) the applicable tax rate used in extending taxes for the funds of the district as of September 30 of the previous year and (ii) the limiting rate for all school districts subject to property tax extension limitations as imposed under the Property Tax Extension Limitation Law.

The Department of Revenue shall add to the equalized assessed value of all taxable property of each school district situated entirely or partially within a county that is or was subject to the alternative general homestead exemption provisions of Section 15-176 of the Property Tax Code (a) an amount equal to the total amount by which the homestead exemption allowed under Section 15-176 of the Property Tax Code for real property situated in that school district exceeds the total amount that would have been allowed in that school district if the maximum reduction under Section 15-176 was (i) $4,500 in Cook County or $3,500 in all other counties in tax year 2003 or (ii) $5,000 in all counties in tax year 2004 and thereafter and (b) an amount equal to the aggregate amount for the taxable year of all additional exemptions under Section 15-175 of the Property Tax Code for owners with a household income of $30,000 or less. The county clerk of any county that is or was subject to the alternative general homestead exemption provisions of Section 15-176 of the Property Tax Code shall annually calculate and certify to the Department of Revenue for each school district all homestead exemption amounts under Section 15-176 of the Property Tax Code and all amounts of additional exemptions under Section 15-175 of the Property Tax Code for owners with a household income of $30,000 or less. It is the intent of this paragraph that

New matter indicated by italics - deletions by strikeout
if the general homestead exemption for a parcel of property is determined under Section 15-176 of the Property Tax Code rather than Section 15-175, then the calculation of Available Local Resources shall not be affected by the difference, if any, between the amount of the general homestead exemption allowed for that parcel of property under Section 15-176 of the Property Tax Code and the amount that would have been allowed had the general homestead exemption for that parcel of property been determined under Section 15-175 of the Property Tax Code. It is further the intent of this paragraph that if additional exemptions are allowed under Section 15-175 of the Property Tax Code for owners with a household income of less than $30,000, then the calculation of Available Local Resources shall not be affected by the difference, if any, because of those additional exemptions.

This equalized assessed valuation, as adjusted further by the requirements of this subsection, shall be utilized in the calculation of Available Local Resources.

(2) The equalized assessed valuation in paragraph (1) shall be adjusted, as applicable, in the following manner:

(a) For the purposes of calculating State aid under this Section, with respect to any part of a school district within a redevelopment project area in respect to which a municipality has adopted tax increment allocation financing pursuant to the Tax Increment Allocation Redevelopment Act, Sections 11-74.4-1 through 11-74.4-11 of the Illinois Municipal Code or the Industrial Jobs Recovery Law, Sections 11-74.6-1 through 11-74.6-50 of the Illinois Municipal Code, no part of the current equalized assessed valuation of real property located in any such project area which is attributable to an increase above the total initial equalized assessed valuation of such property shall be used as part of the equalized assessed valuation of the district, until such time as all redevelopment project costs have been paid, as provided in Section 11-74.4-8 of the Tax Increment Allocation Redevelopment Act or in Section 11-74.6-35 of the Industrial Jobs Recovery Law. For the purpose of the equalized assessed valuation of the district, the total

New matter indicated by italics - deletions by strikeout
initial equalized assessed valuation or the current equalized assessed valuation, whichever is lower, shall be used until such time as all redevelopment project costs have been paid.

(b) The real property equalized assessed valuation for a school district shall be adjusted by subtracting from the real property value as equalized or assessed by the Department of Revenue for the district an amount computed by dividing the amount of any abatement of taxes under Section 18-170 of the Property Tax Code by 3.00% for a district maintaining grades kindergarten through 12, by 2.30% for a district maintaining grades kindergarten through 8, or by 1.05% for a district maintaining grades 9 through 12 and adjusted by an amount computed by dividing the amount of any abatement of taxes under subsection (a) of Section 18-165 of the Property Tax Code by the same percentage rates for district type as specified in this subparagraph (b).

(3) For the 1999-2000 school year and each school year thereafter, if a school district meets all of the criteria of this subsection (G)(3), the school district's Available Local Resources shall be calculated under subsection (D) using the district's Extension Limitation Equalized Assessed Valuation as calculated under this subsection (G)(3).

For purposes of this subsection (G)(3) the following terms shall have the following meanings:

"Budget Year": The school year for which general State aid is calculated and awarded under subsection (E).

"Base Tax Year": The property tax levy year used to calculate the Budget Year allocation of general State aid.

"Preceding Tax Year": The property tax levy year immediately preceding the Base Tax Year.

"Base Tax Year's Tax Extension": The product of the equalized assessed valuation utilized by the County Clerk in the Base Tax Year multiplied by the limiting rate as calculated by the County Clerk and defined in the Property Tax Extension Limitation Law.

New matter indicated by italics - deletions by strikeout
"Preceding Tax Year's Tax Extension": The product of the equalized assessed valuation utilized by the County Clerk in the Preceding Tax Year multiplied by the Operating Tax Rate as defined in subsection (A).

"Extension Limitation Ratio": A numerical ratio, certified by the County Clerk, in which the numerator is the Base Tax Year's Tax Extension and the denominator is the Preceding Tax Year's Tax Extension.

"Operating Tax Rate": The operating tax rate as defined in subsection (A).

If a school district is subject to property tax extension limitations as imposed under the Property Tax Extension Limitation Law, the State Board of Education shall calculate the Extension Limitation Equalized Assessed Valuation of that district. For the 1999-2000 school year, the Extension Limitation Equalized Assessed Valuation of a school district as calculated by the State Board of Education shall be equal to the product of the district's 1996 Equalized Assessed Valuation and the district's Extension Limitation Ratio. For the 2000-2001 school year and each school year thereafter, the Extension Limitation Equalized Assessed Valuation of a school district as calculated by the State Board of Education shall be equal to the product of the Equalized Assessed Valuation last used in the calculation of general State aid and the district's Extension Limitation Ratio. If the Extension Limitation Equalized Assessed Valuation of a school district as calculated under this subsection (G)(3) is less than the district's equalized assessed valuation as calculated pursuant to subsections (G)(1) and (G)(2), then for purposes of calculating the district's general State aid for the Budget Year pursuant to subsection (E), that Extension Limitation Equalized Assessed Valuation shall be utilized to calculate the district's Available Local Resources under subsection (D).

Partial elementary unit districts created in accordance with Article 11E of this Code shall not be eligible for the adjustment in this subsection (G)(3) until the fifth year following the effective date of the reorganization.

(4) For the purposes of calculating general State aid for the 1999-2000 school year only, if a school district experienced a triennial
reassessment on the equalized assessed valuation used in calculating its
general State financial aid apportionment for the 1998-1999 school year,
the State Board of Education shall calculate the Extension Limitation
Equalized Assessed Valuation that would have been used to calculate the
district's 1998-1999 general State aid. This amount shall equal the product
of the equalized assessed valuation used to calculate general State aid for
the 1997-1998 school year and the district's Extension Limitation Ratio. If
the Extension Limitation Equalized Assessed Valuation of the school
district as calculated under this paragraph (4) is less than the district's
equalized assessed valuation utilized in calculating the district's 1998-1999
general State aid allocation, then for purposes of calculating the district's
general State aid pursuant to paragraph (5) of subsection (E), that
Extension Limitation Equalized Assessed Valuation shall be utilized to
calculate the district's Available Local Resources.

(5) For school districts having a majority of their equalized assessed valuation in any county except Cook, DuPage, Kane, Lake, McHenry, or Will, if the amount of general State aid allocated to the school district for the 1999-2000 school year under the provisions of subsection (E), (H), and (J) of this Section is less than the amount of
general State aid allocated to the district for the 1998-1999 school year
under these subsections, then the general State aid of the district for the
1999-2000 school year only shall be increased by the difference between
these amounts. The total payments made under this paragraph (5) shall not
exceed $14,000,000. Claims shall be prorated if they exceed $14,000,000.

(H) Supplemental General State Aid.

(1) In addition to the general State aid a school district is allotted
pursuant to subsection (E), qualifying school districts shall receive a grant,
paid in conjunction with a district's payments of general State aid, for
supplemental general State aid based upon the concentration level of
children from low-income households within the school district.
Supplemental State aid grants provided for school districts under this
subsection shall be appropriated for distribution to school districts as part
of the same line item in which the general State financial aid of school
districts is appropriated under this Section. If the appropriation in any

New matter indicated by italics - deletions by strikeout
fiscal year for general State aid and supplemental general State aid is insufficient to pay the amounts required under the general State aid and supplemental general State aid calculations, then the State Board of Education shall ensure that each school district receives the full amount due for general State aid and the remainder of the appropriation shall be used for supplemental general State aid, which the State Board of Education shall calculate and pay to eligible districts on a prorated basis.

(1.5) This paragraph (1.5) applies only to those school years preceding the 2003-2004 school year. For purposes of this subsection (H), the term "Low-Income Concentration Level" shall be the low-income eligible pupil count from the most recently available federal census divided by the Average Daily Attendance of the school district. If, however, (i) the percentage decrease from the 2 most recent federal censuses in the low-income eligible pupil count of a high school district with fewer than 400 students exceeds by 75% or more the percentage change in the total low-income eligible pupil count of contiguous elementary school districts, whose boundaries are coterminous with the high school district, or (ii) a high school district within 2 counties and serving 5 elementary school districts, whose boundaries are coterminous with the high school district, has a percentage decrease from the 2 most recent federal censuses in the low-income eligible pupil count and there is a percentage increase in the total low-income eligible pupil count of a majority of the elementary school districts in excess of 50% from the 2 most recent federal censuses, then the high school district's low-income eligible pupil count from the earlier federal census shall be the number used as the low-income eligible pupil count for the high school district, for purposes of this subsection (H). The changes made to this paragraph (1) by Public Act 92-28 shall apply to supplemental general State aid grants for school years preceding the 2003-2004 school year that are paid in fiscal year 1999 or thereafter and to any State aid payments made in fiscal year 1994 through fiscal year 1998 pursuant to subsection 1(n) of Section 18-8 of this Code (which was repealed on July 1, 1998), and any high school district that is affected by Public Act 92-28 is entitled to a recomputation.
of its supplemental general State aid grant or State aid paid in any of those fiscal years. This recomputation shall not be affected by any other funding.

(1.10) This paragraph (1.10) applies to the 2003-2004 school year and each school year thereafter. For purposes of this subsection (H), the term "Low-Income Concentration Level" shall, for each fiscal year, be the low-income eligible pupil count as of July 1 of the immediately preceding fiscal year (as determined by the Department of Human Services based on the number of pupils who are eligible for at least one of the following low income programs: Medicaid, KidCare, TANF, or Food Stamps, excluding pupils who are eligible for services provided by the Department of Children and Family Services, averaged over the 2 immediately preceding fiscal years for fiscal year 2004 and over the 3 immediately preceding fiscal years for each fiscal year thereafter) divided by the Average Daily Attendance of the school district.

(2) Supplemental general State aid pursuant to this subsection (H) shall be provided as follows for the 1998-1999, 1999-2000, and 2000-2001 school years only:

(a) For any school district with a Low Income Concentration Level of at least 20% and less than 35%, the grant for any school year shall be $800 multiplied by the low income eligible pupil count.

(b) For any school district with a Low Income Concentration Level of at least 35% and less than 50%, the grant for the 1998-1999 school year shall be $1,100 multiplied by the low income eligible pupil count.

(c) For any school district with a Low Income Concentration Level of at least 50% and less than 60%, the grant for the 1998-99 school year shall be $1,500 multiplied by the low income eligible pupil count.

(d) For any school district with a Low Income Concentration Level of 60% or more, the grant for the 1998-99 school year shall be $1,900 multiplied by the low income eligible pupil count.

(e) For the 1999-2000 school year, the per pupil amount specified in subparagraphs (b), (c), and (d) immediately above shall be increased to $1,243, $1,600, and $2,000, respectively.

(f) For the 2000-2001 school year, the per pupil amounts specified in subparagraphs (b), (c), and (d) immediately above shall be $1,273, $1,640, and $2,050, respectively.

(2.5) Supplemental general State aid pursuant to this subsection (H) shall be provided as follows for the 2002-2003 school year:

(a) For any school district with a Low Income Concentration Level of less than 10%, the grant for each school year shall be $355 multiplied by the low income eligible pupil count.

(b) For any school district with a Low Income Concentration Level of at least 10% and less than 20%, the grant for each school year shall be $675 multiplied by the low income eligible pupil count.

(c) For any school district with a Low Income Concentration Level of at least 20% and less than 35%, the grant for each school year shall be $1,330 multiplied by the low income eligible pupil count.

(d) For any school district with a Low Income Concentration Level of at least 35% and less than 50%, the grant for each school year shall be $1,362 multiplied by the low income eligible pupil count.

(e) For any school district with a Low Income Concentration Level of at least 50% and less than 60%, the grant for each school year shall be $1,680 multiplied by the low income eligible pupil count.

(f) For any school district with a Low Income Concentration Level of 60% or more, the grant for each school year shall be $2,080 multiplied by the low income eligible pupil count.

(2.10) Except as otherwise provided, supplemental general State aid pursuant to this subsection (H) shall be provided as follows for the 2003-2004 school year and each school year thereafter:

New matter indicated by italics - deletions by strikeout
(a) For any school district with a Low Income Concentration Level of 15% or less, the grant for each school year shall be $355 multiplied by the low income eligible pupil count.

(b) For any school district with a Low Income Concentration Level greater than 15%, the grant for each school year shall be $294.25 added to the product of $2,700 and the square of the Low Income Concentration Level, all multiplied by the low income eligible pupil count.

For the 2003-2004 school year, 2004-2005 school year, and 2005-2006 school year only, the grant shall be no less than the grant for the 2002-2003 school year. For the 2006-2007 school year only, the grant shall be no less than the grant for the 2002-2003 school year multiplied by 0.66.

For the 2007-2008 school year only, the grant shall be no less than the grant for the 2002-2003 school year multiplied by 0.33. Notwithstanding the provisions of this paragraph to the contrary, if for any school year supplemental general State aid grants are prorated as provided in paragraph (1) of this subsection (H), then the grants under this paragraph shall be prorated.

For the 2003-2004 school year only, the grant shall be no greater than the grant received during the 2002-2003 school year added to the product of 0.25 multiplied by the difference between the grant amount calculated under subsection (a) or (b) of this paragraph (2.10), whichever is applicable, and the grant received during the 2002-2003 school year. For the 2004-2005 school year only, the grant shall be no greater than the grant received during the 2002-2003 school year added to the product of 0.50 multiplied by the difference between the grant amount calculated under subsection (a) or (b) of this paragraph (2.10), whichever is applicable, and the grant received during the 2002-2003 school year. For the 2005-2006 school year only, the grant shall be no greater than the grant received during the 2002-2003 school year added to the product of 0.75 multiplied by the difference between the grant amount calculated under subsection (a) or (b) of this paragraph (2.10), whichever is applicable, and the grant received during the 2002-2003 school year.

(3) School districts with an Average Daily Attendance of more than 1,000 and less than 50,000 that qualify for supplemental general State aid pursuant to this subsection shall submit a plan to the State Board of Education prior to October 30 of each year for the use of the funds resulting from this grant of supplemental general State aid for the improvement of instruction in which priority is given to meeting the education needs of disadvantaged children. Such plan shall be submitted in accordance with rules and regulations promulgated by the State Board of Education.

(4) School districts with an Average Daily Attendance of 50,000 or more that qualify for supplemental general State aid pursuant to this subsection shall be required to distribute from funds available pursuant to this Section, no less than $261,000,000 in accordance with the following requirements:

(a) The required amounts shall be distributed to the attendance centers within the district in proportion to the number of pupils enrolled at each attendance center who are eligible to receive free or reduced-price lunches or breakfasts under the federal Child Nutrition Act of 1966 and under the National School Lunch Act during the immediately preceding school year.

(b) The distribution of these portions of supplemental and general State aid among attendance centers according to these requirements shall not be compensated for or contravened by adjustments of the total of other funds appropriated to any attendance centers, and the Board of Education shall utilize funding from one or several sources in order to fully implement this provision annually prior to the opening of school.

(c) Each attendance center shall be provided by the school district a distribution of noncategorical funds and other categorical funds to which an attendance center is entitled under law in order that the general State aid and supplemental general State aid provided by application of this subsection supplements rather than supplants the noncategorical funds and other categorical funds provided by the school district to the attendance centers.
(d) Any funds made available under this subsection that by reason of the provisions of this subsection are not required to be allocated and provided to attendance centers may be used and appropriated by the board of the district for any lawful school purpose.

(e) Funds received by an attendance center pursuant to this subsection shall be used by the attendance center at the discretion of the principal and local school council for programs to improve educational opportunities at qualifying schools through the following programs and services: early childhood education, reduced class size or improved adult to student classroom ratio, enrichment programs, remedial assistance, attendance improvement, and other educationally beneficial expenditures which supplement the regular and basic programs as determined by the State Board of Education. Funds provided shall not be expended for any political or lobbying purposes as defined by board rule.

(f) Each district subject to the provisions of this subdivision (H)(4) shall submit an acceptable plan to meet the educational needs of disadvantaged children, in compliance with the requirements of this paragraph, to the State Board of Education prior to July 15 of each year. This plan shall be consistent with the decisions of local school councils concerning the school expenditure plans developed in accordance with part 4 of Section 34-2.3. The State Board shall approve or reject the plan within 60 days after its submission. If the plan is rejected, the district shall give written notice of intent to modify the plan within 15 days of the notification of rejection and then submit a modified plan within 30 days after the date of the written notice of intent to modify. Districts may amend approved plans pursuant to rules promulgated by the State Board of Education.

Upon notification by the State Board of Education that the district has not submitted a plan prior to July 15 or a modified plan within the time period specified herein, the State aid funds affected

by that plan or modified plan shall be withheld by the State Board of Education until a plan or modified plan is submitted.

If the district fails to distribute State aid to attendance centers in accordance with an approved plan, the plan for the following year shall allocate funds, in addition to the funds otherwise required by this subsection, to those attendance centers which were underfunded during the previous year in amounts equal to such underfunding.

For purposes of determining compliance with this subsection in relation to the requirements of attendance center funding, each district subject to the provisions of this subsection shall submit as a separate document by December 1 of each year a report of expenditure data for the prior year in addition to any modification of its current plan. If it is determined that there has been a failure to comply with the expenditure provisions of this subsection regarding contravention or supplanting, the State Superintendent of Education shall, within 60 days of receipt of the report, notify the district and any affected local school council. The district shall within 45 days of receipt of that notification inform the State Superintendent of Education of the remedial or corrective action to be taken, whether by amendment of the current plan, if feasible, or by adjustment in the plan for the following year. Failure to provide the expenditure report or the notification of remedial or corrective action in a timely manner shall result in a withholding of the affected funds.

The State Board of Education shall promulgate rules and regulations to implement the provisions of this subsection. No funds shall be released under this subdivision (H)(4) to any district that has not submitted a plan that has been approved by the State Board of Education.

State aid calculated under this Section shall be computed for the new district and for the previously existing districts for which property is totally included within the new district. If the computation on the basis of the previously existing districts is greater, a supplementary payment equal to the difference shall be made for the first 4 years of existence of the new district.

(2) For a school district which annexes all of the territory of one or more entire other school districts, for the first year during which the change of boundaries attributable to such annexation becomes effective for all purposes as determined under Section 7-9 or 7A-8, the general State aid and supplemental general State aid calculated under this Section shall be computed for the annexing district as constituted after the annexation and for the annexing and each annexed district as constituted prior to the annexation; and if the computation on the basis of the annexing and annexed districts as constituted prior to the annexation is greater, a supplementary payment equal to the difference shall be made for the first 4 years of existence of the annexing school district as constituted upon such annexation.

(3) For 2 or more school districts which annex all of the territory of one or more entire other school districts, and for 2 or more community unit districts which result upon the division (pursuant to petition under Section 11A-2) of one or more other unit school districts into 2 or more parts and which together include all of the parts into which such other unit school district or districts are so divided, for the first year during which the change of boundaries attributable to such annexation or division becomes effective for all purposes as determined under Section 7-9 or 11A-10, as the case may be, the general State aid and supplemental general State aid calculated under this Section shall be computed for each annexing or resulting district as constituted after the annexation or division and for each annexing and annexed district, or for each resulting and divided district, as constituted prior to the annexation or division; and if the aggregate of the general State aid and supplemental general State aid as so computed for the annexing or resulting districts as constituted after the annexation or division is less than the aggregate of the general State aid
and supplemental general State aid as so computed for the annexing and annexed districts, or for the resulting and divided districts, as constituted prior to the annexation or division, then a supplementary payment equal to the difference shall be made and allocated between or among the annexing or resulting districts, as constituted upon such annexation or division, for the first 4 years of their existence. The total difference payment shall be allocated between or among the annexing or resulting districts in the same ratio as the pupil enrollment from that portion of the annexed or divided district or districts which is annexed to or included in each such annexing or resulting district bears to the total pupil enrollment from the entire annexed or divided district or districts, as such pupil enrollment is determined for the school year last ending prior to the date when the change of boundaries attributable to the annexation or division becomes effective for all purposes. The amount of the total difference payment and the amount thereof to be allocated to the annexing or resulting districts shall be computed by the State Board of Education on the basis of pupil enrollment and other data which shall be certified to the State Board of Education, on forms which it shall provide for that purpose, by the regional superintendent of schools for each educational service region in which the annexing and annexed districts, or resulting and divided districts are located.

(3.5) Claims for financial assistance under this subsection (I) shall not be recomputed except as expressly provided under this Section.

(4) Any supplementary payment made under this subsection (I) shall be treated as separate from all other payments made pursuant to this Section.

(J) Supplementary Grants in Aid.

(1) Notwithstanding any other provisions of this Section, the amount of the aggregate general State aid in combination with supplemental general State aid under this Section for which each school district is eligible shall be no less than the amount of the aggregate general State aid entitlement that was received by the district under Section 18-8 (exclusive of amounts received under subsections 5(p) and 5(p-5) of that Section) for the 1997-98 school year, pursuant to the provisions of that
Section as it was then in effect. If a school district qualifies to receive a supplementary payment made under this subsection (J), the amount of the aggregate general State aid in combination with supplemental general State aid under this Section which that district is eligible to receive for each school year shall be no less than the amount of the aggregate general State aid entitlement that was received by the district under Section 18-8 (exclusive of amounts received under subsections 5(p) and 5(p-5) of that Section) for the 1997-1998 school year, pursuant to the provisions of that Section as it was then in effect.

(2) If, as provided in paragraph (1) of this subsection (J), a school district is to receive aggregate general State aid in combination with supplemental general State aid under this Section for the 1998-99 school year and any subsequent school year that in any such school year is less than the amount of the aggregate general State aid entitlement that the district received for the 1997-98 school year, the school district shall also receive, from a separate appropriation made for purposes of this subsection (J), a supplementary payment that is equal to the amount of the difference in the aggregate State aid figures as described in paragraph (1).

(K) Grants to Laboratory and Alternative Schools.

In calculating the amount to be paid to the governing board of a public university that operates a laboratory school under this Section or to any alternative school that is operated by a regional superintendent of schools, the State Board of Education shall require by rule such reporting requirements as it deems necessary.

As used in this Section, "laboratory school" means a public school which is created and operated by a public university and approved by the State Board of Education. The governing board of a public university which receives funds from the State Board under this subsection (K) may not increase the number of students enrolled in its laboratory school from a single district, if that district is already sending 50 or more students, except under a mutual agreement between the school board of a student's district of residence and the university which operates the laboratory school. A

laboratory school may not have more than 1,000 students, excluding students with disabilities in a special education program.

As used in this Section, "alternative school" means a public school which is created and operated by a Regional Superintendent of Schools and approved by the State Board of Education. Such alternative schools may offer courses of instruction for which credit is given in regular school programs, courses to prepare students for the high school equivalency testing program or vocational and occupational training. A regional superintendent of schools may contract with a school district or a public community college district to operate an alternative school. An alternative school serving more than one educational service region may be established by the regional superintendents of schools of the affected educational service regions. An alternative school serving more than one educational service region may be operated under such terms as the regional superintendents of schools of those educational service regions may agree.

Each laboratory and alternative school shall file, on forms provided by the State Superintendent of Education, an annual State aid claim which states the Average Daily Attendance of the school's students by month. The best 3 months' Average Daily Attendance shall be computed for each school. The general State aid entitlement shall be computed by multiplying the applicable Average Daily Attendance by the Foundation Level as determined under this Section.

(L) Payments, Additional Grants in Aid and Other Requirements.

(1) For a school district operating under the financial supervision of an Authority created under Article 34A, the general State aid otherwise payable to that district under this Section, but not the supplemental general State aid, shall be reduced by an amount equal to the budget for the operations of the Authority as certified by the Authority to the State Board of Education, and an amount equal to such reduction shall be paid to the Authority created for such district for its operating expenses in the manner provided in Section 18-11. The remainder of general State school aid for any such district shall be paid in accordance with Article 34A when that Article provides for a disposition other than that provided by this Article.

The recommended foundation level shall be determined based on a methodology which incorporates the basic education expenditures of low-spending schools exhibiting high academic performance. The Education Funding Advisory Board shall make such recommendations to the General Assembly on January 1 of odd numbered years, beginning January 1, 2001.

Sec. 19-1. Debt limitations of school districts.

