The fee shall be imposed only upon a defendant who is actively supervised by the probation and court services department. The fee shall be collected by the clerk of the circuit court. The clerk of the circuit court shall pay all monies collected from this fee to the county treasurer for deposit in the probation and court services fund pursuant to Section 15.1 of the Probation and Probation Officers Act.

The Court may only waive probation fees based on an offender's ability to pay. The probation department may re-evaluate an offender's ability to pay every 6 months, and, with the approval of the Director of Court Services or the Chief Probation Officer, adjust the monthly fee amount. An offender may elect to pay probation fees due in a lump sum. (a) Concurrent terms; multiple or additional sentences. When an Illinois court (i) imposes multiple sentences of imprisonment on a defendant at the same time or (ii) imposes a sentence of imprisonment on a defendant who is already subject to a sentence of imprisonment imposed
by an Illinois court, a court of another state, or a federal court, then the
sentences shall run concurrently unless otherwise determined by the
Illinois court under this Section.

(b) Concurrent terms; misdemeanor and felony. A defendant

      the basis for which the court shall set forth in the record.

  (2) If one of the offenses for which a defendant was
      convicted was a violation of Section 32-5.2 (aggravated false

sentence shall be served consecutive to the sentence under which
the defendant is held by the Department of Corrections. If,
however, the defendant is sentenced to punishment by death, the

held by the Department.

(7) A sentence under Section 3-6-4 (730 ILCS 5/3-6-4) for
escape or attempted escape shall be served consecutive to the terms
under which the offender is held by the Department of Corrections.

(8) If a person charged with a felony commits a separate

(8.5) If a person commits a battery against a county correctional officer or sheriff's employee while serving a sentence or in pretrial detention in a county jail facility, then the sentence imposed upon conviction of the battery shall be served consecutively with the sentence imposed upon conviction of the earlier misdemeanor or felony, regardless of the order in which the judgments of conviction are entered.

(9) If a person admitted to bail following conviction of a felony commits a separate felony while free on bond or if a person detained in a county jail facility or county detention facility following conviction of a felony commits a separate felony while in detention, then any sentence following conviction of the separate felony shall be consecutive to that of the original sentence for which the defendant was on bond or detained.

That same Illinois court, however, may order that the Illinois sentence run concurrently with the sentence imposed by the court of the other state or the federal court, but only if the defendant applies to that same Illinois court within 30 days after the sentence imposed by the court of the other state or the federal court is finalized.

(f) Consecutive terms; aggregate maximums and minimums. The aggregate maximum and aggregate minimum of consecutive sentences shall be determined as follows:

(1) For sentences imposed under law in effect prior to February 1, 1978, the aggregate maximum of consecutive sentences shall not exceed the maximum term authorized under Section 5-8-1 (730 ILCS 5/5-8-1) or Article 4.5 of Chapter V for the 2 most serious felonies involved. The aggregate minimum period of consecutive sentences shall not exceed the highest minimum term authorized under Section 5-8-1 (730 ILCS 5/5-8-1) or Article 4.5 of Chapter V for the 2 most serious felonies involved. When sentenced only for misdemeanors, a defendant shall not be consecutively sentenced to more than the maximum for one Class A misdemeanor.

(2) For sentences imposed under the law in effect on or after February 1, 1978, the aggregate of consecutive sentences for offenses that were committed as part of a single course of conduct during which there was no substantial change in the nature of the criminal objective shall not exceed the sum of the maximum terms authorized under Article 4.5 of Chapter V for the 2 most serious felonies involved, but no such limitation shall apply for offenses that were not committed as part of a single course of conduct during which there was no substantial change in the nature of the criminal objective. When sentenced only for misdemeanors, a defendant shall not be consecutively sentenced to more than the maximum for one Class A misdemeanor.

(g) Consecutive terms; manner served. (1) The maximum period of a term of imprisonment shall consist of the aggregate of the maximums of the imposed indeterminate terms, if any, plus the aggregate of the imposed determinate sentences for felonies, plus the aggregate of the imposed determinate sentences for misdemeanors, subject to subsection (f) of this Section.
(2) The parole or mandatory supervised release term shall be as provided in paragraph (e) of Section 5-4.5-50 (730 ILCS 5/5-4.5-50) for the most serious of the offenses involved.

(d) For redevelopment project areas for which bonds were issued before July 29, 1991, or for which contracts were entered into before June 1, 1988, in connection with a redevelopment project in the area within the State Sales Tax Boundary, the estimated dates of completion of the redevelopment project and retirement of obligations to finance redevelopment project costs (including refunding bonds under Section 11-74.4-7) may be extended by municipal ordinance to December 31, 2013. The termination procedures of subsection (b) of Section 11-74.4-8 are not required for these redevelopment project areas in 2009 but are required in 2013. The extension allowed by Public Act 87-1272 shall not apply to real property tax increment allocation financing under Section 11-74.4-8.

(e) Those dates, for purposes of real property tax increment allocation financing pursuant to Section 11-74.4-8 only, shall be not more than 35 years for redevelopment project areas that were adopted on or after December 16, 1986 and for which at least $8 million worth of municipal bonds were authorized on or after December 19, 1989 but before January 1, 1990; provided that the municipality elects to extend the life of the redevelopment project area to 35 years by the adoption of an ordinance after at least 14 but not more than 30 days' written notice to the taxing bodies, that would otherwise constitute the joint review board for the redevelopment project area, before the adoption of the ordinance.
(f) Those dates, for purposes of real property tax increment allocation financing pursuant to Section 11-74.4-8 only, shall be not more than 35 years for redevelopment project areas that were established on or after December 1, 1981 but before January 1, 1982 and for which at least $1,500,000 worth of tax increment revenue bonds were authorized on or after September 30, 1990 but before July 1, 1991; provided that the municipality elects to extend the life of the redevelopment project area to 35 years by the adoption of an ordinance after at least 14 but not more than 30 days' written notice to the taxing bodies, that would otherwise constitute the joint review board for the redevelopment project area, before the adoption of the ordinance.

(g) In consolidating the material relating to completion dates from Sections 11-74.4-3 and 11-74.4-7 into this Section, it is not the intent of the General Assembly to make any substantive change in the law, except for the extension of the completion dates for the City of Aurora, the Village of Milan, the City of West Frankfort, the Village of Libertyville, and the Village of Hoffman Estates set forth under items (67), (68), (69), (70), and (71) of subsection (c) of this Section.

Section 5. The Property Tax Code is amended by changing Sections 9-260, 9-265, 9-270, 15-20, 16-95, 16-135, and 16-140 as follows:

(35 ILCS 200/9-260)
Sec. 9-260. Assessment of omitted property; counties of 3,000,000 or more.

(a) After signing the affidavit, the county assessor shall have power, when directed by the board of appeals (until the first Monday in December 1998 and the board of review beginning the first Monday in December 1998 and thereafter), or on his or her own initiative, subject to the limitations of Sections 9-265 and 9-270, to assess properties which may have been omitted from assessments for the current year and not more than 3 years prior to the current year or during any year or years for which the property was liable to be taxed, and for which the tax has not been paid, but only on notice and an opportunity to be heard in the manner and form required by law, and shall enter the assessments upon the assessment books. Any notice shall include (i) a request that a person receiving the notice who is not the current taxpayer contact the office of the county assessor and explain that the person is not the current taxpayer, which contact may be made on the telephone, in writing, or in person upon receipt of the notice, and (ii) the name, address, and telephone number of the appropriate personnel in the office of the county assessor to whom the response should be made. Any time period for the review of an omitted assessment included in the notice shall be consistent with the time period established by the assessor in accordance with subsection (a) of Section 12-55. No charge for tax of previous years shall be made against any property if (1) the assessor failed to notify the board of review of the omitted assessment in accordance with subsection (a-1) of this Section; (2) (a) the property was last assessed as unimproved, (b) the owner of such property gave notice of subsequent improvements and requested a reassessment as required by Section 9-180, and (c) reassessment of the property was not made within the 16 month period immediately following the receipt of that notice; (3) the owner of the property gave notice as required by Section 9-265; (4) the assessor received a building permit for the property evidencing that new construction had occurred or was occurring on the property but failed to list the improvement on the tax rolls; (5) the assessor received a plat map, plat of survey, ALTA survey, mortgage survey, or other similar document containing the omitted property but failed to list the improvement on the tax rolls; (6) the

assessor received a real estate transfer declaration indicating a sale from an exempt property owner to a non-exempt property owner but failed to list the property on the tax rolls; or (7) the property was the subject of an assessment appeal before the assessor or the board of review that had included the intended omitted property as part of the assessment appeal and provided evidence of its market value.

(a-1) After providing notice and an opportunity to be heard as required by subsection (a) of this Section, the assessor shall render a decision on the omitted assessment, whether or not the omitted assessment was contested, and shall mail a notice of the decision to the taxpayer of record or to the party that contested the omitted assessment. The notice of decision shall contain a statement that the decision may be appealed to the board of review. The decision and all evidence used in the decision shall be transmitted by the assessor to the board of review on or before the dates specified in accordance with Section 16-110.

(b) Any taxes based on the omitted assessment of a property pursuant to Sections 9-260 through 9-270 and Sections 16-135 and 16-140 shall be prepared and mailed at the same time as the estimated first installment property tax bill for the preceding year (as described in Section 21-30) is prepared and mailed. The omitted assessment tax bill is not due until the date on which the second installment property tax bill for the preceding year becomes due. The omitted assessment tax bill shall be deemed delinquent and shall bear interest beginning on the day after the due date of the second installment (as described in Section 21-25). Any taxes for omitted assessments deemed delinquent after the due date of the second installment tax bill shall bear interest at the rate of 1.5% per month or portion thereof until paid or forfeited (as described in Section 21-25).

(c) The assessor shall have no power to change the assessment or alter the assessment books in any other manner or for any other purpose so as to change or affect the taxes in that year, except as ordered by the board of appeals (until the first Monday in December 1998 and the board of review beginning the first Monday in December 1998 and thereafter). The county assessor shall make all changes and corrections ordered by the board of appeals (until the first Monday in December 1998 and the board of review beginning the first Monday in December 1998 and thereafter). The county assessor may for the purpose of revision by the board of appeals (until the first Monday in December 1998 and the board of review beginning the first Monday in December 1998 and thereafter) certify the
assessment books for any town or taxing district after or when such books are completed.

(35 ILCS 200/9-265)
Sec. 9-2 65. Omitted property; interest; change in exempt use or ownership. If any property is omitted in the assessment of any year or years, not to exceed the current assessment year and 3 prior years, so that the taxes, for which the property was liable, have not been paid, or if by reason of defective description or assessment, taxes on any property for any year or years have not been paid, or if any taxes are refunded under subsection (b) of Section 14-5 because the taxes were assessed in the wrong person's name, the property, when discovered, shall be listed and assessed by the board of review or, in counties with 3,000,000 or more inhabitants, by the county assessor either on his or her own initiative or when so directed by the board of appeals or board of review. The board of review in counties with less than 3,000,000 inhabitants or the county assessor in counties with 3,000,000 or more inhabitants may develop reasonable procedures for contesting the listing of omitted property under this Division. For purposes of this Section, "defective description or assessment" includes a description or assessment which omits all the improvements thereon as a result of which part of the taxes on the total value of the property as improved remain unpaid. In the case of property subject to assessment by the Department, the property shall be listed and assessed by the Department. All such property shall be placed on the assessment and tax books. The arrearages of taxes which might have been assessed, with 10% interest thereon for each year or portion thereof from 2 years after the time the first correct tax bill ought to have been received, shall be charged against the property by the county clerk.

When property or acreage omitted by either incorrect survey or other ministerial assessor error is discovered and the owner has paid its tax bills as received for the year or years of omission of the parcel, then the interest authorized by this Section shall not be chargeable to the owner. However, nothing in this Section shall prevent the collection of the principal amount of back taxes due and owing.

If any property listed as exempt by the chief county assessment officer has a change in use, a change in leasehold estate, or a change in titleholder of record by purchase, grant, taking or transfer, it shall be the obligation of the transferee to notify the chief county assessment officer in writing within 90 30 days of the change. If mailed, the notice shall be

sent by certified mail, return receipt requested, and shall include the name and address of the taxpayer, the legal description of the property, and the property index number of the property when an index number exists. If notice is provided in person, it shall be provided on a form prescribed by the chief county assessment officer, and the chief county assessment officer shall provide a date stamped copy of the notice. Except as provided in item (6) of subsection (a) of Section 9-260, item (6) of Section 16-135, and item (6) of Section 16-140 of this Code, if the failure to give the notification results in the assessing official continuing to list the property as exempt in subsequent years, the property shall be considered omitted property for purposes of this Code.

Sec. 9-270. Omitted property; limitations on assessment. A charge for tax and interest for previous years, as provided in Sections 9-265 or 14-40, shall not be made against any property for years prior to the date of ownership of the person owning the property at the time the liability for the omitted tax was first ascertained. Ownership as used in this section shall be held to refer to bona fide legal and equitable titles or interests acquired for value and without notice of the tax, as may appear by deed, deed of trust, mortgage, certificate of purchase or sale, or other form of contract. No charge for tax of previous years, as provided in Section 9-265, shall be made against any property if (1) the assessor failed to notify the board of review of an omitted assessment in accordance with subsection (a-1) of Section 9-260; (2) the property was last assessed as unimproved, (b) the owner of the property gave notice of subsequent improvements and requested a reassessment as required by Section 9-180, and (c) reassessment of the property was not made within the 16 month period immediately following the receipt of that notice; (3) the owner of the property gave notice as required by Section 9-265; (4) the assessor received a building permit for the property evidencing that new construction had occurred or was occurring on the property but failed to list the improvement on the tax rolls; (5) the assessor received a plat map, plat of survey, ALTA survey, mortgage survey, or other similar document containing the omitted property but failed to list the improvement on the tax rolls; (6) the assessor received a real estate transfer declaration indicating a sale from an exempt property owner to a non-exempt property owner but failed to list the property on the tax rolls; or (7) the property was the subject of an assessment appeal before the assessor or the board.

of review that had included the intended omitted property as part of the assessment appeal and provided evidence of its market value. The owner of property, if known, assessed under this and the preceding section shall be notified by the county assessor, board of review or Department, as the case may require.

(35 ILCS 200/15-20)

Sec. 15-20. Notification requirements after change in use or ownership. If any property listed as exempt by the chief county assessment officer has a change in use, a change in leasehold estate, or a change in titleholder of record by purchase, grant, taking or transfer, it is the obligation of the transferee to notify the chief county assessment officer in writing within 90 days of the change. If mailed, the notice shall be sent by certified mail, return receipt requested, and shall include the name and address of the taxpayer, the legal description of the property, the address of the property, and the permanent index number of the property where such number exists. If notice is provided in person, it shall be provided on a form prescribed by the chief county assessment officer, and the chief county assessment officer shall provide a date stamped copy of the notice. Except as provided in item (6) of subsection (a) of Section 9-260, item (6) of Section 16-135, and item (6) of Section 16-140 of this Code, if the failure to give such notification results in the assessment officer listing the property as exempt in subsequent years, the property shall be considered omitted property for purposes of this Code.

(35 ILCS 200/16-95)

Sec. 16-95. Powers and duties of board of appeals or review; complaints. In counties with 3,000,000 or more inhabitants, until the first Monday in December 1998, the board of appeals in any year shall, on complaint that any property is overassessed or underassessed, or is exempt, review and order the assessment corrected.

Beginning the first Monday in December 1998 and thereafter, in counties with 3,000,000 or more inhabitants, the board of review:

(1) shall, on written complaint of any taxpayer or any taxing district that has an interest in the assessment that any property is overassessed, underassessed, or exempt, review the assessment and confirm, revise, correct, alter, or modify the assessment, as appears to be just; and

New matter indicated by italics - deletions by strikeout
(2) may, upon written motion of any one or more members of the board that is made on or before the dates specified in notices given under Section 16-110 for each township and upon good cause shown, revise, correct, alter, or modify any assessment (or part of an assessment) of real property regardless of whether the taxpayer or owner of the property has filed a complaint with the board; and

(3) shall, after the effective date of this amendatory Act of the 96th General Assembly, pursuant to the provisions of Sections 9-260, 9-265, 2-270, 16-135, and 16-140, review any omitted assessment proposed by the county assessor and confirm, revise, correct, alter, or modify the proposed assessment, as appears to be just.

No assessment may be changed by the board on its own motion until the taxpayer in whose name the property is assessed and the chief county assessment officer who certified the assessment have been notified and given an opportunity to be heard thereon. All taxing districts shall have an opportunity to be heard on the matter.

(35 ILCS 200/16-135)

Sec. 16-135. Omitted property; Notice provisions. In counties with 3,000,000 or more inhabitants, the owner of property and the executor, administrator, or trustee of a decedent whose property has been omitted in the assessment in any year or years or on which a tax for which the property was liable has not been paid, and the several taxing bodies interested therein, shall be given at least 30 days notice in writing by the board of appeals (until the first Monday in December 1998 and the board of review beginning the first Monday in December 1998 and thereafter) or county assessor of the hearing on the proposed assessments of the omitted property. The board or assessor shall have full power to examine the owner, or the executor, administrator, trustee, legatee, or heirs of the decedent, or other person concerning the ownership, kind, character, amount and the value of the omitted property.

