(3) He or she will not receive in the same academic year a Monetary Award Program grant under Section 35 of this Act.

(4) He or she is from a family that had an adjusted gross income, listed on the Free Application for Federal Student Aid, of less than $200,000 for the 2005 taxable year.

(b) All grants under this Section are applicable only to tuition and mandatory fee costs. The Commission shall determine the grant amount for each student, which amount must not exceed $500 per year or $250 per semester and must not exceed tuition and mandatory fees net of State and federal financial aid.

(c) Grants under this Section may be awarded only for the Fall 2006 and Spring 2007 semesters.

(d) The Commission shall pay Monetary Award Program Plus grant awards to eligible students by application date, on a first-come, first-served basis.

(e) The Commission, in determining the number of Monetary Award Program Plus grants to be awarded, shall utilize whatever appropriate data is available and shall notify applicants that grant assistance is contingent upon the availability of appropriated funds.

AN ACT concerning public employee benefits.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Illinois Pension Code is amended by changing Sections 14-108.3, 15-155, 15-168.1, 16-128, 16-158, and 16-169.1 as follows:

(40 ILCS 5/14-108.3)
Sec. 14-108.3. Early retirement incentives.
(a) To be eligible for the benefits provided in this Section, a person must:

(1) be a member of this System who, on any day during June, 2002, is (i) in active payroll status in a position of employment with a department and an active contributor to this System with respect to that employment, and terminates that employment before the retirement annuity under this Article begins, or (ii) on layoff status from such a position with a right of re-employment or recall to service, or (iii) receiving benefits under Section 14-123, 14-123.1 or 14-124, but only if the member has not been receiving those benefits for a continuous period of more than 2 years as of the date of application;

(2) not have received any retirement annuity under this Article beginning earlier than August 1, 2002;

(3) file with the Board on or before December 31, 2002 a written application requesting the benefits provided in this Section;

(4) terminate employment under this Article no later than December 31, 2002 (or the date established under subsection (d), if applicable);

(5) by the date of termination of service, have at least 8 years of creditable service under this Article, without the use of any creditable service established under this Section;

New matter indicated by italics - deletions by strikeout
(6) by the date of termination of service, have at least 5 years of membership service earned while an employee under this Article, which may include military service for which credit is established under Section 14-105(b), service during the qualifying period for which credit is established under Section 14-104(a), and service for which credit has been established by repaying a refund under Section 14-130, but shall not include service for which any other optional service credit has been established; and

(7) not receive any early retirement benefit under Section 16-133.3 of this Code.

(b) An eligible person may establish up to 5 years of creditable service under this Article, in increments of one month, by making the contributions specified in subsection (c). In addition, for each month of creditable service established under this Section, a person's age at retirement shall be deemed to be one month older than it actually is.

The creditable service established under this Section may be used for all purposes under this Article and the Retirement Systems Reciprocal Act, except for the computation of final average compensation under Section 14-103.12 or the determination of compensation under this or any other Article of this Code.

The age enhancement established under this Section may not be used to enable any person to begin receiving a retirement annuity calculated under Section 14-110 before actually attaining age 50 (without any age enhancement under this Section). The age enhancement established under this Section may be used for all other purposes under this Article (including calculation of a proportionate annuity payable by this System under the Retirement Systems Reciprocal Act), except for purposes of the level income option in Section 14-112, the reversionary annuity under Section 14-113, and the required distributions under Section 14-121.1.

The age enhancement established under this Section may be used in determining benefits payable under Article 16 of this Code under the Retirement Systems Reciprocal Act, if the person has at least 5 years of service credit in the Article 16 system that was earned while participating in...
in that system as a teacher (as defined in Section 16-106) employed by a
department (as defined in Section 14-103.04). Age enhancement
established under this Section shall not otherwise be used in determining
benefits payable under other Articles of this Code under the Retirement
Systems Reciprocal Act.

(c) For all creditable service established under this Section, a
person must pay to the System an employee contribution to be determined
by the System, based on the member's rate of compensation on June 1,
2002 (or the last date before June 1, 2002 for which a rate can be
determined) and the retirement contribution rate in effect on June 1, 2002
for the member (or for members with the same social security and
alternative formula status as the member).

If the member receives a lump sum payment for accumulated
vacation, sick leave and personal leave upon withdrawal from service, and
the net amount of that lump sum payment is at least as great as the amount
of the contribution required under this Section, the entire contribution
must be paid by the employee by payroll deduction. If there is no such
lump sum payment, or if it is less than the contribution required under this
Section, the member shall make an initial payment by payroll deduction,
equal to the net amount of the lump sum payment for accumulated
vacation, sick leave, and personal leave, and have the remaining amount
due treated as a reduction from the retirement annuity in 24 equal monthly
installments beginning in the month in which the retirement annuity takes
effect. The required contribution may be paid as a pre-tax deduction from
earnings. For federal and Illinois tax purposes, the monthly amount by
which the annuitant's benefit is reduced shall not be treated as a
contribution by the annuitant, but rather as a reduction of the annuitant's
monthly benefit.

(c-5) The reduction in retirement annuity provided in subsection (c)
of Section 14-108 does not apply to the annuity of a person who retires
under this Section. A person who has received any age enhancement or
creditable service under this Section may begin to receive an unreduced
retirement annuity upon attainment of age 55 with at least 25 years of

creditable service (including any age enhancement and creditable service established under this Section).

(d) In order to ensure that the efficient operation of State government is not jeopardized by the simultaneous retirement of large numbers of key personnel, the director or other head of a department may, for key employees of that department, extend the December 31, 2002 deadline for terminating employment under this Article established in subdivision (a)(4) of this Section to a date not later than April 30, 2003 by so notifying the System in writing by December 31, 2002.

(e) Notwithstanding Section 14-111, a person who has received any age enhancement or creditable service under this Section and who reenters service under this Article (or as an employee of a department under Article 16) other than as a temporary employee thereby forfeits that age enhancement and creditable service and is entitled to a refund of the contributions made pursuant to this Section.

(f) The System shall determine the amount of the increase in the present value of future benefits resulting from the granting of early retirement incentives under this Section and shall report that amount to the Governor and the Commission on Government Forecasting and Accountability on or after the effective date of this amendatory Act of the 93rd General Assembly and on or before November 15, 2004. Beginning with State fiscal year 2008, the increase reported under this subsection (f) shall be included in the calculation of the required State contribution under Section 14-131.

(g) In addition to the contributions otherwise required under this Article, the State shall appropriate and pay to the System an amount equal to $70,000,000 in State fiscal years 2004 and 2005.

(h) The Commission on Government Forecasting and Accountability (i) shall hold one or more hearings on or before the last session day during the fall veto session of 2004 to review recommendations relating to funding of early retirement incentives under this Section and (ii) shall file its report with the General Assembly on or before December 31, 2004 making its recommendations relating to funding of early retirement incentives under this Section; the

New matter indicated by italics - deletions by strikeout
Commission's report may contain both majority recommendations and minority recommendations. The System shall recalculate and recertify to the Governor by January 31, 2005 the amount of the required State contribution to the System for State fiscal year 2005 with respect to those incentives. The Pension Laws Commission (or its successor, the Commission on Government Forecasting and Accountability) shall determine and report to the General Assembly, on or before January 1, 2004 and annually thereafter through the year 2006, its estimate of (1) the annual amount of payroll savings likely to be realized by the State as a result of the early retirement of persons receiving early retirement incentives under this Section and (2) the net annual savings or cost to the State from the program of early retirement incentives created under this Section.

The System, the Department of Central Management Services, the Governor's Office of Management and Budget (formerly Bureau of the Budget), and all other departments shall provide to the Commission any assistance that the Commission may request with respect to its reports under this Section. The Commission may require departments to provide it with any information that it deems necessary or useful with respect to its reports under this Section, including without limitation information about (1) the final earnings of former department employees who elected to receive benefits under this Section, (2) the earnings of current department employees holding the positions vacated by persons who elected to receive benefits under this Section, and (3) positions vacated by persons who elected to receive benefits under this Section that have not yet been refilled.

(i) The changes made to this Section by this amendatory Act of the 92nd General Assembly do not apply to persons who retired under this Section on or before May 1, 1992.

(40 ILCS 5/15-155) (from Ch. 108 1/2, par. 15-155)
Sec. 15-155. Employer contributions.

New matter indicated by italics - deletions by strikeout
(a) The State of Illinois shall make contributions by appropriations of amounts which, together with the other employer contributions from trust, federal, and other funds, employee contributions, income from investments, and other income of this System, will be sufficient to meet the cost of maintaining and administering the System on a 90% funded basis in accordance with actuarial recommendations.

The Board shall determine the amount of State contributions required for each fiscal year on the basis of the actuarial tables and other assumptions adopted by the Board and the recommendations of the actuary, using the formula in subsection (a-1).

(a-1) For State fiscal years 2011 through 2045, the minimum contribution to the System to be made by the State for each fiscal year shall be an amount determined by the System to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of State fiscal year 2045. In making these determinations, the required State contribution shall be calculated each year as a level percentage of payroll over the years remaining to and including fiscal year 2045 and shall be determined under the projected unit credit actuarial cost method.

For State fiscal years 1996 through 2005, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments so that by State fiscal year 2011, the State is contributing at the rate required under this Section.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2006 is $166,641,900.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2007 is $252,064,100.

For each of State fiscal years 2008 through 2010, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments from the required State contribution for State fiscal year 2007, so that by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.
Beginning in State fiscal year 2046, the minimum State contribution for each fiscal year shall be the amount needed to maintain the total assets of the System at 90% of the total actuarial liabilities of the System.

Notwithstanding any other provision of this Section, the required State contribution for State fiscal year 2005 and for fiscal year 2008 and each fiscal year thereafter, as calculated under this Section and certified under Section 15-165, shall not exceed an amount equal to (i) the amount of the required State contribution that would have been calculated under this Section for that fiscal year if the System had not received any payments under subsection (d) of Section 7.2 of the General Obligation Bond Act, minus (ii) the portion of the State's total debt service payments for that fiscal year on the bonds issued for the purposes of that Section 7.2, as determined and certified by the Comptroller, that is the same as the System's portion of the total moneys distributed under subsection (d) of Section 7.2 of the General Obligation Bond Act. In determining this maximum for State fiscal years 2008 through 2010, however, the amount referred to in item (i) shall be increased, as a percentage of the applicable employee payroll, in equal increments calculated from the sum of the required State contribution for State fiscal year 2007 plus the applicable portion of the State's total debt service payments for fiscal year 2007 on the bonds issued for the purposes of Section 7.2 of the General Obligation Bond Act, so that, by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

(b) If an employee is paid from trust or federal funds, the employer shall pay to the Board contributions from those funds which are sufficient to cover the accruing normal costs on behalf of the employee. However, universities having employees who are compensated out of local auxiliary funds, income funds, or service enterprise funds are not required to pay such contributions on behalf of those employees. The local auxiliary funds, income funds, and service enterprise funds of universities shall not be considered trust funds for the purpose of this Article, but funds of alumni associations, foundations, and athletic associations which are affiliated with the universities included as employers under this Article.

and other employers which do not receive State appropriations are considered to be trust funds for the purpose of this Article.

(b-1) The City of Urbana and the City of Champaign shall each make employer contributions to this System for their respective firefighter employees who participate in this System pursuant to subsection (h) of Section 15-107. The rate of contributions to be made by those municipalities shall be determined annually by the Board on the basis of the actuarial assumptions adopted by the Board and the recommendations of the actuary, and shall be expressed as a percentage of salary for each such employee. The Board shall certify the rate to the affected municipalities as soon as may be practical. The employer contributions required under this subsection shall be remitted by the municipality to the System at the same time and in the same manner as employee contributions.

(c) Through State fiscal year 1995: The total employer contribution shall be apportioned among the various funds of the State and other employers, whether trust, federal, or other funds, in accordance with actuarial procedures approved by the Board. State of Illinois contributions for employers receiving State appropriations for personal services shall be payable from appropriations made to the employers or to the System. The contributions for Class I community colleges covering earnings other than those paid from trust and federal funds, shall be payable solely from appropriations to the Illinois Community College Board or the System for employer contributions.

(d) Beginning in State fiscal year 1996, the required State contributions to the System shall be appropriated directly to the System and shall be payable through vouchers issued in accordance with subsection (c) of Section 15-165, except as provided in subsection (g).

(e) The State Comptroller shall draw warrants payable to the System upon proper certification by the System or by the employer in accordance with the appropriation laws and this Code.

(f) Normal costs under this Section means liability for pensions and other benefits which accrues to the System because of the credits earned for service rendered by the participants during the fiscal year and expenses
of administering the System, but shall not include the principal of or any redemption premium or interest on any bonds issued by the Board or any expenses incurred or deposits required in connection therewith.

(g) If the amount of a participant's earnings for any academic year used to determine the final rate of earnings, determined on a full-time equivalent basis, exceeds the amount of his or her earnings with the same employer for the previous academic year, determined on a full-time equivalent basis, by more than 6%, the participant's employer shall pay to the System, in addition to all other payments required under this Section and in accordance with guidelines established by the System, the present value of the increase in benefits resulting from the portion of the increase in earnings that is in excess of 6%. This present value shall be computed by the System on the basis of the actuarial assumptions and tables used in the most recent actuarial valuation of the System that is available at the time of the computation. The System may require the employer to provide any pertinent information or documentation.

Whenever it determines that a payment is or may be required under this subsection (g), the System shall calculate the amount of the payment and bill the employer for that amount. The bill shall specify the calculations used to determine the amount due. If the employer disputes the amount of the bill, it may, within 30 days after receipt of the bill, apply to the System in writing for a recalculation. The application must specify in detail the grounds of the dispute and, if the employer asserts that the calculation is subject to subsection (h) or (i) of this Section, must include an affidavit setting forth and attesting to all facts within the employer's knowledge that are pertinent to the applicability of subsection (h) or (i). Upon receiving a timely application for recalculation, the System shall review the application and, if appropriate, recalculate the amount due.

The employer contributions required under this subsection (f) may be paid in the form of a lump sum within 90 days after receipt of the bill. If the employer contributions are not paid within 90 days after receipt of the bill, then interest will be charged at a rate equal to the System's annual actuarially assumed rate of return on investment compounded annually.
from the 91st day after receipt of the bill. Payments must be concluded within 3 years after the employer’s receipt of the bill.

The employer contributions required under this subsection (g) shall be paid in the form of a lump sum within 30 days after receipt of the bill after the participant begins receiving benefits under this Article.

(h) This subsection (h) applies only to payments made or salary increases given on or after June 1, 2005 but before July 1, 2011. The changes made by this amendatory Act of the 94th General Assembly shall not require the System to refund any payments received before the effective date of this amendatory Act.

When assessing payment for any amount due under subsection (g), the System shall exclude The provisions of this subsection (g) do not apply to earnings increases paid to participants under contracts or collective bargaining agreements entered into, amended, or renewed before June 1, 2005 the effective date of this amendatory Act of the 94th General Assembly.

When assessing payment for any amount due under subsection (g), the System shall exclude earnings increases paid to a participant at a time when the participant is 10 or more years from retirement eligibility under Section 15-135.

When assessing payment for any amount due under subsection (g), the System shall exclude earnings increases resulting from overload work, including a contract for summer teaching, or overtime when the employer has certified to the System, and the System has approved the certification, that: (i) in the case of overloads (A) the overload work is for the sole purpose of academic instruction in excess of the standard number of instruction hours for a full-time employee occurring during the academic year that the overload is paid and (B) the earnings increases are equal to or less than the rate of pay for academic instruction computed using the participant’s current salary rate and work schedule; and (ii) in the case of overtime, the overtime was necessary for the educational mission.

When assessing payment for any amount due under subsection (g), the System shall exclude any earnings increase resulting from (i) a promotion for which the employee moves from one classification to a

higher classification under the State Universities Civil Service System, (ii) a promotion in academic rank for a tenured or tenure-track faculty position, or (iii) a promotion that the Illinois Community College Board has recommended in accordance with subsection (k) of this Section. These earnings increases shall be excluded only if the promotion is to a position that has existed and been filled by a member for no less than one complete academic year and the earnings increase as a result of the promotion is an increase that results in an amount no greater than the average salary paid for other similar positions.

(i) When assessing payment for any amount due under subsection (g), the System shall exclude any salary increase described in subsection (h) of this Section given on or after July 1, 2011 but before July 1, 2014 under a contract or collective bargaining agreement entered into, amended, or renewed on or after June 1, 2005 but before July 1, 2011. Notwithstanding any other provision of this Section, any payments made or salary increases given after June 30, 2014 shall be used in assessing payment for any amount due under subsection (g) of this Section.

(j) The System shall prepare a report and file copies of the report with the Governor and the General Assembly by January 1, 2007 that contains all of the following information:

(1) The number of recalculations required by the changes made to this Section by this amendatory Act of the 94th General Assembly for each employer.

(2) The dollar amount by which each employer’s contribution to the System was changed due to recalculations required by this amendatory Act of the 94th General Assembly.

(3) The total amount the System received from each employer as a result of the changes made to this Section by Public Act 94-4.

(4) The increase in the required State contribution resulting from the changes made to this Section by this amendatory Act of the 94th General Assembly.

(k) The Illinois Community College Board shall adopt rules for recommending lists of promotional positions submitted to the Board by
community colleges and for reviewing the promotional lists on an annual basis. When recommending promotional lists, the Board shall consider the similarity of the positions submitted to those positions recognized for State universities by the State Universities Civil Service System. The Illinois Community College Board shall file a copy of its findings with the System. The System shall consider the findings of the Illinois Community College Board when making determinations under this Section. The System shall not exclude any earnings increases resulting from a promotion when the promotion was not submitted by a community college. Nothing in this subsection (k) shall require any community college to submit any information to the Community College Board.

(a) In order to receive the creditable service specified under subsection (b) of Section 16-127, a member is required to make the following contributions: (i) an amount equal to the contributions which would have been required had such service been rendered as a member under this System; (ii) for military service not immediately following

employment and for service established under subdivision (b)(10) of Section 16-127, an amount determined by the Board to be equal to the employer's normal cost of the benefits accrued for such service; and (iii) interest from the date the contributions would have been due (or, in the case of a person establishing credit for military service under subdivision (b)(3) of Section 16-127, the date of first membership in the System, if that date is later) to the date of payment, at the following rate of interest, compounded annually: for periods prior to July 1, 1965, regular interest; from July 1, 1965 to June 30, 1977, 4% per year; on and after July 1, 1977, regular interest.

(b) In order to receive creditable service under paragraph (2) of subsection (b) of Section 16-127 for those who were not members on June 30, 1963, the minimum required contribution shall be $420 per year of service together with interest at 4% per year compounded annually from July 1, preceding the date of membership until June 30, 1977 and at regular interest compounded annually thereafter to the date of payment.

(c) In determining the contribution required in order to receive creditable service under paragraph (3) of subsection (b) of Section 16-127, the salary rate for the remainder of the school term in which a member enters military service shall be assumed to be equal to the member's salary rate at the time of entering military service. However, for military service not immediately following employment, the salary rate on the last date as a participating teacher prior to such military service, or on the first date as a participating teacher after such military service, whichever is greater, shall be assumed to be equal to the member's salary rate at the time of entering military service. For each school term thereafter, the member's salary rate shall be assumed to be 5% higher than the salary rate in the previous school term.

(d) In determining the contribution required in order to receive creditable service under paragraph (5) of subsection (b) of Section 16-127, a member's salary rate during the period for which credit is being established shall be assumed to be equal to the member's last salary rate immediately preceding that period.

(d-10) For service credit established under paragraph (6) of subsection (b) of Section 16-127 for days granted by an employer in excess of the member's normal annual sick leave allotment, the employer is required to pay the normal cost of benefits based upon such service credit. This subsection (d-10) does not apply to sick leave granted to teachers under contracts or collective bargaining agreements entered into, amended, or renewed before June 1, 2005 (the effective date of Public Act 94-4) this amendatory Act of the 94th General Assembly. The employer contributions required under this subsection (d-10) shall be paid in the form of a lump sum within 30 days after receipt of the bill after the teacher begins receiving benefits under this Article.

Sec. 16-158. Contributions by State and other employing units.
(a) The State shall make contributions to the System by means of appropriations from the Common School Fund and other State funds of amounts which, together with other employer contributions, employee contributions, investment income, and other income, will be sufficient to
meet the cost of maintaining and administering the System on a 90% funded basis in accordance with actuarial recommendations.

The Board shall determine the amount of State contributions required for each fiscal year on the basis of the actuarial tables and other assumptions adopted by the Board and the recommendations of the actuary, using the formula in subsection (b-3).

(a-1) Annually, on or before November 15, the Board shall certify to the Governor the amount of the required State contribution for the coming fiscal year. The certification shall include a copy of the actuarial recommendations upon which it is based.

On or before May 1, 2004, the Board shall recalculate and recertify to the Governor the amount of the required State contribution to the System for State fiscal year 2005, taking into account the amounts appropriated to and received by the System under subsection (d) of Section 7.2 of the General Obligation Bond Act.

On or before July 1, 2005, the Board shall recalculate and recertify to the Governor the amount of the required State contribution to the System for State fiscal year 2006, taking into account the changes in required State contributions made by this amendatory Act of the 94th General Assembly.

(b) Through State fiscal year 1995, the State contributions shall be paid to the System in accordance with Section 18-7 of the School Code.

(b-1) Beginning in State fiscal year 1996, on the 15th day of each month, or as soon thereafter as may be practicable, the Board shall submit vouchers for payment of State contributions to the System, in a total monthly amount of one-twelfth of the required annual State contribution certified under subsection (a-1). From the effective date of this amendatory Act of the 93rd General Assembly through June 30, 2004, the Board shall not submit vouchers for the remainder of fiscal year 2004 in excess of the fiscal year 2004 certified contribution amount determined under this Section after taking into consideration the transfer to the System under subsection (a) of Section 6z-61 of the State Finance Act. These vouchers shall be paid by the State Comptroller and Treasurer by warrants drawn on the funds appropriated to the System for that fiscal year.

If in any month the amount remaining unexpended from all other appropriations to the System for the applicable fiscal year (including the appropriations to the System under Section 8.12 of the State Finance Act and Section 1 of the State Pension Funds Continuing Appropriation Act) is less than the amount lawfully vouchered under this subsection, the difference shall be paid from the Common School Fund under the continuing appropriation authority provided in Section 1.1 of the State Pension Funds Continuing Appropriation Act.

(b-2) Allocations from the Common School Fund apportioned to school districts not coming under this System shall not be diminished or affected by the provisions of this Article.

(b-3) For State fiscal years 2011 through 2045, the minimum contribution to the System to be made by the State for each fiscal year shall be an amount determined by the System to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of State fiscal year 2045. In making these determinations, the required State contribution shall be calculated each year as a level percentage of payroll over the years remaining to and including fiscal year 2045 and shall be determined under the projected unit credit actuarial cost method.

For State fiscal years 1996 through 2005, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments so that by State fiscal year 2011, the State is contributing at the rate required under this Section; except that in the following specified State fiscal years, the State contribution to the System shall not be less than the following indicated percentages of the applicable employee payroll, even if the indicated percentage will produce a State contribution in excess of the amount otherwise required under this subsection and subsection (a), and notwithstanding any contrary certification made under subsection (a-1) before the effective date of this amendatory Act of 1998: 10.02% in FY 1999; 10.77% in FY 2000; 11.47% in FY 2001; 12.16% in FY 2002; 12.86% in FY 2003; and 13.56% in FY 2004.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2006 is $534,627,700.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2007 is $738,014,500.

For each of State fiscal years 2008 through 2010, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments from the required State contribution for State fiscal year 2007, so that by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

Beginning in State fiscal year 2046, the minimum State contribution for each fiscal year shall be the amount needed to maintain the total assets of the System at 90% of the total actuarial liabilities of the System.

Notwithstanding any other provision of this Section, the required State contribution for State fiscal year 2005 and for fiscal year 2008 and each fiscal year thereafter, as calculated under this Section and certified under subsection (a-1), shall not exceed an amount equal to (i) the amount of the required State contribution that would have been calculated under this Section for that fiscal year if the System had not received any payments under subsection (d) of Section 7.2 of the General Obligation Bond Act, minus (ii) the portion of the State's total debt service payments for that fiscal year on the bonds issued for the purposes of that Section 7.2, as determined and certified by the Comptroller, that is the same as the System's portion of the total moneys distributed under subsection (d) of Section 7.2 of the General Obligation Bond Act. In determining this maximum for State fiscal years 2008 through 2010, however, the amount referred to in item (i) shall be increased, as a percentage of the applicable employee payroll, in equal increments calculated from the sum of the required State contribution for State fiscal year 2007 plus the applicable portion of the State's total debt service payments for fiscal year 2007 on the bonds issued for the purposes of Section 7.2 of the General Obligation Bond Act, so that, by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.
(c) Payment of the required State contributions and of all pensions, retirement annuities, death benefits, refunds, and other benefits granted under or assumed by this System, and all expenses in connection with the administration and operation thereof, are obligations of the State.

If members are paid from special trust or federal funds which are administered by the employing unit, whether school district or other unit, the employing unit shall pay to the System from such funds the full accruing retirement costs based upon that service, as determined by the System. Employer contributions, based on salary paid to members from federal funds, may be forwarded by the distributing agency of the State of Illinois to the System prior to allocation, in an amount determined in accordance with guidelines established by such agency and the System.

(d) Effective July 1, 1986, any employer of a teacher as defined in paragraph (8) of Section 16-106 shall pay the employer's normal cost of benefits based upon the teacher's service, in addition to employee contributions, as determined by the System. Such employer contributions shall be forwarded monthly in accordance with guidelines established by the System.

However, with respect to benefits granted under Section 16-133.4 or 16-133.5 to a teacher as defined in paragraph (8) of Section 16-106, the employer's contribution shall be 12% (rather than 20%) of the member's highest annual salary rate for each year of creditable service granted, and the employer shall also pay the required employee contribution on behalf of the teacher. For the purposes of Sections 16-133.4 and 16-133.5, a teacher as defined in paragraph (8) of Section 16-106 who is serving in that capacity while on leave of absence from another employer under this Article shall not be considered an employee of the employer from which the teacher is on leave.

(e) Beginning July 1, 1998, every employer of a teacher shall pay to the System an employer contribution computed as follows:

1. Beginning July 1, 1998 through June 30, 1999, the employer contribution shall be equal to 0.3% of each teacher's salary.

New matter indicated by italics - deletions by strikeout
(2) Beginning July 1, 1999 and thereafter, the employer contribution shall be equal to 0.58% of each teacher's salary. The school district or other employing unit may pay these employer contributions out of any source of funding available for that purpose and shall forward the contributions to the System on the schedule established for the payment of member contributions.

These employer contributions are intended to offset a portion of the cost to the System of the increases in retirement benefits resulting from this amendatory Act of 1998.

Each employer of teachers is entitled to a credit against the contributions required under this subsection (e) with respect to salaries paid to teachers for the period January 1, 2002 through June 30, 2003, equal to the amount paid by that employer under subsection (a-5) of Section 6.6 of the State Employees Group Insurance Act of 1971 with respect to salaries paid to teachers for that period.

The additional 1% employee contribution required under Section 16-152 by this amendatory Act of 1998 is the responsibility of the teacher and not the teacher's employer, unless the employer agrees, through collective bargaining or otherwise, to make the contribution on behalf of the teacher.

If an employer is required by a contract in effect on May 1, 1998 between the employer and an employee organization to pay, on behalf of all its full-time employees covered by this Article, all mandatory employee contributions required under this Article, then the employer shall be excused from paying the employer contribution required under this subsection (e) for the balance of the term of that contract. The employer and the employee organization shall jointly certify to the System the existence of the contractual requirement, in such form as the System may prescribe. This exclusion shall cease upon the termination, extension, or renewal of the contract at any time after May 1, 1998.

(f) If the amount of a teacher's salary for any school year used to determine final average salary exceeds the member's annual full-time salary rate amount of his or her salary with the same employer for the previous school year by more than 6%, the teacher's employer shall pay to
the System, in addition to all other payments required under this Section and in accordance with guidelines established by the System, the present value of the increase in benefits resulting from the portion of the increase in salary that is in excess of 6%. This present value shall be computed by the System on the basis of the actuarial assumptions and tables used in the most recent actuarial valuation of the System that is available at the time of the computation. For the purposes of this Section, change in employment under Section 10-21.12 of the School Code shall constitute a change in employer. The System may require the employer to provide any pertinent information or documentation.

Whenever it determines that a payment is or may be required under this subsection, the System shall calculate the amount of the payment and bill the employer for that amount. The bill shall specify the calculations used to determine the amount due. If the employer disputes the amount of the bill, it may, within 30 days after receipt of the bill, apply to the System in writing for a recalculation. The application must specify in detail the grounds of the dispute and, if the employer asserts that the calculation is subject to subsection (g) or (h) of this Section, must include an affidavit setting forth and attesting to all facts within the employer's knowledge that are pertinent to the applicability of that subsection. Upon receiving a timely application for recalculation, the System shall review the application and, if appropriate, recalculate the amount due.

The employer contributions required under this subsection (f) may be paid in the form of a lump sum within 90 days after receipt of the bill. If the employer contributions are not paid within 90 days after receipt of the bill, then interest will be charged at a rate equal to the System's annual actuarially assumed rate of return on investment compounded annually from the 91st day after receipt of the bill. Payments must be concluded within 3 years after the employer's receipt of the bill. The employer contributions required under this subsection (f) shall be paid in the form of a lump sum within 30 days after receipt of the bill after the teacher begins receiving benefits under this Article.

(g) This subsection (g) applies only to payments made or salary increases given on or after June 1, 2005 but before July 1, 2011. The
changes made by this amendatory Act of the 94th General Assembly shall not require the System to refund any payments received before the effective date of this amendatory Act.

When assessing payment for any amount due under subsection (f), the System shall exclude salary increases paid to teachers under contracts or collective bargaining agreements entered into, amended, or renewed before June 1, 2005 the effective date of this amendatory Act of the 94th General Assembly.

When assessing payment for any amount due under subsection (f), the System shall exclude salary increases paid to a teacher at a time when the teacher is 10 or more years from retirement eligibility under Section 16-132 or 16-133.2.

When assessing payment for any amount due under subsection (f), the System shall exclude salary increases resulting from overload work, including summer school, when the school district has certified to the System, and the System has approved the certification, that (i) the overload work is for the sole purpose of classroom instruction in excess of the standard number of classes for a full-time teacher in a school district during a school year and (ii) the salary increases are equal to or less than the rate of pay for classroom instruction computed on the teacher's current salary and work schedule.

When assessing payment for any amount due under subsection (f), the System shall exclude a salary increase resulting from a promotion (i) for which the employee is required to hold a certificate or supervisory endorsement issued by the State Teacher Certification Board that is a different certification or supervisory endorsement than is required for the teacher's previous position and (ii) to a position that has existed and been filled by a member for no less than one complete academic year and the salary increase from the promotion is an increase that results in an amount no greater than the lesser of the average salary paid for other similar positions in the district requiring the same certification or the amount stipulated in the collective bargaining agreement for a similar position requiring the same certification.
When assessing payment for any amount due under subsection (f), the System shall exclude any payment to the teacher from the State of Illinois or the State Board of Education over which the employer does not have discretion, notwithstanding that the payment is included in the computation of final average salary.

(h) When assessing payment for any amount due under subsection (f), the System shall exclude any salary increase described in subsection (g) of this Section given on or after July 1, 2011 but before July 1, 2014 under a contract or collective bargaining agreement entered into, amended, or renewed on or after June 1, 2005 but before July 1, 2011. Notwithstanding any other provision of this Section, any payments made or salary increases given after June 30, 2014 shall be used in assessing payment for any amount due under subsection (f) of this Section.

(i) The System shall prepare a report and file copies of the report with the Governor and the General Assembly by January 1, 2007 that contains all of the following information:

(1) The number of recalculation required by the changes made to this Section by this amendatory Act of the 94th General Assembly for each employer.

(2) The dollar amount by which each employer's contribution to the System was changed due to recalculation required by this amendatory Act of the 94th General Assembly.

(3) The total amount the System received from each employer as a result of the changes made to this Section by Public Act 94-4.

(4) The increase in the required State contribution resulting from the changes made to this Section by this amendatory Act of the 94th General Assembly.

PUBLIC ACT 94-1058
(Senate Bill No. 0585)

AN ACT concerning government.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Open Meetings Act is amended by changing Sections 1.02, 2.01, 2.05, and 2.06 and by adding Section 7 as follows:

(5 ILCS 120/1.02) (from Ch. 102, par. 41.02)
Sec. 1.02. For the purposes of this Act:
"Meeting" means any gathering, whether in person or by video or audio conference, telephone call, electronic means (such as, without limitation, electronic mail, electronic chat, and instant messaging), or other means of contemporaneous interactive communication, of a majority of a quorum of the members of a public body held for the purpose of discussing public business.

"Public body" includes all legislative, executive, administrative or advisory bodies of the State, counties, townships, cities, villages,

incorporated towns, school districts and all other municipal corporations, boards, bureaus, committees or commissions of this State, and any subsidiary bodies of any of the foregoing including but not limited to committees and subcommittees which are supported in whole or in part by tax revenue, or which expend tax revenue, except the General Assembly and committees or commissions thereof. "Public body" includes tourism boards and convention or civic center boards located in counties that are contiguous to the Mississippi River with populations of more than 250,000 but less than 300,000. "Public body" includes the Health Facilities Planning Board. "Public body" does not include a child death review team or the Illinois Child Death Review Teams Executive Council established under the Child Death Review Team Act or an ethics commission acting under the State Officials and Employees Ethics Act.

(5 ILCS 120/2.01) (from Ch. 102, par. 42.01)

Sec. 2.01. All meetings required by this Act to be public shall be held at specified times and places which are convenient and open to the public. No meeting required by this Act to be public shall be held on a legal holiday unless the regular meeting day falls on that holiday.

A quorum of members of a public body must be physically present at the location of an open meeting. If, however, an open meeting of a public body (except one with jurisdiction limited to a specific geographic area that is less than statewide) is held simultaneously at one of its offices and one or more other locations in a public building, which may include other of its offices, through an interactive video conference and the public body provides public notice and public access as required under this Act for all locations, then members physically present in those locations all count towards determining a quorum. "Public building", as used in this Section, means any building or portion thereof owned or leased by any public body. The requirement that a quorum be physically present at the location of an open meeting shall not apply, however, to State advisory boards or bodies that do not have authority to make binding recommendations or determinations or to take any other substantive action.

A quorum of members of a public body that is not a public body with statewide jurisdiction must be physically present at the location of a closed meeting. Other members who are not physically present at a closed meeting of such a public body may participate in the meeting by means of a video or audio conference.

(5 ILCS 120/2.05) (from Ch. 102, par. 42.05)

Sec. 2.05. Recording meetings. Subject to the provisions of Section 8-701 of the Code of Civil Procedure "An Act in relation to the rights of witnesses at proceedings conducted by a court, commission, administrative agency or other tribunal in this State which are televised or broadcast or at which motion pictures are taken", approved July 14, 1953, as amended, any person may record the proceedings at meetings required to be open by this Act by tape, film or other means. The authority holding the meeting shall prescribe reasonable rules to govern the right to make such recordings.

If a witness at any meeting required to be open by this Act which is conducted by a commission, administrative agency or other tribunal, refuses to testify on the grounds that he may not be compelled to testify if any portion of his testimony is to be broadcast or televised or if motion pictures are to be taken of him while he is testifying, the authority holding the meeting shall prohibit such recording during the testimony of the witness. Nothing in this Section shall be construed to extend the right to refuse to testify at any meeting not subject to the provisions of Section 8-701 of the Code of Civil Procedure "An Act in relation to the rights of witnesses at proceedings conducted by a court, commission, administrative agency or other tribunal in this State which are televised or broadcast or at which motion pictures are taken", approved July 14, 1953, as amended.

(5 ILCS 120/2.06) (from Ch. 102, par. 42.06)

Sec. 2.06. Minutes.

(a) All public bodies shall keep written minutes of all their meetings, whether open or closed, and a verbatim record of all their closed
meetings in the form of an audio or video recording. Minutes shall include, but need not be limited to:

(1) the date, time and place of the meeting;
(2) the members of the public body recorded as either present or absent and whether the members were physically present or present by means of video or audio conference; and
(3) a summary of discussion on all matters proposed, deliberated, or decided, and a record of any votes taken.

(b) The minutes of meetings open to the public shall be available for public inspection within 7 days of the approval of such minutes by the public body. Beginning July 1, 2006, at the time it complies with the other requirements of this subsection, a public body that has a website that the full-time staff of the public body maintains shall post the minutes of a regular meeting of its governing body open to the public on the public body's website within 7 days of the approval of the minutes by the public body. Beginning July 1, 2006, any minutes of meetings open to the public posted on the public body's website shall remain posted on the website for at least 60 days after their initial posting.

(c) The verbatim record may be destroyed without notification to or the approval of a records commission or the State Archivist under the Local Records Act or the State Records Act no less than 18 months after the completion of the meeting recorded but only after:

(1) the public body approves the destruction of a particular recording; and
(2) the public body approves minutes of the closed meeting that meet the written minutes requirements of subsection (a) of this Section.

(d) Each public body shall periodically, but no less than semi-annually, meet to review minutes of all closed meetings. At such meetings a determination shall be made, and reported in an open session that (1) the need for confidentiality still exists as to all or part of those minutes or (2) that the minutes or portions thereof no longer require confidential treatment and are available for public inspection. The failure of a public body to strictly comply with the semi-annual review of closed session
written minutes, whether before or after the effective date of this amendatory Act of the 94th General Assembly, shall not cause the written minutes or related verbatim record to become public or available for inspection in any judicial proceeding, other than a proceeding involving an alleged violation of this Act, if the public body, within 60 days of discovering its failure to strictly comply with the technical requirements of this subsection, reviews the closed session minutes and determines and thereafter reports in open session that either (1) the need for confidentiality still exists as to all or part of the minutes or verbatim record, or (2) that the minutes or recordings or portions thereof no longer require confidential treatment and are available for public inspection.

(e) Unless the public body has made a determination that the verbatim recording no longer requires confidential treatment or otherwise consents to disclosure, the verbatim record of a meeting closed to the public shall not be open for public inspection or subject to discovery in any administrative or judicial proceeding other than one brought to enforce this Act. In the case of a civil action brought to enforce this Act, the court, if the judge believes such an examination is necessary, must conduct such in camera examination of the verbatim record as it finds appropriate in order to determine whether there has been a violation of this Act. In the case of a criminal proceeding, the court may conduct an examination in order to determine what portions, if any, must be made available to the parties for use as evidence in the prosecution. Any such initial inspection must be held in camera. If the court determines that a complaint or suit brought for noncompliance under this Act is valid it may, for the purposes of discovery, redact from the minutes of the meeting closed to the public any information deemed to qualify under the attorney-client privilege. The provisions of this subsection do not supersede the privacy or confidentiality provisions of State or federal law.

(f) Minutes of meetings closed to the public shall be available only after the public body determines that it is no longer necessary to protect the public interest or the privacy of an individual by keeping them confidential.
Sec. 7. Attendance by a means other than physical presence.

(a) If a quorum of the members of the public body is physically present as required by Section 2.01, a majority of the public body may allow a member of that body to attend the meeting by other means if the member is prevented from physically attending because of: (i) personal illness or disability; (ii) employment purposes or the business of the public body; or (iii) a family or other emergency. "Other means" is by video or audio conference.

(b) If a member wishes to attend a meeting by other means, the member must notify the recording secretary or clerk of the public body before the meeting unless advance notice is impractical.

(c) A majority of the public body may allow a member to attend a meeting by other means only in accordance with and to the extent allowed by rules adopted by the public body. The rules must conform to the requirements and restrictions of this Section, may further limit the extent to which attendance by other means is allowed, and may provide for the giving of additional notice to the public or further facilitate public access to meetings.

(d) The limitations of this Section shall not apply to (i) closed meetings of public bodies with statewide jurisdiction or (ii) open or closed meetings of State advisory boards or bodies that do not have authority to make binding recommendations or determinations or to take any other substantive action. State advisory boards or bodies and public bodies with statewide jurisdiction, however, may permit members to attend meetings by other means only in accordance with and to the extent allowed by specific procedural rules adopted by the body.

(3) acts in reckless disregard of the truth or falsity of the information, and no proof of specific intent to defraud is required.

(105 ILCS 425/11) (from Ch. 144, par. 146)
Sec. 11. Sales representative permits - Application - Contents - Fees - Separate permits.) Every sales representative representing a school, whether located in the State of Illinois or without, shall make application for a Sales Representative Permit to the Superintendent in writing upon forms prepared and furnished by the Superintendent. The sales representative shall be approved by the Superintendent prior to solicitation of students. Each application shall state the name of the school which the applicant will represent, contain evidence of the honesty, truthfulness, and
integrity of the applicant and shall be accompanied by the recommendation of two reputable persons, neither of whom shall be in the employ of the school or members of the applicant's immediate family, certifying that the applicant is truthful, honest, and of good reputation, and recommending that a permit as a sales representative be granted. The fee for an original permit as a sales representative shall be $100. The annual renewal fee shall be $50. A separate permit shall be obtained for each school represented by a sales representative.

In determining honesty, truthfulness and integrity under this Section, the Superintendent may take into consideration any felony conviction of the applicant, but such a conviction shall not operate as a bar to approval unless a court or parole authority has determined that the applicant is not rehabilitated sufficiently to serve as a sales representative.

Each sales representative shall provide a continuous surety company bond for the protection of the contractual rights, including loss resulting from any fraud or misrepresentation used by the sales representative, of students, their parents, guardians or sponsors, in the penal sum of $2,000, except under exceptional circumstances up to $10,000, upon the order of the Superintendent. The surety company bond shall be written by a company authorized to do business in this State. In lieu of a surety bond, an applicant may, with the advanced approval of the State Board of Education prior to January 1, 2007, deposit with the State Board of Education as security a certificate of deposit of any bank organized or transacting business in the United States in an amount equal to or greater than the amount of the required bond. The applicant must first satisfy the State Board of Education that the certificate of deposit is free and clear of all liens, pledges, security interests, and other encumbrances. The State Board of Education shall perfect a first priority security interest in the certificate of deposit to provide the protection required under this paragraph. The certificate of deposit must be held and made payable in accordance with terms and provisions approved in advance by the State Board of Education and must be replaced by a bond meeting the requirements set forth in this paragraph within 180 days after the issuance of the Sales Representative Permit to the applicant. Failure to
replace the certificate of deposit with a continuous surety company bond shall result in revocation of the Sales Representative Permit.

Section 99. Effective date. This Act takes effect upon becoming law.

Approved July 31, 2006.
Effective July 31, 2006.

PUBLIC ACT 94-1061
(Senate Bill No. 1183)

AN ACT concerning civil law.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:
Section 5. The Illinois Parentage Act of 1984 is amended by changing Section 14 as follows:

(750 ILCS 45/14) (from Ch. 40, par. 2514)
(a) (1) The judgment shall contain or explicitly reserve provisions concerning any duty and amount of child support and may contain provisions concerning the custody and guardianship of the child, visitation privileges with the child, the furnishing of bond or other security for the payment of the judgment, which the court shall determine in accordance with the relevant factors set forth in the Illinois Marriage and Dissolution of Marriage Act and any other applicable law of Illinois, to guide the court in a finding in the best interests of the child. In determining custody, joint custody, removal, or visitation, the court shall apply the relevant standards of the Illinois Marriage and Dissolution of Marriage Act, including Section 609. Specifically, in determining the amount of any child support award, the court shall use the guidelines and standards set forth in subsection (a) of Section 505 and in Section 505.2 of the Illinois Marriage and Dissolution of Marriage Act. For purposes of Section 505 of the Illinois Marriage and Dissolution of Marriage Act, "net income" of the non-
custodial parent shall include any benefits available to that person under the Illinois Public Aid Code or from other federal, State or local government-funded programs. The court shall, in any event and regardless of the amount of the non-custodial parent's net income, in its judgment order the non-custodial parent to pay child support to the custodial parent in a minimum amount of not less than $10 per month, as long as such an order is consistent with the requirements of Title IV, Part D of the Social Security Act. In an action brought within 2 years after a child's birth, the judgment or order may direct either parent to pay the reasonable expenses incurred by either parent related to the mother's pregnancy and the delivery of the child. The judgment or order shall contain the father's social security number, which the father shall disclose to the court; however, failure to include the father's social security number on the judgment or order does not invalidate the judgment or order.

(2) If a judgment of parentage contains no explicit award of custody, the establishment of a support obligation or of visitation rights in one parent shall be considered a judgment granting custody to the other parent. If the parentage judgment contains no such provisions, custody shall be presumed to be with the mother; however, the presumption shall not apply if the father has had physical custody for at least 6 months prior to the date that the mother seeks to enforce custodial rights.

(b) The court shall order all child support payments, determined in accordance with such guidelines, to commence with the date summons is served. The level of current periodic support payments shall not be reduced because of payments set for the period prior to the date of entry of the support order. The Court may order any child support payments to be made for a period prior to the commencement of the action. In determining whether and the extent to which the payments shall be made for any prior period, the court shall consider all relevant facts, including the factors for determining the amount of support specified in the Illinois Marriage and Dissolution of Marriage Act and other equitable factors including but not limited to:

(1) The father's prior knowledge of the fact and circumstances of the child's birth.

New matter indicated by italics - deletions by strikeout
(2) The father's prior willingness or refusal to help raise or support the child.

(3) The extent to which the mother or the public agency bringing the action previously informed the father of the child's needs or attempted to seek or require his help in raising or supporting the child.

(4) The reasons the mother or the public agency did not file the action earlier.

(5) The extent to which the father would be prejudiced by the delay in bringing the action.

For purposes of determining the amount of child support to be paid for any period before the date the order for current child support is entered, there is a rebuttable presumption that the father's net income for the prior period was the same as his net income at the time the order for current child support is entered.

If (i) the non-custodial parent was properly served with a request for discovery of financial information relating to the non-custodial parent's ability to provide child support, (ii) the non-custodial parent failed to comply with the request, despite having been ordered to do so by the court, and (iii) the non-custodial parent is not present at the hearing to determine support despite having received proper notice, then any relevant financial information concerning the non-custodial parent's ability to provide child support that was obtained pursuant to subpoena and proper notice shall be admitted into evidence without the need to establish any further foundation for its admission.

(c) Any new or existing support order entered by the court under this Section shall be deemed to be a series of judgments against the person obligated to pay support thereunder, each judgment to be in the amount of each payment or installment of support and each such judgment to be deemed entered as of the date the corresponding payment or installment becomes due under the terms of the support order. Each judgment shall have the full force, effect and attributes of any other judgment of this State, including the ability to be enforced. A lien arises by operation of law
against the real and personal property of the noncustodial parent for each installment of overdue support owed by the noncustodial parent.

(d) If the judgment or order of the court is at variance with the child's birth certificate, the court shall order that a new birth certificate be issued under the Vital Records Act.

(e) On request of the mother and the father, the court shall order a change in the child's name. After hearing evidence the court may stay payment of support during the period of the father's minority or period of disability.

(f) If, upon a showing of proper service, the father fails to appear in court, or otherwise appear as provided by law, the court may proceed to hear the cause upon testimony of the mother or other parties taken in open court and shall enter a judgment by default. The court may reserve any order as to the amount of child support until the father has received notice, by regular mail, of a hearing on the matter.

(g) A one-time charge of 20% is imposable upon the amount of past-due child support owed on July 1, 1988 which has accrued under a support order entered by the court. The charge shall be imposed in accordance with the provisions of Section 10-21 of the Illinois Public Aid Code and shall be enforced by the court upon petition.

(h) All orders for support, when entered or modified, shall include a provision requiring the non-custodial parent to notify the court and, in cases in which party is receiving child support enforcement services under Article X of the Illinois Public Aid Code, the Illinois Department of Healthcare and Family Services Public Aid, within 7 days, (i) of the name and address of any new employer of the non-custodial parent, (ii) whether the non-custodial parent has access to health insurance coverage through the employer or other group coverage and, if so, the policy name and number and the names of persons covered under the policy, and (iii) of any new residential or mailing address or telephone number of the non-custodial parent. In any subsequent action to enforce a support order, upon a sufficient showing that a diligent effort has been made to ascertain the location of the non-custodial parent, service of process or provision of notice necessary in the case may be made at the last known address of the

New matter indicated by italics - deletions by strikeout
non-custodial parent in any manner expressly provided by the Code of Civil Procedure or this Act, which service shall be sufficient for purposes of due process.

(i) An order for support shall include a date on which the current support obligation terminates. The termination date shall be no earlier than the date on which the child covered by the order will attain the age of 18. However, if the child will not graduate from high school until after attaining the age of 18, then the termination date shall be no earlier than the earlier of the date on which the child's high school graduation will occur or the date on which the child will attain the age of 19. The order for support shall state that the termination date does not apply to any arrearage that may remain unpaid on that date. Nothing in this subsection shall be construed to prevent the court from modifying the order or terminating the order in the event the child is otherwise emancipated.

(i-5) If there is an unpaid arrearage or delinquency (as those terms are defined in the Income Withholding for Support Act) equal to at least one month's support obligation on the termination date stated in the order for support or, if there is no termination date stated in the order, on the date the child attains the age of majority or is otherwise emancipated, the periodic amount required to be paid for current support of that child immediately prior to that date shall automatically continue to be an obligation, not as current support but as periodic payment toward satisfaction of the unpaid arrearage or delinquency. That periodic payment shall be in addition to any periodic payment previously required for satisfaction of the arrearage or delinquency. The total periodic amount to be paid toward satisfaction of the arrearage or delinquency may be enforced and collected by any method provided by law for enforcement and collection of child support, including but not limited to income withholding under the Income Withholding for Support Act. Each order for support entered or modified on or after the effective date of this amendatory Act of the 93rd General Assembly must contain a statement notifying the parties of the requirements of this subsection. Failure to include the statement in the order for support does not affect the validity of the order or the operation of the provisions of this subsection with regard
to the order. This subsection shall not be construed to prevent or affect the establishment or modification of an order for support of a minor child or the establishment or modification of an order for support of a non-minor child or educational expenses under Section 513 of the Illinois Marriage and Dissolution of Marriage Act.

(j) An order entered under this Section shall include a provision requiring the obligor to report to the obligee and to the clerk of court within 10 days each time the obligor obtains new employment, and each time the obligor's employment is terminated for any reason. The report shall be in writing and shall, in the case of new employment, include the name and address of the new employer. Failure to report new employment or the termination of current employment, if coupled with nonpayment of support for a period in excess of 60 days, is indirect criminal contempt. For any obligor arrested for failure to report new employment bond shall be set in the amount of the child support that should have been paid during the period of unreported employment. An order entered under this Section shall also include a provision requiring the obligor and obligee parents to advise each other of a change in residence within 5 days of the change except when the court finds that the physical, mental, or emotional health of a party or that of a minor child, or both, would be seriously endangered by disclosure of the party's address.

The unit of local government shall evaluate any sealed proposal from a qualified provider. The evaluation shall analyze the estimates of all costs of installations, modifications, or remodeling, including, without limitation, costs of a pre-installation energy audit or analysis, design, engineering, installation, maintenance,
repairs, debt service, conversions to a different energy or fuel source, or post-installation project monitoring, data collection, and reporting. The evaluation shall include a detailed analysis of whether either the energy consumed or the operating costs, or both, will be reduced. If technical assistance is not available by a licensed architect or registered professional engineer on the unit of local government's staff, then the evaluation of the proposal shall be done by a registered professional engineer or architect who is retained by the unit of local government. For the purposes of this Article any territory to be annexed to a municipality shall be considered to be contiguous to the municipality notwithstanding that the territory is separated from the municipality by a strip parcel, railroad or public utility right-of-way, or former railroad right-of-way that has been converted to a recreational trail, but upon annexation the area included within that strip parcel, right-of-way, or former right-of-way shall not be considered to be annexed to the municipality. For purposes of this Section, "strip parcel" means a separation no wider than 30 feet between the territory to be annexed and the municipal boundary.

Except in counties with a population of more than 600,000 but less than 3,000,000, territory which is not contiguous to a municipality but is separated therefrom only by a forest preserve district, federal wildlife refuge, or open land or open space that is part of an open space program,

as defined in Section 115-5 of the Township Code, may be annexed to the
municipality pursuant to Section 7-1-7 or 7-1-8, but only if the annexing
municipality can show that the forest preserve district, federal wildlife
refuge, open land, or open space creates an artificial barrier preventing the
annexation and that the location of the forest preserve district, federal
wildlife refuge, open land, or open space property prevents the orderly
natural growth of the annexing municipality. It shall be conclusively
presumed that the forest preserve district, federal wildlife refuge, open
land, or open space does not create an artificial barrier if the property
sought to be annexed is bounded on at least 3 sides by (i) one or more
other municipalities (other than the municipality seeking annexation
through the existing forest preserve district, federal wildlife refuge, open
land, or open space), (ii) forest preserve district property, federal wildlife
refuge, open land, or open space, or (iii) a combination of other
municipalities and forest preserve district property, federal wildlife refuge
property, open land, or open space. It shall also be conclusively presumed
that the forest preserve district, federal wildlife refuge, open land, or open
space does not create an artificial barrier if the municipality seeking
annexation is not the closest municipality within the county to the property
to be annexed. The territory included within such forest preserve district,
federal wildlife refuge, open land, or open space shall not be annexed to
the municipality nor shall the territory of the forest preserve district,
federal wildlife refuge, open land, or open space be subject to rights-of-
way for access or services between the parts of the municipality separated
by the forest preserve district, federal wildlife refuge, open land, or open
space without the consent of the governing body of the forest preserve
district or federal wildlife refuge. The changes made to this Section by this
amendatory Act of 91st General Assembly are declaratory of existing law
and shall not be construed as a new enactment.

In counties that are contiguous to the Mississippi River with
populations of more than 200,000 but less than 255,000, a municipality
that is partially located in territory that is wholly surrounded by the
Mississippi River and a canal, connected at both ends to the Mississippi
River and located on property owned by the United States of America,

New matter indicated by italics - deletions by strikeout
may annex noncontiguous territory in the surrounded territory under Sections 7-1-7, 7-1-8, or 7-1-9 if that territory is separated from the municipality by property owned by the United States of America, but that federal property shall not be annexed without the consent of the federal government.

For the purposes of this Article, any territory to be annexed to a municipality that is located in a county with more than 500,000 inhabitants shall be considered to be contiguous to the municipality if only a river and a national heritage corridor separate the territory from the municipality. Upon annexation, no river or national heritage corridor shall be considered annexed to the municipality.

When any land proposed to be annexed is part of any Fire Protection District or of any Public Library District and the annexing municipality provides fire protection or a public library, as the case may be, the Trustees of each District shall be notified in writing by certified or registered mail before any court hearing or other action is taken for annexation. The notice shall be served 10 days in advance. An affidavit that service of notice has been had as provided by this Section must be filed with the clerk of the court in which the annexation proceedings are pending or will be instituted or, when no court proceedings are involved, with the recorder for the county where the land is situated. No annexation of that land is effective unless service is had and the affidavit filed as provided in this Section.

The new boundary shall extend to the far side of any adjacent highway and shall include all of every highway within the area annexed. These highways shall be considered to be annexed even though not included in the legal description set forth in the petition for annexation. When any land proposed to be annexed includes any highway under the jurisdiction of any township, the Township Commissioner of Highways and the Board of Town Trustees shall be notified in writing by certified or registered mail before any court hearing or other action is taken for annexation. In the event that a municipality fails to notify the Township Commissioner of Highways and the Board of Town Trustees of the annexation of an area within the township, the municipality shall

reimburse that township for any loss or liability caused by the failure to give notice. If any municipality has annexed any area before October 1, 1975, and the legal description in the petition for annexation did not include the entire adjacent highway, any such annexation shall be valid and any highway adjacent to the area annexed shall be considered to be annexed notwithstanding the failure of the petition to annex to include the description of the entire adjacent highway.

Any annexation, disconnection and annexation, or disconnection under this Article of any territory must be reported by certified or registered mail by the corporate authority initiating the action to the election authorities having jurisdiction in the territory and the post office branches serving the territory within 30 days of the annexation, disconnection and annexation, or disconnection.

Failure to give notice to the required election authorities or post office branches will not invalidate the annexation or disconnection. For purposes of this Section "election authorities" means the county clerk where the clerk acts as the clerk of elections or the clerk of the election commission having jurisdiction.

No annexation, disconnection and annexation, or disconnection under this Article of territory having electors residing therein made (1) before any primary election to be held within the municipality affected thereby and after the time for filing petitions as a candidate for nomination to any office to be chosen at the primary election or (2) within 60 days before any general election to be held within the municipality shall be effective until the day after the date of the primary or general election, as the case may be.

For the purpose of this Section, a toll highway or connection between parcels via an overpass bridge over a toll highway shall not be considered a deterrent to the definition of contiguous territory.

When territory is proposed to be annexed by court order under this Article, the corporate authorities or petitioners initiating the action shall notify each person who pays real estate taxes on property within that territory unless the person is a petitioner. The notice shall be served by certified or registered mail, return receipt requested, at least 20 days before

a court hearing or other court action. If the person who pays real estate taxes on the property is not the owner of record, then the payor shall notify the owner of record of the proposed annexation.

PUBLIC ACT 94-1066
(Senate Bill No. 0998)

AN ACT concerning health.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Mental Health and Developmental Disabilities Code is amended by changing Sections 2-107, 2-107.1, and 3-209 and by adding Section 2-107.3 as follows:

(405 ILCS 5/2-107) (from Ch. 91 1/2, par. 2-107)
Sec. 2-107. Refusal of services; informing of risks.
(a) An adult recipient of services or the recipient's guardian, if the recipient is under guardianship, and the recipient's substitute decision maker, if any, must be informed of the recipient's right to refuse medication. The recipient and the recipient's guardian or substitute decision maker shall be given the opportunity to refuse generally accepted mental health or developmental disability services, including but not limited to medication. If such services are refused, they shall not be given unless such services are necessary to prevent the recipient from causing serious and imminent physical harm to the recipient or others and no less restrictive alternative is available. The facility director shall inform a recipient, guardian, or substitute decision maker, if any, who refuses such services of alternate services available and the risks of such alternate services.

services, as well as the possible consequences to the recipient of refusal of such services.

(b) Authorized involuntary treatment may be given under this Section for up to 24 hours only if the circumstances leading up to the need for emergency treatment are set forth in writing in the recipient's record.

(c) Authorized involuntary treatment may not be continued unless the need for such treatment is redetermined at least every 24 hours based upon a personal examination of the recipient by a physician or a nurse under the supervision of a physician and the circumstances demonstrating that need are set forth in writing in the recipient's record.

(d) Authorized involuntary treatment may not be administered under this Section for a period in excess of 72 hours, excluding Saturdays, Sundays, and holidays, unless a petition is filed under Section 2-107.1 and the treatment continues to be necessary under subsection (a) of this Section. Once the petition has been filed, treatment may continue in compliance with subsections (a), (b), and (c) of this Section until the final outcome of the hearing on the petition.

(e) The Department shall issue rules designed to insure that in State-operated mental health facilities authorized involuntary treatment is administered in accordance with this Section and only when appropriately authorized and monitored by a physician or a nurse under the supervision of a physician in accordance with accepted medical practice. The facility director of each mental health facility not operated by the State shall issue rules designed to insure that in that facility authorized involuntary treatment is administered in accordance with this Section and only when appropriately authorized and monitored by a physician or a nurse under the supervision of a physician in accordance with accepted medical practice. Such rules shall be available for public inspection and copying during normal business hours.

(f) The provisions of this Section with respect to the emergency administration of authorized involuntary treatment do not apply to facilities licensed under the Nursing Home Care Act.

(g) Under no circumstances may long-acting psychotropic medications be administered under this Section.

New matter indicated by italics - deletions by strikeout
(h) Whenever psychotropic medication is refused pursuant to subsection (a) of this Section at least once that day, the physician shall determine and state in writing the reasons why the recipient did not meet the criteria for involuntary treatment under subsection (a) and whether the recipient meets the standard for authorized involuntary treatment under Section 2-107.1 of this Code. If the physician determines that the recipient meets the standard for authorized involuntary treatment under Section 2-107.1, the facility director or his or her designee shall petition the court for authorized involuntary treatment pursuant to that Section unless the facility director or his or her designee states in writing in the recipient's record why the filing of such a petition is not warranted. This subsection (h) applies only to State-operated mental health facilities.

(i) The Department shall conduct annual trainings for all physicians and registered nurses working in State-operated mental health facilities on the appropriate use of emergency authorized involuntary treatment, standards for its use, and the methods of authorization under this Section.

(405 ILCS 5/2-107.1) (from Ch. 91 1/2, par. 2-107.1)

Sec. 2-107.1. Administration of authorized involuntary treatment upon application to a court.

(a) An adult recipient of services and the recipient's guardian, if the recipient is under guardianship, and the substitute decision maker, if any, shall be informed of the recipient's right to refuse medication. The recipient and the recipient's guardian or substitute decision maker shall be given the opportunity to refuse generally accepted mental health or developmental disability services, including but not limited to medication.

(a-5) Notwithstanding the provisions of Section 2-107 of this Code, authorized involuntary treatment may be administered to an adult recipient of services without the informed consent of the recipient under the following standards:

(1) Any person 18 years of age or older, including any guardian, may petition the circuit court for an order authorizing the administration of authorized involuntary treatment to a recipient of

services. The petition shall state that the petitioner has made a good faith attempt to determine whether the recipient has executed a power of attorney for health care under the Powers of Attorney for Health Care Law or a declaration for mental health treatment under the Mental Health Treatment Preference Declaration Act and to obtain copies of these instruments if they exist. If either of the above-named instruments is available to the petitioner, the instrument or a copy of the instrument shall be attached to the petition as an exhibit. The petitioner shall deliver a copy of the petition, and notice of the time and place of the hearing, to the respondent, his or her attorney, any known agent or attorney-in-fact, if any, and the guardian, if any, no later than 3 days prior to the date of the hearing. Service of the petition and notice of the time and place of the hearing may be made by transmitting them via facsimile machine to the respondent or other party. Upon receipt of the petition and notice, the party served, or the person delivering the petition and notice to the party served, shall acknowledge service. If the party sending the petition and notice does not receive acknowledgement of service within 24 hours, service must be made by personal service.

The petition may include a request that the court authorize such testing and procedures as may be essential for the safe and effective administration of the authorized involuntary treatment sought to be administered, but only where the petition sets forth the specific testing and procedures sought to be administered.

If a hearing is requested to be held immediately following the hearing on a petition for involuntary admission, then the notice requirement shall be the same as that for the hearing on the petition for involuntary admission, and the petition filed pursuant to this Section shall be filed with the petition for involuntary admission.

(2) The court shall hold a hearing within 7 days of the filing of the petition. The People, the petitioner, or the respondent shall be entitled to a continuance of up to 7 days as of right. An additional continuance of not more than 7 days may be granted to
any party (i) upon a showing that the continuance is needed in order to adequately prepare for or present evidence in a hearing under this Section or (ii) under exceptional circumstances. The court may grant an additional continuance not to exceed 21 days when, in its discretion, the court determines that such a continuance is necessary in order to provide the recipient with an examination pursuant to Section 3-803 or 3-804 of this Act, to provide the recipient with a trial by jury as provided in Section 3-802 of this Act, or to arrange for the substitution of counsel as provided for by the Illinois Supreme Court Rules. The hearing shall be separate from a judicial proceeding held to determine whether a person is subject to involuntary admission but may be heard immediately preceding or following such a judicial proceeding and may be heard by the same trier of fact or law as in that judicial proceeding.

(3) Unless otherwise provided herein, the procedures set forth in Article VIII of Chapter 3 of this Act, including the provisions regarding appointment of counsel, shall govern hearings held under this subsection (a-5).

(4) Authorized involuntary treatment shall not be administered to the recipient unless it has been determined by clear and convincing evidence that all of the following factors are present. In determining whether a person meets the criteria specified in the following paragraphs (A) through (G), the court may consider evidence of the person's history of serious violence, repeated past pattern of specific behavior, actions related to the person's illness, or past outcomes of various treatment options.:

(A) That the recipient has a serious mental illness or developmental disability.

(B) That because of said mental illness or developmental disability, the recipient currently exhibits any one of the following: (i) deterioration of his or her ability to function, as compared to the recipient's ability to function prior to the current onset of symptoms of the
mental illness or disability for which treatment is presently sought, (ii) suffering, or (iii) threatening behavior.

(C) That the illness or disability has existed for a period marked by the continuing presence of the symptoms set forth in item (B) of this subdivision (4) or the repeated episodic occurrence of these symptoms.

(D) That the benefits of the treatment outweigh the harm.

(E) That the recipient lacks the capacity to make a reasoned decision about the treatment.

(F) That other less restrictive services have been explored and found inappropriate.

(G) If the petition seeks authorization for testing and other procedures, that such testing and procedures are essential for the safe and effective administration of the treatment.

(5) In no event shall an order issued under this Section be effective for more than 90 days. A second 90-day period of involuntary treatment may be authorized pursuant to a hearing that complies with the standards and procedures of this subsection (a-5). Thereafter, additional 180-day periods of involuntary treatment may be authorized pursuant to the standards and procedures of this Section without limit. If a new petition to authorize the administration of authorized involuntary treatment is filed at least 15 days prior to the expiration of the prior order, and if any continuance of the hearing is agreed to by the recipient, the administration of the treatment may continue in accordance with the prior order pending the completion of a hearing under this Section.

(6) An order issued under this subsection (a-5) shall designate the persons authorized to administer the authorized involuntary treatment under the standards and procedures of this subsection (a-5). Those persons shall have complete discretion not to administer any treatment authorized under this Section.

New matter indicated by italics - deletions by strikeout
order shall also specify the medications and the anticipated range of dosages that have been authorized and may include a list of any alternative medications and range of dosages deemed necessary.

(b) A guardian may be authorized to consent to the administration of authorized involuntary treatment to an objecting recipient only under the standards and procedures of subsection (a-5).

(c) Notwithstanding any other provision of this Section, a guardian may consent to the administration of authorized involuntary treatment to a non-objecting recipient under Article Xla of the Probate Act of 1975.

(d) Nothing in this Section shall prevent the administration of authorized involuntary treatment to recipients in an emergency under Section 2-107 of this Act.

(e) Notwithstanding any of the provisions of this Section, authorized involuntary treatment may be administered pursuant to a power of attorney for health care under the Powers of Attorney for Health Care Law or a declaration for mental health treatment under the Mental Health Treatment Preference Declaration Act.

(f) The Department shall conduct annual trainings for physicians and registered nurses working in State-operated mental health facilities on the appropriate use of authorized involuntary treatment, standards for its use, and the preparation of court petitions under this Section.

(405 ILCS 5/2-107.3 new)

Sec. 2-107.3. Reports. Each facility director of a State-operated mental health facility shall prepare a quarterly report stating the number of persons who were determined to meet the standard for authorized involuntary treatment but for whom it was determined that the filing of such a petition was not warranted as provided for in subsection (h) of Section 2-107 of this Code and the reasons for each such determination. The Department shall prepare and publish an annual report summarizing the information received under this Section. The Department's report shall include the data from each facility filing such a report and shall separately report the data from each such facility, identified by facility.

Sec. 3-209. Within three days of admission under this Chapter, a treatment plan shall be prepared for each recipient of service and entered into his or her record. The plan shall include an assessment of the recipient's treatment needs, a description of the services recommended for treatment, the goals of each type of element of service, an anticipated timetable for the accomplishment of the goals, and a designation of the qualified professional responsible for the implementation of the plan. The plan shall include a written assessment of whether or not the recipient is in need of psychotropic medications. The plan shall be reviewed and updated as the clinical condition warrants, but not less than every 30 days. (Source: P.A. 81-920.)

Section 10. The Illinois Income Tax Act is amended by adding Sections 216 and 217 as follows:

(35 ILCS 5/216 new)
Sec. 216. Credit for wages paid to ex-felons.
(a) For each taxable year beginning on or after January 1, 2007, each taxpayer is entitled to a credit against the tax imposed by subsections (a) and (b) of Section 201 of this Act in an amount equal to 5% of qualified wages paid by the taxpayer during the taxable year to one or more Illinois residents who are qualified ex-offenders. The total credit allowed to a taxpayer with respect to each qualified ex-offender may not exceed $600 for all taxable years. For partners, shareholders of Subchapter S corporations, and owners of limited liability companies, if the liability company is treated as a partnership for purposes of federal and State income taxation, there shall be allowed a credit under this Section to be determined in accordance with the determination of income and distributive share of income under Sections 702 and 704 and Subchapter S of the Internal Revenue Code.

(b) For purposes of this Section, "qualified wages":

(1) includes only wages that are subject to federal unemployment tax under Section 3306 of the Internal Revenue Code, without regard to any dollar limitation contained in that Section;

New matter indicated by italics - deletions by strikeout
(2) does not include any amounts paid or incurred by an employer for any period to any qualified ex-offender for whom the employer receives federally funded payments for on-the-job training of that qualified ex-offender for that period; and

(3) includes only wages attributable to service rendered during the one-year period beginning with the day the qualified ex-offender begins work for the employer.

If the taxpayer has received any payment from a program established under Section 482(e)(1) of the federal Social Security Act with respect to a qualified ex-offender, then, for purposes of calculating the credit under this Section, the amount of the qualified wages paid to that qualified ex-offender must be reduced by the amount of the payment.

(c) For purposes of this Section, "qualified ex-offender" means any person who:

(1) is an eligible offender, as defined under Section 5-5.5-5 of the Unified Code of Corrections;

(2) was sentenced to a period of incarceration in an Illinois adult correctional center; and

(3) was hired by the taxpayer within one year after being released from an Illinois adult correctional center.

(d) In no event shall a credit under this Section reduce the taxpayer's liability to less than zero. If the amount of the credit exceeds the tax liability for the year, the excess may be carried forward and applied to the tax liability of the 5 taxable years following the excess credit year. The tax credit shall be applied to the earliest year for which there is a tax liability. If there are credits for more than one year that are available to offset a liability, the earlier credit shall be applied first.

Sec. 217. Credit for wages paid to qualified veterans.

(a) For each taxable year beginning on or after January 1, 2007, each taxpayer is entitled to a credit against the tax imposed by subsections (a) and (b) of Section 201 of this Act in an amount equal to 5%, but in no event to exceed $600, of the gross wages paid by the taxpayer to a qualified veteran in the course of that veteran's sustained employment

"Sustained employment" means a period of employment that is not less than 185 days during the taxable year.

(c) In no event shall a credit under this Section reduce the taxpayer's liability to less than zero. If the amount of the credit exceeds the tax liability for the year, the excess may be carried forward and applied to the tax liability of the 5 taxable years following the excess credit year. The tax credit shall be applied to the earliest year for which there is a tax liability. If there are credits for more than one year that are available to offset a liability, the earlier credit shall be applied first.

Section 15. The Unified Code of Corrections is amended by changing Sections 3-2-2, 5-5-5, and 5-5.5-5 as follows:

(b) To develop and maintain reception and evaluation units for purposes of analyzing the custody and rehabilitation needs of persons committed to it and to assign such persons to institutions and programs under its control or transfer them to other appropriate agencies. In consultation with the Department of Alcoholism and Substance Abuse (now the Department of Human Services), the Department of Corrections shall develop a master plan for the screening and evaluation of persons committed to its custody who have alcohol or drug abuse problems, and for making appropriate treatment available to such persons; the Department shall report to the General Assembly on such plan not later than April 1, 1987. The maintenance and implementation of such plan shall be contingent upon the availability of funds.

(b-1) To create and implement, on January 1, 2002, a pilot program to establish the effectiveness of pupillometer technology (the measurement of the pupil's reaction to light) as an alternative to a urine test for purposes of screening and evaluating persons committed to its custody who have alcohol or drug problems. The pilot program shall require the pupillometer technology to be used in at least one Department of Corrections facility. The Director may expand the pilot program to include an additional facility or facilities as he or she deems appropriate. A minimum of 4,000 tests shall be included in the pilot program. The Department must report to the General Assembly on the effectiveness of the program by January 1, 2003.

(b-5) To develop, in consultation with the Department of State Police, a program for tracking and evaluating each inmate from commitment through release for recording his or her gang affiliations, activities, or ranks.

(c) To maintain and administer all State correctional institutions and facilities under its control and to establish new ones as needed. Pursuant to its power to establish new institutions and facilities, the Department may, with the written approval of the Governor, authorize the Department of Central Management Services to enter into an agreement of the type described in subsection (d) of Section 405-300 of the Department of Central Management Services Law (20 ILCS 405/405-300). The Department shall designate those institutions which shall constitute the State Penitentiary System.

(d) On completion of sentence of imprisonment or upon discharge from probation, conditional discharge or periodic imprisonment, or at any time thereafter, all license rights and privileges granted under the authority of this State which have been revoked or suspended because of conviction of an offense shall be restored unless the authority having jurisdiction of such license rights finds after investigation and hearing that restoration is not in the public interest. (e) Upon a person's discharge from incarceration or parole, or upon a person's discharge from probation or at any time thereafter, the committing court may enter an order certifying that the sentence has been satisfactorily completed when the court believes it would assist in the rehabilitation of the person and be consistent with the public welfare. (1) there is a direct relationship between one or more of the previous criminal offenses and the specific license sought; or

(2) the issuance of the license would involve an unreasonable risk to property or to the safety or welfare of specific individuals or the general public.

In making such a determination, the licensing agency shall consider the following factors:

(1) the public policy of this State, as expressed in Article 5.5 of this Chapter, to encourage the licensure and employment of persons previously convicted of one or more criminal offenses;

(2) the specific duties and responsibilities necessarily related to the license being sought;

(6) the seriousness of the offense or offenses;

(7) any information produced by the person or produced on his or her behalf in regard to his or her rehabilitation and good conduct, including a certificate of relief from disabilities issued to the applicant, which certificate shall create a presumption of rehabilitation in regard to the offense or offenses specified in the certificate; and

(8) the legitimate interest of the licensing agency in protecting property, and the safety and welfare of specific individuals or the general public.

(i) A certificate of relief from disabilities shall be issued only for a license or certification issued under the following Acts:

All ordinances, orders, rules, resolutions and regulations passed by the board of commissioners must, before they take effect, be approved by the president of the board of commissioners. If he approves thereof, he shall sign them, and such as he does not approve he shall return to the board of commissioners with his objections in writing at the next regular meeting of the board of commissioners occurring after the passage thereof. Such veto may extend to any one or more items or appropriations contained in any ordinance making an appropriation, or to the entire ordinance. If the veto extends to a part of such ordinance, the residue takes effect. If the president of such board of commissioners fails to return any ordinance, order, rule, resolution or regulation with his objections thereto in the time required, he is deemed to have approved it,
and it takes effect accordingly. Upon the return of any ordinance, order, rule, resolution, or regulation by the president, the vote by which it was passed must be reconsidered by the board of commissioners, and if upon such reconsideration two-thirds of all the members agree by yeas and nays to pass it, it takes effect notwithstanding the president's refusal to approve thereof.

It is the policy of this State that all powers granted, either expressly or by necessary implication, by this Act or any other Illinois statute to the District may be exercised by the District notwithstanding effects on competition. It is the intention of the General Assembly that the "State action exemption" to the application of federal antitrust statutes be fully available to the District to the extent its activities are authorized by law as stated herein.

purchasing agent and laborers, shall be subjected to examination, which 
shall be public and competitive with limitations specified in the rules of 
the Director as to residence, age, sex, health, habits, moral character and 
qualifications to perform the duties of the office or place to be filled, 
which qualifications shall be prescribed in advance of such examination. 
Such examinations shall be practical in their character, and shall relate to 
those matters which will fairly test the relative capacity of the persons 
examined to discharge the duties of the position to which they seek to be 
appointed, and may include tests of physical qualifications and health and 
when appropriate, of manual skill. No question in any examination shall 
relate to political or religious opinions or affiliations. The Director shall 
control all examinations, and may, whenever an examination is to take 
place, designate a suitable number of persons to be special examiners and 
it shall be the duty of such special examiners to conduct such 
examinations as the Director may direct, and to make return and report

place of any one so selected; and he may himself, at any time, act as such 
special examiner, and without appointing other special examiners. The 
Director shall, by rule, provide for and shall hold sufficient number of 
examinations to provide a sufficient number of eligibles on the register for 
each grade of position in the classified civil service, and if any place in the 
classified civil service shall become vacant, to which there is no person 
eligible for appointment, he shall hold an examination for such position 
and repeat the same, if necessary, until a vacancy is filled in accordance 
with the provisions of this Act.

Eligible registers shall remain in force for 3 years, except the 
eligible register for laborers which shall remain in force for 4 years and 
except the eligible registers for student programs and entry level 
ingineering positions which, in the Director's discretion, may remain in 
force for one year.

Examinations for an eligible list for each position in the classified 
service above mentioned shall be held at least once in 3 years and at least
annually for student programs and entry level engineering positions if the Director has limited the duration of the registers for those positions to one year, unless the Director determines that such examinations are not necessary because no vacancy exists.

To help defray expenses of examinations, the sanitary district may, but need not, charge a fee to each applicant who desires to take a civil service examination provided for by this Act. The amount of such fees shall be set by the corporate authority of the sanitary district. Such fees shall be deposited in the corporate fund of the district.

(Senate Bill No. 2340)

AN ACT concerning elections.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Election Code is amended by changing Section 24C-12 as follows:

(10 ILCS 5/24C-12)

Sec. 24C-12. Procedures for Counting and Tallying of Ballots. In an election jurisdiction where a Direct Recording Electronic Voting System is used, the following procedures for counting and tallying the ballots shall apply:

Before the opening of the polls, the judges of elections shall assemble the voting equipment and devices and turn the equipment on.

New matter indicated by italics - deletions by strikeout
The judges shall, if necessary, take steps to activate the voting devices and counting equipment by inserting into the equipment and voting devices appropriate data cards containing passwords and data codes that will select the proper ballot formats selected for that polling place and that will prevent inadvertent or unauthorized activation of the poll-opening function. Before voting begins and before ballots are entered into the voting devices, the judges of election shall cause to be printed a record of the following: the election's identification data, the device's unit identification, the ballot's format identification, the contents of each active candidate register by office and of each active public question register showing that they contain all zero votes, all ballot fields that can be used to invoke special voting options, and other information needed to ensure the readiness of the equipment and to accommodate administrative reporting requirements. The judges must also check to be sure that the totals are all zeros in the counting columns and in the public counter affixed to the voting devices.

After the judges have determined that a person is qualified to vote, a voting device with the proper ballot to which the voter is entitled shall be enabled to be used by the voter. The ballot may then be cast by the voter by marking by appropriate means the designated area of the ballot for the casting of a vote for any candidate or for or against any public question. The voter shall be able to vote for any and all candidates and public measures appearing on the ballot in any legal number and combination and the voter shall be able to delete, change or correct his or her selections before the ballot is cast. The voter shall be able to select candidates whose names do not appear upon the ballot for any office by entering electronically as many names of candidates as the voter is entitled to select for each office.

Upon completing his or her selection of candidates or public questions, the voter shall signify that voting has been completed by activating the appropriate button, switch or active area of the ballot screen associated with end of voting. Upon activation, the voting system shall record an image of the completed ballot, increment the proper ballot position registers, and shall signify to the voter that the ballot has been cast.
cast. Upon activation, the voting system shall also print a permanent paper record of each ballot cast as defined in Section 24C-2 of this Code. This permanent paper record shall (i) be printed in a clear, readily readable format that can be easily reviewed by the voter for completeness and accuracy and (ii) either be self-contained within the voting device or be deposited by the voter into a secure ballot box. No permanent paper record shall be removed from the polling place except by election officials as authorized by this Article. All permanent paper records shall be preserved and secured by election officials in the same manner as paper ballots and shall be available as an official record for any recount, redundant count, or verification or retabulation of the vote count conducted with respect to any election in which the voting system is used. The voter shall exit the voting station and the voting system shall prevent any further attempt to vote until it has been properly re-activated. If a voting device has been enabled for voting but the voter leaves the polling place without casting a ballot, 2 judges of election, one from each of the 2 major political parties, shall spoil the ballot.

Throughout the election day and before the closing of the polls, no person may check any vote totals for any candidate or public question on the voting or counting equipment. Such equipment shall be programmed so that no person may reset the equipment for reentry of ballots unless provided the proper code from an authorized representative of the election authority.

The precinct judges of election shall check the public register to determine whether the number of ballots counted by the voting equipment agrees with the number of voters voting as shown by the applications for ballot. If the same do not agree, the judges of election shall immediately contact the offices of the election authority in charge of the election for further instructions. If the number of ballots counted by the voting equipment agrees with the number of voters voting as shown by the application for ballot, the number shall be listed on the "Statement of Ballots" form provided by the election authority.

Except as otherwise provided in this Section, the totals for all candidates and propositions shall be tabulated; and 4 copies of a

New matter indicated by italics - deletions by strikeout
"Certificate of Results" shall be printed by the automatic tabulating equipment; one copy shall be posted in a conspicuous place inside the polling place; and every effort shall be made by the judges of election to provide a copy for each authorized pollwatcher or other official authorized to be present in the polling place to observe the counting of ballots; but in no case shall the number of copies to be made available to pollwatchers be fewer than 4, chosen by lot by the judges of election. In addition, sufficient time shall be provided by the judges of election to the pollwatchers to allow them to copy information from the copy which has been posted.

Until December 31, 2007, in elections at which fractional cumulative votes are cast for candidates, the tabulation of those fractional cumulative votes may be made by the election authority at its central office location, and 4 copies of a "Certificate of Results" shall be printed by the automatic tabulation equipment and shall be posted in 4 conspicuous places at the central office location where those fractional cumulative votes have been tabulated.