(a) School districts shall not be subject to the provisions limiting their indebtedness prescribed in "An Act to limit the indebtedness of counties having a population of less than 500,000 and townships, school districts and other municipal corporations having a population of less than 300,000", approved February 15, 1928, as amended.

No school districts maintaining grades K through 8 or 9 through 12 shall become indebted in any manner or for any purpose to an amount, including existing indebtedness, in the aggregate exceeding 6.9% on the value of the taxable property therein to be ascertained by the last assessment for State and county taxes or, until January 1, 1983, if greater, the sum that is produced by multiplying the school district's 1978 equalized assessed valuation by the debt limitation percentage in effect on January 1, 1979, previous to the incurring of such indebtedness.

No school districts maintaining grades K through 12 shall become indebted in any manner or for any purpose to an amount, including existing indebtedness, in the aggregate exceeding 13.8% on the value of the taxable property therein to be ascertained by the last assessment for State and county taxes or, until January 1, 1983, if greater, the sum that is produced by multiplying the school district's 1978 equalized assessed valuation by the debt limitation percentage in effect on January 1, 1979, previous to the incurring of such indebtedness.

No partial elementary unit district, as defined in Article 11E of this Code, shall become indebted in any manner or for any purpose in an amount, including existing indebtedness, in the aggregate exceeding 6.9% of the value of the taxable property of the entire district, to be ascertained

by the last assessment for State and county taxes, plus an amount, including existing indebtedness, in the aggregate exceeding 6.9% of the value of the taxable property of that portion of the district included in the elementary and high school classification, to be ascertained by the last assessment for State and county taxes. Moreover, no partial elementary unit district, as defined in Article 11E of this Code, shall become indebted on account of bonds issued by the district for high school purposes in the aggregate exceeding 6.9% of the value of the taxable property of the entire district, to be ascertained by the last assessment for State and county taxes, nor shall the district become indebted on account of bonds issued by the district for elementary purposes in the aggregate exceeding 6.9% of the value of the taxable property for that portion of the district included in the elementary and high school classification, to be ascertained by the last assessment for State and county taxes.

Notwithstanding the provisions of any other law to the contrary, in any case in which the voters of a school district have approved a proposition for the issuance of bonds of such school district at an election held prior to January 1, 1979, and all of the bonds approved at such election have not been issued, the debt limitation applicable to such school district during the calendar year 1979 shall be computed by multiplying the value of taxable property therein, including personal property, as ascertained by the last assessment for State and county taxes, previous to the incurring of such indebtedness, by the percentage limitation applicable to such school district under the provisions of this subsection (a).

(b) Notwithstanding the debt limitation prescribed in subsection (a) of this Section, additional indebtedness may be incurred in an amount not to exceed the estimated cost of acquiring or improving school sites or constructing and equipping additional building facilities under the following conditions:

(1) Whenever the enrollment of students for the next school year is estimated by the board of education to increase over the actual present enrollment by not less than 35% or by not less than 200 students or the actual present enrollment of students has increased over the previous school year by not less than 35% or by
not less than 200 students and the board of education determines that additional school sites or building facilities are required as a result of such increase in enrollment; and

(2) When the Regional Superintendent of Schools having jurisdiction over the school district and the State Superintendent of Education concur in such enrollment projection or increase and approve the need for such additional school sites or building facilities and the estimated cost thereof; and

(3) When the voters in the school district approve a proposition for the issuance of bonds for the purpose of acquiring or improving such needed school sites or constructing and equipping such needed additional building facilities at an election called and held for that purpose. Notice of such an election shall state that the amount of indebtedness proposed to be incurred would exceed the debt limitation otherwise applicable to the school district. The ballot for such proposition shall state what percentage of the equalized assessed valuation will be outstanding in bonds if the proposed issuance of bonds is approved by the voters; or

(4) Notwithstanding the provisions of paragraphs (1) through (3) of this subsection (b), if the school board determines that additional facilities are needed to provide a quality educational program and not less than 2/3 of those voting in an election called by the school board on the question approve the issuance of bonds for the construction of such facilities, the school district may issue bonds for this purpose; or

(5) Notwithstanding the provisions of paragraphs (1) through (3) of this subsection (b), if (i) the school district has previously availed itself of the provisions of paragraph (4) of this subsection (b) to enable it to issue bonds, (ii) the voters of the school district have not defeated a proposition for the issuance of bonds since the referendum described in paragraph (4) of this subsection (b) was held, (iii) the school board determines that additional facilities are needed to provide a quality educational program, and (iv) a majority of those voting in an election called

In no event shall the indebtedness incurred pursuant to this subsection (b) and the existing indebtedness of the school district exceed 15% of the value of the taxable property therein to be ascertained by the last assessment for State and county taxes, previous to the incurring of such indebtedness or, until January 1, 1983, if greater, the sum that is produced by multiplying the school district's 1978 equalized assessed valuation by the debt limitation percentage in effect on January 1, 1979.

The indebtedness provided for by this subsection (b) shall be in addition to and in excess of any other debt limitation.

(c) Notwithstanding the debt limitation prescribed in subsection (a) of this Section, in any case in which a public question for the issuance of bonds of a proposed school district maintaining grades kindergarten through 12 received at least 60% of the valid ballots cast on the question at an election held on or prior to November 8, 1994, and in which the bonds approved at such election have not been issued, the school district pursuant to the requirements of Section 11A-10 (now repealed) may issue the total amount of bonds approved at such election for the purpose stated in the question.

(d) Notwithstanding the debt limitation prescribed in subsection (a) of this Section, a school district that meets all the criteria set forth in paragraphs (1) and (2) of this subsection (d) may incur an additional indebtedness in an amount not to exceed $4,500,000, even though the amount of the additional indebtedness authorized by this subsection (d), when incurred and added to the aggregate amount of indebtedness of the district existing immediately prior to the district incurring the additional indebtedness authorized by this subsection (d), causes the aggregate indebtedness of the district to exceed the debt limitation otherwise applicable to that district under subsection (a):

(1) The additional indebtedness authorized by this subsection (d) is incurred by the school district through the issuance of bonds under and in accordance with Section 17-2.11a

for the purpose of replacing a school building which, because of mine subsidence damage, has been closed as provided in paragraph (2) of this subsection (d) or through the issuance of bonds under and in accordance with Section 19-3 for the purpose of increasing the size of, or providing for additional functions in, such replacement school buildings, or both such purposes.

(2) The bonds issued by the school district as provided in paragraph (1) above are issued for the purposes of construction by the school district of a new school building pursuant to Section 17-2.11, to replace an existing school building that, because of mine subsidence damage, is closed as of the end of the 1992-93 school year pursuant to action of the regional superintendent of schools of the educational service region in which the district is located under Section 3-14.22 or are issued for the purpose of increasing the size of, or providing for additional functions in, the new school building being constructed to replace a school building closed as the result of mine subsidence damage, or both such purposes.

(e) Notwithstanding the debt limitation prescribed in subsection (a) of this Section, a school district that meets all the criteria set forth in paragraphs (1) through (5) of this subsection (e) may, without referendum, incur an additional indebtedness in an amount not to exceed the lesser of $5,000,000 or 1.5% of the value of the taxable property within the district even though the amount of the additional indebtedness authorized by this subsection (e), when incurred and added to the aggregate amount of indebtedness of the district existing immediately prior to the district incurring that additional indebtedness, causes the aggregate indebtedness of the district to exceed or increases the amount by which the aggregate indebtedness of the district already exceeds the debt limitation otherwise applicable to that district under subsection (a):

(1) The State Board of Education certifies the school district under Section 19-1.5 as a financially distressed district.

(2) The additional indebtedness authorized by this subsection (e) is incurred by the financially distressed district during the school year or school years in which the certification of

the district as a financially distressed district continues in effect through the issuance of bonds for the lawful school purposes of the district, pursuant to resolution of the school board and without referendum, as provided in paragraph (5) of this subsection.

(3) The aggregate amount of bonds issued by the financially distressed district during a fiscal year in which it is authorized to issue bonds under this subsection does not exceed the amount by which the aggregate expenditures of the district for operational purposes during the immediately preceding fiscal year exceeds the amount appropriated for the operational purposes of the district in the annual school budget adopted by the school board of the district for the fiscal year in which the bonds are issued.

(4) Throughout each fiscal year in which certification of the district as a financially distressed district continues in effect, the district maintains in effect a gross salary expense and gross wage expense freeze policy under which the district expenditures for total employee salaries and wages do not exceed such expenditures for the immediately preceding fiscal year. Nothing in this paragraph, however, shall be deemed to impair or to require impairment of the contractual obligations, including collective bargaining agreements, of the district or to impair or require the impairment of the vested rights of any employee of the district under the terms of any contract or agreement in effect on the effective date of this amendatory Act of 1994.

(5) Bonds issued by the financially distressed district under this subsection shall bear interest at a rate not to exceed the maximum rate authorized by law at the time of the making of the contract, shall mature within 40 years from their date of issue, and shall be signed by the president of the school board and treasurer of the school district. In order to issue bonds under this subsection, the school board shall adopt a resolution fixing the amount of the bonds, the date of the bonds, the maturities of the bonds, the rates of interest of the bonds, and their place of payment and denomination, and shall provide for the levy and collection of a
direct annual tax upon all the taxable property in the district sufficient to pay the principal and interest on the bonds to maturity. Upon the filing in the office of the county clerk of the county in which the financially distressed district is located of a certified copy of the resolution, it is the duty of the county clerk to extend the tax therefor in addition to and in excess of all other taxes at any time authorized to be levied by the district. If bond proceeds from the sale of bonds include a premium or if the proceeds of the bonds are invested as authorized by law, the school board shall determine by resolution whether the interest earned on the investment of bond proceeds or the premium realized on the sale of the bonds is to be used for any of the lawful school purposes for which the bonds were issued or for the payment of the principal indebtedness and interest on the bonds. The proceeds of the bond sale shall be deposited in the educational purposes fund of the district and shall be used to pay operational expenses of the district. This subsection is cumulative and constitutes complete authority for the issuance of bonds as provided in this subsection, notwithstanding any other law to the contrary.

(f) Notwithstanding the provisions of subsection (a) of this Section or of any other law, bonds in not to exceed the aggregate amount of $5,500,000 and issued by a school district meeting the following criteria shall not be considered indebtedness for purposes of any statutory limitation and may be issued in an amount or amounts, including existing indebtedness, in excess of any heretofore or hereafter imposed statutory limitation as to indebtedness:

(1) At the time of the sale of such bonds, the board of education of the district shall have determined by resolution that the enrollment of students in the district is projected to increase by not less than 7% during each of the next succeeding 2 school years.

(2) The board of education shall also determine by resolution that the improvements to be financed with the proceeds of the bonds are needed because of the projected enrollment increases.

(3) The board of education shall also determine by resolution that the projected increases in enrollment are the result of improvements made or expected to be made to passenger rail facilities located in the school district.

Notwithstanding the provisions of subsection (a) of this Section or of any other law, a school district that has availed itself of the provisions of this subsection (f) prior to July 22, 2004 (the effective date of Public Act 93-799) may also issue bonds approved by referendum up to an amount, including existing indebtedness, not exceeding 25% of the equalized assessed value of the taxable property in the district if all of the conditions set forth in items (1), (2), and (3) of this subsection (f) are met.

(g) Notwithstanding the provisions of subsection (a) of this Section or any other law, bonds in not to exceed an aggregate amount of 25% of the equalized assessed value of the taxable property of a school district and issued by a school district meeting the criteria in paragraphs (i) through (iv) of this subsection shall not be considered indebtedness for purposes of any statutory limitation and may be issued pursuant to resolution of the school board in an amount or amounts, including existing indebtedness, in excess of any statutory limitation of indebtedness heretofore or hereafter imposed:

(i) The bonds are issued for the purpose of constructing a new high school building to replace two adjacent existing buildings which together house a single high school, each of which is more than 65 years old, and which together are located on more than 10 acres and less than 11 acres of property.

(ii) At the time the resolution authorizing the issuance of the bonds is adopted, the cost of constructing a new school building to replace the existing school building is less than 60% of the cost of repairing the existing school building.

(iii) The sale of the bonds occurs before July 1, 1997.

Notwithstanding the provisions of any other law to the contrary, in any case in which the voters of a school district have approved a proposition for the issuance of bonds of such school district at an election held prior to January 1, 1979, and all of the bonds approved at such election have not been issued, the debt limitation applicable to such school district during the calendar year 1979 shall be computed by multiplying the value of taxable property therein, including personal property, as ascertained by the last assessment for State and county taxes, previous to the incurring of such indebtedness, by the percentage limitation applicable to such school district under the provisions of this subsection (a).

(b) Notwithstanding the debt limitation prescribed in subsection (a) of this Section, additional indebtedness may be incurred in an amount not to exceed the estimated cost of acquiring or improving school sites or constructing and equipping additional building facilities under the following conditions:

Notice of such an election shall state that the amount of indebtedness proposed to be incurred would exceed the debt limitation otherwise applicable to the school district. The ballot for such proposition shall state what percentage of the equalized assessed valuation will be outstanding in bonds if the proposed issuance of bonds is approved by the voters; or

(4) Notwithstanding the provisions of paragraphs (1) through (3) of this subsection (b), if the school board determines that additional facilities are needed to provide a quality educational program and not less than 2/3 of those voting in an election called by the school board on the question approve the issuance of bonds for the construction of such facilities, the school district may issue bonds for this purpose; or

The bonds shall bear interest at not more than the maximum rate authorized by the Bond Authorization Act, as amended at the time of the making of the contract, if issued before January 1, 1972 and not more than the maximum rate authorized by the Bond Authorization Act, as amended at the time of the making of the contract, if issued after January 1, 1972 and shall mature within 20 years from the date thereof. Subject to the foregoing limitations as to amount, the bonds may be issued in an amount including existing indebtedness which will not exceed the constitutional limitation as to debt, notwithstanding any statutory debt limitation to the contrary. When bonds have been issued under this Article by a school district that is certified as a financially distressed district under Section 19-1.5, the amount of those bonds, when and after they are issued, whether issued before or after such certification, shall not be considered debt under any statutory debt limitation and shall be excluded from the computation and determination of any statutory or other debt limitation applicable to the financially distressed district. The school board shall before or at the time of issuing the bonds provide for the collection of a direct annual tax upon all the taxable property within the district sufficient to pay the principal thereof at maturity and to pay the interest thereon as it falls due, which tax shall be in addition to the maximum amount of all other taxes, either educational; transportation; operations and maintenance; or fire prevention and safety fund taxes, now or hereafter

(d) A quorum of the Board shall consist of a majority of Board members currently serving. A majority vote of the quorum is required for Board decisions. A vacancy in the membership of the Board shall not
impair the right of a quorum to exercise all of the rights and perform all of the duties of the Board.

(e) The Governor may remove any appointed member of the Board for misconduct, incapacity, or neglect of duty and shall be the sole judge of the sufficiency of the cause for removal.

(f) Members of the Board are immune from suit in any action based upon any activities performed in good faith as members of the Board.

(e) Members of the Board shall not receive compensation, but shall be reimbursed for actual traveling, incidentals, and expenses necessarily incurred in carrying out their duties as members of the Board, as approved by the Department.

Effective July 11, 2006. 

PUBLIC ACT 94-1021 
(Senate Bill No. 0017)

AN ACT in relation to economic development. 
Be it enacted by the People of the State of Illinois, represented in 
the General Assembly:

ARTICLE 5. 
SOUTHERN ILLINOIS ECONOMIC DEVELOPMENT AUTHORITY 
ACT 

Section 5-5. Short title. This Article may be cited as the Southern 
Illinois Economic Development Authority Act, and references in this 
Article to "this Act" mean this Article. 

Section 5-10. Findings. The General Assembly determines and 
declares the following:

(1) that labor surplus areas currently exist in southern Illinois; 
(2) that the economic burdens resulting from involuntary 
unemployment fall, in part, upon the State in the form of increased need 
for public assistance and reduced tax revenues and, in the event that the 
unemployed worker and his or her family migrate elsewhere to find work, 
the burden may also fall upon the municipalities and other taxing districts 
within the areas of unemployment in the form of reduced tax revenues, 
thereby endangering their financial ability to support necessary 
governmental services for their remaining inhabitants;
(3) that the State has a responsibility to help create a favorable 
climate for new and improved job opportunities for its citizens by 
encouraging the development of commercial and service businesses and 
industrial and manufacturing plants within the southern region of Illinois; 

New matter indicated by italics - deletions by strikeout
(4) that a lack of decent housing contributes to urban blight, crime, anti-social behavior, disease, a higher need for public assistance, reduced tax revenues, and the migration of workers and their families away from areas which fail to offer adequate, decent, and affordable housing;

(5) that decent, affordable housing is a necessary ingredient of life affording each citizen basic human dignity, a sense of self-worth, confidence, and a firm foundation upon which to build a family and educate children;

(6) that in order to foster civic and neighborhood pride, citizens require access to educational institutions, recreation, parks and open spaces, entertainment, sports, a reliable transportation network, cultural facilities, and theaters; and

(7) that the main purpose of this Act is to promote industrial, commercial, residential, service, transportation, and recreational activities and facilities, thereby reducing the evils attendant upon unemployment and enhancing the public health, safety, morals, happiness, and general welfare of the State.

Section 5-35. Tax avoidance. Notwithstanding any other provision of law, the Authority shall not enter into any agreement providing for the purchase and lease of tangible personal property which results in the avoidance of taxation under the Retailers' Occupation Tax Act, the Use Tax Act, the Service Use Tax Act, or the Service Occupation Tax Act, without the prior written consent of the Governor.

Section 5-40. Bonds.
(a) The Authority, with the written approval of the Governor, shall have the continuing power to issue bonds, notes, or other evidences of indebtedness in an aggregate amount not to exceed $250,000,000 for the following purposes: (i) development, construction, acquisition, or improvement of projects, including those established by business entities locating or expanding property within the territorial jurisdiction of the Authority; (ii) entering into venture capital agreements with businesses locating or expanding within the territorial jurisdiction of the Authority; and (iii) acquisition and improvement of any property necessary and useful in connection therewith. For the purpose of evidencing the obligations of
the Authority to repay any money borrowed, the Authority may, pursuant to resolution, from time to time, issue and dispose of its interest-bearing revenue bonds, notes, or other evidences of indebtedness and may also from time to time issue and dispose of such bonds, notes, or other evidences of indebtedness to refund, at maturity, at a redemption date or in advance of either, any bonds, notes, or other evidences of indebtedness pursuant to redemption provisions or at any time before maturity. All such bonds, notes, or other evidences of indebtedness shall be payable solely and only from the revenues or income to be derived from loans made with respect to projects, from the leasing or sale of the projects, or from any other funds available to the Authority for such purposes. The bonds, notes, or other evidences of indebtedness may bear such date or dates, may mature at such time or times not exceeding 40 years from their respective dates, may bear interest at such rate or rates not exceeding the maximum rate permitted by the Bond Authorization Act, may be in such form, may carry such registration privileges, may be executed in such manner, may be payable at such place or places, may be made subject to redemption in such manner and upon such terms, with or without premium, as is stated on the face thereof, may be authenticated in such manner and may contain such terms and covenants as may be provided by an applicable resolution.

(b) The holder or holders of any bonds, notes, or other evidences of indebtedness issued by the Authority may bring suits at law or proceedings in equity to compel the performance and observance by any corporation or person or by the Authority or any of its agents or employees of any contract or covenant made with the holders of the bonds, notes, or other evidences of indebtedness, to compel such corporation, person, the Authority, and any of its agents or employees to perform any duties required to be performed for the benefit of the holders of the bonds, notes, or other evidences of indebtedness by the provision of the resolution authorizing their issuance and to enjoin the corporation, person, the Authority, and any of its agents or employees from taking any action in conflict with any contract or covenant.

(c) If the Authority fails to pay the principal of or interest on any of the bonds or premium, if any, as the bond becomes due, a civil action to
compel payment may be instituted in the appropriate circuit court by the holder or holders of the bonds on which the default of payment exists or by an indenture trustee acting on behalf of the holders. Delivery of a summons and a copy of the complaint to the chairman of the Board shall constitute sufficient service to give the circuit court jurisdiction over the subject matter of the suit and jurisdiction over the Authority and its officers named as defendants for the purpose of compelling such payment. Any case, controversy, or cause of action concerning the validity of this Act relates to the revenue of the State of Illinois.

(d) Notwithstanding the form and tenor of any bond, note, or other evidence of indebtedness and in the absence of any express recital on its face that it is non-negotiable, all such bonds, notes, and other evidences of indebtedness shall be negotiable instruments. Pending the preparation and execution of any bonds, notes, or other evidences of indebtedness, temporary bonds, notes, or evidences of indebtedness may be issued as provided by ordinance.

(e) To secure the payment of any or all of such bonds, notes, or other evidences of indebtedness, the revenues to be received by the Authority from a lease agreement or loan agreement shall be pledged, and, for the purpose of setting forth the covenants and undertakings of the Authority in connection with the issuance of the bonds, notes, or other evidences of indebtedness and the issuance of any additional bonds, notes or other evidences of indebtedness payable from such revenues, income, or other funds to be derived from projects, the Authority may execute and deliver a mortgage or trust agreement. A remedy for any breach or default of the terms of any mortgage or trust agreement by the Authority may be by mandamus proceeding in the appropriate circuit court to compel performance and compliance under the terms of the mortgage or trust agreement, but the trust agreement may prescribe by whom or on whose behalf the action may be instituted.

(f) Bonds or notes shall be secured as provided in the authorizing ordinance which may include, notwithstanding any other provision of this Act, in addition to any other security, a specific pledge, assignment of and lien on, or security interest in any or all revenues or money of the
Authority, from whatever source, which may, by law, be used for debt service purposes and a specific pledge, or assignment of and lien on, or security interest in any funds or accounts established or provided for by ordinance of the Authority authorizing the issuance of the bonds or notes.

(g) The State of Illinois pledges to and agrees with the holders of the bonds and notes of the Authority issued pursuant to this Section that the State will not limit or alter the rights and powers vested in the Authority by this Act so as to impair the terms of any contract made by the Authority with the holders of bonds or notes or in any way impair the rights and remedies of those holders until the bonds and notes, together with interest thereon, with interest on any unpaid installments of interest, and all costs and expenses in connection with any action or proceedings by or on behalf of the holders, are fully met and discharged. In addition, the State pledges to and agrees with the holders of the bonds and notes of the Authority issued pursuant to this Section that the State will not limit or alter the basis on which State funds are to be paid to the Authority as provided in this Act, or the use of such funds, so as to impair the terms of any such contract. The Authority is authorized to include these pledges and agreements of the State in any contract with the holders of bonds or notes issued pursuant to this Section.

(h) Not less than 30 days prior to the commitment to issue bonds, notes, or other evidences of indebtedness for the purpose of developing, constructing, acquiring, or improving housing or residential projects, as defined in this Act, the Authority shall provide notice to the Executive Director of the Illinois Housing Development Authority. Within 30 days after the notice is provided, the Illinois Housing Development Authority shall, in writing, either express interest in financing the project or notify the Authority that it is not interested in providing financing and that the Authority may finance the project or seek alternative financing.

Section 5-45. Bonds and notes; exemption from taxation. The creation of the Authority is in all respects for the benefit of the people of Illinois and for the improvement of their health, safety, welfare, comfort, and security, and its purposes are public purposes. In consideration thereof, the notes and bonds of the Authority issued pursuant to this Act

New matter indicated by italics - deletions by strikeout
and the income from these notes and bonds may be free from all taxation by the State or its political subdivisions, exempt for estate, transfer, and inheritance taxes. The exemption from taxation provided by the preceding sentence shall apply to the income on any notes or bonds of the Authority only if the Authority in its sole judgment determines that the exemption enhances the marketability of the bonds or notes or reduces the interest rates that would otherwise be borne by the bonds or notes. For purposes of Section 250 of the Illinois Income Tax Act, the exemption of the Authority shall terminate after all of the bonds have been paid. The amount of such income that shall be added and then subtracted on the Illinois income tax return of a taxpayer, subject to Section 203 of the Illinois Income Tax Act, from federal adjusted gross income or federal taxable income in computing Illinois base income shall be the interest net of any bond premium amortization.

Section 5-50. Acquisition.

(a) The Authority may, but need not, acquire title to any project with respect to which it exercises its authority.

(b) The Authority shall have power to acquire by purchase, lease, gift, or otherwise any property or rights therein from any person or persons, the State of Illinois, any municipal corporation, any local unit of government, the government of the United States and any agency or instrumentality of the United States, any body politic, or any county useful for its purposes, whether improved for the purposes of any prospective project or unimproved. The Authority may also accept any donation of funds for its purposes from any of these sources.

(c) The Authority shall have power to develop, construct, and improve, either under its own direction or through collaboration with any approved applicant, or to acquire, through purchase or otherwise, any project, using for this purpose the proceeds derived from its sale of revenue bonds, notes, or other evidences of indebtedness or governmental loans or grants and shall have the power to hold title to those projects in the name of the Authority.

(d) The Authority shall have the power to enter into intergovernmental agreements with the State of Illinois, the counties of
Franklin, Perry, Randolph, Jackson, Williamson, Saline, Gallatin, Union, Johnson, Pope, Hardin, Alexander, Pulaski, or Massac, the Illinois Finance Authority, the Illinois Housing Development Authority, the United States government and any agency or instrumentality of the United States, any unit of local government located within the territory of the Authority, or any other unit of government to the extent allowed by Article VII, Section 10 of the Illinois Constitution and the Intergovernmental Cooperation Act.

