Sec. 5-9-1.15 5-9-1.14. Sex offender fines.

(a) There shall be added to every penalty imposed in sentencing for a sex offense as defined in Section 2 of the Sex Offender Registration Act an additional fine in the amount of $500 to be imposed upon a plea of guilty, stipulation of facts or finding of guilty resulting in a judgment of conviction or order of supervision.

(b) Such additional amount shall be assessed by the court imposing sentence and shall be collected by the circuit clerk in addition to the fine, if any, and costs in the case. Each such additional penalty shall be remitted by the circuit clerk within one month after receipt to the State Treasurer for deposit into the Sex Offender Investigation Fund. The circuit clerk shall retain 10% of such penalty for deposit into the Circuit Court Clerk Operation and Administrative Fund created by the Clerk of the Circuit Court to cover the costs incurred in administering and enforcing this Section. Such additional penalty shall not be considered a part of the fine for purposes of any reduction in the fine for time served either before or after sentencing.

(c) Not later than March 1 of each year the clerk of the circuit court shall submit to the State Comptroller a report of the amount of funds remitted by him or her to the State Treasurer under this Section during the preceding calendar year. Except as otherwise provided by Supreme Court Rules, if a court in sentencing an offender levies a gross amount for fine, costs, fees and penalties, the amount of the additional penalty provided for herein shall be collected from the amount remaining after deducting from the gross amount levied all fees of the circuit clerk, the State's Attorney, and the sheriff. After deducting from the gross amount levied the fees and additional penalty provided for herein, less any other additional penalties provided by law, the clerk shall remit $100 of each $500 additional fine imposed under this Section to the State's Attorney of the county which prosecuted the case or the local law enforcement agency that investigated
the case leading to the defendant's judgment of conviction or order of supervision and after such remission the net balance remaining to the entity authorized by law to receive the fine imposed in the case. For purposes of this Section "fees of the circuit clerk" shall include, if applicable, the fee provided for under Section 27.3a of the Clerks of Courts Act and the fee, if applicable, payable to the county in which the violation occurred under Section 5-1101 of the Counties Code.

(a) An offender who defaults in the payment of a fine or any installment of that fine may be held in contempt and imprisoned for nonpayment. The court may issue a summons for his appearance or a warrant of arrest.

(b) Unless the offender shows that his default was not due to his intentional refusal to pay, or not due to a failure on his part to make a good faith effort to pay, the court may order the offender imprisoned for a term not to exceed 6 months if the fine was for a felony, or 30 days if the fine was for a misdemeanor, a petty offense or a business offense. Payment of the fine at any time will entitle the offender to be released, but imprisonment under this Section shall not satisfy the payment of the fine.

(c) If it appears that the default in the payment of a fine is not intentional under paragraph (b) of this Section, the court may enter an order allowing the offender additional time for payment, reducing the amount of the fine or of each installment, or revoking the fine or the unpaid portion.

(d) When a fine is imposed on a corporation or unincorporated organization or association, it is the duty of the person or persons authorized to make disbursement of assets, and their superiors, to pay the fine from assets of the corporation or unincorporated organization or association. The failure of such persons to do so shall render them subject to proceedings under paragraphs (a) and (b) of this Section.

(e) A default in the payment of a fine, judgment order of forfeiture, order of restitution, or any installment thereof may be collected by any and all means authorized for the collection of money judgments. The State's Attorney of the county in which the fine, judgment order of forfeiture, or order of restitution was imposed may retain attorneys and private collection agents for the purpose of collecting any default in payment of any fine, judgment order of forfeiture, order of restitution, or installment thereof. (765 ILCS 605/30) (from Ch. 30, par. 330)

(a)(1) No real estate may be submitted to the provisions of the Act as a conversion condominium unless (i) a notice of intent to submit the real estate to this Act (notice of intent) has been given to all persons who were tenants of the building located on the real estate on the date the notice is given. Such notice shall be given at least 30 days, and not more than 1 year prior to the recording of the declaration which submits the real estate to this Act; and (ii) the developer executes and acknowledges a certificate which shall be attached to and made a part of the declaration and which provides that the developer, prior to the execution by him or his agent of any agreement for the sale of a unit, has given a copy of the notice

of intent to all persons who were tenants of the building located on the real estate on the date the notice of intent was given.

(2) If the owner fails to provide a tenant with notice of the intent to convert as defined in this Section, the tenant permanently vacates the premises as a direct result of non-renewal of his or her lease by the owner, and the tenant's unit is converted to a condominium by the filing of a declaration submitting a property to this Act without having provided the required notice, then the owner is liable to the tenant for the following:

(A) the tenant's actual moving expenses incurred when moving from the subject property, not to exceed $1,500;
(B) three month's rent at the subject property; and
(C) reasonable attorney's fees and court costs.

(b) Any developer of a conversion condominium must, upon issuing the notice of intent, publish and deliver along with such notice of intent, a schedule of selling prices for all units subject to the condominium instruments and offer to sell such unit to the current tenants, except for units to be vacated for rehabilitation subsequent to such notice of intent. Such offer shall not expire earlier than 30 days after receipt of the offer by the current tenant, unless the tenant notifies the developer in writing of his election not to purchase the condominium unit.

(c) Any tenant who was a tenant as of the date of the notice of intent and whose tenancy expires (other than for cause) prior to the expiration of 120 days from the date on which a copy of the notice of intent was given to the tenant shall have the right to extend his tenancy on the same terms and conditions and for the same rental until the expiration of such 120 day period by the giving of written notice thereof to the developer within 30 days of the date upon which a copy of the notice of intent was given to the tenant by the developer.

(d) Each lessee in a conversion condominium shall be informed by the developer at the time the notice of intent is given whether his tenancy will be renewed or terminated upon its expiration. If the tenancy is to be renewed, the tenant shall be informed of all charges, rental or otherwise, in connection with the new tenancy and the length of the term of occupancy proposed in conjunction therewith.

(e) For a period of 120 days following his receipt of the notice of intent, any tenant who was a tenant on the date the notice of intent was given shall be given the right to purchase his unit on substantially the same

terms and conditions as set forth in a duly executed contract to purchase the unit, which contract shall conspicuously disclose the existence of, and shall be subject to, the right of first refusal. The tenant may exercise the right of first refusal by giving notice thereof to the developer prior to the expiration of 30 days from the giving of notice by the developer to the tenant of the execution of the contract to purchase the unit. The tenant may exercise such right of first refusal within 30 days from the giving of notice by the developer of the execution of a contract to purchase the unit, notwithstanding the expiration of the 120 day period following the tenant's receipt of the notice of intent, if such contract was executed prior to the expiration of the 120 day period. The recording of the deed conveying the unit to the purchaser which contains a statement to the effect that the tenant of the unit either waived or failed to exercise the right of first refusal or option or had no right of first refusal or option with respect to the unit shall extinguish any legal or equitable right or interest to the possession or acquisition of the unit which the tenant may have or claim with respect to the unit arising out of the right of first refusal or option provided for in this Section. The foregoing provision shall not affect any claim which the tenant may have against the landlord for damages arising out of the right of first refusal provided for in this Section.

(f) During the 30 day period after the giving of notice of an executed contract in which the tenant may exercise the right of first refusal, the developer shall grant to such tenant access to any portion of the building to inspect any of its features or systems and access to any reports, warranties, or other documents in the possession of the developer which reasonably pertain to the condition of the building. Such access shall be subject to reasonable limitations, including as to hours. The refusal of the developer to grant such access is a business offense punishable by a fine of $500. Each refusal to an individual lessee who is a potential purchaser is a separate violation.

(g) Any notice provided for in this Section shall be deemed given when a written notice is delivered in person or mailed, certified or registered mail, return receipt requested to the party who is being given the notice.

(h) Prior to their initial sale, units offered for sale in a conversion condominium and occupied by a tenant at the time of the offer shall be shown to prospective purchasers only a reasonable number of times and at appropriate hours. Units may only be shown to prospective purchasers during the last 90 days of any expiring tenancy.

(i) Any provision in any lease or other rental agreement, or any termination of occupancy on account of condominium conversion, not authorized herein, or contrary to or waiving the foregoing provisions, shall be deemed to be void as against public policy.

(j) A tenant is entitled to injunctive relief to enforce the provisions of subsections (a) and (c) of this Section.

(k) A non-profit housing organization, suing on behalf of an aggrieved tenant under this Section, may also recover compensation for reasonable attorney's fees and court costs necessary for filing such action.

(l) Nothing in this Section shall affect any provision in any lease or rental agreement in effect before this Act becomes law.

(m) Nothing in this amendatory Act of 1978 shall be construed to imply that there was previously a requirement to record the notice provided for in this Section.

(House Bill No. 5148)

AN ACT concerning civil law.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:
Section 5. The Code of Criminal Procedure of 1963 is amended by changing Section 112A-20 as follows:
(725 ILCS 5/112A-20) (from Ch. 38, par. 112A-20)
Sec. 112A-20. Duration and extension of orders.
  (a) Duration of emergency and interim orders. Unless re-opened or extended or voided by entry of an order of greater duration:
    (1) Emergency orders issued under Section 112A-17 shall be effective for not less than 14 nor more than 21 days;
    (2) Interim orders shall be effective for up to 30 days.
  (b) Duration of plenary orders. Except as otherwise provided in this Section, a plenary order of protection shall be valid for a fixed period of time not to exceed 2 years. A plenary order of protection entered in conjunction with a criminal prosecution shall remain in effect as follows:
    (1) if entered during pre-trial release, until disposition, withdrawal, or dismissal of the underlying charge; if, however, the case is continued as an independent cause of action, the order's duration may be for a fixed period of time not to exceed 2 years;
    (2) if in effect in conjunction with a bond forfeiture warrant, until final disposition or an additional period of time not exceeding 2 years; no order of protection, however, shall be terminated by a dismissal that is accompanied by the issuance of a bond forfeiture warrant;
    (3) until expiration of any supervision, conditional discharge, probation, periodic imprisonment, parole or mandatory

supervised release and for an additional period of time thereafter not exceeding 2 years; or

(4) until the date set by the court for expiration of any sentence of imprisonment and subsequent parole or mandatory supervised release and for an additional period of time thereafter not exceeding 2 years.

(c) Computation of time. The duration of an order of protection shall not be reduced by the duration of any prior order of protection.

(d) Law enforcement records. When a plenary order of protection expires upon the occurrence of a specified event, rather than upon a specified date as provided in subsection (b), no expiration date shall be entered in Department of State Police records. To remove the plenary order from those records, either party shall request the clerk of the court to file a certified copy of an order stating that the specified event has occurred or that the plenary order has been vacated or modified with the sheriff, and the sheriff shall direct that law enforcement records shall be promptly corrected in accordance with the filed order.

(e) Extension of Orders. Any emergency, interim or plenary order of protection may be extended one or more times, as required, provided that the requirements of Section 112A-17, 112A-18 or 112A-19, as appropriate, are satisfied. If the motion for extension is uncontested and petitioner seeks no modification of the order, the order may be extended on the basis of petitioner's motion or affidavit stating that there has been no material change in relevant circumstances since entry of the order and stating the reason for the requested extension. An extension of a plenary order of protection may be granted, upon good cause shown, to remain in effect until the order of protection is vacated or modified. Extensions may be granted only in open court and not under the provisions of Section 112A-17(c), which applies only when the court is unavailable at the close of business or on a court holiday.

(f) Termination date. Any order of protection which would expire on a court holiday shall instead expire at the close of the next court business day.

(g) Statement of purpose. The practice of dismissing or suspending a criminal prosecution in exchange for issuing an order of protection undermines the purposes of this Article. This Section shall not be construed as encouraging that practice.

(B) If a person's license or permit is revoked or suspended 2 or more times within a 10 year period due to any combination of:

(i) a single conviction of violating Section 11-501 of this Code or a similar provision of a local ordinance or a similar out-of-state offense or Section 9-3 of the Criminal Code of 1961, where the use of alcohol or other drugs is recited as an element of the offense, or a similar out-of-state offense; or

A restricted driving permit issued under this Section shall be subject to cancellation, revocation, and suspension by the Secretary of State in like manner and for like cause as a driver's license issued under this Code may be cancelled, revoked, or suspended; except that a conviction upon one or more offenses against laws or ordinances regulating the movement of traffic shall be deemed sufficient cause for the revocation, suspension, or cancellation of a restricted driving permit. The Secretary of State may, as a condition to the issuance of a restricted driving permit, require the applicant to participate in a designated driver remedial or rehabilitative program. The Secretary of State is authorized to cancel a restricted driving permit if the permit holder does not successfully complete the program.

(c-3) In the case of a suspension under paragraph 43 of subsection (a), reports received by the Secretary of State under this Section shall, except during the actual time the suspension is in effect, be privileged information and for use only by the courts, police officers, prosecuting authorities, the driver licensing administrator of any other state, or the Secretary of State. (c-5) The Secretary of State may, as a condition of the reissuance of a driver's license or permit to an applicant whose driver's license or permit has been suspended before he or she reached the age of 18 years pursuant to any of the provisions of this Section, require the applicant to participate in a driver remedial education course and be retested under Section 6-109 of this Code.

Sec. 1-105. Severability. If any provision or clause of the Uniform Commercial Code or its application to any person or circumstance is held invalid, the invalidity does not affect other provisions or applications of the Uniform Commercial Code which can be given effect without the invalid provision or application, and to this end the provisions of the Uniform Commercial Code are severable.

minehead is a person in the business of selling goods of that kind. A buyer in ordinary course of business may buy for cash, by exchange of other property, or on secured or unsecured credit, and may acquire goods or documents of title under a preexisting contract for sale. Only a buyer that takes possession of the goods or has a right to recover the goods from the seller under Article 2 may be a buyer in ordinary course of business. "Buyer in ordinary course of business" does not include a person that acquires goods in a transfer in bulk or as security for or in total or partial satisfaction of a money debt.

(10) "Conspicuous", with reference to a term, means so written, displayed, or presented that a reasonable person against which it is to operate ought to have noticed it. Whether a term is "conspicuous" or not is a decision for the court. Conspicuous terms include the following:

To be a document of title, a document must purport to be issued by or addressed to a bailee and purport to cover goods in the bailee's possession which are either identified or are fungible portions of an identified mass.
(17) "Fault" means a default, breach, or wrongful act or omission.
(18) "Fungible goods" means:
   (A) goods of which any unit, by nature or usage of trade, is the equivalent of any other like unit; or

(28) "Present value" means the amount as of a date certain of one or more sums payable in the future, discounted to the date certain by use of either an interest rate specified by the parties if that rate is not manifestly unreasonable at the time the transaction is entered into or, if an interest rate is not so specified, a commercially reasonable rate that takes into account the facts and circumstances at the time the transaction is entered into.

New matter indicated by italics - deletions by strikeout.
"Security interest" does not include the special property interest of a buyer of goods on identification of those goods to a contract for sale under Section 2-401, but a buyer may also acquire a "security interest" by complying with Article 9. Except as otherwise provided in Section 2-505, the right of a seller or lessor of goods under Article 2 or 2A to retain or acquire possession of the goods is not a "security interest", but a seller or lessor may also acquire a "security interest" by complying with Article 9. The retention or reservation of title by a seller of goods notwithstanding shipment or delivery to the buyer under Section 2-401 is limited in effect to a reservation of a "security interest". Whether a transaction in the form of a lease creates a "security interest" is determined pursuant to Section 1-203.

(36) "Send" in connection with a writing, record, or notice means:

(A) to deposit in the mail or deliver for transmission by any other usual means of communication with postage or cost of transmission provided for and properly addressed and, in the case of an instrument, to an address specified thereon or otherwise agreed, or if there be none to any address reasonable under the circumstances; or

(2) "Aggrieved party" means a party entitled to resort to a remedy.

(3) "Agreement" means the bargain of the parties in fact as found in their language or by implication from other circumstances including course of dealing or usage of trade or course of performance as provided in this Act (Sections 1-205, 2-208, and 2A-207). practices. A person that sells oil, gas, or other minerals at the wellhead or minehead is a person in the business of selling goods of that kind. A buyer in ordinary course of business may buy for cash, by exchange of other property, or on secured or unsecured credit, and may acquire goods or documents of title under a pre-existing contract for sale. Only a buyer that takes possession of the goods or has a right to recover the goods from the seller under Article 2 may be a buyer in ordinary course of business. A person that acquires goods in a transfer in bulk or as security for or in total or partial satisfaction of a money debt is not a buyer in ordinary course of business.

(10) "Conspicuous": A term or clause is conspicuous when it is so written that a reasonable person against whom it is to operate ought to have noticed it. A printed heading in capitals (as: NON-NEGOTIABLE BILL OF LADING) is conspicuous. Language in the body of a form is "conspicuous" if it is in larger or other contrasting type or color. But in a telegram any stated term is "conspicuous". Whether a term or clause is "conspicuous" or not is for decision by the court.

(11) "Contract" means the total legal obligation which results from the parties' agreement as affected by this Act and any other applicable rules of law. (Compare "Agreement".)

(14) "Delivery" with respect to instruments, documents of title, chattel paper or certificated securities means voluntary transfer of possession.

(15) "Document of title" includes bill of lading, dock warrant, dock receipt, warehouse receipt or order for the delivery of goods, and also any other document which in the regular course of business or financing is treated as adequately evidencing that the person in possession of it is entitled to receive, hold and dispose of the document and the goods it covers. To be a document of title a document must purport to be issued by or addressed to a bailee and purport to cover goods in the bailee's possession which are either identified or are fungible portions of an identified mass.

(16) "Fault" means wrongful act, omission or breach.

New matter indicated by italics - deletions by strikeout.
(17) "Fungible" with respect to goods or securities means goods or securities of which any unit is, by nature or usage of trade, the equivalent of any other like unit. Goods which are not fungible shall be deemed fungible for the purposes of this Act to the extent that under a particular agreement or document unlike units are treated as equivalents.

(18) "Genuine" means free of forgery or counterfeiting.

(19) "Good faith" means honesty in fact in the conduct or transaction concerned.

(20) "Holder" with respect to a negotiable instrument means the person in possession if the instrument is payable to bearer or, in the case of an instrument payable to an identified person, if the identified person is in possession. "Holder" with respect to a document of title means the person in possession if the goods are deliverable to bearer or to the order of the person in possession.

(23) A person is "insolvent" who either has ceased to pay his debts in the ordinary course of business or cannot pay his debts as they become due or is insolvent within the meaning of the federal bankruptcy law.

(24) "Money" means a medium of exchange authorized or adopted by a domestic or foreign government and includes a monetary unit of account established by an intergovernmental organization or by agreement between 2 or more nations.

(25) A person has "notice" of a fact when

(a) he has actual knowledge of it; or

(b) he has received a notice or notification of it; or

(c) from all the facts and circumstances known to him at the time in question he has reason to know that it exists. A person "knows" or has "knowledge" of a fact when he has actual knowledge of it. "Discern" or "learn" or a word or phrase of similar import refers to knowledge rather than to reason to know.

The time and circumstances under which a notice or notification may cease to be effective are not determined by this Act.

(26) A person "notifies" or "gives" a notice or notification to another by taking such steps as may be reasonably required to inform the

other in ordinary course whether or not such other actually comes to know of it. A person "receives" a notice or notification when
(a) it comes to his attention; or
(b) it is duly delivered at the place of business through which the contract was made or at any other place held out by him as the place for receipt of such communications.

(27) Notice, knowledge or a notice or notification received by an organization is effective for a particular transaction from the time when it is brought to the attention of the individual conducting that transaction, and in any event from the time when it would have been brought to his attention if the organization had exercised due diligence. An organization exercises due diligence if it maintains reasonable routines for communicating significant information to the person conducting the transaction and there is reasonable compliance with the routines. Due diligence does not require an individual acting for the organization to communicate information unless such communication is part of his regular duties or unless he has reason to know of the transaction and that the transaction would be materially affected by the information.

(28) "Organization"—includes a corporation, government or governmental subdivision or agency, business trust, estate, trust, partnership or association, two or more persons having a joint or common interest, or any other legal or commercial entity:

(29) "Party", as distinct from "third party", means a person who has engaged in a transaction or made an agreement within this Act:

(30) "Person" includes an individual or an organization (see Section 1-102):

(31) "Presumption" or "presumed" means that the trier of fact must find the existence of the fact presumed unless and until evidence is introduced which would support a finding of its non-existence:

(32) "Purchase" includes taking by sale, discount, negotiation, mortgage, pledge, lien, security interest, issue or reissue, gift or any other voluntary transaction creating an interest in property:

(33) "Purchaser" means a person who takes by purchase:

(34) "Remedy" means any remedial right to which an aggrieved party is entitled with or without resort to a tribunal:

(35) "Representative" includes an agent, an officer of a corporation or association, and a trustee, executor or administrator of an estate, or any other person empowered to act for another:

(36) "Rights" includes remedies:

(37) "Security interest" means an interest in personal property or fixtures which secures payment or performance of an obligation. The term also includes any interest of a consignor and a buyer of accounts, chattel paper, a payment intangible, or a promissory note in a transaction that is subject to Article 9. The special property interest of a buyer of goods on identification of those goods to a contract for sale under Section 2-401 is not a "security interest", but a buyer may also acquire a "security interest", by complying with Article 9. Except as otherwise provided in Section 2-505, the right of a seller or lessor of goods under Article 2 or 2A to retain or acquire possession of the goods is not a "security interest", but a seller or lessor may also acquire a "security interest" by complying with Article 9. The retention or reservation of title by a seller of goods notwithstanding shipment or delivery to the buyer (Section 2-401) is limited in effect to a reservation of a "security interest".

Whether a transaction creates a lease or security interest is determined by the facts of each case; however, a transaction creates a security interest if the consideration the lessee is to pay the lessor for the right to possession and use of the goods is an obligation for the term of the lease not subject to termination by the lessee; and

(a) the original term of the lease is equal to or greater than the remaining economic life of the goods;

(b) the lessee is bound to renew the lease for the remaining economic life of the goods or is bound to become the owner of the goods;

(c) the lessee has an option to renew the lease for the remaining economic life of the goods for no additional consideration or nominal additional consideration upon compliance with the lease agreement; or

(d) the lessee has an option to become the owner of the goods for no additional consideration or nominal additional consideration upon compliance with the lease agreement.

A transaction does not create a security interest merely because it provides that:

(a) the present value of the consideration the lessee is obligated to pay the lessor for the right to possession and use of the goods is substantially equal to or is greater than the fair market value of the goods at the time the lease is entered into;

New matter indicated by italics - deletions by strikeout.
(b) the lessee assumes risk of loss of the goods; or agrees to pay taxes, insurance, filing, recording, or registration fees, or service or maintenance costs with respect to the goods;

(e) the lessee has an option to renew the lease or to become the owner of the goods;

(d) the lessee has an option to renew the lease for a fixed rent that is equal to or greater than the reasonably predictable fair market rent for the use of the goods for the term of the renewal at the time the option is to be performed; or

(e) the lessee has an option to become the owner of the goods for a fixed price that is equal to or greater than the reasonably predictable fair market value of the goods at the time the option is to be performed.

For purposes of this subsection (37):

(x) Additional consideration is not nominal if (i) when the option to renew the lease is granted to the lessee the rent is stated to be the fair market rent for the use of the goods for the term of the renewal determined at the time the option is to be performed, or (ii) when the option to become the owner of the goods is granted to the lessee the price is stated to be the fair market value of the goods determined at the time the option is to be performed. Additional consideration is nominal if it is less than the lessee's reasonably predictable cost of performing under the lease agreement if the option is not exercised;

(y) "Reasonably predictable" and "remaining economic life of the goods" are to be determined with reference to the facts and circumstances at the time the transaction is entered into; and

(z) "Present value" means the amount as of a date certain of one or more sums payable in the future, discounted to the date certain. The discount is determined by the interest rate specified by the parties if the rate is not manifestly unreasonable at the time the transaction is entered into; otherwise, the discount is determined by a commercially reasonable rate that takes into account the facts and circumstances as of each case at the time the transaction was entered into.

(38) "Send" in connection with any writing or notice means to deposit in the mail or deliver for transmission by any other usual means of communication with postage or cost of transmission provided for and properly addressed and in the case of an instrument to an address specified

(44) "Value". Except as otherwise provided with respect to negotiable instruments and bank collections (Sections 3-303, 4-210, and 4-211), a person gives "value" for rights if he acquires them:
(a) in return for a binding commitment to extend credit or for the extension of immediately available credit whether or not drawn upon and whether or not a charge-back is provided for in the event of difficulties in collection; or

(3) from all the facts and circumstances known to the person at the time in question, has reason to know that it exists.

(b) "Knowledge" means actual knowledge. "Knows" has a corresponding meaning.

(c) "Discover", "learn", or words of similar import refer to knowledge rather than to reason to know.

(d) A person "notifies" or "gives" a notice or notification to another person by taking such steps as may be reasonably required to inform the other person in ordinary course, whether or not the other person actually comes to know of it.

(e) Subject to subsection (f), a person "receives" a notice or notification when:

(1) it comes to that person's attention; or

(2) it is duly delivered in a form reasonable under the circumstances at the place of business through which the contract was made or at another location held out by that person as the place for receipt of such communications.

(f) Notice, knowledge, or a notice or notification received by an organization is effective for a particular transaction from the time it is brought to the attention of the individual conducting that transaction and, in any event, from the time it would have been brought to the individual's attention if the organization had exercised due diligence. An organization exercises due diligence if it maintains reasonable routines for communicating significant information to the person conducting the transaction and there is reasonable compliance with the routines. Due diligence does not require an individual acting for the organization to communicate information unless the communication is part of the individual's regular duties or the individual has reason to know of the transaction and that the transaction would be materially affected by the information.

Sec. 1-203. Lease distinguished from security interest. Obligation of good faith.

(a) Whether a transaction in the form of a lease creates a lease or security interest is determined by the facts of each case.

(b) A transaction in the form of a lease creates a security interest if the consideration that the lessee is to pay the lessor for the right to possession and use of the goods is an obligation for the term of the lease and is not subject to termination by the lessee, and:

(1) the original term of the lease is equal to or greater than the remaining economic life of the goods;

(2) the lessee is bound to renew the lease for the remaining economic life of the goods or is bound to become the owner of the goods;

(3) the lessee has an option to renew the lease for the remaining economic life of the goods for no additional consideration or for nominal additional consideration upon compliance with the lease agreement; or

(4) the lessee has an option to become the owner of the goods for no additional consideration or for nominal additional consideration upon compliance with the lease agreement.

(c) A transaction in the form of a lease does not create a security interest merely because:

(1) the present value of the consideration the lessee is obligated to pay the lessor for the right to possession and use of the goods is substantially equal to or is greater than the fair market value of the goods at the time the lease is entered into;

(2) the lessee assumes risk of loss of the goods;

(3) the lessee agrees to pay, with respect to the goods, taxes, insurance, filing, recording, or registration fees, or service or maintenance costs;

(4) the lessee has an option to renew the lease or to become the owner of the goods;

(5) the lessee has an option to renew the lease for a fixed rent that is equal to or greater than the reasonably predictable fair market rent for the use of the goods for the term of the renewal at the time the option is to be performed; or

(6) the lessee has an option to become the owner of the goods for a fixed price that is equal to or greater than the
reasonably predictable fair market value of the goods at the time the option is to be performed.

(d) Additional consideration is nominal if it is less than the lessee's reasonably predictable cost of performing under the lease agreement if the option is not exercised. Additional consideration is not nominal if:

(1) when the option to renew the lease is granted to the lessee, the rent is stated to be the fair market rent for the use of the goods for the term of the renewal determined at the time the option is to be performed; or

(2) when the option to become the owner of the goods is granted to the lessee, the price is stated to be the fair market value of the goods determined at the time the option is to be performed.

(e) The "remaining economic life of the goods" and "reasonably predictable" fair market rent, fair market value, or cost of performing under the lease agreement must be determined with reference to the facts and circumstances at the time the transaction is entered into.

Sec. 1-204. Value. Time; reasonable time; "seasonably". Except as otherwise provided in Articles 3, 4, 5, and 6, a person gives value for rights if the person acquires them:

(1) in return for a binding commitment to extend credit or for the extension of immediately available credit, whether or not drawn upon and whether or not a charge-back is provided for in the event of difficulties in collection;

(2) as security for, or in total or partial satisfaction of, a preexisting claim;

(3) by accepting delivery under a preexisting contract for purchase; or

(4) in return for any consideration sufficient to support a simple contract.

(1) Whenever this Act requires any action to be taken within a reasonable time, any time which is not manifestly unreasonable may be fixed by agreement.

(2) What is a reasonable time for taking any action depends on the nature, purpose and circumstances of such action.

Sec. 1-205. Reasonable time; seasonableness. Course of dealing and usage of trade:
(a) Whether a time for taking an action required by the Uniform Commercial Code is reasonable depends on the nature, purpose, and circumstances of the action.
(b) An action is taken seasonably if it is taken at or within the time agreed or, if no time is agreed, at or within a reasonable time.
(1) A course of dealing is a sequence of previous conduct between the parties to a particular transaction which is fairly to be regarded as establishing a common basis of understanding for interpreting their expressions and other conduct:
(2) A usage of trade is any practice or method of dealing having such regularity of observance in a place, vocation or trade as to justify an expectation that it will be observed with respect to the transaction in question. The existence and scope of such a usage are to be proved as facts. If it is established that such a usage is embodied in a written trade code or similar writing the interpretation of the writing is for the court.
(3) A course of dealing between parties and any usage of trade in the vocation or trade in which they are engaged or of which they are or should be aware give particular meaning to and supplement or qualify terms of an agreement:
(4) The express terms of an agreement and an applicable course of dealing or usage of trade shall be construed wherever reasonable as consistent with each other; but when such construction is unreasonable express terms control both course of dealing and usage of trade and course of dealing controls usage of trade.
(5) An applicable usage of trade in the place where any part of performance is to occur shall be used in interpreting the agreement as to that part of the performance.
(6) Evidence of a relevant usage of trade offered by one party is not admissible unless and until he has given the other party such notice as the court finds sufficient to prevent unfair surprise to the latter.

(1) Except in the cases described in subsection (2) of this Section a contract for the sale of personal property is not enforceable by way of action or defense beyond $5,000 in amount or value of remedy unless there is some writing which indicates that a contract for sale has been made between the parties at a defined or stated price, reasonably identifies the subject matter, and is signed by the party against whom enforcement is sought or by his authorized agent:

PART 3

TERRITORIAL APPLICABILITY AND GENERAL RULES

(810 ILCS 5/1-301 new)

Sec. 1-301. Territorial applicability; parties' power to choose applicable law.

(a) Except as otherwise provided in this Section, when a transaction bears a reasonable relation to this State and also to another state or nation the parties may agree that the law either of this State or of such other state or nation shall govern their rights and duties.

(b) In the absence of an agreement effective under subsection (a), and except as provided in subsection (c), the Uniform Commercial Code applies to transactions bearing an appropriate relation to this State.

(c) If one of the following provisions of the Uniform Commercial Code specifies the applicable law, that provision governs and a contrary agreement is effective only to the extent permitted by the law so specified:

(1) Section 2-402;
(2) Sections 2A-105 and 2A-106;
(3) Section 4-102;
(4) Section 4A-507;
(5) Section 5-116;
(6) Section 8-110;
(7) Sections 9-301 through 9-307.

(810 ILCS 5/1-302 new)

Sec. 1-302. Variation by agreement.

(a) Except as otherwise provided in subsection (b) or elsewhere in the Uniform Commercial Code, the effect of provisions of the Uniform Commercial Code may be varied by agreement.

(b) The obligations of good faith, diligence, reasonableness, and care prescribed by the Uniform Commercial Code may not be disclaimed by agreement. The parties, by agreement, may determine the standards by
which the performance of those obligations is to be measured if those standards are not manifestly unreasonable. Whenever the Uniform Commercial Code requires an action to be taken within a reasonable time, a time that is not manifestly unreasonable may be fixed by agreement.

(c) The presence in certain provisions of the Uniform Commercial Code of the phrase "unless otherwise agreed", or words of similar import, does not imply that the effect of other provisions may not be varied by agreement under this Section.

(810 ILCS 5/1-303 new)

Sec. 1-303. Course of performance, course of dealing, and usage of trade.

(a) A "course of performance" is a sequence of conduct between the parties to a particular transaction that exists if:

(1) the agreement of the parties with respect to the transaction involves repeated occasions for performance by a party; and

(2) the other party, with knowledge of the nature of the performance and opportunity for objection to it, accepts the performance or acquiesces in it without objection.

(b) A "course of dealing" is a sequence of conduct concerning previous transactions between the parties to a particular transaction that is fairly to be regarded as establishing a common basis of understanding for interpreting their expressions and other conduct.

(c) A "usage of trade" is any practice or method of dealing having such regularity of observance in a place, vocation, or trade as to justify an expectation that it will be observed with respect to the transaction in question. The existence and scope of such a usage must be proved as facts. If it is established that such a usage is embodied in a trade code or similar record, the interpretation of the record is a question of law.

(d) A course of performance or course of dealing between the parties or usage of trade in the vocation or trade in which they are engaged or of which they are or should be aware is relevant in ascertaining the meaning of the parties' agreement, may give particular meaning to specific terms of the agreement, and may supplement or qualify the terms of the agreement. A usage of trade applicable in the place in which part of the performance under the agreement is to occur may be so utilized as to that part of the performance.

(e) Except as otherwise provided in subsection (f), the express terms of an agreement and any applicable course of performance, course

of dealing, or usage of trade must be construed whenever reasonable as consistent with each other. If such a construction is unreasonable:

(1) express terms prevail over course of performance, course of dealing, and usage of trade;

(2) course of performance prevails over course of dealing and usage of trade; and

(3) course of dealing prevails over usage of trade.

(f) Subject to Section 2-209, a course of performance is relevant to show a waiver or modification of any term inconsistent with the course of performance.

(g) Evidence of a relevant usage of trade offered by one party is not admissible unless that party has given the other party notice that the court finds sufficient to prevent unfair surprise to the other party.

Sec. 1-304. Obligation of good faith. Every contract or duty within the Uniform Commercial Code imposes an obligation of good faith in its performance and enforcement.

Sec. 1-305. Remedies to be liberally administered.

(a) The remedies provided by the Uniform Commercial Code must be liberally administered to the end that the aggrieved party may be put in as good a position as if the other party had fully performed but neither consequential or special damages nor penal damages may be had except as specifically provided in the Uniform Commercial Code or by other rule of law.

(b) Any right or obligation declared by the Uniform Commercial Code is enforceable by action unless the provision declaring it specifies a different and limited effect.

Sec. 1-306. Waiver or renunciation of claim or right after breach. A claim or right arising out of an alleged breach may be discharged in whole or in part without consideration by agreement of the aggrieved party in an authenticated record.

Sec. 1-307. Prima facie evidence by third-party documents. A document in due form purporting to be a bill of lading, policy or certificate of insurance, official weigher's or inspector's certificate, consular invoice, or any other document authorized or required by the contract to be issued by a third party is prima facie evidence of its own

authenticity and genuineness and of the facts stated in the document by the third party.

Sec. 1-308. Performance or acceptance under reservation of rights.

(a) A party that with explicit reservation of rights performs or promises performance or assents to performance in a manner demanded or offered by the other party does not thereby prejudice the rights reserved. Such words as "without prejudice", "under protest", or the like are sufficient.

(b) Subsection (a) does not apply to an accord and satisfaction.

(810 ILCS 5/1-309 new)

Sec. 1-309. Option to accelerate at will. A term providing that one party or that party's successor in interest may accelerate payment or performance or require collateral or additional collateral "at will" or when the party "deems itself insecure", or words of similar import, means that the party has power to do so only if that party in good faith believes that the prospect of payment or performance is impaired. The burden of establishing lack of good faith is on the party against which the power has been exercised.

Sec. 1-310. Subordinated obligations. An obligation may be issued as subordinated to performance of another obligation of the person obligated, or a creditor may subordinate its right to performance of an obligation by agreement with either the person obligated or another creditor of the person obligated. Subordination does not create a security interest as against either the common debtor or a subordinated creditor.

(d) Upon issuance of an electronic document of title in substitution for a tangible document of title in accordance with subsection (c):

(1) the tangible document ceases to have any effect or validity; and

(2) the person that procured issuance of the electronic document warrants to all subsequent persons entitled under the electronic document that the warrantor was a person entitled under the tangible document when the warrantor surrendered possession of the tangible document to the issuer.

The omission from either Part 2 or Part 3 of this Article of a provision corresponding to a provision made in the other Part does not imply that a corresponding rule of law is not applicable.

(a) A person has control of an electronic document of title if a system employed for evidencing the transfer of interests in the electronic document reliably establishes that person as the person to which the electronic document was issued or transferred.

(b) A system satisfies subsection (a), and a person is deemed to have control of an electronic document of title, if the document is created, stored, and assigned in such a manner that:

2. the authoritative copy identifies the person asserting control as:
   (A) the person to which the document was issued; or
   (B) if the authoritative copy indicates that the document has been transferred, the person to which the document was most recently transferred;

(1) A warehouse receipt may be issued by any warehouseman.

(2) Where goods including distilled spirits and agricultural commodities are stored under a statute requiring a bond against withdrawal or a license for the issuance of receipts in the nature of warehouse receipts, a receipt issued for the goods has like effect as a warehouse receipt even though issued by a person who is the owner of the goods and is not a warehouseman.

security interest, unless the precise amount of advances made or liabilities incurred, at the time of the issue of the receipt, is unknown to the warehouse or to its agent that issued the receipt, in which case a statement of the fact that advances have been made or liabilities incurred and the purpose of the advances or liabilities is sufficient.

(c) A warehouse may insert in its receipt any terms that are not contrary to the Uniform Commercial Code and do not impair its obligation of delivery under Section 7-403 or its duty of care under Section 7-204. Any contrary provision is ineffective.

(b) the date of issue of the receipt;
(c) the consecutive number of the receipt;
(d) a statement whether the goods received will be delivered to the bearer, to a specified person, or to a specified person or his order;
(e) the rate of storage and handling charges, except that where goods are stored under a field warehousing arrangement a statement of that fact is sufficient on a non-negotiable receipt;

Sec. 7-203. Liability for non-receipt or misdescription. A party to or purchaser for value in good faith of a document of title, other than a bill of lading, that relies upon the description of the goods in the document may recover from the issuer damages caused by the nonreceipt or misdescription of the goods, except to the extent that:

(1) the document conspicuously indicates that the issuer does not know whether all or part of the goods in fact were received or conform to the description, such as a case in which the description is in terms of marks or labels or kind, quantity, or condition, or the receipt or description is qualified by "contents, condition, and quality unknown", "said to contain", or words of similar import, if the indication is true; or

(2) the party or purchaser otherwise has notice of the nonreceipt or misdescription.

A party to or purchaser for value in good faith of a document of title other than a bill of lading relying in either case upon the description therein of the goods may recover from the issuer damages caused by the nonreceipt or misdescription of the goods, except to the extent that the document conspicuously indicates that the issuer does not know whether any part or all of the goods in fact were received or conform to the description as where the description is in terms of marks or labels or kind, quantity or condition, or the receipt or description is qualified by "contents, condition and quality unknown", "said to contain" or the like, if such indication be true, or the party or purchaser otherwise has notice:

Sec. 7-204. Duty of care; contractual limitation of warehouse's liability. Duty of care; contractual limitation of warehouseman's liability.

(a) A warehouse is liable for damages for loss of or injury to the goods caused by its failure to exercise care with regard to the goods that a reasonably careful person would exercise under similar circumstances. Unless otherwise agreed, the warehouse is not liable for damages that could not have been avoided by the exercise of that care.

(b) Damages may be limited by a term in the warehouse receipt or storage agreement limiting the amount of liability in case of loss or damage beyond which the warehouse is not liable. Such a limitation is not effective with respect to the warehouse’s liability for conversion to its own use. On request of the bailor in a record at the time of signing the storage agreement or within a reasonable time after receipt of the warehouse receipt, the warehouse’s liability may be increased on part or all of the goods covered by the storage agreement or the warehouse receipt. In this event, increased rates may be charged based on an increased valuation of the goods.

(c) Reasonable provisions as to the time and manner of presenting claims and commencing actions based on the bailment may be included in the warehouse receipt or storage agreement.

(d) (Blank).

(1) A warehouseman is liable for damages for loss of or injury to the goods caused by his failure to exercise such care in regard to them as a reasonably careful man would exercise under like circumstances but unless otherwise agreed he is not liable for damages which could not have been avoided by the exercise of such care:

(2) Damages may be limited by a term in the warehouse receipt or storage agreement limiting the amount of liability in case of loss or damage, and setting forth a specific liability per article or item, or value per unit of weight, beyond which the warehouseman shall not be liable; provided, however, that such liability may on written request of the bailor at the time of signing such storage agreement or within a reasonable time after receipt of the warehouse receipt be increased on part or all of the goods thereunder, in which event increased rates may be charged based on such increased valuation, but that no such increase shall be permitted contrary to a lawful limitation of liability contained in the warehouseman’s tariff, if any. No such limitation is effective with respect to the warehouseman’s liability for conversion to his own use:

(3) Reasonable provisions as to the time and manner of presenting claims and instituting actions based on the bailment may be included in the warehouse receipt or tariff.

Sec. 7-206. Termination of storage at warehouse's option.

Termination of storage at warehouseman's option.

(a) A warehouse, by giving notice to the person on whose account the goods are held and any other person known to claim an interest in the goods, may require payment of any charges and removal of the goods from the warehouse at the termination of the period of storage fixed by the document of title or, if a period is not fixed, within a stated period not less than 30 days after the warehouse gives notice. If the goods are not removed before the date specified in the notice, the warehouse may sell them pursuant to Section 7-210.

(b) If a warehouse in good faith believes that goods are about to deteriorate or decline in value to less than the amount of its lien within the time provided in subsection (a) and Section 7-210, the warehouse may specify in the notice given under subsection (a) any reasonable shorter time for removal of the goods and, if the goods are not removed, may sell them at public sale held not less than one week after a single advertisement or posting.

(c) If, as a result of a quality or condition of the goods of which the warehouse did not have notice at the time of deposit, the goods are a hazard to other property, the warehouse facilities, or other persons, the warehouse may sell the goods at public or private sale without advertisement or posting on reasonable notification to all persons known to claim an interest in the goods. If the warehouse, after a reasonable effort, is unable to sell the goods, it may dispose of them in any lawful manner and does not incur liability by reason of that disposition.

(d) A warehouse shall deliver the goods to any person entitled to them under this Article upon due demand made at any time before sale or other disposition under this Section.

the demand of any person to which the warehouse would have been bound to deliver the goods.

(1) A warehouseman may on notifying the person on whose account the goods are held and any other person known to claim an interest in the goods require payment of any charges and removal of the goods from the warehouse at the termination of the period of storage fixed by the document, or, if no period is fixed, within a stated period not less than 30 days after the notification. If the goods are not removed before the date specified in the notification, the warehouseman may sell them in accordance with the provisions of the Section on enforcement of a warehouseman's lien (Section 7-210).

(2) If a warehouseman in good faith believes that the goods are about to deteriorate or decline in value to less than the amount of his lien within the time prescribed in subsection (1) for notification, advertisement and sale, the warehouseman may specify in the notification any reasonable shorter time for removal of the goods and in case the goods are not removed, may sell them at public sale held not less than one week after a single advertisement or posting.

(3) If as a result of a quality or condition of the goods of which the warehouseman had no notice at the time of deposit the goods are a hazard to other property or to the warehouse or to persons, the warehouseman may sell the goods at public or private sale without advertisement on reasonable notification to all persons known to claim an interest in the goods. If the warehouseman after a reasonable effort is unable to sell the goods he may dispose of them in any lawful manner and shall incur no liability by reason of such disposition.

(4) The warehouseman must deliver the goods to any person entitled to them under this Article upon due demand made at any time prior to sale or other disposition under this Section.

(a) Unless the warehouse receipt provides otherwise, a warehouse shall keep separate the goods covered by each receipt so as to permit at
all times identification and delivery of those goods. However, different lots of fungible goods may be commingled.

(b) If different lots of fungible goods are commingled, the goods are owned in common by the persons entitled thereto and the warehouse is severally liable to each owner for that owner's share. If, because of overissue, a mass of fungible goods is insufficient to meet all the receipts the warehouse has issued against it, the persons entitled include all holders to which overissued receipts have been duly negotiated.

(1) Unless the warehouse receipt otherwise provides, a warehouseman must keep separate the goods covered by each receipt so as to permit at all times identification and delivery of those goods except that different lots of fungible goods may be commingled.

(2) Fungible goods so commingled are owned in common by the persons entitled thereto and the warehouseman is severally liable to each owner for that owner's share. Sec. 7-209. Lien of warehouse. Lien of warehouseman.

(a) A warehouse has a lien against the bailor on the goods covered by a warehouse receipt or storage agreement or on the proceeds thereof in its possession for charges for storage or transportation, including demurrage and terminal charges, insurance, labor, or other charges, present or future, in relation to the goods, and for expenses necessary for

preservation of the goods or reasonably incurred in their sale pursuant to law. If the person on whose account the goods are held is liable for similar charges or expenses in relation to other goods whenever deposited and it is stated in the warehouse receipt or storage agreement that a lien is claimed for charges and expenses in relation to other goods, the warehouse also has a lien against the goods covered by the warehouse receipt or storage agreement or on the proceeds thereof in its possession for those charges and expenses, whether or not the other goods have been delivered by the warehouse. However, as against a person to which a negotiable warehouse receipt is duly negotiated, a warehouse's lien is limited to charges in an amount or at a rate specified in the warehouse receipt or, if no charges are so specified, to a reasonable charge for storage of the specific goods covered by the receipt subsequent to the date of the receipt.

(b) A warehouse may also reserve a security interest against the bailor for the maximum amount specified on the receipt for charges other than those specified in subsection (a), such as for money advanced and interest. The security interest is governed by Article 9.

(c) A warehouse's lien for charges and expenses under subsection (a) or a security interest under subsection (b) is also effective against any person that so entrusted the bailor with possession of the goods that a pledge of them by the bailor to a good-faith purchaser for value would have been valid. However, the lien or security interest is not effective against a person that before issuance of a document of title had a legal interest or a perfected security interest in the goods and that did not:

(1) deliver or entrust the goods or any document of title covering the goods to the bailor or the bailor's nominee with:
   (A) actual or apparent authority to ship, store, or sell;
   (B) power to obtain delivery under Section 7-403; or
   (C) power of disposition under Sections 2-403, 2A-304(2), 2A-305(2), 9-320, or 9-321(c) or other statute or rule of law; or
(2) acquiesce in the procurement by the bailor or its nominee of any document.

the time of deposit. In this subsection, "household goods" means furniture, furnishings, or personal effects used by the depositor in a dwelling.

(e) A warehouse loses its lien on any goods that it voluntarily delivers or unjustifiably refuses to deliver.

(1) A warehouseman has a lien against the bailor on the goods covered by a warehouse receipt or on the proceeds thereof in his possession for charges for storage or transportation (including demurrage and terminal charges), insurance, labor, or charges present or future in relation to the goods, and for expenses necessary for preservation of the goods or reasonably incurred in their sale pursuant to law. If the person on whose account the goods are held is liable for like charges or expenses in relation to other goods whenever deposited and it is stated in the receipt that a lien is claimed for charges and expenses in relation to other goods, the warehouseman also has a lien against him for such charges and expenses whether or not the other goods have been delivered by the warehouseman. But against a person to whom a negotiable warehouse receipt is duly negotiated a warehouseman's lien is limited to charges in an amount or at a rate specified on the receipt or if no charges are so specified then to a reasonable charge for storage of the goods covered by the receipt subsequent to the date of the receipt.

(2) The warehouseman may also reserve a security interest against the bailor for a maximum amount specified on the receipt for charges other than those specified in subsection (1), such as for money advanced and interest. Such a security interest is governed by the Article on Secured Transactions (Article 9).

(3) (a) A warehouseman's lien for charges and expenses under subsection (1) or a security interest under subsection (2) is also effective against any person who so entrusted the bailor with possession of the goods that a pledge of them by him to a good faith purchaser for value would have been valid but is not effective against a person as to whom the document confers no right in the goods covered by it under Section 7-503.

(b) A warehouseman's lien on household goods for charges and expenses in relation to the goods under subsection (1) is also effective against all persons if the depositor was the legal possessor of the goods at the time of deposit. "Household goods" means furniture, furnishings and personal effects used by the depositor in a dwelling.

Sec. 7-210. Enforcement of warehouse's lien. Enforcement of warehouseman's lien:

(a) Except as otherwise provided in subsection (b), a warehouse's lien may be enforced by public or private sale of the goods, in bulk or in packages, at any time or place and on any terms that are commercially reasonable, after notifying all persons known to claim an interest in the goods. The notification must include a statement of the amount due, the nature of the proposed sale, and the time and place of any public sale. The fact that a better price could have been obtained by a sale at a different time or in a method different from that selected by the warehouse is not of itself sufficient to establish that the sale was not made in a commercially reasonable manner. The warehouse sells in a commercially reasonable manner if the warehouse sells the goods in the usual manner in any recognized market therefore, sells at the price current in that market at the time of the sale, or otherwise sells in conformity with commercially reasonable practices among dealers in the type of goods sold. A sale of more goods than apparently necessary to be offered to ensure satisfaction of the obligation is not commercially reasonable, except in cases covered by the preceding sentence.

(b) A warehouse may enforce its lien on goods, other than goods stored by a merchant in the course of its business, only if the following requirements are satisfied:

(1) All persons known to claim an interest in the goods must be notified.

(2) The notification must include an itemized statement of the claim, a description of the goods subject to the lien, a demand for payment within a specified time not less than 10 days after receipt of the notification, and a conspicuous statement that unless the claim is paid within that time the goods will be advertised for sale and sold by auction at a specified time and place.

(3) The sale must conform to the terms of the notification.

(4) The sale must be held at the nearest suitable place to where the goods are held or stored.

(5) After the expiration of the time given in the notification, an advertisement of the sale must be published once a week for two weeks consecutively in a newspaper of general circulation where the sale is to be held. The advertisement must include a description of the goods, the name of the person on whose account the goods

are being held, and the time and place of the sale. The sale must take place at least 15 days after the first publication. If there is no newspaper of general circulation where the sale is to be held, the advertisement must be posted at least 10 days before the sale in not fewer than six conspicuous places in the neighborhood of the proposed sale.

(c) Before any sale pursuant to this Section, any person claiming a right in the goods may pay the amount necessary to satisfy the lien and the reasonable expenses incurred in complying with this Section. In that event, the goods may not be sold but must be retained by the warehouse subject to the terms of the receipt and this Article.

(d) A warehouse may buy at any public sale held pursuant to this Section.

(e) A purchaser in good faith of goods sold to enforce a warehouse's lien takes the goods free of any rights of persons against which the lien was valid, despite the warehouse's noncompliance with this Section.

(f) A warehouse may satisfy its lien from the proceeds of any sale pursuant to this Section but shall hold the balance, if any, for delivery on demand to any person to which the warehouse would have been bound to deliver the goods.

(g) The rights provided by this Section are in addition to all other rights allowed by law to a creditor against a debtor.

(h) If a lien is on goods stored by a merchant in the course of its business, the lien may be enforced in accordance with subsection (a) or (b).

(i) A warehouse is liable for damages caused by failure to comply with the requirements for sale under this Section and, in case of willful violation, is liable for conversion.

(1) Except as provided in subsection (2), a warehouseman's lien may be enforced by public or private sale of the goods in block or in parcels, at any time or place and on any terms which are commercially reasonable, after notifying all persons known to claim an interest in the goods. Such notification must include a statement of the amount due, the nature of the proposed sale and the time and place of any public sale. The fact that a better price could have been obtained by a sale at a different time or in a different method from that selected by the warehouseman is not of itself sufficient to establish that the sale was not made in a commercially reasonable manner. If the warehouseman either sells the

goods in the usual manner in any recognized market therefor, or if he sells at the price current in such market at the time of his sale, or if he has otherwise sold in conformity with commercially reasonable practices among dealers in the type of goods sold, he has sold in a commercially reasonable manner. A sale of more goods than apparently necessary to be offered to insure satisfaction of the obligation is not commercially reasonable except in cases covered by the preceding sentence.

(2) A warehouseman’s lien on goods other than goods stored by a merchant in the course of his business may be enforced only as follows:

(a) All persons known to claim an interest in the goods must be notified:

(b) The notification must be delivered in person or sent by registered or certified letter to the last known address of any person to be notified:

(c) The notification must include an itemized statement of the claim, a description of the goods subject to the lien, a demand for payment within a specified time not less than 10 days after receipt of the notification, and a conspicuous statement that unless the claim is paid within that time the goods will be advertised for sale and sold by auction at a specified time and place:

(d) The sale must conform to the terms of the notification:

(e) The sale must be held at the nearest suitable place to that where the goods are held or stored:

(f) After the expiration of the time given in the notification, an advertisement of the sale must be published once a week for 2 weeks consecutively in a newspaper of general circulation where the sale is to be held. The advertisement must include a description of the goods, the name of the person on whose account they are being held, and the time and place of the sale. The sale must take place at least 15 days after the first publication. If there is no newspaper of general circulation where the sale is to be held, the advertisement must be posted at least 10 days before the sale in not less than 6 conspicuous places in the neighborhood of the proposed sale.

(3) Before any sale pursuant to this Section any person claiming a right in the goods may pay the amount necessary to satisfy the lien and the reasonable expenses incurred under this Section. In that event the goods must not be sold, but must be retained by the warehouseman subject to the terms of the receipt and this Article.

(5) A purchaser in good faith of goods sold to enforce a warehouseman's lien takes the goods free of any rights of persons against whom the lien was valid, despite noncompliance by the warehouseman with the requirements of this Section.

PART 3:

BILLS OF LADING: SPECIAL PROVISIONS

(810 ILCS 5/7-301) (from Ch. 26, par. 7-301)

Sec. 7-301. Liability for nonreceipt or misdescription; "said to contain"; "shipper's weight, load, and count"; improper handling. Liability for non-receipt or misdescription; "said to contain", "shipper's weight, load, and count", improper handling.

(a) A consignee of a nonnegotiable bill of lading which has given value in good faith, or a holder to which a negotiable bill has been duly negotiated, relying upon the description of the goods in the bill or upon the date shown in the bill, may recover from the issuer damages caused by the misdating of the bill or the nonreceipt or misdescription of the goods, except to the extent that the bill indicates that the issuer does not know whether any part or all of the goods in fact were received or conform to the description, such as in a case in which the description is in terms of marks or labels or kind, quantity, or condition or the receipt or description is qualified by "contents or condition of contents of packages unknown", "said to contain", "shipper's weight, load, and count", or words of similar import, if that indication is true.

New matter indicated by italics - deletions by strikeout.
(b) If goods are loaded by the issuer of a bill of lading:
(1) the issuer shall count the packages of goods if shipped in packages and ascertain the kind and quantity if shipped in bulk; and
(2) words such as "shipper's weight, load, and count", or words of similar import indicating that the description was made by the shipper are ineffective except as to goods concealed in packages.

(c) If bulk goods are loaded by a shipper that makes available to the issuer of a bill of lading adequate facilities for weighing those goods, the issuer shall ascertain the kind and quantity within a reasonable time after receiving the shipper's request in a record to do so. In that case, "shipper's weight" or words of similar import are ineffective.

(d) The issuer of a bill of lading, by including in the bill the words "shipper's weight, load, and count", or words of similar import, may indicate that the goods were loaded by the shipper, and, if that statement is true, the issuer is not liable for damages caused by the improper loading. However, omission of such words does not imply liability for damages caused by improper loading.

(e) A shipper guarantees to an issuer the accuracy at the time of shipment of the description, marks, labels, number, kind, quantity, condition, and weight, as furnished by the shipper, and the shipper shall indemnify the issuer against damage caused by inaccuracies in those particulars. This right of indemnity does not limit the issuer's responsibility or liability under the contract of carriage to any person other than the shipper.

(1) A consignee of a non-negotiable bill who has given value in good faith or a holder to whom a negotiable bill has been duly negotiated relying in either case upon the description therein of the goods, or upon the date therein shown, may recover from the issuer damages caused by the misdating of the bill or the non-receipt or misdescription of the goods, except to the extent that the document indicates that the issuer does not know whether any part or all of the goods in fact were received or conform to the description, as where the description is in terms of marks or labels or kind, quantity, or condition or the receipt or description is qualified by "contents or condition of contents of packages unknown", "said to contain", "shipper's weight, load and count" or the like, if such indication be true:

(2) When goods are loaded by an issuer who is a common carrier, the issuer must count the packages of goods if package freight and ascertain the kind and quantity if bulk freight. In such cases "shipper's weight, load and count" or other words indicating that the description was made by the shipper are ineffective except as to freight concealed by packages.

(3) When bulk freight is loaded by a shipper who makes available to the issuer adequate facilities for weighing such freight, an issuer who is a common carrier must ascertain the kind and quantity within a reasonable time after receiving the written request of the shipper to do so. In such cases "shipper's weight" or other words of like purport are ineffective.

(4) The issuer may by inserting in the bill the words "shipper's weight, load and count" or other words of like purport indicate that the goods were loaded by the shipper, and if such statement be true the issuer shall not be liable for damages caused by the improper loading. But their omission does not imply liability for such damages.

(5) The shipper shall be deemed to have guaranteed to the issuer the accuracy at the time of shipment of the description, number, kind, quantity, condition and weight, as furnished by him; and the shipper shall indemnify the issuer against damage caused by inaccuracies in such particulars. The right of the issuer to such indemnity shall in no way limit his responsibility and liability under the contract of carriage to any person other than the shipper.

Sec. 7-302. Through bills of lading and similar documents of title.

Through bills of lading and similar documents:

(a) The issuer of a through bill of lading, or other document of title embodying an undertaking to be performed in part by a person acting as its agent or by a performing carrier, is liable to any person entitled to recover on the bill or other document for any breach by the other person or the performing carrier of its obligation under the bill or other document. However, to the extent that the bill or other document covers an undertaking to be performed overseas or in territory not contiguous to the continental United States or an undertaking including matters other than transportation, this liability for breach by the other person or the performing carrier may be varied by agreement of the parties.

(b) If goods covered by a through bill of lading or other document of title embodying an undertaking to be performed in part by a person...
other than the issuer are received by that person, the person is subject, with respect to its own performance while the goods are in its possession, to the obligation of the issuer. The person's obligation is discharged by delivery of the goods to another person pursuant to the bill or other document and does not include liability for breach by any other person or by the issuer.

(c) The issuer of a through bill of lading or other document of title described in subsection (a) is entitled to recover from the performing carrier, or other person in possession of the goods when the breach of the obligation under the bill or other document occurred:

(1) the amount it may be required to pay to any person entitled to recover on the bill or other document for the breach, as may be evidenced by any receipt, judgment, or transcript of judgment; and

(2) the amount of any expense reasonably incurred by the issuer in defending any action commenced by any person entitled to recover on the bill or other document for the breach.

(1) The issuer of a through bill of lading or other document embodying an undertaking to be performed in part by persons acting as its agents or by connecting carriers is liable to anyone entitled to recover on the document for any breach by such other persons or by a connecting carrier of its obligation under the document but to the extent that the bill covers an undertaking to be performed overseas or in territory not contiguous to the continental United States or an undertaking including matters other than transportation this liability may be varied by agreement of the parties.

(2) Where goods covered by a through bill of lading or other document embodying an undertaking to be performed in part by persons other than the issuer are received by any such person, he is subject with respect to his own performance while the goods are in his possession to the obligation of the issuer. His obligation is discharged by delivery of the goods to another such person pursuant to the document, and does not include liability for breach by any other such persons or by the issuer.

(3) The issuer of such through bill of lading or other document shall be entitled to recover from the connecting carrier or such other person in possession of the goods when the breach of the obligation under the document occurred, the amount it may be required to pay to anyone entitled to recover on the document therefor, as may be evidenced by any receipt, judgment, or transcript thereof, and the amount of any expense

Sec. 7-303. Diversion; reconsignment; change of instructions.
(a) Unless the bill of lading otherwise provides, a carrier may deliver the goods to a person or destination other than that stated in the bill or may otherwise dispose of the goods, without liability for misdelivery, on instructions from:
   (1) the holder of a negotiable bill;
   (2) the consignor on a nonnegotiable bill, even if the consignee has given contrary instructions;
   (3) the consignee on a nonnegotiable bill in the absence of contrary instructions from the consignor, if the goods have arrived at the billed destination or if the consignee is in possession of the tangible bill or in control of the electronic bill; or
   (4) the consignee on a nonnegotiable bill, if the consignee is entitled as against the consignor to dispose of the goods.
(b) Unless instructions described in subsection (a) are included in a negotiable bill of lading, a person to which the bill is duly negotiated may hold the bailee according to the original terms.
   (1) Unless the bill of lading otherwise provides, the carrier may deliver the goods to a person or destination other than that stated in the bill or may otherwise dispose of the goods on instructions from
      (a) the holder of a negotiable bill; or
      (b) the consignor on a non-negotiable bill notwithstanding contrary instructions from the consignee; or
      (c) the consignee on a non-negotiable bill in the absence of contrary instructions from the consignor, if the goods have arrived at the billed destination or if the consignee is in possession of the bill; or
      (d) the consignee on a non-negotiable bill if he is entitled as against the consignor to dispose of them:
   (2) Unless such instructions are noted on a negotiable bill of lading, a person to whom the bill is duly negotiated can hold the bailee according to the original terms.

Sec. 7-304. Tangible bills of lading in a set. Bills of lading in a set.

New matter indicated by italics - deletions by strikeout.
(a) Except as customary in international transportation, a tangible bill of lading may not be issued in a set of parts. The issuer is liable for damages caused by violation of this subsection.

(b) If a tangible bill of lading is lawfully issued in a set of parts, each of which contains an identification code and is expressed to be valid only if the goods have not been delivered against any other part, the whole of the parts constitutes one bill.

(c) If a tangible negotiable bill of lading is lawfully issued in a set of parts and different parts are negotiated to different persons, the title of the holder to which the first due negotiation is made prevails as to both the document of title and the goods even if any later holder may have received the goods from the carrier in good faith and discharged the carrier's obligation by surrendering its part.