If instructed by the election authority, the judges of election shall cause the tabulated returns to be transmitted electronically to the offices of the election authority via modem or other electronic medium.

The precinct judges of election shall select a bi-partisan team of 2 judges, who shall immediately return the ballots in a sealed container, along with all other election materials and equipment as instructed by the election authority; provided, however, that such container must first be sealed by the election judges with filament tape or other approved sealing devices provided for the purpose in a manner that the ballots cannot be removed from the container without breaking the seal or filament tape and disturbing any signatures affixed by the election judges to the container. The election authority shall keep the office of the election authority, or any receiving stations designated by the authority, open for at least 12 consecutive hours after the polls close or until the ballots and election material and equipment from all precincts within the jurisdiction of the election authority have been returned to the election authority. Ballots and election materials and equipment returned to the office of the election authority which are not signed and sealed as required by law shall not be
accepted by the election authority until the judges returning the ballots make and sign the necessary corrections. Upon acceptance of the ballots and election materials and equipment by the election authority, the judges returning the ballots shall take a receipt signed by the election authority and stamped with the time and date of the return. The election judges whose duty it is to return any ballots and election materials and equipment as provided shall, in the event the ballots, materials or equipment cannot be found when needed, on proper request, produce the receipt which they are to take as above provided.

(e) This Act applies, without limitation, to actions pending on or after the effective date of this Act, except to the extent prohibited under the Illinois or United States Constitution.

Section 5. The Illinois Income Tax Act is amended by re-enacting Sections 203, 502, 506.5, and 1301 and re-enacting and changing Section 917 as follows:

(35 ILCS 5/203) (from Ch. 120, par. 2-203)
Sec. 203. Base income defined.
(a) Individuals.

(1) In general. In the case of an individual, base income means an amount equal to the taxpayer's adjusted gross income for the taxable year as modified by paragraph (2).

(2) Modifications. The adjusted gross income referred to in paragraph (1) shall be modified by adding thereto the sum of the following amounts:

   (A) An amount equal to all amounts paid or accrued to the taxpayer as interest or dividends during the taxable year to the extent excluded from gross income in the computation of adjusted gross income, except stock dividends of qualified public utilities described in Section 305(e) of the Internal Revenue Code;

   (B) An amount equal to the amount of tax imposed by this Act to the extent deducted from gross income in the computation of adjusted gross income for the taxable year;

   (C) An amount equal to the amount received during the taxable year as a recovery or refund of real property taxes paid with respect to the taxpayer's principal residence under the Revenue Act of 1939 and for which a deduction was previously taken under subparagraph (L) of this paragraph (2) prior to July 1, 1991, the retrospective application date of Article 4 of Public Act 87-17. In the case of multi-unit or multi-use structures and farm dwellings, the taxes on the taxpayer's principal residence shall be that portion of the total taxes for the entire property which is attributable to such principal residence;

   (D) An amount equal to the amount of the capital gain deduction allowable under the Internal Revenue Code, to the extent deducted from gross income in the computation of adjusted gross income;

   (D-5) An amount, to the extent not included in adjusted gross income, equal to the amount of money withdrawn by the taxpayer in the taxable year from a

medical care savings account and the interest earned on the account in the taxable year of a withdrawal pursuant to subsection (b) of Section 20 of the Medical Care Savings Account Act or subsection (b) of Section 20 of the Medical Care Savings Account Act of 2000;

(D-10) For taxable years ending after December 31, 1997, an amount equal to any eligible remediation costs that the individual deducted in computing adjusted gross income and for which the individual claims a credit under subsection (l) of Section 201;

(D-15) For taxable years 2001 and thereafter, an amount equal to the bonus depreciation deduction (30% of the adjusted basis of the qualified property) taken on the taxpayer's federal income tax return for the taxable year under subsection (k) of Section 168 of the Internal Revenue Code;

(D-16) If the taxpayer reports a capital gain or loss on the taxpayer's federal income tax return for the taxable year based on a sale or transfer of property for which the taxpayer was required in any taxable year to make an addition modification under subparagraph (D-15), then an amount equal to the aggregate amount of the deductions taken in all taxable years under subparagraph (Z) with respect to that property.

The taxpayer is required to make the addition modification under this subparagraph only once with respect to any one piece of property;

(D-17) For taxable years ending on or after December 31, 2004, an amount equal to the amount otherwise allowed as a deduction in computing base income for interest paid, accrued, or incurred, directly or indirectly, to a foreign person who would be a member of the same unitary business group but for the fact that foreign person's business activity outside the United States is 80%
or more of the foreign person's total business activity. The addition modification required by this subparagraph shall be reduced to the extent that dividends were included in base income of the unitary group for the same taxable year and received by the taxpayer or by a member of the taxpayer's unitary business group (including amounts included in gross income under Sections 951 through 964 of the Internal Revenue Code and amounts included in gross income under Section 78 of the Internal Revenue Code) with respect to the stock of the same person to whom the interest was paid, accrued, or incurred.

This paragraph shall not apply to the following:

(i) an item of interest paid, accrued, or incurred, directly or indirectly, to a foreign person who is subject in a foreign country or state, other than a state which requires mandatory unitary reporting, to a tax on or measured by net income with respect to such interest; or

(ii) an item of interest paid, accrued, or incurred, directly or indirectly, to a foreign person if the taxpayer can establish, based on a preponderance of the evidence, both of the following:

(a) the foreign person, during the same taxable year, paid, accrued, or incurred, the interest to a person that is not a related member, and

(b) the transaction giving rise to the interest expense between the taxpayer and the foreign person did not have as a principal purpose the avoidance of Illinois income tax, and is paid pursuant to a contract or agreement that reflects an arm's-length interest rate and terms; or

(iii) the taxpayer can establish, based on clear and convincing evidence, that the interest paid, accrued, or incurred relates to a contract or agreement entered into at arm's-length rates and terms and the principal purpose for the payment is not federal or Illinois tax avoidance; or

(iv) an item of interest paid, accrued, or incurred, directly or indirectly, to a foreign person if the taxpayer establishes by clear and convincing evidence that the adjustments are unreasonable; or if the taxpayer and the Director agree in writing to the application or use of an alternative method of apportionment under Section 304(f).

Nothing in this subsection shall preclude the Director from making any other adjustment otherwise allowed under Section 404 of this Act for any tax year beginning after the effective date of this amendment provided such adjustment is made pursuant to regulation adopted by the Department and such regulations provide methods and standards by which the Department will utilize its authority under Section 404 of this Act;

(D-18) For taxable years ending on or after December 31, 2004, an amount equal to the amount of intangible expenses and costs otherwise allowed as a deduction in computing base income, and that were paid, accrued, or incurred, directly or indirectly, to a foreign person who would be a member of the same unitary business group but for the fact that the foreign person's business activity outside the United States is 80% or more of that person's total business activity. As used in this subparagraph, the term "intangible expenses and costs" includes (1) expenses, losses, and costs for, or related to, the direct or indirect acquisition, use, maintenance or management, ownership, sale, exchange, or any other disposition of intangible property; (2) losses incurred, directly or indirectly, from factoring transactions or discounting transactions; (3) royalty, patent, technical, and copyright fees; (4) licensing fees; and (5) other similar expenses and costs. For purposes of this subparagraph, "intangible property" includes patents, patent applications, trade marks, service marks, copyrights, mask works, trade secrets, and similar types of intangible assets.

This paragraph shall not apply to the following:

(i) any item of intangible expenses or costs paid, accrued, or incurred, directly or indirectly, from a transaction with a foreign person who is subject in a foreign country or state, other than a state which requires mandatory unitary reporting, to a tax on or measured by net income with respect to such item; or

(iii) any item of intangible expense or cost paid, accrued, or incurred, directly or indirectly, from a transaction with a foreign person if the taxpayer establishes by clear and convincing evidence, that the adjustments are unreasonable; or if the taxpayer and the Director agree in writing to the application or use of an alternative method of apportionment under Section 304(f);

Nothing in this subsection shall preclude the Director from making any other adjustment otherwise allowed under Section 404 of this Act for any tax year beginning after the effective date of this amendment provided such adjustment is made pursuant to regulation adopted by the Department and such regulations provide methods and standards by which the Department will utilize its authority under Section 404 of this Act;

(ii) an item of interest paid, accrued, or incurred, directly or indirectly, to a foreign person if the taxpayer can establish, based on a preponderance of the evidence, both of the following:

(a) the foreign person, during the same taxable year, paid, accrued, or incurred, the interest to a person that is not a related member, and

(b) the transaction giving rise to the interest expense between the taxpayer and the foreign person did not have as a principal purpose the avoidance of Illinois income tax, and is paid pursuant to a contract or agreement that reflects an arm's-length interest rate and terms; or

(iii) the taxpayer can establish, based on clear and convincing evidence, that the interest paid, accrued, or incurred relates to a contract or agreement entered into at arm's-length rates and terms and the principal purpose for the payment is not federal or Illinois tax avoidance; or

(iv) an item of interest paid, accrued, or incurred, directly or indirectly, to a foreign person if the taxpayer establishes by clear and convincing evidence that the adjustments are unreasonable; or if the taxpayer and the Director agree in writing to the application or use of an alternative method of apportionment under Section 304(f).

Nothing in this subsection shall preclude the Director from making any other adjustment otherwise allowed under Section 404 of this Act for any tax year beginning after the effective date of this amendment provided such adjustment is made pursuant to regulation adopted by the Department and such regulations provide methods and standards by which the Department will utilize its authority under Section 404 of this Act; and

(D-8) For taxable years ending on or after December 31, 2004, an amount equal to the amount of intangible expenses and costs otherwise allowed as a deduction in computing base income, and that were paid, accrued, or incurred, directly or indirectly, to a foreign person who would be a member of the same unitary business group but for the fact that the foreign person's business activity outside the United States is 80% or more of that person's total business activity. The addition modification required by this subparagraph shall be reduced to the extent that dividends were included in base income of the unitary group for the same taxable year and received by the
taxpayer or by a member of the taxpayer's unitary business group (including amounts included in gross income pursuant to Sections 951 through 964 of the Internal Revenue Code and amounts included in gross income under Section 78 of the Internal Revenue Code) with respect to the stock of the same person to whom the intangible expenses and costs were directly or indirectly paid, incurred or accrued. The preceding sentence shall not apply to the extent that the same dividends caused a reduction to the addition modification required under Section 203(d)(2)(D-7) of this Act. As used in this subparagraph, the term "intangible expenses and costs" includes (1) expenses, losses, and costs for, or related to, the direct or indirect acquisition, use, maintenance or management, ownership, sale, exchange, or any other disposition of intangible property; (2) losses incurred, directly or indirectly, from factoring transactions or discounting transactions; (3) royalty, patent, technical, and copyright fees; (4) licensing fees; and (5) other similar expenses and costs. For purposes of this subparagraph, "intangible property" includes patents, patent applications, trade names, trademarks, service marks, copyrights, mask works, trade secrets, and similar types of intangible assets;

This paragraph shall not apply to the following:

(i) any item of intangible expenses or costs paid, accrued, or incurred, directly or indirectly, from a transaction with a foreign person who is subject in a foreign country or state, other than a state which requires mandatory unitary reporting, to a tax on or measured by net income with respect to such item; or

(ii) any item of intangible expense or cost paid, accrued, or incurred, directly or indirectly, if the taxpayer can establish, based on a

preponderance of the evidence, both of the following:

(a) the foreign person during the same taxable year paid, accrued, or incurred, the intangible expense or cost to a person that is not a related member, and

(b) the transaction giving rise to the intangible expense or cost between the taxpayer and the foreign person did not have as a principal purpose the avoidance of Illinois income tax, and is paid pursuant to a contract or agreement that reflects arm's-length terms; or

(iii) any item of intangible expense or cost paid, accrued, or incurred, directly or indirectly, from a transaction with a foreign person if the taxpayer establishes by clear and convincing evidence, that the adjustments are unreasonable; or if the taxpayer and the Director agree in writing to the application or use of an alternative method of apportionment under Section 304(f);

Nothing in this subsection shall preclude the Director from making any other adjustment otherwise allowed under Section 404 of this Act for any tax year beginning after the effective date of this amendment provided such adjustment is made pursuant to regulation adopted by the Department and such regulations provide methods and standards by which the Department will utilize its authority under Section 404 of this Act;

and by deducting from the total so obtained the following amounts:

(E) The valuation limitation amount;

(F) An amount equal to the amount of any tax imposed by this Act which was refunded to the taxpayer and included in such total for the taxable year;

(G) An amount equal to all amounts included in taxable income as modified by subparagraphs (A), (B), (C) and (D) which are exempt from taxation by this State either by reason of its statutes or Constitution or by reason of the Constitution, treaties or statutes of the United States; provided that, in the case of any statute of this State that exempts income derived from bonds or other obligations from the tax imposed under this Act, the amount exempted shall be the interest net of bond premium amortization;

(H) Any income of the partnership which constitutes personal service income as defined in Section 1348 (b) (1) of the Internal Revenue Code (as in effect December 31, 1981) or a reasonable allowance for compensation paid or accrued for services rendered by partners to the partnership, whichever is greater;

(N) An amount equal to the amount of the deduction used to compute the federal income tax credit for restoration of substantial amounts held under claim of right for the taxable year pursuant to Section 1341 of the Internal Revenue Code of 1986;

(O) For taxable years 2001 and thereafter, for the taxable year in which the bonus depreciation deduction (30% of the adjusted basis of the qualified property) is taken on the taxpayer's federal income tax return under subsection (k) of Section 168 of the Internal Revenue Code and for each applicable taxable year thereafter, an amount equal to "x", where:

(1) "y" equals the amount of the depreciation deduction taken for the taxable year on the
taxpayer's federal income tax return on property for which the bonus depreciation deduction (30% of the adjusted basis of the qualified property) was taken in any year under subsection (k) of Section 168 of the Internal Revenue Code, but not including the bonus depreciation deduction; and

(2) "x" equals "y" multiplied by 30 and then divided by 70 (or "y" multiplied by 0.429).

The aggregate amount deducted under this subparagraph in all taxable years for any one piece of property may not exceed the amount of the bonus depreciation deduction (30% of the adjusted basis of the qualified property) taken on that property on the taxpayer's federal income tax return under subsection (k) of Section 168 of the Internal Revenue Code;

(P) If the taxpayer reports a capital gain or loss on the taxpayer's federal income tax return for the taxable year based on a sale or transfer of property for which the taxpayer was required in any taxable year to make an addition modification under subparagraph (D-5), then an amount equal to that addition modification.

The taxpayer is allowed to take the deduction under this subparagraph only once with respect to any one piece of property;

(Q) The amount of (i) any interest income (net of the deductions allocable thereto) taken into account for the taxable year with respect to a transaction with a taxpayer that is required to make an addition modification with respect to such transaction under Section 203(a)(2)(D-17), 203(b)(2)(E-12), 203(c)(2)(G-12), or 203(d)(2)(D-7), but not to exceed the amount of such addition modification and (ii) any income from intangible property (net of the deductions allocable thereto) taken into account for the taxable year with respect to a transaction with a taxpayer
that is required to make an addition modification with respect to such transaction under Section 203(a)(2)(D-18), 203(b)(2)(E-13), 203(c)(2)(G-13), or 203(d)(2)(D-8), but not to exceed the amount of such addition modification;

(R) An amount equal to the interest income taken into account for the taxable year (net of the deductions allocable thereto) with respect to transactions with a foreign person who would be a member of the taxpayer's unitary business group but for the fact that the foreign person's business activity outside the United States is 80% or more of that person's total business activity, but not to exceed the addition modification required to be made for the same taxable year under Section 203(d)(2)(D-7) for interest paid, accrued, or incurred, directly or indirectly, to the same foreign person; and

(S) An amount equal to the income from intangible property taken into account for the taxable year (net of the deductions allocable thereto) with respect to transactions with a foreign person who would be a member of the taxpayer's unitary business group but for the fact that the foreign person's business activity outside the United States is 80% or more of that person's total business activity, but not to exceed the addition modification required to be made for the same taxable year under Section 203(d)(2)(D-8) for intangible expenses and costs paid, accrued, or incurred, directly or indirectly, to the same foreign person.

(e) Gross income; adjusted gross income; taxable income.

(1) In general. Subject to the provisions of paragraph (2) and subsection (b) (3), for purposes of this Section and Section 803(e), a taxpayer's gross income, adjusted gross income, or taxable income for the taxable year shall mean the amount of gross income, adjusted gross income or taxable income properly reportable for federal income tax purposes for the taxable year under the provisions of the Internal Revenue Code. Taxable
income may be less than zero. However, for taxable years ending on or after December 31, 1986, net operating loss carryforwards from taxable years ending prior to December 31, 1986, may not exceed the sum of federal taxable income for the taxable year before net operating loss deduction, plus the excess of addition modifications over subtraction modifications for the taxable year. For taxable years ending prior to December 31, 1986, taxable income may never be an amount in excess of the net operating loss for the taxable year as defined in subsections (c) and (d) of Section 172 of the Internal Revenue Code, provided that when taxable income of a corporation (other than a Subchapter S corporation), trust, or estate is less than zero and addition modifications, other than those provided by subparagraph (E) of paragraph (2) of subsection (b) for corporations or subparagraph (E) of paragraph (2) of subsection (c) for trusts and estates, exceed subtraction modifications, an addition modification must be made under those subparagraphs for any other taxable year to which the taxable income less than zero (net operating loss) is applied under Section 172 of the Internal Revenue Code or under subparagraph (E) of paragraph (2) of this subsection (e) applied in conjunction with Section 172 of the Internal Revenue Code.

(2) Special rule. For purposes of paragraph (1) of this subsection, the taxable income properly reportable for federal income tax purposes shall mean:

(A) Certain life insurance companies. In the case of a life insurance company subject to the tax imposed by Section 801 of the Internal Revenue Code, life insurance company taxable income, plus the amount of distribution from pre-1984 policyholder surplus accounts as calculated under Section 815a of the Internal Revenue Code;

(B) Certain other insurance companies. In the case of mutual insurance companies subject to the tax imposed by Section 831 of the Internal Revenue Code, insurance company taxable income;

(C) Regulated investment companies. In the case of a regulated investment company subject to the tax imposed by Section 852 of the Internal Revenue Code, investment company taxable income;

(D) Real estate investment trusts. In the case of a real estate investment trust subject to the tax imposed by Section 857 of the Internal Revenue Code, real estate investment trust taxable income;

(E) Consolidated corporations. In the case of a corporation which is a member of an affiliated group of corporations filing a consolidated income tax return for the taxable year for federal income tax purposes, taxable income determined as if such corporation had filed a separate return for federal income tax purposes for the taxable year and each preceding taxable year for which it was a member of an affiliated group. For purposes of this subparagraph, the taxpayer's separate taxable income shall be determined as if the election provided by Section 243(b)(2) of the Internal Revenue Code had been in effect for all such years;

(F) Cooperatives. In the case of a cooperative corporation or association, the taxable income of such organization determined in accordance with the provisions of Section 1381 through 1388 of the Internal Revenue Code;

(G) Subchapter S corporations. In the case of: (i) a Subchapter S corporation for which there is in effect an election for the taxable year under Section 1362 of the Internal Revenue Code, the taxable income of such corporation determined in accordance with Section 1363(b) of the Internal Revenue Code, except that taxable income shall take into account those items which are required by Section 1363(b)(1) of the Internal Revenue Code to be separately stated; and (ii) a Subchapter S corporation for

which there is in effect a federal election to opt out of the
provisions of the Subchapter S Revision Act of 1982 and
have applied instead the prior federal Subchapter S rules as
in effect on July 1, 1982, the taxable income of such
corporation determined in accordance with the federal
Subchapter S rules as in effect on July 1, 1982; and

(H) Partnerships. In the case of a partnership,
taxable income determined in accordance with Section 703
of the Internal Revenue Code, except that taxable income
shall take into account those items which are required by
Section 703(a)(1) to be separately stated but which would
be taken into account by an individual in calculating his
taxable income.

(3) Recapture of business expenses on disposition of asset
or business. Notwithstanding any other law to the contrary, if in
prior years income from an asset or business has been classified as
business income and in a later year is demonstrated to be non-
business income, then all expenses, without limitation, deducted in
such later year and in the 2 immediately preceding taxable years
related to that asset or business that generated the non-business
income shall be added back and recaptured as business income in
the year of the disposition of the asset or business. Such amount
shall be apportioned to Illinois using the greater of the
apportionment fraction computed for the business under Section
304 of this Act for the taxable year or the average of the
apportionment fractions computed for the business under Section
304 of this Act for the taxable year and for the 2 immediately
preceding taxable years.

(f) Valuation limitation amount.

(1) In general. The valuation limitation amount referred to
in subsections (a) (2) (G), (c) (2) (I) and (d)(2) (E) is an amount
equal to:

(A) The sum of the pre-August 1, 1969 appreciation
amounts (to the extent consisting of gain reportable under

New matter indicated by italics - deletions by strikeout
the provisions of Section 1245 or 1250 of the Internal Revenue Code) for all property in respect of which such gain was reported for the taxable year; plus

(B) The lesser of (i) the sum of the pre-August 1, 1969 appreciation amounts (to the extent consisting of capital gain) for all property in respect of which such gain was reported for federal income tax purposes for the taxable year, or (ii) the net capital gain for the taxable year, reduced in either case by any amount of such gain included in the amount determined under subsection (a) (2) (F) or (c) (2) (H).

(2) Pre-August 1, 1969 appreciation amount.

(A) If the fair market value of property referred to in paragraph (1) was readily ascertainable on August 1, 1969, the pre-August 1, 1969 appreciation amount for such property is the lesser of (i) the excess of such fair market value over the taxpayer's basis (for determining gain) for such property on that date (determined under the Internal Revenue Code as in effect on that date), or (ii) the total gain realized and reportable for federal income tax purposes in respect of the sale, exchange or other disposition of such property.

(B) If the fair market value of property referred to in paragraph (1) was not readily ascertainable on August 1, 1969, the pre-August 1, 1969 appreciation amount for such property is that amount which bears the same ratio to the total gain reported in respect of the property for federal income tax purposes for the taxable year, as the number of full calendar months in that part of the taxpayer's holding period for the property ending July 31, 1969 bears to the number of full calendar months in the taxpayer's entire holding period for the property.
(C) The Department shall prescribe such regulations as may be necessary to carry out the purposes of this paragraph.

(g) Double deductions. Unless specifically provided otherwise, nothing in this Section shall permit the same item to be deducted more than once.

(h) Legislative intention. Except as expressly provided by this Section there shall be no modifications or limitations on the amounts of income, gain, loss or deduction taken into account in determining gross income, adjusted gross income or taxable income for federal income tax purposes for the taxable year, or in the amount of such items entering into the computation of base income and net income under this Act for such taxable year, whether in respect of property values as of August 1, 1969 or otherwise.

Sec. 502. Returns and notices.

(a) In general. A return with respect to the taxes imposed by this Act shall be made by every person for any taxable year:

(1) for which such person is liable for a tax imposed by this Act, or

(2) in the case of a resident or in the case of a corporation which is qualified to do business in this State, for which such person is required to make a federal income tax return, regardless of whether such person is liable for a tax imposed by this Act. However, this paragraph shall not require a resident to make a return if such person has an Illinois base income of the basic amount in Section 204(b) or less and is either claimed as a dependent on another person's tax return under the Internal Revenue Code of 1986, or is claimed as a dependent on another person's tax return under this Act.

(b) Fiduciaries and receivers.

(1) Decedents. If an individual is deceased, any return or notice required of such individual under this Act shall be made by his executor, administrator, or other person charged with the property of such decedent.

(2) Individuals under a disability. If an individual is unable to make a return or notice required under this Act, the return or notice required of such individual shall be made by his duly authorized agent, guardian, fiduciary or other person charged with the care of the person or property of such individual.

(3) Estates and trusts. Returns or notices required of an estate or a trust shall be made by the fiduciary thereof.

(4) Receivers, trustees and assignees for corporations. In a case where a receiver, trustee in bankruptcy, or assignee, by order of a court of competent jurisdiction, by operation of law, or otherwise, has possession of or holds title to all or substantially all the property or business of a corporation, whether or not such property or business is being operated, such receiver, trustee, or assignee shall make the returns and notices required of such corporation in the same manner and form as corporations are required to make such returns and notices.

(c) Joint returns by husband and wife.

(1) Except as provided in paragraph (3), if a husband and wife file a joint federal income tax return for a taxable year they shall file a joint return under this Act for such taxable year and their liabilities shall be joint and several, but if the federal income tax liability of either spouse is determined on a separate federal income tax return, they shall file separate returns under this Act.

(2) If neither spouse is required to file a federal income tax return and either or both are required to file a return under this Act, they may elect to file separate or joint returns and pursuant to such election their liabilities shall be separate or joint and several.

(3) If either husband or wife is a resident and the other is a nonresident, they shall file separate returns in this State on such

forms as may be required by the Department in which event their tax liabilities shall be separate; but they may elect to determine their joint net income and file a joint return as if both were residents and in such case, their liabilities shall be joint and several.

(4) Innocent spouses.

(A) However, for tax liabilities arising and paid prior to August 13, 1999, an innocent spouse shall be relieved of liability for tax (including interest and penalties) for any taxable year for which a joint return has been made, upon submission of proof that the Internal Revenue Service has made a determination under Section 6013(e) of the Internal Revenue Code, for the same taxable year, which determination relieved the spouse from liability for federal income taxes. If there is no federal income tax liability at issue for the same taxable year, the Department shall rely on the provisions of Section 6013(e) to determine whether the person requesting innocent spouse abatement of tax, penalty, and interest is entitled to that relief.

(B) For tax liabilities arising on and after August 13, 1999 or which arose prior to that date, but remain unpaid as of that date, if an individual who filed a joint return for any taxable year has made an election under this paragraph, the individual's liability for any tax shown on the joint return shall not exceed the individual's separate return amount and the individual's liability for any deficiency assessed for that taxable year shall not exceed the portion of the deficiency properly allocable to the individual. For purposes of this paragraph:

(i) An election properly made pursuant to Section 6015 of the Internal Revenue Code shall constitute an election under this paragraph, provided that the election shall not be effective until the individual has notified the Department of the

New matter indicated by italics - deletions by strikeout
election in the form and manner prescribed by the Department.

(ii) If no election has been made under Section 6015, the individual may make an election under this paragraph in the form and manner prescribed by the Department, provided that no election may be made if the Department finds that assets were transferred between individuals filing a joint return as part of a scheme by such individuals to avoid payment of Illinois income tax and the election shall not eliminate the individual's liability for any portion of a deficiency attributable to an error on the return of which the individual had actual knowledge as of the date of filing.

(iii) In determining the separate return amount or portion of any deficiency attributable to an individual, the Department shall follow the provisions in subsections (c) and (d) of Section 6015 of the Internal Revenue Code.

(iv) In determining the validity of an individual's election under subparagraph (ii) and in determining an electing individual's separate return amount or portion of any deficiency under subparagraph (iii), any determination made by the Secretary of the Treasury, by the United States Tax Court on petition for review of a determination by the Secretary of the Treasury, or on appeal from the United States Tax Court under Section 6015 of the Internal Revenue Code regarding criteria for eligibility or under subsection (d) of Section 6015 of the Internal Revenue Code regarding the allocation of any item of income, deduction, payment, or credit between an individual making the federal election and that individual's spouse shall be conclusively

presumed to be correct. With respect to any item that is not the subject of a determination by the Secretary of the Treasury or the federal courts, in any proceeding involving this subsection, the individual making the election shall have the burden of proof with respect to any item except that the Department shall have the burden of proof with respect to items in subdivision (ii).

(v) Any election made by an individual under this subsection shall apply to all years for which that individual and the spouse named in the election have filed a joint return.

(vi) After receiving a notice that the federal election has been made or after receiving an election under subdivision (ii), the Department shall take no collection action against the electing individual for any liability arising from a joint return covered by the election until the Department has notified the electing individual in writing that the election is invalid or of the portion of the liability the Department has allocated to the electing individual. Within 60 days (150 days if the individual is outside the United States) after the issuance of such notification, the individual may file a written protest of the denial of the election or of the Department's determination of the liability allocated to him or her and shall be granted a hearing within the Department under the provisions of Section 908. If a protest is filed, the Department shall take no collection action against the electing individual until the decision regarding the protest has become final under subsection (d) of Section 908 or, if administrative review of the Department's decision
is requested under Section 1201, until the decision of the court becomes final.

(d) Partnerships. Every partnership having any base income allocable to this State in accordance with section 305(c) shall retain information concerning all items of income, gain, loss and deduction; the names and addresses of all of the partners, or names and addresses of members of a limited liability company, or other persons who would be entitled to share in the base income of the partnership if distributed; the amount of the distributive share of each; and such other pertinent information as the Department may by forms or regulations prescribe. The partnership shall make that information available to the Department when requested by the Department.

(e) For taxable years ending on or after December 31, 1985, and before December 31, 1993, taxpayers that are corporations (other than Subchapter S corporations) having the same taxable year and that are members of the same unitary business group may elect to be treated as one taxpayer for purposes of any original return, amended return which includes the same taxpayers of the unitary group which joined in the election to file the original return, extension, claim for refund, assessment, collection and payment and determination of the group's tax liability under this Act. This subsection (e) does not permit the election to be made for some, but not all, of the purposes enumerated above. For taxable years ending on or after December 31, 1987, corporate members (other than Subchapter S corporations) of the same unitary business group making this subsection (e) election are not required to have the same taxable year.

For taxable years ending on or after December 31, 1993, taxpayers that are corporations (other than Subchapter S corporations) and that are members of the same unitary business group shall be treated as one taxpayer for purposes of any original return, amended return which includes the same taxpayers of the unitary group which joined in filing the original return, extension, claim for refund, assessment, collection and payment and determination of the group's tax liability under this Act.

(f) The Department may promulgate regulations to permit nonresident individual partners of the same partnership, nonresident
Subchapter S corporation shareholders of the same Subchapter S corporation, and nonresident individuals transacting an insurance business in Illinois under a Lloyds plan of operation, and nonresident individual members of the same limited liability company that is treated as a partnership under Section 1501 (a)(16) of this Act, to file composite individual income tax returns reflecting the composite income of such individuals allocable to Illinois and to make composite individual income tax payments. The Department may by regulation also permit such composite returns to include the income tax owed by Illinois residents attributable to their income from partnerships, Subchapter S corporations, insurance businesses organized under a Lloyds plan of operation, or limited liability companies that are treated as partnership under Section 1501(a)(16) of this Act, in which case such Illinois residents will be permitted to claim credits on their individual returns for their shares of the composite tax payments. This paragraph of subsection (f) applies to taxable years ending on or after December 31, 1987.

For taxable years ending on or after December 31, 1999, the Department may, by regulation, also permit any persons transacting an insurance business organized under a Lloyds plan of operation to file composite returns reflecting the income of such persons allocable to Illinois and the tax rates applicable to such persons under Section 201 and to make composite tax payments and shall, by regulation, also provide that the income and apportionment factors attributable to the transaction of an insurance business organized under a Lloyds plan of operation by any person joining in the filing of a composite return shall, for purposes of allocating and apportioning income under Article 3 of this Act and computing net income under Section 202 of this Act, be excluded from any other income and apportionment factors of that person or of any unitary business group, as defined in subdivision (a)(27) of Section 1501, to which that person may belong.

(g) The Department may adopt rules to authorize the electronic filing of any return required to be filed under this Section.

Sec. 917. Confidentiality and information sharing.

(a) Confidentiality. Except as provided in this Section, all information received by the Department from returns filed under this Act, or from any investigation conducted under the provisions of this Act, shall be confidential, except for official purposes within the Department or pursuant to official procedures for collection of any State tax or pursuant to an investigation or audit by the Illinois State Scholarship Commission of a delinquent student loan or monetary award or enforcement of any civil or criminal penalty or sanction imposed by this Act or by another statute imposing a State tax, and any person who divulges any such information in any manner, except for such purposes and pursuant to order of the Director or in accordance with a proper judicial order, shall be guilty of a Class A misdemeanor. However, the provisions of this paragraph are not applicable to information furnished to (i) the Department of Healthcare and Family Services (formerly Department of Public Aid), State's Attorneys, and the Attorney General for child support enforcement purposes and (ii) a licensed attorney representing the taxpayer where an appeal or a protest has been filed on behalf of the taxpayer. If it is

necessary to file information obtained pursuant to this Act in a child
support enforcement proceeding, the information shall be filed under seal.

(b) Public information. Nothing contained in this Act shall prevent
the Director from publishing or making available to the public the names
and addresses of persons filing returns under this Act, or from publishing
or making available reasonable statistics concerning the operation of the
tax wherein the contents of returns are grouped into aggregates in such a
way that the information contained in any individual return shall not be
disclosed.

(c) Governmental agencies. The Director may make available to
the Secretary of the Treasury of the United States or his delegate, or the
proper officer or his delegate of any other state imposing a tax upon or
measured by income, for exclusively official purposes, information
received by the Department in the administration of this Act, but such
permission shall be granted only if the United States or such other state, as
the case may be, grants the Department substantially similar privileges.
The Director may exchange information with the Illinois Department of
Healthcare and Family Services Public Aid and the Department of Human
Services (acting as successor to the Department of Public Aid under the
Department of Human Services Act) for the purpose of verifying sources
and amounts of income and for other purposes directly connected with the
administration of this Act and the Illinois Public Aid Code. The Director
may exchange information with the Director of the Department of
Employment Security for the purpose of verifying sources and amounts of
income and for other purposes directly connected with the administration
of this Act and Acts administered by the Department of Employment
Security. The Director may make available to the Illinois Workers' Compensating Commission information regarding employers for the
purpose of verifying the insurance coverage required under the Workers' Compensating Act and Workers' Occupational Diseases Act. The Director
may exchange information with the Illinois Department on Aging for the
purpose of verifying sources and amounts of income for purposes directly
related to confirming eligibility for participation in the programs of

benefits authorized by the Senior Citizens and Disabled Persons Property Tax Relief and Pharmaceutical Assistance Act.

The Director may make available to any State agency, including the Illinois Supreme Court, which licenses persons to engage in any occupation, information that a person licensed by such agency has failed to file returns under this Act or pay the tax, penalty and interest shown therein, or has failed to pay any final assessment of tax, penalty or interest due under this Act. The Director may make available to any State agency, including the Illinois Supreme Court, information regarding whether a bidder, contractor, or an affiliate of a bidder or contractor has failed to file returns under this Act or pay the tax, penalty, and interest shown therein, or has failed to pay any final assessment of tax, penalty, or interest due under this Act, for the limited purpose of enforcing bidder and contractor certifications. For purposes of this Section, the term "affiliate" means any entity that (1) directly, indirectly, or constructively controls another entity, (2) is directly, indirectly, or constructively controlled by another entity, or (3) is subject to the control of a common entity. For purposes of this subsection (a), an entity controls another entity if it owns, directly or individually, more than 10% of the voting securities of that entity. As used in this subsection (a), the term "voting security" means a security that (1) confers upon the holder the right to vote for the election of members of the board of directors or similar governing body of the business or (2) is convertible into, or entitles the holder to receive upon its exercise, a security that confers such a right to vote. A general partnership interest is a voting security.

The Director may make available to any State agency, including the Illinois Supreme Court, units of local government, and school districts, information regarding whether a bidder or contractor is an affiliate of a person who is not collecting and remitting Illinois Use taxes, for the limited purpose of enforcing bidder and contractor certifications.

The Director may also make available to the Secretary of State information that a corporation which has been issued a certificate of incorporation by the Secretary of State has failed to file returns under this Act or pay the tax, penalty and interest shown therein, or has failed to pay
any final assessment of tax, penalty or interest due under this Act. An assessment is final when all proceedings in court for review of such assessment have terminated or the time for the taking thereof has expired without such proceedings being instituted. For taxable years ending on or after December 31, 1987, the Director may make available to the Director or principal officer of any Department of the State of Illinois, information that a person employed by such Department has failed to file returns under this Act or pay the tax, penalty and interest shown therein. For purposes of this paragraph, the word "Department" shall have the same meaning as provided in Section 3 of the State Employees Group Insurance Act of 1971.

(d) The Director shall make available for public inspection in the Department's principal office and for publication, at cost, administrative decisions issued on or after January 1, 1995. These decisions are to be made available in a manner so that the following taxpayer information is not disclosed:

(1) The names, addresses, and identification numbers of the taxpayer, related entities, and employees.

(2) At the sole discretion of the Director, trade secrets or other confidential information identified as such by the taxpayer, no later than 30 days after receipt of an administrative decision, by such means as the Department shall provide by rule.

The Director shall determine the appropriate extent of the deletions allowed in paragraph (2). In the event the taxpayer does not submit deletions, the Director shall make only the deletions specified in paragraph (1).

The Director shall make available for public inspection and publication an administrative decision within 180 days after the issuance of the administrative decision. The term "administrative decision" has the same meaning as defined in Section 3-101 of Article III of the Code of Civil Procedure. Costs collected under this Section shall be paid into the Tax Compliance and Administration Fund.

(e) Nothing contained in this Act shall prevent the Director from divulging information to any person pursuant to a request or authorization

Sec. 1301. Willful and Fraudulent Acts. Any person who is subject to the provisions of this Act and who willfully fails to file a return, or who files a fraudulent return, or who willfully attempts in any other manner to evade or defeat any tax imposed by this Act or the payment thereof, or any accountant or other agent who knowingly enters false information on the return of any taxpayer under this Act, shall, in addition to other penalties, be guilty of a Class 4 felony for the first offense and a Class 3 felony for each subsequent offense. Any person who is subject to this Act and who willfully violates any rule or regulation of the Department for the administration and enforcement of this Act or who fails to keep books and records as required in this Act is, in addition to other penalties, guilty of a Class A misdemeanor. Any person whose commercial domicile or whose residence is in this State and who is charged with a violation under this Section shall be tried in the county where his commercial domicile or his residence is located unless he asserts a right to be tried in another venue. A prosecution for any act in violation of this Section may be commenced at any time within 5 years of the commission of that act.

Section 10. The Use Tax Act is amended by re-enacting Section 2 and re-enacting and changing Section 9 as follows:

(35 ILCS 105/2) (from Ch. 120, par. 439.2)

Sec. 2. "Use" means the exercise by any person of any right or power over tangible personal property incident to the ownership of that property, except that it does not include the sale of such property in any form as tangible personal property in the regular course of business to the extent that such property is not first subjected to a use for which it was purchased, and does not include the use of such property by its owner for demonstration purposes: Provided that the property purchased is deemed

New matter indicated by italics - deletions by strikeout
to be purchased for the purpose of resale, despite first being used, to the extent to which it is resold as an ingredient of an intentionally produced product or by-product of manufacturing. "Use" does not mean the demonstration use or interim use of tangible personal property by a retailer before he sells that tangible personal property. For watercraft or aircraft, if the period of demonstration use or interim use by the retailer exceeds 18 months, the retailer shall pay on the retailers' original cost price the tax imposed by this Act, and no credit for that tax is permitted if the watercraft or aircraft is subsequently sold by the retailer. "Use" does not mean the physical incorporation of tangible personal property, to the extent not first subjected to a use for which it was purchased, as an ingredient or constituent, into other tangible personal property (a) which is sold in the regular course of business or (b) which the person incorporating such ingredient or constituent therein has undertaken at the time of such purchase to cause to be transported in interstate commerce to destinations outside the State of Illinois: Provided that the property purchased is deemed to be purchased for the purpose of resale, despite first being used, to the extent to which it is resold as an ingredient of an intentionally produced product or by-product of manufacturing.

"Watercraft" means a Class 2, Class 3, or Class 4 watercraft as defined in Section 3-2 of the Boat Registration and Safety Act, a personal watercraft, or any boat equipped with an inboard motor.

"Purchase at retail" means the acquisition of the ownership of or title to tangible personal property through a sale at retail.

"Purchaser" means anyone who, through a sale at retail, acquires the ownership of tangible personal property for a valuable consideration.

"Sale at retail" means any transfer of the ownership of or title to tangible personal property to a purchaser, for the purpose of use, and not for the purpose of resale in any form as tangible personal property to the extent not first subjected to a use for which it was purchased, for a valuable consideration: Provided that the property purchased is deemed to be purchased for the purpose of resale, despite first being used, to the extent to which it is resold as an ingredient of an intentionally produced product or by-product of manufacturing. For this purpose, slag produced as
an incident to manufacturing pig iron or steel and sold is considered to be an intentionally produced by-product of manufacturing. "Sale at retail" includes any such transfer made for resale unless made in compliance with Section 2c of the Retailers' Occupation Tax Act, as incorporated by reference into Section 12 of this Act. Transactions whereby the possession of the property is transferred but the seller retains the title as security for payment of the selling price are sales.

"Sale at retail" shall also be construed to include any Illinois florist's sales transaction in which the purchase order is received in Illinois by a florist and the sale is for use or consumption, but the Illinois florist has a florist in another state deliver the property to the purchaser or the purchaser's donee in such other state.

Nonreusable tangible personal property that is used by persons engaged in the business of operating a restaurant, cafeteria, or drive-in is a sale for resale when it is transferred to customers in the ordinary course of business as part of the sale of food or beverages and is used to deliver, package, or consume food or beverages, regardless of where consumption of the food or beverages occurs. Examples of those items include, but are not limited to nonreusable, paper and plastic cups, plates, baskets, boxes, sleeves, buckets or other containers, utensils, straws, placemats, napkins, doggie bags, and wrapping or packaging materials that are transferred to customers as part of the sale of food or beverages in the ordinary course of business.

The purchase, employment and transfer of such tangible personal property as newsprint and ink for the primary purpose of conveying news (with or without other information) is not a purchase, use or sale of tangible personal property.

"Selling price" means the consideration for a sale valued in money whether received in money or otherwise, including cash, credits, property other than as hereinafter provided, and services, but not including the value of or credit given for traded-in tangible personal property where the item that is traded-in is of like kind and character as that which is being sold, and shall be determined without any deduction on account of the cost of the property sold, the cost of materials used, labor or service cost or any
other expense whatsoever, but does not include interest or finance charges which appear as separate items on the bill of sale or sales contract nor charges that are added to prices by sellers on account of the seller's tax liability under the "Retailers' Occupation Tax Act", or on account of the seller's duty to collect, from the purchaser, the tax that is imposed by this Act, or on account of the seller's tax liability under Section 8-11-1 of the Illinois Municipal Code, as heretofore and hereafter amended, or on account of the seller's tax liability under the "County Retailers' Occupation Tax Act". Effective December 1, 1985, "selling price" shall include charges that are added to prices by sellers on account of the seller's tax liability under the Cigarette Tax Act, on account of the seller's duty to collect, from the purchaser, the tax imposed under the Cigarette Use Tax Act, and on account of the seller's duty to collect, from the purchaser, any cigarette tax imposed by a home rule unit.

The phrase "like kind and character" shall be liberally construed (including but not limited to any form of motor vehicle for any form of motor vehicle, or any kind of farm or agricultural implement for any other kind of farm or agricultural implement), while not including a kind of item which, if sold at retail by that retailer, would be exempt from retailers' occupation tax and use tax as an isolated or occasional sale.

"Department" means the Department of Revenue.

"Person" means any natural individual, firm, partnership, association, joint stock company, joint adventure, public or private corporation, limited liability company, or a receiver, executor, trustee, guardian or other representative appointed by order of any court.

"Retailer" means and includes every person engaged in the business of making sales at retail as defined in this Section.

A person who holds himself or herself out as being engaged (or who habitually engages) in selling tangible personal property at retail is a retailer hereunder with respect to such sales (and not primarily in a service occupation) notwithstanding the fact that such person designs and produces such tangible personal property on special order for the purchaser and in such a way as to render the property of value only to such purchaser, if such tangible personal property so produced on special order

serves substantially the same function as stock or standard items of tangible personal property that are sold at retail.

A person whose activities are organized and conducted primarily as a not-for-profit service enterprise, and who engages in selling tangible personal property at retail (whether to the public or merely to members and their guests) is a retailer with respect to such transactions, excepting only a person organized and operated exclusively for charitable, religious or educational purposes either (1), to the extent of sales by such person to its members, students, patients or inmates of tangible personal property to be used primarily for the purposes of such person, or (2), to the extent of sales by such person of tangible personal property which is not sold or offered for sale by persons organized for profit. The selling of school books and school supplies by schools at retail to students is not "primarily for the purposes of" the school which does such selling. This paragraph does not apply to nor subject to taxation occasional dinners, social or similar activities of a person organized and operated exclusively for charitable, religious or educational purposes, whether or not such activities are open to the public.

A person who is the recipient of a grant or contract under Title VII of the Older Americans Act of 1965 (P.L. 92-258) and serves meals to participants in the federal Nutrition Program for the Elderly in return for contributions established in amount by the individual participant pursuant to a schedule of suggested fees as provided for in the federal Act is not a retailer under this Act with respect to such transactions.

Persons who engage in the business of transferring tangible personal property upon the redemption of trading stamps are retailers hereunder when engaged in such business.

The isolated or occasional sale of tangible personal property at retail by a person who does not hold himself out as being engaged (or who does not habitually engage) in selling such tangible personal property at retail or a sale through a bulk vending machine does not make such person a retailer hereunder. However, any person who is engaged in a business which is not subject to the tax imposed by the "Retailers' Occupation Tax Act" because of involving the sale of or a contract to sell real estate or a
construction contract to improve real estate, but who, in the course of conducting such business, transfers tangible personal property to users or consumers in the finished form in which it was purchased, and which does not become real estate, under any provision of a construction contract or real estate sale or real estate sales agreement entered into with some other person arising out of or because of such nontaxable business, is a retailer to the extent of the value of the tangible personal property so transferred. If, in such transaction, a separate charge is made for the tangible personal property so transferred, the value of such property, for the purposes of this Act, is the amount so separately charged, but not less than the cost of such property to the transferor; if no separate charge is made, the value of such property, for the purposes of this Act, is the cost to the transferor of such tangible personal property.

"Retailer maintaining a place of business in this State", or any like term, means and includes any of the following retailers:

1. A retailer having or maintaining within this State, directly or by a subsidiary, an office, distribution house, sales house, warehouse or other place of business, or any agent or other representative operating within this State under the authority of the retailer or its subsidiary, irrespective of whether such place of business or agent or other representative is located here permanently or temporarily, or whether such retailer or subsidiary is licensed to do business in this State. However, the ownership of property that is located at the premises of a printer with which the retailer has contracted for printing and that consists of the final printed product, property that becomes a part of the final printed product, or copy from which the printed product is produced shall not result in the retailer being deemed to have or maintain an office, distribution house, sales house, warehouse, or other place of business within this State.

2. A retailer soliciting orders for tangible personal property by means of a telecommunication or television shopping system (which utilizes toll free numbers) which is intended by the retailer...
to be broadcast by cable television or other means of broadcasting, to consumers located in this State.

3. A retailer, pursuant to a contract with a broadcaster or publisher located in this State, soliciting orders for tangible personal property by means of advertising which is disseminated primarily to consumers located in this State and only secondarily to bordering jurisdictions.

4. A retailer soliciting orders for tangible personal property by mail if the solicitations are substantial and recurring and if the retailer benefits from any banking, financing, debt collection, telecommunication, or marketing activities occurring in this State or benefits from the location in this State of authorized installation, servicing, or repair facilities.

5. A retailer that is owned or controlled by the same interests that own or control any retailer engaging in business in the same or similar line of business in this State.

6. A retailer having a franchisee or licensee operating under its trade name if the franchisee or licensee is required to collect the tax under this Section.

7. A retailer, pursuant to a contract with a cable television operator located in this State, soliciting orders for tangible personal property by means of advertising which is transmitted or distributed over a cable television system in this State.

8. A retailer engaging in activities in Illinois, which activities in the state in which the retail business engaging in such activities is located would constitute maintaining a place of business in that state.

"Bulk vending machine" means a vending machine, containing unsorted confections, nuts, toys, or other items designed primarily to be used or played with by children which, when a coin or coins of a denomination not larger than $0.50 are inserted, are dispensed in equal portions, at random and without selection by the customer.

Sec. 9. Except as to motor vehicles, watercraft, aircraft, and trailers that are required to be registered with an agency of this State, each retailer required or authorized to collect the tax imposed by this Act shall pay to the Department the amount of such tax (except as otherwise provided) at the time when he is required to file his return for the period during which such tax was collected, less a discount of 2.1% prior to January 1, 1990, and 1.75% on and after January 1, 1990, or $5 per calendar year, whichever is greater, which is allowed to reimburse the retailer for expenses incurred in collecting the tax, keeping records, preparing and filing returns, remitting the tax and supplying data to the Department on request. In the case of retailers who report and pay the tax on a transaction by transaction basis, as provided in this Section, such discount shall be taken with each such tax remittance instead of when such retailer files his periodic return. A retailer need not remit that part of any tax collected by him to the extent that he is required to remit and does remit the tax imposed by the Retailers' Occupation Tax Act, with respect to the sale of the same property.

Where such tangible personal property is sold under a conditional sales contract, or under any other form of sale wherein the payment of the principal sum, or a part thereof, is extended beyond the close of the period for which the return is filed, the retailer, in collecting the tax (except as to motor vehicles, watercraft, aircraft, and trailers that are required to be registered with an agency of this State), may collect for each tax return period, only the tax applicable to that part of the selling price actually received during such tax return period.

Except as provided in this Section, on or before the twentieth day of each calendar month, such retailer shall file a return for the preceding calendar month. Such return shall be filed on forms prescribed by the Department and shall furnish such information as the Department may reasonably require.

The Department may require returns to be filed on a quarterly basis. If so required, a return for each calendar quarter shall be filed on or before the twentieth day of the calendar month following the end of such calendar quarter. The taxpayer shall also file a return with the Department

New matter indicated by italics - deletions by strikeout
for each of the first two months of each calendar quarter, on or before the twentieth day of the following calendar month, stating:

1. The name of the seller;
2. The address of the principal place of business from which he engages in the business of selling tangible personal property at retail in this State;
3. The total amount of taxable receipts received by him during the preceding calendar month from sales of tangible personal property by him during such preceding calendar month, including receipts from charge and time sales, but less all deductions allowed by law;
4. The amount of credit provided in Section 2d of this Act;
5. The amount of tax due;
5-5. The signature of the taxpayer; and
6. Such other reasonable information as the Department may require.

If a taxpayer fails to sign a return within 30 days after the proper notice and demand for signature by the Department, the return shall be considered valid and any amount shown to be due on the return shall be deemed assessed.

Beginning October 1, 1993, a taxpayer who has an average monthly tax liability of $150,000 or more shall make all payments required by rules of the Department by electronic funds transfer. Beginning October 1, 1994, a taxpayer who has an average monthly tax liability of $100,000 or more shall make all payments required by rules of the Department by electronic funds transfer. Beginning October 1, 1995, a taxpayer who has an average monthly tax liability of $50,000 or more shall make all payments required by rules of the Department by electronic funds transfer. Beginning October 1, 2000, a taxpayer who has an annual tax liability of $200,000 or more shall make all payments required by rules of the Department by electronic funds transfer. The term "annual tax liability" shall be the sum of the taxpayer's liabilities under this Act, and under all other State and local occupation and use tax laws administered by the Department, for the immediately preceding calendar year. The term
"average monthly tax liability" means the sum of the taxpayer's liabilities under this Act, and under all other State and local occupation and use tax laws administered by the Department, for the immediately preceding calendar year divided by 12. Beginning on October 1, 2002, a taxpayer who has a tax liability in the amount set forth in subsection (b) of Section 2505-210 of the Department of Revenue Law shall make all payments required by rules of the Department by electronic funds transfer.

Before August 1 of each year beginning in 1993, the Department shall notify all taxpayers required to make payments by electronic funds transfer. All taxpayers required to make payments by electronic funds transfer shall make those payments for a minimum of one year beginning on October 1.

Any taxpayer not required to make payments by electronic funds transfer may make payments by electronic funds transfer with the permission of the Department.

All taxpayers required to make payment by electronic funds transfer and any taxpayers authorized to voluntarily make payments by electronic funds transfer shall make those payments in the manner authorized by the Department.

The Department shall adopt such rules as are necessary to effectuate a program of electronic funds transfer and the requirements of this Section.

Before October 1, 2000, if the taxpayer's average monthly tax liability to the Department under this Act, the Retailers' Occupation Tax Act, the Service Occupation Tax Act, the Service Use Tax Act was $10,000 or more during the preceding 4 complete calendar quarters, he shall file a return with the Department each month by the 20th day of the month next following the month during which such tax liability is incurred and shall make payments to the Department on or before the 7th, 15th, 22nd and last day of the month during which such liability is incurred. On and after October 1, 2000, if the taxpayer's average monthly tax liability to the Department under this Act, the Retailers' Occupation Tax Act, the Service Occupation Tax Act, and the Service Use Tax Act was $20,000 or more during the preceding 4 complete calendar quarters, he shall file a
return with the Department each month by the 20th day of the month next following the month during which such tax liability is incurred and shall make payment to the Department on or before the 7th, 15th, 22nd and last day of the month during which such liability is incurred. If the month during which such tax liability is incurred began prior to January 1, 1985, each payment shall be in an amount equal to 1/4 of the taxpayer's actual liability for the month or an amount set by the Department not to exceed 1/4 of the average monthly liability of the taxpayer to the Department for the preceding 4 complete calendar quarters (excluding the month of highest liability and the month of lowest liability in such 4 quarter period). If the month during which such tax liability is incurred begins on or after January 1, 1985, and prior to January 1, 1987, each payment shall be in an amount equal to 22.5% of the taxpayer's actual liability for the month or 27.5% of the taxpayer's liability for the same calendar month of the preceding year. If the month during which such tax liability is incurred begins on or after January 1, 1987, and prior to January 1, 1988, each payment shall be in an amount equal to 22.5% of the taxpayer's actual liability for the month or 26.25% of the taxpayer's liability for the same calendar month of the preceding year. If the month during which such tax liability is incurred begins on or after January 1, 1988, and prior to January 1, 1989, or begins on or after January 1, 1996, each payment shall be in an amount equal to 22.5% of the taxpayer's actual liability for the month or 25% of the taxpayer's liability for the same calendar month of the preceding year. If the month during which such tax liability is incurred begins on or after January 1, 1989, and prior to January 1, 1996, each payment shall be in an amount equal to 22.5% of the taxpayer's actual liability for the month or 25% of the taxpayer's liability for the same calendar month of the preceding year or 100% of the taxpayer's actual liability for the quarter monthly reporting period. The amount of such quarter monthly payments shall be credited against the final tax liability of the taxpayer's return for that month. Before October 1, 2000, once applicable, the requirement of the making of quarter monthly payments to the Department shall continue until such taxpayer's average monthly liability to the Department during the preceding 4 complete calendar quarters was.

quarters (excluding the month of highest liability and the month of lowest liability) is less than $9,000, or until such taxpayer's average monthly liability to the Department as computed for each calendar quarter of the 4 preceding complete calendar quarter period is less than $10,000. However, if a taxpayer can show the Department that a substantial change in the taxpayer's business has occurred which causes the taxpayer to anticipate that his average monthly tax liability for the reasonably foreseeable future will fall below the $10,000 threshold stated above, then such taxpayer may petition the Department for change in such taxpayer's reporting status. On and after October 1, 2000, once applicable, the requirement of the making of quarter monthly payments to the Department shall continue until such taxpayer's average monthly liability to the Department during the preceding 4 complete calendar quarters (excluding the month of highest liability and the month of lowest liability) is less than $19,000 or until such taxpayer's average monthly liability to the Department as computed for each calendar quarter of the 4 preceding complete calendar quarter period is less than $20,000. However, if a taxpayer can show the Department that a substantial change in the taxpayer's business has occurred which causes the taxpayer to anticipate that his average monthly tax liability for the reasonably foreseeable future will fall below the $20,000 threshold stated above, then such taxpayer may petition the Department for a change in such taxpayer's reporting status. The Department shall change such taxpayer's reporting status unless it finds that such change is seasonal in nature and not likely to be long term. If any such quarter monthly payment is not paid at the time or in the amount required by this Section, then the taxpayer shall be liable for penalties and interest on the difference between the minimum amount due and the amount of such quarter monthly payment actually and timely paid, except insofar as the taxpayer has previously made payments for that month to the Department in excess of the minimum payments previously due as provided in this Section. The Department shall make reasonable rules and regulations to govern the quarter monthly payment amount and quarter monthly payment dates for taxpayers who file on other than a calendar monthly basis.

New matter indicated by italics - deletions by strikeout
If any such payment provided for in this Section exceeds the taxpayer's liabilities under this Act, the Retailers' Occupation Tax Act, the Service Occupation Tax Act and the Service Use Tax Act, as shown by an original monthly return, the Department shall issue to the taxpayer a credit memorandum no later than 30 days after the date of payment, which memorandum may be submitted by the taxpayer to the Department in payment of tax liability subsequently to be remitted by the taxpayer to the Department or be assigned by the taxpayer to a similar taxpayer under this Act, the Retailers' Occupation Tax Act, the Service Occupation Tax Act or the Service Use Tax Act, in accordance with reasonable rules and regulations to be prescribed by the Department, except that if such excess payment is shown on an original monthly return and is made after December 31, 1986, no credit memorandum shall be issued, unless requested by the taxpayer. If no such request is made, the taxpayer may credit such excess payment against tax liability subsequently to be remitted by the taxpayer to the Department under this Act, the Retailers' Occupation Tax Act, the Service Occupation Tax Act or the Service Use Tax Act, in accordance with reasonable rules and regulations prescribed by the Department. If the Department subsequently determines that all or any part of the credit taken was not actually due to the taxpayer, the taxpayer's 2.1% or 1.75% vendor's discount shall be reduced by 2.1% or 1.75% of the difference between the credit taken and that actually due, and the taxpayer shall be liable for penalties and interest on such difference.

If the retailer is otherwise required to file a monthly return and if the retailer's average monthly tax liability to the Department does not exceed $200, the Department may authorize his returns to be filed on a quarter annual basis, with the return for January, February, and March of a given year being due by April 20 of such year; with the return for April, May and June of a given year being due by July 20 of such year; with the return for July, August and September of a given year being due by October 20 of such year, and with the return for October, November and December of a given year being due by January 20 of the following year.

If the retailer is otherwise required to file a monthly or quarterly return and if the retailer's average monthly tax liability to the Department
does not exceed $50, the Department may authorize his returns to be filed on an annual basis, with the return for a given year being due by January 20 of the following year.

Such quarter annual and annual returns, as to form and substance, shall be subject to the same requirements as monthly returns.

Notwithstanding any other provision in this Act concerning the time within which a retailer may file his return, in the case of any retailer who ceases to engage in a kind of business which makes him responsible for filing returns under this Act, such retailer shall file a final return under this Act with the Department not more than one month after discontinuing such business.

In addition, with respect to motor vehicles, watercraft, aircraft, and trailers that are required to be registered with an agency of this State, every retailer selling this kind of tangible personal property shall file, with the Department, upon a form to be prescribed and supplied by the Department, a separate return for each such item of tangible personal property which the retailer sells, except that if, in the same transaction, (i) a retailer of aircraft, watercraft, motor vehicles or trailers transfers more than one aircraft, watercraft, motor vehicle or trailer to another aircraft, watercraft, motor vehicle or trailer retailer for the purpose of resale or (ii) a retailer of aircraft, watercraft, motor vehicles, or trailers transfers more than one aircraft, watercraft, motor vehicle, or trailer to a purchaser for use as a qualifying rolling stock as provided in Section 3-55 of this Act, then that seller may report the transfer of all the aircraft, watercraft, motor vehicles or trailers involved in that transaction to the Department on the same uniform invoice-transaction reporting return form. For purposes of this Section, "watercraft" means a Class 2, Class 3, or Class 4 watercraft as defined in Section 3-2 of the Boat Registration and Safety Act, a personal watercraft, or any boat equipped with an inboard motor.

The transaction reporting return in the case of motor vehicles or trailers that are required to be registered with an agency of this State, shall be the same document as the Uniform Invoice referred to in Section 5-402 of the Illinois Vehicle Code and must show the name and address of the seller; the name and address of the purchaser; the amount of the selling
price including the amount allowed by the retailer for traded-in property, if any; the amount allowed by the retailer for the traded-in tangible personal property, if any, to the extent to which Section 2 of this Act allows an exemption for the value of traded-in property; the balance payable after deducting such trade-in allowance from the total selling price; the amount of tax due from the retailer with respect to such transaction; the amount of tax collected from the purchaser by the retailer on such transaction (or satisfactory evidence that such tax is not due in that particular instance, if that is claimed to be the fact); the place and date of the sale; a sufficient identification of the property sold; such other information as is required in Section 5-402 of the Illinois Vehicle Code, and such other information as the Department may reasonably require.

The transaction reporting return in the case of watercraft and aircraft must show the name and address of the seller; the name and address of the purchaser; the amount of the selling price including the amount allowed by the retailer for traded-in property, if any; the amount allowed by the retailer for the traded-in tangible personal property, if any, to the extent to which Section 2 of this Act allows an exemption for the value of traded-in property; the balance payable after deducting such trade-in allowance from the total selling price; the amount of tax due from the retailer with respect to such transaction; the amount of tax collected from the purchaser by the retailer on such transaction (or satisfactory evidence that such tax is not due in that particular instance, if that is claimed to be the fact); the place and date of the sale, a sufficient identification of the property sold, and such other information as the Department may reasonably require.

Such transaction reporting return shall be filed not later than 20 days after the date of delivery of the item that is being sold, but may be filed by the retailer at any time sooner than that if he chooses to do so. The transaction reporting return and tax remittance or proof of exemption from the tax that is imposed by this Act may be transmitted to the Department by way of the State agency with which, or State officer with whom, the tangible personal property must be titled or registered (if titling or registration is required) if the Department and such agency or State officer

determine that this procedure will expedite the processing of applications for title or registration.

With each such transaction reporting return, the retailer shall remit the proper amount of tax due (or shall submit satisfactory evidence that the sale is not taxable if that is the case), to the Department or its agents, whereupon the Department shall issue, in the purchaser's name, a tax receipt (or a certificate of exemption if the Department is satisfied that the particular sale is tax exempt) which such purchaser may submit to the agency with which, or State officer with whom, he must title or register the tangible personal property that is involved (if titling or registration is required) in support of such purchaser's application for an Illinois certificate or other evidence of title or registration to such tangible personal property.

No retailer's failure or refusal to remit tax under this Act precludes a user, who has paid the proper tax to the retailer, from obtaining his certificate of title or other evidence of title or registration (if titling or registration is required) upon satisfying the Department that such user has paid the proper tax (if tax is due) to the retailer. The Department shall adopt appropriate rules to carry out the mandate of this paragraph.

If the user who would otherwise pay tax to the retailer wants the transaction reporting return filed and the payment of tax or proof of exemption made to the Department before the retailer is willing to take these actions and such user has not paid the tax to the retailer, such user may certify to the fact of such delay by the retailer, and may (upon the Department being satisfied of the truth of such certification) transmit the information required by the transaction reporting return and the remittance for tax or proof of exemption directly to the Department and obtain his tax receipt or exemption determination, in which event the transaction reporting return and tax remittance (if a tax payment was required) shall be credited by the Department to the proper retailer's account with the Department, but without the 2.1% or 1.75% discount provided for in this Section being allowed. When the user pays the tax directly to the Department, he shall pay the tax in the same amount and in the same form
in which it would be remitted if the tax had been remitted to the Department by the retailer.

Where a retailer collects the tax with respect to the selling price of tangible personal property which he sells and the purchaser thereafter returns such tangible personal property and the retailer refunds the selling price thereof to the purchaser, such retailer shall also refund, to the purchaser, the tax so collected from the purchaser. When filing his return for the period in which he refunds such tax to the purchaser, the retailer may deduct the amount of the tax so refunded by him to the purchaser from any other use tax which such retailer may be required to pay or remit to the Department, as shown by such return, if the amount of the tax to be deducted was previously remitted to the Department by such retailer. If the retailer has not previously remitted the amount of such tax to the Department, he is entitled to no deduction under this Act upon refunding such tax to the purchaser.

Any retailer filing a return under this Section shall also include (for the purpose of paying tax thereon) the total tax covered by such return upon the selling price of tangible personal property purchased by him at retail from a retailer, but as to which the tax imposed by this Act was not collected from the retailer filing such return, and such retailer shall remit the amount of such tax to the Department when filing such return.

If experience indicates such action to be practicable, the Department may prescribe and furnish a combination or joint return which will enable retailers, who are required to file returns hereunder and also under the Retailers' Occupation Tax Act, to furnish all the return information required by both Acts on the one form.

Where the retailer has more than one business registered with the Department under separate registration under this Act, such retailer may not file each return that is due as a single return covering all such registered businesses, but shall file separate returns for each such registered business.

Beginning January 1, 1990, each month the Department shall pay into the State and Local Sales Tax Reform Fund, a special fund in the State Treasury which is hereby created, the net revenue realized for the
preceding month from the 1% tax on sales of food for human consumption which is to be consumed off the premises where it is sold (other than alcoholic beverages, soft drinks and food which has been prepared for immediate consumption) and prescription and nonprescription medicines, drugs, medical appliances and insulin, urine testing materials, syringes and needles used by diabetics.

Beginning January 1, 1990, each month the Department shall pay into the County and Mass Transit District Fund 4% of the net revenue realized for the preceding month from the 6.25% general rate on the selling price of tangible personal property which is purchased outside Illinois at retail from a retailer and which is titled or registered by an agency of this State's government.

Beginning January 1, 1990, each month the Department shall pay into the State and Local Sales Tax Reform Fund, a special fund in the State Treasury, 20% of the net revenue realized for the preceding month from the 6.25% general rate on the selling price of tangible personal property, other than tangible personal property which is purchased outside Illinois at retail from a retailer and which is titled or registered by an agency of this State's government.

Beginning August 1, 2000, each month the Department shall pay into the State and Local Sales Tax Reform Fund 100% of the net revenue realized for the preceding month from the 1.25% rate on the selling price of motor fuel and gasohol.

Beginning January 1, 1990, each month the Department shall pay into the Local Government Tax Fund 16% of the net revenue realized for the preceding month from the 6.25% general rate on the selling price of tangible personal property which is purchased outside Illinois at retail from a retailer and which is titled or registered by an agency of this State's government.

Of the remainder of the moneys received by the Department pursuant to this Act, (a) 1.75% thereof shall be paid into the Build Illinois Fund and (b) prior to July 1, 1989, 2.2% and on and after July 1, 1989, 3.8% thereof shall be paid into the Build Illinois Fund; provided, however, that if in any fiscal year the sum of (1) the aggregate of 2.2% or 3.8%, as

the case may be, of the moneys received by the Department and required to
be paid into the Build Illinois Fund pursuant to Section 3 of the Retailers' Occupation Tax Act, Section 9 of the Use Tax Act, Section 9 of the Service Use Tax Act, and Section 9 of the Service Occupation Tax Act, such Acts being hereinafter called the "Tax Acts" and such aggregate of 2.2% or 3.8%, as the case may be, of moneys being hereinafter called the "Tax Act Amount", and (2) the amount transferred to the Build Illinois Fund from the State and Local Sales Tax Reform Fund shall be less than the Annual Specified Amount (as defined in Section 3 of the Retailers' Occupation Tax Act), an amount equal to the difference shall be immediately paid into the Build Illinois Fund from other moneys received by the Department pursuant to the Tax Acts; and further provided, that if on the last business day of any month the sum of (1) the Tax Act Amount required to be deposited into the Build Illinois Bond Account in the Build Illinois Fund during such month and (2) the amount transferred during such month to the Build Illinois Fund from the State and Local Sales Tax Reform Fund shall have been less than 1/12 of the Annual Specified Amount, an amount equal to the difference shall be immediately paid into the Build Illinois Fund from other moneys received by the Department pursuant to the Tax Acts; and, further provided, that in no event shall the payments required under the preceding proviso result in aggregate payments into the Build Illinois Fund pursuant to this clause (b) for any fiscal year in excess of the greater of (i) the Tax Act Amount or (ii) the Annual Specified Amount for such fiscal year; and, further provided, that the amounts payable into the Build Illinois Fund under this clause (b) shall be payable only until such time as the aggregate amount on deposit under each trust indenture securing Bonds issued and outstanding pursuant to the Build Illinois Bond Act is sufficient, taking into account any future investment income, to fully provide, in accordance with such indenture, for the defeasance of or the payment of the principal of, premium, if any, and interest on the Bonds secured by such indenture and on any Bonds expected to be issued thereafter and all fees and costs payable with respect thereto, all as certified by the Director of the Bureau of the Budget (now Governor's Office of Management and Budget). If on the last business day

of any month in which Bonds are outstanding pursuant to the Build Illinois Bond Act, the aggregate of the moneys deposited in the Build Illinois Bond Account in the Build Illinois Fund in such month shall be less than the amount required to be transferred in such month from the Build Illinois Bond Account to the Build Illinois Bond Retirement and Interest Fund pursuant to Section 13 of the Build Illinois Bond Act, an amount equal to such deficiency shall be immediately paid from other moneys received by the Department pursuant to the Tax Acts to the Build Illinois Fund; provided, however, that any amounts paid to the Build Illinois Fund in any fiscal year pursuant to this sentence shall be deemed to constitute payments pursuant to clause (b) of the preceding sentence and shall reduce the amount otherwise payable for such fiscal year pursuant to clause (b) of the preceding sentence. The moneys received by the Department pursuant to this Act and required to be deposited into the Build Illinois Fund are subject to the pledge, claim and charge set forth in Section 12 of the Build Illinois Bond Act.

Subject to payment of amounts into the Build Illinois Fund as provided in the preceding paragraph or in any amendment thereto hereafter enacted, the following specified monthly installment of the amount requested in the certificate of the Chairman of the Metropolitan Pier and Exposition Authority provided under Section 8.25f of the State Finance Act, but not in excess of the sums designated as "Total Deposit", shall be deposited in the aggregate from collections under Section 9 of the Use Tax Act, Section 9 of the Service Use Tax Act, Section 9 of the Service Occupation Tax Act, and Section 3 of the Retailers' Occupation Tax Act into the McCormick Place Expansion Project Fund in the specified fiscal years.

each fiscal year thereafter that bonds are outstanding under Section 13.2 of the Metropolitan Pier and Exposition Authority Act, but not after fiscal year 2042.

Beginning July 20, 1993 and in each month of each fiscal year thereafter, one-eighth of the amount requested in the certificate of the Chairman of the Metropolitan Pier and Exposition Authority for that fiscal year, less the amount deposited into the McCormick Place Expansion Project Fund by the State Treasurer in the respective month under subsection (g) of Section 13 of the Metropolitan Pier and Exposition Authority Act, plus cumulative deficiencies in the deposits required under this Section for previous months and years, shall be deposited into the McCormick Place Expansion Project Fund, until the full amount requested for the fiscal year, but not in excess of the amount specified above as "Total Deposit", has been deposited.

Subject to payment of amounts into the Build Illinois Fund and the McCormick Place Expansion Project Fund pursuant to the preceding paragraphs or in any amendments thereto hereafter enacted, beginning July 1, 1993, the Department shall each month pay into the Illinois Tax Increment Fund 0.27% of 80% of the net revenue realized for the preceding month from the 6.25% general rate on the selling price of tangible personal property.

Subject to payment of amounts into the Build Illinois Fund and the McCormick Place Expansion Project Fund pursuant to the preceding paragraphs or in any amendments thereto hereafter enacted, beginning with the receipt of the first report of taxes paid by an eligible business and continuing for a 25-year period, the Department shall each month pay into the Energy Infrastructure Fund 80% of the net revenue realized from the 6.25% general rate on the selling price of Illinois-mined coal that was sold to an eligible business. For purposes of this paragraph, the term "eligible business" means a new electric generating facility certified pursuant to Section 605-332 of the Department of Commerce and Economic Opportunity Community Affairs Law of the Civil Administrative Code of Illinois.

Of the remainder of the moneys received by the Department pursuant to this Act, 75% thereof shall be paid into the State Treasury and 25% shall be reserved in a special account and used only for the transfer to
the Common School Fund as part of the monthly transfer from the General Revenue Fund in accordance with Section 8a of the State Finance Act.

As soon as possible after the first day of each month, upon certification of the Department of Revenue, the Comptroller shall order transferred and the Treasurer shall transfer from the General Revenue Fund to the Motor Fuel Tax Fund an amount equal to 1.7% of 80% of the net revenue realized under this Act for the second preceding month. Beginning April 1, 2000, this transfer is no longer required and shall not be made.

Net revenue realized for a month shall be the revenue collected by the State pursuant to this Act, less the amount paid out during that month as refunds to taxpayers for overpayment of liability.

For greater simplicity of administration, manufacturers, importers and wholesalers whose products are sold at retail in Illinois by numerous retailers, and who wish to do so, may assume the responsibility for accounting and paying to the Department all tax accruing under this Act with respect to such sales, if the retailers who are affected do not make written objection to the Department to this arrangement.

Sec. 9. Each serviceman required or authorized to collect the tax herein imposed shall pay to the Department the amount of such tax (except as otherwise provided) at the time when he is required to file his return for the period during which such tax was collected, less a discount of 2.1% prior to January 1, 1990 and 1.75% on and after January 1, 1990, or $5 per calendar year, whichever is greater, which is allowed to reimburse the serviceman for expenses incurred in collecting the tax, keeping records, preparing and filing returns, remitting the tax and supplying data to the Department on request. collected by him to the extent that he is required to pay and does pay the
tax imposed by the Service Occupation Tax Act with respect to his sale of
service involving the incidental transfer by him of the same property.

Except as provided hereinafter in this Section, on or before the
twentieth day of each calendar month, such serviceman shall file a return
for the preceding calendar month in accordance with reasonable Rules and
Regulations to be promulgated by the Department. Such return shall be
filed on a form prescribed by the Department and shall contain such
information as the Department may reasonably require.

The Department may require returns to be filed on a quarterly
basis. If so required, a return for each calendar quarter shall be filed on or
before the twentieth day of the calendar month following the end of such
calendar quarter. The taxpayer shall also file a return with the Department
for each of the first two months of each calendar quarter, on or before the
twentieth day of the following calendar month, stating:
  1. The name of the seller;
  2. The address of the principal place of business from
     which he engages in business as a serviceman in this State;
  3. The total amount of taxable receipts received by him
during the preceding calendar month, including receipts from
     charge and time sales, but less all deductions allowed by law;
  4. The amount of credit provided in Section 2d of this Act;
  5. The amount of tax due;
  5-5. The signature of the taxpayer; and
  6. Such other reasonable information as the Department
     may require.

If a taxpayer fails to sign a return within 30 days after the proper
notice and demand for signature by the Department, the return shall be
considered valid and any amount shown to be due on the return shall be
deemed assessed.

Beginning October 1, 1993, a taxpayer who has an average
monthly tax liability of $150,000 or more shall make all payments
required by rules of the Department by electronic funds transfer.
Beginning October 1, 1994, a taxpayer who has an average monthly tax
liability of $100,000 or more shall make all payments required by rules of
the Department by electronic funds transfer. Beginning October 1, 1995, a
taxpayer who has an average monthly tax liability of $50,000 or more shall
make all payments required by rules of the Department by electronic funds
transfer. Beginning October 1, 2000, a taxpayer who has an annual tax
liability of $200,000 or more shall make all payments required by rules of
the Department by electronic funds transfer. The term "annual tax liability"
shall be the sum of the taxpayer's liabilities under this Act, and under all
other State and local occupation and use tax laws administered by the
Department, for the immediately preceding calendar year. The term "average
monthly tax liability" means the sum of the taxpayer's liabilities under this Act, and under all other State and local occupation and use tax
laws administered by the Department, for the immediately preceding
calendar year divided by 12. Beginning on October 1, 2002, a taxpayer
who has a tax liability in the amount set forth in subsection (b) of Section
2505-210 of the Department of Revenue Law shall make all payments
required by rules of the Department by electronic funds transfer.

Before August 1 of each year beginning in 1993, the Department
shall notify all taxpayers required to make payments by electronic funds
transfer. All taxpayers required to make payments by electronic funds
transfer shall make those payments for a minimum of one year beginning
on October 1.

Any taxpayer not required to make payments by electronic funds
transfer may make payments by electronic funds transfer with the
permission of the Department.

All taxpayers required to make payment by electronic funds
transfer and any taxpayers authorized to voluntarily make payments by
electronic funds transfer shall make those payments in the manner
authorized by the Department.

The Department shall adopt such rules as are necessary to
effectuate a program of electronic funds transfer and the requirements of
this Section.

If the serviceman is otherwise required to file a monthly or quarterly return and if the serviceman's average monthly tax liability to the Department does not exceed $50, the Department may authorize his returns to be filed on an annual basis, with the return for a given year being due by January 20 of the following year.

Such quarter annual and annual returns, as to form and substance, shall be subject to the same requirements as monthly returns.

Notwithstanding any other provision in this Act concerning the time within which a serviceman may file his return, in the case of any serviceman who ceases to engage in a kind of business which makes him responsible for filing returns under this Act, such serviceman shall file a final return under this Act with the Department not more than 1 month after discontinuing such business.

Where a serviceman collects the tax with respect to the selling price of property which he sells and the purchaser thereafter returns such property and the serviceman refunds the selling price thereof to the purchaser, such serviceman shall also refund, to the purchaser, the tax so collected from the purchaser. When filing his return for the period in which he refunds such tax to the purchaser, the serviceman may deduct the amount of the tax so refunded by him to the purchaser from any other Service Use Tax, Service Occupation Tax, retailers' occupation tax or use tax which such serviceman may be required to pay or remit to the Department, as shown by such return, provided that the amount of the tax to be deducted shall previously have been remitted to the Department by such serviceman. If the serviceman shall not previously have remitted the amount of such tax to the Department, he shall be entitled to no deduction hereunder upon refunding such tax to the purchaser.

Any serviceman filing a return hereunder shall also include the total tax upon the selling price of tangible personal property purchased for use by him as an incident to a sale of service, and such serviceman shall remit the amount of such tax to the Department when filing such return.

If experience indicates such action to be practicable, the Department may prescribe and furnish a combination or joint return which will enable servicemen, who are required to file returns hereunder and also under the Service Occupation Tax Act, to furnish all the return information required by both Acts on the one form.

Where the serviceman has more than one business registered with the Department under separate registration hereunder, such serviceman shall not file each return that is due as a single return covering all such registered businesses, but shall file separate returns for each such registered business.

Beginning January 1, 1990, each month the Department shall pay into the State and Local Tax Reform Fund, a special fund in the State Treasury, the net revenue realized for the preceding month from the 1% tax on sales of food for human consumption which is to be consumed off the premises where it is sold (other than alcoholic beverages, soft drinks and food which has been prepared for immediate consumption) and prescription and nonprescription medicines, drugs, medical appliances and insulin, urine testing materials, syringes and needles used by diabetics.

Beginning January 1, 1990, each month the Department shall pay into the State and Local Sales Tax Reform Fund 20% of the net revenue realized for the preceding month from the 6.25% general rate on transfers of tangible personal property, other than tangible personal property which is purchased outside Illinois at retail from a retailer and which is titled or registered by an agency of this State's government.

Beginning August 1, 2000, each month the Department shall pay into the State and Local Sales Tax Reform Fund 100% of the net revenue realized for the preceding month from the 1.25% rate on the selling price of motor fuel and gasohol.

the case may be, of the moneys received by the Department and required to 
be paid into the Build Illinois Fund pursuant to Section 3 of the Retailers' 
Occupation Tax Act, Section 9 of the Use Tax Act, Section 9 of the 
Service Use Tax Act, and Section 9 of the Service Occupation Tax Act, 
such Acts being hereinafter called the "Tax Acts" and such aggregate of 
2.2% or 3.8%, as the case may be, of moneys being hereinafter called the 
"Tax Act Amount", and (2) the amount transferred to the Build Illinois 
Fund from the State and Local Sales Tax Reform Fund shall be less than 
the Annual Specified Amount (as defined in Section 3 of the Retailers' 
Occupation Tax Act), an amount equal to the difference shall be 
immediately paid into the Build Illinois Fund from other moneys received 
by the Department pursuant to the Tax Acts; and further provided, that if 
on the last business day of any month the sum of (1) the Tax Act Amount 
required to be deposited into the Build Illinois Bond Account in the Build 
Illinois Fund during such month and (2) the amount transferred during 
such month to the Build Illinois Fund from the State and Local Sales Tax 
Reform Fund shall have been less than 1/12 of the Annual Specified 
Amount, an amount equal to the difference shall be immediately paid into 
the Build Illinois Fund from other moneys received by the Department 
pursuant to the Tax Acts; and, further provided, that in no event shall the 
payments required under the preceding proviso result in aggregate 
payments into the Build Illinois Fund pursuant to this clause (b) for any 
fiscal year in excess of the greater of (i) the Tax Act Amount or (ii) the 
Annual Specified Amount for such fiscal year; and, further provided, that 
the amounts payable into the Build Illinois Fund under this clause (b) shall 
be payable only until such time as the aggregate amount on deposit under 
each trust indenture securing Bonds issued and outstanding pursuant to the 
Build Illinois Bond Act is sufficient, taking into account any future 
investment income, to fully provide, in accordance with such indenture, 
for the defeasance of or the payment of the principal of, premium, if any, 
and interest on the Bonds secured by such indenture and on any Bonds
expected to be issued thereafter and all fees and costs payable with respect thereto, all as certified by the Director of the Bureau of the Budget (now Governor's Office of Management and Budget). If on the last business day of any month in which Bonds are outstanding pursuant to the Build Illinois Bond Act, the aggregate of the moneys deposited in the Build Illinois Bond Account in the Build Illinois Fund in such month shall be less than the amount required to be transferred in such month from the Build Illinois Bond Account to the Build Illinois Bond Retirement and Interest Fund pursuant to Section 13 of the Build Illinois Bond Act, an amount equal to such deficiency shall be immediately paid from other moneys received by the Department pursuant to the Tax Acts to the Build Illinois Fund; provided, however, that any amounts paid to the Build Illinois Fund in any fiscal year pursuant to this sentence shall be deemed to constitute payments pursuant to clause (b) of the preceding sentence and shall reduce the amount otherwise payable for such fiscal year pursuant to clause (b) of the preceding sentence. The moneys received by the Department pursuant to this Act and required to be deposited into the Build Illinois Fund are subject to the pledge, claim and charge set forth in Section 12 of the Build Illinois Bond Act.

but not after fiscal year 2042.