(e) The Authority shall have the power to share employees with other units of government, including agencies of the United States, agencies of the State of Illinois, and agencies or personnel of any unit of local government.

(f) The Authority shall have the power to exercise powers and issue bonds as if it were a municipality so authorized in Divisions 12.1, 74, 74.1, 74.3, and 74.5 of Article 11 of the Illinois Municipal Code.

Section 5-60. Designation of depository. The Authority shall biennially designate a national or State bank or banks as depositories of its money. Such depositories shall be designated only within the State and upon condition that bonds approved as to form and surety by the Authority and at least equal in amount to the maximum sum expected to be on deposit at any one time shall be first given by such depositories to the Authority, such bonds to be conditioned for the safe keeping and prompt repayment of such deposits. When any of the funds of the Authority shall be deposited by the treasurer in any such depository, the treasurer and the sureties on his official bond shall, to such extent, be exempt from liability for the loss of any such deposited funds by reason of the failure, bankruptcy, or any other act or default of such depository; provided that the Authority may accept assignments of collateral by any depository of its funds to secure such deposits to the same extent and conditioned in the same manner as assignments of collateral are permitted by law to secure deposits of the funds of any city.

Section 5-65. Taxation prohibited. The Authority shall have no right or authority to levy any tax or special assessment, to pledge the credit of the State or any other subdivision or municipal corporation thereof, or

New matter indicated by italics - deletions by strikeout
to incur any obligation enforceable upon any property, either within or without the territory of the Authority.

Section 5-70. Fees. The Authority may collect fees and charges in connection with its loans, commitments, and servicing and may provide technical assistance in the development of the region.

Section 5-75. Reports. The Authority shall annually submit a report of its finances to the Auditor General. The Authority shall annually submit a report of its activities to the Governor and to the General Assembly.

ARTICLE 10.

RIVER EDGE REDEVELOPMENT ZONE ACT

Section 10-1. This Article may be cited as the River Edge Redevelopment Zone Act, and references in this Article to "this Act" mean this Article.

Section 10-2. Findings. The General Assembly finds and declares that those municipalities adjacent to or surrounding river areas often lack critical tools to safely revive and redevelop environmentally-challenged properties that will stimulate economic revitalization and create jobs in Illinois. Environmentally-challenged properties adjacent to or surrounding Illinois rivers are a threat to the health, safety, and welfare of the people of this State. Many of these environmentally-challenged properties adjacent to or surrounding rivers were former industrial areas that now, subject to appropriate environmental clean-up and remediation, would be ideal for office, residential, retail, hospitality, commercial, recreational, warehouse and distribution, and other economically productive uses. The cost of the cleaning and remediation of these environmentally-challenged properties is often the primary obstacle to returning these properties to a safe and economically productive use.

Cooperative and continuous partnership among the State, through the Department of Commerce and Economic Opportunity and the Environmental Protection Agency, municipalities adjacent to or surrounding rivers, and the private sector is necessary to appropriately encourage the cost-effective cleaning and remediation of these environmentally-challenged properties in order to bring about a safe and economically productive use of the properties.

New matter indicated by italics - deletions by strikeout
Therefore, it is declared to be the purpose of this Act to identify and initiate 2 pilot River Edge Redevelopment Zones to stimulate the safe and cost-effective re-use of environmentally-challenged properties adjacent to or surrounding rivers by means of tax incentives or grants.

Section 10-3. Definitions. As used in this Act:
"Department" means the Department of Commerce and Economic Opportunity.
"River Edge Redevelopment Zone" means an area of the State certified by the Department as a River Edge Redevelopment Zone pursuant to this Act.
"Designated zone organization" means an association or entity: (1) the members of which are substantially all residents of the River Edge Redevelopment Zone or of the municipality in which the River Edge Redevelopment Zone is located; (2) the board of directors of which is elected by the members of the organization; (3) that satisfies the criteria set forth in Section 501(c) (3) or 501(c) (4) of the Internal Revenue Code; and (4) that exists primarily for the purpose of performing within the zone, for the benefit of the residents and businesses thereof, any of the functions set forth in Section 8 of this Act.
"Agency" means: each officer, board, commission, and agency created by the Constitution, in the executive branch of State government, other than the State Board of Elections; each officer, department, board, commission, agency, institution, authority, university, and body politic and corporate of the State; each administrative unit or corporate outgrowth of the State government that is created by or pursuant to statute, other than units of local government and their officers, school districts, and boards of election commissioners; and each administrative unit or corporate outgrowth of the above and as may be created by executive order of the Governor. No entity is an "agency" for the purposes of this Act unless the entity is authorized by law to make rules or regulations.
"Rule" means each agency statement of general applicability that implements, applies, interprets, or prescribes law or policy, but does not include (i) statements concerning only the internal management of an agency and not affecting private rights or procedures available to persons.

New matter indicated by italics - deletions by strikeout
or entities outside the agency, (ii) intra-agency memoranda, or (iii) the
prescription of standardized forms.

   (1) is a contiguous area adjacent to or surrounding a river;
   (2) comprises a minimum of one half square mile and not
       more than 12 square miles, exclusive of lakes and waterways;

       except pursuant to an initiating ordinance adopted in accordance with this
       Section.
   (b) A municipality may by ordinance designate an area within its
       jurisdiction as a river edge redevelopment zone, subject to the certification

       (ii) the municipality has conducted at least one public
           hearing within the proposed zone area on the question of whether
           to create the zone, what local plans, tax incentives and other
           programs should be established in connection with the zone, and
           what the boundaries of the zone should be; public notice of such
           hearing shall be published in at least one newspaper of general

An amendment shall not be effective unless the Department issues an amended certificate for the River Edge Redevelopment Zone, approving the amended designating ordinance. Upon the adoption of any ordinance amending or repealing the terms of a certified river edge redevelopment zone designating ordinance, the municipality shall promptly file with the Department an application for approval thereof, containing substantially the same information as required for an application under Section 10-5.1 insofar as material to the proposed changes. The municipality must hold a public hearing on the proposed changes as specified in Section 10-5 and, if the amendment is to effectuate the limitation of tax abatements under Section 10-5.4.1, then the public notice of the hearing shall state that property that is in both the zone and a redevelopment project area may not receive tax abatements unless within 60 days after the adoption of the amendment to the designating ordinance the municipality has determined that eligibility for tax abatements has been established.

(b) The Department shall approve or disapprove a proposed amendment to a certified zone within 90 days after its receipt of the application from the municipality. A certified copy of the amended certificate, or a duplicate original thereof, shall be recorded in the office of recorder of the county in which the River Edge Redevelopment Zone lies, and shall be provided to the chief elected official of the designating municipality. (f) With respect to a business enterprise (or expansion thereof) that is proposed or under development within a zone at the time of a decertification or an amendment reducing the length of the term of the zone, or excluding from the zone area the site of the proposed enterprise, or an ordinance reducing or eliminating tax benefits in a zone, such business enterprise is entitled to the benefits previously applicable within the zone for the original stated term of the zone, if the business enterprise establishes:

   (i) that the proposed business enterprise or expansion has been committed to be located within the zone;
   (ii) that substantial and binding financial obligations have been made towards the development of such enterprise; and
   (iii) that such commitments have been made in reasonable reliance on the benefits and programs which were to have been applicable to the enterprise by reason of the zone, including in the case of a reduction in term of a zone, the original length of the term.

Moreover, if the business enterprise or individual presents evidence to the municipality within 30 days after the adoption by the municipality of an amendment to the designating ordinance the sufficiency of which shall be determined by findings of the corporate authorities made within 30 days of the receipt of such evidence by the municipality, that before the date of the notice of the public hearing provided by the municipality regarding the amendment to the designating ordinance (i) the business enterprise or expansion or individual was committed to locate within the River Edge Redevelopment Zone, (ii) substantial and binding financial obligations were made towards the development of the enterprise, and (iii) those commitments were made in reasonable reliance on the benefits and programs that were applicable to the enterprise or individual by reason of River Edge Redevelopment Zone, then the enterprise or expansion or individual shall not be denied any benefit previously extended within the zone pursuant to this Act or pursuant to any other Illinois law providing benefits specifically to or within River Edge Redevelopment Zones.

(b) This Section applies to all property located within both a redevelopment project area adopted under Division 74.4 of Article 11 of the Illinois Municipal Code and a River Edge Redevelopment Zone even if the redevelopment project area was adopted before the effective date of this Act.

(1) For the purposes of subsection (d-1), in no event shall the sum of the rates of tax imposed by subsections (b) and (d) be reduced below the rate at which the sum of:

(A) the total amount of tax imposed on such foreign insurer under this Act for a taxable year, net of all credits allowed under this Act, plus

(B) the privilege tax imposed by Section 409 of the Illinois Insurance Code, the fire insurance company tax imposed by Section 12 of the Fire Investigation Act, and the fire department taxes imposed under Section 11-10-1 of the Illinois Municipal Code, equals 1.25% for taxable years ending prior to December 31, 2003, or 1.75% for taxable years ending on or after December 31, 2003, of the net taxable premiums written for the taxable year, as described by subsection (1) of Section 409 of the Illinois Insurance Code. This paragraph will in no event increase the rates imposed under subsections (b) and (d).

(2) Any reduction in the rates of tax imposed by this subsection shall be applied first against the rates imposed by subsection (b) and only after the tax imposed by subsection (a) net

allowed under subsection (i) has been reduced to zero, against the
rates imposed by subsection (d).
This subsection (d-1) is exempt from the provisions of Section
250.

(e) Investment credit. A taxpayer shall be allowed a credit against
the Personal Property Tax Replacement Income Tax for investment in
qualified property.

(1) A taxpayer shall be allowed a credit equal to .5% of the
basis of qualified property placed in service during the taxable
year, provided such property is placed in service on or after July 1,
1984. There shall be allowed an additional credit equal to .5% of
the basis of qualified property placed in service during the taxable
year, provided such property is placed in service on or after July 1,
1986, and the taxpayer's base employment within Illinois has
increased by 1% or more over the preceding year as determined by
the taxpayer's employment records filed with the Illinois
Department of Employment Security. Taxpayers who are new to
Illinois shall be deemed to have met the 1% growth in base
employment for the first year in which they file employment
records with the Illinois Department of Employment Security. The
provisions added to this Section by Public Act 85-1200 (and
restored by Public Act 87-895) shall be construed as declaratory of
existing law and not as a new enactment. If, in any year, the
increase in base employment within Illinois over the preceding year
is less than 1%, the additional credit shall be limited to that
percentage times a fraction, the numerator of which is .5% and the
denominator of which is 1%, but shall not exceed .5%. The
investment credit shall not be allowed to the extent that it would
reduce a taxpayer's liability in any tax year below zero, nor may
any credit for qualified property be allowed for any year other than
the year in which the property was placed in service in Illinois. For
tax years ending on or after December 31, 1987, and on or before
December 31, 1988, the credit shall be allowed for the tax year in

which the property is placed in service, or, if the amount of the credit exceeds the tax liability for that year, whether it exceeds the original liability or the liability as later amended, such excess may be carried forward and applied to the tax liability of the 5 taxable years following the excess credit years if the taxpayer (i) makes investments which cause the creation of a minimum of 2,000 full-time equivalent jobs in Illinois, (ii) is located in an enterprise zone established pursuant to the Illinois Enterprise Zone Act and (iii) is certified by the Department of Commerce and Community Affairs (now Department of Commerce and Economic Opportunity) as complying with the requirements specified in clause (i) and (ii) by July 1, 1986. The Department of Commerce and Community Affairs (now Department of Commerce and Economic Opportunity) shall notify the Department of Revenue of all such certifications immediately. For tax years ending after December 31, 1988, the credit shall be allowed for the tax year in which the property is placed in service, or, if the amount of the credit exceeds the tax liability for that year, whether it exceeds the original liability or the liability as later amended, such excess may be carried forward and applied to the tax liability of the 5 taxable years following the excess credit years. The credit shall be applied to the earliest year for which there is a liability. If there is credit from more than one tax year that is available to offset a liability, earlier credit shall be applied first.

(2) The term "qualified property" means property which:

(A) is tangible, whether new or used, including buildings and structural components of buildings and signs that are real property, but not including land or improvements to real property that are not a structural component of a building such as landscaping, sewer lines, local access roads, fencing, parking lots, and other appurtenances;

(B) is depreciable pursuant to Section 167 of the Internal Revenue Code, except that "3-year property" as
defined in Section 168(c)(2)(A) of that Code is not eligible for the credit provided by this subsection (e);

(C) is acquired by purchase as defined in Section 179(d) of the Internal Revenue Code;

(D) is used in Illinois by a taxpayer who is primarily engaged in manufacturing, or in mining coal or fluorite, or in retailing, or was placed in service on or after July 1, 2006 in a River Edge Redevelopment Zone established pursuant to the River Edge Redevelopment Zone Act; and

(E) has not previously been used in Illinois in such a manner and by such a person as would qualify for the credit provided by this subsection (e) or subsection (f).

(3) For purposes of this subsection (e), "manufacturing" means the material staging and production of tangible personal property by procedures commonly regarded as manufacturing, processing, fabrication, or assembling which changes some existing material into new shapes, new qualities, or new combinations. For purposes of this subsection (e) the term "mining" shall have the same meaning as the term "mining" in Section 613(c) of the Internal Revenue Code. For purposes of this subsection (e), the term "retailing" means the sale of tangible personal property or services rendered in conjunction with the sale of tangible consumer goods or commodities.

(4) The basis of qualified property shall be the basis used to compute the depreciation deduction for federal income tax purposes.

(5) If the basis of the property for federal income tax depreciation purposes is increased after it has been placed in service in Illinois by the taxpayer, the amount of such increase shall be deemed property placed in service on the date of such increase in basis.

(6) The term "placed in service" shall have the same meaning as under Section 46 of the Internal Revenue Code.

(7) If during any taxable year, any property ceases to be qualified property in the hands of the taxpayer within 48 months after being placed in service, or the situs of any qualified property is moved outside Illinois within 48 months after being placed in service, the Personal Property Tax Replacement Income Tax for such taxable year shall be increased. Such increase shall be determined by (i) recomputing the investment credit which would have been allowed for the year in which credit for such property was originally allowed by eliminating such property from such computation and, (ii) subtracting such recomputed credit from the amount of credit previously allowed. For the purposes of this paragraph (7), a reduction of the basis of qualified property resulting from a redetermination of the purchase price shall be deemed a disposition of qualified property to the extent of such reduction.

(8) Unless the investment credit is extended by law, the basis of qualified property shall not include costs incurred after December 31, 2008, except for costs incurred pursuant to a binding contract entered into on or before December 31, 2008.

(9) Each taxable year ending before December 31, 2000, a partnership may elect to pass through to its partners the credits to which the partnership is entitled under this subsection (e) for the taxable year. A partner may use the credit allocated to him or her under this paragraph only against the tax imposed in subsections (c) and (d) of this Section. If the partnership makes that election, those credits shall be allocated among the partners in the partnership in accordance with the rules set forth in Section 704(b) of the Internal Revenue Code, and the rules promulgated under that Section, and the allocated amount of the credits shall be allowed to the partners for that taxable year. The partnership shall make this election on its Personal Property Tax Replacement Income Tax return for that taxable year. The election to pass through the credits shall be irrevocable.

For taxable years ending on or after December 31, 2000, a partner that qualifies its partnership for a subtraction under subparagraph (I) of paragraph (2) of subsection (d) of Section 203 or a shareholder that qualifies a Subchapter S corporation for a subtraction under subparagraph (S) of paragraph (2) of subsection (b) of Section 203 shall be allowed a credit under this subsection (e) equal to its share of the credit earned under this subsection (e) during the taxable year by the partnership or Subchapter S corporation, determined in accordance with the determination of income and distributive share of income under Sections 702 and 704 and Subchapter S of the Internal Revenue Code. This paragraph is exempt from the provisions of Section 250.

(f) Investment credit; Enterprise Zone; River Edge Redevelopment Zone.

(1) A taxpayer shall be allowed a credit against the tax imposed by subsections (a) and (b) of this Section for investment in qualified property which is placed in service in an Enterprise Zone created pursuant to the Illinois Enterprise Zone Act or, for property placed in service on or after July 1, 2006, a River Edge Redevelopment Zone established pursuant to the River Edge Redevelopment Zone Act. For partners, shareholders of Subchapter S corporations, and owners of limited liability companies, if the liability company is treated as a partnership for purposes of federal and State income taxation, there shall be allowed a credit under this subsection (f) to be determined in accordance with the determination of income and distributive share of income under Sections 702 and 704 and Subchapter S of the Internal Revenue Code. The credit shall be $.5% of the basis for such property. The credit shall be available only in the taxable year in which the property is placed in service in the Enterprise Zone or River Edge Redevelopment Zone and shall not be allowed to the extent that it would reduce a taxpayer's liability for the tax imposed by subsections (a) and (b) of this Section to below zero. For tax years ending on or after December 31, 1985, the credit shall be allowed
for the tax year in which the property is placed in service, or, if the amount of the credit exceeds the tax liability for that year, whether it exceeds the original liability or the liability as later amended, such excess may be carried forward and applied to the tax liability of the 5 taxable years following the excess credit year. The credit shall be applied to the earliest year for which there is a liability. If there is credit from more than one tax year that is available to offset a liability, the credit accruing first in time shall be applied first.

(2) The term qualified property means property which:
   (A) is tangible, whether new or used, including buildings and structural components of buildings;
   (B) is depreciable pursuant to Section 167 of the Internal Revenue Code, except that "3-year property" as defined in Section 168(c)(2)(A) of that Code is not eligible for the credit provided by this subsection (f);

(3) The basis of qualified property shall be the basis used to compute the depreciation deduction for federal income tax purposes.

(4) If the basis of the property for federal income tax depreciation purposes is increased after it has been placed in service in the Enterprise Zone or River Edge Redevelopment Zone by the taxpayer, the amount of such increase shall be deemed property placed in service on the date of such increase in basis.

(5) The term "placed in service" shall have the same meaning as under Section 46 of the Internal Revenue Code.
(6) If during any taxable year, any property ceases to be qualified property in the hands of the taxpayer within 48 months after being placed in service, or the situs of any qualified property is moved outside the Enterprise Zone or River Edge Redevelopment Zone within 48 months after being placed in service, the tax imposed under subsections (a) and (b) of this Section for such taxable year shall be increased. Such increase shall be determined by (i) recomputing the investment credit which would have been allowed for the year in which credit for such property was originally allowed by eliminating such property from such computation, and (ii) subtracting such recomputed credit from the amount of credit previously allowed. For the purposes of this paragraph (6), a reduction of the basis of qualified property resulting from a redetermination of the purchase price shall be deemed a disposition of qualified property to the extent of such reduction.

(7) There shall be allowed an additional credit equal to 0.5% of the basis of qualified property placed in service during the taxable year in a River Edge Redevelopment Zone, provided such property is placed in service on or after July 1, 2006, and the taxpayer's base employment within Illinois has increased by 1% or more over the preceding year as determined by the taxpayer's employment records filed with the Illinois Department of Employment Security. Taxpayers who are new to Illinois shall be deemed to have met the 1% growth in base employment for the first year in which they file employment records with the Illinois Department of Employment Security. If, in any year, the increase in base employment within Illinois over the preceding year is less than 1%, the additional credit shall be limited to that percentage times a fraction, the numerator of which is 0.5% and the denominator of which is 1%, but shall not exceed 0.5%.

(g) Jobs Tax Credit; Enterprise Zone, River Edge Redevelopment Zone, and Foreign Trade Zone or Sub-Zone.
(1) A taxpayer conducting a trade or business in an enterprise zone or a High Impact Business designated by the Department of Commerce and Economic Opportunity or for taxable years ending on or after December 31, 2006, in a River Edge Redevelopment Zone conducting a trade or business in a federally designated Foreign Trade Zone or Sub-Zone shall be allowed a credit against the tax imposed by subsections (a) and (b) of this Section in the amount of $500 per eligible employee hired to work in the zone during the taxable year.

(2) To qualify for the credit:

(B) the taxpayer's total employment within the enterprise zone, River Edge Redevelopment Zone, or federally designated Foreign Trade Zone or Sub-Zone must increase by 5 or more full-time employees beyond the total employed in that zone at the end of the previous tax year for which a jobs tax credit under this Section was taken, or beyond the total employed by the taxpayer as of December 31, 1985, whichever is later; and

(C) the eligible employees must be employed 180 consecutive days in order to be deemed hired for purposes of this subsection.

(3) An "eligible employee" means an employee who is:

If the amount of the credit exceeds the tax liability for that year, whether it exceeds the original liability or the liability as later amended, such excess may be carried forward and applied to the tax liability of the 5 taxable years following the excess credit year. The credit shall be applied to the earliest year for which there is a liability. The credit applicable to such investments shall be taken in the taxable year in which such investments have been completed. The credit for additional investments beyond the minimum investment by a designated high impact business authorized under subdivision (a)(3)(A) of Section 5.5 of the Illinois Enterprise Zone Act shall be available only in the taxable year in which the property is placed in service and shall not be allowed to the extent that it would reduce a taxpayer's liability for the tax imposed by subsections (a) and (b) of this Section to below zero. For tax years ending on or after December 31, 1987, the credit shall be allowed for the tax year in which the property is placed in service, or, if the amount of the credit exceeds the tax liability for that year, whether it exceeds the original liability or the liability as later amended, such excess may be carried forward and applied to the tax liability of the 5 taxable years following the excess credit year. The credit shall be applied to the earliest year for which there is a liability.    (C) is acquired by purchase as defined in Section 179(d) of the Internal Revenue Code; and
   (D) is not eligible for the Enterprise Zone Investment Credit provided by subsection (f) of this Section.

(3) The basis of qualified property shall be the basis used to compute the depreciation deduction for federal income tax purposes.

(4) If the basis of the property for federal income tax depreciation purposes is increased after it has been placed in service in a federally designated Foreign Trade Zone or Sub-Zone located in Illinois by the taxpayer, the amount of such increase shall be deemed property placed in service on the date of such increase in basis.

(5) The term "placed in service" shall have the same meaning as under Section 46 of the Internal Revenue Code.

(6) If during any taxable year ending on or before December 31, 1996, any property ceases to be qualified property in the hands of the taxpayer within 48 months after being placed in service, or the situs of any qualified property is moved outside Illinois within 48 months after being placed in service, the tax imposed under subsections (a) and (b) of this Section for such taxable year shall be increased. Such increase shall be determined by (i) recomputing the investment credit which would have been allowed for the year in which credit for such property was originally allowed by eliminating such property from such computation, and (ii) subtracting such recomputed credit from the

amount of credit previously allowed. For the purposes of this paragraph (6), a reduction of the basis of qualified property resulting from a redetermination of the purchase price shall be deemed a disposition of qualified property to the extent of such reduction.

(7) Beginning with tax years ending after December 31, 1996, if a taxpayer qualifies for the credit under this subsection (h) and thereby is granted a tax abatement and the taxpayer relocates its entire facility in violation of the explicit terms and length of the contract under Section 18-183 of the Property Tax Code, the tax imposed under subsections (a) and (b) of this Section shall be increased for the taxable year in which the taxpayer relocated its facility by an amount equal to the amount of credit received by the taxpayer under this subsection (h).

(i) Credit for Personal Property Tax Replacement Income Tax. For tax years ending prior to December 31, 2003, a credit shall be allowed against the tax imposed by subsections (a) and (b) of this Section for the tax imposed by subsections (c) and (d) of this Section. This credit shall be computed by multiplying the tax imposed by subsections (c) and (d) of this Section by a fraction, the numerator of which is base income allocable to Illinois and the denominator of which is Illinois base income, and further multiplying the product by the tax rate imposed by subsections (a) and (b) of this Section.

Any credit earned on or after December 31, 1986 under this subsection which is unused in the year the credit is computed because it exceeds the tax liability imposed by subsections (a) and (b) for that year (whether it exceeds the original liability or the liability as later amended) may be carried forward and applied to the tax liability imposed by subsections (a) and (b) of the 5 taxable years following the excess credit year, provided that no credit may be carried forward to any year ending on or after December 31, 2003. This credit shall be applied first to the earliest year for which there is a liability. If there is a credit under this subsection from more than one tax year that is available to offset a liability the earliest credit arising under this subsection shall be applied first.

If, during any taxable year ending on or after December 31, 1986, the tax imposed by subsections (c) and (d) of this Section for which a taxpayer has claimed a credit under this subsection (i) is reduced, the amount of credit for such tax shall also be reduced. Such reduction shall be determined by recomputing the credit to take into account the reduced tax imposed by subsections (c) and (d). If any portion of the reduced amount of credit has been carried to a different taxable year, an amended return shall be filed for such taxable year to reduce the amount of credit claimed.

(j) Training expense credit. Beginning with tax years ending on or after December 31, 1986 and prior to December 31, 2003, a taxpayer shall be allowed a credit against the tax imposed by subsections (a) and (b) under this Section for all amounts paid or accrued, on behalf of all persons employed by the taxpayer in Illinois or Illinois residents employed outside of Illinois by a taxpayer, for educational or vocational training in semi-technical or technical fields or semi-skilled or skilled fields, which were deducted from gross income in the computation of taxable income. The credit against the tax imposed by subsections (a) and (b) shall be 1.6% of such training expenses. For partners, shareholders of subchapter S corporations, and owners of limited liability companies, if the liability company is treated as a partnership for purposes of federal and State income taxation, there shall be allowed a credit under this subsection (j) to be determined in accordance with the determination of income and distributive share of income under Sections 702 and 704 and subchapter S of the Internal Revenue Code.