(d) A person that negotiates or transfers a single part of a tangible bill of lading issued in a set is liable to holders of that part as if it were the whole set.

(e) The bailee shall deliver in accordance with Part 4 against the first presented part of a tangible bill of lading lawfully issued in a set. Delivery in this manner discharges the bailee's obligation on the whole bill.

(1) Except where customary in overseas transportation, a bill of lading must not be issued in a set of parts. The issuer is liable for damages caused by violation of this subsection.

(2) Where a bill of lading is lawfully drawn in a set of parts, each of which is numbered and expressed to be valid only if the goods have not been delivered against any other part, the whole of the parts constitute one bill:

(3) Where a bill of lading is lawfully issued in a set of parts and different parts are negotiated to different persons, the title of the holder to whom the first due negotiation is made prevails as to both the document and the goods even though any later holder may have received the goods from the carrier in good faith and discharged the carrier's obligation by surrender of his part.

(4) Any person who negotiates or transfers a single part of a bill of lading drawn in a set is liable to holders of that part as if it were the whole set:

(5) The bailee is obliged to deliver in accordance with Part 4 of this Article against the first presented part of a bill of lading lawfully drawn in a set. Such delivery discharges the bailee's obligation on the whole bill.
Sec. 7-305. Destination bills.

(a) Instead of issuing a bill of lading to the consignor at the place of shipment, a carrier, at the request of the consignor, may procure the bill to be issued at destination or at any other place designated in the request.

(b) Upon request of any person entitled as against a carrier to control the goods while in transit and on surrender of possession or control of any outstanding bill of lading or other receipt covering the goods, the issuer, subject to Section 7-105, may procure a substitute bill to be issued at any place designated in the request.

(1) Instead of issuing a bill of lading to the consignor at the place of shipment a carrier may at the request of the consignor procure the bill to be issued at destination or at any other place designated in the request.

(2) Upon request of anyone entitled as against the carrier to control the goods while in transit and on surrender of any outstanding bill of lading or other receipt covering such goods, the issuer may procure a substitute bill to be issued at any place designated in the request.

Sec. 7-307. Lien of carrier.

(a) A carrier has a lien on the goods covered by a bill of lading or on the proceeds thereof in its possession for charges after the date of the carrier's receipt of the goods for storage or transportation, including demurrage and terminal charges, and for expenses necessary for preservation of the goods incident to their transportation or reasonably incurred in their sale pursuant to law. However, against a purchaser for value of a negotiable bill of lading, a carrier's lien is limited to charges stated in the bill or the applicable tariffs or, if no charges are stated, a reasonable charge.

(b) A lien for charges and expenses under subsection (a) on goods that the carrier was required by law to receive for transportation is effective against the consignor or any person entitled to the goods unless the carrier had notice that the consignor lacked authority to subject the goods to those charges and expenses. Any other lien under subsection (a) is effective against the consignor and any person that permitted the bailor to have control or possession of the goods unless the carrier had notice that the bailor lacked authority.
(c) A carrier loses its lien on any goods that it voluntarily delivers or unjustifiably refuses to deliver.

(1) A carrier has a lien on the goods covered by a bill of lading for charges subsequent to the date of its receipt of the goods for storage or transportation (including demurrage and terminal charges) and for expenses necessary for preservation of the goods incident to their transportation or reasonably incurred in their sale pursuant to law. But against a purchaser for value of a negotiable bill of lading a carrier's lien is limited to charges stated in the bill or the applicable tariffs, or if no charges are stated then to a reasonable charge.

(2) A lien for charges and expenses under subsection (1) on goods which the carrier was required by law to receive for transportation is effective against the consignor or any person entitled to the goods unless the carrier had notice that the consignor lacked authority to subject the goods to such charges and expenses. Any other lien under subsection (1) is effective against the consignor and any person who permitted the bailor to have control or possession of the goods unless the carrier had notice that the bailor lacked such authority.

(3) A carrier loses his lien on any goods which he voluntarily delivers or which he unjustifiably refuses to deliver.

(810 ILCS 5/7-308) (from Ch. 26, par. 7-308)

Sec. 7-308. Enforcement of carrier's lien.

(a) A carrier's lien on goods may be enforced by public or private sale of the goods, in bulk or in packages, at any time or place and on any terms that are commercially reasonable, after notifying all persons known to claim an interest in the goods. The notification must include a statement of the amount due, the nature of the proposed sale, and the time and place of any public sale. The fact that a better price could have been obtained by a sale at a different time or in a method different from that selected by the carrier is not of itself sufficient to establish that the sale was not made in a commercially reasonable manner. The carrier sells goods in a commercially reasonable manner if the carrier sells the goods in the usual manner in any recognized market therefor, sells at the price current in that market at the time of the sale, or otherwise sells in conformity with commercially reasonable practices among dealers in the type of goods sold. A sale of more goods than apparently necessary to be offered to ensure satisfaction of the obligation is not commercially reasonable, except in cases covered by the preceding sentence.

(b) Before any sale pursuant to this Section, any person claiming a right in the goods may pay the amount necessary to satisfy the lien and the reasonable expenses incurred in complying with this Section. In that event, the goods may not be sold but must be retained by the carrier, subject to the terms of the bill of lading and this Article.

(c) A carrier may buy at any public sale pursuant to this Section.

(d) A purchaser in good faith of goods sold to enforce a carrier's lien takes the goods free of any rights of persons against which the lien was valid, despite the carrier's noncompliance with this Section.

(e) A carrier may satisfy its lien from the proceeds of any sale pursuant to this Section but shall hold the balance, if any, for delivery on demand to any person to which the carrier would have been bound to deliver the goods.

(f) The rights provided by this Section are in addition to all other rights allowed by law to a creditor against a debtor.

(g) A carrier's lien may be enforced pursuant to either subsection (a) or the procedure set forth in Section 7-210(b).

(h) A carrier is liable for damages caused by failure to comply with the requirements for sale under this Section and, in case of willful violation, is liable for conversion.

(1) A carrier's lien may be enforced by public or private sale of the goods, in block or in parcels, at any time or place and on any terms which are commercially reasonable, after notifying all persons known to claim an interest in the goods. Such notification must include a statement of the amount due, the nature of the proposed sale and the time and place of any public sale. The fact that a better price could have been obtained by a sale at a different time or in a different method from that selected by the carrier is not of itself sufficient to establish that the sale was not made in a commercially reasonable manner. (4) A purchaser in good faith of goods sold to enforce a carrier's
lien takes the goods free of any rights of persons against whom the lien
was valid, despite noncompliance by the carrier with the requirements of
this Section:

(5) The carrier may satisfy his lien from the proceeds of any sale
pursuant to this Section but must hold the balance, if any, for delivery on
demand to any person to whom he would have been bound to deliver the
goods:

(6) The rights provided by this Section shall be in addition to all
other rights allowed by law to a creditor against his debtor:

(7) A carrier's lien may be enforced in accordance with either
subsection (1) or the procedure set forth in subsection (2) of Section 7-
210:

with the requirements for sale under this Section and in case of willful
violation is liable for conversion:

Sec. 7-309. Duty of care; contractual limitation of carrier's liability.

(a) A carrier that issues a bill of lading, whether negotiable or
nonnegotiable, shall exercise the degree of care in relation to the goods
which a reasonably careful person would exercise under similar
circumstances. This subsection does not affect any statute, regulation, or
rule of law that imposes liability upon a common carrier for damages not
caused by its negligence.

(b) Damages may be limited by a term in the bill of lading or in a
transportation agreement that the carrier's liability may not exceed a
value stated in the bill or transportation agreement if the carrier's rates
are dependent upon value and the consignor is afforded an opportunity to
declare a higher value and the consignor is advised of the opportunity.
However, such a limitation is not effective with respect to the carrier's
liability for conversion to its own use.

(c) Reasonable provisions as to the time and manner of presenting
claims and commencing actions based on the shipment may be included in
a bill of lading or a transportation agreement.

New matter indicated by italics - deletions by strikeout.
A carrier who issues a bill of lading whether negotiable or non-negotiable must exercise the degree of care in relation to the goods which a reasonably careful man would exercise under like circumstances. This subsection does not repeal or change any law or rule of law which imposes liability upon a common carrier for damages not caused by its negligence.

(2) Damages may be limited by a provision that the carrier's liability shall not exceed a value stated in the document if the carrier's rates are dependent upon value and the consignor by the carrier's tariff is afforded an opportunity to declare a higher value or a value as lawfully provided in the tariff, or where no tariff is filed he is otherwise advised of such opportunity; but no such limitation is effective with respect to the carrier's liability for conversion to its own use.

(3) Reasonable provisions as to the time and manner of presenting claims and instituting actions based on the shipment may be included in a bill of lading or tariff.

c) Unless a person claiming the goods is a person against which the document of title does not confer a right under Section 7-503(a):

(1) the person claiming under a document shall surrender possession or control of any outstanding negotiable document covering the goods for cancellation or indication of partial deliveries; and

(2) the bailee shall cancel the document or conspicuously indicate in the document the partial delivery or the bailee is liable to any person to which the document is duly negotiated.

(1) The bailee must deliver the goods to a person entitled under the document who complies with subsections (2) and (3), unless and to the extent that the bailee establishes any of the following:

(a) delivery of the goods to a person whose receipt was rightful as against the claimant;
(b) damage to or delay, loss or destruction of the goods for which the bailee is not liable;

blank or to bearer, any person may negotiate the document by delivery alone.

(2) If the document's original terms run to bearer, it is negotiated by delivery alone.

(3) If the document's original terms run to the order of a named person and it is delivered to the named person, the effect is the same as if the document had been negotiated.

(4) Negotiation of the document after it has been indorsed to a named person requires indorsement by the named person and delivery.

(5) A document is duly negotiated if it is negotiated in the manner stated in this subsection to a holder that purchases it in good faith, without notice of any defense against or claim to it on the part of any person, and for value, unless it is established that the negotiation is not in the regular course of business or financing or involves receiving the document in settlement or payment of a monetary obligation.

(b) The following rules apply to a negotiable electronic document of title:

(1) If the document's original terms run to the order of a named person or to bearer, the document is negotiated by delivery of the document to another person. Indorsement by the named person is not required to negotiate the document.

(2) If the document's original terms run to the order of a named person and the named person has control of the document, the effect is the same as if the document had been negotiated.

(3) A document is duly negotiated if it is negotiated in the manner stated in this subsection to a holder that purchases it in good faith, without notice of any defense against or claim to it on the part of any person, and for value, unless it is established that the negotiation is not in the regular course of business or financing or involves taking delivery of the document in settlement or payment of a monetary obligation.

(c) Indorsement of a nonnegotiable document of title neither makes it negotiable nor adds to the transferee's rights.

(d) The naming in a negotiable bill of lading of a person to be notified of the arrival of the goods does not limit the negotiability of the bill or constitute notice to a purchaser of the bill of any interest of that person in the goods.
(1) A negotiable document of title running to the order of a named person is negotiated by his indorsement and delivery. After his indorsement in blank or to bearer any person can negotiate it by delivery alone:

(2) (a) A negotiable document of title is also negotiated by delivery alone when by its original terms it runs to bearer;
(b) when a document running to the order of a named person is delivered to him the effect is the same as if the document had been negotiated:

(3) Negotiation of a negotiable document of title after it has been indorsed to a specified person requires indorsement by the special indorsee as well as delivery:

(4) A negotiable document of title is “duly negotiated” when it is negotiated in the manner stated in this Section to a holder who purchases it in good faith without notice of any defense against or claim to it on the part of any person and for value, unless it is established that the negotiation is not in the regular course of business or financing or involves receiving the document in settlement or payment of a money obligation:

(5) Indorsement of a non-negotiable document neither makes it negotiable nor adds to the transferee's rights:

(6) The naming in a negotiable bill of a person to be notified of the arrival of the goods does not limit the negotiability of the bill nor constitute notice to a purchaser thereof of any interest of such person in the goods.

(2) title to the goods;

the delivery order and the obligation acquired by the holder is that
the issuer and any indorser will procure the acceptance of the

(b) Subject to Section 7-503, title and rights acquired by due
negotiation are not defeated by any stoppage of the goods represented by
the document of title or by surrender of the goods by the bailee and are
not impaired even if:

(1) the due negotiation or any prior due negotiation
constituted a breach of duty;

(2) any person has been deprived of possession of a

document by misrepresentation, fraud, accident, mistake, duress,
loss, theft, or conversion; or

(1) Subject to the following section and to the provisions of
Section 7-205 on fungible goods, a holder to whom a negotiable
document of title has been duly negotiated acquires thereby:

(a) title to the document;

(b) title to the goods;

(c) all rights accruing under the law of agency or estoppel,
including rights to goods delivered to the bailee after the document was
issued; and

(d) the direct obligation of the issuer to hold or deliver the goods
according to the terms of the document free of any defense or claim by
him except those arising under the terms of the document or under this
Article. In the case of a delivery order the bailee's obligation accrues only
upon acceptance and the obligation acquired by the holder is that the issuer
and any indorser will procure the acceptance of the bailee:

(2) Subject to the following section, title and rights so acquired are
not defeated by any stoppage of the goods represented by the document or
by surrender of such goods by the bailee, and are not impaired even though
the negotiation or any prior negotiation constituted a breach of duty or
even though any person has been deprived of possession of the document
by misrepresentation, fraud, accident, mistake, duress, loss, theft or
conversion, or even though a previous sale or other transfer of the goods or
document has been made to a third person.

(a) A transferee of a document of title, whether negotiable or nonnegotiable, to which the document has been delivered but not duly negotiated, acquires the title and rights that its transferor had or had actual authority to convey.

(b) In the case of a transfer of a nonnegotiable document of title, until but not after the bailee receives notice of the transfer, the rights of the transferee may be defeated:

(1) by those creditors of the transferor which could treat the transfer as void under Section 2-402 or 2A-308;

(2) by a buyer from the transferor in ordinary course of business if the bailee has delivered the goods to the buyer or received notification of the buyer's rights;

(3) by a lessee from the transferor in ordinary course of business if the bailee has delivered the goods to the lessee or received notification of the lessee's rights; or

(4) as against the bailee, by good-faith dealings of the bailee with the transferor.

(c) A diversion or other change of shipping instructions by the consignor in a nonnegotiable bill of lading which causes the bailee not to deliver the goods to the consignee defeats the consignee's title to the goods if the goods have been delivered to a buyer in ordinary course of business or a lessee in ordinary course of business and, in any event, defeats the consignee's rights against the bailee.

(d) Delivery of the goods pursuant to a nonnegotiable document of title may be stopped by a seller under Section 2-705 or a lessor under Section 2A-526, subject to the requirements of due notification in those Sections. A bailee that honors the seller's or lessor's instructions is

(c) as against the bailee by good faith dealings of the bailee with the transferee.

(3) A diversion or other change of shipping instructions by the consignor in a non-negotiable bill of lading which causes the bailee not to deliver to the consignee defeats the consignee's title to the goods if they have been delivered to a buyer in ordinary course of business and in any event defeats the consignee's rights against the bailee.

(4) Delivery pursuant to a non-negotiable document may be stopped by a seller under Section 2–705, and subject to the requirement of due notification there provided. A bailee honoring the seller's instructions is entitled to be indemnified by the seller against any resulting loss or expense.

(3) "Drawer" means a person who signs or is identified in a draft as a person ordering payment.

(4) "Good faith" means honesty in fact and the observance of reasonable commercial standards of fair dealing.

(5) "Maker" means a person who signs or is identified in a note as a person undertaking to pay.

(6) "Order" means a written instruction to pay money signed by the person giving the instruction. The instruction may be addressed to any person, including the person giving the instruction, or to one or more persons jointly or in the alternative but not in succession. An authorization to pay is not an order unless the person authorized to pay is also instructed to pay.

(7) "Ordinary care" in the case of a person engaged in business means observance of reasonable commercial standards,
prevailing in the area in which the person is located with respect to
the business in which the person is engaged. In the case of a bank
that takes an instrument for processing for collection or payment by
automated means, reasonable commercial standards do not require
the bank to examine the instrument if the failure to examine does
not violate the bank's prescribed procedures and the bank's
procedures do not vary unreasonably from general banking usage
not disapproved by this Article or Article 4.

(8) "Party" means a party to an instrument.

(9) "Promise" means a written undertaking to pay money
signed by the person undertaking to pay. An acknowledgment of an
obligation by the obligor is not a promise unless the obligor also
undertakes to pay the obligation.

(10) "Prove" with respect to a fact means to meet the
burden of establishing the fact (Section 1-201(b)(8)).

(11) "Remitter" means a person that purchases an
instrument from its issuer if the instrument is payable to an
identified person other than the purchaser.

Sec. 4A-106. Time payment order is received.
(a) The time of receipt of a payment order or communication cancelling or amending a payment order is determined by the rules applicable to receipt of a notice stated in Section 1-202. A receiving bank may fix a cut-off time or times on a funds transfer business day for the receipt and processing of payment orders and communications cancelling or amending payment orders. Different cut-off times may apply to payment orders, cancellations, or amendments, or to different categories of payment orders, cancellations, or amendments. A cut-off time may apply to senders generally or different cut-off times may apply to different senders or categories of payment orders. If a payment order or communication cancelling or amending a payment order is received after the close of a funds transfer business day or after the appropriate cut-off time on a funds transfer business day, the receiving bank may treat the payment order or communication as received at the opening of the next funds transfer business day.

(b) If this Article refers to an execution date or payment date or states a day on which a receiving bank is required to take action, and the date or day does not fall on a funds transfer business day, the next day that is a funds transfer business day is treated as the date or day stated, unless the contrary is stated in this Article.

New matter indicated by italics - deletions by strikeout.
(a) If a receiving bank accepts a payment order issued in the name of its customer as sender which is (i) not authorized and not effective as the order of the customer under Section 4A-202, or (ii) not enforceable, in whole or in part, against the customer under Section 4A-203, the bank shall refund any payment of the payment order received from the customer to the extent the bank is not entitled to enforce payment and shall pay interest on the refundable amount calculated from the date the bank received payment to the date of the refund. However, the customer is not entitled to interest from the bank on the amount to be refunded if the customer fails to exercise ordinary care to determine that the order was not authorized by the customer and to notify the bank of the relevant facts within a reasonable time not exceeding 90 days after the date the customer received notification from the bank that the order was accepted or that the customer's account was debited with respect to the order. The bank is not entitled to any recovery from the customer on account of a failure by the customer to give notification as stated in this Section.

(b) Reasonable time under subsection (a) may be fixed by agreement as stated in Section 1-302(b) +204(1), but the obligation of a receiving bank to refund payment as stated in subsection (a) may not otherwise be varied by agreement.

(1) "Merchant" means a person who deals in goods of the kind or otherwise by his occupation holds himself out as having knowledge or skill peculiar to the practices or goods involved in the transaction or to whom such knowledge or skill may be attributed by his employment of an agent or broker or other intermediary who by his occupation holds himself out as having such knowledge or skill.

(2) "Financing agency" means a bank, finance company or other person who in the ordinary course of business makes advances against goods or documents of title or who by arrangement with either the seller or the buyer intervenes in ordinary course to make or collect payment due or claimed under the contract for sale, as by purchasing or paying the seller's draft or making advances against it or by merely taking it for collection whether or not documents of title accompany or are associated with the draft. "Financing agency" includes also a bank or other person who similarly intervenes between persons who are in the position of seller and buyer in respect to the goods (Section 2--707).

Sec. 2-310. Open time for payment or running of credit authority to ship under reservation.

Unless otherwise agreed

(a) payment is due at the time and place at which the buyer is to receive the goods even though the place of shipment is the place of delivery; and

(b) if the seller is authorized to send the goods he may ship them under reservation, and may tender the documents of title, but the buyer may inspect the goods after their arrival before payment is due unless such inspection is inconsistent with the terms of the contract (Section 2--513); and

(c) if delivery is authorized and made by way of documents of title otherwise than by subsection (b) then payment is due *regardless of where the goods are to be received* (i) at the time and place at which the buyer is to receive delivery of the tangible documents or (ii) at the time the buyer is to receive delivery of the electronic documents and at the seller's place of business or if none, the seller's residence regardless of where the goods are to be received; and

(d) where the seller is required or authorized to ship the goods on credit the credit period runs from the time of shipment but post-dating the invoice or delaying its dispatch will correspondingly delay the starting of the credit period.

(810 ILCS 5/2-323) (from Ch. 26, par. 2-323)

Sec. 2-323. Form of bill of lading required in overseas shipment; "overseas."

(1) Where the contract contemplates overseas shipment and contains a term C.I.F. or C. & F. or F.O.B. vessel, the seller unless otherwise agreed must obtain a negotiable bill of lading stating that the goods have been loaded on board or, in the case of a term C.I.F. or C. & F., received for shipment.

(2) Where in a case within subsection (1) a *tangible* bill of lading has been issued in a set of parts, unless otherwise agreed if the documents are not to be sent from abroad the buyer may demand tender of the full set;

New matter indicated by italics - deletions by strikeout.
otherwise only one part of the bill of lading need be tendered. Even if the agreement expressly requires a full set

(a) due tender of a single part is acceptable within the provisions of this Article on cure of improper delivery (subsection (1) of Section 2-508; and

(b) even though the full set is demanded, if the documents are sent from abroad the person tendering an incomplete set may nevertheless require payment upon furnishing an indemnity which the buyer in good faith deems adequate.

(3) A shipment by water or by air or a contract contemplating such shipment is "over seas" insofar as by usage of trade or agreement it is subject to the commercial, financing or shipping practices characteristic of international deep water commerce.

(810 ILCS 5/2-401) (from Ch. 26, par. 2-401)

Sec. 2-401. Passing of title; reservation for security; limited application of this section.

Each provision of this Article with regard to the rights, obligations and remedies of the seller, the buyer, purchasers or other third parties applies irrespective of title to the goods except where the provision refers to such title. Insofar as situations are not covered by the other provisions of this Article and matters concerning title become material the following rules apply:

(1) Title to goods cannot pass under a contract for sale prior to their identification to the contract (Section 2--501), and unless otherwise explicitly agreed the buyer acquires by their identification a special property as limited by this Act. Any retention or reservation by the seller of the title (property) in goods shipped or delivered to the buyer is limited in effect to a reservation of a security interest. Subject to these provisions and to the provisions of the Article on Secured Transactions (Article 9), title to goods passes from the seller to the buyer in any manner and on any conditions explicitly agreed on by the parties.

(2) Unless otherwise explicitly agreed title passes to the buyer at the time and place at which the seller completes his performance with reference to the physical delivery of the goods, despite any reservation of a security interest and even though a document of title is to be delivered at a different time or place; and in particular and despite any reservation of a security interest by the bill of lading

New matter indicated by italics - deletions by strikeout.
(a) if the contract requires or authorizes the seller to send the goods to the buyer but does not require him to deliver them at destination, title passes to the buyer at the time and place of shipment; and

(b) if the contract requires delivery at destination, title passes on tender there.

(3) Unless otherwise explicitly agreed where delivery is to be made without moving the goods,

(a) if the seller is to deliver a tangible document of title, title passes at the time when and the place where he delivers such documents and if the seller is to deliver an electronic document of title, title passes when the seller delivers the document; or

(b) if the goods are at the time of contracting already identified and no documents of title are to be delivered, title passes at the time and place of contracting.

(4) A rejection or other refusal by the buyer to receive or retain the goods, whether or not justified, or a justified revocation of acceptance revests title to the goods in the seller. Such revesting occurs by operation of law and is not a "sale".

(Source: Laws 1961, p. 2101.)

(810 ILCS 5/2-503) (from Ch. 26, par. 2-503)

Sec. 2-503. Manner of seller's tender of delivery.

(1) Tender of delivery requires that the seller put and hold conforming goods at the buyer's disposition and give the buyer any notification reasonably necessary to enable him to take delivery. The manner, time and place for tender are determined by the agreement and this Article, and in particular

(a) tender must be at a reasonable hour, and if it is of goods they must be kept available for the period reasonably necessary to enable the buyer to take possession; but

(b) unless otherwise agreed the buyer must furnish facilities reasonably suited to the receipt of the goods.

(2) Where the case is within the next section respecting shipment tender requires that the seller comply with its provisions.

(3) Where the seller is required to deliver at a particular destination tender requires that he comply with subsection (1) and also in any appropriate case tender documents as described in subsections (4) and (5) of this Section.

(4) Where goods are in the possession of a bailee and are to be delivered without being moved

New matter indicated by italics - deletions by strikeout.
(a) tender requires that the seller either tender a negotiable
document of title covering such goods or procure acknowledgment by the
bailee of the buyer's right to possession of the goods; but
(b) tender to the buyer of a non-negotiable document of title or of a
record directing written direction to the bailee to deliver is sufficient
tender unless the buyer seasonably objects, and except as otherwise
provided in Article 9 receipt by the bailee of notification of the buyer's
rights fixes those rights as against the bailee and all third persons; but risk
of loss of the goods and of any failure by the bailee to honor the non-
negotiable document of title or to obey the direction remains on the seller
until the buyer has had a reasonable time to present the document or
direction, and a refusal by the bailee to honor the document or to obey the
direction defeats the tender.

(5) Where the contract requires the seller to deliver documents
(a) he must tender all such documents in correct form, except as
provided in this Article with respect to bills of lading in a set (subsection
(2) of Section 2--323; and
(b) tender through customary banking channels is sufficient and
dishonor of a draft accompanying or associated with the documents
constitutes non-acceptance or rejection.

(810 ILCS 5/2-505) (from Ch. 26, par. 2-505)
Sec. 2-505. Seller's shipment under reservation.
(1) Where the seller has identified goods to the contract by or
before shipment:
(a) his procurement of a negotiable bill of lading to his own order
or otherwise reserves in him a security interest in the goods. His
procurement of the bill to the order of a financing agency or of the buyer
indicates in addition only the seller's expectation of transferring that
interest to the person named.
(b) a non-negotiable bill of lading to himself or his nominee
reserves possession of the goods as security but except in a case of
conditional delivery (subsection (2) of Section 2--507 a non-negotiable bill
of lading naming the buyer as consignee reserves no security interest even
though the seller retains possession or control of the bill of lading.
(2) When shipment by the seller with reservation of a security
interest is in violation of the contract for sale it constitutes an improper
contract for transportation within the preceding section but impairs neither
the rights given to the buyer by shipment and identification of the goods to
the contract nor the seller's powers as a holder of a negotiable document of title.

Sec. 2-506. Rights of financing agency.
(1) A financing agency by paying or purchasing for value a draft which relates to a shipment of goods acquires to the extent of the payment or purchase and in addition to its own rights under the draft and any document of title securing it any rights of the shipper in the goods including the right to stop delivery and the shipper's right to have the draft honored by the buyer.

(2) The right to reimbursement of a financing agency which has in good faith honored or purchased the draft under commitment to or authority from the buyer is not impaired by subsequent discovery of defects with reference to any relevant document which was apparently regular on its face.

(810 ILCS 5/2-509) (from Ch. 26, par. 2-509)
Sec. 2-509. Risk of loss in the absence of breach.
(1) Where the contract requires or authorizes the seller to ship the goods by carrier
   (a) if it does not require him to deliver them at a particular destination, the risk of loss passes to the buyer when the goods are duly delivered to the carrier even though the shipment is under reservation (Section 2--505); but
      (b) if it does require him to deliver them at a particular destination and the goods are there duly tendered while in the possession of the carrier, the risk of loss passes to the buyer when the goods are there duly so tendered as to enable the buyer to take delivery.
   (2) Where the goods are held by a bailee to be delivered without being moved, the risk of loss passes to the buyer
      (a) on his receipt of possession or control of a negotiable document of title covering the goods; or
      (b) on acknowledgment by the bailee of the buyer's right to possession of the goods; or
      (c) after his receipt of possession or control of a non-negotiable document of title or other written direction to deliver in a record, as provided in subsection (4) (b) of Section 2--503.

New matter indicated by italics - deletions by strikeout.
(3) In any case not within subsection (1) or (2), the risk of loss passes to the buyer on his receipt of the goods if the seller is a merchant; otherwise the risk passes to the buyer on tender of delivery.

(4) The provisions of this Section are subject to contrary agreement of the parties and to the provisions of this Article on sale on approval (Section 2--327) and on effect of breach on risk of loss (Section 2--510).

(a) where the seller could have cured it if stated seasonably; or
(b) between merchants when the seller has after rejection made a request in writing for a full and final written statement of all defects on which the buyer proposes to rely.

(2) Payment against documents made without reservation of rights precludes recovery of the payment for defects apparent in the face of the documents.

(810 ILCS 5/2-705) (from Ch. 26, par. 2-705)

Sec. 2-705. Seller's stoppage of delivery in transit or otherwise.

(1) The seller may stop delivery of goods in the possession of a carrier or other bailee when he discovers the buyer to be insolvent (Section 2-702) and may stop delivery of carload, truckload, planeload or larger shipments of express or freight when the buyer repudiates or fails to make a payment due before delivery or if for any other reason the seller has a right to withhold or reclaim the goods.

(2) As against such buyer the seller may stop delivery until

(a) receipt of the goods by the buyer; or
(b) acknowledgment to the buyer by any bailee of the goods except a carrier that the bailee holds the goods for the buyer; or
(c) such acknowledgment to the buyer by a carrier by reshipment or as a warehouse warehouseman; or
(d) negotiation to the buyer of any negotiable document of title covering the goods.

(3) (a) To stop delivery the seller must so notify as to enable the bailee by reasonable diligence to prevent delivery of the goods.

New matter indicated by italics - deletions by strikeout.
(b) After such notification the bailee must hold and deliver the goods according to the directions of the seller but the seller is liable to the bailee for any ensuing charges or damages.

(c) If a negotiable document of title has been issued for goods the bailee is not obliged to obey a notification to stop until surrender of possession or control of the document.

(d) A carrier who has issued a non-negotiable bill of lading is not obliged to obey a notification to stop received from a person other than the consignor.

Sec. 2A-103. Definitions and index of definitions.
(1) In this Article unless the context otherwise requires:
   (a) "Buyer in ordinary course of business" means a person who, in good faith and without knowledge that the sale to him or her is in violation of the ownership rights or security interest or leasehold interest of a third party in the goods, buys in ordinary course from a person in the business of selling goods of that kind but does not include a pawnbroker. "Buying" may be for cash or by exchange of other property or on secured or unsecured credit and includes acquiring or receiving goods or documents of title under a pre-existing contract for sale but does not include a transfer in bulk or as security for or in total or partial satisfaction of a money debt.
   (b) "Cancellation" occurs when either party puts an end to the lease contract for default by the other party.
   (c) "Commercial unit" means such a unit of goods as by commercial usage is a single whole for purposes of lease and division of which materially impairs its character or value on the market or in use. (a) A collecting bank has a security interest in an item and any accompanying documents or the proceeds of either:

1. in case of an item deposited in an account, to the extent to which credit given for the item has been withdrawn or applied;

(2) the person takes possession of the collateral after having authenticated a record acknowledging that it will hold possession of collateral for the secured party's benefit.

(d) Time of perfection by possession; continuation of perfection. If perfection of a security interest depends upon possession of the collateral by a secured party, perfection occurs no earlier than the time the secured party takes possession and continues only while the secured party retains possession.

(e) Time of perfection by delivery; continuation of perfection. A security interest in a certificated security in registered form is perfected by delivery when delivery of the certificated security occurs under Section 8-301 and remains perfected by delivery until the debtor obtains possession of the security certificate.

(f) Acknowledgment not required. A person in possession of collateral is not required to acknowledge that it holds possession for a secured party's benefit.

(g) Effectiveness of acknowledgment; no duties or confirmation. If a person acknowledges that it holds possession for the secured party's benefit:

(1) the acknowledgment is effective under subsection (c) or Section 8-301(a), even if the acknowledgment violates the rights of a debtor; and

(2) unless the person otherwise agrees or law other than this Article otherwise provides, the person does not owe any duty to the secured party and is not required to confirm the acknowledgment to another person.

(h) Secured party's delivery to person other than debtor. A secured party having possession of collateral does not relinquish possession by
delivering the collateral to a person other than the debtor or a lessee of the collateral from the debtor in the ordinary course of the debtor's business if the person was instructed before the delivery or is instructed contemporaneously with the delivery:

(1) to hold possession of the collateral for the secured party's benefit; or
(2) to redeliver the collateral to the secured party.

(i) Effect of delivery under subsection (h); no duties or confirmation. A secured party does not relinquish possession, even if a delivery under subsection (h) violates the rights of a debtor. A person to which collateral is delivered under subsection (h) does not owe any duty to the secured party and is not required to confirm the delivery to another person unless the person otherwise agrees or law other than this Article otherwise provides.

If a security interest or agricultural lien is perfected by a filed financing statement providing information described in Section 9-516(b)(5) which is incorrect at the time the financing statement is filed:

(1) the security interest or agricultural lien is subordinate to a conflicting perfected security interest in the collateral to the extent that the holder of the conflicting security interest gives value in reasonable reliance upon the incorrect information; and

(2) a purchaser, other than a secured party, of the collateral takes free of the security interest or agricultural lien to the extent that, in reasonable reliance upon the incorrect information, the purchaser gives value and, in the case of tangible chattel paper, tangible documents, goods, instruments, or a security certificate, receives delivery of the collateral.

Section 5. The Department of Public Health Powers and Duties Law of the Civil Administrative Code of Illinois is amended by adding Section 2310-76 as follows:

New matter indicated by italics - deletions by strikeout.
(20 ILCS 2310/2310-76 new)

Sec. 2310-76. Chronic Disease Prevention and Health Promotion Task Force.

(a) In Illinois, as well as in other parts of the United States, chronic diseases are a significant health and economic problem for our citizens and State government. Chronic diseases such as cancer, diabetes, cardiovascular disease, and arthritis are largely preventable non-communicable conditions associated with risk factors such as poor nutrition, physical inactivity, tobacco or alcohol abuse, as well as other social determinants of chronic illness. It is fully documented by national and State data that significant disparity exists between racial, ethnic, and socioeconomic groups and that the incidence and impact of many of these conditions disproportionately affect these populations.

Chronic diseases can take away a person's quality of life or his or her ability to work. The Centers for Disease Control and Prevention reports that 7 out of 10 Americans who die each year, or more than 1.7 million people, die of a chronic disease. In Illinois, studies have indicated that during the study period the State has spent more than $12.5 billion in health care dollars to treat chronic diseases in our State. The financial burden for Illinois from the impact of lost work days and lower employee productivity during the same time period related to chronic diseases resulted in an annual economic loss of $43.6 billion. These same studies have concluded that improvements in preventing and managing chronic diseases could drastically reduce future costs associated with chronic disease in Illinois and that the most effective way to trim healthcare spending in Illinois and across the U.S. is to take measures aimed at preventing diseases before we have to treat them. Furthermore, by addressing health disparities and by targeting chronic disease prevention and health promotion services toward the highest risk groups, especially in communities where racial, ethnic, and socioeconomic factors indicate high rates of these diseases, the goals of improving the overall health status for all Illinois residents can be achieved. Health promotion and prevention programs and activities are scattered throughout a number of State agencies with various streams of funding and little coordination. While the State has been looking at making significant changes to healthcare coverage for a portion of the population, in order to have the most effective impact, any changes to the healthcare delivery system in Illinois should take into consideration and integrate the role of prevention and health promotion in that system.

(b) Subject to appropriation, within 6 months after the effective date of this amendatory Act of the 95th General Assembly, a Task Force on Chronic Disease Prevention and Health Promotion shall be convened to study and make recommendations regarding the structure of the chronic disease prevention and health promotion system in Illinois, as well as changes that should be made to the system in order to integrate and coordinate efforts in the State and ensure continuity and consistency of purpose and the elimination of disparity in the delivery of this care in Illinois.

(c) The Department of Public Health shall have primary responsibility for, and shall provide staffing and technical and administrative support for the Task Force in its efforts. The other State agencies represented on the Task Force shall work cooperatively with the Department of Public Health to provide administrative and technical support to the Task Force in its efforts. Membership of the Task Force shall consist of 18 members as follows: the Director of Public Health, who shall serve as Chair; the Secretary of Human Services or his or her designee; the Director of Aging or his or her designee; the Director of Healthcare and Family Services or his designee; 4 members of the General Assembly, one from the State Senate appointed by the President of the Senate, one from the State Senate appointed by the Minority Leader of the Senate, one from the House of Representatives appointed by the Speaker of the House, and one from the House of Representatives appointed by the Minority Leader of the House; and 10 members appointed by the Director of Public Health and who shall be representative of State associations and advocacy organizations with a primary focus that includes chronic disease prevention, public health delivery, medicine, health care and disease management, or community health.

(d) The Task Force shall seek input from interested parties and shall hold a minimum of 3 public hearings across the State, including one in northern Illinois, one in central Illinois, and one in southern Illinois.

(e) On or before July 1, 2010, the Task Force shall, at a minimum, make recommendations to the Director of Public Health on the following: reforming the delivery system for chronic disease prevention and health promotion in Illinois; ensuring adequate funding for infrastructure and delivery of programs; addressing health disparity; and the role of health promotion and chronic disease prevention in support of State spending on health care.

(7) If desired, a request that the referendum at which the proposition is submitted for the purpose of voting for or against the establishment of a unit district (other than a partial elementary unit district) include as part of the proposition the election of board members by school board district rather than at large. However, if the petition is submitted for the purpose of voting for or against the establishment of an optional elementary unit district, the petition may request only that the referendum at which the proposition is submitted include a proposition on a separate ballot authorizing the issuance of bonds for high school purposes (and not elementary purposes) by the district when organized in accordance with this Article. The principal amount of the bonds and the purposes of issuance, including a specification of elementary or high school purposes if the proposed issuance is to be made by a combined high school - unit district, shall be stated in the petition and in all notices and propositions submitted thereunder. (10) A designation of a committee of ten of the petitioners as attorney in fact for all petitioners, any 7 of whom may at any time, prior to the final decision of the regional superintendent of schools, amend the petition in all respects (except that, for a unit
district formation, there may not be an increase or decrease of more than 25% of the territory to be included in the proposed district) and make binding stipulations on behalf of all petitioners as to any question with respect to the petition, including the power to stipulate to accountings or the waiver thereof between school districts.

(3) Except as stated in item (10) of subsection (b) of this Section, the Committee of Ten shall act by majority vote of the membership.

(b) In the case of an optional elementary unit district to be created as provided in subsection (c) of Section 11E-30 of this Code, if a majority of the electors voting in the high school district and a majority of the voters voting in at least one affected elementary district vote in favor of the proposition submitted to them, then the proposition shall be deemed to

(a)(1) For a combined school district, as defined in Section 11E-20 of this Code, or for a unit district, as defined in Section 11E-25 of this Code, for its first year of existence, the general State aid and supplemental general State aid calculated under Section 18-8.05 of this Code shall be computed for the new district and for the previously existing districts for which property is totally included within the new district. If the computation on the basis of the previously existing districts is greater, a supplementary payment equal to the difference shall be made for the first 4 years of existence of the new district.

(2) For a school district that annexes all of the territory of one or more entire other school districts as defined in Article 7 of this Code, for the first year during which the change of boundaries attributable to the annexation becomes effective for all purposes, as determined under Section 7-9 of this Code, the general State aid and supplemental general State aid calculated under Section 18-8.05 of this Code shall be computed for the annexing district as constituted after the annexation and for the annexing and each annexed district as constituted prior to the annexation; and if the computation on the basis of the annexing and annexed districts as constituted prior to the annexation is greater, then a supplementary payment equal to the difference shall be made for the first 4 years of existence of the annexing school district as constituted upon the annexation.

(3) For 2 or more school districts that annex all of the territory of one or more entire other school districts, as defined in Article 7 of this Code, for the first year during which the change of boundaries attributable to the annexation becomes effective for all purposes, as determined under Section 7-9 of this Code, the general State aid and supplemental general State aid calculated under Section 18-8.05 of this Code shall be computed for each annexing district as constituted after the annexation and for each annexing and annexed district as constituted prior to the annexation; and if the aggregate of the general State aid and supplemental general State aid as so computed for the annexing districts as constituted after the annexation is less than the aggregate of the general State aid and supplemental general State aid as
State aid as so computed for the annexing and annexed districts, as constituted prior to the annexation, then a supplementary payment equal to the difference shall be made and allocated between or among the annexing districts, as constituted upon the annexation, for the first 4 years of their existence. The total difference payment shall be allocated between or among the annexing districts in the same ratio as the pupil enrollment from that portion of the annexed district or districts that is annexed to each annexing district bears to the total pupil enrollment from the entire annexed district or districts, as such pupil enrollment is determined for the school year last ending prior to the date when the change of boundaries attributable to the annexation becomes effective for all purposes. The amount of the total difference payment and the amount thereof to be allocated to the annexing districts shall be computed by the State Board of Education on the basis of pupil enrollment and other data that shall be certified to the State Board of Education, on forms that it shall provide for that purpose, by the regional superintendent of schools for each educational service region in which the annexing and annexed districts are located.

(4) For a school district conversion, as defined in Section 11E-15 of this Code, or a multi-unit conversion, as defined in subsection (b) of Section 11E-30 of this Code, if in their first year of existence the newly created elementary districts and the newly created high school district, from a school district conversion, or the newly created elementary district or districts and newly created combined high school - unit district, from a multi-unit conversion, qualify for less general State aid under Section 18-8.05 of this Code than would have been payable under Section 18-8.05 for that same year to the previously existing districts, then a supplementary payment equal to that difference shall be made for the first 4 years of existence of the newly created districts. The aggregate amount of each supplementary payment shall be allocated among the newly created districts in the proportion that the deemed pupil enrollment in each district during its first year of existence bears to the actual aggregate pupil enrollment in all of the districts during their first year of existence. For purposes of each allocation:

(A) the deemed pupil enrollment of the newly created high school district from a school district conversion shall be an amount equal to its actual pupil enrollment for its first year of existence multiplied by 1.25;

New matter indicated by italics - deletions by strikeout.
(B) the deemed pupil enrollment of each newly created elementary district from a school district conversion shall be an amount equal to its actual pupil enrollment for its first year of existence reduced by an amount equal to the product obtained when the amount by which the newly created high school district's deemed pupil enrollment exceeds its actual pupil enrollment for its first year of existence is multiplied by a fraction, the numerator of which is the actual pupil enrollment of the newly created elementary district for its first year of existence and the denominator of which is the actual aggregate pupil enrollment of all of the newly created elementary districts for their first year of existence;

(C) the deemed high school pupil enrollment of the newly created combined high school - unit district from a multi-unit conversion shall be an amount equal to its actual grades 9 through 12 pupil enrollment for its first year of existence multiplied by 1.25; and

(D) the deemed elementary pupil enrollment of each newly created district from a multi-unit conversion shall be an amount equal to each district's actual grade K through 8 pupil enrollment for its first year of existence, reduced by an amount equal to the product obtained when the amount by which the newly created combined high school - unit district's deemed high school pupil enrollment exceeds its actual grade 9 through 12 pupil enrollment for its first year of existence is multiplied by a fraction, the numerator of which is the actual grade K through 8 pupil enrollment of each newly created district for its first year of existence and the denominator of which is the actual aggregate grade K through 8 pupil enrollment of all such newly created districts for their first year of existence.

The aggregate amount of each supplementary payment under this subdivision (4) and the amount thereof to be allocated to the newly created districts shall be computed by the State Board of Education on the basis of pupil enrollment and other data, which shall be certified to the State Board of Education, on forms that it shall provide for that purpose, by the regional superintendent of schools for each educational service region in which the newly created districts are located.

(5) For a partial elementary unit district, as defined in subsection (a) or (c) of Section 11E-30 of this Code, if, in the first year of existence,

the newly created partial elementary unit district qualifies for less general State aid and supplemental general State aid under Section 18-8.05 of this Code than would have been payable under that Section for that same year to the previously existing districts that formed the partial elementary unit district, then a supplementary payment equal to that difference shall be made to the partial elementary unit district for the first 4 years of existence of that newly created district.

(6) For an elementary opt-in, as described in subsection (d) of Section 11E-30 of this Code, the general State aid difference shall be computed in accordance with paragraph (5) of this subsection (a) as if the elementary opt-in was included in an optional elementary unit district at the optional elementary unit district's original effective date. If the calculation in this paragraph (6) is less than that calculated in paragraph (5) of this subsection (a) at the optional elementary unit district's original effective date, then no adjustments may be made. If the calculation in this paragraph (6) is more than that calculated in paragraph (5) of this subsection (a) at the optional elementary unit district's original effective date, then the excess must be paid as follows:

(A) If the effective date for the elementary opt-in is one year after the effective date for the optional elementary unit district, 100% of the calculated excess shall be paid to the optional elementary unit district in each of the first 4 years after the effective date of the elementary opt-in.

(B) If the effective date for the elementary opt-in is 2 years after the effective date for the optional elementary unit district, 75% of the calculated excess shall be paid to the optional elementary unit district in each of the first 4 years after the effective date of the elementary opt-in.

(C) If the effective date for the elementary opt-in is 3 years after the effective date for the optional elementary unit district, 50% of the calculated excess shall be paid to the optional elementary unit district in each of the first 4 years after the effective date of the elementary opt-in.

(D) If the effective date for the elementary opt-in is 4 years after the effective date for the optional elementary unit district, 25% of the calculated excess shall be paid to the optional elementary unit district in each of the first 4 years after the effective date of the elementary opt-in.
(E) If the effective date for the elementary opt-in is 5 years after the effective date for the optional elementary unit district, the optional elementary unit district is not eligible for any additional incentives due to the elementary opt-in.

(7) Claims for financial assistance under this subsection (a) may not be recomputed except as expressly provided under Section 18-8.05 of this Code.

(8) Any supplementary payment made under this subsection (a) must be treated as separate from all other payments made pursuant to Section 18-8.05 of this Code.

(b)(1) After the formation of a combined school district, as defined in Section 11E-20 of this Code, or a unit district, as defined in Section 11E-25 of this Code, a computation shall be made to determine the difference between the salaries effective in each of the previously existing districts on June 30, prior to the creation of the new district. For the first 4 years after the formation of the new district, a supplementary State aid reimbursement shall be paid to the new district equal to the difference between the sum of the salaries earned by each of the certificated members of the new district, while employed in one of the previously existing districts during the year immediately preceding the formation of the new district, and the sum of the salaries those certificated members would have been paid during the year immediately prior to the formation of the new district if placed on the salary schedule of the previously existing district with the highest salary schedule.

(2) After the territory of one or more school districts is annexed by one or more other school districts as defined in Article 7 of this Code, a computation shall be made to determine the difference between the salaries effective in each annexed district and in the annexing district or districts as they were each constituted on June 30 preceding the date when the change of boundaries attributable to the annexation became effective for all purposes, as determined under Section 7-9 of this Code. For the first 4 years after the annexation, a supplementary State aid reimbursement shall be paid to each annexing district as constituted after the annexation equal to the difference between the sum of the salaries earned by each of the certificated members of the annexing district as constituted after the annexation, while employed in an annexed or annexing district during the year immediately preceding the annexation, and the sum of the salaries those certificated members would have been paid during the immediately preceding year if placed on the salary schedule of whichever of the

annexing or annexed districts had the highest salary schedule during the immediately preceding year.

(3) For each new high school district formed under a school district conversion, as defined in Section 11E-15 of this Code, the State shall make a supplementary payment for 4 years equal to the difference between the sum of the salaries earned by each certified member of the new high school district, while employed in one of the previously existing districts, and the sum of the salaries those certified members would have been paid if placed on the salary schedule of the previously existing district with the highest salary schedule.

(4) For each newly created partial elementary unit district, the State shall make a supplementary payment for 4 years equal to the difference between the sum of the salaries earned by each certified member of the newly created partial elementary unit district, while employed in one of the previously existing districts that formed the partial elementary unit district, and the sum of the salaries those certified members would have been paid if placed on the salary schedule of the previously existing district with the highest salary schedule. The salary schedules used in the calculation shall be those in effect in the previously existing districts for the school year prior to the creation of the new partial elementary unit district.

(5) For an elementary district opt-in, as described in subsection (d) of Section 11E-30 of this Code, the salary difference incentive shall be computed in accordance with paragraph (4) of this subsection (b) as if the opted-in elementary district was included in the optional elementary unit district at the optional elementary unit district's original effective date. If the calculation in this paragraph (5) is less than that calculated in paragraph (4) of this subsection (b) at the optional elementary unit district's original effective date, then no adjustments may be made. If the calculation in this paragraph (5) is more than that calculated in paragraph (4) of this subsection (b) at the optional elementary unit district's original effective date, then the excess must be paid as follows:

(A) If the effective date for the elementary opt-in is one year after the effective date for the optional elementary unit district, 100% of the calculated excess shall be paid to the optional elementary unit district in each of the first 4 years after the effective date of the elementary opt-in.

(B) If the effective date for the elementary opt-in is 2 years after the effective date for the optional elementary unit district, 75% of the calculated excess shall be paid to the optional

elementary unit district in each of the first 4 years after the effective date of the elementary opt-in.

(C) If the effective date for the elementary opt-in is 3 years after the effective date for the optional elementary unit district, 50% of the calculated excess shall be paid to the optional elementary unit district in each of the first 4 years after the effective date of the elementary opt-in.

(D) If the effective date for the elementary opt-in is 4 years after the effective date for the partial elementary unit district, 25% of the calculated excess shall be paid to the optional elementary unit district in each of the first 4 years after the effective date of the elementary opt-in.

(E) If the effective date for the elementary opt-in is 5 years after the effective date for the optional elementary unit district, the optional elementary unit district is not eligible for any additional incentives due to the elementary opt-in.

(5.5) After the formation of a cooperative high school by 2 or more school districts under Section 10-22.22c of this Code, a computation shall be made to determine the difference between the salaries effective in each of the previously existing high schools on June 30 prior to the formation of the cooperative high school. For the first 4 years after the formation of the cooperative high school, a supplementary State aid reimbursement shall be paid to the cooperative high school equal to the difference between the sum of the salaries earned by each of the certificated members of the cooperative high school while employed in one of the previously existing high schools during the year immediately preceding the formation of the cooperative high school and the sum of the salaries those certificated members would have been paid during the year immediately prior to the formation of the cooperative high school if placed on the salary schedule of the previously existing high school with the highest salary schedule.

(5.10) After the deactivation of a school facility in accordance with Section 10-22.22b of this Code, a computation shall be made to determine the difference between the salaries effective in the sending school district and each receiving school district on June 30 prior to the deactivation of the school facility. For the lesser of the first 4 years after the deactivation of the school facility or the length of the deactivation agreement, including any renewals of the original deactivation agreement, a supplementary State aid reimbursement shall be paid to each receiving district equal to the difference between the sum of the salaries earned by each of the

certificated members transferred to that receiving district as a result of the deactivation while employed in the sending district during the year immediately preceding the deactivation and the sum of the salaries those certificated members would have been paid during the year immediately preceding the deactivation if placed on the salary schedule of the sending or receiving district with the highest salary schedule.

(6) The supplementary State aid reimbursement under this subsection (b) shall be treated as separate from all other payments made pursuant to Section 18-8.05 of this Code. In the case of the formation of a new district or cooperative high school or a deactivation, reimbursement shall begin during the first year of operation of the new district or cooperative high school or the first year of the deactivation, and in the case of an annexation of the territory of one or more school districts by one or more other school districts, reimbursement shall begin during the first year when the change in boundaries attributable to the annexation or division becomes effective for all purposes as determined pursuant to Section 7-9 of this Code. Each year that the new, annexing, or receiving resulting district or cooperative high school, as the case may be, is entitled to receive reimbursement, the number of eligible certified members who are employed on October 1 in the district or cooperative high school shall be certified to the State Board of Education on prescribed forms by October 15 and payment shall be made on or before November 15 of that year.

(c)(1) For the first year after the formation of a combined school district, as defined in Section 11E-20 of this Code or a unit district, as defined in Section 11E-25 of this Code, a computation shall be made totaling each previously existing district's audited fund balances in the educational fund, working cash fund, operations and maintenance fund, and transportation fund for the year ending June 30 prior to the referendum for the creation of the new district. The new district shall be paid supplementary State aid equal to the sum of the differences between the deficit of the previously existing district with the smallest deficit and the deficits of each of the other previously existing districts.

(2) For the first year after the annexation of all of the territory of one or more entire school districts by another school district, as defined in Article 7 of this Code, computations shall be made, for the year ending June 30 prior to the date that the change of boundaries attributable to the annexation is allowed by the affirmative decision issued by the regional board of school trustees under Section 7-6 of this Code, notwithstanding

any effort to seek administrative review of the decision, totaling the annexing district's and totaling each annexed district's audited fund balances in their respective educational, working cash, operations and maintenance, and transportation funds. The annexing district as constituted after the annexation shall be paid supplementary State aid equal to the sum of the differences between the deficit of whichever of the annexing or annexed districts as constituted prior to the annexation had the smallest deficit and the deficits of each of the other districts as constituted prior to the annexation.

(3) For the first year after the annexation of all of the territory of one or more entire school districts by 2 or more other school districts, as defined by Article 7 of this Code, computations shall be made, for the year ending June 30 prior to the date that the change of boundaries attributable to the annexation is allowed by the affirmative decision of the regional board of school trustees under Section 7-6 of this Code, notwithstanding any action for administrative review of the decision, totaling each annexing and annexed district's audited fund balances in their respective educational, working cash, operations and maintenance, and transportation funds. The annexing districts as constituted after the annexation shall be paid supplementary State aid, allocated as provided in this paragraph (3), in an aggregate amount equal to the sum of the differences between the deficit of whichever of the annexing or annexed districts as constituted prior to the annexation had the smallest deficit and the deficits of each of the other districts as constituted prior to the annexation. The aggregate amount of the supplementary State aid payable under this paragraph (3) shall be allocated between or among the annexing districts as follows:

(A) the regional superintendent of schools for each educational service region in which an annexed district is located prior to the annexation shall certify to the State Board of Education, on forms that it shall provide for that purpose, the value of all taxable property in each annexed district, as last equalized or assessed by the Department of Revenue prior to the annexation, and the equalized assessed value of each part of the annexed district that was annexed to or included as a part of an annexing district;

(B) using equalized assessed values as certified by the regional superintendent of schools under clause (A) of this paragraph (3), the combined audited fund balance deficit of each annexed district as determined under this Section shall be

apportioned between or among the annexing districts in the same ratio as the equalized assessed value of that part of the annexed district that was annexed to or included as a part of an annexing district bears to the total equalized assessed value of the annexed district; and

(C) the aggregate supplementary State aid payment under this paragraph (3) shall be allocated between or among, and shall be paid to, the annexing districts in the same ratio as the sum of the combined audited fund balance deficit of each annexing district as constituted prior to the annexation, plus all combined audited fund balance deficit amounts apportioned to that annexing district under clause (B) of this subsection, bears to the aggregate of the combined audited fund balance deficits of all of the annexing and annexed districts as constituted prior to the annexation.

(4) For the new elementary districts and new high school district formed through a school district conversion, as defined in subsection (b) of Section 11E-15 of this Code or the new elementary district or districts and new combined high school - unit district formed through a multi-unit conversion, as defined in subsection (b) of Section 11E-30 of this Code, a computation shall be made totaling each previously existing district's audited fund balances in the educational fund, working cash fund, operations and maintenance fund, and transportation fund for the year ending June 30 prior to the referendum establishing the new districts. In the first year of the new districts, the State shall make a one-time supplementary payment equal to the sum of the differences between the deficit of the previously existing district with the smallest deficit and the deficits of each of the other previously existing districts. A district with a combined balance among the 4 funds that is positive shall be considered to have a deficit of zero. The supplementary payment shall be allocated among the newly formed high school and elementary districts in the manner provided by the petition for the formation of the districts, in the form in which the petition is approved by the regional superintendent of schools or State Superintendent of Education under Section 11E-50 of this Code.

(5) For each newly created partial elementary unit district, as defined in subsection (a) or (c) of Section 11E-30 of this Code, a computation shall be made totaling the audited fund balances of each previously existing district that formed the new partial elementary unit district in the educational fund, working cash fund, operations and

maintenance fund, and transportation fund for the year ending June 30 prior to the referendum for the formation of the partial elementary unit district. In the first year of the new partial elementary unit district, the State shall make a one-time supplementary payment to the new district equal to the sum of the differences between the deficit of the previously existing district with the smallest deficit and the deficits of each of the other previously existing districts. A district with a combined balance among the 4 funds that is positive shall be considered to have a deficit of zero.

(6) For an elementary opt-in as defined in subsection (d) of Section 11E-30 of this Code, the deficit fund balance incentive shall be computed in accordance with paragraph (5) of this subsection (c) as if the opted-in elementary was included in the optional elementary unit district at the optional elementary unit district's original effective date. If the calculation in this paragraph (6) is less than that calculated in paragraph (5) of this subsection (c) at the optional elementary unit district's original effective date, then no adjustments may be made. If the calculation in this paragraph (6) is more than that calculated in paragraph (5) of this subsection (c) at the optional elementary unit district's original effective date, then the excess must be paid as follows:

(A) If the effective date for the elementary opt-in is one year after the effective date for the optional elementary unit district, 100% of the calculated excess shall be paid to the optional elementary unit district in the first year after the effective date of the elementary opt-in.

(B) If the effective date for the elementary opt-in is 2 years after the effective date for the optional elementary unit district, 75% of the calculated excess shall be paid to the optional elementary unit district in the first year after the effective date of the elementary opt-in.

(C) If the effective date for the elementary opt-in is 3 years after the effective date for the optional elementary unit district, 50% of the calculated excess shall be paid to the optional elementary unit district in the first year after the effective date of the elementary opt-in.

(D) If the effective date for the elementary opt-in is 4 years after the effective date for the optional elementary unit district, 25% of the calculated excess shall be paid to the optional

elementary unit district in the first year after the effective date of the elementary opt-in.

(E) If the effective date for the elementary opt-in is 5 years after the effective date for the optional elementary unit district, the optional elementary unit district is not eligible for any additional incentives due to the elementary opt-in.

(7) For purposes of any calculation required under paragraph (1), (2), (3), (4), (5), or (6) of this subsection (c), a district with a combined fund balance that is positive shall be considered to have a deficit of zero. For purposes of determining each district's audited fund balances in its educational fund, working cash fund, operations and maintenance fund, and transportation fund for the specified year ending June 30, as provided in paragraphs (1), (2), (3), (4), (5), and (6) of this subsection (c), the balance of each fund shall be deemed decreased by an amount equal to the amount of the annual property tax theretofore levied in the fund by the district for collection and payment to the district during the calendar year in which the June 30 fell, but only to the extent that the tax so levied in the fund actually was received by the district on or before or comprised a part of the fund on such June 30. For purposes of determining each district's audited fund balances, a calculation shall be made for each fund to determine the average for the 3 years prior to the specified year ending June 30, as provided in paragraphs (1), (2), (3), (4), (5), and (6) of this subsection (c), of the district's expenditures in the categories "purchased services", "supplies and materials", and "capital outlay", as those categories are defined in rules of the State Board of Education. If this 3-year average is less than the district's expenditures in these categories for the specified year ending June 30, as provided in paragraphs (1), (2), (3), (4), (5), and (6) of this subsection (c), then the 3-year average shall be used in calculating the amounts payable under this Section in place of the amounts shown in these categories for the specified year ending June 30, as provided in paragraphs (1), (2), (3), (4), (5), and (6) of this subsection (c). Any deficit because of State aid not yet received may not be considered in determining the June 30 deficits. The same basis of accounting shall be used by all previously existing districts and by all annexing or annexed districts, as constituted prior to the annexation, in making any computation required under paragraphs (1), (2), (3), (4), (5), and (6) of this subsection (c).
(8) The supplementary State aid payments under this subsection (c) shall be treated as separate from all other payments made pursuant to Section 18-8.05 of this Code.

(d)(1) Following the formation of a combined school district, as defined in Section 11E-20 of this Code, a new unit district, as defined in Section 11E-25 of this Code, a new elementary district or districts and a new high school district formed through a school district conversion, as defined in subsection (b) of Section 11E-15 of this Code, a new partial elementary unit district, as defined in Section 11E-30 of this Code, or a new elementary district or districts formed through a multi-unit conversion, as defined in subsection (b) of Section 11E-30 of this Code, or the annexation of all of the territory of one or more entire school districts by one or more other school districts, as defined in Article 7 of this Code, a supplementary State aid reimbursement shall be paid for the number of school years determined under the following table to each new or annexing district equal to the sum of $4,000 for each certified employee who is employed by the district on a full-time basis for the regular term of the school year:

The State Board of Education shall make a one-time calculation of a reorganized district's quintile ranks. The average daily attendance used in this calculation shall be the best 3 months' average daily attendance for the district's first year. The equalized assessed value per pupil shall be the district's real property equalized assessed value used in calculating the district's first-year general State aid claim, under Section 18-8.05 of this Code, divided by the best 3 months' average daily attendance.

No annexing or resulting school district shall be entitled to supplementary State aid under this subsection (d) unless the district acquires at least 30% of the average daily attendance of the district from which the territory is being detached or divided.

If a district results from multiple reorganizations that would otherwise qualify the district for multiple payments under this subsection (d) in any year, then the district shall receive a single payment only for that year based solely on the most recent reorganization.

(2) For an elementary opt-in, as defined in subsection (d) of Section 11E-30 of this Code, the full-time certified staff incentive shall be computed in accordance with paragraph (1) of this subsection (d), equal to the sum of $4,000 for each certified employee of the elementary district that opts-in who is employed by the optional elementary unit district on a full-time basis for the regular term of the school year. The calculation from this paragraph (2) must be paid as follows:

(A) If the effective date for the elementary opt-in is one year after the effective date for the optional elementary unit district, 100% of the amount calculated in this paragraph (2) shall be paid to the optional elementary unit district for the number of years calculated in paragraph (1) of this subsection (d) at the optional elementary unit district’s original effective date, starting in the second year after the effective date of the elementary opt-in.