Beginning July 20, 1993 and in each month of each fiscal year thereafter, one-eighth of the amount requested in the certificate of the Chairman of the Metropolitan Pier and Exposition Authority for that fiscal year, less the amount deposited into the McCormick Place Expansion Project Fund by the State Treasurer in the respective month under subsection (g) of Section 13 of the Metropolitan Pier and Exposition Authority Act, plus cumulative deficiencies in the deposits required under this Section for previous months and years, shall be deposited into the McCormick Place Expansion Project Fund, until the full amount requested for the fiscal year, but not in excess of the amount specified above as "Total Deposit", has been deposited.

Subject to payment of amounts into the Build Illinois Fund and the McCormick Place Expansion Project Fund pursuant to the preceding paragraphs or in any amendments thereto hereafter enacted, beginning July 1, 1993, the Department shall each month pay into the Illinois Tax Increment Fund 0.27% of 80% of the net revenue realized for the preceding month from the 6.25% general rate on the selling price of tangible personal property.

Subject to payment of amounts into the Build Illinois Fund and the McCormick Place Expansion Project Fund pursuant to the preceding paragraphs or in any amendments thereto hereafter enacted, beginning with the receipt of the first report of taxes paid by an eligible business and continuing for a 25-year period, the Department shall each month pay into the Energy Infrastructure Fund 80% of the net revenue realized from the 6.25% general rate on the selling price of Illinois-mined coal that was sold to an eligible business. For purposes of this paragraph, the term "eligible business" means a new electric generating facility certified pursuant to Section 605-332 of the Department of Commerce and Economic Opportunity Community Affairs Law of the Civil Administrative Code of Illinois.

All remaining moneys received by the Department pursuant to this Act shall be paid into the General Revenue Fund of the State Treasury.

Beginning April 1, 2000, this transfer is no longer required and shall not be made.

Net revenue realized for a month shall be the revenue collected by the State pursuant to this Act, less the amount paid out during that month as refunds to taxpayers for overpayment of liability.

Section 20. The Service Occupation Tax Act is amended by re-enacting Section 9 as follows:

(35 ILCS 115/9) (from Ch. 120, par. 439.109)
Sec. 9. Each serviceman required or authorized to collect the tax herein imposed shall pay to the Department the amount of such tax at the time when he is required to file his return for the period during which such tax was collectible, less a discount of 2.1% prior to January 1, 1990, and 1.75% on and after January 1, 1990, or $5 per calendar year, whichever is greater, which is allowed to reimburse the serviceman for expenses incurred in collecting the tax, keeping records, preparing and filing returns, remitting the tax and supplying data to the Department on request.

Where such tangible personal property is sold under a conditional sales contract, or under any other form of sale wherein the payment of the principal sum, or a part thereof, is extended beyond the close of the period for which the return is filed, the serviceman, in collecting the tax may collect, for each tax return period, only the tax applicable to the part of the selling price actually received during such tax return period.

Except as provided hereinafter in this Section, on or before the twentieth day of each calendar month, such serviceman shall file a return for the preceding calendar month in accordance with reasonable rules and regulations to be promulgated by the Department of Revenue. Such return

shall be filed on a form prescribed by the Department and shall contain such information as the Department may reasonably require.

The Department may require returns to be filed on a quarterly basis. If so required, a return for each calendar quarter shall be filed on or before the twentieth day of the calendar month following the end of such calendar quarter. The taxpayer shall also file a return with the Department for each of the first two months of each calendar quarter, on or before the twentieth day of the following calendar month, stating:

1. The name of the seller;
2. The address of the principal place of business from which he engages in business as a serviceman in this State;
3. The total amount of taxable receipts received by him during the preceding calendar month, including receipts from charge and time sales, but less all deductions allowed by law;
4. The amount of credit provided in Section 2d of this Act;
5. The amount of tax due;
5-5. The signature of the taxpayer; and
6. Such other reasonable information as the Department may require.

If a taxpayer fails to sign a return within 30 days after the proper notice and demand for signature by the Department, the return shall be considered valid and any amount shown to be due on the return shall be deemed assessed.

Prior to October 1, 2003, and on and after September 1, 2004 a serviceman may accept a Manufacturer's Purchase Credit certification from a purchaser in satisfaction of Service Use Tax as provided in Section 3-70 of the Service Use Tax Act if the purchaser provides the appropriate documentation as required by Section 3-70 of the Service Use Tax Act. A Manufacturer's Purchase Credit certification, accepted prior to October 1, 2003 or on or after September 1, 2004 by a serviceman as provided in Section 3-70 of the Service Use Tax Act, may be used by that serviceman to satisfy Service Occupation Tax liability in the amount claimed in the certification, not to exceed 6.25% of the receipts subject to tax from a qualifying purchase. A Manufacturer's Purchase Credit reported on any

original or amended return filed under this Act after October 20, 2003 for reporting periods prior to September 1, 2004 shall be disallowed. Manufacturer's Purchase Credit reported on annual returns due on or after January 1, 2005 will be disallowed for periods prior to September 1, 2004. No Manufacturer's Purchase Credit may be used after September 30, 2003 through August 31, 2004 to satisfy any tax liability imposed under this Act, including any audit liability.

If the serviceman's average monthly tax liability to the Department does not exceed $200, the Department may authorize his returns to be filed on a quarter annual basis, with the return for January, February and March of a given year being due by April 20 of such year; with the return for April, May and June of a given year being due by July 20 of such year; with the return for July, August and September of a given year being due by October 20 of such year, and with the return for October, November and December of a given year being due by January 20 of the following year.

If the serviceman's average monthly tax liability to the Department does not exceed $50, the Department may authorize his returns to be filed on an annual basis, with the return for a given year being due by January 20 of the following year.

Such quarter annual and annual returns, as to form and substance, shall be subject to the same requirements as monthly returns.

Notwithstanding any other provision in this Act concerning the time within which a serviceman may file his return, in the case of any serviceman who ceases to engage in a kind of business which makes him responsible for filing returns under this Act, such serviceman shall file a final return under this Act with the Department not more than 1 month after discontinuing such business.

Beginning October 1, 1993, a taxpayer who has an average monthly tax liability of $150,000 or more shall make all payments required by rules of the Department by electronic funds transfer. taxpayer who has an average monthly tax liability of $50,000 or more shall make all payments required by rules of the Department by electronic funds transfer. Beginning October 1, 2000, a taxpayer who has an annual tax liability of $200,000 or more shall make all payments required by rules of the Department by electronic funds transfer. The term "annual tax liability" shall be the sum of the taxpayer's liabilities under this Act, and under all other State and local occupation and use tax laws administered by the Department, for the immediately preceding calendar year. The term "average monthly tax liability" means the sum of the taxpayer's liabilities under this Act, and under all other State and local occupation and use tax laws administered by the Department, for the immediately preceding calendar year divided by 12. Beginning on October 1, 2002, a taxpayer who has a tax liability in the amount set forth in subsection (b) of Section 2505-210 of the Department of Revenue Law shall make all payments required by rules of the Department by electronic funds transfer.

Before August 1 of each year beginning in 1993, the Department shall notify all taxpayers required to make payments by electronic funds transfer. All taxpayers required to make payments by electronic funds transfer shall make those payments for a minimum of one year beginning on October 1.

Any taxpayer not required to make payments by electronic funds transfer may make payments by electronic funds transfer with the permission of the Department.

All taxpayers required to make payment by electronic funds transfer and any taxpayers authorized to voluntarily make payments by electronic funds transfer shall make those payments in the manner authorized by the Department.

The Department shall adopt such rules as are necessary to effectuate a program of electronic funds transfer and the requirements of this Section.

Where a serviceman collects the tax with respect to the selling price of tangible personal property which he sells and the purchaser thereafter returns such tangible personal property and the serviceman refunds the selling price thereof to the purchaser, such serviceman shall

also refund, to the purchaser, the tax so collected from the purchaser. When filing his return for the period in which he refunds such tax to the purchaser, the serviceman may deduct the amount of the tax so refunded by him to the purchaser from any other Service Occupation Tax, Service Use Tax, Retailers' Occupation Tax or Use Tax which such serviceman may be required to pay or remit to the Department, as shown by such return, provided that the amount of the tax to be deducted shall previously have been remitted to the Department by such serviceman. If the serviceman shall not previously have remitted the amount of such tax to the Department, he shall be entitled to no deduction hereunder upon refunding such tax to the purchaser.

If experience indicates such action to be practicable, the Department may prescribe and furnish a combination or joint return which will enable servicemen, who are required to file returns hereunder and also under the Retailers' Occupation Tax Act, the Use Tax Act or the Service Use Tax Act, to furnish all the return information required by all said Acts on the one form.

Where the serviceman has more than one business registered with the Department under separate registrations hereunder, such serviceman shall file separate returns for each registered business.

Beginning January 1, 1990, each month the Department shall pay into the Local Government Tax Fund the revenue realized for the preceding month from the 1% tax on sales of food for human consumption which is to be consumed off the premises where it is sold (other than alcoholic beverages, soft drinks and food which has been prepared for immediate consumption) and prescription and nonprescription medicines, drugs, medical appliances and insulin, urine testing materials, syringes and needles used by diabetics.

Beginning January 1, 1990, each month the Department shall pay into the County and Mass Transit District Fund 4% of the revenue realized for the preceding month from the 6.25% general rate.

Beginning August 1, 2000, each month the Department shall pay into the County and Mass Transit District Fund 20% of the net revenue
realized for the preceding month from the 1.25% rate on the selling price of motor fuel and gasohol.

Beginning January 1, 1990, each month the Department shall pay into the Local Government Tax Fund 16% of the revenue realized for the preceding month from the 6.25% general rate on transfers of tangible personal property.

Beginning August 1, 2000, each month the Department shall pay into the Local Government Tax Fund 80% of the net revenue realized for the preceding month from the 1.25% rate on the selling price of motor fuel and gasohol.

Of the remainder of the moneys received by the Department pursuant to this Act, (a) 1.75% thereof shall be paid into the Build Illinois Fund and (b) prior to July 1, 1989, 2.2% and on and after July 1, 1989, 3.8% thereof shall be paid into the Build Illinois Fund; provided, however, that if in any fiscal year the sum of (1) the aggregate of 2.2% or 3.8%, as the case may be, of the moneys received by the Department and required to be paid into the Build Illinois Fund pursuant to Section 3 of the Retailers' Occupation Tax Act, Section 9 of the Use Tax Act, Section 9 of the Service Use Tax Act, and Section 9 of the Service Occupation Tax Act, such Acts being hereinafter called the "Tax Acts" and such aggregate of 2.2% or 3.8%, as the case may be, of moneys being hereinafter called the "Tax Act Amount", and (2) the amount transferred to the Build Illinois Fund from the State and Local Sales Tax Reform Fund shall be less than the Annual Specified Amount (as defined in Section 3 of the Retailers' Occupation Tax Act), an amount equal to the difference shall be immediately paid into the Build Illinois Fund from other moneys received by the Department pursuant to the Tax Acts; and further provided, that if on the last business day of any month the sum of (1) the Tax Act Amount required to be deposited into the Build Illinois Account in the Build Illinois Fund during such month and (2) the amount transferred during such month to the Build Illinois Fund from the State and Local Sales Tax Reform Fund shall have been less than 1/12 of the Annual Specified Amount, an amount equal to the difference shall be immediately paid into the Build Illinois Fund from other moneys received by the Department.

If on the last business day of any month in which Bonds are outstanding pursuant to the Build Illinois Bond Act, the aggregate of the moneys deposited in the Build Illinois Bond Account in the Build Illinois Fund in such month shall be less than the amount required to be transferred in such month from the Build Illinois Bond Account to the Build Illinois Bond Retirement and Interest Fund pursuant to Section 13 of the Build Illinois Bond Act, an amount equal to such deficiency shall be immediately paid from other moneys received by the Department pursuant to the Tax Acts to the Build Illinois Fund; provided, however, that any amounts paid to the Build Illinois Fund in any fiscal year pursuant to this sentence shall be deemed to constitute payments pursuant to clause (b) of the preceding sentence and shall reduce the amount otherwise payable for such fiscal year pursuant to clause (b) of the preceding sentence. The Department may, upon separate written notice to a taxpayer, require the taxpayer to prepare and file with the Department on a form prescribed by the Department within not less than 60 days after receipt of the notice an annual information return for the tax year specified in the notice. Such annual return to the Department shall include a statement of gross receipts as shown by the taxpayer's last Federal income tax return. If the total receipts of the business as reported in the Federal income tax return do not agree with the gross receipts reported to the Department of Revenue for the same period, the taxpayer shall attach to his annual return a schedule showing a reconciliation of the 2 amounts and the reasons for the difference. The taxpayer's annual return to the Department shall also disclose the cost of goods sold by the taxpayer during the year covered by such return, opening and closing inventories of such goods for such year, cost of goods used from stock or taken from stock and given away by the taxpayer during such year, payroll information of the taxpayer's business during such year and any additional reasonable information which the Department deems would be helpful in determining the accuracy of the monthly, quarterly or annual returns filed by such taxpayer as hereinbefore provided for in this Section.

If the annual information return required by this Section is not filed when and as required, the taxpayer shall be liable as follows:

(ii) On and after January 1, 1994, the taxpayer shall be liable for a penalty as described in Section 3-4 of the Uniform Penalty and Interest Act.

The chief executive officer, proprietor, owner or highest ranking manager shall sign the annual return to certify the accuracy of the information contained therein. Any person who willfully signs the annual return containing false or inaccurate information shall be guilty of perjury and punished accordingly. The annual return form prescribed by the Department shall include a warning that the person signing the return may be liable for perjury.

The foregoing portion of this Section concerning the filing of an annual information return shall not apply to a serviceman who is not required to file an income tax return with the United States Government.

If a taxpayer fails to sign a return within 30 days after the proper notice and demand for signature by the Department, the return shall be considered valid and any amount shown to be due on the return shall be deemed assessed.

Each return shall be accompanied by the statement of prepaid tax issued pursuant to Section 2e for which credit is claimed.

Prior to October 1, 2003, and on and after September 1, 2004 a retailer may accept a Manufacturer's Purchase Credit certification from a purchaser in satisfaction of Use Tax as provided in Section 3-85 of the Use Tax Act if the purchaser provides the appropriate documentation as required by Section 3-85 of the Use Tax Act. A Manufacturer's Purchase Credit certification, accepted by a retailer prior to October 1, 2003 and on and after September 1, 2004 as provided in Section 3-85 of the Use Tax Act, may be used by that retailer to satisfy Retailers' Occupation Tax liability in the amount claimed in the certification, not to exceed 6.25% of the receipts subject to tax from a qualifying purchase. A Manufacturer's Purchase Credit reported on any original or amended return filed under this Act after October 20, 2003 for reporting periods prior to September 1, 2004 shall be disallowed. Manufacturer's Purchaser Credit reported on annual returns due on or after January 1, 2005 will be disallowed for periods prior to September 1, 2004. No Manufacturer's Purchase Credit may be used after September 30, 2003 through August 31, 2004 to satisfy any tax liability imposed under this Act, including any audit liability.

The Department may require returns to be filed on a quarterly basis. If so required, a return for each calendar quarter shall be filed on or before the twentieth day of the calendar month following the end of such calendar quarter. The taxpayer shall also file a return with the Department for each of the first two months of each calendar quarter, on or before the twentieth day of the following calendar month, stating:

1. The name of the seller;
2. The address of the principal place of business from which he engages in the business of selling tangible personal property at retail in this State;

3. The total amount of taxable receipts received by him during the preceding calendar month from sales of tangible personal property by him during such preceding calendar month, including receipts from charge and time sales, but less all deductions allowed by law;

4. The amount of credit provided in Section 2d of this Act;

5. The amount of tax due; and

Beginning on October 1, 2003, any person who is not a licensed distributor, importing distributor, or manufacturer, as defined in the Liquor Control Act of 1934, but is engaged in the business of selling, at retail, alcoholic liquor shall file a statement with the Department of Revenue, in a format and at a time prescribed by the Department, showing the total amount paid for alcoholic liquor purchased during the preceding month and such other information as is reasonably required by the Department. The Department may adopt rules to require that this statement be filed in an electronic or telephonic format. Such rules may provide for exceptions from the filing requirements of this paragraph. For the purposes of this paragraph, the term "alcoholic liquor" shall have the meaning prescribed in the Liquor Control Act of 1934.

Beginning on October 1, 2003, every distributor, importing distributor, and manufacturer of alcoholic liquor as defined in the Liquor Control Act of 1934, shall file a statement with the Department of Revenue, no later than the 10th day of the month for the preceding month during which transactions occurred, by electronic means, showing the total amount of gross receipts from the sale of alcoholic liquor sold or distributed during the preceding month to purchasers; identifying the purchaser to whom it was sold or distributed; the purchaser's tax registration number; and such other information reasonably required by the Department. A distributor, importing distributor, or manufacturer of alcoholic liquor must personally deliver, mail, or provide by electronic means to each retailer listed on the monthly statement a report containing a cumulative total of that distributor's, importing distributor's, or
manufacturer's total sales of alcoholic liquor to that retailer no later than the 10th day of the month for the preceding month during which the transaction occurred. The distributor, importing distributor, or manufacturer shall notify the retailer as to the method by which the distributor, importing distributor, or manufacturer will provide the sales information. If the retailer is unable to receive the sales information by electronic means, the distributor, importing distributor, or manufacturer shall furnish the sales information by personal delivery or by mail. For purposes of this paragraph, the term "electronic means" includes, but is not limited to, the use of a secure Internet website, e-mail, or facsimile.

If a total amount of less than $1 is payable, refundable or creditable, such amount shall be disregarded if it is less than 50 cents and shall be increased to $1 if it is 50 cents or more.

Beginning October 1, 1993, a taxpayer who has an average monthly tax liability of $150,000 or more shall make all payments required by rules of the Department by electronic funds transfer. Beginning October 1, 1994, a taxpayer who has an average monthly tax liability of $100,000 or more shall make all payments required by rules of the Department by electronic funds transfer. Beginning October 1, 1995, a taxpayer who has an average monthly tax liability of $50,000 or more shall make all payments required by rules of the Department by electronic funds transfer. Beginning October 1, 2000, a taxpayer who has an annual tax liability of $200,000 or more shall make all payments required by rules of the Department by electronic funds transfer. The term "annual tax liability" shall be the sum of the taxpayer's liabilities under this Act, and under all other State and local occupation and use tax laws administered by the Department, for the immediately preceding calendar year. The term "average monthly tax liability" shall be the sum of the taxpayer's liabilities under this Act, and under all other State and local occupation and use tax laws administered by the Department, for the immediately preceding calendar year divided by 12. Beginning on October 1, 2002, a taxpayer who has a tax liability in the amount set forth in subsection (b) of Section 2505-210 of the Department of Revenue Law shall make all payments required by rules of the Department by electronic funds transfer.

Before August 1 of each year beginning in 1993, the Department shall notify all taxpayers required to make payments by electronic funds transfer. All taxpayers required to make payments by electronic funds transfer shall make those payments for a minimum of one year beginning on October 1.

Any taxpayer not required to make payments by electronic funds transfer may make payments by electronic funds transfer with the permission of the Department.

All taxpayers required to make payment by electronic funds transfer and any taxpayers authorized to voluntarily make payments by electronic funds transfer shall make those payments in the manner authorized by the Department.

The Department shall adopt such rules as are necessary to effectuate a program of electronic funds transfer and the requirements of this Section.

Any amount which is required to be shown or reported on any return or other document under this Act shall, if such amount is not a whole-dollar amount, be increased to the nearest whole-dollar amount in any case where the fractional part of a dollar is 50 cents or more, and decreased to the nearest whole-dollar amount where the fractional part of a dollar is less than 50 cents.

If the retailer is otherwise required to file a monthly return and if the retailer's average monthly tax liability to the Department does not exceed $200, the Department may authorize his returns to be filed on a quarterly annual basis, with the return for January, February and March of a given year being due by April 20 of such year; with the return for April, May and June of a given year being due by July 20 of such year; with the return for July, August and September of a given year being due by October 20 of such year, and with the return for October, November and December of a given year being due by January 20 of the following year.

If the retailer is otherwise required to file a monthly or quarterly return and if the retailer's average monthly tax liability with the Department does not exceed $50, the Department may authorize his

returns to be filed on an annual basis, with the return for a given year being due by January 20 of the following year.

Such quarter annual and annual returns, as to form and substance, shall be subject to the same requirements as monthly returns.

Notwithstanding any other provision in this Act concerning the time within which a retailer may file his return, in the case of any retailer who ceases to engage in a kind of business which makes him responsible for filing returns under this Act, such retailer shall file a final return under this Act with the Department not more than one month after discontinuing such business.

Where the same person has more than one business registered with the Department under separate registrations under this Act, such person may not file each return that is due as a single return covering all such registered businesses, but shall file separate returns for each such registered business.

In addition, with respect to motor vehicles, watercraft, aircraft, and trailers that are required to be registered with an agency of this State, every retailer selling this kind of tangible personal property shall file, with the Department, upon a form to be prescribed and supplied by the Department, a separate return for each such item of tangible personal property which the retailer sells, except that if, in the same transaction, (i) a retailer of aircraft, watercraft, motor vehicles or trailers transfers more than one aircraft, watercraft, motor vehicle or trailer to another aircraft, watercraft, motor vehicle retailer or trailer retailer for the purpose of resale or (ii) a retailer of aircraft, watercraft, motor vehicles, or trailers transfers more than one aircraft, watercraft, motor vehicle, or trailer to a purchaser for use as a qualifying rolling stock as provided in Section 2-5 of this Act, then that seller may report the transfer of all aircraft, watercraft, motor vehicles or trailers involved in that transaction to the Department on the same uniform invoice-transaction reporting return form. For purposes of this Section, "watercraft" means a Class 2, Class 3, or Class 4 watercraft as defined in Section 3-2 of the Boat Registration and Safety Act, a personal watercraft, or any boat equipped with an inboard motor.

Any retailer who sells only motor vehicles, watercraft, aircraft, or trailers that are required to be registered with an agency of this State, so that all retailers' occupation tax liability is required to be reported, and is reported, on such transaction reporting returns and who is not otherwise required to file monthly or quarterly returns, need not file monthly or quarterly returns. However, those retailers shall be required to file returns on an annual basis.

The transaction reporting return, in the case of motor vehicles or trailers that are required to be registered with an agency of this State, shall be the same document as the Uniform Invoice referred to in Section 5-402 of The Illinois Vehicle Code and must show the name and address of the seller; the name and address of the purchaser; the amount of the selling price including the amount allowed by the retailer for traded-in property, if any; the amount allowed by the retailer for the traded-in tangible personal property, if any, to the extent to which Section 1 of this Act allows an exemption for the value of traded-in property; the balance payable after deducting such trade-in allowance from the total selling price; the amount of tax due from the retailer with respect to such transaction; the amount of tax collected from the purchaser by the retailer on such transaction (or satisfactory evidence that such tax is not due in that particular instance, if that is claimed to be the fact); the place and date of the sale; a sufficient identification of the property sold; such other information as is required in Section 5-402 of The Illinois Vehicle Code, and such other information as the Department may reasonably require.

The transaction reporting return in the case of watercraft or aircraft must show the name and address of the seller; the name and address of the purchaser; the amount of the selling price including the amount allowed by the retailer for traded-in property, if any; the amount allowed by the retailer for the traded-in tangible personal property, if any, to the extent to which Section 1 of this Act allows an exemption for the value of traded-in property; the balance payable after deducting such trade-in allowance from the total selling price; the amount of tax due from the retailer with respect to such transaction; the amount of tax collected from the purchaser by the retailer on such transaction (or satisfactory evidence that such tax is not
due in that particular instance, if that is claimed to be the fact); the place and date of the sale, a sufficient identification of the property sold, and such other information as the Department may reasonably require.

Such transaction reporting return shall be filed not later than 20 days after the day of delivery of the item that is being sold, but may be filed by the retailer at any time sooner than that if he chooses to do so. The transaction reporting return and tax remittance or proof of exemption from the Illinois use tax may be transmitted to the Department by way of the State agency with which, or State officer with whom the tangible personal property must be titled or registered (if titling or registration is required) if the Department and such agency or State officer determine that this procedure will expedite the processing of applications for title or registration.

With each such transaction reporting return, the retailer shall remit the proper amount of tax due (or shall submit satisfactory evidence that the sale is not taxable if that is the case), to the Department or its agents, whereupon the Department shall issue, in the purchaser's name, a use tax receipt (or a certificate of exemption if the Department is satisfied that the particular sale is tax exempt) which such purchaser may submit to the agency with which, or State officer with whom, he must title or register the tangible personal property that is involved (if titling or registration is required) in support of such purchaser's application for an Illinois certificate or other evidence of title or registration to such tangible personal property.

No retailer's failure or refusal to remit tax under this Act precludes a user, who has paid the proper tax to the retailer, from obtaining his certificate of title or other evidence of title or registration (if titling or registration is required) upon satisfying the Department that such user has paid the proper tax (if tax is due) to the retailer. The Department shall adopt appropriate rules to carry out the mandate of this paragraph.

If the user who would otherwise pay tax to the retailer wants the transaction reporting return filed and the payment of the tax or proof of exemption made to the Department before the retailer is willing to take these actions and such user has not paid the tax to the retailer, such user

may certify to the fact of such delay by the retailer and may (upon the Department being satisfied of the truth of such certification) transmit the information required by the transaction reporting return and the remittance for tax or proof of exemption directly to the Department and obtain his tax receipt or exemption determination, in which event the transaction reporting return and tax remittance (if a tax payment was required) shall be credited by the Department to the proper retailer's account with the Department, but without the 2.1% or 1.75% discount provided for in this Section being allowed. When the user pays the tax directly to the Department, he shall pay the tax in the same amount and in the same form in which it would be remitted if the tax had been remitted to the Department by the retailer.

Refunds made by the seller during the preceding return period to purchasers, on account of tangible personal property returned to the seller, shall be allowed as a deduction under subdivision 5 of his monthly or quarterly return, as the case may be, in case the seller had theretofore included the receipts from the sale of such tangible personal property in a return filed by him and had paid the tax imposed by this Act with respect to such receipts.

Where the seller is a corporation, the return filed on behalf of such corporation shall be signed by the president, vice-president, secretary or treasurer or by the properly accredited agent of such corporation.

Where the seller is a limited liability company, the return filed on behalf of the limited liability company shall be signed by a manager, member, or properly accredited agent of the limited liability company.

Except as provided in this Section, the retailer filing the return under this Section shall, at the time of filing such return, pay to the Department the amount of tax imposed by this Act less a discount of 2.1% prior to January 1, 1990 and 1.75% on and after January 1, 1990, or $5 per calendar year, whichever is greater, which is allowed to reimburse the retailer for the expenses incurred in keeping records, preparing and filing returns, remitting the tax and supplying data to the Department on request. Any prepayment made pursuant to Section 2d of this Act shall be included in the amount on which such 2.1% or 1.75% discount is computed. In the
case of retailers who report and pay the tax on a transaction by transaction basis, as provided in this Section, such discount shall be taken with each such tax remittance instead of when such retailer files his periodic return.

Before October 1, 2000, if the taxpayer's average monthly tax liability to the Department under this Act, the Use Tax Act, the Service Occupation Tax Act, and the Service Use Tax Act, excluding any liability for prepaid sales tax to be remitted in accordance with Section 2d of this Act, was $10,000 or more during the preceding 4 complete calendar quarters, he shall file a return with the Department each month by the 20th day of the month next following the month during which such tax liability is incurred and shall make payments to the Department on or before the 7th, 15th, 22nd and last day of the month during which such liability is incurred. On and after October 1, 2000, if the taxpayer's average monthly tax liability to the Department under this Act, the Use Tax Act, the Service Occupation Tax Act, and the Service Use Tax Act, excluding any liability for prepaid sales tax to be remitted in accordance with Section 2d of this Act, was $20,000 or more during the preceding 4 complete calendar quarters, he shall file a return with the Department each month by the 20th day of the month next following the month during which such tax liability is incurred and shall make payment to the Department on or before the 7th, 15th, 22nd and last day of the month during which such liability is incurred. If the month during which such tax liability is incurred began prior to January 1, 1985, each payment shall be in an amount equal to 1/4 of the taxpayer's actual liability for the month or an amount set by the Department not to exceed 1/4 of the average monthly liability of the taxpayer to the Department for the preceding 4 complete calendar quarters (excluding the month of highest liability and the month of lowest liability in such 4 quarter period). If the month during which such tax liability is incurred begins on or after January 1, 1985 and prior to January 1, 1987, each payment shall be in an amount equal to 22.5% of the taxpayer's actual liability for the month or 27.5% of the taxpayer's liability for the same calendar month of the preceding year. If the month during which such tax liability is incurred begins on or after January 1, 1987 and prior to January 1, 1988, each payment shall be in an amount equal to 22.5% of the

taxpayer's actual liability for the month or 26.25% of the taxpayer's liability for the same calendar month of the preceding year. If the month during which such tax liability is incurred begins on or after January 1, 1988, and prior to January 1, 1989, or begins on or after January 1, 1996, each payment shall be in an amount equal to 22.5% of the taxpayer's actual liability for the month or 25% of the taxpayer's liability for the same calendar month of the preceding year. If the month during which such tax liability is incurred begins on or after January 1, 1989, and prior to January 1, 1996, each payment shall be in an amount equal to 22.5% of the taxpayer's actual liability for the month or 25% of the taxpayer's liability for the same calendar month of the preceding year or 100% of the taxpayer's actual liability for the quarter monthly reporting period. The amount of such quarter monthly payments shall be credited against the final tax liability of the taxpayer's return for that month. Before October 1, 2000, once applicable, the requirement of the making of quarter monthly payments to the Department by taxpayers having an average monthly tax liability of $10,000 or more as determined in the manner provided above shall continue until such taxpayer's average monthly liability to the Department during the preceding 4 complete calendar quarters (excluding the month of highest liability and the month of lowest liability) is less than $9,000, or until such taxpayer's average monthly liability to the Department as computed for each calendar quarter of the 4 preceding complete calendar quarter period is less than $10,000. However, if a taxpayer can show the Department that a substantial change in the taxpayer's business has occurred which causes the taxpayer to anticipate that his average monthly tax liability for the reasonably foreseeable future will fall below the $10,000 threshold stated above, then such taxpayer may petition the Department for a change in such taxpayer's reporting status. On and after October 1, 2000, once applicable, the requirement of the making of quarter monthly payments to the Department by taxpayers having an average monthly tax liability of $20,000 or more as determined in the manner provided above shall continue until such taxpayer's average monthly liability to the Department during the preceding 4 complete calendar quarters (excluding the month of highest liability and the month

of lowest liability) is less than $19,000 or until such taxpayer's average monthly liability to the Department as computed for each calendar quarter of the 4 preceding complete calendar quarter period is less than $20,000. However, if a taxpayer can show the Department that a substantial change in the taxpayer's business has occurred which causes the taxpayer to anticipate that his average monthly tax liability for the reasonably foreseeable future will fall below the $20,000 threshold stated above, then such taxpayer may petition the Department for a change in such taxpayer's reporting status. The Department shall change such taxpayer's reporting status unless it finds that such change is seasonal in nature and not likely to be long term. If any such quarter monthly payment is not paid at the time or in the amount required by this Section, then the taxpayer shall be liable for penalties and interest on the difference between the minimum amount due as a payment and the amount of such quarter monthly payment actually and timely paid, except insofar as the taxpayer has previously made payments for that month to the Department in excess of the minimum payments previously due as provided in this Section. The Department shall make reasonable rules and regulations to govern the quarter monthly payment amount and quarter monthly payment dates for taxpayers who file on other than a calendar monthly basis.

The provisions of this paragraph apply before October 1, 2001. Without regard to whether a taxpayer is required to make quarter monthly payments as specified above, any taxpayer who is required by Section 2d of this Act to collect and remit prepaid taxes and has collected prepaid taxes which average in excess of $25,000 per month during the preceding 2 complete calendar quarters, shall file a return with the Department as required by Section 2f and shall make payments to the Department on or before the 7th, 15th, 22nd and last day of the month during which such liability is incurred. If the month during which such tax liability is incurred began prior to the effective date of this amendatory Act of 1985, each payment shall be in an amount not less than 22.5% of the taxpayer's actual liability under Section 2d. If the month during which such tax liability is incurred begins on or after January 1, 1986, each payment shall be in an amount equal to 22.5% of the taxpayer's actual liability for the month or

27.5% of the taxpayer's liability for the same calendar month of the preceding calendar year. If the month during which such tax liability is incurred begins on or after January 1, 1987, each payment shall be in an amount equal to 22.5% of the taxpayer's actual liability for the month or 26.25% of the taxpayer's liability for the same calendar month of the preceding year. The amount of such quarter monthly payments shall be credited against the final tax liability of the taxpayer's return for that month filed under this Section or Section 2f, as the case may be. Once applicable, the requirement of the making of quarter monthly payments to the Department pursuant to this paragraph shall continue until such taxpayer's average monthly prepaid tax collections during the preceding 2 complete calendar quarters is $25,000 or less. If any such quarter monthly payment is not paid at the time or in the amount required, the taxpayer shall be liable for penalties and interest on such difference, except insofar as the taxpayer has previously made payments for that month in excess of the minimum payments previously due.

The provisions of this paragraph apply on and after October 1, 2001. Without regard to whether a taxpayer is required to make quarter monthly payments as specified above, any taxpayer who is required by Section 2d of this Act to collect and remit prepaid taxes and has collected prepaid taxes that average in excess of $20,000 per month during the preceding 4 complete calendar quarters shall file a return with the Department as required by Section 2f and shall make payments to the Department on or before the 7th, 15th, 22nd and last day of the month during which the liability is incurred. Each payment shall be in an amount equal to 22.5% of the taxpayer's actual liability for the month or 25% of the taxpayer's liability for the same calendar month of the preceding year. The amount of the quarter monthly payments shall be credited against the final tax liability of the taxpayer's return for that month filed under this Section or Section 2f, as the case may be. Once applicable, the requirement of the making of quarter monthly payments to the Department pursuant to this paragraph shall continue until the taxpayer's average monthly prepaid tax collections during the preceding 4 complete calendar quarters (excluding the month of highest liability and the month of lowest

liability) is less than $19,000 or until such taxpayer's average monthly liability to the Department as computed for each calendar quarter of the 4 preceding complete calendar quarters is less than $20,000. If any such quarter monthly payment is not paid at the time or in the amount required, the taxpayer shall be liable for penalties and interest on such difference, except insofar as the taxpayer has previously made payments for that month in excess of the minimum payments previously due.

If any payment provided for in this Section exceeds the taxpayer's liabilities under this Act, the Use Tax Act, the Service Occupation Tax Act and the Service Use Tax Act, as shown on an original monthly return, the Department shall, if requested by the taxpayer, issue to the taxpayer a credit memorandum no later than 30 days after the date of payment. The credit evidenced by such credit memorandum may be assigned by the taxpayer to a similar taxpayer under this Act, the Use Tax Act, the Service Occupation Tax Act or the Service Use Tax Act, in accordance with reasonable rules and regulations to be prescribed by the Department. If no such request is made, the taxpayer may credit such excess payment against tax liability subsequently to be remitted to the Department under this Act, the Use Tax Act, the Service Occupation Tax Act or the Service Use Tax Act, in accordance with reasonable rules and regulations prescribed by the Department. If the Department subsequently determined that all or any part of the credit taken was not actually due to the taxpayer, the taxpayer's 2.1% and 1.75% vendor's discount shall be reduced by 2.1% or 1.75% of the difference between the credit taken and that actually due, and that taxpayer shall be liable for penalties and interest on such difference.

If a retailer of motor fuel is entitled to a credit under Section 2d of this Act which exceeds the taxpayer's liability to the Department under this Act for the month which the taxpayer is filing a return, the Department shall issue the taxpayer a credit memorandum for the excess.

Beginning January 1, 1990, each month the Department shall pay into the Local Government Tax Fund, a special fund in the State treasury which is hereby created, the net revenue realized for the preceding month from the 1% tax on sales of food for human consumption which is to be consumed off the premises where it is sold (other than alcoholic

beverages, soft drinks and food which has been prepared for immediate consumption) and prescription and nonprescription medicines, drugs, medical appliances and insulin, urine testing materials, syringes and needles used by diabetics.

Beginning January 1, 1990, each month the Department shall pay into the County and Mass Transit District Fund, a special fund in the State treasury which is hereby created, 4% of the net revenue realized for the preceding month from the 6.25% general rate.

Beginning August 1, 2000, each month the Department shall pay into the County and Mass Transit District Fund 20% of the net revenue realized for the preceding month from the 1.25% rate on the selling price of motor fuel and gasohol. Beginning January 1, 1990, each month the Department shall pay into the Local Government Tax Fund 16% of the net revenue realized for the preceding month from the 6.25% general rate on the selling price of tangible personal property.

Beginning August 1, 2000, each month the Department shall pay into the Local Government Tax Fund 80% of the net revenue realized for the preceding month from the 1.25% rate on the selling price of motor fuel and gasohol.

Of the remainder of the moneys received by the Department pursuant to this Act, (a) 1.75% thereof shall be paid into the Build Illinois Fund and (b) prior to July 1, 1989, 2.2% and on and after July 1, 1989, 3.8% thereof shall be paid into the Build Illinois Fund; provided, however, that if in any fiscal year the sum of (1) the aggregate of 2.2% or 3.8%, as the case may be, of the moneys received by the Department and required to be paid into the Build Illinois Fund pursuant to this Act, Section 9 of the Use Tax Act, Section 9 of the Service Use Tax Act, and Section 9 of the Service Occupation Tax Act, such Acts being hereinafter called the "Tax Acts" and such aggregate of 2.2% or 3.8%, as the case may be, of moneys being hereinafter called the "Tax Act Amount", and (2) the amount transferred to the Build Illinois Fund from the State and Local Sales Tax Reform Fund shall be less than the Annual Specified Amount (as hereinafter defined), an amount equal to the difference shall be immediately paid into the Build Illinois Fund from other moneys received

The amounts payable into the Build Illinois Fund under clause (b) of the first sentence in this paragraph shall be payable only until such time as the aggregate amount on deposit under each trust indenture securing Bonds issued and outstanding pursuant to the Build Illinois Bond Act is sufficient, taking into account any future investment income, to fully provide, in accordance with such indenture, for the defeasance of or the payment of the principal of, premium, if any, and interest on the Bonds secured by such indenture and

but not after fiscal year 2042.

Beginning July 20, 1993 and in each month of each fiscal year thereafter, one-eighth of the amount requested in the certificate of the Chairman of the Metropolitan Pier and Exposition Authority for that fiscal year, less the amount deposited into the McCormick Place Expansion Project Fund by the State Treasurer in the respective month under subsection (g) of Section 13 of the Metropolitan Pier and Exposition Authority Act, plus cumulative deficiencies in the deposits required under this Section for previous months and years, shall be deposited into the McCormick Place Expansion Project Fund, until the full amount requested for the fiscal year, but not in excess of the amount specified above as "Total Deposit", has been deposited.

Subject to payment of amounts into the Build Illinois Fund and the McCormick Place Expansion Project Fund pursuant to the preceding paragraphs or in any amendments thereto hereafter enacted, beginning July 1, 1993, the Department shall each month pay into the Illinois Tax Increment Fund 0.27% of 80% of the net revenue realized for the preceding month from the 6.25% general rate on the selling price of tangible personal property.

Subject to payment of amounts into the Build Illinois Fund and the McCormick Place Expansion Project Fund pursuant to the preceding paragraphs or in any amendments thereto hereafter enacted, beginning with the receipt of the first report of taxes paid by an eligible business and continuing for a 25-year period, the Department shall each month pay into the Energy Infrastructure Fund 80% of the net revenue realized from the 6.25% general rate on the selling price of Illinois-mined coal that was sold to an eligible business. For purposes of this paragraph, the term "eligible business" means a new electric generating facility certified pursuant to Section 605-332 of the Department of Commerce and Economic Opportunity Law of the Civil Administrative Code of Illinois.

Of the remainder of the moneys received by the Department pursuant to this Act, 75% thereof shall be paid into the State Treasury and 25% shall be reserved in a special account and used only for the transfer to

the Common School Fund as part of the monthly transfer from the General Revenue Fund in accordance with Section 8a of the State Finance Act.

The Department may, upon separate written notice to a taxpayer, require the taxpayer to prepare and file with the Department on a form prescribed by the Department within not less than 60 days after receipt of the notice an annual information return for the tax year specified in the notice. Such annual return to the Department shall include a statement of gross receipts as shown by the retailer's last Federal income tax return. If the total receipts of the business as reported in the Federal income tax return do not agree with the gross receipts reported to the Department of Revenue for the same period, the retailer shall attach to his annual return a schedule showing a reconciliation of the 2 amounts and the reasons for the difference. The retailer's annual return to the Department shall also disclose the cost of goods sold by the retailer during the year covered by such return, opening and closing inventories of such goods for such year, costs of goods used from stock or taken from stock and given away by the retailer during such year, payroll information of the retailer's business during such year and any additional reasonable information which the Department deems would be helpful in determining the accuracy of the monthly, quarterly or annual returns filed by such retailer as provided for in this Section.

If the annual information return required by this Section is not filed when and as required, the taxpayer shall be liable as follows:

   (i) Until January 1, 1994, the taxpayer shall be liable for a penalty equal to 1/6 of 1% of the tax due from such taxpayer under this Act during the period to be covered by the annual return for each month or fraction of a month until such return is filed as required, the penalty to be assessed and collected in the same manner as any other penalty provided for in this Act.

   (ii) On and after January 1, 1994, the taxpayer shall be liable for a penalty as described in Section 3-4 of the Uniform Penalty and Interest Act.

The chief executive officer, proprietor, owner or highest ranking manager shall sign the annual return to certify the accuracy of the

information contained therein. Any person who willfully signs the annual return containing false or inaccurate information shall be guilty of perjury and punished accordingly. The annual return form prescribed by the Department shall include a warning that the person signing the return may be liable for perjury.

The provisions of this Section concerning the filing of an annual information return do not apply to a retailer who is not required to file an income tax return with the United States Government.

As soon as possible after the first day of each month, upon certification of the Department of Revenue, the Comptroller shall order transferred and the Treasurer shall transfer from the General Revenue Fund to the Motor Fuel Tax Fund an amount equal to 1.7% of 80% of the net revenue realized under this Act for the second preceding month. Beginning April 1, 2000, this transfer is no longer required and shall not be made.

Net revenue realized for a month shall be the revenue collected by the State pursuant to this Act, less the amount paid out during that month as refunds to taxpayers for overpayment of liability.

For greater simplicity of administration, manufacturers, importers and wholesalers whose products are sold at retail in Illinois by numerous retailers, and who wish to do so, may assume the responsibility for accounting and paying to the Department all tax accruing under this Act with respect to such sales, if the retailers who are affected do not make written objection to the Department to this arrangement.

Any person who promotes, organizes, provides retail selling space for concessionaires or other types of sellers at the Illinois State Fair, DuQuoin State Fair, county fairs, local fairs, art shows, flea markets and similar exhibitions or events, including any transient merchant as defined by Section 2 of the Transient Merchant Act of 1987, is required to file a report with the Department providing the name of the merchant's business, the name of the person or persons engaged in merchant's business, the permanent address and Illinois Retailers Occupation Tax Registration Number of the merchant, the dates and location of the event and other reasonable information that the Department may require. The report must
be filed not later than the 20th day of the month next following the month during which the event with retail sales was held. Any person who fails to file a report required by this Section commits a business offense and is subject to a fine not to exceed $250.

Any person engaged in the business of selling tangible personal property at retail as a concessionaire or other type of seller at the Illinois State Fair, county fairs, art shows, flea markets and similar exhibitions or events, or any transient merchants, as defined by Section 2 of the Transient Merchant Act of 1987, may be required to make a daily report of the amount of such sales to the Department and to make a daily payment of the full amount of tax due. The Department shall impose this requirement when it finds that there is a significant risk of loss of revenue to the State at such an exhibition or event. Such a finding shall be based on evidence that a substantial number of concessionaires or other sellers who are not residents of Illinois will be engaging in the business of selling tangible personal property at retail at the exhibition or event, or other evidence of a significant risk of loss of revenue to the State. The Department shall notify concessionaires and other sellers affected by the imposition of this requirement. In the absence of notification by the Department, the concessionaires and other sellers shall file their returns as otherwise required in this Section.

(35 ILCS 505/13a.3) (from Ch. 120, par. 429a3)

Sec. 13a.3. Every person holding a valid unrevoked motor fuel use tax license issued under Section 13a.4 of this Act shall, on or before the last day of the month next succeeding any calendar quarter, file with the Department a report, in such form as the Department may by rule or regulation prescribe, setting forth a statement of the number of miles traveled in every jurisdiction and in this State during the previous calendar quarter, the number of gallons and type of reportable motor fuel consumed on the highways of every jurisdiction and of this State, and the total number of gallons and types of tax paid fuel purchased within every jurisdiction during said previous calendar quarter. A motor carrier who purchases motor fuel in this State who pays a tax thereon under any section of the Motor Fuel Tax Law other than Sections 13a, 13a.1, 13a.2 and 13a.3, and who does not apply for a refund under Section 13 of the Motor Fuel Tax Law, shall receive a gallon for gallon credit against his liability under Sections 13a, 13a.1, 13a.2 and 13a.3 hereof. The rate under

Section 2 of this Act shall apply to each gallon of motor fuel used by such motor carrier on the highways of Illinois during the previous calendar quarter in excess of the motor fuel purchased in Illinois during such previous calendar quarter.

The rate under subsection (2) of Section 13a of this Act shall apply to each gallon of motor fuel used by such motor carrier on the highways of Illinois during the previous calendar quarter. For purposes of the preceding paragraphs "used" shall be determined as provided in Section 13a.2 of this Act.

For such motor fuel consumed during the previous calendar quarter, said tax shall be payable on the last day of the month next succeeding such previous calendar quarter and shall bear interest at the rate of 1% per month or fraction of month until paid. Motor carriers required to file bonds under Section 13a.4 of this Act shall make tax payments to the Department by certified check.

Reports not filed by the due date shall be considered late and any taxes due considered delinquent. The licensee may be assessed a penalty of $50 or 10% of the delinquent taxes, whichever is greater, for failure to file a report, or for filing a late report, or for underpayment of taxes due.

As to each gallon of motor fuel purchased in Illinois by such motor carrier during the previous calendar quarter in excess of the number of gallons of motor fuel used by such motor carrier on the highways of Illinois during such previous calendar quarter, the taxpayer may take a credit for the current calendar quarter or the Department may issue a credit memorandum or refund to such motor carrier for any tax imposed by Part (a) of Section 13a of this Act paid on each such gallon. If a credit is given, the credit memorandum shall be carried over to offset liabilities of the licensee until the credit is fully offset or until 8 calendar quarters pass after the end of the calendar quarter in which the credit accrued, whichever occurs sooner.

A motor carrier who purchases motor fuel in this State shall be entitled to a refund under this Section or a credit against all his liabilities under Sections 13a, 13a.1, 13a.2 and 13a.3 hereof for taxes imposed by the Use Tax Act, the Retailers' Occupation Tax Act, the Municipal Retailers'
Occupation Tax Act and the County Retailers' Occupation Tax Act on such motor fuel at a rate equal to that established by subsection (2) of Section 13a of this Act, provided that such taxes have been paid by the taxpayer and such taxes have been charged to the motor carrier claiming the credit or refund.

(35 ILCS 505/13a.4) (from Ch. 120, par. 429a4)

Sec. 13a.4. Except as provided in Section 13a.5 of this Act, no motor carrier shall operate in Illinois without first securing a motor fuel use tax license and decals from the Department or a motor fuel use tax license and decals issued under the International Fuel Tax Agreement by any member jurisdiction. Application for such license and decals shall be made annually to the Department on forms prescribed by the Department. The application shall be under oath, and shall contain such information as the Department deems necessary. The Department, for cause, may require an applicant to post a bond on a form to be approved by and with a surety or sureties satisfactory to the Department conditioned upon such applicant paying to the State of Illinois all monies becoming due by reason of the sale or use of motor fuel by the applicant, together with all penalties and interest thereon. If a bond is required, it shall be equal to at least twice the estimated average tax liability of a quarterly return. The Department shall fix the penalty of such bond in each case taking into consideration the amount of motor fuel expected to be used by such applicant and the penalty fixed by the Department shall be such as, in its opinion, will protect the State of Illinois against failure to pay the amount hereinafter provided on motor fuel used. No person who is in default to the State for monies due under this Act for the sale, distribution or use of motor fuel shall receive such a license or decal.

Upon receipt of the application for license in proper form, and upon payment of any required $100 reinstatement fee, and upon approval by the Department of the bond furnished by the applicant, the Department may issue to such applicant a license which allows the operation of commercial motor vehicles in Illinois, and decals for each commercial motor vehicle operating in Illinois. Prior to January 1, 1985, motor fuel

use tax licenses shall be conspicuously displayed in the cab of each commercial motor vehicle operating in Illinois. After January 1, 1986, motor fuel use tax licenses shall be carried in the cab of each commercial motor vehicle operating in Illinois.

The Department shall, by regulation, provide for the use of reproductions of original motor fuel use tax licenses in lieu of issuing multiple original motor fuel use tax licenses to licensees.

On and after January 1, 1985, external motor fuel tax decals shall be conspicuously displayed on the passenger side of each commercial motor vehicle propelled by motor fuel operating in Illinois, except buses, which may display such devices on the driver's side of the vehicle. Beginning with the effective date of this amendatory Act of 1993 or the membership of the State of Illinois in the International Fuel Tax Agreement, whichever is later, the decals issued to the licensee shall be placed on both exterior sides of the cab. In the case of transporters, manufacturers, dealers, or driveway operations, the decals need not be permanently affixed but may be temporarily displayed in a visible manner on the exterior sides of the cab. Failure to display the decals in the required locations may subject the vehicle operator to the purchase of a trip permit and a citation. Such motor fuel tax decals shall be issued by the Department and remain valid for a period of 2 calendar years, beginning January 1, 1985. The decals shall expire at the end of the regular 2 year issuance period, with new decals required to be displayed at that time. Beginning January 1, 1993, the motor fuel decals shall be issued by the Department and remain valid for a period of one calendar year. The decals shall expire at the end of the regular one year issuance period, with new decals required to be displayed at that time. Decals shall be no larger than 3 inches by 3 inches. Prior to January 1, 1993, a fee of $7.50 shall be charged by the Department for each decal issued prior to and during the 2 calendar years such decal is valid. Beginning January 1, 1993, a fee of $3.75 shall be charged by the Department for each decal issued prior to and during the calendar year such decal is valid. Beginning January 1, 1994, $3.75 shall be charged for a set of 2 decals. The Department may also prescribe procedures for the issuance of replacement decals, with a

maximum fee of $2 for each set of replacement decals issued. The transfer of decals from one vehicle to another vehicle or from one motor carrier to another motor carrier is prohibited. The fees paid for the decals issued under this Section shall be deposited in the Motor Fuel Tax Fund, and may be appropriated to the Department for administration of this Section and enforcement of the tax imposed by Section 13a of this Act.

To avoid duplicate reporting of mileage and payment of any tax arising therefrom under Section 13a.3 of this Act, the Department shall, by regulation, provide for the allocation between lessors and lessees of the same commercial motor vehicle or vehicles of the responsibility as a motor carrier for the reporting of mileage and the liability for tax arising under Section 13a.3 of this Act, and for registration, furnishing of bond, carrying of motor fuel use tax licenses, and display of decals under this Section, and for all other duties imposed upon motor carriers by this Act. Sec. 13a.5. As to a commercial motor vehicle operated in Illinois in the course of interstate traffic by a motor carrier not holding a motor fuel use tax license issued under this Act, a single trip permit authorizing operation of such commercial motor vehicle for a single trip through the State of Illinois, or from a point on the border of this State to a point within and return to the border may be issued by the Department or its agents after proper application. The fee for each single trip permit shall be $20 and such single trip permit shall be valid for a period of 72 hours. This fee shall be in lieu of the tax required by Section 13a of this Act, all reports required by Section 13a.3 of this Act, and the registration, decal display and furnishing of bond required by Section 13a.4 of this Act. Rules or regulations promulgated by the Department under this Section shall provide for reasonable and proper limitations and restrictions governing application for and issuance and use of, single trip permits, so as to preclude evasion of the license requirement in Section 13a.4. Sec. 4.27. Act repealed on January 1, 2017. The following are repealed on January 1, 2017:

Section 10. The Illinois Insurance Code is amended by changing Section 229.4a and by adding Section 356z.8 as follows:

(215 ILCS 5/229.4a)

(Section scheduled to be repealed on July 1, 2007)

Sec. 229.4a. Standard Non-forfeiture Law for Individual Deferred Annuities.

(1) Title. This Section shall be known as the Standard Nonforfeiture Law for Individual Deferred Annuities.

(2) Applicability. This Section shall not apply to any reinsurance, group annuity purchased under a retirement plan or plan of deferred compensation established or maintained by an employer (including a partnership or sole proprietorship) or by an employee organization, or by both, other than a plan providing individual retirement accounts or individual retirement annuities under Section 408 of the Internal Revenue Code, as now or hereafter amended, premium deposit fund, variable annuity, investment annuity, immediate annuity, any deferred annuity contract after annuity payments have commenced, or reversionary annuity, nor to any contract which shall be delivered outside this State through an agent or other representative of the company issuing the contract.

(3) Nonforfeiture Requirements.

(A) In the case of contracts issued on or after the operative date of this Section as defined in subsection (13), no contract of annuity, except as stated in subsection (2), shall be delivered or issued for delivery in this State unless it contains in substance the following provisions, or corresponding provisions which in the opinion of the Director of Insurance are at least as favorable to the

contract holder, upon cessation of payment of considerations under the contract:

(i) That upon cessation of payment of considerations under a contract, or upon the written request of the contract owner, the company shall grant a paid-up annuity benefit on a plan stipulated in the contract of such value as is specified in subsections (5), (6), (7), (8) and (10);

(ii) If a contract provides for a lump sum settlement at maturity, or at any other time, that upon surrender of the contract at or prior to the commencement of any annuity payments, the company shall pay in lieu of a paid-up annuity benefit a cash surrender benefit of such amount as is specified in subsections (5), (6), (8) and (10). The company may reserve the right to defer the payment of the cash surrender benefit for a period not to exceed 6 months after demand therefor with surrender of the contract after making written request and receiving written approval of the Director. The request shall address the necessity and equitability to all policyholders of the deferral;

(iii) A statement of the mortality table, if any, and interest rates used calculating any minimum paid-up annuity, cash surrender, or death benefits that are guaranteed under the contract, together with sufficient information to determine the amounts of the benefits; and

(iv) A statement that any paid-up annuity, cash surrender or death benefits that may be available under the contract are not less than the minimum benefits required by any statute of the state in which the contract is delivered and an explanation of the manner in which the benefits are altered by the existence of any additional amounts credited by the company to the contract, any indebtedness to the company on the contract or any prior withdrawals from or partial surrenders of the contract.

New matter indicated by italics - deletions by strikeout
(B) Notwithstanding the requirements of this Section, a deferred annuity contract may provide that if no considerations have been received under a contract for a period of 2 full years and the portion of the paid-up annuity benefit at maturity on the plan stipulated in the contract arising from prior considerations paid would be less than $20 monthly, the company may at its option terminate the contract by payment in cash of the then present value of the portion of the paid-up annuity benefit, calculated on the basis on the mortality table, if any, and interest rate specified in the contract for determining the paid-up annuity benefit, and by this payment shall be relieved of any further obligation under the contract.

(4) Minimum values. The minimum values as specified in subsections (5), (6), (7), (8) and (10) of any paid-up annuity, cash surrender or death benefits available under an annuity contract shall be based upon minimum nonforfeiture amounts as defined in this subsection.

(A)(i) The minimum nonforfeiture amount at any time at or prior to the commencement of any annuity payments shall be equal to an accumulation up to such time at rates of interest as indicated in subdivision (4)(B) of the net considerations (as hereinafter defined) paid prior to such time, decreased by the sum of paragraphs (a) through (d) below:

(a) Any prior withdrawals from or partial surrenders of the contract accumulated at rates of interest as indicated in subdivision (4)(B);

(b) An annual contract charge of $50, accumulated at rates of interest as indicated in subdivision (4)(B);

(c) Any premium tax paid by the company for the contract, accumulated at rates of interest as indicated in subdivision (4)(B); and

(d) The amount of any indebtedness to the company on the contract, including interest due and accrued.

(ii) The net considerations for a given contract year used to define the minimum nonforfeiture amount shall be an amount

New matter indicated by italics - deletions by strikeout
equal to 87.5% of the gross considerations, credited to the contract during that contract year.

(B) The interest rate used in determining minimum nonforfeiture amounts shall be an annual rate of interest determined as the lesser of 3% per annum and the following, which shall be specified in the contract if the interest rate will be reset:

(i) The five-year Constant Maturity Treasury Rate reported by the Federal Reserve as of a date, or average over a period, rounded to the nearest 1/20th of one percent, specified in the contract no longer than 15 months prior to the contract issue date or redetermination date under subdivision (4)(B)(iv);

(ii) Reduced by 125 basis points;

(iii) Where the resulting interest rate is not less than 1%; and

(iv) The interest rate shall apply for an initial period and may be redetermined for additional periods. The redetermination date, basis and period, if any, shall be stated in the contract. The basis is the date or average over a specified period that produces the value of the 5-year Constant Maturity Treasury Rate to be used at each redetermination date.

(C) During the period or term that a contract provides substantive participation in an equity indexed benefit, it may increase the reduction described in subdivision (4)(B)(ii) above by up to an additional 100 basis points to reflect the value of the equity index benefit. The present value at the contract issue date, and at each redetermination date thereafter, of the additional reduction shall not exceed market value of the benefit. The Director may require a demonstration that the present value of the additional reduction does not exceed the market value of the benefit. Lacking such a demonstration that is acceptable to the Director, the Director may disallow or limit the additional reduction.

New matter indicated by italics - deletions by strikeout
(D) The Director may adopt rules to implement the provisions of subdivision (4)(C) and to provide for further adjustments to the calculation of minimum nonforfeiture amounts for contracts that provide substantive participation in an equity index benefit and for other contracts that the Director determines adjustments are justified.

(5) Computation of Present Value. Any paid-up annuity benefit available under a contract shall be such that its present value on the date annuity payments are to commence is at least equal to the minimum nonforfeiture amount on that date. Present value shall be computed using the mortality table, if any, and the interest rates specified in the contract for determining the minimum paid-up annuity benefits guaranteed in the contract.

(6) Calculation of Cash Surrender Value. For contracts that provide cash surrender benefits, the cash surrender benefits available prior to maturity shall not be less than the present value as of the date of surrender of that portion of the maturity value of the paid-up annuity benefit that would be provided under the contract at maturity arising from considerations paid prior to the time of cash surrender reduced by the amount appropriate to reflect any prior withdrawals from or partial surrenders of the contract, such present value being calculated on the basis of an interest rate not more than 1% higher than the interest rate specified in the contract for accumulating the net considerations to determine maturity value, decreased by the amount of any indebtedness to the company on the contract, including interest due and accrued, and increased by any existing additional amounts credited by the company to the contract. In no event shall any cash surrender benefit be less than the minimum nonforfeiture amount at that time. The death benefit under such contracts shall be at least equal to the cash surrender benefit.

(7) Calculation of Paid-up Annuity Benefits. For contracts that do not provide cash surrender benefits, the present value of any paid-up annuity benefit available as a nonforfeiture option at any time prior to maturity shall not be less than the present value of that portion of the maturity value of the paid-up annuity benefit provided under the contract.
arising from considerations paid prior to the time the contract is surrendered in exchange for, or changed to, a deferred paid-up annuity, such present value being calculated for the period prior to the maturity date on the basis of the interest rate specified in the contract for accumulating the net considerations to determine maturity value, and increased by any additional amounts credited by the company to the contract. For contracts that do not provide any death benefits prior to the commencement of any annuity payments, present values shall be calculated on the basis of such interest rate and the mortality table specified in the contract for determining the maturity value of the paid-up annuity benefit. However, in no event shall the present value of a paid-up annuity benefit be less than the minimum nonforfeiture amount at that time.

(8) Maturity Date. For the purpose of determining the benefits calculated under subsections (6) and (7), in the case of annuity contracts under which an election may be made to have annuity payments commence at optional maturity dates, the maturity date shall be deemed to be the latest date for which election shall be permitted by the contract, but shall not be deemed to be later than the anniversary of the contract next following the annuitant's seventieth birthday or the tenth anniversary of the contract, whichever is later.

(9) Disclosure of Limited Death Benefits. A contract that does not provide cash surrender benefits or does not provide death benefits at least equal to the minimum nonforfeiture amount prior to the commencement of any annuity payments shall include a statement in a prominent place in the contract that such benefits are not provided.

(10) Inclusion of Lapse of Time Considerations. Any paid-up annuity, cash surrender or death benefits available at any time, other than on the contract anniversary under any contract with fixed scheduled considerations, shall be calculated with allowance for the lapse of time and the payment of any scheduled considerations beyond the beginning of the contract year in which cessation of payment of considerations under the contract occurs.
(11) Proration of Values; Additional Benefits. For a contract which provides, within the same contract by rider or supplemental contract provision, both annuity benefits and life insurance benefits that are in excess of the greater of cash surrender benefits or a return of the gross considerations with interest, the minimum nonforfeiture benefits shall be equal to the sum of the minimum nonforfeiture benefits for the annuity portion and the minimum nonforfeiture benefits, if any, for the life insurance portion computed as if each portion were a separate contract. Notwithstanding the provisions of subsections (5), (6), (7), (8) and (10), additional benefits payable in the event of total and permanent disability, as reversionary annuity or deferred reversionary annuity benefits, or as other policy benefits additional to life insurance, endowment and annuity benefits, and considerations for all such additional benefits, shall be disregarded in ascertaining the minimum nonforfeiture amounts, paid-up annuity, cash surrender and death benefits that may be required under this Section. The inclusion of such benefits shall not be required in any paid-up benefits, unless the additional benefits separately would require minimum nonforfeiture amounts, paid-up annuity, cash surrender and death benefits.

(12) Rules. The Director may adopt rules to implement the provisions of this Section.

(13) Effective Date. After the effective date of this amendatory Act of the 93rd General Assembly, a company may elect to apply its provisions to annuity contracts on a contract form-by-contract form basis before July 1, 2006. In all other instances, this Section shall become operative with respect to annuity contracts issued by the company on or after July 1, 2006.

(14) (Blank) This Section is repealed on July 1, 2007.

assessed value was in an affected county or counties shall be increased if a municipality terminated the designation of an area in 1993 as a redevelopment project area previously established under the Tax Increment Allocation Development Act in the Illinois Municipal Code, previously established under the Industrial Jobs Recovery Law in the Illinois Municipal Code, or previously established under the Economic Development Area Tax Increment Allocation Act, by an amount equal to the 1994 equalized assessed value of each taxable lot, block, tract, or parcel of real property in the redevelopment project area over and above the initial equalized assessed value of each property in the redevelopment project area. In the first year after a municipality removes a taxable lot, block, tract, or parcel of real property from a redevelopment project area established under the Tax Increment Allocation Development Act in the Illinois Municipal Code, the Industrial Jobs Recovery Law in the Illinois Municipal Code, or the Economic Development Area Tax Increment Allocation Act, "recovered tax increment value" means the amount of the current year's equalized assessed value of each taxable lot, block, tract, or parcel of real property removed from the redevelopment project area over and above the initial equalized assessed value of that real property before removal from the redevelopment project area.

Except as otherwise provided in this Section, "limiting rate" means a fraction the numerator of which is the last preceding aggregate extension base times an amount equal to one plus the extension limitation defined in this Section and the denominator of which is the current year's equalized assessed value of all real property in the territory under the jurisdiction of the taxing district during the prior levy year. For those taxing districts that reduced their aggregate extension for the last preceding levy year, the highest aggregate extension in any of the last 3 preceding levy years shall be used for the purpose of computing the limiting rate. The denominator shall not include new property or the recovered tax increment value. If a new rate, a rate decrease, or a limiting rate increase has been approved at an election held after March 21, 2006, then (i) the otherwise applicable limiting rate shall be increased by the amount of the new rate or shall be reduced by the amount of the rate decrease, as the case may be, or (ii) in

(4) At the consolidated election at which the proposition to abolish the offices of township treasurer and trustee of schools of a township is submitted to the electors of each elementary and unit school district that is subject to the jurisdiction and authority of the township treasurer and trustee of schools of that township, a majority of the electors voting on the proposition in each such elementary and unit school district votes in favor of the proposition as submitted to them.

The electors in all of the school districts subject to the jurisdiction and authority of the township treasurer and trustees of schools of the township in which those offices are sought to be abolished shall vote at the consolidated election on the proposition to abolish the offices of township treasurer and trustee of schools of that township. If a majority of the electors in all of the school districts combined voting on the proposition vote in favor of the proposition, then the proposition shall be deemed to have passed; but if a majority of the electors voting on the proposition in all of the school district fails to vote in favor of the proposition as submitted to them, then the proposition shall not be deemed to have passed and the offices of township treasurer and trustee of schools of the township in which those offices were sought to be abolished shall not be abolished, unless and until the proceedings detailed in paragraphs (1) through (3) of this subsection and the conditions set forth in this paragraph are met.

If the proposition to abolish the offices of township treasurer and trustee of schools of a township is deemed to have passed at the consolidated election as provided in this subsection, those offices shall be deemed abolished by operation of law effective on January 1 of the calendar year immediately following the calendar year in which that consolidated election is held, provided that if after the election, the trustees of schools by resolution elect to abolish the offices of township treasurer and trustee of schools effective on July 1 immediately following the election, then the offices shall be abolished on July 1 immediately following the election. On the date that the offices of township treasurer and trustee of schools of a township are deemed abolished by operation of law, the school board of each elementary and unit school district and the school board of each high school district that is subject to the jurisdiction and authority of the township treasurer and trustees of schools of that township at the time those offices are abolished: (i) shall appoint its own

In addition, on the date that the offices of township treasurer and trustee of schools of a township are deemed abolished as provided in this subsection, the school board of each elementary school, high school and unit school district that until that date is subject to the jurisdiction and authority of the township treasurer and trustees of schools of that township shall be deemed by operation of law to have agreed and assumed to pay and, when determined, shall pay to the Illinois Municipal Retirement Fund a proportionate share of the unfunded liability existing in that Fund at the time these offices are abolished in that calendar year for all annuities or other benefits then or thereafter to become payable from that Fund with respect to all periods of service performed prior to that date as a participating employee in that Fund by persons serving during those periods of service as a trustee of schools, township treasurer or regular employee in the office of the township treasurer of that township. That unfunded liability shall be actuarially determined by the board of trustees of the Illinois Municipal Retirement Fund, and the board of trustees shall thereupon notify each school board required to pay a proportionate share of that unfunded liability of the aggregate amount of the unfunded liability so determined. The amount so paid to the Illinois Municipal Retirement Fund by each of those school districts shall be credited to the account of the township in that Fund. For each elementary school, high school and unit school district under the jurisdiction and authority of a township treasurer and trustees of schools of a township in which those offices are abolished as provided in this subsection, each such district's proportionate share of the aggregate compensation payable to the former township treasurer as provided in this paragraph and each such district's proportionate share of the aggregate amount of the unfunded liability

schools of that township are abolished bears to the aggregate number of
pupils in average daily attendance in all of those districts as so reported for
that school year.

Upon abolition of the offices of township treasurer and trustee of

of school trustees, in its corporate capacity, shall be deemed the successor
in interest to the former trustees of schools of that township with respect to
the common school lands and township loanable funds of the township;

(a) Notwithstanding any other provisions of this Article and in addition to the methods provided by other Sections of this Article for increasing the rate of tax levied for any school purpose, Ford Heights School District 169 may levy a supplemental tax for the 2006, 2007, and 2008 taxable years.

New matter indicated by italics - deletions by strikeout.
(b) The supplemental tax authorized by this Section is levied upon all the taxable property of the school district at its value as equalized or assessed by the Department of Revenue for each of the years in which the levy is made. The supplemental tax is in addition to all other taxes that the district may levy for any school purpose for the years in which the levy is made.

(c) For each year that it is levied, the supplemental tax must be levied at a rate not exceeding that which, when applied to the equalized assessed value of all taxable property in the district for that year in which the levy is made, is sufficient to yield that amount of tax revenue that is equal to $1,067,000 for a total of $3,201,000 for all taxable years that the tax is levied.

(d) The supplemental tax authorized by this Section must be levied by proper resolution of the school board and without referendum. A certified copy of the resolution levying the supplemental tax, signed by the president and clerk or secretary of the school board, must be filed in the office of the county clerk, and it is, then, the duty of the county clerk to extend the supplemental tax. The supplemental tax must be extended and collected in like manner as all other taxes of the school district, but the supplemental tax must be separately identified by the collectors.

(e) Ford Heights School District 169 may use the proceeds from the supplemental tax for any purpose for which the district is authorized to make expenditures.

(a) School districts shall not be subject to the provisions limiting their indebtedness prescribed in "An Act to limit the indebtedness of counties having a population of less than 500,000 and townships, school districts and other municipal corporations having a population of less than 300,000", approved February 15, 1928, as amended.

No school districts maintaining grades K through 8 or 9 through 12 shall become indebted in any manner or for any purpose to an amount, including existing indebtedness, in the aggregate exceeding 6.9% on the value of the taxable property therein to be ascertained by the last
assessment for State and county taxes or, until January 1, 1983, if greater, the sum that is produced by multiplying the school district's 1978 equalized assessed valuation by the debt limitation percentage in effect on January 1, 1979, previous to the incurring of such indebtedness.

No school districts maintaining grades K through 12 shall become indebted in any manner or for any purpose to an amount, including existing indebtedness, in the aggregate exceeding 13.8% on the value of the taxable property therein to be ascertained by the last assessment for State and county taxes or, until January 1, 1983, if greater, the sum that is produced by multiplying the school district's 1978 equalized assessed valuation by the debt limitation percentage in effect on January 1, 1979, previous to the incurring of such indebtedness.

No partial elementary unit district, as defined in Article 11E of this Code, shall become indebted in any manner or for any purpose in an amount, including existing indebtedness, in the aggregate exceeding 6.9% of the value of the taxable property of the entire district, to be ascertained by the last assessment for State and county taxes, plus an amount, including existing indebtedness, in the aggregate exceeding 6.9% of the value of the taxable property of that portion of the district included in the elementary and high school classification, to be ascertained by the last assessment for State and county taxes. Moreover, no partial elementary unit district, as defined in Article 11E of this Code, shall become indebted on account of bonds issued by the district for high school purposes in the aggregate exceeding 6.9% of the value of the taxable property of the entire district, to be ascertained by the last assessment for State and county taxes, nor shall the district become indebted on account of bonds issued by the district for elementary purposes in the aggregate exceeding 6.9% of the value of the taxable property for that portion of the district included in the elementary and high school classification, to be ascertained by the last assessment for State and county taxes.

(b) Notwithstanding the debt limitation prescribed in subsection (a) of this Section, additional indebtedness may be incurred in an amount not to exceed the estimated cost of acquiring or improving school sites or constructing and equipping additional building facilities under the following conditions:

(1) Whenever the enrollment of students for the next school year is estimated by the board of education to increase over the actual present enrollment by not less than 35% or by not less than 200 students or the actual present enrollment of students has increased over the previous school year by not less than 35% or by not less than 200 students and the board of education determines that additional school sites or building facilities are required as a result of such increase in enrollment; and

(2) When the Regional Superintendent of Schools having jurisdiction over the school district and the State Superintendent of Education concur in such enrollment projection or increase and approve the need for such additional school sites or building facilities and the estimated cost thereof; and

(3) When the voters in the school district approve a proposition for the issuance of bonds for the purpose of acquiring or improving such needed school sites or constructing and equipping such needed additional building facilities at an election called and held for that purpose. Notice of such an election shall state that the amount of indebtedness proposed to be incurred would exceed the debt limitation otherwise applicable to the school district. The ballot for such proposition shall state what percentage of the equalized assessed valuation will be outstanding in bonds if the proposed issuance of bonds is approved by the voters; or

(4) Notwithstanding the provisions of paragraphs (1) through (3) of this subsection (b), if the school board determines that additional facilities are needed to provide a quality educational program and not less than 2/3 of those voting in an election called by the school board on the question approve the issuance of bonds for the construction of such facilities, the school district may issue bonds for this purpose; or

(5) Notwithstanding the provisions of paragraphs (1) through (3) of this subsection (b), if (i) the school district has previously availed itself of the provisions of paragraph (4) of this subsection (b) to enable it to issue bonds, (ii) the voters of the school district have not defeated a proposition for the issuance of bonds since the referendum described in paragraph (4) of this subsection (b) was held, (iii) the school board determines that additional facilities are needed to provide a quality educational program, and (iv) a majority of those voting in an election called by the school board on the question approve the issuance of bonds for the construction of such facilities, the school district may issue bonds for this purpose.

In no event shall the indebtedness incurred pursuant to this subsection (b) and the existing indebtedness of the school district exceed 15% of the value of the taxable property therein to be ascertained by the last assessment for State and county taxes, previous to the incurring of such indebtedness or, until January 1, 1983, if greater, the sum that is produced by multiplying the school district's 1978 equalized assessed valuation by the debt limitation percentage in effect on January 1, 1979.

The indebtedness provided for by this subsection (b) shall be in addition to and in excess of any other debt limitation.

(1) The additional indebtedness authorized by this subsection (d) is incurred by the school district through the issuance of bonds under and in accordance with Section 17-2.11a for the purpose of replacing a school building which, because of mine subsidence damage, has been closed as provided in paragraph (2) of this subsection (d) or through the issuance of bonds under and in accordance with Section 19-3 for the purpose of increasing the size of, or providing for additional functions in, such replacement school buildings, or both such purposes.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Illinois Procurement Code is amended by adding Section 25-75 as follows:

Sec. 25-75. Purchase of motor vehicles.

(a) Beginning on the effective date of this amendatory Act of the 94th General Assembly, all gasoline-powered vehicles purchased from State funds must be flexible fuel vehicles. Beginning July 1, 2007, all gasoline-powered vehicles purchased from State funds must be flexible fuel or fuel efficient hybrid vehicles. For purposes of this Section, "flexible fuel vehicles" are automobiles or light trucks that operate on either gasoline or E-85 (85% ethanol, 15% gasoline) fuel and "Fuel efficient hybrid vehicles" are automobiles or light trucks that use a gasoline or diesel engine and an electric motor to provide power and gain at least a 20% increase in combined US-EPA city-highway fuel economy over the equivalent or most-similar conventionally-powered model.

(b) On and after the effective date of this amendatory Act of the 94th General Assembly, any vehicle purchased from State funds that is fueled by diesel fuel shall be certified by the manufacturer to run on 5% biodiesel (B5) fuel.

(c) The Chief Procurement Officer may determine that certain vehicle procurements are exempt from this Section based on intended use or other reasonable considerations such as health and safety of Illinois citizens.

Section 10. The Alternate Fuels Act is amended by changing Section 30 as follows:

New matter indicated by italics - deletions by strikeout.
Sec. 30. Rebate program. Beginning January 1, 1997, and as long as funds are available, each owner of an alternate fuel vehicle shall be eligible to apply for a rebate. Beginning July 1, 2005, each owner of a vehicle using domestic renewable fuel is eligible to apply for a fuel cost differential rebate under subsection (c) of this Section. The Agency shall cause rebates to be issued under the provisions of this Act. An owner may apply for only one of 3 types of rebates with regard to an individual alternate fuel vehicle: (i) a conversion cost rebate, (ii) an OEM differential cost rebate, or (iii) a fuel cost differential rebate. Only one rebate may be issued with regard to a particular alternate fuel vehicle during the life of that vehicle. A rebate shall not exceed $4,000 per vehicle. Over the life of this rebate program, an owner of an alternate fuel vehicle or a vehicle using domestic renewable fuel may not receive rebates for more than 150 vehicles per location or for 300 vehicles in total.

(a) A conversion cost rebate may be issued to an owner or his or her designee in order to reduce the cost of converting a conventional vehicle to an alternate fuel vehicle. Conversion of a conventional vehicle to alternate fuel capability must take place in Illinois for the owner to be eligible for the conversion cost rebate. Amounts spent by applicants within a calendar year may be claimed on a rebate application submitted during that calendar year. Approved conversion cost rebates applied for during or after calendar year 1997 shall be 80% of all approved conversion costs claimed and documented. Approval of conversion cost rebates may continue after calendar year 2002, if funds are still available. An applicant may include on an application submitted in 1997 all amounts spent within that calendar year on the conversion, even if the expenditure occurred before promulgation of the Agency rules.

(b) An OEM differential cost rebate may be issued to an owner or his or her designee in order to reduce the cost differential between a conventional vehicle or engine and the same vehicle or engine, produced by an original equipment manufacturer, that has the capability to use alternate fuels.

A new OEM vehicle or engine must be purchased in Illinois and must either be an alternate fuel vehicle or used in an alternate fuel vehicle,
respectively, for the owner to be eligible for an OEM differential cost rebate. Large vehicles, over 8,500 pounds gross vehicle weight, purchased outside Illinois are eligible for an OEM differential cost rebate if the same or a comparable vehicle is not available for purchase in Illinois. Amounts spent by applicants within a calendar year may be claimed on a rebate application submitted during that calendar year.

Approved OEM differential cost rebates applied for during or after calendar year 1997 shall be 80% of all approved cost differential claimed and documented. Approval of OEM differential cost rebates may continue after calendar year 2002, if funds are still available. An applicant may include on an application submitted in 1997 all amounts spent within that calendar year on OEM equipment, even if the expenditure occurred before promulgation of the Agency rules.

(c) A fuel cost differential rebate may be issued to an owner or his or her designee in order to reduce the cost differential between conventional fuels and domestic renewable fuels or alternate fuels purchased to operate an alternate fuel vehicle. The fuel cost differential shall be based on a 3-year life cycle cost analysis developed by the Agency by rulemaking. The rebate shall apply to and be payable during a consecutive 3-year period commencing on the date the application is approved by the Agency. Approved fuel cost differential rebates may be applied for during or after calendar year 1997 and approved rebates shall be 80% of the cost differential for a consecutive 3-year period. Approval of fuel cost differential rebates may continue after calendar year 2002 if funds are still available.

Twenty-five percent of the amount that is appropriated under Section 40 to be used to fund programs authorized by this Section during calendar year 2001 shall be designated to fund fuel cost differential rebates. If the total dollar amount of approved fuel cost differential rebate applications as of July 1, 2001 is less than the amount designated for that calendar year, the balance of designated funds shall be immediately available to fund any rebate authorized by this Section and approved in the calendar year.

New matter indicated by italics - deletions by strikeout.
An approved fuel cost differential rebate shall be paid to an owner in 3 annual installments on or about the anniversary date of the approval of the application. Owners receiving a fuel cost differential rebate shall be required to demonstrate, through recordkeeping, the use of domestic renewable fuels during the 3-year period commencing on the date the application is approved by the Agency. If the vehicle ceases to be registered to the original applicant owner, a prorated installment shall be paid to that owner or the owner's designee and the remainder of the rebate shall be canceled.

(d) Vehicles owned by the federal government or vehicles registered in a state outside Illinois are not eligible for rebates.

PUBLIC ACT 94-1080
(House Bill No. 4342)

AN ACT concerning property.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Mobile Home Park Act is amended by adding Section 9.15 and changing Section 21 as follows:

(210 ILCS 115/9.15 new)

Sec. 9.15. Fire safety. All private water supply systems and hydrants for fire safety purposes in existence on the effective date of this amendatory Act of the 94th General Assembly shall be maintained in operable condition and good repair as defined by the State Fire Marshal or mobile home park licensing agency. A mobile home park that does not have a private water supply system and hydrants shall have an agreement, approved by the State Fire Marshal or licensing agency in consultation with the municipal fire department or the local fire protection district, to provide an adequate and reliable water supply for fire mitigation needs.

New matter indicated by italics - deletions by strikeout.
Nothing in this Section shall be construed to mandate a mobile home park, constructed prior to 1998, to install new water supply systems or hydrants for fire safety purposes.