Any credit allowed under this subsection which is unused in the year the credit is earned may be carried forward to each of the 5 taxable years following the year for which the credit is first computed until it is used. This credit shall be applied first to the earliest year for which there is a liability. If there is a credit under this subsection from more than one tax year that is available to offset a liability the earliest credit arising under this subsection shall be applied first. No carryforward credit may be claimed in any tax year ending on or after December 31, 2003.

(k) Research and development credit.

New matter indicated by italics - deletions by strikeout
For tax years ending after July 1, 1990 and prior to December 31, 2003, and beginning again for tax years ending on or after December 31, 2004, a taxpayer shall be allowed a credit against the tax imposed by subsections (a) and (b) of this Section for increasing research activities in this State. The credit allowed against the tax imposed by subsections (a) and (b) shall be equal to 6 1/2% of the qualifying expenditures for increasing research activities in this State. For partners, shareholders of subchapter S corporations, and owners of limited liability companies, if the liability company is treated as a partnership for purposes of federal and State income taxation, there shall be allowed a credit under this subsection to be determined in accordance with the determination of income and distributive share of income under Sections 702 and 704 and subchapter S of the Internal Revenue Code.

For purposes of this subsection, "qualifying expenditures" means the qualifying expenditures as defined for the federal credit for increasing research activities which would be allowable under Section 41 of the Internal Revenue Code and which are conducted in this State, "qualifying expenditures for increasing research activities in this State" means the excess of qualifying expenditures for the taxable year in which incurred over qualifying expenditures for the base period, "qualifying expenditures for the base period" means the average of the qualifying expenditures for each year in the base period, and "base period" means the 3 taxable years immediately preceding the taxable year for which the determination is being made.

Any credit in excess of the tax liability for the taxable year may be carried forward. A taxpayer may elect to have the unused credit shown on its final completed return carried over as a credit against the tax liability for the following 5 taxable years or until it has been fully used, whichever occurs first; provided that no credit earned in a tax year ending prior to December 31, 2003 may be carried forward to any year ending on or after December 31, 2003.

If an unused credit is carried forward to a given year from 2 or more earlier years, that credit arising in the earliest year will be applied first against the tax liability for the given year. If a tax liability for the
given year still remains, the credit from the next earliest year will then be applied, and so on, until all credits have been used or no tax liability for the given year remains. Any remaining unused credit or credits then will be carried forward to the next following year in which a tax liability is incurred, except that no credit can be carried forward to a year which is more than 5 years after the year in which the expense for which the credit is given was incurred.

No inference shall be drawn from this amendatory Act of the 91st General Assembly in construing this Section for taxable years beginning before January 1, 1999.

(l) Environmental Remediation Tax Credit.

(i) For tax years ending after December 31, 1997 and on or before December 31, 2001, a taxpayer shall be allowed a credit against the tax imposed by subsections (a) and (b) of this Section for certain amounts paid for unreimbursed eligible remediation costs, as specified in this subsection. For purposes of this Section, "unreimbursed eligible remediation costs" means costs approved by the Illinois Environmental Protection Agency ("Agency") under Section 58.14 of the Environmental Protection Act that were paid in performing environmental remediation at a site for which a No Further Remediation Letter was issued by the Agency and recorded under Section 58.10 of the Environmental Protection Act. The credit must be claimed for the taxable year in which Agency approval of the eligible remediation costs is granted. The credit is not available to any taxpayer if the taxpayer or any related party caused or contributed to, in any material respect, a release of regulated substances on, in, or under the site that was identified and addressed by the remedial action pursuant to the Site Remediation Program of the Environmental Protection Act. After the Pollution Control Board rules are adopted pursuant to the Illinois Administrative Procedure Act for the administration and enforcement of Section 58.9 of the Environmental Protection Act, determinations as to credit availability for purposes of this Section shall be made consistent with those rules. For purposes of this

Section, "taxpayer" includes a person whose tax attributes the taxpayer has succeeded to under Section 381 of the Internal Revenue Code and "related party" includes the persons disallowed a deduction for losses by paragraphs (b), (c), and (f)(1) of Section 267 of the Internal Revenue Code by virtue of being a related taxpayer, as well as any of its partners. The credit allowed against the tax imposed by subsections (a) and (b) shall be equal to 25% of the unreimbursed eligible remediation costs in excess of $100,000 per site, except that the $100,000 threshold shall not apply to any site contained in an enterprise zone as determined by the Department of Commerce and Community Affairs (now Department of Commerce and Economic Opportunity). The total credit allowed shall not exceed $40,000 per year with a maximum total of $150,000 per site. For partners and shareholders of subchapter S corporations, there shall be allowed a credit under this subsection to be determined in accordance with the determination of income and distributive share of income under Sections 702 and 704 and subchapter S of the Internal Revenue Code.

(ii) A credit allowed under this subsection that is unused in the year the credit is earned may be carried forward to each of the 5 taxable years following the year for which the credit is first earned until it is used. The term "unused credit" does not include any amounts of unreimbursed eligible remediation costs in excess of the maximum credit per site authorized under paragraph (i). This credit shall be applied first to the earliest year for which there is a liability. If there is a credit under this subsection from more than one tax year that is available to offset a liability, the earliest credit arising under this subsection shall be applied first. A credit allowed under this subsection may be sold to a buyer as part of a sale of all or part of the remediation site for which the credit was granted. The purchaser of a remediation site and the tax credit shall succeed to the unused credit and remaining carry-forward period of the seller. To perfect the transfer, the assignor shall record the transfer

in the chain of title for the site and provide written notice to the Director of the Illinois Department of Revenue of the assignor's intent to sell the remediation site and the amount of the tax credit to be transferred as a portion of the sale. In no event may a credit be transferred to any taxpayer if the taxpayer or a related party would not be eligible under the provisions of subsection (i).

(iii) For purposes of this Section, the term "site" shall have the same meaning as under Section 58.2 of the Environmental Protection Act.

(m) Education expense credit. Beginning with tax years ending after December 31, 1999, a taxpayer who is the custodian of one or more qualifying pupils shall be allowed a credit against the tax imposed by subsections (a) and (b) of this Section for qualified education expenses incurred on behalf of the qualifying pupils. The credit shall be equal to 25% of qualified education expenses, but in no event may the total credit under this subsection claimed by a family that is the custodian of qualifying pupils exceed $500. In no event shall a credit under this subsection reduce the taxpayer's liability under this Act to less than zero. This subsection is exempt from the provisions of Section 250 of this Act.

For purposes of this subsection:
"Qualifying pupils" means individuals who (i) are residents of the State of Illinois, (ii) are under the age of 21 at the close of the school year for which a credit is sought, and (iii) during the school year for which a credit is sought were full-time pupils enrolled in a kindergarten through twelfth grade education program at any school, as defined in this subsection.
"Qualified education expense" means the amount incurred on behalf of a qualifying pupil in excess of $250 for tuition, book fees, and lab fees at the school in which the pupil is enrolled during the regular school year.
"School" means any public or nonpublic elementary or secondary school in Illinois that is in compliance with Title VI of the Civil Rights Act of 1964 and attendance at which satisfies the requirements of Section 26-1 of the School Code, except that nothing shall be construed to require

a child to attend any particular public or nonpublic school to qualify for the credit under this Section.

"Custodian" means, with respect to qualifying pupils, an Illinois resident who is a parent, the parents, a legal guardian, or the legal guardians of the qualifying pupils.

(n) River Edge Redevelopment Zone site remediation tax credit.

(i) For tax years ending on or after December 31, 2006, a taxpayer shall be allowed a credit against the tax imposed by subsections (a) and (b) of this Section for certain amounts paid for unreimbursed eligible remediation costs, as specified in this subsection. For purposes of this Section, "unreimbursed eligible remediation costs" means costs approved by the Illinois Environmental Protection Agency ("Agency") under Section 58.14 of the Environmental Protection Act that were paid in performing environmental remediation at a site within a River Edge Redevelopment Zone for which a No Further Remediation Letter was issued by the Agency and recorded under Section 58.10 of the Environmental Protection Act. The credit must be claimed for the taxable year in which Agency approval of the eligible remediation costs is granted. The credit is not available to any taxpayer if the taxpayer or any related party caused or contributed to, in any material respect, a release of regulated substances on, in, or under the site that was identified and addressed by the remedial action pursuant to the Site Remediation Program of the Environmental Protection Act. Determinations as to credit availability for purposes of this Section shall be made consistent with rules adopted by the Pollution Control Board pursuant to the Illinois Administrative Procedure Act for the administration and enforcement of Section 58.9 of the Environmental Protection Act. For purposes of this Section, "taxpayer" includes a person whose tax attributes the taxpayer has succeeded to under Section 381 of the Internal Revenue Code and "related party" includes the persons disallowed a deduction for losses by paragraphs (b), (c), and (f)(1) of Section 267 of the Internal Revenue Code by virtue of
being a related taxpayer, as well as any of its partners. The credit allowed against the tax imposed by subsections (a) and (b) shall be equal to 25% of the unreimbursed eligible remediation costs in excess of $100,000 per site.

(ii) A credit allowed under this subsection that is unused in the year the credit is earned may be carried forward to each of the 5 taxable years following the year for which the credit is first earned until it is used. This credit shall be applied first to the earliest year for which there is a liability. If there is a credit under this subsection from more than one tax year that is available to offset a liability, the earliest credit arising under this subsection shall be applied first. A credit allowed under this subsection may be sold to a buyer as part of a sale of all or part of the remediation site for which the credit was granted. The purchaser of a remediation site and the tax credit shall succeed to the unused credit and remaining carry-forward period of the seller. To perfect the transfer, the assignor shall record the transfer in the chain of title for the site and provide written notice to the Director of the Illinois Department of Revenue of the assignor's intent to sell the remediation site and the amount of the tax credit to be transferred as a portion of the sale. In no event may a credit be transferred to any taxpayer or a related party who would not be eligible under the provisions of subsection (i).

(iii) For purposes of this Section, the term "site" shall have the same meaning as under Section 58.2 of the Environmental Protection Act.

(iv) This subsection is exempt from the provisions of Section 250.

Sec. 203. Base income defined.
(a) Individuals.

New matter indicated by italics - deletions by strikeout
(1) In general. In the case of an individual, base income means an amount equal to the taxpayer's adjusted gross income for the taxable year as modified by paragraph (2).

(2) Modifications. The adjusted gross income referred to in paragraph (1) shall be modified by adding thereto the sum of the following amounts:

(A) An amount equal to all amounts paid or accrued to the taxpayer as interest or dividends during the taxable year to the extent excluded from gross income in the computation of adjusted gross income, except stock dividends of qualified public utilities described in Section 305(e) of the Internal Revenue Code;

(B) An amount equal to the amount of tax imposed by this Act to the extent deducted from gross income in the computation of adjusted gross income for the taxable year;

(C) An amount equal to the amount received during the taxable year as a recovery or refund of real property taxes paid with respect to the taxpayer's principal residence under the Revenue Act of 1939 and for which a deduction was previously taken under subparagraph (L) of this paragraph (2) prior to July 1, 1991, the retrospective application date of Article 4 of Public Act 87-17. In the case of multi-unit or multi-use structures and farm dwellings, the taxes on the taxpayer's principal residence shall be that portion of the total taxes for the entire property which is attributable to such principal residence;

(D) An amount equal to the amount of the capital gain deduction allowable under the Internal Revenue Code, to the extent deducted from gross income in the computation of adjusted gross income;

(D-5) An amount, to the extent not included in adjusted gross income, equal to the amount of money withdrawn by the taxpayer in the taxable year from a medical care savings account and the interest earned on the
account in the taxable year of a withdrawal pursuant to subsection (b) of Section 20 of the Medical Care Savings Account Act or subsection (b) of Section 20 of the Medical Care Savings Account Act of 2000;

(D-10) For taxable years ending after December 31, 1997, an amount equal to any eligible remediation costs that the individual deducted in computing adjusted gross income and for which the individual claims a credit under subsection (l) of Section 201;

(D-15) For taxable years 2001 and thereafter, an amount equal to the bonus depreciation deduction (30% of the adjusted basis of the qualified property) taken on the taxpayer's federal income tax return for the taxable year under subsection (k) of Section 168 of the Internal Revenue Code;

(D-16) If the taxpayer reports a capital gain or loss on the taxpayer's federal income tax return for the taxable year based on a sale or transfer of property for which the taxpayer was required in any taxable year to make an addition modification under subparagraph (D-15), then an amount equal to the aggregate amount of the deductions taken in all taxable years under subparagraph (Z) with respect to that property.

The taxpayer is required to make the addition modification under this subparagraph only once with respect to any one piece of property;

(D-17) For taxable years ending on or after December 31, 2004, an amount equal to the amount otherwise allowed as a deduction in computing base income for interest paid, accrued, or incurred, directly or indirectly, to a foreign person who would be a member of the same unitary business group but for the fact that foreign person's business activity outside the United States is 80% or more of the foreign person's total business activity. The
addition modification required by this subparagraph shall be reduced to the extent that dividends were included in base income of the unitary group for the same taxable year and received by the taxpayer or by a member of the taxpayer's unitary business group (including amounts included in gross income under Sections 951 through 964 of the Internal Revenue Code and amounts included in gross income under Section 78 of the Internal Revenue Code) with respect to the stock of the same person to whom the interest was paid, accrued, or incurred.

This paragraph shall not apply to the following:

(i) an item of interest paid, accrued, or incurred, directly or indirectly, to a foreign person who is subject in a foreign country or state, other than a state which requires mandatory unitary reporting, to a tax on or measured by net income with respect to such interest; or

(ii) an item of interest paid, accrued, or incurred, directly or indirectly, to a foreign person if the taxpayer can establish, based on a preponderance of the evidence, both of the following:

(a) the foreign person, during the same taxable year, paid, accrued, or incurred, the interest to a person that is not a related member, and

(b) the transaction giving rise to the interest expense between the taxpayer and the foreign person did not have as a principal purpose the avoidance of Illinois income tax, and is paid pursuant to a contract or agreement that reflects an arm's-length interest rate and terms; or

(iii) the taxpayer can establish, based on clear and convincing evidence, that the interest paid, accrued, or incurred relates to a contract or agreement entered into at arm's-length rates and terms and the principal purpose for the payment is not federal or Illinois tax avoidance; or

(iv) an item of interest paid, accrued, or incurred, directly or indirectly, to a foreign person if the taxpayer establishes by clear and convincing evidence that the adjustments are unreasonable; or if the taxpayer and the Director agree in writing to the application or use of an alternative method of apportionment under Section 304(f).

Nothing in this subsection shall preclude the Director from making any other adjustment otherwise allowed under Section 404 of this Act for any tax year beginning after the effective date of this amendment provided such adjustment is made pursuant to regulation adopted by the Department and such regulations provide methods and standards by which the Department will utilize its authority under Section 404 of this Act;

(D-18) For taxable years ending on or after December 31, 2004, an amount equal to the amount of intangible expenses and costs otherwise allowed as a deduction in computing base income, and that were paid, accrued, or incurred, directly or indirectly, to a foreign person who would be a member of the same unitary business group but for the fact that the foreign person's business activity outside the United States is 80% or more of that person's total business activity. The addition modification required by this subparagraph shall be reduced to the extent that dividends were included in base income of the unitary group for the same taxable year and received
by the taxpayer or by a member of the taxpayer's unitary business group (including amounts included in gross income under Sections 951 through 964 of the Internal Revenue Code and amounts included in gross income under Section 78 of the Internal Revenue Code) with respect to the stock of the same person to whom the intangible expenses and costs were directly or indirectly paid, incurred, or accrued. The preceding sentence does not apply to the extent that the same dividends caused a reduction to the addition modification required under Section 203(a)(2)(D-17) of this Act. As used in this subparagraph, the term "intangible expenses and costs" includes (1) expenses, losses, and costs for, or related to, the direct or indirect acquisition, use, maintenance or management, ownership, sale, exchange, or any other disposition of intangible property; (2) losses incurred, directly or indirectly, from factoring transactions or discounting transactions; (3) royalty, patent, technical, and copyright fees; (4) licensing fees; and (5) other similar expenses and costs. For purposes of this subparagraph, "intangible property" includes patents, patent applications, trade names, trademarks, service marks, copyrights, mask works, trade secrets, and similar types of intangible assets.

This paragraph shall not apply to the following:

(i) any item of intangible expenses or costs paid, accrued, or incurred, directly or indirectly, from a transaction with a foreign person who is subject in a foreign country or state, other than a state which requires mandatory unitary reporting, to a tax on or measured by net income with respect to such item; or

(iii) any item of intangible expense or cost paid, accrued, or incurred, directly or indirectly, from a transaction with a foreign person if the taxpayer establishes by clear and convincing evidence, that the adjustments are unreasonable; or if the taxpayer and the Director agree in writing to the application or use of an alternative method of apportionment under Section 304(f);

Nothing in this subsection shall preclude the Director from making any other adjustment otherwise allowed under Section 404 of this Act for any tax year beginning after the effective date of this amendment provided such adjustment is made pursuant to regulation adopted by the Department and such regulations provide methods and standards by which the Department will utilize its authority under Section 404 of this Act;

not to exceed the amount of such addition modification;

(U) An amount equal to the interest income taken
into account for the taxable year (net of the deductions
allocable thereto) with respect to transactions with a foreign
person who would be a member of the taxpayer's unitary
business group but for the fact the foreign person's business
activity outside the United States is 80% or more of that
person's total business activity, but not to exceed the
addition modification required to be made for the same
taxable year under Section 203(c)(2)(G-12) for interest
paid, accrued, or incurred, directly or indirectly, to the same
foreign person; and

(V) An amount equal to the income from intangible
property taken into account for the taxable year (net of the
deductions allocable thereto) with respect to transactions

is 80% or more of that person's total business activity, but
not to exceed the addition modification required to be made
for the same taxable year under Section 203(c)(2)(G-13) for
intangible expenses and costs paid, accrued, or incurred,
directly or indirectly, to the same foreign person.

(3) Limitation. The amount of any modification otherwise
required under this subsection shall, under regulations prescribed
by the Department, be adjusted by any amounts included therein
which were properly paid, credited, or required to be distributed, or
permanently set aside for charitable purposes pursuant to Internal Revenue Code Section 642(c) during the taxable year.

(d) Partnerships.

(1) In general. In the case of a partnership, base income means an amount equal to the taxpayer's taxable income for the taxable year as modified by paragraph (2).

(2) Modifications. The taxable income referred to in paragraph (1) shall be modified by adding thereto the sum of the following amounts:

(A) An amount equal to all amounts paid or accrued to the taxpayer as interest or dividends during the taxable year to the extent excluded from gross income in the computation of taxable income;

(B) An amount equal to the amount of tax imposed by this Act to the extent deducted from gross income for the taxable year;

(C) The amount of deductions allowed to the partnership pursuant to Section 707 (c) of the Internal Revenue Code in calculating its taxable income;

(D) An amount equal to the amount of the capital gain deduction allowable under the Internal Revenue Code, to the extent deducted from gross income in the computation of taxable income;

(D-5) For taxable years 2001 and thereafter, an amount equal to the bonus depreciation deduction (30% of the adjusted basis of the qualified property) taken on the taxpayer's federal income tax return for the taxable year under subsection (k) of Section 168 of the Internal Revenue Code;

(D-6) If the taxpayer reports a capital gain or loss on the taxpayer's federal income tax return for the taxable year based on a sale or transfer of property for which the taxpayer was required in any taxable year to make an addition modification under subparagraph (D-5), then
amount equal to the aggregate amount of the deductions taken in all taxable years under subparagraph (O) with respect to that property.

The taxpayer is required to make the addition modification under this subparagraph only once with respect to any one piece of property;

(D-7) For taxable years ending on or after December 31, 2004, an amount equal to the amount otherwise allowed as a deduction in computing base income for interest paid, accrued, or incurred, directly or indirectly, to a foreign person who would be a member of the same unitary business group but for the fact the foreign person's business activity outside the United States is 80% or more of the foreign person's total business activity. The addition modification required by this subparagraph shall be reduced to the extent that dividends were included in base income of the unitary group for the same taxable year and received by the taxpayer or by a member of the taxpayer's unitary business group (including amounts included in gross income pursuant to Sections 951 through 964 of the Internal Revenue Code and amounts included in gross income under Section 78 of the Internal Revenue Code) with respect to the stock of the same person to whom the interest was paid, accrued, or incurred.

This paragraph shall not apply to the following:

(i) an item of interest paid, accrued, or incurred, directly or indirectly, to a foreign person who is subject in a foreign country or state, other than a state which requires mandatory unitary reporting, to a tax on or measured by net income with respect to such interest; or

preponderance of the evidence, both of the following:

(a) the foreign person, during the same taxable year, paid, accrued, or incurred, the interest to a person that is not a related member, and

(b) the transaction giving rise to the interest expense between the taxpayer and the foreign person did not have as a principal purpose the avoidance of Illinois income tax, and is paid pursuant to a contract or agreement that reflects an arm's-length interest rate and terms; or

(iii) the taxpayer can establish, based on clear and convincing evidence, that the interest paid, accrued, or incurred relates to a contract or agreement entered into at arm's-length rates and terms and the principal purpose for the payment is not federal or Illinois tax avoidance; or

(iv) an item of interest paid, accrued, or incurred, directly or indirectly, to a foreign person if the taxpayer establishes by clear and convincing evidence that the adjustments are unreasonable; or if the taxpayer and the Director agree in writing to the application or use of an alternative method of apportionment under Section 304(f).

Nothing in this subsection shall preclude the Director from making any other adjustment otherwise allowed under Section 404 of this Act for any tax year beginning after the effective date of this amendment provided such adjustment is made pursuant to regulation adopted by the Department and such regulations provide methods and standards
by which the Department will utilize its authority under Section 404 of this Act; and

(D-8) For taxable years ending on or after December 31, 2004, an amount equal to the amount of intangible expenses and costs otherwise allowed as a deduction in computing base income, and that were paid, accrued, or incurred, directly or indirectly, to a foreign person who would be a member of the same unitary business group but for the fact that the foreign person's business activity outside the United States is 80% or more of that person's total business activity. The addition modification required by this subparagraph shall be reduced to the extent that dividends were included in base income of the unitary group for the same taxable year and received by the taxpayer or by a member of the taxpayer's unitary business group (including amounts included in gross income pursuant to Sections 951 through 964 of the Internal Revenue Code and amounts included in gross income under Section 78 of the Internal Revenue Code) with respect to the stock of the same person to whom the intangible expenses and costs were directly or indirectly paid, incurred or accrued. The preceding sentence shall not apply to the extent that the same dividends caused a reduction to the addition modification required under Section 203(d)(2)(D-7) of this Act. As used in this subparagraph, the term "intangible expenses and costs" includes (1) expenses, losses, and costs for, or related to, the direct or indirect acquisition, use, maintenance or management, ownership, sale, exchange, or any other disposition of intangible property; (2) losses incurred, directly or indirectly, from factoring transactions or discounting transactions; (3) royalty, patent, technical, and copyright fees; (4) licensing fees; and (5) other similar expenses and costs. patent applications, trade names, trademarks, service marks, copyrights, mask works, trade secrets, and similar types of intangible assets;

This paragraph shall not apply to the following:

(ii) any item of intangible expense or cost paid, accrued, or incurred, directly or indirectly, if the taxpayer can establish, based on a preponderance of the evidence, both of the following:

(a) the foreign person during the same taxable year paid, accrued, or incurred, the intangible expense or cost to a person that is not a related member, and

(b) the transaction giving rise to the intangible expense or cost between the taxpayer and the foreign person did not have as a principal purpose the avoidance of Illinois income tax, and is paid pursuant to a contract or agreement that reflects arm's-length terms; or

(iii) any item of intangible expense or cost paid, accrued, or incurred, directly or indirectly, from a transaction with a foreign person if the taxpayer establishes by clear and convincing evidence, that the adjustments are unreasonable; or if the taxpayer and the Director agree in writing to

(H) Any income of the partnership which constitutes personal service income as defined in Section 1348 (b) (1) of the Internal Revenue Code (as in effect December 31, 1981) or a reasonable allowance for compensation paid or accrued for

(J) With the exception of any amounts subtracted under subparagraph (G), an amount equal to the sum of all amounts disallowed as deductions by (i) Sections 171(a)(2), and 265(2) of the Internal Revenue Code of 1954, as now or hereafter amended, and all amounts of expenses allocable to interest and disallowed as deductions by Section 265(1) of the Internal Revenue Code, as now or hereafter amended; and (ii) for taxable years ending on or after August 13, 1999, Sections 171(a)(2), 265, 280C, and 832(b)(5)(B)(i) of the Internal Revenue Code; the provisions of this subparagraph are exempt from the provisions of Section 250;

(K) An amount equal to those dividends included in such total which were paid by a corporation which conducts business operations in an Enterprise Zone or zones created under the Illinois Enterprise Zone Act, enacted by the 82nd General Assembly, or a River Edge Redevelopment Zone or zones created under the River Edge Redevelopment Zone Act and conducts substantially all of its operations in an Enterprise Zone or Zones or from a River Edge Redevelopment Zone or zones.

(e) Gross income; adjusted gross income; taxable income.

