PUBLIC ACT 95-1055
(Senate Bill No. 1415)

AN ACT concerning public aid.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

New matter indicated in italics - deletions by strikeout.
Section 5. The Illinois Public Aid Code is amended by changing Sections 4-2, 5-2, and 12-4.11 as follows:

(305 ILCS 5/4-2) (from Ch. 23, par. 4-2)

Sec. 4-2. Amount of aid.

(a) The amount and nature of financial aid shall be determined in accordance with the grant amounts, rules and regulations of the Illinois Department. Due regard shall be given to the self-sufficiency requirements of the family and to the income, money contributions and other support and resources available, from whatever source. However, the amount and nature of any financial aid is not affected by the payment of any grant under the "Senior Citizens and Disabled Persons Property Tax Relief and Pharmaceutical Assistance Act" or any distributions or items of income described under subparagraph (X) of paragraph (2) of subsection (a) of Section 203 of the Illinois Income Tax Act. The aid shall be sufficient, when added to all other income, money contributions and support to provide the family with a grant in the amount established by Department regulation.

Subject to appropriation, beginning on July 1, 2008, the Department of Human Services shall increase TANF grant amounts in effect on June 30, 2008 by 15%. The Department is authorized to administer this increase but may not otherwise adopt any rule to implement this increase.

(b) The Illinois Department may conduct special projects, which may be known as Grant Diversion Projects, under which recipients of financial aid under this Article are placed in jobs and their grants are diverted to the employer who in turn makes payments to the recipients in the form of salary or other employment benefits. The Illinois Department shall by rule specify the terms and conditions of such Grant Diversion Projects. Such projects shall take into consideration and be coordinated with the programs administered under the Illinois Emergency Employment Development Act.

(c) The amount and nature of the financial aid for a child requiring care outside his own home shall be determined in accordance with the rules and regulations of the Illinois Department, with due regard to the needs and requirements of the child in the foster home or institution in which he has been placed.

(d) If the Department establishes grants for family units consisting exclusively of a pregnant woman with no dependent child or including her husband if living with her, the grant amount for such a unit shall be equal

New matter indicated in italics - deletions by strikeout.
to the grant amount for an assistance unit consisting of one adult, or 2 persons if the husband is included. Other than as herein described, an unborn child shall not be counted in determining the size of an assistance unit or for calculating grants.

Payments for basic maintenance requirements of a child or children and the relative with whom the child or children are living shall be prescribed, by rule, by the Illinois Department.

Grants under this Article shall not be supplemented by General Assistance provided under Article VI.

(e) Grants shall be paid to the parent or other person with whom the child or children are living, except for such amount as is paid in behalf of the child or his parent or other relative to other persons or agencies pursuant to this Code or the rules and regulations of the Illinois Department.

(f) Subject to subsection (f-5), an assistance unit, receiving financial aid under this Article or temporarily ineligible to receive aid under this Article under a penalty imposed by the Illinois Department for failure to comply with the eligibility requirements or that voluntarily requests termination of financial assistance under this Article and becomes subsequently eligible for assistance within 9 months, shall not receive any increase in the amount of aid solely on account of the birth of a child; except that an increase is not prohibited when the birth is (i) of a child of a pregnant woman who became eligible for aid under this Article during the pregnancy, or (ii) of a child born within 10 months after the date of implementation of this subsection, or (iii) of a child conceived after a family became ineligible for assistance due to income or marriage and at least 3 months of ineligibility expired before any reapplication for assistance. This subsection does not, however, prevent a unit from receiving a general increase in the amount of aid that is provided to all recipients of aid under this Article.

The Illinois Department is authorized to transfer funds, and shall use any budgetary savings attributable to not increasing the grants due to the births of additional children, to supplement existing funding for employment and training services for recipients of aid under this Article IV. The Illinois Department shall target, to the extent the supplemental funding allows, employment and training services to the families who do not receive a grant increase after the birth of a child. In addition, the Illinois Department shall provide, to the extent the supplemental funding allows, such families with up to 24 months of transitional child care

New matter indicated in italics - deletions by strikeout.
pursuant to Illinois Department rules. All remaining supplemental funds shall be used for employment and training services or transitional child care support.

In making the transfers authorized by this subsection, the Illinois Department shall first determine, pursuant to regulations adopted by the Illinois Department for this purpose, the amount of savings attributable to not increasing the grants due to the births of additional children. Transfers may be made from General Revenue Fund appropriations for distributive purposes authorized by Article IV of this Code only to General Revenue Fund appropriations for employability development services including operating and administrative costs and related distributive purposes under Article Ixa of this Code. The Director, with the approval of the Governor, shall certify the amount and affected line item appropriations to the State Comptroller.

