   The General Assembly shall provide by law for a uniform effective date for laws passed prior to June 1 of a calendar year. The General Assembly may provide for a different effective date in any law passed prior to June 1. A bill passed after May 31 shall not become effective prior to June 1 of the next calendar year unless the General Assembly by the vote of three-fifths of the members elected to each house provides for an earlier effective date."

75/1. Effective Date of Laws
"§1 (a) A bill passed prior to June 1 of a calendar year that does not provide for an effective date in the terms of the bill shall become effective on January 1 of the following year, or upon its becoming a law, whichever is later.
   (b) A bill passed prior to June 1 of a calendar year that does provide for an effective date in the terms of the bill shall become effective on that date if that date is the same as or subsequent to the date the bill becomes a law; provided that if the effective date provided in the terms of the bill is prior to the date the bill becomes a law then the date the bill becomes a law shall be the effective date."

75/2. Special Effective Dates

AN ACT concerning revenue.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The State Budget Law of the Civil Administrative Code of Illinois is amended by changing Section 50-5 as follows:

(15 ILCS 20/50-5)

Sec. 50-5. Governor to submit State budget.

(a) The Governor shall, as soon as possible and not later than the second Wednesday in March in 2010 (March 10, 2010), the third Wednesday in February in 2011, the fourth Wednesday in February in 2012 (February 22, 2012), the first Wednesday in March in 2013 (March 6, 2013), the fourth Wednesday in March in 2014 (March 26, 2014), and the third Wednesday in February of each year thereafter, except as otherwise provided in this Section, submit a State budget, embracing therein the amounts recommended by the Governor to be appropriated to the respective departments, offices, and institutions, and for all other public purposes, the estimated revenues from taxation, and the estimated revenues from sources other than taxation. Except with respect to the capital development provisions of the State budget, beginning with the revenue estimates prepared for fiscal year 2012, revenue estimates shall be based solely on: (i) revenue sources (including non-income resources), rates, and levels that exist as of the date of the submission of the State budget for the fiscal year and (ii) revenue sources (including non-income resources), rates, and levels that have been passed by the General Assembly as of the date of the submission of the State budget for the fiscal year and that are authorized to take effect in that fiscal year. Except with respect to the capital development provisions of the State budget, the Governor shall determine available revenue, deduct the cost of essential government services, including, but not limited to, pension payments and debt service, and assign a percentage of the remaining revenue to each statewide prioritized goal, as established in Section 50-25 of this Law, taking into consideration the proposed goals set forth in the report of the Commission established under that Section. The Governor shall also demonstrate how spending priorities for the fiscal year fulfill those statewide goals. The amounts recommended by the Governor for appropriation to the respective departments, offices and institutions shall be formulated according to each department's, office's, and institution's ability to effectively deliver

services that meet the established statewide goals. The amounts relating to particular functions and activities shall be further formulated in accordance with the object classification specified in Section 13 of the State Finance Act. In addition, the amounts recommended by the Governor for appropriation shall take into account each State agency's effectiveness in achieving its prioritized goals for the previous fiscal year, as set forth in Section 50-25 of this Law, giving priority to agencies and programs that have demonstrated a focus on the prevention of waste and the maximum yield from resources.

Beginning in fiscal year 2011, the Governor shall distribute written quarterly financial reports on operating funds, which may include general, State, or federal funds and may include funds related to agencies that have significant impacts on State operations, and budget statements on all appropriated funds to the General Assembly and the State Comptroller. The reports shall be submitted no later than 45 days after the last day of each quarter of the fiscal year and shall be posted on the Governor's Office of Management and Budget's website on the same day. The reports shall be prepared and presented for each State agency and on a statewide level in an executive summary format that may include, for the fiscal year to date, individual itemizations for each significant revenue type as well as itemizations of expenditures and obligations, by agency, with an appropriate level of detail. The reports shall include a calculation of the actual total budget surplus or deficit for the fiscal year to date. The Governor shall also present periodic budget addresses throughout the fiscal year at the invitation of the General Assembly.

The Governor shall not propose expenditures and the General Assembly shall not enact appropriations that exceed the resources estimated to be available, as provided in this Section. Appropriations may be adjusted during the fiscal year by means of one or more supplemental appropriation bills if any State agency either fails to meet or exceeds the goals set forth in Section 50-25 of this Law.

For the purposes of Article VIII, Section 2 of the 1970 Illinois Constitution, the State budget for the following funds shall be prepared on the basis of revenue and expenditure measurement concepts that are in concert with generally accepted accounting principles for governments:

(1) General Revenue Fund.
(2) Common School Fund.
(3) Educational Assistance Fund.
(4) Road Fund.

New matter indicated by italics - deletions by strikeout
(6) Agricultural Premium Fund.

These funds shall be known as the "budgeted funds". The revenue estimates used in the State budget for the budgeted funds shall include the estimated beginning fund balance, plus revenues estimated to be received during the budgeted year, plus the estimated receipts due the State as of June 30 of the budgeted year that are expected to be collected during the lapse period following the budgeted year, minus the receipts collected during the first 2 months of the budgeted year that became due to the State in the year before the budgeted year. Revenues shall also include estimated federal reimbursements associated with the recognition of Section 25 of the State Finance Act liabilities. For any budgeted fund for which current year revenues are anticipated to exceed expenditures, the surplus shall be considered to be a resource available for expenditure in the budgeted fiscal year.

Expenditure estimates for the budgeted funds included in the State budget shall include the costs to be incurred by the State for the budgeted year, to be paid in the next fiscal year, excluding costs paid in the budgeted year which were carried over from the prior year, where the payment is authorized by Section 25 of the State Finance Act. For any budgeted fund for which expenditures are expected to exceed revenues in the current fiscal year, the deficit shall be considered as a use of funds in the budgeted fiscal year.

Revenues and expenditures shall also include transfers between funds that are based on revenues received or costs incurred during the budget year.

Appropriations for expenditures shall also include all anticipated statutory continuing appropriation obligations that are expected to be incurred during the budgeted fiscal year.

By March 15 of each year, the Commission on Government Forecasting and Accountability shall prepare revenue and fund transfer estimates in accordance with the requirements of this Section and report those estimates to the General Assembly and the Governor.

For all funds other than the budgeted funds, the proposed expenditures shall not exceed funds estimated to be available for the fiscal year as shown in the budget. Appropriation for a fiscal year shall not exceed funds estimated by the General Assembly to be available during that year.

(b) By February 24, 2010, the Governor must file a written report with the Secretary of the Senate and the Clerk of the House of Representatives containing the following:

(1) for fiscal year 2010, the revenues for all budgeted funds, both actual to date and estimated for the full fiscal year;
(2) for fiscal year 2010, the expenditures for all budgeted funds, both actual to date and estimated for the full fiscal year;
(3) for fiscal year 2011, the estimated revenues for all budgeted funds, including without limitation the affordable General Revenue Fund appropriations, for the full fiscal year; and
(4) for fiscal year 2011, an estimate of the anticipated liabilities for all budgeted funds, including without limitation the affordable General Revenue Fund appropriations, debt service on bonds issued, and the State's contributions to the pension systems, for the full fiscal year.

Between July 1 and August 31 of each fiscal year, the members of the General Assembly and members of the public may make written budget recommendations to the Governor.

Beginning with budgets prepared for fiscal year 2013, the budgets submitted by the Governor and appropriations made by the General Assembly for all executive branch State agencies must adhere to a method of budgeting where each priority must be justified each year according to merit rather than according to the amount appropriated for the preceding year.

A voluntary consensus standards body has the following attributes: openness; balance of interest; due process; an appeals process; and consensus.

Section 10. Open operating standard.

(a) There is hereby established an open operating standard, to be known as "Illinois Open Data", for the State of Illinois. Under this open operating standard, each agency of State government under the jurisdiction of the Governor shall make available public data sets of public information. Any unit of local government may adopt the State standard for itself.

(b) To implement this Act, the Office of the Governor may, by rule, establish policies, standards, and guidance as required herein. The Illinois Administrative Procedure Act is hereby expressly adopted and shall apply to all rules made pursuant to this Act.

Section 15. Function; protocol and compliance.
(a) Public data sets that are made available on the Internet by agencies shall be accessible through a single web portal that is linked to data.illinois.gov or any successor website maintained by, or on behalf of, the State of Illinois. If an agency cannot make all such public data sets available on the single web portal, the agency shall report to the Office of the Governor the public data set or sets it is unable to make available, the reasons why it cannot do so, and the date by which the agency expects those data sets to be available on the single web portal.

(b) Public data sets shall be made available in accordance with technical standards published by the Office of the Governor. The technical standards shall be determined by the Office of the Governor, in consultation with the subject matter experts from all State agencies and representatives of units of local government, not-for-profit organizations specializing in technology and innovation, the academic community, and other interested groups as designated by the Office of the Governor.

(1) Public data sets shall be provided in a format that permits public notification of all updates whenever possible. The Office of the Governor shall, by rule, in consultation with subject matter experts from interested State agencies, establish appropriate policies, procedures, and protocols for the coordinated management of the State's information technology resources.

(2) Public data sets shall be updated as often as is necessary to preserve the integrity and usefulness of the data sets, to the extent that the agency regularly maintains or updates the public data set.

(3) Public data sets shall be made available without any registration requirement, license requirement, or restrictions on their use provided that the agency may require a third party providing to the public any public data set, or application utilizing such data set, to explicitly identify the source and version of the public data set and a description of any modifications made to such public data set. Registration requirements, license requirements, or restrictions as used in this Section shall not include measures designed or required to ensure access to public data sets, to protect the single website housing public data sets from unlawful abuse or attempts to damage or impair use of the website, or to analyze the types of data being used to improve service delivery.

(4) Public data sets shall be accessible to external search capabilities.

New matter indicated by italics - deletions by strikeout
(c) Within 60 days of the effective date of this Act, the Office of the Governor shall prepare and publish: (1) a technical standards manual for the publishing of public data sets in raw or unprocessed form through a single web portal by State agencies for the purpose of making public data available to the greatest number of users and for the greatest number of applications and shall, whenever practicable, use open standards for web publishing and e-government.

The manual shall identify the reasons why each technical standard was selected and for which types of data it is applicable, and may recommend or require that data be published in more than one technical standard. The manual shall include a plan to adopt or utilize a web application programming interface that permits application programs to request and receive public data sets directly from the web portal. The manual and related policies may be updated as necessary.

(d) The Office of the Governor shall consult with units of local government, not-for-profit organizations with a specialization in technology and innovation, agencies of other states, academic institutions, and voluntary consensus standards bodies, and, when such participation is feasible, in the public interest, and compatible with agency and departmental missions, authorities, and priorities, participate with such bodies in the development of technical and open standards.

(e) Within 120 days of the effective date of this Act, each State agency shall submit a compliance plan, together with a draft long-term strategic enterprise application plan consistent with this Act, to the Office of the Governor and shall make such plan available to the public on the data.illinois.gov web portal. Each State agency shall collaborate with the Governor's Office in formulating its plan. The plan shall include:

(1) a summary description of public data sets under the control of each State agency on or after the effective date of this Act; and

(2) a summary explanation of how its plans, charters, budgets, capital expenditures, contracts, and other related documents and information for each information technology and telecommunications project it proposes to undertake can be utilized to support Illinois Open Data and related savings and efficiencies. The plan shall prioritize public data sets for inclusion on the single web portal on or before December 31, 2014, in accordance with the standards provided for in subsections (b) and (c) of this Section.

(f) For purposes of prioritizing public data sets, State agencies shall consider whether information embodied in the public data set: (1) can be used
to increase agency accountability and responsiveness; (2) improves public knowledge of the agency and its operations; (3) furthers the mission of the agency; (4) creates economic opportunity; (5) is received via the on-line forum for inclusion of particular public data sets; or (6) responds to a need or demand identified by public consultation.

(g) Consistent with both the Executive Order 10 (2010) directive requiring State agencies to limit information technology expenditures by increasing the use of cloud computing where appropriate, and with the initiatives and standards announced in the United States Department of Homeland Security publication "Federal Cloud Computing Strategy" dated February 8, 2011, all State agencies are required to evaluate safe, secure cloud computing options, before making any new information technology or telecommunications investments, and, if feasible, adopt appropriate cloud computing solutions. Each State agency shall re-evaluate its technology sourcing strategy to include consideration and use of cloud computing solutions as part of the budget process.

Section 20. Grant information reporting.

(a) Each grantor agency that is authorized to award grant funds to an entity other than the State of Illinois shall coordinate with the Office of the Governor to periodically provide for publication, at data.illinois.gov or any other publicly accessible website designated by the Governor's Office, of data sets containing information regarding awards of grant funds that the grantor agency has made during the previous fiscal year. The data sets shall include, at a minimum, the following:

(1) the name of the grantor agency;
(2) the name of the grantee;
(3) a short description of the purpose of the award of grant funds;
(4) the amount of each award of grant funds;
(5) the date of each award of grant funds; and
(6) the duration of each award of grant funds.

In addition, each grantor agency shall make best efforts, with available resources and technology, to make available in the data sets any other data that is relevant to its award of grant funds.

(b) Data not subject to the requirements of this Section include, but are not limited to, data to which a State agency may deny access pursuant to any provision of a federal, State, or local law, rule, or regulation, as well as data that contain a significant amount of data to which a State agency may

New matter indicated by italics - deletions by strikeout
deny access pursuant to any provision of a federal, State, or local law, rule, or regulation.

Section 25. Open data legal policies.
(a) The Office of the Governor shall conspicuously publish the open data legal policies contained in subsection (c) of this Section on the web portal.
(b) The Office of the Governor may establish and maintain an on-line forum to solicit feedback from the public and to encourage public discussion on open data policies and public data set availability on the web portal.
(c) Open data legal policy. The use of the public data provided under this Act is subject to the following:
   (1) Public data sets made available on the web portal are provided for informational purposes only. The State does not warrant the completeness, accuracy, content, or fitness for any particular purpose or use of any public data set made available on the web portal, nor are any such warranties to be implied or inferred with respect to the public data sets furnished under this Act.
   (2) The State is not liable for any deficiencies in the completeness, accuracy, content, or fitness for any particular purpose or use of any public data set or any third party application utilizing such data set.
   (3) Nothing in this Act shall be construed to create a private right of action to enforce its provisions.
   (4) All public data sets shall be entirely in the public domain for purposes of federal copyright law.

Section 30. General provisions.
(a) To the extent that any Executive Order, Administrative Order, Intergovernmental or Interagency Agreement (to which the State of Illinois or one of its executive branch agencies is a party), or other policy, procedure, or protocol conflicts with, contradicts, or is inconsistent with any provision of this Act, that conflicting, contradicting, or inconsistent Order, Agreement, policy, procedure, or protocol is hereby expressly revoked, repealed, and superseded.
(b) Nothing in this Act shall be construed to contravene any State or federal law or any collective bargaining agreement.

Section 99. Effective date. This Act takes effect upon becoming law, except that Section 20 takes effect on January 1, 2014.
Passed in the General Assembly March 6, 2014.
Approved March 7, 2014.
Effective March 7, 2014.

PUBLIC ACT 98-0628
(House Bill No. 2317)

AN ACT concerning revenue.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 3. The Use Tax Act is amended by changing Section 2 as follows:

(35 ILCS 105/2) (from Ch. 120, par. 439.2)

Sec. 2. "Use" means the exercise by any person of any right or power over tangible personal property incident to the ownership of that property, except that it does not include the sale of such property in any form as tangible personal property in the regular course of business to the extent that such property is not first subjected to a use for which it was purchased, and does not include the use of such property by its owner for demonstration purposes: Provided that the property purchased is deemed to be purchased for the purpose of resale, despite first being used, to the extent to which it is resold as an ingredient of an intentionally produced product or by-product of manufacturing. "Use" does not mean the demonstration use or interim use of tangible personal property by a retailer before he sells that tangible personal property. For watercraft or aircraft, if the period of demonstration use or interim use by the retailer exceeds 18 months, the retailer shall pay on the retailers' original cost price the tax imposed by this Act, and no credit for that tax is permitted if the watercraft or aircraft is subsequently sold by the retailer. "Use" does not mean the physical incorporation of tangible personal property, to the extent not first subjected to a use for which it was purchased, as an ingredient or constituent, into other tangible personal property (a) which is sold in the regular course of business or (b) which the person incorporating such ingredient or constituent therein has undertaken at the time of such purchase to cause to be transported in interstate commerce to destinations outside the State of Illinois: Provided that the property purchased is deemed to be purchased for the purpose of resale, despite first being used, to the

New matter indicated by italics - deletions by strikeout
extent to which it is resold as an ingredient of an intentionally produced product or by-product of manufacturing.

"Watercraft" means a Class 2, Class 3, or Class 4 watercraft as defined in Section 3-2 of the Boat Registration and Safety Act, a personal watercraft, or any boat equipped with an inboard motor.

"Purchase at retail" means the acquisition of the ownership of or title to tangible personal property through a sale at retail.

"Purchaser" means anyone who, through a sale at retail, acquires the ownership of tangible personal property for a valuable consideration.

"Sale at retail" means any transfer of the ownership of or title to tangible personal property to a purchaser, for the purpose of use, and not for the purpose of resale in any form as tangible personal property to the extent not first subjected to a use for which it was purchased, for a valuable consideration: Provided that the property purchased is deemed to be purchased for the purpose of resale, despite first being used, to the extent to which it is resold as an ingredient of an intentionally produced product or by-product of manufacturing. For this purpose, slag produced as an incident to manufacturing pig iron or steel and sold is considered to be an intentionally produced by-product of manufacturing. "Sale at retail" includes any such transfer made for resale unless made in compliance with Section 2c of the Retailers' Occupation Tax Act, as incorporated by reference into Section 12 of this Act. Transactions whereby the possession of the property is transferred but the seller retains the title as security for payment of the selling price are sales.

"Sale at retail" shall also be construed to include any Illinois florist's sales transaction in which the purchase order is received in Illinois by a florist and the sale is for use or consumption, but the Illinois florist has a florist in another state deliver the property to the purchaser or the purchaser's donee in such other state.

Nonreusable tangible personal property that is used by persons engaged in the business of operating a restaurant, cafeteria, or drive-in is a sale for resale when it is transferred to customers in the ordinary course of business as part of the sale of food or beverages and is used to deliver, package, or consume food or beverages, regardless of where consumption of the food or beverages occurs. Examples of those items include, but are not limited to nonreusable, paper and plastic cups, plates, baskets, boxes, sleeves, buckets or other containers, utensils, straws, placemats, napkins, doggie bags, and wrapping or packaging materials that are transferred to customers as part of the sale of food or beverages in the ordinary course of business.

New matter indicated by italics - deletions by strikeout
The purchase, employment and transfer of such tangible personal property as newsprint and ink for the primary purpose of conveying news (with or without other information) is not a purchase, use or sale of tangible personal property.

"Selling price" means the consideration for a sale valued in money whether received in money or otherwise, including cash, credits, property other than as hereinafter provided, and services, but not including the value of or credit given for traded-in tangible personal property where the item that is traded-in is of like kind and character as that which is being sold, and shall be determined without any deduction on account of the cost of the property sold, the cost of materials used, labor or service cost or any other expense whatsoever, but does not include interest or finance charges which appear as separate items on the bill of sale or sales contract nor charges that are added to prices by sellers on account of the seller's tax liability under the "Retailers' Occupation Tax Act", or on account of the seller's duty to collect, from the purchaser, the tax that is imposed by this Act, or, except as otherwise provided with respect to any cigarette tax imposed by a home rule unit, on account of the seller's tax liability under any local occupation tax administered by the Department, or, except as otherwise provided with respect to any cigarette tax imposed by a home rule unit on account of the seller's duty to collect, from the purchasers, the tax that is imposed under any local use tax administered by the Department. Effective December 1, 1985, "selling price" shall include charges that are added to prices by sellers on account of the seller's tax liability under the Cigarette Tax Act, on account of the seller's duty to collect, from the purchaser, the tax imposed under the Cigarette Use Tax Act, and on account of the seller's duty to collect, from the purchaser, any cigarette tax imposed by a home rule unit.

Notwithstanding any law to the contrary, for any motor vehicle, as defined in Section 1-146 of the Vehicle Code, that is sold on or after July 1, 2014 for the purpose of leasing the vehicle for a defined period that is longer than one year and (1) is a motor vehicle of the second division that: (A) is a self-contained motor vehicle designed or permanently converted to provide living quarters for recreational, camping, or travel use, with direct walk through access to the living quarters from the driver's seat; (B) is of the van configuration designed for the transportation of not less than 7 nor more than 16 passengers; or (C) has a gross vehicle weight rating of 8,000 pounds or less or (2) is a motor vehicle of the first division, "selling price" or "amount of sale" means the consideration received by the lessor pursuant to the lease contract, including amounts due at lease signing and all monthly

or other regular payments charged over the term of the lease. Also included in the selling price is any amount received by the lessor from the lessee for the leased vehicle that is not calculated at the time the lease is executed, including, but not limited to, excess mileage charges and charges for excess wear and tear. For sales that occur in Illinois, with respect to any amount received by the lessor from the lessee for the leased vehicle that is not calculated at the time the lease is executed, the lessor who purchased the motor vehicle does not incur the tax imposed by the Use Tax Act on those amounts, and the retailer who makes the retail sale of the motor vehicle to the lessor is not required to collect the tax imposed by this Act or to pay the tax imposed by the Retailers' Occupation Tax Act on those amounts. However, the lessor who purchased the motor vehicle assumes the liability for reporting and paying the tax on those amounts directly to the Department in the same form (Illinois Retailers' Occupation Tax, and local retailers' occupation taxes, if applicable) in which the retailer would have reported and paid such tax if the retailer had accounted for the tax to the Department. For amounts received by the lessor from the lessee that are not calculated at the time the lease is executed, the lessor must file the return and pay the tax to the Department by the due date otherwise required by this Act for returns other than transaction returns. If the retailer is entitled under this Act to a discount for collecting and remitting the tax imposed under this Act to the Department with respect to the sale of the motor vehicle to the lessor, then the right to the discount provided in this Act shall be transferred to the lessor with respect to the tax paid by the lessor for any amount received by the lessor from the lessee for the leased vehicle that is not calculated at the time the lease is executed; provided that the discount is only allowed if the return is timely filed and for amounts timely paid. The "selling price" of a motor vehicle that is sold on or after July 1, 2014 for the purpose of leasing for a defined period of longer than one year shall not be reduced by the value of or credit given for traded-in tangible personal property owned by the lessor, nor shall it be reduced by the value of or credit given for traded-in tangible personal property owned by the lessee, regardless of whether the trade-in value thereof is assigned by the lessee to the lessor. In the case of a motor vehicle that is sold for the purpose of leasing for a defined period of longer than one year, the sale occurs at the time of the delivery of the vehicle, regardless of the due date of any lease payments. A lessor who incurs a Retailers' Occupation Tax liability on the sale of a motor vehicle coming off lease may not take a credit against that liability for the Use Tax the lessor paid upon the purchase of the motor vehicle (or for any tax the lessor paid

with respect to any amount received by the lessor from the lessee for the leased vehicle that was not calculated at the time the lease was executed) if the selling price of the motor vehicle at the time of purchase was calculated using the definition of "selling price" as defined in this paragraph. Notwithstanding any other provision of this Act to the contrary, lessors shall file all returns and make all payments required under this paragraph to the Department by electronic means in the manner and form as required by the Department. This paragraph does not apply to leases of motor vehicles for which, at the time the lease is entered into, the term of the lease is not a defined period, including leases with a defined initial period with the option to continue the lease on a month-to-month or other basis beyond the initial defined period.

The phrase "like kind and character" shall be liberally construed (including but not limited to any form of motor vehicle for any form of motor vehicle, or any kind of farm or agricultural implement for any other kind of farm or agricultural implement), while not including a kind of item which, if sold at retail by that retailer, would be exempt from retailers' occupation tax and use tax as an isolated or occasional sale.

"Department" means the Department of Revenue.

"Person" means any natural individual, firm, partnership, association, joint stock company, joint adventure, public or private corporation, limited liability company, or a receiver, executor, trustee, guardian or other representative appointed by order of any court.

"Retailer" means and includes every person engaged in the business of making sales at retail as defined in this Section.

A person who holds himself or herself out as being engaged (or who habitually engages) in selling tangible personal property at retail is a retailer hereunder with respect to such sales (and not primarily in a service occupation) notwithstanding the fact that such person designs and produces such tangible personal property on special order for the purchaser and in such a way as to render the property of value only to such purchaser, if such tangible personal property so produced on special order serves substantially the same function as stock or standard items of tangible personal property that are sold at retail.

A person whose activities are organized and conducted primarily as a not-for-profit service enterprise, and who engages in selling tangible personal property at retail (whether to the public or merely to members and their guests) is a retailer with respect to such transactions, excepting only a person organized and operated exclusively for charitable, religious or
educational purposes either (1), to the extent of sales by such person to its members, students, patients or inmates of tangible personal property to be used primarily for the purposes of such person, or (2), to the extent of sales by such person of tangible personal property which is not sold or offered for sale by persons organized for profit. The selling of school books and school supplies by schools at retail to students is not "primarily for the purposes of" the school which does such selling. This paragraph does not apply to nor subject to taxation occasional dinners, social or similar activities of a person organized and operated exclusively for charitable, religious or educational purposes, whether or not such activities are open to the public.

A person who is the recipient of a grant or contract under Title VII of the Older Americans Act of 1965 (P.L. 92-258) and serves meals to participants in the federal Nutrition Program for the Elderly in return for contributions established in amount by the individual participant pursuant to a schedule of suggested fees as provided for in the federal Act is not a retailer under this Act with respect to such transactions.

Persons who engage in the business of transferring tangible personal property upon the redemption of trading stamps are retailers hereunder when engaged in such business.

The isolated or occasional sale of tangible personal property at retail by a person who does not hold himself out as being engaged (or who does not habitually engage) in selling such tangible personal property at retail or a sale through a bulk vending machine does not make such person a retailer hereunder. However, any person who is engaged in a business which is not subject to the tax imposed by the "Retailers' Occupation Tax Act" because of involving the sale of or a contract to sell real estate or a construction contract to improve real estate, but who, in the course of conducting such business, transfers tangible personal property to users or consumers in the finished form in which it was purchased, and which does not become real estate, under any provision of a construction contract or real estate sale or real estate sales agreement entered into with some other person arising out of or because of such nontaxable business, is a retailer to the extent of the value of the tangible personal property so transferred. If, in such transaction, a separate charge is made for the tangible personal property so transferred, the value of such property, for the purposes of this Act, is the amount so separately charged, but not less than the cost of such property to the transferor; if no separate charge is made, the value of such property, for the purposes of this Act, is the cost to the transferor of such tangible personal property.

"Retailer maintaining a place of business in this State", or any like term, means and includes any of the following retailers:

1. A retailer having or maintaining within this State, directly or by a subsidiary, an office, distribution house, sales house, warehouse or other place of business, or any agent or other representative operating within this State under the authority of the retailer or its subsidiary, irrespective of whether such place of business or agent or other representative is located here permanently or temporarily, or whether such retailer or subsidiary is licensed to do business in this State. However, the ownership of property that is located at the premises of a printer with which the retailer has contracted for printing and that consists of the final printed product, property that becomes a part of the final printed product, or copy from which the printed product is produced shall not result in the retailer being deemed to have or maintain an office, distribution house, sales house, warehouse, or other place of business within this State.

1.1. Beginning July 1, 2011, a retailer having a contract with a person located in this State under which the person, for a commission or other consideration based upon the sale of tangible personal property by the retailer, directly or indirectly refers potential customers to the retailer by a link on the person's Internet website. The provisions of this paragraph 1.1 shall apply only if the cumulative gross receipts from sales of tangible personal property by the retailer to customers who are referred to the retailer by all persons in this State under such contracts exceed $10,000 during the preceding 4 quarterly periods ending on the last day of March, June, September, and December.

1.2. Beginning July 1, 2011, a retailer having a contract with a person located in this State under which:

A. the retailer sells the same or substantially similar line of products as the person located in this State and does so using an identical or substantially similar name, trade name, or trademark as the person located in this State; and

B. the retailer provides a commission or other consideration to the person located in this State based upon the sale of tangible personal property by the retailer.

The provisions of this paragraph 1.2 shall apply only if the cumulative gross receipts from sales of tangible personal property by the retailer to customers in this State under all such contracts exceed

5. A retailer that is owned or controlled by the same interests that own or control any retailer engaging in business in the same or similar line of business in this State.

6. A retailer having a franchisee or licensee operating under its trade name if the franchisee or licensee is required to collect the tax under this Section.

7. A retailer, pursuant to a contract with a cable television operator located in this State, soliciting orders for tangible personal property by means of advertising which is transmitted or distributed over a cable television system in this State.

8. A retailer engaging in activities in Illinois, which activities in the state in which the retail business engaging in such activities is located would constitute maintaining a place of business in that state.

"Bulk vending machine" means a vending machine, containing unsorted confections, nuts, toys, or other items designed primarily to be used or played with by children which, when a coin or coins of a denomination not larger than $0.50 are inserted, are dispensed in equal portions, at random and without selection by the customer.

Section 4. The Retailers’ Occupation Tax Act is amended by changing Section 1 as follows:

New matter indicated by italics - deletions by strikeout
Sec. 1. Definitions. "Sale at retail" means any transfer of the ownership of or title to tangible personal property to a purchaser, for the purpose of use or consumption, and not for the purpose of resale in any form as tangible personal property to the extent not first subjected to a use for which it was purchased, for a valuable consideration: Provided that the property purchased is deemed to be purchased for the purpose of resale, despite first being used, to the extent to which it is resold as an ingredient of an intentionally produced product or byproduct of manufacturing. For this purpose, slag produced as an incident to manufacturing pig iron or steel and sold is considered to be an intentionally produced byproduct of manufacturing. Transactions whereby the possession of the property is transferred but the seller retains the title as security for payment of the selling price shall be deemed to be sales.

"Sale at retail" shall be construed to include any transfer of the ownership of or title to tangible personal property to a purchaser, for use or consumption by any other person to whom such purchaser may transfer the tangible personal property without a valuable consideration, and to include any transfer, whether made for or without a valuable consideration, for resale in any form as tangible personal property unless made in compliance with Section 2c of this Act.

Sales of tangible personal property, which property, to the extent not first subjected to a use for which it was purchased, as an ingredient or constituent, goes into and forms a part of tangible personal property subsequently the subject of a "Sale at retail", are not sales at retail as defined in this Act: Provided that the property purchased is deemed to be purchased for the purpose of resale, despite first being used, to the extent to which it is resold as an ingredient of an intentionally produced product or byproduct of manufacturing.

"Sale at retail" shall be construed to include any Illinois florist's sales transaction in which the purchase order is received in Illinois by a florist and the sale is for use or consumption, but the Illinois florist has a florist in another state deliver the property to the purchaser or the purchaser's donee in such other state.

Nonreusable tangible personal property that is used by persons engaged in the business of operating a restaurant, cafeteria, or drive-in is a sale for resale when it is transferred to customers in the ordinary course of business as part of the sale of food or beverages and is used to deliver, package, or consume food or beverages, regardless of where consumption of

the food or beverages occurs. Examples of those items include, but are not limited to nonreusable, paper and plastic cups, plates, baskets, boxes, sleeves, buckets or other containers, utensils, straws, placemats, napkins, doggie bags, and wrapping or packaging materials that are transferred to customers as part of the sale of food or beverages in the ordinary course of business.

The purchase, employment and transfer of such tangible personal property as newsprint and ink for the primary purpose of conveying news (with or without other information) is not a purchase, use or sale of tangible personal property.

A person whose activities are organized and conducted primarily as a not-for-profit service enterprise, and who engages in selling tangible personal property at retail (whether to the public or merely to members and their guests) is engaged in the business of selling tangible personal property at retail with respect to such transactions, excepting only a person organized and operated exclusively for charitable, religious or educational purposes either (1), to the extent of sales by such person to its members, students, patients or inmates of tangible personal property to be used primarily for the purposes of such person, or (2), to the extent of sales by such person of tangible personal property which is not sold or offered for sale by persons organized for profit. The selling of school books and school supplies by schools at retail to students is not "primarily for the purposes of" the school which does such selling. The provisions of this paragraph shall not apply to nor subject to taxation occasional dinners, socials or similar activities of a person organized and operated exclusively for charitable, religious or educational purposes, whether or not such activities are open to the public.

A person who is the recipient of a grant or contract under Title VII of the Older Americans Act of 1965 (P.L. 92-258) and serves meals to participants in the federal Nutrition Program for the Elderly in return for contributions established in amount by the individual participant pursuant to a schedule of suggested fees as provided for in the federal Act is not engaged in the business of selling tangible personal property at retail with respect to such transactions.

"Purchaser" means anyone who, through a sale at retail, acquires the ownership of or title to tangible personal property for a valuable consideration.

"Reseller of motor fuel" means any person engaged in the business of selling or delivering or transferring title of motor fuel to another person other than for use or consumption. No person shall act as a reseller of motor fuel.
within this State without first being registered as a reseller pursuant to Section 2c or a retailer pursuant to Section 2a.

"Selling price" or the "amount of sale" means the consideration for a sale valued in money whether received in money or otherwise, including cash, credits, property, other than as hereinafter provided, and services, but not including the value of or credit given for traded-in tangible personal property where the item that is traded-in is of like kind and character as that which is being sold, and shall be determined without any deduction on account of the cost of the property sold, the cost of materials used, labor or service cost or any other expense whatsoever, but does not include charges that are added to prices by sellers on account of the seller's tax liability under this Act, or on account of the seller's duty to collect, from the purchaser, the tax that is imposed by the Use Tax Act, or, except as otherwise provided with respect to any cigarette tax imposed by a home rule unit, on account of the seller's tax liability under any local occupation tax administered by the Department, or, except as otherwise provided with respect to any cigarette tax imposed by a home rule unit on account of the seller's duty to collect, from the purchasers, the tax that is imposed under any local use tax administered by the Department. Effective December 1, 1985, "selling price" shall include charges that are added to prices by sellers on account of the seller's tax liability under the Cigarette Tax Act, on account of the seller's duty to collect, from the purchaser, the tax imposed under the Cigarette Use Tax Act, and on account of the seller's duty to collect, from the purchaser, any cigarette tax imposed by a home rule unit.

Notwithstanding any law to the contrary, for any motor vehicle, as defined in Section 1-146 of the Vehicle Code, that is sold on or after July 1, 2014 for the purpose of leasing the vehicle for a defined period that is longer than one year and (1) is a motor vehicle of the second division that: (A) is a self-contained motor vehicle designed or permanently converted to provide living quarters for recreational, camping, or travel use, with direct walk through access to the living quarters from the driver's seat; (B) is of the van configuration designed for the transportation of not less than 7 nor more than 16 passengers; or (C) has a gross vehicle weight rating of 8,000 pounds or less or (2) is a motor vehicle of the first division, "selling price" or "amount of sale" means the consideration received by the lessor pursuant to the lease contract, including amounts due at lease signing and all monthly or other regular payments charged over the term of the lease. Also included in the selling price is any amount received by the lessor from the lessee for the leased vehicle that is not calculated at the time the lease is executed,

including, but not limited to, excess mileage charges and charges for excess wear and tear. For sales that occur in Illinois, with respect to any amount received by the lessor from the lessee for the leased vehicle that is not calculated at the time the lease is executed, the lessor who purchased the motor vehicle does not incur the tax imposed by the Use Tax Act on those amounts, and the retailer who makes the retail sale of the motor vehicle to the lessor is not required to collect the tax imposed by the Use Tax Act or to pay the tax imposed by this Act on those amounts. However, the lessor who purchased the motor vehicle assumes the liability for reporting and paying the tax on those amounts directly to the Department in the same form (Illinois Retailers' Occupation Tax, and local retailers' occupation taxes, if applicable) in which the retailer would have accounted for the tax to the Department. For amounts received by the lessor from the lessee that are not calculated at the time the lease is executed, the lessor must file the return and pay the tax to the Department by the due date otherwise required by this Act for returns other than transaction returns. If the retailer is entitled under this Act to a discount for collecting and remitting the tax imposed under this Act to the Department with respect to the sale of the motor vehicle to the lessor, then the right to the discount provided in this Act shall be transferred to the lessor with respect to the tax paid by the lessor for any amount received by the lessor from the lessee for the leased vehicle that is not calculated at the time the lease is executed; provided that the discount is only allowed if the return is timely filed and for amounts timely paid. The "selling price" of a motor vehicle that is sold on or after July 1, 2014 for the purpose of leasing for a defined period of longer than one year shall not be reduced by the value of or credit given for traded-in tangible personal property owned by the lessor, nor shall it be reduced by the value of or credit given for traded-in tangible personal property owned by the lessee, regardless of whether the trade-in value thereof is assigned by the lessee to the lessor. In the case of a motor vehicle that is sold for the purpose of leasing for a defined period of longer than one year, the sale occurs at the time of the delivery of the vehicle, regardless of the due date of any lease payments. A lessor who incurs a Retailers' Occupation Tax liability on the sale of a motor vehicle coming off lease may not take a credit against that liability for the Use Tax the lessor paid upon the purchase of the motor vehicle (or for any tax the lessor paid with respect to any amount received by the lessor from the lessee for the leased vehicle that was not calculated at the time the lease was executed) if the selling price of the motor vehicle at the time of purchase was calculated using the definition of "selling price" as

defined in this paragraph. Notwithstanding any other provision of this Act to the contrary, lessors shall file all returns and make all payments required under this paragraph to the Department by electronic means in the manner and form as required by the Department. This paragraph does not apply to leases of motor vehicles for which, at the time the lease is entered into, the term of the lease is not a defined period, including leases with a defined initial period with the option to continue the lease on a month-to-month or other basis beyond the initial defined period.

The phrase "like kind and character" shall be liberally construed (including but not limited to any form of motor vehicle for any form of motor vehicle, or any kind of farm or agricultural implement for any other kind of farm or agricultural implement), while not including a kind of item which, if sold at retail by that retailer, would be exempt from retailers' occupation tax and use tax as an isolated or occasional sale.

"Gross receipts" from the sales of tangible personal property at retail means the total selling price or the amount of such sales, as hereinbefore defined. In the case of charge and time sales, the amount thereof shall be included only as and when payments are received by the seller. Receipts or other consideration derived by a seller from the sale, transfer or assignment of accounts receivable to a wholly owned subsidiary will not be deemed payments prior to the time the purchaser makes payment on such accounts.

"Department" means the Department of Revenue.

"Person" means any natural individual, firm, partnership, association, joint stock company, joint adventure, public or private corporation, limited liability company, or a receiver, executor, trustee, guardian or other representative appointed by order of any court.

The isolated or occasional sale of tangible personal property at retail by a person who does not hold himself out as being engaged (or who does not habitually engage) in selling such tangible personal property at retail, or a sale through a bulk vending machine, does not constitute engaging in a business of selling such tangible personal property at retail within the meaning of this Act; provided that any person who is engaged in a business which is not subject to the tax imposed by this Act because of involving the sale of or a contract to sell real estate or a construction contract to improve real estate or a construction contract to engineer, install, and maintain an integrated system of products, but who, in the course of conducting such business, transfers tangible personal property to users or consumers in the finished form in which it was purchased, and which does not become real estate or was not engineered and installed, under any provision of a construction contract or

real estate sale or real estate sales agreement entered into with some other person arising out of or because of such nontaxable business, is engaged in the business of selling tangible personal property at retail to the extent of the value of the tangible personal property so transferred. If, in such a transaction, a separate charge is made for the tangible personal property so transferred, the value of such property, for the purpose of this Act, shall be the amount so separately charged, but not less than the cost of such property to the transferor; if no separate charge is made, the value of such property, for the purposes of this Act, is the cost to the transferor of such tangible personal property. Construction contracts for the improvement of real estate consisting of engineering, installation, and maintenance of voice, data, video, security, and all telecommunication systems do not constitute engaging in a business of selling tangible personal property at retail within the meaning of this Act if they are sold at one specified contract price.

A person who holds himself or herself out as being engaged (or who habitually engages) in selling tangible personal property at retail is a person engaged in the business of selling tangible personal property at retail hereunder with respect to such sales (and not primarily in a service occupation) notwithstanding the fact that such person designs and produces such tangible personal property on special order for the purchaser and in such a way as to render the property of value only to such purchaser, if such tangible personal property so produced on special order serves substantially the same function as stock or standard items of tangible personal property that are sold at retail.

Persons who engage in the business of transferring tangible personal property upon the redemption of trading stamps are engaged in the business of selling such property at retail and shall be liable for and shall pay the tax imposed by this Act on the basis of the retail value of the property transferred upon redemption of such stamps.

"Bulk vending machine" means a vending machine, containing unsorted confections, nuts, toys, or other items designed primarily to be used or played with by children which, when a coin or coins of a denomination not larger than $0.50 are inserted, are dispensed in equal portions, at random and without selection by the customer.

(a) Every township collector, and every county collector in cases where there is no township collector, upon receiving the tax book or books, shall prepare tax bills showing each installment of property taxes assessed, which shall be filled out in accordance with Section 20-40. A copy of the bill shall be mailed by the collector, at least 30 days prior to the date upon which unpaid taxes become delinquent, to the owner of the property taxed or to the person in whose name the property is taxed.