(1) In general. Subject to the provisions of paragraph (2) and subsection (b) (3), for purposes of this Section and Section 803(e), a taxpayer's gross income, adjusted gross income, or taxable income for the taxable year shall mean the amount of gross income, adjusted gross income or taxable income properly reportable for federal income tax purposes for the taxable year under the provisions of the Internal Revenue Code. Taxable income may be less than zero. However, for taxable years ending on or after December 31, 1986, net operating loss carryforwards from taxable years ending prior to December 31, 1986, may not exceed the sum of federal taxable income for the taxable year before net operating loss deduction, plus the excess of addition modifications over subtraction modifications for the taxable year. For taxable years ending prior to December 31, 1986, taxable income may never be an amount in excess of the net operating loss for the taxable year as defined in subsections (c) and (d) of Section 172 of the Internal Revenue Code, provided that when taxable income of a corporation (other than a Subchapter S corporation), trust, or estate is less than zero and addition modifications, other than those provided by subparagraph (E) of paragraph (2) of subsection (b) for corporations or subparagraph (E) of paragraph (2) of subsection (c) for trusts and estates, exceed subtraction modifications, an addition modification must be made under those subparagraphs for any other taxable year to which the taxable income less than zero (net operating loss) is applied under Section 172 of the Internal Revenue Code or under subparagraph (E) of paragraph (2) of this subsection (e) applied in conjunction with Section 172 of the Internal Revenue Code.

(2) Special rule. For purposes of paragraph (1) of this subsection, the taxable income properly reportable for federal income tax purposes shall mean:

(D) Real estate investment trusts. In the case of a real estate investment trust subject to the tax imposed by Section 857 of the Internal Revenue Code, real estate investment trust taxable income;

(E) Consolidated corporations. In the case of a corporation which is a member of an affiliated group of corporations filing a consolidated income tax return for the taxable year for federal income tax purposes, taxable income determined as if such corporation had filed a separate return for federal income tax purposes for the taxable year and each preceding taxable year for which it was a member of an affiliated group. For purposes of this subparagraph, the taxpayer’s separate taxable income shall be determined as if the election provided by Section 243(b)(2) of the Internal Revenue Code had been in effect for all such years;

(F) Cooperatives. In the case of a cooperative corporation or association, the taxable income of such organization determined in accordance with the provisions
(G) Subchapter S corporations. (H) Partnerships. In the case of a partnership, taxable income determined in accordance with Section 703 of the Internal Revenue Code, except that taxable income shall take into account those items which are required by Section 703(a)(1) to be separately stated but which would be taken into account by an individual in calculating his taxable income.

(3) Recapture of business expenses on disposition of asset or business. Notwithstanding any other law to the contrary, if in prior years income from an asset or business has been classified as business income and in a later year is demonstrated to be non-business income, then all expenses, without limitation, deducted in such later year and in the 2 immediately preceding taxable years related to that asset or business that generated the non-business income shall be added back and recaptured as business income in the year of the disposition of the asset or business. Such amount shall be apportioned to Illinois using the greater of the

(f) Valuation limitation amount.

(1) In general. The valuation limitation amount referred to in subsections (a) (2) (G), (c) (2) (I) and (d)(2) (E) is an amount equal to:

(A) The sum of the pre-August 1, 1969 appreciation amounts (to the extent consisting of gain reportable under the provisions of Section 1245 or 1250 of the Internal Revenue Code) for all property in respect of which such gain was reported for the taxable year; plus

(B) The lesser of (i) the sum of the pre-August 1, 1969 appreciation amounts (to the extent consisting of capital gain) for all property in respect of which such gain was reported for federal income tax purposes for the taxable year, or (ii) the net capital gain for the taxable year, reduced in either case by any amount of such gain included in the amount determined under subsection (a) (2) (F) or (c) (2) (H).

(2) Pre-August 1, 1969 appreciation amount.

(A) If the fair market value of property referred to in paragraph (1) was readily ascertainable on August 1, 1969, the pre-August 1, 1969 appreciation amount for such property is the lesser of (i) the excess of such fair market value over the taxpayer's basis (for determining gain) for such property on that date (determined under the Internal Revenue Code as in effect on that date), or (ii) the total gain realized and reportable for federal income tax purposes in respect of the sale, exchange or other disposition of such property.

(B) If the fair market value of property referred to in paragraph (1) was not readily ascertainable on August 1, 1969, the pre-August 1, 1969 appreciation amount for such property is that amount which bears the same ratio to the total gain reported in respect of the property for federal income tax purposes for the taxable year, as the number of full calendar months in that part of the taxpayer's holding period for the property ending July 31, 1969 bears to the number of full calendar months in the taxpayer's entire holding period for the property.

(C) The Department shall prescribe such regulations as may be necessary to carry out the purposes of this paragraph.

(g) Double deductions. Unless specifically provided otherwise, nothing in this Section shall permit the same item to be deducted more than once.

(h) Legislative intention. Except as expressly provided by this Section there shall be no modifications or limitations on the amounts of income, gain, loss or deduction taken into account in determining gross income, adjusted gross income or taxable income for federal income tax purposes for the taxable year, or in the amount of such items entering into the computation of base income and net income under this Act for such taxable year, whether in respect of property values as of August 1, 1969 or otherwise.

(35 ILCS 120/2-54 new)

Sec. 2-54. Building materials exemption; River Edge Redevelopment Zones. Each retailer that makes a qualified sale of building materials to be incorporated into real estate within a River Edge Redevelopment Zone in accordance with the River Edge Redevelopment Zone Act by remodeling, rehabilitating, or new construction may deduct receipts from those sales when calculating the tax imposed by this Act. For purposes of this Section, "qualified sale" means a sale of building materials that will be incorporated into real estate as part of an industrial or commercial project for which a Certificate of Eligibility for Sales Tax Exemption has been issued by the corporate authorities of the municipality in which the building project is located. To document the exemption allowed under this Section, the retailer must obtain from the purchaser a copy of the Certificate of Eligibility for Sales Tax Exemption issued by the corporate authorities of the municipality in which the real estate into
which the building materials will be incorporated is located. The Certificate of Eligibility for Sales Tax Exemption must contain all of the following:

(1) A statement that the commercial or industrial project identified in the Certificate meets all the requirements of the jurisdiction in which the project is located.
(2) The location or address of the building project.
(3) The signature of the chief executive officer of the municipality in which the building project is located, or the chief executive officer's delegate.

In addition, the retailer must obtain a certificate from the purchaser that contains all of the following:

(1) A statement that the building materials are being purchased for incorporation into real estate located in a River Edge Redevelopment Zone included in a redevelopment project area in accordance with River Edge Redevelopment Zone Act.
(2) The location or address of the real estate into which the building materials will be incorporated.

However, any abatement of taxes on any parcel shall not exceed the amount attributable to the construction of the improvements and the renovation or rehabilitation of existing improvements on the parcel. In the case of property within a redevelopment area created under the Tax Increment Allocation Redevelopment Act, the abatement shall not apply unless a business enterprise or individual with regard to new improvements or renovated or rehabilitated improvements has met the requirements of Section 5.4.1 of the Illinois Enterprise Zone Act or under Section 10-5.4.1 of the River Edge Redevelopment Zone Act. If an abatement is discontinued under this Section, a municipality shall notify the county clerk and the board of review or board of appeals of the change in writing not later than July 1 of the assessment year to be first affected by the change. However, within a county economic development project area created under the County Economic Development Project Area Property Tax Allocation Act, any municipality or county which has adopted tax increment allocation financing under the Tax Increment Allocation Redevelopment Act or the County Economic Development Project Area Tax Increment Allocation Act may abate any portion of its taxes as provided in this Section. Any other taxing district within the county economic development project area may order any portion or all of its taxes abated as provided above if the county or municipality which created the tax increment district has agreed, in writing, to the abatement.

A copy of an abatement order adopted under this Section shall be delivered to the county clerk and to the board of review or board of appeals not later than July 1 of the assessment year to be first affected by the order. If it is delivered on or after that date, it will first affect the taxes extended on the assessment of the following year. The board of review or board of appeals shall, each time the assessment books are delivered to the county clerk, also deliver a list of parcels affected by an abatement and the assessed value attributable to new improvements or to the renovation or rehabilitation of existing improvements.

PUBLIC ACT 94-1022
(Senate Bill No. 1892)

AN ACT concerning business.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:
Section 5. If and only if Senate Bill 17 of the 94th General Assembly becomes law, the River Edge Redevelopment Zone Act is amended by changing Sections 10-2, 10-4, and 10-5.3 as follows:
(94SB17 Art. 10, Sec. 10-2)
Sec. 10-2. Findings. The General Assembly finds and declares that those municipalities adjacent to or surrounding river areas often lack critical tools to safely revive and redevelop environmentally-challenged properties that will stimulate economic revitalization and create jobs in Illinois. Environmentally-challenged properties adjacent to or surrounding Illinois rivers are a threat to the health, safety, and welfare of the people of this State. Many of these environmentally-challenged properties adjacent to or surrounding rivers were former industrial areas that now, subject to appropriate environmental clean-up and remediation, would be ideal for office, residential, retail, hospitality, commercial, recreational, warehouse and distribution, and other economically productive uses. The cost of the

cleaning and remediation of these environmentally-challenged properties is often the primary obstacle to returning these properties to a safe and economically productive use.

Cooperative and continuous partnership among the State, through the Department of Commerce and Economic Opportunity and the Environmental Protection Agency, municipalities adjacent to or surrounding rivers, and the private sector is necessary to appropriately encourage the cost-effective cleaning and remediation of these environmentally-challenged properties in order to bring about a safe and economically productive use of the properties.

Therefore, it is declared to be the purpose of this Act to identify and initiate 3 pilot River Edge Redevelopment Zones to stimulate the safe and cost-effective re-use of environmentally-challenged properties adjacent to or surrounding rivers by means of tax incentives or grants.

(1) is a contiguous area adjacent to or surrounding a river;
(2) comprises a minimum of one half square mile and not more than 12 square miles, exclusive of lakes and waterways;
(3) satisfies any additional criteria established by the Department consistent with the purposes of this Act;
(4) is entirely within a single home rule municipality; and
(5) has at least 100 acres of environmentally challenged land within 1500 yards of the riverfront.

Thereafter the Department may not certify any additional River Edge Redevelopment Zones, but may amend and rescind certifications of existing River Edge Redevelopment Zones in accordance with Section 10-5.4.

(e) A municipality in which a River Edge Redevelopment Zone has been certified must submit to the Department, within 60 days after the certification, a plan for encouraging the participation by minority persons, females, persons with disabilities, and veterans in the zone. The Department may assist the municipality in developing and implementing the plan. Section 99. Effective date. This Act takes effect upon becoming law.

Approved July 14, 2006.
Effective July 14, 2006.
pursuant to Section 708, the court shall require the parties to identify reasonable alternative arrangements for visitation by a non-custodial parent, including but not limited to visitation of the minor child at the residence of another person or at a local public or private facility.

(a-3) Grandparents, great-grandparents, and siblings of a minor child, who is one year old or older, have standing to bring an action in circuit court by petition, requesting visitation in accordance with this Section. The term “sibling” in this Section means a brother, sister, stepbrother, or stepsister of the minor child. Grandparents, great-grandparents, and siblings also have standing to file a petition for visitation rights in a pending dissolution proceeding or any other proceeding that involves custody or visitation issues, requesting visitation in accordance with this Section. A petition for visitation with a child by a person other than a parent must be filed in the county in which the child resides. Nothing in this subsection (a-3) and subsection (a-5) of this Section shall apply to a child in whose interests a petition is pending under Section 2-13 of the Juvenile Court Act of 1987 or a petition to adopt an unrelated child is pending under the Adoption Act.

(a-5)(1) Except as otherwise provided in this subsection (a-5), any grandparent, great-grandparent, or sibling may file a petition for visitation rights to a minor child if there is an unreasonable denial of visitation by a parent and at least one of the following conditions exists:

(A) (Blank); one parent of the child is incompetent as a matter of law or deceased or has been sentenced to a period of imprisonment for more than 1 year;

(A-5) the child’s other parent is deceased or has been missing for at least 3 months. For the purposes of this Section a parent is considered to be missing if the parent’s location has not been determined and the parent has been reported as missing to a law enforcement agency;

(A-10) a parent of the child is incompetent as a matter of law;

(A-15) a parent has been incarcerated in jail or prison during the 3 month period preceding the filing of the petition;

New matter indicated by italics - deletions by strikeout
(B) the child's mother and father are divorced or have been legally separated from each other or there is pending a dissolution proceeding involving a parent of the child or another court proceeding involving custody or visitation of the child (other than any adoption proceeding of an unrelated child) during the 3-month period prior to the filing of the petition and at least one parent does not object to the grandparent, great-grandparent, or sibling having visitation with the child. The visitation of the grandparent, great-grandparent, or sibling must not diminish the visitation of the parent who is not related to the grandparent, great-grandparent, or sibling seeking visitation;

(C) (Blank); the court, other than a Juvenile Court, has terminated a parent-child relationship and the grandparent, great-grandparent, or sibling is the parent of the person whose parental rights have been terminated; except in cases of adoption. The visitation must not be used to allow the parent who lost parental rights to unlawfully visit with the child;

(D) the child is born out of wedlock, the parents are not living together, and the petitioner is a maternal grandparent, great-grandparent, or sibling of the child born out of wedlock; or

(E) the child is born out of wedlock, the parents are not living together, the petitioner is a paternal grandparent, great-grandparent, or sibling, and the paternity has been established by a court of competent jurisdiction.

(2) Any visitation rights granted pursuant to this Section before the filing of a petition for adoption of a child shall automatically terminate by operation of law upon the entry of an order terminating parental rights or granting the adoption of the child, whichever is earlier. If the person or persons who adopted the child are related to the child, as defined by Section 1 of the Adoption Act, any person who was related to the child as grandparent, great-grandparent, or sibling prior to the adoption shall have standing to bring an action pursuant to this Section requesting visitation with the child. The grandparent, great-grandparent, or sibling of
a parent whose parental rights have been terminated through an adoption proceeding may not petition for visitation rights.

(3) In making a determination under this subsection (a-5), there is a rebuttable presumption that a fit parent's actions and decisions regarding grandparent, great-grandparent, or sibling visitation are not harmful to the child's mental, physical, or emotional health. The burden is on the party filing a petition under this Section to prove that the parent's actions and decisions regarding visitation times are harmful to the child's mental, physical, or emotional health.

(4) In determining whether to grant visitation, the court shall consider the following:

(A) the preference of the child if the child is determined to be of sufficient maturity to express a preference;
(B) the mental and physical health of the child;
(C) the mental and physical health of the grandparent, great-grandparent, or sibling;
(D) the length and quality of the prior relationship between the child and the grandparent, great-grandparent, or sibling;
(E) the good faith of the party in filing the petition;
(F) the good faith of the person denying visitation;
(G) the quantity of the visitation time requested and the potential adverse impact that visitation would have on the child's customary activities;
(H) whether the child resided with the petitioner for at least 6 consecutive months with or without the current custodian present;
(I) whether the petitioner had frequent or regular contact or visitation with the child for at least 12 consecutive months; and
(J) any other fact that establishes that the loss of the relationship between the petitioner and the child is likely to harm the child's mental, physical, or emotional health; and 

(K) whether the grandparent, great-grandparent, or sibling was a primary caretaker of the child for a period of not less than 6 consecutive months.

New matter indicated by italics - deletions by strikeout
(5) The court may order visitation rights for the grandparent, great-grandparent, or sibling that include reasonable access without requiring overnight or possessory visitation.

(a-7)(1) Unless by stipulation of the parties, no motion to modify a grandparent, great-grandparent, or sibling visitation order may be made earlier than 2 years after the date the order was filed, unless the court permits it to be made on the basis of affidavits that there is reason to believe the child's present environment may endanger seriously the child's mental, physical, or emotional health.

(2) The court shall not modify an a prior grandparent, great-grandparent, or sibling visitation order that grants visitation to a grandparent, great-grandparent, or sibling unless it finds by clear and convincing evidence, upon the basis of facts that have arisen since the prior visitation order or that were unknown to the court at the time of entry of the prior visitation, that a change has occurred in the circumstances of the child or his or her custodian, and that the modification is necessary to protect the mental, physical, or emotional health of the child. The court shall state in its decision specific findings of fact in support of its modification or termination of the grandparent, great-grandparent, or sibling visitation. A child's parent may always petition to modify visitation upon changed circumstances when necessary to promote the child's best interest.

(3) Attorney fees and costs shall be assessed against a party seeking modification of the visitation order if the court finds that the modification action is vexatious and constitutes harassment.

(4) Notice under this subsection (a-7) shall be given as provided in subsections (c) and (d) of Section 601.

(b) (1) (Blank.)

(1.5) The Court may grant reasonable visitation privileges to a stepparent upon petition to the court by the stepparent, with notice to the parties required to be notified under Section 601 of this Act, if the court determines that it is in the best interests and welfare of the child, and may issue any necessary orders to enforce those visitation privileges. A petition for visitation privileges may be filed under this paragraph (1.5) whether or
not a petition pursuant to this Act has been previously filed or is currently pending if the following circumstances are met:

(A) the child is at least 12 years old;

(B) the child resided continuously with the parent and stepparent for at least 5 years;

(C) the parent is deceased or is disabled and is unable to care for the child;

(D) the child wishes to have reasonable visitation with the stepparent; and

(E) the stepparent was providing for the care, control, and welfare to the child prior to the initiation of the petition for visitation.

(2)(A) A petition for visitation privileges shall not be filed pursuant to this subsection (b) by the parents or grandparents of a putative father if the paternity of the putative father has not been legally established.

(B) A petition for visitation privileges may not be filed under this subsection (b) if the child who is the subject of the grandparents' or great-grandparents' petition has been voluntarily surrendered by the parent or parents, except for a surrender to the Illinois Department of Children and Family Services or a foster care facility, or has been previously adopted by an individual or individuals who are not related to the biological parents of the child or is the subject of a pending adoption petition by an individual or individuals who are not related to the biological parents of the child.

(3) (Blank).

(c) The court may modify an order granting or denying visitation rights of a parent whenever modification would serve the best interest of the child; but the court shall not restrict a parent's visitation rights unless it finds that the visitation would endanger seriously the child's physical, mental, moral or emotional health. The court may modify an order granting, denying, or limiting visitation rights of a grandparent, great-grandparent, or sibling of any minor child whenever a change of circumstances has occurred based on facts occurring subsequent to the
judgment and the court finds by clear and convincing evidence that the modification is in the best interest of the minor child.

(d) If any court has entered an order prohibiting a non-custodial parent of a child from any contact with a child or restricting the non-custodial parent's contact with the child, the following provisions shall apply:

(1) If an order has been entered granting visitation privileges with the child to a grandparent or great-grandparent who is related to the child through the non-custodial parent, the visitation privileges of the grandparent or great-grandparent may be revoked if:

(i) a court has entered an order prohibiting the non-custodial parent from any contact with the child, and the grandparent or great-grandparent is found to have used his or her visitation privileges to facilitate contact between the child and the non-custodial parent; or

(ii) a court has entered an order restricting the non-custodial parent's contact with the child, and the grandparent or great-grandparent is found to have used his or her visitation privileges to facilitate contact between the child and the non-custodial parent in a manner that violates the terms of the order restricting the non-custodial parent's contact with the child.

Nothing in this subdivision (1) limits the authority of the court to enforce its orders in any manner permitted by law.

(2) Any order granting visitation privileges with the child to a grandparent or great-grandparent who is related to the child through the non-custodial parent shall contain the following provision:

"If the (grandparent or great-grandparent, whichever is applicable) who has been granted visitation privileges under this order uses the visitation privileges to facilitate contact between the child and the child's non-custodial parent, the visitation privileges granted under this order shall be permanently revoked."

(e) No parent, not granted custody of the child, or grandparent, or great-grandparent, or stepparent, or sibling of any minor child, convicted of any offense involving an illegal sex act perpetrated upon a victim less than 18 years of age including but not limited to offenses for violations of Article 12 of the Criminal Code of 1961, is entitled to visitation rights while incarcerated or while on parole, probation, conditional discharge, periodic imprisonment, or mandatory supervised release for that offense, and upon discharge from incarceration for a misdemeanor offense or upon discharge from parole, probation, conditional discharge, periodic imprisonment, or mandatory supervised release for a felony offense, visitation shall be denied until the person successfully completes a treatment program approved by the court.

(f) Unless the court determines, after considering all relevant factors, including but not limited to those set forth in Section 602(a), that it would be in the best interests of the child to allow visitation, the court shall not enter an order providing visitation rights and pursuant to a motion to modify visitation shall revoke visitation rights previously granted to any person who would otherwise be entitled to petition for visitation rights under this Section who has been convicted of first degree murder of the parent, grandparent, great-grandparent, or sibling of the child who is the subject of the order. Until an order is entered pursuant to this subsection, no person shall visit, with the child present, a person who has been convicted of first degree murder of the parent, grandparent, great-grandparent, or sibling of the child without the consent of the child's parent, other than a parent convicted of first degree murder as set forth herein, or legal guardian.

(g) (Blank). If an order has been entered limiting, for cause, a minor child's contact or visitation with a grandparent, great-grandparent, or sibling on the grounds that it was in the best interest of the child to do so, that order may be modified only upon a showing of a substantial change in circumstances occurring subsequent to the entry of the order with proof by clear and convincing evidence that modification is in the best interest of the minor child.

PUBLIC ACT 94-1028
(Senate Bill No. 0279)

AN ACT concerning regulation.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:
Section 5. The Illinois Dental Practice Act is amended by changing Sections 37 and 38.1 and by adding Section 38.2 as follows:
(225 ILCS 25/37) (from Ch. 111, par. 2337)
(Section scheduled to be repealed on January 1, 2016)
Sec. 37. Unlicensed practice; injunctions. The practice of dentistry by any person not holding a valid and current license under this Act is

New matter indicated by italics - deletions by strikeout
declared to be inimical to the public welfare, to constitute a public
nuisance, and to cause irreparable harm to the public welfare.
A person is considered to practice dentistry who:

(1) employs a dentist, dental hygienist, or other entity
which can provide dental services under this Act;

(2) directs or controls the use of any dental equipment or
material while such equipment or material is being used for the
provision of dental services, provided that this provision shall not
be construed to prohibit a person from obtaining professional
advice or assistance in obtaining or from leasing the equipment or
material, provided the advice, assistance, or lease does not restrict
or interfere with the custody, control, or use of the equipment or
material by the person;

(3) directs, controls or interferes with a dentist's or dental
hygienist's clinical judgment; or

(4) exercises direction or control, by written contract,
license, or otherwise, over a dentist, dental hygienist, or other
entity which can provide dental services under this Act in the
selection of a course of treatment; limitation of patient referrals;
content of patient records; policies and decisions relating to
refunds (if the refund payment would be reportable under federal
law to the National Practitioner Data Bank) and warranties and the
clinical content of advertising; and final decisions relating to
employment of dental assistants and dental hygienists. Nothing in
this Act shall, however, be construed as prohibiting the seeking or
giving of advice or assistance with respect to these matters.

The purpose of this Section is to prevent a non-dentist from
influencing or otherwise interfering with the exercise of independent
professional judgment by a dentist, dental hygienist, or other entity which
can provide dental services under this Act. Nothing in this Section shall be
construed to prohibit insurers and managed care plans from operating
pursuant to the applicable provisions of the Illinois Insurance Code under
which the entities are licensed.
The Director, the Attorney General, the State's attorney of any county in the State, or any person may maintain an action in the name of the People of the State of Illinois, and may apply for injunctive relief in any circuit court to enjoin such person from engaging in such practice; and upon the filing of a verified petition in such court, the court if satisfied by affidavit, or otherwise, that such person has been engaged in such practice without a valid and current license so to do, may enter a temporary restraining order without notice or bond, enjoining the defendant from such further practice. Only the showing of non-licensure, by affidavit or otherwise, is necessary in order for a temporary injunction to issue. A copy of the verified complaint shall be served upon the defendant and the proceedings shall thereafter be conducted as in other civil cases except as modified by this Section. If it is established that the defendant has been, or is engaged in such unlawful practice, the court may enter an order or judgment perpetually enjoining the defendant from further such practice. In all proceedings hereunder the court, in its discretion, may apportion the costs among the parties interested in the action, including cost of filing the complaint, service of process, witness fees and expenses, court reporter charges and reasonable attorneys' fees. In case of violation of any injunctive order entered under the provisions of this Section, the court may summarily try and punish the offender for contempt of court. Such injunction proceedings shall be in addition to, and not in lieu of, all penalties and other remedies provided in this Act.

This Section does not apply to an executor, administrator, guardian, or authorized representative contracting with another dentist or dentists to continue the operations of a deceased or incapacitated dentist's practice under Section 38.2 of this Act.

Unless otherwise authorized by this Act, a dentist or dental hygienist is prohibited from providing dental services in this State, if the dentist or dental hygienist:

(1) is employed by any person other than a dentist to provide dental services, except as set forth in Section 38.2 of this Act; or

(2) allows any person other than another dentist to direct, control, or interfere with the dentist's or dental hygienist's clinical judgment. Clinical judgment shall include but not be limited to such matters as the dentist's or dental hygienist's selection of a course of treatment, limitation of patient referrals, content of patient records, policies and decisions relating to refunds (if the refund payment would be reportable under federal law to the National Practitioner Data Bank) and warranties and the clinical content of advertising, and final decisions relating to employment of dental assistants and dental hygienists. This paragraph shall not be construed to limit a patient's right of informed consent. An executor, administrator, guardian, or authorized representative contracting with another dentist or dentists to continue the operations of a deceased or incapacitated dentist's practice under Section 38.2 of this Act who violates this paragraph (2) is subject to the civil penalties set forth in Section 8.5 of this Act.