If the board determines that the property of any decedent was omitted from assessment during any year or years, or that a tax for which the property was liable, has not been paid, the board shall direct the county assessor to assess the property. However, if the county assessor, on his or her own initiative, makes such a determination, then the assessor shall

assess the property. No charge for tax of previous years shall be made against any property prior to the date of ownership of the person owning the property at the time the liability for such omitted tax is first ascertained. Ownership as used in this Section refers to bona fide legal and equitable titles or interests acquired for value and without notice of the tax, as may appear by deed, deed of trust, mortgage, certificate of purchase or sale, or other form of contract. No such charge for tax of previous years shall be made against any property if:

(1) the assessor failed to notify the board of review of an omitted assessment in accordance with subsection (a-1) of Section 9-260 of this Code; or

(2) (a) the property was last assessed as unimproved, (b) the owner of the property, gave notice of subsequent improvements and requested a reassessment as required by Section 9-180, and (c) reassessment of the property was not made within 16 months of receipt of that notice; or

(3) the owner of the property gave notice as required by Section 9-265; or

(4) the assessor received a building permit for the property evidencing that new construction had occurred or was occurring on the property but failed to list the improvement on the tax rolls; or

(5) the assessor received a plat map, plat of survey, ALTA survey, mortgage survey, or other similar document containing the omitted property but failed to list the improvement on the tax rolls; or

(6) the assessor received a real estate transfer declaration indicating a sale from an exempt property owner to a non-exempt property owner but failed to list the property on the tax rolls; or

(7) the property was the subject of an assessment appeal before the assessor or the board of review that had included the intended omitted property as part of the assessment appeal and provided evidence of its market value.

The assessment of omitted property by the county assessor may be reviewed by the board in the same manner as other assessments are reviewed under the provisions of this Code and when so reviewed, the assessment shall not thereafter be subject to review by any succeeding board.

For the purpose of enforcing the provisions of this Code, relating to property omitted from assessment, the taxing bodies interested therein are hereby empowered to employ counsel to appear before the board or assessor (as the case may be) and take all necessary steps to enforce the assessment on the omitted property.

Sec. 16-140. Omitted property. In counties with 3,000,000 or more inhabitants, the board of appeals (until the first Monday in December 1998 and the board of review beginning the first Monday in December 1998 and thereafter) in any year shall direct the county assessor, in accordance with Section 16-135, when he or she fails to do so on his or her own initiative, to assess all property which has not been assessed, for any reason, and enter the same upon the assessment books and to list and assess all property that has been omitted in the assessment for the current year and not more than 3 years prior to the current year of any year or years. If the tax for which that property was liable has not been paid or if any property, by reason of defective description or assessment thereof, fails to pay taxes for any year or years, the property, when discovered by the board shall be listed and assessed by the county assessor. The board may order the county assessor to make such alterations in the description of property as it deems necessary. No charge for tax of previous years shall be made against any property if:

(1) the assessor failed to notify the board of review of an omitted assessment in accordance with subsection (a-l) of Section 9-260 of this Code; or

(30 ILCS 105/6z-78)

Sec. 6z-78. Capital Projects Fund; bonded indebtedness; transfers. Obligation Bond Act, upon each delivery of general obligation bonds using bond authorizations enacted in Public Act 96-36 and this amendatory Act of the 96th General Assembly the State Comptroller shall compute and certify to the State Treasurer the total amount of principal of, interest on, and premium, if any, on such bonds during the then current and each succeeding fiscal year. With respect to the interest payable on variable rate bonds, such certifications shall be calculated at the maximum rate of interest that may be payable during the fiscal year, after taking into account any credits permitted in the related indenture or other instrument against the amount of such interest required to be appropriated for the period.

(a) Except as provided for in subsection (b), on or before the last day of each month, the State Treasurer and State Comptroller shall transfer from the Capital Projects Fund to the General Obligation Bond Retirement and Interest Fund an amount sufficient to pay the aggregate of the principal of, interest on, and premium, if any, on the bonds payable on their next payment date, divided by the number of monthly transfers occurring between the last previous payment date (or the delivery date if no payment date has yet occurred) and the next succeeding payment date. Interest payable on variable rate bonds shall be calculated at the maximum rate of interest that may be payable for the relevant period, after taking into account any credits permitted in the related indenture or other instrument against the amount of such interest required to be appropriated for that period. Interest for which moneys have already been deposited into the capitalized interest account within the General Obligation Bond Retirement and Interest Fund shall not be included in the calculation of the amounts to be transferred under this subsection.

(b) On or before the last day of each month, the State Treasurer and State Comptroller shall transfer from the Capital Projects Fund to the General Obligation Bond Retirement and Interest Fund an amount sufficient to pay the aggregate of the principal of, interest on, and premium, if any, on the bonds issued prior to January 1, 2012 pursuant to Section 4(d) of the General Obligation Bond Act payable on their next payment date, divided by the number of monthly transfers occurring between the last previous payment date (or the delivery date if no payment date has yet occurred) and the next succeeding payment date. If the available balance in the Capital Projects Fund is not sufficient for the transfer required in this subsection, the State Treasurer and State
Comptroller shall transfer the difference from the Road Fund to the General Obligation Bond Retirement and Interest Fund; except that such Road Fund transfers shall constitute a debt of the Capital Projects Fund which shall be repaid according to subsection (c). Interest payable on variable rate bonds shall be calculated at the maximum rate of interest that may be payable for the relevant period, after taking into account any credits permitted in the related indenture or other instrument against the amount of such interest required to be appropriated for that period. Interest for which moneys have already been deposited into the capitalized interest account within the General Obligation Bond Retirement and Interest Fund shall not be included in the calculation of the amounts to be transferred under this subsection.

(c) On the first day of any month when the Capital Projects Fund is carrying a debt to the Road Fund due to the provisions of subsection (b), the State Treasurer and State Comptroller shall transfer from the Capital Projects Fund to the Road Fund an amount sufficient to discharge that debt. These transfers to the Road Fund shall continue until the Capital Projects Fund has repaid to the Road Fund all transfers made from the Road Fund pursuant to subsection (b). Notwithstanding any other law to the contrary, transfers to the Road Fund from the Capital Projects Fund shall be made prior to any other expenditures or transfers out of the Capital Projects Fund.

Sec. 9. Conditions for Issuance and Sale of Bonds - Requirements for Bonds.

(a) Except as otherwise provided in this subsection, Bonds shall be issued and sold from time to time, in one or more series, in such amounts and at such prices as may be directed by the Governor, upon recommendation by the Director of the Governor's Office of Management and Budget. Bonds shall be in such form (either coupon, registered or book entry), in such denominations, payable within 25 years from their date, subject to such terms of redemption with or without premium, bear interest payable at such times and at such fixed or variable rate or rates, and be dated as shall be fixed and determined by the Director of the Governor's Office of Management and Budget in the order authorizing the issuance and sale of any series of Bonds, which order shall be approved by the Governor and is herein called a "Bond Sale Order"; provided however, that interest payable at fixed or variable rates shall not exceed that permitted in the Bond Authorization Act, as now or hereafter amended. Bonds shall be payable at such place or places, within or without the State of Illinois, and may be made registrable as to either principal or as to both principal and interest, as shall be specified in the Bond Sale Order. Bonds
may be callable or subject to purchase and retirement or tender and remarketing as fixed and determined in the Bond Sale Order. Bonds, other than Bonds issued under Section 3 of this Act for the costs associated with the purchase and implementation of information technology, (i) except for refunding Bonds satisfying the requirements of Section 16 of this Act and sold during fiscal year 2009, 2010, or 2011, must be issued with principal or mandatory redemption amounts in equal amounts, with the first maturity issued occurring within the fiscal year in which the Bonds are issued or within the next succeeding fiscal year and (ii) must mature or be subject to mandatory redemption each fiscal year thereafter up to 25 years, except for refunding Bonds satisfying the requirements of Section 16 of this Act and sold during fiscal year 2009, 2010, or 2011 which must mature or be subject to mandatory redemption each fiscal year thereafter up to 16 years. Bonds issued under Section 3 of this Act for the costs associated with the purchase and implementation of information technology must be issued with principal or mandatory redemption amounts in equal amounts, with the first maturity issued occurring with the fiscal year in which the respective bonds are issued or with the next succeeding fiscal year, with the respective bonds issued maturing or subject to mandatory redemption each fiscal year thereafter up to 10 years. Notwithstanding any provision of this Act to the contrary, the Bonds authorized by Public Act 96-43 shall be payable within 5 years from their date and must be issued with principal or mandatory redemption amounts in equal amounts, with payment of principal or mandatory redemption beginning in the first fiscal year following the fiscal year in which the Bonds are issued.

In the case of any series of Bonds bearing interest at a variable interest rate ("Variable Rate Bonds"), in lieu of determining the rate or rates at which such series of Variable Rate Bonds shall bear interest and the price or prices at which such Variable Rate Bonds shall be initially sold or remarketed (in the event of purchase and subsequent resale), the Bond Sale Order may provide that such interest rates and prices may vary from time to time depending on criteria established in such Bond Sale Order, which criteria may include, without limitation, references to indices or variations in interest rates as may, in the judgment of a remarketing agent, be necessary to cause Variable Rate Bonds of such series to be remarketable from time to time at a price equal to their principal amount, and may provide for appointment of a bank, trust company, investment bank, or other financial institution to serve as remarketing agent in that

connection. The Bond Sale Order may provide that alternative interest rates or provisions for establishing alternative interest rates, different security or claim priorities, or different call or amortization provisions will apply during such times as Variable Rate Bonds of any series are held by a person providing credit or liquidity enhancement arrangements for such Bonds as authorized in subsection (b) of this Section. The Bond Sale Order may also provide for such variable interest rates to be established pursuant to a process generally known as an auction rate process and may provide for appointment of one or more financial institutions to serve as auction agents and broker-dealers in connection with the establishment of such interest rates and the sale and remarketing of such Bonds.

(b) In connection with the issuance of any series of Bonds, the State may enter into arrangements to provide additional security and liquidity for such Bonds, including, without limitation, bond or interest rate insurance or letters of credit, lines of credit, bond purchase contracts, or other arrangements whereby funds are made available to retire or purchase Bonds, thereby assuring the ability of owners of the Bonds to sell or redeem their Bonds. The State may enter into contracts and may agree to pay fees to persons providing such arrangements, but only under circumstances where the Director of the Governor's Office of Management and Budget certifies that he or she reasonably expects the total interest paid or to be paid on the Bonds, together with the fees for the arrangements (being treated as if interest), would not, taken together, cause the Bonds to bear interest, calculated to their stated maturity, at a rate in excess of the rate that the Bonds would bear in the absence of such arrangements.

The State may, with respect to Bonds issued or anticipated to be issued, participate in and enter into arrangements with respect to interest rate protection or exchange agreements, guarantees, or financial futures contracts for the purpose of limiting, reducing, or managing interest rate exposure. The authority granted under this paragraph, however, shall not increase the principal amount of Bonds authorized to be issued by law. The arrangements may be executed and delivered by the Director of the Governor's Office of Management and Budget on behalf of the State. Net payments for such arrangements shall constitute interest on the Bonds and shall be paid from the General Obligation Bond Retirement and Interest Fund. The Director of the Governor's Office of Management and Budget shall at least annually certify to the Governor and the State Comptroller his
or her estimate of the amounts of such net payments to be included in the calculation of interest required to be paid by the State.

(c) Prior to the issuance of any Variable Rate Bonds pursuant to subsection (a), the Director of the Governor's Office of Management and Budget shall adopt an interest rate risk management policy providing that the amount of the State's variable rate exposure with respect to Bonds shall not exceed 20%. This policy shall remain in effect while any Bonds are outstanding and the issuance of Bonds shall be subject to the terms of such policy. The terms of this policy may be amended from time to time by the Director of the Governor's Office of Management and Budget but in no event shall any amendment cause the permitted level of the State's variable rate exposure with respect to Bonds to exceed 20%.

(d) "Build America Bonds" in this Section means Bonds authorized by Section 54AA of the Internal Revenue Code of 1986, as amended ("Internal Revenue Code"), and bonds issued from time to time to refund or continue to refund "Build America Bonds".

(e) Notwithstanding any other provision of this Section, Qualified School Construction Bonds shall be issued and sold from time to time, in one or more series, in such amounts and at such prices as may be directed by the Governor, upon recommendation by the Director of the Governor's Office of Management and Budget. Qualified School Construction Bonds shall be in such form (either coupon, registered or book entry), in such denominations, payable within 25 years from their date, subject to such terms of redemption with or without premium, and if the Qualified School Construction Bonds are issued with a supplemental coupon, bear interest payable at such times and at such fixed or variable rate or rates, and be dated as shall be fixed and determined by the Director of the Governor's Office of Management and Budget in the order authorizing the issuance and sale of any series of Qualified School Construction Bonds, which order shall be approved by the Governor and is herein called a "Bond Sale Order"; except that interest payable at fixed or variable rates, if any, shall not exceed that permitted in the Bond Authorization Act, as now or hereafter amended. Qualified School Construction Bonds shall be payable at such place or places, within or without the State of Illinois, and may be made registrable as to either principal or as to both principal and interest, as shall be specified in the Bond Sale Order. Qualified School Construction Bonds may be callable or subject to purchase and retirement or tender and remarketing as fixed and determined in the Bond Sale Order. Qualified School Construction Bonds must be issued with principal or
mandatory redemption amounts or sinking fund payments into the General Obligation Bond Retirement and Interest Fund (or subaccount therefor) in equal amounts, with the first maturity issued, mandatory redemption payment or sinking fund payment occurring within the fiscal year in which the Qualified School Construction Bonds are issued or within the next succeeding fiscal year, with Qualified School Construction Bonds issued maturing or subject to mandatory redemption or with sinking fund payments thereof deposited each fiscal year thereafter up to 25 years. Sinking fund payments set forth in this subsection shall be permitted only to the extent authorized in Section 54F of the Internal Revenue Code or as otherwise determined by the Director of the Governor's Office of Management and Budget. "Qualified School Construction Bonds" in this subsection means Bonds authorized by Section 54F of the Internal Revenue Code and for bonds issued from time to time to refund or continue to refund such "Qualified School Construction Bonds".

(f) Beginning with the next issuance by the Governor's Office of Management and Budget to the Procurement Policy Board of a request for quotation for the purpose of formulating a new pool of qualified underwriting banks list, all entities responding to such a request for quotation for inclusion on that list shall provide a written report to the Governor's Office of Management and Budget and the Illinois Comptroller. The written report submitted to the Comptroller shall (i) be published on the Comptroller's Internet website and (ii) be used by the Governor's Office of Management and Budget for the purposes of scoring such a request for quotation. The written report, at a minimum, shall:

(1) disclose whether, within the past 3 months, pursuant to its credit default swap market-making activities, the firm has entered into any State of Illinois credit default swaps ("CDS");

(2) include, in the event of State of Illinois CDS activity, disclosure of the firm's cumulative notional volume of State of Illinois CDS trades and the firm's outstanding gross and net notional amount of State of Illinois CDS, as of the end of the current 3-month period;

Each board of trustees shall adopt a policy in accordance with this subsection (b) within 60 days after the effective date of this amendatory Act of the 96th General Assembly. The policy shall be posted on its web site and filed with the Illinois Procurement Policy Board. Exceptions to this Section are allowed for (i) sole source procurements, (ii) emergency procurements, and (iii) at the discretion of the pension fund, retirement system, or board of investment, contracts that are nonrenewable and one year or less in duration, so long as the contract has a value of less than $20,000. All exceptions granted under this Section must be published on the system's, fund's, or board's web site, shall name
the person authorizing the procurement, and shall include a brief explanation of the reason for the exception.

A person, other than a trustee or an employee of a retirement system, pension fund, or investment board, may not act as a consultant or investment adviser under this Section unless that person is registered as an investment adviser under the federal Investment Advisers Act of 1940 (15 U.S.C. 80b-1, et seq.) or a bank, as defined in the federal Investment Advisers Act of 1940 (15 U.S.C. 80b-1, et seq.).

The contract shall include all of the following:

Sec. 1-113.15. Qualified fund-of-fund management services.

(a) As used in this Section:

"Qualified fund-of-fund management services" means either (i) the services of an investment adviser acting in its capacity as an investment manager of a fund-of-funds or (ii) an investment adviser acting in its capacity as an investment manager of a separate account that is invested on a side-by-side basis in a substantially identical manner to a fund-of-funds, in each case pursuant to qualified written agreements.

"Qualified written agreements" means one or more written contracts to which the investment adviser and the board are parties and includes all of the following: (i) the matters described in items (1), (4), (5), (7), (11), and (12) of subsection (c) of Section 1-113.14; (ii) a description of any fees, commissions, penalties, and other compensation payable, if any, directly by the retirement system, pension fund, or investment board (which shall not include any fees, commissions, penalties, and other compensation payable from the assets of the fund-of-funds or separate account); (iii) a description (or method of calculation) of the fees and expenses payable by the Fund to the investment adviser and the timing of the payment of the fees or expenses; and (iv) a description (or method of calculation) of any carried interest or other performance based interests, fees, or payments allocable by the Fund to the investment adviser or an
affiliate of the investment adviser and the priority of distributions with respect to such interest.

(b) A description of every contract for qualified fund-of-fund management services must be posted in a conspicuous manner on the website of the retirement system, pension fund, or investment board. The description must include the name of the fund-of-funds, the name of its investment adviser, the total investment commitment of the retirement system, pension fund, or investment board to invest in such fund-of-funds, and a disclosure approved by the board describing the factors that contributed to the investment in such fund-of-funds. No information that is exempt from inspection pursuant to Section 7 of the Freedom of Information Act shall be disclosed under this Section.

(40 ILCS 5/2-124) (from Ch. 108 1/2, par. 2-124)
Sec. 2-124. Contributions by State.

(a) The State shall make contributions to the System by appropriations of amounts which, together with the contributions of participants, interest earned on investments, and other income will meet the cost of maintaining and administering the System on a 90% funded basis in accordance with actuarial recommendations.

(b) The Board shall determine the amount of State contributions required for each fiscal year on the basis of the actuarial tables and other assumptions adopted by the Board and the prescribed rate of interest, using the formula in subsection (c).

