(40 ILCS 5/4-112) (from Ch. 108 1/2, par. 4-112)

Sec. 4-112. Determination of disability; restoration to active service; disability cannot constitute cause for discharge. The 3 physicians selected by the board need not agree as to the existence of any disability or the nature and extent of a disability. Upon satisfactory proof to the board that a firefighter on the disability pension has recovered from disability, the board shall terminate the disability pension. The firefighter shall report to the marshal or chief of the fire department, who shall thereupon order immediate reinstatement into active service, and the municipality shall immediately return the firefighter to its payroll, in the same rank or grade held at the date he or she was placed on disability pension. PUBLIC ACT 95-0683
(House Bill No. 1519)

AN ACT concerning local government.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:
Section 5. The Illinois Municipal Code is amended by changing Sections 11-74.4-3 and 11-74.4-7 as follows:
(65 ILCS 5/11-74.4-3) (from Ch. 24, par. 11-74.4-3)
Sec. 11-74.4-3. Definitions. The following terms, wherever used or referred to in this Division 74.4 shall have the following respective meanings, unless in any case a different meaning clearly appears from the context.
(a) For any redevelopment project area that has been designated pursuant to this Section by an ordinance adopted prior to November 1, 1999 (the effective date of Public Act 91-478), "blighted area" shall have the meaning set forth in this Section prior to that date.
On and after November 1, 1999, "blighted area" means any improved or vacant area within the boundaries of a redevelopment project area located within the territorial limits of the municipality where:

New matter indicated by italics - deletions by strikeout
(1) If improved, industrial, commercial, and residential buildings or improvements are detrimental to the public safety, health, or welfare because of a combination of 5 or more of the following factors, each of which is (i) present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) reasonably distributed throughout the improved part of the redevelopment project area:

   (A) Dilapidation. An advanced state of disrepair or neglect of necessary repairs to the primary structural components of buildings or improvements in such a combination that a documented building condition analysis determines that major repair is required or the defects are so serious and so extensive that the buildings must be removed.

   (B) Obsolescence. The condition or process of falling into disuse. Structures have become ill-suited for the original use.

   (C) Deterioration. With respect to buildings, defects including, but not limited to, major defects in the secondary building components such as doors, windows, porches, gutters and downspouts, and fascia. With respect to surface improvements, that the condition of roadways, alleys, curbs, gutters, sidewalks, off-street parking, and surface storage areas evidence deterioration, including, but not limited to, surface cracking, crumbling, potholes, depressions, loose paving material, and weeds protruding through paved surfaces.

   (D) Presence of structures below minimum code standards. All structures that do not meet the standards of zoning, subdivision, building, fire, and other governmental codes applicable to property, but not including housing and property maintenance codes.

New matter indicated by italics - deletions by strikeout
(E) Illegal use of individual structures. The use of structures in violation of applicable federal, State, or local laws, exclusive of those applicable to the presence of structures below minimum code standards.

(F) Excessive vacancies. The presence of buildings that are unoccupied or under-utilized and that represent an adverse influence on the area because of the frequency, extent, or duration of the vacancies.

(G) Lack of ventilation, light, or sanitary facilities. The absence of adequate ventilation for light or air circulation in spaces or rooms without windows, or that require the removal of dust, odor, gas, smoke, or other noxious airborne materials. Inadequate natural light and ventilation means the absence of skylights or windows for interior spaces or rooms and improper window sizes and amounts by room area to window area ratios. Inadequate sanitary facilities refers to the absence or inadequacy of garbage storage and enclosure, bathroom facilities, hot water and kitchens, and structural inadequacies preventing ingress and egress to and from all rooms and units within a building.

(H) Inadequate utilities. Underground and overhead utilities such as storm sewers and storm drainage, sanitary sewers, water lines, and gas, telephone, and electrical services that are shown to be inadequate. Inadequate utilities are those that are: (i) of insufficient capacity to serve the uses in the redevelopment project area, (ii) deteriorated, antiquated, obsolete, or in disrepair, or (iii) lacking within the redevelopment project area.

(I) Excessive land coverage and overcrowding of structures and community facilities. The over-intensive use of property and the crowding of buildings and accessory facilities onto a site. Examples of problem conditions warranting the designation of an area as one exhibiting
excessive land coverage are: (i) the presence of buildings either improperly situated on parcels or located on parcels of inadequate size and shape in relation to present-day standards of development for health and safety and (ii) the presence of multiple buildings on a single parcel. For there to be a finding of excessive land coverage, these parcels must exhibit one or more of the following conditions: insufficient provision for light and air within or around buildings, increased threat of spread of fire due to the close proximity of buildings, lack of adequate or proper access to a public right-of-way, lack of reasonably required off-street parking, or inadequate provision for loading and service.

(J) Deleterious land use or layout. The existence of incompatible land-use relationships, buildings occupied by inappropriate mixed-uses, or uses considered to be noxious, offensive, or unsuitable for the surrounding area.

(K) Environmental clean-up. The proposed redevelopment project area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

(L) Lack of community planning. The proposed redevelopment project area was developed prior to or without the benefit or guidance of a community plan. This means that the development occurred prior to the adoption by the municipality of a comprehensive or other community plan or that the plan was not followed at the time of the...
area's development. This factor must be documented by evidence of adverse or incompatible land-use relationships, inadequate street layout, improper subdivision, parcels of inadequate shape and size to meet contemporary development standards, or other evidence demonstrating an absence of effective community planning.

(M) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated.

(2) If vacant, the sound growth of the redevelopment project area is impaired by a combination of 2 or more of the following factors, each of which is (i) present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) reasonably distributed throughout the vacant part of the redevelopment project area to which it pertains:

(A) Obsolete platting of vacant land that results in parcels of limited or narrow size or configurations of parcels of irregular size or shape that would be difficult to develop on a planned basis and in a manner compatible with contemporary standards and requirements, or platting that failed to create rights-of-ways for streets or alleys or that created inadequate right-of-way widths for streets, alleys, or other public rights-of-way or that omitted easements for public utilities.

New matter indicated by italics - deletions by strikeout
(B) Diversity of ownership of parcels of vacant land sufficient in number to retard or impede the ability to assemble the land for development.

(C) Tax and special assessment delinquencies exist or the property has been the subject of tax sales under the Property Tax Code within the last 5 years.

(D) Deterioration of structures or site improvements in neighboring areas adjacent to the vacant land.

(E) The area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

(F) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated.

(3) If vacant, the sound growth of the redevelopment project area is impaired by one of the following factors that (i) is present, with that presence documented, to a meaningful extent so
that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) is reasonably distributed throughout the vacant part of the redevelopment project area to which it pertains:

(A) The area consists of one or more unused quarries, mines, or strip mine ponds.

(B) The area consists of unused rail yards, rail tracks, or railroad rights-of-way.

(C) The area, prior to its designation, is subject to (i) chronic flooding that adversely impacts on real property in the area as certified by a registered professional engineer or appropriate regulatory agency or (ii) surface water that discharges from all or a part of the area and contributes to flooding within the same watershed, but only if the redevelopment project provides for facilities or improvements to contribute to the alleviation of all or part of the flooding.

(D) The area consists of an unused or illegal disposal site containing earth, stone, building debris, or similar materials that were removed from construction, demolition, excavation, or dredge sites.

(E) Prior to November 1, 1999, the area is not less than 50 nor more than 100 acres and 75% of which is vacant (notwithstanding that the area has been used for commercial agricultural purposes within 5 years prior to the designation of the redevelopment project area), and the area meets at least one of the factors itemized in paragraph (1) of this subsection, the area has been designated as a town or village center by ordinance or comprehensive plan adopted prior to January 1, 1982, and the area has not been developed for that designated purpose.

(F) The area qualified as a blighted improved area immediately prior to becoming vacant, unless there has

been substantial private investment in the immediately surrounding area.

(b) For any redevelopment project area that has been designated pursuant to this Section by an ordinance adopted prior to November 1, 1999 (the effective date of Public Act 91-478), "conservation area" shall have the meaning set forth in this Section prior to that date.

On and after November 1, 1999, "conservation area" means any improved area within the boundaries of a redevelopment project area located within the territorial limits of the municipality in which 50% or more of the structures in the area have an age of 35 years or more. Such an area is not yet a blighted area but because of a combination of 3 or more of the following factors is detrimental to the public safety, health, morals or welfare and such an area may become a blighted area:

(1) Dilapidation. An advanced state of disrepair or neglect of necessary repairs to the primary structural components of buildings or improvements in such a combination that a documented building condition analysis determines that major repair is required or the defects are so serious and so extensive that the buildings must be removed.

(2) Obsolescence. The condition or process of falling into disuse. Structures have become ill-suited for the original use.

(3) Deterioration. With respect to buildings, defects including, but not limited to, major defects in the secondary building components such as doors, windows, porches, gutters and downspouts, and fascia. With respect to surface improvements, that the condition of roadways, alleys, curbs, gutters, sidewalks, off-street parking, and surface storage areas evidence deterioration, including, but not limited to, surface cracking, crumbling, potholes, depressions, loose paving material, and weeds protruding through paved surfaces.

(4) Presence of structures below minimum code standards. All structures that do not meet the standards of zoning, subdivision, building, fire, and other governmental codes

applicable to property, but not including housing and property maintenance codes.

(5) Illegal use of individual structures. The use of structures in violation of applicable federal, State, or local laws, exclusive of those applicable to the presence of structures below minimum code standards.

(6) Excessive vacancies. The presence of buildings that are unoccupied or under-utilized and that represent an adverse influence on the area because of the frequency, extent, or duration of the vacancies.

(7) Lack of ventilation, light, or sanitary facilities. The absence of adequate ventilation for light or air circulation in spaces or rooms without windows, or that require the removal of dust, odor, gas, smoke, or other noxious airborne materials. Inadequate natural light and ventilation means the absence or inadequacy of skylights or windows for interior spaces or rooms and improper window sizes and amounts by room area to window area ratios. Inadequate sanitary facilities refers to the absence or inadequacy of garbage storage and enclosure, bathroom facilities, hot water and kitchens, and structural inadequacies preventing ingress and egress to and from all rooms and units within a building.

(8) Inadequate utilities. Underground and overhead utilities such as storm sewers and storm drainage, sanitary sewers, water lines, and gas, telephone, and electrical services that are shown to be inadequate. Inadequate utilities are those that are: (i) of insufficient capacity to serve the uses in the redevelopment project area, (ii) deteriorated, antiquated, obsolete, or in disrepair, or (iii) lacking within the redevelopment project area.

(9) Excessive land coverage and overcrowding of structures and community facilities. The over-intensive use of property and the crowding of buildings and accessory facilities onto a site. Examples of problem conditions warranting the designation of an area as one exhibiting excessive land coverage are: the presence of buildings either improperly situated on parcels or located on

New matter indicated by italics - deletions by strikeout
parcels of inadequate size and shape in relation to present-day standards of development for health and safety and the presence of multiple buildings on a single parcel. For there to be a finding of excessive land coverage, these parcels must exhibit one or more of the following conditions: insufficient provision for light and air within or around buildings, increased threat of spread of fire due to the close proximity of buildings, lack of adequate or proper access to a public right-of-way, lack of reasonably required off-street parking, or inadequate provision for loading and service.

(10) Deleterious land use or layout. The existence of incompatible land-use relationships, buildings occupied by inappropriate mixed-uses, or uses considered to be noxious, offensive, or unsuitable for the surrounding area.

(11) Lack of community planning. The proposed redevelopment project area was developed prior to or without the benefit or guidance of a community plan. This means that the development occurred prior to the adoption by the municipality of a comprehensive or other community plan or that the plan was not followed at the time of the area's development. This factor must be documented by evidence of adverse or incompatible land-use relationships, inadequate street layout, improper subdivision, parcels of inadequate shape and size to meet contemporary development standards, or other evidence demonstrating an absence of effective community planning.

(12) The area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.
(13) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years for which information is available.

(c) "Industrial park" means an area in a blighted or conservation area suitable for use by any manufacturing, industrial, research or transportation enterprise, of facilities to include but not be limited to factories, mills, processing plants, assembly plants, packing plants, fabricating plants, industrial distribution centers, warehouses, repair overhaul or service facilities, freight terminals, research facilities, test facilities or railroad facilities.

(d) "Industrial park conservation area" means an area within the boundaries of a redevelopment project area located within the territorial limits of a municipality that is a labor surplus municipality or within 1 1/2 miles of the territorial limits of a municipality that is a labor surplus municipality if the area is annexed to the municipality; which area is zoned as industrial no later than at the time the municipality by ordinance designates the redevelopment project area, and which area includes both vacant land suitable for use as an industrial park and a blighted area or conservation area contiguous to such vacant land.

(e) "Labor surplus municipality" means a municipality in which, at any time during the 6 months before the municipality by ordinance designates an industrial park conservation area, the unemployment rate was over 6% and was also 100% or more of the national average unemployment rate for that same time as published in the United States Department of Labor Bureau of Labor Statistics publication entitled "The Employment Situation" or its successor publication. For the purpose of this subsection, if unemployment rate statistics for the municipality are not available, the unemployment rate in the municipality shall be deemed to be
the same as the unemployment rate in the principal county in which the municipality is located.

(f) "Municipality" shall mean a city, village, incorporated town, or a township that is located in the unincorporated portion of a county with 3 million or more inhabitants, if the county adopted an ordinance that approved the township's redevelopment plan.

(g) "Initial Sales Tax Amounts" means the amount of taxes paid under the Retailers' Occupation Tax Act, Use Tax Act, Service Use Tax Act, the Service Occupation Tax Act, the Municipal Retailers' Occupation Tax Act, and the Municipal Service Occupation Tax Act by retailers and servicemen on transactions at places located in a State Sales Tax Boundary during the calendar year 1985.

(g-1) "Revised Initial Sales Tax Amounts" means the amount of taxes paid under the Retailers' Occupation Tax Act, Use Tax Act, Service Use Tax Act, the Service Occupation Tax Act, the Municipal Retailers' Occupation Tax Act, and the Municipal Service Occupation Tax Act by retailers and servicemen on transactions at places located within the State Sales Tax Boundary revised pursuant to Section 11-74.4-8a(9) of this Act.

(h) "Municipal Sales Tax Increment" means an amount equal to the increase in the aggregate amount of taxes paid to a municipality from the Local Government Tax Fund arising from sales by retailers and servicemen within the redevelopment project area or State Sales Tax Boundary, as the case may be, for as long as the redevelopment project area or State Sales Tax Boundary, as the case may be, exist over and above the aggregate amount of taxes as certified by the Illinois Department of Revenue and paid under the Municipal Retailers' Occupation Tax Act and the Municipal Service Occupation Tax Act by retailers and servicemen, on transactions at places of business located in the redevelopment project area or State Sales Tax Boundary, as the case may be, during the base year which shall be the calendar year immediately prior to the year in which the municipality adopted tax increment allocation financing. For purposes of computing the aggregate amount of such taxes for base years occurring prior to 1985, the Department of Revenue shall determine the Initial Sales Tax Amounts for such taxes and deduct therefrom an amount equal to 4%
of the aggregate amount of taxes per year for each year the base year is prior to 1985, but not to exceed a total deduction of 12%. The amount so determined shall be known as the "Adjusted Initial Sales Tax Amounts". For purposes of determining the Municipal Sales Tax Increment, the Department of Revenue shall for each period subtract from the amount paid to the municipality from the Local Government Tax Fund arising from sales by retailers and servicemen on transactions located in the redevelopment project area or the State Sales Tax Boundary, as the case may be, the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts for the Municipal Retailers' Occupation Tax Act and the Municipal Service Occupation Tax Act. For the State Fiscal Year 1989, this calculation shall be made by utilizing the calendar year 1987 to determine the tax amounts received. For the State Fiscal Year 1990, this calculation shall be made by utilizing the period from January 1, 1988, until September 30, 1988, to determine the tax amounts received from retailers and servicemen pursuant to the Municipal Retailers' Occupation Tax and the Municipal Service Occupation Tax Act, which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For the State Fiscal Year 1991, this calculation shall be made by utilizing the period from October 1, 1988, to June 30, 1989, to determine the tax amounts received from retailers and servicemen pursuant to the Municipal Retailers' Occupation Tax and the Municipal Service Occupation Tax Act which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For every State Fiscal Year thereafter, the applicable period shall be the 12 months beginning July 1 and ending June 30 to determine the tax amounts received which shall have deducted therefrom the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts, as the case may be.

(i) "Net State Sales Tax Increment" means the sum of the following: (a) 80% of the first $100,000 of State Sales Tax Increment
annually generated within a State Sales Tax Boundary; (b) 60% of the amount in excess of $100,000 but not exceeding $500,000 of State Sales Tax Increment annually generated within a State Sales Tax Boundary; and (c) 40% of all amounts in excess of $500,000 of State Sales Tax Increment annually generated within a State Sales Tax Boundary. If, however, a municipality established a tax increment financing district in a county with a population in excess of 3,000,000 before January 1, 1986, and the municipality entered into a contract or issued bonds after January 1, 1986, but before December 31, 1986, to finance redevelopment project costs within a State Sales Tax Boundary, then the Net State Sales Tax Increment means, for the fiscal years beginning July 1, 1990, and July 1, 1991, 100% of the State Sales Tax Increment annually generated within a State Sales Tax Boundary; and notwithstanding any other provision of this Act, for those fiscal years the Department of Revenue shall distribute to those municipalities 100% of their Net State Sales Tax Increment before any distribution to any other municipality and regardless of whether or not those other municipalities will receive 100% of their Net State Sales Tax Increment. For Fiscal Year 1999, and every year thereafter until the year 2007, for any municipality that has not entered into a contract or has not issued bonds prior to June 1, 1988 to finance redevelopment project costs within a State Sales Tax Boundary, the Net State Sales Tax Increment shall be calculated as follows: By multiplying the Net State Sales Tax Increment by 90% in the State Fiscal Year 1999; 80% in the State Fiscal Year 2000; 70% in the State Fiscal Year 2001; 60% in the State Fiscal Year 2002; 50% in the State Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006; and 10% in the State Fiscal Year 2007. No payment shall be made for State Fiscal Year 2008 and thereafter.

Municipalities that issued bonds in connection with a redevelopment project in a redevelopment project area within the State Sales Tax Boundary prior to July 29, 1991, or that entered into contracts in connection with a redevelopment project in a redevelopment project area before June 1, 1988, shall continue to receive their proportional share of the Illinois Tax Increment Fund distribution until the date on which the

redevelopment project is completed or terminated. If, however, a municipality that issued bonds in connection with a redevelopment project in a redevelopment project area within the State Sales Tax Boundary prior to July 29, 1991 retires the bonds prior to June 30, 2007 or a municipality that entered into contracts in connection with a redevelopment project in a redevelopment project area before June 1, 1988 completes the contracts prior to June 30, 2007, then so long as the redevelopment project is not completed or is not terminated, the Net State Sales Tax Increment shall be calculated, beginning on the date on which the bonds are retired or the contracts are completed, as follows: By multiplying the Net State Sales Tax Increment by 60% in the State Fiscal Year 2002; 50% in the State Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006; and 10% in the State Fiscal Year 2007. No payment shall be made for State Fiscal Year 2008 and thereafter. Refunding of any bonds issued prior to July 29, 1991, shall not alter the Net State Sales Tax Increment.

(j) "State Utility Tax Increment Amount" means an amount equal to the aggregate increase in State electric and gas tax charges imposed on owners and tenants, other than residential customers, of properties located within the redevelopment project area under Section 9-222 of the Public Utilities Act, over and above the aggregate of such charges as certified by the Department of Revenue and paid by owners and tenants, other than residential customers, of properties within the redevelopment project area during the base year, which shall be the calendar year immediately prior to the year of the adoption of the ordinance authorizing tax increment allocation financing.

(k) "Net State Utility Tax Increment" means the sum of the following: (a) 80% of the first $100,000 of State Utility Tax Increment annually generated by a redevelopment project area; (b) 60% of the amount in excess of $100,000 but not exceeding $500,000 of the State Utility Tax Increment annually generated by a redevelopment project area; and (c) 40% of all amounts in excess of $500,000 of State Utility Tax Increment annually generated by a redevelopment project area. For the State Fiscal Year 1999, and every year thereafter until the year 2007, for...
any municipality that has not entered into a contract or has not issued bonds prior to June 1, 1988 to finance redevelopment project costs within a redevelopment project area, the Net State Utility Tax Increment shall be calculated as follows: By multiplying the Net State Utility Tax Increment by 90% in the State Fiscal Year 1999; 80% in the State Fiscal Year 2000; 70% in the State Fiscal Year 2001; 60% in the State Fiscal Year 2002; 50% in the State Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006; and 10% in the State Fiscal Year 2007. No payment shall be made for the State Fiscal Year 2008 and thereafter.

Municipalities that issue bonds in connection with the redevelopment project during the period from June 1, 1988 until 3 years after the effective date of this Amendatory Act of 1988 shall receive the Net State Utility Tax Increment, subject to appropriation, for 15 State Fiscal Years after the issuance of such bonds. For the 16th through the 20th State Fiscal Years after issuance of the bonds, the Net State Utility Tax Increment shall be calculated as follows: By multiplying the Net State Utility Tax Increment by 90% in year 16; 80% in year 17; 70% in year 18; 60% in year 19; and 50% in year 20. Refunding of any bonds issued prior to June 1, 1988, shall not alter the revised Net State Utility Tax Increment payments set forth above.

(l) "Obligations" mean bonds, loans, debentures, notes, special certificates or other evidence of indebtedness issued by the municipality to carry out a redevelopment project or to refund outstanding obligations.

(m) "Payment in lieu of taxes" means those estimated tax revenues from real property in a redevelopment project area derived from real property that has been acquired by a municipality which according to the redevelopment project or plan is to be used for a private use which taxing districts would have received had a municipality not acquired the real property and adopted tax increment allocation financing and which would result from levies made after the time of the adoption of tax increment allocation financing to the time the current equalized value of real property in the redevelopment project area exceeds the total initial equalized value of real property in said area.

(n) "Redevelopment plan" means the comprehensive program of the municipality for development or redevelopment intended by the payment of redevelopment project costs to reduce or eliminate those conditions the existence of which qualified the redevelopment project area as a "blighted area" or "conservation area" or combination thereof or "industrial park conservation area," and thereby to enhance the tax bases of the taxing districts which extend into the redevelopment project area. On and after November 1, 1999 (the effective date of Public Act 91-478), no redevelopment plan may be approved or amended that includes the development of vacant land (i) with a golf course and related clubhouse and other facilities or (ii) designated by federal, State, county, or municipal government as public land for outdoor recreational activities or for nature preserves and used for that purpose within 5 years prior to the adoption of the redevelopment plan. For the purpose of this subsection, "recreational activities" is limited to mean camping and hunting. Each redevelopment plan shall set forth in writing the program to be undertaken to accomplish the objectives and shall include but not be limited to:

(A) an itemized list of estimated redevelopment project costs;
(B) evidence indicating that the redevelopment project area on the whole has not been subject to growth and development through investment by private enterprise;
(C) an assessment of any financial impact of the redevelopment project area on or any increased demand for services from any taxing district affected by the plan and any program to address such financial impact or increased demand;
(D) the sources of funds to pay costs;
(E) the nature and term of the obligations to be issued;
(F) the most recent equalized assessed valuation of the redevelopment project area;
(G) an estimate as to the equalized assessed valuation after redevelopment and the general land uses to apply in the redevelopment project area;

New matter indicated by italics - deletions by strikeout

(I) if it concerns an industrial park conservation area, the plan shall also include a general description of any proposed developer, user and tenant of any property, a description of the type, structure and general character of the facilities to be developed, a description of the type, class and number of new employees to be employed in the operation of the facilities to be developed; and

(J) if property is to be annexed to the municipality, the plan shall include the terms of the annexation agreement.

The provisions of items (B) and (C) of this subsection (n) shall not apply to a municipality that before March 14, 1994 (the effective date of Public Act 88-537) had fixed, either by its corporate authorities or by a commission designated under subsection (k) of Section 11-74.4-4, a time and place for a public hearing as required by subsection (a) of Section 11-74.4-5. No redevelopment plan shall be adopted unless a municipality complies with all of the following requirements:

(1) The municipality finds that the redevelopment project area on the whole has not been subject to growth and development through investment by private enterprise and would not reasonably be anticipated to be developed without the adoption of the redevelopment plan.

(2) The municipality finds that the redevelopment plan and project conform to the comprehensive plan for the development of the municipality as a whole, or, for municipalities with a population of 100,000 or more, regardless of when the redevelopment plan and project was adopted, the redevelopment plan and project either: (i) conforms to the strategic economic development or redevelopment plan issued by the designated planning authority of the municipality, or (ii) includes land uses that have been approved by the planning commission of the municipality.
(3) The redevelopment plan establishes the estimated dates of completion of the redevelopment project and retirement of obligations issued to finance redevelopment project costs. Those dates: shall not be later than December 31 of the year in which the payment to the municipal treasurer as provided in subsection (b) of Section 11-74.4-8 of this Act is to be made with respect to ad valorem taxes levied in the twenty-third calendar year after the year in which the ordinance approving the redevelopment project area is adopted if the ordinance was adopted on or after January 15, 1981; shall not be later than December 31 of the year in which the payment to the municipal treasurer as provided in subsection (b) of Section 11-74.4-8 of this Act is to be made with respect to ad valorem taxes levied in the thirty-third calendar year after the year in which the ordinance approving the redevelopment project area was adopted on May 20, 1985 by the Village of Wheeling; and shall not be later than December 31 of the year in which the payment to the municipal treasurer as provided in subsection (b) of Section 11-74.4-8 of this Act is to be made with respect to ad valorem taxes levied in the thirty-fifth calendar year after the year in which the ordinance approving the redevelopment project area is adopted:

However, for redevelopment project areas for which bonds were issued before July 29, 1991, or for which contracts were entered into before June 1, 1988, in connection with a redevelopment project in the area within the State Sales Tax Boundary, the estimated dates of completion of the redevelopment project and retirement of obligations to finance redevelopment project costs may be extended by municipal ordinance to December 31, 2013. The termination procedures of subsection (b) of Section 11-74.4-8 are not required for these redevelopment project areas in 2009 but are required in 2013. The extension allowed by this amendatory Act of 1993 shall not apply to real property tax increment allocation financing under Section 11-74.4-8.

A municipality may by municipal ordinance amend an existing redevelopment plan to conform to this paragraph (3) as amended by Public Act 91-478, which municipal ordinance may be adopted without further hearing or notice and without complying with the procedures provided in this Act pertaining to an amendment to or the initial approval of a redevelopment plan and project and designation of a redevelopment project area.

Those dates, for purposes of real property tax increment allocation financing pursuant to Section 11-74.4-8 only, shall be not more than 35 years for redevelopment project areas that were adopted on or after December 16, 1986 and for which at least $8 million worth of municipal bonds were authorized on or after December 19, 1989 but before January 1, 1990; provided that the municipality elects to extend the life of the redevelopment project area to 35 years by the adoption of an ordinance after at least 14 but not more than 30 days' written notice to the taxing bodies, that would otherwise constitute the joint review board for the redevelopment project area, before the adoption of the ordinance.

Those dates, for purposes of real property tax increment allocation financing pursuant to Section 11-74.4-8 only, shall be not more than 35 years for redevelopment project areas that were established on or after December 1, 1981 but before January 1, 1982 and for which at least $1,500,000 worth of tax increment revenue bonds were authorized on or after September 30, 1990 but before July 1, 1991; provided that the municipality elects to extend the life of the redevelopment project area to 35 years by the adoption of an ordinance after at least 14 but not more than 30 days' written notice to the taxing bodies, that would otherwise constitute the joint review board for the redevelopment project area, before the adoption of the ordinance.

(3.5) The municipality finds, in the case of an industrial park conservation area, also that the municipality is a labor surplus municipality and that the implementation of the redevelopment plan will reduce unemployment, create new jobs and by the provision of new facilities enhance the tax base of the taxing districts that extend into the redevelopment project area.

(4) If any incremental revenues are being utilized under Section 8(a)(1) or 8(a)(2) of this Act in redevelopment project areas approved by ordinance after January 1, 1986, the municipality finds: (a) that the redevelopment project area would not reasonably be developed without the use of such incremental

revenues, and (b) that such incremental revenues will be exclusively utilized for the development of the redevelopment project area.

(5) If the redevelopment plan will not result in displacement of residents from 10 or more inhabited residential units, and the municipality certifies in the plan that such displacement will not result from the plan, a housing impact study need not be performed. If, however, the redevelopment plan would result in the displacement of residents from 10 or more inhabited residential units, or if the redevelopment project area contains 75 or more inhabited residential units and no certification is made, then the municipality shall prepare, as part of the separate feasibility report required by subsection (a) of Section 11-74.4-5, a housing impact study.

Part I of the housing impact study shall include (i) data as to whether the residential units are single family or multi-family units, (ii) the number and type of rooms within the units, if that information is available, (iii) whether the units are inhabited or uninhabited, as determined not less than 45 days before the date that the ordinance or resolution required by subsection (a) of Section 11-74.4-5 is passed, and (iv) data as to the racial and ethnic composition of the residents in the inhabited residential units. The data requirement as to the racial and ethnic composition of the residents in the inhabited residential units shall be deemed to be fully satisfied by data from the most recent federal census.

Part II of the housing impact study shall identify the inhabited residential units in the proposed redevelopment project area that are to be or may be removed. If inhabited residential units are to be removed, then the housing impact study shall identify (i) the number and location of those units that will or may be removed, (ii) the municipality's plans for relocation assistance for those residents in the proposed redevelopment project area whose residences are to be removed, (iii) the availability of replacement housing for those residents whose residences are to be removed.

and shall identify the type, location, and cost of the housing, and (iv) the type and extent of relocation assistance to be provided.

(6) On and after November 1, 1999, the housing impact study required by paragraph (5) shall be incorporated in the redevelopment plan for the redevelopment project area.

(7) On and after November 1, 1999, no redevelopment plan shall be adopted, nor an existing plan amended, nor shall residential housing that is occupied by households of low-income and very low-income persons in currently existing redevelopment project areas be removed after November 1, 1999 unless the redevelopment plan provides, with respect to inhabited housing units that are to be removed for households of low-income and very low-income persons, affordable housing and relocation assistance not less than that which would be provided under the federal Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 and the regulations under that Act, including the eligibility criteria. Affordable housing may be either existing or newly constructed housing. For purposes of this paragraph (7), "low-income households", "very low-income households", and "affordable housing" have the meanings set forth in the Illinois Affordable Housing Act. The municipality shall make a good faith effort to ensure that this affordable housing is located in or near the redevelopment project area within the municipality.

(8) On and after November 1, 1999, if, after the adoption of the redevelopment plan for the redevelopment project area, any municipality desires to amend its redevelopment plan to remove more inhabited residential units than specified in its original redevelopment plan, that change shall be made in accordance with the procedures in subsection (c) of Section 11-74.4-5.

(9) For redevelopment project areas designated prior to November 1, 1999, the redevelopment plan may be amended without further joint review board meeting or hearing, provided that the municipality shall give notice of any such changes by mail
to each affected taxing district and registrant on the interested party registry, to authorize the municipality to expend tax increment revenues for redevelopment project costs defined by paragraphs (5) and (7.5), subparagraphs (E) and (F) of paragraph (11), and paragraph (11.5) of subsection (q) of Section 11-74.4-3, so long as the changes do not increase the total estimated redevelopment project costs set out in the redevelopment plan by more than 5% after adjustment for inflation from the date the plan was adopted.

(o) "Redevelopment project" means any public and private development project in furtherance of the objectives of a redevelopment plan. On and after November 1, 1999 (the effective date of Public Act 91-478), no redevelopment plan may be approved or amended that includes the development of vacant land (i) with a golf course and related clubhouse and other facilities or (ii) designated by federal, State, county, or municipal government as public land for outdoor recreational activities or for nature preserves and used for that purpose within 5 years prior to the adoption of the redevelopment plan. For the purpose of this subsection, "recreational activities" is limited to mean camping and hunting.

(p) "Redevelopment project area" means an area designated by the municipality, which is not less in the aggregate than 1 1/2 acres and in respect to which the municipality has made a finding that there exist conditions which cause the area to be classified as an industrial park conservation area or a blighted area or a conservation area, or a combination of both blighted areas and conservation areas.

(q) "Redevelopment project costs" mean and include the sum total of all reasonable or necessary costs incurred or estimated to be incurred, and any such costs incidental to a redevelopment plan and a redevelopment project. Such costs include, without limitation, the following:

(1) Costs of studies, surveys, development of plans, and specifications, implementation and administration of the redevelopment plan including but not limited to staff and professional service costs for architectural, engineering, legal, financial, planning or other services, provided however that no
charges for professional services may be based on a percentage of the tax increment collected; except that on and after November 1, 1999 (the effective date of Public Act 91-478), no contracts for professional services, excluding architectural and engineering services, may be entered into if the terms of the contract extend beyond a period of 3 years. In addition, "redevelopment project costs" shall not include lobbying expenses. After consultation with the municipality, each tax increment consultant or advisor to a municipality that plans to designate or has designated a redevelopment project area shall inform the municipality in writing of any contracts that the consultant or advisor has entered into with entities or individuals that have received, or are receiving, payments financed by tax increment revenues produced by the redevelopment project area with respect to which the consultant or advisor has performed, or will be performing, service for the municipality. This requirement shall be satisfied by the consultant or advisor before the commencement of services for the municipality and thereafter whenever any other contracts with those individuals or entities are executed by the consultant or advisor;

(1.5) After July 1, 1999, annual administrative costs shall not include general overhead or administrative costs of the municipality that would still have been incurred by the municipality if the municipality had not designated a redevelopment project area or approved a redevelopment plan;

(1.6) The cost of marketing sites within the redevelopment project area to prospective businesses, developers, and investors;

(2) Property assembly costs, including but not limited to acquisition of land and other property, real or personal, or rights or interests therein, demolition of buildings, site preparation, site improvements that serve as an engineered barrier addressing ground level or below ground environmental contamination, including, but not limited to parking lots and other concrete or asphalt barriers, and the clearing and grading of land;

(3) Costs of rehabilitation, reconstruction or repair or remodeling of existing public or private buildings, fixtures, and leasehold improvements; and the cost of replacing an existing public building if pursuant to the implementation of a redevelopment project the existing public building is to be demolished to use the site for private investment or devoted to a different use requiring private investment;

(4) Costs of the construction of public works or improvements, except that on and after November 1, 1999, redevelopment project costs shall not include the cost of constructing a new municipal public building principally used to provide offices, storage space, or conference facilities or vehicle storage, maintenance, or repair for administrative, public safety, or public works personnel and that is not intended to replace an existing public building as provided under paragraph (3) of subsection (q) of Section 11-74.4-3 unless either (i) the construction of the new municipal building implements a redevelopment project that was included in a redevelopment plan that was adopted by the municipality prior to November 1, 1999 or (ii) the municipality makes a reasonable determination in the redevelopment plan, supported by information that provides the basis for that determination, that the new municipal building is required to meet an increase in the need for public safety purposes anticipated to result from the implementation of the redevelopment plan;

(5) Costs of job training and retraining projects, including the cost of "welfare to work" programs implemented by businesses located within the redevelopment project area;

(6) Financing costs, including but not limited to all necessary and incidental expenses related to the issuance of obligations and which may include payment of interest on any obligations issued hereunder including interest accruing during the estimated period of construction of any redevelopment project for

which such obligations are issued and for not exceeding 36 months thereafter and including reasonable reserves related thereto;

(7) To the extent the municipality by written agreement accepts and approves the same, all or a portion of a taxing district's capital costs resulting from the redevelopment project necessarily incurred or to be incurred within a taxing district in furtherance of the objectives of the redevelopment plan and project.

(7.5) For redevelopment project areas designated (or redevelopment project areas amended to add or increase the number of tax-increment-financing assisted housing units) on or after November 1, 1999, an elementary, secondary, or unit school district's increased costs attributable to assisted housing units located within the redevelopment project area for which the developer or redeveloper receives financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the assisted housing sites necessary for the completion of that housing as authorized by this Act, and which costs shall be paid by the municipality from the Special Tax Allocation Fund when the tax increment revenue is received as a result of the assisted housing units and shall be calculated annually as follows:

(A) for foundation districts, excluding any school district in a municipality with a population in excess of 1,000,000, by multiplying the district's increase in attendance resulting from the net increase in new students enrolled in that school district who reside in housing units within the redevelopment project area that have received financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by the
most recently available per capita tuition cost as defined in Section 10-20.12a of the School Code less any increase in general State aid as defined in Section 18-8.05 of the School Code attributable to these added new students subject to the following annual limitations:

(i) for unit school districts with a district average 1995-96 Per Capita Tuition Charge of less than $5,900, no more than 25% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act;

(ii) for elementary school districts with a district average 1995-96 Per Capita Tuition Charge of less than $5,900, no more than 17% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act; and

(iii) for secondary school districts with a district average 1995-96 Per Capita Tuition Charge of less than $5,900, no more than 8% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act.

(B) For alternate method districts, flat grant districts, and foundation districts with a district average 1995-96 Per Capita Tuition Charge equal to or more than $5,900, excluding any school district with a population in excess of 1,000,000, by multiplying the district's increase in attendance resulting from the net increase in new students enrolled in that school district who reside in housing units within the redevelopment project area that have received financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the

boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by the most recently available per capita tuition cost as defined in Section 10-20.12a of the School Code less any increase in general state aid as defined in Section 18-8.05 of the School Code attributable to these added new students subject to the following annual limitations:

(i) for unit school districts, no more than 40% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act;

(ii) for elementary school districts, no more than 27% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act; and

(iii) for secondary school districts, no more than 13% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act.

(C) For any school district in a municipality with a population in excess of 1,000,000, the following restrictions shall apply to the reimbursement of increased costs under this paragraph (7.5):

(i) no increased costs shall be reimbursed unless the school district certifies that each of the schools affected by the assisted housing project is at or over its student capacity;

(ii) the amount reimbursable shall be reduced by the value of any land donated to the school district by the municipality or developer, and

by the value of any physical improvements made to
the schools by the municipality or developer; and
(iii) the amount reimbursed may not affect
amounts otherwise obligated by the terms of any
bonds, notes, or other funding instruments, or the
terms of any redevelopment agreement.

Any school district seeking payment under this paragraph
(7.5) shall, after July 1 and before September 30 of each
year, provide the municipality with reasonable evidence to
support its claim for reimbursement before the municipality
shall be required to approve or make the payment to the
school district. If the school district fails to provide the
information during this period in any year, it shall forfeit
any claim to reimbursement for that year. School districts
may adopt a resolution waiving the right to all or a portion
of the reimbursement otherwise required by this paragraph
(7.5). By acceptance of this reimbursement the school
district waives the right to directly or indirectly set aside,
modify, or contest in any manner the establishment of the
redevelopment project area or projects;

(7.7) For redevelopment project areas designat ed (or
redevelopment project areas amended to add or increase the
number of tax-increment-financing assisted housing units) on or
after January 1, 2005 (the effective date of Public Act 93-961), a
public library district's increased costs attributable to assisted
housing units located within the redevelopment project area for
which the developer or redeveloper receives financial assistance
through an agreement with the municipality or because the
municipality incurs the cost of necessary infrastructure
improvements within the boundaries of the assisted housing sites
necessary for the completion of that housing as authorized by this
Act shall be paid to the library district by the municipality from the
Special Tax Allocation Fund when the tax increment revenue is
received as a result of the assisted housing units. This paragraph

New matter indicated by italics - deletions by strikeout
(7.7) applies only if (i) the library district is located in a county that is subject to the Property Tax Extension Limitation Law or (ii) the library district is not located in a county that is subject to the Property Tax Extension Limitation Law but the district is prohibited by any other law from increasing its tax levy rate without a prior voter referendum.

The amount paid to a library district under this paragraph (7.7) shall be calculated by multiplying (i) the net increase in the number of persons eligible to obtain a library card in that district who reside in housing units within the redevelopment project area that have received financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by (ii) the per-patron cost of providing library services so long as it does not exceed $120. The per-patron cost shall be the Total Operating Expenditures Per Capita as stated in the most recent Illinois Public Library Statistics produced by the Library Research Center at the University of Illinois. The municipality may deduct from the amount that it must pay to a library district under this paragraph any amount that it has voluntarily paid to the library district from the tax increment revenue. The amount paid to a library district under this paragraph (7.7) shall be no more than 2% of the amount produced by the assisted housing units and deposited into the Special Tax Allocation Fund.

A library district is not eligible for any payment under this paragraph (7.7) unless the library district has experienced an increase in the number of patrons from the municipality that created the tax-increment-financing district since the designation of the redevelopment project area.

Any library district seeking payment under this paragraph (7.7) shall, after July 1 and before September 30 of each year, provide the municipality with convincing evidence to support its
claim for reimbursement before the municipality shall be required to approve or make the payment to the library district. If the library district fails to provide the information during this period in any year, it shall forfeit any claim to reimbursement for that year. Library districts may adopt a resolution waiving the right to all or a portion of the reimbursement otherwise required by this paragraph (7.7). By acceptance of such reimbursement, the library district shall forfeit any right to directly or indirectly set aside, modify, or contest in any manner whatsoever the establishment of the redevelopment project area or projects;

(8) Relocation costs to the extent that a municipality determines that relocation costs shall be paid or is required to make payment of relocation costs by federal or State law or in order to satisfy subparagraph (7) of subsection (n);

(9) Payment in lieu of taxes;

(10) Costs of job training, retraining, advanced vocational education or career education, including but not limited to courses in occupational, semi-technical or technical fields leading directly to employment, incurred by one or more taxing districts, provided that such costs (i) are related to the establishment and maintenance of additional job training, advanced vocational education or career education programs for persons employed or to be employed by employers located in a redevelopment project area; and (ii) when incurred by a taxing district or taxing districts other than the municipality, are set forth in a written agreement by or among the municipality and the taxing district or taxing districts, which agreement describes the program to be undertaken, including but not limited to the number of employees to be trained, a description of the training and services to be provided, the number and type of positions available or to be available, itemized costs of the program and sources of funds to pay for the same, and the term of the agreement. Such costs include, specifically, the payment by community college districts of costs pursuant to Sections 3-37, 3-38, 3-40 and 3-40.1 of the Public Community College Act and by
school districts of costs pursuant to Sections 10-22.20a and 10-23.3a of The School Code;

(11) Interest cost incurred by a redeveloper related to the construction, renovation or rehabilitation of a redevelopment project provided that:

(A) such costs are to be paid directly from the special tax allocation fund established pursuant to this Act;

(B) such payments in any one year may not exceed 30% of the annual interest costs incurred by the redeveloper with regard to the redevelopment project during that year;

(C) if there are not sufficient funds available in the special tax allocation fund to make the payment pursuant to this paragraph (11) then the amounts so due shall accrue and be payable when sufficient funds are available in the special tax allocation fund;

(D) the total of such interest payments paid pursuant to this Act may not exceed 30% of the total (i) cost paid or incurred by the redeveloper for the redevelopment project plus (ii) redevelopment project costs excluding any property assembly costs and any relocation costs incurred by a municipality pursuant to this Act; and

(E) the cost limits set forth in subparagraphs (B) and (D) of paragraph (11) shall be modified for the financing of rehabilitated or new housing units for low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act. The percentage of 75% shall be substituted for 30% in subparagraphs (B) and (D) of paragraph (11).

(F) Instead of the eligible costs provided by subparagraphs (B) and (D) of paragraph (11), as modified by this subparagraph, and notwithstanding any other provisions of this Act to the contrary, the municipality may pay from tax increment revenues up to 50% of the cost of construction of new housing units to be occupied by low-
income households and very low-income households as defined in Section 3 of the Illinois Affordable Housing Act. The cost of construction of those units may be derived from the proceeds of bonds issued by the municipality under this Act or other constitutional or statutory authority or from other sources of municipal revenue that may be reimbursed from tax increment revenues or the proceeds of bonds issued to finance the construction of that housing.

The eligible costs provided under this subparagraph (F) of paragraph (11) shall be an eligible cost for the construction, renovation, and rehabilitation of all low and very low-income housing units, as defined in Section 3 of the Illinois Affordable Housing Act, within the redevelopment project area. If the low and very low-income units are part of a residential redevelopment project that includes units not affordable to low and very low-income households, only the low and very low-income units shall be eligible for benefits under subparagraph (F) of paragraph (11). The standards for maintaining the occupancy by low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act, of those units constructed with eligible costs made available under the provisions of this subparagraph (F) of paragraph (11) shall be established by guidelines adopted by the municipality. The responsibility for annually documenting the initial occupancy of the units by low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act, shall be that of the then current owner of the property. For ownership units, the guidelines will provide, at a minimum, for a reasonable recapture of funds, or other appropriate methods designed to preserve the original affordability of the ownership units. For rental units, the guidelines will provide, at a minimum, for the affordability of rent to low

New matter indicated by italics - deletions by strikeout
and very low-income households. As units become available, they shall be rented to income-eligible tenants. The municipality may modify these guidelines from time to time; the guidelines, however, shall be in effect for as long as tax increment revenue is being used to pay for costs associated with the units or for the retirement of bonds issued to finance the units or for the life of the redevelopment project area, whichever is later.

(11.5) If the redevelopment project area is located within a municipality with a population of more than 100,000, the cost of day care services for children of employees from low-income families working for businesses located within the redevelopment project area and all or a portion of the cost of operation of day care centers established by redevelopment project area businesses to serve employees from low-income families working in businesses located in the redevelopment project area. For the purposes of this paragraph, "low-income families" means families whose annual income does not exceed 80% of the municipal, county, or regional median income, adjusted for family size, as the annual income and municipal, county, or regional median income are determined from time to time by the United States Department of Housing and Urban Development.

(12) Unless explicitly stated herein the cost of construction of new privately-owned buildings shall not be an eligible redevelopment project cost.

(13) After November 1, 1999 (the effective date of Public Act 91-478), none of the redevelopment project costs enumerated in this subsection shall be eligible redevelopment project costs if those costs would provide direct financial support to a retail entity initiating operations in the redevelopment project area while terminating operations at another Illinois location within 10 miles of the redevelopment project area but outside the boundaries of the redevelopment project area municipality. For purposes of this paragraph, termination means a closing of a retail operation that is

New matter indicated by italics - deletions by strikeout
directly related to the opening of the same operation or like retail entity owned or operated by more than 50% of the original ownership in a redevelopment project area, but it does not mean closing an operation for reasons beyond the control of the retail entity, as documented by the retail entity, subject to a reasonable finding by the municipality that the current location contained inadequate space, had become economically obsolete, or was no longer a viable location for the retailer or serviceman.

If a special service area has been established pursuant to the Special Service Area Tax Act or Special Service Area Tax Law, then any tax increment revenues derived from the tax imposed pursuant to the Special Service Area Tax Act or Special Service Area Tax Law may be used within the redevelopment project area for the purposes permitted by that Act or Law as well as the purposes permitted by this Act.

(r) "State Sales Tax Boundary" means the redevelopment project area or the amended redevelopment project area boundaries which are determined pursuant to subsection (9) of Section 11-74.4-8a of this Act. The Department of Revenue shall certify pursuant to subsection (9) of Section 11-74.4-8a the appropriate boundaries eligible for the determination of State Sales Tax Increment.

(s) "State Sales Tax Increment" means an amount equal to the increase in the aggregate amount of taxes paid by retailers and servicemen, other than retailers and servicemen subject to the Public Utilities Act, on transactions at places of business located within a State Sales Tax Boundary pursuant to the Retailers' Occupation Tax Act, the Use Tax Act, the Service Use Tax Act, and the Service Occupation Tax Act, except such portion of such increase that is paid into the State and Local Sales Tax Reform Fund, the Local Government Distributive Fund, the Local Government Tax Fund and the County and Mass Transit District Fund, for as long as State participation exists, over and above the Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts for such taxes as certified by the Department of Revenue and paid under those Acts by retailers and servicemen on transactions at places of business located within the State Sales Tax Boundary during the

base year which shall be the calendar year immediately prior to the year in
which the municipality adopted tax increment allocation financing, less
3.0% of such amounts generated under the Retailers' Occupation Tax Act,
Use Tax Act and Service Use Tax Act and the Service Occupation Tax
Act, which sum shall be appropriated to the Department of Revenue to
cover its costs of administering and enforcing this Section. For purposes of
computing the aggregate amount of such taxes for base years occurring
prior to 1985, the Department of Revenue shall compute the Initial Sales
Tax Amount for such taxes and deduct therefrom an amount equal to 4% of
the aggregate amount of taxes per year for each year the base year is
prior to 1985, but not to exceed a total deduction of 12%. The amount so
determined shall be known as the "Adjusted Initial Sales Tax Amount".
For purposes of determining the State Sales Tax Increment the Department
of Revenue shall for each period subtract from the tax amounts received
from retailers and servicemen on transactions located in the State Sales
Tax Boundary, the certified Initial Sales Tax Amounts, Adjusted Initial
Sales Tax Amounts or Revised Initial Sales Tax Amounts for the Retailers'
Occupation Tax Act, the Use Tax Act, the Service Use Tax Act and the
Service Occupation Tax Act. For the State Fiscal Year 1989 this
calculation shall be made by utilizing the calendar year 1987 to determine
the tax amounts received. For the State Fiscal Year 1990, this calculation
shall be made by utilizing the period from January 1, 1988, until
September 30, 1988, to determine the tax amounts received from retailers
and servicemen, which shall have deducted therefrom nine-twelfths of the
certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or
the Revised Initial Sales Tax Amounts as appropriate. For the State Fiscal
Year 1991, this calculation shall be made by utilizing the period from
October 1, 1988, until June 30, 1989, to determine the tax amounts
received from retailers and servicemen, which shall have deducted therefrom nine-twelfths of the certified Initial State Sales Tax Amounts,
Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax
Amounts as appropriate. For every State Fiscal Year thereafter, the
applicable period shall be the 12 months beginning July 1 and ending on
June 30, to determine the tax amounts received which shall have deducted

therefrom the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts. Municipalities intending to receive a distribution of State Sales Tax Increment must report a list of retailers to the Department of Revenue by October 31, 1988 and by July 31, of each year thereafter.

(t) "Taxing districts" means counties, townships, cities and incorporated towns and villages, school, road, park, sanitary, mosquito abatement, forest preserve, public health, fire protection, river conservancy, tuberculosis sanitarium and any other municipal corporations or districts with the power to levy taxes.

(u) "Taxing districts' capital costs" means those costs of taxing districts for capital improvements that are found by the municipal corporate authorities to be necessary and directly result from the redevelopment project.

(v) As used in subsection (a) of Section 11-74.4-3 of this Act, "vacant land" means any parcel or combination of parcels of real property without industrial, commercial, and residential buildings which has not been used for commercial agricultural purposes within 5 years prior to the designation of the redevelopment project area, unless the parcel is included in an industrial park conservation area or the parcel has been subdivided; provided that if the parcel was part of a larger tract that has been divided into 3 or more smaller tracts that were accepted for recording during the period from 1950 to 1990, then the parcel shall be deemed to have been subdivided, and all proceedings and actions of the municipality taken in that connection with respect to any previously approved or designated redevelopment project area or amended redevelopment project area are hereby validated and hereby declared to be legally sufficient for all purposes of this Act. For purposes of this Section and only for land subject to the subdivision requirements of the Plat Act, land is subdivided when the original plat of the proposed Redevelopment Project Area or relevant portion thereof has been properly certified, acknowledged, approved, and recorded or filed in accordance with the Plat Act and a preliminary plat, if any, for any subsequent phases of the proposed Redevelopment Project Area or relevant portion thereof has been properly

approved and filed in accordance with the applicable ordinance of the municipality.

(w) "Annual Total Increment" means the sum of each municipality's annual Net Sales Tax Increment and each municipality's annual Net Utility Tax Increment. The ratio of the Annual Total Increment of each municipality to the Annual Total Increment for all municipalities, as most recently calculated by the Department, shall determine the proportional shares of the Illinois Tax Increment Fund to be distributed to each municipality.

(65 ILCS 5/11-74.4-7) (from Ch. 24, par. 11-74.4-7)

Sec. 11-74.4-7. Obligations secured by the special tax allocation fund set forth in Section 11-74.4-8 for the redevelopment project area may be issued to provide for redevelopment project costs. Such obligations, when so issued, shall be retired in the manner provided in the ordinance authorizing the issuance of such obligations by the receipts of taxes levied as specified in Section 11-74.4-9 against the taxable property included in the area, by revenues as specified by Section 11-74.4-8a and other revenue designated by the municipality. A municipality may in the ordinance pledge all or any part of the funds in and to be deposited in the special tax allocation fund created pursuant to Section 11-74.4-8 to the payment of the redevelopment project costs and obligations. Any pledge of funds in the special tax allocation fund shall provide for distribution to the taxing districts and to the Illinois Department of Revenue of moneys not required, pledged, earmarked, or otherwise designated for payment and securing of the obligations and anticipated redevelopment project costs and such

excess funds shall be calculated annually and deemed to be "surplus" funds. In the event a municipality only applies or pledges a portion of the funds in the special tax allocation fund for the payment or securing of anticipated redevelopment project costs or of obligations, any such funds remaining in the special tax allocation fund after complying with the requirements of the application or pledge, shall also be calculated annually and deemed "surplus" funds. All surplus funds in the special tax allocation fund shall be distributed annually within 180 days after the close of the municipality's fiscal year by being paid by the municipal treasurer to the County Collector, to the Department of Revenue and to the municipality in direct proportion to the tax incremental revenue received as a result of an increase in the equalized assessed value of property in the redevelopment project area, tax incremental revenue received from the State and tax incremental revenue received from the municipality, but not to exceed as to each such source the total incremental revenue received from that source. The County Collector shall thereafter make distribution to the respective taxing districts in the same manner and proportion as the most recent distribution by the county collector to the affected districts of real property taxes from real property in the redevelopment project area.

Without limiting the foregoing in this Section, the municipality may in addition to obligations secured by the special tax allocation fund pledge for a period not greater than the term of the obligations towards payment of such obligations any part or any combination of the following: (a) net revenues of all or part of any redevelopment project; (b) taxes levied and collected on any or all property in the municipality; (c) the full faith and credit of the municipality; (d) a mortgage on part or all of the redevelopment project; or (e) any other taxes or anticipated receipts that the municipality may lawfully pledge.

Such obligations may be issued in one or more series bearing interest at such rate or rates as the corporate authorities of the municipality shall determine by ordinance. Such obligations shall bear such date or dates, mature at such time or times not exceeding 20 years from their respective dates, be in such denomination, carry such registration privileges, be executed in such manner, be payable in such medium of
payment at such place or places, contain such covenants, terms and conditions, and be subject to redemption as such ordinance shall provide. Obligations issued pursuant to this Act may be sold at public or private sale at such price as shall be determined by the corporate authorities of the municipalities. No referendum approval of the electors shall be required as a condition to the issuance of obligations pursuant to this Division except as provided in this Section.

In the event the municipality authorizes issuance of obligations pursuant to the authority of this Division secured by the full faith and credit of the municipality, which obligations are other than obligations which may be issued under home rule powers provided by Article VII, Section 6 of the Illinois Constitution, or pledges taxes pursuant to (b) or (c) of the second paragraph of this section, the ordinance authorizing the issuance of such obligations or pledging such taxes shall be published within 10 days after such ordinance has been passed in one or more newspapers, with general circulation within such municipality. The publication of the ordinance shall be accompanied by a notice of (1) the specific number of voters required to sign a petition requesting the question of the issuance of such obligations or pledging taxes to be submitted to the electors; (2) the time in which such petition must be filed; and (3) the date of the prospective referendum. The municipal clerk shall provide a petition form to any individual requesting one.

If no petition is filed with the municipal clerk, as hereinafter provided in this Section, within 30 days after the publication of the ordinance, the ordinance shall be in effect. But, if within that 30 day period a petition is filed with the municipal clerk, signed by electors in the municipality numbering 10% or more of the number of registered voters in the municipality, asking that the question of issuing obligations using full faith and credit of the municipality as security for the cost of paying for redevelopment project costs, or of pledging taxes for the payment of such obligations, or both, be submitted to the electors of the municipality, the corporate authorities of the municipality shall call a special election in the manner provided by law to vote upon that question, or, if a general, State or municipal election is to be held within a period of not less than 30 or

more than 90 days from the date such petition is filed, shall submit the question at the next general, State or municipal election. If it appears upon the canvass of the election by the corporate authorities that a majority of electors voting upon the question voted in favor thereof, the ordinance shall be in effect, but if a majority of the electors voting upon the question are not in favor thereof, the ordinance shall not take effect.

The ordinance authorizing the obligations may provide that the obligations shall contain a recital that they are issued pursuant to this Division, which recital shall be conclusive evidence of their validity and of the regularity of their issuance.

In the event the municipality authorizes issuance of obligations pursuant to this Section secured by the full faith and credit of the municipality, the ordinance authorizing the obligations may provide for the levy and collection of a direct annual tax upon all taxable property within the municipality sufficient to pay the principal thereof and interest thereon as it matures, which levy may be in addition to and exclusive of the maximum of all other taxes authorized to be levied by the municipality, which levy, however, shall be abated to the extent that monies from other sources are available for payment of the obligations and the municipality certifies the amount of said monies available to the county clerk.

A certified copy of such ordinance shall be filed with the county clerk of each county in which any portion of the municipality is situated, and shall constitute the authority for the extension and collection of the taxes to be deposited in the special tax allocation fund.

A municipality may also issue its obligations to refund in whole or in part, obligations theretofore issued by such municipality under the authority of this Act, whether at or prior to maturity, provided however, that the last maturity of the refunding obligations shall not be expressed to mature later than December 31 of the year in which the payment to the municipal treasurer as provided in subsection (b) of Section 11-74.4-8 of this Act is to be made with respect to ad valorem taxes levied in the twenty-third calendar year after the year in which the ordinance approving the redevelopment project area is adopted if the ordinance was adopted on

Any applicant who submits to and fails to pass the preliminary diagnostic examination may be required to satisfy the Board that he has taken additional remedial work previously approved by the Board to correct deficiencies in his pharmaceutical education indicated by the results of the last preliminary diagnostic examination prior to taking the preliminary diagnostic examination again.

Applications for original licenses shall be made to the Department in writing on forms prescribed by the Department and shall be accompanied by the required fee, which shall not be refundable. Failure to appear for the examination on the scheduled date, at the time and place specified, after the applicant's application for examination has been received and acknowledged by the Department or the designated testing service, shall result in the forfeiture of the examination fee. The examination shall be developed and provided by the National Association of Boards of Pharmacy.

If an applicant neglects, fails or refuses to take an examination or fails to pass an examination for a license under this Act within 3 years after filing his application, the application is denied. However, such applicant may thereafter make a new application accompanied by the required fee and show evidence of meeting the requirements in force at the time of the new application.