(2) Within 30 days after the death or incapacitation of a dentist, the executor, administrator, guardian, or authorized representative shall send notification of the death or incapacitation by mail to the last known address of each patient of record that has seen the deceased or incapacitated dentist within the previous 12 months, with an explanation of how copies of the practitioner's records may be obtained. This notice may also contain any other
relevant information concerning the continuation of the dental practice.

Continuation of the operations of the dental practice of a deceased or incapacitated dentist shall not begin until the provisions of this subsection (a) have been met.

New matter indicated by italics - deletions by strikeout
all mortgage applications that are governed by this Article and that are made or taken on or after the inception of the pilot program.

(b) A predatory lending database pilot program is established within the pilot program area, effective upon the inception date established by the Secretary of the Department. The pilot program shall be in effect and operational for a total of 4 years after its creation and shall continue for a total of 4 years after its creation and shall be administered in accordance with Article 3 of this Act. The database created under this program shall be maintained and administered by the Department. The database shall be designed to allow brokers, originators, credit counselors, title insurance companies, and closing agents to submit information to the database online. The database shall not be designed to allow those entities to retrieve information from the database, except as otherwise provided in this Article. Information submitted by the broker or originator to the Department may be used to populate the online form submitted by a credit counselor, title insurance company, or closing agent.

(c) Within 10 days after taking a mortgage application, the broker or originator for any mortgage on residential property within the pilot program area must submit to the predatory lending database all of the information required under Section 72 and any other information required by the Department by rule. Within 7 days after receipt of the information, the Department shall compare that information to credit counseling standards developed by the Department by rule and issue to the borrower and the broker or originator a determination of whether credit counseling is recommended for the borrower. The borrower may not waive credit counseling. If at any time after submitting the information required under Section 72 the broker or originator (i) changes the terms of the loan or (ii) issues a new commitment to the borrower, then, within 5 days thereafter, the broker or originator shall re-submit all of the information required under Section 72 and, within 4 days after receipt of the information re-submitted by the broker or originator, the Department shall compare that information to credit counseling standards developed by the Department by rule and shall issue to the borrower and the broker or originator a new determination of whether credit counseling is recommended for the

Within 7 days after interviewing the borrower, the credit counselor must submit to the predatory lending database all of the information required under Section 74 and any other information required by the Department by rule. Any costs associated with credit counseling provided under the pilot program shall be paid by the broker or originator. A credit counselor who in good faith provides counseling services shall not be liable to a broker or originator for civil damages, except for willful or wanton misconduct on the part of the counselor in providing the counseling services.

(e) The broker or originator and the borrower may not take any legally binding action concerning the loan transaction until the later of the following:

(1) the Department issues a determination not to recommend credit counseling for the borrower in accordance with subsection (c); or

If the title insurance company or closing agent fails to attach the certificate of compliance, then the mortgage is not recordable. In addition, if any lis pendens for a residential mortgage foreclosure is recorded on the property within the pilot program area, a certificate of service must be simultaneously recorded that affirms that a copy of the lis pendens was filed with the Department. (k) Not later than one year after the Department designates the pilot program area and annually thereafter during the existence of the pilot program, the Department shall report to the Governor and to the General Assembly concerning its administration and the effectiveness of the pilot program.

Section 5. The Department of Commerce and Economic Opportunity Law of the Civil Administrative Code of Illinois is amended by changing Section 605-332 as follows:

(20 ILCS 605/605-332)
Sec. 605-332. Financial assistance to energy generation facilities.
(a) As used in this Section:
"New electric generating facility" means a newly-constructed electric generation plant or a newly constructed generation capacity expansion at an existing facility, including the transmission lines and associated equipment that transfers electricity from points of supply to points of delivery, and for which foundation construction commenced not sooner than July 1, 2001, which is designed to provide baseload electric generation operating on a continuous basis throughout the year and:

(1) has an aggregate rated generating capacity of at least 400 megawatts for all new units at one site, uses coal or gases derived from coal as its primary fuel source, and supports the creation of at least 150 new Illinois coal mining jobs; or

(2) is funded through a federal Department of Energy grant before December 31, 2007 and supports the creation of Illinois coal-mining jobs; or

New matter indicated by italics - deletions by strikeout
(3) uses coal gasification or integrated gasification-combined cycle units that generate electricity or chemicals, or both, and supports the creation of Illinois coal-mining jobs.

"New gasification facility" means a newly constructed coal gasification facility that generates chemical feedstocks or transportation fuels derived from coal (which may include, but are not limited to, methane, methanol, and nitrogen fertilizer), that supports the creation or retention of Illinois coal-mining jobs, and that qualifies for financial assistance from the Department before December 31, 2006. A new gasification facility does not include a pilot project located within Jefferson County or within a county adjacent to Jefferson County for synthetic natural gas from coal.

"New facility" means a new electric generating facility or a new gasification facility. A new facility does not include a pilot project located within Jefferson County or within a county adjacent to Jefferson County for synthetic natural gas from coal.

"Eligible business" means an entity that proposes to construct a new facility and that has applied to the Department to receive financial assistance pursuant to this Section. With respect to use and occupation taxes, wherever there is a reference to taxes, that reference means only those taxes paid on Illinois-mined coal used in a new facility.

"Department" means the Illinois Department of Commerce and Economic Opportunity.

(b) The Department is authorized to provide financial assistance to eligible businesses for new facilities from funds appropriated by the General Assembly as further provided in this Section.

An eligible business seeking qualification for financial assistance for a new facility, for purposes of this Section only, shall apply to the Department in the manner specified by the Department. Any projections provided by an eligible business as part of the application shall be independently verified in a manner as set forth by the Department. An application shall include, but not be limited to:

(1) the projected or actual completion date of the new facility for which financial assistance is sought;

New matter indicated by italics - deletions by strikeout
(2) copies of documentation deemed acceptable by the Department establishing either (i) the total State occupation and use taxes paid on Illinois-mined coal used at the new facility for a minimum of 4 preceding calendar quarters or (ii) the projected amount of State occupation and use taxes paid on Illinois-mined coal used at the new facility in 4 calendar year quarters after completion of the new facility. Bond proceeds subject to this Section shall not be allocated to an eligible business until the eligible business has demonstrated the revenue stream sufficient to service the debt on the bonds; and

(3) the actual or projected amount of capital investment by the eligible business in the new facility.

The Department shall determine the maximum amount of financial assistance for eligible businesses in accordance with this paragraph. The Department shall not provide financial assistance from general obligation bond funds to any eligible business unless it receives a written certification from the Director of the Bureau of the Budget (now Governor's Office of Management and Budget) that 80% of the State occupation and use tax receipts for a minimum of the preceding 4 calendar quarters for all eligible businesses or as included in projections on approved applications by eligible businesses equal or exceed 110% of the maximum annual debt service required with respect to general obligation bonds issued for that purpose. The Department may provide financial assistance not to exceed the amount of State general obligation debt calculated as above, the amount of actual or projected capital investment in the facility, or $100,000,000, whichever is less. Financial assistance received pursuant to this Section may be used for capital facilities consisting of buildings, structures, durable equipment, and land at the new facility. Subject to the provisions of the agreement covering the financial assistance, a portion of the financial assistance may be required to be repaid to the State if certain conditions for the governmental purpose of the assistance were not met.

An eligible business shall file a monthly report with the Illinois Department of Revenue stating the amount of Illinois-mined coal purchased during the previous month for use in the new facility, the

New matter indicated by italics - deletions by strikeout
purchase price of that coal, the amount of State occupation and use taxes paid on that purchase to the seller of the Illinois-mined coal, and such other information as that Department may reasonably require. In sales of Illinois-mined coal between related parties, the purchase price of the coal must have been determined in an arms-length transaction. The report shall be filed with the Illinois Department of Revenue on or before the 20th day of each month on a form provided by that Department. However, no report need be filed by an eligible business in a month when it made no reportable purchases of coal in the previous month. The Illinois Department of Revenue shall provide a summary of such reports to the Governor's Office of Management and Budget.

Upon granting financial assistance to an eligible business, the Department shall certify the name of the eligible business to the Illinois Department of Revenue. Beginning with the receipt of the first report of State occupation and use taxes paid by an eligible business and continuing for a 25-year period, the Illinois Department of Revenue shall each month pay into the Energy Infrastructure Fund 80% of the net revenue realized from the 6.25% general rate on the selling price of Illinois-mined coal that was sold to an eligible business.

Section 5. The Property Tax Code is amended by changing Section 16-70 as follows:

(35 ILCS 200/16-70)

Sec. 16-70. Determination of exemptions. The board of review shall hear and determine the application of any person who is assessed on property claimed to be exempt from taxation. However, the decision of the board shall not be final, except as to homestead exemptions. Upon filing of any application for a non-homestead exemption which would reduce the assessed valuation of any property by more than $100,000, the owner shall deliver, in person or by mail, a copy of the application to any municipality, school district, and community college district, and fire protection district in which the property is situated. Failure of a municipality, school district, or community college district, or fire protection district to receive the notice shall not invalidate any exemption. The board shall give the municipalities, school districts, and community college districts, fire protection districts, and the taxpayer an opportunity to be heard. The clerk of the board in all cases other than homestead exemptions, under the direction of the board, shall make out and forward to the Department, a full and complete statement of all the facts in the case. The Department shall determine whether the property is legally liable to taxation. It shall notify the board of review of its decision, and the board shall correct the assessment if necessary. The decision of the Department is subject to review under Sections 8-35 and 8-40. The extension of taxes on any assessment shall not be delayed by any proceedings under this Section, and, if the Department rules that the property is exempt, any taxes extended upon the unauthorized assessment shall be abated or, if paid, shall be refunded.

AN ACT concerning criminal law.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Probation and Probation Officers Act is amended by changing Section 16.1 as follows:

(730 ILCS 110/16.1)

Sec. 16.1. Redeploy Illinois Program.

(a) The purpose of this Section is to encourage the deinstitutionalization of juvenile offenders establishing pilot projects in counties or groups of counties that reallocate State funds from juvenile correctional confinement to local jurisdictions, which will establish a continuum of local, community-based sanctions and treatment alternatives for juvenile offenders who would be incarcerated if those local services and sanctions did not exist. The allotment of funds will be based on a formula that rewards local jurisdictions for the establishment or expansion of local alternatives to incarceration, and requires them to pay for utilization of incarceration as a sanction. This redeployment of funds shall be made in a manner consistent with the Juvenile Court Act of 1987 and the following purposes and policies:

(1) The juvenile justice system should protect the community, impose accountability to victims and communities for violations of law, and equip juvenile offenders with competencies to live responsibly and productively.

(2) Juveniles should be treated in the least restrictive manner possible while maintaining the safety of the community.

(3) A continuum of services and sanctions from least restrictive to most restrictive should be available in every community.

(4) There should be local responsibility and authority for planning, organizing, and coordinating service resources in the community. People in the community can best choose a range of

New matter indicated by italics - deletions by strikeout
services which reflect community values and meet the needs of their own youth.

(5) Juveniles who pose a threat to the community or themselves need special care, including secure settings. Such services as detention, long-term incarceration, or residential treatment are too costly to provide in each community and should be coordinated and provided on a regional or Statewide basis.

(6) The roles of State and local government in creating and maintaining services to youth in the juvenile justice system should be clearly defined. The role of the State is to fund services, set standards of care, train service providers, and monitor the integration and coordination of services. The role of local government should be to oversee the provision of services.

(b) Each county or circuit participating in the pilot program must create a local plan demonstrating how it will reduce the county or circuit's utilization of secure confinement of juvenile offenders in the Illinois Department of Juvenile Justice or county detention centers by the creation or expansion of individualized services or programs that may include but are not limited to the following:

(1) Assessment and evaluation services to provide the juvenile justice system with accurate individualized case information on each juvenile offender including mental health, substance abuse, educational, and family information;

(2) Direct services to individual juvenile offenders including educational, vocational, mental health, substance abuse, supervision, and service coordination; and

(3) Programs that seek to restore the offender to the community, such as victim offender panels, teen courts, competency building, enhanced accountability measures, restitution, and community service. The local plan must be directed in such a manner as to emphasize an individualized approach to providing services to juvenile offenders in an integrated community based system including probation as the broker of services. The plan must also detail the reduction in utilization of

New matter indicated by italics - deletions by strikeout
secure confinement. The local plan shall be limited to services and shall not include costs for:

(i) capital expenditures;
(ii) renovations or remodeling;
(iii) personnel costs for probation.

The local plan shall be submitted to the Department of Human Services.

(c) A county or group of counties may develop an agreement with the Department of Human Services to reduce their number of commitments of juvenile offenders, excluding minors sentenced based upon a finding of guilt of first degree murder or an offense which is a Class X forcible felony as defined in the Criminal Code of 1961, to the Department of Juvenile Justice, and then use the savings to develop local programming for youth who would otherwise have been committed to the Department of Juvenile Justice. The county or group of counties shall agree to limit their commitments to 75% of the level of commitments from the average number of juvenile commitments for the past 3 years, and will receive the savings to redeploy for local programming for juveniles who would otherwise be held in confinement. For any county or group of counties with a decrease of juvenile commitments of at least 25%, based on the average reductions of the prior 3 years, which are chosen to participate or continue as pilot sites, the Redeploy Illinois Oversight Board has the authority to reduce the required percentage of future commitments to achieve the purpose of this Section. The agreement shall set forth the following:

(1) a Statement of the number and type of juvenile offenders from the county who were held in secure confinement by the Illinois Department of Juvenile Justice or in county detention the previous year, and an explanation of which, and how many, of these offenders might be served through the proposed Redeploy Illinois Program for which the funds shall be used;

(2) a Statement of the service needs of currently confined juveniles;

New matter indicated by italics - deletions by strikeout
(3) a Statement of the type of services and programs to provide for the individual needs of the juvenile offenders, and the research or evidence base that qualifies those services and programs as proven or promising practices;

(4) a budget indicating the costs of each service or program to be funded under the plan;

(5) a summary of contracts and service agreements indicating the treatment goals and number of juvenile offenders to be served by each service provider; and

(6) a Statement indicating that the Redeploy Illinois Program will not duplicate existing services and programs. Funds for this plan shall not supplant existing county funded programs.

(d) (Blank).

(e) The Department of Human Services shall be responsible for the following:

(1) Reviewing each Redeploy Illinois Program plan for compliance with standards established for such plans. A plan may be approved as submitted, approved with modifications, or rejected. No plan shall be considered for approval if the circuit or county is not in full compliance with all regulations, standards and guidelines pertaining to the delivery of basic probation services as established by the Supreme Court.

(2) Monitoring on a continual basis and evaluating annually both the program and its fiscal activities in all counties receiving an allocation under the Redeploy Illinois Program. Any program or service that has not met the goals and objectives of its contract or service agreement shall be subject to denial for funding in subsequent years. The Department of Human Services shall evaluate the effectiveness of the Redeploy Illinois Program in each circuit or county. In determining the future funding for the Redeploy Illinois Program under this Act, the evaluation shall include, as a primary indicator of success, a decreased number of confinement days for the county's juvenile offenders.

New matter indicated by italics - deletions by strikeout
(f) Any Redeploy Illinois Program allocations not applied for and approved by the Department of Human Services shall be available for redistribution to approved plans for the remainder of that fiscal year. Any county that invests local moneys in the Redeploy Illinois Program shall be given first consideration for any redistribution of allocations. Jurisdictions participating in Redeploy Illinois that exceed their agreed upon level of commitments to the Department of Juvenile Justice shall reimburse the Department of Corrections for each commitment above the agreed upon level.

(g) Implementation of Redeploy Illinois.

(1) Planning Phase.

   (i) Redeploy Illinois Oversight Board. The Department of Human Services shall convene an oversight board to develop plans for a pilot Redeploy Illinois Program. The Board shall include, but not be limited to, designees from the Department of Juvenile Justice, the Administrative Office of Illinois Courts, the Illinois Juvenile Justice Commission, the Illinois Criminal Justice Information Authority, the Department of Children and Family Services, the State Board of Education, the Cook County State's Attorney, and a State's Attorney selected by the President of the Illinois State's Attorney's Association.

   (ii) Responsibilities of the Redeploy Illinois Oversight Board. The Oversight Board shall:

   (A) Identify jurisdictions to be invited in the initial pilot program of Redeploy Illinois.

   (B) Develop a formula for reimbursement of local jurisdictions for local and community-based services utilized in lieu of commitment to the Department of Juvenile Justice, as well as for any charges for local jurisdictions for commitments above the agreed upon limit in the approved plan.

New matter indicated by italics - deletions by strikeout
(C) Identify resources sufficient to support the administration and evaluation of Redeploy Illinois.

(D) Develop a process and identify resources to support on-going monitoring and evaluation of Redeploy Illinois.

(E) Develop a process and identify resources to support training on Redeploy Illinois.

(F) Report to the Governor and the General Assembly on an annual basis on the progress of Redeploy Illinois.

(iii) Length of Planning Phase. The planning phase may last up to, but may in no event last longer than, July 1, 2004.

(2) Pilot Phase. In the second phase of the Redeploy Illinois program, the Department of Human Services shall implement several pilot programs of Redeploy Illinois in counties or groups of counties as identified by the Oversight Board. Annual review of the Redeploy Illinois program by the Oversight Board shall include recommendations for future sites for Redeploy Illinois.

If, at a regularly scheduled meeting, the Commission resolves that a parcel of real estate leased by it, or in which it has sold the fee simple title or any lesser estate, is not being used for the purposes prescribed in this Act or has been in nonuse for a period of one year, the Commission may file a lawsuit in the circuit court of St. Clair County to enforce the terms of the sale or lease. Section 40. Notice. Before holding any public hearing prescribed in Section 35 of this Act, or any meeting regarding the passage of any resolution to file a lawsuit, the Commission shall give notice to the grantee or lessee, or his or her legal representatives, successors, or assigns, of the time and place of the proceeding. The notice shall be accompanied by a statement signed by the Secretary of the Commission, or by any person authorized by the Commission to sign the same, setting forth any act or things done or omitted to be done in violation, or claimed to be in violation, of any restriction as to the use of the property, whether the restriction be prescribed in any of the terms of this Act or by any restriction as to the use of the property determined by the Commission under the terms of this Act. The notice of the time and place fixed for the proceeding shall also be given to such person or persons as the Commission shall deem necessary. The notice may be given by registered mail, addressed to the grantee, lessee, or legal representatives, successors, or assigns, at the last known address of the grantee, lessee, or legal representatives, successors, or assigns.

The master plan, and any amendment to the master plan, shall not take effect, however, until it has been approved by the advisory council and the East St. Louis city council. The Commission shall take the actions permitted to be taken by it under this Act as it may determine are appropriate to provide conditions most favorable for the special care and treatment of the sick and injured and for the study of disease and for any other purpose in Section 25 of this Act. The advisory council may fulfill such other responsibilities as the Commission may request in furtherance of the purposes of this Act. The advisory council shall meet at the call of the President of the Commission and shall conduct its affairs in accordance with the rules that the Commission may adopt from time to time for the governance and operation of the advisory council.

Section 5. The Illinois Insurance Code is amended by adding Section 368f as follows:

(215 ILCS 5/368f new)

Sec. 368f. Military service member insurance reinstatement.

(a) No Illinois resident activated for military service and no spouse or dependent of the resident who becomes eligible for a federal government-sponsored health insurance program, including the TriCare program providing coverage for civilian dependents of military personnel, as a result of the activation shall be denied reinstatement into the same individual health insurance coverage with the health insurer that the resident lapsed as a result of activation or becoming covered by the federal government-sponsored health insurance program. The resident shall have the right to reinstatement in the same individual health insurance coverage without medical underwriting, subject to payment of the current premium charged to other persons of the same age and gender that are covered under the same individual health coverage. Except in the case of birth or adoption that occurs during the period of activation, reinstatement must be into the same coverage type as the resident held prior to lapsing the individual health insurance coverage and at the same or, at the option of the resident, higher deductible level. The reinstatement rights provided under this subsection (a) are not available to a resident or dependents if the activated person is discharged from the military under other than honorable conditions.

(b) The health insurer with which the reinstatement is being requested must receive a request for reinstatement no later than 63 days following the later of (i) deactivation or (ii) loss of coverage under the

The health insurer may request proof of loss of coverage and the timing of the loss of coverage of the government-sponsored coverage in order to determine eligibility for reinstatement into the individual coverage. The effective date of the reinstatement of individual health coverage shall be the first of the month following receipt of the notice requesting reinstatement.

(c) All insurers must provide written notice to the policyholder of individual health coverage of the rights described in subsection (a) of this Section. In lieu of the inclusion of the notice in the individual health insurance policy, an insurance company may satisfy the notification requirement by providing a single written notice:

(1) in conjunction with the enrollment process for a policyholder initially enrolling in the individual coverage on or after the effective date of this amendatory Act of the 94th General Assembly; or

(2) by mailing written notice to policyholders whose coverage was effective prior to the effective date of this amendatory Act of the 94th General Assembly no later than 90 days following the effective date of this amendatory Act of the 94th General Assembly.

(d) The provisions of subsection (a) of this Section do not apply to any policy or certificate providing coverage for any specified disease, specified accident or accident-only coverage, credit, dental, disability income, hospital indemnity, long-term care, Medicare supplement, vision care, or short-term nonrenewable health policy or other limited-benefit supplemental insurance, or any coverage issued as a supplement to any liability insurance, workers’ compensation or similar insurance, or any insurance under which benefits are payable with or without regard to fault, whether written on a group, blanket, or individual basis.

(e) Nothing in this Section shall require an insurer to reinstate the resident if the insurer requires residency in an enrollment area and those residency requirements are not met after deactivation or loss of coverage under the government-sponsored health insurance program.
(f) All terms, conditions, and limitations of the individual coverage into which reinstatement is made apply equally to all insureds enrolled in the coverage.

(g) The Secretary may adopt rules as may be necessary to carry out the provisions of this Section.

Section 5. The Condominium Property Act is amended by
changing Section 9 as follows:

(765 ILCS 605/9) (from Ch. 30, par. 309)
Sec. 9. Sharing of expenses - Lien for nonpayment.

(a) All common expenses incurred or accrued prior to the first
conveyance of a unit shall be paid by the developer, and during this period
no common expense assessment shall be payable to the association. It shall
be the duty of each unit owner including the developer to pay his
proportionate share of the common expenses commencing with the first
conveyance. The proportionate share shall be in the same ratio as his
percentage of ownership in the common elements set forth in the
declaration.
(b) The condominium instruments may provide that common expenses for insurance premiums be assessed on a basis reflecting increased charges for coverage on certain units.

(c) Budget and reserves.

(1) The board of managers shall prepare and distribute to all unit owners a detailed proposed annual budget, setting forth with particularity all anticipated common expenses by category as well as all anticipated assessments and other income. The initial budget and common expense assessment based thereon shall be adopted prior to the conveyance of any unit. The budget shall also set forth each unit owner's proposed common expense assessment.

(2) All budgets adopted by a board of managers on or after July 1, 1990 shall provide for reasonable reserves for capital expenditures and deferred maintenance for repair or replacement of the common elements. To determine the amount of reserves appropriate for an association, the board of managers shall take into consideration the following: (i) the repair and replacement cost, and the estimated useful life, of the property which the association is obligated to maintain, including but not limited to structural and mechanical components, surfaces of the buildings and common elements, and energy systems and equipment; (ii) the current and anticipated return on investment of association funds; (iii) any independent professional reserve study which the association may obtain; (iv) the financial impact on unit owners, and the market value of the condominium units, of any assessment increase needed to fund reserves; and (v) the ability of the association to obtain financing or refinancing.

(3) Notwithstanding the provisions of this subsection (c), an association without a reserve requirement in its condominium instruments may elect to waive in whole or in part the reserve requirements of this Section by a vote of 2/3 of the total votes of the association. Any association having elected under this paragraph (3) to waive the provisions of subsection (c) may by a
vote of 2/3 of the total votes of the association elect to again be governed by the requirements of subsection (c).

(4) In the event that an association elects to waive all or part of the reserve requirements of this Section, that fact must be disclosed after the meeting at which the waiver occurs by the association in the financial statements of the association and, highlighted in bold print, in the response to any request of a prospective purchaser for the information prescribed under Section 22.1; and no member of the board of managers or the managing agent of the association shall be liable, and no cause of action may be brought for damages against these parties, for the lack or inadequacy of reserve funds in the association budget.

(d) (Blank).

(e) The condominium instruments may provide for the assessment, in connection with expenditures for the limited common elements, of only those units to which the limited common elements are assigned.

(f) Payment of any assessment shall be in amounts and at times determined by the board of managers.

(g) Lien.

(1) If any unit owner shall fail or refuse to make any payment of the common expenses or the amount of any unpaid fine when due, the amount thereof together with any interest, late charges, reasonable attorney fees incurred enforcing the covenants of the condominium instruments, rules and regulations of the board of managers, or any applicable statute or ordinance, and costs of collections shall constitute a lien on the interest of the unit owner in the property prior to all other liens and encumbrances, recorded or unrecorded, except only (a) taxes, special assessments and special taxes theretofore or thereafter levied by any political subdivision or municipal corporation of this State and other State or federal taxes which by law are a lien on the interest of the unit owner prior to preexisting recorded encumbrances thereon and (b) encumbrances on the interest of the unit owner recorded prior to the date of such failure or refusal which by law would be a lien.
thereon prior to subsequently recorded encumbrances. Any action brought to extinguish the lien of the association shall include the association as a party.