(c) For State fiscal years 2011 through 2045, the minimum contribution to the System to be made by the State for each fiscal year shall be an amount determined by the System to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of State fiscal year 2045. In making these determinations, the required State contribution shall be calculated each year as a level percentage of payroll over the years remaining to and including fiscal year 2045 and shall be determined under the projected unit credit actuarial cost method.

For State fiscal years 1996 through 2005, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments so that by State fiscal year 2011, the State is contributing at the rate required under this Section.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2006 is $4,157,000.
Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2007 is $5,220,300.

For each of State fiscal years 2008 through 2009, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments from the required State contribution for State fiscal year 2007, so that by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2010 is $10,454,000 and shall be made from the proceeds of bonds sold in fiscal year 2010 pursuant to Section 7.2 of the General Obligation Bond Act, less (i) the pro rata share of bond sale expenses determined by the System's share of total bond proceeds, (ii) any amounts received from the General Revenue Fund in fiscal year 2010, and (iii) any reduction in bond proceeds due to the issuance of discounted bonds, if applicable.

Beginning in State fiscal year 2046, the minimum State contribution for each fiscal year shall be the amount needed to maintain the total assets of the System at 90% of the total actuarial liabilities of the System.

Amounts received by the System pursuant to Section 25 of the Budget Stabilization Act or Section 8.12 of the State Finance Act in any fiscal year do not reduce and do not constitute payment of any portion of the minimum State contribution required under this Article in that fiscal year. Such amounts shall not reduce, and shall not be included in the calculation of, the required State contributions under this Article in any future year until the System has reached a funding ratio of at least 90%. A reference in this Article to the "required State contribution" or any substantially similar term does not include or apply to any amounts payable to the System under Section 25 of the Budget Stabilization Act.

Notwithstanding any other provision of this Section, the required State contribution for State fiscal year 2005 and for fiscal year 2008 and each fiscal year thereafter, as calculated under this Section and certified under Section 2-134, shall not exceed an amount equal to (i) the amount of the required State contribution that would have been calculated under this Section for that fiscal year if the System had not received any payments under subsection (d) of Section 7.2 of the General Obligation Bond Act, minus (ii) the portion of the State's total debt service payments for that fiscal year on the bonds issued in fiscal year 2003 for the purposes of that
Section 7.2, as determined and certified by the Comptroller, that is the same as the System's portion of the total moneys distributed under subsection (d) of Section 7.2 of the General Obligation Bond Act. In determining this maximum for State fiscal years 2008 through 2010, however, the amount referred to in item (i) shall be increased, as a percentage of the applicable employee payroll, in equal increments calculated from the sum of the required State contribution for State fiscal year 2007 plus the applicable portion of the State's total debt service payments for fiscal year 2007 on the bonds issued in fiscal year 2003 for the purposes of Section 7.2 of the General Obligation Bond Act, so that, by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

(d) For purposes of determining the required State contribution to the System, the value of the System's assets shall be equal to the actuarial value of the System's assets, which shall be calculated as follows:

As of June 30, 2008, the actuarial value of the System's assets shall be equal to the market value of the assets as of that date. In determining the actuarial value of the System's assets for fiscal years after June 30, 2008, any actuarial gains or losses from investment return incurred in a fiscal year shall be recognized in equal annual amounts over the 5-year period following that fiscal year.

(e) For purposes of determining the required State contribution to the system for a particular year, the actuarial value of assets shall be assumed to earn a rate of return equal to the system's actuarially assumed rate of return.

(40 ILCS 5/14-131)

Sec. 14-131. Contributions by State.

(a) The State shall make contributions to the System by appropriations of amounts which, together with other employer contributions from trust, federal, and other funds, employee contributions, investment income, and other income, will be sufficient to meet the cost of maintaining and administering the System on a 90% funded basis in accordance with actuarial recommendations.

For the purposes of this Section and Section 14-135.08, references to State contributions refer only to employer contributions and do not include employee contributions that are picked up or otherwise paid by the State or a department on behalf of the employee.
(b) The Board shall determine the total amount of State contributions required for each fiscal year on the basis of the actuarial tables and other assumptions adopted by the Board, using the formula in subsection (e).

The Board shall also determine a State contribution rate for each fiscal year, expressed as a percentage of payroll, based on the total required State contribution for that fiscal year (less the amount received by the System from appropriations under Section 8.12 of the State Finance Act and Section 1 of the State Pension Funds Continuing Appropriation Act, if any, for the fiscal year ending on the June 30 immediately preceding the applicable November 15 certification deadline), the estimated payroll (including all forms of compensation) for personal services rendered by eligible employees, and the recommendations of the actuary.

For the purposes of this Section and Section 14.1 of the State Finance Act, the term "eligible employees" includes employees who participate in the System, persons who may elect to participate in the System but have not so elected, persons who are serving a qualifying period that is required for participation, and annuitants employed by a department as described in subdivision (a)(1) or (a)(2) of Section 14-111.

(c) Contributions shall be made by the several departments for each pay period by warrants drawn by the State Comptroller against their respective funds or appropriations based upon vouchers stating the amount to be so contributed. These amounts shall be based on the full rate certified by the Board under Section 14-135.08 for that fiscal year. From the effective date of this amendatory Act of the 93rd General Assembly through the payment of the final payroll from fiscal year 2004 appropriations, the several departments shall not make contributions for the remainder of fiscal year 2004 but shall instead make payments as required under subsection (a-1) of Section 14.1 of the State Finance Act. The several departments shall resume those contributions at the commencement of fiscal year 2005.

(c-1) Notwithstanding subsection (c) of this Section, for fiscal year 2010 only, contributions by the several departments are not required to be made for General Revenue Funds payrolls processed by the Comptroller. Payrolls paid by the several departments from all other State funds must continue to be processed pursuant to subsection (c) of this Section.

(c-2) For State fiscal year 2010 only, on or as soon as possible after the 15th day of each month the Board shall submit vouchers for payment.
of State contributions to the System, in a total monthly amount of one-twelveth of the fiscal year 2010 General Revenue Fund appropriation to the System.

(d) If an employee is paid from trust funds or federal funds, the department or other employer shall pay employer contributions from those funds to the System at the certified rate, unless the terms of the trust or the federal-State agreement preclude the use of the funds for that purpose, in which case the required employer contributions shall be paid by the State. From the effective date of this amendatory Act of the 93rd General Assembly through the payment of the final payroll from fiscal year 2004 appropriations, the department or other employer shall not pay contributions for the remainder of fiscal year 2004 but shall instead make payments as required under subsection (a-1) of Section 14.1 of the State Finance Act. The department or other employer shall resume payment of contributions at the commencement of fiscal year 2005.

(e) For State fiscal years 2011 through 2045, the minimum contribution to the System to be made by the State for each fiscal year shall be an amount determined by the System to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of State fiscal year 2045. In making these determinations, the required State contribution shall be calculated each year as a level percentage of payroll over the years remaining to and including fiscal year 2045 and shall be determined under the projected unit credit actuarial cost method.

For State fiscal years 1996 through 2005, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments so that by State fiscal year 2011, the State is contributing at the rate required under this Section; except that (i) for State fiscal year 1998, for all purposes of this Code and any other law of this State, the certified percentage of the applicable employee payroll shall be 5.052% for employees earning eligible creditable service under Section 14-110 and 6.500% for all other employees, notwithstanding any contrary certification made under Section 14-135.08 before the effective date of this amendatory Act of 1997, and (ii) in the following specified State fiscal years, the State contribution to the System shall not be less than the following indicated percentages of the applicable employee payroll, even if the indicated percentage will produce a State contribution in excess of the amount otherwise required under this subsection and

Notwithstanding any other provision of this Article, the total required State contribution to the System for State fiscal year 2006 is $203,783,900.

Notwithstanding any other provision of this Article, the total required State contribution to the System for State fiscal year 2007 is $344,164,400.

For each of State fiscal years 2008 through 2009, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments from the required State contribution for State fiscal year 2007, so that by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

Notwithstanding any other provision of this Article, the total required State General Revenue Fund contribution for State fiscal year 2010 is $723,703,100 and shall be made from the proceeds of bonds sold in fiscal year 2010 pursuant to Section 7.2 of the General Obligation Bond Act, less (i) the pro rata share of bond sale expenses determined by the System's share of total bond proceeds, (ii) any amounts received from the General Revenue Fund in fiscal year 2010, and (iii) any reduction in bond proceeds due to the issuance of discounted bonds, if applicable.

Beginning in State fiscal year 2046, the minimum State contribution for each fiscal year shall be the amount needed to maintain the total assets of the System at 90% of the total actuarial liabilities of the System.

Amounts received by the System pursuant to Section 25 of the Budget Stabilization Act or Section 8.12 of the State Finance Act in any fiscal year do not reduce and do not constitute payment of any portion of the minimum State contribution required under this Article in that fiscal year. Such amounts shall not reduce, and shall not be included in the calculation of, the required State contributions under this Article in any future year until the System has reached a funding ratio of at least 90%. A reference in this Article to the "required State contribution" or any substantially similar term does not include or apply to any amounts payable to the System under Section 25 of the Budget Stabilization Act.

under Section 14-135.08, shall not exceed an amount equal to (i) the amount of the required State contribution that would have been calculated under this Section for that fiscal year if the System had not received any payments under subsection (d) of Section 7.2 of the General Obligation Bond Act, minus (ii) the portion of the State's total debt service payments for that fiscal year on the bonds issued in fiscal year 2003 for the purposes of that Section 7.2, as determined and certified by the Comptroller, that is the same as the System's portion of the total moneys distributed under subsection (d) of Section 7.2 of the General Obligation Bond Act. In determining this maximum for State fiscal years 2008 through 2010, however, the amount referred to in item (i) shall be increased, as a percentage of the applicable employee payroll, in equal increments calculated from the sum of the required State contribution for State fiscal year 2007 plus the applicable portion of the State's total debt service payments for fiscal year 2007 on the bonds issued in fiscal year 2003 for the purposes of Section 7.2 of the General Obligation Bond Act, so that, by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

(f) After the submission of all payments for eligible employees from personal services line items in fiscal year 2004 have been made, the Comptroller shall provide to the System a certification of the sum of all fiscal year 2004 expenditures for personal services that would have been covered by payments to the System under this Section if the provisions of this amendatory Act of the 93rd General Assembly had not been enacted. Upon receipt of the certification, the System shall determine the amount due to the System based on the full rate certified by the Board under Section 14-135.08 for fiscal year 2004 in order to meet the State's obligation under this Section. The System shall compare this amount due to the amount received by the System in fiscal year 2004 through payments under this Section and under Section 6z-61 of the State Finance Act. If the amount due is more than the amount received, the difference shall be termed the "Fiscal Year 2004 Shortfall" for purposes of this Section, and the Fiscal Year 2004 Shortfall shall be satisfied under Section 1.2 of the State Pension Funds Continuing Appropriation Act. If the amount due is less than the amount received, the difference shall be termed the "Fiscal Year 2004 Overpayment" for purposes of this Section, and the Fiscal Year 2004 Overpayment shall be repaid by the System to the Pension Contribution Fund as soon as practicable after the certification.

(g) For purposes of determining the required State contribution to the System, the value of the System's assets shall be equal to the actuarial value of the System's assets, which shall be calculated as follows:

As of June 30, 2008, the actuarial value of the System's assets shall be equal to the market value of the assets as of that date. In determining the actuarial value of the System's assets for fiscal years after June 30, 2008, any actuarial gains or losses from investment return incurred in a fiscal year shall be recognized in equal annual amounts over the 5-year period following that fiscal year.

(h) For purposes of determining the required State contribution to the System for a particular year, the actuarial value of assets shall be assumed to earn a rate of return equal to the System's actuarially assumed rate of return.

(i) After the submission of all payments for eligible employees from personal services line items paid from the General Revenue Fund in fiscal year 2010 have been made, the Comptroller shall provide to the System a certification of the sum of all fiscal year 2010 expenditures for personal services that would have been covered by payments to the System under this Section if the provisions of this amendatory Act of the 96th General Assembly had not been enacted. Upon receipt of the certification, the System shall determine the amount due to the System based on the full rate certified by the Board under Section 14-135.08 for fiscal year 2010 in order to meet the State's obligation under this Section. The System shall compare this amount due to the System in fiscal year 2010 through payments under this Section. If the amount due is more than the amount received, the difference shall be termed the "Fiscal Year 2010 Shortfall" for purposes of this Section, and the Fiscal Year 2010 Shortfall shall be satisfied under Section 1.2 of the State Pension Funds Continuing Appropriation Act. If the amount due is less than the amount received, the difference shall be termed the "Fiscal Year 2010 Overpayment" for purposes of this Section, and the Fiscal Year 2010 Overpayment shall be repaid by the System to the General Revenue Fund as soon as practicable after the certification.

Sec. 15-155. Employer contributions.

(a) The State of Illinois shall make contributions by appropriations of amounts which, together with the other employer contributions from

trust, federal, and other funds, employee contributions, income from investments, and other income of this System, will be sufficient to meet the cost of maintaining and administering the System on a 90% funded basis in accordance with actuarial recommendations.

The Board shall determine the amount of State contributions required for each fiscal year on the basis of the actuarial tables and other assumptions adopted by the Board and the recommendations of the actuary, using the formula in subsection (a-1).

(a-1) For State fiscal years 2011 through 2045, the minimum contribution to the System to be made by the State for each fiscal year shall be an amount determined by the System to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of State fiscal year 2045. In making these determinations, the required State contribution shall be calculated each year as a level percentage of payroll over the years remaining to and including fiscal year 2045 and shall be determined under the projected unit credit actuarial cost method.

For State fiscal years 1996 through 2005, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments so that by State fiscal year 2011, the State is contributing at the rate required under this Section.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2006 is $166,641,900.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2007 is $252,064,100.

For each of State fiscal years 2008 through 2009, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments from the required State contribution for State fiscal year 2007, so that by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2010 is $702,514,000 and shall be made from the State Pensions Fund and proceeds of bonds sold in fiscal year 2010 pursuant to Section 7.2 of the General Obligation Bond Act, less (i) the pro rata share of bond sale expenses determined by the System's share of total bond proceeds, (ii) any amounts received from the General Revenue Fund in fiscal year 2010, (iii) any reduction in bond proceeds due to the issuance of discounted bonds, if applicable.

Notwithstanding any other provision of this Section, the required State contribution for State fiscal year 2005 and for fiscal year 2008 and each fiscal year thereafter, as calculated under this Section and certified under Section 15-165, shall not exceed an amount equal to (i) the amount of the required State contribution that would have been calculated under this Section for that fiscal year if the System had not received any payments under subsection (d) of Section 7.2 of the General Obligation Bond Act, minus (ii) the portion of the State's total debt service payments for that fiscal year on the bonds issued in fiscal year 2003 for the purposes of that Section 7.2, as determined and certified by the Comptroller, that is the same as the System's portion of the total moneys distributed under subsection (d) of Section 7.2 of the General Obligation Bond Act. (b) If an employee is paid from trust or federal funds, the employer shall pay to the Board contributions from those funds which are sufficient to cover the accruing normal costs on behalf of the employee. However, universities having employees who are compensated out of local auxiliary

funds, income funds, or service enterprise funds are not required to pay such contributions on behalf of those employees. The local auxiliary funds, income funds, and service enterprise funds of universities shall not be considered trust funds for the purpose of this Article, but funds of alumni associations, foundations, and athletic associations which are affiliated with the universities included as employers under this Article and other employers which do not receive State appropriations are considered to be trust funds for the purpose of this Article.

(b-1) The City of Urbana and the City of Champaign shall each make employer contributions to this System for their respective firefighter employees who participate in this System pursuant to subsection (h) of Section 15-107. The rate of contributions to be made by those municipalities shall be determined annually by the Board on the basis of the actuarial assumptions adopted by the Board and the recommendations of the actuary, and shall be expressed as a percentage of salary for each such employee. The Board shall certify the rate to the affected municipalities as soon as may be practical. The employer contributions required under this subsection shall be remitted by the municipality to the System at the same time and in the same manner as employee contributions.

(c) Through State fiscal year 1995: The total employer contribution shall be apportioned among the various funds of the State and other employers, whether trust, federal, or other funds, in accordance with actuarial procedures approved by the Board. State of Illinois contributions for employers receiving State appropriations for personal services shall be payable from appropriations made to the employers or to the System. The contributions for Class I community colleges covering earnings other than those paid from trust and federal funds, shall be payable solely from appropriations to the Illinois Community College Board or the System for employer contributions.

(d) Beginning in State fiscal year 1996, the required State contributions to the System shall be appropriated directly to the System and shall be payable through vouchers issued in accordance with subsection (c) of Section 15-165, except as provided in subsection (g).

(e) The State Comptroller shall draw warrants payable to the System upon proper certification by the System or by the employer in accordance with the appropriation laws and this Code.

(f) Normal costs under this Section means liability for pensions and other benefits which accrues to the System because of the credits earned

for service rendered by the participants during the fiscal year and expenses of administering the System, but shall not include the principal of or any redemption premium or interest on any bonds issued by the Board or any expenses incurred or deposits required in connection therewith.

(g) If the amount of a participant's earnings for any academic year used to determine the final rate of earnings, determined on a full-time equivalent basis, exceeds the amount of his or her earnings with the same employer for the previous academic year, determined on a full-time equivalent basis, by more than 6%, the participant's employer shall pay to the System, in addition to all other payments required under this Section and in accordance with guidelines established by the System, the present value of the increase in benefits resulting from the portion of the increase in earnings that is in excess of 6%. This present value shall be computed by the System on the basis of the actuarial assumptions and tables used in the most recent actuarial valuation of the System that is available at the time of the computation. The System may require the employer to provide any pertinent information or documentation.