(b) The collector may send the bill via e-mail as provided in subsection (b) of Section 20-20. However, no bill shall be sent to a property owner or taxpayer via e-mail unless that owner or taxpayer shall have first made such a request to the collector in writing.

Sec. 20-20. Changes in address for mailing tax bill.

(a) To insure that a person requesting a change of the address to which a property tax bill is sent has a legal interest in the property or authority to act on behalf of the owner of the property, the county collector in every county with less than 3,000,000 inhabitants shall establish and enforce a procedure for requiring identification or certification of the identity of taxpayers who request a change in the address to which their tax bill is mailed. No change of address shall be implemented unless the person requesting the change is the owner of the property, a trustee or a person holding the power of attorney from the owner or trustee of the property. However, if a property owner conveys a permanent change of address in writing to the United States Postal Service, then, on or after the effective date of that change of address, the county collector may mail a property tax bill to the property owner at his or her new address regardless of whether or not the owner notifies the collector of the address change.

(b) As an alternative to mailing a copy of the bill, the collector may send the tax bill via e-mail at the request of the taxpayer, subject to the provisions of subsection (b) of Section 20-5 of this Act. If the taxpayer makes such a request, then the taxpayer shall notify the collector of any change in his or her e-mail address as soon as possible after the address is changed.

The program shall also provide course material and instruction to advise pupils of the Abandoned Newborn Infant Protection Act. The program shall include information about cancer, including without limitation types of cancer, signs and symptoms, risk factors, the importance of early prevention and detection, and information on where to go for help. Notwithstanding the above educational areas, the following areas may also be included as a basis for curricula in all elementary and secondary schools in this State: basic first aid (including, but not limited to, cardiopulmonary resuscitation and the Heimlich maneuver), heart disease, diabetes, stroke, the prevention of child abuse, neglect, and suicide, and teen dating violence in grades 7 through 12. Beginning with the 2014-2015 school year, training on how to properly administer cardiopulmonary resuscitation (which training must be in accordance with standards of the American Red Cross, the American Heart Association, or another nationally recognized certifying organization) and how to use an automated external defibrillator shall be included as a basis for curricula in all secondary schools in this State.

The school board of each public elementary and secondary school in the State shall encourage all teachers and other school personnel to acquire, develop, and maintain the knowledge and skills necessary to properly administer life-saving techniques, including without limitation the Heimlich maneuver and rescue breathing. The training shall be in accordance with standards of the American Red Cross, the American Heart Association, or another nationally recognized certifying organization. A school board may use the services of non-governmental entities whose personnel have expertise in life-saving techniques to instruct teachers and other school personnel in these techniques. Each school board is encouraged to have in its employ, or on its volunteer staff, at least one person who is certified, by the American Red Cross or by another qualified certifying agency, as qualified to administer first aid and cardiopulmonary resuscitation. In addition, each school board is authorized to allocate appropriate portions of its institute or inservice days to conduct training programs for teachers and other school personnel who have expressed an interest in becoming qualified to administer emergency first aid or cardiopulmonary resuscitation. School boards are urged to encourage their teachers and other school personnel who coach school athletic programs and other extracurricular school activities to acquire, develop, and maintain the knowledge and skills necessary to properly administer first aid and cardiopulmonary resuscitation in accordance with

standards and requirements established by the American Red Cross or another qualified certifying agency. Subject to appropriation, the State Board of Education shall establish and administer a matching grant program to pay for half of the cost that a school district incurs in training those teachers and other school personnel who express an interest in becoming qualified to administer cardiopulmonary resuscitation (which training must be in accordance with standards of the American Red Cross, the American Heart Association, or another nationally recognized certifying organization) or in learning how to use an automated external defibrillator. A school district that applies for a grant must demonstrate that it has funds to pay half of the cost of the training for which matching grant money is sought. The State Board of Education shall award the grants on a first-come, first-serve basis.

No pupil shall be required to take or participate in any class or course on AIDS or family life instruction or to receive training on how to properly administer cardiopulmonary resuscitation or how to use an automated external defibrillator if his or her parent or guardian submits written objection thereto, and refusal to take or participate in the course or program or the training shall not be reason for suspension or expulsion of the pupil.

Curricula developed under programs established in accordance with this Act in the major educational area of alcohol and drug use and abuse shall include classroom instruction in grades 5 through 12. The instruction, which shall include matters relating to both the physical and legal effects and ramifications of drug and substance abuse, shall be integrated into existing curricula; and the State Board of Education shall develop and make available to all elementary and secondary schools in this State instructional materials and guidelines which will assist the schools in incorporating the instruction into their existing curricula. In addition, school districts may offer, as part of existing curricula during the school day or as part of an after school program, support services and instruction for pupils or pupils whose parent, parents, or guardians are chemically dependent.

AN ACT concerning employment.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Workers' Compensation Act is amended by changing Section 5 as follows:

(820 ILCS 305/5) (from Ch. 48, par. 138.5)

(Text of Section WITHOUT the changes made by P.A. 89-7, which has been held unconstitutional)

Sec. 5. (a) No common law or statutory right to recover damages from the employer, his insurer, his broker, any service organization that is wholly retained by the employer, his insurer or his broker and that provides to provide safety service, advice or recommendations for the employer or the agents or employees of any of them for injury or death sustained by any employee while engaged in the line of his duty as such employee, other than the compensation herein provided, is available to any employee who is covered by the provisions of this Act, to any one wholly or partially dependent upon him, the legal representatives of his estate, or any one otherwise entitled to recover damages for such injury.

However, in any action now pending or hereafter begun to enforce a common law or statutory right to recover damages for negligently causing the injury or death of any employee it is not necessary to allege in the complaint that either the employee or the employer or both were not governed by the provisions of this Act or of any similar Act in force in this or any other State.

Any illegally employed minor or his legal representatives shall, except as hereinafter provided, have the right within 6 months after the time of injury or death, or within 6 months after the appointment of a legal representative, whichever shall be later, to file with the Commission a rejection of his right to the benefits under this Act, in which case such illegally employed minor or his legal representatives shall have the right to pursue his or their common law or statutory remedies to recover damages for such injury or death.

No payment of compensation under this Act shall be made to an illegally employed minor, or his legal representatives, unless such payment and the waiver of his right to reject the benefits of this Act has first been approved by the Commission or any member thereof, and if such payment
and the waiver of his right of rejection has been so approved such payment is a bar to a subsequent rejection of the provisions of this Act.

(b) Where the injury or death for which compensation is payable under this Act was caused under circumstances creating a legal liability for damages on the part of some person other than his employer to pay damages, then legal proceedings may be taken against such other person to recover damages notwithstanding such employer's payment of or liability to pay compensation under this Act. In such case, however, if the action against such other person is brought by the injured employee or his personal representative and judgment is obtained and paid, or settlement is made with such other person, either with or without suit, then from the amount received by such employee or personal representative there shall be paid to the employer the amount of compensation paid or to be paid by him to such employee or personal representative including amounts paid or to be paid pursuant to paragraph (a) of Section 8 of this Act.

Out of any reimbursement received by the employer pursuant to this Section the employer shall pay his pro rata share of all costs and reasonably necessary expenses in connection with such third-party claim, action or suit and where the services of an attorney at law of the employee or dependents have resulted in or substantially contributed to the procurement by suit, settlement or otherwise of the proceeds out of which the employer is reimbursed, then, in the absence of other agreement, the employer shall pay such attorney 25% of the gross amount of such reimbursement.

If the injured employee or his personal representative agrees to receive compensation from the employer or accept from the employer any payment on account of such compensation, or to institute proceedings to recover the same, the employer may have or claim a lien upon any award, judgment or fund out of which such employee might be compensated from such third party.

In such actions brought by the employee or his personal representative, he shall forthwith notify his employer by personal service or registered mail, of such fact and of the name of the court in which the suit is brought, filing proof thereof in the action. The employer may, at any time thereafter join in the action upon his motion so that all orders of court after hearing and judgment shall be made for his protection. No release or settlement of claim for damages by reason of such injury or death, and no satisfaction of judgment in such proceedings shall be valid without the written consent of both employer and employee or his personal representative, except in the case of the employers, such consent is not

In the event the employee or his personal representative fails to institute a proceeding against such third person at any time prior to 3 months before such action would be barred, the employer may in his own name or in the name of the employee, or his personal representative, commence a proceeding against such other person for the recovery of damages on account of such injury or death to the employee, and out of any amount recovered the employer shall pay over to the injured employee or his personal representatives all sums collected from such other person by judgment or otherwise in excess of the amount of such compensation paid or to be paid under this Act, including amounts paid or to be paid pursuant to paragraph (a) of Section 8 of this Act, and costs, attorney's fees and reasonable expenses as may be incurred by such employer in making such collection or in enforcing such liability.

Section 10. The Emergency Telephone System Act is amended by changing Section 15.3 as follows:

Sec. 15.3. Surcharge.

(a) The corporate authorities of any municipality or any county may, subject to the limitations of subsections (c), (d), and (h), and in addition to any tax levied pursuant to the Simplified Municipal Telecommunications Tax Act, impose a monthly surcharge on billed subscribers of network connection provided by telecommunication carriers engaged in the business of transmitting messages by means of electricity originating within the corporate limits of the municipality or county imposing the surcharge at a rate per network connection determined in accordance with subsection (c), however the monthly surcharge shall not apply to a network connection provided for use with pay telephone services. Provided, however, that where multiple voice grade communications channels are connected between the subscriber's premises and a public switched network through private branch exchange (PBX) or centrex type service, a municipality imposing a surcharge at a rate per network connection, as determined in accordance with this Act, shall impose:

(i) in a municipality with a population of 500,000 or less or in any county, 5 such surcharges per network connection, as determined in accordance with subsections (a) and (d) of Section 2.12 of this Act, for both regular service and advanced service provisioned trunk lines;

(ii) in a municipality with a population, prior to March 1, 2010, of 500,000 or more, 5 surcharges per network connection, as determined in accordance with subsections (a) and (d) of Section 2.12 of this Act, for both regular service and advanced service provisioned trunk lines;

carrier may elect to impose fewer than 12 surcharges per trunk line as provided in subsection (iv) of this Section; or

(iv) for an advanced service provisioned trunk line connected between the subscriber's premises and the public switched network through a P.B.X., where the advanced service provisioned trunk line is capable of transporting at least 2 but fewer than 23 simultaneous VGC's per trunk line, the telecommunications carrier collecting the surcharge may elect to impose surcharges in accordance with the table provided in this Section, without limiting any telecommunications carrier's obligations to otherwise keep and maintain records. Any telecommunications carrier electing to impose fewer than 12 surcharges per an advanced service provisioned trunk line shall keep and maintain records adequately to demonstrate the VGC capability of each advanced service provisioned trunk line with fewer than 12 surcharges imposed, provided that 12 surcharges shall be imposed on an advanced service provisioned trunk line regardless of the VGC capability where a telecommunications carrier cannot demonstrate the VGC capability of the advanced service provisioned trunk line.

Subsections (i), (ii), (iii), and (iv) are not intended to make any change in the meaning of this Section, but are intended to remove possible ambiguity, thereby confirming the intent of paragraph (a) as it existed prior to and following the effective date of this amendatory Act of the 97th General Assembly.

For mobile telecommunications services, if a surcharge is imposed it shall be imposed based upon the municipality or county that encompasses the customer's place of primary use as defined in the Mobile Telecommunications Sourcing Conformity Act. A municipality may enter into an intergovernmental agreement with any county in which it is partially located, when the county has adopted an ordinance to impose a surcharge as provided in subsection (c), to include that portion of the municipality lying outside the county in that county's surcharge referendum. If the county's surcharge referendum is approved, the portion of the municipality identified in the intergovernmental agreement shall automatically be disconnected from the county in which it lies and connected to the county which approved the referendum for purposes of a surcharge on telecommunications carriers.

(b) For purposes of computing the surcharge imposed by subsection (a), the network connections to which the surcharge shall apply shall be those in-service network connections, other than those network connections assigned to the municipality or county, where the service address for each such network connection or connections is located within the corporate limits of the municipality or county levying the surcharge. Except for mobile telecommunication services, the "service address" shall mean the location of the primary use of the network connection or connections. For mobile telecommunication services, "service address" means the customer's place of primary use as defined in the Mobile Telecommunications Sourcing Conformity Act.

(c) Upon the passage of an ordinance to impose a surcharge under this Section the clerk of the municipality or county shall certify the question of whether the surcharge may be imposed to the proper election authority who shall submit the public question to the electors of the municipality or county in accordance with the general election law; provided that such question shall not be submitted at a consolidated primary election. The public question shall be in substantially the following form:

-------------------------------------------------------------
Shall the county (or city, village or incorporated town) of ..... impose YES
a surcharge of up to ...¢ per month per network connection, which surcharge will be added to the monthly bill you receive ...------------------
for telephone or telecommunications charges, for the purpose of installing (or improving) a 9-1-1 Emergency Telephone System? NO
-------------------------------------------------------------

If a majority of the votes cast upon the public question are in favor thereof, the surcharge shall be imposed.

However, if a Joint Emergency Telephone System Board is to be created pursuant to an intergovernmental agreement under Section 15.4, the ordinance to impose the surcharge shall be subject to the approval of a majority of the total number of votes cast upon the public question by the electors of all of the municipalities or counties, or combination thereof, that are parties to the intergovernmental agreement.

The referendum requirement of this subsection (c) shall not apply to any municipality with a population over 500,000 or to any county in which New matter indicated by italics - deletions by strikeout
a proposition as to whether a sophisticated 9-1-1 Emergency Telephone System should be installed in the county, at a cost not to exceed a specified monthly amount per network connection, has previously been approved by a majority of the electors of the county voting on the proposition at an election conducted before the effective date of this amendatory Act of 1987.

(d) A county may not impose a surcharge, unless requested by a municipality, in any incorporated area which has previously approved a surcharge as provided in subsection (c) or in any incorporated area where the corporate authorities of the municipality have previously entered into a binding contract or letter of intent with a telecommunications carrier to provide sophisticated 9-1-1 service through municipal funds.

(e) A municipality or county may at any time by ordinance change the rate of the surcharge imposed under this Section if the new rate does not exceed the rate specified in the referendum held pursuant to subsection (c).

(f) The surcharge authorized by this Section shall be collected from the subscriber by the telecommunications carrier providing the subscriber the network connection as a separately stated item on the subscriber's bill.

(g) The amount of surcharge collected by the telecommunications carrier shall be paid to the particular municipality or county or Joint Emergency Telephone System Board not later than 30 days after the surcharge is collected, net of any network or other 9-1-1 or sophisticated 9-1-1 system charges then due the particular telecommunications carrier, as shown on an itemized bill. The telecommunications carrier collecting the surcharge shall also be entitled to deduct 3% of the gross amount of surcharge collected to reimburse the telecommunications carrier for the expense of accounting and collecting the surcharge.

(h) Except as expressly provided in subsection (a) of this Section, on or after the effective date of this amendatory Act of the 98th General Assembly and until July 1, 2015, a municipality with a population of 500,000 or more shall not impose a monthly surcharge per network connection in excess of the highest monthly surcharge imposed as of January 1, 2014 by any county or municipality under subsection (c) of this Section. On or after July 1, 2015, a municipality with a population over 500,000 may not impose a monthly surcharge in excess of $2.50 per network connection.

(i) Any municipality or county or joint emergency telephone system board that has imposed a surcharge pursuant to this Section prior to the effective date of this amendatory Act of 1990 shall hereafter impose the surcharge in accordance with subsection (b) of this Section.
(j) The corporate authorities of any municipality or county may issue, in accordance with Illinois law, bonds, notes or other obligations secured in whole or in part by the proceeds of the surcharge described in this Section. Notwithstanding any change in law subsequent to the issuance of any bonds, notes or other obligations secured by the surcharge, every municipality or county issuing such bonds, notes or other obligations shall be authorized to impose the surcharge as though the laws relating to the imposition of the surcharge in effect at the time of issuance of the bonds, notes or other obligations were in full force and effect until the bonds, notes or other obligations are paid in full. The State of Illinois pledges and agrees that it will not limit or alter the rights and powers vested in municipalities and counties by this Section to impose the surcharge so as to impair the terms of or affect the security for bonds, notes or other obligations secured in whole or in part with the proceeds of the surcharge described in this Section.

(k) Any surcharge collected by or imposed on a telecommunications carrier pursuant to this Section shall be held to be a special fund in trust for the municipality, county or Joint Emergency Telephone Board imposing the surcharge. Except for the 3% deduction provided in subsection (g) above, the special fund shall not be subject to the claims of creditors of the telecommunications carrier.

The surcharge shall be stated as a separate item on the subscriber's monthly bill. The wireless carrier shall begin collecting the surcharge on bills issued within 90 days after the Wireless Enhanced 9-1-1 Board sets the monthly wireless surcharge. State and local taxes shall not apply to the wireless carrier surcharge.

(b) Except as provided in Sections 45 and 80, a wireless carrier shall, within 45 days of collection, remit, either by check or by electronic funds transfer, to the State Treasurer the amount of the wireless carrier surcharge collected from each subscriber. Of the amounts remitted under this subsection prior to January 1, 2008 (the effective date of Public Act 95-698), and for surcharges imposed before January 1, 2008 (the effective date of Public Act 95-698) but remitted after January 1, 2008, the State Treasurer shall deposit one-third into the Wireless Carrier Reimbursement Fund and two-thirds into the Wireless Service Emergency Fund. under this subsection (c) shall be subject to the penalty set forth in subsection
(f) of this Section.

(d) Any funds collected under the Prepaid Wireless 9-1-1 Surcharge
Act shall be distributed using a prorated method based upon zip code
information collected from post-paid wireless carriers under subsection (c)
of this Section.

(e) If before midnight on the last day of the third calendar month after
the closing date of the remit period a wireless carrier does not remit the
surcharge or any portion thereof required under this Section, then the
surcharge or portion thereof shall be deemed delinquent until paid in full, and
the Illinois Commerce Commission may impose a penalty against the carrier
in an amount equal to the greater of:

delinquent amounts for each month or portion of a month that the
delinquent amounts remain unpaid.

A penalty imposed in accordance with this subsection (e) for a portion
of a month during which the carrier provides the number of subscribers by zip
code as required under subsection (c) of this Section shall be prorated for
each day of that month during which the carrier had not provided the number
of subscribers by zip code as required under subsection (c) of this Section.
Any penalty imposed under this subsection (e) is in addition to the amount

A penalty imposed and collected in accordance with subsection (e) or this subsection (f) shall be deposited into the Wireless Service Emergency Fund for distribution according to Section 25 of this Act. Any penalty imposed under this subsection (f) is in addition to any other penalty imposed under this Section.

(g) The Illinois Commerce Commission may enforce the collection of any delinquent amount and any penalty due and unpaid under this Section by legal action or in any other manner by which the collection of debts due the State of Illinois may be enforced under the laws of this State. The Executive Director of the Illinois Commerce Commission, or his or her designee, may excuse the payment of any penalty imposed under this Section if the Executive Director, or his or her designee, determines that the enforcement of this penalty is unjust.

(h) Notwithstanding any provision of law to the contrary, nothing shall impair the right of wireless carriers to recover compliance costs for all emergency communications services that are not reimbursed out of the Wireless Carrier Reimbursement Fund directly from their wireless subscribers via line-item charges on the wireless subscriber's bill. Those compliance costs include all costs incurred by wireless carriers in complying with local, State, and federal regulatory or legislative mandates that require the transmission and receipt of emergency communications to and from the general public, including, but not limited to, E-911.

Section 20. The Prepaid Wireless 9-1-1 Surcharge Act is amended by changing Section 15 as follows:

(50 ILCS 753/15)

New matter indicated by italics - deletions by strikeout
Sec. 15. Prepaid wireless 9-1-1 surcharge.

(a) There is hereby imposed on consumers a prepaid wireless 9-1-1 surcharge of 1.5% per retail transaction. The surcharge authorized by this subsection (a) does not apply in a home rule municipality having a population in excess of 500,000. The amount of the surcharge may be reduced or increased pursuant to subsection (e).

(a-5) On or after the effective date of this amendatory Act of the 98th General Assembly and until July 1, 2015, a home rule municipality having a population in excess of 500,000 on the effective date of this amendatory Act may impose a prepaid wireless 9-1-1 surcharge not to exceed 9% per retail transaction sourced to that jurisdiction and collected and remitted in accordance with the provisions of subsection (b-5) of this Section. On or after July 1, 2015, a home rule municipality having a population in excess of 500,000 on the effective date of this Act may only impose a prepaid wireless 9-1-1 surcharge not to exceed 7% per retail transaction sourced to that jurisdiction and collected and remitted in accordance with the provisions of subsection (b-5).

(b) The prepaid wireless 9-1-1 surcharge shall be collected by the seller from the consumer with respect to each retail transaction occurring in this State and shall be remitted to the Department by the seller as provided in this Act. The amount of the prepaid wireless 9-1-1 surcharge shall be separately stated as a distinct item apart from the charge for the prepaid wireless telecommunications service on an invoice, receipt, or other similar document that is provided to the consumer by the seller or shall be otherwise disclosed to the consumer. If the seller does not separately state the surcharge as a distinct item to the consumer as provided in this Section, then the seller shall maintain books and records as required by this Act which clearly identify the amount of the 9-1-1 surcharge for retail transactions.

For purposes of this subsection (b), a retail transaction occurs in this State if (i) the retail transaction is made in person by a consumer at the seller's business location and the business is located within the State; (ii) the seller is a provider and sells prepaid wireless telecommunications service to a consumer located in Illinois; (iii) the retail transaction is treated as occurring in this State for purposes of the Retailers' Occupation Tax Act; or (iv) a seller that is included within the definition of a "retailer maintaining a place of business in this State" under Section 2 of the Use Tax Act makes a sale of prepaid wireless telecommunications service to a consumer located in Illinois. In the case of a retail transaction which does not occur in person at a seller's business location, if a consumer uses a credit card to purchase

prepaid wireless telecommunications service on-line or over the telephone, and no product is shipped to the consumer, the transaction occurs in this State if the billing address for the consumer's credit card is in this State.

(b-5) The prepaid wireless 9-1-1 surcharge imposed under subsection (a-5) of this Section shall be collected by the seller from the consumer with respect to each retail transaction occurring in the municipality imposing the surcharge. The amount of the prepaid wireless 9-1-1 surcharge shall be separately stated on an invoice, receipt, or other similar document that is provided to the consumer by the seller or shall be otherwise disclosed to the consumer. If the seller does not separately state the surcharge as a distinct item to the consumer as provided in this Section, then the seller shall maintain books and records as required by this Act which clearly identify the amount of the 9-1-1 surcharge for retail transactions.

For purposes of this subsection (b-5), a retail transaction occurs in the municipality if (i) the retail transaction is made in person by a consumer at the seller's business location and the business is located within the municipality; (ii) the seller is a provider and sells prepaid wireless telecommunications service to a consumer located in the municipality; (iii) the retail transaction is treated as occurring in the municipality for purposes of the Retailers' Occupation Tax Act; or (iv) a seller that is included within the definition of a "retailer maintaining a place of business in this State" under Section 2 of the Use Tax Act makes a sale of prepaid wireless telecommunications service to a consumer located in the municipality. In the case of a retail transaction which does not occur in person at a seller's business location, if a consumer uses a credit card to purchase prepaid wireless telecommunications service on-line or over the telephone, and no product is shipped to the consumer, the transaction occurs in the municipality if the billing address for the consumer's credit card is in the municipality.

(c) The prepaid wireless 9-1-1 surcharge is imposed on the consumer and not on any provider. The seller shall be liable to remit all prepaid wireless 9-1-1 surcharges that the seller collects from consumers as provided in Section 20, including all such surcharges that the seller is deemed to collect where the amount of the surcharge has not been separately stated on an invoice, receipt, or other similar document provided to the consumer by the seller. The surcharge collected or deemed collected by a seller shall constitute a debt owed by the seller to this State, and any such surcharge actually collected shall be held in trust for the benefit of the Department.

For purposes of this subsection (c), the surcharge shall not be imposed or collected from entities that have an active tax exemption identification

number issued by the Department under Section 1g of the Retailers' Occupation Tax Act.

(d) The amount of the prepaid wireless 9-1-1 surcharge that is collected by a seller from a consumer, if such amount is separately stated on an invoice, receipt, or other similar document provided to the consumer by the seller, shall not be included in the base for measuring any tax, fee, surcharge, or other charge that is imposed by this State, any political subdivision of this State, or any intergovernmental agency.

(e) The prepaid wireless 9-1-1 charge imposed under subsection (a) of this Section shall be proportionately increased or reduced, as applicable, upon any change to the surcharge imposed under Section 17 of the Wireless Emergency Telephone Safety Act. The adjusted rate shall be determined by dividing the amount of the surcharge imposed under Section 17 of the Wireless Emergency Telephone Safety Act by $50. Such increase or reduction shall be effective on the first day of the first calendar month to occur at least 60 days after the enactment of the change to the surcharge imposed under Section 17 of the Wireless Emergency Telephone Safety Act. The Department shall provide not less than 30 days' notice of an increase or reduction in the amount of the surcharge on the Department's website.

(e-5) Any changes in the rate of the surcharge imposed by a municipality under the authority granted in subsection (a-5) of this Section shall be effective on the first day of the first calendar month to occur at least 60 days after the enactment of the change. The Department shall provide not less than 30 days' notice of the increase or reduction in the rate of such surcharge on the Department's website.

(f) When prepaid wireless telecommunications service is sold with one or more other products or services for a single, non-itemized price, then the percentage specified in subsection (a) or (a-5) of this Section 15 shall be applied to the entire non-itemized price unless the seller elects to apply the percentage to (i) the dollar amount of the prepaid wireless telecommunications service if that dollar amount is disclosed to the consumer or (ii) the portion of the price that is attributable to the prepaid wireless telecommunications service if the retailer can identify that portion by reasonable and verifiable standards from its books and records that are kept in the regular course of business for other purposes, including, but not limited to, books and records that are kept for non-tax purposes. However, if a minimal amount of prepaid wireless telecommunications service is sold with a prepaid wireless device for a single, non-itemized price, then the seller may elect not to apply the percentage specified in subsection (a) or (a-5) of this

Section 15 to such transaction. For purposes of this subsection, an amount of
service denominated as 10 minutes or less or $5 or less is considered
minimal.

conviction. An order of qualified probation (as defined in
subsection (a)(1)(J)) successfully completed by the petitioner

The petitioner's name shall also be obliterated from the official index required to be kept by the circuit court clerk under Section 16 of the Clerks of Courts
Act, but any index issued by the circuit court clerk before the entry of the order to seal shall not be affected.

(L) "Sexual offense committed against a minor" includes but is not limited to the offenses of indecent solicitation of a child or criminal sexual abuse when the victim of such offense is under 18 years of age.

(M) "Terminate" as it relates to a sentence or order of supervision or qualified probation includes either satisfactory or unsatisfactory termination of the sentence, unless otherwise specified in this Section.

If arrests occurred or charges were brought in multiple jurisdictions, a petition must be filed in each such jurisdiction. The petitioner shall pay the applicable fee, if not waived.

(2) Contents of petition. The petition shall be verified and shall contain the petitioner's name, date of birth, current address and,

If the petitioner has received a certificate of eligibility for sealing from the Prisoner Review Board under paragraph (10) of subsection (a) of Section 3-3-2 of the Unified Code of Corrections, the certificate shall be attached to the petition.

(3) Drug test. The petitioner must attach to the petition proof that the petitioner has passed a test taken within 30 days before the filing of the petition showing the absence within his or her body of all illegal substances as defined by the Illinois Controlled Substances Act, the Methamphetamine Control and Community Protection Act, and the Cannabis Control Act if he or she is petitioning to:

(C) seal felony records under subsection (e-5); or

(7) Hearings. If an objection is filed, the court shall set a date for a hearing and notify the petitioner and all parties entitled to notice of the petition of the hearing date at least 30 days prior to the hearing. Prior to the hearing, the State's Attorney shall consult with the Department as to the appropriateness of the relief sought in the petition to expunge or seal. At the hearing, the court shall hear evidence on whether the petition should or should not be granted, and shall grant or deny the petition to expunge or seal the records based on the evidence presented at the hearing. The court may consider the following:

(v) in response to an inquiry for such records from anyone not authorized by law to access such records, the court, the Department, or the agency receiving such inquiry shall reply as it does in response to inquiries when no records ever existed.

(B-5) Upon entry of an order to expunge records under subsection (e-6):

(v) in response to an inquiry for these records from anyone not authorized by law to access the records, the court, the Department, or the agency receiving the inquiry shall reply as it does in response to inquiries when no records ever existed.

(C) Upon entry of an order to seal records under subsection (c), the arresting agency, any other agency as ordered by the court, the Department, and the court shall seal the records (as defined in subsection (a)(1)(K)). In response to an inquiry for such records from anyone not authorized by law to access such records, the court, the Department, or the agency receiving such inquiry shall reply as it does in response to inquiries when no records ever existed.

(D) The Department shall send written notice to the petitioner of its compliance with each order to expunge or seal records within 60 days of the date of service of that order or, if a motion to vacate, modify, or reconsider is filed, within 60 days of service of the order resolving the motion, if that order requires the Department to expunge or seal records. In the event of an appeal from the circuit court order, the Department shall send written notice to the petitioner of its compliance with an Appellate Court or Supreme Court judgment to expunge or seal records within 60 days of the issuance of the court's mandate. The notice is not required while any motion to vacate, modify, or reconsider, or any appeal or petition for discretionary appellate review, is pending.

If filed more than 60 days after service of the order, a petition to vacate, modify, or reconsider shall comply with subsection (c) of Section 2-1401 of the Code of Civil Procedure. Upon filing of a motion to vacate, modify, or reconsider, notice of the motion shall be served upon the petitioner and all parties entitled to notice of the petition.

(13) Effect of Order. An order granting a petition under the expungement or sealing provisions of this Section shall not be considered void because it fails to comply with the provisions of this Section or because of any error asserted in a motion to vacate, modify, or reconsider. The circuit court retains jurisdiction to determine whether the order is voidable and to vacate, modify, or reconsider its terms based on a motion filed under paragraph (12) of this subsection (d).

(14) Compliance with Order Granting Petition to Seal Records. Unless a court has entered a stay of an order granting a petition to seal, all parties entitled to notice of the petition must fully comply with the terms of the order within 60 days of service of the order even if a party is seeking relief from the order through a motion...

special education facilities provide an important service in the educational system in Illinois.

If because of his or her disability the special education program of a district is unable to meet the needs of a child and the child attends a non-public school or special education facility, a public out-of-state school or a special education facility owned and operated by a county government unit that provides special educational services required by the child and is in compliance with the appropriate rules and regulations of the State Superintendent of Education, the school district in which the child is a resident shall pay the actual cost of tuition for special education and related services provided during the regular school term and during the summer school term if the child's educational needs so require, excluding room, board and transportation costs charged the child by that non-public school or special education facility, public out-of-state school or county special education facility, or $4,500 per year, whichever is less, and shall provide him any necessary transportation. "Nonpublic special education facility" shall include a residential facility, within or without the State of Illinois, which provides special education and related services to meet the needs of the child by utilizing private schools or public schools, whether located on the site or off the site of the residential facility.

The State Board of Education shall promulgate rules and regulations for determining when placement in a private special education facility is appropriate. Such rules and regulations shall take into account the various types of services needed by a child and the availability of such services to the particular child in the public school. In developing these rules and regulations the State Board of Education shall consult with the Advisory Council on Education of Children with Disabilities and hold public hearings to secure recommendations from parents, school personnel, and others concerned about this matter.

The State Board of Education shall also promulgate rules and regulations for transportation to and from a residential school. Transportation to and from home to a residential school more than once each school term shall be subject to prior approval by the State Superintendent in accordance with the rules and regulations of the State Board.

A school district making tuition payments pursuant to this Section is eligible for reimbursement from the State for the amount of such payments actually made in excess of the district per capita tuition charge for students not receiving special education services. Such reimbursement shall be approved in accordance with Section 14-12.01 and each district shall file its

claims, computed in accordance with rules prescribed by the State Board of Education, on forms prescribed by the State Superintendent of Education. Data used as a basis of reimbursement claims shall be for the preceding regular school term and summer school term. Each school district shall transmit its claims to the State Board of Education on or before August 15. The State Board of Education, before approving any such claims, shall determine their accuracy and whether they are based upon services and facilities provided under approved programs. Upon approval the State Board shall cause vouchers to be prepared showing the amount due for payment of reimbursement claims to school districts, for transmittal to the State Comptroller on the 30th day of September, December, and March, respectively, and the final voucher, no later than June 20. If the money appropriated by the General Assembly for such purpose for any year is insufficient, it shall be apportioned on the basis of the claims approved.

No child shall be placed in a special education program pursuant to this Section if the tuition cost for special education and related services increases more than 10 percent over the tuition cost for the previous school year or exceeds $4,500 per year unless such costs have been approved by the Illinois Purchased Care Review Board. The Illinois Purchased Care Review Board shall consist of the following persons, or their designees: the Directors of Children and Family Services, Public Health, Public Aid, and the Governor's Office of Management and Budget; the Secretary of Human Services; the State Superintendent of Education; and such other persons as the Governor may designate. The Review Board shall establish rules and regulations for its determination of allowable costs and payments made by local school districts for special education, room and board, and other related services provided by non-public schools or special education facilities and shall establish uniform standards and criteria which it shall follow. The Review Board shall approve the usual and customary rate or rates of a special education program that (i) is offered by an out-of-state, non-public provider of integrated autism specific educational and autism specific residential services, (ii) offers 2 or more levels of residential care, including at least one locked facility, and (iii) serves 12 or fewer Illinois students.

The Review Board shall establish uniform definitions and criteria for accounting separately by special education, room and board and other related services costs. The Board shall also establish guidelines for the coordination of services and financial assistance provided by all State agencies to assure that no otherwise qualified disabled child receiving services under Article 14 shall be excluded from participation in, be denied the benefits of or be
subjected to discrimination under any program or activity provided by any State agency.

The Review Board shall review the costs for special education and related services provided by non-public schools or special education facilities and shall approve or disapprove such facilities in accordance with the rules and regulations established by it with respect to allowable costs.

The State Board of Education shall provide administrative and staff support for the Review Board as deemed reasonable by the State Superintendent of Education. This support shall not include travel expenses or other compensation for any Review Board member other than the State Superintendent of Education.

The Review Board shall seek the advice of the Advisory Council on Education of Children with Disabilities on the rules and regulations to be promulgated by it relative to providing special education services.

If a child has been placed in a program in which the actual per pupil costs of tuition for special education and related services based on program enrollment, excluding room, board and transportation costs, exceed $4,500 and such costs have been approved by the Review Board, the district shall pay such total costs which exceed $4,500. A district making such tuition payments in excess of $4,500 pursuant to this Section shall be responsible for an amount in excess of $4,500 equal to the district per capita tuition charge and shall be eligible for reimbursement from the State for the amount of such payments actually made in excess of the districts per capita tuition charge for students not receiving special education services.

If a child has been placed in an approved individual program and the tuition costs including room and board costs have been approved by the Review Board, then such room and board costs shall be paid by the appropriate State agency subject to the provisions of Section 14-8.01 of this Act. Room and board costs not provided by a State agency other than the State Board of Education shall be provided by the State Board of Education on a current basis. In no event, however, shall the State's liability for funding of these tuition costs begin until after the legal obligations of third party payors have been subtracted from such costs. If the money appropriated by the General Assembly for such purpose for any year is insufficient, it shall be apportioned on the basis of the claims approved. Each district shall submit estimated claims to the State Superintendent of Education. Upon approval of such claims, the State Superintendent of Education shall direct the State Comptroller to make payments on a monthly basis. The frequency for submitting estimated claims and the method of determining payment shall be

prescribed in rules and regulations adopted by the State Board of Education. Such current state reimbursement shall be reduced by an amount equal to the proceeds which the child or child's parents are eligible to receive under any public or private insurance or assistance program. Nothing in this Section shall be construed as relieving an insurer or similar third party from an otherwise valid obligation to provide or to pay for services provided to a disabled child.

If it otherwise qualifies, a school district is eligible for the transportation reimbursement under Section 14-13.01 and for the reimbursement of tuition payments under this Section whether the non-public school or special education facility, public out-of-state school or county special education facility, attended by a child who resides in that district and requires special educational services, is within or outside of the State of Illinois. However, a district is not eligible to claim transportation reimbursement under this Section unless the district certifies to the State Superintendent of Education that the district is unable to provide special educational services required by the child for the current school year.

Nothing in this Section authorizes the reimbursement of a school district for the amount paid for tuition of a child attending a non-public school or special education facility, public out-of-state school or county special education facility unless the school district certifies to the State Superintendent of Education that the special education program of that district is unable to meet the needs of that child because of his disability and the State Superintendent of Education finds that the school district is in substantial compliance with Section 14-4.01. However, if a child is unilaterally placed by a State agency or any court in a non-public school or special education facility, public out-of-state school, or county special education facility, a school district shall not be required to certify to the State Superintendent of Education, for the purpose of tuition reimbursement, that the special education program of that district is unable to meet the needs of a child because of his or her disability.

Any educational or related services provided, pursuant to this Section in a non-public school or special education facility or a special education facility owned and operated by a county government unit shall be at no cost to the parent or guardian of the child. However, current law and practices relative to contributions by parents or guardians for costs other than educational or related services are not affected by this amendatory Act of 1978.

Reimbursement for children attending public school residential facilities shall be made in accordance with the provisions of this Section.

Notwithstanding any other provision of law, any school district receiving a payment under this Section or under Section 14-7.02b, 14-13.01, or 29-5 of this Code may classify all or a portion of the funds that it receives in a particular fiscal year or from general State aid pursuant to Section 18-8.05 of this Code as funds received in connection with any funding program for which it is entitled to receive funds from the State in that fiscal year (including, without limitation, any funding program referenced in this Section), regardless of the source or timing of the receipt. The district may not classify more funds as funds received in connection with the funding program than the district is entitled to receive in that fiscal year for that program. Any classification by a district must be made by a resolution of its board of education. The resolution must identify the amount of any payments or general State aid to be classified under this paragraph and must specify the funding program to which the funds are to be treated as received in connection therewith. This resolution is controlling as to the classification of funds referenced therein. A certified copy of the resolution must be sent to the State Superintendent of Education. The resolution shall still take effect even though a copy of the resolution has not been sent to the State Superintendent of Education in a timely manner. No classification under this paragraph by a district shall affect the total amount or timing of money the district is entitled to receive under this Code. No classification under this paragraph by a district shall in any way relieve the district from or affect any requirements that otherwise would apply with respect to that funding program, including any accounting of funds by source, reporting expenditures by original source and purpose, reporting requirements, or requirements of providing services.

AN ACT concerning courts.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The State Records Act is amended by changing Section 3 as follows:

(5 ILCS 160/3) (from Ch. 116, par. 43.6)

Sec. 3. Records as property of State.

(a) All records created or received by or under the authority of or coming into the custody, control, or possession of public officials of this State in the course of their public duties are the property of the State. These records may not be mutilated, destroyed, transferred, removed, or otherwise damaged or disposed of, in whole or in part, except as provided by law. Any person shall have the right of access to any public records, unless access to the records is otherwise limited or prohibited by law. This subsection (a) does not apply to records that are subject to expungement under subsections (1.5) and (1.6) of Section 5-915 of the Juvenile Court Act of 1987.

(b) Reports and records of the obligation, receipt and use of public funds of the State are public records available for inspection by the public, except as access to such records is otherwise limited or prohibited by law or pursuant to law. These records shall be kept at the official place of business of the State or at a designated place of business of the State. These records shall be available for public inspection during regular office hours except when in immediate use by persons exercising official duties which require the use of those records. Nothing in this section shall require the State to invade or assist in the invasion of any person's right to privacy. Nothing in this Section shall be construed to limit any right given by statute or rule of law with respect to the inspection of other types of records.

Warrants and vouchers in the keeping of the State Comptroller may be destroyed by him as authorized in "An Act in relation to the reproduction and destruction of records kept by the Comptroller", approved August 1, 1949, as now or hereafter amended after obtaining the approval of the State Records Commission.

(20 ILCS 2630/5.2)

New matter indicated by italics - deletions by strikeout
Sec. 5.2. Expungement and sealing.

(a) General Provisions.

(1) Definitions. In this Act, words and phrases have the meanings set forth in this subsection, except when a particular context clearly requires a different meaning.

(A) The following terms shall have the meanings ascribed to them in the Unified Code of Corrections, 730 ILCS 5/5-1-2 through 5/5-1-22:

(i) Business Offense (730 ILCS 5/5-1-2),
(ii) Charge (730 ILCS 5/5-1-3),
(iii) Court (730 ILCS 5/5-1-6),
(iv) Defendant (730 ILCS 5/5-1-7),
(v) Felony (730 ILCS 5/5-1-9),
(vi) Imprisonment (730 ILCS 5/5-1-10),
(vii) Judgment (730 ILCS 5/5-1-12),
(viii) Misdemeanor (730 ILCS 5/5-1-14),
(ix) Offense (730 ILCS 5/5-1-15),
(x) Parole (730 ILCS 5/5-1-16),
(xi) Petty Offense (730 ILCS 5/5-1-17),
(xii) Probation (730 ILCS 5/5-1-18),
(xiii) Sentence (730 ILCS 5/5-1-19),
(xiv) Supervision (730 ILCS 5/5-1-21), and
(xv) Victim (730 ILCS 5/5-1-22).