(a) Except as provided in subsection (b), there shall be kept in every drugstore or pharmacy a suitable book, file, or electronic record keeping system in which shall be preserved for a period of not less than 5 years the original, or an exact, unalterable image, of every written prescription and the original transcript or copy of every verbal prescription filled, compounded, or dispensed, in such pharmacy; and such book or file of prescriptions shall at all reasonable times be open to inspection to the pharmacy coordinator and the duly authorized agents or employees of the Department.

Every prescription filled or refilled shall contain the unique identifier of the persons authorized to practice pharmacy under the provision of this Act who fills or refills the prescription.

Sec. 19. Nothing contained in this Act shall be construed to prohibit a pharmacist licensed in this State from filling or refilling a valid prescription for prescription drugs which is on file in a pharmacy licensed in any state and has been transferred from one pharmacy to another by any means, including by way of electronic data processing equipment upon the following conditions and exceptions:

(1) Prior to dispensing pursuant to any such prescription, the dispensing pharmacist shall:

(a) Advise the patient that the prescription on file at such other pharmacy must be canceled before he or she will be able to fill or refill it.

(d) Record in writing the prescription order, the name of the pharmacy at which the prescription was on file, the prescription number, the name of the drug and the original amount dispensed, the date of original dispensing, and the number of remaining authorized refills.
(e) Obtain the consent of the prescriber to the refilling of the prescription when the prescription, in the professional judgment of the dispensing pharmacist, so requires.

(2) Upon receipt of a request for prescription information set forth in subparagraph (d) of paragraph (1) of this Section, if the requested pharmacist is satisfied in his professional judgment that such request is valid and legal, the requested pharmacist shall:
(a) Provide such information accurately and completely.
(b) Record electronically or, if in writing, on the face of the prescription, the name of the requesting pharmacy and pharmacist and the date of request.
(c) Cancel the prescription on file by writing the word "void" on its face or the electronic equivalent, if not in written format. No further prescription information shall be given or medication dispensed pursuant to such original prescription.

(3) In the event that, after the information set forth in subparagraph (d) of paragraph (1) of this Section has been provided, a prescription is not dispensed by the requesting pharmacist, then such pharmacist shall provide notice of this fact to the pharmacy from which such information was obtained; such notice shall then cancel the prescription in the same manner as set forth in subparagraph (c) of paragraph (2) of this Section.

(4) When filling or refilling a valid prescription on file in another state, the dispensing pharmacist shall be required to follow all the requirements of Illinois law which apply to the dispensing of prescription drugs. If anything in Illinois law prevents the filling or refilling of the original prescription it shall be unlawful to dispense pursuant to this Section.
(5) Prescriptions for drugs in Schedules III, IV, and V of the Illinois Controlled Substances Act may be transferred only once and may not be further transferred. Pharmacies using such a common electronic file are not required to physically transfer prescriptions or information for dispensing purposes between or among pharmacies participating in the same common prescription file; provided, however any such common file must contain complete and adequate records of such prescription and refill dispensed as stated in Section 18.

The Department and Board may formulate such rules and regulations, not inconsistent with law, as may be necessary to carry out the purposes of and to enforce the provisions of this Section within the following exception: The Department and Board shall not impose greater requirements on either common electronic files or a hard copy record system.

Drugs shall in no event be dispensed more frequently or in larger amounts than the prescriber ordered without direct prescriber authorization by way of a new prescription order.

The dispensing by a pharmacist licensed in this State or another state of a prescription contained in a common database shall not constitute a transfer, provided that (i) all pharmacies involved in the transactions pursuant to which the prescription is dispensed and all pharmacists engaging in dispensing functions are properly licensed, permitted, or registered in this State or another jurisdiction, (ii) a policy and procedures manual that governs all participating pharmacies and pharmacists is available to the Department upon request and includes the procedure for maintaining appropriate records for regulatory oversight.

Sec. 22b. Automated pharmacy systems; remote dispensing.

(a) Automated pharmacy systems must have adequate security and procedures to comply with federal and State laws and regulations and maintain patient confidentiality, as defined by rule.

(b) Access to and dispensing from an automated pharmacy system shall be limited to pharmacists or personnel who are designated in writing by the pharmacist-in-charge and have completed documented training concerning their duties associated with the automated pharmacy system.

(c) All drugs stored in relation to an automated pharmacy system must be stored in compliance with this Act and the rules adopted under this Act, including the requirements for temperature, proper storage containers, handling of outdated drugs, prescription dispensing, and delivery.

(d) An automated pharmacy system operated from a remote site shall be under the continuous supervision of a home pharmacy pharmacist. To qualify as continuous supervision, the pharmacist is not required to be physically present at the site of the automated pharmacy system if the system is supervised electronically by a pharmacist, as defined by rule.

order by a pharmacist at the home pharmacy. A pharmacist at the home pharmacy must control all operations of the automated pharmacy system and approve the release of the initial dose of a prescription drug order. Refills from an approved prescription drug order may be removed from the automated medication system after this initial approval. Any change made in the prescription drug order shall require a new approval by a pharmacist to release the drug.

(f) If an automated pharmacy system uses removable cartridges or containers to store a drug, the stocking or restocking of the cartridges or containers may occur at a licensed wholesale drug distributor and be sent to the home pharmacy to be loaded after pharmacist verification by personnel designated by the pharmacist, provided that the individual cartridge or container is transported to the home pharmacy in a secure, tamper evident container. An automated pharmacy system must use a bar code verification or weight verification or electronic verification or similar process to ensure that the cartridge or container is accurately loaded into the automated pharmacy system. The pharmacist verifying the filling and labeling shall be responsible for ensuring that the cartridge or container is stocked or restocked correctly by personnel designated to load the cartridges or containers. An automated pharmacy system must use a bar code verification, electronic, or similar process, as defined by rule, to ensure that the proper medication is dispensed from the automated system. A record of each transaction with the automated pharmacy system must be maintained for 5 years. A prescription dispensed from an automated pharmacy system shall be deemed to have been approved by the pharmacist. test laid down in the United States Pharmacopoeia National Formulary official at the time of such compounding, sale or offering for sale. Nor shall any person compound, sell or offer for sale, or cause to be compounded, sold, or offered for sale, any drug, medicine, poison, chemical or pharmaceutical preparation, the strength or purity of which shall fall below the professed standard of strength or purity under which it is sold. Except as set forth in Section 26 of this Act, if the physician or other authorized prescriber, when transmitting an oral or written prescription, does not prohibit drug product selection, a different brand name or nonbrand name drug product of the same generic name may be dispensed by the pharmacist, provided that the selected drug has a unit price less than the drug product specified in the prescription. A generic drug determined to be therapeutically equivalent by the United States Food and Drug Administration (FDA) shall be available for substitution in Illinois in accordance with this Act and the Illinois Food, Drug and Cosmetic Act, provided that each manufacturer submits to the Director of the Department of Public Health a notification containing product technical bioequivalence information as a prerequisite to product substitution when they have completed all required testing to support FDA product approval and, in any event, the information shall be submitted no later than 60 days prior to product substitution in the State. On the prescription forms of prescribers, shall be placed a signature line and the words "may substitute" and "may not substitute". The prescriber, in his or her own handwriting, shall place a mark beside either the "may substitute" or "may not substitute" alternatives to direct the pharmacist in the dispensing of the prescription. A prescriber placing a mark beside the "may substitute" alternative or failing in his or her own handwriting to place a mark beside either alternative authorizes drug product selection in accordance with this Act. Preprinted or rubber stamped marks, or other deviations from the above prescription format shall not be permitted. The prescriber shall sign the form in his or her own handwriting to authorize the issuance of the prescription. When a person presents a prescription to be dispensed, the pharmacist to whom it is presented may inform the person if the pharmacy has available a different brand name or nonbrand

name of the same generic drug prescribed and the price of the different brand name or nonbrand name of the drug product. If the person presenting the prescription is the one to whom the drug is to be administered, the pharmacist may dispense the prescription with the brand prescribed or a different brand name or nonbrand name product of the same generic name, if the drug is of lesser unit cost and the patient is informed and agrees to the selection and the pharmacist shall enter such information into the pharmacy record. If the person presenting the prescription is someone other than the one to whom the drug is to be administered the pharmacist shall not dispense the prescription with a brand other than the one specified in the prescription unless the pharmacist has the written or oral authorization to select brands from the person to whom the drug is to be administered or a parent, legal guardian or spouse of that person:

In every case in which a selection is made as permitted by the Illinois Food, Drug and Cosmetic Act, the pharmacist shall indicate on the pharmacy record of the filled prescription the name or other identification of the manufacturer of the drug which has been dispensed.

The selection of any drug product by a pharmacist shall not constitute evidence of negligence if the selected nonlegend drug product was of the same dosage form and each of its active ingredients did not vary by more than 1 percent from the active ingredients of the prescribed, brand name, nonlegend drug product. Failure of a prescribing physician to specify that drug product selection is prohibited does not constitute evidence of negligence unless that practitioner has reasonable cause to believe that the health condition of the patient for whom the physician is prescribing warrants the use of the brand name drug product and not another.

The Department is authorized to employ an analyst or chemist of recognized or approved standing whose duty it shall be to examine into any claimed adulteration, illegal substitution, improper selection, alteration, or other violation hereof, and report the result of his investigation, and if such report justify such action the Department shall cause the offender to be prosecuted.

(2) The pharmacies shall share a common electronic file or have technology that allows sufficient information necessary to process a non-dispensing function.

(3) The records may be maintained separately by each pharmacy or in common electronic file shared by both pharmacies, provided that the system can produce a record at either location showing each processing task, the identity of the person performing each task, and the location where each task was performed.

(c) Nothing in this Section shall prohibit an individual employee licensed as a pharmacist from accessing the employer pharmacy's database from a pharmacist's home or other remote location or home verification for the purpose of performing certain prescription processing functions, provided that the pharmacy establishes controls to protect the privacy and security of confidential records.

   (B) ensure that the home pharmacy has sufficient pharmacists on duty for the safe operation and supervision of all remote pharmacies;

Sec. 4-15. Enforcement and reporting provisions. The Attorney General may enforce any violation of Section 5-6, 5-7, 5-8, 5-9, 5-10, 5-11, 5-12, 5-14, or 5-15 of this Act as an unlawful practice under the Consumer Fraud and Deceptive Business Practices Act.

(205 ILCS 635/4-16 new)
Sec. 4-16. Private right of action. A borrower injured by a violation of the standards, duties, prohibitions, or requirements of Sections 5-6, 5-7, 5-8, 5-9, 5-10, 5-11, 5-12, 5-14, 5-15, and 5-16 of this Act shall have a private right of action.

(a) A licensee is not liable for a violation of this Act if:

(1) within 30 days of the loan closing and prior to receiving any notice from the borrower of the violation, the licensee has made appropriate restitution to the borrower and appropriate adjustments are made to the loan; or

(2) the violation was not intentional and resulted from a bona fide error in fact, notwithstanding the maintenance of procedures reasonably adopted to avoid such errors, and within 60 days of the discovery of the violation and prior to receiving any notice from the borrower of the violation, the borrower is notified of the violation, appropriate restitution is made to the borrower, and appropriate adjustments are made to the loan.

(b) The remedies and rights provided for in this Act are not exclusive, but cumulative, and all other applicable claims are specifically preserved.

(205 ILCS 635/5-6 new)
Sec. 5-6. Verification of borrower's ability to repay.
(a) No licensee may make, provide, or arrange for a residential mortgage loan without verifying the borrower's reasonable ability to pay
the principal and interest on the loan, real estate taxes, homeowner's insurance, assessments, and mortgage insurance premiums, if applicable.

For residential mortgage loans in which the interest rate may vary, the reasonable ability to pay the principal and interest on the loan shall be determined based on a fully indexed rate, which rate shall be calculated by using the index rate prevailing at the time of origination of the loan plus the margin that will apply when calculating the adjustable rate under the terms of the loan, assuming a fully amortizing repayment schedule based on the term of the loan.

For loans that allow for negative amortization, the principal amount of the loan shall be calculated by including the maximum amount the principal balance may increase due to negative amortization under the terms of the loan.

(b) For all residential mortgage loans made by a licensee, the borrower's income and financial resources must be verified by tax returns, payroll receipts, bank records, or other reasonably reliable methods, based upon the circumstances of the proposed loan. Nothing in this Section shall be construed to limit a licensee's ability to rely on criteria other than the borrower's income and financial resources to establish the borrower's reasonable ability to repay a residential mortgage loan; however, such other criteria must be verified through reasonably reliable methods and documentation. A statement by the borrower to the licensee of the borrower's income and resources is not sufficient to establish the existence of the income or resources when verifying the reasonable ability to pay. Stated income should be accepted only if there are mitigating factors that clearly minimize the need for direct verification of ability to repay.

(205 ILCS 635/5-7 new)

Sec. 5-7. Broker agency relationship.

(a) A mortgage broker shall be considered to have created an agency relationship with the borrower in all cases and shall comply with the following duties:

(1) A mortgage broker shall act in the borrower's best interest and in good faith toward the borrower. A mortgage broker...
shall not accept, give, or charge any undisclosed compensation or realize any undisclosed remuneration, either through direct or indirect means, that inures to the benefit of the mortgage broker on an expenditure made for the borrower;

(2) mortgage brokers shall carry out all lawful instructions given by borrowers;

(3) mortgage brokers shall disclose to borrowers all material facts of which the mortgage broker has knowledge which might reasonably affect the borrower's rights, interests, or ability to receive the borrower's intended benefit from the residential mortgage loan, but not facts which are reasonably susceptible to the knowledge of the borrower;

(4) mortgage brokers shall use reasonable care in performing duties; and

(5) mortgage brokers shall account to a borrower for all the borrower's money and property received as agent.

(b) Nothing in this Section prohibits a mortgage broker from contracting for or collecting a fee for services rendered and which had been disclosed to the borrower in advance of the provision of those services.

(c) Nothing in this Section requires a mortgage broker to obtain a loan containing terms or conditions not available to the mortgage broker in the mortgage broker's usual course of business, or to obtain a loan for the borrower from a mortgage lender with whom the mortgage broker does not have a business relationship.

Only one delinquency charge may be collected on any such loan installment regardless of the period during which it remains in default. Payments timely received by the lender under a written extension or deferral agreement shall not be subject to any delinquency charge.

Notwithstanding items (k) and (l) of subsection (1) of Section 4 of this Act, the lender, in the case of any nonexempt residential mortgage loan, as defined in Section 1-4 of the Residential Mortgage License Act of 1987, shall have the right to include a prepayment penalty that extends no longer than the fixed rate period of a variable rate mortgage provided that, if a prepayment is made during the fixed rate period and not in connection with the sale or destruction of the dwelling securing the loan, the lender shall receive an amount that is no more than:

(1) 3% of the total loan amount if the prepayment is made within the first 12-month period following the date the loan was made;

(2) 2% of the total loan amount if the prepayment is made within the second 12-month period following the date the loan was made; or

(3) 1% of the total loan amount if the prepayment is made within the third 12-month period following the date the loan was made, if the fixed rate period extends 3 years.

This Section applies to loans made, refinanced, renewed, extended, or modified on or after the effective date of this amendatory Act of the 95th General Assembly.

Where there is a charge in addition to the stated rate of interest payable directly or indirectly by the borrower and imposed directly or

indirectly by the lender as a consideration for the loan, or for or in connection with the loan of money, whether paid or payable by the borrower, the seller, or any other person on behalf of the borrower to the lender or to a third party, or for or in connection with the loan of money, other than as hereinabove in this Section provided, whether denominated "points," "service charge," "discount," "commission," or otherwise, and without regard to declining balances of principal which would result from any required or optional amortization of the principal of the loan, the rate of interest shall be calculated in the following manner:

The percentage of the principal amount of the loan represented by all of such charges shall first be computed, which in the case of a loan with an interest rate in excess of 8% per annum secured by residential real estate, other than loans described in paragraphs (e) and (f) of Section 4, shall not exceed 3% of such principal amount. Said percentage shall then be divided by the number of years and fractions thereof of the period of the loan according to its stated maturity. The percentage thus obtained shall then be added to the percentage of the stated annual rate of interest.

The borrower in the case of nonexempt loan shall have the right to prepay the loan in whole or in part at any time, but, except as may otherwise be provided by Section 4, the lender may require payment of not more than 6 months' advance interest on that part of the aggregate amount of all prepayments on a loan in one year, which exceeds 20% of the original principal amount of the loan.

PUBLIC ACT 95-0694
(Senate Bill No. 0858)

AN ACT concerning education.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Public Community College Act is amended by adding Section 2.24 as follows:

Sec. 2.24. College and Career Readiness Pilot Program.
(a) The General Assembly finds that there is a direct and significant link between students being academically prepared for college and success in postsecondary education. Many students enter college unprepared for the academic rigors of college and require noncredit remedial courses to attain skills and knowledge needed for regular, credit coursework. Remediation lengthens time to degree, imposes additional costs on students and colleges, and uses student financial aid for courses that will not count toward a degree. All high school juniors take the Prairie State Achievement Examination, which contains the ACT college assessment exam. ACT test elements and scores can be correlated to specific course placements in community colleges. Customized ACT test results can be used in collaboration with high schools to assist high school students identify areas for improvement and help them close skill gaps during their senior year. Greater college and career readiness will

reduce the need for remediation, lower educational costs, shorten time to
degree, and increase the overall success rate of Illinois college students.

(b) Subject to appropriation, the State Board shall create a 3-year pilot project, to be known as the College and Career Readiness Pilot Program. The goals of the program are as follows:

1. To diagnose college readiness by developing a system to align ACT scores to specific community college courses in developmental and freshman curriculums.
2. To reduce remediation by decreasing the need for remedial coursework in mathematics, reading, and writing at the college level through (i) increasing the number of students enrolled in a college-prep core curriculum, (ii) assisting students in improving college readiness skills, and (iii) increasing successful student transitions into postsecondary education.
3. To align high school and college curriculums.
4. To provide resources and academic support to students to enrich the senior year of high school through remedial or advanced coursework and other interventions.
5. To develop an appropriate evaluation process to measure the effectiveness of readiness intervention strategies.

(c) The first year of the program created under this Section shall begin with the high school class of 2008.

1. The State Board shall select 4 community colleges to participate in the program based on all of the following:
   A. The percentage of students in developmental coursework.
   B. Demographics of student enrollment, including socioeconomic status, race and ethnicity, and enrollments of first-generation college students.
   C. Geographic diversity.
   D. The willingness of the community college to submit developmental and introductory courses to ACT for analysis of college placement.

(E) The ability of the community college to partner with local high schools to develop college and career readiness strategies and college readiness teams.

(2) The State Board shall work with ACT to analyze up to 10 courses at each participating community college for purposes of determining student placement and college readiness.

(3) Each participating community college shall establish an agreement with a high school or schools to do all of the following:
   (A) Create a data-sharing agreement.
   (B) Create a Readiness Prescription for each student, showing all of the following:
       (i) The readiness status for college-level work.
       (ii) Course recommendations for remediation or for advanced coursework in Advanced Placement classes or dual credit and dual enrollment programs.
       (iii) Additional academic support services, including tutoring, mentoring, and college application assistance.
   (C) Create college and career readiness teams comprised of faculty and counselors or advisers from the community college and high school, the college and career readiness coordinator from the community college, and other members as determined by the high school and community college. The teams may include local business or civic leaders. The teams shall develop intervention strategies as follows:
       (i) Use the Readiness Prescription to develop a contract with each student for remedial or advanced coursework to be taken during the senior year.
       (ii) Monitor student progress.
       (iii) Provide readiness support services.

(D) Retest students in the spring of 2008 to assess progress and college readiness.

(4) The State Board shall work with participating community colleges and high schools to develop an appropriate evaluation process to measure effectiveness of intervention strategies, including all of the following:

(A) Baseline data for each participating school.
(B) Baseline data for the Illinois system.
(C) Comparison of ACT scores from March 2007 to March 2008.
(D) Student enrollment in college in the fall of 2008.
(E) Placement of college and career readiness students in developmental and regular courses in the fall of 2008.

(F) Retention of college and career readiness students in the spring semester of 2009.

(A) Employment of a college and career readiness coordinator at each community college site.
(B) Establishment of a budget.
(C) Creation of college and career readiness teams, resources, and partnership agreements.

(1) Analyze courses at 3 new community college sites.
(2) Undertake intervention strategies through college and career readiness teams with students in the class of 2009.
(3) Monitor and assist college and career readiness graduates from the class of 2008 in college.
(e) The third year of the program created under this Section shall begin with the high school class of 2010. In the third year, the State Board shall have all of the following duties:

(1) Analyze courses at 5 new community college sites.

(2) Add college and career readiness teams at 3 new sites (from year 2 of the program).

Sec. 0.02. Authorization of program. The Governor is authorized to perform newborn metabolic screening for phenylketonuria.

(410 ILCS 240/2) (from Ch. 111 1/2, par. 4904)
Sec. 2. The Department of Public Health shall administer the provisions of this Act and shall:

(a) Institute and carry on an intensive educational program among physicians, hospitals, public health nurses and the public concerning the diseases phenylketonuria, hypothyroidism, galactosemia and other metabolic diseases. This educational program shall include information about the nature of the diseases and examinations for the detection of the diseases in early infancy in order that measures may be taken to prevent the mental retardation resulting from the diseases.

(a-5) Beginning July 1, 2002, provide all newborns with expanded screening tests for the presence of genetic, endocrine, or other metabolic disorders, including phenylketonuria, galactosemia, hypothyroidism, congenital adrenal hyperplasia, biotinidase deficiency, and sickling disorders, as well as other amino acid disorders, organic acid disorders, fatty acid oxidation disorders, and other abnormalities detectable through the use of a tandem mass spectrometer. If by July 1, 2002, the Department is unable to provide expanded screening using the State Laboratory, it shall temporarily provide such screening through an accredited laboratory selected by the Department until the Department has the capacity to provide screening through the State Laboratory. If expanded screening is provided on a temporary basis through an accredited laboratory, the Department shall substitute the fee charged by the accredited laboratory, plus a 5% surcharge for documentation and handling, for the fee authorized in subsection (e) of this Section.

(a-6) In accordance with the timetable specified in this subsection, provide all newborns with expanded screening tests for the presence of certain Lysosomal Storage Disorders known as Krabbe, Pompe, Gaucher, Fabry, and Niemann-Pick. The testing shall begin within 6 months following the occurrence of all of the following:

(i) the registration with the federal Food and Drug Administration of the necessary reagents;
(ii) the availability of the necessary reagents from the Centers for Disease Control and Prevention;

New matter indicated by italics - deletions by strikeout
(iii) the availability of quality assurance testing methodology for these processes; and

(iv) the acquisition and installment by the Department of the equipment necessary to implement the expanded screening tests.

It is the goal of this amendatory Act of the 95th General Assembly that the expanded screening for the specified Lysosomal Storage Disorders begins within 3 years after the effective date of this Act. The Department is authorized to implement an additional fee for the screening prior to beginning the testing in order to accumulate the resources for start-up and other costs associated with implementation of the screening and thereafter to support the costs associated with screening and follow-up programs for the specified Lysosomal Storage Disorders.

(b) Maintain a registry of cases including information of importance for the purpose of follow-up services to prevent mental retardation.

(c) Supply the necessary metabolic treatment formulas product where practicable for diagnosed cases of amino acid metabolism disorders, including phenylketonuria, organic acid disorders, and fatty acid oxidation disorders for as long as medically indicated, when the product is not available through other State agencies.

(d) Arrange for or provide public health nursing, nutrition and social services and clinical consultation as indicated.

(e) Require that all specimens collected pursuant to this Act or the rules and regulations promulgated hereunder be submitted for testing to the nearest Department of Public Health laboratory designated to perform such tests. The Department may develop a reasonable fee structure and may levy fees according to such structure to cover the cost of providing this testing service. Fees collected from the provision of this testing service shall be placed in a special fund in the State Treasury, hereafter known as the Metabolic Screening and Treatment Fund. Other State and federal funds for expenses related to metabolic screening, follow-up and treatment programs may also be placed in such Fund. Moneys shall be appropriated from such Fund to the Department of Public Health solely for

the purposes of providing metabolic screening, follow-up and treatment programs. Nothing in this Act shall be construed to prohibit any licensed medical facility from collecting additional specimens for testing for metabolic or neonatal diseases or any other diseases or conditions, as it deems fit. Any person violating the provisions of this subsection (e) is guilty of a petty offense.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Emergency Telephone System Act is amended by changing Sections 15.3 and 15.4 as follows:

(50 ILCS 750/15.3) (from Ch. 134, par. 45.3)
Sec. 15.3. Surcharge.
(a) The corporate authorities of any municipality or any county may, subject to the limitations of subsections (c), (d), and (h), and in addition to any tax levied pursuant to the Simplified Municipal Telecommunications Tax Act, impose a monthly surcharge on billed subscribers of network connection provided by telecommunication carriers engaged in the business of transmitting messages by means of electricity originating within the corporate limits of the municipality or county imposing the surcharge at a rate per network connection determined in accordance with subsection (c). Provided, however, that where multiple voice grade communications channels are connected between the subscriber's premises and a public switched network through private branch exchange (PBX) or centrex type service, a municipality imposing a surcharge at a rate per network connection, as determined in accordance with this Act, shall impose 5 such surcharges per network connection, as determined in accordance with subsections (a) and (d) of Section 2.12 of this Act. For mobile telecommunications services, if a surcharge is imposed it shall be imposed based upon the municipality or county that encompasses the customer's place of primary use as defined in the Mobile Telecommunications Sourcing Conformity Act. A municipality may enter into an intergovernmental agreement with any county in which it is partially located, when the county has adopted an ordinance to impose a surcharge as provided in subsection (c), to include that portion of the municipality lying outside the county in that county's surcharge referendum. If the county's surcharge referendum is approved, the portion of the municipality identified in the intergovernmental agreement shall automatically be disconnected from the county in which it lies and connected to the county which approved the referendum for purposes of a surcharge on telecommunications carriers.

New matter indicated by italics - deletions by strikeout
(b) For purposes of computing the surcharge imposed by subsection (a), the network connections to which the surcharge shall apply shall be those in-service network connections, other than those network connections assigned to the municipality or county, where the service address for each such network connection or connections is located within the corporate limits of the municipality or county levying the surcharge. Except for mobile telecommunication services, the "service address" shall mean the location of the primary use of the network connection or connections. For mobile telecommunication services, "service address" means the customer's place of primary use as defined in the Mobile Telecommunications Sourcing Conformity Act. With respect to network connections provided for use with pay telephone services for which there is no billed subscriber, the telecommunications carrier providing the network connection shall be deemed to be its own billed subscriber for purposes of applying the surcharge.

(c) Upon the passage of an ordinance to impose a surcharge under this Section the clerk of the municipality or county shall certify the question of whether the surcharge may be imposed to the proper election authority who shall submit the public question to the electors of the municipality or county in accordance with the general election law; provided that such question shall not be submitted at a consolidated primary election. The public question shall be in substantially the following form:

---------------------------------------------------------------------

Shall the county (or city, village or incorporated town) of ..... impose YES
a surcharge of up to ...¢ per month per network connection, which surcharge will
be added to the monthly bill you receive for telephone or telecommunications charges, for the purpose of installing (or improving) a 9-1-1 Emergency Telephone System? NO

---------------------------------------------------------------------

If a majority of the votes cast upon the public question are in favor thereof, the surcharge shall be imposed.

However, if a Joint Emergency Telephone System Board is to be created pursuant to an intergovernmental agreement under Section 15.4, the ordinance to impose the surcharge shall be subject to the approval of a majority of the total number of votes cast upon the public question by the electors of all of the municipalities or counties, or combination thereof, that are parties to the intergovernmental agreement.

The referendum requirement of this subsection (c) shall not apply to any municipality with a population over 500,000 or to any county in which a proposition as to whether a sophisticated 9-1-1 Emergency Telephone System should be installed in the county, at a cost not to exceed a specified monthly amount per network connection, has previously been approved by a majority of the electors of the county voting on the proposition at an election conducted before the effective date of this amendatory Act of 1987.

(d) A county may not impose a surcharge, unless requested by a municipality, in any incorporated area which has previously approved a surcharge as provided in subsection (c) or in any incorporated area where the corporate authorities of the municipality have previously entered into a binding contract or letter of intent with a telecommunications carrier to provide sophisticated 9-1-1 service through municipal funds.

(e) A municipality or county may at any time by ordinance change the rate of the surcharge imposed under this Section if the new rate does not exceed the rate specified in the referendum held pursuant to subsection (c).

(f) The surcharge authorized by this Section shall be collected from the subscriber by the telecommunications carrier providing the subscriber the network connection as a separately stated item on the subscriber's bill.

(g) The amount of surcharge collected by the telecommunications carrier shall be paid to the particular municipality or county or Joint Emergency Telephone System Board not later than 30 days after the surcharge is collected, net of any network or other 9-1-1 or sophisticated 9-1-1 system charges then due the particular telecommunications carrier,

as shown on an itemized bill. The telecommunications carrier collecting
the surcharge shall also be entitled to deduct 3% of the gross amount of
surcharge collected to reimburse the telecommunications carrier for the
expense of accounting and collecting the surcharge.

(h) Except as expressly provided in subsection (a) of this Section, a
municipality with a population over 500,000 may not impose a monthly
surcharge in excess of $2.50 $1.25 per network connection.

(i) Any municipality or county or joint emergency telephone
system board that has imposed a surcharge pursuant to this Section prior to
the effective date of this amendatory Act of 1990 shall hereafter impose
the surcharge in accordance with subsection (b) of this Section.

(j) The corporate authorities of any municipality or county may
issue, in accordance with Illinois law, bonds, notes or other obligations
secured in whole or in part by the proceeds of the surcharge described in
this Section. Notwithstanding any change in law subsequent to the
issuance of any bonds, notes or other obligations secured by the surcharge,
every municipality or county issuing such bonds, notes or other obligations
shall be authorized to impose the surcharge as though the laws relating to
the imposition of the surcharge in effect at the time of issuance of the
bonds, notes or other obligations were in full force and effect until the
bonds, notes or other obligations are paid in full. The State of Illinois
pledges and agrees that it will not limit or alter the rights and powers
vested in municipalities and counties by this Section to impose the
surcharge so as to impair the terms of or affect the security for bonds,
notes or other obligations secured in whole or in part with the proceeds of
the surcharge described in this Section.

(k) Any surcharge collected by or imposed on a
telecommunications carrier pursuant to this Section shall be held to be a
special fund in trust for the municipality, county or Joint Emergency
Telephone Board imposing the surcharge. Except for the 3% deduction
provided in subsection (g) above, the special fund shall not be subject to
the claims of creditors of the telecommunications carrier.

The Department of State Police shall be the primary wireless 9-1-1 public safety answering point for any jurisdiction not providing notice to the Commission and the Department of State Police. Nothing in this Act shall require the provision of wireless enhanced 9-1-1 services.

The Illinois Commerce Commission, upon a joint request from the Department of State Police and a qualified governmental entity or an emergency telephone system board, may grant authority to the emergency telephone system board or a qualified governmental entity to provide wireless 9-1-1 service in areas for which the Department of State Police has accepted wireless 9-1-1 responsibility. The Illinois Commerce Commission shall maintain a current list of all 9-1-1 systems and qualified governmental entities providing wireless 9-1-1 service under this Act.

Act may continue to operate upon notification as previously described in this Section. An emergency telephone system board or a qualified governmental entity shall submit, with its notification, the date upon which it commenced operating.

(c) Wireless Enhanced 9-1-1 Board. The Wireless Enhanced 9-1-1 Board is created. The Board consists of 7 members appointed by the Governor with the advice and consent of the Senate. It is recommended that the Governor appoint members from the following: the Illinois Chapter of the National Emergency Numbers Association, the Illinois State Police, law enforcement agencies, the wireless telecommunications industry, an emergency telephone system board in Cook County (outside the City of Chicago), an emergency telephone system board in the Metro-east area, and an emergency telephone system board in the collar counties (Lake, McHenry, DuPage, Kane, and Will counties). Members of the Board may not receive any compensation but may, however, be reimbursed for any necessary expenditure in connection with their duties.

Except as provided in Section 45, the Wireless Enhanced 9-1-1 Board shall set the amount of the monthly wireless surcharge required to be imposed under Section 17 on all wireless subscribers in this State. Prior to the Wireless Enhanced 9-1-1 Board setting any surcharge, the Board shall publish the proposed surcharge in the Illinois Register, hold hearings on the surcharge and the requirements for an efficient wireless emergency number system, and elicit public comment. The Board shall determine the minimum cost necessary for implementation of this system and the amount of revenue produced based upon the number of wireless telephones in use. The Board shall set the surcharge at the minimum amount necessary to achieve the goals of the Act and shall, by July 1, 2000, file this information with the Governor, the Clerk of the House, and the Secretary of the Senate. The surcharge may not be more than $0.75 per month per CMRS connection.

The Wireless Enhanced 9-1-1 Board shall report to the General Assembly by July 1, 2000 on implementing wireless non-emergency services for the purpose of public safety using the digits 3-1-1. The Board shall consider the delivery of 3-1-1 services in a 6 county area, including

rural Cook County (outside of the City of Chicago), and DuPage, Lake, McHenry, Will, and Kane Counties, as well as counties outside of this area
by an emergency telephone system board, a qualified governmental entity,
or private industry. The Board, upon completion of all its duties required
under this Act, is dissolved.

Sec. 17. Wireless carrier surcharge.
(a) Except as provided in Section 45, each wireless carrier shall
impose a monthly wireless carrier surcharge per CMRS connection that
either has a telephone number within an area code assigned to Illinois by
the North American Numbering Plan Administrator or has a billing
address in this State. In the case of prepaid wireless telephone service, this
surcharge shall be remitted based upon the address associated with the
point of purchase, the customer billing address, or the location associated
with the MTN for each active prepaid wireless telephone that has a
sufficient positive balance as of the last day of each month, if that
information is available. No wireless carrier shall impose the surcharge
authorized by this Section upon any subscriber who is subject to the
surcharge imposed by a unit of local government pursuant to Section 45.
Prior to the effective date of this amendatory Act of the 95th General
Assembly, the surcharge amount shall be the amount set by the Wireless
Enhanced 9-1-1 Board. Beginning on the effective date of this amendatory
Act of the 95th General Assembly, the monthly surcharge imposed under
this Section shall be $0.73 per CMRS connection. The wireless carrier that
provides wireless service to the subscriber shall collect the surcharge set
by the Wireless Enhanced 9-1-1 Board from the subscriber. For mobile
telecommunications services provided on and after August 1, 2002, any
surcharge imposed under this Act shall be imposed based upon the
municipality or county that encompasses the customer's place of primary
use as defined in the Mobile Telecommunications Sourcing Conformity
Act. The surcharge shall be stated as a separate item on the subscriber's
monthly bill. The wireless carrier shall begin collecting the surcharge on

bills issued within 90 days after the Wireless Enhanced 9-1-1 Board sets the monthly wireless surcharge. State and local taxes shall not apply to the wireless carrier surcharge.

(b) Except as provided in Section 45, a wireless carrier shall, within 45 days of collection, remit, either by check or by electronic funds transfer, to the State Treasurer the amount of the wireless carrier surcharge collected from each subscriber. Of the amounts remitted under this subsection prior to the effective date of this amendatory Act of the 95th General Assembly, and for surcharges imposed before the effective date of this amendatory Act of the 95th General Assembly but remitted after its effective date, the State Treasurer shall deposit one-third into the Wireless Carrier Reimbursement Fund and two-thirds into the Wireless Service Emergency Fund. For surcharges collected and remitted on or after the effective date of this amendatory Act of the 95th General Assembly, $0.1475 per surcharge collected shall be deposited into the Wireless Carrier Reimbursement Fund, and $0.5825 per surcharge collected shall be deposited into the Wireless Service Emergency Fund. Of the amounts deposited into the Wireless Service Emergency Fund under this subsection, $0.01 per surcharge collected may be distributed to the carriers to cover their administrative costs. Of the amounts deposited into the Wireless Service Emergency Fund under this subsection, $0.01 per surcharge collected may be disbursed to the Illinois Commerce Commission to cover its administrative costs.

(c) The first such remittance by wireless carriers shall include the number of customers by zip code, and the 9-digit zip code if currently being used or later implemented by the carrier, that shall be the means by which the Illinois Commerce Commission shall determine distributions from the Wireless Service Emergency Fund. This information shall be updated no less often than every year. Wireless carriers are not required to remit surcharge moneys that are billed to subscribers but not yet collected.

(d) Notwithstanding any provision of law to the contrary, nothing shall impair the right of wireless carriers to recover compliance costs for all emergency communications services that are not reimbursed out of the Wireless Carrier Reimbursement Fund directly from their customers via

line-item charges on the customer's bill. Those compliance costs include all costs incurred by wireless carriers in complying with local, State, and federal regulatory or legislative mandates that require the transmission and receipt of emergency communications to and from the general public, including, but not limited to, E-911.

(e) The Auditor General shall conduct, on an annual basis, an audit of the Wireless Service Emergency Fund and the Wireless Carrier Reimbursement Fund for compliance with the requirements of this Act. The audit shall include, but not be limited to, the following determinations:

1. Whether the Commission is maintaining detailed records of all receipts and disbursements from the Wireless Carrier Emergency Fund and the Wireless Carrier Reimbursement Fund.
2. Whether the Commission’s administrative costs charged to the funds are adequately documented and are reasonable.
3. Whether the Commission’s procedures for making grants and providing reimbursements in accordance with the Act are adequate.
4. The status of the implementation of wireless 9-1-1 and E9-1-1 services in Illinois.

The Commission, the Department of State Police, and any other entity or person that may have information relevant to the audit shall cooperate fully and promptly with the Office of the Auditor General in conducting the audit. The Auditor General shall commence the audit as soon as possible and distribute the report upon completion in accordance with Section 3-14 of the Illinois State Auditing Act.

The Illinois Commerce Commission shall, subject to appropriation, make monthly proportional grants to the appropriate emergency telephone system board or qualified governmental entity based upon the United States Postal Zip Code of the wireless subscriber's billing address. No matching funds shall be required from grant recipients.

If the Illinois Commerce Commission is notified of an area of overlapping jurisdiction, grants for that area shall be made based upon reference to an official Master Street Address Guide to the emergency telephone system board or qualified governmental entity whose public service answering points provide wireless 9-1-1 service in that area. The emergency telephone system board or qualified governmental entity shall provide the Illinois Commerce Commission with a valid copy of the appropriate Master Street Address Guide. The Illinois Commerce Commission does not have a duty to verify jurisdictional responsibility.

In the event of a subscriber billing address being matched to an incorrect jurisdiction by the Illinois Commerce Commission, the recipient, upon notification from the Illinois Commerce Commission, shall redirect the funds to the correct jurisdiction. Sec. 35. Wireless Carrier Reimbursement Fund; reimbursement. To recover costs from the Wireless Carrier Reimbursement Fund, the wireless carrier shall submit sworn invoices to the Illinois Commerce Commission. In no event may any invoice for payment be approved for (i) costs that are not related to compliance with the requirements established by the wireless enhanced 9-1-1 mandates of the Federal Communications Commission, (ii) costs with respect to any wireless enhanced 9-1-1 service that is not operable at the time the invoice is submitted, or (iii) costs of any wireless carrier exceeding 100% of the wireless emergency services charges remitted to the Wireless Carrier Reimbursement Fund by the wireless carrier under Section 17(b) unless the wireless carrier received prior approval for the expenditures from the Illinois Commerce Commission.

If in any month the total amount of invoices submitted to the Illinois Commerce Commission and approved for payment exceeds the amount available in the Wireless Carrier Reimbursement Fund, wireless carriers that have invoices approved for payment shall receive a pro-rata share of the amount available in the Wireless Carrier Reimbursement Fund based on the relative amount of their approved invoices available that month, and the balance of the payments shall be carried into the following months until all of the approved payments are made.

A wireless carrier may not receive payment from the Wireless Carrier Reimbursement Fund for its costs of providing wireless enhanced 9-1-1 services in an area when a unit of local government or emergency telephone system board provides wireless 9-1-1 services in that area and was imposing and collecting a wireless carrier surcharge prior to July 1, 1998.

Sec. 7-8. The State central committee shall be composed of one or two members from each congressional district in the State and shall be elected as follows:

State Central Committee

(a) Within 30 days after the effective date of this amendatory Act of 1983 the State central committee of each political party shall certify to the State Board of Elections which of the following alternatives it wishes to apply to the State central committee of that party.

Alternative A. At the primary in 1970 and at the general primary election held every 4 years thereafter, each primary elector may vote for one candidate of his party for member of the State central committee for the congressional district in which he resides. The candidate receiving the highest number of votes shall be declared elected State central committeeman from the district. A political party may, in lieu of the foregoing, by a majority vote of delegates at any State convention of such party, determine to thereafter elect the State central committeemen in the manner following:

At the county convention held by such political party State central committeemen shall be elected in the same manner as provided in this Article for the election of officers of the county central committee, and such election shall follow the election of officers of the county central committee. Each elected ward, township or precinct committeeman shall cast as his vote one vote for each ballot voted in his ward, township, part of a township or precinct in the last preceding primary election of his political party. In the case of a county lying partially within one congressional district and partially within another congressional district, each ward, township or precinct committeeman shall vote only with respect to the congressional district in which his ward, township, part of a township or precinct is located. In the case of a congressional district which encompasses more than one county, each ward, township or

precinct committeeman residing within the congressional district shall cast as his vote one vote for each ballot voted in his ward, township, part of a township or precinct in the last preceding primary election of his political party for one candidate of his party for member of the State central committee for the congressional district in which he resides and the Chairman of the county central committee shall report the results of the election to the State Board of Elections. The State Board of Elections shall certify the candidate receiving the highest number of votes elected State central committeeman for that congressional district.

The State central committee shall adopt rules to provide for and govern the procedures to be followed in the election of members of the State central committee.

After the effective date of this amendatory Act of the 91st General Assembly, whenever a vacancy occurs in the office of Chairman of a State central committee, or at the end of the term of office of Chairman, the State central committee of each political party that has selected Alternative A shall elect a Chairman who shall not be required to be a member of the State Central Committee. The Chairman shall be a registered voter in this State and of the same political party as the State central committee.

Alternative B. Each congressional committee shall, within 30 days after the adoption of this alternative, appoint a person of the sex opposite that of the incumbent member for that congressional district to serve as an additional member of the State central committee until his or her successor is elected at the general primary election in 1986. Each congressional committee shall make this appointment by voting on the basis set forth in paragraph (e) of this Section. In each congressional district at the general primary election held in 1986 and every 4 years thereafter, the male candidate receiving the highest number of votes of the party's male candidates for State central committeeman, and the female candidate receiving the highest number of votes of the party's female candidates for State central committeewoman, shall be declared elected State central committeeman and State central committeewoman from the district. At the general primary election held in 1986 and every 4 years thereafter, if all a party's candidates for State central committeemen or State central committeewomen receive more votes than the party's candidates for State central committeeman and State central committeewoman, the party's candidates for State central committeemen and State central committeewomen shall be declared elected State central committeemen and State central committeewomen from the district.

committeewomen from a congressional district are of the same sex, the
candidate receiving the highest number of votes shall be declared elected a
State central committeeman or State central committeewoman from the
district, and, because of a failure to elect one male and one female to the
committee, a vacancy shall be declared to exist in the office of the second
member of the State central committee from the district. This vacancy
shall be filled by appointment by the congressional committee of the
political party, and the person appointed to fill the vacancy shall be a
resident of the congressional district and of the sex opposite that of the
committeeman or committeewoman elected at the general primary
election. Each congressional committee shall make this appointment by
voting on the basis set forth in paragraph (e) of this Section.

The Chairman of a State central committee composed as provided
in this Alternative B must be selected from the committee's members.

Except as provided for in Alternative A with respect to the
selection of the Chairman of the State central committee, under both of the
foregoing alternatives, the State central committee of each political party
shall be composed of members elected or appointed from the several
congressional districts of the State, and of no other person or persons
whomsoever. The members of the State central committee shall, within 41
days after each quadrennial election of the full committee, meet in the city
of Springfield and organize by electing a chairman, and may at such time
elect such officers from among their own number (or otherwise), as they
may deem necessary or expedient. The outgoing chairman of the State
central committee of the party shall, 10 days before the meeting, notify
each member of the State central committee elected at the primary of the
time and place of such meeting. In the organization and proceedings of the
State central committee, each State central committeeman and State
central committeewoman shall have one vote for each ballot voted in his
or her congressional district by the primary electors of his or her party at
the primary election immediately preceding the meeting of the State
central committee. Whenever a vacancy occurs in the State central
committee of any political party, the vacancy shall be filled by
appointment of the chairmen of the county central committees of the

political party of the counties located within the congressional district in which the vacancy occurs and, if applicable, the ward and township committeemen of the political party in counties of 2,000,000 or more inhabitants located within the congressional district. If the congressional district in which the vacancy occurs lies wholly within a county of 2,000,000 or more inhabitants, the ward and township committeemen of the political party in that congressional district shall vote to fill the vacancy. In voting to fill the vacancy, each chairman of a county central committee and each ward and township committeeman in counties of 2,000,000 or more inhabitants shall have one vote for each ballot voted in each precinct of the congressional district in which the vacancy exists of his or her county, township, or ward cast by the primary electors of his or her party at the primary election immediately preceding the meeting to fill the vacancy in the State central committee. The person appointed to fill the vacancy shall be a resident of the congressional district in which the vacancy occurs, shall be a qualified voter, and, in a committee composed as provided in Alternative B, shall be of the same sex as his or her predecessor. A political party may, by a majority vote of the delegates of any State convention of such party, determine to return to the election of State central committeeman and State central committeewoman by the vote of primary electors. Any action taken by a political party at a State convention in accordance with this Section shall be reported to the State Board of Elections by the chairman and secretary of such convention within 10 days after such action.

Ward, Township and Precinct Committeemen

(b) At the primary in 1972 and at the general primary election every 4 years thereafter, each primary elector in cities having a population of 200,000 or over may vote for one candidate of his party in his ward for ward committeeman. Each candidate for ward committeeman must be a resident of and in the ward where he seeks to be elected ward committeeman. The one having the highest number of votes shall be such ward committeeman of such party for such ward. At the primary election in 1970 and at the general primary election every 4 years thereafter, each primary elector in counties containing a population of 2,000,000 or more,
outside of cities containing a population of 200,000 or more, may vote for one candidate of his party for township committeeman. Each candidate for township committeeman must be a resident of and in the township or part of a township (which lies outside of a city having a population of 200,000 or more, in counties containing a population of 2,000,000 or more), and in which township or part of a township he seeks to be elected township committeeman. The one having the highest number of votes shall be such township committeeman of such party for such township or part of a township. At the primary in 1970 and at the general primary election every 2 years thereafter, each primary elector, except in counties having a population of 2,000,000 or over, may vote for one candidate of his party in his precinct for precinct committeeman. The area within where the markers are placed shall be known as a campaign free zone, and electioneering is prohibited pursuant to this subsection. Notwithstanding any other provision of this Section, a church or private school may choose to apply the campaign free zone to its entire property, and, if so, the markers shall be placed near the boundaries on the grounds adjacent to the thoroughfares or walkways leading to the entrances used by the voters. At or near the door of each polling place, the election judges shall place signage indicating the proper entrance to the polling place. In addition, the election judges shall ensure that a sign identifying the location of the polling place is placed on a nearby public roadway. The compensation of the judges of all primaries and all elections, except judges supervising absentee ballots as provided in Section 19-12.2 of this Act, in counties of less than 600,000 inhabitants shall be fixed by the respective county boards or boards of election commissioners in all counties and municipalities, but in no case shall such compensation be less than $35 per day. The compensation of judges of all primaries and all elections not under the jurisdiction of the county clerk, except judges supervising absentee balloting as provided in Section 19-12.2 of this Act, in counties having a population of 2,000,000 or more shall be not less than $60 per day. The compensation of judges of all primaries and all elections under the jurisdiction of the county clerk, except judges supervising absentee balloting as provided in Section 19-12.2 of this Act, in counties having a population of 2,000,000 or more shall be not less than $60 per day. The compensation of judges of all primaries and all elections, except judges supervising absentee ballots as provided in Section 19-12.2 of this Act, in counties having a population of at least 600,000 but less than 2,000,000 inhabitants shall be not less than $45 per day as fixed by the county board of election commissioners of each such county. In addition to their per day compensation and notwithstanding the limitations thereon stated herein, the judges of election, in all counties with a population of less than 600,000, shall be paid $3 each for each 100 voters or portion thereof, in excess of 200 voters voting for candidates in the election district or precinct wherein the judge is serving, whether a primary or an election is being held. However, no
such extra compensation shall be paid to the judges of election in any precinct in which no paper ballots are counted by such judges of election. The 2 judges of election in counties having a population of less than 600,000 who deliver the returns to the county clerk shall each be allowed and paid a sum to be determined by the election authority for such services and an additional sum per mile to be determined by the election authority for every mile necessarily travelled in going to and returning from the office or place to which they deliver the returns. The compensation for mileage shall be consistent with current rates paid for mileage to employees of the county.

However, all judges who have been certified by the County Clerk or Board of Election Commissioners as having satisfactorily completed, within the 2 years preceding the day of election, the training course for judges of election, as provided in Sections 13-2.1, 13-2.2 and 14-4.1 of this Act, shall receive additional compensation of not less than $10 per day in counties of less than 600,000 inhabitants, the additional compensation of not less than $10 per day in counties having a population of at least 600,000 but less than 2,000,000 inhabitants as fixed by the county board of election commissioners of each such county, and additional compensation of not less than $20 per day in counties having a population of 2,000,000 or more for primaries and elections not under the jurisdiction of the county clerk, and additional compensation of not less than $20 per day in counties having a population of 2,000,000 or more for primaries and elections under the jurisdiction of the county clerk.

In precincts in which there are tally judges, the compensation of the tally judges shall be 2/3 of that of the judges of election and each holdover judge shall be paid the compensation of a judge of election plus that of a tally judge.

Beginning on the effective date of this amendatory Act of 1998, the portion of an election judge's daily compensation reimbursed by the State Board of Elections is increased by $15. The increase provided by this amendatory Act of 1998 must be used to increase each judge's compensation and may not be used by the county to reduce its portion of a judge's compensation.

(Text of Section before amendment by P.A. 94-1090)

Sec. 16-3. (a) The names of all candidates to be voted for in each election district or precinct shall be printed on one ballot, except as is provided in Sections 16-6.1 and 21-1.01 of this Act and except as otherwise provided in this Act with respect to the odd year regular elections and the emergency referenda; all nominations of any political
party being placed under the party appellation or title of such party as designated in the certificates of nomination or petitions. The names of all independent candidates shall be printed upon the ballot in a column or columns under the heading "independent" arranged under the names or titles of the respective offices for which such independent candidates shall have been nominated and so far as practicable, the name or names of any independent candidate or candidates for any office shall be printed upon the ballot opposite the name or names of any candidate or candidates for the same office contained in any party column or columns upon said ballot. The ballot shall contain no other names, except that in cases of electors for President and Vice-President of the United States, the names of the candidates for President and Vice-President may be added to the party designation and words calculated to aid the voter in his choice of candidates may be added, such as "Vote for one," "Vote for three." When an electronic voting system is used which utilizes a ballot label booklet, the candidates and questions shall appear on the pages of such booklet in the order provided by this Code; and, in any case where candidates for an office appear on a page which does not contain the name of any candidate for another office, and where less than 50% of the page is utilized, the name of no candidate shall be printed on the lowest 25% of such page. On the back or outside of the ballot, so as to appear when folded, shall be printed the words "Official Ballot", followed by the designation of the polling place for which the ballot is prepared, the date of the election and a facsimile of the signature of the election authority who has caused the ballots to be printed. The ballots shall be of plain white paper, through which the printing or writing cannot be read. However, ballots for use at the nonpartisan and consolidated elections may be printed on different color paper, except blue paper, whenever necessary or desirable to facilitate distinguishing between ballots for different political subdivisions. In the case of nonpartisan elections for officers of a political subdivision, unless the statute or an ordinance adopted pursuant to Article VII of the Constitution providing the form of government therefor requires otherwise, the column listing such nonpartisan candidates shall be printed with no appellation or circle at its head. The party appellation or title, or

the word "independent" at the head of any column provided for independent candidates, shall be printed in letters not less than one-fourth of an inch in height and a circle one-half inch in diameter shall be printed at the beginning of the line in which such appellation or title is printed, provided, however, that no such circle shall be printed at the head of any column or columns provided for such independent candidates. The names of candidates shall be printed in letters not less than one-eighth nor more than one-fourth of an inch in height, and at the beginning of each line in which a name of a candidate is printed a square shall be printed, the sides of which shall be not less than one-fourth of an inch in length. However, the names of the candidates for Governor and Lieutenant Governor on the same ticket shall be printed within a bracket and a single square shall be printed in front of the bracket. The list of candidates of the several parties and any such list of independent candidates shall be placed in separate columns on the ballot in such order as the election authorities charged with the printing of the ballots shall decide; provided, that the names of the candidates of the several political parties, certified by the State Board of Elections to the several county clerks shall be printed by the county clerk of the proper county on the official ballot in the order certified by the State Board of Elections. Any county clerk refusing, neglecting or failing to print on the official ballot the names of candidates of the several political parties in the order certified by the State Board of Elections, and any county clerk who prints or causes to be printed upon the official ballot the name of a candidate, for an office to be filled by the Electors of the entire State, whose name has not been duly certified to him upon a certificate signed by the State Board of Elections shall be guilty of a Class C misdemeanor.

(b) When an electronic voting system is used which utilizes a ballot card, on the inside flap of each ballot card envelope there shall be printed a form for write-in voting which shall be substantially as follows:

WRITE-IN VOTES

(See card of instructions for specific information. Duplicate form below by hand for additional write-in votes.)

New matter indicated by italics - deletions by strikeout
Title of Office

( ) ____________________________

Name of Candidate

Write-in lines equal to the number of candidates for which a voter may vote shall be printed for an office only if one or more persons filed declarations of intent to be write-in candidates or qualify to file declarations to be write-in candidates under Sections 17-16.1 and 18-9.1 when the certification of ballot contains the words "OBJECTION PENDING".

(c) When an electronic voting system is used which uses a ballot sheet, the instructions to voters on the ballot sheet shall refer the voter to the card of instructions for specific information on write-in voting. Below each office appearing on such ballot sheet there shall be a provision for the casting of a write-in vote. Write-in lines equal to the number of candidates for which a voter may vote shall be printed for an office only if one or more persons filed declarations of intent to be write-in candidates or qualify to file declarations to be write-in candidates under Sections 17-16.1 and 18-9.1 when the certification of ballot contains the words "OBJECTION PENDING".

(d) When such electronic system is used, there shall be printed on the back of each ballot card, each ballot card envelope, and the first page of the ballot label when a ballot label is used, the words "Official Ballot," followed by the number of the precinct or other precinct identification, which may be stamped, in lieu thereof and, as applicable, the number and name of the township, ward or other election district for which the ballot card, ballot card envelope, and ballot label are prepared, the date of the election and a facsimile of the signature of the election authority who has caused the ballots to be printed. The back of the ballot card shall also include a method of identifying the ballot configuration such as a listing of the political subdivisions and districts for which votes may be cast on that ballot, or a number code identifying the ballot configuration or color coded ballots, except that where there is only one ballot configuration in a precinct, the precinct identification, and any applicable ward identification, shall be sufficient. Ballot card envelopes used in punch card systems shall
be of paper through which no writing or punches may be discerned and shall be of sufficient length to enclose all voting positions. However, the election authority may provide ballot card envelopes on which no precinct number or township, ward or other election district designation, or election date are preprinted, if space and a preprinted form are provided below the space provided for the names of write-in candidates where such information may be entered by the judges of election. Whenever an election authority utilizes ballot card envelopes on which the election date and precinct is not preprinted, a judge of election shall mark such information for the particular precinct and election on the envelope in ink before tallying and counting any write-in vote written thereon. If some method of insuring ballot secrecy other than an envelope is used, such information must be provided on the ballot itself.

(e) In the designation of the name of a candidate on the ballot, the candidate's given name or names, initial or initials, a nickname by which the candidate is commonly known, or a combination thereof, may be used in addition to the candidate's surname. No other designation such as a political slogan, title, or degree or nickname suggesting or implying possession of a title, degree or professional status, or similar information may be used in connection with the candidate's surname, except that the title "Mrs." may be used in the case of a married woman. For purposes of this Section, a "political slogan" is defined as any word or words expressing or connoting a position, opinion, or belief that the candidate may espouse, including but not limited to, any word or words conveying any meaning other than that of the personal identity of the candidate. A candidate may not use a political slogan as part of his or her name on the ballot, notwithstanding that the political slogan may be part of the candidate's name.

(f) The State Board of Elections, a local election official, or an election authority shall remove any candidate's name designation from a ballot that is inconsistent with subsection (e) of this Section. In addition, the State Board of Elections, a local election official, or an election authority shall not certify to any election authority any candidate name designation that is inconsistent with subsection (e) of this Section.

New matter indicated by italics - deletions by strikeout
(g) If the State Board of Elections, a local election official, or an election authority removes a candidate's name designation from a ballot under subsection (f) of this Section, then the aggrieved candidate may seek appropriate relief in circuit court.

Where voting machines or electronic voting systems are used, the provisions of this Section may be modified as required or authorized by Article 24 or Article 24A, whichever is applicable.

Nothing in this Section shall prohibit election authorities from using or reusing ballot card envelopes which were printed before the effective date of this amendatory Act of 1985.

Elections to the several county clerks shall be printed by the county clerk of the proper county on the official ballot in the order certified by the State Board of Elections. Any county clerk refusing, neglecting or failing to print on the official ballot the names of candidates of the several political parties in the order certified by the State Board of Elections, and any county clerk who prints or causes to be printed upon the official ballot the name of a candidate, for an office to be filled by the Electors of the entire State, whose name has not been duly certified to him upon a certificate signed by the State Board of Elections shall be guilty of a Class C misdemeanor.

Write-in lines equal to the number of candidates for which a voter may vote shall be printed for an office only if one or more persons filed declarations of intent to be write-in candidates or qualify to file declarations to be write-in candidates under Sections 17-16.1 and 18-9.1 when the certification of ballot contains the words "OBJECTION PENDING".

(c) When an electronic voting system is used which uses a ballot sheet, the instructions to voters on the ballot sheet shall refer the voter to the card of instructions for specific information on write-in voting. Below each office appearing on such ballot sheet there shall be a provision for the casting of a write-in vote. Write-in lines equal to the number of candidates for which a voter may vote shall be printed for an office only if one or
more persons filed declarations of intent to be write-in candidates or qualify to file declarations to be write-in candidates under Sections 17-16.1 and 18-9.1 when the certification of ballot contains the words "OBJECTION PENDING".