Whenever it determines that a payment is or may be required under this subsection (g), the System shall calculate the amount of the payment and bill the employer for that amount. The bill shall specify the calculations used to determine the amount due. If the employer disputes the amount of the bill, it may, within 30 days after receipt of the bill, apply to the System in writing for a recalculation. The application must specify in detail the grounds of the dispute and, if the employer asserts that the calculation is subject to subsection (h) or (i) of this Section, must include an affidavit setting forth and attesting to all facts within the employer's knowledge that are pertinent to the applicability of subsection (h) or (i). Upon receiving a timely application for recalculation, the System shall review the application and, if appropriate, recalculate the amount due.

The employer contributions required under this subsection (f) may be paid in the form of a lump sum within 90 days after receipt of the bill. If the employer contributions are not paid within 90 days after receipt of the bill, then interest will be charged at a rate equal to the System's annual actuarially assumed rate of return on investment compounded annually from the 91st day after receipt of the bill. Payments must be concluded within 3 years after the employer's receipt of the bill.

(h) This subsection (h) applies only to payments made or salary increases given on or after June 1, 2005 but before July 1, 2011. The changes made by Public Act 94-1057 shall not require the System to

refund any payments received before July 31, 2006 (the effective date of Public Act 94-1057).

When assessing payment for any amount due under subsection (g), the System shall exclude earnings increases paid to participants under contracts or collective bargaining agreements entered into, amended, or renewed before June 1, 2005.

When assessing payment for any amount due under subsection (g), the System shall exclude earnings increases paid to a participant at a time when the participant is 10 or more years from retirement eligibility under Section 15-135.

When assessing payment for any amount due under subsection (g), the System shall exclude earnings increases resulting from overload work, including a contract for summer teaching, or overtime when the employer has certified to the System, and the System has approved the certification, that: (i) in the case of overloads (A) the overload work is for the sole purpose of academic instruction in excess of the standard number of instruction hours for a full-time employee occurring during the academic year that the overload is paid and (B) the earnings increases are equal to or less than the rate of pay for academic instruction computed using the participant's current salary rate and work schedule; and (ii) in the case of overtime, the overtime was necessary for the educational mission.

When assessing payment for any amount due under subsection (g), the System shall exclude any earnings increase resulting from (i) a promotion for which the employee moves from one classification to a higher classification under the State Universities Civil Service System, (ii) a promotion in academic rank for a tenured or tenure-track faculty position, or (iii) a promotion that the Illinois Community College Board has recommended in accordance with subsection (k) of this Section. These earnings increases shall be excluded only if the promotion is to a position that has existed and been filled by a member for no less than one complete academic year and the earnings increase as a result of the promotion is an increase that results in an amount no greater than the average salary paid for other similar positions.

(i) When assessing payment for any amount due under subsection (g), the System shall exclude any salary increase described in subsection (h) of this Section given on or after July 1, 2011 but before July 1, 2014 under a contract or collective bargaining agreement entered into, amended, or renewed on or after June 1, 2005 but before July 1, 2011. Notwithstanding any other provision of this Section, any payments made
or salary increases given after June 30, 2014 shall be used in assessing payment for any amount due under subsection (g) of this Section.

(j) The System shall prepare a report and file copies of the report with the Governor and the General Assembly by January 1, 2007 that contains all of the following information:

1. The number of recalculations required by the changes made to this Section by Public Act 94-1057 for each employer.
2. The dollar amount by which each employer's contribution to the System was changed due to recalculations required by Public Act 94-1057.
3. The total amount the System received from each employer as a result of the changes made to this Section by Public Act 94-4.
4. The increase in the required State contribution resulting from the changes made to this Section by Public Act 94-1057.

(k) The Illinois Community College Board shall adopt rules for recommending lists of promotional positions submitted to the Board by community colleges and for reviewing the promotional lists on an annual basis. When recommending promotional lists, the Board shall consider the similarity of the positions submitted to those positions recognized for State universities by the State Universities Civil Service System. The Illinois Community College Board shall file a copy of its findings with the System. The System shall consider the findings of the Illinois Community College Board when making determinations under this Section. The System shall not exclude any earnings increases resulting from a promotion when the promotion was not submitted by a community college. Nothing in this subsection (k) shall require any community college to submit any information to the Community College Board.

(l) For purposes of determining the required State contribution to the System, the value of the System's assets shall be equal to the actuarial value of the System's assets, which shall be calculated as follows:

As of June 30, 2008, the actuarial value of the System's assets shall be equal to the market value of the assets as of that date. In determining the actuarial value of the System's assets for fiscal years after June 30, 2008, any actuarial gains or losses from investment return incurred in a fiscal year shall be recognized in equal annual amounts over the 5-year period following that fiscal year.

(m) For purposes of determining the required State contribution to the system for a particular year, the actuarial value of assets shall be
assumed to earn a rate of return equal to the system's actuarially assumed rate of return.

Sec. 16-158. Contributions by State and other employing units.

(a) The State shall make contributions to the System by means of appropriations from the Common School Fund and other State funds of amounts which, together with other employer contributions, employee contributions, investment income, and other income, will be sufficient to meet the cost of maintaining and administering the System on a 90% funded basis in accordance with actuarial recommendations.

The Board shall determine the amount of State contributions required for each fiscal year on the basis of the actuarial tables and other assumptions adopted by the Board and the recommendations of the actuary, using the formula in subsection (b-3).

(a-1) Annually, on or before November 15, the Board shall certify to the Governor the amount of the required State contribution for the coming fiscal year. The certification shall include a copy of the actuarial recommendations upon which it is based.

On or before May 1, 2004, the Board shall recalculate and recertify to the Governor the amount of the required State contribution to the System for State fiscal year 2005, taking into account the amounts appropriated to and received by the System under subsection (d) of Section 7.2 of the General Obligation Bond Act.

On or before July 1, 2005, the Board shall recalculate and recertify to the Governor the amount of the required State contribution to the System for State fiscal year 2006, taking into account the changes in required State contributions made by this amendatory Act of the 94th General Assembly.

(b) Through State fiscal year 1995, the State contributions shall be paid to the System in accordance with Section 18-7 of the School Code.

(b-1) Beginning in State fiscal year 1996, on the 15th day of each month, or as soon thereafter as may be practicable, the Board shall submit vouchers for payment of State contributions to the System, in a total monthly amount of one-twelfth of the required annual State contribution certified under subsection (a-1). From the effective date of this amendatory Act of the 93rd General Assembly through June 30, 2004, the Board shall not submit vouchers for the remainder of fiscal year 2004 in excess of the

fiscal year 2004 certified contribution amount determined under this Section after taking into consideration the transfer to the System under subsection (a) of Section 6z-61 of the State Finance Act. These vouchers shall be paid by the State Comptroller and Treasurer by warrants drawn on the funds appropriated to the System for that fiscal year.

If in any month the amount remaining unexpended from all other appropriations to the System for the applicable fiscal year (including the appropriations to the System under Section 8.12 of the State Finance Act and Section 1 of the State Pension Funds Continuing Appropriation Act) is less than the amount lawfully vouchered under this subsection, the difference shall be paid from the Common School Fund under the continuing appropriation authority provided in Section 1.1 of the State Pension Funds Continuing Appropriation Act.

(b-2) Allocations from the Common School Fund apportioned to school districts not coming under this System shall not be diminished or affected by the provisions of this Article.

(b-3) For State fiscal years 2011 through 2045, the minimum contribution to the System to be made by the State for each fiscal year shall be an amount determined by the System to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of State fiscal year 2045. In making these determinations, the required State contribution shall be calculated each year as a level percentage of payroll over the years remaining to and including fiscal year 2045 and shall be determined under the projected unit credit actuarial cost method.

For State fiscal years 1996 through 2005, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments so that by State fiscal year 2011, the State is contributing at the rate required under this Section; except that in the following specified State fiscal years, the State contribution to the System shall not be less than the following indicated percentages of the applicable employee payroll, even if the indicated percentage will produce a State contribution in excess of the amount otherwise required under this subsection and subsection (a), and notwithstanding any contrary certification made under subsection (a-1) before the effective date of this amendatory Act of 1998: 10.02% in FY 1999; 10.77% in FY 2000; 11.47% in FY 2001; 12.16% in FY 2002; 12.86% in FY 2003; and 13.56% in FY 2004.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2006 is $534,627,700.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2007 is $738,014,500.

For each of State fiscal years 2008 through 2009, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments from the required State contribution for State fiscal year 2007, so that by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2010 is $2,089,268,000 and shall be made from the proceeds of bonds sold in fiscal year 2010 pursuant to Section 7.2 of the General Obligation Bond Act, less (i) the pro rata share of bond sale expenses determined by the System's share of total bond proceeds, (ii) any amounts received from the Common School Fund in fiscal year 2010, and (iii) any reduction in bond proceeds due to the issuance of discounted bonds, if applicable.

Beginning in State fiscal year 2046, the minimum State contribution for each fiscal year shall be the amount needed to maintain the total assets of the System at 90% of the total actuarial liabilities of the System.

Amounts received by the System pursuant to Section 25 of the Budget Stabilization Act or Section 8.12 of the State Finance Act in any fiscal year do not reduce and do not constitute payment of any portion of the minimum State contribution required under this Article in that fiscal year. Such amounts shall not reduce, and shall not be included in the calculation of, the required State contributions under this Article in any future year until the System has reached a funding ratio of at least 90%. A reference in this Article to the "required State contribution" or any substantially similar term does not include or apply to any amounts payable to the System under Section 25 of the Budget Stabilization Act.

Notwithstanding any other provision of this Section, the required State contribution for State fiscal year 2005 and for fiscal year 2008 and each fiscal year thereafter, as calculated under this Section and certified under subsection (a-1), shall not exceed an amount equal to (i) the amount of the required State contribution that would have been calculated under this Section for that fiscal year if the System had not received any payments under subsection (d) of Section 7.2 of the General Obligation
Bond Act, minus (ii) the portion of the State's total debt service payments for that fiscal year on the bonds issued in fiscal year 2003 for the purposes of that Section 7.2, as determined and certified by the Comptroller, that is the same as the System's portion of the total moneys distributed under subsection (d) of Section 7.2 of the General Obligation Bond Act. In determining this maximum for State fiscal years 2008 through 2010, however, the amount referred to in item (i) shall be increased, as a percentage of the applicable employee payroll, in equal increments calculated from the sum of the required State contribution for State fiscal year 2007 plus the applicable portion of the State's total debt service payments for fiscal year 2007 on the bonds issued in fiscal year 2003 for the purposes of Section 7.2 of the General Obligation Bond Act, so that, by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

(c) Payment of the required State contributions and of all pensions, retirement annuities, death benefits, refunds, and other benefits granted under or assumed by this System, and all expenses in connection with the administration and operation thereof, are obligations of the State.

If members are paid from special trust or federal funds which are administered by the employing unit, whether school district or other unit, the employing unit shall pay to the System from such funds the full accruing retirement costs based upon that service, as determined by the System. Employer contributions, based on salary paid to members from federal funds, may be forwarded by the distributing agency of the State of Illinois to the System prior to allocation, in an amount determined in accordance with guidelines established by such agency and the System.

(d) Effective July 1, 1986, any employer of a teacher as defined in paragraph (8) of Section 16-106 shall pay the employer's normal cost of benefits based upon the teacher's service, in addition to employee contributions, as determined by the System. Such employer contributions shall be forwarded monthly in accordance with guidelines established by the System.

However, with respect to benefits granted under Section 16-133.4 or 16-133.5 to a teacher as defined in paragraph (8) of Section 16-106, the employer's contribution shall be 12% (rather than 20%) of the member's highest annual salary rate for each year of creditable service granted, and the employer shall also pay the required employee contribution on behalf of the teacher. For the purposes of Sections 16-133.4 and 16-133.5, a teacher as defined in paragraph (8) of Section 16-106 who is serving in

that capacity while on leave of absence from another employer under this Article shall not be considered an employee of the employer from which the teacher is on leave.

(e) Beginning July 1, 1998, every employer of a teacher shall pay to the System an employer contribution computed as follows:

(1) Beginning July 1, 1998 through June 30, 1999, the employer contribution shall be equal to 0.3% of each teacher's salary.

(2) Beginning July 1, 1999 and thereafter, the employer contribution shall be equal to 0.58% of each teacher's salary.

The school district or other employing unit may pay these employer contributions out of any source of funding available for that purpose and shall forward the contributions to the System on the schedule established for the payment of member contributions.

These employer contributions are intended to offset a portion of the cost to the System of the increases in retirement benefits resulting from this amendatory Act of 1998.

Each employer of teachers is entitled to a credit against the contributions required under this subsection (e) with respect to salaries paid to teachers for the period January 1, 2002 through June 30, 2003, equal to the amount paid by that employer under subsection (a-5) of Section 6.6 of the State Employees Group Insurance Act of 1971 with respect to salaries paid to teachers for that period.

The additional 1% employee contribution required under Section 16-152 by this amendatory Act of 1998 is the responsibility of the teacher and not the teacher's employer, unless the employer agrees, through collective bargaining or otherwise, to make the contribution on behalf of the teacher.

If an employer is required by a contract in effect on May 1, 1998 between the employer and an employee organization to pay, on behalf of all its full-time employees covered by this Article, all mandatory employee contributions required under this Article, then the employer shall be excused from paying the employer contribution required under this subsection (e) for the balance of the term of that contract. The employer and the employee organization shall jointly certify to the System the existence of the contractual requirement, in such form as the System may prescribe. This exclusion shall cease upon the termination, extension, or renewal of the contract at any time after May 1, 1998.
(f) If the amount of a teacher's salary for any school year used to determine final average salary exceeds the member's annual full-time salary rate with the same employer for the previous school year by more than 6%, the teacher's employer shall pay to the System, in addition to all other payments required under this Section and in accordance with guidelines established by the System, the present value of the increase in benefits resulting from the portion of the increase in salary that is in excess of 6%. This present value shall be computed by the System on the basis of the actuarial assumptions and tables used in the most recent actuarial valuation of the System that is available at the time of the computation. If a teacher's salary for the 2005-2006 school year is used to determine final average salary under this subsection (f), then the changes made to this subsection (f) by Public Act 94-1057 shall apply in calculating whether the increase in his or her salary is in excess of 6%. For the purposes of this Section, change in employment under Section 10-21.12 of the School Code on or after June 1, 2005 shall constitute a change in employer. The System may require the employer to provide any pertinent information or documentation. The changes made to this subsection (f) by this amendatory Act of the 94th General Assembly apply without regard to whether the teacher was in service on or after its effective date.

Whenever it determines that a payment is or may be required under this subsection, the System shall calculate the amount of the payment and bill the employer for that amount. The bill shall specify the calculations used to determine the amount due. If the employer disputes the amount of the bill, it may, within 30 days after receipt of the bill, apply to the System in writing for a recalculation. The application must specify in detail the grounds of the dispute and, if the employer asserts that the calculation is subject to subsection (g) or (h) of this Section, must include an affidavit setting forth and attesting to all facts within the employer's knowledge that are pertinent to the applicability of that subsection. Upon receiving a timely application for recalculation, the System shall review the application and, if appropriate, recalculate the amount due.

The employer contributions required under this subsection (f) may be paid in the form of a lump sum within 90 days after receipt of the bill. If the employer contributions are not paid within 90 days after receipt of the bill, then interest will be charged at a rate equal to the System's annual actuarially assumed rate of return on investment compounded annually from the 91st day after receipt of the bill. Payments must be concluded within 3 years after the employer's receipt of the bill.

(g) This subsection (g) applies only to payments made or salary increases given on or after June 1, 2005 but before July 1, 2011. The changes made by Public Act 94-1057 shall not require the System to refund any payments received before July 31, 2006 (the effective date of Public Act 94-1057).

When assessing payment for any amount due under subsection (f), the System shall exclude salary increases paid to teachers under contracts or collective bargaining agreements entered into, amended, or renewed before June 1, 2005.

When assessing payment for any amount due under subsection (f), the System shall exclude salary increases paid to a teacher at a time when the teacher is 10 or more years from retirement eligibility under Section 16-132 or 16-133.2.

When assessing payment for any amount due under subsection (f), the System shall exclude salary increases resulting from overload work, including summer school, when the school district has certified to the System, and the System has approved the certification, that (i) the overload work is for the sole purpose of classroom instruction in excess of the standard number of classes for a full-time teacher in a school district during a school year and (ii) the salary increases are equal to or less than the rate of pay for classroom instruction computed on the teacher's current salary and work schedule.

When assessing payment for any amount due under subsection (f), the System shall exclude a salary increase resulting from a promotion (i) for which the employee is required to hold a certificate or supervisory endorsement issued by the State Teacher Certification Board that is a different certification or supervisory endorsement than is required for the teacher's previous position and (ii) to a position that has existed and been filled by a member for no less than one complete academic year and the salary increase from the promotion is an increase that results in an amount no greater than the lesser of the average salary paid for other similar positions in the district requiring the same certification or the amount stipulated in the collective bargaining agreement for a similar position requiring the same certification.

When assessing payment for any amount due under subsection (f), the System shall exclude any payment to the teacher from the State of Illinois or the State Board of Education over which the employer does not have discretion, notwithstanding that the payment is included in the computation of final average salary.

(h) When assessing payment for any amount due under subsection (f), the System shall exclude any salary increase described in subsection (g) of this Section given on or after July 1, 2011 but before July 1, 2014 under a contract or collective bargaining agreement entered into, amended, or renewed on or after June 1, 2005 but before July 1, 2011. Notwithstanding any other provision of this Section, any payments made or salary increases given after June 30, 2014 shall be used in assessing payment for any amount due under subsection (f) of this Section.

