To preserve the rights of the Commuter Rail Board and exclusive representatives which have established collective bargaining relationships or negotiated collective bargaining agreements prior to the effective date of this amendatory Act of 1983, the Commuter Rail Board shall be required to bargain collectively with regard to any matter concerning wages, hours or conditions of employment about which they have bargained prior to the effective date of this amendatory Act of 1983.

(c) The collective bargaining agreement may not include a prohibition on the use of part-time operators on any service operated by the Commuter Rail Board except where prohibited by federal law.

Any amended budget which may be prepared following renegotiation shall be presented to the Board of the Authority for its approval in like manner.

The Authority shall file a copy of its Annual Budget and Two-Year Financial Plan with the Governor for the fiscal year ending on December 31, 1983, the Board shall report its results from operations and financial condition to the General Assembly and the Governor by January 31. Before the proposed Annual Budget and Two-Year Financial Plan is adopted, the Authority shall hold at least one public hearing thereon in the metropolitan region, and shall meet with the county board or its designee of each of the several counties in the metropolitan region. After conducting such hearings and holding such meetings and after making such changes in the proposed Annual Budget and Two-Year Financial Plan as the Board deems appropriate, the Board shall adopt its annual appropriation and Annual Budget and Two-Year Financial Plan ordinance. The ordinance may be adopted only upon the affirmative votes of 12 of its then Directors. (e) This subsection applies only until the Department begins administering and enforcing an increased tax under Section 4.03(m) as authorized by this amendatory Act of the 95th General Assembly. Moneys received by the Authority on account of transfers to the Regional Transportation Authority Occupation and Use Tax Replacement Fund from the State and Local Sales Tax Reform Fund shall be allocated among the Authority and the Service Boards as follows: 15% of such moneys shall be retained by the Authority and the remaining 85% shall be transferred to the Service Boards as soon as may be practicable after the Authority receives payment. (3) coordinate the development and implementation of public transportation programs to the end that the moneys available to the Authority may be expended in the most economical manner possible with the least possible duplication.

(g) All under such regulations as the Board may prescribe, all Service Boards, transportation agencies, comprehensive planning agencies, including the Chicago Metropolitan Agency for Planning, or transportation planning agencies in the metropolitan region shall furnish to the Authority such information pertaining to public transportation or relevant for plans therefor as it may from time to time require. Sec. 4.03. Taxes.

(a) In order to carry out any of the powers or purposes of the Authority, the Board may by ordinance adopted with the concurrence of 12 of the then Directors, impose throughout the metropolitan region any or all of the taxes provided in this Section. Except as otherwise provided in this Act, taxes imposed under this Section and civil penalties imposed incident thereto shall be collected and enforced by the State Department of Revenue. The Department shall have the power to administer and enforce the taxes and to determine all rights for refunds for erroneous payments of the taxes. Nothing in this amendatory Act of the 95th General Assembly is
intended to invalidate any taxes currently imposed by the Authority. The increased vote requirements to impose a tax shall only apply to actions taken after the effective date of this amendatory Act of the 95th General Assembly.

(b) The Board may impose a public transportation tax upon all persons engaged in the metropolitan region in the business of selling at retail motor fuel for operation of motor vehicles upon public highways. The tax shall be at a rate not to exceed 5% of the gross receipts from the sales of motor fuel in the course of the business. As used in this Act, the term "motor fuel" shall have the same meaning as in the Motor Fuel Tax Law. The Board may provide for details of the tax. The provisions of any tax shall conform, as closely as may be practicable, to the provisions of the Municipal Retailers Occupation Tax Act, including without limitation, conformity to penalties with respect to the tax imposed and as to the powers of the State Department of Revenue to promulgate and enforce rules and regulations relating to the administration and enforcement of the provisions of the tax imposed, except that reference in the Act to any municipality shall refer to the Authority and the tax shall be imposed only with regard to receipts from sales of motor fuel in the metropolitan region, at rates as limited by this Section.

(c) In connection with the tax imposed under paragraph (b) of this Section the Board may impose a tax upon the privilege of using in the metropolitan region motor fuel for the operation of a motor vehicle upon public highways, the tax to be at a rate not in excess of the rate of tax imposed under paragraph (b) of this Section. The Board may provide for details of the tax.

(d) The Board may impose a motor vehicle parking tax upon the privilege of parking motor vehicles at off-street parking facilities in the metropolitan region at which a fee is charged, and may provide for reasonable classifications in and exemptions to the tax, for administration and enforcement thereof and for civil penalties and refunds thereunder and may provide criminal penalties thereunder, the maximum penalties not to exceed the maximum criminal penalties provided in the Retailers' Occupation Tax Act. The Authority may collect and enforce the tax itself
or by contract with any unit of local government. The State Department of Revenue shall have no responsibility for the collection and enforcement unless the Department agrees with the Authority to undertake the collection and enforcement. As used in this paragraph, the term "parking facility" means a parking area or structure having parking spaces for more than 2 vehicles at which motor vehicles are permitted to park in return for an hourly, daily, or other periodic fee, whether publicly or privately owned, but does not include parking spaces on a public street, the use of which is regulated by parking meters.

(e) The Board may impose a Regional Transportation Authority Retailers' Occupation Tax upon all persons engaged in the business of selling tangible personal property at retail in the metropolitan region. In Cook County the tax rate shall be 1.25% of the gross receipts from sales of food for human consumption that is to be consumed off the premises where it is sold (other than alcoholic beverages, soft drinks and food that has been prepared for immediate consumption) and prescription and nonprescription medicines, drugs, medical appliances and insulin, urine testing materials, syringes and needles used by diabetics, and 1% of the gross receipts from other taxable sales made in the course of that business. In DuPage, Kane, Lake, McHenry, and Will Counties, the tax rate shall be 0.75% of the gross receipts from all taxable sales made in the course of that business. The tax imposed under this Section and all civil penalties that may be assessed as an incident thereof shall be collected and enforced by the State Department of Revenue. The Department shall have full power to administer and enforce this Section; to collect all taxes and penalties so collected in the manner hereinafter provided; and to determine all rights to credit memoranda arising on account of the erroneous payment of tax or penalty hereunder. In the administration of, and compliance with this Section, the Department and persons who are subject to this Section shall have the same rights, remedies, privileges, immunities, powers and duties, and be subject to the same conditions, restrictions, limitations, penalties, exclusions, exemptions and definitions of terms, and employ the same modes of procedure, as are prescribed in Sections 1, 1a, 1a-1, 1c, 1d, 1e, 1f, 1i, 1j, 2
through 2-65 (in respect to all provisions therein other than the State rate of tax), 2c, 3 (except as to the disposition of taxes and penalties collected), 4, 5, 5a, 5b, 5c, 5d, 5e, 5f, 5g, 5h, 5i, 5j, 5k, 5l, 6, 6a, 6b, 6c, 7, 8, 9, 10, 11, 12 and 13 of the Retailers' Occupation Tax Act and Section 3-7 of the Uniform Penalty and Interest Act, as fully as if those provisions were set forth herein.

Persons subject to any tax imposed under the authority granted in this Section may reimburse themselves for their seller's tax liability hereunder by separately stating the tax as an additional charge, which charge may be stated in combination in a single amount with State taxes that sellers are required to collect under the Use Tax Act, under any bracket schedules the Department may prescribe.

Whenever the Department determines that a refund should be made under this Section to a claimant instead of issuing a credit memorandum, the Department shall notify the State Comptroller, who shall cause the warrant to be drawn for the amount specified, and to the person named, in the notification from the Department. The refund shall be paid by the State Treasurer out of the Regional Transportation Authority tax fund established under paragraph (n) of this Section.

If a tax is imposed under this subsection (e), a tax shall also be imposed under subsections (f) and (g) of this Section.

For the purpose of determining whether a tax authorized under this Section is applicable, a retail sale by a producer of coal or other mineral mined in Illinois, is a sale at retail at the place where the coal or other mineral mined in Illinois is extracted from the earth. This paragraph does not apply to coal or other mineral when it is delivered or shipped by the seller to the purchaser at a point outside Illinois so that the sale is exempt under the Federal Constitution as a sale in interstate or foreign commerce.

No tax shall be imposed or collected under this subsection on the sale of a motor vehicle in this State to a resident of another state if that motor vehicle will not be titled in this State.

Nothing in this Section shall be construed to authorize the Regional Transportation Authority to impose a tax upon the privilege of

(f) If a tax has been imposed under paragraph (e), a Regional Transportation Authority Service Occupation Tax shall also be imposed upon all persons engaged, in the metropolitan region in the business of making sales of service, who as an incident to making the sales of service, transfer tangible personal property within the metropolitan region, either in the form of tangible personal property or in the form of real estate as an incident to a sale of service. In Cook County, the tax rate shall be: (1) 1.25% of the serviceman's cost price of food prepared for immediate consumption and transferred incident to a sale of service subject to the service occupation tax by an entity licensed under the Hospital Licensing Act or the Nursing Home Care Act that is located in the metropolitan region; (2) 1.25% of the selling price of food for human consumption that is to be consumed off the premises where it is sold (other than alcoholic beverages, soft drinks and food that has been prepared for immediate consumption) and prescription and nonprescription medicines, drugs, medical appliances and insulin, urine testing materials, syringes and needles used by diabetics; and (3) 1% of the selling price from other taxable sales of tangible personal property transferred. In DuPage, Kane, Lake, McHenry and Will Counties the rate shall be 0.75% of the selling price of all tangible personal property transferred.

The tax imposed under this paragraph and all civil penalties that may be assessed as an incident thereof shall be collected and enforced by the State Department of Revenue. The Department shall have full power to administer and enforce this paragraph; to collect all taxes and penalties due hereunder; to dispose of taxes and penalties collected in the manner hereinafter provided; and to determine all rights to credit memoranda arising on account of the erroneous payment of tax or penalty hereunder. In the administration of and compliance with this paragraph, the Department and persons who are subject to this paragraph shall have the same rights, remedies, privileges, immunities, powers and duties, and be subject to the same conditions, restrictions, limitations, penalties, exclusions, exemptions and definitions of terms, and employ the same

(d) Beginning with State fiscal year 1990 and continuing for each State fiscal year thereafter, the Authority shall annually certify to the State Comptroller and State Treasurer, separately with respect to each of subdivisions (g)(2) and (g)(3) of Section 4.04 of this Act, the following amounts:

1. The amount necessary and required, during the State fiscal year with respect to which the certification is made, to pay its obligations for debt service on all outstanding bonds or notes issued by the Authority under subdivisions (g)(2) and (g)(3) of Section 4.04 of this Act.

2. An estimate of the amount necessary and required to pay its obligations for debt service for any bonds or notes which the Authority anticipates it will issue under subdivisions (g)(2) and (g)(3) of Section 4.04 during that State fiscal year.

3. Its debt service savings during the preceding State fiscal year from refunding or advance refunding of bonds or notes issued under subdivisions (g)(2) and (g)(3) of Section 4.04.

4. The amount of interest, if any, earned by the Authority during the previous State fiscal year on the proceeds of bonds or

notes issued pursuant to subdivisions (g)(2) and (g)(3) of Section 4.04, other than refunding or advance refunding bonds or notes.

The certification shall include a specific schedule of debt service payments, including the date and amount of each payment for all outstanding bonds or notes and an estimated schedule of anticipated debt service for all bonds and notes it intends to issue, if any, during that State fiscal year, including the estimated date and estimated amount of each payment.

Immediately upon the issuance of bonds for which an estimated schedule of debt service payments was prepared, the Authority shall file an amended certification with respect to item (2) above, to specify the actual schedule of debt service payments, including the date and amount of each payment, for the remainder of the State fiscal year.

On the first day of each month of the State fiscal year in which there are bonds outstanding with respect to which the certification is made, the State Comptroller shall order transferred and the State Treasurer shall transfer from the General Revenue Fund to the Public Transportation Fund the Additional State Assistance and Additional Financial Assistance in an amount equal to the aggregate of (i) one-twelfth of the sum of the amounts certified under items (1) and (3) above less the amount certified under item (4) above, plus (ii) the amount required to pay debt service on bonds and notes issued during the fiscal year, if any, divided by the number of months remaining in the fiscal year after the date of issuance, or some smaller portion as may be necessary under subsection (c) or (c-5) of this Section for the relevant State fiscal year, plus (iii) any cumulative deficiencies in transfers for prior months, until an amount equal to the sum of the amounts certified under items (1) and (3) above, plus the actual debt service certified under item (2) above, less the amount certified under item (4) above, has been transferred; except that these transfers are subject to the following limits:

(A) In no event shall the total transfers in any State fiscal year relating to outstanding bonds and notes issued by the Authority under subdivision (g)(2) of Section 4.04 exceed the lesser of the annual maximum amount specified in subsection (c)
or the sum of the amounts certified under items (1) and (3) above, plus the actual debt service certified under item (2) above, less the amount certified under item (4) above, with respect to those bonds and notes.

(B) In no event shall the total transfers in any State fiscal year relating to outstanding bonds and notes issued by the Authority under subdivision (g)(3) of Section 4.04 exceed the lesser of the annual maximum amount specified in subsection (c-5) or the sum of the amounts certified under items (1) and (3) above, plus the actual debt service certified under item (2) above, less the amount certified under item (4) above, with respect to those bonds and notes.

The term "outstanding" does not include bonds or notes for which refunding or advance refunding bonds or notes have been issued.

(e) Neither Additional State Assistance nor Additional Financial Assistance may be pledged, either directly or indirectly as general revenues of the Authority, as security for any bonds issued by the Authority. The Authority may not assign its right to receive Additional State Assistance or Additional Financial Assistance, or direct payment of Additional State Assistance or Additional Financial Assistance, to a trustee or any other entity for the payment of debt service on its bonds.

(f) The certification required under subsection (d) with respect to outstanding bonds and notes of the Authority shall be filed as early as practicable before the beginning of the State fiscal year to which it relates. The certification shall be revised as may be necessary to accurately state the debt service requirements of the Authority.