Nothing in this subsection shall be construed to prohibit the Illinois Department from using funds under this Article IV to provide assistance in the form of vouchers that may be used to pay for goods and services deemed by the Illinois Department, by rule, as suitable for the care of the child such as diapers, clothing, school supplies, and cribs.

(f-5) Subsection (f) shall not apply to affect the monthly assistance amount of any family as a result of the birth of a child on or after January 1, 2004. As resources permit after January 1, 2004, the Department may cease applying subsection (f) to limit assistance to families receiving assistance under this Article on January 1, 2004, with respect to children born prior to that date. In any event, subsection (f) shall be completely inoperative on and after July 1, 2007.

(g) (Blank).

(h) Notwithstanding any other provision of this Code, the Illinois Department is authorized to reduce payment levels used to determine cash grants under this Article after December 31 of any fiscal year if the Illinois Department determines that the caseload upon which the appropriations for the current fiscal year are based have increased by more than 5% and the appropriation is not sufficient to ensure that cash benefits under this Article do not exceed the amounts appropriated for those cash benefits. Reductions in payment levels may be accomplished by emergency rule under Section 5-45 of the Illinois Administrative Procedure Act, except that the limitation on the number of emergency rules that may be adopted in a 24-month period shall not apply and the provisions of Sections 5-115 and 5-125 of the Illinois Administrative Procedure Act shall not apply.

New matter indicated in italics - deletions by strikeout.
Increases in payment levels shall be accomplished only in accordance with Section 5-40 of the Illinois Administrative Procedure Act. Before any rule to increase payment levels promulgated under this Section shall become effective, a joint resolution approving the rule must be adopted by a roll call vote by a majority of the members elected to each chamber of the General Assembly.

(305 ILCS 5/12-4.11) (from Ch. 23, par. 12-4.11)

Sec. 12-4.11. Grant amounts. The Department, with due regard for and subject to budgetary limitations, shall establish grant amounts for each of the programs, by regulation. The grant amounts may vary by program, size of assistance unit and geographic area.

Aid payments shall not be reduced except: (1) for changes in the cost of items included in the grant amounts, or (2) for changes in the expenses of the recipient, or (3) for changes in the income or resources available to the recipient, or (4) for changes in grants resulting from adoption of a consolidated grant amount.

Subject to appropriation, beginning on July 1, 2008, the Department of Human Services shall increase TANF grant amounts in effect on June 30, 2008 by 15%. The Department is authorized to administer this increase but may not otherwise adopt any rule to implement this increase.

In fixing standards to govern payments or reimbursements for funeral and burial expenses, the Department shall establish a minimum allowable amount of not less than $1,000 for Department payment of funeral services and not less than $500 for Department payment of burial or cremation services. On January 1, 2006, July 1, 2006, and July 1, 2007, the Department shall increase the minimum reimbursement amount for funeral and burial expenses under this Section by a percentage equal to the percentage increase in the Consumer Price Index for All Urban Consumers, if any, during the 12 months immediately preceding that
January 1 or July 1. In establishing the minimum allowable amount, the Department shall take into account the services essential to a dignified, low-cost (i) funeral and (ii) burial or cremation, including reasonable amounts that may be necessary for burial space and cemetery charges, and any applicable taxes or other required governmental fees or charges. If no person has agreed to pay the total cost of the (i) funeral and (ii) burial or cremation charges, the Department shall pay the vendor the actual costs of the (i) funeral and (ii) burial or cremation, or the minimum allowable amount for each service as established by the Department, whichever is less, provided that the Department reduces its payments by the amount available from the following sources: the decedent's assets and available resources and the anticipated amounts of any death benefits available to the decedent's estate, and amounts paid and arranged to be paid by the decedent's legally responsible relatives. A legally responsible relative is expected to pay (i) funeral and (ii) burial or cremation expenses unless financially unable to do so.

Nothing contained in this Section or in any other Section of this Code shall be construed to prohibit the Illinois Department (1) from consolidating existing standards on the basis of any standards which are or were in effect on, or subsequent to July 1, 1969, or (2) from employing any consolidated standards in determining need for public aid and the amount of money payment or grant for individual recipients or recipient families.

PUBLIC ACT 95-1056
(Senate Bill No. 2362)

AN ACT concerning public employee benefits.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Illinois Pension Code is amended by changing Section 4-108 as follows:

(40 ILCS 5/4-108) (from Ch. 108 1/2, par. 4-108)
Sec. 4-108. Creditable service.