(i) The System shall prepare a report and file copies of the report with the Governor and the General Assembly by January 1, 2007 that contains all of the following information:

1. The number of recalculation required by the changes made to this Section by Public Act 94-1057 for each employer.
2. The dollar amount by which each employer's contribution to the System was changed due to calculations required by Public Act 94-1057.
3. The total amount the System received from each employer as a result of the changes made to this Section by Public Act 94-4.
4. The increase in the required State contribution resulting from the changes made to this Section by Public Act 94-1057.

(j) For purposes of determining the required State contribution to the System, the value of the System's assets shall be equal to the actuarial value of the System's assets, which shall be calculated as follows:

As of June 30, 2008, the actuarial value of the System's assets shall be equal to the market value of the assets as of that date. In determining the actuarial value of the System's assets for fiscal years after June 30, 2008, any actuarial gains or losses from investment return incurred in a fiscal year shall be recognized in equal annual amounts over the 5-year period following that fiscal year.

(k) For purposes of determining the required State contribution to the system for a particular year, the actuarial value of assets shall be assumed to earn a rate of return equal to the system's actuarially assumed rate of return.

(40 ILCS 5/18-131) (from Ch. 108 1/2, par. 18-131)
Sec. 18-131. Financing; employer contributions.
(a) The State of Illinois shall make contributions to this System by appropriations of the amounts which, together with the contributions of participants, net earnings on investments, and other income, will meet the costs of maintaining and administering this System on a 90% funded basis in accordance with actuarial recommendations.

(b) The Board shall determine the amount of State contributions required for each fiscal year on the basis of the actuarial tables and other assumptions adopted by the Board and the prescribed rate of interest, using the formula in subsection (c).

(c) For State fiscal years 2011 through 2045, the minimum contribution to the System to be made by the State for each fiscal year shall be an amount determined by the System to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of State fiscal year 2045. In making these determinations, the required State contribution shall be calculated each year as a level percentage of payroll over the years remaining to and including fiscal year 2045 and shall be determined under the projected unit credit actuarial cost method.

For State fiscal years 1996 through 2005, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments so that by State fiscal year 2011, the State is contributing at the rate required under this Section.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2006 is $29,189,400.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2007 is $35,236,800.

For each of State fiscal years 2008 through 2009, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments from the required State contribution for State fiscal year 2007, so that by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2010 is $78,832,000 and shall be made from the proceeds of bonds sold in fiscal year 2010 pursuant to Section 7.2 of the General Obligation Bond Act, less (i) the pro rata share of bond sale expenses determined by the System's share of total bond proceeds, (ii) any amounts received from the General Revenue Fund in
fiscal year 2010, and (iii) any reduction in bond proceeds due to the issuance of discounted bonds, if applicable.

Beginning in State fiscal year 2046, the minimum State contribution for each fiscal year shall be the amount needed to maintain the total assets of the System at 90% of the total actuarial liabilities of the System.

Amounts received by the System pursuant to Section 25 of the Budget Stabilization Act or Section 8.12 of the State Finance Act in any fiscal year do not reduce and do not constitute payment of any portion of the minimum State contribution required under this Article in that fiscal year. Such amounts shall not reduce, and shall not be included in the calculation of, the required State contributions under this Article in any future year until the System has reached a funding ratio of at least 90%. A reference in this Article to the "required State contribution" or any substantially similar term does not include or apply to any amounts payable to the System under Section 25 of the Budget Stabilization Act.

Notwithstanding any other provision of this Section, the required State contribution for State fiscal year 2005 and for fiscal year 2008 and each fiscal year thereafter, as calculated under this Section and certified under Section 18-140, shall not exceed an amount equal to (i) the amount of the required State contribution that would have been calculated under this Section for that fiscal year if the System had not received any payments under subsection (d) of Section 7.2 of the General Obligation Bond Act, minus (ii) the portion of the State's total debt service payments for that fiscal year on the bonds issued in fiscal year 2003 for the purposes of that Section 7.2, as determined and certified by the Comptroller, that is the same as the System's portion of the total moneys distributed under subsection (d) of Section 7.2 of the General Obligation Bond Act. In determining this maximum for State fiscal years 2008 through 2010, however, the amount referred to in item (i) shall be increased, as a percentage of the applicable employee payroll, in equal increments calculated from the sum of the required State contribution for State fiscal year 2007 plus the applicable portion of the State's total debt service payments for fiscal year 2007 on the bonds issued in fiscal year 2003 for the purposes of Section 7.2 of the General Obligation Bond Act, so that, by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.
(d) For purposes of determining the required State contribution to the System, the value of the System's assets shall be equal to the actuarial value of the System's assets, which shall be calculated as follows:

As of June 30, 2008, the actuarial value of the System's assets shall be equal to the market value of the assets as of that date. In determining the actuarial value of the System's assets for fiscal years after June 30, 2008, any actuarial gains or losses from investment return incurred in a fiscal year shall be recognized in equal annual amounts over the 5-year period following that fiscal year.

(e) For purposes of determining the required State contribution to the system for a particular year, the actuarial value of assets shall be assumed to earn a rate of return equal to the system's actuarially assumed rate of return.

(2) The boundaries of the proposed business district by legal description and, where possible, by street location;

(3) A notification that all interested persons will be given an opportunity to be heard at the public hearing;

(5) The rate of any tax to be imposed pursuant to subsection (10) or (11) of Section 11-74.3-3;

(7) Such other matters as the municipality shall deem appropriate.

(c) At the public hearing any interested person may file written objections with the municipal clerk and may be heard orally with respect to any matters embodied in the notice. The municipality shall hear and determine all alternate proposals or bids for any proposed conveyance, lease, mortgage, or other disposition by the municipality of land or rights in land owned by the municipality and located within the proposed business district and all protests and objections at the hearing, provided, however, that the corporate authorities of the municipality may establish reasonable rules regarding the length of time provided to members of the general public. The hearing may be adjourned to another date without further notice other than a motion to be entered upon the minutes fixing the time and place of the adjourned hearing. Public hearings with regard to approval of a business district plan or designation of a business district may be held simultaneously.

(d) At the public hearing or at any time prior to the adoption by the municipality of an ordinance approving a business district plan, the municipality may make changes in the business district plan. Changes which do not (i) alter the exterior boundaries of the proposed business district, (ii) substantially affect the general land uses described in the proposed business district plan, (iii) substantially change the nature of any proposed business district project, (iv) change the description of any
proposed developer, user, or tenant of any property to be located or improved within the proposed business district, (v) increase the total estimated business district project costs set out in the business district plan by more than 5%, (vi) add additional business district costs to the itemized list of estimated business district costs as proposed in the business district plan, or (vii) impose or increase the rate of any tax to be imposed pursuant to subsection (10) or (11) of Section 11-74.3-3 may be made by the municipality without further public hearing, provided the municipality shall give notice of its changes by publication in a newspaper of general circulation within the municipality. (e) By ordinance adopted within 90 days of the final adjournment of the public hearing a municipality may approve the business district plan and designate the business district. Any ordinance adopted which approves a business district plan shall contain findings that the business district on the whole has not been subject to growth and development through investment by private enterprises and would not reasonably be anticipated to be developed or redeveloped without the adoption of the business district plan. Any ordinance adopted which designates a business district shall contain the boundaries of such business district by legal description and, where possible, by street location, a finding that the business district plan conforms to the comprehensive plan for the development of the municipality as a whole, or, for municipalities with a population of 100,000 or more, regardless of when the business district plan was approved, the business district plan either (i) conforms to the strategic

(f) After a municipality has by ordinance approved a business district plan and designated a business district, the plan may be amended, the boundaries of the business district may be altered, and the taxes provided for in subsections (10) and (11) of Section 11-74.3-3 may be imposed or altered only as provided in this subsection. A contract by and between the municipality and any developer or other nongovernmental person to pay or reimburse said developer or other nongovernmental person for business district project costs incurred or to be incurred by said developer or other nongovernmental person shall not be deemed an economic incentive agreement under Section 8-11-20, notwithstanding the fact that such contract provides for the sharing, rebate, or payment of retailers' occupation taxes or service occupation taxes (including, without limitation, taxes imposed pursuant to subsection (10) of Section 11-74.3-3(t)) the municipality receives from the development or redevelopment of properties in the business district. Sec. 11-74.3-5. Definitions. The following terms as used in this Law shall have the following meanings:

"Blighted area" means an area that is a blighted area which, by reason of the predominance of defective, non-existent, or inadequate street layout, unsanitary or unsafe conditions, deterioration of site improvements, improper subdivision or obsolete platting, or the existence of conditions which endanger life or property by fire or other causes, or any combination of those factors, retards the provision of housing accommodations or constitutes an economic or social liability, an economic underutilization of the area, or a menace to the public health, safety, morals, or welfare.

"Business district" means a contiguous area which includes only parcels of real property directly and substantially benefited by the proposed business district plan. A business district may, but need not be, a blighted area, but no municipality shall be authorized to impose taxes pursuant to subsection (10) or (11) of Section 11-74.3-3 in a business district which has not been determined by ordinance to be a blighted area under this Law.

"Business district plan" shall mean the written plan for the development or redevelopment of a business district. Each business district plan shall set forth in writing: (i) a specific description of the boundaries of the proposed business district, including a map illustrating the boundaries; (ii) a general description of each project proposed to be undertaken within the business district, including a description of the approximate location of each project and a description of any developer, user, or tenant of any property to be located or improved within the proposed business district; (iii) the name of the proposed business district; (iv) the estimated business district project costs; (v) the anticipated source
of funds to pay business district project costs; (vi) the anticipated type and terms of any obligations to be issued; and (vii) the rate of any tax to be imposed pursuant to subsection (10) (11) or (12) of Section 11-74.3-3 and the period of time for which the tax shall be imposed.

"Business district project costs" shall mean and include the sum total of all costs incurred by a municipality, other governmental entity, or nongovernmental person in connection with a business district, in the furtherance of a business district plan, including, without limitation, the following:

1. Costs of studies, surveys, development of plans and specifications, implementation and administration of a business district plan, and personnel and professional service costs including architectural, engineering, legal, marketing, financial, planning, or other professional services, provided that no charges for professional services may be based on a percentage of tax revenues received by the municipality;

2. Property assembly costs, including but not limited to, acquisition of land and other real or personal property or rights or interests therein, and specifically including payments to developers or other nongovernmental persons as reimbursement for property assembly costs incurred by that developer or other nongovernmental person;

3. Site preparation costs, including but not limited to clearance, demolition or removal of any existing buildings, structures, fixtures, utilities, and improvements and clearing and grading of land;

4. Costs of installation, repair, construction, reconstruction, extension, or relocation of public streets, public utilities, and other public site improvements within or without the business district which are essential to the preparation of the business district for use in accordance with the business district plan, and specifically including payments to developers or other nongovernmental persons as reimbursement for site preparation costs incurred by the developer or nongovernmental person;

5. Costs of renovation, rehabilitation, reconstruction, relocation, repair, or remodeling of any existing buildings, improvements, and fixtures within the business district, and specifically including payments to developers or other
nongovernmental persons as reimbursement for costs incurred by those developers or nongovernmental persons;

(6) costs of installation or construction within the business district of buildings, structures, works, streets, improvements, equipment, utilities, or fixtures, and specifically including payments to developers or other nongovernmental persons as reimbursements for such costs incurred by such developer or nongovernmental person;

Revenue in the same manner as all retailers' occupation taxes and service occupation taxes imposed in the municipality imposing the tax and all amounts generated by the hotel operators' occupation tax shall be collected and the tax shall be enforced by the municipality in the same manner as all hotel operators' occupation taxes imposed in the municipality imposing the tax. The corporate authorities of the municipality shall deposit the proceeds of the taxes imposed under subsections (10) (11) and (11) (12) of Section 11-74.3-3 into a special fund of the municipality called the "[Name of] Business District Tax Allocation Fund" for the purpose of paying or reimbursing business district project costs and obligations incurred in the payment of those costs.

(b) The corporate authorities of a municipality that has designated a business district under this Law may, by ordinance, impose a Business District Retailers' Occupation Tax upon all persons engaged in the business of selling tangible personal property, other than an item of tangible personal property titled or registered with an agency of this State's government, at retail in the business district at a rate not to exceed 1% of the gross receipts from the sales made in the course of such business, to be imposed only in 0.25% increments. The tax may not be imposed on food for human consumption that is to be consumed off the premises where it is sold (other than alcoholic beverages, soft drinks, and food that has been prepared for immediate consumption), prescription and nonprescription medicines, drugs, medical appliances, modifications to a motor vehicle for the purpose of rendering it usable by a disabled person, and insulin, urine testing materials, syringes, and needles used by diabetics, for human use.

The tax imposed under this subsection and all civil penalties that may be assessed as an incident thereof shall be collected and enforced by the Department of Revenue. The certificate of registration that is issued by the Department to a retailer under the Retailers' Occupation Tax Act shall permit the retailer to engage in a business that is taxable under any ordinance or resolution enacted pursuant to this subsection without registering separately with the Department under such ordinance or resolution or under this subsection. The Department of Revenue shall have full power to administer and enforce this subsection; to collect all taxes and penalties due under this subsection in the manner hereinafter provided; and to determine all rights to credit memoranda arising on account of the erroneous payment of tax or penalty under this subsection. In the administration of, and compliance with, this subsection, the Department and persons who are subject to this subsection shall have the same rights,

remedies, privileges, immunities, powers and duties, and be subject to the same conditions, restrictions, limitations, penalties, exclusions, exemptions, and definitions of terms and employ the same modes of procedure, as are prescribed in Sections 1, 1a through 1o, 2 through 2-65 (in respect to all provisions therein other than the State rate of tax), 2c through 2h, 3 (except as to the disposition of taxes and penalties collected), 4, 5, 5a, 5c, 5d, 5e, 5f, 5g, 5i, 5j, 5k, 5l, 6, 6a, 6b, 6c, 7, 8, 9, 10, 11, 12, 13, and 14 of the Retailers' Occupation Tax Act and all provisions of the Uniform Penalty and Interest Act, as fully as if those provisions were set forth herein.

Persons subject to any tax imposed under this subsection may reimburse themselves for their seller's tax liability under this subsection by separately stating the tax as an additional charge, which charge may be stated in combination, in a single amount, with State taxes that sellers are required to collect under the Use Tax Act, in accordance with such bracket schedules as the Department may prescribe.

Whenever the Department determines that a refund should be made under this subsection to a claimant instead of issuing a credit memorandum, the Department shall notify the State Comptroller, who shall cause the order to be drawn for the amount specified and to the person named in the notification from the Department. The refund shall be paid by the State Treasurer out of the business district retailers' occupation tax fund.

The Department shall immediately pay over to the State Treasurer, ex officio, as trustee, all taxes, penalties, and interest collected under this subsection for deposit into the business district retailers' occupation tax fund.

As soon as possible after the first day of each month, beginning January 1, 2011, upon certification of the Department of Revenue, the Comptroller shall order transferred, and the Treasurer shall transfer, to the STAR Bonds Revenue Fund the local sales tax increment, as defined in the Innovation Development and Economy Act, collected under this subsection during the second preceding calendar month for sales within a STAR bond district.

After the monthly transfer to the STAR Bonds Revenue Fund, on or before the 25th day of each calendar month, the Department shall prepare and certify to the Comptroller the disbursement of stated sums of money to named municipalities from the business district retailers' occupation tax fund, the municipalities to be those from which retailers

have paid taxes or penalties under this subsection to the Department during the second preceding calendar month. The amount to be paid to each municipality shall be the amount (not including credit memoranda) collected under this subsection during the second preceding calendar month by the Department plus an amount the Department determines is necessary to offset any amounts that were erroneously paid to a different taxing body, and not including an amount equal to the amount of refunds made during the second preceding calendar month by the Department, less 2% of that amount, which shall be deposited into the Tax Compliance and Administration Fund and shall be used by the Department, subject to appropriation, to cover the costs of the Department in administering and enforcing the provisions of this subsection, on behalf of such municipality, and not including any amount that the Department determines is necessary to offset any amounts that were payable to a different taxing body but were erroneously paid to the municipality, and not including any amounts that are transferred to the STAR Bonds Revenue Fund. Within 10 days after receipt by the Comptroller of the disbursement certification to the municipalities provided for in this subsection to be given to the Comptroller by the Department, the Comptroller shall cause the orders to be drawn for the respective amounts in accordance with the directions contained in the certification. The proceeds of the tax paid to municipalities under this subsection shall be deposited into the Business District Tax Allocation Fund by the municipality.

An ordinance imposing or discontinuing the tax under this subsection or effecting a change in the rate thereof shall either (i) be adopted and a certified copy thereof filed with the Department on or before the first day of April, whereupon the Department, if all other requirements of this subsection are met, shall proceed to administer and enforce this subsection as of the first day of July next following the adoption and filing; or (ii) be adopted and a certified copy thereof filed with the Department on or before the first day of October, whereupon, if all other requirements of this subsection are met, the Department shall proceed to administer and enforce this subsection as of the first day of January next following the adoption and filing.

The Department of Revenue shall not administer or enforce an ordinance imposing, discontinuing, or changing the rate of the tax under this subsection, until the municipality also provides, in the manner prescribed by the Department, the boundaries of the business district and each address in the business district in such a way that the Department can
determine by its address whether a business is located in the business district. The municipality must provide this boundary and address information to the Department on or before April 1 for administration and enforcement of the tax under this subsection by the Department beginning on the following July 1 and on or before October 1 for administration and enforcement of the tax under this subsection by the Department beginning on the following January 1. The Department of Revenue shall not administer or enforce any change made to the boundaries of a business district or address change, addition, or deletion until the municipality reports the boundary change or address change, addition, or deletion to the Department in the manner prescribed by the Department. The municipality must provide this boundary change information or address change, addition, or deletion to the Department on or before April 1 for administration and enforcement by the Department of the change beginning on the following July 1 and on or before October 1 for administration and enforcement by the Department of the change beginning on the following January 1. The retailers in the business district shall be responsible for charging the tax imposed under this subsection. If a retailer is incorrectly included or excluded from the list of those required to collect the tax under this subsection, both the Department of Revenue and the retailer shall be held harmless if they reasonably relied on information provided by the municipality.

