EFFECTIVE DATES OF PUBLIC ACTS

1970 CONSTITUTION, ARTICLE IV

"§ 10. Effective Date of Laws

The General Assembly shall provide by law for a uniform effective date for laws passed prior to July 1 of a calendar year. The General Assembly may provide for a different effective date in any law passed prior to July 1. A bill passed after June 30 shall not become effective prior to July 1 of the next calendar year unless the General Assembly by the vote of three-fifths of the members elected to each house provides for an earlier effective date."

5 ILLINOIS COMPILED STATUTES CHAPTER 75

75/1. Effective Date of Laws

"§1 (a) A bill passed after June 30 of a calendar year shall become effective on July 1 of the next calendar year unless the General Assembly by a vote of three-fifths of the members elected to each house provides for an earlier effective date in the terms of the bill or unless the General Assembly provides for a later effective date in the terms of the bill; provided that if the effective date provided in the terms of the bill is prior to the date the bill becomes a law then the date the bill becomes a law shall be the effective date."1 (a) A bill passed prior to July 1 of a calendar year that does not provide for an effective date in the terms of the bill shall become effective on January 1 of the following year, or upon its becoming a law, whichever is later.

(b) A bill passed prior to July 1 of a calendar year that does provide for an effective date in the terms of the bill shall become effective on that date if that date is the same as or subsequent to the date the bill becomes a law; provided that if the effective date provided in the terms of the bill is prior to the date the bill becomes a law then the date the bill becomes a law shall be the effective date."

75/2. Special Effective Dates

"§2 A bill passed after June 30 of a calendar year shall become effective on July 1 of the next calendar year unless the General Assembly by a vote of three-fifths of the members elected to each house provides for an earlier effective date in the terms of the bill or unless the General Assembly provides for a later effective date in the terms of the bill; provided that if the effective date provided in the terms of the bill is prior to the date the bill becomes a law then the date the bill becomes a law shall be the effective date."

Sec. 50-5. Governor to submit State budget.

(a) The Governor shall, as soon as possible and not later than the second Wednesday in March in 2010 (March 10, 2010), the third Wednesday in February in 2011, the fourth Wednesday in February in 2012 (February 22, 2012), the first Wednesday in March in 2013 (March 6, 2013), and the third Wednesday in February of each year thereafter, except as otherwise provided in this Section, submit a State budget, embracing therein the amounts recommended by the Governor to be appropriated to the respective departments, offices, and institutions, and for all other public purposes, the estimated revenues from taxation, and the estimated revenues from sources other than taxation. Except with respect to the capital development provisions of the State budget, beginning with the revenue estimates prepared for fiscal year 2012, revenue estimates shall be based solely on: (i) revenue sources (including non-income resources), rates, and levels that exist as of the date of the submission of the State budget for the fiscal year and (ii) revenue sources (including non-income resources), rates, and levels that have been passed by the General Assembly as of the date of the submission of the State budget for the fiscal year and that are authorized to take effect in that fiscal year. Except with respect to the capital development provisions of the State budget, the Governor shall determine available revenue, deduct the cost of essential government services, including, but not limited to, pension payments and debt service, and assign a percentage of the remaining revenue to each statewide prioritized goal, as established in Section 50-25 of this Law, taking into consideration the proposed goals set forth in the report of the Commission established under that Section. The Governor shall also demonstrate how spending priorities for the fiscal year fulfill those statewide goals. The amounts recommended by the Governor for appropriation to the respective departments, offices and institutions shall be formulated according to each department's, office's, and institution's ability to effectively deliver services that meet the established statewide goals. The amounts relating to particular functions and activities shall be further formulated in accordance with the object classification specified in Section 13 of the State Finance Act. In addition, the amounts recommended by the Governor for appropriation shall take into account each State agency's effectiveness in achieving its prioritized goals for the previous fiscal year, as set forth in Section 50-25 of this Law, giving priority to agencies and programs that have demonstrated a focus on the prevention of waste and the maximum yield from resources.

New matter indicated by italics - deletions by strikeout
Beginning in fiscal year 2011, the Governor shall distribute written quarterly financial reports on operating funds, which may include general, State, or federal funds and may include funds related to agencies that have significant impacts on State operations, and budget statements on all appropriated funds to the General Assembly and the State Comptroller. The reports shall be submitted no later than 45 days after the last day of each quarter of the fiscal year and shall be posted on the Governor's Office of Management and Budget's website on the same day. The reports shall be prepared and presented for each State agency and on a statewide level in an executive summary format that may include, for the fiscal year to date, individual itemizations for each significant revenue type as well as itemizations of expenditures and obligations, by agency, with an appropriate level of detail. The reports shall include a calculation of the actual total budget surplus or deficit for the fiscal year to date. The Governor shall also present periodic budget addresses throughout the fiscal year at the invitation of the General Assembly.

The Governor shall not propose expenditures and the General Assembly shall not enact appropriations that exceed the resources estimated to be available, as provided in this Section. Appropriations may be adjusted during the fiscal year by means of one or more supplemental appropriation bills if any State agency either fails to meet or exceeds the goals set forth in Section 50-25 of this Law.

For the purposes of Article VIII, Section 2 of the 1970 Illinois Constitution, the State budget for the following funds shall be prepared on the basis of revenue and expenditure measurement concepts that are in concert with generally accepted accounting principles for governments:

(1) General Revenue Fund.
(2) Common School Fund.
(3) Educational Assistance Fund.
(4) Road Fund.
(6) Agricultural Premium Fund.

These funds shall be known as the "budgeted funds". The revenue estimates used in the State budget for the budgeted funds shall include the estimated beginning fund balance, plus revenues estimated to be received during the budgeted year, plus the estimated receipts due the State as of June 30 of the budgeted year that are expected to be collected during the lapse period following the budgeted year, minus the receipts collected during the first 2 months of the budgeted year that became due to the State
in the year before the budgeted year. Revenues shall also include estimated federal reimbursements associated with the recognition of Section 25 of the State Finance Act liabilities. For any budgeted fund for which current year revenues are anticipated to exceed expenditures, the surplus shall be considered to be a resource available for expenditure in the budgeted fiscal year.

Expenditure estimates for the budgeted funds included in the State budget shall include the costs to be incurred by the State for the budgeted year, to be paid in the next fiscal year, excluding costs paid in the budgeted year which were carried over from the prior year, where the payment is authorized by Section 25 of the State Finance Act. For any budgeted fund for which expenditures are expected to exceed revenues in the current fiscal year, the deficit shall be considered as a use of funds in the budgeted fiscal year.

Revenues and expenditures shall also include transfers between funds that are based on revenues received or costs incurred during the budget year.

Appropriations for expenditures shall also include all anticipated statutory continuing appropriation obligations that are expected to be incurred during the budgeted fiscal year.

By March 15 of each year, the Commission on Government Forecasting and Accountability shall prepare revenue and fund transfer estimates in accordance with the requirements of this Section and report those estimates to the General Assembly and the Governor.

For all funds other than the budgeted funds, the proposed expenditures shall not exceed funds estimated to be available for the fiscal year as shown in the budget. Appropriation for a fiscal year shall not exceed funds estimated by the General Assembly to be available during that year.

(b) By February 24, 2010, the Governor must file a written report with the Secretary of the Senate and the Clerk of the House of Representatives containing the following:

(1) for fiscal year 2010, the revenues for all budgeted funds, both actual to date and estimated for the full fiscal year;
(2) for fiscal year 2010, the expenditures for all budgeted funds, both actual to date and estimated for the full fiscal year;
(3) for fiscal year 2011, the estimated revenues for all budgeted funds, including without limitation the affordable General Revenue Fund appropriations, for the full fiscal year; and

New matter indicated by italics - deletions by strikeout
(4) for fiscal year 2011, an estimate of the anticipated liabilities for all budgeted funds, including without limitation the affordable General Revenue Fund appropriations, debt service on bonds issued, and the State's contributions to the pension systems, for the full fiscal year.

Between July 1 and August 31 of each fiscal year, the members of the General Assembly and members of the public may make written budget recommendations to the Governor.

Beginning with budgets prepared for fiscal year 2013, the budgets submitted by the Governor and appropriations made by the General Assembly for all executive branch State agencies must adhere to a method of budgeting where each priority must be justified each year according to merit rather than according to the amount appropriated for the preceding year.

PUBLIC ACT 98-0003
(Senate Bill No. 0622)

AN ACT concerning regulation.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The State Finance Act is amended by changing Section 6z-18 as follows:

(30 ILCS 105/6z-18) (from Ch. 127, par. 142z-18)

Sec. 6z-18. A portion of the money paid into the Local Government Tax Fund from sales of food for human consumption which is to be consumed off the premises where it is sold (other than alcoholic beverages, soft drinks and food which has been prepared for immediate consumption) and prescription and nonprescription medicines, drugs, medical appliances and insulin, urine testing materials, syringes and needles used by diabetics, which occurred in municipalities, shall be

New matter indicated by italics - deletions by strikeout
distributed to each municipality based upon the sales which occurred in that municipality. The remainder shall be distributed to each county based upon the sales which occurred in the unincorporated area of that county.

A portion of the money paid into the Local Government Tax Fund from the 6.25% general use tax rate on the selling price of tangible personal property which is purchased outside Illinois at retail from a retailer and which is titled or registered by any agency of this State's government shall be distributed to municipalities as provided in this paragraph. Each municipality shall receive the amount attributable to sales for which Illinois addresses for titling or registration purposes are given as being in such municipality. The remainder of the money paid into the Local Government Tax Fund from such sales shall be distributed to counties. Each county shall receive the amount attributable to sales for which Illinois addresses for titling or registration purposes are given as being located in the unincorporated area of such county.

A portion of the money paid into the Local Government Tax Fund from the 6.25% general rate (and, beginning July 1, 2000 and through December 31, 2000, the 1.25% rate on motor fuel and gasohol, and beginning on August 6, 2010 through August 15, 2010, the 1.25% rate on sales tax holiday items) on sales subject to taxation under the Retailers' Occupation Tax Act and the Service Occupation Tax Act, which occurred in municipalities, shall be distributed to each municipality, based upon the sales which occurred in that municipality. The remainder shall be distributed to each county, based upon the sales which occurred in the unincorporated area of such county.

For the purpose of determining allocation to the local government unit, a retail sale by a producer of coal or other mineral mined in Illinois is a sale at retail at the place where the coal or other mineral mined in Illinois is extracted from the earth. This paragraph does not apply to coal or other mineral when it is delivered or shipped by the seller to the purchaser at a point outside Illinois so that the sale is exempt under the United States Constitution as a sale in interstate or foreign commerce.

Whenever the Department determines that a refund of money paid into the Local Government Tax Fund should be made to a claimant instead of issuing a credit memorandum, the Department shall notify the State Comptroller, who shall cause the order to be drawn for the amount specified, and to the person named, in such notification from the Department. Such refund shall be paid by the State Treasurer out of the Local Government Tax Fund.
As soon as possible after the first day of each month, beginning January 1, 2011, upon certification of the Department of Revenue, the Comptroller shall order transferred, and the Treasurer shall transfer, to the STAR Bonds Revenue Fund the local sales tax increment, as defined in the Innovation Development and Economy Act, collected during the second preceding calendar month for sales within a STAR bond district and deposited into the Local Government Tax Fund, less 3% of that amount, which shall be transferred into the Tax Compliance and Administration Fund and shall be used by the Department, subject to appropriation, to cover the costs of the Department in administering the Innovation Development and Economy Act.

After the monthly transfer to the STAR Bonds Revenue Fund, on or before the 25th day of each calendar month, the Department shall prepare and certify to the Comptroller the disbursement of stated sums of money to named municipalities and counties, the municipalities and counties to be those entitled to distribution of taxes or penalties paid to the Department during the second preceding calendar month. The amount to be paid to each municipality or county shall be the amount (not including credit memoranda) collected during the second preceding calendar month by the Department and paid into the Local Government Tax Fund, plus an amount the Department determines is necessary to offset any amounts which were erroneously paid to a different taxing body, and not including an amount equal to the amount of refunds made during the second preceding calendar month by the Department, and not including any amount which the Department determines is necessary to offset any amounts which are payable to a different taxing body but were erroneously paid to the municipality or county, and not including any amounts that are transferred to the STAR Bonds Revenue Fund. Within 10 days after receipt, by the Comptroller, of the disbursement certification to the municipalities and counties, provided for in this Section to be given to the Comptroller by the Department, the Comptroller shall cause the orders to be drawn for the respective amounts in accordance with the directions contained in such certification.

When certifying the amount of monthly disbursement to a municipality or county under this Section, the Department shall increase or decrease that amount by an amount necessary to offset any misallocation of previous disbursements. The offset amount shall be the amount erroneously disbursed within the 6 months preceding the time a misallocation is discovered.

New matter indicated by italics - deletions by strikeout
The provisions directing the distributions from the special fund in the State Treasury provided for in this Section shall constitute an irrevocable and continuing appropriation of all amounts as provided herein. The State Treasurer and State Comptroller are hereby authorized to make distributions as provided in this Section.

In construing any development, redevelopment, annexation, preannexation or other lawful agreement in effect prior to September 1, 1990, which describes or refers to receipts from a county or municipal retailers' occupation tax, use tax or service occupation tax which now cannot be imposed, such description or reference shall be deemed to include the replacement revenue for such abolished taxes, distributed from the Local Government Tax Fund.

As soon as possible after the effective date of this amendatory Act of the 98th General Assembly, the State Comptroller shall order and the State Treasurer shall transfer $6,600,000 from the Local Government Tax Fund to the Illinois State Medical Disciplinary Fund.

A license renewal within 90 days after expiration shall be effective retroactively to the expiration date.

The Department shall mail to each licensee under this Act, at his or her address of record, at least 60 days in advance of the expiration date of his or her license, a renewal notice. (C) Inactive licenses. of the State Finance Act.

All earnings received from investment of moneys in the Illinois

The county board of any county may provide for an additional charge of $3 for filing every instrument, paper, or notice for record, (1) in order to defray the cost of converting the county recorder's document storage system to computers or micrographics and (2) in order to defray the cost of providing access to records through the global information system known as the Internet.

A special fund shall be set up by the treasurer of the county and such funds collected pursuant to Public Act 83-1321 shall be used (1) for a document storage system to provide the equipment, materials and necessary expenses incurred to help defray the costs of implementing and maintaining such a document records system and (2) for a system to provide electronic access to those records.

The county board of any county that provides and maintains a countywide map through a Geographic Information System (GIS) may provide for an additional charge of $3 for filing every instrument, paper, or notice for record (1) in order to defray the cost of implementing or maintaining the county's Geographic Information System and (2) in order to defray the cost of providing electronic access to the county's Geographic Information System records. Of that amount, $2 must be deposited into a special fund set up by the treasurer of the county, and any moneys collected pursuant to this amendatory Act of the 91st General Assembly and deposited into that fund must be used solely for the equipment, materials, and necessary expenses incurred in implementing and maintaining a Geographic Information System and in order to defray the cost of providing electronic access to the county's Geographic Information System records. The remaining $1 must be deposited into the recorder's special funds created under Section 3-5005.4. Information System and to defray the cost of providing electronic access to the county's Geographic Information System records.

The recorder shall collect a $9 Rental Housing Support Program State surcharge for the recordation of any real estate-related document. Payment of the Rental Housing Support Program State surcharge shall be evidenced by a receipt that shall be marked upon or otherwise affixed to the real estate-related document by the recorder. The form of this receipt shall be prescribed by the Department of Revenue and the receipts shall be issued by the Department of Revenue to each county recorder.

The recorder shall not collect the Rental Housing Support Program State surcharge from any State agency, any unit of local government or any school district.

One dollar of each surcharge shall be retained by the county in which it was collected. This dollar shall be deposited into the county's general revenue fund. Fifty cents of that amount shall be used for the costs of administering the Rental Housing Support Program State surcharge and any other lawful expenditures for the operation of the office of the recorder and may not be appropriated or expended for any other purpose. The amounts available to the recorder for expenditure from the surcharge shall not offset or reduce any other county appropriations or funding for the office of the recorder.

On the 15th day of each month, each county recorder shall report to the Department of Revenue, on a form prescribed by the Department, the number of real estate-related documents recorded for which the Rental Housing Support Program State surcharge was collected. Each recorder shall submit $9 of each surcharge collected in the preceding month to the Department of Revenue and the Department shall deposit these amounts in the Rental Housing Support Program Fund. Subject to appropriation, amounts in the Fund may be expended only for the purpose of funding and administering the Rental Housing Support Program.

For purposes of this Section, "real estate-related document" means that term as it is defined in Section 7 of the Rental Housing Support Program Act.

The foregoing fees allowed by this Section are the maximum fees that may be collected from any officer, agency, department or other instrumentality of the State. The county board may, however, by ordinance, increase the fees allowed by this Section and collect such increased fees from all persons and entities other than officers, agencies,
departments and other instrumentalities of the State if the increase is justified by an acceptable cost study showing that the fees allowed by this Section are not sufficient to cover the cost of providing the service. Regardless of any other provision in this Section, the maximum fee that may be collected from the Department of Revenue for filing or indexing a lien, certificate of lien release or subordination, or any other type of notice or other documentation affecting or concerning a lien is $5. Regardless of any other provision in this Section, the maximum fee that may be collected from the Department of Revenue for indexing each additional name in excess of one for any lien, certificate of lien release or subordination, or any other type of notice or other documentation affecting or concerning a lien is $1.

A statement of the costs of providing each service, program and activity shall be prepared by the county board. All supporting documents shall be public record and subject to public examination and audit. All direct and indirect costs, as defined in the United States Office of Management and Budget Circular A-87, may be included in the determination of the costs of each service, program and activity.

Section 10. The Rental Housing Support Program Act is amended by changing Section 5 as follows:

(310 ILCS 105/5)

Sec. 5. Legislative findings and purpose. The General Assembly finds that in many parts of this State, large numbers of citizens are faced with the inability to secure affordable rental housing. Due to either insufficient wages or a shortage of affordable rental housing stock, or both, many families have difficulty securing decent housing, are subjected to overcrowding, pay too large a portion of their total monthly income for housing and consequently suffer the lack of other basic needs, live in substandard or unhealthy housing, or experience chronic housing instability. Instability and inadequacy in housing limits the employability and productivity of many citizens, adversely affects family health and stress levels, and impedes children's ability to learn; such instability produces corresponding drains on public resources and contributes to an
overall decline in real estate values. Unaffordable rental rates lead to frequent tenant turnover and difficulty filling vacancies, resulting in unstable income streams for rental property owners, the limited ability of owners to properly maintain their properties, substandard rental housing, and greater rates of foreclosure. High tenant turnover, poorly maintained properties, vacant and abandoned properties, and overcrowded housing negatively impact the safety and health of communities and the real estate values within such communities. Among others, the program created by this Act benefits (i) all individuals who record real estate related documents by helping to stabilize real estate values in the State, (ii) rental property owners by subsidizing the portion of rent that many of their tenants are unable to pay, (iii) those individuals who own real estate in the State by providing an option for affordable rental housing should they one day face foreclosure, and (iv) tenants who participate in the program by providing them with rental assistance and the ability to achieve financial stability so that they are able to become property owners themselves. It is the purpose of this Act to create a State program to help localities address the need for decent, affordable, permanent rental housing.

"Aggregate extension" for all taxing districts to which this Law applies in accordance with paragraph (2) of subsection (e) of Section 18-213 means the annual corporate extension for the taxing district and those special purpose extensions that are made annually for the taxing district, excluding special purpose extensions: (a) made for the taxing district to pay interest or principal on general obligation bonds that were approved by referendum; (b) made for any taxing district to pay interest or principal on general obligation bonds issued before the effective date of this amendatory Act of 1997; (c) made for any taxing district to pay interest or principal on bonds issued to refund or continue to refund those bonds issued before the effective date of this amendatory Act of 1997; (d) made for any taxing district to pay interest or principal on bonds issued to refund or continue to refund bonds issued after the effective date of this amendatory Act of 1997 if the bonds were approved by referendum after the effective date of this amendatory Act of 1997; (e) made for any taxing district to pay interest or principal on revenue bonds issued before the effective date of this amendatory Act of 1997 for payment of which a property tax levy or the full faith and credit of the unit of local government is pledged; however, a tax for the payment of interest or principal on those bonds shall be made only after the governing body of the unit of local government finds that all other sources for payment are insufficient to

"Debt service extension base" means an amount equal to that portion of the extension for a taxing district for the 1994 levy year, or for those taxing districts subject to this Law in accordance with Section 18-213, except for those subject to paragraph (2) of subsection (e) of Section 18-213, for the levy year in which the referendum making this Law applicable to the taxing district is held, or for those taxing districts subject to this Law in accordance with paragraph (2) of subsection (e) of Section 18-213 for the 1996 levy year, constituting an extension for payment of principal and interest on bonds issued by the taxing district without referendum, but not including excluded non-referendum bonds. For park districts (i) that were first subject to this Law in 1991 or 1995 and (ii) whose extension for the 1994 levy year for the payment of principal and interest on bonds issued by the park district without referendum (but not including excluded non-referendum bonds) was less than 51% of the amount for the 1991 levy year constituting an extension for payment of principal and interest on bonds issued by the park district without

referendum (but not including excluded non-referendum bonds), "debt service extension base" means an amount equal to that portion of the extension for the 1991 levy year constituting an extension for payment of principal and interest on bonds issued by the park district without referendum (but not including excluded non-referendum bonds). A debt service extension base established or increased at any time pursuant to any provision of this Law, except Section 18-212, shall be increased each year commencing with the later of (i) the 2009 levy year or (ii) the first levy year in which this Law becomes applicable to the taxing district, by the lesser of 5% or the percentage increase in the Consumer Price Index during the 12-month calendar year preceding the levy year. The debt service extension base may be established or increased as provided under Section 18-212. "Excluded non-referendum bonds" means (i) bonds authorized by Public Act 88-503 and issued under Section 20a of the Chicago Park District Act for aquarium and museum projects; (ii) bonds issued under Section 15 of the Local Government Debt Reform Act; or (iii) refunding obligations issued to refund or to continue to refund obligations initially issued pursuant to referendum.

"Special purpose extensions" include, but are not limited to, extensions for levies made on an annual basis for unemployment and workers' compensation, self-insurance, contributions to pension plans, and extensions made pursuant to Section 6-601 of the Illinois Highway Code for a road district's permanent road fund whether levied annually or not. The extension for a special service area is not included in the aggregate extension.

"Aggregate extension base" means the taxing district's last preceding aggregate extension as adjusted under Sections 18-135, 18-215, and 18-230. An adjustment under Section 18-135 shall be made for the 2007 levy year and all subsequent levy years whenever one or more counties within which a taxing district is located (i) used estimated valuations or rates when extending taxes in the taxing district for the last preceding levy year that resulted in the over or under extension of taxes, or (ii) increased or decreased the tax extension for the last preceding levy year as required by Section 18-135(c). Whenever an adjustment is required under Section 18-135, the aggregate extension base of the taxing district shall be equal to the amount that the aggregate extension of the taxing district would have been for the last preceding levy year if either or both (i) actual, rather than estimated, valuations or rates had been used to calculate the extension of taxes for the last levy year, or (ii) the tax

extension for the last preceding levy year had not been adjusted as required by subsection (c) of Section 18-135.

"Levy year" has the same meaning as "year" under Section 1-155.

"New property" means (i) the assessed value, after final board of review or board of appeals action, of new improvements or additions to existing improvements on any parcel of real property that increase the assessed value of that real property during the levy year multiplied by the equalization factor issued by the Department under Section 17-30, (ii) the assessed value, after final board of review or board of appeals action, of real property not exempt from real estate taxation, which real property was exempt from real estate taxation for any portion of the immediately preceding levy year, multiplied by the equalization factor issued by the Department under Section 17-30, including the assessed value, upon final stabilization of occupancy after new construction is complete, of any real property located within the boundaries of an otherwise or previously exempt military reservation that is intended for residential use and owned by or leased to a private corporation or other entity, and (iii) in counties that classify in accordance with Section 4 of Article IX of the Illinois Constitution, an incentive property's additional assessed value resulting from a scheduled increase in the level of assessment as applied to the first year final board of review market value. In addition, the county clerk in a county containing a population of 3,000,000 or more shall include in the 1997 recovered tax increment value for any school district, any recovered tax increment value that was applicable to the 1995 tax year calculations.

"Qualified airport authority" means an airport authority organized under the Airport Authorities Act and located in a county bordering on the State of Wisconsin and having a population in excess of 200,000 and not greater than 500,000.

"Recovered tax increment value" means, except as otherwise provided in this paragraph, the amount of the current year's equalized assessed value, in the first year after a municipality terminates the designation of an area as a redevelopment project area previously established under the Tax Increment Allocation Development Act in the Illinois Municipal Code, previously established under the Industrial Jobs Recovery Law in the Illinois Municipal Code, previously established under the Economic Development Project Area Tax Increment Act of 1995, or previously established under the Economic Development Area Tax Increment Allocation Act, of each taxable lot, block, tract, or parcel of real property in the redevelopment project area over and above the initial

equalized assessed value of each property in the redevelopment project area. For the taxes which are extended for the 1997 levy year, the recovered tax increment value for a non-home rule taxing district that first became subject to this Law for the 1995 levy year because a majority of its 1994 equalized assessed value was in an affected county or counties shall be increased if a municipality terminated the designation of an area in 1993 as a redevelopment project area previously established under the Tax Increment Allocation Development Act in the Illinois Municipal Code, previously established under the Industrial Jobs Recovery Law in the Illinois Municipal Code, or previously established under the Economic Development Area Tax Increment Allocation Act, by an amount equal to the 1994 equalized assessed value of each taxable lot, block, tract, or parcel of real property in the redevelopment project area over and above the initial equalized assessed value of each property in the redevelopment project area. In the first year after a municipality removes a taxable lot, block, tract, or parcel of real property from a redevelopment project area established under the Tax Increment Allocation Development Act in the Illinois Municipal Code, the Industrial Jobs Recovery Law in the Illinois Municipal Code, or the Economic Development Area Tax Increment Allocation Act, "recovered tax increment value" means the amount of the current year's equalized assessed value of each taxable lot, block, tract, or parcel of real property removed from the redevelopment project area over and above the initial equalized assessed value of that real property before removal from the redevelopment project area.

Except as otherwise provided in this Section, "limiting rate" means a fraction the numerator of which is the last preceding aggregate extension base times an amount equal to one plus the extension limitation defined in this Section and the denominator of which is the current year's equalized assessed value of all real property in the territory under the jurisdiction of the taxing district during the prior levy year. For those taxing districts that reduced their aggregate extension for the last preceding levy year, the highest aggregate extension in any of the last 3 preceding levy years shall be used for the purpose of computing the limiting rate. The denominator shall not include new property or the recovered tax increment value. If a new rate, a rate decrease, or a limiting rate increase has been approved at an election held after March 21, 2006, then (i) the otherwise applicable limiting rate shall be increased by the amount of the new rate or shall be reduced by the amount of the rate decrease, as the case may be, or (ii) in the case of a limiting rate increase, the limiting rate shall be equal to the
rate set forth in the proposition approved by the voters for each of the years specified in the proposition, after which the limiting rate of the taxing district shall be calculated as otherwise provided. In the case of a taxing district that obtained referendum approval for an increased limiting rate on March 20, 2012, the limiting rate for tax year 2012 shall be the rate that generates the approximate total amount of taxes extendable for that tax year, as set forth in the proposition approved by the voters; this rate shall be the final rate applied by the county clerk for the aggregate of all capped funds of the district for tax year 2012.

AN ACT concerning revenue.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Property Tax Code is amended by changing Sections 15-170 and 15-175 as follows:
(35 ILCS 200/15-170)
Sec. 15-170. Senior Citizens Homestead Exemption. An annual homestead exemption limited, except as described here with relation to cooperatives or life care facilities, to a maximum reduction set forth below from the property's value, as equalized or assessed by the Department, is granted for property that is occupied as a residence by a person 65 years of age or older who is liable for paying real estate taxes on the property and is an owner of record of the property or has a legal or equitable interest therein as evidenced by a written instrument, except for a leasehold interest, other than a leasehold interest of land on which a single family residence is located, which is occupied as a residence by a person 65 years or older who has an ownership interest therein, legal, equitable or as a lessee, and on which he or she is liable for the payment of property taxes. Before taxable year 2004, the maximum reduction shall be $2,500 in

New matter indicated by italics - deletions by strikeout
counties with 3,000,000 or more inhabitants and $2,000 in all other counties. For taxable years 2004 through 2005, the maximum reduction shall be $3,000 in all counties. For taxable years 2006 and 2007, the maximum reduction shall be $3,500. For taxable years 2008 through 2011 and thereafter, the maximum reduction is $4,000 in all counties. For taxable year 2012, the maximum reduction is $5,000 in counties with 3,000,000 or more inhabitants and $4,000 in all other counties. For taxable years 2013 and thereafter, the maximum reduction is $5,000 in all counties.

For land improved with an apartment building owned and operated as a cooperative, the maximum reduction from the value of the property, as equalized by the Department, shall be multiplied by the number of apartments or units occupied by a person 65 years of age or older who is liable, by contract with the owner or owners of record, for paying property taxes on the property and is an owner of record of a legal or equitable interest in the cooperative apartment building, other than a leasehold interest. For land improved with a life care facility, the maximum reduction from the value of the property, as equalized by the Department, shall be multiplied by the number of apartments or units occupied by persons 65 years of age or older, irrespective of any legal, equitable, or leasehold interest in the facility, who are liable, under a contract with the owner or owners of record of the facility, for paying property taxes on the property. In a cooperative or a life care facility where a homestead exemption has been granted, the cooperative association or the management firm of the cooperative or facility shall credit the savings resulting from that exemption only to the apportioned tax liability of the owner or resident who qualified for the exemption. Any person who willfully refuses to so credit the savings shall be guilty of a Class B misdemeanor. Under this Section and Sections 15-175, 15-176, and 15-177, "life care facility" means a facility, as defined in Section 2 of the Life Care Facilities Act, with which the applicant for the homestead exemption has a life care contract as defined in that Act.

When a homestead exemption has been granted under this Section and the person qualifying subsequently becomes a resident of a facility licensed under the Assisted Living and Shared Housing Act, the Nursing Home Care Act, the Specialized Mental Health Rehabilitation Act, or the ID/DD Community Care Act, the exemption shall continue so long as the residence continues to be occupied by the qualifying person's spouse if the
spouse is 65 years of age or older, or if the residence remains unoccupied but is still owned by the person qualified for the homestead exemption.

A person who will be 65 years of age during the current assessment year shall be eligible to apply for the homestead exemption during that assessment year. Application shall be made during the application period in effect for the county of his residence.

Beginning with assessment year 2003, for taxes payable in 2004, property that is first occupied as a residence after January 1 of any assessment year by a person who is eligible for the senior citizens homestead exemption under this Section must be granted a pro-rata exemption for the assessment year. The amount of the pro-rata exemption is the exemption allowed in the county under this Section divided by 365 and multiplied by the number of days during the assessment year the property is occupied as a residence by a person eligible for the exemption under this Section. The chief county assessment officer must adopt reasonable procedures to establish eligibility for this pro-rata exemption.

The assessor or chief county assessment officer may determine the eligibility of a life care facility to receive the benefits provided by this Section, by affidavit, application, visual inspection, questionnaire or other reasonable methods in order to insure that the tax savings resulting from the exemption are credited by the management firm to the apportioned tax liability of each qualifying resident. The assessor may request reasonable proof that the management firm has so credited the exemption.

The chief county assessment officer of each county with less than 3,000,000 inhabitants shall provide to each person allowed a homestead exemption under this Section a form to designate any other person to receive a duplicate of any notice of delinquency in the payment of taxes assessed and levied under this Code on the property of the person receiving the exemption. The duplicate notice shall be in addition to the notice required to be provided to the person receiving the exemption, and shall be given in the manner required by this Code. The person filing the request for the duplicate notice shall pay a fee of $5 to cover administrative costs to the supervisor of assessments, who shall then file the executed designation with the county collector. Notwithstanding any other provision of this Code to the contrary, the filing of such an executed designation requires the county collector to provide duplicate notices as indicated by the designation. A designation may be rescinded by the person who executed such designation at any time, in the manner and form required by the chief county assessment officer.

The assessor or chief county assessment officer may determine the eligibility of residential property to receive the homestead exemption provided by this Section by application, visual inspection, questionnaire or other reasonable methods. The determination shall be made in accordance with guidelines established by the Department.

In counties with 3,000,000 or more inhabitants, beginning in taxable year 2010, each taxpayer who has been granted an exemption under this Section must reapply on an annual basis. The chief county assessment officer shall mail the application to the taxpayer. In counties with less than 3,000,000 inhabitants, the county board may by resolution provide that if a person has been granted a homestead exemption under this Section, the person qualifying need not reapply for the exemption.

In counties with less than 3,000,000 inhabitants, if the assessor or chief county assessment officer requires annual application for verification of eligibility for an exemption once granted under this Section, the application shall be mailed to the taxpayer.

The assessor or chief county assessment officer shall notify each person who qualifies for an exemption under this Section that the person may also qualify for deferral of real estate taxes under the Senior Citizens Real Estate Tax Deferral Act. The notice shall set forth the qualifications needed for deferral of real estate taxes, the address and telephone number of county collector, and a statement that applications for deferral of real estate taxes may be obtained from the county collector.

Notwithstanding Sections 6 and 8 of the State Mandates Act, no reimbursement by the State is required for the implementation of any mandate created by this Section.

(35 ILCS 200/15-175)
Sec. 15-175. General homestead exemption.
(a) Except as provided in Sections 15-176 and 15-177, homestead property is entitled to an annual homestead exemption limited, except as described here with relation to cooperatives, to a reduction in the equalized assessed value of homestead property equal to the increase in equalized assessed value for the current assessment year above the equalized assessed value of the property for 1977, up to the maximum reduction set forth below. If however, the 1977 equalized assessed value upon which taxes were paid is subsequently determined by local assessing officials, the

New matter indicated by italics - deletions by strikeout
Property Tax Appeal Board, or a court to have been excessive, the equalized assessed value which should have been placed on the property for 1977 shall be used to determine the amount of the exemption.

(b) Except as provided in Section 15-176, the maximum reduction before taxable year 2004 shall be $4,500 in counties with 3,000,000 or more inhabitants and $3,500 in all other counties. Except as provided in Sections 15-176 and 15-177, for taxable years 2004 through 2007, the maximum reduction shall be $5,000, for taxable year 2008, the maximum reduction is $5,500, and, for taxable years 2009 through 2011 and thereafter, the maximum reduction is $6,000 in all counties. For taxable years 2012 and thereafter, the maximum reduction is $7,000 in counties with 3,000,000 or more inhabitants and $6,000 in all other counties. If a county has elected to subject itself to the provisions of Section 15-176 as provided in subsection (k) of that Section, then, for the first taxable year only after the provisions of Section 15-176 no longer apply, for owners who, for the taxable year, have not been granted a senior citizens assessment freeze homestead exemption under Section 15-172 or a long-time occupant homestead exemption under Section 15-177, there shall be an additional exemption of $5,000 for owners with a household income of $30,000 or less.

(c) In counties with fewer than 3,000,000 inhabitants, if, based on the most recent assessment, the equalized assessed value of the homestead property for the current assessment year is greater than the equalized assessed value of the property for 1977, the owner of the property shall automatically receive the exemption granted under this Section in an amount equal to the increase over the 1977 assessment up to the maximum reduction set forth in this Section.

(d) If in any assessment year beginning with the 2000 assessment year, homestead property has a pro-rata valuation under Section 9-180 resulting in an increase in the assessed valuation, a reduction in equalized assessed valuation equal to the increase in equalized assessed value of the property for the year of the pro-rata valuation above the equalized assessed value of the property for 1977 shall be applied to the property on a proportionate basis for the period the property qualified as homestead property during the assessment year. The maximum proportionate homestead exemption shall not exceed the maximum homestead exemption allowed in the county under this Section divided by 365 and multiplied by the number of days the property qualified as homestead property.
(e) The chief county assessment officer may, when considering whether to grant a leasehold exemption under this Section, require the following conditions to be met:

1. that a notarized application for the exemption, signed by both the owner and the lessee of the property, must be submitted each year during the application period in effect for the county in which the property is located;
2. that a copy of the lease must be filed with the chief county assessment officer by the owner of the property at the time the notarized application is submitted;
3. that the lease must expressly state that the lessee is liable for the payment of property taxes; and
4. that the lease must include the following language in substantially the following form:

   "Lessee shall be liable for the payment of real estate taxes with respect to the residence in accordance with the terms and conditions of Section 15-175 of the Property Tax Code (35 ILCS 200/15-175). The permanent real estate index number for the premises is (insert number), and, according to the most recent property tax bill, the current amount of real estate taxes associated with the premises is (insert amount) per year. The parties agree that the monthly rent set forth above shall be increased or decreased pro rata (effective January 1 of each calendar year) to reflect any increase or decrease in real estate taxes. Lessee shall be deemed to be satisfying Lessee's liability for the above mentioned real estate taxes with the monthly rent payments as set forth above (or increased or decreased as set forth herein)."

In addition, if there is a change in lessee, or if the lessee vacates the property, then the chief county assessment officer may require the owner of the property to notify the chief county assessment officer of that change.

This subsection (e) does not apply to leasehold interests in property owned by a municipality.

(f) "Homestead property" under this Section includes residential property that is occupied by its owner or owners as his or their principal dwelling place, or that is a leasehold interest on which a single family residence is situated, which is occupied as a residence by a person who has an ownership interest therein, legal or equitable or as a lessee, and on
which the person is liable for the payment of property taxes. For land
improved with an apartment building owned and operated as a cooperative
or a building which is a life care facility as defined in Section 15-170 and
considered to be a cooperative under Section 15-170, the maximum
reduction from the equalized assessed value shall be limited to the increase
in the value above the equalized assessed value of the property for 1977,
up to the maximum reduction set forth above, multiplied by the number of
apartments or units occupied by a person or persons who is liable, by
contract with the owner or owners of record, for paying property taxes on
the property and is an owner of record of a legal or equitable interest in the
cooperative apartment building, other than a leasehold interest. For
purposes of this Section, the term "life care facility" has the meaning
stated in Section 15-170.

"Household", as used in this Section, means the owner, the spouse
of the owner, and all persons using the residence of the owner as their
principal place of residence.

"Household income", as used in this Section, means the combined
income of the members of a household for the calendar year preceding the
taxable year.

"Income", as used in this Section, has the same meaning as
provided in Section 3.07 of the Senior Citizens and Disabled Persons
Property Tax Relief Act, except that "income" does not include veteran's
benefits.

(g) In a cooperative where a homestead exemption has been
granted, the cooperative association or its management firm shall credit
the savings resulting from that exemption only to the apportioned tax
liability of the owner who qualified for the exemption. Any person who
willfully refuses to so credit the savings shall be guilty of a Class B
misdemeanor.

(h) Where married persons maintain and reside in separate
residences qualifying as homestead property, each residence shall receive
50% of the total reduction in equalized assessed valuation provided by this
Section.

(i) In all counties, the assessor or chief county assessment officer
may determine the eligibility of residential property to receive the
homestead exemption and the amount of the exemption by application,
visual inspection, questionnaire or other reasonable methods. The
determination shall be made in accordance with guidelines established by
the Department, provided that the taxpayer applying for an additional

New matter indicated by italics - deletions by strikeout
general exemption under this Section shall submit to the chief county assessment officer an application with an affidavit of the applicant's total household income, age, marital status (and, if married, the name and address of the applicant's spouse, if known), and principal dwelling place of members of the household on January 1 of the taxable year. The Department shall issue guidelines establishing a method for verifying the accuracy of the affidavits filed by applicants under this paragraph. The applications shall be clearly marked as applications for the Additional General Homestead Exemption.

(j) In counties with fewer than 3,000,000 inhabitants, in the event of a sale of homestead property the homestead exemption shall remain in effect for the remainder of the assessment year of the sale. The assessor or chief county assessment officer may require the new owner of the property to apply for the homestead exemption for the following assessment year.

(k) Notwithstanding Sections 6 and 8 of the State Mandates Act, no reimbursement by the State is required for the implementation of any mandate created by this Section.

spouse, provided that the spouse's share of the marital property is not made available to the person seeking such services.

Beginning January 1, 2008, the Department shall require as a condition of eligibility that all new financially eligible applicants apply for and enroll in medical assistance under Article V of the Illinois Public Aid Code in accordance with rules promulgated by the Department.

The Department shall, in conjunction with the Department of Public Aid (now Department of Healthcare and Family Services), seek appropriate amendments under Sections 1915 and 1924 of the Social Security Act. The purpose of the amendments shall be to extend eligibility for home and community based services under Sections 1915 and 1924 of the Social Security Act to persons who transfer to or for the benefit of a spouse those amounts of income and resources allowed under Section 1924 of the Social Security Act. Subject to the approval of such amendments, the Department shall extend the provisions of Section 5-4 of the Illinois Public Aid Code to persons who, but for the provision of home or community-based services, would require the level of care provided in an institution, as is provided for in federal law. Those persons no longer found to be eligible for receiving noninstitutional services due to changes in the eligibility criteria shall be given 45 days notice prior to actual termination. Those persons receiving notice of termination may contact the Department and request the determination be appealed at any time during the 45 day notice period. The target population identified for the purposes of this Section are persons age 60 and older with an identified service need. Priority shall be given to those who are at imminent risk of institutionalization. The services shall be provided to eligible persons age 60 and older to the extent that the cost of the services together with the other personal maintenance expenses of the persons are reasonably related to the standards established for care in a group facility appropriate to the person's condition. These non-institutional services, pilot projects or experimental facilities may be provided as part of or in addition to those authorized by federal law or those funded and administered by the Department of Human Services. The Departments of Human Services, Healthcare and Family Services, Public Health, Veterans' Affairs, and Commerce and Economic Opportunity and other appropriate agencies of State, federal and local governments shall cooperate with the Department on Aging in the establishment and development of the non-institutional services. The Department shall require an annual audit from all personal assistant and home care aide vendors contracting with the Department

under this Section. The annual audit shall assure that each audited vendor's procedures are in compliance with Department's financial reporting guidelines requiring an administrative and employee wage and benefits cost split as defined in administrative rules. The audit is a public record under the Freedom of Information Act. The Department shall execute, relative to the nursing home prescreening project, written inter-agency agreements with the Department of Human Services and the Department of Healthcare and Family Services, to effect the following: (1) intake procedures and common eligibility criteria for those persons who are receiving non-institutional services; and (2) the establishment and development of non-institutional services in areas of the State where they are not currently available or are undeveloped. On and after July 1, 1996, all nursing home prescreenings for individuals 60 years of age or older shall be conducted by the Department.

As part of the Department on Aging's routine training of case managers and case manager supervisors, the Department may include information on family futures planning for persons who are age 60 or older and who are caregivers of their adult children with developmental disabilities. The content of the training shall be at the Department's discretion.

The Department is authorized to establish a system of recipient copayment for services provided under this Section, such copayment to be based upon the recipient's ability to pay but in no case to exceed the actual cost of the services provided. Additionally, any portion of a person's income which is equal to or less than the federal poverty standard shall not be considered by the Department in determining the copayment. The level of such copayment shall be adjusted whenever necessary to reflect any change in the officially designated federal poverty standard.

The Department, or the Department's authorized representative, may recover the amount of moneys expended for services provided to or in behalf of a person under this Section by a claim against the person's estate or against the estate of the person's surviving spouse, but no recovery may be had until after the death of the surviving spouse, if any, and then only at such time when there is no surviving child who is under age 21, blind, or permanently and totally disabled. This paragraph, however, shall not bar recovery, at the death of the person, of moneys for services provided to the person or in behalf of the person under this Section to which the person was not entitled; provided that such recovery shall not be enforced against any real estate while it is occupied as a homestead by the surviving spouse.

or other dependent, if no claims by other creditors have been filed against the estate, or, if such claims have been filed, they remain dormant for failure of prosecution or failure of the claimant to compel administration of the estate for the purpose of payment. This paragraph shall not bar recovery from the estate of a spouse, under Sections 1915 and 1924 of the Social Security Act and Section 5-4 of the Illinois Public Aid Code, who precedes a person receiving services under this Section in death. All moneys for services paid to or in behalf of the person under this Section shall be claimed for recovery from the deceased spouse's estate.

"Homestead", as used in this paragraph, means the dwelling house and contiguous real estate occupied by a surviving spouse or relative, as defined by the rules and regulations of the Department of Healthcare and Family Services, regardless of the value of the property.

The Department shall increase the effectiveness of the existing Community Care Program by:

(1) ensuring that in-home services included in the care plan are available on evenings and weekends;

(2) ensuring that care plans contain the services that eligible participants need based on the number of days in a month, not limited to specific blocks of time, as identified by the comprehensive assessment tool selected by the Department for use statewide, not to exceed the total monthly service cost maximum allowed for each service; the Department shall develop administrative rules to implement this item (2);

(3) ensuring that the participants have the right to choose the services contained in their care plan and to direct how those services are provided, based on administrative rules established by the Department;

(4) ensuring that the determination of need tool is accurate in determining the participants' level of need; to achieve this, the Department, in conjunction with the Older Adult Services Advisory Committee, shall institute a study of the relationship between the Determination of Need scores, level of need, service cost maximums, and the development and utilization of service plans no later than May 1, 2008; findings and recommendations shall be presented to the Governor and the General Assembly no later than January 1, 2009; recommendations shall include all needed changes to the service cost maximums schedule and additional covered services;

(8) ensuring that the determination of need tool accurately reflects the service needs of individuals with Alzheimer's disease and related dementia disorders;

(b-1) However, payment of tuition reimbursement claims under Section 14-7.03 or 18-3 of the School Code may be made by the State Board of Education from its appropriations for those respective purposes for any fiscal year, even though the claims reimbursed by the payment may be claims attributable to a prior fiscal year, and payments may be made at the direction of the State Superintendent of Education from the fund from which the appropriation is made without regard to any fiscal year limitations, except as required by subsection (j) of this Section. (b-2.5) All outstanding liabilities as of June 30, 2011, payable from appropriations that would otherwise expire at the conclusion of the lapse period for fiscal year 2011, and interest penalties payable on those liabilities under the State Prompt Payment Act, may be paid out of the expiring appropriations until December 31, 2011, without regard to the fiscal year in which the payment is made, as long as vouchers for the liabilities are received by the Comptroller no later than August 31, 2011.

(b-2.6) All outstanding liabilities as of June 30, 2012, payable from appropriations that would otherwise expire at the conclusion of the lapse period for fiscal year 2012, and interest penalties payable on those liabilities under the State Prompt Payment Act, may be paid out of the expiring appropriations until December 31, 2012, without regard to the fiscal year in which the payment is made, as long as vouchers for the liabilities are received by the Comptroller no later than August 31, 2012.

(b-2.7) For fiscal years 2012 and 2013, interest penalties payable under the State Prompt Payment Act associated with a voucher for which payment is issued after June 30 may be paid out of the next fiscal year's appropriation. The future year appropriation must be for the same purpose and from the same fund as the original payment. An interest penalty voucher submitted against a future year appropriation must be submitted within 60 days after the issuance of the associated voucher, and the Comptroller must issue the interest payment within 60 days after acceptance of the interest voucher.

(b-3) Medical payments may be made by the Department of Veterans' Affairs from its appropriations for those purposes for any fiscal year, without regard to the fact that the medical services being compensated for by such payment may have been rendered in a prior fiscal year, except as required by subsection (j) of this Section. Beginning on June 30, 2021, medical payments payable from appropriations that have
otherwise expired may be paid out of the expiring appropriation during the
4-month period ending at the close of business on October 31.

(ii) distribution automation;

New matter indicated by italics - deletions by strikeout
(iii) associated cyber secure data communication network; and

(iv) substation micro-processor relay upgrades.

(2) Beginning no later than 180 days after a participating utility that is a combination utility files a performance-based formula rate tariff pursuant to subsection (c) of this Section, or, beginning no later than January 1, 2012 if such utility files such performance-based formula rate tariff within 14 days of the effective date of this amendatory Act of the 97th General Assembly, the participating utility shall, except as provided in subsection (b-5):

(A) over a 10-year period, invest an estimated $265,000,000 in electric system upgrades, modernization projects, and training facilities, including, but not limited to:

(i) distribution infrastructure improvements totaling an estimated $245,000,000, which may include bulk supply substations, transformers, reconductoring, and rebuilding overhead distribution and sub-transmission lines, underground residential distribution cable injection and replacement and mainline cable system refurbishment and replacement projects;

(ii) training facility construction or upgrade projects totaling an estimated $1,000,000; any such new facility must be designed for the purpose of obtaining, and the owner of the facility shall apply for, certification under the United States Green Building Council's Leadership in Energy Efficiency Design Green Building Rating System; and

(iii) wood pole inspection, treatment, and replacement programs; and

(B) over a 10-year period, invest an estimated $360,000,000 to upgrade and modernize its transmission and distribution infrastructure and in Smart Grid electric system upgrades, including, but not limited to:

(i) additional smart meters;

(ii) distribution automation;

New matter indicated by italics - deletions by strikeout
(iii) associated cyber secure data communication network; and
(iv) substation micro-processor relay upgrades.

For purposes of this Section, "Smart Grid electric system upgrades" shall have the meaning set forth in subsection (a) of Section 16-108.6 of this Act.

The investments in the infrastructure investment program described in this subsection (b) shall be incremental to the participating utility's annual capital investment program, as defined by, for purposes of this subsection (b), the participating utility's average capital spend for calendar years 2008, 2009, and 2010 as reported in the applicable Federal Energy Regulatory Commission (FERC) Form 1; provided that where one or more utilities have merged, the average capital spend shall be determined using the aggregate of the merged utilities' capital spend reported in FERC Form 1 for the years 2008, 2009, and 2010. A participating utility may add reasonable construction ramp-up and ramp-down time to the investment periods specified in this subsection (b). For each such investment period, the ramp-up and ramp-down time shall not exceed a total of 6 months.

Within 60 days after filing a tariff under subsection (c) of this Section, a participating utility shall submit to the Commission its plan, including scope, schedule, and staffing, for satisfying its infrastructure investment program commitments pursuant to this subsection (b). The submitted plan shall include a schedule and staffing plan for the next calendar year. The plan shall also include a plan for the creation, operation, and administration of a Smart Grid test bed as described in subsection (c) of Section 16-108.8. The plan need not allocate the work equally over the respective periods, but should allocate material increments throughout such periods commensurate with the work to be undertaken. No later than April 1 of each subsequent year, the utility shall submit to the Commission a report that includes any updates to the plan, a schedule for the next calendar year, the expenditures made for the prior calendar year and cumulatively, and the number of full-time equivalent jobs created for the prior calendar year and cumulatively. If the utility is materially deficient in satisfying a schedule or staffing plan, then the report must also include a corrective action plan to address the deficiency. The fact that the plan, implementation of the plan, or a schedule changes shall not imply the imprudence or unreasonableness of the infrastructure

investment program, plan, or schedule. Further, no later than 45 days following the last day of the first, second, and third quarters of each year of the plan, a participating utility shall submit to the Commission a verified quarterly report for the prior quarter that includes (i) the total number of full-time equivalent jobs created during the prior quarter, (ii) the total number of employees as of the last day of the prior quarter, (iii) the total number of full-time equivalent hours in each job classification or job title, (iv) the total number of incremental employees and contractors in support of the investments undertaken pursuant to this subsection (b) for the prior quarter, and (v) any other information that the Commission may require by rule.

With respect to the participating utility's peak job commitment, if, after considering the utility's corrective action plan and compliance thereunder, the Commission enters an order finding, after notice and hearing, that a participating utility did not satisfy its peak job commitment described in this subsection (b) for reasons that are reasonably within its control, then the Commission shall also determine, after consideration of the evidence, including, but not limited to, evidence submitted by the Department of Commerce and Economic Opportunity and the utility, the deficiency in the number of full-time equivalent jobs during the peak program year due to such failure. The Commission shall notify the Department of any proceeding that is initiated pursuant to this paragraph. For each full-time equivalent job deficiency during the peak program year that the Commission finds as set forth in this paragraph, the participating utility shall, within 30 days after the entry of the Commission's order, pay $6,000 to a fund for training grants administered under Section 605-800 of The Department of Commerce and Economic Opportunity Law, which shall not be a recoverable expense.

With respect to the participating utility's investment amount commitments, if, after considering the utility's corrective action plan and compliance thereunder, the Commission enters an order finding, after notice and hearing, that a participating utility is not satisfying its investment amount commitments described in this subsection (b), then the utility shall no longer be eligible to annually update the performance-based formula rate tariff pursuant to subsection (d) of this Section. In such event, the then current rates shall remain in effect until such time as new rates are set pursuant to Article IX of this Act, subject to retroactive adjustment, with interest, to reconcile rates charged with actual costs.
If the Commission finds that a participating utility is no longer eligible to update the performance-based formula rate tariff pursuant to subsection (d) of this Section, or the performance-based formula rate is otherwise terminated, then the participating utility's voluntary commitments and obligations under this subsection (b) shall immediately terminate, except for the utility's obligation to pay an amount already owed to the fund for training grants pursuant to a Commission order.

In meeting the obligations of this subsection (b), to the extent feasible and consistent with State and federal law, the investments under the infrastructure investment program should provide employment opportunities for all segments of the population and workforce, including minority-owned and female-owned business enterprises, and shall not, consistent with State and federal law, discriminate based on race or socioeconomic status.

(b-5) Nothing in this Section shall prohibit the Commission from investigating the prudence and reasonableness of the expenditures made under the infrastructure investment program during the annual review required by subsection (d) of this Section and shall, as part of such investigation, determine whether the utility's actual costs under the program are prudent and reasonable. The fact that a participating utility invests more than the minimum amounts specified in subsection (b) of this Section or its plan shall not imply imprudence or unreasonableness.

If the participating utility finds that it is implementing its plan for satisfying the infrastructure investment program commitments described in subsection (b) of this Section at a cost below the estimated amounts specified in subsection (b) of this Section, then the utility may file a petition with the Commission requesting that it be permitted to satisfy its commitments by spending less than the estimated amounts specified in subsection (b) of this Section. The Commission shall, after notice and hearing, enter its order approving, or approving as modified, or denying each such petition within 150 days after the filing of the petition.

In no event, absent General Assembly approval, shall the capital investment costs incurred by a participating utility other than a combination utility in satisfying its infrastructure investment program commitments described in subsection (b) of this Section exceed $3,000,000,000 or, for a participating utility that is a combination utility, $720,000,000. If the participating utility's updated cost estimates for satisfying its infrastructure investment program commitments described in subsection (b) of this Section exceed the limitation imposed by this
subsection (b-5), then it shall submit a report to the Commission that identifies the increased costs and explains the reason or reasons for the increased costs no later than the year in which the utility estimates it will exceed the limitation. The Commission shall review the report and shall, within 90 days after the participating utility files the report, report to the General Assembly its findings regarding the participating utility's report. If the General Assembly does not amend the limitation imposed by this subsection (b-5), then the utility may modify its plan so as not to exceed the limitation imposed by this subsection (b-5) and may propose corresponding changes to the metrics established pursuant to subparagraphs (5) through (8) of subsection (f) of this Section, and the Commission may modify the metrics and incremental savings goals established pursuant to subsection (f) of this Section accordingly.

(b-10) All participating utilities shall make contributions for an energy low-income and support program in accordance with this subsection. Beginning no later than 180 days after a participating utility files a performance-based formula rate tariff pursuant to subsection (c) of this Section, or beginning no later than January 1, 2012 if such utility files such performance-based formula rate tariff within 14 days of the effective date of this amendatory Act of the 97th General Assembly, and without obtaining any approvals from the Commission or any other agency other than as set forth in this Section, regardless of whether any such approval would otherwise be required, a participating utility other than a combination utility shall pay $10,000,000 per year for 5 years and a participating utility that is a combination utility shall pay $1,000,000 per year for 10 years to the energy low-income and support program, which is intended to fund customer assistance programs with the primary purpose being avoidance of imminent disconnection. Such programs may include:

(1) a residential hardship program that may partner with community-based organizations, including senior citizen organizations, and provides grants to low-income residential customers, including low-income senior citizens, who demonstrate a hardship;

(2) a program that provides grants and other bill payment concessions to disabled veterans who demonstrate a hardship and members of the armed services or reserve forces of the United States or members of the Illinois National Guard who are on active duty pursuant to an executive order of the President of the United

New matter indicated by italics - deletions by strikeout
States, an act of the Congress of the United States, or an order of the Governor and who demonstrate a hardship;

(3) a budget assistance program that provides tools and education to low-income senior citizens to assist them with obtaining information regarding energy usage and effective means of managing energy costs;

(4) a non-residential special hardship program that provides grants to non-residential customers such as small businesses and non-profit organizations that demonstrate a hardship, including those providing services to senior citizen and low-income customers; and

(5) a performance-based assistance program that provides grants to encourage residential customers to make on-time payments by matching a portion of the customer's payments or providing credits towards arrearages.

The payments made by a participating utility pursuant to this subsection (b-10) shall not be a recoverable expense. A participating utility may elect to fund either new or existing customer assistance programs, including, but not limited to, those that are administered by the utility.

Programs that use funds that are provided by a participating utility to reduce utility bills may be implemented through tariffs that are filed with and reviewed by the Commission. If a utility elects to file tariffs with the Commission to implement all or a portion of the programs, those tariffs shall, regardless of the date actually filed, be deemed accepted and approved, and shall become effective on the effective date of this amendatory Act of the 97th General Assembly. The participating utilities whose customers benefit from the funds that are disbursed as contemplated in this Section shall file annual reports documenting the disbursement of those funds with the Commission. The Commission has the authority to audit disbursement of the funds to ensure they were disbursed consistently with this Section.

If the Commission finds that a participating utility is no longer eligible to update the performance-based formula rate tariff pursuant to subsection (d) of this Section, or the performance-based formula rate is otherwise terminated, then the participating utility's voluntary commitments and obligations under this subsection (b-10) shall immediately terminate.

(c) A participating utility may elect to recover its delivery services costs through a performance-based formula rate approved by the
Commission, which shall specify the cost components that form the basis of the rate charged to customers with sufficient specificity to operate in a standardized manner and be updated annually with transparent information that reflects the utility's actual costs to be recovered during the applicable rate year, which is the period beginning with the first billing day of January and extending through the last billing day of the following December. In the event the utility recovers a portion of its costs through automatic adjustment clause tariffs on the effective date of this amendatory Act of the 97th General Assembly, the utility may elect to continue to recover these costs through such tariffs, but then these costs shall not be recovered through the performance-based formula rate. In the event the participating utility, prior to the effective date of this amendatory Act of the 97th General Assembly, filed electric delivery services tariffs with the Commission pursuant to Section 9-201 of this Act that are related to the recovery of its electric delivery services costs that are still pending on the effective date of this amendatory Act of the 97th General Assembly, the participating utility shall, at the time it files its performance-based formula rate tariff with the Commission, also file a notice of withdrawal with the Commission to withdraw the electric delivery services tariffs previously filed pursuant to Section 9-201 of this Act. Upon receipt of such notice, the Commission shall dismiss with prejudice any docket that had been initiated to investigate the electric delivery services tariffs filed pursuant to Section 9-201 of this Act, and such tariffs and the record related thereto shall not be the subject of any further hearing, investigation, or proceeding of any kind related to rates for electric delivery services.

The performance-based formula rate shall be implemented through a tariff filed with the Commission consistent with the provisions of this subsection (c) that shall be applicable to all delivery services customers. The Commission shall initiate and conduct an investigation of the tariff in a manner consistent with the provisions of this subsection (c) and the provisions of Article IX of this Act to the extent they do not conflict with this subsection (c). Except in the case where the Commission finds, after notice and hearing, that a participating utility is not satisfying its investment amount commitments under subsection (b) of this Section, the performance-based formula rate shall remain in effect at the discretion of the utility. The performance-based formula rate approved by the Commission shall do the following:

(1) Provide for the recovery of the utility's actual costs of delivery services that are prudently incurred and reasonable in
amount consistent with Commission practice and law. The sole fact that a cost differs from that incurred in a prior calendar year or that an investment is different from that made in a prior calendar year shall not imply the imprudence or unreasonableness of that cost or investment.

(2) Reflect the utility's actual year-end capital structure for the applicable calendar year, excluding goodwill, subject to a determination of prudence and reasonableness consistent with Commission practice and law.

(3) Include a cost of equity, which shall be calculated as the sum of the following:

(A) the average for the applicable calendar year of the monthly average yields of 30-year U.S. Treasury bonds published by the Board of Governors of the Federal Reserve System in its weekly H.15 Statistical Release or successor publication; and

(B) 580 basis points.

At such time as the Board of Governors of the Federal Reserve System ceases to include the monthly average yields of 30-year U.S. Treasury bonds in its weekly H.15 Statistical Release or successor publication, the monthly average yields of the U.S. Treasury bonds then having the longest duration published by the Board of Governors in its weekly H.15 Statistical Release or successor publication shall instead be used for purposes of this paragraph (3).

(4) Permit and set forth protocols, subject to a determination of prudence and reasonableness consistent with Commission practice and law, for the following:

(A) recovery of incentive compensation expense that is based on the achievement of operational metrics, including metrics related to budget controls, outage duration and frequency, safety, customer service, efficiency and productivity, and environmental compliance. Incentive compensation expense that is based on net income or an affiliate's earnings per share shall not be recoverable under the performance-based formula rate;

(B) recovery of pension and other post-employment benefits expense, provided that such costs are supported by an actuarial study;
(C) recovery of severance costs, provided that if the amount is over $3,700,000 for a participating utility that is a combination utility or $10,000,000 for a participating utility that serves more than 3 million retail customers, then the full amount shall be amortized consistent with subparagraph (F) of this paragraph (4);

(D) investment return at a rate equal to the utility's weighted average cost of long-term debt, on the pension assets as, and in the amount, reported in Account 186 (or in such other Account or Accounts as such asset may subsequently be recorded) of the utility's most recently filed FERC Form 1, net of deferred tax benefits equal to the utility's long-term debt cost of capital as of the end of the applicable calendar year;

(E) recovery of the expenses related to the Commission proceeding under this subsection (c) to approve this performance-based formula rate and initial rates or to subsequent proceedings related to the formula, provided that the recovery shall be amortized over a 3-year period; recovery of expenses related to the annual Commission proceedings under subsection (d) of this Section to review the inputs to the performance-based formula rate shall be expensed and recovered through the performance-based formula rate;

(F) amortization over a 5-year period of the full amount of each charge or credit that exceeds $3,700,000 for a participating utility that is a combination utility or $10,000,000 for a participating utility that serves more than 3 million retail customers in the applicable calendar year and that relates to a workforce reduction program's severance costs, changes in accounting rules, changes in law, compliance with any Commission-initiated audit, or a single storm or other similar expense, provided that any unamortized balance shall be reflected in rate base. For purposes of this subparagraph (F), changes in law includes any enactment, repeal, or amendment in a law, ordinance, rule, regulation, interpretation, permit, license, consent, or order, including those relating to taxes, accounting, or to environmental matters, or in the interpretation or
application thereof by any governmental authority occurring after the effective date of this amendatory Act of the 97th General Assembly;

(G) recovery of existing regulatory assets over the periods previously authorized by the Commission;

(H) historical weather normalized billing determinants; and

(I) allocation methods for common costs.

(5) Provide that if the participating utility's earned rate of return on common equity related to the provision of delivery services for the prior rate year (calculated using costs and capital structure approved by the Commission as provided in subparagraph (2) of this subsection (c), consistent with this Section, in accordance with Commission rules and orders, including, but not limited to, adjustments for goodwill, and after any Commission-ordered disallowances and taxes) is more than 50 basis points higher than the rate of return on common equity calculated pursuant to paragraph (3) of this subsection (c) (after adjusting for any penalties to the rate of return on common equity applied pursuant to the performance metrics provision of subsection (f) of this Section), then the participating utility shall apply a credit through the performance-based formula rate that reflects an amount equal to the value of that portion of the earned rate of return on common equity that is more than 50 basis points higher than the rate of return on common equity calculated pursuant to paragraph (3) of this subsection (c) (after adjusting for any penalties to the rate of return on common equity applied pursuant to the performance metrics provision of subsection (f) of this Section) for the prior rate year, adjusted for taxes. If the participating utility's earned rate of return on common equity related to the provision of delivery services for the prior rate year (calculated using costs and capital structure approved by the Commission as provided in subparagraph (2) of this subsection (c), consistent with this Section, in accordance with Commission rules and orders, including, but not limited to, adjustments for goodwill, and after any Commission-ordered disallowances and taxes) is more than 50 basis points less than the return on common equity calculated pursuant to paragraph (3) of this subsection (c) (after adjusting for any penalties to the rate of return on common equity applied
pursuant to the performance metrics provision of subsection (f) of this Section, then the participating utility shall apply a charge through the performance-based formula rate that reflects an amount equal to the value of that portion of the earned rate of return on common equity that is more than 50 basis points less than the rate of return on common equity calculated pursuant to paragraph (3) of this subsection (c) (after adjusting for any penalties to the rate of return on common equity applied pursuant to the performance metrics provision of subsection (f) of this Section) for the prior rate year, adjusted for taxes.

(6) Provide for an annual reconciliation, as described in subsection (d) of this Section, with interest as described in subsection (d) of this Section, of the revenue requirement reflected in rates for each calendar year, beginning with the calendar year in which the utility files its performance-based formula rate tariff pursuant to subsection (c) of this Section, with what the revenue requirement would have been had the actual cost information for the applicable calendar year been available at the filing date.

The utility shall file, together with its tariff, final data based on its most recently filed FERC Form 1, plus projected plant additions and correspondingly updated depreciation reserve and expense for the calendar year in which the tariff and data are filed, that shall populate the performance-based formula rate and set the initial delivery services rates under the formula. For purposes of this Section, "FERC Form 1" means the Annual Report of Major Electric Utilities, Licensees and Others that electric utilities are required to file with the Federal Energy Regulatory Commission under the Federal Power Act, Sections 3, 4(a), 304 and 209, modified as necessary to be consistent with 83 Ill. Admin. Code Part 415 as of May 1, 2011. Nothing in this Section is intended to allow costs that are not otherwise recoverable to be recoverable by virtue of inclusion in FERC Form 1.

After the utility files its proposed performance-based formula rate structure and protocols and initial rates, the Commission shall initiate a docket to review the filing. The Commission shall enter an order approving, or approving as modified, the performance-based formula rate, including the initial rates, as just and reasonable within 270 days after the date on which the tariff was filed, or, if the tariff is filed within 14 days after the effective date of this amendatory Act of the 97th General Assembly, then by May 31, 2012. Such review shall be based on the same

New matter indicated by italics - deletions by strikeout
evidentiary standards, including, but not limited to, those concerning the prudence and reasonableness of the costs incurred by the utility, the Commission applies in a hearing to review a filing for a general increase in rates under Article IX of this Act. The initial rates shall take effect within 30 days after the Commission's order approving the performance-based formula rate tariff.

Until such time as the Commission approves a different rate design and cost allocation pursuant to subsection (e) of this Section, rate design and cost allocation across customer classes shall be consistent with the Commission's most recent order regarding the participating utility's request for a general increase in its delivery services rates.

Subsequent changes to the performance-based formula rate structure or protocols shall be made as set forth in Section 9-201 of this Act, but nothing in this subsection (c) is intended to limit the Commission's authority under Article IX and other provisions of this Act to initiate an investigation of a participating utility's performance-based formula rate tariff, provided that any such changes shall be consistent with paragraphs (1) through (6) of this subsection (c). Any change ordered by the Commission shall be made at the same time new rates take effect following the Commission's next order pursuant to subsection (d) of this Section, provided that the new rates take effect no less than 30 days after the date on which the Commission issues an order adopting the change.

A participating utility that files a tariff pursuant to this subsection (c) must submit a one-time $200,000 filing fee at the time the Chief Clerk of the Commission accepts the filing, which shall be a recoverable expense.

In the event the performance-based formula rate is terminated, the then current rates shall remain in effect until such time as new rates are set pursuant to Article IX of this Act, subject to retroactive rate adjustment, with interest, to reconcile rates charged with actual costs. At such time that the performance-based formula rate is terminated, the participating utility's voluntary commitments and obligations under subsection (b) of this Section shall immediately terminate, except for the utility's obligation to pay an amount already owed to the fund for training grants pursuant to a Commission order issued under subsection (b) of this Section.

(d) Subsequent to the Commission's issuance of an order approving the utility's performance-based formula rate structure and protocols, and initial rates under subsection (c) of this Section, the utility shall file, on or before May 1 of each year, with the Chief Clerk of the Commission its

New matter indicated by italics - deletions by strikeout
updated cost inputs to the performance-based formula rate for the applicable rate year and the corresponding new charges. Each such filing shall conform to the following requirements and include the following information:

(1) The inputs to the performance-based formula rate for the applicable rate year shall be based on final historical data reflected in the utility's most recently filed annual FERC Form 1 plus projected plant additions and correspondingly updated depreciation reserve and expense for the calendar year in which the inputs are filed. The filing shall also include a reconciliation of the revenue requirement that was in effect for the prior rate year (as set by the cost inputs for the prior rate year) with the actual revenue requirement for the prior rate year (determined using a year-end rate base) that uses amounts as reflected in the applicable FERC Form 1 that reports the actual costs for the prior rate year. Any over-collection or under-collection indicated by such reconciliation shall be reflected as a credit against, or recovered as an additional charge to, respectively, with interest calculated at a rate equal to the utility's weighted average cost of capital approved by the Commission for the prior rate year, the charges for the applicable rate year. Provided, however, that the first such reconciliation shall be for the calendar year in which the utility files its performance-based formula rate tariff pursuant to subsection (c) of this Section and shall reconcile (i) the revenue requirement or requirements established by the rate order or orders in effect from time to time during such calendar year (weighted, as applicable) with (ii) the revenue requirement determined using a year-end rate base for that calendar year calculated pursuant to the performance-based formula rate using (A) actual costs for that year as reflected in the applicable FERC Form 1, and (B) for the first such reconciliation only, the cost of equity, which shall be calculated as the sum of 590 basis points plus the average for the applicable calendar year of the monthly average yields of 30-year U.S. Treasury bonds published by the Board of Governors of the Federal Reserve System in its weekly H.15 Statistical Release or successor publication. The first such reconciliation is not intended to provide for the recovery of costs previously excluded from rates based on a prior Commission order finding of imprudence or unreasonableness. Each reconciliation shall be certified by the participating utility in the
same manner that FERC Form 1 is certified. The filing shall also include the charge or credit, if any, resulting from the calculation required by paragraph (6) of subsection (c) of this Section.

Notwithstanding anything that may be to the contrary, the intent of the reconciliation is to ultimately reconcile the revenue requirement reflected in rates for each calendar year, beginning with the calendar year in which the utility files its performance-based formula rate tariff pursuant to subsection (c) of this Section, with what the revenue requirement determined using a year-end rate base for the applicable calendar year would have been had the actual cost information for the applicable calendar year been available at the filing date.

(2) The new charges shall take effect beginning on the first billing day of the following January billing period and remain in effect through the last billing day of the next December billing period regardless of whether the Commission enters upon a hearing pursuant to this subsection (d).

(3) The filing shall include relevant and necessary data and documentation for the applicable rate year that is consistent with the Commission's rules applicable to a filing for a general increase in rates or any rules adopted by the Commission to implement this Section. Normalization adjustments shall not be required. Notwithstanding any other provision of this Section or Act or any rule or other requirement adopted by the Commission, a participating utility that is a combination utility with more than one rate zone shall not be required to file a separate set of such data and documentation for each rate zone and may combine such data and documentation into a single set of schedules.