Each mobile home park shall be inspected annually pursuant to the applicable mobile home park fire protection standards by the municipal fire department or fire protection district that has jurisdictional responsibility for responding to a fire call in that park. As used in this Section, "applicable mobile home park fire protection standards" means (i) in the case of a home rule unit, the fire protection standards ordinance of the municipality or fire protection district that has jurisdictional responsibility for responding to a fire call in that park or (ii) if there is no ordinance or in the case of a non-home rule unit, the rules adopted by the Office of the State Fire Marshal for fire safety in mobile home parks. If, upon inspection, the municipal fire department or fire protection district finds that a park does not meet the applicable fire protection standards, the municipal fire department or fire protection district shall give within 5 working days of the inspection a written notice of violation to the licensee and to the Department of Public Health of any violation or required modification or repair. The licensee has 30 days after receipt of the written notice to correct the violation or make the required modification or repair. Not less than 30 days after the licensee's receipt of the notice, the municipal fire department or fire protection district shall reinspect the park and issue a written reinspection report to the licensee and to the Department of Public Health concerning the status of the licensee's compliance with the notice and whether any violation still exists. If the municipal fire department or fire protection district determines on reinspection that a licensee has made a good faith and substantial effort to comply with the notice but that compliance is not complete, the municipal fire department or fire protection district may grant the licensee an extension of time for compliance, as they deem fit, by a written notice of extension of time for compliance issued within 5 working days after the reinspection that identifies what remains to be corrected, modified, or repaired and a date by which compliance must be achieved. If an extension is granted, the municipal fire department or fire protection

district shall make another inspection within 10 days after the date set for compliance and issue a final written report to the licensee and the Department of Public Health concerning the status of the licensee's compliance with the notice, written report, and written notice of extension of time for compliance and whether a violation still exists. If a licensee fails to cure the violation or comply with the requirements stated in the notice of violation, or if a written notice of extension of time for compliance is issued and the final written report states that a violation still exists, the municipal fire department or fire protection district shall notify the Department of Public Health of the licensee's failure to comply with the notice of violation and the written report and shall deliver to the Department for purposes of enforcement under this Section copies of all written notices and reports concerning the violation.

Upon receipt of the written reports concerning the violation, the Department shall issue to the licensee a notice of intent to assess civil penalties in the amount of $500 per day, per violation for non-compliance with the written notice of violation issued by the municipal fire department or fire protection district and provide the licensee with the opportunity for an administrative hearing pursuant to the provisions of Section 22 of this Act.

Notwithstanding the foregoing provisions of this Section, the enforcement of home rule ordinances and regulations shall be by the appropriate local authorities, including local public health departments, municipal attorneys, and State’s Attorneys.

A home rule unit may not regulate the legal rights, remedies, and obligations of a licensee under this Section in a manner less restrictive than the regulation by the State of fire safety in a mobile home park under this Section. This Section is a limitation under subsection (i) of Section 6 of Article VII of the Illinois Constitution on the concurrent exercise by home rule units of powers and function exercised by the State.

This Section does not apply to any mobile home park located within a home rule county if the home rule county actively regulates mobile home parks.

Sec. 21. The Department shall enforce the provisions of this Act and the rules and regulations adopted pursuant thereto affecting health, sanitation, water supply, sewage, garbage, fire safety, and waste disposal, and the Department shall inspect, at least once each year, each mobile home park and all the accommodations and facilities therewith. Such officials or officers are hereby granted the power and authority to enter upon the premises of such parks at any time for the purposes herein set forth.

The Department may issue rules and regulations to carry out the provisions of this Act. Such rules may contain provisions for the Department to grant a waiver to a mobile home park, if the intent and purpose of the Act are met.

The Department is empowered to assess civil penalties for violations of Section 9.15 of this Act. Civil penalties in the amount of $500 per day, per violation shall be assessed for non-compliance with the written notice of violation issued by a municipal fire department or fire protection district. An additional civil penalty of $500 per day of violation shall be assessed against a licensee who knowingly rents or offers for rent a mobile home or mobile home site without taking appropriate corrective action to remedy a notice of violation issued by a municipal fire department or fire protection district. The first day of violation for purposes of assessing a fine shall be the date of the licensee's receipt of the written report following the reinspection, if the written report states that a violation still exists. If a written notice of extension of time for compliance is issued and the final written report states that a violation still exists, the first day of violation for purposes of assessing a fine shall be the date of the licensee's receipt of the final written report. The Department shall deposit all fees and fines collected under this Act into the Facility Licensing Fund. Moneys in the Fund, subject to appropriation, shall be used for the enforcement of this Act.

In the administration and enforcement of this Act, the Department may designate and use full-time city or county health departments as its agents in making inspections and investigations.

Sec. 4. Authority to Issue Revenue Bonds.

A. The Department shall have the continuing power to borrow money for the purpose of carrying out the following:

1. To reduce or avoid the need to borrow or obtain a federal advance under Section 1201, et seq., of the Social Security Act (42 U.S.C. Section 1321), as amended, or any similar federal law; or

2. To refinance a previous advance received by the Department with respect to the payment of Benefits; or

3. To refinance, purchase, redeem, refund, advance refund or defease (including, any combination of the foregoing) any outstanding Bonds issued pursuant to this Act; or

4. To fund a surplus in Illinois' account in the Unemployment Trust Fund of the United States Treasury. Paragraphs 1, 2 and 4 are inoperative on and after January 1, 2010.

B. As evidence of the obligation of the Department to repay money borrowed for the purposes set forth in Section 4A above, the Department may issue and dispose of its interest bearing revenue Bonds and may also, from time-to-time, issue and dispose of its interest bearing revenue Bonds to purchase, redeem, refund, advance refund or defease (including, any combination of the foregoing) any Bonds at maturity or pursuant to redemption provisions or at any time before maturity. The Director, in consultation with the Department's Employment Security Advisory Board, shall have the power to direct that the Bonds be issued. requested by the Director and the Employment Security Advisory Board with regard to the issuance of Bonds. Such Bonds shall be issued in the name of the State of Illinois for the benefit of the Department and shall be executed by the Director. In case any Director whose signature appears on any Bond ceases (after attaching his or her signature) to hold that office, her or his signature shall nevertheless be valid and effective for all purposes.

C. No Bonds shall be issued without the Director's written certification that, based upon a reasonable financial analysis, the issuance of Bonds is reasonably expected to:

   (i) Result in a savings to the State as compared to the cost of borrowing or obtaining an advance under Section 1201, et seq., Social Security Act (42 U.S.C. Section 1321), as amended, or any similar federal law;
   (ii) Result in terms which are advantageous to the State through refunding, advance refunding or other similar restructuring of outstanding Bonds; or
   (iii) Allow the State to avoid an anticipated deficiency in the State's account in the Unemployment Trust Fund of the United States Treasury by funding a surplus in the State's account in the Unemployment Trust Fund of the United States Treasury.

D. All such Bonds shall be payable from Fund Building Receipts. Bonds may also be paid from (i) to the extent allowable by law, from monies in the State's account in the Unemployment Trust Fund of the United States Treasury; and (ii) to the extent allowable by law, a federal advance under Section 1201, et seq., of the Social Security Act (42 U.S.C. Section 1321); and (iii) proceeds of Bonds and receipts from related credit and exchange agreements to the extent allowed by this Act and applicable legal requirements.

E. The maximum principal amount of the Bonds, when combined with the outstanding principal of all other Bonds issued pursuant to this Act, shall not at any time exceed $1,400,000,000, excluding all of the outstanding principal of any other Bonds issued pursuant to this Act for

which payment has been irrevocably provided by refunding or other manner of defeasance. It is the intent of this Act that the outstanding Bond authorization limits provided for in this Section 4E shall be revolving in nature, such that the amount of Bonds outstanding that are not refunded or otherwise defeased shall be included in determining the maximum amount of Bonds authorized to be issued pursuant to the Act.

F. Such Bonds and refunding Bonds issued pursuant to this Act may bear such date or dates, may mature at such time or times not exceeding 10 years from their respective dates of issuance, and may bear interest at such rate or rates not exceeding the maximum rate authorized by the Bond Authorization Act, as amended and in effect at the time of the issuance of the Bonds.

G. The Department may enter into a Credit Agreement pertaining to the issuance of the Bonds, upon terms which are not inconsistent with this Act and any other laws, provided that the term of such Credit Agreement shall not exceed the term of the Bonds, plus any time period necessary to cure any defaults under such Credit Agreement.

H. Interest earnings paid to holders of the Bonds shall not be exempt from income taxes imposed by the State.

I. While any Bond Obligations are outstanding or anticipated to come due as a result of Bonds expected to be issued in either or both of the 2 immediately succeeding calendar quarters, the Department shall collect and deposit Fund Building Receipts into the Master Bond Fund in an amount necessary to satisfy the Required Fund Building Receipts Amount prior to expending Fund Building Receipts for any other purpose. The Required Fund Building Receipts Amount shall be that amount necessary to ensure the marketability of the Bonds, which shall be specified in the Bond Sale Order executed by the Director in connection with the issuance of the Bonds.

J. Holders of the Bonds shall have a first and priority claim on all Fund Building Receipts in the Master Bond Fund in parity with all other holders of the Bonds, provided that such claim may be subordinated to the provider of any Credit Agreement for any of the Bonds.
K. To the extent that Fund Building Receipts in the Master Bond Fund are not otherwise needed to satisfy the requirements of this Act and the instruments authorizing the issuance of the Bonds, such monies shall be used by the Department, in such amounts as determined by the Director to do any one or a combination either or both of the following:

1. To purchase, refinance, redeem, refund, advance refund or defease (or any combination of the foregoing) outstanding Bonds, to the extent such action is legally available and does not impair the tax exempt status of any of the Bonds which are, in fact, exempt from Federal income taxation; or

2. As a deposit in the State's account in the Unemployment Trust Fund of the United States Treasury; or

3. As a deposit into the Special Programs Fund provided for under Section 2107 of the Unemployment Insurance Act.

L. The Director shall determine the method of sale, type of bond, bond form, redemption provisions and other terms of the Bonds that, in the Director's judgment, best achieve the purposes of this Act and effect the borrowing at the lowest practicable cost, provided that those determinations are not inconsistent with this Act or other applicable legal requirements. Those determinations shall be set forth in a document entitled "Bond Sale Order" acceptable, in form and substance, to the attorney or attorneys acting as bond counsel for the Bonds in connection with the rendering of opinions necessary for the issuance of the Bonds and executed by the Director.

The Director, as ex-officio custodian of the benefit account, which shall be kept separate and apart from all other public moneys, shall issue his checks for the payment of such benefits, refunds, health insurance and funds solely from the moneys so received into the benefit account. However, after January 1, 1987, no check shall be drawn on such benefit account unless at the time of drawing there is sufficient money in the account to pay the check. The Director shall retain in the clearing account an amount of interest and penalties equal to the amount of interest and penalties to be refunded from the benefit account. After clearance thereof, the amount so retained shall be immediately deposited by the Director, as are all other moneys in the clearing account, with the Secretary of the Treasury of the United States. If, at any time, an insufficient amount of interest and penalties is available for retention in the clearing account, no refund of interest or penalties shall be made from the benefit account until a sufficient amount is available for retention and is so retained, or until the State Treasurer, upon the direction of the Director, transfers to the Director a sufficient amount from the special administrative account, for immediate deposit in the benefit account.

Any interest required to be paid on advances under Title XII of the Social Security Act shall be paid in a timely manner and shall not be paid, directly or indirectly, by an equivalent reduction in contributions or payments in lieu of contributions from amounts in this State's account in the unemployment trust fund. Such moneys may be requisitioned and used for the payment of expenses incurred for the administration of this Act, but only pursuant to a specific appropriation by the General Assembly and only if the expenses are incurred and the moneys are requisitioned after the enactment of an appropriation law which:

(10 ILCS 5/16-3) (from Ch. 46, par. 16-3)

Sec. 16-3. (a) The names of all candidates to be voted for in each election district or precinct shall be printed on one ballot, except as is provided in Sections 16-6.1 and 21-1.01 of this Act and except as otherwise provided in this Act with respect to the odd year regular elections and the emergency referenda; all nominations of any political party being placed under the party appellation or title of such party as designated in the certificates of nomination or petitions. The names of all independent candidates shall be printed upon the ballot in a column or columns under the heading "independent" arranged under the names or titles of the respective offices for which such independent candidates shall have been nominated and so far as practicable, the name or names of any independent candidate or candidates for any office shall be printed upon the ballot opposite the name or names of any candidate or candidates for the same office contained in any party column or columns upon said ballot. The ballot shall contain no other names, except that in cases of electors for President and Vice-President of the United States, the names of the candidates for President and Vice-President may be added to the party designation and words calculated to aid the voter in his choice of candidates may be added, such as "Vote for one," "Vote for three." When an electronic voting system is used which utilizes a ballot label booklet,
the candidates and questions shall appear on the pages of such booklet in the order provided by this Code; and, in any case where candidates for an office appear on a page which does not contain the name of any candidate for another office, and where less than 50% of the page is utilized, the name of no candidate shall be printed on the lowest 25% of such page. On the back or outside of the ballot, so as to appear when folded, shall be printed the words "Official Ballot", followed by the designation of the polling place for which the ballot is prepared, the date of the election and a facsimile of the signature of the election authority who has caused the ballots to be printed. The ballots shall be of plain white paper, through which the printing or writing cannot be read. However, ballots for use at the nonpartisan and consolidated elections may be printed on different color paper, except blue paper, whenever necessary or desirable to facilitate distinguishing between ballots for different political subdivisions. In the case of nonpartisan elections for officers of a political subdivision, unless the statute or an ordinance adopted pursuant to Article VII of the Constitution providing the form of government therefor requires otherwise, the column listing such nonpartisan candidates shall be printed with no appellation or circle at its head. The party appellation or title, or the word "independent" at the head of any column provided for independent candidates, shall be printed in letters not less than one-fourth of an inch in height and a circle one-half inch in diameter shall be printed at the beginning of the line in which such appellation or title is printed, provided, however, that no such circle shall be printed at the head of any column or columns provided for such independent candidates. The names of candidates shall be printed in letters not less than one-eighth nor more than one-fourth of an inch in height, and at the beginning of each line in which a name of a candidate is printed a square shall be printed, the sides of which shall be not less than one-fourth of an inch in length. However, the names of the candidates for Governor and Lieutenant Governor on the same ticket shall be printed within a bracket and a single square shall be printed in front of the bracket. The list of candidates of the several parties and any such list of independent candidates shall be placed in separate columns on the ballot in such order as the election authorities charged with

the printing of the ballots shall decide; provided, that the names of the candidates of the several political parties, certified by the State Board of Elections to the several county clerks shall be printed by the county clerk of the proper county on the official ballot in the order certified by the State Board of Elections. Any county clerk refusing, neglecting or failing to print on the official ballot the names of candidates of the several political parties in the order certified by the State Board of Elections, and any county clerk who prints or causes to be printed upon the official ballot the name of a candidate, for an office to be filled by the Electors of the entire State, whose name has not been duly certified to him upon a certificate signed by the State Board of Elections shall be guilty of a Class C misdemeanor.

(b) When an electronic voting system is used which utilizes a ballot card, on the inside flap of each ballot card envelope there shall be printed a form for write-in voting which shall be substantially as follows:

WRITE-IN VOTES

(See card of instructions for specific information. Duplicate form below by hand for additional write-in votes.)

Title of Office

( ) ____________________________

Name of Candidate

(c) When an electronic voting system is used which uses a ballot sheet, the instructions to voters on the ballot sheet shall refer the voter to the card of instructions for specific information on write-in voting. Below each office appearing on such ballot sheet there shall be a provision for the casting of a write-in vote.

(d) When such electronic system is used, there shall be printed on the back of each ballot card, each ballot card envelope, and the first page of the ballot label when a ballot label is used, the words "Official Ballot," followed by the number of the precinct or other precinct identification, which may be stamped, in lieu thereof and, as applicable, the number and name of the township, ward or other election district for which the ballot card, ballot card envelope, and ballot label are prepared, the date of the
election and a facsimile of the signature of the election authority who has caused the ballots to be printed. The back of the ballot card shall also include a method of identifying the ballot configuration such as a listing of the political subdivisions and districts for which votes may be cast on that ballot, or a number code identifying the ballot configuration or color coded ballots, except that where there is only one ballot configuration in a precinct, the precinct identification, and any applicable ward identification, shall be sufficient. Ballot card envelopes used in punch card systems shall be of paper through which no writing or punches may be discerned and shall be of sufficient length to enclose all voting positions. However, the election authority may provide ballot card envelopes on which no precinct number or township, ward or other election district designation, or election date are preprinted, if space and a preprinted form are provided below the space provided for the names of write-in candidates where such information may be entered by the judges of election. Whenever an election authority utilizes ballot card envelopes on which the election date and precinct is not preprinted, a judge of election shall mark such information for the particular precinct and election on the envelope in ink before tallying and counting any write-in vote written thereon. If some method of insuring ballot secrecy other than an envelope is used, such information must be provided on the ballot itself.

(e) In the designation of the name of a candidate on the ballot, the candidate's given name or names, initial or initials, a nickname by which the candidate is commonly known, or a combination thereof, may be used in addition to the candidate's surname. If a candidate has changed his or her name, whether by a statutory or common law procedure in Illinois or any other jurisdiction, within 3 years before the last day for filing the petition for nomination, nomination papers, or certificate of nomination for that office, whichever is applicable, then (i) the candidate's name on the ballot must be followed by "formerly known as (list all prior names during the 3-year period) until name changed on (list date of each such name change)" and (ii) the petition, papers, or certificate must be accompanied by the candidate's affidavit stating the candidate's previous names during the period specified in (i) and the date or dates each of

those names was changed; failure to meet these requirements shall be
grounds for denying certification of the candidate's name for the ballot or
removing the candidate's name from the ballot, as appropriate, but these
requirements do not apply to name changes resulting from adoption to
assume an adoptive parent's or parents' surname, marriage to assume a
spouse's surname, or dissolution of marriage or declaration of invalidity
of marriage to assume a former surname. No other designation such as a
political slogan, title, or degree or nickname suggesting or implying
possession of a title, degree or professional status, or similar information
may be used in connection with the candidate's surname, except that the
title "Mrs." may be used in the case of a married woman. For purposes of
this Section, a "political slogan" is defined as any word or words
expressing or connoting a position, opinion, or belief that the candidate
may espouse, including but not limited to, any word or words conveying
any meaning other than that of the personal identity of the candidate. A
candidate may not use a political slogan as part of his or her name on the
ballot, notwithstanding that the political slogan may be part of the
candidate's name.

(f) The State Board of Elections, a local election official, or an
election authority shall remove any candidate's name designation from a
ballot that is inconsistent with subsection (e) of this Section. In addition,
the State Board of Elections, a local election official, or an election
authority shall not certify to any election authority any candidate name
designation that is inconsistent with subsection (e) of this Section.

(g) If the State Board of Elections, a local election official, or an
election authority removes a candidate's name designation from a ballot
under subsection (f) of this Section, then the aggrieved candidate may seek
appropriate relief in circuit court.

Where voting machines or electronic voting systems are used, the
provisions of this Section may be modified as required or authorized by
Article 24 or Article 24A, whichever is applicable.

Nothing in this Section shall prohibit election authorities from
using or reusing ballot card envelopes which were printed before the
effective date of this amendatory Act of 1985.
AN ACT concerning local government.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Illinois Municipal Code is amended by changing Sections 11-74.4-3 and 11-74.4-7 as follows:

(a) For any redevelopment project area that has been designated pursuant to this Section by an ordinance adopted prior to November 1, 1999 (the effective date of Public Act 91-478), "blighted area" shall have the meaning set forth in this Section prior to that date.

On and after November 1, 1999, "blighted area" means any improved or vacant area within the boundaries of a redevelopment project area located within the territorial limits of the municipality where:

(1) If improved, industrial, commercial, and residential buildings or improvements are detrimental to the public safety, health, or welfare because of a combination of 5 or more of the following factors, each of which is (i) present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) reasonably distributed throughout the improved part of the redevelopment project area:

New matter indicated by italics - deletions by strikeout.
(A) Dilapidation. An advanced state of disrepair or neglect of necessary repairs to the primary structural components of buildings or improvements in such a combination that a documented building condition analysis determines that major repair is required or the defects are so serious and so extensive that the buildings must be removed.

(B) Obsolescence. The condition or process of falling into disuse. Structures have become ill-suited for the original use.

(C) Deterioration. With respect to buildings, defects including, but not limited to, major defects in the secondary building components such as doors, windows, porches, gutters and downspouts, and fascia. With respect to surface improvements, that the condition of roadways, alleys, curbs, gutters, sidewalks, off-street parking, and surface storage areas evidence deterioration, including, but not limited to, surface cracking, crumbling, potholes, depressions, loose paving material, and weeds protruding through paved surfaces.

(D) Presence of structures below minimum code standards. All structures that do not meet the standards of zoning, subdivision, building, fire, and other governmental codes applicable to property, but not including housing and property maintenance codes.

(E) Illegal use of individual structures. The use of structures in violation of applicable federal, State, or local laws, exclusive of those applicable to the presence of structures below minimum code standards.

(F) Excessive vacancies. The presence of buildings that are unoccupied or under-utilized and that represent an adverse influence on the area because of the frequency, extent, or duration of the vacancies.

New matter indicated by italics - deletions by strikeout.
(G) Lack of ventilation, light, or sanitary facilities. The absence of adequate ventilation for light or air circulation in spaces or rooms without windows, or that require the removal of dust, odor, gas, smoke, or other noxious airborne materials. Inadequate natural light and ventilation means the absence of skylights or windows for interior spaces or rooms and improper window sizes and amounts by room area to window area ratios. Inadequate sanitary facilities refers to the absence or inadequacy of garbage storage and enclosure, bathroom facilities, hot water and kitchens, and structural inadequacies preventing ingress and egress to and from all rooms and units within a building.

(H) Inadequate utilities. Underground and overhead utilities such as storm sewers and storm drainage, sanitary sewers, water lines, and gas, telephone, and electrical services that are shown to be inadequate. Inadequate utilities are those that are: (i) of insufficient capacity to serve the uses in the redevelopment project area, (ii) deteriorated, antiquated, obsolete, or in disrepair, or (iii) lacking within the redevelopment project area.

(I) Excessive land coverage and overcrowding of structures and community facilities. The over-intensive use of property and the crowding of buildings and accessory facilities onto a site. Examples of problem conditions warranting the designation of an area as one exhibiting excessive land coverage are: (i) the presence of buildings either improperly situated on parcels or located on parcels of inadequate size and shape in relation to present-day standards of development for health and safety and (ii) the presence of multiple buildings on a single parcel. For there to be a finding of excessive land coverage, these parcels must exhibit one or more of the following conditions: insufficient provision for light and air within or around

New matter indicated by italics - deletions by strikeout.
buildings, increased threat of spread of fire due to the close proximity of buildings, lack of adequate or proper access to a public right-of-way, lack of reasonably required off-street parking, or inadequate provision for loading and service.

(J) Deleterious land use or layout. The existence of incompatible land-use relationships, buildings occupied by inappropriate mixed-uses, or uses considered to be noxious, offensive, or unsuitable for the surrounding area.

(K) Environmental clean-up. The proposed redevelopment project area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

(L) Lack of community planning. The proposed redevelopment project area was developed prior to or without the benefit or guidance of a community plan. This means that the development occurred prior to the adoption by the municipality of a comprehensive or other community plan or that the plan was not followed at the time of the area's development. This factor must be documented by evidence of adverse or incompatible land-use relationships, inadequate street layout, improper subdivision, parcels of inadequate shape and size to meet contemporary development standards, or other evidence demonstrating an absence of effective community planning.

(M) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of
the last 5 calendar years prior to the year in which the redevelopment project area is designated or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated.

(2) If vacant, the sound growth of the redevelopment project area is impaired by a combination of 2 or more of the following factors, each of which is (i) present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) reasonably distributed throughout the vacant part of the redevelopment project area to which it pertains:

   (A) Obsolete platting of vacant land that results in parcels of limited or narrow size or configurations of parcels of irregular size or shape that would be difficult to develop on a planned basis and in a manner compatible with contemporary standards and requirements, or platting that failed to create rights-of-ways for streets or alleys or that created inadequate right-of-way widths for streets, alleys, or other public rights-of-way or that omitted easements for public utilities.

   (B) Diversity of ownership of parcels of vacant land sufficient in number to retard or impede the ability to assemble the land for development.

   (C) Tax and special assessment delinquencies exist or the property has been the subject of tax sales under the Property Tax Code within the last 5 years.

   (D) Deterioration of structures or site improvements in neighboring areas adjacent to the vacant land.

New matter indicated by italics - deletions by strikeout.
(E) The area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

(F) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated.

(3) If vacant, the sound growth of the redevelopment project area is impaired by one of the following factors that (i) is present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) is reasonably distributed throughout the vacant part of the redevelopment project area to which it pertains:

(A) The area consists of one or more unused quarries, mines, or strip mine ponds.

(B) The area consists of unused rail yards, rail tracks, or railroad rights-of-way.

New matter indicated by italics - deletions by strikeout.
(C) The area, prior to its designation, is subject to
(i) chronic flooding that adversely impacts on real property
in the area as certified by a registered professional engineer
or appropriate regulatory agency or (ii) surface water that
discharges from all or a part of the area and contributes to
flooding within the same watershed, but only if the
redevelopment project provides for facilities or
improvements to contribute to the alleviation of all or part
of the flooding.

(D) The area consists of an unused or illegal
disposal site containing earth, stone, building debris, or
similar materials that were removed from construction,
demolition, excavation, or dredge sites.

(E) Prior to November 1, 1999, the area is not less
than 50 nor more than 100 acres and 75% of which is
vacant (notwithstanding that the area has been used for
commercial agricultural purposes within 5 years prior to the
designation of the redevelopment project area), and the area
meets at least one of the factors itemized in paragraph (1)
of this subsection, the area has been designated as a town or
village center by ordinance or comprehensive plan adopted
prior to January 1, 1982, and the area has not been
developed for that designated purpose.

(F) The area qualified as a blighted improved area
immediately prior to becoming vacant, unless there has
been substantial private investment in the immediately
surrounding area.

(b) For any redevelopment project area that has been designated
pursuant to this Section by an ordinance adopted prior to November 1,
1999 (the effective date of Public Act 91-478), "conservation area" shall
have the meaning set forth in this Section prior to that date.

On and after November 1, 1999, "conservation area" means any
improved area within the boundaries of a redevelopment project area
located within the territorial limits of the municipality in which 50% or
more of the structures in the area have an age of 35 years or more. Such an area is not yet a blighted area but because of a combination of 3 or more of the following factors is detrimental to the public safety, health, morals or welfare and such an area may become a blighted area:

(1) Dilapidation. An advanced state of disrepair or neglect of necessary repairs to the primary structural components of buildings or improvements in such a combination that a documented building condition analysis determines that major repair is required or the defects are so serious and so extensive that the buildings must be removed.

(2) Obsolescence. The condition or process of falling into disuse. Structures have become ill-suited for the original use.

(3) Deterioration. With respect to buildings, defects including, but not limited to, major defects in the secondary building components such as doors, windows, porches, gutters and downspouts, and fascia. With respect to surface improvements, that the condition of roadways, alleys, curbs, gutters, sidewalks, off-street parking, and surface storage areas evidence deterioration, including, but not limited to, surface cracking, crumbling, potholes, depressions, loose paving material, and weeds protruding through paved surfaces.

(4) Presence of structures below minimum code standards. All structures that do not meet the standards of zoning, subdivision, building, fire, and other governmental codes applicable to property, but not including housing and property maintenance codes.

(5) Illegal use of individual structures. The use of structures in violation of applicable federal, State, or local laws, exclusive of those applicable to the presence of structures below minimum code standards.

(6) Excessive vacancies. The presence of buildings that are unoccupied or under-utilized and that represent an adverse influence on the area because of the frequency, extent, or duration of the vacancies.

(7) Lack of ventilation, light, or sanitary facilities. The absence of adequate ventilation for light or air circulation in spaces or rooms without windows, or that require the removal of dust, odor, gas, smoke, or other noxious airborne materials. Inadequate natural light and ventilation means the absence or inadequacy of skylights or windows for interior spaces or rooms and improper window sizes and amounts by room area to window area ratios. Inadequate sanitary facilities refers to the absence or inadequacy of garbage storage and enclosure, bathroom facilities, hot water and kitchens, and structural inadequacies preventing ingress and egress to and from all rooms and units within a building.

(8) Inadequate utilities. Underground and overhead utilities such as storm sewers and storm drainage, sanitary sewers, water lines, and gas, telephone, and electrical services that are shown to be inadequate. Inadequate utilities are those that are: (i) of insufficient capacity to serve the uses in the redevelopment project area, (ii) deteriorated, antiquated, obsolete, or in disrepair, or (iii) lacking within the redevelopment project area.

(9) Excessive land coverage and overcrowding of structures and community facilities. The over-intensive use of property and the crowding of buildings and accessory facilities onto a site. Examples of problem conditions warranting the designation of an area as one exhibiting excessive land coverage are: the presence of buildings either improperly situated on parcels or located on parcels of inadequate size and shape in relation to present-day standards of development for health and safety and the presence of multiple buildings on a single parcel. For there to be a finding of excessive land coverage, these parcels must exhibit one or more of the following conditions: insufficient provision for light and air within or around buildings, increased threat of spread of fire due to the close proximity of buildings, lack of adequate or proper access to a public right-of-way, lack of reasonably required off-street parking, or inadequate provision for loading and service.

New matter indicated by italics - deletions by strikeout.
(10) Deleterious land use or layout. The existence of incompatible land-use relationships, buildings occupied by inappropriate mixed-uses, or uses considered to be noxious, offensive, or unsuitable for the surrounding area.

(11) Lack of community planning. The proposed redevelopment project area was developed prior to or without the benefit or guidance of a community plan. This means that the development occurred prior to the adoption by the municipality of a comprehensive or other community plan or that the plan was not followed at the time of the area's development. This factor must be documented by evidence of adverse or incompatible land-use relationships, inadequate street layout, improper subdivision, parcels of inadequate shape and size to meet contemporary development standards, or other evidence demonstrating an absence of effective community planning.

(12) The area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

(13) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years for which information is available.

(c) "Industrial park" means an area in a blighted or conservation area suitable for use by any manufacturing, industrial, research or transportation enterprise, of facilities to include but not be limited to factories, mills, processing plants, assembly plants, packing plants, fabricating plants, industrial distribution centers, warehouses, repair overhaul or service facilities, freight terminals, research facilities, test facilities or railroad facilities.

(d) "Industrial park conservation area" means an area within the boundaries of a redevelopment project area located within the territorial limits of a municipality that is a labor surplus municipality or within 1 1/2 miles of the territorial limits of a municipality that is a labor surplus municipality if the area is annexed to the municipality; which area is zoned as industrial no later than at the time the municipality by ordinance designates the redevelopment project area, and which area includes both vacant land suitable for use as an industrial park and a blighted area or conservation area contiguous to such vacant land.

(e) "Labor surplus municipality" means a municipality in which, at any time during the 6 months before the municipality by ordinance designates an industrial park conservation area, the unemployment rate was over 6% and was also 100% or more of the national average unemployment rate for that same time as published in the United States Department of Labor Bureau of Labor Statistics publication entitled "The Employment Situation" or its successor publication. For the purpose of this subsection, if unemployment rate statistics for the municipality are not available, the unemployment rate in the municipality shall be deemed to be the same as the unemployment rate in the principal county in which the municipality is located.

(f) "Municipality" shall mean a city, village, incorporated town, or a township that is located in the unincorporated portion of a county with 3 million or more inhabitants, if the county adopted an ordinance that approved the township's redevelopment plan.

(g) "Initial Sales Tax Amounts" means the amount of taxes paid under the Retailers' Occupation Tax Act, Use Tax Act, Service Use Tax Act, the Service Occupation Tax Act, the Municipal Retailers' Occupation

Tax Act, and the Municipal Service Occupation Tax Act by retailers and servicemen on transactions at places located in a State Sales Tax Boundary during the calendar year 1985.

(g-1) "Revised Initial Sales Tax Amounts" means the amount of taxes paid under the Retailers' Occupation Tax Act, Use Tax Act, Service Use Tax Act, the Service Occupation Tax Act, the Municipal Retailers' Occupation Tax Act, and the Municipal Service Occupation Tax Act by retailers and servicemen on transactions at places located within the State Sales Tax Boundary revised pursuant to Section 11-74.4-8a(9) of this Act.

(h) "Municipal Sales Tax Increment" means an amount equal to the increase in the aggregate amount of taxes paid to a municipality from the Local Government Tax Fund arising from sales by retailers and servicemen within the redevelopment project area or State Sales Tax Boundary, as the case may be, for as long as the redevelopment project area or State Sales Tax Boundary, as the case may be, exist over and above the aggregate amount of taxes as certified by the Illinois Department of Revenue and paid under the Municipal Retailers' Occupation Tax Act and the Municipal Service Occupation Tax Act by retailers and servicemen, on transactions at places of business located in the redevelopment project area or State Sales Tax Boundary, as the case may be, during the base year which shall be the calendar year immediately prior to the year in which the municipality adopted tax increment allocation financing. For purposes of computing the aggregate amount of such taxes for base years occurring prior to 1985, the Department of Revenue shall determine the Initial Sales Tax Amounts for such taxes and deduct therefrom an amount equal to 4% of the aggregate amount of taxes per year for each year the base year is prior to 1985, but not to exceed a total deduction of 12%. The amount so determined shall be known as the "Adjusted Initial Sales Tax Amounts".

For purposes of determining the Municipal Sales Tax Increment, the Department of Revenue shall for each period subtract from the amount paid to the municipality from the Local Government Tax Fund arising from sales by retailers and servicemen on transactions located in the redevelopment project area or the State Sales Tax Boundary, as the case may be, the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts.
Tax Amounts or the Revised Initial Sales Tax Amounts for the Municipal Retailers' Occupation Tax Act and the Municipal Service Occupation Tax Act. For the State Fiscal Year 1989, this calculation shall be made by utilizing the calendar year 1987 to determine the tax amounts received. For the State Fiscal Year 1990, this calculation shall be made by utilizing the period from January 1, 1988, until September 30, 1988, to determine the tax amounts received from retailers and servicemen pursuant to the Municipal Retailers' Occupation Tax Act and the Municipal Service Occupation Tax Act, which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For the State Fiscal Year 1991, this calculation shall be made by utilizing the period from October 1, 1988, to June 30, 1989, to determine the tax amounts received from retailers and servicemen pursuant to the Municipal Retailers' Occupation Tax and the Municipal Service Occupation Tax Act which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For every State Fiscal Year thereafter, the applicable period shall be the 12 months beginning July 1 and ending June 30 to determine the tax amounts received which shall have deducted therefrom the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts, as the case may be.

(i) "Net State Sales Tax Increment" means the sum of the following: (a) 80% of the first $100,000 of State Sales Tax Increment annually generated within a State Sales Tax Boundary; (b) 60% of the amount in excess of $100,000 but not exceeding $500,000 of State Sales Tax Increment annually generated within a State Sales Tax Boundary; and (c) 40% of all amounts in excess of $500,000 of State Sales Tax Increment annually generated within a State Sales Tax Boundary. If, however, a municipality established a tax increment financing district in a county with a population in excess of 3,000,000 before January 1, 1986, and the municipality entered into a contract or issued bonds after January 1, 1986, but before December 31, 1986, to finance redevelopment project costs
within a State Sales Tax Boundary, then the Net State Sales Tax Increment means, for the fiscal years beginning July 1, 1990, and July 1, 1991, 100% of the State Sales Tax Increment annually generated within a State Sales Tax Boundary; and notwithstanding any other provision of this Act, for those fiscal years the Department of Revenue shall distribute to those municipalities 100% of their Net State Sales Tax Increment before any distribution to any other municipality and regardless of whether or not those other municipalities will receive 100% of their Net State Sales Tax Increment. For Fiscal Year 1999, and every year thereafter until the year 2007, for any municipality that has not entered into a contract or has not issued bonds prior to June 1, 1988 to finance redevelopment project costs within a State Sales Tax Boundary, the Net State Sales Tax Increment shall be calculated as follows: By multiplying the Net State Sales Tax Increment by 90% in the State Fiscal Year 1999; 80% in the State Fiscal Year 2000; 70% in the State Fiscal Year 2001; 60% in the State Fiscal Year 2002; 50% in the State Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006; and 10% in the State Fiscal Year 2007. No payment shall be made for State Fiscal Year 2008 and thereafter.

Municipalities that issued bonds in connection with a redevelopment project in a redevelopment project area within the State Sales Tax Boundary prior to July 29, 1991, or that entered into contracts in connection with a redevelopment project in a redevelopment project area before June 1, 1988, shall continue to receive their proportional share of the Illinois Tax Increment Fund distribution until the date on which the redevelopment project is completed or terminated. If, however, a municipality that issued bonds in connection with a redevelopment project in a redevelopment project area within the State Sales Tax Boundary prior to July 29, 1991 retires the bonds prior to June 30, 2007 or a municipality that entered into contracts in connection with a redevelopment project in a redevelopment project area before June 1, 1988 completes the contracts prior to June 30, 2007, then so long as the redevelopment project is not completed or is not terminated, the Net State Sales Tax Increment shall be calculated, beginning on the date on which the bonds are retired or the

contracts are completed, as follows: By multiplying the Net State Sales Tax Increment by 60% in the State Fiscal Year 2002; 50% in the State Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006; and 10% in the State Fiscal Year 2007. No payment shall be made for State Fiscal Year 2008 and thereafter. Refunding of any bonds issued prior to July 29, 1991, shall not alter the Net State Sales Tax Increment.

(j) "State Utility Tax Increment Amount" means an amount equal to the aggregate increase in State electric and gas tax charges imposed on owners and tenants, other than residential customers, of properties located within the redevelopment project area under Section 9-222 of the Public Utilities Act, over and above the aggregate of such charges as certified by the Department of Revenue and paid by owners and tenants, other than residential customers, of properties within the redevelopment project area during the base year, which shall be the calendar year immediately prior to the year of the adoption of the ordinance authorizing tax increment allocation financing.

(k) "Net State Utility Tax Increment" means the sum of the following: (a) 80% of the first $100,000 of State Utility Tax Increment annually generated by a redevelopment project area; (b) 60% of the amount in excess of $100,000 but not exceeding $500,000 of the State Utility Tax Increment annually generated by a redevelopment project area; and (c) 40% of all amounts in excess of $500,000 of State Utility Tax Increment annually generated by a redevelopment project area. For the State Fiscal Year 1999, and every year thereafter until the year 2007, for any municipality that has not entered into a contract or has not issued bonds prior to June 1, 1988 to finance redevelopment project costs within a redevelopment project area, the Net State Utility Tax Increment shall be calculated as follows: By multiplying the Net State Utility Tax Increment by 90% in the State Fiscal Year 1999; 80% in the State Fiscal Year 2000; 70% in the State Fiscal Year 2001; 60% in the State Fiscal Year 2002; 50% in the State Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006; and

10% in the State Fiscal Year 2007. No payment shall be made for the State Fiscal Year 2008 and thereafter.

Municipalities that issue bonds in connection with the redevelopment project during the period from June 1, 1988 until 3 years after the effective date of this Amendatory Act of 1988 shall receive the Net State Utility Tax Increment, subject to appropriation, for 15 State Fiscal Years after the issuance of such bonds. For the 16th through the 20th State Fiscal Years after issuance of the bonds, the Net State Utility Tax Increment shall be calculated as follows: By multiplying the Net State Utility Tax Increment by 90% in year 16; 80% in year 17; 70% in year 18; 60% in year 19; and 50% in year 20. Refunding of any bonds issued prior to June 1, 1988, shall not alter the revised Net State Utility Tax Increment payments set forth above.

(1) "Obligations" mean bonds, loans, debentures, notes, special certificates or other evidence of indebtedness issued by the municipality to carry out a redevelopment project or to refund outstanding obligations.

(m) "Payment in lieu of taxes" means those estimated tax revenues from real property in a redevelopment project area derived from real property that has been acquired by a municipality which according to the redevelopment project or plan is to be used for a private use which taxing districts would have received had a municipality not acquired the real property and adopted tax increment allocation financing and which would result from levies made after the time of the adoption of tax increment allocation financing to the time the current equalized value of real property in the redevelopment project area exceeds the total initial equalized value of real property in said area.

(n) "Redevelopment plan" means the comprehensive program of the municipality for development or redevelopment intended by the payment of redevelopment project costs to reduce or eliminate those conditions the existence of which qualified the redevelopment project area as a "blighted area" or "conservation area" or combination thereof or "industrial park conservation area," and thereby to enhance the tax bases of the taxing districts which extend into the redevelopment project area. On and after November 1, 1999 (the effective date of Public Act 91-478), no
redevelopment plan may be approved or amended that includes the development of vacant land (i) with a golf course and related clubhouse and other facilities or (ii) designated by federal, State, county, or municipal government as public land for outdoor recreational activities or for nature preserves and used for that purpose within 5 years prior to the adoption of the redevelopment plan. For the purpose of this subsection, "recreational activities" is limited to mean camping and hunting. Each redevelopment plan shall set forth in writing the program to be undertaken to accomplish the objectives and shall include but not be limited to:

(A) an itemized list of estimated redevelopment project costs;

(B) evidence indicating that the redevelopment project area on the whole has not been subject to growth and development through investment by private enterprise;

(C) an assessment of any financial impact of the redevelopment project area on or any increased demand for services from any taxing district affected by the plan and any program to address such financial impact or increased demand;

(D) the sources of funds to pay costs;

(E) the nature and term of the obligations to be issued;

(F) the most recent equalized assessed valuation of the redevelopment project area;

(G) an estimate as to the equalized assessed valuation after redevelopment and the general land uses to apply in the redevelopment project area;

(H) a commitment to fair employment practices and an affirmative action plan;

(I) if it concerns an industrial park conservation area, the plan shall also include a general description of any proposed developer, user and tenant of any property, a description of the type, structure and general character of the facilities to be developed, a description of the type, class and number of new employees to be employed in the operation of the facilities to be developed; and

(J) if property is to be annexed to the municipality, the plan shall include the terms of the annexation agreement.

The provisions of items (B) and (C) of this subsection (n) shall not apply to a municipality that before March 14, 1994 (the effective date of Public Act 88-537) had fixed, either by its corporate authorities or by a commission designated under subsection (k) of Section 11-74.4-4, a time and place for a public hearing as required by subsection (a) of Section 11-74.4-5. No redevelopment plan shall be adopted unless a municipality complies with all of the following requirements:

(1) The municipality finds that the redevelopment project area on the whole has not been subject to growth and development through investment by private enterprise and would not reasonably be anticipated to be developed without the adoption of the redevelopment plan.

(2) The municipality finds that the redevelopment plan and project conform to the comprehensive plan for the development of the municipality as a whole, or, for municipalities with a population of 100,000 or more, regardless of when the redevelopment plan and project was adopted, the redevelopment plan and project either: (i) conforms to the strategic economic development or redevelopment plan issued by the designated planning authority of the municipality, or (ii) includes land uses that have been approved by the planning commission of the municipality.

(3) The redevelopment plan establishes the estimated dates of completion of the redevelopment project and retirement of obligations issued to finance redevelopment project costs. Those dates: shall not be later than December 31 of the year in which the payment to the municipal treasurer as provided in subsection (b) of Section 11-74.4-8 of this Act is to be made with respect to ad valorem taxes levied in the twenty-third calendar year after the year in which the ordinance approving the redevelopment project area is adopted if the ordinance was adopted on or after January 15, 1981; shall not be later than December 31 of the year in which the

However, for redevelopment project areas for which bonds were issued before July 29, 1991, or for which contracts were entered into before June 1, 1988, in connection with a redevelopment project in the area within the State Sales Tax Boundary, the estimated dates of completion of the redevelopment project and retirement of obligations to finance redevelopment project costs may be extended by municipal ordinance to December 31, 2013. The termination procedures of subsection (b) of Section 11-74.4-8 are not required for these redevelopment project areas in 2009 but are required in 2013. A municipality may by municipal ordinance amend an existing redevelopment plan to conform to this paragraph (3) as amended by Public Act 91-478, which municipal ordinance may be adopted without further hearing or notice and without complying with the procedures provided in this Act pertaining to an amendment to or the initial approval of a redevelopment plan and project and designation of a redevelopment project area.

not more than 35 years for redevelopment project areas that were adopted on or after December 16, 1986 and for which at least $8 million worth of municipal bonds were authorized on or after December 19, 1989 but before January 1, 1990; provided that the municipality elects to extend the life of the redevelopment project area to 35 years by the adoption of an ordinance after at least 14 but not more than 30 days' written notice to the taxing bodies, that would otherwise constitute the joint review board for the redevelopment project area, before the adoption of the ordinance.

Those dates, for purposes of real property tax increment allocation financing pursuant to Section 11-74.4-8 only, shall be not more than 35 years for redevelopment project areas that were established on or after December 1, 1981 but before January 1, 1982 and for which at least $1,500,000 worth of tax increment revenue bonds were authorized on or after September 30, 1990 but before July 1, 1991; provided that the municipality elects to extend the life of the redevelopment project area to 35 years by the adoption of an ordinance after at least 14 but not more than 30 days' written notice to the taxing bodies, that would otherwise constitute the joint review board for the redevelopment project area, before the adoption of the ordinance.

(3.5) The municipality finds, in the case of an industrial park conservation area, also that the municipality is a labor surplus municipality and that the implementation of the redevelopment plan will reduce unemployment, create new jobs and by the provision of new facilities enhance the tax base of the taxing districts that extend into the redevelopment project area.

(4) If any incremental revenues are being utilized under Section 8(a)(1) or 8(a)(2) of this Act in redevelopment project areas approved by ordinance after January 1, 1986, the municipality finds: (a) that the redevelopment project area would not reasonably be developed without the use of such incremental revenues, and (b) that such incremental revenues will be
exclusively utilized for the development of the redevelopment project area.

(5) If the redevelopment plan will not result in displacement of residents from 10 or more inhabited residential units, and the municipality certifies in the plan that such displacement will not result from the plan, a housing impact study need not be performed. If, however, the redevelopment plan would result in the displacement of residents from 10 or more inhabited residential units, or if the redevelopment project area contains 75 or more inhabited residential units and no certification is made, then the municipality shall prepare, as part of the separate feasibility report required by subsection (a) of Section 11-74.4-5, a housing impact study.

Part I of the housing impact study shall include (i) data as to whether the residential units are single family or multi-family units, (ii) the number and type of rooms within the units, if that information is available, (iii) whether the units are inhabited or uninhabited, as determined not less than 45 days before the date that the ordinance or resolution required by subsection (a) of Section 11-74.4-5 is passed, and (iv) data as to the racial and ethnic composition of the residents in the inhabited residential units. The data requirement as to the racial and ethnic composition of the residents in the inhabited residential units shall be deemed to be fully satisfied by data from the most recent federal census.

Part II of the housing impact study shall identify the inhabited residential units in the proposed redevelopment project area that are to be or may be removed. If inhabited residential units are to be removed, then the housing impact study shall identify (i) the number and location of those units that will or may be removed, (ii) the municipality's plans for relocation assistance for those residents in the proposed redevelopment project area whose residences are to be removed, (iii) the availability of replacement housing for those residents whose residences are to be removed,
and shall identify the type, location, and cost of the housing, and (iv) the type and extent of relocation assistance to be provided.

(6) On and after November 1, 1999, the housing impact study required by paragraph (5) shall be incorporated in the redevelopment plan for the redevelopment project area.

(7) On and after November 1, 1999, no redevelopment plan shall be adopted, nor an existing plan amended, nor shall residential housing that is occupied by households of low-income and very low-income persons in currently existing redevelopment project areas be removed after November 1, 1999 unless the redevelopment plan provides, with respect to inhabited housing units that are to be removed for households of low-income and very low-income persons, affordable housing and relocation assistance not less than that which would be provided under the federal Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 and the regulations under that Act, including the eligibility criteria. Affordable housing may be either existing or newly constructed housing. For purposes of this paragraph (7), "low-income households", "very low-income households", and "affordable housing" have the meanings set forth in the Illinois Affordable Housing Act. The municipality shall make a good faith effort to ensure that this affordable housing is located in or near the redevelopment project area within the municipality.

(8) On and after November 1, 1999, if, after the adoption of the redevelopment plan for the redevelopment project area, any municipality desires to amend its redevelopment plan to remove more inhabited residential units than specified in its original redevelopment plan, that change shall be made in accordance with the procedures in subsection (c) of Section 11-74.4-5.

(9) For redevelopment project areas designated prior to November 1, 1999, the redevelopment plan may be amended without further joint review board meeting or hearing, provided that the municipality shall give notice of any such changes by mail
to each affected taxing district and registrant on the interested party registry, to authorize the municipality to expend tax increment revenues for redevelopment project costs defined by paragraphs (5) and (7.5), subparagraphs (E) and (F) of paragraph (11), and paragraph (11.5) of subsection (q) of Section 11-74.4-3, so long as the changes do not increase the total estimated redevelopment project costs set out in the redevelopment plan by more than 5% after adjustment for inflation from the date the plan was adopted.

(o) "Redevelopment project" means any public and private development project in furtherance of the objectives of a redevelopment plan. On and after November 1, 1999 (the effective date of Public Act 91-478), no redevelopment plan may be approved or amended that includes the development of vacant land (i) with a golf course and related clubhouse and other facilities or (ii) designated by federal, State, county, or municipal government as public land for outdoor recreational activities or for nature preserves and used for that purpose within 5 years prior to the adoption of the redevelopment plan. For the purpose of this subsection, "recreational activities" is limited to mean camping and hunting.

(p) "Redevelopment project area" means an area designated by the municipality, which is not less in the aggregate than 1 1/2 acres and in respect to which the municipality has made a finding that there exist conditions which cause the area to be classified as an industrial park conservation area or a blighted area or a conservation area, or a combination of both blighted areas and conservation areas.

(q) "Redevelopment project costs" mean and include the sum total of all reasonable or necessary costs incurred or estimated to be incurred, and any such costs incidental to a redevelopment plan and a redevelopment project. Such costs include, without limitation, the following:

1. Costs of studies, surveys, development of plans, and specifications, implementation and administration of the redevelopment plan including but not limited to staff and professional service costs for architectural, engineering, legal, financial, planning or other services, provided however that no

charges for professional services may be based on a percentage of the tax increment collected; except that on and after November 1, 1999 (the effective date of Public Act 91-478), no contracts for professional services, excluding architectural and engineering services, may be entered into if the terms of the contract extend beyond a period of 3 years. In addition, "redevelopment project costs" shall not include lobbying expenses. After consultation with the municipality, each tax increment consultant or advisor to a municipality that plans to designate or has designated a redevelopment project area shall inform the municipality in writing of any contracts that the consultant or advisor has entered into with entities or individuals that have received, or are receiving, payments financed by tax increment revenues produced by the redevelopment project area with respect to which the consultant or advisor has performed, or will be performing, service for the municipality. This requirement shall be satisfied by the consultant or advisor before the commencement of services for the municipality and thereafter whenever any other contracts with those individuals or entities are executed by the consultant or advisor;

(1.5) After July 1, 1999, annual administrative costs shall not include general overhead or administrative costs of the municipality that would still have been incurred by the municipality if the municipality had not designated a redevelopment project area or approved a redevelopment plan;

(1.6) The cost of marketing sites within the redevelopment project area to prospective businesses, developers, and investors;

(2) Property assembly costs, including but not limited to acquisition of land and other property, real or personal, or rights or interests therein, demolition of buildings, site preparation, site improvements that serve as an engineered barrier addressing ground level or below ground environmental contamination, including, but not limited to parking lots and other concrete or asphalt barriers, and the clearing and grading of land;

(3) Costs of rehabilitation, reconstruction or repair or remodeling of existing public or private buildings, fixtures, and leasehold improvements; and the cost of replacing an existing public building if pursuant to the implementation of a redevelopment project the existing public building is to be demolished to use the site for private investment or devoted to a different use requiring private investment;

(4) Costs of the construction of public works or improvements, except that on and after November 1, 1999, redevelopment project costs shall not include the cost of constructing a new municipal public building principally used to provide offices, storage space, or conference facilities or vehicle storage, maintenance, or repair for administrative, public safety, or public works personnel and that is not intended to replace an existing public building as provided under paragraph (3) of subsection (q) of Section 11-74.4-3 unless either (i) the construction of the new municipal building implements a redevelopment project that was included in a redevelopment plan that was adopted by the municipality prior to November 1, 1999 or (ii) the municipality makes a reasonable determination in the redevelopment plan, supported by information that provides the basis for that determination, that the new municipal building is required to meet an increase in the need for public safety purposes anticipated to result from the implementation of the redevelopment plan;

(5) Costs of job training and retraining projects, including the cost of "welfare to work" programs implemented by businesses located within the redevelopment project area;

(6) Financing costs, including but not limited to all necessary and incidental expenses related to the issuance of obligations and which may include payment of interest on any obligations issued hereunder including interest accruing during the estimated period of construction of any redevelopment project for
which such obligations are issued and for not exceeding 36 months thereafter and including reasonable reserves related thereto;

(7) To the extent the municipality by written agreement accepts and approves the same, all or a portion of a taxing district's capital costs resulting from the redevelopment project necessarily incurred or to be incurred within a taxing district in furtherance of the objectives of the redevelopment plan and project.

(7.5) For redevelopment project areas designated (or redevelopment project areas amended to add or increase the number of tax-increment-financing assisted housing units) on or after November 1, 1999, an elementary, secondary, or unit school district's increased costs attributable to assisted housing units located within the redevelopment project area for which the developer or redeveloper receives financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the assisted housing sites necessary for the completion of that housing as authorized by this Act, and which costs shall be paid by the municipality from the Special Tax Allocation Fund when the tax increment revenue is received as a result of the assisted housing units and shall be calculated annually as follows:

(A) for foundation districts, excluding any school district in a municipality with a population in excess of 1,000,000, by multiplying the district's increase in attendance resulting from the net increase in new students enrolled in that school district who reside in housing units within the redevelopment project area that have received financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by the

most recently available per capita tuition cost as defined in Section 10-20.12a of the School Code less any increase in general State aid as defined in Section 18-8.05 of the School Code attributable to these added new students subject to the following annual limitations:

(i) for unit school districts with a district average 1995-96 Per Capita Tuition Charge of less than $5,900, no more than 25% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act;

(ii) for elementary school districts with a district average 1995-96 Per Capita Tuition Charge of less than $5,900, no more than 17% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act; and

(iii) for secondary school districts with a district average 1995-96 Per Capita Tuition Charge of less than $5,900, no more than 8% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act.

(B) For alternate method districts, flat grant districts, and foundation districts with a district average 1995-96 Per Capita Tuition Charge equal to or more than $5,900, excluding any school district with a population in excess of 1,000,000, by multiplying the district's increase in attendance resulting from the net increase in new students enrolled in that school district who reside in housing units within the redevelopment project area that have received financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the

boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by the most recently available per capita tuition cost as defined in Section 10-20.12a of the School Code less any increase in general state aid as defined in Section 18-8.05 of the School Code attributable to these added new students subject to the following annual limitations:

(i) for unit school districts, no more than 40% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act;

(ii) for elementary school districts, no more than 27% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act; and

(iii) for secondary school districts, no more than 13% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act.

(C) For any school district in a municipality with a population in excess of 1,000,000, the following restrictions shall apply to the reimbursement of increased costs under this paragraph (7.5):

(i) no increased costs shall be reimbursed unless the school district certifies that each of the schools affected by the assisted housing project is at or over its student capacity;

(ii) the amount reimbursable shall be reduced by the value of any land donated to the school district by the municipality or developer, and
by the value of any physical improvements made to the schools by the municipality or developer; and
(iii) the amount reimbursed may not affect amounts otherwise obligated by the terms of any bonds, notes, or other funding instruments, or the terms of any redevelopment agreement.

Any school district seeking payment under this paragraph (7.5) shall, after July 1 and before September 30 of each year, provide the municipality with reasonable evidence to support its claim for reimbursement before the municipality shall be required to approve or make the payment to the school district. If the school district fails to provide the information during this period in any year, it shall forfeit any claim to reimbursement for that year. School districts may adopt a resolution waiving the right to all or a portion of the reimbursement otherwise required by this paragraph (7.5). By acceptance of this reimbursement the school district waives the right to directly or indirectly set aside, modify, or contest in any manner the establishment of the redevelopment project area or projects;

(7.7) For redevelopment project areas designated (or redevelopment project areas amended to add or increase the number of tax-increment-financing assisted housing units) on or after January 1, 2005 (the effective date of Public Act 93-961), a public library district's increased costs attributable to assisted housing units located within the redevelopment project area for which the developer or redeveloper receives financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the assisted housing sites necessary for the completion of that housing as authorized by this Act shall be paid to the library district by the municipality from the Special Tax Allocation Fund when the tax increment revenue is received as a result of the assisted housing units. This paragraph

(7.7) applies only if (i) the library district is located in a county that is subject to the Property Tax Extension Limitation Law or (ii) the library district is not located in a county that is subject to the Property Tax Extension Limitation Law but the district is prohibited by any other law from increasing its tax levy rate without a prior voter referendum.

The amount paid to a library district under this paragraph (7.7) shall be calculated by multiplying (i) the net increase in the number of persons eligible to obtain a library card in that district who reside in housing units within the redevelopment project area that have received financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by (ii) the per-patron cost of providing library services so long as it does not exceed $120. The per-patron cost shall be the Total Operating Expenditures Per Capita as stated in the most recent Illinois Public Library Statistics produced by the Library Research Center at the University of Illinois. The municipality may deduct from the amount that it must pay to a library district under this paragraph any amount that it has voluntarily paid to the library district from the tax increment revenue. The amount paid to a library district under this paragraph (7.7) shall be no more than 2% of the amount produced by the assisted housing units and deposited into the Special Tax Allocation Fund.

A library district is not eligible for any payment under this paragraph (7.7) unless the library district has experienced an increase in the number of patrons from the municipality that created the tax-increment-financing district since the designation of the redevelopment project area.

Any library district seeking payment under this paragraph (7.7) shall, after July 1 and before September 30 of each year, provide the municipality with convincing evidence to support its

claim for reimbursement before the municipality shall be required
to approve or make the payment to the library district. If the library
district fails to provide the information during this period in any
year, it shall forfeit any claim to reimbursement for that year.
Library districts may adopt a resolution waiving the right to all or a
portion of the reimbursement otherwise required by this paragraph
(7.7). By acceptance of such reimbursement, the library district
shall forfeit any right to directly or indirectly set aside, modify, or
contest in any manner whatsoever the establishment of the
redevelopment project area or projects;

(8) Relocation costs to the extent that a municipality
determines that relocation costs shall be paid or is required to make
payment of relocation costs by federal or State law or in order to
satisfy subparagraph (7) of subsection (n);

(9) Payment in lieu of taxes;

(10) Costs of job training, retraining, advanced vocational
education or career education, including but not limited to courses
in occupational, semi-technical or technical fields leading directly
to employment, incurred by one or more taxing districts, provided
that such costs (i) are related to the establishment and maintenance
of additional job training, advanced vocational education or career
education programs for persons employed or to be employed by
employers located in a redevelopment project area; and (ii) when
incurred by a taxing district or taxing districts other than the
municipality, are set forth in a written agreement by or among the
municipality and the taxing district or taxing districts, which
agreement describes the program to be undertaken, including but
not limited to the number of employees to be trained, a description
of the training and services to be provided, the number and type of
positions available or to be available, itemized costs of the program
and sources of funds to pay for the same, and the term of the
agreement. Such costs include, specifically, the payment by
community college districts of costs pursuant to Sections 3-37, 3-
38, 3-40 and 3-40.1 of the Public Community College Act and by

school districts of costs pursuant to Sections 10-22.20a and 10-23.3a of The School Code;

(11) Interest cost incurred by a redeveloper related to the construction, renovation or rehabilitation of a redevelopment project provided that:

(A) such costs are to be paid directly from the special tax allocation fund established pursuant to this Act;
(B) such payments in any one year may not exceed 30% of the annual interest costs incurred by the redeveloper with regard to the redevelopment project during that year;
(C) if there are not sufficient funds available in the special tax allocation fund to make the payment pursuant to this paragraph (11) then the amounts so due shall accrue and be payable when sufficient funds are available in the special tax allocation fund;
(D) the total of such interest payments paid pursuant to this Act may not exceed 30% of the total (i) cost paid or incurred by the redeveloper for the redevelopment project plus (ii) redevelopment project costs excluding any property assembly costs and any relocation costs incurred by a municipality pursuant to this Act; and
(E) the cost limits set forth in subparagraphs (B) and (D) of paragraph (11) shall be modified for the financing of rehabilitated or new housing units for low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act. The percentage of 75% shall be substituted for 30% in subparagraphs (B) and (D) of paragraph (11).
(F) Instead of the eligible costs provided by subparagraphs (B) and (D) of paragraph (11), as modified by this subparagraph, and notwithstanding any other provisions of this Act to the contrary, the municipality may pay from tax increment revenues up to 50% of the cost of construction of new housing units to be occupied by low-income households.

income households and very low-income households as defined in Section 3 of the Illinois Affordable Housing Act. The cost of construction of those units may be derived from the proceeds of bonds issued by the municipality under this Act or other constitutional or statutory authority or from other sources of municipal revenue that may be reimbursed from tax increment revenues or the proceeds of bonds issued to finance the construction of that housing.

The eligible costs provided under this subparagraph (F) of paragraph (11) shall be an eligible cost for the construction, renovation, and rehabilitation of all low and very low-income housing units, as defined in Section 3 of the Illinois Affordable Housing Act, within the redevelopment project area. If the low and very low-income units are part of a residential redevelopment project that includes units not affordable to low and very low-income households, only the low and very low-income units shall be eligible for benefits under subparagraph (F) of paragraph (11). The standards for maintaining the occupancy by low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act, of those units constructed with eligible costs made available under the provisions of this subparagraph (F) of paragraph (11) shall be established by guidelines adopted by the municipality. The responsibility for annually documenting the initial occupancy of the units by low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act, shall be that of the then current owner of the property. For ownership units, the guidelines will provide, at a minimum, for a reasonable recapture of funds, or other appropriate methods designed to preserve the original affordability of the ownership units. For rental units, the guidelines will provide, at a minimum, for the affordability of rent to low

and very low-income households. As units become available, they shall be rented to income-eligible tenants. The municipality may modify these guidelines from time to time; the guidelines, however, shall be in effect for as long as tax increment revenue is being used to pay for costs associated with the units or for the retirement of bonds issued to finance the units or for the life of the redevelopment project area, whichever is later.

(11.5) If the redevelopment project area is located within a municipality with a population of more than 100,000, the cost of day care services for children of employees from low-income families working for businesses located within the redevelopment project area and all or a portion of the cost of operation of day care centers established by redevelopment project area businesses to serve employees from low-income families working in businesses located in the redevelopment project area. For the purposes of this paragraph, "low-income families" means families whose annual income does not exceed 80% of the municipal, county, or regional median income, adjusted for family size, as the annual income and municipal, county, or regional median income are determined from time to time by the United States Department of Housing and Urban Development.

(12) Unless explicitly stated herein the cost of construction of new privately-owned buildings shall not be an eligible redevelopment project cost.

(13) After November 1, 1999 (the effective date of Public Act 91-478), none of the redevelopment project costs enumerated in this subsection shall be eligible redevelopment project costs if those costs would provide direct financial support to a retail entity initiating operations in the redevelopment project area while terminating operations at another Illinois location within 10 miles of the redevelopment project area but outside the boundaries of the redevelopment project area municipality. For purposes of this paragraph, termination means a closing of a retail operation that is
directly related to the opening of the same operation or like retail entity owned or operated by more than 50% of the original ownership in a redevelopment project area, but it does not mean closing an operation for reasons beyond the control of the retail entity, as documented by the retail entity, subject to a reasonable finding by the municipality that the current location contained inadequate space, had become economically obsolete, or was no longer a viable location for the retailer or serviceman.

If a special service area has been established pursuant to the Special Service Area Tax Act or Special Service Area Tax Law, then any tax increment revenues derived from the tax imposed pursuant to the Special Service Area Tax Act or Special Service Area Tax Law may be used within the redevelopment project area for the purposes permitted by that Act or Law as well as the purposes permitted by this Act.

(r) "State Sales Tax Boundary" means the redevelopment project area or the amended redevelopment project area boundaries which are determined pursuant to subsection (9) of Section 11-74.4-8a of this Act. The Department of Revenue shall certify pursuant to subsection (9) of Section 11-74.4-8a the appropriate boundaries eligible for the determination of State Sales Tax Increment.

(s) "State Sales Tax Increment" means an amount equal to the increase in the aggregate amount of taxes paid by retailers and servicemen, other than retailers and servicemen subject to the Public Utilities Act, on transactions at places of business located within a State Sales Tax Boundary pursuant to the Retailers' Occupation Tax Act, the Use Tax Act, the Service Use Tax Act, and the Service Occupation Tax Act, except such portion of such increase that is paid into the State and Local Sales Tax Reform Fund, the Local Government Distributive Fund, the Local Government Tax Fund and the County and Mass Transit District Fund, for as long as State participation exists, over and above the Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts for such taxes as certified by the Department of Revenue and paid under those Acts by retailers and servicemen on transactions at places of business located within the State Sales Tax Boundary during the
base year which shall be the calendar year immediately prior to the year in which the municipality adopted tax increment allocation financing, less 3.0% of such amounts generated under the Retailers' Occupation Tax Act, Use Tax Act and Service Use Tax Act and the Service Occupation Tax Act, which sum shall be appropriated to the Department of Revenue to cover its costs of administering and enforcing this Section. For purposes of computing the aggregate amount of such taxes for base years occurring prior to 1985, the Department of Revenue shall compute the Initial Sales Tax Amount for such taxes and deduct therefrom an amount equal to 4% of the aggregate amount of taxes per year for each year the base year is prior to 1985, but not to exceed a total deduction of 12%. The amount so determined shall be known as the "Adjusted Initial Sales Tax Amount". For purposes of determining the State Sales Tax Increment the Department of Revenue shall for each period subtract from the tax amounts received from retailers and servicemen on transactions located in the State Sales Tax Boundary, the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or Revised Initial Sales Tax Amounts for the Retailers' Occupation Tax Act, the Use Tax Act, the Service Use Tax Act and the Service Occupation Tax Act. For the State Fiscal Year 1989 this calculation shall be made by utilizing the calendar year 1987 to determine the tax amounts received. For the State Fiscal Year 1990, this calculation shall be made by utilizing the period from January 1, 1988, until September 30, 1988, to determine the tax amounts received from retailers and servicemen, which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For the State Fiscal Year 1991, this calculation shall be made by utilizing the period from October 1, 1988, until June 30, 1989, to determine the tax amounts received from retailers and servicemen, which shall have deducted therefrom nine-twelfths of the certified Initial State Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For every State Fiscal Year thereafter, the applicable period shall be the 12 months beginning July 1 and ending on June 30, to determine the tax amounts received which shall have deducted

therefrom the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts. Municipalities intending to receive a distribution of State Sales Tax Increment must report a list of retailers to the Department of Revenue by October 31, 1988 and by July 31, of each year thereafter.

(t) "Taxing districts" means counties, townships, cities and incorporated towns and villages, school, road, park, sanitary, mosquito abatement, forest preserve, public health, fire protection, river conservancy, tuberculosis sanitarium and any other municipal corporations or districts with the power to levy taxes.

(u) "Taxing districts' capital costs" means those costs of taxing districts for capital improvements that are found by the municipal corporate authorities to be necessary and directly result from the redevelopment project.

(v) As used in subsection (a) of Section 11-74.4-3 of this Act, "vacant land" means any parcel or combination of parcels of real property without industrial, commercial, and residential buildings which has not been used for commercial agricultural purposes within 5 years prior to the designation of the redevelopment project area, unless the parcel is included in an industrial park conservation area or the parcel has been subdivided; provided that if the parcel was part of a larger tract that has been divided into 3 or more smaller tracts that were accepted for recording during the period from 1950 to 1990, then the parcel shall be deemed to have been subdivided, and all proceedings and actions of the municipality taken in that connection with respect to any previously approved or designated redevelopment project area or amended redevelopment project area are hereby validated and hereby declared to be legally sufficient for all purposes of this Act. For purposes of this Section and only for land subject to the subdivision requirements of the Plat Act, land is subdivided when the original plat of the proposed Redevelopment Project Area or relevant portion thereof has been properly certified, acknowledged, approved, and recorded or filed in accordance with the Plat Act and a preliminary plat, if any, for any subsequent phases of the proposed Redevelopment Project Area or relevant portion thereof has been properly

approved and filed in accordance with the applicable ordinance of the municipality.

(w) "Annual Total Increment" means the sum of each municipality's annual Net Sales Tax Increment and each municipality's annual Net Utility Tax Increment. The ratio of the Annual Total Increment of each municipality to the Annual Total Increment for all municipalities, as most recently calculated by the Department, shall determine the proportional shares of the Illinois Tax Increment Fund to be distributed to each municipality.

Sec. 11-74.4-3. Definitions. The following terms, wherever used or referred to in this Division 74.4 shall have the following respective meanings, unless in any case a different meaning clearly appears from the context.

(a) For any redevelopment project area that has been designated pursuant to this Section by an ordinance adopted prior to November 1, 1999 (the effective date of Public Act 91-478), "blighted area" shall have the meaning set forth in this Section prior to that date.

On and after November 1, 1999, "blighted area" means any improved or vacant area within the boundaries of a redevelopment project area located within the territorial limits of the municipality where:

1. If improved, industrial, commercial, and residential buildings or improvements are detrimental to the public safety, health, or welfare because of a combination of 5 or more of the following factors, each of which is (i) present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of

the Act and (ii) reasonably distributed throughout the improved part of the redevelopment project area:

(A) Dilapidation. An advanced state of disrepair or neglect of necessary repairs to the primary structural components of buildings or improvements in such a combination that a documented building condition analysis determines that major repair is required or the defects are so serious and so extensive that the buildings must be removed.

(B) Obsolescence. The condition or process of falling into disuse. Structures have become ill-suited for the original use.

(C) Deterioration. With respect to buildings, defects including, but not limited to, major defects in the secondary building components such as doors, windows, porches, gutters and downspouts, and fascia. With respect to surface improvements, that the condition of roadways, alleys, curbs, gutters, sidewalks, off-street parking, and surface storage areas evidence deterioration, including, but not limited to, surface cracking, crumbling, potholes, depressions, loose paving material, and weeds protruding through paved surfaces.

(D) Presence of structures below minimum code standards. All structures that do not meet the standards of zoning, subdivision, building, fire, and other governmental codes applicable to property, but not including housing and property maintenance codes.

(E) Illegal use of individual structures. The use of structures in violation of applicable federal, State, or local laws, exclusive of those applicable to the presence of structures below minimum code standards.

(F) Excessive vacancies. The presence of buildings that are unoccupied or under-utilized and that represent an

adverse influence on the area because of the frequency, extent, or duration of the vacancies.

(G) Lack of ventilation, light, or sanitary facilities. The absence of adequate ventilation for light or air circulation in spaces or rooms without windows, or that require the removal of dust, odor, gas, smoke, or other noxious airborne materials. Inadequate natural light and ventilation means the absence of skylights or windows for interior spaces or rooms and improper window sizes and amounts by room area to window area ratios. Inadequate sanitary facilities refers to the absence or inadequacy of garbage storage and enclosure, bathroom facilities, hot water and kitchens, and structural inadequacies preventing ingress and egress to and from all rooms and units within a building.

(H) Inadequate utilities. Underground and overhead utilities such as storm sewers and storm drainage, sanitary sewers, water lines, and gas, telephone, and electrical services that are shown to be inadequate. Inadequate utilities are those that are: (i) of insufficient capacity to serve the uses in the redevelopment project area, (ii) deteriorated, antiquated, obsolete, or in disrepair, or (iii) lacking within the redevelopment project area.

(I) Excessive land coverage and overcrowding of structures and community facilities. The over-intensive use of property and the crowding of buildings and accessory facilities onto a site. Examples of problem conditions warranting the designation of an area as one exhibiting excessive land coverage are: (i) the presence of buildings either improperly situated on parcels or located on parcels of inadequate size and shape in relation to present-day standards of development for health and safety and (ii) the presence of multiple buildings on a single parcel. For there to be a finding of excessive land coverage, these parcels
must exhibit one or more of the following conditions: insufficient provision for light and air within or around buildings, increased threat of spread of fire due to the close proximity of buildings, lack of adequate or proper access to a public right-of-way, lack of reasonably required off-street parking, or inadequate provision for loading and service.

(J) Deleterious land use or layout. The existence of incompatible land-use relationships, buildings occupied by inappropriate mixed-uses, or uses considered to be noxious, offensive, or unsuitable for the surrounding area.

(K) Environmental clean-up. The proposed redevelopment project area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

(L) Lack of community planning. The proposed redevelopment project area was developed prior to or without the benefit or guidance of a community plan. This means that the development occurred prior to the adoption by the municipality of a comprehensive or other community plan or that the plan was not followed at the time of the area's development. This factor must be documented by evidence of adverse or incompatible land-use relationships, inadequate street layout, improper subdivision, parcels of inadequate shape and size to meet contemporary development standards, or other evidence demonstrating an absence of effective community planning.

(M) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated.

(2) If vacant, the sound growth of the redevelopment project area is impaired by a combination of 2 or more of the following factors, each of which is (i) present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) reasonably distributed throughout the vacant part of the redevelopment project area to which it pertains:

(A) Obsolete platting of vacant land that results in parcels of limited or narrow size or configurations of parcels of irregular size or shape that would be difficult to develop on a planned basis and in a manner compatible with contemporary standards and requirements, or platting that failed to create rights-of-ways for streets or alleys or that created inadequate right-of-way widths for streets, alleys, or other public rights-of-way or that omitted easements for public utilities.

(B) Diversity of ownership of parcels of vacant land sufficient in number to retard or impede the ability to assemble the land for development.

(C) Tax and special assessment delinquencies exist or the property has been the subject of tax sales under the Property Tax Code within the last 5 years.

New matter indicated by italics - deletions by strikeout.
(D) Deterioration of structures or site improvements in neighboring areas adjacent to the vacant land.

(E) The area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

(F) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated.

(3) If vacant, the sound growth of the redevelopment project area is impaired by one of the following factors that (i) is present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) is reasonably distributed throughout the vacant part of the redevelopment project area to which it pertains:

(A) The area consists of one or more unused quarries, mines, or strip mine ponds.

New matter indicated by italics - deletions by strikeout.
(B) The area consists of unused rail yards, rail tracks, or railroad rights-of-way.

(C) The area, prior to its designation, is subject to (i) chronic flooding that adversely impacts on real property in the area as certified by a registered professional engineer or appropriate regulatory agency or (ii) surface water that discharges from all or a part of the area and contributes to flooding within the same watershed, but only if the redevelopment project provides for facilities or improvements to contribute to the alleviation of all or part of the flooding.

(D) The area consists of an unused or illegal disposal site containing earth, stone, building debris, or similar materials that were removed from construction, demolition, excavation, or dredge sites.

(E) Prior to November 1, 1999, the area is not less than 50 nor more than 100 acres and 75% of which is vacant (notwithstanding that the area has been used for commercial agricultural purposes within 5 years prior to the designation of the redevelopment project area), and the area meets at least one of the factors itemized in paragraph (1) of this subsection, the area has been designated as a town or village center by ordinance or comprehensive plan adopted prior to January 1, 1982, and the area has not been developed for that designated purpose.

(F) The area qualified as a blighted improved area immediately prior to becoming vacant, unless there has been substantial private investment in the immediately surrounding area.

(b) For any redevelopment project area that has been designated pursuant to this Section by an ordinance adopted prior to November 1, 1999 (the effective date of Public Act 91-478), "conservation area" shall have the meaning set forth in this Section prior to that date.

New matter indicated by italics - deletions by strikeout.
On and after November 1, 1999, "conservation area" means any improved area within the boundaries of a redevelopment project area located within the territorial limits of the municipality in which 50% or more of the structures in the area have an age of 35 years or more. Such an area is not yet a blighted area but because of a combination of 3 or more of the following factors is detrimental to the public safety, health, morals or welfare and such an area may become a blighted area:

(1) Dilapidation. An advanced state of disrepair or neglect of necessary repairs to the primary structural components of buildings or improvements in such a combination that a documented building condition analysis determines that major repair is required or the defects are so serious and so extensive that the buildings must be removed.

With respect to surface improvements, that the condition of roadways, alleys, curbs, gutters, sidewalks, off-street parking, and surface storage areas evidence deterioration, including, but not limited to, surface cracking, crumbling, potholes, depressions, loose paving material, and weeds protruding through paved surfaces.

(4) Presence of structures below minimum code standards. All structures that do not meet the standards of zoning, subdivision, building, fire, and other governmental codes applicable to property, but not including housing and property maintenance codes.

(5) Illegal use of individual structures. The use of structures in violation of applicable federal, State, or local laws, exclusive of those applicable to the presence of structures below minimum code standards.

(6) Excessive vacancies. The presence of buildings that are unoccupied or under-utilized and that represent an adverse influence on the area because of the frequency, extent, or duration of the vacancies.

(7) Lack of ventilation, light, or sanitary facilities. The absence of adequate ventilation for light or air circulation in spaces or rooms without windows, or that require the removal of dust, odor, gas, smoke, or other noxious airborne materials. Inadequate natural light and ventilation means the absence or inadequacy of skylights or windows for interior spaces or rooms and improper window sizes and amounts by room area to window area ratios. Inadequate sanitary facilities refers to the absence or inadequacy of garbage storage and enclosure, bathroom facilities, hot water and kitchens, and structural inadequacies preventing ingress and egress to and from all rooms and units within a building.

(8) Inadequate utilities. Underground and overhead utilities such as storm sewers and storm drainage, sanitary sewers, water lines, and gas, telephone, and electrical services that are shown to be inadequate. Inadequate utilities are those that are: (i) of insufficient capacity to serve the uses in the redevelopment project area, (ii) deteriorated, antiquated, obsolete, or in disrepair, or (iii) lacking within the redevelopment project area.

(9) Excessive land coverage and overcrowding of structures and community facilities. The over-intensive use of property and the crowding of buildings and accessory facilities onto a site. Examples of problem conditions warranting the designation of an area as one exhibiting excessive land coverage are: the presence of buildings either improperly situated on parcels or located on parcels of inadequate size and shape in relation to present-day standards of development for health and safety and the presence of multiple buildings on a single parcel. For there to be a finding of excessive land coverage, these parcels must exhibit one or more of the following conditions: insufficient provision for light and air within or around buildings, increased threat of spread of fire due to

the close proximity of buildings, lack of adequate or proper access to a public right-of-way, lack of reasonably required off-street parking, or inadequate provision for loading and service.

(10) Deleterious land use or layout. The existence of incompatible land-use relationships, buildings occupied by inappropriate mixed-uses, or uses considered to be noxious, offensive, or unsuitable for the surrounding area.

(11) Lack of community planning. The proposed redevelopment project area was developed prior to or without the benefit or guidance of a community plan. This means that the development occurred prior to the adoption by the municipality of a comprehensive or other community plan or that the plan was not followed at the time of the area's development. This factor must be documented by evidence of adverse or incompatible land-use relationships, inadequate street layout, improper subdivision, parcels of inadequate shape and size to meet contemporary development standards, or other evidence demonstrating an absence of effective community planning.

(12) The area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

(13) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States

(d) "Industrial park conservation area" means an area within the boundaries of a redevelopment project area located within the territorial limits of a municipality that is a labor surplus municipality or within 1 1/2 miles of the territorial limits of a municipality that is a labor surplus municipality if the area is annexed to the municipality; which area is zoned as industrial no later than at the time the municipality by ordinance designates the redevelopment project area, and which area includes both vacant land suitable for use as an industrial park and a blighted area or conservation area contiguous to such vacant land.

(e) "Labor surplus municipality" means a municipality in which, at any time during the 6 months before the municipality by ordinance designates an industrial park conservation area, the unemployment rate was over 6% and was also 100% or more of the national average unemployment rate for that same time as published in the United States Department of Labor Bureau of Labor Statistics publication entitled "The Employment Situation" or its successor publication. For the purpose of this subsection, if unemployment rate statistics for the municipality are not available, the unemployment rate in the municipality shall be deemed to be the same as the unemployment rate in the principal county in which the municipality is located.

(f) "Municipality" shall mean a city, village, incorporated town, or a township that is located in the unincorporated portion of a county with 3 million or more inhabitants, if the county adopted an ordinance that approved the township's redevelopment plan.

For purposes of computing the aggregate amount of such taxes for base years occurring prior to 1985, the Department of Revenue shall determine the Initial Sales Tax Amounts for such taxes and deduct therefrom an amount equal to 4% of the aggregate amount of taxes per year for each year the base year is prior to 1985, but not to exceed a total deduction of 12%. The amount so determined shall be known as the "Adjusted Initial Sales Tax Amounts". For purposes of determining the Municipal Sales Tax Increment, the Department of Revenue shall for each period subtract from the amount paid to the municipality from the Local Government Tax Fund arising.