(B) If the effective date for the elementary opt-in is 2 years after the effective date for the optional elementary unit district, 75% of the amount calculated in this paragraph (2) shall be paid to the optional elementary unit district for the number of years calculated in paragraph (1) of this subsection (d) at the optional elementary unit district’s original effective date, starting in the second year after the effective date of the elementary opt-in.

(C) If the effective date for the elementary opt-in is 3 years after the effective date for the optional elementary unit district, 50% of the amount calculated in this paragraph (2) shall be paid to the optional elementary unit district for the number of years calculated in paragraph (1) of this subsection (d) at the optional elementary unit district’s original effective date, starting in the second year after the effective date of the elementary opt-in.

(D) If the effective date for the elementary opt-in is 4 years after the effective date for the optional elementary unit district, 25% of the amount calculated in this paragraph (2) shall be paid to

the optional elementary unit district for the number of years calculated in paragraph (1) of this subsection (d) at the optional elementary unit district's original effective date, starting in the second year after the effective date of the elementary opt-in.

(E) If the effective date for the elementary opt-in is 5 years after the effective date for the optional elementary unit district, the optional elementary unit district is not eligible for any additional incentives due to the elementary opt-in.

(2.5) Following the formation of a cooperative high school by 2 or more school districts under Section 10-22.22c of this Code, a supplementary State aid reimbursement shall be paid for 3 school years to the cooperative high school equal to the sum of $4,000 for each certified employee who is employed by the cooperative high school on a full-time basis for the regular term of any such school year. If a cooperative high school results from multiple agreements that would otherwise qualify the cooperative high school for multiple payments under this Section in any year, the cooperative high school shall receive a single payment for that year based solely on the most recent agreement.

(2.10) Following the deactivation of a school facility in accordance with Section 10-22.22b of this Code, a supplementary State aid reimbursement shall be paid for the lesser of 3 school years or the length of the deactivation agreement, including any renewals of the original deactivation agreement, to each receiving school district equal to the sum of $4,000 for each certified employee who is employed by that receiving district on a full-time basis for the regular term of any such school year who was originally transferred to the control of that receiving district as a result of the deactivation. Receiving districts are eligible for payments under this paragraph (2.10) based on the certified employees transferred to that receiving district as a result of the deactivation and are not required to receive at least 30% of the deactivating district's average daily attendance as required under paragraph (1) of this subsection (d) to be eligible for payments.

(3) The supplementary State aid reimbursement payable under this subsection (d) shall be separate from and in addition to all other payments made to the district pursuant to any other Section of this Article.

(5) Upon certification by the State Board of Education to the State Comptroller of the amount of the supplementary State aid reimbursement to which a school district or cooperative high school is entitled under this subsection (d), the State Comptroller shall draw his or her warrant upon the State Treasurer for the payment thereof to the school district or cooperative high school and shall promptly transmit the payment to the school district or cooperative high school through the appropriate school treasurer.

Sec. 18-8.05. Basis for apportionment of general State financial aid and supplemental general State aid to the common schools for the 1998-1999 and subsequent school years.

(A) General Provisions.

(1) The provisions of this Section apply to the 1998-1999 and subsequent school years. The system of general State financial aid provided for in this Section is designed to assure that, through a combination of State financial aid and required local resources, the financial support provided each pupil in Average Daily Attendance equals or exceeds a prescribed per pupil Foundation Level. This formula approach imputes a level of per pupil Available Local Resources and provides for the basis to calculate a per pupil level of general State financial aid that, when added to Available Local Resources, equals or exceeds the Foundation Level. The amount of per pupil general State financial aid for school districts, in general, varies in inverse relation to Available Local Resources. Per pupil amounts are based upon each school district's Average Daily Attendance as that term is defined in this Section.

(2) In addition to general State financial aid, school districts with specified levels or concentrations of pupils from low income households are eligible to receive supplemental general State financial aid grants as provided pursuant to subsection (H). The supplemental State aid grants provided for school districts under subsection (H) shall be appropriated for distribution to school districts as part of the same line item in which the

general State financial aid of school districts is appropriated under this Section.

(3) To receive financial assistance under this Section, school districts are required to file claims with the State Board of Education, subject to the following requirements:

(a) Any school district which fails for any given school year to maintain school as required by law, or to maintain a recognized school is not eligible to file for such school year any claim upon the Common School Fund. In case of nonrecognition of one or more attendance centers in a school district otherwise operating recognized schools, the claim of the district shall be reduced in the proportion which the Average Daily Attendance in the attendance center or centers bear to the Average Daily Attendance in the school district. A "recognized school" means any public school which meets the standards as established for recognition by the State Board of Education. A school district or attendance center not having recognition status at the end of a school term is entitled to receive State aid payments due upon a legal claim which was filed while it was recognized.

(b) School district claims filed under this Section are subject to Sections 18-9 and 18-12, except as otherwise provided in this Section.

(c) If a school district operates a full year school under Section 10-19.1, the general State aid to the school district shall be determined by the State Board of Education in accordance with this Section as near as may be applicable.

(d) (Blank).

(4) Except as provided in subsections (H) and (L), the board of any district receiving any of the grants provided for in this Section may apply those funds to any fund so received for which that board is authorized to make expenditures by law.

School districts are not required to exert a minimum Operating Tax Rate in order to qualify for assistance under this Section.

(5) As used in this Section the following terms, when capitalized, shall have the meaning ascribed herein:

(a) "Average Daily Attendance": A count of pupil attendance in school, averaged as provided for in subsection (C) and utilized in deriving per pupil financial support levels.
(b) "Available Local Resources": A computation of local financial support, calculated on the basis of Average Daily Attendance and derived as provided pursuant to subsection (D).

(c) "Corporate Personal Property Replacement Taxes": Funds paid to local school districts pursuant to "An Act in relation to the abolition of ad valorem personal property tax and the replacement of revenues lost thereby, and amending and repealing certain Acts and parts of Acts in connection therewith", certified August 14, 1979, as amended (Public Act 81-1st S.S.-1).

(d) "Foundation Level": A prescribed level of per pupil financial support as provided for in subsection (B).

(e) "Operating Tax Rate": All school district property taxes extended for all purposes, except Bond and Interest, Summer School, Rent, Capital Improvement, and Vocational Education Building purposes.

(B) Foundation Level.

(1) The Foundation Level is a figure established by the State representing the minimum level of per pupil financial support that should be available to provide for the basic education of each pupil in Average Daily Attendance. As set forth in this Section, each school district is assumed to exert a sufficient local taxing effort such that, in combination with the aggregate of general State financial aid provided the district, an aggregate of State and local resources are available to meet the basic education needs of pupils in the district.

(2) For the 1998-1999 school year, the Foundation Level of support is $4,225. For the 1999-2000 school year, the Foundation Level of support is $4,325. For the 2000-2001 school year, the Foundation Level of support is $4,425. For the 2001-2002 school year and 2002-2003 school year, the Foundation Level of support is $4,560. For the 2003-2004 school year, the Foundation Level of support is $4,810. For the 2004-2005 school year, the Foundation Level of support is $4,964. For the 2005-2006 school year, the Foundation Level of support is $5,164.

(3) For the 2006-2007 school year and each school year thereafter, the Foundation Level of support is $5,334 or such greater amount as may be established by law by the General Assembly.

(C) Average Daily Attendance.

(1) For purposes of calculating general State aid pursuant to subsection (E), an Average Daily Attendance figure shall be utilized. The Average Daily Attendance figure for formula calculation purposes shall be

New matter indicated by italics - deletions by strikeout.
the monthly average of the actual number of pupils in attendance of each school district, as further averaged for the best 3 months of pupil attendance for each school district. In compiling the figures for the number of pupils in attendance, school districts and the State Board of Education shall, for purposes of general State aid funding, conform attendance figures to the requirements of subsection (F).

(2) The Average Daily Attendance figures utilized in subsection (E) shall be the requisite attendance data for the school year immediately preceding the school year for which general State aid is being calculated or the average of the attendance data for the 3 preceding school years, whichever is greater. The Average Daily Attendance figures utilized in subsection (H) shall be the requisite attendance data for the school year immediately preceding the school year for which general State aid is being calculated.

(D) Available Local Resources.

(1) For purposes of calculating general State aid pursuant to subsection (E), a representation of Available Local Resources per pupil, as that term is defined and determined in this subsection, shall be utilized. Available Local Resources per pupil shall include a calculated dollar amount representing local school district revenues from local property taxes and from Corporate Personal Property Replacement Taxes, expressed on the basis of pupils in Average Daily Attendance. Calculation of Available Local Resources shall exclude any tax amnesty funds received as a result of Public Act 93-26.

(2) In determining a school district's revenue from local property taxes, the State Board of Education shall utilize the equalized assessed valuation of all taxable property of each school district as of September 30 of the previous year. The equalized assessed valuation utilized shall be obtained and determined as provided in subsection (G).

(3) For school districts maintaining grades kindergarten through 12, local property tax revenues per pupil shall be calculated as the product of the applicable equalized assessed valuation for the district multiplied by 3.00%, and divided by the district's Average Daily Attendance figure. For school districts maintaining grades kindergarten through 8, local property tax revenues per pupil shall be calculated as the product of the applicable equalized assessed valuation for the district multiplied by 2.30%, and divided by the district's Average Daily Attendance figure. For school districts maintaining grades 9 through 12, local property tax revenues per pupil shall be the applicable equalized assessed valuation of the district

New matter indicated by italics - deletions by strikeout.
multiplied by 1.05%, and divided by the district's Average Daily Attendance figure.

For partial elementary unit districts created pursuant to Article 11E of this Code, local property tax revenues per pupil shall be calculated as the product of the equalized assessed valuation for property within the elementary and high school classification of the partial elementary unit district for elementary purposes, as defined in Article 11E of this Code, multiplied by 2.06% and divided by the district's Average Daily Attendance figure for grades kindergarten through 8, plus the product of the equalized assessed valuation for property within the high school only classification of the partial elementary unit district for high school purposes, as defined in Article 11E of this Code, multiplied by 0.94% and divided by the district's Average Daily Attendance figure for grades 9 through 12.

(4) The Corporate Personal Property Replacement Taxes paid to each school district during the calendar year 2 years before the calendar year in which a school year begins, divided by the Average Daily Attendance figure for that district, shall be added to the local property tax revenues per pupil as derived by the application of the immediately preceding paragraph (3). The sum of these per pupil figures for each school district shall constitute Available Local Resources as that term is utilized in subsection (E) in the calculation of general State aid.

(E) Computation of General State Aid.

(1) For each school year, the amount of general State aid allotted to a school district shall be computed by the State Board of Education as provided in this subsection.

(2) For any school district for which Available Local Resources per pupil is less than the product of 0.93 times the Foundation Level, general State aid for that district shall be calculated as an amount equal to the Foundation Level minus Available Local Resources, multiplied by the Average Daily Attendance of the school district.

(3) For any school district for which Available Local Resources per pupil is equal to or greater than the product of 0.93 times the Foundation Level and less than the product of 1.75 times the Foundation Level, the general State aid per pupil shall be a decimal proportion of the Foundation Level derived using a linear algorithm. Under this linear algorithm, the calculated general State aid per pupil shall decline in direct linear fashion from 0.07 times the Foundation Level for a school district with Available Local Resources equal to the product of 0.93 times the Foundation Level,
to 0.05 times the Foundation Level for a school district with Available Local Resources equal to the product of 1.75 times the Foundation Level. The allocation of general State aid for school districts subject to this paragraph 3 shall be the calculated general State aid per pupil figure multiplied by the Average Daily Attendance of the school district.

(4) For any school district for which Available Local Resources per pupil equals or exceeds the product of 1.75 times the Foundation Level, the general State aid for the school district shall be calculated as the product of $218 multiplied by the Average Daily Attendance of the school district.

(5) The amount of general State aid allocated to a school district for the 1999-2000 school year meeting the requirements set forth in paragraph (4) of subsection (G) shall be increased by an amount equal to the general State aid that would have been received by the district for the 1998-1999 school year by utilizing the Extension Limitation Equalized Assessed Valuation as calculated in paragraph (4) of subsection (G) less the general State aid allotted for the 1998-1999 school year. This amount shall be deemed a one time increase, and shall not affect any future general State aid allocations.

(F) Compilation of Average Daily Attendance.

(1) Each school district shall, by July 1 of each year, submit to the State Board of Education, on forms prescribed by the State Board of Education, attendance figures for the school year that began in the preceding calendar year. The attendance information so transmitted shall identify the average daily attendance figures for each month of the school year. Beginning with the general State aid claim form for the 2002-2003 school year, districts shall calculate Average Daily Attendance as provided in subdivisions (a), (b), and (c) of this paragraph (1).

(a) In districts that do not hold year-round classes, days of attendance in August shall be added to the month of September and any days of attendance in June shall be added to the month of May.

(b) In districts in which all buildings hold year-round classes, days of attendance in July and August shall be added to the month of September and any days of attendance in June shall be added to the month of May.

(c) In districts in which some buildings, but not all, hold year-round classes, for the non-year-round buildings, days of attendance in August shall be added to the month of September and any days of attendance in June shall be added to the month of May.

New matter indicated by italics - deletions by strikeout.
The average daily attendance for the year-round buildings shall be computed as provided in subdivision (b) of this paragraph (1). To calculate the Average Daily Attendance for the district, the average daily attendance for the year-round buildings shall be multiplied by the days in session for the non-year-round buildings for each month and added to the monthly attendance of the non-year-round buildings.

Except as otherwise provided in this Section, days of attendance by pupils shall be counted only for sessions of not less than 5 clock hours of school work per day under direct supervision of: (i) teachers, or (ii) non-teaching personnel or volunteer personnel when engaging in non-teaching duties and supervising in those instances specified in subsection (a) of Section 10-22.34 and paragraph 10 of Section 34-18, with pupils of legal school age and in kindergarten and grades 1 through 12.

Days of attendance by tuition pupils shall be accredited only to the districts that pay the tuition to a recognized school.

(2) Days of attendance by pupils of less than 5 clock hours of school shall be subject to the following provisions in the compilation of Average Daily Attendance.

(a) Pupils regularly enrolled in a public school for only a part of the school day may be counted on the basis of 1/6 day for every class hour of instruction of 40 minutes or more attended pursuant to such enrollment, unless a pupil is enrolled in a block-schedule format of 80 minutes or more of instruction, in which case the pupil may be counted on the basis of the proportion of minutes of school work completed each day to the minimum number of minutes that school work is required to be held that day.

(b) Days of attendance may be less than 5 clock hours on the opening and closing of the school term, and upon the first day of pupil attendance, if preceded by a day or days utilized as an institute or teachers' workshop.

(c) A session of 4 or more clock hours may be counted as a day of attendance upon certification by the regional superintendent, and approved by the State Superintendent of Education to the extent that the district has been forced to use daily multiple sessions.

(d) A session of 3 or more clock hours may be counted as a day of attendance (1) when the remainder of the school day or at least 2 hours in the evening of that day is utilized for an in-service

New matter indicated by italics - deletions by strikeout.
training program for teachers, up to a maximum of 5 days per school year of which a maximum of 4 days of such 5 days may be used for parent-teacher conferences, provided a district conducts an in-service training program for teachers which has been approved by the State Superintendent of Education; or, in lieu of 4 such days, 2 full days may be used, in which event each such day may be counted as a day of attendance; and (2) when days in addition to those provided in item (1) are scheduled by a school pursuant to its school improvement plan adopted under Article 34 or its revised or amended school improvement plan adopted under Article 2, provided that (i) such sessions of 3 or more clock hours are scheduled to occur at regular intervals, (ii) the remainder of the school days in which such sessions occur are utilized for in-service training programs or other staff development activities for teachers, and (iii) a sufficient number of minutes of school work under the direct supervision of teachers are added to the school days between such regularly scheduled sessions to accumulate not less than the number of minutes by which such sessions of 3 or more clock hours fall short of 5 clock hours. Any full days used for the purposes of this paragraph shall not be considered for computing average daily attendance. Days scheduled for in-service training programs, staff development activities, or parent-teacher conferences may be scheduled separately for different grade levels and different attendance centers of the district.

(e) A session of not less than one clock hour of teaching hospitalized or homebound pupils on-site or by telephone to the classroom may be counted as 1/2 day of attendance, however these pupils must receive 4 or more clock hours of instruction to be counted for a full day of attendance.

(f) A session of at least 4 clock hours may be counted as a day of attendance for first grade pupils, and pupils in full day kindergartens, and a session of 2 or more hours may be counted as 1/2 day of attendance by pupils in kindergartens which provide only 1/2 day of attendance.

(g) For children with disabilities who are below the age of 6 years and who cannot attend 2 or more clock hours because of their disability or immaturity, a session of not less than one clock hour may be counted as 1/2 day of attendance; however for such

New matter indicated by italics - deletions by strikeout.
children whose educational needs so require a session of 4 or more clock hours may be counted as a full day of attendance.

(h) A recognized kindergarten which provides for only 1/2 day of attendance by each pupil shall not have more than 1/2 day of attendance counted in any one day. However, kindergartens may count 2 1/2 days of attendance in any 5 consecutive school days. When a pupil attends such a kindergarten for 2 half days on any one school day, the pupil shall have the following day as a day absent from school, unless the school district obtains permission in writing from the State Superintendent of Education. Attendance at kindergartens which provide for a full day of attendance by each pupil shall be counted the same as attendance by first grade pupils. Only the first year of attendance in one kindergarten shall be counted, except in case of children who entered the kindergarten in their fifth year whose educational development requires a second year of kindergarten as determined under the rules and regulations of the State Board of Education.

(i) On the days when the Prairie State Achievement Examination is administered under subsection (c) of Section 2-3.64 of this Code, the day of attendance for a pupil whose school day must be shortened to accommodate required testing procedures may be less than 5 clock hours and shall be counted towards the 176 days of actual pupil attendance required under Section 10-19 of this Code, provided that a sufficient number of minutes of school work in excess of 5 clock hours are first completed on other school days to compensate for the loss of school work on the examination days.

(G) Equalized Assessed Valuation Data.

(1) For purposes of the calculation of Available Local Resources required pursuant to subsection (D), the State Board of Education shall secure from the Department of Revenue the value as equalized or assessed by the Department of Revenue of all taxable property of every school district, together with (i) the applicable tax rate used in extending taxes for the funds of the district as of September 30 of the previous year and (ii) the limiting rate for all school districts subject to property tax extension limitations as imposed under the Property Tax Extension Limitation Law.

The Department of Revenue shall add to the equalized assessed value of all taxable property of each school district situated entirely or partially within a county that is or was subject to the provisions of Section

New matter indicated by italics - deletions by strikeout.
15-176 or 15-177 of the Property Tax Code (a) an amount equal to the total amount by which the homestead exemption allowed under Section 15-176 or 15-177 of the Property Tax Code for real property situated in that school district exceeds the total amount that would have been allowed in that school district if the maximum reduction under Section 15-176 was (i) $4,500 in Cook County or $3,500 in all other counties in tax year 2003 or (ii) $5,000 in all counties in tax year 2004 and thereafter and (b) an amount equal to the aggregate amount for the taxable year of all additional exemptions under Section 15-175 of the Property Tax Code for owners with a household income of $30,000 or less. The county clerk of any county that is or was subject to the provisions of Section 15-176 or 15-177 of the Property Tax Code shall annually calculate and certify to the Department of Revenue for each school district all homestead exemption amounts under Section 15-176 or 15-177 of the Property Tax Code and all amounts of additional exemptions under Section 15-175 of the Property Tax Code for owners with a household income of $30,000 or less. It is the intent of this paragraph that if the general homestead exemption for a parcel of property is determined under Section 15-176 or 15-177 of the Property Tax Code rather than Section 15-175, then the calculation of Available Local Resources shall not be affected by the difference, if any, between the amount of the general homestead exemption allowed for that parcel of property under Section 15-176 or 15-177 of the Property Tax Code and the amount that would have been allowed had the general homestead exemption for that parcel of property been determined under Section 15-175 of the Property Tax Code. It is further the intent of this paragraph that if additional exemptions are allowed under Section 15-175 of the Property Tax Code for owners with a household income of less than $30,000, then the calculation of Available Local Resources shall not be affected by the difference, if any, because of those additional exemptions.

This equalized assessed valuation, as adjusted further by the requirements of this subsection, shall be utilized in the calculation of Available Local Resources.

(2) The equalized assessed valuation in paragraph (1) shall be adjusted, as applicable, in the following manner:

(a) For the purposes of calculating State aid under this Section, with respect to any part of a school district within a redevelopment project area in respect to which a municipality has adopted tax increment allocation financing pursuant to the Tax Increment Allocation Redevelopment Act, Sections 11-74.4-1
through 11-74.4-11 of the Illinois Municipal Code or the Industrial Jobs Recovery Law, Sections 11-74.6-1 through 11-74.6-50 of the Illinois Municipal Code, no part of the current equalized assessed valuation of real property located in any such project area which is attributable to an increase above the total initial equalized assessed valuation of such property shall be used as part of the equalized assessed valuation of the district, until such time as all redevelopment project costs have been paid, as provided in Section 11-74.4-8 of the Tax Increment Allocation Redevelopment Act or in Section 11-74.6-35 of the Industrial Jobs Recovery Law. For the purpose of the equalized assessed valuation of the district, the total initial equalized assessed valuation or the current equalized assessed valuation, whichever is lower, shall be used until such time as all redevelopment project costs have been paid.

(b) The real property equalized assessed valuation for a school district shall be adjusted by subtracting from the real property value as equalized or assessed by the Department of Revenue for the district an amount computed by dividing the amount of any abatement of taxes under Section 18-170 of the Property Tax Code by 3.00% for a district maintaining grades kindergarten through 12, by 2.30% for a district maintaining grades kindergarten through 8, or by 1.05% for a district maintaining grades 9 through 12 and adjusted by an amount computed by dividing the amount of any abatement of taxes under subsection (a) of Section 18-165 of the Property Tax Code by the same percentage rates for district type as specified in this subparagraph (b).

(3) For the 1999-2000 school year and each school year thereafter, if a school district meets all of the criteria of this subsection (G)(3), the school district’s Available Local Resources shall be calculated under subsection (D) using the district’s Extension Limitation Equalized Assessed Valuation as calculated under this subsection (G)(3).

For purposes of this subsection (G)(3) the following terms shall have the following meanings:

"Budget Year": The school year for which general State aid is calculated and awarded under subsection (E).

"Base Tax Year": The property tax levy year used to calculate the Budget Year allocation of general State aid.

New matter indicated by italics - deletions by strikeout.
"Preceding Tax Year": The property tax levy year immediately preceding the Base Tax Year.

"Base Tax Year's Tax Extension": The product of the equalized assessed valuation utilized by the County Clerk in the Base Tax Year multiplied by the limiting rate as calculated by the County Clerk and defined in the Property Tax Extension Limitation Law.

"Preceding Tax Year's Tax Extension": The product of the equalized assessed valuation utilized by the County Clerk in the Preceding Tax Year multiplied by the Operating Tax Rate as defined in subsection (A).

"Extension Limitation Ratio": A numerical ratio, certified by the County Clerk, in which the numerator is the Base Tax Year's Tax Extension and the denominator is the Preceding Tax Year's Tax Extension.

"Operating Tax Rate": The operating tax rate as defined in subsection (A).

If a school district is subject to property tax extension limitations as imposed under the Property Tax Extension Limitation Law, the State Board of Education shall calculate the Extension Limitation Equalized Assessed Valuation of that district. For the 1999-2000 school year, the Extension Limitation Equalized Assessed Valuation of a school district as calculated by the State Board of Education shall be equal to the product of the district's 1996 Equalized Assessed Valuation and the district's Extension Limitation Ratio. For the 2000-2001 school year and each school year thereafter, the Extension Limitation Equalized Assessed Valuation of a school district as calculated by the State Board of Education shall be equal to the product of the Equalized Assessed Valuation last used in the calculation of general State aid and the district's Extension Limitation Ratio. If the Extension Limitation Equalized Assessed Valuation of a school district as calculated under this subsection (G)(3) is less than the district's equalized assessed valuation as calculated pursuant to subsections (G)(1) and (G)(2), then for purposes of calculating the district's general State aid for the Budget Year pursuant to subsection (E), that Extension Limitation Equalized Assessed Valuation shall be utilized to calculate the district's Available Local Resources under subsection (D).

Partial elementary unit districts created in accordance with Article 11E of this Code shall not be eligible for the adjustment in this subsection.

(G)(3) until the fifth year following the effective date of the reorganization.

(4) For the purposes of calculating general State aid for the 1999-2000 school year only, if a school district experienced a triennial reassessment on the equalized assessed valuation used in calculating its general State financial aid apportionment for the 1998-1999 school year, the State Board of Education shall calculate the Extension Limitation Equalized Assessed Valuation that would have been used to calculate the district's 1998-1999 general State aid. This amount shall equal the product of the equalized assessed valuation used to calculate general State aid for the 1997-1998 school year and the district's Extension Limitation Ratio. If the Extension Limitation Equalized Assessed Valuation of the school district as calculated under this paragraph (4) is less than the district's equalized assessed valuation utilized in calculating the district's 1998-1999 general State aid allocation, then for purposes of calculating the district's general State aid pursuant to paragraph (5) of subsection (E), that Extension Limitation Equalized Assessed Valuation shall be utilized to calculate the district's Available Local Resources.

(5) For school districts having a majority of their equalized assessed valuation in any county except Cook, DuPage, Kane, Lake, McHenry, or Will, if the amount of general State aid allocated to the school district for the 1999-2000 school year under the provisions of subsection (E), (H), and (J) of this Section is less than the amount of general State aid allocated to the district for the 1998-1999 school year under these subsections, then the general State aid of the district for the 1999-2000 school year only shall be increased by the difference between these amounts. The total payments made under this paragraph (5) shall not exceed $14,000,000. Claims shall be prorated if they exceed $14,000,000.

(H) Supplemental General State Aid.

(1) In addition to the general State aid a school district is allotted pursuant to subsection (E), qualifying school districts shall receive a grant, paid in conjunction with a district's payments of general State aid, for supplemental general State aid based upon the concentration level of children from low-income households within the school district. Supplemental State aid grants provided for school districts under this subsection shall be appropriated for distribution to school districts as part of the same line item in which the general State financial aid of school districts is appropriated under this Section. If the appropriation in any fiscal year for general State aid and supplemental general State aid is

New matter indicated by italics - deletions by strikeout.
insufficient to pay the amounts required under the general State aid and supplemental general State aid calculations, then the State Board of Education shall ensure that each school district receives the full amount due for general State aid and the remainder of the appropriation shall be used for supplemental general State aid, which the State Board of Education shall calculate and pay to eligible districts on a prorated basis.

(1.5) This paragraph (1.5) applies only to those school years preceding the 2003-2004 school year. For purposes of this subsection (H), the term "Low-Income Concentration Level" shall be the low-income eligible pupil count from the most recently available federal census divided by the Average Daily Attendance of the school district. If, however, (i) the percentage decrease from the 2 most recent federal censuses in the low-income eligible pupil count of a high school district with fewer than 400 students exceeds by 75% or more the percentage change in the total low-income eligible pupil count of contiguous elementary school districts, whose boundaries are coterminal with the high school district, or (ii) a high school district within 2 counties and serving 5 elementary school districts, whose boundaries are coterminal with the high school district, has a percentage decrease from the 2 most recent federal censuses in the low-income eligible pupil count and there is a percentage increase in the total low-income eligible pupil count of a majority of the elementary school districts in excess of 50% from the 2 most recent federal censuses, then the high school district's low-income eligible pupil count from the earlier federal census shall be the number used as the low-income eligible pupil count for the high school district, for purposes of this subsection (H). The changes made to this paragraph (1) by Public Act 92-28 shall apply to supplemental general State aid grants for school years preceding the 2003-2004 school year that are paid in fiscal year 1999 or thereafter and to any State aid payments made in fiscal year 1994 through fiscal year 1998 pursuant to subsection 1(n) of Section 18-8 of this Code (which was repealed on July 1, 1998), and any high school district that is affected by Public Act 92-28 is entitled to a recomputation of its supplemental general State aid grant or State aid paid in any of those fiscal years. This recomputation shall not be affected by any other funding.

(1.10) This paragraph (1.10) applies to the 2003-2004 school year and each school year thereafter. For purposes of this subsection (H), the term "Low-Income Concentration Level" shall, for each fiscal year, be the low-income eligible pupil count as of July 1 of the immediately preceding fiscal year (as determined by the Department of Human Services based on

New matter indicated by italics - deletions by strikeout.
the number of pupils who are eligible for at least one of the following low income programs: Medicaid, KidCare, TANF, or Food Stamps, excluding pupils who are eligible for services provided by the Department of Children and Family Services, averaged over the 2 immediately preceding fiscal years for fiscal year 2004 and over the 3 immediately preceding fiscal years for each fiscal year thereafter) divided by the Average Daily Attendance of the school district.

(2) Supplemental general State aid pursuant to this subsection (H) shall be provided as follows for the 1998-1999, 1999-2000, and 2000-2001 school years only:

(a) For any school district with a Low Income Concentration Level of at least 20% and less than 35%, the grant for any school year shall be $800 multiplied by the low income eligible pupil count.

(b) For any school district with a Low Income Concentration Level of at least 35% and less than 50%, the grant for the 1998-1999 school year shall be $1,100 multiplied by the low income eligible pupil count.

(3) School districts with an Average Daily Attendance of more than 1,000 and less than 50,000 that qualify for supplemental general State aid pursuant to this subsection shall submit a plan to the State Board of Education prior to October 30 of each year for the use of the funds resulting from this grant of supplemental general State aid for the improvement of instruction in which priority is given to meeting the education needs of disadvantaged children. requirements shall not be compensated for or contravened by adjustments of the total of other funds appropriated to any attendance centers, and the Board of Education shall utilize funding from one or several sources in order to fully implement this provision annually prior to the opening of school.

(c) Each attendance center shall be provided by the school district a distribution of noncategorical funds and other categorical funds to which an attendance center is entitled under law in order that the general State aid and supplemental general State aid provided by application of this subsection supplements rather than supplants the noncategorical funds and other categorical funds provided by the school district to the attendance centers.

(d) Any funds made available under this subsection that by reason of the provisions of this subsection are not required to be allocated and provided to attendance centers may be used and appropriated by the board of the district for any lawful school purpose.

(f) Each district subject to the provisions of this subdivision (H)(4) shall submit an acceptable plan to meet the educational needs of disadvantaged children, in compliance with the requirements of this paragraph, to the State Board of Education prior to July 15 of each year. This plan shall be consistent with the decisions of local school councils concerning the school expenditure plans developed in accordance with part 4 of Section 34-2.3. The State Board shall approve or reject the plan within 60 days after its submission. If the plan is rejected, the district shall give written notice of intent to modify the plan within 15 days of

the notification of rejection and then submit a modified plan within 30 days after the date of the written notice of intent to modify. Districts may amend approved plans pursuant to rules promulgated by the State Board of Education.

Upon notification by the State Board of Education that the district has not submitted a plan prior to July 15 or a modified plan within the time period specified herein, the State aid funds affected by that plan or modified plan shall be withheld by the State Board of Education until a plan or modified plan is submitted.

If the district fails to distribute State aid to attendance centers in accordance with an approved plan, the plan for the following year shall allocate funds, in addition to the funds otherwise required by this subsection, to those attendance centers which were underfunded during the previous year in amounts equal to such underfunding.

For purposes of determining compliance with this subsection in relation to the requirements of attendance center funding, each district subject to the provisions of this subsection shall submit as a separate document by December 1 of each year a report of expenditure data for the prior year in addition to any modification of its current plan. If it is determined that there has been a failure to comply with the expenditure provisions of this subsection regarding contravention or supplanting, the State Superintendent of Education shall, within 60 days of receipt of the report, notify the district and any affected local school council. The district shall within 45 days of receipt of that notification inform the State Superintendent of Education of the remedial or corrective action to be taken, whether by amendment of the current plan, if feasible, or by adjustment in the plan for the following year. Failure to provide the expenditure report or the notification of remedial or corrective action in a timely manner shall result in a withholding of the affected funds.

The State Board of Education shall promulgate rules and regulations to implement the provisions of this subsection. No funds shall be released under this subdivision (H)(4) to any district that has not submitted a plan that has been approved by the State Board of Education.

If a school district qualifies to receive a supplementary payment made under this subsection (J), the amount of the aggregate general State aid in combination with supplemental general State aid under this Section which that district is eligible to receive for each school year shall be no less than the amount of the aggregate general State aid entitlement that was received by the district under Section 18-8 (exclusive of amounts received under subsections 5(p) and 5(p-5) of that Section) for the 1997-1998 school year, pursuant to the provisions of that Section as it was then in effect.

(2) If, as provided in paragraph (1) of this subsection (J), a school district is to receive aggregate general State aid in combination with supplemental general State aid under this Section for the 1998-99 school year and any subsequent school year that in any such school year is less than the amount of the aggregate general State aid entitlement that the district received for the 1997-98 school year, the school district shall also receive, from a separate appropriation made for purposes of this subsection (J), a supplementary payment that is equal to the amount of the difference in the aggregate State aid figures as described in paragraph (1).

The governing board of a public university which receives funds from the State Board under this subsection (K) may not increase the number of students enrolled in its laboratory school from a single district, if that district is already sending 50 or more students, except under a mutual agreement between the school board of a student's district

An alternative school serving more than one educational service region may be operated under such terms as the regional superintendents of schools of those educational service regions may agree.

Each laboratory and alternative school shall file, on forms provided by the State Superintendent of Education, an annual State aid claim which states the Average Daily Attendance of the school’s students by month. The best 3 months’ Average Daily Attendance shall be computed for each school. The general State aid entitlement shall be computed by multiplying the applicable Average Daily Attendance by the Foundation Level as determined under this Section.

The remainder of general State school aid for any such district shall be paid in accordance with Article 34A when that Article provides for a disposition other than that provided by this Article.

All members appointed to serve on the Board shall serve until their respective successors are appointed and confirmed. Vacancies shall be filled in the same manner as original appointments. If a vacancy in membership occurs at a time when the Senate is not in session, the Governor shall make a temporary appointment until the next meeting of the Senate, when he or she shall appoint, by and with the advice and consent of the Senate, a person to fill that membership for the unexpired term. If the Senate is not in session when the initial appointments are made, those appointments shall be made as in the case of vacancies.

The Education Funding Advisory Board shall be deemed established, and the initial members appointed by the Governor to serve as members of the Board shall take office, on the date that the Governor makes his or her appointment of the fifth initial member of the Board, whether those initial members are then serving pursuant to appointment and confirmation or pursuant to temporary appointments that are made by the Governor as in the case of vacancies.

The recommended foundation level shall be determined based on a methodology which incorporates the basic education expenditures of low-spending schools exhibiting high academic performance. The Education Funding Advisory Board shall make such recommendations to the General Assembly on January 1 of odd numbered years, beginning January 1, 2001.

(O) References.

(1) References in other laws to the various subdivisions of Section 18-8 as that Section existed before its repeal and replacement by this Section 18-8.05 shall be deemed to refer to the corresponding provisions of this Section 18-8.05, to the extent that those references remain applicable.

(2) References in other laws to State Chapter 1 funds shall be deemed to refer to the supplemental general State aid provided under subsection (H) of this Section.

includes any area that was previously required to provide transportation shall provide free transportation for pupils residing at a distance of one and one-half miles or more from any school to which they are assigned for attendance maintained within the district, except for those pupils for whom the school board shall certify to the State Board of Education that adequate transportation for the public is available.

For the purpose of this Act 1 1/2 miles distance shall be from the exit of the property where the pupil resides to the point where pupils are normally unloaded at the school attended; such distance shall be measured by determining the shortest distance on normally traveled roads or streets.

Such school board may comply with the provisions of this Section by providing free transportation for pupils to and from an assigned school and a pick-up point located not more than one and one-half miles from the home of each pupil assigned to such point.

For the purposes of this Act "adequate transportation for the public" shall be assumed to exist for such pupils as can reach school by walking, one way, along normally traveled roads or streets less than 1 1/2 miles irrespective of the distance the pupil is transported by public transportation.

In addition to the other requirements of this Section, each school board may provide free transportation for any pupil residing within 1 1/2 miles from the school attended where conditions are such that walking, either to or from the school to which a pupil is assigned for attendance or to or from a pick-up point or bus stop, constitutes a serious hazard to the safety of the pupil due to vehicular traffic or rail crossings. Such transportation shall not be provided if adequate transportation for the public is available.

The determination as to what constitutes a serious safety hazard shall be made by the school board, in accordance with guidelines promulgated by the Illinois Department of Transportation, in consultation with the State Superintendent of Education. A school board, on written petition of the parent or guardian of a pupil for whom adequate transportation for the public is alleged not to exist because the pupil is required to walk along normally traveled roads or streets where walking is alleged to constitute a serious safety hazard due to vehicular traffic or rail crossings, or who is required to walk between the pupil's home and assigned school or between the pupil's home or assigned school and a pick-up point or bus stop along roads or streets where walking is alleged to constitute a serious safety hazard due to vehicular traffic or rail crossings,

shall conduct a study and make findings, which the Department of Transportation shall review and approve or disapprove as provided in this Section, to determine whether a serious safety hazard exists as alleged in the petition. The Department of Transportation shall review the findings of the school board and shall approve or disapprove the school board's determination that a serious safety hazard exists within 30 days after the school board submits its findings to the Department. The school board shall annually review the conditions and determine whether or not the hazardous conditions remain unchanged. The State Superintendent of Education may request that the Illinois Department of Transportation verify that the conditions have not changed. No action shall lie against the school board, the State Superintendent of Education or the Illinois Department of Transportation for decisions made in accordance with this Section. The provisions of the Administrative Review Law and all amendments and modifications thereof and the rules adopted pursuant thereto shall apply to and govern all proceedings instituted for the judicial review of final administrative decisions of the Department of Transportation under this Section.

(105 ILCS 5/29-5) (from Ch. 122, par. 29-5)

Sec. 29-5. Reimbursement by State for transportation. Any school district, maintaining a school, transporting resident pupils to another school district's vocational program, offered through a joint agreement approved by the State Board of Education, as provided in Section 10-22.22 or transporting its resident pupils to a school which meets the standards for recognition as established by the State Board of Education which provides transportation meeting the standards of safety, comfort, convenience, efficiency and operation prescribed by the State Board of Education for resident pupils in kindergarten or any of grades 1 through 12 who: (a) reside at least 1 1/2 miles as measured by the customary route of travel, from the school attended; or (b) reside in areas where conditions are such that walking constitutes a hazard to the safety of the child when determined under Section 29-3; and (c) are transported to the school attended from pick-up points at the beginning of the school day and back again at the close of the school day or transported to and from their assigned attendance centers during the school day, shall be reimbursed by the State as hereinafter provided in this Section.

to 12 inclusive times a qualifying rate of .05%; in elementary school
districts maintaining grades K to 8 times a qualifying rate of .06%; and in
unit districts maintaining grades K to 12, including optional elementary
unit districts and combined high school - unit districts, times a qualifying
rate of .07%; provided that for optional elementary unit districts and
combined high school - unit districts, assessed valuation for high school
purposes, as defined in Article 11E of this Code, must be used. To be
eligible to receive reimbursement in excess of 4/5 of the cost to transport
eligible pupils, a school district shall have a Transportation Fund tax rate
of at least .12%. If a school district does not have a .12% Transportation
Fund tax rate, the amount of its claim in excess of 4/5 of the cost of
transporting pupils shall be reduced by the sum arrived at by subtracting
the Transportation Fund tax rate from .12% and multiplying that amount
by the districts equalized or assessed valuation, provided, that in no case
shall said reduction result in reimbursement of less than 4/5 of the cost to
transport eligible pupils.

The minimum amount to be received by a district is $16 times the
number of eligible pupils transported.

Any such district transporting resident pupils during the school day
to an area vocational school or another school district's vocational program
more than 1 1/2 miles from the school attended, as provided in Sections
10-22.20a and 10-22.22, shall be reimbursed by the State for 4/5 of the
cost of transporting eligible pupils.

School day means that period of time which the pupil is required to
be in attendance for instructional purposes.

If a pupil is at a location within the school district other than his
residence for child care purposes at the time for transportation to school,
that location may be considered for purposes of determining the 1 1/2
miles from the school attended.

Claims for reimbursement that include children who attend any
school other than a public school shall show the number of such children
transported.

Claims for reimbursement under this Section shall not be paid for
the transportation of pupils for whom transportation costs are claimed for
payment under other Sections of this Act.

The allowable direct cost of transporting pupils for regular,

maintenance personnel; employee benefits excluding Illinois municipal retirement payments, social security payments, unemployment insurance payments and workers' compensation insurance premiums; expenditures to independent carriers who operate school buses; payments to other school districts for pupil transportation services; pre-approved contractual expenditures for computerized bus scheduling; the cost of gasoline, oil, tires, and other supplies necessary for the operation of school buses; the cost of converting buses' gasoline engines to more fuel efficient engines or to engines which use alternative energy sources; the cost of travel to meetings and workshops conducted by the regional superintendent or the State Superintendent of Education pursuant to the standards established by the Secretary of State under Section 6-106 of the Illinois Vehicle Code to improve the driving skills of school bus drivers; the cost of maintenance of school buses including parts and materials used; expenditures for leasing transportation vehicles, except interest and service charges; the cost of insurance and licenses for transportation vehicles; expenditures for the rental of transportation equipment; plus a depreciation allowance of 20% for 5 years for school buses and vehicles approved for transporting pupils to and from school and a depreciation allowance of 10% for 10 years for other transportation equipment so used. Each school year, if a school district has made expenditures to the Regional Transportation Authority or any of its service boards, a mass transit district, or an urban transportation district under an intergovernmental agreement with the district to provide for the transportation of pupils and if the public transit carrier received direct payment for services or passes from a school district within its service area during the 2000-2001 school year, then the allowable direct cost of transporting pupils for regular, vocational, and special education pupil transportation shall also include the expenditures that the district has made to the public transit carrier. In addition to the above allowable costs school districts shall also claim all transportation supervisory salary costs, including Illinois municipal retirement payments, and all transportation related building and building maintenance costs without limitation.

Special education allowable costs shall also include expenditures for the salaries of attendants or aides for that portion of the time they assist special education pupils while in transit and expenditures for parents and public carriers for transporting special education pupils when pre-approved by the State Superintendent of Education.

Indirect costs shall be included in the reimbursement claim for districts which own and operate their own school buses. Such indirect

costs shall include administrative costs, or any costs attributable to transporting pupils from their attendance centers to another school building for instructional purposes. No school district which owns and operates its own school buses may claim reimbursement for indirect costs which exceed 5% of the total allowable direct costs for pupil transportation.

The State Board of Education shall prescribe uniform regulations for determining the above standards and shall prescribe forms of cost accounting and standards of determining reasonable depreciation. Such depreciation shall include the cost of equipping school buses with the safety features required by law or by the rules, regulations and standards promulgated by the State Board of Education, and the Department of Transportation for the safety and construction of school buses provided, however, any equipment cost reimbursed by the Department of Transportation for equipping school buses with such safety equipment shall be deducted from the allowable cost in the computation of reimbursement under this Section in the same percentage as the cost of the equipment is depreciated.

On or before August 15, annually, the chief school administrator for the district shall certify to the State Superintendent of Education the district's claim for reimbursement for the school year ending on June 30 next preceding. The State Superintendent of Education shall check and approve the claims and prepare the vouchers showing the amounts due for district reimbursement claims. Each fiscal year, the State Superintendent of Education shall prepare and transmit the first 3 vouchers to the Comptroller on the 30th day of September, December and March, respectively, and the final voucher, no later than June 20.

If the amount appropriated for transportation reimbursement is insufficient to fund total claims for any fiscal year, the State Board of Education shall reduce each school district's allowable costs and flat grant amount proportionately to make total adjusted claims equal the total amount appropriated.

For purposes of calculating claims for reimbursement under this Section for any school year beginning July 1, 1998, or thereafter, the equalized assessed valuation for a school district used to compute reimbursement shall be computed in the same manner as it is computed under paragraph (2) of subsection (G) of Section 18-8.05.

All reimbursements received from the State shall be deposited into the district's transportation fund or into the fund from which the allowable expenditures were made.

Notwithstanding any other provision of law, any school district receiving a payment under this Section or under Section 14-7.02, 14-7.02b, or 14-13.01 of this Code may classify all or a portion of the funds that it receives in a particular fiscal year or from general State aid pursuant to Section 18-8.05 of this Code as funds received in connection with any funding program for which it is entitled to receive funds from the State in that fiscal year (including, without limitation, any funding program referenced in this Section), regardless of the source or timing of the receipt. The district may not classify more funds as funds received in connection with the funding program than the district is entitled to receive in that fiscal year for that program. Any classification by a district must be made by a resolution of its board of education. The resolution must identify the amount of any payments or general State aid to be classified under this paragraph and must specify the funding program to which the funds are to be treated as received in connection therewith. This resolution is controlling as to the classification of funds referenced therein. A certified copy of the resolution must be sent to the State Superintendent of Education. The resolution shall still take effect even though a copy of the resolution has not been sent to the State Superintendent of Education in a timely manner. No classification under this paragraph by a district shall affect the total amount or timing of money the district is entitled to receive under this Code. No classification under this paragraph by a district shall in any way relieve the district from or affect any requirements that otherwise would apply with respect to that funding program, including any accounting of funds by source, reporting expenditures by original source and purpose, reporting requirements, or requirements of providing services.

Any school district with a population of not more than 500,000 must deposit all funds received under this Article into the transportation fund and use those funds for the provision of transportation services.

PUBLIC ACT 95-0909
(House Bill No. 4378)

AN ACT concerning local government.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:
Section 5. The Township Code is amended by changing Section 30-50 as follows:
(60 ILCS 1/30-50)
Sec. 30-50. Purchase and use of property.
(a) The electors may make all orders for the purchase, sale, conveyance, regulation, or use of the township’s corporate property (including the direct sale or lease of single township road district property) that may be deemed conducive to the interests of its inhabitants, including the lease, for up to 10 years, or for up to 25 years if the lease is for a wireless telecommunications tower, at fair market value, of corporate property for which no use or need during the lease period is anticipated at the time of leasing. The property may be leased to another governmental body, however, or to a not-for-profit corporation that has contracted to construct or fund the construction of a structure or improvement upon the real estate owned by the township and that has contracted with the township to allow the township to use at least a portion of the structure or improvement to be constructed upon the real estate leased and not otherwise used by the township, for any term not exceeding 50 years and for any consideration. In the case of a not-for-profit corporation, the township shall hold a public hearing on the proposed lease. The township clerk shall give notice of the hearing by publication in a newspaper published in the township, or in a newspaper published in the county and having general circulation in the township if no newspaper is published in the township, and by posting notices in at least 5 public places at least 10 days before the public hearing.
(b) If a new tax is to be levied or an existing tax rate is to be increased above the statutory limits for the purchase of the property, however, no action otherwise authorized in subsection (a) shall be taken unless a petition signed by at least 10% of the registered voters residing in the township is presented to the township clerk. If a petition is presented to
the township clerk, the clerk shall order a referendum on the proposition. The referendum shall be held at the next annual or special township meeting or at an election in accordance with the general election law. If the referendum is ordered to be held at the township meeting, the township clerk shall give notice that at the next annual or special township meeting the proposition shall be voted upon. The notice shall set forth the proposition and shall be given by publication in a newspaper published in the township. If there is no newspaper published in the township, the notice shall be published in a newspaper published in the county and having general circulation in the township. Notice also shall be given by posting notices in at least 5 public places at least 10 days before the township meeting. If the referendum is ordered to be held at an election, the township clerk shall certify that proposition to the proper election officials, who shall submit the proposition at an election. The proposition shall be submitted in accordance with the general election law.

(c) If the leased property is utilized in part for private use and in part for public use, those portions of the improvements devoted to private use are fully taxable. The land is exempt from taxation to the extent that the uses on the land are public and taxable to the extent that the uses are private.

(d) Before the township makes a lease or sale of township or road district real or personal property, unless the personal property has a sale value of $2,500 or less, the electors shall adopt a resolution stating the intent to lease or sell the real or personal property, describing the property in full, and stating the terms and conditions the electors deem necessary and desirable for the lease or sale. A resolution stating the intent to sell real property shall also contain pertinent information concerning the size, use, and zoning of the property. The value of real property shall be determined by a State licensed real estate appraiser. The appraisal shall be available for public inspection. The resolution may direct the sale to be conducted by the staff of the township or by listing with local licensed real estate agencies (in which case the terms of the agent's compensation shall be included in the resolution).

When a township sells township or road district personal property valued for sale at $2,500 or less, the electors are not required to adopt a resolution. Prior to the sale, the clerk shall prepare a notice stating the intent of the township or road district to sell personal property with a sale value of $2,500 or less and describing the property in full.
The clerk shall thereafter publish the resolution or personal property sale notice once in a newspaper published in the township or, if no newspaper is published in the township, in a newspaper generally circulated in the township. If no newspaper is generally circulated in the township, the clerk shall post the resolution or personal property sale notice in 5 of the most public places in the township. In addition to the foregoing publication requirements, the clerk shall post the resolution or personal property sale notice at the office of the township (if township property is involved) or at the office of the road district (if road district property is involved). The following information shall be published or posted with the resolution or personal property sale notice: (i) the date by which all bids must be received by the township or road district, which shall not be less than 30 days after the date of publication or posting, and (ii) the place, time, and date at which bids shall be opened, which shall be at a regular meeting of the township board.

All bids shall be opened by the clerk (or someone duly appointed to act for the clerk) at the regular meeting of the township board described in the notice. With respect to township personal property, except personal property valued for sale at $2,500 or less, the township board may accept the high bid or any other bid determined to be in the best interests of the township by a majority vote of the board. With respect to township real property, the township board may accept the high bid or any other bid determined to be in the best interests of the township by a vote of three-fourths of the township board then holding office, but in no event at a price less than 80% of the appraised value. With respect to road district property, except personal property valued for sale at $2,500 or less, the highway commissioner may accept the high bid or any other bid determined to be in the best interests of the road district. In each case, the township board or commissioner may reject any and all bids. With respect to township or road district personal property valued for sale at $2,500 or less, the clerk shall accept at least 2 bids and the township board or highway commissioner shall accept the highest bid. This notice and competitive bidding procedure shall not be followed when property is leased to another governmental body. The notice and competitive bidding procedure shall not be followed when property is declared surplus by the electors and sold to another governmental body.

(e) A trade-in of machinery or equipment on new or different machinery or equipment does not constitute the sale of township or road district property.

AN ACT concerning public employee benefits.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:
Section 5. The Illinois Pension Code is amended by changing
Sections 16-150.1 and 16-203 as follows:
(40 ILCS 5/16-150.1)
Sec. 16-150.1. Return to teaching in subject shortage area.
(a) As used in this Section, "eligible employment" means employment beginning on or after July 1, 2003 and ending no later than June 30, 2013, in a subject shortage area at a qualified school, in a position requiring certification under the law governing the certification of teachers.
As used in this Section, "qualified school" means a public elementary or secondary school that meets all of the following requirements:
(1) At the time of hiring a retired teacher under this Section, the school is experiencing a shortage of teachers in the subject shortage area for which the teacher is hired.
(2) The school district to which the school belongs has complied with the requirements of subsection (e), and the regional superintendent has certified that compliance to the System.
(3) If the school district to which the school belongs provides group health benefits for its teachers generally, substantially similar health benefits are made available for teachers participating in the program under this Section, without any limitations based on pre-existing conditions.
(b) An annuitant receiving a retirement annuity under this Article (other than a disability retirement annuity) may engage in eligible

employment at a qualified school without impairing his or her retirement status or retirement annuity, subject to the following conditions:

(1) the eligible employment does not begin within the school year during which service was terminated;

(2) the annuitant has not received any early retirement incentive under Section 16-133.3, 16-133.4, or 16-133.5;

(3) if the annuitant retired before age 60 and with less than 34 years of service, the eligible employment does not begin within the year following the effective date of the retirement annuity;

(4) if the annuitant retired at age 60 or above or with 34 or more years of service, the eligible employment does not begin within the 90 days following the effective date of the retirement annuity; and

(5) before the eligible employment begins, the employer notifies the System in writing of the annuitant's desire to participate in the program established under this Section.

(c) An annuitant engaged in eligible employment in accordance with subsection (b) shall be deemed a participant in the program established under this Section for so long as he or she remains employed in eligible employment.

(d) A participant in the program established under this Section continues to be a retirement annuitant, rather than an active teacher, for all of the purposes of this Code, but shall be deemed an active teacher for other purposes, such as inclusion in a collective bargaining unit, eligibility for group health benefits, and compliance with the laws governing the employment, regulation, certification, treatment, and conduct of teachers.

With respect to an annuitant's eligible employment under this Section, neither employee nor employer contributions shall be made to the System and no additional service credit shall be earned. Eligible employment does not affect the annuitant's final average salary or the amount of the retirement annuity.

(e) Before hiring a teacher under this Section, the school district to which the school belongs must do the following:

(1) If the school district to which the school belongs has honorably dismissed, within the calendar year preceding the beginning of the school term for which it seeks to employ a retired teacher under the program established in this Section, any teachers who are legally qualified to hold positions in the subject shortage area and have not yet begun to receive their retirement annuities

under this Article, the vacant positions must first be tendered to those teachers.

(2) For a period of at least 90 days during the 6 months preceding the beginning of either the fall or spring term for which it seeks to employ a retired teacher under the program established in this Section, the school district must, on an ongoing basis, both
(i) advertise its vacancies in the subject shortage area in a newspaper of general circulation in the area in which the school is located and in employment bulletins published by college and university placement offices located near the school; and
(ii) search for teachers legally qualified to fill those vacancies through the Illinois Education Job Bank.

The school district must submit documentation of its compliance with this subsection to the regional superintendent. Upon receiving satisfactory documentation from the school district, the regional superintendent shall certify the district's compliance with this subsection to the System.

(f) This Section applies without regard to whether the annuitant was in service on or after the effective date of this amendatory Act of the 93rd General Assembly.

(40 ILCS 5/16-203)

Sec. 16-203. Application and expiration of new benefit increases.

(a) As used in this Section, "new benefit increase" means an increase in the amount of any benefit provided under this Article, or an expansion of the conditions of eligibility for any benefit under this Article, that results from an amendment to this Code that takes effect after June 1, 2005 (the effective date of Public Act 94-4) this amendatory Act of the 94th General Assembly. "New benefit increase", however, does not include any benefit increase resulting from the changes made to this Article by this amendatory Act of the 95th General Assembly.

(b) Notwithstanding any other provision of this Code or any subsequent amendment to this Code, every new benefit increase is subject to this Section and shall be deemed to be granted only in conformance with and contingent upon compliance with the provisions of this Section.

(c) The Public Act enacting a new benefit increase must identify and provide for payment to the System of additional funding at least sufficient to fund the resulting annual increase in cost to the System as it accrues.

New matter indicated by italics - deletions by strikeout.
Every new benefit increase is contingent upon the General Assembly providing the additional funding required under this subsection. The Commission on Government Forecasting and Accountability shall analyze whether adequate additional funding has been provided for the new benefit increase and shall report its analysis to the Public Pension Division of the Department of Financial and Professional Regulation. A new benefit increase created by a Public Act that does not include the additional funding required under this subsection is null and void. If the Public Pension Division determines that the additional funding provided for a new benefit increase under this subsection is or has become inadequate, it may so certify to the Governor and the State Comptroller and, in the absence of corrective action by the General Assembly, the new benefit increase shall expire at the end of the fiscal year in which the certification is made.

(d) Every new benefit increase shall expire 5 years after its effective date or on such earlier date as may be specified in the language enacting the new benefit increase or provided under subsection (c). This does not prevent the General Assembly from extending or re-creating a new benefit increase by law.

(e) Except as otherwise provided in the language creating the new benefit increase, a new benefit increase that expires under this Section continues to apply to persons who applied and qualified for the affected benefit while the new benefit increase was in effect and to the affected beneficiaries and alternate payees of such persons, but does not apply to any other person, including without limitation a person who continues in service after the expiration date and did not apply and qualify for the affected benefit while the new benefit increase was in effect.

Individual advanced practice nurses may also be granted clinical privileges to order, select, and administer medications, including controlled substances, to provide delineated care. (C) A certified registered nurse anesthetist is not required to possess prescriptive authority or a written collaborative agreement meeting the requirements of Section 65-35 of the Nurse Practice Act to provide anesthesia services ordered by a licensed physician, dentist, or podiatrist. Licensed certified registered nurse anesthetists are authorized to select, order, and administer drugs and apply the appropriate medical devices in the provision of anesthesia services under the anesthesia plan agreed with by the anesthesiologist or, in the absence of an available anesthesiologist with clinical privileges, agreed with by the operating physician, operating dentist, or operating podiatrist in accordance with the medical staff consulting committee policies of a licensed ambulatory surgical treatment center.

Section 99. Effective date. This Act takes effect upon becoming law.

Effective August 26, 2008.
AN ACT concerning civil law.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Illinois Marriage and Dissolution of Marriage Act is amended by changing Section 602.1 as follows:

(750 ILCS 5/602.1) (from Ch. 40, par. 602.1)

Sec. 602.1. (a) The dissolution of marriage, the declaration of invalidity of marriage, the legal separation of the parents, or the parents living separate and apart shall not diminish parental powers, rights, and responsibilities except as the court for good reason may determine under the standards of Section 602.

(b) Upon the application of either or both parents, or upon its own motion, the court shall consider an award of joint custody. Joint custody means custody determined pursuant to a Joint Parenting Agreement or a Joint Parenting Order. In such cases, the court shall initially request the parents to produce a Joint Parenting Agreement. Such Agreement shall specify each parent's powers, rights and responsibilities for the personal care of the child and for major decisions such as education, health care, and religious training. The Agreement shall further specify a procedure by which proposed changes, disputes and alleged breaches may be mediated or otherwise resolved and shall provide for a periodic review of its terms by the parents. In producing a Joint Parenting Agreement, the parents shall be flexible in arriving at resolutions which further the policy of this State as expressed in Sections 102 and 602. For the purpose of assisting the court in making a determination whether an award of joint custody is appropriate, the court may order mediation and may direct that an investigation be conducted pursuant to the provisions of Section 605. If there is a danger to the health or safety of a partner, joint mediation shall not be required by the court. In the event the parents fail to produce a Joint Parenting Agreement, the court may enter an appropriate Joint Parenting Order under the standards of Section 602 which shall specify and contain the same elements as a Joint Parenting Agreement, or it may award sole custody under the standards of Sections 602, 607, and 608.

(c) The court may enter an order of joint custody if it determines that joint custody would be in the best interests of the child, taking into account the following:

New matter indicated by italics - deletions by strikeout.
(1) the ability of the parents to cooperate effectively and consistently in matters that directly affect the joint parenting of the child. "Ability of the parents to cooperate" means the parents' capacity to substantially comply with a Joint Parenting Order. The court shall not consider the inability of the parents to cooperate effectively and consistently in matters that do not directly affect the joint parenting of the child;

(2) The residential circumstances of each parent; and

(3) all other factors which may be relevant to the best interest of the child.

(d) Nothing within this section shall imply or presume that joint custody shall necessarily mean equal parenting time. The physical residence of the child in joint custodial situations shall be determined by:

(1) express agreement of the parties; or

(2) order of the court under the standards of this Section.

(e) Notwithstanding any other provision of law, access to records and information pertaining to a child, including but not limited to medical, dental, child care and school records, shall not be denied to a parent for the reason that such parent is not the child's custodial parent; however, no parent shall have access to the school records of a child if the parent is prohibited by an order of protection from inspecting or obtaining such records pursuant to the Illinois Domestic Violence Act of 1986, as now or hereafter amended. No parent who is a named respondent in an order of protection issued pursuant to the Domestic Violence Act of 1986 shall have access to the health care records of a child who is a protected person under that order of protection.

(Source: P.A. 94-377, eff. 7-29-05.)

Section 10. The Illinois Domestic Violence Act of 1986 is amended by changing Section 222 as follows:

(750 ILCS 60/222) (from Ch. 40, par. 2312-22)
Sec. 222. Notice of orders.

(a) Entry and issuance. Upon issuance of any order of protection, the clerk shall immediately, or on the next court day if an emergency order is issued in accordance with subsection (c) of Section 217, (i) enter the order on the record and file it in accordance with the circuit court procedures and (ii) provide a file stamped copy of the order to respondent, if present, and to petitioner.

(b) Filing with sheriff. The clerk of the issuing judge shall, or the petitioner may, on the same day that an order of protection is issued, file a
certified copy of that order with the sheriff or other law enforcement officials charged with maintaining Department of State Police records or charged with serving the order upon respondent. If the order was issued in accordance with subsection (c) of Section 217, the clerk shall on the next court day, file a certified copy of the order with the Sheriff or other law enforcement officials charged with maintaining Department of State Police records.

(c) Service by sheriff. Unless respondent was present in court when the order was issued, the sheriff, other law enforcement official or special process server shall promptly serve that order upon respondent and file proof of such service, in the manner provided for service of process in civil proceedings. Instead of serving the order upon the respondent, however, the sheriff, other law enforcement official, or special process server may serve the respondent with a short form notification as provided in Section 222.10. If process has not yet been served upon the respondent, it shall be served with the order or short form notification. A single fee may be charged for service of an order obtained in civil court, or for service of such an order together with process, unless waived or deferred under Section 210.

(c-5) If the person against whom the order of protection is issued is arrested and the written order is issued in accordance with subsection (c) of Section 217 and received by the custodial law enforcement agency before the respondent or arrestee is released from custody, the custodial law enforcement agent shall promptly serve the order upon the respondent or arrestee before the respondent or arrestee is released from custody. In no event shall detention of the respondent or arrestee be extended for hearing on the petition for order of protection or receipt of the order issued under Section 217 of this Act.

(d) Extensions, modifications and revocations. Any order extending, modifying or revoking any order of protection shall be promptly recorded, issued and served as provided in this Section.