(B) As used in this Section, "charge not initiated by arrest" means a charge (as defined by 730 ILCS 5/5-1-3) brought against a defendant where the defendant is not arrested prior to or as a direct result of the charge.

(C) "Conviction" means a judgment of conviction or sentence entered upon a plea of guilty or upon a verdict or finding of guilty of an offense, rendered by a legally constituted jury or by a court of competent jurisdiction authorized to try the case without a jury. An order of supervision successfully completed by the petitioner is not a conviction. An order of qualified probation (as defined in subsection (a)(1)(J)) successfully completed by the petitioner is not a conviction. An order of supervision or an order of qualified probation that is terminated unsatisfactorily is a conviction, unless the unsatisfactory termination is reversed,
vacated, or modified and the judgment of conviction, if any, is reversed or vacated.

(D) "Criminal offense" means a petty offense, business offense, misdemeanor, felony, or municipal ordinance violation (as defined in subsection (a)(1)(H)). As used in this Section, a minor traffic offense (as defined in subsection (a)(1)(G)) shall not be considered a criminal offense.

(E) "Expunge" means to physically destroy the records or return them to the petitioner and to obliterate the petitioner's name from any official index or public record, or both. Nothing in this Act shall require the physical destruction of the circuit court file, but such records relating to arrests or charges, or both, ordered expunged shall be impounded as required by subsections (d)(9)(A)(ii) and (d)(9)(B)(ii).

(F) As used in this Section, "last sentence" means the sentence, order of supervision, or order of qualified probation (as defined by subsection (a)(1)(J)), for a criminal offense (as defined by subsection (a)(1)(D)) that terminates last in time in any jurisdiction, regardless of whether the petitioner has included the criminal offense for which the sentence or order of supervision or qualified probation was imposed in his or her petition. If multiple sentences, orders of supervision, or orders of qualified probation terminate on the same day and are last in time, they shall be collectively considered the "last sentence" regardless of whether they were ordered to run concurrently.

(G) "Minor traffic offense" means a petty offense, business offense, or Class C misdemeanor under the Illinois Vehicle Code or a similar provision of a municipal or local ordinance.

(H) "Municipal ordinance violation" means an offense defined by a municipal or local ordinance that is criminal in nature and with which the petitioner was charged or for which the petitioner was arrested and released without charging.

(I) "Petitioner" means an adult or a minor prosecuted as an adult who has applied for relief under this Section.

(J) "Qualified probation" means an order of probation under Section 10 of the Cannabis Control Act, Section 410 of
the Illinois Controlled Substances Act, Section 70 of the Methamphetamine Control and Community Protection Act, Section 5-6-3.3 or 5-6-3.4 of the Unified Code of Corrections, Section 12-4.3(1) and (2) of the Criminal Code of 1961 (as those provisions existed before their deletion by Public Act 89-313), Section 10-102 of the Illinois Alcoholism and Other Drug Dependency Act, Section 40-10 of the Alcoholism and Other Drug Abuse and Dependency Act, or Section 10 of the Steroid Control Act. For the purpose of this Section, "successful completion" of an order of qualified probation under Section 10-102 of the Illinois Alcoholism and Other Drug Dependency Act and Section 40-10 of the Alcoholism and Other Drug Abuse and Dependency Act means that the probation was terminated satisfactorily and the judgment of conviction was vacated.

(K) "Seal" means to physically and electronically maintain the records, unless the records would otherwise be destroyed due to age, but to make the records unavailable without a court order, subject to the exceptions in Sections 12 and 13 of this Act. The petitioner's name shall also be obliterated from the official index required to be kept by the circuit court clerk under Section 16 of the Clerks of Courts Act, but any index issued by the circuit court clerk before the entry of the order to seal shall not be affected.

(L) "Sexual offense committed against a minor" includes but is not limited to the offenses of indecent solicitation of a child or criminal sexual abuse when the victim of such offense is under 18 years of age.

(M) "Terminate" as it relates to a sentence or order of supervision or qualified probation includes either satisfactory or unsatisfactory termination of the sentence, unless otherwise specified in this Section.

(2) Minor Traffic Offenses. Orders of supervision or convictions for minor traffic offenses shall not affect a petitioner's eligibility to expunge or seal records pursuant to this Section.

(3) Exclusions. Except as otherwise provided in subsections (b)(5), (b)(6), (b)(8), (e), (e-5), and (e-6) of this Section, the court shall not order:

(iv) offenses which are Class A misdemeanors under the Humane Care for Animals Act; or

(v) any offense or attempted offense that would subject a person to registration under the Sex Offender Registration Act.

(D) the sealing of the records of an arrest which results in the petitioner being charged with a felony offense or records of a charge not initiated by arrest for a felony offense unless:

(i) the charge is amended to a misdemeanor and is otherwise eligible to be sealed pursuant to subsection (c);

(ii) the charge is brought along with another charge as a part of one case and the charge results in acquittal, dismissal, or conviction when the conviction was reversed or vacated, and another charge brought in the same case results in a disposition for a misdemeanor offense that is eligible to be sealed pursuant to subsection (c) or a disposition listed in paragraph (i), (iii), or (iv) of this subsection;

(iii) the charge results in first offender probation as set forth in subsection (c)(2)(E);

(iv) the charge is for a felony offense listed in subsection (c)(2)(F) or the charge is amended to a felony offense listed in subsection (c)(2)(F);

(v) the charge results in acquittal, dismissal, or the petitioner's release without conviction; or

(vi) the charge results in a conviction, but the conviction was reversed or vacated.

(b) Expungement.

(1) A petitioner may petition the circuit court to expunge the records of his or her arrests and charges not initiated by arrest when:

(A) He or she has never been convicted of a criminal offense; and

(B) Each arrest or charge not initiated by arrest sought to be expunged resulted in: (i) acquittal, dismissal, or the petitioner's release without charging, unless excluded by subsection (a)(3)(B); (ii) a conviction which was vacated or reversed, unless excluded by subsection (a)(3)(B); (iii) an order of supervision and such supervision was successfully completed by the petitioner, unless excluded by subsection (a)(3)(A) or (a)(3)(B); or (iv) an order of qualified probation (as defined in subsection (a)(1)(J)) and such probation was successfully completed by the petitioner.
(2) Time frame for filing a petition to expunge.

(A) When the arrest or charge not initiated by arrest sought to be expunged resulted in an acquittal, dismissal, the petitioner's release without charging, or the reversal or vacation of a conviction, there is no waiting period to petition for the expungement of such records.

(B) When the arrest or charge not initiated by arrest sought to be expunged resulted in an order of supervision, successfully completed by the petitioner, the following time frames will apply:

(i) Those arrests or charges that resulted in orders of supervision under Section 3-707, 3-708, 3-710, or 5-401.3 of the Illinois Vehicle Code or a similar provision of a local ordinance, or under Section 11-1.50, 12-3.2, or 12-15 of the Criminal Code of 1961 or the Criminal Code of 2012, or a similar provision of a local ordinance, shall not be eligible for expungement until 5 years have passed following the satisfactory termination of the supervision.

(i-5) Those arrests or charges that resulted in orders of supervision for a misdemeanor violation of subsection (a) of Section 11-503 of the Illinois Vehicle Code or a similar provision of a local ordinance, that occurred prior to the offender reaching the age of 25 years and the offender has no other conviction for violating Section 11-501 or 11-503 of the Illinois Vehicle Code or a similar provision of a local ordinance shall not be eligible for expungement until the petitioner has reached the age of 25 years.

(ii) Those arrests or charges that resulted in orders of supervision for any other offenses shall not be eligible for expungement until 2 years have passed following the satisfactory termination of the supervision.

(C) When the arrest or charge not initiated by arrest sought to be expunged resulted in an order of qualified probation, successfully completed by the petitioner, such records shall not be eligible for expungement until 5 years

have passed following the satisfactory termination of the probation.

(3) Those records maintained by the Department for persons arrested prior to their 17th birthday shall be expunged as provided in Section 5-915 of the Juvenile Court Act of 1987.

(4) Whenever a person has been arrested for or convicted of any offense, in the name of a person whose identity he or she has stolen or otherwise come into possession of, the aggrieved person from whom the identity was stolen or otherwise obtained without authorization, upon learning of the person having been arrested using his or her identity, may, upon verified petition to the chief judge of the circuit wherein the arrest was made, have a court order entered nunc pro tunc by the Chief Judge to correct the arrest record, conviction record, if any, and all official records of the arresting authority, the Department, other criminal justice agencies, the prosecutor, and the trial court concerning such arrest, if any, by removing his or her name from all such records in connection with the arrest and conviction, if any, and by inserting in the records the name of the offender, if known or ascertainable, in lieu of the aggrieved's name. The records of the circuit court clerk shall be sealed until further order of the court upon good cause shown and the name of the aggrieved person obliterated on the official index required to be kept by the circuit court clerk under Section 16 of the Clerks of Courts Act, but the order shall not affect any index issued by the circuit court clerk before the entry of the order. Nothing in this Section shall limit the Department of State Police or other criminal justice agencies or prosecutors from listing under an offender's name the false names he or she has used.

(5) Whenever a person has been convicted of criminal sexual assault, aggravated criminal sexual assault, predatory criminal sexual assault of a child, criminal sexual abuse, or aggravated criminal sexual abuse, the victim of that offense may request that the State's Attorney of the county in which the conviction occurred file a verified petition with the presiding trial judge at the petitioner's trial to have a court order entered to seal the records of the circuit court clerk in connection with the proceedings of the trial court concerning that offense. However, the records of the arresting authority and the Department of State Police concerning the offense shall not be sealed. The court, upon good cause shown, shall make the records of the
circuit court clerk in connection with the proceedings of the trial court concerning the offense available for public inspection.

(6) If a conviction has been set aside on direct review or on collateral attack and the court determines by clear and convincing evidence that the petitioner was factually innocent of the charge, the court that finds the petitioner factually innocent of the charge shall enter an expungement order for the conviction for which the petitioner has been determined to be innocent as provided in subsection (b) of Section 5-5-4 of the Unified Code of Corrections.

(7) Nothing in this Section shall prevent the Department of State Police from maintaining all records of any person who is admitted to probation upon terms and conditions and who fulfills those terms and conditions pursuant to Section 10 of the Cannabis Control Act, Section 410 of the Illinois Controlled Substances Act, Section 70 of the Methamphetamine Control and Community Protection Act, Section 5-6-3.3 or 5-6-3.4 of the Unified Code of Corrections, Section 12-4.3 or subdivision (b)(1) of Section 12-3.05 of the Criminal Code of 1961 or the Criminal Code of 2012, Section 10-102 of the Illinois Alcoholism and Other Drug Dependency Act, Section 40-10 of the Alcoholism and Other Drug Abuse and Dependency Act, or Section 10 of the Steroid Control Act.

(8) If the petitioner has been granted a certificate of innocence under Section 2-702 of the Code of Civil Procedure, the court that grants the certificate of innocence shall also enter an order expunging the conviction for which the petitioner has been determined to be innocent as provided in subsection (h) of Section 2-702 of the Code of Civil Procedure.

(c) Sealing.

(1) Applicability. Notwithstanding any other provision of this Act to the contrary, and cumulative with any rights to expungement of criminal records, this subsection authorizes the sealing of criminal records of adults and of minors prosecuted as adults.

(2) Eligible Records. The following records may be sealed:

(3) When Records Are Eligible to Be Sealed. Records identified as eligible under subsection (c)(2) may be sealed as follows:

(A) Records identified as eligible under subsection (c)(2)(A) and (c)(2)(B) may be sealed at any time.

(B) Records identified as eligible under subsection (c)(2)(C) may be sealed (i) 3 years after the termination of petitioner's last sentence (as defined in subsection (a)(1)(F)) if the petitioner has never been convicted of a criminal offense (as defined in subsection (a)(1)(D)); or (ii) 4 years after the termination of the petitioner's last sentence (as defined in subsection (a)(1)(F)) if the petitioner has ever been convicted of a criminal offense (as defined in subsection (a)(1)(D)).

(D) Records identified in subsection (a)(3)(A)(iii) may be sealed after the petitioner has reached the age of 25 years.

(4) Subsequent felony convictions. A person may not have subsequent felony conviction records sealed as provided in this subsection (c) if he or she is convicted of any felony offense after the date of the sealing of prior felony convictions as provided in this subsection (c). The court may, upon conviction for a subsequent felony offense, order the unsealing of prior felony conviction records previously ordered sealed by the court.

(5) Notice of eligibility for sealing. Upon entry of a disposition for an eligible record under this subsection (c), the petitioner shall be informed by the court of the right to have the records sealed and the procedures for the sealing of the records.

(d) Procedure. The following procedures apply to expungement under subsections (b), (e), and (e-6) and sealing under subsections (c) and (e-5):

(1) Filing the petition. Upon becoming eligible to petition for the expungement or sealing of records under this Section, the petitioner shall file a petition requesting the expungement or sealing of records with the clerk of the court where the arrests occurred or the charges were brought, or both. If arrests occurred or charges were brought in multiple jurisdictions, a petition must be filed in each such jurisdiction. The petitioner shall pay the applicable fee, if not waived.

(2) Contents of petition. The petition shall be verified and shall contain the petitioner's name, date of birth, current address and, for each arrest or charge not initiated by arrest sought to be sealed or expunged, the case number, the date of arrest (if any), the identity of the arresting authority, and such other information as the court may require. During the pendency of the proceeding, the petitioner shall promptly notify the circuit court clerk of any change of his or her address. If the petitioner has received a certificate of eligibility for sealing from the Prisoner Review Board under paragraph (10) of subsection (a) of Section 3-3-2 of the Unified Code of Corrections, the certificate shall be attached to the petition.

(3) Drug test. The petitioner must attach to the petition proof that the petitioner has passed a test taken within 30 days before the filing of the petition showing the absence within his or her body of all illegal substances as defined by the Illinois Controlled Substances Act, the Methamphetamine Control and Community Protection Act, and the Cannabis Control Act if he or she is petitioning to:
(A) seal felony records under clause (c)(2)(E);
(B) seal felony records for a violation of the Illinois Controlled Substances Act, the Methamphetamine Control and Community Protection Act, or the Cannabis Control Act under clause (c)(2)(F);
(C) seal felony records under subsection (e-5); or
(D) expunge felony records of a qualified probation under clause (b)(1)(B)(iv).

(4) Service of petition. The circuit court clerk shall promptly serve a copy of the petition and documentation to support the petition under subsection (e), (e-5), or (e-6) on the State's Attorney or prosecutor charged with the duty of prosecuting the offense, the Department of State Police, the arresting agency and the chief legal officer of the unit of local government effecting the arrest.

(5) Objections.
(A) Any party entitled to notice of the petition may file an objection to the petition. All objections shall be in writing, shall be filed with the circuit court clerk, and shall state with specificity the basis of the objection. *Whenever a person who has been convicted of an offense is granted a pardon by the Governor which specifically authorizes expungement, an objection to the petition may not be filed.*
(B) Objections to a petition to expunge or seal must be filed within 60 days of the date of service of the petition.

(6) Entry of order.
(A) The Chief Judge of the circuit wherein the charge was brought, any judge of that circuit designated by the Chief Judge, or in counties of less than 3,000,000 inhabitants, the presiding trial judge at the petitioner's trial, if any, shall rule on the petition to expunge or seal as set forth in this subsection (d)(6).
(B) Unless the State's Attorney or prosecutor, the Department of State Police, the arresting agency, or the chief legal officer files an objection to the petition to expunge or seal within 60 days from the date of service of the petition, the court shall enter an order granting or denying the petition.

(7) Hearings. If an objection is filed, the court shall set a date for a hearing and notify the petitioner and all parties entitled to notice of the petition of the hearing date at least 30 days prior to the hearing.
Prior to the hearing, the State's Attorney shall consult with the Department as to the appropriateness of the relief sought in the petition to expunge or seal. At the hearing, the court shall hear evidence on whether the petition should or should not be granted, and shall grant or deny the petition to expunge or seal the records based on the evidence presented at the hearing. The court may consider the following:

(A) the strength of the evidence supporting the defendant's conviction;
(B) the reasons for retention of the conviction records by the State;
(C) the petitioner's age, criminal record history, and employment history;
(D) the period of time between the petitioner's arrest on the charge resulting in the conviction and the filing of the petition under this Section; and
(E) the specific adverse consequences the petitioner may be subject to if the petition is denied.

(8) Service of order. After entering an order to expunge or seal records, the court must provide copies of the order to the Department, in a form and manner prescribed by the Department, to the petitioner, to the State's Attorney or prosecutor charged with the duty of prosecuting the offense, to the arresting agency, to the chief legal officer of the unit of local government effecting the arrest, and to such other criminal justice agencies as may be ordered by the court.

(9) Implementation of order.
(A) Upon entry of an order to expunge records pursuant to (b)(2)(A) or (b)(2)(B)(ii), or both:
   (i) the records shall be expunged (as defined in subsection (a)(1)(E)) by the arresting agency, the Department, and any other agency as ordered by the court, within 60 days of the date of service of the order, unless a motion to vacate, modify, or reconsider the order is filed pursuant to paragraph (12) of subsection (d) of this Section;
   (ii) the records of the circuit court clerk shall be impounded until further order of the court upon good cause shown and the name of the petitioner obliterated on the official index required to be kept by...
the circuit court clerk under Section 16 of the Clerks of Courts Act, but the order shall not affect any index issued by the circuit court clerk before the entry of the order; and

(iii) in response to an inquiry for expunged records, the court, the Department, or the agency receiving such inquiry, shall reply as it does in response to inquiries when no records ever existed.

(B) Upon entry of an order to expunge records pursuant to (b)(2)(B)(i) or (b)(2)(C), or both:

(i) the records shall be expunged (as defined in subsection (a)(1)(E)) by the arresting agency and any other agency as ordered by the court, within 60 days of the date of service of the order, unless a motion to vacate, modify, or reconsider the order is filed pursuant to paragraph (12) of subsection (d) of this Section;

(ii) the records of the circuit court clerk shall be impounded until further order of the court upon good cause shown and the name of the petitioner obliterated on the official index required to be kept by the circuit court clerk under Section 16 of the Clerks of Courts Act, but the order shall not affect any index issued by the circuit court clerk before the entry of the order;

(iii) the records shall be impounded by the Department within 60 days of the date of service of the order as ordered by the court, unless a motion to vacate, modify, or reconsider the order is filed pursuant to paragraph (12) of subsection (d) of this Section;

(iv) records impounded by the Department may be disseminated by the Department only as required by law or to the arresting authority, the State's Attorney, and the court upon a later arrest for the same or a similar offense or for the purpose of sentencing for any subsequent felony, and to the Department of Corrections upon conviction for any offense; and

(v) in response to an inquiry for such records from anyone not authorized by law to access such records, the court, the Department, or the agency receiving such inquiry shall reply as it does in response to inquiries when no records ever existed.

(B-5) Upon entry of an order to expunge records under subsection (e-6):

(i) the records shall be expunged (as defined in subsection (a)(1)(E)) by the arresting agency and any other agency as ordered by the court, within 60 days of the date of service of the order, unless a motion to vacate, modify, or reconsider the order is filed under paragraph (12) of subsection (d) of this Section;

(ii) the records of the circuit court clerk shall be impounded until further order of the court upon good cause shown and the name of the petitioner obliterated on the official index required to be kept by the circuit court clerk under Section 16 of the Clerks of Courts Act, but the order shall not affect any index issued by the circuit court clerk before the entry of the order;

(iii) the records shall be impounded by the Department within 60 days of the date of service of the order as ordered by the court, unless a motion to vacate, modify, or reconsider the order is filed under paragraph (12) of subsection (d) of this Section;

(iv) records impounded by the Department may be disseminated by the Department only as required by law or to the arresting authority, the State's Attorney, and the court upon a later arrest for the same or a similar offense or for the purpose of sentencing for any subsequent felony, and to the Department of Corrections upon conviction for any offense; and

(v) in response to an inquiry for these records from anyone not authorized by law to access the records, the court, the Department, or the agency receiving the inquiry shall reply as it does in response to inquiries when no records ever existed.

(C) Upon entry of an order to seal records under subsection (c), the arresting agency, any other agency as ordered by the court, the Department, and the court shall seal the records (as defined in subsection (a)(1)(K)). In response to an inquiry for such records from anyone not authorized by law to access such records, the court, the Department, or the agency receiving such inquiry shall reply as it does in response to inquiries when no records ever existed.

(D) The Department shall send written notice to the petitioner of its compliance with each order to expunge or seal records within 60 days of the date of service of that order or, if a motion to vacate, modify, or reconsider is filed, within 60 days of service of the order resolving the motion, if that order requires the Department to expunge or seal records. In the event of an appeal from the circuit court order, the Department shall send written notice to the petitioner of its compliance with an Appellate Court or Supreme Court judgment to expunge or seal records within 60 days of the issuance of the court's mandate. The notice is not required while any motion to vacate, modify, or reconsider, or any appeal or petition for discretionary appellate review, is pending.

(10) Fees. The Department may charge the petitioner a fee equivalent to the cost of processing any order to expunge or seal records. Notwithstanding any provision of the Clerks of Courts Act to the contrary, the circuit court clerk may charge a fee equivalent to the cost associated with the sealing or expungement of records by the circuit court clerk. From the total filing fee collected for the petition to seal or expunge, the circuit court clerk shall deposit $10 into the Circuit Court Clerk Operation and Administrative Fund, to be used to offset the costs incurred by the circuit court clerk in performing the additional duties required to serve the petition to seal or expunge on all parties. The circuit court clerk shall collect and forward the Department of State Police portion of the fee to the Department and it shall be deposited in the State Police Services Fund.

(11) Final Order. No court order issued under the expungement or sealing provisions of this Section shall become final for purposes of appeal until 30 days after service of the order on the petitioner and all parties entitled to notice of the petition.

(12) Motion to Vacate, Modify, or Reconsider. Under Section 2-1203 of the Code of Civil Procedure, the petitioner or any party entitled to notice may file a motion to vacate, modify, or reconsider the order granting or denying the petition to expunge or seal within 60 days of service of the order. If filed more than 60 days after service of the order, a petition to vacate, modify, or reconsider shall comply with subsection (c) of Section 2-1401 of the Code of Civil Procedure. Upon filing of a motion to vacate, modify, or reconsider, notice of the motion shall be served upon the petitioner and all parties entitled to notice of the petition.

(13) Effect of Order. An order granting a petition under the expungement or sealing provisions of this Section shall not be considered void because it fails to comply with the provisions of this Section or because of any error asserted in a motion to vacate, modify, or reconsider. The circuit court retains jurisdiction to determine whether the order is voidable and to vacate, modify, or reconsider its terms based on a motion filed under paragraph (12) of this subsection (d).

(14) Compliance with Order Granting Petition to Seal Records. Unless a court has entered a stay of an order granting a petition to seal, all parties entitled to notice of the petition must fully comply with the terms of the order within 60 days of service of the order even if a party is seeking relief from the order through a motion filed under paragraph (12) of this subsection (d) or is appealing the order.

(15) Compliance with Order Granting Petition to Expunge Records. While a party is seeking relief from the order granting the petition to expunge through a motion filed under paragraph (12) of this subsection (d) or is appealing the order, and unless a court has entered a stay of that order, the parties entitled to notice of the petition must seal, but need not expunge, the records until there is a final order on the motion for relief or, in the case of an appeal, the issuance of that court's mandate.

(16) The changes to this subsection (d) made by Public Act 98-163 of the 98th General Assembly apply to all petitions pending on August 5, 2013 (the effective date of Public Act 98-163) and to all orders ruling on a petition to expunge or seal on or after August 5, 2013.

(e) Whenever a person who has been convicted of an offense is granted a pardon by the Governor which specifically authorizes expungement, he or she may, upon verified petition to the Chief Judge of the circuit where the person had been convicted, any judge of the circuit designated by the Chief Judge, or in counties of less than 3,000,000 inhabitants, the presiding trial judge at the defendant's trial, have a court order entered expunging the record of arrest from the official records of the arresting authority and order that the records of the circuit court clerk and the Department be sealed until further order of the court upon good cause shown or as otherwise provided herein, and the name of the defendant obliterated from the official index requested to be kept by the circuit court clerk under Section 16 of the Clerks of Courts Act in connection with the arrest and conviction for the offense for which he or she had been pardoned but the order shall not affect any index issued by the circuit court clerk before the entry of the order. All records sealed by the Department may be disseminated by the Department only to the arresting authority, the State's Attorney, and the court upon a later arrest for the same or similar offense or for the purpose of sentencing for any subsequent felony. All records sealed by the Department may be disseminated by the Department only to the arresting authority, the State's Attorney, and the court upon a later arrest for the same or similar offense or for the purpose of sentencing for any subsequent felony. Section 15. The Juvenile Court Act of 1987 is amended by changing Section 5-915 as follows:

(705 ILCS 405/5-915)
Sec. 5-915. Expungement of juvenile law enforcement and court records.

(0.05) For purposes of this Section and Section 5-622:

"Expunge" means to physically destroy the records and to obliterate the minor's name from any official index or public record, or both. Nothing in this Act shall require the physical destruction of the internal office records, files, or databases maintained by a State's Attorney's Office or other prosecutor.

"Law enforcement record" includes but is not limited to records of arrest, station adjustments, fingerprints, probation adjustments, the issuance of a notice to appear, or any other records maintained by a law enforcement agency relating to a minor suspected of committing an offense.

(1) Whenever any person has attained the age of 18 or whenever all juvenile court proceedings relating to that person have been terminated, whichever is later, the person may petition the court to expunge law enforcement records relating to incidents occurring before his or her 18th birthday or his or her juvenile court records, or both, but only in the following circumstances:

(a) the minor was arrested and no petition for delinquency was filed with the clerk of the circuit court; or
(b) the minor was charged with an offense and was found not delinquent of that offense; or
(c) the minor was placed under supervision pursuant to Section 5-615, and the order of supervision has since been successfully terminated; or
(d) the minor was adjudicated for an offense which would be a Class B misdemeanor, Class C misdemeanor, or a petty or business offense if committed by an adult.

(1.5) Commencing 180 days after the effective date of this amendatory Act of the 98th General Assembly, the Department of State Police shall automatically expunge, on or before January 1 of each year, a person's law enforcement records relating to incidents occurring before his or her 18th birthday in the Department's possession or control and which contains the final disposition which pertain to the person when arrested as a minor if:

(a) the minor was arrested for an eligible offense and no petition for delinquency was filed with the clerk of the circuit court; and

(b) the person attained the age of 18 years during the last calendar year; and

(c) since the date of the minor's most recent arrest, at least 6 months have elapsed without an additional arrest, filing of a petition for delinquency whether related or not to a previous arrest, or filing of charges not initiated by arrest.

The Department of State Police shall allow a person to use the Access and Review process, established in the Department of State Police, for verifying that his or her law enforcement records relating to incidents occurring before his or her 18th birthday eligible under this subsection have been expunged as provided in this subsection.

The Department of State Police shall provide by rule the process for access, review, and automatic expungement.

(1.6) Commencing on the effective date of this amendatory Act of the 98th General Assembly, a person whose law enforcement records are not subject to subsection (1.5) of this Section and who has attained the age of 18 years may use the Access and Review process, established in the Department of State Police, for verifying his or her law enforcement records relating to incidents occurring before his or her 18th birthday in the Department's possession or control which pertain to the person when arrested as a minor, if the incident occurred no earlier than 30 years before the effective date of this amendatory Act of the 98th General Assembly. If the person identifies a law enforcement record of an eligible offense that meets the requirements of this subsection, paragraphs (a) and (c) of subsection (1.5) of this Section, and all juvenile court proceedings related to the person have been terminated, the person may file a Request for Expungement of Juvenile Law Enforcement Records, in the form and manner prescribed by the Department of State Police, with the Department and the Department shall consider expungement of the record as otherwise provided for automatic expungement under subsection (1.5) of this Section. The person shall provide notice and a copy

New matter indicated by italics - deletions by strikeout
of the Request for Expungement of Juvenile Law Enforcement Records to the arresting agency, prosecutor charged with the prosecution of the minor, or the State's Attorney of the county that prosecuted the minor. The Department of State Police shall provide by rule the process for access, review, and Request for Expungement of Juvenile Law Enforcement Records.

(1.7) Nothing in subsections (1.5) and (1.6) of this Section precludes a person from filing a petition under subsection (1) for expungement of records subject to automatic expungement under subsection (1.5) or (1.6) of this Section.

(1.8) For the purposes of subsections (1.5) and (1.6) of this Section, "eligible offense" means records relating to an arrest or incident occurring before the person's 18th birthday that if committed by an adult is not an offense classified as a Class 2 felony or higher offense, an offense under Article 11 of the Criminal Code of 1961 or the Criminal Code of 2012, or an offense under Section 12-13, 12-14, 12-14.1, 12-15, or 12-16 of the Criminal Code of 1961.

(2) Any person may petition the court to expunge all law enforcement records relating to any incidents occurring before his or her 18th birthday which did not result in proceedings in criminal court and all juvenile court records with respect to any adjudications except those based upon first degree murder and sex offenses which would be felonies if committed by an adult, if the person for whom expungement is sought has had no convictions for any crime since his or her 18th birthday and:

(a) has attained the age of 21 years; or
(b) 5 years have elapsed since all juvenile court proceedings relating to him or her have been terminated or his or her commitment to the Department of Juvenile Justice pursuant to this Act has been terminated;

whichever is later of (a) or (b). Nothing in this Section 5-915 precludes a minor from obtaining expungement under Section 5-622.

(2.5) If a minor is arrested and no petition for delinquency is filed with the clerk of the circuit court as provided in paragraph (a) of subsection (1) at the time the minor is released from custody, the youth officer, if applicable, or other designated person from the arresting agency, shall notify verbally and in writing to the minor or the minor's parents or guardians that if the State's Attorney does not file a petition for delinquency, the minor has a right to petition to have his or her arrest record expunged when the minor attains the age of 18 or when all juvenile court proceedings relating to that minor have been terminated and that unless a petition to expunge is filed, the

New matter indicated by italics - deletions by strikeout
minor shall have an arrest record and shall provide the minor and the minor's parents or guardians with an expungement information packet, including a petition to expunge juvenile records obtained from the clerk of the circuit court.

(2.6) If a minor is charged with an offense and is found not delinquent of that offense; or if a minor is placed under supervision under Section 5-615, and the order of supervision is successfully terminated; or if a minor is adjudicated for an offense that would be a Class B misdemeanor, a Class C misdemeanor, or a business or petty offense if committed by an adult; or if a minor has incidents occurring before his or her 18th birthday that have not resulted in proceedings in criminal court, or resulted in proceedings in juvenile court, and the adjudications were not based upon first degree murder or sex offenses that would be felonies if committed by an adult; then at the time of sentencing or dismissal of the case, the judge shall inform the delinquent minor of his or her right to petition for expungement as provided by law, and the clerk of the circuit court shall provide an expungement information packet to the delinquent minor, written in plain language, including a petition for expungement, a sample of a completed petition, expungement instructions that shall include information informing the minor that (i) once the case is expunged, it shall be treated as if it never occurred, (ii) he or she may apply to have petition fees waived, (iii) once he or she obtains an expungement, he or she may not be required to disclose that he or she had a juvenile record, and (iv) he or she may file the petition on his or her own or with the assistance of an attorney. The failure of the judge to inform the delinquent minor of his or her right to petition for expungement as provided by law does not create a substantive right, nor is that failure grounds for: (i) a reversal of an adjudication of delinquency, (ii) a new trial; or (iii) an appeal.

(2.7) For counties with a population over 3,000,000, the clerk of the circuit court shall send a "Notification of a Possible Right to Expungement" post card to the minor at the address last received by the clerk of the circuit court on the date that the minor attains the age of 18 based on the birthdate provided to the court by the minor or his or her guardian in cases under paragraphs (b), (c), and (d) of subsection (1); and when the minor attains the age of 21 based on the birthdate provided to the court by the minor or his or her guardian in cases under subsection (2).

(2.8) The petition for expungement for subsection (1) may include multiple offenses on the same petition and shall be substantially in the following form:

(4) Upon entry of an order expunging records or files, the offense, which the records or files concern shall be treated as if it never occurred. Law enforcement officers and other public offices and agencies shall properly reply on inquiry that no record or file exists with respect to the person. 
(5) Records which have not been expunged are sealed, and may be obtained only under the provisions of Sections 5-901, 5-905 and 5-915. 
(6) Nothing in this Section shall be construed to prohibit the maintenance of information relating to an offense after records or files concerning the offense have been expunged if the information is kept in a manner that does not enable identification of the offender. This information may only be used for statistical and bona fide research purposes. 

(6.5) The Department of State Police or any employee of the Department shall be immune from civil or criminal liability for failure to expunge any records of arrest that are subject to expungement under subsection (1.5) or (1.6) of this Section because of inability to verify a record. (c) The State Appellate Defender shall establish and maintain a statewide toll-free telephone number that a person may use to receive information or assistance concerning the expungement of juvenile records. The State Appellate Defender shall advertise the toll-free telephone number statewide. The State Appellate Defender shall develop an expungement information packet that may be sent to eligible persons seeking expungement of their juvenile records, which may include, but is not limited to, a pre-printed expungement petition with instructions on how to complete the petition and a pamphlet containing information that would assist individuals through the juvenile expungement process.

(d) The State Appellate Defender shall compile a statewide list of volunteer attorneys willing to assist eligible individuals through the juvenile expungement process.

(e) This Section shall be implemented from funds appropriated by the General Assembly to the State Appellate Defender for this purpose. The State Appellate Defender shall employ the necessary staff and adopt the necessary rules for implementation of this Section.

(8)(a) Except with respect to law enforcement agencies, the Department of Corrections, State's Attorneys, or other prosecutors, an expunged juvenile record may not be considered by any private or public entity in employment matters, certification, licensing, revocation of certification or licensure, or registration. Applications for employment must contain specific language that states that the applicant is not obligated to disclose expunged juvenile records of conviction or arrest. Employers may not ask if an applicant has had a juvenile record expunged. Effective January 1, 2005, the Department of Labor shall develop a link on the Department's website to inform employers that employers may not ask if an applicant had a juvenile record expunged and that application for employment must contain specific language that states that the applicant is not obligated to disclose expunged juvenile records of arrest or conviction.

(b) A person whose juvenile records have been expunged is not entitled to remission of any fines, costs, or other money paid as a consequence of expungement. This amendatory Act of the 93rd General Assembly does not affect the right of the victim of a crime to prosecute or defend a civil action for damages.

(c) The expungement of juvenile records under Section 5-622 shall be funded by the additional fine imposed under Section 5-9-1.17 of the Unified

in accordance with the provisions of the Environmental Protection
Trust Fund Act; except that if a unit of local government issued the

(5) Any person who violates subsection 6 of Section 39.5 of
this Act or any CAAPP permit, or term or condition thereof, or any
fee or filing requirement, or any duty to allow or carry out inspection,
entry or monitoring activities, or any regulation or order relating to
the CAAPP shall be liable for a civil penalty not to exceed $10,000
per day of violation.

(6) Any owner or operator of a community water system that
violates subsection (b) of Section 18.1 or subsection (a) of Section
25d-3 of this Act shall, for each day of violation, be liable for a civil
penalty not to exceed $5 for each of the premises connected to the
affected community water system.

(7) Any person who violates Section 52.5 of this Act shall be
liable for a civil penalty of up to $1,000 for the first violation of that
Section and a civil penalty of up to $2,500 for a second or subsequent
violation of that Section.

(b.5) In lieu of the penalties set forth in subsections (a) and (b) of this
Section, any person who fails to file, in a timely manner, toxic chemical
release forms with the Agency pursuant to Section 25b-2 of this Act shall be
liable for a civil penalty of $100 per day for each day the forms are late, not
to exceed a maximum total penalty of $6,000. This daily penalty shall begin
accruing on the thirty-first day after the date that the person receives the
warning notice issued by the Agency pursuant to Section 25b-6 of this Act;
and the penalty shall be paid to the Agency. The daily accrual of penalties
shall cease as of January 1 of the following year. All penalties collected by
the Agency pursuant to this subsection shall be deposited into the
Environmental Protection Permit and Inspection Fund.

(c) Any person that violates this Act, any rule or regulation adopted
under this Act, any permit or term or condition of a permit, or any Board
order and causes the death of fish or aquatic life shall, in addition to the other
penalties provided by this Act, be liable to pay to the State an additional sum
for the reasonable value of the fish or aquatic life destroyed. Any money so
recovered shall be placed in the Wildlife and Fish Fund in the State Treasury.
(d) The penalties provided for in this Section may be recovered in a civil action.

(e) The State's Attorney of the county in which the violation occurred, or the Attorney General, may, at the request of the Agency or on his own motion, institute a civil action for an injunction, prohibitory or mandatory, to restrain violations of this Act, any rule or regulation adopted under this Act, any permit or term or condition of a permit, or any Board order, or to require such other actions as may be necessary to address violations of this Act, any rule or regulation adopted under this Act, any permit or term or condition of a permit, or any Board order.

(f) The State's Attorney of the county in which the violation occurred, or the Attorney General, shall bring such actions in the name of the people of the State of Illinois. Without limiting any other authority which may exist for the awarding of attorney's fees and costs, the Board or a court of competent jurisdiction may award costs and reasonable attorney's fees, including the reasonable costs of expert witnesses and consultants, to the State's Attorney or the Attorney General in a case where he has prevailed against a person who has committed a wilful, knowing or repeated violation of this Act, any rule or regulation adopted under this Act, any permit or term or condition of a permit, or any Board order.

Any funds collected under this subsection (f) in which the Attorney General has prevailed shall be deposited in the Hazardous Waste Fund created in Section 22.2 of this Act. Any funds collected under this subsection (f) in which a State's Attorney has prevailed shall be retained by the county in which he serves.

(g) All final orders imposing civil penalties pursuant to this Section shall prescribe the time for payment of such penalties. If any such penalty is not paid within the time prescribed, interest on such penalty at the rate set forth in subsection (a) of Section 1003 of the Illinois Income Tax Act, shall be paid for the period from the date payment is due until the date payment is received. However, if the time for payment is stayed during the pendency of an appeal, interest shall not accrue during such stay.

(h) In determining the appropriate civil penalty to be imposed under subdivisions (a), (b)(1), (b)(2), (b)(3), or (b)(5) of this Section, the Board is authorized to consider any matters of record in mitigation or aggravation of penalty, including but not limited to the following factors:

(1) the duration and gravity of the violation;
(2) the presence or absence of due diligence on the part of the respondent in attempting to comply with requirements of this Act and

New matter indicated by italics - deletions by strikeout
regulations thereunder or to secure relief therefrom as provided by this Act;

(3) any economic benefits accrued by the respondent because of delay in compliance with requirements, in which case the economic benefits shall be determined by the lowest cost alternative for achieving compliance;

(4) the amount of monetary penalty which will serve to deter further violations by the respondent and to otherwise aid in enhancing voluntary compliance with this Act by the respondent and other persons similarly subject to the Act;

(5) the number, proximity in time, and gravity of previously adjudicated violations of this Act by the respondent;

(6) whether the respondent voluntarily self-disclosed, in accordance with subsection (i) of this Section, the non-compliance to the Agency;

(7) whether the respondent has agreed to undertake a "supplemental environmental project," which means an environmentally beneficial project that a respondent agrees to undertake in settlement of an enforcement action brought under this Act, but which the respondent is not otherwise legally required to perform; and

(8) whether the respondent has successfully completed a Compliance Commitment Agreement under subsection (a) of Section 31 of this Act to remedy the violations that are the subject of the complaint.

In determining the appropriate civil penalty to be imposed under subsection (a) or paragraph (1), (2), (3), or (5) of subsection (b) of this Section, the Board shall ensure, in all cases, that the penalty is at least as great as the economic benefits, if any, accrued by the respondent as a result of the violation, unless the Board finds that imposition of such penalty would result in an arbitrary or unreasonable financial hardship. However, such civil penalty may be off-set in whole or in part pursuant to a supplemental environmental project agreed to by the complainant and the respondent.