For the State Fiscal Year 1990, this calculation shall be made by utilizing the period from January 1, 1988, until September 30, 1988, to determine the tax amounts received from retailers and servicemen pursuant to the Municipal Retailers' Occupation Tax and the Municipal Service Occupation Tax Act, which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For the State Fiscal Year 1991, this calculation shall be made by utilizing the period from October 1, 1988, to June 30, 1989, to determine the tax amounts received from retailers and servicemen pursuant to the Municipal Retailers' Occupation Tax and the Municipal Service Occupation Tax Act which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For every State Fiscal Year thereafter, the applicable period shall be the 12 months beginning July 1 and ending June 30 to determine the tax amounts received which shall have deducted therefrom the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts, as the case may be.

a population in excess of 3,000,000 before January 1, 1986, and the municipality entered into a contract or issued bonds after January 1, 1986, but before December 31, 1986, to finance redevelopment project costs within a State Sales Tax Boundary, then the Net State Sales Tax Increment means, for the fiscal years beginning July 1, 1990, and July 1, 1991, 100% of the State Sales Tax Increment annually generated within a State Sales Tax Boundary; and notwithstanding any other provision of this Act, for those fiscal years the Department of Revenue shall distribute to those municipalities 100% of their Net State Sales Tax Increment before any distribution to any other municipality and regardless of whether or not those other municipalities will receive 100% of their Net State Sales Tax Increment. For Fiscal Year 1999, and every year thereafter until the year 2007, for any municipality that has not entered into a contract or has not issued bonds prior to June 1, 1988 to finance redevelopment project costs within a State Sales Tax Boundary, the Net State Sales Tax Increment shall be calculated as follows: By multiplying the Net State Sales Tax Increment by 90% in the State Fiscal Year 1999; 80% in the State Fiscal Year 2000; 70% in the State Fiscal Year 2001; 60% in the State Fiscal Year 2002; 50% in the State Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006; and 10% in the State Fiscal Year 2007. If, however, a municipality that issued bonds in connection with a redevelopment project in a redevelopment project area within the State Sales Tax Boundary prior to July 29, 1991 retires the bonds prior to June 30, 2007 or a municipality that entered into contracts in connection with a redevelopment project in a redevelopment project area before June 1, 1988 completes the contracts

prior to June 30, 2007, then so long as the redevelopment project is not completed or is not terminated, the Net State Sales Tax Increment shall be calculated, beginning on the date on which the bonds are retired or the contracts are completed, as follows: By multiplying the Net State Sales Tax Increment by 60% in the State Fiscal Year 2002; 50% in the State Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006; and 10% in the State Fiscal Year 2007. No payment shall be made for State Fiscal Year 2008 and thereafter. Refunding of any bonds issued prior to July 29, 1991, shall not alter the Net State Sales Tax Increment.

(j) "State Utility Tax Increment Amount" means an amount equal to the aggregate increase in State electric and gas tax charges imposed on owners and tenants, other than residential customers, of properties located within the redevelopment project area under Section 9-222 of the Public Utilities Act, over and above the aggregate of such charges as certified by the Department of Revenue and paid by owners and tenants, other than residential customers, of properties within the redevelopment project area during the base year, which shall be the calendar year immediately prior to the year of the adoption of the ordinance authorizing tax increment allocation financing.

(k) "Net State Utility Tax Increment" means the sum of the following: (a) 80% of the first $100,000 of State Utility Tax Increment annually generated by a redevelopment project area; (b) 60% of the amount in excess of $100,000 but not exceeding $500,000 of the State Utility Tax Increment annually generated by a redevelopment project area; and (c) 40% of all amounts in excess of $500,000 of State Utility Tax Increment annually generated by a redevelopment project area. For the State Fiscal Year 1999, and every year thereafter until the year 2007, for any municipality that has not entered into a contract or has not issued bonds prior to June 1, 1988 to finance redevelopment project costs within a redevelopment project area, the Net State Utility Tax Increment shall be calculated as follows: By multiplying the Net State Utility Tax Increment by 90% in the State Fiscal Year 1999; 80% in the State Fiscal Year 2000; 70% in the State Fiscal Year 2001; 60% in the State Fiscal Year 2002;

50% in the State Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006; and 10% in the State Fiscal Year 2007. No payment shall be made for the State Fiscal Year 2008 and thereafter.

Municipalities that issue bonds in connection with the redevelopment project during the period from June 1, 1988 until 3 years after the effective date of this Amendatory Act of 1988 shall receive the Net State Utility Tax Increment, subject to appropriation, for 15 State Fiscal Years after the issuance of such bonds. For the 16th through the 20th State Fiscal Years after issuance of the bonds, the Net State Utility Tax Increment shall be calculated as follows: By multiplying the Net State Utility Tax Increment by 90% in year 16; 80% in year 17; 70% in year 18; 60% in year 19; and 50% in year 20. Refunding of any bonds issued prior to June 1, 1988, shall not alter the revised Net State Utility Tax Increment payments set forth above.

(l) "Obligations" mean bonds, loans, debentures, notes, special certificates or other evidence of indebtedness issued by the municipality to carry out a redevelopment project or to refund outstanding obligations.

(m) "Payment in lieu of taxes" means those estimated tax revenues from real property in a redevelopment project area derived from real property that has been acquired by a municipality which according to the redevelopment project or plan is to be used for a private use which taxing districts would have received had a municipality not acquired the real property and adopted tax increment allocation financing and which would result from levies made after the time of the adoption of tax increment allocation financing to the time the current equalized value of real property in the redevelopment project area exceeds the total initial equalized value of real property in said area.

(n) "Redevelopment plan" means the comprehensive program of the municipality for development or redevelopment intended by the payment of redevelopment project costs to reduce or eliminate those conditions the existence of which qualified the redevelopment project area as a "blighted area" or "conservation area" or combination thereof or "industrial park conservation area," and thereby to enhance the tax bases of

the taxing districts which extend into the redevelopment project area. On and after November 1, 1999 (the effective date of Public Act 91-478), no redevelopment plan may be approved or amended that includes the development of vacant land (i) with a golf course and related clubhouse and other facilities or (ii) designated by federal, State, county, or municipal government as public land for outdoor recreational activities or for nature preserves and used for that purpose within 5 years prior to the adoption of the redevelopment plan. For the purpose of this subsection, "recreational activities" is limited to mean camping and hunting. Each redevelopment plan shall set forth in writing the program to be undertaken to accomplish the objectives and shall include but not be limited to:

(A) an itemized list of estimated redevelopment project costs;

(B) evidence indicating that the redevelopment project area on the whole has not been subject to growth and development through investment by private enterprise;

(C) an assessment of any financial impact of the redevelopment project area on or any increased demand for services from any taxing district affected by the plan and any program to address such financial impact or increased demand;

(D) the sources of funds to pay costs;

(E) the nature and term of the obligations to be issued;

(F) the most recent equalized assessed valuation of the redevelopment project area;

(G) an estimate as to the equalized assessed valuation after redevelopment and the general land uses to apply in the redevelopment project area;

(H) a commitment to fair employment practices and an affirmative action plan;

(I) if it concerns an industrial park conservation area, the plan shall also include a general description of any proposed developer, user and tenant of any property, a description of the type, structure and general character of the facilities to be developed, a description of the type, class and number of new

employees to be employed in the operation of the facilities to be developed; and
(J) if property is to be annexed to the municipality, the plan shall include the terms of the annexation agreement.
The provisions of items (B) and (C) of this subsection (n) shall not apply to a municipality that before March 14, 1994 (the effective date of Public Act 88-537) had fixed, either by its corporate authorities or by a commission designated under subsection (k) of Section 11-74.4-4, a time and place for a public hearing as required by subsection (a) of Section 11-74.4-5. No redevelopment plan shall be adopted unless a municipality complies with all of the following requirements:
(1) The municipality finds that the redevelopment project area on the whole has not been subject to growth and development through investment by private enterprise and would not reasonably be anticipated to be developed without the adoption of the redevelopment plan.
(2) The municipality finds that the redevelopment plan and project conform to the comprehensive plan for the development of the municipality as a whole, or, for municipalities with a population of 100,000 or more, regardless of when the redevelopment plan and project was adopted, the redevelopment plan and project either: (i) conforms to the strategic economic development or redevelopment plan issued by the designated planning authority of the municipality, or (ii) includes land uses that have been approved by the planning commission of the municipality.
(3) The redevelopment plan establishes the estimated dates of completion of the redevelopment project and retirement of obligations issued to finance redevelopment project costs. However, for redevelopment project areas for which bonds were issued before July 29, 1991, or for which contracts were entered into before June 1, 1988, in connection with a redevelopment project in the area within the State Sales Tax Boundary, the estimated dates of completion of the redevelopment project and retirement of obligations to finance redevelopment project costs may be extended by municipal ordinance to December 31, 2013. The termination procedures of subsection (b) of Section 11-74.4-8 are not required for these redevelopment project areas in 2009 but are required in 2013. The extension allowed by this amendatory Act of 1993 shall not apply to real property tax increment allocation financing under Section 11-74.4-8.

A municipality may by municipal ordinance amend an existing redevelopment plan to conform to this paragraph (3) as amended by Public Act 91-478, which municipal ordinance may be adopted without further hearing or notice and without complying with the procedures provided in this Act pertaining to an amendment to or the initial approval of a redevelopment plan and project and designation of a redevelopment project area.

Those dates, for purposes of real property tax increment allocation financing pursuant to Section 11-74.4-8 only, shall be not more than 35 years for redevelopment project areas that were adopted on or after December 16, 1986 and for which at least $8 million worth of municipal bonds were authorized on or after December 19, 1989 but before January 1, 1990; provided that the municipality elects to extend the life of the redevelopment project area to 35 years by the adoption of an ordinance after at least 14 but not more than 30 days' written notice to the taxing bodies, that would otherwise constitute the joint review board for the redevelopment project area, before the adoption of the ordinance.

Those dates, for purposes of real property tax increment allocation financing pursuant to Section 11-74.4-8 only, shall be not more than 35 years for redevelopment project areas that were established on or after December 1, 1981 but before January 1, 1982 and for which at least $1,500,000 worth of tax increment revenue bonds were authorized on or after September 30, 1990 but before July 1, 1991; provided that the municipality elects to extend the life of the redevelopment project area to 35 years by the adoption of an ordinance after at least 14 but not more than 30 days' written notice to the taxing bodies, that would otherwise constitute the joint review board for the redevelopment project area, before the adoption of the ordinance.

(3.5) The municipality finds, in the case of an industrial park conservation area, also that the municipality is a labor surplus municipality and that the implementation of the redevelopment plan will reduce unemployment, create new jobs and by the
provision of new facilities enhance the tax base of the taxing districts that extend into the redevelopment project area.

(4) If any incremental revenues are being utilized under Section 8(a)(1) or 8(a)(2) of this Act in redevelopment project areas approved by ordinance after January 1, 1986, the municipality finds: (a) that the redevelopment project area would not reasonably be developed without the use of such incremental revenues, and (b) that such incremental revenues will be exclusively utilized for the development of the redevelopment project area.

(5) If the redevelopment plan will not result in displacement of residents from 10 or more inhabited residential units, and the municipality certifies in the plan that such displacement will not result from the plan, a housing impact study need not be performed. If, however, the redevelopment plan would result in the displacement of residents from 10 or more inhabited residential units, or if the redevelopment project area contains 75 or more inhabited residential units and no certification is made, then the municipality shall prepare, as part of the separate feasibility report required by subsection (a) of Section 11-74.4-5, a housing impact study.

Part I of the housing impact study shall include (i) data as to whether the residential units are single family or multi-family units, (ii) the number and type of rooms within the units, if that information is available, (iii) whether the units are inhabited or uninhabited, as determined not less than 45 days before the date that the ordinance or resolution required by subsection (a) of Section 11-74.4-5 is passed, and (iv) data as to the racial and ethnic composition of the residents in the inhabited residential units. The data requirement as to the racial and ethnic composition of the residents in the inhabited residential units shall be deemed to be fully satisfied by data from the most recent federal census.

Part II of the housing impact study shall identify the inhabited residential units in the proposed redevelopment project

area that are to be or may be removed. If inhabited residential units are to be removed, then the housing impact study shall identify (i) the number and location of those units that will or may be removed, (ii) the municipality's plans for relocation assistance for those residents in the proposed redevelopment project area whose residences are to be removed, (iii) the availability of replacement housing for those residents whose residences are to be removed, and shall identify the type, location, and cost of the housing, and (iv) the type and extent of relocation assistance to be provided.

(6) On and after November 1, 1999, the housing impact study required by paragraph (5) shall be incorporated in the redevelopment plan for the redevelopment project area.

(7) On and after November 1, 1999, no redevelopment plan shall be adopted, nor an existing plan amended, nor shall residential housing that is occupied by households of low-income and very low-income persons in currently existing redevelopment project areas be removed after November 1, 1999 unless the redevelopment plan provides, with respect to inhabited housing units that are to be removed for households of low-income and very low-income persons, affordable housing and relocation assistance not less than that which would be provided under the federal Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 and the regulations under that Act, including the eligibility criteria. Affordable housing may be either existing or newly constructed housing. For purposes of this paragraph (7), "low-income households", "very low-income households", and "affordable housing" have the meanings set forth in the Illinois Affordable Housing Act. The municipality shall make a good faith effort to ensure that this affordable housing is located in or near the redevelopment project area within the municipality.

(8) On and after November 1, 1999, if, after the adoption of the redevelopment plan for the redevelopment project area, any municipality desires to amend its redevelopment plan to remove

more inhabited residential units than specified in its original redevelopment plan, that change shall be made in accordance with the procedures in subsection (c) of Section 11-74.4-5.

(9) For redevelopment project areas designated prior to November 1, 1999, the redevelopment plan may be amended without further joint review board meeting or hearing, provided that the municipality shall give notice of any such changes by mail to each affected taxing district and registrant on the interested party registry, to authorize the municipality to expend tax increment revenues for redevelopment project costs defined by paragraphs (5) and (7.5), subparagraphs (E) and (F) of paragraph (11), and paragraph (11.5) of subsection (q) of Section 11-74.4-3, so long as the changes do not increase the total estimated redevelopment project costs set out in the redevelopment plan by more than 5% after adjustment for inflation from the date the plan was adopted.

(o) "Redevelopment project" means any public and private development project in furtherance of the objectives of a redevelopment plan. On and after November 1, 1999 (the effective date of Public Act 91-478), no redevelopment plan may be approved or amended that includes the development of vacant land (i) with a golf course and related clubhouse and other facilities or (ii) designated by federal, State, county, or municipal government as public land for outdoor recreational activities or for nature preserves and used for that purpose within 5 years prior to the adoption of the redevelopment plan. For the purpose of this subsection, "recreational activities" is limited to mean camping and hunting.

(p) "Redevelopment project area" means an area designated by the municipality, which is not less in the aggregate than 1 1/2 acres and in respect to which the municipality has made a finding that there exist conditions which cause the area to be classified as an industrial park conservation area or a blighted area or a conservation area, or a combination of both blighted areas and conservation areas.

(q) "Redevelopment project costs" mean and include the sum total of all reasonable or necessary costs incurred or estimated to be incurred, and any such costs incidental to a redevelopment plan and a

redevelopment project. Such costs include, without limitation, the following:

(1) Costs of studies, surveys, development of plans, and specifications, implementation and administration of the redevelopment plan including but not limited to staff and professional service costs for architectural, engineering, legal, financial, planning or other services, provided however that no charges for professional services may be based on a percentage of the tax increment collected; except that on and after November 1, 1999 (the effective date of Public Act 91-478), no contracts for professional services, excluding architectural and engineering services, may be entered into if the terms of the contract extend beyond a period of 3 years. In addition, "redevelopment project costs" shall not include lobbying expenses. After consultation with the municipality, each tax increment consultant or advisor to a municipality that plans to designate or has designated a redevelopment project area shall inform the municipality in writing of any contracts that the consultant or advisor has entered into with entities or individuals that have received, or are receiving, payments financed by tax increment revenues produced by the redevelopment project area with respect to which the consultant or advisor has performed, or will be performing, service for the municipality. This requirement shall be satisfied by the consultant or advisor before the commencement of services for the municipality and thereafter whenever any other contracts with those individuals or entities are executed by the consultant or advisor;

(1.5) After July 1, 1999, annual administrative costs shall not include general overhead or administrative costs of the municipality that would still have been incurred by the municipality if the municipality had not designated a redevelopment project area or approved a redevelopment plan;

(1.6) The cost of marketing sites within the redevelopment project area to prospective businesses, developers, and investors;

(2) Property assembly costs, including but not limited to acquisition of land and other property, real or personal, or rights or interests therein, demolition of buildings, site preparation, site improvements that serve as an engineered barrier addressing ground level or below ground environmental contamination, including, but not limited to parking lots and other concrete or asphalt barriers, and the clearing and grading of land;

(3) Costs of rehabilitation, reconstruction or repair or remodeling of existing public or private buildings, fixtures, and leasehold improvements; and the cost of replacing an existing public building if pursuant to the implementation of a redevelopment project the existing public building is to be demolished to use the site for private investment or devoted to a different use requiring private investment;

(4) Costs of the construction of public works or improvements, except that on and after November 1, 1999, redevelopment project costs shall not include the cost of constructing a new municipal public building principally used to provide offices, storage space, or conference facilities or vehicle storage, maintenance, or repair for administrative, public safety, or public works personnel and that is not intended to replace an existing public building as provided under paragraph (3) of subsection (q) of Section 11-74.4-3 unless either (i) the construction of the new municipal building implements a redevelopment project that was included in a redevelopment plan that was adopted by the municipality prior to November 1, 1999 or (ii) the municipality makes a reasonable determination in the redevelopment plan, supported by information that provides the basis for that determination, that the new municipal building is required to meet an increase in the need for public safety purposes anticipated to result from the implementation of the redevelopment plan;

(5) Costs of job training and retraining projects, including the cost of "welfare to work" programs implemented by businesses located within the redevelopment project area;

(6) Financing costs, including but not limited to all necessary and incidental expenses related to the issuance of obligations and which may include payment of interest on any obligations issued hereunder including interest accruing during the estimated period of construction of any redevelopment project for which such obligations are issued and for not exceeding 36 months thereafter and including reasonable reserves related thereto;

(7) To the extent the municipality by written agreement accepts and approves the same, all or a portion of a taxing district's capital costs resulting from the redevelopment project necessarily incurred or to be incurred within a taxing district in furtherance of the objectives of the redevelopment plan and project.

(7.5) For redevelopment project areas designated (or redevelopment project areas amended to add or increase the number of tax-increment-financing assisted housing units) on or after November 1, 1999, an elementary, secondary, or unit school district's increased costs attributable to assisted housing units located within the redevelopment project area for which the developer or redeveloper receives financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the assisted housing sites necessary for the completion of that housing as authorized by this Act, and which costs shall be paid by the municipality from the Special Tax Allocation Fund when the tax increment revenue is received as a result of the assisted housing units and shall be calculated annually as follows:

(A) for foundation districts, excluding any school district in a municipality with a population in excess of 1,000,000, by multiplying the district's increase in attendance resulting from the net increase in new students
enrolled in that school district who reside in housing units within the redevelopment project area that have received financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by the most recently available per capita tuition cost as defined in Section 10-20.12a of the School Code less any increase in general State aid as defined in Section 18-8.05 of the School Code attributable to these added new students subject to the following annual limitations:

(i) for unit school districts with a district average 1995-96 Per Capita Tuition Charge of less than $5,900, no more than 25% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act;

(ii) for elementary school districts with a district average 1995-96 Per Capita Tuition Charge of less than $5,900, no more than 17% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act; and

(iii) for secondary school districts with a district average 1995-96 Per Capita Tuition Charge of less than $5,900, no more than 8% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act.

   (i) for unit school districts, no more than 40% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act;

   (ii) for elementary school districts, no more than 27% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act; and

   (iii) for secondary school districts, no more than 13% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act.

(C) For any school district in a municipality with a population in excess of 1,000,000, the following

restrictions shall apply to the reimbursement of increased costs under this paragraph (7.5):

(i) no increased costs shall be reimbursed unless the school district certifies that each of the schools affected by the assisted housing project is at or over its student capacity;

(ii) the amount reimbursable shall be reduced by the value of any land donated to the school district by the municipality or developer, and by the value of any physical improvements made to the schools by the municipality or developer; and

(iii) the amount reimbursed may not affect amounts otherwise obligated by the terms of any bonds, notes, or other funding instruments, or the terms of any redevelopment agreement.

Any school district seeking payment under this paragraph (7.5) shall, after July 1 and before September 30 of each year, provide the municipality with reasonable evidence to support its claim for reimbursement before the municipality shall be required to approve or make the payment to the school district. If the school district fails to provide the information during this period in any year, it shall forfeit any claim to reimbursement for that year. School districts may adopt a resolution waiving the right to all or a portion of the reimbursement otherwise required by this paragraph (7.5). By acceptance of this reimbursement the school district waives the right to directly or indirectly set aside, modify, or contest in any manner the establishment of the redevelopment project area or projects;

(7.7) For redevelopment project areas designated (or redevelopment project areas amended to add or increase the number of tax-increment-financing assisted housing units) on or after January 1, 2005 (the effective date of Public Act 93-961), a public library district's increased costs attributable to assisted

housing units located within the redevelopment project area for which the developer or redeveloper receives financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the assisted housing sites necessary for the completion of that housing as authorized by this Act shall be paid to the library district by the municipality from the Special Tax Allocation Fund when the tax increment revenue is received as a result of the assisted housing units. This paragraph (7.7) applies only if (i) the library district is located in a county that is subject to the Property Tax Extension Limitation Law or (ii) the library district is not located in a county that is subject to the Property Tax Extension Limitation Law but the district is prohibited by any other law from increasing its tax levy rate without a prior voter referendum.

The amount paid to a library district under this paragraph (7.7) shall be calculated by multiplying (i) the net increase in the number of persons eligible to obtain a library card in that district who reside in housing units within the redevelopment project area that have received financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by (ii) the per-patron cost of providing library services so long as it does not exceed $120. The per-patron cost shall be the Total Operating Expenditures Per Capita as stated in the most recent Illinois Public Library Statistics produced by the Library Research Center at the University of Illinois. The municipality may deduct from the amount that it must pay to a library district under this paragraph any amount that it has voluntarily paid to the library district from the tax increment revenue. The amount paid to a library district under this paragraph (7.7) shall be no more than 2%
of the amount produced by the assisted housing units and deposited into the Special Tax Allocation Fund.

A library district is not eligible for any payment under this paragraph (7.7) unless the library district has experienced an increase in the number of patrons from the municipality that created the tax-increment-financing district since the designation of the redevelopment project area.

Any library district seeking payment under this paragraph (7.7) shall, after July 1 and before September 30 of each year, provide the municipality with convincing evidence to support its claim for reimbursement before the municipality shall be required to approve or make the payment to the library district. If the library district fails to provide the information during this period in any year, it shall forfeit any claim to reimbursement for that year. Library districts may adopt a resolution waiving the right to all or a portion of the reimbursement otherwise required by this paragraph (7.7). By acceptance of such reimbursement, the library district shall forfeit any right to directly or indirectly set aside, modify, or contest in any manner whatsoever the establishment of the redevelopment project area or projects;

(9) Payment in lieu of taxes;

(10) Costs of job training, retraining, advanced vocational education or career education, including but not limited to courses in occupational, semi-technical or technical fields leading directly to employment, incurred by one or more taxing districts, provided that such costs (i) are related to the establishment and maintenance of additional job training, advanced vocational education or career education programs for persons employed or to be employed by employers located in a redevelopment project area; and (ii) when incurred by a taxing district or taxing districts other than the

municipality and the taxing district or taxing districts, which
agreement describes the program to be undertaken, including but
not limited to the number of employees to be trained, a description
of the training and services to be provided, the number and type of
positions available or to be available, itemized costs of the program
and sources of funds to pay for the same, and the term of the
agreement. Such costs include, specifically, the payment by
community college districts of costs pursuant to Sections 3-37, 3-
38, 3-40 and 3-40.1 of the Public Community College Act and by
school districts of costs pursuant to Sections 10-22.20a and 10-
23.3a of The School Code;

(11) Interest cost incurred by a redeveloper related to the
construction, renovation or rehabilitation of a redevelopment
project provided that:

    (A) such costs are to be paid directly from the
        special tax allocation fund established pursuant to this Act;
    (B) such payments in any one year may not exceed
        30% of the annual interest costs incurred by the redeveloper
        with regard to the redevelopment project during that year;
    (C) if there are not sufficient funds available in the
        special tax allocation fund to make the payment pursuant to
        this paragraph (11) then the amounts so due shall accrue
        and be payable when sufficient funds are available in the
        special tax allocation fund;
    (D) the total of such interest payments paid pursuant
        to this Act may not exceed 30% of the total (i) cost paid or
        incurred by the redeveloper for the redevelopment project
        plus (ii) redevelopment project costs excluding any
        property assembly costs and any relocation costs incurred
        by a municipality pursuant to this Act; and
    (E) the cost limits set forth in subparagraphs (B) and

households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act. The percentage of 75% shall be substituted for 30% in subparagraphs (B) and (D) of paragraph (11).

(F) Instead of the eligible costs provided by subparagraphs (B) and (D) of paragraph (11), as modified by this subparagraph, and notwithstanding any other provisions of this Act to the contrary, the municipality may pay from tax increment revenues up to 50% of the cost of construction of new housing units to be occupied by low-income households and very low-income households as defined in Section 3 of the Illinois Affordable Housing Act. The cost of construction of those units may be derived from the proceeds of bonds issued by the municipality under this Act or other constitutional or statutory authority or from other sources of municipal revenue that may be reimbursed from tax increment revenues or the proceeds of bonds issued to finance the construction of that housing.

The eligible costs provided under this subparagraph (F) of paragraph (11) shall be an eligible cost for the construction, renovation, and rehabilitation of all low and very low-income housing units, as defined in Section 3 of the Illinois Affordable Housing Act, within the redevelopment project area. If the low and very low-income units are part of a residential redevelopment project that includes units not affordable to low and very low-income households, only the low and very low-income units shall be eligible for benefits under subparagraph (F) of paragraph (11). The standards for maintaining the occupancy by low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act, of those units constructed with eligible costs made available under the provisions of this subparagraph (F) of paragraph (11) shall be established by guidelines adopted

by the municipality. The responsibility for annually documenting the initial occupancy of the units by low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act, shall be that of the then current owner of the property. For ownership units, the guidelines will provide, at a minimum, for a reasonable recapture of funds, or other appropriate methods designed to preserve the original affordability of the ownership units. For rental units, the guidelines will provide, at a minimum, for the affordability of rent to low and very low-income households. As units become available, they shall be rented to income-eligible tenants. The municipality may modify these guidelines from time to time; the guidelines, however, shall be in effect for as long as tax increment revenue is being used to pay for costs associated with the units or for the retirement of bonds issued to finance the units or for the life of the redevelopment project area, whichever is later.

(11.5) If the redevelopment project area is located within a municipality with a population of more than 100,000, the cost of day care services for children of employees from low-income families working for businesses located within the redevelopment project area and all or a portion of the cost of operation of day care centers established by redevelopment project area businesses to serve employees from low-income families working in businesses located in the redevelopment project area. For the purposes of this paragraph, "low-income families" means families whose annual income does not exceed 80% of the municipal, county, or regional median income, adjusted for family size, as the annual income and municipal, county, or regional median income are determined from time to time by the United States Department of Housing and Urban Development.

(12) Unless explicitly stated herein the cost of construction of new privately-owned buildings shall not be an eligible redevelopment project cost.

(13) After November 1, 1999 (the effective date of Public Act 91-478), none of the redevelopment project costs enumerated in this subsection shall be eligible redevelopment project costs if those costs would provide direct financial support to a retail entity initiating operations in the redevelopment project area while terminating operations at another Illinois location within 10 miles of the redevelopment project area but outside the boundaries of the redevelopment project area municipality. For purposes of this paragraph, termination means a closing of a retail operation that is directly related to the opening of the same operation or like retail entity owned or operated by more than 50% of the original ownership in a redevelopment project area, but it does not mean closing an operation for reasons beyond the control of the retail entity, as documented by the retail entity, subject to a reasonable finding by the municipality that the current location contained inadequate space, had become economically obsolete, or was no longer a viable location for the retailer or serviceman.

If a special service area has been established pursuant to the Special Service Area Tax Act or Special Service Area Tax Law, then any tax increment revenues derived from the tax imposed pursuant to the Special Service Area Tax Act or Special Service Area Tax Law may be used within the redevelopment project area for the purposes permitted by that Act or Law as well as the purposes permitted by this Act.

(r) "State Sales Tax Boundary" means the redevelopment project area or the amended redevelopment project area boundaries which are determined pursuant to subsection (9) of Section 11-74.4-8a of this Act. The Department of Revenue shall certify pursuant to subsection (9) of Section 11-74.4-8a the appropriate boundaries eligible for the determination of State Sales Tax Increment.

(s) "State Sales Tax Increment" means an amount equal to the increase in the aggregate amount of taxes paid by retailers and servicemen,

other than retailers and servicemen subject to the Public Utilities Act, on transactions at places of business located within a State Sales Tax Boundary pursuant to the Retailers' Occupation Tax Act, the Use Tax Act, the Service Use Tax Act, and the Service Occupation Tax Act, except such portion of such increase that is paid into the State and Local Sales Tax Reform Fund, the Local Government Distributive Fund, the Local Government Tax Fund and the County and Mass Transit District Fund, for as long as State participation exists, over and above the Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts for such taxes as certified by the Department of Revenue and paid under those Acts by retailers and servicemen on transactions at places of business located within the State Sales Tax Boundary during the base year which shall be the calendar year immediately prior to the year in which the municipality adopted tax increment allocation financing, less 3.0% of such amounts generated under the Retailers' Occupation Tax Act, Use Tax Act and Service Use Tax Act and the Service Occupation Tax Act, which sum shall be appropriated to the Department of Revenue to cover its costs of administering and enforcing this Section. For purposes of computing the aggregate amount of such taxes for base years occurring prior to 1985, the Department of Revenue shall compute the Initial Sales Tax Amount for such taxes and deduct therefrom an amount equal to 4% of the aggregate amount of taxes per year for each year the base year is prior to 1985, but not to exceed a total deduction of 12%. The amount so determined shall be known as the "Adjusted Initial Sales Tax Amount". For purposes of determining the State Sales Tax Increment the Department of Revenue shall for each period subtract from the tax amounts received from retailers and servicemen on transactions located in the State Sales Tax Boundary, the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or Revised Initial Sales Tax Amounts for the Retailers' Occupation Tax Act, the Use Tax Act, the Service Use Tax Act and the Service Occupation Tax Act. For the State Fiscal Year 1989 this calculation shall be made by utilizing the calendar year 1987 to determine the tax amounts received. For the State Fiscal Year 1990, this calculation shall be made by utilizing the period from January 1, 1988, until

September 30, 1988, to determine the tax amounts received from retailers and servicemen, which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For the State Fiscal Year 1991, this calculation shall be made by utilizing the period from October 1, 1988, until June 30, 1989, to determine the tax amounts received from retailers and servicemen, which shall have deducted therefrom nine-twelfths of the certified Initial State Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For every State Fiscal Year thereafter, the applicable period shall be the 12 months beginning July 1 and ending on June 30, to determine the tax amounts received which shall have deducted therefrom the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts. Municipalities intending to receive a distribution of State Sales Tax Increment must report a list of retailers to the Department of Revenue by October 31, 1988 and by July 31, of each year thereafter.

(t) "Taxing districts" means counties, townships, cities and incorporated towns and villages, school, road, park, sanitary, mosquito abatement, forest preserve, public health, fire protection, river conservancy, tuberculosis sanitarium and any other municipal corporations or districts with the power to levy taxes.

(u) "Taxing districts' capital costs" means those costs of taxing districts for capital improvements that are found by the municipal corporate authorities to be necessary and directly result from the redevelopment project.

(v) As used in subsection (a) of Section 11-74.4-3 of this Act, "vacant land" means any parcel or combination of parcels of real property without industrial, commercial, and residential buildings which has not been used for commercial agricultural purposes within 5 years prior to the designation of the redevelopment project area, unless the parcel is included in an industrial park conservation area or the parcel has been subdivided; provided that if the parcel was part of a larger tract that has been divided into 3 or more smaller tracts that were accepted for recording

For purposes of this Section and only for land subject to the subdivision requirements of the Plat Act, land is subdivided when the original plat of the proposed Redevelopment Project Area or relevant portion thereof has been properly certified, acknowledged, approved, and recorded or filed in accordance with the Plat Act and a preliminary plat, if any, for any subsequent phases of the proposed Redevelopment Project Area or relevant portion thereof has been properly approved and filed in accordance with the applicable ordinance of the municipality.

(w) "Annual Total Increment" means the sum of each municipality's annual Net Sales Tax Increment and each municipality's annual Net Utility Tax Increment. The ratio of the Annual Total Increment of each municipality to the Annual Total Increment for all municipalities, as most recently calculated by the Department, shall determine the proportional shares of the Illinois Tax Increment Fund to be distributed to each municipality.

Sec. 11-74.4-7. Obligations secured by the special tax allocation fund set forth in Section 11-74.4-8 for the redevelopment project area may be issued to provide for redevelopment project costs. Such obligations, when so issued, shall be retired in the manner provided in the ordinance

authorizing the issuance of such obligations by the receipts of taxes levied as specified in Section 11-74.4-9 against the taxable property included in the area, by revenues as specified by Section 11-74.4-8a and other revenue designated by the municipality. A municipality may in the ordinance pledge all or any part of the funds in and to be deposited in the special tax allocation fund created pursuant to Section 11-74.4-8 to the payment of the redevelopment project costs and obligations. Any pledge of funds in the special tax allocation fund shall provide for distribution to the taxing districts and to the Illinois Department of Revenue of moneys not required, pledged, earmarked, or otherwise designated for payment and securing of the obligations and anticipated redevelopment project costs and such excess funds shall be calculated annually and deemed to be "surplus" funds. In the event a municipality only applies or pledges a portion of the funds in the special tax allocation fund for the payment or securing of anticipated redevelopment project costs or of obligations, any such funds remaining in the special tax allocation fund after complying with the requirements of the application or pledge, shall also be calculated annually and deemed "surplus" funds. All surplus funds in the special tax allocation fund shall be distributed annually within 180 days after the close of the municipality's fiscal year by being paid by the municipal treasurer to the County Collector, to the Department of Revenue and to the municipality in direct proportion to the tax incremental revenue received as a result of an increase in the equalized assessed value of property in the redevelopment project area, tax incremental revenue received from the State and tax incremental revenue received from the municipality, but not to exceed as to each such source the total incremental revenue received from that source. The County Collector shall thereafter make distribution to the respective taxing districts in the same manner and proportion as the most recent distribution by the county collector to the affected districts of real property taxes from real property in the redevelopment project area.

Without limiting the foregoing in this Section, the municipality may in addition to obligations secured by the special tax allocation fund pledge for a period not greater than the term of the obligations towards payment of such obligations any part or any combination of the following:

(a) net revenues of all or part of any redevelopment project; (b) taxes levied and collected on any or all property in the municipality; (c) the full faith and credit of the municipality; (d) a mortgage on part or all of the redevelopment project; or (e) any other taxes or anticipated receipts that the municipality may lawfully pledge.

Such obligations may be issued in one or more series bearing interest at such rate or rates as the corporate authorities of the municipality shall determine by ordinance. Such obligations shall bear such date or dates, mature at such time or times not exceeding 20 years from their respective dates, be in such denomination, carry such registration privileges, be executed in such manner, be payable in such medium of payment at such place or places, contain such covenants, terms and conditions, and be subject to redemption as such ordinance shall provide. Obligations issued pursuant to this Act may be sold at public or private sale at such price as shall be determined by the corporate authorities of the municipalities. No referendum approval of the electors shall be required as a condition to the issuance of obligations pursuant to this Division except as provided in this Section.

In the event the municipality authorizes issuance of obligations pursuant to the authority of this Division secured by the full faith and credit of the municipality, which obligations are other than obligations which may be issued under home rule powers provided by Article VII, Section 6 of the Illinois Constitution, or pledges taxes pursuant to (b) or (c) of the second paragraph of this section, the ordinance authorizing the issuance of such obligations or pledging such taxes shall be published within 10 days after such ordinance has been passed in one or more newspapers, with general circulation within such municipality. The publication of the ordinance shall be accompanied by a notice of (1) the specific number of voters required to sign a petition requesting the question of the issuance of such obligations or pledging taxes to be submitted to the electors; (2) the time in which such petition must be filed; and (3) the date of the prospective referendum. The municipal clerk shall provide a petition form to any individual requesting one.

If no petition is filed with the municipal clerk, as hereinafter provided in this Section, within 30 days after the publication of the ordinance, the ordinance shall be in effect. But, if within that 30 day period a petition is filed with the municipal clerk, signed by electors in the municipality numbering 10% or more of the number of registered voters in the municipality, asking that the question of issuing obligations using full faith and credit of the municipality as security for the cost of paying for redevelopment project costs, or of pledging taxes for the payment of such obligations, or both, be submitted to the electors of the municipality, the corporate authorities of the municipality shall call a special election in the manner provided by law to vote upon that question, or, if a general, State or municipal election is to be held within a period of not less than 30 or more than 90 days from the date such petition is filed, shall submit the question at the next general, State or municipal election. If it appears upon the canvass of the election by the corporate authorities that a majority of electors voting upon the question voted in favor thereof, the ordinance shall be in effect, but if a majority of the electors voting upon the question are not in favor thereof, the ordinance shall not take effect.

The ordinance authorizing the obligations may provide that the obligations shall contain a recital that they are issued pursuant to this Division, which recital shall be conclusive evidence of their validity and of the regularity of their issuance.

In the event the municipality authorizes issuance of obligations pursuant to this Section secured by the full faith and credit of the municipality, the ordinance authorizing the obligations may provide for the levy and collection of a direct annual tax upon all taxable property within the municipality sufficient to pay the principal thereof and interest thereon as it matures, which levy may be in addition to and exclusive of the maximum of all other taxes authorized to be levied by the municipality, which levy, however, shall be abated to the extent that monies from other sources are available for payment of the obligations and the municipality certifies the amount of said monies available to the county clerk.

A certified copy of such ordinance shall be filed with the county clerk of each county in which any portion of the municipality is situated, and shall constitute the authority for the extension and collection of the taxes to be deposited in the special tax allocation fund.

A municipality may also issue its obligations to refund in whole or in part, obligations theretofore issued by such municipality under the authority of this Act, whether at or prior to maturity, provided however, that the last maturity of the refunding obligations shall not be expressed to mature later than December 31 of the year in which the payment to the municipal treasurer as provided in subsection (b) of Section 11-74.4-8 of this Act is to be made with respect to ad valorem taxes levied in the twenty-third calendar year after the year in which the ordinance approving the redevelopment project area is adopted if the ordinance was adopted on or after January 15, 1981, not later than December 31 of the year in which the payment to the municipal treasurer as provided in subsection (b) of Section 11-74.4-8 of this Act is to be made with respect to ad valorem taxes levied in the thirty-third calendar year after the year in which the ordinance approving the redevelopment project area if the ordinance was adopted on or after January 15, 1981, not later than December 31 of the year in which the ordinance approving the redevelopment project area is adopted if the ordinance was adopted on May 20, 1985 by the Village of Wheeling, and not later than December 31 of the year in which the payment to the municipal treasurer as provided in subsection (b) of Section 11-74.4-8 of this Act is to be made with respect to ad valorem taxes levied in the thirty-fifth calendar year after the year in which the ordinance approving the redevelopment project area is adopted (A) if the ordinance was adopted before January 15, 1981, or (B) if the ordinance was adopted in December 1983, April 1984, July 1985, or December 1989, or (C) if the ordinance was adopted in December, 1987 and the redevelopment project is located within one mile of Midway Airport, or (D) if the ordinance was adopted before January 1, 1987 by a municipality in Mason County, or (E) if the municipality is subject to the Local Government Financial Planning and Supervision Act or the Financially Distressed City Law, or (F) if the ordinance was adopted in December 1984 by the Village of Rosemont, or (G) if the ordinance was adopted on December 31, 1986 by a municipality located in Clinton County for which at least $250,000 of tax increment bonds were

Sec. 11-74.4-7. Obligations secured by the special tax allocation fund set forth in Section 11-74.4-8 for the redevelopment project area may be issued to provide for redevelopment project costs. Such obligations, when so issued, shall be retired in the manner provided in the ordinance authorizing the issuance of such obligations by the receipts of taxes levied as specified in Section 11-74.4-9 against the taxable property included in the area, by revenues as specified by Section 11-74.4-8a and other revenue designated by the municipality. A municipality may in the ordinance pledge all or any part of the funds in and to be deposited in the special tax allocation fund created pursuant to Section 11-74.4-8 to the payment of the redevelopment project costs and obligations. Any pledge of funds in the special tax allocation fund shall provide for distribution to the taxing districts and to the Illinois Department of Revenue of moneys not required, pledged, earmarked, or otherwise designated for payment and securing of the obligations and anticipated redevelopment project costs and such excess funds shall be calculated annually and deemed to be "surplus" funds. The County Collector shall thereafter make distribution to the respective taxing districts in the same manner and proportion as the most recent distribution by the county collector to the affected districts of real property taxes from real property in the redevelopment project area.

Without limiting the foregoing in this Section, the municipality may in addition to obligations secured by the special tax allocation fund pledge for a period not greater than the term of the obligations towards payment of such obligations any part or any combination of the following: (a) net revenues of all or part of any redevelopment project; (b) taxes levied and collected on any or all property in the municipality; (c) the full faith and credit of the municipality; (d) a mortgage on part or all of the redevelopment project; or (e) any other taxes or anticipated receipts that the municipality may lawfully pledge.

If no petition is filed with the municipal clerk, as hereinafter provided in this Section, within 30 days after the publication of the ordinance, the ordinance shall be in effect. But, if within that 30 day period a petition is filed with the municipal clerk, signed by electors in the municipality numbering 10% or more of the number of registered voters in the municipality, asking that the question of issuing obligations using full faith and credit of the municipality as security for the cost of paying for redevelopment project costs, or of pledging taxes for the payment of such obligations, or both, be submitted to the electors of the municipality, the corporate authorities of the municipality shall call a special election in the manner provided by law to vote upon that question, or, if a general, State or municipal election is to be held within a period of not less than 30 or more than 90 days from the date such petition is filed, shall submit the question at the next general, State or municipal election. If it appears upon the canvass of the election by the corporate authorities that a majority of electors voting upon the question voted in favor thereof, the ordinance shall be in effect, but if a majority of the electors voting upon the question are not in favor thereof, the ordinance shall not take effect.

The ordinance authorizing the obligations may provide that the obligations shall contain a recital that they are issued pursuant to this Division, which recital shall be conclusive evidence of their validity and of the regularity of their issuance.

PUBLIC ACT 94-1092
(House Bill No. 5475)

AN ACT concerning local government.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Illinois Municipal Code is amended by changing Sections 11-74.4-3 and 11-74.4-7 as follows:

(65 ILCS 5/11-74.4-3) (from Ch. 24, par. 11-74.4-3)
(Text of Section before amendment by P.A. 94-702 and 94-711)

Sec. 11-74.4-3. Definitions. The following terms, wherever used or referred to in this Division 74.4 shall have the following respective meanings, unless in any case a different meaning clearly appears from the context.

(a) For any redevelopment project area that has been designated pursuant to this Section by an ordinance adopted prior to November 1, 1999 (the effective date of Public Act 91-478), "blighted area" shall have the meaning set forth in this Section prior to that date.

On and after November 1, 1999, "blighted area" means any improved or vacant area within the boundaries of a redevelopment project area located within the territorial limits of the municipality where:

(1) If improved, industrial, commercial, and residential buildings or improvements are detrimental to the public safety, health, or welfare because of a combination of 5 or more of the following factors, each of which is (i) present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) reasonably distributed throughout the improved part of the redevelopment project area:

(A) Dilapidation. An advanced state of disrepair or neglect of necessary repairs to the primary structural components of buildings or improvements in such a combination that a documented building condition analysis determines that major repair is required or the defects are so

serious and so extensive that the buildings must be removed.

(B) Obsolescence. The condition or process of falling into disuse. Structures have become ill-suited for the original use.

(C) Deterioration. With respect to buildings, defects including, but not limited to, major defects in the secondary building components such as doors, windows, porches, gutters and downspouts, and fascia. With respect to surface improvements, that the condition of roadways, alleys, curbs, gutters, sidewalks, off-street parking, and surface storage areas evidence deterioration, including, but not limited to, surface cracking, crumbling, potholes, depressions, loose paving material, and weeds protruding through paved surfaces.

(D) Presence of structures below minimum code standards. All structures that do not meet the standards of zoning, subdivision, building, fire, and other governmental codes applicable to property, but not including housing and property maintenance codes.

(E) Illegal use of individual structures. The use of structures in violation of applicable federal, State, or local laws, exclusive of those applicable to the presence of structures below minimum code standards.

(F) Excessive vacancies. The presence of buildings that are unoccupied or under-utilized and that represent an adverse influence on the area because of the frequency, extent, or duration of the vacancies.

(G) Lack of ventilation, light, or sanitary facilities. The absence of adequate ventilation for light or air circulation in spaces or rooms without windows, or that require the removal of dust, odor, gas, smoke, or other noxious airborne materials. Inadequate natural light and ventilation means the absence of skylights or windows for

interior spaces or rooms and improper window sizes and amounts by room area to window area ratios. Inadequate sanitary facilities refers to the absence or inadequacy of garbage storage and enclosure, bathroom facilities, hot water and kitchens, and structural inadequacies preventing ingress and egress to and from all rooms and units within a building.

(H) Inadequate utilities. Underground and overhead utilities such as storm sewers and storm drainage, sanitary sewers, water lines, and gas, telephone, and electrical services that are shown to be inadequate. Inadequate utilities are those that are: (i) of insufficient capacity to serve the uses in the redevelopment project area, (ii) deteriorated, antiquated, obsolete, or in disrepair, or (iii) lacking within the redevelopment project area.

(I) Excessive land coverage and overcrowding of structures and community facilities. The over-intensive use of property and the crowding of buildings and accessory facilities onto a site. Examples of problem conditions warranting the designation of an area as one exhibiting excessive land coverage are: (i) the presence of buildings either improperly situated on parcels or located on parcels of inadequate size and shape in relation to present-day standards of development for health and safety and (ii) the presence of multiple buildings on a single parcel. For there to be a finding of excessive land coverage, these parcels must exhibit one or more of the following conditions: insufficient provision for light and air within or around buildings, increased threat of spread of fire due to the close proximity of buildings, lack of adequate or proper access to a public right-of-way, lack of reasonably required off-street parking, or inadequate provision for loading and service.

(J) Deleterious land use or layout. The existence of incompatible land-use relationships, buildings occupied by

inappropriate mixed-uses, or uses considered to be noxious, offensive, or unsuitable for the surrounding area.

(K) Environmental clean-up. The proposed redevelopment project area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

(L) Lack of community planning. The proposed redevelopment project area was developed prior to or without the benefit or guidance of a community plan. This means that the development occurred prior to the adoption by the municipality of a comprehensive or other community plan or that the plan was not followed at the time of the area's development. This factor must be documented by evidence of adverse or incompatible land-use relationships, inadequate street layout, improper subdivision, parcels of inadequate shape and size to meet contemporary development standards, or other evidence demonstrating an absence of effective community planning.

(M) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban

Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated.

(2) If vacant, the sound growth of the redevelopment project area is impaired by a combination of 2 or more of the following factors, each of which is (i) present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) reasonably distributed throughout the vacant part of the redevelopment project area to which it pertains:

(A) Obsolete platting of vacant land that results in parcels of limited or narrow size or configurations of parcels of irregular size or shape that would be difficult to develop on a planned basis and in a manner compatible with contemporary standards and requirements, or platting that failed to create rights-of-ways for streets or alleys or that created inadequate right-of-way widths for streets, alleys, or other public rights-of-way or that omitted easements for public utilities.

(B) Diversity of ownership of parcels of vacant land sufficient in number to retard or impede the ability to assemble the land for development.

(C) Tax and special assessment delinquencies exist or the property has been the subject of tax sales under the Property Tax Code within the last 5 years.

(D) Deterioration of structures or site improvements in neighboring areas adjacent to the vacant land.

(E) The area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste,
hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

(F) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated.

(3) If vacant, the sound growth of the redevelopment project area is impaired by one of the following factors that (i) is present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) is reasonably distributed throughout the vacant part of the redevelopment project area to which it pertains:

(A) The area consists of one or more unused quarries, mines, or strip mine ponds.

(B) The area consists of unused rail yards, rail tracks, or railroad rights-of-way.

(C) The area, prior to its designation, is subject to (i) chronic flooding that adversely impacts on real property in the area as certified by a registered professional engineer or appropriate regulatory agency or (ii) surface water that discharges from all or a part of the area and contributes to flooding within the same watershed, but only if the

redevelopment project provides for facilities or improvements to contribute to the alleviation of all or part of the flooding.

(D) The area consists of an unused or illegal disposal site containing earth, stone, building debris, or similar materials that were removed from construction, demolition, excavation, or dredge sites.

(E) Prior to November 1, 1999, the area is not less than 50 nor more than 100 acres and 75% of which is vacant (notwithstanding that the area has been used for commercial agricultural purposes within 5 years prior to the designation of the redevelopment project area), and the area meets at least one of the factors itemized in paragraph (1) of this subsection, the area has been designated as a town or village center by ordinance or comprehensive plan adopted prior to January 1, 1982, and the area has not been developed for that designated purpose.

(F) The area qualified as a blighted improved area immediately prior to becoming vacant, unless there has been substantial private investment in the immediately surrounding area.

(b) For any redevelopment project area that has been designated pursuant to this Section by an ordinance adopted prior to November 1, 1999 (the effective date of Public Act 91-478), "conservation area" shall have the meaning set forth in this Section prior to that date.

On and after November 1, 1999, "conservation area" means any improved area within the boundaries of a redevelopment project area located within the territorial limits of the municipality in which 50% or more of the structures in the area have an age of 35 years or more. Such an area is not yet a blighted area but because of a combination of 3 or more of the following factors is detrimental to the public safety, health, morals or welfare and such an area may become a blighted area:

(1) Dilapidation. An advanced state of disrepair or neglect of necessary repairs to the primary structural components of

buildings or improvements in such a combination that a documented building condition analysis determines that major repair is required or the defects are so serious and so extensive that the buildings must be removed.

(2) Obsolescence. The condition or process of falling into disuse. Structures have become ill-suited for the original use.

(3) Deterioration. With respect to buildings, defects including, but not limited to, major defects in the secondary building components such as doors, windows, porches, gutters and downspouts, and fascia. With respect to surface improvements, that the condition of roadways, alleys, curbs, gutters, sidewalks, off-street parking, and surface storage areas evidence deterioration, including, but not limited to, surface cracking, crumbling, potholes, depressions, loose paving material, and weeds protruding through paved surfaces.

(4) Presence of structures below minimum code standards. All structures that do not meet the standards of zoning, subdivision, building, fire, and other governmental codes applicable to property, but not including housing and property maintenance codes.

(5) Illegal use of individual structures. The use of structures in violation of applicable federal, State, or local laws, exclusive of those applicable to the presence of structures below minimum code standards.

(6) Excessive vacancies. The presence of buildings that are unoccupied or under-utilized and that represent an adverse influence on the area because of the frequency, extent, or duration of the vacancies.

(7) Lack of ventilation, light, or sanitary facilities. The absence of adequate ventilation for light or air circulation in spaces or rooms without windows, or that require the removal of dust, odor, gas, smoke, or other noxious airborne materials. window sizes and amounts by room area to window area ratios. Inadequate sanitary facilities refers to the absence or inadequacy of garbage storage and enclosure, bathroom facilities, hot water and kitchens, and structural inadequacies preventing ingress and egress to and from all rooms and units within a building.

(8) Inadequate utilities. Underground and overhead utilities such as storm sewers and storm drainage, sanitary sewers, water lines, and gas, telephone, and electrical services that are shown to be inadequate. Inadequate utilities are those that are: (i) of insufficient capacity to serve the uses in the redevelopment project area, (ii) deteriorated, antiquated, obsolete, or in disrepair, or (iii) lacking within the redevelopment project area.

(9) Excessive land coverage and overcrowding of structures and community facilities. The over-intensive use of property and the crowding of buildings and accessory facilities onto a site. Examples of problem conditions warranting the designation of an area as one exhibiting excessive land coverage are: the presence of buildings either improperly situated on parcels or located on parcels of inadequate size and shape in relation to present-day standards of development for health and safety and the presence of multiple buildings on a single parcel. For there to be a finding of excessive land coverage, these parcels must exhibit one or more of the following conditions: insufficient provision for light and air within or around buildings, increased threat of spread of fire due to the close proximity of buildings, lack of adequate or proper access to a public right-of-way, lack of reasonably required off-street parking, or inadequate provision for loading and service.

(10) Deleterious land use or layout. The existence of incompatible land-use relationships, buildings occupied by inappropriate mixed-uses, or uses considered to be noxious, offensive, or unsuitable for the surrounding area.

(11) Lack of community planning. The proposed redevelopment project area was developed prior to or without the benefit or guidance of a community plan. This means that the
development occurred prior to the adoption by the municipality of a comprehensive or other community plan or that the plan was not followed at the time of the area's development. This factor must be documented by evidence of adverse or incompatible land-use relationships, inadequate street layout, improper subdivision, parcels of inadequate shape and size to meet contemporary development standards, or other evidence demonstrating an absence of effective community planning.

(12) The area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

(13) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years for which information is available.

(c) "Industrial park" means an area in a blighted or conservation area suitable for use by any manufacturing, industrial, research or transportation enterprise, of facilities to include but not be limited to factories, mills, processing plants, assembly plants, packing plants, fabricating plants, industrial distribution centers, warehouses, repair overhaul or service facilities, freight terminals, research facilities, test facilities or railroad facilities.

New matter indicated by italics - deletions by strikeout.
(d) "Industrial park conservation area" means an area within the boundaries of a redevelopment project area located within the territorial limits of a municipality that is a labor surplus municipality or within 1 1/2 miles of the territorial limits of a municipality that is a labor surplus municipality if the area is annexed to the municipality; which area is zoned as industrial no later than at the time the municipality by ordinance designates the redevelopment project area, and which area includes both vacant land suitable for use as an industrial park and a blighted area or conservation area contiguous to such vacant land.

(e) "Labor surplus municipality" means a municipality in which, at any time during the 6 months before the municipality by ordinance designates an industrial park conservation area, the unemployment rate was over 6% and was also 100% or more of the national average unemployment rate for that same time as published in the United States Department of Labor Bureau of Labor Statistics publication entitled "The Employment Situation" or its successor publication. For the purpose of this subsection, if unemployment rate statistics for the municipality are not available, the unemployment rate in the municipality shall be deemed to be the same as the unemployment rate in the principal county in which the municipality is located.

(f) "Municipality" shall mean a city, village, incorporated town, or a township that is located in the unincorporated portion of a county with 3 million or more inhabitants, if the county adopted an ordinance that approved the township's redevelopment plan.

(g) "Initial Sales Tax Amounts" means the amount of taxes paid under the Retailers' Occupation Tax Act, Use Tax Act, Service Use Tax Act, the Service Occupation Tax Act, the Municipal Retailers' Occupation Tax Act, and the Municipal Service Occupation Tax Act by retailers and servicemen on transactions at places located in a State Sales Tax Boundary during the calendar year 1985.

(g-1) "Revised Initial Sales Tax Amounts" means the amount of taxes paid under the Retailers' Occupation Tax Act, Use Tax Act, Service Use Tax Act, the Service Occupation Tax Act, the Municipal Retailers' Occupation Tax Act, and the Municipal Service Occupation Tax Act by
retailers and servicemen on transactions at places located within the State Sales Tax Boundary revised pursuant to Section 11-74.4-8a(9) of this Act.

(h) "Municipal Sales Tax Increment" means an amount equal to the increase in the aggregate amount of taxes paid to a municipality from the Local Government Tax Fund arising from sales by retailers and servicemen within the redevelopment project area or State Sales Tax Boundary, as the case may be, for as long as the redevelopment project area or State Sales Tax Boundary, as the case may be, exist over and above the aggregate amount of taxes as certified by the Illinois Department of Revenue and paid under the Municipal Retailers' Occupation Tax Act and the Municipal Service Occupation Tax Act by retailers and servicemen, on transactions at places of business located in the redevelopment project area or State Sales Tax Boundary, as the case may be, during the base year which shall be the calendar year immediately prior to the year in which the municipality adopted tax increment allocation financing. For purposes of computing the aggregate amount of such taxes for base years occurring prior to 1985, the Department of Revenue shall determine the Initial Sales Tax Amounts for such taxes and deduct therefrom an amount equal to 4% of the aggregate amount of taxes per year for each year the base year is prior to 1985, but not to exceed a total deduction of 12%. The amount so determined shall be known as the "Adjusted Initial Sales Tax Amounts". For purposes of determining the Municipal Sales Tax Increment, the Department of Revenue shall for each period subtract from the amount paid to the municipality from the Local Government Tax Fund arising from sales by retailers and servicemen on transactions located in the redevelopment project area or the State Sales Tax Boundary, as the case may be, the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts for the Municipal Retailers' Occupation Tax Act and the Municipal Service Occupation Tax Act. For the State Fiscal Year 1989, this calculation shall be made by utilizing the calendar year 1987 to determine the tax amounts received. For the State Fiscal Year 1990, this calculation shall be made by utilizing the period from January 1, 1988, until September 30, 1988, to determine the tax amounts received from retailers and servicemen pursuant to the

Municipal Retailers' Occupation Tax and the Municipal Service Occupation Tax Act, which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For the State Fiscal Year 1991, this calculation shall be made by utilizing the period from October 1, 1988, to June 30, 1989, to determine the tax amounts received from retailers and servicemen pursuant to the Municipal Retailers' Occupation Tax and the Municipal Service Occupation Tax Act which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For every State Fiscal Year thereafter, the applicable period shall be the 12 months beginning July 1 and ending June 30 to determine the tax amounts received which shall have deducted therefrom the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts, as the case may be.

If, however, a municipality established a tax increment financing district in a county with a population in excess of 3,000,000 before January 1, 1986, and the municipality entered into a contract or issued bonds after January 1, 1986, but before December 31, 1986, to finance redevelopment project costs within a State Sales Tax Boundary, then the Net State Sales Tax Increment means, for the fiscal years beginning July 1, 1990, and July 1, 1991, 100% of the State Sales Tax Increment annually generated within a State Sales Tax Boundary; and notwithstanding any other provision of this Act, for those fiscal years the Department of Revenue shall distribute to those municipalities 100% of their Net State Sales Tax Increment before any distribution to any other municipality and regardless of whether or not

those other municipalities will receive 100% of their Net State Sales Tax Increment. For Fiscal Year 1999, and every year thereafter until the year 2007, for any municipality that has not entered into a contract or has not issued bonds prior to June 1, 1988 to finance redevelopment project costs within a State Sales Tax Boundary, the Net State Sales Tax Increment shall be calculated as follows: By multiplying the Net State Sales Tax Increment by 90% in the State Fiscal Year 1999; 80% in the State Fiscal Year 2000; 70% in the State Fiscal Year 2001; 60% in the State Fiscal Year 2002; 50% in the State Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006; and 10% in the State Fiscal Year 2007. No payment shall be made for State Fiscal Year 2008 and thereafter.

Municipalities that issued bonds in connection with a redevelopment project in a redevelopment project area within the State Sales Tax Boundary prior to July 29, 1991, or that entered into contracts in connection with a redevelopment project in a redevelopment project area before June 1, 1988, shall continue to receive their proportional share of the Illinois Tax Increment Fund distribution until the date on which the redevelopment project is completed or terminated. If, however, a municipality that issued bonds in connection with a redevelopment project in a redevelopment project area within the State Sales Tax Boundary prior to July 29, 1991 retires the bonds prior to June 30, 2007 or a municipality that entered into contracts in connection with a redevelopment project in a redevelopment project area before June 1, 1988 completes the contracts prior to June 30, 2007, then so long as the redevelopment project is not completed or is not terminated, the Net State Sales Tax Increment shall be calculated, beginning on the date on which the bonds are retired or the contracts are completed, as follows: By multiplying the Net State Sales Tax Increment by 60% in the State Fiscal Year 2002; 50% in the State Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006; and 10% in the State Fiscal Year 2007. No payment shall be made for State Fiscal Year 2008 and thereafter. Refunding of any bonds issued prior to July 29, 1991, shall not alter the Net State Sales Tax Increment.

For the State Fiscal Year 1999, and every year thereafter until the year 2007, for any municipality that has not entered into a contract or has not issued bonds prior to June 1, 1988 to finance redevelopment project costs within a redevelopment project area, the Net State Utility Tax Increment shall be calculated as follows: By multiplying the Net State Utility Tax Increment by 90% in the State Fiscal Year 1999; 80% in the State Fiscal Year 2000; 70% in the State Fiscal Year 2001; 60% in the State Fiscal Year 2002; 50% in the State Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006; and 10% in the State Fiscal Year 2007. (m) "Payment in lieu of taxes" means those estimated tax revenues from real property in a redevelopment project area derived from real property that has been acquired by a municipality which according to the redevelopment project or plan is to be used for a private use which taxing districts would have received had a municipality not acquired the real property and adopted tax increment allocation financing and which would result from levies made after the time of the adoption of tax increment allocation financing to the time the current equalized value of real property in the redevelopment project area exceeds the total initial equalized value of real property in said area.

On and after November 1, 1999 (the effective date of Public Act 91-478), no redevelopment plan may be approved or amended that includes the development of vacant land (i) with a golf course and related clubhouse and other facilities or (ii) designated by federal, State, county, or municipal government as public land for outdoor recreational activities or for nature preserves and used for that purpose within 5 years prior to the adoption of the redevelopment plan. (B) evidence indicating that the redevelopment project area on the whole has not been subject to growth and development through investment by private enterprise;

74.4-5. No redevelopment plan shall be adopted unless a municipality complies with all of the following requirements:

(1) The municipality finds that the redevelopment project area on the whole has not been subject to growth and development through investment by private enterprise and would not reasonably be anticipated to be developed without the adoption of the redevelopment plan.

(2) The municipality finds that the redevelopment plan and project conform to the comprehensive plan for the development of the municipality as a whole, or, for municipalities with a population of 100,000 or more, regardless of when the redevelopment plan and project was adopted, the redevelopment plan and project either: (i) conforms to the strategic economic development or redevelopment plan issued by the designated planning authority of the municipality, or (ii) includes land uses that have been approved by the planning commission of the municipality.

However, for redevelopment project areas for which bonds were issued before July 29, 1991, or for which contracts were entered into before June 1, 1988, in connection with a redevelopment project in the area within the State Sales Tax Boundary, the estimated dates of completion of the redevelopment project and retirement of obligations to finance redevelopment project costs may be extended by municipal ordinance to December 31, 2013. The termination procedures of subsection (b) of Section 11-74.4-8 are not required for these redevelopment project areas in 2009 but are required in 2013. The extension allowed by this amendatory Act of 1993 shall not apply to real property tax increment allocation financing under Section 11-74.4-8.

A municipality may by municipal ordinance amend an existing redevelopment plan to conform to this paragraph (3) as amended by Public Act 91-478, which municipal ordinance may be adopted without further hearing or notice and without complying with the procedures provided in this Act pertaining to an amendment to or the initial approval of a redevelopment plan and project and designation of a redevelopment project area.

Those dates, for purposes of real property tax increment allocation financing pursuant to Section 11-74.4-8 only, shall be not more than 35 years for redevelopment project areas that were adopted on or after December 16, 1986 and for which at least $8 million worth of municipal bonds were authorized on or after December 19, 1989 but before January 1, 1990; provided that the municipality elects to extend the life of the redevelopment project area to 35 years by the adoption of an ordinance after at least 14

but not more than 30 days' written notice to the taxing bodies, that would otherwise constitute the joint review board for the redevelopment project area, before the adoption of the ordinance.

Those dates, for purposes of real property tax increment allocation financing pursuant to Section 11-74.4-8 only, shall be not more than 35 years for redevelopment project areas that were established on or after December 1, 1981 but before January 1, 1982 and for which at least $1,500,000 worth of tax increment revenue bonds were authorized on or after September 30, 1990 but before July 1, 1991; provided that the municipality elects to extend the life of the redevelopment project area to 35 years by the adoption of an ordinance after at least 14 but not more than 30 days' written notice to the taxing bodies, that would otherwise constitute the joint review board for the redevelopment project area, before the adoption of the ordinance.

(3.5) The municipality finds, in the case of an industrial park conservation area, also that the municipality is a labor surplus municipality and that the implementation of the redevelopment plan will reduce unemployment, create new jobs and by the provision of new facilities enhance the tax base of the taxing districts that extend into the redevelopment project area.

(4) If any incremental revenues are being utilized under Section 8(a)(1) or 8(a)(2) of this Act in redevelopment project areas approved by ordinance after January 1, 1986, the municipality finds: (a) that the redevelopment project area would not reasonably be developed without the use of such incremental revenues, and (b) that such incremental revenues will be exclusively utilized for the development of the redevelopment project area.

(5) If the redevelopment plan will not result in displacement of residents from 10 or more inhabited residential units, and the municipality certifies in the plan that such displacement will not result from the plan, a housing impact study need not be performed. If, however, the redevelopment plan would

result in the displacement of residents from 10 or more inhabited residential units, or if the redevelopment project area contains 75 or more inhabited residential units and no certification is made, then the municipality shall prepare, as part of the separate feasibility report required by subsection (a) of Section 11-74.4-5, a housing impact study.

Part I of the housing impact study shall include (i) data as to whether the residential units are single family or multi-family units, (ii) the number and type of rooms within the units, if that information is available, (iii) whether the units are inhabited or uninhabited, as determined not less than 45 days before the date that the ordinance or resolution required by subsection (a) of Section 11-74.4-5 is passed, and (iv) data as to the racial and ethnic composition of the residents in the inhabited residential units. The data requirement as to the racial and ethnic composition of the residents in the inhabited residential units shall be deemed to be fully satisfied by data from the most recent federal census.

Part II of the housing impact study shall identify the inhabited residential units in the proposed redevelopment project area that are to be or may be removed. If inhabited residential units are to be removed, then the housing impact study shall identify (i) the number and location of those units that will or may be removed, (ii) the municipality's plans for relocation assistance for those residents in the proposed redevelopment project area whose residences are to be removed, (iii) the availability of replacement housing for those residents whose residences are to be removed, and shall identify the type, location, and cost of the housing, and (iv) the type and extent of relocation assistance to be provided.

(6) On and after November 1, 1999, the housing impact study required by paragraph (5) shall be incorporated in the redevelopment plan for the redevelopment project area.

(7) On and after November 1, 1999, no redevelopment plan shall be adopted, nor an existing plan amended, nor shall residential housing that is occupied by households of low-income

and very low-income persons in currently existing redevelopment project areas be removed after November 1, 1999 unless the redevelopment plan provides, with respect to inhabited housing units that are to be removed for households of low-income and very low-income persons, affordable housing and relocation assistance not less than that which would be provided under the federal Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 and the regulations under that Act, including the eligibility criteria. Affordable housing may be either existing or newly constructed housing. For purposes of this paragraph (7), "low-income households", "very low-income households", and "affordable housing" have the meanings set forth in the Illinois Affordable Housing Act. The municipality shall make a good faith effort to ensure that this affordable housing is located in or near the redevelopment project area within the municipality.

(8) On and after November 1, 1999, if, after the adoption of the redevelopment plan for the redevelopment project area, any municipality desires to amend its redevelopment plan to remove more inhabited residential units than specified in its original redevelopment plan, that change shall be made in accordance with the procedures in subsection (c) of Section 11-74.4-5.

(9) For redevelopment project areas designated prior to November 1, 1999, the redevelopment plan may be amended without further joint review board meeting or hearing, provided that the municipality shall give notice of any such changes by mail to each affected taxing district and registrant on the interested party registry, to authorize the municipality to expend tax increment revenues for redevelopment project costs defined by paragraphs (5) and (7.5), subparagraphs (E) and (F) of paragraph (11), and paragraph (11.5) of subsection (q) of Section 11-74.4-3, so long as the changes do not increase the total estimated redevelopment project costs set out in the redevelopment plan by more than 5% after adjustment for inflation from the date the plan was adopted.

(o) "Redevelopment project" means any public and private development project in furtherance of the objectives of a redevelopment plan. On and after November 1, 1999 (the effective date of Public Act 91-478), no redevelopment plan may be approved or amended that includes the development of vacant land (i) with a golf course and related clubhouse and other facilities or (ii) designated by federal, State, county, or municipal government as public land for outdoor recreational activities or for nature preserves and used for that purpose within 5 years prior to the adoption of the redevelopment plan. For the purpose of this subsection, "recreational activities" is limited to mean camping and hunting.

(p) "Redevelopment project area" means an area designated by the municipality, which is not less in the aggregate than 1 1/2 acres and in respect to which the municipality has made a finding that there exist conditions which cause the area to be classified as an industrial park conservation area or a blighted area or a conservation area, or a combination of both blighted areas and conservation areas.

(q) "Redevelopment project costs" mean and include the sum total of all reasonable or necessary costs incurred or estimated to be incurred, and any such costs incidental to a redevelopment plan and a redevelopment project. Such costs include, without limitation, the following:

(1) Costs of studies, surveys, development of plans, and specifications, implementation and administration of the redevelopment plan including but not limited to staff and professional service costs for architectural, engineering, legal, financial, planning or other services, provided however that no charges for professional services may be based on a percentage of the tax increment collected; except that on and after November 1, 1999 (the effective date of Public Act 91-478), no contracts for professional services, excluding architectural and engineering services, may be entered into if the terms of the contract extend beyond a period of 3 years. In addition, "redevelopment project costs" shall not include lobbying expenses. After consultation with the municipality, each tax increment consultant or advisor to a

municipality that plans to designate or has designated a redevelopment project area shall inform the municipality in writing of any contracts that the consultant or advisor has entered into with entities or individuals that have received, or are receiving, payments financed by tax increment revenues produced by the redevelopment project area with respect to which the consultant or advisor has performed, or will be performing, service for the municipality. This requirement shall be satisfied by the consultant or advisor before the commencement of services for the municipality and thereafter whenever any other contracts with those individuals or entities are executed by the consultant or advisor;

(1.5) After July 1, 1999, annual administrative costs shall not include general overhead or administrative costs of the municipality that would still have been incurred by the municipality if the municipality had not designated a redevelopment project area or approved a redevelopment plan;

(1.6) The cost of marketing sites within the redevelopment project area to prospective businesses, developers, and investors;

(2) Property assembly costs, including but not limited to acquisition of land and other property, real or personal, or rights or interests therein, demolition of buildings, site preparation, site improvements that serve as an engineered barrier addressing ground level or below ground environmental contamination, including, but not limited to parking lots and other concrete or asphalt barriers, and the clearing and grading of land;

(3) Costs of rehabilitation, reconstruction or repair or remodeling of existing public or private buildings, fixtures, and leasehold improvements; and the cost of replacing an existing public building if pursuant to the implementation of a redevelopment project the existing public building is to be demolished to use the site for private investment or devoted to a different use requiring private investment;

(4) Costs of the construction of public works or improvements, except that on and after November 1, 1999, redevelopment project costs shall not include the cost of constructing a new municipal public building principally used to provide offices, storage space, or conference facilities or vehicle storage, maintenance, or repair for administrative, public safety, or public works personnel and that is not intended to replace an existing public building as provided under paragraph (3) of subsection (q) of Section 11-74.4-3 unless either (i) the construction of the new municipal building implements a redevelopment project that was included in a redevelopment plan that was adopted by the municipality prior to November 1, 1999 or (ii) the municipality makes a reasonable determination in the redevelopment plan, supported by information that provides the basis for that determination, that the new municipal building is required to meet an increase in the need for public safety purposes anticipated to result from the implementation of the redevelopment plan;

(5) Costs of job training and retraining projects, including the cost of "welfare to work" programs implemented by businesses located within the redevelopment project area;

(6) Financing costs, including but not limited to all necessary and incidental expenses related to the issuance of obligations and which may include payment of interest on any obligations issued hereunder including interest accruing during the estimated period of construction of any redevelopment project for which such obligations are issued and for not exceeding 36 months thereafter and including reasonable reserves related thereto;

(7) To the extent the municipality by written agreement accepts and approves the same, all or a portion of a taxing district's capital costs resulting from the redevelopment project necessarily incurred or to be incurred within a taxing district in furtherance of the objectives of the redevelopment plan and project.

(A) for foundation districts, excluding any school district in a municipality with a population in excess of 1,000,000, by multiplying the district's increase in attendance resulting from the net increase in new students enrolled in that school district who reside in housing units within the redevelopment project area that have received financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by the most recently available per capita tuition cost as defined in Section 10-20.12a of the School Code less any increase in general State aid as defined in Section 18-8.05 of the School Code attributable to these added new students subject to the following annual limitations:

Any school district seeking payment under this paragraph (7.5) shall, after July 1 and before September 30 of each year, provide the municipality with reasonable evidence to support its claim for reimbursement before the municipality shall be required to approve or make the payment to the school district. If the school district fails to provide the information during this period in any year, it shall forfeit any claim to reimbursement for that year. School districts may adopt a resolution waiving the right to all or a portion of the reimbursement otherwise required by this paragraph (7.5). By acceptance of this reimbursement the school district waives the right to directly or indirectly set aside, modify, or contest in any manner the establishment of the redevelopment project area or projects.

(7.7) For redevelopment project areas designated (or redevelopment project areas amended to add or increase the number of tax-increment-financing assisted housing units) on or after January 1, 2005 (the effective date of Public Act 93-961), a public library district's increased costs attributable to assisted housing units located within the redevelopment project area for which the developer or redeveloper receives financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the assisted housing sites necessary for the completion of that housing as authorized by this Act shall be paid to the library district by the municipality from the Special Tax Allocation Fund when the tax increment revenue is received as a result of the assisted housing units. This paragraph (7.7) applies only if (i) the library district is located in a county that is subject to the Property Tax Extension Limitation Law or (ii) the library district is not located in a county that is subject to the Property Tax Extension Limitation Law but the district is prohibited by any other law from increasing its tax levy rate without a prior voter referendum.

The amount paid to a library district under this paragraph (7.7) shall be calculated by multiplying (i) the net increase in the number of persons eligible to obtain a library card in that district who reside in housing units within the redevelopment project area that have received financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by (ii) the per-patron cost of providing library services so long as it does not exceed $120. The per-patron cost shall be the Total Operating Expenditures Per Capita as stated in the most recent Illinois Public Library Statistics produced by the Library Research Center at the University of Illinois. The municipality may deduct from the amount that it must pay to a library district under this paragraph any amount that it has voluntarily paid to the library district from the tax increment revenue. The amount paid to a library district under this paragraph (7.7) shall be no more than 2% of the amount produced by the assisted housing units and deposited into the Special Tax Allocation Fund.

A library district is not eligible for any payment under this paragraph (7.7) unless the library district has experienced an increase in the number of patrons from the municipality that created the tax-increment-financing district since the designation of the redevelopment project area.

Any library district seeking payment under this paragraph (7.7) shall, after July 1 and before September 30 of each year, provide the municipality with convincing evidence to support its claim for reimbursement before the municipality shall be required to approve or make the payment to the library district. If the library district fails to provide the information during this period in any year, it shall forfeit any claim to reimbursement for that year. Library districts may adopt a resolution waiving the right to all or a portion of the reimbursement otherwise required by this paragraph.
(7.7). By acceptance of such reimbursement, the library district shall forfeit any right to directly or indirectly set aside, modify, or contest in any manner whatsoever the establishment of the redevelopment project area or projects;

(8) Relocation costs to the extent that a municipality determines that relocation costs shall be paid or is required to make payment of relocation costs by federal or State law or in order to satisfy subparagraph (7) of subsection (n);

(9) Payment in lieu of taxes;

(10) Costs of job training, retraining, advanced vocational education or career education, including but not limited to courses in occupational, semi-technical or technical fields leading directly to employment, incurred by one or more taxing districts, provided that such costs (i) are related to the establishment and maintenance of additional job training, advanced vocational education or career education programs for persons employed or to be employed by employers located in a redevelopment project area; and (ii) when incurred by a taxing district or taxing districts other than the municipality, are set forth in a written agreement by or among the municipality and the taxing district or taxing districts, which agreement describes the program to be undertaken, including but not limited to the number of employees to be trained, a description of the training and services to be provided, the number and type of positions available or to be available, itemized costs of the program and sources of funds to pay for the same, and the term of the agreement. Such costs include, specifically, the payment by community college districts of costs pursuant to Sections 3-37, 3-38, 3-40 and 3-40.1 of the Public Community College Act and by school districts of costs pursuant to Sections 10-22.20a and 10-23.3a of The School Code;

(11) Interest cost incurred by a redeveloper related to the construction, renovation or rehabilitation of a redevelopment project provided that:

New matter indicated by italics - deletions by strikeout.
(A) such costs are to be paid directly from the special tax allocation fund established pursuant to this Act;
(B) such payments in any one year may not exceed 30% of the annual interest costs incurred by the redeveloper with regard to the redevelopment project during that year;
(C) if there are not sufficient funds available in the special tax allocation fund to make the payment pursuant to this paragraph (11) then the amounts so due shall accrue and be payable when sufficient funds are available in the special tax allocation fund;
(D) the total of such interest payments paid pursuant to this Act may not exceed 30% of the total (i) cost paid or incurred by the redeveloper for the redevelopment project plus (ii) redevelopment project costs excluding any property assembly costs and any relocation costs incurred by a municipality pursuant to this Act; and
(E) the cost limits set forth in subparagraphs (B) and (D) of paragraph (11) shall be modified for the financing of rehabilitated or new housing units for low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act. The percentage of 75% shall be substituted for 30% in subparagraphs (B) and (D) of paragraph (11).
(F) Instead of the eligible costs provided by subparagraphs (B) and (D) of paragraph (11), as modified by this subparagraph, and notwithstanding any other provisions of this Act to the contrary, the municipality may pay from tax increment revenues up to 50% of the cost of construction of new housing units to be occupied by low-income households and very low-income households as defined in Section 3 of the Illinois Affordable Housing Act. The cost of construction of those units may be derived from the proceeds of bonds issued by the municipality under this Act or other constitutional or statutory authority or from

other sources of municipal revenue that may be reimbursed from tax increment revenues or the proceeds of bonds issued to finance the construction of that housing.

The eligible costs provided under this subparagraph (F) of paragraph (11) shall be an eligible cost for the construction, renovation, and rehabilitation of all low and very low-income housing units, as defined in Section 3 of the Illinois Affordable Housing Act, within the redevelopment project area. If the low and very low-income units are part of a residential redevelopment project that includes units not affordable to low and very low-income households, only the low and very low-income units shall be eligible for benefits under subparagraph (F) of paragraph (11). The standards for maintaining the occupancy by low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act, of those units constructed with eligible costs made available under the provisions of this subparagraph (F) of paragraph (11) shall be established by guidelines adopted by the municipality. The responsibility for annually documenting the initial occupancy of the units by low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act, shall be that of the then current owner of the property. For ownership units, the guidelines will provide, at a minimum, for a reasonable recapture of funds, or other appropriate methods designed to preserve the original affordability of the ownership units. For rental units, the guidelines will provide, at a minimum, for the affordability of rent to low and very low-income households. As units become available, they shall be rented to income-eligible tenants. The municipality may modify these guidelines from time to time; the guidelines, however, shall be in effect for as long as tax increment revenue is being used to pay for costs.

For the purposes of this paragraph, "low-income families" means families whose annual income does not exceed 80% of the municipal, county, or regional median income, adjusted for family size, as the annual income and municipal, county, or regional median income are determined from time to time by the United States Department of Housing and Urban Development.

(12) Unless explicitly stated herein the cost of construction of new privately-owned buildings shall not be an eligible redevelopment project cost.

(13) After November 1, 1999 (the effective date of Public Act 91-478), none of the redevelopment project costs enumerated in this subsection shall be eligible redevelopment project costs if those costs would provide direct financial support to a retail entity initiating operations in the redevelopment project area while terminating operations at another Illinois location within 10 miles of the redevelopment project area but outside the boundaries of the redevelopment project area municipality. For purposes of this paragraph, termination means a closing of a retail operation that is directly related to the opening of the same operation or like retail entity owned or operated by more than 50% of the original ownership in a redevelopment project area, but it does not mean closing an operation for reasons beyond the control of the retail entity, as documented by the retail entity, subject to a reasonable

finding by the municipality that the current location contained inadequate space, had become economically obsolete, or was no longer a viable location for the retailer or serviceman.

If a special service area has been established pursuant to the Special Service Area Tax Act or Special Service Area Tax Law, then any tax increment revenues derived from the tax imposed pursuant to the Special Service Area Tax Act or Special Service Area Tax Law may be used within the redevelopment project area for the purposes permitted by that Act or Law as well as the purposes permitted by this Act.

(r) "State Sales Tax Boundary" means the redevelopment project area or the amended redevelopment project area boundaries which are determined pursuant to subsection (9) of Section 11-74.4-8a of this Act. The Department of Revenue shall certify pursuant to subsection (9) of Section 11-74.4-8a the appropriate boundaries eligible for the determination of State Sales Tax Increment.

(s) "State Sales Tax Increment" means an amount equal to the increase in the aggregate amount of taxes paid by retailers and servicemen, other than retailers and servicemen subject to the Public Utilities Act, on transactions at places of business located within a State Sales Tax Boundary pursuant to the Retailers' Occupation Tax Act, the Use Tax Act, the Service Use Tax Act, and the Service Occupation Tax Act, except such portion of such increase that is paid into the State and Local Sales Tax Reform Fund, the Local Government Distributive Fund, the Local Government Tax Fund and the County and Mass Transit District Fund, for as long as State participation exists, over and above the Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts for such taxes as certified by the Department of Revenue and paid under those Acts by retailers and servicemen on transactions at places of business located within the State Sales Tax Boundary during the base year which shall be the calendar year immediately prior to the year in which the municipality adopted tax increment allocation financing, less 3.0% of such amounts generated under the Retailers' Occupation Tax Act, Use Tax Act and Service Use Tax Act and the Service Occupation Tax Act, which sum shall be appropriated to the Department of Revenue to
cover its costs of administering and enforcing this Section. For purposes of computing the aggregate amount of such taxes for base years occurring prior to 1985, the Department of Revenue shall compute the Initial Sales Tax Amount for such taxes and deduct therefrom an amount equal to 4% of the aggregate amount of taxes per year for each year the base year is prior to 1985, but not to exceed a total deduction of 12%. The amount so determined shall be known as the "Adjusted Initial Sales Tax Amount". For purposes of determining the State Sales Tax Increment the Department of Revenue shall for each period subtract from the tax amounts received from retailers and servicemen on transactions located in the State Sales Tax Boundary, the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or Revised Initial Sales Tax Amounts for the Retailers' Occupation Tax Act, the Use Tax Act, the Service Use Tax Act and the Service Occupation Tax Act. For the State Fiscal Year 1989 this calculation shall be made by utilizing the calendar year 1987 to determine the tax amounts received. For the State Fiscal Year 1990, this calculation shall be made by utilizing the period from January 1, 1988, until September 30, 1988, to determine the tax amounts received from retailers and servicemen, which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For the State Fiscal Year 1991, this calculation shall be made by utilizing the period from October 1, 1988, until June 30, 1989, to determine the tax amounts received from retailers and servicemen, which shall have deducted therefrom nine-twelfths of the certified Initial State Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For every State Fiscal Year thereafter, the applicable period shall be the 12 months beginning July 1 and ending on June 30, to determine the tax amounts received which shall have deducted therefrom the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts. Municipalities intending to receive a distribution of State Sales Tax Increment must report a list of retailers to the Department of Revenue by October 31, 1988 and by July 31, of each year thereafter.