(g) Within 6 months of the end of the 3 month period ending December 31, 1983, and each fiscal year thereafter, the Authority shall determine:

(i) whether the aggregate of all system generated revenues for public transportation in the metropolitan region which is provided by, or under grant or purchase of service contracts with, the Service Boards equals 50% of the aggregate of all costs of providing such public transportation. "System generated revenues"
include all the proceeds of fares and charges for services provided, contributions received in connection with public transportation from units of local government other than the Authority, except for contributions received by the Chicago Transit Authority from a real estate transfer tax imposed under subsection (i) of Section 8-3-19 of the Illinois Municipal Code, and from the State pursuant to subsection (i) of Section 2705-305 of the Department of Transportation Law (20 ILCS 2705/2705-305), and all other revenues properly included consistent with generally accepted accounting principles but may not include: the proceeds from any borrowing, and, beginning with the 2007 fiscal year, all revenues and receipts, including but not limited to fares and grants received from the federal, State or any unit of local government or other entity, derived from providing ADA paratransit service pursuant to Section 2.30 of the Regional Transportation Authority Act. "Costs" include all items properly included as operating costs consistent with generally accepted accounting principles, including administrative costs, but do not include: depreciation; payment of principal and interest on bonds, notes or other evidences of obligations for borrowed money of the Authority; payments with respect to public transportation facilities made pursuant to subsection (b) of Section 2.20; any payments with respect to rate protection contracts, credit enhancements or liquidity agreements made under Section 4.14; any other cost as to which it is reasonably expected that a cash expenditure will not be made; costs up to $5,000,000 annually for passenger security including grants, contracts, personnel, equipment and administrative expenses, except in the case of the Chicago Transit Authority, in which case the term does not include costs spent annually by that entity for protection against crime as required by Section 27a of the Metropolitan Transit Authority Act; the costs of Debt Service paid by the Chicago Transit Authority, as defined in Section 12c of the Metropolitan Transit Authority Act, or bonds or notes issued pursuant to that Section; the payment by the Commuter Rail

If said system generated revenues are less than 50% of said costs, the Board shall remit an amount equal to the amount of the deficit to the State. The Treasurer shall deposit any such payment in the General Revenue Fund; and

(ii) whether, beginning with the 2007 fiscal year, the aggregate of all fares charged and received for ADA paratransit services equals the system generated ADA paratransit services revenue recovery ratio percentage of the aggregate of all costs of providing such ADA paratransit services.

(h) If the Authority makes any payment to the State under paragraph (g), the Authority shall reduce the amount provided to a Service Board from funds transferred under paragraph (a) in proportion to the amount by which that Service Board failed to meet its required system generated revenues recovery ratio. A Service Board which is affected by a reduction in funds under this paragraph shall submit to the Authority concurrently with its next due quarterly report a revised budget incorporating the reduction in funds. The revised budget must meet the criteria specified in clauses (i) through (vi) of Section 4.11(b)(2). The Board shall review and act on the revised budget as provided in Section 4.11(b)(3).

Sec. 4.11. Budget Review Powers.
(a) The provisions of this Section shall only be applicable to financial periods beginning after December 31, 1983. The Transition Board shall adopt a timetable governing the certification of estimates and any submissions required under this Section for fiscal year 1984 which shall control over the provisions of this Act. Based upon estimates which shall be given to the Authority by the Director of the Governor's Office of Management and Budget (formerly Bureau of the Budget) of the receipts to be received by the Authority from the taxes imposed by the Authority and the authorized estimates of amounts to be available from State and other sources to the Service Boards, and the times at which such receipts and amounts will be available, the Board shall, not later than the next preceding September 15th prior to the beginning of the Authority's next fiscal year, advise each Service Board of the amounts estimated by the Board to be available for such Service Board during such fiscal year and the two following fiscal years and the times at which such amounts will be available. The Board shall, at the same time, also advise each Service Board of its required system generated revenues recovery ratio for the next fiscal year which shall be the percentage of the aggregate costs of providing public transportation by or under jurisdiction of that Service Board which must be recovered from system generated revenues. The Board shall, at the same time, beginning with the 2007 fiscal year, also advise each Service Board that provides ADA paratransit services of its required system generated ADA paratransit services revenue recovery ratio for the next fiscal year which shall be the percentage of the aggregate costs of providing ADA paratransit services by or under jurisdiction of that Service Board which must be recovered from fares charged for such services, except that such required system generated ADA paratransit services revenue recovery ratio shall not exceed the minimum percentage established pursuant to Section 4.01(b)(ii) of this Act. In determining a Service Board's system generated revenue recovery ratio, the Board shall consider the historical system generated revenues recovery ratio for the services subject to the jurisdiction of that Service Board. The Board shall not increase a Service Board's system generated revenues recovery ratio
for the next fiscal year over such ratio for the current fiscal year disproportionately or prejudicially to increases in such ratios for other Service Boards. The Board may, by ordinance, provide that (i) the cost of research and development projects in the fiscal year beginning January 1, 1986 and ending December 31, 1986 conducted pursuant to Section 2.09 of this Act, and (ii) up to $5,000,000 annually of the costs for passenger security, and (iii) expenditures of amounts granted to a Service Board from the Innovation, Coordination, and Enhancement Fund for operating purposes may be exempted from the farebox recovery ratio or the system generated revenues recovery ratio of the Chicago Transit Authority, the Suburban Bus Board, and the Commuter Rail Board, or any of them. During fiscal years 2008 through 2012, the Board may also allocate the exemption of $200,000,000 and the reducing amounts of costs provided by this amendatory Act of the 95th General Assembly from the farebox recovery ratio or system generated revenues recovery ratio of each Service Board. For the fiscal year beginning January 1, 1986 and ending December 31, 1986, and for the fiscal year beginning January 1, 1987 and ending December 31, 1987, the Board shall, by ordinance, provide that: (1) the amount of a grant, pursuant to Section 2705-310 of the Department of Transportation Law (20 ILCS 2705/2705-310), from the Department of Transportation for the cost of services for the mobility limited provided by the Chicago Transit Authority, and (2) the amount of a grant, pursuant to Section 2705-310 of the Department of Transportation Law (20 ILCS 2705/2705-310), from the Department of Transportation for the cost of services for the mobility limited by the Suburban Bus Board or the Commuter Rail Board, be exempt from the farebox recovery ratio or the system generated revenues recovery ratio.

(b)(1) Not later than the next preceding November 15 prior to the commencement of such fiscal year, each Service Board shall submit to the Authority its proposed budget for such fiscal year and its proposed financial plan for the two following fiscal years. Such budget and financial plan shall (i) be prepared in the format, follow the financial and budgetary practices, and be based on any assumptions and projections required by the Authority and (ii) not project or assume a receipt of revenues from the

Authority in amounts greater than those set forth in the estimates provided by the Authority pursuant to subsection (a) of this Section.

(2) The Board shall review the proposed budget and two-year financial plan submitted by each Service Board, and shall adopt a consolidated budget and financial plan. The Board shall approve the budget and two-year financial plan of a Service Board if:

(i) the Board has approved the proposed budget and cash flow plan for such fiscal year of each Service Board, pursuant to the conditions set forth in clauses (ii) through (vii) of this paragraph;

(ii) such budget and plan show a balance between (A) anticipated revenues from all sources including operating subsidies and (B) the costs of providing the services specified and of funding any operating deficits or encumbrances incurred in prior periods, including provision for payment when due of principal and interest on outstanding indebtedness;

(iii) such budget and plan show cash balances including the proceeds of any anticipated cash flow borrowing sufficient to pay with reasonable promptness all costs and expenses as incurred;

(iv) such budget and plan provide for a level of fares or charges and operating or administrative costs for the public transportation provided by or subject to the jurisdiction of such Service Board sufficient to allow the Service Board to meet its required system generated revenue recovery ratio and, beginning with the 2007 fiscal year, system generated ADA paratransit services revenue recovery ratio;

(v) such budget and plan are based upon and employ assumptions and projections which are reasonable and prudent;

(vi) such budget and plan have been prepared in accordance with sound financial practices as determined by the Board; and

(vii) such budget and plan meet such other financial, budgetary, or fiscal requirements that the Board may by rule or regulation establish; and:

(vii) such budget and plan are consistent with the goals and objectives adopted by the Authority in the Strategic Plan.

(3) (Blank) In determining whether the budget and financial plan provide a level of fares or charges sufficient to allow a Service Board to meet its required system generated revenue recovery ratio and, beginning with the 2007 fiscal year, system generated ADA paratransit services revenue recovery ratio under clause (iv) in subparagraph (2), the Board shall allow a Service Board to carry over cash from farebox revenues to subsequent fiscal years.

(4) Unless the Board by an affirmative vote of 12 of the then Directors determines that the budget and financial plan of a Service Board meets the criteria specified in clauses (i) through (vii) of subparagraph (2) of this paragraph (b), the Board shall withhold from any funds for the periods covered by such budget and financial plan except for the cash proceeds of taxes imposed by the Authority under Section 4.03 and Section 4.03.1 and received after February 1 and 25% of the amounts transferred to the Authority from the Public Transportation Fund under Section 4.09(a) (but not including Section 4.09(a)(3)(iv)) after February 1 that the Board has estimated to be available to that Service Board under Section 4.11(a). Such funding shall be released to the Service Board only upon approval of a budget and financial plan under this Section or adoption of a budget and financial plan on behalf of the Service Board by the Authority which are allocated to the Service Board under Section 4.01.

(5) If the Board has not found that the budget and financial plan of a Service Board meets the criteria specified in clauses (i) through (vii) of subparagraph (2) of this paragraph (b), the Board, by the affirmative vote of at least 12 of its then Directors, shall adopt a budget and financial plan meeting such criteria for that Service Board.

(c)(1) If the Board shall at any time have received a revised estimate, or revises any estimate the Board has made, pursuant to this Section of the receipts to be collected by the Authority which, in the judgment of the Board, requires a change in the estimates on which the

If in the judgment of the Board such condition and results are not substantially in accordance with such Service Board's budget for such period, the Board shall so advise such Service Board and such Service Board shall within the period specified by the Board submit a revised budget incorporating such results.

(3) If the Board shall determine that a revised budget submitted by a Service Board pursuant to subparagraph (1) or (2) of this paragraph (c) does not meet the criteria specified in clauses (i) (ii) through (vii) of subparagraph (2) of paragraph (b) of this Section, the Board shall withhold from not release any monies to that Service Board 25% of except the cash proceeds of taxes imposed by the Authority under Section 4.03 or 4.03.1 and received by the Authority after February 1 and 25% of the amounts transferred to the Authority from the Public Transportation Fund under Section 4.09(a) (but not including Section 4.09(a)(3)(iv)) after February 1 that the Board has estimated to be available which are allocated to that the Service Board under Section 4.11(a). (d) All budgets and financial plans, financial statements, audits and other information presented to the Authority pursuant to this Section or which may be required by the Board to permit it to monitor compliance with the provisions of this Section shall be prepared and presented in such manner and frequency and in such detail as shall have been prescribed by the Board, shall be prepared on both an accrual and cash flow basis as specified by the Board, \textit{shall present such information as the Authority shall prescribe that fairly presents the condition of any pension plan or trust for health care benefits with respect to retirees established by the Service Board and describes the plans of the Service Board to meet the requirements of Sections 4.02a and 4.02b, and shall identify and describe the assumptions and projections employed in the preparation thereof to the extent required by the Board. If the Executive Director certifies that a Service Board has not presented its budget and two-year financial plan in conformity with the rules adopted by the Authority under the provisions of Section 4.01(f) and this subsection (d), and such certification is accepted by the affirmative vote of at least 12 of the then Directors of the Authority, the Authority shall not distribute to that Service Board any funds for operating purposes in excess of the amounts distributed for such purposes to the Service Board in the previous fiscal year. Except when the Board adopts a budget and a financial plan for a Service Board under paragraph (b)(5), a Service Board shall provide for such levels of transportation services and fares or charges therefor as it deems appropriate and necessary in the preparation of a budget and financial plan meeting the criteria set forth in clauses (i) (iii) through (vii) of subparagraph (2) of paragraph (b) of this Section. Sec. 4.13. Annual Capital Improvement Plan.

(a) With respect to each calendar year, the Authority shall prepare as part of its Five Year Program an Annual Capital Improvement Plan (the "Plan") which shall describe its intended development and implementation of the Strategic Capital Improvement Program. The Plan shall include the following information:

(i) a list of projects for which approval is sought from the Governor, with a description of each project stating at a minimum the project cost, its category, its location and the entity responsible for its implementation;

(ii) a certification by the Authority that the Authority and the Service Boards have applied for all grants, loans and other moneys made available by the federal government or the State of Illinois during the preceding federal and State fiscal years for financing its capital development activities;

(iii) a certification that, as of September 30 of the preceding calendar year or any later date, the balance of all federal capital grant funds and all other funds to be used as matching funds therefor which were committed to or possessed by the Authority or a Service Board but which had not been obligated was less than $350,000,000, or a greater amount as authorized in writing by the Governor (for purposes of this subsection (a), "obligated" means committed to be paid by the Authority or a Service Board under a contract with a nongovernmental entity in connection with the performance of a project or committed under a force account plan approved by the federal government);

(iv) a certification that the Authority has adopted a balanced budget with respect to such calendar year under Section 4.01 of this Act;

(v) a schedule of all bonds or notes previously issued for Strategic Capital Improvement Projects and all debt service payments to be made with respect to all such bonds and the estimated additional debt service payments through June 30 of the following calendar year expected to result from bonds to be sold prior thereto;

(vii) the source of funding for each project in the Plan. For any project for which full funding has not yet been secured and which is not subject to a federal full funding contract, the Authority must identify alternative, dedicated funding sources available to complete the project. The Governor may waive this requirement on a project by project basis.