New matter indicated in italics - deletions by strikeout.
(a) Creditable service is the time served as a firefighter of a municipality. In computing creditable service, furloughs and leaves of absence without pay exceeding 30 days in any one year shall not be counted, but leaves of absence for illness or accident regardless of length, and periods of disability for which a firefighter received no disability pension payments under this Article, shall be counted.

(b) Furloughs and leaves of absence of 30 days or less in any one year may be counted as creditable service, if the firefighter makes the contribution to the fund that would have been required had he or she not been on furlough or leave of absence. To qualify for this creditable service, the firefighter must pay the required contributions to the fund not more than 90 days subsequent to the termination of the furlough or leave of absence, to the extent that the municipality has not made such contribution on his or her behalf.

(c) Creditable service includes:

(1) Service in the military, naval or air forces of the United States entered upon when the person was an active firefighter, provided that, upon applying for a permanent pension, and in accordance with the rules of the board the firefighter pays into the fund the amount that would have been contributed had he or she been a regular contributor during such period of service, if and to the extent that the municipality which the firefighter served made no such contributions in his or her behalf. The total amount of such creditable service shall not exceed 5 years, except that any firefighter who on July 1, 1973 had more than 5 years of such creditable service shall receive the total amount thereof as of that date.

(1.5) Up to 24 months of service in the military, naval, or air forces of the United States that was served prior to employment by a municipality or fire protection district as a firefighter. To receive the credit for the military service prior to the employment as a firefighter, the firefighter must apply in writing to the fund and must make contributions to the fund equal to (i) the employee contributions that would have been required had the service been rendered as a member, plus (ii) an amount determined by the fund to be equal to the employer's normal cost of the benefits accrued for that military service, plus (iii) interest at the actuarially assumed rate provided by the Department of Financial and Professional Regulation, compounded annually from the first date.
of membership in the fund to the date of payment on items (i) and (ii). The changes to this paragraph (1.5) by this amendatory Act of the 95th General Assembly apply only to participating employees in service on or after its effective date.

(2) Service prior to July 1, 1976 by a firefighter initially excluded from participation by reason of age who elected to participate and paid the required contributions for such service.

(3) Up to 8 years of service by a firefighter as an officer in a statewide firefighters' association when he is on a leave of absence from a municipality's payroll, provided that (i) the firefighter has at least 10 years of creditable service as an active firefighter, (ii) the firefighter contributes to the fund the amount that he would have contributed had he remained an active member of the fund, and (iii) the employee or statewide firefighter association contributes to the fund an amount equal to the employer's required contribution as determined by the board.

(4) Time spent as an on-call fireman for a municipality, calculated at the rate of one year of creditable service for each 5 years of time spent as an on-call fireman, provided that (i) the firefighter has at least 18 years of creditable service as an active firefighter, (ii) the firefighter spent at least 14 years as an on-call firefighter for the municipality, (iii) the firefighter applies for such creditable service within 30 days after the effective date of this amendatory Act of 1989, (iv) the firefighter contributes to the Fund an amount representing employee contributions for the number of years of creditable service granted under this subdivision (4), based on the salary and contribution rate in effect for the firefighter at the date of entry into the Fund, to be determined by the board, and (v) not more than 3 years of creditable service may be granted under this subdivision (4).

Except as provided in Section 4-108.5, creditable service shall not include time spent as a volunteer firefighter, whether or not any compensation was received therefor. The change made in this Section by Public Act 83-0463 is intended to be a restatement and clarification of existing law, and does not imply that creditable service was previously allowed under this Article for time spent as a volunteer firefighter.

(5) Time served between July 1, 1976 and July 1, 1988 in the position of protective inspection officer or administrative

assistant for fire services, for a municipality with a population under 10,000 that is located in a county with a population over 3,000,000 and that maintains a firefighters' pension fund under this Article, if the position included firefighting duties, notwithstanding that the person may not have held an appointment as a firefighter, provided that application is made to the pension fund within 30 days after the effective date of this amendatory Act of 1991, and the corresponding contributions are paid for the number of years of service granted, based upon the salary and contribution rate in effect for the firefighter at the date of entry into the pension fund, as determined by the Board.

(6) Service before becoming a participant by a firefighter initially excluded from participation by reason of age who becomes a participant under the amendment to Section 4-107 made by this amendatory Act of 1993 and pays the required contributions for such service.