(i) A person who voluntarily self-discloses non-compliance to the Agency, of which the Agency had been unaware, is entitled to a 100% reduction in the portion of the penalty that is not based on the economic benefit of non-compliance if the person can establish the following:

(1) that the non-compliance was discovered through an environmental audit or a compliance management system.
documented by the regulated entity as reflecting the regulated entity's due diligence in preventing, detecting, and correcting violations;
(2) that the non-compliance was disclosed in writing within 30 days of the date on which the person discovered it;
(3) that the non-compliance was discovered and disclosed prior to:
   (i) the commencement of an Agency inspection, investigation, or request for information;
   (ii) notice of a citizen suit;
   (iii) the filing of a complaint by a citizen, the Illinois Attorney General, or the State's Attorney of the county in which the violation occurred;
   (iv) the reporting of the non-compliance by an employee of the person without that person's knowledge; or
   (v) imminent discovery of the non-compliance by the Agency;
(4) that the non-compliance is being corrected and any environmental harm is being remediated in a timely fashion;
(5) that the person agrees to prevent a recurrence of the non-compliance;
(6) that no related non-compliance events have occurred in the past 3 years at the same facility or in the past 5 years as part of a pattern at multiple facilities owned or operated by the person;
(7) that the non-compliance did not result in serious actual harm or present an imminent and substantial endangerment to human health or the environment or violate the specific terms of any judicial or administrative order or consent agreement;
(8) that the person cooperates as reasonably requested by the Agency after the disclosure; and
(9) that the non-compliance was identified voluntarily and not through a monitoring, sampling, or auditing procedure that is required by statute, rule, permit, judicial or administrative order, or consent agreement.

If a person can establish all of the elements under this subsection except the element set forth in paragraph (1) of this subsection, the person is entitled to a 75% reduction in the portion of the penalty that is not based upon the economic benefit of non-compliance.

(j) In addition to any other remedy or penalty that may apply, whether civil or criminal, any person who violates Section 22.52 of this Act shall be

New matter indicated by italics - deletions by strikeout
liable for an additional civil penalty of up to 3 times the gross amount of any pecuniary gain resulting from the violation.

(k) In addition to any other remedy or penalty that may apply, whether civil or criminal, any person who violates subdivision (a)(7.6) of Section 31 of this Act shall be liable for an additional civil penalty of $2,000.

(415 ILCS 5/52.5 new)

Sec. 52.5. Microbead-free waters.

(a) As used in this Section:
"Over the counter drug" means a drug that is a personal care product that contains a label that identifies the product as a drug as required by 21 CFR 201.66. An "over the counter drug" label includes:

(1) A drug facts panel; or
(2) A statement of the active ingredients with a list of those ingredients contained in the compound, substance, or preparation.

"Personal care product" means any article intended to be rubbed, poured, sprinkled, or sprayed on, introduced into, or otherwise applied to the human body or any part thereof for cleansing, beautifying, promoting attractiveness, or altering the appearance, and any article intended for use as a component of any such article. "Personal care product" does not include any prescription drugs.

"Plastic" means a synthetic material made from linking monomers through a chemical reaction to create an organic polymer chain that can be molded or extruded at high heat into various solid forms retaining their defined shapes during life cycle and after disposal.

"Synthetic plastic microbead" means any intentionally added non-biodegradable solid plastic particle measured less than 5 millimeters in size and is used to exfoliate or cleanse in a rinse-off product.

(b) The General Assembly hereby finds that microbeads, a synthetic alternative ingredient to such natural materials as ground almonds, oatmeal, and pumice, found in over 100 personal care products, including facial cleansers, shampoos, and toothpastes, pose a serious threat to the State's environment.

Microbeads have been documented to collect harmful pollutants already present in the environment and harm fish and other aquatic organisms that form the base of the aquatic food chain. Recently, microbeads have been recorded in Illinois water bodies, and in particular, the waters of Lake Michigan.

New matter indicated by italics - deletions by strikeout
Although synthetic plastic microbeads are a safe and effective mild abrasive ingredient effectively used for gently removing dead skin, there are recent concerns about the potential environmental impact of these materials. More research is needed on any adverse consequences, but a number of cosmetic manufacturers have already begun a voluntary process for identifying alternatives that allay those concerns. Those alternatives will be carefully evaluated to assure safety and implemented in a timely manner.

Without significant and costly improvements to the majority of the State's sewage treatment facilities, microbeads contained in products will continue to pollute Illinois' waters and hinder the recent substantial economic investments in redeveloping Illinois waterfronts and the ongoing efforts to restore the State's lakes and rivers and recreational and commercial fisheries.

(c) Effective December 31, 2017, no person shall manufacture for sale a personal care product, except for an over the counter drug, that contains synthetic plastic microbeads as defined in this Section.

(d) Effective December 31, 2018, no person shall accept for sale a personal care product, except for an over the counter drug, that contains synthetic plastic microbeads as defined in this Section.

(e) Effective December 31, 2018, no person shall manufacture for sale an over the counter drug that contains synthetic plastic microbeads as defined in this Section.

(f) Effective December 31, 2019, no person shall accept for sale an over the counter drug that contains synthetic plastic microbeads as defined in this Section.

Passed in the General Assembly May 29, 2014.
Approved June 9, 2014.
Effective January 1, 2015.

(House Bill No. 4527)

AN ACT concerning education.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The School Code is amended by changing Section 27A-5 as follows:

(105 ILCS 5/27A-5)
Sec. 27A-5. Charter school; legal entity; requirements.

New matter indicated by italics - deletions by strikeout
(a) A charter school shall be a public, nonsectarian, nonreligious, non-home based, and non-profit school. A charter school shall be organized and operated as a nonprofit corporation or other discrete, legal, nonprofit entity authorized under the laws of the State of Illinois.

(b) A charter school may be established under this Article by creating a new school or by converting an existing public school or attendance center to charter school status. Beginning on the effective date of this amendatory Act of the 93rd General Assembly, in all new applications submitted to the State Board or a local school board to establish a charter school in a city having a population exceeding 500,000, operation of the charter school shall be limited to one campus. The changes made to this Section by this amendatory Act of the 93rd General Assembly do not apply to charter schools existing or approved on or before the effective date of this amendatory Act.

(b-5) In this subsection (b-5), "virtual-schooling" means the teaching of courses through online methods with online instructors, rather than the instructor and student being at the same physical location. "Virtual-schooling" includes without limitation instruction provided by full-time, online virtual schools.

From April 1, 2013 through April 1, 2014, there is a moratorium on the establishment of charter schools with virtual-schooling components in school districts other than a school district organized under Article 34 of this Code. This moratorium does not apply to a charter school with virtual-schooling components existing or approved prior to April 1, 2013 or to the renewal of the charter of a charter school with virtual-schooling components already approved prior to April 1, 2013.

On or before March 1, 2014, the Commission shall submit to the General Assembly a report on the effect of virtual-schooling, including without limitation the effect on student performance, the costs associated with virtual-schooling, and issues with oversight. The report shall include policy recommendations for virtual-schooling.

(c) A charter school shall be administered and governed by its board of directors or other governing body in the manner provided in its charter. The governing body of a charter school shall be subject to the Freedom of Information Act and the Open Meetings Act.

(d) A charter school shall comply with all applicable health and safety requirements applicable to public schools under the laws of the State of Illinois.
(e) Except as otherwise provided in the School Code, a charter school shall not charge tuition; provided that a charter school may charge reasonable fees for textbooks, instructional materials, and student activities.

(f) A charter school shall be responsible for the management and operation of its fiscal affairs including, but not limited to, the preparation of its budget. An audit of each charter school's finances shall be conducted annually by an outside, independent contractor retained by the charter school. Annually, by December 1, every charter school must submit to the State Board a copy of its audit and a copy of the Form 990 the charter school filed that year with the federal Internal Revenue Service.

(g) A charter school shall comply with all provisions of this Article; the Illinois Educational Labor Relations Act; all federal and State laws and rules applicable to public schools that pertain to special education and the instruction of English language learners, referred to in this Code as "children of limited English-speaking ability"; and its charter. A charter school is exempt from all other State laws and regulations in the School Code governing public schools and local school board policies, except the following:

1. Sections 10-21.9 and 34-18.5 of the School Code regarding criminal history records checks and checks of the Statewide Sex Offender Database and Statewide Murderer and Violent Offender Against Youth Database of applicants for employment;
2. Sections 24-24 and 34-84A of the School Code regarding discipline of students;
3. The Local Governmental and Governmental Employees Tort Immunity Act;
4. Section 108.75 of the General Not For Profit Corporation Act of 1986 regarding indemnification of officers, directors, employees, and agents;
5. The Abused and Neglected Child Reporting Act;

use of a school building and grounds or any other real property or facilities that the charter school desires to use or convert for use as a charter school site, (ii) the operation and maintenance thereof, and (iii) the provision of any service, activity, or undertaking that the charter school is required to perform in order to carry out the terms of its charter. However, a charter school that is established on or after the effective date of this amendatory Act of the 93rd General Assembly and that operates in a city having a population exceeding 500,000 may not contract with a for-profit entity to manage or operate the school during the period that commences on the effective date of this amendatory Act of the 93rd General Assembly and concludes at the end of the 2004-2005 school year. Except as provided in subsection (i) of this Section, a school district may charge a charter school reasonable rent for the use of the district's buildings, grounds, and facilities. Any services for which a charter school contracts with a school district shall be provided by the district at cost. Any services for which a charter school contracts with a local school board or with the governing body of a State college or university or public community college shall be provided by the public entity at cost.

(i) In no event shall a charter school that is established by converting an existing school or attendance center to charter school status be required to pay rent for space that is deemed available, as negotiated and provided in the charter agreement, in school district facilities. However, all other costs for the operation and maintenance of school district facilities that are used by the charter school shall be subject to negotiation between the charter school and the local school board and shall be set forth in the charter.

AN ACT concerning education.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The School Code is amended by changing Section 27A-11 as follows:

(105 ILCS 5/27A-11)
Sec. 27A-11. Local financing.
(a) For purposes of the School Code, pupils enrolled in a charter school shall be included in the pupil enrollment of the school district within which the pupil resides. Each charter school (i) shall determine the school district in which each pupil who is enrolled in the charter school resides, (ii) shall report the aggregate number of pupils resident of a school district who are enrolled in the charter school to the school district in which those pupils reside, and (iii) shall maintain accurate records of daily attendance that shall be deemed sufficient to file claims under Section 18-8 notwithstanding any other requirements of that Section regarding hours of instruction and teacher certification.

(b) Except for a charter school established by referendum under Section 27A-6.5, as part of a charter school contract, the charter school and the local school board shall agree on funding and any services to be provided by the school district to the charter school. Agreed funding that a charter school is to receive from the local school board for a school year shall be paid in equal quarterly installments with the payment of the installment for the first quarter being made not later than July 1, unless the charter establishes a different payment schedule. However, if a charter school dismisses a pupil from the charter school after receiving a quarterly payment, the charter school shall return to the school district, on a quarterly basis, the prorated portion of public funding provided for the education of that pupil for the time the student is not enrolled at the charter school. Likewise, if a pupil transfers to a charter school between quarterly payments, the school district shall provide, on a quarterly basis, a prorated portion of the public funding to the charter school to provide for the education of that pupil.

All services centrally or otherwise provided by the school district including, but not limited to, rent, food services, custodial services, maintenance, curriculum, media services, libraries, transportation, and warehousing shall be subject to negotiation between a charter school and the

local school board and paid for out of the revenues negotiated pursuant to this subsection (b); provided that the local school board shall not attempt, by negotiation or otherwise, to obligate a charter school to provide pupil transportation for pupils for whom a district is not required to provide transportation under the criteria set forth in subsection (a)(13) of Section 27A-7.

In no event shall the funding be less than 75% or more than 125% of the school district's per capita student tuition multiplied by the number of students residing in the district who are enrolled in the charter school.

It is the intent of the General Assembly that funding and service agreements under this subsection (b) shall be neither a financial incentive nor a financial disincentive to the establishment of a charter school.

The charter school may set and collect reasonable fees. Fees collected from students enrolled at a charter school shall be retained by the charter school.

(c) Notwithstanding subsection (b) of this Section, the proportionate share of State and federal resources generated by students with disabilities or staff serving them shall be directed to charter schools enrolling those students by their school districts or administrative units. The proportionate share of moneys generated under other federal or State categorical aid programs shall be directed to charter schools serving students eligible for that aid.

(d) The governing body of a charter school is authorized to accept gifts, donations, or grants of any kind made to the charter school and to expend or use gifts, donations, or grants in accordance with the conditions prescribed by the donor; however, a gift, donation, or grant may not be accepted by the governing body if it is subject to any condition contrary to applicable law or contrary to the terms of the contract between the charter school and the local school board. Charter schools shall be encouraged to solicit and utilize community volunteer speakers and other instructional resources when providing instruction on the Holocaust and other historical events.

(e) (Blank).

(f) The State Board shall provide technical assistance to persons and groups preparing or revising charter applications.

(g) At the non-renewal or revocation of its charter, each charter school shall refund to the local board of education all unspent funds.

(h) A charter school is authorized to incur temporary, short term debt to pay operating expenses in anticipation of receipt of funds from the local school board.

To the Honorable Members of the 98th General Assembly:

After conducting a comprehensive and thorough review of this legislation, I hereby sign Senate Bill 1922, which will stabilize the City of Chicago’s pension funds for laborers and municipal workers. This legislation includes much-needed reforms that will help secure Chicago's financial future.

While I am committed to the public pension reforms embodied in Senate Bill 1922, I was dismayed by the ill-advised attempt to have the Illinois General Assembly impose a property tax increase on the people of Chicago as part of this legislation. I publicly stated that this backdoor approach was wrong and I would not approve it.

Officials of local government units in Illinois should determine their own fiscal and revenue policies in order to be directly accountable to their constituents.

It should be noted that Senate Bill 1922 was subsequently amended at my insistence to remove the legislatively-mandated property tax increase, which I strongly oppose.

I am encouraged by the public support for my position and the public opposition to automatic reliance on the property tax to solve the fiscal problems of the City of Chicago.

As the Mayor and members of the Chicago City Council work to identify savings to meet their obligations under Senate Bill 1922, I urge them to rule out a property tax increase on Chicago homeowners and businesses.

I recognize that Chicago’s mission to find real solutions to its financial challenges will not be easy. It will require hard work, creative solutions and difficult decisions, just as it did last year when we held the line and achieved comprehensive pension reform for the State of Illinois.

I strongly urge the Mayor and City Council to follow our lead and identify a comprehensive, balanced solution to Chicago’s pension crisis. Chicago’s
finances can and should be set on the track to long-term stability in a way that does not hit homeowners the hardest.

Sincerely,

PAT QUINN
Governor

PUBLIC ACT 98-0641
(Senate Bill No. 1922)

AN ACT concerning public employee benefits.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 1. Findings. It is the intention of the General Assembly to address an immediate funding crisis that threatens the solvency and sustainability of the public pension systems ("Pension Funds") serving employees of the City of Chicago ("City"). The Pension Funds include the Municipal Employees' Annuity and Benefit Fund of Chicago ("MEABF") and the Laborers' and Retirement Board Employees' Annuity Benefit Fund of Chicago ("LABF"). The General Assembly observes that both the pension benefits provided by these Pension Funds and the City's obligation to contribute to these Pension Funds are established by State law. The General Assembly further observes that the City has continuously made the required contributions to these Pension Funds. After reviewing the condition of the Pension Funds, potential sources of funding, and assessing the need for reform thereof, the General Assembly finds and declares that:

1. The overall financial condition of these two City pension funds is so dire, even under the most optimistic assumptions, a balanced increase in funding, both from the City and from its employees, combined with a modification of annual adjustments for both current and future retirees, is necessary to stabilize and fund the pension funds.

2. While considering the combined unfunded liabilities of the MEABF and LABF, as well as other pension funding that ultimately relies on funds from the City's property tax base, a combination of modifications to employee contribution rates and annual adjustments and increased revenues are necessary to keep the City funds solvent. The City, even as a home rule unit, lacks the ability and flexibility to raise sufficient revenues to fund the...
current level of pension benefits of these Pension Funds while at the same
time providing important public services essential to the public welfare.

3. The General Assembly has been advised by the City that the City
cannot feasibly reduce its other expenses to address this serious problem
without an unprecedented reduction in basic City services. Personnel costs
constitute approximately 75% of the non-discretionary appropriations for the
City. As such, reductions in City expenditures to fund pensions would
necessarily result in substantial cuts to City personnel, including in key
services areas such as public safety, sanitation, and construction.

4. In sum, the crisis confronting the City and its Funds is so large and
immediate that it cannot be addressed through increased funding alone,
without modifying employee contribution rates and annual adjustments for
current and future retirees. The consequences to the City of attempting to do
so would be draconian. Accordingly, the General Assembly concludes that,
unless reforms are enacted, the benefits currently promised by the Pension
Funds are at risk.

Section 10. The Illinois Pension Code is amended by changing
Sections 1-160, 8-137, 8-137.1, 8-173, 8-174, 11-134.1, 11-134.3, 11-169,
and 11-170 and by adding Sections 8-173.1, 8-174.2, 11-169.1, and 11-179.1
as follows:

(40 ILCS 5/1-160)
(Text of Section before amendment by P.A. 98-622)
Sec. 1-160. Provisions applicable to new hires.

(a) The provisions of this Section apply to a person who, on or after
January 1, 2011, first becomes a member or a participant under any reciprocal
retirement system or pension fund established under this Code, other than a
retirement system or pension fund established under Article 2, 3, 4, 5, 6, 15
or 18 of this Code, notwithstanding any other provision of this Code to the
contrary, but do not apply to any self-managed plan established under this
Code, to any person with respect to service as a sheriff’s law enforcement
employee under Article 7, or to any participant of the retirement plan
established under Section 22-101. Notwithstanding anything to the contrary
in this Section, for purposes of this Section, a person who participated in a
retirement system under Article 15 prior to January 1, 2011 shall be deemed
a person who first became a member or participant prior to January 1, 2011
under any retirement system or pension fund subject to this Section. The
changes made to this Section by this amendatory Act of the 98th General Assembly
are a clarification of existing law and are intended

to be retroactive to the effective date of Public Act 96-889, notwithstanding the provisions of Section 1-103.1 of this Code.

(b) "Final average salary" means the average monthly (or annual) salary obtained by dividing the total salary or earnings calculated under the Article applicable to the member or participant during the 96 consecutive months (or 8 consecutive years) of service within the last 120 months (or 10 years) of service in which the total salary or earnings calculated under the applicable Article was the highest by the number of months (or years) of service in that period. For the purposes of a person who first becomes a member or participant of any retirement system or pension fund to which this Section applies on or after January 1, 2011, in this Code, "final average salary" shall be substituted for the following:

1. In Article 7 (except for service as sheriff's law enforcement employees), "final rate of earnings".
2. In Articles 8, 9, 10, 11, and 12, "highest average annual salary for any 4 consecutive years within the last 10 years of service immediately preceding the date of withdrawal".
3. In Article 13, "average final salary".
4. In Article 14, "final average compensation".
5. In Article 17, "average salary".
6. In Section 22-207, "wages or salary received by him at the date of retirement or discharge".

(b-5) Beginning on January 1, 2011, for all purposes under this Code (including without limitation the calculation of benefits and employee contributions), the annual earnings, salary, or wages (based on the plan year) of a member or participant to whom this Section applies shall not exceed $106,800; however, that amount shall annually thereafter be increased by the lesser of (i) 3% of that amount, including all previous adjustments, or (ii) one-half the annual unadjusted percentage increase (but not less than zero) in the consumer price index-u for the 12 months ending with the September preceding each November 1, including all previous adjustments.

For the purposes of this Section, "consumer price index-u" means the index published by the Bureau of Labor Statistics of the United States Department of Labor that measures the average change in prices of goods and services purchased by all urban consumers, United States city average, all items, 1982-84 = 100. The new amount resulting from each annual adjustment shall be determined by the Public Pension Division of the Department of Insurance and made available to the boards of the retirement systems and pension funds by November 1 of each year.

A member or participant is entitled to a retirement annuity upon written application if he or she has attained age 67 and has at least 10 years of service credit and is otherwise eligible under the requirements of the applicable Article.

A member or participant who has attained age 62 and has at least 10 years of service credit and is otherwise eligible under the requirements of the applicable Article may elect to receive the lower retirement annuity provided in subsection (d) of this Section.

(d) The retirement annuity of a member or participant who is retiring after attaining age 62 with at least 10 years of service credit shall be reduced by one-half of 1% for each full month that the member's age is under age 67.

(e) Any retirement annuity or supplemental annuity shall be subject to annual increases on the January 1 occurring either on or after the attainment of age 67 or the first anniversary of the annuity start date, whichever is later. Each annual increase shall be calculated at 3% or one-half the annual unadjusted percentage increase (but not less than zero) in the consumer price index-u for the 12 months ending with the September preceding each November 1, whichever is less, of the originally granted retirement annuity. If the annual unadjusted percentage change in the consumer price index-u for the 12 months ending with the September preceding each November 1 is zero or there is a decrease, then the annuity shall not be increased.

(f) The initial survivor's or widow's annuity of an otherwise eligible survivor or widow of a retired member or participant who first became a member or participant on or after January 1, 2011 shall be in the amount of 66 2/3% of the retired member's or participant's retirement annuity at the date of death. In the case of the death of a member or participant who has not retired and who first became a member or participant on or after January 1, 2011, eligibility for a survivor's or widow's annuity shall be determined by the applicable Article of this Code. The initial benefit shall be 66 2/3% of the earned annuity without a reduction due to age. A child's annuity of an otherwise eligible child shall be in the amount prescribed under each Article if applicable. Any survivor's or widow's annuity shall be increased (1) on each January 1 occurring on or after the commencement of the annuity if the deceased member died while receiving a retirement annuity or (2) in other cases, on each January 1 occurring after the first anniversary of the commencement of the annuity. Each annual increase shall be calculated at 3% or one-half the annual unadjusted percentage increase (but not less than zero) in the consumer price index-u for the 12 months ending with the September preceding each November 1.
preceding each November 1, whichever is less, of the originally granted survivor's annuity. If the annual unadjusted percentage change in the consumer price index-u for the 12 months ending with the September preceding each November 1 is zero or there is a decrease, then the annuity shall not be increased.

(g) The benefits in Section 14-110 apply only if the person is a State policeman, a fire fighter in the fire protection service of a department, or a security employee of the Department of Corrections or the Department of Juvenile Justice, as those terms are defined in subsection (b) of Section 14-110. A person who meets the requirements of this Section is entitled to an annuity calculated under the provisions of Section 14-110, in lieu of the regular or minimum retirement annuity, only if the person has withdrawn from service with not less than 20 years of eligible creditable service and has attained age 60, regardless of whether the attainment of age 60 occurs while the person is still in service.

(h) If a person who first becomes a member or a participant of a retirement system or pension fund subject to this Section on or after January 1, 2011 is receiving a retirement annuity or retirement pension under that system or fund and becomes a member or participant under any other system or fund created by this Code and is employed on a full-time basis, except for those members or participants exempted from the provisions of this Section under subsection (a) of this Section, then the person's retirement annuity or retirement pension under that system or fund shall be suspended during that employment. Upon termination of that employment, the person's retirement annuity or retirement pension payments shall resume and be recalculated if recalculation is provided for under the applicable Article of this Code.

If a person who first becomes a member of a retirement system or pension fund subject to this Section on or after January 1, 2012 and is receiving a retirement annuity or retirement pension under this Code shall notify the pension fund or retirement system from which he or she is receiving an annuity or retirement pension, as well as his or her contractual employer, of his or her retirement status before accepting contractual employment. A person receiving an annuity or retirement pension under this Code shall notify the pension fund or retirement system from which he or she is receiving an annuity or retirement pension, as well as his or her contractual employer, of his or her retirement status before accepting contractual employment. A person who fails to submit such notification shall be guilty of a Class A misdemeanor and required to pay a fine of $1,000. Upon termination of that contractual

Beginning with January of the year 1972, such increases shall be at the rate of 2% in lieu of the aforesaid specified 1 1/2%, and beginning with January of the year 1984 such increases shall be at the rate of 3%. Beginning in January of 1999, such increases shall be at the rate of 3% of the currently payable monthly annuity, including any increases previously granted under this Article. An employee who retires on annuity after December 31, 1959 and before January 1, 1987, but before age 60, shall receive such increases beginning in January of the year after the year in which he attains age 60.

An employee who retires from service on or after January 1, 1987 shall, upon the first annuity payment date following the first anniversary of the date of retirement, or upon the first annuity payment date following attainment of age 60, whichever occurs later, have his then fixed and payable monthly annuity increased by 3%, and such annuity shall be increased by an additional 3% of the original fixed annuity on the same date each year thereafter. Beginning in January of 1999, such increases shall be at the rate of 3% of the currently payable monthly annuity, including any increases previously granted under this Article.

(a-5) Notwithstanding the provisions of subsection (a), upon the first annuity payment date following (1) the third anniversary of retirement, (2) the

attainment of age 53, or (3) January 1, 2002, whichever occurs latest, the monthly annuity of an employee who retires on annuity prior to the attainment of age 60 and has not received an increase under subsection (a) shall be increased by 3%, and the annuity shall be increased by an additional 3% of the current payable monthly annuity, including any increases previously granted under this Article, on the same date each year thereafter. The increases provided under this subsection are in lieu of the increases provided in subsection (a).

(a-6) Notwithstanding the provisions of subsections (a) and (a-5), for all calendar years following the year in which this amendatory Act of the 93rd General Assembly takes effect, an increase in annuity under this Section that would otherwise take effect at any time during the year shall instead take effect in January of that year.

(b) Subsections (a), (a-5), and (a-6) are not applicable to an employee retiring and receiving a term annuity, as herein defined, nor to any otherwise qualified employee who retires before he makes employee contributions (at the 1/2 of 1% rate as provided in this Act) for this additional annuity for not less than the equivalent of one full year. Such employee, however, shall make arrangement to pay to the fund a balance of such 1/2 of 1% contributions, based on his final salary, as will bring such 1/2 of 1% contributions, computed without interest, to the equivalent of or completion of one year's contributions.

Beginning with January, 1960, each employee shall contribute by means of salary deductions 1/2 of 1% of each salary payment, concurrently with and in addition to the employee contributions otherwise made for annuity purposes.

Each such additional contribution shall be credited to an account in the prior service annuity reserve, to be used, together with city contributions, to defray the cost of the specified annuity increments. Any balance in such account at the beginning of each calendar year shall be credited with interest at the rate of 3% per annum.

Such additional employee contributions are not refundable, except to an employee who withdraws and applies for refund under this Article, and in cases where a term annuity becomes payable. In such cases his contributions shall be refunded, without interest, and charged to such account in the prior service annuity reserve.

(b-5) Notwithstanding any provision of this Section to the contrary:

(1) A person retiring after the effective date of this amendatory Act of the 98th General Assembly shall not be eligible for
an annual increase under this Section until one full year after the date on which such annual increase otherwise would take effect under this Section.

(2) Except for persons eligible under subdivision (4) of this subsection for a minimum annual increase, there shall be no annual increase under this Section in years 2017, 2019, and 2025.

(3) In all other years, beginning January 1, 2015, the Fund shall pay an annual increase to persons eligible to receive one under this Section, in lieu of any other annual increase provided under this Section (but subject to the minimum increase under subdivision (4) of this subsection, if applicable) in an amount equal to the lesser of 3% or one-half the annual unadjusted percentage increase (but not less than zero) in the consumer price index-u for the 12 months ending with the September preceding each November 1 of the person's last annual annuity amount prior to January 1, 2015, or if the person was not yet receiving an annuity on that date, then this calculation shall be based on his or her originally granted annual annuity amount.

For the purposes of this Section, "consumer price index-u" means the index published by the Bureau of Labor Statistics of the United States Department of Labor that measures the average change in prices of goods and services purchased by all urban consumers, United States city average, all items, 1982-84 = 100.

(4) A person is eligible under this subdivision (4) to receive a minimum annual increase in a particular year if: (i) the person is otherwise eligible to receive an annual increase under subdivision (3) of this subsection, and (ii) the annual amount of the annuity payable at the time of the increase, including all increases previously received, is less than $22,000.

Beginning January 1, 2015, for a person who is eligible under this subdivision (4) to receive a minimum annual increase in the year 2017, 2019, or 2025, the annual increase shall be 1% of the person's last annual annuity amount prior to January 1, 2015, or if the person was not yet receiving an annuity on that date, then 1% of his or her originally granted annual annuity amount.

Beginning January 1, 2015, for any other year in which a person is eligible under this subdivision (4) to receive a minimum annual increase, the annual increase shall be as specified under subdivision (3), but not less than 1% of the person's last annual annuity amount prior to January 1, 2015 or, if the person was not yet
receiving an annuity on that date, then not less than 1% of his or her originally granted annual annuity amount.

For the purposes of Section 1-103.1, this subsection (b-5) is applicable without regard to whether the employee was in active service on or after the effective date of this amendatory Act of the 98th General Assembly. This subsection (b-5) applies to any former employee who on or after the effective date of this amendatory Act of the 98th General Assembly is receiving a retirement annuity and is eligible for an automatic annual increase under this Section.

Sec. 8-137.1. Automatic increases in annuity for certain heretofore retired participants.

(a) A retired municipal employee who (i) (a) is receiving annuity based on a service credit of 20 or more years regardless of age at retirement or based on a service credit of 15 or more years with retirement at age 55 or over, and (ii) (b) does not qualify for the automatic increases in annuity provided for in Section 8-137 of this Article, and (iii) (c) elects to make a contribution to the Fund at a time and manner prescribed by the Retirement Board, of a sum equal to 1% of the amount of final monthly salary times the number of full years of service on which the annuity was based in those cases where the annuity was computed on the money purchase formula and in those cases in which the annuity was computed under the minimum annuity formula provisions of this Article a sum equal to 1% of the average monthly salary on which the annuity was based times such number of full years of service, shall have his original fixed and payable monthly amount of annuity increased in January of the year following the year in which he attains the age of 65 years, if such age of 65 years is attained in the year 1969 or later, by an amount equal to 1-1/2%, and by an equal additional 1-1/2% in January of each year thereafter. Beginning with January of the year 1972, such increases shall be at the rate of 2% in lieu of the aforesaid specified 1 1/2%, and beginning January of the year 1984 such increases shall be at the rate of 3%. Beginning in January of 1999, such increases shall be at the rate of 3% of the currently payable monthly annuity, including any increases previously granted under this Article.

Whenever the retired municipal employee receiving annuity has attained the age of 66 or more in 1969, he shall have such annuity increased in January, 1970 by an amount equal to 1-1/2% multiplied by the number equal to the number of months of January elapsing from and including
January of the year immediately following the year he attained the age of 65 if retired at or before age 65, or from and including January of the year immediately following the year of retirement if retired at an age greater than 65, to and including January, 1970, and by an equal additional 1-1/2% in January of each year thereafter. Beginning with January of the year 1972, such increases shall be at the rate of 2% in lieu of the aforesaid specified 1 1/2%, and beginning January of the year 1984 such increases shall be at the rate of 3%. Beginning in January of 1999, such increases shall be at the rate of 3% of the currently payable monthly annuity, including any increases previously granted under this Article.

(b) To defray the annual cost of such increases, the annual interest income of the Fund, accruing from investments held by the Fund, exclusive of gains or losses on sales or exchanges of assets during the year, over and above 4% a year, shall be used to the extent necessary and available to finance the cost of such increases for the following year, and such amount shall be transferred as of the end of each year, beginning with the year 1969, to a Fund account designated as the Supplementary Payment Reserve from the Investment and Interest Reserve set forth in Section 8-221. The sums contributed by annuitants as provided for in this Section shall also be placed in the aforesaid Supplementary Payment Reserve and shall be applied and used for the purposes of such Fund account, together with the aforesaid interest.

In the event the monies in the Supplementary Payment Reserve in any year arising from: (1) the available interest income as defined hereinbefore and accruing in the preceding year above 4% a year and (2) the contributions by retired persons, as set forth hereinbefore, are insufficient to make the total payments to all persons estimated to be entitled to the annuity increases specified hereinbefore, then (3) any interest earnings over 4% a year beginning with the year 1969 which were not previously used to finance such increases and which were transferred to the Prior Service Annuity Reserve may be used to the extent necessary and available to provide sufficient funds to finance such increases for the current year, and such sums shall be transferred from the Prior Service Annuity Reserve.  

In the event the total monies available in the Supplementary Payment Reserve from the preceding indicated sources are insufficient to make the total payments to all persons entitled to such increases for the year, a proportionate amount computed as the ratio of the monies available to the total of the total payments for that year shall be paid to each person for that year.

The Fund shall be obligated for the payment of the increases in annuity as provided for in this Section only to the extent that the assets for such purpose, as specified herein, are available.

(b-5) Notwithstanding any provision of this Section to the contrary:

(1) Except for persons eligible under subdivision (3) of this subsection for a minimum annual increase, there shall be no annual increase under this Section in years 2017, 2019, and 2025.

(2) In all other years, beginning January 1, 2015, the Fund shall pay an annual increase to persons eligible to receive one under this Section, in lieu of any other annual increase provided under this Section (but subject to the minimum increase under subdivision (3) of this subsection, if applicable) in an amount equal to the lesser of 3% or one-half the annual unadjusted percentage increase (but not less than zero) in the consumer price index-u for the 12 months ending with the September preceding each November 1 of the person's last annual annuity amount prior to January 1, 2015.

For the purposes of this Section, "consumer price index-u" means the index published by the Bureau of Labor Statistics of the United States Department of Labor that measures the average change in prices of goods and services purchased by all urban consumers, United States city average, all items, 1982-84 = 100.

(3) A person is eligible under this subdivision (3) to receive a minimum annual increase in a particular year if: (i) the person is otherwise eligible to receive an annual increase under subdivision (2) of this subsection, and (ii) the annual amount of the annuity payable at the time of the increase, including all increases previously received, is less than $22,000.

Beginning January 1, 2015, for a person who is eligible under this subdivision (3) to receive a minimum annual increase in the year 2017, 2019, or 2025, the annual increase shall be 1% of the person's last annual annuity amount prior to January 1, 2015.

Beginning January 1, 2015, for any other year in which a person is eligible under this subdivision (3) to receive a minimum annual increase, the annual increase shall be as specified under subdivision (2), but not less than 1% of the person's last annual annuity amount prior to January 1, 2015.

For the purposes of Section 1-103.1, this subsection (b-5) is applicable without regard to whether the employee was in active service on or after the effective date of this amendatory Act of the 98th General
Assembly. This subsection (b-5) applies to any former employee who on or after the effective date of this amendatory Act of the 98th General Assembly is receiving a retirement annuity and is eligible for an automatic annual increase under this Section.

Sec. 8-173. Financing; tax levy.

(a) Except as provided in subsection (f) of this Section, the city council of the city shall levy a tax annually upon all taxable property in the city at a rate that will produce a sum which, when added to the amounts deducted from the salaries of the employees or otherwise contributed by them and the amounts deposited under subsection (f), will be sufficient for the requirements of this Article, but which when extended will produce an amount not to exceed the greater of the following: (a) the sum obtained by the levy of a tax of .1093% of the value, as equalized or assessed by the Department of Revenue, of all taxable property within such city, or (b) the sum of $12,000,000. However any city in which a Fund has been established and in operation under this Article for more than 3 years prior to 1970 shall levy for the year 1970 a tax at a rate on the dollar of assessed valuation of all taxable property that will produce, when extended, an amount not to exceed 1.2 times the total amount of contributions made by employees to the Fund for annuity purposes in the calendar year 1968, and, for the year 1971 and 1972 such levy that will produce, when extended, an amount not to exceed 1.3 times the total amount of contributions made by employees to the Fund for annuity purposes in the calendar years 1969 and 1970, respectively; and for the year 1973 an amount not to exceed 1.365 times such total amount of contributions made by employees for annuity purposes in the calendar year 1971; and for the year 1974 an amount not to exceed 1.430 times such total amount of contributions made by employees for annuity purposes in the calendar year 1972; and for the year 1975 an amount not to exceed 1.495 times such total amount of contributions made by employees for annuity purposes in the calendar year 1973; and for the year 1976 an amount not to exceed 1.560 times such total amount of contributions made by employees for annuity purposes in the calendar year 1974; and for the year 1977 an amount not to exceed 1.625 times such total amount of contributions made by employees for annuity purposes in the calendar year 1975; and for the year 1978 and each year thereafter through levy year 2014, such levy as will produce, when extended, an amount not to exceed the total amount of contributions made by or on behalf of employees to the Fund for annuity

purposes in the calendar year 2 years prior to the year for which the annual applicable tax is levied, multiplied by 1.690 for the years 1978 through 1998 and by 1.250 for the year 1999 and for each year thereafter through levy year 2014. Beginning in levy year 2015, and in each year thereafter, the levy shall not exceed the amount of the city's total required contribution to the Fund for the next payment year, as determined under subsection (a-5). For the purposes of this Section, the payment year is the year immediately following the levy year.

The tax shall be levied and collected in like manner with the general taxes of the city, and shall be exclusive of and in addition to the amount of tax the city is now or may hereafter be authorized to levy for general purposes under any laws which may limit the amount of tax which the city may levy for general purposes. The county clerk of the county in which the city is located, in reducing tax levies under the provisions of any Act concerning the levy and extension of taxes, shall not consider the tax herein provided for as a part of the general tax levy for city purposes, and shall not include the same within any limitation of the percent of the assessed valuation upon which taxes are required to be extended for such city.

Revenues derived from such tax shall be paid to the city treasurer of the city as collected and held by the city treasurer for the benefit of the fund.

If the payments on account of taxes are insufficient during any year to meet the requirements of this Article, the city may issue tax anticipation warrants against the current tax levy.

The city may continue to use other lawfully available funds in lieu of all or part of the levy, as provided under subsection (f) of this Section.

(a-5) Beginning in payment year 2016, the city's required annual contribution to the Fund shall be the lesser of:

(i) (I) for payment years 2016 through 2055, the annual amount determined by the Fund to be equal to the greater of $0, or the sum of (1) the city's portion of the projected normal cost for that fiscal year, plus (2) an amount determined on a level percentage of applicable employee payroll basis (reflecting any limits on individual participants' pay that apply for benefit and contribution purposes under this plan) that is sufficient to bring the total actuarial assets of the Fund up to 90% of the total actuarial liabilities of the Fund by the end of 2055. actuarial liabilities of the Fund as of the end of the year. In making the determinations under both (I) and (II), the actuarial calculations shall be determined under the entry age normal actuarial cost method, and any actuarial gains or losses from investment return incurred in a fiscal year shall be recognized in equal annual amounts over the 5-year period following the fiscal year; or

(ii) for payment year 2016, 1.85 times the total amount of contributions made by or on behalf of employees to the Fund for annuity purposes in the calendar year 2013; for payment year 2017, 2.15 times the total amount of contributions made by or on behalf of employees to the Fund for annuity purposes in the calendar year 2014; for payment year 2018, 2.45 times the total amount of contributions made by or on behalf of employees to the Fund for annuity purposes in the calendar year 2015; for payment year 2019, 2.75 times the total amount of contributions made by or on behalf of employees to the Fund for annuity purposes in the calendar year 2016; for payment year 2020, 3.05 times the total amount of contributions made by or on behalf of employees to the Fund for annuity purposes in the calendar year 2017.

However, beginning in the earlier of payment year 2021 or the first payment year in which the annual contribution amount calculated under subdivision (i) is less than the contribution amount calculated under subdivision (ii), and in each year thereafter, the city's required annual contribution to the Fund shall be determined under subdivision (i).

The city's required annual contribution to the Fund may be paid with any available funds and shall be paid by the city to the city treasurer. The city treasurer shall collect and hold those funds for the benefit of the Fund.

(a-10) If the city fails to transmit to the Fund contributions required of it under this Article by December 31st of the year in which such contributions are due, the Fund may, after giving notice to the city, certify to the State Comptroller the amounts of the delinquent payments, and the Comptroller must, beginning in payment year 2016, deduct and deposit into the Fund the certified amounts or a portion of those amounts from the following proportions of grants of State funds to the city:

(1) in payment year 2016, one-third of the total amount of any grants of State funds to the city;

(2) in payment year 2017, two-thirds of the total amount of any grants of State funds to the city; and

(3) in payment year 2018 and each payment year thereafter, the total amount of any grants of State funds to the city. The State Comptroller may not deduct from any grants of State funds to the city more than the amount of delinquent payments certified to the State Comptroller by the Fund.

(b) On or before July 1 January 10, annually, the board shall certify to notify the city council the annual amounts required under of the requirements of this Article, for which the tax herein provided may shall be levied for the following current year. The board shall compute the amounts necessary to be credited to the reserves established and maintained as herein provided, and shall make an annual determination of the amount of the required city contributions, and certify the results thereof to the city council.

(c) In respect to employees of the city who are transferred to the employment of a park district by virtue of the "Exchange of Functions Act of 1957", the corporate authorities of the park district shall annually levy a tax upon all the taxable property in the park district at such rate per cent of the value of such property, as equalized or assessed by the Department of Revenue, as shall be sufficient, when added to the amounts deducted from their salaries and otherwise contributed by them to provide the benefits to which they and their dependents and beneficiaries are entitled under this Article. The city shall not levy a tax hereunder in respect to such employees. The tax so levied by the park district shall be in addition to and exclusive of all other taxes authorized to be levied by the park district for corporate, annuity fund, or other purposes. The county clerk of the county in which the park district is located, in reducing any tax levied under the provisions of any act concerning the levy and extension of taxes shall not consider such tax as part of the general tax levy for park purposes, and shall not include the same in any limitation of the per cent of the assessed valuation upon which taxes are required to be extended for the park district. The proceeds of the tax levied by the park district, upon receipt by the district, shall be immediately paid over to the city treasurer of the city for the uses and purposes of the fund.