(b) The Authority shall submit the Plan with respect to any calendar year to the Governor on or before January 15 of that year, or as soon as possible thereafter; provided, however, that the Plan shall be adopted on the affirmative votes of 12 of the then Directors. The Authority shall not request approval of the Plan from the Governor in any calendar year in which it is unable to make the certifications required under items (ii), (iii) and (iv) of subsection (a). In no event shall the Authority seek approval of the Plan from the Governor for projects in an aggregate amount exceeding the

proceeds of bonds or notes for Strategic Capital Improvement Projects issued under Section 4.04 of this Act.

(d) The Governor may approve the Plan for which approval is requested. The Governor's approval is limited to the amount of the project cost stated in the Plan. The Governor shall not approve the Plan in a calendar year if the Authority is unable to make the certifications required under items (ii), (iii) and (iv) of subsection (a). In no event shall the Governor approve the Plan for projects in an aggregate amount exceeding the proceeds of bonds or notes for Strategic Capital Improvement Projects issued under Section 4.04 of this Act.

(e) With respect to capital improvements, only those capital improvements which are in a Plan approved by the Governor shall be financed with the proceeds of bonds or notes issued for Strategic Capital Improvement Projects.

(f) Before the Authority or a Service Board obligates any funds for a project for which the Authority or Service Board intends to use the proceeds of bonds or notes for Strategic Capital Improvement Projects, but which project is not included in an approved Plan, the Authority must notify the Governor of the intended obligation. No project costs incurred prior to approval of the Plan including that project may be paid from the proceeds of bonds or notes for Strategic Capital Improvement Projects issued under Section 4.04 of this Act.

The Authority's obligations under any rate protection contract or credit enhancement or liquidity agreement shall not be considered bonds or notes for purposes of this Act. For purposes of this Section a rate protection contract is a contract determined by the Authority as necessary or appropriate to permit it to manage payment, currency or interest rate risks or levels.

meanings, unless in any case a different meaning clearly appears from the context.

(a) For any redevelopment project area that has been designated pursuant to this Section by an ordinance adopted prior to November 1, 1999 (the effective date of Public Act 91-478), "blighted area" shall have the meaning set forth in this Section prior to that date.

On and after November 1, 1999, "blighted area" means any improved or vacant area within the boundaries of a redevelopment project area located within the territorial limits of the municipality where:

(1) If improved, industrial, commercial, and residential buildings or improvements are detrimental to the public safety, health, or welfare because of a combination of 5 or more of the following factors, each of which is (i) present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) reasonably distributed throughout the improved part of the redevelopment project area:

   (A) Dilapidation. An advanced state of disrepair or neglect of necessary repairs to the primary structural components of buildings or improvements in such a combination that a documented building condition analysis determines that major repair is required or the defects are so serious and so extensive that the buildings must be removed.

   (B) Obsolescence. The condition or process of falling into disuse. Structures have become ill-suited for the original use.

   (C) Deterioration. With respect to buildings, defects including, but not limited to, major defects in the secondary building components such as doors, windows, porches, gutters and downspouts, and fascia. With respect to surface improvements, that the condition of roadways, alleys, curbs, gutters, sidewalks, off-street parking, and surface storage areas evidence deterioration, including, but not
limited to, surface cracking, crumbling, potholes, depressions, loose paving material, and weeds protruding through paved surfaces.

(D) Presence of structures below minimum code standards. All structures that do not meet the standards of zoning, subdivision, building, fire, and other governmental codes applicable to property, but not including housing and property maintenance codes.

(E) Illegal use of individual structures. The use of structures in violation of applicable federal, State, or local laws, exclusive of those applicable to the presence of structures below minimum code standards.

(F) Excessive vacancies. The presence of buildings that are unoccupied or under-utilized and that represent an adverse influence on the area because of the frequency, extent, or duration of the vacancies.

(G) Lack of ventilation, light, or sanitary facilities. The absence of adequate ventilation for light or air circulation in spaces or rooms without windows, or that require the removal of dust, odor, gas, smoke, or other noxious airborne materials. Inadequate natural light and ventilation means the absence of skylights or windows for interior spaces or rooms and improper window sizes and amounts by room area to window area ratios. Inadequate sanitary facilities refers to the absence or inadequacy of garbage storage and enclosure, bathroom facilities, hot water and kitchens, and structural inadequacies preventing ingress and egress to and from all rooms and units within a building.

(H) Inadequate utilities. Underground and overhead utilities such as storm sewers and storm drainage, sanitary sewers, water lines, and gas, telephone, and electrical services that are shown to be inadequate. Inadequate utilities are those that are: (i) of insufficient capacity to
serve the uses in the redevelopment project area, (ii)
deteriorated, antiquated, obsolete, or in disrepair, or (iii)
lacking within the redevelopment project area.

(I) Excessive land coverage and overcrowding of
structures and community facilities. The over-intensive use
of property and the crowding of buildings and accessory
facilities onto a site. Examples of problem conditions
warranting the designation of an area as one exhibiting
excessive land coverage are: (i) the presence of buildings
either improperly situated on parcels or located on parcels
of inadequate size and shape in relation to present-day
standards of development for health and safety and (ii) the
presence of multiple buildings on a single parcel. For there
to be a finding of excessive land coverage, these parcels
must exhibit one or more of the following conditions:
insufficient provision for light and air within or around
buildings, increased threat of spread of fire due to the close
proximity of buildings, lack of adequate or proper access to
a public right-of-way, lack of reasonably required off-street
parking, or inadequate provision for loading and service.

(J) Deleterious land use or layout. The existence of
incompatible land-use relationships, buildings occupied by
inappropriate mixed-uses, or uses considered to be noxious,
offensive, or unsuitable for the surrounding area.

(K) Environmental clean-up. The proposed
redevelopment project area has incurred Illinois
Environmental Protection Agency or United States
Environmental Protection Agency remediation costs for, or
a study conducted by an independent consultant recognized
as having expertise in environmental remediation has
determined a need for, the clean-up of hazardous waste,
hazardous substances, or underground storage tanks
required by State or federal law, provided that the
remediation costs constitute a material impediment to the
development or redevelopment of the redevelopment project area.

(L) Lack of community planning. The proposed redevelopment project area was developed prior to or without the benefit or guidance of a community plan. This means that the development occurred prior to the adoption by the municipality of a comprehensive or other community plan or that the plan was not followed at the time of the area's development. This factor must be documented by evidence of adverse or incompatible land-use relationships, inadequate street layout, improper subdivision, parcels of inadequate shape and size to meet contemporary development standards, or other evidence demonstrating an absence of effective community planning.

(M) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated.

(2) If vacant, the sound growth of the redevelopment project area is impaired by a combination of 2 or more of the following factors, each of which is (i) present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) reasonably distributed throughout the vacant part of the redevelopment project area to which it pertains:

(A) Obsolete platting of vacant land that results in parcels of limited or narrow size or configurations of parcels of irregular size or shape that would be difficult to develop on a planned basis and in a manner compatible with contemporary standards and requirements, or platting that failed to create rights-of-ways for streets or alleys or that created inadequate right-of-way widths for streets, alleys, or other public rights-of-way or that omitted easements for public utilities.

(B) Diversity of ownership of parcels of vacant land sufficient in number to retard or impede the ability to assemble the land for development.

(C) Tax and special assessment delinquencies exist or the property has been the subject of tax sales under the Property Tax Code within the last 5 years.

(D) Deterioration of structures or site improvements in neighboring areas adjacent to the vacant land.

(E) The area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

(F) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which

information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated.

(3) If vacant, the sound growth of the redevelopment project area is impaired by one of the following factors that (i) is present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) is reasonably distributed throughout the vacant part of the redevelopment project area to which it pertains:

(A) The area consists of one or more unused quarries, mines, or strip mine ponds.

(B) The area consists of unused rail yards, rail tracks, or railroad rights-of-way.

(C) The area, prior to its designation, is subject to (i) chronic flooding that adversely impacts on real property in the area as certified by a registered professional engineer or appropriate regulatory agency or (ii) surface water that discharges from all or a part of the area and contributes to flooding within the same watershed, but only if the redevelopment project provides for facilities or improvements to contribute to the alleviation of all or part of the flooding.

(D) The area consists of an unused or illegal disposal site containing earth, stone, building debris, or similar materials that were removed from construction, demolition, excavation, or dredge sites.

(E) Prior to November 1, 1999, the area is not less than 50 nor more than 100 acres and 75% of which is vacant (notwithstanding that the area has been used for commercial agricultural purposes within 5 years prior to the
designates the redevelopment project area, and the area meets at least one of the factors itemized in paragraph (1) of this subsection, the area has been designated as a town or village center by ordinance or comprehensive plan adopted prior to January 1, 1982, and the area has not been developed for that designated purpose.

(F) The area qualified as a blighted improved area immediately prior to becoming vacant, unless there has been substantial private investment in the immediately surrounding area.

(b) For any redevelopment project area that has been designated pursuant to this Section by an ordinance adopted prior to November 1, 1999 (the effective date of Public Act 91-478), "conservation area" shall have the meaning set forth in this Section prior to that date.

On and after November 1, 1999, "conservation area" means any improved area within the boundaries of a redevelopment project area located within the territorial limits of the municipality in which 50% or more of the structures in the area have an age of 35 years or more. Such an area is not yet a blighted area but because of a combination of 3 or more of the following factors is detrimental to the public safety, health, morals or welfare and such an area may become a blighted area:

(1) Dilapidation. An advanced state of disrepair or neglect of necessary repairs to the primary structural components of buildings or improvements in such a combination that a documented building condition analysis determines that major repair is required or the defects are so serious and so extensive that the buildings must be removed.

(2) Obsolescence. The condition or process of falling into disuse. Structures have become ill-suited for the original use.

(3) Deterioration. With respect to buildings, defects including, but not limited to, major defects in the secondary building components such as doors, windows, porches, gutters and downspouts, and fascia. With respect to surface improvements, that the condition of roadways, alleys, curbs, gutters, sidewalks, off-
street parking, and surface storage areas evidence deterioration, including, but not limited to, surface cracking, crumbling, potholes, depressions, loose paving material, and weeds protruding through paved surfaces.

(4) Presence of structures below minimum code standards. All structures that do not meet the standards of zoning, subdivision, building, fire, and other governmental codes applicable to property, but not including housing and property maintenance codes.

(5) Illegal use of individual structures. The use of structures in violation of applicable federal, State, or local laws, exclusive of those applicable to the presence of structures below minimum code standards.

(6) Excessive vacancies. The presence of buildings that are unoccupied or under-utilized and that represent an adverse influence on the area because of the frequency, extent, or duration of the vacancies.

(7) Lack of ventilation, light, or sanitary facilities. The absence of adequate ventilation for light or air circulation in spaces or rooms without windows, or that require the removal of dust, odor, gas, smoke, or other noxious airborne materials. Inadequate natural light and ventilation means the absence or inadequacy of skylights or windows for interior spaces or rooms and improper window sizes and amounts by room area to window area ratios. Inadequate sanitary facilities refers to the absence or inadequacy of garbage storage and enclosure, bathroom facilities, hot water and kitchens, and structural inadequacies preventing ingress and egress to and from all rooms and units within a building.

(8) Inadequate utilities. Underground and overhead utilities such as storm sewers and storm drainage, sanitary sewers, water lines, and gas, telephone, and electrical services that are shown to be inadequate. Inadequate utilities are those that are: (i) of insufficient capacity to serve the uses in the redevelopment project.
area, (ii) deteriorated, antiquated, obsolete, or in disrepair, or (iii) lacking within the redevelopment project area.

(9) Excessive land coverage and overcrowding of structures and community facilities. The over-intensive use of property and the crowding of buildings and accessory facilities onto a site. Examples of problem conditions warranting the designation of an area as one exhibiting excessive land coverage are: the presence of buildings either improperly situated on parcels or located on parcels of inadequate size and shape in relation to present-day standards of development for health and safety and the presence of multiple buildings on a single parcel. For there to be a finding of excessive land coverage, these parcels must exhibit one or more of the following conditions: insufficient provision for light and air within or around buildings, increased threat of spread of fire due to the close proximity of buildings, lack of adequate or proper access to a public right-of-way, lack of reasonably required off-street parking, or inadequate provision for loading and service.

(10) Deleterious land use or layout. The existence of incompatible land-use relationships, buildings occupied by inappropriate mixed-uses, or uses considered to be noxious, offensive, or unsuitable for the surrounding area.

(11) Lack of community planning. The proposed redevelopment project area was developed prior to or without the benefit or guidance of a community plan. This means that the development occurred prior to the adoption by the municipality of a comprehensive or other community plan or that the plan was not followed at the time of the area's development. This factor must be documented by evidence of adverse or incompatible land-use relationships, inadequate street layout, improper subdivision, parcels of inadequate shape and size to meet contemporary development standards, or other evidence demonstrating an absence of effective community planning.

(12) The area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency violations and administrative or criminal infractions, or both.
Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

(13) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years for which information is available.

(c) "Industrial park" means an area in a blighted or conservation area suitable for use by any manufacturing, industrial, research or transportation enterprise, of facilities to include but not be limited to factories, mills, processing plants, assembly plants, packing plants, fabricating plants, industrial distribution centers, warehouses, repair overhaul or service facilities, freight terminals, research facilities, test facilities or railroad facilities.

(d) "Industrial park conservation area" means an area within the boundaries of a redevelopment project area located within the territorial limits of a municipality that is a labor surplus municipality or within 1 1/2 miles of the territorial limits of a municipality that is a labor surplus municipality if the area is annexed to the municipality; which area is zoned as industrial no later than at the time the municipality by ordinance designates the redevelopment project area, and which area includes both vacant land suitable for use as an industrial park and a blighted area or conservation area contiguous to such vacant land.

(e) "Labor surplus municipality" means a municipality in which, at any time during the 6 months before the municipality by ordinance
designates an industrial park conservation area, the unemployment rate was over 6% and was also 100% or more of the national average unemployment rate for that same time as published in the United States Department of Labor Bureau of Labor Statistics publication entitled "The Employment Situation" or its successor publication. For the purpose of this subsection, if unemployment rate statistics for the municipality are not available, the unemployment rate in the municipality shall be deemed to be the same as the unemployment rate in the principal county in which the municipality is located.