Within 45 days after the utility files its annual update of cost inputs to the performance-based formula rate, the Commission shall have the authority, either upon complaint or its own initiative, but with reasonable notice, to enter upon a hearing concerning the prudence and reasonableness of the costs incurred by the utility to be recovered during the applicable rate year that are reflected in the inputs to the performance-based formula rate derived from the utility's FERC Form 1. During the course of the hearing, each objection shall be stated with particularity and evidence provided in support thereof; after which the utility shall have the opportunity to rebut the evidence. Discovery shall be allowed consistent with the Commission's Rules of Practice, which Rules shall be enforced by

the Commission or the assigned hearing examiner. The Commission shall apply the same evidentiary standards, including, but not limited to, those concerning the prudence and reasonableness of the costs incurred by the utility, in the hearing as it would apply in a hearing to review a filing for a general increase in rates under Article IX of this Act. The Commission shall not, however, have the authority in a proceeding under this subsection (d) to consider or order any changes to the structure or protocols of the performance-based formula rate approved pursuant to subsection (c) of this Section. In a proceeding under this subsection (d), the Commission shall enter its order no later than the earlier of 240 days after the utility's filing of its annual update of cost inputs to the performance-based formula rate or December 31. The Commission's determinations of the prudence and reasonableness of the costs incurred for the applicable calendar year shall be final upon entry of the Commission's order and shall not be subject to reopening, reexamination, or collateral attack in any other Commission proceeding, case, docket, order, rule or regulation, provided, however, that nothing in this subsection (d) shall prohibit a party from petitioning the Commission to rehear or appeal to the courts the order pursuant to the provisions of this Act.

In the event the Commission does not, either upon complaint or its own initiative, enter upon a hearing within 45 days after the utility files the annual update of cost inputs to its performance-based formula rate, then the costs incurred for the applicable calendar year shall be deemed prudent and reasonable, and the filed charges shall not be subject to reopening, reexamination, or collateral attack in any other proceeding, case, docket, order, rule, or regulation.

A participating utility's first filing of the updated cost inputs, and any Commission investigation of such inputs pursuant to this subsection (d) shall proceed notwithstanding the fact that the Commission's investigation under subsection (c) of this Section is still pending and notwithstanding any other law, order, rule, or Commission practice to the contrary.

(e) Nothing in subsections (c) or (d) of this Section shall prohibit the Commission from investigating, or a participating utility from filing, revenue-neutral tariff changes related to rate design of a performance-based formula rate that has been placed into effect for the utility. Following approval of a participating utility's performance-based formula rate tariff pursuant to subsection (c) of this Section, the utility shall make a filing with the Commission within one year after the effective date of the

New matter indicated by italics - deletions by strikeout
performance-based formula rate tariff that proposes changes to the tariff to incorporate the findings of any final rate design orders of the Commission applicable to the participating utility and entered subsequent to the Commission's approval of the tariff. The Commission shall, after notice and hearing, enter its order approving, or approving with modification, the proposed changes to the performance-based formula rate tariff within 240 days after the utility's filing. Following such approval, the utility shall make a filing with the Commission during each subsequent 3-year period that either proposes revenue-neutral tariff changes or re-files the existing tariffs without change, which shall present the Commission with an opportunity to suspend the tariffs and consider revenue-neutral tariff changes related to rate design.

(f) Within 30 days after the filing of a tariff pursuant to subsection (c) of this Section, each participating utility shall develop and file with the Commission multi-year metrics designed to achieve, ratably (i.e., in equal segments) over a 10-year period, improvement over baseline performance values as follows:

(1) Twenty percent improvement in the System Average Interruption Frequency Index, using a baseline of the average of the data from 2001 through 2010.

(2) Fifteen percent improvement in the system Customer Average Interruption Duration Index, using a baseline of the average of the data from 2001 through 2010.

(3) For a participating utility other than a combination utility, 20% improvement in the System Average Interruption Frequency Index for its Southern Region, using a baseline of the average of the data from 2001 through 2010. For purposes of this paragraph (3), Southern Region shall have the meaning set forth in the participating utility's most recent report filed pursuant to Section 16-125 of this Act.

(3.5) For a participating utility other than a combination utility, 20% improvement in the System Average Interruption Frequency Index for its Northeastern Region, using a baseline of the average of the data from 2001 through 2010. For purposes of this paragraph (3.5), Northeastern Region shall have the meaning set forth in the participating utility's most recent report filed pursuant to Section 16-125 of this Act.

(4) Seventy-five percent improvement in the total number of customers who exceed the service reliability targets as set forth
(5) Reduction in issuance of estimated electric bills: 90% improvement for a participating utility other than a combination utility, and 56% improvement for a participating utility that is a combination utility, using a baseline of the average number of estimated bills for the years 2008 through 2010.

(6) Consumption on inactive meters: 90% improvement for a participating utility other than a combination utility, and 56% improvement for a participating utility that is a combination utility, using a baseline of the average unbilled kilowatthours for the years 2009 and 2010.

(7) Unaccounted for energy: 50% improvement for a participating utility other than a combination utility using a baseline of the non-technical line loss unaccounted for energy kilowatthours for the year 2009.

(8) Uncollectible expense: reduce uncollectible expense by at least $30,000,000 for a participating utility other than a combination utility and by at least $3,500,000 for a participating utility that is a combination utility, using a baseline of the average uncollectible expense for the years 2008 through 2010.

(9) Opportunities for minority-owned and female-owned business enterprises: design a performance metric regarding the creation of opportunities for minority-owned and female-owned business enterprises consistent with State and federal law using a base performance value of the percentage of the participating utility's capital expenditures that were paid to minority-owned and female-owned business enterprises in 2010.

The definitions set forth in 83 Ill. Admin. Code Part 411.20 as of May 1, 2011 shall be used for purposes of calculating performance under paragraphs (1) through (3.5) of this subsection (f), provided, however, that the participating utility may exclude up to 9 extreme weather event days from such calculation for each year, and provided further that the participating utility shall exclude 9 extreme weather event days when calculating each year of the baseline period to the extent that there are 9 such days in a given year of the baseline period. For purposes of this Section, an extreme weather event day is a 24-hour calendar day (beginning at 12:00 a.m. and ending at 11:59 p.m.) during which any

New matter indicated by italics - deletions by strikeout
weather event (e.g., storm, tornado) caused interruptions for 10,000 or more of the participating utility's customers for 3 hours or more. If there are more than 9 extreme weather event days in a year, then the utility may choose no more than 9 extreme weather event days to exclude, provided that the same extreme weather event days are excluded from each of the calculations performed under paragraphs (1) through (3.5) of this subsection (f).

The metrics shall include incremental performance goals for each year of the 10-year period, which shall be designed to demonstrate that the utility is on track to achieve the performance goal in each category at the end of the 10-year period. The utility shall elect when the 10-year period shall commence for the metrics set forth in subparagraphs (1) through (4) and (9) of this subsection (f), provided that it begins no later than 14 months following the date on which the utility begins investing pursuant to subsection (b) of this Section, and when the 10-year period shall commence for the metrics set forth in subparagraphs (5) through (8) of this subsection (f), provided that it begins no later than 14 months following the date on which the Commission enters its order approving the utility's Advanced Metering Infrastructure Deployment Plan pursuant to subsection (c) of Section 16-108.6 of this Act.

The metrics and performance goals set forth in subparagraphs (5) through (8) of this subsection (f) are based on the assumptions that the participating utility may fully implement the technology described in subsection (b) of this Section, including utilizing the full functionality of such technology and that there is no requirement for personal on-site notification. If the utility is unable to meet the metrics and performance goals set forth in subparagraphs (5) through (8) of this subsection (f) for such reasons, and the Commission so finds after notice and hearing, then the utility shall be excused from compliance, but only to the limited extent achievement of the affected metrics and performance goals was hindered by the less than full implementation.

(f-5) The financial penalties applicable to the metrics described in subparagraphs (1) through (8) of subsection (f) of this Section, as applicable, shall be applied through an adjustment to the participating utility's return on equity of no more than a total of 30 basis points in each of the first 3 years, of no more than a total of 34 basis points in each of the 3 years thereafter, and of no more than a total of 38 basis points in each of the 4 years thereafter, as follows:

New matter indicated by italics - deletions by strikeout
(1) With respect to each of the incremental annual performance goals established pursuant to paragraph (1) of subsection (f) of this Section,

   (A) for each year that a participating utility other than a combination utility does not achieve the annual goal, the participating utility's return on equity shall be reduced as follows: during years 1 through 3, by 5 basis points; during years 4 through 6, by 6 basis points; and during years 7 through 10, by 7 basis points; and

   (B) for each year that a participating utility that is a combination utility does not achieve the annual goal, the participating utility's return on equity shall be reduced as follows: during years 1 through 3, by 10 basis points; during years 4 through 6, by 12 basis points; and during years 7 through 10, by 14 basis points.

(2) With respect to each of the incremental annual performance goals established pursuant to paragraph (2) of subsection (f) of this Section, for each year that the participating utility does not achieve each such goal, the participating utility's return on equity shall be reduced as follows: during years 1 through 3, by 5 basis points; during years 4 through 6, by 6 basis points; and during years 7 through 10, by 7 basis points.

(3) With respect to each of the incremental annual performance goals established pursuant to paragraphs (3) and (3.5) of subsection (f) of this Section, for each year that a participating utility other than a combination utility does not achieve both such goals, the participating utility's return on equity shall be reduced as follows: during years 1 through 3, by 5 basis points; during years 4 through 6, by 6 basis points; and during years 7 through 10, by 7 basis points.

(4) With respect to each of the incremental annual performance goals established pursuant to paragraph (4) of subsection (f) of this Section, for each year that the participating utility does not achieve each such goal, the participating utility's return on equity shall be reduced as follows: during years 1 through 3, by 5 basis points; during years 4 through 6, by 6 basis points; and during years 7 through 10, by 7 basis points.

(5) With respect to each of the incremental annual performance goals established pursuant to subparagraph (5) of
subsection (f) of this Section, for each year that the participating utility does not achieve at least 95% of each such goal, the participating utility's return on equity shall be reduced by 5 basis points for each such unachieved goal.

(6) With respect to each of the incremental annual performance goals established pursuant to paragraphs (6), (7), and (8) of subsection (f) of this Section, as applicable, which together measure non-operational customer savings and benefits relating to the implementation of the Advanced Metering Infrastructure Deployment Plan, as defined in Section 16-108.6 of this Act, the performance under each such goal shall be calculated in terms of the percentage of the goal achieved. The percentage of goal achieved for each of the goals shall be aggregated, and an average percentage value calculated, for each year of the 10-year period. If the utility does not achieve an average percentage value in a given year of at least 95%, the participating utility's return on equity shall be reduced by 5 basis points.

The financial penalties shall be applied as described in this subsection (f-5) for the 12-month period in which the deficiency occurred through a separate tariff mechanism, which shall be filed by the utility together with its metrics. In the event the formula rate tariff established pursuant to subsection (c) of this Section terminates, the utility's obligations under subsection (f) of this Section and this subsection (f-5) shall also terminate, provided, however, that the tariff mechanism established pursuant to subsection (f) of this Section and this subsection (f-5) shall remain in effect until any penalties due and owing at the time of such termination are applied.

The Commission shall, after notice and hearing, enter an order within 120 days after the metrics are filed approving, or approving with modification, a participating utility's tariff or mechanism to satisfy the metrics set forth in subsection (f) of this Section. On June 1 of each subsequent year, each participating utility shall file a report with the Commission that includes, among other things, a description of how the participating utility performed under each metric and an identification of any extraordinary events that adversely impacted the utility's performance. Whenever a participating utility does not satisfy the metrics required pursuant to subsection (f) of this Section, the Commission shall, after notice and hearing, enter an order approving financial penalties in accordance with this subsection (f-5). The Commission-approved financial

New matter indicated by italics - deletions by strikeout
penalties shall be applied beginning with the next rate year. Nothing in this
Section shall authorize the Commission to reduce or otherwise obviate the
imposition of financial penalties for failing to achieve one or more of the
metrics established pursuant to subparagraph (1) through (4) of subsection
(f) of this Section.

(g) On or before July 31, 2014, each participating utility shall file a
report with the Commission that sets forth the average annual increase in
the average amount paid per kilowatthour for residential eligible retail
customers, exclusive of the effects of energy efficiency programs,
comparing the 12-month period ending May 31, 2012; the 12-month
period ending May 31, 2013; and the 12-month period ending May 31,
2014. For a participating utility that is a combination utility with more
than one rate zone, the weighted average aggregate increase shall be
provided. The report shall be filed together with a statement from an
independent auditor attesting to the accuracy of the report. The cost of the
independent auditor shall be borne by the participating utility and shall not
be a recoverable expense. "The average amount paid per kilowatthour"
shall be based on the participating utility's tariffed rates actually in effect
and shall not be calculated using any hypothetical rate or adjustments to
actual charges (other than as specified for energy efficiency) as an input.

In the event that the average annual increase exceeds 2.5% as
calculated pursuant to this subsection (g), then Sections 16-108.5, 16-
108.6, 16-108.7, and 16-108.8 of this Act, other than this subsection, shall
be inoperative as they relate to the utility and its service area as of the date
of the report due to be submitted pursuant to this subsection and the utility
shall no longer be eligible to annually update the performance-based
formula rate tariff pursuant to subsection (d) of this Section. In such event,
the then current rates shall remain in effect until such time as new rates are
set pursuant to Article IX of this Act, subject to retroactive adjustment,
with interest, to reconcile rates charged with actual costs, and the
participating utility's voluntary commitments and obligations under
subsection (b) of this Section shall immediately terminate, except for the
utility's obligation to pay an amount already owed to the fund for training
grants pursuant to a Commission order issued under subsection (b) of this
Section.

In the event that the average annual increase is 2.5% or less as
calculated pursuant to this subsection (g), then the performance-based
formula rate shall remain in effect as set forth in this Section.

New matter indicated by italics - deletions by strikeout
For purposes of this Section, the amount per kilowatthour means the total amount paid for electric service expressed on a per kilowatthour basis, and the total amount paid for electric service includes without limitation amounts paid for supply, transmission, distribution, surcharges, and add-on taxes exclusive of any increases in taxes or new taxes imposed after the effective date of this amendatory Act of the 97th General Assembly. For purposes of this Section, "eligible retail customers" shall have the meaning set forth in Section 16-111.5 of this Act.

The fact that this Section becomes inoperative as set forth in this subsection shall not be construed to mean that the Commission may reexamine or otherwise reopen prudence or reasonableness determinations already made.

(h) Sections 16-108.5, 16-108.6, 16-108.7, and 16-108.8 of this Act, other than this subsection, are inoperative after December 31, 2017 for every participating utility, after which time a participating utility shall no longer be eligible to annually update the performance-based formula rate tariff pursuant to subsection (d) of this Section. At such time, the then current rates shall remain in effect until such time as new rates are set pursuant to Article IX of this Act, subject to retroactive adjustment, with interest, to reconcile rates charged with actual costs.

By December 31, 2017, the Commission shall prepare and file with the General Assembly a report on the infrastructure program and the performance-based formula rate. The report shall include the change in the average amount per kilowatthour paid by residential customers between June 1, 2011 and May 31, 2017. If the change in the total average rate paid exceeds 2.5% compounded annually, the Commission shall include in the report an analysis that shows the portion of the change due to the delivery services component and the portion of the change due to the supply component of the rate. The report shall include separate sections for each participating utility.

In the event Sections 16-108.5, 16-108.6, 16-108.7, and 16-108.8 of this Act do not become inoperative after December 31, 2017, then these Sections are inoperative after December 31, 2022 for every participating utility, after which time a participating utility shall no longer be eligible to annually update the performance-based formula rate tariff pursuant to subsection (d) of this Section. At such time, the then current rates shall remain in effect until such time as new rates are set pursuant to Article IX of this Act, subject to retroactive adjustment, with interest, to reconcile rates charged with actual costs.
The fact that this Section becomes inoperative as set forth in this subsection shall not be construed to mean that the Commission may reexamine or otherwise reopen prudence or reasonableness determinations already made.

(i) While a participating utility may use, develop, and maintain broadband systems and the delivery of broadband services, voice-over-internet-protocol services, telecommunications services, and cable and video programming services for use in providing delivery services and Smart Grid functionality or application to its retail customers, including, but not limited to, the installation, implementation and maintenance of Smart Grid electric system upgrades as defined in Section 16-108.6 of this Act, a participating utility is prohibited from offering to its retail customers broadband services or the delivery of broadband services, voice-over-internet-protocol services, telecommunications services, or cable or video programming services, unless they are part of a service directly related to delivery services or Smart Grid functionality or applications as defined in Section 16-108.6 of this Act, and from recovering the costs of such offerings from retail customers.

(j) Nothing in this Section is intended to legislatively overturn the opinion issued in Commonwealth Edison Co. v. Ill. Commerce Comm'n, Nos. 2-08-0959, 2-08-1037, 2-08-1137, 1-08-3008, 1-08-3030, 1-08-3054, 1-08-3313 cons. (Ill. App. Ct. 2d Dist. Sept. 30, 2010). This amendatory Act of the 97th General Assembly shall not be construed as creating a contract between the General Assembly and the participating utility, and shall not establish a property right in the participating utility.

(k) The changes made in subsections (c) and (d) of this Section by this amendatory Act of the 98th General Assembly are intended to be a restatement and clarification of existing law, and intended to give binding effect to the provisions of House Resolution 1157 adopted by the House of Representatives of the 97th General Assembly and Senate Resolution 821 adopted by the Senate of the 97th General Assembly that are reflected in paragraph (3) of this subsection. In addition, this amendatory Act of the 98th General Assembly preempts and supersedes any final Commission orders entered in Docket Nos. 11-0721, 12-0001, 12-0293, and 12-0321 to the extent inconsistent with the amendatory language added to subsections (c) and (d).

(1) No earlier than 5 business days after the effective date of this amendatory Act of the 98th General Assembly, each participating utility shall file any tariff changes necessary to
implement the amendatory language set forth in subsections (c) and (d) of this Section by this amendatory Act of the 98th General Assembly and a revised revenue requirement under the participating utility's performance-based formula rate. The Commission shall enter a final order approving such tariff changes and revised revenue requirement within 21 days after the participating utility's filing.

(2) Notwithstanding anything that may be to the contrary, a participating utility may file a tariff to retroactively recover its previously unrecovered actual costs of delivery service that are no longer subject to recovery through a reconciliation adjustment under subsection (d) of this Section. This retroactive recovery shall include any derivative adjustments resulting from the changes to subsections (c) and (d) of this Section by this amendatory Act of the 98th General Assembly. Such tariff shall allow the utility to assess, on current customer bills over a period of 12 monthly billing periods, a charge or credit related to those unrecovered costs with interest at the utility's weighted average cost of capital during the period in which those costs were unrecovered. A participating utility may file a tariff that implements a retroactive charge or credit as described in this paragraph for amounts not otherwise included in the tariff filing provided for in paragraph (1) of this subsection (k). The Commission shall enter a final order approving such tariff within 21 days after the participating utility's filing.

(3) The tariff changes described in paragraphs (1) and (2) of this subsection (k) shall relate only to, and be consistent with, the following provisions of this amendatory Act of the 98th General Assembly: paragraph (2) of subsection (c) regarding year-end capital structure, subparagraph (D) of paragraph (4) of subsection (c) regarding pension assets, and subsection (d) regarding the reconciliation components related to year-end rate base and interest calculated at a rate equal to the utility's weighted average cost of capital.

(4) Nothing in this subsection is intended to effect a dismissal of or otherwise affect an appeal from any final Commission orders entered in Docket Nos. 11-0721, 12-0001, 12-0293, and 12-0321 other than to the extent of the amendatory language contained in subsections (c) and (d) of this amendatory Act of the 98th General Assembly.
(l) Each participating utility shall be deemed to have been in full compliance with all requirements of subsection (b) of this Section, subsection (c) of this Section, Section 16-108.6 of this Act, and all Commission orders entered pursuant to Sections 16-108.5 and 16-108.6 of this Act, up to and including the effective date of this amendatory Act of the 98th General Assembly. The Commission shall not undertake any investigation of such compliance and no penalty shall be assessed or adverse action taken against a participating utility for noncompliance with Commission orders associated with subsection (b) of this Section, subsection (c) of this Section, and Section 16-108.6 of this Act prior to such date. Each participating utility other than a combination utility shall be permitted, without penalty, a period of 12 months after such effective date to take actions required to ensure its infrastructure investment program is in compliance with subsection (b) of this Section and with Section 16-108.6 of this Act. Provided further:

(1) if this amendatory Act of the 98th General Assembly takes effect on or before June 15, 2013, the following subparagraphs shall apply to a participating utility other than a combination utility:

(A) if the Commission has initiated a proceeding pursuant to subsection (e) of Section 16-108.6 of this Act that is pending as of the effective date of this amendatory Act of the 98th General Assembly, then the order entered in such proceeding shall, after notice and hearing, accelerate the commencement of the meter deployment schedule approved in the final Commission order on rehearing entered in Docket No. 12-0298;

(B) if the Commission has entered an order pursuant to subsection (e) of Section 16-108.6 of this Act prior to the effective date of this amendatory Act of the 98th General Assembly that does not accelerate the commencement of the meter deployment schedule approved in the final Commission order on rehearing entered in Docket No. 12-0298, then the utility shall file with the Commission, within 45 days after such effective date, a plan for accelerating the commencement of the utility's meter deployment schedule approved in the final Commission order on rehearing entered in Docket No. 12-0298; the Commission shall reopen the proceeding in

which it entered its order pursuant to subsection (e) of Section 16-108.6 of this Act and shall, after notice and hearing, enter an amendatory order that approves or approves as modified such accelerated plan within 90 days after the utility's filing; or

(C) if the Commission has not initiated a proceeding pursuant to subsection (e) of Section 16-108.6 of this Act prior to the effective date of this amendatory Act of the 98th General Assembly, then the utility shall file with the Commission, within 45 days after such effective date, a plan for accelerating the commencement of the utility's meter deployment schedule approved in the final Commission order on rehearing entered in Docket No. 12-0298 and the Commission shall, after notice and hearing, approve or approve as modified such plan within 90 days after the utility's filing;

(2) if this amendatory Act of the 98th General Assembly takes effect after June 15, 2013, then each participating utility other than a combination utility shall file with the Commission, within 45 days after such effective date, a plan for accelerating the commencement of the utility's meter deployment schedule approved in the final Commission order on rehearing entered in Docket No. 12-0298; the Commission shall reopen the most recent proceeding in which it entered an order pursuant to subsection (e) of Section 16-108.6 of this Act and within 90 days after the utility's filing shall, after notice and hearing, enter an amendatory order that approves or approves as modified such accelerated plan, provided that if there was no such prior proceeding the Commission shall open a new proceeding and within 90 days after the utility's filing shall, after notice and hearing, enter an order that approves or approves as modified such accelerated plan.

Any schedule for meter deployment approved by the Commission pursuant to subparagraphs (1) or (2) of this subsection (l) shall take into consideration procurement times for meters and other equipment and operational issues. Nothing in this amendatory Act of the 98th General Assembly shall shorten or extend the end dates for the 5-year or 10-year periods set forth in subsection (b) of this Section or Section 16-108.6 of this Act. Nothing in this subsection is intended to address whether a

participating utility has, or has not, satisfied any or all of the metrics and performance goals established pursuant to subsection (f) of this Section.

(m) The provisions of this amendatory Act of the 98th General Assembly are severable under Section 1.31 of the Statute on Statutes.

PUBLIC ACT 98-0016
(House Bill No. 0494)

AN ACT concerning education.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The School Code is amended by changing Section 27A-5 as follows:

(105 ILCS 5/27A-5)
Sec. 27A-5. Charter school; legal entity; requirements.
(a) A charter school shall be a public, nonsectarian, nonreligious, non-home based, and non-profit school. A charter school shall be organized and operated as a nonprofit corporation or other discrete, legal, nonprofit entity authorized under the laws of the State of Illinois.
(b) A charter school may be established under this Article by creating a new school or by converting an existing public school or attendance center to charter school status. Beginning on the effective date of this amendatory Act of the 93rd General Assembly, in all new applications submitted to the State Board or a local school board to establish a charter school in a city having a population exceeding 500,000, operation of the charter school shall be limited to one campus. The changes made to this Section by this amendatory Act of the 93rd General Assembly do not apply to charter schools existing or approved on or before the effective date of this amendatory Act.
(b-5) In this subsection (b-5), "virtual-schooling" means the teaching of courses through online methods with online instructors, rather

New matter indicated by italics - deletions by strikeout
than the instructor and student being at the same physical location. "Virtual-schooling" includes without limitation instruction provided by full-time, online virtual schools.

From April 1, 2013 through April 1, 2014, there is a moratorium on the establishment of charter schools with virtual-schooling components in school districts other than a school district organized under Article 34 of this Code. This moratorium does not apply to a charter school with virtual-schooling components existing or approved prior to April 1, 2013 or to the renewal of the charter of a charter school with virtual-schooling components already approved prior to April 1, 2013.

On or before March 1, 2014, the Commission shall submit to the General Assembly a report on the effect of virtual-schooling, including without limitation the effect on student performance, the costs associated with virtual-schooling, and issues with oversight. The report shall include policy recommendations for virtual-schooling.

(c) A charter school shall be administered and governed by its board of directors or other governing body in the manner provided in its charter. The governing body of a charter school shall be subject to the Freedom of Information Act and the Open Meetings Act.

(d) A charter school shall comply with all applicable health and safety requirements applicable to public schools under the laws of the State of Illinois.

(e) Except as otherwise provided in the School Code, a charter school shall not charge tuition; provided that a charter school may charge reasonable fees for textbooks, instructional materials, and student activities.

(f) A charter school shall be responsible for the management and operation of its fiscal affairs including, but not limited to, the preparation of its budget. An audit of each charter school's finances shall be conducted annually by an outside, independent contractor retained by the charter school. Annually, by December 1, every charter school must submit to the State Board a copy of its audit and a copy of the Form 990 the charter school filed that year with the federal Internal Revenue Service.

(g) A charter school shall comply with all provisions of this Article, the Illinois Educational Labor Relations Act, and its charter. A charter school is exempt from all other State laws and regulations in the School Code governing public schools and local school board policies, except the following:

New matter indicated by italics - deletions by strikeout

(6) The Illinois School Student Records Act;
(7) Section 10-17a of the School Code regarding school report cards; and
(8) The P-20 Longitudinal Education Data System Act.

The change made by Public Act 96-104 to this subsection (g) is declaratory of existing law.

(h) A charter school may negotiate and contract with a school district, the governing body of a State college or university or public community college, or any other public or for-profit or nonprofit private entity for: (i) the use of a school building and grounds or any other real property or facilities that the charter school desires to use or convert for use as a charter school site, (ii) the operation and maintenance thereof; and (iii) the provision of any service, activity, or undertaking that the charter school is required to perform in order to carry out the terms of its charter. However, a charter school that is established on or after the effective date of this amendatory Act of the 93rd General Assembly and that operates in a city having a population exceeding 500,000 may not contract with a for-profit entity to manage or operate the school during the period that commences on the effective date of this amendatory Act of the 93rd General Assembly and concludes at the end of the 2004-2005 school year. Except as provided in subsection (i) of this Section, a school district may charge a charter school reasonable rent for the use of the district's buildings, grounds, and facilities. Any services for which a charter school contracts with a school district shall be provided by the district at cost. Any services for which a charter school contracts with a local school board

or with the governing body of a State college or university or public community college shall be provided by the public entity at cost.

(i) In no event shall a charter school that is established by converting an existing school or attendance center to charter school status be required to pay rent for space that is deemed available, as negotiated and provided in the charter agreement, in school district facilities. However, all other costs for the operation and maintenance of school district facilities that are used by the charter school shall be subject to negotiation between the charter school and the local school board and shall be set forth in the charter.

(j) A charter school may limit student enrollment by age or grade level.

(k) If the charter school is approved by the Commission, then the Commission charter school is its own local education agency.

AN ACT concerning State government.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:
Section 5. The State Finance Act is amended by adding Sections 5.826 and 6z-98 and by changing Section 6z-45 as follows:
(30 ILCS 105/5.826 new)
Sec. 5.826. The Chicago State University Education Improvement Fund.
(30 ILCS 105/6z-45)
Sec. 6z-45. The School Infrastructure Fund.
(a) The School Infrastructure Fund is created as a special fund in the State Treasury.
In addition to any other deposits authorized by law, beginning January 1, 2000, on the first day of each month, or as soon thereafter as may be practical, the State Treasurer and State Comptroller shall transfer the sum of $5,000,000 from the General Revenue Fund to the School

Infrastructure Fund, except that, notwithstanding any other provision of law, and in addition to any other transfers that may be provided for by law, before June 30, 2012, the Comptroller and the Treasurer shall transfer $45,000,000 from the General Revenue Fund into the School Infrastructure Fund, and, for fiscal year 2013 only, the Treasurer and the Comptroller shall transfer $1,250,000 from the General Revenue Fund to the School Infrastructure Fund on the first day of each month; provided, however, that no such transfers shall be made from July 1, 2001 through June 30, 2003.

(b) Subject to the transfer provisions set forth below, money in the School Infrastructure Fund shall, if and when the State of Illinois incurs any bonded indebtedness for the construction of school improvements under the School Construction Law, be set aside and used for the purpose of paying and discharging annually the principal and interest on that bonded indebtedness then due and payable, and for no other purpose.

In addition to other transfers to the General Obligation Bond Retirement and Interest Fund made pursuant to Section 15 of the General Obligation Bond Act, upon each delivery of bonds issued for construction of school improvements under the School Construction Law, the State Comptroller shall compute and certify to the State Treasurer the total amount of principal of, interest on, and premium, if any, on such bonds during the then current and each succeeding fiscal year. With respect to the interest payable on variable rate bonds, such certifications shall be calculated at the maximum rate of interest that may be payable during the fiscal year, after taking into account any credits permitted in the related indenture or other instrument against the amount of such interest required to be appropriated for that period.

On or before the last day of each month, the State Treasurer and State Comptroller shall transfer from the School Infrastructure Fund to the General Obligation Bond Retirement and Interest Fund an amount sufficient to pay the aggregate of the principal of, interest on, and premium, if any, on the bonds payable on their next payment date, divided by the number of monthly transfers occurring between the last previous payment date (or the delivery date if no payment date has yet occurred) and the next succeeding payment date. Interest payable on variable rate bonds shall be calculated at the maximum rate of interest that may be payable for the relevant period, after taking into account any credits permitted in the related indenture or other instrument against the amount of such interest required to be appropriated for that period. Interest for
which moneys have already been deposited into the capitalized interest account within the General Obligation Bond Retirement and Interest Fund shall not be included in the calculation of the amounts to be transferred under this subsection.

(b-5) The money deposited into the School Infrastructure Fund from transfers pursuant to subsections (c-30) and (c-35) of Section 13 of the Riverboat Gambling Act shall be applied, without further direction, as provided in subsection (b-3) of Section 5-35 of the School Construction Law.

(c) The surplus, if any, in the School Infrastructure Fund after payments made pursuant to subsections (b) and (b-5) of this Section the payment of principal and interest on that bonded indebtedness then annually due shall, subject to appropriation, be used as follows:

First - to make 3 payments to the School Technology Revolving Loan Fund as follows:
Transfer of $30,000,000 in fiscal year 1999;
Transfer of $20,000,000 in fiscal year 2000; and
Transfer of $10,000,000 in fiscal year 2001.

Second - to pay the expenses of the State Board of Education and the Capital Development Board in administering programs under the School Construction Law, the total expenses not to exceed $1,200,000 in any fiscal year.

Third - to pay any amounts due for grants for school construction projects and debt service under the School Construction Law.

Fourth - to pay any amounts due for grants for school maintenance projects under the School Construction Law.

Section 10. The School Construction Law is amended by changing Section 5-35 as follows:
(105 ILCS 230/5-35)

New matter indicated by italics - deletions by strikeout
(a) The product of the district's grant index and the recognized project cost, as determined by the Capital Development Board, for an approved school construction project shall equal the amount of the grant the Capital Development Board shall provide to the eligible district. The grant index shall not be used in cases where the General Assembly and the Governor approve appropriations designated for specifically identified school district construction projects.

The average of the grant indexes of the member districts in a joint agreement shall be used to calculate the amount of a school construction project grant awarded to an eligible Type 40 area vocational center.

(b) In each fiscal year in which school construction project grants are awarded, 20% of the total amount awarded statewide shall be awarded to a school district with a population exceeding 500,000, provided such district complies with the provisions of this Article.

In addition to the uses otherwise authorized by this Law, any school district with a population exceeding 500,000 is authorized to use any or all of the school construction project grants (i) to pay debt service, as defined in the Local Government Debt Reform Act, on bonds, as defined in the Local Government Debt Reform Act, issued to finance one or more school construction projects and (ii) to the extent that any such bond is a lease or other installment or financing contract between the school district and a public building commission that has issued bonds to finance one or more qualifying school construction projects, to make lease payments under the lease.

(b-3) The Capital Development Board shall make payment in an amount equal to 20% of each amount deposited into the School Infrastructure Fund pursuant to subsection (b-5) of Section 6z-45 of the State Finance Act to the Board of Education of the City of Chicago within 10 days after such deposit. The Board of Education of the City of Chicago shall use such moneys received (i) for application to the costs of a school construction project, (ii) to pay debt service on bonds, as those terms are defined in the Local Government Debt Reform Act, that are issued to finance one or more school construction projects, and (iii) to the extent that any such bond is a lease or other installment or financing contract between the school district and a public building commission that has issued bonds to finance one or more qualifying school construction projects, to make lease payments under the lease. The Board of Education of the City of Chicago shall submit quarterly to the Capital Development Board documentation sufficient to establish that this money is being used...

as authorized by this Section. The Capital Development Board may withhold payments if the documentation is not provided. The remaining 80% of each such deposit shall be applied in accordance with the provisions of subsection (a) of this Section; however, no portion of this remaining 80% shall be awarded to a school district with a population of more than 500,000.

(b-5) In addition to the uses otherwise authorized by this Law, any school district that (1) was organized prior to 1860 and (2) is located in part in a city originally incorporated prior to 1840 is authorized to use any or all of the school construction project grants (i) to pay debt service on bonds, as those terms are defined in the Local Government Debt Reform Act, that are issued to finance one or more school construction projects and (ii) to the extent that any such bond is a lease or other installment or financing contract between the school district and a public building commission that has issued bonds to finance one or more qualifying school construction projects, to make lease payments under the lease.

(c) No portion of a school construction project grant awarded by the Capital Development Board shall be used by a school district for any on-going operational costs.

Section 15. The Illinois Horse Racing Act of 1975 is amended by changing Sections 26, 26.7, 27, and 54 as follows:

(230 ILCS 5/26) (from Ch. 8, par. 37-26)
Sec. 26. Wagering.

(a) Any licensee may conduct and supervise the pari-mutuel system of wagering, as defined in Section 3.12 of this Act, on horse races conducted by an Illinois organization licensee or conducted at a racetrack located in another state or country and televised in Illinois in accordance with subsection (g) of Section 26 of this Act. Subject to the prior consent of the Board, licensees may supplement any pari-mutuel pool in order to guarantee a minimum distribution. Such pari-mutuel method of wagering shall not, under any circumstances if conducted under the provisions of this Act, be held or construed to be unlawful, other statutes of this State to the contrary notwithstanding. Subject to rules for advance wagering promulgated by the Board, any licensee may accept wagers in advance of the day of the race wagered upon occurs.

(b) No other method of betting, pool making, wagering or gambling shall be used or permitted by the licensee. Each licensee may retain, subject to the payment of all applicable taxes and purses, an amount

not to exceed 17% of all money wagered under subsection (a) of this Section, except as may otherwise be permitted under this Act.

(b-5) An individual may place a wager under the pari-mutuel system from any licensed location authorized under this Act provided that wager is electronically recorded in the manner described in Section 3.12 of this Act. Any wager made electronically by an individual while physically on the premises of a licensee shall be deemed to have been made at the premises of that licensee.

(c) Until January 1, 2000, the sum held by any licensee for payment of outstanding pari-mutuel tickets, if unclaimed prior to December 31 of the next year, shall be retained by the licensee for payment of such tickets until that date. Within 10 days thereafter, the balance of such sum remaining unclaimed, less any uncashed supplements contributed by such licensee for the purpose of guaranteeing minimum distributions of any pari-mutuel pool, shall be paid to the Illinois Veterans' Rehabilitation Fund of the State treasury, except as provided in subsection (g) of Section 27 of this Act.

(c-5) Beginning January 1, 2000, the sum held by any licensee for payment of outstanding pari-mutuel tickets, if unclaimed prior to December 31 of the next year, shall be retained by the licensee for payment of such tickets until that date. Within 10 days thereafter, the balance of such sum remaining unclaimed, less any uncashed supplements contributed by such licensee for the purpose of guaranteeing minimum distributions of any pari-mutuel pool, shall be evenly distributed to the purse account of the organization licensee and the organization licensee.

(d) A pari-mutuel ticket shall be honored until December 31 of the next calendar year, and the licensee shall pay the same and may charge the amount thereof against unpaid money similarly accumulated on account of pari-mutuel tickets not presented for payment.

(e) No licensee shall knowingly permit any minor, other than an employee of such licensee or an owner, trainer, jockey, driver, or employee thereof, to be admitted during a racing program unless accompanied by a parent or guardian, or any minor to be a patron of the pari-mutuel system of wagering conducted or supervised by it. The admission of any unaccompanied minor, other than an employee of the licensee or an owner, trainer, jockey, driver, or employee thereof at a race track is a Class C misdemeanor.

(f) Notwithstanding the other provisions of this Act, an organization licensee may contract with an entity in another state or

New matter indicated by italics - deletions by strikeout
country to permit any legal wagering entity in another state or country to accept wagers solely within such other state or country on races conducted by the organization licensee in this State. Beginning January 1, 2000, these wagers shall not be subject to State taxation. Until January 1, 2000, when the out-of-State entity conducts a pari-mutuel pool separate from the organization licensee, a privilege tax equal to 7 1/2% of all monies received by the organization licensee from entities in other states or countries pursuant to such contracts is imposed on the organization licensee, and such privilege tax shall be remitted to the Department of Revenue within 48 hours of receipt of the monies from the simulcast. When the out-of-State entity conducts a combined pari-mutuel pool with the organization licensee, the tax shall be 10% of all monies received by the organization licensee with 25% of the receipts from this 10% tax to be distributed to the county in which the race was conducted.

An organization licensee may permit one or more of its races to be utilized for pari-mutuel wagering at one or more locations in other states and may transmit audio and visual signals of races the organization licensee conducts to one or more locations outside the State or country and may also permit pari-mutuel pools in other states or countries to be combined with its gross or net wagering pools or with wagering pools established by other states.

(g) A host track may accept interstate simulcast wagers on horse races conducted in other states or countries and shall control the number of signals and types of breeds of racing in its simulcast program, subject to the disapproval of the Board. The Board may prohibit a simulcast program only if it finds that the simulcast program is clearly adverse to the integrity of racing. The host track simulcast program shall include the signal of live racing of all organization licensees. All non-host licensees and advance deposit wagering licensees shall carry the signal of and accept wagers on live racing of all organization licensees. Advance deposit wagering licensees shall not be permitted to accept out-of-state wagers on any Illinois signal provided pursuant to this Section without the approval and consent of the organization licensee providing the signal. Non-host licensees may carry the host track simulcast program and shall accept wagers on all races included as part of the simulcast program upon which wagering is permitted. All organization licensees shall provide their live signal to all advance deposit wagering licensees for a simulcast commission fee not to exceed 6% of the advance deposit wagering licensee's Illinois handle on the organization licensee's signal without prior

New matter indicated by italics - deletions by strikeout
approval by the Board. The Board may adopt rules under which it may permit simulcast commission fees in excess of 6%. The Board shall adopt rules limiting the interstate commission fees charged to an advance deposit wagering licensee. The Board shall adopt rules regarding advance deposit wagering on interstate simulcast races that shall reflect, among other things, the General Assembly's desire to maximize revenues to the State, horsemen purses, and organizational licensees. However, organization licensees providing live signals pursuant to the requirements of this subsection (g) may petition the Board to withhold their live signals from an advance deposit wagering licensee if the organization licensee discovers and the Board finds reputable or credible information that the advance deposit wagering licensee is under investigation by another state or federal governmental agency, the advance deposit wagering licensee's license has been suspended in another state, or the advance deposit wagering licensee's license is in revocation proceedings in another state. The organization licensee's provision of their live signal to an advance deposit wagering licensee under this subsection (g) pertains to wagers placed from within Illinois. Advance deposit wagering licensees may place advance deposit wagering terminals at wagering facilities as a convenience to customers. The advance deposit wagering licensee shall not charge or collect any fee from purses for the placement of the advance deposit wagering terminals. The costs and expenses of the host track and non-host licensees associated with interstate simulcast wagering, other than the interstate commission fee, shall be borne by the host track and all non-host licensees incurring these costs. The interstate commission fee shall not exceed 5% of Illinois handle on the interstate simulcast race or races without prior approval of the Board. The Board shall promulgate rules under which it may permit interstate commission fees in excess of 5%. The interstate commission fee and other fees charged by the sending racetrack, including, but not limited to, satellite decoder fees, shall be uniformly applied to the host track and all non-host licensees.

Notwithstanding any other provision of this Act, until January 31, 2014, 1, 2013, an organization licensee may maintain a system whereby advance deposit wagering may take place or an organization licensee, with the consent of the horsemen association representing the largest number of owners, trainers, jockeys, or standardbred drivers who race horses at that organization licensee's racing meeting, may contract with another person to carry out a system of advance deposit wagering. Such consent may not be unreasonably withheld. The actions of any organization licensee who

conducts advance deposit wagering or any person who has a contract with an organization licensee to conduct advance deposit wagering who conducts advance deposit wagering on or after January 1, 2013 and prior to the effective date of this amendatory Act of the 98th General Assembly taken in reliance on the changes made to this subsection (g) by this amendatory Act of the 98th General Assembly are hereby validated, provided payment of all applicable pari-mutuel taxes are remitted to the Board. All advance deposit wagers placed from within Illinois must be placed through a Board-approved advance deposit wagering licensee; no other entity may accept an advance deposit wager from a person within Illinois. All advance deposit wagering is subject to any rules adopted by the Board. The Board may adopt rules necessary to regulate advance deposit wagering through the use of emergency rulemaking in accordance with Section 5-45 of the Illinois Administrative Procedure Act. The General Assembly finds that the adoption of rules to regulate advance deposit wagering is deemed an emergency and necessary for the public interest, safety, and welfare. An advance deposit wagering licensee may retain all moneys as agreed to by contract with an organization licensee. Any moneys retained by the organization licensee from advance deposit wagering, not including moneys retained by the advance deposit wagering licensee, shall be paid 50% to the organization licensee's purse account and 50% to the organization licensee. If more than one breed races at the same race track facility, then the 50% of the moneys to be paid to an organization licensee's purse account shall be allocated among all organization licensees' purse accounts operating at that race track facility proportionately based on the actual number of host days that the Board grants to that breed at that race track facility in the current calendar year. To the extent any fees from advance deposit wagering conducted in Illinois for wagers in Illinois or other states have been placed in escrow or otherwise withheld from wagers pending a determination of the legality of advance deposit wagering, no action shall be brought to declare such wagers or the disbursement of any fees previously escrowed illegal.

(1) Between the hours of 6:30 a.m. and 6:30 p.m. an intertrack wagering licensee other than the host track may supplement the host track simulcast program with additional simulcast races or race programs, provided that between January 1 and the third Friday in February of any year, inclusive, if no live thoroughbred racing is occurring in Illinois during this period, only thoroughbred races may be used for supplemental interstate

New matter indicated by italics - deletions by strikeout
simulcast purposes. The Board shall withhold approval for a supplemental interstate simulcast only if it finds that the simulcast is clearly adverse to the integrity of racing. A supplemental interstate simulcast may be transmitted from an intertrack wagering licensee to its affiliated non-host licensees. The interstate commission fee for a supplemental interstate simulcast shall be paid by the non-host licensee and its affiliated non-host licensees receiving the simulcast.

(2) Between the hours of 6:30 p.m. and 6:30 a.m. an intertrack wagering licensee other than the host track may receive supplemental interstate simulcasts only with the consent of the host track, except when the Board finds that the simulcast is clearly adverse to the integrity of racing. Consent granted under this paragraph (2) to any intertrack wagering licensee shall be deemed consent to all non-host licensees. The interstate commission fee for the supplemental interstate simulcast shall be paid by all participating non-host licensees.

(3) Each licensee conducting interstate simulcast wagering may retain, subject to the payment of all applicable taxes and the purses, an amount not to exceed 17% of all money wagered. If any licensee conducts the pari-mutuel system wagering on races conducted at racetracks in another state or country, each such race or race program shall be considered a separate racing day for the purpose of determining the daily handle and computing the privilege tax of that daily handle as provided in subsection (a) of Section 27. Until January 1, 2000, from the sums permitted to be retained pursuant to this subsection, each intertrack wagering location licensee shall pay 1% of the pari-mutuel handle wagered on simulcast wagering to the Horse Racing Tax Allocation Fund, subject to the provisions of subparagraph (B) of paragraph (11) of subsection (h) of Section 26 of this Act.

(4) A licensee who receives an interstate simulcast may combine its gross or net pools with pools at the sending racetracks pursuant to rules established by the Board. All licensees combining their gross pools at a sending racetrack shall adopt the take-out percentages of the sending racetrack. A licensee may also establish a separate pool and takeout structure for wagering purposes on races conducted at race tracks outside of the State of Illinois. The licensee may permit pari-mutuel wagers placed in other states or

countries to be combined with its gross or net wagering pools or other wagering pools.

(5) After the payment of the interstate commission fee (except for the interstate commission fee on a supplemental interstate simulcast, which shall be paid by the host track and by each non-host licensee through the host-track) and all applicable State and local taxes, except as provided in subsection (g) of Section 27 of this Act, the remainder of moneys retained from simulcast wagering pursuant to this subsection (g), and Section 26.2 shall be divided as follows:

(A) For interstate simulcast wagers made at a host track, 50% to the host track and 50% to purses at the host track.

(B) For wagers placed on interstate simulcast races, supplemental simulcasts as defined in subparagraphs (1) and (2), and separately pooled races conducted outside of the State of Illinois made at a non-host licensee, 25% to the host track, 25% to the non-host licensee, and 50% to the purses at the host track.

(6) Notwithstanding any provision in this Act to the contrary, non-host licensees who derive their licenses from a track located in a county with a population in excess of 230,000 and that borders the Mississippi River may receive supplemental interstate simulcast races at all times subject to Board approval, which shall be withheld only upon a finding that a supplemental interstate simulcast is clearly adverse to the integrity of racing.

(7) Notwithstanding any provision of this Act to the contrary, after payment of all applicable State and local taxes and interstate commission fees, non-host licensees who derive their licenses from a track located in a county with a population in excess of 230,000 and that borders the Mississippi River shall retain 50% of the retention from interstate simulcast wagers and shall pay 50% to purses at the track from which the non-host licensee derives its license as follows:

(A) Between January 1 and the third Friday in February, inclusive, if no live thoroughbred racing is occurring in Illinois during this period, when the interstate simulcast is a standardbred race, the purse share to its standardbred purse account;

(B) Between January 1 and the third Friday in February, inclusive, if no live thoroughbred racing is occurring in Illinois during this period, and the interstate simulcast is a thoroughbred race, the purse share to its interstate simulcast purse pool to be distributed under paragraph (10) of this subsection (g);

(C) Between January 1 and the third Friday in February, inclusive, if live thoroughbred racing is occurring in Illinois, between 6:30 a.m. and 6:30 p.m. the purse share from wagers made during this time period to its thoroughbred purse account and between 6:30 p.m. and 6:30 a.m. the purse share from wagers made during this time period to its standardbred purse accounts;

(D) Between the third Saturday in February and December 31, when the interstate simulcast occurs between the hours of 6:30 a.m. and 6:30 p.m., the purse share to its thoroughbred purse account;

(E) Between the third Saturday in February and December 31, when the interstate simulcast occurs between the hours of 6:30 p.m. and 6:30 a.m., the purse share to its standardbred purse account.

(7.1) Notwithstanding any other provision of this Act to the contrary, if no standardbred racing is conducted at a racetrack located in Madison County during any calendar year beginning on or after January 1, 2002, all moneys derived by that racetrack from simulcast wagering and inter-track wagering that (1) are to be used for purses and (2) are generated between the hours of 6:30 p.m. and 6:30 a.m. during that calendar year shall be paid as follows:

(A) If the licensee that conducts horse racing at that racetrack requests from the Board at least as many racing dates as were conducted in calendar year 2000, 80% shall be paid to its thoroughbred purse account; and

(B) Twenty percent shall be deposited into the Illinois Colt Stakes Purse Distribution Fund and shall be paid to purses for standardbred races for Illinois conceived and foaled horses conducted at any county fairgrounds. The moneys deposited into the Fund pursuant to this subparagraph (B) shall be deposited within 2 weeks after the day they were generated, shall be in addition to and not

The moneys deposited pursuant to this subparagraph (B) shall be allocated as provided by the Department of Agriculture, with the advice and assistance of the Illinois Standardbred Breeders Fund Advisory Board.

(7.2) Notwithstanding any other provision of this Act to the contrary, if no thoroughbred racing is conducted at a racetrack located in Madison County during any calendar year beginning on or after January 1, 2002, all moneys derived by that racetrack from simulcast wagering and inter-track wagering that (1) are to be used for purses and (2) are generated between the hours of 6:30 a.m. and 6:30 p.m. during that calendar year shall be deposited as follows:

(A) If the licensee that conducts horse racing at that racetrack requests from the Board at least as many racing dates as were conducted in calendar year 2000, 80% shall be deposited into its standardbred purse account; and

(B) Twenty percent shall be deposited into the Illinois Colt Stakes Purse Distribution Fund. Moneys deposited into the Illinois Colt Stakes Purse Distribution Fund pursuant to this subparagraph (B) shall be paid to Illinois conceived and foaled thoroughbred breeders' programs and to thoroughbred purses for races conducted at any county fairgrounds for Illinois conceived and foaled horses at the discretion of the Department of Agriculture, with the advice and assistance of the Illinois Thoroughbred Breeders Fund Advisory Board. The moneys deposited into the Illinois Colt Stakes Purse Distribution Fund pursuant to this subparagraph (B) shall be deposited within 2 weeks after the day they were generated, shall be in addition to and not in lieu of any other moneys paid to thoroughbred purses under this Act, and shall not be commingled with other moneys deposited into that Fund.

(7.3) If no live standardbred racing is conducted at a racetrack located in Madison County in calendar year 2000 or 2001, an organization licensee who is licensed to conduct horse racing at that racetrack shall, before January 1, 2002, pay all moneys derived from simulcast wagering and inter-track wagering

(A) Eighty percent to that licensee's thoroughbred purse account to be used for thoroughbred purses; and

(B) Twenty percent to the Illinois Colt Stakes Purse Distribution Fund.

Failure to make the payment to the Illinois Colt Stakes Purse Distribution Fund before January 1, 2002 shall result in the immediate revocation of the licensee's organization license, inter-track wagering license, and inter-track wagering location license.

Moneys paid into the Illinois Colt Stakes Purse Distribution Fund pursuant to this paragraph (7.3) shall be paid to purses for standardbred races for Illinois conceived and foaled horses conducted at any county fairgrounds. Moneys paid into the Illinois Colt Stakes Purse Distribution Fund pursuant to this paragraph (7.3) shall be used as determined by the Department of Agriculture, with the advice and assistance of the Illinois Standardbred Breeders Fund Advisory Board, shall be in addition to and not in lieu of any other moneys paid to standardbred purses under this Act, and shall not be commingled with any other moneys paid into that Fund.

(7.4) If live standardbred racing is conducted at a racetrack located in Madison County at any time in calendar year 2001 before the payment required under paragraph (7.3) has been made, the organization licensee who is licensed to conduct racing at that racetrack shall pay all moneys derived by that racetrack from simulcast wagering and inter-track wagering during calendar years 2000 and 2001 that (1) are to be used for purses and (2) are generated between the hours of 6:30 p.m. and 6:30 a.m. during 2000 or 2001 to the standardbred purse account at that racetrack to be used for standardbred purses.

(8) Notwithstanding any provision in this Act to the contrary, an organization licensee from a track located in a county with a population in excess of 230,000 and that borders the Mississippi River and its affiliated non-host licensees shall not be entitled to share in any retention generated on racing, inter-track wagering, or simulcast wagering at any other Illinois wagering facility.

(8.1) Notwithstanding any provisions in this Act to the contrary, if 2 organization licensees are conducting standardbred
race meetings concurrently between the hours of 6:30 p.m. and 6:30 a.m., after payment of all applicable State and local taxes and interstate commission fees, the remainder of the amount retained from simulcast wagering otherwise attributable to the host track and to host track purses shall be split daily between the 2 organization licensees and the purses at the tracks of the 2 organization licensees, respectively, based on each organization licensee's share of the total live handle for that day, provided that this provision shall not apply to any non-host licensee that derives its license from a track located in a county with a population in excess of 230,000 and that borders the Mississippi River.

(12) The Board shall have authority to compel all host tracks to receive the simulcast of any or all races conducted at the Springfield or DuQuoin State fairgrounds and include all such races as part of their simulcast programs.

(13) Notwithstanding any other provision of this Act, in the event that the total Illinois pari-mutuel handle on Illinois horse races at all wagering facilities in any calendar year is less than 75% of the total Illinois pari-mutuel handle on Illinois horse races at all such wagering facilities for calendar year 1994, then each wagering facility that has an annual total Illinois pari-mutuel handle on Illinois horse races that is less than 75% of the total Illinois pari-mutuel handle on Illinois horse races at such wagering facility for calendar year 1994, shall be permitted to receive, from any amount otherwise payable to the purse account at the race track with which the wagering facility is affiliated in the succeeding calendar year, an amount equal to 2% of the differential in total Illinois pari-mutuel handle on Illinois horse races at the wagering facility between that calendar year in question and 1994 provided, however, that a wagering facility shall not be entitled to any such payment until the Board certifies in writing to the wagering facility the amount to which the wagering facility is entitled and a schedule for payment of the amount to the wagering facility, based on: (i) the racing dates awarded to the race track affiliated with the wagering facility during the succeeding year; (ii) the sums available or anticipated to be available in the purse account of the

race track affiliated with the wagering facility for purses during the succeeding year; and (iii) the need to ensure reasonable purse levels during the payment period. The Board's certification shall be provided no later than January 31 of the succeeding year. In the event a wagering facility entitled to a payment under this paragraph (13) is affiliated with a race track that maintains purse accounts for both standardbred and thoroughbred racing, the amount to be paid to the wagering facility shall be divided between each purse account pro rata, based on the amount of Illinois handle on Illinois standardbred and thoroughbred racing respectively at the wagering facility during the previous calendar year. Annually, the General Assembly shall appropriate sufficient funds from the General Revenue Fund to the Department of Agriculture for payment into the thoroughbred and standardbred horse racing purse accounts at Illinois pari-mutuel tracks. The amount paid to each purse account shall be the amount certified by the Illinois Racing Board in January to be transferred from each account to each eligible racing facility in accordance with the provisions of this Section.

(h) The Board may approve and license the conduct of inter-track wagering and simulcast wagering by inter-track wagering licensees and inter-track wagering location licensees subject to the following terms and conditions:

(1) Any person licensed to conduct a race meeting (i) at a track where 60 or more days of racing were conducted during the immediately preceding calendar year or where over the 5 immediately preceding calendar years an average of 30 or more days of racing were conducted annually may be issued an inter-track wagering license; (ii) at a track located in a county that is bounded by the Mississippi River, which has a population of less than 150,000 according to the 1990 decennial census, and an average of at least 60 days of racing per year between 1985 and 1993 may be issued an inter-track wagering license; or (iii) at a track located in Madison County that conducted at least 100 days of live racing during the immediately preceding calendar year may be issued an inter-track wagering license, unless a lesser schedule of live racing is the result of (A) weather, unsafe track conditions, or other acts of God; (B) an agreement between the organization licensee and the associations representing the largest number of owners, trainers, jockeys, or standardbred drivers who race horses.

at that organization licensee's racing meeting; or (C) a finding by
the Board of extraordinary circumstances and that it was in the best
interest of the public and the sport to conduct fewer than 100 days
of live racing. Any such person having operating control of the
racing facility may also receive up to 6 inter-track wagering
location licenses. In no event shall more than 6 inter-track
wagering locations be established for each eligible race track,
except that an eligible race track located in a county that has a
population of more than 230,000 and that is bounded by the
Mississippi River may establish up to 7 inter-track wagering
locations. An application for said license shall be filed with the
Board prior to such dates as may be fixed by the Board. With an
application for an inter-track wagering location license there shall
be delivered to the Board a certified check or bank draft payable to
the order of the Board for an amount equal to $500. The
application shall be on forms prescribed and furnished by the
Board. The application shall comply with all other rules,
regulations and conditions imposed by the Board in connection
therewith.

(2) The Board shall examine the applications with respect
to their conformity with this Act and the rules and regulations
imposed by the Board. If found to be in compliance with the Act
and rules and regulations of the Board, the Board may then
issue a license to conduct inter-track wagering and simulcast wagering to
such applicant. All such applications shall be acted upon by the
Board at a meeting to be held on such date as may be fixed by the
Board.

(3) In granting licenses to conduct inter-track wagering and
simulcast wagering, the Board shall give due consideration to the
best interests of the public, of horse racing, and of maximizing
revenue to the State.

(4) Prior to the issuance of a license to conduct inter-track
wagering and simulcast wagering, the applicant shall file with the
Board a bond payable to the State of Illinois in the sum of $50,000,
executed by the applicant and a surety company or companies
authorized to do business in this State, and conditioned upon (i) the
payment by the licensee of all taxes due under Section 27 or 27.1
and any other monies due and payable under this Act, and (ii)
distribution by the licensee, upon presentation of the winning ticket or tickets, of all sums payable to the patrons of pari-mutuel pools.

(5) Each license to conduct inter-track wagering and simulcast wagering shall specify the person to whom it is issued, the dates on which such wagering is permitted, and the track or location where the wagering is to be conducted.

(6) All wagering under such license is subject to this Act and to the rules and regulations from time to time prescribed by the Board, and every such license issued by the Board shall contain a recital to that effect.

(7) An inter-track wagering licensee or inter-track wagering location licensee may accept wagers at the track or location where it is licensed, or as otherwise provided under this Act.

(8) Inter-track wagering or simulcast wagering shall not be conducted at any track less than 5 miles from a track at which a racing meeting is in progress.

(8.1) Inter-track wagering location licensees who derive their licenses from a particular organization licensee shall conduct inter-track wagering and simulcast wagering only at locations which are either within 90 miles of that race track where the particular organization licensee is licensed to conduct racing, or within 135 miles of that race track where the particular organization licensee is licensed to conduct racing in the case of race tracks in counties of less than 400,000 that were operating on or before June 1, 1986. However, inter-track wagering and simulcast wagering shall not be conducted by those licensees at any location within 5 miles of any race track at which a horse race meeting has been licensed in the current year, unless the person having operating control of such race track has given its written consent to such inter-track wagering location licensees, which consent must be filed with the Board at or prior to the time application is made.

(8.2) Inter-track wagering or simulcast wagering shall not be conducted by an inter-track wagering location licensee at any location within 500 feet of an existing church or existing school, nor within 500 feet of the residences of more than 50 registered voters without receiving written permission from a majority of the registered voters at such residences. Such written permission statements shall be filed with the Board. The distance of 500 feet

shall be measured to the nearest part of any building used for worship services, education programs, residential purposes, or conducting inter-track wagering by an inter-track wagering location licensee, and not to property boundaries. However, inter-track wagering or simulcast wagering may be conducted at a site within 500 feet of a church, school or residences of 50 or more registered voters if such church, school or residences have been erected or established, or such voters have been registered, after the Board issues the original inter-track wagering location license at the site in question. Inter-track wagering location licensees may conduct inter-track wagering and simulcast wagering only in areas that are zoned for commercial or manufacturing purposes or in areas for which a special use has been approved by the local zoning authority. However, no license to conduct inter-track wagering and simulcast wagering shall be granted by the Board with respect to any inter-track wagering location within the jurisdiction of any local zoning authority which has, by ordinance or by resolution, prohibited the establishment of an inter-track wagering location within its jurisdiction. However, inter-track wagering and simulcast wagering may be conducted at a site if such ordinance or resolution is enacted after the Board licenses the original inter-track wagering location licensee for the site in question.

(9) (Blank).

(10) An inter-track wagering licensee or an inter-track wagering location licensee may retain, subject to the payment of the privilege taxes and the purses, an amount not to exceed 17% of all money wagered. Each program of racing conducted by each inter-track wagering licensee or inter-track wagering location licensee shall be considered a separate racing day for the purpose of determining the daily handle and computing the privilege tax or pari-mutuel tax on such daily handle as provided in Section 27.

(10.1) Except as provided in subsection (g) of Section 27 of this Act, inter-track wagering location licensees shall pay 1% of the pari-mutuel handle at each location to the municipality in which such location is situated and 1% of the pari-mutuel handle at each location to the county in which such location is situated. In the event that an inter-track wagering location licensee is situated in an unincorporated area of a county, such licensee shall pay 2% of the pari-mutuel handle from such location to such county.

(10.2) Notwithstanding any other provision of this Act, with respect to intertrack wagering at a race track located in a county that has a population of more than 230,000 and that is bounded by the Mississippi River ("the first race track"), or at a facility operated by an inter-track wagering licensee or inter-track wagering location licensee that derives its license from the organization licensee that operates the first race track, on races conducted at the first race track or on races conducted at another Illinois race track and simultaneously televised to the first race track or to a facility operated by an inter-track wagering licensee or inter-track wagering location licensee that derives its license from the organization licensee that operates the first race track, those moneys shall be allocated as follows:

(A) That portion of all moneys wagered on standardbred racing that is required under this Act to be paid to purses shall be paid to purses for standardbred races.

(B) That portion of all moneys wagered on thoroughbred racing that is required under this Act to be paid to purses shall be paid to purses for thoroughbred races.

(11) (A) After payment of the privilege or pari-mutuel tax, any other applicable taxes, and the costs and expenses in connection with the gathering, transmission, and dissemination of all data necessary to the conduct of inter-track wagering, the remainder of the monies retained under either Section 26 or Section 26.2 of this Act by the inter-track wagering licensee on inter-track wagering shall be allocated with 50% to be split between the 2 participating licensees and 50% to purses, except that an intertrack wagering licensee that derives its license from a track located in a county with a population in excess of 230,000 and that borders the Mississippi River shall not divide any remaining retention with the Illinois organization licensee that provides the race or races, and an intertrack wagering licensee that accepts wagers on races conducted by an organization licensee that conducts a race meet in a county with a population in excess of 230,000 and that borders the Mississippi River shall not divide any remaining retention with that organization licensee.
(B) From the sums permitted to be retained pursuant to this Act each inter-track wagering location licensee shall pay (i) the privilege or pari-mutuel tax to the State; (ii) 4.75% of the pari-mutuel handle on intertrack wagering at such location on races as purses, except that an intertrack wagering location licensee that derives its license from a track located in a county with a population in excess of 230,000 and that borders the Mississippi River shall retain all purse moneys for its own purse account consistent with distribution set forth in this subsection (h), and intertrack wagering location licensees that accept wagers on races conducted by an organization licensee located in a county with a population in excess of 230,000 and that borders the Mississippi River shall distribute all purse moneys to purses at the operating host track; (iii) until January 1, 2000, except as provided in subsection (g) of Section 27 of this Act, 1% of the pari-mutuel handle wagered on inter-track wagering and simulcast wagering at each inter-track wagering location licensee facility to the Horse Racing Tax Allocation Fund, provided that, to the extent the total amount collected and distributed to the Horse Racing Tax Allocation Fund under this subsection (h) during any calendar year exceeds the amount collected and distributed to the Horse Racing Tax Allocation Fund during calendar year 1994, that excess amount shall be redistributed (I) to all inter-track wagering location licensees, based on each licensee's pro-rata share of the total handle from inter-track wagering and simulcast wagering for all inter-track wagering location licensees during the calendar year in which this provision is applicable; then (II) the amounts redistributed to each inter-track wagering location licensee as described in subpart (I) shall be further redistributed as provided in subparagraph (B) of paragraph (5) of subsection (g) of this Section 26 provided first, that the shares of those amounts, which are to be redistributed to the host track or to purses at the host track under subparagraph (B) of paragraph (5) of subsection (g) of this Section 26 shall be redistributed based on each host track's pro-rata share of the total inter-track wagering and simulcast wagering handle at all host tracks during the calendar year in question, and second, that any amounts redistributed as described in part (I) to an inter-track wagering location licensee that accepts wagers on races conducted by an organization licensee that conducts a race meet in a county

The remainder of the monies retained by the inter-track wagering location licensee shall be allocated 40% to the location licensee and 60% to the organization licensee which provides the Illinois races to the location, except that an intertrack wagering location licensee that derives its license from a track located in a county with a population in excess of 230,000 and that borders the Mississippi River shall not divide any remaining retention with the organization licensee that provides the race or races and an intertrack wagering location licensee that accepts wagers on races conducted by an organization licensee that conducts a race meet in a county with a population in excess of 230,000 and that borders the Mississippi River shall not divide any remaining retention with the organization licensee. Notwithstanding the provisions of clauses (ii) and (iv) of this paragraph, in the case of the additional inter-track wagering location licenses authorized under paragraph (1) of this subsection (h) by this amendatory Act of 1991, those licensees shall pay the following amounts as purses: during the first 12 months the licensee is in operation, 5.25% of the pari-mutuel handle wagered at the location on races; during the second 12 months, 5.25%; during the third 12 months, 5.75%; during the fourth 12 months, 6.25%; and during the fifth 12 months and thereafter, 6.75%. For additional intertrack location licensees authorized under this amendatory Act of 1995, the licensee shall be allowed to retain to satisfy all costs and expenses: 7.75% of the pari-mutuel handle wagered at the location during its first 12 months of operation, 7.25% during its second 12 months of operation, and 6.75% thereafter.

This subparagraph (C) shall be inoperative and of no force and effect on and after January 1, 2000.

(D) Except as provided in paragraph (11) of this subsection (h), with respect to purse allocation from
intertrack wagering, the monies so retained shall be divided as follows:

(i) If the inter-track wagering licensee, except an intertrack wagering licensee that derives its license from an organization licensee located in a county with a population in excess of 230,000 and bounded by the Mississippi River, is not conducting its own race meeting during the same dates, then the entire purse allocation shall be to purses at the track where the races wagered on are being conducted.

(ii) If the inter-track wagering licensee, except an intertrack wagering licensee that derives its license from an organization licensee located in a county with a population in excess of 230,000 and bounded by the Mississippi River, is also conducting its own race meeting during the same dates, then the purse allocation shall be as follows: 50% to purses at the track where the races wagered on are being conducted; 50% to purses at the track where the inter-track wagering licensee is accepting such wagers.

(iii) If the inter-track wagering is being conducted by an inter-track wagering location licensee, except an intertrack wagering location licensee that derives its license from an organization licensee located in a county with a population in excess of 230,000 and bounded by the Mississippi River, the entire purse allocation for Illinois races shall be to purses at the track where the race meeting being wagered on is being held.

(12) The Board shall have all powers necessary and proper to fully supervise and control the conduct of inter-track wagering and simulcast wagering by inter-track wagering licensees and inter-track wagering location licensees, including, but not limited to the following:

(A) The Board is vested with power to promulgate reasonable rules and regulations for the purpose of administering the conduct of this wagering and to prescribe reasonable rules, regulations and conditions under which

such wagering shall be held and conducted. Such rules and regulations are to provide for the prevention of practices detrimental to the public interest and for the best interests of said wagering and to impose penalties for violations thereof.

(B) The Board, and any person or persons to whom it delegates this power, is vested with the power to enter the facilities of any licensee to determine whether there has been compliance with the provisions of this Act and the rules and regulations relating to the conduct of such wagering.

(C) The Board, and any person or persons to whom it delegates this power, may eject or exclude from any licensee's facilities, any person whose conduct or reputation is such that his presence on such premises may, in the opinion of the Board, call into the question the honesty and integrity of, or interfere with the orderly conduct of such wagering; provided, however, that no person shall be excluded or ejected from such premises solely on the grounds of race, color, creed, national origin, ancestry, or sex.

(D) (Blank).

(E) The Board is vested with the power to appoint delegates to execute any of the powers granted to it under this Section for the purpose of administering this wagering and any rules and regulations promulgated in accordance with this Act.

(F) The Board shall name and appoint a State director of this wagering who shall be a representative of the Board and whose duty it shall be to supervise the conduct of inter-track wagering as may be provided for by the rules and regulations of the Board; such rules and regulation shall specify the method of appointment and the Director's powers, authority and duties.

(G) The Board is vested with the power to impose civil penalties of up to $5,000 against individuals and up to $10,000 against licensees for each violation of any provision of this Act relating to the conduct of this wagering, any rules adopted by the Board, any order of the
Board or any other action which in the Board's discretion, is a detriment or impediment to such wagering.

(13) The Department of Agriculture may enter into agreements with licensees authorizing such licensees to conduct inter-track wagering on races to be held at the licensed race meetings conducted by the Department of Agriculture. Such agreement shall specify the races of the Department of Agriculture's licensed race meeting upon which the licensees will conduct wagering. In the event that a licensee conducts inter-track pari-mutuel wagering on races from the Illinois State Fair or DuQuoin State Fair which are in addition to the licensee's previously approved racing program, those races shall be considered a separate racing day for the purpose of determining the daily handle and computing the privilege or pari-mutuel tax on that daily handle as provided in Sections 27 and 27.1. Such agreements shall be approved by the Board before such wagering may be conducted. In determining whether to grant approval, the Board shall give due consideration to the best interests of the public and of horse racing. The provisions of paragraphs (1), (8), (8.1), and (8.2) of subsection (h) of this Section which are not specified in this paragraph (13) shall not apply to licensed race meetings conducted by the Department of Agriculture at the Illinois State Fair in Sangamon County or the DuQuoin State Fair in Perry County, or to any wagering conducted on those race meetings.

(230 ILCS 5/27) (from Ch. 8, par. 37-27)
Sec. 27. (a) In addition to the organization license fee provided by this Act, until January 1, 2000, a graduated privilege tax is hereby imposed for conducting the pari-mutuel system of wagering permitted under this Act. Until January 1, 2000, except as provided in subsection (g) of Section 27 of this Act, all of the breakage of each racing day held by any licensee in the State shall be paid to the State. Until January 1, 2000, such daily graduated privilege tax shall be paid by the licensee from the amount permitted to be retained under this Act. Until January 1, 2000, each day’s graduated privilege tax, breakage, and Horse Racing Tax Allocation funds shall be remitted to the Department of Revenue within 48 hours after the close of the racing day upon which it is assessed or within such other time as the Board prescribes. The privilege tax hereby imposed, until January 1, 2000, shall be a flat tax at the rate of 2% of the daily pari-mutuel handle except as provided in Section 27.1.

In addition, every organization licensee, except as provided in Section 27.1 of this Act, which conducts multiple wagering shall pay, until January 1, 2000, as a privilege tax on multiple wagers an amount equal to 1.25% of all moneys wagered each day on such multiple wagers, plus an additional amount equal to 3.5% of the amount wagered each day on any other multiple wager which involves a single betting interest on 3 or more horses. The licensee shall remit the amount of such taxes to the Department of Revenue within 48 hours after the close of the racing day on which it is assessed or within such other time as the Board prescribes.

This subsection (a) shall be inoperative and of no force and effect on and after January 1, 2000.