The various sums to be contributed by the city and park district and allocated for the purposes of this Article, and any interest to be contributed by the city, shall be derived from the revenue from the taxes authorized in this Section or otherwise as expressly provided in this Section.

contributions are made for such purposes, such city contributions shall be construed to be due and payable as of the end of the fiscal year for which the tax is levied and shall accrue thereafter with interest at the effective rate until paid.

(d) With respect to employees whose wages are funded as participants under the Comprehensive Employment and Training Act of 1973, as amended (P.L. 93-203, 87 Stat. 839, P.L. 93-567, 88 Stat. 1845), hereinafter referred to as CETA, subsequent to October 1, 1978, and in instances where the board has elected to establish a manpower program reserve, the board shall compute the amounts necessary to be credited to the manpower program reserves established and maintained as herein provided, and shall make a periodic determination of the amount of required contributions from the City to the reserve to be reimbursed by the federal government in accordance with rules and regulations established by the Secretary of the United States Department of Labor or his designee, and certify the results thereof to the City Council. Any such amounts shall become a credit to the City and will be used to reduce the amount which the City would otherwise contribute during succeeding years for all employees.

(e) In lieu of establishing a manpower program reserve with respect to employees whose wages are funded as participants under the Comprehensive Employment and Training Act of 1973, as authorized by subsection (d), the board may elect to establish a special municipality contribution rate for all such employees. If this option is elected, the City shall contribute to the Fund from federal funds provided under the Comprehensive Employment and Training Act program at the special rate so established and such contributions shall become a credit to the City and be used to reduce the amount which the City would otherwise contribute during succeeding years for all employees.

(f) In lieu of levying all or a portion of the tax required under this Section in any year, the city may deposit with the city treasurer no later than March 1 of that year for the benefit of the fund, to be held in accordance with this Article, an amount that, together with the taxes levied under this Section for that year, is not less than the amount of the city contributions for that year as certified by the board to the city council. The deposit may be derived from any source legally available for that purpose, including, but not limited to, the proceeds of city borrowings. The making of a deposit shall satisfy fully the requirements of this Section for that year to the extent of the amounts so deposited. Amounts deposited under this subsection may be used by the fund for any of the purposes for which the proceeds of the tax levied by the city

Sec. 8-173.1. Funding Obligation.
(a) Beginning January 1, 2015, the city shall be obligated to contribute to the Fund in each fiscal year an amount not less than the amount determined annually under subsection (a-5) of Section 8-173 of this Code. Notwithstanding any other provision of law, if the city fails to pay the amount guaranteed under this Section on or before December 31 of the year in which such amount is due, the retirement board may bring a mandamus action in the Circuit Court of Cook County to compel the city to make the required payment, irrespective of other remedies that may be available to the Fund. The obligations and causes of action created under this Section shall be in addition to any other right or remedy otherwise accorded by common law or State or federal law, and nothing in this Section shall be construed to deny, abrogate, impair, or waive any such common law or statutory right or remedy.

(b) In ordering the city to make the required payment, the court may order a reasonable payment schedule to enable the city to make the required payment without significantly imperiling the public health, safety, or welfare. Any payments required to be made by the city pursuant to this Section are expressly subordinated to the payment of the principal, interest, premium, if any, and other payments on or related to any bonded debt obligation of the city, either currently outstanding or to be issued, for which the source of repayment or security thereon is derived directly or indirectly from any funds collected or received by the city or collected or received on behalf of the city. Payments on such bonded obligations include any statutory fund transfers or other prefunding mechanisms or formulas set forth, now or hereafter, in State law, city ordinance, or bond indentures, into debt service funds or accounts of the city related to such bonded obligations, consistent with the payment schedules associated with such obligations.

Sec. 8-174. Contributions for age and service annuities for present employees and future entrants.
(a) Beginning on the effective date and prior to July 1, 1947, 3 1/4%; and beginning on July 1, 1947 and prior to July 1, 1953, 5%; and beginning July 1, 1953, and prior to January 1, 1972, 6%; and beginning January 1, 1972, 6.5%; and beginning January 1, 2015, and prior to January 1, 2016,
7.0%; and beginning January 1, 2016, and prior to January 1, 2017, 7.5%; and, beginning January 1, 2017, and prior to January 1, 2018, 8.0%; and beginning January 1, 2018, and prior to January 1, 2019, 8.5%; and beginning January 1, 2019, and thereafter, 9.0%

of each payment of the salary of each present employee and future entrant shall be contributed to the fund as a deduction from salary for age and service annuity; provided, however, that beginning with the first pay period on or after the date when the funded ratio of the Fund is first determined to have reached the 90% funding goal set forth in subsection (a-5) of Section 8-173, and each pay period thereafter for as long as the Fund maintains a funding ratio of 90% or more, employee contributions shall be 7.75% of salary for the age and service annuity. If the funding ratio falls below 90%, then employee contributions for the age and service annuity shall revert to 9.0% of salary until such time as the Fund once again is determined to have reached a funding ratio of at least 90%, at which time employee contributions of 7.75% shall resume for the age and service annuity.

Notwithstanding Section 1-103.1, the changes to this Section made by this amendatory Act of the 98th General Assembly apply regardless of whether the employee was in active service on or after the effective date of this amendatory Act.

Such deductions beginning on the effective date and prior to July 1, 1947 shall be made for a future entrant while he is in the service until he attains age 65 and for a present employee while he is in the service until the amount so deducted from his salary with the amount deducted from his salary or paid by him according to law to any municipal pension fund in force on the effective date with interest on both such amounts at 4% per annum equals the sum that would have been to his credit from sums deducted from his salary if deductions at the rate herein stated had been made during his entire service until he attained age 65 with interest at 4% per annum for the period subsequent to his attainment of age 65. Such deductions beginning July 1, 1947 shall be made and continued for employees while in the service.

(b) Concurrently with each employee contribution beginning on the effective date and prior to July 1, 1947 the city shall contribute 5 3/4%; and beginning on July 1, 1947 and prior to July 1, 1953, 7%; and beginning July 1, 1953, 6% of each payment of such salary until the employee attains age 65. Notwithstanding any provision of this subsection (b) to the contrary, the city shall not make a contribution for any credit established by an employee under subsection (b) of Section 8-138.4.

Sec. 11-134.1. Automatic increase in annuity.

(a) An employee who retired or retires from service after December 31, 1963, and before January 1, 1987, having attained age 60 or more, shall, in the month of January of the year following the year in which the first anniversary of retirement occurs, have the amount of his then fixed and payable monthly annuity increased by 1 1/2%, and such first fixed annuity as granted at retirement increased by a further 1 1/2% in January of each year thereafter. Beginning with January of the year 1972, such increases shall be at the rate of 2% in lieu of the aforesaid specified 1 1/2%. Beginning January 1984, such increases shall be at the rate of 3%. Beginning in January of 1999, such increases shall be at the rate of 3% of the currently payable monthly annuity, including any increases previously granted under this Article. An employee who retires on annuity after December 31, 1963 and before January 1, 1987, but prior to age 60, shall receive such increases beginning with January of the year immediately following the year in which he attains the age of 60 years.

An employee who retires from service on or after January 1, 1987 shall, upon the first annuity payment date following the first anniversary of the date of retirement, or upon the first annuity payment date following attainment of age 60, whichever occurs later, have his then fixed and payable monthly annuity increased by 3%, and such annuity shall be increased by an additional 3% of the original fixed annuity on the same date each year thereafter. Beginning in January of 1999, such increases shall be at the rate of 3% of the currently payable monthly annuity, including any increases previously granted under this Article.

(a-5) Notwithstanding the provisions of subsection (a), upon the first annuity payment date following (1) the third anniversary of retirement, (2) the

attainment of age 53, or (3) January 1, 2002, whichever occurs latest, the monthly annuity of an employee who retires on annuity prior to the attainment of age 60 and has not received an increase under subsection (a) shall be increased by 3%, and the annuity shall be increased by an additional 3% of the current payable monthly annuity, including any increases previously granted under this Article, on the same date each year thereafter. The increases provided under this subsection are in lieu of the increases provided in subsection (a).

(a-6) Notwithstanding the provisions of subsections (a) and (a-5), for all calendar years following the year in which this amendatory Act of the 93rd General Assembly takes effect, an increase in annuity under this Section that would otherwise take effect at any time during the year shall instead take effect in January of that year.

(b) Subsections (a), (a-5), and (a-6) are not applicable to an employee retiring and receiving a term annuity, as defined in this Article, nor to any otherwise qualified employee who retires before he shall have made employee contributions (at the 1/2 of 1% rate as hereinafter provided) for the purposes of this additional annuity for not less than the equivalent of one full year. Such employee, however, shall make arrangement to pay to the fund a balance of such 1/2 of 1% contributions, based on his final salary, as will bring such 1/2 of 1% contributions, computed without interest, to the equivalent of or completion of one year's contributions.

Beginning with the month of January, 1964, each employee shall contribute by means of salary deductions 1/2 of 1% of each salary payment, concurrently with and in addition to the employee contributions otherwise made for annuity purposes.

Each such additional employee contribution shall be credited to an account in the prior service annuity reserve, to be used, together with city contributions, to defray the cost of the specified annuity increments. Any balance as of the beginning of each calendar year existing in such account shall be credited with interest at the rate of 3% per annum.

Such employee contributions shall not be subject to refund, except to an employee who resigns or is discharged and applies for refund under this Article, and also in cases where a term annuity becomes payable.

In such cases the employee contributions shall be refunded him, without interest, and charged to the aforementioned account in the prior service annuity reserve.

(b-5) Notwithstanding any provision of this Section to the contrary:

(1) A person retiring after the effective date of this amendatory Act of the 98th General Assembly shall not be eligible for an annual increase under this Section until one full year after the date on which such annual increase otherwise would take effect under this Section.

(2) Except for persons eligible under subdivision (4) of this subsection for a minimum annual increase, there shall be no annual increase under this Section in years 2017, 2019, and 2025.

(3) In all other years, beginning January 1, 2015, the Fund shall pay an annual increase to persons eligible to receive one under this Section, in lieu of any other annual increase provided under this Section (but subject to the minimum increase under subdivision (4) of this subsection, if applicable) in an amount equal to the lesser of 3% or one-half the annual unadjusted percentage increase (but not less than zero) in the consumer price index-u for the 12 months ending with the September preceding each November 1 of the person's last annual annuity amount prior to January 1, 2015, or if the person was not yet receiving an annuity on that date, then this calculation shall be based on his or her originally granted annual annuity amount.

For the purposes of this Section, "consumer price index-u" means the index published by the Bureau of Labor Statistics of the United States Department of Labor that measures the average change in prices of goods and services purchased by all urban consumers, United States city average, all items, 1982-84 = 100.

(4) A person is eligible under this subdivision (4) to receive a minimum annual increase in a particular year if: (i) the person is otherwise eligible to receive an annual increase under subdivision (3) of this subsection, and (ii) the annual amount of the annuity payable at the time of the increase, including all increases previously received, is less than $22,000.

Beginning January 1, 2015, for a person who is eligible under this subdivision (4) to receive a minimum annual increase in the year 2017, 2019, or 2025, the annual increase shall be 1% of the person's last annual annuity amount prior to January 1, 2015, or if the person was not yet receiving an annuity on that date, then 1% of his or her originally granted annual annuity amount.

Beginning January 1, 2015, for any other year in which a person is eligible under this subdivision (4) to receive a minimum annual increase, the annual increase shall be as specified under
subdivision (3), but not less than 1% of the person's last annual annuity amount prior to January 1, 2015 or, if the person was not yet receiving an annuity on that date, then not less than 1% of his or her originally granted annual annuity amount.

For the purposes of Section 1-103.1, this subsection (b-5) is applicable without regard to whether the employee was in active service on or after the effective date of this amendatory Act of the 98th General Assembly. This subsection (b-5) applies to any former employee who on or after the effective date of this amendatory Act of the 98th General Assembly is receiving a retirement annuity and is eligible for an automatic annual increase under this Section.

Sec. 11-134.3. Automatic increases in annuity for certain heretofore retired participants.

(a) A retired employee who (i) (a) is receiving annuity based on a service credit of 20 or more years regardless of age at retirement or based on a service credit of 15 or more years with retirement at age 55 or over, and (ii) (b) does not qualify for the automatic increases in annuity provided for in Section 11-134.1 of this Article, and (iii) (c) elects to make a contribution to the Fund at a time and manner prescribed by the Retirement Board, of a sum equal to 1% of the amount of final monthly salary times the number of full years of service on which the annuity was based in those cases where the annuity was computed on the money purchase formula, and in those cases in which the annuity was computed under the minimum annuity formula provisions of this Article a sum equal to 1% of the average monthly salary on which the annuity was based times such number of full years of service, shall have his original fixed and payable monthly amount of annuity increased in January of the year following the year in which he attains the age of 65 years, if such age of 65 years is attained in the year 1969 or later, by an amount equal to 1 1/2%, and by an equal additional 1 1/2% in January of each year thereafter. Beginning with January of the year 1972, such increases shall be at the rate of 2% in lieu of the aforesaid specified 1 1/2%. Beginning January, 1984, such increases shall be at the rate of 3%. Beginning in January of 1999, such increases shall be at the rate of 3% of the currently payable monthly annuity, including any increases previously granted under this Article.

In those cases in which the retired employee receiving annuity has attained the age of 66 or more years in the year 1969, he shall have such annuity increased in January of the year 1970 by an amount equal to 1 1/2%
multiplied by the number equal to the number of months of January elapsing from and including January of the year immediately following the year he attained the age of 65 years if retired at or prior to age 65, or from and including January of the year immediately following the year of retirement if retired at an age greater than 65 years, to and including January of the year 1970, and by an equal additional 1 1/2% in January of each year thereafter. Beginning with January of the year 1972, such increases shall be at the rate of 2% in lieu of the aforesaid specified 1 1/2%. Beginning January, 1984, such increases shall be at the rate of 3%. Beginning in January of 1999, such increases shall be at the rate of 3% of the currently payable monthly annuity, including any increases previously granted under this Article.

(b) To defray the annual cost of such increases, the annual interest income of the Fund, accruing from investments held by the Fund, exclusive of gains or losses on sales or exchanges of assets during the year, over and above 4% a year, shall be used to the extent necessary and available to finance the cost of such increases for the following year, and such amount shall be transferred as of the end of each year, beginning with the year 1969, to a Fund account designated as the Supplementary Payment Reserve from the Investment and Interest Reserve set forth in Sec. 11-210. The sums contributed by annuitants as provided for in this Section shall also be placed in the aforesaid Supplementary Payment Reserve and shall be applied for and used for the purposes of such Fund account, together with the aforesaid interest.

In the event the monies in the Supplementary Payment Reserve in any year arising from: (1) the available interest income as defined hereinbefore and accruing in the preceding year above 4% a year and (2) the contributions by retired persons, as set forth hereinbefore, are insufficient to make the total payments to all persons estimated to be entitled to the annuity increases specified hereinbefore, then (3) any interest earnings over 4% a year beginning with the year 1969 which were not previously used to finance such increases and which were transferred to the Prior Service Annuity Reserve may be used to the extent necessary and available to provide sufficient funds to finance such increases for the current year, and such sums shall be transferred from the Prior Service Annuity Reserve.

In the event the total monies available in the Supplementary Payment Reserve from the preceding indicated sources are insufficient to make the total payments to all persons entitled to such increases for the year, a proportionate amount computed as the ratio of the monies available to the

total of the total payments for that year shall be paid to each person for that year.

The Fund shall be obligated for the payment of the increases in annuity as provided for in this Section only to the extent that the assets for such purpose, as specified herein, are available.

(b-5) Notwithstanding any provision of this Section to the contrary:

(1) Except for persons eligible under subdivision (3) of this subsection for a minimum annual increase, there shall be no annual increase under this Section in years 2017, 2019, and 2025.

(2) In all other years, beginning January 1, 2015, the Fund shall pay an annual increase to persons eligible to receive one under this Section, in lieu of any other annual increase provided under this Section (but subject to the minimum increase under subdivision (3) of this subsection, if applicable) in an amount equal to the lesser of 3% or one-half the annual unadjusted percentage increase (but not less than zero) in the consumer price index-u for the 12 months ending with the September preceding each November 1 of the person's last annual annuity amount prior to January 1, 2015.

For the purposes of this Section, "consumer price index-u" means the index published by the Bureau of Labor Statistics of the United States Department of Labor that measures the average change in prices of goods and services purchased by all urban consumers, United States city average, all items, 1982-84 = 100.

(3) A person is eligible under this subdivision (3) to receive a minimum annual increase in a particular year if: (i) the person is otherwise eligible to receive an annual increase under subdivision (2) of this subsection, and (ii) the annual amount of the annuity payable at the time of the increase, including all increases previously received, is less than $22,000.

Beginning January 1, 2015, for a person who is eligible under this subdivision (3) to receive a minimum annual increase in the year 2017, 2019, or 2025, the annual increase shall be 1% of the person's last annual annuity amount prior to January 1, 2015.

Beginning January 1, 2015, for any other year in which a person is eligible under this subdivision (3) to receive a minimum annual increase, the annual increase shall be as specified under subdivision (2), but not less than 1% of the person's last annual annuity amount prior to January 1, 2015.

Sec. 11-169. Financing; tax levy.

(a) Except as provided in subsection (f) of this Section, the city council of the city shall levy a tax annually upon all taxable property in the city at the rate that will produce a sum which, when added to the amounts deducted from the salaries of the employees or otherwise contributed by them and the amounts deposited under subsection (f), will be sufficient for the requirements of this Article. For the years prior to the year 1950 the tax rate shall be as provided for under "The 1935 Act". Beginning with the year 1950 to and including the year 1969 such tax shall be not more than .036% annually of the value, as equalized or assessed by the Department of Revenue, of all taxable property within such city. Beginning with the year 1970 and each year thereafter through levy year 2014, the city shall levy a tax annually at a rate on the dollar of the value, as equalized or assessed by the Department of Revenue of all taxable property within such city that will produce, when extended, not to exceed an amount equal to the total amount of contributions by the employees to the fund made in the calendar year 2 years prior to the year for which the annual applicable tax is levied, multiplied by 1.1 for the years 1970, 1971 and 1972; 1.145 for the year 1973; 1.19 for the year 1974; 1.235 for the year 1975; 1.280 for the year 1976; 1.325 for the year 1977; 1.370 for the years 1978 through 1998; and 1.000 for the year 1999 and for each year thereafter through levy year 2014. Beginning in levy year 2015, and in each year thereafter, the levy shall not exceed the amount of the city's total required contribution to the Fund for the next payment year, as determined under subsection (a-5). For the purposes of this Section, the payment year is the year immediately following the levy year.

The tax shall be levied and collected in like manner with the general taxes of the city, and shall be exclusive of and in addition to the amount of tax the city is now or may hereafter be authorized to levy for general purposes under any laws which may limit the amount of tax which the city may levy for general purposes. The county clerk of the county in which the city is located shall certify to the city council of the city the amount of the tax as levied and the amount of tax and contributions collected by the city under this Article.

located, in reducing tax levies under the provisions of any Act concerning the
levy and extension of taxes, shall not consider the tax herein provided for as
a part of the general tax levy for city purposes, and shall not include the same
within any limitation of the per cent of the assessed valuation upon which
taxes are required to be extended for such city.

Revenues derived from such tax shall be paid to the city treasurer of
the city as collected and held by the city treasurer for the benefit of the
fund.

If the payments on account of taxes are insufficient during any year
to meet the requirements of this Article, the city may issue tax anticipation
warrants against the current tax levy.

The city may continue to use other lawfully available funds in lieu of
all or part of the levy, as provided under subsection (f) of this Section.

(a-5) Beginning in payment year 2016, the city's required annual
contribution to the Fund shall be the lesser of:

(i) (I) for payment years 2016 through 2055, the annual
amount determined by the Fund to be equal to the greater of $0, or
the sum of (1) the City's portion of the projected normal cost for that
fiscal year, plus (2) an amount determined on a level percentage of
applicable employee payroll basis (reflecting any limits on individual
participants' pay that apply for benefit and contribution purposes
under this plan) that is sufficient to bring the total actuarial assets of
the Fund up to 90% of the total actuarial liabilities of the Fund by the
end of 2055. (II) For payment years after 2055, the annual amount
determined by the Fund to be equal to the amount, if any, needed to
bring the total actuarial assets of the Fund up to 90% of the total
actuarial liabilities of the Fund as of the end of the year. In making
the determinations under both (I) and (II), the actuarial calculations
shall be determined under the entry age normal actuarial cost
method, and any actuarial gains or losses from investment return
incurred in a fiscal year shall be recognized in equal annual amounts
over the 5-year period following the fiscal year; or

(ii) for payment year 2016, 1.60 times the total amount of
contributions made by or on behalf of employees to the Fund for
annuity purposes in the calendar year 2013; for payment year 2017,
1.90 times the total amount of contributions made by or on behalf of
employees to the Fund for annuity purposes in the calendar year
2014; for payment year 2018, 2.20 times the total amount of
contributions made by or on behalf of employees to the Fund for

annuity purposes in the calendar year 2015; for payment year 2019, 2.50 times the total amount of contributions made by or on behalf of employees to the Fund for annuity purposes in the calendar year 2016; for payment year 2020, 2.80 times the total amount of contributions made by or on behalf of employees to the Fund for annuity purposes in the calendar year 2017.

However, beginning in the earlier of payment year 2021 or the first payment year in which the annual contribution amount calculated under subdivision (i) is less than the contribution amount calculated under subdivision (ii), and in each year thereafter, the city's required annual contribution to the Fund shall be determined under subdivision (i).

The city's required annual contribution to the Fund may be paid with any available funds and shall be paid by the city to the city treasurer. The city treasurer shall collect and hold those funds for the benefit of the Fund.

(a-10) If the city fails to transmit to the Fund contributions required of it under this Article by December 31st of the year in which such contributions are due, the Fund may, after giving notice to the city, certify to the State Comptroller the amounts of the delinquent payments, and the Comptroller must, beginning in payment year 2016, deduct and deposit into the Fund the certified amounts or a portion of those amounts from the following proportions of grants of State funds to the city:

(1) in payment year 2016, one-third of the total amount of any grants of State funds to the city;
(2) in payment year 2017, two-thirds of the total amount of any grants of State funds to the city; and
(3) in payment year 2018 and each payment year thereafter, the total amount of any grants of State funds to the city.

The State Comptroller may not deduct from any grants of State funds to the city more than the amount of delinquent payments certified to the State Comptroller by the Fund.

(b) On or before July 1 January 10, annually, the board shall certify to notify the city council the annual amounts required under of the requirement of this Article, for which the tax herein provided may shall be levied for the following current year. The board shall compute the amounts necessary for the purposes of this fund to be credited to the reserves established and maintained as herein provided, and shall make an annual determination of the amount of the required city contributions; and certify the results thereof to the city council.

(c) In respect to employees of the city who are transferred to the employment of a park district by virtue of "Exchange of Functions Act of 1957" the corporate authorities of the park district shall annually levy a tax upon all the taxable property in the park district at such rate per cent of the value of such property, as equalized or assessed by the Department of Revenue, as shall be sufficient, when added to the amounts deducted from their salaries and otherwise contributed by them, to provide the benefits to which they and their dependents and beneficiaries are entitled under this Article. The city shall not levy a tax hereunder in respect to such employees.

The tax so levied by the park district shall be in addition to and exclusive of all other taxes authorized to be levied by the park district for corporate, annuity fund, or other purposes. The county clerk of the county in which the park district is located, in reducing any tax levied under the provisions of any Act concerning the levy and extension of taxes shall not consider such tax as part of the general tax levy for park purposes, and shall not include the same in any limitation of the per cent of the assessed valuation upon which taxes are required to be extended for the park district. The proceeds of the tax levied by the park district, upon receipt by the district, shall be immediately paid over to the city treasurer of the city for the uses and purposes of the fund.

The various sums to be contributed by the city and allocated for the purposes of this Article, and any interest to be contributed by the city, shall be taken from the revenue derived from the taxes authorized in this Section, and no money of such city derived from any source other than the levy and collection of those taxes or the sale of tax anticipation warrants in accordance with the provisions of this Article shall be used to provide revenue for this Article, except as expressly provided in this Section.

If it is not possible for the city to make contributions for age and service annuity and widow's annuity concurrently with the employee's contributions made for such purposes, such city shall make such contributions as soon as possible and practicable thereafter with interest thereon at the effective rate to the time they shall be made.

(d) With respect to employees whose wages are funded as participants under the Comprehensive Employment and Training Act of 1973, as amended (P.L. 93-203, 87 Stat. 839, P.L. 93-567, 88 Stat. 1845), hereinafter referred to as CETA, subsequent to October 1, 1978, and in instances where the board has elected to establish a manpower program reserve, the board shall compute the amounts necessary to be credited to the manpower program reserves established and maintained as herein provided, and shall make a

periodic determination of the amount of required contributions from the City to the reserve to be reimbursed by the federal government in accordance with rules and regulations established by the Secretary of the United States Department of Labor or his designee, and certify the results thereof to the City Council. Any such amounts shall become a credit to the City and will be used to reduce the amount which the City would otherwise contribute during succeeding years for all employees.

(e) In lieu of establishing a manpower program reserve with respect to employees whose wages are funded as participants under the Comprehensive Employment and Training Act of 1973, as authorized by subsection (d), the board may elect to establish a special municipality contribution rate for all such employees. If this option is elected, the City shall contribute to the Fund from federal funds provided under the Comprehensive Employment and Training Act program at the special rate so established and such contributions shall become a credit to the City and be used to reduce the amount which the City would otherwise contribute during succeeding years for all employees.

(f) In lieu of levying all or a portion of the tax required under this Section in any year, the city may deposit with the city treasurer no later than March 1 of that year for the benefit of the fund, to be held in accordance with this Article, an amount that, together with the taxes levied under this Section for that year, is not less than the amount of the city contributions for that year as certified by the board to the city council. The deposit may be derived from any source legally available for that purpose, including, but not limited to, the proceeds of city borrowings. The making of a deposit shall satisfy fully the requirements of this Section for that year to the extent of the amounts so deposited. Amounts deposited under this subsection may be used by the fund for any of the purposes for which the proceeds of the tax levied by the city under this Section may be used, including the payment of any amount that is otherwise required by this Article to be paid from the proceeds of that tax.

(b) In ordering the city to make the required payment, the court may order a reasonable payment schedule to enable the city to make the required payment without significantly imperiling the public health, safety, or welfare. Any payments required to be made by the city pursuant to this Section are expressly subordinated to the payment of the principal, interest, premium, if any, and other payments on or related to any bonded debt obligation of the city, either currently outstanding or to be issued, for which the source of repayment or security thereon is derived directly or indirectly from any funds collected or received by the city or collected or received on behalf of the city. Sec. 10-17a. State, school district, and school report cards.

(1) By October 31, 2013 and October 31 of each subsequent school year, the State Board of Education, through the State Superintendent of Education, shall prepare a State report card, school district report cards, and school report cards, and shall by the most economic means provide to each school district in this State, including special charter districts and districts subject to the provisions of Article 34, the report cards for the school district and each of its schools.

(2) In addition to any information required by federal law, the State Superintendent shall determine the indicators and presentation of the school report card, which must include, at a minimum, the most current data possessed by the State Board of Education related to the following:

   (A) school characteristics and student demographics, including average class size, average teaching experience, student racial/ethnic breakdown, and the percentage of students classified as low-income; the percentage of students classified as limited English proficiency; the percentage of students who have individualized education plans or 504 plans that provide for special education

services; the percentage of students who annually transferred in or out of the school district; the per-pupil operating expenditure of the school district; and the per-pupil State average operating expenditure for the district type (elementary, high school, or unit);

(B) curriculum information, including, where applicable, Advanced Placement, International Baccalaureate or equivalent courses, dual enrollment courses, foreign language classes, school personnel resources (including Career Technical Education teachers), before and after school programs, extracurricular activities, subjects in which elective classes are offered, health and wellness initiatives (including the average number of days of Physical Education per week per student), approved programs of study, awards received, community partnerships, and special programs such as programming for the gifted and talented, students with disabilities, and work-study students;

(C) student outcomes, including, where applicable, the percentage of students meeting as well as exceeding State standards on assessments, the percentage of students in the eighth grade who pass Algebra, the percentage of students enrolled in post-secondary institutions (including colleges, universities, community colleges, trade/vocational schools, and training programs leading to career certification within 2 semesters of high school graduation), the percentage of students graduating from high school who are college ready, the percentage of students graduating from high school who are career ready, and the percentage of graduates enrolled in community colleges, colleges, and universities who are in one or more courses that the community college, college, or university identifies as a remedial course;

(D) student progress, including, where applicable, the percentage of students in the ninth grade who have earned 5 credits or more without failing more than one core class, a measure of students entering kindergarten ready to learn, a measure of growth, and the percentage of students who enter high school on track for college and career readiness; and

(E) the school environment, including, where applicable, the percentage of students with less than 10 absences in a school year, the percentage of teachers with less than 10 absences in a school year for reasons other than professional development, leaves taken pursuant to the federal Family Medical Leave Act of 1993, long-term

disability, or parental leaves, the 3-year average of the percentage of
teachers returning to the school from the previous year, the number
of different principals at the school in the last 6 years, 2 or more
indicators from any school climate survey selected or approved
developed by the State and administered pursuant to Section 2-3.153
of this Code, with the same or similar indicators included on school
report cards for all surveys selected or approved by the State
pursuant to Section 2-3.153 of this Code, and the combined
percentage of teachers rated as proficient or excellent in their most
recent evaluation.

The school report card shall also provide information that allows for
comparing the current outcome, progress, and environment data to the State
average, to the school data from the past 5 years, and to the outcomes,
progress, and environment of similar schools based on the type of school and
enrollment of low-income, special education, and limited English proficiency
students.

(3) At the discretion of the State Superintendent, the school district
report card shall include a subset of the information identified in paragraphs
(A) through (E) of subsection (2) of this Section, as well as information
relating to the operating expense per pupil and other finances of the school
district, and the State report card shall include a subset of the information
identified in paragraphs (A) through (E) of subsection (2) of this Section.

(4) Notwithstanding anything to the contrary in this Section, in
consultation with key education stakeholders, the State Superintendent shall
at any time have the discretion to amend or update any and all metrics on the
school, district, or State report card.

(5) Annually, no more than 30 calendar days after receipt of the
school district and school report cards from the State Superintendent of
Education, each school district, including special charter districts and districts
subject to the provisions of Article 34, shall present such report cards at a
regular school board meeting subject to applicable notice requirements, post
the report cards on the school district's Internet web site, if the district
maintains an Internet web site, make the report cards available to a newspaper
of general circulation serving the district, and, upon request, send the report
cards home to a parent (unless the district does not maintain an Internet web
site, in which case the report card shall be sent home to parents without
request). If the district posts the report card on its Internet web site, the
district shall send a written notice home to parents stating (i) that the report
card is available on the web site, (ii) the address of the web site, (iii) that a

printed copy of the report card will be sent to parents upon request, and (iv) the telephone number that parents may call to request a printed copy of the report card.

(6) Nothing contained in this amendatory Act of the 98th General Assembly repeals, supersedes, invalidates, or nullifies final decisions in lawsuits pending on the effective date of this amendatory Act of the 98th General Assembly in Illinois courts involving the interpretation of Public Act 97-8.

(105 ILCS 5/24-12) (from Ch. 122, par. 24-12)

Sec. 24-12. Removal or dismissal of teachers in contractual continued service.

(a) This subsection (a) applies only to honorable dismissals and recalls in which the notice of dismissal is provided on or before the end of the 2010-2011 school term. If a teacher in contractual continued service is removed or dismissed as a result of a decision of the board to decrease the number of teachers employed by the board or to discontinue some particular type of teaching service, written notice shall be mailed to the teacher and also given the teacher either by certified mail, return receipt requested or personal delivery with receipt at least 60 days before the end of the school term, together with a statement of honorable dismissal and the reason therefor, and in all such cases the board shall first remove or dismiss all teachers who have not entered upon contractual continued service before removing or dismissing any teacher who has entered upon contractual continued service and who is legally qualified to hold a position currently held by a teacher who has not entered upon contractual continued service.

As between teachers who have entered upon contractual continued service, the teacher or teachers with the shorter length of continuing service with the district shall be dismissed first unless an alternative method of determining the sequence of dismissal is established in a collective bargaining agreement or contract between the board and a professional faculty members' organization and except that this provision shall not impair the operation of any affirmative action program in the district, regardless of whether it exists by operation of law or is conducted on a voluntary basis by the board. Any teacher dismissed as a result of such decrease or discontinuance shall be paid all earned compensation on or before the third business day following the last day of pupil attendance in the regular school term.

New matter indicated by italics - deletions by strikeout
If the board has any vacancies for the following school term or within one calendar year from the beginning of the following school term, the positions thereby becoming available shall be tendered to the teachers so removed or dismissed so far as they are legally qualified to hold such positions; provided, however, that if the number of honorable dismissal notices based on economic necessity exceeds 15% of the number of full time equivalent positions filled by certified employees (excluding principals and administrative personnel) during the preceding school year, then if the board has any vacancies for the following school term or within 2 calendar years from the beginning of the following school term, the positions so becoming available shall be tendered to the teachers who were so notified and removed or dismissed whenever they are legally qualified to hold such positions. Each board shall, in consultation with any exclusive employee representatives, each year establish a list, categorized by positions, showing the length of continuing service of each teacher who is qualified to hold any such positions, unless an alternative method of determining a sequence of dismissal is established as provided for in this Section, in which case a list shall be made in accordance with the alternative method. Copies of the list shall be distributed to the exclusive employee representative on or before February 1 of each year. Whenever the number of honorable dismissal notices based upon economic necessity exceeds 5, or 150% of the average number of teachers honorably dismissed in the preceding 3 years, whichever is more, then the board also shall hold a public hearing on the question of the dismissals. Following the hearing and board review the action to approve any such reduction shall require a majority vote of the board members.

(b) This subsection (b) applies only to honorable dismissals and recalls in which the notice of dismissal is provided during the 2011-2012 school term or a subsequent school term. If any teacher, whether or not in contractual continued service, is removed or dismissed as a result of a decision of a school board to decrease the number of teachers employed by the board, a decision of a school board to discontinue some particular type of teaching service, or a reduction in the number of programs or positions in a special education joint agreement, then written notice must be mailed to the teacher and also given to the teacher either by certified mail, return receipt requested, or personal delivery with receipt at least 45 days before the end of the school term, together with a statement of honorable dismissal and the reason therefor, and in all such cases the sequence of dismissal shall occur in accordance with this subsection (b); except that this subsection (b) shall not impair the operation of any affirmative action program in the school district,

New matter indicated by italics - deletions by strikeout
regardless of whether it exists by operation of law or is conducted on a voluntary basis by the board.

Each teacher must be categorized into one or more positions for which the teacher is qualified to hold, based upon legal qualifications and any other qualifications established in a district or joint agreement job description, on or before the May 10 prior to the school year during which the sequence of dismissal is determined. Within each position and subject to agreements made by the joint committee on honorable dismissals that are authorized by subsection (e) of this Section, the school district or joint agreement must establish 4 groupings of teachers qualified to hold the position as follows:

(1) Grouping one shall consist of each teacher who is not in contractual continued service and who (i) has not received a performance evaluation rating, (ii) is employed for one school term or less to replace a teacher on leave, or (iii) is employed on a part-time basis. "Part-time basis" for the purposes of this subsection (b) means a teacher who is employed to teach less than a full-day, teacher workload or less than 5 days of the normal student attendance week, unless otherwise provided for in a collective bargaining agreement between the district and the exclusive representative of the district's teachers. For the purposes of this Section, a teacher (A) who is employed as a full-time teacher but who actually teaches or is otherwise present and participating in the district's educational program for less than a school term or (B) who, in the immediately previous school term, was employed on a full-time basis and actually taught or was otherwise present and participated in the district's educational program for 120 days or more is not considered employed on a part-time basis.

(2) Grouping 2 shall consist of each teacher with a Needs Improvement or Unsatisfactory performance evaluation rating on either of the teacher's last 2 performance evaluation ratings.

(3) Grouping 3 shall consist of each teacher with a performance evaluation rating of at least Satisfactory or Proficient on both of the teacher's last 2 performance evaluation ratings, if 2 ratings are available, or on the teacher's last performance evaluation rating, if only one rating is available, unless the teacher qualifies for placement into grouping 4.

(4) Grouping 4 shall consist of each teacher whose last 2 performance evaluation ratings are Excellent and each teacher with
2 Excellent performance evaluation ratings out of the teacher's last 3 performance evaluation ratings with a third rating of Satisfactory or Proficient.

Among teachers qualified to hold a position, teachers must be dismissed in the order of their groupings, with teachers in grouping one dismissed first and teachers in grouping 4 dismissed last.

Within grouping one, the sequence of dismissal must be at the discretion of the school district or joint agreement. Within grouping 2, the sequence of dismissal must be based upon average performance evaluation ratings, with the teacher or teachers with the lowest average performance evaluation rating dismissed first. A teacher's average performance evaluation rating must be calculated using the average of the teacher's last 2 performance evaluation ratings, if 2 ratings are available, or the teacher's last performance evaluation rating, if only one rating is available, using the following numerical values: 4 for Excellent; 3 for Proficient or Satisfactory; 2 for Needs Improvement; and 1 for Unsatisfactory. As between or among teachers in grouping 2 with the same average performance evaluation rating and within each of groupings 3 and 4, the teacher or teachers with the shorter length of continuing service with the school district or joint agreement must be dismissed first unless an alternative method of determining the sequence of dismissal is established in a collective bargaining agreement or contract between the board and a professional faculty members' organization.

Each board, including the governing board of a joint agreement, shall, in consultation with any exclusive employee representatives, each year establish a sequence of honorable dismissal list categorized by positions and the groupings defined in this subsection (b). Copies of the list showing each teacher by name and categorized by positions and the groupings defined in this subsection (b) must be distributed to the exclusive bargaining representative at least 75 days before the end of the school term, provided that the school district or joint agreement may, with notice to any exclusive employee representatives, move teachers from grouping one into another grouping during the period of time from 75 days until 45 days before the end of the school term. Each year, each board shall also establish, in consultation with any exclusive employee representatives, a list showing the length of continuing service of each teacher who is qualified to hold any such positions, unless an alternative method of determining a sequence of dismissal is established as provided for in this Section, in which case a list must be made in accordance with the alternative method. Copies of the list

New matter indicated by italics - deletions by strikeout
must be distributed to the exclusive employee representative at least 75 days before the end of the school term.

Any teacher dismissed as a result of such decrease or discontinuance must be paid all earned compensation on or before the third business day following the last day of pupil attendance in the regular school term.

If the board or joint agreement has any vacancies for the following school term or within one calendar year from the beginning of the following school term, the positions thereby becoming available must be tendered to the teachers so removed or dismissed who were in groupings 3 or 4 of the sequence of dismissal and are qualified to hold the positions, based upon legal qualifications and any other qualifications established in a district or joint agreement job description, on or before the May 10 prior to the date of the positions becoming available, provided that if the number of honorable dismissal notices based on economic necessity exceeds 15% of the number of full-time equivalent positions filled by certified employees (excluding principals and administrative personnel) during the preceding school year, then the recall period is for the following school term or within 2 calendar years from the beginning of the following school term. If the board or joint agreement has any vacancies within the period from the beginning of the following school term through February 1 of the following school term (unless a date later than February 1, but no later than 6 months from the beginning of the following school term, is established in a collective bargaining agreement), the positions thereby becoming available must be tendered to the teachers so removed or dismissed who were in grouping 2 of the sequence of dismissal due to one "needs improvement" rating on either of the teacher’s last 2 performance evaluation ratings, provided that, if 2 ratings are available, the other performance evaluation rating used for grouping purposes is "satisfactory", "proficient", or "excellent", and are qualified to hold the positions, based upon legal qualifications and any other qualifications established in a district or joint agreement job description, on or before the May 10 prior to the date of the positions becoming available. On and after the effective date of this amendatory Act of the 98th General Assembly, the preceding sentence shall apply to teachers removed or dismissed by honorable dismissal, even if notice of honorable dismissal occurred during the 2013-2014 school year. Among teachers eligible for recall pursuant to the preceding sentence, the order of recall must be in inverse order of dismissal, unless an alternative order of recall is established in a collective bargaining agreement or contract between the board and a professional faculty members' organization. Whenever the number of

New matter indicated by italics - deletions by strikeout
honorable dismissal notices based upon economic necessity exceeds 5 notices or 150% of the average number of teachers honorably dismissed in the preceding 3 years, whichever is more, then the school board or governing board of a joint agreement, as applicable, shall also hold a public hearing on the question of the dismissals. Following the hearing and board review, the action to approve any such reduction shall require a majority vote of the board members.