(f) "Municipality" shall mean a city, village, incorporated town, or a township that is located in the unincorporated portion of a county with 3 million or more inhabitants, if the county adopted an ordinance that approved the township's redevelopment plan.

(g) "Initial Sales Tax Amounts" means the amount of taxes paid under the Retailers' Occupation Tax Act, Use Tax Act, Service Use Tax Act, the Service Occupation Tax Act, the Municipal Retailers' Occupation Tax Act, and the Municipal Service Occupation Tax Act by retailers and servicemen on transactions at places located in a State Sales Tax Boundary during the calendar year 1985.

(g-1) "Revised Initial Sales Tax Amounts" means the amount of taxes paid under the Retailers' Occupation Tax Act, Use Tax Act, Service Use Tax Act, the Service Occupation Tax Act, the Municipal Retailers' Occupation Tax Act, and the Municipal Service Occupation Tax Act by retailers and servicemen on transactions at places located within the State Sales Tax Boundary revised pursuant to Section 11-74.4-8a(9) of this Act.

(h) "Municipal Sales Tax Increment" means an amount equal to the increase in the aggregate amount of taxes paid to a municipality from the Local Government Tax Fund arising from sales by retailers and servicemen within the redevelopment project area or State Sales Tax Boundary, as the case may be, for as long as the redevelopment project area or State Sales Tax Boundary, as the case may be, exist over and above the aggregate amount of taxes as certified by the Illinois Department of Revenue and paid under the Municipal Retailers' Occupation Tax Act and the Municipal Service Occupation Tax Act by retailers and servicemen, on

transactions at places of business located in the redevelopment project area or State Sales Tax Boundary, as the case may be, during the base year which shall be the calendar year immediately prior to the year in which the municipality adopted tax increment allocation financing. For purposes of computing the aggregate amount of such taxes for base years occurring prior to 1985, the Department of Revenue shall determine the Initial Sales Tax Amounts for such taxes and deduct therefrom an amount equal to 4% of the aggregate amount of taxes per year for each year the base year is prior to 1985, but not to exceed a total deduction of 12%. The amount so determined shall be known as the "Adjusted Initial Sales Tax Amounts". For purposes of determining the Municipal Sales Tax Increment, the Department of Revenue shall for each period subtract from the amount paid to the municipality from the Local Government Tax Fund arising from sales by retailers and servicemen on transactions located in the redevelopment project area or the State Sales Tax Boundary, as the case may be, the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts for the Municipal Retailers' Occupation Tax Act and the Municipal Service Occupation Tax Act. For the State Fiscal Year 1989, this calculation shall be made by utilizing the calendar year 1987 to determine the tax amounts received. For the State Fiscal Year 1990, this calculation shall be made by utilizing the period from January 1, 1988, until September 30, 1988, to determine the tax amounts received from retailers and servicemen pursuant to the Municipal Retailers' Occupation Tax and the Municipal Service Occupation Tax Act, which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For the State Fiscal Year 1991, this calculation shall be made by utilizing the period from October 1, 1988, to June 30, 1989, to determine the tax amounts received from retailers and servicemen pursuant to the Municipal Retailers' Occupation Tax and the Municipal Service Occupation Tax Act which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For every State Fiscal Year
thereafter, the applicable period shall be the 12 months beginning July 1 and ending June 30 to determine the tax amounts received which shall have deducted therefrom the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts, as the case may be.

(i) "Net State Sales Tax Increment" means the sum of the following: (a) 80% of the first $100,000 of State Sales Tax Increment annually generated within a State Sales Tax Boundary; (b) 60% of the amount in excess of $100,000 but not exceeding $500,000 of State Sales Tax Increment annually generated within a State Sales Tax Boundary; and (c) 40% of all amounts in excess of $500,000 of State Sales Tax Increment annually generated within a State Sales Tax Boundary. If, however, a municipality established a tax increment financing district in a county with a population in excess of 3,000,000 before January 1, 1986, and the municipality entered into a contract or issued bonds after January 1, 1986, but before December 31, 1986, to finance redevelopment project costs within a State Sales Tax Boundary, then the Net State Sales Tax Increment means, for the fiscal years beginning July 1, 1990, and July 1, 1991, 100% of the State Sales Tax Increment annually generated within a State Sales Tax Boundary; and notwithstanding any other provision of this Act, for those fiscal years the Department of Revenue shall distribute to those municipalities 100% of their Net State Sales Tax Increment before any distribution to any other municipality and regardless of whether or not those other municipalities will receive 100% of their Net State Sales Tax Increment. For Fiscal Year 1999, and every year thereafter until the year 2007, for any municipality that has not entered into a contract or has not issued bonds prior to June 1, 1988 to finance redevelopment project costs within a State Sales Tax Boundary, the Net State Sales Tax Increment shall be calculated as follows: By multiplying the Net State Sales Tax Increment by 90% in the State Fiscal Year 1999; 80% in the State Fiscal Year 2000; 70% in the State Fiscal Year 2001; 60% in the State Fiscal Year 2002; 50% in the State Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006.
Year 2006; and 10% in the State Fiscal Year 2007. No payment shall be made for State Fiscal Year 2008 and thereafter.

Municipalities that issued bonds in connection with a redevelopment project in a redevelopment project area within the State Sales Tax Boundary prior to July 29, 1991, or that entered into contracts in connection with a redevelopment project in a redevelopment project area before June 1, 1988, shall continue to receive their proportional share of the Illinois Tax Increment Fund distribution until the date on which the redevelopment project is completed or terminated. If, however, a municipality that issued bonds in connection with a redevelopment project in a redevelopment project area within the State Sales Tax Boundary prior to July 29, 1991 retires the bonds prior to June 30, 2007 or a municipality that entered into contracts in connection with a redevelopment project in a redevelopment project area before June 1, 1988 completes the contracts prior to June 30, 2007, then so long as the redevelopment project is not completed or is not terminated, the Net State Sales Tax Increment shall be calculated, beginning on the date on which the bonds are retired or the contracts are completed, as follows: By multiplying the Net State Sales Tax Increment by 60% in the State Fiscal Year 2002; 50% in the State Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006; and 10% in the State Fiscal Year 2007. No payment shall be made for State Fiscal Year 2008 and thereafter. Refunding of any bonds issued prior to July 29, 1991, shall not alter the Net State Sales Tax Increment.

(j) "State Utility Tax Increment Amount" means an amount equal to the aggregate increase in State electric and gas tax charges imposed on owners and tenants, other than residential customers, of properties located within the redevelopment project area under Section 9-222 of the Public Utilities Act, over and above the aggregate of such charges as certified by the Department of Revenue and paid by owners and tenants, other than residential customers, of properties within the redevelopment project area during the base year, which shall be the calendar year immediately prior to the year of the adoption of the ordinance authorizing tax increment allocation financing.

(k) "Net State Utility Tax Increment" means the sum of the following: (a) 80% of the first $100,000 of State Utility Tax Increment annually generated by a redevelopment project area; (b) 60% of the amount in excess of $100,000 but not exceeding $500,000 of the State Utility Tax Increment annually generated by a redevelopment project area; and (c) 40% of all amounts in excess of $500,000 of State Utility Tax Increment annually generated by a redevelopment project area. For the State Fiscal Year 1999, and every year thereafter until the year 2007, for any municipality that has not entered into a contract or has not issued bonds prior to June 1, 1988 to finance redevelopment project costs within a redevelopment project area, the Net State Utility Tax Increment shall be calculated as follows: By multiplying the Net State Utility Tax Increment by 90% in the State Fiscal Year 1999; 80% in the State Fiscal Year 2000; 70% in the State Fiscal Year 2001; 60% in the State Fiscal Year 2002; 50% in the State Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006; and 10% in the State Fiscal Year 2007. No payment shall be made for the State Fiscal Year 2008 and thereafter.

Municipalities that issue bonds in connection with the redevelopment project during the period from June 1, 1988 until 3 years after the effective date of this Amendatory Act of 1988 shall receive the Net State Utility Tax Increment, subject to appropriation, for 15 State Fiscal Years after the issuance of such bonds. For the 16th through the 20th State Fiscal Years after issuance of the bonds, the Net State Utility Tax Increment shall be calculated as follows: By multiplying the Net State Utility Tax Increment by 90% in year 16; 80% in year 17; 70% in year 18; 60% in year 19; and 50% in year 20. Refunding of any bonds issued prior to June 1, 1988, shall not alter the revised Net State Utility Tax Increment payments set forth above.

(l) "Obligations" mean bonds, loans, debentures, notes, special certificates or other evidence of indebtedness issued by the municipality to carry out a redevelopment project or to refund outstanding obligations.

(m) "Payment in lieu of taxes" means those estimated tax revenues from real property in a redevelopment project area derived from real
property that has been acquired by a municipality which according to the 
redevelopment project or plan is to be used for a private use which taxing 
districts would have received had a municipality not acquired the real 
property and adopted tax increment allocation financing and which would 
result from levies made after the time of the adoption of tax increment 
allocation financing to the time the current equalized value of real property 
in the redevelopment project area exceeds the total initial equalized value 
of real property in said area.

(n) "Redevelopment plan" means the comprehensive program of 
the municipality for development or redevelopment intended by the 
payment of redevelopment project costs to reduce or eliminate those 
conditions the existence of which qualified the redevelopment project area 
as a "blighted area" or "conservation area" or combination thereof or 
"industrial park conservation area," and thereby to enhance the tax bases of 
the taxing districts which extend into the redevelopment project area. On 
and after November 1, 1999 (the effective date of Public Act 91-478), no 
redevelopment plan may be approved or amended that includes the 
development of vacant land (i) with a golf course and related clubhouse 
and other facilities or (ii) designated by federal, State, county, or municipal 
government as public land for outdoor recreational activities or for nature 
preserves and used for that purpose within 5 years prior to the adoption of 
the redevelopment plan. For the purpose of this subsection, "recreational 
activities" is limited to mean camping and hunting. Each redevelopment 
plan shall set forth in writing the program to be undertaken to accomplish 
the objectives and shall include but not be limited to:

(A) an itemized list of estimated redevelopment project 
costs;

(B) evidence indicating that the redevelopment project area 
on the whole has not been subject to growth and development 
through investment by private enterprise;

(C) an assessment of any financial impact of the 
redevelopment project area on or any increased demand for 
services from any taxing district affected by the plan and any 
program to address such financial impact or increased demand;

(D) the sources of funds to pay costs;
(E) the nature and term of the obligations to be issued;
(F) the most recent equalized assessed valuation of the redevelopment project area;
(G) an estimate as to the equalized assessed valuation after redevelopment and the general land uses to apply in the redevelopment project area;
(H) a commitment to fair employment practices and an affirmative action plan;
(I) if it concerns an industrial park conservation area, the plan shall also include a general description of any proposed developer, user and tenant of any property, a description of the type, structure and general character of the facilities to be developed, a description of the type, class and number of new employees to be employed in the operation of the facilities to be developed; and
(J) if property is to be annexed to the municipality, the plan shall include the terms of the annexation agreement.

The provisions of items (B) and (C) of this subsection (n) shall not apply to a municipality that before March 14, 1994 (the effective date of Public Act 88-537) had fixed, either by its corporate authorities or by a commission designated under subsection (k) of Section 11-74.4-4, a time and place for a public hearing as required by subsection (a) of Section 11-74.4-5. No redevelopment plan shall be adopted unless a municipality complies with all of the following requirements:

(1) The municipality finds that the redevelopment project area on the whole has not been subject to growth and development through investment by private enterprise and would not reasonably be anticipated to be developed without the adoption of the redevelopment plan.

(2) The municipality finds that the redevelopment plan and project conform to the comprehensive plan for the development of the municipality as a whole, or, for municipalities with a population of 100,000 or more, regardless of when the

redevelopment plan and project was adopted, the redevelopment plan and project either: (i) conforms to the strategic economic development or redevelopment plan issued by the designated planning authority of the municipality, or (ii) includes land uses that have been approved by the planning commission of the municipality.

(3) The redevelopment plan establishes the estimated dates of completion of the redevelopment project and retirement of obligations issued to finance redevelopment project costs. Those dates: shall not be later than December 31 of the year in which the payment to the municipal treasurer as provided in subsection (b) of Section 11-74.4-8 of this Act is to be made with respect to ad valorem taxes levied in the twenty-third calendar year after the year in which the ordinance approving the redevelopment project area is adopted if the ordinance was adopted on or after January 15, 1981; shall not be later than December 31 of the year in which the payment to the municipal treasurer as provided in subsection (b) of Section 11-74.4-8 of this Act is to be made with respect to ad valorem taxes levied in the thirty-third calendar year after the year in which the ordinance approving the redevelopment project area if the ordinance was adopted on May 20, 1985 by the Village of Wheeling; and shall not be later than December 31 of the year in which the payment to the municipal treasurer as provided in subsection (b) of Section 11-74.4-8 of this Act is to be made with respect to ad valorem taxes levied in the thirty-fifth calendar year after the year in which the ordinance approving the redevelopment project area is adopted:

(A) if the ordinance was adopted before January 15, 1981, or

(B) if the ordinance was adopted in December 1983, April 1984, July 1985, or December 1989, or

However, for redevelopment project areas for which bonds were issued before July 29, 1991, or for which contracts were entered into before June 1, 1988, in connection with a redevelopment project in the area within the State Sales Tax Boundary, the estimated dates of completion of the redevelopment project and retirement of obligations to finance redevelopment project costs may be extended by municipal ordinance to December 31, 2013. The termination procedures of subsection (b) of Section 11-74.4-8 are not required for these redevelopment project areas in 2009 but are required in 2013. The extension allowed by this amendatory Act of 1993 shall not apply to real property tax increment allocation financing under Section 11-74.4-8.

A municipality may by municipal ordinance amend an existing redevelopment plan to conform to this paragraph (3) as amended by Public Act 91-478, which municipal ordinance may be adopted without further hearing or notice and without complying with the procedures provided in this Act pertaining to an amendment to or the initial approval of a redevelopment plan and project and designation of a redevelopment project area.