(a-5) Beginning on January 1, 2000, a flat pari-mutuel tax at the rate of 1.5% of the daily pari-mutuel handle is imposed at all pari-mutuel wagering facilities and on advance deposit wagering from a location other than a wagering facility, except as otherwise provided for in this subsection (a-5). In addition to the pari-mutuel tax imposed on advance deposit wagering pursuant to this subsection (a-5), beginning on the effective date of this amendatory Act of the 97th General Assembly until January 31, 2014, an additional pari-mutuel tax at the rate of 0.25% shall be imposed on advance deposit wagering. Until August 25, 2012, the additional 0.25% pari-mutuel tax imposed on advance deposit wagering by Public Act 96-972 shall be deposited into the Quarter Horse Purse Fund, which shall be created as a non-appropriated trust fund administered by the Board for grants to thoroughbred organization licensees for payment of purses for quarter horse races conducted by the
organization licensee. Beginning on August 26, 2012, the additional 0.25% pari-mutuel tax imposed on advance deposit wagering shall be deposited into the Standardbred Purse Fund, which shall be created as a non-appropriated trust fund administered by the Board, for grants to the standardbred organization licensees for payment of purses for standardbred horse races conducted by the organization licensee equally into the standardbred purse accounts of organization licensees conducting standardbred racing. Thoroughbred organization licensees may petition the Board to conduct quarter horse racing and receive purse grants from the Quarter Horse Purse Fund. The Board shall have complete discretion in distributing the Quarter Horse Purse Fund to the petitioning organization licensees. Beginning on July 26, 2010 (the effective date of Public Act 96-1287) this amendatory Act of the 96th General Assembly and until moneys deposited pursuant to Section 54 are distributed and received, a pari-mutuel tax at the rate of 0.75% of the daily pari-mutuel handle is imposed at a pari-mutuel facility whose license is derived from a track located in a county that borders the Mississippi River and conducted live racing in the previous year. After moneys deposited pursuant to Section 54 are distributed and received, a pari-mutuel tax at the rate of 1.5% of the daily pari-mutuel handle is imposed at a pari-mutuel facility whose license is derived from a track located in a county that borders the Mississippi River and conducted live racing in the previous year. The pari-mutuel tax imposed by this subsection (a-5) shall be remitted to the Department of Revenue within 48 hours after the close of the racing day upon which it is assessed or within such other time as the Board prescribes.

(b) On or before December 31, 1999, in the event that any organization licensee conducts 2 separate programs of races on any day, each such program shall be considered a separate racing day for purposes of determining the daily handle and computing the privilege tax on such daily handle as provided in subsection (a) of this Section.

(c) Licensees shall at all times keep accurate books and records of all monies wagered on each day of a race meeting and of the taxes paid to the Department of Revenue under the provisions of this Section. The Board or its duly authorized representative or representatives shall at all reasonable times have access to such records for the purpose of examining and checking the same and ascertaining whether the proper amount of taxes is being paid as provided. The Board shall require verified reports and a statement of the total of all monies wagered daily at each wagering

facility upon which the taxes are assessed and may prescribe forms upon which such reports and statement shall be made.

(d) Any licensee failing or refusing to pay the amount of any tax due under this Section shall be guilty of a business offense and upon conviction shall be fined not more than $5,000 in addition to the amount found due as tax under this Section. Each day's violation shall constitute a separate offense. All fines paid into Court by a licensee hereunder shall be transmitted and paid over by the Clerk of the Court to the Board.

(e) No other license fee, privilege tax, excise tax, or racing fee, except as provided in this Act, shall be assessed or collected from any such licensee by the State.

(f) No other license fee, privilege tax, excise tax or racing fee shall be assessed or collected from any such licensee by units of local government except as provided in paragraph 10.1 of subsection (h) and subsection (f) of Section 26 of this Act. However, any municipality that has a Board licensed horse race meeting at a race track wholly within its corporate boundaries or a township that has a Board licensed horse race meeting at a race track wholly within the unincorporated area of the township may charge a local amusement tax not to exceed 10¢ per admission to such horse race meeting by the enactment of an ordinance. However, any municipality or county that has a Board licensed inter-track wagering location facility wholly within its corporate boundaries may each impose an admission fee not to exceed $1.00 per admission to such inter-track wagering location facility, so that a total of not more than $2.00 per admission may be imposed. Except as provided in subparagraph (g) of Section 27 of this Act, the inter-track wagering location licensee shall collect any and all such fees and within 48 hours remit the fees to the Board, which shall, pursuant to rule, cause the fees to be distributed to the county or municipality.

(g) Notwithstanding any provision in this Act to the contrary, if in any calendar year the total taxes and fees required to be collected from licensees and distributed under this Act to all State and local governmental authorities exceeds the amount of such taxes and fees distributed to each State and local governmental authority to which each State and local governmental authority was entitled under this Act for calendar year 1994, then the first $11 million of that excess amount shall be allocated at the earliest possible date for distribution as purse money for the succeeding calendar year. Upon reaching the 1994 level, and until the excess amount of taxes and fees exceeds $11 million, the Board shall direct all licensees
to cease paying the subject taxes and fees and the Board shall direct all licensees to allocate any such excess amount for purses as follows:

(i) the excess amount shall be initially divided between thoroughbred and standardbred purses based on the thoroughbred's and standardbred's respective percentages of total Illinois live wagering in calendar year 1994;

(ii) each thoroughbred and standardbred organization licensee issued an organization license in that succeeding allocation year shall be allocated an amount equal to the product of its percentage of total Illinois live thoroughbred or standardbred wagering in calendar year 1994 (the total to be determined based on the sum of 1994 on-track wagering for all organization licensees issued organization licenses in both the allocation year and the preceding year) multiplied by the total amount allocated for standardbred or thoroughbred purses, provided that the first $1,500,000 of the amount allocated to standardbred purses under item (i) shall be allocated to the Department of Agriculture to be expended with the assistance and advice of the Illinois Standardbred Breeders Funds Advisory Board for the purposes listed in subsection (g) of Section 31 of this Act, before the amount allocated to standardbred purses under item (i) is allocated to standardbred organization licensees in the succeeding allocation year.

To the extent the excess amount of taxes and fees to be collected and distributed to State and local governmental authorities exceeds $11 million, that excess amount shall be collected and distributed to State and local authorities as provided for under this Act.

Within each breed, moneys shall be allocated to each organization licensee's purse fund in accordance with the ratio between the purses generated for that breed by that licensee during the prior calendar year and the total purses generated throughout the State for that breed during the prior calendar year.

(2) The remaining 50% of the moneys distributed under this subsection (b) shall be distributed pro rata according to the aggregate proportion of state-wide handle at the racetrack, inter-track, and inter-track wagering locations that derive their licenses from a racetrack identified in this paragraph (2) for calendar years 1994, 1996, and 1997 to (i) any person (or its successors or assigns) who had operating control of a racing facility at which live racing was conducted in calendar year 1997 and who has operating control of an organization licensee that conducted racing in calendar year 1997 and is a licensee in the current year, or (ii) any person (or its successors or assigns) who has operating control of a racing facility located in a county that is bounded by the Mississippi River that has a population of less than 150,000 according to the 1990 decennial census and conducted an average of 60 days of racing per year between 1985 and 1993 and has been awarded an inter-track wagering license in the current year.

If any person identified in this paragraph (2) becomes ineligible to receive moneys from the Fund, such amount shall be redistributed among the remaining persons in proportion to their percentages otherwise calculated.

An amount equal to the amount of wagering taxes collected under this subsection (a-3) that are in addition to the amount of wagering taxes that would have been collected if the wagering tax rates under subsection (a-2) were in effect shall be paid into the Common School Fund.

The privilege tax imposed under this subsection (a-3) shall no longer be imposed beginning on the earlier of (i) July 1, 2005; (ii) the first date after June 20, 2003 that riverboat gambling operations are conducted pursuant to a dormant license; or (iii) the first day that riverboat gambling operations are conducted under the authority of an owners license that is in addition to the 10 owners licenses initially authorized under this Act. For the purposes of this subsection (a-3), the term "dormant license" means an owners license that is authorized by this Act under which no riverboat gambling operations are being conducted on June 20, 2003.

(a-4) Beginning on the first day on which the tax imposed under subsection (a-3) is no longer imposed, a privilege tax is imposed on persons engaged in the business of conducting riverboat gambling operations, other than licensed managers conducting riverboat gambling operations on behalf of the State, based on the adjusted gross receipts received by a licensed owner from gambling games authorized under this Act at the following rates:

45% of annual adjusted gross receipts in excess of $150,000,000 but not exceeding $200,000,000;
50% of annual adjusted gross receipts in excess of $200,000,000.

(a-8) Riverboat gambling operations conducted by a licensed manager on behalf of the State are not subject to the tax imposed under this Section.

(a-10) The taxes imposed by this Section shall be paid by the licensed owner to the Board not later than 5:00 o'clock p.m. of the day after the day when the wagers were made.

(a-15) If the privilege tax imposed under subsection (a-3) is no longer imposed pursuant to item (i) of the last paragraph of subsection (a-3), then by June 15 of each year, each owners licensee, other than an owners licensee that admitted 1,000,000 persons or fewer in calendar year 2004, must, in addition to the payment of all amounts otherwise due under this Section, pay to the Board a reconciliation payment in the amount, if any, by which the licensed owner's base amount exceeds the amount of net privilege tax paid by the licensed owner to the Board in the then current State fiscal year. A licensed owner's net privilege tax obligation due for the balance of the State fiscal year shall be reduced up to the total of the amount paid by the licensed owner in its June 15 reconciliation payment. The obligation imposed by this subsection (a-15) is binding on any person, firm, corporation, or other entity that acquires an ownership interest in any such owners license. The obligation imposed under this subsection (a-15) terminates on the earliest of: (i) July 1, 2007, (ii) the first day after the effective date of this amendatory Act of the 94th General Assembly that riverboat gambling operations are conducted pursuant to a dormant license, (iii) the first day that riverboat gambling operations are conducted under the authority of an owners license that is in addition to the 10 owners licenses initially authorized under this Act, or (iv) the first day that a licensee under the Illinois Horse Racing Act of 1975 conducts gaming

operations with slot machines or other electronic gaming devices. The Board must reduce the obligation imposed under this subsection (a-15) by an amount the Board deems reasonable for any of the following reasons: (A) an act or acts of God, (B) an act of bioterrorism or terrorism or a bioterrorism or terrorism threat that was investigated by a law enforcement agency, or (C) a condition beyond the control of the owners licensee that does not result from any act or omission by the owners licensee or any of its agents and that poses a hazardous threat to the health and safety of patrons. If an owners licensee pays an amount in excess of its liability under this Section, the Board shall apply the overpayment to future payments required under this Section.

For purposes of this subsection (a-15):
"Act of God" means an incident caused by the operation of an extraordinary force that cannot be foreseen, that cannot be avoided by the exercise of due care, and for which no person can be held liable.
"Base amount" means the following:
For a riverboat in Alton, $31,000,000.
For a riverboat in East Peoria, $43,000,000.
For the Empress riverboat in Joliet, $86,000,000.
For a riverboat in Metropolis, $45,000,000.
For the Harrah's riverboat in Joliet, $114,000,000.
For a riverboat in Aurora, $86,000,000.
For a riverboat in East St. Louis, $48,500,000.
For a riverboat in Elgin, $198,000,000.
"Dormant license" has the meaning ascribed to it in subsection (a-3).
"Net privilege tax" means all privilege taxes paid by a licensed owner to the Board under this Section, less all payments made from the State Gaming Fund pursuant to subsection (b) of this Section.

The changes made to this subsection (a-15) by Public Act 94-839 are intended to restate and clarify the intent of Public Act 94-673 with respect to the amount of the payments required to be made under this subsection by an owners licensee to the Board.

(b) Until January 1, 1998, 25% of the tax revenue deposited in the State Gaming Fund under this Section shall be paid, subject to appropriation by the General Assembly, to the unit of local government which is designated as the home dock of the riverboat. Beginning January 1, 1998, from the tax revenue deposited in the State Gaming Fund under this Section, an amount equal to 5% of adjusted gross receipts generated
by a riverboat shall be paid monthly, subject to appropriation by the General Assembly, to the unit of local government that is designated as the home dock of the riverboat. From the tax revenue deposited in the State Gaming Fund pursuant to riverboat gambling operations conducted by a licensed manager on behalf of the State, an amount equal to 5% of adjusted gross receipts generated pursuant to those riverboat gambling operations shall be paid monthly, subject to appropriation by the General Assembly, to the unit of local government that is designated as the home dock of the riverboat upon which those riverboat gambling operations are conducted.

(c) Appropriations, as approved by the General Assembly, may be made from the State Gaming Fund to the Board (i) for the administration and enforcement of this Act and the Video Gaming Act, (ii) for distribution to the Department of State Police and to the Department of Revenue for the enforcement of this Act, and (iii) to the Department of Human Services for the administration of programs to treat problem gambling.

(c-5) Before May 26, 2006 (the effective date of Public Act 94-804) and beginning on the effective date of this amendatory Act of the 95th General Assembly, unless any organization licensee under the Illinois Horse Racing Act of 1975 begins to operate a slot machine or video game of chance under the Illinois Horse Racing Act of 1975 or this Act, after the payments required under subsections (b) and (c) have been made, an amount equal to 15% of the adjusted gross receipts of (1) an owners licensee that relocates pursuant to Section 11.2, (2) an owners licensee conducting riverboat gambling operations pursuant to an owners license that is initially issued after June 25, 1999, or (3) the first riverboat gambling operations conducted by a licensed manager on behalf of the State under Section 7.3, whichever comes first, shall be paid from the State Gaming Fund into the Horse Racing Equity Fund.

(c-10) Each year the General Assembly shall appropriate from the General Revenue Fund to the Education Assistance Fund an amount equal to the amount paid into the Horse Racing Equity Fund pursuant to subsection (c-5) in the prior calendar year.

(c-15) After the payments required under subsections (b), (c), and (c-5) have been made, an amount equal to 2% of the adjusted gross receipts of (1) an owners licensee that relocates pursuant to Section 11.2, (2) an owners licensee conducting riverboat gambling operations pursuant to an owners license that is initially issued after June 25, 1999, or (3) the

(c-20) Each year the General Assembly shall appropriate from the General Revenue Fund to the Education Assistance Fund an amount equal to the amount paid to each home rule county with a population of over 3,000,000 inhabitants pursuant to subsection (c-15) in the prior calendar year.

(c-25) On July 1, 2013 and each July 1 thereafter, $1,600,000 shall be transferred from the State Gaming Fund to the Chicago State University Education Improvement Fund. After the payments required under subsections (b), (c), (c-5) and (c-15) have been made, an amount equal to 2% of the adjusted gross receipts of (1) an owners licensee that relocates pursuant to Section 11.2, (2) an owners licensee conducting riverboat gambling operations pursuant to an owners license that is initially issued after June 25, 1999, or (3) the first riverboat gambling operations conducted by a licensed manager on behalf of the State under Section 7.3, whichever comes first, shall be paid from the State Gaming Fund to Chicago State University.

(c-30) On July 1, 2013 or as soon as possible thereafter, $92,000,000 shall be transferred from the State Gaming Fund to the School Infrastructure Fund and $23,000,000 shall be transferred from the State Gaming Fund to the Horse Racing Equity Fund.

(c-35) Beginning on July 1, 2013, in addition to any amount transferred under subsection (c-30) of this Section, $5,530,000 shall be transferred monthly from the State Gaming Fund to the School Infrastructure Fund.

(d) From time to time, the Board shall transfer the remainder of the funds generated by this Act into the Education Assistance Fund, created by Public Act 86-0018, of the State of Illinois.

(e) Nothing in this Act shall prohibit the unit of local government designated as the home dock of the riverboat from entering into agreements with other units of local government in this State or in other states to share its portion of the tax revenue.

(f) To the extent practicable, the Board shall administer and collect the wagering taxes imposed by this Section in a manner consistent with the

PUBLIC ACT 98-0019
(Senate Bill No. 1515)

AN ACT concerning State government.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The State Employees Group Insurance Act of 1971 is amended by changing Sections 5 and 8 as follows:

(5 ILCS 375/5) (from Ch. 127, par. 525)

Sec. 5. Employee benefits; declaration of State policy. The General Assembly declares that it is the policy of the State and in the best interest of the State to assure quality benefits to members and their dependents under this Act. The implementation of this policy depends upon, among other things, stability and continuity of coverage, care, and services under benefit programs for members and their dependents. Specifically, but without limitation, members should have continued access, on substantially similar terms and conditions, to trusted family health care providers with whom they have developed long-term relationships through a benefit program under this Act. Therefore, the Director must administer this Act consistent with that State policy, but may consider affordability, cost of coverage and care, and competition among health insurers and providers. All contracts for provision of employee benefits, including those portions of any proposed collective bargaining agreement that would require implementation through contracts entered into under this Act, are subject to the following requirements:

(i) By April 1 of each year, the Director must report and provide information to the Commission concerning the status of the employee benefits program to be offered for the next fiscal

year. Information includes, but is not limited to, documents, reports of negotiations, bid invitations, requests for proposals, specifications, copies of proposed and final contracts or agreements, and any other materials concerning contracts or agreements for the employee benefits program. By the first of each month thereafter, the Director must provide updated, and any new, information to the Commission until the employee benefits program for the next fiscal year is determined. In addition to these monthly reporting requirements, at any time the Commission makes a written request, the Director must promptly, but in no event later than 5 business days after receipt of the request, provide to the Commission any additional requested information in the possession of the Director concerning employee benefits programs. The Commission may waive any of the reporting requirements of this item (i) upon the written request by the Director. Any waiver granted under this item (i) must be in writing. Nothing in this item is intended to abrogate any attorney-client privilege.

(ii) Within 30 days after notice of the awarding or letting of a contract has appeared in the Illinois Procurement Bulletin in accordance with subsection (b) of Section 15-25 of the Illinois Procurement Code, the Commission may request in writing from the Director and the Director shall promptly, but in no event later than 5 business days after receipt of the request, provide to the Commission information in the possession of the Director concerning the proposed contract. Nothing in this item is intended to waive or abrogate any privilege or right of confidentiality authorized by law.

(iii) Except as otherwise provided in this item (iii), no contract subject to this Section may be entered into until the 30-day period described in item (ii) has expired, unless the Director requests in writing that the Commission waive the period and the Commission grants the waiver in writing. This item (iii) does not apply to any contract entered into after the effective date of this amendatory Act of the 98th General Assembly and through January 1, 2014 to provide a program of group health benefits for Medicare-primary members and their Medicare-primary dependents that is comparable in stability and continuity of coverage, care, and services to the program of health benefits offered to other members and their dependents under this Act.

(iv) If the Director seeks to make any substantive modification to any provision of a proposed contract after it is submitted to the Commission in accordance with item (ii), the modified contract shall be subject to the requirements of items (ii) and (iii) unless the Commission agrees, in writing, to a waiver of those requirements with respect to the modified contract.

(v) By the date of the beginning of the annual benefit choice period, the Director must transmit to the Commission a copy of each final contract or agreement for the employee benefits program to be offered for the next fiscal year. The annual benefit choice period for an employee benefits program must begin on May 1 of the fiscal year preceding the year for which the program is to be offered. If, however, in any such preceding fiscal year collective bargaining over employee benefit programs for the next fiscal year remains pending on April 15, the beginning date of the annual benefit choice period shall be not later than 15 days after ratification of the collective bargaining agreement.

(vi) The Director must provide the reports, information, and contracts required under items (i), (ii), (iv), and (v) by electronic or other means satisfactory to the Commission. Reports, information, and contracts in the possession of the Commission pursuant to items (i), (ii), (iv), and (v) are exempt from disclosure by the Commission and its members and employees under the Freedom of Information Act. Reports, information, and contracts received by the Commission pursuant to items (i), (ii), (iv), and (v) must be kept confidential by and may not be disclosed or used by the Commission or its members or employees if such disclosure or use could compromise the fairness or integrity of the procurement, bidding, or contract process. Commission meetings, or portions of Commission meetings, in which reports, information, and contracts received by the Commission pursuant to items (i), (ii), (iv), and (v) are discussed must be closed if disclosure or use of the report or information could compromise the fairness or integrity of the procurement, bidding, or contract process.

All contracts entered into under this Section are subject to appropriation and shall comply with Section 20-60(b) of the Illinois Procurement Code (30 ILCS 500/20-60(b)).

The Director shall contract or otherwise make available group life insurance, health benefits and other employee benefits to eligible members

and, where elected, their eligible dependents. Any contract or, if applicable, contracts or other arrangement for provision of benefits shall be on terms consistent with State policy and based on, but not limited to, such criteria as administrative cost, service capabilities of the carrier or other contractor and premiums, fees or charges as related to benefits.

Notwithstanding any other provisions of this Act, by January 1, 2014, the Department of Central Management Services, in consultation with and subject to the approval of the Chief Procurement Officer, shall contract or make otherwise available a program of group health benefits for Medicare-primary members and their Medicare-primary dependents. The Director may procure a single contract or multiple contracts that provide a program of group health benefits that is comparable in stability and continuity of coverage, care, and services to the program of health benefits offered to other members and their dependents under this Act. The initial procurement of a contract or contracts under this paragraph is not subject to the provisions of the Illinois Procurement Code, except for Sections 20-60, 20-65, 20-70, and 20-160 and Article 50 of that Code, provided that the Chief Procurement Officer may, in writing with justification, waive any certification required under Article 50.

The Director may prepare and issue specifications for group life insurance, health benefits, other employee benefits and administrative services for the purpose of receiving proposals from interested parties.

The Director is authorized to execute a contract, or contracts, for the programs of group life insurance, health benefits, other employee benefits and administrative services authorized by this Act (including, without limitation, prescription drug benefits). All of the benefits provided under this Act may be included in one or more contracts, or the benefits may be classified into different types with each type included under one or more similar contracts with the same or different companies.

The term of any contract may not extend beyond 5 fiscal years. Upon recommendation of the Commission, the Director may exercise renewal options of the same contract for up to a period of 5 years. Any increases in premiums, fees or charges requested by a contractor whose contract may be renewed pursuant to a renewal option contained therein, must be justified on the basis of (1) audited experience data, (2) increases in the costs of health care services provided under the contract, (3) contractor performance, (4) increases in contractor responsibilities, or (5) any combination thereof.

Any contractor shall agree to abide by all requirements of this Act and Rules and Regulations promulgated and adopted thereeto; to submit such information and data as may from time to time be deemed necessary by the Director for effective administration of the provisions of this Act and the programs established hereunder, and to fully cooperate in any audit.

(5 ILCS 375/8) (from Ch. 127, par. 528)

Sec. 8. Eligibility.

(a) Each employee eligible under the provisions of this Act and any rules and regulations promulgated and adopted hereunder by the Director shall become immediately eligible and covered for all benefits available under the programs. Employees electing coverage for eligible dependents shall have the coverage effective immediately, provided that the election is properly filed in accordance with required filing dates and procedures specified by the Director, including the completion and submission of all documentation and forms required by the Director.

(1) Every member originally eligible to elect dependent coverage, but not electing it during the original eligibility period, may subsequently obtain dependent coverage only in the event of a qualifying change in status, special enrollment, special circumstance as defined by the Director, or during the annual Benefit Choice Period.

(2) Members described above being transferred from previous coverage towards which the State has been contributing shall be transferred regardless of preexisting conditions, waiting periods, or other requirements that might jeopardize claim payments to which they would otherwise have been entitled.

(3) Eligible and covered members that are eligible for coverage as dependents except for the fact of being members shall be transferred to, and covered under, dependent status regardless of preexisting conditions, waiting periods, or other requirements that might jeopardize claim payments to which they would otherwise have been entitled upon cessation of member status and the election of dependent coverage by a member eligible to elect that coverage.

(b) New employees shall be immediately insured for the basic group life insurance and covered by the program of health benefits on the first day of active State service. Optional life insurance coverage one to 4

times the basic amount, if elected during the relevant eligibility period, will become effective on the date of employment. Optional life insurance coverage exceeding 4 times the basic amount and all life insurance amounts applied for after the eligibility period will be effective, subject to satisfactory evidence of insurability when applicable, or other necessary qualifications, pursuant to the requirements of the applicable benefit program, unless there is a change in status that would confer new eligibility for change of enrollment under rules established supplementing this Act, in which event application must be made within the new eligibility period.

(c) As to the group health benefits program contracted to begin or continue after June 30, 1973, each annuitant, survivor, and retired employee shall become immediately eligible for all benefits available under that program. Each annuitant, survivor, and retired employee shall have coverage effective immediately, provided that the election is properly filed in accordance with the required filing dates and procedures specified by the Director, including the completion and submission of all documentation and forms required by the Director. Annuitants, survivors, and retired employees may elect coverage for eligible dependents and shall have the coverage effective immediately, provided that the election is properly filed in accordance with required filing dates and procedures specified by the Director, except that, for a survivor, the dependent sought to be added on or after the effective date of this amendatory Act of the 97th General Assembly must have been eligible for coverage as a dependent under the deceased member upon whom the survivor's annuity is based in order to be eligible for coverage under the survivor.

Except as otherwise provided in this Act, where husband and wife are both eligible members, each shall be enrolled as a member and coverage on their eligible dependent children, if any, may be under the enrollment and election of either.

Regardless of other provisions herein regarding late enrollment or other qualifications, as appropriate, the Director may periodically authorize open enrollment periods for each of the benefit programs at which time each member may elect enrollment or change of enrollment without regard to age, sex, health, or other qualification under the conditions as may be prescribed in rules and regulations supplementing this Act. Special open enrollment periods may be declared by the Director for certain members only when special circumstances occur that affect only those members.
(d) Beginning with fiscal year 2003 and for all subsequent years, eligible members may elect not to participate in the program of health benefits as defined in this Act. The election must be made during the annual benefit choice period, subject to the conditions in this subsection.

(1) Members must furnish proof of health benefit coverage, either comprehensive major medical coverage or comprehensive managed care plan, from a source other than the Department of Central Management Services in order to elect not to participate in the program.

(2) Members may re-enroll in the Department of Central Management Services program of health benefits upon showing a qualifying change in status, as defined in the U.S. Internal Revenue Code, without evidence of insurability and with no limitations on coverage for pre-existing conditions, provided that there was not a break in coverage of more than 63 days.

(3) Members may also re-enroll in the program of health benefits during any annual benefit choice period, without evidence of insurability.

(4) Members who elect not to participate in the program of health benefits shall be furnished a written explanation of the requirements and limitations for the election not to participate in the program and for re-enrolling in the program. The explanation shall also be included in the annual benefit choice options booklets furnished to members.

(d-5) Beginning July 1, 2005, the Director may establish a program of financial incentives to encourage annuitants receiving a retirement annuity from the State Employees Retirement System, but who are not eligible for benefits under the federal Medicare health insurance program (Title XVIII of the Social Security Act, as added by Public Law 89-97) to elect not to participate in the program of health benefits provided under this Act. The election by an annuitant not to participate under this program must be made in accordance with the requirements set forth under subsection (d). The financial incentives provided to these annuitants under the program may not exceed $150 per month for each annuitant electing not to participate in the program of health benefits provided under this Act.

(d-6) Beginning July 1, 2013, the Director may establish a program of financial incentives to encourage annuitants with 20 or more years of creditable service but who are not eligible for benefits under the
federal Medicare health insurance program (Title XVIII of the Social Security Act, as added by Public Law 89-97) to elect not to participate in the program of health benefits provided under this Act. The election by an annuitant not to participate under this program must be made in accordance with the requirements set forth under subsection (d). The program established under this subsection (d-6) may include a prorated incentive for annuitants with fewer than 20 years of creditable service, as determined by the Director. The financial incentives provided to these annuitants under this program may not exceed $500 per month for each annuitant electing not to participate in the program of health benefits provided under this Act.

(e) Notwithstanding any other provision of this Act or the rules adopted under this Act, if a person participating in the program of health benefits as the dependent spouse of an eligible member becomes an annuitant, the person may elect, at the time of becoming an annuitant or during any subsequent annual benefit choice period, to continue participation as a dependent rather than as an eligible member for as long as the person continues to be an eligible dependent. In order to be eligible to make such an election, the person must have been enrolled as a dependent under the program of health benefits for no less than one year prior to becoming an annuitant.

An eligible member who has elected to participate as a dependent may re-enroll in the program of health benefits as an eligible member (i) during any subsequent annual benefit choice period or (ii) upon showing a qualifying change in status, as defined in the U.S. Internal Revenue Code, without evidence of insurability and with no limitations on coverage for pre-existing conditions.

A person who elects to participate in the program of health benefits as a dependent rather than as an eligible member shall be furnished a written explanation of the consequences of electing to participate as a dependent and the conditions and procedures for re-enrolling as an eligible member. The explanation shall also be included in the annual benefit choice options booklet furnished to members.

Section 99. Effective date. This Act takes effect upon becoming law.

Approved June 10, 2013.
Effective June 10, 2013.

June 11, 2013

To the Honorable Members of the 98th General Assembly:

I hereby approve Senate Bill 1674 and commend the sponsors for their hard work on this bill. Senate Bill 1674 is important legislation which will provide millions of dollars for foreclosure prevention counseling. Senate Bill 1674 will also provide funds to municipalities to utilize in the clean-up of abandoned residential property.

Senate Bill 1674 is companion legislation to Senate Bill 16, which was passed in the previous General Assembly after two years of hard work by the sponsors and interested parties. Through both bills, we will be able to combat housing blight by decreasing the time homes sit empty and, more importantly, help people to stay in their homes with the assistance of trained counselors who will provide foreclosure prevention counseling.

The Illinois Housing Development Authority (“IHDA”) has been administering the Foreclosure Prevention Fund since 2011; under this legislation IHDA will also be called upon to manage the Abandoned Residential Property Municipality Relief Fund, commonly known as the

New matter indicated by italics - deletions by strikeout
Abandoned Property Program. IHDA has a proven track record of effectively managing such funds and programs and I have full faith and confidence in IHDA’s ability to manage this new Fund in a similarly effective and responsible manner.

Keeping people in their homes, and keeping neighborhoods safe, have always been two of my priorities. Through Senate Bill 1674, we can accomplish both, while also returning properties to productive use, thereby creating jobs and increasing local revenue from real estate taxes. It is a win-win all of the way around.

Sincerely,

PAT QUINN
Governor

PUBLIC ACT 98-0020
(Senate Bill No. 1674)

AN ACT concerning civil law.

All fees paid by plaintiffs to the clerk of the court as provided in paragraph (1) shall be disbursed within 60 days after receipt by the clerk of the court as follows:

(A) 28% to the State Treasurer for deposit into the Foreclosure Prevention Program Graduated Fund;

New matter indicated by italics - deletions by strikeout
(B) 70% to the State Treasurer for deposit into the Abandoned Residential Property Municipality Relief Fund; and

(C) 2% to the clerk of the court to be retained by the clerk for deposit into the Circuit Court Clerk Operation and Administrative Fund to defray for administrative expenses related to implementation of this subsection (a-5).

(3) Until January 1, 2018, with respect to residential real estate, at the time of the filing of a foreclosure complaint, the plaintiff or plaintiff's representative shall file a verified statement that states which additional fee is due under paragraph (1) of this subsection (a-5), unless the court has established another process for a plaintiff or plaintiff's representative to certify which additional fee is due under paragraph (1) of this subsection (a-5).

(3) To determine whether a plaintiff is subject to the fee as set forth in paragraph (1) of this subsection (a-5), a person, including the clerk of the court, may rely on:

(A) a verified statement filed by the plaintiff at the time of filing the foreclosure complaint that states whether the plaintiff has an obligation to pay an additional fee as set forth in subsection (a-5) and if so whether the fee is due under subparagraph (A), (B), or (C) of paragraph (1) of subsection (a-5); or

The mortgagor must petition the judge within the foreclosure action for the award of any fee overpayment pursuant to this paragraph (4) of this subsection (a-5), and the award shall be determined by the judge and paid by the clerk of the court out of
the fund account into which the clerk of the court deposits fees to be remitted to the State Treasurer under paragraph (2) of this subsection (a-5), the timing of which refund payment shall be determined by the clerk of the court based upon the availability of funds in the subject fund account. This refund shall be the mortgagor's sole remedy and a mortgagor shall have no private right of action against the plaintiff or plaintiff's representatives if the additional fee paid by the plaintiff was erroneous.

(5) This subsection (a-5) is inoperative on and after January 1, 2018.

Sec. 6-4.5. Prohibited ownership interests in a distributor, importing distributor, manufacturer of beer, or non-resident dealer.

(a) The General Assembly finds, consistent with Section 6-1.5, that the 3-tier regulatory system is designed to prevent a manufacturer of beer as described in paragraph (19) of subsection (a) of Section 6-2 from exercising vertical integration between a manufacturer of beer and a distributor or importing distributor through any ownership interest, or through control of the distributor or importing distributor. The General Assembly further finds, consistent with Section 6-1.5, that the 3-tier regulatory system is designed to prevent a distributor or importing distributor as described in paragraph (20) of subsection (a) of Section 6-2 from having any ownership interest in a manufacturer of beer as described in paragraph (20) of subsection (a) of Section 6-2 except for the ownership of no more than 5% of the outstanding shares of a manufacturer of beer whose shares are publicly traded on an exchange within the meaning of the Securities Exchange Act of 1934. The General Assembly further finds that it is necessary to have the State Commission undertake an expedited investigation, in accordance with procedural due process, to determine whether any existing manufacturer of beer described in paragraph (19) of subsection (a) of Section 6-2 or any existing

distributor or importing distributor described in paragraph (20) of subsection (a) of Section 6-2 owns a prohibited ownership interest, and an orderly process by which an existing manufacturer of beer, distributor, or importing distributor may divest itself of or sever the prohibited ownership interest by no later than January 1, 2015.

(b) Notwithstanding any provision of this Act to the contrary, no person licensed as a manufacturer of beer as described in paragraph (19) of subsection (a) of Section 6-2 shall have any prohibited ownership interest, directly or indirectly, in a person licensed as a distributor or importing distributor. Any person who holds a prohibited ownership interest in a person licensed as a distributor or importing distributor prior to this amendatory Act of the 98th General Assembly shall, in accordance with paragraph (19) of subsection (a) of Section 6-2, be ineligible to receive or hold any license issued by the State Commission, unless that person complies with the provisions of this Section.

(c) Notwithstanding any provision of this Act to the contrary, no person licensed in this State as a distributor or importing distributor as described in paragraph (20) of subsection (a) of Section 6-2 shall have any prohibited ownership interest, directly or indirectly, in a person licensed as a manufacturer of beer as described in paragraph (20) of subsection (a) of Section 6-2. Any person who holds an interest in a person licensed as a distributor or importing distributor in this State prior to this amendatory Act of the 98th General Assembly shall, in accordance with paragraph (20) of subsection (a) of Section 6-2, be ineligible to receive or hold a license by the State Commission, unless the person complies with the provisions of this Section. This subsection (c) shall not apply to a person who owns, on or after the effective date of this amendatory Act of the 98th General Assembly, no more than 5% of the outstanding shares of a manufacturer of beer whose shares are publicly traded on an exchange within the meaning of the Securities Exchange Act of 1934.

(d) Within 30 days after the effective date of this amendatory Act of the 98th General Assembly, the State Commission shall notify in writing all persons licensed by the State Commission as a manufacturer of beer, as described in paragraph (19) of subsection (a) of Section 6-2 of the prohibited ownership interest provision set forth in subsection (b) of this Section and paragraph (19) of subsection (a) of Section 6-2. Also within 30 days after the effective date of this amendatory Act of the 98th General Assembly, the State Commission shall notify in writing all persons

licensed by the State Commission as a distributor or importing distributor of the prohibited ownership interest provision set forth in subsection (c) of this Section and paragraph (20) of subsection (a) of Section 6-2. The notice provided by the State Commission shall also state for a manufacturer of beer, as described in paragraph (19) of subsection (a) of Section 6-2, that it is required to disclose in writing any ownership interest it directly or indirectly possesses in a distributor or importing distributor, as described in paragraph (20) of subsection (a) of Section 6-2, the type and amount of ownership interest possessed by it, the length of time the manufacturer of beer has held the ownership interest in the distributor or importing distributor, and any other information specified by the State Commission in its written notice. The notice provided by the State Commission shall also state for a distributor or importing distributor, as described in paragraph (20) of subsection (a) of Section 6-2, that it is required to disclose in writing any ownership interest it directly or indirectly possesses in a manufacturer of beer, as described in paragraph (19) of subsection (a) of Section 6-2, the type and amount of ownership interest possessed by it, the length of time the manufacturer of beer has held the ownership interest in the distributor or importing distributor, and any other information specified by the State Commission in its written notice.

(c) Where an application is made to conduct high volume horizontal fracturing operations at a well site located within the limits of any city, village, or incorporated town, the application shall state the name of the city, village, or incorporated town and be accompanied with a certified copy of the official consent for the hydraulic fracturing operations to occur from the municipal authorities where the well site is proposed to be located. No permit shall be issued unless consent is secured and filed with the permit application. In the event that an amended location is selected, the original permit shall not be valid unless a new certified consent is filed for the amended location.

(d) The hydraulic fracturing permit application shall be accompanied by a bond as required by subsection (a) of Section 1-65 of this Act.

(e) Each application for a permit under this Act shall include payment of a non-refundable fee of $13,500. Of this fee, $11,000 shall be deposited into the Mines and Minerals Regulatory Fund for the Department to use to administer and enforce this Act and otherwise support the operations and programs of the Office of Mines and Minerals. The remaining $2,500 shall be deposited into the Illinois Clean Water Fund for the Agency to use to carry out its functions under this Act. The Department shall not initiate its review of the permit application until the applicable fee under this subsection (e) has been submitted to and received by the Department.

(f) Each application submitted under this Act shall be signed, under the penalty of perjury, by the applicant or the applicant's designee who has been vested with the authority to act on behalf of the applicant and has direct knowledge of the information contained in the application and its attachments. Any person signing an application shall also sign an affidavit with the following certification:

"I certify, under penalty of perjury as provided by law and under penalty of refusal, suspension, or revocation of a high volume horizontal hydraulic fracturing permit, that this application and all attachments are true, accurate, and complete to the best of my knowledge."

If the operator elects to submit a combined permit application, information required by this Section that is duplicative of information required for an application to drill is only required to be provided once as part of the combined application. The submission of a combined permit application under this subsection shall not be interpreted to relieve the applicant or the Department from complying with the requirements of this Act or the Illinois Oil and Gas Act.

(i) Upon receipt of a permit application, the Department shall have no more than 60 calendar days from the date it receives the permit application to approve, with any conditions the Department may find necessary, or reject the application for the high volume horizontal hydraulic fracturing permit. The applicant may waive, in writing, the 60-day deadline upon its own initiative or in response to a request by the Department.

(j) If at any time during the review period the Department determines that the permit application is not complete under this Act, does not meet the requirements of this Section, or requires additional information, the Department shall notify the applicant in writing of the application's deficiencies and allow the applicant to correct the deficiencies and provide the Department any information requested to complete the application. If the applicant fails to provide adequate supplemental information within the review period, the Department may reject the application.

The petition shall contain a short and plain statement identifying the petitioner and stating facts demonstrating that the petitioner is a person having an interest that is or may be adversely affected. The petitioner shall serve the petition upon the Department. Unless the Department determines that the petition is frivolous, or that the petitioner has failed to allege facts in support of an interest that is or may be adversely affected, the petitioner shall be allowed to participate in the hearing in the same manner as the party requesting the hearing.

(c) The public hearing to be conducted under this Section shall comply with the contested case requirements of the Illinois Administrative Procedure Act. The Department shall establish rules and procedures to determine whether any request for a public hearing may be granted in accordance with subsection (a) of this Section, and for the notice and conduct of the public hearing. These procedural rules shall include provisions for reasonable notice to (i) the public and (ii) all parties to the proceeding, which include the applicant, the persons requesting the hearing, and the persons granted the right to participate in the hearing pursuant to subsection (b) of this Section, for the qualifications, powers, and obligations of the hearing officer, and for reasonable opportunity for

The complete record shall be maintained and shall be accessible to the public on the Department's website until final release of the applicant's performance bond.

(d) At least 10 calendar days before the date of the public hearing, the Department shall publish notice of the public hearing in a newspaper of general circulation published in the county where the proposed well site will be located.

(c) The order of suspension or revocation of a permit shall take effect upon issuance of the order. The permittee may request, in writing, within 30 days after the date of receiving the notice, a hearing. Except as provided under subsection (d) of this Section, in the event a hearing is requested, the order shall remain in effect until a final order is entered pursuant to the hearing.

(d) The order of suspension or revocation of a permit may be stayed if requested by the permittee and evidence is submitted demonstrating that there is no significant threat to the public health, aquatic life, wildlife, or the environment if the operation is allowed to continue.

(e) The hearing shall be held at a time and place designated by the Department. Section 1-65. Hydraulic fracturing permit; bonds.

(a) An applicant for a high volume horizontal hydraulic fracturing permit under this Act shall provide a bond, executed by a surety authorized to transact business in this State. The bond shall be in the amount of $50,000 per permit or a blanket bond of $500,000 for all permits. If the applicant is required to submit a bond to the Department under the Illinois Oil and Gas Act, the applicant's submission of a bond under this Section shall satisfy the bonding requirements provided for in the Illinois Oil and Gas Act. In lieu of a bond, the applicant may provide other collateral securities such as cash, certificates of deposit, or irrevocable letters of credit.
credit under the terms and conditions as the Department may provide by rule.

(b) The bond or other collateral securities shall remain in force until the well is plugged and abandoned. Upon abandoning a well to the satisfaction of the Department and in accordance with the Illinois Oil and Gas Act, the bond or other collateral securities shall be promptly released by the Department. Upon the release by the Department of the bond or other collateral securities, any cash or collateral securities deposited shall be returned by the Department to the applicant who deposited it.

(c) If, after notice and hearing, the Department determines that any of the requirements of this Act or rules adopted under this Act or the orders of the Department have not been complied with within the time limit set by any notice of violation issued under this Act, the permittee's bond or other collateral securities shall be forfeited. Forfeiture under this subsection shall not limit any duty of the permittee to mitigate or remediate harms or foreclose enforcement by the Department or the Agency. In no way will payment under this bond exceed the aggregate penalty as specified.

(d) When any bond or other collateral security is forfeited under the provisions of this Act or rules adopted under this Act, the Department shall collect the forfeiture without delay. The surety shall have 30 days to submit payment for the bond after receipt of notice by the permittee of the forfeiture.

(e) All forfeitures shall be deposited in the Mines and Minerals Regulatory Fund to be used, as necessary, to mitigate or remediate violations of this Act or rules adopted under this Act.

Section 1-70. Well preparation, construction, and drilling.
(a) This Section shall apply to all horizontal wells that are to be completed using high volume horizontal hydraulic fracturing operations under a high volume horizontal hydraulic fracturing permit. The requirements of this Section shall be in addition to any other laws or rules regarding wells and well sites.

(b) Site preparation standards shall be as follows:

(1) The access road to the well site must be located in accordance with access rights identified in the Illinois Oil and Gas Act and located as far as practical from occupied structures, places of assembly, and property lines of unleased property.

(2) Unless otherwise approved or directed by the Department, all topsoil stripped to facilitate the construction of the well site shall be returned to the applicant who deposited it.
well pad and access roads must be stockpiled, stabilized, and remain on site for use in either partial or final reclamation. In the event it is anticipated that the final reclamation shall take place in excess of one year from drilling the well the topsoil may be disposed of in any lawful manner provided the operator reclaims the site with topsoil of similar characteristics of the topsoil removed.

(3) Piping, conveyances, valves, and tanks in contact with hydraulic fracturing fluid, hydraulic fracturing flowback, or produced water must be constructed of materials compatible with the composition of the hydraulic fracturing fluid, hydraulic fracturing flowback, and produced water.

(4) The improvement, construction, or repair of a publicly owned highway or roadway, if undertaken by the owner, operator, permittee, or any other private entity, shall be performed using bidding procedures outlined in the Illinois Department of Transportation rules governing local roads and streets or applicable bidding requirements outlined in the Illinois Procurement Code as though the project were publicly funded.

(c) Site maintenance standards shall be as follows:

(1) Secondary containment is required for all fueling tanks.

(2) Fueling tanks shall be subject to Section 1-25 of this Act.

(3) Fueling tank filling operations shall be supervised at the fueling truck and at the tank if the tank is not visible to the fueling operator from the truck.

(4) Troughs, drip pads, or drip pans are required beneath the fill port of a fueling tank during filling operations if the fill port is not within the secondary containment required by paragraph (1) of this subsection.

(d) All wells shall be constructed, and casing and cementing activities shall be conducted, in a manner that shall provide for control of the well at all times, prevent the migration of oil, gas, and other fluids into the fresh water and coal seams, and prevent pollution or diminution of fresh water. In addition to any of the Department's casing and cementing requirements, the following shall apply:

(1) All casings must conform to the current industry standards published by the American Petroleum Institute.
(2) Casing thread compound and its use must conform to the current industry standards published by the American Petroleum Institute.

(3) Surface casing shall be centralized at the shoe, above and below a stage collar or diverting tool, if run, and through usable-quality water zones. In non-deviated holes, pipe centralization as follows is required: a centralizer shall be placed every fourth joint from the cement shoe to the ground surface or to the bottom of the cellar. All centralizers shall meet specifications in, or equivalent to, API spec 10D, Specification for Bow-Spring Casing Centralizers; API Spec 10 TR4, Technical Report on Considerations Regarding Selection of Centralizers for Primary Cementing Operations; and API RP 10D-2, Recommended Practice for Centralizer Placement and Stop Collar Testing. The Department may require additional centralization as necessary to ensure the integrity of the well design is adequate. All centralizers must conform to the current industry standards published by the American Petroleum Institute.

(4) Cement must conform to current industry standards published by the American Petroleum Institute and the cement slurry must be prepared to minimize its free water content in accordance with the current industry standards published by the American Petroleum Institute; the cement must also:
   (A) secure the casing in the wellbore;
   (B) isolate and protect fresh groundwater;
   (C) isolate abnormally pressured zones, lost circulation zones, and any potential flow zones including hydrocarbon and fluid-bearing zones;
   (D) properly control formation pressure and any pressure from drilling, completion and production;
   (E) protect the casing from corrosion and degradation; and
   (F) prevent gas flow in the annulus.

(5) Prior to cementing any casing string, the borehole must be circulated and conditioned to ensure an adequate cement bond.

(6) A pre-flush or spacer must be pumped ahead of the cement.

(7) The cement must be pumped at a rate and in a flow regime that inhibits channeling of the cement in the annulus.
(8) Cement compressive strength tests must be performed on all surface, intermediate, and production casing strings; after the cement is placed behind the casing, the operator shall wait on cement to set until the cement achieves a calculated compressive strength of at least 500 pounds per square inch, and a minimum of 8 hours before the casing is disturbed in any way, including installation of a blowout preventer. The cement shall have a 72-hour compressive strength of at least 1,200 psi, and the free water separation shall be no more than 6 milliliters per 250 milliliters of cement, tested in accordance with current American petroleum Institute standards.

(9) A copy of the cement job log for any cemented casing string in the well shall be maintained in the well file and available to the Department upon request.

(10) Surface casing shall be used and set to a depth of at least 200 feet, or 100 feet below the base of the deepest fresh water, whichever is deeper, but no more than 200 feet below the base of the deepest fresh water and prior to encountering any hydrocarbon-bearing zones. The surface casing must be run and cemented as soon as practicable after the hole has been adequately circulated and conditioned.

(11) The Department must be notified at least 24 hours prior to surface casing cementing operations. Surface casing must be fully cemented to the surface with excess cements. Cementing must be by the pump and plug method with a minimum of 25% excess cement with appropriate lost circulation material, unless another amount of excess cement is approved by the Department. If cement returns are not observed at the surface, the operator must perform remedial actions as appropriate.

(12) Intermediate casing must be installed when necessary to isolate fresh water not isolated by surface casing and to seal off potential flow zones, anomalous pressure zones, lost circulation zones and other drilling hazards.

Intermediate casing must be set to protect fresh water if surface casing was set above the base of the deepest fresh water, if additional fresh water was found below the surface casing shoe, or both. Intermediate casing used to isolate fresh water must not be used as the production string in the well in which it is installed, and

New matter indicated by italics - deletions by strikeout
may not be perforated for purposes of conducting a hydraulic fracture treatment through it.

When intermediate casing is installed to protect fresh water, the operator shall set a full string of new intermediate casing at least 100 feet below the base of the deepest fresh water and bring cement to the surface. In instances where intermediate casing was set solely to protect fresh water encountered below the surface casing shoe, and cementing to the surface is technically infeasible, would result in lost circulation, or both, cement must be brought to a minimum of 600 feet above the shallowest fresh water zone encountered below the surface casing shoe or to the surface if the fresh water zone is less than 600 feet from the surface. The location and depths of any hydrocarbon-bearing zones or fresh water zones that are open to the wellbore above the casing shoe must be confirmed by coring, electric logs, or testing and must be reported to the Department.

In the case that intermediate casing was set for a reason other than to protect strata that contains fresh water, the intermediate casing string shall be cemented from the shoe to a point at least 600 true vertical feet above the shoe. If there is a hydrocarbon bearing zone capable of producing exposed above the intermediate casing shoe, the casing shall be cemented from the shoe to a point at least 600 true vertical feet above the shallowest hydrocarbon bearing zone or to a point at least 200 feet above the shoe of the next shallower casing string that was set and cemented in the well (or to the surface if less than 200 feet).

(13) The Department must be notified prior to intermediate casing cementing operations. Cementing must be by the pump and plug method with a minimum of 25% excess cement. A radial cement bond evaluation log, or other evaluation approved by the Department, must be run to verify the cement bond on the intermediate casing. Remedial cementing is required if the cement bond is not adequate for drilling ahead.

(14) Production casing must be run and fully cemented to 500 feet above the top perforated zone, if possible. The Department must be notified at least 24 hours prior to production casing cementing operations. Cementing must be by the pump and plug method with a minimum of 25% excess cement.
(15) At any time, the Department, as it deems necessary, may require installation of an additional cemented casing string or strings in the well.

(16) After the setting and cementing of a casing string, except the conductor casing, and prior to further drilling, the casing string shall be tested with fresh water, mud, or brine to no less than 0.22 psi per foot of casing string length or 1,500 psi, whichever is greater but not to exceed 70% of the minimum internal yield, for at least 30 minutes with less than a 5% pressure loss, except that any casing string that will have pressure exerted on it during stimulation of the well shall be tested to at least the maximum anticipated treatment pressure. If the pressure declines more than 5% or if there are other indications of a leak, corrective action shall be taken before conducting further drilling and high volume horizontal hydraulic fracturing operations. The operator shall contact the Department's District Office for any county in which the well is located at least 24 hours prior to conducting a pressure test to enable an inspector to be present when the test is done. A record of the pressure test must be maintained by the operator and must be submitted to the Department on a form prescribed by the Department prior to conducting high volume horizontal hydraulic fracturing operations. The actual pressure must not exceed the test pressure at any time during high volume horizontal hydraulic fracturing operations.

(17) Any hydraulic fracturing string used in the high volume horizontal hydraulic fracturing operations must be either strung into a production liner or run with a packer set at least 100 feet below the deepest cement top and must be tested to not less than the maximum anticipated treating pressure minus the annulus pressure applied between the fracturing string and the production or immediate casing. The pressure test shall be considered successful if the pressure applied has been held for 30 minutes with no more than 5% pressure loss. A function-tested relief valve and diversion line must be installed and used to divert flow from the hydraulic fracturing string-casing annulus to a covered watertight steel tank in case of hydraulic fracturing string failure. The relief valve must be set to limit the annular pressure to no more than 95% of the working pressure rating of the casings forming the annulus.
The annulus between the hydraulic fracturing string and casing must be pressurized to at least 250 psi and monitored.

(18) After a successful pressure test under paragraph (16) of this subsection, a formation pressure integrity test must be conducted below the surface casing and below all intermediate casing. The operator shall notify the Department's District Office for any county in which the well is located at least 24 hours prior to conducting a formation pressure integrity test to enable an inspector to be present when the test is done. A record of the pressure test must be maintained by the operator and must be submitted to the Department on a form prescribed by the Department prior to conducting high volume horizontal hydraulic fracturing operations. The actual hydraulic fracturing treatment pressure must not exceed the test pressure at any time during high volume horizontal hydraulic fracturing operations.

(e) Blowout prevention standards shall be set as follows:

(1) The operator shall use blowout prevention equipment after setting casing with a competent casing seat. Blowout prevention equipment shall be in good working condition at all times.

(2) The operator shall use pipe fittings, valves, and unions placed on or connected to the blow-out prevention systems that have a working pressure capability that exceeds the anticipated pressures.

(3) During all drilling and completion operations when a blowout preventer is installed, tested, or in use, the operator or operator's designated representative shall be present at the well site and that person or personnel shall have a current well control certification from an accredited training program that is acceptable to the Department. The certification shall be available at the well site and provided to the Department upon request.

(4) Appropriate pressure control procedures and equipment in proper working order must be properly installed and employed while conducting drilling and completion operations including tripping, logging, running casing into the well, and drilling out solid-core stage plugs.

(5) Pressure testing of the blowout preventer and related equipment for any drilling or completion operation must be performed. Testing must be conducted in accordance with current

industry standards published by the American Petroleum Institute. Testing of the blowout preventer shall include testing after the blowout preventer is installed on the well but prior to drilling below the last cemented casing seat. Pressure control equipment, including the blowout preventer, that fails any pressure test shall not be used until it is repaired and passes the pressure test.

(6) A remote blowout preventer actuator, that is powered by a source other than rig hydraulics, shall be located at least 50 feet from the wellhead and have an appropriate rated working pressure.

Section 1-75. High volume horizontal hydraulic fracturing operations.
(a) General.
(1) During all phases of high volume horizontal hydraulic fracturing operations, the permittee shall comply with all terms of the permit.
(2) All phases of high volume horizontal hydraulic fracturing operations shall be conducted in a manner that shall not pose a significant risk to public health, life, property, aquatic life, or wildlife.
(3) The permittee shall notify the Department by phone, electronic communication, or letter, at least 48 hours prior to the commencement of high volume horizontal hydraulic fracturing operations.
(b) Integrity tests and monitoring.
(1) Before the commencement of high volume horizontal hydraulic fracturing operations, all mechanical integrity tests required under subsection (d) of Section 1-70 and this subsection must be successfully completed.
(2) Prior to commencing high volume horizontal hydraulic fracturing operations and pumping of hydraulic fracturing fluid, the injection lines and manifold, associated valves, fracture head or tree and any other wellhead component or connection not previously tested must be tested with fresh water, mud, or brine to at least the maximum anticipated treatment pressure for at least 30 minutes with less than a 5% pressure loss. A record of the pressure test must be maintained by the operator and made available to the Department upon request. The actual high volume horizontal hydraulic fracturing treatment pressure must not exceed the test
pressure at any time during high volume horizontal hydraulic fracturing operations.

(3) The pressure exerted on treating equipment including valves, lines, manifolds, hydraulic fracturing head or tree, casing and hydraulic fracturing string, if used, must not exceed 95% of the working pressure rating of the weakest component. The high volume horizontal hydraulic fracturing treatment pressure must not exceed the test pressure of any given component at any time during high volume horizontal hydraulic fracturing operations.

(4) During high volume horizontal hydraulic fracturing operations, all annulus pressures, the injection pressure, and the rate of injection shall be continuously monitored and recorded. The records of the monitoring shall be maintained by the operator and shall be provided to the Department upon request at any time during the period up to and including 5 years after the well is permanently plugged or abandoned.

(5) High volume horizontal hydraulic fracturing operations must be immediately suspended if any anomalous pressure or flow condition or any other anticipated pressure or flow condition is occurring in a way that indicates the mechanical integrity of the well has been compromised and continued operations pose a risk to the environment. Remedial action shall be undertaken immediately prior to recommencing high volume horizontal hydraulic fracturing operations. The permittee shall notify the Department within 1 hour of suspending operations for any matters relating to the mechanical integrity of the well or risk to the environment.

(c) Fluid and waste management.

(1) For the purposes of storage at the well site and except as provided in paragraph (2) of this subsection, hydraulic fracturing additives, hydraulic fracturing fluid, hydraulic fracturing flowback, and produced water shall be stored in above-ground tanks during all phases of drilling, high volume horizontal hydraulic fracturing, and production operations until removed for proper disposal. For the purposes of centralized storage off site for potential reuse prior to disposal, hydraulic fracturing additives, hydraulic fracturing fluid, hydraulic fracturing flowback, and produced water shall be stored in above-ground tanks.

(2) In accordance with the plan required by paragraph (11) of subsection (b) of Section 1-35 of this Act and as approved by
the Department, the use of a reserve pit is allowed for the temporary storage of hydraulic fracturing flowback. The reserve pit shall be used only in the event of a lack of capacity for tank storage due to higher than expected volume or rate of hydraulic fracturing flowback, or other unanticipated flowback occurrence. Any reserve pit must comply with the following construction standards and liner specifications:

(A) the synthetic liner material shall have a minimum thickness of 24 mils with high puncture and tear strength and be impervious and resistant to deterioration;
(B) the pit lining system shall be designed to have a capacity at least equivalent to 110% of the maximum volume of hydraulic fracturing flowback anticipated to be recovered;
(C) the lined pit shall be constructed, installed, and maintained in accordance with the manufacturers’ specifications and good engineering practices to prevent overflow during any use;
(D) the liner shall have sufficient elongation to cover the bottom and interior sides of the pit with the edges secured with at least a 12 inch deep anchor trench around the pit perimeter to prevent any slippage or destruction of the liner materials; and
(E) the foundation for the liner shall be free of rock and constructed with soil having a minimum thickness of 12 inches after compaction covering the entire bottom and interior sides of the pit.

(3) Fresh water may be stored in tanks or pits at the election of the operator.

(4) Tanks required under this subsection must be above-ground tanks that are closed, watertight, and will resist corrosion. The permittee shall routinely inspect the tanks for corrosion.

(5) Hydraulic fracturing fluids and hydraulic fracturing flowback must be removed from the well site within 60 days after completion of high volume horizontal fracturing operations, except that any excess hydraulic fracturing flowback captured for temporary storage in a reserve pit as provided in paragraph (2) of this subsection must be removed from the well site within 7 days.
(6) Tanks, piping, and conveyances, including valves, must be constructed of suitable materials, be of sufficient pressure rating, be able to resist corrosion, and be maintained in a leak-free condition. Fluid transfer operations from tanks to tanker trucks must be supervised at the truck and at the tank if the tank is not visible to the truck operator from the truck. During transfer operations, all interconnecting piping must be supervised if not visible to transfer personnel at the truck and tank.

(7) Hydraulic fracturing flowback must be tested for volatile organic chemicals, semi-volatile organic chemicals, inorganic chemicals, heavy metals, and naturally occurring radioactive material prior to removal from the site. Testing shall occur once per well site and the analytical results shall be filed with the Department and the Agency, and provided to the liquid oilfield waste transportation and disposal operators. Prior to plugging and site restoration, the ground adjacent to the storage tanks and any hydraulic fracturing flowback reserve pit must be measured for radioactivity.

(8) Hydraulic fracturing flowback may only be disposed of by injection into a Class II injection well that is below interface between fresh water and naturally occurring Class IV groundwater. Produced water may be disposed of by injection in a permitted enhanced oil recovery operation. Hydraulic fracturing flowback and produced water may be treated and recycled for use in hydraulic fracturing fluid for high volume horizontal hydraulic fracturing operations.

(9) Discharge of hydraulic fracturing fluids, hydraulic fracturing flowback, and produced water into any surface water or water drainage way is prohibited.

(10) Transport of all hydraulic fracturing fluids, hydraulic fracturing flowback, and produced water by vehicle for disposal must be undertaken by a liquid oilfield waste hauler permitted by the Department under Section 8c of the Illinois Oil and Gas Act. The liquid oilfield waste hauler transporting hydraulic fracturing fluids, hydraulic fracturing flowback, or produced water under this Act shall comply with all laws, rules, and regulations concerning liquid oilfield waste.

(11) Drill cuttings, drilling fluids, and drilling wastes not containing oil-based mud or polymer-based mud may be stored in

New matter indicated by italics - deletions by strikeout
tanks or pits. Pits used to store cuttings, fluids, and drilling wastes from wells not using fresh water mud shall be subject to the construction standards identified in (2) of this Section. Drill cuttings not contaminated with oil-based mud or polymer-based mud may be disposed of onsite subject to the approval of the Department. Drill cuttings contaminated with oil-based mud or polymer-based mud shall not be disposed of on site. Annular disposal of drill cuttings or fluid is prohibited.

(12) Any release of hydraulic fracturing fluid, hydraulic fracturing additive, or hydraulic fracturing flowback, used or generated during or after high volume horizontal hydraulic fracturing operations shall be immediately cleaned up and remediated pursuant to Department requirements. Any release of hydraulic fracturing fluid or hydraulic fracturing flowback in excess of 1 barrel, shall be reported to the Department. Any release of a hydraulic fracturing additive shall be reported to the Department in accordance with the appropriate reportable quantity thresholds established under the federal Emergency Planning and Community Right-to-Know Act as published in the Code of Federal Regulations (CFR), 40 CFR Parts 355, 370, and 372, the federal Comprehensive Environmental Response, Compensation, and Liability Act as published in 40 CFR Part 302, and subsection (r) of Section 112 of the Federal Clean Air Act as published in 40 CFR Part 68. Any release of produced water in excess of 5 barrels shall be cleaned up, remediated, and reported pursuant to Department requirements.

(13) Secondary containment for tanks required under this subsection and additive staging areas is required. Secondary containment measures may include, as deemed appropriate by the Department, one or a combination of the following: dikes, liners, pads, impoundments, curbs, sumps, or other structures or equipment capable of containing the substance. Any secondary containment must be sufficient to contain 110% of the total capacity of the single largest container or tank within a common containment area. No more than one hour before initiating any stage of the high volume horizontal hydraulic fracturing operations, all secondary containment must be visually inspected to ensure all structures and equipment are in place and in proper working order.
The results of this inspection must be recorded and documented by the operator, and available to the Department upon request.

(14) A report on the transportation and disposal of the hydraulic fracturing fluids and hydraulic fracturing flowback shall be prepared and included in the well file. The report must include the amount of fluids transported, identification of the company that transported the fluids, the destination of the fluids, and the method of disposal.

(15) Operators operating wells permitted under this Act must submit an annual report to the Department detailing the management of any produced water associated with the permitted well. The report shall be due to the Department no later than April 30th of each year and shall provide information on the operator's management of any produced water for the prior calendar year. The report shall contain information relative to the amount of produced water the well permitted under this Act produced, the method by which the produced water was disposed, and the destination where the produced water was disposed in addition to any other information the Department determines is necessary by rule.

(d) Hydraulic fracturing fluid shall be confined to the targeted formation designated in the permit. If the hydraulic fracturing fluid or hydraulic fracturing flowback are migrating into the freshwater zone or to the surface from the well in question or from other wells, the permittee shall immediately notify the Department and shut in the well until remedial action that prevents the fluid migration is completed. The permittee shall obtain the approval of the Department prior to resuming operations.

(e) Emissions controls.

(1) This subsection applies to all horizontal wells that are completed with high volume horizontal hydraulic fracturing.

(2) Except as otherwise provided in paragraph (8) of this subsection (e), permittees shall be responsible for managing gas and hydrocarbon fluids produced during the flowback period by routing recovered hydrocarbon fluids to one or more storage vessels or re-injecting into the well or another well, and routing recovered natural gas into a flow line or collection system, re-injecting the gas into the well or another well, using the gas as an on-site fuel source, or using the gas for another useful purpose that
a purchased fuel or raw material would serve, with no direct release to the atmosphere.

(3) If it is technically infeasible or economically unreasonable to minimize emissions associated with the venting of hydrocarbon fluids and natural gas during the flowback period using the methods specified in paragraph (2) of this subsection (e), the permittee shall capture and direct the emissions to a completion combustion device, except in conditions that may result in a fire hazard or explosion, or where high heat emissions from a completion combustion device may negatively impact waterways. Completion combustion devices must be equipped with a reliable continuous ignition source over the duration of the flowback period.

(4) Except as otherwise provided in paragraph (8) of this subsection (e), permittees shall be responsible for minimizing the emissions associated with venting of hydrocarbon fluids and natural gas during the production phase by:

(A) routing the recovered fluids into storage vessels and (i) routing the recovered gas into a gas gathering line, collection system, or to a generator for onsite energy generation, providing that gas to the surface owner of the well site for use for heat or energy generation, or (ii) using another method other than venting or flaring; and

(B) employing sand traps, surge vessels, separators, and tanks as soon as practicable during cleanout operations to safely maximize resource recovery and minimize releases to the environment.

(5) If the permittee establishes that it is technically infeasible or economically unreasonable to minimize emissions associated with the venting of hydrocarbon fluids and natural gas during production using the methods specified in paragraph (4) of this subsection (e), the Department shall require the permittee to capture and direct any natural gas produced during the production phase to a flare. Any flare used pursuant to this paragraph shall be equipped with a reliable continuous ignition source over the duration of production. In order to establish technical infeasibility or economic unreasonableness under this paragraph (5), the permittee must demonstrate, for each well site on an annual basis, that taking the actions listed in paragraph (4) of this subsection (e)
are not cost effective based on a site-specific analysis. Permittees that use a flare during the production phase for operations other than emergency conditions shall file an updated site-specific analysis annually with the Department. The analysis shall be due one year from the date of the previous submission and shall detail whether any changes have occurred that alter the technical infeasibility or economic unreasonableness of the permittee to reduce their emissions in accordance with paragraph (4) of this subsection (e).

(6) Uncontrolled emissions exceeding 6 tons per year from storage tanks shall be recovered and routed to a flare that is designed in accordance with 40 CFR 60.18 and is certified by the manufacturer of the device. The permittee shall maintain and operate the flare in accordance with manufacturer specifications. Any flare used under this paragraph must be equipped with a reliable continuous ignition source over the duration of production.

(7) The Department may approve an exemption that waives the flaring requirements of paragraphs (5) and (6) of this subsection (e) only if the permittee demonstrates that the use of the flare will pose a significant risk of injury or property damage and that alternative methods of collection will not threaten harm to the environment. In determining whether to approve a waiver, the Department shall consider the quantity of casinghead gas produced, the topographical and climatological features at the well site, and the proximity of agricultural structures, crops, inhabited structures, public buildings, and public roads and railways.

(8) For each wildcat well, delineation well, or low pressure well, permittees shall be responsible for minimizing the emissions associated with venting of hydrocarbon fluids and natural gas during the flowback period and production phase by capturing and directing the emissions to a completion combustion device during the flowback period and to a flare during the production phase, except in conditions that may result in a fire hazard or explosion, or where high heat emissions from a completion combustion device or flare may negatively impact waterways. Completion combustion devices and flares shall be equipped with a reliable continuous ignition source over the duration of the flowback period and the production phase, as applicable.
(9) On or after July 1, 2015, all flares used under paragraphs (5) and (8) of this subsection (e) shall (i) operate with a combustion efficiency of at least 98% and in accordance with 40 CFR 60.18; and (ii) be certified by the manufacturer of the device. The permittee shall maintain and operate the flare in accordance with manufacturer specifications.

(10) Permittees shall employ practices for control of fugitive dust related to their operations. These practices shall include, but are not limited to, the use of speed restrictions, regular road maintenance, and restriction of construction activity during high-wind days. Additional management practices such as road surfacing, wind breaks and barriers, or automation of wells to reduce truck traffic may also be required by the Department if technologically feasible and economically reasonable to minimize fugitive dust emissions.

(11) Permittees shall record and report to the Department on an annual basis the amount of gas flared or vented from each high volume horizontal hydraulic fracturing well. Three years after the effective date of the first high-volume horizontal hydraulic fracturing well permit issued by the Department, and every 3 years thereafter, the Department shall prepare a report that analyzes the amount of gas that has been flared or vented and make recommendations to the General Assembly on whether steps should be taken to reduce the amount of gas that is being flared or vented in this State.

(f) High volume horizontal hydraulic fracturing operations completion report. Within 60 calendar days after the conclusion of high volume horizontal hydraulic fracturing operations, the operator shall file a high volume horizontal hydraulic fracturing operations completion report with the Department. A copy of each completion report submitted to the Department shall be provided by the Department to the Illinois State Geological Survey. The completion reports required by this Section shall be considered public information and shall be made available on the Department's website. The high volume horizontal hydraulic fracturing operations completion report shall contain the following information:

(1) the permittee name as listed in the permit application;
(2) the dates of the high volume horizontal hydraulic fracturing operations;
(3) the county where the well is located;

New matter indicated by italics - deletions by strikeout
(4) the well name and Department reference number;

(5) the total water volume used in the high volume horizontal hydraulic fracturing operations of the well, and the type and total volume of the base fluid used if something other than water;

(6) each source from which the water used in the high volume horizontal hydraulic fracturing operations was drawn, and the specific location of each source, including, but not limited to, the name of the county and latitude and longitude coordinates;

(7) the quantity of hydraulic fracturing flowback recovered from the well;

(8) a description of how hydraulic fracturing flowback recovered from the well was disposed and, if applicable, reused;

(9) a chemical disclosure report identifying each chemical and proppant used in hydraulic fracturing fluid for each stage of the hydraulic fracturing operations including the following:

(A) the total volume of water used in the hydraulic fracturing treatment of the well or the type and total volume of the base fluid used in the hydraulic fracturing treatment, if something other than water;

(B) each hydraulic fracturing additive used in the hydraulic fracturing fluid, including the trade name, vendor, a brief descriptor of the intended use or function of each hydraulic fracturing additive, and the Material Safety Data Sheet (MSDS), if applicable;

(C) each chemical intentionally added to the base fluid, including for each chemical, the Chemical Abstracts Service number, if applicable; and

(D) the actual concentration in the base fluid, in percent by mass, of each chemical intentionally added to the base fluid;

(10) all pressures recorded during the high volume horizontal hydraulic fracturing operations; and

(11) any other reasonable or pertinent information related to the conduct of the high volume horizontal hydraulic fracturing operations the Department may request or require by administrative rule.

Section 1-77. Chemical disclosure; trade secret protection.
(a) If the chemical disclosure information required by paragraph (8) of subsection (b) of Section 1-35 of this Act is not submitted at the time of permit application, then the permittee, applicant, or person who will perform high volume horizontal hydraulic fracturing operations at the well shall submit this information to the Department in electronic format no less than 21 calendar days prior to performing the high volume horizontal hydraulic fracturing operations. The permittee shall not cause or allow any stimulation of the well if it is not in compliance with this Section. Nothing in this Section shall prohibit the person performing high volume horizontal hydraulic fracturing operations from adjusting or altering the contents of the fluid during the treatment process to respond to unexpected conditions, as long as the permittee or the person performing the high volume horizontal hydraulic fracturing operations notifies the Department by electronic mail within 24 hours of the departure from the initial treatment design and includes a brief explanation of the reason for the departure.

(b) No permittee shall use the services of another person to perform high volume horizontal hydraulic fracturing operations unless the person is in compliance with this Section.

(c) Any person performing high volume horizontal hydraulic fracturing operations within this State shall:
   (1) be authorized to do business in this State; and
   (2) maintain and disclose to the Department separate and up-to-date master lists of:
      (A) the base fluid to be used during any high volume horizontal hydraulic fracturing operations within this State;
      (B) all hydraulic fracturing additives to be used during any high volume horizontal hydraulic fracturing operations within this State; and
      (C) all chemicals and associated Chemical Abstract Service numbers to be used in any high volume horizontal hydraulic fracturing operations within this State.

(d) Persons performing high volume horizontal hydraulic fracturing operations are prohibited from using any base fluid, hydraulic fracturing additive, or chemical not listed on their master lists disclosed under paragraph (2) of subsection (c) of this Section.

(e) The Department shall assemble and post up-to-date copies of the master lists it receives under paragraph (2) of subsection (c) of this Section on its website in accordance with Section 1-110 of this Act.

New matter indicated by italics - deletions by strikeout
(f) Where an applicant, permittee, or the person performing high volume horizontal hydraulic fracturing operations furnishes chemical disclosure information to the Department under this Section, Section 1-35, or Section 1-75 of this Act under a claim of trade secret, the applicant, permittee, or person performing high volume horizontal hydraulic fracturing operations shall submit redacted and un-redacted copies of the documents containing the information to the Department and the Department shall use the redacted copies when posting materials on its website.