(e) Notice to schools. measures, the benefit-cost ratio is greater than one. The benefit-cost ratio is the ratio of the net present value of the total benefits of the program to the net present value of the total costs as calculated over the lifetime of the measures. A total resource cost test compares the sum of avoided electric utility costs, representing the benefits that accrue to the system and the participant in the delivery of those efficiency measures, to the sum of all incremental costs of end-use measures that are implemented due to the program (including both utility and participant contributions), plus costs to administer, deliver, and evaluate each demand-side program, to quantify the net savings obtained by substituting the demand-side program for supply resources. In calculating avoided costs of power and energy that an electric utility would otherwise have had to acquire, reasonable estimates shall be included of financial costs likely to be imposed by future regulations and legislation on emissions of greenhouse gases.

AN ACT concerning education.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Higher Education Student Assistance Act is amended by changing Section 35 as follows:

(110 ILCS 947/35)

Sec. 35. Monetary award program.

(a) The Commission shall, each year, receive and consider applications for grant assistance under this Section. Subject to a separate appropriation for such purposes, an applicant is eligible for a grant under this Section when the Commission finds that the applicant:

(1) is a resident of this State and a citizen or permanent resident of the United States; and

(2) in the absence of grant assistance, will be deterred by financial considerations from completing an educational program at the qualified institution of his or her choice.

(b) The Commission shall award renewals only upon the student's application and upon the Commission's finding that the applicant:

(1) has remained a student in good standing;

(2) remains a resident of this State; and

(3) is in a financial situation that continues to warrant assistance.

(c) All grants shall be applicable only to tuition and necessary fee costs. The Commission shall determine the grant amount for each student, which shall not exceed the smallest of the following amounts:

(1) subject to appropriation, $5,468 for fiscal year 2009, $5,968 for fiscal year 2010, and $6,468 for fiscal year 2011 and each fiscal year thereafter $4,968, or such lesser amount as the Commission finds to be available, during an academic year; or

(2) the amount which equals 2 semesters or 3 quarters tuition and other necessary fees required generally by the institution of all full-time undergraduate students; or

(3) such amount as the Commission finds to be appropriate in view of the applicant's financial resources.

Subject to appropriation, the maximum grant amount for students not subject to subdivision (1) of this subsection (c) must be increased by

the same percentage as any increase made by law to the maximum grant amount under subdivision (1) of this subsection (c).

"Tuition and other necessary fees" as used in this Section include the customary charge for instruction and use of facilities in general, and the additional fixed fees charged for specified purposes, which are required generally of nongrant recipients for each academic period for which the grant applicant actually enrolls, but do not include fees payable only once or breakage fees and other contingent deposits which are refundable in whole or in part. The Commission may prescribe, by rule not inconsistent with this Section, detailed provisions concerning the computation of tuition and other necessary fees.

(d) No applicant, including those presently receiving scholarship assistance under this Act, is eligible for monetary award program consideration under this Act after receiving a baccalaureate degree or the equivalent of 135 semester credit hours of award payments.

(e) The Commission, in determining the number of grants to be offered, shall take into consideration past experience with the rate of grant funds unclaimed by recipients. The Commission shall notify applicants that grant assistance is contingent upon the availability of appropriated funds.

(f) The Commission may request appropriations for deposit into the Monetary Award Program Reserve Fund. Monies deposited into the Monetary Award Program Reserve Fund may be expended exclusively for one purpose: to make Monetary Award Program grants to eligible students. Amounts on deposit in the Monetary Award Program Reserve Fund may not exceed 2% of the current annual State appropriation for the Monetary Award Program.

The purpose of the Monetary Award Program Reserve Fund is to enable the Commission each year to assure as many students as possible of their eligibility for a Monetary Award Program grant and to do so before commencement of the academic year. Moneys deposited in this Reserve Fund are intended to enhance the Commission's management of the Monetary Award Program, minimizing the necessity, magnitude, and frequency of adjusting award amounts and ensuring that the annual Monetary Award Program appropriation can be fully utilized.

(g) The Commission shall determine the eligibility of and make grants to applicants enrolled at qualified for-profit institutions in accordance with the criteria set forth in this Section. The eligibility of

Failure to comply with the requirements of this Section shall be cause for removal or discharge from employment.

The Director of Human Resources Personnel is authorized to waive this requirement for any person assigned to a facility located outside of the territorial boundaries.

Sec. 5.4. The executive director general superintendent shall prepare the budget for the district and shall submit the proposed budget to the board of trustees which shall make such changes as it deems desirable and shall approve the budget. The content of the budget shall be substantially as follows:

(1) A budgetary message which sets forth the fiscal policy of the district for the fiscal year, describing in connection therewith the programs and the cost of performance to achieve the objectives of the district relating to drainage, sewage collection, sewage treatment and solids disposals including unit costs whenever ascertainable, in such a manner that indirect cost to achieve such objectives will be set apart for purpose of cost analysis. The message also should include a general budget summary setting forth the aggregate figures of the budget to show the balanced relationship between the total proposed expenditures and the total anticipated receipts and other means of financing the budget for the ensuing fiscal year, contrasted with the actual receipt and disbursement figures for the preceding year and the estimated figures for the current year.

(2) The several estimates, statements, and other detail, set forth in Section 5.3 of this Act.

(3) Complete drafts of the proposed appropriation ordinance, tax levy ordinance, and other ordinances required to give legal sanction to the appropriations when approved and adopted by the board of trustees of the district.

Sec. 5.5. At least 60 days prior to the beginning of the budget year, the heads of all departments of the district shall prepare and submit to the executive director general superintendent detailed estimates of expenditure requirements with respect to the contributions each department or organizational unit is expected to make in achieving approved program objectives for the budget year, compared with the actual figures of the preceding year and the estimated figures for the current year. The expenditure estimates must be in detail and must be classified to set forth the data by funds, organization units, objects, character, and functions (activities) of expenditures in accordance with the classification of expenditure accounts adopted, or hereafter adopted, by the board of trustees. The detailed estimates of expenditure shall be accompanied by written statements of specific objectives to be achieved, the cost of achieving these objectives and supporting work units and unit cost data wherever applicable.

Within 15 days after the receipt of the department expenditure estimates, the executive director general superintendent shall prepare and submit to the board of trustees a sufficient number of complete copies of

the departmental estimates of expenditures together with the aggregate expenditure estimates in detail and his own estimate of receipts of the district for the ensuing fiscal year. The estimates of receipts must be in detail and must be classified to show the receipts by funds, and the several sources of receipts, including the proceeds to be derived from the sale of bonds, or other property, and must be in accordance with the classification of revenue accounts now or hereafter adopted by the board of trustees.

The board of trustees shall review the estimates both of anticipated receipts and of anticipated expenditures, adding to, altering, revising, increasing or decreasing the items of the estimates as it deems necessary in view of the needs and available and probable receipts of the district. The board of trustees shall then prepare a tentative budget setting forth the detailed estimates both of expenditures and receipts together with all supporting schedules, summary statements, drafts of the appropriation ordinance, tax levy ordinance and other ordinances necessary to give effect to the budget, in the form provided in Section 5.4 of this Act.

(70 ILCS 2605/5.7) (from Ch. 42, par. 324q)

Sec. 5.7. The board of trustees of the district shall consider the budget estimates as submitted to it by the executive director general superintendent and may add to, revise, alter, increase or decrease the items contained in the budget. However, in no event may the total aggregate proposed expenditures in the budget exceed the total estimated means of financing the budget.

The board of trustees shall, before January first of the budget year, adopt the budget which is effective on January first of the budget year. The appropriation ordinance and tax levy ordinance must be parts of the budget and must be adopted as a part thereof by single action of the board of trustees. The appropriation ordinance must be filed with and be a part of the tax levy ordinance, which tax levy ordinance need not contain any further or additional specifications of purposes, itemizations or details for which appropriations and the levy are made. The board of trustees shall appropriate such sums of money as may be necessary to defray all necessary expenses and liabilities of the district to be paid by the board of trustees or incurred during and until the time of the adoption and effective date of the next annual appropriation ordinance under this Section. The board of trustees shall appropriate such sums of money as may be necessary to pay the principal and interest on bonds. The board may not expend any money or incur any indebtedness or liability on behalf of the

district in excess of the percentage and several amounts limited by law, when applied to the last known assessment. The appropriation ordinance must specify the several funds, organization units, objects, character and functions (activities) for which such appropriations are made, and the amount appropriated for each fund, organization unit, object, character, and function (activity). The receipts of the district as estimated in the budget and as provided for by the tax levy ordinances and other revenues and borrowing Acts or ordinances are applicable in the amounts and according to the funds specified in the budget for the purpose of meeting the expenditures authorized by the appropriate ordinance. The vote of the board of trustees upon the budget shall be taken by yeas and nays, and shall be entered in the proceedings of the board of trustees.

The appropriation ordinance may be amended at the next regular meeting of the board of trustees occurring before January first of the budget year and not less than 5 days after the passage thereof in like manner as other ordinances. If any items of appropriations contained therein are vetoed by the president of the board, with recommendations for alterations or changes therein, the adoption of such recommendations by a yea and nay vote is the equivalent of an amendment of such annual appropriation ordinance with like effect as if an amendatory ordinance had been passed.

Such appropriation ordinance together with other parts of the budget as the board of trustees desire must be published in a newspaper of general circulation in the district and made conveniently available for inspection by the public. Such publication must be made after the date of passage of such budget and before January 20 of the budget year, but the date of publication does not affect the legality of the appropriation ordinance or the tax levy ordinance or any other ordinances necessary to give effect to the budget. Such ordinances are effective on the first day of January of the budget year.

The Clerk shall certify that such appropriation ordinance as published is a true, accurate and complete copy of the appropriation ordinance as passed and approved by the board of trustees. The board of trustees shall also make public, by publication or otherwise, at this time, the tax rate necessary or estimated to be necessary to finance the budget as adopted.

After adoption of the appropriation ordinance, the board of trustees may not make any further or other appropriation prior to the adoption or passage of the next succeeding annual appropriation ordinance. The board

has no power, either directly or indirectly, to make any contract or to take
any action which adds to the total of district expenditures or liabilities in
any budget year any sum over and above the amount provided for in the
annual appropriation ordinance for the budget year. However, the board of
trustees has the power, anything in this Act to the contrary
notwithstanding, if after the adoption of the appropriation ordinance (1)
federal or State grants or loans are accepted, (2) the voters approve a bond
ordinance for a particular purpose or the issuance of bonds is otherwise
authorized by law, or (3) duly authorized bonds of the district remaining
unissued and unsold have been cancelled and any ordinance has been
adopted by the board of trustees under Section 9 of this Act authorizing
the issuance of bonds not exceeding in the aggregate the amount of bonds
so cancelled, to pass a supplemental appropriation ordinance (in
compliance with the provisions of this Act as to publication and voting
thereon by the board of trustees) making appropriation, for the particular
purpose only as set forth in the ordinance, of the proceeds of the grants,
loans, or bond issue or any part thereof required to be expended during the
fiscal year. However, nothing herein contained prevents the board of
trustees, by a concurring vote of two-thirds of all the trustees (votes to be
taken by yeas and nays and entered in the proceeding of the board of
trustees), from making any expenditures or incurring any liability rendered
necessary to meet emergencies such as epidemics, flood, fire, unforeseen
damages or other catastrophes, happening after the annual appropriation
ordinance has been passed or adopted, nor does anything herein deprive
the board of trustees of the power to provide for and cause to be paid from
the district funds any charge upon the district imposed by law without the
action of the board of trustees.

water-carried wastes from residences, buildings, businesses, industrial
establishments, institutions, or other places together with any ground,

"Industrial Wastes" means all solids, liquids, or gaseous wastes
resulting from any commercial, industrial, manufacturing, agricultural,

trade, or business operation or process, or from the development, recovery, or processing of natural resources.

"Other Wastes" means decayed wood, sawdust, shavings, bark, lime, refuse, ashes, garbage, offal, oil, tar, chemicals, and all other substances except sewage and industrial wastes.

"Person" means any individual, firm, association, joint venture, sole proprietorship, company, partnership, estate copartnership, corporation, joint stock company, trust, school district, unit of local government, or private corporation organized or existing under the laws of this or any other state or country.

"Executive Director" means the executive director of the sanitary district.

(b) It shall be unlawful for any person to discharge sewage, industrial waste, or other wastes into the sewerage system of a sanitary district or into any sewer connected therewith, except upon the terms and conditions that the sanitary district might reasonably impose by way of ordinance, permit, or otherwise.

Any sanitary district, in addition to all other powers vested in it and in the interest of public health and safety, or as authorized by subsections (b) and (c) of Section 46 of the Environmental Protection Act, is hereby empowered to pass all ordinances, rules, or regulations necessary to implement this Section, including but not limited to, the imposition of charges based on factors that influence the cost of treatment, including strength and volume, and including the right of access during reasonable hours to the premises of a person for enforcement of adopted ordinances, rules, or regulations.

(c) Whenever the sanitary district acting through the executive director determines that sewage, industrial wastes, or other wastes are being discharged into the sewerage system and when, in the opinion of the executive director the discharge is in violation of an ordinance, rules, or regulations adopted by the Board of Commissioners under this Section governing industrial wastes or other wastes, the executive director shall order the offending party to cease and desist. The order shall be served by certified mail or personally on the owner, officer, registered agent, or individual designated by permit.

In the event the offending party fails or refuses to discontinue the discharge within 90 days after notification of the cease and desist order, the executive director may order the offending

party to show cause before the Board of Commissioners of the sanitary
district why the discharge should not be discontinued. A notice shall be
served on the offending party directing him, her, or it to show cause before
the Board of Commissioners why an order should not be entered directing
the continuance of the discharge. The notice shall specify the time and
place where a hearing will be held and shall be served personally or by
registered or certified mail at least 10 days before the hearing; and in the
case of a unit of local government or a corporation the service shall be
upon an officer or agent thereof. After reviewing the evidence, the Board
of Commissioners may issue an order to the party responsible for the
discharge, directing that within a specified period of time the discharge be
discontinued. The Board of Commissioners may also order the party
responsible for the discharge to pay a civil penalty in an amount specified
by the Board of Commissioners that is not less than $100 nor more than
$2,000 per day for each day of discharge of effluent in violation of this Act
as provided in subsection (d). The Board of Commissioners may also order
the party responsible for the violation to pay court reporter costs and
hearing officer fees in a total amount not exceeding $3,000.

(d) The Board of Commissioners shall establish procedures for
assessing civil penalties and issuing orders under subsection (c) as follows:

(1) In making its orders and determinations, the Board of
Commissioners shall take into consideration all the facts and
circumstances bearing on the activities involved and the
assessment of civil penalties as shown by the record produced at
the hearing.

(2) The Board of Commissioners shall establish a panel of
independent hearing officers to conduct all hearings on the
assessment of civil penalties and issuance of orders under
subsection (c). The hearing officers shall be attorneys licensed to
practice law in this State.

(3) The Board of Commissioners shall promulgate
procedural rules governing the proceedings, the assessment of civil
penalties, and the issuance of orders.

(4) All hearings shall be on the record, and testimony taken
must be under oath and recorded stenographically. Transcripts so
recorded must be made available to any member of the public or
any party to the hearing upon payment of the usual charges for
transcripts. At the hearing, the hearing officer may issue, in the
name of the Board of Commissioners, notices of hearing requesting

the attendance and testimony of witnesses and the production of evidence relevant to any matter involved in the hearing and may examine witnesses.

(5) The hearing officer shall conduct a full and impartial hearing on the record, with an opportunity for the presentation of evidence and cross-examination of the witnesses. The hearing officer shall issue findings of fact, conclusions of law, a recommended civil penalty, and an order based solely on the record. The hearing officer may also recommend, as part of the order, that the discharge of industrial waste be discontinued within a specified time.

(6) The findings of fact, conclusions of law, recommended civil penalty, and order shall be transmitted to the Board of Commissioners along with a complete record of the hearing.

(7) The Board of Commissioners shall either approve or disapprove the findings of fact, conclusions of law, recommended civil penalty, and order. If the findings of fact, conclusions of law, recommended civil penalty, or order are rejected, the Board of Commissioners shall remand the matter to the hearing officer for further proceedings. If the order is accepted by the Board of Commissioners, it shall constitute the final order of the Board of Commissioners.

(8) (Blank).

(9) The civil penalty specified by the Board of Commissioners shall be paid within 35 days after the party on whom it is imposed receives a written copy of the order of the Board of Commissioners, unless the person or persons to whom the order is issued seeks judicial review under paragraph (8).

(10) If the respondent seeks judicial review of the order assessing civil penalties, the respondent shall, within 35 days after the date of the final order, pay the amount of the civil penalties into an escrow account maintained by the district for that purpose or file a bond guaranteeing payment of the civil penalties if the civil penalties are upheld on review.

(11) Civil penalties not paid by the times specified above shall be delinquent and subject to a lien recorded against the property of the person ordered to pay the penalty. The foregoing provisions for asserting liens against real estate by the sanitary district shall be in addition to and not in derogation of any other

remedy or right of recovery, in law or equity, that the sanitary district may have with respect to the collection or recovery of penalties and charges imposed by the sanitary district. Judgment in a civil action brought by the sanitary district to recover or collect the charges shall not operate as a release and waiver of the lien upon the real estate for the amount of the judgment. Only satisfaction of the judgment or the filing of a release or satisfaction of lien shall release the lien.

(e) The executive director general superintendent may order a person to cease the discharge of industrial waste upon a finding by the executive director general superintendent that the final order of the Board of Commissioners entered after a hearing to show cause has been violated. The executive director general superintendent shall serve the person with a copy of his or her order either by certified mail or personally by serving the owner, officer, registered agent, or individual designated by permit. The order of the executive director general superintendent shall also schedule an expedited hearing before a hearing officer designated by the Board of Commissioners for the purpose of determining whether the company has violated the final order of the Board of Commissioners. The Board of Commissioners shall adopt rules of procedure governing expedited hearings. In no event shall the hearing be conducted less than 7 days after receipt by the person of the executive director's general superintendent's order.

At the conclusion of the expedited hearing, the hearing officer shall prepare a report with his or her findings and recommendations and transmit it to the Board of Commissioners. If the Board of Commissioners, after reviewing the findings and recommendations, and the record produced at the hearings, determines that the person has violated the Board of Commissioner's final order, the Board of Commissioners may authorize the plugging of the sewer. The executive director general superintendent shall give not less than 10 days written notice of the Board of Commissioner's order to the owner, officer, registered agent, or individual designated by permit, as well as the owner of record of the real estate and other parties known to be affected, that the sewer will be plugged.

The foregoing provision for plugging a sewer shall be in addition to and not in derogation of any other remedy, in law or in equity, that the district may have to prevent violation of its ordinances and orders of its Board of Commissioners.

New matter indicated by italics - deletions by strikeout.
(f) A violation of the final order of the Board of Commissioners shall be considered a nuisance. If any person discharges sewage, industrial wastes, or other wastes into any waters contrary to the final order of the Board of Commissioners, the sanitary district acting through the executive director general superintendent has the power to commence an action or proceeding in the circuit court in and for the county in which the sanitary district is located for the purpose of having the discharge stopped either by mandamus or injunction, or to remedy the violation in any manner provided for in this Section.

The court shall specify a time, not exceeding 20 days after the service of the copy of the complaint, in which the party complained of must plead to the complaint, and in the meantime, the party may be restrained. In case of default or after pleading, the court shall immediately inquire into the facts and circumstances of the case and enter an appropriate judgment in respect to the matters complained of. Appeals may be taken as in other civil cases.

(g) The sanitary district, acting through the executive director general superintendent, has the power to commence an action or proceeding for mandamus or injunction in the circuit court ordering a person to cease its discharge, when, in the opinion of the executive director general superintendent, the person's discharge presents an imminent danger to the public health, welfare, or safety, presents or may present an endangerment to the environment, or threatens to interfere with the operation of the sewerage system or a water reclamation plant under the jurisdiction of the sanitary district. The initiation of a show cause hearing is not a prerequisite to the commencement by the sanitary district of an action or proceeding for mandamus or injunction in the circuit court. The court shall specify a time, not exceeding 20 days after the service of a copy of the petition, in which the party complained of must answer the petition, and in the meantime, the party may be restrained. In case of default in answer or after answer, the court shall immediately inquire into the facts and circumstances of the case and enter an appropriate judgment order in respect to the matters complained of. An appeal may be taken from the final judgment in the same manner and with the same effect as appeals are taken from judgment of the circuit court in other actions for mandamus or injunction.

(h) Whenever the sanitary district commences an action under subsection (f) of this Section, the court shall assess a civil penalty of not less than $1,000 nor more than $10,000 for each day the person violates a

Board order. Whenever the sanitary district commences an action under subsection (g) of this Section, the court shall assess a civil penalty of not less than $1,000 nor more than $10,000 for each day the person violates the ordinance. Each day's continuance of the violation is a separate offense. The penalties provided in this Section plus interest at the rate set forth in the Interest Act on unpaid penalties, costs, and fees, imposed by the Board of Commissioners under subsection (d), the reasonable costs to the sanitary district of removal or other remedial action caused by discharges in violation of this Act, reasonable attorney's fees, court costs, and other expenses of litigation together with costs for inspection, sampling, analysis, and administration related to the enforcement action against the offending party are recoverable by the sanitary district in a civil action.

(i) The Board of Commissioners may establish fees for late filing of reports with the sanitary district required by an ordinance governing discharges. The sanitary district shall provide by certified mail a written notice of the fee assessment that states the person has 30 days after the receipt of the notice to request a conference with the executive director's general superintendent's designee to discuss or dispute the appropriateness of the assessed fee. Unless a person objects to paying the fee for filing a report late by timely requesting in writing a conference with a designee of the executive director general superintendent, that person waives his or her right to a conference and the sanitary district may impose a lien recorded against the property of the person for the amount of the unpaid fee.

If a person requests a conference and the matter is not resolved at the conference, the person subject to the fee may request an administrative hearing before an impartial hearing officer appointed under subsection (d) to determine the person's liability for and the amount of the fee.

If the hearing officer finds that the late filing fees are owed to the sanitary district, the sanitary district shall notify the responsible person or persons of the hearing officer's decision. If payment is not made within 30 days after the notice, the sanitary district may impose a lien on the property of the person or persons.

Any liens filed under this subsection shall apply only to the property to which the late filing fees are related. A claim for lien shall be filed in the office of the recorder of the county in which the property is located. The filing of a claim for lien by the district does not prevent the sanitary district from pursuing other means for collecting late filing fees. If a claim for lien is filed, the sanitary district shall notify the person whose

property is subject to the lien, and the person may challenge the lien by filing an action in the circuit court. The action shall be filed within 90 days after the person receives the notice of the filing of the claim for lien. The court shall hear evidence concerning the underlying reasons for the lien only if an administrative hearing has not been held under this subsection.

(j) If the provisions of any paragraph of this Section are declared unconstitutional or invalid by the final decision of any court of competent jurisdiction, the provisions of the remaining paragraphs continue in effect.

(k) Nothing in this Section eliminates any of the powers now granted to municipalities having a population of 500,000 or more as to design, preparation of plans, and construction, maintenance, and operation of sewers and sewerage systems, or for the control and elimination or prevention of the pollution of their waters or waterways, in the Illinois Municipal Code or any other Act of the State of Illinois.

(l) The provisions of the Administrative Review Law and all amendments and rules adopted pursuant to that Law apply to and govern all proceedings for the judicial review of final administrative decisions of the Board of Commissioners in the enforcement of any ordinance, rule, or regulation adopted under this Act.

(70 ILCS 2605/7aa) (from Ch. 42, par. 326aa)

Sec. 7aa. The sanitary district has the power and authority to prevent the pollution of any waters from which a water supply may be obtained by any city, town or village within the district. The sanitary district acting through the executive director has the power to commence an action or proceeding in the circuit court in and for the county in which the district is located for the purpose of having the pollution stopped and prevented either by mandamus or injunction. The court shall specify a time, not exceeding 20 days after the service of the copy of the petition, in which the party complained of must answer the petition, and in the meantime, the party be restrained. In case of default in answer or after answer, the court shall immediately inquire into the facts and circumstances of the case and enter an appropriate judgment order in respect to the matters complained of. An appeal may be taken from the final judgment in the same manner and with the same effect as appeals are taken from judgments of the circuit court in other actions for mandamus or injunction.

(70 ILCS 2605/7f) (from Ch. 42, par. 326f)
Sec. 7f. Regulation of connecting sewerage systems.

(a) It shall be unlawful for any person to construct or install any sewerage system that discharges sewage, industrial wastes, or other wastes, directly or indirectly, into the sewerage system of the sanitary district, unless a written permit for the sewerage system has been granted by the sanitary district acting through the executive director general superintendent. The sanitary district shall specify by ordinance the changes, additions, or extensions to an existing sewerage system that will require a permit. No changes, additions, or extensions to any existing sewerage systems discharging sewage, industrial wastes, or other wastes into the sewerage system of the sanitary district, that requires a permit, may be made until plans for the changes, additions, or extensions have been submitted to and a written permit obtained from the sanitary district acting through the executive director general superintendent; provided, however, that this Section is not applicable in any municipality having a population of more than 500,000.

(b) Sewerage systems shall be operated in accordance with the ordinances of the sanitary district. The Board of Commissioners of any sanitary district is authorized to regulate, limit, extend, deny, or otherwise control any new or existing connection, addition, or extension to any sewer or sewerage system which directly or indirectly discharges into the sanitary district sewerage system. The Board shall adopt standards and specifications for construction, operation, and maintenance. This Section shall not apply to sewerage systems under the jurisdiction of any city, village, or incorporated town having a population of 500,000 or more.

(c) The Board of Commissioners of any sanitary district is hereby authorized to pass all necessary ordinances to carry out the aforementioned powers. The ordinances may provide for a civil penalty for each offense of not less than $100 nor more than $1,000. Each day's continuance of the violation shall be a separate offense. Hearings for violations of the ordinances adopted by the Board of Commissioners may be conducted by the Board of Commissioners or its designee.

(d) Plans and specifications for any sewerage system covered by this Act must be submitted to the sanitary district before a written permit may be issued and the construction of any sewerage system must be in accordance with the plans and specifications. In case it is necessary or desirable to make material changes in the plans or specifications, the revised plans or specifications, together with the reasons for the proposed

changes, must be submitted to the sanitary district for a supplemental written permit.

(e) The sanitary district, acting through the executive director general superintendent, may require any owner of a sewerage system discharging into the sewerage system of the sanitary district, to file with it complete plans of the whole or of any part of the system and any other information and records concerning the installation and operation of the system.

(f) The sanitary district, acting through the executive director general superintendent, may establish procedures for the review of any plans, specifications, or other data relative to any sewerage system, written permits for which are required by this Act.

(g) The sanitary district, acting through the executive director general superintendent, may adopt and enforce rules and regulations governing the issuance of permits and the method and manner under which plans, specifications, or other data relative thereto must be submitted for the sewerage systems or for additions or changes to or extensions of the systems.

(h) After a hearing on an alleged violation of any such ordinance, the Board may, in addition to any civil penalty imposed, order any person found to have committed a violation to reimburse the sanitary district for the costs of the hearing, including any expenses incurred for inspection, sampling, analysis, administrative costs, and court reporter's and attorney's fees. The Board of Commissioners may also require a person to achieve compliance with the ordinance within a specified period of time. The Administrative Review Law, and the rules adopted under that Law, shall govern proceedings for the judicial review of final orders of the Board of Commissioners issued under this subsection.

(i) Civil penalties and costs imposed pursuant to this Section are recoverable by the sanitary district in a civil action. The sanitary district is authorized to apply to the circuit court for injunctive relief or mandamus when, in the opinion of the executive director general superintendent, the person has failed to comply with an order of the Board of Commissioners or the relief is necessary to protect the sewerage system of the sanitary district.

(j) The operation and maintenance of any existing sanitary sewerage system serving territory that is annexed by a municipality located in a county with a population of 3,000,000 or more after the effective date of this amendatory Act of the 92nd General Assembly is the responsibility

of the municipality to which the territory is annexed, unless the sanitary sewerage system is under the jurisdiction of another unit of local government other than the District.

Sec. 8. Except as otherwise in this Act provided, the sanitary district may acquire by lease, purchase or otherwise within or without its corporate limits, or by condemnation within its corporate limits, any and all real and personal property, right of way and privilege that may be required for its corporate purposes. All moneys for the purchase and condemnation of any property must be paid before possession is taken, or any work done on the premises. In case of an appeal from the Court in which the condemnation proceedings are pending, taken by either party, whereby the amount of damages is not finally determined, the amount of the judgment in the court shall be deposited with the county treasurer of the county in which the judgment is rendered, subject to the payment of damages on orders signed by the judge whenever the amount of damages is finally determined.

Upon recommendation of the executive director general superintendent and upon the approval of the board of trustees when any real or personal property, right of way or privilege or any interest therein, or any part thereof of such sanitary district is no longer required for the corporate purposes of the sanitary district it may be sold, vacated or released. Such sales, vacations, or releases may be made subject to such conditions and the retention of such interest therein as may be deemed for the best interest of such sanitary district as recommended by the executive director general superintendent and approved by the board of trustees.

However, the sanitary district may enter into a lease of a building or a part thereof, or acquire title to a building already constructed or to be constructed, for the purpose of securing office space for its administrative corporate functions, the period of such lease not to exceed 15 years except as authorized by the provisions of Section 8b of this Act. In the event of the purchase of such property for administrative corporate functions, the sanitary district may execute a mortgage or other documents of indebtedness as may be required for the unpaid balance, to be paid in not more than 15 annual installments. Annual installments on the mortgage or annual payment on the lease shall be considered a current corporate expense of the year in which they are to be paid, and the amount of such annual installment or payment shall be included in the Annual

Appropriation and Corporate Tax Levy Ordinances. Such expense may be incurred, notwithstanding the provisions, if any applicable, contained in any other Sections of this Act.

The sanitary district may dedicate to the public for highway purposes any of its real property and the dedications may be made subject to such conditions and the retention of such interests therein as considered in the best interests of the sanitary district by the board of trustees upon recommendation of the executive director general superintendent.

The sanitary district may lease to others for any period of time, not to exceed 99 years, upon the terms as its board of trustees upon recommendation of the executive director general superintendent may determine, any such real property, right-of-way or privilege, or any interest therein or any part thereof, which is in the opinion of the board of trustees and executive director general superintendent of the sanitary district no longer required for its corporate purposes or which may not be immediately needed for such purposes. The leases may contain such terms and conditions, including restrictions as to permissible use of the real property, and retain such interests therein as considered in the best interests of the sanitary district by the board of trustees upon recommendation of the executive director general superintendent. Negotiations and execution of such leases and preparatory activities in connection therewith must comply with Section 8c of this Act. The sanitary district may grant easements and permits for the use of any such real property, right-of-way, or privilege, which will not in the opinion of the board of trustees and executive director general superintendent of the sanitary district interfere with the use thereof by the sanitary district for its corporate purposes. Such easements and permits may contain such conditions and retain such interests therein as considered in the best interests of the sanitary district by the board of trustees upon recommendation of the executive director general superintendent.

No sales, vacations, dedications for highway purposes, or leases for periods in excess of 5 years, of the following described real estate, may be made or granted by the sanitary district without the approval in writing of the Director of Natural Resources of the State of Illinois:

(70 ILCS 2605/8c) (from Ch. 42, par. 327c)

Sec. 8c. Every lease of property no longer or not immediately required for corporate purposes of a sanitary district, from such district to others for a term not to exceed 99 years, in accordance with Section 8 of this Act, shall be negotiated, created and executed in the following manner:

1. Notice of such proposed leasing shall be published for 3 consecutive weeks in a newspaper of general circulation published in such sanitary district, if any, and otherwise in the county containing such district.

2. Prior to receipt of bids for the lease under this Section, the fair market value of every parcel of real property to be leased must be determined by 2 professional appraisers who are members
of the American Institute of Real Estate Appraisers or a similar, equivalently recognized professional organization. The sanitary district acting through the executive director general superintendent may select and engage an additional appraiser for such determination of fair market value. Every appraisal report must contain an affidavit certifying the absence of any collusion involving the appraiser and relating to the lease of such property.

(3) No lease may be awarded unless the bid of such highest responsible bidder provides for an annual rental payment to the sanitary district of at least 6% of the parcel's fair market value determined under this Section, provided however, if the sanitary district determines that a parcel contains a special development impediment, defined as any condition that constitutes a material impediment to the development or lease of a parcel, and includes, but is not limited to: environmental contamination, obsolescence, or advanced disrepair of improvements or structures, or accumulation of large quantities of non-indigenous materials, the sanitary district may establish a minimum acceptable initial annual rental of less than 6% of the parcel's fair market value for the initial 10 years of the lease. In no event will the annual rental payment for each 10-year period after the initial 10 years of the lease be less than the 6% of the parcel's fair market value determined under this Section. Every lease must be awarded to the highest responsible bidder (including established commercial or industrial concerns and financially responsible individuals) upon free and open competitive bids. In determining the responsibility of any bidder, the sanitary district may consider, in addition to financial responsibility, any past records of transactions with the bidder and any other pertinent factors, including but not limited to, the bidder's performance or past record with respect to any lease, use, occupancy, or trespass of sanitary district or other lands.

(4) Prior to acceptance of the bid of the highest responsible bidder and before execution of the lease the bidder shall submit to the board of commissioners and executive director general superintendent, for incorporation in the lease, a detailed plan and description of improvements to be constructed upon the leased property, the time within which the improvements will be completed, and the intended uses of the leased property. If there is more than one responsible bid, the board of commissioners may

authorize and direct the **executive director general superintendent** to solicit from the 2 highest responsible bidders written amendments to their prior bids, increasing their rental bid proposal by at least 5% in excess of their prior written bid, or otherwise amending the financial terms of their bid so as to maximize the financial return to the sanitary district during the term of the proposed lease. Upon the **executive director's general superintendent's** tentative agreement with one or more amended bids, the bids may be submitted to the board of commissioners with the recommendation of the **executive director general superintendent** for acceptance of one or rejection of all. The amendments may not result in a diminution of the terms of the transaction and must result in an agreement that is equal to or greater in value than the highest responsible bid initially received.

(5) The execution of such lease must be contemporaneous to the execution by the lessee, each member of the board of commissioners and the **executive director general superintendent** of an affidavit certifying the absence of any collusion involving the lessee, the members and the **executive director general superintendent** and relating to such lease.

(6) No later than 30 days after the effective date of the lease, the lessee must deliver to the sanitary district a certified statement of the County Assessor, Township Assessor or the county clerk of the county wherein the property is situated that such property is presently contained in the official list of lands and lots to be assessed for taxes for the several towns or taxing districts in his county.

(7) Such lease may be subject to annual adjustments based on changes in the Consumer Price Index published by the United States Department of Labor, Bureau of Labor Statistics, or some other well known economic governmental activity index. Any lease, the term of which will extend for 15 years or more, shall provide for a redetermination of the fair market value (independent of improvements to the property subsequent to the effective date of the lease) after the initial 10 years and every 10 years thereafter, in the manner set forth in paragraph (2) of this Section, which redetermination shall be referred to as the decennial adjustment. Where the property rental is less than 6% of fair market value due to the existence of a special development impediment, the first

decennial adjustment shall not occur until the twentieth year of the lease. Such redetermination shall be as of the first day of each succeeding 10-year period, and annual rental payments shall be adjusted so that the ratio of annual rental to fair market value shall be the same as that ratio for the first year of the preceding 10-year period. The decennial adjustment shall not exceed 100% of the rental in effect on the last day of the preceding 10-year period, except when the property rental is less than 6% of fair market value due to the existence of a special development impediment, in which case, the decennial adjustment shall not be so limited until the twentieth year of the lease. The rental payment for the first year of the new 10-year period may be subject to Consumer Price Index or other allowable index adjustments for each of the next 9 years, or until the end of the lease term if there are less than 9 years remaining.

(8) A sanitary district may require compensation to be paid in addition to rent, based on a reasonable percentage of revenues derived from a lessee's business operations on the leasehold premises or subleases, or may require additional compensation from the lessee or any sublessee in the form of services, including but not limited to solid waste disposal; provided, however, that such additional compensation shall not be considered in determining the highest responsible bid, said highest responsible bid to be determined only on the initial annual rental payment as set forth in paragraph (3) of this Section.

(9) No assignment of such lease or sublease of such property is effective unless approved in writing by the executive director and superintendent of the sanitary district. The district may consider, for any assignment or sublease, all pertinent factors including the assignee's or sublessee's responsibility in accordance with subparagraph (3) of this Section. The sanitary district may also condition its consent upon the redetermination of the annual rental required to be paid under any lease initially executed on or before January 1, 1983, for which the annual rent being paid thereunder is less than 6% of the current appraised fair market value of the leased property. The redetermination of any annual rental under this Section shall be consistent with the requirements of subparagraphs (2) and (3) of this Section. No assignment or sublease is effective if the assignee

or sublessee is a trust constituted by real property of which the
trustee has title but no power of management or control, unless the
identity of the beneficiaries of the trust is revealed, upon demand,
to the executive director general superintendent and the board of
commissioners of the sanitary district.

(10) Failure by the lessee to comply with a provision in the
lease relating to improvements upon the leased property or any
other provision constitutes grounds for forfeiture of the lease, and
upon such failure the sanitary district acting through the executive
director general superintendent shall serve the lessee with a notice
to terminate the lease and deliver possession of the property to the
sanitary district within a particular period.

(11) If the executive director general superintendent and the
board of commissioners conclude that it would be in the public
interest, said sanitary district may lease without complying with the
prior provisions of this Section, in accordance with an Act
concerning "Transfer of Real Estate between Municipal
Corporations", approved July 2, 1925, as amended, to the
following, upon such terms as may be mutually agreeable: (a) the
United States of America and the State of Illinois, County of Cook,
any municipal corporation, with provisions that the property is to
be applied exclusively for public recreational purposes or other
public purposes; (b) any academic institution of learning which has
been in existence for 5 years prior to said lease, provided that such
lease limit the institution's use of the leased land to only those
purposes relating to the operation of such institution's academic or
physical educational programs; or (c) any lease involving land
located in a county with a population of 100,000 or less and which
is leased solely for agricultural or commercial recreational uses.
Any lease issued in accordance with this paragraph shall contain
the provisions that such lease is terminable in accordance with
service of a one-year notice to terminate after determination by the
board of commissioners and the executive director general
superintendent that such property (or part thereof) has become
essential to the corporate purposes of the sanitary district.

(2) The structure has been constructed and used before the effective date of this amendatory Act of 1994.

(3) The structure is an appurtenance to the personal residence of the owner of the adjacent real property and is used solely for noncommercial personal recreational activities.

(4) The structure is otherwise in compliance with all applicable laws, ordinances, rules, and policies of any governmental body having jurisdiction of the real estate, the parties involved with the structure, or the activity of any of the parties involved.

(5) The Director of Engineering Chief Engineer and the Director Chief of the Maintenance and Operations Department of the District have determined that the structure will not interfere with the District's execution of its corporate purposes or functions and that the existence of the structure will not hamper or obstruct the hydraulic flows in the channel prism.

(6) No expansion, extension, or enlargement of the structure is permitted after the date of conveyance of the channel prism segment by the District to the adjacent real property owner.

Sec. 13. Issuance of charter.

(a) When the directors have organized as provided in Section 12 of this Act, and the capital stock and the preferred stock, if any, together with a surplus of not less than 50% of the capital, has been all fully paid in and a record of the same filed with the Commissioner, the Commissioner or some competent person of the Commissioner's appointment shall make a thorough examination into the affairs of the proposed bank, and if satisfied (i) that all the requirements of this Act have been complied with, (ii) that no intervening circumstance has occurred to change the Commissioner's findings made pursuant to Section 10 of this Act, and (iii) that the prior involvement by any stockholder who will own a sufficient amount of stock to have control, as defined in Section 18 of this Act, of the proposed bank with any other financial institution, whether as stockholder, director, officer, or customer, was conducted in a safe and sound manner, upon payment into the Commissioner's office of the reasonable expenses of the examination, as determined by the Commissioner, the Commissioner shall issue a charter authorizing the bank to commence business as authorized in this Act. All charters issued by the Commissioner or any predecessor agency which chartered State banks, including any charter outstanding as of September 1, 1989, shall be perpetual. For the 2 years after the Commissioner has issued a charter to a bank, the bank shall request and obtain from the Commissioner prior written approval before it may change senior management personnel or directors.

New matter indicated by italics - deletions by strikeout.
The original charter, duly certified by the Commissioner, or a certified copy shall be evidence in all courts and places of the existence and authority of the bank to do business. Upon the issuance of the charter by the Commissioner, the bank shall be deemed fully organized and may proceed to do business. The Commissioner may, in the Commissioner's discretion, withhold the issuing of the charter when the Commissioner has reason to believe that the bank is organized for any purpose other than that contemplated by this Act. The Commissioner shall revoke the charter and order liquidation in the event that the bank does not commence a general banking business within one year from the date of the issuance of the charter, unless a request has been submitted, in writing, to the Commissioner for an extension and the request has been approved. After commencing a general banking business, a bank may change its name by filing written notice with the Commissioner at least 30 days prior to the effective date of such change. A bank chartered under this Act may change its main banking premises by filing written application with the Commissioner, on forms prescribed by the Commissioner, provided (i) the change shall not be a removal to a new location without complying with the capital requirements of Section 7 and of subsection (1) of Section 10 of this Act; (ii) the Commissioner approves the relocation or change; and (iii) the bank complies with any applicable federal law or regulation. The application shall be deemed to be approved if the Commissioner has not acted on the application within 30 days after receipt of the application, unless within the 30-day time frame the Commissioner informs the bank that an extension of time is necessary prior to the Commissioner's action on the application.

(b) (1) The Commissioner may also issue a charter to a bank that is owned exclusively by other depository institutions or depository institution holding companies and is organized to engage exclusively in providing services to or for other financial depository institutions, their holding companies, and the officers, directors, and employees of such institutions and companies, and in providing correspondent banking services at the request of other financial depository institutions or their holding companies (also referred to as a "bankers' bank"). The bank may also provide products and services to its officers, directors, and employees.

(2) A bank chartered pursuant to paragraph (1) shall, except as otherwise specifically determined or limited by the Commissioner in an order or pursuant to a rule, be vested with the

same rights and privileges and subject to the same duties, restrictions, penalties, and liabilities now or hereafter imposed under this Act.

(c) A bank chartered under this Act after November 1, 1985, and an out-of-state bank that merges with a State bank and establishes or maintains a branch in this State after May 31, 1997, shall obtain from and, at all times while it accepts or retains deposits, maintain with the Federal Deposit Insurance Corporation, or such other instrumentality of or corporation chartered by the United States, deposit insurance as authorized under federal law.

(d) (i) A bank that has a banking charter issued by the Commissioner under this Act may, pursuant to a written purchase and assumption agreement, transfer substantially all of its assets to another State bank or national bank in consideration, in whole or in part, for the transferee banks' assumption of any part or all of its liabilities. Such a transfer shall in no way be deemed to impair the charter of the transferor bank or cause the transferor bank to forfeit any of its rights, powers, interests, franchises, or privileges as a State bank, nor shall any voluntary reduction in the transferor bank's activities resulting from the transfer have any such effect; provided, however, that a State bank that transfers substantially all of its assets pursuant to this subsection (d) and following the transfer does not accept deposits and make loans, shall not have any rights, powers, interests, franchises, or privileges under subsection (15) of Section 5 of this Act until the bank has resumed accepting deposits and making loans.

(ii) The fact that a State bank does not resume accepting deposits and making loans for a period of 24 months commencing on September 11, 1989 or on a date of the transfer of substantially all of a State bank's assets, whichever is later, or such longer period as the Commissioner may allow in writing, may be the basis for a finding by the Commissioner under Section 51 of this Act that the bank is unable to continue operations.

(iii) The authority provided by subdivision (i) of this subsection (d) shall terminate on May 31, 1997, and no bank that has transferred substantially all of its assets pursuant to this subsection (d) shall continue in existence after May 31, 1997.

(1) There shall be an annual meeting of the stockholders for the election of directors each year on the first business day in January, unless some other date shall be fixed by the by-laws. A special meeting of the stockholders may be called at any time by the board of directors, and otherwise as may be provided in the bylaws.

(2) Written or printed notice stating the place, day, and hour of the meeting, and in case of a special meeting, the purpose or purposes for which the meeting is called, shall be delivered not less than 10 nor more than 40 days before the date of the meeting either personally or by mail, by or at the direction of the president, or the secretary, or the officer or persons calling the meeting, to each stockholder of record entitled to vote at the meeting. If mailed, the notice shall be deemed to be delivered when deposited in the United States mail with postage thereon prepaid addressed to the stockholder at his address as it appears on the records of the bank.

(3) Except as provided below in this paragraph (3), each outstanding share shall be entitled to one vote on each matter submitted to a vote at a meeting of stockholders. Shares of its own stock belonging to a bank shall not be voted, directly or indirectly, at any meeting and shall not be counted in determining the total number of outstanding shares at any given time, but shares of its own stock held by it in a fiduciary capacity may be voted and shall be counted in determining the total number of outstanding shares at any given time. A stockholder may vote either in person or by proxy executed in writing by the stockholder or by his duly authorized attorney-in-fact. No proxy shall be valid after 11 months from the date of its execution, unless otherwise provided in the proxy. Except as provided below in this paragraph (3), in all elections for directors every stockholder (or subscriber to the stock prior to the issuance of a charter) shall have the right to vote, in person or by proxy, for the number of shares of stock owned by him, for as many persons as there are directors to be elected, or to cumulate the shares and give one candidate as many votes as the number of directors multiplied by the number of his or her shares of stock shall equal, or to distribute them on the same principle among as many candidates as he or she shall think fit. The bank charter of any bank organized on or after January 1, 1984 may limit or eliminate cumulative voting rights in all or specified circumstances, or may eliminate voting rights entirely, as to any class or classes or series of stock of the bank;

provided that one class of shares or series thereof shall always have voting rights in respect of all matters in the bank. A bank organized prior to January 1, 1984 may amend its charter to eliminate cumulative voting rights under all or specified circumstances, or to eliminate voting rights entirely, as to any class or classes or series of stock of the bank; provided that one class of shares or series thereof shall always have voting rights in respect of all matters in the bank, and provided further that the proposal to eliminate the voting rights receives the approval of the holders of 70% of the outstanding shares of stock entitled to vote as provided in paragraph (b) (7) of Section 17. A majority of the outstanding shares represented in person or by proxy shall constitute a quorum at a meeting of stockholders. In the absence of a quorum a meeting may be adjourned from time to time without notice to the stockholders.

(4) Whenever additional stock of a class is offered for sale, stockholders of record of the same class on the date of the offer shall have the right to subscribe to the proportion of the shares as the stock of the class held by them bears to the total of the outstanding stock of the class, and the price thereof may be in excess of par value. This right shall be transferable but shall terminate if not exercised within 60 days of the offer, unless the Commissioner shall authorize a shorter time. If the right is not exercised, the stock shall not be re-offered for sale to others at a lower price without the stockholders of the same class again being accorded a preemptive right to subscribe at the lower price. Notwithstanding any of the provisions of this paragraph (4) or any other provision of law, stockholders shall not have any preemptive or other right to subscribe for or to purchase or acquire shares of capital stock issued or to be issued under a stock-option plan or upon conversion of preferred stock or convertible debentures or other convertible indebtedness that has been approved by stockholders in the manner required by the provisions of subsection (5) of Section 14 hereof or to treasury stock acquired pursuant to subsection (6) of Section 14.

(5) For the purpose of determining stockholders entitled to notice of or to vote at any meeting of stockholders, or stockholders entitled to receive payment of any dividend, or in order to make a determination of stockholders for any other proper purpose, the board of directors of a bank may provide that the stock transfer books shall be closed for a stated period not to exceed, in any case, 40 days. In lieu of closing the stock transfer books, the board of directors may fix in advance a date as the record date for any determination of stockholders, the date in any case to

be not more than 40 days, and in case of a meeting of stockholders, not less than 10 days prior to the date on which the particular action, requiring the determination of stockholders, is to be taken. If the stock transfer books are not closed and no record date is fixed for the determination of stockholders entitled to notice of or to vote at a meeting of stockholders, or stockholders entitled to receive payment of a dividend, the date on which notice of a meeting is mailed or the date on which the resolution of the board of directors declaring the dividend is adopted, as the case may be, shall be the record date for the determination of stockholders.

(6) Stock standing in the name of another corporation, domestic or foreign, may be voted by the officer, agent, or proxy as the by-laws of the corporation may prescribe, or, in the absence of such provision, as the board of directors of the corporation may determine. Stock standing in the name of a deceased person may be voted by his or her administrator or executor, either in person or by proxy. Stock standing in the name of a guardian or trustee may be voted by that fiduciary either in person or by proxy. Shares standing in the name of a receiver may be voted by the receiver, and shares held by or under control of a receiver may be voted by the receiver without the transfer thereof into his or her name if authority so to do be contained in an appropriate order of the court by which the receiver was appointed. A stockholder whose shares of stock are pledged shall be entitled to vote those shares until the shares have been transferred into the name of the pledgee, and thereafter the pledgee shall be entitled to vote the shares so transferred.

(7) Shares of stock shall be transferable in accordance with the general laws of this State governing the transfer of corporate shares.

(8) The president and any other officer designated by the board of directors and cashier of every State bank shall cause to be kept at all times a full and correct list of the names and residences of all the shareholders in the State bank and the number of shares held by each in the office where its business is transacted. The list shall be subject to the inspection of all the shareholders of the State bank and the officers authorized to assess taxes under State authority during business hours of each day in which business may be legally transacted. A copy of the list, verified by the oath of the president or cashier, shall be transmitted to the Commissioner of Banks and Real Estate within 10 days of any demand therefor made by the Commissioner.

(9) Any number of shareholders of a bank may create a voting trust for the purpose of conferring upon a trustee or trustees the right to vote or

otherwise represent their shares for a period of not to exceed 10 years by entering into a written voting trust agreement specifying the terms and conditions of the voting trust and by transferring their shares to the trustee or trustees for the purposes of the agreement. The trust agreement shall not become effective until a counterpart of the agreement is deposited with the bank at its main banking premises. The counterpart of the voting trust agreement so deposited with the bank shall be subject to the same right of examination by a shareholder of the bank, in person or by agent or attorney, as is the record of shareholders of the bank and shall be subject to examination by any holder of a beneficial interest in the voting trust, either in person or by agent or attorney, at any reasonable time for any proper purpose.

(10) Voting agreements. Shareholders may provide for the voting of their shares by signing an agreement for that purpose. A voting agreement created under this paragraph is not subject to the provisions of paragraph (9).

A voting agreement created under this paragraph is specifically enforceable in accordance with the principles of equity.

The examinations shall include tests of physical qualifications and health. A board of fire and police commissioners may, by its rules, waive portions of the required examination for police applicants who have previously been full-time sworn officers of a regular police department in any municipal, county, university, or State law enforcement agency, provided they are certified by the Illinois Law Enforcement Training Standards Board and have been with their respective law enforcement agency within the State for at least 2 years. (65 ILCS 5/11-31-1) (from Ch. 24, par. 11-31-1)

Sec. 11-31-1. Demolition, repair, enclosure, or remediation.

(a) The corporate authorities of each municipality may demolish, repair, or enclose or cause the demolition, repair, or enclosure of dangerous and unsafe buildings or uncompleted and abandoned buildings within the territory of the municipality and may remove or cause the removal of garbage, debris, and other hazardous, noxious, or unhealthy substances or materials from those buildings. In any county having adopted by referendum or otherwise a county health department as provided by Division 5-25 of the Counties Code or its predecessor, the county board of that county may exercise those powers with regard to dangerous and unsafe buildings or uncompleted and abandoned buildings within the territory of any city, village, or incorporated town having less than 50,000 population.

The corporate authorities shall apply to the circuit court of the county in which the building is located (i) for an order authorizing action to be taken with respect to a building if the owner or owners of the building, including the lien holders of record, after at least 15 days' written notice by mail so to do, have failed to put the building in a safe condition or to demolish it or (ii) for an order requiring the owner or owners of record to demolish, repair, or enclose the building or to remove garbage, debris, and other hazardous, noxious, or unhealthy substances or materials from the building. It is not a defense to the cause of action that the building is boarded up or otherwise enclosed, although the court may order the defendant to have the building boarded up or otherwise enclosed. Where, upon diligent search, the identity or whereabouts of the owner or owners of the building, including the lien holders of record, is not ascertainable, notice mailed to the person or persons in whose name the real estate was last assessed is sufficient notice under this Section.

The hearing upon the application to the circuit court shall be expedited by the court and shall be given precedence over all other suits. Any person entitled to bring an action under subsection (b) shall have the right to intervene in an action brought under this Section.

The cost of the demolition, repair, enclosure, or removal incurred by the municipality, by an intervenor, or by a lien holder of record, including court costs, attorney's fees, and other costs related to the

enforcement of this Section, is recoverable from the owner or owners of the real estate or the previous owner or both if the property was transferred during the 15 day notice period and is a lien on the real estate; the lien is superior to all prior existing liens and encumbrances, except taxes, if, within 180 days after the repair, demolition, enclosure, or removal, the municipality, the lien holder of record, or the intervenor who incurred the cost and expense shall file a notice of lien for the cost and expense incurred in the office of the recorder in the county in which the real estate is located or in the office of the registrar of titles of the county if the real estate affected is registered under the Registered Titles (Torrens) Act.

The notice must consist of a sworn statement setting out (1) a description of the real estate sufficient for its identification, (2) the amount of money representing the cost and expense incurred, and (3) the date or dates when the cost and expense was incurred by the municipality, the lien holder of record, or the intervenor. Upon payment of the cost and expense by the owner of or persons interested in the property after the notice of lien has been filed, the lien shall be released by the municipality, the person in whose name the lien has been filed, or the assignee of the lien, and the release may be filed of record as in the case of filing notice of lien. Unless the lien is enforced under subsection (c), the lien may be enforced by foreclosure proceedings as in the case of mortgage foreclosures under Article XV of the Code of Civil Procedure or mechanics' lien foreclosures. An action to foreclose this lien may be commenced at any time after the date of filing of the notice of lien. The costs of foreclosure incurred by the municipality, including court costs, reasonable attorney's fees, advances to preserve the property, and other costs related to the enforcement of this subsection, plus statutory interest, are a lien on the real estate and are recoverable by the municipality from the owner or owners of the real estate.

All liens arising under this subsection (a) shall be assignable. The assignee of the lien shall have the same power to enforce the lien as the assigning party, except that the lien may not be enforced under subsection (c).

If the appropriate official of any municipality determines that any dangerous and unsafe building or uncompleted and abandoned building within its territory fulfills the requirements for an action by the municipality under the Abandoned Housing Rehabilitation Act, the municipality may petition under that Act in a proceeding brought under this subsection.

(b) Any owner or tenant of real property within 1200 feet in any direction of any dangerous or unsafe building located within the territory of a municipality with a population of 500,000 or more may file with the appropriate municipal authority a request that the municipality apply to the circuit court of the county in which the building is located for an order permitting the demolition, removal of garbage, debris, and other noxious or unhealthy substances and materials from, or repair or enclosure of the building in the manner prescribed in subsection (a) of this Section. If the municipality fails to institute an action in circuit court within 90 days after the filing of the request, the owner or tenant of real property within 1200 feet in any direction of the building may institute an action in circuit court seeking an order compelling the owner or owners of record to demolish, remove garbage, debris, and other noxious or unhealthy substances and materials from, repair or enclose or to cause to be demolished, have garbage, debris, and other noxious or unhealthy substances and materials removed from, repaired, or enclosed the building in question. A private owner or tenant who institutes an action under the preceding sentence shall not be required to pay any fee to the clerk of the circuit court. The cost of repair, removal, demolition, or enclosure shall be borne by the owner or owners of record of the building. In the event the owner or owners of record fail to demolish, remove garbage, debris, and other noxious or unhealthy substances and materials from, repair, or enclose the building within 90 days of the date the court entered its order, the owner or tenant who instituted the action may request that the court join the municipality as a party to the action. The court may order the municipality to demolish, remove materials from, repair, or enclose the building, or cause that action to be taken upon the request of any owner or tenant who instituted the action or upon the municipality's request. The municipality may file, and the court may approve, a plan for rehabilitating the building in question. A court order authorizing the municipality to demolish, remove materials from, repair, or enclose a building, or cause that action to be taken, shall not preclude the court from adjudging the owner or owners of record of the building in contempt of court due to the failure to comply with the order to demolish, remove garbage, debris, and other noxious or unhealthy substances and materials from, repair, or enclose the building.

If a municipality or a person or persons other than the owner or owners of record pay the cost of demolition, removal of garbage, debris, and other noxious or unhealthy substances and materials, repair, or enclosure pursuant to a court order, the cost, including court costs,

attorney's fees, and other costs related to the enforcement of this subsection, is recoverable from the owner or owners of the real estate and is a lien on the real estate; the lien is superior to all prior existing liens and encumbrances, except taxes, if, within 180 days after the repair, removal, demolition, or enclosure, the municipality or the person or persons who paid the costs of demolition, removal, repair, or enclosure shall file a notice of lien of the cost and expense incurred in the office of the recorder in the county in which the real estate is located or in the office of the registrar of the county if the real estate affected is registered under the Registered Titles (Torrens) Act. The notice shall be in a form as is provided in subsection (a). An owner or tenant who institutes an action in circuit court seeking an order to compel the owner or owners of record to demolish, remove materials from, repair, or enclose any dangerous or unsafe building, or to cause that action to be taken under this subsection may recover court costs and reasonable attorney's fees for instituting the action from the owner or owners of record of the building. Upon payment of the costs and expenses by the owner of or a person interested in the property after the notice of lien has been filed, the lien shall be released by the municipality or the person in whose name the lien has been filed or his or her assignee, and the release may be filed of record as in the case of filing a notice of lien. Unless the lien is enforced under subsection (c), the lien may be enforced by foreclosure proceedings as in the case of mortgage foreclosures under Article XV of the Code of Civil Procedure or mechanics' lien foreclosures. An action to foreclose this lien may be commenced at any time after the date of filing of the notice of lien. The costs of foreclosure incurred by the municipality, including court costs, reasonable attorneys' fees, advances to preserve the property, and other costs related to the enforcement of this subsection, plus statutory interest, are a lien on the real estate and are recoverable by the municipality from the owner or owners of the real estate.

All liens arising under the terms of this subsection (b) shall be assignable. The assignee of the lien shall have the same power to enforce the lien as the assigning party, except that the lien may not be enforced under subsection (c).

(c) In any case where a municipality has obtained a lien under subsection (a), (b), or (f), the municipality may enforce the lien under this subsection (c) in the same proceeding in which the lien is authorized.

A municipality desiring to enforce a lien under this subsection (c) shall petition the court to retain jurisdiction for foreclosure proceedings

under this subsection. Notice of the petition shall be served, by certified or registered mail, on all persons who were served notice under subsection (a), (b), or (f). The court shall conduct a hearing on the petition not less than 15 days after the notice is served. If the court determines that the requirements of this subsection (c) have been satisfied, it shall grant the petition and retain jurisdiction over the matter until the foreclosure proceeding is completed. The costs of foreclosure incurred by the municipality, including court costs, reasonable attorneys' fees, advances to preserve the property, and other costs related to the enforcement of this subsection, plus statutory interest, are a lien on the real estate and are recoverable by the municipality from the owner or owners of the real estate. If the court denies the petition, the municipality may enforce the lien in a separate action as provided in subsection (a), (b), or (f).

All persons designated in Section 15-1501 of the Code of Civil Procedure as necessary parties in a mortgage foreclosure action shall be joined as parties before issuance of an order of foreclosure. Persons designated in Section 15-1501 of the Code of Civil Procedure as permissible parties may also be joined as parties in the action.

The provisions of Article XV of the Code of Civil Procedure applicable to mortgage foreclosures shall apply to the foreclosure of a lien under this subsection (c), except to the extent that those provisions are inconsistent with this subsection. For purposes of foreclosures of liens under this subsection, however, the redemption period described in subsection (b) of Section 15-1603 of the Code of Civil Procedure shall end 60 days after the date of entry of the order of foreclosure.

(d) In addition to any other remedy provided by law, the corporate authorities of any municipality may petition the circuit court to have property declared abandoned under this subsection (d) if:

1. the property has been tax delinquent for 2 or more years or bills for water service for the property have been outstanding for 2 or more years;
2. the property is unoccupied by persons legally in possession; and
3. the property contains a dangerous or unsafe building for reasons specified in the petition.

All persons having an interest of record in the property, including tax purchasers and beneficial owners of any Illinois land trust having title to the property, shall be named as defendants in the petition and shall be

served with process. In addition, service shall be had under Section 2-206 of the Code of Civil Procedure as in other cases affecting property.

The municipality, however, may proceed under this subsection in a proceeding brought under subsection (a) or (b). Notice of the petition shall be served in person or by certified or registered mail on all persons who were served notice under subsection (a) or (b).

If the municipality proves that the conditions described in this subsection exist and (i) the owner of record of the property does not enter an appearance in the action, or, if title to the property is held by an Illinois land trust, if neither the owner of record nor the owner of the beneficial interest of the trust enters an appearance, or (ii) if the owner of record or the beneficiary of a land trust, if title to the property is held by an Illinois land trust, enters an appearance and specifically waives his or her rights under this subsection (d), the court shall declare the property abandoned. Notwithstanding any waiver, the municipality may move to dismiss its petition at any time. In addition, any waiver in a proceeding under this subsection (d) does not serve as a waiver for any other proceeding under law or equity.

If that determination is made, notice shall be sent in person or by certified or registered mail to all persons having an interest of record in the property, including tax purchasers and beneficial owners of any Illinois land trust having title to the property, stating that title to the property will be transferred to the municipality unless, within 30 days of the notice, the owner of record or enters an appearance in the action, or, unless any other person having an interest in the property files with the court a request to demolish the dangerous or unsafe building or to put the building in safe condition, or unless the owner of record enters an appearance and proves that the owner does not intend to abandon the property.