(7) Up to 3 years of time during which the firefighter receives a disability pension under Section 4-110, 4-110.1, or 4-111, provided that (i) the firefighter returns to active service after the disability for a period at least equal to the period for which credit is to be established and (ii) the firefighter makes contributions to the fund based on the rates specified in Section 4-118.1 and the salary upon which the disability pension is based. These contributions may be paid at any time prior to the commencement of a retirement pension. The firefighter may, but need not, elect to have the contributions deducted from the disability pension or to pay them in installments on a schedule approved by the board. If not deducted from the disability pension, the contributions shall include interest at the rate of 6% per year, compounded annually, from the date for which service credit is being established to the date of payment. If contributions are paid under this subdivision (c)(7) in excess of those needed to establish the credit, the excess shall be refunded. This subdivision (c)(7) applies to persons receiving a disability pension under Section 4-110, 4-110.1, or 4-111 on the effective date of this amendatory Act of the 91st General Assembly, as well as persons who begin to receive such a disability pension after that date.

NUCLEAR POWER ISSUES TASK FORCE
(Senate Joint Resolution No. 101)

WHEREAS, Nuclear power accounts for roughly 19% of the total net electricity generated in the United States; and

WHEREAS, The genesis of all of the nuclear industries in the world was the first controlled nuclear chain reaction, which took place in Illinois on December 2, 1942 at the University of Chicago; and

WHEREAS, Illinois is home to more commercial nuclear plants than any other state in the nation and is ranked first among the 31 states with nuclear capacity, as of January 2005; and

WHEREAS, Of all of the states in the nation, the electric industry in Illinois ranked sixth in highest carbon dioxide emissions,
eleventh-highest in sulfur dioxide emissions, and eighth-highest in nitrogen oxide emissions in 2004; and

WHEREAS, Nuclear energy is clean compared to electricity generated by burning fossil fuels, and nuclear power plants produce no air pollution; and only a small amount of emissions result from processing uranium used in nuclear reactors; and

WHEREAS, Expansions in the nuclear power market in Illinois have the potential to meet increasing demand for electricity without adverse affects on air quality, global warming, and public health; however, before the industry can grow, questions regarding the safety and security of facilities and materials in the immediate term and on an ongoing basis and questions regarding long-term liabilities such as disposal of waste and safe and affordable decommissioning must first be answered; and

WHEREAS, Given that Illinois derives almost one-half of its power generation from nuclear power plants, and that a number of issues are in public discourse concerning the current plants, waste storage, and the future of nuclear generation in a carbon-constrained world, the General Assembly of the State of Illinois believes it is necessary to convene a task force to study nuclear power issues; therefore, be it

RESOLVED, BY THE SENATE OF THE NINETY-FIFTH GENERAL ASSEMBLY OF THE STATE OF ILLINOIS, THE HOUSE OF REPRESENTATIVES CONCURRING HEREIN, that there is created the Nuclear Power Issues Task Force consisting of 11 members as follows: one Senator chosen by the Senate President, who shall be a co-chairperson, one Representative chosen by the Speaker of the House of Representatives, who shall be a co-chairperson, one Senator chosen by the Senate Minority Leader, one Representative chosen by the House Minority Leader, one member chosen by the Attorney General, the Director of the Illinois Environmental Protection Agency, or his or her designee, the Director of the Illinois Power Agency, or his or her designee, the Director of the Illinois Emergency Management Agency, or his or her designee, and selected jointly by the co-chairpersons one member from the business community, one member from the environmental community, and one member with homeland security experience in a government agency; and be it further

RESOLVED, That the Illinois Emergency Management Agency, the Illinois Environmental Protection Agency, and the Office of the Attorney General shall cooperate to provide technical and administrative support for the Task Force, subject to available appropriations for that purpose; and be it further
RESOLVED, That the Task Force shall compile information on the following issues, as well as others it deems necessary:

(1) the decommissioning of existing or retired plants, including waste storage or disposal issues;
(2) waste storage and movement within the State, including any economic potential;
(3) the re-processing of spent nuclear fuel;
(4) critical security issues, including, but not limited to, facility security requirements, personnel security requirements, the complementary and overlapping requirements imposed by the federal Department of Homeland Security, the federal Nuclear Regulatory Commission, and other agencies, key metrics, and audit programs to ensure ongoing security compliance; and

WHEREAS, The question of the convening of a constitutional convention was submitted to the electorate in 1988, and that question has not been submitted during the past 20-year period; and