(g) Upon submission or within 5 calendar days of submission of chemical disclosure information to the Department under this Section, Section 1-35, or Section 1-75 of this Act under a claim of trade secret, the person that claimed trade secret protection shall provide a justification of the claim containing the following: a detailed description of the procedures used by the person to safeguard the information from becoming available to persons other than those selected by the person to have access to the information for limited purposes; a detailed statement identifying the persons or class of persons to whom the information has been disclosed; a certification that the person has no knowledge that the information has ever been published or disseminated or has otherwise become a matter of general public knowledge; a detailed discussion of why the person believes the information to be of competitive value; and any other information that shall support the claim.

(h) Chemical disclosure information furnished under this Section, Section 1-35, or Section 1-75 of this Act under a claim of trade secret shall be protected from disclosure as a trade secret if the Department determines that the statement of justification demonstrates that:

1. the information has not been published, disseminated, or otherwise become a matter of general public knowledge; and
2. the information has competitive value.

There is a rebuttable presumption that the information has not been published, disseminated, or otherwise become a matter of general public knowledge if the person has taken reasonable measures to prevent the information from becoming available to persons other than those selected by the person to have access to the information for limited purposes and the statement of justification contains a certification that the person has no knowledge that the information has ever been published, disseminated, or otherwise become a matter of general public knowledge.
(i) Denial of a trade secret request under this Section shall be appealable under the Administrative Review Law.

(j) A person whose request to inspect or copy a public record is denied, in whole or in part, because of a grant of trade secret protection may file a request for review with the Public Access Counselor under Section 9.5 of the Freedom of Information Act or for injunctive or declaratory relief under Section 11 of the Freedom of Information Act for the purpose of reviewing whether the Department properly determined that the trade secret protection should be granted.

(k) Except as otherwise provided in subsections (l) and (m) of this Section, the Department must maintain the confidentiality of chemical disclosure information furnished under this Section, Section 1-35, or Section 1-75 of this Act under a claim of trade secret, until the Department receives official notification of a final order by a reviewing body with proper jurisdiction that is not subject to further appeal rejecting a grant of trade secret protection for that information.

(l) The Department shall adopt rules for the provision of information furnished under a claim of trade secret to a health professional who states a need for the information and articulates why the information is needed. The health professional may share that information with other persons as may be professionally necessary, including, but not limited to, the affected patient, other health professionals involved in the treatment of the affected patient, the affected patient's family members if the affected patient is unconscious, unable to make medical decisions, or is a minor, the Centers for Disease Control, and other government public health agencies. Except as otherwise provided in this Section, any recipient of the information shall not use the information for purposes other than the health needs asserted in the request and shall otherwise maintain the information as confidential. Information so disclosed to a health professional shall in no way be construed as publicly available. The holder of the trade secret may request a confidentiality agreement consistent with the requirements of this Section from all health professionals to whom the information is disclosed as soon as circumstances permit. The rules adopted by the Department shall also establish procedures for providing the information in both emergency and non-emergency situations.

(m) In the event of a release of hydraulic fracturing fluid, a hydraulic fracturing additive, or hydraulic fracturing flowback, and when necessary to protect public health or the environment, the Department may disclose information furnished under a claim of trade secret to the relevant...
county public health director or emergency manager, the relevant fire department chief, the Director of the Illinois Department of Public Health, the Director of the Illinois Department of Agriculture, and the Director of the Illinois Environmental Protection Agency upon request by that individual. The Director of the Illinois Department of Public Health, and the Director of the Illinois Environmental Protection Agency, and the Director of the Illinois Department of Agriculture may disclose this information to staff members under the same terms and conditions as apply to the Director of Natural Resources. Except as otherwise provided in this Section, any recipient of the information shall not use the information for purposes other than to protect public health or the environment and shall otherwise maintain the information as confidential. Information disclosed to staff shall in no way be construed as publicly available. The holder of the trade secret information may request a confidentiality agreement consistent with the requirements of this Section from all persons to whom the information is disclosed as soon as circumstances permit.

The work plan shall ensure compliance with the requirements of this Section and include, at a minimum, the following:

(1) information identifying all water sources within the range of testing under this Section;
(2) a sampling plan and protocol, including notification to the Department at least 7 calendar days prior to sample collection;
(3) the name and contact information of an independent third party under the supervision of a professional engineer or professional geologist that shall be designated to conduct sampling to establish a baseline as provided for under subsection (b) of this Section;
(4) the name and contact information of an independent third party under the supervision of a professional engineer or professional geologist that shall be designated to conduct sampling to establish compliance with monitoring as provided within subsection (c) of this Section;
(5) the name and contact information of an independent testing laboratory, certified to perform the required laboratory
(6) proof of access and the right to test within the area for testing prescribed within subsection (b) of this Section during the duration of high volume horizontal hydraulic fracturing operations covered under the permit application, and copies of any non-disclosure agreements made under subsection (d) of this Section; and

(7) identification of practicable contingency measures, including provision for alternative drinking water supplies, which could be implemented in the event of pollution or diminution of a water source as provided for in Section 1-83.

(b) Prior to conducting high volume horizontal hydraulic fracturing operations on a well, a permittee shall retain an independent third party, as required within paragraph (3) of subsection (a) of this Section, and shall conduct baseline water quality sampling of all water sources within 1,500 feet of the well site prior to any fracturing activities. Where (i) there are no groundwater wells within 1,500 feet of a well site, or access to groundwater wells within 1,500 feet of the well site has been denied under subsection (d) of this Section, and (ii) the proposed well site is located within 1,500 feet horizontally from any portion of an aquifer, the permittee shall conduct sampling of the aquifer at the closest groundwater well with access to the aquifer to which the permittee has not been denied access under subsection (d) of this Section. Installation of a groundwater monitoring well is not required to satisfy the sampling requirements of this Section. The samples collected by the independent third party, under the supervision of a professional engineer or professional geologist, shall be analyzed by an independent testing laboratory in accordance with paragraph (4) of subsection (a) of this Section. Testing shall be done by collection of a minimum of 3 samples for each water source required to be tested under this Section. The permittee shall, within 7 calendar days after receipt of results of tests conducted under this subsection, submit the results to the Department or to the owner of the water source under a non-disclosure agreement under subsection (d) of this Section. The Department shall post the results on its website within 7 calendar days after receipt. The results shall, at a minimum, include a detailed description of the sampling and testing conducted under this subsection, the chain of custody of the samples, and quality control of the testing.
(c) After baseline tests are conducted under subsection (b) of this Section and following issuance of a permit by the Department, the permittee shall have all water sources which are subjected to sampling under subsection (b) of this Section sampled and tested in the same manner 6 months, 18 months, and 30 months after the high volume horizontal hydraulic fracturing operations have been completed. Sampling of a water source under this subsection is not required if the water source was sampled under this subsection or subsection (b) within the previous month. The permittee shall notify the Department at least 7 calendar days prior to taking the sample. The permittee shall, within 7 calendar days after receipt of results of tests conducted under this subsection (c), submit the results to the Department or to the owner of the water source pursuant to a non-disclosure agreement under subsection (d) of this Section. The results shall include, at a minimum, a detailed description of the sampling and testing conducted under this subsection, the chain of custody of the samples, and quality control of the testing.

(d) Sampling of private water wells or ponds wholly contained within private property shall not be required where the owner of the private property declines, expressly and in writing, to provide access or permission for sampling. If the owner of the private property declines to provide proof of his or her refusal to allow access in writing, the operator shall provide the Department evidence as to the good faith efforts that were made to secure the required documentation. Permits issued under this Act cannot be denied if the owner of the private property declines to provide proof of his or her refusal to allow access in writing and the permittee provides evidence that good faith efforts were made to gain access for the purposes of conducting tests. The owners of private property may condition access or permission for sampling of a private water well or pond wholly within the property or a portion of any perennial stream or river that flows through the property under a non-disclosure agreement, which must include the following terms and conditions:

(1) the permittee shall provide the results of the water quality testing to the property owners;

(2) the permittee shall retain the results of the water quality testing until at least one year after completion of all monitoring under this Section for review by the Department upon request;

(3) the permittee shall not file with the Department the results of the water quality testing, except under paragraph (4) of subsection (d) of this Section; and

New matter indicated by italics - deletions by strikeout
(4) the permittee shall notify the Department within 7 calendar days of its receipt of the water quality data where any testing under subsection (c) of this Section indicates that concentrations exceed the standards or criteria referenced in the definition of pollution or diminution under Section 1-5 of this Act.

(e) Each set of samples collected under subsections (b) and (c) of this Section shall include analyses for:

(1) pH;
(2) total dissolved solids, dissolved methane, dissolved propane, dissolved ethane, alkalinity, and specific conductance;
(3) chloride, sulfate, arsenic, barium, calcium, chromium, iron, magnesium, selenium, cadmium, lead, manganese, mercury, and silver;
(4) BTEX; and
(5) gross alpha and beta particles to determine the presence of any naturally occurring radioactive materials.

Sampling shall, at a minimum, be consistent with the work plan and allow for a determination of whether any hydraulic fracturing additive or other contaminant has caused pollution or diminution for purposes of Sections 1-83 and 1-85 of this Act.

Section 1-83. Order authority.

(a) Any person who has reason to believe they have incurred pollution or diminution of a water source as a result of a high volume horizontal hydraulic fracturing treatment of a well may notify the Department and request that an investigation be conducted.

(b) Within 30 calendar days after notification, the Department shall initiate the investigation of the claim and make a reasonable effort to reach a determination within 180 calendar days after notification. The Department may contact the Agency to seek the Agency’s assistance in water quality sampling. The Agency may seek cost recovery under subsection (e) of Section 1-87 of this Act and recover all costs for samples taken for the investigation under this Section.

(c) Any person conducting or who has conducted high volume horizontal hydraulic fracturing operations shall supply any information requested by the Department to assist the Department. The Department shall give due consideration to any information submitted during the course of the investigation.

(d) If sampling results or other information obtained as part of the investigation or the results of tests conducted under subsection (c) of...
Section 1-80 of this Act indicate that concentrations exceed the standards or criteria referenced by pollution or diminution under Section 1-5 of this Act, the Department shall issue an order to the permittee as necessary to require permanent or temporary replacement of a water source. In addition to any other penalty available under the law and consistent with the Department's order, the permittee shall restore or replace the affected supply with an alternative source of water adequate in quantity and quality for the purposes served by the water source. The quality of a restored or replaced water source shall meet or exceed the quality of the original water source based upon the results of the baseline test results under subsection (b) of Section 1-80 for that water source, or other available information. The Department may require the permittee to take immediate action, including but not limited to, repair, replacement, alteration, or prohibition of operation of equipment permitted by the Department. The Department may issue conditions within any order to protect the public health or welfare or the environment.

(e) Within 15 calendar days after a determination has been made regarding the pollution or diminution, the Department shall provide notice of its findings and the orders, if any, to all persons that use the water source for domestic, agricultural, industrial, or any other legitimate beneficial uses.

(f) Upon issuance of an Order or a finding of pollution or diminution under subsection (d) of this Section, the Department shall contact the Agency and forward all information from the investigation to the Agency. The Agency shall investigate the potential for violations as designated within Section 1-87 of this Act.

(g) Reports of potential cases of water pollution that may be associated with high volume horizontal hydraulic fracturing operations may be submitted electronically. The Department shall establish a format for these reports to be submitted through the website developed under Section 1-110 of this Act. The Department shall electronically provide these reports to the Agency.

Section 1-85. Presumption of pollution or diminution.

New matter indicated by italics - deletions by strikeout
(a) This Section establishes a rebuttable presumption for the purposes of evidence and liability under State law regarding claims of pollution or diminution of a water source and for use regarding the investigation and order authority under Section 1-83.

(b) Unless rebutted by a defense established in subsection (c) of this Section, it shall be presumed that any person conducting or who has conducted high volume horizontal hydraulic fracturing operations shall be liable for pollution or diminution of a water supply if:

1. the water source is within 1,500 feet of the well site;
2. water quality data showed no pollution or diminution prior to the start of high volume horizontal hydraulic fracturing operations; and
3. the pollution or diminution occurred during high volume horizontal hydraulic fracturing operations or no more than 30 months after the completion of the high volume horizontal hydraulic fracturing operations.

(c) To rebut the presumption established under this Section, a person presumed responsible must affirmatively prove by clear and convincing evidence any of the following:

1. the water source is not within 1,500 feet of the well site;
2. the pollution or diminution occurred prior to high volume horizontal hydraulic fracturing operations or more than 30 months after the completion of the high volume horizontal hydraulic fracturing operations; or
3. the pollution or diminution occurred as the result of an identifiable cause other than the high volume horizontal hydraulic fracturing operations.

Section 1-87. Water quality investigation and enforcement.

(a) No person shall cause or allow high volume horizontal hydraulic fracturing operations permitted under this Act to violate Section 12 of the Illinois Environmental Protection Act or surface water or groundwater rules adopted under the Illinois Environmental Protection Act.

(b) The Agency shall have the duty to investigate complaints that activities under this Act have caused a violation of Section 12 of the Illinois Environmental Protection Act or surface or groundwater rules adopted under the Illinois Environmental Protection Act. Any action taken by the Agency in enforcing these violations shall be taken under and consistent with the Illinois Environmental Protection Act, including but

not limited to, the Agency's authority to seek a civil or criminal cause of action under that Act. The test results under subsections (b) and (c) of Section 1-80 of this Act may be considered by the Agency during an investigation under this Section.

(c) A person who has reason to believe they have incurred contamination of a water source as a result of high volume horizontal hydraulic fracturing may notify the Agency and request an investigation be conducted. The Agency shall forward this request to the Department for consideration of an investigation under Section 1-83 of this Act. If the Agency is provided with notice under subsection (f) of Section 1-83, the Agency shall conduct an investigation to determine whether pollution or diminution is continuing to occur at the location subject to the order, as well as locations identified by the Department or at any other water source within 1,500 feet of the well site. Any person conducting or who has conducted high volume horizontal hydraulic fracturing operations shall supply any information requested to assist the Agency in its investigation. The Agency shall give due consideration to any information submitted during the course of the investigation.

(d) Pollution or diminution is a violation of this Act and may be pursued by the Department subject to the procedures and remedies under Sections 1-100 and 1-105 of this Act.

(e) If an Agency investigation under Section 1-83 or subsection (c) of this Section confirms that the cause of the pollution, diminution, or water pollution is attributable to high volume horizontal hydraulic fracturing operations, in addition to any other relief available under law, the permittee shall be required to reimburse the costs and reasonable expenses incurred by the Agency for all activities related to the investigation and cleanup. These costs shall include, but not be limited to, inspections, investigations, analyses, personnel, direct and indirect costs, studies, assessments, reports, and review and evaluation of that data, as well as costs under the Agency's review of whether the quality of a restored or replaced water supply meets or exceeds the quality of the water supply before it was affected by the permittee. Costs shall be reimbursed to the Agency by the permittee within 30 calendar days after receipt of a written request for reimbursement by the Agency. For all costs that remain unpaid following 30 calendar days after receipt of a written request for reimbursement, the Agency may institute a civil action for cost recovery under subsection (e) of Section 1-101 of this Act. Failure to reimburse the Agency within 30 calendar days after receipt of the written request for
reimbursement is a violation of this Act. Reimbursement of costs collected under this subsection shall be deposited by the Agency into the Illinois Clean Water Fund.

Section 1-95. Plugging; restoration.

The permittee shall bear all costs related to plugging of the well and reclamation of the well site. If the permittee fails to plug the well in accordance with this Section, the owner of the well shall be responsible for complying with this Section.

(b) Prior to conducting high volume horizontal hydraulic fracturing operations at a well site, the permittee shall cause to be plugged all previously unplugged well bores within 750 feet of any part of the horizontal well bore that penetrated within 400 vertical feet of the formation that will be stimulated as part of the high volume horizontal hydraulic fracturing operations.

(c) For well sites where high volume horizontal hydraulic fracturing operations were permitted to occur, the operator shall restore any lands used by the operator other than the well site and production facility to a condition as closely approximating the pre-drilling conditions that existed before the land was disturbed for any stage of site preparation activities, drilling, and high volume horizontal hydraulic fracturing operations. Restoration shall be commenced within 6 months of completion of the well site and completed within 12 months. Restoration shall include, but is not limited to, repair of tile lines, repair of fences and barriers, mitigation of soil compaction and rutting, application of fertilizer or lime to restore the fertility of disturbed soil, and repair of soil conservation practices such as terraces and grassed waterways.

(d) Unless contractually agreed to the contrary by the permittee and surface owner, the permittee shall restore the well site and production facility in accordance with the applicable restoration requirements in subsection (c) of this Section and shall remove all equipment and materials involved in site preparation, drilling, and high volume horizontal hydraulic fracturing operations, including tank batteries, rock and concrete pads, oil field debris, injection and flow lines at or above the surface, electric power lines and poles extending on or above the surface, tanks, fluids, pipes at or above the surface, secondary containment measures, rock or concrete bases, drilling equipment and supplies, and any and all other equipment, facilities, or materials used during any stage of site preparation work,

"Working interest" means any interest in or any right to the production of oil and gas, excluding royalty or overriding royalty interests.

Section 2-15. Tax imposed.

(a) For oil and gas removed on or after July 1, 2013, there is hereby imposed a tax upon the severance and production of oil or gas from a well on a production unit in this State permitted, or required to be permitted, under the Illinois Hydraulic Fracturing Regulatory Act, for sale, transport, storage, profit, or commercial use. The tax shall be applied equally to all portions of the value of each barrel of oil severed and subject to such tax and to the value of the gas severed and subject to such tax. For a period of 24 months from the month in which oil or gas was first produced from the well, the rate of tax shall be 3% of the value of the oil or gas severed from the earth or water in this State. Thereafter, the rate of the tax shall be as follows:

(1) For oil:
   (A) where the average daily production from the well during the month is less than 25 barrels, 3% of the value of the oil severed from the earth or water;
   (B) where the average daily production from the well during the month is 25 or more barrels but less than 50 barrels, 4% of the value of the oil severed from the earth or water;
   (C) where the average daily production from the well during the month is 50 or more barrels but less than 100 barrels, 5% of the value of the oil severed from the earth or water; or

(D) where the average daily production from the well during the month is 100 or more barrels, 6% of the value of the oil severed from the earth or water.

(2) For gas, 6% of the value of the gas severed from the earth or water.

If a well is required to be permitted under the Illinois Hydraulic Fracturing Regulatory Act, the tax imposed by this Section applies, whether or not a permit was obtained.

(b) Oil produced from a well whose average daily production is 15 barrels or less for the 12-month period immediately preceding the production is exempt from the tax imposed by this Act.

(c) For the purposes of the tax imposed by this Act the amount of oil produced shall be measured or determined, in the case of oil, by tank tables, without deduction for overage or losses in handling. Allowance for any reasonable and bona fide deduction for basic sediment and water, and for correction of temperature to 60 degrees Fahrenheit will be allowed. For the purposes of the tax imposed by this Act the amount of gas produced shall be measured or determined, by meter readings showing 100% of the full volume expressed in cubic feet at a standard base and flowing temperature of 60 degrees Fahrenheit, and at the absolute pressure at which the gas is sold and purchased. Correction shall be made for pressure according to Boyle's law, and used for specific gravity according to the gravity at which the gas is sold and purchased.

(d) The following severance and production of gas shall be exempt from the tax imposed by this Act: gas injected into the earth for the purpose of lifting oil, recycling, or repressuring; gas used for fuel in connection with the operation and development for, or production of, oil or gas in the production unit where severed; and gas lawfully vented or flared; gas inadvertently lost on the production unit by reason of leaks, blowouts, or other accidental losses.

(e) All oil and gas removed from the premises where severed is subject to the tax imposed by this Act unless exempt under the terms of this Act.

(f) The liability for the tax accrues at the time the oil or gas is removed from the production unit.

Section 2-17. Local Workforce Tax Rate Reduction.

(a) The rate of tax imposed on working interest owners of a well under Section 2-15 of this Act shall be reduced by 0.25% for the life of the well when a minimum of 50% of the total workforce hours on the well site

New matter indicated by italics - deletions by strikeout
are performed by Illinois construction workers being paid wages equal to or exceeding the general prevailing rate of hourly wages.

(b) When more than one well is drilled on a well site, total workforce hours shall be determined on a well-by-well basis.

(c) Any operator that intends to claim the reduction provided for in this Section on his or her behalf, or on the behalf of the working interest owners, shall be responsible for obtaining from all construction contractors working on a well site, records to document the claim for the reduction in tax rate. Operators shall, at a minimum, obtain from construction contractors, in writing, the total number of construction workers that performed work under the contract, the number of Illinois construction workers that performed work under the contract, whether oral or written, between the operator and the construction contractor, the hours worked by each construction worker and the wage paid to each construction worker for the hours of work performed on the well site. The operator shall obtain and retain any other records the Department determines are necessary to verify a claim for a reduction in the tax. The operator shall make the records available to the Department upon request.

For the purposes of this Section, each construction contractor, upon written request from the operator, shall retain the following records: each worker's name, address, and telephone number, if available, years of residency in Illinois, the type of work the worker performs, the hourly wages paid each worker, and the number of hours worked by each worker for the term of the contract. The construction contractor shall retain any other records the Department determines are necessary to verify a claim for a reduction in the tax. The construction contractor shall make the records available to the operator and Department upon request. The operator and construction contractors shall retain the records for 3 years.

No later than the 6 months after the date of the first purchase of oil or gas from a well, the operator shall file with the Department, in the form and manner required by the Department, a report and documentation to support that the working interest owners qualify for the reduction in the rate of tax provided for in this Section. The report shall be signed by the operator, or an officer, employee, or agent of the contractor, and state under oath that he or she has examined the report and documentation and the report and documentation are true and accurate. The Department shall keep the records submitted in accordance with this subsection for a period of not less than 3 years from the date of filing.
(d) The Department shall notify the first purchaser and the operator when the working interest owners qualify for a reduction in the tax under this Section and state the amount of the reduction. The reduction shall be effective the date of first production. The first purchaser or operator may take a credit for any retroactive reduction in the tax rate on a return filed under Sections 2-45 and 2-50 of this Act.

(e) Reports shall be filed on forms furnished and prescribed by the Department and shall contain any other information as the Department may reasonably require.

Section 2-20. Taxable value; method of determining. The Department may determine the value of products severed from a production unit when the operator and purchaser are affiliated persons, when the sale and purchase of products is not an arm's length transaction, or when products are severed and removed from a production unit and a value is not established for those products. The value determined by the Department shall be commensurate with the actual price received for products of like quality, character, and use which are severed in the same field or area. If there are no sales of products of like quality, character, and use severed in the same field or area, then the Department shall establish a reasonable value based on sales of products of like quality, character, and use which are severed in other areas of the State, taking into consideration any other relevant factors.

Section 2-25. Withholding of tax. Any purchaser who makes a monetary payment to a producer for his or her portion of the value of products from a production unit shall withhold from such payment the amount of tax due from the producer. Any purchaser who pays any tax due from a producer shall be entitled to reimbursement from the producer for the tax so paid and may take credit for such amount from any monetary payment to the producer for the value of products. To the extent that a purchaser required to collect the tax imposed by this Act has actually collected that tax, such tax is held in trust for the benefit of the State of Illinois.

Section 2-30. Payment and collection of tax.

(a) For oil and gas removed on or after July 1, 2013, the tax incurred under this Act shall be due and payable on or before the last day of the month following the end of the month in which the oil or gas is removed from the production unit. The tax is upon the producers of such oil or gas in the proportion to their respective beneficial interests at the time of severance. The first purchaser of any oil or gas sold shall collect

New matter indicated by italics - deletions by strikeout
the amount of the tax due from the producers by deducting and withholding such amount from any payments made by such purchaser to the producers and shall remit the tax in this Act.

In the event the tax shall be withheld by a purchaser from payments due a producer and such purchaser fails to make payment of the tax to the State as required herein, the first purchaser shall be liable for the tax. However, in the event a first purchaser fails to pay the tax withheld from a producer's payment, the producer's interest remains subject to any lien filed pursuant to subsection (c) of this Section. A producer shall be entitled to bring an action against such purchaser to recover the amount of tax so withheld together with penalties and interest which may have accrued by failure to make such payment. A producer shall be entitled to all attorney fees and court costs incurred in such action. To the extent that a producer liable for the tax imposed by this Act collects the tax, and any penalties and interest, from a purchaser, such tax, penalties, and interest are held in trust by the producer for the benefit of the State of Illinois.

(b) For all production units a first purchaser begins to purchase oil or gas from on or after July 1, 2013, the first purchaser is required to withhold and remit the tax imposed by this Act to the Department from the oil and gas purchased from the production unit unless the first purchaser obtains from the operator an exemption certificate signed by the operator stating that the production unit is not subject to the tax imposed by this Act. The exemption certificate must include the following information:

(1) name and address of the operator;
(2) name of the production unit;
(3) number assigned to the production unit by the first purchaser, if available;
(4) legal description of the production unit; and
(5) a statement by the operator that the production unit is exempt from the tax imposed by the Illinois Hydraulic Fracturing Tax Act.

If a first purchaser obtains an exemption certificate that contains the required information and reasonably relies on the exemption certificate and it is subsequently determined by the Department that the production unit is subject to the tax imposed by this Act, the Department will collect any tax that is due from the operator and producers, and the first purchaser is relieved of any liability.

(c) Notwithstanding subsection (a) of this Section, the tax is a lien on the oil and gas from the time of severance from the land or under the

water until the tax and all penalties and interest are fully paid, and the State shall have a lien on all the oil or gas severed from the production unit in this State in the hands of the operator, any producer or the first or any subsequent purchaser thereof to secure the payment of the tax. If a lien is filed by the Department, the purchaser shall withhold from producers or operators the amount of tax, penalty and interest identified in the lien.

Section 2-35. Registration of purchasers. A person who engages in business as a purchaser of oil or gas in this State shall register with the Department. Application for a certificate of registration shall be made to the Department upon forms furnished by the Department and shall contain any reasonable information the Department may require. Upon receipt of the application for a certificate of registration in proper form, the Department shall issue to the applicant a certificate of registration.

Section 2-40. Inspection of records by the Department; subpoena power, contempt. The Department shall have the power to require any operator, producer, transporter, or person purchasing any oil or gas severed from the earth or water to furnish any additional information deemed to be necessary for the purpose of computing the amount of the tax, and for such purpose to examine the meter and other charts, books, records, and all files of such person, and for such purpose the Department shall have the power to issue subpoenas and examine witnesses under oath, and if any witness shall fail or refuse to appear at the request of the director, or refuses access to books, records, and files, the circuit court of the proper county, or the judge thereof, on application of the Department, shall compel obedience by proceedings for contempt, as in the case of disobedience of the requirements of a subpoena issued from such court or a refusal to testify therein.

Section 2-45. Purchaser's return and tax remittance. Each purchaser shall make a return to the Department showing the quantity of oil or gas purchased during the month for which the return is filed, the price paid therefore, total value, the name and address of the operator or other person from whom the same was purchased, a description of the production unit in the manner prescribed by the Department from which such oil or gas was severed and the amount of tax due from each production unit for each calendar month. All taxes due, or to be remitted, by the purchaser shall accompany this return. The return shall be filed on or before the last day of the month after the calendar month for which the return is required. The Department may require any additional report or information it may deem necessary for the proper administration of this Act.
Such returns shall be filed electronically in the manner prescribed by the Department. Purchasers shall make all payments of that tax to the Department by electronic funds transfer unless, as provided by rule, the Department grants an exception upon petition of a purchaser. Purchasers' returns must be accompanied by appropriate computer generated magnetic media supporting schedule data in the format required by the Department, unless, as provided by rule, the Department grants an exception upon petition of a purchaser.

Section 2-50. Operator returns; payment of tax.
(a) If, on or after July 1, 2013, oil or gas is transported off the production unit where severed by the operator, used on the production unit where severed, or if the manufacture and conversion of oil and gas into refined products occurs on the production unit where severed, the operator is responsible for remitting the tax imposed under subsections (a) of Section 15, on or before the last day of the month following the end of the calendar month in which the oil and gas is removed from the production unit, and such payment shall be accompanied by a return to the Department showing the gross quantity of oil or gas removed during the month for which the return is filed, the price paid therefore, and if no price is paid therefor, the value of the oil and gas, a description of the production unit from which such oil or gas was severed, and the amount of tax. The Department may require any additional information it may deem necessary for the proper administration of this Act.

(b) Operators shall file all returns electronically in the manner prescribed by the Department unless, as provided by rule, the Department grants an exception upon petition of an operator. Operators shall make all payments of that tax to the Department by electronic funds transfer unless, as provided by rule, the Department grants an exception upon petition of an operator. Operators' returns must be accompanied by appropriate computer generated magnetic media supporting schedule data in the format required by the Department, unless, as provided by rule, the Department grants an exception upon petition of a purchaser.

(c) Any operator who makes a monetary payment to a producer for his or her portion of the value of products from a production unit shall withhold from such payment the amount of tax due from the producer. Any operator who pays any tax due from a producer shall be entitled to reimbursement from the producer for the tax so paid and may take credit for such amount from any monetary payment to the producer for the value of products. To the extent that an operator required to collect the tax

imposed by this Act has actually collected that tax, such tax is held in trust for the benefit of the State of Illinois.

(d) In the event the operator fails to make payment of the tax to the State as required herein, the operator shall be liable for the tax. A producer shall be entitled to bring an action against such operator to recover the amount of tax so withheld together with penalties and interest which may have accrued by failure to make such payment. A producer shall be entitled to all attorney fees and court costs incurred in such action. To the extent that a producer liable for the tax imposed by this Act collects the tax, and any penalties and interest, from an operator, such tax, penalties, and interest are held in trust by the producer for the benefit of the State of Illinois.

(e) When the title to any oil or gas severed from the earth or water is in dispute and the operator of such oil or gas is withholding payments on account of litigation, or for any other reason, such operator is hereby authorized, empowered and required to deduct from the gross amount thus held the amount of the tax imposed and to make remittance thereof to the Department as provided in this Section.

(f) An operator required to file a return and pay the tax under this Section shall register with the Department. Application for a certificate of registration shall be made to the Department upon forms furnished by the Department and shall contain any reasonable information the Department may require. Upon receipt of the application for a certificate of registration in proper form, the Department shall issue to the applicant a certificate of registration.

(g) If oil or gas is transported off the production unit where severed by the operator and sold to a purchaser or refiner, the State shall have a lien on all the oil or gas severed from the production unit in this State in the hands of the operator, the first or any subsequent purchaser thereof, or refiner to secure the payment of the tax. If a lien is filed by the Department, the purchaser or refiner shall withhold from the operator the amount of tax, penalty and interest identified in the lien.

Section 2-55. Tax withholding and remittance when title to minerals disputed. When the title to any oil or gas severed from the earth or water is in dispute and the purchaser of such oil or gas is withholding payments on account of litigation, or for any other reason, such purchaser is hereby authorized, empowered and required to deduct from the gross amount thus held the amount of the tax imposed and to make remittance thereof to the Department as provided in this Act.

Section 2-60. Transporters. When requested by the Department, all transporters of oil or gas out of, within or across the State of Illinois shall be required to furnish the Department such information relative to the transportation of such oil or gas as the Department may require. The Department shall have authority to inspect bills of lading, waybills, meter, or other charts, documents, books and records as may relate to the transportation of oil or gas in the hands of each transporter. The Department shall further be empowered to demand the production of such bills of lading, waybills, charts, documents, books, and records relating to the transportation of oil or gas at any point in the State of Illinois.

Section 2-65. Rulemaking. The Department is hereby authorized to adopt any rules as may be necessary to administer and enforce the provisions of this Act.

certified under item (5) of Section 4-134 of the Illinois Pension Code; and
(m) made for the taxing district to pay interest or principal on general
obligation bonds issued pursuant to Section 19-3.10 of the School Code.

"Aggregate extension" for all taxing districts to which this Law
applies in accordance with paragraph (2) of subsection (e) of Section 18-
213 means the annual corporate extension for the taxing district and those
special purpose extensions that are made annually for the taxing district,
excluding special purpose extensions: (a) made for the taxing district to
pay interest or principal on general obligation bonds that were approved by
referendum; (b) made for any taxing district to pay interest or principal on
general obligation bonds issued before the effective date of this
amendatory Act of 1997; (c) made for any taxing district to pay interest or
principal on bonds issued to refund or continue to refund those bonds
issued before the effective date of this amendatory Act of 1997; (d) made
for any taxing district to pay interest or principal on bonds issued to refund
or continue to refund bonds issued after the effective date of this
amendatory Act of 1997 if the bonds were approved by referendum after
the effective date of this amendatory Act of 1997; (e) made for any taxing

district to pay interest or principal on revenue bonds issued before the effective date of this amendatory Act of 1997 for payment of which a property tax levy or the full faith and credit of the unit of local government is pledged; however, a tax for the payment of interest or principal on those bonds shall be made only after the governing body of the unit of local government finds that all other sources for payment are insufficient to make those payments; (f) made for payments under a building commission lease when the lease payments are for the retirement of bonds issued by the commission before the effective date of this amendatory Act of 1997 to pay for the building project; (g) made for payments due under installment contracts entered into before the effective date of this amendatory Act of 1997; (h) made for payments of principal and interest on limited bonds, as defined in Section 3 of the Local Government Debt Reform Act, in an amount not to exceed the debt service extension base less the amount in items (b), (c), and (e) of this definition for non-referendum obligations, except obligations initially issued pursuant to referendum; (i) made for payments of principal and interest on bonds issued under Section 15 of the Local Government Debt Reform Act; (j) made for a qualified airport authority to pay interest or principal on general obligation bonds issued for the purpose of paying obligations due under, or financing airport facilities required to be acquired, constructed, installed or equipped pursuant to, contracts entered into before March 1, 1996 (but not including any amendments to such a contract taking effect on or after that date); (k) made to fund expenses of providing joint recreational programs for the handicapped under Section 5-8 of the Park District Code or Section 11-95-14 of the Illinois Municipal Code; and (l) made for contributions to a firefighter's pension fund created under Article 4 of the Illinois Pension Code, to the extent of the amount certified under item (5) of Section 4-134 of the Illinois Pension Code.

"Debt service extension base" means an amount equal to that portion of the extension for a taxing district for the 1994 levy year, or for those taxing districts subject to this Law in accordance with Section 18-213, except for those subject to paragraph (2) of subsection (e) of Section 18-213, for the levy year in which the referendum making this Law applicable to the taxing district is held, or for those taxing districts subject to this Law in accordance with paragraph (2) of subsection (e) of Section 18-213 for the 1996 levy year, constituting an extension for payment of principal and interest on bonds issued by the taxing district without referendum, but not including excluded non-referendum bonds. districts (i) that were first subject to this Law in 1991 or 1995 and (ii) whose extension for the 1994 levy year for the payment of principal and interest on bonds issued by the park district without referendum (but not including excluded non-referendum bonds) was less than 51% of the amount for the 1991 levy year constituting an extension for payment of principal and interest on bonds issued by the park district without referendum (but not including excluded non-referendum bonds), "debt service extension base" means an amount equal to that portion of the extension for the 1991 levy year constituting an extension for payment of principal and interest on bonds issued by the park district without referendum (but not including excluded non-referendum bonds). A debt service extension base established or increased at any time pursuant to any provision of this Law, except Section 18-212, shall be increased each year commencing with the later of (i) the 2009 levy year or (ii) the first levy year in which this Law becomes applicable to the taxing district, by the lesser of 5% or the percentage increase in the Consumer Price Index during the 12-month calendar year preceding the levy year. The debt service extension base may be established or increased as provided under Section 18-212. "Excluded non-referendum bonds" means (i) bonds authorized by Public Act 88-503 and issued under Section 20a of the Chicago Park District Act for aquarium and museum projects; (ii) bonds issued under Section 15 of the Local Government Debt Reform Act; or (iii) refunding obligations issued to refund or to continue to refund obligations initially issued pursuant to referendum.

"Special purpose extensions" include, but are not limited to, extensions for levies made on an annual basis for unemployment and workers' compensation, self-insurance, contributions to pension plans, and extensions made pursuant to Section 6-601 of the Illinois Highway Code for a road district's permanent road fund whether levied annually or not. The extension for a special service area is not included in the aggregate extension.

"Aggregate extension base" means the taxing district's last preceding aggregate extension as adjusted under Sections 18-135, 18-215, and 18-230. An adjustment under Section 18-135 shall be made for the 2007 levy year and all subsequent levy years whenever one or more counties within which a taxing district is located (i) used estimated valuations or rates when extending taxes in the taxing district for the last preceding levy year that resulted in the over or under extension of taxes, or (ii) increased or decreased the tax extension for the last preceding levy year.

year as required by Section 18-135(c). Whenever an adjustment is required under Section 18-135, the aggregate extension base of the taxing district shall be equal to the amount that the aggregate extension of the taxing district would have been for the last preceding levy year if either or both (i) actual, rather than estimated, valuations or rates had been used to calculate the extension of taxes for the last levy year, or (ii) the tax extension for the last preceding levy year had not been adjusted as required by subsection (c) of Section 18-135.

Notwithstanding any other provision of law, for levy year 2012, the aggregate extension base for West Northfield School District No. 31 in Cook County shall be $12,654,592.

"Levy year" has the same meaning as "year" under Section 1-155.

"New property" means (i) the assessed value, after final board of review or board of appeals action, of new improvements or additions to existing improvements on any parcel of real property that increase the assessed value of that real property during the levy year multiplied by the equalization factor issued by the Department under Section 17-30, (ii) the assessed value, after final board of review or board of appeals action, of real property not exempt from real estate taxation, which real property was exempt from real estate taxation for any portion of the immediately preceding levy year, multiplied by the equalization factor issued by the Department under Section 17-30, including the assessed value, upon final stabilization of occupancy after new construction is complete, of any real property located within the boundaries of an otherwise or previously exempt military reservation that is intended for residential use and owned by or leased to a private corporation or other entity, and (iii) in counties that classify in accordance with Section 4 of Article IX of the Illinois Constitution, an incentive property's additional assessed value resulting from a scheduled increase in the level of assessment as applied to the first year final board of review market value, and (iv) any increase in assessed value due to oil or gas production from an oil or gas well required to be permitted under the Hydraulic Fracturing Regulatory Act that was not produced in or accounted for during the previous levy year. In addition, the county clerk in a county containing a population of 3,000,000 or more shall include in the 1997 recovered tax increment value for any school district, any recovered tax increment value that was applicable to the 1995 tax year calculations.

"Qualified airport authority" means an airport authority organized under the Airport Authorities Act and located in a county bordering on the
State of Wisconsin and having a population in excess of 200,000 and not greater than 500,000.

"Recovered tax increment value" means, except as otherwise provided in this paragraph, the amount of the current year's equalized assessed value, in the first year after a municipality terminates the designation of an area as a redevelopment project area previously established under the Tax Increment Allocation Development Act in the Illinois Municipal Code, previously established under the Industrial Jobs Recovery Law in the Illinois Municipal Code, previously established under the Economic Development Project Area Tax Increment Act of 1995, or previously established under the Economic Development Area Tax Increment Allocation Act, of each taxable lot, block, tract, or parcel of real property in the redevelopment project area over and above the initial equalized assessed value of each property in the redevelopment project area. For the taxes which are extended for the 1997 levy year, the recovered tax increment value for a non-home rule taxing district that first became subject to this Law for the 1995 levy year because a majority of its 1994 equalized assessed value was in an affected county or counties shall be increased if a municipality terminated the designation of an area in 1993 as a redevelopment project area previously established under the Tax Increment Allocation Development Act in the Illinois Municipal Code, previously established under the Industrial Jobs Recovery Law in the Illinois Municipal Code, or previously established under the Economic Development Area Tax Increment Allocation Act, by an amount equal to the 1994 equalized assessed value of each taxable lot, block, tract, or parcel of real property in the redevelopment project area over and above the initial equalized assessed value of each property in the redevelopment project area. In the first year after a municipality removes a taxable lot, block, tract, or parcel of real property from a redevelopment project area established under the Tax Increment Allocation Development Act in the Illinois Municipal Code, the Industrial Jobs Recovery Law in the Illinois Municipal Code, or the Economic Development Area Tax Increment Allocation Act, "recovered tax increment value" means the amount of the current year's equalized assessed value of each taxable lot, block, tract, or parcel of real property removed from the redevelopment project area over and above the initial equalized assessed value of that real property before removal from the redevelopment project area.

Except as otherwise provided in this Section, "limiting rate" means a fraction the numerator of which is the last preceding aggregate extension
base times an amount equal to one plus the extension limitation defined in this Section and the denominator of which is the current year's equalized assessed value of all real property in the territory under the jurisdiction of the taxing district during the prior levy year. For those taxing districts that reduced their aggregate extension for the last preceding levy year, the highest aggregate extension in any of the last 3 preceding levy years shall be used for the purpose of computing the limiting rate. The denominator shall not include new property or the recovered tax increment value. If a new rate, a rate decrease, or a limiting rate increase has been approved at an election held after March 21, 2006, then (i) the otherwise applicable limiting rate shall be increased by the amount of the new rate or shall be reduced by the amount of the rate decrease, as the case may be, or (ii) in the case of a limiting rate increase, the limiting rate shall be equal to the rate set forth in the proposition approved by the voters for each of the years specified in the proposition, after which the limiting rate of the taxing district shall be calculated as otherwise provided. In the case of a taxing district that obtained referendum approval for an increased limiting rate on March 20, 2012, the limiting rate for tax year 2012 shall be the rate that generates the approximate total amount of taxes extendable for that tax year, as set forth in the proposition approved by the voters; this rate shall be the final rate applied by the county clerk for the aggregate of all capped funds of the district for tax year 2012.

Section 5-20. The State Revenue Sharing Act is amended by changing Section 12 as follows:

Sec. 12. Personal Property Tax Replacement Fund. There is hereby created the Personal Property Tax Replacement Fund, a special fund in the State Treasury into which shall be paid all revenue realized:

(a) all amounts realized from the additional personal property tax replacement income tax imposed by subsections (c) and (d) of Section 201 of the Illinois Income Tax Act, except for those amounts deposited into the Income Tax Refund Fund pursuant to subsection (c) of Section 901 of the Illinois Income Tax Act; and

(b) all amounts realized from the additional personal property tax replacement invested capital taxes imposed by Section 2a.1 of the Messages Tax Act, Section 2a.1 of the Gas Revenue Tax Act, Section 2a.1 of the Public Utilities Revenue Act, and Section 3 of the Water Company Invested Capital Tax Act, and amounts payable to the Department of Revenue under the Telecommunications Infrastructure Maintenance Fee Act.

As soon as may be after the end of each month, the Department of Revenue shall certify to the Treasurer and the Comptroller the amount of all refunds paid out of the General Revenue Fund through the preceding month on account of overpayment of liability on taxes paid into the Personal Property Tax Replacement Fund. Upon receipt of such certification, the Treasurer and the Comptroller shall transfer the amount so certified from the Personal Property Tax Replacement Fund into the General Revenue Fund.

The payments of revenue into the Personal Property Tax Replacement Fund shall be used exclusively for distribution to taxing districts, regional offices and officials for fiscal years 2012 and 2013 only, and local officials as provided in this Section and in the School Code, payment of the ordinary and contingent expenses of the Property Tax Appeal Board, payment of the expenses of the Department of Revenue incurred in administering the collection and distribution of monies paid into the Personal Property Tax Replacement Fund and transfers due to
refunds to taxpayers for overpayment of liability for taxes paid into the Personal Property Tax Replacement Fund.

In addition, moneys in the Personal Property Tax Replacement Fund may be used to pay any of the following: (i) salary, stipends, and additional compensation as provided by law for chief election clerks, county clerks, and county recorders; (ii) costs associated with regional offices of education and educational service centers; (iii) reimbursements payable by the State Board of Elections under Section 4-25, 5-35, 6-71, 13-10, 13-10a, or 13-11 of the Election Code; and (iv) expenses of the Illinois Educational Labor Relations Board.

As soon as may be after the effective date of this amendatory Act of 1980, the Department of Revenue shall certify to the Treasurer the amount of net replacement revenue paid into the General Revenue Fund prior to that effective date from the additional tax imposed by Section 2a.1 of the Messages Tax Act; Section 2a.1 of the Gas Revenue Tax Act; Section 2a.1 of the Public Utilities Revenue Act; Section 3 of the Water Company Invested Capital Tax Act; amounts collected by the Department of Revenue under the Telecommunications Infrastructure Maintenance Fee Act; and the additional personal property tax replacement income tax imposed by the Illinois Income Tax Act, as amended by Public Act 81-1st Special Session-1. Net replacement revenue shall be defined as the total amount paid into and remaining in the General Revenue Fund as a result of those Acts minus the amount outstanding and obligated from the General Revenue Fund in state vouchers or warrants prior to the effective date of this amendatory Act of 1980 as refunds to taxpayers for overpayment of liability under those Acts.

All interest earned by monies accumulated in the Personal Property Tax Replacement Fund shall be deposited in such Fund. All amounts allocated pursuant to this Section are appropriated on a continuing basis.

Prior to December 31, 1980, as soon as may be after the end of each quarter beginning with the quarter ending December 31, 1979, and on and after December 31, 1980, as soon as may be after January 1, March 1, April 1, May 1, July 1, August 1, October 1 and December 1 of each year, the Department of Revenue shall allocate to each taxing district as defined in Section 1-150 of the Property Tax Code, in accordance with the provisions of paragraph (2) of this Section the portion of the funds held in the Personal Property Tax Replacement Fund which is required to be distributed, as provided in paragraph (1), for each quarter. Provided, however, under no circumstances shall any taxing district during each of

the first two years of distribution of the taxes imposed by this amendatory Act of 1979 be entitled to an annual allocation which is less than the funds such taxing district collected from the 1978 personal property tax. Provided further that under no circumstances shall any taxing district during the third year of distribution of the taxes imposed by this amendatory Act of 1979 receive less than 60% of the funds such taxing district collected from the 1978 personal property tax. In the event that the total of the allocations made as above provided for all taxing districts, during either of such 3 years, exceeds the amount available for distribution the allocation of each taxing district shall be proportionately reduced. Except as provided in Section 13 of this Act, the Department shall then certify, pursuant to appropriation, such allocations to the State Comptroller who shall pay over to the several taxing districts the respective amounts allocated to them.

Any township which receives an allocation based in whole or in part upon personal property taxes which it levied pursuant to Section 6-507 or 6-512 of the Illinois Highway Code and which was previously required to be paid over to a municipality shall immediately pay over to that municipality a proportionate share of the personal property replacement funds which such township receives.

Any municipality or township, other than a municipality with a population in excess of 500,000, which receives an allocation based in whole or in part on personal property taxes which it levied pursuant to Sections 3-1, 3-4 and 3-6 of the Illinois Local Library Act and which was previously required to be paid over to a public library shall immediately pay over to that library a proportionate share of the personal property tax replacement funds which such municipality or township receives; provided that if such a public library has converted to a library organized under The Illinois Public Library District Act, regardless of whether such conversion has occurred on, after or before January 1, 1988, such proportionate share shall be immediately paid over to the library district which maintains and operates the library. However, any library that has converted prior to January 1, 1988, and which hitherto has not received the personal property tax replacement funds, shall receive such funds commencing on January 1, 1988.

Any township which receives an allocation based in whole or in part on personal property taxes which it levied pursuant to Section 1c of the Public Graveyards Act and which taxes were previously required to be paid over to or used for such public cemetery or cemeteries shall

immediately pay over to or use for such public cemetery or cemeteries a proportionate share of the personal property tax replacement funds which the township receives.

Any taxing district which receives an allocation based in whole or in part upon personal property taxes which it levied for another governmental body or school district in Cook County in 1976 or for another governmental body or school district in the remainder of the State in 1977 shall immediately pay over to that governmental body or school district the amount of personal property replacement funds which such governmental body or school district would receive directly under the provisions of paragraph (2) of this Section, had it levied its own taxes.

(1) The portion of the Personal Property Tax Replacement Fund required to be distributed as of the time allocation is required to be made shall be the amount available in such Fund as of the time allocation is required to be made.

The amount available for distribution shall be the total amount in the fund at such time minus the necessary administrative and other authorized expenses as limited by the appropriation and the amount determined by: (a) $2.8 million for fiscal year 1981; (b) for fiscal year 1982, .54% of the funds distributed from the fund during the preceding fiscal year; (c) for fiscal year 1983 through fiscal year 1988, .54% of the funds distributed from the fund during the preceding fiscal year less .02% of such fund for fiscal year 1983 and less .02% of such funds for each fiscal year thereafter; (d) for fiscal year 1989 through fiscal year 2011 no more than 105% of the actual administrative expenses of the prior fiscal year; (e) for fiscal year 2012 and beyond, a sufficient amount to pay (i) stipends, additional compensation, salary reimbursements, and other amounts directed to be paid out of this Fund for local officials as authorized or required by statute and (ii) no more than 105% of the actual administrative expenses of the prior fiscal year, including payment of the ordinary and contingent expenses of the Property Tax Appeal Board and payment of the expenses of the Department of Revenue incurred in administering the collection and distribution of moneys paid into the Fund; or (f) for fiscal years 2012 and 2013 only, a sufficient amount to pay stipends, additional compensation, salary reimbursements, and other amounts directed to be paid out of this Fund for regional offices and officials as authorized or required by statute. Such portion of

New matter indicated by italics - deletions by strikeout
the fund shall be determined after the transfer into the General Revenue Fund due to refunds, if any, paid from the General Revenue Fund during the preceding quarter. If at any time, for any reason, there is insufficient amount in the Personal Property Tax Replacement Fund for payments for regional offices and officials or local officials or payment of costs of administration or for transfers due to refunds at the end of any particular month, the amount of such insufficiency shall be carried over for the purposes of payments for regional offices and officials, local officials, transfers into the General Revenue Fund, and costs of administration to the following month or months. Net replacement revenue held, and defined above, shall be transferred by the Treasurer and Comptroller to the Personal Property Tax Replacement Fund within 10 days of such certification.

(2) Each quarterly allocation shall first be apportioned in the following manner: 51.65% for taxing districts in Cook County and 48.35% for taxing districts in the remainder of the State.

The Personal Property Replacement Ratio of each taxing district outside Cook County shall be the ratio which the Tax Base of that taxing district bears to the Downstate Tax Base. The Tax Base of each taxing district outside of Cook County is the personal property tax collections for that taxing district for the 1977 tax year. The Downstate Tax Base is the personal property tax collections for all taxing districts in the State outside of Cook County for the 1977 tax year. The Department of Revenue shall have authority to review for accuracy and completeness the personal property tax collections for each taxing district outside Cook County for the 1977 tax year.

The Personal Property Replacement Ratio of each Cook County taxing district shall be the ratio which the Tax Base of that taxing district bears to the Cook County Tax Base. The Tax Base of each Cook County taxing district is the personal property tax collections for that taxing district for the 1976 tax year. The Cook County Tax Base is the personal property tax collections for all taxing districts in Cook County for the 1976 tax year. The Department of Revenue shall have authority to review for accuracy and completeness the personal property tax collections for each taxing district within Cook County for the 1976 tax year.

For all purposes of this Section 12, amounts paid to a taxing district for such tax years as may be applicable by a foreign corporation under the provisions of Section 7-202 of the Public Utilities Act, as
amended, shall be deemed to be personal property taxes collected by such taxing district for such tax years as may be applicable. The Director shall determine from the Illinois Commerce Commission, for any tax year as may be applicable, the amounts so paid by any such foreign corporation to any and all taxing districts. The Illinois Commerce Commission shall furnish such information to the Director. For all purposes of this Section 12, the Director shall deem such amounts to be collected personal property taxes of each such taxing district for the applicable tax year or years.

Taxing districts located both in Cook County and in one or more other counties shall receive both a Cook County allocation and a Downstate allocation determined in the same way as all other taxing districts.

If any taxing district in existence on July 1, 1979 ceases to exist, or discontinues its operations, its Tax Base shall thereafter be deemed to be zero. If the powers, duties and obligations of the discontinued taxing district are assumed by another taxing district, the Tax Base of the discontinued taxing district shall be added to the Tax Base of the taxing district assuming such powers, duties and obligations.

If two or more taxing districts in existence on July 1, 1979, or a successor or successors thereto shall consolidate into one taxing district, the Tax Base of such consolidated taxing district shall be the sum of the Tax Bases of each of the taxing districts which have consolidated.

If a single taxing district in existence on July 1, 1979, or a successor or successors thereto shall be divided into two or more separate taxing districts, the tax base of the taxing district so divided shall be allocated to each of the resulting taxing districts in proportion to the then current equalized assessed value of each resulting taxing district.

If a portion of the territory of a taxing district is disconnected and annexed to another taxing district of the same type, the Tax Base of the taxing district from which disconnection was made shall be reduced in proportion to the then current equalized assessed value of the disconnected territory as compared with the then current equalized assessed value within the entire territory of the taxing district prior to disconnection, and the amount of such reduction shall be added to the Tax Base of the taxing district to which annexation is made.

If a community college district is created after July 1, 1979, beginning on the effective date of this amendatory Act of 1995, its Tax Base shall be 3.5% of the sum of the personal property tax collected for the 1977 tax year within the territorial jurisdiction of the district.

New matter indicated by italics - deletions by strikeout
The amounts allocated and paid to taxing districts pursuant to the provisions of this amendatory Act of 1979 shall be deemed to be substitute revenues for the revenues derived from taxes imposed on personal property pursuant to the provisions of the "Revenue Act of 1939" or "An Act for the assessment and taxation of private car line companies", approved July 22, 1943, as amended, or Section 414 of the Illinois Insurance Code, prior to the abolition of such taxes and shall be used for the same purposes as the revenues derived from ad valorem taxes on real estate.

Monies received by any taxing districts from the Personal Property Tax Replacement Fund shall be first applied toward payment of the proportionate amount of debt service which was previously levied and collected from extensions against personal property on bonds outstanding as of December 31, 1978 and next applied toward payment of the proportionate share of the pension or retirement obligations of the taxing district which were previously levied and collected from extensions against personal property. For each such outstanding bond issue, the County Clerk shall determine the percentage of the debt service which was collected from extensions against real estate in the taxing district for 1978 taxes payable in 1979, as related to the total amount of such levies and collections from extensions against both real and personal property. For 1979 and subsequent years' taxes, the County Clerk shall levy and extend taxes against the real estate of each taxing district which will yield the said percentage or percentages of the debt service on such outstanding bonds. The balance of the amount necessary to fully pay such debt service shall constitute a first and prior lien upon the monies received by each such taxing district through the Personal Property Tax Replacement Fund and shall be first applied or set aside for such purpose. In counties having fewer than 3,000,000 inhabitants, the amendments to this paragraph as made by this amendatory Act of 1980 shall be first applicable to 1980 taxes to be collected in 1981.

Sec. 5i. Transfers. Each year, the Governor's Office of Management and Budget shall, at the time set forth for the submission of the State budget under Section 50-5 of the State Budget Law, provide to the Chairperson and the Minority Spokesperson of each of the appropriations committees of the House of Representatives and the Senate a report of (i) all full fiscal year transfers from State general funds to any other special fund of the State in the previous fiscal year and during the current fiscal year to date, and (ii) all projected full fiscal year transfers from State general funds to those funds for the remainder of the current fiscal year and the next fiscal year, based on estimates prepared by the Governor's Office of Management and Budget. The report shall include a detailed summary of the estimates upon which the projected transfers are based. The report shall also indicate, for each transfer:

(1) whether or not there is statutory authority for the transfer;

(2) if there is statutory authority for the transfer, whether that statutory authority exists for the next fiscal year; and

(3) whether there is debt service associated with the transfer.

The General Assembly shall consider the report in the appropriations process.

Sec. 6z-16. Illinois Tax Increment Fund.

(a) The Illinois Tax Increment Fund is hereby created in the State Treasury. All tax revenues which by law are required to be deposited in the Illinois Tax Increment Fund shall be paid into the Illinois Tax Increment Fund. All tax revenues paid into the Illinois Tax Increment Fund shall be promptly invested by the State Treasurer in accordance with law. Three percent of all deposits into the Illinois Tax Increment Fund shall be appropriated to the Illinois Department of Revenue to pay costs incurred by the Department in administering and enforcing the Tax Increment Allocation Redevelopment Act. Appropriations from the Illinois Tax Increment Fund shall also be made for proportional distributions to municipalities. If no appropriations are made during any fiscal year for distribution to municipalities, this Section shall constitute an irrevocable and continuing appropriation for the distribution of those funds, including those funds transferred under subsection (b) of this Section, in accordance with the provisions of the Tax Increment Allocation Redevelopment Act.
Interest and other earnings accruing or received upon amounts in the Illinois Tax Increment Fund shall be credited to and paid into the Illinois Tax Increment Fund, and shall be used to pay amounts owing to eligible municipalities pursuant to Sections 11-74.4-8a and 11-74.4-3(i), but only to the extent there are not otherwise sufficient funds in such Illinois Tax Increment Fund to pay all amounts so due.

(b) Prior to January 31, 1993, the Comptroller and the Treasurer shall transfer $9,000,000 from the General Revenue Fund to the Illinois Tax Increment Fund for distribution to municipalities within 60 days after the effective date of this amendatory Act of 1993.

(c) Notwithstanding any other provision of law, on December 31, 2013, or as soon thereafter as practical, the State Comptroller shall direct and the State Treasurer shall transfer the remaining balance from the Illinois Tax Increment Fund into the General Revenue Fund. Sec. 9. Except as to motor vehicles, watercraft, aircraft, and trailers that are required to be registered with an agency of this State, each retailer required or authorized to collect the tax imposed by this Act shall pay to the Department the amount of such tax (except as otherwise provided) at the time when he is required to file his return for the period during which such tax was collected, less a discount of 2.1% prior to January 1, 1990, and 1.75% on and after January 1, 1990, or $5 per calendar year, whichever is greater, which is allowed to reimburse the retailer for expenses incurred in collecting the tax, keeping records, preparing and filing returns, remitting the tax and supplying data to the Department on request. In the case of retailers who report and pay the tax on a transaction by transaction basis, as provided in this Section, such discount shall be taken with each such tax remittance instead of when such retailer files his periodic return. A retailer need not remit that part of any tax collected by him to the extent that he is required to remit and does remit the tax imposed by the Retailers' Occupation Tax Act, with respect to the sale of the same property.

Where such tangible personal property is sold under a conditional sales contract, or under any other form of sale wherein the payment of the principal sum, or a part thereof, is extended beyond the close of the period for which the return is filed, the retailer, in collecting the tax (except as to motor vehicles, watercraft, aircraft, and trailers that are required to be registered with an agency of this State), may collect for each tax return period, only the tax applicable to that part of the selling price actually received during such tax return period.

Except as provided in this Section, on or before the twentieth day of each calendar month, such retailer shall file a return for the preceding calendar month. Such return shall be filed on forms prescribed by the Department and shall furnish such information as the Department may reasonably require.

The Department may require returns to be filed on a quarterly basis. If so required, a return for each calendar quarter shall be filed on or before the twentieth day of the calendar month following the end of such calendar quarter. The taxpayer shall also file a return with the Department for each of the first two months of each calendar quarter, on or before the twentieth day of the following calendar month, stating:

1. The name of the seller;
2. The address of the principal place of business from which he engages in the business of selling tangible personal property at retail in this State;
3. The total amount of taxable receipts received by him during the preceding calendar month from sales of tangible personal property by him during such preceding calendar month, including receipts from charge and time sales, but less all deductions allowed by law;
4. The amount of credit provided in Section 2d of this Act;
5. The amount of tax due;
5-5. The signature of the taxpayer; and
6. Such other reasonable information as the Department may require.

If a taxpayer fails to sign a return within 30 days after the proper notice and demand for signature by the Department, the return shall be considered valid and any amount shown to be due on the return shall be deemed assessed.

Beginning October 1, 1993, a taxpayer who has an average monthly tax liability of $150,000 or more shall make all payments required by rules of the Department by electronic funds transfer. Beginning October 1, 1994, a taxpayer who has an average monthly tax liability of $100,000 or more shall make all payments required by rules of the Department by electronic funds transfer. Beginning October 1, 1995, a taxpayer who has an average monthly tax liability of $50,000 or more shall make all payments required by rules of the Department by electronic funds transfer. Beginning October 1, 2000, a taxpayer who has an annual tax liability of $200,000 or more shall make all payments required by rules of the Department by electronic funds transfer. The term "annual tax liability" shall be the sum of the taxpayer's liabilities under this Act, and under all other State and local occupation and use tax laws administered by the Department, for the immediately preceding calendar year. The term "average monthly tax liability" means the sum of the taxpayer's liabilities under this Act, and under all other State and local occupation and use tax laws administered by the Department, for the immediately preceding calendar year divided by 12. Beginning on October 1, 2002, a taxpayer who has a tax liability in the amount set forth in subsection (b) of Section 2505-210 of the Department of Revenue Law shall make all payments required by rules of the Department by electronic funds transfer.
Before August 1 of each year beginning in 1993, the Department shall notify all taxpayers required to make payments by electronic funds transfer. All taxpayers required to make payments by electronic funds transfer shall make those payments for a minimum of one year beginning on October 1.

Any taxpayer not required to make payments by electronic funds transfer may make payments by electronic funds transfer with the permission of the Department.

All taxpayers required to make payment by electronic funds transfer and any taxpayers authorized to voluntarily make payments by electronic funds transfer shall make those payments in the manner authorized by the Department.

The Department shall adopt such rules as are necessary to effectuate a program of electronic funds transfer and the requirements of this Section.

Before October 1, 2000, if the taxpayer's average monthly tax liability to the Department under this Act, the Retailers' Occupation Tax Act, the Service Occupation Tax Act, the Service Use Tax Act was $10,000 or more during the preceding 4 complete calendar quarters, he shall file a return with the Department each month by the 20th day of the month next following the month during which such tax liability is incurred and shall make payments to the Department on or before the 7th, 15th, 22nd and last day of the month during which such liability is incurred. On and after October 1, 2000, if the taxpayer's average monthly tax liability to the Department under this Act, the Retailers' Occupation Tax Act, the Service Occupation Tax Act, and the Service Use Tax Act was $20,000 or more during the preceding 4 complete calendar quarters, he shall file a return with the Department each month by the 20th day of the month next following the month during which such tax liability is incurred and shall make payment to the Department on or before the 7th, 15th, 22nd and last day of the month during which such liability is incurred. If the month during which such tax liability is incurred began prior to January 1, 1985, each payment shall be in an amount equal to 1/4 of the taxpayer's actual liability for the month or an amount set by the Department not to exceed 1/4 of the average monthly liability of the taxpayer to the Department for the preceding 4 complete calendar quarters (excluding the month of highest liability and the month of lowest liability in such 4 quarter period). If the month during which such tax liability is incurred begins on or after January 1, 1985, and prior to January 1, 1987, each payment shall be in an

New matter indicated by italics - deletions by strikeout
amount equal to 22.5% of the taxpayer's actual liability for the month or 27.5% of the taxpayer's liability for the same calendar month of the preceding year. If the month during which such tax liability is incurred begins on or after January 1, 1987, and prior to January 1, 1988, each payment shall be in an amount equal to 22.5% of the taxpayer's actual liability for the month or 26.25% of the taxpayer's liability for the same calendar month of the preceding year. If the month during which such tax liability is incurred begins on or after January 1, 1988, and prior to January 1, 1989, or begins on or after January 1, 1996, each payment shall be in an amount equal to 22.5% of the taxpayer's actual liability for the month or 25% of the taxpayer's liability for the same calendar month of the preceding year. If the month during which such tax liability is incurred begins on or after January 1, 1989, and prior to January 1, 1996, each payment shall be in an amount equal to 22.5% of the taxpayer's actual liability for the month or 25% of the taxpayer's liability for the same calendar month of the preceding year or 100% of the taxpayer's actual liability for the quarter monthly reporting period. The amount of such quarter monthly payments shall be credited against the final tax liability of the taxpayer's return for that month. Before October 1, 2000, once applicable, the requirement of the making of quarter monthly payments to the Department shall continue until such taxpayer's average monthly liability to the Department during the preceding 4 complete calendar quarters (excluding the month of highest liability and the month of lowest liability) is less than $9,000, or until such taxpayer's average monthly liability to the Department as computed for each calendar quarter of the 4 preceding complete calendar quarter period is less than $10,000. However, if a taxpayer can show the Department that a substantial change in the taxpayer's business has occurred which causes the taxpayer to anticipate that his average monthly tax liability for the reasonably foreseeable future will fall below the $10,000 threshold stated above, then such taxpayer may petition the Department for change in such taxpayer's reporting status. On and after October 1, 2000, once applicable, the requirement of the making of quarter monthly payments to the Department shall continue until such taxpayer's average monthly liability to the Department during the preceding 4 complete calendar quarters (excluding the month of highest liability and the month of lowest liability) is less than $19,000 or until such taxpayer's average monthly liability to the Department as computed for each calendar quarter of the 4 preceding complete calendar quarter period is less than $20,000. However, if a taxpayer can show the
Department that a substantial change in the taxpayer's business has occurred which causes the taxpayer to anticipate that his average monthly tax liability for the reasonably foreseeable future will fall below the $20,000 threshold stated above, then such taxpayer may petition the Department for a change in such taxpayer's reporting status. The Department shall change such taxpayer's reporting status unless it finds that such change is seasonal in nature and not likely to be long term. If any such quarter monthly payment is not paid at the time or in the amount required by this Section, then the taxpayer shall be liable for penalties and interest on the difference between the minimum amount due and the amount of such quarter monthly payment actually and timely paid, except insofar as the taxpayer has previously made payments for that month to the Department in excess of the minimum payments previously due as provided in this Section. The Department shall make reasonable rules and regulations to govern the quarter monthly payment amount and quarter monthly payment dates for taxpayers who file on other than a calendar monthly basis.

If any such payment provided for in this Section exceeds the taxpayer's liabilities under this Act, the Retailers' Occupation Tax Act, the Service Occupation Tax Act and the Service Use Tax Act, as shown by an original monthly return, the Department shall issue to the taxpayer a credit memorandum no later than 30 days after the date of payment, which memorandum may be submitted by the taxpayer to the Department in payment of tax liability subsequently to be remitted by the taxpayer to the Department or be assigned by the taxpayer to a similar taxpayer under this Act, the Retailers' Occupation Tax Act, the Service Occupation Tax Act or the Service Use Tax Act, in accordance with reasonable rules and regulations to be prescribed by the Department, except that if such excess payment is shown on an original monthly return and is made after December 31, 1986, no credit memorandum shall be issued, unless requested by the taxpayer. If no such request is made, the taxpayer may credit such excess payment against tax liability subsequently to be remitted by the taxpayer to the Department under this Act, the Retailers' Occupation Tax Act, the Service Occupation Tax Act or the Service Use Tax Act, in accordance with reasonable rules and regulations prescribed by the Department. If the Department subsequently determines that all or any part of the credit taken was not actually due to the taxpayer, the taxpayer's 2.1% or 1.75% vendor's discount shall be reduced by 2.1% or 1.75% of the

difference between the credit taken and that actually due, and the taxpayer shall be liable for penalties and interest on such difference.

If the retailer is otherwise required to file a monthly return and if the retailer's average monthly tax liability to the Department does not exceed $200, the Department may authorize his returns to be filed on a quarter annual basis, with the return for January, February, and March of a given year being due by April 20 of such year; with the return for April, May and June of a given year being due by July 20 of such year; with the return for July, August and September of a given year being due by October 20 of such year, and with the return for October, November and December of a given year being due by January 20 of the following year.

If the retailer is otherwise required to file a monthly or quarterly return and if the retailer's average monthly tax liability to the Department does not exceed $50, the Department may authorize his returns to be filed on an annual basis, with the return for a given year being due by January 20 of the following year.

Such quarter annual and annual returns, as to form and substance, shall be subject to the same requirements as monthly returns.

Notwithstanding any other provision in this Act concerning the time within which a retailer may file his return, in the case of any retailer who ceases to engage in a kind of business which makes him responsible for filing returns under this Act, such retailer shall file a final return under this Act with the Department not more than one month after discontinuing such business.

In addition, with respect to motor vehicles, watercraft, aircraft, and trailers that are required to be registered with an agency of this State, every retailer selling this kind of tangible personal property shall file, with the Department, upon a form to be prescribed and supplied by the Department, a separate return for each such item of tangible personal property which the retailer sells, except that if, in the same transaction, (i) a retailer of aircraft, watercraft, motor vehicles or trailers transfers more than one aircraft, watercraft, motor vehicle or trailer to another aircraft, watercraft, motor vehicle or trailer retailer for the purpose of resale or (ii) a retailer of aircraft, watercraft, motor vehicles, or trailers transfers more than one aircraft, watercraft, motor vehicle, or trailer to a purchaser for use as a qualifying rolling stock as provided in Section 3-55 of this Act, then that seller may report the transfer of all the aircraft, watercraft, motor vehicles or trailers involved in that transaction to the Department on the same uniform invoice-transaction reporting return form. For purposes of this

Section, "watercraft" means a Class 2, Class 3, or Class 4 watercraft as defined in Section 3-2 of the Boat Registration and Safety Act, a personal watercraft, or any boat equipped with an inboard motor.

The transaction reporting return in the case of motor vehicles or trailers that are required to be registered with an agency of this State, shall be the same document as the Uniform Invoice referred to in Section 5-402 of the Illinois Vehicle Code and must show the name and address of the seller; the name and address of the purchaser; the amount of the selling price including the amount allowed by the retailer for traded-in property, if any; the amount allowed by the retailer for the traded-in tangible personal property, if any, to the extent to which Section 2 of this Act allows an exemption for the value of traded-in property; the balance payable after deducting such trade-in allowance from the total selling price; the amount of tax due from the retailer with respect to such transaction; the amount of tax collected from the purchaser by the retailer on such transaction (or satisfactory evidence that such tax is not due in that particular instance, if that is claimed to be the fact); the place and date of the sale; a sufficient identification of the property sold; such other information as is required in Section 5-402 of the Illinois Vehicle Code, and such other information as the Department may reasonably require.

The transaction reporting return in the case of watercraft and aircraft must show the name and address of the seller; the name and address of the purchaser; the amount of the selling price including the amount allowed by the retailer for traded-in property, if any; the amount allowed by the retailer for the traded-in tangible personal property, if any, to the extent to which Section 2 of this Act allows an exemption for the value of traded-in property; the balance payable after deducting such trade-in allowance from the total selling price; the amount of tax due from the retailer with respect to such transaction; the amount of tax collected from the purchaser by the retailer on such transaction (or satisfactory evidence that such tax is not due in that particular instance, if that is claimed to be the fact); the place and date of the sale, a sufficient identification of the property sold, and such other information as the Department may reasonably require.

Such transaction reporting return shall be filed not later than 20 days after the date of delivery of the item that is being sold, but may be filed by the retailer at any time sooner than that if he chooses to do so. The transaction reporting return and tax remittance or proof of exemption from the tax that is imposed by this Act may be transmitted to the Department by
by way of the State agency with which, or State officer with whom, the tangible personal property must be titled or registered (if titling or registration is required) if the Department and such agency or State officer determine that this procedure will expedite the processing of applications for title or registration.

With each such transaction reporting return, the retailer shall remit the proper amount of tax due (or shall submit satisfactory evidence that the sale is not taxable if that is the case), to the Department or its agents, whereupon the Department shall issue, in the purchaser's name, a tax receipt (or a certificate of exemption if the Department is satisfied that the particular sale is tax exempt) which such purchaser may submit to the agency with which, or State officer with whom, he must title or register the tangible personal property that is involved (if titling or registration is required) in support of such purchaser's application for an Illinois certificate or other evidence of title or registration to such tangible personal property.

No retailer's failure or refusal to remit tax under this Act precludes a user, who has paid the proper tax to the retailer, from obtaining his certificate of title or other evidence of title or registration (if titling or registration is required) upon satisfying the Department that such user has paid the proper tax (if tax is due) to the retailer. The Department shall adopt appropriate rules to carry out the mandate of this paragraph.