(d) When such electronic system is used, there shall be printed on the back of each ballot card, each ballot card envelope, and the first page of the ballot label when a ballot label is used, the words "Official Ballot," followed by the number of the precinct or other precinct identification, which may be stamped, in lieu thereof and, as applicable, the number and name of the township, ward or other election district for which the ballot card, ballot card envelope, and ballot label are prepared, the date of the election and a facsimile of the signature of the election authority who has caused the ballots to be printed. The back of the ballot card shall also include a method of identifying the ballot configuration such as a listing of the political subdivisions and districts for which votes may be cast on that ballot, or a number code identifying the ballot configuration or color coded ballots, except that where there is only one ballot configuration in a precinct, the precinct identification, and any applicable ward identification, shall be sufficient. Ballot card envelopes used in punch card systems shall be of paper through which no writing or punches may be discerned and shall be of sufficient length to enclose all voting positions. However, the election authority may provide ballot card envelopes on which no precinct number or township, ward or other election district designation, or election date are preprinted, if space and a preprinted form are provided below the space provided for the names of write-in candidates where such information may be entered by the judges of election. Whenever an election authority utilizes ballot card envelopes on which the election date and precinct is not preprinted, a judge of election shall mark such information for the particular precinct and election on the envelope in ink before tallying and counting any write-in vote written thereon. If some method of insuring ballot secrecy other than an envelope is used, such information must be provided on the ballot itself.

(e) In the designation of the name of a candidate on the ballot, the candidate's given name or names, initial or initials, a nickname by which
the candidate is commonly known, or a combination thereof, may be used in addition to the candidate's surname. If a candidate has changed his or her name, whether by a statutory or common law procedure in Illinois or any other jurisdiction, within 3 years before the last day for filing the petition for nomination, nomination papers, or certificate of nomination for that office, whichever is applicable, then (i) the candidate's name on the ballot must be followed by "formerly known as (list all prior names during the 3-year period) until name changed on (list date of each such name change)" and (ii) the petition, papers, or certificate must be accompanied by the candidate's affidavit stating the candidate's previous names during the period specified in (i) and the date or dates each of those names was changed; failure to meet these requirements shall be grounds for denying certification of the candidate's name for the ballot or removing the candidate's name from the ballot, as appropriate, but these requirements do not apply to name changes resulting from adoption to assume an adoptive parent's or parents' surname, marriage to assume a spouse's surname, or dissolution of marriage or declaration of invalidity of marriage to assume a former surname. No other designation such as a political slogan, title, or degree or nickname suggesting or implying possession of a title, degree or professional status, or similar information may be used in connection with the candidate's surname. For purposes of this Section, a "political slogan" is defined as any word or words expressing or connoting a position, opinion, or belief that the candidate may espouse, including but not limited to, any word or words conveying any meaning other than that of the personal identity of the candidate. A candidate may not use a political slogan as part of his or her name on the ballot, notwithstanding that the political slogan may be part of the candidate's name.

(f) The State Board of Elections, a local election official, or an election authority shall remove any candidate's name designation from a ballot that is inconsistent with subsection (e) of this Section. In addition, the State Board of Elections, a local election official, or an election authority shall not certify to any election authority any candidate name designation that is inconsistent with subsection (e) of this Section.

Sec. 16-10. The judges of election shall cause not less than one of such cards to be posted in each voting booth provided for the preparation of ballots, and not less than four of such cards to be posted in and about the polling places upon the day of election. In every county of not more than 500,000 inhabitants, each election authority shall cause to be published, prior to the day of any election, in at least two newspapers, if there be so many published in such county, a list of all the nominations made as in this Act provided and to be voted for at such election, as near as may be, in the form in which they shall appear upon the general ballot; provided that this requirement shall not apply with respect to any consolidated primary for which the local election official is required to make the publication under Section 7-21.

(Source: P.A. 80-1469.)

Sec. 17-11. On receipt of his ballot the voter shall forthwith, and without leaving the inclosed space, retire alone, or accompanied by children as provided in Section 17-8, to one of the voting booths so provided and shall prepare his ballot by making in the appropriate margin or place a cross (X) opposite the name of the candidate of his choice for each office to be filled, or by writing in the name of the candidate of his choice in a blank space on said ticket, making a cross (X) opposite thereto; and in case of a question submitted to the vote of the people, by making in
the appropriate margin or place a cross (X) against the answer he desires to give. A cross (X) in the square in front of the bracket enclosing the names of a team of candidates for Governor and Lieutenant Governor counts as one vote for each of such candidates. Before leaving the voting booth the voter shall fold his ballot in such manner as to conceal the marks thereon. He shall then vote forthwith in the manner herein provided, except that the number corresponding to the number of the voter on the poll books shall not be indorsed on the back of his ballot. He shall mark and deliver his ballot without undue delay, and shall quit said inclosed space as soon as he has voted; except that immediately after voting, the voter shall be instructed whether the voting equipment, if used, accepted or rejected the ballot or identified the ballot as under-voted for a statewide constitutional office. A voter whose ballot is identified as under-voted may return to the voting booth and complete the voting of that ballot. A voter whose ballot is not accepted by the voting equipment may, upon surrendering the ballot, request and vote another ballot. The voter's surrendered ballot shall be initialed by the election judge and handled as provided in the appropriate Article governing that voting equipment.

No voter shall be allowed to occupy a voting booth already occupied by another, nor remain within said inclosed space more than ten minutes, nor to occupy a voting booth more than five minutes in case all of said voting booths are in use and other voters waiting to occupy the same. No voter not an election officer, shall, after having voted, be allowed to re-enter said inclosed space during said election. No person shall take or remove any ballot from the polling place before the close of the poll. No voter shall vote or offer to vote any ballot except such as he has received from the judges of election in charge of the ballots. Any voter who shall, by accident or mistake, spoil his ballot, may, on returning said spoiled ballot, receive another in place thereof only after the word "spoiled" has been written in ink diagonally across the entire face of the ballot returned by the voter.

Where voting machines or electronic voting systems are used, the provisions of this section may be modified as required or authorized by Article 24, or Article 24A, 24B, or 24C, whichever is applicable, except
that the requirements of this Section that (i) the voter must be notified of the voting equipment's acceptance or rejection of the voter's ballot or identification of an under-vote for a statewide constitutional office and (ii) the voter shall have the opportunity to correct an under-vote or surrender the ballot that was not accepted and vote another ballot shall not be modified.

Write-in votes shall be counted only for persons who have filed notarized declarations of intent to be write-in candidates with the proper election authority or authorities not later than 61 days prior to 5:00 p.m. on the Tuesday immediately preceding the election. However, whenever an objection to a candidate's nominating papers or petitions for any office is sustained under Section 10-10 after the 61st day before the election, then write-in votes shall be counted for that candidate if he or she has filed a notarized declaration of intent to be a write-in candidate for that office with the proper election authority or authorities not later than 7 days prior to the election.

Forms for the declaration of intent to be a write-in candidate shall be supplied by the election authorities. Such declaration shall specify the office for which the person seeks election as a write-in candidate.

The election authority or authorities shall deliver a list of all persons who have filed such declarations to the election judges in the appropriate precincts prior to the election.

A candidate for whom a nomination paper has been filed as a partisan candidate at a primary election, and who is defeated for his or her nomination at the primary election is ineligible to file a declaration of intent to be a write-in candidate for election in that general or consolidated election.

Sec. 17-23. Pollwatchers in a general election shall be authorized in the following manner:

(1) Each established political party shall be entitled to appoint two pollwatchers per precinct. Such pollwatchers must be affiliated with the political party for which they are pollwatching. For all elections, the pollwatchers must be registered to vote in Illinois.

(2) Each candidate shall be entitled to appoint two pollwatchers per precinct. For all elections, the pollwatchers must be registered to vote in Illinois.

(3) Each organization of citizens within the county or political subdivision, which has among its purposes or interests the investigation or prosecution of election frauds, and which shall have registered its name and address and the name and addresses of its principal officers with the proper election authority at least 40 days before the election, shall be entitled to appoint one pollwatcher per precinct. For all elections, the pollwatcher must be registered to vote in Illinois.

(4) In any general election held to elect candidates for the offices of a municipality of less than 3,000,000 population that is situated in 2 or more counties, a pollwatcher who is a resident of Illinois shall be eligible to serve as a pollwatcher in any poll located within such municipality, provided that such pollwatcher otherwise complies with the respective requirements of subsections (1) through (3) of this Section and is a registered voter in Illinois.

(5) Each organized group of proponents or opponents of a ballot proposition, which shall have registered the name and address of its
organization or committee and the name and address of its chairman with
the proper election authority at least 40 days before the election, shall be
entitled to appoint one pollwatcher per precinct. The pollwatcher must be
registered to vote in Illinois.

All pollwatchers shall be required to have proper credentials. Such
credentials shall be printed in sufficient quantities, shall be issued by and
under the facsimile signature(s) of the election authority and shall be
available for distribution at least 2 weeks prior to the election. Such
credentials shall be authorized by the real or facsimile signature of the
State or local party official or the candidate or the presiding officer of the
civic organization or the chairman of the proponent or opponent group, as
the case may be. The election authority may not require any such party
official or the candidate or the presiding officer of the civic organization
or the chairman of the proponent or opponent group to submit the names
or other information concerning pollwatchers before making credentials
available to such persons or organizations.

Pollwatcher credentials shall be in substantially the following
form:

Pollwatchers must present their credentials to the Judges of Election upon entering the polling place. Pollwatcher credentials properly executed and signed shall be proof of the qualifications of the pollwatcher authorized thereby. Such credentials are retained by the Judges and returned to the Election Authority at the end of the day of election with the other election materials. Once a pollwatcher has surrendered a valid credential, he may leave and reenter the polling place provided that such continuing action does not disrupt the conduct of the election. Pollwatchers may be substituted during the course of the day, but established political parties, candidates and qualified civic organizations can have only as many pollwatchers at any given time as are authorized in this Article. A substitute must present his signed credential to the judges of election upon entering the polling place. Election authorities must provide a sufficient number of credentials to allow for substitution of pollwatchers. After the polls have closed pollwatchers shall be allowed to remain until the canvass of votes is completed; but may leave and reenter only in cases of necessity, provided that such action is not so continuous as to disrupt the canvass of votes.

Candidates seeking office in a district or municipality encompassing 2 or more counties shall be admitted to any and all polling places throughout such district or municipality without regard to the counties in which such candidates are registered to vote. Actions of such candidates shall be governed in each polling place by the same privileges and limitations that apply to pollwatchers as provided in this Section. Any such candidate who engages in an activity in a polling place which could reasonably be construed by a majority of the judges of election as campaign activity shall be removed forthwith from such polling place.

Pollwatchers shall be permitted to observe all proceedings and view all reasonably requested records relating to the conduct of the election, provided the secrecy of the ballot is not impinged, and to station themselves in a position in the voting room as will enable them to observe the judges making the signature comparison between the voter application and the voter registration record card; provided, however, that such pollwatchers shall not be permitted to station themselves in such close proximity to the judges of election so as to interfere with the orderly conduct of the election and shall not, in any event, be permitted to handle election materials. Pollwatchers may challenge for cause the voting qualifications of a person offering to vote and may call to the attention of the judges of election any incorrect procedure or apparent violations of this Code.

If a majority of the judges of election determine that the polling place has become too overcrowded with pollwatchers so as to interfere with the orderly conduct of the election, the judges shall, by lot, limit such pollwatchers to a reasonable number, except that each established or new political party shall be permitted to have at least one pollwatcher present.

Representatives of an election authority, with regard to an election under its jurisdiction, the State Board of Elections, and law enforcement agencies, including but not limited to a United States Attorney, a State's attorney, the Attorney General, and a State, county, or local police department, in the performance of their official election duties, shall be permitted at all times to enter and remain in the polling place. Upon entering the polling place, such representatives shall display their official credentials or other identification to the judges of election.

Uniformed police officers assigned to polling place duty shall follow all lawful instructions of the judges of election.

The provisions of this Section shall also apply to supervised casting of absentee ballots as provided in Section 19-12.2 of this Act.

Sec. 17-29. (a) No judge of election, pollwatcher, or other person shall, at any primary or election, do any electioneering or soliciting of votes or engage in any political discussion within any polling place, within 100 feet of any polling place, or, at the option of a church or private school, on any of the property of that church or private school that is a polling place; no person shall interrupt, hinder or oppose any voter while approaching within those areas for the purpose of voting. Judges of election shall enforce the provisions of this Section.

(b) Election officers shall place 2 or more cones, small United States national flags, or some other marker a distance of 100 horizontal feet from each entrance to the room used by voters to engage in voting, which shall be known as the polling room. If the polling room is located within a building that is a private business, a public or private school, or a church or other organization founded for the purpose of religious worship and the distance of 100 horizontal feet ends within the interior of the

building, then the markers shall be placed outside of the building at each entrance used by voters to enter that building on the grounds adjacent to the thoroughfare or walkway. If the polling room is located within a public or private building with 2 or more floors and the polling room is located on the ground floor, then the markers shall be placed 100 horizontal feet from each entrance to the polling room used by voters to engage in voting. If the polling room is located in a public or private building with 2 or more floors and the polling room is located on a floor above or below the ground floor, then the markers shall be placed a distance of 100 feet from the nearest elevator or staircase used by voters on the ground floor to access the floor where the polling room is located. The area within where the markers are placed shall be known as a campaign free zone, and electioneering is prohibited pursuant to this subsection. Notwithstanding any other provision of this Section, a church or private school may choose to apply the campaign free zone to its entire property, and, if so, the markers shall be placed near the boundaries on the grounds adjacent to the thoroughfares or walkways leading to the entrances used by the voters.

The area on polling place property beyond the campaign free zone, whether publicly or privately owned, is a public forum for the time that the polls are open on an election day. At the request of election officers any publicly owned building must be made available for use as a polling place. A person shall have the right to congregate and engage in electioneering on any polling place property while the polls are open beyond the campaign free zone, including but not limited to, the placement of temporary signs. This subsection shall be construed liberally in favor of persons engaging in electioneering on all polling place property beyond the campaign free zone for the time that the polls are open on an election day. At or near the door of each polling place, the election judges shall place signage indicating the proper entrance to the polling place. In addition, the election judges shall ensure that a sign identifying the location of the polling place is placed on a nearby public roadway. The State Board of Elections shall establish guidelines for the placement of polling place signage.

This is a denial and limitation of home rule powers and functions under subsection (h) of Section 6 of Article VII of the Illinois Constitution.

Sec. 17-43. Voting. Precinct tabulation optical scan technology voting equipment.

(a) If the election authority has adopted the use of Precinct Tabulation Optical Scan Technology voting equipment pursuant to Article 24B of this Code, and the provisions of the Article are in conflict with the provisions of this Article 17, the provisions of Article 24B shall govern the procedures followed by the election authority, its judges of elections, and all employees and agents. In following the provisions of Article 24B, the election authority is authorized to develop and implement procedures to fully utilize Precinct Tabulation Optical Scan Technology voting equipment authorized by the State Board of Elections as long as the procedure is not in conflict with either Article 24B or the administrative rules of the State Board of Elections.

(b) Notwithstanding subsection (a), when voting equipment governed by any Article of this Code is used, the requirements of Section 7-11 that (i) the voter must be notified of the voting equipment's acceptance or rejection of the ballot or identification of an under-vote for a statewide constitutional office and (ii) the voter shall have the opportunity to correct an under-vote for a statewide constitutional office or surrender the ballot that was not accepted and vote another ballot shall not be modified.

be questioned by one of the judges as to his nativity, his term of residence at present address, precinct, State and United States, his age, whether naturalized and if so the date of naturalization papers and court from which secured, and he shall be asked to state his residence when last previously registered and the date of the election for which he then registered. The judges of elections shall check each application for ballot against the list of voters registered in that precinct to whom grace period, absentee, and early ballots have been issued for that election, which shall be provided by the election authority and which list shall be available for inspection by pollwatchers. A voter applying to vote in the precinct on election day whose name appears on the list as having been issued a grace period, absentee, or early ballot shall not be permitted to vote in the precinct, except that a voter to whom an absentee ballot was issued may vote in the precinct if the voter submits to the election judges that absentee ballot for cancellation. If the voter is unable to submit the absentee ballot, it shall be sufficient for the voter to submit to the election judges (i) a portion of the absentee ballot if the absentee ballot was torn or mutilated or (ii) an affidavit executed before the election judges specifying that (A) the voter never received an absentee ballot or (B) the voter completed and returned an absentee ballot and was informed that the election authority did not receive that absentee ballot. If such person so registered shall be challenged as disqualified, the party challenging shall assign his reasons therefor, and thereupon one of the judges shall administer to him an oath to answer questions, and if he shall take the oath he shall then be questioned by the judge or judges touching such cause of challenge, and touching any other cause of disqualification. And he may also be questioned by the person challenging him in regard to his qualifications and identity. But if a majority of the judges are of the opinion that he is the person so registered and a qualified voter, his vote shall then be received accordingly. But if his vote be rejected by such judges, such person may afterward produce and deliver an affidavit to such judges, subscribed and sworn to by him before one of the judges, in which it shall be stated how long he has resided in such precinct, and state; that he is a citizen of the United States, and is a duly qualified voter in such precinct, and that he is

the identical person so registered. In addition to such an affidavit, the person so challenged shall provide to the judges of election proof of residence by producing 2 forms of identification showing the person's current residence address, provided that such identification to the person at his current residence address and postmarked not earlier than 30 days prior to the date of the election, or the person shall procure a witness personally known to the judges of election, and resident in the precinct (or district), or who shall be proved by some legal voter of such precinct or district, known to the judges to be such, who shall take the oath following, viz:

I do solemnly swear (or affirm) that I am a resident of this election precinct (or district), and entitled to vote at this election, and that I have been a resident of this State for 30 days last past, and am well acquainted with the person whose vote is now offered; that he is an actual and bona fide resident of this election precinct (or district), and has resided herein 30 days, and as I verily believe, in this State, 30 days next preceding this election.

The oath in each case may be administered by one of the judges of election, or by any officer, resident in the precinct or district, authorized by law to administer oaths. Also supported by an affidavit by a registered voter residing in such precinct, stating his own residence, and that he knows such person; and that he does reside at the place mentioned and has resided in such precinct and state for the length of time as stated by such person, which shall be subscribed and sworn to in the same way. Whereupon the vote of such person shall be received, and entered as other votes. But such judges, having charge of such registers, shall state in their respective books the facts in such case, and the affidavits, so delivered to the judges, shall be preserved and returned to the office of the commissioners of election. Blank affidavits of the character aforesaid shall be sent out to the judges of all the precincts, and the judges of election shall furnish the same on demand and administer the oaths without criticism. Such oaths, if administered by any other officer than such judge of election, shall not be received. shall be placed on top of the other ballots to be voted at the election in such manner that the legend appearing on the back thereof, as prescribed in Section 16-6 of this Act, shall be plainly visible to the voter, and in this fashion the ballots shall be handed to the voter by the judge.

Immediately after voting, the voter shall be instructed whether the voting equipment, if used, accepted or rejected the ballot or identified the ballot as under-voted. A voter whose ballot is identified as under-voted for a statewide constitutional office may return to the voting booth and complete the voting of that ballot. A voter whose ballot is not accepted by the voting equipment may, upon surrendering the ballot, request and vote another ballot. The voter's surrendered ballot shall be initialed by the election judge and handled as provided in the appropriate Article governing that voting equipment.

The voter shall, upon quitting the voting booth, deliver to one of the judges of election all of the ballots, properly folded, which he received. The judge of election to whom the voter delivers his ballots shall not accept the same unless all of the ballots given to the voter are returned by him. If a voter delivers less than all of the ballots given to him, the judge to whom the same are offered shall advise him in a voice clearly audible to the other judges of election that the voter must return the remainder of the ballots. The statement of the judge to the voter shall clearly express the fact that the voter is not required to vote such remaining ballots but that whether or not he votes them he must fold and deliver them to the judge. In making such statement the judge of election shall not indicate by word, gesture or intonation of voice that the unreturned ballots shall be voted in any particular manner. No new voter shall be permitted to enter the voting booth of a voter who has failed to deliver the total number of ballots received by him until such voter has returned to the voting booth pursuant to the judge's request and again quit the booth with all of the ballots required to be returned by him. Upon receipt of all such ballots the judges of election shall enter the name of the voter, and his number, as above provided in this Section, and the judge to whom the ballots are delivered shall immediately put the ballots into the ballot box. If any voter who has failed to deliver all the ballots received by him refuses to return to the

voting booth after being advised by the judge of election as herein
provided, the judge shall inform the other judges of such refusal, and
thereupon the ballot or ballots returned to the judge shall be deposited in
the ballot box, the voter shall be permitted to depart from the polling
place, and a new voter shall be permitted to enter the voting booth.

The judge of election who receives the ballot or ballots from the
voter shall announce the residence and name of such voter in a loud voice.
The judge shall put the ballot or ballots received from the voter into the
ballot box in the presence of the voter and the judges of election, and in
plain view of the public. The judges having charge of such registers shall
then, in a column prepared thereon, in the same line of, the name of the
voter, mark "Voted" or the letter "V".

No judge of election shall accept from any voter less than the full
number of ballots received by such voter without first advising the voter in
the manner above provided of the necessity of returning all of the ballots,
nor shall any such judge advise such voter in a manner contrary to that
which is herein permitted, or in any other manner violate the provisions of
this Section; provided, that the acceptance by a judge of election of less
than the full number of ballots delivered to a voter who refuses to return to
the voting booth after being properly advised by such judge shall not be a
violation of this Section.

provisional ballots cast at that election, shall be endorsed by the receiving
authority with the day and hour of receipt, opened to inspect the date
inserted on the certification, and, if the certification date is a date
preceding the election day and the ballot is otherwise found to be valid
under the requirements of this Section, counted at the central ballot
counting location of the election authority during the period for counting
provisional ballots. Absent a date on the certification, the ballot shall not
be counted.

(d) Special write-in absentee voter's blank ballots returned to an
election authority, by any means authorized by this Article, and received
by the election authority at any time before the closing of the polls on
election day shall be endorsed by the receiving election authority with the
day and hour of receipt and shall be counted at the central ballot counting
location of the election authority during the same period provided for
counting absent voters' ballots under subsections (b), (g), and (g-5).
Special write-in absentee voter's blank ballots that are mailed to an
election authority and postmarked by the midnight preceding the opening
of the polls on election day, but that are received by the election authority
after the polls close on election day and before the closing of the period for
counting provisional ballots cast at that election, shall be endorsed by the
receiving authority with the day and hour of receipt and shall be counted at
the central ballot counting location of the election authority during the
same periods provided for counting absent voters' ballots under subsection
(c).

(e) Except as otherwise provided in this Section, absent voters'
ballots and special write-in absentee voter's blank ballots received by the
election authority after the closing of the polls on an election day shall be
endorsed by the election authority receiving them with the day and hour of
receipt and shall be safely kept unopened by the election authority for the
period of time required for the preservation of ballots used at the election,
and shall then, without being opened, be destroyed in like manner as the
used ballots of that election.

(f) Counting required under this Section to begin on election day
after the closing of the polls shall commence no later than 8:00 p.m. and
shall be conducted by a panel or panels of election judges appointed in the manner provided by law. The counting shall continue until all absent voters' ballots and special write-in absentee voter's blank ballots required to be counted on election day have been counted.

(g) The procedures set forth in Articles 17 and 18 of this Code shall apply to all ballots counted under this Section. In addition, within 2 days after an absentee ballot, other than an in-person absentee ballot, is received, but in all cases before the close of the period for counting provisional ballots, the election judge or official shall compare the voter's signature on the certification envelope of that absentee ballot with the signature of the voter on file in the office of the election authority. If the election judge or official determines that the signatures match, and that the absentee voter is otherwise qualified to cast an absentee ballot, the election authority shall cast and count the ballot on election day or the day the ballot is determined to be valid, whichever is later, adding the results to the precinct in which the voter is registered. If the election judge or official determines that the signatures do not match, or that the absentee voter is not qualified to cast an absentee ballot, then without opening the certification envelope, the judge or official shall mark across the face of the certification envelope the word "Rejected" and shall not cast or count the ballot.

In addition to the voter's signatures not matching, an absentee ballot may be rejected by the election judge or official:

(1) if the ballot envelope is open or has been opened and resealed;
(2) if the voter has already cast an early or grace period ballot;
(3) if the voter voted in person on election day or the voter is not a duly registered voter in the precinct; or
(4) on any other basis set forth in this Code.

If the election judge or official determines that any of these reasons apply, the judge or official shall mark across the face of the certification envelope the word "Rejected" and shall not cast or count the ballot.

New matter indicated by italics - deletions by strikeout
If an absentee ballot, other than an in-person absentee ballot, is rejected by the election judge or official for any reason, the election authority shall, within 2 days after the rejection but in all cases before the close of the period for counting provisional ballots, notify the absentee voter that his or her ballot was rejected. The notice shall inform the voter of the reason or reasons the ballot was rejected and shall state that the voter may appear before the election authority, on or before the 14th day after the election, to show cause as to why the ballot should not be rejected. The voter may present evidence to the election authority supporting his or her contention that the ballot should be counted. The election authority shall appoint a panel of 3 election judges to review the contested ballot, application, and certification envelope, as well as any evidence submitted by the absentee voter. No more than 2 election judges on the reviewing panel shall be of the same political party. The reviewing panel of election judges shall make a final determination as to the validity of the contested absentee ballot. The judges' determination shall not be reviewable either administratively or judicially.

An absentee ballot subject to this subsection that is determined to be valid shall be counted before the close of the period for counting provisional ballots.

All absentee ballots determined to be valid shall be added to the vote totals for the precincts for which they were cast in the order in which the ballots were opened.

Each political party, candidate, and qualified civic organization shall be entitled to have present one pollwatcher for each panel of election judges therein assigned.

Sec. 19A-10. Permanent polling places for early voting.

(a) An election authority may establish permanent polling places for early voting by personal appearance at locations throughout the election authority's jurisdiction, including but not limited to a municipal clerk's office, a township clerk's office, a road district clerk's office, or a county or local public agency office. Except as otherwise provided in

subsection (b), any person entitled to vote early by personal appearance may do so at any polling place established for early voting.

(b) If it is impractical for the election authority to provide at each polling place for early voting a ballot in every form required in the election authority's jurisdiction, the election authority may:

(1) provide appropriate forms of ballots to the office of the municipal clerk in a municipality not having a board of election commissioners; the township clerk; or in counties not under township organization, the road district clerk; and

(2) limit voting at that polling place to registered voters in that municipality, ward or group of wards, township, or road district.

If the early voting polling place does not have the correct ballot form for a person seeking to vote early, the election judge or election official conducting early voting at that polling place shall inform the person of that fact, give the person the appropriate telephone number of the election authority in order to locate an early voting polling place with the correct ballot form for use in that person's assigned precinct, and instruct the person to go to the proper early voting polling place to vote early.

(c) During each general primary and general election, each election authority in a county with a population over 250,000 shall establish at least one polling place for early voting by personal appearance at a location within each of the 3 largest municipalities within its jurisdiction. If any of the 3 largest municipalities is over 80,000, the election authority shall establish at least 2 polling places within the municipality. All population figures shall be determined by the federal census.

During each general primary and general election, each board of election commissioners established under Article 6 of this Code in any city, village, or incorporated town with a population over 100,000 shall establish at least 2 polling places for early voting by personal appearance. All population figures shall be determined by the federal census.

Sec. 19A-35. Procedure for voting.

(a) Not more than 23 days before the start of the election, the county clerk shall make available to the election official conducting early voting by personal appearance a sufficient number of early ballots, envelopes, and printed voting instruction slips for the use of early voters. The election official shall receipt for all ballots received and shall return unused or spoiled ballots at the close of the early voting period to the county clerk and must strictly account for all ballots received. The ballots delivered to the election official must include early ballots for each precinct in the election authority's jurisdiction and must include separate ballots for each political subdivision conducting an election of officers or a referendum at that election.

(b) In conducting early voting under this Article, the election judge or official is required to verify the signature of the early voter by comparison with the signature on the official registration card, and the judge or official must verify (i) the identity of the applicant, (ii) that the applicant is a registered voter, (iii) the precinct in which the applicant is registered, and (iv) the proper ballots of the political subdivision in which the applicant resides and is entitled to vote before providing an early ballot to the applicant. The applicant's identity must be verified by the applicant's presentation of an Illinois driver's license, a non-driver identification card issued by the Illinois Secretary of State, or another government-issued identification document containing the applicant's photograph. The election judge or official must verify the applicant's registration from the most recent poll list provided by the election authority, and if the applicant is not listed on that poll list, by telephoning the office of the election authority.

(b-5) A person requesting an early voting ballot to whom an absentee ballot was issued may vote early if the person submits that absentee ballot to the judges of election or official conducting early voting for cancellation. If the voter is unable to submit the absentee ballot, it shall be sufficient for the voter to submit to the judges or official (i) a portion of the absentee ballot if the absentee ballot was torn or mutilated or (ii) an
affidavit executed before the judges or official specifying that (A) the voter never received an absentee ballot or (B) the voter completed and returned an absentee ballot and was informed that the election authority did not receive that absentee ballot.

(b-10) Within one day after a voter casts an early voting ballot, the election authority shall transmit the voter's name, street address, and precinct, ward, township, and district numbers, as the case may be, to the State Board of Elections, which shall maintain those names and that information in an electronic format on its website, arranged by county and accessible to State and local political committees.

(b-15) This subsection applies to early voting polling places using optical scan technology voting equipment subject to Article 24B. Immediately after voting an early ballot, the voter shall be instructed whether the voting equipment accepted or rejected the ballot or identified that ballot as under-voted for a statewide constitutional office. A voter whose ballot is identified as under-voted may return to the voting booth and complete the voting of that ballot. A voter whose early voting ballot is not accepted by the voting equipment may, upon surrendering the ballot, request and vote another early voting ballot. The voter's surrendered ballot that was not accepted shall be initialed by the election judge or official conducting the early voting and handled as provided in the appropriate Article governing the voting equipment used 24B.

(c) The sealed early ballots in their carrier envelope shall be delivered by the election authority to the central ballot counting location before the close of the polls on the day of the election.

Sec. 20-8. Time and place of counting ballots.
(a) (Blank.)
(b) Each absent voter's ballot returned to an election authority, by any means authorized by this Article, and received by that election authority before the closing of the polls on election day shall be endorsed by the receiving election authority with the day and hour of receipt and shall be counted in the central ballot counting location of the election
authority on the day of the election after 7:00 p.m., except as provided in subsections (g) and (g-5).

(c) Each absent voter's ballot that is mailed to an election authority and postmarked by the midnight preceding the opening of the polls on election day, but that is received by the election authority after the polls close on election day and before the close of the period for counting provisional ballots cast at that election, shall be endorsed by the receiving authority with the day and hour of receipt and shall be counted at the central ballot counting location of the election authority during the period for counting provisional ballots.

Each absent voter's ballot that is mailed to an election authority absent a postmark, but that is received by the election authority after the polls close on election day and before the close of the period for counting provisional ballots cast at that election, shall be endorsed by the receiving authority with the day and hour of receipt, opened to inspect the date inserted on the certification, and, if the certification date is a date preceding the election day and the ballot is otherwise found to be valid under the requirements of this Section, counted at the central ballot counting location of the election authority during the period for counting provisional ballots. Absent a date on the certification, the ballot shall not be counted.

(d) Special write-in absentee voter's blank ballots returned to an election authority, by any means authorized by this Article, and received by the election authority at any time before the closing of the polls on election day shall be endorsed by the receiving election authority with the day and hour of receipt and shall be counted at the central ballot counting location of the election authority during the same period provided for counting absent voters' ballots under subsections (b), (g), and (g-5). Special write-in absentee voter's blank ballot that are mailed to an election authority and postmarked by midnight preceding the opening of the polls on election day, but that are received by the election authority after the polls close on election day and before the closing of the period for counting provisional ballots cast at that election, shall be endorsed by the receiving authority with the day and hour of receipt and shall be counted at

the central ballot counting location of the election authority during the same periods provided for counting absent voters' ballots under subsection (c).

(e) Except as otherwise provided in this Section, absent voters' ballots and special write-in absentee voter's blank ballots received by the election authority after the closing of the polls on the day of election shall be endorsed by the person receiving the ballots with the day and hour of receipt and shall be safely kept unopened by the election authority for the period of time required for the preservation of ballots used at the election, and shall then, without being opened, be destroyed in like manner as the used ballots of that election.

(f) Counting required under this Section to begin on election day after the closing of the polls shall commence no later than 8:00 p.m. and shall be conducted by a panel or panels of election judges appointed in the manner provided by law. The counting shall continue until all absent voters' ballots and special write-in absentee voter's blank ballots required to be counted on election day have been counted.

(g) The procedures set forth in Articles 17 and 18 of this Code shall apply to all ballots counted under this Section. In addition, within 2 days after a ballot subject to this Article is received, but in all cases before the close of the period for counting provisional ballots, the election judge or official shall compare the voter's signature on the certification envelope of that ballot with the signature of the voter on file in the office of the election authority. If the election judge or official determines that the 2 signatures match, and that the voter is otherwise qualified to cast a ballot under this Article, the election authority shall cast and count the ballot on election day or the day the ballot is determined to be valid, whichever is later, adding the results to the precinct in which the voter is registered. If the election judge or official determines that the signatures do not match, or that the voter is not qualified to cast a ballot under this Article, then without opening the certification envelope, the judge or official shall mark across the face of the certification envelope the word "Rejected" and shall not cast or count the ballot.

In addition to the voter's signatures not matching, a ballot subject to this Article may be rejected by the election judge or official:

(1) if the ballot envelope is open or has been opened and resealed;
(2) if the voter has already cast an early or grace period ballot;
(3) if the voter voted in person on election day or the voter is not a duly registered voter in the precinct; or
(4) on any other basis set forth in this Code.

If the election judge or official determines that any of these reasons apply, the judge or official shall mark across the face of the certification envelope the word "Rejected" and shall not cast or count the ballot.

(g-5) If a ballot subject to this Article is rejected by the election judge or official for any reason, the election authority shall, within 2 days after the rejection but in all cases before the close of the period for counting provisional ballots, notify the voter that his or her ballot was rejected. The notice shall inform the voter of the reason or reasons the ballot was rejected and shall state that the voter may appear before the election authority, on or before the 14th day after the election, to show cause as to why the ballot should not be rejected. The voter may present evidence to the election authority supporting his or her contention that the ballot should be counted. The election authority shall appoint a panel of 3 election judges to review the contested ballot, application, and certification envelope, as well as any evidence submitted by the absentee voter. No more than 2 election judges on the reviewing panel shall be of the same political party. The reviewing panel of election judges shall make a final determination as to the validity of the contested ballot. The judges' determination shall not be reviewable either administratively or judicially.

A ballot subject to this subsection that is determined to be valid shall be counted before the close of the period for counting provisional ballots.

(g-10) All ballots determined to be valid shall be added to the vote totals for the precincts for which they were cast in the order in which the ballots were opened.

Sec. 24-1. The election authority in all jurisdictions when voting machines are used shall, except as otherwise provided in this Code, provide a voting machine or voting machines for any or all of the election precincts or election districts, as the case may be, for which the election authority is by law charged with the duty of conducting an election or elections. A voting machine or machines sufficient in number to provide a machine for each 400 voters or fraction thereof shall be supplied for use at all elections. However, no such voting machine shall be used, purchased, or adopted, and no person or entity may have a written contract, including a contract contingent upon certification of the voting machines, to sell, lease, or loan voting machines to an election authority, until the board of voting machine commissioners hereinafter provided for, or a majority thereof, shall have made and filed a report certifying that they have examined such machine; that it affords each elector an opportunity to vote in absolute secrecy; that it enables each elector to vote a ticket selected in part from the nominees of one party, and in part from the nominees of any or all other parties, and in part of persons not in nomination by any party or upon any independent ticket; that it enables each elector to vote a written or printed ballot of his own selection, for any
person for any office for whom he may desire to vote; that it enables each
elector to vote for all candidates for whom he is entitled to vote, and
prevents him from voting for any candidate for any office more than once,
unless he is lawfully entitled to cast more than one vote for one candidate,
and in that event permits him to cast only as many votes for that candidate
as he is by law entitled, and no more; that it prevents the elector from
voting for more than one person for the same office, unless he is lawfully
entitled to vote for more than one person therefor, and in that event
permits him to vote for as many persons for that office as he is by law
entitled, and no more; that it identifies when an elector has not voted for
all statewide constitutional offices; and that such machine will register
correctly by means of exact counters every vote cast for the regular tickets
thereon; and has the capacity to contain the tickets of at least 5 political
parties with the names of all the candidates thereon, together with all
propositions in the form provided by law, where such form is prescribed,
and where no such provision is made for the form thereof, then in brief
form, not to exceed 75 words; that all votes cast on the machine on a
regular ballot or ballots shall be registered; that voters may, by means of
irregular ballots or otherwise vote for any person for any office, although
such person may not have been nominated by any party and his name may
not appear on such machine; that when a vote is cast for any person for
any such office, when his name does not appear on the machine, the
elector cannot vote for any other name on the machine for the same office;
that each elector can, understandingly and within the period of 4 minutes
cast his vote for all candidates of his choice; that the machine is so
constructed that the candidates for presidential electors of any party can be
voted for only by voting for the ballot label containing a bracket within
which are the names of the candidates for President and Vice-President of
the party or group; that the machine is provided with a lock or locks by the
use of which any movement of the voting or registering mechanism is
absolutely prevented so that it cannot be tampered with or manipulated for
any purpose; that the machine is susceptible of being closed during the
progress of the voting so that no person can see or know the number of
votes registered for any candidate; that each elector is permitted to vote for

Sec. 24A-6. The ballot information, whether placed on the ballot or on the marking device, shall, as far as practicable, be in the order of arrangement provided for paper ballots, except that such information may be in vertical or horizontal rows, or in a number of separate pages. Ballots for all questions or propositions to be voted on must be provided in the same manner and must be arranged on or in the marking device or on the ballot sheet in the places provided for such purposes.

When an electronic voting system utilizes a ballot label booklet and ballot card, ballots for candidates, ballots calling for a constitutional convention, constitutional amendment ballots, judicial retention ballots, public measures, and all propositions to be voted upon may be placed on the electronic voting device by providing in the ballot booklet separate ballot label pages or series of pages distinguished by differing colors as provided below. When an electronic voting system utilizes a ballot sheet, ballots calling for a constitutional convention, constitutional amendment ballots and judicial retention ballots shall be placed on the ballot sheet by providing a separate portion of the ballot sheet for each such kind of ballot which shall be printed in ink of a color distinct from the color of ink used in printing any other portion of the ballot sheet. Ballots for candidates, public measures and all other propositions to be voted upon shall be placed on the ballot sheet by providing a separate portion of the ballot sheet for each such kind of ballot. declaration of intent to be a write-in candidate as required in Sections 17-16.1 and 18-9.1. Below the name of the last candidate listed for an office shall be printed a line on which the name of a candidate may be written by the voter shall be printed below the name of the last candidate nominated for such office, and immediately to the left of such line an area shall be provided for marking a vote for such write-in candidate. The number of write-in lines for an office shall equal the number of persons who have filed declarations of intent to be write-in candidates plus an additional line or lines for write-in candidates who qualify to file declarations to be write-in candidates under Sections 17-16.1 and 18-9.1 when the certification of ballot contains the words "OBJECTION PENDING" next to the name of the candidate, up to the number of candidates for which a voter may vote. More than one amendment to the constitution may be placed on the same ballot page or series of pages or on the same portion of the ballot sheet, as the case may be. Ballot label pages for constitutional conventions or constitutional amendments shall be on paper of blue color and shall precede all other ballot label pages in the ballot label booklet. More than one public measure or proposition may be placed on the same ballot label page or series of pages or on the same portion of the ballot sheet, as the case may be. More than one proposition for retention of judges in office may be placed on the same ballot label page or series of pages or on the same portion of the ballot sheet, as the case may be. Ballot label pages for candidates shall be on paper of white color, except that in primary elections the ballot label page or pages for the candidates of each respective political party shall be of the color designated by the election official in charge of the election for that political party's candidates; provided that the ballot label pages or pages for candidates for use at the nonpartisan and consolidated elections may be on paper of different colors, except blue, whenever necessary or desirable to facilitate distinguishing between the pages for different political subdivisions. On each page of the candidate booklet, where the election is made to list ballot information vertically, the party affiliation of each candidate or the word "independent" shall appear immediately to the left of the candidate's name, and the name of candidates for the same office shall be listed vertically under the title of

that office. In the case of nonpartisan elections for officers of political subdivisions, unless the statute or an ordinance adopted pursuant to Article VII of the Constitution requires otherwise, the listing of such nonpartisan candidates shall not include any party or "independent" designation. Ballot label pages for judicial retention ballots shall be on paper of green color, and ballot label pages for all public measures and other propositions shall be on paper of some other distinct and different color. In primary elections, a separate ballot label booklet, marking device and voting booth shall be used for each political party holding a primary, with the ballot label booklet arranged to include ballot label pages of the candidates of the party and public measures and other propositions to be voted upon on the day of the primary election. One ballot card may be used for recording the voter's vote or choice on all such ballots, proposals, public measures or propositions, and such ballot card shall be arranged so as to record the voter's vote or choice in a separate column or columns for each such kind of ballot, proposal, public measure or proposition.

If the ballot label booklet includes both candidates for office and public measures or propositions to be voted on, the election official in charge of the election shall divide the pages by protruding tabs identifying the division of the pages, and printing on such tabs "Candidates" and "Propositions".

The ballot card and all of its columns and the ballot card envelope shall be of the color prescribed for candidate's ballots at the general or primary election, whichever is being held. At an election where no candidates are being nominated or elected, the ballot card, its columns, and the ballot card envelope shall be of a color designated by the election official in charge of the election.

The ballot cards, ballot card envelopes and ballot sheets may, at the discretion of the election authority, be printed on white paper and then striped with the appropriate colors.

When ballot sheets are used, the various portions thereof shall be arranged to conform to the foregoing format.

Absentee ballots may consist of ballot cards, envelopes, paper ballots or ballot sheets voted in person in the office of the election official.
in charge of the election or voted by mail. Where a ballot card is used for voting by mail it must be accompanied by a punching tool or other appropriate marking device, voter instructions and a specimen ballot showing the proper positions to vote on the ballot card or ballot sheet for each party, candidate, proposal, public measure or proposition, and in the case of a ballot card must be mounted on a suitable material to receive the punched out chip.

Any voter who spoils his ballot or makes an error may return the ballot to the judges of election and secure another. However, the protruding identifying tab for proposals for a constitutional convention or constitutional amendments shall have printed thereon "Constitutional Ballot", and the ballot label page or pages for such proposals shall precede the ballot label pages for candidates in the ballot label booklet.

(10 ILCS 5/24A-10.1) (from Ch. 46, par. 24A-10.1)

Sec. 24A-10.1. In an election jurisdiction where in-precinct counting equipment is utilized, the following procedures for counting and tallying the ballots shall apply:

Immediately after the closing of the polls, the precinct judges of election shall open the ballot box and count the number of ballots therein to determine if such number agrees with the number of voters voting as shown by the applications for ballot or, if the same do not agree, the judges of election shall make such ballots agree with the applications for ballot in the manner provided by Section 17-18 of this Act. The judges of election shall then examine all ballot cards and ballot card envelopes which are in the ballot box to determine whether the ballot cards and ballot card envelopes contain the initials of a precinct judge of election. If any ballot card or ballot card envelope is not initialed, it shall be marked on the back "Defective", initialed as to such label by all judges immediately under the word "Defective" and not counted. The judges of election shall place an initialed blank official ballot card in the place of the defective ballot card, so that the count of the ballot cards to be counted on the automatic tabulating equipment will be the same, and each "Defective Ballot" card and "Replacement" card shall contain the same serial number.
which shall be placed thereon by the judges of election, commencing with number 1 and continuing consecutively for the ballots of that kind in that precinct. The original "Defective" card shall be placed in the "Defective Ballot Envelope" provided for that purpose.

When an electronic voting system is used which utilizes a ballot card, before separating the remaining ballot cards from their respective covering envelopes, the judges of election shall examine the ballot card envelopes for write-in votes. When the voter has cast a write-in vote, the judges of election shall compare the write-in vote with the votes on the ballot card to determine whether such write-in results in an overvote for any office. In case of an overvote for any office, the judges of election, consisting in each case of at least one judge of election of each of the 2 major political parties, shall make a true duplicate ballot of all votes on such ballot card except for the office which is overvoted, by using the ballot label booklet of the precinct and one of the marking devices of the precinct so as to transfer all votes of the voter, except for the office overvoted, to a duplicate card. The original ballot card and envelope upon which there is an overvote shall be clearly labeled "Overvoted Ballot", and each such "Overvoted Ballot" as well as its "Replacement" shall contain the same serial number which shall be placed thereon by the judges of election, commencing with number 1 and continuing consecutively for the ballots of that kind in that precinct. The "Overvoted Ballot" card and ballot envelope shall be placed in an envelope provided for that purpose labeled "Duplicate Ballot" envelope, and the judges of election shall initial the "Replacement" ballot cards and shall place them with the other ballot cards to be counted on the automatic tabulating equipment. Envelopes containing write-in votes marked in the place designated therefor and containing the initials of a precinct judge of election and not resulting in an overvote and otherwise complying with the election laws as to marking shall be counted and tallied and their votes recorded on a tally sheet provided by the election authority.

The ballot cards and ballot card envelopes shall be separated in preparation for counting by the automatic tabulating equipment provided for that purpose by the election authority.

New matter indicated by italics - deletions by strikeout
Before the ballots are entered into the automatic tabulating equipment, a precinct identification card provided by the election authority shall be entered into the device to ensure that the totals are all zeroes in the count column on the printing unit. A precinct judge of election shall then count the ballots by entering each ballot card into the automatic tabulating equipment, and if any ballot or ballot card is damaged or defective so that it cannot properly be counted by the automatic tabulating equipment, the judges of election, consisting in each case of at least one judge of election of each of the 2 major political parties, shall make a true duplicate ballot of all votes on such ballot card by using the ballot label booklet of the precinct and one of the marking devices of the precinct. The original ballot or ballot card and envelope shall be clearly labeled "Damaged Ballot" and the ballot or ballot card so produced shall be clearly labeled "Duplicate Damaged Ballot", and each shall contain the same serial number which shall be placed thereon by the judges of election, commencing with number 1 and continuing consecutively for the ballots of that kind in the precinct. The judges of election shall initial the "Duplicate Damaged Ballot" ballot or ballot cards and shall enter the duplicate damaged cards into the automatic tabulating equipment. The "Damaged Ballot" cards shall be placed in the "Duplicated Ballots" envelope; after all ballot cards have been successfully read, the judges of election shall check to make certain that the last number printed by the printing unit is the same as the number of voters making application for ballot in that precinct. The number shall be listed on the "Statement of Ballots" form provided by the election authority.

The totals for all candidates and propositions shall be tabulated. One copy of an "In-Precinct Totals Report" shall be generated by the automatic tabulating equipment for return to the election authority. One copy of an "In-Precinct Totals Report" shall be generated and posted in a conspicuous place inside the polling place, provided that any authorized pollwatcher or other official authorized to be present in the polling place to observe the counting of ballots is present.

The totals for all candidates and propositions shall be tabulated; 4 sets shall be attached to the 4 sets of "Certificate of Results" provided by

the election authority; one set shall be posted in a conspicuous place inside
the polling place, and every effort shall be made by the judges of election
shall to provide, if requested, a set for each authorized pollwatcher or
other official authorized to be present in the polling place to observe the
counting of ballots; but in no case shall the number of sets to be made
available to pollwatchers be fewer than 4, chosen by lot by the judges of
election. In addition, sufficient time shall be provided by the judges of
election to the pollwatchers to allow them to copy information from the
copy set which has been posted.

The judges of election shall count all unused ballot cards and enter
the number on the "Statement of Ballots". All "Spoiled", "Defective" and
"Duplicated" ballot cards shall be counted and the number entered on the
"Statement of Ballots".

The precinct judges of election shall select a bi-partisan team of 2
judges, who shall immediately return the ballots in a sealed container,
along with all other election materials as instructed by the election
authority; provided, however, that such container must first be sealed by
the election judges with filament tape provided for such purpose which
shall be wrapped around the container lengthwise and crosswise, at least
twice each way, in such manner that the ballots cannot be removed from
such container without breaking the seal and filament tape and disturbing
any signatures affixed by the election judges to the container. The election
authority shall keep the office of the election authority, or any receiving
stations designated by such authority, open for at least 12 consecutive
hours after the polls close or until the ballots from all precincts with in-
precinct counting equipment within the jurisdiction of the election
authority have been returned to the election authority. Ballots returned to
the office of the election authority which are not signed and sealed as
required by law shall not be accepted by the election authority until the
judges returning the same make and sign the necessary corrections. Upon
acceptance of the ballots by the election authority, the judges returning the
same shall take a receipt signed by the election authority and stamped with
the time and date of such return. The election judges whose duty it is to

Sec. 24A-15. The precinct return printed by the automatic tabulating equipment shall include the number of ballots cast and votes cast for each candidate and proposition and shall constitute the official return of each precinct. In addition to the precinct return, the election authority shall provide the number of applications for ballots in each precinct, the write-in votes, the total number of ballots counted in each precinct for each political subdivision and district and the number of registered voters in each precinct. However, the election authority shall check the totals shown by the precinct return and, if there is an obvious discrepancy with respect to the total number of votes cast in any precinct, shall have the ballots for such precinct retabulated to correct the return. The procedures for retabulation shall apply prior to and after the proclamation is completed; however, after the proclamation of results, the election authority must obtain a court order to unseal voted ballots except for election contests and discovery recounts. In those election jurisdictions that utilize in-precinct counting equipment, the certificate of results, which has been prepared by the judges of election in the polling place after the ballots have been tabulated, shall be the document used for the canvass of votes for such precinct. Whenever a discrepancy exists during the canvass of votes between the unofficial results and the certificate of results, or whenever a discrepancy exists during the canvass of votes between the certificate of results and the set of totals which has been affixed to such certificate of results, the ballots for such precinct shall be retabulated to correct the return. As an additional part of this check prior to the proclamation, in those jurisdictions where in-precinct counting equipment is utilized, the election authority shall retabulate the total number of votes cast in 5% of the precincts within the election jurisdiction. The precincts to be retabulated shall be selected after election day on a random basis by the State Board of Elections, so that every precinct in the election jurisdiction has an equal mathematical chance of being selected. The State Board of

Elections shall design a standard and scientific random method of selecting the precincts which are to be retabulated. The State central committee chairman of each established political party shall be given prior written notice of the time and place of such random selection procedure and may be represented at such procedure. Such retabulation shall consist of counting the ballot cards which were originally counted and shall not involve any determination as to which ballot cards were, in fact, properly counted. The ballots from the precincts selected for such retabulation shall remain at all times under the custody and control of the election authority and shall be transported and retabulated by the designated staff of the election authority.

As part of such retabulation, the election authority shall test the computer program in the selected precincts. Such test shall be conducted by processing a preaudited group of ballots so punched so as to record a predetermined number of valid votes for each candidate and on each public question, and shall include for each office one or more ballots which have votes in excess of the number allowed by law in order to test the ability of the equipment to reject such votes. If any error is detected, the cause therefor shall be ascertained and corrected and an errorless count shall be made prior to the official canvass and proclamation of election results.

The State Board of Elections, the State's Attorney and other appropriate law enforcement agencies, the county chairman of each established political party and qualified civic organizations shall be given prior written notice of the time and place of such retabulation and may be represented at such retabulation.

The results of this retabulation shall be treated in the same manner and have the same effect as the results of the discovery procedures set forth in Section 22-9.1 of this Act. Upon completion of the retabulation, the election authority shall print a comparison of the results of the retabulation with the original precinct return printed by the automatic tabulating equipment. Such comparison shall be done for each precinct and for each office voted upon within that precinct, and the comparisons shall be open to the public.

Sec. 24A-16. The State Board of Elections shall approve all voting systems provided by this Article.

No voting system shall be approved unless it fulfills the following requirements:

1. It enables a voter to vote in absolute secrecy;
2. It enables a voter to vote a ticket selected in part from the nominees of one party, and in part from the nominees of any or all parties, and in part from independent candidates and in part of candidates whose names are written in by the voter;
3. It enables a voter to vote a written or printed ticket of his own selection for any person for any office for whom he may desire to vote;
4. It will reject all votes for an office or upon a proposition when the voter has cast more votes for such office or upon such proposition than he is entitled to cast;
5. It will identify when a voter has not voted for all statewide constitutional offices;
6. It will accommodate all propositions to be submitted to the voters in the form provided by law or, where no such form is provided, then in brief form, not to exceed 75 words.

The State Board of Elections shall not approve any voting equipment or system that includes an external Infrared Data Association (IrDA) communications port.

The State Board of Elections is authorized to withdraw its approval of a voting system if the system fails to fulfill the above requirements.

The vendor, person, or other private entity shall be solely responsible for the production and cost of: all application fees; all ballots; additional temporary workers; and other equipment or facilities needed and used in the testing of the vendor's, person's, or other private entity's respective equipment and software.
Any voting system vendor, person, or other private entity seeking the State Board of Elections’ approval of a voting system shall, as part of the approval application, submit to the State Board a non-refundable fee. The State Board of Elections by rule shall establish an appropriate fee structure, taking into account the type of voting system approval that is requested (such as approval of a new system, a modification of an existing system, the size of the modification, etc.). No voting system or modification of a voting system shall be approved unless the fee is paid.

No vendor, person, or other entity may sell, lease, or loan, or have a written contract, including a contract contingent upon State Board approval of the voting system or voting system component, to sell, lease, or loan, a voting system or voting system component to any election jurisdiction unless the voting system or voting system component is first approved by the State Board of Elections pursuant to this Section.

Sec. 24B-6. Ballot Information; Arrangement; Electronic Precinct Tabulation Optical Scan Technology Voting System; Absentee Ballots; Spoiled Ballots. The ballot information, shall, as far as practicable, be in the order of arrangement provided for paper ballots, except that the information may be in vertical or horizontal rows, or on a number of separate pages or displays on the marking device. Ballots for all questions or propositions to be voted on should be provided in a similar manner and must be arranged on the ballot sheet or marking device in the places provided for such purposes. Ballots shall be of white paper unless provided otherwise by administrative rule of the State Board of Elections or otherwise specified.

All propositions, including but not limited to propositions calling for a constitutional convention, constitutional amendment, judicial retention, and public measures to be voted upon shall be placed on separate portions of the ballot sheet or marking device by utilizing borders or grey screens. Candidates shall be listed on a separate portion of the ballot sheet or marking device by utilizing borders or grey screens. Whenever a person has submitted a declaration of intent to be a write-in

candidate as required in Sections 17-16.1 and 18-9.1. Below the name of the last candidate listed for an office shall be printed or displayed a line or lines on which the voter may select a write-in candidate shall be printed below the name of the last candidate nominated for such office. Such line or lines shall be proximate to an area provided for marking votes for the write-in candidate or candidates. The number of write-in lines for an office shall equal the number of persons who have filed declarations of intent to be write-in candidates plus an additional line or lines for write-in candidates who qualify to file declarations to be write-in candidates under Sections 17-16.1 and 18-9.1 when the certification of ballot contains the words "OBJECTION PENDING" next to the name of that candidate, up to the number of candidates for which a voter may vote. More than one amendment to the constitution may be placed on the same portion of the ballot sheet or marking device. Constitutional convention or constitutional amendment propositions shall be printed or displayed on a separate portion of the ballot sheet or marking device and designated by borders or grey screens, unless otherwise provided by administrative rule of the State Board of Elections. More than one public measure or proposition may be placed on the same portion of the ballot sheet or marking device. More than one proposition for retention of judges in office may be placed on the same portion of the ballot sheet or marking device. Names of candidates shall be printed in black. The party affiliation of each candidate or the word "independent" shall appear near or under the candidate's name, and the names of candidates for the same office shall be listed vertically under the title of that office, on separate pages of the marking device, or as otherwise approved by the State Board of Elections. In the case of nonpartisan elections for officers of political subdivisions, unless the statute or an ordinance adopted pursuant to Article VII of the Constitution requires otherwise, the listing of nonpartisan candidates shall not include any party or "independent" designation. Judicial retention questions and ballot questions for all public measures and other propositions shall be designated by borders or grey screens on the ballot or marking device. In primary elections, a separate ballot, or displays on the marking device, shall be used for each political party holding a primary, with the ballot or
marking device arranged to include names of the candidates of the party and public measures and other propositions to be voted upon on the day of the primary election.

If the ballot includes both candidates for office and public measures or propositions to be voted on, the election official in charge of the election shall divide the ballot or displays on the marking device in sections for "Candidates" and "Propositions", or separate ballots may be used.

Absentee ballots may consist of envelopes, paper ballots or ballot sheets voted in person in the office of the election official in charge of the election or voted by mail. Where a Precinct Tabulation Optical Scan Technology ballot is used for voting by mail it must be accompanied by voter instructions.

Any voter who spoils his or her ballot, makes an error, or has a ballot returned by the automatic tabulating equipment may return the ballot to the judges of election and get another ballot.

Sec. 24B-10.1. In-Precinct Counting Equipment; Procedures for Counting and Tallying Ballots. In an election jurisdiction where Precinct Tabulation Optical Scan Technology counting equipment is used, the following procedures for counting and tallying the ballots shall apply:

Before the opening of the polls, and before the ballots are entered into the automatic tabulating equipment, the judges of election shall be sure that the totals are all zeros in the counting column. Ballots may then be counted by entering or scanning each ballot into the automatic tabulating equipment. Throughout the election day and before the closing of the polls, no person may check any vote totals for any candidate or proposition on the automatic tabulating equipment. Such automatic tabulating equipment shall be programmed so that no person may reset the equipment for refeeding of ballots unless provided a code from an authorized representative of the election authority. At the option of the election authority, the ballots may be fed into the Precinct Tabulation

New matter indicated by italics - deletions by strikeout
Optical Scan Technology equipment by the voters under the direct supervision of the judges of elections.

Immediately after the closing of the polls, the precinct judges of election shall open the ballot box and count the number of ballots to determine if the number agrees with the number of voters voting as shown on the Precinct Tabulation Optical Scan Technology equipment and by the applications for ballot or, if the same do not agree, the judges of election shall make the ballots agree with the applications for ballot in the manner provided by Section 17-18 of this Code. The judges of election shall then examine all ballots which are in the ballot box to determine whether the ballots contain the initials of a precinct judge of election. If any ballot is not initialed, it shall be marked on the back "Defective", initialed as to such label by all judges immediately under the word "Defective" and not counted. The judges of election shall place an initialed blank official ballot in the place of the defective ballot, so that the count of the ballots to be counted on the automatic tabulating equipment will be the same, and each "Defective Ballot" and "Replacement" ballot shall contain the same serial number which shall be placed thereon by the judges of election, beginning with number 1 and continuing consecutively for the ballots of that kind in that precinct. The original "Defective" ballot shall be placed in the "Defective Ballot Envelope" provided for that purpose.