A municipality that imposes the tax under this subsection must submit to the Department of Revenue any other information as the Department may require for the administration and enforcement of the tax. When certifying the amount of a monthly disbursement to a municipality under this subsection, the Department shall increase or decrease the amount by an amount necessary to offset any misallocation of previous disbursements. The offset amount shall be the amount erroneously disbursed within the previous 6 months from the time a misallocation is discovered.

Nothing in this subsection shall be construed to authorize the municipality to impose a tax upon the privilege of engaging in any business which under the Constitution of the United States may not be made the subject of taxation by this State.

If a tax is imposed under this subsection (b), a tax shall also be imposed under subsection (c) of this Section.

(c) If a tax has been imposed under subsection (b), a Business District Service Occupation Tax shall also be imposed upon all persons

engaged, in the business district, in the business of making sales of service, who, as an incident to making those sales of service, transfer tangible personal property within the business district, either in the form of tangible personal property or in the form of real estate as an incident to a sale of service. The tax shall be imposed at the same rate as the tax imposed in subsection (b) and shall not exceed 1% of the selling price of tangible personal property so transferred within the business district, to be imposed only in 0.25% increments. The tax may not be imposed on food for human consumption that is to be consumed off the premises where it is sold (other than alcoholic beverages, soft drinks, and food that has been prepared for immediate consumption), prescription and nonprescription medicines, drugs, medical appliances, modifications to a motor vehicle for the purpose of rendering it usable by a disabled person, and insulin, urine testing materials, syringes, and needles used by diabetics, for human use.

The tax imposed under this subsection and all civil penalties that may be assessed as an incident thereof shall be collected and enforced by the Department of Revenue. The certificate of registration which is issued by the Department to a retailer under the Retailers’ Occupation Tax Act or under the Service Occupation Tax Act shall permit such registrant to engage in a business which is taxable under any ordinance or resolution enacted pursuant to this subsection without registering separately with the Department under such ordinance or resolution or under this subsection. The Department of Revenue shall have full power to administer and enforce this subsection; to collect all taxes and penalties due under this subsection; to dispose of taxes and penalties so collected in the manner hereinafter provided; and to determine all rights to credit memoranda arising on account of the erroneous payment of tax or penalty under this subsection. In the administration of, and compliance with this subsection, the Department and persons who are subject to this subsection shall have the same rights, remedies, privileges, immunities, powers and duties, and be subject to the same conditions, restrictions, limitations, penalties, exclusions, exemptions, and definitions of terms and employ the same modes of procedure as are prescribed in Sections 2, 2a through 2d, 3 through 3-50 (in respect to all provisions therein other than the State rate of tax), 4 (except that the reference to the State shall be to the business district), 5, 7, 8 (except that the jurisdiction to which the tax shall be a debt to the extent indicated in that Section 8 shall be the municipality), 9 (except as to the disposition of taxes and penalties collected, and except that the returned merchandise credit for this tax may not be taken against
any State tax), 10, 11, 12 (except the reference therein to Section 2b of the Retailers' Occupation Tax Act), 13 (except that any reference to the State shall mean the municipality), the first paragraph of Section 15, and Sections 16, 17, 18, 19 and 20 of the Service Occupation Tax Act and all provisions of the Uniform Penalty and Interest Act, as fully as if those provisions were set forth herein.

Persons subject to any tax imposed under the authority granted in this subsection may reimburse themselves for their serviceman's tax liability hereunder by separately stating the tax as an additional charge, which charge may be stated in combination, in a single amount, with State tax that servicemen are authorized to collect under the Service Use Tax Act, in accordance with such bracket schedules as the Department may prescribe.

Whenever the Department determines that a refund should be made under this subsection to a claimant instead of issuing credit memorandum, the Department shall notify the State Comptroller, who shall cause the order to be drawn for the amount specified, and to the person named, in such notification from the Department. Such refund shall be paid by the State Treasurer out of the business district retailers' occupation tax fund.

The Department shall forthwith pay over to the State Treasurer, ex-officio, as trustee, all taxes, penalties, and interest collected under this subsection for deposit into the business district retailers' occupation tax fund.

As soon as possible after the first day of each month, beginning January 1, 2011, upon certification of the Department of Revenue, the Comptroller shall order transferred, and the Treasurer shall transfer, to the STAR Bonds Revenue Fund the local sales tax increment, as defined in the Innovation Development and Economy Act, collected under this subsection during the second preceding calendar month for sales within a STAR bond district.

After the monthly transfer to the STAR Bonds Revenue Fund, on or before the 25th day of each calendar month, the Department shall prepare and certify to the Comptroller the disbursement of stated sums of money to named municipalities from the business district retailers' occupation tax fund, the municipalities to be those from which suppliers and servicemen have paid taxes or penalties under this subsection to the Department during the second preceding calendar month. The amount to be paid to each municipality shall be the amount (not including credit memoranda) collected under this subsection during the second preceding

calendar month by the Department, less 2% of that amount, which shall be deposited into the Tax Compliance and Administration Fund and shall be used by the Department, subject to appropriation, to cover the costs of the Department in administering and enforcing the provisions of this subsection, and not including an amount equal to the amount of refunds made during the second preceding calendar month by the Department on behalf of such municipality, and not including any amounts that are transferred to the STAR Bonds Revenue Fund. Within 10 days after receipt, by the Comptroller, of the disbursement certification to the municipalities, provided for in this subsection to be given to the Comptroller by the Department, the Comptroller shall cause the orders to be drawn for the respective amounts in accordance with the directions contained in such certification. The proceeds of the tax paid to municipalities under this subsection shall be deposited into the Business District Tax Allocation Fund by the municipality.

An ordinance imposing or discontinuing the tax under this subsection or effecting a change in the rate thereof shall either (i) be adopted and a certified copy thereof filed with the Department on or before the first day of April, whereupon the Department, if all other requirements of this subsection are met, shall proceed to administer and enforce this subsection as of the first day of July next following the adoption and filing; or (ii) be adopted and a certified copy thereof filed with the Department on or before the first day of October, whereupon, if all other conditions of this subsection are met, the Department shall proceed to administer and enforce this subsection as of the first day of January next following the adoption and filing.

The Department of Revenue shall not administer or enforce an ordinance imposing, discontinuing, or changing the rate of the tax under this subsection, until the municipality also provides, in the manner prescribed by the Department, the boundaries of the business district in such a way that the Department can determine by its address whether a business is located in the business district. The municipality must provide this boundary and address information to the Department on or before April 1 for administration and enforcement of the tax under this subsection by the Department beginning on the following July 1 and on or before October 1 for administration and enforcement of the tax under this subsection by the Department beginning on the following January 1. The Department of Revenue shall not administer or enforce any change made to the boundaries of a business district or address change, addition, or
deletion until the municipality reports the boundary change or address change, addition, or deletion to the Department in the manner prescribed by the Department. The municipality must provide this boundary change information or address change, addition, or deletion to the Department on or before April 1 for administration and enforcement by the Department of the change beginning on the following July 1 and on or before October 1 for administration and enforcement by the Department of the change beginning on the following January 1. The retailers in the business district shall be responsible for charging the tax imposed under this subsection. If a retailer is incorrectly included or excluded from the list of those required to collect the tax under this subsection, both the Department of Revenue and the retailer shall be held harmless if they reasonably relied on information provided by the municipality.

A municipality that imposes the tax under this subsection must submit to the Department of Revenue any other information as the Department may require for the administration and enforcement of the tax.

Nothing in this subsection shall be construed to authorize the municipality to impose a tax upon the privilege of engaging in any business which under the Constitution of the United States may not be made the subject of taxation by the State.

If a tax is imposed under this subsection (c), a tax shall also be imposed under subsection (b) of this Section.

(d) By ordinance, a municipality that has designated a business district under this Law may impose an occupation tax upon all persons engaged in the business district in the business of renting, leasing, or letting rooms in a hotel, as defined in the Hotel Operators' Occupation Tax Act, at a rate not to exceed 1% of the gross rental receipts from the renting, leasing, or letting of hotel rooms within the business district, to be imposed only in 0.25% increments, excluding, however, from gross rental receipts the proceeds of renting, leasing, or letting to permanent residents of a hotel, as defined in the Hotel Operators' Occupation Tax Act, and proceeds from the tax imposed under subsection (c) of Section 13 of the Metropolitan Pier and Exposition Authority Act.

The tax imposed by the municipality under this subsection and all civil penalties that may be assessed as an incident to that tax shall be collected and enforced by the municipality imposing the tax. The municipality shall have full power to administer and enforce this subsection, to collect all taxes and penalties due under this subsection, to dispose of taxes and penalties so collected in the manner provided in this
subsection, and to determine all rights to credit memoranda arising on account of the erroneous payment of tax or penalty under this subsection. In the administration of and compliance with this subsection, the municipality and persons who are subject to this subsection shall have the same rights, remedies, privileges, immunities, powers, and duties, shall be subject to the same conditions, restrictions, limitations, penalties, and definitions of terms, and shall employ the same modes of procedure as are employed with respect to a tax adopted by the municipality under Section 8-3-14 of this Code.

Persons subject to any tax imposed under the authority granted in this subsection may reimburse themselves for their tax liability for that tax by separately stating that tax as an additional charge, which charge may be stated in combination, in a single amount, with State taxes imposed under the Hotel Operators' Occupation Tax Act, and with any other tax.

Nothing in this subsection shall be construed to authorize a municipality to impose a tax upon the privilege of engaging in any business which under the Constitution of the United States may not be made the subject of taxation by this State.

The proceeds of the tax imposed under this subsection shall be deposited into the Business District Tax Allocation Fund.

(e) Obligations secured by the Business District Tax Allocation Fund may be issued to provide for the payment or reimbursement of business district project costs. Those obligations, when so issued, shall be retired in the manner provided in the ordinance authorizing the issuance of those obligations by the receipts of taxes imposed pursuant to subsections (10) (11) (12) of Section 11-74.3-3 and by other revenue designated or pledged by the municipality. A municipality may in the ordinance pledge, for any period of time up to and including the dissolution date, all or any part of the funds in and to be deposited in the Business District Tax Allocation Fund to the payment of business district project costs and obligations. Whenever a municipality pledges all of the funds to the credit of a business district tax allocation fund to secure obligations issued or to be issued to pay or reimburse business district project costs, the municipality may specifically provide that funds remaining to the credit of such business district tax allocation fund after the payment of such obligations shall be accounted for annually and shall be deemed to be "surplus" funds, and such "surplus" funds shall be expended by the municipality for any business district project cost as approved in the business district plan. Whenever a municipality pledges

less than all of the monies to the credit of a business district tax allocation fund to secure obligations issued or to be issued to pay or reimburse business district project costs, the municipality shall provide that monies to the credit of the business district tax allocation fund and not subject to such pledge or otherwise encumbered or required for payment of contractual obligations for specific business district project costs shall be calculated annually and shall be deemed to be "surplus" funds, and such "surplus" funds shall be expended by the municipality for any business district project cost as approved in the business district plan.

No obligation issued pursuant to this Law and secured by a pledge of all or any portion of any revenues received or to be received by the municipality from the imposition of taxes pursuant to subsection (10)(11) of Section 11-74.3-3, shall be deemed to constitute an economic incentive agreement under Section 8-11-20, notwithstanding the fact that such pledge provides for the sharing, rebate, or payment of retailers' occupation taxes or service occupation taxes imposed pursuant to subsection (10)(11) of Section 11-74.3-3 and received or to be received by the municipality from the development or redevelopment of properties in the business district.

Without limiting the foregoing in this Section, the municipality may further secure obligations secured by the business district tax allocation fund with a pledge, for a period not greater than the term of the obligations and in any case not longer than the dissolution date, of any part or any combination of the following: (i) net revenues of all or part of any business district project; (ii) taxes levied or imposed by the municipality on any or all property in the municipality, including, specifically, taxes levied or imposed by the municipality in a special service area pursuant to the Special Service Area Tax Law; (iii) the full faith and credit of the municipality; (iv) a mortgage on part or all of the business district project; or (v) any other taxes or anticipated receipts that the municipality may lawfully pledge.

Such obligations may be issued in one or more series, bear such date or dates, become due at such time or times as therein provided, but in any case not later than (i) 20 years after the date of issue or (ii) the dissolution date, whichever is earlier, bear interest payable at such intervals and at such rate or rates as set forth therein, except as may be limited by applicable law, which rate or rates may be fixed or variable, be in such denominations, be in such form, either coupon, registered, or book-entry, carry such conversion, registration and exchange privileges, be
subject to defeasance upon such terms, have such rank or priority, be executed in such manner, be payable in such medium or payment at such place or places within or without the State, make provision for a corporate trustee within or without the State with respect to such obligations, prescribe the rights, powers, and duties thereof to be exercised for the benefit of the municipality and the benefit of the owners of such obligations, provide for the holding in trust, investment, and use of moneys, funds, and accounts held under an ordinance, provide for assignment of and direct payment of the moneys to pay such obligations or to be deposited into such funds or accounts directly to such trustee, be subject to such terms of redemption with or without premium, and be sold at such price, all as the corporate authorities shall determine. No referendum approval of the electors shall be required as a condition to the issuance of obligations pursuant to this Law except as provided in this Section.

In the event the municipality authorizes the issuance of obligations pursuant to the authority of this Law secured by the full faith and credit of the municipality, or pledges ad valorem taxes pursuant to this subsection, which obligations are other than obligations which may be issued under home rule powers provided by Section 6 of Article VII of the Illinois Constitution or which ad valorem taxes are other than ad valorem taxes which may be pledged under home rule powers provided by Section 6 of Article VII of the Illinois Constitution or which are levied in a special service area pursuant to the Special Service Area Tax Law, the ordinance authorizing the issuance of those obligations or pledging those taxes shall be published within 10 days after the ordinance has been adopted, in a newspaper having a general circulation within the municipality. The publication of the ordinance shall be accompanied by a notice of (i) the specific number of voters required to sign a petition requesting the question of the issuance of the obligations or pledging such ad valorem taxes to be submitted to the electors; (ii) the time within which the petition must be filed; and (iii) the date of the prospective referendum. The municipal clerk shall provide a petition form to any individual requesting one.

If no petition is filed with the municipal clerk, as hereinafter provided in this Section, within 21 days after the publication of the ordinance, the ordinance shall be in effect. However, if within that 21-day period a petition is filed with the municipal clerk, signed by electors numbering not less than 15% of the number of electors voting for the
mayor or president at the last general municipal election, asking that the question of issuing obligations using full faith and credit of the municipality as security for the cost of paying or reimbursing business district project costs, or of pledging such ad valorem taxes for the payment of those obligations, or both, be submitted to the electors of the municipality, the municipality shall not be authorized to issue obligations of the municipality using the full faith and credit of the municipality as security or pledging such ad valorem taxes for the payment of those obligations, or both, until the proposition has been submitted to and approved by a majority of the voters voting on the proposition at a regularly scheduled election. The municipality shall certify the proposition to the proper election authorities for submission in accordance with the general election law.

The ordinance authorizing the obligations may provide that the obligations shall contain a recital that they are issued pursuant to this Law, which recital shall be conclusive evidence of their validity and of the regularity of their issuance.

In the event the municipality authorizes issuance of obligations pursuant to this Law secured by the full faith and credit of the municipality, the ordinance authorizing the obligations may provide for the levy and collection of a direct annual tax upon all taxable property within the municipality sufficient to pay the principal thereof and interest thereon as it matures, which levy may be in addition to and exclusive of the maximum of all other taxes authorized to be levied by the municipality, which levy, however, shall be abated to the extent that monies from other sources are available for payment of the obligations and the municipality certifies the amount of those monies available to the county clerk.

A certified copy of the ordinance shall be filed with the county clerk of each county in which any portion of the municipality is situated, and shall constitute the authority for the extension and collection of the taxes to be deposited in the business district tax allocation fund.

A municipality may also issue its obligations to refund, in whole or in part, obligations theretofore issued by the municipality under the authority of this Law, whether at or prior to maturity. However, the last maturity of the refunding obligations shall not be expressed to mature later than the dissolution date.

In the event a municipality issues obligations under home rule powers or other legislative authority, the proceeds of which are pledged to

pay or reimburse business district project costs, the municipality may, if it has followed the procedures in conformance with this Law, retire those obligations from funds in the business district tax allocation fund in amounts and in such manner as if those obligations had been issued pursuant to the provisions of this Law.

No obligations issued pursuant to this Law shall be regarded as indebtedness of the municipality issuing those obligations or any other taxing district for the purpose of any limitation imposed by law.

Obligations issued pursuant to this Law shall not be subject to the provisions of the Bond Authorization Act.

(f) When business district project costs, including, without limitation, all obligations paying or reimbursing business district project costs have been paid, any surplus funds then remaining in the Business District Tax Allocation Fund shall be distributed to the municipal treasurer for deposit into the general corporate fund of the municipality. Upon payment of all business district project costs and retirement of all obligations paying or reimbursing business district project costs, but in no event more than 23 years after the date of adoption of the ordinance imposing taxes pursuant to subsection (10) or (11) of Section 11-74.3-3, the municipality shall adopt an ordinance immediately rescinding the taxes imposed pursuant to subsection (10) or (11) of Section 11-74.3-3 said subsections.

No redevelopment project area shall be designated unless a plan and project are approved prior to the designation of such area and such area shall include only those contiguous parcels of real property and improvements thereon substantially benefited by the proposed redevelopment project improvements. Upon adoption of the ordinances, the municipality shall forthwith transmit to the county clerk of the county or counties within which the redevelopment project area is located a certified copy of the ordinances, a legal description of the redevelopment project area, a map of the redevelopment project area, identification of the year that the county clerk shall use for determining the total initial equalized assessed value of the redevelopment project area consistent with subsection (a) of Section 11-74.4-9, and a list of the parcel or tax identification number of each parcel of property included in the redevelopment project area.