If the user who would otherwise pay tax to the retailer wants the transaction reporting return filed and the payment of tax or proof of exemption made to the Department before the retailer is willing to take these actions and such user has not paid the tax to the retailer, such user may certify to the fact of such delay by the retailer, and may (upon the Department being satisfied of the truth of such certification) transmit the information required by the transaction reporting return and the remittance for tax or proof of exemption directly to the Department and obtain his tax receipt or exemption determination, in which event the transaction reporting return and tax remittance (if a tax payment was required) shall be credited by the Department to the proper retailer's account with the Department, but without the 2.1% or 1.75% discount provided for in this Section being allowed. When the user pays the tax directly to the Department, he shall pay the tax in the same amount and in the same form in which it would be remitted if the tax had been remitted to the Department by the retailer.
Where a retailer collects the tax with respect to the selling price of tangible personal property which he sells and the purchaser thereafter returns such tangible personal property and the retailer refunds the selling price thereof to the purchaser, such retailer shall also refund, to the purchaser, the tax so collected from the purchaser. When filing his return for the period in which he refunds such tax to the purchaser, the retailer may deduct the amount of the tax so refunded by him to the purchaser from any other use tax which such retailer may be required to pay or remit to the Department, as shown by such return, if the amount of the tax to be deducted was previously remitted to the Department by such retailer. If the retailer has not previously remitted the amount of such tax to the Department, he is entitled to no deduction under this Act upon refunding such tax to the purchaser.

Any retailer filing a return under this Section shall also include (for the purpose of paying tax thereon) the total tax covered by such return upon the selling price of tangible personal property purchased by him at retail from a retailer, but as to which the tax imposed by this Act was not collected from the retailer filing such return, and such retailer shall remit the amount of such tax to the Department when filing such return.

If experience indicates such action to be practicable, the Department may prescribe and furnish a combination or joint return which will enable retailers, who are required to file returns hereunder and also under the Retailers' Occupation Tax Act, to furnish all the return information required by both Acts on the one form.

Where the retailer has more than one business registered with the Department under separate registration under this Act, such retailer may not file each return that is due as a single return covering all such registered businesses, but shall file separate returns for each such registered business.

Beginning January 1, 1990, each month the Department shall pay into the State and Local Sales Tax Reform Fund, a special fund in the State Treasury which is hereby created, the net revenue realized for the preceding month from the 1% tax on sales of food for human consumption which is to be consumed off the premises where it is sold (other than alcoholic beverages, soft drinks and food which has been prepared for immediate consumption) and prescription and nonprescription medicines, drugs, medical appliances and insulin, urine testing materials, syringes and needles used by diabetics.
Beginning January 1, 1990, each month the Department shall pay into the County and Mass Transit District Fund 4% of the net revenue realized for the preceding month from the 6.25% general rate on the selling price of tangible personal property which is purchased outside Illinois at retail from a retailer and which is titled or registered by an agency of this State's government.

Beginning January 1, 1990, each month the Department shall pay into the State and Local Sales Tax Reform Fund, a special fund in the State Treasury, 20% of the net revenue realized for the preceding month from the 6.25% general rate on the selling price of tangible personal property, other than tangible personal property which is purchased outside Illinois at retail from a retailer and which is titled or registered by an agency of this State's government.

Beginning August 1, 2000, each month the Department shall pay into the State and Local Sales Tax Reform Fund 100% of the net revenue realized for the preceding month from the 1.25% rate on the selling price of motor fuel and gasohol. Beginning September 1, 2010, each month the Department shall pay into the State and Local Sales Tax Reform Fund 100% of the net revenue realized for the preceding month from the 1.25% rate on the selling price of sales tax holiday items.

Beginning January 1, 1990, each month the Department shall pay into the Local Government Tax Fund 16% of the net revenue realized for the preceding month from the 6.25% general rate on the selling price of tangible personal property which is purchased outside Illinois at retail from a retailer and which is titled or registered by an agency of this State's government.

Beginning October 1, 2009, each month the Department shall pay into the Capital Projects Fund an amount that is equal to an amount estimated by the Department to represent 80% of the net revenue realized for the preceding month from the sale of candy, grooming and hygiene products, and soft drinks that had been taxed at a rate of 1% prior to September 1, 2009 but that is now taxed at 6.25%.

Beginning July 1, 2011, each month the Department shall pay into the Clean Air Act (CAA) Permit Fund 80% of the net revenue realized for the preceding month from the 6.25% general rate on the selling price of sorbents used in Illinois in the process of sorbent injection as used to comply with the Environmental Protection Act or the federal Clean Air Act, but the total payment into the Clean Air Act (CAA) Permit Fund
under this Act and the Retailers' Occupation Tax Act shall not exceed $2,000,000 in any fiscal year.

Of the remainder of the moneys received by the Department pursuant to this Act, (a) 1.75% thereof shall be paid into the Build Illinois Fund and (b) prior to July 1, 1989, 2.2% and on and after July 1, 1989, 3.8% thereof shall be paid into the Build Illinois Fund; provided, however, that if in any fiscal year the sum of (1) the aggregate of 2.2% or 3.8%, as the case may be, of the moneys received by the Department and required to be paid into the Build Illinois Fund pursuant to Section 3 of the Retailers' Occupation Tax Act, Section 9 of the Use Tax Act, Section 9 of the Service Use Tax Act, and Section 9 of the Service Occupation Tax Act, such Acts being hereinafter called the "Tax Acts" and such aggregate of 2.2% or 3.8%, as the case may be, of moneys being hereinafter called the "Tax Act Amount", and (2) the amount transferred to the Build Illinois Fund from the State and Local Sales Tax Reform Fund shall be less than the Annual Specified Amount (as defined in Section 3 of the Retailers' Occupation Tax Act), an amount equal to the difference shall be immediately paid into the Build Illinois Fund from other moneys received by the Department pursuant to the Tax Acts; and further provided, that if on the last business day of any month the sum of (1) the Tax Act Amount required to be deposited into the Build Illinois Bond Account in the Build Illinois Fund during such month and (2) the amount transferred during such month to the Build Illinois Fund from the State and Local Sales Tax Reform Fund shall have been less than 1/12 of the Annual Specified Amount, an amount equal to the difference shall be immediately paid into the Build Illinois Fund from other moneys received by the Department pursuant to the Tax Acts; and, further provided, that in no event shall the payments required under the preceding proviso result in aggregate payments into the Build Illinois Fund pursuant to this clause (b) for any fiscal year in excess of the greater of (i) the Tax Act Amount or (ii) the Annual Specified Amount for such fiscal year; and, further provided, that the amounts payable into the Build Illinois Fund under this clause (b) shall be payable only until such time as the aggregate amount on deposit under each trust indenture securing Bonds issued and outstanding pursuant to the Build Illinois Bond Act is sufficient, taking into account any future investment income, to fully provide, in accordance with such indenture, for the defeasance of or the payment of the principal of, premium, if any, and interest on the Bonds secured by such indenture and on any Bonds expected to be issued thereafter and all fees and costs payable with respect

thereto, all as certified by the Director of the Bureau of the Budget (now Governor's Office of Management and Budget). If on the last business day of any month in which Bonds are outstanding pursuant to the Build Illinois Bond Act, the aggregate of the moneys deposited in the Build Illinois Bond Account in the Build Illinois Fund in such month shall be less than the amount required to be transferred in such month from the Build Illinois Bond Account to the Build Illinois Bond Retirement and Interest Fund pursuant to Section 13 of the Build Illinois Bond Act, an amount equal to such deficiency shall be immediately paid from other moneys received by the Department pursuant to the Tax Acts to the Build Illinois Fund; provided, however, that any amounts paid to the Build Illinois Fund in any fiscal year pursuant to this sentence shall be deemed to constitute payments pursuant to clause (b) of the preceding sentence and shall reduce the amount otherwise payable for such fiscal year pursuant to clause (b) of the preceding sentence. The moneys received by the Department pursuant to this Act and required to be deposited into the Build Illinois Fund are subject to the pledge, claim and charge set forth in Section 12 of the Build Illinois Bond Act.

Subject to payment of amounts into the Build Illinois Fund as provided in the preceding paragraph or in any amendment thereto hereafter enacted, the following specified monthly installment of the amount requested in the certificate of the Chairman of the Metropolitan Pier and Exposition Authority provided under Section 8.25f of the State Finance Act, but not in excess of the sums designated as "Total Deposit", shall be deposited in the aggregate from collections under Section 9 of the Use Tax Act, Section 9 of the Service Use Tax Act, Section 9 of the Service Occupation Tax Act, and Section 3 of the Retailers' Occupation Tax Act into the McCormick Place Expansion Project Fund in the specified fiscal years.

and each fiscal year thereafter that bonds are outstanding under Section 13.2 of the Metropolitan Pier and Exposition Authority Act, but not after fiscal year 2060.

New matter indicated by italics - deletions by strikeout
Beginning July 20, 1993 and in each month of each fiscal year thereafter, one-eighth of the amount requested in the certificate of the Chairman of the Metropolitan Pier and Exposition Authority for that fiscal year, less the amount deposited into the McCormick Place Expansion Project Fund by the State Treasurer in the respective month under subsection (g) of Section 13 of the Metropolitan Pier and Exposition Authority Act, plus cumulative deficiencies in the deposits required under this Section for previous months and years, shall be deposited into the McCormick Place Expansion Project Fund, until the full amount requested for the fiscal year, but not in excess of the amount specified above as "Total Deposit", has been deposited.

Subject to payment of amounts into the Build Illinois Fund and the McCormick Place Expansion Project Fund pursuant to the preceding paragraphs or in any amendments thereto hereafter enacted, beginning July 1, 1993 and ending on September 30, 2013, the Department shall each month pay into the Illinois Tax Increment Fund 0.27% of 80% of the net revenue realized for the preceding month from the 6.25% general rate on the selling price of tangible personal property.

Subject to payment of amounts into the Build Illinois Fund and the McCormick Place Expansion Project Fund pursuant to the preceding paragraphs or in any amendments thereto hereafter enacted, beginning with the receipt of the first report of taxes paid by an eligible business and continuing for a 25-year period, the Department shall each month pay into the Energy Infrastructure Fund 80% of the net revenue realized from the 6.25% general rate on the selling price of Illinois-mined coal that was sold to an eligible business. For purposes of this paragraph, the term "eligible business" means a new electric generating facility certified pursuant to Section 605-332 of the Department of Commerce and Economic Opportunity Law of the Civil Administrative Code of Illinois.

Of the remainder of the moneys received by the Department pursuant to this Act, 75% thereof shall be paid into the State Treasury and 25% shall be reserved in a special account and used only for the transfer to the Common School Fund as part of the monthly transfer from the General Revenue Fund in accordance with Section 8a of the State Finance Act.

As soon as possible after the first day of each month, upon certification of the Department of Revenue, the Comptroller shall order transferred and the Treasurer shall transfer from the General Revenue Fund to the Motor Fuel Tax Fund an amount equal to 1.7% of 80% of the net revenue realized under this Act for the second preceding month.
Beginning April 1, 2000, this transfer is no longer required and shall not be made.

Net revenue realized for a month shall be the revenue collected by the State pursuant to this Act, less the amount paid out during that month as refunds to taxpayers for overpayment of liability.

For greater simplicity of administration, manufacturers, importers and wholesalers whose products are sold at retail in Illinois by numerous retailers, and who wish to do so, may assume the responsibility for accounting and paying to the Department all tax accruing under this Act with respect to such sales, if the retailers who are affected do not make written objection to the Department to this arrangement.

Section 5-45. The Service Use Tax Act is amended by changing Section 9 as follows:

(35 ILCS 110/9) (from Ch. 120, par. 439.39)

Sec. 9. Each serviceman required or authorized to collect the tax herein imposed shall pay to the Department the amount of such tax (except as otherwise provided) at the time when he is required to file his return for the period during which such tax was collected, less a discount of 2.1% prior to January 1, 1990 and 1.75% on and after January 1, 1990, or $5 per calendar year, whichever is greater, which is allowed to reimburse the serviceman for expenses incurred in collecting the tax, keeping records, preparing and filing returns, remitting the tax and supplying data to the Department on request. A serviceman need not remit that part of any tax collected by him to the extent that he is required to pay and does pay the tax imposed by the Service Occupation Tax Act with respect to his sale of service involving the incidental transfer by him of the same property.

Except as provided hereinafter in this Section, on or before the twentieth day of each calendar month, such serviceman shall file a return for the preceding calendar month in accordance with reasonable Rules and Regulations to be promulgated by the Department. Such return shall be filed on a form prescribed by the Department and shall contain such information as the Department may reasonably require.

The Department may require returns to be filed on a quarterly basis. If so required, a return for each calendar quarter shall be filed on or before the twentieth day of the calendar month following the end of such calendar quarter. The taxpayer shall also file a return with the Department.
for each of the first two months of each calendar quarter, on or before the twentieth day of the following calendar month, stating:

1. The name of the seller;
2. The address of the principal place of business from which he engages in business as a serviceman in this State;
3. The total amount of taxable receipts received by him during the preceding calendar month, including receipts from charge and time sales, but less all deductions allowed by law;
4. The amount of credit provided in Section 2d of this Act;
5. The amount of tax due;
5-5. The signature of the taxpayer; and
6. Such other reasonable information as the Department may require.

If a taxpayer fails to sign a return within 30 days after the proper notice and demand for signature by the Department, the return shall be considered valid and any amount shown to be due on the return shall be deemed assessed.

Beginning October 1, 1993, a taxpayer who has an average monthly tax liability of $150,000 or more shall make all payments required by rules of the Department by electronic funds transfer. Beginning October 1, 1994, a taxpayer who has an average monthly tax liability of $100,000 or more shall make all payments required by rules of the Department by electronic funds transfer. Beginning October 1, 1995, a taxpayer who has an average monthly tax liability of $50,000 or more shall make all payments required by rules of the Department by electronic funds transfer. Beginning October 1, 2000, a taxpayer who has an annual tax liability of $200,000 or more shall make all payments required by rules of the Department by electronic funds transfer. The term "annual tax liability" shall be the sum of the taxpayer's liabilities under this Act, and under all other State and local occupation and use tax laws administered by the Department, for the immediately preceding calendar year. The term "average monthly tax liability" means the sum of the taxpayer's liabilities under this Act, and under all other State and local occupation and use tax laws administered by the Department, for the immediately preceding calendar year divided by 12. Beginning on October 1, 2002, a taxpayer who has a tax liability in the amount set forth in subsection (b) of Section 2505-210 of the Department of Revenue Law shall make all payments required by rules of the Department by electronic funds transfer.

New matter indicated by italics - deletions by strikeout
Before August 1 of each year beginning in 1993, the Department shall notify all taxpayers required to make payments by electronic funds transfer. All taxpayers required to make payments by electronic funds transfer shall make those payments for a minimum of one year beginning on October 1.

Any taxpayer not required to make payments by electronic funds transfer may make payments by electronic funds transfer with the permission of the Department.

All taxpayers required to make payment by electronic funds transfer and any taxpayers authorized to voluntarily make payments by electronic funds transfer shall make those payments in the manner authorized by the Department.

The Department shall adopt such rules as are necessary to effectuate a program of electronic funds transfer and the requirements of this Section.

If the serviceman is otherwise required to file a monthly return and if the serviceman's average monthly tax liability to the Department does not exceed $200, the Department may authorize his returns to be filed on a quarter annual basis, with the return for January, February and March of a given year being due by April 20 of such year; with the return for April, May and June of a given year being due by July 20 of such year; with the return for July, August and September of a given year being due by October 20 of such year, and with the return for October, November and December of a given year being due by January 20 of the following year.

If the serviceman is otherwise required to file a monthly or quarterly return and if the serviceman's average monthly tax liability to the Department does not exceed $50, the Department may authorize his returns to be filed on an annual basis, with the return for a given year being due by January 20 of the following year.

Such quarter annual and annual returns, as to form and substance, shall be subject to the same requirements as monthly returns.

Notwithstanding any other provision in this Act concerning the time within which a serviceman may file his return, in the case of any serviceman who ceases to engage in a kind of business which makes him responsible for filing returns under this Act, such serviceman shall file a final return under this Act with the Department not more than 1 month after discontinuing such business.

property and the serviceman refunds the selling price thereof to the purchaser, such serviceman shall also refund, to the purchaser, the tax so collected from the purchaser. When filing his return for the period in which he refunds such tax to the purchaser, the serviceman may deduct the amount of the tax so refunded by him to the purchaser from any other Service Use Tax, Service Occupation Tax, retailers' occupation tax or use tax which such serviceman may be required to pay or remit to the Department, as shown by such return, provided that the amount of the tax to be deducted shall previously have been remitted to the Department by such serviceman. If the serviceman shall not previously have remitted the amount of such tax to the Department, he shall be entitled to no deduction hereunder upon refunding such tax to the purchaser.

Any serviceman filing a return hereunder shall also include the total tax upon the selling price of tangible personal property purchased for use by him as an incident to a sale of service, and such serviceman shall remit the amount of such tax to the Department when filing such return.

If experience indicates such action to be practicable, the Department may prescribe and furnish a combination or joint return which will enable servicemen, who are required to file returns hereunder and also under the Service Occupation Tax Act, to furnish all the return information required by both Acts on the one form.

Where the serviceman has more than one business registered with the Department under separate registration hereunder, such serviceman shall not file each return that is due as a single return covering all such registered businesses, but shall file separate returns for each such registered business.

Beginning January 1, 1990, each month the Department shall pay into the State and Local Tax Reform Fund, a special fund in the State Treasury, the net revenue realized for the preceding month from the 1% tax on sales of food for human consumption which is to be consumed off the premises where it is sold (other than alcoholic beverages, soft drinks and food which has been prepared for immediate consumption) and prescription and nonprescription medicines, drugs, medical appliances and insulin, urine testing materials, syringes and needles used by diabetics.

Beginning January 1, 1990, each month the Department shall pay into the State and Local Sales Tax Reform Fund 20% of the net revenue realized for the preceding month from the 6.25% general rate on transfers of tangible personal property, other than tangible personal property which
is purchased outside Illinois at retail from a retailer and which is titled or registered by an agency of this State's government.

Beginning August 1, 2000, each month the Department shall pay into the State and Local Sales Tax Reform Fund 100% of the net revenue realized for the preceding month from the 1.25% rate on the selling price of motor fuel and gasohol.

Beginning October 1, 2009, each month the Department shall pay into the Capital Projects Fund an amount that is equal to an amount estimated by the Department to represent 80% of the net revenue realized for the preceding month from the sale of candy, grooming and hygiene products, and soft drinks that had been taxed at a rate of 1% prior to September 1, 2009 but that is now taxed at 6.25%.

Of the remainder of the moneys received by the Department pursuant to this Act, (a) 1.75% thereof shall be paid into the Build Illinois Fund and (b) prior to July 1, 1989, 2.2% and on and after July 1, 1989, 3.8% thereof shall be paid into the Build Illinois Fund; provided, however, that if in any fiscal year the sum of (1) the aggregate of 2.2% or 3.8%, as the case may be, of the moneys received by the Department and required to be paid into the Build Illinois Fund pursuant to Section 3 of the Retailers' Occupation Tax Act, Section 9 of the Use Tax Act, Section 9 of the Service Use Tax Act, and Section 9 of the Service Occupation Tax Act, such Acts being hereinafter called the "Tax Acts" and such aggregate of 2.2% or 3.8%, as the case may be, of moneys being hereinafter called the "Tax Act Amount", and (2) the amount transferred to the Build Illinois Fund from the State and Local Sales Tax Reform Fund shall be less than the Annual Specified Amount (as defined in Section 3 of the Retailers' Occupation Tax Act), an amount equal to the difference shall be immediately paid into the Build Illinois Fund from other moneys received by the Department pursuant to the Tax Acts; and further provided, that if on the last business day of any month the sum of (1) the Tax Act Amount required to be deposited into the Build Illinois Bond Account in the Build Illinois Fund during such month and (2) the amount transferred during such month to the Build Illinois Fund from the State and Local Sales Tax Reform Fund shall have been less than 1/12 of the Annual Specified Amount, an amount equal to the difference shall be immediately paid into the Build Illinois Fund from other moneys received by the Department pursuant to the Tax Acts; and, further provided, that in no event shall the payments required under the preceding proviso result in aggregate payments into the Build Illinois Fund pursuant to this clause (b) for any...
fiscal year in excess of the greater of (i) the Tax Act Amount or (ii) the Annual Specified Amount for such fiscal year; and, further provided, that the amounts payable into the Build Illinois Fund under this clause (b) shall be payable only until such time as the aggregate amount on deposit under each trust indenture securing Bonds issued and outstanding pursuant to the Build Illinois Bond Act is sufficient, taking into account any future investment income, to fully provide, in accordance with such indenture, for the defeasance of or the payment of the principal of, premium, if any, and interest on the Bonds secured by such indenture and on any Bonds expected to be issued thereafter and all fees and costs payable with respect thereto, all as certified by the Director of the Bureau of the Budget (now Governor's Office of Management and Budget). If on the last business day of any month in which Bonds are outstanding pursuant to the Build Illinois Bond Act, the aggregate of the moneys deposited in the Build Illinois Bond Account in the Build Illinois Fund in such month shall be less than the amount required to be transferred in such month from the Build Illinois Bond Account to the Build Illinois Bond Retirement and Interest Fund pursuant to Section 13 of the Build Illinois Bond Act, an amount equal to such deficiency shall be immediately paid from other moneys received by the Department pursuant to the Tax Acts to the Build Illinois Fund; provided, however, that any amounts paid to the Build Illinois Fund in any fiscal year pursuant to this sentence shall be deemed to constitute payments pursuant to clause (b) of the preceding sentence and shall reduce the amount otherwise payable for such fiscal year pursuant to clause (b) of the preceding sentence. The moneys received by the Department pursuant to this Act and required to be deposited into the Build Illinois Fund are subject to the pledge, claim and charge set forth in Section 12 of the Build Illinois Bond Act.

Subject to payment of amounts into the Build Illinois Fund as provided in the preceding paragraph or in any amendment thereto hereafter enacted, the following specified monthly installment of the amount requested in the certificate of the Chairman of the Metropolitan Pier and Exposition Authority provided under Section 8.25f of the State Finance Act, but not in excess of the sums designated as "Total Deposit", shall be deposited in the aggregate from collections under Section 9 of the Use Tax Act, Section 9 of the Service Use Tax Act, Section 9 of the Service Occupation Tax Act, and Section 3 of the Retailers' Occupation Tax Act into the McCormick Place Expansion Project Fund in the specified fiscal years.

Section 5-50. The Service Occupation Tax Act is amended by changing Section 9 as follows:

(35 ILCS 115/9) (from Ch. 120, par. 439.109)

Sec. 9. Each serviceman required or authorized to collect the tax herein imposed shall pay to the Department the amount of such tax at the time when he is required to file his return for the period during which such tax was collectible, less a discount of 2.1% prior to January 1, 1990, and 1.75% on and after January 1, 1990, or $5 per calendar year, whichever is greater, which is allowed to reimburse the serviceman for expenses incurred in collecting the tax, keeping records, preparing and filing returns, remitting the tax and supplying data to the Department on request.

Where such tangible personal property is sold under a conditional sales contract, or under any other form of sale wherein the payment of the principal sum, or a part thereof, is extended beyond the close of the period for which the return is filed, the serviceman, in collecting the tax may collect, for each tax return period, only the tax applicable to the part of the selling price actually received during such tax return period.

Except as provided hereinafter in this Section, on or before the twentieth day of each calendar month, such serviceman shall file a return for the preceding calendar month in accordance with reasonable rules and regulations to be promulgated by the Department of Revenue. Such return shall be filed on a form prescribed by the Department and shall contain such information as the Department may reasonably require.

The Department may require returns to be filed on a quarterly basis. If so required, a return for each calendar quarter shall be filed on or before the twentieth day of the calendar month following the end of such calendar quarter. The taxpayer shall also file a return with the Department for each of the first two months of each calendar quarter, on or before the twentieth day of the following calendar month, stating:

1. The name of the seller;
2. The address of the principal place of business from which he engages in business as a serviceman in this State;
3. The total amount of taxable receipts received by him during the preceding calendar month, including receipts from charge and time sales, but less all deductions allowed by law;
4. The amount of credit provided in Section 2d of this Act;
5. The amount of tax due;
6. The signature of the taxpayer; and
7. Such other reasonable information as the Department may require.

If a taxpayer fails to sign a return within 30 days after the proper notice and demand for signature by the Department, the return shall be considered valid and any amount shown to be due on the return shall be deemed assessed.

Prior to October 1, 2003, and on and after September 1, 2004 a serviceman may accept a Manufacturer's Purchase Credit certification from a purchaser in satisfaction of Service Use Tax as provided in Section 3-70 of the Service Use Tax Act if the purchaser provides the appropriate documentation as required by Section 3-70 of the Service Use Tax Act. A Manufacturer's Purchase Credit certification, accepted prior to October 1, 2003 or on or after September 1, 2004 by a serviceman as provided in Section 3-70 of the Service Use Tax Act, may be used by that serviceman to satisfy Service Occupation Tax liability in the amount claimed in the certification, not to exceed 6.25% of the receipts subject to tax from a qualifying purchase. A Manufacturer's Purchase Credit reported on any original or amended return filed under this Act after October 20, 2003 for reporting periods prior to September 1, 2004 shall be disallowed. Manufacturer's Purchase Credit reported on annual returns due on or after January 1, 2005 will be disallowed for periods prior to September 1, 2004. If the serviceman's average monthly tax liability to the Department does not exceed $50, the Department may authorize his returns to be filed on an annual basis, with the return for a given year being due by January 20 of the following year.

Such quarter annual and annual returns, as to form and substance, shall be subject to the same requirements as monthly returns.

Notwithstanding any other provision in this Act concerning the time within which a serviceman may file his return, in the case of any serviceman who ceases to engage in a kind of business which makes him responsible for filing returns under this Act, such serviceman shall file a final return under this Act with the Department not more than 1 month after discontinuing such business.

who has a tax liability in the amount set forth in subsection (b) of Section 2505-210 of the Department of Revenue Law shall make all payments required by rules of the Department by electronic funds transfer.

Before August 1 of each year beginning in 1993, the Department shall notify all taxpayers required to make payments by electronic funds transfer. All taxpayers required to make payments by electronic funds transfer shall make those payments for a minimum of one year beginning on October 1.

Any taxpayer not required to make payments by electronic funds transfer may make payments by electronic funds transfer with the permission of the Department.

All taxpayers required to make payment by electronic funds transfer and any taxpayers authorized to voluntarily make payments by electronic funds transfer shall make those payments in the manner authorized by the Department.

The Department shall adopt such rules as are necessary to effectuate a program of electronic funds transfer and the requirements of this Section.

Where a serviceman collects the tax with respect to the selling price of tangible personal property which he sells and the purchaser thereafter returns such tangible personal property and the serviceman refunds the selling price thereof to the purchaser, such serviceman shall also refund, to the purchaser, the tax so collected from the purchaser. When filing his return for the period in which he refunds such tax to the purchaser, the serviceman may deduct the amount of the tax so refunded by him to the purchaser from any other Service Occupation Tax, Service Use Tax, Retailers' Occupation Tax or Use Tax which such serviceman may be required to pay or remit to the Department, as shown by such return, provided that the amount of the tax to be deducted shall previously have been remitted to the Department by such serviceman. If the serviceman shall not previously have remitted the amount of such tax to the Department, he shall be entitled to no deduction hereunder upon refunding such tax to the purchaser.

If experience indicates such action to be practicable, the Department may prescribe and furnish a combination or joint return which will enable servicemen, who are required to file returns hereunder and also under the Retailers' Occupation Tax Act, the Use Tax Act or the Service Use Tax Act, to furnish all the return information required by all said Acts on the one form.

Beginning January 1, 1990, each month the Department shall pay into the County and Mass Transit District Fund 4% of the revenue realized for the preceding month from the 6.25% general rate.

Beginning January 1, 1990, each month the Department shall pay into the Local Government Tax Fund 16% of the revenue realized for the preceding month from the 6.25% general rate on transfers of tangible personal property.

Beginning August 1, 2000, each month the Department shall pay into the Local Government Tax Fund 80% of the net revenue realized for the preceding month from the 1.25% rate on the selling price of motor fuel and gasohol.

Of the remainder of the moneys received by the Department pursuant to this Act, (a) 1.75% thereof shall be paid into the Build Illinois Fund and (b) prior to July 1, 1989, 2.2% and on and after July 1, 1989, 3.8% thereof shall be paid into the Build Illinois Fund; provided, however, that if in any fiscal year the sum of (1) the aggregate of 2.2% or 3.8%, as the case may be, of the moneys received by the Department and required to be paid into the Build Illinois Fund pursuant to Section 3 of the Retailers'
Occupation Tax Act, Section 9 of the Use Tax Act, Section 9 of the Service Use Tax Act, and Section 9 of the Service Occupation Tax Act, such Acts being hereinafter called the "Tax Acts" and such aggregate of 2.2% or 3.8%, as the case may be, of moneys being hereinafter called the "Tax Act Amount", and (2) the amount transferred to the Build Illinois Fund from the State and Local Sales Tax Reform Fund shall be less than the Annual Specified Amount (as defined in Section 3 of the Retailers' Occupation Tax Act), an amount equal to the difference shall be immediately paid into the Build Illinois Fund from other moneys received by the Department pursuant to the Tax Acts; and further provided, that if on the last business day of any month the sum of (1) the Tax Act Amount required to be deposited into the Build Illinois Account in the Build Illinois Fund during such month and (2) the amount transferred during such month to the Build Illinois Fund from the State and Local Sales Tax Reform Fund shall have been less than 1/12 of the Annual Specified Amount, an amount equal to the difference shall be immediately paid into the Build Illinois Fund from other moneys received by the Department pursuant to the Tax Acts; and, further provided, that in no event shall the payments required under the preceding proviso result in aggregate payments into the Build Illinois Fund pursuant to this clause (b) for any fiscal year in excess of the greater of (i) the Tax Act Amount or (ii) the Annual Specified Amount for such fiscal year; and, further provided, that the amounts payable into the Build Illinois Fund pursuant to this clause (b) shall be payable only until such time as the aggregate amount on deposit under each trust indenture securing Bonds issued and outstanding pursuant to the Build Illinois Bond Act is sufficient, taking into account any future investment income, to fully provide, in accordance with such indenture, for the defeasance of or the payment of the principal of, premium, if any, and interest on the Bonds secured by such indenture and on any Bonds expected to be issued thereafter and all fees and costs payable with respect thereto, all as certified by the Director of the Bureau of the Budget (now Governor's Office of Management and Budget). If on the last business day of any month in which Bonds are outstanding pursuant to the Build Illinois Bond Act, the aggregate of the moneys deposited in the Build Illinois Bond Account in the Build Illinois Fund in such month shall be less than the amount required to be transferred in such month from the Build Illinois Bond Account to the Build Illinois Bond Retirement and Interest Fund pursuant to Section 13 of the Build Illinois Bond Act, an amount equal to such deficiency shall be immediately paid from other moneys received by
the Department pursuant to the Tax Acts to the Build Illinois Fund; provided, however, that any amounts paid to the Build Illinois Fund in any fiscal year pursuant to this sentence shall be deemed to constitute payments pursuant to clause (b) of the preceding sentence and shall reduce the amount otherwise payable for such fiscal year pursuant to clause (b) of the preceding sentence. The moneys received by the Department pursuant to this Act and required to be deposited into the Build Illinois Fund are subject to the pledge, claim and charge set forth in Section 12 of the Build Illinois Bond Act.

Subject to payment of amounts into the Build Illinois Fund as provided in the preceding paragraph or in any amendment thereto hereafter enacted, the following specified monthly installment of the amount requested in the certificate of the Chairman of the Metropolitan Pier and Exposition Authority provided under Section 8.25f of the State Finance Act, but not in excess of the sums designated as "Total Deposit", shall be deposited in the aggregate from collections under Section 9 of the Use Tax Act, Section 9 of the Service Use Tax Act, Section 9 of the Service Occupation Tax Act, and Section 3 of the Retailers' Occupation Tax Act into the McCormick Place Expansion Project Fund in the specified fiscal years.

McCormick Place Expansion Project Fund, until the full amount requested for the fiscal year, but not in excess of the amount specified above as "Total Deposit", has been deposited.

Subject to payment of amounts into the Build Illinois Fund and the McCormick Place Expansion Project Fund pursuant to the preceding paragraphs or in any amendments thereto hereafter enacted, beginning July 1, 1993 and ending on September 30, 2013, the Department shall each month pay into the Illinois Tax Increment Fund 0.27% of 80% of the net revenue realized for the preceding month from the 6.25% general rate on the selling price of tangible personal property.

Subject to payment of amounts into the Build Illinois Fund and the McCormick Place Expansion Project Fund pursuant to the preceding paragraphs or in any amendments thereto hereafter enacted, beginning with the receipt of the first report of taxes paid by an eligible business and continuing for a 25-year period, the Department shall each month pay into the Energy Infrastructure Fund 80% of the net revenue realized from the 6.25% general rate on the selling price of Illinois-mined coal that was sold to an eligible business. For purposes of this paragraph, the term "eligible business" means a new electric generating facility certified pursuant to Section 605-332 of the Department of Commerce and Economic Opportunity Law of the Civil Administrative Code of Illinois.

Remaining moneys received by the Department pursuant to this Act shall be paid into the General Revenue Fund of the State Treasury.

The Department may, upon separate written notice to a taxpayer, require the taxpayer to prepare and file with the Department on a form prescribed by the Department within not less than 60 days after receipt of the notice an annual information return for the tax year specified in the notice. Such annual return to the Department shall include a statement of gross receipts as shown by the taxpayer's last Federal income tax return. If the total receipts of the business as reported in the Federal income tax return do not agree with the gross receipts reported to the Department of Revenue for the same period, the taxpayer shall attach to his annual return a schedule showing a reconciliation of the 2 amounts and the reasons for the difference. The taxpayer's annual return to the Department shall also disclose the cost of goods sold by the taxpayer during the year covered by such return, opening and closing inventories of such goods for such year, cost of goods used from stock or taken from stock and given away by the taxpayer during such year, payroll information of the taxpayer's business during such year and any additional reasonable information which the
Department deems would be helpful in determining the accuracy of the monthly, quarterly or annual returns filed by such taxpayer as hereinbefore provided for in this Section.

If the annual information return required by this Section is not filed when and as required, the taxpayer shall be liable as follows:

(i) Until January 1, 1994, the taxpayer shall be liable for a penalty equal to 1/6 of 1% of the tax due from such taxpayer under this Act during the period to be covered by the annual return for each month or fraction of a month until such return is filed as required, the penalty to be assessed and collected in the same manner as any other penalty provided for in this Act.

(ii) On and after January 1, 1994, the taxpayer shall be liable for a penalty as described in Section 3-4 of the Uniform Penalty and Interest Act.

The chief executive officer, proprietor, owner or highest ranking manager shall sign the annual return to certify the accuracy of the information contained therein. Any person who willfully signs the annual return containing false or inaccurate information shall be guilty of perjury and punished accordingly. The annual return form prescribed by the Department shall include a warning that the person signing the return may be liable for perjury.

The foregoing portion of this Section concerning the filing of an annual information return shall not apply to a serviceman who is not required to file an income tax return with the United States Government.

As soon as possible after the first day of each month, upon certification of the Department of Revenue, the Comptroller shall order transferred and the Treasurer shall transfer from the General Revenue Fund to the Motor Fuel Tax Fund an amount equal to 1.7% of 80% of the net revenue realized under this Act for the second preceding month. Prior to October 1, 2003, and on and after September 1, 2004 a retailer may accept a Manufacturer's Purchase Credit certification from a purchaser in satisfaction of Use Tax as provided in Section 3-85 of the Use Tax Act if the purchaser provides the appropriate documentation as required by Section 3-85 of the Use Tax Act. A Manufacturer's Purchase Credit certification, accepted by a retailer prior to October 1, 2003 and on and after September 1, 2004 as provided in Section 3-85 of the Use Tax Act, may be used by that retailer to satisfy Retailers' Occupation Tax liability in the amount claimed in the certification, not to exceed 6.25% of the receipts subject to tax from a qualifying purchase. A Manufacturer's Purchase Credit reported on any original or amended return filed under this Act after October 20, 2003 for reporting periods prior to September 1, 2004 shall be disallowed. Manufacturer's Purchaser Credit reported on annual returns due on or after January 1, 2005 will be disallowed for periods prior to September 1, 2004. No Manufacturer's Purchase Credit may be used after September 30, 2003 through August 31, 2004 to satisfy any tax liability imposed under this Act, including any audit liability.

The Department may require returns to be filed on a quarterly basis. If so required, a return for each calendar quarter shall be filed on or before the twentieth day of the calendar month following the end of such calendar quarter. The taxpayer shall also file a return with the Department for each of the first two months of each calendar quarter, on or before the twentieth day of the following calendar month, stating:

1. The name of the seller;
2. The address of the principal place of business from which he engages in the business of selling tangible personal property at retail in this State;
3. The total amount of taxable receipts received by him during the preceding calendar month from sales of tangible personal property by him during such preceding calendar month, including receipts from charge and time sales, but less all deductions allowed by law;

Beginning on October 1, 2003, any person who is not a licensed distributor, importing distributor, or manufacturer, as defined in the Liquor Control Act of 1934, but is engaged in the business of selling, at retail, alcoholic liquor shall file a statement with the Department of Revenue, in a format and at a time prescribed by the Department, showing the total amount paid for alcoholic liquor purchased during the preceding month and such other information as is reasonably required by the Department. The Department may adopt rules to require that this statement be filed in an electronic or telephonic format. Such rules may provide for exceptions from the filing requirements of this paragraph. For the purposes of this paragraph, the term "alcoholic liquor" shall have the meaning prescribed in the Liquor Control Act of 1934.

Beginning on October 1, 2003, every distributor, importing distributor, and manufacturer of alcoholic liquor as defined in the Liquor Control Act of 1934, shall file a statement with the Department of Revenue, no later than the 10th day of the month for the preceding month during which transactions occurred, by electronic means, showing the total amount of gross receipts from the sale of alcoholic liquor sold or distributed during the preceding month to purchasers; identifying the purchaser to whom it was sold or distributed; the purchaser's tax registration number; and such other information reasonably required by the Department. A distributor, importing distributor, or manufacturer of alcoholic liquor must personally deliver, mail, or provide by electronic means to each retailer listed on the monthly statement a report containing a cumulative total of that distributor's, importing distributor's, or manufacturer's total sales of alcoholic liquor to that retailer no later than the 10th day of the month for the preceding month during which the transaction occurred. The distributor, importing distributor, or manufacturer shall notify the retailer as to the method by which the distributor, importing distributor, or manufacturer will provide the sales information. If the retailer is unable to receive the sales information by electronic means, the distributor, importing distributor, or manufacturer shall furnish the sales information by personal delivery or by mail. For purposes of this paragraph, the term "electronic means" includes, but is not limited to, the use of a secure Internet website, e-mail, or facsimile.

If a total amount of less than $1 is payable, refundable or creditable, such amount shall be disregarded if it is less than 50 cents and shall be increased to $1 if it is 50 cents or more.
Beginning October 1, 1993, a taxpayer who has an average monthly tax liability of $150,000 or more shall make all payments required by rules of the Department by electronic funds transfer. Beginning October 1, 1994, a taxpayer who has an average monthly tax liability of $100,000 or more shall make all payments required by rules of the Department by electronic funds transfer. Beginning October 1, 1995, a taxpayer who has an average monthly tax liability of $50,000 or more shall make all payments required by rules of the Department by electronic funds transfer. Beginning October 1, 2000, a taxpayer who has an annual tax liability of $200,000 or more shall make all payments required by rules of the Department by electronic funds transfer. The term "annual tax liability" shall be the sum of the taxpayer's liabilities under this Act, and under all other State and local occupation and use tax laws administered by the Department, for the immediately preceding calendar year. The term "average monthly tax liability" shall be the sum of the taxpayer's liabilities under this Act, and under all other State and local occupation and use tax laws administered by the Department, for the immediately preceding calendar year divided by 12. Beginning on October 1, 2002, a taxpayer who has a tax liability in the amount set forth in subsection (b) of Section 2505-210 of the Department of Revenue Law shall make all payments required by rules of the Department by electronic funds transfer.

Before August 1 of each year beginning in 1993, the Department shall notify all taxpayers required to make payments by electronic funds transfer. All taxpayers required to make payments by electronic funds transfer shall make those payments for a minimum of one year beginning on October 1.

Any taxpayer not required to make payments by electronic funds transfer may make payments by electronic funds transfer with the permission of the Department.

All taxpayers required to make payment by electronic funds transfer and any taxpayers authorized to voluntarily make payments by electronic funds transfer shall make those payments in the manner authorized by the Department.

The Department shall adopt such rules as are necessary to effectuate a program of electronic funds transfer and the requirements of this Section.

Any amount which is required to be shown or reported on any return or other document under this Act shall, if such amount is not a whole-dollar amount, be increased to the nearest whole-dollar amount in

any case where the fractional part of a dollar is 50 cents or more, and
decreased to the nearest whole-dollar amount where the fractional part of a
dollar is less than 50 cents.

If the retailer is otherwise required to file a monthly return and if
the retailer's average monthly tax liability to the Department does not
exceed $200, the Department may authorize his returns to be filed on a
quarter annual basis, with the return for January, February and March of a
given year being due by April 20 of such year; with the return for April,
May and June of a given year being due by July 20 of such year; with the
return for July, August and September of a given year being due by
October 20 of such year, and with the return for October, November and
December of a given year being due by January 20 of the following year.

If the retailer is otherwise required to file a monthly or quarterly
return and if the retailer's average monthly tax liability with the
Department does not exceed $50, the Department may authorize his
returns to be filed on an annual basis, with the return for a given year being
due by January 20 of the following year.

Such quarter annual and annual returns, as to form and substance,
shall be subject to the same requirements as monthly returns.

Notwithstanding any other provision in this Act concerning the
time within which a retailer may file his return, in the case of any retailer
who ceases to engage in a kind of business which makes him responsible
for filing returns under this Act, such retailer shall file a final return under
this Act with the Department not more than one month after discontinuing
such business.

Where the same person has more than one business registered with
the Department under separate registrations under this Act, such person
may not file each return that is due as a single return covering all such
registered businesses, but shall file separate returns for each such
registered business.

In addition, with respect to motor vehicles, watercraft, aircraft, and
trailers that are required to be registered with an agency of this State, every
retailer selling this kind of tangible personal property shall file, with the
Department, upon a form to be prescribed and supplied by the Department,
a separate return for each such item of tangible personal property which
the retailer sells, except that if, in the same transaction, (i) a retailer of
aircraft, watercraft, motor vehicles or trailers transfers more than one
aircraft, watercraft, motor vehicle or trailer to another aircraft, watercraft,
motor vehicle retailer or trailer retailer for the purpose of resale or (ii) a

retailer of aircraft, watercraft, motor vehicles, or trailers transfers more than one aircraft, watercraft, motor vehicle, or trailer to a purchaser for use as a qualifying rolling stock as provided in Section 2-5 of this Act, then that seller may report the transfer of all aircraft, watercraft, motor vehicles or trailers involved in that transaction to the Department on the same uniform invoice-transaction reporting return form. For purposes of this Section, "watercraft" means a Class 2, Class 3, or Class 4 watercraft as defined in Section 3-2 of the Boat Registration and Safety Act, a personal watercraft, or any boat equipped with an inboard motor.

Any retailer who sells only motor vehicles, watercraft, aircraft, or trailers that are required to be registered with an agency of this State, so that all retailers' occupation tax liability is required to be reported, and is reported, on such transaction reporting returns and who is not otherwise required to file monthly or quarterly returns, need not file monthly or quarterly returns. However, those retailers shall be required to file returns on an annual basis.

The transaction reporting return, in the case of motor vehicles or trailers that are required to be registered with an agency of this State, shall be the same document as the Uniform Invoice referred to in Section 5-402 of The Illinois Vehicle Code and must show the name and address of the seller; the name and address of the purchaser; the amount of the selling price including the amount allowed by the retailer for traded-in property, if any; the amount allowed by the retailer for the traded-in tangible personal property, if any, to the extent to which Section 1 of this Act allows an exemption for the value of traded-in property; the balance payable after deducting such trade-in allowance from the total selling price; the amount of tax due from the retailer with respect to such transaction; the amount of tax collected from the purchaser by the retailer on such transaction (or satisfactory evidence that such tax is not due in that particular instance, if that is claimed to be the fact); the place and date of the sale; a sufficient identification of the property sold; such other information as is required in Section 5-402 of The Illinois Vehicle Code, and such other information as the Department may reasonably require.

The transaction reporting return in the case of watercraft or aircraft must show the name and address of the seller; the name and address of the purchaser; the amount of the selling price including the amount allowed by the retailer for traded-in property, if any; the amount allowed by the retailer for the traded-in tangible personal property, if any, to the extent to which Section 1 of this Act allows an exemption for the value of traded-in

property; the balance payable after deducting such trade-in allowance from the total selling price; the amount of tax due from the retailer with respect to such transaction; the amount of tax collected from the purchaser by the retailer on such transaction (or satisfactory evidence that such tax is not due in that particular instance, if that is claimed to be the fact); the place and date of the sale, a sufficient identification of the property sold, and such other information as the Department may reasonably require.

Such transaction reporting return shall be filed not later than 20 days after the day of delivery of the item that is being sold, but may be filed by the retailer at any time sooner than that if he chooses to do so. The transaction reporting return and tax remittance or proof of exemption from the Illinois use tax may be transmitted to the Department by way of the State agency with which, or State officer with whom the tangible personal property must be titled or registered (if titling or registration is required) if the Department and such agency or State officer determine that this procedure will expedite the processing of applications for title or registration.

With each such transaction reporting return, the retailer shall remit the proper amount of tax due (or shall submit satisfactory evidence that the sale is not taxable if that is the case), to the Department or its agents, whereupon the Department shall issue, in the purchaser's name, a use tax receipt (or a certificate of exemption if the Department is satisfied that the particular sale is tax exempt) which such purchaser may submit to the agency with which, or State officer with whom, he must title or register the tangible personal property that is involved (if titling or registration is required) in support of such purchaser's application for an Illinois certificate or other evidence of title or registration to such tangible personal property.

No retailer's failure or refusal to remit tax under this Act precludes a user, who has paid the proper tax to the retailer, from obtaining his certificate of title or other evidence of title or registration (if titling or registration is required) upon satisfying the Department that such user has paid the proper tax (if tax is due) to the retailer. The Department shall adopt appropriate rules to carry out the mandate of this paragraph.

If the user who would otherwise pay tax to the retailer wants the transaction reporting return filed and the payment of the tax or proof of exemption made to the Department before the retailer is willing to take these actions and such user has not paid the tax to the retailer, such user may certify to the fact of such delay by the retailer and may (upon the
Department being satisfied of the truth of such certification) transmit the information required by the transaction reporting return and the remittance for tax or proof of exemption directly to the Department and obtain his tax receipt or exemption determination, in which event the transaction reporting return and tax remittance (if a tax payment was required) shall be credited by the Department to the proper retailer's account with the Department, but without the 2.1% or 1.75% discount provided for in this Section being allowed. When the user pays the tax directly to the Department, he shall pay the tax in the same amount and in the same form in which it would be remitted if the tax had been remitted to the Department by the retailer.

Refunds made by the seller during the preceding return period to purchasers, on account of tangible personal property returned to the seller, shall be allowed as a deduction under subdivision 5 of his monthly or quarterly return, as the case may be, in case the seller had theretofore included the receipts from the sale of such tangible personal property in a return filed by him and had paid the tax imposed by this Act with respect to such receipts.

Where the seller is a corporation, the return filed on behalf of such corporation shall be signed by the president, vice-president, secretary or treasurer or by the properly accredited agent of such corporation.

Where the seller is a limited liability company, the return filed on behalf of the limited liability company shall be signed by a manager, member, or properly accredited agent of the limited liability company.

Except as provided in this Section, the retailer filing the return under this Section shall, at the time of filing such return, pay to the Department the amount of tax imposed by this Act less a discount of 2.1% prior to January 1, 1990 and 1.75% on and after January 1, 1990, or $5 per calendar year, whichever is greater, which is allowed to reimburse the retailer for the expenses incurred in keeping records, preparing and filing returns, remitting the tax and supplying data to the Department on request. Any prepayment made pursuant to Section 2d of this Act shall be included in the amount on which such 2.1% or 1.75% discount is computed. In the case of retailers who report and pay the tax on a transaction by transaction basis, as provided in this Section, such discount shall be taken with each such tax remittance instead of when such retailer files his periodic return.

Before October 1, 2000, if the taxpayer's average monthly tax liability to the Department under this Act, the Use Tax Act, the Service Occupation Tax Act, and the Service Use Tax Act, excluding any liability

for prepaid sales tax to be remitted in accordance with Section 2d of this Act, was $10,000 or more during the preceding 4 complete calendar quarters, he shall file a return with the Department each month by the 20th day of the month next following the month during which such tax liability is incurred and shall make payments to the Department on or before the 7th, 15th, 22nd and last day of the month during which such liability is incurred. On and after October 1, 2000, if the taxpayer's average monthly tax liability to the Department under this Act, the Use Tax Act, the Service Occupation Tax Act, and the Service Use Tax Act, excluding any liability for prepaid sales tax to be remitted in accordance with Section 2d of this Act, was $20,000 or more during the preceding 4 complete calendar quarters, he shall file a return with the Department each month by the 20th day of the month next following the month during which such tax liability is incurred and shall make payment to the Department on or before the 7th, 15th, 22nd and last day of the month during which such liability is incurred. If the month during which such tax liability is incurred began prior to January 1, 1985, each payment shall be in an amount equal to 1/4 of the taxpayer's actual liability for the month or an amount set by the Department not to exceed 1/4 of the average monthly liability of the taxpayer to the Department for the preceding 4 complete calendar quarters (excluding the month of highest liability and the month of lowest liability in such 4 quarter period). If the month during which such tax liability is incurred begins on or after January 1, 1985 and prior to January 1, 1987, each payment shall be in an amount equal to 22.5% of the taxpayer's actual liability for the month or 27.5% of the taxpayer's liability for the same calendar month of the preceding year. If the month during which such tax liability is incurred begins on or after January 1, 1987 and prior to January 1, 1988, each payment shall be in an amount equal to 22.5% of the taxpayer's actual liability for the month or 26.25% of the taxpayer's liability for the same calendar month of the preceding year. If the month during which such tax liability is incurred begins on or after January 1, 1988, and prior to January 1, 1989, or begins on or after January 1, 1996, each payment shall be in an amount equal to 22.5% of the taxpayer's actual liability for the month or 25% of the taxpayer's liability for the same calendar month of the preceding year. If the month during which such tax liability is incurred begins on or after January 1, 1989, and prior to January 1, 1996, each payment shall be in an amount equal to 22.5% of the taxpayer's actual liability for the month or 25% of the taxpayer's liability for the same calendar month of the preceding year or 100% of the
taxpayer's actual liability for the quarter monthly reporting period. The amount of such quarter monthly payments shall be credited against the final tax liability of the taxpayer's return for that month. Before October 1, 2000, once applicable, the requirement of the making of quarter monthly payments to the Department by taxpayers having an average monthly tax liability of $10,000 or more as determined in the manner provided above shall continue until such taxpayer's average monthly liability to the Department during the preceding 4 complete calendar quarters (excluding the month of highest liability and the month of lowest liability) is less than $9,000, or until such taxpayer's average monthly liability to the Department as computed for each calendar quarter of the 4 preceding complete calendar quarter period is less than $10,000. However, if a taxpayer can show the Department that a substantial change in the taxpayer's business has occurred which causes the taxpayer to anticipate that his average monthly tax liability for the reasonably foreseeable future will fall below the $10,000 threshold stated above, then such taxpayer may petition the Department for a change in such taxpayer's reporting status. On and after October 1, 2000, once applicable, the requirement of the making of quarter monthly payments to the Department by taxpayers having an average monthly tax liability of $20,000 or more as determined in the manner provided above shall continue until such taxpayer's average monthly liability to the Department during the preceding 4 complete calendar quarters (excluding the month of highest liability and the month of lowest liability) is less than $19,000 or until such taxpayer's average monthly liability to the Department as computed for each calendar quarter of the 4 preceding complete calendar quarter period is less than $20,000. However, if a taxpayer can show the Department that a substantial change in the taxpayer's business has occurred which causes the taxpayer to anticipate that his average monthly tax liability for the reasonably foreseeable future will fall below the $20,000 threshold stated above, then such taxpayer may petition the Department for a change in such taxpayer's reporting status. The Department shall change such taxpayer's reporting status unless it finds that such change is seasonal in nature and not likely to be long term. If any such quarter monthly payment is not paid at the time or in the amount required by this Section, then the taxpayer shall be liable for penalties and interest on the difference between the minimum amount due as a payment and the amount of such quarter monthly payment actually and timely paid, except insofar as the taxpayer has previously made payments for that month to the Department in excess of the

New matter indicated by italics - deletions by strikeout
minimum payments previously due as provided in this Section. The Department shall make reasonable rules and regulations to govern the quarter monthly payment amount and quarter monthly payment dates for taxpayers who file on other than a calendar monthly basis.

The provisions of this paragraph apply before October 1, 2001. Without regard to whether a taxpayer is required to make quarter monthly payments as specified above, any taxpayer who is required by Section 2d of this Act to collect and remit prepaid taxes and has collected prepaid taxes which average in excess of $25,000 per month during the preceding 2 complete calendar quarters, shall file a return with the Department as required by Section 2f and shall make payments to the Department on or before the 7th, 15th, 22nd and last day of the month during which such liability is incurred. If the month during which such tax liability is incurred began prior to the effective date of this amendatory Act of 1985, each payment shall be in an amount not less than 22.5% of the taxpayer's actual liability under Section 2d. If the month during which such tax liability is incurred begins on or after January 1, 1986, each payment shall be in an amount equal to 22.5% of the taxpayer's actual liability for the month or 27.5% of the taxpayer's liability for the same calendar month of the preceding calendar year. If the month during which such tax liability is incurred begins on or after January 1, 1987, each payment shall be in an amount equal to 22.5% of the taxpayer's actual liability for the month or 26.25% of the taxpayer's liability for the same calendar month of the preceding year. The amount of such quarter monthly payments shall be credited against the final tax liability of the taxpayer's return for that month filed under this Section or Section 2f, as the case may be. Once applicable, the requirement of the making of quarter monthly payments to the Department pursuant to this paragraph shall continue until such taxpayer's average monthly prepaid tax collections during the preceding 2 complete calendar quarters is $25,000 or less. If any such quarter monthly payment is not paid at the time or in the amount required, the taxpayer shall be liable for penalties and interest on such difference, except insofar as the taxpayer has previously made payments for that month in excess of the minimum payments previously due.

The provisions of this paragraph apply on and after October 1, 2001. Without regard to whether a taxpayer is required to make quarter monthly payments as specified above, any taxpayer who is required by Section 2d of this Act to collect and remit prepaid taxes and has collected prepaid taxes that average in excess of $20,000 per month during the

preceding 4 complete calendar quarters shall file a return with the Department as required by Section 2f and shall make payments to the Department on or before the 7th, 15th, 22nd and last day of the month during which the liability is incurred. Each payment shall be in an amount equal to 22.5% of the taxpayer's actual liability for the month or 25% of the taxpayer's liability for the same calendar month of the preceding year. The amount of the quarter monthly payments shall be credited against the final tax liability of the taxpayer's return for that month filed under this Section or Section 2f, as the case may be. Once applicable, the requirement of the making of quarter monthly payments to the Department pursuant to this paragraph shall continue until the taxpayer's average monthly prepaid tax collections during the preceding 4 complete calendar quarters (excluding the month of highest liability and the month of lowest liability) is less than $19,000 or until such taxpayer's average monthly liability to the Department as computed for each calendar quarter of the 4 preceding complete calendar quarters is less than $20,000. If any such quarter monthly payment is not paid at the time or in the amount required, the taxpayer shall be liable for penalties and interest on such difference, except insofar as the taxpayer has previously made payments for that month in excess of the minimum payments previously due.

If any payment provided for in this Section exceeds the taxpayer's liabilities under this Act, the Use Tax Act, the Service Occupation Tax Act and the Service Use Tax Act, as shown on an original monthly return, the Department shall, if requested by the taxpayer, issue to the taxpayer a credit memorandum no later than 30 days after the date of payment. The credit evidenced by such credit memorandum may be assigned by the taxpayer to a similar taxpayer under this Act, the Use Tax Act, the Service Occupation Tax Act or the Service Use Tax Act, in accordance with reasonable rules and regulations to be prescribed by the Department. If no such request is made, the taxpayer may credit such excess payment against tax liability subsequently to be remitted to the Department under this Act, the Use Tax Act, the Service Occupation Tax Act or the Service Use Tax Act, in accordance with reasonable rules and regulations prescribed by the Department. If the Department subsequently determined that all or any part of the credit taken was not actually due to the taxpayer, the taxpayer's 2.1% and 1.75% vendor's discount shall be reduced by 2.1% or 1.75% of the difference between the credit taken and that actually due, and that taxpayer shall be liable for penalties and interest on such difference.

and means the Certified Annual Debt Service Requirement (as defined in Section 13 of the Build Illinois Bond Act) or the Tax Act Amount,
whichever is greater, for fiscal year 1994 and each fiscal year thereafter; and further provided, that if on the last business day of any month the sum of (1) the Tax Act Amount required to be deposited into the Build Illinois Bond Account in the Build Illinois Fund during such month and (2) the amount transferred to the Build Illinois Fund from the State and Local Sales Tax Reform Fund shall have been less than 1/12 of the Annual Specified Amount, an amount equal to the difference shall be immediately paid into the Build Illinois Fund from other moneys received by the Department pursuant to the Tax Acts; and, further provided, that in no event shall the payments required under the preceding proviso result in aggregate payments into the Build Illinois Fund pursuant to this clause (b) for any fiscal year in excess of the greater of (i) the Tax Act Amount or (ii) the Annual Specified Amount for such fiscal year. The amounts payable into the Build Illinois Fund under clause (b) of the first sentence in this paragraph shall be payable only until such time as the aggregate amount on deposit under each trust indenture securing Bonds issued and outstanding pursuant to the Build Illinois Bond Act is sufficient, taking into account any future investment income, to fully provide, in accordance with such indenture, for the defeasance of or the payment of the principal of, premium, if any, and interest on the Bonds secured by such indenture and on any Bonds expected to be issued thereafter and all fees and costs payable with respect thereto, all as certified by the Director of the Bureau of the Budget (now Governor's Office of Management and Budget). If on the last business day of any month in which Bonds are outstanding pursuant to the Build Illinois Bond Act, the aggregate of moneys deposited in the Build Illinois Bond Account in the Build Illinois Fund in such month shall be less than the amount required to be transferred in such month from the Build Illinois Bond Account to the Build Illinois Bond Retirement and Interest Fund pursuant to Section 13 of the Build Illinois Bond Act, an amount equal to such deficiency shall be immediately paid from other moneys received by the Department pursuant to the Tax Acts to the Build Illinois Fund; provided, however, that any amounts paid to the Build Illinois Fund in any fiscal year pursuant to this sentence shall be deemed to constitute payments pursuant to clause (b) of the first sentence of this paragraph and shall reduce the amount otherwise payable for such fiscal year pursuant to that clause (b). The moneys received by the Department pursuant to this Act and required to be deposited into the Build Illinois Fund are subject to the pledge, claim and charge set forth in Section 12 of the Build Illinois Bond Act.
Subject to payment of amounts into the Build Illinois Fund as provided in the preceding paragraph or in any amendment thereto hereafter enacted, the following specified monthly installment of the amount requested in the certificate of the Chairman of the Metropolitan Pier and Exposition Authority provided under Section 8.25f of the State Finance Act, but not in excess of sums designated as "Total Deposit", shall be deposited in the aggregate from collections under Section 9 of the Use Tax Act, Section 9 of the Service Use Tax Act, Section 9 of the Service Occupation Tax Act, and Section 3 of the Retailers' Occupation Tax Act into the McCormick Place Expansion Project Fund in the specified fiscal years.

Beginning July 20, 1993 and in each month of each fiscal year thereafter, one-eighth of the amount requested in the certificate of the Chairman of the Metropolitan Pier and Exposition Authority for that fiscal year, less the amount deposited into the McCormick Place Expansion Project Fund by the State Treasurer in the respective month under subsection (g) of Section 13 of the Metropolitan Pier and Exposition Authority Act, plus cumulative deficiencies in the deposits required under this Section for previous months and years, shall be deposited into the McCormick Place Expansion Project Fund, until the full amount requested for the fiscal year, but not in excess of the amount specified above as "Total Deposit", has been deposited.

Subject to payment of amounts into the Build Illinois Fund and the McCormick Place Expansion Project Fund pursuant to the preceding paragraphs or in any amendments thereto hereafter enacted, beginning July 1, 1993 and ending on September 30, 2013, the Department shall each month pay into the Illinois Tax Increment Fund 0.27% of 80% of the net

revenue realized for the preceding month from the 6.25% general rate on the selling price of tangible personal property.

Subject to payment of amounts into the Build Illinois Fund and the McCormick Place Expansion Project Fund pursuant to the preceding paragraphs or in any amendments thereto hereafter enacted, beginning with the receipt of the first report of taxes paid by an eligible business and continuing for a 25-year period, the Department shall each month pay into the Energy Infrastructure Fund 80% of the net revenue realized from the 6.25% general rate on the selling price of Illinois-mined coal that was sold to an eligible business. For purposes of this paragraph, the term "eligible business" means a new electric generating facility certified pursuant to Section 605-332 of the Department of Commerce and Economic Opportunity Law of the Civil Administrative Code of Illinois.

Of the remainder of the moneys received by the Department pursuant to this Act, 75% thereof shall be paid into the State Treasury and 25% shall be reserved in a special account and used only for the transfer to the Common School Fund as part of the monthly transfer from the General Revenue Fund in accordance with Section 8a of the State Finance Act.

The Department may, upon separate written notice to a taxpayer, require the taxpayer to prepare and file with the Department on a form prescribed by the Department within not less than 60 days after receipt of the notice an annual information return for the tax year specified in the notice. Such annual return to the Department shall include a statement of gross receipts as shown by the retailer's last Federal income tax return. If the total receipts of the business as reported in the Federal income tax return do not agree with the gross receipts reported to the Department of Revenue for the same period, the retailer shall attach to his annual return a schedule showing a reconciliation of the 2 amounts and the reasons for the difference. The retailer's annual return to the Department shall also disclose the cost of goods sold by the retailer during the year covered by such return, opening and closing inventories of such goods for such year, costs of goods used from stock or taken from stock and given away by the retailer during such year, payroll information of the retailer's business during such year and any additional reasonable information which the Department deems would be helpful in determining the accuracy of the monthly, quarterly or annual returns filed by such retailer as provided for in this Section.

If the annual information return required by this Section is not filed when and as required, the taxpayer shall be liable as follows:

New matter indicated by italics - deletions by strikeout
(i) Until January 1, 1994, the taxpayer shall be liable for a penalty equal to 1/6 of 1% of the tax due from such taxpayer under this Act during the period to be covered by the annual return for each month or fraction of a month until such return is filed as required, the penalty to be assessed and collected in the same manner as any other penalty provided for in this Act.

(ii) On and after January 1, 1994, the taxpayer shall be liable for a penalty as described in Section 3-4 of the Uniform Penalty and Interest Act.

The chief executive officer, proprietor, owner or highest ranking manager shall sign the annual return to certify the accuracy of the information contained therein. Any person who willfully signs the annual return containing false or inaccurate information shall be guilty of perjury and punished accordingly. The annual return form prescribed by the Department shall include a warning that the person signing the return may be liable for perjury.

The provisions of this Section concerning the filing of an annual information return do not apply to a retailer who is not required to file an income tax return with the United States Government.

As soon as possible after the first day of each month, upon certification of the Department of Revenue, the Comptroller shall order transferred and the Treasurer shall transfer from the General Revenue Fund to the Motor Fuel Tax Fund an amount equal to 1.7% of 80% of the net revenue realized under this Act for the second preceding month. Beginning April 1, 2000, this transfer is no longer required and shall not be made.

Net revenue realized for a month shall be the revenue collected by the State pursuant to this Act, less the amount paid out during that month as refunds to taxpayers for overpayment of liability.

For greater simplicity of administration, manufacturers, importers and wholesalers whose products are sold at retail in Illinois by numerous retailers, and who wish to do so, may assume the responsibility for accounting and paying to the Department all tax accruing under this Act with respect to such sales, if the retailers who are affected do not make written objection to the Department to this arrangement.

Any person who promotes, organizes, provides retail selling space for concessionaires or other types of sellers at the Illinois State Fair, DuQuoin State Fair, county fairs, local fairs, art shows, flea markets and similar exhibitions or events, including any transient merchant as defined...
by Section 2 of the Transient Merchant Act of 1987, is required to file a report with the Department providing the name of the merchant's business, the name of the person or persons engaged in merchant's business, the permanent address and Illinois Retailers Occupation Tax Registration Number of the merchant, the dates and location of the event and other reasonable information that the Department may require. The report must be filed not later than the 20th day of the month next following the month during which the event with retail sales was held. Any person who fails to file a report required by this Section commits a business offense and is subject to a fine not to exceed $250.

Any person engaged in the business of selling tangible personal property at retail as a concessionaire or other type of seller at the Illinois State Fair, county fairs, art shows, flea markets and similar exhibitions or events, or any transient merchants, as defined by Section 2 of the Transient Merchant Act of 1987, may be required to make a daily report of the amount of such sales to the Department and to make a daily payment of the full amount of tax due. The Department shall impose this requirement when it finds that there is a significant risk of loss of revenue to the State at such an exhibition or event. Such a finding shall be based on evidence that a substantial number of concessionaires or other sellers who are not residents of Illinois will be engaging in the business of selling tangible personal property at retail at the exhibition or event, or other evidence of a significant risk of loss of revenue to the State. The Department shall notify concessionaires and other sellers affected by the imposition of this requirement. In the absence of notification by the Department, the concessionaires and other sellers shall file their returns as otherwise required in this Section.

(35 ILCS 505/8) (from Ch. 120, par. 424)

Sec. 8. Except as provided in Section 8a, subdivision (h)(1) of Section 12a, Section 13a.6, and items 13, 14, 15, and 16 of Section 15, all money received by the Department under this Act, including payments made to the Department by member jurisdictions participating in the International Fuel Tax Agreement, shall be deposited in a special fund in the State treasury, to be known as the "Motor Fuel Tax Fund", and shall be used as follows:

New matter indicated by italics - deletions by strikeout
(a) 2 1/2 cents per gallon of the tax collected on special fuel under paragraph (b) of Section 2 and Section 13a of this Act shall be transferred to the State Construction Account Fund in the State Treasury;
(b) $420,000 shall be transferred each month to the State Boating Act Fund to be used by the Department of Natural Resources for the purposes specified in Article X of the Boat Registration and Safety Act;
(c) $3,500,000 shall be transferred each month to the Grade Crossing Protection Fund to be used as follows: not less than $12,000,000 each fiscal year shall be used for the construction or reconstruction of rail highway grade separation structures; $2,250,000 in fiscal years 2004 through 2009 and $3,000,000 in fiscal year 2010 and each fiscal year thereafter shall be transferred to the Transportation Regulatory Fund and shall be accounted for as part of the rail carrier portion of such funds and shall be used to pay the cost of administration of the Illinois Commerce Commission's railroad safety program in connection with its duties under subsection (3) of Section 18c-7401 of the Illinois Vehicle Code, with the remainder to be used by the Department of Transportation upon order of the Illinois Commerce Commission, to pay that part of the cost apportioned by such Commission to the State to cover the interest of the public in the use of highways, roads, streets, or pedestrian walkways in the county highway system, township and district road system, or municipal street system as defined in the Illinois Highway Code, as the same may from time to time be amended, for separation of grades, for installation, construction or reconstruction of crossing protection or reconstruction, alteration, relocation including construction or improvement of any existing highway necessary for access to property or improvement of any grade crossing and grade crossing surface including the necessary highway approaches thereto of any railroad across the highway or public road, or for the installation, construction, reconstruction, or maintenance of a pedestrian walkway over or under a railroad right-of-way, as provided for in and in accordance with Section 18c-7401 of the Illinois Vehicle Code. The Commission may order up to $2,000,000 per year in Grade Crossing Protection Fund moneys for the improvement of grade crossing surfaces and up to $300,000 per year for the maintenance and renewal of 4-quadrant gate vehicle detection systems located at non-high speed rail grade crossings. The Commission shall not order more than $2,000,000 per year in Grade Crossing Protection Fund moneys for pedestrian walkways. In entering orders for projects for which payments from the Grade Crossing Protection Fund will be made, the Commission shall
account for expenditures authorized by the orders on a cash rather than an accrual basis. For purposes of this requirement an "accrual basis" assumes that the total cost of the project is expended in the fiscal year in which the order is entered, while a "cash basis" allocates the cost of the project among fiscal years as expenditures are actually made. To meet the requirements of this subsection, the Illinois Commerce Commission shall develop annual and 5-year project plans of rail crossing capital improvements that will be paid for with moneys from the Grade Crossing Protection Fund. The annual project plan shall identify projects for the succeeding fiscal year and the 5-year project plan shall identify projects for the 5 directly succeeding fiscal years. The Commission shall submit the annual and 5-year project plans for this Fund to the Governor, the President of the Senate, the Senate Minority Leader, the Speaker of the House of Representatives, and the Minority Leader of the House of Representatives on the first Wednesday in April of each year;

(d) of the amount remaining after allocations provided for in subsections (a), (b) and (c), a sufficient amount shall be reserved to pay all of the following:

(1) the costs of the Department of Revenue in administering this Act;
(2) the costs of the Department of Transportation in performing its duties imposed by the Illinois Highway Code for supervising the use of motor fuel tax funds apportioned to municipalities, counties and road districts;
(3) refunds provided for in Section 13, refunds for overpayment of decal fees paid under Section 13a.4 of this Act, and refunds provided for under the terms of the International Fuel Tax Agreement referenced in Section 14a;
(4) from October 1, 1985 until June 30, 1994, the administration of the Vehicle Emissions Inspection Law, which amount shall be certified monthly by the Environmental Protection Agency to the State Comptroller and shall promptly be transferred by the State Comptroller and Treasurer from the Motor Fuel Tax Fund to the Vehicle Inspection Fund, and for the period July 1, 1994 through June 30, 2000, one-twelfth of $25,000,000 each month, for the period July 1, 2000 through June 30, 2003, one-twelfth of $30,000,000 each month, and $15,000,000 on July 1, 2003, and $15,000,000 on January 1, 2004, and $15,000,000 on each July 1 and October 1, or as soon thereafter as may be
practical, during the period July 1, 2004 through June 30, 2012, and $30,000,000 on June 1, 2013, or as soon thereafter as may be practical, and $15,000,000 on July 1 and October 1, or as soon thereafter as may be practical, during the period of July 1, 2013 through June 30, 2014, for the administration of the Vehicle Emissions Inspection Law of 2005, to be transferred by the State Comptroller and Treasurer from the Motor Fuel Tax Fund into the Vehicle Inspection Fund;

(5) amounts ordered paid by the Court of Claims; and

(6) payment of motor fuel use taxes due to member jurisdictions under the terms of the International Fuel Tax Agreement. The Department shall certify these amounts to the Comptroller by the 15th day of each month; the Comptroller shall cause orders to be drawn for such amounts, and the Treasurer shall administer those amounts on or before the last day of each month;

(e) after allocations for the purposes set forth in subsections (a), (b), (c) and (d), the remaining amount shall be apportioned as follows:

(1) Until January 1, 2000, 58.4%, and beginning January 1, 2000, 45.6% shall be deposited as follows:

(A) 37% into the State Construction Account Fund, and

(B) 63% into the Road Fund, $1,250,000 of which shall be reserved each month for the Department of Transportation to be used in accordance with the provisions of Sections 6-901 through 6-906 of the Illinois Highway Code;

(2) Until January 1, 2000, 41.6%, and beginning January 1, 2000, 54.4% shall be transferred to the Department of Transportation to be distributed as follows:

(A) 49.10% to the municipalities of the State,

(B) 16.74% to the counties of the State having 1,000,000 or more inhabitants,

(C) 18.27% to the counties of the State having less than 1,000,000 inhabitants,

(D) 15.89% to the road districts of the State.