For purposes of this subsection (b), subject to agreement on an alternative definition reached by the joint committee described in subsection (c) of this Section, a teacher's performance evaluation rating means the overall performance evaluation rating resulting from an annual or biennial performance evaluation conducted pursuant to Article 24A of this Code by the school district or joint agreement determining the sequence of dismissal, not including any performance evaluation conducted during or at the end of a remediation period. No more than one evaluation rating each school term shall be one of the evaluation ratings used for the purpose of determining the sequence of dismissal. Except as otherwise provided in this subsection for any performance evaluations conducted during or at the end of a remediation period, if multiple performance evaluations are conducted in a school term, only the rating from the last evaluation conducted prior to establishing the sequence of honorable dismissal list in such school term shall be the one evaluation rating from that school term used for the purpose of determining the sequence of dismissal. Averaging ratings from multiple evaluations is not permitted unless otherwise agreed to in a collective bargaining agreement or contract between the board and a professional faculty members' organization. The preceding 3 sentences are not a legislative declaration that existing law does or does not already require that only one performance evaluation each school term shall be used for the purpose of determining the sequence of dismissal. For performance evaluation ratings determined prior to September 1, 2012, any school district or joint agreement with a performance evaluation rating system that does not use either of the rating category systems specified in subsection (d) of Section 24A-5 of this Code for all teachers must establish a basis for assigning each teacher a rating that complies with subsection (d) of Section 24A-5 of this Code for all of the performance evaluation ratings that are to be used to determine the sequence of dismissal. A teacher's grouping and ranking on a sequence of honorable dismissal shall be deemed a part of the teacher's performance evaluation, and that information shall may be disclosed to the exclusive bargaining representative as part of a sequence of honorable dismissal list,
notwithstanding any laws prohibiting disclosure of such information. A performance evaluation rating may be used to determine the sequence of dismissal, notwithstanding the pendency of any grievance resolution or arbitration procedures relating to the performance evaluation. If a teacher has received at least one performance evaluation rating conducted by the school district or joint agreement determining the sequence of dismissal and a subsequent performance evaluation is not conducted in any school year in which such evaluation is required to be conducted under Section 24A-5 of this Code, the teacher's performance evaluation rating for that school year for purposes of determining the sequence of dismissal is deemed Proficient. If a performance evaluation rating is nullified as the result of an arbitration, administrative agency, or court determination, then the school district or joint agreement is deemed to have conducted a performance evaluation for that school year, but the performance evaluation rating may not be used in determining the sequence of dismissal.

Nothing in this subsection (b) shall be construed as limiting the right of a school board or governing board of a joint agreement to dismiss a teacher not in contractual continued service in accordance with Section 24-11 of this Code.

Any provisions regarding the sequence of honorable dismissals and recall of honorably dismissed teachers in a collective bargaining agreement entered into on or before January 1, 2011 and in effect on the effective date of this amendatory Act of the 97th General Assembly that may conflict with this amendatory Act of the 97th General Assembly shall remain in effect through the expiration of such agreement or June 30, 2013, whichever is earlier.

(c) Each school district and special education joint agreement must use a joint committee composed of equal representation selected by the school board and its teachers or, if applicable, the exclusive bargaining representative of its teachers, to address the matters described in paragraphs (1) through (5) of this subsection (c) pertaining to honorable dismissals under subsection (b) of this Section.

(1) The joint committee must consider and may agree to criteria for excluding from grouping 2 and placing into grouping 3 a teacher whose last 2 performance evaluations include a Needs Improvement and either a Proficient or Excellent.

(2) The joint committee must consider and may agree to an alternative definition for grouping 4, which definition must take into account prior performance evaluation ratings and may take into account:

New matter indicated by italics - deletions by strikeout
account other factors that relate to the school district's or program's educational objectives. An alternative definition for grouping 4 may not permit the inclusion of a teacher in the grouping with a Needs Improvement or Unsatisfactory performance evaluation rating on either of the teacher's last 2 performance evaluation ratings.

(3) The joint committee may agree to including within the definition of a performance evaluation rating a performance evaluation rating administered by a school district or joint agreement other than the school district or joint agreement determining the sequence of dismissal.

(4) For each school district or joint agreement that administers performance evaluation ratings that are inconsistent with either of the rating category systems specified in subsection (d) of Section 24A-5 of this Code, the school district or joint agreement must consult with the joint committee on the basis for assigning a rating that complies with subsection (d) of Section 24A-5 of this Code to each performance evaluation rating that will be used in a sequence of dismissal.

(5) Upon request by a joint committee member submitted to the employing board by no later than 10 days after the distribution of the sequence of honorable dismissal list, a representative of the employing board shall, within 5 days after the request, provide to members of the joint committee a list showing the most recent and prior performance evaluation ratings of each teacher identified only by length of continuing service in the district or joint agreement and not by name. If, after review of this list, a member of the joint committee has a good faith belief that a disproportionate number of teachers with greater length of continuing service with the district or joint agreement have received a recent performance evaluation rating lower than the prior rating, the member may request that the joint committee review the list to assess whether such a trend may exist. Following the joint committee's review, but by no later than the end of the applicable school term, the joint committee or any member or members of the joint committee may submit a report of the review to the employing board and exclusive bargaining representative, if any. Nothing in this paragraph (5) shall impact the order of honorable dismissal or a school district's or joint agreement's authority to carry out a dismissal in accordance with subsection (b) of this Section.
Agreement by the joint committee as to a matter requires the majority vote of all committee members, and if the joint committee does not reach agreement on a matter, then the otherwise applicable requirements of subsection (b) of this Section shall apply. Except as explicitly set forth in this subsection (c), a joint committee has no authority to agree to any further modifications to the requirements for honorable dismissals set forth in subsection (b) of this Section. The joint committee must be established, and the first meeting of the joint committee each school year must occur on or before December 1.

The joint committee must reach agreement on a matter on or before February 1 of a school year in order for the agreement of the joint committee to apply to the sequence of dismissal determined during that school year. Subject to the February 1 deadline for agreements, the agreement of a joint committee on a matter shall apply to the sequence of dismissal until the agreement is amended or terminated by the joint committee.

(d) Notwithstanding anything to the contrary in this subsection (d), the requirements and dismissal procedures of Section 24-16.5 of this Code shall apply to any dismissal sought under Section 24-16.5 of this Code.

(1) If a dismissal of a teacher in contractual continued service is sought for any reason or cause other than an honorable dismissal under subsections (a) or (b) of this Section or a dismissal sought under Section 24-16.5 of this Code, including those under Section 10-22.4, the board must first approve a motion containing specific charges by a majority vote of all its members. Written notice of such charges, including a bill of particulars and the teacher's right to request a hearing, must be mailed to the teacher and also given to the teacher either by certified mail, return receipt requested, or personal delivery with receipt within 5 days of the adoption of the motion. Any written notice sent on or after July 1, 2012 shall inform the teacher of the right to request a hearing before a mutually selected hearing officer, with the cost of the hearing officer split equally between the teacher and the board, or a hearing before a board-selected hearing officer, with the cost of the hearing officer paid by the board.

Before setting a hearing on charges stemming from causes that are considered remediable, a board must give the teacher reasonable warning in writing, stating specifically the causes that, if not removed, may result in charges; however, no such written warning is required if the causes have been the subject of a remediation plan pursuant to Article 24A of this Code.

New matter indicated by italics - deletions by strikeout
If, in the opinion of the board, the interests of the school require it, the board may suspend the teacher without pay, pending the hearing, but if the board's dismissal or removal is not sustained, the teacher shall not suffer the loss of any salary or benefits by reason of the suspension.

(2) No hearing upon the charges is required unless the teacher within 17 days after receiving notice requests in writing of the board that a hearing be scheduled before a mutually selected hearing officer or a hearing officer selected by the board. The secretary of the school board shall forward a copy of the notice to the State Board of Education.

(3) Within 5 business days after receiving a notice of hearing in which either notice to the teacher was sent before July 1, 2012 or, if the notice was sent on or after July 1, 2012, the teacher has requested a hearing before a mutually selected hearing officer, the State Board of Education shall provide a list of 5 prospective, impartial hearing officers from the master list of qualified, impartial hearing officers maintained by the State Board of Education. Each person on the master list must (i) be accredited by a national arbitration organization and have had a minimum of 5 years of experience directly related to labor and employment relations matters between employers and employees or their exclusive bargaining representatives and (ii) beginning September 1, 2012, have participated in training provided or approved by the State Board of Education for teacher dismissal hearing officers so that he or she is familiar with issues generally involved in evaluative and non-evaluative dismissals.

If notice to the teacher was sent before July 1, 2012 or, if the notice was sent on or after July 1, 2012, the teacher has requested a hearing before a mutually selected hearing officer, the board and the teacher or their legal representatives within 3 business days shall alternately strike one name from the list provided by the State Board of Education until only one name remains. Unless waived by the teacher, the teacher shall have the right to proceed first with the striking. Within 3 business days of receipt of the list provided by the State Board of Education, the board and the teacher or their legal representatives shall each have the right to reject all prospective hearing officers named on the list and notify the State Board of Education of such rejection. Within 3 business days after receiving

New matter indicated by italics - deletions by strikeout
this notification, the State Board of Education shall appoint a qualified person from the master list who did not appear on the list sent to the parties to serve as the hearing officer, unless the parties notify it that they have chosen to alternatively select a hearing officer under paragraph (4) of this subsection (d).

If the teacher has requested a hearing before a hearing officer selected by the board, the board shall select one name from the master list of qualified impartial hearing officers maintained by the State Board of Education within 3 business days after receipt and shall notify the State Board of Education of its selection.

A hearing officer mutually selected by the parties, selected by the board, or selected through an alternative selection process under paragraph (4) of this subsection (d) (A) must not be a resident of the school district, (B) must be available to commence the hearing within 75 days and conclude the hearing within 120 days after being selected as the hearing officer, and (C) must issue a decision as to whether the teacher must be dismissed and give a copy of that decision to both the teacher and the board within 30 days from the conclusion of the hearing or closure of the record, whichever is later.

(4) In the alternative to selecting a hearing officer from the list received from the State Board of Education or accepting the appointment of a hearing officer by the State Board of Education or if the State Board of Education cannot provide a list or appoint a hearing officer that meets the foregoing requirements, the board and the teacher or their legal representatives may mutually agree to select an impartial hearing officer who is not on the master list either by direct appointment by the parties or by using procedures for the appointment of an arbitrator established by the Federal Mediation and Conciliation Service or the American Arbitration Association. The parties shall notify the State Board of Education of their intent to select a hearing officer using an alternative procedure within 3 business days of receipt of a list of prospective hearing officers provided by the State Board of Education, notice of appointment of a hearing officer by the State Board of Education, or receipt of notice from the State Board of Education that it cannot provide a list that meets the foregoing requirements, whichever is later.

(5) If the notice of dismissal was sent to the teacher before July 1, 2012, the fees and costs for the hearing officer must be paid by the State Board of Education. If the notice of dismissal was sent

New matter indicated by italics - deletions by strikeout
to the teacher on or after July 1, 2012, the hearing officer's fees and costs must be paid as follows in this paragraph (5). The fees and permissible costs for the hearing officer must be determined by the State Board of Education. If the board and the teacher or their legal representatives mutually agree to select an impartial hearing officer who is not on a list received from the State Board of Education, they may agree to supplement the fees determined by the State Board to the hearing officer, at a rate consistent with the hearing officer's published professional fees. If the hearing officer is mutually selected by the parties, then the board and the teacher or their legal representatives shall each pay 50% of the fees and costs and any supplemental allowance to which they agree. If the hearing officer is selected by the board, then the board shall pay 100% of the hearing officer's fees and costs. The fees and costs must be paid to the hearing officer within 14 days after the board and the teacher or their legal representatives receive the hearing officer's decision set forth in paragraph (7) of this subsection (d).

(6) The teacher is required to answer the bill of particulars and aver affirmative matters in his or her defense, and the time for initially doing so and the time for updating such answer and defenses after pre-hearing discovery must be set by the hearing officer. The State Board of Education shall promulgate rules so that each party has a fair opportunity to present its case and to ensure that the dismissal process proceeds in a fair and expeditious manner. These rules shall address, without limitation, discovery and hearing scheduling conferences; the teacher's initial answer and affirmative defenses to the bill of particulars and the updating of that information after pre-hearing discovery; provision for written interrogatories and requests for production of documents; the requirement that each party initially disclose to the other party and then update the disclosure no later than 10 calendar days prior to the commencement of the hearing, the names and addresses of persons who may be called as witnesses at the hearing, a summary of the facts or opinions each witness will testify to, and all other documents and materials, including information maintained electronically, relevant to its own as well as the other party's case (the hearing officer may exclude witnesses and exhibits not identified and shared, except those offered in rebuttal for which the party could not reasonably have anticipated prior to the hearing); pre-hearing discovery and preparation, including provision for written

New matter indicated by italics - deletions by strikeout
interrogatories and requests for production of documents, provided that discovery depositions are prohibited; the conduct of the hearing; the right of each party to be represented by counsel, the offer of evidence and witnesses and the cross-examination of witnesses; the authority of the hearing officer to issue subpoenas and subpoenas duces tecum, provided that the hearing officer may limit the number of witnesses to be subpoenaed on behalf of each party to no more than 7; the length of post-hearing briefs; and the form, length, and content of hearing officers' decisions. The hearing officer shall hold a hearing and render a final decision for dismissal pursuant to Article 24A of this Code or shall report to the school board findings of fact and a recommendation as to whether or not the teacher must be dismissed for conduct. The hearing officer shall commence the hearing within 75 days and conclude the hearing within 120 days after being selected as the hearing officer, provided that the hearing officer may modify these timelines upon the showing of good cause or mutual agreement of the parties. Good cause for the purpose of this subsection (d) shall mean the illness or otherwise unavoidable emergency of the teacher, district representative, their legal representatives, the hearing officer, or an essential witness as indicated in each party's pre-hearing submission. In a dismissal hearing pursuant to Article 24A of this Code, the hearing officer shall consider and give weight to all of the teacher's evaluations written pursuant to Article 24A that are relevant to the issues in the hearing.

Each party shall have no more than 3 days to present its case, unless extended by the hearing officer to enable a party to present adequate evidence and testimony, including due to the other party's cross-examination of the party's witnesses, for good cause or by mutual agreement of the parties. The State Board of Education shall define in rules the meaning of "day" for such purposes. All testimony at the hearing shall be taken under oath administered by the hearing officer. The hearing officer shall cause a record of the proceedings to be kept and shall employ a competent reporter to take stenographic or stenotype notes of all the testimony. The costs of the reporter's attendance and services at the hearing shall be paid by the party or parties who are responsible for paying the fees and costs of the hearing officer. Either party desiring a transcript of the hearing shall pay for the cost thereof. Any post-hearing briefs must be submitted by the parties by no later than 21 days after a party's receipt of the

transcript of the hearing, unless extended by the hearing officer for good cause or by mutual agreement of the parties.

(7) The hearing officer shall, within 30 days from the conclusion of the hearing or closure of the record, whichever is later, make a decision as to whether or not the teacher shall be dismissed pursuant to Article 24A of this Code or report to the school board findings of fact and a recommendation as to whether or not the teacher shall be dismissed for cause and shall give a copy of the decision or findings of fact and recommendation to both the teacher and the school board. If a hearing officer fails without good cause, specifically provided in writing to both parties and the State Board of Education, to render a decision or findings of fact and recommendation within 30 days after the hearing is concluded or the record is closed, whichever is later, the parties may mutually agree to select a hearing officer pursuant to the alternative procedure, as provided in this Section, to rehear the charges heard by the hearing officer who failed to render a decision or findings of fact and recommendation or to review the record and render a decision. If any hearing officer fails without good cause, specifically provided in writing to both parties and the State Board of Education, to render a decision or findings of fact and recommendation within 30 days after the hearing is concluded or the record is closed, whichever is later, the hearing officer shall be removed from the master list of hearing officers maintained by the State Board of Education for not more than 24 months. The parties and the State Board of Education may also take such other actions as it deems appropriate, including recovering, reducing, or withholding any fees paid or to be paid to the hearing officer. If any hearing officer repeats such failure, he or she must be permanently removed from the master list maintained by the State Board of Education and may not be selected by parties through the alternative selection process under this paragraph (7) or paragraph (4) of this subsection (d). The board shall not lose jurisdiction to discharge a teacher if the hearing officer fails to render a decision or findings of fact and recommendation within the time specified in this Section. If the decision of the hearing officer for dismissal pursuant to Article 24A of this Code or of the school board for dismissal for cause is in favor of the teacher, then the hearing officer or school board shall order reinstatement to the same or substantially equivalent
position and shall determine the amount for which the school board is liable, including, but not limited to, loss of income and benefits.

(8) The school board, within 45 days after receipt of the hearing officer's findings of fact and recommendation as to whether (i) the conduct at issue occurred, (ii) the conduct that did occur was remediable, and (iii) the proposed dismissal should be sustained, shall issue a written order as to whether the teacher must be retained or dismissed for cause from its employ. The school board's written order shall incorporate the hearing officer's findings of fact, except that the school board may modify or supplement the findings of fact if, in its opinion, the findings of fact are against the manifest weight of the evidence.

If the school board dismisses the teacher notwithstanding the hearing officer's findings of fact and recommendation, the school board shall make a conclusion in its written order, giving its reasons therefor, and such conclusion and reasons must be included in its written order. The failure of the school board to strictly adhere to the timelines contained in this Section shall not render it without jurisdiction to dismiss the teacher. The school board shall not lose jurisdiction to discharge the teacher for cause if the hearing officer fails to render a recommendation within the time specified in this Section. The decision of the school board is final, unless reviewed as provided in paragraph (9) of this subsection (d).

If the school board retains the teacher, the school board shall enter a written order stating the amount of back pay and lost benefits, less mitigation, to be paid to the teacher, within 45 days after its retention order. Should the teacher object to the amount of the back pay and lost benefits or amount mitigated, the teacher shall give written objections to the amount within 21 days. If the parties fail to reach resolution within 7 days, the dispute shall be referred to the hearing officer, who shall consider the school board's written order and teacher's written objection and determine the amount to which the school board is liable. The costs of the hearing officer's review and determination must be paid by the board.

(9) The decision of the hearing officer pursuant to Article 24A of this Code or of the school board's decision to dismiss for cause is final unless reviewed as provided in Section 24-16 of this Act. If the school board's decision to dismiss for cause is contrary to the hearing officer's recommendation, the court on review shall give

consideration to the school board's decision and its supplemental findings of fact, if applicable, and the hearing officer's findings of fact and recommendation in making its decision. In the event such review is instituted, the school board shall be responsible for preparing and filing the record of proceedings, and such costs associated therewith must be divided equally between the parties.

(10) If a decision of the hearing officer for dismissal pursuant to Article 24A of this Code or of the school board for dismissal for cause is adjudicated upon review or appeal in favor of the teacher, then the trial court shall order reinstatement and shall remand the matter to the school board with direction for entry of an order setting the amount of back pay, lost benefits, and costs, less mitigation. The teacher may challenge the school board's order setting the amount of back pay, lost benefits, and costs, less mitigation, through an expedited arbitration procedure, with the costs of the arbitrator borne by the school board.

Any teacher who is reinstated by any hearing or adjudication brought under this Section shall be assigned by the board to a position substantially similar to the one which that teacher held prior to that teacher's suspension or dismissal.

(11) Subject to any later effective date referenced in this Section for a specific aspect of the dismissal process, the changes made by this amendatory Act of the 97th General Assembly shall apply to dismissals instituted on or after September 1, 2011. Any dismissal instituted prior to September 1, 2011 must be carried out in accordance with the requirements of this Section prior to amendment by this amendatory Act of 97th General Assembly.

(e) Nothing contained in this amendatory Act of the 98th General Assembly repeals, supersedes, invalidates, or nullifies final decisions in lawsuits pending on the effective date of this amendatory Act of the 98th General Assembly in Illinois courts involving the interpretation of Public Act 97-8.

(105 ILCS 5/24A-5) (from Ch. 122, par. 24A-5)

Sec. 24A-5. Content of evaluation plans. This Section does not apply to teachers assigned to schools identified in an agreement entered into between the board of a school district operating under Article 34 of this Code and the exclusive representative of the district's teachers in accordance with Section 34-85c of this Code.

New matter indicated by italics - deletions by strikeout
Each school district to which this Article applies shall establish a teacher evaluation plan which ensures that each teacher in contractual continued service is evaluated at least once in the course of every 2 school years.

By no later than September 1, 2012, each school district shall establish a teacher evaluation plan that ensures that:

(1) each teacher not in contractual continued service is evaluated at least once every school year; and

(2) each teacher in contractual continued service is evaluated at least once in the course of every 2 school years. However, any teacher in contractual continued service whose performance is rated as either "needs improvement" or "unsatisfactory" must be evaluated at least once in the school year following the receipt of such rating.

Notwithstanding anything to the contrary in this Section or any other Section of the School Code, a principal shall not be prohibited from evaluating any teachers within a school during his or her first year as principal of such school. If a first-year principal exercises this option in a school district where the evaluation plan provides for a teacher in contractual continued service to be evaluated once in the course of every 2 school years, then a new 2-year evaluation plan must be established.

The evaluation plan shall comply with the requirements of this Section and of any rules adopted by the State Board of Education pursuant to this Section.

The plan shall include a description of each teacher's duties and responsibilities and of the standards to which that teacher is expected to conform, and shall include at least the following components:

(a) personal observation of the teacher in the classroom by the evaluator, unless the teacher has no classroom duties.

(b) consideration of the teacher's attendance, planning, instructional methods, classroom management, where relevant, and competency in the subject matter taught.

(c) by no later than the applicable implementation date, consideration of student growth as a significant factor in the rating of the teacher's performance.

(d) prior to September 1, 2012, rating of the performance of teachers in contractual continued service as either:

(i) "excellent", "satisfactory" or "unsatisfactory"; or

(ii) "excellent", "proficient", "needs improvement" or "unsatisfactory".

New matter indicated by italics - deletions by strikeout
(e) on and after September 1, 2012, rating of the performance of all teachers as "excellent", "proficient", "needs improvement" or "unsatisfactory".

(f) specification as to the teacher's strengths and weaknesses, with supporting reasons for the comments made.

(g) inclusion of a copy of the evaluation in the teacher's personnel file and provision of a copy to the teacher.

(h) within 30 school days after the completion of an evaluation rating a teacher in contractual continued service as "needs improvement", development by the evaluator, in consultation with the teacher, and taking into account the teacher's on-going professional responsibilities including his or her regular teaching assignments, of a professional development plan directed to the areas that need improvement and any supports that the district will provide to address the areas identified as needing improvement.

(i) within 30 school days after completion of an evaluation rating a teacher in contractual continued service as "unsatisfactory", development and commencement by the district of a remediation plan designed to correct deficiencies cited, provided the deficiencies are deemed remediable. In all school districts the remediation plan for unsatisfactory, tenured teachers shall provide for 90 school days of remediation within the classroom, unless an applicable collective bargaining agreement provides for a shorter duration. In all school districts evaluations issued pursuant to this Section shall be issued within 10 days after the conclusion of the respective remediation plan. However, the school board or other governing authority of the district shall not lose jurisdiction to discharge a teacher in the event the evaluation is not issued within 10 days after the conclusion of the respective remediation plan.

(j) participation in the remediation plan by the teacher in contractual continued service rated "unsatisfactory", an evaluator and a consulting teacher selected by the evaluator of the teacher who was rated "unsatisfactory", which consulting teacher is an educational employee as defined in the Educational Labor Relations Act, has at least 5 years' teaching experience, and a reasonable familiarity with the assignment of the teacher being evaluated, and who received an "excellent" rating on his or her most recent evaluation. Where no teachers who meet these criteria are available within the district, the district shall request and the applicable regional office of education shall provide...
shall supply, to participate in the remediation process, an individual who meets these criteria.

In a district having a population of less than 500,000 with an exclusive bargaining agent, the bargaining agent may, if it so chooses, supply a roster of qualified teachers from whom the consulting teacher is to be selected. That roster shall, however, contain the names of at least 5 teachers, each of whom meets the criteria for consulting teacher with regard to the teacher being evaluated, or the names of all teachers so qualified if that number is less than 5. In the event of a dispute as to qualification, the State Board shall determine qualification.

(k) a mid-point and final evaluation by an evaluator during and at the end of the remediation period, immediately following receipt of a remediation plan provided for under subsections (i) and (j) of this Section. Each evaluation shall assess the teacher's performance during the time period since the prior evaluation; provided that the last evaluation shall also include an overall evaluation of the teacher's performance during the remediation period. A written copy of the evaluations and ratings, in which any deficiencies in performance and recommendations for correction are identified, shall be provided to and discussed with the teacher within 10 school days after the date of the evaluation, unless an applicable collective bargaining agreement provides to the contrary. These subsequent evaluations shall be conducted by an evaluator. The consulting teacher shall provide advice to the teacher rated "unsatisfactory" on how to improve teaching skills and to successfully complete the remediation plan. The consulting teacher shall participate in developing the remediation plan, but the final decision as to the evaluation shall be done solely by the evaluator, unless an applicable collective bargaining agreement provides to the contrary. Evaluations at the conclusion of the remediation process shall be separate and distinct from the required annual evaluations of teachers and shall not be subject to the guidelines and procedures relating to those annual evaluations. The evaluator may but is not required to use the forms provided for the annual evaluation of teachers in the district's evaluation plan.

(l) reinstatement to the evaluation schedule set forth in the district's evaluation plan for any teacher in contractual continued service who achieves a rating equal to or better than "satisfactory" or
"proficient" in the school year following a rating of "needs improvement" or "unsatisfactory".

(m) dismissal in accordance with subsection (d) of Section 24-12 or Section 24-16.5 or 34-85 of this Code of any teacher who fails to complete any applicable remediation plan with a rating equal to or better than a "satisfactory" or "proficient" rating. Districts and teachers subject to dismissal hearings are precluded from compelling the testimony of consulting teachers at such hearings under subsection (d) of Section 24-12 or Section 24-16.5 or 34-85 of this Code, either as to the rating process or for opinions of performances by teachers under remediation.

(n) After the implementation date of an evaluation system for teachers in a district as specified in Section 24A-2.5 of this Code, if a teacher in contractual continued service successfully completes a remediation plan following a rating of "unsatisfactory" in an annual or biennial overall performance evaluation received after the foregoing implementation date and receives a subsequent rating of "unsatisfactory" in any of the teacher's annual or biennial overall performance evaluation ratings received during the 36-month period following the teacher's completion of the remediation plan, then the school district may forego remediation and seek dismissal in accordance with subsection (d) of Section 24-12 or Section 34-85 of this Code.

Nothing in this Section or Section 24A-4 shall be construed as preventing immediate dismissal of a teacher for deficiencies which are deemed irremediable or for actions which are injurious to or endanger the health or person of students in the classroom or school, or preventing the dismissal or non-renewal of teachers not in contractual continued service for any reason not prohibited by applicable employment, labor, and civil rights laws. Failure to strictly comply with the time requirements contained in Section 24A-5 shall not invalidate the results of the remediation plan.

Nothing contained in this amendatory Act of the 98th General Assembly repeals, supersedes, invalidates, or nullifies final decisions in lawsuits pending on the effective date of this amendatory Act of the 98th General Assembly in Illinois courts involving the interpretation of Public Act 97-8.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:
Section 5. The Illinois Lottery Law is amended by changing Sections 2, 9.1, and 20 and by adding Section 21.9 as follows:

Sec. 2. This Act is enacted to implement and establish within the State a lottery to be conducted by the State through the Department. The entire net proceeds of the Lottery are to be used for the support of the State's Common School Fund, except as provided in subsection (o) of Section 9.1 and Sections 21.2, 21.5, 21.6, 21.7, and 21.8, and 21.9. The General Assembly finds that it is in the public interest for the Department to conduct the functions of the Lottery with the assistance of a private manager under a management agreement overseen by the Department. The Department shall be accountable to the General Assembly and the people of the State through a comprehensive system of regulation, audits, reports, and enduring operational oversight. The Department's ongoing conduct of the Lottery through a management agreement with a private manager shall act to promote and ensure the integrity, security, honesty, and fairness of the Lottery's operation and administration. (20 ILCS 1605/9.1)
Sec. 9.1. Private manager and management agreement.
(a) As used in this Section:
"Offeror" means a person or group of persons that responds to a request for qualifications under this Section.
"Request for qualifications" means all materials and documents prepared by the Department to solicit the following from offerors:
(1) Statements of qualifications.

New matter indicated by italics - deletions by strikeout
(2) Proposals to enter into a management agreement, including the identity of any prospective vendor or vendors that the offeror intends to initially engage to assist the offeror in performing its obligations under the management agreement.

"Final offer" means the last proposal submitted by an offeror in response to the request for qualifications, including the identity of any prospective vendor or vendors that the offeror intends to initially engage to assist the offeror in performing its obligations under the management agreement.

"Final offeror" means the offeror ultimately selected by the Governor to be the private manager for the Lottery under subsection (h) of this Section.

(c) Pursuant to the terms of this subsection, the Department shall endeavor to expeditiously terminate the existing contracts in support of the Lottery in effect on the effective date of this amendatory Act of the 96th General Assembly in connection with the selection of the private manager. As part of its obligation to terminate these contracts and select the private manager, the Department shall establish a mutually agreeable timetable to transfer the functions of existing contractors to the private manager so that existing Lottery operations are not materially diminished or impaired during the transition. To that end, the Department shall do the following:

(1) where such contracts contain a provision authorizing termination upon notice, the Department shall provide notice of termination to occur upon the mutually agreed timetable for transfer of functions;

(2) upon the expiration of any initial term or renewal term of the current Lottery contracts, the Department shall not renew such contract for a term extending beyond the mutually agreed timetable for transfer of functions; or

(3) in the event any current contract provides for termination of that contract upon the implementation of a contract with the private manager, the Department shall perform all necessary actions to terminate the contract on the date that coincides with the mutually agreed timetable for transfer of functions.

If the contracts to support the current operation of the Lottery in effect on the effective date of this amendatory Act of the 96th General Assembly are
not subject to termination as provided for in this subsection (c), then the Department may include a provision in the contract with the private manager specifying a mutually agreeable methodology for incorporation.

(c-5) The Department shall include provisions in the management agreement whereby the private manager shall, for a fee, and pursuant to a contract negotiated with the Department (the "Employee Use Contract"), utilize the services of current Department employees to assist in the administration and operation of the Lottery. The Department shall be the employer of all such bargaining unit employees assigned to perform such work for the private manager, and such employees shall be State employees, as defined by the Personnel Code. Department employees shall operate under the same employment policies, rules, regulations, and procedures, as other employees of the Department. In addition, neither historical representation rights under the Illinois Public Labor Relations Act, nor existing collective bargaining agreements, shall be disturbed by the management agreement with the private manager for the management of the Lottery.

(d) The management agreement with the private manager shall include all of the following:

1. A term not to exceed 10 years, including any renewals.

decisions on the kinds of games to be offered to the public and
decisions affecting the relative risk and reward of the games being
offered, so the Department has a reasonable opportunity to evaluate
and countermand that decision.

(5) A provision providing for compensation of the private
manager that may consist of, among other things, a fee for services
and a performance based bonus as consideration for managing the
Lottery, including terms that may provide the private manager with
an increase in compensation if Lottery revenues grow by a specified
percentage in a given year.

(6) (Blank).

(7) A provision requiring the deposit of all Lottery proceeds
to be deposited into the State Lottery Fund except as otherwise
provided in Section 20 of this Act.

(8) A provision requiring the private manager to locate its
principal office within the State.

(8-5) A provision encouraging that at least 20% of the cost of
contracts entered into for goods and services by the private manager
in connection with its management of the Lottery, other than contracts
with sales agents or technical advisors, be awarded to businesses that
are a minority owned business, a female owned business, or a
business owned by a person with disability, as those terms are defined
in the Business Enterprise for Minorities, Females, and Persons with
Disabilities Act.

(9) A requirement that so long as the private manager

overall value. The process shall not be subject to the provisions of the Illinois Procurement Code, unless specifically required by the management agreement.

(20) The transition of rights and obligations, including any associated equipment or other assets used in the operation of the Lottery, from the manager to any successor manager of the lottery, including the Department, following the termination of or foreclosure upon the management agreement.

(1) the offeror's ability to market the Lottery to those residents who are new, infrequent, or lapsed players of the Lottery, especially those who are most likely to make regular purchases on the Internet;

(2) the offeror's ability to address the State's concern with the social effects of gambling on those who can least afford to do so;

(4) the offeror's poor or inadequate past performance in servicing, equipping, operating or managing a lottery on behalf of Illinois, another State or foreign government and attracting persons who are not currently regular players of a lottery.

(f) The Department may retain the services of an advisor or advisors with significant experience in financial services or the management, operation, and procurement of goods, services, and equipment for a government-run lottery to assist in the preparation of the terms of the request for qualifications and selection of the private manager. advisor seeking to provide services under this subsection (f) shall disclose any material business or financial relationship during the past 3 years with any potential offeror, or with a contractor or subcontractor presently providing goods, services, or equipment to the Department to support the Lottery. The Department shall evaluate the material business or financial relationship of each prospective advisor. The Department shall not select any prospective advisor with a substantial business or financial relationship that the Department deems to impair the objectivity of the services to be provided by the prospective advisor. During the course of the advisor's engagement by the Department, and for a period of one year thereafter, the advisor shall not enter into any business or financial relationship with any offeror or any vendor identified to assist an offeror in performing its obligations under the management agreement. Any advisor retained by the Department shall be disqualified from being an offeror. The Department shall not include terms in the request for qualifications that provide a material advantage whether directly or indirectly to any potential offeror, or any contractor or subcontractor presently providing goods, services, or equipment to the Department to support the Lottery, including terms contained in previous responses to requests for proposals or qualifications submitted to Illinois, another State or foreign government when those terms are uniquely associated with a particular potential offeror, contractor, or subcontractor. The request for proposals offered by the Department on December 22, 2008 as "LOT08GAMESYS" and reference number "22016176" is declared void.

(g) The Department shall select at least 2 offerors as finalists to potentially serve as the private manager no later than August 9, 2010. Upon making preliminary selections, the Department shall schedule a public hearing on the finalists' proposals and provide public notice of the hearing at least 7 calendar days before the hearing. The notice must include all of the following:

1. The date, time, and place of the hearing.
2. The subject matter of the hearing.
3. A brief description of the management agreement to be awarded.
4. The identity of the offerors that have been selected as finalists to serve as the private manager.
5. The address and telephone number of the Department.

(h) At the public hearing, the Department shall provide sufficient time for each finalist to present and explain its proposal to the Department and the Governor or the Governor's designee, including an opportunity to

respond to questions posed by the Department, Governor, or designee and (ii)
allow the public and non-selected offerors to comment on the presentations.
The Governor or a designee shall attend the public hearing. After the public
hearing, the Department shall have 14 calendar days to recommend to the
Governor whether a management agreement should be entered into with a
particular finalist. After reviewing the Department's recommendation, the
Governor may accept or reject the Department's recommendation, and shall
select a final offeror as the private manager by publication of a notice in the
Illinois Procurement Bulletin on or before September 15, 2010. The Governor
shall include in the notice a detailed explanation and the reasons why the
final offeror is superior to other offerors and will provide management
services in a manner that best achieves the objectives of this Section. The
Governor shall also sign the management agreement with the private
manager.

(i) Any action to contest the private manager selected by the Governor
under this Section must be brought within 7 calendar days after the
publication of the notice of the designation of the private manager as
provided in subsection (h) of this Section.

(j) The Lottery shall remain, for so long as a private manager manages
the Lottery in accordance with provisions of this Act, a Lottery conducted by
the State, and the State shall not be authorized to sell or transfer the Lottery
to a third party.

(k) Any tangible personal property used exclusively in connection
with the lottery that is owned by the Department and leased to the private
manager shall be owned by the Department in the name of the State and shall
be considered to be public property devoted to an essential public and
governmental function.

(l) The Department may exercise any of its powers under this Section
or any other law as necessary or desirable for the execution of the
Department's powers under this Section.

(m) Neither this Section nor any management agreement entered into
under this Section prohibits the General Assembly from authorizing forms of
gambling that are not in direct competition with the Lottery.

If any other law or rule is inconsistent with this Section, including, but not limited to, provisions of the Illinois Procurement Code, then this Section controls as to any management agreement entered into under this Section. This Section and any rules adopted under this Section contain full and complete authority for a management agreement between the Department and a private manager. No law, procedure, proceeding, publication, notice, consent, approval, order, or act by the Department or any other officer, Department, agency, or instrumentality of the State or any political subdivision is required for the Department to enter into a management agreement under this Section. This Section contains full and complete authority for the Department to approve any contracts entered into by a private manager with a vendor providing goods, services, or both goods and services to the private manager under the terms of the management agreement, including subcontractors of such vendors.

Upon receipt of a written request from the Chief Procurement Officer, the Department shall provide to the Chief Procurement Officer a complete and un-redacted copy of the management agreement or any contract that is subject to the Department's approval authority under this subsection (o). The selection process shall at a minimum take into account the criteria set forth in items (1) through (4) of subsection (e) of this Section and may include provisions consistent with subsections (f), (g), (h), and (i) of this Section. The Chief Procurement Officer shall also implement and administer the adopted selection process upon the termination of a private management agreement.

(305 ILCS 5/5F-15 new)

Sec. 5F-15. Definitions. As used in this Article:

"Appeal" means any of the procedures that deal with the review of adverse organization determinations on the health care services the enrollee believes he or she is entitled to receive, including delay in providing, arranging for, or approving the health care services, such that a delay would adversely affect the health of the enrollee or on any amounts the enrollee must pay for a service, as defined under 42 CFR 422.566(b). (a) Every managed care organization shall allow every nursing home in its service area an opportunity to be a network contracted facility at the plan's standard terms, conditions, and rates. Either party may opt to limit the contract to existing residents only.

(b) With the exception of subsection (c) of this Section, a managed care organization shall only terminate or refuse to renew a contract with a nursing home if the nursing home fails to meet quality standards if the following conditions are met:

   (1) the quality standards are made known to the nursing home;

   (2) the quality standards can be objectively measured through data;

   (3) the nursing home is measured on at least a year's worth of performance;

   (4) a nursing home that the MCO has determined did not meet a quality standard has the opportunity to contest that determination by challenging the accuracy or the measurement of the data through an arbitration process agreed to by contract; and

   (5) the Department may attempt to mediate a dispute prior to arbitration.

Sec. 5F-30. Continuity of care. When a nursing home resident first transitions to a managed care organization from the fee-for-service system or from another managed care organization, the managed care organization shall honor the existing care plan and any necessary changes to that care plan until the MCO has completed a comprehensive assessment and new care plan, to the extent such services are covered benefits under the contract, which shall be consistent with the requirements of the RAI Manual.

When an enrollee of a managed care organization is moving from a community setting to a nursing home, and the MCO is properly notified of the proposed admission by a network nursing home, and the managed care organization fails to participate in developing a care plan within the time frames required by nursing home regulations, the MCO must honor a care plan developed by the nursing home until the MCO has completed a comprehensive assessment and a new care plan to the extent such services are covered benefits under the contract, consistent with the requirements of the RAI Manual.

A nursing home shall have the ability to refuse admission of an enrollee for whom care is required that the nursing home determines is outside the scope of its license and healthcare capabilities.

Sec. 5F-32. Non-emergency prior approval and appeal.
(a) MCOs must have a method of receiving prior approval requests 24 hours a day, 7 days a week, 365 days a year for nursing home residents. If a response is not provided within 24 hours of the request and the nursing home is required by regulation to provide a service because a physician ordered it, the MCO must pay for the service if it is a covered service under the MCO's contract in the Demonstration Project, provided that the request is consistent with the policies and procedures of the MCO.

In a non-emergency situation, notwithstanding any provisions in State law to the contrary, in the event a resident's physician orders a service,
treatment, or test that is not approved by the MCO, the physician and the
provider may utilize an expedited appeal to the MCO.

If an enrollee or provider requests an expedited appeal pursuant to
42 CFR 438.410, the MCO shall notify the enrollee or provider within 24
hours after the submission of the appeal of all information from the enrollee
or provider that the MCO requires to evaluate the appeal. The MCO shall
render a decision on an expedited appeal within 24 hours after receipt of the
required information.

(b) While the appeal is pending or if the ordered service, treatment,
or test is denied after appeal, the Department of Public Health may not cite
the nursing home for failure to provide the ordered service, treatment, or test.
The nursing home shall not be liable or responsible for an injury in any
regulatory proceeding for the following:

(1) failure to follow the appealed or denied order; or
(2) injury to the extent it was caused by the delay or failure to
perform the appealed or denied service, treatment, or test.

Provided however, a nursing home shall continue to monitor, document, and
ensure the patient's safety. Nothing in this subsection (b) is intended to
otherwise change the nursing home's existing obligations under State and
federal law to appropriately care for its residents.

(305 ILCS 5/5F-35 new)

Sec. 5F-35. Reimbursement. The Department shall provide each
managed care organization with the quarterly facility-specific RUG-IV
nursing component per diem along with any add-ons for enhanced care
services, support component per diem, and capital component per diem
effective for each nursing home under contract with the managed care
organization.

(305 ILCS 5/5F-40 new)

Sec. 5F-40. Contractual requirements.

(a) Every contract shall contain a clause for termination consistent
with the Managed Care Reform and Patient Rights Act providing nursing
homes the ability to terminate the contract.

days' written notice sent to the nursing home.