(2) With respect to encumbrances executed prior to August 30, 1984 or encumbrances executed subsequent to August 30, 1984 which are neither bona fide first mortgages nor trust deeds and which encumbrances contain a statement of a mailing address in the State of Illinois where notice may be mailed to the encumbrancer thereunder, if and whenever and as often as the manager or board of managers shall send, by United States certified or registered mail, return receipt requested, to any such encumbrancer at the mailing address set forth in the recorded encumbrance a statement of the amounts and due dates of the unpaid common expenses with respect to the encumbered unit, then, unless otherwise provided in the declaration or bylaws, the prior recorded encumbrance shall be subject to the lien of all unpaid common expenses with respect to the unit which become due and payable within a period of 90 days after the date of mailing of each such notice.

(3) The purchaser of a condominium unit at a judicial foreclosure sale, or a mortgagee who receives title to a unit by deed in lieu of foreclosure or judgment by common law strict foreclosure or otherwise takes possession pursuant to court order under the Illinois Mortgage Foreclosure Law, shall have the duty to pay the unit's proportionate share of the common expenses for the unit assessed from and after the first day of the month after the date of the judicial foreclosure sale, delivery of the deed in lieu of foreclosure, entry of a judgment in common law strict foreclosure, or taking of possession pursuant to such court order. Such payment confirms the extinguishment of any lien created pursuant to paragraph (1) or (2) of this subsection (g) by virtue of the failure or refusal of a prior unit owner to make payment of common expenses, where the judicial foreclosure sale has been confirmed.
by order of the court, a deed in lieu thereof has been accepted by the lender, or a consent judgment has been entered by the court.

(4) The purchaser of a condominium unit at a judicial foreclosure sale, other than a mortgagee, who takes possession of a condominium unit pursuant to a court order or a purchaser who acquires title from a mortgagee shall have the duty to pay the proportionate share, if any, of the common expenses for the unit which would have become due in the absence of any assessment acceleration during the 6 months immediately preceding institution of an action to enforce the collection of assessments, and which remain unpaid by the owner during whose possession the assessments accrued. If the outstanding assessments are paid at any time during any action to enforce the collection of assessments, the purchaser shall have no obligation to pay any assessments which accrued before he or she acquired title.

(5) The notice of sale of a condominium unit under subsection (c) of Section 15-1507 of the Code of Civil Procedure shall state that the purchaser of the unit other than a mortgagee shall pay the assessments and the legal fees required by subdivisions (g)(1) and (g)(4) of Section 9 of this Act. The statement of assessment account issued by the association to a unit owner under subsection (i) of Section 18 of this Act, and the disclosure statement issued to a prospective purchaser under Section 22.1 of this Act, shall state the amount of the assessments and the legal fees, if any, required by subdivisions (g)(1) and (g)(4) of Section 9 of this Act.

(h) A lien for common expenses shall be in favor of the members of the board of managers and their successors in office and shall be for the benefit of all other unit owners. Notice of the lien may be recorded by the board of managers, or if the developer is the manager or has a majority of seats on the board of managers and the manager or board of managers fails to do so, any unit owner may record notice of the lien. Upon the recording of such notice the lien may be foreclosed by an action brought in the name
of the board of managers in the same manner as a mortgage of real property.

(i) Unless otherwise provided in the declaration, the members of the board of managers and their successors in office, acting on behalf of the other unit owners, shall have the power to bid on the interest so foreclosed at the foreclosure sale, and to acquire and hold, lease, mortgage and convey it.

(j) Any encumbrancer may from time to time request in writing a written statement from the manager or board of managers setting forth the unpaid common expenses with respect to the unit covered by his encumbrance. Unless the request is complied with within 20 days, all unpaid common expenses which become due prior to the date of the making of such request shall be subordinate to the lien of the encumbrance. Any encumbrancer holding a lien on a unit may pay any unpaid common expenses payable with respect to the unit, and upon payment the encumbrancer shall have a lien on the unit for the amounts paid at the same rank as the lien of his encumbrance.

(k) Nothing in Public Act 83-1271 is intended to change the lien priorities of any encumbrance created prior to August 30, 1984.

PUBLIC ACT 94-1055
(Senate Bill No. 3086)

AN ACT concerning government, which may be referred to as the Equity in Eminent Domain Act.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:
Section 1-1-1. Short title. This Act may be cited as the Eminent Domain Act.
Section 1-1-5. Definitions. As used in this Act, except with respect to the acquisition or damaging of property authorized under the O'Hare Modernization Act:
"Acquisition of property", unless the context otherwise requires, includes the acquisition, damaging, or use of property or any right to or interest in property.
"Blighted area", "blight", and "blighted" have the same meanings as under the applicable statute authorizing the condemning authority to exercise the power of eminent domain or, if those terms have no defined meaning under the applicable statute, then the same meanings as under Section 11-74.4-3 of the Illinois Municipal Code.
"Condemning authority" means the State or any unit of local government, school district, or other entity authorized to exercise the power of eminent domain.

Article 5. General Exercise

New matter indicated by italics - deletions by strikeout
Section 5-5-5. Exercise of the power of eminent domain; public use; blight.

(a) In addition to all other limitations and requirements, a condemning authority may not take or damage property by the exercise of the power of eminent domain unless it is for a public use, as set forth in this Section.

(a-5) Subsections (b), (c), (d), (e), and (f) of this Section do not apply to the acquisition of property under the O'Hare Modernization Act. A condemning authority may exercise the power of eminent domain for the acquisition or damaging of property under the O'Hare Modernization Act as provided for by law in effect prior to the effective date of this Act.

(a-10) Subsections (b), (c), (d), (e), and (f) of this Section do not apply to the acquisition or damaging of property in furtherance of the goals and objectives of an existing tax increment allocation redevelopment plan. A condemning authority may exercise the power of eminent domain for the acquisition of property in furtherance of an existing tax increment allocation redevelopment plan as provided for by law in effect prior to the effective date of this Act.

As used in this subsection, "existing tax increment allocation redevelopment plan" means a redevelopment plan that was adopted under the Tax Increment Allocation Redevelopment Act (Article 11, Division 74.4 of the Illinois Municipal Code) prior to April 15, 2006 and for which property assembly costs were, before that date, included as a budget line item in the plan or described in the narrative portion of the plan as part of the redevelopment project, but does not include (i) any additional area added to the redevelopment project area on or after April 15, 2006, (ii) any subsequent extension of the completion date of a redevelopment plan beyond the estimated completion date established in that plan prior to April 15, 2006, (iii) any acquisition of property in a conservation area for which the condemnation complaint is filed more than 12 years after the effective date of this Act, or (iv) any acquisition of property in an industrial park conservation area.
As used in this subsection, "conservation area" and "industrial park conservation area" have the same meanings as under Section 11-74.4-3 of the Illinois Municipal Code.

(b) If the exercise of eminent domain authority is to acquire property for public ownership and control, then the condemning authority must prove that (i) the acquisition of the property is necessary for a public purpose and (ii) the acquired property will be owned and controlled by the condemning authority or another governmental entity.

(c) Except when the acquisition is governed by subsection (b) or is primarily for one of the purposes specified in subsection (d), (e), or (f) and the condemning authority elects to proceed under one of those subsections, if the exercise of eminent domain authority is to acquire property for private ownership or control, or both, then the condemning authority must prove by clear and convincing evidence that the acquisition of the property for private ownership or control is (i) primarily for the benefit, use, or enjoyment of the public and (ii) necessary for a public purpose.

An acquisition of property primarily for the purpose of the elimination of blight is rebuttably presumed to be for a public purpose and primarily for the benefit, use, or enjoyment of the public under this subsection.

Any challenge to the existence of blighting factors alleged in a complaint to condemn under this subsection shall be raised within 6 months of the filing date of the complaint to condemn, and if not raised within that time the right to challenge the existence of those blighting factors shall be deemed waived.

Evidence that the Illinois Commerce Commission has granted a certificate or otherwise made a finding of public convenience and necessity for an acquisition of property (or any right or interest in property) for private ownership or control (including, without limitation, an acquisition for which the use of eminent domain is authorized under the Public Utilities Act, the Telephone Company Act, or the Electric Supplier Act) to be used for utility purposes creates a rebuttable presumption that such acquisition of that property (or right or interest in property) is (i)

New matter indicated by italics - deletions by strikeout
primarily for the benefit, use, or enjoyment of the public and (ii) necessary for a public purpose.

In the case of an acquisition of property (or any right or interest in property) for private ownership or control to be used for utility, pipeline, or railroad purposes for which no certificate or finding of public convenience and necessity by the Illinois Commerce Commission is required, evidence that the acquisition is one for which the use of eminent domain is authorized under one of the following laws creates a rebuttable presumption that the acquisition of that property (or right or interest in property) is (i) primarily for the benefit, use, or enjoyment of the public and (ii) necessary for a public purpose:

(1) the Public Utilities Act,
(2) the Telephone Company Act,
(3) the Electric Supplier Act,
(4) the Railroad Terminal Authority Act,
(5) the Grand Avenue Railroad Relocation Authority Act,
(6) the West Cook Railroad Relocation and Development Authority Act,
(7) Section 4-505 of the Illinois Highway Code,
(8) Section 17 or 18 of the Railroad Incorporation Act,
(9) Section 18c-7501 of the Illinois Vehicle Code.

(d) If the exercise of eminent domain authority is to acquire property for private ownership or control and if the primary basis for the acquisition is the elimination of blight and the condemning authority elects to proceed under this subsection, then the condemning authority must: (i) prove by a preponderance of the evidence that acquisition of the property for private ownership or control is necessary for a public purpose; (ii) prove by a preponderance of the evidence that the property to be acquired is located in an area that is currently designated as a blighted area or conservation area under an applicable statute; (iii) if the existence of blight or blighting factors is challenged in an appropriate motion filed within 6 months after the date of filing of the complaint to condemn, prove by a preponderance of the evidence that the required blighting factors existed in the area so designated (but not necessarily in the particular property to be

New matter indicated by italics - deletions by strikeout
acquired) at the time of the designation under item (ii) or at any time thereafter; and (iv) prove by a preponderance of the evidence at least one of the following:

   (A) that it has entered into an express written agreement in which a private person or entity agrees to undertake a development project within the blighted area that specifically details the reasons for which the property or rights in that property are necessary for the development project;

   (B) that the exercise of eminent domain power and the proposed use of the property by the condemning authority are consistent with a regional plan that has been adopted within the past 5 years in accordance with Section 5-14001 of the Counties Code or Section 11-12-6 of the Illinois Municipal Code or with a local land resource management plan adopted under Section 4 of the Local Land Resource Management Planning Act; or

   (C) that (1) the acquired property will be used in the development of a project that is consistent with the land uses set forth in a comprehensive redevelopment plan prepared in accordance with the applicable statute authorizing the condemning authority to exercise the power of eminent domain and is consistent with the goals and purposes of that comprehensive redevelopment plan, and (2) an enforceable written agreement, deed restriction, or similar encumbrance has been or will be executed and recorded against the acquired property to assure that the project and the use of the property remain consistent with those land uses, goals, and purposes for a period of at least 40 years, which execution and recording shall be included as a requirement in any final order entered in the condemnation proceeding.

The existence of an ordinance, resolution, or other official act designating an area as blighted is not prima facie evidence of the existence of blight. A finding by the court in a condemnation proceeding that a property or area has not been proven to be blighted does not apply to any other case or undermine the designation of a blighted area or conservation area or the determination of the existence of blight for any other purpose.
or under any other statute, including without limitation under the Tax Increment Allocation Redevelopment Act (Article 11, Division 74.4 of the Illinois Municipal Code).

Any challenge to the existence of blighting factors alleged in a complaint to condemn under this subsection shall be raised within 6 months of the filing date of the complaint to condemn, and if not raised within that time the right to challenge the existence of those blighting factors shall be deemed waived.

(e) If the exercise of eminent domain authority is to acquire property for private ownership or control and if the primary purpose of the acquisition is one of the purposes specified in item (iii) of this subsection and the condemning authority elects to proceed under this subsection, then the condemning authority must prove by a preponderance of the evidence that: (i) the acquisition of the property is necessary for a public purpose; (ii) an enforceable written agreement, deed restriction, or similar encumbrance has been or will be executed and recorded against the acquired property to assure that the project and the use of the property remain consistent with the applicable purpose specified in item (iii) of this subsection for a period of at least 40 years, which execution and recording shall be included as a requirement in any final order entered in the condemnation proceeding; and (iii) the acquired property will be one of the following:

(1) included in the project site for a residential project, or a mixed-use project including residential units, where not less than 20% of the residential units in the project are made available, for at least 15 years, by deed restriction, long-term lease, regulatory agreement, extended use agreement, or a comparable recorded encumbrance, to low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act;

(2) used primarily for public airport, road, parking, or mass transportation purposes and sold or leased to a private party in a sale-leaseback, lease-leaseback, or similar structured financing;

New matter indicated by italics - deletions by strikeout
(3) owned or used by a public utility or electric cooperative for utility purposes;
(4) owned or used by a railroad for passenger or freight transportation purposes;
(5) sold or leased to a private party that operates a water supply, waste water, recycling, waste disposal, waste-to-energy, or similar facility;
(6) sold or leased to a not-for-profit corporation whose purposes include the preservation of open space, the operation of park space, and similar public purposes;
(7) used as a library, museum, or related facility, or as infrastructure related to such a facility;

(9) a historic resource, as defined in Section 3 of the Illinois State Agency Historic Resources Preservation Act, a landmark designated as such under a local ordinance, or a contributing structure within a local landmark district listed on the National Register of Historic Places, that is being acquired for purposes of preservation or rehabilitation.

(f) If the exercise of eminent domain authority is to acquire property for public ownership and private control and if the primary purpose of the acquisition is one of the purposes specified in item (iii) of this subsection and the condemning authority elects to proceed under this subsection, then the condemning authority must prove by a preponderance of the evidence that: (i) the acquisition of the property is necessary for a public purpose; (ii) the acquired property will be owned by the condemning authority or another governmental entity; and (iii) the acquired property will be controlled by a private party that operates a business or facility related to the condemning authority's operation of a university, medical district, hospital, exposition or convention center, mass transportation facility, or airport, including, but not limited to, a medical clinic, research and development center, food or commercial concession facility, social service facility, maintenance or storage facility, cargo

facility, rental car facility, bus facility, taxi facility, flight kitchen, fixed based operation, parking facility, refueling facility, water supply facility, and railroad tracks and stations.

(g) This Article is a limitation on the exercise of the power of eminent domain, but is not an independent grant of authority to exercise the power of eminent domain.

Article 15. Express Eminent Domain Power

Section 15-1-5. Grants of power in other statutes; this Act controls.

The State of Illinois and its various subdivisions and agencies, and all units of local government, school districts, and other entities, have the powers of condemnation and eminent domain that are (i) expressly provided in this Act or (ii) expressly provided in any other provision of law. Those powers may be exercised, however, only in accordance with this Act. If any power of condemnation or eminent domain that arises under any other provision of law is in conflict with this Act, this Act controls. This Section does not apply to the acquisition or damaging of property under the O'Hare Modernization Act.

Part 5. List of Eminent Domain Powers

Section 15-5-1. Form and content of list. The Sections of this Part 5 are intended to constitute a list of the Sections of the Illinois Compiled Statutes that include express grants of the power to acquire property by condemnation or eminent domain.

The list is intended to be comprehensive, but there may be accidental omissions and inclusions. Inclusion in the list does not create a grant of power, and it does not continue or revive a grant of power that has been amended or repealed or is no longer applicable. Omission from the list of a statute that includes an express grant of the power to acquire property by condemnation or eminent domain does not invalidate that grant of power.

possession of and to use the such property, if such possession and use, without the vesting of title, are sufficient to permit the plaintiff to proceed with the project until the final ascertainment of compensation. No however; no land or interests in land therein now or hereafter owned, leased, controlled, or operated and used by, or necessary for the actual operation of, any common carrier engaged in interstate commerce, or any other public utility subject to the jurisdiction of the Illinois Commerce Commission, shall be taken or appropriated under this Section hereunder by the State of Illinois, the Illinois Toll Highway Authority, the sanitary district, the St. Louis Metropolitan Area Airport Authority, or the Board of Trustees of the University of Illinois without first securing the approval of the Illinois Commerce Commission.

Except as otherwise provided in this Article hereinafter stated, the motion for taking shall state: (1) an accurate description of the property to which the motion relates and the estate or interest sought to be acquired in that property therein; (2) the formally adopted schedule or plan of operation for the execution of the plaintiff’s project; (3) the situation of the property to which the motion relates, with respect to the schedule or plan; (4) the necessity for taking the such property in the manner requested in the motion; and (5) if the property (except property described in Section 3 of the Sports Stadium Act; or property described as Site B in Section 2 of the Metropolitan Pier and Exposition Authority Act) to be taken is owned, leased, controlled, or operated and used by, or necessary for the actual operation of, any interstate common carrier or other public utility subject to the jurisdiction of the Illinois Commerce Commission, a statement to the effect that the approval of the such proposed taking has been secured from the Commission, and attaching to the such motion a certified copy of the order of the Illinois Commerce Commission granting such approval. Section 20-5-10 7-104. Preliminary finding of compensation.

New matter indicated by italics - deletions by strikeout
(a) The court shall fix a date, not less than 5 days after the filing of a such motion under Section 20-5-5, for the hearing on that motion thereon; and shall require due notice to be given to each party to the proceeding whose interests would be affected by the taking requested, except that any party who has been or is being served by publication and who has not entered his or her appearance in the proceeding need not be given notice unless the court so requires, in its discretion and in the interests of justice.

(b) At the hearing, if the court has not previously, in the same proceeding, determined that the plaintiff has authority to exercise the right of eminent domain, that the property sought to be taken is subject to the exercise of that such right, and that the such right of eminent domain is not being improperly exercised in the particular proceeding, then the court shall first hear and determine those such matters. The court's order on those matters thereon is appealable; and an appeal may be taken from that order therefrom by either party within 30 days after the entry of the such order, but not thereafter, unless the court, on good cause shown, extends the time for taking the such appeal. However, no appeal shall stay the further proceedings herein prescribed in this Act unless the appeal is taken by the plaintiff; or unless an order staying such further proceedings is entered either by the trial court or by the court to which the such appeal is taken.

(c) If the foregoing matters are determined in favor of the plaintiff and further proceedings are not stayed, or if further proceedings are stayed and the appeal results in a determination in favor of the plaintiff, the court shall hear the issues raised by the plaintiff's motion for taking. If the court finds that reasonable necessity exists for taking the property in the manner requested in the motion, then the court shall hear such evidence as it may consider necessary and proper for a preliminary finding of just compensation. In and, in its discretion, the court may appoint 3 competent and disinterested appraisers as agents of the court to evaluate the property to which the motion relates and to report their conclusions to the court; and their fees shall be paid by the plaintiff. The court shall then make a preliminary finding of the amount constituting just compensation.

(d) The court's preliminary finding of just compensation; and any deposit made or security provided pursuant to that finding thereto, shall not be evidence in the further proceedings to ascertain finally the just compensation to be paid; and shall not be disclosed in any manner to a jury impaneled in the such proceedings. If and if appraisers have been appointed, as herein authorized under this Article, their report shall not be evidence in those such further proceedings, but the appraisers may be called as witnesses by the parties to the proceedings.

Section 20-5-15 7-105. Deposit in court; possession.

(a) If the plaintiff deposits with the county treasurer money in the amount preliminarily found by the court to be just compensation, the court shall enter an order of taking, vesting in the plaintiff the fee simple title (or such lesser estate, interest, or easement, as may be required) to the property, if such vesting has been requested; and has been found necessary by the court, at a such date as the court considers proper, and fixing a date on which the plaintiff is authorized to take possession of and to use the property.

(b) If, at the request of any interested party and upon his or her showing of undue hardship or other good cause, the plaintiff's authority to take possession of the property is postponed for more than 10 days after the date of such vesting of title; or more than 15 days after the entry of the such order of taking when the order does not vest title in the plaintiff, then that party shall pay to the plaintiff a reasonable rental for the such property in an , the amount thereof to be determined by the court. Injunctive relief or any other appropriate judicial process or procedure shall be available to place the plaintiff in possession of the property on and after the date fixed by the court for the taking of such possession; and to prevent any unauthorized interference with such possession and the plaintiff's proper use of the property. The county treasurer shall refund to the plaintiff the amount deposited prior to October 1, 1973 that which is in excess of the amount preliminarily found by the court to be just compensation.

Section 95-10-20. The State Parks Act is amended by changing Section 2 as follows:

(20 ILCS 835/2) (from Ch. 105, par. 466)

Sec. 2. It shall be the policy of the State of Illinois to acquire a system of State parks which shall embody the following purposes and objectives:

(1) To preserve the most important historic sites and events which are connected with early pioneer or Indian history, so that such history of the Indians, explorers, missionaries and settlers may be preserved, not only as a tribute to those who made possible the building of the State of Illinois and of the Union, but also as a part of the education of present and future Illinois citizens.

(2) To set aside as public reservations those locations which have unusual scenic attractions caused by geologic or topographic formations, such as canyons, gorges, caves, dunes, beaches, moraines, palisades, examples of Illinois prairie, and points of scientific interest to botanists and naturalists. These areas should be large in size and whenever practicable shall be not less than 1,000 acres in extent. However, smaller areas may be acquired wherever conditions do not warrant the acquisition of the larger acreage.

(3) To preserve large forested areas and marginal lands along the rivers, small water courses, and lakes for a recreation use different from that given by the typical city park, and so that these tracts may remain unchanged by civilization, so far as possible, and be kept for future generations. Such areas also, should be acquired in units of 1,000 acres or more and may be available as fish and game preserves. However, smaller areas may be acquired wherever conditions do not warrant the acquisition of the larger acreage.

(4) To connect these parks with each other by a system of scenic parkways with widths varying from 100 to 1,000 feet, as a supplement to and completion of the State highway system. Where the present State
highway routes may serve this purpose, their location, alignment and design should be studied with this plan in view. At suitable locations along these highways, pure water supplies and shelters and comfort facilities of attractive design may be installed for the convenience of the public.

The Department of Natural Resources is authorized in behalf of the State of Illinois to accept by donation or bequest, to purchase or acquire by condemnation proceedings in the manner provided for the exercise of the power of eminent domain under the Eminent Domain Act Article VII of the Code of Civil Procedure, or by contract for deed payable over a period of time not to exceed 10 years, or in any other legal manner, the title to all such lands, waters or regions, and the easements appurtenant or contributory thereto, which shall be in accord with such policy in respect to a system of State parks, for the purpose of which the General Assembly may make an appropriation. The Department shall not exercise its powers of condemnation until it has used reasonable good faith efforts to acquire such property before filing a petition for condemnation and may thereafter use such powers when it determines that such condemnation of property rights is necessary to avoid unreasonable delay or economic hardship to the progress of activities carried out in the exercise of powers granted under this Act. After June 30, 1985, the Department shall not exercise its power of condemnation for a project which does not receive State or U.S. Government funding. Any resolution authorizing the issuance of such notes shall describe the project to be undertaken and shall specify the principal amount, rate of interest (not exceeding the maximum rate authorized by the Bond Authorization Act, as amended at the time of the making of the contract,) and maturity date, but not to exceed 5 years from date of issue, and such other terms as may be specified in such resolution; however, time of payment of any such notes may be extended for a period of not exceeding 3 years from the maturity date thereof.

The Authority may provide for the registration of the notes in the name of the owner either as to principal alone, or as to both principal and interest, on such terms and conditions as the Authority may determine by the resolution authorizing their issue. The notes shall be issued from time to time by the Authority as funds are borrowed, in the manner the Authority may determine. Interest on the notes may be made payable semiannually, annually or at maturity. The notes may be made redeemable, prior to maturity, at the option of the Authority, in the manner and upon the terms fixed by the resolution authorizing their issuance. The notes may be executed in the name of the Authority by the Chairman of the Authority or by any other officer or officers of the Authority as the Authority by resolution may direct, shall be attested by the Secretary or such other officer or officers of the Authority as the Authority may by resolution direct, and be sealed with the Authority's corporate seal. the Authority from the project to be undertaken with the proceeds of the notes and shall be payable solely from such income and revenue and from the proceeds to be derived from the sale of any revenue bonds for permanent financing authorized to be issued under Sections 5 and 6 of this Act, and from the property acquired with the proceeds of the notes.

Contemporaneously with the issue of revenue bonds as provided by this Act, all interim notes, even though they may not then have matured, shall be paid, both principal and interest to date of payment, from the funds derived from the sale of revenue bonds for the permanent financing and such interim notes shall be surrendered and canceled.

2. The Authority, in order further to secure the payment of the interim notes, is, in addition to the foregoing, authorized and empowered to make any other or additional covenants, terms and conditions not inconsistent with the provisions of subparagraph (a) of this Section, and do any and all acts and things as may be necessary or convenient or desirable in order to secure payment of its interim notes, or in the discretion of the Authority, as will tend to make the interim notes more acceptable to lenders, notwithstanding that the covenants, acts or things may not be enumerated herein; however, nothing contained in this subparagraph shall authorize the Authority to secure the payment of the interim notes out of property or facilities, other than the facilities acquired with the proceeds of the interim notes, and any net income and revenue derived from the facilities and the proceeds of revenue bonds as hereinabove provided.