Those dates, for purposes of real property tax increment allocation financing pursuant to Section 11-74.4-8 only, shall be not more than 35 years for redevelopment project areas that were adopted on or after December 16, 1986 and for which at least $8 million worth of municipal bonds were authorized on or after December 19, 1989 but before January 1, 1990; provided that the municipality elects to extend the life of the redevelopment project area to 35 years by the adoption of an ordinance after at least 14 but not more than 30 days' written notice to the taxing bodies, that would otherwise constitute the joint review board for the redevelopment project area, before the adoption of the ordinance.

Those dates, for purposes of real property tax increment allocation financing pursuant to Section 11-74.4-8 only, shall be not more than 35 years for redevelopment project areas that were established on or after December 1, 1981 but before January 1, 1982 and for which at least $1,500,000 worth of tax increment revenue bonds were authorized on or after September 30, 1990 but before July 1, 1991; provided that the municipality elects to extend the life of the redevelopment project area to 35 years by the adoption of an ordinance after at least 14 but not more than 30 days' written notice to the taxing bodies, that would otherwise constitute the joint review board for the redevelopment project area, before the adoption of the ordinance.

(3.5) The municipality finds, in the case of an industrial park conservation area, also that the municipality is a labor surplus municipality and that the implementation of the redevelopment plan will reduce unemployment, create new jobs and by the provision of new facilities enhance the tax base of the taxing districts that extend into the redevelopment project area.

(4) If any incremental revenues are being utilized under Section 8(a)(1) or 8(a)(2) of this Act in redevelopment project areas approved by ordinance after January 1, 1986, the municipality finds: (a) that the redevelopment project area would not reasonably be developed without the use of such incremental

revenues, and (b) that such incremental revenues will be exclusively utilized for the development of the redevelopment project area.

(5) If the redevelopment plan will not result in displacement of residents from 10 or more inhabited residential units, and the municipality certifies in the plan that such displacement will not result from the plan, a housing impact study need not be performed. If, however, the redevelopment plan would result in the displacement of residents from 10 or more inhabited residential units, or if the redevelopment project area contains 75 or more inhabited residential units and no certification is made, then the municipality shall prepare, as part of the separate feasibility report required by subsection (a) of Section 11-74.4-5, a housing impact study.

Part I of the housing impact study shall include (i) data as to whether the residential units are single family or multi-family units, (ii) the number and type of rooms within the units, if that information is available, (iii) whether the units are inhabited or uninhabited, as determined not less than 45 days before the date that the ordinance or resolution required by subsection (a) of Section 11-74.4-5 is passed, and (iv) data as to the racial and ethnic composition of the residents in the inhabited residential units. The data requirement as to the racial and ethnic composition of the residents in the inhabited residential units shall be deemed to be fully satisfied by data from the most recent federal census.

Part II of the housing impact study shall identify the inhabited residential units in the proposed redevelopment project area that are to be or may be removed. If inhabited residential units are to be removed, then the housing impact study shall identify (i) the number and location of those units that will or may be removed, (ii) the municipality's plans for relocation assistance for those residents in the proposed redevelopment project area whose residences are to be removed, (iii) the availability of replacement housing for those residents whose residences are to be removed,
and shall identify the type, location, and cost of the housing, and (iv) the type and extent of relocation assistance to be provided.

(6) On and after November 1, 1999, the housing impact study required by paragraph (5) shall be incorporated in the redevelopment plan for the redevelopment project area.

(7) On and after November 1, 1999, no redevelopment plan shall be adopted, nor an existing plan amended, nor shall residential housing that is occupied by households of low-income and very low-income persons in currently existing redevelopment project areas be removed after November 1, 1999 unless the redevelopment plan provides, with respect to inhabited housing units that are to be removed for households of low-income and very low-income persons, affordable housing and relocation assistance not less than that which would be provided under the federal Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 and the regulations under that Act, including the eligibility criteria. Affordable housing may be either existing or newly constructed housing. For purposes of this paragraph (7), "low-income households", "very low-income households", and "affordable housing" have the meanings set forth in the Illinois Affordable Housing Act. The municipality shall make a good faith effort to ensure that this affordable housing is located in or near the redevelopment project area within the municipality.

(8) On and after November 1, 1999, if, after the adoption of the redevelopment plan for the redevelopment project area, any municipality desires to amend its redevelopment plan to remove more inhabited residential units than specified in its original redevelopment plan, that change shall be made in accordance with the procedures in subsection (c) of Section 11-74.4-5.

(9) For redevelopment project areas designated prior to November 1, 1999, the redevelopment plan may be amended without further joint review board meeting or hearing, provided that the municipality shall give notice of any such changes by mail.
to each affected taxing district and registrant on the interested party registry, to authorize the municipality to expend tax increment revenues for redevelopment project costs defined by paragraphs (5) and (7.5), subparagraphs (E) and (F) of paragraph (11), and paragraph (11.5) of subsection (q) of Section 11-74.4-3, so long as the changes do not increase the total estimated redevelopment project costs set out in the redevelopment plan by more than 5% after adjustment for inflation from the date the plan was adopted.

(o) "Redevelopment project" means any public and private development project in furtherance of the objectives of a redevelopment plan. On and after November 1, 1999 (the effective date of Public Act 91-478), no redevelopment plan may be approved or amended that includes the development of vacant land (i) with a golf course and related clubhouse and other facilities or (ii) designated by federal, State, county, or municipal government as public land for outdoor recreational activities or for nature preserves and used for that purpose within 5 years prior to the adoption of the redevelopment plan. For the purpose of this subsection, "recreational activities" is limited to mean camping and hunting.

(p) "Redevelopment project area" means an area designated by the municipality, which is not less in the aggregate than 1 1/2 acres and in respect to which the municipality has made a finding that there exist conditions which cause the area to be classified as an industrial park conservation area or a blighted area or a conservation area, or a combination of both blighted areas and conservation areas.

(q) "Redevelopment project costs" mean and include the sum total of all reasonable or necessary costs incurred or estimated to be incurred, and any such costs incidental to a redevelopment plan and a redevelopment project. Such costs include, without limitation, the following:

(1) Costs of studies, surveys, development of plans, and specifications, implementation and administration of the redevelopment plan including but not limited to staff and professional service costs for architectural, engineering, legal, financial, planning or other services, provided however that no

charges for professional services may be based on a percentage of the tax increment collected; except that on and after November 1, 1999 (the effective date of Public Act 91-478), no contracts for professional services, excluding architectural and engineering services, may be entered into if the terms of the contract extend beyond a period of 3 years. In addition, "redevelopment project costs" shall not include lobbying expenses. After consultation with the municipality, each tax increment consultant or advisor to a municipality that plans to designate or has designated a redevelopment project area shall inform the municipality in writing of any contracts that the consultant or advisor has entered into with entities or individuals that have received, or are receiving, payments financed by tax increment revenues produced by the redevelopment project area with respect to which the consultant or advisor has performed, or will be performing, service for the municipality. This requirement shall be satisfied by the consultant or advisor before the commencement of services for the municipality and thereafter whenever any other contracts with those individuals or entities are executed by the consultant or advisor;

(1.5) After July 1, 1999, annual administrative costs shall not include general overhead or administrative costs of the municipality that would still have been incurred by the municipality if the municipality had not designated a redevelopment project area or approved a redevelopment plan;

(1.6) The cost of marketing sites within the redevelopment project area to prospective businesses, developers, and investors;

(2) Property assembly costs, including but not limited to acquisition of land and other property, real or personal, or rights or interests therein, demolition of buildings, site preparation, site improvements that serve as an engineered barrier addressing ground level or below ground environmental contamination, including, but not limited to parking lots and other concrete or asphalt barriers, and the clearing and grading of land;

(A) for foundation districts, excluding any school district in a municipality with a population in excess of 1,000,000, by multiplying the district's increase in attendance resulting from the net increase in new students enrolled in that school district who reside in housing units within the redevelopment project area that have received financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by the

most recently available per capita tuition cost as defined in Section 10-20.12a of the School Code less any increase in general State aid as defined in Section 18-8.05 of the School Code attributable to these added new students subject to the following annual limitations:

(i) for unit school districts with a district average 1995-96 Per Capita Tuition Charge of less than $5,900, no more than 25% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act;

(ii) for elementary school districts with a district average 1995-96 Per Capita Tuition Charge of less than $5,900, no more than 17% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act; and

(iii) for secondary school districts with a district average 1995-96 Per Capita Tuition Charge of less than $5,900, no more than 8% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act.

(B) For alternate method districts, flat grant districts, and foundation districts with a district average 1995-96 Per Capita Tuition Charge equal to or more than $5,900, excluding any school district with a population in excess of 1,000,000, by multiplying the district's increase in attendance resulting from the net increase in new students enrolled in that school district who reside in housing units within the redevelopment project area that have received financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the
boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by the most recently available per capita tuition cost as defined in Section 10-20.12a of the School Code less any increase in general state aid as defined in Section 18-8.05 of the School Code attributable to these added new students subject to the following annual limitations:

(i) for unit school districts, no more than 40% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act;

(ii) for elementary school districts, no more than 27% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act; and

(iii) for secondary school districts, no more than 13% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act.

(C) For any school district in a municipality with a population in excess of 1,000,000, the following restrictions shall apply to the reimbursement of increased costs under this paragraph (7.5):

(i) no increased costs shall be reimbursed unless the school district certifies that each of the schools affected by the assisted housing project is at or over its student capacity;

(ii) the amount reimbursable shall be reduced by the value of any land donated to the school district by the municipality or developer, and

by the value of any physical improvements made to
the schools by the municipality or developer; and
(iii) the amount reimbursed may not affect
amounts otherwise obligated by the terms of any
bonds, notes, or other funding instruments, or the
terms of any redevelopment agreement.
Any school district seeking payment under this paragraph
(7.5) shall, after July 1 and before September 30 of each
year, provide the municipality with reasonable evidence to
support its claim for reimbursement before the municipality
shall be required to approve or make the payment to the
school district. If the school district fails to provide the
information during this period in any year, it shall forfeit
any claim to reimbursement for that year. School districts
may adopt a resolution waiving the right to all or a portion
of the reimbursement otherwise required by this paragraph
(7.5). By acceptance of this reimbursement the school
district waives the right to directly or indirectly set aside,
modify, or contest in any manner the establishment of the
redevelopment project area or projects;
(7.7) For redevelopment project areas de
signated (or
redevelopment project areas amended to add or increase the
number of tax-increment-financing assisted housing units) on or
after January 1, 2005 (the effective date of Public Act 93-961), a
public library district's increased costs attributable to assisted
housing units located within the redevelopment project area for
which the developer or redeveloper receives financial assistance
through an agreement with the municipality or because the
municipality incurs the cost of necessary infrastructure
improvements within the boundaries of the assisted housing sites
necessary for the completion of that housing as authorized by this
Act shall be paid to the library district by the municipality from the
Special Tax Allocation Fund when the tax increment revenue is
received as a result of the assisted housing units. This paragraph

New matter indicated by italics - deletions by strikeout
(7.7) applies only if (i) the library district is located in a county that is subject to the Property Tax Extension Limitation Law or (ii) the library district is not located in a county that is subject to the Property Tax Extension Limitation Law but the district is prohibited by any other law from increasing its tax levy rate without a prior voter referendum.

The amount paid to a library district under this paragraph (7.7) shall be calculated by multiplying (i) the net increase in the number of persons eligible to obtain a library card in that district who reside in housing units within the redevelopment project area that have received financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by (ii) the per-patron cost of providing library services so long as it does not exceed $120. The per-patron cost shall be the Total Operating Expenditures Per Capita as stated in the most recent Illinois Public Library Statistics produced by the Library Research Center at the University of Illinois. The municipality may deduct from the amount that it must pay to a library district under this paragraph any amount that it has voluntarily paid to the library district from the tax increment revenue. The amount paid to a library district under this paragraph (7.7) shall be no more than 2% of the amount produced by the assisted housing units and deposited into the Special Tax Allocation Fund.

A library district is not eligible for any payment under this paragraph (7.7) unless the library district has experienced an increase in the number of patrons from the municipality that created the tax-increment-financing district since the designation of the redevelopment project area.

Any library district seeking payment under this paragraph (7.7) shall, after July 1 and before September 30 of each year, provide the municipality with convincing evidence to support its
claim for reimbursement before the municipality shall be required to approve or make the payment to the library district. If the library district fails to provide the information during this period in any year, it shall forfeit any claim to reimbursement for that year. Library districts may adopt a resolution waiving the right to all or a portion of the reimbursement otherwise required by this paragraph (7.7). By acceptance of such reimbursement, the library district shall forfeit any right to directly or indirectly set aside, modify, or contest in any manner whatsoever the establishment of the redevelopment project area or projects;

(8) Relocation costs to the extent that a municipality determines that relocation costs shall be paid or is required to make payment of relocation costs by federal or State law or in order to satisfy subparagraph (7) of subsection (n);

(9) Payment in lieu of taxes;

(10) Costs of job training, retraining, advanced vocational education or career education, including but not limited to courses in occupational, semi-technical or technical fields leading directly to employment, incurred by one or more taxing districts, provided that such costs (i) are related to the establishment and maintenance of additional job training, advanced vocational education or career education programs for persons employed or to be employed by employers located in a redevelopment project area; and (ii) when incurred by a taxing district or taxing districts other than the municipality, are set forth in a written agreement by or among the municipality and the taxing district or taxing districts, which agreement describes the program to be undertaken, including but not limited to the number of employees to be trained, a description of the training and services to be provided, the number and type of positions available or to be available, itemized costs of the program and sources of funds to pay for the same, and the term of the agreement. Such costs include, specifically, the payment by community college districts of costs pursuant to Sections 3-37, 3-38, 3-40 and 3-40.1 of the Public Community College Act and by
school districts of costs pursuant to Sections 10-22.20a and 10-23.3a of The School Code;

(11) Interest cost incurred by a redeveloper related to the construction, renovation or rehabilitation of a redevelopment project provided that:

(A) such costs are to be paid directly from the special tax allocation fund established pursuant to this Act;

(B) such payments in any one year may not exceed 30% of the annual interest costs incurred by the redeveloper with regard to the redevelopment project during that year;

(C) if there are not sufficient funds available in the special tax allocation fund to make the payment pursuant to this paragraph (11) then the amounts so due shall accrue and be payable when sufficient funds are available in the special tax allocation fund;

(D) the total of such interest payments paid pursuant to this Act may not exceed 30% of the total (i) cost paid or incurred by the redeveloper for the redevelopment project plus (ii) redevelopment project costs excluding any property assembly costs and any relocation costs incurred by a municipality pursuant to this Act; and

(E) the cost limits set forth in subparagraphs (B) and (D) of paragraph (11) shall be modified for the financing of rehabilitated or new housing units for low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act. The percentage of 75% shall be substituted for 30% in subparagraphs (B) and (D) of paragraph (11).