If the owner of record enters an appearance in the action within the 30 day period, but does not at that time file with the court a request to demolish the dangerous or unsafe building or to put the building in safe condition, or specifically waive his or her rights under this subsection (d), the court shall vacate its order declaring the property abandoned if it determines that the owner of record does not intend to abandon the property. In that case, the municipality may amend its complaint in order to initiate proceedings under subsection (a), or it may request that the court order the owner to demolish the building or repair the dangerous or unsafe conditions of the building alleged in the petition or seek the appointment of a receiver or other equitable relief to correct the

conditions at the property. The powers and rights of a receiver appointed under this subsection (d) shall include all of the powers and rights of a receiver appointed under Section 11-31-2 of this Code.

If a request to demolish or repair the building is filed within the 30 day period, the court shall grant permission to the requesting party to demolish the building within 30 days or to restore the building to safe condition within 60 days after the request is granted. An extension of that period for up to 60 additional days may be given for good cause. If more than one person with an interest in the property files a timely request, preference shall be given to the owner of record if the owner filed a request or, if the owner did not, the person with the lien or other interest of the highest priority.

If the requesting party (other than the owner of record) proves to the court that the building has been demolished or put in a safe condition in accordance with the local safety codes within the period of time granted by the court, the court shall issue a quitclaim judicial deed for the property to the requesting party, conveying only the interest of the owner of record, upon proof of payment to the municipality of all costs incurred by the municipality in connection with the action, including but not limited to court costs, attorney's fees, administrative costs, the costs, if any, associated with building enclosure or removal, and receiver's certificates. The interest in the property so conveyed shall be subject to all liens and encumbrances on the property. In addition, if the interest is conveyed to a person holding a certificate of purchase for the property under the Property Tax Code, the conveyance shall be subject to the rights of redemption of all persons entitled to redeem under that Act, including the original owner of record. If the requesting party is the owner of record and proves to the court that the building has been demolished or put in a safe condition in accordance with the local safety codes within the period of time granted by the court, the court shall dismiss the proceeding under this subsection (d).

If the owner of record has not entered an appearance and proven that the owner did not intend to abandon the property, and if no person with an interest in the property files a timely request or if the requesting party fails to demolish the building or put the building in safe condition within the time specified by the court, the municipality may petition the court to issue a judicial deed for the property to the municipality. A conveyance by judicial deed shall operate to extinguish all existing ownership interests in, liens on, and other interest in the property.

including tax liens, and shall extinguish the rights and interests of any and all holders of a bona fide certificate of purchase of the property for delinquent taxes. Any such bona fide certificate of purchase holder shall be entitled to a sale in error as prescribed under Section 21-310 of the Property Tax Code.

(e) Each municipality may use the provisions of this subsection to expedite the removal of certain buildings that are a continuing hazard to the community in which they are located.

If a residential or commercial building is 3 stories or less in height as defined by the municipality's building code, and the corporate official designated to be in charge of enforcing the municipality's building code determines that the building is open and vacant and an immediate and continuing hazard to the community in which the building is located, then the official shall be authorized to post a notice not less than 2 feet by 2 feet in size on the front of the building. The notice shall be dated as of the date of the posting and shall state that unless the building is demolished, repaired, or enclosed, and unless any garbage, debris, and other hazardous, noxious, or unhealthy substances or materials are removed so that an immediate and continuing hazard to the community no longer exists, then the building may be demolished, repaired, or enclosed, or any garbage, debris, and other hazardous, noxious, or unhealthy substances or materials may be removed, by the municipality.

Not later than 30 days following the posting of the notice, the municipality shall do all of the following:

(1) Cause to be sent, by certified mail, return receipt requested, a Notice to Remedy to all owners of record of the property, the beneficial owners of any Illinois land trust having title to the property, and all lienholders of record in the property, stating the intent of the municipality to demolish, repair, or enclose the building or remove any garbage, debris, or other hazardous, noxious, or unhealthy substances or materials if that action is not taken by the owner or owners.

(2) Cause to be published, in a newspaper published or circulated in the municipality where the building is located, a notice setting forth (i) the permanent tax index number and the address of the building, (ii) a statement that the property is open and vacant and constitutes an immediate and continuing hazard to the community, and (iii) a statement that the municipality intends to demolish, repair, or enclose the building or remove any garbage,
debris, or other hazardous, noxious, or unhealthy substances or materials if the owner or owners or lienholders of record fail to do so. This notice shall be published for 3 consecutive days.

(3) Cause to be recorded the Notice to Remedy mailed under paragraph (1) in the office of the recorder in the county in which the real estate is located or in the office of the registrar of titles of the county if the real estate is registered under the Registered Title (Torrens) Act.

Any person or persons with a current legal or equitable interest in the property objecting to the proposed actions of the corporate authorities may file his or her objection in an appropriate form in a court of competent jurisdiction.

If the building is not demolished, repaired, or enclosed, or the garbage, debris, or other hazardous, noxious, or unhealthy substances or materials are not removed, within 30 days of mailing the notice to the owners of record, the beneficial owners of any Illinois land trust having title to the property, and all lienholders of record in the property, or within 30 days of the last day of publication of the notice, whichever is later, the corporate authorities shall have the power to demolish, repair, or enclose the building or to remove any garbage, debris, or other hazardous, noxious, or unhealthy substances or materials.

The municipality may proceed to demolish, repair, or enclose a building or remove any garbage, debris, or other hazardous, noxious, or unhealthy substances or materials under this subsection within a 120-day period following the date of the mailing of the notice if the appropriate official determines that the demolition, repair, enclosure, or removal of any garbage, debris, or other hazardous, noxious, or unhealthy substances or materials is necessary to remedy the immediate and continuing hazard. If, however, before the municipality proceeds with any of the actions authorized by this subsection, any person with a legal or equitable interest in the property has sought a hearing under this subsection before a court and has served a copy of the complaint on the chief executive officer of the municipality, then the municipality shall not proceed with the demolition, repair, enclosure, or removal of garbage, debris, or other substances until the court determines that that action is necessary to remedy the hazard and issues an order authorizing the municipality to do so. If the court dismisses the action for want of prosecution, the municipality must send the objector a copy of the dismissal order and a letter stating that the demolition, repair, enclosure, or removal of garbage,

debris, or other substances will proceed unless, within 30 days after the
copy of the order and the letter are mailed, the objector moves to vacate
the dismissal and serves a copy of the motion on the chief executive
officer of the municipality. Notwithstanding any other law to the contrary,
if the objector does not file a motion and give the required notice, if the
motion is denied by the court, or if the action is again dismissed for want
of prosecution, then the dismissal is with prejudice and the demolition,
repair, enclosure, or removal may proceed forthwith.

Following the demolition, repair, or enclosure of a building, or the
removal of garbage, debris, or other hazardous, noxious, or unhealthy
substances or materials under this subsection, the municipality may file a
notice of lien against the real estate for the cost of the demolition, repair,
enclosure, or removal within 180 days after the repair, demolition,
enclosure, or removal occurred, for the cost and expense incurred, in the
office of the recorder in the county in which the real estate is located or in
the office of the registrar of titles of the county if the real estate affected is
registered under the Registered Titles (Torrens) Act; this lien has priority
over the interests of those parties named in the Notice to Remedy mailed under paragraph (1), but not over the interests of third party
purchasers or encumbrancers for value who obtained their interests in the
property before obtaining actual or constructive notice of the lien. The
notice of lien shall consist of a sworn statement setting forth (i) a
description of the real estate, such as the address or other description of the
property, sufficient for its identification; (ii) the expenses incurred by the
municipality in undertaking the remedial actions authorized under this
subsection; (iii) the date or dates the expenses were incurred by the
municipality; (iv) a statement by the corporate official responsible for
enforcing the building code that the building was open and vacant and
constituted an immediate and continuing hazard to the community; (v) a
statement by the corporate official that the required sign was posted on the
building, that notice was sent by certified mail to the owners of record, and
that notice was published in accordance with this subsection; and (vi) a
statement as to when and where the notice was published. The lien
authorized by this subsection may thereafter be released or enforced by the
municipality as provided in subsection (a).

(f) The corporate authorities of each municipality may remove or
cause the removal of, or otherwise environmentally remediate hazardous
substances and petroleum products on, in, or under any abandoned and
unsafe property within the territory of a municipality. In addition, where

preliminary evidence indicates the presence or likely presence of a hazardous substance or a petroleum product or a release or a substantial threat of a release of a hazardous substance or a petroleum product on, in, or under the property, the corporate authorities of the municipality may inspect the property and test for the presence or release of hazardous substances and petroleum products. In any county having adopted by referendum or otherwise a county health department as provided by Division 5-25 of the Counties Code or its predecessor, the county board of that county may exercise the above-described powers with regard to property within the territory of any city, village, or incorporated town having less than 50,000 population.

For purposes of this subsection (f):

1. "property" or "real estate" means all real property, whether or not improved by a structure;
2. "abandoned" means:
   a. the property has been tax delinquent for 2 or more years;
   b. the property is unoccupied by persons legally in possession;
3. "unsafe" means property that presents an actual or imminent threat to public health and safety caused by the release of hazardous substances; and
4. "hazardous substances" means the same as in Section 3.215 of the Environmental Protection Act.

The corporate authorities shall apply to the circuit court of the county in which the property is located (i) for an order allowing the municipality to enter the property and inspect and test substances on, in, or under the property; or (ii) for an order authorizing the corporate authorities to take action with respect to remediation of the property if conditions on the property, based on the inspection and testing authorized in paragraph (i), indicate the presence of hazardous substances or petroleum products. Remediation shall be deemed complete for purposes of paragraph (ii) above when the property satisfies Tier I, II, or III remediation objectives for the property's most recent usage, as established by the Environmental Protection Act, and the rules and regulations promulgated thereunder. Where, upon diligent search, the identity or whereabouts of the owner or owners of the property, including the lien holders of record, is not ascertainable, notice mailed to the person or persons in whose name the real estate was last assessed is sufficient notice under this Section.

New matter indicated by italics - deletions by strikeout.
The court shall grant an order authorizing testing under paragraph (i) above upon a showing of preliminary evidence indicating the presence or likely presence of a hazardous substance or a petroleum product or a release of or a substantial threat of a release of a hazardous substance or a petroleum product on, in, or under abandoned property. The preliminary evidence may include, but is not limited to, evidence of prior use, visual site inspection, or records of prior environmental investigations. The testing authorized by paragraph (i) above shall include any type of investigation which is necessary for an environmental professional to determine the environmental condition of the property, including but not limited to performance of soil borings and groundwater monitoring. The court shall grant a remediation order under paragraph (ii) above where testing of the property indicates that it fails to meet the applicable remediation objectives. The hearing upon the application to the circuit court shall be expedited by the court and shall be given precedence over all other suits.

The cost of the inspection, testing, or remediation incurred by the municipality or by a lien holder of record, including court costs, attorney's fees, and other costs related to the enforcement of this Section, is a lien on the real estate; except that in any instances where a municipality incurs costs of inspection and testing but finds no hazardous substances or petroleum products on the property that present an actual or imminent threat to public health and safety, such costs are not recoverable from the owners nor are such costs a lien on the real estate. The lien is superior to all prior existing liens and encumbrances, except taxes and any lien obtained under subsection (a) or (e), if, within 180 days after the completion of the inspection, testing, or remediation, the municipality or the lien holder of record who incurred the cost and expense shall file a notice of lien for the cost and expense incurred in the office of the recorder in the county in which the real estate is located or in the office of the registrar of titles of the county if the real estate affected is registered under the Registered Titles (Torrens) Act.

The notice must consist of a sworn statement setting out (i) a description of the real estate sufficient for its identification, (ii) the amount of money representing the cost and expense incurred, and (iii) the date or dates when the cost and expense was incurred by the municipality or the lien holder of record. Upon payment of the lien amount by the owner of or persons interested in the property after the notice of lien has been filed, a release of lien shall be issued by the municipality, the person in whose

name the lien has been filed, or the assignee of the lien, and the release may be filed of record as in the case of filing notice of lien.

The lien may be enforced under subsection (c) or by foreclosure proceedings as in the case of mortgage foreclosures under Article XV of the Code of Civil Procedure or mechanics' lien foreclosures; provided that where the lien is enforced by foreclosure under subsection (c) or under either statute, the municipality may not proceed against the other assets of the owner or owners of the real estate for any costs that otherwise would be recoverable under this Section but that remain unsatisfied after foreclosure except where such additional recovery is authorized by separate environmental laws. An action to foreclose this lien may be commenced at any time after the date of filing of the notice of lien. The costs of foreclosure incurred by the municipality, including court costs, reasonable attorney's fees, advances to preserve the property, and other costs related to the enforcement of this subsection, plus statutory interest, are a lien on the real estate.

All liens arising under this subsection (f) shall be assignable. The assignee of the lien shall have the same power to enforce the lien as the assigning party, except that the lien may not be enforced under subsection (c).

(g) In any case where a municipality has obtained a lien under subsection (a), the municipality may also bring an action for a money judgment against the owner or owners of the real estate in the amount of the lien in the same manner as provided for bringing causes of action in Article II of the Code of Civil Procedure and, upon obtaining a judgment, file a judgment lien against all of the real estate of the owner or owners and enforce that lien as provided for in Article XII of the Code of Civil Procedure.

(Senate Bill No. 2678)

AN ACT concerning local government.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:

New matter indicated by italics - deletions by strikeout.
Section 5. The Illinois Municipal Code is amended by changing Sections 11-74.4-3 and 11-74.4-7 and by adding Section 11-74.4-3.5 as follows:

(65 ILCS 5/11-74.4-3) (from Ch. 24, par. 11-74.4-3)

Sec. 11-74.4-3. Definitions. The following terms, wherever used or referred to in this Division 74.4 shall have the following respective meanings, unless in any case a different meaning clearly appears from the context.

(a) For any redevelopment project area that has been designated pursuant to this Section by an ordinance adopted prior to November 1, 1999 (the effective date of Public Act 91-478), "blighted area" shall have the meaning set forth in this Section prior to that date.

On and after November 1, 1999, "blighted area" means any improved or vacant area within the boundaries of a redevelopment project area located within the territorial limits of the municipality where:

(1) If improved, industrial, commercial, and residential buildings or improvements are detrimental to the public safety, health, or welfare because of a combination of 5 or more of the following factors, each of which is (i) present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) reasonably distributed throughout the improved part of the redevelopment project area:

   (A) Dilapidation. An advanced state of disrepair or neglect of necessary repairs to the primary structural components of buildings or improvements in such a combination that a documented building condition analysis determines that major repair is required or the defects are so serious and so extensive that the buildings must be removed.

   (B) Obsolescence. The condition or process of falling into disuse. Structures have become ill-suited for the original use.

   (C) Deterioration. With respect to buildings, defects including, but not limited to, major defects in the secondary building components such as doors, windows, porches, gutters and downspouts, and fascia. With respect to surface improvements, that the condition of roadways, alleys, curbs, gutters, sidewalks, off-street parking, and surface

storage areas evidence deterioration, including, but not limited to, surface cracking, crumbling, potholes, depressions, loose paving material, and weeds protruding through paved surfaces.

(D) Presence of structures below minimum code standards. All structures that do not meet the standards of zoning, subdivision, building, fire, and other governmental codes applicable to property, but not including housing and property maintenance codes.

(E) Illegal use of individual structures. The use of structures in violation of applicable federal, State, or local laws, exclusive of those applicable to the presence of structures below minimum code standards.

(F) Excessive vacancies. The presence of buildings that are unoccupied or under-utilized and that represent an adverse influence on the area because of the frequency, extent, or duration of the vacancies.

(G) Lack of ventilation, light, or sanitary facilities. The absence of adequate ventilation for light or air circulation in spaces or rooms without windows, or that require the removal of dust, odor, gas, smoke, or other noxious airborne materials. Inadequate natural light and ventilation means the absence of skylights or windows for interior spaces or rooms and improper window sizes and amounts by room area to window area ratios. Inadequate sanitary facilities refers to the absence or inadequacy of garbage storage and enclosure, bathroom facilities, hot water and kitchens, and structural inadequacies preventing ingress and egress to and from all rooms and units within a building.

(H) Inadequate utilities. Underground and overhead utilities such as storm sewers and storm drainage, sanitary sewers, water lines, and gas, telephone, and electrical services that are shown to be inadequate. Inadequate utilities are those that are: (i) of insufficient capacity to serve the uses in the redevelopment project area, (ii) deteriorated, antiquated, obsolete, or in disrepair, or (iii) lacking within the redevelopment project area.

New matter indicated by italics - deletions by strikeout.
(I) Excessive land coverage and overcrowding of structures and community facilities. The over-intensive use of property and the crowding of buildings and accessory facilities onto a site. Examples of problem conditions warranting the designation of an area as one exhibiting excessive land coverage are: (i) the presence of buildings either improperly situated on parcels or located on parcels of inadequate size and shape in relation to present-day standards of development for health and safety and (ii) the presence of multiple buildings on a single parcel. For there to be a finding of excessive land coverage, these parcels must exhibit one or more of the following conditions: insufficient provision for light and air within or around buildings, increased threat of spread of fire due to the close proximity of buildings, lack of adequate or proper access to a public right-of-way, lack of reasonably required off-street parking, or inadequate provision for loading and service.

(J) Deleterious land use or layout. The existence of incompatible land-use relationships, buildings occupied by inappropriate mixed-uses, or uses considered to be noxious, offensive, or unsuitable for the surrounding area.

(K) Environmental clean-up. The proposed redevelopment project area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

(L) Lack of community planning. The proposed redevelopment project area was developed prior to or without the benefit or guidance of a community plan. This means that the development occurred prior to the adoption by the municipality of a comprehensive or other community plan or that the plan was not followed at the time of the

New matter indicated by italics - deletions by strikeout.
area's development. This factor must be documented by evidence of adverse or incompatible land-use relationships, inadequate street layout, improper subdivision, parcels of inadequate shape and size to meet contemporary development standards, or other evidence demonstrating an absence of effective community planning.

(M) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated.

(2) If vacant, the sound growth of the redevelopment project area is impaired by a combination of 2 or more of the following factors, each of which is (i) present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) reasonably distributed throughout the vacant part of the redevelopment project area to which it pertains:

(A) Obsolete platting of vacant land that results in parcels of limited or narrow size or configurations of parcels of irregular size or shape that would be difficult to develop on a planned basis and in a manner compatible with contemporary standards and requirements, or platting that failed to create rights-of-ways for streets or alleys or that created inadequate right-of-way widths for streets, alleys, or other public rights-of-way or that omitted easements for public utilities.

(B) Diversity of ownership of parcels of vacant land sufficient in number to retard or impede the ability to assemble the land for development.

New matter indicated by italics - deletions by strikeout.
(C) Tax and special assessment delinquencies exist or the property has been the subject of tax sales under the Property Tax Code within the last 5 years.

(D) Deterioration of structures or site improvements in neighboring areas adjacent to the vacant land.

(E) The area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

(F) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated.

(3) If vacant, the sound growth of the redevelopment project area is impaired by one of the following factors that (i) is present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) is reasonably distributed throughout the vacant part of the redevelopment project area to which it pertains:

(A) The area consists of one or more unused quarries, mines, or strip mine ponds.

(B) The area consists of unused rail yards, rail tracks, or railroad rights-of-way.

New matter indicated by italics - deletions by strikeout.
(C) The area, prior to its designation, is subject to (i) chronic flooding that adversely impacts on real property in the area as certified by a registered professional engineer or appropriate regulatory agency or (ii) surface water that discharges from all or a part of the area and contributes to flooding within the same watershed, but only if the redevelopment project provides for facilities or improvements to contribute to the alleviation of all or part of the flooding.

(D) The area consists of an unused or illegal disposal site containing earth, stone, building debris, or similar materials that were removed from construction, demolition, excavation, or dredge sites.

(E) Prior to November 1, 1999, the area is not less than 50 nor more than 100 acres and 75% of which is vacant (notwithstanding that the area has been used for commercial agricultural purposes within 5 years prior to the designation of the redevelopment project area), and the area meets at least one of the factors itemized in paragraph (1) of this subsection, the area has been designated as a town or village center by ordinance or comprehensive plan adopted prior to January 1, 1982, and the area has not been developed for that designated purpose.

(F) The area qualified as a blighted improved area immediately prior to becoming vacant, unless there has been substantial private investment in the immediately surrounding area.

(b) For any redevelopment project area that has been designated pursuant to this Section by an ordinance adopted prior to November 1, 1999 (the effective date of Public Act 91-478), "conservation area" shall have the meaning set forth in this Section prior to that date.

On and after November 1, 1999, "conservation area" means any improved area within the boundaries of a redevelopment project area located within the territorial limits of the municipality in which 50% or more of the structures in the area have an age of 35 years or more. Such an area is not yet a blighted area but because of a combination of 3 or more of the following factors is detrimental to the public safety, health, morals or welfare and such an area may become a blighted area:

(1) Dilapidation. An advanced state of disrepair or neglect of necessary repairs to the primary structural components of buildings or improvements in such a combination that a documented building condition analysis determines that major repair is required or the defects are so serious and so extensive that the buildings must be removed.

(2) Obsolescence. The condition or process of falling into disuse. Structures have become ill-suited for the original use.

(3) Deterioration. With respect to buildings, defects including, but not limited to, major defects in the secondary building components such as doors, windows, porches, gutters and downspouts, and fascia. With respect to surface improvements, that the condition of roadways, alleys, curbs, gutters, sidewalks, off-street parking, and surface storage areas evidence deterioration, including, but not limited to, surface cracking, crumbling, potholes, depressions, loose paving material, and weeds protruding through paved surfaces.

(4) Presence of structures below minimum code standards. All structures that do not meet the standards of zoning, subdivision, building, fire, and other governmental codes applicable to property, but not including housing and property maintenance codes.

(5) Illegal use of individual structures. The use of structures in violation of applicable federal, State, or local laws, exclusive of those applicable to the presence of structures below minimum code standards.

(6) Excessive vacancies. The presence of buildings that are unoccupied or under-utilized and that represent an adverse influence on the area because of the frequency, extent, or duration of the vacancies.

(7) Lack of ventilation, light, or sanitary facilities. The absence of adequate ventilation for light or air circulation in spaces or rooms without windows, or that require the removal of dust, odor, gas, smoke, or other noxious airborne materials. Inadequate natural light and ventilation means the absence or inadequacy of skylights or windows for interior spaces or rooms and improper window sizes and amounts by room area to window area ratios. Inadequate sanitary facilities refers to the absence or inadequacy of garbage storage and enclosure, bathroom facilities, hot water and

kitchens, and structural inadequacies preventing ingress and egress to and from all rooms and units within a building.

(8) Inadequate utilities. Underground and overhead utilities such as storm sewers and storm drainage, sanitary sewers, water lines, and gas, telephone, and electrical services that are shown to be inadequate. Inadequate utilities are those that are: (i) of insufficient capacity to serve the uses in the redevelopment project area, (ii) deteriorated, antiquated, obsolete, or in disrepair, or (iii) lacking within the redevelopment project area.

(9) Excessive land coverage and overcrowding of structures and community facilities. The over-intensive use of property and the crowding of buildings and accessory facilities onto a site. Examples of problem conditions warranting the designation of an area as one exhibiting excessive land coverage are: the presence of buildings either improperly situated on parcels or located on parcels of inadequate size and shape in relation to present-day standards of development for health and safety and the presence of multiple buildings on a single parcel. For there to be a finding of excessive land coverage, these parcels must exhibit one or more of the following conditions: insufficient provision for light and air within or around buildings, increased threat of spread of fire due to the close proximity of buildings, lack of adequate or proper access to a public right-of-way, lack of reasonably required off-street parking, or inadequate provision for loading and service.

(10) Deleterious land use or layout. The existence of incompatible land-use relationships, buildings occupied by inappropriate mixed-uses, or uses considered to be noxious, offensive, or unsuitable for the surrounding area.

(11) Lack of community planning. The proposed redevelopment project area was developed prior to or without the benefit or guidance of a community plan. This means that the development occurred prior to the adoption by the municipality of a comprehensive or other community plan or that the plan was not followed at the time of the area's development. This factor must be documented by evidence of adverse or incompatible land-use relationships, inadequate street layout, improper subdivision, parcels of inadequate shape and size to meet contemporary development standards, or other evidence demonstrating an absence of effective community planning.

For purposes of computing the aggregate amount of such taxes for base years occurring prior to 1985, the Department of Revenue shall determine the Initial Sales Tax Amounts for such taxes and deduct therefrom an amount equal to 4% of the aggregate amount of taxes per year for each year the base year is
prior to 1985, but not to exceed a total deduction of 12%. The amount so determined shall be known as the "Adjusted Initial Sales Tax Amounts". For purposes of determining the Municipal Sales Tax Increment, the Department of Revenue shall for each period subtract from the amount paid to the municipality from the Local Government Tax Fund arising from sales by retailers and servicemen on transactions located in the redevelopment project area or the State Sales Tax Boundary, as the case may be, the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts for the Municipal Retailers' Occupation Tax Act and the Municipal Service Occupation Tax Act. For the State Fiscal Year 1989, this calculation shall be made by utilizing the calendar year 1987 to determine the tax amounts received. For the State Fiscal Year 1991, this calculation shall be made by utilizing the period from October 1, 1988, to June 30, 1989, to determine the tax amounts received from retailers and servicemen pursuant to the Municipal Retailers' Occupation Tax and the Municipal Service Occupation Tax Act which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For every State Fiscal Year thereafter, the applicable period shall be the 12 months beginning July 1 and ending June 30 to determine the tax amounts received which shall have deducted therefrom the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts, as the case may be.

For Fiscal Year 1999, and every year thereafter until the year 2007, for any municipality that has not entered into a contract or has not issued bonds prior to June 1, 1988 to finance redevelopment project costs within a State Sales Tax Boundary, the Net State Sales Tax Increment shall be calculated as follows: By multiplying the Net State Sales Tax Increment by 90% in the State Fiscal Year 1999; 80% in the State Fiscal Year 2000; 70% in the State Fiscal Year 2001; 60% in the State Fiscal Year 2002; 50% in the State Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006; and 10% in the State Fiscal Year 2007. For the State Fiscal Year 1999, and every year thereafter until the year 2007, for any municipality that has not entered into a contract or has not issued bonds prior to June 1, 1988 to finance redevelopment project costs within a redevelopment project area, the Net State Utility Tax Increment shall be calculated as follows: By multiplying the Net State Utility Tax Increment by 90% in the State Fiscal Year 1999; 80% in the State Fiscal Year 2000; 70% in the State Fiscal Year 2001; 60% in the State Fiscal Year 2002; 50% in the State Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006; and 10% in the State Fiscal Year 2007. (n) "Redevelopment plan" means the comprehensive program of the municipality for development or redevelopment intended by the payment of redevelopment project costs to reduce or eliminate those conditions the existence of which qualified the redevelopment project area as a "blighted area" or "conservation area" or combination thereof or "industrial park conservation area," and thereby to enhance the tax bases of the taxing districts which extend into the redevelopment project area. On and after November 1, 1999 (the effective date of Public Act 91-478), no redevelopment plan may be approved or amended that includes the development of vacant land (i) with a golf course and related clubhouse and other facilities or (ii) designated by federal, State, county, or municipal government as public land for outdoor recreational activities or for nature preserves and used for that purpose within 5 years prior to the adoption of the redevelopment plan. (J) if property is to be annexed to the municipality, the plan shall include the terms of the annexation agreement.

The provisions of items (B) and (C) of this subsection (n) shall not apply to a municipality that before March 14, 1994 (the effective date of Public Act 88-537) had fixed, either by its corporate authorities or by a commission designated under subsection (k) of Section 11-74.4-4, a time and place for a public hearing as required by subsection (a) of Section 11-74.4-5. However, for redevelopment project areas for which bonds were issued before July 29, 1991, or for which contracts were entered into before June 1, 1988, in connection with a redevelopment project in the area within the State Sales Tax Boundary, the estimated dates of completion of the redevelopment project and retirement of obligations to finance redevelopment project costs may be extended by municipal ordinance to December 31, 2013. The termination procedures of subsection (b) of Section 11-74.4-8 are not required for these redevelopment project areas in 2009 but are required in 2013. The extension allowed by this amendatory Act of 1993 shall not apply to real property tax increment allocation financing under Section 11-74.4-8.

A municipality may by municipal ordinance amend an existing redevelopment plan to conform to this paragraph (3) as amended by Public Act 91-478, which municipal ordinance may be adopted without further hearing or notice and without complying with the procedures provided in this Act pertaining to an amendment to or the initial approval of a redevelopment plan and project and designation of a redevelopment project area.

Those dates, for purposes of real property tax increment allocation financing pursuant to Section 11-74.4-8 only, shall be not more than 35 years for redevelopment project areas that were adopted on or after December 16, 1986 and for which at least $8 million worth of municipal bonds were authorized on or after December 19, 1989 but before January 1, 1990; provided that the municipality elects to extend the life of the redevelopment project area to 35 years by the adoption of an ordinance after at least 14 but not more than 30 days' written notice to the taxing bodies, that would otherwise constitute the joint review board for the redevelopment project area, before the adoption of the ordinance.

Those dates, for purposes of real property tax increment allocation financing pursuant to Section 11-74.4-8 only, shall be not more than 35 years for redevelopment project areas that were established on or after December 1, 1981 but before January 1, 1982 and for which at least $1,500,000 worth of tax increment revenue bonds were authorized on or after September 30, 1990 but before July 1, 1991; provided that the municipality elects to extend the life of the redevelopment project area to 35 years by the adoption of an ordinance after at least 14 but not more than 30 days' written notice to the taxing bodies, that would otherwise constitute the joint review board for the redevelopment project area, before the adoption of the ordinance.

(3.5) The municipality finds, in the case of an industrial park conservation area, also that the municipality is a labor surplus municipality and that the implementation of the redevelopment plan will reduce unemployment, create new jobs and by the provision of new facilities enhance the tax base of the taxing districts that extend into the redevelopment project area.

(4) If any incremental revenues are being utilized under Section 8(a)(1) or 8(a)(2) of this Act in redevelopment project areas approved by ordinance after January 1, 1986, the municipality finds: (a) that the redevelopment project area would not reasonably be developed without the use of such incremental revenues, and (b) that such incremental revenues will be exclusively utilized for the development of the redevelopment project area.

units, and the municipality certifies in the plan that such displacement will not result from the plan, a housing impact study need not be performed. If, however, the redevelopment plan would result in the displacement of residents from 10 or more inhabited residential units, or if the redevelopment project area contains 75 or more inhabited residential units and no certification is made, then the municipality shall prepare, as part of the separate feasibility report required by subsection (a) of Section 11-74.4-5, a housing impact study.

Part I of the housing impact study shall include (i) data as to whether the residential units are single family or multi-family units, (ii) the number and type of rooms within the units, if that information is available, (iii) whether the units are inhabited or uninhabited, as determined not less than 45 days before the date that the ordinance or resolution required by subsection (a) of Section 11-74.4-5 is passed, and (iv) data as to the racial and ethnic composition of the residents in the inhabited residential units. The data requirement as to the racial and ethnic composition of the residents in the inhabited residential units shall be deemed to be fully satisfied by data from the most recent federal census.

Part II of the housing impact study shall identify the inhabited residential units in the proposed redevelopment project area that are to be or may be removed. If inhabited residential units are to be removed, then the housing impact study shall identify (i) the number and location of those units that will or may be removed, (ii) the municipality's plans for relocation assistance for those residents in the proposed redevelopment project area whose residences are to be removed, (iii) the availability of replacement housing for those residents whose residences are to be removed, and shall identify the type, location, and cost of the housing, and (iv) the type and extent of relocation assistance to be provided.

(6) On and after November 1, 1999, the housing impact study required by paragraph (5) shall be incorporated in the redevelopment plan for the redevelopment project area.

(7) On and after November 1, 1999, no redevelopment plan shall be adopted, nor an existing plan amended, nor shall residential housing that is occupied by households of low-income and very low-income persons in currently existing redevelopment project areas be removed after November 1, 1999 unless the

redevelopment plan provides, with respect to inhabited housing units that are to be removed for households of low-income and very low-income persons, affordable housing and relocation assistance not less than that which would be provided under the federal Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 and the regulations under that Act, including the eligibility criteria. Affordable housing may be either existing or newly constructed housing. For purposes of this paragraph (7), "low-income households", "very low-income households", and "affordable housing" have the meanings set forth in the Illinois Affordable Housing Act. The municipality shall make a good faith effort to ensure that this affordable housing is located in or near the redevelopment project area within the municipality.

(8) On and after November 1, 1999, if, after the adoption of the redevelopment plan for the redevelopment project area, any municipality desires to amend its redevelopment plan to remove more inhabited residential units than specified in its original redevelopment plan, that change shall be made in accordance with the procedures in subsection (c) of Section 11-74.4-5.

(9) For redevelopment project areas designated prior to November 1, 1999, the redevelopment plan may be amended without further joint review board meeting or hearing, provided that the municipality shall give notice of any such changes by mail to each affected taxing district and registrant on the interested party registry, to authorize the municipality to expend tax increment revenues for redevelopment project costs defined by paragraphs (5) and (7.5), subparagraphs (E) and (F) of paragraph (11), and paragraph (11.5) of subsection (q) of Section 11-74.4-3, so long as the changes do not increase the total estimated redevelopment project costs set out in the redevelopment plan by more than 5% after adjustment for inflation from the date the plan was adopted.

(o) "Redevelopment project" means any public and private development project in furtherance of the objectives of a redevelopment plan. On and after November 1, 1999 (the effective date of Public Act 91-478), no redevelopment plan may be approved or amended that includes the development of vacant land (i) with a golf course and related clubhouse and other facilities or (ii) designated by federal, State, county, or municipal government as public land for outdoor recreational activities.

(q) "Redevelopment project costs" mean and include the sum total of all reasonable or necessary costs incurred or estimated to be incurred, and any such costs incidental to a redevelopment plan and a redevelopment project. Such costs include, without limitation, the following:

(1) Costs of studies, surveys, development of plans, and specifications, implementation and administration of the redevelopment plan including but not limited to staff and professional service costs for architectural, engineering, legal, financial, planning or other services, provided however that no charges for professional services may be based on a percentage of the tax increment collected; except that on and after November 1, 1999 (the effective date of Public Act 91-478), no contracts for professional services, excluding architectural and engineering services, may be entered into if the terms of the contract extend beyond a period of 3 years. In addition, "redevelopment project costs" shall not include lobbying expenses. After consultation with the municipality, each tax increment consultant or advisor to a municipality that plans to designate or has designated a redevelopment project area shall inform the municipality in writing of any contracts that the consultant or advisor has entered into with entities or individuals that have received, or are receiving, payments financed by tax increment revenues produced by the redevelopment project area with respect to which the consultant or advisor has performed, or will be performing, service for the municipality. This requirement shall be satisfied by the consultant or advisor before the commencement of services for the municipality and thereafter whenever any other contracts with those individuals or entities are executed by the consultant or advisor;

(1.5) After July 1, 1999, annual administrative costs shall not include general overhead or administrative costs of the municipality that would still have been incurred by the municipality if the municipality had not designated a redevelopment project area or approved a redevelopment plan;

(2) Property assembly costs, including but not limited to acquisition of land and other property, real or personal, or rights or interests therein, demolition of buildings, site preparation, site improvements that serve as an engineered barrier addressing ground level or below ground environmental contamination, including, but not limited to parking lots and other concrete or asphalt barriers, and the clearing and grading of land;

(3) Costs of rehabilitation, reconstruction or repair or remodeling of existing public or private buildings, fixtures, and leasehold improvements; and the cost of replacing an existing public building if pursuant to the implementation of a redevelopment project the existing public building is to be demolished to use the site for private investment or devoted to a different use requiring private investment;

(4) Costs of the construction of public works or improvements, except that on and after November 1, 1999, redevelopment project costs shall not include the cost of constructing a new municipal public building principally used to provide offices, storage space, or conference facilities or vehicle storage, maintenance, or repair for administrative, public safety, or public works personnel and that is not intended to replace an existing public building as provided under paragraph (3) of subsection (q) of Section 11-74.4-3 unless either (i) the construction of the new municipal building implements a redevelopment project that was included in a redevelopment plan that was adopted by the municipality prior to November 1, 1999 or (ii) the municipality makes a reasonable determination in the redevelopment plan, supported by information that provides the basis for that determination, that the new municipal building is required to meet an increase in the need for public safety purposes anticipated to result from the implementation of the redevelopment plan;

(5) Costs of job training and retraining projects, including the cost of "welfare to work" programs implemented by businesses located within the redevelopment project area;

(6) Financing costs, including but not limited to all necessary and incidental expenses related to the issuance of obligations and which may include payment of interest on any obligations issued hereunder including interest accruing during the estimated period of construction of any redevelopment project for which such obligations are issued and for not exceeding 36 months thereafter and including reasonable reserves related thereto;

(7) To the extent the municipality by written agreement accepts and approves the same, all or a portion of a taxing district's capital costs resulting from the redevelopment project necessarily incurred or to be incurred within a taxing district in furtherance of the objectives of the redevelopment plan and project.

(A) for foundation districts, excluding any school district in a municipality with a population in excess of 1,000,000, by multiplying the district's increase in attendance resulting from the net increase in new students enrolled in that school district who reside in housing units within the redevelopment project area that have received financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the

boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by the most recently available per capita tuition cost as defined in Section 10-20.12a of the School Code less any increase in general State aid as defined in Section 18-8.05 of the School Code attributable to these added new students subject to the following annual limitations:

(i) for unit school districts with a district average 1995-96 Per Capita Tuition Charge of less than $5,900, no more than 25% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act;

(ii) for elementary school districts with a district average 1995-96 Per Capita Tuition Charge of less than $5,900, no more than 17% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act; and

(iii) for secondary school districts with a district average 1995-96 Per Capita Tuition Charge of less than $5,900, no more than 8% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act.

(B) For alternate method districts, flat grant districts, and foundation districts with a district average 1995-96 Per Capita Tuition Charge equal to or more than $5,900, excluding any school district with a population in excess of 1,000,000, by multiplying the district's increase in attendance resulting from the net increase in new students enrolled in that school district who reside in housing units within the redevelopment project area that have received financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since

the designation of the redevelopment project area by the most recently available per capita tuition cost as defined in Section 10-20.12a of the School Code less any increase in general state aid as defined in Section 18-8.05 of the School Code attributable to these added new students subject to the following annual limitations:

(i) for unit school districts, no more than 40% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act;

(ii) for elementary school districts, no more than 27% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act; and

(iii) for secondary school districts, no more than 13% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act.

(C) For any school district in a municipality with a population in excess of 1,000,000, the following restrictions shall apply to the reimbursement of increased costs under this paragraph (7.5):

(i) no increased costs shall be reimbursed unless the school district certifies that each of the schools affected by the assisted housing project is at or over its student capacity;

(ii) the amount reimbursable shall be reduced by the value of any land donated to the school district by the municipality or developer, and by the value of any physical improvements made to the schools by the municipality or developer; and

(iii) the amount reimbursed may not affect amounts otherwise obligated by the terms of any bonds, notes, or other funding instruments, or the terms of any redevelopment agreement.

Any school district seeking payment under this paragraph (7.5) shall, after July 1 and before September 30 of each year, provide the municipality with reasonable evidence to support its claim for reimbursement before the municipality shall be required to approve or make the payment to the school district. If the school district fails to provide the information during this period in any year, it shall forfeit any claim to reimbursement for that year. School districts may adopt a resolution waiving the right to all or a portion of the reimbursement otherwise required by this paragraph (7.5). By acceptance of this reimbursement the school district waives the right to directly or indirectly set aside, modify, or contest in any manner the establishment of the redevelopment project area or projects;

(7.7) For redevelopment project areas designated (or redevelopment project areas amended to add or increase the number of tax-increment-financing assisted housing units) on or after January 1, 2005 (the effective date of Public Act 93-961), a public library district's increased costs attributable to assisted housing units located within the redevelopment project area for which the developer or redeveloper receives financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the assisted housing sites necessary for the completion of that housing as authorized by this Act shall be paid to the library district by the municipality from the Special Tax Allocation Fund when the tax increment revenue is received as a result of the assisted housing units. This paragraph (7.7) applies only if (i) the library district is located in a county that is subject to the Property Tax Extension Limitation Law or (ii) the library district is not located in a county that is subject to the Property Tax Extension Limitation Law but the district is prohibited by any other law from increasing its tax levy rate without a prior voter referendum.

The amount paid to a library district under this paragraph (7.7) shall be calculated by multiplying (i) the net increase in the number of persons eligible to obtain a library card in that district who reside in housing units within the redevelopment project area that have received financial assistance through an agreement with
the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by (ii) the per-patron cost of providing library services so long as it does not exceed $120. The per-patron cost shall be the Total Operating Expenditures Per Capita as stated in the most recent Illinois Public Library Statistics produced by the Library Research Center at the University of Illinois. The municipality may deduct from the amount that it must pay to a library district under this paragraph any amount that it has voluntarily paid to the library district from the tax increment revenue. The amount paid to a library district under this paragraph (7.7) shall be no more than 2% of the amount produced by the assisted housing units and deposited into the Special Tax Allocation Fund.

A library district is not eligible for any payment under this paragraph (7.7) unless the library district has experienced an increase in the number of patrons from the municipality that created the tax-increment-financing district since the designation of the redevelopment project area.

Any library district seeking payment under this paragraph (7.7) shall, after July 1 and before September 30 of each year, provide the municipality with convincing evidence to support its claim for reimbursement before the municipality shall be required to approve or make the payment to the library district. If the library district fails to provide the information during this period in any year, it shall forfeit any claim to reimbursement for that year. Library districts may adopt a resolution waiving the right to all or a portion of the reimbursement otherwise required by this paragraph (7.7). By acceptance of such reimbursement, the library district shall forfeit any right to directly or indirectly set aside, modify, or contest in any manner whatsoever the establishment of the redevelopment project area or projects;

(10) Costs of job training, retraining, advanced vocational education or career education, including but not limited to courses in occupational, semi-technical or technical fields leading directly to employment, incurred by one or more taxing districts, provided that such costs (i) are related to the establishment and maintenance of additional job training, advanced vocational education or career education programs for persons employed or to be employed by employers located in a redevelopment project area; and (ii) when incurred by a taxing district or taxing districts other than the municipality, are set forth in a written agreement by or among the municipality and the taxing district or taxing districts, which agreement describes the program to be undertaken, including but not limited to the number of employees to be trained, a description of the training and services to be provided, the number and type of positions available or to be available, itemized costs of the program and sources of funds to pay for the same, and the term of the agreement. Such costs include, specifically, the payment by community college districts of costs pursuant to Sections 3-37, 3-38, 3-40 and 3-40.1 of the Public Community College Act and by school districts of costs pursuant to Sections 10-22.20a and 10-23.3a of The School Code;

(11) Interest cost incurred by a redeveloper related to the construction, renovation or rehabilitation of a redevelopment project provided that:

(A) such costs are to be paid directly from the special tax allocation fund established pursuant to this Act;

(B) such payments in any one year may not exceed 30% of the annual interest costs incurred by the redeveloper with regard to the redevelopment project during that year;

(C) if there are not sufficient funds available in the special tax allocation fund to make the payment pursuant to this paragraph (11) then the amounts so due shall accrue and be payable when sufficient funds are available in the special tax allocation fund;

(D) the total of such interest payments paid pursuant to this Act may not exceed 30% of the total (i) cost paid or incurred by the redeveloper for the redevelopment project plus (ii) redevelopment project costs excluding any
property assembly costs and any relocation costs incurred by a municipality pursuant to this Act; and

(E) the cost limits set forth in subparagraphs (B) and (D) of paragraph (11) shall be modified for the financing of rehabilitated or new housing units for low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act. The percentage of 75% shall be substituted for 30% in subparagraphs (B) and (D) of paragraph (11).

(F) Instead of the eligible costs provided by subparagraphs (B) and (D) of paragraph (11), as modified by this subparagraph, and notwithstanding any other provisions of this Act to the contrary, the municipality may pay from tax increment revenues up to 50% of the cost of construction of new housing units to be occupied by low-income households and very low-income households as defined in Section 3 of the Illinois Affordable Housing Act. The cost of construction of those units may be derived from the proceeds of bonds issued by the municipality under this Act or other constitutional or statutory authority or from other sources of municipal revenue that may be reimbursed from tax increment revenues or the proceeds of bonds issued to finance the construction of that housing.

The eligible costs provided under this subparagraph (F) of paragraph (11) shall be an eligible cost for the construction, renovation, and rehabilitation of all low and very low-income housing units, as defined in Section 3 of the Illinois Affordable Housing Act, within the redevelopment project area. If the low and very low-income units are part of a residential redevelopment project that includes units not affordable to low and very low-income households, only the low and very low-income units shall be eligible for benefits under subparagraph (F) of paragraph (11). The standards for maintaining the occupancy by low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act, of those units constructed with eligible costs made available under the provisions of this subparagraph (F) of paragraph (11) shall be established by guidelines adopted

by the municipality. The responsibility for annually documenting the initial occupancy of the units by low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act, shall be that of the then current owner of the property. For ownership units, the guidelines will provide, at a minimum, for a reasonable recapture of funds, or other appropriate methods designed to preserve the original affordability of the ownership units. For rental units, the guidelines will provide, at a minimum, for the affordability of rent to low and very low-income households. As units become available, they shall be rented to income-eligible tenants. The municipality may modify these guidelines from time to time; the guidelines, however, shall be in effect for as long as tax increment revenue is being used to pay for costs associated with the units or for the retirement of bonds issued to finance the units or for the life of the redevelopment project area, whichever is later.

(11.5) If the redevelopment project area is located within a municipality with a population of more than 100,000, the cost of day care services for children of employees from low-income families working for businesses located within the redevelopment project area and all or a portion of the cost of operation of day care centers established by redevelopment project area businesses to serve employees from low-income families working in businesses located in the redevelopment project area. For the purposes of this paragraph, "low-income families" means families whose annual income does not exceed 80% of the municipal, county, or regional median income, adjusted for family size, as the annual income and municipal, county, or regional median income are determined from time to time by the United States Department of Housing and Urban Development.

(12) Unless explicitly stated herein the cost of construction of new privately-owned buildings shall not be an eligible redevelopment project cost.

(13) After November 1, 1999 (the effective date of Public Act 91-478), none of the redevelopment project costs enumerated in this subsection shall be eligible redevelopment project costs if those costs would provide direct financial support to a retail entity

initiating operations in the redevelopment project area while terminating operations at another Illinois location within 10 miles of the redevelopment project area but outside the boundaries of the redevelopment project area municipality. For purposes of this paragraph, termination means a closing of a retail operation that is directly related to the opening of the same operation or like retail entity owned or operated by more than 50% of the original ownership in a redevelopment project area, but it does not mean closing an operation for reasons beyond the control of the retail entity, as documented by the retail entity, subject to a reasonable finding by the municipality that the current location contained inadequate space, had become economically obsolete, or was no longer a viable location for the retailer or serviceman.

If a special service area has been established pursuant to the Special Service Area Tax Act or Special Service Area Tax Law, then any tax increment revenues derived from the tax imposed pursuant to the Special Service Area Tax Act or Special Service Area Tax Law may be used within the redevelopment project area for the purposes permitted by that Act or Law as well as the purposes permitted by this Act.

(r) "State Sales Tax Boundary" means the redevelopment project area or the amended redevelopment project area boundaries which are determined pursuant to subsection (9) of Section 11-74.4-8a of this Act. The Department of Revenue shall certify pursuant to subsection (9) of Section 11-74.4-8a the appropriate boundaries eligible for the determination of State Sales Tax Increment.

(s) "State Sales Tax Increment" means an amount equal to the increase in the aggregate amount of taxes paid by retailers and servicemen, other than retailers and servicemen subject to the Public Utilities Act, on transactions at places of business located within a State Sales Tax Boundary pursuant to the Retailers' Occupation Tax Act, the Use Tax Act, the Service Use Tax Act, and the Service Occupation Tax Act, except such portion of such increase that is paid into the State and Local Sales Tax Reform Fund, the Local Government Distributive Fund, the Local Government Tax Fund and the County and Mass Transit District Fund, for as long as State participation exists, over and above the Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts for such taxes as certified by the Department of Revenue and paid under those Acts by retailers and servicemen on transactions at places of business located within the State Sales Tax Boundary during the

base year which shall be the calendar year immediately prior to the year in
which the municipality adopted tax increment allocation financing, less
3.0% of such amounts generated under the Retailers' Occupation Tax Act,
Use Tax Act and Service Use Tax Act and the Service Occupation Tax
Act, which sum shall be appropriated to the Department of Revenue to
cover its costs of administering and enforcing this Section. For purposes of
computing the aggregate amount of such taxes for base years occurring
prior to 1985, the Department of Revenue shall compute the Initial Sales
Tax Amount for such taxes and deduct therefrom an amount equal to 4%
of the aggregate amount of taxes per year for each year the base year is
prior to 1985, but not to exceed a total deduction of 12%. The amount so
determined shall be known as the "Adjusted Initial Sales Tax Amount".
For purposes of determining the State Sales Tax Increment the Department
of Revenue shall for each period subtract from the tax amounts received
from retailers and servicemen on transactions located in the State Sales
Tax Boundary, the certified Initial Sales Tax Amounts, Adjusted Initial
Sales Tax Amounts or Revised Initial Sales Tax Amounts for the Retailers'
Occupation Tax Act, the Use Tax Act, the Service Use Tax Act and the
Service Occupation Tax Act. For the State Fiscal Year 1989 this
calculation shall be made by utilizing the calendar year 1987 to determine
the tax amounts received. For the State Fiscal Year 1990, this calculation
shall be made by utilizing the period from January 1, 1988, until
September 30, 1988, to determine the tax amounts received from retailers
and servicemen, which shall have deducted therefrom nine-twelfths of the
certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or
the Revised Initial Sales Tax Amounts as appropriate. For the State Fiscal
Year 1991, this calculation shall be made by utilizing the period from
October 1, 1988, until June 30, 1989, to determine the tax amounts
received from retailers and servicemen, which shall have deducted
therefrom nine-twelfths of the certified Initial State Sales Tax Amounts,
Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax
Amounts as appropriate. For every State Fiscal Year thereafter, the
applicable period shall be the 12 months beginning July 1 and ending on
June 30, to determine the tax amounts received which shall have deducted
therefrom the certified Initial Sales Tax Amounts, Adjusted Initial Sales
Tax Amounts or the Revised Initial Sales Tax Amounts. Municipalities
intending to receive a distribution of State Sales Tax Increment must
report a list of retailers to the Department of Revenue by October 31, 1988
and by July 31, of each year thereafter.

(d) For redevelopment project areas for which bonds were issued before July 29, 1991, or for which contracts were entered into before June 1, 1988, in connection with a redevelopment project in the area within the State Sales Tax Boundary, the estimated dates of completion of the redevelopment project and retirement of obligations to finance redevelopment project costs (including refunding bonds under Section 11-74.4-7) may be extended by municipal ordinance to December 31, 2013. (65 ILCS 5/11-74.4-7) (from Ch. 24, par. 11-74.4-7)

Sec. 11-74.4-7. Obligations secured by the special tax allocation fund set forth in Section 11-74.4-8 for the redevelopment project area may be issued to provide for redevelopment project costs. Such obligations, when so issued, shall be retired in the manner provided in the ordinance authorizing the issuance of such obligations by the receipts of taxes levied as specified in Section 11-74.4-9 against the taxable property included in the area, by revenues as specified by Section 11-74.4-8a and other revenue designated by the municipality. A municipality may in the ordinance pledge all or any part of the funds in and to be deposited in the special tax allocation fund created pursuant to Section 11-74.4-8 to the payment of the redevelopment project costs and obligations. Any pledge of funds in the special tax allocation fund shall provide for distribution to the taxing districts and to the Illinois Department of Revenue of moneys not required, pledged, earmarked, or otherwise designated for payment and securing of the obligations and anticipated redevelopment project costs and such excess funds shall be calculated annually and deemed to be "surplus"

funds. In the event a municipality only applies or pledges a portion of the funds in the special tax allocation fund for the payment or securing of anticipated redevelopment project costs or of obligations, any such funds remaining in the special tax allocation fund after complying with the requirements of the application or pledge, shall also be calculated annually and deemed "surplus" funds. All surplus funds in the special tax allocation fund shall be distributed annually within 180 days after the close of the municipality's fiscal year by being paid by the municipal treasurer to the County Collector, to the Department of Revenue and to the municipality in direct proportion to the tax incremental revenue received as a result of an increase in the equalized assessed value of property in the redevelopment project area, tax incremental revenue received from the State and tax incremental revenue received from the municipality, but not to exceed as to each such source the total incremental revenue received from that source. The County Collector shall thereafter make distribution to the respective taxing districts in the same manner and proportion as the most recent distribution by the county collector to the affected districts of real property taxes from real property in the redevelopment project area.

Without limiting the foregoing in this Section, the municipality may in addition to obligations secured by the special tax allocation fund pledge for a period not greater than the term of the obligations towards payment of such obligations any part or any combination of the following: (a) net revenues of all or part of any redevelopment project; (b) taxes levied and collected on any or all property in the municipality; (c) the full faith and credit of the municipality; (d) a mortgage on part or all of the redevelopment project; or (e) any other taxes or anticipated receipts that the municipality may lawfully pledge.

Such obligations may be issued in one or more series bearing interest at such rate or rates as the corporate authorities of the municipality shall determine by ordinance. Such obligations shall bear such date or dates, mature at such time or times not exceeding 20 years from their respective dates, be in such denomination, carry such registration privileges, be executed in such manner, be payable in such medium of payment at such place or places, contain such covenants, terms and conditions, and be subject to redemption as such ordinance shall provide. Obligations issued pursuant to this Act may be sold at public or private sale at such price as shall be determined by the corporate authorities of the municipalities. No referendum approval of the electors shall be required as

a condition to the issuance of obligations pursuant to this Division except as provided in this Section.

In the event the municipality authorizes issuance of obligations pursuant to the authority of this Division secured by the full faith and credit of the municipality, which obligations are other than obligations which may be issued under home rule powers provided by Article VII, Section 6 of the Illinois Constitution, or pledges taxes pursuant to (b) or (c) of the second paragraph of this section, the ordinance authorizing the issuance of such obligations or pledging such taxes shall be published within 10 days after such ordinance has been passed in one or more newspapers, with general circulation within such municipality. The publication of the ordinance shall be accompanied by a notice of (1) the specific number of voters required to sign a petition requesting the question of the issuance of such obligations or pledging taxes to be submitted to the electors; (2) the time in which such petition must be filed; and (3) the date of the prospective referendum. The municipal clerk shall provide a petition form to any individual requesting one.

If no petition is filed with the municipal clerk, as hereinafter provided in this Section, within 30 days after the publication of the ordinance, the ordinance shall be in effect. But, if within that 30 day period a petition is filed with the municipal clerk, signed by electors in the municipality numbering 10% or more of the number of registered voters in the municipality, asking that the question of issuing obligations using full faith and credit of the municipality as security for the cost of paying for redevelopment project costs, or of pledging taxes for the payment of such obligations, or both, be submitted to the electors of the municipality, the corporate authorities of the municipality shall call a special election in the manner provided by law to vote upon that question, or, if a general, State or municipal election is to be held within a period of not less than 30 or more than 90 days from the date such petition is filed, shall submit the question at the next general, State or municipal election. If it appears upon the canvass of the election by the corporate authorities that a majority of electors voting upon the question voted in favor thereof, the ordinance shall be in effect, but if a majority of the electors voting upon the question are not in favor thereof, the ordinance shall not take effect.

The ordinance authorizing the obligations may provide that the obligations shall contain a recital that they are issued pursuant to this Division, which recital shall be conclusive evidence of their validity and of the regularity of their issuance.

In the event the municipality authorizes issuance of obligations pursuant to this Section secured by the full faith and credit of the municipality, the ordinance authorizing the obligations may provide for the levy and collection of a direct annual tax upon all taxable property within the municipality sufficient to pay the principal thereof and interest thereon as it matures, which levy may be in addition to and exclusive of the maximum of all other taxes authorized to be levied by the municipality, which levy, however, shall be abated to the extent that monies from other sources are available for payment of the obligations and the municipality certifies the amount of said monies available to the county clerk.

A certified copy of such ordinance shall be filed with the county clerk of each county in which any portion of the municipality is situated, and shall constitute the authority for the extension and collection of the taxes to be deposited in the special tax allocation fund.

A municipality may also issue its obligations to refund in whole or in part, obligations theretofore issued by such municipality under the authority of this Act, whether at or prior to maturity, provided however, that the last maturity of the refunding obligations may not be later than the dates set forth under Section 11-74.4-3.5. shall not be expressed to mature later than December 31 of the year in which the payment to the municipal treasurer as provided in subsection (b) of Section 11-74.4-8 of this Act is to be made with respect to ad valorem taxes levied in the twenty-third calendar year after the year in which the ordinance approving the redevelopment project area is adopted if the ordinance was adopted on or after January 15, 1981, not later than December 31 of the year in which the payment to the municipal treasurer as provided in subsection (b) of Section 11-74.4-8 of this Act is to be made with respect to ad valorem taxes levied in the thirty-third calendar year after the year in which the ordinance approving the redevelopment project area is adopted if the ordinance was adopted on May 20, 1985 by the Village of Wheeling, and not later than December 31 of the year in which the payment to the municipal treasurer as provided in subsection (b) of Section 11-74.4-8 of this Act is to be made with respect to ad valorem taxes levied in the thirty-third calendar year after the year in which the ordinance approving the redevelopment project area is adopted (A) if the ordinance was adopted before January 15, 1981, or (B) if the ordinance was adopted in December 1983, April 1984, July 1985, or December 1989, or (C) if the ordinance was adopted in December, 1987 and the redevelopment project is located within one mile

PUBLIC ACT 95-0933  
(Senate Bill No. 2721)

AN ACT concerning civil law.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Code of Civil Procedure is amended by changing Section 15-1701 as follows:

(735 ILCS 5/15-1701) (from Ch. 110, par. 15-1701)

Sec. 15-1701. Right to possession.

(a) General. The provisions of this Article shall govern the right to possession of the mortgaged real estate during foreclosure. Possession under this Article includes physical possession of the mortgaged real estate to the same extent to which the mortgagor, absent the foreclosure, would have been entitled to physical possession. For the purposes of Part 17, real estate is residential real estate only if it is residential real estate at the time the foreclosure is commenced.

(b) Pre-Judgment. Prior to the entry of a judgment of foreclosure:

(1) In the case of residential real estate, the mortgagor shall be entitled to possession of the real estate except if (i) the mortgagee shall object and show good cause, (ii) the mortgagee is so authorized by the terms of the mortgage or other written instrument, and (iii) the court is satisfied that there is a reasonable probability that the mortgagee will prevail on a final hearing of the cause, the court shall upon request place the mortgagee in possession. If the residential real estate consists of more than one dwelling unit, then for the purpose of this Part residential real estate shall mean only that dwelling unit or units occupied by persons described in clauses (i), (ii) and (iii) of Section 15-1219.

(2) In all other cases, if (i) the mortgagee is so authorized by the terms of the mortgage or other written instrument, and (ii) the court is satisfied that there is a reasonable probability that the mortgagee will prevail on a final hearing of the cause, the mortgagee shall upon request be placed in possession of the real estate, except that if the mortgagor shall object and show good cause, the court shall allow the mortgagor to remain in possession.

(c) Judgment Through 30 Days After Sale Confirmation. After the entry of a judgment of foreclosure and through the 30th day after a foreclosure sale is confirmed:

New matter indicated by italics - deletions by strikeout.
(1) Subsection (b) of Section 15-1701 shall be applicable, regardless of the provisions of the mortgage or other instrument, except that after a sale pursuant to the judgment the holder of the certificate of sale (or, if none, the purchaser at the sale) shall have the mortgagee's right to be placed in possession, with all rights and duties of a mortgagee in possession under this Article.

(2) Notwithstanding paragraph (1) of subsection (b) and paragraph (1) of subsection (c) of Section 15-1701, upon request of the mortgagee, a mortgagor of residential real estate shall not be allowed to remain in possession between the expiration of the redemption period and through the 30th day after sale confirmation unless (i) the mortgagor pays to the mortgagee or such holder or purchaser, whichever is applicable, monthly the lesser of the interest due under the mortgage calculated at the mortgage rate of interest applicable as if no default had occurred or the fair rental value of the real estate, or (ii) the mortgagor otherwise shows good cause. Any amounts paid by the mortgagor pursuant to this subsection shall be credited against the amounts due from the mortgagor.

(d) After 30 Days After Sale Confirmation. The holder of the certificate of sale or deed issued pursuant to that certificate or, if no certificate or deed was issued, the purchaser, except to the extent the holder or purchaser may consent otherwise, shall be entitled to possession of the mortgaged real estate, as of the date 30 days after the order confirming the sale is entered, against those parties to the foreclosure whose interests the court has ordered terminated, without further notice to any party, further order of the court, or resort to proceedings under any other statute other than this Article. This right to possession shall be limited by the provisions governing entering and enforcing orders of possession under subsection (g) of Section 15-1508. If the holder or purchaser determines that there are occupants of the mortgaged real estate who have not been made parties to the foreclosure and had their interests terminated therein, the holder or purchaser may bring a proceeding under subsection (h) of this Section or under Article 9 of this Code to terminate the rights of possession of any such occupants. The holder or purchaser shall not be entitled to proceed against any such occupant under Article 9 of this Code until after 30 days after the order confirming the sale is entered.

New matter indicated by italics - deletions by strikeout.
(e) Termination of Leases. A lease of all or any part of the mortgaged real estate shall not be terminated automatically solely by virtue of the entry into possession by (i) a mortgagee or receiver prior to the entry of an order confirming the sale, (ii) the holder of the certificate of sale, (iii) the holder of the deed issued pursuant to that certificate, or (iv) if no certificate or deed was issued, the purchaser at the sale.

(f) Other Statutes; Instruments. The provisions of this Article providing for possession of mortgaged real estate shall supersede any other inconsistent statutory provisions. In particular, and without limitation, whenever a receiver is sought to be appointed in any action in which a foreclosure is also pending, a receiver shall be appointed only in accordance with this Article. Except as may be authorized by this Article, no mortgage or other instrument may modify or supersede the provisions of this Article.