RESOLVED, BY THE HOUSE OF REPRESENTATIVES OF THE NINETY-FIFTH GENERAL ASSEMBLY OF THE STATE OF ILLINOIS, THE SENATE CONCURRING HEREIN, that the report of the Joint Committee for the Constitutional Convention Proposal, as set out in this Resolution, is hereby adopted and shall be certified to the Secretary of State:

PROPOSED CALL FOR A STATE CONSTITUTIONAL CONVENTION
That will be submitted to the voters
November 4, 2008
This pamphlet includes
EXPLANATION OF THE PROPOSED CALL
To the Electors of the State of Illinois:

The 1970 Illinois Constitution requires the electors of the State to decide, every 20 years, if it is necessary to revise or rewrite the Illinois Constitution. In 1988 the electors rejected the call for a constitutional convention, with 75% voting against and 25% voting in favor of convening a convention. At the general election to be held on November 4, 2008, the voters will be called upon to decide whether Illinois should convene a constitutional convention.

**EXPLANATION**

The purpose of a state constitution is to establish a structure for government and laws. The Illinois Constitution provides citizens with rights and protections; creates the executive, judicial, and legislative branches of government; clarifies the powers given to local governments; limits the taxing power of the State; and imposes certain restrictions on the use of taxpayer dollars. There are three ways to initiate change to the Illinois Constitution: (1) a constitutional convention may propose changes to any part; (2) the General Assembly may propose changes to any part; or (3) the people of the State by referendum may propose changes to the Legislative Article. Regardless of the method of initiating change, the people of Illinois must approve any changes to the Constitution before they become effective.

A constitutional convention is a meeting of delegates elected by the people to review the Constitution. During a convention, the delegates may propose changes to parts of the current Constitution, write a new Constitution, or make no changes whatsoever. If the people of the State on November 4, 2008 decide it is necessary to call a convention, a separate election will be held to elect delegates to represent the voters during the constitutional convention. The elected delegates will meet to review the current constitution and decide whether the constitution should be revised or rewritten. There is no limit as to how long a constitutional convention may meet. The last constitutional convention met for nine months. Once the delegates complete their work, the voters will have an opportunity to approve or reject proposed changes.

The call for a constitutional convention will be on the November 4, 2008 general election ballot. Voters that believe the 1970 Illinois Constitution should be reviewed, revised, or rewritten through the convention process should vote "YES" on the question of calling a constitutional convention. Three-fifths of those voting on the question or a majority of those voting
in the election must vote "yes" in order for a constitutional convention to be called. Voters that believe that a constitutional convention is not necessary, or that changes can be accomplished through other means, should vote "NO" on the calling of a constitutional convention.

**Summary of Arguments In Favor of Holding a Constitutional Convention**

1. A constitutional convention allows delegates to consider important substantive issues that have failed to advance in the legislative process.
2. Changes to our state and local governments are best addressed by delegates elected solely to review the Constitution.
3. A constitutional convention would provide the first comprehensive review of the Illinois Constitution since its adoption in 1970.
4. Any proposed changes to the Constitution must be ratified by the voters before they become effective.

**Summary of Arguments Against Holding a Constitutional Convention**

1. A constitutional convention could cost as much as $78 million.
2. The current Illinois Constitution could be changed without a constitutional convention, and in fact has been changed 10 times since the last convention.
3. A constitutional convention could be controlled by special interest groups and lobbyists, and there is no way to limit the issues discussed.
4. A convention could threaten the economy by creating an unstable business climate.

**Arguments In Favor of Holding a Constitutional Convention**

Address Important Issues That Have Failed to Advance in the Legislative Process

Amendments proposed by the General Assembly must be approved by both the Illinois Senate and the Illinois House of Representatives before they are submitted to the voters. If one chamber does not like an amendment, or both chambers cannot agree on the language of the proposed amendment, the voters will never have an opportunity to vote on the proposed change. State Senators and Representatives have proposed hundreds of constitutional amendments, but only six have made it to the ballot since the 1988 vote on whether to call a constitutional convention. Many of the proposals that have failed to advance in the legislative process address important issues such as education funding, state and local taxes, electing judges, and ethics reform to reduce the influence of special interest groups and lobbyists.
Best Chance for Real Change
Illinois has over 6,900 units of government, far more than any other state in the nation. Delegates to a constitutional convention could propose ideas to consolidate state and local governments to provide citizens with more responsive and cost-effective government services. A convention could restore the confidence of citizens in the political process. Delegates could discuss important issues including term limits for elected officials, citizen initiatives for changes to the Constitution, and a new process for drawing representative boundaries designed to provide fair representation. A constitutional convention with independent-minded delegates is the best opportunity to address the issues and bring about real change.