(F) Instead of the eligible costs provided by subparagraphs (B) and (D) of paragraph (11), as modified by this subparagraph, and notwithstanding any other provisions of this Act to the contrary, the municipality may pay from tax increment revenues up to 50% of the cost of construction of new housing units to be occupied by low-income households.
income households and very low-income households as defined in Section 3 of the Illinois Affordable Housing Act. The cost of construction of those units may be derived from the proceeds of bonds issued by the municipality under this Act or other constitutional or statutory authority or from other sources of municipal revenue that may be reimbursed from tax increment revenues or the proceeds of bonds issued to finance the construction of that housing.

The eligible costs provided under this subparagraph (F) of paragraph (11) shall be an eligible cost for the construction, renovation, and rehabilitation of all low and very low-income housing units, as defined in Section 3 of the Illinois Affordable Housing Act, within the redevelopment project area. If the low and very low-income units are part of a residential redevelopment project that includes units not affordable to low and very low-income households, only the low and very low-income units shall be eligible for benefits under subparagraph (F) of paragraph (11). The standards for maintaining the occupancy by low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act, of those units constructed with eligible costs made available under the provisions of this subparagraph (F) of paragraph (11) shall be established by guidelines adopted by the municipality. The responsibility for annually documenting the initial occupancy of the units by low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act, shall be that of the then current owner of the property. For ownership units, the guidelines will provide, at a minimum, for a reasonable recapture of funds, or other appropriate methods designed to preserve the original affordability of the ownership units. For rental units, the guidelines will provide, at a minimum, for the affordability of rent to low

and very low-income households. As units become available, they shall be rented to income-eligible tenants. The municipality may modify these guidelines from time to time; the guidelines, however, shall be in effect for as long as tax increment revenue is being used to pay for costs associated with the units or for the retirement of bonds issued to finance the units or for the life of the redevelopment project area, whichever is later.

(11.5) If the redevelopment project area is located within a municipality with a population of more than 100,000, the cost of day care services for children of employees from low-income families working for businesses located within the redevelopment project area and all or a portion of the cost of operation of day care centers established by redevelopment project area businesses to serve employees from low-income families working in businesses located in the redevelopment project area. For the purposes of this paragraph, "low-income families" means families whose annual income does not exceed 80% of the municipal, county, or regional median income, adjusted for family size, as the annual income and municipal, county, or regional median income are determined from time to time by the United States Department of Housing and Urban Development.

(12) Unless explicitly stated herein the cost of construction of new privately-owned buildings shall not be an eligible redevelopment project cost.

(13) After November 1, 1999 (the effective date of Public Act 91-478), none of the redevelopment project costs enumerated in this subsection shall be eligible redevelopment project costs if those costs would provide direct financial support to a retail entity initiating operations in the redevelopment project area while terminating operations at another Illinois location within 10 miles of the redevelopment project area but outside the boundaries of the redevelopment project area municipality. For purposes of this paragraph, termination means a closing of a retail operation that is
directly related to the opening of the same operation or like retail entity owned or operated by more than 50% of the original ownership in a redevelopment project area, but it does not mean closing an operation for reasons beyond the control of the retail entity, as documented by the retail entity, subject to a reasonable finding by the municipality that the current location contained inadequate space, had become economically obsolete, or was no longer a viable location for the retailer or serviceman.

If a special service area has been established pursuant to the Special Service Area Tax Act or Special Service Area Tax Law, then any tax increment revenues derived from the tax imposed pursuant to the Special Service Area Tax Act or Special Service Area Tax Law may be used within the redevelopment project area for the purposes permitted by that Act or Law as well as the purposes permitted by this Act.

(r) "State Sales Tax Boundary" means the redevelopment project area or the amended redevelopment project area boundaries which are determined pursuant to subsection (9) of Section 11-74.4-8a of this Act. The Department of Revenue shall certify pursuant to subsection (9) of Section 11-74.4-8a the appropriate boundaries eligible for the determination of State Sales Tax Increment.

(s) "State Sales Tax Increment" means an amount equal to the increase in the aggregate amount of taxes paid by retailers and servicemen, other than retailers and servicemen subject to the Public Utilities Act, on transactions at places of business located within a State Sales Tax Boundary pursuant to the Retailers' Occupation Tax Act, the Use Tax Act, the Service Use Tax Act, and the Service Occupation Tax Act, except such portion of such increase that is paid into the State and Local Sales Tax Reform Fund, the Local Government Distributive Fund, the Local Government Tax Fund and the County and Mass Transit District Fund, for as long as State participation exists, over and above the Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts for such taxes as certified by the Department of Revenue and paid under those Acts by retailers and servicemen on transactions at places of business located within the State Sales Tax Boundary during the
base year which shall be the calendar year immediately prior to the year in which the municipality adopted tax increment allocation financing, less 3.0% of such amounts generated under the Retailers' Occupation Tax Act, Use Tax Act and Service Use Tax Act, and the Service Occupation Tax Act, which sum shall be appropriated to the Department of Revenue to cover its costs of administering and enforcing this Section. For purposes of computing the aggregate amount of such taxes for base years occurring prior to 1985, the Department of Revenue shall compute the Initial Sales Tax Amount for such taxes and deduct therefrom an amount equal to 4% of the aggregate amount of taxes per year for each year the base year is prior to 1985, but not to exceed a total deduction of 12%. The amount so determined shall be known as the "Adjusted Initial Sales Tax Amount".

For purposes of determining the State Sales Tax Increment the Department of Revenue shall for each period subtract from the tax amounts received from retailers and servicemen on transactions located in the State Sales Tax Boundary, the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or Revised Initial Sales Tax Amounts for the Retailers' Occupation Tax Act, the Use Tax Act, the Service Use Tax Act and the Service Occupation Tax Act. For the State Fiscal Year 1989 this calculation shall be made by utilizing the calendar year 1987 to determine the tax amounts received. For the State Fiscal Year 1990, this calculation shall be made by utilizing the period from January 1, 1988, until September 30, 1988, to determine the tax amounts received from retailers and servicemen, which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For the State Fiscal Year 1991, this calculation shall be made by utilizing the period from October 1, 1988, until June 30, 1989, to determine the tax amounts received from retailers and servicemen, which shall have deducted therefrom nine-twelfths of the certified Initial State Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For every State Fiscal Year thereafter, the applicable period shall be the 12 months beginning July 1 and ending on June 30, to determine the tax amounts received which shall have deducted
therefrom the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts. Municipalities intending to receive a distribution of State Sales Tax Increment must report a list of retailers to the Department of Revenue by October 31, 1988 and by July 31, of each year thereafter.

(t) "Taxing districts" means counties, townships, cities and incorporated towns and villages, school, road, park, sanitary, mosquito abatement, forest preserve, public health, fire protection, river conservancy, tuberculosis sanitarium and any other municipal corporations or districts with the power to levy taxes.

(u) "Taxing districts' capital costs" means those costs of taxing districts for capital improvements that are found by the municipal corporate authorities to be necessary and directly result from the redevelopment project.

(v) As used in subsection (a) of Section 11-74.4-3 of this Act, "vacant land" means any parcel or combination of parcels of real property without industrial, commercial, and residential buildings which has not been used for commercial agricultural purposes within 5 years prior to the designation of the redevelopment project area, unless the parcel is included in an industrial park conservation area or the parcel has been subdivided; provided that if the parcel was part of a larger tract that has been divided into 3 or more smaller tracts that were accepted for recording during the period from 1950 to 1990, then the parcel shall be deemed to have been subdivided, and all proceedings and actions of the municipality taken in that connection with respect to any previously approved or designated redevelopment project area or amended redevelopment project area are hereby validated and hereby declared to be legally sufficient for all purposes of this Act. For purposes of this Section and only for land subject to the subdivision requirements of the Plat Act, land is subdivided when the original plat of the proposed Redevelopment Project Area or relevant portion thereof has been properly certified, acknowledged, approved, and recorded or filed in accordance with the Plat Act and a preliminary plat, if any, for any subsequent phases of the proposed Redevelopment Project Area or relevant portion thereof has been properly

approved and filed in accordance with the applicable ordinance of the municipality.

(w) "Annual Total Increment" means the sum of each municipality's annual Net Sales Tax Increment and each municipality's annual Net Utility Tax Increment. The ratio of the Annual Total Increment of each municipality to the Annual Total Increment for all municipalities, as most recently calculated by the Department, shall determine the proportional shares of the Illinois Tax Increment Fund to be distributed to each municipality.

(65 ILCS 5/11-74.4-7) (from Ch. 24, par. 11-74.4-7)

Sec. 11-74.4-7. Obligations secured by the special tax allocation fund set forth in Section 11-74.4-8 for the redevelopment project area may be issued to provide for redevelopment project costs. Such obligations, when so issued, shall be retired in the manner provided in the ordinance authorizing the issuance of such obligations by the receipts of taxes levied as specified in Section 11-74.4-9 against the taxable property included in the area, by revenues as specified by Section 11-74.4-8a and other revenue designated by the municipality. A municipality may in the ordinance pledge all or any part of the funds in and to be deposited in the special tax allocation fund created pursuant to Section 11-74.4-8 to the payment of the redevelopment project costs and obligations. Any pledge of funds in the special tax allocation fund shall provide for distribution to the taxing districts and to the Illinois Department of Revenue of moneys not required, pledged, earmarked, or otherwise designated for payment and securing of the obligations and anticipated redevelopment project costs and such

excess funds shall be calculated annually and deemed to be "surplus" funds. In the event a municipality only applies or pledges a portion of the funds in the special tax allocation fund for the payment or securing of anticipated redevelopment project costs or of obligations, any such funds remaining in the special tax allocation fund after complying with the requirements of the application or pledge, shall also be calculated annually and deemed "surplus" funds. All surplus funds in the special tax allocation fund shall be distributed annually within 180 days after the close of the municipality's fiscal year by being paid by the municipal treasurer to the County Collector, to the Department of Revenue and to the municipality in direct proportion to the tax incremental revenue received as a result of an increase in the equalized assessed value of property in the redevelopment project area, tax incremental revenue received from the State and tax incremental revenue received from the municipality, but not to exceed as to each such source the total incremental revenue received from that source. The County Collector shall thereafter make distribution to the respective taxing districts in the same manner and proportion as the most recent distribution by the county collector to the affected districts of real property taxes from real property in the redevelopment project area.

Without limiting the foregoing in this Section, the municipality may in addition to obligations secured by the special tax allocation fund pledge for a period not greater than the term of the obligations towards payment of such obligations any part or any combination of the following: (a) net revenues of all or part of any redevelopment project; (b) taxes levied and collected on any or all property in the municipality; (c) the full faith and credit of the municipality; (d) a mortgage on part or all of the redevelopment project; or (e) any other taxes or anticipated receipts that the municipality may lawfully pledge.

Such obligations may be issued in one or more series bearing interest at such rate or rates as the corporate authorities of the municipality shall determine by ordinance. Such obligations shall bear such date or dates, mature at such time or times not exceeding 20 years from their respective dates, be in such denomination, carry such registration privileges, be executed in such manner, be payable in such medium of
payment at such place or places, contain such covenants, terms and conditions, and be subject to redemption as such ordinance shall provide. Obligations issued pursuant to this Act may be sold at public or private sale at such price as shall be determined by the corporate authorities of the municipalities. No referendum approval of the electors shall be required as a condition to the issuance of obligations pursuant to this Division except as provided in this Section.

In the event the municipality authorizes issuance of obligations pursuant to the authority of this Division secured by the full faith and credit of the municipality, which obligations are other than obligations which may be issued under home rule powers provided by Article VII, Section 6 of the Illinois Constitution, or pledges taxes pursuant to (b) or (c) of the second paragraph of this section, the ordinance authorizing the issuance of such obligations or pledging such taxes shall be published within 10 days after such ordinance has been passed in one or more newspapers, with general circulation within such municipality. The publication of the ordinance shall be accompanied by a notice of (1) the specific number of voters required to sign a petition requesting the question of the issuance of such obligations or pledging taxes to be submitted to the electors; (2) the time in which such petition must be filed; and (3) the date of the prospective referendum. The municipal clerk shall provide a petition form to any individual requesting one.

If no petition is filed with the municipal clerk, as hereinafter provided in this Section, within 30 days after the publication of the ordinance, the ordinance shall be in effect. But, if within that 30 day period a petition is filed with the municipal clerk, signed by electors in the municipality numbering 10% or more of the number of registered voters in the municipality, asking that the question of issuing obligations using full faith and credit of the municipality as security for the cost of paying for redevelopment project costs, or of pledging taxes for the payment of such obligations, or both, be submitted to the electors of the municipality, the corporate authorities of the municipality shall call a special election in the manner provided by law to vote upon that question, or, if a general, State or municipal election is to be held within a period of not less than 30 or
more than 90 days from the date such petition is filed, shall submit the question at the next general, State or municipal election. If it appears upon the canvass of the election by the corporate authorities that a majority of electors voting upon the question voted in favor thereof, the ordinance shall be in effect, but if a majority of the electors voting upon the question are not in favor thereof, the ordinance shall not take effect.