(e) Convey property, without charge, to the State or to the appropriate corporate agency of the State or to any public community college district board if and when all debts which have been secured by the income from such property have been paid.

(f) Enter into contracts regarding any matter connected with any corporate purpose within the objects and purposes of this Act.

(g) Employ agents and employees necessary to carry out the duties and purposes of the Authority.

(i) Have and use a common seal and alter the same at pleasure.

The Interim notes shall constitute State debt of the State of Illinois within the meaning of any of the provisions of the Constitution and statutes of the State of Illinois.

No member, officer, agent or employee of the Authority, nor any other person who executes interim notes, shall be liable personally by reason of the issuance thereof.

With respect to instruments for the payment of money issued under this Section either before, on, or after the effective date of this amendatory Act of 1989, it is and always has been the intention of the General Assembly (i) that the Omnibus Bond Acts are and always have been supplementary grants of power to issue instruments in accordance with the Omnibus Bond Acts, regardless of any provision of this Act that may appear to be or to have been more restrictive than those Acts, (ii) that the provisions of this Section are not a limitation on the supplementary authority granted by the Omnibus Bond Acts, and (iii) that instruments issued under this Section within the supplementary authority granted by the Omnibus Bond Acts are not invalid because of any provision of this Act that may appear to be or to have been more restrictive than those Acts.

Section 95-10-50. The Local Government Property Transfer Act is amended by changing Sections 2 and 4 as follows:

(50 ILCS 605/2) (from Ch. 30, par. 157)

Sec. 2. If the territory of any municipality shall be wholly within, coextensive with, or partly within and partly without the corporate limits of any other municipality, or if the municipality is a school district and the

territory of the school district is adjacent to the boundaries of any other school district, and the first mentioned municipality (herein called "transferee municipality"), shall by ordinance declare that it is necessary or convenient for it to use, occupy or improve any real estate held by the last mentioned municipality (herein called the "transferor municipality") in the making of any public improvement or for any public purpose, the corporate authorities of the transferor municipality shall have the power to transfer all of the right, title and interest held by it immediately prior to such transfer, in and to such real estate, whether located within or without either or both of said municipalities, to the transferee municipality upon such terms as may be agreed upon by the corporate authorities of both municipalities, in the manner and upon the conditions following:

(a) If such real estate shall be held by the transferor municipality without restriction, the said municipality shall have power to grant or convey such real estate or any portion thereof to the transferee municipality upon such terms as may be agreed upon by the corporate authorities of both municipalities, by an instrument of conveyance signed by the mayor, president or other chief executive of the transferor municipality, attested by its clerk or secretary and sealed with its corporate seal, all duly authorized by a resolution passed by the vote of 2/3 of the members of the legislative body of the transferor municipality then holding office, and duly recorded in the office of the recorder in the county in which said real estate is located. Provided, however, that any municipality may, in the manner above provided, convey real estate to a Public Building Commission organized and existing pursuant to "An Act to authorize the creation of Public Building Commissions and to define their rights, powers and duties", approved July 5, 1955, as amended, when duly authorized by a majority vote of the members of the legislative body of such municipality then holding office whenever provision is made in the conveyance for a reverter of the real estate to such transferor municipality. The transferee municipality shall thereafter have the right to use, occupy or improve the real estate so transferred for any municipal or public purpose and shall hold said real estate by the same right, title and interest by which
the transferor municipality held said real estate immediately prior to said transfer.

(b) If any such real estate shall be held by the transferor municipality subject to or limited by any restriction, and the transfeeree municipality shall desire the use, occupation or improvement thereof free from said restriction, the transferor municipality (or the transfeeree municipality, in the name of and for and on behalf of the transferor municipality, but without subjecting the transferor municipality to any expense without the consent of its corporate authorities), shall have the power to secure from its grantor, or grantors, their heirs, successors, assigns, or others, a release of any or all of such restrictions upon such terms as may be agreed upon between either of said municipalities and the person or persons entitled to the benefit of said restrictions. Upon the recording of any such release the transferor municipality shall then have the powers granted in paragraph (a) of this Section.

(c) If either the transferor municipality or the transfeeree municipality shall be unable to secure a release of any restriction as above provided, the transferor municipality (or the transfeeree municipality in the name of and for and in behalf of the transferor municipality, but without subjecting the transferor municipality to any expense without the consent of its corporate authorities), shall have the power to file in any circuit court a petition for the purpose of removing or releasing said restriction and determining the compensation, if any, to be paid in consequence thereof to the owner or owners of said real estate, for any right, title or interest which they or any of them may or might have in and to any such real estate arising out of said restriction. If any compensation shall be awarded, the same shall be measured by the actual damage, if any, to the owner or owners of said real estate, resulting from the removal or release of said restriction, and shall be determined as of the date of the filing of said petition. Upon the payment of such compensation as may be awarded, if any, the transferor municipality shall have the powers granted in paragraph (a) of this Section, and said transferor municipality shall grant and convey the said real estate to the transfeeree municipality upon the terms and

conditions theretofore agreed upon by the said municipalities and in the manner provided for in paragraph (a) of this Section.

(d) If the transferor municipality shall hold an easement in any real estate for a particular purpose different from the purpose for which the transferee municipality shall desire to use, occupy or improve said real estate, the transferor municipality (or the transferee municipality in the name of and for and in behalf of the transferor municipality, but without subjecting the transferor municipality to any expense without the consent of its corporate authorities), shall have the power to file in any circuit court a petition for the purpose of terminating said easement and securing the right to use, occupy and improve any such real estate for the purpose or purposes set forth in said petition, and for determining the compensation, if any, to be paid in consequence thereof to the owner, or owners of said real estate. If any compensation shall be awarded, the same shall be measured by the actual damage, if any, to the owner or owners of said real estate, resulting from the termination of the said easement and the granting of the right sought in said petition, and shall be determined as of the date of the filing of said petition. Upon the payment of such compensation as may be awarded, if any, the easement held by the transferor municipality shall in the final order entered in such proceeding be declared terminated and the right of the transferee municipality in said real estate shall be declared. If the transferee municipality shall desire to use, occupy or improve said real estate for the same purpose authorized by the easement held by the transferor municipality, the transferor municipality shall have the power to transfer said easement to the transferee municipality by instrument of conveyance as provided for in paragraph (a).

(e) If such real estate shall have been acquired or improved by the transferor municipality under the Local Improvements Act, or under the said Act in conjunction with any other Act, and the times fixed for the payment of all installments of the special assessments therefor have not elapsed at the time the transferor and transferee municipalities shall have reached an agreement for the transfer of said real estate, the transferee municipality shall deposit with the transferor municipality to be placed in the special assessment funds authorized to be collected to pay the cost of

acquiring or improving said real estate, an amount sufficient to pay (1) the installments of said special assessments not due and payable at the time of the agreement for said transfer, and (2) the amounts paid in advance by any property owner on account of said special assessments, which, had such amounts not been paid in advance, would have been due and payable after the date of such agreement, and the transferor municipality shall upon the receipt of such amount cause orders to be entered in the courts in which said special assessments were confirmed, cancelling the installments becoming due and payable after the said time at which the transferor and transferee municipalities shall have reached an agreement for the transfer of said real estate, and releasing the respective lots, tracts, and parcels of real estate assessed in any such proceedings from the installments of the said assessments in this paragraph authorized to be cancelled. The transferor municipality shall after the entry of such orders of cancellation refund to any property owner who has paid the same in advance, any amounts which otherwise would have been due and payable after the said time at which the transferor and transferee municipalities shall have reached an agreement for the transfer of said real estate. Upon the entry of such orders of cancellation the transferor municipality shall then have the powers granted in paragraph (a) of this Section.

(f) The procedure, for the removal of any restriction upon the real estate of the transferor municipality, for the termination of any easement of the transferor municipality in said real estate and the declaration of another or different right in the transferee municipality in said real estate, and for the ascertainment of just compensation therefor, shall be as near as may be like that provided for the exercise of the power of eminent domain under the Eminent Domain Act Article VII of the Code of Civil Procedure.

(g) If any property shall be damaged by the release or removal of any restrictions upon, or the termination of any easement in, or the granting of a new right in any real estate held by the transferor municipality, the same shall be ascertained and paid as provided by law.

If such real estate is held by the transferor municipality subject to or limited by any restriction, the State of Illinois, by the Secretary of Transportation or by the Director of any state department, or the Chairman or President of any commission, board or agency of the State vested by law with the power, duty or function of the State Government for which said property is to be used by the State after its acquisition, may remove such restriction through purchase, agreement or condemnation. Any such condemnation proceedings shall be brought and maintained by the State of Illinois and shall conform, as nearly as may be, with the procedure provided for the exercise of the power of eminent domain under the Eminent Domain Act Article VII of the Code of Civil Procedure.

Section 95-10-60. The Township Code is amended by changing Section 115-55 as follows:

(60 ILCS 1/115-55)

Sec. 115-55. (a) The board may acquire by gift, legacy, purchase, condemnation in the manner provided for the exercise of the right of eminent domain under the Eminent Domain Act Article VII of the Code of Civil Procedure and except as otherwise provided in this subsection, lease, agreement, or otherwise the fee or any lesser right or interest in real property that is open land and may hold that property with or without public access for open space, scenic roadway, pathway, outdoor recreation, or other conservation benefits. No township in a county having a population of more than 150,000 but not more than 250,000 has authority under this Article to acquire property by condemnation, and no other township has authority under this Article to acquire by condemnation (i) property that is used for farming or agricultural purposes; (ii) property that is situated within the corporate limits of a municipality or contiguous to one or more municipalities unless approval to acquire the property by condemnation is obtained under Section 115-30 or 115-35; (iii) property upon which development has commenced; or (iv) property owned by a religious organization, church, school, or charitable organization exempt from federal taxation under Section 501(c)(3) of the Internal Revenue Code of 1986 or similar provisions of any successor law, or any other organization controlled by or affiliated with such a religious organization, church, school, or charitable organization.

(b) For purposes of this Section:

(1) "Development" of property is deemed to have commenced if (i) at least 30 days before the filing of a petition under Section 115-10, an application for a preliminary plan or preliminary planned unit development has been filed with the applicable governmental entity or, if neither is required, a building permit has been obtained at least 30 days before the filing of a petition under Section 115-10; (ii) mass grading of the property has commenced; and (iii) within 180 days of the date the open space plan is recommended for approval by the board under Section 115-
5 or by petition of the voters under Section 115-20, 115-30, or 115-35, the installation of public improvements has commenced.

(2) "Contiguous" means contiguous for purposes of annexation under Article 7 of the Illinois Municipal Code.

(3) Real property is deemed used for farming or agricultural purposes if it is more than 10 acres in area and devoted primarily to (i) the raising and harvesting of crops, (ii) the feeding, breeding, and management of livestock, (iii) dairying, or (iv) any other agricultural or horticultural use or combination of those uses, with the intention of securing substantial income from those activities, and has been so used for the 3 years immediately preceding the filing of a condemnation action. Real property used for farming or agricultural purposes includes land devoted to and qualifying for payments or other compensation under a soil conservation program under an agreement with an agency of the federal government and also includes the construction and use of dwellings and other buildings customarily associated with farming and agricultural uses when associated with those uses.

(c) If a township's acquisitions of open land, or interests in open land when combined with other lands in the township held for open space purposes by other governmental entities, equals 30% of the total acreage of the township, then the township may not acquire additional open land by condemnation.

(d) Any parcel of land that is included in an open space plan adopted by a township that has not been acquired by the township under this Section within 3 years, or within 2 years with respect to existing open space programs, after the later of (i) July 29, 1988, or (ii) the date of the passage of the referendum may not thereafter be acquired by condemnation by the township under this Section, except that if an action in condemnation to acquire the parcel is filed under this Section within that 3 year or 2 year period, as applicable, the parcel may be acquired by condemnation by the township notwithstanding the fact that the condemnation action may not be concluded within the 3 year or 2 year period, as applicable. Notwithstanding the foregoing, if a parcel of land...
cannot be acquired by condemnation under subsection (a) because of its use for farming or agricultural purposes, the 3 year or 2 year period, as applicable, shall be tolled until the date the parcel ceases to be used for farming or agricultural purposes. Notwithstanding the foregoing, the fee or any lesser right or interest in real property that is open land may be acquired after the 3 year or 2 year period, as applicable, by any means authorized under subsection (a) other than condemnation.

Sec. 11-71-10. In addition to the other powers granted in this Division, the corporate authorities may lease the space over any municipally owned parking lot to any person, firm or corporation if the corporate authorities first determine by resolution that such lease is in the best public interest and stating the reasons therefor. Such lease shall be granted by an ordinance and shall not exceed 99 years in length.

The lease shall specify the purpose for which the leased space may be used. If the purpose is to erect in the space a building or other structure attached to the lot, the lease shall contain a reasonably accurate description of the building to be erected and of the manner in which it shall be imposed upon or around the lot. In such case, the lease shall provide for use by the lessee of such areas of the surface of such lot as may be essential for the support of the building or other structure to be erected as well as for the connection of essential public or private utilities to such building or structure.

Any building erected in the space leased shall be operated, as far as is practicable, separately from the parking lot owned by the municipality.

Such lease shall be signed in the name of the municipality by the mayor or president and shall be attested by the municipal clerk under the corporate seal. The lease shall also be executed by the lessee in such manner as may be necessary to bind him. If, in the judgment of the corporate authorities, the public interest requires that any building erected in the leased space be removed so that a street, alley, or public place may be restored to its original condition, the lessor municipality may condemn the lessee's interest in the leased space by proceeding in the manner provided for the exercise of the right of eminent domain under the Eminent Domain Act Article VII of the Code of Civil Procedure. After payment of such damages as may be fixed in the condemnation proceedings, the municipality may remove all buildings or other structures from the leased space and restore the buildings adjoining the leased space to their original condition.

Sec. 11-74.2-9. In exercising the power to acquire real estate as provided in this Division, the corporate authorities may proceed by gift, purchase or condemnation to acquire the fee simple title to all real property lying within a redevelopment area, including easements and reversionary interests in the streets, alleys and other public places lying within such area; if the property is to be obtained by condemnation, such power of condemnation may be exercised only when at least 85% of the land located within the boundaries of each plan has been acquired previously by the corporate authorities or private organization pursuant to the implementation of the plan through good faith negotiations and such negotiations are unsuccessful in acquiring the remaining land. If any such real property is subject to an easement the corporate authorities in their discretion, may acquire the fee simple title to such real property subject to such easement if they determine that such easement will not interfere with carrying out the redevelopment plan. If any such real property is already devoted to a public use it may nevertheless be acquired, provided that no property belonging to the United States of America, the State of Illinois or any municipality may be acquired without the consent of such governmental unit and that no property devoted to a public use belonging to a corporation subject to the jurisdiction of the Illinois Commerce Commission may be acquired without the approval of the Illinois Commerce Commission. In carrying out the provisions of this Division, the corporate authorities are vested with the power to exercise the right of eminent domain. Condemnation proceedings instituted by the corporate
authorities shall be in the manner provided for the exercise of the right of eminent domain under the Eminent Domain Act Article VII of the Code of Civil Procedure, as heretofore or hereafter amended. No power of condemnation shall be used to acquire a site for a commercial project as defined in paragraph (c) of Section 11-74.2-2.

Nothing in this Section shall be construed to exclude property in a final redevelopment plan from taxation.

Eminent Domain Act Article VII of the Code of Civil Procedure, as heretofore and hereafter amended.

The fair cash market value of an existing waterworks and sewerage system, or portion thereof, acquired under this Division 139, which existing system is a special use property as defined in Article VII of the "Code of Civil Procedure", approved August 19, 1981, as heretofore or hereafter amended, may be determined in accordance with the following valuation principles.

The fair cash market value of existing facilities, whether real or personal, may be determined by utilizing the net earnings which are attributable to the facilities in question for the preceding fiscal year on the date the condemnation petition is filed, over the remaining useful life of the facilities. Said earnings may be capitalized under an annuity capitalization method and discounted to present value. The fair cash market value of any extensions, additions or improvements of the existing system made subsequent to the date that the condemnation petition is filed may be determined by utilizing the probable net earnings attributable to the facilities in question over the remaining life of the facilities. The probable earnings may be capitalized under an annuity capitalization method and discounted to present value.

The value of the land and easements upon which the facilities are situated may be determined in accordance with the foregoing principles, giving due account to the special use of the property for water and sewerage purposes.

**Eminent Domain Act** Article VII of the Code of Civil Procedure, approved August 19, 1981, as amended, or otherwise as to any real estate, lands, riparian rights or estate, or other property situated outside of such district, but shall only have power to acquire the same by gift, legacy, grant or purchase, and such district shall have the same control of and power over lands so acquired without the district as over parks, boulevards and driveways within such district.

(2) In addition to the powers granted in paragraph (1) of subsection (b), a park district located in more than one county, the majority of its territory located in a county over 450,000 in population and none of its territory located in a county over 1,000,000 in population, shall have condemnation power in the manner provided for the exercise of the power of eminent domain under the **Eminent Domain Act** Article VII of the Code of Civil Procedure, approved August 19, 1981, as amended, or as otherwise granted by law as to any and all real estate situated up to one mile outside of such district which is not within the boundaries of another park district.

(c) To acquire by gift, legacy or purchase any personal property necessary for its corporate purposes provided that all contracts for supplies, materials or work involving an expenditure in excess of $20,000 shall be let to the lowest responsible bidder, considering conformity with specifications, terms of delivery, quality, and serviceability, after due advertisement, excepting contracts which by their nature are not adapted to award by competitive bidding, such as contracts for the services of individuals possessing a high degree of professional skill where the ability or fitness of the individual plays an important part, contracts for the printing of finance committee reports and departmental reports, contracts for the printing or engraving of bonds, tax warrants and other evidences of indebtedness, contracts for utility services such as water, light, heat, telephone or telegraph, contracts for the use, purchase, delivery, movement, or installation of data processing equipment, software, or services and telecommunications and interconnect equipment, software, or services, contracts for duplicating machines and supplies, contracts for goods or services procured from another governmental agency, purchases

All competitive bids for contracts involving an expenditure in excess of $20,000 must be sealed by the bidder and must be opened by a member or employee of the park board at a public bid opening at which the contents of the bids must be announced. Each bidder must receive at least 3 days notice of the time and place of the bid opening.

For purposes of this subsection, "due advertisement" includes, but is not limited to, at least one public notice at least 10 days before the bid date in a newspaper published in the district or, if no newspaper is published in the district, in a newspaper of general circulation in the area of the district.

(e) To prescribe such fines and penalties for the violation of ordinances as it shall deem proper not exceeding $1,000 for any one offense, which fines and penalties may be recovered by an action in the name of such district in the circuit court for the county in which such violation occurred. The park district may also seek in the action, in addition to or instead of fines and penalties, an order that the offender be required to make restitution for damage resulting from violations, and the court shall grant such relief where appropriate. The procedure in such actions shall be the same as that provided by law for like actions for the violation of ordinances in cities organized under the general laws of this State, and offenders may be imprisoned for non-payment of fines and costs in the same manner as in such cities. All fines when collected shall be paid into the treasury of such district.

Fees charged non-residents of such district need not be the same as fees charged to residents of the district. Charging fees or deriving revenue from the facilities and recreational programs shall not affect the right to assert or utilize any defense or immunity, common law or statutory, available to the districts or their employees.

(i) To make contracts for a term exceeding one year, but not to exceed 3 years, notwithstanding any provision of this Code to the contrary, relating to: (1) the employment of a park director, superintendent, administrator, engineer, health officer, land planner, finance director, attorney, police chief, or other officer who requires technical training or knowledge; (2) the employment of outside professional consultants such as engineers, doctors, land planners, auditors, attorneys, or other professional consultants who require technical training or knowledge; and (3) the provision of data processing equipment and services. In case of exchange of property for property privately owned, three disinterested appraisers shall be appointed to appraise the value of the property to be exchanged, and such exchange shall not be made unless the property to be received by the Authority is equal or greater in value than the property to be exchanged therefor, or if less than such value, that the difference shall be paid in money.

In addition to the foregoing, and for the purpose of facilitating the development and construction of housing, housing authorities may, with the approval of the Department of Commerce and Economic Opportunity Community Affairs, enter into contracts and agreements for the sale or lease of real property acquired by the Authority through the use of the grant hereunder, and may sell or lease such property to (1) housing corporations operating under "An Act in relation to housing," approved July 12, 1933, as amended; (2) neighborhood redevelopment corporations operating under the "Neighborhood Redevelopment Corporation Law," approved July 9, 1941; (3) insurance companies operating under Article VIII of the Illinois Insurance Code; (4) non-profit corporations organized for the purpose of constructing, managing and operating housing projects and the improvement of housing conditions, including the sale or rental of housing units to persons in need thereof; or (5) to any other individual, association or corporation, including bona fide housing cooperatives, desiring to engage in a development or redevelopment project. requirement of the bond may be waived by the Department of Commerce and Economic Opportunity Community Affairs if it is satisfied of the financial ability of the purchaser or lessee to complete such development or redevelopment in accordance with the presented plan. Any such property may be sold pursuant to this section for any legal consideration in an amount to be approved by the Department of Commerce and Economic Opportunity Community Affairs. Subject to the approval of the Department of Commerce and Economic Opportunity Community Affairs, a housing authority may pay to any non-profit corporation of the character described in this section from grants made available from state funds, such sum of money which, when added to the value of the land so sold or leased to such non-profit corporation and the value of other assets of such non-profit corporation available for use in the project, will enable such non-profit corporation to obtain Federal Housing Administration insured construction mortgages. Any such authority may also sell, transfer, convey or assign to any such non-profit corporation any personal property, including building materials and supplies, as it deems necessary to facilitate the completion of the development or redevelopment by such non-profit corporation.

Sec. 12. Upon approval of the determination as provided in the preceding Section, the Department, as agent for the municipality, may proceed to acquire by gift, purchase or condemnation the fee simple title to all real property lying within the area included in the redevelopment project, including easements and reversionary interests in the streets, alleys and other public places lying within such area. If any such real property is subject to an easement the Department, in its discretion, may acquire the fee simple title to such real property subject to such easement if it determines that such easement will not interfere with the consummation of a redevelopment plan. If any such real property is already devoted to a public use it may nevertheless be acquired, provided that no property belonging to the United States of America, the State of Illinois or any municipality may be acquired without the consent of such governmental unit and that no property devoted to a public use belonging to a corporation subject to the jurisdiction of the Illinois Commerce Commission may be acquired without the approval of the Illinois Commerce Commission. Each Department, as agent for the municipality,
is hereby vested with the power to exercise the right of eminent domain. Condemnation proceedings instituted hereunder shall be brought by and in the name of the municipality and shall be in all respects in the manner provided for the exercise of the right of eminent domain under the Eminent Domain Act Article VII of the Code of Civil Procedure, as heretofore or hereafter amended.

Any determination to acquire a particular slum or blighted area, or any other area which may constitute a redevelopment project, as herein defined, heretofore made by a land clearance commission pursuant to the "Blighted Areas Redevelopment Act of 1947," approved July 2, 1947, as amended, and heretofore approved by the State Housing Board and the governing body of the municipality, shall be sufficient to authorize acquisition by the Department, as agent for the municipality, of all or any of the real property included in such area.

Such notice shall contain a description of the conservation area, the details of the conservation plan relating to the property which the purchaser shall undertake in writing to carry out and such undertakings as the Department may deem necessary to obligate the purchaser, his successors and assigns (1) to use the property for the purposes designated in the conservation plan, (2) to commence and complete the improvement, repair, rehabilitation, or construction of the improvements within the periods of time which the Department fixes as reasonable and (3) to comply with such other conditions as are necessary to carry out the purposes of the Act. The Department may negotiate with any persons for proposals for the purchase, lease or other transfer of any real property acquired pursuant to this Act and shall consider all redevelopment and rehabilitation proposals submitted to it and the financial and legal ability of the persons making such proposals to carry them out. The Department, as agent for the municipality, at a public meeting, notice of which shall have been published in a newspaper of general circulation within the municipality at least 15 but not more than 30 days prior to such meeting, may accept such proposals as it deems to be in the public interest and in furtherance of the purposes of this Act; provided that, all sales or leases of real property shall be made at not less than fair use value.

(d) When the title to real property is held in joint tenancy by 2 or more persons or in tenancy by the entirety, and payment of compensation is made to any county treasurer for the taking or damaging of that real property in the manner provided for the exercise of the right of eminent domain under the Eminent Domain Act Article VII of the Code of Civil Procedure, or pursuant to any Act of the General Assembly now or hereafter enacted for the exercise of the sovereign power of eminent domain, the right of survivorship to the title in and to that real property shall be transferred to the money so paid to and in the hands of the county treasurer. However, upon application to the county treasurer holding the money by any joint tenant for his proportionate share thereof, or by any tenant by the entirety for a one-half share thereof, he shall receive the same from the county treasurer without the consent or approval of any other joint tenant, and the person making the application shall have no survivorship rights in the balance remaining in the hands of the county treasurer after deducting therefrom his proportionate share.

Furthermore, any non-transferable United States Savings Bond, debenture, note or other obligation of the United States of America therein named shall, upon the death of the designated person, if the bond or other
obligation is now or hereafter issued made payable to a designated person and upon his death to another person then outstanding, become the property of and be payable to the other person therein named.