As soon as may be after the first day of each month the Department of Transportation shall allot to each municipality its share of the amount apportioned to the several municipalities which shall be in proportion to the population of such municipalities as determined by the last preceding

municipal census if conducted by the Federal Government or Federal census. If territory is annexed to any municipality subsequent to the time of the last preceding census the corporate authorities of such municipality may cause a census to be taken of such annexed territory and the population so ascertained for such territory shall be added to the population of the municipality as determined by the last preceding census for the purpose of determining the allotment for that municipality. If the population of any municipality was not determined by the last Federal census preceding any apportionment, the apportionment to such municipality shall be in accordance with any census taken by such municipality. Any municipal census used in accordance with this Section shall be certified to the Department of Transportation by the clerk of such municipality, and the accuracy thereof shall be subject to approval of the Department which may make such corrections as it ascertains to be necessary.

As soon as may be after the first day of each month the Department of Transportation shall allot to each county its share of the amount apportioned to the several counties of the State as herein provided. Each allotment to the several counties having less than 1,000,000 inhabitants shall be in proportion to the amount of motor vehicle license fees received from the residents of such counties, respectively, during the preceding calendar year. The Secretary of State shall, on or before April 15 of each year, transmit to the Department of Transportation a full and complete report showing the amount of motor vehicle license fees received from the residents of each county, respectively, during the preceding calendar year. The Department of Transportation shall, each month, use for allotment purposes the last such report received from the Secretary of State.

As soon as may be after the first day of each month, the Department of Transportation shall allot to the several counties their share of the amount apportioned for the use of road districts. The allotment shall be apportioned among the several counties in the State in the proportion which the total mileage of township or district roads in the respective counties bears to the total mileage of all township and district roads in the State. Funds allotted to the respective counties for the use of road districts therein shall be allocated to the several road districts in the county in the proportion which the total mileage of such township or district roads in the respective road districts bears to the total mileage of all such township or district roads in the county. After July 1 of any year prior to 2011, no allocation shall be made for any road district unless it levied a tax for road

and bridge purposes in an amount which will require the extension of such tax against the taxable property in any such road district at a rate of not less than either .08% of the value thereof, based upon the assessment for the year immediately prior to the year in which such tax was levied and as equalized by the Department of Revenue or, in DuPage County, an amount equal to or greater than $12,000 per mile of road under the jurisdiction of the road district, whichever is less. Beginning July 1, 2011 and each July 1 thereafter, an allocation shall be made for any road district if it levied a tax for road and bridge purposes. In counties other than DuPage County, if the amount of the tax levy requires the extension of the tax against the taxable property in the road district at a rate that is less than 0.08% of the value thereof, based upon the assessment for the year immediately prior to the year in which the tax was levied and as equalized by the Department of Revenue, then the amount of the allocation for that road district shall be a percentage of the maximum allocation equal to the percentage obtained by dividing the rate extended by the district by 0.08%. In DuPage County, if the amount of the tax levy requires the extension of the tax against the taxable property in the road district at a rate that is less than the lesser of (i) 0.08% of the value of the taxable property in the road district, based upon the assessment for the year immediately prior to the year in which such tax was levied and as equalized by the Department of Revenue, or (ii) a rate that will yield an amount equal to $12,000 per mile of road under the jurisdiction of the road district, then the amount of the allocation for the road district shall be a percentage of the maximum allocation equal to the percentage obtained by dividing the rate extended by the district by the lesser of (i) 0.08% or (ii) the rate that will yield an amount equal to $12,000 per mile of road under the jurisdiction of the road district.

Prior to 2011, if any road district has levied a special tax for road purposes pursuant to Sections 6-601, 6-602 and 6-603 of the Illinois Highway Code, and such tax was levied in an amount which would require extension at a rate of not less than .08% of the value of the taxable property thereof, as equalized or assessed by the Department of Revenue, or, in DuPage County, an amount equal to or greater than $12,000 per mile of road under the jurisdiction of the road district, whichever is less, such levy shall, however, be deemed a proper compliance with this Section and shall qualify such road district for an allotment under this Section. Beginning in 2011 and thereafter, if any road district has levied a special tax for road purposes under Sections 6-601, 6-602, and 6-603 of the Illinois Highway Code, and the tax was levied in an amount that would
require extension at a rate of not less than 0.08% of the value of the taxable property of that road district, as equalized or assessed by the Department of Revenue or, in DuPage County, an amount equal to or greater than $12,000 per mile of road under the jurisdiction of the road district, whichever is less, that levy shall be deemed a proper compliance with this Section and shall qualify such road district for a full, rather than proportionate, allotment under this Section. If the levy for the special tax is less than 0.08% of the value of the taxable property, or, in DuPage County if the levy for the special tax is less than the lesser of (i) 0.08% or (ii) $12,000 per mile of road under the jurisdiction of the road district, and if the levy for the special tax is more than any other levy for road and bridge purposes, then the levy for the special tax qualifies the road district for a proportionate, rather than full, allotment under this Section. If the levy for the special tax is equal to or less than any other levy for road and bridge purposes, then any allotment under this Section shall be determined by the other levy for road and bridge purposes.

Prior to 2011, if a township has transferred to the road and bridge fund money which, when added to the amount of any tax levy of the road district would be the equivalent of a tax levy requiring extension at a rate of at least .08%, or, in DuPage County, an amount equal to or greater than $12,000 per mile of road under the jurisdiction of the road district, whichever is less, such transfer, together with any such tax levy, shall be deemed a proper compliance with this Section and shall qualify the road district for an allotment under this Section.

In counties in which a property tax extension limitation is imposed under the Property Tax Extension Limitation Law, road districts may retain their entitlement to a motor fuel tax allotment or, beginning in 2011, their entitlement to a full allotment if, at the time the property tax extension limitation was imposed, the road district was levying a road and bridge tax at a rate sufficient to entitle it to a motor fuel tax allotment and continues to levy the maximum allowable amount after the imposition of the property tax extension limitation. Any road district may in all circumstances retain its entitlement to a motor fuel tax allotment or, beginning in 2011, its entitlement to a full allotment if it levied a road and bridge tax in an amount that will require the extension of the tax against the taxable property in the road district at a rate of not less than 0.08% of the assessed value of the property, based upon the assessment for the year immediately preceding the year in which the tax was levied and as equalized by the Department of Revenue or, in DuPage County, an amount

equal to or greater than $12,000 per mile of road under the jurisdiction of the road district, whichever is less.

As used in this Section the term "road district" means any road district, including a county unit road district, provided for by the Illinois Highway Code; and the term "township or district road" means any road in the township and district road system as defined in the Illinois Highway Code. For the purposes of this Section, "township or district road" also includes such roads as are maintained by park districts, forest preserve districts and conservation districts. The Department of Transportation shall determine the mileage of all township and district roads for the purposes of making allotments and allocations of motor fuel tax funds for use in road districts.

Payment of motor fuel tax moneys to municipalities and counties shall be made as soon as possible after the allotment is made. The treasurer of the municipality or county may invest these funds until their use is required and the interest earned by these investments shall be limited to the same uses as the principal funds.

(a) For the purpose of effectuating the policy declared in Section 1-5 of this Act, a State agency known as the Illinois Independent Tax Tribunal is created. The Tax Tribunal shall have the powers and duties enumerated in this Act, together with such others conferred upon it by law. The Tax Tribunal shall operate as an independent agency, and shall be separate from the authority of the Director of Revenue and the Department of Revenue.

(b) Except as otherwise limited by this Act, the Tax Tribunal has all of the powers necessary or convenient to carry out the purposes and provisions of this Act, including, without limitation, each of the following:

(2) To accept and expend appropriations.
(3) To obtain and employ personnel as required in this Act, including any additional personnel necessary to fulfill the Tax Tribunal's purposes, and to make expenditures for personnel within the appropriations for that purpose.

(4) To maintain offices at such places as required under this Act, and elsewhere as the Tax Tribunal may determine.

(5) To engage in any activity or operation that is incidental to and in furtherance of efficient operation to accomplish the Tax Tribunal's purposes.

(c) Unless otherwise stated, the Tax Tribunal is subject to the provisions of all applicable laws, including, but not limited to, each of the following:

(1) The State Records Act.

(2) The Illinois Procurement Code, except that the Illinois Procurement Code does not apply to the hiring of the chief administrative law judge or other administrative law judges pursuant to Section 1-25 of this Act.

(3) The Freedom of Information Act, except as otherwise provided in Section 7 of that Act.

(4) The State Property Control Act.

(5) The State Officials and Employees Ethics Act.

(6) The Illinois Administrative Procedure Act, to the extent not inconsistent with the provisions of this Act.

(7) The Illinois State Auditing Act. For purposes of the Illinois State Auditing Act, the Tax Tribunal is a "State agency" within the meaning of the Act and is subject to the jurisdiction of the Auditor General.

(d) Notwithstanding any provision in the tax statutes listed in Section 1-45 of this Act, the Tax Tribunal shall exercise its jurisdiction on and after January 1, 2014, and any protests prior to that date shall continue to be filed with the Department, and the Department shall exercise jurisdiction over such matters on or after July 1, 2013, but the administrative law judges of the Tax Tribunal may be appointed prior to that date and may take any action prior to that date that is necessary to enable the Tax Tribunal to properly exercise its jurisdiction on or after that date. Any administrative proceeding commenced on or after June 1, 2013, prior to July 1, 2013, that would otherwise be subject to the jurisdiction of the Illinois Independent Tax Tribunal may be conducted according to the procedures set forth in this Act if the taxpayer so elects. (40 ILCS 5/14-131)
Sec. 14-131. Contributions by State.
(a) The State shall make contributions to the System by appropriations of amounts which, together with other employer contributions from trust, federal, and other funds, employee contributions, investment income, and other income, will be sufficient to meet the cost of maintaining and administering the System on a 90% funded basis in accordance with actuarial recommendations.

For the purposes of this Section and Section 14-135.08, references to State contributions refer only to employer contributions and do not include employee contributions that are picked up or otherwise paid by the State or a department on behalf of the employee.

(b) The Board shall determine the total amount of State contributions required for each fiscal year on the basis of the actuarial tables and other assumptions adopted by the Board, using the formula in subsection (e).

The Board shall also determine a State contribution rate for each fiscal year, expressed as a percentage of payroll, based on the total required State contribution for that fiscal year (less the amount received by the System from appropriations under Section 8.12 of the State Finance Act and Section 1 of the State Pension Funds Continuing Appropriation Act, if any, for the fiscal year ending on the June 30 immediately preceding the applicable November 15 certification deadline), the estimated payroll (including all forms of compensation) for personal services rendered by eligible employees, and the recommendations of the actuary.

For the purposes of this Section and Section 14.1 of the State Finance Act, the term "eligible employees" includes employees who participate in the System, persons who may elect to participate in the System but have not so elected, persons who are serving a qualifying period that is required for participation, and annuitants employed by a department as described in subdivision (a)(1) or (a)(2) of Section 14-111.

(c) Contributions shall be made by the several departments for each pay period by warrants drawn by the State Comptroller against their respective funds or appropriations based upon vouchers stating the amount to be so contributed. These amounts shall be based on the full rate certified by the Board under Section 14-135.08 for that fiscal year. From the effective date of this amendatory Act of the 93rd General Assembly through the payment of the final payroll from fiscal year 2004 appropriations, the several departments shall not make contributions for the remainder of fiscal year 2004 but shall instead make payments as required under subsection (a-1) of Section 14.1 of the State Finance Act. The several departments shall resume those contributions at the commencement of fiscal year 2005.

(c-1) Notwithstanding subsection (c) of this Section, for fiscal years 2010, 2012, and 2013, and 2014 only, contributions by the several departments are not required to be made for General Revenue Funds payrolls processed by the Comptroller. Payrolls paid by the several departments from all other State funds must continue to be processed pursuant to subsection (c) of this Section.

(c-2) For State fiscal years 2010, 2012, and 2013, and 2014 only, on or as soon as possible after the 15th day of each month, the Board shall submit vouchers for payment of State contributions to the System, in a total monthly amount of one-twelfth of the fiscal year General Revenue Fund contribution as certified by the System pursuant to Section 14-135.08 of the Illinois Pension Code.

(d) If an employee is paid from trust funds or federal funds, the department or other employer shall pay employer contributions from those funds to the System at the certified rate, unless the terms of the trust or the federal-State agreement preclude the use of the funds for that purpose, in which case the required employer contributions shall be paid by the State. From the effective date of this amendatory Act of the 93rd General Assembly through the payment of the final payroll from fiscal year 2004 appropriations, the department or other employer shall not pay contributions for the remainder of fiscal year 2004 but shall instead make payments as required under subsection (a-1) of Section 14.1 of the State Finance Act. The department or other employer shall resume payment of contributions at the commencement of fiscal year 2005.

(e) For State fiscal years 2012 through 2045, the minimum contribution to the System to be made by the State for each fiscal year shall be an amount determined by the System to be sufficient to bring the
total assets of the System up to 90% of the total actuarial liabilities of the System by the end of State fiscal year 2045. In making these determinations, the required State contribution shall be calculated each year as a level percentage of payroll over the years remaining to and including fiscal year 2045 and shall be determined under the projected unit credit actuarial cost method.

For State fiscal years 1996 through 2005, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments so that by State fiscal year 2011, the State is contributing at the rate required under this Section; except that (i) for State fiscal year 1998, for all purposes of this Code and any other law of this State, the certified percentage of the applicable employee payroll shall be 5.052% for employees earning eligible creditable service under Section 14-110 and 6.500% for all other employees, notwithstanding any contrary certification made under Section 14-135.08 before the effective date of this amendatory Act of 1997, and (ii) in the following specified State fiscal years, the State contribution to the System shall not be less than the following indicated percentages of the applicable employee payroll, even if the indicated percentage will produce a State contribution in excess of the amount otherwise required under this subsection and subsection (a): 9.8% in FY 1999; 10.0% in FY 2000; 10.2% in FY 2001; 10.4% in FY 2002; 10.6% in FY 2003; and 10.8% in FY 2004.

Notwithstanding any other provision of this Article, the total required State contribution to the System for State fiscal year 2006 is $203,783,900.

Notwithstanding any other provision of this Article, the total required State contribution to the System for State fiscal year 2007 is $344,164,400.

For each of State fiscal years 2008 through 2009, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments from the required State contribution for State fiscal year 2007, so that by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

Notwithstanding any other provision of this Article, the total required State General Revenue Fund contribution for State fiscal year 2010 is $723,703,100 and shall be made from the proceeds of bonds sold in fiscal year 2010 pursuant to Section 7.2 of the General Obligation Bond Act, less (i) the pro rata share of bond sale expenses determined by the
System's share of total bond proceeds, (ii) any amounts received from the General Revenue Fund in fiscal year 2010, and (iii) any reduction in bond proceeds due to the issuance of discounted bonds, if applicable.

Notwithstanding any other provision of this Article, the total required State General Revenue Fund contribution for State fiscal year 2011 is the amount recertified by the System on or before April 1, 2011 pursuant to Section 14-135.08 and shall be made from the proceeds of bonds sold in fiscal year 2011 pursuant to Section 7.2 of the General Obligation Bond Act, less (i) the pro rata share of bond sale expenses determined by the System's share of total bond proceeds, (ii) any amounts received from the General Revenue Fund in fiscal year 2011, and (iii) any reduction in bond proceeds due to the issuance of discounted bonds, if applicable.

Beginning in State fiscal year 2046, the minimum State contribution for each fiscal year shall be the amount needed to maintain the total assets of the System at 90% of the total actuarial liabilities of the System.

Amounts received by the System pursuant to Section 25 of the Budget Stabilization Act or Section 8.12 of the State Finance Act in any fiscal year do not reduce and do not constitute payment of any portion of the minimum State contribution required under this Article in that fiscal year. Such amounts shall not reduce, and shall not be included in the calculation of, the required State contributions under this Article in any future year until the System has reached a funding ratio of at least 90%. A reference in this Article to the "required State contribution" or any substantially similar term does not include or apply to any amounts payable to the System under Section 25 of the Budget Stabilization Act.

Notwithstanding any other provision of this Section, the required State contribution for State fiscal year 2005 and for fiscal year 2008 and each fiscal year thereafter, as calculated under this Section and certified under Section 14-135.08, shall not exceed an amount equal to (i) the amount of the required State contribution that would have been calculated under this Section for that fiscal year if the System had not received any payments under subsection (d) of Section 7.2 of the General Obligation Bond Act, minus (ii) the portion of the State's total debt service payments for that fiscal year on the bonds issued in fiscal year 2003 for the purposes of that Section 7.2, as determined and certified by the Comptroller, that is the same as the System's portion of the total moneys distributed under subsection (d) of Section 7.2 of the General Obligation Bond Act. In
determining this maximum for State fiscal years 2008 through 2010, however, the amount referred to in item (i) shall be increased, as a percentage of the applicable employee payroll, in equal increments calculated from the sum of the required State contribution for State fiscal year 2007 plus the applicable portion of the State's total debt service payments for fiscal year 2007 on the bonds issued in fiscal year 2003 for the purposes of Section 7.2 of the General Obligation Bond Act, so that, by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

(f) After the submission of all payments for eligible employees from personal services line items in fiscal year 2004 have been made, the Comptroller shall provide to the System a certification of the sum of all fiscal year 2004 expenditures for personal services that would have been covered by payments to the System under this Section if the provisions of this amendatory Act of the 93rd General Assembly had not been enacted. Upon receipt of the certification, the System shall determine the amount due to the System based on the full rate certified by the Board under Section 14-135.08 for fiscal year 2004 in order to meet the State's obligation under this Section. The System shall compare this amount due to the amount received by the System in fiscal year 2004 through payments under this Section and under Section 6z-61 of the State Finance Act. If the amount due is more than the amount received, the difference shall be termed the "Fiscal Year 2004 Shortfall" for purposes of this Section, and the Fiscal Year 2004 Shortfall shall be satisfied under Section 1.2 of the State Pension Funds Continuing Appropriation Act. If the amount due is less than the amount received, the difference shall be termed the "Fiscal Year 2004 Overpayment" for purposes of this Section, and the Fiscal Year 2004 Overpayment shall be repaid by the System to the Pension Contribution Fund as soon as practicable after the certification.

(g) For purposes of determining the required State contribution to the System, the value of the System's assets shall be equal to the actuarial value of the System's assets, which shall be calculated as follows:

As of June 30, 2008, the actuarial value of the System's assets shall be equal to the market value of the assets as of that date. In determining the actuarial value of the System's assets for fiscal years after June 30, 2008, any actuarial gains or losses from investment return incurred in a fiscal year shall be recognized in equal annual amounts over the 5-year period following that fiscal year.
(h) For purposes of determining the required State contribution to the System for a particular year, the actuarial value of assets shall be assumed to earn a rate of return equal to the System's actuarially assumed rate of return.

(i) After the submission of all payments for eligible employees from personal services line items paid from the General Revenue Fund in fiscal year 2010 have been made, the Comptroller shall provide to the System a certification of the sum of all fiscal year 2010 expenditures for personal services that would have been covered by payments to the System under this Section if the provisions of this amendatory Act of the 96th General Assembly had not been enacted. Upon receipt of the certification, the System shall determine the amount due to the System based on the full rate certified by the Board under Section 14-135.08 for fiscal year 2010 in order to meet the State's obligation under this Section. The System shall compare this amount due to the amount received by the System in fiscal year 2010 through payments under this Section. If the amount due is more than the amount received, the difference shall be termed the "Fiscal Year 2010 Shortfall" for purposes of this Section, and the Fiscal Year 2010 Shortfall shall be satisfied under Section 1.2 of the State Pension Funds Continuing Appropriation Act. If the amount due is less than the amount received, the difference shall be termed the "Fiscal Year 2010 Overpayment" for purposes of this Section, and the Fiscal Year 2010 Overpayment shall be repaid by the System to the General Revenue Fund as soon as practicable after the certification.

(j) After the submission of all payments for eligible employees from personal services line items paid from the General Revenue Fund in fiscal year 2011 have been made, the Comptroller shall provide to the System a certification of the sum of all fiscal year 2011 expenditures for personal services that would have been covered by payments to the System under this Section if the provisions of this amendatory Act of the 96th General Assembly had not been enacted. Upon receipt of the certification, the System shall determine the amount due to the System based on the full rate certified by the Board under Section 14-135.08 for fiscal year 2011 in order to meet the State's obligation under this Section. The System shall compare this amount due to the amount received by the System in fiscal year 2011 through payments under this Section. If the amount due is more than the amount received, the difference shall be termed the "Fiscal Year 2011 Shortfall" for purposes of this Section, and the Fiscal Year 2011 Shortfall shall be satisfied under Section 1.2 of the State Pension Funds

If the amount due is less than the amount received, the difference shall be termed the "Fiscal Year 2011 Overpayment" for purposes of this Section, and the Fiscal Year 2011 Overpayment shall be repaid by the System to the General Revenue Fund as soon as practicable after the certification.

(k) For fiscal years 2012 through 2014 and 2013 only, after the submission of all payments for eligible employees from personal services line items paid from the General Revenue Fund in the fiscal year have been made, the Comptroller shall provide to the System a certification of the sum of all expenditures in the fiscal year for personal services. Upon receipt of the certification, the System shall determine the amount due to the System based on the full rate certified by the Board under Section 14-135.08 for the fiscal year in order to meet the State's obligation under this Section. The System shall compare this amount due to the amount received by the System for the fiscal year. If the amount due is more than the amount received, the difference shall be termed the "Prior Fiscal Year Shortfall" for purposes of this Section, and the Prior Fiscal Year Shortfall shall be satisfied under Section 1.2 of the State Pension Funds Continuing Appropriation Act. If the amount due is less than the amount received, the difference shall be termed the "Prior Fiscal Year Overpayment" for purposes of this Section, and the Prior Fiscal Year Overpayment shall be repaid by the System to the General Revenue Fund as soon as practicable after the certification.

The programs and services of educational service centers may be offered to private school teachers and private school students within each service center area provided public schools have already been afforded adequate access to such programs and services.

and assistant regional superintendents are payable monthly by the State Board of Education out of the Personal Property Tax Replacement Fund through a specific appropriation to that effect in the State Board of Education budget for the fiscal years 2012 and 2013 only, and are payable monthly from the Common School Fund for fiscal year 2014 and beyond through a specific appropriation to that effect in the State Board of Education budget. The State Comptroller in making his or her warrant to any county for the amount due it from the Personal Property Tax Replacement Fund for the fiscal years 2012 and 2013 only, and from the Common School Fund for fiscal year 2014 and beyond shall deduct from it the several amounts for which warrants have been issued to the regional superintendent, and any assistant regional superintendent, of the educational service region encompassing the county since the preceding apportionment from the Personal Property Tax Replacement Fund for the fiscal years 2012 and 2013 only, and from the Common School Fund for fiscal year 2014 and beyond.

County boards may provide for additional compensation for the regional superintendent or the assistant regional superintendents, or for each of them, to be paid quarterly from the county treasury.

(b) Upon abolition of the office of regional superintendent of schools in educational service regions containing 2,000,000 or more inhabitants as provided in Section 3-0.01 of this Code, the funds provided under subsection (a) of this Section shall continue to be appropriated and reallocated, as provided for pursuant to subsection (b) of Section 3-0.01 of this Code, to the educational service centers established pursuant to Section 2-3.62 of this Code for an educational service region containing 2,000,000 or more inhabitants.

(c) If the State pays all or any portion of the employee contributions required under Section 16-152 of the Illinois Pension Code for employees of the State Board of Education, it shall also, subject to appropriation in the State Board of Education budget for such payments to Regional Superintendents and Assistant Regional Superintendents, pay the employee contributions required of regional superintendents of schools and assistant regional superintendents of schools on the same basis, but excluding any contributions based on compensation that is paid by the county rather than the State.

This subsection (c) applies to contributions based on payments of salary earned after the effective date of this amendatory Act of the 91st General Assembly, except that in the case of an elected regional
superintendent of schools, this subsection does not apply to contributions based on payments of salary earned during a term of office that commenced before the effective date of this amendatory Act.

The State Board of Education shall request an appropriation payable from the Personal Property Tax Replacement Fund for fiscal years 2012 and 2013 only, and the common school fund for fiscal year 2014 and beyond as and for compensation for regional superintendents of schools and the assistant regional superintendents of schools authorized by Section 3-15.10 of this Act, and as provided in "An Act concerning fees and salaries and to classify the several counties of this State with reference thereto", approved March 29, 1872 as amended, and shall present vouchers to the Comptroller monthly for the payment to the several regional superintendents and such assistant regional superintendents of their compensation as fixed by law. capital cost element for newly constructed facilities shall be based upon projected budgets. The annually established payment rate shall take effect on July 1 in 1984 and subsequent years. No rate increase and no update for inflation shall be provided on or after July 1, 1994 and before January 1, 2014, unless specifically provided for in this Section. The changes made by Public Act 93-841 extending the duration of the prohibition against a rate increase or update for inflation are effective retroactive to July 1, 2004.

For facilities licensed by the Department of Public Health under the Nursing Home Care Act as Intermediate Care for the Developmentally Disabled facilities or Long Term Care for Under Age 22 facilities, the rates taking effect on July 1, 1998 shall include an increase of 3%. For facilities licensed by the Department of Public Health under the Nursing Home Care Act as Skilled Nursing facilities or Intermediate Care facilities, the rates taking effect on July 1, 1998 shall include an increase of 3% plus $1.10 per resident-day, as defined by the Department. For facilities licensed by the Department of Public Health under the Nursing Home Care Act as Intermediate Care Facilities for the Developmentally Disabled or Long Term Care for Under Age 22 facilities, the rates taking effect on January 1, 2006 shall include an increase of 3%. For facilities licensed by the Department of Public Health under the Nursing Home Care Act as Intermediate Care Facilities for the Developmentally Disabled or Long Term Care for Under Age 22 facilities, the rates taking effect on January 1, 2009 shall include an increase sufficient to provide a $0.50 per hour wage increase for non-executive staff.

For facilities licensed by the Department of Public Health under the Nursing Home Care Act as Intermediate Care for the Developmentally Disabled facilities or Long Term Care for Under Age 22 facilities, the rates taking effect on July 1, 1999 shall include an increase of 1.6% plus $3.00 per resident-day, as defined by the Department. For facilities licensed by the Department of Public Health under the Nursing Home Care Act as Intermediate Care for the Developmentally Disabled facilities or Long Term Care for Under Age 22 facilities, the rates taking effect on July 1, 2000 shall include an increase of 2.5% per
resident-day, as defined by the Department. For facilities licensed by the Department of Public Health under the Nursing Home Care Act as skilled nursing facilities or intermediate care facilities, a new payment methodology must be implemented for the nursing component of the rate effective July 1, 2003. The Department of Public Aid (now Healthcare and Family Services) shall develop the new payment methodology using the Minimum Data Set (MDS) as the instrument to collect information concerning nursing home resident condition necessary to compute the rate. The Department shall develop the new payment methodology to meet the unique needs of Illinois nursing home residents while remaining subject to the appropriations provided by the General Assembly. A transition period from the payment methodology in effect on June 30, 2003 to the payment methodology in effect on July 1, 2003 shall be provided for a period not exceeding 3 years and 184 days after implementation of the new payment methodology as follows:

(A) For a facility that would receive a lower nursing component rate per patient day under the new system than the facility received effective on the date immediately preceding the date that the Department implements the new payment methodology, the nursing component rate per patient day for the facility shall be held at the level in effect on the date immediately preceding the date that the Department implements the new payment methodology until a higher nursing component rate of reimbursement is achieved by that facility.

(B) For a facility that would receive a higher nursing component rate per patient day under the payment methodology in effect on July 1, 2003 than the facility received effective on the date immediately preceding the date that the Department implements the new payment methodology, the nursing component rate per patient day for the facility shall be adjusted.

(C) Notwithstanding paragraphs (A) and (B), the nursing component rate per patient day for the facility shall be adjusted subject to appropriations provided by the General Assembly.

Notwithstanding any other provisions of this Section, for facilities licensed by the Department of Public Health under the Nursing Home Care Act as intermediate care facilities that are federally defined as Institutions for Mental Disease, or facilities licensed by the Department of Public Health under the Specialized Mental Health Rehabilitation Act, a socio-development component rate equal to 6.6% of the facility's nursing component rate as of January 1, 2006 shall be established and paid effective July 1, 2006. The socio-development component of the rate shall be increased by a factor of 2.53 on the first day of the month that begins at least 45 days after January 11, 2008 (the effective date of Public Act 95-707). As of August 1, 2008, the socio-development component rate shall be equal to 6.6% of the facility's nursing component rate as of January 1, 2006, multiplied by a factor of 3.53. For services provided on or after April 1, 2011, or the first day of the month that begins at least 45 days after the effective date of this amendatory Act of the 96th General Assembly, whichever is later, the Illinois Department may by rule adjust these socio-development component rates, and may use different adjustment methodologies for those facilities participating, and those not participating, in the Illinois Department's demonstration program pursuant to the provisions of Title 77, Part 300, Subpart T of the Illinois Administrative Code, but in no case may such rates be diminished below those in effect on August 1, 2008.

For facilities licensed by the Department of Public Health under the Nursing Home Care Act as Intermediate Care for the Developmentally Disabled facilities or as long-term care facilities for residents under 22 years of age, the rates taking effect on July 1, 2003 shall include a statewide increase of 4%, as defined by the Department.

These costs shall be passed through to the facility without caps or limitations, except for adjustments required under normal auditing procedures.

Rates established effective each July 1 shall govern payment for services rendered throughout that fiscal year, except that rates established on July 1, 1996 shall be increased by 6.8% for services provided on or after January 1, 1997. Such rates will be based upon the rates calculated for the year beginning July 1, 1990, and for subsequent years thereafter until June 30, 2001 shall be based on the facility cost reports for the facility fiscal year ending at any point in time during the previous calendar year, updated to the midpoint of the rate year. The cost report shall be on file with the Department no later than April 1 of the current rate year. Should the cost report not be on file by April 1, the Department shall base the rate on the latest cost report filed by each skilled care facility and intermediate care facility, updated to the midpoint of the current rate year.

In determining rates for services rendered on and after July 1, 1985, fixed time shall not be computed at less than zero. The Department shall not make any alterations of regulations which would reduce any component of the Medicaid rate to a level below what that component would have been utilizing in the rate effective on July 1, 1984.

(3) Shall take into account the medical and psycho-social characteristics and needs of the patients.

practices. Reimbursement also may be made for utilization of other supportive personnel under appropriate supervision.

The Department shall develop enhanced payments to offset the additional costs incurred by a facility serving exceptional need residents and shall allocate at least $8,000,000 of the funds collected from the assessment established by Section 5B-2 of this Code for such payments. For the purpose of this Section, "exceptional needs" means, but need not be limited to, ventilator care, tracheotomy care, bariatric care, complex wound care, and traumatic brain injury care. The enhanced payments for exceptional need residents under this paragraph are not due and payable, however, until (i) the methodologies described in this paragraph are approved by the federal government in an appropriate State Plan amendment and (ii) the assessment imposed by Section 5B-2 of this Code is determined to be a permissible tax under Title XIX of the Social Security Act.

Beginning January 1, 2014 the methodologies for reimbursement of nursing facility services as provided under this Section 5-5.4 shall no longer be applicable for services provided on or after January 1, 2014.

No payment increase under this Section for the MDS methodology, exceptional care residents, or the socio-development component rate established by Public Act 96-1530 of the 96th General Assembly and funded by the assessment imposed under Section 5B-2 of this Code shall be due and payable until after the Department notifies the long-term care providers, in writing, that the payment methodologies to long-term care providers required under this Section have been approved by the Centers for Medicare and Medicaid Services of the U.S. Department of Health and Human Services and the waivers under 42 CFR 433.68 for the assessment imposed by this Section, if necessary, have been granted by the Centers for Medicare and Medicaid Services of the U.S. Department of Health and Human Services. Upon notification to the Department of approval of the payment methodologies required under this Section and the waivers granted under 42 CFR 433.68, all increased payments otherwise due under this Section prior to the date of notification shall be due and payable within 90 days of the date federal approval is received.

On and after July 1, 2012, the Department shall reduce any rate of reimbursement for services or other payments or alter any methodologies authorized by this Code to reduce any rate of reimbursement for services or other payments in accordance with Section 5-5e.

Before making the deposit the State Treasurer shall record the name and last known address of each person appearing from the holders' reports to be entitled to the abandoned property. The record shall be available for public inspection during reasonable business hours.

(b) Before making any deposit to the credit of the State Pensions Fund, the State Treasurer may deduct: (1) any costs in connection with sale of abandoned property, (2) any costs of mailing and publication in connection with any abandoned property, and (3) any costs in connection with the maintenance of records or disposition of claims made pursuant to
this Act. The State Treasurer shall semiannually file an itemized report of
all such expenses with the Legislative Audit Commission.

RETIREMENT CONTRIBUTIONS

Section 10-5. The State Finance Act is amended by changing
Sections 8.12 and 14.1 as follows:

(30 ILCS 105/8.12) (from Ch. 127, par. 144.12)

(a) The moneys in the State Pensions Fund shall be used
exclusively for the administration of the Uniform Disposition of
Unclaimed Property Act and for the expenses incurred by the Auditor
General for administering the provisions of Section 2-8.1 of the Illinois
State Auditing Act and for the funding of the unfunded liabilities of the
designated retirement systems. Beginning in State fiscal year 2014,
payments to the designated retirement systems under this Section shall be
in addition to, and not in lieu of, any State contributions required under the
Illinois Pension Code.

"Designated retirement systems" means:

(1) the State Employees' Retirement System of Illinois;
(2) the Teachers' Retirement System of the State of Illinois;
(3) the State Universities Retirement System;
(4) the Judges Retirement System of Illinois; and
(5) the General Assembly Retirement System.

(b) Each year the General Assembly may make appropriations from
the State Pensions Fund for the administration of the Uniform Disposition of
Unclaimed Property Act.

Each month, the Commissioner of the Office of Banks and Real
Estate shall certify to the State Treasurer the actual expenditures that the
Office of Banks and Real Estate incurred conducting unclaimed property
examinations under the Uniform Disposition of Unclaimed Property Act
during the immediately preceding month. Within a reasonable time
following the acceptance of such certification by the State Treasurer, the
State Treasurer shall pay from its appropriation from the State Pensions
Fund to the Bank and Trust Company Fund and the Savings and
Residential Finance Regulatory Fund an amount equal to the expenditures
incurred by each Fund for that month.

Each month, the Director of Financial Institutions shall certify to
the State Treasurer the actual expenditures that the Department of

Financial Institutions incurred conducting unclaimed property examinations under the Uniform Disposition of Unclaimed Property Act during the immediately preceding month. Within a reasonable time following the acceptance of such certification by the State Treasurer, the State Treasurer shall pay from its appropriation from the State Pensions Fund to the Financial Institutions Fund and the Credit Union Fund an amount equal to the expenditures incurred by each Fund for that month.

(c) As soon as possible after the effective date of this amendatory Act of the 93rd General Assembly, the General Assembly shall appropriate from the State Pensions Fund (1) to the State Universities Retirement System the amount certified under Section 15-165 during the prior year, (2) to the Judges Retirement System of Illinois the amount certified under Section 18-140 during the prior year, and (3) to the General Assembly Retirement System the amount certified under Section 2-134 during the prior year as part of the required State contributions to each of those designated retirement systems; except that amounts appropriated under this subsection (c) in State fiscal year 2005 shall not reduce the amount in the State Pensions Fund below $5,000,000. If the amount in the State Pensions Fund does not exceed the sum of the amounts certified in Sections 15-165, 18-140, and 2-134 by at least $5,000,000, the amount paid to each designated retirement system under this subsection shall be reduced in proportion to the amount certified by each of those designated retirement systems.

(c-5) For fiscal years 2006 through 2013, the General Assembly shall appropriate from the State Pensions Fund to the State Universities Retirement System the amount estimated to be available during the fiscal year in the State Pensions Fund; provided, however, that the amounts appropriated under this subsection (c-5) shall not reduce the amount in the State Pensions Fund below $5,000,000.

(c-6) For fiscal year 2014 and each fiscal year thereafter, as soon as may be practical after any money is deposited into the State Pensions Fund from the Unclaimed Property Trust Fund, the State Treasurer shall apportion the deposited amount among the designated retirement systems as defined in subsection (a) to reduce their actuarial reserve deficiencies. The State Comptroller and State Treasurer shall pay the apportioned amounts to the designated retirement systems to fund the unfunded liabilities of the designated retirement systems. The amount apportioned to each designated retirement system shall constitute a portion

of the amount estimated to be available for appropriation from the State Pensions Fund that is the same as that retirement system's portion of the total actual reserve deficiency of the systems, as determined annually by the Governor's Office of Management and Budget at the request of the State Treasurer. The amounts apportioned under this subsection shall not reduce the amount in the State Pensions Fund below $5,000,000.

(d) The Governor's Office of Management and Budget shall determine the individual and total reserve deficiencies of the designated retirement systems. For this purpose, the Governor's Office of Management and Budget shall utilize the latest available audit and actuarial reports of each of the retirement systems and the relevant reports and statistics of the Public Employee Pension Fund Division of the Department of Insurance.

(d-1) As soon as practicable after the effective date of this amendatory Act of the 93rd General Assembly, the Comptroller shall direct and the Treasurer shall transfer from the State Pensions Fund to the General Revenue Fund, as funds become available, a sum equal to the amounts that would have been paid from the State Pensions Fund to the Teachers' Retirement System of the State of Illinois, the State Universities Retirement System, the Judges Retirement System of Illinois, the General Assembly Retirement System, and the State Employees' Retirement System of Illinois after the effective date of this amendatory Act during the remainder of fiscal year 2004 to the designated retirement systems from the appropriations provided for in this Section if the transfers provided in Section 6z-61 had not occurred. The transfers described in this subsection (d-1) are to partially repay the General Revenue Fund for the costs associated with the bonds used to fund the moneys transferred to the designated retirement systems under Section 6z-61.

(e) The changes to this Section made by this amendatory Act of 1994 shall first apply to distributions from the Fund for State fiscal year 1996.

(30 ILCS 105/14.1) (from Ch. 127, par. 150.1)

Sec. 14.1. Appropriations for State contributions to the State Employees' Retirement System; payroll requirements.

(a) Appropriations for State contributions to the State Employees' Retirement System of Illinois shall be expended in the manner provided in this Section. Except as otherwise provided in subsections (a-1), (a-2), (a-
3), and (a-4) at the time of each payment of salary to an employee under the personal services line item, payment shall be made to the State Employees' Retirement System, from the amount appropriated for State contributions to the State Employees' Retirement System, of an amount calculated at the rate certified for the applicable fiscal year by the Board of Trustees of the State Employees' Retirement System under Section 14-135.08 of the Illinois Pension Code. If a line item appropriation to an employer for this purpose is exhausted or is unavailable due to any limitation on appropriations that may apply, (including, but not limited to, limitations on appropriations from the Road Fund under Section 8.3 of the State Finance Act), the amounts shall be paid under the continuing appropriation for this purpose contained in the State Pension Funds Continuing Appropriation Act.

(a-1) Beginning on the effective date of this amendatory Act of the 93rd General Assembly through the payment of the final payroll from fiscal year 2004 appropriations, appropriations for State contributions to the State Employees' Retirement System of Illinois shall be expended in the manner provided in this subsection (a-1). At the time of each payment of salary to an employee under the personal services line item from a fund other than the General Revenue Fund, payment shall be made for deposit into the General Revenue Fund from the amount appropriated for State contributions to the State Employees' Retirement System of an amount calculated at the rate certified for fiscal year 2004 by the Board of Trustees of the State Employees' Retirement System under Section 14-135.08 of the Illinois Pension Code. This payment shall be made to the extent that a line item appropriation to an employer for this purpose is available or unexhausted. No payment from appropriations for State contributions shall be made in conjunction with payment of salary to an employee under the personal services line item from the General Revenue Fund.

(a-2) For fiscal year 2010 only, at the time of each payment of salary to an employee under the personal services line item from a fund other than the General Revenue Fund, payment shall be made for deposit into the State Employees' Retirement System of Illinois from the amount appropriated for State contributions to the State Employees' Retirement System of Illinois of an amount calculated at the rate certified for fiscal year 2010 by the Board of Trustees of the State Employees' Retirement System of Illinois under Section 14-135.08 of the Illinois Pension Code. This payment shall be made to the extent that a line item appropriation to an employer for this purpose is available or unexhausted. For fiscal year

2010 only, no payment from appropriations for State contributions shall be made in conjunction with payment of salary to an employee under the personal services line item from the General Revenue Fund.

(a-3) For fiscal year 2011 only, at the time of each payment of salary to an employee under the personal services line item from a fund other than the General Revenue Fund, payment shall be made for deposit into the State Employees' Retirement System of Illinois from the amount appropriated for State contributions to the State Employees' Retirement System of Illinois of an amount calculated at the rate certified for fiscal year 2011 by the Board of Trustees of the State Employees' Retirement System of Illinois under Section 14-135.08 of the Illinois Pension Code. This payment shall be made to the extent that a line item appropriation to an employer for this purpose is available or unexhausted. For fiscal year 2011 only, no payment from appropriations for State contributions shall be made in conjunction with payment of salary to an employee under the personal services line item from the General Revenue Fund.

(a-4) In fiscal years 2012 through 2014 and 2013 only, at the time of each payment of salary to an employee under the personal services line item from a fund other than the General Revenue Fund, payment shall be made for deposit into the State Employees' Retirement System of Illinois from the amount appropriated for State contributions to the State Employees' Retirement System of Illinois of an amount calculated at the rate certified for the applicable fiscal year by the Board of Trustees of the State Employees' Retirement System of Illinois under Section 14-135.08 of the Illinois Pension Code. In fiscal years 2012 through 2014 and 2013 only, no payment from appropriations for State contributions shall be made in conjunction with payment of salary to an employee under the personal services line item from the General Revenue Fund.

(b) Except during the period beginning on the effective date of this amendatory Act of the 93rd General Assembly and ending at the time of the payment of the final payroll from fiscal year 2004 appropriations, the State Comptroller shall not approve for payment any payroll voucher that (1) includes payments of salary to eligible employees in the State Employees' Retirement System of Illinois and (2) does not include the corresponding payment of State contributions to that retirement system at the full rate certified under Section 14-135.08 for that fiscal year for eligible employees, unless the balance in the fund on which the payroll voucher is drawn is insufficient to pay the total payroll voucher, or unavailable due to any limitation on appropriations that may apply,
including, but not limited to, limitations on appropriations from the Road Fund under Section 8.3 of the State Finance Act. If the State Comptroller approves a payroll voucher under this Section for which the fund balance is insufficient to pay the full amount of the required State contribution to the State Employees' Retirement System, the Comptroller shall promptly so notify the Retirement System.

(b-1) For fiscal year 2010 and fiscal year 2011 only, the State Comptroller shall not approve for payment any non-General Revenue Fund payroll voucher that (1) includes payments of salary to eligible employees in the State Employees' Retirement System of Illinois and (2) does not include the corresponding payment of State contributions to that retirement system at the full rate certified under Section 14-135.08 for that fiscal year for eligible employees, unless the balance in the fund on which the payroll voucher is drawn is insufficient to pay the total payroll voucher, or unavailable due to any limitation on appropriations that may apply, including, but not limited to, limitations on appropriations from the Road Fund under Section 8.3 of the State Finance Act. If the State Comptroller approves a payroll voucher under this Section for which the fund balance is insufficient to pay the full amount of the required State contribution to the State Employees' Retirement System of Illinois, the Comptroller shall promptly so notify the retirement system.

(c) Notwithstanding any other provisions of law, beginning July 1, 2007, required State and employee contributions to the State Employees' Retirement System of Illinois relating to affected legislative staff employees shall be paid out of moneys appropriated for that purpose to the Commission on Government Forecasting and Accountability, rather than out of the lump-sum appropriations otherwise made for the payroll and other costs of those employees.

These payments must be made pursuant to payroll vouchers submitted by the employing entity as part of the regular payroll voucher process.

For the purpose of this subsection, "affected legislative staff employees" means legislative staff employees paid out of lump-sum appropriations made to the General Assembly, an Officer of the General Assembly, or the Senate Operations Commission, but does not include district-office staff or employees of legislative support services agencies.

Section 15-5. The Illinois Grant Funds Recovery Act is amended by changing Section 4.2 as follows:

(30 ILCS 705/4.2)

Sec. 4.2. Suspension of grant making authority. Any grant funds and any grant program administered by a grantor agency subject to this Act are indefinitely suspended on June 30, 2014, and on July 1st of every 5th year thereafter, unless the General Assembly, by law, authorizes that grantor agency to make grants or lifts the suspension of the authorization of that grantor agency to make grants. In the case of a suspension of the authorization of a grantor agency to make grants, the authority of that grantor agency to make grants is suspended until the suspension is explicitly lifted by law by the General Assembly, even if an appropriation has been made for the explicit purpose of such grants. This suspension of grant making authority supersedes any other law or rule to the contrary.

(House Bill No. 0099)

AN ACT concerning civil law.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Code of Civil Procedure is amended by changing Section 15-1502.5 as follows:

(735 ILCS 5/15-1502.5)

(Section scheduled to be repealed on July 1, 2013)

Sec. 15-1502.5. Homeowner protection.

(a) As used in this Section:

"Approved counseling agency" means a housing counseling agency approved by the U.S. Department of Housing and Urban Development.

New matter indicated by italics - deletions by strikeout
"Approved Housing Counseling" means in-person counseling provided by a counselor employed by an approved counseling agency to all borrowers, or documented telephone counseling where a hardship would be imposed on one or more borrowers. A hardship shall exist in instances in which the borrower is confined to his or her home due to medical conditions, as verified in writing by a physician or the borrower resides 50 miles or more from the nearest approved counseling agency. In instances of telephone counseling, the borrower must supply all necessary documents to the counselor at least 72 hours prior to the scheduled telephone counseling session.

"Delinquent" means past due with respect to a payment on a mortgage secured by residential real estate.

"Department" means the Department of Financial and Professional Regulation.

"Secretary" means the Secretary of Financial and Professional Regulation or other person authorized to act in the Secretary's stead.

"Sustainable loan workout plan" means a plan that the mortgagor and approved counseling agency believe shall enable the mortgagor to stay current on his or her mortgage payments for the foreseeable future when taking into account the mortgagor income and existing and foreseeable debts. A sustainable loan workout plan may include, but is not limited to, (1) a temporary suspension of payments, (2) a lengthened loan term, (3) a lowered or frozen interest rate, (4) a principal write down, (5) a repayment plan to pay the existing loan in full, (6) deferred payments, or (7) refinancing into a new affordable loan.

(b) Except in the circumstance in which a mortgagor has filed a petition for relief under the United States Bankruptcy Code, no mortgagor shall file a complaint to foreclose a mortgage secured by residential real estate until the requirements of this Section have been satisfied.

(c) Notwithstanding any other provision to the contrary, with respect to a particular mortgage secured by residential real estate, the procedures and forbearances described in this Section apply only once per subject mortgage.

Except for mortgages secured by residential real estate in which any mortgagor has filed for relief under the United States Bankruptcy Code, if a mortgage secured by residential real estate becomes delinquent by more than 30 days the mortgagee shall send via U.S. mail a notice advising the mortgagor that he or she may wish to seek approved housing counseling. Notwithstanding anything to the contrary in this Section,
nothing shall preclude the mortgagor and mortgagee from communicating with each other during the initial 30 days of delinquency or reaching agreement on a sustainable loan workout plan, or both.

No foreclosure action under Part 15 of Article XV of the Code of Civil Procedure shall be instituted on a mortgage secured by residential real estate before mailing the notice described in this subsection (c).

The notice required in this subsection (c) shall state the date on which the notice was mailed, shall be headed in bold 14-point type "GRACE PERIOD NOTICE", and shall state the following in 14-point type: "YOUR LOAN IS MORE THAN 30 DAYS PAST DUE. YOU MAY BE EXPERIENCING FINANCIAL DIFFICULTY. IT MAY BE IN YOUR BEST INTEREST TO SEEK APPROVED HOUSING COUNSELING. YOU HAVE A GRACE PERIOD OF 30 DAYS FROM THE DATE OF THIS NOTICE TO OBTAIN APPROVED HOUSING COUNSELING. DURING THE GRACE PERIOD, THE LAW PROHIBITS US FROM TAKING ANY LEGAL ACTION AGAINST YOU. YOU MAY BE ENTITLED TO AN ADDITIONAL 30 DAY GRACE PERIOD IF YOU OBTAIN HOUSING COUNSELING FROM AN APPROVED HOUSING COUNSELING AGENCY. A LIST OF APPROVED COUNSELING AGENCIES MAY BE OBTAINED FROM THE ILLINOIS DEPARTMENT OF FINANCIAL AND PROFESSIONAL REGULATION."

The notice shall also list the Department's current consumer hotline, the Department's website, and the telephone number, fax number, and mailing address of the mortgagee. No language, other than language substantially similar to the language prescribed in this subsection (c), shall be included in the notice. Notwithstanding any other provision to the contrary, the grace period notice required by this subsection (c) may be combined with a counseling notification required under federal law.

The sending of the notice required under this subsection (c) means depositing or causing to be deposited into the United States mail an envelope with first-class postage prepaid that contains the document to be delivered. The envelope shall be addressed to the mortgagor at the common address of the residential real estate securing the mortgage.

(d) Until 30 days after mailing the notice provided for under subsection (c) of this Section, no legal action shall be instituted under Part 15 of Article XV of the Code of Civil Procedure.

(e) If, within the 30-day period provided under subsection (d) of this Section, an approved counseling agency provides written notice to the
mortgagee that the mortgagor is seeking approved counseling services, then no legal action under Part 15 of Article XV of the Code of Civil Procedure shall be instituted for 30 days after the date of that notice. The date that such notice is sent shall be stated in the notice, and shall be sent to the address or fax number contained in the Grace Period Notice required under subsection (c) of this Section. During the 30-day period provided under this subsection (e), the mortgagor or counselor or both may prepare and proffer to the mortgagee a proposed sustainable loan workout plan. The mortgagee will then determine whether to accept the proposed sustainable loan workout plan. If the mortgagee and the mortgagor agree to a sustainable loan workout plan, then no legal action under Part 15 of Article XV of the Code of Civil Procedure shall be instituted for as long as the sustainable loan workout plan is complied with by the mortgagor.

The agreed sustainable loan workout plan and any modifications thereto must be in writing and signed by the mortgagee and the mortgagor.

Upon written notice to the mortgagee, the mortgagor may change approved counseling agencies, but such a change does not entitle the mortgagor to any additional period of forbearance.

(f) If the mortgagor fails to comply with the sustainable loan workout plan, then nothing in this Section shall be construed to impair the legal rights of the mortgagee to enforce the contract.

(g) A counselor employed by a housing counseling agency or the housing counseling agency that in good faith provides counseling shall not be liable to a mortgagee or mortgagor for civil damages, except for willful or wanton misconduct on the part of the counselor in providing the counseling.

(h) There shall be no waiver of any provision of this Section.

(i) It is the General Assembly's intent that compliance with this Section shall not prejudice a mortgagee in ratings of its bad debt collection or calculation standards or policies.

(j) This Section shall not apply, or shall cease to apply, to residential real estate that is not occupied as a principal residence by the mortgagor.

(k) This Section is repealed July 1, 2016.

PUBLIC ACT 98-0026
(House Bill No. 0003)

AN ACT concerning education.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The School Code is amended by changing Sections 17-2.11 and 17-2A as follows:

(105 ILCS 5/17-2.11) (from Ch. 122, par. 17-2.11)

Sec. 17-2.11. School board power to levy a tax or to borrow money and issue bonds for fire prevention, safety, energy conservation, disabled accessibility, school security, and specified repair purposes.

(a) Whenever, as a result of any lawful order of any agency, other than a school board, having authority to enforce any school building code applicable to any facility that houses students, or any law or regulation for the protection and safety of the environment, pursuant to the Environmental Protection Act, any school district having a population of less than 500,000 inhabitants is required to alter or reconstruct any school building or permanent, fixed equipment; the district may, by proper resolution, levy a tax for the purpose of making such alteration or reconstruction, based on a survey report by an architect or engineer licensed in this State, upon all of the taxable property of the district at the value as assessed by the Department of Revenue and at a rate not to exceed 0.05% per year for a period sufficient to finance such alteration or reconstruction, upon the following conditions:

(1) When there are not sufficient funds available in the operations and maintenance fund of the school district, the school facility occupation tax fund of the district, or the fire prevention and safety fund of the district, as determined by the district on the basis of rules adopted by the State Board of Education, to make such alteration or reconstruction or to purchase and install such permanent, fixed equipment so ordered or determined as necessary. Appropriate school district records must be made available to the State Superintendent of Education, upon request, to confirm this insufficiency.

(2) When a certified estimate of an architect or engineer licensed in this State stating the estimated amount necessary to
make the alteration or reconstruction or to purchase and install the
equipment so ordered has been secured by the school district, and
the estimate has been approved by the regional superintendent of
schools having jurisdiction over the district and the State
Superintendent of Education. Approval must not be granted for any
work that has already started without the prior express
authorization of the State Superintendent of Education. If the
estimate is not approved or is denied approval by the regional
superintendent of schools within 3 months after the date on which
it is submitted to him or her, the school board of the district may
submit the estimate directly to the State Superintendent of
Education for approval or denial.

In the case of an emergency situation, where the estimated cost to
effectuate emergency repairs is less than the amount specified in Section
10-20.21 of this Code, the school district may proceed with such repairs
prior to approval by the State Superintendent of Education, but shall
comply with the provisions of subdivision (2) of this subsection (a) as
soon thereafter as may be as well as Section 10-20.21 of this Code. If the
estimated cost to effectuate emergency repairs is greater than the amount
specified in Section 10-20.21 of this Code, then the school district shall
proceed in conformity with Section 10-20.21 of this Code and with rules
established by the State Board of Education to address such situations. The
rules adopted by the State Board of Education to deal with these situations
shall stipulate that emergency situations must be expedited and given
priority consideration. For purposes of this paragraph, an emergency is a
situation that presents an imminent and continuing threat to the health and
safety of students or other occupants of a facility, requires complete or
partial evacuation of a building or part of a building, or consumes one or
more of the 5 emergency days built into the adopted calendar of the school
or schools or would otherwise be expected to cause such school or schools
to fall short of the minimum school calendar requirements.

(b) Whenever any such district determines that it is necessary for
energy conservation purposes that any school building or permanent, fixed
equipment should be altered or reconstructed and that such alterations or
reconstruction will be made with funds not necessary for the completion of
approved and recommended projects contained in any safety survey report
or amendments thereto authorized by Section 2-3.12 of this Act; the
district may levy a tax or issue bonds as provided in subsection (a) of this
Section.

New matter indicated by italics - deletions by strikeout
(c) Whenever any such district determines that it is necessary for disabled accessibility purposes and to comply with the school building code that any school building or equipment should be altered or reconstructed and that such alterations or reconstruction will be made with funds not necessary for the completion of approved and recommended projects contained in any safety survey report or amendments thereto authorized under Section 2-3.12 of this Act, the district may levy a tax or issue bonds as provided in subsection (a) of this Section.

(d) Whenever any such district determines that it is necessary for school security purposes and the related protection and safety of pupils and school personnel that any school building or property should be altered or reconstructed or that security systems and equipment (including but not limited to intercom, early detection and warning, access control and television monitoring systems) should be purchased and installed, and that such alterations, reconstruction or purchase and installation of equipment will be made with funds not necessary for the completion of approved and recommended projects contained in any safety survey report or amendment thereto authorized by Section 2-3.12 of this Act and will deter and prevent unauthorized entry or activities upon school property by unknown or dangerous persons, assure early detection and advance warning of any such actual or attempted unauthorized entry or activities and help assure the continued safety of pupils and school staff if any such unauthorized entry or activity is attempted or occurs; the district may levy a tax or issue bonds as provided in subsection (a) of this Section.

(e) If a school district does not need funds for other fire prevention and safety projects, including the completion of approved and recommended projects contained in any safety survey report or amendments thereto authorized by Section 2-3.12 of this Act, and it is determined after a public hearing (which is preceded by at least one published notice (i) occurring at least 7 days prior to the hearing in a newspaper of general circulation within the school district and (ii) setting forth the time, date, place, and general subject matter of the hearing) that there is a substantial, immediate, and otherwise unavoidable threat to the health, safety, or welfare of pupils due to disrepair of school sidewalks, playgrounds, parking lots, or school bus turnarounds and repairs must be made; then the district may levy a tax or issue bonds as provided in subsection (a) of this Section.

(f) For purposes of this Section a school district may replace a school building or build additions to replace portions of a building when it
is determined that the effectuation of the recommendations for the existing building will cost more than the replacement costs. Such determination shall be based on a comparison of estimated costs made by an architect or engineer licensed in the State of Illinois. The new building or addition shall be equivalent in area (square feet) and comparable in purpose and grades served and may be on the same site or another site. Such replacement may only be done upon order of the regional superintendent of schools and the approval of the State Superintendent of Education.

(g) The filing of a certified copy of the resolution levying the tax when accompanied by the certificates of the regional superintendent of schools and State Superintendent of Education shall be the authority of the county clerk to extend such tax.

(h) The county clerk of the county in which any school district levying a tax under the authority of this Section is located, in reducing raised levies, shall not consider any such tax as a part of the general levy for school purposes and shall not include the same in the limitation of any other tax rate which may be extended.

Such tax shall be levied and collected in like manner as all other taxes of school districts, subject to the provisions contained in this Section.

(i) The tax rate limit specified in this Section may be increased to .10% upon the approval of a proposition to effect such increase by a majority of the electors voting on that proposition at a regular scheduled election. Such proposition may be initiated by resolution of the school board and shall be certified by the secretary to the proper election authorities for submission in accordance with the general election law.

(j) When taxes are levied by any school district for fire prevention, safety, energy conservation, and school security purposes as specified in this Section, and the purposes for which the taxes have been levied are accomplished and paid in full, and there remain funds on hand in the Fire Prevention and Safety Fund from the proceeds of the taxes levied, including interest earnings thereon, the school board by resolution shall use such excess and other board restricted funds, excluding bond proceeds and earnings from such proceeds, as follows:

(1) for other authorized fire prevention, safety, energy conservation, and school security purposes; or

(2) for transfer to the Operations and Maintenance Fund for the purpose of abating an equal amount of operations and maintenance purposes taxes.
Notwithstanding subdivision (2) of this subsection (j) and subsection (k) of this Section, through June 30, 2016, the school board may, by proper resolution following a public hearing set by the school board or the president of the school board (that is preceded (i) by at least one published notice over the name of the clerk or secretary of the board, occurring at least 7 days and not more than 30 days prior to the hearing, in a newspaper of general circulation within the school district and (ii) by posted notice over the name of the clerk or secretary of the board, at least 48 hours before the hearing, at the principal office of the school board or at the building where the hearing is to be held if a principal office does not exist, with both notices setting forth the time, date, place, and subject matter of the hearing), transfer surplus life safety taxes and interest earnings thereon to the Operations and Maintenance Fund for building repair work.

(k) If any transfer is made to the Operation and Maintenance Fund, the secretary of the school board shall within 30 days notify the county clerk of the amount of that transfer and direct the clerk to abate the taxes to be extended for the purposes of operations and maintenance authorized under Section 17-2 of this Act by an amount equal to such transfer.

(l) If the proceeds from the tax levy authorized by this Section are insufficient to complete the work approved under this Section, the school board is authorized to sell bonds without referendum under the provisions of this Section in an amount that, when added to the proceeds of the tax levy authorized by this Section, will allow completion of the approved work.

(m) Any bonds issued pursuant to this Section shall bear interest at a rate not to exceed the maximum rate authorized by law at the time of the making of the contract, shall mature within 20 years from date, and shall be signed by the president of the school board and the treasurer of the school district.

(n) In order to authorize and issue such bonds, the school board shall adopt a resolution fixing the amount of bonds, the date thereof, the maturities thereof, rates of interest thereof, place of payment and denomination, which shall be in denominations of not less than $100 and not more than $5,000, and provide for the levy and collection of a direct annual tax upon all the taxable property in the school district sufficient to pay the principal and interest on such bonds to maturity. Upon the filing in the office of the county clerk of the county in which the school district is located of a certified copy of the resolution, it is the duty of the county clerk to extend the tax therefor in addition to and in excess of all other taxes.
(o) After the time such bonds are issued as provided for by this Section, if additional alterations or reconstructions are required to be made because of surveys conducted by an architect or engineer licensed in the State of Illinois, the district may levy a tax at a rate not to exceed .05% per year upon all the taxable property of the district or issue additional bonds, whichever action shall be the most feasible.

(p) This Section is cumulative and constitutes complete authority for the issuance of bonds as provided in this Section notwithstanding any other statute or law to the contrary.

(q) With respect to instruments for the payment of money issued under this Section either before, on, or after the effective date of Public Act 86-004 (June 6, 1989), it is, and always has been, the intention of the General Assembly (i) that the Omnibus Bond Acts are, and always have been, supplementary grants of power to issue instruments in accordance with the Omnibus Bond Acts, regardless of any provision of this Act that may appear to be or to have been more restrictive than those Acts, (ii) that the provisions of this Section are not a limitation on the supplementary authority granted by the Omnibus Bond Acts, and (iii) that instruments issued under this Section within the supplementary authority granted by the Omnibus Bond Acts are not invalid because of any provision of this Act that may appear to be or to have been more restrictive than those Acts.

(r) When the purposes for which the bonds are issued have been accomplished and paid for in full and there remain funds on hand from the proceeds of the bond sale and interest earnings therefrom, the board shall, by resolution, use such excess funds in accordance with the provisions of Section 10-22.14 of this Act.

(s) Whenever any tax is levied or bonds issued for fire prevention, safety, energy conservation, and school security purposes, such proceeds shall be deposited and accounted for separately within the Fire Prevention and Safety Fund.

Individuals can receive subsequent endorsements on the Professional Educator License. Subsequent endorsements shall require a minimum of 24 semester hours of coursework in the endorsement area, unless otherwise specified by rule, and passage of the applicable content area test.

(2) Educator License with Stipulations. An Educator License with Stipulations shall be issued an endorsement that (i) is non-renewable, (ii) limits the license holder to one particular position, or (iii) does not require completion of an approved educator program or both any combination of items (i) through (iii) of this paragraph (2).

An individual with an Educator License with Stipulations must not be employed by a school district or any other entity to replace any presently employed teacher who otherwise would not be replaced for any reason.

An Educator License with Stipulations may be issued with the following endorsements:

(A) Provisional educator. A provisional educator endorsement in a specific content area or areas on an Educator License with Stipulations may be issued to an applicant who holds an educator license with a minimum of 15 semester hours in content coursework from another state, U.S. territory, or foreign country and who, at the time of applying for an Illinois license, does not meet the minimum requirements under Section 21B-35 of this Code, but does, at a minimum, meet both of the following requirements:

New matter indicated by italics - deletions by strikeout
(i) Holds the equivalent of a minimum of a bachelor's degree, unless a master's degree is required for the endorsement, from a regionally accredited college or university or, for individuals educated in a country other than the United States, the equivalent of a minimum of a bachelor's degree issued in the United States, unless a master's degree is required for the endorsement.

(ii) Has passed a test of basic skills and content area test, as required by Section 21B-30 of this Code.

However, a provisional educator endorsement for principals may not be issued, nor may any person with a provisional educator endorsement serve as a principal in a public school in this State. In addition, out-of-state applicants shall not receive a provisional educator endorsement if the person completed an alternative licensure program in another state, unless the program has been determined to be equivalent to Illinois program requirements.

Notwithstanding any other requirements of this Section, a service member or spouse of a service member may obtain a Professional Educator License with Stipulations, and a provisional educator endorsement in a specific content area or areas, if he or she holds a valid teaching certificate or license in good standing from another state, meets the qualifications of educators outlined in Section 21B-15 of this Code, and has not engaged in any misconduct that would prohibit an individual from obtaining a license pursuant to Illinois law, including without limitation any administrative rules of the State Board of Education; however, the service member or spouse may not serve as a principal under the Professional Educator License with Stipulations or provisional educator endorsement.

In this Section, "service member" means any person who, at the time of application under this Section, is an active duty member of the United States Armed Forces or any reserve component of the United States Armed Forces.
or the National Guard of any state, commonwealth, or territory of the United States or the District of Columbia.

A provisional educator endorsement is valid until June 30 immediately following 2 years of the license being issued, during which time any remaining testing and coursework deficiencies must be met. Failure to satisfy all stated deficiencies shall mean the individual, including any service member or spouse who has obtained a Professional Educator License with Stipulations and a provisional educator endorsement in a specific content area or areas, is ineligible to receive a Professional Educator License at that time. A provisional educator endorsement on an Educator License with Stipulations shall not be renewed.

(B) Alternative provisional educator. An alternative provisional educator endorsement on an Educator License with Stipulations may be issued to an applicant who, at the time of applying for the endorsement, has done all of the following:

(C) Alternative provisional superintendent. This endorsement may only be issued to an applicant who, at the time of applying for the endorsement, has done all of the following:

The career and technical educator endorsement on an Educator License with Stipulations is valid until June 30 immediately following 5 years of the endorsement being issued.

(F) Part-time provisional career and technical educator or provisional career and technical educator. A part-time provisional career and technical educator endorsement or a provisional career and technical educator endorsement on an Educator License with Stipulations may be issued to an applicant who has a minimum of 8,000 hours of work experience in the skill for which the applicant is seeking the endorsement. It is the responsibility of each employing school board and regional office of education to provide verification, in writing, to the State Superintendent of Education at the time the application is submitted that no qualified teacher holding a Professional Educator License or an Educator License with Stipulations with a career and technical educator endorsement is available and that actual circumstances require such issuance.

The provisional career and technical educator endorsement on an Educator License with Stipulations is valid until June 30 immediately following 5 years of the endorsement being issued and may be renewed only one time for 5 years if the individual passes a test of basic skills, as required under Section 21B-30 of this Code, and has completed a minimum of 20 semester hours from a regionally accredited institution.

Persons holding a transitional bilingual educator endorsement shall not be employed to replace any presently employed teacher who otherwise would not be replaced for any reason.

(H) Language endorsement. In an effort to alleviate the shortage of teachers speaking a language other than English in the public schools, an individual who holds an Educator License with Stipulations may also apply for a language endorsement, provided that the applicant provides satisfactory evidence that he or she meets all of the following requirements:

(i) Holds a transitional bilingual endorsement.

(ii) Has demonstrated proficiency in the language for which the endorsement is to be issued by passing the applicable language content test required by the State Board of Education.

(iv) Has passed a test of basic skills, as required under Section 21B-30 of this Code.

A language endorsement on an Educator License with Stipulations is valid for prekindergarten through grade 12 for the same validity period as the individual's transitional bilingual educator endorsement on the Educator License with Stipulations and shall not be renewed.

(I) Visiting international educator. A visiting international educator endorsement on an Educator License with Stipulations may be issued to an individual who is being recruited by a particular school district that conducts formal recruitment programs outside of the United States to secure the services of qualified teachers and who meets all of the following requirements:

(ii) Has been prepared as a teacher at the grade level for which he or she will be employed.

(iii) Has adequate content knowledge in the subject to be taught.

(iv) Has an adequate command of the English language.

A holder of a visiting international educator endorsement on an Educator License with Stipulations shall be permitted to teach in bilingual education programs in the language that was the medium of instruction in his or her teacher preparation program, provided that he or she passes the English Language Proficiency Examination or another test of writing skills in English identified by the State Board of Education, in consultation with the State Educator Preparation and Licensure Board.

A visiting international educator endorsement on an Educator License with Stipulations is valid for 3 years and shall not be renewed.

(J) Paraprofessional educator. A paraprofessional educator endorsement on an Educator License with Stipulations may be issued to an applicant who holds a high school diploma or its recognized equivalent and either holds an associate's degree or a minimum of 60 semester hours of credit from a regionally accredited institution of higher education or has passed a test of basic skills required under Section 21B-30 of this Code. hold a bachelor's degree or higher from a regionally accredited institution of higher education.

Substitute Teaching Licenses are valid for 5 years and may be renewed if the individual has passed a test of basic skills, as authorized under Section 21B-30 of this Code. An individual who has passed a test of basic skills for the first licensure renewal is not required to retake the test again for further renewals.

Substitute Teaching Licenses are valid for substitute teaching in every county of this State. If an individual has had his or her Professional Educator License or Educator License with Stipulations suspended or revoked or has not met the renewal requirements for licensure, then that individual is not eligible to obtain a Substitute Teaching License.

A substitute teacher may only teach in the place of a licensed teacher who is under contract with the employing board. If, however, there is no licensed teacher under contract because of an emergency situation, then a district may employ a substitute teacher for no longer than 30 calendar days per each vacant position in the district if the district notifies the appropriate regional office of education within 5 business days after the employment of the substitute teacher in the emergency situation. An emergency situation is one in which an unforeseen vacancy has occurred and (i) a teacher is unable to fulfill his or her contractual duties or (ii) teacher capacity needs of the district exceed previous indications, and the district is actively engaged in advertising to hire a fully licensed teacher for the vacant position.

There is no limit on the number of days that a substitute teacher may teach in a single school district, provided that no substitute teacher may teach for longer than 90 school days for any one licensed teacher under contract in the same school year. A substitute teacher who holds a Professional Educator License or Educator License with Stipulations shall not teach for more than 120 school days for any one licensed teacher under contract in the same school year. The limitations in this paragraph (3) on the number of days a substitute teacher may be employed do not apply to any school district operating under Article 34 of this Code.

approved pursuant to the rules of the Board, and each video gaming terminal offered in this State for play shall conform to an approved model. The Board may utilize the services of an independent outside testing laboratory for the examination of video gaming machines and associated equipment as required by this Section. Every video gaming terminal offered in this State for play must meet minimum standards set by an independent outside testing laboratory approved by the Board. Each approved model shall, at a minimum, meet the following criteria:

(1) It must conform to all requirements of federal law and regulations, including FCC Class A Emissions Standards.

(2) It must theoretically pay out a mathematically demonstrable percentage during the expected lifetime of the machine of all amounts played, which must not be less than 80%. The Board shall establish a maximum payout percentage for approved models by rule. Video gaming terminals that may be affected by skill must meet this standard when using a method of play that will provide the greatest return to the player over a period of continuous play.

(3) It must use a random selection process to determine the outcome of each play of a game. The random selection process must meet 99% confidence limits using a standard chi-squared test for (randomness) goodness of fit.

(4) It must display an accurate representation of the game outcome.

(5) It must not automatically alter pay tables or any function of the video gaming terminal based on internal computation of hold percentage or have any means of manipulation that affects the random selection process or probabilities of winning a game.

(6) It must not be adversely affected by static discharge or other electromagnetic interference.

(7) It must be capable of detecting and displaying the following conditions during idle states or on demand: power reset; door open; and door just closed.

(8) It must have the capacity to display complete play history (outcome, intermediate play steps, credits available, bets placed, credits paid, and credits cashed out) for the most recent game played and 10 games prior thereto.

(9) The theoretical payback percentage of a video gaming terminal must not be capable of being changed without making a
hardware or software change in the video gaming terminal, either on site or via the central communications system.

(10) Video gaming terminals must be designed so that replacement of parts or modules required for normal maintenance does not necessitate replacement of the electromechanical meters.