The ordinance authorizing the obligations may provide that the obligations shall contain a recital that they are issued pursuant to this Division, which recital shall be conclusive evidence of their validity and of the regularity of their issuance.

In the event the municipality authorizes issuance of obligations pursuant to this Section secured by the full faith and credit of the municipality, the ordinance authorizing the obligations may provide for the levy and collection of a direct annual tax upon all taxable property within the municipality sufficient to pay the principal thereof and interest thereon as it matures, which levy may be in addition to and exclusive of the maximum of all other taxes authorized to be levied by the municipality, which levy, however, shall be abated to the extent that monies from other sources are available for payment of the obligations and the municipality certifies the amount of said monies available to the county clerk.

A certified copy of such ordinance shall be filed with the county clerk of each county in which any portion of the municipality is situated, and shall constitute the authority for the extension and collection of the taxes to be deposited in the special tax allocation fund.

A municipality may also issue its obligations to refund in whole or in part, obligations theretofore issued by such municipality under the authority of this Act, whether at or prior to maturity, provided however, that the last maturity of the refunding obligations shall not be expressed to mature later than December 31 of the year in which the payment to the municipal treasurer as provided in subsection (b) of Section 11-74.4-8 of this Act is to be made with respect to ad valorem taxes levied in the twenty-third calendar year after the year in which the ordinance approving the redevelopment project area is adopted if the ordinance was adopted on

ALZHEIMER’S DISEASE ADVISORY COMMITTEE
(Senate Joint Resolution No. 43)

WHEREAS, Alzheimer's disease is a slow, progressive disorder of the brain that results in loss of memory and other cognitive function and eventually results in death; and

WHEREAS, Because Alzheimer's is accompanied by memory loss, poor judgment, changes in personality and behavior, and a tendency to wander, individuals with this disease are at increased risk for accidental injury, getting lost, abuse, neglect, and exploitation; and

WHEREAS, With one in 10 people over age 65 and almost one in every 2 people over 85 having Alzheimer's disease or a related dementia, over the past 10 years, the number of Illinoisans with Alzheimer's and related dementias has risen dramatically to the point that today over 210,000 people are affected; and

WHEREAS, As the baby boom generation enters the age of greatest risk for Alzheimer's, by 2025 their number in Illinois is expected to increase to over 239,000; and

WHEREAS, Alzheimer's disease takes an enormous toll on loving family members, with an estimated one in 4 acting as caregivers for each individual with the disease; and

WHEREAS, Caregivers for individuals with Alzheimer's watch closely the deleterious effects of the disease and often suffer more stress, depression, and health problems than caregivers of people with other illnesses; and

WHEREAS, Alzheimer's disease is considered to be early onset if an individual is younger than 65 when symptoms first appear, and early onset Alzheimer's can strike someone as early as their 30s, 40s, and 50s, with new data showing there may be half a million Americans under age 65 who have dementia or cognitive impairment at a level of severity consistent with dementia; and

WHEREAS, The Alzheimer's Disease Assistance Act created the Alzheimer's Disease Advisory Committee composed of 21 members to review all State programs and services provided by State agencies that are
directed toward persons with Alzheimer's disease and related dementias and to recommend changes to improve the State's response to this serious health problem; and

WHEREAS, The 93rd General Assembly created the Legislative Task Force on Alzheimer's Disease pursuant to House Joint Resolution 14; that task force conducted hearings which included each of the State agencies having primary responsibility for implementing the "Alzheimer's Initiative" of the 84th General Assembly when this matter was given a high priority nearly 20 years ago; the agencies were instructed to provide an update on the progress made in implementing that initiative to determine whether the programs and services developed by State agencies reflect the original priority; the reports of the agencies did not demonstrate any particular progress, nor priority commensurate with the original interest and intent of the General Assembly; and

WHEREAS, The 93rd General Assembly Legislative Task Force on Alzheimer's Disease recommended that the function of the statutory Alzheimer's Disease Advisory Committee should be expanded to include oversight and evaluation of the services provided by the various State agencies and to solicit additional findings and recommendations for improving State programs and services; and

WHEREAS, The State of Illinois must not be complacent and must renew its commitment to develop a more aggressive State plan to ensure that the framework of programs and services to help Illinoisans with Alzheimer's and other related dementias are functioning and capable of meeting the challenge of this serious public health problem among Illinoisans; therefore, be it

RESOLVED, BY THE SENATE OF THE NINETY-FIFTH GENERAL ASSEMBLY OF THE STATE OF ILLINOIS, THE HOUSE OF REPRESENTATIVES CONCURRING HEREIN, that the Department of Public Health immediately comply with the Alzheimer's Disease Assistance Act in activating the Alzheimer's Disease Advisory Committee and ensuring that it fulfills the requirement of reviewing all State programs and services provided by State agencies directed toward persons with Alzheimer's disease and related dementias and recommending changes to improve the State's response to this serious health problem; and be it further

EMPLOYEE FREE CHOICE ACT
(Senate Joint Resolution No. 22)

WHEREAS, In the National Labor Relations Act of 1935 (29 U.S.C. Sec. 151, et seq.) the United States Congress declared it to be the policy of the United States to encourage the practice of collective bargaining by protecting the exercise by workers of full freedom of association, self-organization, and designation of representatives of their own choosing for the purpose of negotiating the terms and conditions of their employment or other mutual aid or protection; and

WHEREAS, The freedom to form or join a union is a fundamental human right; and

WHEREAS, Unions benefit communities by strengthening tax bases, promoting equal treatment, and enhancing civic participation; and

WHEREAS, Fifty-seven million United States workers have indicated
that they would join a union if given the opportunity; and
WHEREAS, Even though the nation's workers ostensibly have the freedom to choose whether to organize, in reality they are routinely denied that right; and
WHEREAS, When the right of workers to form a union is violated, wages decline, race and gender pay gaps widen, workplace discrimination increases, and job safety standards lapse; and
WHEREAS, Each year, 20,000 of America's workers are illegally threatened, coerced, or terminated for attempting to form a union; and
WHEREAS, Most violations of workers' freedom to join a union occur behind closed doors, and each year millions of dollars are spent to frustrate workers' efforts to organize; and
WHEREAS, A worker's fundamental right to join a union is a public issue that requires public policy solutions, including legislative remedies; and

WHEREAS, The U.S. Conference of Mayors adopted the "2030 Challenge" resolution calling for the immediate energy reduction of all new and renovated buildings to one-half the national or country average for that building type, with increased reductions of 10% every five years so that by the year 2030 all buildings designed will be carbon neutral, meaning they will use no fossil fuel energy; and
WHEREAS, The American Institute of Architects (AIA), the national professional organization representing architects has also adopted the "2030 Challenge" resolution; and
WHEREAS, The Inter-Governmental Panel on Climate Change (IPCC), the international community's most respected assemblage of scientists, has found that climate disruption is a reality and that human activities are largely responsible for increasing concentrations of global warming pollution; and

WHEREAS, The federal government through programs fostered within many of its key agencies and numerous state governments as well as municipalities across the U.S. have adopted high performance green building principles; and

IMPLEMENTATION OF THE WORLD SUMMIT OUTCOME
Senate Joint Resolution No. 95

WHEREAS, On September 16, 2005 at the World Summit Outcome of the United Nations General Assembly, the United States of America and the other Members of the United Nations embraced the principle of the responsibility to protect according to which, "(e)ach individual State has the responsibility to protect its populations from genocide, war crimes, ethnic cleansing and crimes against humanity. This responsibility entails the prevention of such crimes, including their incitement, through appropriate and necessary means. We accept that responsibility and will act in accordance with it. The international community should, as appropriate, encourage and help States to exercise this responsibility and support the United Nations in establishing an early warning capability" (U.N. Document A/RES/60/1, par. 138 (2005)); and
WHEREAS, The United States of America and other Members of the United Nations further agreed that, "(t)he international community, through the United Nations, also has the responsibility to use appropriate diplomatic, humanitarian and other peaceful means, in accordance with Chapters VI and VIII of the Charter, to help to protect populations from genocide, war crimes, ethnic cleansing and crimes against humanity. In this context, we are
prepared to take collective action, in a timely and decisive manner, through the Security Council, in accordance with the Charter, including Chapter VII, on a case-by-case basis and in cooperation with relevant regional organizations as appropriate, should peaceful means be inadequate and national authorities are manifestly failing to protect their populations from genocide, war crimes, ethnic cleansing and crimes against humanity. ... We also intend to commit ourselves, as necessary and appropriate, to helping States build capacity to protect their populations from genocide, war crimes, ethnic cleansing and crimes against humanity and to assisting those which are under stress before crises and conflicts break out” (U.N. Document A/RES/60/1, par. 139 (2005)); and

WHEREAS, On April 28, 2006, the United Nations Security Council reaffirmed the provisions of paragraphs 138 and 139 of the 2005 World Summit Outcome Document regarding the responsibility to protect populations from genocide, war crimes, ethnic cleansing and crimes against humanity (U.N. Document S/RES/1674 (2006), par. 4); and

WHEREAS, The principle of the responsibility to protect now reflects the commitment of all the Members of the United Nations to determine means to protect populations from the deadly and devastating consequences of genocide, war crimes, ethnic cleansing and crimes against humanity (hereinafter "atrocity crimes"); and

WHEREAS, Efforts by the United Nations and individual nations to prevent and respond to atrocity crimes and thus protect populations have far too often failed or not even been attempted, with the result since 1945 that millions of innocent civilians have lost their lives or been wounded or displaced and their property and livelihoods destroyed; and

WHEREAS, In the 2005 World Summit Outcome Document, the United States of America has accepted its responsibility to protect its own population from atrocity crimes and should continue acting in accordance with this principle; and

WHEREAS, The continued commission of atrocity crimes and the likely future threat of them is morally intolerable and unacceptable; and

WHEREAS, At other times in the history of the State of Illinois and of the United States, such abominations as slavery and the denial of basic civil and voting rights to all citizens have been rendered illegal and to significant degrees eliminated through the concerted actions of concerned
citizens, civil society, the courts, and state and national lawmakers and leaders; and

WHEREAS, In the State of Illinois there reside many citizens who have fled from atrocity crimes, for whom the State of Illinois provides services and various forms of support, and many thousands of relatives of victims of the atrocity crimes that have occurred in other countries and who seek effective policies by the United States and other nations to help protect their surviving relatives; and

WHEREAS, The moral imperative of the responsibility to protect is inescapable and it reflects the highest American values of freedom, humanitarian care, and the preservation of the lives of innocent non-combatant men, women, and children; and

WHEREAS, The United States of America, as the most powerful and influential country in the world, has the moral duty and capacity to lead in domestic, in multinational initiatives and in the United Nations Security Council to prevent and respond rapidly to protect populations from the commission of atrocity crimes; and

WHEREAS, The citizens of the State of Illinois contribute men and women and financial resources to the U.S. Armed Forces and elect Members of Congress and, with other states, the President and Vice-President of the United States, and strongly believe that these public officials and their subordinates have profound responsibilities, to use every possible legal means, under both federal and international law, to protect populations from atrocity crimes; therefore, be it

RESOLVED, BY THE SENATE OF THE NINETY-FOURTH GENERAL ASSEMBLY OF THE STATE OF ILLINOIS, THE HOUSE OF REPRESENTATIVES CONCURRING HEREIN, that the President and Congress should commit the leadership of the United States Government to effective implementation of the World Summit Outcome declaration on the responsibility to protect, and to do so in part through strengthening the preventive early warning capabilities of the federal government and the United Nations, and to develop strategies and policies as outlined in the 2005 World Summit Outcome Document (U.N. Document A/RES/60/1) and in the Security Council Resolution 1674 (2006) to ensure that the responsibility to protect populations has both credible meaning and effect, and that the United States is in the forefront of its domestic and global application; and be it
further

RESOLVED, That the President should initiate discussions with the permanent and non-permanent members of the United Nations Security Council, the members of the United Nations General Assembly and in separate forums with the governments of the North Atlantic Treaty Organization, the European Union, the African Union, the Organization of American States, and the Association of Southeast Asian Nations respectively, to develop coordinated strategies for regional efforts to implement the responsibility to protect, and that Congress should express its full support for these discussions by joint resolution; and be it further

JOINT TASK FORCE ON RURAL HEALTH AND MEDICALLY UNDERSERVED AREAS
(Senate Joint Resolution No. 53)

WHEREAS, The percentage of Illinoisans without healthcare coverage has been rising for the last 15 years, growing from 9.7% in 1987 to 14.1% in 2002, and rural residents have been facing increasing barriers to health care including provider shortage, transportation, and lack of medical insurance; and

WHEREAS, More than 28% of the U.S. population, over 65 million people, live in rural areas, yet only 9% of physicians practice in rural areas and Illinois is no exception; and

WHEREAS, The shortage of rural health professionals in Illinois is on the rise and is expected to increase sharply in the next 10 years due to the retirement of an aging rural health professions workforce and the absence of adequate numbers of rural-specific students in health professions trainings programs to replace them, and this may increase the disparity in access to basic medical services unless corrective action is taken; and

WHEREAS, 80 Illinois counties are medical shortage areas, and if trends continue without intervention, 485 additional physicians will be required by 2010 and there will be a related demand for the allied health professionals necessary to provide comprehensive health services; and

WHEREAS, Health manpower shortages will be magnified as the aging rural population increases the demand for health care services; and

WHEREAS, Illinois is facing a 2010 nursing shortage of 4,265 nurses, of which nearly half will be required in rural communities to replace retirees and increased system demands for health care; and

WHEREAS, The average population-per-dentist ratio places rural residents at nearly a 2 to 1 disadvantage for accessing dental care and in 82 of 88 rural counties there is no pediatric dentist participating in the Medicaid program and one-fifth of actively practicing rural dentists graduated from Illinois dental schools that no longer exist; and

WHEREAS, The number of retail pharmacies in Illinois has increased, particularly in urban areas, but its has become increasingly difficult to recruit pharmacists for rural hospital work due to staffing shortages and maldistribution; and
WHEREAS, Illinois' rural residents face disparities in access to specialty medical services, tele-health, medical transportation, community health care access for basic services and mental health; and

WHEREAS, The late U.S. Senator Paul Simon was a special advocate for the citizens of Illinois and in that interest hosted a rural health care summit under the Paul Simon Public Policy Institute that generated a set of recommendations entitled "Charting a Health Care Agenda", which resulted in the creation by the 94th General Assembly of the 8-member Joint Task Force on Rural Health and Medically Underserved Areas that focused on the reduction of health care disparities in various shortage areas of Illinois; and

WHEREAS, The Joint Task Force on Rural Health and Medically Underserved Areas studied the health care disparities of the citizens of Illinois and proposed priority recommendations in its December 2006 report to the Governor and General Assembly to preserve capacity, improve access, and correct workforce shortages; therefore, be it

RESOLVED, BY THE SENATE OF THE NINETY-FIFTH GENERAL ASSEMBLY OF THE STATE OF ILLINOIS, THE HOUSE OF REPRESENTATIVES CONCURRING HEREIN, that the recommendations of the Joint Task Force on Rural Health and Medically Underserved Areas be supported and implemented without delay; and be it further

RESOLVED, That each house in the General Assembly create a permanent standing committee charged with monitoring and advocating for the health needs of rural and medically underserved citizens of the State; and be it further

RESOLVED, That the General Assembly should consider allocating additional funds to implement the priority recommendations of the task force as a positive investment in the health care infrastructure of Illinois because they address long-standing critical deficits that need immediate attention; and be it further

RESOLVED, That immediate implementation of the Task Force priority recommendations would truly honor the legacy of the late Senator Paul Simon in terms of his advocacy and concerns regarding the reduction of health disparities across the State, and that it would be a fitting memorial for the 95th General Assembly to develop and implement in Senator Paul Simon's honor the Task Force recommendations with the appropriations necessary to accomplish the same.