(t) "Taxing districts" means counties, townships, cities and incorporated towns and villages, school, road, park, sanitary, mosquito abatement, forest preserve, public health, fire protection, river conservancy, tuberculosis sanitarium and any other municipal corporations or districts with the power to levy taxes.

(u) "Taxing districts' capital costs" means those costs of taxing districts for capital improvements that are found by the municipal corporate authorities to be necessary and directly result from the redevelopment project.

(v) As used in subsection (a) of Section 11-74.4-3 of this Act, "vacant land" means any parcel or combination of parcels of real property without industrial, commercial, and residential buildings which has not been used for commercial agricultural purposes within 5 years prior to the designation of the redevelopment project area, unless the parcel is included in an industrial park conservation area or the parcel has been subdivided; provided that if the parcel was part of a larger tract that has been divided into 3 or more smaller tracts that were accepted for recording during the period from 1950 to 1990, then the parcel shall be deemed to have been subdivided, and all proceedings and actions of the municipality taken in that connection with respect to any previously approved or designated redevelopment project area or amended redevelopment project area are hereby validated and hereby declared to be legally sufficient for all purposes of this Act. For purposes of this Section and only for land subject to the subdivision requirements of the Plat Act, land is subdivided when the original plat of the proposed Redevelopment Project Area or relevant portion thereof has been properly certified, acknowledged, approved, and recorded or filed in accordance with the Plat Act and a preliminary plat, if any, for any subsequent phases of the proposed Redevelopment Project Area or relevant portion thereof has been properly approved and filed in accordance with the applicable ordinance of the municipality.

Sec. 11-74.4-3. Definitions. The following terms, wherever used or referred to in this Division 74.4 shall have the following respective meanings, unless in any case a different meaning clearly appears from the context.

(a) For any redevelopment project area that has been designated pursuant to this Section by an ordinance adopted prior to November 1, 1999 (the effective date of Public Act 91-478), "blighted area" shall have the meaning set forth in this Section prior to that date.

On and after November 1, 1999, "blighted area" means any improved or vacant area within the boundaries of a redevelopment project area located within the territorial limits of the municipality where:

(1) If improved, industrial, commercial, and residential buildings or improvements are detrimental to the public safety, health, or welfare because of a combination of 5 or more of the following factors, each of which is (i) present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) reasonably distributed throughout the improved part of the redevelopment project area:

   (A) Dilapidation. An advanced state of disrepair or neglect of necessary repairs to the primary structural components of buildings or improvements in such a combination that a documented building condition analysis

determines that major repair is required or the defects are so serious and so extensive that the buildings must be removed.

(B) Obsolescence. The condition or process of falling into disuse. Structures have become ill-suited for the original use.

(C) Deterioration. With respect to buildings, defects including, but not limited to, major defects in the secondary building components such as doors, windows, porches, gutters and downspouts, and fascia. With respect to surface improvements, that the condition of roadways, alleys, curbs, gutters, sidewalks, off-street parking, and surface storage areas evidence deterioration, including, but not limited to, surface cracking, crumbling, potholes, depressions, loose paving material, and weeds protruding through paved surfaces.

(D) Presence of structures below minimum code standards. All structures that do not meet the standards of zoning, subdivision, building, fire, and other governmental codes applicable to property, but not including housing and property maintenance codes.

(E) Illegal use of individual structures. The use of structures in violation of applicable federal, State, or local laws, exclusive of those applicable to the presence of structures below minimum code standards.

(F) Excessive vacancies. The presence of buildings that are unoccupied or under-utilized and that represent an adverse influence on the area because of the frequency, extent, or duration of the vacancies.

(G) Lack of ventilation, light, or sanitary facilities. The absence of adequate ventilation for light or air circulation in spaces or rooms without windows, or that require the removal of dust, odor, gas, smoke, or other noxious airborne materials. Inadequate natural light and

New matter indicated by italics - deletions by strikeout.
ventilation means the absence of skylights or windows for interior spaces or rooms and improper window sizes and amounts by room area to window area ratios. Inadequate sanitary facilities refers to the absence or inadequacy of garbage storage and enclosure, bathroom facilities, hot water and kitchens, and structural inadequacies preventing ingress and egress to and from all rooms and units within a building.

(H) Inadequate utilities. Underground and overhead utilities such as storm sewers and storm drainage, sanitary sewers, water lines, and gas, telephone, and electrical services that are shown to be inadequate. Inadequate utilities are those that are: (i) of insufficient capacity to serve the uses in the redevelopment project area, (ii) deteriorated, antiquated, obsolete, or in disrepair, or (iii) lacking within the redevelopment project area.

(I) Excessive land coverage and overcrowding of structures and community facilities. The over-intensive use of property and the crowding of buildings and accessory facilities onto a site. Examples of problem conditions warranting the designation of an area as one exhibiting excessive land coverage are: (i) the presence of buildings either improperly situated on parcels or located on parcels of inadequate size and shape in relation to present-day standards of development for health and safety and (ii) the presence of multiple buildings on a single parcel. For there to be a finding of excessive land coverage, these parcels must exhibit one or more of the following conditions: insufficient provision for light and air within or around buildings, increased threat of spread of fire due to the close proximity of buildings, lack of adequate or proper access to a public right-of-way, lack of reasonably required off-street parking, or inadequate provision for loading and service.

New matter indicated by italics - deletions by strikeout.
(J) Deleterious land use or layout. The existence of incompatible land-use relationships, buildings occupied by inappropriate mixed-uses, or uses considered to be noxious, offensive, or unsuitable for the surrounding area.

(K) Environmental clean-up. The proposed redevelopment project area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

(L) Lack of community planning. The proposed redevelopment project area was developed prior to or without the benefit or guidance of a community plan. This means that the development occurred prior to the adoption by the municipality of a comprehensive or other community plan or that the plan was not followed at the time of the area's development. This factor must be documented by evidence of adverse or incompatible land-use relationships, inadequate street layout, improper subdivision, parcels of inadequate shape and size to meet contemporary development standards, or other evidence demonstrating an absence of effective community planning.

(M) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which

information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated.

(2) If vacant, the sound growth of the redevelopment project area is impaired by a combination of 2 or more of the following factors, each of which is (i) present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) reasonably distributed throughout the vacant part of the redevelopment project area to which it pertains:

   (A) Obsolete platting of vacant land that results in parcels of limited or narrow size or configurations of parcels of irregular size or shape that would be difficult to develop on a planned basis and in a manner compatible with contemporary standards and requirements, or platting that failed to create rights-of-ways for streets or alleys or that created inadequate right-of-way widths for streets, alleys, or other public rights-of-way or that omitted easements for public utilities.

   (B) Diversity of ownership of parcels of vacant land sufficient in number to retard or impede the ability to assemble the land for development.

   (C) Tax and special assessment delinquencies exist or the property has been the subject of tax sales under the Property Tax Code within the last 5 years.

   (D) Deterioration of structures or site improvements in neighboring areas adjacent to the vacant land.

   (E) The area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as

New matter indicated by italics - deletions by strikeout.
having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

(F) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated.

(3) If vacant, the sound growth of the redevelopment project area is impaired by one of the following factors that (i) is present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) is reasonably distributed throughout the vacant part of the redevelopment project area to which it pertains:

(A) The area consists of one or more unused quarries, mines, or strip mine ponds.

(B) The area consists of unused rail yards, rail tracks, or railroad rights-of-way.

(C) The area, prior to its designation, is subject to (i) chronic flooding that adversely impacts on real property in the area as certified by a registered professional engineer or appropriate regulatory agency or (ii) surface water that

New matter indicated by italics - deletions by strikeout.
discharges from all or a part of the area and contributes to flooding within the same watershed, but only if the redevelopment project provides for facilities or improvements to contribute to the alleviation of all or part of the flooding.

(D) The area consists of an unused or illegal disposal site containing earth, stone, building debris, or similar materials that were removed from construction, demolition, excavation, or dredge sites.

(E) Prior to November 1, 1999, the area is not less than 50 nor more than 100 acres and 75% of which is vacant (notwithstanding that the area has been used for commercial agricultural purposes within 5 years prior to the designation of the redevelopment project area), and the area meets at least one of the factors itemized in paragraph (1) of this subsection, the area has been designated as a town or village center by ordinance or comprehensive plan adopted prior to January 1, 1982, and the area has not been developed for that designated purpose.

(F) The area qualified as a blighted improved area immediately prior to becoming vacant, unless there has been substantial private investment in the immediately surrounding area.

(b) For any redevelopment project area that has been designated pursuant to this Section by an ordinance adopted prior to November 1, 1999 (the effective date of Public Act 91-478), "conservation area" shall have the meaning set forth in this Section prior to that date.

On and after November 1, 1999, "conservation area" means any improved area within the boundaries of a redevelopment project area located within the territorial limits of the municipality in which 50% or more of the structures in the area have an age of 35 years or more. Such an area is not yet a blighted area but because of a combination of 3 or more of the following factors is detrimental to the public safety, health, morals or welfare and such an area may become a blighted area:

natural light and ventilation means the absence or inadequacy of skylights or windows for interior spaces or rooms and improper window sizes and amounts by room area to window area ratios. This means that the development occurred prior to the adoption by the municipality of a comprehensive or other community plan or that the plan was not followed at the time of the area's development. This factor must be documented by evidence of adverse or incompatible land-use relationships, inadequate street layout, improper subdivision, parcels of inadequate shape and size to meet contemporary development standards, or other evidence demonstrating an absence of effective community planning.

(d) "Industrial park conservation area" means an area within the boundaries of a redevelopment project area located within the territorial limits of a municipality that is a labor surplus municipality or within 1 1/2 miles of the territorial limits of a municipality that is a labor surplus municipality if the area is annexed to the municipality; which area is zoned as industrial no later than at the time the municipality by ordinance designates the redevelopment project area, and which area includes both vacant land suitable for use as an industrial park and a blighted area or conservation area contiguous to such vacant land.

(h) "Municipal Sales Tax Increment" means an amount equal to the increase in the aggregate amount of taxes paid to a municipality from the Local Government Tax Fund arising from sales by retailers and servicemen within the redevelopment project area or State Sales Tax Boundary, as the case may be, for as long as the redevelopment project area or State Sales Tax Boundary, as the case may be, exist over and above the aggregate amount of taxes as certified by the Illinois Department of Revenue and paid under the Municipal Retailers' Occupation Tax Act and the Municipal Service Occupation Tax Act by retailers and servicemen, on transactions at places of business located in the redevelopment project area or State Sales Tax Boundary, as the case may be, during the base year which shall be the calendar year immediately prior to the year in which the municipality adopted tax increment allocation financing. For purposes of computing the aggregate amount of such taxes for base years occurring prior to 1985, the Department of Revenue shall determine the Initial Sales Tax Amounts for such taxes and deduct therefrom an amount equal to 4% of the aggregate amount of taxes per year for each year the base year is prior to 1985, but not to exceed a total deduction of 12%. The amount so determined shall be known as the "Adjusted Initial Sales Tax Amounts". For purposes of determining the Municipal Sales Tax Increment, the Department of Revenue shall for each period subtract from the amount paid to the municipality from the Local Government Tax Fund arising from sales by retailers and servicemen on transactions located in the redevelopment project area or the State Sales Tax Boundary, as the case may be, the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts for the Municipal Retailers' Occupation Tax Act and the Municipal Service Occupation Tax Act. period from January 1, 1988, until September 30, 1988, to determine the tax amounts received from retailers and servicemen pursuant to the Municipal Retailers' Occupation Tax and the Municipal Service Occupation Tax Act, which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For the State Fiscal Year 1991, this calculation shall be made by utilizing the period from October 1, 1988, to June 30, 1989, to determine the tax amounts received from retailers and servicemen pursuant to the Municipal Retailers' Occupation Tax and the Municipal Service Occupation Tax Act which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For every State Fiscal Year thereafter, the applicable period shall be the 12 months beginning July 1 and ending June 30 to determine the tax amounts received which shall have deducted therefrom the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts, as the case may be.

If, however, a municipality established a tax increment financing district in a county with a population in excess of 3,000,000 before January 1, 1986, and the municipality entered into a contract or issued bonds after January 1, 1986, but before December 31, 1986, to finance redevelopment project costs within a State Sales Tax Boundary, then the Net State Sales Tax Increment means, for the fiscal years beginning July 1, 1990, and July 1, 1991, 100% of the State Sales Tax Increment annually generated within a State Sales Tax Boundary; and notwithstanding any other provision of this Act, for those fiscal years the Department of Revenue shall distribute to those
municipalities 100% of their Net State Sales Tax Increment before any distribution to any other municipality and regardless of whether or not those other municipalities will receive 100% of their Net State Sales Tax Increment. For Fiscal Year 1999, and every year thereafter until the year 2007, for any municipality that has not entered into a contract or has not issued bonds prior to June 1, 1988 to finance redevelopment project costs within a State Sales Tax Boundary, the Net State Sales Tax Increment shall be calculated as follows: By multiplying the Net State Sales Tax Increment by 90% in the State Fiscal Year 1999; 80% in the State Fiscal Year 2000; 70% in the State Fiscal Year 2001; 60% in the State Fiscal Year 2002; 50% in the State Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006; and 10% in the State Fiscal Year 2007. If, however, a municipality that issued bonds in connection with a redevelopment project in a redevelopment project area within the State Sales Tax Boundary prior to July 29, 1991 retires the bonds prior to June 30, 2007 or a municipality that entered into contracts in connection with a redevelopment project in a redevelopment project area before June 1, 1988 completes the contracts prior to June 30, 2007, then so long as the redevelopment project is not completed or is not terminated, the Net State Sales Tax Increment shall be calculated, beginning on the date on which the bonds are retired or the contracts are completed, as follows: By multiplying the Net State Sales Tax Increment by 60% in the State Fiscal Year 2002; 50% in the State Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006; and 10% in the State Fiscal Year 2007. No payment shall be made for State Fiscal Year 2008

(j) "State Utility Tax Increment Amount" means an amount equal to the aggregate increase in State electric and gas tax charges imposed on owners and tenants, other than residential customers, of properties located within the redevelopment project area under Section 9-222 of the Public Utilities Act, over and above the aggregate of such charges as certified by the Department of Revenue and paid by owners and tenants, other than residential customers, of properties within the redevelopment project area during the base year, which shall be the calendar year immediately prior to the year of the adoption of the ordinance authorizing tax increment allocation financing.

(k) "Net State Utility Tax Increment" means the sum of the following: (a) 80% of the first $100,000 of State Utility Tax Increment annually generated by a redevelopment project area; (b) 60% of the amount in excess of $100,000 but not exceeding $500,000 of the State Utility Tax Increment annually generated by a redevelopment project area; and (c) 40% of all amounts in excess of $500,000 of State Utility Tax Increment annually generated by a redevelopment project area. For the State Fiscal Year 1999, and every year thereafter until the year 2007, for any municipality that has not entered into a contract or has not issued bonds prior to June 1, 1988 to finance redevelopment project costs within a redevelopment project area, the Net State Utility Tax Increment shall be calculated as follows: By multiplying the Net State Utility Tax Increment by 90% in the State Fiscal Year 1999; 80% in the State Fiscal Year 2000; 70% in the State Fiscal Year 2001; 60% in the State Fiscal Year 2002; 50% in the State Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006; and 10% in the State Fiscal Year 2007. No payment shall be made for the State Fiscal Year 2008 and thereafter.

For the 16th through the 20th State Fiscal Years after issuance of the bonds, the Net State Utility Tax Increment shall be calculated as follows: By multiplying the Net State Utility Tax Increment by 90% in year 16; 80% in year 17; 70% in year 18; 60% in year 19; and 50% in year 20. Refunding of any bonds issued prior to June 1, 1988, shall not alter the revised Net State Utility Tax Increment payments set forth above.

(m) "Payment in lieu of taxes" means those estimated tax revenues from real property in a redevelopment project area derived from real property that has been acquired by a municipality which according to the redevelopment project or plan is to be used for a private use which taxing districts would have received had a municipality not acquired the real property and adopted tax increment allocation financing and which would result from levies made after the time of the adoption of tax increment allocation financing to the time the current equalized value of real property in the redevelopment project area exceeds the total initial equalized value of real property in said area.

(n) "Redevelopment plan" means the comprehensive program of the municipality for development or redevelopment intended by the payment of redevelopment project costs to reduce or eliminate those conditions the existence of which qualified the redevelopment project area as a "blighted area" or "conservation area" or combination thereof or "industrial park conservation area," and thereby to enhance the tax bases of the taxing districts which extend into the redevelopment project area. On and after November 1, 1999 (the effective date of Public Act 91-478), no redevelopment plan may be approved or amended that includes the development of vacant land (i) with a golf course and related clubhouse and other facilities or (ii) designated by federal, State, county, or municipal government as public land for outdoor recreational activities or for nature preserves and used for that purpose within 5 years prior to the adoption of the redevelopment plan. For the purpose of this subsection, "recreational

(B) evidence indicating that the redevelopment project area on the whole has not been subject to growth and development through investment by private enterprise;

(C) an assessment of any financial impact of the redevelopment project area on or any increased demand for services from any taxing district affected by the plan and any program to address such financial impact or increased demand;

(D) the sources of funds to pay costs;

(E) the nature and term of the obligations to be issued;

(F) the most recent equalized assessed valuation of the redevelopment project area;

(G) an estimate as to the equalized assessed valuation after redevelopment and the general land uses to apply in the redevelopment project area;

(H) a commitment to fair employment practices and an affirmative action plan;

(I) if it concerns an industrial park conservation area, the plan shall also include a general description of any proposed developer, user and tenant of any property, a description of the type, structure and general character of the facilities to be developed, a description of the type, class and number of new employees to be employed in the operation of the facilities to be developed; and

(J) if property is to be annexed to the municipality, the plan shall include the terms of the annexation agreement.

The provisions of items (B) and (C) of this subsection (n) shall not apply to a municipality that before March 14, 1994 (the effective date of Public Act 88-537) had fixed, either by its corporate authorities or by a commission designated under subsection (k) of Section 11-74.4-4, a time...
and place for a public hearing as required by subsection (a) of Section 11-74.4-5. No redevelopment plan shall be adopted unless a municipality complies with all of the following requirements:

(1) The municipality finds that the redevelopment project area on the whole has not been subject to growth and development through investment by private enterprise and would not reasonably be anticipated to be developed without the adoption of the redevelopment plan.

(2) The municipality finds that the redevelopment plan and project conform to the comprehensive plan for the development of the municipality as a whole, or, for municipalities with a population of 100,000 or more, regardless of when the redevelopment plan and project was adopted, the redevelopment plan and project either: (i) conforms to the strategic economic development or redevelopment plan issued by the designated planning authority of the municipality, or (ii) includes land uses that have been approved by the planning commission of the municipality.

(3) The redevelopment plan establishes the estimated dates of completion of the redevelopment project and retirement of obligations issued to finance redevelopment project costs. Those dates: shall not be later than December 31 of the year in which the payment to the municipal treasurer as provided in subsection (b) of Section 11-74.4-8 of this Act is to be made with respect to ad valorem taxes levied in the twenty-third calendar year after the year in which the ordinance approving the redevelopment project area is adopted if the ordinance was adopted on or after January 15, 1981; shall not be later than December 31 of the year in which the payment to the municipal treasurer as provided in subsection (b) of Section 11-74.4-8 of this Act is to be made with respect to ad valorem taxes levied in the thirty-third calendar year after the year in which the ordinance approving the redevelopment project area if the ordinance was adopted on May 20, 1985 by the Village of Wheeling; and shall not be later than December 31 of the year in

However, for redevelopment project areas for which bonds were issued before July 29, 1991, or for which contracts were entered into before June 1, 1988, in connection with a redevelopment project in the area within the State Sales Tax Boundary, the estimated dates of completion of the redevelopment project and retirement of obligations to finance redevelopment project costs may be extended by municipal ordinance to December 31, 2013. The termination procedures of subsection (b) of Section 11-74.4-8 are not required for these redevelopment project areas in 2009 but are required in 2013. The extension allowed by this amendatory Act of 1993 shall not apply to real property tax increment allocation financing under Section 11-74.4-8.

A municipality may by municipal ordinance amend an existing redevelopment plan to conform to this paragraph (3) as amended by Public Act 91-478, which municipal ordinance may be adopted without further hearing or notice and without complying with the procedures provided in this Act pertaining to an amendment to or the initial approval of a redevelopment plan and project and designation of a redevelopment project area.

Those dates, for purposes of real property tax increment allocation financing pursuant to Section 11-74.4-8 only, shall be

not more than 35 years for redevelopment project areas that were adopted on or after December 16, 1986 and for which at least $8 million worth of municipal bonds were authorized on or after December 19, 1989 but before January 1, 1990; provided that the municipality elects to extend the life of the redevelopment project area to 35 years by the adoption of an ordinance after at least 14 but not more than 30 days' written notice to the taxing bodies, that would otherwise constitute the joint review board for the redevelopment project area, before the adoption of the ordinance.

Those dates, for purposes of real property tax increment allocation financing pursuant to Section 11-74.4-8 only, shall be not more than 35 years for redevelopment project areas that were established on or after December 1, 1981 but before January 1, 1982 and for which at least $1,500,000 worth of tax increment revenue bonds were authorized on or after September 30, 1990 but before July 1, 1991; provided that the municipality elects to extend the life of the redevelopment project area to 35 years by the adoption of an ordinance after at least 14 but not more than 30 days' written notice to the taxing bodies, that would otherwise constitute the joint review board for the redevelopment project area, before the adoption of the ordinance.

(3.5) The municipality finds, in the case of an industrial park conservation area, also that the municipality is a labor surplus municipality and that the implementation of the redevelopment plan will reduce unemployment, create new jobs and by the provision of new facilities enhance the tax base of the taxing districts that extend into the redevelopment project area.

(4) If any incremental revenues are being utilized under Section 8(a)(1) or 8(a)(2) of this Act in redevelopment project areas approved by ordinance after January 1, 1986, the municipality finds: (a) that the redevelopment project area would not reasonably be developed without the use of such incremental revenues, and (b) that such incremental revenues will be
exclusively utilized for the development of the redevelopment project area.

(5) If the redevelopment plan will not result in displacement of residents from 10 or more inhabited residential units, and the municipality certifies in the plan that such displacement will not result from the plan, a housing impact study need not be performed. If, however, the redevelopment plan would result in the displacement of residents from 10 or more inhabited residential units, or if the redevelopment project area contains 75 or more inhabited residential units and no certification is made, then the municipality shall prepare, as part of the separate feasibility report required by subsection (a) of Section 11-74.4-5, a housing impact study.

Part I of the housing impact study shall include (i) data as to whether the residential units are single family or multi-family units, (ii) the number and type of rooms within the units, if that information is available, (iii) whether the units are inhabited or uninhabited, as determined not less than 45 days before the date that the ordinance or resolution required by subsection (a) of Section 11-74.4-5 is passed, and (iv) data as to the racial and ethnic composition of the residents in the inhabited residential units. The data requirement as to the racial and ethnic composition of the residents in the inhabited residential units shall be deemed to be fully satisfied by data from the most recent federal census.

Part II of the housing impact study shall identify the inhabited residential units in the proposed redevelopment project area that are to be or may be removed. If inhabited residential units are to be removed, then the housing impact study shall identify (i) the number and location of those units that will or may be removed, (ii) the municipality's plans for relocation assistance for those residents in the proposed redevelopment project area whose residences are to be removed, (iii) the availability of replacement housing for those residents whose residences are to be removed,
and shall identify the type, location, and cost of the housing, and
(iv) the type and extent of relocation assistance to be provided.

(6) On and after November 1, 1999, the housing impact
study required by paragraph (5) shall be incorporated in the
redevelopment plan for the redevelopment project area.

(7) On and after November 1, 1999, no redevelopment plan
shall be adopted, nor an existing plan amended, nor shall
residential housing that is occupied by households of low-income
and very low-income persons in currently existing redevelopment
project areas be removed after November 1, 1999 unless the
redevelopment plan provides, with respect to inhabited housing
units that are to be removed for households of low-income and
very low-income persons, affordable housing and relocation
assistance not less than that which would be provided under the
federal Uniform Relocation Assistance and Real Property
Acquisition Policies Act of 1970 and the regulations under that
Act, including the eligibility criteria. Affordable housing may be
either existing or newly constructed housing. For purposes of this
paragraph (7), "low-income households", "very low-income
households", and "affordable housing" have the meanings set forth
in the Illinois Affordable Housing Act. The municipality shall
make a good faith effort to ensure that this affordable housing is
located in or near the redevelopment project area within the
municipality.

(8) On and after November 1, 1999, if, after the adoption of
the redevelopment plan for the redevelopment project area, any
municipality desires to amend its redevelopment plan to remove
more inhabited residential units than specified in its original
redevelopment plan, that change shall be made in accordance with
the procedures in subsection (c) of Section 11-74.4-5.

(9) For redevelopment project areas designated prior to
November 1, 1999, the redevelopment plan may be amended
without further joint review board meeting or hearing, provided
that the municipality shall give notice of any such changes by mail

to each affected taxing district and registrant on the interested party registry, to authorize the municipality to expend tax increment revenues for redevelopment project costs defined by paragraphs (5) and (7.5), subparagraphs (E) and (F) of paragraph (11), and paragraph (11.5) of subsection (q) of Section 11-74.4-3, so long as the changes do not increase the total estimated redevelopment project costs set out in the redevelopment plan by more than 5% after adjustment for inflation from the date the plan was adopted.

(o) "Redevelopment project" means any public and private development project in furtherance of the objectives of a redevelopment plan. On and after November 1, 1999 (the effective date of Public Act 91-478), no redevelopment plan may be approved or amended that includes the development of vacant land (i) with a golf course and related clubhouse and other facilities or (ii) designated by federal, State, county, or municipal government as public land for outdoor recreational activities or for nature preserves and used for that purpose within 5 years prior to the adoption of the redevelopment plan. For the purpose of this subsection, "recreational activities" is limited to mean camping and hunting.

(p) "Redevelopment project area" means an area designated by the municipality, which is not less in the aggregate than 1 1/2 acres and in respect to which the municipality has made a finding that there exist conditions which cause the area to be classified as an industrial park conservation area or a blighted area or a conservation area, or a combination of both blighted areas and conservation areas.

(q) "Redevelopment project costs" mean and include the sum total of all reasonable or necessary costs incurred or estimated to be incurred, and any such costs incidental to a redevelopment plan and a redevelopment project. Such costs include, without limitation, the following:

(1) Costs of studies, surveys, development of plans, and specifications, implementation and administration of the redevelopment plan including but not limited to staff and professional service costs for architectural, engineering, legal, financial, planning or other services, provided however that no

charges for professional services may be based on a percentage of the tax increment collected; except that on and after November 1, 1999 (the effective date of Public Act 91-478), no contracts for professional services, excluding architectural and engineering services, may be entered into if the terms of the contract extend beyond a period of 3 years. In addition, "redevelopment project costs" shall not include lobbying expenses. After consultation with the municipality, each tax increment consultant or advisor to a municipality that plans to designate or has designated a redevelopment project area shall inform the municipality in writing of any contracts that the consultant or advisor has entered into with entities or individuals that have received, or are receiving, payments financed by tax increment revenues produced by the redevelopment project area with respect to which the consultant or advisor has performed, or will be performing, service for the municipality. This requirement shall be satisfied by the consultant or advisor before the commencement of services for the municipality and thereafter whenever any other contracts with those individuals or entities are executed by the consultant or advisor;

(1.5) After July 1, 1999, annual administrative costs shall not include general overhead or administrative costs of the municipality that would still have been incurred by the municipality if the municipality had not designated a redevelopment project area or approved a redevelopment plan;

(3) Costs of rehabilitation, reconstruction or repair or remodeling of existing public or private buildings, fixtures, and leasehold improvements; and the cost of replacing an existing public building if pursuant to the implementation of a redevelopment project the existing public building is to be demolished to use the site for private investment or devoted to a different use requiring private investment;

(4) Costs of the construction of public works or improvements, except that on and after November 1, 1999, redevelopment project costs shall not include the cost of constructing a new municipal public building principally used to provide offices, storage space, or conference facilities or vehicle storage, maintenance, or repair for administrative, public safety, or public works personnel and that is not intended to replace an existing public building as provided under paragraph (3) of subsection (q) of Section 11-74.4-3 unless either (i) the construction of the new municipal building implements a redevelopment project that was included in a redevelopment plan that was adopted by the municipality prior to November 1, 1999 or (ii) the municipality makes a reasonable determination in the redevelopment plan, supported by information that provides the basis for that determination, that the new municipal building is required to meet an increase in the need for public safety purposes anticipated to result from the implementation of the redevelopment plan;

(5) Costs of job training and retraining projects, including the cost of "welfare to work" programs implemented by businesses located within the redevelopment project area;

(6) Financing costs, including but not limited to all necessary and incidental expenses related to the issuance of obligations and which may include payment of interest on any obligations issued hereunder including interest accruing during the estimated period of construction of any redevelopment project for

(7) To the extent the municipality by written agreement accepts and approves the same, all or a portion of a taxing district's capital costs resulting from the redevelopment project necessarily incurred or to be incurred within a taxing district in furtherance of the objectives of the redevelopment plan and project.

(7.5) For redevelopment project areas designated (or redevelopment project areas amended to add or increase the number of tax-increment-financing assisted housing units) on or after November 1, 1999, an elementary, secondary, or unit school district's increased costs attributable to assisted housing units located within the redevelopment project area for which the developer or redeveloper receives financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the assisted housing sites necessary for the completion of that housing as authorized by this Act, and which costs shall be paid by the municipality from the Special Tax Allocation Fund when the tax increment revenue is received as a result of the assisted housing units and shall be calculated annually as follows:

(A) for foundation districts, excluding any school district in a municipality with a population in excess of 1,000,000, by multiplying the district's increase in attendance resulting from the net increase in new students enrolled in that school district who reside in housing units within the redevelopment project area that have received financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by the

most recently available per capita tuition cost as defined in Section 10-20.12a of the School Code less any increase in general State aid as defined in Section 18-8.05 of the School Code attributable to these added new students subject to the following annual limitations:

(i) for unit school districts with a district average 1995-96 Per Capita Tuition Charge of less than $5,900, no more than 25% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act;

(ii) for elementary school districts with a district average 1995-96 Per Capita Tuition Charge of less than $5,900, no more than 17% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act; and

(iii) for secondary school districts with a district average 1995-96 Per Capita Tuition Charge of less than $5,900, no more than 8% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act.

(B) For alternate method districts, flat grant districts, and foundation districts with a district average 1995-96 Per Capita Tuition Charge equal to or more than $5,900, excluding any school district with a population in excess of 1,000,000, by multiplying the district's increase in attendance resulting from the net increase in new students enrolled in that school district who reside in housing units within the redevelopment project area that have received financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the

boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by the most recently available per capita tuition cost as defined in Section 10-20.12a of the School Code less any increase in general state aid as defined in Section 18-8.05 of the School Code attributable to these added new students subject to the following annual limitations:

(i) for unit school districts, no more than 40% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act;

(ii) for elementary school districts, no more than 27% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act; and

(iii) for secondary school districts, no more than 13% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act.

(C) For any school district in a municipality with a population in excess of 1,000,000, the following restrictions shall apply to the reimbursement of increased costs under this paragraph (7.5):

(i) no increased costs shall be reimbursed unless the school district certifies that each of the schools affected by the assisted housing project is at or over its student capacity;

(ii) the amount reimbursable shall be reduced by the value of any land donated to the school district by the municipality or developer, and

by the value of any physical improvements made to the schools by the municipality or developer; and
(iii) the amount reimbursed may not affect amounts otherwise obligated by the terms of any bonds, notes, or other funding instruments, or the terms of any redevelopment agreement.

Any school district seeking payment under this paragraph (7.5) shall, after July 1 and before September 30 of each year, provide the municipality with reasonable evidence to support its claim for reimbursement before the municipality shall be required to approve or make the payment to the school district. If the school district fails to provide the information during this period in any year, it shall forfeit any claim to reimbursement for that year. School districts may adopt a resolution waiving the right to all or a portion of the reimbursement otherwise required by this paragraph (7.5). By acceptance of this reimbursement the school district waives the right to directly or indirectly set aside, modify, or contest in any manner the establishment of the redevelopment project area or projects;

(7.7) For redevelopment project areas designated (or redevelopment project areas amended to add or increase the number of tax-increment-financing assisted housing units) on or after January 1, 2005 (the effective date of Public Act 93-961), a public library district's increased costs attributable to assisted housing units located within the redevelopment project area for which the developer or redeveloper receives financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the assisted housing sites necessary for the completion of that housing as authorized by this Act shall be paid to the library district by the municipality from the Special Tax Allocation Fund when the tax increment revenue is received as a result of the assisted housing units. This paragraph

(7.7) applies only if (i) the library district is located in a county that is subject to the Property Tax Extension Limitation Law or (ii) the library district is not located in a county that is subject to the Property Tax Extension Limitation Law but the district is prohibited by any other law from increasing its tax levy rate without a prior voter referendum.

The amount paid to a library district under this paragraph (7.7) shall be calculated by multiplying (i) the net increase in the number of persons eligible to obtain a library card in that district who reside in housing units within the redevelopment project area that have received financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by (ii) the per-patron cost of providing library services so long as it does not exceed $120. The per-patron cost shall be the Total Operating Expenditures Per Capita as stated in the most recent Illinois Public Library Statistics produced by the Library Research Center at the University of Illinois. The municipality may deduct from the amount that it must pay to a library district under this paragraph any amount that it has voluntarily paid to the library district from the tax increment revenue. The amount paid to a library district under this paragraph (7.7) shall be no more than 2% of the amount produced by the assisted housing units and deposited into the Special Tax Allocation Fund.

A library district is not eligible for any payment under this paragraph (7.7) unless the library district has experienced an increase in the number of patrons from the municipality that created the tax-increment-financing district since the designation of the redevelopment project area.

Any library district seeking payment under this paragraph (7.7) shall, after July 1 and before September 30 of each year, provide the municipality with convincing evidence to support its

claim for reimbursement before the municipality shall be required to approve or make the payment to the library district. If the library district fails to provide the information during this period in any year, it shall forfeit any claim to reimbursement for that year. Library districts may adopt a resolution waiving the right to all or a portion of the reimbursement otherwise required by this paragraph (7.7). By acceptance of such reimbursement, the library district shall forfeit any right to directly or indirectly set aside, modify, or contest in any manner whatsoever the establishment of the redevelopment project area or projects;

(8) Relocation costs to the extent that a municipality determines that relocation costs shall be paid or is required to make payment of relocation costs by federal or State law or in order to satisfy subparagraph (7) of subsection (n);

(9) Payment in lieu of taxes;

(10) Costs of job training, retraining, advanced vocational education or career education, including but not limited to courses in occupational, semi-technical or technical fields leading directly to employment, incurred by one or more taxing districts, provided that such costs (i) are related to the establishment and maintenance of additional job training, advanced vocational education or career education programs for persons employed or to be employed by employers located in a redevelopment project area; and (ii) when incurred by a taxing district or taxing districts other than the municipality, are set forth in a written agreement by or among the municipality and the taxing district or taxing districts, which agreement describes the program to be undertaken, including but not limited to the number of employees to be trained, a description of the training and services to be provided, the number and type of positions available or to be available, itemized costs of the program and sources of funds to pay for the same, and the term of the agreement. Such costs include, specifically, the payment by community college districts of costs pursuant to Sections 3-37, 3-38, 3-40 and 3-40.1 of the Public Community College Act and by

school districts of costs pursuant to Sections 10-22.20a and 10-23.3a of The School Code;

(11) Interest cost incurred by a redeveloper related to the construction, renovation or rehabilitation of a redevelopment project provided that:

(A) such costs are to be paid directly from the special tax allocation fund established pursuant to this Act;

(B) such payments in any one year may not exceed 30% of the annual interest costs incurred by the redeveloper with regard to the redevelopment project during that year;

(C) if there are not sufficient funds available in the special tax allocation fund to make the payment pursuant to this paragraph (11) then the amounts so due shall accrue and be payable when sufficient funds are available in the special tax allocation fund;

(D) the total of such interest payments paid pursuant to this Act may not exceed 30% of the total (i) cost paid or incurred by the redeveloper for the redevelopment project plus (ii) redevelopment project costs excluding any property assembly costs and any relocation costs incurred by a municipality pursuant to this Act; and

(E) the cost limits set forth in subparagraphs (B) and (D) of paragraph (11) shall be modified for the financing of rehabilitated or new housing units for low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act. The percentage of 75% shall be substituted for 30% in subparagraphs (B) and (D) of paragraph (11).

(F) Instead of the eligible costs provided by subparagraphs (B) and (D) of paragraph (11), as modified by this subparagraph, and notwithstanding any other provisions of this Act to the contrary, the municipality may pay from tax increment revenues up to 50% of the cost of construction of new housing units to be occupied by low-
income households and very low-income households as defined in Section 3 of the Illinois Affordable Housing Act. The cost of construction of those units may be derived from the proceeds of bonds issued by the municipality under this Act or other constitutional or statutory authority or from other sources of municipal revenue that may be reimbursed from tax increment revenues or the proceeds of bonds issued to finance the construction of that housing.

The eligible costs provided under this subparagraph (F) of paragraph (11) shall be an eligible cost for the construction, renovation, and rehabilitation of all low and very low-income housing units, as defined in Section 3 of the Illinois Affordable Housing Act, within the redevelopment project area. If the low and very low-income units are part of a residential redevelopment project that includes units not affordable to low and very low-income households, only the low and very low-income units shall be eligible for benefits under subparagraph (F) of paragraph (11). The standards for maintaining the occupancy by low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act, of those units constructed with eligible costs made available under the provisions of this subparagraph (F) of paragraph (11) shall be established by guidelines adopted by the municipality. The responsibility for annually documenting the initial occupancy of the units by low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act, shall be that of the then current owner of the property. For ownership units, the guidelines will provide, at a minimum, for a reasonable recapture of funds, or other appropriate methods designed to preserve the original affordability of the ownership units. For rental units, the guidelines will provide, at a minimum, for the affordability of rent to low

and very low-income households. As units become available, they shall be rented to income-eligible tenants. The municipality may modify these guidelines from time to time; the guidelines, however, shall be in effect for as long as tax increment revenue is being used to pay for costs associated with the units or for the retirement of bonds issued to finance the units or for the life of the redevelopment project area, whichever is later.

(11.5) If the redevelopment project area is located within a municipality with a population of more than 100,000, the cost of day care services for children of employees from low-income families working for businesses located within the redevelopment project area and all or a portion of the cost of operation of day care centers established by redevelopment project area businesses to serve employees from low-income families working in businesses located in the redevelopment project area. For the purposes of this paragraph, "low-income families" means families whose annual income does not exceed 80% of the municipal, county, or regional median income, adjusted for family size, as the annual income and municipal, county, or regional median income are determined from time to time by the United States Department of Housing and Urban Development.

(12) Unless explicitly stated herein the cost of construction of new privately-owned buildings shall not be an eligible redevelopment project cost.

(13) After November 1, 1999 (the effective date of Public Act 91-478), none of the redevelopment project costs enumerated in this subsection shall be eligible redevelopment project costs if those costs would provide direct financial support to a retail entity initiating operations in the redevelopment project area while terminating operations at another Illinois location within 10 miles of the redevelopment project area but outside the boundaries of the redevelopment project area municipality. For purposes of this paragraph, termination means a closing of a retail operation that is

directly related to the opening of the same operation or like retail entity owned or operated by more than 50% of the original ownership in a redevelopment project area, but it does not mean closing an operation for reasons beyond the control of the retail entity, as documented by the retail entity, subject to a reasonable finding by the municipality that the current location contained inadequate space, had become economically obsolete, or was no longer a viable location for the retailer or serviceman.

If a special service area has been established pursuant to the Special Service Area Tax Act or Special Service Area Tax Law, then any tax increment revenues derived from the tax imposed pursuant to the Special Service Area Tax Act or Special Service Area Tax Law may be used within the redevelopment project area for the purposes permitted by that Act or Law as well as the purposes permitted by this Act.

(r) "State Sales Tax Boundary" means the redevelopment project area or the amended redevelopment project area boundaries which are determined pursuant to subsection (9) of Section 11-74.4-8a of this Act. The Department of Revenue shall certify pursuant to subsection (9) of Section 11-74.4-8a the appropriate boundaries eligible for the determination of State Sales Tax Increment.

(s) "State Sales Tax Increment" means an amount equal to the increase in the aggregate amount of taxes paid by retailers and servicemen, other than retailers and servicemen subject to the Public Utilities Act, on transactions at places of business located within a State Sales Tax Boundary pursuant to the Retailers' Occupation Tax Act, the Use Tax Act, the Service Use Tax Act, and the Service Occupation Tax Act, except such portion of such increase that is paid into the State and Local Sales Tax Reform Fund, the Local Government Distributive Fund, the Local Government Tax Fund and the County and Mass Transit District Fund, for as long as State participation exists, over and above the Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts for such taxes as certified by the Department of Revenue and paid under those Acts by retailers and servicemen on transactions at places of business located within the State Sales Tax Boundary during the
base year which shall be the calendar year immediately prior to the year in which the municipality adopted tax increment allocation financing, less 3.0% of such amounts generated under the Retailers' Occupation Tax Act, Use Tax Act and Service Use Tax Act and the Service Occupation Tax Act, which sum shall be appropriated to the Department of Revenue to cover its costs of administering and enforcing this Section. For purposes of computing the aggregate amount of such taxes for base years occurring prior to 1985, the Department of Revenue shall compute the Initial Sales Tax Amount for such taxes and deduct therefrom an amount equal to 4% of the aggregate amount of taxes per year for each year the base year is prior to 1985, but not to exceed a total deduction of 12%. The amount so determined shall be known as the "Adjusted Initial Sales Tax Amount". For purposes of determining the State Sales Tax Increment the Department of Revenue shall for each period subtract from the tax amounts received from retailers and servicemen on transactions located in the State Sales Tax Boundary, the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or Revised Initial Sales Tax Amounts for the Retailers' Occupation Tax Act, the Use Tax Act, the Service Use Tax Act and the Service Occupation Tax Act. For the State Fiscal Year 1989 this calculation shall be made by utilizing the calendar year 1987 to determine the tax amounts received. For the State Fiscal Year 1990, this calculation shall be made by utilizing the period from January 1, 1988, until September 30, 1988, to determine the tax amounts received from retailers and servicemen, which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For the State Fiscal Year 1991, this calculation shall be made by utilizing the period from October 1, 1988, until June 30, 1989, to determine the tax amounts received from retailers and servicemen, which shall have deducted therefrom nine-twelfths of the certified Initial State Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For every State Fiscal Year thereafter, the applicable period shall be the 12 months beginning July 1 and ending on June 30, to determine the tax amounts received which shall have deducted

therefrom the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts. Municipalities intending to receive a distribution of State Sales Tax Increment must report a list of retailers to the Department of Revenue by October 31, 1988 and by July 31, of each year thereafter.

   (t) "Taxing districts" means counties, townships, cities and incorporated towns and villages, school, road, park, sanitary, mosquito abatement, forest preserve, public health, fire protection, river conservancy, tuberculosis sanitarium and any other municipal corporations or districts with the power to levy taxes.

   (u) "Taxing districts' capital costs" means those costs of taxing districts for capital improvements that are found by the municipal corporate authorities to be necessary and directly result from the redevelopment project.

   (v) As used in subsection (a) of Section 11-74.4-3 of this Act, "vacant land" means any parcel or combination of parcels of real property without industrial, commercial, and residential buildings which has not been used for commercial agricultural purposes within 5 years prior to the designation of the redevelopment project area, unless the parcel is included in an industrial park conservation area or the parcel has been subdivided; provided that if the parcel was part of a larger tract that has been divided into 3 or more smaller tracts that were accepted for recording during the period from 1950 to 1990, then the parcel shall be deemed to have been subdivided, and all proceedings and actions of the municipality taken in that connection with respect to any previously approved or designated redevelopment project area or amended redevelopment project area are hereby validated and hereby declared to be legally sufficient for all purposes of this Act. For purposes of this Section and only for land subject to the subdivision requirements of the Plat Act, land is subdivided when the original plat of the proposed Redevelopment Project Area or relevant portion thereof has been properly certified, acknowledged, approved, and recorded or filed in accordance with the Plat Act and a preliminary plat, if any, for any subsequent phases of the proposed Redevelopment Project Area or relevant portion thereof has been properly.
approved and filed in accordance with the applicable ordinance of the municipality.

(w) "Annual Total Increment" means the sum of each municipality's annual Net Sales Tax Increment and each municipality's annual Net Utility Tax Increment. The ratio of the Annual Total Increment of each municipality to the Annual Total Increment for all municipalities, as most recently calculated by the Department, shall determine the proportional shares of the Illinois Tax Increment Fund to be distributed to each municipality.

(Text of Section before amendment by P.A. 94-702 and 94-711) 
Sec. 11-74.4-7. Obligations secured by the special tax allocation fund set forth in Section 11-74.4-8 for the redevelopment project area may be issued to provide for redevelopment project costs. Such obligations, when so issued, shall be retired in the manner provided in the ordinance authorizing the issuance of such obligations by the receipts of taxes levied as specified in Section 11-74.4-9 against the taxable property included in the area, by revenues as specified by Section 11-74.4-8a and other revenue designated by the municipality. A municipality may in the ordinance pledge all or any part of the funds in and to be deposited in the special tax allocation fund created pursuant to Section 11-74.4-8 to the payment of the redevelopment project costs and obligations. Any pledge of funds in the special tax allocation fund shall provide for distribution to the taxing districts and to the Illinois Department of Revenue of moneys not required, pledged, earmarked, or otherwise designated for payment and securing of the obligations and anticipated redevelopment project costs and such excess funds shall be calculated annually and deemed to be "surplus"

funds. In the event a municipality only applies or pledges a portion of the funds in the special tax allocation fund for the payment or securing of anticipated redevelopment project costs or of obligations, any such funds remaining in the special tax allocation fund after complying with the requirements of the application or pledge, shall also be calculated annually and deemed "surplus" funds. All surplus funds in the special tax allocation fund shall be distributed annually within 180 days after the close of the municipality's fiscal year by being paid by the municipal treasurer to the County Collector, to the Department of Revenue and to the municipality in direct proportion to the tax incremental revenue received as a result of an increase in the equalized assessed value of property in the redevelopment project area, tax incremental revenue received from the State and tax incremental revenue received from the municipality, but not to exceed as to each such source the total incremental revenue received from that source. The County Collector shall thereafter make distribution to the respective taxing districts in the same manner and proportion as the most recent distribution by the county collector to the affected districts of real property taxes from real property in the redevelopment project area.

Without limiting the foregoing in this Section, the municipality may in addition to obligations secured by the special tax allocation fund pledge for a period not greater than the term of the obligations towards payment of such obligations any part or any combination of the following: (a) net revenues of all or part of any redevelopment project; (b) taxes levied and collected on any or all property in the municipality; (c) the full faith and credit of the municipality; (d) a mortgage on part or all of the redevelopment project; or (e) any other taxes or anticipated receipts that the municipality may lawfully pledge.

Such obligations may be issued in one or more series bearing interest at such rate or rates as the corporate authorities of the municipality shall determine by ordinance. Such obligations shall bear such date or dates, mature at such time or times not exceeding 20 years from their respective dates, be in such denomination, carry such registration privileges, be executed in such manner, be payable in such medium of payment at such place or places, contain such covenants, terms and

conditions, and be subject to redemption as such ordinance shall provide. Obligations issued pursuant to this Act may be sold at public or private sale at such price as shall be determined by the corporate authorities of the municipalities. No referendum approval of the electors shall be required as a condition to the issuance of obligations pursuant to this Division except as provided in this Section.

In the event the municipality authorizes issuance of obligations pursuant to the authority of this Division secured by the full faith and credit of the municipality, which obligations are other than obligations which may be issued under home rule powers provided by Article VII, Section 6 of the Illinois Constitution, or pledges taxes pursuant to (b) or (c) of the second paragraph of this section, the ordinance authorizing the issuance of such obligations or pledging such taxes shall be published within 10 days after such ordinance has been passed in one or more newspapers, with general circulation within such municipality. The publication of the ordinance shall be accompanied by a notice of (1) the specific number of voters required to sign a petition requesting the question of the issuance of such obligations or pledging taxes to be submitted to the electors; (2) the time in which such petition must be filed; and (3) the date of the prospective referendum. The municipal clerk shall provide a petition form to any individual requesting one.

If no petition is filed with the municipal clerk, as hereinafter provided in this Section, within 30 days after the publication of the ordinance, the ordinance shall be in effect. But, if within that 30 day period a petition is filed with the municipal clerk, signed by electors in the municipality numbering 10% or more of the number of registered voters in the municipality, asking that the question of issuing obligations using full faith and credit of the municipality as security for the cost of paying for redevelopment project costs, or of pledging taxes for the payment of such obligations, or both, be submitted to the electors of the municipality, the corporate authorities of the municipality shall call a special election in the manner provided by law to vote upon that question, or, if a general, State or municipal election is to be held within a period of not less than 30 or more than 90 days from the date such petition is filed, shall submit the

question at the next general, State or municipal election. If it appears upon
the canvass of the election by the corporate authorities that a majority of
electors voting upon the question voted in favor thereof, the ordinance
shall be in effect, but if a majority of the electors voting upon the question
are not in favor thereof, the ordinance shall not take effect.

The ordinance authorizing the obligations may provide that the
obligations shall contain a recital that they are issued pursuant to this
Division, which recital shall be conclusive evidence of their validity and of
the regularity of their issuance.

In the event the municipality authorizes issuance of obligations
pursuant to this Section secured by the full faith and credit of the
municipality, the ordinance authorizing the obligations may provide for
the levy and collection of a direct annual tax upon all taxable property
within the municipality sufficient to pay the principal thereof and interest
thereon as it matures, which levy may be in addition to and exclusive of
the maximum of all other taxes authorized to be levied by the
municipality, which levy, however, shall be abated to the extent that
monies from other sources are available for payment of the obligations and
the municipality certifies the amount of said monies available to the
county clerk.

A certified copy of such ordinance shall be filed with the county
clerk of each county in which any portion of the municipality is situated,
and shall constitute the authority for the extension and collection of the
taxes to be deposited in the special tax allocation fund.

A municipality may also issue its obligations to refund in whole or
in part, obligations theretofore issued by such municipality under the
authority of this Act, whether at or prior to maturity, provided however,
that the last maturity of the refunding obligations shall not be expressed to
mature later than December 31 of the year in which the payment to the
municipal treasurer as provided in subsection (b) of Section 11-74.4-8 of
this Act is to be made with respect to ad valorem taxes levied in the
twenty-third calendar year after the year in which the ordinance approving
the redevelopment project area is adopted if the ordinance was adopted on
or after January 15, 1981, not later than December 31 of the year in which

Sec. 11-74.4-7. Obligations secured by the special tax allocation fund set forth in Section 11-74.4-8 for the redevelopment project area may be issued to provide for redevelopment project costs. Such obligations, when so issued, shall be retired in the manner provided in the ordinance authorizing the issuance of such obligations by the receipts of taxes levied as specified in Section 11-74.4-9 against the taxable property included in

the area, by revenues as specified by Section 11-74.4-8a and other revenue
designated by the municipality. A municipality may in the ordinance
pledge all or any part of the funds in and to be deposited in the special tax
allocation fund created pursuant to Section 11-74.4-8 to the payment of the
redevelopment project costs and obligations. Any pledge of funds in the
special tax allocation fund shall provide for distribution to the taxing
districts and to the Illinois Department of Revenue of moneys not required,
pledged, earmarked, or otherwise designated for payment and securing of
the obligations and anticipated redevelopment project costs and such
excess funds shall be calculated annually and deemed to be "surplus"
funds. In the event a municipality only applies or pledges a portion of the
funds in the special tax allocation fund for the payment or securing of
anticipated redevelopment project costs or of obligations, any such funds
remaining in the special tax allocation fund after complying with the
requirements of the application or pledge, shall also be calculated annually
and deemed "surplus" funds. All surplus funds in the special tax allocation
fund shall be distributed annually within 180 days after the close of the
municipality's fiscal year by being paid by the municipal treasurer to the
County Collector, to the Department of Revenue and to the municipality in
direct proportion to the tax incremental revenue received as a result of an
increase in the equalized assessed value of property in the redevelopment
project area, tax incremental revenue received from the State and tax
incremental revenue received from the municipality, but not to exceed as
to each such source the total incremental revenue received from that
source. The County Collector shall thereafter make distribution to the
respective taxing districts in the same manner and proportion as the most
recent distribution by the county collector to the affected districts of real
property taxes from real property in the redevelopment project area.

Without limiting the foregoing in this Section, the municipality
may in addition to obligations secured by the special tax allocation fund
pledge for a period not greater than the term of the obligations towards
payment of such obligations any part or any combination of the following:
(a) net revenues of all or part of any redevelopment project; (b) taxes
levied and collected on any or all property in the municipality; (c) the full

faith and credit of the municipality; (d) a mortgage on part or all of the redevelopment project; or (e) any other taxes or anticipated receipts that the municipality may lawfully pledge.

Such obligations may be issued in one or more series bearing interest at such rate or rates as the corporate authorities of the municipality shall determine by ordinance. Such obligations shall bear such date or dates, mature at such time or times not exceeding 20 years from their respective dates, be in such denomination, carry such registration privileges, be executed in such manner, be payable in such medium of payment at such place or places, contain such covenants, terms and conditions, and be subject to redemption as such ordinance shall provide. Obligations issued pursuant to this Act may be sold at public or private sale at such price as shall be determined by the corporate authorities of the municipalities. No referendum approval of the electors shall be required as a condition to the issuance of obligations pursuant to this Division except as provided in this Section.

In the event the municipality authorizes issuance of obligations pursuant to the authority of this Division secured by the full faith and credit of the municipality, which obligations are other than obligations which may be issued under home rule powers provided by Article VII, Section 6 of the Illinois Constitution, or pledges taxes pursuant to (b) or (c) of the second paragraph of this section, the ordinance authorizing the issuance of such obligations or pledging such taxes shall be published within 10 days after such ordinance has been passed in one or more newspapers, with general circulation within such municipality. The publication of the ordinance shall be accompanied by a notice of (1) the specific number of voters required to sign a petition requesting the question of the issuance of such obligations or pledging taxes to be submitted to the electors; (2) the time in which such petition must be filed; and (3) the date of the prospective referendum. The municipal clerk shall provide a petition form to any individual requesting one.

If no petition is filed with the municipal clerk, as hereinafter provided in this Section, within 30 days after the publication of the ordinance, the ordinance shall be in effect. But, if within that 30 day

period a petition is filed with the municipal clerk, signed by electors in the municipality numbering 10% or more of the number of registered voters in the municipality, asking that the question of issuing obligations using full faith and credit of the municipality as security for the cost of paying for redevelopment project costs, or of pledging taxes for the payment of such obligations, or both, be submitted to the electors of the municipality, the corporate authorities of the municipality shall call a special election in the manner provided by law to vote upon that question, or, if a general, State or municipal election is to be held within a period of not less than 30 or more than 90 days from the date such petition is filed, shall submit the question at the next general, State or municipal election. If it appears upon the canvass of the election by the corporate authorities that a majority of electors voting upon the question voted in favor thereof, the ordinance shall be in effect, but if a majority of the electors voting upon the question are not in favor thereof, the ordinance shall not take effect.

The ordinance authorizing the obligations may provide that the obligations shall contain a recital that they are issued pursuant to this Division, which recital shall be conclusive evidence of their validity and of the regularity of their issuance.

In the event the municipality authorizes issuance of obligations pursuant to this Section secured by the full faith and credit of the municipality, the ordinance authorizing the obligations may provide for the levy and collection of a direct annual tax upon all taxable property within the municipality sufficient to pay the principal thereof and interest thereon as it matures, which levy may be in addition to and exclusive of the maximum of all other taxes authorized to be levied by the municipality, which levy, however, shall be abated to the extent that monies from other sources are available for payment of the obligations and the municipality certifies the amount of said monies available to the county clerk.

A certified copy of such ordinance shall be filed with the county clerk of each county in which any portion of the municipality is situated, and shall constitute the authority for the extension and collection of the taxes to be deposited in the special tax allocation fund.

A municipality may also issue its obligations to refund in whole or in part, obligations theretofore issued by such municipality under the authority of this Act, whether at or prior to maturity, provided however, that the last maturity of the refunding obligations shall not be expressed to mature later than December 31 of the year in which the payment to the municipal treasurer as provided in subsection (b) of Section 11-74.4-8 of this Act is to be made with respect to ad valorem taxes levied in the twenty-third calendar year after the year in which the ordinance approving the redevelopment project area is adopted if the ordinance was adopted on or after January 15, 1981, not later than December 31 of the year in which the payment to the municipal treasurer as provided in subsection (b) of Section 11-74.4-8 of this Act is to be made with respect to ad valorem taxes levied in the thirty-third calendar year after the year in which the ordinance approving the redevelopment project area is adopted if the ordinance was adopted on May 20, 1985 by the Village of Wheeling, and not later than December 31 of the year in which the payment to the municipal treasurer as provided in subsection (b) of Section 11-74.4-8 of this Act is to be made with respect to ad valorem taxes levied in the thirty-fifth calendar year after the year in which the ordinance approving the redevelopment project area is adopted (A) if the ordinance was adopted before January 15, 1981, or (B) if the ordinance was adopted in December 1983, April 1984, July 1985, or December 1989, or (C) if the ordinance was adopted in December, 1987 and the redevelopment project is located within one mile of Midway Airport, or (D) if the ordinance was adopted before January 1, 1987 by a municipality in Mason County, or (E) if the municipality is subject to the Local Government Financial Planning and Supervision Act or the Financially Distressed City Law, or (F) if the ordinance was adopted in December 1984 by the Village of Rosemont, or (G) if the ordinance was adopted on December 31, 1986 by a municipality located in Clinton County for which at least $250,000 of tax increment bonds were authorized on June 17, 1997, or if the ordinance was adopted on December 31, 1986 by a municipality with a population in 1990 of less than 3,600 that is located in a county with a population in 1990 of less than 34,000 and for which at least $250,000 of tax increment bonds were authorized on

Delivery of a summons and a copy of the complaint to the Chairperson of the Board shall constitute sufficient service to give the circuit court jurisdiction of the subject matter of such a suit and jurisdiction over the Authority and its officers named as defendants for the purpose of compelling such payment. Any case, controversy, or cause of action concerning the validity of this Act relates to the revenue of the State of Illinois.

(d) Notwithstanding the form and tenor of any such revenue bonds, notes, or other evidences of indebtedness and in the absence of any express recital on the face of any such revenue bond, note, or other evidence of indebtedness that it is nonnegotiable, all such revenue bonds, notes, and other evidences of indebtedness shall be negotiable instruments. The Authority is authorized to include these pledges and agreements of the State in any contract with the holders of revenue bonds or notes issued pursuant to this Section.

(h) Under no circumstances shall any bonds issued by the Authority or any other obligation of the Authority be or become an indebtedness or obligation of the State of Illinois or of any other political subdivision of or municipality within the State, nor shall any such bond or obligation be or become an indebtedness of the Authority within the purview of any constitutional limitation or provision, and it shall be plainly stated on the face of each bond that it does not constitute such an indebtedness or obligation but is payable solely from the revenues or income as aforesaid.

(i) For the purpose of financing a project pursuant to this Act, the Authority shall be authorized to apply for an allocation of tax-exempt bond financing authorization provided by Section 11143 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU), Public Law 109-59, as well as financing available under any other federal law or program.

When any of the funds of the Authority shall be deposited by the treasurer in any such depository, the treasurer and the sureties on his official bond shall, to that extent, be exempt from liability for the loss of any of the deposited funds by reason of the failure, bankruptcy, or any other act or default of the depository. However, the Authority may accept assignments of collateral by any depository of its funds to secure the deposits to the same extent and conditioned in the same manner as assignments of collateral are permitted by law to secure deposits of the funds of any city.

Approved January 26, 2007

PUBLIC ACT 94-1094
(Senate Bill No. 2684)

AN ACT concerning criminal law.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:
Section 5. The Code of Criminal Procedure of 1963 is amended by changing Section 103-5 as follows:
(725 ILCS 5/103-5) (from Ch. 38, par. 103-5)
Sec. 103-5. Speedy trial.
(a) Every person in custody in this State for an alleged offense shall be tried by the court having jurisdiction within 120 days from the date he was taken into custody unless delay is occasioned by the defendant, by an examination for fitness ordered pursuant to Section 104-13 of this Act, by a fitness hearing, by an adjudication of unfitness to stand trial, by a continuance allowed pursuant to Section 114-4 of this Act after a court's determination of the defendant's physical incapacity for trial, or by an interlocutory appeal. Delay shall be considered to be agreed to by the defendant unless he or she objects to the delay by making a written

New matter indicated by italics - deletions by strikeout.
demand for trial or an oral demand for trial on the record. *The provisions of this subsection (a) do not apply to a person on bail or recognizance for an offense but who is in custody for a violation of his or her parole or mandatory supervised release for another offense.*

The 120-day term must be one continuous period of incarceration. In computing the 120-day term, separate periods of incarceration may not be combined. If a defendant is taken into custody a second (or subsequent) time for the same offense, the term will begin again at day zero.

(b) Every person on bail or recognizance shall be tried by the court having jurisdiction within 160 days from the date defendant demands trial unless delay is occasioned by the defendant, by an examination for fitness ordered pursuant to Section 104-13 of this Act, by a fitness hearing, by an adjudication of unfitness to stand trial, by a continuance allowed pursuant to Section 114-4 of this Act after a court's determination of the defendant's physical incapacity for trial, or by an interlocutory appeal. The defendant's failure to appear for any court date set by the court operates to waive the defendant's demand for trial made under this subsection.

For purposes of computing the 160 day period under this subsection (b), every person who was in custody for an alleged offense and demanded trial and is subsequently released on bail or recognizance and demands trial, shall be given credit for time spent in custody following the making of the demand while in custody. Any demand for trial made under this subsection (b) shall be in writing; and in the case of a defendant not in custody, the demand for trial shall include the date of any prior demand made under this provision while the defendant was in custody.

(c) If the court determines that the State has exercised without success due diligence to obtain evidence material to the case and that there are reasonable grounds to believe that such evidence may be obtained at a later day the court may continue the cause on application of the State for not more than an additional 60 days. If the court determines that the State has exercised without success due diligence to obtain results of DNA testing that is material to the case and that there are reasonable grounds to believe that such results may be obtained at a later day, the court may

continue the cause on application of the State for not more than an additional 120 days.

(d) Every person not tried in accordance with subsections (a), (b) and (c) of this Section shall be discharged from custody or released from the obligations of his bail or recognizance.

(e) If a person is simultaneously in custody upon more than one charge pending against him in the same county, or simultaneously demands trial upon more than one charge pending against him in the same county, he shall be tried, or adjudged guilty after waiver of trial, upon at least one such charge before expiration relative to any of such pending charges of the period prescribed by subsections (a) and (b) of this Section. Such person shall be tried upon all of the remaining charges thus pending within 160 days from the date on which judgment relative to the first charge thus prosecuted is rendered pursuant to the Unified Code of Corrections or, if such trial upon such first charge is terminated without judgment and there is no subsequent trial of, or adjudication of guilt after waiver of trial of, such first charge within a reasonable time, the person shall be tried upon all of the remaining charges thus pending within 160 days from the date on which such trial is terminated; if either such period of 160 days expires without the commencement of trial of, or adjudication of guilt after waiver of trial of, any of such remaining charges thus pending, such charge or charges shall be dismissed and barred for want of prosecution unless delay is occasioned by the defendant, by an examination for fitness ordered pursuant to Section 104-13 of this Act, by a fitness hearing, by an adjudication of unfitness for trial, by a continuance allowed pursuant to Section 114-4 of this Act after a court's determination of the defendant's physical incapacity for trial, or by an interlocutory appeal; provided, however, that if the court determines that the State has exercised without success due diligence to obtain evidence material to the case and that there are reasonable grounds to believe that such evidence may be obtained at a later day the court may continue the cause on application of the State for not more than an additional 60 days.

(f) Delay occasioned by the defendant shall temporarily suspend for the time of the delay the period within which a person shall be tried as

New matter indicated by italics - deletions by strikeout.
prescribed by subsections (a), (b), or (e) of this Section and on the day of expiration of the delay the said period shall continue at the point at which it was suspended. Where such delay occurs within 21 days of the end of the period within which a person shall be tried as prescribed by subsections (a), (b), or (e) of this Section, the court may continue the cause on application of the State for not more than an additional 21 days beyond the period prescribed by subsections (a), (b), or (e). This subsection (f) shall become effective on, and apply to persons charged with alleged offenses committed on or after, March 1, 1977.

Section 10. The County Jail Act is amended by changing Section 5 as follows:

(730 ILCS 125/5) (from Ch. 75, par. 105)

(a) Except as provided in subsections (b) and (c), all costs of maintaining persons committed for violations of Illinois law, shall be the responsibility of the county. Except as provided in subsection (b), all costs of maintaining persons committed under any ordinance or resolution of a unit of local government, including medical costs, is the responsibility of the unit of local government enacting the ordinance or resolution, and arresting the person.

been a court hearing at which bail has been set on the new charge; (iii) the county has notified the Illinois Department of Corrections that the person is incarcerated in the county jail, which notice shall not be given until the bail hearing has concluded, if the person is incarcerated on a new charge; and (iv) the person remains incarcerated in the county jail for more than 48 hours after the notice has been given to the Department of Corrections by the county. Calculation of the per diem cost shall be agreed upon prior to the passage of the annual State budget.

(c) If a person who is serving a term of mandatory supervised release is incarcerated in a county jail, following an arrest on a warrant issued by the Illinois Department of Corrections, solely for violation of a condition of mandatory supervised release and not on any new charges for a new offense, then the Illinois Department of Corrections shall pay the medical costs incurred by the county in securing treatment for that person, for any injury or condition other than one arising out of or in conjunction with the arrest of the person or resulting from the conduct of county personnel, while he or she remains in the county jail on the warrant issued by the Illinois Department of Corrections.

PUBLIC ACT 94-1095
(House Bill No. 4977)

AN ACT concerning public utilities.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Public Utilities Act is amended by adding Article XX as follows:

(220 ILCS 5/Art. XX heading new)

New matter indicated by italics - deletions by strikeout.
ARTICLE XX. RETAIL ELECTRIC COMPETITION  
(220 ILCS 5/20-101 new)  
Sec. 20-101. This Article may be cited as the Retail Electric Competition Act of 2006.  
(220 ILCS 5/20-102 new)  
Sec. 20-102. Findings and intent.  
(a) A competitive wholesale electricity market alone will not deliver the full benefits of competition to Illinois consumers. For Illinois consumers to receive products, prices and terms tailored to meet their needs, a competitive wholesale electricity market must be closely linked to a competitive retail electric market.  
(b) To date, as a result of the Electric Service Customer Choice and Rate Relief Law of 1997, thousands of large Illinois commercial and industrial consumers have experienced the benefits of a competitive retail electricity market. Alternative electric retail suppliers actively compete to supply electricity to large Illinois commercial and industrial consumers with attractive prices, terms, and conditions.  
(c) A competitive retail electric market does not yet exist for residential and small commercial consumers. As a result, millions of residential and small commercial consumers in Illinois are faced with escalating heating and power bills and are unable to shop for alternatives to the rates demanded by the State’s incumbent electric utilities.  
(d) The General Assembly reiterates its findings from the Electric Service Customer Choice and Rate Relief Law of 1997 that the Illinois Commerce Commission should promote the development of an effectively competitive retail electricity market that operates efficiently and benefits all Illinois consumers.  
(220 ILCS 5/20-105 new)  
Sec. 20-105. Definitions. In this Article:  
"Director" means the Director of the Office of Retail Market Development.  
"Office" means the Office of Retail Market Development.  
(220 ILCS 5/20-110 new)  

New matter indicated by italics - deletions by strikeout.
Sec. 20-110. Office of Retail Market Development. Within 90 days after the effective date of this amendatory Act of the 94th General Assembly, subject to appropriation, the Commission shall establish an Office of Retail Market Development and employ on its staff a Director of Retail Market Development to oversee the Office. The Director shall have authority to employ or otherwise retain at least 2 professionals dedicated to the task of actively seeking out ways to promote retail competition in Illinois to benefit all Illinois consumers.

The Office shall actively seek input from all interested parties and shall develop a thorough understanding and critical analyses of the tools and techniques used to promote retail competition in other states.

The Office shall monitor existing competitive conditions in Illinois, identify barriers to retail competition for all customer classes, and actively explore and propose to the Commission and to the General Assembly solutions to overcome identified barriers. The Director may include municipal aggregation of customers and creating and designing customer choice programs as tools for retail market development. Solutions proposed by the Office to promote retail competition must also promote safe, reliable, and affordable electric service.

On or before June 30 of each year, the Director shall submit a report to the Commission, the General Assembly, and the Governor, that details specific accomplishments achieved by the Office in the prior 12 months in promoting retail electric competition and that suggests administrative and legislative action necessary to promote further improvements in retail electric competition.

(220 ILCS 5/20-120 new)

Sec. 20-120. Residential and small commercial retail electric competition. Within 12 months after the effective date of this amendatory Act of the 94th General Assembly, the Director shall conduct research, gather input from all interested parties and develop and present to the Commission, the General Assembly, and the Governor a detailed plan designed to promote, in the most expeditious manner possible, retail electric competition for residential and small commercial electricity consumers while maintaining safe, reliable, and affordable service.

New matter indicated by italics - deletions by strikeout.
Interested parties shall be given the opportunity to review the plan and provide written comments regarding the plan prior to its submission to the Commission, the General Assembly, and the Governor. Any written comments received by the Office shall be posted on the Commission's website. The final plan submitted to the Commission, the General Assembly, and the Governor must include summaries of any written comments and must also be posted on the Commission's website.

To the extent the plan calls for Commission action, the Commission shall initiate any proceeding or proceedings called for in the final plan within 60 days after receipt of the final plan and complete those proceedings within 11 months after their initiation.

Nothing in this Section shall prevent the Commission from acting earlier to remove identified barriers to retail electric competition for residential and small commercial consumers.

PUBLIC ACT 94-1100
(Senate Bill No. 2796)

AN ACT concerning education.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:
Section 5. The School Code is amended by changing Sections 14-8.02, 14-8.02a, 14-8.02b, and 14-12.01 and by adding Sections 14-8.02c and 14-8.02d as follows:

(105 ILCS 5/14-8.02) (from Ch. 122, par. 14-8.02)
(a) The State Board of Education shall make rules under which local school boards shall determine the eligibility of children to receive special education. Such rules shall ensure that a free appropriate public education be available to all children with disabilities as defined in Section 14-1.02. The State Board of Education shall require local school districts to administer non-discriminatory procedures or tests to limited English proficiency students coming from homes in which a language other than English is used to determine their eligibility to receive special education. The placement of low English proficiency students in special education programs and facilities shall be made in accordance with the test results reflecting the student's linguistic, cultural and special education needs. For purposes of determining the eligibility of children the State Board of Education shall include in the rules definitions of "case study", "staff conference", "individualized educational program", and "qualified specialist" appropriate to each category of children with disabilities as defined in this Article. For purposes of determining the eligibility of children from homes in which a language other than English is used, the

New matter indicated by italics - deletions by strikeout.
State Board of Education, no later than September 1, 1993, shall include in the rules definitions for "qualified bilingual specialists" and "linguistically and culturally appropriate individualized educational programs". For purposes of this Section, as well as Sections 14-8.02a, 14-8.02b, and 14-8.02c of this Code, "parent" means a parent as defined in the federal Individuals with Disabilities Education Act (20 U.S.C. 1401(23)) includes a foster parent.

(b) No child shall be eligible for special education facilities except with a carefully completed case study fully reviewed by professional personnel in a multidisciplinary staff conference and only upon the recommendation of qualified specialists or a qualified bilingual specialist, if available. At the conclusion of the multidisciplinary staff conference, the parent or guardian of the child shall be given a copy of the multidisciplinary conference summary report and recommendations, which includes options considered, and be informed of their right to obtain an independent educational evaluation if they disagree with the evaluation findings conducted or obtained by the school district. If the school district's evaluation is shown to be inappropriate, the school district shall reimburse the parent for the cost of the independent evaluation. The State Board of Education shall, with advice from the State Advisory Council on Education of Children with Disabilities on the inclusion of specific independent educational evaluators, prepare a list of suggested independent educational evaluators. The State Board of Education shall include on the list clinical psychologists licensed pursuant to the Clinical Psychologist Licensing Act. Such psychologists shall not be paid fees in excess of the amount that would be received by a school psychologist for performing the same services. The State Board of Education shall supply school districts with such list and make the list available to parents at their request. School districts shall make the list available to parents at the time they are informed of their right to obtain an independent educational evaluation. However, the school district may initiate an impartial due process hearing under this Section within 5 days of any written parent or guardian request for an independent educational evaluation to show that its evaluation is appropriate. If the final decision is that the evaluation is

appropriate, the parent still has a right to an independent educational evaluation, but not at public expense. An independent educational evaluation at public expense must be completed within 30 days of a parent or guardian written request unless the school district initiates an impartial due process hearing or the parent or guardian or school district offers reasonable grounds to show that such 30 day time period should be extended. If the due process hearing decision indicates that the parent or guardian is entitled to an independent educational evaluation, it must be completed within 30 days of the decision unless the parent or guardian or the school district offers reasonable grounds to show that such 30 day period should be extended. If a parent disagrees with the summary report or recommendations of the multidisciplinary conference or the findings of any educational evaluation which results therefrom, the school district shall not proceed with a placement based upon such evaluation and the child shall remain in his or her regular classroom setting. No child shall be eligible for admission to a special class for the educable mentally disabled or for the trainable mentally disabled except with a psychological evaluation and recommendation by a school psychologist. Consent shall be obtained from the parent or guardian of a child before any evaluation is conducted. If consent is not given by the parent or guardian or if the parent or guardian disagrees with the findings of the evaluation, then the school district may initiate an impartial due process hearing under this Section. The school district may evaluate the child if that is the decision resulting from the impartial due process hearing and the decision is not appealed or if the decision is affirmed on appeal. The determination of eligibility shall be made and the IEP meeting shall be completed within 60 school days from the date of written parental consent referral by school authorities for evaluation by the district or date of application for admittance by the parent or guardian of the child. In those instances when written parental consent is obtained students are referred for evaluation with fewer than 60 pupil attendance days left in the school year, the eligibility determination shall be made and the IEP meeting shall be completed prior to the first day of the following school year. After a child has been determined to be eligible for a special education class, such child must be placed in the

appropriate program pursuant to the individualized educational program by or no later than the beginning of the next school semester. The appropriate program pursuant to the individualized educational program of students whose native tongue is a language other than English shall reflect the special education, cultural and linguistic needs. No later than September 1, 1993, the State Board of Education shall establish standards for the development, implementation and monitoring of appropriate bilingual special individualized educational programs. The State Board of Education shall further incorporate appropriate monitoring procedures to verify implementation of these standards. The district shall indicate to the parent or guardian and the State Board of Education the nature of the services the child will receive for the regular school term while waiting placement in the appropriate special education class.

If the child is deaf, hard of hearing, blind, or visually impaired and he or she might be eligible to receive services from the Illinois School for the Deaf or the Illinois School for the Visually Impaired, the school district shall notify the parents or guardian, in writing, of the existence of these schools and the services they provide and shall make a reasonable effort to inform the parents or guardian of the existence of other, local schools that provide similar services and the services that these other schools provide. This notification shall include without limitation information on school services, school admissions criteria, and school contact information.

If the student may be eligible to participate in the Home-Based Support Services Program for Mentally Disabled Adults authorized under the Developmental Disability and Mental Disability Services Act upon becoming an adult, the student's individualized education program shall include plans for (i) determining the student's eligibility for those home-based services, (ii) enrolling the student in the program of home-based services, and (iii) developing a plan for the student's most effective use of the home-based services after the student becomes an adult and no longer receives special educational services under this Article. The plans developed under this paragraph shall include specific actions to be taken by specified individuals, agencies, or officials.

(c) In the development of the individualized education program for a student who is functionally blind, it shall be presumed that proficiency in Braille reading and writing is essential for the student's satisfactory educational progress. For purposes of this subsection, the State Board of Education shall determine the criteria for a student to be classified as functionally blind. Students who are not currently identified as functionally blind who are also entitled to Braille instruction include: (i) those whose vision loss is so severe that they are unable to read and write at a level comparable to their peers solely through the use of vision, and (ii) those who show evidence of progressive vision loss that may result in functional blindness. Each student who is functionally blind shall be entitled to Braille reading and writing instruction that is sufficient to enable the student to communicate with the same level of proficiency as other students of comparable ability. Instruction should be provided to the extent that the student is physically and cognitively able to use Braille. Braille instruction may be used in combination with other special education services appropriate to the student's educational needs. The assessment of each student who is functionally blind for the purpose of developing the student's individualized education program shall include documentation of the student's strengths and weaknesses in Braille skills. Each person assisting in the development of the individualized education program for a student who is functionally blind shall receive information describing the benefits of Braille instruction. The individualized education program for each student who is functionally blind shall specify the appropriate learning medium or media based on the assessment report.

(d) To the maximum extent appropriate, the placement shall provide the child with the opportunity to be educated with children who are not disabled; provided that children with disabilities who are recommended to be placed into regular education classrooms are provided with supplementary services to assist the children with disabilities to benefit from the regular classroom instruction and are included on the teacher's regular education class register. Subject to the limitation of the preceding sentence, placement in special classes, separate schools or other removal of the disabled child from the regular educational environment

shall occur only when the nature of the severity of the disability is such that education in the regular classes with the use of supplementary aids and services cannot be achieved satisfactorily. The placement of limited English proficiency students with disabilities shall be in non-restrictive environments which provide for integration with non-disabled peers in bilingual classrooms. **Annually, each January by January 1993 and annually thereafter**, school districts shall report data on students from non-English speaking backgrounds receiving special education and related services in public and private facilities as prescribed in Section 2-3.30. If there is a disagreement between parties involved regarding the special education placement of any child, either in-state or out-of-state, the placement is subject to impartial due process procedures described in Article 10 of the Rules and Regulations to Govern the Administration and Operation of Special Education.

(e) No child who comes from a home in which a language other than English is the principal language used may be assigned to any class or program under this Article until he has been given, in the principal language used by the child and used in his home, tests reasonably related to his cultural environment. All testing and evaluation materials and procedures utilized for evaluation and placement shall not be linguistically, racially or culturally discriminatory.

(f) Nothing in this Article shall be construed to require any child to undergo any physical examination or medical treatment whose parents or guardian object thereto on the grounds that such examination or treatment conflicts with his religious beliefs.

(g) School boards or their designee shall provide to the parents or guardian of a child prior written notice of any decision (a) proposing to initiate or change, or (b) refusing to initiate or change, the identification, evaluation, or educational placement of the child or the provision of a free appropriate public education to their child, and the reasons therefor. Such written notification shall also inform the parent or guardian of the opportunity to present complaints with respect to any matter relating to the educational placement of the student, or the provision of a free appropriate public education and to have an impartial due process hearing on the

complaint. The notice shall inform the parents or guardian in the parents' or guardian's native language, unless it is clearly not feasible to do so, of their rights and all procedures available pursuant to this Act and the federal Individuals with Disabilities Education Improvement Act of 2004 (Public Law 108-446) federal law 94-142; it shall be the responsibility of the State Superintendent to develop uniform notices setting forth the procedures available under this Act and the federal Individuals with Disabilities Education Improvement Act of 2004 (Public Law 108-446) federal law 94-142 to be used by all school boards. The notice shall also inform the parents or guardian of the availability upon request of a list of free or low-cost legal and other relevant services available locally to assist parents or guardians in initiating an impartial due process hearing. Any parent or guardian who is deaf, or does not normally communicate using spoken English, who participates in a meeting with a representative of a local educational agency for the purposes of developing an individualized educational program shall be entitled to the services of an interpreter.