(g) Certain Leases. Leases of the mortgaged real estate entered into by a mortgagee in possession or a receiver and approved by the court in a foreclosure shall be binding on all parties, including the mortgagor after redemption, the purchaser at a sale pursuant to a judgment of foreclosure and any person acquiring an interest in the mortgaged real estate after entry of a judgment of foreclosure in accordance with Sections 15-1402 and 15-1403.

(h) Proceedings Against Certain Occupants.

   (1) The mortgagee-in-possession of the mortgaged real estate under Section 15-1703, a receiver appointed under Section 15-1704, a holder of the certificate of sale or deed, or the purchaser may, at any time during the pendency of the foreclosure and up to 90 days after the date of the order confirming the sale, file a supplemental petition for possession against a person not personally named as a party to the foreclosure. The supplemental petition for possession shall name each such occupant against whom possession is sought and state the facts upon which the claim for relief is premised.

   (2) The petitioner shall serve upon each named occupant the petition, a notice of hearing on the petition, and, if any, a copy of the certificate of sale or deed. The proceeding for the termination of such occupant's possessory interest, including service of the notice of the hearing and the petition, shall in all respects comport with the requirements of Article 9 of this Code,

except as otherwise specified in this Section. The hearing shall be no less than 21 days from the date of service of the notice.

(3) The supplemental petition shall be heard as part of the foreclosure proceeding and without the payment of additional filing fees. An order for possession obtained under this Section shall name each occupant whose interest has been terminated, shall recite that it is only effective as to the occupant so named and those holding under them, and shall be enforceable for no more than 90 days after its entry, except that the 90-day period may be extended to the extent and in the manner provided in Section 9-117 of Article 9 and except as provided in item (4) of this subsection (h).

(4) In a case of foreclosure where the tenant is current on his or her rent, or where timely written notice of to whom and where the rent is to be paid has not been provided to the tenant, or where the tenant has made good-faith efforts to make rental payments in order to keep current, any order of possession must allow the tenant to retain possession of the property covered in his or her rental agreement (i) for 120 days following the notice of the hearing on the supplemental petition that has been properly served upon the tenant, or (ii) through the duration of his or her lease, whichever is shorter. If the tenant has been given timely written notice of to whom and where the rent is to be paid, this item (4) shall only apply if the tenant continues to pay his or her rent in full during the 120-day period or has made good-faith efforts to pay the rent in full during that period. No mortgagee-in-possession, receiver or holder of a certificate of sale or deed, or purchaser who fails to file a supplemental petition under this subsection during the pendency of a mortgage foreclosure shall file a forcible entry and detainer action against a tenant of the mortgaged real estate until 90 days after a notice of intent to file such action has been properly served upon the tenant.

(5) The court records relating to a supplemental petition for possession filed under this subsection (h) against a tenant who is entitled to notice under item (4) of this subsection (h), or relating to a forcible entry and detainer action brought against a tenant who would have lawful possession of the premises but for the foreclosure of a mortgage on the property, shall be ordered sealed and shall not be disclosed to any person, other than a law enforcement official.
enforcement officer or any other representative of a governmental entity, except upon further order of the court.

PUBLIC ACT 95-0934

(Senate Bill No. 2733)

AN ACT concerning local government.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Illinois Municipal Code is amended by changing Section 11-74.4-3 as follows:

(65 ILCS 5/11-74.4-3) (from Ch. 24, par. 11-74.4-3)

Sec. 11-74.4-3. Definitions. The following terms, wherever used or referred to in this Division 74.4 shall have the following respective meanings, unless in any case a different meaning clearly appears from the context.

(a) For any redevelopment project area that has been designated pursuant to this Section by an ordinance adopted prior to November 1, 1999 (the effective date of Public Act 91-478), "blighted area" shall have the meaning set forth in this Section prior to that date.

On and after November 1, 1999, "blighted area" means any improved or vacant area within the boundaries of a redevelopment project area located within the territorial limits of the municipality where:

(1) If improved, industrial, commercial, and residential buildings or improvements are detrimental to the public safety, health, or welfare because of a combination of 5 or more of the following factors, each of which is (i) present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) reasonably distributed throughout the improved part of the redevelopment project area:

(A) Dilapidation. An advanced state of disrepair or neglect of necessary repairs to the primary structural

New matter indicated by italics - deletions by strikeout.
components of buildings or improvements in such a combination that a documented building condition analysis determines that major repair is required or the defects are so serious and so extensive that the buildings must be removed.

(B) Obsolescence. The condition or process of falling into disuse. Structures have become ill-suited for the original use.

(C) Deterioration. With respect to buildings, defects including, but not limited to, major defects in the secondary building components such as doors, windows, porches, gutters and downspouts, and fascia. With respect to surface improvements, that the condition of roadways, alleys, curbs, gutters, sidewalks, off-street parking, and surface storage areas evidence deterioration, including, but not limited to, surface cracking, crumbling, potholes, depressions, loose paving material, and weeds protruding through paved surfaces.

(D) Presence of structures below minimum code standards. All structures that do not meet the standards of zoning, subdivision, building, fire, and other governmental codes applicable to property, but not including housing and property maintenance codes.

(E) Illegal use of individual structures. The use of structures in violation of applicable federal, State, or local laws, exclusive of those applicable to the presence of structures below minimum code standards.

(F) Excessive vacancies. The presence of buildings that are unoccupied or under-utilized and that represent an adverse influence on the area because of the frequency, extent, or duration of the vacancies.

(G) Lack of ventilation, light, or sanitary facilities. The absence of adequate ventilation for light or air circulation in spaces or rooms without windows, or that require the removal of dust, odor, gas, smoke, or other noxious airborne materials. Inadequate natural light and ventilation means the absence of skylights or windows for interior spaces or rooms and improper window sizes and amounts by room area to window area ratios. Inadequate

New matter indicated by italics - deletions by strikeout.
sanitary facilities refers to the absence or inadequacy of garbage storage and enclosure, bathroom facilities, hot water and kitchens, and structural inadequacies preventing ingress and egress to and from all rooms and units within a building.

(H) Inadequate utilities. Underground and overhead utilities such as storm sewers and storm drainage, sanitary sewers, water lines, and gas, telephone, and electrical services that are shown to be inadequate. Inadequate utilities are those that are: (i) of insufficient capacity to serve the uses in the redevelopment project area, (ii) deteriorated, antiquated, obsolete, or in disrepair, or (iii) lacking within the redevelopment project area.

(I) Excessive land coverage and overcrowding of structures and community facilities. The over-intensive use of property and the crowding of buildings and accessory facilities onto a site. Examples of problem conditions warranting the designation of an area as one exhibiting excessive land coverage are: (i) the presence of buildings either improperly situated on parcels or located on parcels of inadequate size and shape in relation to present-day standards of development for health and safety and (ii) the presence of multiple buildings on a single parcel. For there to be a finding of excessive land coverage, these parcels must exhibit one or more of the following conditions: insufficient provision for light and air within or around buildings, increased threat of spread of fire due to the close proximity of buildings, lack of adequate or proper access to a public right-of-way, lack of reasonably required off-street parking, or inadequate provision for loading and service.

(J) Deleterious land use or layout. The existence of incompatible land-use relationships, buildings occupied by inappropriate mixed-uses, or uses considered to be noxious, offensive, or unsuitable for the surrounding area.

(K) Environmental clean-up. The proposed redevelopment project area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized
as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

(L) Lack of community planning. The proposed redevelopment project area was developed prior to or without the benefit or guidance of a community plan. This means that the development occurred prior to the adoption by the municipality of a comprehensive or other community plan or that the plan was not followed at the time of the area's development. This factor must be documented by evidence of adverse or incompatible land-use relationships, inadequate street layout, improper subdivision, parcels of inadequate shape and size to meet contemporary development standards, or other evidence demonstrating an absence of effective community planning.

(M) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated.

(2) If vacant, the sound growth of the redevelopment project area is impaired by a combination of 2 or more of the following factors, each of which is (i) present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) reasonably distributed throughout the vacant part of the redevelopment project area to which it pertains:

New matter indicated by italics - deletions by strikeout.
(A) Obsolete platting of vacant land that results in parcels of limited or narrow size or configurations of parcels of irregular size or shape that would be difficult to develop on a planned basis and in a manner compatible with contemporary standards and requirements, or platting that failed to create rights-of-ways for streets or alleys or that created inadequate right-of-way widths for streets, alleys, or other public rights-of-way or that omitted easements for public utilities.

(B) Diversity of ownership of parcels of vacant land sufficient in number to retard or impede the ability to assemble the land for development.

(C) Tax and special assessment delinquencies exist or the property has been the subject of tax sales under the Property Tax Code within the last 5 years.

(D) Deterioration of structures or site improvements in neighboring areas adjacent to the vacant land.

(E) The area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

(F) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years.
prior to the year in which the redevelopment project area is designated.

(3) If vacant, the sound growth of the redevelopment project area is impaired by one of the following factors that (i) is present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) is reasonably distributed throughout the vacant part of the redevelopment project area to which it pertains:

(A) The area consists of one or more unused quarries, mines, or strip mine ponds.

(B) The area consists of unused rail yards, rail tracks, or railroad rights-of-way.

(C) The area, prior to its designation, is subject to (i) chronic flooding that adversely impacts on real property in the area as certified by a registered professional engineer or appropriate regulatory agency or (ii) surface water that discharges from all or a part of the area and contributes to flooding within the same watershed, but only if the redevelopment project provides for facilities or improvements to contribute to the alleviation of all or part of the flooding.

(D) The area consists of an unused or illegal disposal site containing earth, stone, building debris, or similar materials that were removed from construction, demolition, excavation, or dredge sites.

(E) Prior to November 1, 1999, the area is not less than 50 nor more than 100 acres and 75% of which is vacant (notwithstanding that the area has been used for commercial agricultural purposes within 5 years prior to the designation of the redevelopment project area), and the area meets at least one of the factors itemized in paragraph (1) of this subsection, the area has been designated as a town or village center by ordinance or comprehensive plan adopted prior to January 1, 1982, and the area has not been developed for that designated purpose.

(F) The area qualified as a blighted improved area immediately prior to becoming vacant, unless there has

been substantial private investment in the immediately surrounding area.

(b) For any redevelopment project area that has been designated pursuant to this Section by an ordinance adopted prior to November 1, 1999 (the effective date of Public Act 91-478), "conservation area" shall have the meaning set forth in this Section prior to that date.

On and after November 1, 1999, "conservation area" means any improved area within the boundaries of a redevelopment project area located within the territorial limits of the municipality in which 50% or more of the structures in the area have an age of 35 years or more. Such an area is not yet a blighted area but because of a combination of 3 or more of the following factors is detrimental to the public safety, health, morals or welfare and such an area may become a blighted area:

(1) Dilapidation. An advanced state of disrepair or neglect of necessary repairs to the primary structural components of buildings or improvements in such a combination that a documented building condition analysis determines that major repair is required or the defects are so serious and so extensive that the buildings must be removed.

(2) Obsolescence. The condition or process of falling into disuse. Structures have become ill-suited for the original use.

(3) Deterioration. With respect to buildings, defects including, but not limited to, major defects in the secondary building components such as doors, windows, porches, gutters and downspouts, and fascia. With respect to surface improvements, that the condition of roadways, alleys, curbs, gutters, sidewalks, off-street parking, and surface storage areas evidence deterioration, including, but not limited to, surface cracking, crumbling, potholes, depressions, loose paving material, and weeds protruding through paved surfaces.

(4) Presence of structures below minimum code standards. All structures that do not meet the standards of zoning, subdivision, building, fire, and other governmental codes applicable to property, but not including housing and property maintenance codes.

(5) Illegal use of individual structures. The use of structures in violation of applicable federal, State, or local laws, exclusive of those applicable to the presence of structures below minimum code standards.

New matter indicated by italics - deletions by strikeout.
(6) Excessive vacancies. The presence of buildings that are unoccupied or under-utilized and that represent an adverse influence on the area because of the frequency, extent, or duration of the vacancies.

(7) Lack of ventilation, light, or sanitary facilities. The absence of adequate ventilation for light or air circulation in spaces or rooms without windows, or that require the removal of dust, odor, gas, smoke, or other noxious airborne materials. Inadequate natural light and ventilation means the absence or inadequacy of skylights or windows for interior spaces or rooms and improper window sizes and amounts by room area to window area ratios. Inadequate sanitary facilities refers to the absence or inadequacy of garbage storage and enclosure, bathroom facilities, hot water and kitchens, and structural inadequacies preventing ingress and egress to and from all rooms and units within a building.

(8) Inadequate utilities. Underground and overhead utilities such as storm sewers and storm drainage, sanitary sewers, water lines, and gas, telephone, and electrical services that are shown to be inadequate. Inadequate utilities are those that are: (i) of insufficient capacity to serve the uses in the redevelopment project area, (ii) deteriorated, antiquated, obsolete, or in disrepair, or (iii) lacking within the redevelopment project area.

(9) Excessive land coverage and overcrowding of structures and community facilities. The over-intensive use of property and the crowding of buildings and accessory facilities onto a site. Examples of problem conditions warranting the designation of an area as one exhibiting excessive land coverage are: the presence of buildings either improperly situated on parcels or located on parcels of inadequate size and shape in relation to present-day standards of development for health and safety and the presence of multiple buildings on a single parcel. For there to be a finding of excessive land coverage, these parcels must exhibit one or more of the following conditions: insufficient provision for light and air within or around buildings, increased threat of spread of fire due to the close proximity of buildings, lack of adequate or proper access to a public right-of-way, lack of reasonably required off-street parking, or inadequate provision for loading and service.

(10) Deleterious land use or layout. The existence of incompatible land-use relationships, buildings occupied by

inappropriate mixed-uses, or uses considered to be noxious, offensive, or unsuitable for the surrounding area.

(11) Lack of community planning. The proposed redevelopment project area was developed prior to or without the benefit or guidance of a community plan. This means that the development occurred prior to the adoption by the municipality of a comprehensive or other community plan or that the plan was not followed at the time of the area's development. This factor must be documented by evidence of adverse or incompatible land-use relationships, inadequate street layout, improper subdivision, parcels of inadequate shape and size to meet contemporary development standards, or other evidence demonstrating an absence of effective community planning.

(12) The area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

(13) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years for which information is available.

(c) "Industrial park" means an area in a blighted or conservation area suitable for use by any manufacturing, industrial, research or transportation enterprise, of facilities to include but not be limited to factories, mills, processing plants, assembly plants, packing plants, fabricating plants, industrial distribution centers, warehouses, repair overhaul or service facilities, freight terminals, research facilities, test facilities or railroad facilities.
(d) "Industrial park conservation area" means an area within the boundaries of a redevelopment project area located within the territorial limits of a municipality that is a labor surplus municipality or within 1 1/2 miles of the territorial limits of a municipality that is a labor surplus municipality if the area is annexed to the municipality; which area is zoned as industrial no later than at the time the municipality by ordinance designates the redevelopment project area, and which area includes both vacant land suitable for use as an industrial park and a blighted area or conservation area contiguous to such vacant land.

(e) "Labor surplus municipality" means a municipality in which, at any time during the 6 months before the municipality by ordinance designates an industrial park conservation area, the unemployment rate was over 6% and was also 100% or more of the national average unemployment rate for that same time as published in the United States Department of Labor Bureau of Labor Statistics publication entitled "The Employment Situation" or its successor publication. For the purpose of this subsection, if unemployment rate statistics for the municipality are not available, the unemployment rate in the municipality shall be deemed to be the same as the unemployment rate in the principal county in which the municipality is located.

(f) "Municipality" shall mean a city, village, incorporated town, or a township that is located in the unincorporated portion of a county with 3 million or more inhabitants, if the county adopted an ordinance that approved the township's redevelopment plan.

(g) "Initial Sales Tax Amounts" means the amount of taxes paid under the Retailers' Occupation Tax Act, Use Tax Act, Service Use Tax Act, the Service Occupation Tax Act, the Municipal Retailers' Occupation Tax Act, and the Municipal Service Occupation Tax Act by retailers and servicemen on transactions at places located in a State Sales Tax Boundary during the calendar year 1985.

(g-1) "Revised Initial Sales Tax Amounts" means the amount of taxes paid under the Retailers' Occupation Tax Act, Use Tax Act, Service Use Tax Act, the Service Occupation Tax Act, the Municipal Retailers' Occupation Tax Act, and the Municipal Service Occupation Tax Act by retailers and servicemen on transactions at places located within the State Sales Tax Boundary revised pursuant to Section 11-74.4-8a(9) of this Act.

(h) "Municipal Sales Tax Increment" means an amount equal to the increase in the aggregate amount of taxes paid to a municipality from the Local Government Tax Fund arising from sales by retailers and

servicemen within the redevelopment project area or State Sales Tax Boundary, as the case may be, for as long as the redevelopment project area or State Sales Tax Boundary, as the case may be, exist over and above the aggregate amount of taxes as certified by the Illinois Department of Revenue and paid under the Municipal Retailers' Occupation Tax Act and the Municipal Service Occupation Tax Act by retailers and servicemen, on transactions at places of business located in the redevelopment project area or State Sales Tax Boundary, as the case may be, during the base year which shall be the calendar year immediately prior to the year in which the municipality adopted tax increment allocation financing. For purposes of computing the aggregate amount of such taxes for base years occurring prior to 1985, the Department of Revenue shall determine the Initial Sales Tax Amounts for such taxes and deduct therefrom an amount equal to 4% of the aggregate amount of taxes per year for each year the base year is prior to 1985, but not to exceed a total deduction of 12%. The amount so determined shall be known as the "Adjusted Initial Sales Tax Amounts". For purposes of determining the Municipal Sales Tax Increment, the Department of Revenue shall for each period subtract from the amount paid to the municipality from the Local Government Tax Fund arising from sales by retailers and servicemen on transactions located in the redevelopment project area or the State Sales Tax Boundary, as the case may be, the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts for the Municipal Retailers' Occupation Tax Act and the Municipal Service Occupation Tax Act. For the State Fiscal Year 1989, this calculation shall be made by utilizing the calendar year 1987 to determine the tax amounts received. For the State Fiscal Year 1990, this calculation shall be made by utilizing the period from January 1, 1988, until September 30, 1988, to determine the tax amounts received from retailers and servicemen pursuant to the Municipal Retailers' Occupation Tax and the Municipal Service Occupation Tax Act, which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For the State Fiscal Year 1991, this calculation shall be made by utilizing the period from October 1, 1988, to June 30, 1989, to determine the tax amounts received from retailers and servicemen pursuant to the Municipal Retailers' Occupation Tax and the Municipal Service Occupation Tax Act which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised

Initial Sales Tax Amounts as appropriate. For every State Fiscal Year thereafter, the applicable period shall be the 12 months beginning July 1 and ending June 30 to determine the tax amounts received which shall have deducted therefrom the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts, as the case may be.

(i) "Net State Sales Tax Increment" means the sum of the following: (a) 80% of the first $100,000 of State Sales Tax Increment annually generated within a State Sales Tax Boundary; (b) 60% of the amount in excess of $100,000 but not exceeding $500,000 of State Sales Tax Increment annually generated within a State Sales Tax Boundary; and (c) 40% of all amounts in excess of $500,000 of State Sales Tax Increment annually generated within a State Sales Tax Boundary. If, however, a municipality established a tax increment financing district in a county with a population in excess of 3,000,000 before January 1, 1986, and the municipality entered into a contract or issued bonds after January 1, 1986, but before December 31, 1986, to finance redevelopment project costs within a State Sales Tax Boundary, then the Net State Sales Tax Increment means, for the fiscal years beginning July 1, 1990, and July 1, 1991, 100% of the State Sales Tax Increment annually generated within a State Sales Tax Boundary; and notwithstanding any other provision of this Act, for those fiscal years the Department of Revenue shall distribute to those municipalities 100% of their Net State Sales Tax Increment before any distribution to any other municipality and regardless of whether or not those other municipalities will receive 100% of their Net State Sales Tax Increment. For Fiscal Year 1999, and every year thereafter until the year 2007, for any municipality that has not entered into a contract or has not issued bonds prior to June 1, 1988 to finance redevelopment project costs within a State Sales Tax Boundary, the Net State Sales Tax Increment shall be calculated as follows: By multiplying the Net State Sales Tax Increment by 90% in the State Fiscal Year 1999; 80% in the State Fiscal Year 2000; 70% in the State Fiscal Year 2001; 60% in the State Fiscal Year 2002; 50% in the State Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006; and 10% in the State Fiscal Year 2007. No payment shall be made for State Fiscal Year 2008 and thereafter.

Municipalities that issued bonds in connection with a redevelopment project in a redevelopment project area within the State Sales Tax Boundary prior to July 29, 1991, or that entered into contracts in

connection with a redevelopment project in a redevelopment project area
before June 1, 1988, shall continue to receive their proportional share of
the Illinois Tax Increment Fund distribution until the date on which the
redevelopment project is completed or terminated. If, however, a
municipality that issued bonds in connection with a redevelopment project
in a redevelopment project area within the State Sales Tax Boundary prior
to July 29, 1991 retires the bonds prior to June 30, 2007 or a municipality
that entered into contracts in connection with a redevelopment project in a
redevelopment project area before June 1, 1988 completes the contracts
prior to June 30, 2007, then so long as the redevelopment project is not
completed or is not terminated, the Net State Sales Tax Increment shall be
calculated, beginning on the date on which the bonds are retired or the
contracts are completed, as follows: By multiplying the Net State Sales
Tax Increment by 60% in the State Fiscal Year 2002; 50% in the State
Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State
Fiscal Year 2005; 20% in the State Fiscal Year 2006; and 10% in the State
Fiscal Year 2007. No payment shall be made for State Fiscal Year 2008
and thereafter. Refunding of any bonds issued prior to July 29, 1991, shall
not alter the Net State Sales Tax Increment.

(j) "State Utility Tax Increment Amount" means an amount equal
to the aggregate increase in State electric and gas tax charges imposed on
owners and tenants, other than residential customers, of properties located
within the redevelopment project area under Section 9-222 of the Public
Utilities Act, over and above the aggregate of such charges as certified by
the Department of Revenue and paid by owners and tenants, other than
residential customers, of properties within the redevelopment project area
during the base year, which shall be the calendar year immediately prior to
the year of the adoption of the ordinance authorizing tax increment
allocation financing.

(k) "Net State Utility Tax Increment" means the sum of the
following: (a) 80% of the first $100,000 of State Utility Tax Increment
annually generated by a redevelopment project area; (b) 60% of the
amount in excess of $100,000 but not exceeding $500,000 of the State
Utility Tax Increment annually generated by a redevelopment project area;
and (c) 40% of all amounts in excess of $500,000 of State Utility Tax
Increment annually generated by a redevelopment project area. For the
State Fiscal Year 1999, and every year thereafter until the year 2007, for
any municipality that has not entered into a contract or has not issued
bonds prior to June 1, 1988 to finance redevelopment project costs within

a redevelopment project area, the Net State Utility Tax Increment shall be calculated as follows: By multiplying the Net State Utility Tax Increment by 90% in the State Fiscal Year 1999; 80% in the State Fiscal Year 2000; 70% in the State Fiscal Year 2001; 60% in the State Fiscal Year 2002; 50% in the State Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006; and 10% in the State Fiscal Year 2007. No payment shall be made for the State Fiscal Year 2008 and thereafter.

Municipalities that issue bonds in connection with the redevelopment project during the period from June 1, 1988 until 3 years after the effective date of this Amendatory Act of 1988 shall receive the Net State Utility Tax Increment, subject to appropriation, for 15 State Fiscal Years after the issuance of such bonds. For the 16th through the 20th State Fiscal Years after issuance of the bonds, the Net State Utility Tax Increment shall be calculated as follows: By multiplying the Net State Utility Tax Increment by 90% in year 16; 80% in year 17; 70% in year 18; 60% in year 19; and 50% in year 20. Refunding of any bonds issued prior to June 1, 1988, shall not alter the revised Net State Utility Tax Increment payments set forth above.

(l) "Obligations" mean bonds, loans, debentures, notes, special certificates or other evidence of indebtedness issued by the municipality to carry out a redevelopment project or to refund outstanding obligations.

(m) "Payment in lieu of taxes" means those estimated tax revenues from real property in a redevelopment project area derived from real property that has been acquired by a municipality which according to the redevelopment project or plan is to be used for a private use which taxing districts would have received had a municipality not acquired the real property and adopted tax increment allocation financing and which would result from levies made after the time of the adoption of tax increment allocation financing to the time the current equalized value of real property in the redevelopment project area exceeds the total initial equalized value of real property in said area.

(n) "Redevelopment plan" means the comprehensive program of the municipality for development or redevelopment intended by the payment of redevelopment project costs to reduce or eliminate those conditions the existence of which qualified the redevelopment project area as a "blighted area" or "conservation area" or combination thereof or "industrial park conservation area," and thereby to enhance the tax bases of the taxing districts which extend into the redevelopment project area. and after November 1, 1999 (the effective date of Public Act 91-478), no redevelopment plan may be approved or amended that includes the development of vacant land (i) with a golf course and related clubhouse and other facilities or (ii) designated by federal, State, county, or municipal government as public land for outdoor recreational activities or for nature preserves and used for that purpose within 5 years prior to the adoption of the redevelopment plan. For the purpose of this subsection, "recreational activities" is limited to mean camping and hunting. Each redevelopment plan shall set forth in writing the program to be undertaken to accomplish the objectives and shall include but not be limited to:

(A) an itemized list of estimated redevelopment project costs;
(B) evidence indicating that the redevelopment project area on the whole has not been subject to growth and development through investment by private enterprise;
(C) an assessment of any financial impact of the redevelopment project area on or any increased demand for services from any taxing district affected by the plan and any program to address such financial impact or increased demand;
(D) the sources of funds to pay costs;
(E) the nature and term of the obligations to be issued;
(F) the most recent equalized assessed valuation of the redevelopment project area;
(G) an estimate as to the equalized assessed valuation after redevelopment and the general land uses to apply in the redevelopment project area;
(H) a commitment to fair employment practices and an affirmative action plan;
(I) if it concerns an industrial park conservation area, the plan shall also include a general description of any proposed developer, user and tenant of any property, a description of the type, structure and general character of the facilities to be developed, a description of the type, class and number of new employees to be employed in the operation of the facilities to be developed; and
(J) if property is to be annexed to the municipality, the plan shall include the terms of the annexation agreement.

The provisions of items (B) and (C) of this subsection (n) shall not apply to a municipality that before March 14, 1994 (the effective date of

No redevelopment plan shall be adopted unless a municipality complies with all of the following requirements:

(1) The municipality finds that the redevelopment project area on the whole has not been subject to growth and development through investment by private enterprise and would not reasonably be anticipated to be developed without the adoption of the redevelopment plan.

(2) The municipality finds that the redevelopment plan and project conform to the comprehensive plan for the development of the municipality as a whole, or, for municipalities with a population of 100,000 or more, regardless of when the redevelopment plan and project was adopted, the redevelopment plan and project either: (i) conforms to the strategic economic development or redevelopment plan issued by the designated planning authority of the municipality, or (ii) includes land uses that have been approved by the planning commission of the municipality.

(3) The redevelopment plan establishes the estimated dates of completion of the redevelopment project and retirement of obligations issued to finance redevelopment project costs. Those dates: shall not be later than December 31 of the year in which the payment to the municipal treasurer as provided in subsection (b) of Section 11-74.4-8 of this Act is to be made with respect to ad valorem taxes levied in the twenty-third calendar year after the year in which the ordinance approving the redevelopment project area is adopted if the ordinance was adopted on or after January 15, 1981; shall not be later than December 31 of the year in which the payment to the municipal treasurer as provided in subsection (b) of Section 11-74.4-8 of this Act is to be made with respect to ad valorem taxes levied in the thirty-third calendar year after the year in which the ordinance approving the redevelopment project area if the ordinance was adopted on May 20, 1985 by the Village of Wheeling; and shall not be later than December 31 of the year in which the payment to the municipal treasurer as provided in subsection (b) of Section 11-74.4-8 of this Act is to be made with respect to ad valorem taxes levied in the thirty-fifth calendar year

However, for redevelopment project areas for which bonds were issued before July 29, 1991, or for which contracts were entered into before June 1, 1988, in connection with a redevelopment project in the area within the State Sales Tax Boundary, the estimated dates of completion of the redevelopment project and retirement of obligations to finance redevelopment project costs may be extended by municipal ordinance to December 31, 2013. The termination procedures of subsection (b) of Section 11-74.4-8 are not required for these redevelopment

project areas in 2009 but are required in 2013. The extension allowed by this amendatory Act of 1993 shall not apply to real property tax increment allocation financing under Section 11-74.4-8.

A municipality may by municipal ordinance amend an existing redevelopment plan to conform to this paragraph (3) as amended by Public Act 91-478, which municipal ordinance may be adopted without further hearing or notice and without complying with the procedures provided in this Act pertaining to an amendment to or the initial approval of a redevelopment plan and project and designation of a redevelopment project area.

Those dates, for purposes of real property tax increment allocation financing pursuant to Section 11-74.4-8 only, shall be not more than 35 years for redevelopment project areas that were adopted on or after December 16, 1986 and for which at least $8 million worth of municipal bonds were authorized on or after December 19, 1989 but before January 1, 1990; provided that the municipality elects to extend the life of the redevelopment project area to 35 years by the adoption of an ordinance after at least 14 but not more than 30 days' written notice to the taxing bodies, that would otherwise constitute the joint review board for the redevelopment project area, before the adoption of the ordinance.

Those dates, for purposes of real property tax increment allocation financing pursuant to Section 11-74.4-8 only, shall be not more than 35 years for redevelopment project areas that were established on or after December 1, 1981 but before January 1, 1982 and for which at least $1,500,000 worth of tax increment revenue bonds were authorized on or after September 30, 1990 but before July 1, 1991; provided that the municipality elects to extend the life of the redevelopment project area to 35 years by the adoption of an ordinance after at least 14 but not more than 30 days' written notice to the taxing bodies, that would otherwise constitute the joint review board for the redevelopment project area, before the adoption of the ordinance.

provision of new facilities enhance the tax base of the taxing districts that extend into the redevelopment project area.

(4) If any incremental revenues are being utilized under Section 8(a)(1) or 8(a)(2) of this Act in redevelopment project areas approved by ordinance after January 1, 1986, the municipality finds: (a) that the redevelopment project area would not reasonably be developed without the use of such incremental revenues, and (b) that such incremental revenues will be exclusively utilized for the development of the redevelopment project area.

(5) If the redevelopment plan will not result in displacement of residents from 10 or more inhabited residential units, and the municipality certifies in the plan that such displacement will not result from the plan, a housing impact study need not be performed. If, however, the redevelopment plan would result in the displacement of residents from 10 or more inhabited residential units, or if the redevelopment project area contains 75 or more inhabited residential units and no certification is made, then the municipality shall prepare, as part of the separate feasibility report required by subsection (a) of Section 11-74.4-5, a housing impact study.

Part I of the housing impact study shall include (i) data as to whether the residential units are single family or multi-family units, (ii) the number and type of rooms within the units, if that information is available, (iii) whether the units are inhabited or uninhabited, as determined not less than 45 days before the date that the ordinance or resolution required by subsection (a) of Section 11-74.4-5 is passed, and (iv) data as to the racial and ethnic composition of the residents in the inhabited residential units. The data requirement as to the racial and ethnic composition of the residents in the inhabited residential units shall be deemed to be fully satisfied by data from the most recent federal census.

Part II of the housing impact study shall identify the inhabited residential units in the proposed redevelopment project area that are to be or may be removed. If inhabited residential units are to be removed, then the housing impact study shall identify (i) the number and location of those units that will or may be removed, (ii) the municipality's plans for relocation assistance for those residents in the proposed redevelopment project area whose

residences are to be removed, (iii) the availability of replacement housing for those residents whose residences are to be removed, and shall identify the type, location, and cost of the housing, and (iv) the type and extent of relocation assistance to be provided.

(6) On and after November 1, 1999, the housing impact study required by paragraph (5) shall be incorporated in the redevelopment plan for the redevelopment project area.

(7) On and after November 1, 1999, no redevelopment plan shall be adopted, nor an existing plan amended, nor shall residential housing that is occupied by households of low-income and very low-income persons in currently existing redevelopment project areas be removed after November 1, 1999 unless the redevelopment plan provides, with respect to inhabited housing units that are to be removed for households of low-income and very low-income persons, affordable housing and relocation assistance not less than that which would be provided under the federal Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 and the regulations under that Act, including the eligibility criteria. Affordable housing may be either existing or newly constructed housing. For purposes of this paragraph (7), "low-income households", "very low-income households", and "affordable housing" have the meanings set forth in the Illinois Affordable Housing Act. The municipality shall make a good faith effort to ensure that this affordable housing is located in or near the redevelopment project area within the municipality.

(8) On and after November 1, 1999, if, after the adoption of the redevelopment plan for the redevelopment project area, any municipality desires to amend its redevelopment plan to remove more inhabited residential units than specified in its original redevelopment plan, that change shall be made in accordance with the procedures in subsection (c) of Section 11-74.4-5.

(9) For redevelopment project areas designated prior to November 1, 1999, the redevelopment plan may be amended without further joint review board meeting or hearing, provided that the municipality shall give notice of any such changes by mail to each affected taxing district and registrant on the interested party registry, to authorize the municipality to expend tax increment revenues for redevelopment project costs defined by paragraphs (5)
and (7.5), subparagraphs (E) and (F) of paragraph (11), and paragraph (11.5) of subsection (q) of Section 11-74.4-3, so long as the changes do not increase the total estimated redevelopment project costs set out in the redevelopment plan by more than 5% after adjustment for inflation from the date the plan was adopted.

(o) "Redevelopment project" means any public and private development project in furtherance of the objectives of a redevelopment plan. On and after November 1, 1999 (the effective date of Public Act 91-478), no redevelopment plan may be approved or amended that includes the development of vacant land (i) with a golf course and related clubhouse and other facilities or (ii) designated by federal, State, county, or municipal government as public land for outdoor recreational activities or for nature preserves and used for that purpose within 5 years prior to the adoption of the redevelopment plan. For the purpose of this subsection, "recreational activities" is limited to mean camping and hunting.

(p) "Redevelopment project area" means an area designated by the municipality, which is not less in the aggregate than 1 1/2 acres and in respect to which the municipality has made a finding that there exist conditions which cause the area to be classified as an industrial park conservation area or a blighted area or a conservation area, or a combination of both blighted areas and conservation areas.

(q) "Redevelopment project costs" mean and include the sum total of all reasonable or necessary costs incurred or estimated to be incurred, and any such costs incidental to a redevelopment plan and a redevelopment project. Such costs include, without limitation, the following:

(1) Costs of studies, surveys, development of plans, and specifications, implementation and administration of the redevelopment plan including but not limited to staff and professional service costs for architectural, engineering, legal, financial, planning or other services, provided however that no charges for professional services may be based on a percentage of the tax increment collected; except that on and after November 1, 1999 (the effective date of Public Act 91-478), no contracts for professional services, excluding architectural and engineering services, may be entered into if the terms of the contract extend beyond a period of 3 years. In addition, "redevelopment project costs" shall not include lobbying expenses. After consultation with the municipality, each tax increment consultant or advisor to a

municipality that plans to designate or has designated a redevelopment project area shall inform the municipality in writing of any contracts that the consultant or advisor has entered into with entities or individuals that have received, or are receiving, payments financed by tax increment revenues produced by the redevelopment project area with respect to which the consultant or advisor has performed, or will be performing, service for the municipality. This requirement shall be satisfied by the consultant or advisor before the commencement of services for the municipality and thereafter whenever any other contracts with those individuals or entities are executed by the consultant or advisor;

(1.5) After July 1, 1999, annual administrative costs shall not include general overhead or administrative costs of the municipality that would still have been incurred by the municipality if the municipality had not designated a redevelopment project area or approved a redevelopment plan;

(1.6) The cost of marketing sites within the redevelopment project area to prospective businesses, developers, and investors;

(2) Property assembly costs, including but not limited to acquisition of land and other property, real or personal, or rights or interests therein, demolition of buildings, site preparation, site improvements that serve as an engineered barrier addressing ground level or below ground environmental contamination, including, but not limited to parking lots and other concrete or asphalt barriers, and the clearing and grading of land;

(3) Costs of rehabilitation, reconstruction or repair or remodeling of existing public or private buildings, fixtures, and leasehold improvements; and the cost of replacing an existing public building if pursuant to the implementation of a redevelopment project the existing public building is to be demolished to use the site for private investment or devoted to a different use requiring private investment;

(4) Costs of the construction of public works or improvements, except that on and after November 1, 1999, redevelopment project costs shall not include the cost of constructing a new municipal public building principally used to provide offices, storage space, or conference facilities or vehicle storage, maintenance, or repair for administrative, public safety, or

public works personnel and that is not intended to replace an existing public building as provided under paragraph (3) of subsection (q) of Section 11-74.4-3 unless either (i) the construction of the new municipal building implements a redevelopment project that was included in a redevelopment plan that was adopted by the municipality prior to November 1, 1999 or (ii) the municipality makes a reasonable determination in the redevelopment plan, supported by information that provides the basis for that determination, that the new municipal building is required to meet an increase in the need for public safety purposes anticipated to result from the implementation of the redevelopment plan;

(5) Costs of job training and retraining projects, including the cost of "welfare to work" programs implemented by businesses located within the redevelopment project area;

(6) Financing costs, including but not limited to all necessary and incidental expenses related to the issuance of obligations and which may include payment of interest on any obligations issued hereunder including interest accruing during the estimated period of construction of any redevelopment project for which such obligations are issued and for not exceeding 36 months thereafter and including reasonable reserves related thereto;

(7) To the extent the municipality by written agreement accepts and approves the same, all or a portion of a taxing district's capital costs resulting from the redevelopment project necessarily incurred or to be incurred within a taxing district in furtherance of the objectives of the redevelopment plan and project.

   (i) for unit school districts with a district average 1995-96 Per Capita Tuition Charge of less than $5,900, no more than 25% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act;

   (ii) for elementary school districts with a district average 1995-96 Per Capita Tuition Charge of less than $5,900, no more than 17% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act; and

   (iii) for secondary school districts with a district average 1995-96 Per Capita Tuition Charge of less than $5,900, no more than 8% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act.
(B) For alternate method districts, flat grant districts, and foundation districts with a district average 1995-96 Per Capita Tuition Charge equal to or more than $5,900, excluding any school district with a population in excess of 1,000,000, by multiplying the district's increase in attendance resulting from the net increase in new students enrolled in that school district who reside in housing units within the redevelopment project area that have received financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by the most recently available per capita tuition cost as defined in Section 10-20.12a of the School Code less any increase in general state aid as defined in Section 18-8.05 of the School Code attributable to these added new students subject to the following annual limitations:

(iii) for secondary school districts, no more than 13% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act.

(C) For any school district in a municipality with a population in excess of 1,000,000, the following restrictions shall apply to the reimbursement of increased costs under this paragraph (7.5):

New matter indicated by italics - deletions by strikeout.
(i) no increased costs shall be reimbursed unless the school district certifies that each of the schools affected by the assisted housing project is at or over its student capacity;

(ii) the amount reimbursable shall be reduced by the value of any land donated to the school district by the municipality or developer, and by the value of any physical improvements made to the schools by the municipality or developer; and

(iii) the amount reimbursed may not affect amounts otherwise obligated by the terms of any bonds, notes, or other funding instruments, or the terms of any redevelopment agreement.

Any school district seeking payment under this paragraph (7.5) shall, after July 1 and before September 30 of each year, provide the municipality with reasonable evidence to support its claim for reimbursement before the municipality shall be required to approve or make the payment to the school district. If the school district fails to provide the information during this period in any year, it shall forfeit any claim to reimbursement for that year. School districts may adopt a resolution waiving the right to all or a portion of the reimbursement otherwise required by this paragraph (7.5). By acceptance of this reimbursement the school district waives the right to directly or indirectly set aside, modify, or contest in any manner the establishment of the redevelopment project area or projects;

(7.7) For redevelopment project areas designated (or redevelopment project areas amended to add or increase the number of tax-increment-financing assisted housing units) on or after January 1, 2005 (the effective date of Public Act 93-961), a public library district's increased costs attributable to assisted housing units located within the redevelopment project area for which the developer or redeveloper receives financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the assisted housing sites necessary for the completion of that housing as...
authorized by this Act shall be paid to the library district by the municipality from the Special Tax Allocation Fund when the tax increment revenue is received as a result of the assisted housing units. This paragraph (7.7) applies only if (i) the library district is located in a county that is subject to the Property Tax Extension Limitation Law or (ii) the library district is not located in a county that is subject to the Property Tax Extension Limitation Law but the district is prohibited by any other law from increasing its tax levy rate without a prior voter referendum.

The amount paid to a library district under this paragraph (7.7) shall be calculated by multiplying (i) the net increase in the number of persons eligible to obtain a library card in that district who reside in housing units within the redevelopment project area that have received financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by (ii) the per-patron cost of providing library services so long as it does not exceed $120. The per-patron cost shall be the Total Operating Expenditures Per Capita as stated in the most recent Illinois Public Library Statistics produced by the Library Research Center at the University of Illinois. The municipality may deduct from the amount that it must pay to a library district under this paragraph any amount that it has voluntarily paid to the library district from the tax increment revenue. The amount paid to a library district under this paragraph (7.7) shall be no more than 2% of the amount produced by the assisted housing units and deposited into the Special Tax Allocation Fund.

A library district is not eligible for any payment under this paragraph (7.7) unless the library district has experienced an increase in the number of patrons from the municipality that created the tax-increment-financing district since the designation of the redevelopment project area.

Any library district seeking payment under this paragraph (7.7) shall, after July 1 and before September 30 of each year, provide the municipality with convincing evidence to support its claim for reimbursement before the municipality shall be required to approve or make the payment to the library district. If the library district fails to provide the information during this period in any year, it shall forfeit any claim to reimbursement for that year. Library districts may adopt a resolution waiving the right to all or a portion of the reimbursement otherwise required by this paragraph (7.7). By acceptance of such reimbursement, the library district shall forfeit any right to directly or indirectly set aside, modify, or contest in any manner whatsoever the establishment of the redevelopment project area or projects;

include, specifically, the payment by community college districts of costs pursuant to Sections 3-37, 3-38, 3-40 and 3-40.1 of the Public Community College Act and by school districts of costs pursuant to Sections 10-22.20a and 10-23.3a of The School Code;

(11) Interest cost incurred by a redeveloper related to the construction, renovation or rehabilitation of a redevelopment project provided that:

(A) such costs are to be paid directly from the special tax allocation fund established pursuant to this Act;

(B) such payments in any one year may not exceed 30% of the annual interest costs incurred by the redeveloper with regard to the redevelopment project during that year;

(C) if there are not sufficient funds available in the special tax allocation fund to make the payment pursuant to this paragraph (11) then the amounts so due shall accrue and be payable when sufficient funds are available in the special tax allocation fund;

(D) the total of such interest payments paid pursuant to this Act may not exceed 30% of the total (i) cost paid or incurred by the redeveloper for the redevelopment project plus (ii) redevelopment project costs excluding any property assembly costs and any relocation costs incurred by a municipality pursuant to this Act; and

(E) the cost limits set forth in subparagraphs (B) and (D) of paragraph (11) shall be modified for the financing of rehabilitated or new housing units for low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act. The percentage of 75% shall be substituted for 30% in subparagraphs (B) and (D) of paragraph (11).

(F) Instead of the eligible costs provided by subparagraphs (B) and (D) of paragraph (11), as modified by this subparagraph, and notwithstanding

any other provisions of this Act to the contrary, the municipality may pay from tax increment revenues up to 50% of the cost of construction of new housing units to be occupied by low-income households and very low-income households as defined in Section 3 of the Illinois Affordable Housing Act. The cost of construction of those units may be derived from the proceeds of bonds issued by the municipality under this Act or other constitutional or statutory authority or from other sources of municipal revenue that may be reimbursed from tax increment revenues or the proceeds of bonds issued to finance the construction of that housing.

The eligible costs provided under this subparagraph (F) of paragraph (11) shall be an eligible cost for the construction, renovation, and rehabilitation of all low and very low-income housing units, as defined in Section 3 of the Illinois Affordable Housing Act, within the redevelopment project area. If the low and very low-income units are part of a residential redevelopment project that includes units not affordable to low and very low-income households, only the low and very low-income units shall be eligible for benefits under subparagraph (F) of paragraph (11). The standards for maintaining the occupancy by low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act, of those units constructed with eligible costs made available under the provisions of this subparagraph (F) of paragraph (11) shall be established by guidelines adopted by the municipality. The responsibility for annually documenting the initial occupancy of the units by low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act, shall be that of the then current owner of the property. For ownership units,
the guidelines will provide, at a minimum, for a reasonable recapture of funds, or other appropriate methods designed to preserve the original affordability of the ownership units. For rental units, the guidelines will provide, at a minimum, for the affordability of rent to low and very low-income households. As units become available, they shall be rented to income-eligible tenants. The municipality may modify these guidelines from time to time; the guidelines, however, shall be in effect for as long as tax increment revenue is being used to pay for costs associated with the units or for the retirement of bonds issued to finance the units or for the life of the redevelopment project area, whichever is later.

(11.5) If the redevelopment project area is located within a municipality with a population of more than 100,000, the cost of day care services for children of employees from low-income families working for businesses located within the redevelopment project area and all or a portion of the cost of operation of day care centers established by redevelopment project area businesses to serve employees from low-income families working in businesses located in the redevelopment project area. For the purposes of this paragraph, "low-income families" means families whose annual income does not exceed 80% of the municipal, county, or regional median income, adjusted for family size, as the annual income and municipal, county, or regional median income are determined from time to time by the United States Department of Housing and Urban Development.

(12) Unless explicitly stated herein the cost of construction of new privately-owned buildings shall not be an eligible redevelopment project cost.

(13) After November 1, 1999 (the effective date of Public Act 91-478), none of the redevelopment project costs enumerated in this subsection shall be eligible redevelopment project costs if those costs would provide direct financial support to a retail entity initiating

operations in the redevelopment project area while terminating operations at another Illinois location within 10 miles of the redevelopment project area but outside the boundaries of the redevelopment project area municipality. For purposes of this paragraph, termination means a closing of a retail operation that is directly related to the opening of the same operation or like retail entity owned or operated by more than 50% of the original ownership in a redevelopment project area, but it does not mean closing an operation for reasons beyond the control of the retail entity, as documented by the retail entity, subject to a reasonable finding by the municipality that the current location contained inadequate space, had become economically obsolete, or was no longer a viable location for the retailer or serviceman.

(14) No cost shall be a redevelopment project cost in a redevelopment project area if used to demolish, remove, or substantially modify a historic resource, after the effective date of this amendatory Act of the 95th General Assembly, unless no prudent and feasible alternative exists. "Historic resource" for the purpose of this item (14) means (i) a place or structure that is included or eligible for inclusion on the National Register of Historic Places or (ii) a contributing structure in a district on the National Register of Historic Places. This item (14) does not apply to a place or structure for which demolition, removal, or modification is subject to review by the preservation agency of a Certified Local Government designated as such by the National Park Service of the United States Department of the Interior.

If a special service area has been established pursuant to the Special Service Area Tax Act or Special Service Area Tax Law, then any tax increment revenues derived from the tax imposed pursuant to the Special Service Area Tax Act or Special Service Area Tax Law may be used within the redevelopment project area for the purposes permitted by that Act or Law as well as the purposes permitted by this Act.

(r) "State Sales Tax Boundary" means the redevelopment project area or the amended redevelopment project area boundaries which are determined pursuant to subsection (9) of Section 11-74.4-8a of this Act.

New matter indicated by italics - deletions by strikeout.
The Department of Revenue shall certify pursuant to subsection (9) of Section 11-74.4-8a the appropriate boundaries eligible for the determination of State Sales Tax Increment.

(s) "State Sales Tax Increment" means an amount equal to the increase in the aggregate amount of taxes paid by retailers and servicemen, other than retailers and servicemen subject to the Public Utilities Act, on transactions at places of business located within a State Sales Tax Boundary pursuant to the Retailers' Occupation Tax Act, the Use Tax Act, the Service Use Tax Act, and the Service Occupation Tax Act, except such portion of such increase that is paid into the State and Local Sales Tax Reform Fund, the Local Government Distributive Fund, the Local Government Tax Fund and the County and Mass Transit District Fund, for as long as State participation exists, over and above the Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts for such taxes as certified by the Department of Revenue and paid under those Acts by retailers and servicemen on transactions at places of business located within the State Sales Tax Boundary during the base year which shall be the calendar year immediately prior to the year in which the municipality adopted tax increment allocation financing, less 3.0% of such amounts generated under the Retailers' Occupation Tax Act, Use Tax Act and Service Use Tax Act and the Service Occupation Tax Act, which sum shall be appropriated to the Department of Revenue to cover its costs of administering and enforcing this Section. For purposes of computing the aggregate amount of such taxes for base years occurring prior to 1985, the Department of Revenue shall compute the Initial Sales Tax Amount for such taxes and deduct therefrom an amount equal to 4% of the aggregate amount of taxes per year for each year the base year is prior to 1985, but not to exceed a total deduction of 12%. The amount so determined shall be known as the "Adjusted Initial Sales Tax Amount". For purposes of determining the State Sales Tax Increment the Department of Revenue shall for each period subtract from the tax amounts received from retailers and servicemen on transactions located in the State Sales Tax Boundary, the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or Revised Initial Sales Tax Amounts for the Retailers' Occupation Tax Act, the Use Tax Act, the Service Use Tax Act and the Service Occupation Tax Act. For the State Fiscal Year 1989 this calculation shall be made by utilizing the calendar year 1987 to determine the tax amounts received. For the State Fiscal Year 1990, this calculation shall be made by utilizing the period from January 1, 1988, until

September 30, 1988, to determine the tax amounts received from retailers and servicemen, which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For the State Fiscal Year 1991, this calculation shall be made by utilizing the period from October 1, 1988, until June 30, 1989, to determine the tax amounts received from retailers and servicemen, which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For every State Fiscal Year thereafter, the applicable period shall be the 12 months beginning July 1 and ending on June 30, to determine the tax amounts received which shall have deducted therefrom the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts. Municipalities intending to receive a distribution of State Sales Tax Increment must report a list of retailers to the Department of Revenue by October 31, 1988 and by July 31, of each year thereafter.

(t) "Taxing districts" means counties, townships, cities and incorporated towns and villages, school, road, park, sanitary, mosquito abatement, forest preserve, public health, fire protection, river conservancy, tuberculosis sanitarium and any other municipal corporations or districts with the power to levy taxes.

(u) "Taxing districts' capital costs" means those costs of taxing districts for capital improvements that are found by the municipal corporate authorities to be necessary and directly result from the redevelopment project.

(v) As used in subsection (a) of Section 11-74.4-3 of this Act, "vacant land" means any parcel or combination of parcels of real property without industrial, commercial, and residential buildings which has not been used for commercial agricultural purposes within 5 years prior to the designation of the redevelopment project area, unless the parcel is included in an industrial park conservation area or the parcel has been subdivided; provided that if the parcel was part of a larger tract that has been divided into 3 or more smaller tracts that were accepted for recording during the period from 1950 to 1990, then the parcel shall be deemed to have been subdivided, and all proceedings and actions of the municipality taken in that connection with respect to any previously approved or designated redevelopment project area or amended redevelopment project area are hereby validated and hereby declared to be legally sufficient for

all purposes of this Act. For purposes of this Section and only for land
subject to the subdivision requirements of the Plat Act, land is subdivided
when the original plat of the proposed Redevelopment Project Area or
relevant portion thereof has been properly certified, acknowledged,
approved, and recorded or filed in accordance with the Plat Act and a
preliminary plat, if any, for any subsequent phases of the proposed
Redevelopment Project Area or relevant portion thereof has been properly
approved and filed in accordance with the applicable ordinance of the
municipality.

(w) "Annual Total Increment" means the sum of each
municipality's annual Net Sales Tax Increment and each municipality's
annual Net Utility Tax Increment. The ratio of the Annual Total Increment
of each municipality to the Annual Total Increment for all municipalities,
as most recently calculated by the Department, shall determine the
proportional shares of the Illinois Tax Increment Fund to be distributed to
each municipality.

PUBLIC ACT 95-0937
(Senate Bill No. 2821)

AN ACT concerning juveniles.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 1. Short title. This Act may be cited as the Interstate Compact for Juveniles Act of 2008.

Section 5. Purposes.
(a) The interstate compact on juveniles was established in 1955 and is the compact addressing the needs of juveniles within the juvenile

justice system who move between states and has not been sufficiently updated in its more than 50-year existence.

(b) This compact is the only vehicle for the interstate supervision of juvenile offenders, the return of absconders and escapees, and runaways.

(c) The complexities of the compact have become more difficult to administer, and many jurisdictions have expanded supervision expectations to include currently unregulated practices such as victim input, victim notification requirements, and sex offender registration, and age-related issues.

(d) After the successful adoption 4 years ago of a new interstate compact for adult offenders, the need for an updated compact for juveniles became apparent.

(e) After exhaustive research and a detailed study, the Office of Juvenile Justice and Delinquency Prevention and the Council of State Governments has recommended that the following compact be adopted by each state and territory in the United States, to better address public safety, enforcement, accountability, and communications among the states.

(f) The National District Attorneys Association, the National Center for Missing and Exploited Children, the National Juvenile Detention Association all join with the Office of Juvenile Justice and Delinquency Prevention and the Council of State Governments to recommend the adoption of this interstate compact.

Section 10. Interstate Compact for Juveniles. The Governor is hereby authorized to enter into a compact on behalf of this State with any of the United States legally joining therein in the form substantially as follows:

THE INTERSTATE COMPACT FOR JUVENILES

ARTICLE I

PURPOSE

The compacting states to this Interstate Compact recognize that each state is responsible for the proper supervision or return of juveniles, delinquents and status offenders who are on probation or parole and who have absconded, escaped or run away from supervision and control and in so doing have endangered their own safety and the safety of others. The compacting states also recognize that each state is responsible for the safe return of juveniles who have run away from home and in doing so have left their state of residence. The compacting states also recognize that Congress, by enacting the Crime Control Act, 4 U.S.C. Section 112

(1965), has authorized and encouraged compacts for cooperative efforts and mutual assistance in the prevention of crime.

It is the purpose of this compact, through means of joint and cooperative action among the compacting states to: (A) ensure that the adjudicated juveniles and status offenders subject to this compact are provided adequate supervision and services in the receiving state as ordered by the adjudicating judge or parole authority in the sending state; (B) ensure that the public safety interests of the citizens, including the victims of juvenile offenders, in both the sending and receiving states are adequately protected; (C) return juveniles who have run away, absconded or escaped from supervision or control or have been accused of an offense to the state requesting their return; (D) make contracts for the cooperative institutionalization in public facilities in member states for delinquent youth needing special services; (E) provide for the effective tracking and supervision of juveniles; (F) equitably allocate the costs, benefits and obligations of the compacting states; (G) establish procedures to manage the movement between states of juvenile offenders released to the community under the jurisdiction of courts, juvenile departments, or any other criminal or juvenile justice agency which has jurisdiction over juvenile offenders; (H) insure immediate notice to jurisdictions where defined offenders are authorized to travel or to relocate across state lines; (I) establish procedures to resolve pending charges (detainers) against juvenile offenders prior to transfer or release to the community under the terms of this compact; (J) establish a system of uniform data collection on information pertaining to juveniles subject to this compact that allows access by authorized juvenile justice and criminal justice officials, and regular reporting of Compact activities to heads of state executive, judicial, and legislative branches and juvenile and criminal justice administrators; (K) monitor compliance with rules governing interstate movement of juveniles and initiate interventions to address and correct non-compliance; (L) coordinate training and education regarding the regulation of interstate movement of juveniles for officials involved in such activity; and (M) coordinate the implementation and operation of the compact with the Interstate Compact for the Placement of Children, the Interstate Compact for Adult Offender Supervision and other compacts affecting juveniles particularly in those cases where concurrent or overlapping supervision issues arise. (House Bill No. 1141)

AN ACT concerning education.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The School Code is amended by changing Section 21-29 as follows:

(105 ILCS 5/21-29)
Sec. 21-29. Salary Incentive Program for Hard-to-Staff Schools.
(a) The Salary Incentive Program for Hard-to-Staff Schools is established to provide categorical funding for monetary incentives and bonuses for teachers and school administrators who are employed by school districts in schools designated as hard-to-staff by the State Board of Education.

For the purposes of this Section, "hard-to-staff school" means an elementary, middle, or high school that is operated by a school district and that ranks in the top 5% of schools in this State in the average rate of teacher attrition over a 5-year period. The State Board of Education shall allocate and distribute to qualifying schools an amount as annually appropriated by the General Assembly for the Salary Incentive Program for Hard-to-Staff Schools. The State Board of Education's annual budget must set out by separate line item the appropriation for the program. Only teachers and principals who work full time and for a full school year are eligible for the incentives and bonuses.

(b) Unless otherwise provided by appropriation, each school's annual allocation under the Salary Incentive Program for Hard-to-Staff Schools shall be the sum of the following incentives and bonuses:

New matter indicated by italics - deletions by strikeout.
(1) An annual payment of $3,000 to be paid to each certificated teacher employed as a school teacher by the school district. The school district shall distribute this payment to each eligible teacher as a single payment or in not more than 3 payments.

(2) An annual payment of $5,000 to each certificated principal that is employed as a school principal by the school district. The school district shall distribute this payment to each eligible principal as a single payment or in not more than 3 payments.

If the appropriation in a given fiscal year is insufficient to meet all needs under this Section, then claims under this Section must be prorated proportionally.

(c) Each regional superintendent of schools shall provide information about the Salary Incentive Program for Hard-to-Staff Schools to each individual seeking to register or renew a certificate.

(d) The State Board of Education, the Teachers' Retirement System of the State of Illinois, and the Public School Teachers' Pension and Retirement Fund of Chicago shall work together to validate data for the purposes of this Section as necessary.

(Source: P.A. 95-707, eff. 1-11-08.)

Section 10. If and only if Senate Bill 2042 of the 95th General Assembly becomes law, the School Code is amended by changing Sections 10-20.12a and 14-7.05 as follows:

(105 ILCS 5/10-20.12a) (from Ch. 122, par. 10-20.12a)

Sec. 10-20.12a. Tuition for non-resident pupils.

(a) To charge non-resident pupils who attend the schools of the district tuition in an amount not exceeding 110% of the per capita cost of maintaining the schools of the district for the preceding school year.

Such per capita cost shall be computed by dividing the total cost of conducting and maintaining the schools of the district by the average daily attendance, including tuition pupils. Depreciation on the buildings and equipment of the schools of the district, and the amount of annual depreciation on such buildings and equipment shall be dependent upon the useful life of such property.

The tuition charged shall in no case exceed 110% of the per capita cost of conducting and maintaining the schools of the district attended, as determined with reference to the most recent audit prepared under Section 3-7 which is available at the commencement of the current school year.

New matter indicated by italics - deletions by strikeout.
Non-resident pupils attending the schools of the district for less than the school term shall have their tuition apportioned, however pupils who become non-resident during a school term shall not be charged tuition for the remainder of the school term in which they became non-resident pupils.

(b) Unless otherwise agreed to by the parties involved and where the educational services are not otherwise provided for, educational services for an Illinois student under the age of 21 (and not eligible for services pursuant to Article 14 of this Code) in any residential program shall be provided by the district in which the facility is located and financed as follows. The cost of educational services shall be paid by the district in which the student resides in an amount equal to the cost of providing educational services in the residential facility. Payments shall be made by the district of the student's residence and shall be made to the district wherein the facility is located no less than once per month unless otherwise agreed to by the parties.

The funding provision of this subsection (b) applies to all Illinois students under the age of 21 (and not eligible for services pursuant to Article 14 of this Code) receiving educational services in residential facilities, irrespective of whether the student was placed therein pursuant to this Code or the Juvenile Court Act of 1987 or by an Illinois public agency or a court. Nothing in this Section shall be construed to relieve the district of the student's residence of financial responsibility based on the manner in which the student was placed at the facility. The changes to this subsection (b) made by this amendatory Act of the 95th General Assembly apply to all placements in effect on July 1, 2007 and all placements thereafter. For purposes of this subsection (b), a student's district of residence shall be determined in accordance with subsection (a) of Section 10-20.12b of this Code. The placement of a student in a residential facility shall not affect the residency of the student. When a dispute arises over the determination of the district of residence under this subsection (b), any person or entity, including without limitation a school district or residential facility, may make a written request for a residency decision to the State Superintendent of Education, who, upon review of materials submitted and any other items or information he or she may request for submission, shall issue his or her decision in writing. The decision of the State Superintendent of Education is final.

Sec. 14-7.05. Placement in residential facility; payment of educational costs. For any student with a disability in a residential facility placement made or paid for by an Illinois public State agency or made by any court in this State, the school district of residence as determined pursuant to this Article is responsible for the costs of educating the child and shall be reimbursed for those costs in accordance with this Code. Subject to this Section and relevant State appropriation, the resident district's financial responsibility and reimbursement must be calculated in accordance with the provisions of Section 14-7.02 of this Code. In those instances in which a district receives a block grant pursuant to Article 1D of this Code, the district's financial responsibility is limited to the actual educational costs of the placement, which must be paid by the district from its block grant appropriation. Resident district financial responsibility and reimbursement applies for both residential facilities that are approved by the State Board of Education and non-approved facilities, subject to the requirements of this Section. The Illinois placing agency or court remains responsible for funding the residential portion of the placement and for notifying the resident district prior to the placement, except in emergency situations. The residential facility in which the student is placed shall notify the resident district of the student's enrollment as soon as practicable after the placement. Failure of the placing agency or court to notify the resident district prior to the placement does not absolve the resident district of financial responsibility for the educational costs of the placement; however, the resident district shall not become financially responsible unless and until it receives written notice of the placement by either the placing agency, court, or residential facility. The placing agency or parent shall request an individualized education program (IEP) meeting from the resident district if the placement would entail additional educational services beyond the student's current IEP. The district of residence shall retain control of the IEP process, and any changes to the IEP must be done in compliance with the federal Individuals with Disabilities Education Act.