(11) It must have nonresettable meters housed in a locked area of the terminal that keep a permanent record of all cash inserted into the machine, all winnings made by the terminal printer, credits played in for video gaming terminals, and credits won by video gaming players. The video gaming terminal must provide the means for on-demand display of stored information as determined by the Board.

(12) Electronically stored meter information required by this Section must be preserved for a minimum of 180 days after a power loss to the service.

(13) It must have one or more mechanisms that accept cash in the form of bills. The mechanisms shall be designed to prevent obtaining credits without paying by stringing, slamming, drilling, or other means. If such attempts at physical tampering are made, the video gaming terminal shall suspend itself from operating until reset.

(14) It shall have accounting software that keeps an electronic record which includes, but is not limited to, the following: total cash inserted into the video gaming terminal; the value of winning tickets claimed by players; the total credits played; the total credits awarded by a video gaming terminal; and pay back percentage credited to players of each video game.

(15) It shall be linked by a central communications system to provide auditing program information as approved by the Board. The central communications system shall use a standard industry protocol, as defined by the Gaming Standards Association, and shall have the functionality to enable the Board or its designee to activate or deactivate individual gaming devices from the central communications system. In no event may the communications system approved by the Board limit participation to only one manufacturer of video gaming terminals by either the cost in implementing the necessary program modifications to communicate or the inability to communicate with the central communications system.

New matter indicated by italics - deletions by strikeout
(16) The Board, in its discretion, may require video gaming terminals to display Amber Alert messages if the Board makes a finding that it would be economically and technically feasible and pose no risk to the integrity and security of the central communications system and video gaming terminals.

The Board may adopt rules to establish additional criteria to preserve the integrity and security of video gaming in this State. The central communications system vendor may be licensed as a video gaming terminal manufacturer or a video gaming terminal distributor, or both, but in no event shall the central communications system vendor be licensed as a video gaming terminal operator. The central communications system vendor may not hold any license issued by the Board under this Act.

The Board shall not permit the development of information or the use by any licensee of gaming device or individual game performance data. Nothing in this Act shall inhibit or prohibit the Board from the use of gaming device or individual game performance data in its regulatory duties. The Board shall adopt rules to ensure that all licensees are treated and all licensees act in a non-discriminatory manner and develop processes and penalties to enforce those rules.

(b) Distributor. A person may not sell, distribute, or lease or market a video gaming terminal in Illinois unless the person has a valid distributor's license issued under this Act. A distributor may only sell video gaming terminals for use in Illinois to persons having a valid distributor's or terminal operator's license.

(c) Terminal operator. A person may not own, maintain, or place a video gaming terminal unless he has a valid terminal operator's license issued under this Act. establishments. No terminal operator may give anything of value, including but not limited to a loan or financing arrangement, to a licensed establishment, licensed truck stop establishment, licensed fraternal establishment, or licensed veterans establishment as any incentive or inducement to locate video terminals in that establishment. Of the after-tax profits from a video gaming terminal, 50% shall be paid to the terminal operator and 50% shall be paid to the licensed establishment, licensed truck stop establishment, licensed fraternal establishment, or licensed veterans establishment, notwithstanding any agreement to the contrary. A video terminal operator that violates one or more requirements of this subsection is guilty of a Class 4 felony and is subject to termination of his or her license by the Board.

(d) Licensed technician. A person may not service, maintain, or repair a video gaming terminal in this State unless he or she (1) has a valid technician's license issued under this Act, (2) is a terminal operator, or (3) is employed by a terminal operator, distributor, or manufacturer.

(d-5) Licensed terminal handler. No person, including, but not limited to, an employee or independent contractor working for a manufacturer, distributor, supplier, technician, or terminal operator licensed pursuant to this Act, shall have possession or control of a video gaming terminal, or access to the inner workings of a video gaming terminal, unless that person possesses a valid terminal handler's license issued under this Act.

(e) Licensed establishment. No video gaming terminal may be placed in any licensed establishment, licensed veterans establishment, licensed truck stop establishment, or licensed fraternal establishment unless the owner or agent of the owner of the licensed establishment, licensed veterans establishment, licensed truck stop establishment, or licensed fraternal establishment has entered into a written use agreement with the terminal operator for placement of the terminals. A copy of the use agreement shall be on file in the terminal operator's place of business and available for inspection by individuals authorized by the Board. A licensed establishment, licensed truck stop establishment, licensed veterans establishment, or licensed fraternal establishment may operate up to 5 video gaming terminals on its premises at any time.

(f) (Blank).

(g) Financial interest restrictions. As used in this Act, "substantial interest" in a partnership, a corporation, an organization, an association, a business, or a limited liability company means:

New matter indicated by italics - deletions by strikeout
(A) When, with respect to a sole proprietorship, an individual or his or her spouse owns, operates, manages, or conducts, directly or indirectly, the organization, association, or business, or any part thereof; or

(B) When, with respect to a partnership, the individual or his or her spouse shares in any of the profits, or potential profits, of the partnership activities; or

(C) When, with respect to a corporation, an individual or his or her spouse is an officer or director, or the individual or his or her spouse is the owner of or otherwise controls 10% or more of the assets of the corporation; or

(D) When, with respect to an organization not covered in (A), (B) or (C) above, an individual or his or her spouse is an officer or manages the business affairs, or the individual or his or her spouse is a holder, directly or beneficially, of 5% or more of any class of stock of the corporation; or

(E) When an individual or his or her spouse furnishes 5% or more of the capital, whether in cash, goods, or services, for the operation of any business, association, or organization during any calendar year; or

(F) When, with respect to a limited liability company, an individual or his or her spouse is a member, or the individual or his or her spouse is a holder, directly or beneficially, of 5% or more of the membership interest of the limited liability company.

For purposes of this subsection (g), "individual" includes all individuals or their spouses whose combined interest would qualify as a substantial interest under this subsection (g) and whose activities with respect to an organization, association, or business are so closely aligned or coordinated as to constitute the activities of a single entity.

(h) Location restriction. A licensed establishment, licensed truck stop establishment, licensed fraternal establishment, or licensed veterans establishment that is (i) located within 1,000 feet of a facility operated by an organization licensee or an inter-track wagering licensee licensed under the Illinois Horse Racing Act of 1975 or the home dock of a riverboat licensed under the Riverboat Gambling Act or (ii) located within 100 feet of a school or a place of worship under the Religious Corporation Act, is ineligible to operate a video gaming terminal. The location restrictions in this subsection (h) do not apply if a facility operated by an organization licensee, an inter-track wagering licensee, or an inter-track wagering...
location licensee, a school, or a place of worship moves to or is established within the restricted area after a licensed establishment, licensed truck stop establishment, licensed fraternal establishment, or licensed veterans establishment becomes licensed under this Act. For the purpose of this subsection, "school" means an elementary or secondary public school, or an elementary or secondary private school registered with or recognized by the State Board of Education.

Notwithstanding the provisions of this subsection (h), the Board may waive the requirement that a licensed establishment, licensed truck stop establishment, licensed fraternal establishment, or licensed veterans establishment not be located within 1,000 feet from a facility operated by an organization licensee, an inter-track wagering licensee, or an inter-track wagering location licensee licensed under the Illinois Horse Racing Act of 1975 or the home dock of a riverboat licensed under the Riverboat Gambling Act. The Board shall not grant such waiver if there is any common ownership or control, shared business activity, or contractual arrangement of any type between the establishment and the organization licensee, inter-track wagering licensee, inter-track wagering location licensee, or owners licensee of a riverboat. The Board shall adopt rules to implement the provisions of this paragraph.

(i) Undue economic concentration. In addition to considering all other requirements under this Act, in deciding whether to approve the operation of video gaming terminals by a terminal operator in a location, the Board shall consider the impact of any economic concentration of such operation of video gaming terminals. The Board shall not allow a terminal operator to operate video gaming terminals if the Board determines such operation will result in undue economic concentration. For purposes of this Section, "undue economic concentration" means that a terminal operator would have such actual or potential influence over video gaming terminals in Illinois as to:

(1) substantially impede or suppress competition among terminal operators;
(2) adversely impact the economic stability of the video gaming industry in Illinois; or
(3) negatively impact the purposes of the Video Gaming Act.

The Board shall adopt rules concerning undue economic concentration with respect to the operation of video gaming terminals in Illinois. The rules shall include, but not be limited to, (i) limitations on the
number of video gaming terminals operated by any terminal operator within a defined geographic radius and (ii) guidelines on the discontinuation of operation of any such video gaming terminals the Board determines will cause undue economic concentration.

(j) The provisions of the Illinois Antitrust Act are fully and equally applicable to the activities of any licensee under this Act.

(a) The burden is upon each applicant to demonstrate his suitability for licensure. Each video gaming terminal manufacturer, distributor, supplier, operator, handler, licensed establishment, licensed truck stop establishment, licensed fraternal establishment, and licensed veterans establishment shall be licensed by the Board. The Board may issue or deny a license under this Act to any person pursuant to the same criteria set forth in Section 9 of the Riverboat Gambling Act.

(a-5) The Board shall not grant a license to a person who has facilitated, enabled, or participated in the use of coin-operated devices for gambling purposes or who is under the significant influence or control of such a person. For the purposes of this Act, "facilitated, enabled, or participated in the use of coin-operated amusement devices for gambling purposes" means that the person has been convicted of any violation of Article 28 of the Criminal Code of 1961 or the Criminal Code of 2012. If there is pending legal action against a person for any such violation, then the Board shall delay the licensure of that person until the legal action is resolved.

(b) Each person seeking and possessing a license as a video gaming terminal manufacturer, distributor, supplier, operator, handler, licensed establishment, licensed truck stop establishment, licensed fraternal establishment, or licensed veterans establishment shall submit to a background investigation conducted by the Board with the assistance of the State Police or other law enforcement. The background investigation shall include each beneficiary of a trust, each partner of a partnership, and each director and officer and all stockholders of 5% or more in a parent or subsidiary corporation of a video gaming terminal manufacturer, distributor, supplier, operator, or licensed establishment, licensed truck

If the disclosed entity is a trust, the application shall disclose the names and addresses of the beneficiaries; if a corporation, the names and addresses of all stockholders and directors; if a limited liability company, the names and addresses of all members; or if a partnership, the names and addresses of all partners, both general and limited.

(d) No person may be licensed as a video gaming terminal manufacturer, distributor, supplier, operator, handler, licensed establishment, licensed truck stop establishment, licensed fraternal establishment, or licensed veterans establishment if that person has been found by the Board to:

(1) have a background, including a criminal record, reputation, habits, social or business associations, or prior activities that pose a threat to the public interests of the State or to the security and integrity of video gaming;

(2) create or enhance the dangers of unsuitable, unfair, or illegal practices, methods, and activities in the conduct of video gaming; or

(3) present questionable business practices and financial arrangements incidental to the conduct of video gaming activities.

(e) Any applicant for any license under this Act has the burden of proving his or her qualifications to the satisfaction of the Board. The Board may adopt rules to establish additional qualifications and requirements to preserve the integrity and security of video gaming in this State.

(a) Every device designed for gambling which is incapable of lawful use or every device used unlawfully for gambling shall be considered a "gambling device", and shall be subject to seizure, confiscation and destruction by the Department of State Police or by any municipal, or other local authority, within whose jurisdiction the same may be found. As used in this Section, a "gambling device" includes any slot machine, and includes any machine or device constructed for the reception of money or other thing of value and so constructed as to return, or to cause someone to return, on chance to the player thereof money, property or a right to receive money or property. With the exception of any device designed for gambling which is incapable of lawful use, no gambling device shall be forfeited or destroyed unless an individual with a property interest in said device knows of the unlawful use of the device.

(b) Every gambling device shall be seized and forfeited to the county wherein such seizure occurs. Any money or other thing of value integrally related to acts of gambling shall be seized and forfeited to the county wherein such seizure occurs.

(c) If, within 60 days after any seizure pursuant to subparagraph (b) of this Section, a person having any property interest in the seized property is charged with an offense, the court which renders judgment upon such charge shall, within 30 days after such judgment, conduct a forfeiture hearing to determine whether such property was a gambling device at the time of seizure. Such hearing shall be commenced by a written petition by the State, including material allegations of fact, the name and address of every person determined by the State to have any property interest in the seized property, a representation that written notice of the date, time and place of such hearing has been mailed to every such person by certified mail at least 10 days before such date, and a request for forfeiture. Every such person may appear as a party and present evidence at such hearing.

The quantum of proof required shall be a preponderance of the evidence, and the burden of proof shall be on the State. If the court determines that the seized property was a gambling device at the time of seizure, an order of forfeiture and disposition of the seized property shall be entered: a gambling device shall be received by the State's Attorney, who shall effect its destruction, except that valuable parts thereof may be liquidated and the resultant money shall be deposited in the general fund of the county wherein such seizure occurred; money and other things of value shall be received by the State's Attorney and, upon liquidation, shall be deposited in the general fund of the county wherein such seizure occurred. However, in the event that a defendant raises the defense that the seized slot machine is an antique slot machine described in subparagraph (b) (7) of Section 28-1 of this Code and therefore he is exempt from the charge of a gambling activity participant, the seized antique slot machine shall not be destroyed or otherwise altered until a final determination is made by the Court as to whether it is such an antique slot machine. Upon a final determination by the Court of this question in favor of the defendant, such slot machine shall be immediately returned to the defendant. Such order of forfeiture and disposition shall, for the purposes of appeal, be a final order and judgment in a civil proceeding.

(d) If a seizure pursuant to subparagraph (b) of this Section is not followed by a charge pursuant to subparagraph (c) of this Section, or if the prosecution of such charge is permanently terminated or indefinitely discontinued without any judgment of conviction or acquittal (1) the State's Attorney shall commence an in rem proceeding for the forfeiture and destruction of a gambling device, or for the forfeiture and deposit in the general fund of the county of any seized money or other things of value, or both, in the circuit court and (2) any person having any property interest in such seized gambling device, money or other thing of value may commence separate civil proceedings in the manner provided by law.

(e) Any gambling device displayed for sale to a riverboat gambling operation or used to train occupational licensees of a riverboat gambling operation as authorized under the Riverboat Gambling Act is exempt from seizure under this Section.

(f) Any gambling equipment, devices and supplies provided by a licensed supplier in accordance with the Riverboat Gambling Act which are removed from the riverboat for repair are exempt from seizure under this Section.

Sec. 245.21. Establishment of separate accounts by domestic companies organized to do a life, annuity, or accident and health insurance business. A domestic company, including for the purposes of this Article all domestic fraternal benefit societies, may, for authorized classes of insurance, establish one or more separate accounts, and may allocate thereto amounts (including without limitation proceeds applied under optional modes of settlement or under dividend options) to provide for life, annuity, or accident and health insurance (and benefits incidental thereto), payable in fixed or variable amounts or both, subject to the following:

(1) The income, gains and losses, realized or unrealized, from assets allocated to a separate account must be credited to or charged against the account, without regard to other income, gains or losses of the company.

(2) Except as may be provided with respect to reserves for guaranteed benefits and funds referred to in paragraph (3) of this Section (i) amounts allocated to any separate account and accumulations thereon may be invested and reinvested without regard to any requirements or limitations of Part 2 or Part 3 of Article VIII of this Code and (ii) the investments in any separate account or accounts may not be taken into

(3) Except with the approval of the Director and under the conditions as to investments and other matters as the Director may prescribe, that must recognize the guaranteed nature of the benefits provided, reserves for (i) benefits guaranteed as to dollar amount and duration and (ii) funds guaranteed as to principal amount or stated rate of interest may not be maintained in a separate account.

(4) Unless otherwise approved by the Director, assets allocated to a separate account must be valued at their market value on the date of valuation, or if there is no readily available market, then as provided in the contract or the rules or other written agreement applicable to the separate account. Unless otherwise approved by the Director, the portion, if any, of the assets of the separate account equal to the company's reserve liability with regard to the guaranteed benefits and funds referred to in paragraph (3) of this Section must be valued in accordance with the rules otherwise applicable to the company's assets.

(5) Amounts allocated to a separate account under this Article are owned by the company, and the company may not be, nor hold itself out to be, a trustee with respect to those amounts. (6) No sale, exchange or other transfer of assets may be made by a company between any of its separate accounts or between any other investment account and one or more of its separate accounts unless, in case of a transfer into a separate account, the transfer is made solely to establish the account or to support the operation of the contracts with respect to the separate account to which the transfer is made, and unless the transfer, whether into or from a separate account, is made (i) by a transfer of cash, or (ii) by a transfer of securities having a readily determinable market value, if the transfer of securities is approved by the Director. AN ACT concerning civil law.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Workers' Compensation Act is amended by changing Sections 9, 14, 15a, 19, 19a, and 20 as follows:

(820 ILCS 305/9) (from Ch. 48, par. 138.9)
Sec. 9. Any employer or employee or beneficiary who shall desire to have such compensation, or any unpaid part thereof, paid in a lump sum, may petition the Commission, asking that such compensation be so paid. If, upon proper notice to the interested parties and a proper showing made before such Commission or any member thereof, it appears to the best interest of the parties that such compensation be so paid, the Commission may order the commutation of the compensation to an equivalent lump sum, which commutation shall be an amount which will equal the total sum of the probable future payments capitalized at their present value upon the basis of interest calculated at the maximum rate of interest payable by member banks of the Federal Reserve System on passbook savings deposits as published in Regulation Q or its successor or, if Regulation Q or its successor is repealed, then the rate in effect on

the date of repeal. 

Prior to approval of any pro se Settlement Contract Lump Sum Petition, the Commission or an Arbitrator thereof shall determine if the unrepresented employee, if present, is able to read and communicate in English. If not, it shall be the responsibility of the Commission to provide a qualified, independent interpreter at the time such Petition is heard, unless the employee has provided his or her own interpreter.

In cases indicating complete disability no petition for a commutation to a lump sum basis shall be entertained by the Commission until after the expiration of 6 months from the date of the injury.

Where necessary, upon proper application being made, a guardian or administrator, as the case may be, may be appointed for any person under disability who may be entitled to any such compensation and an employer bound by the terms of this Act and liable to pay such compensation, may petition for the appointment of the public administrator, or guardian, where no legal representative has been appointed or is acting for such party or parties so under disability.

The payment of compensation in a lump sum to the employee in his or her lifetime upon order of the Commission, shall extinguish and bar all claims for compensation for death if the compensation paid in a lump sum represents a compromise of a dispute on any question other than the extent of disability.

Subject to the provisions herein above in this paragraph contained, where no dispute exists as to the fact that the accident arose out of and in the course of the employment and where such accident results in death or in the amputation of any member or in the enucleation of an eye, then and in such case the arbitrator or Commission may, upon the petition of either the employer or the employee, enter an award providing for the payment of compensation for such death or injury in accordance with the provisions of Section 7 or paragraph (e) of Section 8 of this Act.

Sec. 19. Any disputed questions of law or fact shall be determined as herein provided.

(a) It shall be the duty of the Commission upon notification that the parties have failed to reach an agreement, to designate an Arbitrator.

1. Whenever any claimant misconceives his remedy and files an application for adjustment of claim under this Act and it is subsequently discovered, at any time before final disposition of such cause, that the claim for disability or death which was the basis for such application should properly have been made under the Workers' Occupational Diseases Act, then the provisions of Section 19, paragraph (a-1) of the Workers' Occupational Diseases Act having reference to such application shall apply.

Section contained shall be construed to be or permit a waiver of any provisions of this Act with reference to notice but notice if given shall be deemed to be a notice under the provisions of this Act if given within the time required herein.

(b) The Arbitrator shall make such inquiries and investigations as he or they shall deem necessary and may examine and inspect all books, papers, records, places, or premises relating to the questions in dispute and hear such proper evidence as the parties may submit.

The hearings before the Arbitrator shall be held in the vicinity where the injury occurred after 10 days' notice of the time and place of such hearing shall have been given to each of the parties or their attorneys of record.

The Arbitrator may find that the disabling condition is temporary and has not yet reached a permanent condition and may order the payment of compensation up to the date of the hearing, which award shall be reviewable and enforceable in the same manner as other awards, and in no instance be a bar to a further hearing and determination of a further amount of temporary total compensation or of compensation for permanent disability, but shall be conclusive as to all other questions except the nature and extent of said disability.

The decision of the Arbitrator shall be filed with the Commission which Commission shall immediately send to each party or his attorney a copy of such decision, together with a notification of the time when it was filed. As of the effective date of this amendatory Act of the 94th General Assembly, all decisions of the Arbitrator shall set forth in writing findings of fact and conclusions of law, separately stated, if requested by either party. Unless a petition for review is filed by either party within 30 days after the receipt by such party of the copy of the decision and notification of time when filed, and unless such party petitioning for a review shall within 35 days after the receipt by him of the copy of the decision, file with the Commission either an agreed statement of the facts appearing upon the hearing before the Arbitrator, or if such party shall so elect a correct transcript of evidence of the proceedings at such hearings, then the decision shall become the decision of the Commission and in the absence of fraud shall be conclusive. The Petition for Review shall contain a statement of the petitioning party's specific exceptions to the decision of the arbitrator. The jurisdiction of the Commission to review the decision of the arbitrator shall not be limited to the exceptions stated in the Petition for Review. Whether the employee is working or not, if the employee is not receiving or has not received medical, surgical, or hospital services or other services or compensation as provided in paragraph (a) of Section 8, or compensation as provided in paragraph (b) of Section 8, the employee may at any time petition for an expedited hearing by an Arbitrator on the issue of whether or not he or she is entitled to receive payment of the services or compensation. Provided the employer continues to pay compensation pursuant to paragraph (b) of Section 8, the employer may at any time petition for an expedited hearing on the issue of whether or not the employee is entitled to receive medical, surgical, or hospital services or other services or compensation as provided in paragraph (a) of Section 8, or compensation as provided in paragraph (b) of Section 8. When an employer has petitioned for an expedited hearing, the employer shall continue to pay compensation as provided in paragraph (b) of Section 8 unless the arbitrator renders a decision that the employee is not entitled to the benefits that are the subject of the expedited hearing or unless the employee's treating physician has released the employee to return to work at his or her regular job with the employer or the employee actually returns to work at any other job. If the arbitrator renders a decision that the employee is not entitled to the benefits that are the subject of the expedited hearing, a petition for review filed by the employee shall receive the same priority as if the employee had filed a petition for an expedited hearing by an Arbitrator. Neither party shall be entitled to an expedited hearing when the employee has returned to work and the sole issue in dispute amounts to less than 12 weeks of unpaid compensation pursuant to paragraph (b) of Section 8.

 Expedited hearings shall have priority over all other petitions and shall be heard by the Arbitrator and Commission with all convenient speed. Any party requesting an expedited hearing shall give notice of a request for an expedited hearing under this paragraph. A copy of the Application for Adjustment of Claim shall be attached to the notice. The Commission shall adopt rules and procedures under which the final decision of the Commission under this paragraph is filed not later than 180
days from the date that the Petition for Review is filed with the Commission.

Where 2 or more insurance carriers, private self-insureds, or a group workers' compensation pool under Article V 3/4 of the Illinois Insurance Code dispute coverage for the same injury, any such insurance carrier, private self-insured, or group workers' compensation pool may request an expedited hearing pursuant to this paragraph to determine the issue of coverage, provided coverage is the only issue in dispute and all other issues are stipulated and agreed to and further provided that all compensation benefits including medical benefits pursuant to Section 8(a) continue to be paid to or on behalf of petitioner. Any insurance carrier, private self-insured, or group workers' compensation pool that is determined to be liable for coverage for the injury in issue shall reimburse any insurance carrier, private self-insured, or group workers' compensation pool that has paid benefits to or on behalf of petitioner for the injury.

(b-1) If the employee is not receiving medical, surgical or hospital services as provided in paragraph (a) of Section 8 or compensation as provided in paragraph (b) of Section 8, the employee, in accordance with Commission Rules, may file a petition for an emergency hearing by an Arbitrator on the issue of whether or not he is entitled to receive payment of such compensation or services as provided therein. Such petition shall have priority over all other petitions and shall be heard by the Arbitrator and Commission with all convenient speed.

Such petition shall contain the following information and shall be served on the employer at least 15 days before it is filed:

(i) the date and approximate time of accident;
(ii) the approximate location of the accident;

(viii) the name and address, if known, of each witness to the accident and of each other person upon whom the employee will rely to support his allegations;

(ix) the dates of treatment related to the accident by medical practitioners, and the names and addresses of such practitioners, including the dates of treatment related to the accident at any hospitals and the names and addresses of such hospitals, and a signed authorization permitting the employer to examine all medical records of all practitioners and hospitals named pursuant to this paragraph;

(x) a copy of a signed report by a medical practitioner, relating to the employee's current inability to return to work because of the injuries incurred as a result of the accident or such other documents or affidavits which show that the employee is entitled to receive compensation pursuant to paragraph (b) of Section 8 of this Act or medical, surgical or hospital services pursuant to paragraph (a) of Section 8 of this Act. Such reports, documents or affidavits shall state, if possible, the history of the accident given by the employee, and describe the injury and medical diagnosis, the medical services for such injury which the employee has received and is receiving, the physical activities which the employee cannot currently perform as a result of any impairment or disability due to such injury, and the prognosis for recovery;

(xi) complete copies of any reports, records, documents and affidavits in the possession of the employee on which the employee will rely to support his allegations, provided that the employer shall pay the reasonable cost of reproduction thereof;

(xiii) a certification signed by the employee or his representative that the employer has received the petition with the required information 15 days before filing.

employer may file a motion addressed to the sufficiency of the petition. If an objection has been filed to the sufficiency of the petition, the arbitrator shall rule on the objection within 2 working days. If such an objection is filed, the time for filing the final decision of the Commission as provided in this paragraph shall be tolled until the arbitrator has determined that the petition is sufficient.

The employer shall, within 15 days after receipt of the notice that such petition is filed, file with the Commission and serve on the employee or his representative a written response to each claim set forth in the petition, including the legal and factual basis for each disputed allegation and the following information: (i) complete copies of any reports, records, documents and affidavits in the possession of the employer on which the employer intends to rely in support of his response, (ii) a list of any reports, records, documents and affidavits which the employer has demanded by subpoena and on which the employer intends to rely in support of his response, (iii) the name and address of each witness on whom the employer will rely to support his response, and (iv) the names and addresses of any medical practitioners selected by the employer pursuant to Section 12 of this Act and the time and place of any examination scheduled to be made pursuant to such Section.

Any employer who does not timely file and serve a written response without good cause may not introduce any evidence to dispute any claim of the employee but may cross examine the employee or any witness brought by the employee and otherwise be heard.

No document or other evidence not previously identified by either party with the petition or written response, or by any other means before the hearing, may be introduced into evidence without good cause. If, at the hearing, material information is discovered which was not previously disclosed, the Arbitrator may extend the time for closing proof on the motion of a party for a reasonable period of time which may be more than 30 days. No evidence may be introduced pursuant to this paragraph as to permanent disability. No award may be entered for permanent disability pursuant to this paragraph. Either party may introduce into evidence the testimony taken by deposition of any medical practitioner.

The Commission shall adopt rules, regulations and procedures whereby the final decision of the Commission is filed not later than 90 days from the date the petition for review is filed but in no event later than 180 days from the date the petition for an emergency hearing is filed with the Illinois Workers' Compensation Commission.

All service required pursuant to this paragraph (b-1) must be by personal service or by certified mail and with evidence of receipt. In addition for the purposes of this paragraph, all service on the employer must be at the premises where the accident occurred if the premises are owned or operated by the employer. Otherwise service must be at the employee's principal place of employment by the employer. If service on the employer is not possible at either of the above, then service shall be at the employer's principal place of business. After initial service in each case, service shall be made on the employer's attorney or designated representative.

(c) (1) At a reasonable time in advance of and in connection with the hearing under Section 19(e) or 19(h), the Commission may on its own motion order an impartial physical or mental examination of a petitioner whose mental or physical condition is in issue, when in the Commission's discretion it appears that such an examination will materially aid in the just determination of the case. The examination shall be made by a member or members of a panel of physicians chosen for their special qualifications by the Illinois State Medical Society. The Commission shall establish procedures by which a physician shall be selected from such list.

(2) Should the Commission at any time during the hearing find that compelling considerations make it advisable to have an examination and report at that time, the commission may in its discretion so order.

(3) A copy of the report of examination shall be given to the Commission and to the attorneys for the parties.

(4) Either party or the Commission may call the examining physician or physicians to testify. Any physician so called shall be subject to cross-examination.

(5) The examination shall be made, and the physician or physicians, if called, shall testify, without cost to the parties. The Commission shall determine the compensation and the pay of the physician or physicians. The compensation for this service shall not exceed the usual and customary amount for such service.

(6) The fees and payment thereof of all attorneys and physicians for services authorized by the Commission under this Act shall, upon request of either the employer or the employee or the beneficiary affected, be subject to the review and decision of the Commission.

(d) If any employee shall persist in insanitary or injurious practices which tend to either imperil or retard his recovery or shall refuse to submit to such medical, surgical, or hospital treatment as is reasonably essential to
promote his recovery, the Commission may, in its discretion, reduce or suspend the compensation of any such injured employee. However, when an employer and employee so agree in writing, the foregoing provision shall not be construed to authorize the reduction or suspension of compensation of an employee who is relying in good faith, on treatment by prayer or spiritual means alone, in accordance with the tenets and practice of a recognized church or religious denomination, by a duly accredited practitioner thereof.

(e) This paragraph shall apply to all hearings before the Commission. Such hearings may be held in its office or elsewhere as the Commission may deem advisable. The taking of testimony on such hearings may be had before any member of the Commission. If a petition for review and agreed statement of facts or transcript of evidence is filed, as provided herein, the Commission shall promptly review the decision of the Arbitrator and all questions of law or fact which appear from the statement of facts or transcript of evidence.

In all cases in which the hearing before the arbitrator is held after December 18, 1989, no additional evidence shall be introduced by the parties before the Commission on review of the decision of the Arbitrator. In reviewing decisions of an arbitrator the Commission shall award such temporary compensation, permanent compensation and other payments as are due under this Act. The Commission shall file in its office its decision thereon, and shall immediately send to each party or his attorney a copy of such decision and a notification of the time when it was filed. Decisions shall be filed within 60 days after the Statement of Exceptions and Supporting Brief and Response thereto are required to be filed or oral argument whichever is later.

In the event either party requests oral argument, such argument shall be had before a panel of 3 members of the Commission (or before all available members pursuant to the determination of 7 members of the Commission that such argument be held before all available members of the Commission) pursuant to the rules and regulations of the Commission. A panel of 3 members, which shall be comprised of not more than one representative citizen of the employing class and not more than one representative citizen of the employee class, shall hear the argument; provided that if all the issues in dispute are solely the nature and extent of the permanent partial disability, if any, a majority of the panel may deny the request for such argument and such argument shall not be held; and provided further that 7 members of the Commission may determine that
the argument be held before all available members of the Commission. A
decision of the Commission shall be approved by a majority of
Commissioners present at such hearing if any; provided, if no such hearing
is held, a decision of the Commission shall be approved by a majority of a
panel of 3 members of the Commission as described in this Section. The
Commission shall give 10 days' notice to the parties or their attorneys of
the time and place of such taking of testimony and of such argument.

In any case the Commission in its decision may find specially upon
any question or questions of law or fact which shall be submitted in
writing by either party whether ultimate or otherwise; provided that on
issues other than nature and extent of the disability, if any, the
Commission in its decision shall find specially upon any question or
questions of law or fact, whether ultimate or otherwise, which are
submitted in writing by either party; provided further that not more than 5
such questions may be submitted by either party. Any party may, within 20
days after receipt of notice of the Commission's decision, or within such
further time, not exceeding 30 days, as the Commission may grant, file
with the Commission either an agreed statement of the facts appearing
upon the hearing, or, if such party shall so elect, a correct transcript of
evidence of the additional proceedings presented before the Commission,
in which report the party may embody a correct statement of such other
proceedings in the case as such party may desire to have reviewed, such
statement of facts or transcript of evidence to be authenticated by the
signature of the parties or their attorneys, and in the event that they do not
agree, then the authentication of such transcript of evidence shall be by the
signature of any member of the Commission.

If a reporter does not for any reason furnish a transcript of the
proceedings before the Arbitrator in any case for use on a hearing for
review before the Commission, within the limitations of time as fixed in
this Section, the Commission may, in its discretion, order a trial de novo
before the Commission in such case upon application of either party. The
applications for adjustment of claim and other documents in the nature of
pleadings filed by either party, together with the decisions of the Arbitrator
and of the Commission and the statement of facts or transcript of evidence
hereinbefore provided for in paragraphs (b) and (c) shall be the record of
the proceedings of the Commission, and shall be subject to review as
hereinafter provided.

At the request of either party or on its own motion, the
Commission shall set forth in writing the reasons for the decision,
including findings of fact and conclusions of law separately stated. The Commission shall by rule adopt a format for written decisions for the Commission and arbitrators. The written decisions shall be concise and shall succinctly state the facts and reasons for the decision. The Commission may adopt in whole or in part, the decision of the arbitrator as the decision of the Commission. When the Commission does so adopt the decision of the arbitrator, it shall do so by order. Whenever the Commission adopts part of the arbitrator's decision, but not all, it shall include in the order the reasons for not adopting all of the arbitrator's decision. When a majority of a panel, after deliberation, has arrived at its decision, the decision shall be filed as provided in this Section without unnecessary delay, and without regard to the fact that a member of the panel has expressed an intention to dissent. Any member of the panel may file a dissent. Any dissent shall be filed no later than 10 days after the decision of the majority has been filed.

Decisions rendered by the Commission and dissents, if any, shall be published together by the Commission. The conclusions of law set out in such decisions shall be regarded as precedents by arbitrators for the purpose of achieving a more uniform administration of this Act.

(f) The decision of the Commission acting within its powers, according to the provisions of paragraph (e) of this Section shall, in the absence of fraud, be conclusive unless reviewed as in this paragraph hereinafter provided. However, the Arbitrator or the Commission may on his or its own motion, or on the motion of either party, correct any clerical error or errors in computation within 15 days after the date of receipt of any award by such Arbitrator or any decision on review of the Commission and shall have the power to recall the original award on arbitration or decision on review, and issue in lieu thereof such corrected award or decision. Where such correction is made the time for review herein specified shall begin to run from the date of the receipt of the corrected award or decision.

(1) Except in cases of claims against the State of Illinois other than those claims under Section 18.1, in which case the decision of the Commission shall not be subject to judicial review, the Circuit Court of the county where any of the parties defendant may be found, or if none of the parties defendant can be found in this State then the Circuit Court of the county where the accident occurred, shall by summons to the Commission have power to review all questions of law and fact presented by such record.

It shall be the duty of the clerk of any court rendering a decision affecting or affirming an award of the Commission to promptly furnish the Commission with a copy of such decision, without charge.

The decision of a majority of the members of the panel of the Commission, shall be considered the decision of the Commission.

(g) Except in the case of a claim against the State of Illinois, either party may present a certified copy of the award of the Arbitrator, or a certified copy of the decision of the Commission when the same has become final, when no proceedings for review are pending, providing for the payment of compensation according to this Act, to the Circuit Court of the county in which such accident occurred or either of the parties are residents, whereupon the court shall enter a judgment in accordance therewith. In a case where the employer refuses to pay compensation according to such final award or such final decision upon which such judgment is entered the court shall in entering judgment thereon, tax as costs against him the reasonable costs and attorney fees in the arbitration proceedings and in the court entering the judgment for the person in whose favor the judgment is entered, which judgment and costs taxed as therein provided shall, until and unless set aside, have the same effect as though duly entered in an action duly tried and determined by the court, and shall with like effect, be entered and docketed. The Circuit Court shall have power at any time upon application to make any such judgment conform to any modification required by any subsequent decision of the Supreme Court upon appeal, or as the result of any subsequent proceedings for review, as provided in this Act.

Judgment shall not be entered until 15 days' notice of the time and place of the application for the entry of judgment shall be served upon the employer by filing such notice with the Commission, which Commission shall, in case it has on file the address of the employer or the name and address of its agent upon whom notices may be served, immediately send a copy of the notice to the employer or such designated agent.

(h) An agreement or award under this Act providing for compensation in installments, may at any time within 18 months after such
agreement or award be reviewed by the Commission at the request of either the employer or the employee, on the ground that the disability of the employee has subsequently recurred, increased, diminished or ended.

However, as to accidents occurring subsequent to July 1, 1955, which are covered by any agreement or award under this Act providing for compensation in installments made as a result of such accident, such agreement or award may at any time within 30 months, or 60 months in the case of an award under Section 8(d), after such agreement or award be reviewed by the Commission at the request of either the employer or the employee on the ground that the disability of the employee has subsequently recurred, increased, diminished or ended.

On such review, compensation payments may be re-established, increased, diminished or ended. The Commission shall give 15 days' notice to the parties of the hearing for review. Any employee, upon any petition for such review being filed by the employer, shall be entitled to one day's notice for each 100 miles necessary to be traveled by him in attending the hearing of the Commission upon the petition, and 3 days in addition thereto. Such employee shall, at the discretion of the Commission, also be entitled to 5 cents per mile necessarily traveled by him within the State of Illinois in attending such hearing, not to exceed a distance of 300 miles, to be taxed by the Commission as costs and deposited with the petition of the employer.

When compensation which is payable in accordance with an award or settlement contract approved by the Commission, is ordered paid in a lump sum by the Commission, no review shall be had as in this paragraph mentioned.

(i) Each party, upon taking any proceedings or steps whatsoever before any Arbitrator, Commission or court, shall file with the Commission his address, or the name and address of any agent upon whom all notices to be given to such party shall be served, either personally or by registered mail, addressed to such party or agent at the last address so filed with the Commission. In the event such party has not filed his address, or the name and address of an agent as above provided, service of any notice may be had by filing such notice with the Commission.

(j) Whenever in any proceeding testimony has been taken or a final decision has been rendered and after the taking of such testimony or after such decision has become final, the injured employee dies, then in any subsequent proceedings brought by the personal representative or

New matter indicated by italics - deletions by strikeout
beneficiaries of the deceased employee, such testimony in the former proceeding may be introduced with the same force and effect as though the witness having so testified were present in person in such subsequent proceedings and such final decision, if any, shall be taken as final adjudication of any of the issues which are the same in both proceedings.

(k) In case where there has been any unreasonable or vexatious delay of payment or intentional underpayment of compensation, or proceedings have been instituted or carried on by the one liable to pay the compensation, which do not present a real controversy, but are merely frivolous or for delay, then the Commission may award compensation additional to that otherwise payable under this Act equal to 50% of the amount payable at the time of such award. Failure to pay compensation in accordance with the provisions of Section 8, paragraph (b) of this Act, shall be considered unreasonable delay.

When determining whether this subsection (k) shall apply, the Commission shall consider whether an Arbitrator has determined that the claim is not compensable or whether the employer has made payments under Section 8(j).

(l) If the employee has made written demand for payment of benefits under Section 8(a) or Section 8(b), the employer shall have 14 days after receipt of the demand to set forth in writing the reason for the delay. In the case of demand for payment of medical benefits under Section 8(a), the time for the employer to respond shall not commence until the expiration of the allotted 30 days specified under Section 8.2(d). In case the employer or his or her insurance carrier shall without good and just cause fail, neglect, refuse, or unreasonably delay the payment of benefits under Section 8(a) or Section 8(b), the Arbitrator or the Commission shall allow to the employee additional compensation in the sum of $30 per day for each day that the benefits under Section 8(a) or Section 8(b) have been so withheld or refused, not to exceed $10,000. A delay in payment of 14 days or more shall create a rebuttable presumption of unreasonable delay.

(m) If the commission finds that an accidental injury was directly and proximately caused by the employer's wilful violation of a health and safety standard under the Health and Safety Act in force at the time of the accident, the arbitrator or the Commission shall allow to the injured employee or his dependents, as the case may be, additional compensation equal to 25% of the amount which otherwise would be payable under the provisions of this Act exclusive of this paragraph. The additional
compensation herein provided shall be allowed by an appropriate increase in the applicable weekly compensation rate.

(n) After June 30, 1984, decisions of the Illinois Workers' Compensation Commission reviewing an award of an arbitrator of the Commission shall draw interest at a rate equal to the yield on indebtedness issued by the United States Government with a 26-week maturity next previously auctioned on the day on which the decision is filed. Said rate of interest shall be set forth in the Arbitrator's Decision. Interest shall be drawn from the date of the arbitrator's award on all accrued compensation due the employee through the day prior to the date of payments. However, when an employee appeals an award of an Arbitrator or the Commission, and the appeal results in no change or a decrease in the award, interest shall not further accrue from the date of such appeal.

The employer or his insurance carrier may tender the payments due under the award to stop the further accrual of interest on such award notwithstanding the prosecution by either party of review, certiorari, appeal to the Supreme Court or other steps to reverse, vacate or modify the award.

(o) By the 15th day of each month each insurer providing coverage for losses under this Act shall notify each insured employer of any compensable claim incurred during the preceding month and the amounts paid or reserved on the claim including a summary of the claim and a brief statement of the reasons for compensability. A cumulative report of all claims incurred during a calendar year or continued from the previous year shall be furnished to the insured employer by the insurer within 30 days after the end of that calendar year.

The insured employer may challenge, in proceeding before the Commission, payments made by the insurer without arbitration and payments made after a case is determined to be noncompensable. If the Commission finds that the case was not compensable, the insurer shall purge its records as to that employer of any loss or expense associated with the claim, reimburse the employer for attorneys' fees arising from the challenge and for any payment required of the employer to the Rate Adjustment Fund or the Second Injury Fund, and may not reflect the loss or expense for rate making purposes. The employee shall not be required to refund the challenged payment. The decision of the Commission may be reviewed in the same manner as in arbitrated cases. No challenge may be initiated under this paragraph more than 3 years after the payment is made.
An employer may waive the right of challenge under this paragraph on a case by case basis.

(p) After filing an application for adjustment of claim but prior to the hearing on arbitration the parties may voluntarily agree to submit such application for adjustment of claim for decision by an arbitrator under this subsection (p) where such application for adjustment of claim raises only a dispute over temporary total disability, permanent partial disability or medical expenses. Such agreement shall be in writing in such form as provided by the Commission. Applications for adjustment of claim submitted for decision by an arbitrator under this subsection (p) shall proceed according to rule as established by the Commission. The Commission shall promulgate rules including, but not limited to, rules to ensure that the parties are adequately informed of their rights under this subsection (p) and of the voluntary nature of proceedings under this subsection (p). The findings of fact made by an arbitrator acting within his or her powers under this subsection (p) in the absence of fraud shall be conclusive. However, the arbitrator may on his own motion, or the motion of either party, correct any clerical errors or errors in computation within 15 days after the date of receipt of such award of the arbitrator and shall have the power to recall the original award on arbitration, and issue in lieu thereof such corrected award. The decision of the arbitrator under this subsection (p) shall be considered the decision of the Commission and proceedings for review of questions of law arising from the decision may be commenced by either party pursuant to subsection (f) of Section 19. The Advisory Board established under Section 13.1 shall compile a list of certified Commission arbitrators, each of whom shall be approved by at least 7 members of the Advisory Board. The chairman shall select 5 persons from such list to serve as arbitrators under this subsection (p). By agreement, the parties shall select one arbitrator from among the 5 persons selected by the chairman except that if the parties do not agree on an arbitrator from among the 5 persons, the parties may, by agreement, select an arbitrator of the American Arbitration Association, whose fee shall be paid by the State in accordance with rules promulgated by the Commission. Arbitration under this subsection (p) shall be voluntary.

Sec. 19a. Money received by the Commission pursuant to subsection (f) of Section 19 of this Act shall be paid into a trust fund outside the State Treasury and shall be held in such fund until completion
of the record for which the payment was made. The Secretary of the Commission shall be ex-officio custodian of such trust fund which shall be used only for the purpose specified in this section. Upon completion of the record the Secretary shall pay the amount so held to the person entitled thereto for preparation of the record. Within 60 days after the effective date of this amendatory Act of the 98th General Assembly, the Secretary of the Commission shall transfer all remaining funds to the Injured Workers' Benefit Fund for the purpose of paying claims from injured employees who have received a final award for benefits from the Commission against the employer in Fiscal Year 2013.

Sec. 20. If the Commission shall, before or after any hearing, proceeding, or review to any court, be satisfied that the employee is a poor person, and unable to pay the costs and expenses provided for by this Act, the Commission shall permit such poor person to have all the rights and remedies provided by this Act, including the issuance and service of subpoenas; a transcript of testimony and the record of proceedings, including photostatic copies of exhibits, at hearings before an Arbitrator or the Commission; the right to have the record of proceedings certified to the circuit court; the right to the filing of a written request for summons; and the right to the issuance of summons, without the filing of a bond for costs and without the payment of any of the costs provided for by this Act. If an award is granted to such employee, or settlement is made, the costs and expenses chargeable to the employee as provided for by this Act shall be paid by the employer out of the award herein granted, or settlement, before any of the balance of the award or settlement is paid to the employee.

Section 10. The Workers' Occupational Diseases Act is amended by changing Sections 19, 19a, and 19.5 as follows:

(820 ILCS 310/19) (from Ch. 48, par. 172.54)

Sec. 19. Any disputed questions of law or fact shall be determined as herein provided.

(a) It shall be the duty of the Commission upon notification that the parties have failed to reach an agreement to designate an Arbitrator.

(1) The application for adjustment of claim filed with the Commission shall state:

New matter indicated by italics - deletions by strikeout
A. The approximate date of the last day of the last exposure and the approximate date of the disablement.

B. The general nature and character of the illness or disease claimed.

C. The name and address of the employer by whom employed on the last day of the last exposure and if employed by any other employer after such last exposure and before disablement the name and address of such other employer or employers.

D. In case of death, the date and place of death.

(2) Amendments to applications for adjustment of claim which relate to the same disablement or disablement resulting in death originally claimed upon may be allowed by the Commissioner or an Arbitrator thereof, in their discretion, and in the exercise of such discretion, they may in proper cases order a trial de novo; such amendment shall relate back to the date of the filing of the original application so amended.

(3) Whenever any claimant misconceives his remedy and files an application for adjustment of claim under this Act and it is subsequently discovered, at any time before final disposition of such cause, that the claim for disability or death which was the basis for such application should properly have been made under the Workers' Compensation Act, then the provisions of Section 19 paragraph (a-1) of the Workers' Compensation Act having reference to such application shall apply.

Whenever any claimant misconceives his remedy and files an application for adjustment of claim under the Workers' Compensation Act and it is subsequently discovered, at any time before final disposition of such cause that the claim for injury or death which was the basis for such application should properly have been made under this Act, then the application so filed under the Workers' Compensation Act may be amended in form, substance or both to assert claim for such disability or death under this Act and it shall be deemed to have been so filed as amended on the date of the original filing thereof, and such compensation may be awarded as is warranted by the whole evidence pursuant to the provisions of this Act. When such amendment is submitted, further or additional evidence may be heard by the Arbitrator or Commission when deemed necessary; provided, that nothing in

this Section contained shall be construed to be or permit a waiver of any provisions of this Act with reference to notice, but notice if given shall be deemed to be a notice under the provisions of this Act if given within the time required herein.

(b) The Arbitrator shall make such inquiries and investigations as he shall deem necessary and may examine and inspect all books, papers, records, places, or premises relating to the questions in dispute and hear such proper evidence as the parties may submit.

The hearings before the Arbitrator shall be held in the vicinity where the last exposure occurred, after 10 days' notice of the time and place of such hearing shall have been given to each of the parties or their attorneys of record.

The Arbitrator may find that the disabling condition is temporary and has not yet reached a permanent condition and may order the payment of compensation up to the date of the hearing, which award shall be reviewable and enforceable in the same manner as other awards, and in no instance be a bar to a further hearing and determination of a further amount of temporary total compensation or of compensation for permanent disability, but shall be conclusive as to all other questions except the nature and extent of such disability.

The decision of the Arbitrator shall be filed with the Commission which Commission shall immediately send to each party or his attorney a copy of such decision, together with a notification of the time when it was filed. As of the effective date of this amendatory Act of the 94th General Assembly, all decisions of the Arbitrator shall set forth in writing findings of fact and conclusions of law, separately stated, if requested by either party. Unless a petition for review is filed by either party within 30 days after the receipt by such party of the copy of the decision and notification of time when filed, and unless such party petitioning for a review shall file with the Commission either an agreed statement of the facts appearing upon the hearing before the Arbitrator, or if such party shall so elect a correct transcript of evidence of the proceedings at such hearings, then the decision shall become the decision of the Commission and in the absence of fraud shall be conclusive. The Petition for Review shall contain a statement of the petitioning party's specific exceptions to the decision of the arbitrator. The jurisdiction of the Commission to review the decision of the arbitrator shall not be limited to the exceptions stated in the Petition for Review. The Commission, or any member thereof, may grant further

time not exceeding 30 days, in which to file such agreed statement or transcript of evidence. Such agreed statement of facts or correct transcript of evidence, as the case may be, shall be authenticated by the signatures of the parties or their attorneys, and in the event they do not agree as to the correctness of the transcript of evidence it shall be authenticated by the signature of the Arbitrator designated by the Commission.

Whether the employee is working or not, if the employee is not receiving or has not received medical, surgical, or hospital services or other services or compensation as provided in paragraph (a) of Section 8 of the Workers' Compensation Act, or compensation as provided in paragraph (b) of Section 8 of the Workers' Compensation Act, the employee may at any time petition for an expedited hearing by an Arbitrator on the issue of whether or not he or she is entitled to receive payment of the services or compensation. Provided the employer continues to pay compensation pursuant to paragraph (b) of Section 8 of the Workers' Compensation Act, the employer may at any time petition for an expedited hearing on the issue of whether or not the employee is entitled to receive medical, surgical, or hospital services or other services or compensation as provided in paragraph (a) of Section 8 of the Workers' Compensation Act, or compensation as provided in paragraph (b) of Section 8 of the Workers' Compensation Act. When an employer has petitioned for an expedited hearing, the employer shall continue to pay compensation as provided in paragraph (b) of Section 8 of the Workers' Compensation Act unless the arbitrator renders a decision that the employee is not entitled to the benefits that are the subject of the expedited hearing or unless the employee's treating physician has released the employee to return to work at his or her regular job with the employer or the employee actually returns to work at any other job. If the arbitrator renders a decision that the employee is not entitled to the benefits that are the subject of the expedited hearing, a petition for review filed by the employee shall receive the same priority as if the employee had filed a petition for an expedited hearing by an arbitrator. Neither party shall be entitled to an expedited hearing when the employee has returned to work and the sole issue in dispute amounts to less than 12 weeks of unpaid compensation pursuant to paragraph (b) of Section 8 of the Workers' Compensation Act.

Expedited hearings shall have priority over all other petitions and shall be heard by the Arbitrator and Commission with all convenient speed. Any party requesting an expedited hearing shall give notice of a
request for an expedited hearing under this paragraph. A copy of the Application for Adjustment of Claim shall be attached to the notice. The Commission shall adopt rules and procedures under which the final decision of the Commission under this paragraph is filed not later than 180 days from the date that the Petition for Review is filed with the Commission.

Where 2 or more insurance carriers, private self-insureds, or a group workers' compensation pool under Article V 3/4 of the Illinois Insurance Code dispute coverage for the same disease, any such insurance carrier, private self-insured, or group workers' compensation pool may request an expedited hearing pursuant to this paragraph to determine the issue of coverage, provided coverage is the only issue in dispute and all other issues are stipulated and agreed to and further provided that all compensation benefits including medical benefits pursuant to Section 8(a) of the Workers' Compensation Act continue to be paid to or on behalf of petitioner. Any insurance carrier, private self-insured, or group workers' compensation pool that is determined to be liable for coverage for the disease in issue shall reimburse any insurance carrier, private self-insured, or group workers' compensation pool that has paid benefits to or on behalf of petitioner for the disease.

(b-1) If the employee is not receiving, pursuant to Section 7, medical, surgical or hospital services of the type provided for in paragraph (a) of Section 8 of the Workers' Compensation Act or compensation of the type provided for in paragraph (b) of Section 8 of the Workers' Compensation Act, the employee, in accordance with Commission Rules, may file a petition for an emergency hearing by an Arbitrator on the issue of whether or not he is entitled to receive payment of such compensation or services as provided therein. Such petition shall have priority over all other petitions and shall be heard by the Arbitrator and Commission with all convenient speed.

Such petition shall contain the following information and shall be served on the employer at least 15 days before it is filed:

(i) the date and approximate time of the last exposure;
(ii) the approximate location of the last exposure;
(iii) a description of the last exposure;
(iv) the nature of the disability incurred by the employee;
(v) the identity of the person, if known, to whom the disability was reported and the date on which it was reported;

New matter indicated by italics - deletions by strikeout
(vi) the name and title of the person, if known, representing the employer with whom the employee conferred in any effort to obtain pursuant to Section 7 compensation of the type provided for in paragraph (b) of Section 8 of the Workers' Compensation Act or medical, surgical or hospital services of the type provided for in paragraph (a) of Section 8 of the Workers' Compensation Act and the date of such conference;

(vii) a statement that the employer has refused to pay compensation pursuant to Section 7 of the type provided for in paragraph (b) of Section 8 of the Workers' Compensation Act or for medical, surgical or hospital services pursuant to Section 7 of the type provided for in paragraph (a) of Section 8 of the Workers' Compensation Act;

(viii) the name and address, if known, of each witness to the last exposure and of each other person upon whom the employee will rely to support his allegations;

(ix) the dates of treatment related to the disability by medical practitioners, and the names and addresses of such practitioners, including the dates of treatment related to the disability at any hospitals and the names and addresses of such hospitals, and a signed authorization permitting the employer to examine all medical records of all practitioners and hospitals named pursuant to this paragraph;

(x) a copy of a signed report by a medical practitioner, relating to the employee's current inability to return to work because of the disability incurred as a result of the exposure or such other documents or affidavits which show that the employee is entitled to receive pursuant to Section 7 compensation of the type provided for in paragraph (b) of Section 8 of the Workers' Compensation Act or medical, surgical or hospital services of the type provided for in paragraph (a) of Section 8 of the Workers' Compensation Act. Such reports, documents or affidavits shall state, if possible, the history of the exposure given by the employee, and describe the disability and medical diagnosis, the medical services for such disability which the employee has received and is receiving, the physical activities which the employee cannot currently perform as a result of such disability, and the prognosis for recovery;

New matter indicated by italics - deletions by strikeout
(xi) complete copies of any reports, records, documents and affidavits in the possession of the employee on which the employee will rely to support his allegations, provided that the employer shall pay the reasonable cost of reproduction thereof;

(xii) a list of any reports, records, documents and affidavits which the employee has demanded by subpoena and on which he intends to rely to support his allegations;

(xiii) a certification signed by the employee or his representative that the employer has received the petition with the required information 15 days before filing.

Fifteen days after receipt by the employer of the petition with the required information the employer may file said petition and required information and shall serve notice of the filing upon the employer. The employer may file a motion addressed to the sufficiency of the petition. If an objection has been filed to the sufficiency of the petition, the arbitrator shall rule on the objection within 2 working days. If such an objection is filed, the time for filing the final decision of the Commission as provided in this paragraph shall be tolled until the arbitrator has determined that the petition is sufficient.

The employer shall, within 15 days after receipt of the notice that such petition is filed, file with the Commission and serve on the employee or his representative a written response to each claim set forth in the petition, including the legal and factual basis for each disputed allegation and the following information: (i) complete copies of any reports, records, documents and affidavits in the possession of the employer on which the employer intends to rely in support of his response, (ii) a list of any reports, records, documents and affidavits which the employer has demanded by subpoena and on which the employer intends to rely in support of his response, (iii) the name and address of each witness on whom the employer will rely to support his response, and (iv) the names and addresses of any medical practitioners selected by the employer pursuant to Section 12 of this Act and the time and place of any examination scheduled to be made pursuant to such Section.

Any employer who does not timely file and serve a written response without good cause may not introduce any evidence to dispute any claim of the employee but may cross examine the employee or any witness brought by the employee and otherwise be heard.

No document or other evidence not previously identified by either party with the petition or written response, or by any other means before
the hearing, may be introduced into evidence without good cause. If, at the hearing, material information is discovered which was not previously disclosed, the Arbitrator may extend the time for closing proof on the motion of a party for a reasonable period of time which may be more than 30 days. No evidence may be introduced pursuant to this paragraph as to permanent disability. No award may be entered for permanent disability pursuant to this paragraph. Either party may introduce into evidence the testimony taken by deposition of any medical practitioner.

The Commission shall adopt rules, regulations and procedures whereby the final decision of the Commission is filed not later than 90 days from the date the petition for review is filed but in no event later than 180 days from the date the petition for an emergency hearing is filed with the Illinois Workers' Compensation Commission.

All service required pursuant to this paragraph (b-1) must be by personal service or by certified mail and with evidence of receipt. In addition, for the purposes of this paragraph, all service on the employer must be at the premises where the accident occurred if the premises are owned or operated by the employer. Otherwise service must be at the employee's principal place of employment by the employer. If service on the employer is not possible at either of the above, then service shall be at the employer's principal place of business. After initial service in each case, service shall be made on the employer's attorney or designated representative.

(c) (1) At a reasonable time in advance of and in connection with the hearing under Section 19(e) or 19(h), the Commission may on its own motion order an impartial physical or mental examination of a petitioner whose mental or physical condition is in issue, when in the Commission's discretion it appears that such an examination will materially aid in the just determination of the case. The examination shall be made by a member or members of a panel of physicians chosen for their special qualifications by the Illinois State Medical Society. The Commission shall establish procedures by which a physician shall be selected from such list.

(2) Should the Commission at any time during the hearing find that compelling considerations make it advisable to have an examination and report at that time, the Commission may in its discretion so order.

(3) A copy of the report of examination shall be given to the Commission and to the attorneys for the parties.
(4) Either party or the Commission may call the examining physician or physicians to testify. Any physician so called shall be subject to cross-examination.

(5) The examination shall be made, and the physician or physicians, if called, shall testify, without cost to the parties. The Commission shall determine the compensation and the pay of the physician or physicians. The compensation for this service shall not exceed the usual and customary amount for such service.

The fees and payment thereof of all attorneys and physicians for services authorized by the Commission under this Act shall, upon request of either the employer or the employee or the beneficiary affected, be subject to the review and decision of the Commission.

(d) If any employee shall persist in insanitary or injurious practices which tend to either imperil or retard his recovery or shall refuse to submit to such medical, surgical, or hospital treatment as is reasonably essential to promote his recovery, the Commission may, in its discretion, reduce or suspend the compensation of any such employee; provided, that when an employer and employee so agree in writing, the foregoing provision shall not be construed to authorize the reduction or suspension of compensation of an employee who is relying in good faith, on treatment by prayer or spiritual means alone, in accordance with the tenets and practice of a recognized church or religious denomination, by a duly accredited practitioner thereof.

(e) This paragraph shall apply to all hearings before the Commission. Such hearings may be held in its office or elsewhere as the Commission may deem advisable. The taking of testimony on such hearings may be had before any member of the Commission. If a petition for review and agreed statement of facts or transcript of evidence is filed, as provided herein, the Commission shall promptly review the decision of the Arbitrator and all questions of law or fact which appear from the statement of facts or transcripts of evidence. In all cases in which the hearing before the arbitrator is held after the effective date of this amendatory Act of 1989, no additional evidence shall be introduced by the parties before the Commission on review of the decision of the Arbitrator. The Commission shall file in its office its decision thereon, and shall immediately send to each party or his attorney a copy of such decision and a notification of the time when it was filed. Decisions shall be filed within 60 days after the Statement of Exceptions and Supporting Brief and

Response thereto are required to be filed or oral argument whichever is later.

In the event either party requests oral argument, such argument shall be had before a panel of 3 members of the Commission (or before all available members pursuant to the determination of 7 members of the Commission that such argument be held before all available members of the Commission) pursuant to the rules and regulations of the Commission. A panel of 3 members, which shall be comprised of not more than one representative citizen of the employing class and not more than one representative citizen of the employee class, shall hear the argument; provided that if all the issues in dispute are solely the nature and extent of the permanent partial disability, if any, a majority of the panel may deny the request for such argument and such argument shall not be held; and provided further that 7 members of the Commission may determine that the argument be held before all available members of the Commission. A decision of the Commission shall be approved by a majority of Commissioners present at such hearing if any; provided, if no such hearing is held, a decision of the Commission shall be approved by a majority of a panel of 3 members of the Commission as described in this Section. The Commission shall give 10 days' notice to the parties or their attorneys of the time and place of such taking of testimony and of such argument.

In any case the Commission in its discretion may in its decision find specially upon any question or questions of law or facts which shall be submitted in writing by either party whether ultimate or otherwise; provided that on issues other than nature and extent of the disablement, if any, the Commission in its decision shall find specially upon any question or questions of law or fact, whether ultimate or otherwise, which are submitted in writing by either party; provided further that not more than 5 such questions may be submitted by either party. Any party may, within 20 days after receipt of notice of the Commission's decision, or within such further time, not exceeding 30 days, as the Commission may grant, file with the Commission either an agreed statement of the facts appearing upon the hearing, or, if such party shall so elect, a correct transcript of evidence of the additional proceedings presented before the Commission in which report the party may embody a correct statement of such other proceedings in the case as such party may desire to have reviewed, such statement of facts or transcript of evidence to be authenticated by the signature of the parties or their attorneys, and in the event that they do not
agree, then the authentication of such transcript of evidence shall be by the signature of any member of the Commission.

If a reporter does not for any reason furnish a transcript of the proceedings before the Arbitrator in any case for use on a hearing for review before the Commission, within the limitations of time as fixed in this Section, the Commission may, in its discretion, order a trial de novo before the Commission in such case upon application of either party. The applications for adjustment of claim and other documents in the nature of pleadings filed by either party, together with the decisions of the Arbitrator and of the Commission and the statement of facts or transcript of evidence hereinbefore provided for in paragraphs (b) and (c) shall be the record of the proceedings of the Commission, and shall be subject to review as hereinafter provided.

At the request of either party or on its own motion, the Commission shall set forth in writing the reasons for the decision, including findings of fact and conclusions of law, separately stated. The Commission shall by rule adopt a format for written decisions for the Commission and arbitrators. The written decisions shall be concise and shall succinctly state the facts and reasons for the decision. The Commission may adopt in whole or in part, the decision of the arbitrator as the decision of the Commission. When the Commission does so adopt the decision of the arbitrator, it shall do so by order. Whenever the Commission adopts part of the arbitrator's decision, but not all, it shall include in the order the reasons for not adopting all of the arbitrator's decision. When a majority of a panel, after deliberation, has arrived at its decision, the decision shall be filed as provided in this Section without unnecessary delay, and without regard to the fact that a member of the panel has expressed an intention to dissent. Any member of the panel may file a dissent. Any dissent shall be filed no later than 10 days after the decision of the majority has been filed.

Failure to pay compensation in accordance with the provisions of Section 8, paragraph (b) of this Act, shall be considered unreasonable delay.

(l) By the 15th day of each month each insurer providing coverage for losses under this Act shall notify each insured employer of any compensable claim incurred during the preceding month and the amounts paid or reserved on the claim including a summary of the claim and a brief statement of the reasons for compensability. The Commission shall promulgate rules including, but not limited to, rules to ensure that the parties are adequately informed of their rights under this subsection (m) and of the voluntary nature of proceedings under this subsection (m). The findings of fact made by an arbitrator acting within his or her powers under this subsection (m) in the absence of fraud shall be conclusive. However, the arbitrator may on his own motion, or the motion of either party, correct any clerical errors or errors in computation within 15 days after the date of receipt of such award of the arbitrator and shall have the power to recall the original award on arbitration, and issue in lieu thereof such corrected award. The decision of the arbitrator under this subsection (m) shall be considered the decision of the Commission and proceedings for review of questions of law arising from the decision may be commenced by either party pursuant to subsection (f) of Section 19. The Advisory Board established under Section 13.1 of the Workers' Compensation Act shall compile a list of certified Commission arbitrators, each of whom shall be approved by at least 7 members of the Advisory Board. The chairman shall select 5 persons from such list to serve as arbitrators under this subsection (m). Sec. 10. Standards. The Council and the lead agency, with assistance from parents and providers, shall develop and promulgate policies and procedures relating to the establishment and implementation of program and personnel standards to ensure that services provided are consistent with any State-approved or recognized certification, licensing, registration, or other comparable requirements which apply to the area of early intervention program service standards. Sec. 11. Individualized Family Service Plans.
(a) Each eligible infant or toddler and that infant's or toddler's family shall receive:

(1) timely, comprehensive, multidisciplinary assessment of the unique strengths and needs of each eligible infant and toddler, and assessment of the concerns and priorities of the families to appropriately assist them in meeting their needs and identify supports and services to meet those needs; and

(2) a written Individualized Family Service Plan developed by a multidisciplinary team which includes the parent or guardian. The individualized family service plan shall be based on the multidisciplinary team's assessment of the resources, priorities, and concerns of the family and its identification of the supports and services necessary to enhance the family's capacity to meet the developmental needs of the infant or toddler, and shall include the identification of services appropriate to meet those needs, including the frequency, intensity, and method of delivering services. During and as part of the initial development of the individualized family services plan, and any periodic reviews of the plan, the multidisciplinary team may seek consultation from the lead agency's therapy guidelines and its designated experts, if any, to help determine appropriate services and the frequency and intensity of those services. All services in the individualized family services plan must be justified by the multidisciplinary assessment of the unique strengths and needs of the infant or toddler and must be appropriate to meet those needs. At the periodic reviews, the team shall determine whether modification or revision of the outcomes or services is necessary.

(b) The Individualized Family Service Plan shall be evaluated once a year and the family shall be provided a review of the Plan at 6 month intervals or more often where appropriate based on infant or toddler and family needs. The lead agency shall create a quality review process.

regarding Individualized Family Service Plan development and changes thereto, to monitor and help assure that resources are being used to provide appropriate early intervention services.

(c) The initial evaluation and initial assessment and initial Plan meeting must be held within 45 days after the initial contact with the early intervention services system. The 45-day timeline does not apply for any period when the child or parent is unavailable to complete the initial evaluation, the initial assessments of the child and family, or the initial Plan meeting, due to exceptional family circumstances that are documented in the child's early intervention records, or when the parent has not provided consent for the initial evaluation or the initial assessment of the child despite documented, repeated attempts to obtain parental consent. As soon as exceptional family circumstances no longer exist or parental consent has been obtained, the initial evaluation, the initial assessment, and the initial Plan meeting must be completed as soon as possible. With parental consent, early intervention services may commence before the completion of the comprehensive assessment and development of the Plan.

(d) Parents must be informed that, at their discretion, early intervention services shall be provided to each eligible infant and toddler, to the maximum extent appropriate, in the natural environment, which may include the home or other community settings. Parents shall make the final decision to accept or decline early intervention services. A decision to decline such services shall not be a basis for administrative determination of parental fitness, or other findings or sanctions against the parents. Parameters of the Plan shall be set forth in rules.

(e) The regional intake offices shall explain to each family, orally and in writing, all of the following:

1. That the early intervention program will pay for all early intervention services set forth in the individualized family service plan that are not covered or paid under the family's public or private insurance plan or policy and not eligible for payment through any other third party payor.

2. That services will not be delayed due to any rules or restrictions under the family's insurance plan or policy.

3. That the family may request, with appropriate documentation supporting the request, a determination of an exemption from private insurance use under Section 13.25.

(4) That responsibility for co-payments or co-insurance under a family's private insurance plan or policy will be transferred to the lead agency's central billing office.

(5) That families will be responsible for payments of family fees, which will be based on a sliding scale according to the State's definition of ability to pay which is comparing household size and income to the sliding scale and considering out-of-pocket medical or disaster expenses, and that these fees are payable to the central billing office, and that if the family encounters a catastrophic circumstance, as defined under subsection (f) of Section 13 of this Act, making it unable to pay the fees, the lead agency may, upon proof of inability to pay, waive the fees. Families who fail to provide income information shall be charged the maximum amount on the sliding scale.

(f) The individualized family service plan must state whether the family has private insurance coverage and, if the family has such coverage, must have attached to it a copy of the family's insurance identification card or otherwise include all of the following information:

(1) The name, address, and telephone number of the insurance carrier.

(2) The contract number and policy number of the insurance plan.

(3) The name, address, and social security number of the primary insured.

(4) The beginning date of the insurance benefit year.

(g) A copy of the individualized family service plan must be provided to each enrolled provider who is providing early intervention services to the child who is the subject of that plan.

(h) Children receiving services under this Act shall receive a smooth and effective transition by their third birthday consistent with federal regulations adopted pursuant to Sections 1431 through 1444 of Title 20 of the United States Code.

Sec. 12. Procedural Safeguards. The lead agency shall adopt procedural safeguards that meet federal requirements and ensure effective implementation of the safeguards for families by each public agency involved in the provision of early intervention services under this Act.

New matter indicated by italics - deletions by strikeout
The procedural safeguards shall provide, at a minimum, the following:

(a) The timely administrative resolution of State complaints, due process hearings, and mediations by parents as defined by administrative rule.

(b) The right to confidentiality of personally identifiable information.

(c) The opportunity for parents and a guardian to examine and receive copies of records relating to evaluations and assessments, screening, eligibility determinations, and the development and implementation of the Individualized Family Service Plan provision of early intervention services, individual complaints involving the child, or any part of the child's early intervention record.

(d) Procedures to protect the rights of the eligible infant or toddler whenever the parents or guardians of the child are not known or unavailable or the child is a ward of the State, including the assignment of an individual (who shall not be an employee of the State agency or local agency providing services) to act as a surrogate for the parents or guardian. The regional intake entity must make reasonable efforts to ensure the assignment of a surrogate parent not more than 30 days after a public agency determines that the child needs a surrogate parent.

(e) Timely written prior notice to the parents or guardian of the eligible infant or toddler whenever the State agency or public or private service provider proposes to initiate or change or refuses to initiate or change the identification, evaluation, placement, or the provision of appropriate early intervention services to the eligible infant or toddler.

(f) Written prior notice to fully inform the parents or guardians, in their native primary language or mode of communication used by the parent, unless clearly not feasible to do so, in a comprehensible manner, of these procedural safeguards.

(g) During the pendency of any proceedings or action involving a complaint, unless the State agency and the parents or guardian otherwise agree, the child shall continue to receive the appropriate early intervention services currently being provided, or in the case of an application for initial services, the child shall receive the services not in dispute.

Sec. 13. Funding and Fiscal Responsibility.

(a) The lead agency and every other participating State agency may receive and expend funds appropriated by the General Assembly to implement the early intervention services system as required by this Act.

(b) The lead agency and each participating State agency shall identify and report on an annual basis to the Council the State agency funds utilized for the provision of early intervention services to eligible infants and toddlers.

(c) Funds provided under Section 633 of the Individuals with Disabilities Education Act (20 United States Code 1433) and State funds designated or appropriated for early intervention services or programs may not be used to satisfy a financial commitment for services which would have been paid for from another public or private source but for the enactment of this Act, except whenever considered necessary to prevent delay in receiving appropriate early intervention services by the eligible infant or toddler or family in a timely manner. "Public or private source" includes public and private insurance coverage.

Funds provided under Section 633 of the Individuals with Disabilities Education Act and State funds designated or appropriated for early intervention services or programs may be used by the lead agency to pay the provider of services (A) pending reimbursement from the appropriate State agency or (B) if (i) the claim for payment is denied in whole or in part by a public or private source, or would be denied under the written terms of the public program or plan or private plan, or (ii) use of private insurance for the service has been exempted under Section 13.25. Payment under item (B)(i) may be made based on a predetermination telephone inquiry supported by written documentation of the denial supplied thereafter by the insurance carrier.

(d) Nothing in this Act shall be construed to permit the State to reduce medical or other assistance available or to alter eligibility under Title V and Title XIX of the Social Security Act relating to the Maternal Child Health Program and Medicaid for eligible infants and toddlers in this State.

(e) The lead agency shall create a central billing office to receive and dispense all relevant State and federal resources, as well as local government or independent resources available, for early intervention services. This office shall assure that maximum federal resources are
utilized and that providers receive funds with minimal duplications or interagency reporting and with consolidated audit procedures.