If the judges of election have removed a ballot pursuant to Section 17-18, have labeled "Defective" a ballot which is not initialed, or have otherwise determined under this Code to not count a ballot originally deposited into a ballot box, the judges of election shall be sure that the totals on the automatic tabulating equipment are reset to all zeros in the counting column. Thereafter the judges of election shall enter or otherwise scan each ballot to be counted in the automatic tabulating equipment. Resetting the automatic tabulating equipment to all zeros and re-entering of ballots to be counted may occur at the precinct polling place, the office of the election authority, or any receiving station designated by the election authority. The election authority shall designate the place for resetting and re-entering or re-scanning.

New matter indicated by italics - deletions by strikeout
When a Precinct Tabulation Optical Scan Technology electronic voting system is used which uses a paper ballot, the judges of election shall examine the ballot for write-in votes. When the voter has cast a write-in vote, the judges of election shall compare the write-in vote with the votes on the ballot to determine whether the write-in results in an overvote for any office, unless the Precinct Tabulation Optical Scan Technology equipment has already done so. In case of an overvote for any office, the judges of election, consisting in each case of at least one judge of election of each of the 2 major political parties, shall make a true duplicate ballot of all votes on such ballot except for the office which is overvoted, by using the ballot of the precinct and one of the marking devices, or equivalent ballot, of the precinct so as to transfer all votes of the voter, except for the office overvoted, to a duplicate ballot. The original ballot upon which there is an overvote shall be clearly labeled "Overvoted Ballot", and each such "Overvoted Ballot" as well as its "Replacement" shall contain the same serial number which shall be placed thereon by the judges of election, beginning with number 1 and continuing consecutively for the ballots of that kind in that precinct. The "Overvoted Ballot" shall be placed in an envelope provided for that purpose labeled "Duplicate Ballot" envelope, and the judges of election shall initial the "Replacement" ballots and shall place them with the other ballots to be counted on the automatic tabulating equipment.

If any ballot is damaged or defective, or if any ballot contains a Voting Defect, so that it cannot properly be counted by the automatic tabulating equipment, the voter or the judges of election, consisting in each case of at least one judge of election of each of the 2 major political parties, shall make a true duplicate ballot of all votes on such ballot by using the ballot of the precinct and one of the marking devices of the precinct, or equivalent. If a damaged ballot, the original ballot shall be clearly labeled "Damaged Ballot" and the ballot so produced shall be clearly labeled "Damaged Ballot" and the ballot so produced shall be clearly labeled "Duplicate Damaged Ballot", and each shall contain the same serial number which shall be placed by the judges of election, beginning with number 1 and continuing consecutively for the ballots of

New matter indicated by italics - deletions by strikeout
that kind in the precinct. The judges of election shall initial the "Duplicate Damaged Ballot" ballot and shall enter or otherwise scan the duplicate damaged ballot into the automatic tabulating equipment. The "Damaged Ballots" shall be placed in the "Duplicated Ballots" envelope; after all ballots have been successfully read, the judges of election shall check to make certain that the Precinct Tabulation Optical Scan Technology equipment readout agrees with the number of voters making application for ballot in that precinct. The number shall be listed on the "Statement of Ballots" form provided by the election authority.

The totals for all candidates and propositions shall be tabulated. One copy of an "In-Precinct Totals Report" shall be generated by the automatic tabulating equipment for return to the election authority. One copy of an "In-Precinct Totals Report" shall be generated and posted in a conspicuous place inside the polling place, provided that any authorized pollwatcher or other official authorized to be present in the polling place to observe the counting of ballots is present. The totals for all candidates and propositions shall be tabulated; and 4 copies of a "Certificate of Results" shall be generated by the automatic tabulating equipment; one copy shall be posted in a conspicuous place inside the polling place; and every effort shall be made by the judges of election shall to provide, if requested, a copy for each authorized pollwatcher or other official authorized to be present in the polling place to observe the counting of ballots; but in no case shall the number of copies to be made available to pollwatchers be fewer than 4, chosen by lot by the judges of election. In addition, sufficient time shall be provided by the judges of election to the pollwatchers to allow them to copy information from the copy which has been posted.

The judges of election shall count all unused ballots and enter the number on the "Statement of Ballots". All "Spoiled", "Defective" and "Duplicated" ballots shall be counted and the number entered on the "Statement of Ballots".

The precinct judges of election shall select a bi-partisan team of 2 judges, who shall immediately return the ballots in a sealed container, along with all other election materials as instructed by the election

authority; provided, however, that such container must first be sealed by
the election judges with filament tape or other approved sealing devices
provided for the purpose which shall be wrapped around the container
lengthwise and crosswise, at least twice each way, in a manner that the
ballots cannot be removed from the container without breaking the seal
and filament tape and disturbing any signatures affixed by the election
judges to the container, or which other approved sealing devices are
affixed in a manner approved by the election authority. The election
authority shall keep the office of the election authority or any receiving
stations designated by the authority, open for at least 12 consecutive hours
after the polls close or until the ballots from all precincts with in-precinct
counting equipment within the jurisdiction of the election authority have
been returned to the election authority. Ballots returned to the office of the
election authority which are not signed and sealed as required by law shall
not be accepted by the election authority until the judges returning the
ballots make and sign the necessary corrections. Upon acceptance of the
ballots by the election authority, the judges returning the ballots shall take
a receipt signed by the election authority and stamped with the time and
date of the return. The election judges whose duty it is to return any ballots
as provided shall, in the event the ballots cannot be found when needed, on
proper request, produce the receipt which they are to take as above
provided. The precinct judges of election shall also deliver the Precinct
Tabulation Optical Scan Technology equipment to the election authority.

Retabulation. The precinct return printed by the automatic Precinct

the number of ballots cast and votes cast for each candidate and

addition to the precinct return, the election authority shall provide the
number of applications for ballots in each precinct, the write-in votes, the

subdivision and district and the number of registered voters in each precinct. However, the election authority shall check the totals shown by the precinct return and, if there is an obvious discrepancy regarding the total number of votes cast in any precinct, shall have the ballots for that precinct retabulated to correct the return. The procedures for retabulation shall apply prior to and after the proclamation is completed; however, after the proclamation of results, the election authority must obtain a court order to unseal voted ballots except for election contests and discovery recounts. In those election jurisdictions that use in-precinct counting equipment, the certificate of results, which has been prepared by the judges of election in the polling place after the ballots have been tabulated, shall be the document used for the canvass of votes for such precinct. Whenever a discrepancy exists during the canvass of votes between the unofficial results and the certificate of results, or whenever a discrepancy exists during the canvass of votes between the certificate of results and the set of totals which has been affixed to the certificate of results, the ballots for that precinct shall be retabulated to correct the return. As an additional part of this check prior to the proclamation, in those jurisdictions where in-precinct counting equipment is used, the election authority shall retabulate the total number of votes cast in 5% of the precincts within the election jurisdiction. The precincts to be retabulated shall be selected after election day on a random basis by the State Board of Elections, so that every precinct in the election jurisdiction has an equal mathematical chance of being selected. The State Board of Elections shall design a standard and scientific random method of selecting the precincts which are to be retabulated. The State central committee chairman of each established political party shall be given prior written notice of the time and place of the random selection procedure and may be represented at the procedure. The retabulation shall consist of counting the ballots which were originally counted and shall not involve any determination of which ballots were, in fact, properly counted. The ballots from the precincts selected for the retabulation shall remain at all times under the custody and control of the election authority and shall be transported and retabulated by the designated staff of the election authority.
As part of the retabulation, the election authority shall test the computer program in the selected precincts. The test shall be conducted by processing a preaudited group of ballots marked to record a predetermined number of valid votes for each candidate and on each public question, and shall include for each office one or more ballots which have votes in excess of the number allowed by law to test the ability of the equipment and the marking device to reject such votes. If any error is detected, the cause shall be determined and corrected, and an errorless count shall be made prior to the official canvass and proclamation of election results.

The State Board of Elections, the State's Attorney and other appropriate law enforcement agencies, the county chairman of each established political party and qualified civic organizations shall be given prior written notice of the time and place of the retabulation and may be represented at the retabulation.

The results of this retabulation shall be treated in the same manner and have the same effect as the results of the discovery procedures set forth in Section 22-9.1 of this Code. Upon completion of the retabulation, the election authority shall print a comparison of the results of the retabulation with the original precinct return printed by the automatic tabulating equipment. The comparison shall be done for each precinct and for each office voted upon within that precinct, and the comparisons shall be open to the public. Upon completion of the retabulation, the returns shall be open to the public.

Sec. 24B-16. Approval of Precinct Tabulation Optical Scan Technology Voting Systems; Requisites. The State Board of Elections shall approve all Precinct Tabulation Optical Scan Technology voting systems provided by this Article.

No Precinct Tabulation Optical Scan Technology voting system shall be approved unless it fulfills the following requirements:

(b) (Blank);

New matter indicated by italics - deletions by strikeout
(c) It enables a voter to vote a ticket selected in part from the nominees of one party, and in part from the nominees of any or all parties, and in part from independent candidates, and in part of candidates whose names are written in by the voter;

(d) It enables a voter to vote a written or printed ticket of his or her own selection for any person for any office for whom he or she may desire to vote;

(e) It will reject all votes for an office or upon a proposition when the voter has cast more votes for the office or upon the proposition than he or she is entitled to cast; and

(e-5) It will identify when a voter has not voted for all statewide constitutional offices; and

(f) It will accommodate all propositions to be submitted to the voters in the form provided by law or, where no form is provided, then in brief form, not to exceed 75 words.

The State Board of Elections shall not approve any voting equipment or system that includes an external Infrared Data Association (IrDA) communications port.

The State Board of Elections is authorized to withdraw its approval of a Precinct Tabulation Optical Scan Technology voting system if the system fails to fulfill the above requirements.

The vendor, person, or other private entity shall be solely responsible for the production and cost of: all application fees; all ballots; additional temporary workers; and other equipment or facilities needed and used in the testing of the vendor's, person's, or other private entity's respective equipment and software.

Any voting system vendor, person, or other private entity seeking the State Board of Elections' approval of a voting system shall, as part of the approval application, submit to the State Board a non-refundable fee. The State Board of Elections by rule shall establish an appropriate fee structure, taking into account the type of voting system approval that is requested (such as approval of a new system, a modification of an existing system, the size of the modification, etc.). No voting system or modification of a voting system shall be approved unless the fee is paid.

(10 ILCS 5/24C-11)

Sec. 24C-11. Functional requirements.

A Direct Recording Electronic Voting System shall, in addition to satisfying the other requirements of this Article, fulfill the following functional requirements:

(a) Provide a voter in a primary election with the means of casting a ballot containing votes for any and all candidates of the party or parties of his or her choice, and for any and all non-partisan candidates and public questions and preclude the voter from voting for any candidate of any other political party except when legally permitted. In a general election, the system shall provide the voter with means of selecting the appropriate number of candidates for any office, and of voting on any public question on the ballot to which he or she is entitled to vote.

(b) If a voter is not entitled to vote for particular candidates or public questions appearing on the ballot, the system shall prevent the selection of the prohibited votes.

(c) Once the proper ballot has been selected, the system devices shall provide a means of enabling the recording of votes and the casting of said ballot.

New matter indicated by italics - deletions by strikeout
(d) System voting devices shall provide voting choices that are clear to the voter and labels indicating the names of every candidate and the text of every public question on the voter's ballot. Each label shall identify the selection button or switch, or the active area of the ballot associated with it. The system shall be able to incorporate minimal, easy-to-follow on-screen instruction for the voter on how to cast a ballot.

(e) Voting devices shall (i) enable the voter to vote for any and all candidates and public questions appearing on the ballot for which the voter is lawfully entitled to vote, in any legal number and combination; (ii) detect and reject all votes for an office or upon a public question when the voter has cast more votes for the office or upon the public question than the voter is entitled to cast; (iii) notify the voter if the voter's choices as recorded on the ballot for an office or public question are fewer than or exceed the number that the voter is entitled to vote for on that office or public question and the effect of casting more or fewer votes than legally permitted; (iv) notify the voter if the voter has failed to completely cast a vote for an office or public question appearing on the ballot; and (v) permit the voter, in a private and independent manner, to verify the votes selected by the voter, to change the ballot or to correct any error on the ballot before the ballot is completely cast and counted. A means shall be provided to indicate each selection after it has been made or canceled.

(f) System voting devices shall provide a means for the voter to signify that the selection of candidates and public questions has been completed. Upon activation, the system shall record an image of the completed ballot, increment the proper ballot position registers, and shall signify to the voter that the ballot has been cast. The system shall then prevent any further attempt to vote until it has been reset or re-enabled by a judge of election.

(g) Each system voting device shall be equipped with a public counter that can be set to zero prior to the opening of the polling place, and that records the number of ballots cast at a particular election. The counter shall be incremented only by the casting of a ballot. The counter shall be designed to prevent disabling or resetting by other than authorized persons.
after the polls close. The counter shall be visible to all judges of election so long as the device is installed at the polling place.

(h) Each system voting device shall be equipped with a protective counter that records all of the testing and election ballots cast since the unit was built. This counter shall be designed so that its reading cannot be changed by any cause other than the casting of a ballot. The protective counter shall be incapable of ever being reset and it shall be visible at all times when the device is configured for testing, maintenance, or election use.

(i) All system devices shall provide a means of preventing further voting once the polling place has closed and after all eligible voters have voted. Such means of control shall incorporate a visible indication of system status. Each device shall prevent any unauthorized use, prevent tampering with ballot labels and preclude its re-opening once the poll closing has been completed for that election.

(j) The system shall produce a printed summary report of the votes cast upon each voting device. Until the proper sequence of events associated with closing the polling place has been completed, the system shall not allow the printing of a report or the extraction of data. The printed report shall also contain all system audit information to be required by the election authority. Data shall not be altered or otherwise destroyed by report generation and the system shall ensure the integrity and security of data for a period of at least 6 months after the polls close.

(k) If more than one voting device is used in a polling place, the system shall provide a means to manually or electronically consolidate the data from all such units into a single report even if different voting systems are used to record absentee ballots. The system shall also be capable of merging the vote tabulation results produced by other vote tabulation systems, if necessary.

(l) System functions shall be implemented such that unauthorized access to them is prevented and the execution of authorized functions in an improper sequence is precluded. System functions shall be executable only in the intended manner and order, and only under the intended conditions.

New matter indicated by italics - deletions by strikeout
If the preconditions to a system function have not been met, the function shall be precluded from executing by the system's control logic.

(m) All system voting devices shall incorporate at least 3 memories in the machine itself and in its programmable memory devices.

(n) The system shall include capabilities of recording and reporting the date and time of normal and abnormal events and of maintaining a permanent record of audit information that cannot be turned off. Provisions shall be made to detect and record significant events (e.g., casting a ballot, error conditions that cannot be disposed of by the system itself, time-dependent or programmed events that occur without the intervention of the voter or a judge of election).

(o) The system and each system voting device must be capable of creating, printing and maintaining a permanent paper record and an electronic image of each ballot that is cast such that records of individual ballots are maintained by a subsystem independent and distinct from the main vote detection, interpretation, processing and reporting path. The electronic images of each ballot must protect the integrity of the data and the anonymity of each voter, for example, by means of storage location scrambling. The ballot image records may be either machine-readable or manually transcribed, or both, at the discretion of the election authority.

(p) The system shall include built-in test, measurement and diagnostic software and hardware for detecting and reporting the system's status and degree of operability.

(q) The system shall contain provisions for maintaining the integrity of memory voting and audit data during an election and for a period of at least 6 months thereafter and shall provide the means for creating an audit trail.

(r) The system shall be fully accessible so as to permit blind or visually impaired voters as well as physically disabled voters to exercise their right to vote in private and without assistance.

(s) The system shall provide alternative language accessibility if required pursuant to Section 203 of the Voting Rights Act of 1965.

(t) Each voting device shall enable a voter to vote for a person whose name does not appear on the ballot.

New matter indicated by italics - deletions by strikeout
(u) The system shall record and count accurately each vote properly cast for or against any candidate and for or against any public question, including the names of all candidates whose names are written in by the voters.

(v) The system shall allow for accepting provisional ballots and for separating such provisional ballots from precinct totals until authorized by the election authority.

(w) The system shall provide an effective audit trail as defined in Section 24C-2 in this Code.

(x) The system shall be suitably designed for the purpose used, be durably constructed, and be designed for safety, accuracy and efficiency.

(y) The system shall comply with all provisions of federal, State and local election laws and regulations and any future modifications to those laws and regulations.

(10 ILCS 5/24C-12)

Sec. 24C-12. Procedures for Counting and Tallying of Ballots. In an election jurisdiction where a Direct Recording Electronic Voting System is used, the following procedures for counting and tallying the ballots shall apply:

Before the opening of the polls, the judges of elections shall assemble the voting equipment and devices and turn the equipment on. The judges shall, if necessary, take steps to activate the voting devices and counting equipment by inserting into the equipment and voting devices appropriate data cards containing passwords and data codes that will select the proper ballot formats selected for that polling place and that will prevent inadvertent or unauthorized activation of the poll-opening function. Before voting begins and before ballots are entered into the voting devices, the judges of election shall cause to be printed a record of the following: the election's identification data, the device's unit identification, the ballot's format identification, the contents of each active candidate register by office and of each active public question register showing that they contain all zero votes, all ballot fields that can be used to invoke special voting options, and other information needed to ensure
the readiness of the equipment and to accommodate administrative reporting requirements. The judges must also check to be sure that the totals are all zeros in the counting columns and in the public counter affixed to the voting devices.

After the judges have determined that a person is qualified to vote, a voting device with the proper ballot to which the voter is entitled shall be enabled to be used by the voter. The ballot may then be cast by the voter by marking by appropriate means the designated area of the ballot for the casting of a vote for any candidate or for or against any public question. The voter shall be able to vote for any and all candidates and public measures appearing on the ballot in any legal number and combination and the voter shall be able to delete, change or correct his or her selections before the ballot is cast. The voter shall be able to select candidates whose names do not appear upon the ballot for any office by entering electronically as many names of candidates as the voter is entitled to select for each office.

Upon completing his or her selection of candidates or public questions, the voter shall signify that voting has been completed by activating the appropriate button, switch or active area of the ballot screen associated with end of voting. Upon activation, the voting system shall record an image of the completed ballot, increment the proper ballot position registers, and shall signify to the voter that the ballot has been cast. Upon activation, the voting system shall also print a permanent paper record of each ballot cast as defined in Section 24C-2 of this Code. This permanent paper record shall (i) be printed in a clear, readily readable format that can be easily reviewed by the voter for completeness and accuracy and (ii) either be self-contained within the voting device or be deposited by the voter into a secure ballot box. No permanent paper record shall be removed from the polling place except by election officials as authorized by this Article. All permanent paper records shall be preserved and secured by election officials in the same manner as paper ballots and shall be available as an official record for any recount, redundant count, or verification or retabulation of the vote count conducted with respect to any election in which the voting system is used. The voter shall exit the voting

station and the voting system shall prevent any further attempt to vote until it has been properly re-activated. If a voting device has been enabled for voting but the voter leaves the polling place without casting a ballot, 2 judges of election, one from each of the 2 major political parties, shall spoil the ballot.

Throughout the election day and before the closing of the polls, no person may check any vote totals for any candidate or public question on the voting or counting equipment. Such equipment shall be programmed so that no person may reset the equipment for reentry of ballots unless provided the proper code from an authorized representative of the election authority.

The precinct judges of election shall check the public register to determine whether the number of ballots counted by the voting equipment agrees with the number of voters voting as shown by the applications for ballot. If the same do not agree, the judges of election shall immediately contact the offices of the election authority in charge of the election for further instructions. If the number of ballots counted by the voting equipment agrees with the number of voters voting as shown by the application for ballot, the number shall be listed on the "Statement of Ballots" form provided by the election authority.

The totals for all candidates and propositions shall be tabulated. One copy of an "In-Precinct Totals Report" shall be generated by the automatic tabulating equipment for return to the election authority. One copy of an "In-Precinct Totals Report" shall be generated and posted in a conspicuous place inside the polling place, provided that any authorized pollwatcher or other official authorized to be present in the polling place to observe the counting of ballots is present. The judges of election shall provide, if requested, a set for each authorized pollwatcher or other official authorized to be present in the polling place to observe the counting of ballots. Except as otherwise provided in this Section, the totals for all candidates and propositions shall be tabulated; and 4 copies of a "Certificate of Results" shall be printed by the automatic tabulating equipment; one copy shall be posted in a conspicuous place inside the polling place; and every effort shall be made by the judges of election to
provide a copy for each authorized pollwatcher or other official authorized
to be present in the polling place to observe the counting of ballots; but in
no case shall the number of copies to be made available to pollwatchers be
fewer than 4, chosen by lot by the judges of election. In addition, sufficient
time shall be provided by the judges of election to the pollwatchers to
allow them to copy information from the copy which has been posted.

Until December 31, 2007, in elections at which fractional
cumulative votes are cast for candidates, the tabulation of those fractional
cumulative votes may be made by the election authority at its central office
location, and 4 copies of a "Certificate of Results" shall be printed by the
automatic tabulation equipment and shall be posted in 4 conspicuous
places at the central office location where those fractional cumulative
votes have been tabulated.

If instructed by the election authority, the judges of election shall
cause the tabulated returns to be transmitted electronically to the offices of
the election authority via modem or other electronic medium.

The precinct judges of election shall select a bi-partisan team of 2
judges, who shall immediately return the ballots in a sealed container,
along with all other election materials and equipment as instructed by the
election authority; provided, however, that such container must first be
sealed by the election judges with filament tape or other approved sealing
devices provided for the purpose in a manner that the ballots cannot be
removed from the container without breaking the seal or filament tape and
disturbing any signatures affixed by the election judges to the container.
The election authority shall keep the office of the election authority, or any
receiving stations designated by the authority, open for at least 12
consecutive hours after the polls close or until the ballots and election
material and equipment from all precincts within the jurisdiction of the
election authority have been returned to the election authority. Ballots and
election materials and equipment returned to the office of the election
authority which are not signed and sealed as required by law shall not be
accepted by the election authority until the judges returning the ballots
make and sign the necessary corrections. Upon acceptance of the ballots
and election materials and equipment by the election authority, the judges

returning the ballots shall take a receipt signed by the election authority and stamped with the time and date of the return. The election judges whose duty it is to return any ballots and election materials and equipment as provided shall, in the event the ballots, materials or equipment cannot be found when needed, on proper request, produce the receipt which they are to take as above provided.

Sec. 24C-15. Official Return of Precinct; Check of Totals; Audit. The precinct return printed by the Direct Recording Electronic Voting System tabulating equipment shall include the number of ballots cast and votes cast for each candidate and public question and shall constitute the official return of each precinct. In addition to the precinct return, the election authority shall provide the number of applications for ballots in each precinct, the total number of ballots and absentee ballots counted in each precinct for each political subdivision and district and the number of registered voters in each precinct. However, the election authority shall check the totals shown by the precinct return and, if there is an obvious discrepancy regarding the total number of votes cast in any precinct, shall have the ballots for that precinct audited to correct the return. The procedures for this audit shall apply prior to and after the proclamation is completed; however, after the proclamation of results, the election authority must obtain a court order to unseal voted ballots or voting devices except for election contests and discovery recounts. The certificate of results, which has been prepared and signed by the judges of election in the polling place after the ballots have been tabulated, shall be the document used for the canvass of votes for such precinct. Whenever a discrepancy exists during the canvass of votes between the unofficial results and the certificate of results, or whenever a discrepancy exists during the canvass of votes between the certificate of results and the set of totals reflected on the certificate of results, the ballots for that precinct shall be audited to correct the return.

Prior to the proclamation, the election authority shall test the voting devices and equipment in 5% of the precincts within the election jurisdiction. The precincts to be tested shall be selected after election day on a random basis by the State Board of Elections, so that every precinct in the election jurisdiction has an equal mathematical chance of being selected. The State Board of Elections shall design a standard and scientific random method of selecting the precincts that are to be tested. The State central committee chairman of each established political party shall be given prior written notice of the time and place of the random selection procedure and may be represented at the procedure.

The test shall be conducted by counting the votes marked on the permanent paper record of each ballot cast in the tested precinct printed by the voting system at the time that each ballot was cast and comparing the results of this count with the results shown by the certificate of results prepared by the Direct Recording Electronic Voting System in the test precinct. The election authority shall test count these votes either by hand or by using an automatic tabulating device other than a Direct Recording Electronic voting device that has been approved by the State Board of Elections for that purpose and tested before use to ensure accuracy. The election authority shall print the results of each test count. If any error is detected, the cause shall be determined and corrected, and an errorless count shall be made prior to the official canvass and proclamation of election results. If an errorless count cannot be conducted and there continues to be difference in vote results between the certificate of results produced by the Direct Recording Electronic Voting System and the count of the permanent paper records or if an error was detected and corrected, the election authority shall immediately prepare and forward to the appropriate canvassing board a written report explaining the results of the test and any errors encountered and the report shall be made available for public inspection.

The State Board of Elections, the State's Attorney and other appropriate law enforcement agencies, the county chairman of each established political party and qualified civic organizations shall be given

prior written notice of the time and place of the test and may be represented at the test.

The results of this post-election test shall be treated in the same manner and have the same effect as the results of the discovery procedures set forth in Section 22-9.1 of this Code.

Sec. 24C-16. Approval of Direct Recording Electronic Voting Systems; Requisites. The State Board of Elections shall approve all Direct Recording Electronic Voting Systems that fulfill the functional requirements provided by Section 24C-11 of this Code, the mandatory requirements of the federal voting system standards pertaining to Direct Recording Electronic Voting Systems promulgated by the Federal Election Commission or the Election Assistance Commission, the testing requirements of an approved independent testing authority and the rules of the State Board of Elections.

The State Board of Elections shall not approve any Direct Recording Electronic Voting System that includes an external Infrared Data Association (IrDA) communications port.

The State Board of Elections is authorized to withdraw its approval of a Direct Recording Electronic Voting System if the System, once approved, fails to fulfill the above requirements.

The vendor, person, or other private entity shall be solely responsible for the production and cost of: all application fees; all ballots; additional temporary workers; and other equipment or facilities needed and used in the testing of the vendor's, person's, or other private entity's respective equipment and software.

Any voting system vendor, person, or other private entity seeking the State Board of Elections' approval of a voting system shall, as part of the approval application, submit to the State Board a non-refundable fee. The State Board of Elections by rule shall establish an appropriate fee structure, taking into account the type of voting system approval that is requested (such as approval of a new system, a modification of an existing

system, the size of the modification, etc.). No voting system or modification of a voting system shall be approved unless the fee is paid.

No vendor, person, or other entity may sell, lease, or loan, or have a written contract, including a contract contingent upon State Board approval of the voting system or voting system component, to sell, lease, or loan, a Direct Recording Electronic Voting System or system component to any election jurisdiction unless the system or system component is first approved by the State Board of Elections pursuant to this Section.

registered voters of the precinct or precincts in the territory where the question is to be submitted to the voters and (ii) beginning with elections in 2009 and thereafter, at least 11% of the total ballots cast at the last regular election conducted in the precinct or precincts in the territory where the question is to be submitted to the voters the registered voters of which are eligible to sign the petition, it shall be the duty of the election authority having jurisdiction over such municipality to submit such question to the electors throughout each precinct all or part of which includes all or part of the territory at the regular election specified in the resolution, ordinance or petition initiating the public question. A petition initiating a public question described in this subsection shall be filed with the election authority having jurisdiction over the municipality. A resolution, ordinance or petition initiating a public question described in this subsection shall specify the election at which the question is to be submitted.

(c) Local questions of public policy authorized by this Section and statewide questions of public policy authorized by Section 28-9 shall be advisory public questions, and no legal effects shall result from the adoption or rejection of such propositions.

Sec. 3.1-20-45. Nonpartisan primary elections; uncontested office. A city incorporated under this Code that elects municipal officers at nonpartisan primary and general elections shall conduct the elections as provided in the Election Code, except that no office for which nomination is uncontested shall be included on the primary ballot and no primary shall be held for that office. For the purposes of this Section, an office is uncontested when not more than \( \frac{4}{2} \) persons to be nominated for each office have timely filed valid nominating papers seeking nomination for the election to that office.

Notwithstanding the preceding paragraph, when a person (i) who has not timely filed valid nomination papers and (ii) who intends to become a write-in candidate for nomination for any office for which nomination is uncontested files a written statement or notice of that intent with the proper election official with whom the nomination papers for that office are filed, if the write-in candidate becomes the fifth candidate filed, a primary ballot must be prepared and a primary must be held for the office. The statement or notice must be filed on or before the 61st day before the consolidated primary election. The statement must contain (i) the name and address of the person intending to become a write-in candidate, (ii) a statement that the person intends to become a write-in candidate, and (iii) the office the person is seeking as a write-in candidate. An election authority has no duty to conduct a primary election or prepare a primary ballot unless a statement meeting the requirements of this paragraph is filed in a timely manner.

(b) An elector, however, at either a primary election or a general municipal election held under Sections 3.1-25-20 through 3.1-25-55, may write in the names of the candidates of that elector's choice in accordance with the general election law. If, however, the name of only one candidate for a particular office appeared on the primary ballot, the name of the person having the largest number of write-in votes shall not be placed upon the ballot at the general municipal election unless the number of votes received in the primary election by that person was at least 10% of the number of votes received by the candidate for the same office whose name appeared on the primary ballot.

AN ACT concerning regulation.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Public Utilities Act is amended by adding Section 20-130 and by changing Sections 8-406, 8-503, and 16-118 as follows:

(220 ILCS 5/8-406) (from Ch. 111 2/3, par. 8-406)

Sec. 8-406. Certificate of public convenience and necessity.
(a) No public utility not owning any city or village franchise nor engaged in performing any public service or in furnishing any product or commodity within this State as of July 1, 1921 and not possessing a certificate of public convenience and necessity from the Illinois Commerce Commission, the State Public Utilities Commission or the Public Utilities Commission, at the time this amendatory Act of 1985 goes into effect, shall transact any business in this State until it shall have obtained a certificate from the Commission that public convenience and necessity require the transaction of such business.

(b) No public utility shall begin the construction of any new plant, equipment, property or facility which is not in substitution of any existing plant, equipment, property or facility or any extension or alteration thereof or in addition thereto, unless and until it shall have obtained from the Commission a certificate that public convenience and necessity require such construction. Whenever after a hearing the Commission determines that any new construction or the transaction of any business by a public utility will promote the public convenience and is necessary thereto, it shall have the power to issue certificates of public convenience and necessity. The Commission shall determine that proposed construction will promote the public convenience and necessity only if the utility demonstrates: (1) that the proposed construction is necessary to provide adequate, reliable, and efficient service to its customers and is the least-cost means of satisfying the service needs of its customers or that the proposed construction will promote the development of an effectively

competitive electricity market that operates efficiently, is equitable to all customers, and is the least cost means of satisfying those objectives; (2) that the utility is capable of efficiently managing and supervising the construction process and has taken sufficient action to ensure adequate and efficient construction and supervision thereof; and (3) that the utility is capable of financing the proposed construction without significant adverse financial consequences for the utility or its customers.

(c) After the effective date of this amendatory Act of 1987, no construction shall commence on any new nuclear power plant to be located within this State, and no certificate of public convenience and necessity or other authorization shall be issued therefor by the Commission, until the Director of the Illinois Environmental Protection Agency finds that the United States Government, through its authorized agency, has identified and approved a demonstrable technology or means for the disposal of high level nuclear waste, or until such construction has been specifically approved by a statute enacted by the General Assembly.

As used in this Section, "high level nuclear waste" means those aqueous wastes resulting from the operation of the first cycle of the solvent extraction system or equivalent and the concentrated wastes of the subsequent extraction cycles or equivalent in a facility for reprocessing irradiated reactor fuel and shall include spent fuel assemblies prior to fuel reprocessing.

(d) In making its determination, the Commission shall attach primary weight to the cost or cost savings to the customers of the utility. The Commission may consider any or all factors which will or may affect such cost or cost savings.

(e) The Commission may issue a temporary certificate which shall remain in force not to exceed one year in cases of emergency, to assure maintenance of adequate service or to serve particular customers, without notice or hearing, pending the determination of an application for a certificate, and may by regulation exempt from the requirements of this Section temporary acts or operations for which the issuance of a certificate will not be required in the public interest.
A public utility shall not be required to obtain but may apply for and obtain a certificate of public convenience and necessity pursuant to this Section with respect to any matter as to which it has received the authorization or order of the Commission under the Electric Supplier Act, and any such authorization or order granted a public utility by the Commission under that Act shall as between public utilities be deemed to be, and shall have except as provided in that Act the same force and effect as, a certificate of public convenience and necessity issued pursuant to this Section.

No electric cooperative shall be made or shall become a party to or shall be entitled to be heard or to otherwise appear or participate in any proceeding initiated under this Section for authorization of power plant construction and as to matters as to which a remedy is available under The Electric Supplier Act.

(f) Such certificates may be altered or modified by the Commission, upon its own motion or upon application by the person or corporation affected. Unless exercised within a period of 2 years from the grant thereof authority conferred by a certificate of convenience and necessity issued by the Commission shall be null and void.

No certificate of public convenience and necessity shall be construed as granting a monopoly or an exclusive privilege, immunity or franchise.

improvements or changes be made, or such structure or structures be erected at the location, in the manner and within the time specified in said order; provided, however, that the Commission shall have no authority to order the construction, addition or extension of any electric generating plant unless the public utility requests a certificate for the construction of the plant pursuant to Section 8-406 and in conjunction with such request also requests the entry of an order under this Section. If any additions, extensions, repairs, improvements or changes, or any new structure or structures, which the Commission has authorized or ordered to be erected, require joint action by 2 or more public utilities, the Commission shall notify the said public utilities that such additions, extensions, repairs, improvements or changes or new structure or structures have been authorized or ordered and that the same shall be made at the joint cost whereupon the said public utilities shall have such reasonable time as the Commission may grant within which to agree upon the apportionment or division of cost of such additions, extensions, repairs, improvements or changes or new structure or structures, which each shall bear. If at the expiration of such time such public utilities shall fail to file with the Commission a statement that an agreement has been made for a division or apportionment of the cost or expense of such additions, extensions, repairs, improvements or changes, or new structure or structures, the Commission shall have authority, after further hearing, to make an order fixing the proportion of such cost or expense to be borne by each public utility and the manner in which the same shall be paid or secured.

Nothing in this Act shall prevent the Commission, upon its own motion or upon petition, from ordering, after a hearing, the extension, construction, connection or interconnection of plant, equipment, pipe, line, facilities or other physical property of a public utility in whatever configuration the Commission finds necessary to ensure that natural gas is made available to consumers at no increased cost to the customers of the utility supplying the gas.

Whenever the Commission finds, after a hearing, that the public convenience or necessity requires it, the Commission may order public utilities subject to its jurisdiction to work jointly (1) for the purpose of

Sec. 16-118. Services provided by electric utilities to alternative retail electric suppliers.

(a) It is in the best interest of Illinois energy consumers to promote fair and open competition in the provision of electric power and energy and to prevent anticompetitive practices in the provision of electric power and energy. Therefore, to the extent an electric utility provides electric power and energy or delivery services to alternative retail electric suppliers and such services are not subject to the jurisdiction of the Federal Energy Regulatory Commission, and are not competitive services, they shall be provided through tariffs that are filed with the Commission, pursuant to Article IX of this Act. Each electric utility shall permit alternative retail electric suppliers to interconnect facilities to those owned by the utility provided they meet established standards for such interconnection, and may provide standby or other services to alternative retail electric suppliers. The alternative retail electric supplier shall sign a contract setting forth the prices, terms and conditions for interconnection with the electric utility and the prices, terms and conditions for services provided by the electric utility to the alternative retail electric supplier in connection with the delivery by the electric utility of electric power and energy supplied by the alternative retail electric supplier.

(b) An electric utility shall file a tariff pursuant to Article IX of the Act that would allow alternative retail electric suppliers or electric utilities other than the electric utility in whose service area retail customers are located to issue single bills to the retail customers for both the services provided by such alternative retail electric supplier or other electric utility and the delivery services provided by the electric utility to such customers. The tariff filed pursuant to this subsection shall (i) require partial payments made by retail customers to be credited first to the electric utility's tariffed services, (ii) impose commercially reasonable terms with
respect to credit and collection, including requests for deposits, (iii) retain the electric utility's right to disconnect the retail customers, if it does not receive payment for its tariffed services, in the same manner that it would be permitted to if it had billed for the services itself, and (iv) require the alternative retail electric supplier or other electric utility that elects the billing option provided by this tariff to include on each bill to retail customers an identification of the electric utility providing the delivery services and a listing of the charges applicable to such services. The tariff filed pursuant to this subsection may also include other just and reasonable terms and conditions. In addition, an electric utility, an alternative retail electric supplier or electric utility other than the electric utility in whose service area the customer is located, and a customer served by such alternative retail electric supplier or other electric utility, may enter into an agreement pursuant to which the alternative retail electric supplier or other electric utility pays the charges specified in Section 16-108, or other customer-related charges, including taxes and fees, in lieu of such charges being recovered by the electric utility directly from the customer.

(c) An electric utility with more than 100,000 customers shall file a tariff pursuant to Article IX of this Act that provides alternative retail electric suppliers, and electric utilities other than the electric utility in whose service area the retail customers are located, with the option to have the electric utility purchase their receivables for power and energy service provided to residential retail customers and non-residential retail customers with a non-coincident peak demand of less than 400 kilowatts. Receivables for power and energy service of alternative retail electric suppliers or electric utilities other than the electric utility in whose service area the retail customers are located shall be purchased by the electric utility at a just and reasonable discount rate to be reviewed and approved by the Commission after notice and hearing. The discount rate shall be based on the electric utility's historical bad debt and any reasonable start-up costs and administrative costs associated with the electric utility's purchase of receivables. The discounted rate for purchase of receivables shall be included in the tariff filed pursuant to this subsection (c). The discount rate filed pursuant to this subsection (c) shall be subject to

New matter indicated by italics - deletions by strikeout
periodic Commission review. The electric utility retains the right to impose the same terms on retail customers with respect to credit and collection, including requests for deposits, and retain the electric utility's right to disconnect the retail customers, if it does not receive payment for its tariffed services or purchased receivables, in the same manner that it would be permitted to if the retail customers purchased power and energy from the electric utility. The tariff filed pursuant to this subsection (c) shall permit the electric utility to recover from retail customers any uncollected receivables that may arise as a result of the purchase of receivables under this subsection (c), may also include other just and reasonable terms and conditions, and shall provide for the prudently incurred costs associated with the provision of this service pursuant to this subsection (c). Nothing in this subsection (c) permits the double recovery of bad debt expenses from customers.

(d) An electric utility with more than 100,000 customers shall file a tariff pursuant to Article IX of this Act that would provide alternative retail electric suppliers or electric utilities other than the electric utility in whose service area retail customers are located with the option to have the electric utility produce and provide single bills to the retail customers for both the electric power and energy service provided by the alternative retail electric supplier or other electric utility and the delivery services provided by the electric utility to the customers. The tariffs filed pursuant to this subsection shall require the electric utility to collect and remit customer payments for electric power and energy service provided by alternative retail electric suppliers or electric utilities other than the electric utility in whose service area retail customers are located. The tariff filed pursuant to this subsection shall require the electric utility to include on each bill to retail customers an identification of the alternative retail electric supplier or other electric utility that elects the billing option. The tariff filed pursuant to this subsection (d) may also include other just and reasonable terms and conditions and shall provide for the recovery of prudently incurred costs associated with the provision of service pursuant to this subsection (d). The costs associated with the provision of service pursuant to this Section shall be subject to periodic Commission review.
(e) An electric utility with more than 100,000 customers in this State shall file a tariff pursuant to Article IX of this Act that provides alternative retail electric suppliers, and electric utilities other than the electric utility in whose service area the retail customers are located, with the option to have the electric utility purchase 2 billing cycles worth of uncollectible receivables for power and energy service provided to residential retail customers and to non-residential retail customers with a non-coincident peak demand of less than 400 kilowatts upon returning that customer to that electric utility for delivery and energy service after that alternative retail electric supplier, or an electric utility other than the electric utility in whose service area the retail customer is located, has made reasonable collection efforts on that account. Uncollectible receivables for power and energy service of alternative retail electric suppliers, or electric utilities other than the electric utility in whose service area the retail customers are located, shall be purchased by the electric utility at a just and reasonable discount rate to be reviewed and approved by the Commission, after notice and hearing. The discount rate shall be based on the electric utility's historical bad debt for receivables that are outstanding for a similar length of time and any reasonable start-up costs and administrative costs associated with the electric utility's purchase of receivables. The discounted rate for purchase of uncollectible receivables shall be included in the tariff filed pursuant to this subsection (e). The electric utility retains the right to impose the same terms on these retail customers with respect to credit and collection, including requests for deposits, and retains the right to disconnect these retail customers, if it does not receive payment for its tariffed services or purchased receivables, in the same manner that it would be permitted to if the retail customers had purchased power and energy from the electric utility. The tariff filed pursuant to this subsection (e) shall permit the electric utility to recover from retail customers any uncollectable receivables that may arise as a result of the purchase of uncollectible receivables under this subsection (e), may also include other just and reasonable terms and conditions, and shall provide for the prudently incurred costs associated with the provision of this service pursuant to this subsection (e). Nothing in this
subsection (e) permits the double recovery of utility bad debt expenses from customers. The electric utility may file a joint tariff for this subsection (e) and subsection (c) of this Section.

(220 ILCS 5/20-130 new)

Sec. 20-130. Retail choice and referral programs.

(a) The Commission shall have the authority to establish retail choice and referral programs to be administered by an electric utility or the State in which residential and small commercial customers receive incentives, including, but not limited to, discounted rate introductory offers for switching to participating electric suppliers.

(b) Reasonable costs associated with the implementation and operation of customer choice and referral programs may be recovered in an electric utility's distribution rates, except that any costs associated with any introductory discount for switching to a supplier shall be assumed by that supplier. Reasonable costs associated with the implementation and operation of a customer choice program may also be recovered from retail electric suppliers participating in a customer choice and referral program. In no event, however, shall the Commission mandate a cost recovery mechanism without first providing all interested parties notice and an opportunity to be heard in a hearing before the Commission.

(c) The Office of Retail Market Development shall serve as the clearinghouse for the development of retail choice and referral programs and shall work with electric utilities and interested parties on a continuous basis to implement and improve upon the programs. Nothing in this Section, however, shall prevent an electric utility on its own accord from implementing retail choice and referral programs.

(d) Only customers that qualify for utility service shall be eligible for retail choice and referral programs.

(e) The Office of Retail Market Development shall immediately upon the effective date of this amendatory Act of the 95th General Assembly explore for possible implementation on as expedited a basis as possible the following retail choice and referral programs:

New matter indicated by italics - deletions by strikeout
(1) An introductory fixed discount program in which suppliers participating in the program offer customers a fixed percentage discount off of the electric utility's supply rate for a set number of billing periods. Customers would be able to enroll in the program by using an online enrollment form, completing an enrollment card found in their monthly electric utility bill, or by calling a toll-free number. Customers would be free to withdraw from the program at any time and select another alternative retail electric supplier or return to the electric utility.

(2) A new customer program in which electric utilities would offer consumers initiating new electric service a choice of offers from participating electric suppliers to provide the consumer's electric supply service. Customers expressing a preference for a specific electric supplier would be enrolled with that supplier. Customers not expressing a preference for a specific electric supplier would be offered the opportunity to enroll with an electric supplier selected randomly on a rotating basis.

(3) A customer service call center referral program in which customers calling an electric utility's call center would be offered enrollment with an alternative retail electric supplier and informed that they have the option to receive immediate savings or introductory offers by participating in the referral program. Customers choosing to participate would be transferred to a customer service representative for the program and would either select the electric supplier from which they would like to take service or be placed with a participating electric supplier chosen at random on a rotating basis.

Nothing in this Section shall prevent the Office of Retail Market Development or the Commission from considering retail choice and referral programs in addition to the programs outlined in this Section.

Section 10. The Consumer Fraud and Deceptive Business Practices Act is amended by changing Section 2EE as follows:

(815 ILCS 505/2EE)

New matter indicated by italics - deletions by strikeout
Sec. 2EE. Electric service provider selection. An electric service provider shall not submit or execute a change in a subscriber's selection of a provider of electric service unless and until (i) the provider first discloses all material terms and conditions of the offer to the subscriber; (ii) the provider has obtained the subscriber's express agreement to accept the offer after the disclosure of all material terms and conditions of the offer; and (iii) the provider has confirmed the request for a change in accordance with one of the following procedures except as follows:

(a) The new electric service provider has obtained the subscriber's written or electronically signed authorization in a form that meets the following requirements:

(1) An electric service provider shall obtain any necessary written or electronically signed authorization from a subscriber for a change in electric service by using a letter of agency as specified in this Section. Any letter of agency that does not conform with this Section is invalid.

(2) The letter of agency shall be a separate document (an easily separable document containing only the authorization language described in subparagraph (a)(5) of this Section) whose sole purpose is to authorize an electric service provider change. The letter of agency must be signed and dated by the subscriber requesting the electric service provider change.

(3) The letter of agency shall not be combined with inducements of any kind on the same document.

(4) Notwithstanding subparagraphs (a)(1) and (a)(2) of this Section, the letter of agency may be combined with checks that contain only the required letter of agency language prescribed in subparagraph (a)(5) of this Section and the necessary information to make the check a negotiable instrument. The letter of agency check shall not contain any promotional language or material. The letter of agency check shall contain in easily readable, bold-face type on the face of the check, a notice that the consumer is authorizing an electric service provider change.

New matter indicated by italics - deletions by strikeout
by signing the check. The letter of agency language also shall be placed near the signature line on the back of the check.

(5) At a minimum, the letter of agency must be printed with a print of sufficient size to be clearly legible, and must contain clear and unambiguous language that confirms:

(i) The subscriber's billing name and address;
(ii) The decision to change the electric service provider from the current provider to the prospective provider;
(iii) The terms, conditions, and nature of the service to be provided to the subscriber must be clearly and conspicuously disclosed, in writing, and an electric service provider must directly establish the rates for the service contracted for by the subscriber; and
(iv) That the subscriber understand that any electric service provider selection the subscriber chooses may involve a charge to the subscriber for changing the subscriber's electric service provider.

(6) Letters of agency shall not suggest or require that a subscriber take some action in order to retain the subscriber's current electric service provider.

(7) If any portion of a letter of agency is translated into another language, then all portions of the letter of agency must be translated into that language.

(b) An appropriately qualified independent third party has obtained, in accordance with the procedures set forth in this subsection (b), the subscriber's oral authorization to change electric suppliers that confirms and includes appropriate verification data. The independent third party (i) must not be owned, managed, controlled, or directed by the supplier or the supplier's marketing agent; (ii) must not have any financial incentive to confirm supplier change requests for the supplier or the supplier's marketing agent; and (iii) must operate in a location physically separate from the supplier or the supplier's marketing agent.

New matter indicated by italics - deletions by strikeout
Automated third-party verification systems and 3-way conference calls may be used for verification purposes so long as the other requirements of this subsection (b) are satisfied.

A supplier or supplier's sales representative initiating a 3-way conference call or a call through an automated verification system must drop off the call once the 3-way connection has been established.

All third-party verification methods shall elicit, at a minimum, the following information: (i) the identity of the subscriber; (ii) confirmation that the person on the call is authorized to make the supplier change; (iii) confirmation that the person on the call wants to make the supplier change; (iv) the names of the suppliers affected by the change; (v) the service address of the supply to be switched; and (vi) the price of the service to be supplied and the material terms and conditions of the service being offered, including whether any early termination fees apply. Third-party verifiers may not market the supplier's services by providing additional information, including information regarding procedures to block or otherwise freeze an account against further changes.

All third-party verifications shall be conducted in the same language that was used in the underlying sales transaction and shall be recorded in their entirety. Submitting suppliers shall maintain and preserve audio records of verification of subscriber authorization for a minimum period of 2 years after obtaining the verification. Automated systems must provide consumers with an option to speak with a live person at any time during the call.

(c) When a subscriber initiates the call to the prospective electric supplier, in order to enroll the subscriber as a customer, the prospective electric supplier must, with the consent of the customer, make a date-stamped, time-stamped audio recording that elicits, at a minimum, the following information:

(1) the identity of the subscriber;
(2) confirmation that the person on the call is authorized to make the supplier change;
(3) confirmation that the person on the call wants to make the supplier change;

New matter indicated by italics - deletions by strikeout
(4) the names of the suppliers affected by the change;
(5) the service address of the supply to be switched; and
(6) the price of the service to be supplied and the material
terms and conditions of the service being offered, including
whether any early termination fees apply.
Submitting suppliers shall maintain and preserve the audio records
containing the information set forth above for a minimum period of 2
years.

(d) Complaints may be filed with the Illinois Commerce
Commission under this Section by a subscriber whose electric service has
been provided by an electric service supplier in a manner not in
compliance with this Section. If, after notice and hearing, the Commission
finds that an electric service provider has violated this Section, the
Commission may in its discretion do any one or more of the following:

(1) Require the violating electric service provider to refund
to the subscriber charges collected in excess of those that would
have been charged by the subscriber's authorized electric service
provider.

(2) Require the violating electric service provider to pay to
the subscriber's authorized electric supplier the amount the
authorized electric supplier would have collected for the electric
service. The Commission is authorized to reduce this payment by
any amount already paid by the violating electric supplier to the
subscriber's authorized provider for electric service.

(3) Require the violating electric subscriber to pay a fine of
up to $1,000 into the Public Utility Fund for each repeated and
intentional violation of this Section.

(4) Issue a cease and desist order.

(5) For a pattern of violation of this Section or for
intentionally violating a cease and desist order, revoke the
violating provider's certificate of service authority.

(e) For purposes of this Section, "electric service provider" shall
have the meaning given that phrase in Section 6.5 of the Attorney General
Act.

Any testing or test results shall be documented in accordance with the AIDS Confidentiality Act.

(c) Every health care professional or facility caring for a newborn infant shall, upon delivery or as soon as possible within medical standards after the infant's birth, provide counseling as described in subsection (d) of this Section to the parent or guardian of the infant and perform rapid HIV testing on the infant, when the HIV status of the infant's mother is unknown.

preceding their appointment, or engaged in the education and training of masters, doctoral, or post-doctoral students of marriage and family therapy, or engaged in marriage and family therapy research. Each marriage or family therapy teacher or researcher shall have spent the majority of the time devoted to the study or research of marriage and family therapy during the 2 years immediately preceding his or her appointment to the Board. The appointees shall be licensed under this Act.

(d) Two members shall be representatives of the general public who have no direct affiliation or work experience with the practice of marriage and family therapy and who clearly represent consumer interests.

(e) Board members shall be appointed for terms of 4 years each, except that any person chosen to fill a vacancy shall be appointed only for the unexpired term of the Board member whom he or she shall succeed. Upon the expiration of this term of office, a Board member shall continue to serve until a successor is appointed and qualified. No member shall be reappointed to the Board for a term that would cause continuous service on the Board to be longer than 8 years.

(f) The membership of the Board shall reasonably reflect representation from the various geographic areas of the State.

(g) Members of the Board shall be immune from suit in any action based upon any disciplinary proceedings or other activities performed in good faith as members of the Board.

(h) The Secretary Director may remove any member of the Board for any cause that, in the opinion of the Secretary Director, reasonably justifies termination.

(i) The Secretary Director may consider the recommendations of the Board on questions of standards of professional conduct, discipline, and qualification of candidates or licensees under this Act.

(j) The members of the Board shall be reimbursed for all legitimate, necessary, and authorized expenses.

(k) A majority of the Board members currently appointed shall constitute a quorum. A vacancy in the membership of the Board shall not impair the right of a quorum to exercise all the rights and perform all the duties of the Board.

Sec. 30. Application.

(a) Applications for original licensure shall be made to the Department in writing on forms prescribed by the Department and shall be accompanied by the appropriate documentation and the required fee, which fee is nonrefundable. Any application shall require such information as, in the judgment of the Department, will enable the Department to pass on the qualifications of the applicant for licensing.

(b) Applicants have 3 years from the date of application to complete the application process. If the application has not been completed within 3 years, the application shall be denied, the fee shall be forfeited, and the applicant must reapply and meet the requirements in effect at the time of reapplication.

(c) A license shall not be denied to an applicant because of the applicant's race, religion, creed, national origin, political beliefs or activities, age, sex, sexual orientation, or physical disability that does not affect a person's ability to practice with reasonable judgment, skill, or safety impairment.

Sec. 60. Payments; penalty for insufficient funds. Any person who delivers a check or other payment to the Department that is returned to the Department unpaid by the financial institution upon which it is drawn shall pay to the Department, in addition to the amount already owed to the Department, a fine of $50. The fines imposed by this Section are in addition to any other discipline provided under this Act prohibiting unlicensed practice or practice on a nonrenewed license. The Department shall notify the person that payment of fees and fines shall be paid to the Department by certified check or money order within 30 calendar days after notification. If, after the expiration of 30 days from the date of the notification, the person has failed to submit the necessary remittance, the
Department shall automatically terminate the license or deny the application, without hearing. If, after termination or denial, the person seeks a license, he or she shall apply to the Department for restoration or issuance of the license and pay all fees and fines due to the Department. The Department may establish a fee for the processing of an application for restoration of a license to pay all expenses of processing this application. The Secretary Director may waive the fines due under this Section in individual cases where the Secretary Director finds that the fines would be unreasonable or unnecessarily burdensome.

(c) The determination by a circuit court that a licensee is subject to involuntary admission or judicial admission, as provided in the Mental Health and Developmental Disabilities Code, operates as an automatic suspension. The suspension will terminate only upon a finding by a court that the patient is no longer subject to involuntary admission or judicial admission and the issuance of an order so finding and discharging the patient, and upon the recommendation of the Board to the Secretary Director that the licensee be allowed to resume his or her practice as a licensed marriage and family therapist or an associate marriage and family therapist.

(e) In enforcing this Section, the Department or Board upon a showing of a possible violation may compel an individual licensed to practice under this Act, or who has applied for licensure under this Act, to submit to a mental or physical examination, or both, as required by and at the expense of the Department. The Department or Board may order the examining physician to present testimony concerning the mental or physical examination of the licensee or applicant. No information shall be excluded by reason of any common law or statutory privilege relating to communications between the licensee or applicant and the examining physician. The examining physicians shall be specifically designated by the Board or Department. The individual to be examined may have, at his or her own expense, another physician of his or her choice present during all aspects of this examination. Failure of an individual to submit to a mental or physical examination, when directed, shall be grounds for suspension of his or her license until the individual submits to the examination if the Department finds, after notice and hearing, that the refusal to submit to the examination was without reasonable cause.

If the Department or Board finds an individual unable to practice because of the reasons set forth in this Section, the Department or Board may require that individual to submit to care, counseling, or treatment by physicians approved or designated by the Department or Board, as a condition, term, or restriction for continued, reinstated, or renewed licensure to practice; or, in lieu of care, counseling, or treatment, the Department may file, or the Board may recommend to the Department to file, a complaint to immediately suspend, revoke, or otherwise discipline the license of the individual. An individual whose license was granted, continued, reinstated, renewed, disciplined or supervised subject to such terms, conditions, or restrictions, and who fails to comply with such terms, conditions, or restrictions, shall be referred to the Secretary Director for a
determination as to whether the individual shall have his or her license suspended immediately, pending a hearing by the Department.

In instances in which the Secretary Director immediately suspends a person's license under this Section, a hearing on that person's license must be convened by the Department within 30 days after the suspension and completed without appreciable delay. (a) If any person violates a provision of this Act, the Secretary Director may, in the name of the People of the State of Illinois, through the Attorney General of the State of Illinois, petition for an order enjoining the violation or for an order enforcing compliance with this Act. Upon the filing of a verified petition in court, the court may issue a temporary restraining order, without notice or bond, and may preliminarily and permanently enjoin the violation. If it is established that the person has violated or is violating the injunction, the Court may punish the offender for contempt of court. Proceedings under this Section are in addition to, and not in lieu of, all other remedies and penalties provided by this Act.

(b) If any person practices as a marriage and family therapist or an associate marriage and family therapist or holds himself or herself out as such without having a valid license under this Act, then any licensee, any interested party or any person injured thereby may, in addition to the Secretary Director, petition for relief as provided in subsection (a) of this Section.
Whenever in the opinion of the Department any person violates any provision of this Act, the Department may issue a rule to show cause why an order to cease and desist should not be entered against him or her. The rule shall clearly set forth the grounds relied upon by the Department and shall provide a period of 7 days from the date of the rule to file an answer to the satisfaction of the Department. Failure to answer to the satisfaction of the Department shall cause an order to cease and desist to be issued immediately.

The civil penalty shall be assessed by the Department after a hearing is held in accordance with the provisions set forth in this Act regarding the provision of a hearing for the discipline of a licensee.

(b) The Department may investigate any and all unlicensed activity.

(c) The civil penalty shall be paid within 60 days after the effective date of the order imposing the civil penalty. The order shall constitute a judgment and may be filed and execution had thereon in the same manner as any judgment from any court of record.

(Sec. 95. Investigation; notice and hearing. The Department may investigate the actions or qualifications of any person or persons holding or claiming to hold a license. In case the person, after receiving notice, fails to file an answer, his or her license may, in the discretion of the Department, be suspended, revoked, placed on probationary status, or the Department may take whatever disciplinary action deemed proper, including limiting the scope, nature, or extent of the person's practice or the imposition of a fine, without a hearing, if the act or acts charged constitute sufficient grounds for such action under this Act. Written notice and any notice in the subsequent proceedings may be served by personal delivery to the accused person, or by registered or certified mail to the applicant or licensee at his or her last address of record with address last specified by the accused in his last notification to the Department. In case the person fails to file an answer after receiving notice, his or her license may, in the discretion of the Department, be suspended, revoked, or placed on probationary status, or the Department may take whatever disciplinary action deemed proper, including limiting the scope, nature, or extent of the person's practice or the imposition of a fine, without a hearing, if the act or acts charged constitute sufficient grounds for such action under this Act. The written answer shall be served by personal delivery, certified delivery, or certified or registered mail to the Department. At the time and place fixed in the notice, the Department shall proceed to hear the charges and the parties or their counsel shall be accorded ample opportunity to present such statements, testimony, evidence, and argument as may be pertinent to the charges or to the defense thereto. The Department may continue such hearing from time to time. Sec. 125. Appointment of a hearing officer. The Secretary has the authority to appoint any attorney duly licensed to practice law in the State of Illinois to serve as the hearing officer in any action for refusal to issue or renew a license, or to discipline a licensee. The hearing officer has full authority to conduct the hearing. The hearing officer shall report his findings and recommendations to the Board and the Secretary. The Board has 60 calendar days from receipt of the report to review the report of the hearing officer and present its findings of fact, conclusions of law and recommendations to the Secretary. If the Board fails to present its report within the 60 calendar day period, the respondent may request in writing a direct appeal to the Secretary, in which case the Secretary shall, within 7 calendar days after the request, issue an order directing the Board to issue its findings of fact, conclusions of law, and recommendations to the Secretary within 30 calendar days after such order. Notwithstanding any other provision of this Section, if the Secretary, upon review, determines that substantial justice has not been done in the revocation, suspension, or refusal to issue or renew a license or other disciplinary action taken as the result of the entry of the hearing officer's report, the Secretary may order a rehearing by the same or other examiners. If the Director disagrees with the recommendation of the Board or the hearing officer, the Secretary may issue an order in contravention of the recommendation.