Periodic Review Is Important
The delegates to the 1970 Constitutional Convention wanted to make sure the voters have the opportunity to review the Constitution every 20 years. As one delegate stated during debate at the last Constitutional Convention, "The voters ought to have that chance to express themselves every 20 years." Holding a constitutional convention does not mean that delegates will automatically change the whole document. It is up to the delegates to decide if it is necessary to write a new Constitution, update certain portions, or leave the document unchanged.

Voters Must Approve Any Changes
Opponents to a constitutional convention argue that special interest groups and lobbyists will influence delegates and dominate the convention for the benefit of their clients, but a strong argument exists that these same groups presently have disproportionate influence over the legislative process. While elected representatives approve any changes to the laws of our State, any changes proposed at a constitutional convention must be approved by the citizens. This approval process gives voters an opportunity to participate directly in any revision of the Constitution, countering the influence of special interest groups and lobbyists.

Arguments Against Holding a Constitutional Convention
Convention Expenses Could Be High
Estimates of the total cost for a constitutional convention range from $58 to $78 million. Illinois is in the midst of a financial crisis that would be made worse by holding a constitutional convention. Instead of paying for important services, your tax dollars would be diverted to pay for the cost of electing delegates, salaries for delegates and staff, printing and publication, and other administrative expenses. Considering that there are two inexpensive ways to initiate change if necessary through an amendment process, a convention is a major expense that taxpayers do not need.
Current Amendment Process Works
The Constitution can be changed through an amendment process and any changes must be approved by the voters. State Senators and Representatives have the ability to propose changes to any Article of the Constitution, and citizens may propose changes to the structure and procedures of the Legislature. Since 1970, voters have approved 10 of 18 proposed amendments to the Constitution. Amendments encourage the same level of public debate that proponents believe can only be achieved during a constitutional convention. The amendment process is also less costly and it ensures that citizens have an opportunity to approve any change before it becomes effective.

Influence of Special Interests
There is no way to keep delegates to a constitutional convention from the influence of special interest groups and lobbyists. To be a delegate, candidates would need to raise funds to run a campaign and win an election. Special interest groups and lobbyists will contribute money to these campaigns, and if elected, a delegate may feel indebted to those who made contributions. Delegates are not subject to the same ethical standards as constitutional and legislative officers and do not have to run for re-election, making them less accountable to the voters for their actions. Additionally, there is no way to control the issues debated during a constitutional convention. The convention could be dominated by current controversial issues like abortion, capital punishment, gay marriage, gun control, public education, and state and local taxes. Convention delegates might ultimately spend months or years, and millions of taxpayer dollars, debating policy issues that should be decided by legislators accountable to the people.

Negative Impact on the State Economy
Holding a convention at this time could negatively impact the economy. To grow economically and attract new jobs, the State must provide a stable climate for business and labor. An important part of this is a clear, predictable tax structure. Business leaders are worried that the uncertainty created by a convention could make it difficult to keep businesses in Illinois or attract new businesses.

FORM OF BALLOT
Proposed call for a Constitutional Convention
Explanation of Proposed Call
This proposal deals with a call for a state constitutional convention. The last such convention was held in 1969-70, and a new Constitution was adopted in 1970. The 1970 Illinois Constitution requires that the question of calling a convention be placed before the voters every 20 years. In 1988
the electors rejected the call for a constitutional convention, with 75% voting against calling a convention and 25% voting in favor of calling a convention. If you believe the 1970 Illinois Constitution needs to be revised through the convention process, vote "YES" on the question of calling a constitutional convention. If you believe that a constitutional convention is not necessary, or that changes can be accomplished through other means, vote "NO" on the calling of a constitutional convention.

DISASTER AREA - STATE OF ILLINOIS

Severe storms moved through Illinois on Monday, January 7, 2008. These spring-like thunderstorms dumped heavy rains that has now resulted in flooding along numerous rivers and streams in northern and eastern Illinois. The City of Watseka in Iroquois County and the City of Pontiac in Livingston County continue to be severely impacted by the flooding. People in the flooded sections of Watseka and Pontiac have evacuated from their homes and businesses. The State of Illinois is assisting in the evacuation and flood fight.

In the interest of aiding the citizens of Illinois and the impacted local governments responsible for ensuring public health and safety, I hereby proclaim that a disaster exists in the State of Illinois and specifically declare Iroquois County and Livingston County as a State Disaster Areas pursuant to the provisions of Section 3305/7 of the Illinois Emergency Management Agency Act, 20ILCS 3305/7.