(h) (Blank). A Level I due process hearing, hereinafter referred as the hearing, shall be conducted upon the request of the parents or guardian or local school board by an impartial hearing officer appointed as follows: If the request is made through the local school district, within 5 school days of receipt of the request, the local school district shall forward the request to the State Superintendent. Within 5 days after receiving this request of hearing, the State Board of Education shall provide a list of 5 prospective, impartial hearing officers. The State Board of Education, by rule or regulation, shall establish criteria for determining which persons can be included on such a list of prospective hearing officers. No one on the list may be a resident of the school district. No more than 2 of the 5 prospective hearing officers shall be gainfully employed by or administratively connected with any school district, or any joint agreement or cooperative program in which school districts participate. In addition, no more than 2 of the 5 prospective hearing officers shall be gainfully employed by or administratively connected with private providers of special education services. The State Board of Education shall actively recruit applicants for hearing officer positions. The board and the parents

or guardian or their legal representatives within 5 days shall alternately strike one name from the list until only one name remains. The parents or guardian shall have the right to proceed first with the striking. The per diem allowance for the hearing officer shall be established and paid by the State Board of Education. The hearing shall be closed to the public except that the parents or guardian may require that the hearing be public. The hearing officer shall not be an employee of the school district, an employee in any joint agreement or cooperative program in which the district participates, or any other agency or organization that is directly involved in the diagnosis, education or care of the student or the State Board of Education. All impartial hearing officers shall be adequately trained in federal and state law, rules and regulations and case law regarding special education. The State Board of Education shall use resources from within and outside the agency for the purposes of conducting this training. The impartial hearing officer shall have the authority to require additional information or evidence where he or she deems it necessary to make a complete record and may order an independent evaluation of the child, the cost of said evaluation to be paid by the local school district. Such hearing shall not be considered adversary in nature, but shall be directed toward bringing out all facts necessary for the impartial hearing officer to render an informed decision. The State Board of Education shall, with the advice and approval of the Advisory Council on Education of Children with Disabilities, promulgate rules and regulations to establish the qualifications of the hearing officers and the rules and procedure for such hearings. The school district shall present evidence that the special education needs of the child have been appropriately identified and that the special education program and related services proposed to meet the needs of the child are adequate, appropriate and available. Any party to the hearing shall have the right to: (a) be represented by counsel and be accompanied and advised by individuals with special knowledge or training with respect to the problems of children with disabilities at the party's own expense; (b) present evidence and confront and cross-examine witnesses; (c) prohibit the introduction of any evidence at the hearing that has not been disclosed to that party at least
5 days before the hearing; (d) obtain a written or electronic verbatim record of the hearing; (e) obtain written findings of fact and a written decision. The student shall be allowed to attend the hearing unless the hearing officer finds that attendance is not in the child's best interest or detrimental to the child. The hearing officer shall specify in the findings the reasons for denying attendance by the student. The hearing officer, or the State Superintendent in connection with State level hearings, may subpoena and compel the attendance of witnesses and the production of evidence reasonably necessary to the resolution of the hearing. The subpoena may be issued upon request of any party. The State Board of Education and the school board shall share equally the costs of providing a written or electronic record of the proceedings. Such record shall be transcribed and transmitted to the State Superintendent no later than 10 days after receipt of notice of appeal. The hearing officer shall render a decision and shall submit a copy of the findings of fact and decision to the parent or guardian and to the local school board within 10 school days after the conclusion of the hearing. The hearing officer may continue the hearing in order to obtain additional information, and, at the conclusion of the hearing, shall issue a decision based on the record which specifies the special education and related services which shall be provided to the child in accordance with the child's needs. The hearing officer's decision shall be binding upon the local school board and the parent unless such decision is appealed pursuant to the provisions of this Section:

(i) (Blank). Any party aggrieved by the decision may appeal the hearing officer's decision to the State Board of Education and shall serve copies of the notice of such appeal on the State Superintendent and on all other parties. The review referred to in this Section shall be known as the Level II review. The State Board of Education shall provide a list of 5 prospective, impartial reviewing officers. No reviewing officer shall be an employee of the State Board of Education or gainfully employed by or administratively connected with the school district, joint agreement or cooperative program which is a party to this review. Education and may not exceed $250. All reviewing officers on the list provided by the State Board of Education shall be trained in federal and state law, rules and regulations and case law regarding special education. The State Board of Education shall use resources from within and outside the agency for the purposes of conducting this training. No one on the list may be a resident of the school district. The board and the parents or guardian or other legal representatives within 5 days shall alternately strike one name from the list until only one name remains. The parents or guardian shall have the right to proceed first with the striking. The reviewing officer so selected shall conduct an impartial review of the Level I hearing and may issue subpoenas requiring the attendance of witnesses at such review. The parties to the appeal shall be afforded the opportunity to present oral argument and additional evidence at the review. Upon completion of the review the reviewing officer shall render a decision and shall provide a copy of the decision to all parties:

(j) (Blank). No later than 30 days after receipt of notice of appeal, a final decision shall be reached and a copy mailed to each of the parties. A reviewing officer may grant specific extensions of time beyond the 30-day deadline at the request of either party. If a Level II hearing is convened the final decision of a Level II hearing officer shall occur no more than 30 days following receipt of a notice of appeal, unless an extension of time is granted by the hearing officer at the request of either party. The State Board of Education shall establish rules and regulations delineating the standards to be used in determining whether the reviewing officer shall grant such extensions. Each hearing and each review involving oral argument must be conducted at a time and place which are reasonably convenient to the parents and the child involved:

(k) (Blank). Any party aggrieved by the decision of the reviewing officer, including the parent or guardian, shall have the right to bring a civil action with respect to the complaint presented pursuant to this Section, which action may be brought in any circuit court of competent jurisdiction within 120 days after a copy of the decision is mailed to the party as provided in subsection (j). The civil action provided above shall not be exclusive of any rights or causes of action otherwise available. The
commencement of a civil action under subsection (k) of this Section shall operate as a supersedeas. In any action brought under this Section the court shall receive the records of the administrative proceedings, shall hear additional evidence at the request of a party, and basing its decision on the preponderance of the evidence shall grant such relief as the court determines is appropriate. In any instance where a school district willfully disregards applicable regulations or statutes regarding a child covered by this Article, and which disregard has been detrimental to the child, the school district shall be liable for any reasonable attorney's fees incurred by the parent or guardian in connection with proceedings under this Section:

(l) (Blank). During the pendency of any proceedings conducted pursuant to this Section, unless the State Superintendent of Education, or the school district and the parents or guardian otherwise agree, the student shall remain in the then current educational placement of such student, or if applying for initial admission to the school district, shall, with the consent of the parents or guardian, be placed in the school district program until all such proceedings have been completed. The costs for any special education and related services or placement incurred following 60 school days after the initial request for evaluation shall be borne by the school district if such services or placement are in accordance with the final determination as to the special education and related services or placement which must be provided to the child, provided however that in said 60 day period there have been no delays caused by the child's parent or guardian.

(m) (Blank). Whenever (i) the parents or guardian of a child of the type described in Section 14-1.02 are not known or are unavailable or (ii) the child is a ward of the State residing in a residential facility, a person shall be assigned to serve as surrogate parent for the child in matters relating to the identification, evaluation, and educational placement of the child and the provision of a free appropriate public education to the child. Surrogate parents shall be assigned by the State Superintendent of Education. The State Board of Education shall promulgate rules and regulations establishing qualifications of such persons and their responsibilities and the procedures to be followed in making such assignments. Such surrogate parents shall not be employees of the school.

district, an agency created by joint agreement under Section 10-22.31, an agency involved in the education or care of the student, or the State Board of Education. For a child who is a ward of the State residing in a residential facility, the surrogate parent may be an employee of a nonpublic agency that provides only non-educational care. Services of any person assigned as surrogate parent shall terminate if the parent or guardian becomes available unless otherwise requested by the parents or guardian. The assignment of a person as surrogate parent at no time supersedes, terminates, or suspends the parents’ or guardian’s legal authority relative to the child. Any person participating in good faith as surrogate parent on behalf of the child before school officials or a hearing officer shall have immunity from civil or criminal liability that otherwise might result by reason of such participation, except in cases of willful and wanton misconduct.

(n) (Blank). At all stages of the hearing the hearing officer shall require that interpreters be made available by the local school district for persons who are deaf or for persons whose normally spoken language is other than English.

(o) (Blank). Whenever a person refuses to comply with any subpoena issued under this Section, the circuit court of the county in which such hearing is pending, on application of the State Superintendent of Education or the party who requested issuance of the subpoena may compel obedience by attachment proceedings as for contempt, as in a case of disobedience of the requirements of a subpoena from such court for refusal to testify therein.

without compensation but shall be reimbursed by the State Board of Education for their expenses. The Screening Committee shall review applications and supporting information, interview candidates, and recommend applicants to the Advisory Council on Education of Children with Disabilities based upon objective criteria it develops and makes available to the public. The number of candidates recommended shall equal 150% of the number deemed necessary by the State Board of Education.

(c) (Blank). The application process shall require each applicant to provide a comprehensive disclosure of his or her professional background and work experience. Applicants must hold at least a masters level degree, a juris doctor degree, or a bachelors degree with relevant experience. Current employees of the State Board of Education, local school districts, special education cooperatives, regional service areas or centers, regional educational cooperatives, state-operated elementary and secondary schools, or private providers of special education facilities or programs shall be disqualified from serving as impartial due process hearing officers. Nothing in this Section shall be construed to prohibit retired school personnel and part-time contractual school personnel who serve in a consulting capacity from serving as hearing officers. Applications by individuals on the State Board of Education’s list of eligible Level I due process hearing officers or Level II review officers when the initial recruitment of due process hearing officers is conducted under this Section shall be considered if they meet the qualifications under this subsection.

(d) (Blank). The State Board of Education shall, through a competitive application process, enter into a contract with an outside entity to establish and conduct mandatory training programs for impartial due process hearing officers and an annual evaluation of each impartial due process hearing officer that shall include a written evaluation report. The invitation for applications shall set forth minimum qualifications for eligible applicants. Each contract under this subsection may be renewed on an annual basis subject to appropriations. established pursuant to subsection (b) of this Section shall review the training proposals and forward them, with recommendations in rank order, to the State Board of Education. All impartial hearing officer candidates recommended to the Advisory Council on Education of Children with Disabilities shall successfully complete initial and all follow-up trainings, as established by the contract between the State Board of Education and the training entity, in order to be eligible to serve as an impartial due process hearing officer. The training curriculum shall include, at a minimum, instruction in federal and State law, rules, and regulations, federal regulatory interpretations and court decisions regarding special education and relevant general education issues, diagnostic procedures, information about disabilities, and techniques for conducting effective and impartial hearings, including order of presentation. The training shall be conducted in an unbiased manner by education and legal experts, including qualified individuals from outside the public education system. Upon the completion of initial impartial due process hearing officer training, the Advisory Council on Education of Children with Disabilities, applying objective selection criteria it has developed and made available to the public, shall go into executive session and select the number of active impartial due process hearing officers deemed necessary by the State Board of Education from those candidates who have successfully completed the initial training. Fifty percent of the impartial due process hearing officers appointed shall serve initial terms of 2 years, and the remaining 50% shall serve initial terms of one year, such terms to be determined by using a lottery system. After the initial term all reappointments shall be for a term of 2 years. The Screening Committee, based on its objective selection criteria and the annual evaluation reports prepared by the training entity, shall recommend whether the hearing officers whose terms are expiring should be reappointed and shall transmit its recommendations to the State Board of Education. If, at any time, the State Board of Education, with the advice of the Advisory Council on Education of Children with Disabilities, determines that additional hearing officers are needed, the hearing officer selection process described in this
Section shall be reopened to select the number of additional hearing officers deemed necessary by the State Board of Education:

Impartial due process hearing officers shall receive a base annual stipend and per diem allowance for each hearing at a rate established by the State Board of Education:

The State Board of Education shall provide impartial due process hearing officers with access to relevant court decisions, impartial hearing officer decisions with child-specific identifying information deleted, statutory and regulatory changes, and federal regulatory interpretations. The State Board of Education shall index and maintain a reporting system of impartial due process hearing decisions and shall make such decisions available for review by the public after deleting child-specific identifying information:

(e) (Blank). An impartial due process hearing officer shall be terminated by the State Board of Education for just cause if, after written notice is provided, appropriate timely corrective action is not taken. For purposes of this subsection just cause shall be (1) failure or refusal to accept assigned cases without good cause; (2) failure or refusal to fulfill duties as a hearing officer in a timely manner; (3) consistent disregard for applicable laws and regulations in the conduct of hearings; (4) consistent failure to conduct himself or herself in a patient, dignified, and courteous manner to parties, witnesses, counsel, and other participants in hearings; (5) failure to accord parties or their representatives a full and fair opportunity to be heard in matters coming before him or her; (6) violating applicable laws regarding privacy and confidentiality of records or information; (7) manifesting, by words or conduct, bias or prejudice based upon race, sex, religion, disability, or national origin; (8) failure to recuse himself or herself from a hearing in which he or she has a personal, professional, or financial conflict of interest which he or she knew or should have known existed at any time prior to or during the hearing; (9) conviction in any jurisdiction of any felony or of a misdemeanor involving moral turpitude; and (10) falsification of a material fact on his or her application to serve as a due process hearing officer. In addition, an impartial hearing officer who, as a result of events occurring after

appointment, no longer meets the minimum requirements set forth in this Section, shall be disqualified to complete the balance of his or her contract term:

The State Board of Education shall monitor, review, and evaluate the impartial due process hearing system on a regular basis by a process that includes a review of written decisions and evaluations by participants in impartial due process hearings and their representatives. The State Board of Education shall prepare an annual written report no later than July 1 of each year, beginning in 1998, evaluating the impartial due process hearing system. The reports shall be submitted to the members of the State Board of Education, the State Superintendent of Education, the Advisory Council on Education of Children with Disabilities, and the Screening Committee and shall be made available to the public.

The training entity under subsection (d) shall conduct annual evaluations of each hearing officer and shall prepare written evaluation reports to be provided to the Screening Committee for its consideration in the reappointment process. The evaluation process shall include a review of written decisions and evaluations by participants in impartial due process hearings and their representatives. Each hearing officer shall be provided with a copy of his or her evaluation report and shall have an opportunity to review the report with the training entity and submit written comments.

(f) An impartial due process hearing shall be convened upon the request of a parent or guardian, student if at least 18 years of age or emancipated, or a school district. A school district shall make a request in writing to the State Board of Education and promptly mail a copy of the request to the parents or guardian of the student (if at least 18 years of age or emancipated) at the parent's or student's last known address. A request made by the parent or student shall be made in writing to the superintendent of the school district where the student resides. The superintendent shall forward the request to the State Board of Education within 5 days after receipt of the request. The request shall be filed no more than 2 years following the date the person or school district knew or

should have known of the event or events forming the basis for the request. The request shall, at a minimum, contain all of the following:

(1) The name of the student, the address of the student's residence, and the name of the school the student is attending.

(2) In the case of homeless children (as defined under the federal McKinney-Vento Homeless Assistance Act (42 U.S.C. 11434a(2)), available contact information for the student and the name of the school the student is attending.

(3) A description of the nature of the problem relating to the actual or proposed placement, identification, services, or evaluation of the student, including facts relating to the problem.

(4) A proposed resolution of the problem to the extent known and available to the party at the time.

A request made by the parent, guardian, or student shall be made in writing to the superintendent of the school district in which the student resides, who shall forward the request to the State Board of Education within 5 days of receipt of the request.

(f-5) Within 5 days after receipt of the hearing request, the State Board of Education shall appoint a due process hearing officer using a rotating appointment system and shall notify the hearing officer of his or her appointment.

For a school district other than a school district located in a municipality having a population exceeding 500,000, a hearing officer who is a current resident of the school district, special education cooperative, or other public entity involved in the hearing shall recuse himself or herself. A hearing officer who is a former employee of the school district, special education cooperative, or other public entity involved in the hearing shall immediately disclose the former employment to the parties and shall recuse himself or herself, unless the parties otherwise agree in writing. No person who is an employee of a school district that is involved in the education or care of the student shall conduct the hearing. A hearing officer having a personal or professional interest that may conflict with his or her objectivity in the hearing shall disclose the conflict to the parties and shall recuse himself or herself

unless the parties otherwise agree in writing to notify the State Board of Education and shall be replaced by the next scheduled impartial due process hearing officer under the rotation system. For purposes of this subsection an assigned hearing officer shall be considered to have a conflict of interest if, at any time prior to the issuance of his or her written decision, he or she knows or should know that he or she may receive remuneration from a party to the hearing within 3 years following the conclusion of the due process hearing.

A party to a due process hearing shall be permitted one substitution of hearing officer as a matter of right, in accordance with procedures established by the rules adopted by the State Board of Education under this Section. The State Board of Education shall randomly select and appoint another hearing officer within 35 days after receiving notice that the appointed hearing officer is ineligible to serve or upon receiving a proper request for substitution of hearing officer. If a party withdraws its request for a due process hearing after a hearing officer has been appointed, that hearing officer shall retain jurisdiction over a subsequent hearing that involves the same parties and is requested within one year from the date of withdrawal of the previous request, unless that hearing officer is unavailable.

A former employee or current resident of the school district, special education cooperative, or other public entity involved in the due process hearing shall recuse himself or herself. A hearing officer shall disclose any actual or potential conflicts of interests to the parties upon learning of those conflicts. Any party may raise facts that constitute a conflict of interest for the hearing officer at any time before or during the hearing and may move for recusal.

For purposes of this Section, "days" shall be computed in accordance with Section 1.11 of the Statute on Statutes.

(g) Impartial due process hearings shall be conducted pursuant to this Section and any rules and regulations promulgated by the State Board of Education consistent with this Section and other governing laws and regulations. The hearing shall address only those issues properly raised in the hearing request under subsection (f) of this Section or, if applicable, in

the amended hearing request under subsection (g-15) of this Section. The hearing shall be closed to the public unless the parents or guardian request that the hearing be open to the public. The parents or guardian involved in the hearing shall have the right to have the student who is the subject of the hearing present. The hearing shall be held at a time and place which are reasonably convenient to the parties involved. Upon the request of a party, the hearing officer shall hold the hearing at a location neutral to the parties if the hearing officer determines that there is no cost for securing the use of the neutral location. Once appointed, the impartial due process hearing officer shall not communicate with the State Board of Education or its employees concerning the hearing, except that, where circumstances require, communications for administrative purposes that do not deal with substantive or procedural matters or issues on the merits are authorized, provided that the hearing officer promptly notifies all parties of the substance of the communication as a matter of record.

(g-5) Unless the school district has previously provided prior written notice to the parent or student (if at least 18 years of age or emancipated) regarding the subject matter of the hearing request, the school district shall, within 10 days after receiving a hearing request initiated by a parent or student (if at least 18 years of age or emancipated), provide a written response to the request that shall include all of the following:

(1) An explanation of why the school district proposed or refused to take the action or actions described in the hearing request.

(2) A description of other options the IEP team considered and the reasons why those options were rejected.

(3) A description of each evaluation procedure, assessment, record, report, or other evidence the school district used as the basis for the proposed or refused action or actions.

(4) A description of the factors that are or were relevant to the school district’s proposed or refused action or actions.

(g-10) When the hearing request has been initiated by a school district, within 10 days after receiving the request, the parent or student (if

at least 18 years of age or emancipated) shall provide the school district with a response that specifically addresses the issues raised in the school district’s hearing request. The parent’s or student’s response shall be provided in writing, unless he or she is illiterate or has a disability that prevents him or her from providing a written response. The parent’s or student’s response may be provided in his or her native language, if other than English. In the event that illiteracy or another disabling condition prevents the parent or student from providing a written response, the school district shall assist the parent or student in providing the written response.

(g-15) Within 15 days after receiving notice of the hearing request, the non-requesting party may challenge the sufficiency of the request by submitting its challenge in writing to the hearing officer. Within 5 days after receiving the challenge to the sufficiency of the request, the hearing officer shall issue a determination of the challenge in writing to the parties. In the event that the hearing officer upholds the challenge, the party who requested the hearing may, with the consent of the non-requesting party or hearing officer, file an amended request. Amendments are permissible for the purpose of raising issues beyond those in the initial hearing request. In addition, the party who requested the hearing may amend the request once as a matter of right by filing the amended request within 5 days after filing the initial request. An amended request, other than an amended request as a matter of right, shall be filed by the date determined by the hearing officer, but in no event any later than 5 days prior to the date of the hearing. If an amended request, other than an amended request as a matter of right, raises issues that were not part of the initial request, the applicable timeline for a hearing, including the timeline under subsection (g-20) of this Section, shall recommence.

(g-20) Within 15 days after receiving a request for a hearing from a parent or student (if at least 18 years of age or emancipated) or, in the event that the school district requests a hearing, within 15 days after initiating the request, the school district shall convene a resolution meeting with the parent and relevant members of the IEP team who have specific knowledge of the facts contained in the request for the purpose of
resolving the problem that resulted in the request. The resolution meeting shall include a representative of the school district who has decision-making authority on behalf of the school district. Unless the parent is accompanied by an attorney at the resolution meeting, the school district may not include an attorney representing the school district.

The resolution meeting may not be waived unless agreed to in writing by the school district and the parent or student (if at least 18 years of age or emancipated) or the parent or student (if at least 18 years of age or emancipated) and the school district agree in writing to utilize mediation in place of the resolution meeting. If either party fails to cooperate in the scheduling or convening of the resolution meeting, the hearing officer may order an extension of the timeline for completion of the resolution meeting or, upon the motion of a party and at least 7 days after ordering the non-cooperating party to cooperate, order the dismissal of the hearing request or the granting of all relief set forth in the request, as appropriate.

In the event that the school district and the parent or student (if at least 18 years of age or emancipated) agree to a resolution of the problem that resulted in the hearing request, the terms of the resolution shall be committed to writing and signed by the parent or student (if at least 18 years of age or emancipated) and the representative of the school district with decision-making authority. The agreement shall be legally binding and shall be enforceable in any State or federal court of competent jurisdiction. In the event that the parties utilize the resolution meeting process, the process shall continue until no later than the 30th day following the receipt of the hearing request by the non-requesting party (or as properly extended by order of the hearing officer) to resolve the issues underlying the request, at which time the timeline for completion of the impartial due process hearing shall commence. The State Board of Education may, by rule, establish additional procedures for the conduct of resolution meetings.

(g-25) If mutually agreed to in writing, the parties to a hearing request may request State-sponsored mediation as a substitute for the resolution process described in subsection (g-20) of this Section or may

utilize mediation at the close of the resolution process if all issues underlying the hearing request have not been resolved through the resolution process.

(g-30) If mutually agreed to in writing, the parties to a hearing request may waive the resolution process described in subsection (g-20) of this Section. Upon signing a written agreement to waive the resolution process, the parties shall be required to forward the written waiver to the hearing officer appointed to the case within 2 business days following the signing of the waiver by the parties. The timeline for the impartial due process hearing shall commence on the date of the signing of the waiver by the parties.

(g-35) The timeline for completing the impartial due process hearing, as set forth in subsection (h) of this Section, shall be initiated upon the occurrence of any one of the following events:

1. The unsuccessful completion of the resolution process as described in subsection (g-20) of this Section.
2. The mutual agreement of the parties to waive the resolution process as described in subsection (g-25) or (g-30) of this Section.

(g-40) The hearing officer shall convene a prehearing conference no later than 14 days before the scheduled date for the due process hearing for the general purpose of aiding in the fair, orderly, and expeditious conduct of the hearing. The hearing officer shall provide the parties with written notice of the prehearing conference at least 7 days in advance of the conference. The written notice shall require the parties to notify the hearing officer by a date certain whether they intend to participate in the prehearing conference. The hearing officer may conduct the prehearing conference in person or by telephone. Each party shall disclose at the prehearing conference (1) disclose whether it is represented by legal counsel or intends to retain legal counsel; (2) clarify the matters it believes to be in dispute in the case and the specific relief being sought; (3) disclose whether there are any additional evaluations for the student that it intends to introduce into the hearing record that have not been previously disclosed to the other parties; (4) disclose a list of all documents it intends

to introduce into the hearing record, including the date and a brief
description of each document; and (5) disclose the names of all witnesses
it intends to call to testify at the hearing. The hearing officer shall specify
the order of presentation to be used at the hearing. If the prehearing
conference is held by telephone, the parties shall transmit the information
required in this paragraph in such a manner that it is available to all parties
at the time of the prehearing conference. The State Board of Education
may shall, by rule, establish additional procedures for the conduct of
prehearing conferences.

(g-45) The impartial due process hearing officer shall not initiate or
participate in any ex parte communications with the parties, except to
arrange the date, time, and location of the prehearing conference, and due
process hearing, or other status conferences convened at the discretion of
the hearing officer and to receive confirmation of whether a party intends
to participate in the prehearing conference.

(g-50) The parties shall disclose and provide to each other any
evidence which they intend to submit into the hearing record no later than
5 days before the hearing. Any party to a hearing has the right to prohibit
the introduction of any evidence at the hearing that has not been disclosed
to that party at least 5 days before the hearing. The party requesting a
hearing shall not be permitted at the hearing to raise issues that were not
raised in the party's initial or amended request, unless otherwise
permitted in this Section.

(g-55) All reasonable efforts must be made by the parties to
present their respective cases at the hearing within a cumulative period of
7 days. When scheduling hearing dates, the hearing officer shall schedule
the final day of the hearing no more than 30 calendar days after the first
day of the hearing unless good cause is shown. This subsection (g-55)
shall not be applied in a manner that (i) denies any party to the hearing a
fair and reasonable allocation of time and opportunity to present its case
in its entirety or (ii) deprives any party to the hearing of the safeguards
accorded under the federal Individuals with Disabilities Education
Improvement Act of 2004 (Public Law 108-446), regulations promulgated
under the Individuals with Disabilities Education Improvement Act of

2004, or any other applicable law. The school district shall present evidence that the special education needs of the child have been appropriately identified and that the special education program and related services proposed to meet the needs of the child are adequate, appropriate, and available. Any party to the hearing shall have the right to (1) be represented by counsel and be accompanied and advised by individuals with special knowledge or training with respect to the problems of children with disabilities, at the party's own expense; (2) present evidence and confront and cross-examine witnesses; (3) move for the exclusion of witnesses from the hearing until they are called to testify, provided, however, that this provision may not be invoked to exclude the individual designated by a party to assist that party or its representative in the presentation of the case; (4) obtain a written or electronic verbatim record of the proceedings within 30 days of receipt of a written request from the parents by the school district; and (5) obtain a written decision, including findings of fact and conclusions of law, within 10 days after the conclusion of the hearing. If at issue, the school district shall present evidence that it has properly identified and evaluated the nature and severity of the student's suspected or identified disability and that, if the student has been or should have been determined eligible for special education and related services, that it is providing or has offered a free appropriate public education to the student in the least restrictive environment, consistent with procedural safeguards and in accordance with an individualized educational program. At any time prior to the conclusion of the hearing, the impartial due process hearing officer shall have the authority to require additional information and order independent evaluations for the student at the expense of the school district. The State Board of Education and the school district shall share equally the costs of providing a written or electronic verbatim record of the proceedings. Any party may request that the due process hearing officer issue a subpoena to compel the testimony of witnesses or the production of documents relevant to the resolution of the hearing. Whenever a person refuses to comply with any subpoena issued under this Section, the circuit court of the county in which that hearing is pending, on application of the impartial hearing officer or the

party requesting the issuance of the subpoena, may compel compliance through the contempt powers of the court in the same manner as if the requirements of a subpoena issued by the court had been disobeyed.

(h) The impartial hearing officer shall issue a written decision, including findings of fact and conclusions of law, within 10 days after the conclusion of the hearing and send by certified mail a copy of the decision to the parents, guardian, or student (if the student requests the hearing), the school district, the director of special education, legal representatives of the parties, and the State Board of Education. Unless the hearing officer has granted specific extensions of time at the request of a party, a final decision, including the clarification of a decision requested under this subsection, shall be reached and mailed to the parties named above not later than 45 days after the initiation of the timeline for conducting the hearing, as described in subsection (g-35) of this Section request for hearing is received by the school district, public agency, or the State Board of Education, whichever is sooner. The decision shall specify the educational and related services that shall be provided to the student in accordance with the student's needs and the timeline for which the school district shall submit evidence to the State Board of Education to demonstrate compliance with the hearing officer's decision in the event that the decision orders the school district to undertake corrective action. The hearing officer shall retain jurisdiction for the sole purpose of considering a request for clarification of the final decision submitted in writing by a party to the impartial hearing officer within 5 days after receipt of the decision. A copy of the request for clarification shall specify the portions of the decision for which clarification is sought and shall be mailed to all parties of record and to the State Board of Education. The request shall operate to stay implementation of those portions of the decision for which clarification is sought, pending action on the request by the hearing officer, unless the parties otherwise agree. The hearing officer shall issue a clarification of the specified portion of the decision or issue a partial or full denial of the request in writing within 10 days of receipt of the request and mail copies to all parties to whom the decision was mailed. This subsection does not permit a party to request, or authorize a hearing

officer to entertain, reconsideration of the decision itself. The statute of limitations for seeking review of the decision shall be tolled from the date the request is submitted until the date the hearing officer acts upon the request. Upon the filing of a civil action pursuant to subsection (i) of this Section, the hearing officer shall no longer exercise jurisdiction over the case. The hearing officer's decision shall be binding upon the school district and the parents or guardian unless a civil action is commenced.

(i) Any party to an impartial due process hearing aggrieved by the final written decision of the impartial due process hearing officer shall have the right to commence a civil action with respect to the issues presented in the impartial due process hearing. That civil action shall be brought in any court of competent jurisdiction within 120 days after a copy of the decision of the impartial due process hearing officer is mailed to the party as provided in subsection (h). The civil action authorized by this subsection shall not be exclusive of any rights or causes of action otherwise available. The commencement of a civil action under this subsection shall operate as a supersedeas. In any action brought under this subsection the Court shall receive the records of the impartial due process hearing, shall hear additional evidence at the request of a party, and, basing its decision on the preponderance of the evidence, shall grant such relief as the court determines is appropriate. In any instance where a school district willfully disregards applicable regulations or statutes regarding a child covered by this Article, and which disregard has been detrimental to the child, the school district shall be liable for any reasonable attorney's fees incurred by the parent or guardian in connection with proceedings under this Section.

(j) During the pendency of any administrative or judicial proceeding conducted pursuant to this Section, unless the school district and the parents or guardian of the student (if at least 18 years of age or emancipated) otherwise agree, the student shall remain in his or her present educational placement and continue in his or her present eligibility status and special education and related services, if any. If the hearing officer orders a change in the eligibility status, educational placement, or special education and related services of the student, that change shall not
be implemented until 30 days have elapsed following the date the hearing officer's decision is mailed to the parties in order to allow any party aggrieved by the decision to commence a civil action to stay implementation of the decision. If applying for initial admission to the school district, the student shall, with the consent of the parents (if the student is not at least 18 years of age or emancipated) or guardian, be placed in the school district program until all such proceedings have been completed. The costs for any special education and related services or placement incurred following 60 school days after the initial request for evaluation shall be borne by the school district if the services or placement is in accordance with the final determination as to the special education and related services or placement that must be provided to the child, provided that during that 60 day period there have been no delays caused by the child's parent or guardian.

(k) Whenever the parents or guardian of a child of the type described in Section 14-1.02 are not known, are unavailable, or the child is a ward of the State, a person shall be assigned to serve as surrogate parent for the child in matters relating to the identification, evaluation, and educational placement of the child and the provision of a free appropriate public education to the child. Persons shall be assigned as surrogate parents by the State Superintendent of Education. The State Board of Education shall promulgate rules and regulations establishing qualifications of those persons and their responsibilities and the procedures to be followed in making assignments of persons as surrogate parents. Surrogate parents shall not be employees of the school district, an agency created by joint agreement under Section 10-22.31, an agency involved in the education or care of the student, or the State Board of Education. Services of any person assigned as surrogate parent shall terminate if the parent or guardian becomes available unless otherwise requested by the parents or guardian. The assignment of a person as surrogate parent at no time supersedes, terminates, or suspends the parents' or guardians' legal authority relative to the child. Any person participating in good faith as surrogate parent on behalf of the child before school officials or a hearing officer shall have immunity from civil or criminal

liability that otherwise might result by reason of that participation, except in cases of willful and wanton misconduct.

(l) At all stages of the hearing the hearing officer shall require that interpreters be made available by the school district for persons who are deaf or for persons whose normally spoken language is other than English.

(m) If any provision of this Section or its application to any person or circumstance is held invalid, the invalidity of that provision or application does not affect other provisions or applications of the Section that can be given effect without the invalid application or provision, and to this end the provisions of this Section are severable, unless otherwise provided by this Section.

Such leases may be entered into contemporaneously with any financing to be done by the Authority and payments under the terms of the lease shall begin at any time after execution of any such lease.

(c) In the event of non-payment of rents reserved in such leases, maintain and operate such facilities and sites or execute leases thereof to others for any suitable purposes. Such leases to the officers, departments, boards, commissions, other agencies, the respective Boards of Trustees, or the School Building Commission or any public community college district board shall contain the provision that rents under such leases shall be payable solely from appropriations to be made by the General Assembly for the payment of such rent and any revenues derived from the operation of the leased premises.

(d) Borrow money and issue and sell bonds in such amount or amounts as the Authority may determine for the purpose of acquiring, constructing, completing or remodeling, or putting fixed equipment in any such facility; refund and refinance the same from time to time as often as advantageous and in the public interest to do so; and pledge any and all income of such Authority, and any revenues derived from such facilities,

or any combination thereof, to secure the payment of such bonds and to redeem such bonds. All such bonds are subject to the provisions of Section 6 of this Act.

In addition to the permanent financing authorized by Sections 5 and 6 of this Act, the Illinois Building Authority may borrow money and issue interim notes in evidence thereof for any of the projects, or to perform any of the duties authorized under this Act, and in addition may borrow money and issue interim notes for planning, architectural and engineering, acquisition of land, and purchase of fixed equipment as follows:

1. Whenever the Authority considers it advisable and in the interests of the Authority to borrow funds temporarily for any of the purposes enumerated in this Section, the Authority may from time to time, and pursuant to appropriate resolution, issue interim notes to evidence such borrowings including funds for the payment of interest on such borrowings and funds for all necessary and incidental expenses in connection with any of the purposes provided for by this Section and this Act until the date of the permanent financing. Any resolution authorizing the issuance of such notes shall describe the project to be undertaken and shall specify the principal amount, rate of interest (not exceeding the maximum rate authorized by the Bond Authorization Act, as amended at the time of the making of the contract,) and maturity date, but not to exceed 5 years from date of issue, and such other terms as may be specified in such resolution; however, time of payment of any such notes may be extended for a period of not exceeding 3 years from the maturity date thereof.

The Authority may provide for the registration of the notes in the name of the owner either as to principal alone, or as to both principal and interest, on such terms and conditions as the Authority may determine by the resolution authorizing their issue. The notes shall be issued from time to time by the Authority as funds are borrowed, in the manner the Authority may determine. Interest on the notes may be made payable semiannually, annually

The notes may be executed in the name of the Authority by the Chairman of the Authority or by any other officer or officers of the Authority as the Authority by resolution may direct, shall be attested by the Secretary or such other officer or officers of the Authority as the Authority may by resolution direct, and be sealed with the Authority's corporate seal. All such notes and the interest thereon may be secured by a pledge of any income and revenue derived by the Authority from the project to be undertaken with the proceeds of the notes and shall be payable solely from such income and revenue and from the proceeds to be derived from the sale of any revenue bonds for permanent financing authorized to be issued under Sections 5 and 6 of this Act, and from the property acquired with the proceeds of the notes.

Contemporaneously with the issue of revenue bonds as provided by this Act, all interim notes, even though they may not then have matured, shall be paid, both principal and interest to date of payment, from the funds derived from the sale of revenue bonds for the permanent financing and such interim notes shall be surrendered and canceled.

2. The Authority, in order further to secure the payment of the interim notes, is, in addition to the foregoing, authorized and empowered to make any other or additional covenants, terms and conditions not inconsistent with the provisions of subparagraph (a) of this Section, and do any and all acts and things as may be necessary or convenient or desirable in order to secure payment of its interim notes, or in the discretion of the Authority, as will tend to make the interim notes more acceptable to lenders, notwithstanding that the covenants, acts or things may not be enumerated herein; however, nothing contained in this subparagraph shall authorize the Authority to secure the payment of the interim notes out of property or facilities, other than the

facilities acquired with the proceeds of the interim notes, and any net income and revenue derived from the facilities and the proceeds of revenue bonds as hereinabove provided.

(f) Enter into contracts regarding any matter connected with any corporate purpose within the objects and purposes of this Act.

(g) Employ agents and employees necessary to carry out the duties and purposes of the Authority.

(i) Have and use a common seal and alter the same at pleasure.

The Interim notes shall constitute State debt of the State of Illinois within the meaning of any of the provisions of the Constitution and statutes of the State of Illinois.

No member, officer, agent or employee of the Authority, nor any other person who executes interim notes, shall be liable personally by reason of the issuance thereof.

With respect to instruments for the payment of money issued under this Section either before, on, or after the effective date of this amendatory Act of 1989, it is and always has been the intention of the General Assembly (i) that the Omnibus Bond Acts are and always have been supplementary grants of power to issue instruments in accordance with the Omnibus Bond Acts, regardless of any provision of this Act that may appear to be or to have been more restrictive than those Acts, (ii) that the provisions of this Section are not a limitation on the supplementary authority granted by the Omnibus Bond Acts, and (iii) that instruments issued under this Section within the supplementary authority granted by the Omnibus Bond Acts are not invalid because of any provision of this Act that may appear to be or to have been more restrictive than those Acts.

Section 20. The School Code is amended by changing Sections 2-3.12, 2-3.62, 5-1, 5-17, 7-14, 7A-11, 11A-12, 11B-11, 11D-9, 14C-1, 14C-8, 15-31, 18-8.05, 18-11, 18-12, 34-56, 34-73, and 34-74 as follows:

(105 ILCS 5/2-3.12) (from Ch. 122, par. 2-3.12)

Sec. 2-3.12. School building code. To prepare for school boards with the advice of the Department of Public Health, the Capital Development Board, and the State Fire Marshal a school building code that will conserve the health and safety and general welfare of the pupils and school personnel and others who use public school facilities.

The document known as "Efficient and Adequate Standards for the Construction of Schools" applies only to temporary school facilities, new school buildings, and additions to existing schools whose construction contracts are awarded after July 1, 1965. On or before July 1, 1967, each school board shall have its school district buildings that were constructed prior to January 1, 1955, surveyed by an architect or engineer licensed in the State of Illinois as to minimum standards necessary to conserve the health and safety of the pupils enrolled in the school buildings of the district. Buildings constructed between January 1, 1955 and July 1, 1965, not owned by the State of Illinois, shall be surveyed by an architect or engineer licensed in the State of Illinois beginning 10 years after acceptance of the completed building by the school board. Buildings constructed between January 1, 1955 and July 1, 1955 and previously exempt under the provisions of Section 35-27 (now repealed) shall be surveyed prior to July 1, 1977 by an architect or engineer licensed in the

State of Illinois. The architect or engineer, using the document known as 
"Building Specifications for Health and Safety in Public Schools" as a 
guide, shall make a report of the findings of the survey to the school board, 
giving priority in that report to fire safety problems and recommendations 
thereon if any such problems exist. The school board of each district so 
surveyed and receiving a report of needed recommendations to be made to 
 improve standards of safety and health of the pupils enrolled has until July 
1, 1970, or in case of buildings not owned by the State of Illinois and 
 completed between January 1, 1955 and July 1, 1965 or in the case of 
buildings previously exempt under the provisions of Section 35-27 has a 
period of 3 years after the survey is commenced, to effectuate those 
recommendations, giving first attention to the recommendations in the 
survey report having priority status, and is authorized to levy the tax 
provided for in Section 17-2.11, according to the provisions of that 
Section, to make such improvements. School boards unable to effectuate 
those recommendations prior to July 1, 1970, on July 1, 1980 in the case 
of buildings previously exempt under the provisions of Section 35-27, may 
petition the State Superintendent of Education upon the recommendation 
of the Regional Superintendent for an extension of time. The extension of 
time may be granted by the State Superintendent of Education for a period 
of one year, but may be extended from year to year provided substantial 
progress, in the opinion of the State Superintendent of Education, is being 
made toward compliance. However, for fire protection issues, only one 
one-year extension may be made, and no other provision of this Code or 
an applicable code may supersede this requirement. For routine 
inspections, fire officials shall provide written notice to the principal of the 
school to schedule a mutually agreed upon time for the fire safety check. 
However, no more than 2 routine inspections may be made in a calendar 
year. 

Within 2 years after the effective date of this amendatory Act of 
1983, and every 10 years thereafter, or at such other times as the State 
Board of Education deems necessary or the regional superintendent so 
orders, each school board subject to the provisions of this Section shall 
again survey its school buildings and effectuate any recommendations in

accordance with the procedures set forth herein. An architect or engineer licensed in the State of Illinois is required to conduct the surveys under the provisions of this Section and shall make a report of the findings of the survey titled "safety survey report" to the school board. The school board shall approve the safety survey report, including any recommendations to effectuate compliance with the code, and submit it to the Regional Superintendent. The Regional Superintendent shall render a decision regarding approval or denial and submit the safety survey report to the State Superintendent of Education. The State Superintendent of Education shall approve or deny the report including recommendations to effectuate compliance with the code and, if approved, issue a certificate of approval. Upon receipt of the certificate of approval, the Regional Superintendent shall issue an order to effect any approved recommendations included in the report. Items in the report shall be prioritized. Urgent items shall be considered as those items related to life safety problems that present an immediate hazard to the safety of students. Required items shall be considered as those items that are necessary for a safe environment but present less of an immediate hazard to the safety of students. Urgent and required items shall reference a specific rule in the code authorized by this Section that is currently being violated or will be violated within the next 12 months if the violation is not remedied. The school board of each district so surveyed and receiving a report of needed recommendations to be made to maintain standards of safety and health of the pupils enrolled shall effectuate the correction of urgent items as soon as achievable to ensure the safety of the students, but in no case more than one year after the date of the State Superintendent of Education's approval of the recommendation. Required items shall be corrected in a timely manner, but in no case more than 5 years from the date of the State Superintendent of Education's approval of the recommendation. Once each year the school board shall submit a report of progress on completion of any recommendations to effectuate compliance with the code. For each year that the school board does not effectuate any or all approved recommendations, it shall petition the Regional Superintendent and the State Superintendent of Education detailing what work was completed in

the previous year and a work plan for completion of the remaining work. If in the judgement of the Regional Superintendent and the State Superintendent of Education substantial progress has been made and just cause has been shown by the school board, the petition for a one year extension of time may be approved.

As soon as practicable, but not later than 2 years after the effective date of this amendatory Act of 1992, the State Board of Education shall combine the document known as "Efficient and Adequate Standards for the Construction of Schools" with the document known as "Building Specifications for Health and Safety in Public Schools" together with any modifications or additions that may be deemed necessary. The combined document shall be known as the "Health/Life Safety Code for Public Schools" and shall be the governing code for all facilities that house public school students or are otherwise used for public school purposes, whether such facilities are permanent or temporary and whether they are owned, leased, rented, or otherwise used by the district. Facilities owned by a school district but that are not used to house public school students or are not used for public school purposes shall be governed by separate provisions within the code authorized by this Section.

The 10 year survey cycle specified in this Section shall continue to apply based upon the standards contained in the "Health/Life Safety Code for Public Schools", which shall specify building standards for buildings that are constructed prior to the effective date of this amendatory Act of 1992 and for buildings that are constructed after that date.

The "Health/Life Safety Code for Public Schools" shall be the governing code for public schools; however, the provisions of this Section shall not preclude inspection of school premises and buildings pursuant to Section 9 of the Fire Investigation Act, provided that the provisions of the "Health/Life Safety Code for Public Schools", or such predecessor document authorized by this Section as may be applicable are used, and provided that those inspections are coordinated with the Regional Superintendent having jurisdiction over the public school facility. Nothing in this Section shall be construed to prohibit a local fire department, fire protection district, or the Office of the State Fire Marshal from conducting

a fire safety check in a public school. Upon being notified by a fire official that corrective action must be taken to resolve a violation, the school board shall take corrective action within one year. However, violations that present imminent danger must be addressed immediately.

Any agency having jurisdiction beyond the scope of the applicable document authorized by this Section may issue a lawful order to a school board to effectuate recommendations, and the school board receiving the order shall certify to the Regional Superintendent and the State Superintendent of Education when it has complied with the order.

The State Board of Education is authorized to adopt any rules that are necessary relating to the administration and enforcement of the provisions of this Section. The code authorized by this Section shall apply only to those school districts having a population of less than 500,000 inhabitants.

The electors in all of the school districts subject to the jurisdiction and authority of the township treasurer and trustees of schools of the township in which those offices are sought to be abolished shall vote at the consolidated election on the proposition to abolish the offices of township treasurer and trustee of schools of that township. If a majority of the electors in all of the school districts combined voting on the proposition vote in favor of the proposition, then the proposition shall be deemed to have passed; but if a majority of the electors voting on the proposition in all of the school district fails to vote in favor of the proposition as submitted to them, then the proposition shall not be deemed to have passed and the offices of township treasurer and trustee of schools of the township in which those offices were sought to be abolished shall not be abolished, unless and until the proceedings detailed in paragraphs (1) through (3) of this subsection and the conditions set forth in this paragraph are met.

If the proposition to abolish the offices of township treasurer and trustee of schools of a township is deemed to have passed at the consolidated election as provided in this subsection, those offices shall be deemed abolished by operation of law effective on January 1 of the calendar year immediately following the calendar year in which that consolidated election is held, provided that if after the election, the trustees of schools by resolution elect to abolish the offices of township treasurer and trustee of schools effective on July 1 immediately following the election, then the offices shall be abolished on July 1 immediately following the election. On the date that the offices of township treasurer and trustee of schools of a township are deemed abolished by operation of law, the school board of each elementary and unit school district and the school board of each high school district that is subject to the jurisdiction and authority of the township treasurer and trustees of schools of that township at the time those offices are abolished: (i) shall appoint its own school treasurer as provided in Section 8-1; and (ii) unless the term of the contract of a township treasurer expires on the date that the office of township treasurer is abolished, shall pay to the former township treasurer

its proportionate share of any aggregate compensation that, were the office of township treasurer not abolished at that time, would have been payable to the former township treasurer after that date over the remainder of the term of the contract of the former township treasurer that began prior to but ends after that date. In addition, on the date that the offices of township treasurer and trustee of schools of a township are deemed abolished as provided in this subsection, the school board of each elementary school, high school and unit school district that until that date is subject to the jurisdiction and authority of the township treasurer and trustees of schools of that township shall be deemed by operation of law to have agreed and assumed to pay and, when determined, shall pay to the Illinois Municipal Retirement Fund a proportionate share of the unfunded liability existing in that Fund at the time these offices are abolished in that calendar year for all annuities or other benefits then or thereafter to become payable from that Fund with respect to all periods of service performed prior to that date as a participating employee in that Fund by persons serving during those periods of service as a trustee of schools, township treasurer or regular employee in the office of the township treasurer of that township. That unfunded liability shall be actuarially determined by the board of trustees of the Illinois Municipal Retirement Fund, and the board of trustees shall thereupon notify each school board required to pay a proportionate share of that unfunded liability of the aggregate amount of the unfunded liability so determined. The amount so paid to the Illinois Municipal Retirement Fund by each of those school districts shall be credited to the account of the township in that Fund. For each elementary school, high school and unit school district under the jurisdiction and authority of a township treasurer and trustees of schools of a township in which those offices are abolished as provided in this subsection, each such district's proportionate share of the aggregate compensation payable to the former township treasurer as provided in this paragraph and each such district's proportionate share of the aggregate amount of the unfunded liability payable to the Illinois Municipal Retirement Fund as provided in this paragraph shall be computed in accordance with the ratio that the number of pupils in average daily attendance in each such district as reported in
schedules prepared under Section 24-19 for the school year last ending prior to the date on which the offices of township treasurer and trustee of schools of that township are abolished bears to the aggregate number of pupils in average daily attendance in all of those districts as so reported for that school year.

Upon abolition of the offices of township treasurer and trustee of schools of a township as provided in this subsection: (i) the regional board of school trustees, in its corporate capacity, shall be deemed the successor in interest to the former trustees of schools of that township with respect to the common school lands and township loanable funds of the township; (ii) all right, title and interest existing or vested in the former trustees of schools of that township in the common school lands and township loanable funds of the township, and all records, moneys, securities and other assets, rights of property and causes of action pertaining to or constituting a part of those common school lands or township loanable funds, shall be transferred to and deemed vested by operation of law in the regional board of school trustees, which shall hold legal title to, manage and operate all common school lands and township loanable funds of the township, receive the rents, issues and profits therefrom, and have and exercise with respect thereto the same powers and duties as are provided by this Code to be exercised by regional boards of school trustees when acting as township land commissioners in counties having at least 220,000 but fewer than 2,000,000 inhabitants; (iii) the regional board of school trustees shall select to serve as its treasurer with respect to the common school lands and township loanable funds of the township a person from time to time also serving as the appointed school treasurer of any school district that was subject to the jurisdiction and authority of the township treasurer and trustees of schools of that township at the time those offices were abolished, and the person selected to also serve as treasurer of the regional board of school trustees shall have his compensation for services in that capacity fixed by the regional board of school trustees, to be paid from the township loanable funds, and shall make to the regional board of school trustees the reports required to be made by treasurers of township land commissioners, give bond as required by treasurers of township land

In Class II county school units (excluding therefrom, however, any township therein in which the offices of township treasurer and trustee of schools have been abolished as provided in subsection (c) of Section 5-1) if any balance of the income from the permanent township fund in any township remains after paying such items, such balance shall be apportioned and distributed to the districts and parts of districts in the township -- including any district which has withdrawn from the jurisdiction and authority of the trustees of schools of the township and which has elected or appointed its own school treasurer as provided in subsection (b) of Section 5-1 -- in which schools have been kept as required by law during the preceding year ending June 30, according to the number of pupils in average daily attendance in grades one to eight inclusive as reported in schedules prepared under Section 24-19. At the semi-annual meetings in all such townships all remaining funds subject to distribution shall be apportioned and distributed to the districts and parts of districts in the township in which schools have been kept as required by law during the preceding year ending June 30, in the manner and subject to the limitations prescribed in Sections 18-2 through 18-11 for the distribution of the common school fund among the counties, provided that -- except for any balance of the income from the permanent township fund remaining after payment of the items set forth in subparagraphs 1, 2, 3 and 4 of this Section -- no funds shall be apportioned or distributed to any school district which has withdrawn from the jurisdiction and authority of the trustees of schools and appointed its own school treasurer pursuant to Section 5-1; and the trustees shall direct the treasurer to make a regular monthly apportionment and distribution between semi-annual meetings, in the manner prescribed by those sections, of any available funds on hand

In Class I county school units and in any township forming a part of a Class II county school unit in which township the offices of township treasurer and trustee of schools have been abolished as provided in subsection (c) of Section 5-1, if any balance of income from the permanent township fund in any township remains after paying such items, such balance or a part thereof equal to but not greater than the then current tax levy or tax levies for common school purposes by all the school districts or parts of school districts in said township on property in said township in process of collection in the county wherein the township having such fund is located, shall, upon an order drawn by the treasurer and signed by the president and secretary of the township land commissioners or regional board of school trustees, be paid annually on or before February 1 to the County Treasurer of the county in which such township is situated. It shall then be the duty of the County Treasurer to apply and credit the sums so received upon all tax bills for school purposes of the taxpayers in the township, said sum to be applied and credited proportionately upon the basis of the value of assessed property represented by each such tax bill. Any sum received by the County Treasurer in excess of the amount required to discharge in full the amount of all taxes for school purposes so extended against taxable property within the township shall be held by the County Treasurer and applied to taxes subsequently extended for such purposes: Provided, that if a petition, signed by at least 5% of the legal voters of the township, is presented to the regional superintendent of schools of the educational service region in which the township is located requesting a vote on the proposition that such balance of the income from the permanent township fund shall be apportioned and distributed to the districts and parts of districts in the township in which schools have been kept as required by law during the preceding year ending June 30, according to the number of pupils in average daily attendance in grades one to eight, inclusive, as reported in schedules prepared pursuant to Section 24-19 upon an order drawn by the treasurer and signed by the president and secretary of the township land commissioners or regional

The Certification Board shall issue certificates valid for teaching in all grades of the common school in transitional bilingual education programs to any person who presents it with satisfactory evidence that he possesses an adequate speaking and reading ability in a language other than English in which transitional bilingual education is offered and communicative skills in English, and possessed within 5 years previous to his or her applying for a certificate under this Section a valid teaching certificate issued by a foreign country, or by a State or possession or territory of the United States, or other evidence of teaching preparation as may be determined to be sufficient by the Certification Board, or holds a degree from an institution of higher learning in a foreign country which the Certification Board determines to be the equivalent of a bachelor's degree from a recognized institution of higher learning in the United States; provided that any person seeking a certificate under this Section must meet the following additional requirements:

(1) Such persons must be in good health;

New matter indicated by italics - deletions by strikeout.
(2) Such persons must be of sound moral character;
(3) Such persons must be legally present in the United States and possess legal authorization for employment;
(4) Such persons must not be employed to replace any presently employed teacher who otherwise would not be replaced for any reason.

Certificates issuable pursuant to this Section shall be issuable only during the 5 years immediately following the effective date of this Act and thereafter for additional periods of one year only upon a determination by the State Board of Education that a school district lacks the number of teachers necessary to comply with the mandatory requirements of Section Sections 14C-2.1 and 14C-3 of this Article for the establishment and maintenance of programs of transitional bilingual education and said certificates issued by the Certification Board shall be valid for a period of 6 years following their date of issuance and shall not be renewed, except that one renewal for a period of two years may be granted if necessary to permit the holder of a certificate issued under this Section to acquire a teaching certificate pursuant to Article 21 of this Code. Such certificates and the persons to whom they are issued shall be exempt from the provisions of Article 21 of this Code except that Sections 21-12, 21-13, 21-16, 21-17, 21-19, 21-21, 21-22, 21-23 and 21-24 shall continue to be applicable to all such certificates.

After the effective date of this amendatory Act of 1984, an additional renewal for a period to expire August 31, 1985, may be granted. The State Board of Education shall report to the General Assembly on or before January 31, 1985 its recommendations for the qualification of teachers of bilingual education and for the qualification of teachers of English as a second language. Said qualification program shall take effect no later than August 31, 1985.

Beginning July 1, 2001, the State Board of Education shall implement a test or tests to assess the speaking, reading, writing, and grammar skills of applicants for a certificate issued under this Section in the English language and in the language of the transitional bilingual education program requested by the applicant and shall establish appropriate fees for these tests. The State Board of Education, in
consultation with the Certification Board, shall promulgate rules to implement the required tests, including specific provisions to govern test selection, test validation, determination of a passing score, administration of the test or tests, frequency of administration, applicant fees, identification requirements for test takers, frequency of applicants taking the tests, the years for which a score is valid, waiving tests for individuals who have satisfactorily passed other tests, and the consequences of dishonest conduct in the application for or taking of the tests.

If the qualifications of an applicant for a certificate valid for teaching in transitional bilingual education programs in all grades of the common schools do not meet the requirements established for the issuance of that certificate, the Certification Board nevertheless shall issue the applicant a substitute teacher's certificate under Section 21-9 whenever it appears from the face of the application submitted for certification as a teacher of transitional bilingual education and the evidence presented in support thereof that the applicant's qualifications meet the requirements established for the issuance of a certificate under Section 21-9; provided, that if it does not appear from the face of such application and supporting evidence that the applicant is qualified for issuance of a certificate under Section 21-9 the Certification Board shall evaluate the application with reference to the requirements for issuance of certificates under Section 21-9 and shall inform the applicant, at the time it denies the application submitted for certification as a teacher of transitional bilingual education, of the additional qualifications which the applicant must possess in order to meet the requirements established for issuance of (i) a certificate valid for teaching in transitional bilingual education programs in all grades of the common schools and (ii) a substitute teacher's certificate under Section 21-9.

Sec. 18-8.05. Basis for apportionment of general State financial aid and supplemental general State aid to the common schools for the 1998-1999 and subsequent school years.

(A) General Provisions.

(1) The provisions of this Section apply to the 1998-1999 and subsequent school years. The system of general State financial aid provided for in this Section is designed to assure that, through a combination of State financial aid and required local resources, the financial support provided each pupil in Average Daily Attendance equals or exceeds a prescribed per pupil Foundation Level. This formula approach imputes a level of per pupil Available Local Resources and provides for the basis to calculate a per pupil level of general State financial aid that, when added to Available Local Resources, equals or exceeds the Foundation Level. The amount of per pupil general State financial aid for school districts, in general, varies in inverse relation to Available Local Resources. Per pupil amounts are based upon each school district's Average Daily Attendance as that term is defined in this Section.

New matter indicated by italics - deletions by strikeout.
(2) In addition to general State financial aid, school districts with specified levels or concentrations of pupils from low income households are eligible to receive supplemental general State financial aid grants as provided pursuant to subsection (H). The supplemental State aid grants provided for school districts under subsection (H) shall be appropriated for distribution to school districts as part of the same line item in which the general State financial aid of school districts is appropriated under this Section.

(3) To receive financial assistance under this Section, school districts are required to file claims with the State Board of Education, subject to the following requirements:

(a) Any school district which fails for any given school year to maintain school as required by law, or to maintain a recognized school is not eligible to file for such school year any claim upon the Common School Fund. In case of nonrecognition of one or more attendance centers in a school district otherwise operating recognized schools, the claim of the district shall be reduced in the proportion which the Average Daily Attendance in the attendance center or centers bear to the Average Daily Attendance in the school district. A "recognized school" means any public school which meets the standards as established for recognition by the State Board of Education. A school district or attendance center not having recognition status at the end of a school term is entitled to receive State aid payments due upon a legal claim which was filed while it was recognized.

(b) School district claims filed under this Section are subject to Sections 18-9, 18-10, and 18-12, except as otherwise provided in this Section.

(c) If a school district operates a full year school under Section 10-19.1, the general State aid to the school district shall be determined by the State Board of Education in accordance with this Section as near as may be applicable.

(d) (Blank).

New matter indicated by italics - deletions by strikeout.
(4) Except as provided in subsections (H) and (L), the board of any district receiving any of the grants provided for in this Section may apply those funds to any fund so received for which that board is authorized to make expenditures by law.

School districts are not required to exert a minimum Operating Tax Rate in order to qualify for assistance under this Section.

(5) As used in this Section the following terms, when capitalized, shall have the meaning ascribed herein:

(a) "Average Daily Attendance": A count of pupil attendance in school, averaged as provided for in subsection (C) and utilized in deriving per pupil financial support levels.

(b) "Available Local Resources": A computation of local financial support, calculated on the basis of Average Daily Attendance and derived as provided pursuant to subsection (D).

(c) "Corporate Personal Property Replacement Taxes": Funds paid to local school districts pursuant to "An Act in relation to the abolition of ad valorem personal property tax and the replacement of revenues lost thereby, and amending and repealing certain Acts and parts of Acts in connection therewith", certified August 14, 1979, as amended (Public Act 81-1st S.S.-1).

(d) "Foundation Level": A prescribed level of per pupil financial support as provided for in subsection (B).

(e) "Operating Tax Rate": All school district property taxes extended for all purposes, except Bond and Interest, Summer School, Rent, Capital Improvement, and Vocational Education Building purposes.

(B) Foundation Level.

(1) The Foundation Level is a figure established by the State representing the minimum level of per pupil financial support that should be available to provide for the basic education of each pupil in Average Daily Attendance. As set forth in this Section, each school district is assumed to exert a sufficient local taxing effort such that, in combination with the aggregate of general State financial aid provided the district, an
aggregate of State and local resources are available to meet the basic education needs of pupils in the district.

(2) For the 1998-1999 school year, the Foundation Level of support is $4,225. For the 1999-2000 school year, the Foundation Level of support is $4,325. For the 2000-2001 school year, the Foundation Level of support is $4,425. For the 2001-2002 school year and 2002-2003 school year, the Foundation Level of support is $4,560. For the 2003-2004 school year, the Foundation Level of support is $4,810.

(3) For the 2004-2005 school year and each school year thereafter, the Foundation Level of support is $4,964 or such greater amount as may be established by law by the General Assembly.

(C) Average Daily Attendance.

(1) For purposes of calculating general State aid pursuant to subsection (E), an Average Daily Attendance figure shall be utilized. The Average Daily Attendance figure for formula calculation purposes shall be the monthly average of the actual number of pupils in attendance of each school district, as further averaged for the best 3 months of pupil attendance for each school district. In compiling the figures for the number of pupils in attendance, school districts and the State Board of Education shall, for purposes of general State aid funding, conform attendance figures to the requirements of subsection (F).

(2) The Average Daily Attendance figures utilized in subsection (E) shall be the requisite attendance data for the school year immediately preceding the school year for which general State aid is being calculated or the average of the attendance data for the 3 preceding school years, whichever is greater. The Average Daily Attendance figures utilized in subsection (H) shall be the requisite attendance data for the school year immediately preceding the school year for which general State aid is being calculated.

(D) Available Local Resources.

(1) For purposes of calculating general State aid pursuant to subsection (E), a representation of Available Local Resources per pupil, as that term is defined and determined in this subsection, shall be utilized. Available Local Resources per pupil shall include a calculated dollar
amount representing local school district revenues from local property taxes and from Corporate Personal Property Replacement Taxes, expressed on the basis of pupils in Average Daily Attendance. Calculation of Available Local Resources shall exclude any tax amnesty funds received as a result of Public Act 93-26.

(2) In determining a school district's revenue from local property taxes, the State Board of Education shall utilize the equalized assessed valuation of all taxable property of each school district as of September 30 of the previous year. The equalized assessed valuation utilized shall be obtained and determined as provided in subsection (G).

(3) For school districts maintaining grades kindergarten through 12, local property tax revenues per pupil shall be calculated as the product of the applicable equalized assessed valuation for the district multiplied by 3.00%, and divided by the district's Average Daily Attendance figure. For school districts maintaining grades kindergarten through 8, local property tax revenues per pupil shall be calculated as the product of the applicable equalized assessed valuation for the district multiplied by 2.30%, and divided by the district's Average Daily Attendance figure. For school districts maintaining grades 9 through 12, local property tax revenues per pupil shall be the applicable equalized assessed valuation of the district multiplied by 1.05%, and divided by the district's Average Daily Attendance figure.

(4) The Corporate Personal Property Replacement Taxes paid to each school district during the calendar year 2 years before the calendar year in which a school year begins, divided by the Average Daily Attendance figure for that district, shall be added to the local property tax revenues per pupil as derived by the application of the immediately preceding paragraph (3). The sum of these per pupil figures for each school district shall constitute Available Local Resources as that term is utilized in subsection (E) in the calculation of general State aid.

(E) Computation of General State Aid.

(1) For each school year, the amount of general State aid allotted to a school district shall be computed by the State Board of Education as provided in this subsection.

New matter indicated by italics - deletions by strikeout.
(2) For any school district for which Available Local Resources per pupil is less than the product of 0.93 times the Foundation Level, general State aid for that district shall be calculated as an amount equal to the Foundation Level minus Available Local Resources, multiplied by the Average Daily Attendance of the school district.

(3) For any school district for which Available Local Resources per pupil is equal to or greater than the product of 0.93 times the Foundation Level and less than the product of 1.75 times the Foundation Level, the general State aid per pupil shall be a decimal proportion of the Foundation Level derived using a linear algorithm. Under this linear algorithm, the calculated general State aid per pupil shall decline in direct linear fashion from 0.07 times the Foundation Level for a school district with Available Local Resources equal to the product of 0.93 times the Foundation Level, to 0.05 times the Foundation Level for a school district with Available Local Resources equal to the product of 1.75 times the Foundation Level. The allocation of general State aid for school districts subject to this paragraph 3 shall be the calculated general State aid per pupil figure multiplied by the Average Daily Attendance of the school district.

(4) For any school district for which Available Local Resources per pupil equals or exceeds the product of 1.75 times the Foundation Level, the general State aid for the school district shall be calculated as the product of $218 multiplied by the Average Daily Attendance of the school district.

(5) The amount of general State aid allocated to a school district for the 1999-2000 school year meeting the requirements set forth in paragraph (4) of subsection (G) shall be increased by an amount equal to the general State aid that would have been received by the district for the 1998-1999 school year by utilizing the Extension Limitation Equalized Assessed Valuation as calculated in paragraph (4) of subsection (G) less the general State aid allotted for the 1998-1999 school year. This amount shall be deemed a one time increase, and shall not affect any future general State aid allocations.

(F) Compilation of Average Daily Attendance.

New matter indicated by italics - deletions by strikeout.
(1) Each school district shall, by July 1 of each year, submit to the State Board of Education, on forms prescribed by the State Board of Education, attendance figures for the school year that began in the preceding calendar year. The attendance information so transmitted shall identify the average daily attendance figures for each month of the school year. Beginning with the general State aid claim form for the 2002-2003 school year, districts shall calculate Average Daily Attendance as provided in subdivisions (a), (b), and (c) of this paragraph (1).

(a) In districts that do not hold year-round classes, days of attendance in August shall be added to the month of September and any days of attendance in June shall be added to the month of May.

(b) In districts in which all buildings hold year-round classes, days of attendance in July and August shall be added to the month of September and any days of attendance in June shall be added to the month of May.

(c) In districts in which some buildings, but not all, hold year-round classes, for the non-year-round buildings, days of attendance in August shall be added to the month of September and any days of attendance in June shall be added to the month of May. The average daily attendance for the year-round buildings shall be computed as provided in subdivision (b) of this paragraph (1). To calculate the Average Daily Attendance for the district, the average daily attendance for the year-round buildings shall be multiplied by the days in session for the non-year-round buildings for each month and added to the monthly attendance of the non-year-round buildings.

Except as otherwise provided in this Section, days of attendance by pupils shall be counted only for sessions of not less than 5 clock hours of school work per day under direct supervision of: (i) teachers, or (ii) non-teaching personnel or volunteer personnel when engaging in non-teaching duties and supervising in those instances specified in subsection (a) of Section 10-22.34 and paragraph 10 of Section 34-18, with pupils of legal school age and in kindergarten and grades 1 through 12.

New matter indicated by italics - deletions by strikeout.
Days of attendance by tuition pupils shall be accredited only to the districts that pay the tuition to a recognized school.

(2) Days of attendance by pupils of less than 5 clock hours of school shall be subject to the following provisions in the compilation of Average Daily Attendance.

(a) Pupils regularly enrolled in a public school for only a part of the school day may be counted on the basis of 1/6 day for every class hour of instruction of 40 minutes or more attended pursuant to such enrollment, unless a pupil is enrolled in a block-schedule format of 80 minutes or more of instruction, in which case the pupil may be counted on the basis of the proportion of minutes of school work completed each day to the minimum number of minutes that school work is required to be held that day.

(b) Days of attendance may be less than 5 clock hours on the opening and closing of the school term, and upon the first day of pupil attendance, if preceded by a day or days utilized as an institute or teachers' workshop.

(c) A session of 4 or more clock hours may be counted as a day of attendance upon certification by the regional superintendent, and approved by the State Superintendent of Education to the extent that the district has been forced to use daily multiple sessions.

(d) A session of 3 or more clock hours may be counted as a day of attendance (1) when the remainder of the school day or at least 2 hours in the evening of that day is utilized for an in-service training program for teachers, up to a maximum of 5 days per school year of which a maximum of 4 days of such 5 days may be used for parent-teacher conferences, provided a district conducts an in-service training program for teachers which has been approved by the State Superintendent of Education; or, in lieu of 4 such days, 2 full days may be used, in which event each such day may be counted as a day of attendance; and (2) when days in addition to those provided in item (1) are scheduled by a school pursuant to its school improvement plan adopted under Article 34 or its revised or

New matter indicated by italics - deletions by strikeout.
amended school improvement plan adopted under Article 2, provided that (i) such sessions of 3 or more clock hours are scheduled to occur at regular intervals, (ii) the remainder of the school days in which such sessions occur are utilized for in-service training programs or other staff development activities for teachers, and (iii) a sufficient number of minutes of school work under the direct supervision of teachers are added to the school days between such regularly scheduled sessions to accumulate not less than the number of minutes by which such sessions of 3 or more clock hours fall short of 5 clock hours. Any full days used for the purposes of this paragraph shall not be considered for computing average daily attendance. Days scheduled for in-service training programs, staff development activities, or parent-teacher conferences may be scheduled separately for different grade levels and different attendance centers of the district.

(e) A session of not less than one clock hour of teaching hospitalized or homebound pupils on-site or by telephone to the classroom may be counted as 1/2 day of attendance, however these pupils must receive 4 or more clock hours of instruction to be counted for a full day of attendance.

(f) A session of at least 4 clock hours may be counted as a day of attendance for first grade pupils, and pupils in full day kindergartens, and a session of 2 or more hours may be counted as 1/2 day of attendance by pupils in kindergartens which provide only 1/2 day of attendance.

(g) For children with disabilities who are below the age of 6 years and who cannot attend 2 or more clock hours because of their disability or immaturity, a session of not less than one clock hour may be counted as 1/2 day of attendance; however for such children whose educational needs so require a session of 4 or more clock hours may be counted as a full day of attendance.

(h) A recognized kindergarten which provides for only 1/2 day of attendance by each pupil shall not have more than 1/2 day of attendance counted in any one day. However, kindergartens may
count 2 1/2 days of attendance in any 5 consecutive school days. When a pupil attends such a kindergarten for 2 half days on any one school day, the pupil shall have the following day as a day absent from school, unless the school district obtains permission in writing from the State Superintendent of Education. Attendance at kindergartens which provide for a full day of attendance by each pupil shall be counted the same as attendance by first grade pupils. Only the first year of attendance in one kindergarten shall be counted, except in case of children who entered the kindergarten in their fifth year whose educational development requires a second year of kindergarten as determined under the rules and regulations of the State Board of Education.

(G) Equalized Assessed Valuation Data.

(1) For purposes of the calculation of Available Local Resources required pursuant to subsection (D), the State Board of Education shall secure from the Department of Revenue the value as equalized or assessed by the Department of Revenue of all taxable property of every school district, together with (i) the applicable tax rate used in extending taxes for the funds of the district as of September 30 of the previous year and (ii) the limiting rate for all school districts subject to property tax extension limitations as imposed under the Property Tax Extension Limitation Law.

The Department of Revenue shall add to the equalized assessed value of all taxable property of each school district situated entirely or partially within a county that is or was subject to the alternative general homestead exemption provisions of Section 15-176 of the Property Tax Code (a) (†) an amount equal to the total amount by which the homestead exemption allowed under Section 15-176 of the Property Tax Code for real property situated in that school district exceeds the total amount that would have been allowed in that school district if the maximum reduction under Section 15-176 was (i) $4,500 in Cook County or $3,500 in all other counties in tax year 2003 or (ii) $5,000 in all counties in tax year 2004 and thereafter and (b) (‡‡) an amount equal to the aggregate amount for the taxable year of all additional exemptions under Section 15-175 of the Property Tax Code for owners with a household income of $30,000 or
less. The county clerk of any county that is or was subject to the alternative general homestead exemption provisions of Section 15-176 of the Property Tax Code shall annually calculate and certify to the Department of Revenue for each school district all homestead exemption amounts under Section 15-176 of the Property Tax Code and all amounts of additional exemptions under Section 15-175 of the Property Tax Code for owners with a household income of $30,000 or less. It is the intent of this paragraph that if the general homestead exemption for a parcel of property is determined under Section 15-176 of the Property Tax Code rather than Section 15-175, then the calculation of Available Local Resources shall not be affected by the difference, if any, between the amount of the general homestead exemption allowed for that parcel of property under Section 15-176 of the Property Tax Code and the amount that would have been allowed had the general homestead exemption for that parcel of property been determined under Section 15-175 of the Property Tax Code. It is further the intent of this paragraph that if additional exemptions are allowed under Section 15-175 of the Property Tax Code for owners with a household income of less than $30,000, then the calculation of Available Local Resources shall not be affected by the difference, if any, because of those additional exemptions.

This equalized assessed valuation, as adjusted further by the requirements of this subsection, shall be utilized in the calculation of Available Local Resources.

(2) The equalized assessed valuation in paragraph (1) shall be adjusted, as applicable, in the following manner:

(a) For the purposes of calculating State aid under this Section, with respect to any part of a school district within a redevelopment project area in respect to which a municipality has adopted tax increment allocation financing pursuant to the Tax Increment Allocation Redevelopment Act, Sections 11-74.4-1 through 11-74.4-11 of the Illinois Municipal Code or the Industrial Jobs Recovery Law, Sections 11-74.6-1 through 11-74.6-50 of the Illinois Municipal Code, no part of the current equalized assessed valuation of real property located in any such project area which is

New matter indicated by italics - deletions by strikeout.
attributable to an increase above the total initial equalized assessed valuation of such property shall be used as part of the equalized assessed valuation of the district, until such time as all redevelopment project costs have been paid, as provided in Section 11-74.4-8 of the Tax Increment Allocation Redevelopment Act or in Section 11-74.6-35 of the Industrial Jobs Recovery Law. For the purpose of the equalized assessed valuation of the district, the total initial equalized assessed valuation or the current equalized assessed valuation, whichever is lower, shall be used until such time as all redevelopment project costs have been paid.

(b) The real property equalized assessed valuation for a school district shall be adjusted by subtracting from the real property value as equalized or assessed by the Department of Revenue for the district an amount computed by dividing the amount of any abatement of taxes under Section 18-170 of the Property Tax Code by 3.00% for a district maintaining grades kindergarten through 12, by 2.30% for a district maintaining grades kindergarten through 8, or by 1.05% for a district maintaining grades 9 through 12 and adjusted by an amount computed by dividing the amount of any abatement of taxes under subsection (a) of Section 18-165 of the Property Tax Code by the same percentage rates for district type as specified in this subparagraph (b).

(3) For the 1999-2000 school year and each school year thereafter, if a school district meets all of the criteria of this subsection (G)(3), the school district's Available Local Resources shall be calculated under subsection (D) using the district's Extension Limitation Equalized Assessed Valuation as calculated under this subsection (G)(3).

For purposes of this subsection (G)(3) the following terms shall have the following meanings:

"Budget Year": The school year for which general State aid is calculated and awarded under subsection (E).

"Base Tax Year": The property tax levy year used to calculate the Budget Year allocation of general State aid.

New matter indicated by italics - deletions by strikeout.
"Preceding Tax Year": The property tax levy year immediately preceding the Base Tax Year.

"Base Tax Year's Tax Extension": The product of the equalized assessed valuation utilized by the County Clerk in the Base Tax Year multiplied by the limiting rate as calculated by the County Clerk and defined in the Property Tax Extension Limitation Law.

"Preceding Tax Year's Tax Extension": The product of the equalized assessed valuation utilized by the County Clerk in the Preceding Tax Year multiplied by the Operating Tax Rate as defined in subsection (A).

"Extension Limitation Ratio": A numerical ratio, certified by the County Clerk, in which the numerator is the Base Tax Year's Tax Extension and the denominator is the Preceding Tax Year's Tax Extension.

"Operating Tax Rate": The operating tax rate as defined in subsection (A).

If a school district is subject to property tax extension limitations as imposed under the Property Tax Extension Limitation Law, the State Board of Education shall calculate the Extension Limitation Equalized Assessed Valuation of that district. For the 1999-2000 school year, the Extension Limitation Equalized Assessed Valuation of a school district as calculated by the State Board of Education shall be equal to the product of the district's 1996 Equalized Assessed Valuation and the district's Extension Limitation Ratio. For the 2000-2001 school year and each school year thereafter, the Extension Limitation Equalized Assessed Valuation of a school district as calculated by the State Board of Education shall be equal to the product of the Equalized Assessed Valuation last used in the calculation of general State aid and the district's Extension Limitation Ratio. If the Extension Limitation Equalized Assessed Valuation of a school district as calculated under this subsection (G)(3) is less than the district's equalized assessed valuation as calculated pursuant to subsections (G)(1) and (G)(2), then for purposes of calculating the district's general State aid for the Budget Year pursuant to subsection (E),
that Extension Limitation Equalized Assessed Valuation shall be utilized to calculate the district's Available Local Resources under subsection (D).

(4) For the purposes of calculating general State aid for the 1999-2000 school year only, if a school district experienced a triennial reassessment on the equalized assessed valuation used in calculating its general State financial aid apportionment for the 1998-1999 school year, the State Board of Education shall calculate the Extension Limitation Equalized Assessed Valuation that would have been used to calculate the district's 1998-1999 general State aid. This amount shall equal the product of the equalized assessed valuation used to calculate general State aid for the 1997-1998 school year and the district's Extension Limitation Ratio. If the Extension Limitation Equalized Assessed Valuation of the school district as calculated under this paragraph (4) is less than the district's equalized assessed valuation utilized in calculating the district's 1998-1999 general State aid allocation, then for purposes of calculating the district's general State aid pursuant to paragraph (5) of subsection (E), that Extension Limitation Equalized Assessed Valuation shall be utilized to calculate the district's Available Local Resources.

(5) For school districts having a majority of their equalized assessed valuation in any county except Cook, DuPage, Kane, Lake, McHenry, or Will, if the amount of general State aid allocated to the school district for the 1999-2000 school year under the provisions of subsection (E), (H), and (J) of this Section is less than the amount of general State aid allocated to the district for the 1998-1999 school year under these subsections, then the general State aid of the district for the 1999-2000 school year only shall be increased by the difference between these amounts. The total payments made under this paragraph (5) shall not exceed $14,000,000. Claims shall be prorated if they exceed $14,000,000.

(H) Supplemental General State Aid.

(1) In addition to the general State aid a school district is allotted pursuant to subsection (E), qualifying school districts shall receive a grant, paid in conjunction with a district's payments of general State aid, for supplemental general State aid based upon the concentration level of children from low-income households within the school district.

New matter indicated by italics - deletions by strikeout.
Supplemental State aid grants provided for school districts under this subsection shall be appropriated for distribution to school districts as part of the same line item in which the general State financial aid of school districts is appropriated under this Section. If the appropriation in any fiscal year for general State aid and supplemental general State aid is insufficient to pay the amounts required under the general State aid and supplemental general State aid calculations, then the State Board of Education shall ensure that each school district receives the full amount due for general State aid and the remainder of the appropriation shall be used for supplemental general State aid, which the State Board of Education shall calculate and pay to eligible districts on a prorated basis.

(1.5) This paragraph (1.5) applies only to those school years preceding the 2003-2004 school year. For purposes of this subsection (H), the term "Low-Income Concentration Level" shall be the low-income eligible pupil count from the most recently available federal census divided by the Average Daily Attendance of the school district. If, however, (i) the percentage decrease from the 2 most recent federal censuses in the low-income eligible pupil count of a high school district with fewer than 400 students exceeds by 75% or more the percentage change in the total low-income eligible pupil count of contiguous elementary school districts, whose boundaries are coterminous with the high school district, or (ii) a high school district within 2 counties and serving 5 elementary school districts, whose boundaries are coterminous with the high school district, has a percentage decrease from the 2 most recent federal censuses in the low-income eligible pupil count and there is a percentage increase in the total low-income eligible pupil count of a majority of the elementary school districts in excess of 50% from the 2 most recent federal censuses, then the high school district's low-income eligible pupil count from the earlier federal census shall be the number used as the low-income eligible pupil count for the high school district, for purposes of this subsection (H). The changes made to this paragraph (1) by Public Act 92-28 shall apply to supplemental general State aid grants for school years preceding the 2003-2004 school year that are paid in fiscal year 1999 or thereafter and to any State aid payments made in fiscal year

(d) For any school district with a Low Income Concentration Level of 60% or more, the grant for the 1998-99

(f) For any school district with a Low Income Concentration Level of 60% or more, the grant for each school year shall be $2,080 multiplied by the low income eligible pupil count.
(2.10) Except as otherwise provided, supplemental general State aid pursuant to this subsection (H) shall be provided as follows for the 2003-2004 school year and each school year thereafter:

(a) For any school district with a Low Income Concentration Level of 15% or less, the grant for each school year shall be $355 multiplied by the low income eligible pupil count.

(b) For any school district with a Low Income Concentration Level greater than 15%, the grant for each school year shall be $294.25 added to the product of $2,700 and the square of the Low Income Concentration Level, all multiplied by the low income eligible pupil count.

For the 2003-2004 and 2004-2005 school year only, the grant shall be no less than the grant for the 2002-2003 school year. For the 2005-2006 school year only, the grant shall be no less than the grant for the 2002-2003 school year multiplied by 0.66. For the 2006-2007 school year only, the grant shall be no less than the grant for the 2002-2003 school year multiplied by 0.33.

For the 2003-2004 school year only, the grant shall be no greater than the grant received during the 2002-2003 school year added to the product of 0.25 multiplied by the difference between the grant amount calculated under subsection (a) or (b) of this paragraph (2.10), whichever is applicable, and the grant received during the 2002-2003 school year. For the 2004-2005 school year only, the grant shall be no greater than the grant received during the 2002-2003 school year added to the product of 0.50 multiplied by the difference between the grant amount calculated under subsection (a) or (b) of this paragraph (2.10), whichever is applicable, and the grant received during the 2002-2003 school year. For the 2005-2006 school year only, the grant shall be no greater than the grant received during the 2002-2003 school year added to the product of 0.75 multiplied by the difference between the grant amount calculated under subsection (a) or (b) of this paragraph (2.10), whichever is applicable, and the grant received during the 2002-2003 school year.

(3) School districts with an Average Daily Attendance of more than 1,000 and less than 50,000 that qualify for supplemental general State
aid pursuant to this subsection shall submit a plan to the State Board of Education prior to October 30 of each year for the use of the funds resulting from this grant of supplemental general State aid for the improvement of instruction in which priority is given to meeting the education needs of disadvantaged children. Such plan shall be submitted in accordance with rules and regulations promulgated by the State Board of Education.