(305 ILCS 5/5F-45 new)

Sec. 5F-45. Prohibition. No managed care organization or contract
shall contain any provision, policy, or procedure that limits, restricts, or
waives any rights set forth in this Article or is expressly prohibited by this
Article. Any such policy or procedure is void and unenforceable.

deal most effectively with statewide health needs in regard to health care

(5) Coordinate with the Center for Comprehensive Health Planning
and other state agencies having responsibilities affecting health care facilities,
including those of licensure and cost reporting. Beginning no later than

The Chairman may approve applications for exemption that meet the criteria set forth in rules or refer them to the full Board. The Chairman may approve any unopposed application that meets all of the review criteria or refer them to the full Board.

Such rules shall not abridge the right of the Center for Comprehensive Health Planning to make recommendations on the classification and approval of projects, nor shall such rules prevent the conduct of a public hearing upon the timely request of an interested party. An open and transparent process shall be developed that considers the following: how skilled nursing fits in the continuum of care with other care providers, modernization of nursing homes, establishment of more private rooms, development of alternative services, and current trends in long-term care services. The Chairman of the Board shall appoint a permanent Health Services Review Board Long-term Care Facility Advisory Subcommittee that shall develop and recommend to

The Subcommittee shall evaluate, and make recommendations to the State Board regarding, the buying, selling, and exchange of beds between long-term care facilities within a specified geographic area or drive time. The Board shall file the proposed related administrative rules for the separate rules and guidelines for long-term care required by this paragraph (15) by no later than September 30, 2011. The Subcommittee shall be provided a reasonable and timely opportunity to review and comment on any review, revision, or updating of the criteria, standards, procedures, and rules used to evaluate project applications as provided under Section 12.3 of this Act.

(16) Establish a separate set of rules and guidelines for facilities licensed under the Specialized Mental Health Rehabilitation Act of 2013. An application for the re-establishment of a facility in connection with the relocation of the facility shall not be granted unless the applicant has a contractual relationship with at least one hospital to provide emergency and inpatient mental health services required by facility consumers, and at least one community mental health agency to provide oversight and assistance to facility consumers while living in the facility, and appropriate services, including case management, to assist them to prepare for discharge and reside stably in the community thereafter. No new facilities licensed under the Specialized Mental Health Rehabilitation Act of 2013 shall be established after the effective date of this amendatory Act of the 98th General Assembly except in connection with the relocation of an existing facility to a new location. Sec. 5-30. Care coordination.

(a) At least 50% of recipients eligible for comprehensive medical benefits in all medical assistance programs or other health benefit programs administered by the Department, including the Children's Health Insurance Program Act and the Covering ALL KIDS Health Insurance Act, shall be enrolled in a care coordination program by no later than January 1, 2015. For purposes of this Section, "coordinated care" or "care coordination" means delivery systems where recipients will receive their care from providers who participate under contract in integrated delivery systems that are responsible for providing or arranging the majority of care, including primary care physician services, referrals from primary care physicians, diagnostic and
treatment services, behavioral health services, in-patient and outpatient hospital services, dental services, and rehabilitation and long-term care services. The Department shall designate or contract for such integrated delivery systems (i) to ensure enrollees have a choice of systems and of primary care providers within such systems; (ii) to ensure that enrollees receive quality care in a culturally and linguistically appropriate manner; and (iii) to ensure that coordinated care programs meet the diverse needs of enrollees with developmental, mental health, physical, and age-related disabilities.

(b) Payment for such coordinated care shall be based on arrangements where the State pays for performance related to health care outcomes, the use of evidence-based practices, the use of primary care delivered through comprehensive medical homes, the use of electronic medical records, and the appropriate exchange of health information electronically made either on a capitated basis in which a fixed monthly premium per recipient is paid and full financial risk is assumed for the delivery of services, or through other risk-based payment arrangements.

(c) To qualify for compliance with this Section, the 50% goal shall be achieved by enrolling medical assistance enrollees from each medical assistance enrollment category, including parents, children, seniors, and people with disabilities to the extent that current State Medicaid payment laws would not limit federal matching funds for recipients in care coordination programs. In addition, services must be more comprehensively defined and more risk shall be assumed than in the Department's primary care case management program as of the effective date of this amendatory Act of the 96th General Assembly.

(d) The Department shall report to the General Assembly in a separate part of its annual medical assistance program report, beginning April, 2012 until April, 2016, on the progress and implementation of the care coordination program initiatives established by the provisions of this amendatory Act of the 96th General Assembly. The Department shall include in its April 2011 report a full analysis of federal laws or regulations regarding upper payment limitations to providers and the necessary revisions or adjustments in rate methodologies and payments to providers under this Code that would be necessary to implement coordinated care with full financial risk by a party other than the Department.

(e) Integrated Care Program for individuals with chronic mental health conditions.

New matter indicated by italics - deletions by strikeout
(1) The Integrated Care Program shall encompass services administered to recipients of medical assistance under this Article to prevent exacerbations and complications using cost-effective, evidence-based practice guidelines and mental health management strategies.

(2) The Department may utilize and expand upon existing contractual arrangements with integrated care plans under the Integrated Care Program for providing the coordinated care provisions of this Section.

(3) Payment for such coordinated care shall be based on arrangements where the State pays for performance related to mental health outcomes on a capitated basis in which a fixed monthly premium per recipient is paid and full financial risk is assumed for the delivery of services, or through other risk-based payment arrangements such as provider-based care coordination.

(4) The Department shall examine whether chronic mental health management programs and services for recipients with specific chronic mental health conditions do any or all of the following:

   (A) Improve the patient's overall mental health in a more expeditious and cost-effective manner.

   (B) Lower costs in other aspects of the medical assistance program, such as hospital admissions, emergency room visits, or more frequent and inappropriate psychotropic drug use.

(5) The Department shall work with the facilities and any integrated care plan participating in the program to identify and correct barriers to the successful implementation of this subsection (e) prior to and during the implementation to best facilitate the goals and objectives of this subsection (e).

(f) A hospital that is located in a county of the State in which the Department mandates some or all of the beneficiaries of the Medical Assistance Program residing in the county to enroll in a Care Coordination Program, as set forth in Section 5-30 of this Code, shall not be eligible for any non-claims based payments not mandated by Article V-A of this Code for which it would otherwise be qualified to receive, unless the hospital is a Coordinated Care Participating Hospital no later than 60 days after the effective date of this amendatory Act of the 97th General Assembly or 60 days after the first mandatory enrollment of a beneficiary in a Coordinated Care program. For purposes of this subsection, "Coordinated Care Program..."
Participating Hospital" means a hospital that meets one of the following criteria:

(1) The hospital has entered into a contract to provide hospital services with one or more MCOs to enrollees of the care coordination program.

(2) The hospital has not been offered a contract by a care coordination plan that the Department has determined to be a good faith offer and that pays at least as much as the Department would pay, on a fee-for-service basis, not including disproportionate share hospital adjustment payments or any other supplemental adjustment or add-on payment to the base fee-for-service rate, except to the extent such adjustments or add-on payments are incorporated into the development of the applicable MCO capitated rates.

As used in this subsection (f), "MCO" means any entity which contracts with the Department to provide services where payment for medical services is made on a capitated basis.

(g) No later than August 1, 2013, the Department shall issue a purchase of care solicitation for Accountable Care Entities (ACE) to serve any children and parents or caretaker relatives of children eligible for medical assistance under this Article. An ACE may be a single corporate structure or a network of providers organized through contractual relationships with a single corporate entity. The solicitation shall require that:

(1) An ACE operating in Cook County be capable of serving at least 40,000 eligible individuals in that county; an ACE operating in Lake, Kane, DuPage, or Will Counties be capable of serving at least 20,000 eligible individuals in those counties and an ACE operating in other regions of the State be capable of serving at least 10,000 eligible individuals in the region in which it operates. During initial periods of mandatory enrollment, the Department shall require its enrollment services contractor to use a default assignment algorithm that ensures if possible an ACE reaches the minimum enrollment levels set forth in this paragraph.

(2) An ACE must include at a minimum the following types of providers: primary care, specialty care, hospitals, and behavioral healthcare.

(3) An ACE shall have a governance structure that includes the major components of the health care delivery system, including one representative from each of the groups listed in paragraph (2).
(4) An ACE must be an integrated delivery system, including a network able to provide the full range of services needed by Medicaid beneficiaries and system capacity to securely pass clinical information across participating entities and to aggregate and analyze that data in order to coordinate care.

(5) An ACE must be capable of providing both care coordination and complex case management, as necessary, to beneficiaries. To be responsive to the solicitation, a potential ACE must outline its care coordination and complex case management model and plan to reduce the cost of care.

(6) In the first 18 months of operation, unless the ACE selects a shorter period, an ACE shall be paid care coordination fees on a per member per month basis that are projected to be cost neutral to the State during the term of their payment and, subject to federal approval, be eligible to share in additional savings generated by their care coordination.

(7) In months 19 through 36 of operation, unless the ACE selects a shorter period, an ACE shall be paid on a pre-paid capitation basis for all medical assistance covered services, under contract terms similar to Managed Care Organizations (MCO), with the Department sharing the risk through either stop-loss insurance for extremely high cost individuals or corridors of shared risk based on the overall cost of the total enrollment in the ACE. The ACE shall be responsible for claims processing, encounter data submission, utilization control, and quality assurance.

(8) In the fourth and subsequent years of operation, an ACE shall convert to a Managed Care Community Network (MCCN), as defined in this Article, or Health Maintenance Organization pursuant to the Illinois Insurance Code, accepting full-risk capitation payments. The Department shall allow potential ACE entities 5 months from the date of the posting of the solicitation to submit proposals. After the solicitation is released, in addition to the MCO rate development data available on the Department's website, subject to federal and State confidentiality and privacy laws and regulations, the Department shall provide 2 years of de-identified summary service data on the targeted population, split between children and adults, showing the historical type and volume of services received and the cost of those services to those potential bidders that sign a data use agreement. The Department may add up to 2 non-state government employees with expertise in creating integrated delivery

systems to its review team for the purchase of care solicitation described in this subsection. Any such individuals must sign a no-conflict disclosure and confidentiality agreement and agree to act in accordance with all applicable State laws.

During the first 2 years of an ACE's operation, the Department shall provide claims data to the ACE on its enrollees on a periodic basis no less frequently than monthly.

Nothing in this subsection shall be construed to limit the Department's mandate to enroll 50% of its beneficiaries into care coordination systems by January 1, 2015, using all available care coordination delivery systems, including Care Coordination Entities (CCE), MCCNs, or MCOs, nor be construed to affect the current CCEs, MCCNs, and MCOs selected to serve seniors and persons with disabilities prior to that date.

Nothing in this subsection precludes the Department from considering future proposals for new ACEs or expansion of existing ACEs at the discretion of the Department.

(h) Department contracts with MCOs and other entities reimbursed by risk based capitation shall have a minimum medical loss ratio of 85%, shall require the MCO or other entity to pay claims within 30 days of receiving a bill that contains all the essential information needed to adjudicate the bill, and shall require the entity to pay a penalty that is at least equal to the penalty imposed under the Illinois Insurance Code for any claims not paid within this time period. The requirements of this subsection shall apply to contracts with MCOs entered into or renewed or extended after June 1, 2013.

(h-5) The Department shall monitor and enforce compliance by MCOs with agreements they have entered into with providers on issues that include, but are not limited to, timeliness of payment, payment rates, and processes for obtaining prior approval. The Department may impose

sanctions on MCOs for violating provisions of those agreements that include, but are not limited to, financial penalties, suspension of enrollment of new enrollees, and termination of the MCO’s contract with the Department. As used in this subsection (h-5), "MCO" has the meaning ascribed to that term in Section 5-30.1 of this Code.

(4) the MCO could not be contacted; or
(5) the MCO and the treating provider, if the treating provider is a non-affiliated provider, could not reach an agreement concerning the enrollee's care and an affiliated provider was unavailable for a consultation, in which case the MCO must pay for such services rendered by the treating non-affiliated provider until an affiliated provider was reached and either concurred with the treating non-affiliated provider's plan of care or assumed responsibility for the enrollee's care. Such payment shall be made at the default rate of reimbursement paid under Illinois Medicaid fee-for-service program methodology, including all policy adjusters, including but not limited to Medicaid High Volume Adjustments, Medicaid Percentage Adjustments, Outpatient High Volume Adjustments and all outlier add-on adjustments to the extent that such adjustments are incorporated in the development of the applicable MCO capitated rates.

(e) The following requirements apply to MCOs in determining payment for all emergency services:

(1) MCOs shall not impose any requirements for prior approval of emergency services.

(2) The MCO shall cover emergency services provided to enrollees who are temporarily away from their residence and outside the contracting area to the extent that the enrollees would be entitled to the emergency services if they still were within the contracting area.

(3) The MCO shall have no obligation to cover medical services provided on an emergency basis that are not covered services under the contract.

(4) The MCO shall not condition coverage for emergency services on the treating provider notifying the MCO of the enrollee's screening and treatment within 10 days after presentation for emergency services.

(5) The determination of the attending emergency physician, or the provider actually treating the enrollee, of whether an enrollee is sufficiently stabilized for discharge or transfer to another facility, shall be binding on the MCO. The MCO shall cover emergency services...
services for all enrollees whether the emergency services are provided by an affiliated or non-affiliated provider.

(6) The MCO's financial responsibility for post-stabilization care services it has not pre-approved ends when:
   
   (A) a plan physician with privileges at the treating hospital assumes responsibility for the enrollee's care;
   
   (B) a plan physician assumes responsibility for the enrollee's care through transfer;
   
   (C) a contracting entity representative and the treating physician reach an agreement concerning the enrollee's care; or
   
   (D) the enrollee is discharged.

(f) Network adequacy.

   (1) The Department shall:

   (B) publicly release an explanation of its process for analyzing network adequacy;
   
   (C) periodically ensure that an MCO continues to have an adequate network in place; and
   
   (D) require MCOs to maintain an updated and public list of network providers.

(g) Timely payment of claims.

   (1) The MCO shall pay a claim within 30 days of receiving a claim that contains all the essential information needed to adjudicate the claim.

   (2) The MCO shall notify the billing party of its inability to adjudicate a claim within 30 days of receiving that claim.

   (3) The MCO shall pay a penalty that is at least equal to the penalty imposed under the Illinois Insurance Code for any claims not timely paid.

   (4) The Department may establish a process for MCOs to expedite payments to providers based on criteria established by the Department.

(h) The Department shall not expand mandatory MCO enrollment into new counties beyond those counties already designated by the Department as of June 1, 2014 for the individuals whose eligibility for medical assistance is not the seniors or people with disabilities population.

(m) For purposes of this Section, in determining the percentile ranking of an Illinois hospital's case mix index or capital costs, hospitals described in subsection (b) of Section 5A-3 shall be excluded from the ranking.

(n) Definitions. Unless the context requires otherwise or unless provided otherwise in this Section, the terms used in this Section for qualifying criteria and payment calculations shall have the same meanings as those terms have been given in the Illinois Department's administrative rules as in effect on March 1, 2008. Other terms shall be defined by the Illinois Department by rule.

As used in this Section, unless the context requires otherwise:

"Base inpatient payments" means, for a given hospital, the sum of base payments for inpatient services made on a per diem or per admission (DRG) basis, excluding those portions of per admission payments that are classified as capital payments. Disproportionate share hospital adjustment payments, Medicaid Percentage Adjustments, Medicaid High Volume Adjustments, and outlier payments, as defined by rule by the Department as of January 1, 2008, are not base payments.

"Capital costs" means, for a given hospital, the total capital costs determined using the most recent 2005 Medicare cost report as contained in
the Healthcare Cost Report Information System file, for the quarter ending on December 31, 2006, divided by the total inpatient days from the same cost report to calculate a capital cost per day. The resulting capital cost per day is inflated to the midpoint of State fiscal year 2009 utilizing the national hospital market price proxies (DRI) hospital cost index. If a hospital's 2005 Medicare cost report is not contained in the Healthcare Cost Report Information System, the Department may obtain the data necessary to compute the hospital's capital costs from any source available, including, but not limited to, records maintained by the hospital provider, which may be inspected at all times during business hours of the day by the Illinois Department or its duly authorized agents and employees.

"Case mix index" means, for a given hospital, the sum of the DRG relative weighting factors in effect on January 1, 2005, for all general acute care admissions for State fiscal year 2005, excluding Medicare crossover admissions and transplant admissions reimbursed under 89 Ill. Adm. Code 148.82, divided by the total number of general acute care admissions for State fiscal year 2005, excluding Medicare crossover admissions and transplant admissions reimbursed under 89 Ill. Adm. Code 148.82.

"Medicaid inpatient day" means, for a given hospital, the sum of days of inpatient hospital days provided to recipients of medical assistance under Title XIX of the federal Social Security Act, excluding days for individuals eligible for Medicare under Title XVIII of that Act (Medicaid/Medicare crossover days), as tabulated from the Department's paid claims data for admissions occurring during State fiscal year 2005 that was adjudicated by the Department through March 23, 2007.

"Medicaid obstetrical day" means, for a given hospital, the sum of days of inpatient hospital days grouped by the Department to DRGs of 370 through 375 provided to recipients of medical assistance under Title XIX of the federal Social Security Act, excluding days for individuals eligible for Medicare under Title XVIII of that Act (Medicaid/Medicare crossover days), as tabulated from the Department's paid claims data for admissions occurring during State fiscal year 2005 that was adjudicated by the Department through March 23, 2007.

"Outpatient ambulatory procedure listing payments" means, for a given hospital, the sum of payments for ambulatory procedure listing services, as described in 89 Ill. Adm. Code 148.140(b), provided to recipients of medical assistance under Title XIX of the federal Social Security Act, excluding payments for individuals eligible for Medicare under Title XVIII of the Act (Medicaid/Medicare crossover days), as tabulated from the...
Department's paid claims data for services occurring in State fiscal year 2005 that were adjudicated by the Department through March 23, 2007.

(o) The Department may adjust payments made under this Section 5A-12.2 to comply with federal law or regulations regarding hospital-specific payment limitations on government-owned or government-operated hospitals.

(p) Notwithstanding any of the other provisions of this Section, the Department is authorized to adopt rules that change the hospital access improvement payments specified in this Section, but only to the extent necessary to conform to any federally approved amendment to the Title XIX State plan. Any such rules shall be adopted by the Department as authorized by Section 5-50 of the Illinois Administrative Procedure Act. Notwithstanding any other provision of law, any changes implemented as a result of this subsection (p) shall be given retroactive effect so that they shall be deemed to have taken effect as of the effective date of this Section.

(q) (Blank).

(r) On and after July 1, 2012, the Department shall reduce any rate of reimbursement for services or other payments or alter any methodologies authorized by this Code to reduce any rate of reimbursement for services or other payments in accordance with Section 5-5e.

(s) On or after July 1, 2014, but no later than October 1, 2014, and no less than annually thereafter, the Department may increase capitation payments to capitated managed care organizations (MCOs) to equal the aggregate reduction of payments made in this Section and in Section 5A-12.4 by a uniform percentage on a regional basis to preserve access to hospital services for recipients under the Illinois Medical Assistance Program. The aggregate amount of all increased capitation payments to all MCOs for a fiscal year shall be the amount needed to avoid reduction in payments authorized under Section 5A-15. Payments to MCOs under this Section shall be consistent with actuarial certification and shall be published by the Department each year. Each MCO shall only expend the increased capitation payments it receives under this Section to support the availability of hospital services and to ensure access to hospital services, with such expenditures being made within 15 calendar days from when the MCO receives the increased capitation payment. The Department shall make available, on a monthly basis, a report of the capitation payments that are made to each MCO pursuant to this subsection, including the number of enrollees for which such payment is made, the per enrollee amount of the payment, and any adjustments that have been made. Payments made under this subsection shall be guaranteed by a surety bond obtained by the MCO in an amount

established by the Department to approximate one month's liability of payments authorized under this subsection. The Department may advance the payments guaranteed by the surety bond. Payments to MCOs that would be paid consistent with actuarial certification and enrollment in the absence of the increased capitation payments under this Section shall not be reduced as a consequence of payments made under this subsection.

As used in this subsection, "MCO" means an entity which contracts with the Department to provide services where payment for medical services is made on a capitated basis.

(t) On or after July 1, 2014, the Department may increase capitation payments to capitated managed care organizations (MCOs) to equal the aggregate reduction of payments made in Section 5A-12.5 to preserve access to hospital services for recipients under the Illinois Medical Assistance Program. Payments to MCOs under this Section shall be consistent with actuarial certification and shall be published by the Department each year. Each MCO shall only expend the increased capitation payments it receives under this Section to support the availability of hospital services and to ensure access to hospital services, with such expenditures being made within 15 calendar days from when the MCO receives the increased capitation payment. The Department may advance the payments to hospitals under this subsection, in the event the MCO fails to make such payments. The Department shall make available, on a monthly basis, a report of the capitation payments that are made to each MCO pursuant to this subsection, including the number of enrollees for which such payment is made, the per enrollee amount of the payment, and any adjustments that have been made. Payments to MCOs that would be paid consistent with actuarial certification and enrollment in the absence of the increased capitation payments under this subsection shall not be reduced as a consequence of payments made under this subsection.

As used in this subsection, "MCO" means an entity which contracts with the Department to provide services where payment for medical services is made on a capitated basis.

Article 20

Section 20-5. The Illinois Administrative Procedure Act is amended by changing Section 5-45 as follows:

(5 ILCS 100/5-45) (from Ch. 127, par. 1005-45)
Sec. 5-45. Emergency rulemaking.

New matter indicated by italics - deletions by strikeout
(a) "Emergency" means the existence of any situation that any agency finds reasonably constitutes a threat to the public interest, safety, or welfare.

(b) If any agency finds that an emergency exists that requires adoption of a rule upon fewer days than is required by Section 5-40 and states in writing its reasons for that finding, the agency may adopt an emergency rule without prior notice or hearing upon filing a notice of emergency rulemaking with the Secretary of State under Section 5-70. The notice shall include the text of the emergency rule and shall be published in the Illinois Register. Consent orders or other court orders adopting settlements negotiated by an agency may be adopted under this Section. Subject to applicable constitutional or statutory provisions, an emergency rule becomes effective immediately upon filing under Section 5-65 or at a stated date less than 10 days thereafter. The agency's finding and a statement of the specific reasons for the finding shall be filed with the rule. The agency shall take reasonable and appropriate measures to make emergency rules known to the persons who may be affected by them.

(c) An emergency rule may be effective for a period of not longer than 150 days, but the agency's authority to adopt an identical rule under Section 5-40 is not precluded. No emergency rule may be adopted more than once in any 24 month period, except that this limitation on the number of emergency rules that may be adopted in a 24 month period does not apply to (i) emergency rules that make additions to and deletions from the Drug Manual under Section 5-5.16 of the Illinois Public Aid Code or the generic drug formulary under Section 3.14 of the Illinois Food, Drug and Cosmetic Act, (ii) emergency rules adopted by the Pollution Control Board before July 1, 1997 to implement portions of the Livestock Management Facilities Act, (iii) emergency rules adopted by the Illinois Department of Public Health under subsections (a) through (i) of Section 2 of the Department of Public Health Act when necessary to protect the public's health, (iv) emergency rules adopted pursuant to subsection (n) of this Section, (v) emergency rules adopted pursuant to subsection (o) of this Section, or (vi) emergency rules adopted pursuant to subsection (c-5) of this Section. Two or more emergency rules having substantially the same purpose and effect shall be deemed to be a single rule for purposes of this Section.

(c-5) To facilitate the maintenance of the program of group health benefits provided to annuitants, survivors, and retired employees under the State Employees Group Insurance Act of 1971, rules to alter the contributions to be paid by the State, annuitants, survivors, retired employees, or any combination of those entities, for that program of group health benefits, shall
be adopted as emergency rules. The adoption of those rules shall be considered an emergency and necessary for the public interest, safety, and welfare.

Section 35-5. The Hospital Licensing Act is amended by changing Section 6.09 as follows:

(210 ILCS 85/6.09) (from Ch. 111 1/2, par. 147.09)

Sec. 6.09. (a) In order to facilitate the orderly transition of aged and disabled patients from hospitals to post-hospital care, whenever a patient who qualifies for the federal Medicare program is hospitalized, the patient shall be notified of discharge at least 24 hours prior to discharge from the hospital. With regard to pending discharges to a skilled nursing facility, the hospital must notify the case coordination unit, as defined in 89 Ill. Adm. Code 240.260, at least 24 hours prior to discharge. When the assessment is completed in the hospital, the case coordination unit shall provide the discharge planner with a copy of the prescreening information and accompanying materials, which the discharge planner shall transmit when the patient is discharged to a skilled nursing facility. (b) Every hospital shall develop procedures for a physician with medical staff privileges at the hospital or any appropriate medical staff member to provide the discharge notice prescribed in subsection (a) of this Section. The procedures must include prohibitions against discharging or referring a patient to any of the following if unlicensed, uncertified, or unregistered: (i) a board and care facility, as defined in the Board and Care Home Act; (ii) an assisted living and shared housing establishment, as defined in the Assisted Living and Shared Housing Act; (iii) a facility licensed under the Nursing Home Care Act, the Specialized Mental Health Rehabilitation Act of 2013, or the ID/DD Community Care Act; (iv) a supportive living facility, as defined in Section 5-5.01a of the Illinois Public Aid Code; or (v) a free-standing hospice facility licensed under the Hospice Program Licensing Act if licensure, certification, or registration is required. The Department of Public Health shall annually provide hospitals with a list of licensed, certified, or registered board and care facilities, assisted living and shared housing establishments, nursing homes, supportive living facilities, facilities licensed under the ID/DD Community Care Act or the Specialized Mental Health Rehabilitation Act of 2013, and hospice facilities. Reliance upon this list by a hospital shall satisfy compliance with this requirement. The procedure may also include a waiver for any case in which a discharge notice is not feasible due to a short length of stay in the hospital by the patient, or for any case in which the patient voluntarily desires to leave the hospital before the expiration of the 24 hour period.

(c) At least 24 hours prior to discharge from the hospital, the patient shall receive written information on the patient's right to appeal the discharge pursuant to the federal Medicare program, including the steps to follow to appeal the discharge and the appropriate telephone number to call in case the patient intends to appeal the discharge.

(d) Before transfer of a patient to a long term care facility licensed under the Nursing Home Care Act where elderly persons reside, a hospital shall as soon as practicable initiate a name-based criminal history background check by electronic submission to the Department of State Police for all persons between the ages of 18 and 70 years; provided, however, that a hospital shall be required to initiate such a background check only with respect to patients who:

1. are transferring to a long term care facility for the first time;
2. have been in the hospital more than 5 days;

(3) are reasonably expected to remain at the long term care facility for more than 30 days;
(4) have a known history of serious mental illness or substance abuse; and
(5) are independently ambulatory or mobile for more than a temporary period of time.

A hospital may also request a criminal history background check for a patient who does not meet any of the criteria set forth in items (1) through (5).

A hospital shall notify a long term care facility if the hospital has initiated a criminal history background check on a patient being discharged to that facility. In all circumstances in which the hospital is required by this subsection to initiate the criminal history background check, the transfer to the long term care facility may proceed regardless of the availability of criminal history results. Upon receipt of the results, the hospital shall promptly forward the results to the appropriate long term care facility. If the results of the background check are inconclusive, the hospital shall have no additional duty or obligation to seek additional information from, or about, the patient.

Establishment of the system shall be a joint venture of the Department of Human Services and Healthcare and Family Services and the Department on Aging. The Governor shall name a lead agency no later than 30 days after the effective date of this amendatory Act of the 98th General Assembly to assume responsibility for the full implementation of the establishment and maintenance of the system. Services' Office of the Inspector General determines that there is a likelihood that a non-allowable transfer of assets has occurred, and the facility in which the applicant resides is notified, an extension of up to 90 days shall be permissible. On or before December 31, 2015, a streamlined application and enrollment process shall be put in place based on the following principles:

(1) Minimize the burden on applicants by collecting only the data necessary to determine eligibility for medical services, long-term care services, and spousal impoverishment offset.

(2) Integrate online data sources to simplify the application process by reducing the amount of information needed to be entered and to expedite eligibility verification.

(3) Provide online prompts to alert the applicant that information is missing or not complete.

(b) The Department shall, on or before July 1, 2014, assess the feasibility of incorporating all information needed to determine eligibility for long-term care services, including asset transfer and spousal impoverishment financials, into the State's integrated eligibility system identifying all resources needed and reasonable timeframes for achieving the specified integration.

(c) The lead agency shall file interim reports with the Chairs and Minority Spokespersons of the House and Senate Human Services Committees no later than September 1, 2013 and on February 1, 2014. The Department of Healthcare and Family Services shall include in the annual Medicaid report for State Fiscal Year 2014 and every fiscal year thereafter information concerning implementation of the provisions of this Section.

(d) No later than August 1, 2014, the Auditor General shall report to the General Assembly concerning the extent to which the timeframes specified in this Section have been met and the extent to which State staffing levels are adequate to meet the requirements of this Section.

(e) The Department of Healthcare and Family Services, the Department of Human Services, and the Department on Aging shall take the following steps to achieve federally established timeframes for eligibility determinations for Medicaid and long-term care benefits and shall work toward the federal goal of real time determinations:

(1) The Departments shall review, in collaboration with representatives of affected providers, all forms and procedures currently in use, federal guidelines either suggested or mandated, and staff deployment by September 30, 2014 to identify additional
measures that can improve long-term care eligibility processing and make adjustments where possible.

(2) No later than June 30, 2014, the Department of Healthcare and Family Services shall issue vouchers for advance payments not to exceed $50,000,000 to nursing facilities with significant outstanding Medicaid liability associated with services provided to residents with Medicaid applications pending and residents facing the greatest delays. Each facility with an advance payment shall state in writing whether its own recoupment schedule will be in 3 or 6 equal monthly installments, as long as all advances are recouped by June 30, 2015.

(3) The Department of Healthcare and Family Services' Office of Inspector General and the Department of Human Services shall immediately forgo resource review and review of transfers during the relevant look-back period for applications that were submitted prior to September 1, 2013. An applicant who applied prior to September 1, 2013, who was denied for failure to cooperate in providing required information, and whose application was incorrectly reviewed under the wrong look-back period rules may request review and correction of the denial based on this subsection. If found eligible upon review, such applicants shall be retroactively enrolled.

(4) As soon as practicable, the Department of Healthcare and Family Services shall implement policies and promulgate rules to simplify financial eligibility verification in the following instances: (A) for applicants or recipients who are receiving Supplemental Security Income payments or who had been receiving such payments at the time they were admitted to a nursing facility and (B) for applicants or recipients with verified income at or below 100% of the federal poverty level when the declared value of their countable resources is no greater than the allowable amounts pursuant to Section 5-2 of this Code for classes of eligible persons for whom a resource limit applies. Such simplified verification policies shall apply to community cases as well as long-term care cases.

(5) As soon as practicable, but not later than July 1, 2014, the Department of Healthcare and Family Services and the Department of Human Services shall jointly begin a special enrollment project by using simplified eligibility verification policies and by redeploying caseworkers trained to handle long-term care cases to prioritize those cases, until the backlog is eliminated and processing time is

within 90 days. This project shall apply to applications for long-term care received by the State on or before May 15, 2014.

(6) As soon as practicable, but not later than September 1, 2014, the Department on Aging shall make available to long-term care facilities and community providers upon request, through an electronic method, the information contained within the Interagency Certification of Screening Results completed by the pre-screener, in a form and manner acceptable to the Department of Human Services.

(7) Effective 30 days after the completion of 3 regionally based trainings, nursing facilities shall submit all applications for medical assistance online via the Application for Benefits Eligibility (ABE) website. This requirement shall extend to scanning and uploading with the online application any required additional forms such as the Long Term Care Facility Notification and the Additional Financial Information for Long Term Care Applicants as well as scanned copies of any supporting documentation. Long-term care facility admission documents must be submitted as required in Section 5-5 of this Code. No local Department of Human Services office shall refuse to accept an electronically filed application.

(8) Notwithstanding any other provision of this Code, the Department of Human Services and the Department of Healthcare and Family Services' Office of the Inspector General shall, upon request, allow an applicant additional time to submit information and documents needed as part of a review of available resources or resources transferred during the look-back period. The initial extension shall not exceed 30 days. A second extension of 30 days may be granted upon request. Any request for information issued by the State to an applicant shall include the following: an explanation of the information required and the date by which the information must be submitted; a statement that failure to respond in a timely manner can result in denial of the application; a statement that the applicant or the facility in the name of the applicant may seek an extension; and the name and contact information of a caseworker in case of questions. Any such request for information shall also be sent to the facility. In deciding whether to grant an extension, the Department of Human Services or the Department of Healthcare and Family Services' Office of the Inspector General shall take into account what is in the best interest of the applicant. The time limits

for processing an application shall be tolled during the period of any extension granted under this subsection.

(9) The Department of Human Services and the Department of Healthcare and Family Services must jointly compile data on pending applications and post a monthly report on each Department's website for the purposes of monitoring long-term care eligibility processing. The report must specify the number of applications pending long-term care eligibility determination and admission in the following categories:

(A) Length of time application is pending - 0 to 90 days, 91 days to 180 days, 181 days to 12 months, over 12 months to 18 months, over 18 months to 24 months, and over 24 months.

(B) Percentage of applications pending in the Department of Human Services' Family Community Resource Centers, in the Department of Human Services' long-term care hubs, with the Department of Healthcare and Family Services' Office of Inspector General, and those applications which are being tolled due to requests for extension of time for additional information.

Section 40-5. The Illinois Public Aid Code is amended by changing Sections 5A-2, 5A-5, 5A-10, and 5A-14 as follows:

(305 ILCS 5/5A-2) (from Ch. 23, par. 5A-2) (Section scheduled to be repealed on January 1, 2015)

Sec. 5A-2. Assessment.

(a) Subject to Sections 5A-3 and 5A-10, for State fiscal years 2009 through 2014, and from July 1, 2014 through December 31, 2014, an annual assessment on inpatient services is imposed on each hospital provider in an amount equal to $218.38 multiplied by the difference of the hospital's occupied bed days less the hospital's Medicare bed days, provided, however, that the amount of $218.38 shall be increased by a uniform percentage to generate an amount equal to 75% of the State share of the payments authorized under Section 12-5, with such increase only taking effect upon the date that a State share for such payments is required under federal law.

For State fiscal years 2009 through 2014; and after, a hospital's occupied bed days and Medicare bed days shall be determined using the most

recent data available from each hospital's 2005 Medicare cost report as contained in the Healthcare Cost Report Information System file, for the quarter ending on December 31, 2006, without regard to any subsequent adjustments or changes to such data. If a hospital's 2005 Medicare cost report is not contained in the Healthcare Cost Report Information System, then the Illinois Department may obtain the hospital provider's occupied bed days and Medicare bed days from any source available, including, but not limited to, records maintained by the hospital provider, which may be inspected at all times during business hours of the day by the Illinois Department or its duly authorized agents and employees.

(b) (Blank).

(b-5) Subject to Sections 5A-3 and 5A-10, for the portion of State fiscal year 2012, beginning June 10, 2012 through June 30, 2012, and for State fiscal years 2013 through 2018, and July 1, 2014 through December 31, 2014, an annual assessment on outpatient services is imposed on each hospital provider in an amount equal to .008766 multiplied by the hospital's outpatient gross revenue, provided, however, that the amount of .008766 shall be increased by a uniform percentage to generate an amount equal to 25% of the State share of the payments authorized under Section 12-5, with such increase only taking effect upon the date that a State share for such payments is required under federal law. For the period beginning June 10, 2012 through June 30, 2012, the annual assessment on outpatient services shall be prorated by multiplying the assessment amount by a fraction, the numerator of which is 21 days and the denominator of which is 365 days.

For the portion of State fiscal year 2012, beginning June 10, 2012 through June 30, 2012, and State fiscal years 2013 through 2018, and July 1, 2014 through December 31, 2014, a hospital's outpatient gross revenue shall be determined using the most recent data available from each hospital's 2009 Medicare cost report as contained in the Healthcare Cost Report Information System file, for the quarter ending on June 30, 2011, without regard to any subsequent adjustments or changes to such data. If a hospital's 2009 Medicare cost report is not contained in the Healthcare Cost Report Information System, then the Department may obtain the hospital provider's outpatient gross revenue from any source available, including, but not limited to, records maintained by the hospital provider, which may be inspected at all times during business hours of the day by the Department or its duly authorized agents and employees.

(d) Notwithstanding any of the other provisions of this Section, the Department is authorized to adopt rules to reduce the rate of any annual assessment imposed under this Section, as authorized by Section 5-46.2 of the Illinois Administrative Procedure Act.

(e) Notwithstanding any other provision of this Section, any plan providing for an assessment on a hospital provider as a permissible tax under Title XIX of the federal Social Security Act and Medicaid-eligible payments to hospital providers from the revenues derived from that assessment shall be reviewed by the Illinois Department of Healthcare and Family Services, as the Single State Medicaid Agency required by federal law, to determine whether those assessments and hospital provider payments meet federal Medicaid standards. If the Department determines that the elements of the plan may meet federal Medicaid standards and a related State Medicaid Plan Amendment is prepared in a manner and form suitable for submission, that State Plan Amendment shall be submitted in a timely manner for review by the Centers for Medicare and Medicaid Services of the United States Department of Health and Human Services and subject to approval by the Centers for Medicare and Medicaid Services of the United States Department of Health and Human Services. No such plan shall become effective without approval by the Illinois General Assembly by the enactment into law of related legislation. (3) The occupied bed days, occupied bed days less Medicare days, adjusted gross hospital revenue, or outpatient gross revenue of the hospital provider (whichever is applicable), the amount of assessment imposed under Section 5A-2 for the State fiscal year for which the notice is sent, and the amount of each installment to be paid during the State fiscal year.

(4) (Blank).

(5) Other reasonable information as determined by the Illinois Department.

(c) Notwithstanding any other provision in this Article, in the case of a person who ceases to conduct, operate, or maintain a hospital in respect of which the person is subject to assessment under this Article as a hospital provider, the assessment for the State fiscal year in which the cessation occurs shall be adjusted by multiplying the assessment computed under Section 5A-2 by a fraction, the numerator of which is the number of days in the year during which the provider conducts, operates, or maintains the hospital and the denominator of which is 365. Immediately upon ceasing to conduct, operate, or maintain a hospital, the person shall pay the assessment for the year as so adjusted (to the extent not previously paid).

(d) Notwithstanding any other provision in this Article, a provider who commences conducting, operating, or maintaining a hospital, upon notice by the Illinois Department, shall pay the assessment computed under Section 5A-2 and subsection (e) in installments on the due dates stated in the notice and on the regular installment due dates for the State fiscal year occurring after the due dates of the initial notice.

(f) Every hospital provider subject to assessment under this Article shall keep sufficient records to permit the determination of adjusted gross hospital revenue for the hospital's fiscal year. All such records shall be kept in the English language and shall, at all times during regular business hours of the day, be subject to inspection by the Illinois Department or its duly authorized agents and employees.

(g) The Illinois Department may, by rule, provide a hospital provider a reasonable opportunity to request a clarification or correction of any clerical or computational errors contained in the calculation of its assessment, but such corrections shall not extend to updating the cost report information used to calculate the assessment.

Section 45-5. The Illinois Public Aid Code is amended by changing Section 14-8 and by adding Section 14-12 as follows:

(305 ILCS 5/14-8) (from Ch. 23, par. 14-8)
Sec. 14-8. Disbursements to Hospitals.
(a) For inpatient hospital services rendered on and after September 1, 1991, the Illinois Department shall reimburse hospitals for inpatient services at an inpatient payment rate calculated for each hospital based upon the New matter indicated by italics - deletions by strikeout
Medicare Prospective Payment System as set forth in Sections 1886(b), (d), (g), and (h) of the federal Social Security Act, and the regulations, policies, and procedures promulgated thereunder, except as modified by this Section. Payment rates for inpatient hospital services rendered on or after September 1, 1991 and on or before September 30, 1992 shall be calculated using the Medicare Prospective Payment rates in effect on September 1, 1991. Payment rates for inpatient hospital services rendered on or after October 1, 1992 and on or before March 31, 1994 shall be calculated using the Medicare Prospective Payment rates in effect on September 1, 1992. Payment rates for inpatient hospital services rendered on or after April 1, 1994 shall be calculated using the Medicare Prospective Payment rates (including the Medicare grouping methodology and weighting factors as adjusted pursuant to paragraph (1) of this subsection) in effect 90 days prior to the date of admission. For services rendered on or after July 1, 1995, the reimbursement methodology implemented under this subsection shall not include those costs referred to in Sections 1886(d)(5)(B) and 1886(h) of the Social Security Act. The additional payment amounts required under Section 1886(d)(5)(F) of the Social Security Act, for hospitals serving a disproportionate share of low-income or indigent patients, are not required under this Section. For hospital inpatient services rendered on or after July 1, 1995 and on or before June 30, 2014, the Illinois Department shall reimburse hospitals using the relative weighting factors and the base payment rates calculated for each hospital that were in effect on June 30, 1995, less the portion of such rates attributed by the Illinois Department to the cost of medical education.