Payments shall be made by the resident district to the entity providing the educational services, whether the entity is the residential facility or the school district wherein the facility is located, no less than once per quarter unless otherwise agreed to in writing by the parties.

A residential facility providing educational services within the facility, but not approved by the State Board of Education, is required to demonstrate proof to the State Board of (i) appropriate certification of

teachers for the student population, (ii) age-appropriate curriculum, (iii) enrollment and attendance data, and (iv) the ability to implement the child's IEP. A school district is under no obligation to pay such a residential facility unless and until such proof is provided to the State Board's satisfaction.

When a dispute arises over the determination of the district of residence under this Section, any person or entity, including without limitation a school district or residential facility, may make a written request for a residency decision to the State Superintendent of Education, who, upon review of materials submitted and any other items of information he or she may request for submission, shall issue his or her decision in writing. The decision of the State Superintendent of Education is final.

(4) enrolled or accepted for enrollment at or above the junior level, on at least a half-time basis, at an Illinois institution of higher learning; and
(5) pursuing a postsecondary course of study leading to initial certification or pursuing additional coursework needed to gain State Board of Education approval to teach, including alternative teacher certification.

(b) Recipients shall be selected from among applicants qualified pursuant to subsection (a) based on a combination of the following criteria as set forth by the Commission: (1) academic excellence; (2) status as a minority student as defined in Section 50; and (3) financial need. Preference may be given to previous recipients of assistance under this Section, provided they continue to maintain eligibility and maintain satisfactory academic progress as determined by the institution of higher learning at which they enroll.

In each year, to support mentoring, guidance, and in-service support for teaching candidates in order to increase the likelihood that they will complete their full teaching commitments and elect to continue teaching in targeted disciplines and hard-to-staff schools, a minimum of 200 awards shall be allocated to participants in the Golden Apple Scholars of Illinois program.

(c) Each scholarship awarded under this Section shall be in an amount sufficient to pay the tuition and fees and room and board costs of the Illinois institution of higher learning at which the recipient is enrolled, up to an annual maximum of $5,000; except that in the case of a recipient who does not reside on-campus at the institution of higher learning at which he or she is enrolled, the amount of the scholarship shall be sufficient to pay tuition and fee expenses and a commuter allowance, up to an annual maximum of $5,000. For recipients who agree to teach in a teacher shortage discipline or at a hard-to-staff school under subsection (i) of this Section, the Commission may, by rule and subject to appropriation, increase the annual maximum amount to $10,000. (d) The total amount of scholarship assistance awarded by the Commission under this Section to an individual in any given fiscal year, when added to other financial assistance awarded to that individual for that year, shall not exceed the cost of attendance at the institution of higher learning at which the student is enrolled.

(e) A recipient may receive up to 4 semesters or 6 quarters of scholarship assistance under this Section.

(f) All applications for scholarship assistance to be awarded under this Section shall be made to the Commission in a form as set forth by the Commission. The form of application and the information required to be set forth therein shall be determined by the Commission, and the Commission shall require eligible applicants to submit with their applications such supporting documents as the Commission deems necessary.

(g) Subject to a separate appropriation made for such purposes, payment of any scholarship awarded under this Section shall be determined by the Commission. There shall be a separate appropriation made for scholarships awarded to recipients who agree to teach in a teacher shortage discipline or at a hard-to-staff school under subsection (i) of this Section. The Commission may use for scholarship assistance under this Section (i) all funds appropriated for scholarships under this Section that were formerly known as ITEACH Teacher Shortage Scholarships and (ii) all funds appropriated for scholarships under Section 65.65 of this Act (repealed by this amendatory Act of the 93rd General Assembly), formerly known as Illinois Future Teacher Corps Scholarships.

All scholarship funds distributed in accordance with this Section shall be paid to the institution on behalf of the recipients. Scholarship funds are applicable toward 2 semesters or 3 quarters of enrollment within an academic year.

(h) The Commission shall administer the scholarship program established by this Section and shall make all necessary and proper rules not inconsistent with this Section for its effective implementation.

(i) Prior to receiving scholarship assistance for any academic year, each recipient of a scholarship awarded under this Section shall be required by the Commission to sign an agreement under which the recipient pledges that, within the one-year period following the termination of the academic program for which the recipient was awarded

(j) If a recipient of a scholarship awarded under this Section fails to fulfill the teaching obligation set forth in subsection (i) of this Section, the Commission shall require the recipient to repay the amount of the scholarships received, prorated according to the fraction of the teaching obligation not completed, plus interest at a rate of 5% and if applicable, reasonable collection fees. The Commission is authorized to establish rules relating to its collection activities for repayment of scholarships under this Section. Payments received by the Commission under this subsection (j) shall be remitted to the State Comptroller for deposit into the General Revenue Fund, except that that portion of a recipient's repayment that equals the amount in expenses that the Commission has reasonably incurred in attempting collection from that recipient shall be remitted to the State Comptroller for deposit into the Commission's Accounts Receivable Fund.

(k) A recipient of a scholarship awarded by the Commission under this Section shall not be in violation of the agreement entered into pursuant to subsection (i) if the recipient (i) enrolls on a full-time basis as a graduate student in a course of study related to the field of teaching at an institution of higher learning; (ii) is serving as a member of the armed services of the United States; (iii) is temporarily totally disabled, as established by sworn affidavit of a qualified physician; (iv) is seeking and unable to find full-time employment as a teacher at a school that satisfies the criteria set forth in subsection (i) and is able to provide evidence of that fact; (v) is taking additional courses, on at least a half-time basis, needed to obtain certification as a teacher in Illinois; or (vi) is fulfilling teaching requirements associated with other programs administered by the Commission and cannot concurrently fulfill them under this Section in a period of time equal to the length of the teaching obligation. Any such extension of the period during which the teaching requirement must be fulfilled shall be subject to limitations of duration as established by the Commission.

Approved August 29, 2008.
Effective August 29, 2008.

PUBLIC ACT 95-0950
(House Bill No. 5088)

AN ACT concerning public employee benefits.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 3. The Department of Professional Regulation Law of the Civil Administrative Code of Illinois is amended by changing Section 2105-300 as follows:

(20 ILCS 2105/2105-300) (was 20 ILCS 2105/61e)
Sec. 2105-300. Professions Indirect Cost Fund; allocations; analyses.

(a) Appropriations for the direct and allocable indirect costs of licensing and regulating each regulated profession, trade, occupation, or industry are intended to be payable from the fees and fines that are assessed and collected from that profession, trade, occupation, or industry, to the extent that those fees and fines are sufficient. In any fiscal year in which the fees and fines generated by a specific profession, trade, occupation, or industry are insufficient to finance the necessary direct and allocable indirect costs of licensing and regulating that profession, trade, occupation, or industry, the remainder of those costs shall be financed from appropriations payable from revenue sources other than fees and

fines. The direct and allocable indirect costs of the Department identified in its cost allocation plans that are not attributable to the licensing and regulation of a specific profession, trade, or occupation, or industry or group of professions, trades, occupations, or industries shall be financed from appropriations from revenue sources other than fees and fines.

(b) The Professions Indirect Cost Fund is hereby created as a special fund in the State Treasury. Except as provided in subsection (e), the Fund may receive transfers of moneys authorized by the Department from the cash balances in special funds that receive revenues from the fees and fines associated with the licensing of regulated professions, trades, occupations, and industries by the Department. Moneys in the Fund shall be invested and earnings on the investments shall be retained in the Fund. Subject to appropriation, the Department shall use moneys in the Fund to pay the ordinary and necessary allocable indirect expenses associated with each of the regulated professions, trades, occupations, and industries.

(c) Before the beginning of each fiscal year, the Department shall prepare a cost allocation analysis to be used in establishing the necessary appropriation levels for each cost purpose and revenue source. At the conclusion of each fiscal year, the Department shall prepare a cost allocation analysis reflecting the extent of the variation between how the costs were actually financed in that year and the planned cost allocation for that year. Variations between the planned and actual cost allocations for the prior fiscal year shall be adjusted into the Department's planned cost allocation for the next fiscal year.

Each cost allocation analysis shall separately identify the direct and allocable indirect costs of each regulated profession, trade, occupation, or industry and the costs of the Department's general public health and safety purposes. The analyses shall determine whether the direct and allocable indirect costs of each regulated profession, trade, occupation, or industry and the costs of the Department's general public health and safety purposes are sufficiently financed from their respective funding sources. The Department shall prepare the cost allocation analyses in consultation with the respective regulated professions, trades, occupations, and industries and shall make copies of the analyses available to them in a timely fashion.

(d) Except as provided in subsection (e), the Department may direct the State Comptroller and Treasurer to transfer moneys from the special funds that receive fees and fines associated with regulated

professions, trades, occupations, and industries into the Professions Indirect Cost Fund in accordance with the Department's cost allocation analysis plan for the applicable fiscal year. For a given fiscal year, the Department shall not direct the transfer of moneys under this subsection from a special fund associated with a specific regulated profession, trade, occupation, or industry (or group of professions, trades, occupations, or industries) in an amount exceeding the allocable indirect costs associated with that profession, trade, occupation, or industry (or group of professions, trades, occupations, or industries) as provided in the cost allocation analysis for that fiscal year and adjusted for allocation variations from the prior fiscal year. No direct costs identified in the cost allocation plan shall be used as a basis for transfers into the Professions Indirect Cost Fund or for expenditures from the Fund.

(e) No transfer may be made to the Professions Indirect Cost Fund under this Section from the Public Pension Regulation Fund.

Sec. 3. Content of pension impact note.

(a) The pension impact note shall be factual in nature, as brief and concise as may be, and shall provide a reliable estimate of the impact of the bill on any public pension systems to be effected by it, in dollars where appropriate, and, in addition, it shall include both the immediate effect and, if determinable or reasonably foreseeable, the long range effect of the measure. If, after careful investigation, it is determined that no dollar estimate is possible, the note shall contain a statement to that effect, setting forth the reasons why no dollar estimate can be given. A brief summary or work sheet of computations used in arriving at pension impact note figures shall be included.

(b) The pension impact note for any legislation or amendment that the Commission on Government Forecasting and Accountability determines would result in an increase in benefits or increased costs to a pension fund established under Article 3 or 4 of the Illinois Pension Code may demonstrate the fiscal impact of the legislation being considered on selected individual municipalities with such pension funds.

(a) The moneys in the State Pensions Fund shall be used exclusively for the administration of the Uniform Disposition of Unclaimed Property Act and for the funding of the unfunded liabilities of the designated retirement systems. Payments to the designated retirement systems under this Section shall be in addition to, and not in lieu of, any State contributions required under the Illinois Pension Code or repayment to the General Revenue Fund a portion of the required State contributions to the designated retirement systems.

Each month, the Commissioner of the Office of Banks and Real Estate shall certify to the State Treasurer the actual expenditures that the Office of Banks and Real Estate incurred conducting unclaimed property examinations under the Uniform Disposition of Unclaimed Property Act during the immediately preceding month. Within a reasonable time following the acceptance of such certification by the State Treasurer, the State Treasurer shall pay from its appropriation from the State Pensions Fund to the Bank and Trust Company Fund and the Savings and Residential Finance Regulatory Fund an amount equal to the expenditures incurred by each Fund for that month.

If the amount in the State Pensions Fund does not exceed the sum of the amounts certified in Sections 15-165, 18-140, and 2-134 by at least $5,000,000, the amount paid to each designated retirement system under this subsection shall be reduced in proportion to the amount certified by each of those designated retirement systems.

(c-5) For fiscal years year 2006 and thereafter, 2007, 2008, 2009, and 2010 the General Assembly shall appropriate from the State Pensions Fund to the State Universities Retirement System the amount estimated to be available during the fiscal year in the State Pensions Fund; provided, however, that the amounts appropriated under this subsection (c-5) shall not reduce the amount in the State Pensions Fund below $5,000,000.

The State Comptroller and State Treasurer shall pay the apportioned amounts to the designated retirement systems to fund the unfunded liabilities of the designated retirement systems. The amount apportioned to each designated retirement system shall constitute a portion of the amount estimated to be available for appropriation from the State Pensions Fund that is the same as that retirement system's portion of the total actual reserve deficiency of the systems, as determined annually by the Governor's Office of Management and Budget at the request of the State Treasurer. The amounts apportioned under this subsection shall not reduce the amount in the State Pensions Fund below $5,000,000.

The transfers described in this subsection (d-1) are to partially repay the General Revenue Fund for the costs associated with the bonds used to fund the moneys transferred to the designated retirement systems under Section 6z-61.

(e) The changes to this Section made by this amendatory Act of 1994 shall first apply to distributions from the Fund for State fiscal year 1996.

The Department may implement a flexible system of examinations under which it directs resources as it deems necessary or appropriate. In consultation with the pension fund being examined, the Division may retain attorneys, independent actuaries, independent certified public accountants, and other professionals and specialists as examiners, the cost of which (except in the case of pension funds established under Article 3 or 4) shall be borne by the pension fund that is the subject of the examination.

A copy of the report of examination or investigation as prepared by the Division shall be submitted to the secretary of the board of trustees of the pension fund examined or investigated and to the chief executive officer of the municipality. (b) The Board shall determine the amount of State contributions required for each fiscal year on the basis of the actuarial tables and other assumptions adopted by the Board and the prescribed rate of interest, using the formula in subsection (c).

In making these determinations, the required State contribution shall be calculated each year as a level percentage of payroll over the years remaining to and including fiscal year 2045 and shall be determined under the projected unit credit actuarial cost method.

For State fiscal years 1996 through 2005, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments so that by State fiscal year 2011, the State is contributing at the rate required under this Section.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2006 is $4,157,000.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2007 is $5,220,300.

For each of State fiscal years 2008 through 2010, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments from the required State contribution for State fiscal year 2007, so that by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

Beginning in State fiscal year 2046, the minimum State contribution for each fiscal year shall be the amount needed to maintain the total assets of the System at 90% of the total actuarial liabilities of the System.

Amounts received by the System pursuant to Section 25 of the Budget Stabilization Act or Section 8.12 of the State Finance Act in any fiscal year do not reduce and do not constitute payment of any portion of the minimum State contribution required under this Article in that fiscal year. Section 7.2 of the General Obligation Bond Act. In determining this maximum for State fiscal years 2008 through 2010, however, the amount referred to in item (i) shall be increased, as a percentage of the applicable employee payroll, in equal increments calculated from the sum of the required State contribution for State fiscal year 2007 plus the applicable portion of the State's total debt service payments for fiscal year 2007 on the bonds issued for the purposes of Section 7.2 of the General Obligation Bond Act, so that, by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

Any person, member, trustee, or employee of the board who knowingly makes any false statement or falsifies or permits to be falsified any record of a fund in any attempt to defraud such fund as a result of such act, or intentionally or knowingly defrauds a fund in any manner, is guilty of a Class A misdemeanor.

(40 ILCS 5/14-131) (from Ch. 108 1/2, par. 14-131)

Sec. 14-131. Contributions by State.

(a) The State shall make contributions to the System by appropriations of amounts which, together with other employer contributions from trust, federal, and other funds, employee contributions, investment income, and other income, will be sufficient to meet the cost of maintaining and administering the System on a 90% funded basis in accordance with actuarial recommendations.

For the purposes of this Section and Section 14-135.08, references to State contributions refer only to employer contributions and do not include employee contributions that are picked up or otherwise paid by the State or a department on behalf of the employee.

(b) The Board shall determine the total amount of State contributions required for each fiscal year on the basis of the actuarial tables and other assumptions adopted by the Board, using the formula in subsection (e).

The Board shall also determine a State contribution rate for each fiscal year, expressed as a percentage of payroll, based on the total required State contribution for that fiscal year (less the amount received by the System from appropriations under Section 8.12 of the State Finance Act and Section 1 of the State Pension Funds Continuing Appropriation Act, if any, for the fiscal year ending on the June 30 immediately preceding the applicable November 15 certification deadline), the estimated payroll (including all forms of compensation) for personal services rendered by eligible employees, and the recommendations of the actuary.

For the purposes of this Section and Section 14.1 of the State Finance Act, the term "eligible employees" includes employees who

participate in the System, persons who may elect to participate in the System but have not so elected, persons who are serving a qualifying period that is required for participation, and annuitants employed by a department as described in subdivision (a)(1) or (a)(2) of Section 14-111.

(c) Contributions shall be made by the several departments for each pay period by warrants drawn by the State Comptroller against their respective funds or appropriations based upon vouchers stating the amount to be so contributed. These amounts shall be based on the full rate certified by the Board under Section 14-135.08 for that fiscal year. From the effective date of this amendatory Act of the 93rd General Assembly through the payment of the final payroll from fiscal year 2004 appropriations, the several departments shall not make contributions for the remainder of fiscal year 2004 but shall instead make payments as required under subsection (a-1) of Section 14.1 of the State Finance Act. The several departments shall resume those contributions at the commencement of fiscal year 2005.

(d) If an employee is paid from trust funds or federal funds, the department or other employer shall pay employer contributions from those funds to the System at the certified rate, unless the terms of the trust or the federal-State agreement preclude the use of the funds for that purpose, in which case the required employer contributions shall be paid by the State. From the effective date of this amendatory Act of the 93rd General Assembly through the payment of the final payroll from fiscal year 2004 appropriations, the department or other employer shall not pay contributions for the remainder of fiscal year 2004 but shall instead make payments as required under subsection (a-1) of Section 14.1 of the State Finance Act. The department or other employer shall resume payment of contributions at the commencement of fiscal year 2005.

(e) For State fiscal years 2011 through 2045, the minimum contribution to the System to be made by the State for each fiscal year shall be an amount determined by the System to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of State fiscal year 2045. In making these determinations, the required State contribution shall be calculated each year as a level percentage of payroll over the years remaining to and including fiscal year 2045 and shall be determined under the projected unit credit actuarial cost method.

increased in equal annual increments so that by State fiscal year 2011, the State is contributing at the rate required under this Section; except that (i) for State fiscal year 1998, for all purposes of this Code and any other law of this State, the certified percentage of the applicable employee payroll shall be 5.052% for employees earning eligible creditable service under Section 14-110 and 6.500% for all other employees, notwithstanding any contrary certification made under Section 14-135.08 before the effective date of this amendatory Act of 1997, and (ii) in the following specified State fiscal years, the State contribution to the System shall not be less than the following indicated percentages of the applicable employee payroll, even if the indicated percentage will produce a State contribution in excess of the amount otherwise required under this subsection and subsection (a): 9.8% in FY 1999; 10.0% in FY 2000; 10.2% in FY 2001; 10.4% in FY 2002; 10.6% in FY 2003; and 10.8% in FY 2004.

Notwithstanding any other provision of this Article, the total required State contribution to the System for State fiscal year 2006 is $203,783,900.

Notwithstanding any other provision of this Article, the total required State contribution to the System for State fiscal year 2007 is $344,164,400.

For each of State fiscal years 2008 through 2010, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments from the required State contribution for State fiscal year 2007, so that by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

Beginning in State fiscal year 2046, the minimum State contribution for each fiscal year shall be the amount needed to maintain the total assets of the System at 90% of the total actuarial liabilities of the System.

Amounts received by the System pursuant to Section 25 of the Budget Stabilization Act or Section 8.12 of the State Finance Act in any fiscal year do not reduce and do not constitute payment of any portion of the minimum State contribution required under this Article in that fiscal year. Such amounts shall not reduce, and shall not be included in the calculation of, the required State contributions under this Article in any future year until the System has reached a funding ratio of at least 90%. substantially similar term does not include or apply to any amounts payable to the System under Section 25 of the Budget Stabilization Act.

Notwithstanding any other provision of this Section, the required State contribution for State fiscal year 2005 and for fiscal year 2008 and each fiscal year thereafter, as calculated under this Section and certified under Section 14-135.08, shall not exceed an amount equal to (i) the amount of the required State contribution that would have been calculated under this Section for that fiscal year if the System had not received any payments under subsection (d) of Section 7.2 of the General Obligation Bond Act, minus (ii) the portion of the State's total debt service payments for that fiscal year on the bonds issued for the purposes of that Section 7.2, as determined and certified by the Comptroller, that is the same as the System's portion of the total moneys distributed under subsection (d) of Section 7.2 of the General Obligation Bond Act. In determining this maximum for State fiscal years 2008 through 2010, however, the amount referred to in item (i) shall be increased, as a percentage of the applicable employee payroll, in equal increments calculated from the sum of the required State contribution for State fiscal year 2007 plus the applicable portion of the State's total debt service payments for fiscal year 2007 on the bonds issued for the purposes of Section 7.2 of the General Obligation Bond Act, so that, by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

(f) After the submission of all payments for eligible employees from personal services line items in fiscal year 2004 have been made, the Comptroller shall provide to the System a certification of the sum of all fiscal year 2004 expenditures for personal services that would have been covered by payments to the System under this Section if the provisions of this amendatory Act of the 93rd General Assembly had not been enacted. Upon receipt of the certification, the System shall determine the amount due to the System based on the full rate certified by the Board under Section 14-135.08 for fiscal year 2004 in order to meet the State's obligation under this Section. The System shall compare this amount due to the amount received by the System in fiscal year 2004 through payments under this Section and under Section 6z-61 of the State Finance Act. If the amount due is more than the amount received, the difference shall be termed the "Fiscal Year 2004 Shortfall" for purposes of this Section, and the Fiscal Year 2004 Shortfall shall be satisfied under Section 1.2 of the State Pension Funds Continuing Appropriation Act. If the amount due is less than the amount received, the difference shall be termed the "Fiscal

Sec. 15-155. Employer contributions.  
(a) The State of Illinois shall make contributions by appropriations of amounts which, together with the other employer contributions from trust, federal, and other funds, employee contributions, income from investments, and other income of this System, will be sufficient to meet the cost of maintaining and administering the System on a 90% funded basis in accordance with actuarial recommendations.  

The Board shall determine the amount of State contributions required for each fiscal year on the basis of the actuarial tables and other assumptions adopted by the Board and the recommendations of the actuary, using the formula in subsection (a-1).  

(a-1) For State fiscal years 2011 through 2045, the minimum contribution to the System to be made by the State for each fiscal year shall be an amount determined by the System to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of State fiscal year 2045. In making these determinations, the required State contribution shall be calculated each year as a level percentage of payroll over the years remaining to and including fiscal year 2045 and shall be determined under the projected unit credit actuarial cost method.  

For State fiscal years 1996 through 2005, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments so that by State fiscal year 2011, the State is contributing at the rate required under this Section.  

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2006 is $166,641,900.  

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2007 is $252,064,100.  

For each of State fiscal years 2008 through 2010, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments from the required State contribution for State fiscal year 2007, so that by State fiscal year
2011, the State is contributing at the rate otherwise required under this Section.

Beginning in State fiscal year 2046, the minimum State contribution for each fiscal year shall be the amount needed to maintain the total assets of the System at 90% of the total actuarial liabilities of the System.

Amounts received by the System pursuant to Section 25 of the Budget Stabilization Act or Section 8.12 of the State Finance Act in any fiscal year do not reduce and do not constitute payment of any portion of the minimum State contribution required under this Article in that fiscal year. Such amounts shall not reduce, and shall not be included in the calculation of, the required State contributions under this Article in any future year until the System has reached a funding ratio of at least 90%. A reference in this Article to the "required State contribution" or any substantially similar term does not include or apply to any amounts payable to the System under Section 25 of the Budget Stabilization Act.

Notwithstanding any other provision of this Section, the required State contribution for State fiscal year 2005 and for fiscal year 2008 and each fiscal year thereafter, as calculated under this Section and certified under Section 15-165, shall not exceed an amount equal to (i) the amount of the required State contribution that would have been calculated under this Section for that fiscal year if the System had not received any payments under subsection (d) of Section 7.2 of the General Obligation Bond Act, minus (ii) the portion of the State's total debt service payments for that fiscal year on the bonds issued for the purposes of that Section 7.2, as determined and certified by the Comptroller, that is the same as the System's portion of the total moneys distributed under subsection (d) of Section 7.2 of the General Obligation Bond Act. In determining this maximum for State fiscal years 2008 through 2010, however, the amount referred to in item (i) shall be increased, as a percentage of the applicable employee payroll, in equal increments calculated from the sum of the required State contribution for State fiscal year 2007 plus the applicable portion of the State's total debt service payments for fiscal year 2007 on the bonds issued for the purposes of Section 7.2 of the General Obligation Bond Act, so that, by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

(b) If an employee is paid from trust or federal funds, the employer shall pay to the Board contributions from those funds which are sufficient to cover the accruing normal costs on behalf of the employee. However,

universities having employees who are compensated out of local auxiliary funds, income funds, or service enterprise funds are not required to pay such contributions on behalf of those employees. The local auxiliary funds, income funds, and service enterprise funds of universities shall not be considered trust funds for the purpose of this Article, but funds of alumni associations, foundations, and athletic associations which are affiliated with the universities included as employers under this Article and other employers which do not receive State appropriations are considered to be trust funds for the purpose of this Article.

(b-1) The City of Urbana and the City of Champaign shall each make employer contributions to this System for their respective firefighter employees who participate in this System pursuant to subsection (h) of Section 15-107. The rate of contributions to be made by those municipalities shall be determined annually by the Board on the basis of the actuarial assumptions adopted by the Board and the recommendations of the actuary, and shall be expressed as a percentage of salary for each such employee. The Board shall certify the rate to the affected municipalities as soon as may be practical. The employer contributions required under this subsection shall be remitted by the municipality to the System at the same time and in the same manner as employee contributions.

(c) Through State fiscal year 1995: The total employer contribution shall be apportioned among the various funds of the State and other employers, whether trust, federal, or other funds, in accordance with actuarial procedures approved by the Board. State of Illinois contributions for employers receiving State appropriations for personal services shall be payable from appropriations made to the employers or to the System. The contributions for Class I community colleges covering earnings other than those paid from trust and federal funds, shall be payable solely from appropriations to the Illinois Community College Board or the System for employer contributions.

(d) Beginning in State fiscal year 1996, the required State contributions to the System shall be appropriated directly to the System and shall be payable through vouchers issued in accordance with subsection (c) of Section 15-165, except as provided in subsection (g).

(e) The State Comptroller shall draw warrants payable to the System upon proper certification by the System or by the employer in accordance with the appropriation laws and this Code.
(f) Normal costs under this Section means liability for pensions and other benefits which accrues to the System because of the credits earned for service rendered by the participants during the fiscal year and expenses of administering the System, but shall not include the principal of or any redemption premium or interest on any bonds issued by the Board or any expenses incurred or deposits required in connection therewith.

(g) If the amount of a participant's earnings for any academic year used to determine the final rate of earnings, determined on a full-time equivalent basis, exceeds the amount of his or her earnings with the same employer for the previous academic year, determined on a full-time equivalent basis, by more than 6%, the participant's employer shall pay to the System, in addition to all other payments required under this Section and in accordance with guidelines established by the System, the present value of the increase in benefits resulting from the portion of the increase in earnings that is in excess of 6%. This present value shall be computed by the System on the basis of the actuarial assumptions and tables used in the most recent actuarial valuation of the System that is available at the time of the computation. The System may require the employer to provide any pertinent information or documentation.

Whenever it determines that a payment is or may be required under this subsection (g), the System shall calculate the amount of the payment and bill the employer for that amount. The bill shall specify the calculations used to determine the amount due. If the employer disputes the amount of the bill, it may, within 30 days after receipt of the bill, apply to the System in writing for a recalculation. The application must specify in detail the grounds of the dispute and, if the employer asserts that the calculation is subject to subsection (h) or (i) of this Section, must include an affidavit setting forth and attesting to all facts within the employer's knowledge that are pertinent to the applicability of subsection (h) or (i). Upon receiving a timely application for recalculation, the System shall review the application and, if appropriate, recalculate the amount due.

The employer contributions required under this subsection (f) may be paid in the form of a lump sum within 90 days after receipt of the bill. If the employer contributions are not paid within 90 days after receipt of the bill, then interest will be charged at a rate equal to the System's annual actuarially assumed rate of return on investment compounded annually from the 91st day after receipt of the bill. Payments must be concluded within 3 years after the employer's receipt of the bill.

(h) This subsection (h) applies only to payments made or salary increases given on or after June 1, 2005 but before July 1, 2011. The changes made by Public Act 94-1057 shall not require the System to refund any payments received before July 31, 2006 (the effective date of Public Act 94-1057).

When assessing payment for any amount due under subsection (g), the System shall exclude earnings increases paid to participants under contracts or collective bargaining agreements entered into, amended, or renewed before June 1, 2005.

When assessing payment for any amount due under subsection (g), the System shall exclude earnings increases paid to a participant at a time when the participant is 10 or more years from retirement eligibility under Section 15-135.

When assessing payment for any amount due under subsection (g), the System shall exclude earnings increases resulting from overload work, including a contract for summer teaching, or overtime when the employer has certified to the System, and the System has approved the certification, that: (i) in the case of overloads (A) the overload work is for the sole purpose of academic instruction in excess of the standard number of instruction hours for a full-time employee occurring during the academic year that the overload is paid and (B) the earnings increases are equal to or less than the rate of pay for academic instruction computed using the participant's current salary rate and work schedule; and (ii) in the case of overtime, the overtime was necessary for the educational mission.

When assessing payment for any amount due under subsection (g), the System shall exclude any earnings increase resulting from (i) a promotion for which the employee moves from one classification to a higher classification under the State Universities Civil Service System, (ii) a promotion in academic rank for a tenured or tenure-track faculty position, or (iii) a promotion that the Illinois Community College Board has recommended in accordance with subsection (k) of this Section. These earnings increases shall be excluded only if the promotion is to a position that has existed and been filled by a member for no less than one complete academic year and the earnings increase as a result of the promotion is an increase that results in an amount no greater than the average salary paid for other similar positions.

(i) When assessing payment for any amount due under subsection (g), the System shall exclude any salary increase described in subsection (h) of this Section given on or after July 1, 2011 but before July 1, 2014.

(4) The increase in the required State contribution resulting from the changes made to this Section by Public Act 94-1057.

(k) The Illinois Community College Board shall adopt rules for recommending lists of promotional positions submitted to the Board by community colleges and for reviewing the promotional lists on an annual basis. When recommending promotional lists, the Board shall consider the similarity of the positions submitted to those positions recognized for State universities by the State Universities Civil Service System. The Illinois Community College Board shall file a copy of its findings with the System. The System shall consider the findings of the Illinois Community College Board when making determinations under this Section. The System shall exclude any earnings increases resulting from a promotion when the promotion was not submitted by a community college. Nothing in this subsection (k) shall require any community college to submit any information to the Community College Board.

Sec. 16-158. Contributions by State and other employing units.

(a) The State shall make contributions to the System by means of appropriations from the Common School Fund and other State funds of amounts which, together with other employer contributions, employee contributions, investment income, and other income, will be sufficient to

meet the cost of maintaining and administering the System on a 90% funded basis in accordance with actuarial recommendations.

The Board shall determine the amount of State contributions required for each fiscal year on the basis of the actuarial tables and other assumptions adopted by the Board and the recommendations of the actuary, using the formula in subsection (b-3).

(a-1) Annually, on or before November 15, the Board shall certify to the Governor the amount of the required State contribution for the coming fiscal year. The certification shall include a copy of the actuarial recommendations upon which it is based.

On or before May 1, 2004, the Board shall recalculate and recertify to the Governor the amount of the required State contribution to the System for State fiscal year 2005, taking into account the amounts appropriated to and received by the System under subsection (d) of Section 7.2 of the General Obligation Bond Act.

On or before July 1, 2005, the Board shall recalculate and recertify to the Governor the amount of the required State contribution to the System for State fiscal year 2006, taking into account the changes in required State contributions made by this amendatory Act of the 94th General Assembly.

(b) Through State fiscal year 1995, the State contributions shall be paid to the System in accordance with Section 18-7 of the School Code.

(b-1) Beginning in State fiscal year 1996, on the 15th day of each month, or as soon thereafter as may be practicable, the Board shall submit vouchers for payment of State contributions to the System, in a total monthly amount of one-twelfth of the required annual State contribution certified under subsection (a-1). From the effective date of this amendatory Act of the 93rd General Assembly through June 30, 2004, the Board shall not submit vouchers for the remainder of fiscal year 2004 in excess of the fiscal year 2004 certified contribution amount determined under this Section after taking into consideration the transfer to the System under subsection (a) of Section 6z-61 of the State Finance Act. These vouchers shall be paid by the State Comptroller and Treasurer by warrants drawn on the funds appropriated to the System for that fiscal year.

If in any month the amount remaining unexpended from all other appropriations to the System for the applicable fiscal year (including the appropriations to the System under Section 8.12 of the State Finance Act and Section 1 of the State Pension Funds Continuing Appropriation Act) is less than the amount lawfully vouchered under this subsection, the

difference shall be paid from the Common School Fund under the continuing appropriation authority provided in Section 1.1 of the State Pension Funds Continuing Appropriation Act.

(b-2) Allocations from the Common School Fund apportioned to school districts not coming under this System shall not be diminished or affected by the provisions of this Article.

(b-3) For State fiscal years 2011 through 2045, the minimum contribution to the System to be made by the State for each fiscal year shall be an amount determined by the System to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of State fiscal year 2045. In making these determinations, the required State contribution shall be calculated each year as a level percentage of payroll over the years remaining to and including fiscal year 2045 and shall be determined under the projected unit credit actuarial cost method.

For State fiscal years 1996 through 2005, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments so that by State fiscal year 2011, the State is contributing at the rate required under this Section; except that in the following specified State fiscal years, the State contribution to the System shall not be less than the following indicated percentages of the applicable employee payroll, even if the indicated percentage will produce a State contribution in excess of the amount otherwise required under this subsection and subsection (a), and notwithstanding any contrary certification made under subsection (a-1) before the effective date of this amendatory Act of 1998: 10.02% in FY 1999; 10.77% in FY 2000; 11.47% in FY 2001; 12.16% in FY 2002; 12.86% in FY 2003; and 13.56% in FY 2004.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2006 is $534,627,700.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2007 is $738,014,500.

For each of State fiscal years 2008 through 2010, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments from the required State contribution for State fiscal year 2007, so that by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

New matter indicated by italics - deletions by strikeout.
Beginning in State fiscal year 2046, the minimum State contribution for each fiscal year shall be the amount needed to maintain the total assets of the System at 90% of the total actuarial liabilities of the System.

Amounts received by the System pursuant to Section 25 of the Budget Stabilization Act or Section 8.12 of the State Finance Act in any fiscal year do not reduce and do not constitute payment of any portion of the minimum State contribution required under this Article in that fiscal year. Such amounts shall not reduce, and shall not be included in the calculation of, the required State contributions under this Article in any future year until the System has reached a funding ratio of at least 90%. A reference in this Article to the "required State contribution" or any substantially similar term does not include or apply to any amounts payable to the System under Section 25 of the Budget Stabilization Act.

Notwithstanding any other provision of this Section, the required State contribution for State fiscal year 2005 and for fiscal year 2008 and each fiscal year thereafter, as calculated under this Section and certified under subsection (a-1), shall not exceed an amount equal to (i) the amount of the required State contribution that would have been calculated under this Section for that fiscal year if the System had not received any payments under subsection (d) of Section 7.2 of the General Obligation Bond Act, minus (ii) the portion of the State's total debt service payments for that fiscal year on the bonds issued for the purposes of that Section 7.2, as determined and certified by the Comptroller, that is the same as the System's portion of the total moneys distributed under subsection (d) of Section 7.2 of the General Obligation Bond Act. In determining this maximum for State fiscal years 2008 through 2010, however, the amount referred to in item (i) shall be increased, as a percentage of the applicable employee payroll, in equal increments calculated from the sum of the required State contribution for State fiscal year 2007 plus the applicable portion of the State's total debt service payments for fiscal year 2007 on the bonds issued for the purposes of Section 7.2 of the General Obligation Bond Act, so that, by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

(c) Payment of the required State contributions and of all pensions, retirement annuities, death benefits, refunds, and other benefits granted under or assumed by this System, and all expenses in connection with the administration and operation thereof, are obligations of the State.

If members are paid from special trust or federal funds which are administered by the employing unit, whether school district or other unit, the employing unit shall pay to the System from such funds the full accruing retirement costs based upon that service, as determined by the System. Employer contributions, based on salary paid to members from federal funds, may be forwarded by the distributing agency of the State of Illinois to the System prior to allocation, in an amount determined in accordance with guidelines established by such agency and the System.

(d) Effective July 1, 1986, any employer of a teacher as defined in paragraph (8) of Section 16-106 shall pay the employer's normal cost of benefits based upon the teacher's service, in addition to employee contributions, as determined by the System. Such employer contributions shall be forwarded monthly in accordance with guidelines established by the System.

However, with respect to benefits granted under Section 16-133.4 or 16-133.5 to a teacher as defined in paragraph (8) of Section 16-106, the employer's contribution shall be 12% (rather than 20%) of the member's highest annual salary rate for each year of creditable service granted, and the employer shall also pay the required employee contribution on behalf of the teacher. For the purposes of Sections 16-133.4 and 16-133.5, a teacher as defined in paragraph (8) of Section 16-106 who is serving in that capacity while on leave of absence from another employer under this Article shall not be considered an employee of the employer from which the teacher is on leave.

(e) Beginning July 1, 1998, every employer of a teacher shall pay to the System an employer contribution computed as follows:

(1) Beginning July 1, 1998 through June 30, 1999, the employer contribution shall be equal to 0.3% of each teacher's salary.

(2) Beginning July 1, 1999 and thereafter, the employer contribution shall be equal to 0.58% of each teacher's salary.

The school district or other employing unit may pay these employer contributions out of any source of funding available for that purpose and shall forward the contributions to the System on the schedule established for the payment of member contributions.

These employer contributions are intended to offset a portion of the cost to the System of the increases in retirement benefits resulting from this amendatory Act of 1998.

Each employer of teachers is entitled to a credit against the contributions required under this subsection (e) with respect to salaries paid to teachers for the period January 1, 2002 through June 30, 2003, equal to the amount paid by that employer under subsection (a-5) of Section 6.6 of the State Employees Group Insurance Act of 1971 with respect to salaries paid to teachers for that period.

The additional 1% employee contribution required under Section 16-152 by this amendatory Act of 1998 is the responsibility of the teacher and not the teacher's employer, unless the employer agrees, through collective bargaining or otherwise, to make the contribution on behalf of the teacher.

If an employer is required by a contract in effect on May 1, 1998 between the employer and an employee organization to pay, on behalf of all its full-time employees covered by this Article, all mandatory employee contributions required under this Article, then the employer shall be excused from paying the employer contribution required under this subsection (e) for the balance of the term of that contract. The employer and the employee organization shall jointly certify to the System the existence of the contractual requirement, in such form as the System may prescribe. This exclusion shall cease upon the termination, extension, or renewal of the contract at any time after May 1, 1998.

(f) If the amount of a teacher's salary for any school year used to determine final average salary exceeds the member's annual full-time salary rate with the same employer for the previous school year by more than 6%, the teacher's employer shall pay to the System, in addition to all other payments required under this Section and in accordance with guidelines established by the System, the present value of the increase in benefits resulting from the portion of the increase in salary that is in excess of 6%. This present value shall be computed by the System on the basis of the actuarial assumptions and tables used in the most recent actuarial valuation of the System that is available at the time of the computation. If a teacher's salary for the 2005-2006 school year is used to determine final average salary under this subsection (f), then the changes made to this subsection (f) by Public Act 94-1057 shall apply in calculating whether the increase in his or her salary is in excess of 6%. For the purposes of this Section, change in employment under Section 10-21.12 of the School Code on or after June 1, 2005 shall constitute a change in employer. The System may require the employer to provide any pertinent information or documentation. The changes made to this subsection (f) by this

amendatory Act of the 94th General Assembly apply without regard to whether the teacher was in service on or after its effective date.

Whenever it determines that a payment is or may be required under this subsection, the System shall calculate the amount of the payment and bill the employer for that amount. The bill shall specify the calculations used to determine the amount due. If the employer disputes the amount of the bill, it may, within 30 days after receipt of the bill, apply to the System in writing for a recalculation. The application must specify in detail the grounds of the dispute and, if the employer asserts that the calculation is subject to subsection (g) or (h) of this Section, must include an affidavit setting forth and attesting to all facts within the employer's knowledge that are pertinent to the applicability of that subsection. Upon receiving a timely application for recalculation, the System shall review the application and, if appropriate, recalculate the amount due.

The employer contributions required under this subsection (f) may be paid in the form of a lump sum within 90 days after receipt of the bill. If the employer contributions are not paid within 90 days after receipt of the bill, then interest will be charged at a rate equal to the System's annual actuarially assumed rate of return on investment compounded annually from the 91st day after receipt of the bill. Payments must be concluded within 3 years after the employer's receipt of the bill.

(g) This subsection (g) applies only to payments made or salary increases given on or after June 1, 2005 but before July 1, 2011. The changes made by Public Act 94-1057 shall not require the System to refund any payments received before July 31, 2006 (the effective date of Public Act 94-1057).

When assessing payment for any amount due under subsection (f), the System shall exclude salary increases paid to teachers under contracts or collective bargaining agreements entered into, amended, or renewed before June 1, 2005.

When assessing payment for any amount due under subsection (f), the System shall exclude salary increases paid to a teacher at a time when the teacher is 10 or more years from retirement eligibility under Section 16-132 or 16-133.2.

When assessing payment for any amount due under subsection (f), the System shall exclude salary increases resulting from overload work, including summer school, when the school district has certified to the System, and the System has approved the certification, that (i) the overload work is for the sole purpose of classroom instruction in excess of the
standard number of classes for a full-time teacher in a school district during a school year and (ii) the salary increases are equal to or less than the rate of pay for classroom instruction computed on the teacher's current salary and work schedule.

When assessing payment for any amount due under subsection (f), the System shall exclude a salary increase resulting from a promotion (i) for which the employee is required to hold a certificate or supervisory endorsement issued by the State Teacher Certification Board that is a different certification or supervisory endorsement than is required for the teacher's previous position and (ii) to a position that has existed and been filled by a member for no less than one complete academic year and the salary increase from the promotion is an increase that results in an amount no greater than the lesser of the average salary paid for other similar positions in the district requiring the same certification or the amount stipulated in the collective bargaining agreement for a similar position requiring the same certification.

When assessing payment for any amount due under subsection (f), the System shall exclude any payment to the teacher from the State of Illinois or the State Board of Education over which the employer does not have discretion, notwithstanding that the payment is included in the computation of final average salary.

(h) When assessing payment for any amount due under subsection (f), the System shall exclude any salary increase described in subsection (g) of this Section given on or after July 1, 2011 but before July 1, 2014 under a contract or collective bargaining agreement entered into, amended, or renewed on or after June 1, 2005 but before July 1, 2011. Notwithstanding any other provision of this Section, any payments made or salary increases given after June 30, 2014 shall be used in assessing payment for any amount due under subsection (f) of this Section.

(i) The System shall prepare a report and file copies of the report with the Governor and the General Assembly by January 1, 2007 that contains all of the following information:

(1) The number of recalculations required by the changes made to this Section by Public Act 94-1057 for each employer.

(2) The dollar amount by which each employer's contribution to the System was changed due to recalculations required by Public Act 94-1057.
(3) The total amount the System received from each employer as a result of the changes made to this Section by Public Act 94-4.

(4) The increase in the required State contribution resulting from the changes made to this Section by Public Act 94-1057.

Sec. 18-131. Financing; employer contributions.

(a) The State of Illinois shall make contributions to this System by appropriations of the amounts which, together with the contributions of participants, net earnings on investments, and other income, will meet the costs of maintaining and administering this System on a 90% funded basis in accordance with actuarial recommendations.

(b) The Board shall determine the amount of State contributions required for each fiscal year on the basis of the actuarial tables and other assumptions adopted by the Board and the prescribed rate of interest, using the formula in subsection (c).

(c) For State fiscal years 2011 through 2045, the minimum contribution to the System to be made by the State for each fiscal year shall be an amount determined by the System to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of State fiscal year 2045. In making these determinations, the required State contribution shall be calculated each year as a level percentage of payroll over the years remaining to and including fiscal year 2045 and shall be determined under the projected unit credit actuarial cost method.

Each odd numbered year, the Commission on Government Forecasting and Accountability shall analyze data submitted by the Public Pension Division of the Illinois Department of Financial and Professional Regulation pertaining to the pension systems established under Article 3 and Article 4 of this Code. The Commission shall issue a formal report during such years, the content of which is, to the extent practicable, to be similar in nature to that required under Section 22-1003. In addition to providing aggregate analyses of both systems, the report shall analyze the fiscal status and provide forecasting projections for selected individual funds in each system. To the fullest extent practicable, the report shall analyze factors that affect each selected individual fund's unfunded liability and any actuarial gains and losses caused by salary increases, investment returns, employer contributions, benefit increases, change in assumptions, the difference in employer contributions and the normal cost plus interest, and any other applicable factors. In analyzing net investment returns, the report shall analyze the assumed investment return compared to the actual investment return over the preceding 10 fiscal years. The Public Pension Division of the Department of Financial and Professional Regulation shall provide to the Commission any assistance that the Commission may request with respect to its report under this Section.

(40 ILCS 15/1)

Sec. 1. Appropriations from State Pensions Fund. For the purpose of making up any deficiency in the appropriations to the designated retirement systems that are required to be made under Section 8.12 of the State Finance Act, there is hereby appropriated, on a continuing annual basis in each fiscal year, from the State Pensions Fund to each designated retirement system, the amount, if any, by which the total appropriation to that system from the State Pensions Fund for that fiscal year is less than the amount required to be appropriated to that retirement system under Section 8.12 of the State Finance Act.

The annual appropriation under this Section to each designated retirement system shall take effect on July 1 for the State fiscal year beginning on that date.

Sec. 110-4. Bailable Offenses.
(a) All persons shall be bailable before conviction, except the following offenses where the proof is evident or the presumption great that the defendant is guilty of the offense: capital offenses; offenses for which a sentence of life imprisonment may be imposed as a consequence of conviction; felony offenses for which a sentence of imprisonment, without conditional and revocable release, shall be imposed by law as a consequence of conviction, where the court after a hearing, determines that the release of the defendant would pose a real and present threat to the physical safety of any person or persons; stalking or aggravated stalking, where the court, after a hearing, determines that the release of the defendant would pose a real and present threat to the physical safety of the
alleged victim of the offense and denial of bail is necessary to prevent fulfillment of the threat upon which the charge is based; or unlawful use of weapons in violation of item (4) of subsection (a) of Section 24-1 of the Criminal Code of 1961 when that offense occurred in a school or in any conveyance owned, leased, or contracted by a school to transport students to or from school or a school-related activity, or on any public way within 1,000 feet of real property comprising any school, where the court, after a hearing, determines that the release of the defendant would pose a real and present threat to the physical safety of any person and denial of bail is necessary to prevent fulfillment of that threat; or making a terrorist threat in violation of Section 29D-20 of the Criminal Code of 1961 or an attempt to commit the offense of making a terrorist threat, where the court, after a hearing, determines that the release of the defendant would pose a real and present threat to the physical safety of any person and denial of bail is necessary to prevent fulfillment of that threat.

(b) A person seeking release on bail who is charged with a capital offense or an offense for which a sentence of life imprisonment may be imposed shall not be bailable until a hearing is held wherein such person has the burden of demonstrating that the proof of his guilt is not evident and the presumption is not great.

(c) Where it is alleged that bail should be denied to a person upon the grounds that the person presents a real and present threat to the physical safety of any person or persons, the burden of proof of such allegations shall be upon the State.

(d) When it is alleged that bail should be denied to a person charged with stalking or aggravated stalking upon the grounds set forth in Section 110-6.3 of this Code, the burden of proof of those allegations shall be upon the State.

(a) The person for whom bail has been set shall execute the bail bond and deposit with the clerk of the court before which the proceeding is pending a sum of money equal to 10% of the bail, but in no event shall such deposit be less than $25. The clerk of the court shall provide a space on each form for a person other than the accused who has provided the money for the posting of bail to so indicate and a space signed by an accused who has executed the bail bond indicating whether a person other than the accused has provided the money for the posting of bail. The form

shall also include a written notice to such person who has provided the defendant with the money for the posting of bail indicating that the bail may be used to pay costs, attorney's fees, fines, or other purposes authorized by the court and if the defendant fails to comply with the conditions of the bail bond, the court shall enter an order declaring the bail to be forfeited. The written notice must be: (1) distinguishable from the surrounding text; (2) in bold type or underscored; and (3) in a type size at least 2 points larger than the surrounding type. When a person for whom bail has been set is charged with an offense under the Illinois Controlled Substances Act or the Methamphetamine Control and Community Protection Act which is a Class X felony, or making a terrorist threat in violation of Section 29D-20 of the Criminal Code of 1961 or an attempt to commit the offense of making a terrorist threat, the court may require the defendant to deposit a sum equal to 100% of the bail. Where any person is charged with a forcible felony while free on bail and is the subject of proceedings under Section 109-3 of this Code the judge conducting the preliminary examination may also conduct a hearing upon the application of the State pursuant to the provisions of Section 110-6 of this Code to increase or revoke the bail for that person's prior alleged offense.

(b) Upon depositing this sum and any bond fee authorized by law, the person shall be released from custody subject to the conditions of the bail bond.

(c) Once bail has been given and a charge is pending or is thereafter filed in or transferred to a court of competent jurisdiction the latter court shall continue the original bail in that court subject to the provisions of Section 110-6 of this Code.

(d) After conviction the court may order that the original bail stand as bail pending appeal or deny, increase or reduce bail subject to the provisions of Section 110-6.2.

(e) After the entry of an order by the trial court allowing or denying bail pending appeal either party may apply to the reviewing court having jurisdiction or to a justice thereof sitting in vacation for an order increasing or decreasing the amount of bail or allowing or denying bail pending appeal subject to the provisions of Section 110-6.2.

(f) When the conditions of the bail bond have been performed and the accused has been discharged from all obligations in the cause the clerk of the court shall return to the accused or to the defendant's designee by an assignment executed at the time the bail amount is deposited, unless the court orders otherwise, 90% of the sum which had been deposited and

shall retain as bail bond costs 10% of the amount deposited. However, in no event shall the amount retained by the clerk as bail bond costs be less than $5. Bail bond deposited by or on behalf of a defendant in one case may be used, in the court's discretion, to satisfy financial obligations of that same defendant incurred in a different case due to a fine, court costs, restitution or fees of the defendant's attorney of record. In counties with a population of 3,000,000 or more, the court shall not order bail bond deposited by or on behalf of a defendant in one case to be used to satisfy financial obligations of that same defendant in a different case until the bail bond is first used to satisfy court costs and attorney's fees in the case in which the bail bond has been deposited and any other unpaid child support obligations are satisfied. In counties with a population of less than 3,000,000, the court shall not order bail bond deposited by or on behalf of a defendant in one case to be used to satisfy financial obligations of that same defendant in a different case until the bail bond is first used to satisfy court costs in the case in which the bail bond has been deposited.

At the request of the defendant the court may order such 90% of defendant's bail deposit, or whatever amount is repayable to defendant from such deposit, to be paid to defendant's attorney of record.

(g) If the accused does not comply with the conditions of the bail bond the court having jurisdiction shall enter an order declaring the bail to be forfeited. Notice of such order of forfeiture shall be mailed forthwith to the accused at his last known address. If the accused does not appear and surrender to the court having jurisdiction within 30 days from the date of the forfeiture or within such period satisfy the court that appearance and surrender by the accused is impossible and without his fault the court shall enter judgment for the State if the charge for which the bond was given was a felony or misdemeanor, or if the charge was quasi-criminal or traffic, judgment for the political subdivision of the State which prosecuted the case, against the accused for the amount of the bail and costs of the court proceedings; however, in counties with a population of less than 3,000,000, instead of the court entering a judgment for the full amount of the bond the court may, in its discretion, enter judgment for the cash deposit on the bond, less costs, retain the deposit for further disposition or, if a cash bond was posted for failure to appear in a matter involving enforcement of child support or maintenance, the amount of the cash deposit on the bond, less outstanding costs, may be awarded to the person or entity to whom the child support or maintenance is due. The deposit made in accordance with paragraph (a) shall be applied to the

payment of costs. If judgment is entered and any amount of such deposit remains after the payment of costs it shall be applied to payment of the judgment and transferred to the treasury of the municipal corporation wherein the bond was taken if the offense was a violation of any penal ordinance of a political subdivision of this State, or to the treasury of the county wherein the bond was taken if the offense was a violation of any penal statute of this State. The balance of the judgment may be enforced and collected in the same manner as a judgment entered in a civil action.

(h) After a judgment for a fine and court costs or either is entered in the prosecution of a cause in which a deposit had been made in accordance with paragraph (a) the balance of such deposit, after deduction of bail bond costs, shall be applied to the payment of the judgment.

provision for educational expenses extends not only to periods of college education or professional or other training after graduation from high school, but also to any period during which the child of the parties is still attending high school, even though he or she attained the age of 19. The educational expenses may include, but shall not be limited to, room, board, dues, tuition, transportation, books, fees, registration and application costs, medical expenses including medical insurance, dental expenses, and living expenses during the school year and periods of recess, which sums may be ordered payable to the child, to either parent, or to the educational institution, directly or through a special account or trust created for that purpose, as the court sees fit.

If educational expenses are ordered payable, each parent and the child shall sign any consents necessary for the educational institution to provide the supporting parent with access to the child's academic transcripts, records, and grade reports. The consents shall not apply to any non-academic records. Failure to execute the required consent may be a basis for a modification or termination of any order entered under this Section. Unless the court specifically finds that the child's safety would be jeopardized, each parent is entitled to know the name of the educational institution the child attends. This amendatory Act of the 95th General Assembly applies to all orders entered under this paragraph (2) on or after the effective date of this amendatory Act of the 95th General Assembly.

PUBLIC ACT 95-0955
(Senate Bill No. 2053)

AN ACT concerning courts.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:
Section 5. The Criminal Identification Act is amended by changing Section 5 as follows:

(20 ILCS 2630/5) (from Ch. 38, par. 206-5)
Sec. 5. Arrest reports; expungement.
(a) All policing bodies of this State shall furnish to the Department, daily, in the form and detail the Department requires, fingerprints and descriptions of all persons who are arrested on charges of violating any penal statute of this State for offenses that are classified as felonies and Class A or B misdemeanors and of all minors of the age of 10 and over who have been arrested for an offense which would be a felony if committed by an adult, and may forward such fingerprints and descriptions for minors arrested for Class A or B misdemeanors. Moving or nonmoving traffic violations under the Illinois Vehicle Code shall not be reported except for violations of Chapter 4, Section 11-204.1, or Section 11-501 of that Code. In addition, conservation offenses, as defined in the Supreme Court Rule 501(c), that are classified as Class B misdemeanors shall not be reported.

Whenever an adult or minor prosecuted as an adult, not having previously been convicted of any criminal offense or municipal ordinance violation, charged with a violation of a municipal ordinance or a felony or misdemeanor, is acquitted or released without being convicted, whether the acquittal or release occurred before, on, or after the effective date of this amendatory Act of 1991, the Chief Judge of the circuit wherein the charge was brought, any judge of that circuit designated by the Chief Judge, or in counties of less than 3,000,000 inhabitants, the presiding trial judge at the defendant's trial may upon verified petition of the defendant order the record of arrest expunged from the official records of the

arresting authority and the Department and order that the records of the clerk of the circuit court be sealed until further order of the court upon good cause shown and the name of the defendant obliterated on the official index required to be kept by the circuit court clerk under Section 16 of the Clerks of Courts Act, but the order shall not affect any index issued by the circuit court clerk before the entry of the order. The Department may charge the petitioner a fee equivalent to the cost of processing any order to expunge or seal the records, and the fee shall be deposited into the State Police Services Fund. The records of those arrests, however, that result in a disposition of supervision for any offense shall not be expunged from the records of the arresting authority or the Department nor impounded by the court until 2 years after discharge and dismissal of supervision. Those records that result from a supervision for a violation of Section 3-707, 3-708, 3-710, 5-401.3, or 11-503 of the Illinois Vehicle Code or a similar provision of a local ordinance, or for a violation of Section 12-3.2, 12-15 or 16A-3 of the Criminal Code of 1961, or probation under Section 10 of the Cannabis Control Act, Section 410 of the Illinois Controlled Substances Act, Section 70 of the Methamphetamine Control and Community Protection Act, Section 12-4.3(b)(1) and (2) of the Criminal Code of 1961 (as those provisions existed before their deletion by Public Act 89-313), Section 10-102 of the Illinois Alcoholism and Other Drug Dependency Act when the judgment of conviction has been vacated, Section 40-10 of the Alcoholism and Other Drug Abuse and Dependency Act when the judgment of conviction has been vacated, or Section 10 of the Steroid Control Act shall not be expunged from the records of the arresting authority nor impounded by the court until 5 years after termination of probation or supervision. Those records that result from a supervision for a violation of Section 11-501 of the Illinois Vehicle Code or a similar provision of a local ordinance, shall not be expunged. All records set out above may be ordered by the court to be expunged from the records of the arresting authority and impounded by the court after 5 years, but shall not be expunged by the Department, but shall, on court order be sealed by the Department and may be disseminated by the Department only as required by law or to the arresting authority, the State's Attorney, and the court upon a later arrest for the same or a similar offense or for the purpose of sentencing for any subsequent felony. Upon conviction for any offense, the Department of Corrections shall have access to all sealed records of the Department pertaining to that individual.

New matter indicated by italics - deletions by strikeout.
(a-5) Those records maintained by the Department for persons arrested prior to their 17th birthday shall be expunged as provided in Section 5-915 of the Juvenile Court Act of 1987.

(b) Whenever a person has been convicted of a crime or of the violation of a municipal ordinance, in the name of a person whose identity he has stolen or otherwise come into possession of, the aggrieved person from whom the identity was stolen or otherwise obtained without authorization, upon learning of the person having been arrested using his identity, may, upon verified petition to the chief judge of the circuit wherein the arrest was made, have a court order entered nunc pro tunc by the chief judge to correct the arrest record, conviction record, if any, and all official records of the arresting authority, the Department, other criminal justice agencies, the prosecutor, and the trial court concerning such arrest, if any, by removing his name from all such records in connection with the arrest and conviction, if any, and by inserting in the records the name of the offender, if known or ascertainable, in lieu of the aggrieved's name. The records of the clerk of the circuit court clerk shall be sealed until further order of the court upon good cause shown and the name of the aggrieved person obliterated on the official index required to be kept by the circuit court clerk under Section 16 of the Clerks of Courts Act, but the order shall not affect any index issued by the circuit court clerk before the entry of the order. Nothing in this Section shall limit the Department of State Police or other criminal justice agencies or prosecutors from listing under an offender's name the false names he or she has used. For purposes of this Section, convictions for moving and nonmoving traffic violations other than convictions for violations of Chapter 4, Section 11-204.1 or Section 11-501 of the Illinois Vehicle Code shall not be a bar to expunging the record of arrest and court records for violation of a misdemeanor or municipal ordinance.

(c) Whenever a person who has been convicted of an offense is granted a pardon by the Governor which specifically authorizes expungement, he may, upon verified petition to the chief judge of the circuit where the person had been convicted, any judge of the circuit designated by the Chief Judge, or in counties of less than 3,000,000 inhabitants, the presiding trial judge at the defendant's trial, may have a court order entered expunging the record of arrest from the official records of the arresting authority and order that the records of the clerk of the circuit court and the Department be sealed until further order of the court upon good cause shown or as otherwise provided herein, and the name of

the defendant obliterated from the official index requested to be kept by the circuit court clerk under Section 16 of the Clerks of Courts Act in connection with the arrest and conviction for the offense for which he had been pardoned but the order shall not affect any index issued by the circuit court clerk before the entry of the order. All records sealed by the Department may be disseminated by the Department only as required by law or to the arresting authority, the State's Attorney, and the court upon a later arrest for the same or similar offense or for the purpose of sentencing for any subsequent felony. Upon conviction for any subsequent offense, the Department of Corrections shall have access to all sealed records of the Department pertaining to that individual. Upon entry of the order of expungement, the clerk of the circuit court shall promptly mail a copy of the order to the person who was pardoned.

(c-5) Whenever a person has been convicted of criminal sexual assault, aggravated criminal sexual assault, predatory criminal sexual assault of a child, criminal sexual abuse, or aggravated criminal sexual abuse, the victim of that offense may request that the State's Attorney of the county in which the conviction occurred file a verified petition with the presiding trial judge at the defendant's trial to have a court order entered to seal the records of the clerk of the circuit court in connection with the proceedings of the trial court concerning that offense. However, the records of the arresting authority and the Department of State Police concerning the offense shall not be sealed. The court, upon good cause shown, shall make the records of the clerk of the circuit court in connection with the proceedings of the trial court concerning the offense available for public inspection.

(c-6) If a conviction has been set aside on direct review or on collateral attack and the court determines by clear and convincing evidence that the defendant was factually innocent of the charge, the court shall enter an expungement order as provided in subsection (b) of Section 5-5-4 of the Unified Code of Corrections.

(d) Notice of the petition for subsections (a), (b), and (c) shall be served by the clerk upon the State's Attorney or prosecutor charged with the duty of prosecuting the offense, the Department of State Police, the arresting agency and the chief legal officer of the unit of local government affecting the arrest. Unless the State's Attorney or prosecutor, the Department of State Police, the arresting agency or such chief legal officer objects to the petition within 30 days from the date of the notice, the court shall enter an order granting or denying the petition. The clerk of the court

shall promptly mail a copy of the order to the person, the arresting agency, the prosecutor, the Department of State Police and such other criminal justice agencies as may be ordered by the judge.

(e) Nothing herein shall prevent the Department of State Police from maintaining all records of any person who is admitted to probation upon terms and conditions and who fulfills those terms and conditions pursuant to Section 10 of the Cannabis Control Act, Section 410 of the Illinois Controlled Substances Act, Section 70 of the Methamphetamine Control and Community Protection Act, Section 12-4.3 of the Criminal Code of 1961, Section 10-102 of the Illinois Alcoholism and Other Drug Dependency Act, Section 40-10 of the Alcoholism and Other Drug Abuse and Dependency Act, or Section 10 of the Steroid Control Act.