(4) School districts with an Average Daily Attendance of 50,000 or more that qualify for supplemental general State aid pursuant to this subsection shall be required to distribute from funds available pursuant to this Section, no less than $261,000,000 in accordance with the following requirements:

(a) The required amounts shall be distributed to the attendance centers within the district in proportion to the number of pupils enrolled at each attendance center who are eligible to receive free or reduced-price lunches or breakfasts under the federal Child Nutrition Act of 1966 and under the National School Lunch Act during the immediately preceding school year.

(b) The distribution of these portions of supplemental and general State aid among attendance centers according to these requirements shall not be compensated for or contravened by adjustments of the total of other funds appropriated to any attendance centers, and the Board of Education shall utilize funding from one or several sources in order to fully implement this provision annually prior to the opening of school.

(c) Each attendance center shall be provided by the school district a distribution of noncategorical funds and other categorical funds to which an attendance center is entitled under law in order that the general State aid and supplemental general State aid provided by application of this subsection supplements rather than supplants the noncategorical funds and other categorical funds provided by the school district to the attendance centers.

(d) Any funds made available under this subsection that by reason of the provisions of this subsection are not required to be

allocated and provided to attendance centers may be used and appropriated by the board of the district for any lawful school purpose.

(e) Funds received by an attendance center pursuant to this subsection shall be used by the attendance center at the discretion of the principal and local school council for programs to improve educational opportunities at qualifying schools through the following programs and services: early childhood education, reduced class size or improved adult to student classroom ratio, enrichment programs, remedial assistance, attendance improvement, and other educationally beneficial expenditures which supplement the regular and basic programs as determined by the State Board of Education. Funds provided shall not be expended for any political or lobbying purposes as defined by board rule.

(f) Each district subject to the provisions of this subdivision (H)(4) shall submit an acceptable plan to meet the educational needs of disadvantaged children, in compliance with the requirements of this paragraph, to the State Board of Education prior to July 15 of each year. This plan shall be consistent with the decisions of local school councils concerning the school expenditure plans developed in accordance with part 4 of Section 34-2.3. The State Board shall approve or reject the plan within 60 days after its submission. If the plan is rejected, the district shall give written notice of intent to modify the plan within 15 days of the notification of rejection and then submit a modified plan within 30 days after the date of the written notice of intent to modify. Districts may amend approved plans pursuant to rules promulgated by the State Board of Education.

Upon notification by the State Board of Education that the district has not submitted a plan prior to July 15 or a modified plan within the time period specified herein, the State aid funds affected by that plan or modified plan shall be withheld by the State Board of Education until a plan or modified plan is submitted.

If the district fails to distribute State aid to attendance centers in accordance with an approved plan, the plan for the following year shall allocate funds, in addition to the funds otherwise required by this subsection, to those attendance centers which were underfunded during the previous year in amounts equal to such underfunding.

For purposes of determining compliance with this subsection in relation to the requirements of attendance center funding, each district subject to the provisions of this subsection shall submit as a separate document by December 1 of each year a report of expenditure data for the prior year in addition to any modification of its current plan. If it is determined that there has been a failure to comply with the expenditure provisions of this subsection regarding contravention or supplanting, the State Superintendent of Education shall, within 60 days of receipt of the report, notify the district and any affected local school council. The district shall within 45 days of receipt of that notification inform the State Superintendent of Education of the remedial or corrective action to be taken, whether by amendment of the current plan, if feasible, or by adjustment in the plan for the following year. Failure to provide the expenditure report or the notification of remedial or corrective action in a timely manner shall result in a withholding of the affected funds.

The State Board of Education shall promulgate rules and regulations to implement the provisions of this subsection. No funds shall be released under this subdivision (H)(4) to any district that has not submitted a plan that has been approved by the State Board of Education.

(I) General State Aid for Newly Configured School Districts.

(1) For a new school district formed by combining property included totally within 2 or more previously existing school districts, for its first year of existence the general State aid and supplemental general State aid calculated under this Section shall be computed for the new district and for the previously existing districts for which property is

totally included within the new district. If the computation on the basis of the previously existing districts is greater, a supplementary payment equal to the difference shall be made for the first 4 years of existence of the new district.

(2) For a school district which annexes all of the territory of one or more entire other school districts, for the first year during which the change of boundaries attributable to such annexation becomes effective for all purposes as determined under Section 7-9 or 7A-8, the general State aid and supplemental general State aid calculated under this Section shall be computed for the annexing district as constituted after the annexation and for the annexing and each annexed district as constituted prior to the annexation; and if the computation on the basis of the annexing and annexed districts as constituted prior to the annexation is greater, a supplementary payment equal to the difference shall be made for the first 4 years of existence of the annexing school district as constituted upon such annexation.

(3) For 2 or more school districts which annex all of the territory of one or more entire other school districts, and for 2 or more community unit districts which result upon the division (pursuant to petition under Section 11A-2) of one or more other unit school districts into 2 or more parts and which together include all of the parts into which such other unit school district or districts are so divided, for the first year during which the change of boundaries attributable to such annexation or division becomes effective for all purposes as determined under Section 7-9 or 11A-10, as the case may be, the general State aid and supplemental general State aid calculated under this Section shall be computed for each annexing or resulting district as constituted after the annexation or division and for each annexing and annexed district, or for each resulting and divided district, as constituted prior to the annexation or division; and if the aggregate of the general State aid and supplemental general State aid as so computed for the annexing or resulting districts as constituted after the annexation or division is less than the aggregate of the general State aid and supplemental general State aid as so computed for the annexing and annexed districts, or for the resulting and divided districts, as constituted
prior to the annexation or division, then a supplementary payment equal to
the difference shall be made and allocated between or among the annexing
or resulting districts, as constituted upon such annexation or division, for
the first 4 years of their existence. The total difference payment shall be
allocated between or among the annexing or resulting districts in the same
ratio as the pupil enrollment from that portion of the annexed or divided
district or districts which is annexed to or included in each such annexing
or resulting district bears to the total pupil enrollment from the entire
annexed or divided district or districts, as such pupil enrollment is
determined for the school year last ending prior to the date when the
change of boundaries attributable to the annexation or division becomes
effective for all purposes. The amount of the total difference payment and
the amount thereof to be allocated to the annexing or resulting districts
shall be computed by the State Board of Education on the basis of pupil
enrollment and other data which shall be certified to the State Board of
Education, on forms which it shall provide for that purpose, by the
regional superintendent of schools for each educational service region in
which the annexing and annexed districts, or resulting and divided districts
are located.

(3.5) Claims for financial assistance under this subsection (I) shall
not be recomputed except as expressly provided under this Section.

(4) Any supplementary payment made under this subsection (I)
shall be treated as separate from all other payments made pursuant to this
Section.

(J) Supplementary Grants in Aid.

(1) Notwithstanding any other provisions of this Section, the
amount of the aggregate general State aid in combination with
supplemental general State aid under this Section for which each school
district is eligible shall be no less than the amount of the aggregate general
State aid entitlement that was received by the district under Section 18-8
(exclusive of amounts received under subsections 5(p) and 5(p-5) of that
Section) for the 1997-98 school year, pursuant to the provisions of that
Section as it was then in effect. If a school district qualifies to receive a
supplementary payment made under this subsection (J), the amount of the

aggregate general State aid in combination with supplemental general State aid under this Section which that district is eligible to receive for each school year shall be no less than the amount of the aggregate general State aid entitlement that was received by the district under Section 18-8 (exclusive of amounts received under subsections 5(p) and 5(p-5) of that Section) for the 1997-1998 school year, pursuant to the provisions of that Section as it was then in effect.

(2) If, as provided in paragraph (1) of this subsection (J), a school district is to receive aggregate general State aid in combination with supplemental general State aid under this Section for the 1998-99 school year and any subsequent school year that in any such school year is less than the amount of the aggregate general State aid entitlement that the district received for the 1997-98 school year, the school district shall also receive, from a separate appropriation made for purposes of this subsection (J), a supplementary payment that is equal to the amount of the difference in the aggregate State aid figures as described in paragraph (1).

(K) Grants to Laboratory and Alternative Schools.

In calculating the amount to be paid to the governing board of a public university that operates a laboratory school under this Section or to any alternative school that is operated by a regional superintendent of schools, the State Board of Education shall require by rule such reporting requirements as it deems necessary.

As used in this Section, "laboratory school" means a public school which is created and operated by a public university and approved by the State Board of Education. The governing board of a public university which receives funds from the State Board under this subsection (K) may not increase the number of students enrolled in its laboratory school from a single district, if that district is already sending 50 or more students, except under a mutual agreement between the school board of a student's district of residence and the university which operates the laboratory school. A laboratory school may not have more than 1,000 students, excluding students with disabilities in a special education program.

As used in this Section, "alternative school" means a public school which is created and operated by a Regional Superintendent of Schools and approved by the State Board of Education. Such alternative schools may offer courses of instruction for which credit is given in regular school programs, courses to prepare students for the high school equivalency testing program or vocational and occupational training. A regional superintendent of schools may contract with a school district or a public community college district to operate an alternative school. An alternative school serving more than one educational service region may be established by the regional superintendents of schools of the affected educational service regions. An alternative school serving more than one educational service region may be operated under such terms as the regional superintendents of schools of those educational service regions may agree.

Each laboratory and alternative school shall file, on forms provided by the State Superintendent of Education, an annual State aid claim which states the Average Daily Attendance of the school's students by month. The best 3 months' Average Daily Attendance shall be computed for each school. The general State aid entitlement shall be computed by multiplying the applicable Average Daily Attendance by the Foundation Level as determined under this Section.

(L) Payments, Additional Grants in Aid and Other Requirements.

(1) For a school district operating under the financial supervision of an Authority created under Article 34A, the general State aid otherwise payable to that district under this Section, but not the supplemental general State aid, shall be reduced by an amount equal to the budget for the operations of the Authority as certified by the Authority to the State Board of Education, and an amount equal to such reduction shall be paid to the Authority created for such district for its operating expenses in the manner provided in Section 18-11. The remainder of general State school aid for any such district shall be paid in accordance with Article 34A when that Article provides for a disposition other than that provided by this Article.

The Board shall consist of 5 members who are appointed by the Governor, by and with the advice and consent of the Senate. The members appointed shall include representatives of education, business, and the general public. One of the members so appointed shall be designated by the Governor at the time the appointment is made as the chairperson of the Board. The initial members of the Board may be appointed any time after the effective date of this amendatory Act of 1997. All members appointed to serve on the Board shall serve until their respective successors are appointed and confirmed. Vacancies shall be filled in the same manner as original appointments. If a vacancy in membership occurs at a time when the Senate is not in session, the Governor shall make a temporary appointment until the next meeting of the Senate, when he or she shall appoint, by and with the advice and consent of the Senate, a person to fill that membership for the unexpired term. If the Senate is not in session when the initial appointments are made, those appointments shall be made as in the case of vacancies.

The Education Funding Advisory Board shall be deemed established, and the initial members appointed by the Governor to serve as
members of the Board shall take office, on the date that the Governor makes his or her appointment of the fifth initial member of the Board, whether those initial members are then serving pursuant to appointment and confirmation or pursuant to temporary appointments that are made by the Governor as in the case of vacancies.

The State Board of Education shall provide such staff assistance to the Education Funding Advisory Board as is reasonably required for the proper performance by the Board of its responsibilities.

For school years after the 2000-2001 school year, the Education Funding Advisory Board, in consultation with the State Board of Education, shall make recommendations as provided in this subsection (M) to the General Assembly for the foundation level under subdivision (B)(3) of this Section and for the supplemental general State aid grant level under subsection (H) of this Section for districts with high concentrations of children from poverty. The recommended foundation level shall be determined based on a methodology which incorporates the basic education expenditures of low-spending schools exhibiting high academic performance. The Education Funding Advisory Board shall make such recommendations to the General Assembly on January 1 of odd numbered years, beginning January 1, 2001.

Sec. 18-12. Dates for filing State aid claims. The school board of each school district shall require teachers, principals, or superintendents to furnish from records kept by them such data as it needs in preparing and certifying to the regional superintendent its school district report of claims provided in Sections 18-8.05 through 18-9 and as required by the State Superintendent of Education. The district claim shall be based on the latest available equalized assessed valuation and tax rates, as provided in Section 18-8.05 and shall use the average daily attendance as determined by the method outlined in Section 18-8.05 and shall be certified and filed with the regional superintendent by June 21 for districts with an official school calendar end date before June 15 or within 2 weeks following the official school calendar end date for districts with a school year end date of June 15 or later. The regional superintendent shall certify and file with the State Superintendent of Education district State aid claims by July 1 for districts with an official school calendar end date before June 15 or no later than July 15 for districts with an official school calendar end date of June 15 or later. Failure to so file by these deadlines constitutes a forfeiture of the right to receive payment by the State until such claim is filed and vouchered for payment. The regional superintendent of schools shall certify the county report of claims by July 15; and the State Superintendent of Education shall voucher for payment those claims to the State Comptroller as provided in Section 18-11.

Except as otherwise provided in this Section, if any school district fails to provide the minimum school term specified in Section 10-19, the State aid claim for that year shall be reduced by the State Superintendent of Education in an amount equivalent to .56818% for each day less than the number of days required by this Code.

If the State Superintendent of Education determines that the failure to provide the minimum school term was occasioned by an act or acts of God, or was occasioned by conditions beyond the control of the school district which posed a hazardous threat to the health and safety of pupils, the State aid claim need not be reduced.

If the State Superintendent of Education determines that the failure to provide the minimum school term was due to a school being closed on or after September 11, 2001 for more than one-half day of attendance due to a bioterrorism or terrorism threat that was investigated by a law enforcement agency, the State aid claim shall not be reduced.

If, during any school day, (i) a school district has provided at least one clock hour of instruction but must close the schools due to adverse weather conditions or due to a condition beyond the control of the school district that poses a hazardous threat to the health and safety of pupils prior to providing the minimum hours of instruction required for a full day of attendance, or (ii) the school district must delay the start of the school day due to adverse weather conditions and this delay prevents the district from providing the minimum hours of instruction required for a full day of attendance, the partial day of attendance may be counted as a full day of attendance. The partial day of attendance and the reasons therefor shall be certified in writing within a month of the closing or delayed start by the local school district superintendent to the Regional Superintendent of Schools for forwarding to the State Superintendent of Education for approval.

If a school building is ordered to be closed by the school board, in consultation with a local emergency response agency, due to a condition that poses a hazardous threat to the health and safety of pupils, then the school district shall have a grace period of 4 days in which the general

State aid claim shall not be reduced so that alternative housing of the pupils may be located.

No exception to the requirement of providing a minimum school term may be approved by the State Superintendent of Education pursuant to this Section unless a school district has first used all emergency days provided for in its regular calendar.

If the State Superintendent of Education declares that an energy shortage exists during any part of the school year for the State or a designated portion of the State, a district may operate the school attendance centers within the district 4 days of the week during the time of the shortage by extending each existing school day by one clock hour of school work, and the State aid claim shall not be reduced, nor shall the employees of that district suffer any reduction in salary or benefits as a result thereof. A district may operate all attendance centers on this revised schedule, or may apply the schedule to selected attendance centers, taking into consideration such factors as pupil transportation schedules and patterns and sources of energy for individual attendance centers.

No State aid claim may be filed for any district unless the district superintendent executes and files with the State Superintendent of Education, in the method prescribed by the Superintendent, certification that the district has complied with the requirements of Section 10-22.5 in regard to the nonsegregation of pupils on account of color, creed, race, sex or nationality.

No State aid claim may be filed for any district unless the district superintendent executes and files with the State Superintendent of Education, in the method prescribed by the Superintendent, a sworn statement that to the best of his or her knowledge or belief the employing or assigning personnel have complied with Section 24-4 in all respects.

Electronically submitted State aid claims shall be submitted by duly authorized district or regional individuals over a secure network that is password protected. The electronic submission of a State aid claim must be accompanied with an affirmation that all of the provisions of Sections 18-8.05 through 18-9+8-10, 10-22.5, and 24-4 of this Code are met in all respects.

for the perpetual or temporary use and benefit by one of them of any sewer or drain, or of any system of sewerage or drainage or part thereof, or of any sewage disposal or sewage treatment plants and works, heretofore or hereafter constructed by the other. Any such sewer or drain, or system of sewerage or drainage or part thereof, or sewage disposal or sewage treatment plants and work, heretofore or hereafter constructed by one such municipal corporation may be extended or furnished to the inhabitants of the other. Such municipal corporations may by contract with each other provide for the joint construction of any sewer or drain or sewage disposal or sewage treatment plants and works by the municipal corporations so contracting, and for the common use thereof by the inhabitants of the contracting municipal corporations. In addition, whenever a sanitary district has acquired an easement granting the sanitary district the right to construct or operate a sanitary sewer system or part of a sanitary sewer system over property that connects the sanitary district to a municipality, the municipality and the sanitary district may enter into a contract for the use of the sanitary sewer system regardless of whether the sanitary district is adjacent to the municipality.

Section 10. The Sanitary District Act of 1917 is amended by changing Sections 8, 23.5, and 23.7 as follows:

(70 ILCS 2405/8) (from Ch. 42, par. 307)

Sec. 8.

(a) The sanitary district may acquire by purchase, condemnation, or otherwise all real and personal property, right of way and privilege, either within or without its corporate limits that may be required for its corporate purposes. If real property is acquired by condemnation, the sanitary district may not sell or lease any portion of the property for a period of 10 years after acquisition by condemnation is completed. If, after such 10-year period, the sanitary district decides to sell or lease the property, it must first offer the property for sale or lease to the previous owner of the land from whom the sanitary district acquired the property. If the sanitary district and such previous owner do not execute a contract for purchase or lease of the property within 60 days from the initial offer, the sanitary

district then may offer the property for sale or lease to any other person. If any district formed under this Act is unable to agree with any other sanitary district upon the terms whereby it shall be permitted to use the drains, channels or ditches of such other sanitary district, the right to such use may be acquired by condemnation in any circuit court by proceedings as provided in Section 4-17 of the Illinois Drainage Code. The compensation to be paid for such use may be a gross sum, or it may be in the form of an annual rental, to be paid in yearly installments as provided by the judgment of the court wherein such proceedings may be had. However, when such compensation is fixed at a gross sum all moneys for the purchase and condemnation of any property shall be paid before possession is taken or any work done on the premises damaged by the construction of such channel or outlet, and in case of an appeal from the circuit court taken by either party whereby the amount of damages is not finally determined, then possession may be taken, if the amount of judgment in such court is deposited at some bank or savings and loan association to be designated by the court, subject to the payment of such damages on orders signed by the circuit court, whenever the amount of damages is finally determined. The sanitary district may sell, convey, vacate and release the real or personal property, right of way and privileges acquired by it when no longer required for the purposes of the district.

(b) A sanitary district may exercise its powers of eminent domain to acquire a public utility only if the Illinois Commerce Commission, following petition by the sanitary district, has granted approval for the sanitary district to proceed in accordance with Article VII of the Code of Civil Procedure. The following procedures must be followed when a sanitary district exercises its power of eminent domain to acquire a public utility.

(1) The sanitary district shall petition the Commission for approval of the acquisition of a public utility by the exercise of eminent domain powers. The petition filed by the sanitary district shall state the following:

(B) the date of the filing of the application;

(D) the name and address of the condemnor;
(E) a specific reference to the statute under which the condemnation action is authorized;
(F) a specific reference to the action, whether by ordinance, resolution, or otherwise, by which the declaration of taking was authorized, including the date when such action was taken, and the place where the record may be examined;
(G) a description of the purpose of the condemnation;
(H) a reasonable description of the property to be condemned;
(I) a statement of how just compensation will be made;
(J) a statement that, if the condemnee wishes to challenge the proceeding, the condemnee shall file objections within 45 days after its receipt of the notice.

(2) Within 30 days after the filing of a petition by the sanitary district of its intent to acquire by eminent domain all real and personal property, rights of way, and privileges of a public utility, the sanitary district shall serve a copy of the petition on the public utility and shall publish a notice of the filing of the petition in a newspaper of general circulation in the area served by the sanitary district. The sanitary district shall file a certificate of publication with the Commission as proof of publication.

(3) Within 45 days after being served with the notice required by this Section, the condemnee may file objections to the petition with the Commission. All objections shall state specifically the grounds relied upon. All objections shall be raised at one time and in one document. The condemnee shall serve a copy of the objections upon the condemnor within 72 hours after the objections are filed with the Commission.
(4) The Commission shall make a determination regarding the petition and any objections to the petition and shall make such orders and decrees as justice and law shall require. The Commission may take evidence by deposition or otherwise and shall entertain oral argument on all objections. The Commission shall make its determination within 105 days after its receipt of the objections of the condemnee, unless the Commission, in its discretion, extends the determination period for a further period not exceeding 6 months.

(c) The Illinois Commerce Commission shall approve the taking of any property by a sanitary district under subsection (b), within or outside its boundaries, if it is in the public interest. The taking shall be considered to be in the public interest if the sanitary district establishes by a preponderance of the evidence:

1. that the sanitary district has been in existence as the operator of a wastewater system for at least 20 years;
2. that it will provide wastewater treatment service within the proposed area subject to condemnation at the same level of wastewater treatment service provided throughout the district;
3. that it will provide the wastewater collection, treatment, and disposal at the same or less operational and maintenance volumetric or bulk rate as the public utility whose property is subject to condemnation; and
4. that it is not financially impractical for the public utility to serve its remaining customers who are not in the area subject to condemnation.

(Senate Bill No. 2674)

AN ACT concerning State government.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. If and only if Senate Bill 1959 of the 94th General Assembly becomes law, the State Budget Law of the Civil Administrative Code of Illinois is amended by changing Section 50-5 as follows:

(15 ILCS 20/50-5) (was 15 ILCS 20/38)

Sec. 50-5. Governor to submit State budget. The Governor shall, as soon as possible and not later than the first second Wednesday in March April in 2007 (March 7, 2007) 2003 and the third Wednesday in February of each year beginning in 2008 2004, except as otherwise provided in this Section, submit a State budget, embracing therein the amounts recommended by the Governor to be appropriated to the respective departments, offices, and institutions, and for all other public purposes, the estimated revenues from taxation, the estimated revenues from sources other than taxation, and an estimate of the amount required to be raised by taxation. In 2004 only, the Governor shall submit the capital development section of the State budget not later than the fourth Tuesday of March (March 23, 2004). The amounts recommended by the Governor for appropriation to the respective departments, offices and institutions shall be formulated according to the various functions and activities for which the respective department, office or institution of the State government (including the elective officers in the executive department and including

The Governor shall not propose expenditures and the General Assembly shall not enact appropriations that exceed the resources estimated to be available, as provided in this Section.

For the purposes of Article VIII, Section 2 of the 1970 Illinois Constitution, the State budget for the following funds shall be prepared on the basis of revenue and expenditure measurement concepts that are in concert with generally accepted accounting principles for governments:

These funds shall be known as the "budgeted funds". The revenue estimates used in the State budget for the budgeted funds shall include the estimated beginning fund balance, plus revenues estimated to be received during the budgeted year, plus the estimated receipts due the State as of June 30 of the budgeted year that are expected to be collected during the lapse period following the budgeted year, minus the receipts collected during the first 2 months of the budgeted year that became due to the State in the year before the budgeted year. Revenues shall also include estimated federal reimbursements associated with the recognition of Section 25 of the State Finance Act liabilities. For any budgeted fund for which current year revenues are anticipated to exceed expenditures, the surplus shall be considered to be a resource available for expenditure in the budgeted fiscal year.

Expenditure estimates for the budgeted funds included in the State budget shall include the costs to be incurred by the State for the budgeted year, to be paid in the next fiscal year, excluding costs paid in the budgeted year which were carried over from the prior year, where the payment is

authorized by Section 25 of the State Finance Act. For any budgeted fund for which expenditures are expected to exceed revenues in the current fiscal year, the deficit shall be considered as a use of funds in the budgeted fiscal year.

Revenues and expenditures shall also include transfers between funds that are based on revenues received or costs incurred during the budget year.

By March 15 of each year, the Commission on Government Forecasting and Accountability shall prepare revenue and fund transfer estimates in accordance with the requirements of this Section and report those estimates to the General Assembly and the Governor.

For all funds other than the budgeted funds, the proposed expenditures shall not exceed funds estimated to be available for the fiscal year as shown in the budget. Appropriation for a fiscal year shall not exceed funds estimated by the General Assembly to be available during that year.

In determining the contributions required for establishing service credit under this subsection, the interest shall be calculated from the beginning of the leave of absence to the date of payment.

(m) Any person who rendered contractual services to a member of the General Assembly as a worker in the member's district office may establish creditable service for up to 3 years of those contractual services by making the contributions required under this Section. The System shall determine a full-time salary equivalent for the purpose of calculating the required contribution. To establish credit under this subsection, the applicant must apply to the System by March 1, 1998.

(n) Any person who rendered contractual services to a member of the General Assembly as a worker providing constituent services to persons in the member's district may establish creditable service for up to 8 years of those contractual services by making the contributions required

This subsection (p) applies without regard to whether the person was in service on or after the effective date of this amendatory Act of the 94th General Assembly. In the case of a person who is receiving a retirement annuity on that effective date, the increase, if any, shall begin to accrue on the first annuity payment date following receipt by the System of the contributions required under this subsection (p).

(q) By paying the required contributions under this Section, plus an amount determined by the Board to be equal to the employer's normal cost of the benefit plus interest, an employee who was laid off but returned to State employment under circumstances in which the employee is considered to have been in continuous service for purposes of determining seniority may establish creditable service for the period of the layoff, provided that (1) the applicant applies for the creditable service under this subsection (q) within 6 months after the effective date of this amendatory Act of the 94th General Assembly, (2) the applicant does not receive credit for that period under any other provision of this Code, (3) at the time of

(40 ILCS 5/16-158) (from Ch. 108 1/2, par. 16-158)

Sec. 16-158. Contributions by State and other employing units.

(a) The State shall make contributions to the System by means of appropriations from the Common School Fund and other State funds of amounts which, together with other employer contributions, employee contributions, investment income, and other income, will be sufficient to meet the cost of maintaining and administering the System on a 90% funded basis in accordance with actuarial recommendations.

The Board shall determine the amount of State contributions required for each fiscal year on the basis of the actuarial tables and other assumptions adopted by the Board and the recommendations of the actuary, using the formula in subsection (b-3).

(a-1) Annually, on or before November 15, the Board shall certify to the Governor the amount of the required State contribution for the coming fiscal year. The certification shall include a copy of the actuarial recommendations upon which it is based.

On or before May 1, 2004, the Board shall recalculate and recertify to the Governor the amount of the required State contribution to the System for State fiscal year 2005, taking into account the amounts appropriated to and received by the System under subsection (d) of Section 7.2 of the General Obligation Bond Act.

On or before July 1, 2005, the Board shall recalculate and recertify to the Governor the amount of the required State contribution to the System for State fiscal year 2006, taking into account the changes in

required State contributions made by this amendatory Act of the 94th General Assembly.

(b) Through State fiscal year 1995, the State contributions shall be paid to the System in accordance with Section 18-7 of the School Code.

(b-1) Beginning in State fiscal year 1996, on the 15th day of each month, or as soon thereafter as may be practicable, the Board shall submit vouchers for payment of State contributions to the System, in a total monthly amount of one-twelfth of the required annual State contribution certified under subsection (a-1). From the effective date of this amendatory Act of the 93rd General Assembly through June 30, 2004, the Board shall not submit vouchers for the remainder of fiscal year 2004 in excess of the fiscal year 2004 certified contribution amount determined under this Section after taking into consideration the transfer to the System under subsection (a) of Section 6z-61 of the State Finance Act. These vouchers shall be paid by the State Comptroller and Treasurer by warrants drawn on the funds appropriated to the System for that fiscal year.

If in any month the amount remaining unexpended from all other appropriations to the System for the applicable fiscal year (including the appropriations to the System under Section 8.12 of the State Finance Act and Section 1 of the State Pension Funds Continuing Appropriation Act) is less than the amount lawfully vouchered under this subsection, the difference shall be paid from the Common School Fund under the continuing appropriation authority provided in Section 1.1 of the State Pension Funds Continuing Appropriation Act.

(b-2) Allocations from the Common School Fund apportioned to school districts not coming under this System shall not be diminished or affected by the provisions of this Article.

(b-3) For State fiscal years 2011 through 2045, the minimum contribution to the System to be made by the State for each fiscal year shall be an amount determined by the System to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of State fiscal year 2045. In making these determinations, the required State contribution shall be calculated each year as a level percentage of payroll over the years remaining to and

including fiscal year 2045 and shall be determined under the projected unit credit actuarial cost method.

For State fiscal years 1996 through 2005, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments so that by State fiscal year 2011, the State is contributing at the rate required under this Section; except that in the following specified State fiscal years, the State contribution to the System shall not be less than the following indicated percentages of the applicable employee payroll, even if the indicated percentage will produce a State contribution in excess of the amount otherwise required under this subsection and subsection (a), and notwithstanding any contrary certification made under subsection (a-1) before the effective date of this amendatory Act of 1998: 10.02% in FY 1999; 10.77% in FY 2000; 11.47% in FY 2001; 12.16% in FY 2002; 12.86% in FY 2003; and 13.56% in FY 2004.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2006 is $534,627,700.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2007 is $738,014,500.

For each of State fiscal years 2008 through 2010, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments from the required State contribution for State fiscal year 2007, so that by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

Beginning in State fiscal year 2046, the minimum State contribution for each fiscal year shall be the amount needed to maintain the total assets of the System at 90% of the total actuarial liabilities of the System.

Amounts received by the System pursuant to Section 25 of the Budget Stabilization Act in any fiscal year do not reduce and do not constitute payment of any portion of the minimum State contribution required under this Article in that fiscal year. Such amounts shall not reduce, and shall not be included in the calculation of, the required State

contributions under this Article in any future year until the System has reached a funding ratio of at least 90%. A reference in this Article to the "required State contribution" or any substantially similar term does not include or apply to any amounts payable to the System under Section 25 of the Budget Stabilization Act.

Notwithstanding any other provision of this Section, the required State contribution for State fiscal year 2005 and for fiscal year 2008 and each fiscal year thereafter, as calculated under this Section and certified under subsection (a-1), shall not exceed an amount equal to (i) the amount of the required State contribution that would have been calculated under this Section for that fiscal year if the System had not received any payments under subsection (d) of Section 7.2 of the General Obligation Bond Act, minus (ii) the portion of the State's total debt service payments for that fiscal year on the bonds issued for the purposes of that Section 7.2, as determined and certified by the Comptroller, that is the same as the System's portion of the total moneys distributed under subsection (d) of Section 7.2 of the General Obligation Bond Act. In determining this maximum for State fiscal years 2008 through 2010, however, the amount referred to in item (i) shall be increased, as a percentage of the applicable employee payroll, in equal increments calculated from the sum of the required State contribution for State fiscal year 2007 plus the applicable portion of the State's total debt service payments for fiscal year 2007 on the bonds issued for the purposes of Section 7.2 of the General Obligation Bond Act, so that, by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

(c) Payment of the required State contributions and of all pensions, retirement annuities, death benefits, refunds, and other benefits granted under or assumed by this System, and all expenses in connection with the administration and operation thereof, are obligations of the State.

If members are paid from special trust or federal funds which are administered by the employing unit, whether school district or other unit, the employing unit shall pay to the System from such funds the full accruing retirement costs based upon that service, as determined by the System. Employer contributions, based on salary paid to members from

New matter indicated by italics - deletions by strikeout.
federal funds, may be forwarded by the distributing agency of the State of Illinois to the System prior to allocation, in an amount determined in accordance with guidelines established by such agency and the System.

(d) Effective July 1, 1986, any employer of a teacher as defined in paragraph (8) of Section 16-106 shall pay the employer's normal cost of benefits based upon the teacher's service, in addition to employee contributions, as determined by the System. Such employer contributions shall be forwarded monthly in accordance with guidelines established by the System.

However, with respect to benefits granted under Section 16-133.4 or 16-133.5 to a teacher as defined in paragraph (8) of Section 16-106, the employer's contribution shall be 12% (rather than 20%) of the member's highest annual salary rate for each year of creditable service granted, and the employer shall also pay the required employee contribution on behalf of the teacher. For the purposes of Sections 16-133.4 and 16-133.5, a teacher as defined in paragraph (8) of Section 16-106 who is serving in that capacity while on leave of absence from another employer under this Article shall not be considered an employee of the employer from which the teacher is on leave.

(e) Beginning July 1, 1998, every employer of a teacher shall pay to the System an employer contribution computed as follows:

(1) Beginning July 1, 1998 through June 30, 1999, the employer contribution shall be equal to 0.3% of each teacher's salary.

(2) Beginning July 1, 1999 and thereafter, the employer contribution shall be equal to 0.58% of each teacher's salary.

The school district or other employing unit may pay these employer contributions out of any source of funding available for that purpose and shall forward the contributions to the System on the schedule established for the payment of member contributions.

These employer contributions are intended to offset a portion of the cost to the System of the increases in retirement benefits resulting from this amendatory Act of 1998.

New matter indicated by italics - deletions by strikeout.
Each employer of teachers is entitled to a credit against the contributions required under this subsection (e) with respect to salaries paid to teachers for the period January 1, 2002 through June 30, 2003, equal to the amount paid by that employer under subsection (a-5) of Section 6.6 of the State Employees Group Insurance Act of 1971 with respect to salaries paid to teachers for that period.

The additional 1% employee contribution required under Section 16-152 by this amendatory Act of 1998 is the responsibility of the teacher and not the teacher's employer, unless the employer agrees, through collective bargaining or otherwise, to make the contribution on behalf of the teacher.

If an employer is required by a contract in effect on May 1, 1998 between the employer and an employee organization to pay, on behalf of all its full-time employees covered by this Article, all mandatory employee contributions required under this Article, then the employer shall be excused from paying the employer contribution required under this subsection (e) for the balance of the term of that contract. The employer and the employee organization shall jointly certify to the System the existence of the contractual requirement, in such form as the System may prescribe. This exclusion shall cease upon the termination, extension, or renewal of the contract at any time after May 1, 1998.

(f) If the amount of a teacher's salary for any school year used to determine final average salary exceeds the member's annual full-time salary rate with the same employer for the previous school year by more than 6%, the teacher's employer shall pay to the System, in addition to all other payments required under this Section and in accordance with guidelines established by the System, the present value of the increase in benefits resulting from the portion of the increase in salary that is in excess of 6%. This present value shall be computed by the System on the basis of the actuarial assumptions and tables used in the most recent actuarial valuation of the System that is available at the time of the computation. If a teacher's salary for the 2005-2006 school year is used to determine final average salary under this subsection (f), then the changes made to this subsection (f) by Public Act 94-1057 shall apply in calculating whether the

increase in his or her salary is in excess of 6%. For the purposes of this Section, change in employment under Section 10-21.12 of the School Code on or after June 1, 2005 shall constitute a change in employer. The System may require the employer to provide any pertinent information or documentation. The changes made to this subsection (f) by this amendatory Act of the 94th General Assembly apply without regard to whether the teacher was in service on or after its effective date.

Whenever it determines that a payment is or may be required under this subsection, the System shall calculate the amount of the payment and bill the employer for that amount. The bill shall specify the calculations used to determine the amount due. If the employer disputes the amount of the bill, it may, within 30 days after receipt of the bill, apply to the System in writing for a recalculation. The application must specify in detail the grounds of the dispute and, if the employer asserts that the calculation is subject to subsection (g) or (h) of this Section, must include an affidavit setting forth and attesting to all facts within the employer's knowledge that are pertinent to the applicability of that subsection. Upon receiving a timely application for recalculation, the System shall review the application and, if appropriate, recalculate the amount due.

The employer contributions required under this subsection (f) may be paid in the form of a lump sum within 90 days after receipt of the bill. If the employer contributions are not paid within 90 days after receipt of the bill, then interest will be charged at a rate equal to the System's annual actuarially assumed rate of return on investment compounded annually from the 91st day after receipt of the bill. Payments must be concluded within 3 years after the employer's receipt of the bill.

(g) This subsection (g) applies only to payments made or salary increases given on or after June 1, 2005 but before July 1, 2011. The changes made by Public Act 94-1057 this amendatory Act of the 94th General Assembly shall not require the System to refund any payments received before July 31, 2006 (the effective date of Public Act 94-1057) this amendatory Act.

When assessing payment for any amount due under subsection (f), the System shall exclude salary increases paid to teachers under contracts

or collective bargaining agreements entered into, amended, or renewed before June 1, 2005.

When assessing payment for any amount due under subsection (f), the System shall exclude salary increases paid to a teacher at a time when the teacher is 10 or more years from retirement eligibility under Section 16-132 or 16-133.2.

When assessing payment for any amount due under subsection (f), the System shall exclude salary increases resulting from overload work, including summer school, when the school district has certified to the System, and the System has approved the certification, that (i) the overload work is for the sole purpose of classroom instruction in excess of the standard number of classes for a full-time teacher in a school district during a school year and (ii) the salary increases are equal to or less than the rate of pay for classroom instruction computed on the teacher's current salary and work schedule.

When assessing payment for any amount due under subsection (f), the System shall exclude a salary increase resulting from a promotion (i) for which the employee is required to hold a certificate or supervisory endorsement issued by the State Teacher Certification Board that is a different certification or supervisory endorsement than is required for the teacher's previous position and (ii) to a position that has existed and been filled by a member for no less than one complete academic year and the salary increase from the promotion is an increase that results in an amount no greater than the lesser of the average salary paid for other similar positions in the district requiring the same certification or the amount stipulated in the collective bargaining agreement for a similar position requiring the same certification.

When assessing payment for any amount due under subsection (f), the System shall exclude any payment to the teacher from the State of Illinois or the State Board of Education over which the employer does not have discretion, notwithstanding that the payment is included in the computation of final average salary.

(h) When assessing payment for any amount due under subsection (f), the System shall exclude any salary increase described in subsection 16-133.2.

(g) of this Section given on or after July 1, 2011 but before July 1, 2014 under a contract or collective bargaining agreement entered into, amended, or renewed on or after June 1, 2005 but before July 1, 2011. Notwithstanding any other provision of this Section, any payments made or salary increases given after June 30, 2014 shall be used in assessing payment for any amount due under subsection (f) of this Section.

(i) The System shall prepare a report and file copies of the report with the Governor and the General Assembly by January 1, 2007 that contains all of the following information:

1. The number of recalculation required by the changes made to this Section by Public Act 94-1057 this amendatory Act of the 94th General Assembly for each employer.

2. The dollar amount by which each employer's contribution to the System was changed due to recalculation required by Public Act 94-1057 this amendatory Act of the 94th General Assembly.

3. The total amount the System received from each employer as a result of the changes made to this Section by Public Act 94-4.

4. The increase in the required State contribution resulting from the changes made to this Section by Public Act 94-1057 this amendatory Act of the 94th General Assembly.

Any teacher entitled to repay a refund of contributions under Section 17-126 may validate service described in this paragraph by payment of the amounts prescribed herein, together with the repayment of the refund, provided that if such creditable service was the last service rendered in the public schools of the City and is not automatically reinstated by repayment of the refund, the rates or amounts shall not be less than $450 per year.

For each year of service credit to be established under this subparagraph 6, a member is required to contribute to the System (i) 16.5% of the annual salary rate during the first year of full-time employment as a teacher under this Article following the private school service, plus (ii) interest thereon from the date of first full-time employment as a teacher under this Article following the private school service to the date of payment, compounded annually, at the rate of 8.0% per year.

New matter indicated by italics - deletions by strikeout.

CROP DISASTER PROGRAM

WHEREAS, On July 27th, 2005, United States Department of Agriculture Secretary Mike Johanns designated 102 Illinois counties as agriculture disaster areas due to the drought, and the United States Drought Monitor indicates that Illinois remains in an extreme drought that has greatly impacted the productivity of Illinois crops and this State's economy; and

WHEREAS, Illinois' food and fiber industry employs nearly one million people, food processing is the State's number-one manufacturing activity adding almost $13.4 billion annually to the value of Illinois' raw agricultural commodities, and the marketing of Illinois' agricultural commodities generates more than $9 billion annually for the State economy; and

INCARCERATION VIDEO CONFERENCING VISITATIONS
(House Joint Resolution No. 75)

WHEREAS, The U.S. Department of Justice, Bureau of Justice Statistics, reported that 1,498,000 children had a parent in prison in 1999, an increase of more than 500,000 since 1991; in that study, 46% of the parents reported living with their children prior to incarceration; the survey estimated that 336,300 U.S. households with minor children are affected by the imprisonment of a resident parent; and
WHEREAS, As the new millennium advances, the plight of children impacted by parental incarceration is among the most pervasive problems challenging correction policymakers and child welfare advocates; research results show that when a parent is incarcerated, the lives of their children are
disrupted by separation from parents, severance from siblings, and displacement to different caregivers, a large number placed in foster care; and

WHEREAS, About 80% of the roughly 2,800 women locked up in Illinois are mothers; and

WHEREAS, Studies show that the more contact parents have with their children, the less likely they are to reenter the penal system and the less likely their children are to be involved in delinquent behaviors; and

WHEREAS, The Illinois Department of Children and Family Services is responsible for the care and maintenance of hundreds of children whose parents are incarcerated in Illinois Department of Corrections facilities; and

WHEREAS, The importance of parent/child visitation is acknowledged by the Illinois Department of Children and Family Services in its rules (89 Ill. Adm. Code 301.210(a)) which provide: "The Department recognizes that there is a strong correlation between regular parental visits and contacts with a child and the child's discharge from placement services"; and

WHEREAS, The locations of the State's penal facilities often create logistical obstacles, preventing frequent in-person contacts between these children and their incarcerated parents, as a result, these children are often restricted to 4 visits a year, or less, although State officials recognize that more frequent contacts would be in the children's best interests; and

WHEREAS, It would be in the best interests of many children of incarcerated parents to be able to visit at least monthly with their parents by way of video conferencing at the offices of Illinois Department of Children and Family Services and the child welfare agencies; and

WHEREAS, While video conferencing is not a substitute for actual face to face visitation, when used as a tool to bridge the distance and time until the next physical visit, it can be extremely beneficial and will nurture parent-child relationships, however, the availability of video-conferencing should in no way reduce or limit the child's opportunity to have in person visitation with the parent, but should supplement that in person contact; and

WHEREAS, Through the use of high speed Internet services, the costs related to video conferencing have been greatly reduced; and

WHEREAS, The Illinois Department of Corrections and the Women's Treatment Center sponsor a program called "Parent and Child Together" (PACT), a small video conferencing program which allows about 100
incarcerated women at the Decatur Correctional Center to "visit" with their children 180 miles away in a networked Chicago office; and

WHEREAS, The Illinois Department of Corrections has concluded that this program has been a success; therefore, be it

RESOLVED, BY THE HOUSE OF REPRESENTATIVES OF THE NINETY-FOURTH GENERAL ASSEMBLY OF THE STATE OF ILLINOIS, THE SENATE CONCURRING HEREIN, that the Illinois Department of Children and Family Services and the Illinois Department of Corrections shall jointly prepare a report as to the costs and feasibility of providing monthly video conferencing visitation to appropriate children in State care, whose parents are incarcerated in facilities of the Illinois Department of Corrections, where there is a judicial finding that video conference visitation, as supplement to in person visitation, would be in the child's best interests; and be it further

RESOLVED, That the Illinois Department of Children and Family Services and the Illinois Department of Corrections shall present the report to the General Assembly no later than October 1, 2006; and be it further

RESOLVED, That a copy of this resolution be sent to the Director of Children and Family Services and the Director of Corrections.

NO CHILD LEFT BEHIND ACT
(Senate Joint Resolution No. 66)

WHEREAS, The general intent and spirit of the federal No Child Left Behind Act of 2001 (Public Law 107-110), known as NCLB, are worthy of
praise; and

WHEREAS, Many of NCLB's requirements on schools have been implemented in a manner that may result in federal sanctions being placed on improving schools; and

WHEREAS, Improvement status and associated sanctions under NCLB should be differentiated based on the magnitude of the school's failure to meet adequate yearly progress (AYP) requirements; and

WHEREAS, Schools should be allowed to choose the order of initiating either school choice or supplemental services so that services can be developed or secured in response to student need; and

WHEREAS, Adequate annual funding for the necessary remediation of students who are not meeting performance standards is a necessity if states are to meet the goals of NCLB; and

WHEREAS, Appropriate flexibility for schools, particularly in states with diverse populations such as Illinois, will allow NCLB to be implemented in a way that best meets the broad needs of a state's pupils; and

WHEREAS, States should be allowed to adopt value-added models based on the growth of individual students from grade to grade, ensuring that students achieve proficiency over time, and Illinois is examining the possibility of developing such a model; and

WHEREAS, One hundred percent of students reaching state standards, while commendable and desirable, is generally recognized as not being a realistically achievable goal, and additional research should be conducted regarding a more reasonable benchmark; and

WHEREAS, A recent and commendable announcement from the U.S. Department of Education, which allowed modified assessments for students with persistent academic disabilities, has shown that common sense and flexibility can be maintained without detracting from NCLB's goal of accountability; and

WHEREAS, While still striving to reach the laudable goal of having a highly qualified teacher in every classroom, the U.S. Department of Education has begun to take appropriate steps to adjust certain regulations to accommodate the needs of rural school districts and districts attempting to fill positions in special education and hard-to-staff subjects and schools; therefore, be it

RESOLVED, BY THE SENATE OF THE NINETY-FOURTH
GENERAL ASSEMBLY OF THE STATE OF ILLINOIS, THE HOUSE OF REPRESENTATIVES CONCURRING HEREIN, that we call on the Illinois congressional delegation to take action to review and amend NCLB and to encourage the U.S. Department of Education to implement regulations that (i) will permit appropriate consideration of students with special educational needs with respect to determinations of adequate yearly progress, including without limitation limited English-proficient students and special education students, (ii) will be sensitive to the needs for teachers in schools in hard-to-staff, rural, or isolated school districts and in special education, (iii) will reduce bureaucratic restrictions that stand in the way of the goals of NCLB, and (iv) will allow flexibility to the states in meeting the goals of the NCLB; and be it further
RESOLVED, That we urge the President and the Congress of the United States to fully fund the requirements of NCLB for the life of the Act; and be it further
RESOLVED, That suitable copies of this resolution be delivered to the President of the United States, to the U.S. Secretary of Education, and to each member of the Illinois congressional delegation.

NO CHILD LEFT BEHIND GROWTH-MODEL TASK FORCE
(Senate Joint Resolution No. 87)

WHEREAS, United States Secretary of Education Margaret Spellings has announced guidelines, referred to as a New Path for the federal No Child Left Behind Act of 2001, based on a set of "common sense" principles to guide states in meeting the Act's goals; and
WHEREAS, This New Path maintains the primary elements of the Act, such as the annual testing and reporting of student subgroup data, but also emphasizes increasing individual student achievement, narrowing the achievement gap, and encouraging sound overall state education policies that ensure that progress is being made; and
WHEREAS, The United States Department of Education has recognized that schools serving certain designated subgroups, such as children who are limited-English speakers and children who have disabilities,
require flexibility in determining adequate yearly progress; and

WHEREAS, This type of flexibility is also needed for schools that serve other vulnerable population groups, such as high school drop-outs who return to school and who, for reasons including but not limited to their low academic achievement levels, are often confronted with multiple barriers that impede their academic progress; and

WHEREAS, Some states have requested permission to implement growth-based accountability models, also called "value-added models," which give schools credit for student improvement over time by tracking individual student achievement from year to year, and which show promise as fair, reliable, flexible, and innovative methods for measuring school and student improvement; and

WHEREAS, The United States Department of Education has responded to the states' requests by agreeing to a rigorous evaluation of growth-based accountability models and their ability to help meet the laudable goals of the federal No Child Left Behind Act of 2001; therefore, be it

RESOLVED, BY THE SENATE OF THE NINETY-FOURTH GENERAL ASSEMBLY OF THE STATE OF ILLINOIS, THE HOUSE OF REPRESENTATIVES CONCURRING HEREIN, that we urge the United States Department of Education to use more flexible criteria in determining adequate yearly progress under the federal No Child Left Behind Act; and be it further

RESOLVED, That there is hereby created a No Child Left Behind Growth-Model Task Force to examine the models proposed by other states and to explore the potential for a growth model to give a clearer, fairer picture of individual student progress, such as the progress of those students in alternative schools; and be it further

RESOLVED, That the Task Force shall consist of (i) the Governor or his designee, (ii) the State Superintendent of Education or his designee, (iii) one member appointed by a statewide association representing principals, (iv) one member representing a charter school serving at-risk high school drop-outs who have returned to school, (v) one member appointed by an organization representing regional superintendents of schools, (vi) one member appointed by a statewide organization representing school administrators, (vii) one member appointed by a statewide organization that
represents both parents and teachers, (viii) one member appointed by a statewide organization representing administrators of special education, (ix) one member who is a representative from a statewide alternative education association, and (x) an additional member appointed by the State Superintendent of Education based on the individual's knowledge of NCLB regulations or growth model research and design, or both; and that the State Board of Education shall provide such staff assistance to the Task Force as is reasonably required for the proper performance of its responsibilities; and be it further

RESOLVED, That the Task Force shall hold, at minimum, four meetings, with at least one meeting held in Chicago and one meeting held in Springfield, and it shall report its findings to the General Assembly on or before January 1, 2007; and be it further

RESOLVED, That the Task Force is abolished upon completing its report; and be it further

RESOLVED, That a suitable copy of this resolution be delivered to the U.S. Secretary of Education, the State Board of Education, the Speaker of the United States House of Representatives, the President pro tempore of the United States Senate, and to each Member of the Illinois Congressional delegation.

TRAIL OF TEARS
(House Joint Resolution No. 142)

WHEREAS, The Cherokee Indians were once a great tribe living in and around the Great Smoky Mountains; they were probably the most civilized tribe in America with well established churches and schools; they are credited with an independent development of the log cabin; the Cherokees had their own recorded code of tribal laws with elected officials to govern them; they adopted the white man's ways and Christianity and were skilled at farming and cattle raising; and

WHEREAS, With the discovery of gold on Cherokee lands, a
movement that had been gathering since about 1802 for the removal of all Indians to reservations began in earnest; the Georgia legislature passed a law that "no Indian or descendants of an Indian shall be deemed a competent witness in any case in court to which a white person may be a party"; other states containing Cherokee lands adopted similar laws; and

WHEREAS, Many Cherokees were given whiskey by whites, who took advantage of their drunkenness and bribed the Indians out of their land holdings with paltry sums of money and empty promises; about 2,000 moved west through this trickery; some 15,000 were not fooled by these methods and were forced to walk the "Trail of Tears", as it became known for its many hardships and sorrows it brought to their people; and

WHEREAS, President Andrew Jackson gave his full support to the removal of the Cherokees from their land; an armed force of 7,000 made up of militia, regular army, and volunteers under General Winfield Scott forced the remaining 15,000 Cherokees from their homes in the Great Smoky Mountains and removed them to stockades at the U.S. Indian Agency near Charleston, Tennessee; their homes were burned and their property destroyed and plundered; farms belonging to the Cherokees for generations were won by white settlers in a lottery; and

WHEREAS, The march of 1,000 miles began in the winter of 1838; carrying only a few light blankets and wearing scant clothing with daily rations of only salt pork and corn meal, many sickened and died along the way; medical care was nearly non-existent; only the very old, sick, and small children could be carried in wagons or ride on horseback; over 8,000 were on foot, most without shoes or moccasins; they crossed Tennessee and Kentucky; about the 3rd of December, 1838, they arrived in Southern Illinois at Golconda; and

WHEREAS, To reach Golconda from Kentucky, the Cherokee had to cross the Ohio River; they were forced to pay $1 a head for a ferry passage on "Berry's Ferry" operating out of Golconda, which was rather exorbitant because it normally cost only 12 and half cents for a Conestoga wagon and all you could carry; "Berry's Ferry" made over $10,000 that winter out of the pockets of the starving Cherokees; they were not allowed passage until the ferry had serviced all others wishing to cross and were forced to take shelter under "Mantle Rock," a shelter bluff on the Kentucky side, until "Berry had nothing better to do"; many died huddled together at Mantle Rock waiting to
JOINT RESOLUTIONS

WHEREAS, Many contagious diseases spread among the tribe during their journey - cholera, whooping cough, and smallpox; the Cherokee were given used blankets from a hospital in Tennessee where an epidemic of smallpox had broken out; because of the diseases, the Indians were not allowed to go into any towns or villages along the way; many times this meant traveling much farther to go around them; one family in Golconda had compassion on them, however, and shared their pumpkin crop with the Cherokee; and

WHEREAS, While staying near Golconda, several Cherokee were murdered by locals; the killers filed a lawsuit against the U.S. Government through the courthouse in Vienna, suing the government for $35 a head to bury the murdered Cherokee; they lost their suit and the bodies were thrown in shallow, unmarked graves near Brownfield where a monument to the Trail of Tears now stands; and

WHEREAS, The Cherokee marched on through Southern Illinois; their trail, which follows the course of what is now Illinois Route 146, is marked by crude camps from Golconda through Dixon Springs, Wartrace, Vienna, Mt. Pleasant, and Jonesboro to the Dutch Creek Crossing; about December 15, 1838, they were forced to spend the winter in the area of what is now the Trail of Tears State Forest; floating ice on the Mississippi River made it impossible to cross; many died there during the long, cold winter; Some were sold into slavery and a few escaped; and

WHEREAS, Those who escaped the march hid in the hills; some eventually returned to their land in the Smoky Mountains and their descendants live to this day in and around Cherokee, North Carolina; annually they re-enact the tragic events of that winter and their forced march in a play called "Unto These Hills"; at least 4,000 Cherokee Indians died that winter along with the pride of a nation that may never be restored; and

WHEREAS, Illinois Route 146 has not previously been officially designated by the State of Illinois as a historic route of the Trail of Tears; therefore, be it

RESOLVED, BY THE HOUSE OF REPRESENTATIVES OF THE NINETY-FOURTH GENERAL ASSEMBLY OF THE STATE OF ILLINOIS, THE SENATE CONCURRING HEREIN, that Illinois Route 146 is officially designated a historic highway and a route of the Trail of Tears; and be it further
RESOLVED, That the Illinois Department of Transportation is requested to erect at suitable locations, consistent with State regulations, appropriate plaques or signs giving notice of the designation; and be it further RESOLVED, That suitable copies of this resolution be presented to the Secretary of the Illinois Department of Transportation and to Dr. K. All grants shall be consistent with the policies and functions of the Illinois Regenerative Medicine Institute (IRMI) program as set forth below:

1. The Department of Public Health shall establish the IRMI program and make grants and loans for stem cell research to study therapies, protocols, medical procedures, possible cures for, and potential mitigations of, major diseases, injuries, and orphan diseases; to support all stages of the process of developing cures, from laboratory research through successful clinical trials; to establish the appropriate regulatory standards and oversight bodies for research and facilities development.

2. The IRMI program shall provide funding for stem cell research that involves adult stem cells, cord blood stem cells, pluripotent stem cells, totipotent stem cells, progenitor cells, the product of somatic cell nuclear transfer or any combination of those cells.

3. No funds authorized or made available under the IRMI program shall be used for research involving the reproductive cloning of a human being, fetuses from induced abortions or to create embryos through the combination of gametes solely for the purpose of research. As used in this Executive Order, "cloning of a human being" means asexual human reproduction by implanting or attempting to implant the product of nuclear transplantation into a woman's uterus to initiate a human pregnancy.
4. No funds shall be awarded to any person who knowingly, for valuable consideration, purchases or sells embryonic or cadaveric fetal tissue for research purposes. For the purposes of this paragraph, payment of customary medical charges for the removal, processing, disposal, preservation, quality control, storage, transplantation, or implantation of the tissue does not constitute valuable consideration. This paragraph does not prohibit reimbursement for removal, storage, or transportation of embryonic fetal tissue for research purposes pursuant to this Executive Order.

Grantee Requirements & Conditions

Medical and scientific accountability standards

All eligible grantees shall agree to and comply with all terms and conditions of the Department, of this Executive Order, and the grant requirements which shall include, but not be limited to, the specific requirements and conditions as set forth below prior to acceptance of any such grant awards.

1. Informed consent. Standards for obtaining the informed consent of research donors, patients, or participants initially shall be generally based on the requirements at 45 CFR 46.116 for all research funded by the National Institutes of Health and consistent with the Guidelines for Human Embryonic Stem Cell Research issued by the National Academies of Sciences.

Grants shall be limited in the use of the funds for the purchase of stem cells or stem cell lines to reasonable payment for removal, processing, disposal, preservation, quality control, storage, transplantation, implantation, or legal transaction or other administrative costs associated with these medical procedures and shall specifically include any required payments for medical or scientific technologies, products,
or processes for royalties, patent, licensing fees, or other costs for intellectual property. Grant terms shall be consistent with the Guidelines for Human Embryonic Stem Cell Research issued by the National Academies of Sciences.

5. Time limits for obtaining cells. Standards shall set a limit on the time during which cells may be extracted from blastocysts, which shall initially be 8 to 12 days after cell division begins, not counting any time during which the blastocysts or cells have been stored frozen.

6. All grants and loan awards issued by the institute shall include intellectual property provisions that provide protections and incentives to encourage both the discovery and development of new knowledge and its transfer for the public benefit. It is the policy and objective of the institute to promote the utilization of intellectual property arising from program-supported research or development; to promote collaboration between commercial concerns and nonprofit organizations, including universities; to ensure that intellectual property is used in a manner to promote free competition and enterprise without unduly encumbering future research and discovery; to ensure that the State obtains proportionate rights in institute-supported intellectual property; to protect the public against nonuse or unreasonable use of such intellectual property; and to minimize the costs of administering policies in this area.

EXECUTIVE ORDER RELATING TO PEER-TO-PEER FILE-SHARING SOFTWARE

WHEREAS, all State agencies have a responsibility to prevent and eliminate fraud, piracy, and theft, and every State employee has an
affirmative responsibility to report incidents of fraud, piracy, and theft; and
WHEREAS, the State of Illinois is entrusted with the proper and ethical operation and maintenance of its information management systems to prevent fraud, piracy, and theft; and
WHEREAS, the use of certain peer-to-peer file-sharing on State computers creates a potential security risk by allowing individuals outside of State government to access the State’s information management systems; and
WHEREAS, without adequate protections and procedures in place, the use of peer-to-peer file-sharing software can result in the presence of viruses and malicious programs on State information management system computers and networks and consume network resources resulting in inefficient performance of those systems;
NOW THEREFORE, I, ROD BLAGOJEVICH, Governor of the State of Illinois, by virtue of the power and authority vested in me by the Constitution and the laws of the State of Illinois, do hereby order:

1. The Department of Central Management Services shall develop a statewide policy for use by each State agency, department, board, and commission which prohibits unauthorized or illegal use of peer-to-peer software programs. While most software has inherent risks, it is unauthorized or illegal use that poses the greatest risk to the security and integrity of the State’s information management systems. The policy shall also define authorized use of legitimate file-sharing between, among, or within federal, State, or local government entities for official business, or law enforcement purposes, the use of which should not pose security risks to the government’s computer systems.

2. The Department of Central Management Services shall assess the availability and cost effectiveness of technologies that may be used to prevent fraud, piracy, and theft by prohibited peer-to-peer file-sharing activities on State government computers, networks, and other information management
systems.

3. The chair or executive director of each State agency, department, board, or commission shall be responsible for ensuring compliance with the statewide policy. CMS shall use its best efforts to develop a policy that minimizes any negative fiscal impact on State agencies.

4. For purposes of this executive order, “peer-to-peer file-sharing software” means computer software, other than computer and network operating systems, that has as its primary function the capability of allowing the computer on which the software is used to designate files available for transmission to another computer using the software, to transmit files directly to another computer using the software, and to request transmission of files from another computer using the software.

This Executive Order shall become effective upon filing with the Secretary of State.

EXECUTIVE ORDERS

2006-11
EXECUTIVE ORDER ON CLIMATE CHANGE AND GREENHOUSE GAS REDUCTION

WHEREAS, the scientific consensus is that increasing emissions of greenhouse gases are causing global temperatures to rise at rates that could cause worldwide economic disruption, environmental damage and public health crises;

WHEREAS, global warming is largely due to the combustion of fossil fuels that release carbon dioxide and other greenhouse gases that trap heat in the atmosphere;

WHEREAS, the Intergovernmental Panel on Climate Change and the National Academy of Sciences have reported that atmospheric carbon dioxide is at the highest level in more than 500,000 years;

WHEREAS, average global temperatures were the hottest on record ten of the past sixteen years. Scientists have predicted that temperatures in Illinois could rise significantly by the end of this century, leading to hotter summers, shorter winters, and increased drought and flood events;

WHEREAS, these effects could strain drinking water supplies, overwhelm sewage treatment capacity, reduce the water level of Lake Michigan, destroy wetlands, erode soil, and harm croplands, ecosystems and habitats, among other damaging effects;

WHEREAS, leading climatologists have estimated that less than a decade remains before global warming could be irreversible and that governments, businesses and households must act now to reduce greenhouse gas emissions;

WHEREAS, 165 countries and other entities around the world have signed the Kyoto protocol in recognition of the urgency in acting to reduce greenhouse gas emissions;

WHEREAS, many business leaders, including large manufacturing and insurance companies worldwide, have recognized the need to reduce greenhouse gas emissions;

WHEREAS, the United States government has failed to sign the
Kyoto protocol or to enact policies to reduce national greenhouse gas emissions;

WHEREAS, this lack of federal leadership leaves the United States, the world’s largest emitter of greenhouse gases, without an effective national strategy to address the threat of global climate change, that includes rising sea levels, droughts, flooding, severe weather events, the expansion of diseases and invasive species, and economic dislocation;

WHEREAS, the State of Illinois recognizes that states can play an integral role in adopting policies to address climate change and promote strategies to reduce greenhouse gases while advancing technologies to develop clean, renewable and homegrown energy resources;

WHEREAS, the State of Illinois is a national leader in addressing climate change by reducing greenhouse gas emissions through the production and use of biofuels, purchasing renewable power, encouraging agricultural conservation projects that sequester carbon, and proposing an aggressive energy independence plan that includes strategies to reduce carbon emissions, generate renewable energy and invest in energy efficiency resources;

WHEREAS, Illinois is one of the leading states in a multi-state effort to develop a national greenhouse gas registry that businesses and other entities can use to measure and manage greenhouse gas emissions;

WHEREAS, many clean energy and energy efficiency policies that reduce emissions of greenhouse gases can also boost economic development, create jobs, stabilize energy prices, improve air quality, and reduce traffic congestion, among other benefits; and

WHEREAS, Illinois’ leadership in the development of state and regional climate change policies will ensure that Illinois businesses and other institutions will be well prepared to adapt to any national climate change policy.

NOW THEREFORE, I, ROD BLAGOJEVICH, Governor of the State of Illinois, by virtue of the power and authority vested in me by the Constitution and the laws of the State of Illinois do hereby order:

I. Creation of the Illinois Climate Change Advisory Group

(a) There is created the Illinois Climate Change Advisory Group (“the Advisory Group”). The purpose of the Advisory Group is to provide recommendations to the
Office of the Governor regarding climate change policy.

(b) The Advisory Group shall consist of individuals appointed by the Governor and shall be chaired by the Director of the Illinois Environmental Protection Agency. The Advisory Group will include representatives from business, labor unions, environmental groups, agriculture, the energy sector, as well as scientists and economists from throughout Illinois.

(c) Members of the Advisory Group shall serve at the pleasure of the Governor and shall meet regularly to accomplish the goals of the Advisory Group. The members shall serve without compensation. The chairperson may convene the Advisory Group at any time.

(d) A vacancy in the membership of the Advisory Group shall not impair the right of a quorum to exercise all the rights and perform all the duties of the Advisory Group. A majority of Advisory Group members then appointed constitutes a quorum. A majority vote of the quorum is required for a Advisory Group decision.

(e) The Illinois Environmental Protection Agency shall provide necessary staff assistance to the Advisory Group.

II. Duties of the Illinois Climate Change Advisory Group

(a) The Advisory Group shall, after fully considering the full range of policies and strategies regarding climate change, present proposals to the Governor to reduce statewide greenhouse gas emissions.

(b) The Advisory Group shall present its findings and recommendations, including an inventory of existing and planned actions to reduce greenhouse gas emissions, to the Governor by June 30, 2007.

III. Membership in the Chicago Climate Exchange

It is the intent for the State of Illinois to join Chicago Climate Exchange (CCX), a greenhouse gas emissions registry, reduction and trading system, to reduce emissions from governmental activities by 6% by 2010. The Illinois Environmental Protection Agency shall review all terms
associated with joining the CCX and shall make a recommendation to the Governor regarding the terms of membership in the CCX. Membership in the CCX will allow the State to lead by example in achieving meaningful reductions in its own greenhouse gas emissions associated with State government operations as well as gain valuable experience in participating in a market-based mechanism for reducing greenhouse gas emissions and improving the efficiency of state government operations.

IV. Reporting Requirements

The Illinois Environmental Protection Agency shall produce an annual report to the Governor at the end of each fiscal year tracking statewide greenhouse gas emissions in Illinois and forecasted trends. Additionally, the Illinois Environmental Protection Agency shall annually document the greenhouse gas emissions of State government, and track progress towards meeting the CCX reduction targets.

This Executive Order shall take effect immediately upon filing with the Secretary of State.

Issued by the Governor October 05, 2006.

Filed by the Secretary of State October 05, 2006.

2006-12

WHEREAS, some high-tech equipment contains toxic chemicals such as brominated flame retardants in plastics and circuit boards, beryllium alloys in connectors, lead-tin based solders, lead- and barium-laden cathode ray tubes, and mercury lamps; and

WHEREAS, the State of Illinois is entrusted by the citizens of the State to be a responsible environmental steward; and

WHEREAS, the improper recycling and or disposal of electronic
equipment has the potential to inflict serious health and environmental
damage; and

WHEREAS, the lack of federal environmental regulations to

populations of third-world countries; and

WHEREAS, it is incumbent upon the State to ensure that
procedures exist within Illinois Government to protect and secure
confidential and other sensitive data and keep pace with these
technological advances; and

WHEREAS, it is prudent to require that all computer and

reutilized and redistributed to maximize taxpayer financed assets, or
disposed of by means of transfer, donation, sale or recycling;

THEREFORE, I Rod R. Blagojevich, Governor of the State of
Illinois, hereby order the following:

I. All state agencies, boards, and commissions shall
immediately review all procedures to ensure that they are in
compliance with P.A. 93-0306, Data Security on State
Computers Act (20 ILCS 450/1 et. seq.), that I signed into

II. The Illinois Department of Central Management Services
(CMS) shall develop and implement procedures and
programs to ensure that any and all operable and inoperable
information technology and electronic equipment, including
but not limited to, desktops, laptops, servers, internal/external storage drives, portable drives, printers,

needs shall be removed from state service, and properly
redistributed, reutilized, recycled or disposed of in an
environmentally responsible manner consistent with the
Illinois Finance Act, Illinois Property Control Act and all
applicable state and federal environmental laws.

III. CMS shall also update, create, establish and implement
specific policies, procedures, rules, and programs to ensure that all hard drives, external storage drives, servers, etc., of state-owned electronic data processing and information technology equipment be cleared of all data, software, and operating systems prior to transfer, donation or sale.

IV. Savings Clause: Nothing in this Executive Order shall be construed to contravene any applicable state or federal law.

V. Severability. If any provision of this Executive Order or its application to any person or circumstance is held invalid by any court of competent jurisdiction, this invalidity does not affect any other provision or application of this Executive Order which can be given effect without the invalid provision or application.

VI. Effective Date: This Executive Order becomes effective upon filing with the Secretary of State.

Issued by the Governor October 30, 2006.

WHEREAS, a longtime community activist and friend of the
disenfranchised, Jorja English Palmer passed away December 29, 2005; and
WHEREAS, the seventh child of nine children and the youngest
daughter of Frank and Elizabeth (Bessie) Williams, Jorja was born June 16, 1930 in New Madrid, Missouri. When she was only four years old, both of
her parents passed away; and
WHEREAS, Jorja and seven siblings subsequently lived with their
aunt Esther Mack on the Southside of Chicago, where Jorja attended Willard
and Forestville Elementary Schools. She later participated in the Civil Rights
Movement while studying at DuSable High School and Chicago City Junior
Colleges; and
WHEREAS, as a young mother, Jorja was living in the racially
changing community of West Chatham. There, she actively participated in the
West Chatham Improvement Association and was selected by their education
committee to attend the newly formed Chicago Community Council
Organization; and
WHEREAS, Jorja was an important leader in the Chicago
Community Council Organization’s historic school boycott, in which 80
percent of African American families kept their children out of school to
protest the use of portable trailers for schooling; and
WHEREAS, during the 1970s, Jorja engaged in the fight for an
African American Chicago school board president and served as a delegate
to the historic National Black Political Assembly in Gary, Indiana; and
WHEREAS, in the early 80’s, Jorja and her husband, Lu Palmer,
launched the largest voter registration drive in American history, which
solidified a central constituency of African American voters who persuaded
Harold Washington to run for, and eventually win the seat of mayor of
Chicago; and
WHEREAS, Mrs. Palmer has made many other significant
contributions, and she will undoubtedly be greatly missed by her large family
and the many friends she has made over the course of her life:

THEREFORE, I, Rod R. Blagojevich, Governor of the State of
Illinois, do hereby proclaim January 4, 2006 as JORJA ENGLISH PALMER

2006-1
JORJA ENGLISH PALMER DAY
DAY in Illinois, in honor and remembrance of Mrs. Palmer and her many contributions to the African American community, the City of Chicago, and the great state of Illinois.

Issued by the Governor January 04, 2006.
Filed by the Secretary of State January 04, 2006.

2006-2

BLOOD DONOR MONTH

WHEREAS, approximately four million patients in the United States receive blood transfusions every year, and roughly 38,000 units of blood are required in hospitals and emergency treatment facilities on any given day; and

WHEREAS, unfortunately, blood donations often fall short of demand. While approximately eight million volunteers donate blood every year, just one trauma patient can use more than 100 units of blood, and donated blood has a shelf life of only 42 days; and

WHEREAS, even if volunteers donated blood regularly, donors can only give two units of blood every eight weeks. Consequently, there is a continual need to recruit more donors; and

WHEREAS, January is generally a difficult time to recruit donors. For that reason, organizations all across the country organize blood drives and promote blood donations throughout the month:

THEREFORE, I, Rod Blagojevich, Governor of the State of Illinois, do hereby proclaim January 2006 as BLOOD DONOR MONTH in Illinois, and encourage all eligible donors to open their hearts this month by giving blood.

Issued by the Governor January 09, 2006.
Filed by the Secretary of State January 09, 2006.

2006-3

AFRICAN AMERICAN HISTORY MONTH

WHEREAS, Dr. Carter G. Woodson, a noted intellectual of his time, founded the Association for the Study of Afro-American Life and History (ASALH) in 1915. Eleven years later, Dr. Woodson created Negro History Week to celebrate the many contributions of African Americans to American
culture and customs; and

WHEREAS, Dr. Woodson designated the second week of February as Negro History Week to coincide with the birthdays of Abraham Lincoln and Frederick Douglass, in honor of their considerable impact on African American history. In 1976, ASALH extended the celebration for the entire month of February; and

WHEREAS, there have been several milestone events in African American history during February, including: passage of the 15th Amendment in 1870, which granted African Americans the right to vote; the inauguration of the first African American Senator, Hiram Revels, also in 1870; and the founding of the National Association for the Advancement of Colored People in 1909; and

WHEREAS, throughout African American History Month, organizations all across the country celebrate African American history with seminars, plays, concerts, art shows, films, dance performances, family workshops, and other expressions of creativity and pride. Here in Illinois, we are proud to join in these spirited commemorations:

THEREFORE, I, Rod Blagojevich, Governor of the State of Illinois, do hereby proclaim February 2006 as AFRICAN AMERICAN HISTORY MONTH in Illinois, and encourage all citizens to learn about the wonderful contributions that African Americans have made to our state, and to the nation as a whole.

Issued by the Governor January 09, 2006.
Filed by the Secretary of State January 09, 2006.

2006-4
WOMEN’S HEALTHY HEART MONTH

WHEREAS, heart disease claims the lives of nearly 500,000 women in the United States every year, at a rate of about one death per minute, and is the leading cause of death among women. In Illinois alone, 15,796 women died in 2002 due to diseases of the heart; and

WHEREAS, the majority of women are not aware of their risk factors for a heart attack, nor are they even aware of the signs and symptoms of a heart attack. Risk factors for a heart attack include tobacco use, high blood cholesterol, high blood pressure, physical inactivity, diabetes and obesity; and
WHEREAS, signs and symptoms of a heart attack include uncomfortable pressure, squeezing, fullness or pain in the center of the chest that lasts more than a few minutes, or goes away and comes back; pain or discomfort in one or both arms, the back, neck, jaw or stomach; shortness of breath along with, or before, chest discomfort; and cold sweat, nausea or lightheadedness; and

WHEREAS, heart disease is a serious problem that unnecessarily affects far too many Americans. Consequently, it is critical that Americans are also more attentive of certain habits that will both greatly improve their health and significantly reduce the risks of heart disease, such as exercising regularly and eating healthy meals and snacks; and

WHEREAS, February of each year is nationally recognized as American Heart Month, Go Red for Women, and this year in Illinois, we want to give special emphasis to women’s heart health by declaring February Women’s Healthy Heart Month; and

WHEREAS, we are also proud to join various heart health organizations across the country in encouraging Americans to wear red on February 3 in support of the continued efforts to raise awareness of heart disease among women in Illinois:

THEREFORE, I, Rod R. Blagojevich, Governor of the State of Illinois, do hereby proclaim February 2006 as WOMEN’S HEALTHY HEART MONTH in Illinois, and urge all citizens, especially women, to familiarize themselves with the risks and signs and symptoms of a heart attack, as well as the habits they can practice to improve their health and reduce the risks of heart disease.

Issued by the Governor January 09, 2006.
Filed by the Secretary of State January 09, 2006.

2006-5
AMBUCS NATIONAL VISIBILITY MONTH

WHEREAS, AMBUCS is a national service organization composed of a diverse group of men and women who are dedicated to fostering mobility and independence for those with disabilities; and

WHEREAS, today, there are more than 6,000 AMBUCS members throughout the country who administer wonderful programs such as
AMBUCS Scholars. King also led a massive civil rights protest in Birmingham, Alabama that drew worldwide attention to the appalling treatment of African Americans in the South; and WHEREAS, Dr. King is best known, however, for his I Have A Dream speech during the peaceful March on Washington demonstration for civil rights, in which he eloquently described a day when “all of God's

VIPER MINE RESCUE CREW DAY

WHEREAS, in the immediate aftermath, International Coal Group dispatched a rescue team from Viper Mine in Williamsville, Illinois. The International Coal Group owns both mines in West Virginia and Illinois; and
WHEREAS, Viper Mine is about 10 miles north of Springfield, and employs approximately 250 men and women. Within two hours after they received the call, the Viper Mine’s seven-man rescue crew, a few of whom were on vacation, were on a plane en route to the disaster scene 630 miles away, and a second plane carried their gear; and
WHEREAS, the Viper team was among the first on the ground at the disaster site, and the only rescue crew from Illinois. As the situation unfolded, and rescue operations continued into Tuesday, the news became increasingly discouraging. However, miners and their families in West Virginia and in central Illinois were holding out for a miracle; and
WHEREAS, Central Illinois miners were being briefed on the rescue effort at the beginning of each shift and keeping up with the news via televisions in the mine office’s common areas. Late Tuesday, rescue crews found one trapped miner dead, but they held out hope the others were still alive; and
WHEREAS, unfortunately, news circulated Wednesday morning that all but one of the trapped miners died. Our hearts go out to all their friends and families, and to the entire mining community; and

WHEREAS, although their rescue attempt did not save the trapped miners, their deaths do not diminish the audacious courage and bravery of the Viper team, who deserve our heartfelt thanks and admiration. Their names, which had been withheld during operations in deference to their families, are Pete Bryant, Brett Bushong, Ty Hunt, Brad Kauffman, Paul Perrine, Brandon Sanson, and Alan Setzer:

THEREFORE, I Rod R. Blagojevich, Governor of the State of Illinois, do hereby proclaim January 12, 2006 as VIPER MINE RESCUE CREW DAY, and recognize and commend the Viper team for their selfless sacrifice and willingness to help fellow miners, the loss of whom we all grieve and to whose families I offer my most profound condolences and sympathies.

LUNAR NEW YEAR CELEBRATION DAY

WHEREAS, January 29 is the first day of the Lunar New Year, also known as Chinese New Year or Spring Festival. The Chinese calendar has been in continuous use for centuries, predating the international calendar that we use at the present day, which goes back only some 425 years; and

WHEREAS, the Chinese calendar measures time from short durations of minutes and hours to intervals of time measured in months, years, and centuries that are entirely based on the astronomical observations of the movement of the sun, the moon, and the stars; and

WHEREAS, New Year’s Eve and New Year’s Day are celebrated as a family affair, a time of reunion and thanksgiving. Traditionally, the celebration was highlighted with a religious ceremony given in honor of Heaven and Earth, the gods of the household and the family ancestors; and

WHEREAS, the sacrifice to the ancestors, the most vital of all the rituals, united the living members with those who had passed away. Departed relatives are remembered with great respect because they were responsible for laying the foundations for the fortune and glory of the family; and

WHEREAS, today, the presence of the ancestors is acknowledged on New Year’s Eve with a dinner arranged for them at the family banquet table. The spirits of the ancestors, together with the living, celebrate the onset of the New Year as one great community. The communal feast, called “surrounding the stove” or weilu, symbolizes family unity and honors the past and present generations; and

WHEREAS, many Chinese began immigrating to America during the 1850’s, and this began a new era of Asian immigration in the United States:

THEREFORE, I, Rod R. Blagojevich, Governor of the State of Illinois, do hereby proclaim January 29, 2006 as LUNAR NEW YEAR CELEBRATION DAY in Illinois in recognition of this important holiday for Asian-Americans, who have made significant contributions to our great State,

WHEREAS, African-American men and women have served and
distinguished themselves in times of peace as well as during every major
conflict since the birth of our nation; and

WHEREAS, certain African-American groups such as: Company E,

WHEREAS, colorectal cancer, cancer of the colon or rectum, is the second leading cause of cancer-related deaths in the United States for both men and women combined. The disease surpasses both breast and prostate cancer in mortality, second only to lung cancer in numbers of cancer deaths; and

WHEREAS, Merle Rosenberg from Northbrook, Illinois was one victim of colorectal cancer. Although he underwent a sigmoidoscopy, the disease went undetected, and Merle passed away in 1998 after suffering a protracted battle with the insidious disease; and

WHEREAS, sadly, there are thousands of Americans like Merle who die from colorectal cancer every year. An estimated 56,000 men and women died from the disease just in 2005, and it is estimated that more than 145,000 Americans will be diagnosed with colorectal cancer this year; and

WHEREAS, today, approximately 90 percent of colorectal cancers and deaths are thought to be preventable thanks to a procedure called a colonoscopy, which, unlike a sigmoidoscopy, allows doctors to look inside the entire large intestine; and

WHEREAS, most cases of colorectal cancer begin as non-cancerous polyps, which are grape-like growths on the lining of the colon and rectum. These polyps can become cancerous. Consequently, their removal can prevent colorectal cancer from ever developing; and

WHEREAS, because there are often no symptoms related to polyps, it is important to get screened regularly. Men and women at an average risk for the disease should start getting screened after the age of 50. Recent research has shown that African Americans are more frequently diagnosed at a younger age. Experts suggest they begin screening after the age of 45; and

WHEREAS, colorectal cancer screening tests can even save lives when they detect polyps that have become cancerous. When discovered early, the disease can be cured in most cases. Unfortunately, less than 50 percent of Americans over the age of 50 receive regular screenings for colorectal cancer; and

WHEREAS, a number of organizations throughout the country will sponsor activities and events this March that educate the public about the
importance of getting screened regularly, as well as other ways to reduce the risk of colorectal cancer, such as adopting a healthy lifestyle and diet:

THEREFORE, I, Rod R. Blagojevich, Governor of the State of Illinois, do hereby proclaim March 2006 as COLORECTAL CANCER AWARENESS MONTH in Illinois to raise awareness about colorectal cancer, and to promote colonoscopies so that others can avoid the same fate as Merle Rosenberg or any of the victims of this terrible disease.

WHEREAS, severe burn injuries are a leading cause of death in the United States. Sadly, children, the elderly, and those with disabilities are most likely to become victims of serious burns. Young children are particularly vulnerable; and

WHEREAS, although approximately 75 percent of all burn injuries and deaths are preventable, more than one million Americans suffer burn injuries of some kind every year. Of those burn victims, more than one of every three are children; and

WHEREAS, there are care centers throughout the country that treat burn victims, including four Shriners Hospitals that provide medical aid and assistance totally and completely free of charge to burned children; and

WHEREAS, the Shriners of North America built the first Shriners Hospital in 1922 in Shreveport, Louisiana to treat crippled children. Three decades later, in 1963, they opened the first Shriners burn facility at the University of Texas Medical Branch in Galveston; and

WHEREAS, while children with burns over 45 percent of their body were considered fatal in 1968, many children with burns over 95 percent of their bodies survive today thanks to care centers such as Shriners Hospitals; and

WHEREAS, by being vigilant, we can even prevent most burn injuries. Consequently, educators and professionals promote burn prevention and safety every year during Burn Awareness Week, which is observed the first full week in February:
THEREFORE, I, Rod R. Blagojevich, Governor of the State of Illinois, do hereby proclaim February 5-11, 2006 as BURN AWARENESS WEEK in Illinois to raise awareness about the problem of burn injuries and deaths, and to recognize the Shriners Hospitals and all care centers that treat burn victims for their commitment and dedication to them.