This gubernatorial proclamation of disaster will assist the Illinois Emergency Management Agency in coordinating State resources to support local governments in disaster response and recovery operations. STATE OF ILLINOIS - DISASTER AREA

Severe storms moved through Illinois beginning March 17, 2008. Extremely heavy rainfall continues and has resulted in widespread flooding along numerous rivers, creeks and streams in Southern Illinois. Nineteen counties continue to be severely impacted by the flooding. People in the flooded counties have been evacuated from their homes, health care facilities and businesses have closed. In addition, numerous roadways are flooded and impassable. The State of Illinois is assisting in the evacuation and flood fight. These same Southern Illinois counties have been hit with severe weather, including ice storms and heavy snow, during the past six weeks. The saturated ground from melting ice and snow contributed to rapid flooding of low-lying areas.

In the interest of aiding the citizens of Illinois and the impacted local governments responsible for ensuring public health and safety, I hereby proclaim that a disaster exists in the State of Illinois and specifically declare Randolph, Perry, Franklin, Hamilton, White, Jackson, Williamson, Saline, Gallatin, Union, Johnson, Pope, Hardin, Alexander, Pulaski, Massac, Jefferson, Marion and Fayette counties as State Disaster Areas pursuant to the provisions of Section 3305/7 of the Illinois Emergency Management Agency Act, 20ILCS 3305/7.

This gubernatorial proclamation of disaster will assist the Illinois Emergency Management Agency in coordinating State resources to support local governments in disaster response and recovery operations. This proclamation will also make possible the request for federal assistance to supplement the State’s efforts if it is deemed necessary to protect public health and safety and to assist in recovery.

DISASTER AREA - STATE OF ILLINOIS

Beginning on June 1, 2008 and continuing, severe storms producing heavy rainfall, high winds and tornadoes have occurred in all parts of the State and in neighboring states. Public and private property has been damaged as a result of the wind, flash flooding and river flooding. Levee breaches have allowed floodwater to spread across roads, over bridges and into homes. High winds and flooding has damaged structures and spread debris onto roads and into open fields. Heavy rainfall in neighboring states has resulted in the flooding of rivers that flow into Illinois and along its borders.

In the interest of aiding the citizens of Illinois and the local governments responsible for ensuring public health and safety, I hereby declare that a disaster exists in the State of Illinois and specifically declare Monroe, Randolph and Whiteside counties as a State Disaster Area pursuant to the provisions of Section 3305/7 of the Illinois Emergency Management Agency Act, 20ILCS 3305/7.

This proclamation of disaster will assist the Illinois Emergency Management Agency in coordinating State resources to support local governments in disaster response and recovery. This proclamation will also make possible a request for supplemental Federal disaster assistance if it is determined that the ability to effectively recover is beyond the capability of the State and the impacted local governments.

SPECIAL SESSION ON JULY 9, 2008

WHEREAS, the Illinois Constitution requires the General Assembly,
by law, to make appropriations for all expenditure of public funds for each fiscal year for the operations of State government, departments, authorities, and public agencies, among other things;

WHEREAS, Article VIII, Section 2(b) of the Illinois Constitution of 1970 requires the General Assembly to pass a balanced budget in which appropriations for the fiscal year do not exceed funds estimated to be available during that year;

WHEREAS, the General Assembly passed four appropriations bills for the expenditure of public funds for Fiscal Year 2009;

WHEREAS, the appropriations passed by the General Assembly for Fiscal Year 2009 exceed funds estimated to be available during that year and thus render the budget passed by the General Assembly unbalanced by approximately $2 billion, in clear violation of Article VIII, Section 2(b) of the Illinois Constitution;

WHEREAS, the Illinois Senate has passed several funding solutions, including a capital bill and a fund transfer bill, among other things, that if enacted could support a balanced budget;

WHEREAS, the capital bill which has overwhelmingly passed the Senate not only provides additional funding solutions to support a balanced budget, but also spurs the economy by creating approximately 600,000 jobs across Illinois;

WHEREAS, the leadership of the House of Representatives refused to present any of the funding solutions passed by the Illinois Senate to the House for a vote of the body prior to adjourning on May 31, 2008;

WHEREAS, during debate on the House floor on May 29, 2008, several representatives acknowledged that the spending measures the House was considering (and ultimately passed) lacked supporting revenues;

WHEREAS, on the day the appropriation bills were passed by the Illinois House of Representatives, numerous representatives questioned the constitutionality of knowingly passing a budget that was grossly unbalanced;