Any continuing education course for nursing home administrators approved by the National Continuing Education Review Service of the National Association of Boards of Examiners of Nursing Home Administrators will be accepted toward satisfaction of these requirements.

Any continuing education course for nursing home administrators sponsored by the Life Services Network of Illinois, Illinois Council on Long Term Care, County Nursing Home Association of Illinois, Illinois Health Care Association, Illinois Chapter of American College of Health Care Administrators, and the Illinois Nursing Home Administrators Association will be accepted toward satisfaction of these requirements.

Any school, college or university, State agency, or other entity may apply to the Department for approval as a continuing education sponsor. Criteria for qualification as a continuing education sponsor shall be established by rule.

It shall be the responsibility of each continuing education sponsor to maintain records, as prescribed by rule, to verify attendance.

The Department shall establish by rule a means for the verification of completion of the continuing education required by this Section. This verification may be accomplished through audits of records maintained by registrants; by requiring the filing of continuing education certificates with the Department; or by other means established by the Department.

Any nursing home administrator who has permitted his or her license to expire or who has had his or her license on inactive status may have his or her license restored by making application to the Department and filing proof acceptable to the Department, as defined by rule, of his or her fitness to have his or her license restored and by paying the required fee. However, any nursing home administrator whose license expired while he or she was (1) in federal service on active duty with the Armed Forces of the United States, or the State Militia called into service or training, or (2) in training or education under the supervision of the United States preliminary to induction into the military services, may have his or

Sec. 13. Endorsement. The Department may, in its discretion, license as a nursing home administrator, without examination, on payment of the required fee, an applicant who is so licensed under the laws of another U.S. jurisdiction, if the requirements for licensure in the other jurisdiction in which the applicant was licensed were, at the date of his or her licensure, substantially equivalent to the requirements then in force in this State; or if the applicant's qualifications were, at the date of his or her licensure in the other jurisdiction, substantially equivalent to the requirements then in force in this State.

Notwithstanding the provisions of this Section, all applicants seeking licensure under this Section shall be required to take and pass an examination testing the applicant's knowledge of Illinois law relating to the practice of nursing home administration.

Applicants have 3 years from the date of application to complete the application process. If the process has not been completed in 3 years, the application shall be denied, the fee shall be forfeited, and the applicant must reapply and meet the requirements in effect at the time of reapplication.

The Department shall notify the person that payment of fees and fines shall be paid to the Department by certified check or money order within 30 calendar days of the notification. If, after the expiration of 30 days from the date of the notification, the person has failed to submit the necessary remittance, the Department shall automatically terminate the license or deny the application, without hearing. If, after termination or denial, the person seeks a license, he or she shall apply to the Department for restoration or issuance of the license and pay all fees and fines due to the Department. The Department may establish a fee for the processing of an application for restoration of a license to pay all expenses of processing this application. The Secretary Director may waive the fines due under this Section in individual cases where the Secretary Director finds that the fines would be unreasonable or unnecessarily burdensome.

(1) Intentional material misstatement in furnishing information to the Department.

(2) Conviction of or entry of a plea of guilty or nolo contendere to any crime that is a felony under the laws of the United States or any state or territory thereof that is a felony or a misdemeanor of which an essential element is dishonesty; or of any crime that is directly related to the practice of the profession of nursing home administration.

(3) Making any misrepresentation for the purpose of obtaining a license, or violating any provision of this Act.

New matter indicated by italics - deletions by strikeout

(6) Engaging in dishonorable, unethical or unprofessional conduct of a character likely to deceive, defraud or harm the public.

(9) A finding by the Department that the licensee, after having his or her license placed on probationary status has violated the terms of probation.

(16) Professional incompetence in the practice of nursing home administration.

(18) Violation of the Nursing Home Care Act or of any rule issued under the Nursing Home Care Act.

All proceedings to suspend, revoke, place on probationary status, or take any other disciplinary action as the Department may deem proper, with regard to a license on any of the foregoing grounds, must be commenced within 5 ½ years next after receipt by the Department of (i) a complaint alleging the commission of or notice of the conviction order for any of the acts described herein or (ii) a referral for investigation under Section 3-108 of the Nursing Home Care Act.

The entry of an order or judgment by any circuit court establishing that any person holding a license under this Act is a person in need of mental treatment operates as a suspension of that license. That person may resume their practice only upon the entry of a Department order based upon a finding by the Board that they have been determined to be recovered from mental illness by the court and upon the Board's recommendation that they be permitted to resume their practice.

The Department, upon the recommendation of the Board, shall adopt rules which set forth standards to be used in determining what constitutes:

(i) (a) when a person will be deemed sufficiently rehabilitated to warrant the public trust;

(ii) (b) dishonorable, unethical or unprofessional conduct of a character likely to deceive, defraud, or harm the public;

However, no such rule shall be admissible into evidence in any
civil action except for review of a licensing or other disciplinary action
under this Act.

In enforcing this Section, the Department or Board, upon a
showing of a possible violation, may compel any individual licensed to
practice under this Act, or who has applied for licensure pursuant to this
Act, to submit to a mental or physical examination, or both, as required by
and at the expense of the Department. The examining physician or
physicians shall be those specifically designated by the Department or
Board. The Department or Board may order the examining physician to
present testimony concerning this mental or physical examination of the
licensee or applicant. No information shall be excluded by reason of any
common law or statutory privilege relating to communications between the
licensee or applicant and the examining physician. The individual to be
examined may have, at his or her own expense, another physician of his or
her choice present during all aspects of the examination. Failure of any
individual to submit to mental or physical examination, when directed,
shall be grounds for suspension of his or her license until such time as the
individual submits to the examination if the Department finds, after notice
and hearing, that the refusal to submit to the examination was without
reasonable cause.

If the Department or Board finds an individual unable to practice
because of the reasons set forth in this Section, the Department or Board
shall require such individual to submit to care, counseling, or treatment by
physicians approved or designated by the Department or Board, as a
condition, term, or restriction for continued, reinstated, or renewed
licensure to practice; or in lieu of care, counseling, or treatment, the
Department may file, or the Board may recommend to the Department to
file, a complaint to immediately suspend, revoke, or otherwise discipline
the license of the individual. Any individual whose license was granted
pursuant to this Act or continued, reinstated, renewed, disciplined or
supervised, subject to such terms, conditions or restrictions who shall fail
to comply with such terms, conditions or restrictions shall be referred to
the Secretary Director for a determination as to whether the licensee shall

have his or her license suspended immediately, pending a hearing by the Department. In instances in which the Secretary Director immediately suspends a license under this Section, a hearing upon such person's license must be convened by the Board within 30±15 days after such suspension and completed without appreciable delay. The Department and Board shall have the authority to review the subject administrator's record of treatment and counseling regarding the impairment, to the extent permitted by applicable federal statutes and regulations safeguarding the confidentiality of medical records.

An individual licensed under this Act, affected under this Section, shall be afforded an opportunity to demonstrate to the Department or Board that he or she can resume practice in compliance with acceptable and prevailing standards under the provisions of his or her license.

(b) Any individual or organization acting in good faith, and not in a wilful and wanton manner, in complying with this Act by providing any report or other information to the Department, or assisting in the investigation or preparation of such information, or by participating in proceedings of the Department, or by serving as a member of the Board, shall not, as a result of such actions, be subject to criminal prosecution or civil damages.

(c) Members of the Board, and persons retained under contract to assist and advise in an investigation, shall be indemnified by the State for any actions occurring within the scope of services on or for the Board, done in good faith and not wilful and wanton in nature. The Attorney General shall defend all such actions unless he or she determines either that there would be a conflict of interest in such representation or that the actions complained of were not in good faith or were wilful and wanton.

Should the Attorney General decline representation, a person entitled to indemnification under this Section shall have the right to employ counsel of his or her choice, whose fees shall be provided by the State, after approval by the Attorney General, unless there is a determination by a court that the member's actions were not in good faith or were wilful and wanton.
A person entitled to indemnification under this Section must notify the Attorney General within 7 days of receipt of notice of the initiation of any action involving services of the Board. Failure to so notify the Attorney General shall constitute an absolute waiver of the right to a defense and indemnification.

The Attorney General shall determine within 7 days after receiving such notice, whether he or she will undertake to represent a person entitled to indemnification under this Section.

(d) The determination by a circuit court that a licensee is subject to involuntary admission or judicial admission as provided in the Mental Health and Developmental Disabilities Code, as amended, operates as an automatic suspension. Such suspension will end only upon a finding by a court that the patient is no longer subject to involuntary admission or judicial admission and issues an order so finding and discharging the patient; and upon the recommendation of the Board to the Secretary Director that the licensee be allowed to resume his or her practice.

(e) The Department may refuse to issue or may suspend the license of any person who fails to file a return, or to pay the tax, penalty or interest shown in a filed return, or to pay any final assessment of tax, penalty or interest, as required by any tax Act administered by the Department of Revenue, until such time as the requirements of any such tax Act are satisfied.

(f) The Department of Public Health shall transmit to the Department a list of those facilities which receive an "A" violation as defined in Section 1-129 of the Nursing Home Care Act.

(Sec. 18. Cease and desist order.
(a) If any person who is not a licensed nursing home administrator violates a provision of this Act, the Secretary Director may, in the name of the People of the State of Illinois, through the Attorney General of the State of Illinois or the State's Attorney of any county in which the action is brought, petition for an order enjoining such violation or for an order
enforcing compliance with this Act. Upon the filing of a verified petition in court, the court may issue a temporary restraining order, without notice or bond, and may preliminarily and permanently enjoin such violation. If it is established that such person has violated or is violating the injunction, the Court may punish the offender for contempt of court. Proceedings under this Section shall be in addition to, and not in lieu of, all other remedies and penalties provided by this Act.

(b) If any person shall practice as a nursing home administrator or hold himself or herself out as a nursing home administrator without being licensed under the provisions of this Act, then any licensed nursing home administrator, any interested party, or any person injured thereby may, in addition to the Secretary Director, petition for relief as provided in subsection (a) of this Section.

Whoever knowingly practices or offers to practice nursing home administration in this State without being licensed for that purpose shall be guilty of a Class A misdemeanor and for each subsequent conviction shall be guilty of a Class 4 felony.

(c) Whenever in the opinion of the Department any person not licensed in good standing violates any provision of this Act, the Department may issue a rule to show cause why an order to cease and desist should not be entered against him or her. The rule shall clearly set forth the grounds relied upon by the Department and shall provide a period of 7 working days from the date of the rule to file an answer to the satisfaction of the Department. Failure to answer to the satisfaction of the Department shall cause an order to cease and desist to be issued immediately.

Sec. 19. Investigation; hearing notification. Upon the motion of either the Department or the Board or upon the verified complaint in writing of any person setting forth facts that, if proven, would constitute grounds for suspension or revocation under Section 17 of this Act, the Department shall investigate the actions of any person, so accused, who

holds or represents that he or she holds a license. Such a person is hereinafter called the accused.

The Department shall, before suspending, revoking, placing on probationary status, or taking any other disciplinary action as the Department may deem proper with regard to any license at least 30 days prior to the date set for the hearing, notify the accused in writing of any charges made and the time and place for a hearing of the charges before the Board, direct them to file their written answer to such notice to the Board under oath within 30 days after the service on them of such notice and inform them that if they fail to file such answer default will be taken against them and their license may be suspended, revoked, placed on probationary status, or have other disciplinary action, including limiting the scope, nature or extent of their practice, as the Department may deem proper taken with regard thereto.

Written notice and any notice in such proceedings thereafter may be served by personal delivery of the same, personally, to the accused, or by mailing the same by registered or certified mail to the applicant or licensee at his or her last address of record with address specified in their last notice to the Department.

Sec. 20. Board hearing; recommendation. At the time and place fixed in the notice, the Board shall proceed to hear the charges and the parties both the accused person and the complainant shall be accorded ample opportunity to present in person, or by counsel, such statements, testimony, evidence and argument as may be pertinent to the charges or to any defense thereto. The Board may continue such hearing from time to time. If the Board is not sitting at the time and place fixed in the notice or at the time and place to which the hearing has been continued, the Department shall continue such hearing for a period not to exceed 30 days.

In case the accused person, after receiving notice, fails to file an answer, the Board may recommend that his or her license be suspended, revoked or placed on probationary status, or the Board may recommend
whatever disciplinary action as it may deem proper, without a hearing, if the act or acts charged constitute sufficient grounds for such action under this Act.

The Board has the authority to recommend to the Secretary Director that probation be granted or that other disciplinary action be taken as it deems proper. If disciplinary action, other than suspension or revocation, is taken the Board may recommend that the Secretary Director impose reasonable limitations and requirements upon the accused to insure compliance with the terms of the probation or other disciplinary action, including but not limited to regular reporting by the accused to the Department of their actions, placing themselves under the care of a qualified physician for treatment, or limiting their practice in such manner as the Secretary Director may require.

The Secretary Director may summarily suspend the license of a nursing home administrator without a hearing, simultaneously with the institution of proceedings for a hearing provided under this Act Section if the Secretary Director finds that evidence in his or her possession indicates that an administrator's continuation in practice would constitute an immediate danger to the public. Sec. 21. Appointment of hearing officer. The Secretary Director shall have the authority to appoint an attorney duly licensed to practice law in the State of Illinois to serve as the hearing officer in any action for refusal to issue, renew, or discipline a license. The hearing officer shall have full authority to conduct the hearing. There shall be present at least one member of the Board at any such hearing. The hearing officer shall
report his or her findings of fact, conclusions of law, and recommendations to the Board. The Board shall have 60 days after receipt of the report to review the report of the hearing officer and present its findings of fact, conclusions of law, and recommendations to the Secretary. If the Board fails to present its report to the Secretary within the 60 day period, the respondent may request in writing a direct appeal to the Secretary, in which case the Secretary shall, within 7 calendar days after the request, issue an order directing the Board to issue its findings of fact, conclusions of law, and recommendations to the Secretary within 30 calendar days after such order. If the Board fails to issue its findings of fact, conclusions of law, and recommendations within that time frame to the Secretary after the entry of such order, the Secretary shall, within 30 calendar days thereafter, issue an order based upon the report of the hearing officer and the record of the proceedings or issue an order remanding the matter back to the hearing officer for additional proceedings in accordance with the order. If (i) a direct appeal is requested, (ii) the Board fails to issue its findings of fact, conclusions of law, and recommendations within the 30-day mandate from the Secretary or the Secretary fails to order the Board to do so, and (iii) the Secretary fails to issue an order within 30 calendar days thereafter, then the hearing officer's report is deemed accepted and a final decision of the Secretary. Notwithstanding any other provision of this Section, if the Secretary, upon review, determines that substantial justice has not been done in the revocation, suspension, or refusal to issue or renew a license or other disciplinary action taken as the result of the entry of the hearing officer's report, the Secretary may order a rehearing by the same or other examiners the Director may issue an order based on the report of the hearing officer. However, if the Board does present its report within the specified 60 days, the Director's order shall be based upon the report of the Board. If the Secretary disagrees with the recommendation of the Board or the hearing officer, the Secretary may issue an order in contravention of the Board's report. The Secretary shall promptly provide a written explanation to the Board on any such disagreement.

Sec. 22. Subpoena power. The Board or Department has power to subpoena and bring before it any person in this State and to take testimony either orally or by deposition, or both, with the same fees and mileage and in the same manner as is prescribed by law for judicial proceedings in civil cases.

The Department, upon a determination that probable cause exists that a violation of one or more of the grounds for discipline listed in Section 17 has occurred or is occurring, may subpoena the records of an individual licensed under this Act provided that prior to the submission of such records to the Board, all information indicating the identity of any resident shall be removed and deleted. The use of such records shall be restricted to members of the Board and appropriate staff of the Department for the purpose of determining the existence of one or more grounds for discipline of the nursing home administrator as provided for by Section 17 of this Act. Any such review of individual residents' records shall be conducted by the Board in strict confidentiality, provided that such resident records shall be admissible in a disciplinary hearing, before the Department, when necessary to substantiate the grounds for discipline alleged against the administrator licensed under this Act, and provided further that nothing herein shall be deemed to supersede the provisions of Part 21 of Article VIII of the Code of Civil Procedure, as now or hereafter amended, to the extent applicable.

The Secretary Director, the designated hearing officer, and any member of the Board have the power to administer oaths at any hearing that the Department is authorized to conduct and any other oaths authorized in an Act administered by the Department.

Sec. 24. Motion for rehearing. The Board shall present to the Secretary Director a written report of its findings and recommendations. A copy of such report shall be served upon the accused person, either
personally or by certified mail. Within 20 days after such service, the accused person may present to the Department a motion, in writing, for a rehearing, which shall specify the particular grounds for rehearing. If the accused person orders and pays for a transcript of the record as provided in Section 23, the time elapsing thereafter and before such transcript is ready for delivery to them shall not be counted as part of such 30 days.

The Department shall at least annually publish a list of the names of all persons disciplined under this Act in the preceding 12 months. Such lists shall be mailed by the Department to any person in the State upon request.

2. "Secretary Director" means the Secretary Director of Financial and Professional Regulation.
3. "Physician assistant" means any person not a physician who has been certified as a physician assistant by the National Commission on the Certification of Physician Assistants or equivalent successor agency and performs procedures under the supervision of a physician as defined in this Act. A physician assistant may perform such procedures within the specialty of the supervising physician, except that such physician shall exercise such direction, supervision and control over such physician assistants as will assure that patients shall receive quality medical care. Physician assistants shall be capable of performing a variety of tasks within the specialty of medical care under the supervision of a physician. Supervision of the physician assistant shall not be construed to necessarily require the personal presence of the supervising physician at all times at the place where services are rendered, as long as there is communication available for consultation by radio, telephone or telecommunications within established guidelines as determined by the physician/physician assistant team. The supervising physician may delegate tasks and duties to the physician assistant. Delegated tasks or duties shall be consistent with physician assistant education, training, and experience. The delegated tasks or duties shall be specific to the practice setting and shall be implemented and reviewed under guidelines established by the physician or physician/physician assistant team. 6. "Physician" means, for purposes of this Act, a person licensed to practice medicine in all its branches under the Medical Practice Act of 1987.

7. "Supervising Physician" means, for the purposes of this Act, the primary supervising physician of a physician assistant, who, within his specialty and expertise may delegate a variety of tasks and procedures to the physician assistant. Such tasks and procedures shall be delegated within established guidelines. The supervising physician maintains the final responsibility for the care of the patient and the performance of the physician assistant.

8. "Alternate supervising physician" means, for the purpose of this Act, any physician designated by the supervising physician to provide supervision in the event that he or she is unable to provide that supervision for a period not to exceed 30 days unless the Department is notified in writing. The Department may further define "alternate supervising physician" by rule.

The alternate supervising physicians shall maintain all the same responsibilities as the supervising physician. No more than 2 physician assistants shall be supervised by the supervising physician, although a physician assistant shall be able to hold more than one professional position. Each supervising physician shall file a notice of supervision of such physician assistant according to the rules of the Department. However, the alternate supervising physician may supervise more than 2 physician assistants when the supervising physician is unable to provide such supervision consistent with the definition of alternate physician in Section 4. It is the responsibility of the supervising physician to maintain documentation each time he or she has designated an alternative supervising physician. This documentation shall include the date alternate supervisory control began, the date alternate supervisory control ended, and any other changes. A supervising physician shall provide a copy of this documentation to the Department, upon request.

Nothing in this Act shall be construed to limit the delegation of tasks or duties by a physician to a nurse or other appropriately trained personnel.

Nothing in this Act shall be construed to prohibit the employment of physician assistants by a hospital, nursing home or other health care facility where such physician assistants function under the supervision of a supervising physician.

Physician assistants may be employed by the Department of Corrections or the Department of Human Services (as successor to the Department of Mental Health and Developmental Disabilities) for service in facilities maintained by such Departments and affiliated training facilities in programs conducted under the authority of the Director of...
Corrections or the Secretary of Human Services. Each physician assistant employed by the Department of Corrections or the Department of Human Services (as successor to the Department of Mental Health and Developmental Disabilities) shall be under the supervision of a physician engaged in clinical practice and direct patient care. Duties of each physician assistant employed by such Departments are limited to those within the scope of practice of the supervising physician who is fully responsible for all physician assistant activities.

A physician assistant may be employed by a practice group or other entity employing multiple physicians at one or more locations. In that case, one of the physicians practicing at a location shall be designated the supervising physician. The other physicians with that practice group or other entity who practice in the same general type of practice or specialty as the supervising physician may supervise the physician assistant with respect to their patients without being deemed alternate supervising physicians for the purpose of this Act.

AN ACT concerning education.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The School Code is amended by changing Section 14-7.02b as follows:

(105 ILCS 5/14-7.02b)

Sec. 14-7.02b. Funding for children requiring special education services. Payments to school districts for children requiring special education services documented in their individualized education program regardless of the program from which these services are received, excluding children claimed under Sections 14-7.02 and 14-7.03 of this Code, shall be made in accordance with this Section. Funds received under this Section may be used only for the provision of special educational facilities and services as defined in Section 14-1.08 of this Code.

The appropriation for fiscal year 2005 and thereafter shall be based upon the IDEA child count of all students in the State, excluding students claimed under Sections 14-7.02 and 14-7.03 of this Code, on December 1 of the fiscal year 2 years preceding, multiplied by 17.5% of the general State aid foundation level of support established for that fiscal year under Section 18-8.05 of this Code.

Beginning with fiscal year 2005 and through fiscal year 2007, individual school districts shall not receive payments under this Section totaling less than they received under the funding authorized under Section 14-7.02a of this Code during fiscal year 2004, pursuant to the provisions of Section 14-7.02a as they were in effect before the effective date of this amendatory Act of the 93rd General Assembly. This base level funding shall be computed first.

Beginning with fiscal year 2008 and each fiscal year thereafter, individual school districts must not receive payments under this Section totaling less than they received in fiscal year 2007. This funding shall be computed last and shall be a separate calculation from any other
calculation set forth in this Section. This amount is exempt from the requirements of Section 1D-1 of this Code.

An amount equal to 85% of the funds remaining in the appropriation, after subtracting any base level funding for that fiscal year, shall be allocated to school districts based upon the district's average daily attendance reported for purposes of Section 18-8.05 of this Code for the preceding school year. Fifteen percent of the funds remaining in the appropriation, after subtracting any base level funding for that fiscal year, shall be allocated to school districts based upon the district's low income eligible pupil count used in the calculation of general State aid under Section 18-8.05 of this Code for the same fiscal year. One hundred percent of the funds computed and allocated to districts under this Section shall be distributed and paid to school districts.

For individual students with disabilities whose program costs exceed 4 times the district's per capita tuition rate as calculated under Section 10-20.12a of this Code, the costs in excess of 4 times the district's per capita tuition rate shall be paid by the State Board of Education from unexpended IDEA discretionary funds originally designated for room and board reimbursement pursuant to Section 14-8.01 of this Code. The amount of tuition for these children shall be determined by the actual cost of maintaining classes for these children, using the per capita cost formula set forth in Section 14-7.01 of this Code, with the program and cost being pre-approved by the State Superintendent of Education. Reimbursement for individual students with disabilities whose program costs exceed 4 times the district's per capita tuition rate shall be claimed beginning with costs encumbered for the 2004-2005 school year and thereafter.

The State Board of Education shall prepare vouchers equal to one-fourth the amount allocated to districts, for transmittal to the State Comptroller on the 30th day of September, December, and March, respectively, and the final voucher, no later than June 20. The Comptroller shall make payments pursuant to this Section to school districts as soon as possible after receipt of vouchers. If the money appropriated from the General Assembly for such purposes for any year is insufficient, it shall be apportioned on the basis of the payments due to school districts.

New matter indicated by italics - deletions by strikeout
Nothing in this Section shall be construed to decrease or increase the percentage of all special education funds that are allocated annually under Article 1D of this Code or to alter the requirement that a school district provide special education services.

Nothing in this amendatory Act of the 93rd General Assembly shall eliminate any reimbursement obligation owed as of the effective date of this amendatory Act of the 93rd General Assembly to a school district with in excess of 500,000 inhabitants.

Section 99. Effective date. This Act takes effect upon becoming law.

Approved January 8, 2008.
Effective January 8, 2008.
AN ACT concerning State government.
Be it enacted by the People of the State of Illinois, represented in
the General Assembly:

ARTICLE 1. SHORT TITLE; PURPOSE
Section 1-1. Short title. This Act may be cited as the FY2008
Budget Implementation Act.
Section 1-5. Purpose. It is the purpose of this Act to make changes
in State programs that are necessary to implement the FY2008 budget.

ARTICLE 3. STATE SERVICES ASSURANCE ACT FOR 2008
Section 3-1. Short title. This Article may be cited as the State
Services Assurance Act for FY2008, and references in this Article to "this
Act" mean this Article.
Section 3-5. Definitions. For the purposes of this Act:
"Frontline staff" means State employees in the RC 6, RC 9, RC 10,
RC 14, RC 28, RC 42, RC 62, RC 63, and CU 500 bargaining units in
titles represented by AFSCME as of June 1, 2007.
"On-board frontline staff" means frontline staff in paid status.
Section 3-10. Legislative intent and policy. The General Assembly
finds that State government delivers a myriad of services that are necessary
for the health, welfare, safety, and quality of life of all Illinois residents.
Because State services are used by many Illinois citizens who cannot speak
the English language fluently, there is a need for bilingual State
employees. The number of workers in State government who speak a
language other than English is inadequate, leaving those workers who do
speak another language overworked and incapable of meeting the rising
demand for their services.

In response to this crisis, it is the intent of the General Assembly in
FY 2008 to ensure the hiring and retention of additional bilingual frontline
staff in State agencies where public services are most used. These
additions take into account our State's current revenue crisis, and are a first
step. Raising bilingual staffing to meet higher national standards to fully
ensure the effective delivery of essential services is the long-term goal of the General Assembly.

Section 3-15. Staffing standards. On or before July 1, 2008 each named agency shall increase and maintain the number of bilingual on-board frontline staff over the levels that it maintained on June 30, 2007 as follows:

1. The Department of Corrections shall have at least 40 additional bilingual on-board frontline staff.
2. Mental health and developmental centers operated by the Department of Human Services shall have at least 20 additional bilingual on-board frontline staff.
3. Family and Community Resource Centers operated by the Department of Human Services shall have at least 100 additional bilingual on-board frontline staff.
4. The Department of Children and Family Services shall have at least 40 additional bilingual on-board frontline staff.
5. The Department of Veterans Affairs shall have at least 5 additional bilingual on-board frontline staff.
6. The Environmental Protection Agency shall have at least 5 additional bilingual on-board frontline staff.
7. The Department of Employment Security shall have at least 10 additional bilingual on-board frontline staff.
8. The Department of Natural Resources shall have at least 5 additional bilingual on-board frontline staff.
9. The Department of Public Health shall have at least 5 additional bilingual on-board frontline staff.
10. The Department of State Police shall have at least 5 additional bilingual on-board frontline staff.
11. The Department of Juvenile Justice shall have at least 25 additional bilingual on-board frontline staff.

Section 3-20. Accountability. On or before April 1, 2008 and each year thereafter, each executive branch agency, board, and commission shall prepare and submit a report to the General Assembly on the staffing level of bilingual employees. The report shall provide data from the
previous month, including but not limited to each employees name, job title, job description, and languages spoken.

ARTICLE 5. AMENDATORY PROVISIONS

Section 5-1. The State Employees Group Insurance Act of 1971 is amended by changing Section 10 as follows:

(5 ILCS 375/10) (from Ch. 127, par. 530)

Sec. 10. Payments by State; premiums.

(a) The State shall pay the cost of basic non-contributory group life insurance and, subject to member paid contributions set by the Department or required by this Section, the basic program of group health benefits on each eligible member, except a member, not otherwise covered by this Act, who has retired as a participating member under Article 2 of the Illinois Pension Code but is ineligible for the retirement annuity under Section 2-119 of the Illinois Pension Code, and part of each eligible member's and retired member's premiums for health insurance coverage for enrolled dependents as provided by Section 9. The State shall pay the cost of the basic program of group health benefits only after benefits are reduced by the amount of benefits covered by Medicare for all members and dependents who are eligible for benefits under Social Security or the Railroad Retirement system or who had sufficient Medicare-covered government employment, except that such reduction in benefits shall apply only to those members and dependents who (1) first become eligible for such Medicare coverage on or after July 1, 1992; or (2) are Medicare-eligible members or dependents of a local government unit which began participation in the program on or after July 1, 1992; or (3) remain eligible for, but no longer receive Medicare coverage which they had been receiving on or after July 1, 1992. The Department may determine the aggregate level of the State's contribution on the basis of actual cost of medical services adjusted for age, sex or geographic or other demographic characteristics which affect the costs of such programs.

The cost of participation in the basic program of group health benefits for the dependent or survivor of a living or deceased retired employee who was formerly employed by the University of Illinois in the Cooperative Extension Service and would be an annuitant but for the fact

New matter indicated by italics - deletions by strikeout
that he or she was made ineligible to participate in the State Universities Retirement System by clause (4) of subsection (a) of Section 15-107 of the Illinois Pension Code shall not be greater than the cost of participation that would otherwise apply to that dependent or survivor if he or she were the dependent or survivor of an annuitant under the State Universities Retirement System.

(a-1) Beginning January 1, 1998, for each person who becomes a new SERS annuitant and participates in the basic program of group health benefits, the State shall contribute toward the cost of the annuitant's coverage under the basic program of group health benefits an amount equal to 5% of that cost for each full year of creditable service upon which the annuitant's retirement annuity is based, up to a maximum of 100% for an annuitant with 20 or more years of creditable service. The remainder of the cost of a new SERS annuitant's coverage under the basic program of group health benefits shall be the responsibility of the annuitant. In the case of a new SERS annuitant who has elected to receive an alternative retirement cancellation payment under Section 14-108.5 of the Illinois Pension Code in lieu of an annuity, for the purposes of this subsection the annuitant shall be deemed to be receiving a retirement annuity based on the number of years of creditable service that the annuitant had established at the time of his or her termination of service under SERS.

(a-2) Beginning January 1, 1998, for each person who becomes a new SERS survivor and participates in the basic program of group health benefits, the State shall contribute toward the cost of the survivor's coverage under the basic program of group health benefits an amount equal to 5% of that cost for each full year of the deceased employee's or deceased annuitant's creditable service in the State Employees' Retirement System of Illinois on the date of death, up to a maximum of 100% for a survivor of an employee or annuitant with 20 or more years of creditable service. The remainder of the cost of the new SERS survivor's coverage under the basic program of group health benefits shall be the responsibility of the survivor. In the case of a new SERS survivor who was the dependent of an annuitant who elected to receive an alternative retirement cancellation payment under Section 14-108.5 of the Illinois Pension Code
in lieu of an annuity, for the purposes of this subsection the deceased
annuitant's creditable service shall be determined as of the date of
termination of service rather than the date of death.

(a-3) Beginning January 1, 1998, for each person who becomes a
new SARS annuitant and participates in the basic program of group health
benefits, the State shall contribute toward the cost of the annuitant's
coverage under the basic program of group health benefits an amount
equal to 5% of that cost for each full year of creditable service upon which
the annuitant's retirement annuity is based, up to a maximum of 100% for
an annuitant with 20 or more years of creditable service. The remainder of
the cost of a new SARS annuitant's coverage under the basic program of
group health benefits shall be the responsibility of the annuitant.

(a-4) (Blank).

(a-5) Beginning January 1, 1998, for each person who becomes a
new SARS survivor and participates in the basic program of group health
benefits, the State shall contribute toward the cost of the survivor's
coverage under the basic program of group health benefits an amount
equal to 5% of that cost for each full year of the deceased employee's or
deceased annuitant's creditable service in the State Universities Retirement
System on the date of death, up to a maximum of 100% for a survivor of
an employee or annuitant with 20 or more years of creditable service. The
remainder of the cost of the new SARS survivor's coverage under the basic
program of group health benefits shall be the responsibility of the survivor.

(a-6) Beginning July 1, 1998, for each person who becomes a new
TRS State annuitant and participates in the basic program of group health
benefits, the State shall contribute toward the cost of the annuitant's
coverage under the basic program of group health benefits an amount
equal to 5% of that cost for each full year of creditable service as a teacher
as defined in paragraph (2), (3), or (5) of Section 16-106 of the Illinois
Pension Code upon which the annuitant's retirement annuity is based, up
to a maximum of 100%; except that the State contribution shall be 12.5%
per year (rather than 5%) for each full year of creditable service as a
regional superintendent or assistant regional superintendent of schools.
The remainder of the cost of a new TRS State annuitant's coverage under

the basic program of group health benefits shall be the responsibility of the
annuitant.

(a-7) Beginning July 1, 1998, for each person who becomes a new
TRS State survivor and participates in the basic program of group health
benefits, the State shall contribute toward the cost of the survivor's
coverage under the basic program of group health benefits an amount
equal to 5% of that cost for each full year of the deceased employee's or
deceased annuitant's creditable service as a teacher as defined in paragraph
(2), (3), or (5) of Section 16-106 of the Illinois Pension Code on the date
of death, up to a maximum of 100%; except that the State contribution
shall be 12.5% per year (rather than 5%) for each full year of the deceased
employee's or deceased annuitant's creditable service as a regional
superintendent or assistant regional superintendent of schools. The
remainder of the cost of the new TRS State survivor's coverage under the
basic program of group health benefits shall be the responsibility of the
survivor.

(a-8) A new SERS annuitant, new SERS survivor, new SURS
annuitant, new SURS survivor, new TRS State annuitant, or new TRS
State survivor may waive or terminate coverage in the program of group
health benefits. Any such annuitant or survivor who has waived or
terminated coverage may enroll or re-enroll in the program of group health
benefits only during the annual benefit choice period, as determined by the
Director; except that in the event of termination of coverage due to
nonpayment of premiums, the annuitant or survivor may not re-enroll in
the program.

(a-9) No later than May 1 of each calendar year, the Director of
Central Management Services shall certify in writing to the Executive
Secretary of the State Employees' Retirement System of Illinois the
amounts of the Medicare supplement health care premiums and the
amounts of the health care premiums for all other retirees who are not
Medicare eligible.

A separate calculation of the premiums based upon the actual cost
of each health care plan shall be so certified.
The Director of Central Management Services shall provide to the Executive Secretary of the State Employees' Retirement System of Illinois such information, statistics, and other data as he or she may require to review the premium amounts certified by the Director of Central Management Services.

The Department of Healthcare and Family Services, or any successor agency designated to procure healthcare contracts pursuant to this Act, is authorized to establish funds, separate accounts provided by any bank or banks as defined by the Illinois Banking Act, or separate accounts provided by any savings and loan association or associations as defined by the Illinois Savings and Loan Act of 1985 to be held by the Director, outside the State treasury, for the purpose of receiving the transfer of moneys from the Local Government Health Insurance Reserve Fund. The Department may promulgate rules further defining the methodology for the transfers. Any interest earned by moneys in the funds or accounts shall inure to the Local Government Health Insurance Reserve Fund. The transferred moneys, and interest accrued thereon, shall be used exclusively for transfers to administrative service organizations or their financial institutions for payments of claims to claimants and providers under the self-insurance health plan. The transferred moneys, and interest accrued thereon, shall not be used for any other purpose including, but not limited to, reimbursement of administration fees due the administrative service organization pursuant to its contract or contracts with the Department.

(b) State employees who become eligible for this program on or after January 1, 1980 in positions normally requiring actual performance of duty not less than 1/2 of a normal work period but not equal to that of a normal work period, shall be given the option of participating in the available program. If the employee elects coverage, the State shall contribute on behalf of such employee to the cost of the employee's benefit and any applicable dependent supplement, that sum which bears the same percentage as that percentage of time the employee regularly works when compared to normal work period.

(c) The basic non-contributory coverage from the basic program of group health benefits shall be continued for each employee not in pay status or on active service by reason of (1) leave of absence due to illness or injury, (2) authorized educational leave of absence or sabbatical leave, or (3) military leave with pay and benefits. This coverage shall continue until expiration of authorized leave and return to active service, but not to exceed 24 months for leaves under item (1) or (2). This 24-month limitation and the requirement of returning to active service shall not apply to persons receiving ordinary or accidental disability benefits or retirement benefits through the appropriate State retirement system or benefits under the Workers' Compensation or Occupational Disease Act.

(d) The basic group life insurance coverage shall continue, with full State contribution, where such person is (1) absent from active service by reason of disability arising from any cause other than self-inflicted, (2) on authorized educational leave of absence or sabbatical leave, or (3) on military leave with pay and benefits.

(e) Where the person is in non-pay status for a period in excess of 30 days or on leave of absence, other than by reason of disability, educational or sabbatical leave, or military leave with pay and benefits, such person may continue coverage only by making personal payment equal to the amount normally contributed by the State on such person's behalf. Such payments and coverage may be continued: (1) until such time as the person returns to a status eligible for coverage at State expense, but not to exceed 24 months, (2) until such person's employment or annuitant status with the State is terminated, or (3) for a maximum period of 4 years for members on military leave with pay and benefits and military leave without pay and benefits (exclusive of any additional service imposed pursuant to law).

(f) The Department shall establish by rule the extent to which other employee benefits will continue for persons in non-pay status or who are not in active service.

(g) The State shall not pay the cost of the basic non-contributory group life insurance, program of health benefits and other employee benefits for members who are survivors as defined by paragraphs (1) and

New matter indicated by italics - deletions by strikeout
(2) of subsection (q) of Section 3 of this Act. The costs of benefits for these survivors shall be paid by the survivors or by the University of Illinois Cooperative Extension Service, or any combination thereof. However, the State shall pay the amount of the reduction in the cost of participation, if any, resulting from the amendment to subsection (a) made by this amendatory Act of the 91st General Assembly.

(h) Those persons occupying positions with any department as a result of emergency appointments pursuant to Section 8b.8 of the Personnel Code who are not considered employees under this Act shall be given the option of participating in the programs of group life insurance, health benefits and other employee benefits. Such persons electing coverage may participate only by making payment equal to the amount normally contributed by the State for similarly situated employees. Such amounts shall be determined by the Director. Such payments and coverage may be continued until such time as the person becomes an employee pursuant to this Act or such person's appointment is terminated.

(i) Any unit of local government within the State of Illinois may apply to the Director to have its employees, annuitants, and their dependents provided group health coverage under this Act on a non-insured basis. To participate, a unit of local government must agree to enroll all of its employees, who may select coverage under either the State group health benefits plan or a health maintenance organization that has contracted with the State to be available as a health care provider for employees as defined in this Act. A unit of local government must remit the entire cost of providing coverage under the State group health benefits plan or, for coverage under a health maintenance organization, an amount determined by the Director based on an analysis of the sex, age, geographic location, or other relevant demographic variables for its employees, except that the unit of local government shall not be required to enroll those of its employees who are covered spouses or dependents under this plan or another group policy or plan providing health benefits as long as (1) an appropriate official from the unit of local government attests that each employee not enrolled is a covered spouse or dependent under this plan or another group policy or plan, and (2) at least 85% of the

New matter indicated by italics - deletions by strikeout
employees are enrolled and the unit of local government remits the entire
cost of providing coverage to those employees, except that a participating
school district must have enrolled at least 85% of its full-time employees
who have not waived coverage under the district's group health plan by
participating in a component of the district's cafeteria plan. A participating
school district is not required to enroll a full-time employee who has
waived coverage under the district's health plan, provided that an
appropriate official from the participating school district attests that the
full-time employee has waived coverage by participating in a component
of the district's cafeteria plan. For the purposes of this subsection,
"participating school district" includes a unit of local government whose
primary purpose is education as defined by the Department's rules.

Employees of a participating unit of local government who are not
enrolled due to coverage under another group health policy or plan may
enroll in the event of a qualifying change in status, special enrollment,
special circumstance as defined by the Director, or during the annual
Benefit Choice Period. A participating unit of local government may also
elect to cover its annuitants. Dependent coverage shall be offered on an
optional basis, with the costs paid by the unit of local government, its
employees, or some combination of the two as determined by the unit of
local government. The unit of local government shall be responsible for
timely collection and transmission of dependent premiums.

The Director shall annually determine monthly rates of payment,
subject to the following constraints:

(1) In the first year of coverage, the rates shall be equal to
the amount normally charged to State employees for elected
optional coverages or for enrolled dependents coverages or other
contributory coverages, or contributed by the State for basic
insurance coverages on behalf of its employees, adjusted for
differences between State employees and employees of the local
government in age, sex, geographic location or other relevant
demographic variables, plus an amount sufficient to pay for the
additional administrative costs of providing coverage to employees
of the unit of local government and their dependents.

New matter indicated by italics - deletions by strikeout
(2) In subsequent years, a further adjustment shall be made to reflect the actual prior years' claims experience of the employees of the unit of local government.

In the case of coverage of local government employees under a health maintenance organization, the Director shall annually determine for each participating unit of local government the maximum monthly amount the unit may contribute toward that coverage, based on an analysis of (i) the age, sex, geographic location, and other relevant demographic variables of the unit's employees and (ii) the cost to cover those employees under the State group health benefits plan. The Director may similarly determine the maximum monthly amount each unit of local government may contribute toward coverage of its employees' dependents under a health maintenance organization.

Monthly payments by the unit of local government or its employees for group health benefits plan or health maintenance organization coverage shall be deposited in the Local Government Health Insurance Reserve Fund.

The Local Government Health Insurance Reserve Fund is hereby created as a nonappropriated trust fund to be held outside the State Treasury, with the State Treasurer as custodian. The Local Government Health Insurance Reserve Fund shall be a continuing fund not subject to fiscal year limitations. All revenues arising from the administration of the health benefits program established under this Section shall be deposited into the Local Government Health Insurance Reserve Fund. Any interest earned on moneys in the Local Government Health Insurance Reserve Fund shall be deposited into the Fund. All expenditures from this Fund shall be used for payments for health care benefits for local government and rehabilitation facility employees, annuitants, and dependents, and to reimburse the Department or its administrative service organization for all expenses incurred in the administration of benefits. No other State funds may be used for these purposes.

A local government employer's participation or desire to participate in a program created under this subsection shall not limit that employer's
duty to bargain with the representative of any collective bargaining unit of its employees.

(j) Any rehabilitation facility within the State of Illinois may apply to the Director to have its employees, annuitants, and their eligible dependents provided group health coverage under this Act on a non-insured basis. To participate, a rehabilitation facility must agree to enroll all of its employees and remit the entire cost of providing such coverage for its employees, except that the rehabilitation facility shall not be required to enroll those of its employees who are covered spouses or dependents under this plan or another group policy or plan providing health benefits as long as (1) an appropriate official from the rehabilitation facility attests that each employee not enrolled is a covered spouse or dependent under this plan or another group policy or plan, and (2) at least 85% of the employees are enrolled and the rehabilitation facility remits the entire cost of providing coverage to those employees. Employees of a participating rehabilitation facility who are not enrolled due to coverage under another group health policy or plan may enroll in the event of a qualifying change in status, special enrollment, special circumstance as defined by the Director, or during the annual Benefit Choice Period. A participating rehabilitation facility may also elect to cover its annuitants. Dependent coverage shall be offered on an optional basis, with the costs paid by the rehabilitation facility, its employees, or some combination of the 2 as determined by the rehabilitation facility. The rehabilitation facility shall be responsible for timely collection and transmission of dependent premiums.

The Director shall annually determine quarterly rates of payment, subject to the following constraints:

(1) In the first year of coverage, the rates shall be equal to the amount normally charged to State employees for elected optional coverages or for enrolled dependents coverages or other contributory coverages on behalf of its employees, adjusted for differences between State employees and employees of the rehabilitation facility in age, sex, geographic location or other relevant demographic variables, plus an amount sufficient to pay
for the additional administrative costs of providing coverage to employees of the rehabilitation facility and their dependents.

(2) In subsequent years, a further adjustment shall be made to reflect the actual prior years' claims experience of the employees of the rehabilitation facility.

Monthly payments by the rehabilitation facility or its employees for group health benefits shall be deposited in the Local Government Health Insurance Reserve Fund.

(k) Any domestic violence shelter or service within the State of Illinois may apply to the Director to have its employees, annuitants, and their dependents provided group health coverage under this Act on a non-insured basis. To participate, a domestic violence shelter or service must agree to enroll all of its employees and pay the entire cost of providing such coverage for its employees. A participating domestic violence shelter may also elect to cover its annuitants. Dependent coverage shall be offered on an optional basis, with employees, or some combination of the 2 as determined by the domestic violence shelter or service. The domestic violence shelter or service shall be responsible for timely collection and transmission of dependent premiums.

The Director shall annually determine rates of payment, subject to the following constraints:

(1) In the first year of coverage, the rates shall be equal to the amount normally charged to State employees for elected optional coverages or for enrolled dependents coverages or other contributory coverages on behalf of its employees, adjusted for differences between State employees and employees of the domestic violence shelter or service in age, sex, geographic location or other relevant demographic variables, plus an amount sufficient to pay for the additional administrative costs of providing coverage to employees of the domestic violence shelter or service and their dependents.

(2) In subsequent years, a further adjustment shall be made to reflect the actual prior years' claims experience of the employees of the domestic violence shelter or service.

New matter indicated by italics - deletions by strikeout
Monthly payments by the domestic violence shelter or service or its employees for group health insurance shall be deposited in the Local Government Health Insurance Reserve Fund.

(l) A public community college or entity organized pursuant to the Public Community College Act may apply to the Director initially to have only annuitants not covered prior to July 1, 1992 by the district's health plan provided health coverage under this Act on a non-insured basis. The community college must execute a 2-year contract to participate in the Local Government Health Plan. Sec. 14.1. Appropriations for State contributions to the State Employees' Retirement System; payroll requirements.

(a) Appropriations for State contributions to the State Employees' Retirement System of Illinois shall be expended in the manner provided in this Section. Except as otherwise provided in subsection (a-1), at the time of each payment of salary to an employee under the personal services line item, payment shall be made to the State Employees' Retirement System, from the amount appropriated for State contributions to the State
Employees' Retirement System, of an amount calculated at the rate certified for the applicable fiscal year by the Board of Trustees of the State Employees' Retirement System under Section 14-135.08 of the Illinois Pension Code. If a line item appropriation to an employer for this purpose is exhausted or is unavailable due to any limitation on appropriations that may apply, (including, but not limited to, limitations on appropriations from the Road Fund under Section 8.3 of the State Finance Act), the amounts shall be paid under the continuing appropriation for this purpose contained in the State Pension Funds Continuing Appropriation Act.

(a-1) Beginning on the effective date of this amendatory Act of the 93rd General Assembly through the payment of the final payroll from fiscal year 2004 appropriations, appropriations for State contributions to the State Employees' Retirement System of Illinois shall be expended in the manner provided in this subsection (a-1). At the time of each payment of salary to an employee under the personal services line item from a fund other than the General Revenue Fund, payment shall be made for deposit into the General Revenue Fund from the amount appropriated for State contributions to the State Employees' Retirement System of an amount calculated at the rate certified for fiscal year 2004 by the Board of Trustees of the State Employees' Retirement System under Section 14-135.08 of the Illinois Pension Code. This payment shall be made to the extent that a line item appropriation to an employer for this purpose is available or unexhausted. No payment from appropriations for State contributions shall be made in conjunction with payment of salary to an employee under the personal services line item from the General Revenue Fund.

(b) Except during the period beginning on the effective date of this amendatory Act of the 93rd General Assembly and ending at the time of the payment of the final payroll from fiscal year 2004 appropriations, the State Comptroller shall not approve for payment any payroll voucher that (1) includes payments of salary to eligible employees in the State Employees' Retirement System of Illinois and (2) does not include the corresponding payment of State contributions to that retirement system at the full rate certified under Section 14-135.08 for that fiscal year for eligible employees, unless the balance in the fund on which the payroll

voucher is drawn is insufficient to pay the total payroll voucher, or unavailable due to any limitation on appropriations that may apply, including, but not limited to, limitations on appropriations from the Road Fund under Section 8.3 of the State Finance Act. If the State Comptroller approves a payroll voucher under this Section for which the fund balance is insufficient to pay the full amount of the required State contribution to the State Employees' Retirement System, the Comptroller shall promptly so notify the Retirement System.

(c) Notwithstanding any other provisions of law, beginning July 1, 2007, required State and employee contributions to the State Employees' Retirement System of Illinois relating to affected legislative staff employees shall be paid out of moneys appropriated for that purpose to the Commission on Government Forecasting and Accountability, rather than out of the lump-sum appropriations otherwise made for the payroll and other costs of those employees.

These payments must be made pursuant to payroll vouchers submitted by the employing entity as part of the regular payroll voucher process.

For the purpose of this subsection, "affected legislative staff employees" means legislative staff employees paid out of lump-sum appropriations made to the General Assembly, an Officer of the General Assembly, or the Senate Operations Commission, but does not include district-office staff or employees of legislative support services agencies.

(b) the transaction giving rise to the intangible expense or cost between the taxpayer and the foreign person did not have as a principal purpose the avoidance of

(iii) any item of intangible expense or cost paid, accrued, or incurred, directly or indirectly, from a transaction with a foreign person if the taxpayer establishes by clear and convincing evidence, that the adjustments are unreasonable; or if the taxpayer and the Director agree in writing to the application or use of an alternative method of apportionment under Section 304(f);

Nothing in this subsection shall preclude the Director from making any other adjustment otherwise allowed under Section 404 of this Act for any tax year beginning after the effective date of this amendment provided such adjustment is made pursuant to regulation adopted by the Department and such regulations provide methods and standards by which the Department will utilize its authority under Section 404 of this Act;

(G-12) An amount equal to the amount otherwise allowed as a deduction in computing base income for interest paid, accrued, or incurred, directly or indirectly, (i) for taxable years ending on or after December 31, 2004, to a foreign person who would be a member of the same unitary business group but for the fact that the foreign person's business activity outside the United States is 80% or more of the foreign person's total business activity and (ii) for taxable years ending on or after December 31, 2008, to a person who would be a member of the same unitary business group but for the fact that the person is prohibited under Section 1501(a)(27) from being included in the unitary business group because he or she is ordinarily required to apportion business income under different subsections of Section 304. (iv) an item of interest paid, accrued, or incurred, directly or indirectly, to a foreign person if the taxpayer establishes by clear and convincing evidence that the adjustments are unreasonable; or if the taxpayer and the Director agree in writing to the application or use of an alternative method of apportionment under Section 304(f).

Nothing in this subsection shall preclude the Director from making any other adjustment otherwise allowed under Section 404 of this Act for any tax year beginning after the effective date of this amendment provided such adjustment is made pursuant to regulation adopted by the Department and such regulations provide methods and standards by which the Department will utilize its authority under Section 404 of this Act; and

(D-8) An amount equal to the amount of intangible expenses and costs otherwise allowed as a deduction in computing base income, and that were paid, accrued, or incurred, directly or indirectly, (i) for taxable years ending on or after December 31, 2004, to a foreign person who would be a member of the same unitary business group but for the fact that the foreign person's business activity outside the United States is 80% or more of that person's total business activity and (ii) for taxable years ending on or after December 31, 2008, to a person who would be a member of the same unitary business group but for the fact that the person is prohibited under Section 1501(a)(27) from being included in the unitary business group because he or she is ordinarily required to apportion business income under different subsections of Section 304. The addition modification required by this subparagraph shall

be reduced to the extent that dividends were included in base income of the unitary group for the same taxable year and received by the taxpayer or by a member of the taxpayer's unitary business group (including amounts included in gross income pursuant to Sections 951 through 964 of the Internal Revenue Code and amounts included in gross income under Section 78 of the Internal Revenue Code) with respect to the stock of the same person to whom the intangible expenses and costs were directly or indirectly paid, incurred or accrued. The preceding sentence shall not apply to the extent that the same dividends caused a reduction to the addition modification required under Section 203(d)(2)(D-7) of this Act. As used in this subparagraph, the term "intangible expenses and costs" includes (1) expenses, losses, and costs for, or related to, the direct or indirect acquisition, use, maintenance or management, ownership, sale, exchange, or any other disposition of intangible property; (2) losses incurred, directly or indirectly, from factoring transactions or discounting transactions; (3) royalty, patent, technical, and copyright fees; (4) licensing fees; and (5) other similar expenses and costs. For purposes of this subparagraph, "intangible property" includes patents, patent applications, trade names, trademarks, service marks, copyrights, mask works, trade secrets, and similar types of intangible assets;

This paragraph shall not apply to the following:

(i) any item of intangible expenses or costs paid, accrued, or incurred, directly or indirectly, from a transaction with a foreign person who is subject in a foreign country or state, other than a state which requires mandatory unitary reporting, to a tax on or measured by net income with respect to such item; or

(ii) any item of intangible expense or cost paid, accrued, or incurred, directly or indirectly, if the taxpayer can establish, based on a preponderance of the evidence, both of the following:

(a) the foreign person during the same taxable year paid, accrued, or incurred, the intangible expense or cost to a person that is not a related member, and

(b) the transaction giving rise to the intangible expense or cost between the taxpayer and the foreign person did not have as a principal purpose the avoidance of Illinois income tax, and is paid pursuant to a contract or agreement that reflects arm's-length terms; or

(iii) any item of intangible expense or cost paid, accrued, or incurred, directly or indirectly, from a transaction with a foreign person if the taxpayer establishes by clear and convincing evidence, that the adjustments are unreasonable; or if the taxpayer and the Director agree in writing to the application or use of an alternative method of apportionment under Section 304(f);

Nothing in this subsection shall preclude the Director from making any other adjustment otherwise allowed under Section 404 of this Act for any tax year beginning after the effective date of this amendment provided such adjustment is made pursuant to regulation adopted by the Department and such regulations provide methods and standards by which the Department will utilize its authority under Section 404 of this Act;

The addition modification required by this subparagraph shall be reduced to the extent that dividends were included in base income of the unitary group for the same taxable year and received by the taxpayer or by a member of the taxpayer's unitary business group (including amounts included in gross income under Sections 951 through 964 of the Internal Revenue Code and amounts included in gross income under Section 78 of the Internal Revenue Code) with respect to the stock of the same person to whom the premiums intangible expenses and costs were directly or indirectly paid, incurred, or accrued. taken on the taxpayer's federal income tax return under subsection (k) of Section 168 of the Internal Revenue Code and for each applicable taxable year thereafter, an amount equal to "x", where:

(1) "y" equals the amount of the depreciation deduction taken for the taxable year on the taxpayer's federal income tax return on property for which the bonus depreciation deduction was taken in any year under subsection (k) of Section 168 of the Internal Revenue Code, but not including the bonus depreciation deduction;

(2) for taxable years ending on or before December 31, 2005, "x" equals "y" multiplied by 30 and then divided by 70 (or "y" multiplied by 0.429); and

(3) for taxable years ending after December 31, 2005:

(i) for property on which a bonus depreciation deduction of 30% of the adjusted basis was taken, "x" equals "y" multiplied by 30 and then divided by 70 (or "y" multiplied by 0.429); and

The aggregate amount deducted under this subparagraph in all taxable years for any one piece of property may not exceed the amount of the bonus depreciation deduction taken on that property on the taxpayer's federal income tax return under subsection (k) of Section 168 of the Internal Revenue Code. This subparagraph (O) is exempt from the provisions of Section 250;

allocable thereto) with respect to transactions with (i) a foreign person who would be a member of the taxpayer's unitary business group but for the fact that the foreign person's business activity outside the United States is 80% or more of that person's total business activity and (ii) for taxable years ending on or after December 31, 2008, to a person who would be a member of the same unitary business group but for the fact that the person is prohibited under Section 1501(a)(27) from being included in the unitary business group because he or she is ordinarily required to apportion business income under different subsections of Section 304, but not to exceed the addition modification required to be made for the same taxable year under Section 203(d)(2)(D-7) for interest paid, accrued, or incurred, directly or indirectly, to the same person. This subparagraph (R) is exempt from Section 250; and

(S) An amount equal to the income from intangible property taken into account for the taxable year (net of the deductions allocable thereto) with respect to transactions with (i) a foreign person who would be a member of the taxpayer's unitary business group but for the fact that the foreign person's business activity outside the United States is 80% or more of that person's total business activity and (ii) for taxable years ending on or after December 31, 2008, to a person who would be a member of the same unitary business group but for the fact that the person is prohibited under Section 1501(a)(27) from being included in the unitary business group because he or she is ordinarily required to apportion business income under different subsections of Section 304, but not to exceed the addition modification required to be made for the same taxable year under Section 203(d)(2)(D-8) for intangible expenses and costs paid, accrued, or incurred, directly or indirectly, to the

and

(FF) An amount equal to the income from insurance premiums taken into account for the taxable year (net of the deductions allocable thereto) with respect to transactions with a person who would be a member of the same unitary business group but for the fact that the person is prohibited under Section 1501(a)(27) from being included in the unitary business group because he or she is ordinarily required to apportion business income under different subsections of Section 304, but not to exceed the addition modification required to be made for the same taxable year under Section 203(a)(2)(D-18) for intangible expenses and costs paid, accrued, or incurred, directly or indirectly, to the same person.

(e) Gross income; adjusted gross income; taxable income.

(1) In general. Subject to the provisions of paragraph (2) and subsection (b) (3), for purposes of this Section and Section 803(e), a taxpayer's gross income, adjusted gross income, or taxable income for the taxable year shall mean the amount of gross income, adjusted gross income or taxable income properly reportable for federal income tax purposes for the taxable year under the provisions of the Internal Revenue Code. Taxable income may be less than zero. However, for taxable years ending on or after December 31, 1986, net operating loss carryforwards from taxable years ending prior to December 31, 1986, may not exceed the sum of federal taxable income for the taxable year before net operating loss deduction, plus the excess of addition modifications over subtraction modifications for the taxable year. For taxable years ending prior to December 31, 1986, taxable income may never be an amount in excess of the net operating loss for the taxable year as defined in subsections (c) and (d) of Section 172 of the Internal Revenue Code, provided that when taxable income of a corporation (other than a Subchapter S corporation),

trust, or estate is less than zero and addition modifications, other than those provided by subparagraph (E) of paragraph (2) of subsection (b) for corporations or subparagraph (E) of paragraph (2) of subsection (c) for trusts and estates, exceed subtraction modifications, an addition modification must be made under those subparagraphs for any other taxable year to which the taxable income less than zero (net operating loss) is applied under Section 172 of the Internal Revenue Code or under subparagraph (E) of paragraph (2) of this subsection (e) applied in conjunction with Section 172 of the Internal Revenue Code.