(f) No court order issued under the expungement provisions of this Section shall become final for purposes of appeal until 30 days after notice is received by the Department. Any court order contrary to the provisions of this Section is void.

(g) Except as otherwise provided in subsection (c-5) of this Section, the court shall not order the sealing or expungement of the arrest records and records of the circuit court clerk of any person granted supervision for or convicted of any sexual offense committed against a minor under 18 years of age. For the purposes of this Section, "sexual offense committed against a minor" includes but is not limited to the offenses of indecent solicitation of a child or criminal sexual abuse when the victim of such offense is under 18 years of age.

(h) (1) Applicability. Notwithstanding any other provision of this Act to the contrary and cumulative with any rights to expungement of criminal records, this subsection authorizes the sealing of criminal records of adults and of minors prosecuted as adults.

(2) Sealable offenses. The following offenses may be sealed:

(A) All municipal ordinance violations and misdemeanors, with the exception of the following:

(i) violations of Section 11-501 of the Illinois Vehicle Code or a similar provision of a local ordinance;

(ii) violations of Article 11 of the Criminal Code of 1961 or a similar provision of a local ordinance, except Section 11-14 of the Criminal Code of 1961 as provided in clause B(i) of this subsection (h);

New matter indicated by italics - deletions by strikeout.
(iii) violations of Section 12-15, 12-30, or 26-5 of the Criminal Code of 1961 or a similar provision of a local ordinance;

(iv) violations that are a crime of violence as defined in Section 2 of the Crime Victims Compensation Act or a similar provision of a local ordinance;

(v) Class A misdemeanor violations of the Humane Care for Animals Act; and

(vi) any offense or attempted offense that would subject a person to registration under the Sex Offender Registration Act.

(B) Misdemeanor and Class 4 felony violations of:

(i) Section 11-14 of the Criminal Code of 1961;

(ii) Section 4 of the Cannabis Control Act;

(iii) Section 402 of the Illinois Controlled Substances Act; and

(iv) Section 60 of the Methamphetamine Control and Community Protection Act.

However, for purposes of this subsection (h), a sentence of first offender probation under Section 10 of the Cannabis Control Act, Section 410 of the Illinois Controlled Substances Act, or Section 70 of the Methamphetamine Control and Community Protection Act shall be treated as a Class 4 felony conviction.

(3) Requirements for sealing. Records identified as sealable under clause (h) (2) may be sealed when the individual was:

(A) Acquitted of the offense or offenses or released without being convicted.

(B) Convicted of the offense or offenses and the conviction or convictions were reversed.

(4) Requirements for sealing of records when more than one charge and disposition have been filed. When multiple offenses are petitioned to be sealed under this subsection (h), the requirements of the relevant provisions of clauses (h)(3)(A) through (D) each apply. In instances in which more than one waiting period is applicable under clauses (h)(C)(i) and (ii) and (h)(D)(i) and (ii), the longer applicable period applies, and the requirements of clause (h)(3) shall be considered met when the petition is filed after the passage of the longer applicable waiting period. That period commences on the date of the completion of the last sentence or the end of supervision, probation, or parole, whichever is last in time.

(5) Subsequent convictions. A person may not have subsequent felony conviction records sealed as provided in this subsection (h) if he or she is convicted of any felony offense after the date of the sealing of prior felony records as provided in this subsection (h).

(6) Notice of eligibility for sealing. Upon acquittal, release without conviction, or being placed on supervision for a sealable offense, or upon conviction of a sealable offense, the person shall be informed by the court of the right to have the records sealed and the procedures for the sealing of the records.

(7) Procedure. Upon becoming eligible for the sealing of records under this subsection (h), the person who seeks the sealing of his or her records shall file a petition requesting the sealing of records with the clerk of the court where the charge or charges were brought. (B) Drug test. A person filing a petition to have his or her records sealed for a Class 4 felony violation of Section 4 of the Cannabis Control Act or for a Class 4 felony violation of Section 402 of the Illinois Controlled Substances Act must attach to the petition proof that the petitioner has passed a test taken within the previous 30 days before the filing of the petition showing the absence within his or her body of all illegal substances in violation of either the Illinois Controlled Substances Act or the Cannabis Control Act.

(C) Service of petition. The clerk shall promptly serve a copy of the petition on the State's Attorney or prosecutor charged with the duty of prosecuting the offense, the Department of State Police, the arresting agency and the chief legal officer of the unit of local government effecting the arrest.

AN ACT concerning local government.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Fire Department Promotion Act is amended by changing Sections 20 and 50 as follows:

(50 ILCS 742/20)

Sec. 20. Promotion lists.

(a) For the purpose of granting a promotion to any rank to which this Act applies, the appointing authority shall from time to time, as necessary, prepare a preliminary promotion list in accordance with this Act. The preliminary promotion list shall be distributed, posted, or otherwise made conveniently available by the appointing authority to all members of the department.

(b) A person's position on the preliminary promotion list shall be determined by a combination of factors which may include any of the following: (i) the person's score on the written examination for that rank, determined in accordance with Section 35; (ii) the person's seniority within the department, determined in accordance with Section 40; (iii) the person's ascertained merit, determined in accordance with Section 45; and (iv) the person's score on the subjective evaluation, determined in accordance with Section 50. Candidates shall be ranked on the list in rank order based on the highest to the lowest total points scored on all of the components of the test. Promotional components, as defined herein, shall be determined and administered in accordance with the referenced Section, unless otherwise modified or agreed to as provided by paragraph (1) or (2) of subsection (d) (e) of Section 10. The use of physical criteria, including but not limited to fitness testing, agility testing, and medical evaluations, is specifically barred from the promotion process.

(c) A person on the preliminary promotion list who is eligible for a veteran's preference under the laws and agreements applicable to the department may file a written application for that preference within 10 days after the initial posting of the preliminary promotion list. The preference shall be calculated as provided under Section 55 and added to the total score achieved by the candidate on the test. The appointing authority shall then make adjustments to the rank order of the preliminary promotion list based on any veteran's preferences awarded. The final adjusted promotion list shall then be distributed, posted, or otherwise made conveniently available by the appointing authority to all members of the department.

(d) Whenever a promotional rank is created or becomes vacant due to resignation, discharge, promotion, death, or the granting of a disability or retirement pension, or any other cause, the appointing authority shall
appoint to that position the person with the highest ranking on the final promotion list for that rank, except that the appointing authority shall have the right to pass over that person and appoint the next highest ranked person on the list if the appointing authority has reason to conclude that the highest ranking person has demonstrated substantial shortcomings in work performance or has engaged in misconduct affecting the person's ability to perform the duties of the promoted rank since the posting of the promotion list. If the highest ranking person is passed over, the appointing authority shall document its reasons for its decision to select the next highest ranking person on the list. Unless the reasons for passing over the highest ranking person are not remediable, no person who is the highest ranking person on the list at the time of the vacancy shall be passed over more than once. Any dispute as to the selection of the first or second highest-ranking person shall be subject to resolution in accordance with any grievance procedure in effect covering the employee.

A vacancy shall be deemed to occur in a position on the date upon which the position is vacated, and on that same date, a vacancy shall occur in all ranks inferior to that rank, provided that the position or positions continue to be funded and authorized by the corporate authorities. If a vacated position is not filled due to a lack of funding or authorization and is subsequently reinstated, the final promotion list shall be continued in effect until all positions vacated have been filled or for a period up to 5 years beginning from the date on which the position was vacated. In such event, the candidate or candidates who would have otherwise been promoted when the vacancy originally occurred shall be promoted.

Any candidate may refuse a promotion once without losing his or her position on the final adjusted promotion list. Any candidate who refuses promotion a second time shall be removed from the final adjusted promotion list, provided that such action shall not prejudice a person's opportunities to participate in future promotion examinations.

(e) A final adjusted promotion list shall remain valid and unaltered for a period of not less than 2 nor more than 3 years after the date of the initial posting. Integrated lists are prohibited and when a list expires it shall be void, except as provided in subsection (d) of this Section. If a promotion list is not in effect, a successor list shall be prepared and distributed within 180 days after a vacancy, as defined in subsection (d) of this Section.

(f) This Section 20 does not apply to the initial hiring list.

Sec. 50. Subjective evaluation.

(a) A promotion test may include subjective evaluation components. Subjective evaluations may include an oral interview, tactical evaluation, performance evaluation, or other component based on subjective evaluation of the examinee. The methods used for subjective evaluations may include using any employee assessment centers, evaluation systems, chief's points, or other methods.

(b) Any subjective component shall be identified to all candidates prior to its application, be job-related, and be applied uniformly to all candidates. Every examinee shall have the right to documentation of his or her score on the subjective component upon the completion of the subjective examination component or its application. A designated representative of the contracting union party shall be notified and be entitled to be present to monitor any preliminary meeting between certified assessors or representatives of a testing agency and representatives of the appointing authority held prior to the administration of the test to candidates for promotion.

(c) Where chief's points or other subjective methods are employed that are not amenable to monitoring, monitors shall not be required, but any disputes as to the results of such methods shall be subject to resolution in accordance with any collectively bargained grievance procedure in effect at the time of the test.

(d) Where performance evaluations are used as a basis for promotions, they shall be given annually and made readily available to each candidate for review and they shall include any disagreement or documentation the employee provides to refute or contest the evaluation. These annual evaluations are not subject to grievance procedures, unless used for points in the promotion process.

(e) Total points awarded for subjective components shall be posted before the written examination is administered and before the promotion list is compiled.

(f) Persons selected to grade candidates for promotion during an assessment center process shall be impartial professionals who have undergone training to be certified assessors. The training and certification requirements shall, at a minimum, provide that, to obtain and maintain certification, assessors shall complete a course of basic training, subscribe to a code of ethical conduct, complete continuing education, and satisfy minimum activity levels.

New matter indicated by italics - deletions by strikeout.
(g) The standards for certification shall be established by a Joint Labor and Management Committee (JLMC) composed of 4 members: 2 designated by a statewide association whose membership is predominantly fire chiefs representing management interests of the Illinois fire service, and 2 designated by a statewide labor organization that is a representative of sworn or commissioned firefighters in Illinois. Members may serve terms of one year subject to reappointment.

For the purposes of this Section, the term "statewide labor organization" has the meaning ascribed to it in Section 10-3-12 of the Illinois Municipal Code.

In developing certification standards the JLMC may seek the advice and counsel of professionals and experts and may appoint an advisory committee.

The JLMC’s initial certification standards shall be submitted to the Office of the State Fire Marshal by January 1, 2009. The JLMC may provisionally certify persons who have prior experience as assessors on promotional examinations in the fire service. Effective January 1, 2010 only those persons who meet the certification standards developed by the JLMC and submitted to the Office of the State Fire Marshal may be selected to grade candidates on a subjective component of a promotional examination conducted under the authority of this Act; provided this requirement shall be waived for persons employed or appointed by the jurisdiction administering the examination.

The JLMC shall annually:

(1) issue public notice offering persons who are interested in qualifying as certified assessors the opportunity to enroll in training; and

(2) submit to the Office of the State Fire Marshal an amended list of persons who remain certified, are newly certified, or who are no longer certified.

(h) The Office of the State Fire Marshal shall support the program by adopting certification standards based on those submitted by the JLMC and by establishing a roster of certified assessors composed of persons certified by the JLMC.

If the parties have not agreed to contract with a particular testing company to provide certified assessors, either party may request the Office to provide the names of certified assessors. Within 7 days after receiving a request from either party for a list of certified assessors, the Office shall select at random from the roster of certified assessors a panel numbering

not less than 2 times the number of assessors required. The parties shall augment the number by a factor of 50% by designating assessors who may serve as alternates to the primary assessors.

The parties shall select assessors from the list or lists provided by the Office or from the panel obtained by the testing company as provided above. Within 7 days following the receipt of the list, the parties shall notify the Office of the assessors they have selected. Unless the parties agree on an alternate selection procedure, they shall alternatively strike names from the list provided by the Office until only the number of required assessors remain. A coin toss shall determine which party strikes the first name. If the parties fail to notify the Office in a timely manner of their selection of assessors, the Office shall appoint the assessors required from the roster of certified assessors. In the event an assessor is not able to participate in the assessment center process for which he was selected, either of the parties involved in the promotion process may request that additional names of certified assessors be provided by the Office.

as both a state political committee and a local political committee shall file a copy of each report with the State Board of Elections and the county clerk. Entities subject to Section 9-7.5 shall file reports required by that Section at times provided in this Section and are subject to the penalties provided in this Section.

(b) This subsection does not apply with respect to general primary elections. Reports of campaign contributions shall be filed no later than the 15th day next preceding each election in connection with which the political committee has accepted or is accepting contributions or has made or is making expenditures. Such reports shall be complete as of the 30th day next preceding each election. The Board shall assess a civil penalty not to exceed $5,000 for a violation of this subsection, except that for State officers and candidates and political committees formed for statewide office, the civil penalty may not exceed $10,000. The fine, however, shall not exceed $500 for a first filing violation for filing less than 10 days after the deadline. There shall be no fine if the report is mailed and postmarked at least 72 hours prior to the filing deadline. For the purpose of this subsection, "statewide office" and "State officer" means the Governor, Lieutenant Governor, Attorney General, Secretary of State, Comptroller, and Treasurer. However, a continuing political committee that does not make an expenditure or expenditures in an aggregate amount of more than excess of $500 on behalf of or in opposition to any (i) candidate or candidates, (ii) public question or questions, or (iii) candidate or candidates and public question or questions on the ballot at an election shall not be required to file the reports prescribed in this subsection (b) and subsection (b-5) but may file in lieu thereof a Statement of Nonparticipation in the Election with the Board or the Board and the county clerk; except that if the political committee, by the terms of its statement of organization filed in accordance with this Article, is organized to support or oppose a candidate or public question on the ballot at the next election or primary, that committee must file reports required by this subsection (b) and by subsection (b-5).

(b-5) Notwithstanding the provisions of subsection (b) and Section 1.25 of the Statute on Statutes, any contribution of more than $500 received (i) with respect to elections other than the general primary election, in the interim between the last date of the period covered by the last report filed under subsection (b) prior to the election and the date of the election or (ii) with respect to general primary elections, in the period beginning January 1 of the year of the general primary election and prior to

the date of the general primary election shall be filed with and must actually be received by the State Board of Elections within 2 business days after receipt of such contribution. A continuing political committee that does not support or oppose a candidate or public question on the ballot at a general primary election and does not make expenditures in excess of $500 on behalf of or in opposition to any candidate or public question on the ballot at the general primary election shall not be required to file the report prescribed in this subsection unless the committee makes an expenditure in excess of $500 on behalf of or in opposition to any candidate or public question on the ballot at the general primary election. The committee shall timely file the report required under this subsection beginning with the date the expenditure that triggered participation was made. The State Board shall allow filings of reports of contributions of more than $500 under this subsection (b-5) by political committees that are not required to file electronically to be made by facsimile transmission. For the purpose of this subsection, a contribution is considered received on the date the public official, candidate, or political committee (or equivalent person in the case of a reporting entity other than a political committee) actually receives it or, in the case of goods or services, 2 business days after the date the public official, candidate, committee, or other reporting entity receives the certification required under subsection (b) of Section 9-6. Failure to report each contribution is a separate violation of this subsection. In the final disposition of any matter by the Board on or after the effective date of this amendatory Act of the 93rd General Assembly, the Board may impose fines for violations of this subsection not to exceed 100% of the total amount of the contributions that were untimely reported, but in no case when a fine is imposed shall it be less than 10% of the total amount of the contributions that were untimely reported. When considering the amount of the fine to be imposed, the Board shall consider, but is not limited to, the following factors:

(1) whether in the Board’s opinion the violation was committed inadvertently, negligently, knowingly, or intentionally;
(2) the number of days the contribution was reported late;

and

(3) past violations of Sections 9-3 and 9-10 of this Article by the committee.

(c) In addition to such reports the treasurer of every political committee shall file semi-annual reports of campaign contributions and expenditures no later than July 20th, covering the period from January 1st
through June 30th immediately preceding, and no later than January 20th, covering the period from July 1st through December 31st of the preceding calendar year. Reports of contributions and expenditures must be filed to cover the prescribed time periods even though no contributions or expenditures may have been received or made during the period. The Board shall assess a civil penalty not to exceed $5,000 for a violation of this subsection, except that for State officers and candidates and political committees formed for statewide office, the civil penalty may not exceed $10,000. The fine, however, shall not exceed $500 for a first filing violation for filing less than 10 days after the deadline. There shall be no fine if the report is mailed and postmarked at least 72 hours prior to the filing deadline. For the purpose of this subsection, "statewide office" and "State officer" means the Governor, Lieutenant Governor, Attorney General, Secretary of State, Comptroller, and Treasurer.

(c-5) A political committee that acts as either (i) a State and local political committee or (ii) a local political committee and that files reports electronically under Section 9-28 is not required to file copies of the reports with the appropriate county clerk if the county clerk has a system that permits access to, and duplication of, reports that are filed with the State Board of Elections. A State and local political committee or a local political committee shall file with the county clerk a copy of its statement of organization pursuant to Section 9-3.

(d) A copy of each report or statement filed under this Article shall be preserved by the person filing it for a period of two years from the date of filing.

PUBLIC ACT 95-0959
(Senate Bill No. 2313)

AN ACT concerning safety.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:

New matter indicated by italics - deletions by strikeout.
Section 1. Short title. This Act may be cited as the Electronic Products Recycling and Reuse Act.

Section 5. Findings and purpose.
(a) The General Assembly finds all of the following:
   (1) Electronic products are the fastest growing portion of the solid waste stream. In 2005, 2,600,000 tons of electronic products became obsolete yet only 13% of those products were recycled.
   (2) Many electronic products contain lead, mercury, cadmium, hexavalent chromium, and other materials that pose environmental and health risks that must be managed.
   (3) Many obsolete electronic products can be recycled or refurbished for reuse and then returned to the economic mainstream in the form of raw materials or products.
   (4) Electronic products contain metals, plastics, and leaded glass that have resale value. The reuse of these components conserves natural resources and energy, and the reuse also reduces air and water pollution and greenhouse gas emissions.
   (5) A management is necessary to place the reuse and recycling of obsolete residential electronic products as the preferred management strategy over incineration and landfill disposal.
   (6) The Illinois Recycling Economic Information Study of 2001 estimates that the total economic impact of establishing statewide recycling and reuse programs for residential electronic products may result in the creation of nearly 4,000 new jobs and $740 million in annual receipts.
   (7) The State-appointed Computer Equipment Disposal and Recycling Commission issued a final report in May 2006 recommending legislative, regulatory, or other actions to properly address the recycling and reuse of obsolete residential electronic products.
(b) The purpose of this Act is to set forth procedures by which the recycling and processing for reuse of covered electronic devices will be accomplished in Illinois.

Human interface with a desktop computer is achieved through a stand-alone keyboard, stand-alone monitor, or other display unit, and a stand-alone mouse or other pointing device, and is designed for a single user. A desktop computer has a main unit that is intended to be persistently located in a single location, often on a desk or on the floor. A desktop computer is not designed for portability and generally utilizes an external monitor, keyboard, and mouse with an external or internal power supply for a power source. Desktop computer does not include an automated typewriter or typesetter; or

2. "Notebook computer", which means an electronic, magnetic, optical, electrochemical, or other high-speed data processing device performing logical, arithmetic, or storage functions for general purpose needs that are met through interaction with a number of software programs contained therein, and that is not designed to exclusively perform a specific type of logical, arithmetic, or storage function or other limited or

specialized application. Human interface with a notebook computer is achieved through a keyboard, video display greater than 4 inches in size, and mouse or other pointing device, all of which are contained within the construction of the unit that comprises the notebook computer; supplemental stand-alone interface devices typically can also be attached to the notebook computer. Notebook computers can use external, internal, or batteries for a power source. Notebook computer does not include a portable hand-held calculator, or a portable digital assistant or similar specialized device. A notebook computer has an incorporated video display greater than 4 inches in size and can be carried as one unit by an individual. A notebook computer is sometimes referred to as a laptop computer.

"Computer monitor" means an electronic device that is a cathode-ray tube or flat panel display primarily intended to display information from a computer and is used only in a residence.

"Covered electronic device" or "CED" means any computer, computer monitor, television, or printer that is taken out of service from a residence in this State regardless of purchase location. "Covered electronic device" does not include any of the following:

"Manufacturer" means a person, or a successor in interest to a person, under whose brand or label a CED is or was sold at retail. For CEDs sold at retail under a brand or label that is licensed from a person who is a mere brand owner and who does not sell or produce the CED, the person who produced the CED or his or her successor in interest is the manufacturer. For CEDs sold that were at retail under the brand or label of both the retail seller and the person that produced the CED, the person that produced the CED, or his or her successor in interest, is the manufacturer. A retail seller of CEDs may elect to be the manufacturer of one or more CEDs if the retail seller provides written notice to the Agency that it is accepting responsibility as the manufacturer of the CED under this Act and identifies the CEDs for which it is electing to be the manufacturer.

Printers do not include floor-standing printers, printers with optional floor stand, point of sale (POS) receipt printers, household printers such as a calculator with printing capabilities or label makers, or non-stand-alone printers that are embedded into products that are not CEDs.

"Processing for reuse" means any method, technique, or process by which CEDs or EEDs that would otherwise be disposed of or discarded are instead separated, processed, and returned to their original intended purposes or to other useful purposes as electronic devices.

"Program Year" means a calendar year. The first program year is 2010.

"Recycler" means a person who engages in the recycling of CEDs or EEDs, but does not include telecommunications carriers, telecommunications manufacturers, or commercial mobile service providers with an existing recycling program.

(j) By July 1, 2012, the Agency shall solicit written comments regarding all aspects of the program codified in this Act, for the purpose of determining if the program requires any modifications.

1. Issues to be reviewed by the Agency are, but not limited to, the following:
   A. Sufficiency of the annual statewide recycling goals.
   B. Fairness of the formulas used to determine individual manufacturer goals.
   C. Adequacy of, or the need for, continuation of the credits outlined in Section 30(d)(1) through (3).
   D. Any temporary rescissions of county landfill bans granted by the Illinois Pollution Control Board pursuant to Section 95(e).

Section 30. Manufacturer responsibilities.

(a) Prior to April 1, 2009 for the first program year, and by October 1 for program year 2011 and thereafter, manufacturers whose computers, computer monitors, printers, or televisions are sold in this State must register with the Agency. The registration must be submitted in the form and manner required by the Agency. The registration must include, without limitation, all of the following:

(1) a list of all of the manufacturer's brands of computers, computer monitors, printers, or televisions to be offered for sale in the next program year;

(2) for manufacturers of both televisions and computers, computer monitors, or printers, an identification of whether, for residential use, (i) televisions or (ii) computers, computer monitors, and printers, represent the larger number of units sold for the manufacturer; and

(3) a statement disclosing whether:

(A) any computer, computer monitor, printer, or television sold in this State exceeds the maximum concentration values established for lead, mercury, cadmium, hexavalent chromium, polybrominated biphenyls (PBBs), and polybrominated diphenyl ethers (PBDEEs) under the RoHS (restricting the use of certain hazardous

substances in electrical and electronic equipment) Directive 2002/95/EC of the European Parliament and Council and any amendments thereto and, if so, an identification of that computer, computer monitor, or television; or

(B) the manufacturer has received an exemption from one or more of those maximum concentration values under the RoHS Directive that has been approved and published by the European Commission.

If, during the program year, a manufacturer's computer, computer monitor, printer, or television is sold or offered for sale under a new brand that is not listed in the manufacturer's registration, then, within 30 days after the first sale or offer for sale under the new brand, the manufacturer must amend its registration to add the new brand.

(b) Prior to July 1, 2009 for the first program year, and by the November 1 preceding program years 2011 and later, all manufacturers whose computers, computer monitors, or televisions are sold in the State shall submit to the Agency, at an address prescribed by the Agency, the registration fee for the next program year. The registration fee for program year 2010 is $5,000.

For program years 2011 and later, the registration fee is increased each year by an inflation factor determined by the annual Implicit Price Deflator for Gross National Product, as published by the U.S. Department of Commerce in its Survey of Current Business. The inflation factor must be calculated each year by dividing the latest published annual Implicit Price Deflator for Gross National Product by the annual Implicit Price Deflator for Gross National Product for the previous year. The inflation factor must be rounded to the nearest 1/100th, and the resulting registration fee must be rounded to the nearest whole dollar. No later than October 1 of each program year, the Agency shall post on its website the registration fee for the next program year.

(c) A manufacturer whose computers, computer monitors, printers, or televisions are first sold or offered for sale in this State on or after January 1 of a program year must register with the Agency in accordance with subsection (a) of this Section and submit the registration fee required under subsection (b) of this Section prior to the manufacturer's computers, computer monitors, printers, or televisions being sold or offered for sale.

(d) Each manufacturer shall recycle or process for reuse CEDs and EEDs whose total weight equals or exceeds the manufacturer's individual recycling and reuse goal set forth in Section 19 of this Act. Individual
consumers may not be charged an end-of-life fee when bringing their CEDs and EEDs to permanent or temporary collection locations, unless a financial incentive of equal or greater value, such as a coupon, is provided. Collectors may charge a fee for premium services such as curbside collection, home pick-up, or a similar method of collection.

When determining whether a manufacturer has met or exceeded its individual recycling and reuse goal set forth in Section 19 of this Act, all of the following adjustments must be made:

(1) The total weight of CEDs processed for reuse by the manufacturer, its recyclers, or its refurbishers is doubled.

(2) The total weight of CEDs is tripled if they are donated for reuse by the manufacturer to a primary or secondary public education institution or to a not-for-profit entity that is established under Section 501(c)(3) of the Internal Revenue Code of 1986 and whose principal mission is to assist low-income children or families or to assist the developmentally disabled in Illinois. This subsection applies only to CEDs for which the manufacturer has received a written confirmation that the recipient has accepted the donation. Copies of all written confirmations must be submitted in the annual report required under Section 30.

(3) The total weight of CEDs collected by manufacturers free of charge in underserved counties is doubled. This subsection applies only to CEDs that are documented by collectors as being collected or received free of charge in underserved counties. This documentation must include, without limitation, the date and location of collection or receipt, the weight of the CEDs collected or received, and an acknowledgement by the collector that the CEDs were collected or received free of charge. Copies of the documentation must be submitted in the annual report required under subsection (h), (i), (j), (k), or (l) of Section 30.

(e) Manufacturers of computers, computer monitors, or printers, either individually or collectively, shall hire an independent third-party auditor to perform statistically significant return share samples of CEDs received by recyclers and refurbishers for recycling or processing for reuse. Each third-party auditor shall perform a return share sample of CEDs for at least one 8-hour period, once a quarter during the program year at the facility of each registered recycler and refurbisher under contract with the manufacturer or group of manufacturers that has hired the auditor. The audit shall contain the following data:

New matter indicated by italics - deletions by strikeout.
(1) the number and weight of CEDs, sorted by brand name and product type, including a category for orphan CEDs;
(2) the total weight of the sample by product type;
(3) the date, location, and time of the sampling;
(4) the name or names of the manufacturer for whom the recycler is performing activities under this Act; and
(5) a certification by the third-party auditor that the sampling is statistically significant and, if not, an explanation as to what occurred to render the sampling insignificant.

The manufacturer shall notify the Agency 30 days prior to the third-party auditor's return share sampling by providing the Agency with the time and date on which the third-party auditor will perform the return share sample. The Agency may, at its discretion, be present at any sampling event and may audit the methodology and the results of the third-party auditor.

No less than 30 days after the close of each calendar quarter, the manufacturer shall submit to the Agency the results of the third-party samplings conducted during the quarter. The results shall be submitted in the form and manner required by the Agency.

(f) Manufacturers shall ensure that only recyclers and refurbishers that have registered with the Agency are used to meet the individual recycling and reuse goals set forth in this Act.

(g) Manufacturers shall ensure that the recyclers and refurbishers used to meet the individual recycling and reuse goals set forth in this Act shall, at a minimum, comply with the standards set forth under subsection (d) of Section 50 of this Act.

(h) By August 15, 2009, television manufacturers shall submit to the Agency, in the form and manner required by the Agency, a report that contains the total weight of televisions sold under each of the manufacturer's brands to individuals at retail in this State, as set forth in the reports to manufacturers by retailers under subsection (c) of Section 40.

(i) No later than September 1, 2010, television manufacturers must submit to the Agency, in the form and manner required by the Agency, a report for the period January 1, 2010 through June 30, 2010 that contains the following information:

(1) the total weight of televisions sold under each of the manufacturer's brands to individuals at retail in this State, as set

(m) Manufacturers must develop and maintain a consumer education program that complements and corresponds to the primary retailer-driven campaign required under Section 40 of this Act. The education program shall promote the recycling of electronic products and proper end-of-life management of the products by consumers.

(n) Beginning January 1, 2010, no manufacturer may sell a computer, computer monitor, printer, or television in this State unless the manufacturer is registered with the State as required under this Act, has paid the required registration fee, and is otherwise in compliance with the provisions of this Act.

(o) Beginning January 1, 2010, no manufacturer may sell a computer, computer monitor, printer, or television in this State unless the manufacturer's brand name is permanently affixed to, and is readily visible on, the computer, computer monitor, printer, or television.

Section 40. Retailer responsibilities.

(a) Retailers shall be a primary source of information about end-of-life options to residential consumers of computers, computer monitors, printers, and televisions. At the time of sale, the retailer shall provide each residential consumer with information from the Agency's website that provides information detailing where and how a consumer can recycle a CED or return a CED for reuse.

(b) Beginning January 1, 2010, no retailer may sell or offer for sale any computer, computer monitor, printer, or television in or for delivery into this State unless:

(1) the computer, computer monitor, printer, or television is labeled with a brand and the label is permanently affixed and readily visible; and

New matter indicated by italics - deletions by strikeout.
(2) the manufacturer is registered with the Agency and has paid the required registration fee as required under Section 20 of this Act.

This subsection (b) does not apply to any computer, computer monitor, printer, or television that was purchased prior to January 1, 2010.

(c) By July 1, 2009, retailers shall report to each television manufacturer, by model, the number of televisions sold at retail to individuals in this State under each of the manufacturer's brands during the 6-month period from October 1, 2008 through March 31, 2009.

(d) By August 1, 2010, retailers shall report to each television manufacturer, by model, the number of televisions sold at retail to individuals in this State under each of the manufacturer's brands between January 1, 2010 and June 30, 2010.

(e) No later than February 15 of each program year, retailers shall report to each television manufacturer, by model, the number of televisions sold at retail to individuals in this State under each of the manufacturer's brands during the previous program year.

Section 50. Recycler and refurbisher registration.

(a) Prior to January 1 of each program year, each recycler and refurbisher must register with the Agency and submit a registration fee pursuant to subsection (b) for that program year. Registration must be on forms and in a format prescribed by the Agency and shall include, but not be limited to, the address of each location where the recycler or refurbisher manages CEDs or EEDs and identification of each location at which the recycler or refurbisher accepts CEDs or EEDs from a residence.

(b) The registration fee for program year 2010 is $2,000. For program years 2011 and thereafter, the registration fee is increased each year by an inflation factor determined by the annual Implicit Price Deflator for Gross National Product as published by the U.S. Department of Commerce in its Survey of Current Business. The inflation factor must be calculated each year by dividing the latest published annual Implicit Price Deflator for Gross National Product by the annual Implicit Price Deflator for Gross National Product for the previous year. The inflation factor must be rounded to the nearest 1/100th, and the resulting registration fee must be rounded to the nearest whole dollar. No later than October 1 of each program year, the Agency shall post on its website the registration fee for the next program year.

(c) No person may act as a recycler or a refurbisher of CEDs for a manufacturer obligated to meet goals under this Act unless the recycler or

refurbisher is registered and has paid the registration fee as required under this Section.

(d) Recyclers and refurbishers must, at a minimum, comply with all of the following:

(1) Recyclers and refurbishers must comply with federal, State, and local laws and regulations, including federal and State minimum wage laws, specifically relevant to the handling, processing, refurbishing and recycling of residential CEDs and must have proper authorization by all appropriate governing authorities to perform the handling, processing, refurbishment, and recycling.

(2) Recyclers and refurbishers must implement the appropriate measures to safeguard occupational and environmental health and safety, through the following:

(A) environmental health and safety training of personnel, including training with regard to material and equipment handling, worker exposure, controlling releases, and safety and emergency procedures;

(B) an up-to-date, written plan for the identification and management of hazardous materials; and

(C) an up-to-date, written plan for reporting and responding to exceptional pollutant releases, including emergencies such as accidents, spills, fires, and explosions.

(3) Recyclers and refurbishers must maintain (i) commercial general liability insurance or the equivalent corporate guarantee for accidents and other emergencies with limits of not less than $1,000,000 per occurrence and $1,000,000 aggregate and (ii) pollution legal liability insurance with limits not less than $1,000,000 per occurrence for companies engaged solely in the dismantling activities and $5,000,000 per occurrence for companies engaged in recycling.

(4) Recyclers and refurbishers must maintain on file documentation that demonstrates the completion of an environmental health and safety audit completed and certified by a competent internal and external auditor annually. A competent auditor is an individual who, through professional training or work experience, is appropriately qualified to evaluate the environmental health and safety conditions, practices, and procedures of the facility. Documentation of auditors' qualifications must be

available for inspection by Agency officials and third-party auditors.

(5) Recyclers and refurbishers must maintain on file proof of workers' compensation and employers' liability insurance.

(6) Recyclers and refurbishers must provide adequate assurance (such as bonds or corporate guarantee) to cover environmental and other costs of the closure of the recycler or refurbisher's facility, including cleanup of stockpiled equipment and materials.

(7) Recyclers and refurbishers must apply due diligence principles to the selection of facilities to which components and materials (such as plastics, metals, and circuit boards) from CEDs and EEDs are sent for reuse and recycling.

(8) Recyclers and refurbishers must establish a documented environmental management system that is appropriate in level of detail and documentation to the scale and function of the facility, including documented regular self-audits or inspections of the recycler or refurbisher's environmental compliance at the facility.

(9) Recyclers and refurbishers must use the appropriate equipment for the proper processing of incoming materials as well as controlling environmental releases to the environment. The dismantling operations and storage of CED and EED components that contain hazardous substances must be conducted indoors and over impervious floors. Storage areas must be adequate to hold all processed and unprocessed inventory. When heat is used to soften solder and when CED and EED components are shredded, operations must be designed to control indoor and outdoor hazardous air emissions.

(10) Recyclers and refurbishers must establish a system for identifying and properly managing components (such as circuit boards, batteries, CRTs, and mercury phosphor lamps) that are removed from CEDs and EEDs during disassembly. Recyclers and refurbishers must properly manage all hazardous and other components requiring special handling from CEDs and EEDs consistent with federal, State, and local laws and regulations. Recyclers and refurbishers must provide visible tracking (such as hazardous waste manifests or bills of lading) of hazardous components and materials from the facility to the destination facilities and documentation (such as contracts) stating how the

New matter indicated by italics - deletions by strikeout.
destination facility processes the materials received. No recycler or refurbisher may send, either directly or through intermediaries, hazardous wastes to solid waste (non-hazardous waste) landfills or to non-hazardous waste incinerators for disposal or energy recovery. For the purpose of these guidelines, smelting of hazardous wastes to recover metals for reuse in conformance with all applicable laws and regulations is not considered disposal or energy recovery.

(11) Recyclers and refurbishers must use a regularly implemented and documented monitoring and record-keeping program that tracks inbound CED and EED material weights (total) and subsequent outbound weights (total to each destination), injury and illness rates, and compliance with applicable permit parameters including monitoring of effluents and emissions. Recyclers and refurbishers must maintain contracts or other documents, such as sales receipts, suitable to demonstrate: (i) the reasonable expectation that there is a downstream market or uses for designated electronics (which may include recycling or reclamation processes such as smelting to recover metals for reuse); and (ii) that any residuals from recycling or reclamation processes, or both, are properly handled and managed to maximize reuse and recycling of materials to the extent practical.

(12) Recyclers and refurbishers must comply with federal and international law and agreements regarding the export of used products or materials. In the case of exports of CEDs and EEDs, recyclers and refurbishers must comply with applicable requirements of the U.S. and of the import and transit countries and must maintain proper business records documenting its compliance. No recycler or refurbisher may establish or use intermediaries for the purpose of circumventing these U.S. import and transit country requirements.

(13) Recyclers and refurbishers that conduct transactions involving the transboundary shipment of used CEDs and EEDs shall use contracts (or the equivalent commercial arrangements) made in advance that detail the quantity and nature of the materials to be shipped. For the export of materials to a foreign country (directly or indirectly through downstream market contractors): (i) the shipment of intact televisions and computer monitors destined for reuse must include only whole products that are tested and

New matter indicated by italics - deletions by strikeout.
certified as being in working order or requiring only minor repair (e.g. not requiring the replacement of circuit boards or CRTs), must be destined for reuse with respect to the original purpose, and the recipient must have verified a market for the sale or donation of such product for reuse; (ii) the shipments of CEDs and EEDs for material recovery must be prepared in a manner for recycling, including, without limitation, smelting where metals will be recovered, plastics recovery and glass-to-glass recycling; or (iii) the shipment of CEDs and EEDs are being exported to companies or facilities that are owned or controlled by the original equipment manufacturer.

(14) Recyclers and refurbishers must maintain the following export records for each shipment on file for a minimum of 3 years: (i) the facility name and the address to which shipment is exported; (ii) the shipment contents and volumes; (iii) the intended use of contents by the destination facility; (iv) any specification required by the destination facility in relation to shipment contents; (v) an assurance that all shipments for export, as applicable to the CED manufacturer, are legal and satisfy all applicable laws of the destination country.

(15) Recyclers and refurbishers must employ industry-accepted procedures for the destruction or sanitization of data on hard drives and other data storage devices. Acceptable guidelines for the destruction or sanitization of data are contained in the National Institute of Standards and Technology's Guidelines for Media Sanitation or those guidelines certified by the National Association for Information Destruction;

(16) No recycler or refurbisher may employ prison labor in any operation related to the collection, transportation, recycling, and refurbishment of CEDs and EEDs. No recycler or refurbisher may employ any third party that uses or subcontracts for the use of prison labor.

Section 55. Collector responsibilities.
(a) No later than January 1 of each program year, collectors that collect or receive CEDs or EEDs for one or more manufacturers, recyclers, or refurbishers shall register with the Agency. Registration must be in the form and manner required by the Agency and must include, without limitation, the address of each location where CEDs or EEDs are received.
and the identification of each location at which the collector accepts CEDs or EEDs from a residence.

(b) Manufacturers, recyclers, refurbishers also acting as collectors shall so indicate on their registration under Section 30 or 50 and not register separately as collectors.

(c) No later than August 15, 2010, collectors must submit to the Agency, on forms and in a format prescribed by the Agency, a report for the period from January 1, 2010 through June 30, 2010 that contains the following information: the total weight of computers, the total weight of computer monitors, the total weight of televisions, and the total weight of EEDs collected or received for each manufacturer.

2. a list of each recycler and refurbisher that received CEDs and EEDs from the collector and the total weight each recycler and refurbisher received.

3. the address of each collector's facility where the CEDs and EEDs were collected or received. Each facility address must include the county in which the facility is located.

(e) Collectors may accept no more than 10 CEDs or EEDs at one time from individual members of the public and, when scheduling collection events, shall provide no fewer than 30 days' notice to the county waste agency of those events.

Section 60. Collection strategy for underserved counties.

(a) For program year 2010, all counties in this State except the following are considered underserved: Champaign, Clay, Clinton, Cook, DuPage, Fulton, Hancock, Henry, Jackson, Kane, Kendall, Knox, Lake, Livingston, Macoupin, McDonough, McHenry, McLean, Mercer, Peoria, Rock Island, St. Clair, Sangamon, Schuyler, Stevenson, Warren, Will, Williamson, and Winnebago.

(b) For program years 2011 and later, underserved counties shall be counties in this State that, during the program year 2 years prior, were not served by a minimum of one collection site that (i) accepted all types of
CEDs and EEDs and (ii) was open for a minimum of 8 hours on at least one day per month of that program year. For the purposes of this subsection (b), 2009 shall be considered to have been a program year, and for the program year 2012 the determination of whether a county is underserved shall be based on the criteria of this subsection (b) instead of the county's inclusion in the list set forth in subsection (a) of this Section.

Section 65. State government procurement.

(a) The Department of Central Management Services shall ensure that all bid specifications and contracts for the purchase or lease of desktop computers, laptop or notebook computers, and computer monitors, by State agencies under a statewide master contract require that the electronic products have a Bronze performance tier or higher registration under the Electronic Product Environmental Assessment Tool ("EPEAT") operated by the Green Electronics Council.

(b) The Department of Central Management Services shall ensure that bid specifications and contracts for the purchase or lease of televisions and printers by State agencies under a statewide master contract require that the televisions have a Bronze performance tier or higher registration under EPEAT if the Department determines that there are an adequate number of the televisions registered under EPEAT to provide a sufficiently competitive bidding environment.

(c) This Section applies to bid specifications issued, and contracts entered into, on or after January 1, 2010.

Section 70. Relation to federal law. Following the adoption of a federal law or regulation that establishes mandated recycling goals for CEDs that equal or exceed the goals set forth in this Act, the Agency shall notify the General Assembly of the federal law or regulation and recommend the repeal of this Act.

Section 75. Severability. The provisions of this Act are severable under Section 1.31 of the Statute on Statutes.

Section 80. Penalties.

(a) Except as otherwise provided in this Act, any person who violates any provision of this Act or fails to perform any duty under this Act is liable for a civil penalty not to exceed $1,000 for the violation and an additional civil penalty not to exceed $1,000 for each day the violation continues and is liable for a civil penalty not to exceed $5,000 for a second or subsequent violation and an additional civil penalty not to exceed $1,000 for each day the second or subsequent violation continues.

New matter indicated by italics - deletions by strikeout.
(b) A manufacturer that is not registered with the Agency as required under this Act, or that has not paid the registration fee as required under this Act, is liable for a civil penalty not to exceed $10,000 for the violation and an additional civil penalty not to exceed $10,000 for each day the violation continues.

(c) A manufacturer in violation of subsection (d) of Section 30 of this Act in program year 2012 or thereafter is liable for a civil penalty equal to the following:

1. In program year 2012, if the total weight of CEDs and EEDs recycled or processed for reuse by the manufacturer is less than 60% of the manufacturer's individual recycling or reuse goal set forth in Section 19 of this Act, the manufacturer shall pay a penalty equal to the product of: (i) $0.70 per pound; multiplied by (ii) the difference between the manufacturer's individual recycling or reuse goal and the total weight of CEDs and EEDs recycled or processed for reuse by the manufacturer during the program year.

2. In program year 2013, and each year thereafter, if the total weight of CEDs and EEDs recycled or processed for reuse by the manufacturer less than 75% of the manufacturer's individual recycling or reuse goal set forth in Section 19 of this Act, the manufacturer shall pay a penalty equal to the product of: (i) $0.70 per pound; multiplied by (ii) the difference between the manufacturer's individual recycling or reuse goal and the total weight of CEDs and EEDs recycled or processed for reuse by the manufacturer during the program year.

(d) Beginning January 1, 2010, a manufacturer in violation of subsection (e), (h), (i), (j), (k), or (l) of Section 30 is liable for a civil penalty not to exceed $5,000 for the violation.

Any moneys collected under this Section in which the Attorney General has prevailed may be deposited into the Electronic Recycling Fund, established under this Act.

(h) The Attorney General, at the request of the Agency or on his or her own motion, may institute a civil action for an injunction, prohibitory
or mandatory, to restrain violations of this Act or to require such actions as may be necessary to address violations of this Act.

(i) The penalties and injunctions provided in this Act are in addition to any penalties, injunctions, or other relief provided under any other law. Nothing in this Act bars a cause of action by the State for any other penalty, injunction, or relief provided by any other law.

Section 85. Electronics Recycling Fund. The Electronics Recycling Fund is created as a special fund in the State treasury. The Agency shall deposit all registration fees received under this Act into the Fund. All amounts held in the Fund shall be invested at interest by the State Treasurer. All income earned from the investments shall be deposited into the Electronics Recycling Fund no less frequently than quarterly. Pursuant to appropriation, all moneys in the Electronics Recycling Fund may be used by the Agency for its administration of this Act. Any moneys appropriated from the Electronics Recycling Fund, but not obligated, shall revert to the Fund.

Section 95. Landfill ban.

(a) Except as may be provided pursuant to subsection (e) of this Section, and beginning January 1, 2012, no person may knowingly cause or allow the mixing of a CED, or any other computer, computer monitor, printer, or television with municipal waste that is intended for disposal at a landfill.

(b) Except as may be provided pursuant to subsection (e) of this Section, and beginning January 1, 2012, no person may knowingly cause or allow the disposal of a CED or any other computer, computer monitor, printer, or television in a sanitary landfill.

municipal joint action agencies (action agencies) and determine whether the respective county's or action agency's jurisdiction may be granted a temporary CED landfill ban waiver due to a lack of funds and a lack of collection opportunities to collect CEDs and EEDs within the county's or action agency's jurisdiction. If the Board grants a waiver under this subsection (e), subsections (a) and (b) of this Section shall not apply to CEDs and EEDs that are taken out of service from residences within the jurisdiction of the county or action agency receiving the waiver and disposed of during the remainder of the program year in which the petition is filed.

(1) The petition from the county or action agency shall include the following:

   (A) documentation of the county's or action agency's attempts to gain funding, as well as the total funding obtained, for the collection of CEDs and EEDs in its jurisdiction from manufacturers or other units of government in the State; and

   (B) an assessment of other collection opportunities in the county's or action agency's jurisdiction demonstrating insufficient capacity for the anticipated volume of CEDs and EEDs for the remainder of the program year in which the petition is being filed.

(2) In addition to the criteria listed in item (1), the Board shall consider the following additional criteria when reviewing a petition:

   (A) total weight of CEDs and EEDs collected in the county's or action agency's jurisdiction during all preceding program years;

   (B) total weight of CEDs and EEDs collected in the county's or action agency's jurisdiction during the year in which the petition is filed; and

   (C) the projected difference in weight between prior program years and the year in which the petition is filed.

(3) Within 60 days after the filing of the petition with the Board, the Board shall determine, based on the criteria in items (1) and (2), whether a temporary CED landfill ban waiver shall be granted to the respective county or action agency for the remainder of the program year in which the petition is filed. The Board's decision to grant such a waiver shall be based upon a showing by
clear and convincing evidence that a county or action agency has a lack of funds and its respective jurisdiction lacks sufficient collection opportunities to collect CEDs and EEDs. If the Board denies the petition for a landfill ban waiver, the Board's order shall be final and immediately appealable to the circuit court having jurisdiction over the petitioner.

(4) Within 5 days after granting a temporary CED landfill ban waiver, the Board shall provide written notice to the Agency of the Board's decision. The notice shall be provided at least 15 days prior to the waiver taking effect.

(5) Any county or action agency granted a temporary CED landfill ban waiver shall, within 7 days after receiving the waiver, inform all solid waste haulers and landfill operators used by the county or action agency for solid waste disposal that a waiver has been granted for the remainder of the program year. The notification shall be provided to the solid waste haulers and landfill operators at least 15 days prior to the waiver taking effect.

(6) Between April 1, 2012 and December 31, 2013, if a temporary CED landfill ban waiver has been granted to a petitioner, no person disposing of a CED shall be subject to any enforcement proceeding unless he or she disposes of the CED with knowledge that the CED is from a county or action agency that has not received a temporary CED landfill ban waiver.

Section 5. Purpose. The purpose of this Act is to promote the recognition of the importance of the participation of both parents in the lives of their children. While social policy and practice have often focused on the difficulties of raising a child in a single parent family and have often created barriers to the involvement of both parents in their child's life, the purpose of this Act is to promote a social policy and practice that values the contribution that each parent brings to the family unit.

Section 10. Fatherhood initiative.

(a) The purpose of this Act shall be implemented through a fatherhood initiative located within the Department of Human Services and directed by the Council on Responsible Fatherhood created by this Act.

The fatherhood initiative must promote positive interaction between fathers and their children. While the emphasis of the program must be on the population of children whose families have received or are receiving public assistance, the program may not exclude other populations of children for which the program is appropriate.

Sec. 15-1505.5. Payoff demands.
(a) In a foreclosure action subject to this Article, on the written demand of a mortgagor or the mortgagor's authorized agent (which shall include the mortgagor's name, the mortgaged property's address, and the mortgage account or loan number), a mortgagee or the mortgagee's authorized agent shall prepare and deliver an accurate statement of the total outstanding balance of the mortgagor's obligation that would be required to satisfy the obligation in full as of the date of preparation ("payoff demand statement") to the mortgagor or the mortgagor's authorized agent who has requested it within 10 business days after receipt of the demand. For purposes of this Section, a payoff demand statement is accurate if prepared in good faith based on the records of the mortgagee or the mortgagee's agent.
(b) The payoff demand statement shall include the following:
   (1) the information necessary to calculate the payoff amount on a per diem basis for the lesser of a period of 30 days or until the date scheduled for judicial sale;

(c) A mortgagee or mortgagee's agent who willfully fails to prepare and deliver an accurate payoff demand statement within 10 business days after receipt of a written demand is liable to the mortgagor for actual damages sustained for failure to deliver the statement. The mortgagee or mortgagee's agent is liable to the mortgagor for $500 if no actual damages are sustained. For purposes of this subsection, "willfully" means a failure to comply with this Section without just cause or excuse or mitigating circumstances.

(d) The mortgagor must petition the judge within the foreclosure action for the award of any damages pursuant to this Section, which award shall be determined by the judge.

(e) Unless the payoff demand statement provides otherwise, the statement is deemed to apply only to the unpaid balance of the single obligation that is named in the demand and that is secured by the mortgage or deed of trust identified in the payoff demand statement.

(f) The demand for and preparation and delivery of a payoff demand statement pursuant to this Section does not change any date or time period that is prescribed in the note or that is otherwise provided by law. Failure to comply with any provision of this Section does not change any of the rights of the parties as set forth in the note, mortgage, or applicable law.

(g) The mortgagee or mortgagee's agent shall furnish the first payoff demand statement at no cost to the mortgagor.

(h) For the purposes of this Section, unless the context otherwise requires, "deliver" or "delivery" means depositing or causing to be deposited into the United States mail an envelope with postage prepaid that contains a copy of the documents to be delivered and that is addressed to the person whose name and address are provided in the payoff demand. "Delivery" may also include transmitting those documents by telephone facsimile to the person or electronically if the payoff demand specifically requests and authorizes that the documents be transmitted in electronic form.

(i) The mortgagee or mortgagee's agent is not required to comply with the payoff demand statement procedure set forth in this Section when responding to a notice of intent to redeem issued under Section 15-1603(e).

A defendant who exercises the defendant's right of reinstatement or redemption shall not be considered a prevailing party for purposes of this Section. Nothing in this subsection shall abrogate contractual terms in the mortgage or other written agreement between the mortgagor and the mortgagee or rights as otherwise provided in this Article which allow the mortgagee to recover attorney's fees and costs under subsection (b).

(b) Attorneys' fees and other costs incurred in connection with the preparation, filing or prosecution of the foreclosure suit shall be recoverable in a foreclosure only to the extent specifically set forth in the mortgage or other written agreement between the mortgagor and the mortgagee or as otherwise provided in this Article.

(2) Prior to initiating a civil action, the Attorney General shall conduct a preliminary investigation to determine whether there is reasonable cause to believe that any person or group of
persons is engaged in a pattern and practice of discrimination declared unlawful by this Act and whether the dispute can be resolved without litigation. In conducting this investigation, the Attorney General may:

(b) by mailing by certified mail a duly executed copy thereof to the person to be served at his or her last known abode or principal place of business within this State.

(4) In lieu of a civil action, the individual or entity alleged to have engaged in a pattern or practice of discrimination deemed violative of this Act may enter into an Assurance of Voluntary Compliance with respect to the alleged pattern or practice violation.

(5) The Illinois Attorney General may commence a civil action under this subsection (A) whether or not a charge has been filed under Sections 7A-102 or 7B-102 and without regard to the status of any charge, however, if the Department or local agency has obtained a conciliation or settlement agreement or if the parties have entered into an Assurance of Voluntary Compliance no action may be filed under this subsection (A) with respect to the alleged civil rights violation practice that forms the basis for the complaint except for the purpose of enforcing the terms of the conciliation or settlement agreement or the terms of the Assurance of Voluntary Compliance.

New matter indicated by italics - deletions by strikeout.
(6) If any person fails or refuses to file any statement or report, or obey any subpoena, issued pursuant to subdivision (A)(2) of this Section, the Attorney General will be deemed to have met the requirement of conducting a preliminary investigation and may proceed to initiate a civil action pursuant to subdivision (A)(1) of this Section.

(B) Relief which may be granted.

(1) In any civil action brought pursuant to subsection (A) of this Section, the Attorney General may obtain as a remedy, equitable relief (including any permanent or preliminary injunction, temporary restraining order, or other order, including an order enjoining the defendant from engaging in such civil rights violation or ordering any action as may be appropriate). In addition, the Attorney General may request and the Court may impose a civil penalty to vindicate the public interest:

   (a) for violations of Article 3 and Article 4 in an amount not exceeding $25,000 per violation, and in the case of violations of all other Articles in an amount not exceeding $10,000 if the defendant has not been adjudged to have committed any prior civil rights violations under the provision of the Act that is the basis of the complaint;

   (b) for violations of Article 3 and Article 4 in an amount not exceeding $50,000 per violation, and in the case of violations of all other Articles in an amount not exceeding $25,000 if the defendant has been adjudged to have committed one other civil rights violation under the provision of the Act within 5 years of the occurrence of the civil rights violation that is the basis of the complaint; and

   (c) for violations of Article 3 and Article 4 in an amount not exceeding $75,000 per violation, and in the case of violations of all other Articles in an amount not exceeding $50,000 if the defendant has been adjudged to have committed 2 or more civil rights violations under the provision of the Act within 5 years of the occurrence of the civil rights violation that is the basis of the complaint.

(2) A civil penalty imposed under subdivision (B)(1) of this Section shall be deposited into the Attorney General Court Ordered and Voluntary Compliance Payment Projects Fund, which is a special fund in the State Treasury. Moneys in the Fund shall be

Effective January 1, 2009.
AN ACT concerning local government.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Illinois Municipal Code is amended by changing Sections 11-74.4-3 and 11-74.4-7 and by adding Section 11-74.4-3.5 as follows:

(65 ILCS 5/11-74.4-3) (from Ch. 24, par. 11-74.4-3)

Sec. 11-74.4-3. Definitions. The following terms, wherever used or referred to in this Division 74.4 shall have the following respective meanings, unless in any case a different meaning clearly appears from the context.

(a) For any redevelopment project area that has been designated pursuant to this Section by an ordinance adopted prior to November 1, 1999 (the effective date of Public Act 91-478), "blighted area" shall have the meaning set forth in this Section prior to that date.

On and after November 1, 1999, "blighted area" means any improved or vacant area within the boundaries of a redevelopment project area located within the territorial limits of the municipality where:

(1) If improved, industrial, commercial, and residential buildings or improvements are detrimental to the public safety, health, or welfare because of a combination of 5 or more of the following factors, each of which is (i) present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) reasonably distributed throughout the improved part of the redevelopment project area:

(A) Dilapidation. An advanced state of disrepair or neglect of necessary repairs to the primary structural components of buildings or improvements in such a combination that a documented building condition analysis determines that major repair is required or the defects are so serious and so extensive that the buildings must be removed.

(B) Obsolescence. The condition or process of falling into disuse. Structures have become ill-suited for the original use.

New matter indicated by italics - deletions by strikeout.
(C) Deterioration. With respect to buildings, defects including, but not limited to, major defects in the secondary building components such as doors, windows, porches, gutters and downspouts, and fascia. With respect to surface improvements, that the condition of roadways, alleys, curbs, gutters, sidewalks, off-street parking, and surface storage areas evidence deterioration, including, but not limited to, surface cracking, crumbling, potholes, depressions, loose paving material, and weeds protruding through paved surfaces.

(D) Presence of structures below minimum code standards. All structures that do not meet the standards of zoning, subdivision, building, fire, and other governmental codes applicable to property, but not including housing and property maintenance codes.

(E) Illegal use of individual structures. The use of structures in violation of applicable federal, State, or local laws, exclusive of those applicable to the presence of structures below minimum code standards.

(F) Excessive vacancies. The presence of buildings that are unoccupied or under-utilized and that represent an adverse influence on the area because of the frequency, extent, or duration of the vacancies.

(G) Lack of ventilation, light, or sanitary facilities. The absence of adequate ventilation for light or air circulation in spaces or rooms without windows, or that require the removal of dust, odor, gas, smoke, or other noxious airborne materials. Inadequate natural light and ventilation means the absence of skylights or windows for interior spaces or rooms and improper window sizes and amounts by room area to window area ratios. Inadequate sanitary facilities refers to the absence or inadequacy of garbage storage and enclosure, bathroom facilities, hot water and kitchens, and structural inadequacies preventing ingress and egress to and from all rooms and units within a building.

(H) Inadequate utilities. Underground and overhead utilities such as storm sewers and storm drainage, sanitary sewers, water lines, and gas, telephone, and electrical...
services that are shown to be inadequate. Inadequate utilities are those that are: (i) of insufficient capacity to serve the uses in the redevelopment project area, (ii) deteriorated, antiquated, obsolete, or in disrepair, or (iii) lacking within the redevelopment project area.

(I) Excessive land coverage and overcrowding of structures and community facilities. The over-intensive use of property and the crowding of buildings and accessory facilities onto a site. Examples of problem conditions warranting the designation of an area as one exhibiting excessive land coverage are: (i) the presence of buildings either improperly situated on parcels or located on parcels of inadequate size and shape in relation to present-day standards of development for health and safety and (ii) the presence of multiple buildings on a single parcel. For there to be a finding of excessive land coverage, these parcels must exhibit one or more of the following conditions: insufficient provision for light and air within or around buildings, increased threat of spread of fire due to the close proximity of buildings, lack of adequate or proper access to a public right-of-way, lack of reasonably required off-street parking, or inadequate provision for loading and service.

(J) Deleterious land use or layout. The existence of incompatible land-use relationships, buildings occupied by inappropriate mixed-uses, or uses considered to be noxious, offensive, or unsuitable for the surrounding area.

(K) Environmental clean-up. The proposed redevelopment project area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

New matter indicated by italics - deletions by strikeout.
(L) Lack of community planning. The proposed redevelopment project area was developed prior to or without the benefit or guidance of a community plan. This means that the development occurred prior to the adoption by the municipality of a comprehensive or other community plan or that the plan was not followed at the time of the area's development. This factor must be documented by evidence of adverse or incompatible land-use relationships, inadequate street layout, improper subdivision, parcels of inadequate shape and size to meet contemporary development standards, or other evidence demonstrating an absence of effective community planning.

(M) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated.

(2) If vacant, the sound growth of the redevelopment project area is impaired by a combination of 2 or more of the following factors, each of which is (i) present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) reasonably distributed throughout the vacant part of the redevelopment project area to which it pertains:

(A) Obsolete platting of vacant land that results in parcels of limited or narrow size or configurations of parcels of irregular size or shape that would be difficult to develop on a planned basis and in a manner compatible with contemporary standards and requirements, or platting that failed to create rights-of-ways for streets or alleys or that created inadequate right-of-way widths for streets,

alleys, or other public rights-of-way or that omitted easements for public utilities.

(B) Diversity of ownership of parcels of vacant land sufficient in number to retard or impede the ability to assemble the land for development.

(C) Tax and special assessment delinquencies exist or the property has been the subject of tax sales under the Property Tax Code within the last 5 years.

(D) Deterioration of structures or site improvements in neighboring areas adjacent to the vacant land.

(E) The area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

(F) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated.

(3) If vacant, the sound growth of the redevelopment project area is impaired by one of the following factors that (i) is present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) is reasonably

distributed throughout the vacant part of the redevelopment project area to which it pertains:

(A) The area consists of one or more unused quarries, mines, or strip mine ponds.

(B) The area consists of unused rail yards, rail tracks, or railroad rights-of-way.

(C) The area, prior to its designation, is subject to (i) chronic flooding that adversely impacts on real property in the area as certified by a registered professional engineer or appropriate regulatory agency or (ii) surface water that discharges from all or a part of the area and contributes to flooding within the same watershed, but only if the redevelopment project provides for facilities or improvements to contribute to the alleviation of all or part of the flooding.

(D) The area consists of an unused or illegal disposal site containing earth, stone, building debris, or similar materials that were removed from construction, demolition, excavation, or dredge sites.

(E) Prior to November 1, 1999, the area is not less than 50 nor more than 100 acres and 75% of which is vacant (notwithstanding that the area has been used for commercial agricultural purposes within 5 years prior to the designation of the redevelopment project area), and the area meets at least one of the factors itemized in paragraph (1) of this subsection, the area has been designated as a town or village center by ordinance or comprehensive plan adopted prior to January 1, 1982, and the area has not been developed for that designated purpose.

(F) The area qualified as a blighted improved area immediately prior to becoming vacant, unless there has been substantial private investment in the immediately surrounding area.

(b) For any redevelopment project area that has been designated pursuant to this Section by an ordinance adopted prior to November 1, 1999 (the effective date of Public Act 91-478), "conservation area" shall have the meaning set forth in this Section prior to that date.

located within the territorial limits of the municipality in which 50% or more of the structures in the area have an age of 35 years or more. Such an area is not yet a blighted area but because of a combination of 3 or more of the following factors is detrimental to the public safety, health, morals or welfare and such an area may become a blighted area:

(1) Dilapidation. An advanced state of disrepair or neglect of necessary repairs to the primary structural components of buildings or improvements in such a combination that a documented building condition analysis determines that major repair is required or the defects are so serious and so extensive that the buildings must be removed.