WHEREAS, it was emphatically noted on the House floor that intentionally passing an unbalanced budget under the premise that it would be balanced by the Governor did not comport with the General Assembly’s constitutional duty to pass a balanced budget;

WHEREAS, on June 24, 2008, I called upon the House of Representatives to pass the funding solutions already passed by the Illinois Senate by July 9, 2008, in order to bring the budget into balance;

WHEREAS, the leadership of the House of Representatives has refused to call the House into session to deal with the grossly unbalanced budget passed;

WHEREAS, according to the Comptroller, a budget must be in place
prior to July 9, 2008, in order to prevent the interruption of the operations of State government; and

WHEREAS, unless the General Assembly passes revenue generating measures to support a balanced budget, I will have no choice but to make significant cuts to State services and sponsored programs, thereby causing great harm to the citizens of this State, which could be avoided;

THEREFORE, pursuant to Article IV, Section 5(b) of the Illinois Constitution of 1970, I hereby call and convene the 95th General Assembly, in duly constituted quorums capable of conducting business, in a special session to commence on July 9, 2008, at 2:28 p.m. to (a) consider any measures, including but not limited to Senate Bill 790, House Bills 6339, 2651, 4723, 1496, and 5618, which would provide the necessary revenue to support the appropriations contained in House Bill 5701, and Senate Bills 1102, 1115, and 1129, and (b) accept and immediately enter in the journal any veto, line-item veto, or reduction veto of any appropriation bills returned by the Governor.

DISASTER AREA - STATE OF ILLINOIS

Beginning on June 1, 2008 and continuing, severe storms producing heavy rainfall, high winds and tornadoes have occurred in all parts of the State and in neighboring states. FOUR CHAPLAINS SUNDAY

WHEREAS, on February 3, 1943, four United States Army Lieutenants and Chaplains sacrificed their lives in one of the most inspiring acts of heroism during the Second World War; and
WHEREAS, once a luxury coastal liner, the U.S.A.T. Dorchester set out with three escort ships on February 2 for an American base in
Greenland. Less than 150 miles from its destination, the ship was attacked by a German submarine shortly after midnight; and

WHEREAS, aboard the U.S.A.T. Dorchester, panic and chaos set in. The blast killed scores of men, and many more were seriously wounded. Alerted that the Dorchester was taking on water and sinking rapidly, the captain gave the order to abandon ship; and

WHEREAS, those who were capable made their way towards the deck through the darkness. Once topside, men jumped from the ship for lifeboats. Some were overcrowded and capsized. Others drifted away before soldiers and sailors could get in them; and

WHEREAS, through the pandemonium, Reverend George L. Fox, Rabbi Alexander D. Goode, Reverend John P. Washington and Reverend Clark V. Poling spread out among the soldiers to calm the frightened, tend the wounded and guide the disoriented toward safety; and

WHEREAS, at one point, Rabbi Goode gave away his own gloves to a comrade who had the bad fortune of forgetting his. Shortly thereafter, the Chaplains opened a storage locker filled with lifejackets and began distributing them; and

WHEREAS, it was then that John Ladd witnessed an astonishing sight. When they ran out of lifejackets, the Chaplains removed theirs and gave them to four frightened young men. John said, “It was the finest thing I have seen or hope to see this side of heaven;” and

WHEREAS, as the ship went down, other survivors in nearby rafts saw the Chaplains with arms linked and braced against the slanting deck. They were also heard offering prayers; and

WHEREAS, the Dorchester sunk less than 27 minutes after it was struck. Of the 902 men aboard, 672 died, including all four Chaplains. When news reached American shores, the nation was stunned by the magnitude of the tragedy and heroic conduct of the Chaplains; and

WHEREAS, all four Chaplains were posthumously awarded the Distinguished Service Cross and Purple Heart, as well as a Special Medal of Heroism specially authorized for them by Congress; and

WHEREAS, every year, the Combined Veterans Association of Illinois sponsors a memorial service for the four Chaplains, which this year is hosted by the Catholic War Veterans of Illinois, and which will be held at the Main Chapel of the Edward Hines VA Medical Center in Hines, Illinois on February 1, 2009:

THEREFORE, I, Rod R. Blagojevich, Governor of the State of Illinois, do hereby proclaim February 1, 2009 as FOUR CHAPLAINS SUNDAY in Illinois in honor and remembrance of the four brave and courageous Chaplains who selflessly made the ultimate sacrifice to save the lives of others.