(2) Special rule. For purposes of paragraph (1) of this subsection, the taxable income properly reportable for federal income tax purposes shall mean:

(A) Certain life insurance companies. In the case of a life insurance company subject to the tax imposed by Section 801 of the Internal Revenue Code, life insurance company taxable income, plus the amount of distribution from pre-1984 policyholder surplus accounts as calculated under Section 815a of the Internal Revenue Code;

(B) Certain other insurance companies. In the case of mutual insurance companies subject to the tax imposed by Section 831 of the Internal Revenue Code, insurance company taxable income;

(C) Regulated investment companies. In the case of a regulated investment company subject to the tax imposed by Section 852 of the Internal Revenue Code, investment company taxable income;

(D) Real estate investment trusts. In the case of a real estate investment trust subject to the tax imposed by Section 857 of the Internal Revenue Code, real estate investment trust taxable income;

(E) Consolidated corporations. In the case of a corporation which is a member of an affiliated group of corporations filing a consolidated income tax return for the
taxable year for federal income tax purposes, taxable income determined as if such corporation had filed a separate return for federal income tax purposes for the taxable year and each preceding taxable year for which it was a member of an affiliated group. For purposes of this subparagraph, the taxpayer's separate taxable income shall be determined as if the election provided by Section 243(b)(2) of the Internal Revenue Code had been in effect for all such years;

(F) Cooperatives. In the case of a cooperative corporation or association, the taxable income of such organization determined in accordance with the provisions of Section 1381 through 1388 of the Internal Revenue Code;

(G) Subchapter S corporations. In the case of: (i) a Subchapter S corporation for which there is in effect an election for the taxable year under Section 1362 of the Internal Revenue Code, the taxable income of such corporation determined in accordance with Section 1363(b) of the Internal Revenue Code, except that taxable income shall take into account those items which are required by Section 1363(b)(1) of the Internal Revenue Code to be separately stated; and (ii) a Subchapter S corporation for which there is in effect a federal election to opt out of the provisions of the Subchapter SRevision Act of 1982 and have applied instead the prior federal Subchapter S rules as in effect on July 1, 1982, the taxable income of such corporation determined in accordance with the federal Subchapter S rules as in effect on July 1, 1982; and

(H) Partnerships. In the case of a partnership, taxable income determined in accordance with Section 703 of the Internal Revenue Code, except that taxable income shall take into account those items which are required by Section 703(a)(1) to be separately stated but which would
be taken into account by an individual in calculating his taxable income.

(3) Recapture of business expenses on disposition of asset or business. Notwithstanding any other law to the contrary, if in prior years income from an asset or business has been classified as business income and in a later year is demonstrated to be non-business income, then all expenses, without limitation, deducted in such later year and in the 2 immediately preceding taxable years related to that asset or business that generated the non-business income shall be added back and recaptured as business income in the year of the disposition of the asset or business. Such amount shall be apportioned to Illinois using the greater of the apportionment fraction computed for the business under Section 304 of this Act for the taxable year or the average of the apportionment fractions computed for the business under Section 304 of this Act for the taxable year and for the 2 immediately preceding taxable years.

(f) Valuation limitation amount.

(1) In general. The valuation limitation amount referred to in subsections (a) (2) (G), (c) (2) (I) and (d)(2) (E) is an amount equal to:

(A) The sum of the pre-August 1, 1969 appreciation amounts (to the extent consisting of gain reportable under the provisions of Section 1245 or 1250 of the Internal Revenue Code) for all property in respect of which such gain was reported for the taxable year; plus

(B) The lesser of (i) the sum of the pre-August 1, 1969 appreciation amounts (to the extent consisting of capital gain) for all property in respect of which such gain was reported for federal income tax purposes for the taxable year, or (ii) the net capital gain for the taxable year, reduced in either case by any amount of such gain included in the amount determined under subsection (a) (2) (F) or (c) (2) (H).
(2) Pre-August 1, 1969 appreciation amount.

(A) If the fair market value of property referred to in paragraph (1) was readily ascertainable on August 1, 1969, the pre-August 1, 1969 appreciation amount for such property is the lesser of (i) the excess of such fair market value over the taxpayer's basis (for determining gain) for such property on that date (determined under the Internal Revenue Code as in effect on that date), or (ii) the total gain realized and reportable for federal income tax purposes in respect of the sale, exchange or other disposition of such property.

(B) If the fair market value of property referred to in paragraph (1) was not readily ascertainable on August 1, 1969, the pre-August 1, 1969 appreciation amount for such property is that amount which bears the same ratio to the total gain reported in respect of the property for federal income tax purposes for the taxable year, as the number of full calendar months in that part of the taxpayer's holding period for the property ending July 31, 1969 bears to the number of full calendar months in the taxpayer's entire holding period for the property.

(C) The Department shall prescribe such regulations as may be necessary to carry out the purposes of this paragraph.

(g) Double deductions. Unless specifically provided otherwise, nothing in this Section shall permit the same item to be deducted more than once.

(h) Legislative intention. Except as expressly provided by this Section there shall be no modifications or limitations on the amounts of income, gain, loss or deduction taken into account in determining gross income, adjusted gross income or taxable income for federal income tax purposes for the taxable year, or in the amount of such items entering into the computation of base income and net income under this Act for such

Sec. 304. Business income of persons other than residents.

(a) In general. The business income of a person other than a resident shall be allocated to this State if such person's business income is derived solely from this State. If a person other than a resident derives business income from this State and one or more other states, then, for tax years ending on or before December 30, 1998, and except as otherwise provided by this Section, such person's business income shall be apportioned to this State by multiplying the income by a fraction, the numerator of which is the sum of the property factor (if any), the payroll factor (if any) and 200% of the sales factor (if any), and the denominator of which is 4 reduced by the number of factors other than the sales factor which have a denominator of zero and by an additional 2 if the sales factor has a denominator of zero. For tax years ending on or after December 31, 1998, and except as otherwise provided by this Section, persons other than residents who derive business income from this State and one or more other states shall compute their apportionment factor by weighting their property, payroll, and sales factors as provided in subsection (h) of this Section.

(1) Property factor.

(A) The property factor is a fraction, the numerator of which is the average value of the person's real and tangible personal property owned or rented and used in the trade or business in this State during the taxable year and the denominator of which is the average value of all the person's real and tangible personal property owned or rented and used in the trade or business during the taxable year.

(B) Property owned by the person is valued at its original cost. Property rented by the person is valued at 8 times the net
annual rental rate. Net annual rental rate is the annual rental rate paid by the person less any annual rental rate received by the person from sub-rentals.

(C) The average value of property shall be determined by averaging the values at the beginning and ending of the taxable year but the Director may require the averaging of monthly values during the taxable year if reasonably required to reflect properly the average value of the person's property.

(2) Payroll factor.

(A) The payroll factor is a fraction, the numerator of which is the total amount paid in this State during the taxable year by the person for compensation, and the denominator of which is the total compensation paid everywhere during the taxable year.

(B) Compensation is paid in this State if:

(i) The individual's service is performed entirely within this State;

(ii) The individual's service is performed both within and without this State, but the service performed without this State is incidental to the individual's service performed within this State; or

(iii) Some of the service is performed within this State and either the base of operations, or if there is no base of operations, the place from which the service is directed or controlled is within this State, or the base of operations or the place from which the service is directed or controlled is not in any state in which some part of the service is performed, but the individual's residence is in this State.

(iv) Compensation paid to nonresident professional athletes.

(a) General. The Illinois source income of a nonresident individual who is a member of a professional athletic team includes the portion of the individual's total compensation for services performed as a member of a professional athletic team during the taxable year which the
number of duty days spent within this State performing services for the team in any manner during the taxable year bears to the total number of duty days spent both within and without this State during the taxable year.

(b) Travel days. Travel days that do not involve either a game, practice, team meeting, or other similar team event are not considered duty days spent in this State. However, such travel days are considered in the total duty days spent both within and without this State.

(c) Definitions. For purposes of this subpart (iv):

(1) The term "professional athletic team" includes, but is not limited to, any professional baseball, basketball, football, soccer, or hockey team.

(2) The term "member of a professional athletic team" includes those employees who are active players, players on the disabled list, and any other persons required to travel and who travel with and perform services on behalf of a professional athletic team on a regular basis. This includes, but is not limited to, coaches, managers, and trainers.

(3) Except as provided in items (C) and (D) of this subpart (3), the term "duty days" means all days during the taxable year from the beginning of the professional athletic team's official pre-season training period through the last game in which the team competes or is scheduled to compete. Duty days shall be counted for the year in which they occur, including where a team's official pre-season training period through the last game in which the team competes or is scheduled to compete, occurs during more than one tax year.

(A) Duty days shall also include days on which a member of a professional athletic
team performs service for a team on a date that does not fall within the foregoing period (e.g., participation in instructional leagues, the "All Star Game", or promotional "caravans"). Performing a service for a professional athletic team includes conducting training and rehabilitation activities, when such activities are conducted at team facilities.

(B) Also included in duty days are game days, practice days, days spent at team meetings, promotional caravans, preseason training camps, and days served with the team through all post-season games in which the team competes or is scheduled to compete.

(C) Duty days for any person who joins a team during the period from the beginning of the professional athletic team's official pre-season training period through the last game in which the team competes, or is scheduled to compete, shall begin on the day that person joins the team. Conversely, duty days for any person who leaves a team during this period shall end on the day that person leaves the team. Where a person switches teams during a taxable year, a separate duty-day calculation shall be made for the period the person was with each team.

(D) Days for which a member of a professional athletic team is not compensated and is not performing services for the team in any manner, including days

New matter indicated by italics - deletions by strikeout
when such member of a professional athletic team has been suspended without pay and prohibited from performing any services for the team, shall not be treated as duty days.

(E) Days for which a member of a professional athletic team is on the disabled list and does not conduct rehabilitation activities at facilities of the team, and is not otherwise performing services for the team in Illinois, shall not be considered duty days spent in this State. All days on the disabled list, however, are considered to be included in total duty days spent both within and without this State.

(4) The term "total compensation for services performed as a member of a professional athletic team" means the total compensation received during the taxable year for services performed:

(A) from the beginning of the official pre-season training period through the last game in which the team competes or is scheduled to compete during that taxable year; and

(B) during the taxable year on a date which does not fall within the foregoing period (e.g., participation in instructional leagues, the "All Star Game", or promotional caravans).

This compensation shall include, but is not limited to, salaries, wages, bonuses as described in this subpart, and any other type of compensation paid during the taxable year to a member of a professional athletic team for services performed in
that year. This compensation does not include strike benefits, severance pay, termination pay, contract or option year buy-out payments, expansion or relocation payments, or any other payments not related to services performed for the team.

For purposes of this subparagraph, "bonuses" included in "total compensation for services performed as a member of a professional athletic team" subject to the allocation described in Section 302(c)(1) are: bonuses earned as a result of play (i.e., performance bonuses) during the season, including bonuses paid for championship, playoff or "bowl" games played by a team, or for selection to all-star league or other honorary positions; and bonuses paid for signing a contract, unless the payment of the signing bonus is not conditional upon the signee playing any games for the team or performing any subsequent services for the team or even making the team, the signing bonus is payable separately from the salary and any other compensation, and the signing bonus is nonrefundable.

(3) Sales factor.

(A) The sales factor is a fraction, the numerator of which is the total sales of the person in this State during the taxable year, and the denominator of which is the total sales of the person everywhere during the taxable year.

(B) Sales of tangible personal property are in this State if:

(i) The property is delivered or shipped to a purchaser, other than the United States government, within this State regardless of the f. o. b. point or other conditions of the sale; or

(ii) The property is shipped from an office, store, warehouse, factory or other place of storage in this State.
and either the purchaser is the United States government or
the person is not taxable in the state of the purchaser;
provided, however, that premises owned or leased by a
person who has independently contracted with the seller for
the printing of newspapers, periodicals or books shall not
be deemed to be an office, store, warehouse, factory or
other place of storage for purposes of this Section. Sales of
tangible personal property are not in this State if the seller
and purchaser would be members of the same unitary
business group but for the fact that either the seller or
purchaser is a person with 80% or more of total business
activity outside of the United States and the property is
purchased for resale.
(B-1) Patents, copyrights, trademarks, and similar items of
intangible personal property.

(i) Gross receipts from the licensing, sale, or other
disposition of a patent, copyright, trademark, or similar
item of intangible personal property are in this State to the
extent the item is utilized in this State during the year the
gross receipts are included in gross income.
(ii) Place of utilization.

(I) A patent is utilized in a state to the extent
that it is employed in production, fabrication,
manufacturing, or other processing in the state or to
the extent that a patented product is produced in the
state. If a patent is utilized in more than one state,
the extent to which it is utilized in any one state
shall be a fraction equal to the gross receipts of the
licensee or purchaser from sales or leases of items
produced, fabricated, manufactured, or processed
within that state using the patent and of patented
items produced within that state, divided by the total
of such gross receipts for all states in which the
patent is utilized.
(II) A copyright is utilized in a state to the extent that printing or other publication originates in the state. If a copyright is utilized in more than one state, the extent to which it is utilized in any one state shall be a fraction equal to the gross receipts from sales or licenses of materials printed or published in that state divided by the total of such gross receipts for all states in which the copyright is utilized.

(III) Trademarks and other items of intangible personal property governed by this paragraph (B-1) are utilized in the state in which the commercial domicile of the licensee or purchaser is located.

(iii) If the state of utilization of an item of property governed by this paragraph (B-1) cannot be determined from the taxpayer's books and records or from the books and records of any person related to the taxpayer within the meaning of Section 267(b) of the Internal Revenue Code, 26 U.S.C. 267, the gross receipts attributable to that item shall be excluded from both the numerator and the denominator of the sales factor.

(B-2) Gross receipts from the license, sale, or other disposition of patents, copyrights, trademarks, and similar items of intangible personal property may be included in the numerator or denominator of the sales factor only if gross receipts from licenses, sales, or other disposition of such items comprise more than 50% of the taxpayer's total gross receipts included in gross income during the tax year and during each of the 2 immediately preceding tax years; provided that, when a taxpayer is a member of a unitary business group, such determination shall be made on the basis of the gross receipts of the entire unitary business group.

"Call-by-call Basis" means any method of charging for telecommunications services where the price is measured by individual calls.

"Communications Channel" means a physical or virtual path of communications over which signals are transmitted between or among customer channel termination points.

"Conference bridging service" means an "ancillary service" that links two or more participants of an audio or video conference call and may include the provision of a telephone number. A post-paid calling service includes telecommunications service, except a prepaid wireless calling service, that would be a prepaid calling service except it is not exclusively a telecommunication service.

"Prepaid telecommunication service" means the right to access exclusively telecommunications services, which must be paid for in advance and which enables the

origination of calls using an access number or authorization code, whether manually or electronically dialed, and that is sold in predetermined units or dollars of which the number declines with use in a known amount.

"Prepaid Mobile telecommunication service" means a telecommunications service that provides the right to utilize mobile wireless service as well as other non-telecommunication services, including but not limited to ancillary services, which must be paid for in advance that is sold in predetermined units or dollars of which the number declines with use in a known amount.

"Service address" means:

(a) The location of the telecommunications equipment to which a customer's call is charged and from which the call originates or terminates, regardless of where the call is billed or paid;

(b) If the location in line (a) is not known, service address means the origination point of the signal of the telecommunications services first identified by either the seller's telecommunications system or in information received by the seller from its service provider where the system used to transport such signals is not that of the seller; and
(c) If the locations in line (a) and line (b) are not known, the service address means the location of the customer's place of primary use.

"Telecommunications service" means the electronic transmission, conveyance, or routing of voice, data, audio, video, or any other information or signals to a point, or between or among points. The term "telecommunications service" includes such transmission, conveyance, or routing in which computer processing applications are used to act on the form, code or protocol of the content for purposes of transmission, conveyance or routing without regard to whether such service is referred to as voice over Internet protocol services or is classified by the Federal Communications Commission as enhanced or value added. "Telecommunications service" does not include:

(a) Data processing and information services that allow data to be generated, acquired, stored, processed, or retrieved and delivered by an electronic transmission to a purchaser when such purchaser's primary purpose for the underlying transaction is the processed data or information;

(b) Installation or maintenance of wiring or equipment on a customer's premises;

(h) "Ancillary services"; or

(i) Digital products "delivered electronically", including but not limited to software, music, video, reading materials or ring tones.

"Vertical service" means an "ancillary service" that is offered in connection with one or more "telecommunications services", which offers advanced calling features that allow customers to identify callers and to manage multiple calls and call connections, including "conference bridging services".

"Voice mail service" means an "ancillary service" that enables the customer to store, send or receive recorded messages. "Voice mail service" does not include any "vertical services" that the customer may be required to have in order to utilize the "voice mail service".

(ii) Receipts from the sale of telecommunications service sold on an individual call-by-call basis are in this State if either of the following applies:

(a) The call both originates and terminates in this State.

(b) The call either originates or terminates in this State and the service address is located in this State.

(iii) Receipts from the sale of postpaid telecommunications service at retail are in this State if the origination point of the telecommunication signal, as first identified by the service provider's telecommunication

(iv) Receipts from the sale of prepaid telecommunications service or prepaid mobile telecommunications service at retail are in this State if the purchaser obtains the prepaid card or similar means of conveyance at a location in this State. Receipts from recharging a prepaid telecommunications service or mobile telecommunications service is in this State if the purchaser's billing information indicates a location in this State.

(v) Receipts from the sale of private communication services are in this State as follows:

(b) 100% of receipts from charges for the total channel mileage between each channel termination point in this State.

(c) 50% of the total receipts from charges for service segments when those segments are between 2 customer channel termination points, 1 of which is located in this State and the other is located outside of this State, which segments are separately charged.

(d) The receipts from charges for service segments with a channel termination point located in this State and in two or more other states, and which segments are not separately billed, are in this State based on a percentage determined by dividing the number of customer channel termination points in this State by the total number of customer channel termination points.

(vi) Receipts from charges for ancillary services for telecommunications service sold to customers at retail are in this State if the customer's primary place of use of telecommunications services associated with those ancillary services is in this State. If the seller of those ancillary services cannot determine where the associated telecommunications are located, then the ancillary services shall be based on the location of the purchaser.

(vii) Receipts to access a carrier's network or from the sale of telecommunication services or ancillary services for resale are in this State as follows:

(a) 100% of the receipts from access fees attributable to intrastate telecommunications service that both originates and terminates in this State.

(b) 50% of the receipts from access fees attributable to interstate telecommunications service if the interstate call either originates or terminates in this State.

(c) 100% of the receipts from interstate end user access line charges, if the customer's service address is in this State. As used in this subdivision, "interstate end user access line charges" includes, but is not limited to, the surcharge approved by the federal communications commission and levied pursuant to 47 CFR 69.

(d) Gross receipts from sales of telecommunication services or from ancillary services for telecommunications services sold to other telecommunication service providers for resale shall be sourced to this State using the apportionment concepts used for non-resale receipts of telecommunications services if the information is readily available to make that

determination. If the information is not readily available, then the taxpayer may use any other reasonable and consistent method.

(C) For taxable years ending before December 31, 2008, sales, other than sales governed by paragraphs (B), (B-1), and (B-2), are in this State if:

(i) The income-producing activity is performed in this State; or

(ii) The income-producing activity is performed both within and without this State and a greater proportion of the income-producing activity is performed within this State than without this State, based on performance costs.

(C-5) For taxable years ending on or after December 31, 2008, sales, other than sales governed by paragraphs (B), (B-1), and (B-2), and (B-5), are in this State if any of the following criteria are met:

(i) The purchaser is in this State or the sale is otherwise attributable to this State's marketplace. The following examples are illustrative:

(i) Sales from the sale or lease of real property are in this State if the property is located in this State.

(ii) Sales from the lease or rental of tangible personal property are in this State if the property is located in this State during the rental period. Sales from the lease or rental of tangible personal property that is characteristically moving property, including, but not limited to, motor vehicles, rolling stock, aircraft, vessels, or mobile equipment are in this State to the extent that the property is used in this State.

(iii) In the case of interest, net gains (but not less than zero) and other items of income from intangible personal property, the sale is in this State if:

(a) in the case of a taxpayer who is a dealer in the item of intangible personal property within the meaning of Section 475 of the Internal Revenue

Code, the income or gain is received from a customer in this State. For purposes of this subparagraph, a customer is in this State if the customer is an individual, trust or estate who is a resident of this State and, for all other customers, if the customer's commercial domicile is in this State. Unless the dealer has actual knowledge of the residence or commercial domicile of a customer during a taxable year, the customer shall be deemed to be a customer in this State if the billing address of the customer, as shown in the records of the dealer, is in this State; or

(b) in all other cases, if the income-producing activity of the taxpayer is performed in this State or, if the income-producing activity of the taxpayer is performed both within and without this State, if a greater proportion of the income-producing activity of the taxpayer is performed within this State than in any other state, based on performance costs. Sales of intangible personal property are in this State if the purchaser realizes benefit from the property in this State. If the purchaser realizes benefit from the property both within and without this State, the gross receipts from the sale shall be divided among those states in which the taxpayer is taxable in proportion to the benefit in each state. If the proportionate benefit in this State cannot be determined, the sale shall be excluded from both the numerator and the denominator of the sales factor.

(iv) Sales of services are in this State if the services are received in this State. For the purposes of this section, gross receipts from the performance of services provided to a corporation, partnership, or trust may only be attributed

New matter indicated by italics - deletions by strikeout
to a state where that corporation, partnership, or trust has a fixed place of business. If the state where the services are received is not readily determinable or is a state where the corporation, partnership, or trust receiving the service does not have a fixed place of business, the services shall be deemed to be received at the location of the office of the customer from which the services were ordered in the regular course of the customer's trade or business. If the ordering office cannot be determined, the services shall be deemed to be received at the office of the customer to which the services are billed. If the taxpayer is not taxable in the state in which the services are received, the sale must be excluded from both the numerator and the denominator of the sales factor. If the benefit of the service is realized in this State. If the benefit of the service is realized both within and without this State, the gross receipts from the sale shall be divided among those states in which the taxpayer is taxable in proportion to the benefit of service realized in each state. If the proportionate benefit in this State cannot be determined, the sale shall be excluded from both the numerator and the denominator of the sales factor. The Department shall adopt rules prescribing where the benefit of specific types of service are received, including, but not limited to, telecommunications, broadcast, cable, advertising, publishing, and utility service, is realized.

(D) For taxable years ending on or after December 31, 1995, the following items of income shall not be included in the numerator or denominator of the sales factor: dividends; amounts included under Section 78 of the Internal Revenue Code; and Subpart F income as defined in Section 952 of the Internal Revenue Code. No inference shall be drawn from the enactment of this paragraph (D) in construing this Section for taxable years ending before December 31, 1995.
(E) Paragraphs (B-1) and (B-2) shall apply to tax years ending on or after December 31, 1999, provided that a taxpayer may elect to apply the provisions of these paragraphs to prior tax years. Such election shall be made in the form and manner prescribed by the Department, shall be irrevocable, and shall apply to all tax years; provided that, if a taxpayer's Illinois income tax liability for any tax year, as assessed under Section 903 prior to January 1, 1999, was computed in a manner contrary to the provisions of paragraphs (B-1) or (B-2), no refund shall be payable to the taxpayer for that tax year to the extent such refund is the result of applying the provisions of paragraph (B-1) or (B-2) retroactively. In the case of a unitary business group, such election shall apply to all members of such group for every tax year such group is in existence, but shall not apply to any taxpayer for any period during which that taxpayer is not a member of such group.

(b) Insurance companies.

(1) In general. Except as otherwise provided by paragraph (2), business income of an insurance company for a taxable year shall be apportioned to this State by multiplying such income by a fraction, the numerator of which is the direct premiums written for insurance upon property or risk in this State, and the denominator of which is the direct premiums written for insurance upon property or risk everywhere. For purposes of this subsection, the term "direct premiums written" means the total amount of direct premiums written, assessments and annuity considerations as reported for the taxable year on the annual statement filed by the company with the Illinois Director of Insurance in the form approved by the National Convention of Insurance Commissioners or such other form as may be prescribed in lieu thereof.

(2) Reinsurance. If the principal source of premiums written by an insurance company consists of premiums for reinsurance accepted by it, the business income of such company shall be apportioned to this State by multiplying such income by a fraction, the numerator of which is the sum of (i) direct premiums
written for insurance upon property or risk in this State, plus (ii) premiums written for reinsurance accepted in respect of property or risk in this State, and the denominator of which is the sum of (iii) direct premiums written for insurance upon property or risk everywhere, plus (iv) premiums written for reinsurance accepted in respect of property or risk everywhere. For taxable years ending before December 31, 2008, for purposes of this paragraph, premiums written for reinsurance accepted in respect of property or risk in this State, whether or not otherwise determinable, may, at the election of the company, be determined on the basis of the proportion which premiums written for reinsurance accepted from companies commercially domiciled in Illinois bears to premiums written for reinsurance accepted from all sources, or, alternatively, in the proportion which the sum of the direct premiums written for insurance upon property or risk in this State by each ceding company from which reinsurance is accepted bears to the sum of the total direct premiums written by each such ceding company for the taxable year.

(c) Financial organizations.

(1) In general. For taxable years ending before December 31, 2008, business income of a financial organization shall be apportioned to this State by multiplying such income by a fraction, the numerator of which is its business income from sources within this State, and the denominator of which is its business income from all sources. For the purposes of this subsection, the business income of a financial organization from sources within this State is the sum of the amounts referred to in subparagraphs (A) through (E) following, but excluding the adjusted income of an international banking facility as determined in paragraph (2):

(A) Fees, commissions or other compensation for financial services rendered within this State;

(B) Gross profits from trading in stocks, bonds or other securities managed within this State;
(C) Dividends, and interest from Illinois customers, which are received within this State;

(D) Interest charged to customers at places of business maintained within this State for carrying debit balances of margin accounts, without deduction of any costs incurred in carrying such accounts; and

(E) Any other gross income resulting from the operation as a financial organization within this State. In computing the amounts referred to in paragraphs (A) through (E) of this subsection, any amount received by a member of an affiliated group (determined under Section 1504(a) of the Internal Revenue Code but without reference to whether any such corporation is an "includible corporation" under Section 1504(b) of the Internal Revenue Code) from another member of such group shall be included only to the extent such amount exceeds expenses of the recipient directly related thereto.

(2) International Banking Facility. For taxable years ending before December 31, 2008:

(A) Adjusted Income. The adjusted income of an international banking facility is its income reduced by the amount of the floor amount.

(B) Floor Amount. The floor amount shall be the amount, if any, determined by multiplying the income of the international banking facility by a fraction, not greater than one, which is determined as follows:

   (i) The numerator shall be:

   The average aggregate, determined on a quarterly basis, of the financial organization's loans to banks in foreign countries, to foreign domiciled borrowers (except where secured primarily by real estate) and to foreign governments and other foreign official institutions, as reported for its branches, agencies and offices within the state on its
"Consolidated Report of Condition", Schedule A, Lines 2.c., 5.b., and 7.a., which was filed with the Federal Deposit Insurance Corporation and other regulatory authorities, for the year 1980, minus

The average aggregate, determined on a quarterly basis, of such loans (other than loans of an international banking facility), as reported by the financial institution for its branches, agencies and offices within the state, on the corresponding Schedule and lines of the Consolidated Report of Condition for the current taxable year, provided, however, that in no case shall the amount determined in this clause (the subtrahend) exceed the amount determined in the preceding clause (the minuend); and

(ii) the denominator shall be the average aggregate, determined on a quarterly basis, of the international banking facility’s loans to banks in foreign countries, to foreign domiciled borrowers (except where secured primarily by real estate) and to foreign governments and other foreign official institutions, which were recorded in its financial accounts for the current taxable year.

(C) Change to Consolidated Report of Condition and in Qualification. In the event the Consolidated Report of Condition which is filed with the Federal Deposit Insurance Corporation and other regulatory authorities is altered so that the information required for determining the floor amount is not found on Schedule A, lines 2.c., 5.b. and 7.a., the financial institution shall notify the Department and the Department may, by regulations or otherwise, prescribe or authorize the use of an alternative source for such information. The financial institution shall also notify the Department should its international banking

facility fail to qualify as such, in whole or in part, or should there be any amendment or change to the Consolidated Report of Condition, as originally filed, to the extent such amendment or change alters the information used in determining the floor amount.

(3) For taxable years ending on or after December 31, 2008, the business income of a financial organization shall be apportioned to this State by multiplying such income by a fraction, the numerator of which is its gross receipts from sources in this State or otherwise attributable to this State's marketplace and the denominator of which is its gross receipts everywhere during the taxable year. "Gross receipts" for purposes of this subparagraph (3) means gross income, including net taxable gain on disposition of assets, including securities and money market instruments, when derived from transactions and activities in the regular course of the financial organization's trade or business. If a person derives business income from activities in addition to the provision of financial services, this subparagraph (3) shall apply only to its business income from financial services, and its other business income shall be apportioned to this State under the applicable provisions of this Section. The following examples are illustrative:

(i) Receipts from the lease or rental of real or tangible personal property are in this State if the property is located in this State during the rental period. Receipts from the lease or rental of tangible personal property that is characteristically moving property, including, but not limited to, motor vehicles, rolling stock, aircraft, vessels, or mobile equipment are from sources in this State to the extent that the property is used in this State.

(ii) Interest income, commissions, fees, gains on disposition, and other receipts from assets in the nature of loans that are secured primarily by real estate or tangible personal property are from sources in this State if the security is located in this State.

(iii) Interest income, commissions, fees, gains on disposition, and other receipts from consumer loans that are not secured by real or tangible personal property are from sources in this State if the debtor is a resident of this State.

(iv) Interest income, commissions, fees, gains on disposition, and other receipts from commercial loans and installment obligations that are not secured by real or tangible personal property are from sources in this State if the proceeds of the loan are to be applied in this State. If it cannot be determined where the funds are to be applied, the income and receipts are from sources in this State if the office of the borrower from which the loan was negotiated in the regular course of business is located in this State. If the location of this office cannot be determined, the income and receipts shall be excluded from the numerator and denominator of the sales factor.

(v) Interest income, fees, gains on disposition, service charges, merchant discount income, and other receipts from credit card receivables are from sources in this State if the card charges are regularly billed to a customer in this State.

(vi) Receipts from the performance of services, including, but not limited to, fiduciary, advisory, and brokerage services, are in this State if the services are received in this State within the meaning of subparagraph (a)(3)(C-5)(iv) of this Section. The benefit of the service is realized in this State if the benefit of the service is realized both within and without this State, the gross receipts from the sale shall be divided among those states in which the taxpayer is taxable in proportion to the benefit of service realized in each state. If the proportionate benefit in this State cannot be determined, the sale shall be excluded from both the numerator and the denominator of the gross receipts factor.

(vii) Receipts from the issuance of travelers checks and money orders are from sources in this State if the checks and money orders are issued from a location within this State.

(viii) Receipts from investment assets and activities and trading assets and activities are included in the receipts factor as follows:

(1) Interest, dividends, net gains (but not less than zero) and other income from investment assets and activities from trading assets and activities shall be included in the receipts factor. Investment assets and activities and trading assets and activities include but are not limited to: investment securities; trading account assets; federal funds; securities purchased and sold under agreements to resell or repurchase; options; futures contracts; forward contracts; notional principal contracts such as swaps; equities; and foreign currency transactions. With respect to the investment and trading assets and activities described in subparagraphs (A) and (B) of this paragraph, the receipts factor shall include the amounts described in such subparagraphs.

(A) The receipts factor shall include the amount by which interest from federal funds sold and securities purchased under resale agreements exceeds interest expense on federal funds purchased and securities sold under repurchase agreements.

(B) The receipts factor shall include the amount by which interest, dividends, gains and other income from trading assets and activities, including but not limited to assets and activities in the matched book, in

the arbitrage book, and foreign currency transactions, exceed amounts paid in lieu of interest, amounts paid in lieu of dividends, and losses from such assets and activities.

(2) The numerator of the receipts factor includes interest, dividends, net gains (but not less than zero), and other income from investment assets and activities and from trading assets and activities described in paragraph (1) of this subsection that are attributable to this State.

(A) The amount of interest, dividends, net gains (but not less than zero), and other income from investment assets and activities in the investment account to be attributed to this State and included in the numerator is determined by multiplying all such income from such assets and activities by a fraction, the numerator of which is the gross income from such assets and activities which are properly assigned to a fixed place of business of the taxpayer within this State and the denominator of which is the gross income from all such assets and activities.

(B) The amount of interest from federal funds sold and purchased and from securities purchased under resale agreements and securities sold under repurchase agreements attributable to this State and included in the numerator is determined by multiplying the amount described in subparagraph (A) of paragraph (1) of this subsection from such funds and such securities by a fraction, the numerator
of which is the gross income from such funds and such securities which are properly assigned to a fixed place of business of the taxpayer within this State and the denominator of which is the gross income from all such funds and such securities.

(C) The amount of interest, dividends, gains, and other income from trading assets and activities, including but not limited to assets and activities in the matched book, in the arbitrage book and foreign currency transactions (but excluding amounts described in subparagraphs (A) or (B) of this paragraph), attributable to this State and included in the numerator is determined by multiplying the amount described in subparagraph (B) of paragraph (1) of this subsection by a fraction, the numerator of which is the gross income from such trading assets and activities which are properly assigned to a fixed place of business of the taxpayer within this State and the denominator of which is the gross income from all such assets and activities.

(D) Properly assigned, for purposes of this paragraph (2) of this subsection, means the investment or trading asset or activity is assigned to the fixed place of business with which it has a preponderance of substantive contacts. An investment or trading asset or activity assigned by the taxpayer to a fixed place of business without the State shall be presumed to have been properly assigned if:

New matter indicated by italics - deletions by strikeout
(i) the taxpayer has assigned, in the regular course of its business, such asset or activity on its records to a fixed place of business consistent with federal or state regulatory requirements;

(ii) such assignment on its records is based upon substantive contacts of the asset or activity to such fixed place of business; and

(iii) the taxpayer uses such records reflecting assignment of such assets or activities for the filing of all state and local tax returns for which an assignment of such assets or activities to a fixed place of business is required.

(E) The presumption of proper assignment of an investment or trading asset or activity provided in subparagraph (D) of paragraph (2) of this subsection may be rebutted upon a showing by the Department, supported by a preponderance of the evidence, that the preponderance of substantive contacts regarding such asset or activity did not occur at the fixed place of business to which it was assigned on the taxpayer's records. If the fixed place of business that has a preponderance of substantive contacts cannot be determined for an investment or trading asset or activity to which the presumption in subparagraph (D) of paragraph (2) of this subsection does not apply or with respect to which that
premise has been rebutted, that asset or activity is properly assigned to the state in which the taxpayer's commercial domicile is located. For purposes of this subparagraph (E), it shall be presumed, subject to rebuttal, that taxpayer's commercial domicile is in the state of the United States or the District of Columbia to which the greatest number of employees are regularly connected with the management of the investment or trading income or out of which they are working, irrespective of where the services of such employees are performed, as of the last day of the taxable year. In the case of a financial organization that accepts deposits, receipts from investments and from money-market instruments are apportioned to this State based on the ratio that the total deposits of the financial organization (including all members of the financial organization's unitary group) from this State, its residents, (including businesses with an office or other place of business in this State), and its political subdivisions, agencies, and instrumentalities bear to total deposits everywhere. For purposes of this subdivision, deposits must be attributed to this State under the preceding sentence, whether or not the deposits are accepted or maintained by the financial organization at locations within this State. In the case of a financial organization that does not accept deposits, receipts from investments in securities and from money-market

instruments shall be excluded from the numerator and the denominator of the gross receipts factor.

(4) (Blank). As used in subparagraph (3), "deposit" includes but is not limited to:

(i) the unpaid balance of money or its equivalent received or held by a financial institution in the usual course of business and for which it has given or is obligated to give credit, either conditionally or unconditionally, to a commercial, checking, savings, time, or thrift account whether or not advance notice is required to withdraw the credited funds, or which is evidenced by its certificate of deposit, thrift certificate, investment certificate, or certificate of indebtedness, or other similar name, or a check or draft drawn against a deposit account and certified by the financial organization, or a letter of credit or a traveler's check on which the financial organization is primarily liable. However, without limiting the generality of the term "money or its equivalent", any such account or instrument must be regarded as evidencing the receipt of the equivalent of money when credited or issued in exchange for checks or drafts or for a promissory note upon which the person obtaining the credit or instrument is primarily or secondarily liable, or for a charge against a deposit account, or in settlement of checks, drafts, or other instruments forwarded to the bank for collection;

(ii) trust funds received or held by the financial organization, whether held in the trust department or held or deposited in any other department of the financial organization;

(iii) money received or held by a financial organization, or the credit given for money or its equivalent received or held by a financial organization, in the usual course of business for a special or specific purpose;

It does not include funds received by the financial organization for immediate application to the reduction of an indebtedness to the receiving financial organization, or under condition that the receipt of the funds immediately reduces or extinguishes the indebtedness;

(iv) outstanding drafts, including advice of another financial organization, cashier's checks, money orders, or other officer's checks issued in the usual course of business for any purpose, but not including those issued in payment for services, dividends, or purchases or other costs or expenses of the financial organization itself; and

(v) money or its equivalent held as a credit balance by a financial organization on behalf of its customer if the entity is engaged in soliciting and holding such balances in the regular course of its business.

(5) (Blank). As used in subparagraph (3), "money market instruments" includes but is not limited to:

(i) Interest-bearing deposits, federal funds sold and securities purchased under agreements to resell, commercial paper, banker's acceptances, and purchased certificates of deposit and similar instruments to the extent that the instruments are reflected as assets under generally accepted accounting principles.

"Securities" means corporate stock, bonds, and other securities (including, for purposes of taxation of gains on securities and for purchases under agreements to resell, United States Treasury securities, obligations of United States government agencies and corporations, obligations of state and political subdivisions, the interest on which is exempt from Illinois income tax), participations in securities backed by mortgages held by United States or state government agencies, loan-backed securities, and similar investments to the extent the investments are reflected as assets under generally accepted accounting principles.

(ii) For purposes of subparagraph (3), "money market instruments" shall include investments in investment partnerships, trusts, pools, funds, investment companies, or any similar entity in proportion to the investment of the entity in money market instruments, and "securities" shall include investments in investment partnerships, trusts, pools, funds, investment companies, or any similar entity in proportion to the investment of the entity in securities.

(d) Transportation services. For taxable years ending before December 31, 2008, business income derived from furnishing transportation services shall be apportioned to this State in accordance with paragraphs (1) and (2):

(1) Such business income (other than that derived from transportation by pipeline) shall be apportioned to this State by multiplying such income by a fraction, the numerator of which is the revenue miles of the person in this State, and the denominator of which is the revenue miles of the person everywhere. For purposes of this paragraph, a revenue mile is the transportation of 1 passenger or 1 net ton of freight the distance of 1 mile for a consideration. Where a person is engaged in the transportation of both passengers and freight, the fraction above referred to shall be

determined by means of an average of the passenger revenue mile fraction and the freight revenue mile fraction, weighted to reflect the person's

(A) relative railway operating income from total passenger and total freight service, as reported to the Interstate Commerce Commission, in the case of transportation by railroad, and

(B) relative gross receipts from passenger and freight transportation, in case of transportation other than by railroad.

(2) Such business income derived from transportation by pipeline shall be apportioned to this State by multiplying such income by a fraction, the numerator of which is the revenue miles of the person in this State, and the denominator of which is the revenue miles of the person everywhere. For the purposes of this paragraph, a revenue mile is the transportation by pipeline of 1 barrel of oil, 1,000 cubic feet of gas, or of any specified quantity of any other substance, the distance of 1 mile for a consideration.

(3) For taxable years ending on or after December 31, 2008, business income derived from providing transportation services other than airline services shall be apportioned to this State by using a fraction, (a) the numerator of which shall be (i) all receipts from any movement or shipment of people, goods, mail, oil, gas, or any other substance (other than by airline) that both originates and terminates in this State, plus (ii) that portion of the person's gross receipts from movements or shipments of people, goods, mail, oil, gas, or any other substance (other than by airline) that originates in one state or jurisdiction and terminates in another state or jurisdiction passing through, into, or out of this State, that is determined by the ratio that the miles traveled in this State bears to total miles everywhere from point of origin to point of destination and (b) the denominator of which shall be all revenue derived from the movement or shipment of people, goods, mail, oil, gas, or any other substance (other than by airline). Where a taxpayer is
engaged in the transportation of both passengers and freight, the
fraction above referred to shall first be determined separately for
passenger miles and freight miles. Then an average of the
passenger miles fraction and the freight miles fraction shall be
weighted to reflect the taxpayer’s:

(A) relative railway operating income from total
passenger and total freight service, as reported to the
Surface Transportation Board, in the case of transportation
by railroad; and

(B) relative gross receipts from passenger and
freight transportation, in case of transportation other than
by railroad. If a person derives business income from
activities in addition to the provision of transportation
services (other than by airline), this subsection shall apply
only to its business income from transportation services and
its other business income shall be apportioned to this State
according to the applicable provisions of this Section.

(4) For taxable years ending on or after December 31,
2008, business income derived from furnishing airline
transportation services shall be apportioned to this State by
multiplying such income by a fraction, the numerator of which is
the revenue miles of the person in this State, and the denominator
of which is the revenue miles of the person everywhere. For
purposes of this paragraph, a revenue mile is the transportation of
one passenger or one net ton of freight the distance of one mile for
a consideration. If a person is engaged in the transportation of
both passengers and freight, the fraction above referred to shall be
determined by means of an average of the passenger revenue mile
fraction and the freight revenue mile fraction, weighted to reflect
the person’s relative gross receipts from passenger and freight
airline transportation. For taxable years ending on or after
December 31, 2008, business income derived from providing
airline services shall be apportioned to this State by using a
fraction, (a) the numerator of which shall be arrivals of aircraft to

New matter indicated by italics - deletions by strikeout
and departures from this State weighted as to cost of aircraft by type and (b) the denominator of which shall be total arrivals and departures of aircraft weighted as to cost of aircraft by type. If a person derives business income from activities in addition to the provision of airline services, this subsection shall apply only to its business income from airline services and its other business income shall be apportioned to this State under the applicable provisions of this Section.

(e) Combined apportionment. Where 2 or more persons are engaged in a unitary business as described in subsection (a)(27) of Section 1501, a part of which is conducted in this State by one or more members of the group, the business income attributable to this State by any such member or members shall be apportioned by means of the combined apportionment method.

(f) Alternative allocation. If the allocation and apportionment provisions of subsections (a) through (e) and of subsection (h) do not fairly represent the extent of a person's business activity in this State, the person may petition for, or the Director may, without a petition, permit or require, in respect of all or any part of the person's business activity, if reasonable:

(1) Separate accounting;
(2) The exclusion of any one or more factors;
(3) The inclusion of one or more additional factors which will fairly represent the person's business activities in this State; or
(4) The employment of any other method to effectuate an equitable allocation and apportionment of the person's business income.

(g) Cross reference. For allocation of business income by residents, see Section 301(a).

(h) For tax years ending on or after December 31, 1998, the apportionment factor of persons who apportion their business income to this State under subsection (a) shall be equal to:

(1) for tax years ending on or after December 31, 1998 and before December 31, 1999, 16 2/3% of the property factor plus 16 2/3% of the payroll factor plus 66 2/3% of the sales factor;

New matter indicated by italics - deletions by strikeout
(2) for tax years ending on or after December 31, 1999 and before December 31, 2000, 8 1/3% of the property factor plus 8 1/3% of the payroll factor plus 83 1/3% of the sales factor;

(3) for tax years ending on or after December 31, 2000, the sales factor.

If, in any tax year ending on or after December 31, 1998 and before December 31, 2000, the denominator of the payroll, property, or sales factor is zero, the apportionment factor computed in paragraph (1) or (2) of this subsection for that year shall be divided by an amount equal to 100% minus the percentage weight given to each factor whose denominator is equal to zero.

(d) Regulatory authority. The Department may, by rule:

(1) If the aggregate amounts required to be withheld under this Article 7 do not exceed $1,000 for the calendar year, permit employers, in lieu of the requirements of subsections (b) and (c), to file annual returns due on or before January 31 of the following year for taxes withheld or required to be withheld during that calendar year and to pay the taxes required to be shown on each such return no later than the due date for such return.

(2) Provide that any payment required to be made under subsection (c)(1) or (c)(2) is deemed to be timely to the extent paid by electronic funds transfer on or before the due date for deposit of federal income taxes withheld from, or federal employment taxes due with respect to, the wages from which the Illinois taxes were withheld.

withholds or is required to deduct and withhold tax from a person engaged
in domestic service employment, as that term is defined in Section 3510 of
the Internal Revenue Code, may comply with the requirements of this
Section with respect to such employees by filing an annual return and
paying the taxes required to be deducted and withheld on or before the
15th day of the fourth month following the close of the employer's taxable
year. The Department may allow the employer's return to be submitted
with the employer's individual income tax return or to be submitted with a
return due from the employer under Section 1400.2 of the Unemployment
Insurance Act.

(f) Magnetic media and electronic filing. Any W-2 Form that,
under the Internal Revenue Code and regulations promulgated thereunder,
is required to be submitted to the Internal Revenue Service on magnetic
media or electronically must also be submitted to the Department on
magnetic media or electronically for Illinois purposes, if required by the
Department.

composite return filed by the partnership or Subchapter S corporation for the taxable year under subsection (f) of Section 502 of this Act) an amount equal to the distributable share of the business income of the partnership, Subchapter S corporation, or trust apportionable to Illinois of that partner, shareholder, or beneficiary under Sections 702 and 704 and Subchapter S of the Internal Revenue Code, whether or not distributed, multiplied by the applicable rates of tax for that partner or shareholder under subsections (a) through (d) of Section 201 of this Act.

(b) Credit for taxes withheld. Any amount withheld under subsection (a) of this Section and paid to the Department shall be treated as a payment of the estimated tax liability or of the liability for withholding under this Section of the partner, shareholder, or beneficiary to whom the income is distributable for the taxable year in which that person incurred a liability under this Act with respect to that income. The Department shall adopt rules pursuant to which a partner, shareholder, or beneficiary may claim a credit against its obligation for withholding under this Section for amounts withheld under this Section with respect to income distributable to it by a partnership, Subchapter S corporation, or trust and allowing its partners, shareholders, or beneficiaries to claim a credit under this subsection (b) for those withheld amounts.

(c) Exemption from withholding.

(B) be subject to personal jurisdiction in this State for purposes of the collection of income taxes, together with related interest and penalties, imposed on the partner, shareholder, or beneficiary with respect to the income of the partnership, S corporation, or trust.

(2) The Department may revoke the exemption provided by this subsection (c) at any time that it determines that the nonresident partner, shareholder, or beneficiary is not abiding by the terms of the certificate. The Department shall notify the partnership, S corporation, or trust that it has revoked a certificate by notice left at the usual place of business of the partnership, S corporation, or trust or by mail to the last known address of the partnership, S corporation, or trust.

(3) A partnership, S corporation, or trust that receives a certificate under this subsection (c) properly completed by a nonresident partner, shareholder, or beneficiary shall not be required to withhold any amount from that partner, shareholder, or beneficiary, the payment of which would be due under Section 711(a-5) of this Act after the receipt of the certificate and no earlier than 60 days after the Department has notified the partnership, S corporation, or trust that the certificate has been revoked.

(4) Certificates received by a partnership, S corporation, or trust under this subsection (c) must be retained by the partnership, S corporation, or trust and a record of such certificates must be provided to the Department, in a format in which the record is available for review by the Department, upon request by the Department. (ii) A corporation meeting each of the following criteria:

the total assets of the corporation at any time during the tax year; and

(d) more than 50% of all interest-bearing obligations of the affiliated group payable to persons outside the group determined in accordance with generally accepted accounting principles must be obligations of the corporation.

This amendatory Act of the 91st General Assembly is declaratory of existing law.

(D) Subparagraphs (B) and (C) of this paragraph are declaratory of existing law and apply retroactively, for all tax years beginning on or before December 31, 1996, to all original returns, to all amended returns filed no later than 30 days after the effective date of this amendatory Act of 1996, and to all notices issued on or before the effective date of this amendatory Act of 1996 under subsection (a) of Section 903, subsection (a) of Section 904, subsection (e) of Section 909, or Section 912. (B) A person is not an income tax return preparer if all he or she does is

(i) furnish typing, reproducing, or other mechanical assistance;

New matter indicated by italics - deletions by strikeout
(iii) prepare as a fiduciary returns or claims for refunds for any person; or

(27) Unitary business group. The term "unitary business group" means a group of persons related through common ownership whose business activities are integrated with, dependent upon and contribute to each other. The group will not include those members whose business activity outside the United States is 80% or more of any such member's total business activity; for purposes of this paragraph and clause (a)(3)(B)(ii) of Section 304, business activity within the United States shall be measured by means of the factors ordinarily applicable under subsections (a), (b), (c), (d), or (h) of Section 304 except that, in the case of members ordinarily required to apportion business income by means of the 3 factor formula of property, payroll and sales specified in subsection (a) of Section 304, including the formula as weighted in subsection (h) of Section 304, such members shall not use the sales factor in the computation and the results of the property and payroll factor computations of subsection (a) of Section 304 shall be divided by 2 (by one if either the property or payroll factor has a denominator of zero). The computation required by the preceding sentence shall, in each case, involve the division of the member's property, payroll, or revenue miles in the United States, insurance premiums on property or risk in the United States, or financial organization business income from sources within the United States, as the case may be, by the respective worldwide figures for such items. Common ownership in the case of corporations is the direct or
indirect control or ownership of more than 50% of the outstanding voting stock of the persons carrying on unitary business activity. Unitary business activity can ordinarily be illustrated where the activities of the members are: (1) in the same general line (such as manufacturing, wholesaling, retailing of tangible personal property, insurance, transportation or finance); or (2) are steps in a vertically structured enterprise or process (such as the steps involved in the production of natural resources, which might include exploration, mining, refining, and marketing); and, in either instance, the members are functionally integrated through the exercise of strong centralized management (where, for example, authority over such matters as purchasing, financing, tax compliance, product line, personnel, marketing and capital investment is not left to each member). In no event, however, will any unitary business group include members which are ordinarily required to apportion business income under different subsections of Section 304 except that for tax years ending on or after December 31, 1987 this prohibition shall not apply to a unitary business group composed of one or more taxpayers all of which apportion business income pursuant to subsection (b) of Section 304, or all of which apportion business income pursuant to subsection (d) of Section 304, and a holding company of such single-factor taxpayers (see definition of "financial organization" for rule regarding holding companies of financial organizations). If a unitary business group would, but for the preceding sentence, include members that are ordinarily required to apportion business income under different subsections of Section 304, then for each subsection of Section 304 for which there are two or more members, there shall be a separate unitary business group composed of such members. For purposes of the preceding two sentences, a member is "ordinarily required to apportion business income" under a particular subsection of Section 304 if it would be required to use the apportionment method prescribed by such subsection except for the fact that it derives business income solely from Illinois. As used in this

New matter indicated by italics - deletions by strikeout
paragraph, the phrase "United States" means only the 50 states and
the District of Columbia, but does not include any territory or
possession of the United States or any area over which the United
States has asserted jurisdiction or claimed exclusive rights with
respect to the exploration for or exploitation of natural resources.

If the unitary business group members' accounting periods
differ, the common parent's accounting period or, if there is no
common parent, the accounting period of the member that is
expected to have, on a recurring basis, the greatest Illinois income
tax liability must be used to determine whether to use the
apportionment method provided in subsection (a) or subsection (h)
of Section 304. The prohibition against membership in a unitary
business group for taxpayers ordinarily required to apportion
income under different subsections of Section 304 does not apply
to taxpayers required to apportion income under subsection (a) and
subsection (h) of Section 304. The provisions of this amendatory
Act of 1998 apply to tax years ending on or after December 31,
1998.

(28) Subchapter S corporation. The term "Subchapter S
corporation" means a corporation for which there is in effect an
election under Section 1362 of the Internal Revenue Code, or for

Sec. 3-50. Manufacturing and assembly exemption. The manufacturing and assembling machinery and equipment exemption includes machinery and equipment that replaces machinery and equipment in an existing manufacturing facility as well as machinery and equipment that are for use in an expanded or new manufacturing facility. The machinery and equipment exemption also includes machinery and equipment used in the general maintenance or repair of exempt machinery and equipment or for in-house manufacture of exempt machinery and equipment. For the purposes of this exemption, terms have the following meanings:

(1) "Manufacturing process" means the production of an article of tangible personal property, whether the article is a finished product or an article for use in the process of manufacturing or assembling a different article of tangible personal property.

property, by a procedure commonly regarded as manufacturing, processing, fabricating, or refining that changes some existing material into a material with a different form, use, or name. In relation to a recognized integrated business composed of a series of operations that collectively constitute manufacturing, or individually constitute manufacturing operations, the manufacturing process commences with the first operation or stage of production in the series and does not end until the completion of the final product in the last operation or stage of production in the series. For purposes of this exemption, photoprocessing is a manufacturing process of tangible personal property for wholesale or retail sale.

(2) "Assembling process" means the production of an article of tangible personal property, whether the article is a finished product or an article for use in the process of manufacturing or assembling a different article of tangible personal property, by the combination of existing materials in a manner commonly regarded as assembling that results in an article or material of a different form, use, or name.

(3) "Machinery" means major mechanical machines or major components of those machines contributing to a manufacturing or assembling process.

Equipment includes chemicals or chemicals acting as catalysts but only if the chemicals or chemicals acting as catalysts effect a direct and immediate change upon a product.
being manufactured or assembled for wholesale or retail sale or lease.

(5) "Production related tangible personal property" means all tangible personal property that is used or consumed by the purchaser in a manufacturing facility in which a manufacturing process takes place and includes, without limitation, tangible personal property that is purchased for incorporation into real estate within a manufacturing facility and tangible personal property that is used or consumed in activities such as research and development, preproduction material handling, receiving, quality control, inventory control, storage, staging, and packaging for shipping and transportation purposes. "Production related tangible personal property" does not include (i) tangible personal property that is used, within or without a manufacturing facility, in sales, purchasing, accounting, fiscal management, marketing, personnel recruitment or selection, or landscaping or (ii) tangible personal property that is required to be titled or registered with a department, agency, or unit of federal, State, or local government.

The manufacturing and assembling machinery and equipment exemption includes production related tangible personal property that is purchased on or after July 1, 2007 and on or before June 30, 2008. The exemption for production related tangible personal property is subject to both of the following limitations:

(1) The maximum amount of the exemption for any one taxpayer may not exceed 5% of the purchase price of production related tangible personal property that is purchased on or after July 1, 2007 and on or before June 30, 2008. A credit under Section 3-85 of this Act may not be earned by the purchase of production related tangible personal property for which an exemption is received under this Section.

(2) The maximum aggregate amount of the exemptions for production related tangible personal property awarded under this Act and the Retailers' Occupation Tax Act to all taxpayers may not exceed $10,000,000. If the claims for the exemption exceed
$10,000,000, then the Department shall reduce the amount of the exemption to each taxpayer on a pro rata basis.

The Department may adopt rules to implement and administer the exemption for production related tangible personal property.

The manufacturing and assembling machinery and equipment exemption includes the sale of materials to a purchaser who produces exempted types of machinery, equipment, or tools and who rents or leases that machinery, equipment, or tools to a manufacturer of tangible personal property. This exemption also includes the sale of materials to a purchaser who manufactures those materials into an exempted type of machinery, equipment, or tools that the purchaser uses himself or herself in the manufacturing of tangible personal property. This exemption includes the sale of exempted types of machinery or equipment to a purchaser who is not the manufacturer, but who rents or leases the use of the property to a manufacturer. The purchaser of the machinery and equipment who has an active resale registration number shall furnish that number to the seller at the time of purchase. A user of the machinery, equipment, or tools without an active resale registration number shall prepare a certificate of exemption for each transaction stating facts establishing the exemption for that transaction, and that certificate shall be available to the Department for inspection or audit. The Department shall prescribe the form of the certificate. Informal rulings, opinions, or letters issued by the Department in response to an inquiry or request for an opinion from any person regarding the coverage and applicability of this exemption to specific devices shall be published, maintained as a public record, and made available for public inspection and copying. If the informal ruling, opinion, or letter contains trade secrets or other confidential information, where possible, the Department shall delete that information before publication. Whenever informal rulings, opinions, or letters contain a policy of general applicability, the Department shall formulate and adopt that policy as a rule in accordance with the Illinois Administrative Procedure Act.

(35 ILCS 120/2-45) (from Ch. 120, par. 441-45)

Sec. 2-45. Manufacturing and assembly exemption. The manufacturing and assembly machinery and equipment exemption includes machinery and equipment that replaces machinery and equipment in an existing manufacturing facility as well as machinery and equipment that are for use in an expanded or new manufacturing facility.

The machinery and equipment exemption also includes machinery and equipment used in the general maintenance or repair of exempt machinery and equipment or for in-house manufacture of exempt machinery and equipment. For the purposes of this exemption, terms have the following meanings:

(1) "Manufacturing process" means the production of an article of tangible personal property, whether the article is a finished product or an article for use in the process of manufacturing or assembling a different article of tangible personal property, by a procedure commonly regarded as manufacturing, processing, fabricating, or refining that changes some existing material or materials into a material with a different form, use, or name. In relation to a recognized integrated business composed of a series of operations that collectively constitute manufacturing, or individually constitute manufacturing operations, the manufacturing process commences with the first operation or stage
of production in the series and does not end until the completion of the final product in the last operation or stage of production in the series. For purposes of this exemption, photoprocessing is a manufacturing process of tangible personal property for wholesale or retail sale.

(2) "Assembling process" means the production of an article of tangible personal property, whether the article is a finished product or an article for use in the process of manufacturing or assembling a different article of tangible personal property, by the combination of existing materials in a manner commonly regarded as assembling that results in a material of a different form, use, or name.

(3) "Machinery" means major mechanical machines or major components of those machines contributing to a manufacturing or assembling process.

(4) "Equipment" includes an independent device or tool separate from machinery but essential to an integrated manufacturing or assembly process; including computers used primarily in a manufacturer's computer assisted design, computer assisted manufacturing (CAD/CAM) system; any subunit or assembly comprising a component of any machinery or auxiliary, adjunct, or attachment parts of machinery, such as tools, dies, jigs, fixtures, patterns, and molds; and any parts that require periodic replacement in the course of normal operation; but does not include hand tools. Equipment includes chemicals or chemicals acting as catalysts but only if the chemicals or chemicals acting as catalysts effect a direct and immediate change upon a product being manufactured or assembled for wholesale or retail sale or lease.