(f) The lead agency shall, by rule, create a system of payments by families, including a schedule of fees. No fees, however, may be charged for: implementing child find, evaluation and assessment, service coordination, administrative and coordination activities related to the development, review, and evaluation of Individualized Family Service Plans, or the implementation of procedural safeguards and other administrative components of the statewide early intervention system.

The system of payments, called family fees, shall be structured on a sliding scale based on the family's ability to pay family income. The family's coverage or lack of coverage under a public or private insurance plan or policy shall not be a factor in determining the amount of the family fees.

Each family's fee obligation shall be established annually, and shall be paid by families to the central billing office in installments. At the written request of the family, the fee obligation shall be adjusted prospectively at any point during the year upon proof of a change in family income or family size. The inability of the parents of an eligible child to pay family fees due to catastrophic circumstances or extraordinary expenses shall not result in the denial of services to the child or the child's family. A family must document its extraordinary expenses or other catastrophic circumstances by showing one of the following: (i) out-of-pocket medical expenses in excess of 15% of gross income; (ii) a fire, flood, or other disaster causing a direct out-of-pocket loss in excess of 15% of gross income; or (iii) other catastrophic circumstances causing out-of-pocket losses in excess of 15% of gross income. The family must present proof of loss to its service coordinator, who shall document it, and the lead agency shall determine whether the fees shall be reduced, forgiven, or suspended within 10 business days after the family's request.

(g) To ensure that early intervention funds are used as the payor of last resort for early intervention services, the lead agency shall determine at the point of early intervention intake, and again at any periodic review of eligibility thereafter or upon a change in family circumstances, whether the family is eligible for or enrolled in any program for which payment is made directly or through public or private insurance for any or all of the early intervention services made available under this Act. The lead agency shall establish procedures to ensure that payments are made either directly from these public and private sources instead of from State or federal early

Sec. 13.5. Other programs.

(a) When an application or a review of eligibility for early intervention services is made, and at any eligibility redetermination thereafter, the family shall be asked if it is currently enrolled in any federally funded, Department of Healthcare and Family Services administered, medical programs Medicaid, KidCare, or the Title V program administered by the University of Illinois Division of Specialized Care for Children. If the family is enrolled in any of these programs, that information shall be put on the individualized family service plan and entered into the computerized case management system, and shall require that the individualized family services plan of a child who has been found eligible for services through the Division of Specialized Care for Children state that the child is enrolled in that program. For those programs in which the family is not enrolled, a preliminary eligibility screen shall be conducted simultaneously for (i) medical assistance (Medicaid) under Article V of the Illinois Public Aid Code, (ii) children's health insurance program (any federally funded, Department of Healthcare and Family Services administered, medical programs KidCare) benefits under the Children's Health Insurance Program Act, and (iii) Title V maternal and child health services provided through the Division of Specialized Care for Children of the University of Illinois.

(b) For purposes of determining family fees under subsection (f) of Section 13 and determining eligibility for the other programs and services specified in items (i) through (iii) of subsection (a), the lead agency shall develop and use, within 60 days after the effective date of this amendatory Act of the 92nd General Assembly, with the cooperation of the Department of Public Aid (now Healthcare and Family Services) and the Division of Specialized Care for Children of the University of Illinois, a screening device that provides sufficient information for the early intervention regional intake entities or other agencies to establish eligibility for those other programs and shall, in cooperation with the Illinois Department of Public Aid (now Healthcare and Family Services) and the Division of Specialized Care for Children, train the regional intake entities on using the screening device.

(c) When a child is determined eligible for and enrolled in the early intervention program and has been found to at least meet the threshold income eligibility requirements for any federally funded, Department of Healthcare and Family Services administered, medical programs Medicaid or KidCare, the regional intake entity shall complete an application for any federally funded, Department of Healthcare and Family Services administered, medical programs KidCare/Medicaid application with the family and forward it to the Department of Healthcare and Family Services' KidCare Unit for a determination of eligibility. A parent shall not be required to enroll in any federally funded, Department of Healthcare and Family Services administered, medical programs as a condition of receiving services provided pursuant to Part C of the Individuals with Disabilities Education Act.

(d) With the cooperation of the Department of Healthcare and Family Services, the lead agency shall establish procedures that ensure the timely and maximum allowable recovery of payments for all early intervention services and allowable administrative costs under Article V of the Illinois Public Aid Code and the Children's Health Insurance Program Act and shall include those procedures in the interagency agreement required under subsection (e) of Section 5 of this Act.

(e) For purposes of making referrals for final determinations of eligibility for any federally funded, Department of Healthcare and Family Services administered, medical programs KidCare benefits under the Children's Health Insurance Program Act and for medical assistance under Article V of the Illinois Public Aid Code, the lead agency shall require each early intervention regional intake entity to enroll as an application agent a "KidCare agent" in order for the entity to complete the any federally funded, Department of Healthcare and Family Services administered, medical programs KidCare application as authorized under Section 22 of the Children's Health Insurance Program Act.

(f) For purposes of early intervention services that may be provided by the Division of Specialized Care for Children of the University of Illinois (DSCC), the lead agency shall establish procedures whereby the early intervention regional intake entities may determine whether children enrolled in the early intervention program may also be eligible for those services, and shall develop, within 60 days after the effective date of this amendatory Act of the 92nd General Assembly, (i) the inter-agency agreement required under subsection (e) of Section 5 of this Act, establishing that early intervention funds are to be used as the payor of last
resort when services required under an individualized family services plan may be provided to an eligible child through the DSCC, and (ii) training guidelines for the regional intake entities and providers that explain eligibility and billing procedures for services through DSCC.

(g) The lead agency shall require that an individual applying for or renewing enrollment as a provider of services in the early intervention program state whether or not he or she is also enrolled as a DSCC provider. This information shall be noted next to the name of the provider on the computerized roster of Illinois early intervention providers, and regional intake entities shall make every effort to refer families eligible for DSCC services to these providers.

The lead agency shall determine, at the point of new applications for early intervention services, and for all children enrolled in the early intervention program, at the regional intake offices, whether the child is insured under a private health insurance plan or policy. An application for early intervention services shall serve as a right to assignment of the right of recovery against a private health insurance plan or policy for any covered early intervention services that may be billed to the family's insurance carrier and that are provided to a child covered under the plan or policy.

This training shall include, at minimum, the following types of instruction:

(b) Courses held no less than twice per year for no fewer than 4 hours each in no fewer than 5 separate locales throughout the State each on the following topics:

    (1) Practice and procedures of private insurance billing.

Section 5. The Illinois Pension Code is amended by changing Sections 16-133.2, 16-152, and 16-176 as follows:

(40 ILCS 5/16-133.2) (from Ch. 108 1/2, par. 16-133.2)

Sec. 16-133.2. Early retirement without discount.

(a) A member retiring after June 1, 1980 and on or before June 30, 2005 (or as provided in subsection (b) of this Section), and applying for a retirement annuity within 6 months of the last day of teaching for which retirement contributions were required, may elect at the time of application for a retirement annuity, to make a one time member contribution to the System and thereby avoid the reduction in the retirement annuity for retirement before age 60 specified in paragraph (B) of Section 16-133. The exercise of the election shall also obligate the last employer to make a one time non-refundable contribution to the System. Substitute teachers wishing to exercise this election must teach 85 or more days in one school term with one employer, who shall be deemed the last employer for purposes of this Section. The last day of teaching with that employer must be within 6 months of the date of application for retirement. All substitute teaching credit applied toward the required 85 days must be earned after June 30, 1990.

The one time member and employer contributions shall be a percentage of the retiring member's highest annual salary rate used in the determination of the average salary for retirement annuity purposes. However, when determining the one-time member and employer contributions, that part of a member's salary with the same employer which exceeds the annual salary rate for the preceding year by more than 20% shall be excluded. The member contribution shall be at the rate of 7% for the lesser of the following 2 periods: (1) for each year that the member is less than age 60; or (2) for each year that the member's creditable service is less than 35 years. If a member is at least age 55 and has at least 34 years of creditable service, no member or employer contribution for the early retirement option shall be required. The employer contribution shall be at the rate of 20% for each year the member is under age 60.

Upon receipt of the application and election, the System shall determine the one time employee and employer contributions required. The member contribution shall be credited to the individual account of the member and the employer contribution shall be credited to the Benefit Trust Reserve. The provisions of this subsection (a) providing for the avoidance of the reduction in retirement annuity shall not be applicable until the member's contribution, if any, has been received by the System;
however, the date such contributions are received shall not be considered
in determining the effective date of retirement.

The number of members working for a single employer who may
retire under this subsection or subsection (b) in any year may be limited at
the option of the employer to a specified percentage of those eligible, not
less than 30%, with the right to participate to be allocated among those
applying on the basis of seniority in the service of the employer.

(b) The provisions of subsection (a) of this Section shall remain in
effect for a member retiring after June 30, 2005 and on or before July 1,
2007, provided that the member satisfies both of the following
requirements:

(1) the member notified his or her employer of intent to
retire under this Article on or before the effective date of this
amendatory Act of the 94th General Assembly under the terms of a
contract or collective bargaining agreement entered into, amended,
or renewed with the employer on or before the effective date of this
amendatory Act of the 94th General Assembly; and

(2) the effective date of the member's retirement is on or
before July 1, 2007.

The member's employer must give evidence of the member's
notification by providing to the System:

(i) a copy of the member's notification to the employer or
the record of that notification;

(ii) an affidavit signed by the member and the employer,
verifying the notification; and

(iii) any additional documentation that the System may
require.

(c) Except as otherwise provided in subsection (b), and subject to
the provisions of Section 16-176, a member retiring on or after July 1,
2005 and on or before June 30, 2013 (or January 1, 2014 in the case of a
member who has filed a notice of intent to retire with his or her employer
on or before June 30, 2013 and attains age 55 during the period July 1,
2013 through December 31, 2013), and applying for a retirement annuity
within 6 months of the last day of teaching for which retirement
contributions were required, and whose last day of teaching is on or before
June 30, 2013, may elect at the time of application for a retirement
annuity, to make a one-time member contribution to the System and
thereby avoid the reduction in the retirement annuity for retirement before
age 60 specified in paragraph (B) of Section 16-133. The exercise of the

election shall also obligate the last employer to make a one-time nonrefundable contribution to the System. Substitute teachers wishing to exercise this election must teach 85 or more days in one school term with one employer, who shall be deemed the last employer for purposes of this Section. The last day of teaching with that employer must be within 6 months of the date of application for retirement. All substitute teaching credit applied toward the required 85 days must be earned after June 30, 1990.

The one-time member and employer contributions shall be a percentage of the retiring member's highest annual salary rate used in the determination of the average salary for retirement annuity purposes. However, when determining the one-time member and employer contributions, that part of a member's salary with the same employer which exceeds the annual salary rate for the preceding year by more than 20% shall be excluded. The member contribution shall be at the rate of 11.5% for the lesser of the following 2 periods: (1) for each year that the member is less than age 60; or (2) for each year that the member's creditable service is less than 35 years. The employer contribution shall be at the rate of 23.5% for each year the member is under age 60.

Upon receipt of the application and election, the System shall determine the one-time employee and employer contributions required. The member contribution shall be credited to the individual account of the member and the employer contribution shall be credited to the Benefit Trust Reserve. The avoidance of the reduction in retirement annuity provided under this subsection (c) is not applicable until the member's contribution, if any, has been received by the System; however, the date that contribution is received shall not be considered in determining the effective date of retirement.

The number of members working for a single employer who may retire under this subsection (c) in any year may be limited at the option of the employer to a specified percentage of those eligible, not less than 10%, with the right to participate to be allocated among those applying on the basis of seniority in the service of the employer.

For persons not qualifying for the early retirement without discount option under this subsection (c), the option is extended for 3 years under subsection (d), but subject to the changes in eligibility, conditions, and required contributions provided in that subsection.

(d) A member who is not eligible for the early retirement without discount option under subsection (c) may qualify for the early retirement.
without discount option under this subsection (d) if the member (1) retires on or after July 1, 2013 and before July 1, 2016, (2) applies for a retirement annuity within 6 months of the last day of teaching for which retirement contributions were required, and (3) receives a certification of eligibility under this subsection from the member's last employer. Substitute teachers wishing to exercise this election must teach 85 or more days in one school term with one employer, who shall be deemed the last employer for purposes of this Section. The last day of teaching with that employer must be within 6 months of the date of application for retirement. All substitute teaching credit applied toward the required 85 days must be earned after June 30, 1990.

A qualifying member may elect at the time of application for a retirement annuity to make a one-time member contribution to the System and thereby avoid the reduction in the retirement annuity for retirement before age 60 specified in paragraph (B) of Section 16-133. The exercise of this election shall also obligate the last employer to make a one-time nonrefundable contribution to the System.

The one-time member and employer contributions shall be a percentage of the retiring member's highest annual salary rate used in the determination of the average salary for retirement annuity purposes. However, when determining the one-time member and employer contributions, that part of a member's salary with the same employer which exceeds the annual salary rate for the preceding year by more than 20% shall be excluded. The member contribution shall be at the rate of 14.4% for the lesser of the following 2 periods: (1) for each year that the member is less than age 60; or (2) for each year that the member's creditable service is less than 35 years. The employer contribution shall be at the rate of 29.3% for each year the member is under age 60.

Upon receipt of the application, election, and certification of eligibility, the System shall determine the one-time employee and employer contributions required. The member contribution shall be credited to the individual account of the member and the employer contribution shall be credited to the Benefit Trust Reserve. The avoidance of the reduction in retirement annuity provided under this subsection (d) is not applicable until the member's contribution has been received by the System; however, the date that contribution is received shall not be considered in determining the effective date of retirement.

Eligibility to retire under this subsection (d) shall require the approval of the member's last employer under this Article, granted in
accordance with criteria adopted by that employer with the mutual consent of the bargaining agent of a majority of the members employed by that employer. If the employer grants its approval for a member to retire under this subsection (d), the employer shall submit a certification of eligibility for the member in a manner prescribed by the System.

The early retirement without discount option under this subsection (d) terminates on July 1, 2016.

(2) Effective July 1, 1969, contributions of 1/2 of 1% of salary toward the cost of the automatic annual increase in retirement annuity provided under Section 16-133.1.

(3) Effective July 24, 1959, contributions of 1% of salary towards the cost of survivor benefits. Such contributions shall not be credited to the individual account of the member and shall not be subject to refund except as provided under Section 16-143.2.

(4) Effective July 1, 2005, contributions of 0.40% of salary toward the cost of the early retirement without discount option provided under Section 16-133.2. This contribution shall cease upon termination of the early retirement without discount option as provided in Section 16-133.2 16-176.

(b) The minimum required contribution for any year of full-time teaching service shall be $192.

(c) Contributions shall not be required of any annuitant receiving a retirement annuity who is given employment as permitted under Section 16-118 or 16-150.1.

(d) A person who (i) was a member before July 1, 1998, (ii) retires with more than 34 years of creditable service, and (iii) does not elect to qualify for the augmented rate under Section 16-129.1 shall be entitled, at the time of retirement, to receive a partial refund of contributions made under this Section for service occurring after the later of June 30, 1998 or attainment of 34 years of creditable service, in an amount equal to 1.00% of the salary upon which those contributions were based.

(e) A member's contributions toward the cost of early retirement without discount made under item (a)(4) of this Section shall not be refunded if the member has elected early retirement without discount under Section 16-133.2 and has begun to receive a retirement annuity under this Article calculated in accordance with that election. Otherwise, a member's contributions toward the cost of early retirement without discount made under item (a)(4) of this Section shall be refunded according to whichever one of the following circumstances occurs first:

(1) The contributions shall be refunded to the member, without interest, within 120 days after the member's retirement annuity commences, if the member does not elect early retirement without discount under Section 16-133.2.

(2) The contributions shall be included, without interest, in any refund claimed by the member under Section 16-151.

(3) The contributions shall be refunded to the member's designated beneficiary (or if there is no beneficiary, to the member's estate), without interest, if the member dies without having begun to receive a retirement annuity under this Article.

(4) The contributions shall be refunded to the member, without interest, if within 120 days after the early retirement without discount option provided under subsection (d) of Section 16-133.2 is terminated under Section 16-176. The System shall provide to the member, within 120 days after the option is terminated, an application for a refund of those contributions.

Sec. 16-176. To adopt actuarial assumptions. For the 5-year period ending June 30, 1997 and every 5 years thereafter, the actuary, as technical advisor, shall make an actuarial investigation into the mortality, service and compensation experience of the members, annuitants, and beneficiaries of the retirement system. Based upon the result of that investigation, the board shall adopt such actuarial assumptions as it deems appropriate.

Beginning with the 5-year period ending June 30, 2012 and every 5 years thereafter through June 30, 2012, the actuarial investigation required under this Section shall include the System's experience under the early retirement without discount option established in Section 16-133.2, including consideration of the sufficiency of the member and employer contributions under Section 16-133.2 and the active member contribution
under Section 16-152 to adequately fund the early retirement without discount option. The Board shall promptly communicate the results of the actuarial investigation to the Commission on Government Forecasting and Accountability. Based on the actuarial investigation, the Commission on Government Forecasting and Accountability shall, no later than February 1 of the next year, recommend to the General Assembly any proportional adjustment in the amounts of the member and employer contributions under Section 16-133.2 that it deems necessary.

*If the General Assembly fails to adjust the member and employer contributions under Section 16-133.2 in response to the Commission's recommendations, then the early retirement without discount option under subsection (c) of Section 16-133.2 is extended as provided in subsection (d) of that Section. The early retirement without discount option under subsection (d) of Section 16-133.2 terminates on July 1, 2016 terminated and shall cease to be available at the end of the fiscal year in which the Commission made its recommendation to the General Assembly.*

Section 30. The State Finance Act is amended by changing Sections 5h and 6z-17 as follows:

Sec. 5h. Cash flow borrowing and general funds liquidity.

(a) In order to meet cash flow deficits and to maintain liquidity in the General Revenue Fund, the Healthcare Provider Relief Fund, and the Common School Fund, on and after July 1, 2010 and through June 30, 2011, the State Treasurer and the State Comptroller shall make transfers to the General Revenue Fund, the Healthcare Provider Relief Fund, or the Common School Fund, as directed by the Governor, out of special funds of the State, to the extent allowed by federal law. No transfer may be made from a fund under this Section that would have the effect of reducing the available balance in the fund to an amount less than the amount remaining unexpended and unreserved from the total appropriation from that fund estimated to be expended for that fiscal year. No such transfer may reduce the cumulative balance of all of the special funds of the State to an amount less than the total debt service payable during the 12 months immediately following the date of the transfer on any bonded indebtedness of the State and any certificates issued under the Short Term Borrowing Act. Notwithstanding any other provision of this Section, no such transfer may be made from any special fund that is exclusively collected by or appropriated to any other constitutional officer without the written approval of that constitutional officer.

(b) If moneys have been transferred to the General Revenue Fund, the Healthcare Provider Relief Fund, or the Common School Fund pursuant to subsection (a) of this Section, this amendatory Act of the 96th General Assembly shall constitute the irrevocable and continuing authority for and direction to the State Treasurer and State Comptroller to reimburse the funds of origin from the General Revenue Fund, the Healthcare Provider Relief Fund, or the Common School Fund, as appropriate, by transferring to the funds of origin, at such times and in such amounts as directed by the Governor when necessary to support appropriated expenditures from the funds, an amount equal to that transferred from them plus any interest that would have accrued thereon had the transfer not occurred, except that any moneys transferred pursuant to subsection (a) of
this Section shall be repaid to the fund of origin within 18 months after the date on which they were borrowed.

(c) On the first day of each quarterly period in each fiscal year, until such time as a report indicates that all moneys borrowed and interest pursuant to this Section have been repaid, the Governor's Office of Management and Budget shall provide to the President and the Minority Leader of the Senate, the Speaker and the Minority Leader of the House of Representatives, and the Commission on Government Forecasting and Accountability a report on all transfers made pursuant to this Section in the prior quarterly period. The report must be provided in both written and electronic format. The report must include all of the following:

(1) The date each transfer was made.
(2) The amount of each transfer.
(3) In the case of a transfer from the General Revenue Fund, the Healthcare Provider Relief Fund, or the Common School Fund to a fund of origin pursuant to subsection (b) of this Section, the amount of interest being paid to the fund of origin.
(4) The end of day balance of both the fund of origin and the General Revenue Fund, the Healthcare Provider Relief Fund, or the Common School Fund, whichever the case may be, on the date the transfer was made.

For the purposes of this Act, the SIC Code that a business uses for determining its coverage under The Unemployment Insurance Act shall be the SIC Code for determining the applicability of this Act. On an annual basis, the Department of Employment Security shall provide the IEMA with a list of those regulated facilities covered by the above mentioned SIC codes.

"Business" also means any facility not covered by the above SIC codes that is subject to the provisions of Section 302 of the federal Emergency Planning and Community Right-to-Know Act of 1986 and that is found by the Agency to use, store, or manufacture a chemical substance in a quantity that poses a threat to the environment or public health. Such a determination shall be based on an on-site inspection conducted by the Agency and certified to the IEMA. The Agency shall also conduct inspections at the request of IEMA or upon a written request setting forth a justification to the IEMA from the chairman of the local emergency planning committee upon recommendation of the committee. The IEMA shall transmit a copy of the request to the Agency. The Agency may, in the event of a reportable release that occurs at any facility operated or owned by a business not covered by the above SIC codes, conduct inspections if the site hazard appears to warrant such action. The above notwithstanding, any farm operation shall not be considered as a facility subject to this definition.

Notwithstanding the above, for purposes of this Act, "business" does not mean any facility for which the requirements promulgated at Part 1910.119 of Title 29 of the Code of Federal Regulations are applicable or which has completed and submitted the plan required by Part 68 of Title 40 of the Code of Federal Regulations, provided that such business conducts and documents in writing an assessment for any instance where the Agency provides notice that a significant release of a chemical substance has occurred at a facility. Such assessment shall explain the nature, cause and known effects of the release, any mitigating actions taken, and preventive measures that can be employed to avoid a future release. Such assessment shall be available at the facility for review within 30 days after the Agency notifies the facility that a significant release has occurred. The Agency may provide written comments to the business following an on-site review of an assessment.

(Section scheduled to be repealed on July 1, 2013)
Sec. 13-506.2. Market regulation for competitive retail services.
(a) Definitions. As used in this Section:
(1) "Electing Provider" means a telecommunications carrier that is subject to either rate regulation pursuant to Section 13-504 or Section 13-505 or alternative regulation pursuant to Section 13-506.1 and that elects to have the rates, terms, and conditions of its competitive retail telecommunications services solely determined and regulated pursuant to the terms of this Article.
(2) "Basic local exchange service" means either a stand-alone residence network access line and per-call usage or, for any geographic area in which such stand-alone service is not offered, a stand-alone flat rate residence network access line for which local calls are not charged for frequency or duration. Extended Area Service shall be included in basic local exchange service.
(b) Election for market regulation. Notwithstanding any other provision of this Act, an Electing Provider may elect to have the rates, terms, and conditions of its competitive retail telecommunications services solely determined and regulated pursuant to the terms of this Section by filing written notice of its election for market regulation with the Commission. The notice of election shall designate the geographic area of the Electing Provider's service territory where the market regulation shall apply, either on a state-wide basis or in one or more specified Market

New matter indicated by italics - deletions by strikeout
Service Areas ("MSA") or Exchange areas. An Electing Provider shall not make an election for market regulation under this Section unless it commits in its written notice of election for market regulation to fulfill the conditions and requirements in this Section in each geographic area in which market regulation is elected. Immediately upon filing the notice of election for market regulation, the Electing Provider shall be subject to the jurisdiction of the Commission to the extent expressly provided in this Section.

(c) Competitive classification. Market regulation shall only be available for competitive retail telecommunications services as provided in this subsection.

(1) For geographic areas in which telecommunications services provided by the Electing Provider were classified as competitive either through legislative action or a tariff filing pursuant to Section 13-502 prior to January 1, 2010, and that are included in the Electing Provider's notice of election pursuant to subsection (b) of this Section, such services, and all recurring and nonrecurring charges associated with, related to or used in connection with such services, shall be classified as competitive without further Commission review. For services classified as competitive pursuant to this subsection, the requirements or conditions in any order or decision rendered by the Commission pursuant to Section 13-502 prior to the effective date of this amendatory Act of the 96th General Assembly, except for the commitments made by the Electing Provider in such order or decision concerning the optional packages required in subsection (d) of this Section and basic local exchange service as defined in this Section, shall no longer be in effect and no Commission investigation, review, or proceeding under Section 13-502 shall be continued, conducted, or maintained with respect to such services, charges, requirements, or conditions.

(2) For those geographic areas in which residential local exchange telecommunications services have not been classified as competitive as of the effective date of this amendatory Act of the 96th General Assembly, all telecommunications services provided to residential and business end users by an Electing Provider in the geographic area that is included in its notice of election pursuant to subsection (b) shall be classified as competitive for purposes of this Article without further Commission review.
(3) If an Electing Provider was previously subject to alternative regulation pursuant to Section 13-506.1 of this Article, the alternative regulation plan shall terminate in whole for all services subject to that plan and be of no force or effect, without further Commission review or action, when the Electing Provider's residential local exchange telecommunications service in each MSA in its telecommunications service area in the State has been classified as competitive pursuant to either subdivision (c)(1) or (c)(2) of this Section.

(4) The service packages described in Section 13-518 shall be classified as competitive for purposes of this Section if offered by an Electing Provider in a geographic area in which local exchange telecommunications service has been classified as competitive pursuant to either subdivision (c)(1) or (c)(2) of this Section.

(5) Where a service, or its functional equivalent, or a substitute service offered by a carrier that is not an Electing Provider or the incumbent local exchange carrier for that area is also being offered by an Electing Provider for some identifiable class or group of customers in an exchange, group of exchanges, or some other clearly defined geographical area, the service offered by a carrier that is not an Electing Provider or the incumbent local exchange carrier for that area shall be classified as competitive without further Commission review.

(6) Notwithstanding any other provision of this Act, retail telecommunications services classified as competitive pursuant to Section 13-502 or subdivision (c)(5) of this Section shall have their rates, terms, and conditions solely determined and regulated pursuant to the terms of this Section in the same manner and to the same extent as the competitive retail telecommunications services of an Electing Provider, except that subsections (d), (g), and (j) of this Section shall not apply to a carrier that is not an Electing Provider or to the competitive telecommunications services of a carrier that is not an Electing Provider. The access services of a carrier that is not an Electing Provider shall remain subject to Section 13-900.2. The requirements in subdivision (e)(3) of this Section shall not apply to retail telecommunications services classified as competitive pursuant to Section 13-502 or subdivision (c)(5) of this Section, except that, upon request from the

Commission, the telecommunications carrier providing competitive retail telecommunications services shall provide a report showing the number of credits and exemptions for the requested time period.

(d) Consumer choice safe harbor options.

   (1) An Electing Provider in each of the MSA or Exchange areas classified as competitive pursuant to subdivision (c)(1) or (c)(2) of this Section shall offer to all residential customers who choose to subscribe the following optional packages of services priced at the same rate levels in effect on January 1, 2010:

   (A) A basic package, which shall consist of a stand-alone residential network access line and 30 local calls. If the Electing Provider offers a stand-alone residential access line and local usage on a per call basis, the price for the basic package shall be the Electing Provider's applicable price in effect on January 1, 2010 for the sum of a residential access line and 30 local calls, additional calls over 30 calls shall be provided at the current per call rate. However, this basic package is not required if stand-alone residential network access lines or per-call local usage are not offered by the Electing Provider in the geographic area on January 1, 2010 or if the Electing Provider has not increased its stand-alone network access line and local usage rates, including Extended Area Service rates, since January 1, 2010.

   (B) An extra package, which shall consist of residential basic local exchange network access line and unlimited local calls. The price for the extra package shall be the Electing Provider's applicable price in effect on January 1, 2010 for a residential access line with unlimited local calls.

   (C) A plus package, which shall consist of residential basic local exchange network access line, unlimited local calls, and the customer's choice of 2 vertical services offered by the Electing Provider. The term "vertical services" as used in this subsection, includes, but is not limited to, call waiting, call forwarding, 3-way calling, caller ID, call tracing, automatic callback, repeat dialing, and voicemail. The price for the plus package shall
be the Electing Provider's applicable price in effect on January 1, 2010 for the sum of a residential access line with unlimited local calls and 2 times the average price for the vertical features included in the package.

(2) For those geographic areas in which local exchange telecommunications services were classified as competitive on the effective date of this amendatory Act of the 96th General Assembly, an Electing Provider in each such MSA or Exchange area shall be subject to the same terms and conditions as provided in commitments made by the Electing Provider in connection with such previous competitive classifications, which shall apply with equal force under this Section, except as follows: (i) the limits on price increases on the optional packages required by this Section shall be extended consistent with subsection (d)(1) of this Section and (ii) the price for the extra package required by subsection (d)(1)(B) shall be reduced by one dollar from the price in effect on January 1, 2010. In addition, if an Electing Provider obtains a competitive classification pursuant to subsection (c)(1) and (c)(2), the price for the optional packages shall be determined in such area in compliance with subsection (d)(1), except the price for the plus package required by subsection (d)(1) (C) shall be the lower of the price for such area or the price of the plus package in effect on January 1, 2010 for areas classified as competitive pursuant to subsection (c)(1).

(3) To the extent that the requirements in Section 13-518 applied to a telecommunications carrier prior to the effective date of this Section and that telecommunications carrier becomes an Electing Provider in accordance with the provisions of this Section, the requirements in Section 13-518 shall cease to apply to that Electing Provider in those geographic areas included in the Electing Provider's notice of election pursuant to subsection (b) of this Section.

(4) An Electing Provider shall make the optional packages required by this subsection and stand-alone residential network access lines and local usage, where offered, readily available to the public by providing information, in a clear manner, to residential customers. Information shall be made available on a website, and an Electing Provider shall provide notification to its customers every 6 months, provided that notification may consist of a bill

page message that provides an objective description of the safe harbor options that includes a telephone number and website address where the customer may obtain additional information about the packages from the Electing Provider. The optional packages shall be offered on a monthly basis with no term of service requirement. An Electing Provider shall allow online electronic ordering of the optional packages and stand-alone residential network access lines and local usage, where offered, on its website in a manner similar to the online electronic ordering of its other residential services.

(5) An Electing Provider shall comply with the Commission’s existing rules, regulations, and notices in Title 83, Part 735 of the Illinois Administrative Code when offering or providing the optional packages required by this subsection (d) and stand-alone residential network access lines.

(6) An Electing Provider shall provide to the Commission semi-annual subscribership reports as of June 30 and December 31 that contain the number of its customers subscribing to each of the consumer choice safe harbor packages required by subsection (d)(1) of this Section and the number of its customers subscribing to retail residential basic local exchange service as defined in subsection (a)(2) of this Section. The first semi-annual reports shall be made on April 1, 2011 for December 31, 2010, and on September 1, 2011 for June 30, 2011, and semi-annually on April 1 and September 1 thereafter. Such subscribership information shall be accorded confidential and proprietary treatment upon request by the Electing Provider.

(7) The Commission shall have the power, after notice and hearing as provided in this Article, upon complaint or upon its own motion, to take corrective action if the requirements of this Section are not complied with by an Electing Provider.

(e) Service quality and customer credits for basic local exchange service.

(1) An Electing Provider shall meet the following service quality standards in providing basic local exchange service, which for purposes of this subsection (e), includes both basic local exchange service and the consumer choice safe harbor options required by subsection (d) of this Section.
(A) Install basic local exchange service within 5 business days after receipt of an order from the customer unless the customer requests an installation date that is beyond 5 business days after placing the order for basic service and to inform the customer of the Electing Provider's duty to install service within this timeframe. If installation of service is requested on or by a date more than 5 business days in the future, the Electing Provider shall install service by the date requested.

(B) Restore basic local exchange service for the customer within 30 hours after receiving notice that the customer is out of service.

(C) Keep all repair and installation appointments for basic local exchange service if a customer premises visit requires a customer to be present. The appointment window shall be either a specific time or, at a maximum, a 4-hour time block during evening, weekend, and normal business hours.

(D) Inform a customer when a repair or installation appointment requires the customer to be present.

(2) Customers shall be credited by the Electing Provider for violations of basic local exchange service quality standards described in subdivision (e)(1) of this Section. The credits shall be applied automatically on the statement issued to the customer for the next monthly billing cycle following the violation or following the discovery of the violation. The next monthly billing cycle following the violation or the discovery of the violation means the billing cycle immediately following the billing cycle in process at the time of the violation or discovery of the violation, provided the total time between the violation or discovery of the violation and the issuance of the credit shall not exceed 60 calendar days. The Electing Provider is responsible for providing the credits and the customer is under no obligation to request such credits. The following credits shall apply:

(A) If an Electing Provider fails to repair an out-of-service condition for basic local exchange service within 30 hours, the Electing Provider shall provide a credit to the customer. If the service disruption is for more than 30 hours, but not more than 48 hours, the credit must be equal
to a pro-rata portion of the monthly recurring charges for all basic local exchange services disrupted. If the service disruption is for more than 48 hours, but not more than 72 hours, the credit must be equal to at least 33% of one month's recurring charges for all local services disrupted. If the service disruption is for more than 72 hours, but not more than 96 hours, the credit must be equal to at least 67% of one month's recurring charges for all basic local exchange services disrupted. If the service disruption is for more than 96 hours, but not more than 120 hours, the credit must be equal to one month's recurring charges for all basic local exchange services disrupted. For each day or portion thereof that the service disruption continues beyond the initial 120-hour period, the Electing Provider shall also provide an additional credit of $20 per calendar day.

(B) If an Electing Provider fails to install basic local exchange service as required under subdivision (e)(1) of this Section, the Electing Provider shall waive 50% of any installation charges, or in the absence of an installation charge or where installation is pursuant to the Link Up program, the Electing Provider shall provide a credit of $25. If an Electing Provider fails to install service within 10 business days after the service application is placed, or fails to install service within 5 business days after the customer's requested installation date, if the requested date was more than 5 business days after the date of the order, the Electing Provider shall waive 100% of the installation charge, or in the absence of an installation charge or where installation is provided pursuant to the Link Up program, the Electing Provider shall provide a credit of $50. For each day that the failure to install service continues beyond the initial 10 business days, or beyond 5 business days after the customer's requested installation date, if the requested date was more than 5 business days after the date of the order, the Electing Provider shall also provide an additional credit of $20 per calendar day until the basic local exchange service is installed.

(C) If an Electing Provider fails to keep a scheduled repair or installation appointment when a customer
premises visit requires a customer to be present as required under subdivision (e)(1) of this Section, the Electing Provider shall credit the customer $25 per missed appointment. A credit required by this subdivision does not apply when the Electing Provider provides the customer notice of its inability to keep the appointment no later than 8:00 pm of the day prior to the scheduled date of the appointment.

(D) Credits required by this subsection do not apply if the violation of a service quality standard:

(i) occurs as a result of a negligent or willful act on the part of the customer;

(ii) occurs as a result of a malfunction of customer-owned telephone equipment or inside wiring;

(iii) occurs as a result of, or is extended by, an emergency situation as defined in 83 Ill. Adm. Code 732.10;

(iv) is extended by the Electing Provider's inability to gain access to the customer's premises due to the customer missing an appointment, provided that the violation is not further extended by the Electing Provider;

(v) occurs as a result of a customer request to change the scheduled appointment, provided that the violation is not further extended by the Electing Provider;

(vi) occurs as a result of an Electing Provider's right to refuse service to a customer as provided in Commission rules; or

(vii) occurs as a result of a lack of facilities where a customer requests service at a geographically remote location, where a customer requests service in a geographic area where the Electing Provider is not currently offering service, or where there are insufficient facilities to meet the customer's request for service, subject to an Electing Provider's obligation for reasonable facilities planning.
(3) Each Electing Provider shall provide to the Commission on a quarterly basis and in a form suitable for posting on the Commission's website in conformance with the rules adopted by the Commission and in effect on April 1, 2010, a public report that includes the following data for basic local exchange service quality of service:

(A) With regard to credits due in accordance with subdivision (e)(2)(A) as a result of out-of-service conditions lasting more than 30 hours:

(ii) the number of credits issued for repairs between 30 and 48 hours;

(iii) the number of credits issued for repairs between 49 and 72 hours;

(iv) the number of credits issued for repairs between 73 and 96 hours;

(v) the number of credits used for repairs between 97 and 120 hours;

(vi) the number of credits issued for repairs greater than 120 hours; and

(vii) the number of exemptions claimed for each of the categories identified in subdivision (e)(2)(D).

(B) With regard to credits due in accordance with subdivision (e)(2)(B) as a result of failure to install basic local exchange service:

(i) the total dollar amount of any customer credits paid;

(ii) the number of installations after 5 business days;

(iii) the number of installations after 10 business days;

(iv) the number of installations after 11 business days; and

(v) the number of exemptions claimed for each of the categories identified in subdivision (e)(2)(D).
(C) With regard to credits due in accordance with subdivision (e)(2)(C) as a result of missed appointments:

(i) the total dollar amount of any customer credits paid;

(ii) the number of any customers receiving credits; and

(iii) the number of exemptions claimed for each of the categories identified in subdivision (e)(2)(D).

(D) The Electing Provider's annual report required by this subsection shall also include, for informational reporting, the performance data described in subdivisions (e)(2)(A), (e)(2)(B), and (e)(2)(C), and trouble reports per 100 access lines calculated using the Commission's existing applicable rules and regulations for such measures, including the requirements for service standards established in this Section.

(4) It is the intent of the General Assembly that the service quality rules and customer credits in this subsection (e) of this Section and other enforcement mechanisms, including fines and penalties authorized by Section 13-305, shall apply on a nondiscriminatory basis to all Electing Providers. Accordingly, notwithstanding any provision of any service quality rules promulgated by the Commission, any alternative regulation plan adopted by the Commission, or any other order of the Commission, any Electing Provider that is subject to any other order of the Commission and that violates or fails to comply with the service quality standards promulgated pursuant to this subsection (e) or any other order of the Commission shall not be subject to any fines, penalties, customer credits, or enforcement mechanisms other than such fines or penalties or customer credits as may be imposed by the Commission in accordance with the provisions of this subsection (e) and Section 13-305, which are to be generally applicable to all Electing Providers. The amount of any fines or penalties imposed by the Commission for failure to comply with the requirements of this subsection (e) shall be an appropriate amount, taking into account, at a minimum, the Electing Provider's gross annual intrastate revenue; the frequency, duration, and recurrence of the violation; and the relative harm caused to the

affected customers or other users of the network. In imposing fines and penalties, the Commission shall take into account compensation or credits paid by the Electing Provider to its customers pursuant to this subsection (e) in compensation for any violation found pursuant to this subsection (e), and in any event the fine or penalty shall not exceed an amount equal to the maximum amount of a civil penalty that may be imposed under Section 13-305.

(5) An Electing Provider in each of the MSA or Exchange areas classified as competitive pursuant to subsection (c) of this Section shall fulfill the requirements in subdivision (e)(3) of this Section for 3 years after its notice of election becomes effective. After such 3 years, the requirements in subdivision (e)(3) of this Section shall not apply to such Electing Provider, except that, upon request from the Commission, the Electing Provider shall provide a report showing the number of credits and exemptions for the requested time period.

(f) Commission jurisdiction over competitive retail telecommunications services upon election for market regulation. Except as otherwise expressly stated in this Section, the Commission shall thereafter have no jurisdiction or authority over any aspect of competitive retail telecommunications service of an Electing Provider in those geographic areas included in the Electing Provider's notice of election pursuant to subsection (b) of this Section or of a retail telecommunications service classified as competitive pursuant to Section 13-502 or subdivision (c)(5) of this Section, heretofore subject to the jurisdiction of the Commission, including but not limited to, any requirements of this Article related to the terms, conditions, rates, quality of service, availability, classification or any other aspect of any of the Electing Provider's competitive retail telecommunications services. No telecommunications carrier Electing Provider shall commit any unfair or deceptive act or practice in connection with any aspect of the offering or provision of any competitive retail telecommunications service. Nothing in this Article shall limit or affect any provisions in the Consumer Fraud and Deceptive Business Practices Act with respect to any unfair or deceptive act or practice by a telecommunications carrier an Electing Provider.

(g) Commission authority over access services upon election for market regulation.
(1) As part of its Notice of Election for Market Regulation, the Electing Provider shall reduce its intrastate switched access rates to rates no higher than its interstate switched access rates in 4 installments. The first reduction must be made 30 days after submission of its complete application for Notice of Election for Market Regulation, and the Electing Provider must reduce its intrastate switched access rates by an amount equal to 33% of the difference between its current intrastate switched access rates and its current interstate switched access rates. The second reduction must be made no later than one year after the first reduction, and the Electing Provider must reduce its then current intrastate switched access rates by an amount equal to 41% of the difference between its then current intrastate switched access rates and its then current interstate switched access rates. The third reduction must be made no later than one year after the second reduction, and the Electing Provider must reduce its then current intrastate switched access rates by an amount equal to 50% of the difference between its then current intrastate switched access rates and its then current interstate switched access rates. The fourth reduction must be made on or before June 30, 2013, and the Electing Provider must reduce its intrastate switched access rate to mirror its then current interstate switched access rates and rate structure. Following the fourth reduction, each Electing Provider must continue to set its intrastate switched access rates to mirror its interstate switched access rates and rate structure. For purposes of this subsection, the rate for intrastate switched access service means the composite, per-minute rate for that service, including all applicable fixed and traffic-sensitive charges, including, but not limited to, carrier common line charges.

(2) Nothing in paragraph (1) of this subsection (g) prohibits an Electing Provider from electing to offer intrastate switched access service at rates lower than its interstate switched access rates.

(3) The Commission shall have no authority to order an Electing Provider to set its rates for intrastate switched access at a level lower than its interstate switched access rates.

(4) The Commission's authority under this subsection (g) shall only apply to Electing Providers under Market Regulation.

The Commission's authority over switched access services for all other carriers is retained under Section 13-900.2 of this Act. (h) Safety of service equipment and facilities.

1) An Electing Provider shall furnish, provide, and maintain such service instrumentalities, equipment, and facilities as shall promote the safety, health, comfort, and convenience of its patrons, employees, and public and as shall be in all respects adequate, reliable, and efficient without discrimination or delay. Every Electing Provider shall provide service and facilities that are in all respects environmentally safe.

2) The Commission is authorized to conduct an investigation of any Electing Provider or part thereof. The investigation may examine the reasonableness, prudence, or efficiency of any aspect of the Electing Provider's operations or functions that may affect the adequacy, safety, efficiency, or reliability of telecommunications service. The Commission may conduct or order an investigation only when it has reasonable grounds to believe that the investigation is necessary to assure that the Electing Provider is providing adequate, efficient, reliable, and safe service. The Commission shall, before initiating any such investigation, issue an order describing the grounds for the investigation and the appropriate scope and nature of the investigation, which shall be reasonably related to the grounds relied upon by the Commission in its order.

(i) (Blank). Tariffs. No Electing Provider shall offer or provide telecommunications service unless and until a tariff is filed with the Commission that describes the nature of the service, applicable rates and other charges, terms, and conditions of service and the exchange, exchanges, or other geographical area or areas in which the service shall be offered or provided. The Commission may prescribe the form of such tariff and any additional data or information that shall be included in the form. Revenue from retail competitive services received from an Electing Provider pursuant to such tariffs shall be gross revenue for purposes of Section 2-202 of this Act.

(j) Application of Article VII. The provisions of Sections 7-101, 7-102, 7-103, 7-104, 7-204, 7-205, and 7-206 of this Act are applicable to an Electing Provider offering or providing retail telecommunications service, and the Commission's regulation thereof, except that (1) the approval of contracts and arrangements with affiliated interests required by paragraph
(3) of Section 7-101 shall not apply to such telecommunications carriers provided that, except as provided in item (2), those contracts and arrangements shall be filed with the Commission; (2) affiliated interest contracts or arrangements entered into by such telecommunications carriers where the increased obligation thereunder does not exceed the lesser of $5,000,000 or 5% of such carrier's prior annual revenue from noncompetitive services are not required to be filed with the Commission; and (3) any consent and approval of the Commission required by Section 7-102 is not required for the sale, lease, assignment, or transfer by any Electing Provider of any real property that is not necessary or useful in the performance of its duties to the public.

(Section scheduled to be repealed on July 1, 2013)

Sec. 13-509. Agreements for provisions of competitive telecommunications services differing from tariffs or written service offerings. A telecommunications carrier may negotiate with customers or prospective customers to provide competitive telecommunications service,
and in so doing, may offer or agree to provide such service on such terms and for such rates or charges as are reasonable, without regard to any tariffs it may have filed with the Commission or written service offerings posted on the telecommunications carrier's website pursuant to Section 13-501(c) of this Act with respect to such services. Upon request of the Commission, the telecommunications carrier shall submit to the Commission written notice of a list of any such agreements (which list may be filed electronically) within the past year. The notice shall identify the general nature of all such agreements. A copy of each such agreement shall be provided to the Commission within 10 business days after a request for review of the agreement is made by the Commission or is made to the Commission by another telecommunications carrier or by a party to such agreement.

Any agreement or notice entered into or submitted pursuant to the provisions of this Section may, in the Commission's discretion, be accorded proprietary treatment.

Sec. 13-514. Prohibited Actions of Telecommunications Carriers. A telecommunications carrier shall not knowingly impede the development of competition in any telecommunications service market. The following prohibited actions are considered per se impediments to the development of competition; however, the Commission is not limited in any manner to these enumerated impediments and may consider other actions which impede competition to be prohibited:

1. unreasonably refusing or delaying interconnections or collocation or providing inferior connections to another telecommunications carrier;

2. unreasonably impairing the speed, quality, or efficiency of services used by another telecommunications carrier;

3. unreasonably denying a request of another provider for information regarding the technical design and features, geographic coverage, information necessary for the design of equipment, and traffic capabilities of the local exchange network except for proprietary information unless such information is subject to a proprietary agreement or protective order;

(4) unreasonably delaying access in connecting another telecommunications carrier to the local exchange network whose product or service requires novel or specialized access requirements;

(5) unreasonably refusing or delaying access by any person to another telecommunications carrier;

(6) unreasonably acting or failing to act in a manner that has a substantial adverse effect on the ability of another telecommunications carrier to provide service to its customers;

(7) unreasonably failing to offer services to customers in a local exchange, where a telecommunications carrier is certificated to provide service and has entered into an interconnection agreement for the provision of local exchange telecommunications services, with the intent to delay or impede the ability of the incumbent local exchange telecommunications carrier to provide inter-LATA telecommunications services;

(8) violating the terms of or unreasonably delaying implementation of an interconnection agreement entered into pursuant to Section 252 of the federal Telecommunications Act of 1996 in a manner that unreasonably delays, increases the cost, or impedes the availability of telecommunications services to consumers;

(9) unreasonably refusing or delaying access to or provision of operation support systems to another telecommunications carrier or providing inferior operation support systems to another telecommunications carrier;

(10) unreasonably failing to offer network elements that the Commission or the Federal Communications Commission has determined must be offered on an unbundled basis to another telecommunications carrier in a manner consistent with the Commission's or Federal Communications Commission's orders or rules requiring such offerings;

(11) violating the obligations of Section 13-801; and

(12) violating an order of the Commission regarding matters between telecommunications carriers.

Sec. 13-515. Enforcement.

(a) The following expedited procedures shall be used to enforce the provisions of Section 13-514 of this Act, provided that, for a violation of paragraph (8) of Section 13-514 to qualify for the expedited procedures of

this Section, the violation must be in a manner that unreasonably delays, increases the cost, or impedes the availability of telecommunications services to consumers. However, the Commission, the complainant, and the respondent may mutually agree to adjust the procedures established in this Section.

(b) (Blank).

(c) No complaint may be filed under this Section until the complainant has first notified the respondent of the alleged violation and offered the respondent 48 hours to correct the situation. Provision of notice and the opportunity to correct the situation creates a rebuttable presumption of knowledge under Section 13-514. After the filing of a complaint under this Section, the parties may agree to follow the mediation process under Section 10-101.1 of this Act. The time periods specified in subdivision (d)(7) of this Section shall be tolled during the time spent in mediation under Section 10-101.1.

(d) A telecommunications carrier may file a complaint with the Commission alleging a violation of Section 13-514 in accordance with this subsection:

(1) The complaint shall be filed with the Chief Clerk of the Commission and shall be served in hand upon the respondent, the executive director, and the general counsel of the Commission at the time of the filing.

(2) A complaint filed under this subsection shall include a statement that the requirements of subsection (c) have been fulfilled and that the respondent did not correct the situation as requested.

(3) Reasonable discovery specific to the issue of the complaint may commence upon filing of the complaint. Requests for discovery must be served in hand and responses to discovery must be provided in hand to the requester within 14 days after a request for discovery is made.

(4) An answer and any other responsive pleading to the complaint shall be filed with the Commission and served in hand at the same time upon the complainant, the executive director, and the general counsel of the Commission within 7 days after the date on which the complaint is filed.

(5) If the answer or responsive pleading raises the issue that the complaint violates subsection (i) of this Section, the complainant may file a reply to such allegation within 3 days after
actual service of such answer or responsive pleading. Within 4 days after the time for filing a reply has expired, the hearing officer or arbitrator shall either issue a written decision dismissing the complaint as frivolous in violation of subsection (i) of this Section including the reasons for such disposition or shall issue an order directing that the complaint shall proceed.

(6) A pre-hearing conference shall be held within 14 days after the date on which the complaint is filed.

(7) The hearing shall commence within 30 days of the date on which the complaint is filed. The hearing may be conducted by a hearing examiner or by an arbitrator. Parties and the Commission staff shall be entitled to present evidence and legal argument in oral or written form as deemed appropriate by the hearing examiner or arbitrator. The hearing examiner or arbitrator shall issue a written decision within 60 days after the date on which the complaint is filed. The decision shall include reasons for the disposition of the complaint and, if a violation of Section 13-514 is found, directions and a deadline for correction of the violation.

(8) Any party may file a petition requesting the Commission to review the decision of the hearing examiner or arbitrator within 5 days of such decision. Any party may file a response to a petition for review within 3 business days after actual service of the petition. After the time for filing of the petition for review, but no later than 15 days after the decision of the hearing examiner or arbitrator, the Commission shall decide to adopt the decision of the hearing examiner or arbitrator or shall issue its own final order.

(e) If the alleged violation has a substantial adverse effect on the ability of the complainant to provide service to customers, the complainant may include in its complaint a request for an order for emergency relief. The Commission, acting through its designated hearing examiner or arbitrator, shall act upon such a request within 2 business days of the filing of the complaint. An order for emergency relief may be granted, without an evidentiary hearing, upon a verified factual showing that the party seeking relief will likely succeed on the merits, that the party will suffer irreparable harm in its ability to serve customers if emergency relief is not granted, and that the order is in the public interest. An order for emergency relief shall include a finding that the requirements of this subsection have been fulfilled and shall specify the directives that must be fulfilled by the
respondent and deadlines for meeting those directives. The decision of the hearing examiner or arbitrator to grant or deny emergency relief shall be considered an order of the Commission unless the Commission enters its own order within 2 calendar days of the decision of the hearing examiner or arbitrator. The order for emergency relief may require the responding party to act or refrain from acting so as to protect the provision of competitive service offerings to customers. Any action required by an emergency relief order must be technically feasible and economically reasonable and the respondent must be given a reasonable period of time to comply with the order.

(f) The Commission is authorized to obtain outside resources including, but not limited to, arbitrators and consultants for the purposes of the hearings authorized by this Section. Any arbitrator or consultant obtained by the Commission shall be approved by both parties to the hearing. The cost of such outside resources including, but not limited to, arbitrators and consultants shall be borne by the parties. The Commission shall review the bill for reasonableness and assess the parties for reasonable costs dividing the costs according to the resolution of the complaint brought under this Section. Such costs shall be paid by the parties directly to the arbitrators, consultants, and other providers of outside resources within 60 days after receiving notice of the assessments from the Commission. Interest at the statutory rate shall accrue after expiration of the 60-day period. The Commission, arbitrators, consultants, or other providers of outside resources may apply to a court of competent jurisdiction for an order requiring payment.

(g) The Commission shall assess the parties under this subsection for all of the Commission's costs of investigation and conduct of the proceedings brought under this Section including, but not limited to, the prorated salaries of staff, attorneys, hearing examiners, and support personnel and including any travel and per diem, directly attributable to the complaint brought pursuant to this Section, but excluding those costs provided for in subsection (f), dividing the costs according to the resolution of the complaint brought under this Section. All assessments made under this subsection shall be paid into the Public Utility Fund within 60 days after receiving notice of the assessments from the Commission. Interest at the statutory rate shall accrue after the expiration of the 60 day period. The Commission is authorized to apply to a court of competent jurisdiction for an order requiring payment.

(h) If the Commission determines that there is an imminent threat to competition or to the public interest, the Commission may, notwithstanding any other provision of this Act, seek temporary, preliminary, or permanent injunctive relief from a court of competent jurisdiction either prior to or after the hearing.

(i) A party shall not bring or defend a proceeding brought under this Section or assert or controvert an issue in a proceeding brought under this Section, unless there is a non-frivolous basis for doing so. By presenting a pleading, written motion, or other paper in complaint or defense of the actions or inaction of a party under this Section, a party is certifying to the Commission that to the best of that party's knowledge, information, and belief, formed after a reasonable inquiry of the subject matter of the complaint or defense, that the complaint or defense is well grounded in law and fact, and under the circumstances:

(1) it is not being presented to harass the other party, cause unnecessary delay in the provision of competitive telecommunications services to consumers, or create needless increases in the cost of litigation; and

(2) the allegations and other factual contentions have evidentiary support or, if specifically so identified, are likely to have evidentiary support after reasonable opportunity for further investigation or discovery as defined herein.

(j) If, after notice and a reasonable opportunity to respond, the Commission determines that subsection (i) has been violated, the Commission shall impose appropriate sanctions upon the party or parties that have violated subsection (i) or are responsible for the violation. The sanctions shall not be more than $30,000, plus the amount of expenses accrued by the Commission for conducting the hearing. Payment of sanctions imposed under this subsection shall be made to the Common School Fund within 30 days of imposition of such sanctions.

(k) An appeal of a Commission Order made pursuant to this Section shall not effectuate a stay of the Order unless a court of competent jurisdiction specifically finds that the party seeking the stay will likely succeed on the merits, that the party will suffer irreparable harm without the stay, and that the stay is in the public interest.

(220 ILCS 5/13-516)

(Section scheduled to be repealed on July 1, 2013)
Sec. 13-516. Enforcement remedies for prohibited actions by telecommunications carriers.

(a) In addition to any other provision of this Act, all of the following remedies may be applied for violations of Section 13-514, provided that, for a violation of paragraph (8) of Section 13-514 to qualify for the remedies in this Section, the violation must be in a manner that unreasonably delays, increases the cost, or impedes the availability of telecommunications services to consumers:

(1) A Commission order directing the violating telecommunications carrier to cease and desist from violating the Act or a Commission order or rule.

(2) Notwithstanding any other provision of this Act, for a second and any subsequent violation of Section 13-514 committed by a telecommunications carrier after the effective date of this amendatory Act of the 92nd General Assembly, the Commission may impose penalties of up to $30,000 or 0.00825% of the telecommunications carrier's gross intrastate annual telecommunications revenue, whichever is greater, per violation unless the telecommunications carrier has fewer than 35,000 subscriber access lines, in which case the civil penalty may not exceed $2,000 per violation. The second and any subsequent violation of Section 13-514 need not be of the same nature or provision of the Section for a penalty to be imposed. Matters resolved through voluntary mediation pursuant to Section 10-101.1 shall not be considered as a violation of Section 13-514 in computing eligibility for imposition of a penalty under this subdivision (a)(2). Each day of a continuing offense shall be treated as a separate violation for purposes of levying any penalty under this Section. The period for which the penalty shall be levied shall commence on the day the telecommunications carrier first violated Section 13-514 or on the day of the notice provided to the telecommunications carrier pursuant to subsection (c) of Section 13-515, whichever is later, and shall continue until the telecommunications carrier is in compliance with the Commission order. In assessing a penalty under this subdivision (a)(2), the Commission may consider mitigating factors, including those specified in items (1) through (4) of subsection (a) of Section 13-304.

New matter indicated by italics - deletions by strikeout
(3) The Commission shall award damages, attorney's fees, and costs to any telecommunications carrier that was subjected to a violation of Section 13-514.

(b) The Commission may waive penalties imposed under subdivision (a)(2) if it makes a written finding as to its reasons for waiving the penalty. Reasons for waiving a penalty shall include, but not be limited to, technological infeasibility and acts of God.

(c) The Commission shall establish by rule procedures for the imposition of remedies under subsection (a) that, at a minimum, provide for notice, hearing and a written order relating to the imposition of remedies.

(d) Unless enforcement of an order entered by the Commission under Section 13-515 otherwise directs or is stayed by the Commission or by an appellate court reviewing the Commission's order, at any time after 30 days from the entry of the order, either the Commission, or the telecommunications carrier found by the Commission to have been subjected to a violation of Section 13-514, or both, is authorized to petition a court of competent jurisdiction for an order at law or in equity requiring enforcement of the Commission order. The court shall determine (1) whether the Commission entered the order identified in the petition and (2) whether the violating telecommunications carrier has complied with the Commission's order. A certified copy of a Commission order shall be prima facie evidence that the Commission entered the order so certified. Pending the court's resolution of the petition, the court may award temporary or preliminary injunctive relief, or such other equitable relief as may be necessary, to effectively implement and enforce the Commission's order in a timely manner.

If after a hearing the court finds that the Commission entered the order identified in the petition and that the violating telecommunications carrier has not complied with the Commission's order, the court shall enter judgment requiring the violating telecommunications carrier to comply with the Commission's order and order such relief at law or in equity as the court deems necessary to effectively implement and enforce the Commission's order in a timely manner. The court shall also award to the petitioner, or petitioners, attorney's fees and costs, which shall be taxed and collected as part of the costs of the case.

If the court finds that the violating telecommunications carrier has failed to comply with the timely payment of damages, attorney's fees, or costs ordered by the Commission, the court shall order the violating
telecommunications carrier to pay to the telecommunications carrier or carriers awarded the damages, fees, or costs by the Commission additional damages for the sake of example and by way of punishment for the failure to timely comply with the order of the Commission, unless the court finds a reasonable basis for the violating telecommunications carrier's failure to make timely payment according to the Commission's order, in which instance the court shall establish a new date for payment to be made.

(e) Payment of damages, attorney's fees, and costs imposed under subsection (a) shall be made within 30 days after issuance of the Commission order imposing the penalties, damages, attorney's fees, or costs, unless otherwise directed by the Commission or a reviewing court under an appeal taken pursuant to Article X. Payment of penalties imposed under subsection (a) shall be made to the Common School Fund within 30 days of issuance of the Commission order imposing the penalties.

(220 ILCS 5/13-712)

(Section scheduled to be repealed on July 1, 2013)

Sec. 13-712. Basic local exchange service quality; customer credits.

(a) It is the intent of the General Assembly that every telecommunications carrier meet minimum service quality standards in providing noncompetitive basic local exchange service on a non-discriminatory basis to all classes of customers.

(b) Definitions:

(1) (Blank).

(2) "Basic local exchange service" means residential and business lines used for local exchange telecommunications service as defined in Section 13-204 of this Act, that have not been classified as competitive pursuant to either Section 13-502 or subdivision (c)(5) of Section 13-506.2 of this Act, excluding:

(A) services that employ advanced telecommunications capability as defined in Section 706(c)(1) of the federal Telecommunications Act of 1996;
(B) vertical services;
(C) company official lines; and
(D) records work only.

(3) "Link Up" refers to the Link Up Assistance program defined and established at 47 C.F.R. Section 54.411 et seq. as amended.
(c) The Commission shall promulgate service quality rules for basic local exchange service, which may include fines, penalties, customer credits, and other enforcement mechanisms. In developing such service quality rules, the Commission shall consider, at a minimum, the carrier's gross annual intrastate revenue; the frequency, duration, and recurrence of the violation; and the relative harm caused to the affected customer or other users of the network. In imposing fines, the Commission shall take into account compensation or credits paid by the telecommunications carrier to its customers pursuant to this Section in compensation for the violation found pursuant to this Section. These rules shall become effective within one year after the effective date of this amendatory Act of the 92nd General Assembly.

(d) The rules shall, at a minimum, require each telecommunications carrier to do all of the following:

1. Install basic local exchange service within 5 business days after receipt of an order from the customer unless the customer requests an installation date that is beyond 5 business days after placing the order for basic service and to inform the customer of its duty to install service within this timeframe. If installation of service is requested on or by a date more than 5 business days in the future, the telecommunications carrier shall install service by the date requested. A telecommunications carrier offering basic local exchange service utilizing the network or network elements of another carrier shall install new lines for basic local exchange service within 3 business days after provisioning of the line or lines by the carrier whose network or network elements are being utilized is complete. This subdivision (d)(1) does not apply to the migration of a customer between telecommunications carriers, so long as the customer maintains dial tone.

2. Restore basic local exchange service for a customer within 30 hours of receiving notice that a customer is out of service. This provision applies to service disruptions that occur when a customer switches existing basic local exchange service from one carrier to another.

3. Keep all repair and installation appointments for basic local exchange service, when a customer premises visit requires a customer to be present.

4. Inform a customer when a repair or installation appointment requires the customer to be present.

New matter indicated by italics - deletions by strikeout
(e) The rules shall include provisions for customers to be credited by the telecommunications carrier for violations of basic local exchange service quality standards as described in subsection (d). The credits shall be applied on the statement issued to the customer for the next monthly billing cycle following the violation or following the discovery of the violation. The performance levels established in subsection (c) are solely for the purposes of consumer credits and shall not be used as performance levels for the purposes of assessing penalties under Section 13-305. At a minimum, the rules shall include the following:

(1) If a carrier fails to repair an out-of-service condition for basic local exchange service within 30 hours, the carrier shall provide a credit to the customer. If the service disruption is for over 30 hours but less than 48 hours, the credit must be equal to a pro-rata portion of the monthly recurring charges for all local services disrupted. If the service disruption is for more than 48 hours, but not more than 72 hours, the credit must be equal to at least 33% of one month's recurring charges for all local services disrupted. If the service disruption is for more than 72 hours, but not more than 96 hours, the credit must be equal to at least 67% of one month's recurring charges for all local services disrupted. If the service disruption is for more than 96 hours, but not more than 120 hours, the credit must be equal to one month's recurring charges for all local services disrupted. For each day or portion thereof that the service disruption continues beyond the initial 120-hour period, the carrier shall also provide an additional credit of $20 per day.

(2) If a carrier fails to install basic local exchange service as required under subdivision (d)(1), the carrier shall waive 50% of any installation charges, or in the absence of an installation charge or where installation is pursuant to the Link Up program, the carrier shall provide a credit of $25. If a carrier fails to install service within 10 business days after the service application is placed, or fails to install service within 5 business days after the customer's requested installation date, if the requested date was more than 5 business days after the date of the order, the carrier shall waive 100% of the installation charge, or in the absence of an installation charge or where installation is provided pursuant to the Link Up program, the carrier shall provide a credit of $50. For each day that the failure to install service continues beyond the initial 10 business days, or beyond 5 business days after the customer's
requested installation date, if the requested date was more than 5
business days after the date of the order, the carrier shall also
provide an additional credit of $20 per day until service is installed.

(3) If a carrier fails to keep a scheduled repair or installation
appointment when a customer premises visit requires a customer to
be present, the carrier shall credit the customer $25 per missed
appointment. A credit required by this subsection does not apply
when the carrier provides the customer notice of its inability to
keep the appointment no later than 8 p.m. of the day prior to the
scheduled date of the appointment.

(4) If the violation of a basic local exchange service quality
standard is caused by a carrier other than the carrier providing
retail service to the customer, the carrier providing retail service to
the customer shall credit the customer as provided in this Section.
The carrier causing the violation shall reimburse the carrier
providing retail service the amount credited the customer. When
applicable, an interconnection agreement shall govern
compensation between the carrier causing the violation, in whole
or in part, and the retail carrier providing the credit to the customer.

(5) (Blank).

(6) Credits required by this subsection do not apply if the
violation of a service quality standard:

(i) occurs as a result of a negligent or willful act on

(2) Nothing in this Section shall prohibit a local unit of government from granting a permit to a person or entity for the use of the public rights-of-way to install or construct facilities to provide cable service or video service, at its sole discretion. No unit of local government shall be liable for denial or delay of a permit prior to the issuance of a State-issued authorization.

(b) The application to the Commission for State-issued authorization shall contain a completed affidavit submitted by the
applicant and signed by an officer or general partner of the applicant affirming all of the following:

(1) That the applicant has filed or will timely file with the Federal Communications Commission all forms required by that agency in advance of offering cable service or video service in this State.

(7) The expected date that cable service or video service will be initially offered in the area identified in item (4) of this subsection (b). In the event that a holder does not offer cable services or video services within 3 months after the expected date, it shall amend its application and update the expected date service will be offered and explain the delay in offering cable services or video services.

(8) For any entity that received State-issued authorization prior to this amendatory Act of the 98th General Assembly as a cable operator and that intends to proceed as a cable operator under this Article, the entity shall file a written affidavit with the Commission and shall serve a copy of the affidavit with any local units of government affected by the authorization within 30 days after the effective date of this amendatory Act of the 98th General Assembly stating that the holder will be providing cable service under the State-issued authorization.

The application shall include adequate assurance that the applicant possesses the financial, managerial, legal, and technical qualifications necessary to construct and operate the proposed system, to promptly repair any damage to the public right-of-way caused by the applicant, and to pay the cost of removal of its facilities. (c)(1) The applicant may designate information that it submits in its application or subsequent reports as confidential or proprietary, provided that the applicant states the reasons the confidential designation is necessary. The Commission shall provide adequate protection for such information pursuant to Section 4-404 of this Act. If the Commission, a local unit of government, or any other party seeks public disclosure of information designated as confidential, the Commission shall consider the confidential designation in a proceeding under the Illinois Administrative Procedure Act, and the burden of proof to demonstrate that the designated information is confidential shall be upon the applicant. Designated information shall remain confidential pending the Commission's determination of whether the information is entitled to confidential treatment. Information designated as confidential shall be provided to local units of government for purposes of assessing compliance with this Article as permitted under a Protective Order issued by the Commission pursuant to the Commission's rules and to the Attorney General pursuant to Section 6.5 of the Attorney General Act (15 ILCS 205/6.5). Information designated as confidential under this Section or determined to be confidential upon Commission review shall only be disclosed pursuant to a valid and enforceable subpoena or court order or as required by the Freedom of Information Act. Nothing herein shall delay the application approval timeframes set forth in this Article.

(2) Information regarding the location of video services that have been or are being offered to the public and aggregate information included in the reports required by this Article shall not be designated or treated as confidential.

(d)(1) The Commission shall post all applications it receives under this Article on its website within 5 business days.

(2) The Commission shall notify an applicant for a cable service or video service authorization whether the applicant's application and affidavit are complete on or before the 15th business day after the applicant submits the application. If the application and affidavit are not complete, the Commission shall state in its notice all of the reasons the application or affidavit are incomplete, and the applicant shall resubmit a complete application. The Commission shall have 30 days after submission
by the applicant of a complete application and affidavit to issue the service authorization. If the Commission does not notify the applicant regarding the completeness of the application and affidavit or issue the service authorization within the time periods required under this subsection, the application and affidavit shall be considered complete and the service authorization issued upon the expiration of the 30th day.

(e) Any The authorization issued by the Commission will expire on December 31, 2015 the date listed in Section 21-1601 of this Act and shall contain or include all of the following:

(1) A grant of authority, including an authorization issued prior to this amendatory Act of the 98th General Assembly, to provide cable service or video service in the service area footprint as requested in the application, subject to the provisions of this Article in existence on the date the grant of authority was issued, and any modifications to this Article enacted at any time prior to the date in Section 21-1601 of this Act, and to the laws of the State and the ordinances, rules, and regulations of the local units of government.

(2) A grant of authority to use, occupy, and construct facilities in the public rights-of-way for the delivery of cable service or video service in the service area footprint, subject to the laws, ordinances, rules, or regulations of this State and local units of governments.

(3) A statement that the grant of authority is subject to lawful operation of the cable service or video service by the applicant, its affiliated entities, or its successors-in-interest.

(4) The Commission shall notify a local unit of government within 3 business days of the grant of any authorization within a service area footprint if that authorization includes any part of the local unit of government's jurisdictional boundaries and state whether the holder will be providing video service or cable service under the authorization.

(f) The authorization issued pursuant to this Section by the Commission may be transferred to any successor-in-interest to the applicant to which it is initially granted without further Commission action if the successor-in-interest (i) submits an application and the information required by subsection (b) of this Section for the successor-in-interest and (ii) is not in violation of this Article or of any federal, State, or local law,

ordinance, rule, or regulation. A successor-in-interest shall file its application and notice of transfer with the Commission and the relevant local units of government no less than 15 business days prior to the completion of the transfer. The Commission is not required or authorized to act upon the notice of transfer; however, the transfer is not effective until the Commission approves the successor-in-interest's application. A local unit of government or the Attorney General may seek to bar a transfer of ownership by filing suit in a court of competent jurisdiction predicated on the existence of a material and continuing breach of this Article by the holder, a pattern of noncompliance with customer service standards by the potential successor-in-interest, or the insolvency of the potential successor-in-interest. If a transfer is made when there are violations of this Article or of any federal, State, or local law, ordinance, rule, or regulation, the successor-in-interest shall be subject to 3 times the penalties provided for in this Article.

(g) The authorization issued pursuant to Section 21-401 of this Article by the Commission may be terminated, or its cable service or video service area footprint may be modified, by the cable service provider or video service provider by submitting notice to the Commission and to the relevant local unit of government containing a description of the change on the same terms as the initial description pursuant to item (4) of subsection (b) of this Section. The Commission is not required or authorized to act upon that notice. It shall be a violation of this Article for a holder to discriminate against potential residential subscribers because of the race or income of the residents in the local area in which the group resides by terminating or modifying its cable service or video service area footprint. It shall be a violation of this Article for a holder to terminate or modify its cable service or video service area footprint if it leaves an area with no cable service or video service from any provider.

(h) The Commission's authority to administer this Article is limited to the powers and duties explicitly provided under this Article. Its authority under this Article does not include or limit the powers and duties that the Commission has under the other Articles of this Act, the Illinois Administrative Procedure Act, or any other law or regulation to conduct proceedings, other than as provided in subsection (c), or has to promulgate rules or regulations. The Commission shall not have the authority to limit or expand the obligations and requirements provided in this Section or to regulate or control a person or entity to the extent that person or entity is providing cable service or video service, except as provided in this Article.

The local unit of government shall adopt an ordinance imposing such a fee. The holder's liability for the fee shall commence on the first day of the calendar month that is at least 30 days after the holder receives such ordinance. (c) For purposes of this Article, "gross revenues" means all consideration of any kind or nature, including, without limitation, cash, credits, property, and in-kind contributions received by the holder for the operation of a cable or video system to provide cable service or video service within the holder's cable service or video service area within the local unit of government's jurisdiction.

(viii) Compensation received by the holder that is derived from the operation of the holder's network to provide cable service or video service with respect to commissions that are received by the holder as compensation for promotion or exhibition of any products or services on the holder's network, such as a "home shopping" or similar channel, subject to item (ix) of this paragraph (1).

(ix) In the case of a cable service or video service that is bundled or integrated functionally with other services, capabilities, or applications, the portion of the holder's revenue attributable to the other services, capabilities, or applications shall be included in gross revenue unless the holder can reasonably identify the

(v) Any tax or fee of general applicability imposed upon the subscribers or the transaction by a city, State, federal, or any other governmental entity and collected by the holder of the State-issued authorization and required to be remitted to the taxing entity, including sales and use taxes.
(vi) Security deposits collected from subscribers.