REPEAL THE REAL ID ACT OF 2005
(House Joint Resolution No. 27)

WHEREAS, Each of Illinois' duly elected public servants has sworn to defend and uphold the United States Constitution and the Constitution of the State of Illinois; and

WHEREAS, The State of Illinois denounces and condemns all acts of terrorism by any entity, wherever the acts occur; and

WHEREAS, Terrorist attacks against Americans, such as those that occurred on September 11, 2001, have necessitated the crafting of effective laws to protect citizens of the United States and others from terrorist attacks; and

WHEREAS, Any new security measures of federal, state, and local governments should be carefully designed and employed to enhance public safety without infringing on the civil liberties and rights of innocent citizens of Illinois and the United States; and

WHEREAS, The federal Real ID Act of 2005 creates a national identification card by requiring uniform information be placed on every state drivers' license, requiring this information to be machine-readable in a standard format and requiring this card for any federal purpose including air travel; and

WHEREAS, Real ID will be a costly unfunded mandate on the State with the National Governors' Association, the National Conference of State Legislators, and the American Association of Motor Vehicle Administrators estimating that Real ID will cost at least $11 billion nationally over the next 5 years; and

WHEREAS, Real ID requires the creation of a massive public sector database containing the drivers' license information on every American,
accessible to every state motor vehicle employee and state and federal law enforcement officer; and

WHEREAS, Real ID enables the creation of an additional massive private sector database of drivers' license information gained from scanning the machine-readable information contained on every driver's license; and

WHEREAS, These public and private databases are certain to contain numerous errors and false information, creating significant hardship for Americans attempting to verify their identity in order to fly, open a bank account, or perform any of the numerous functions required to live in the United States today; and

WHEREAS, The Federal Trade Commission estimates that 10 million Americans are victims of identity theft annually and these thieves are increasingly targeting motor vehicle departments, Real ID will enable the crime of identity theft by making the personal information of all Americans including name, date of birth, gender, driver's license or identification card number, digital photograph, address, and signature accessible from tens of thousands of locations; and

WHEREAS, Real ID requires the drivers' licenses to contain actual home addresses in all cases and makes no provision for securing personal information for individuals in potential danger such as undercover police officers and victims of stalking or criminal harassment; and

WHEREAS, Real ID contains no exemption for religion, limits religious liberty, and tramples the beliefs of groups such as the Amish and some Evangelical Christians; and

WHEREAS, Real ID contains onerous record verification and retention provisions that place unreasonable burdens on both state Driver Services offices and on third parties required to verify records; and

WHEREAS, Real ID will likely place enormous burdens on consumers seeking a new driver's license including longer lines, higher costs, increased document requests, and a waiting period; and

WHEREAS, Real ID will put under-resourced motor vehicle administration staff on the front lines of immigration enforcement by forcing them to determine citizenship status, increasing the potential for discrimination based on race and ethnicity, and placing an excessive burden on foreign-born license applicants and motor vehicle staff; and
WHEREAS, Real ID was passed without sufficient deliberation by Congress and never received a hearing by any Congressional committee or any vote solely on its own merits; and

WHEREAS, Real ID eliminated a process of negotiated rulemaking initiated under the Intelligence Reform and Terrorism Prevention Act of 2004, which had convened federal, state, and local policy makers, privacy advocates, and industry experts to solve the problem of misuse in identity documents; and

WHEREAS, More than 600 organizations opposed the passage of Real ID including the American Civil Liberties Union of Illinois; and

WHEREAS, Real ID would provide little security benefit and still leave identification systems open to insider fraud, counterfeit documentation, and database failures; therefore, be it

RESOLVED, BY THE HOUSE OF REPRESENTATIVES OF THE NINETY-FIFTH GENERAL ASSEMBLY OF THE STATE OF ILLINOIS, THE SENATE CONCURRING HEREIN, that the Illinois General Assembly supports the government of the United States in its campaign against terrorism and affirms the commitment of the United States that the campaign not be waged at the expense of essential civil rights and liberties of citizens of this country that are protected in the United States Constitution and the Bill of Rights; and be it further

TASK FORCE TO STUDY SPECIAL EDUCATION FUNDING NEEDS  

(House Joint Resolution No. 24)

WHEREAS, In the 2005-2006 school year, over 322,000 children with disabilities were served in special education programs across Illinois; and

WHEREAS, The number of children in special education programs has risen 5.4% in the last 5 years, and special education accounts for approximately 23% of all State education spending; and

WHEREAS, The federal government has established a goal of reimbursing 40% of the costs of special education incurred by school districts, but it currently provides only 18% of costs nationally and only 14% in Illinois; and

WHEREAS, Illinois has failed for decades to update reimbursement rates for special education costs, with the last reimbursement rate set in 1973 for special education orphanage tuition, in 1985 for special education personnel, in 1978 for special education private tuition, in 1976 for special education summer school, and in 1965 for special education transportation; and

WHEREAS, Illinois has continued to prorate special education mandated categoricals at less than 100%, with the FY07 budget prorating these mandated categoricals at 97%; and

WHEREAS, Even if Illinois fully funded mandated categoricals at 100%, this would still only represent partial funding, as the reimbursement rates are severely outdated; and

WHEREAS, Illinois school districts currently spend an estimated $1 billion from their own general education funds to meet the unreimbursed costs of special education services that are mandated by federal and State laws and administrative rules; and

WHEREAS, Special education continues to represent a growing financial burden on school districts as the need for services increases while State and federal funding fails to increase along with that need; therefore, be it

RESOLVED, BY THE HOUSE OF REPRESENTATIVES OF THE NINETY-FIFTH GENERAL ASSEMBLY OF THE STATE OF ILLINOIS,
THE SENATE CONCURRING HEREIN, that a task force shall be created to study current special education funding needs and to make recommendations as to how the State can increase special education funding and ease the financial burden on school districts; and be it further

RESOLVED, That the task force shall be facilitated by the State Board of Education; and be it further

RESOLVED, That the task force shall report its findings and recommendations to the Governor and the General Assembly by August 1, 2008; and be it further

WHEREAS, in the 11-year period between 1955 and 1968, Dr. King traveled more than six million miles and spoke on more than 2,500 occasions, appearing and speaking wherever there was injustice and civil unrest; and

WHEREAS, during that time, Dr. King helped lead a successful bus boycott in Montgomery, Alabama to end segregation on city buses and improve treatment of passengers. King also led a massive civil rights protest in Birmingham, Alabama that drew worldwide attention to the appalling treatment of African Americans in the South; and

WHEREAS, Dr. King is best known, however, for his “I Have A Dream” speech during the peaceful March on Washington demonstration for civil rights, in which he eloquently described a day when “all of God’s children, black men and white men, Jews and Gentiles, Protestants and Catholics, will be able to join hands and sing in the words of the old Negro spiritual, ‘Free at last! Free at last! Thank God Almighty, we are free at last;’” and

WHEREAS, in January of 2006, Dr. King’s wife, Coretta Scott King, passed away. She was at Dr. King’s side during his finest hours, including when he received the Nobel Peace Prize in 1964, and during his historic march for voting rights in Selma, Alabama in 1965. NATIONAL BLOOD DONOR MONTH

WHEREAS, approximately four million patients in the United States receive blood transfusions every year, and roughly 38,000 units of blood are required in hospitals and emergency treatment facilities on any given day; and

WHEREAS, The State of Illinois supports five retirement plans on behalf of State employees, university employees, teachers, judges, and members of the Illinois General Assembly; and

WHEREAS, It is the State’s responsibility to provide adequate funding to support State pension liabilities so that future generations are not held responsible for current expenses; and

WHEREAS, Deferrals of the State’s obligations to its annuitants contributed to an unfunded pension liability in State-sponsored systems of $19 billion in 1995, which grew to $43 billion in 2003, resulting in a funded ratio of 48% in 2003, the worst funded ratio of any of the fifty States and significantly under-funded in comparison to the national average of 91.1% among 101 public retirement systems, according to the 2003 Public Fund Survey conducted by the National Association of State Retirement Administrators; and

WHEREAS, Because of this crisis, unless changes are made, commitments to State employees will become a significant burden on future generations; and

WHEREAS, Annuitants of the State’s benefit systems rely on the security provided by pension benefits to meet their needs, including food, housing and healthcare; and fairness requires that Illinois keep its obligations and commitments to those who have earned it and will work for it in the future; and
WHEREAS, Over the next three years, in order to meet the statutory funding formula, the State will be required to increase annual contributions to the pension systems and debt service on outstanding pension obligation bonds, reducing available State resources to fund growth in other core services provided by the State, such as education and health care, to less than $200 million of natural revenue growth per year, representing less than one-percent growth per year in these critical areas; and

WHEREAS, Further deferrals of the State’s pension liabilities will force future generations to pay billions of dollars in additional interest on the unfunded liabilities of the State between fiscal years 2008 and 2045; and

WHEREAS, The State’s pension funding system is in a state of crisis, and the State will continue to unnecessarily pay billions in interest costs alone if the unfunded pension liability does not receive an immediate and significant infusion of funding; and

WHEREAS, A solution to this crisis must be adopted prior to adjournment of 2007 Spring Session of the 95th General Assembly, and this action is necessary to adequately secure existing pension obligations, reduce long-term interest costs on current obligations, more effectively manage State funding requirements, and ensure that future new revenues will not be consumed solely by escalating pension contributions;

DISASTER AREA - STATE OF ILLINOIS

On Saturday, December 8, 2007, a storm system that is forecasted to continue for the next two days began moving through Central Illinois. This storm has resulted in freezing rain in some areas causing a heavy accumulation of ice on trees, power lines, roads and buildings. The cities
of Jacksonville and South Jacksonville have been severely impacted by this ice storm. Power outages are widespread due to downed power lines. Broken tree limbs falling on the streets have made many roadways, including emergency routes, dangerous for traffic.

In the interest of aiding the citizens of Illinois and the local governments responsible for ensuring public health and safety, I hereby proclaim that a disaster exists in the State of Illinois and specifically declare Morgan County as a State Disaster Area pursuant to the provisions of Section 3305/7 of the Illinois Emergency Management Agency act, 20ILCS 3305/7.

This gubernatorial proclamation of disaster will assist the Illinois Emergency Management Agency in coordinating State resources to support local governments in disaster response and recovery operations. This proclamation will also make possible the request for federal disaster assistance to supplement State and local government efforts if it is deemed necessary to protect public health and safety and to assist in disaster recovery.

WHEREAS, on December 10, 1948, the United Nations General Assembly adopted the Universal Declaration of Human Rights, and the international community commemorates the anniversary as Human Rights Day; and

WHEREAS, the Universal Declaration of Human Rights has been translated into more than 200 languages and remains one of the best known and most often cited human rights documents in the world. Over the years, the Universal Declaration has been used in the defense and advancement of people’s rights. Its principles have been enshrined in and continue to inspire national legislation and the constitutions of many newly independent states; and

WHEREAS, today, equality is one of the basic principles that we use to guide and improve understanding of and respect for one another. Although our nation’s history is wrought with shameful acts and deeds, it
is also filled with wonderful moments of hope and triumph such as the abolition of slavery, the 19th Amendment that guaranteed all women the right to vote, and the Civil Rights Acts of 1964 and 1965; and

WHEREAS, here in Illinois, we have progressively expanded human rights, and in 1979, we passed a comprehensive human rights act to prohibit discrimination in employment, housing, credit transactions, and public accommodations based on age, citizenship, ethnicity, gender, race, disability, and religion. In 2005, we took another important step forward by amending the Illinois Human Rights Act to include sexual orientation; and

While approximately eight million volunteers donate blood every year, just one trauma patient can use more than 100 units of blood, and donated blood has a shelf life of only 42 days; and
WHEREAS, even if volunteers donate blood regularly, donors can give only one unit of blood every eight weeks. Consequently, there is a continual need to recruit more donors; and
WHEREAS, January is observed by the Illinois Coalition of Community Blood Centers and the American Red Cross of Illinois as National Blood Donor Month to promote blood donation.