(5) "Production related tangible personal property" means all tangible personal property that is used or consumed by the purchaser in a manufacturing facility in which a manufacturing process takes place and includes, without limitation, tangible personal property that is purchased for incorporation into real
estate within a manufacturing facility and tangible personal property that is used or consumed in activities such as research and development, preproduction material handling, receiving, quality control, inventory control, storage, staging, and packaging for shipping and transportation purposes. "Production related tangible personal property" does not include (i) tangible personal property that is used, within or without a manufacturing facility, in sales, purchasing, accounting, fiscal management, marketing, personnel recruitment or selection, or landscaping or (ii) tangible personal property that is required to be titled or registered with a department, agency, or unit of federal, State, or local government. The manufacturing and assembling machinery and equipment exemption includes production related tangible personal property that is purchased on or after July 1, 2007 and on or before June 30, 2008. (d) If the amount that the State Board of Education will pay to a school district from fiscal year 2007 appropriations, as estimated by the State Board of Education on April 1, 2007, is less than the amount that the State Board of Education paid to the school district from fiscal year 2006 appropriations, then the State Board of Education, subject to appropriation, shall make a fiscal year 2007 transitional assistance payment to the school district in an amount equal to the difference between the estimated amount to be paid from fiscal year 2007 appropriations and the amount paid from fiscal year 2006 appropriations.

(e) Subject to appropriation, beginning on July 1, 2007, the State Board of Education shall adjust prior year information for the transitional assistance calculations under this Section in the event of the creation or reorganization of any school district pursuant to Article 11E of this Code, the dissolution of an entire district and the annexation of all of its territory to one or more other districts pursuant to Article 7 of this Code, or a boundary change whereby the enrollment of the annexing district increases by 90% or more as a result of annexing territory detached from another district pursuant to Article 7 of this Code.

Sec. 11E-135. Incentives. For districts reorganizing under this Article and for a district or districts that annex all of the territory of one or
more entire other school districts in accordance with Article 7 of this Code, the following payments shall be made from appropriations made for these purposes:

(a)(1) For a combined school district, as defined in Section 11E-20 of this Code, or for a unit district, as defined in Section 11E-25 of this Code, for its first year of existence, the general State aid and supplemental general State aid calculated under Section 18-8.05 of this Code shall be computed for the new district and for the previously existing districts for which property is totally included within the new district. If the computation on the basis of the previously existing districts is greater, a supplementary payment equal to the difference shall be made for the first 4 years of existence of the new district.

(2) For a school district that annexes all of the territory of one or more entire other school districts as defined in Article 7 of this Code, for the first year during which the change of boundaries attributable to the annexation becomes effective for all purposes, as determined under Section 7-9 of this Code, the general State aid and supplemental general State aid calculated under Section 18-8.05 of this Code shall be computed for the annexing district as constituted after the annexation and for the annexing and each annexed district as constituted prior to the annexation; and if the computation on the basis of the annexing and annexed districts as constituted prior to the annexation is greater, then a supplementary payment equal to the difference shall be made for the first 4 years of existence of the annexing school district as constituted upon the annexation.

(3) For 2 or more school districts that annex all of the territory of one or more entire other school districts, as defined in Article 7 of this Code, for the first year during which the change of boundaries attributable to the annexation becomes effective for all purposes, as determined under Section 7-9 of this Code, the general State aid and supplemental general State aid calculated under Section 18-8.05 of this Code shall be computed for each annexing district as constituted after the annexation and for each annexing and annexed district as constituted prior to the annexation; and if the aggregate of the general State aid and supplemental general State aid as

so computed for the annexing districts as constituted after the annexation is less than the aggregate of the general State aid and supplemental general State aid as so computed for the annexing and annexed districts, as constituted prior to the annexation, then a supplementary payment equal to the difference shall be made and allocated between or among the annexing districts, as constituted upon the annexation, for the first 4 years of their existence. The total difference payment shall be allocated between or among the annexing districts in the same ratio as the pupil enrollment from that portion of the annexed district or districts that is annexed to each annexing district bears to the total pupil enrollment from the entire annexed district or districts, as such pupil enrollment is determined for the school year last ending prior to the date when the change of boundaries attributable to the annexation becomes effective for all purposes. The amount of the total difference payment and the amount thereof to be allocated to the annexing districts shall be computed by the State Board of Education on the basis of pupil enrollment and other data that shall be certified to the State Board of Education, on forms that it shall provide for that purpose, by the regional superintendent of schools for each educational service region in which the annexing and annexed districts are located.

(4) For a school district conversion, as defined in Section 11E-15 of this Code, or a multi-unit conversion, as defined in subsection (b) of Section 11E-30 of this Code, if in their first year of existence the newly created elementary districts and the newly created high school district, from a school district conversion, or the newly created elementary district or districts and newly created combined high school - unit district, from a multi-unit conversion, qualify for less general State aid under Section 18-8.05 of this Code than would have been payable under Section 18-8.05 for that same year to the previously existing districts, then a supplementary payment equal to that difference shall be made for the first 4 years of existence of the newly created districts. The aggregate amount of each supplementary payment shall be allocated among the newly created districts in the proportion that the deemed pupil enrollment in each district during its first year of existence bears to the actual aggregate pupil enrollment.
enrollment in all of the districts during their first year of existence. For purposes of each allocation:

(A) the deemed pupil enrollment of the newly created high school district from a school district conversion shall be an amount equal to its actual pupil enrollment for its first year of existence multiplied by 1.25;

(B) the deemed pupil enrollment of each newly created elementary district from a school district conversion shall be an amount equal to its actual pupil enrollment for its first year of existence reduced by an amount equal to the product obtained when the amount by which the newly created high school district's deemed pupil enrollment exceeds its actual pupil enrollment for its first year of existence is multiplied by a fraction, the numerator of which is the actual pupil enrollment of the newly created elementary district for its first year of existence and the denominator of which is the actual aggregate pupil enrollment of all of the newly created elementary districts for their first year of existence;

(C) the deemed high school pupil enrollment of the newly created combined high school - unit district from a multi-unit conversion shall be an amount equal to its actual grades 9 through 12 pupil enrollment for its first year of existence multiplied by 1.25; and

(D) the deemed elementary pupil enrollment of each newly created district from a multi-unit conversion shall be an amount equal to each district's actual grade K through 8 pupil enrollment for its first year of existence, reduced by an amount equal to the product obtained when the amount by which the newly created combined high school - unit district's deemed high school pupil enrollment exceeds its actual grade 9 through 12 pupil enrollment for its first year of existence is multiplied by a fraction, the numerator of which is the actual grade K through 8 pupil enrollment of each newly created district for its first year of existence and the denominator of which is the actual aggregate pupil enrollment in all of the districts during their first year of existence. For purposes of each allocation:

grade K through 8 pupil enrollment of all such newly created districts for their first year of existence.

The aggregate amount of each supplementary payment under this subdivision (4) and the amount thereof to be allocated to the newly created districts shall be computed by the State Board of Education on the basis of pupil enrollment and other data, which shall be certified to the State Board of Education, on forms that it shall provide for that purpose, by the regional superintendent of schools for each educational service region in which the newly created districts are located.

(5) For a partial elementary unit district, as defined in subsection (a) or (c) of Section 11E-30 of this Code, if, in the first year of existence, the newly created partial elementary unit district qualifies for less general State aid and supplemental general State aid under Section 18-8.05 of this Code than would have been payable under that Section for that same year to the previously existing districts that formed the partial elementary unit district, then a supplementary payment equal to that difference shall be made to the partial elementary unit district for the first 4 years of existence of that newly created district.

(6) For an elementary opt-in, as described in subsection (d) of Section 11E-30 of this Code, the general State aid difference shall be computed in accordance with paragraph (5) of this subsection (a) as if the elementary opt-in was included in an optional elementary unit district at the optional elementary unit district's original effective date. If the calculation in this paragraph (6) is less than that calculated in paragraph (5) of this subsection (a) at the optional elementary unit district's original effective date, then no adjustments may be made. If the calculation in this paragraph (6) is more than that calculated in paragraph (5) of this subsection (a) at the optional elementary unit district's original effective date, then the excess must be paid as follows:

(A) If the effective date for the elementary opt-in is one year after the effective date for the optional elementary unit district, 100% of the calculated excess shall be paid to the optional elementary unit district in each of the first 4 years after the effective date of the elementary opt-in.

New matter indicated by italics - deletions by strikeout
(B) If the effective date for the elementary opt-in is 2 years after the effective date for the optional elementary unit district, 75% of the calculated excess shall be paid to the optional elementary unit district in each of the first 4 years after the effective date of the elementary opt-in.

(C) If the effective date for the elementary opt-in is 3 years after the effective date for the optional elementary unit district, 50% of the calculated excess shall be paid to the optional elementary unit district in each of the first 4 years after the effective date of the elementary opt-in.

(D) If the effective date for the elementary opt-in is 4 years after the effective date for the optional elementary unit district, 25% of the calculated excess shall be paid to the optional elementary unit district in each of the first 4 years after the effective date of the elementary opt-in.

(E) If the effective date for the elementary opt-in is 5 years after the effective date for the optional elementary unit district, the optional elementary unit district is not eligible for any additional incentives due to the elementary opt-in.

(6.5) For a school district that annexes territory detached from another school district whereby the enrollment of the annexing district increases by 90% or more as a result of the annexation, for the first year during which the change of boundaries attributable to the annexation becomes effective for all purposes as determined under Section 7-9 of this Code, the general State aid and supplemental general State aid calculated under this Section shall be computed for the district gaining territory and the district losing territory as constituted after the annexation and for the same districts as constituted prior to the annexation; and if the aggregate of the general State aid and supplemental general State aid as so computed for the district gaining territory and the district losing territory as constituted after the annexation is less than the aggregate of the general State aid and supplemental general State aid as so computed for the district gaining territory and the district losing territory as constituted prior to the annexation, then a supplementary payment shall be made to
the annexing district for the first 4 years of existence after the annexation, equal to the difference multiplied by the ratio of student enrollment in the territory detached to the total student enrollment in the district losing territory for the year prior to the effective date of the annexation. The amount of the total difference and the proportion paid to the annexing district shall be computed by the State Board of Education on the basis of pupil enrollment and other data that must be submitted to the State Board of Education in accordance with Section 7-14A of this Code. The changes to this Section made by this amendatory Act of the 95th General Assembly are intended to be retroactive and applicable to any annexation taking effect on or after July 1, 2004. For annexations that are eligible for payments under this paragraph (6.5) and that are effective on or after July 1, 2004, but before the effective date of this amendatory Act of the 95th General Assembly, the first required yearly payment under this paragraph (6.5) shall be paid in the fiscal year of the effective date of this amendatory Act of the 95th General Assembly. Subsequent required yearly payments shall be paid in subsequent fiscal years until the payment obligation under this paragraph (6.5) is complete.

(7) Claims for financial assistance under this subsection (a) may not be recomputed except as expressly provided under Section 18-8.05 of this Code.

(8) Any supplementary payment made under this subsection (a) must be treated as separate from all other payments made pursuant to Section 18-8.05 of this Code.

(b)(1) After the formation of a combined school district, as defined in Section 11E-20 of this Code, or a unit district, as defined in Section 11E-25 of this Code, a computation shall be made to determine the difference between the salaries effective in each of the previously existing districts on June 30, prior to the creation of the new district. For the first 4 years after the formation of the new district, a supplementary State aid reimbursement shall be paid to the new district equal to the difference between the sum of the salaries earned by each of the certificated members of the new district, while employed in one of the previously existing districts during the year immediately preceding the formation of the new district.

(2) After the territory of one or more school districts is annexed by one or more other school districts as defined in Article 7 of this Code, a computation shall be made to determine the difference between the salaries effective in each annexed district and in the annexing district or districts as they were each constituted on June 30 preceding the date when the change of boundaries attributable to the annexation became effective for all purposes, as determined under Section 7-9 of this Code. For the first 4 years after the annexation, a supplementary State aid reimbursement shall be paid to each annexing district as constituted after the annexation equal to the difference between the sum of the salaries earned by each of the certificated members of the annexing district as constituted after the annexation, while employed in an annexed or annexing district during the year immediately preceding the annexation, and the sum of the salaries those certificated members would have been paid during the immediately preceding year if placed on the salary schedule of whichever of the annexing or annexed districts had the highest salary schedule during the immediately preceding year.

(3) For each new high school district formed under a school district conversion, as defined in Section 11E-15 of this Code, the State shall make a supplementary payment for 4 years equal to the difference between the sum of the salaries earned by each certified member of the new high school district, while employed in one of the previously existing districts, and the sum of the salaries those certified members would have been paid if placed on the salary schedule of the previously existing district with the highest salary schedule.

(4) For each newly created partial elementary unit district, the State shall make a supplementary payment for 4 years equal to the difference between the sum of the salaries earned by each certified member of the newly created partial elementary unit district, while employed in one of the previously existing districts that formed the partial elementary unit district,

The salary schedules used in the calculation shall be those in effect in the previously existing districts for the school year prior to the creation of the new partial elementary unit district.

(5) For an elementary district opt-in, as described in subsection (d) of Section 11E-30 of this Code, the salary difference incentive shall be computed in accordance with paragraph (4) of this subsection (b) as if the opted-in elementary district was included in the optional elementary unit district at the optional elementary unit district's original effective date. If the calculation in this paragraph (5) is less than that calculated in paragraph (4) of this subsection (b) at the optional elementary unit district's original effective date, then no adjustments may be made. If the calculation in this paragraph (5) is more than that calculated in paragraph (4) of this subsection (b) at the optional elementary unit district's original effective date, then the excess must be paid as follows:

(A) If the effective date for the elementary opt-in is one year after the effective date for the optional elementary unit district, 100% of the calculated excess shall be paid to the optional elementary unit district in each of the first 4 years after the effective date of the elementary opt-in.

(B) If the effective date for the elementary opt-in is 2 years after the effective date for the optional elementary unit district, 75% of the calculated excess shall be paid to the optional elementary unit district in each of the first 4 years after the effective date of the elementary opt-in.

(C) If the effective date for the elementary opt-in is 3 years after the effective date for the optional elementary unit district, 50% of the calculated excess shall be paid to the optional elementary unit district in each of the first 4 years after the effective date of the elementary opt-in.

(D) If the effective date for the elementary opt-in is 4 years after the effective date for the partial elementary unit district, 25% of the calculated excess shall be paid to the optional elementary
unit district in each of the first 4 years after the effective date of the elementary opt-in.

(E) If the effective date for the elementary opt-in is 5 years after the effective date for the optional elementary unit district, the optional elementary unit district is not eligible for any additional incentives due to the elementary opt-in.

(5.5) (b-5) After the formation of a cooperative high school by 2 or more school districts under Section 10-22.22c of this Code, a computation shall be made to determine the difference between the salaries effective in each of the previously existing high schools on June 30 prior to the formation of the cooperative high school. For the first 4 years after the formation of the cooperative high school, a supplementary State aid reimbursement shall be paid to the cooperative high school equal to the difference between the sum of the salaries earned by each of the certificated members of the cooperative high school while employed in one of the previously existing high schools during the year immediately preceding the formation of the cooperative high school and the sum of the salaries those certificated members would have been paid during the year immediately prior to the formation of the cooperative high school if placed on the salary schedule of the previously existing high school with the highest salary schedule.

(5.10) After the annexation of territory detached from another school district whereby the enrollment of the annexing district increases by 90% or more as a result of the annexation, a computation shall be made to determine the difference between the salaries effective in the district gaining territory and the district losing territory as they each were constituted on June 30 preceding the date when the change of boundaries attributable to the annexation became effective for all purposes as determined under Section 7-9 of this Code. For the first 4 years after the annexation, a supplementary State aid reimbursement shall be paid to the annexing district equal to the difference between the sum of the salaries earned by each of the certificated members of the annexing district as constituted after the annexation while employed in the district gaining territory or the district losing territory during the year immediately before the annexation.
preceding the annexation and the sum of the salaries those certificated members would have been paid during such immediately preceding year if placed on the salary schedule of whichever of the district gaining territory or district losing territory had the highest salary schedule during the immediately preceding year. To be eligible for supplementary State aid reimbursement under this Section, the intergovernmental agreement to be submitted pursuant to Section 7-14A of this Code must show that staff members were transferred from the control of the district losing territory to the control of the district gaining territory in the annexation. The changes to this Section made by this amendatory Act of the 95th General Assembly are intended to be retroactive and applicable to any annexation taking effect on or after July 1, 2004. For annexations that are eligible for payments under this paragraph (5.10) and that are effective on or after July 1, 2004, but before the effective date of this amendatory Act of the 95th General Assembly, the first required yearly payment under this paragraph (5.10) shall be paid in the fiscal year of the effective date of this amendatory Act of the 95th General Assembly. Subsequent required yearly payments shall be paid in subsequent fiscal years until the payment obligation under this paragraph (5.10) is complete.

(6) The supplementary State aid reimbursement under this subsection (b) shall be treated as separate from all other payments made pursuant to Section 18-8.05 of this Code. In the case of the formation of a new district or cooperative high school, reimbursement shall begin during the first year of operation of the new district or cooperative high school, and in the case of an annexation of the territory of one or more school districts by one or more other school districts or the annexation of territory detached from a school district whereby the enrollment of the annexing district increases by 90% or more as a result of the annexation, reimbursement shall begin during the first year when the change in boundaries attributable to the annexation or division becomes effective for all purposes as determined pursuant to Section 7-9 of this Code, except that for an annexation of territory detached from a school district that is effective on or after July 1, 2004, but before the effective date of this amendatory Act of the 95th General Assembly, whereby the enrollment of
the annexing district increases by 90% or more as a result of the annexation, reimbursement shall begin during the fiscal year of the effective date of this amendatory Act of the 95th General Assembly. Each year that the new, annexing, or resulting district or cooperative high school, as the case may be, is entitled to receive reimbursement, the number of eligible certified members who are employed on October 1 in the district or cooperative high school shall be certified to the State Board of Education on prescribed forms by October 15 and payment shall be made on or before November 15 of that year.

(c)(1) For the first year after the formation of a combined school district, as defined in Section 11E-20 of this Code or a unit district, as defined in Section 11E-25 of this Code, a computation shall be made totaling each previously existing district's audited fund balances in the educational fund, working cash fund, operations and maintenance fund, and transportation fund for the year ending June 30 prior to the referendum for the creation of the new district. The new district shall be paid supplementary State aid equal to the sum of the differences between the deficit of the previously existing district with the smallest deficit and the deficits of each of the other previously existing districts.

(2) For the first year after the annexation of all of the territory of one or more entire school districts by another school district, as defined in Article 7 of this Code, computations shall be made, for the year ending June 30 prior to the date that the change of boundaries attributable to the annexation is allowed by the affirmative decision issued by the regional board of school trustees under Section 7-6 of this Code, notwithstanding any effort to seek administrative review of the decision, totaling the annexing district's and totaling each annexed district's audited fund balances in their respective educational, working cash, operations and maintenance, and transportation funds. The annexing district as constituted after the annexation shall be paid supplementary State aid equal to the sum of the differences between the deficit of whichever of the annexing or annexed districts as constituted prior to the annexation had the smallest deficit and the deficits of each of the other districts as constituted prior to the annexation.

(3) For the first year after the annexation of all of the territory of one or more entire school districts by 2 or more other school districts, as defined by Article 7 of this Code, computations shall be made, for the year ending June 30 prior to the date that the change of boundaries attributable to the annexation is allowed by the affirmative decision of the regional board of school trustees under Section 7-6 of this Code, notwithstanding any action for administrative review of the decision, totaling each annexing and annexed district's audited fund balances in their respective educational, working cash, operations and maintenance, and transportation funds. The annexing districts as constituted after the annexation shall be paid supplementary State aid, allocated as provided in this paragraph (3), in an aggregate amount equal to the sum of the differences between the deficit of whichever of the annexing or annexed districts as constituted prior to the annexation had the smallest deficit and the deficits of each of the other districts as constituted prior to the annexation. The aggregate amount of the supplementary State aid payable under this paragraph (3) shall be allocated between or among the annexing districts as follows:

(A) the regional superintendent of schools for each educational service region in which an annexed district is located prior to the annexation shall certify to the State Board of Education, on forms that it shall provide for that purpose, the value of all taxable property in each annexed district, as last equalized or assessed by the Department of Revenue prior to the annexation, and the equalized assessed value of each part of the annexed district that was annexed to or included as a part of an annexing district;

(B) using equalized assessed values as certified by the regional superintendent of schools under clause (A) of this paragraph (3), the combined audited fund balance deficit of each annexed district as determined under this Section shall be apportioned between or among the annexing districts in the same ratio as the equalized assessed value of that part of the annexed district that was annexed to or included as a part of an annexing district.

district bears to the total equalized assessed value of the annexed district; and

(C) the aggregate supplementary State aid payment under this paragraph (3) shall be allocated between or among, and shall be paid to, the annexing districts in the same ratio as the sum of the combined audited fund balance deficit of each annexing district as constituted prior to the annexation, plus all combined audited fund balance deficit amounts apportioned to that annexing district under clause (B) of this subsection, bears to the aggregate of the combined audited fund balance deficits of all of the annexing and annexed districts as constituted prior to the annexation.

(4) For the new elementary districts and new high school district formed through a school district conversion, as defined in subsection (b) of Section 11E-15 of this Code or the new elementary district or districts and new combined high school - unit district formed through a multi-unit conversion, as defined in subsection (b) of Section 11E-30 of this Code, a computation shall be made totaling each previously existing district's audited fund balances in the educational fund, working cash fund, operations and maintenance fund, and transportation fund for the year ending June 30 prior to the referendum establishing the new districts. In the first year of the new districts, the State shall make a one-time supplementary payment equal to the sum of the differences between the deficit of the previously existing district with the smallest deficit and the deficits of each of the other previously existing districts. A district with a combined balance among the 4 funds that is positive shall be considered to have a deficit of zero. The supplementary payment shall be allocated among the newly formed high school and elementary districts in the manner provided by the petition for the formation of the districts, in the form in which the petition is approved by the regional superintendent of schools or State Superintendent of Education under Section 11E-50 of this Code.

(5) For each newly created partial elementary unit district, as defined in subsection (a) or (c) of Section 11E-30 of this Code, a computation shall be made totaling the audited fund balances of each
previously existing district that formed the new partial elementary unit district in the educational fund, working cash fund, operations and maintenance fund, and transportation fund for the year ending June 30 prior to the referendum for the formation of the partial elementary unit district. In the first year of the new partial elementary unit district, the State shall make a one-time supplementary payment to the new district equal to the sum of the differences between the deficit of the previously existing district with the smallest deficit and the deficits of each of the other previously existing districts. A district with a combined balance among the 4 funds that is positive shall be considered to have a deficit of zero.

(6) For an elementary opt-in as defined in subsection (d) of Section 11E-30 of this Code, the deficit fund balance incentive shall be computed in accordance with paragraph (5) of this subsection (c) as if the opted-in elementary was included in the optional elementary unit district at the optional elementary unit district's original effective date. If the calculation in this paragraph (6) is less than that calculated in paragraph (5) of this subsection (c) at the optional elementary unit district's original effective date, then no adjustments may be made. If the calculation in this paragraph (6) is more than that calculated in paragraph (5) of this subsection (c) at the optional elementary unit district's original effective date, then the excess must be paid as follows:

(A) If the effective date for the elementary opt-in is one year after the effective date for the optional elementary unit district, 100% of the calculated excess shall be paid to the optional elementary unit district in the first year after the effective date of the elementary opt-in.

(B) If the effective date for the elementary opt-in is 2 years after the effective date for the optional elementary unit district, 75% of the calculated excess shall be paid to the optional elementary unit district in the first year after the effective date of the elementary opt-in.

(C) If the effective date for the elementary opt-in is 3 years after the effective date for the optional elementary unit district,
50% of the calculated excess shall be paid to the optional elementary unit district in the first year after the effective date of the elementary opt-in.

(D) If the effective date for the elementary opt-in is 4 years after the effective date for the optional elementary unit district, 25% of the calculated excess shall be paid to the optional elementary unit district in the first year after the effective date of the elementary opt-in.

(E) If the effective date for the elementary opt-in is 5 years after the effective date for the optional elementary unit district, the optional elementary unit district is not eligible for any additional incentives due to the elementary opt-in.

(6.5) For the first year after the annexation of territory detached from another school district whereby the enrollment of the annexing district increases by 90% or more as a result of the annexation, a computation shall be made totaling the audited fund balances of the district gaining territory and the audited fund balances of the district losing territory in the educational fund, working cash fund, operations and maintenance fund, and transportation fund for the year ending June 30 prior to the date that the change of boundaries attributable to the annexation is allowed by the affirmative decision of the regional board of school trustees under Section 7-6 of this Code, notwithstanding any action for administrative review of the decision. The annexing district as constituted after the annexation shall be paid supplementary State aid equal to the difference between the deficit of whichever district included in this calculation as constituted prior to the annexation had the smallest deficit and the deficit of each other district included in this calculation as constituted prior to the annexation, multiplied by the ratio of equalized assessed value of the territory detached to the total equalized assessed value of the district losing territory. The regional superintendent of schools for the educational service region in which a district losing territory is located prior to the annexation shall certify to the State Board of Education the value of all taxable property in the district losing territory and the value of all taxable property in the territory being

detached, as last equalized or assessed by the Department of Revenue prior to the annexation. To be eligible for supplementary State aid reimbursement under this Section, the intergovernmental agreement to be submitted pursuant to Section 7-14A of this Code must show that fund balances were transferred from the district losing territory to the district gaining territory in the annexation. The changes to this Section made by this amendatory Act of the 95th General Assembly are intended to be retroactive and applicable to any annexation taking effect on or after July 1, 2004. For annexations that are eligible for payments under this paragraph (6.5) and that are effective on or after July 1, 2004, but before the effective date of this amendatory Act of the 95th General Assembly, the required payment under this paragraph (6.5) shall be paid in the fiscal year of the effective date of this amendatory Act of the 95th General Assembly.

(7) For purposes of any calculation required under paragraph (1), (2), (3), (4), (5), or (6), or (6.5) of this subsection (c), a district with a combined fund balance that is positive shall be considered to have a deficit of zero. For purposes of determining each district's audited fund balances in its educational fund, working cash fund, operations and maintenance fund, and transportation fund for the specified year ending June 30, as provided in paragraphs (1), (2), (3), (4), (5), (6), and (6.5) of this subsection (c), the balance of each fund shall be deemed decreased by an amount equal to the amount of the annual property tax theretofore levied in the fund by the district for collection and payment to the district during the calendar year in which the June 30 fell, but only to the extent that the tax so levied in the fund actually was received by the district on or before or comprised a part of the fund on such June 30. For purposes of determining each district's audited fund balances, a calculation shall be made for each fund to determine the average for the 3 years prior to the specified year ending June 30, as provided in paragraphs (1), (2), (3), (4), (5), and (6), and (6.5) of this subsection (c), of the district's expenditures in the categories "purchased services", "supplies and materials", and "capital outlay", as those categories are defined in rules of the State Board of Education. If this 3-year average is less than the district's expenditures

in these categories for the specified year ending June 30, as provided in paragraphs (1), (2), (3), (4), (5), and (6) of this subsection (c), then the 3-year average shall be used in calculating the amounts payable under this Section in place of the amounts shown in these categories for the specified year ending June 30, as provided in paragraphs (1), (2), (3), (4), (5), and (6.5) of this subsection (c). Any deficit because of State aid not yet received may not be considered in determining the June 30 deficits. The same basis of accounting shall be used by all previously existing districts and by all annexing or annexed districts, as constituted prior to the annexation, in making any computation required under paragraphs (1), (2), (3), (4), (5), and (6.5) of this subsection (c).

(8) The supplementary State aid payments under this subsection (c) shall be treated as separate from all other payments made pursuant to Section 18-8.05 of this Code.

(d)(1) Following the formation of a combined school district, as defined in Section 11E-20 of this Code, a new elementary district or districts and a new high school district formed through a school district conversion, as defined in subsection (b) of Section 11E-15 of this Code, a new partial elementary unit district, as defined in Section 11E-30 of this Code, or a new elementary district or districts formed through a multi-unit conversion, as defined in subsection (b) of Section 11E-30 of this Code, or the annexation of all of the territory of one or more entire school districts by one or more other school districts, as defined in Article 7 of this Code, a supplementary State aid reimbursement shall be paid for the number of school years determined under the following table to each new or annexing district equal to the sum of $4,000 for each certified employee who is employed by the district on a full-time basis for the regular term of the school year:

| Reorganized District's Rank by type of district (unit, high school, elementary) | 3rd, 4th, |
| Reorganized District's Rank in Equalized Assessed Value Per Pupil by Quintile | |

New matter indicated by italics - deletions by strikeout
The State Board of Education shall make a one-time calculation of a reorganized district's quintile ranks. The average daily attendance used in this calculation shall be the best 3 months' average daily attendance for the district's first year. The equalized assessed value per pupil shall be the district's real property equalized assessed value used in calculating the district's first-year general State aid claim, under Section 18-8.05 of this Code, divided by the best 3 months' average daily attendance.

No annexing or resulting school districts shall be entitled to supplementary State aid under this subsection (d) unless the district acquires at least 30% of the average daily attendance of the district from which the territory is being detached or divided.

If a district results from multiple reorganizations that would otherwise qualify the district for multiple payments under this subsection (d) in any year, then the district shall receive a single payment only for that year based solely on the most recent reorganization.

(2) For an elementary opt-in, as defined in subsection (d) of Section 11E-30 of this Code, the full-time certified staff incentive shall be computed in accordance with paragraph (1) of this subsection (d), equal to the sum of $4,000 for each certified employee of the elementary district that opts-in who is employed by the optional elementary unit district on a full-time basis for the regular term of the school year. The calculation from this paragraph (2) must be paid as follows:

(A) If the effective date for the elementary opt-in is one year after the effective date for the optional elementary unit district, 100% of the amount calculated in this paragraph (2) shall be paid to the optional elementary unit district for the number of years calculated in paragraph (1) of this subsection (d) at the
optional elementary unit district's original effective date, starting in the second year after the effective date of the elementary opt-in.

(B) If the effective date for the elementary opt-in is 2 years after the effective date for the optional elementary unit district, 75% of the amount calculated in this paragraph (2) shall be paid to the optional elementary unit district for the number of years calculated in paragraph (1) of this subsection (d) at the optional elementary unit district's original effective date, starting in the second year after the effective date of the elementary opt-in.

(C) If the effective date for the elementary opt-in is 3 years after the effective date for the optional elementary unit district, 50% of the amount calculated in this paragraph (2) shall be paid to the optional elementary unit district for the number of years calculated in paragraph (1) of this subsection (d) at the optional elementary unit district's original effective date, starting in the second year after the effective date of the elementary opt-in.

(D) If the effective date for the elementary opt-in is 4 years after the effective date for the optional elementary unit district, 25% of the amount calculated in this paragraph (2) shall be paid to the optional elementary unit district for the number of years calculated in paragraph (1) of this subsection (d) at the optional elementary unit district's original effective date, starting in the second year after the effective date of the elementary opt-in.

(E) If the effective date for the elementary opt-in is 5 years after the effective date for the optional elementary unit district, the optional elementary unit district is not eligible for any additional incentives due to the elementary opt-in.

(2.5) (a-5) Following the formation of a cooperative high school by 2 or more school districts under Section 10-22.22c of this Code, a supplementary State aid reimbursement shall be paid for 3 school years to the cooperative high school equal to the sum of $4,000 for each certified employee who is employed by the cooperative high school on a full-time basis for the regular term of any such school year. If a cooperative high school results from multiple agreements that would otherwise qualify the

cooperative high school for multiple payments under this Section in any year, the cooperative high school shall receive a single payment for that year based solely on the most recent agreement.

(2.10) Following the annexation of territory detached from another school district whereby the enrollment of the annexing district increases 90% or more as a result of the annexation, a supplementary State aid reimbursement shall be paid to the annexing district equal to the sum of $4,000 for each certified employee who is employed by the annexing district on a full-time basis and shall be calculated in accordance with subsection (a) of this Section. To be eligible for supplementary State aid reimbursement under this Section, the intergovernmental agreement to be submitted pursuant to Section 7-14A of this Code must show that certified staff members were transferred from the control of the district losing territory to the control of the district gaining territory in the annexation. The changes to this Section made by this amendatory Act of the 95th General Assembly are intended to be retroactive and applicable to any annexation taking effect on or after July 1, 2004. For annexations that are eligible for payments under this paragraph (2.10) and that are effective on or after July 1, 2004, but before the effective date of this amendatory Act of the 95th General Assembly, the first required yearly payment under this paragraph (2.10) shall be paid in the second fiscal year after the effective date of this amendatory Act of the 95th General Assembly. Any subsequent required yearly payments shall be paid in subsequent fiscal years until the payment obligation under this paragraph (2.10) is complete.

(3) The supplementary State aid reimbursement payable under this subsection (d) shall be separate from and in addition to all other payments made to the district pursuant to any other Section of this Article.

(4) During May of each school year for which a supplementary State aid reimbursement is to be paid to a new or annexing school district or cooperative high school pursuant to this subsection (d), the school board or governing board shall certify to the State Board of Education, on forms furnished to the school board or governing board by the State Board of Education for purposes of this subsection (d), the number of certified employees for which the district or cooperative high school is entitled to

reimbursement under this Section, together with the names, certificate numbers, and positions held by the certified employees.

(5) Upon certification by the State Board of Education to the State Comptroller of the amount of the supplementary State aid reimbursement to which a school district or cooperative high school is entitled under this subsection (d), the State Comptroller shall draw his or her warrant upon the State Treasurer for the payment thereof to the school district or cooperative high school and shall promptly transmit the payment to the school district or cooperative high school through the appropriate school treasurer.

The reimbursement shall be limited to funds expended for construction and maintenance of special education facilities designed and utilized to house instructional programs, diagnostic services, other special education services for children with disabilities and reimbursement as provided in Section 14-13.01. There shall be no reimbursement for construction and maintenance of any administrative facility separated from special education facilities designed and utilized to house instructional programs, diagnostic services and other special education services for children with disabilities.

(a) For children who have not been identified as eligible for special education and for eligible children with physical disabilities, including all eligible children whose placement has been determined under Section 14-8.02 in hospital or home instruction, 1/2 of the teacher's salary but not more than $1,000 annually per child or $8,000 per teacher for the 1985-

Children to be included in any reimbursement under this paragraph must regularly receive a minimum of one hour of instruction each school day, or in lieu thereof of a minimum of 5 hours of instruction in each school week in order to qualify for full reimbursement under this Section. If the attending physician for such a child has certified that the child should not receive as many as 5 hours of instruction in a school week, however, reimbursement under this paragraph on account of that child shall be computed proportionate to the actual hours of instruction per week for that child divided by 5.

(b) For children described in Section 14-1.02, 4/5 of the cost of transportation for each such child, whom the State Superintendent of Education determined in advance requires special transportation service in order to take advantage of special educational facilities. Transportation costs shall be determined in the same fashion as provided in Section 29-5. For purposes of this subsection (b), the dates for processing claims specified in Section 29-5 shall apply.

(c) For each professional worker excluding those included in subparagraphs (a), (d), (e), and (f) of this Section, the annual sum of $8,000 for the 1985-1986 school year through the 2005-2006 school year and $9,000 for the 2006-2007 school year and for each school year and thereafter.

(d) For one full time qualified director of the special education program of each school district which maintains a fully approved program of special education the annual sum of $8,000 for the 1985-1986 school year through the 2005-2006 school year and $9,000 for the 2006-2007 school year and for each school year and thereafter. Districts participating in a joint agreement special education program shall not receive such reimbursement if reimbursement is made for a director of the joint agreement program.

(e) For each school psychologist as defined in Section 14-1.09 the annual sum of $8,000 for the 1985-1986 school year through the 2005-

(f) For each qualified teacher working in a fully approved program for children of preschool age who are deaf or hard-of-hearing the annual sum of $8,000 for the 1985-1986 school year through the 2005-2006 school year and $9,000 for the 2006-2007 school year and for each school year and thereafter.

(g) For readers, working with blind or partially seeing children 1/2 of their salary but not more than $400 annually per child. Readers may be employed to assist such children and shall not be required to be certified but prior to employment shall meet standards set up by the State Board of Education.

(h) For necessary non-certified employees working in any class or program for children defined in this Article, 1/2 of the salary paid or $2,800 annually per employee through the 2005-2006 school year and $3,500 per employee for the 2006-2007 school year and for each school year thereafter, whichever is less.

The State Board of Education shall set standards and prescribe rules for determining the allocation of reimbursement under this section on less than a full time basis and for less than a school year.

When any school district eligible for reimbursement under this Section operates a school or program approved by the State Superintendent of Education for a number of days in excess of the adopted school calendar but not to exceed 235 school days, such reimbursement shall be increased by 1/180 of the amount or rate paid hereunder for each day such school is operated in excess of 180 days per calendar year.

Notwithstanding any other provision of law, any school district receiving a payment under this Section or under Section 14-7.02, 14-7.02b, or 29-5 of this Code may classify all or a portion of the funds that it receives in a particular fiscal year or from general State aid pursuant to Section 18-8.05 of this Code as funds received in connection with any funding program for which it is entitled to receive funds from the State in that fiscal year (including, without limitation, any funding program referenced in this Section), regardless of the source or timing of the

receipt. The district may not classify more funds as funds received in connection with the funding program than the district is entitled to receive in that fiscal year for that program. Any classification by a district must be made by a resolution of its board of education. The resolution must identify the amount of any payments or general State aid to be classified under this paragraph and must specify the funding program to which the funds are to be treated as received in connection therewith. This resolution is controlling as to the classification of funds referenced therein. A certified copy of the resolution must be sent to the State Superintendent of Education. The resolution shall still take effect even though a copy of the resolution has not been sent to the State Superintendent of Education in a timely manner. No classification under this paragraph by a district shall affect the total amount or timing of money the district is entitled to receive under this Code. No classification under this paragraph by a district shall in any way relieve the district from or affect any requirements that otherwise would apply with respect to that funding program, including any accounting of funds by source, reporting expenditures by original source and purpose, reporting requirements, or requirements of providing services.

Sec. 18-8.05. Basis for apportionment of general State financial aid and supplemental general State aid to the common schools for the 1998-1999 and subsequent school years.

(A) General Provisions.

(1) The provisions of this Section apply to the 1998-1999 and subsequent school years. The system of general State financial aid provided for in this Section is designed to assure that, through a combination of State financial aid and required local resources, the financial support provided each pupil in Average Daily Attendance equals or exceeds a prescribed per pupil Foundation Level. This formula approach imputes a level of per pupil Available Local Resources and provides for the basis to calculate a per pupil level of general State financial aid that, when added to Available Local Resources, equals or
exceeds the Foundation Level. The amount of per pupil general State financial aid for school districts, in general, varies in inverse relation to Available Local Resources. Per pupil amounts are based upon each school district's Average Daily Attendance as that term is defined in this Section.

(2) In addition to general State financial aid, school districts with specified levels or concentrations of pupils from low income households are eligible to receive supplemental general State financial aid grants as provided pursuant to subsection (H). The supplemental State aid grants provided for school districts under subsection (H) shall be appropriated for distribution to school districts as part of the same line item in which the general State financial aid of school districts is appropriated under this Section.

(3) To receive financial assistance under this Section, school districts are required to file claims with the State Board of Education, subject to the following requirements:

(a) Any school district which fails for any given school year to maintain school as required by law, or to maintain a recognized school is not eligible to file for such school year any claim upon the Common School Fund. In case of nonrecognition of one or more attendance centers in a school district otherwise operating recognized schools, the claim of the district shall be reduced in the proportion which the Average Daily Attendance in the attendance center or centers bear to the Average Daily Attendance in the school district. A "recognized school" means any public school which meets the standards as established for recognition by the State Board of Education. A school district or attendance center not having recognition status at the end of a school term is entitled to receive State aid payments due upon a legal claim which was filed while it was recognized.

(b) School district claims filed under this Section are subject to Sections 18-9 and 18-12, except as otherwise provided in this Section.

(c) If a school district operates a full year school under Section 10-19.1, the general State aid to the school district shall be
determined by the State Board of Education in accordance with this
Section as near as may be applicable.
  (d) (Blank).

(4) Except as provided in subsections (H) and (L), the board of any
district receiving any of the grants provided for in this Section may apply
those funds to any fund so received for which that board is authorized to
make expenditures by law.

School districts are not required to exert a minimum Operating Tax
Rate in order to qualify for assistance under this Section.

(5) As used in this Section the following terms, when capitalized,
shall have the meaning ascribed herein:

  (a) "Average Daily Attendance": A count of pupil
      attendance in school, averaged as provided for in subsection (C)
      and utilized in deriving per pupil financial support levels.

  (b) "Available Local Resources": A computation of local
      financial support, calculated on the basis of Average Daily
      Attendance and derived as provided pursuant to subsection (D).

  (c) "Corporate Personal Property Replacement Taxes":
      Funds paid to local school districts pursuant to "An Act in relation
      to the abolition of ad valorem personal property tax and the
      replacement of revenues lost thereby, and amending and repealing
      certain Acts and parts of Acts in connection therewith", certified
      August 14, 1979, as amended (Public Act 81-1st S.S.-1).

  (d) "Foundation Level": A prescribed level of per pupil
      financial support as provided for in subsection (B).

  (e) "Operating Tax Rate": All school district property taxes
      extended for all purposes, except Bond and Interest, Summer
      School, Rent, Capital Improvement, and Vocational Education
      Building purposes.

(B) Foundation Level.

(1) The Foundation Level is a figure established by the State
representing the minimum level of per pupil financial support that should
be available to provide for the basic education of each pupil in Average
Daily Attendance. As set forth in this Section, each school district is

assumed to exert a sufficient local taxing effort such that, in combination with the aggregate of general State financial aid provided the district, an aggregate of State and local resources are available to meet the basic education needs of pupils in the district.

(2) For the 1998-1999 school year, the Foundation Level of support is $4,225. For the 1999-2000 school year, the Foundation Level of support is $4,325. For the 2000-2001 school year, the Foundation Level of support is $4,425. For the 2001-2002 school year and 2002-2003 school year, the Foundation Level of support is $4,560. For the 2003-2004 school year, the Foundation Level of support is $4,810. For the 2004-2005 school year, the Foundation Level of support is $4,964. For the 2005-2006 school year, the Foundation Level of support is $5,164. For the 2006-2007 school year, the Foundation Level of support is $5,334.

(3) For the 2007-2008 school year and each school year thereafter, the Foundation Level of support is $5,734 or such greater amount as may be established by law by the General Assembly.

(C) Average Daily Attendance.

(1) For purposes of calculating general State aid pursuant to subsection (E), an Average Daily Attendance figure shall be utilized. The Average Daily Attendance figure for formula calculation purposes shall be the monthly average of the actual number of pupils in attendance of each school district, as further averaged for the best 3 months of pupil attendance for each school district. In compiling the figures for the number of pupils in attendance, school districts and the State Board of Education shall, for purposes of general State aid funding, conform attendance figures to the requirements of subsection (F).

(2) The Average Daily Attendance figures utilized in subsection (E) shall be the requisite attendance data for the school year immediately preceding the school year for which general State aid is being calculated or the average of the attendance data for the 3 preceding school years, whichever is greater. The Average Daily Attendance figures utilized in subsection (H) shall be the requisite attendance data for the school year immediately preceding the school year for which general State aid is being calculated.

(D) Available Local Resources.

(1) For purposes of calculating general State aid pursuant to subsection (E), a representation of Available Local Resources per pupil, as that term is defined and determined in this subsection, shall be utilized. Available Local Resources per pupil shall include a calculated dollar amount representing local school district revenues from local property taxes and from Corporate Personal Property Replacement Taxes, expressed on the basis of pupils in Average Daily Attendance. Calculation of Available Local Resources shall exclude any tax amnesty funds received as a result of Public Act 93-26.

(2) In determining a school district's revenue from local property taxes, the State Board of Education shall utilize the equalized assessed valuation of all taxable property of each school district as of September 30 of the previous year. The equalized assessed valuation utilized shall be obtained and determined as provided in subsection (G).

(3) For school districts maintaining grades kindergarten through 12, local property tax revenues per pupil shall be calculated as the product of the applicable equalized assessed valuation for the district multiplied by 3.00%, and divided by the district's Average Daily Attendance figure. For school districts maintaining grades kindergarten through 8, local property tax revenues per pupil shall be calculated as the product of the applicable equalized assessed valuation for the district multiplied by 2.30%, and divided by the district's Average Daily Attendance figure. For school districts maintaining grades 9 through 12, local property tax revenues per pupil shall be the applicable equalized assessed valuation of the district multiplied by 1.05%, and divided by the district's Average Daily Attendance figure.

For partial elementary unit districts created pursuant to Article 11E of this Code, local property tax revenues per pupil shall be calculated as the product of the equalized assessed valuation for property within the elementary and high school classification of the partial elementary unit district multiplied by 2.06% and divided by the Average Daily Attendance figure for grades kindergarten through 8, plus the product of the equalized assessed valuation for property within the high school only classification.

of the partial elementary unit district multiplied by 0.94% and divided by
the Average Daily Attendance figure for grades 9 through 12.

(4) The Corporate Personal Property Replacement Taxes paid to
each school district during the calendar year 2 years before the calendar
year in which a school year begins, divided by the Average Daily
Attendance figure for that district, shall be added to the local property tax
revenues per pupil as derived by the application of the immediately
preceding paragraph (3). The sum of these per pupil figures for each
school district shall constitute Available Local Resources as that term is
utilized in subsection (E) in the calculation of general State aid.

(E) Computation of General State Aid.

(1) For each school year, the amount of general State aid allotted to
a school district shall be computed by the State Board of Education as
provided in this subsection.

(2) For any school district for which Available Local Resources per
pupil is less than the product of 0.93 times the Foundation Level, general
State aid for that district shall be calculated as an amount equal to the
Foundation Level minus Available Local Resources, multiplied by the
Average Daily Attendance of the school district.

(3) For any school district for which Available Local Resources per
pupil is equal to or greater than the product of 0.93 times the Foundation
Level and less than the product of 1.75 times the Foundation Level, the
general State aid per pupil shall be a decimal proportion of the Foundation
Level derived using a linear algorithm. Under this linear algorithm, the
calculated general State aid per pupil shall decline in direct linear fashion
from 0.07 times the Foundation Level for a school district with Available
Local Resources equal to the product of 0.93 times the Foundation Level,
to 0.05 times the Foundation Level for a school district with Available
Local Resources equal to the product of 1.75 times the Foundation Level.
The allocation of general State aid for school districts subject to this
paragraph 3 shall be the calculated general State aid per pupil figure
multiplied by the Average Daily Attendance of the school district.

(4) For any school district for which Available Local Resources per
pupil equals or exceeds the product of 1.75 times the Foundation Level,

New matter indicated by italics - deletions by strikeout
the general State aid for the school district shall be calculated as the product of $218 multiplied by the Average Daily Attendance of the school district.

(5) The amount of general State aid allocated to a school district for the 1999-2000 school year meeting the requirements set forth in paragraph (4) of subsection (G) shall be increased by an amount equal to the general State aid that would have been received by the district for the 1998-1999 school year by utilizing the Extension Limitation Equalized Assessed Valuation as calculated in paragraph (4) of subsection (G) less the general State aid allotted for the 1998-1999 school year. This amount shall be deemed a one time increase, and shall not affect any future general State aid allocations.

(F) Compilation of Average Daily Attendance.

(1) Each school district shall, by July 1 of each year, submit to the State Board of Education, on forms prescribed by the State Board of Education, attendance figures for the school year that began in the preceding calendar year. The attendance information so transmitted shall identify the average daily attendance figures for each month of the school year. Beginning with the general State aid claim form for the 2002-2003 school year, districts shall calculate Average Daily Attendance as provided in subdivisions (a), (b), and (c) of this paragraph (1).

(a) In districts that do not hold year-round classes, days of attendance in August shall be added to the month of September and any days of attendance in June shall be added to the month of May.

(b) In districts in which all buildings hold year-round classes, days of attendance in July and August shall be added to the month of September and any days of attendance in June shall be added to the month of May.

(c) In districts in which some buildings, but not all, hold year-round classes, for the non-year-round buildings, days of attendance in August shall be added to the month of September and any days of attendance in June shall be added to the month of May. The average daily attendance for the year-round buildings shall be computed as provided in subdivision (b) of this paragraph (1). To
calculate the Average Daily Attendance for the district, the average
daily attendance for the year-round buildings shall be multiplied by
the days in session for the non-year-round buildings for each month
and added to the monthly attendance of the non-year-round
buildings.

Except as otherwise provided in this Section, days of attendance by
pupils shall be counted only for sessions of not less than 5 clock hours of
school work per day under direct supervision of: (i) teachers, or (ii) non-
teaching personnel or volunteer personnel when engaging in non-teaching
duties and supervising in those instances specified in subsection (a) of
Section 10-22.34 and paragraph 10 of Section 34-18, with pupils of legal
school age and in kindergarten and grades 1 through 12.

Days of attendance by tuition pupils shall be accredited only to the
districts that pay the tuition to a recognized school.

(2) Days of attendance by pupils of less than 5 clock hours of
school shall be subject to the following provisions in the compilation of
Average Daily Attendance.

(a) Pupils regularly enrolled in a public school for only a
part of the school day may be counted on the basis of 1/6 day for
every class hour of instruction of 40 minutes or more attended
pursuant to such enrollment, unless a pupil is enrolled in a block-
schedule format of 80 minutes or more of instruction, in which
case the pupil may be counted on the basis of the proportion of
minutes of school work completed each day to the minimum
number of minutes that school work is required to be held that day.

(b) Days of attendance may be less than 5 clock hours on
the opening and closing of the school term, and upon the first day
of pupil attendance, if preceded by a day or days utilized as an
institute or teachers' workshop.

(c) A session of 4 or more clock hours may be counted as a
day of attendance upon certification by the regional superintendent,
and approved by the State Superintendent of Education to the
extent that the district has been forced to use daily multiple
sessions.

New matter indicated by italics - deletions by strikeout
(d) A session of 3 or more clock hours may be counted as a day of attendance (1) when the remainder of the school day or at least 2 hours in the evening of that day is utilized for an in-service training program for teachers, up to a maximum of 5 days per school year of which a maximum of 4 days of such 5 days may be used for parent-teacher conferences, provided a district conducts an in-service training program for teachers which has been approved by the State Superintendent of Education; or, in lieu of 4 such days, 2 full days may be used, in which event each such day may be counted as a day of attendance; and (2) when days in addition to those provided in item (1) are scheduled by a school pursuant to its school improvement plan adopted under Article 34 or its revised or amended school improvement plan adopted under Article 2, provided that (i) such sessions of 3 or more clock hours are scheduled to occur at regular intervals, (ii) the remainder of the school days in which such sessions occur are utilized for in-service training programs or other staff development activities for teachers, and (iii) a sufficient number of minutes of school work under the direct supervision of teachers are added to the school days between such regularly scheduled sessions to accumulate not less than the number of minutes by which such sessions of 3 or more clock hours fall short of 5 clock hours. Any full days used for the purposes of this paragraph shall not be considered for computing average daily attendance. Days scheduled for in-service training programs, staff development activities, or parent-teacher conferences may be scheduled separately for different grade levels and different attendance centers of the district.

(e) A session of not less than one clock hour of teaching hospitalized or homebound pupils on-site or by telephone to the classroom may be counted as 1/2 day of attendance, however these pupils must receive 4 or more clock hours of instruction to be counted for a full day of attendance.

(f) A session of at least 4 clock hours may be counted as a day of attendance for first grade pupils, and pupils in full day
kindergartens, and a session of 2 or more hours may be counted as 1/2 day of attendance by pupils in kindergartens which provide only 1/2 day of attendance.

(g) For children with disabilities who are below the age of 6 years and who cannot attend 2 or more clock hours because of their disability or immaturity, a session of not less than one clock hour may be counted as 1/2 day of attendance; however for such children whose educational needs so require a session of 4 or more clock hours may be counted as a full day of attendance.

(h) A recognized kindergarten which provides for only 1/2 day of attendance by each pupil shall not have more than 1/2 day of attendance counted in any one day. However, kindergartens may count 2 1/2 days of attendance in any 5 consecutive school days. When a pupil attends such a kindergarten for 2 half days on any one school day, the pupil shall have the following day as a day absent from school, unless the school district obtains permission in writing from the State Superintendent of Education. Attendance at kindergartens which provide for a full day of attendance by each pupil shall be counted the same as attendance by first grade pupils. Only the first year of attendance in one kindergarten shall be counted, except in case of children who entered the kindergarten in their fifth year whose educational development requires a second year of kindergarten as determined under the rules and regulations of the State Board of Education.

(i) On the days when the Prairie State Achievement Examination is administered under subsection (c) of Section 2-3.64 of this Code, the day of attendance for a pupil whose school day must be shortened to accommodate required testing procedures may be less than 5 clock hours and shall be counted towards the 176 days of actual pupil attendance required under Section 10-19 of this Code, provided that a sufficient number of minutes of school work in excess of 5 clock hours are first completed on other school days to compensate for the loss of school work on the examination days.
(G) Equalized Assessed Valuation Data.

(1) For purposes of the calculation of Available Local Resources required pursuant to subsection (D), the State Board of Education shall secure from the Department of Revenue the value as equalized or assessed by the Department of Revenue of all taxable property of every school district, together with (i) the applicable tax rate used in extending taxes for the funds of the district as of September 30 of the previous year and (ii) the limiting rate for all school districts subject to property tax extension limitations as imposed under the Property Tax Extension Limitation Law.

The Department of Revenue shall add to the equalized assessed value of all taxable property of each school district situated entirely or partially within a county that is or was subject to the alternative general homestead exemption provisions of Section 15-176 of the Property Tax Code (a) an amount equal to the total amount by which the homestead exemption allowed under Section 15-176 of the Property Tax Code for real property situated in that school district exceeds the total amount that would have been allowed in that school district if the maximum reduction under Section 15-176 was (i) $4,500 in Cook County or $3,500 in all other counties in tax year 2003 or (ii) $5,000 in all counties in tax year 2004 and thereafter and (b) an amount equal to the aggregate amount for the taxable year of all additional exemptions under Section 15-175 of the Property Tax Code for owners with a household income of $30,000 or less. The county clerk of any county that is or was subject to the alternative general homestead exemption provisions of Section 15-176 of the Property Tax Code shall annually calculate and certify to the Department of Revenue for each school district all homestead exemption amounts under Section 15-176 of the Property Tax Code and all amounts of additional exemptions under Section 15-175 of the Property Tax Code for owners with a household income of $30,000 or less. It is the intent of this paragraph that if the general homestead exemption for a parcel of property is determined under Section 15-176 of the Property Tax Code rather than Section 15-175, then the calculation of Available Local Resources shall not be affected by the difference, if any, between the amount of the general homestead exemption allowed for that parcel of property under Section

15-176 of the Property Tax Code and the amount that would have been allowed had the general homestead exemption for that parcel of property been determined under Section 15-175 of the Property Tax Code. It is further the intent of this paragraph that if additional exemptions are allowed under Section 15-175 of the Property Tax Code for owners with a household income of less than $30,000, then the calculation of Available Local Resources shall not be affected by the difference, if any, because of those additional exemptions.

This equalized assessed valuation, as adjusted further by the requirements of this subsection, shall be utilized in the calculation of Available Local Resources.

(2) The equalized assessed valuation in paragraph (1) shall be adjusted, as applicable, in the following manner:

(a) For the purposes of calculating State aid under this Section, with respect to any part of a school district within a redevelopment project area in respect to which a municipality has adopted tax increment allocation financing pursuant to the Tax Increment Allocation Redevelopment Act, Sections 11-74.4-1 through 11-74.4-11 of the Illinois Municipal Code or the Industrial Jobs Recovery Law, Sections 11-74.6-1 through 11-74.6-50 of the Illinois Municipal Code, no part of the current equalized assessed valuation of real property located in any such project area which is attributable to an increase above the total initial equalized assessed valuation of such property shall be used as part of the equalized assessed valuation of the district, until such time as all redevelopment project costs have been paid, as provided in Section 11-74.4-8 of the Tax Increment Allocation Redevelopment Act or in Section 11-74.6-35 of the Industrial Jobs Recovery Law. For the purpose of the equalized assessed valuation of the district, the total initial equalized assessed valuation or the current equalized assessed valuation, whichever is lower, shall be used until such time as all redevelopment project costs have been paid.

(b) The real property equalized assessed valuation for a school district shall be adjusted by subtracting from the real

property value as equalized or assessed by the Department of Revenue for the district an amount computed by dividing the amount of any abatement of taxes under Section 18-170 of the Property Tax Code by 3.00% for a district maintaining grades kindergarten through 12, by 2.30% for a district maintaining grades kindergarten through 8, or by 1.05% for a district maintaining grades 9 through 12 and adjusted by an amount computed by dividing the amount of any abatement of taxes under subsection (a) of Section 18-165 of the Property Tax Code by the same percentage rates for district type as specified in this subparagraph (b).

(3) For the 1999-2000 school year and each school year thereafter, if a school district meets all of the criteria of this subsection (G)(3), the school district's Available Local Resources shall be calculated under subsection (D) using the district's Extension Limitation Equalized Assessed Valuation as calculated under this subsection (G)(3).

For purposes of this subsection (G)(3) the following terms shall have the following meanings:

"Budget Year": The school year for which general State aid is calculated and awarded under subsection (E).

"Base Tax Year": The property tax levy year used to calculate the Budget Year allocation of general State aid.

"Preceding Tax Year": The property tax levy year immediately preceding the Base Tax Year.

"Base Tax Year's Tax Extension": The product of the equalized assessed valuation utilized by the County Clerk in the Base Tax Year multiplied by the limiting rate as calculated by the County Clerk and defined in the Property Tax Extension Limitation Law.

"Preceding Tax Year's Tax Extension": The product of the equalized assessed valuation utilized by the County Clerk in the Preceding Tax Year multiplied by the Operating Tax Rate as defined in subsection (A).
"Extension Limitation Ratio": A numerical ratio, certified by the County Clerk, in which the numerator is the Base Tax Year's Tax Extension and the denominator is the Preceding Tax Year's Tax Extension.

"Operating Tax Rate": The operating tax rate as defined in subsection (A).

If a school district is subject to property tax extension limitations as imposed under the Property Tax Extension Limitation Law, the State Board of Education shall calculate the Extension Limitation Equalized Assessed Valuation of that district. For the 1999-2000 school year, the Extension Limitation Equalized Assessed Valuation of a school district as calculated by the State Board of Education shall be equal to the product of the district's 1996 Equalized Assessed Valuation and the district's Extension Limitation Ratio. For the 2000-2001 school year and each school year thereafter, the Extension Limitation Equalized Assessed Valuation of a school district as calculated by the State Board of Education shall be equal to the product of the Equalized Assessed Valuation last used in the calculation of general State aid and the district's Extension Limitation Ratio. If the Extension Limitation Equalized Assessed Valuation of a school district as calculated under this subsection (G)(3) is less than the district's equalized assessed valuation as calculated pursuant to subsections (G)(1) and (G)(2), then for purposes of calculating the district's general State aid for the Budget Year pursuant to subsection (E), that Extension Limitation Equalized Assessed Valuation shall be utilized to calculate the district's Available Local Resources under subsection (D).