(b) Make and enter into all contracts with property owners, developers, tenants, overlapping taxing bodies, and others necessary or incidental to the implementation and furtherance of its redevelopment plan and project. Payments received under contracts entered into by the municipality prior to the effective date of this amendatory Act of the 93rd General Assembly that are received after the redevelopment project area has been terminated by municipal ordinance shall be deposited into a special fund of the municipality to be used for other community redevelopment needs within the redevelopment project area.

No conveyance, lease, mortgage, disposition of land or other property owned by a municipality, or agreement relating to the development of such municipal property shall be made except upon the adoption of an ordinance by the corporate authorities of the municipality. Furthermore, no conveyance, lease, mortgage, or other disposition of land owned by a municipality or agreement relating to the development of such municipal property shall be made without making public disclosure of the terms of the disposition and all bids and proposals made in response to the municipality's request. The procedures for obtaining such bids and proposals shall provide reasonable opportunity for any person to submit alternative proposals or bids.

WHEREAS, The rules of the FDIC create a double standard that harms our communities because community banks are seized and sold, even though the Treasury Secretary says Park National Bank is doing all the right things to help turn itself around; and

WHEREAS, Other community banks that make the spirit and letter of the Community Reinvestment Act their core mission may be in jeopardy; and

WHEREAS, A coalition of church and community leaders from across Chicago's neighborhoods have taken the initiative to raise awareness about the FDIC's actions against Park National Bank; the Coalition's initial steps have included conducting research on the impact that the FDIC's seizure of Park National Bank will have on minority lending and mortgage foreclosures in the community; developing a petition drive calling for a Congressional Hearing investigating the FDIC's actions and the apparent lack of federal aid for a model community bank, and holding a Community Town Hall Meeting; and

WHEREAS, For community banks to continue being an integral part in the development of our communities and this State as a whole, the federal government needs to consider reforms to assist and preserve community banks; therefore, be it

November 2010 general election; and

WHEREAS, The Illinois Constitutional Amendment Act requires the
General Assembly to prepare a brief explanation of the proposed amendment,
a brief argument in favor of the amendment, a brief argument against the
amendment, and the form in which the amendment will appear on the ballot,
and also requires the information to be published and distributed to the
electorate; therefore, be it

RESOLVED, BY THE HOUSE OF REPRESENTATIVES OF THE
NINETY-SIXTH GENERAL ASSEMBLY OF THE STATE OF ILLINOIS,
THE SENATE CONCURRING HEREIN, that the proposed form of new
Section 7 of Article III shall be published as follows:

"ARTICLE III
SUFFRAGE AND ELECTIONS
SECTION 7. INITIATIVE TO RECALL GOVERNOR

(a) The recall of the Governor may be proposed by a petition signed
by a number of electors equal in number to at least 15% of the total votes cast
for Governor in the preceding gubernatorial election, with at least 100
signatures from each of at least 25 separate counties. A petition shall have
been signed by the petitioning electors not more than 150 days after an
affidavit has been filed with the State Board of Elections providing notice of
intent to circulate a petition to recall the Governor. The affidavit may be filed
no sooner than 6 months after the beginning of the Governor's term of office.
The affidavit shall have been signed by the proponent of the recall petition,
at least 20 members of the House of Representatives, and at least 10 members
of the Senate, with no more than half of the signatures of members of each
chamber from the same established political party."
(b) The form of the petition, circulation, and procedure for determining the validity and sufficiency of a petition shall be as provided by law. If the petition is valid and sufficient, the State Board of Elections shall certify the petition not more than 100 days after the date the petition was filed, and the question "Shall (name) be recalled from the office of Governor?" must be submitted to the electors at a special election called by the State Board of Elections, to occur not more than 100 days after certification of the petition. A recall petition certified by the State Board of Elections may not be withdrawn and another recall petition may not be initiated against the Governor during the remainder of the current term of office. Any recall petition or recall election pending on the date of the next general election at which a candidate for Governor is elected is moot.

(c) If a petition to recall the Governor has been filed with the State Board of Elections, a person eligible to serve as Governor may propose his or her candidacy by a petition signed by a number of electors equal in number to the requirement for petitions for an established party candidate for the office of Governor, signed by petitioning electors not more than 50 days after a recall petition has been filed with the State Board of Elections. The form of a successor election petition, circulation, and procedure for determining the validity and sufficiency of a petition shall be as provided by law. If the successor election petition is valid and sufficient, the State Board of Elections shall certify the petition not more than 100 days after the date the petition to recall the Governor was filed. Names of candidates for nomination to serve as the candidate of an established political party must be submitted to the electors at a special primary election, if necessary, called by the State Board of Elections to be held at the same time as the special election on the question of recall established under subsection (b). Names of candidates for the successor election must be submitted to the electors at a special successor election called by the State Board of Elections, to occur not more than 60 days after the date of the special primary election or on a date established by law.

(d) The Governor is immediately removed upon certification of the recall election results if a majority of the electors voting on the question vote to recall the Governor. If the Governor is removed, then (i) an Acting Governor determined under subsection (a) of Section 6 of Article V shall serve until the Governor elected at the special successor election is qualified and (ii) the candidate who receives the highest number of votes in the special successor election is elected Governor for the balance of the term,"; and be it further

RESOLVED, That a brief explanation of the proposed amendment, a brief argument in favor of the amendment, a brief argument against the
amendment, and the form in which the amendment will appear on the ballot
shall be published and distributed as follows:

PROPOSED AMENDMENT

TO ADD SECTION 7 TO ARTICLE III

OF THE ILLINOIS CONSTITUTION

That will be submitted to the voters

November 2, 2010

This pamphlet includes

EXPLANATION OF THE PROPOSED AMENDMENT

ARGUMENTS IN FAVOR OF THE AMENDMENT

ARGUMENTS AGAINST THE AMENDMENT

FORM OF BALLOT

To the Electors of the State of Illinois:

The purpose of a state constitution is to establish a structure for government
and laws. The Illinois Constitution provides citizens with rights and
protections; creates the executive, judicial, and legislative branches of
government; clarifies the powers given to local governments; limits the
taxing power of the State; and imposes certain restrictions on the use of
taxpayer dollars. There are three ways to initiate change to the Illinois
Constitution: (1) a constitutional convention may propose changes to any
part; (2) the General Assembly may propose changes to any part; or (3) the
people of the State by referendum may propose changes to the Legislative
Article. Regardless of the method of initiating change, the people of Illinois
must approve any changes to the Constitution before they become effective.

The proposed amendment, which takes effect upon approval by the voters,
adds Section 7 to the Suffrage and Elections Article of the Illinois
Constitution. The new section would provide the State's electors with an
option to petition for a special election to recall a Governor and for the
election of a successor Governor. At the general election to be held on
November 2, 2010, you will be called upon to decide whether the proposed
amendment should become part of the Illinois Constitution.

EXPLANATION

The Illinois Constitution provides the General Assembly with exclusive
authority to remove a Governor through the impeachment process. The
Illinois Constitution also provides that the order of succession to the office
of Governor shall be the Lieutenant Governor, the elected Attorney General,
the elected Secretary of State, and then as provided by law. The proposed
amendment would provide the State's electors with the ability to initiate a
special election to recall a Governor and elect a new Governor.

To begin the recall process, an elector must file an affidavit of intent to
circulate petitions to recall a Governor no sooner than 6 months after the
beginning of the Governor's term of office. The affidavit must include signatures of the proponent of the recall petition, at least 20 members of the House of Representatives, and at least 10 members of the Senate, with no more than half of the signatures in each chamber from the same political party. After filing the affidavit with the State Board of Elections, the proponent has 150 days to circulate a petition. The petition must include signatures equal to 15% of the total votes cast for Governor in the preceding gubernatorial election, with at least 100 signatures from a minimum of 25 counties. Within 100 days, the State Board of Elections must certify or reject the petition, and if the Board certifies the petition, a special election must be held within 100 days after the certification. The special election ballot shall include the question, "Shall (name) be removed from the office of Governor?". The Governor is immediately removed if a majority of the electors voting on the question vote to recall the Governor.

Persons seeking to be elected to serve as the successor Governor may circulate nomination petitions. A petition must be signed by 5,000 electors. If multiple candidates of the same party file petitions, a special primary election will occur on the same day as the recall election.

If a Governor is recalled, a special election to elect the successor Governor must take place within 60 days. An Acting Governor, as determined by the order of succession, shall assume the duties of the Governor until the electors choose a new Governor. The special election ballot will include the names of the candidates nominated at the special primary election, as well as any independent or new party candidates, on a special election ballot. The candidate receiving the highest number of votes shall be elected Governor for the balance of the term.

Voters that believe the Illinois Constitution should be amended to provide for a special election to recall a Governor and for a special election to elect a successor Governor should vote "YES" on the question. Three-fifths of those voting on the question, or a majority of those voting in the election, must vote "YES" in order for the amendment to become effective. Voters that believe the Illinois Constitution should not be amended to provide for a special election to recall a Governor and for a special election to elect a successor Governor should vote "NO" on the question.

**Arguments In Favor of the Proposed Amendment**

1. Electors of the State should have the ability to remove a Governor mid-term.
2. The recall process increases citizen participation.
3. Electors should not have to rely on the impeachment process.

**Check on a Governor**
Currently, a Governor may serve his or her full term without fear of public reprisal. Recall will serve as a warning to a Governor that the will of the people cannot be taken for granted. Furthermore, simply permitting the electors to circulate petitions serves as an important check on the activities of a Governor.

**Increases Citizen Participation**

Permitting the electors to initiate the recall process encourages citizen participation in government. Electors are granted an additional power with regard to protections against improper governance. Citizens will have the power to initiate a recall if they believe it is in the best interest of the State. This Constitutional Amendment would give Illinois citizens a recall mechanism similar to that available to the citizens of eighteen other states.

**Impeachment Is Not Certain**

There is no guarantee that the General Assembly will conduct impeachment hearings or impeach and remove a Governor. The electors should have a mechanism to begin the process if the General Assembly fails to do so. A focused recall effort will inform the General Assembly of the public's desire for impeachment.

**Arguments Against the Proposed Amendment**

1. The cost of a special election to recall a Governor could total as much as $101 million.
2. A Governor can be removed through the impeachment process.
3. Recall elections will be used to play political games, rather than ensure the welfare of the citizens.

**Expenses Could Be High**

Illinois is in the midst of a financial crisis that would be made worse by holding a special election to recall a Governor and a special election to elect a successor Governor. The State Board of Elections estimates the total costs could reach $101,070,000. Considering that a Governor is elected every 4 years and we can remove a Governor through the impeachment process, a special election is a major expense that taxpayers do not need.

**The Impeachment Process Works**

The House of Representatives has the sole power to conduct investigations and impeach a Governor. Impeachments are tried by the Senate and, if the Governor is convicted, the Senate may remove the Governor and disqualify him or her from holding any public office in Illinois. The impeachment process ensures that serious abuses and misconduct are not tolerated. The citizens of Illinois are now familiar with the impeachment process.

**Political Games**

The process established by the amendment could lead to political gamesmanship. Coordinating a statewide effort to recall a Governor will be
expensive and can be accomplished only with the financial assistance of political parties, special interest groups, and lobbyists. These groups will coordinate recall petition drives to advance their own agendas. Additionally, a Governor concerned about the threat of recall may be unable to make unpopular decisions, even if the decision is in the best interest of the State. There is no way to ensure that the recall process will be used to remove a Governor for cause, rather than merely for political purposes.

**FORM OF BALLOT**

Proposed Amendment to the 1970 Illinois Constitution

Explanation of Amendment

The proposed amendment, which takes effect upon approval by the voters, adds a new section to the Suffrage and Elections Article of the Illinois Constitution. The new section would provide the State's electors with an option to petition for a special election to recall a Governor and for the special election of a successor Governor. At the general election to be held on November 2, 2010, you will be called upon to decide whether the proposed amendment should become part of the Illinois Constitution. If you believe the Illinois Constitution should be amended to provide for a special election to recall a Governor and for a special election to elect a successor Governor, you should vote "YES" on the question. If you believe the Illinois Constitution should not be amended to provide for a special election to recall a Governor and for a special election to elect a successor Governor, you should vote "NO" on the question. Three-fifths of those voting on the question or a majority of those voting in the election must vote "YES" in order for the amendment to become effective.

IMPLEMENTATION OF AN INTERNET-BASED GEOGRAPHIC INFORMATION SYSTEM BY THE DEPARTMENT OF AGRICULTURE
(Senate Joint Resolution No. 105)

WHEREAS, Agricultural pesticide products in Illinois have been proven to protect and improve crop yield by controlling weed competition, protecting against insect damage, and enhancing plant health; and

WHEREAS, The application of these products by licensed professionals contributes significantly to the Illinois agricultural industry's ability to improve farm receipts and economic output despite the fact that crop acreage in Illinois continues to be lost to urban development; and

WHEREAS, The specialty crop industry, which includes vineyards, organic farms, fruit and vegetable farms, horticultural operations, and bee
apiaries, is also a vital and growing sector of the State's agricultural industry; and

WHEREAS, Some of these specialty crops are particularly sensitive to some agricultural pesticides commonly used in grain production; and

WHEREAS, Both the modern grain production industry and the specialty crop industry have expressed a desire to find a method to better communicate the presence and location of sensitive crops in order to avoid conflicts or misunderstandings regarding pesticide applications made near these sensitive crops and to avoid any potential drift scenarios; and

WHEREAS, The Illinois Department of Agriculture, in cooperation with the agrichemical industry, is in the process of implementing a comprehensive internet-based geographic information system that will allow specialty growers to voluntarily share the physical location of their production areas with the agrichemical industry in order to assist the agrichemical industry in further minimizing and mitigating the potential for pesticide drift onto these crops; and

WHEREAS, This internet-based geographic information system will be used not only in Illinois, but also in Indiana, Ohio, Michigan, Wisconsin, and Minnesota, and its implementation will be initially funded by the Region 5 USEPA in order to avoid excessive cost to the Illinois Department of Agriculture, the State of Illinois, and all agricultural producers; and

WHEREAS, Growers of sensitive crops may voluntarily use this system to identify their locations and provide helpful written information regarding the potential for certain types of pesticides to cause harm to their specific crops if drift occurs; and

WHEREAS, Information regarding this system and its mapping capabilities will be integrated into the University of Illinois Extension Service Pesticide Safety Education Program; its capabilities will, thus, be demonstrated to all licensed pesticide applicators; and its use will be encouraged so that these potentially sensitive locations can be integrated into the software systems used by ground and aerial applicators in order to highlight property boundaries around sensitive crops and avoid the potential for drift; and

WHEREAS, The agrichemical industry, the specialty and organic crop industry, bee apiary owners, the Illinois Department of Agriculture, and the University of Illinois Extension support the implementation, application, and use of this system; therefore, be it

RESOLVED, BY THE SENATE OF THE NINETY-SIXTH GENERAL ASSEMBLY OF THE STATE OF ILLINOIS, THE HOUSE OF REPRESENTATIVES CONCURRING HEREIN, that we urge the Illinois Department of Agriculture to implement this internet-based geographic
information system in order to help identify sensitive crops, foster meaningful communication between specialty growers and pesticide applicators, lessen the likelihood of pesticide drift in the agricultural community, and protect the interests of all parties involved in production agriculture; and be it further

RESOLVED, That the Director of Agriculture shall provide a report regarding the implementation of this internet-based geographic information system to the Secretary of the Senate and the Clerk of the House of Representatives by December 31, 2010; and be it further

EXECUTIVE ORDER REQUIRING ADDITIONAL SPENDING REDUCTIONS

WHEREAS, the State of Illinois faces an unprecedented fiscal crisis that requires every State employee, at every level, to take every possible measure to reduce spending;

WHEREAS, although the magnitude of the State's current financial shortfall is so great that it cannot be remedied solely by budgetary cuts, every reduction in State spending and every new source of State income represents another step toward fiscal stability;

WHEREAS, the people of Illinois deserve transparent and accurate information about the cost-cutting measures implemented by their government, so that they can hold every elected official and government employee individually and collectively accountable for those cuts and efficiencies; and

WHEREAS, budgetary benchmarks, reporting and enforcement are critically important to ensuring that we reduce costs and limit spending;

THEREFORE, I, Pat Quinn, Governor of Illinois, pursuant to the authority vested in me by Article V of the Constitution of the State of Illinois, hereby order as follows:

CMS shall continue to reduce costs through its program of renegotiating State leases and consolidating office space at least through the end of Fiscal Year 2011.

GOMB and CMS shall develop and implement a joint plan to further reduce expenditures on office space. This plan will require facilities consolidations, housing multiple agencies at a single location wherever possible. Additionally, State offices shall be relocated from rented space to State-owned facilities wherever possible. Finally, to further reduce the need for leased space, agencies shall require employees to share office space wherever possible, especially part-time employees and those employees who are offsite during some or all of the workday.

Agencies shall deny reimbursement for all out-of-State travel, except when that travel is deemed essential or in case of emergency. Designation of essential or emergency travel shall be subject to final approval by GOMB.

VI. CANCELLATION OF UNNECESSARY MEMBERSHIPS AND SUBSCRIPTIONS
All agencies shall immediately cancel all subscriptions to periodicals, publications, information services, and all memberships in dues-based organizations, except those that are essential to core agency operations. Nothing in this subsection shall be construed as a directive to violate or improperly circumvent any requirement of law, rule, regulation, or collective bargaining agreement. GOMB shall make efforts to ensure that representatives of appropriate agencies collaborate with representatives of organized labor in this process.