Partial elementary unit districts created in accordance with Article 11E of this Code shall not be eligible for the adjustment in this subsection (G)(3) until the fifth year following the effective date of the reorganization.

(4) For the purposes of calculating general State aid for the 1999-2000 school year only, if a school district experienced a triennial reassessment on the equalized assessed valuation used in calculating its general State financial aid apportionment for the 1998-1999 school year, the State Board of Education shall calculate the Extension Limitation
Equalized Assessed Valuation that would have been used to calculate the
district's 1998-1999 general State aid. This amount shall equal the product
of the equalized assessed valuation used to calculate general State aid for
the 1997-1998 school year and the district's Extension Limitation Ratio. If
the Extension Limitation Equalized Assessed Valuation of the school
district as calculated under this paragraph (4) is less than the district's
equalized assessed valuation utilized in calculating the district's 1998-1999
general State aid allocation, then for purposes of calculating the district's
general State aid pursuant to paragraph (5) of subsection (E), that
Extension Limitation Equalized Assessed Valuation shall be utilized to
calculate the district's Available Local Resources.

(5) For school districts having a majority of their equalized
assessed valuation in any county except Cook, DuPage, Kane, Lake,
McHenry, or Will, if the amount of general State aid allocated to the
school district for the 1999-2000 school year under the provisions of
subsection (E), (H), and (J) of this Section is less than the amount of
general State aid allocated to the district for the 1998-1999 school year
under these subsections, then the general State aid of the district for the
1999-2000 school year only shall be increased by the difference between
these amounts. The total payments made under this paragraph (5) shall not
exceed $14,000,000. Claims shall be prorated if they exceed $14,000,000.

(H) Supplemental General State Aid.

(1) In addition to the general State aid a school district is allotted
pursuant to subsection (E), qualifying school districts shall receive a grant,
paid in conjunction with a district's payments of general State aid, for
supplemental general State aid based upon the concentration level of
children from low-income households within the school district.
Supplemental State aid grants provided for school districts under this
subsection shall be appropriated for distribution to school districts as part
of the same line item in which the general State financial aid of school
districts is appropriated under this Section. If the appropriation in any
fiscal year for general State aid and supplemental general State aid is
insufficient to pay the amounts required under the general State aid and
supplemental general State aid calculations, then the State Board of
Education shall ensure that each school district receives the full amount due for general State aid and the remainder of the appropriation shall be used for supplemental general State aid, which the State Board of Education shall calculate and pay to eligible districts on a prorated basis.

(1.5) This paragraph (1.5) applies only to those school years preceding the 2003-2004 school year. For purposes of this subsection (H), the term "Low-Income Concentration Level" shall be the low-income eligible pupil count from the most recently available federal census divided by the Average Daily Attendance of the school district. If, however, (i) the percentage decrease from the 2 most recent federal censuses in the low-income eligible pupil count of a high school district with fewer than 400 students exceeds by 75% or more the percentage change in the total low-income eligible pupil count of contiguous elementary school districts, whose boundaries are coterminous with the high school district, or (ii) a high school district within 2 counties and serving 5 elementary school districts, whose boundaries are coterminous with the high school district, has a percentage decrease from the 2 most recent federal censuses in the low-income eligible pupil count and there is a percentage increase in the total low-income eligible pupil count of a majority of the elementary school districts in excess of 50% from the 2 most recent federal censuses, then the high school district's low-income eligible pupil count from the earlier federal census shall be the number used as the low-income eligible pupil count for the high school district, for purposes of this subsection (H). The changes made to this paragraph (1) by Public Act 92-28 shall apply to supplemental general State aid grants for school years preceding the 2003-2004 school year that are paid in fiscal year 1999 or thereafter and to any State aid payments made in fiscal year 1994 through fiscal year 1998 pursuant to subsection 1(n) of Section 18-8 of this Code (which was repealed on July 1, 1998), and any high school district that is affected by Public Act 92-28 is entitled to a recomputation of its supplemental general State aid grant or State aid paid in any of those fiscal years. This recomputation shall not be affected by any other funding.

(1.10) This paragraph (1.10) applies to the 2003-2004 school year and each school year thereafter. For purposes of this subsection (H), the
term "Low-Income Concentration Level" shall, for each fiscal year, be the low-income eligible pupil count as of July 1 of the immediately preceding fiscal year (as determined by the Department of Human Services based on the number of pupils who are eligible for at least one of the following low income programs: Medicaid, KidCare, TANF, or Food Stamps, excluding pupils who are eligible for services provided by the Department of Children and Family Services, averaged over the 2 immediately preceding fiscal years for fiscal year 2004 and over the 3 immediately preceding fiscal years for each fiscal year thereafter) divided by the Average Daily Attendance of the school district.

(2) Supplemental general State aid pursuant to this subsection (H) shall be provided as follows for the 1998-1999, 1999-2000, and 2000-2001 school years only:
   
   (a) For any school district with a Low Income Concentration Level of at least 20% and less than 35%, the grant for any school year shall be $800 multiplied by the low income eligible pupil count.
   
   (b) For any school district with a Low Income Concentration Level of at least 35% and less than 50%, the grant for the 1998-1999 school year shall be $1,100 multiplied by the low income eligible pupil count.
   
   (c) For any school district with a Low Income Concentration Level of at least 50% and less than 60%, the grant for the 1998-99 school year shall be $1,500 multiplied by the low income eligible pupil count.
   
   (d) For any school district with a Low Income Concentration Level of 60% or more, the grant for the 1998-99 school year shall be $1,900 multiplied by the low income eligible pupil count.
   
   (e) For the 1999-2000 school year, the per pupil amount specified in subparagraphs (b), (c), and (d) immediately above shall be increased to $1,243, $1,600, and $2,000, respectively.
(f) For the 2000-2001 school year, the per pupil amounts specified in subparagraphs (b), (c), and (d) immediately above shall be $1,273, $1,640, and $2,050, respectively.

(2.5) Supplemental general State aid pursuant to this subsection (H) shall be provided as follows for the 2002-2003 school year:

(a) For any school district with a Low Income Concentration Level of less than 10%, the grant for each school year shall be $355 multiplied by the low income eligible pupil count.

(b) For any school district with a Low Income Concentration Level of at least 10% and less than 20%, the grant for each school year shall be $675 multiplied by the low income eligible pupil count.

(c) For any school district with a Low Income Concentration Level of at least 20% and less than 35%, the grant for each school year shall be $1,330 multiplied by the low income eligible pupil count.

(d) For any school district with a Low Income Concentration Level of at least 35% and less than 50%, the grant for each school year shall be $1,362 multiplied by the low income eligible pupil count.

(e) For any school district with a Low Income Concentration Level of at least 50% and less than 60%, the grant for each school year shall be $1,680 multiplied by the low income eligible pupil count.

(f) For any school district with a Low Income Concentration Level of 60% or more, the grant for each school year shall be $2,080 multiplied by the low income eligible pupil count.

(2.10) Except as otherwise provided, supplemental general State aid pursuant to this subsection (H) shall be provided as follows for the 2003-2004 school year and each school year thereafter:

(a) For any school district with a Low Income Concentration Level of 15% or less, the grant for each school year shall be $355 multiplied by the low income eligible pupil count.

Education prior to October 30 of each year for the use of the funds resulting from this grant of supplemental general State aid for the improvement of instruction in which priority is given to meeting the education needs of disadvantaged children. Such plan shall be submitted in accordance with rules and regulations promulgated by the State Board of Education.

(4) School districts with an Average Daily Attendance of 50,000 or more that qualify for supplemental general State aid pursuant to this subsection shall be required to distribute from funds available pursuant to this Section, no less than $261,000,000 in accordance with the following requirements:

(b) The distribution of these portions of supplemental and general State aid among attendance centers according to these requirements shall not be compensated for or contravened by adjustments of the total of other funds appropriated to any attendance centers, and the Board of Education shall utilize funding from one or several sources in order to fully implement this provision annually prior to the opening of school.

(c) Each attendance center shall be provided by the school district a distribution of noncategorical funds and other categorical funds to which an attendance center is entitled under law in order that the general State aid and supplemental general State aid provided by application of this subsection supplements rather than supplants the noncategorical funds and other categorical funds provided by the school district to the attendance centers.

(d) Any funds made available under this subsection that by reason of the provisions of this subsection are not required to be allocated and provided to attendance centers may be used and

Funds provided shall not be expended for any political or lobbying purposes as defined by board rule.

(f) Each district subject to the provisions of this subdivision (H)(4) shall submit an acceptable plan to meet the educational needs of disadvantaged children, in compliance with the requirements of this paragraph, to the State Board of Education prior to July 15 of each year. This plan shall be consistent with the decisions of local school councils concerning the school expenditure plans developed in accordance with part 4 of Section 34-2.3. The State Board shall approve or reject the plan within 60 days after its submission. If the plan is rejected, the district shall give written notice of intent to modify the plan within 15 days of the notification of rejection and then submit a modified plan within 30 days after the date of the written notice of intent to modify. Districts may amend approved plans pursuant to rules promulgated by the State Board of Education.

If the district fails to distribute State aid to attendance centers in accordance with an approved plan, the plan for the following year shall allocate funds, in addition to the funds otherwise required by this subsection, to those attendance centers which were underfunded during the previous year in amounts equal to such underfunding.

For purposes of determining compliance with this subsection in relation to the requirements of attendance center funding, each district subject to the provisions of this subsection shall submit as a separate document by December 1 of each year a report of expenditure data for the prior year in addition to any modification of its current plan. If it is determined that there has been a failure to comply with the expenditure provisions of this subsection regarding contravention or supplanting, the State Superintendent of Education shall, within 60 days of receipt of the report, notify the district and any affected local school council. The district shall within 45 days of receipt of that notification inform the State Superintendent of Education of the remedial or corrective action to be taken, whether by amendment of the current plan, if feasible, or by adjustment in the plan for the following year. Failure to provide the expenditure report or the notification of remedial or corrective action in a timely manner shall result in a withholding of the affected funds.

The State Board of Education shall promulgate rules and regulations to implement the provisions of this subsection. No funds shall be released under this subdivision (H)(4) to any district that has not submitted a plan that has been approved by the State Board of Education.

under a mutual agreement between the school board of a student's district of residence and the university which operates the laboratory school. A laboratory school may not have more than 1,000 students, excluding students with disabilities in a special education program.

As used in this Section, "alternative school" means a public school which is created and operated by a Regional Superintendent of Schools and approved by the State Board of Education. Such alternative schools may offer courses of instruction for which credit is given in regular school programs, courses to prepare students for the high school equivalency testing program or vocational and occupational training. A regional superintendent of schools may contract with a school district or a public community college district to operate an alternative school. An alternative school serving more than one educational service region may be established by the regional superintendents of schools of the affected educational service regions. An alternative school serving more than one educational service region may be operated under such terms as the regional superintendents of schools of those educational service regions may agree.

Each laboratory and alternative school shall file, on forms provided by the State Superintendent of Education, an annual State aid claim which states the Average Daily Attendance of the school's students by month. The best 3 months' Average Daily Attendance shall be computed for each school. The general State aid entitlement shall be computed by multiplying the applicable Average Daily Attendance by the Foundation Level as determined under this Section.

(L) Payments, Additional Grants in Aid and Other Requirements.

(1) For a school district operating under the financial supervision of an Authority created under Article 34A, the general State aid otherwise payable to that district under this Section, but not the supplemental general State aid, shall be reduced by an amount equal to the budget for the operations of the Authority as certified by the Authority to the State Board of Education, and an amount equal to such reduction shall be paid to the Authority created for such district for its operating expenses in the manner provided in Section 18-11. The remainder of general State school aid for
any such district shall be paid in accordance with Article 34A when that Article provides for a disposition other than that provided by this Article.

The members appointed shall include representatives of education, business, and the general public. One of the members so appointed shall be designated by the Governor at the time the appointment is made as the chairperson of the Board. The initial members of the Board may be appointed any time after the effective date of this amendatory Act of 1997. The regular term of each member of the Board shall be for 4 years from the third Monday of January of the year in which the term of the member's appointment is to commence, except that of the 5 initial members appointed to serve on the Board, the member who is appointed as the chairperson shall serve for a term that commences on the date of his or her appointment and expires on the third Monday of January, 2002, and the remaining 4 members, by lots drawn at the first meeting of the Board that is held after all 5 members are appointed, shall determine 2 of their number to serve for terms that commence on the date of their respective appointments and expire on the third Monday of January, 2001, and 2 of their number to serve for terms that commence on the date of their respective appointments and expire on the third Monday of January, 2000. All members appointed to serve on the Board shall serve until their respective successors are appointed and confirmed. Vacancies shall be filled in the same manner as original appointments. If a vacancy in membership occurs at a time when the Senate is not in session, the Governor shall make a temporary appointment until the next meeting of the Senate, when he or she shall appoint, by and with the advice and consent of the Senate, a person to fill that membership for the unexpired
term. If the Senate is not in session when the initial appointments are made, those appointments shall be made as in the case of vacancies.

The Education Funding Advisory Board shall be deemed established, and the initial members appointed by the Governor to serve as members of the Board shall take office, on the date that the Governor makes his or her appointment of the fifth initial member of the Board, whether those initial members are then serving pursuant to appointment and confirmation or pursuant to temporary appointments that are made by the Governor as in the case of vacancies.

The State Board of Education shall provide such staff assistance to the Education Funding Advisory Board as is reasonably required for the proper performance by the Board of its responsibilities.

For school years after the 2000-2001 school year, the Education Funding Advisory Board, in consultation with the State Board of Education, shall make recommendations as provided in this subsection (M) to the General Assembly for the foundation level under subdivision (B)(3) of this Section and for the supplemental general State aid grant level under subsection (H) of this Section for districts with high concentrations of children from poverty. The recommended foundation level shall be determined based on a methodology which incorporates the basic education expenditures of low-spending schools exhibiting high academic performance. The Education Funding Advisory Board shall make such recommendations to the General Assembly on January 1 of odd numbered years, beginning January 1, 2001.

Section 5-23. The Hospital Licensing Act is amended by changing Section 8 as follows:

(210 ILCS 85/8) (from Ch. 111 1/2, par. 149)

Sec. 8. Facility plan review; fees.

(a) Before commencing construction of new facilities or specified types of alteration or additions to an existing hospital involving major construction, as defined by rule by the Department, with an estimated cost greater than $100,000, architectural plans and specifications therefor shall be submitted by the licensee to the Department for review and approval. A hospital may submit architectural drawings and specifications for other construction projects for Department review according to subsection (b) that shall not be subject to fees under subsection (d). The Department must give a hospital that is planning to submit a construction project for review the opportunity to discuss its plans and specifications with the Department before the hospital formally submits the plans and specifications for Department review. Review of drawings and specifications shall be conducted by an employee of the Department meeting the qualifications established by the Department of Central Management Services class specifications for such an individual's position or by a person contracting with the Department who meets those class specifications. Final approval of the plans and specifications for compliance with design and construction standards shall be obtained from the Department before the alteration, addition, or new construction is begun. Subject to this Section 8, and prior to January 1, 2012, the Department shall consider the re-licensing of an existing hospital structure according to the standards for an existing hospital, as set forth in the Department's rules. Re-licensing under this provision shall occur only if that facility operated as a licensed hospital on July 1, 2005, has had no intervening use as other than a hospital, and exists in a county with a population of less than 20,000 that does not have another licensed hospital on the effective date of this amendatory Act of the 95th General Assembly.

(b) The Department shall inform an applicant in writing within 10 working days after receiving drawings and specifications and the required fee, if any, from the applicant whether the applicant's submission is complete or incomplete. Failure to provide the applicant with this notice within 10 working days shall result in the submission being deemed complete for purposes of initiating the 60-day review period under this Section. If the submission is incomplete, the Department shall inform the applicant of the deficiencies with the submission in writing. If the submission is complete and the required fee, if any, has been paid, the Department shall approve or disapprove drawings and specifications submitted to the Department no later than 60 days following receipt by the Department. The drawings and specifications shall be of sufficient detail, as provided by Department rule, to enable the Department to render a determination of compliance with design and construction standards under this Act. If the Department finds that the drawings are not of sufficient detail for it to render a determination of compliance, the plans shall be determined to be incomplete and shall not be considered for purposes of initiating the 60 day review period. If a submission of drawings and specifications is incomplete, the applicant may submit additional information. The 60-day review period shall not commence until the Department determines that a submission of drawings and specifications is complete or the submission is deemed complete. If the Department has not approved or disapproved the drawings and specifications within 60 days, the construction, major alteration, or addition shall be deemed approved. If the drawings and specifications are disapproved, the Department shall state in writing, with specificity, the reasons for the disapproval. The entity submitting the drawings and specifications may submit additional information in response to the written comments from the Department or request a reconsideration of the disapproval. A final decision of approval or disapproval shall be made within 45 days of the receipt of the additional information or reconsideration request. If denied, the Department shall state the specific reasons for the denial and the applicant may elect to seek dispute resolution pursuant to Section 25 of the Illinois Building Commission Act, which the Department must participate in.

(c) The Department shall provide written approval for occupancy pursuant to subsection (g) and shall not issue a violation to a facility as a result of a licensure or complaint survey based upon the facility's physical structure if:

(1) the Department reviewed and approved or deemed approved the drawing and specifications for compliance with design and construction standards;
(2) the construction, major alteration, or addition was built as submitted;
(3) the law or rules have not been amended since the original approval; and
(4) the conditions at the facility indicate that there is a reasonable degree of safety provided for the patients.

(c-5) The Department shall not issue a violation to a facility if the inspected aspects of the facility were previously found to be in compliance with applicable standards, the relevant law or rules have not been amended, conditions at the facility reasonably protect the safety of its patients, and alterations or new hazards have not been identified.

(d) The Department shall charge the following fees in connection with its reviews conducted before June 30, 2004 under this Section:

(1) (Blank).
(2) (Blank).
(3) If the estimated dollar value of the major construction is greater than $500,000, the fee shall be established by the Department pursuant to rules that reflect the reasonable and direct cost of the Department in conducting the architectural reviews required under this Section. The estimated dollar value of the major construction subject to review under this Section shall be annually readjusted to reflect the increase in construction costs due to inflation.

The fees provided in this subsection (d) shall not apply to major construction projects involving facility changes that are required by Department rule amendments or to projects related to homeland security.
The fees provided in this subsection (d) shall also not apply to major construction projects if 51% or more of the estimated cost of the project is attributed to capital equipment. For major construction projects where 51% or more of the estimated cost of the project is attributed to capital equipment, the Department shall by rule establish a fee that is reasonably related to the cost of reviewing the project.

Disproportionate share hospitals and rural hospitals shall only pay one-half of the fees required in this subsection (d). For the purposes of this subsection (d), (i) "disproportionate share hospital" means a hospital described in items (1) through (5) of subsection (b) of Section 5-5.02 of the Illinois Public Aid Code and (ii) "rural hospital" means a hospital that is (A) located outside a metropolitan statistical area or (B) located 15 miles or less from a county that is outside a metropolitan statistical area and is licensed to perform medical/surgical or obstetrical services and has a combined total bed capacity of 75 or fewer beds in these 2 service categories as of July 14, 1993, as determined by the Department.

The Department shall not commence the facility plan review process under this Section until the applicable fee has been paid.

(e) All fees received by the Department under this Section shall be deposited into the Health Facility Plan Review Fund, a special fund created in the State treasury. All fees paid by hospitals under subsection (d) shall be used only to cover the direct and reasonable costs relating to the Department's review of hospital projects under this Section. Moneys shall be appropriated from that Fund to the Department only to pay the costs of conducting reviews under this Section. None of the moneys in the Health Facility Plan Review Fund shall be used to reduce the amount of General Revenue Fund moneys appropriated to the Department for facility plan reviews conducted pursuant to this Section.

(f) (Blank).

(g) The Department shall conduct an on-site inspection of the completed project no later than 15 business days after notification from the applicant that the project has been completed and all certifications required by the Department have been received and accepted by the Department. The Department may extend this deadline only if a federally mandated
survey time frame takes precedence. The Department shall provide written approval for occupancy to the applicant within 5 working days of the Department's final inspection, provided the applicant has demonstrated substantial compliance as defined by Department rule. Occupancy of new major construction is prohibited until Department approval is received, unless the Department has not acted within the time frames provided in this subsection (g), in which case the construction shall be deemed approved. Occupancy shall be authorized after any required health inspection by the Department has been conducted.

(h) The Department shall establish, by rule, a procedure to conduct interim on-site review of large or complex construction projects.

(i) The Department shall establish, by rule, an expedited process for emergency repairs or replacement of like equipment.

(j) Nothing in this Section shall be construed to apply to maintenance, upkeep, or renovation that does not affect the structural integrity of the building, does not add beds or services over the number for which the facility is licensed, and provides a reasonable degree of safety for the patients.

under the medical assistance program shall be prospectively established annually on the basis of historical, financial, and statistical data reflecting actual costs from prior years, which shall be applied to the current rate year and updated for inflation, except that the capital cost element for newly constructed facilities shall be based upon projected budgets. The annually established payment rate shall take effect on July 1 in 1984 and subsequent years. No rate increase and no update for inflation shall be provided on or after July 1, 1994 and before July 1, 2008, unless specifically provided for in this Section. The changes made by Public Act 93-841 extending the duration of the prohibition against a rate increase or update for inflation are effective retroactive to July 1, 2004.

For facilities licensed by the Department of Public Health under the Nursing Home Care Act as Intermediate Care for the Developmentally Disabled facilities or Long Term Care for Under Age 22 facilities, the rates taking effect on July 1, 1998 shall include an increase of 3%. For facilities licensed by the Department of Public Health under the Nursing Home Care Act as Skilled Nursing facilities or Intermediate Care facilities, the rates taking effect on July 1, 1998 shall include an increase of 3% plus $1.10 per resident-day, as defined by the Department. For facilities licensed by the Department of Public Health under the Nursing Home Care Act as Intermediate Care Facilities for the Developmentally Disabled or Long Term Care for Under Age 22 facilities, the rates taking effect on January 1, 2006 shall include an increase of 3%.

For facilities licensed by the Department of Public Health under the Nursing Home Care Act as Skilled Nursing facilities or Intermediate Care facilities, the rates taking effect on July 1, 1999 shall include an increase of 1.6% and, for services provided on or after October 1, 1999, shall be increased by $4.00 per resident-day, as defined by the Department.

For facilities licensed by the Department of Public Health under the Nursing Home Care Act as Intermediate Care for the Developmentally Disabled facilities or Long Term Care for Under Age 22 facilities, the rates taking effect on July 1, 2000 shall include an increase of 2.5% per resident-day, as defined by the Department. For facilities licensed by the Department of Public Health under the Nursing Home Care Act as Skilled Nursing facilities or Intermediate Care facilities, the rates taking effect on July 1, 2000 shall include an increase of 2.5% per resident-day, as defined by the Department.

For facilities licensed by the Department of Public Health under the Nursing Home Care Act as skilled nursing facilities or intermediate care facilities, a new payment methodology must be implemented for the nursing component of the rate effective July 1, 2003. The Department of Public Aid (now Healthcare and Family Services) shall develop the new payment methodology using the Minimum Data Set (MDS) as the instrument to collect information concerning nursing home resident condition necessary to compute the rate. The Department shall develop the new payment methodology to meet the unique needs of Illinois nursing home residents while remaining subject to the appropriations provided by the General Assembly. A transition period from the payment methodology in effect on June 30, 2003 to the payment methodology in effect on July 1, 2003 shall be provided for a period not exceeding 3 years and 184 days after implementation of the new payment methodology as follows:

(A) For a facility that would receive a lower nursing component rate per patient day under the new system than the facility received effective on the date immediately preceding the date that the Department implements the new payment methodology, the nursing component rate per patient day for the facility shall be held at the level in effect on the date immediately preceding the date that the Department implements the new payment methodology until a higher nursing component rate of reimbursement is achieved by that facility.

(B) For a facility that would receive a higher nursing component rate per patient day under the payment methodology in
effect on July 1, 2003 than the facility received effective on the date immediately preceding the date that the Department implements the new payment methodology, the nursing component rate per patient day for the facility shall be adjusted.

(C) Notwithstanding paragraphs (A) and (B), the nursing component rate per patient day for the facility shall be adjusted subject to appropriations provided by the General Assembly.

For facilities licensed by the Department of Public Health under the Nursing Home Care Act as Intermediate Care for the Developmentally Disabled facilities or Long Term Care for Under Age 22 facilities, the rates taking effect on March 1, 2001 shall include a statewide increase of 7.85%, as defined by the Department.

Notwithstanding any other provision of this Section, for facilities licensed by the Department of Public Health under the Nursing Home Care Act as skilled nursing facilities or intermediate care facilities, the numerator of the ratio used by the Department of Healthcare and Family Services to compute the rate payable under this Section using the Minimum Data Set (MDS) methodology shall incorporate the following annual amounts as the additional funds appropriated to the Department specifically to pay for rates based on the MDS nursing component methodology in excess of the funding in effect on December 31, 2006:

(i) For rates taking effect January 1, 2007, $60,000,000.
(ii) For rates taking effect January 1, 2008, $110,000,000.

Notwithstanding any other provision of this Section, for facilities licensed by the Department of Public Health under the Nursing Home Care Act as skilled nursing facilities or intermediate care facilities, the support component of the rates taking effect on January 1, 2008 shall be computed using the most recent cost reports on file with the Department of Healthcare and Family Services no later than April 1, 2005, updated for inflation to January 1, 2006.

For all such positions approved for reimbursement before December 1, 1990, the counties shall be reimbursed $1,250 per month beginning July 1, 1995, and an additional $250 per month beginning each July 1st thereafter until the positions receive 100% salary reimbursement. Allocation of such positions will be based on comparative need considering capacity, staff/resident ratio, physical plant and program.
(d) $1,000 per month for salaries for the remaining probation officer positions engaged in basic services and new or expanded services. All such positions shall be approved by the division in accordance with this Act and division standards.

(e) 100% of the travel expenses in accordance with Division standards for all Probation positions approved under paragraph (b) of subsection 4 of this Section.

(f) If the amount of funds reimbursed to the county under paragraphs (a) through (e) of subsection 4 of this Section on an annual basis is less than the amount the county had received during the 12 month period immediately prior to the effective date of this amendatory Act of 1985, then the Division shall reimburse the amount of the difference to the county. The effect of paragraph (b) of subsection 7 of this Section shall be considered in implementing this supplemental reimbursement provision.

(5) The Division shall provide funds beginning on April 1, 1987 for the counties to provide Individualized Services and Programs as provided in Section 16 of this Act.

(6) A Probation and Court Services Department in order to be eligible for the reimbursement must submit to the Supreme Court an application containing such information and in such a form and by such dates as the Supreme Court may require. Departments to be eligible for funding must satisfy the following conditions:

(a) The Department shall have on file with the Supreme Court an annual Probation plan for continuing, improved, and new Probation and Court Services Programs approved by the Supreme Court or its designee. This plan shall indicate the manner in which Probation and Court Services will be delivered and improved, consistent with the minimum standards and regulations for Probation and Court Services, as established by the Supreme Court. In counties with more than one Probation and Court Services Department eligible to receive funds, all Departments within that county must submit plans which are approved by the Supreme Court.

(b) The annual probation plan shall seek to generally improve the quality of probation services and to reduce the commitment of adult offenders to the Department of Corrections and to reduce the commitment of juvenile offenders to the Department of Juvenile Justice and shall require, when appropriate, coordination with the Department of Corrections, the Department of Juvenile Justice, and the Department of Children and Family Services in the development and use of community resources, information systems, case review and permanency planning systems to avoid the duplication of services.

(c) The Department shall be in compliance with standards developed by the Supreme Court for basic, new and expanded services, training, personnel hiring and promotion.

(d) The Department shall in its annual plan indicate the manner in which it will support the rights of crime victims and in which manner it will implement Article I, Section 8.1 of the Illinois Constitution and in what manner it will coordinate crime victims' support services with other criminal justice agencies within its jurisdiction, including but not limited to, the State's Attorney, the Sheriff and any municipal police department.

(7) No statement shall be verified by the Supreme Court or its designee or vouchered by the Comptroller unless each of the following conditions have been met:

(a) The probation officer is a full-time employee appointed by the Chief Judge to provide probation services.

(b) The probation officer, in order to be eligible for State reimbursement, is receiving a salary of at least $17,000 per year.

(c) The probation officer is appointed or was reappointed in accordance with minimum qualifications or criteria established by the Supreme Court; however, all probation officers appointed prior to January 1, 1978, shall be exempted from the minimum requirements established by the Supreme Court. Payments shall be made to counties employing these exempted probation officers as long as they are employed in the position held on the effective date.
of this amendatory Act of 1985. Promotions shall be governed by minimum qualifications established by the Supreme Court.

(d) The Department has an established compensation schedule approved by the Supreme Court. The compensation schedule shall include salary ranges with necessary increments to compensate each employee. The increments shall, within the salary ranges, be based on such factors as bona fide occupational qualifications, performance, and length of service. Each position in the Department shall be placed on the compensation schedule according to job duties and responsibilities of such position. The policy and procedures of the compensation schedule shall be made available to each employee.

(8) In order to obtain full reimbursement of all approved costs, each Department must continue to employ at least the same number of probation officers and probation managers as were authorized for employment for the fiscal year which includes January 1, 1985. This number shall be designated as the base amount of the Department. No positions approved by the Division under paragraph (b) of subsection 4 will be included in the base amount. In the event that the Department employs fewer Probation officers and Probation managers than the base amount for a period of 90 days, funding received by the Department under subsection 4 of this Section may be reduced on a monthly basis by the amount of the current salaries of any positions below the base amount.

(9) Before the 15th day of each month, the treasurer of any county which has a Probation and Court Services Department, or the treasurer of the most populous county, in the case of a Probation or Court Services Department funded by more than one county, shall submit an itemized statement of all approved costs incurred in the delivery of Basic Probation and Court Services under this Act to the Supreme Court. The treasurer may also submit an itemized statement of all approved costs incurred in the delivery of new and expanded Probation and Court Services as well as Individualized Services and Programs. The Supreme Court or its designee shall verify compliance with this Section and shall examine and audit the monthly statement and, upon finding them to be correct, shall forward

them to the Comptroller for payment to the county treasurer. In the case of payment to a treasurer of a county which is the most populous of counties sharing the salary and expenses of a Probation and Court Services Department, the treasurer shall divide the money between the counties in a manner that reflects each county's share of the cost incurred by the Department.

(10) The county treasurer must certify that funds received under this Section shall be used solely to maintain and improve Probation and Court Services. The county or circuit shall remain in compliance with all standards, policies and regulations established by the Supreme Court. If at any time the Supreme Court determines that a county or circuit is not in compliance, the Supreme Court shall immediately notify the Chief Judge, county board chairman and the Director of Court Services Chief Probation Officer. If after 90 days of written notice the noncompliance still exists, the Supreme Court shall be required to reduce the amount of monthly reimbursement by 10%. An additional 10% reduction of monthly reimbursement shall occur for each consecutive month of noncompliance. Except as provided in subsection 5 of Section 15, funding to counties shall commence on April 1, 1986. Funds received under this Act shall be used to provide for Probation Department expenses including those required under Section 13 of this Act. For State fiscal years 2004, 2005, 2006, and 2007 only, the Mandatory Arbitration Fund may be used to provide for Probation Department expenses, including those required under Section 13 of this Act.

(11) The respective counties shall be responsible for capital and space costs, fringe benefits, clerical costs, equipment, telecommunications, postage, commodities and printing.

(12) For purposes of this Act only, probation officers shall be considered peace officers. In the exercise of their official duties, probation officers, sheriffs, and police officers may, anywhere within the State, arrest any probationer who is in violation of any of the conditions of his or her probation, conditional discharge, or supervision, and it shall be the duty of the officer making the arrest to take the probationer before the Court having jurisdiction over the probationer for further order.

(g) For the State Fiscal Years 2005, 2006, and 2007 only, the Administrative Office of the Illinois Courts may permit a county or circuit to use its probation and court services fund for the payment of salaries of probation officers and other court services personnel whose salaries are reimbursed under this Act if the State's FY2005, FY2006, or FY2007 appropriation to the Supreme Court for reimbursement to counties for probation salaries and services is less than the amount appropriated to the Supreme Court for these purposes for State Fiscal Year 2004. The Administrative Office of the Illinois Courts shall take into account each county's or circuit's probation fee collections and expenditures when apportioning the total reimbursement for each county or circuit.

(h) The Administrative Office of the Illinois Courts may permit a county or circuit to use its probation and court services fund for the payment of salaries of probation officers and other court services personnel whose salaries are reimbursed under this Act in any State fiscal year that the appropriation for reimbursement to counties for probation salaries and services is less than the amount appropriated to the Supreme Court for these purposes for State Fiscal Year 2002. The Administrative Office of the Illinois Courts shall take into account each county's or circuit's probation fee collections and expenditures when appropriating the total reimbursement for each county or circuit. Any amount appropriated to the Supreme Court in any State fiscal year for the purpose of reimbursing Cook County for the salaries and operations of the Cook County Juvenile Temporary Detention Center shall not be counted in the total appropriation to the Supreme Court in that State fiscal year for reimbursement to counties for probation salaries and services, for the purposes of this paragraph (h).

(a) Except as otherwise provided in this Section and notwithstanding anything to the contrary contained in any other Section of this Act, no domestic corporation or foreign corporation shall be obligated to pay any annual franchise tax, fee, or penalty or interest thereon imposed under this Act, nor shall any administrative or judicial sanction (including dissolution) be imposed or enforced nor access to the courts of this State be denied based upon nonpayment thereof more than 7 years after the date of filing the annual report with respect to the period during which the obligation for the tax, fee, penalty or interest arose, unless (1) within that 7 year period the Secretary of State sends a written notice to the corporation to the effect that (A) administrative or judicial action to dissolve the corporation or revoke its certificate of authority for nonpayment of a tax, fee, penalty or interest has been commenced; or (B) the corporation has submitted a report but has failed to pay a tax, fee, penalty or interest required to be paid therewith; or (C) a report with respect to an event or action giving rise to an obligation to pay a tax, fee, penalty or interest is required but has not been filed, or has been filed and is in error or incomplete; or (2) the annual report by the corporation was filed with fraudulent intent to evade taxes payable under this Act. A corporation nonetheless shall be required to pay all taxes that would have been payable during the most recent 7 year period due to a previously unreported increase in paid-in capital that occurred prior to that 7 year period and interest and penalties thereon for that period, except that, from February 1, 2008 through March 15, 2008, with respect to any corporation that participates in the Franchise Tax and License Fee Amnesty Act of 2007, the corporation shall be only required to pay all taxes that would have been payable during the most recent 4 year period due to a previously

For purposes of this subsection (b), a change in control means a transaction, or a series of transactions consummated within a period of 180 consecutive days, as a result of which a person which owned less than 10% of the shares having the power to elect directors of the corporation acquires shares such that the person becomes the holder of 80% or more of the shares having such power. For purposes of this subsection (b) a person means any natural person, corporation, partnership, trust or other entity together with all other persons controlled by, controlling or under common control with such person.

(c) Except as otherwise provided in this Section and notwithstanding anything to the contrary contained in any other Section of this Act, no foreign corporation that has not previously obtained a certificate of authority under this Act shall, upon voluntary application for a certificate of authority filed with the Secretary of State prior to January 1, 2001, be obligated to pay any tax, fee, penalty, or interest imposed under this Act, nor shall any administrative or judicial sanction be imposed or enforced based upon nonpayment thereof with respect to a period during which the obligation arose that is prior to January 1, 1993 unless (1) prior to receipt of the application for a certificate of authority the Secretary of State had sent written notice to the corporation regarding its failure to obtain a certificate of authority, (2) the corporation had submitted an application for a certificate of authority previously but had failed to pay any tax, fee, penalty or interest to be paid therewith, or (3) the

(1) Such participant shall be eligible for an unreduced retirement allowance for life upon the attainment of age 64 with 25 years of continuous service.

(2) Such participant shall be eligible for a reduced retirement allowance for life upon the attainment of age 55 with 10 years of continuous service.

(3) For the purpose of determining the retirement allowance to be paid to a retiring employee, the term "Continuous Service" as used in the Retirement Plan for Chicago Transit Authority Employees shall also be deemed to include all pension credit for service with any retirement system established under Article 8 or Article 11 of this Code, provided that the employee forfeits and relinquishes all pension credit under Article 8 or Article 11 of this Code, and the contribution required under this subsection is made by the employee. (2) For the period ending December 31, 2040, the amount paid by the Authority in any year with respect to debt service on bonds issued for the purposes of funding a contribution to the Retirement Plan under Section 12c of the Metropolitan Transit Authority Act, other than debt service paid with the proceeds of bonds or notes issued by the Authority for any year after calendar year 2008, shall be treated as a credit against the amount of required contribution to the Retirement Plan by the Authority under subsection (e)(1) for the following year up to an amount not to exceed 6% of compensation paid by the Authority in that following year.

(3) By September 15 of each year beginning in 2009 and ending on December 31, 2039, on the basis of a report prepared by an enrolled actuary retained by the Plan, the Board of Trustees of the Retirement Plan shall determine the estimated funded ratio of the total assets of the Retirement Plan to its total actuarially determined liabilities. A report containing that determination and the actuarial assumptions on which it is based shall be filed with the Authority, the representatives of its participating employees, the Auditor General of the State of Illinois, and the Regional Transportation Authority. If the funded ratio is projected to decline below 60% in any year before 2040, the Board of Trustees shall also determine the increased contribution required each year as a level percentage of payroll over the years remaining until 2040 using the projected unit credit actuarial cost method so the funded ratio does not decline below 60% and include that determination in its report. If the actual funded ratio declines below 60% in any year prior to 2040, the Board of Trustees shall also determine the increased contribution required each year as a level percentage of payroll during the years after the then current year using the projected unit credit actuarial cost method so the funded ratio is projected to reach at least 60% no later than 10 years after the then current year and include that determination in its report. Within 60 days after receiving the report, the Auditor General shall review the determination and the assumptions on which it is based, and if he finds that the determination and the assumptions on which it is based are unreasonable in the aggregate, he shall issue a new
determination of the funded ratio, the assumptions on which it is based and the increased contribution required each year as a level percentage of payroll over the years remaining until 2040 using the projected unit credit actuarial cost method so the funded ratio does not decline below 60%, or, in the event of an actual decline below 60%, so the funded ratio is projected to reach 60% by no later than 10 years after the then current year. If the Board of Trustees or the Auditor General determine that an increased contribution is required to meet the funded ratio required by the subsection, effective January 1 following the determination or 30 days after such determination, whichever is later, one-third of the increased contribution shall be paid by participating employees and two-thirds by the Authority, in addition to the contributions required by this subsection (1).

(4) For the period beginning 2040, the minimum contribution to the Retirement Plan for each fiscal year shall be an amount determined by the Board of Trustees of the Retirement Plan to be sufficient to bring the total assets of the Retirement Plan up to 90% of its total actuarial liabilities by the end of 2059. Participating employees shall be responsible for one-third of the required contribution and the Authority shall be responsible for two-thirds of the required contribution. In making these determinations, the Board of Trustees shall calculate the required contribution each year as a level percentage of payroll over the years remaining to and including fiscal year 2059 using the projected unit credit actuarial cost method. A report containing that determination and the actuarial assumptions on which it is based shall be filed by September 15 of each year with the Authority, the representatives of its participating employees, the Auditor General of the State of Illinois and the Regional Transportation Authority. If the funded ratio is projected to fail to reach 90% by December 31, 2059, the Board of Trustees shall also determine the increased contribution required each year as a level percentage of payroll over the years remaining until December 31, 2059 using the projected unit credit actuarial cost method so the funded ratio will meet 90% by December 31, 2059 and include that determination in its report. Within 60 days after receiving the report, the Auditor General shall review

the determination and the assumptions on which it is based and if he finds that the determination and the assumptions on which it is based are unreasonable in the aggregate, he shall issue a new determination of the funded ratio, the assumptions on which it is based and the increased contribution required each year as a level percentage of payroll over the years remaining until December 31, 2059 using the projected unit credit actuarial cost method so the funded ratio reaches no less than 90% by December 31, 2059. If the Board of Trustees or the Auditor General determine that an increased contribution is required to meet the funded ratio required by this subsection, effective January 1 following the determination or 30 days after such determination, whichever is later, one-third of the increased contribution shall be paid by participating employees and two-thirds by the Authority, in addition to the contributions required by subsection (e)(1).

(5) Beginning in 2060, the minimum contribution for each year shall be the amount needed to maintain the total assets of the Retirement Plan at 90% of the total actuarial liabilities of the Plan, and the contribution shall be funded two-thirds by the Authority and one-third by the participating employees in accordance with this subsection.

(f) The Authority shall take the steps necessary to comply with Section 414(h)(2) of the Internal Revenue Code of 1986, as amended, to permit the pick-up of employee contributions under subsections (d) and (e) on a tax-deferred basis.

(g) The Board of Trustees shall certify to the Governor, the General Assembly, the Auditor General, the Board of the Regional Transportation Authority, and the Authority at least 90 days prior to the end of each fiscal year the amount of the required contributions to the retirement system for the next retirement system fiscal year under this Section. The certification shall include a copy of the actuarial recommendations upon which it is based. In addition, copies of the certification shall be sent to the Commission on Government Forecasting and Accountability and the Mayor of Chicago.

If the Auditor General determines that the
assumptions stated in the report are unreasonable in the aggregate, or that the plan of increases in employee, retiree, dependent, or survivor contribution levels, decreases in benefit levels, or both, is not reasonably projected to cure the shortfall over a period of not more than 10 years, then the Board of Trustees shall not implement the plan, the Auditor General shall explain the basis for such determination to the Board of Trustees, and the Auditor General may make recommendations as to an alternative report and plan.

If the Auditor General determines that the assumptions stated in the report are unreasonable in the aggregate, or that the plan of decreases in employee, retiree, dependent, or survivor contribution levels, increases in benefit levels, or both, is unreasonable in the aggregate, then the Board of Trustees shall not implement the plan, the Auditor General shall explain the basis for such determination to the Board of Trustees, and the Auditor General may make recommendations as to an alternative report and plan.

(C) The Board of Trustees shall submit an alternative report and plan within 45 days after receiving a rejection determination by the Auditor General. A determination by the Auditor General on
any alternative report and plan submitted by the Board of Trustees shall be made within 90 days after receiving the alternative report and plan, and shall be accepted or rejected according to the requirements of this subsection (b)(3)(iv). The Board of Trustees shall continue to submit alternative reports and plans to the Auditor General, as necessary, until a favorable determination is made by the Auditor General.

(4) For any retiree who first retires effective on or after the effective date of this amendatory Act of the 95th General Assembly, to be eligible for retiree health care benefits upon retirement, the retiree must be at least 55 years of age, retire with 10 or more years of continuous service and satisfy the preconditions established by this amendatory Act in addition to any rules or regulations promulgated by the Board of Trustees. This paragraph (4) shall not apply to a disability allowance.

(5) Effective January 1, 2009, the aggregate amount of retiree, dependent and survivor contributions to the cost of their health care benefits shall not exceed more than 45% of the total cost of such benefits. The Board of Trustees shall have the discretion to provide different contribution levels for retirees, dependents and survivors based on their years of service, level of coverage or Medicare eligibility, provided that the total contribution from all retirees, dependents, and survivors shall be not more than 45% of the total cost of such benefits. The term "total cost of such benefits" for purposes of this subsection shall be the total amount expended by the retiree health benefit program in the prior plan year, as calculated and certified in writing by the Retiree Health Care Trust’s enrolled actuary to be appointed and paid for by the Board of Trustees.

(6) Effective 30 days after the establishment of the Retiree Health Care Trust, all employees of the Authority shall contribute

If a majority of the electors voting on the proposition vote in favor of it, the municipality may impose or increase the municipal real estate transfer tax or fee.

(f) Nothing in this amendatory Act of 1996 shall limit the purposes for which real estate transfer tax revenues may be collected or expended.

(g) A home rule municipality may not impose real estate transfer taxes other than as authorized by this Section. This Section is a denial and limitation of home rule powers and functions under subsection (g) of Section 6 of Article VII of the Illinois Constitution.

(h) Notwithstanding subsection (g) of this Section, any real estate transfer taxes adopted by a municipality at any time prior to January 17, 1997 (the effective date of Public Act 89-701) and any amendments to any existing real estate transfer tax ordinance adopted after that date, in accordance with the law in effect at the time of the adoption of the amendments, are not preempted by this amendatory Act of the 93rd General Assembly.

(i) Within 6 months after the effective date of this amendatory Act of the 95th General Assembly, by ordinance adopted without a referendum, a home rule municipality with a population in excess of 1,000,000 may increase the rate of an existing real estate transfer tax by a rate of up to $1.50 for each $500 of value or fraction thereof, or in the alternative may impose a real estate transfer tax at a rate of up to $1.50

All amounts collected under such supplemental tax, after fees for costs of collection, shall be provided to the Chicago Transit Authority pursuant to an intergovernmental agreement as promptly as practicable upon their receipt. Such municipality shall file a copy of any ordinance imposing or increasing such tax with the Illinois Department of Revenue and shall file a report with the Department each month certifying the amount paid to the Chicago Transit Authority in the previous month from the proceeds of such tax.

Authority Employees and used only for the purposes required by Section 22-101 of the Illinois Pension Code. Provided that no less than $1,110,500,000 has been deposited in the Retirement Plan, remaining proceeds of bonds issued under this subparagraph (b)(1) may be used to pay costs of issuance and make necessary deposits to funds and accounts with respect to debt service for bonds and notes issued under this subparagraph or subparagraph (b)(2).

(2) After its receipt of a certified copy of a report of the Auditor General of the State of Illinois meeting the requirements of Section 3-2.3 of the Illinois State Auditing Act, the Authority may issue $639,680,000 aggregate original principal amount of bonds and notes. After payment of the costs of issuance and necessary deposits to funds and accounts established with respect to debt service, the net proceeds of such bonds or notes shall be deposited only in the Retiree Health Care Trust and used only for the purposes required by Section 22-101B of the Illinois Pension Code. Provided that no less than $528,800,000 has been deposited in the Retiree Health Care Trust, remaining proceeds of bonds issued under this subparagraph (b)(2) may be used to pay costs of issuance and make necessary deposits to funds and accounts with respect to debt service for bonds and notes issued under this subparagraph or subparagraph (b)(1).

(3) In addition, refunding bonds are authorized to be issued for the purpose of refunding outstanding bonds or notes issued under this Section 12c.

(4) The bonds or notes issued under 12c(b)(1) shall be issued as soon as practicable after the Auditor General issues the report provided in Section 3-2.3(b) of the Illinois State Auditing Act. The bonds or notes issued under 12c(b)(2) shall be issued as soon as practicable after the Auditor General issues the report provided in Section 3-2.3(c) of the Illinois State Auditing Act.

With respect to principal and interest, scheduled aggregate annual payments of

principal and interest or deposits into funds and accounts established for the purpose of such payment shall be not less than 70% in 2009, 80% in 2010, and 90% in 2011, respectively, of scheduled payments or deposits of principal and interest in 2012 and shall be substantially equal beginning in 2012 and each year thereafter. For purposes of this subparagraph (b), "substantially equal" means that debt service in any full year after calendar year 2011 is not more than 115% of debt service in any other full year after calendar year 2011 during the term of the bonds or notes. For the purposes of this subsection (b), with respect to bonds and notes that bear interest at a variable rate, interest shall be assumed at a rate equal to the rate for United States Treasury Securities - State and Local Government Series for the same maturity, plus 75 basis points. If the Authority enters into a Swap with a counterparty requiring the Authority to pay a fixed interest rate on a notional amount, and the Authority has made a determination that such Swap was entered into for the purpose of providing substitute interest payments for variable interest rate bonds or notes of a particular maturity or maturities in a principal amount equal to the notional amount of the Swap, then during the term of the Swap for purposes of any calculation of interest payable on such bonds or notes, the interest rate on the bonds or notes of such maturity or maturities shall be determined as if such bonds or notes bore interest at the fixed interest rate payable by the Authority under such Swap.

(6) No bond or note issued under this Section 12c shall mature later than December 31, 2040.

(c) The Chicago Transit Board shall provide for the issuance of bonds or notes as authorized in this Section 12c by the adoption of an ordinance. The ordinance, together with the bonds or notes, shall constitute a contract among the Authority, the owners from time to time of the bonds or notes, any bond trustee with respect to the bonds or notes, any related credit enhancer and any provider of any related Swaps.

(d) The Authority is authorized to cause the proceeds of the bonds or notes, and any interest or investment earnings on the bonds or notes, and of any Swaps, to be invested until the proceeds and any interest or
investment earnings have been deposited with the Retirement Plan or the Retiree Health Care Trust.

(e) Bonds or notes issued pursuant to this Section 12c may be general obligations of the Authority, to which shall be pledged the full faith and credit of the Authority, or may be obligations payable solely from particular sources of funds all as may be provided in the authorizing ordinance. The authorizing ordinance for the bonds and notes, whether or not general obligations of the Authority, may provide for the Debt Service (as defined in paragraph (i) of this Section 12c) to have a claim for payment from particular sources of funds, including, without limitation, amounts to be paid to the Authority or a bond trustee. The authorizing ordinance may provide for the means by which the bonds or notes (and any related Swaps) may be secured, which may include, a pledge of any revenues or funds of the Authority from whatever source which may by law be utilized for paying Debt Service. In addition to any other security, upon the written approval of the Regional Transportation Authority by the affirmative vote of 12 of its then Directors, the ordinance may provide a specific pledge or assignment of and lien on or security interest in amounts to be paid to the Authority by the Regional Transportation Authority and direct payment thereof to the bond trustee for payment of Debt Service with respect to the bonds or notes, subject to the provisions of existing lease agreements of the Authority with any public building commission. The authorizing ordinance may also provide a specific pledge or assignment of and lien on or security interest in and direct payment to the trustee of all or a portion of the moneys otherwise payable to the Authority from the City of Chicago pursuant to an intergovernmental agreement with the Authority to provide financial assistance to the Authority. Any such pledge, assignment, lien or security interest for the benefit of owners of bonds or notes shall be valid and binding from the time the bonds or notes are issued, without any physical delivery or further act, and shall be valid and binding as against and prior to the claims of all other parties having claims of any kind against the Authority or any other person, irrespective of whether such other parties have notice of such pledge, assignment, lien or security interest, all as provided in the

Local Government Debt Reform Act, as it may be amended from time to time. The bonds or notes of the Authority issued pursuant to this Section 12c shall have such priority of payment and as to their claim for payment from particular sources of funds, including their priority with respect to obligations of the Authority issued under other Sections of this Act, all as shall be provided in the ordinances authorizing the issuance of the bonds or notes. The ordinance authorizing the issuance of any bonds or notes under this Section may provide for the creation of, deposits in, and regulation and disposition of sinking fund or reserve accounts relating to those bonds or notes and related agreements. The ordinance authorizing the issuance of any such bonds or notes authorized under this Section 12c may contain provisions for the creation of a separate fund to provide for the payment of principal of and interest on those bonds or notes and related agreements. The ordinance may also provide limitations on the issuance of additional bonds or notes of the Authority.

(f) Bonds or notes issued under this Section 12c shall not constitute an indebtedness of the Regional Transportation Authority, the State of Illinois, or of any other political subdivision of or municipality within the State, except the Authority.

(g) The ordinance of the Chicago Transit Board authorizing the issuance of bonds or notes pursuant to this Section 12c may provide for the appointment of a corporate trustee (which may be any trust company or bank having the powers of a trust company within Illinois) with respect to bonds or notes issued pursuant to this Section 12c. The ordinance shall prescribe the rights, duties, and powers of the trustee to be exercised for the benefit of the Authority and the protection of the owners of bonds or notes issued pursuant to this Section 12c. The ordinance may provide for the trustee to hold in trust, invest and use amounts in funds and accounts created as provided by the ordinance with respect to the bonds or notes in accordance with this Section 12c. The Authority may apply, as it shall determine, any amounts received upon the sale of the bonds or notes to pay any Debt Service on the bonds or notes. The ordinance may provide for a trust indenture to set forth terms of, sources of payment for and security for the bonds and notes.

(h) The State of Illinois pledges to and agrees with the owners of the bonds or notes issued pursuant to Section 12c that the State of Illinois will not limit the powers vested in the Authority by this Act to pledge and assign its revenues and funds as security for the payment of the bonds or notes, or vested in the Regional Transportation Authority by the Regional Transportation Authority Act or this Act, so as to materially impair the payment obligations of the Authority under the terms of any contract made by the Authority with those owners or to materially impair the rights and remedies of those owners until those bonds or notes, together with interest and any redemption premium, and all costs and expenses in connection with any action or proceedings by or on behalf of such owners are fully met and discharged. The Authority is authorized to include these pledges and agreements of the State of Illinois in any contract with owners of bonds or notes issued pursuant to this Section 12c.

(i) For purposes of this Section, "Debt Service" with respect to bonds or notes includes, without limitation, principal (at maturity or upon mandatory redemption), redemption premium, interest, periodic, upfront, and termination payments on Swaps, fees for bond insurance or other credit enhancement, liquidity facilities, the funding of bond or note reserves, bond trustee fees, and all other costs of providing for the security or payment of the bonds or notes.

Outreach shall include, but is not limited to, advertisements in periodicals and newspapers, mailings, and other appropriate media. The Authority shall submit to the General Assembly a comprehensive report that shall include,
at a minimum, the details of the procurement plan, outreach efforts, and the results of the efforts to achieve goals for the payment of fees. The service providers selected by the Authority pursuant to such program shall not be subject to approval by the Regional Transportation Authority, and the Regional Transportation Authority's approval pursuant to subsection (e) of this Section 12c related to the issuance of debt shall not be based in any way on the service providers selected by the Authority pursuant to this Section.

(k) No person holding an elective office in this State, holding a seat in the General Assembly, serving as a director, trustee, officer, or employee of the Regional Transportation Authority or the Chicago Transit Authority, including the spouse or minor child of that person, may receive a legal, banking, consulting, or other fee related to the issuance of any bond issued by the Chicago Transit Authority pursuant to this Section.

The budget, program, and financial plan, and five-year capital program shall then be submitted to the Regional Transportation Authority as provided in Section 4.11 of the Regional Transportation Authority Act. In the event that the Board of the Regional Transportation Authority determines that the budget, program, and financial plan, and five-year capital program do not meet the standards of said Section 4.11, the Board of the Authority shall make such changes as are necessary to meet such requirements and adopt an amended budget ordinance. The amended budget ordinance shall be resubmitted to the Regional Transportation Authority pursuant to said Section 4.11. The ordinance shall appropriate such sums of money as are deemed necessary to defray all necessary expenses and obligations of the Authority, specifying purposes and the objects or programs for which appropriations are made and the amount appropriated for each object or program. Sec. 1.02. Findings and Purpose. (a) The General Assembly finds;

(i) Public transportation is, as provided in Section 7 of Article XIII of the Illinois Constitution, an essential public purpose for which public funds may be expended and that Section authorizes the State to provide financial assistance to units of local government for distribution to providers of public transportation. There is an urgent need to reform and continue a unit of local government to assure the proper management of public transportation and to receive and distribute State or federal operating assistance and to raise and distribute revenues for local operating assistance. System generated revenues are not adequate for such service and a public need exists to provide for, aid and assist public transportation in the northeastern area of the State, consisting of Cook, DuPage, Kane, Lake, McHenry and Will Counties.

(ii) Comprehensive and coordinated regional public transportation is essential to the public health, safety and welfare. It is essential to economic well-being, maintenance of full employment, conservation of sources of energy and land for open space and reduction of traffic congestion and for providing and maintaining a healthful environment for the benefit of present and future generations in the metropolitan region. Public transportation improves the mobility of the public and improves access to jobs, commercial facilities, schools and cultural attractions. Public transportation decreases air pollution and other environmental hazards resulting from excessive use of automobiles and allows for more efficient land use and planning.

(iii) Because system generated receipts are not presently adequate, public transportation facilities and services in the northeastern area are in grave financial condition. With existing methods of financing, coordination and management, and relative convenience of automobiles, such public transportation facilities are not providing adequate public transportation to insure the public health, safety and welfare.
(iv) Additional commitments to the special public transportation needs of the disabled handicapped, the economically disadvantaged, and the elderly are necessary.

(v) To solve these problems, it is necessary to provide for the creation of a regional transportation authority with the powers necessary to insure adequate public transportation.

(b) The General Assembly further finds, in connection with this amendatory Act of 1983:

(i) Substantial, recurring deficits in the operations of public transportation services subject to the jurisdiction of the Regional Transportation Authority and periodic cash shortages have occurred either of which could bring about a loss of public transportation services throughout the metropolitan region at any time;

(ii) A substantial or total loss of public transportation services or any segment thereof would create an emergency threatening the safety and well-being of the people in the northeastern area of the State; and

(iii) To meet the urgent needs of the people of the metropolitan region that such an emergency be averted and to provide financially sound methods of managing the provision of public transportation services in the northeastern area of the State, it is necessary, while maintaining and continuing the existing Authority, to modify the powers and responsibilities of the Authority, to reallocate responsibility for operating decisions, to change the composition and appointment of the Board of Directors thereof, and to immediately establish a new Board of Directors.

(c) The General Assembly further finds in connection with this amendatory Act of the 95th General Assembly:

(i) The economic vitality of northeastern Illinois requires regionwide and systemwide efforts to increase ridership on the transit systems, constrain road congestion within the metropolitan region, and allocate resources for transportation so as to assist in the development of an adequate, efficient, and coordinated regional transportation system that is in a state of good repair.

(ii) To achieve the purposes of this amendatory Act of the 95th General Assembly, the powers and duties of the Authority must be

New matter indicated by italics - deletions by strikeout
enhanced to improve overall planning and coordination, to achieve an integrated and efficient regional transit system, to advance the mobility of transit users, and to increase financial transparency of the Authority and the Service Boards.

(d) It is the purpose of this Act to provide for, aid and assist public transportation in the northeastern area of the State without impairing the overall quality of existing public transportation by providing for the creation of a single authority responsive to the people and elected officials of the area and with the power and competence to develop, implement, and enforce plans that promote adequate, efficient, and coordinated public transportation, provide financial review of the providers of public transportation in the metropolitan region and facilitate public transportation provided by Service Boards which is attractive and economical to users, comprehensive, coordinated among its various elements, economical, safe, efficient and coordinated with area and State plans.

The amended budget ordinance shall be resubmitted to the Authority pursuant to Section 4.11. The ordinance shall appropriate such sums of money as are deemed necessary to defray all necessary expenses and obligations of the Division, specifying purposes and the objects or programs for which appropriations are made and the amount appropriated for each object or program.