X. ELIGIBILITY AUDIT

Within 60 days of the effective date of this Executive Order, CMS shall report to GOMB on the feasibility of conducting an eligibility audit of all persons drawing pensions or receiving benefits from any State group insurance or benefit program.

Agencies shall make best efforts to adopt and implement all reasonable cost savings suggestions.

ENFORCEMENT

All agencies shall strictly adhere to the requirements of this Executive Order, and to any administrative order or similar directive from the Director of GOMB pertaining to any action required by or related to this Executive Order, or any action related to the requirements of this Executive Order. “Expenditure(s)” is the amount of money obligated or expended for a particular purpose, good, or service in a fiscal year. In identifying reductions in expenditures, agencies shall give priority to reductions in the expenditure of funds derived from the General Revenue Fund (“GRF”). “Emergency Expenditure(s)” and “Essential Expenditure(s)” are expenditures otherwise prohibited by one or more provisions of this executive order that are determined by GOMB to be necessary because (1) a significant, unavoidable, and unforeseen cost has arisen or (2) because cutting the expenditure would jeopardize one or more fundamental operations of State government. Any emergency or essential expenditure is expressly exempted for the limitations of this Executive Order.

“Employee(s)” are persons employed by a State agency.

“Reduction” is the amount of money appropriated to an agency that is not obligated or expended as a result of any of the requirements set forth in this executive order or as a result of any other savings initiatives.

VIII. EFFECTIVE DATE

This Executive Order shall be effective upon filing with the Secretary of State.

Issued by the Governor October 5, 2010.

Filed by the Secretary of State October 5, 2010.
WHEREAS, Illinois is dedicated to protecting and managing our natural and cultural resources along our magnificent 63 mile stretch of Lake Michigan shoreline; and

WHEREAS, During the last two centuries, Illinois' coast has undergone nearly a complete metamorphosis with its monumental hydrologic modifications, enormous industrial impacts, building of an excellent transportation infrastructure, and creation of skyscrapers that grace our shoreline; and

WHEREAS, Our shoreline is highly urbanized and has been subject to considerable stress from intense land use and competition to serve the economic and workforce needs and demands of this densely populated area; and

WHEREAS, The environmental legacy of our industrial sites and the needs and demands of a growing and vibrant urban community create a complex set of issues to balance as we invest in programs that seek to restore our ecosystems and meet the increasing demands for open space, recreation, and public access; and

THEREFORE, I, Pat Quinn, Governor of Illinois, pursuant to the authority vested in me by Article V of the Constitution of the State of Illinois, hereby establish the Illinois Coastal Management Program within the Illinois Department of Natural Resources. I hereby direct all state agencies to carry out their legally established duties consistently with this program and in a manner which promotes coordination among those agencies in achieving its goals and objectives:

I. DESIGNATED STATE AGENCY
   The Illinois Department of Natural Resources (IDNR) is the lead state agency responsible for development and implementation of the Illinois Coastal Management Program (ICMP). The mission of the IDNR is to manage, protect, and sustain Illinois' natural and cultural resources, further the public's understanding and appreciation of those resources, and promote the education, science and public safety of our natural resources for present and future generations.

II. COASTAL MANAGEMENT PROGRAM OBJECTIVES
   State agencies listed in Section III are those which have responsibility for Illinois coastal resources and are part of the ICMP network. All these agencies shall administer their
programs in support of the following ICMP goals and objectives:

a) Enhance the State's role in supporting and coordinating partnerships among local, state and federal agencies in managing coastal resources.

b) Facilitate the development of a shared vision and policies for the protection, restoration, and enhancement of Illinois coastal resources for this and succeeding generations.

c) Develop strategies to mitigate and adapt to climate change, including reducing individual carbon footprints and expanding use of Illinois' natural resources to act as natural carbon sinks.

d) Develop site-specific strategies to address persistent bio-accumulative toxins.

e) Investigate mitigation and long-term, sustainable solutions to aquatic and terrestrial invasive species.

f) Facilitate the expansion of the use of green infrastructure to control storm-water, promote groundwater recharge and reduce flooding.

g) Provide technical and financial assistance to acquire new, add or improve public recreational sites and facilities, and to create new or improve public access to coastal waters.

h) Provide assistance to improve management programs and support state and local government efforts to identify and designate areas especially suited for water-related economic development and in redeveloping port and waterfront areas.

III. ICMP COORDINATION VIA THE TECHNICAL ADVISORY COMMITTEE

A Technical Advisory Committee (TAC) for the ICMP is hereby established. The TAC will use existing resources and shall be comprised of state agencies with responsibility for implementing the authorities of the ICMP as described in the ICMP Program Document, which is being completed by IDNR as the lead state agency for the ICMP. Other agencies/entities will be included in the TAC as deemed necessary by the ICMP director. The ICMP director shall serve as the Chairman of the TAC. The TAC shall be a forum to resolve conflicts on state consistency, as detailed in Section IV below, and to discuss issues related to the implementation of federal consistency, as detailed in Section V below. The TAC shall also be a forum to provide review of projects under
consideration for funding by the ICMP.

Implementation
The following Illinois agencies shall have primary responsibility for implementing the Management Authorities of the ICMP, as described in Chapter 9 of the ICMP Program Document:
- Department of Natural Resources
- Environmental Protection Agency
- Department of Agriculture
- Department of Commerce and Economic Opportunity
- Emergency Management Agency
- Department of Transportation
- Nature Preserves Commission
- Historic Preservation Agency
These agencies and all other state agencies that conduct activities which may affect land and water uses and resources of the Illinois coastal zone shall conduct their activities in a manner consistent with the policies of the ICMP, as described in Chapter 9 of the ICMP Program Document. For the purposes of the ICMP, land and water uses of the coastal zone shall refer to those identified in the ICMP Program Document. Coastal resources are those within the boundary of the coastal zone as defined in the ICMP Program Document.

IV. RESOLUTION OF CONFLICTS
When, in the judgment of the ICMP director, a State agency or Regulatory board or Commission is ready to act in a manner that appears to be inconsistent with the ICMP policies or has established a pattern of actions that appears to be inconsistent with the ICMP policies, the ICMP director shall discuss the situation with the Agency head to determine if a consistency problem exists.
If, in the judgment of the ICMP director, a consistency problem still exists after discussion with the Agency head, the ICMP director shall bring the matter before the TAC at a regular TAC meeting, ad hoc meeting, or through other means. If the TAC cannot resolve the problem, the ICMP director shall advise the director of the IDNR that a state consistency problem exists. The IDNR director shall then determine if a state consistency problem exists.
If, in the judgment of the IDNR director, a state consistency
problem exists, the IDNR director will discuss the issue with the Agency head and attempt a resolution. If the IDNR director is unable to resolve the issue, he shall report the problem to the Governor with recommendations for appropriate action. The Governor shall have the ultimate responsibility for resolving any state consistency problem which cannot be resolved by the IDNR director and Agency head.

V. FEDERAL CONSISTENCY

The IDNR will be the state agency that implements the Federal Consistency provisions of the Coastal Zone Management Act of 1972, as amended (CZMA), upon federal approval of the ICMP. Pursuant to the CZMA, CZMA regulations at 15 C.F.R. part 930, and the Federal Consistency process described in the ICMP Program Document, the IDNR will determine whether federal actions are consistent with the enforceable policies of the ICMP, which are listed in Chapter 11 of the ICMP Document. With support from staff in the state agencies listed in Section III above, ICMP staff shall monitor all federal actions which affect coastal uses or resources. The Technical Advisory Committee is a forum where the ICMP director or designee may discuss and come to agreement with other state agencies on specific federal consistency issues.

VI. EFFECTIVE DATE

This Executive Order will become effective upon federal approval of the Illinois Coastal Management Program.

Issued by the Governor December 10, 2010.
Filed by the Secretary of State December 10, 2010.

DISASTER AREA - STATE OF ILLINOIS

On December 29, 2009, U.S. Department of Health and Human Services Secretary Kathleen Sebelius renewed the H1N1 Public Health Emergency declaration for an additional 90 days. Moreover, January 11, 2010 begins national immunization week during which Secretary Sebelius is encouraging states to increase H1N1 vaccination campaign activities. This is in recognition that the 2009-2010 H1N1 pandemic is still a threat. The State of Illinois is currently reporting 2629 hospitalizations and 83 deaths since April 2009 as a result of H1N1. The need to continue vaccinating the citizens of the State of Illinois is imperative.

Therefore, in the interest of aiding the citizens of Illinois, medical facilities, and the State agencies and local governments responsible for ensuring public health and safety, and pursuant to the provisions of Section 7 of the Illinois Emergency Management Agency Act, 20 ILCS 3305/7, I hereby proclaim that a public health emergency exists in the State of Illinois.

This gubernatorial proclamation will assist the Illinois Emergency Management Agency and the Illinois Department of Public Health in coordinating State efforts in accordance with the State emergency response plans. This proclamation will allow for modification of scopes of practice for occupations with training to give vaccinations as well as assist with patient treatment.

Issued by the Governor January 8, 2010.
Filed by the Secretary of State January 8, 2010.

WHEREAS, insightful and eloquent critics can lead us to find beauty, philosophy and connection in works of art, and can guide us to works that we
might otherwise overlook or ignore; and

WHEREAS, from his earliest years as a writer for The Daily Illini, Urbana native Roger Ebert has guided, informed and challenged Illinois moviegoers, championing films of every genre that lesser critics have ignored or demeaned; and

WHEREAS, since 1967, when he began serving as film critic for the Chicago Sun-Times, Roger Ebert has shared his love and encyclopedic knowledge of film with millions of devoted readers worldwide, bringing wit, stylistic elegance, energy, and unfeigned joy to films as diverse as American Beauty, The Night of the Living Dead, and Apocalypse Now; and

WHEREAS, in 1975, Roger Ebert became the first film critic ever to win the Pulitzer Prize, and in the same year brought his Illinois-bred critical sensibility to television viewers with a new weekly public television show, Sneak Previews, co-hosted by Chicago Tribune film critic Gene Siskel; and

WHEREAS, Sneak Previews and its commercial television successors, At the Movies with Gene Siskel and Roger Ebert and Siskel & Ebert & The Movies, won two thumbs up from millions of viewers and brought Chicago worldwide attention as a vital center of film criticism; and

WHEREAS, in the past few years, Roger Ebert has shown extraordinary grace and unflagging courage in the face of serious illness, continuing to write with passion, strength, and confidence about film, about life, and about the essential connections between the two; and

WHEREAS, since 1999, Roger Ebert has made use of his iconic status as a film critic to bring new audiences to overlooked or disregarded films through Roger Ebert's Film Festival, better known as Ebertfest, a world-renowned film festival that brings actors, producers, directors, writers and film lovers together inside the historic Virginia Theatre in Champaign; and

DISASTER AREA - STATE OF ILLINOIS

The severe storms with high wind and torrential rain that moved through northern Illinois from the Mississippi River to Lake Michigan on July 22 through July 24, 2010, resulted in a gubernatorial proclamation of disaster on July 26, 2010. Upon further review of climate observations for the month of July, it has been determined that the severe storms that caused a major disaster in northern Illinois counties during the period of July 22 through August 7, 2010, actually were part of a series of severe storms that moved into western Illinois along the Mississippi River on July 19, 2010. The extreme amounts of rainfall and subsequent flooding occurring between July 19 and August 7, 2010, resulted in damage to roads, bridges and other public infrastructure in the western Illinois counties most severely impacted. The damage in the western Illinois counties is similar to the public infrastructure damage in the most severely impacted northern Illinois counties.

In the interest of aiding the local governments responsible for ensuring public health and safety, I hereby proclaim that a disaster exists within the State of Illinois, and specifically declare Adams, Pike and Schuyler
counties as State disaster areas, pursuant to the provisions of the Illinois Emergency Management Agency Act, 20ILCS 3305/7.

This gubernatorial proclamation of disaster will aid the Illinois Emergency Management Agency in coordinating State resources to support local governments in disaster recovery operations. In addition, this proclamation will facilitate a request for federal disaster assistance. A complete and comprehensive assessment of damage indicates that effective recovery is beyond the capabilities of the State and the three western Illinois counties most severely impacted by this disaster.

DISASTER AREA - STATE OF ILLINOIS

The severe storms with high wind and torrential rain that moved through northern Illinois from the Mississippi River to Lake Michigan on July 22 through July 24, 2010, resulted in a gubernatorial proclamation of disaster on July 26, 2010. Upon further review of climate observations for the month of July, it has been determined that the severe storms that caused a major disaster in northern Illinois counties during the period of July 22 through August 7, 2010, actually were part of a series of severe storms that moved into western Illinois along the Mississippi River on July 19, 2010. These severe storms continued to move through central Illinois. The extreme amounts of rainfall, high wind and subsequent flooding occurring between July 19 and August 7, 2010, resulted in downed trees and power lines in addition to damage to roads, bridges and other public infrastructure in the counties most severely impacted.

In the interest of aiding the citizens of Illinois and the local governments responsible for ensuring public health and safety, I hereby proclaim that a disaster exists within the State of Illinois, and specifically declare Moultrie County as a State Disaster Area, pursuant to the provisions of the Illinois Emergency Management Agency Act, 20ILCS 3305/7.

This gubernatorial proclamation of disaster will aid the Illinois Emergency Management Agency in coordinating State resources to support local governments in disaster recovery. In addition, this proclamation will facilitate a request for federal disaster assistance. A complete and comprehensive assessment of damage indicates that effective recovery is beyond the capabilities of the State and the affected local governments alone.

PEARL HARBOR REMEMBRANCE DAY (REVISED)

WHEREAS, December 7, 1941 is one of the most memorable dates
of the 20th century. On that day, Japanese bombers attacked unsuspecting
American sailors and soldiers stationed at Pearl Harbor; and,

WHEREAS, more than 2,000 Americans were killed, including 50
servicemen from Illinois, and another 1,000 were wounded during the
bombardment, which outraged Americans as few other events in our nation's
history; and,

WHEREAS, President Franklin Roosevelt and Congress promptly
declared war against Japan and its allies, and our sailors and soldiers
performed superbly on all fronts. Together, a Grand Coalition of French,
English, Russian, and American servicemen conducted mass campaigns and
operations in the Pacific, African, and European theaters; and,

WHEREAS, on May 7, 1945 Germany surrendered, which was soon
followed by Japan's surrender on August 14 of that same year; and,

WHEREAS, during the war, more American sailors and soldiers were
mobilized than at any other time in our history. By war's end, more than eight
million Americans were serving in the Army alone; and,
WHEREAS, thanks to the Grand Coalition, our servicemen, and all those at home who contributed to the war effort, the world was made safer for liberty and freedom, the right of all peoples everywhere, which were endangered by the aggressions of Germany and Japan; and,

WHEREAS, this year marks the 69th anniversary of the attack on Pearl Harbor and the 65th anniversary of the end of the Second World War. Although we can never repay all those who faithfully and honorably served during the war, we will always remember what they did and fought for:

THEREFORE, I, Pat Quinn, Governor of the State of Illinois, do hereby proclaim December 7, 2010 as PEARL HARBOR REMEMBRANCE DAY in Illinois, and order all persons or entities governed by the Illinois Flag Display Act to fly their flags at half-staff on such day from sunrise until sunset in memory of all the heroes who died in the attack on Pearl Harbor, and in tribute to all the men and women whose sacrifices made the world safer for liberty and freedom.

THEREFORE, I, Pat Quinn, Governor of the State of Illinois, do hereby order all persons or entities governed by the Illinois Flag Display Act to fly their flags at half-staff from sunrise on December 4, 2010 until sunset on December 5, 2010 in honor and remembrance of Representative Myers, whose dedication and commitment to public service was unwavering.

WHEREAS, today, doctors in Illinois are under mounting pressure. Due to increasing medical liability insurance rates, many doctors have been forced to leave our state; and,

WHEREAS, medical assistants are helping doctors in Illinois cover the vacuum of medical services left behind by the departure of their colleagues; and,

THEREFORE, I, Pat Quinn, Governor of the State of Illinois do hereby proclaim October 17-21, 2011 as MEDICAL ASSISTANTS WEEK in Illinois, in recognition of medical assistants for their commitment and dedication to the medical profession and to the well-being of patients, especially during this trying time for both patients and doctors.

NATIONAL MS EDUCATION AND AWARENESS MONTH

WHEREAS, multiple sclerosis (MS) is a chronic, progressive, disabling neurological disease of unknown origin that affects the central nervous system and has no known cure; and,

WHEREAS, MS has been diagnosed in more than 400,000 people nationwide, including more than 2,300 Illinoisans, whose families, friends, and employers are affected as well; and,

WHEREAS, with early drug therapy and proper healthcare management, disease progression can be slowed, allowing people with MS to live active, rewarding and productive lives; and,

WHEREAS, increased public education and awareness about MS not only helps people who must cope with the disease, but also helps to support vital research aimed at developing more disease-modifying treatments and ultimately a cure; and,

RARE DISEASE DAY

WHEREAS, there are nearly 7,000 diseases and conditions considered rare (each affecting fewer than 200,000 Americans) in the United States; and,

conditions that have a significant impact on the lives of those affected; and, 

WHEREAS, unfortunately, there is often no treatment specific to these rare diseases; and,

WHEREAS, while some rare diseases, such as “Lou Gehrig's disease” and Huntington's disease are relatively well known, many others are not known at all by the public, which means that a large share of the burden of raising awareness of these diseases and raising funds for research is borne by patients and their families; and,

WHEREAS, the National Organization for Rare Diseases (NORD) is organizing a nationwide observance of Rare Disease Day on February 28, 2011, and patients, medical professionals, researchers, government officials, and companies developing treatments for rare diseases are joining together to focus attention on rare diseases as a public health issue on that day:

leaders are those whose results support their vision; and,