(1) The weighting factors established under Section 1886(d)(4) of the Social Security Act shall not be used in the reimbursement system established under this Section. Rather, the Illinois Department shall establish by rule Medicaid weighting factors to be used in the reimbursement system established under this Section.

(2) The Illinois Department shall define by rule those hospitals or distinct parts of hospitals that shall be exempt from the reimbursement system established under this Section. In defining such hospitals, the Illinois Department shall take into consideration those hospitals exempt from the Medicare Prospective Payment System as of September 1, 1991. For hospitals defined as exempt under this subsection, the Illinois Department shall by rule establish a reimbursement system for payment of inpatient hospital services rendered on and after September 1, 1991. For all hospitals that are

children's hospitals as defined in Section 5-5.02 of this Code, the reimbursement methodology shall, through June 30, 1992, net of all applicable fees, at least equal each children's hospital 1990 ICARE payment rates, indexed to the current year by application of the DRI hospital cost index from 1989 to the year in which payments are made. Excepting county providers as defined in Article XV of this Code, hospitals licensed under the University of Illinois Hospital Act, and facilities operated by the Department of Mental Health and Developmental Disabilities (or its successor, the Department of Human Services) for hospital inpatient services rendered on or after July 1, 1995 and on or before June 30, 2014, the Illinois Department shall reimburse children's hospitals, as defined in 89 Illinois Administrative Code Section 149.50(c)(3), at the rates in effect on June 30, 1995, and shall reimburse all other hospitals at the rates in effect on June 30, 1995, less the portion of such rates attributed by the Illinois Department to the cost of medical education. For inpatient hospital services provided on or after August 1, 1998, the Illinois Department may establish by rule a means of adjusting the rates of children's hospitals, as defined in 89 Illinois Administrative Code Section 149.50(c)(3), that did not meet that definition on June 30, 1995, in order for the inpatient hospital rates of such hospitals to take into account the average inpatient hospital rates of those children's hospitals that did meet the definition of children's hospitals on June 30, 1995.

(b-5) Excepting county providers as defined in Article XV of this Code, hospitals licensed under the University of Illinois Hospital Act, and facilities operated by the Illinois Department of Mental Health and Developmental Disabilities (or its successor, the Department of Human Services), for outpatient services rendered on or after July 1, 1995 and before July 1, 1998 the Illinois Department shall reimburse children's hospitals, as defined in the Illinois Administrative Code Section 149.50(c)(3), at the rates in effect on June 30, 1995, less that portion of such rates attributed by the Illinois Department to the outpatient indigent volume adjustment and shall reimburse all other hospitals at the rates in effect on June 30, 1995, less the portions of such rates attributed by the Illinois Department to the cost of medical education and attributed by the Illinois Department to the outpatient indigent volume adjustment. For outpatient services provided on or after July 1, 1998 and on or before June 30, 2014, reimbursement rates shall be established by rule.

(c) In addition to any other payments under this Code, the Illinois Department shall develop a hospital disproportionate share reimbursement methodology that, effective July 1, 1991, through September 30, 1992, shall reimburse hospitals sufficiently to expend the fee monies described in subsection (b) of Section 14-3 of this Code and the federal matching funds received by the Illinois Department as a result of expenditures made by the Illinois Department as required by this subsection (c) and Section 14-2 that are attributable to fee monies deposited in the Fund, less amounts applied to adjustment payments under Section 5-5.02.

(d) Critical Care Access Payments.

(1) In addition to any other payments made under this Code, the Illinois Department shall develop a reimbursement methodology that shall reimburse Critical Care Access Hospitals for the specialized services that qualify them as Critical Care Access Hospitals. No adjustment payments shall be made under this subsection on or after July 1, 1995.

(2) "Critical Care Access Hospitals" includes, but is not limited to, hospitals that meet at least one of the following criteria:

(A) Hospitals located outside of a metropolitan statistical area that are designated as Level II Perinatal Centers and that provide a disproportionate share of perinatal services to recipients; or

New matter indicated by italics - deletions by strikeout
(B) Hospitals that are designated as Level I Trauma Centers (adult or pediatric) and certain Level II Trauma Centers as determined by the Illinois Department; or
(C) Hospitals located outside of a metropolitan statistical area and that provide a disproportionate share of obstetrical services to recipients.

(e) Inpatient high volume adjustment. For hospital inpatient services, effective with rate periods beginning on or after October 1, 1993, in addition to rates paid for inpatient services by the Illinois Department, the Illinois Department shall make adjustment payments for inpatient services furnished by Medicaid high volume hospitals. The Illinois Department shall establish by rule criteria for qualifying as a Medicaid high volume hospital and shall establish by rule a reimbursement methodology for calculating these adjustment payments to Medicaid high volume hospitals. No adjustment payment shall be made under this subsection for services rendered on or after July 1, 1995.

(f) The Illinois Department shall modify its current rules governing adjustment payments for targeted access, critical care access, and uncompensated care to classify those adjustment payments as not being payments to disproportionate share hospitals under Title XIX of the federal Social Security Act. Rules adopted under this subsection shall not be effective with respect to services rendered on or after July 1, 1995. The Illinois Department has no obligation to adopt or implement any rules or make any payments under this subsection for services rendered on or after July 1, 1995.

(f-5) The State recognizes that adjustment payments to hospitals providing certain services or incurring certain costs may be necessary to assure that recipients of medical assistance have adequate access to necessary medical services. These adjustments include payments for teaching costs and uncompensated care, trauma center payments, rehabilitation hospital payments, perinatal center payments, obstetrical care payments, targeted access payments, Medicaid high volume payments, and outpatient indigent volume payments. On or before April 1, 1995, the Illinois Department shall issue recommendations regarding (i) reimbursement mechanisms or adjustment payments to reflect these costs and services, including methods by which the payments may be calculated and the method by which the payments may be financed, and (ii) reimbursement mechanisms or adjustment payments to reflect costs and services of federally qualified health centers with respect to recipients of medical assistance.

(g) If one or more hospitals file suit in any court challenging any part of this Article XIV, payments to hospitals under this Article XIV shall be made only to the extent that sufficient monies are available in the Fund and only to the extent that any monies in the Fund are not prohibited from disbursement under any order of the court.

(h) Payments under the disbursement methodology described in this Section are subject to approval by the federal government in an appropriate State plan amendment.

(i) The Illinois Department may by rule establish criteria for and develop methodologies for adjustment payments to hospitals participating under this Article.

(j) Hospital Residing Long Term Care Services. In addition to any other payments made under this Code, the Illinois Department may by rule establish criteria and develop methodologies for payments to hospitals for Hospital Residing Long Term Care Services.

In addition to any other payments authorized under this Code, the Illinois Department shall reimburse critical access hospitals, as designated by the Illinois Department of Public Health in accordance with 42 CFR 485, Subpart F, for outpatient services at an amount that is no less than the cost of providing such services, based on Medicare cost principles. Payments under this subsection shall be subject to appropriation.

(l) On and after July 1, 2012, the Department shall reduce any rate of reimbursement for services or other payments or alter any methodologies authorized by this Code to reduce any rate of reimbursement for services or other payments in accordance with Section 5-5e.

Initial weighting factors shall be the weighting factors as published by 3M Health Information System, associated with Version 30.0 adjusted for the Illinois experience.

New matter indicated by italics - deletions by strikeout
(2) The Department shall establish a statewide-standardized amount to be used in the inpatient reimbursement system. The Department shall publish these amounts on its website no later than 10 calendar days prior to their effective date.

(3) In addition to the statewide-standardized amount, the Department shall develop adjusters to adjust the rate of reimbursement for critical Medicaid providers or services for trauma, transplantation services, perinatal care, and Graduate Medical Education (GME).

(4) The Department shall develop add-on payments to account for exceptionally costly inpatient stays, consistent with Medicare outlier principles. Outlier fixed loss thresholds may be updated to control for excessive growth in outlier payments no more frequently than on an annual basis, but at least triennially. Upon updating the fixed loss thresholds, the Department shall be required to update base rates within 12 months.

(5) The Department shall define those hospitals or distinct parts of hospitals that shall be exempt from the APR-DRG reimbursement system established under this Section. The Department shall publish these hospitals' inpatient rates on its website no later than 10 calendar days prior to their effective date.

(6) Beginning July 1, 2014 and ending on June 30, 2018, in addition to the statewide-standardized amount, the Department shall develop an adjustor to adjust the rate of reimbursement for safety-net hospitals defined in Section 5-5e.1 of this Code excluding pediatric hospitals.

(7) Beginning July 1, 2014 and ending on June 30, 2018, in addition to the statewide-standardized amount, the Department shall develop an adjustor to adjust the rate of reimbursement for Illinois freestanding inpatient psychiatric hospitals that are not designated as children’s hospitals by the Department but are primarily treating patients under the age of 21.

(b) Outpatient hospital services. Effective for dates of service on and after July 1, 2014, reimbursement for outpatient services shall utilize the Enhanced Ambulatory Procedure Grouping (E-APG) software, version 3.7 distributed by 3M™ Health Information System.

(1) The Department shall establish Medicaid weighting factors to be used in the reimbursement system established under this subsection. The initial weighting factors shall be the weighting

factors as published by 3M Health Information System, associated with Version 3.7.

(2) The Department shall establish service specific statewide-standardized amounts to be used in the reimbursement system.

(A) The initial statewide standardized amounts, with the labor portion adjusted by the Calendar Year 2013 Medicare Outpatient Prospective Payment System wage index with reclassifications, shall be published by the Department on its website no later than 10 calendar days prior to their effective date.

(B) The Department shall establish adjustments to the statewide-standardized amounts for each Critical Access Hospital, as designated by the Department of Public Health in accordance with 42 CFR 485, Subpart F. The EAPG standardized amounts are determined separately for each critical access hospital such that simulated EAPG payments using outpatient base period paid claim data plus payments under Section 5A-12.4 of this Code net of the associated tax costs are equal to the estimated costs of outpatient base period claims data with a rate year cost inflation factor applied.

(3) In addition to the statewide-standardized amounts, the Department shall develop adjusters to adjust the rate of reimbursement for critical Medicaid hospital outpatient providers or services, including outpatient high volume or safety-net hospitals.

(c) In consultation with the hospital community, the Department is authorized to replace 89 Ill. Admin. Code 152.150 as published in 38 Ill. Reg. 4980 through 4986 within 12 months of the effective date of this amendatory Act of the 98th General Assembly. If the Department does not replace these rules within 12 months of the effective date of this amendatory Act of the 98th General Assembly, the rules in effect for 152.150 as published in 38 Ill. Reg. 4980 through 4986 shall remain in effect until modified by rule by the Department. Nothing in this subsection shall be construed to mandate that the Department file a replacement rule.

(d) Transition period. There shall be a transition period to the reimbursement systems authorized under this Section that shall begin on the effective date of these systems and continue until June 30, 2018, unless extended by rule by the Department. To help provide an orderly and predictable transition to the new reimbursement systems and to preserve and
enhance access to the hospital services during this transition, the Department shall allocate a transitional hospital access pool of at least $290,000,000 annually so that transitional hospital access payments are made to hospitals.

(1) After the transition period, the Department may begin incorporating the transitional hospital access pool into the base rate structure.

(2) After the transition period, if the Department reduces payments from the transitional hospital access pool, it shall increase base rates, develop new adjustors, adjust current adjustors, develop new hospital access payments based on updated information, or any combination thereof by an amount equal to the decreases proposed in the transitional hospital access pool payments, ensuring that the entire transitional hospital access pool amount shall continue to be used for hospital payments.

(e) Beginning 36 months after initial implementation, the Department shall update the reimbursement components in subsections (a) and (b), including standardized amounts and weighting factors, and at least triennially and no more frequently than annually thereafter. The Department shall publish these updates on its website no later than 30 calendar days prior to their effective date.

(f) Continuation of supplemental payments. Any supplemental payments authorized under Illinois Administrative Code 148 effective January 1, 2014 and that continue during the period of July 1, 2014 through December 31, 2014 shall remain in effect as long as the assessment imposed by Section 5A-2 is in effect.

(g) Notwithstanding subsections (a) through (f) of this Section, any updates to the system shall not result in any diminishment of the overall effective rates of reimbursement as of the implementation date of the new system (July 1, 2014). These updates shall not preclude variations in any individual component of the system or hospital rate variations. Nothing in this Section shall prohibit the Department from increasing the rates of reimbursement or developing payments to ensure access to hospital services. Nothing in this Section shall be construed to guarantee a minimum amount of spending in the aggregate or per hospital as spending may be impacted by factors including but not limited to the number of individuals in the medical assistance program and the severity of illness of the individuals.

(h) The Department shall have the authority to modify by rulemaking any changes to the rates or methodologies in this Section as required by the
federal government to obtain federal financial participation for expenditures made under this Section.

(i) Except for subsections (g) and (h) of this Section, the Department shall, pursuant to subsection (c) of Section 5-40 of the Illinois Administrative Procedure Act, provide for presentation at the June 2014 hearing of the Joint Committee on Administrative Rules (JCAR) additional written notice to JCAR of the following rules in order to commence the second notice period for the following rules: rules published in the Illinois Register, rule dated February 21, 2014 at 38 Ill. Reg. 4559 (Medical Payment), 4628 (Specialized Health Care Delivery Systems), 4640 (Hospital Services), 4932 (Diagnostic Related Grouping (DRG) Prospective Payment System (PPS)), and 4977 (Hospital Reimbursement Changes), and published in the Illinois Register dated March 21, 2014 at 38 Ill. Reg. 6499 (Specialized Health Care Delivery Systems) and 6505 (Hospital Services).

The Illinois Department, by rule, shall prohibit any physician from providing medical assistance to anyone eligible therefor under this Code where such physician has been found guilty of performing an abortion procedure in a wilful and wanton manner upon a woman who was not pregnant at the time such abortion procedure was performed. The term "any other type of remedial care" shall include nursing care and nursing home service for persons who rely on treatment by spiritual means alone through prayer for healing.

Notwithstanding any other provision of this Section, a comprehensive tobacco use cessation program that includes purchasing prescription drugs or prescription medical devices approved by the Food and Drug Administration shall be covered under the medical assistance program under this Article for persons who are otherwise eligible for assistance under this Article.

Notwithstanding any other provision of this Code and subject to federal approval, the Department may adopt rules to allow a dentist who is volunteering his or her service at no cost to render dental services through an enrolled not-for-profit health clinic without the dentist personally enrolling as a participating provider in the medical assistance program. A not-for-profit health clinic shall include a public health clinic or Federally Qualified Health Center or other enrolled provider, as determined by the Department, through which dental services covered under this Section are performed. The Department shall establish a process for payment of claims for reimbursement for covered dental services rendered under this provision.

All screenings shall include a physical breast exam, instruction on self-examination and information regarding the frequency of self-examination and its value as a preventative tool. For purposes of this Section, "low-dose mammography" means the x-ray examination of the breast using equipment dedicated specifically for mammography, including the x-ray tube, filter, compression device, and image receptor, with an average radiation exposure delivery of less than one rad per breast for 2 views of an average size breast. The term also includes digital mammography.

On and after January 1, 2012, providers participating in a quality improvement program approved by the Department shall be reimbursed for screening and diagnostic mammography at the same rate as the Medicare program's rates, including the increased reimbursement for digital mammography.

The Department shall convene an expert panel including representatives of hospitals, free-standing mammography facilities, and doctors, including radiologists, to establish quality standards.

Any medical or health care provider shall immediately recommend, to any pregnant woman who is being provided prenatal services and is suspected of drug abuse or is addicted as defined in the Alcoholism and Other Drug Abuse and Dependency Act, referral to a local substance abuse treatment provider licensed by the Department of Human Services or to a licensed hospital which provides substance abuse treatment services. The Department of Healthcare and Family Services shall assure coverage for the cost of treatment of the drug abuse or addiction for pregnant recipients in accordance with the Illinois Medicaid Program in conjunction with the Department of Human Services.

All medical providers providing medical assistance to pregnant women under this Code shall receive information from the Department on the availability of services under the Drug Free Families with a Future or any comparable program providing case management services for addicted women, including information on appropriate referrals for other social services that may be needed by addicted women in addition to treatment for addiction.

The Illinois Department, in cooperation with the Departments of Human Services (as successor to the Department of Alcoholism and Substance Abuse) and Public Health, through a public awareness campaign, may provide information concerning treatment for alcoholism and drug abuse and addiction, prenatal health care, and other pertinent programs directed at reducing the number of drug-affected infants born to recipients of medical assistance.

Neither the Department of Healthcare and Family Services nor the Department of Human Services shall sanction the recipient solely on the basis of her substance abuse.

The Illinois Department shall establish such regulations governing the dispensing of health services under this Article as it shall deem appropriate. The Department should seek the advice of formal professional advisory committees appointed by the Director of the Illinois Department for the purpose of providing regular advice on policy and administrative matters, information dissemination and educational activities for medical and health care providers, and consistency in procedures to the Illinois Department.

The Illinois Department may develop and contract with Partnerships of medical providers to arrange medical services for persons eligible under Section 5-2 of this Code. Implementation of this Section may be by demonstration projects in certain geographic areas. The Partnership shall be represented by a sponsor organization. The Department, by rule, shall develop qualifications for sponsors of Partnerships. Nothing in this Section shall be construed to require that the sponsor organization be a medical organization.

The sponsor must negotiate formal written contracts with medical providers for physician services, inpatient and outpatient hospital care, home health services, treatment for alcoholism and substance abuse, and other services determined necessary by the Illinois Department by rule for delivery by Partnerships. Physician services must include prenatal and obstetrical care. The Illinois Department shall reimburse medical services delivered by Partnership providers to clients in target areas according to provisions of this Article and the Illinois Health Finance Reform Act, except that:

1. Physicians participating in a Partnership and providing certain services, which shall be determined by the Illinois Department, to persons in areas covered by the Partnership may receive an additional surcharge for such services.

2. The Department may elect to consider and negotiate financial incentives to encourage the development of Partnerships and the efficient delivery of medical care.

3. Persons receiving medical services through Partnerships may receive medical and case management services above the level usually offered through the medical assistance program.

Medical providers shall be required to meet certain qualifications to participate in Partnerships to ensure the delivery of high quality medical services. These qualifications shall be determined by rule of the Illinois Department and may be higher than qualifications for participation in the medical assistance program. Partnership sponsors may prescribe reasonable additional qualifications for participation by medical providers, only with the prior written approval of the Illinois Department.

Nothing in this Section shall limit the free choice of practitioners, hospitals, and other providers of medical services by clients. In order to ensure patient freedom of choice, the Illinois Department shall immediately promulgate all rules and take all other necessary actions so that provided services may be accessed from therapeutically certified optometrists to the
full extent of the Illinois Optometric Practice Act of 1987 without
discriminating between service providers.

The Department shall apply for a waiver from the United States
Health Care Financing Administration to allow for the implementation of
Partnerships under this Section.

The Illinois Department shall require health care providers to
maintain records that document the medical care and services provided to
recipients of Medical Assistance under this Article. Such records must be
retained for a period of not less than 6 years from the date of service or as
provided by applicable State law, whichever period is longer, except that if
an audit is initiated within the required retention period then the records must
be retained until the audit is completed and every exception is resolved. The
Illinois Department shall require health care providers to make available,
when authorized by the patient, in writing, the medical records in a timely
fashion to other health care providers who are treating or serving persons
eligible for Medical Assistance under this Article. All dispensers of medical
services shall be required to maintain and retain business and professional
records sufficient to fully and accurately document the nature, scope, details
and receipt of the health care provided to persons eligible for medical
assistance under this Code, in accordance with regulations promulgated by
the Illinois Department. The rules and regulations shall require that proof of
the receipt of prescription drugs, dentures, prosthetic devices and eyeglasses
by eligible persons under this Section accompany each claim for
reimbursement submitted by the dispenser of such medical services. No such
claims for reimbursement shall be approved for payment by the Illinois
Department without such proof of receipt, unless the Illinois Department
shall have put into effect and shall be operating a system of post-payment
audit and review which shall, on a sampling basis, be deemed adequate by the

eyeglasses for which payment is being made are actually being received by
eligible recipients. Within 90 days after the effective date of this amendatory
Act of 1984, the Illinois Department shall establish a current list of
acquisition costs for all prosthetic devices and any other items recognized as
medical equipment and supplies reimbursable under this Article and shall
update such list on a quarterly basis, except that the acquisition costs of all

Notwithstanding any other law to the contrary, the Illinois Department shall, within 365 days after July 22, 2013, the effective date of Public Act 98-104 this amendatory Act of the 98th General Assembly, establish procedures to permit skilled care facilities licensed under the Nursing Home Care Act to submit monthly billing claims for reimbursement purposes. Following development of these procedures, the Department shall have an additional 365 days to test the viability of the new system and to ensure that any necessary operational or structural changes to its information technology platforms are implemented.

The Illinois Department shall require all dispensers of medical services, other than an individual practitioner or group of practitioners, desiring to participate in the Medical Assistance program established under this Article to disclose all financial, beneficial, ownership, equity, surety or other interests in any and all firms, corporations, partnerships, associations, business enterprises, joint ventures, agencies, institutions or other legal entities providing any form of health care services in this State under this Article.

The Illinois Department may require that all dispensers of medical services desiring to participate in the medical assistance program established under this Article disclose, under such terms and conditions as the Illinois Department may by rule establish, all inquiries from clients and attorneys regarding medical bills paid by the Illinois Department, which inquiries could indicate potential existence of claims or liens for the Illinois Department.

Enrollment of a vendor shall be subject to a provisional period and shall be conditional for one year. During the period of conditional enrollment, the Department may terminate the vendor's eligibility to participate in, or may disenroll the vendor from, the medical assistance program without cause. Unless otherwise specified, such termination of eligibility or disenrollment is not subject to the Department's hearing process. However, a disenrolled vendor may reapply without penalty.

The Department has the discretion to limit the conditional enrollment period for vendors based upon category of risk of the vendor.

Prior to enrollment and during the conditional enrollment period in the medical assistance program, all vendors shall be subject to enhanced oversight, screening, and review based on the risk of fraud, waste, and abuse that is posed by the category of risk of the vendor. The Illinois Department
shall establish the procedures for oversight, screening, and review, which may include, but need not be limited to: criminal and financial background checks; fingerprinting; license, certification, and authorization verifications; unscheduled or unannounced site visits; database checks; prepayment audit reviews; audits; payment caps; payment suspensions; and other screening as required by federal or State law.

The Department shall define or specify the following: (i) by provider notice, the "category of risk of the vendor" for each type of vendor, which shall take into account the level of screening applicable to a particular category of vendor under federal law and regulations; (ii) by rule or provider notice, the maximum length of the conditional enrollment period for each category of risk of the vendor; and (iii) by rule, the hearing rights, if any, afforded to a vendor in each category of risk of the vendor that is terminated or disenrolled during the conditional enrollment period.

To be eligible for payment consideration, a vendor's payment claim or bill, either as an initial claim or as a resubmitted claim following prior rejection, must be received by the Illinois Department, or its fiscal intermediary, no later than 180 days after the latest date on the claim on which medical goods or services were provided, with the following exceptions:

(1) In the case of a provider whose enrollment is in process by the Illinois Department, the 180-day period shall not begin until the date on the written notice from the Illinois Department that the provider enrollment is complete.

(2) In the case of errors attributable to the Illinois Department or any of its claims processing intermediaries which result in an inability to receive, process, or adjudicate a claim, the 180-day period shall not begin until the provider has been notified of the error.

(3) In the case of a provider for whom the Illinois Department initiates the monthly billing process.

(4) In the case of a provider operated by a unit of local government with a population exceeding 3,000,000 when local government funds finance federal participation for claims payments. For claims for services rendered during a period for which a recipient received retroactive eligibility, claims must be filed within 180 days after the Department determines the applicant is eligible. For claims for which the Illinois Department is not the primary payer, claims must be submitted to the Illinois Department within 180 days after the final adjudication by the primary payer.

Beginning in fiscal year 2013, the Illinois Department shall set forth a request for information to identify the benefits of a pre-payment, post-adjudication, and post-edit claims system with the goals of streamlining claims processing and provider reimbursement, reducing the number of pending or rejected claims, and helping to ensure a more transparent adjudication process through the utilization of: (i) provider data verification and provider screening technology; and (ii) clinical code editing; and (iii) pre-pay, pre- or post-adjudicated predictive modeling with an integrated case management system with link analysis. Such a request for information shall not be considered as a request for proposal or as an obligation on the part of the Illinois Department to take any action or acquire any products or services.

The Illinois Department shall establish policies, procedures, standards and criteria by rule for the acquisition, repair and replacement of orthotic and prosthetic devices and durable medical equipment. Such rules shall provide, but not be limited to, the following services: (1) immediate repair or replacement of such devices by recipients; and (2) rental, lease, purchase or lease-purchase of durable medical equipment in a cost-effective manner, taking into consideration the recipient's medical prognosis, the extent of the recipient's needs, and the requirements and costs for maintaining such equipment. In order to select the minimum level of care eligibility criteria, the Governor shall establish a workgroup that includes affected agency representatives and stakeholders representing the institutional and home and community-based long term care interests. This Section shall not restrict the Department from implementing lower level of care eligibility criteria for community-based services in circumstances where federal approval has been granted.

(3) Regional wage adjustors based on the Health Service Areas (HSA) groupings and adjusters in effect on April 30, 2012 shall be included.

(4) Case mix index shall be assigned to each resident class based on the Centers for Medicare and Medicaid Services staff time measurement study in effect on July 1, 2013, utilizing an index maximization approach.

AN ACT concerning local government.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Metropolitan Water Reclamation District Act is amended by changing Sections 7h and 9.6c as follows:

(a) Stormwater management in Cook County shall be under the general supervision of the Metropolitan Water Reclamation District of Greater Chicago. The District has the authority to plan, manage, implement, and finance activities relating to stormwater management in Cook County. The authority of the District with respect to stormwater management extends throughout Cook County and is not limited to the area otherwise within the territory and jurisdiction of the District under this Act. For the purposes of this Section, the term "stormwater management" includes, without limitation, the management of floods and floodwaters.

(b) The District may utilize the resources of cooperating local watershed councils (including the stormwater management planning councils created under Section 5-1062.1 of the Counties Code), councils of local governments, the Northeastern Illinois Planning Commission, and similar organizations and agencies. The District may provide those organizations and agencies with funding, on a contractual basis, for providing information to the District, providing information to the public, or performing other activities related to stormwater management.
The District, in addition to other powers vested in it, may negotiate and enter into agreements with any county for the management of stormwater runoff in accordance with subsection (c) of Section 5-1062 of the Counties Code.

The District may enter into intergovernmental agreements with Cook County or other units of local government that are located in whole or in part outside the District for the purpose of implementing the stormwater management plan and providing stormwater management services in areas not included within the territory of the District.

(c) The District shall prepare and adopt by ordinance a countywide stormwater management plan for Cook County. The countywide plan may incorporate one or more separate watershed plans.

Prior to adopting the countywide stormwater management plan, the District shall hold at least one public hearing thereon and shall afford interested persons an opportunity to be heard.

(d) The District may prescribe by ordinance reasonable rules and regulations for floodplain and stormwater management and for governing the location, width, course, and release rate of all stormwater runoff channels, streams, and basins in Cook County, in accordance with the adopted stormwater management plan. These rules and regulations shall, at a minimum, meet the standards for floodplain management established by the Office of Water Resources of the Department of Natural Resources and the requirements of the Federal Emergency Management Agency for participation in the National Flood Insurance Program.

(e) The District may impose fees on areas outside the District but within Cook County for performance of stormwater management services, including but not limited to, maintenance of streams and the development, design, planning, construction, operation and maintenance of stormwater facilities. The total amount of the fees collected from areas outside of the District but within Cook County shall not exceed the District's annual tax rate for stormwater management within the District multiplied by the aggregate equalized assessed valuation of areas outside of the District but within Cook County. The District may require the unit of local government in which the stormwater services are performed to collect the fee and remit the collected fee to the District. The District is authorized to pay a reasonable administrative fee to the unit of local government for the collection of these fees. All such fees collected by the District shall be held in a separate fund and used for implementation of this Section.
(f) Amounts realized from the tax levy for stormwater management purposes authorized in Section 12 may be used by the District for implementing this Section and for the development, design, planning, construction, operation, and maintenance of regional and local stormwater facilities provided for in the stormwater management plan.

The proceeds of any tax imposed under Section 12 for stormwater management purposes and any revenues generated as a result of the ownership or operation of facilities or land acquired with the proceeds of taxes imposed under Section 12 for stormwater management purposes shall be held in a separate fund and used either for implementing this Section or to abate those taxes.

(g) The District may plan, implement, finance, and operate regional and local stormwater management projects in accordance with the adopted countywide stormwater management plan.

The District shall provide for public review and comment on proposed stormwater management projects. The District shall conform to State and federal requirements concerning public information, environmental assessments, and environmental impacts for projects receiving State or federal funds.

The District may issue bonds under Section 9.6a of this Act for the purpose of funding stormwater management projects.

The District shall not use Cook County Forest Preserve District land for stormwater or flood control projects without the consent of the Forest Preserve District.

The District may acquire, by purchase from a willing seller in a voluntary transaction, real property in furtherance of its regional and local stormwater management activities. Nothing in this Section shall affect the District's powers of condemnation or eminent domain as otherwise set forth in this Act.

(h) Upon the creation and implementation of a county stormwater management plan, the District may petition the circuit court to dissolve any or all drainage districts created pursuant to the Illinois Drainage Code or predecessor Acts that are located entirely within the District.

However, any active drainage district implementing a plan that is consistent with and at least as stringent as the county stormwater management plan may petition the District for exception from dissolution. Upon filing of the petition, the District shall set a date for hearing not less than 2 weeks, nor more than 4 weeks, from the filing thereof, and the District shall give at least one week's notice of the hearing in one or more newspapers of general
circulation within the drainage district, and in addition shall cause a copy of the notice to be personally served upon each of the trustees of the drainage district. At the hearing, the District shall hear the drainage district's petition and allow the drainage district trustees and any interested parties an opportunity to present oral and written evidence. The District shall render its decision upon the petition for exception from dissolution based upon the best interests of the residents of the drainage district. In the event that the exception is not allowed, the drainage district may file a petition with the circuit court within 30 days of the decision. In that case, the notice and hearing requirements for the court shall be the same as provided in this subsection for the petition to the District. The court shall render its decision of whether to dissolve the district based upon the best interests of the residents of the drainage district.

The dissolution of a drainage district shall not affect the obligation of any bonds issued or contracts entered into by the drainage district nor invalidate the levy, extension, or collection of any taxes or special assessments upon the property in the former drainage district. All property and obligations of the former drainage district shall be assumed and managed by the District, and the debts of the former drainage district shall be discharged as soon as practicable.

If a drainage district lies only partly within the District, the District may petition the circuit court to disconnect from the drainage district that portion of the drainage district that lies within the District. The property of the drainage district within the disconnected area shall be assumed and managed by the District. The District shall also assume a portion of the drainage district's debt at the time of disconnection, based on the portion of the value of the taxable property of the drainage district which is located within the area being disconnected.

A drainage district that continues to exist within Cook County shall conform its operations to the countywide stormwater management plan.

(i) The District may assume responsibility for maintaining any stream within Cook County.

(j) The District may, after 10 days written notice to the owner or occupant, enter upon any lands or waters within the county for the purpose of inspecting stormwater facilities or causing the removal of any obstruction to an affected watercourse. The District shall be responsible for any damages occasioned thereby.
(k) The District shall report to the public annually on its activities and expenditures under this Section and the adopted countywide stormwater management plan.

(l) The powers granted to the District under this Section are in addition to the other powers granted under this Act. This Section does not limit the powers of the District under any other provision of this Act or any other law.

(m) This Section does not affect the power or duty of any unit of local government to take actions relating to flooding or stormwater, so long as those actions conform with this Section and the plans, rules, and ordinances adopted by the District under this Section.

A home rule unit located in whole or in part in Cook County (other than a municipality with a population over 1,000,000) may not regulate stormwater management or planning in Cook County in a manner inconsistent with this Section or the plans, rules, and ordinances adopted by the District under this Section; provided, within a municipality with a population over 1,000,000, the stormwater management planning program of Cook County shall be conducted by that municipality or, to the extent provided in an intergovernmental agreement between the municipality and the District, by the District pursuant to this Section; provided further that the power granted to such municipality shall not be inconsistent with existing powers of the District. Pursuant to paragraph (i) of Section 6 of Article VII of the Illinois Constitution, this Section specifically denies and limits the exercise of any power that is inconsistent with this Section by a home rule unit that is a county with a population of 1,500,000 or more or is located, in whole or in part, within such a county, other than a municipality with a population over 1,000,000.

Sec. 9.6c. Local Government Assistance Program; bonds.

(a) The General Assembly finds that governmental units located within the boundaries of the district require assistance in financing the cost of repair, replacement, reconstruction, and rehabilitation of local sewer collection systems to reduce certain excessive sanitary sewer groundwater inflows; that such inflows ultimately result in increased need for treatment and storage facilities of the district; and that the district, in the discretion of its commissioners, advantageously may provide loan funds for such purposes.

(b) For purposes of this Section, the following terms shall have the meanings set forth, as follows:

New matter indicated by italics - deletions by strikeout
The following terms shall have the meanings given to them in the Local Government Debt Reform Act: (A) "alternate bonds"; (B) "applicable law"; (C) "bonds"; (D) "general obligation bonds"; (E) "governmental unit"; (F) "ordinance"; and (G) "revenue source".

"Assistance bonds" means the bonds to be issued by the district to provide funds for the program as authorized in subsection (f) of this Section.

"Assistance program" means the program authorized in this Section by which the district may make loans to local governmental units for any one or more of the following undertaken with respect to the repair, replacement, reconstruction, and rehabilitation of local sewer collection systems: preliminary planning, engineering, architectural, legal, fiscal or economic investigations or studies, surveys, designs, plans, working drawings, specifications, procedures or other necessary actions, erection, building acquisition, alteration, remodeling, or improvement of such collection systems, or the inspection or supervision of any of the foregoing.

"Loan" means a loan made by the district to a local governmental unit under the assistance program.

"Local governmental unit" means a governmental unit within the boundaries of the district.

"Reconstruction" shall include the construction of totally new lines or systems if reasonably designed to replace obsolete lines or systems.

(c) The commissioners may establish an assistance program.

(d) The commissioners are authorized to do any one or more of the following with respect to the assistance program:

(1) Establish the assistance program as a use or appropriation within the corporate fund of the district.

(2) Accept grants, borrow funds, and appropriate lawfully available funds for the purpose of funding the assistance program.

(3) Make the loans as provided in subsection (e).

(4) Enforce loans with all available remedies as any governmental unit or private person might have with respect to such loans.

(e) The district shall have the power to make loans and local governmental units shall have the power to obtain loans from the district, but only if authorized to borrow under such powers as may be granted to such local governmental units under other applicable law. This Section does not
grant local governmental units separate borrowing power. If authorized to issue bonds under such applicable law, however, the form of the borrowing may be such as the district and the local governmental unit may agree, including, without limitation, a loan agreement made between the district and local governmental unit to evidence the bond. Any such loan agreement shall state the statutory authority under applicable law for the bond it represents but otherwise need not be in any specific form. The district shall have all rights and remedies available to the holder of a bond otherwise issued in the form provided for same under applicable law and also such rights and remedies as may be additionally available under subsection (d)(4) of this Section. The loans may be made upon such terms and at such rates, including expressly below market rates, representing a subsidy of funds from the district to the local governmental units, as the district may specify in the loan agreements.

(f) The district may borrow money and issue its assistance bonds under this Section 9.6c for the purpose of funding the assistance program, which bonds shall be alternate revenue bonds payable from any lawfully available revenue source, including without limitation receipts from the loans. Assistance bonds shall not be subject to any referendum requirement and shall not be treated as indebtedness under any applicable provision of law setting forth a limitation upon or requirement with respect to the legal indebtedness of the district.

absence, the supervisor, assessor, or collector) by posting written or printed notices in 3 of the most public places in the township at least 15 days before the meeting and, if there is an English language newspaper published in the township, by at least one publication in that newspaper before the meeting. The notice shall set forth the agenda for the meeting.

(b) Agenda. Not less than 15 days before the annual meeting, the township board shall adopt an agenda for the annual meeting. Any 15 or more registered voters in the township may request an agenda item for consideration by the electors at the annual meeting by giving written notice of a specific request to the township clerk no later than March 1 prior to the annual meeting. The agenda published by the township board shall include any such request made by voters if the request is relevant to powers granted to electors under the Township Code.

(60 ILCS 1/30-50)

Sec. 30-50. Purchase and use of property.

(a) The electors may make all orders for the purchase, sale, conveyance, regulation, or use of the township's corporate property (including the direct sale or lease of single township road district property) that may be deemed conducive to the interests of its inhabitants, including the lease, for up to 10 years, or for up to 25 years if the lease is for a wireless telecommunications tower, at fair market value, of corporate property for which no use or need during the lease period is anticipated at the time of leasing. The property may be leased to another governmental body, however, or to a not-for-profit corporation that has contracted to construct or fund the construction of a structure or improvement upon the real estate owned by the township and that has contracted with the township to allow the township to use at least a portion of the structure or improvement to be constructed upon the real estate leased and not otherwise used by the township, for any term not exceeding 50 years and for any consideration. In the case of a not-for-profit corporation, the township shall hold a public hearing on the proposed lease. The township clerk shall give notice of the hearing by publication in a newspaper published in the township, or in a newspaper published in the county and having general circulation in the township if no newspaper is

published in the township, and by posting notices in at least 5 public places at least 15 days before the public hearing.

(b) If a new tax is to be levied or an existing tax rate is to be increased above the statutory limits for the purchase of the property, however, no action otherwise authorized in subsection (a) shall be taken unless a petition signed by at least 10% of the registered voters residing in the township is presented to the township clerk. If a petition is presented to the township clerk, the clerk shall order a referendum on the proposition. The referendum shall be held at the next annual or special township meeting or at an election in accordance with the general election law. If the referendum is ordered to be held at the township meeting, the township clerk shall give notice that at the next annual or special township meeting the proposition shall be voted upon. The notice shall set forth the proposition and shall be given by publication in a newspaper published in the township. If there is no newspaper published in the township, the notice shall be published in a newspaper published in the county and having general circulation in the township. Notice also shall be given by posting notices in at least 5 public places at least 15 days before the township meeting. If the referendum is ordered to be held at an election, the township clerk shall certify that proposition to the proper election officials, who shall submit the proposition at an election. The proposition shall be submitted in accordance with the general election law.

(c) If the leased property is utilized in part for private use and in part for public use, those portions of the improvements devoted to private use are fully taxable. The land is exempt from taxation to the extent that the uses on the land are public and taxable to the extent that the uses are private.

(d) Before the township makes a lease or sale of township or road district real property, the electors shall adopt a resolution stating the intent to lease or sell the real property, describing the property in full, and stating the terms and conditions the electors deem necessary and desirable for the lease or sale. A resolution stating the intent to sell real property shall also contain pertinent information concerning the size, use, and zoning of the property. The value of real property shall be determined by a State licensed real estate appraiser. The appraisal shall be available for public inspection. The resolution may direct the sale to be conducted by the staff of the township or by listing with local licensed real estate agencies (in which case the terms of the agent's compensation shall be included in the resolution).

Anytime during the year, the township or township road district may dispose of personal property by a vote of the township board or request of the township highway commissioner.

New matter indicated by italics - deletions by strikeout
The clerk shall thereafter publish the resolution or personal property sale notice once in a newspaper published in the township or, if no newspaper is published in the township, in a newspaper generally circulated in the township. If no newspaper is generally circulated in the township, the clerk shall post the resolution or personal property sale notice in 5 of the most public places in the township. In addition to the foregoing publication requirements, the clerk shall post the resolution or personal property sale notice at the office of the township (if township property is involved) or at the office of the road district (if road district property is involved). The following information shall be published or posted with the resolution or personal property sale notice: (i) the date by which all bids must be received by the township or road district, which shall not be less than 30 days after the date of publication or posting, and (ii) the place, time, and date at which bids shall be opened, which shall be at a regular meeting of the township board.

All bids shall be opened by the clerk (or someone duly appointed to act for the clerk) at the regular meeting of the township board described in the notice. With respect to township personal property, except personal property valued for sale at $2,500 or less, the township board may accept the high bid or any other bid determined to be in the best interests of the township by a majority vote of the board. With respect to township real property, the township board may accept the high bid or any other bid determined to be in the best interests of the township by a vote of three-fourths of the township board then holding office, but in no event at a price less than 80% of the appraised value. With respect to road district property, except personal property valued for sale at $2,500 or less, the highway commissioner may accept the high bid or any other bid determined to be in the best interests of the road district. In each case, the township board or commissioner may reject any and all bids. With respect to township or road district personal property valued for sale at $2,500 or less, the clerk shall accept at least 2 bids and the township board or highway commissioner shall accept the highest bid. This notice and competitive bidding procedure shall not be followed when property is leased to another governmental body. The notice and competitive bidding procedure shall not be followed when property is declared surplus by the electors and sold to another governmental body.

(e) A trade-in of machinery or equipment on new or different machinery or equipment does not constitute the sale of township or road district property.

Sec. 30-205. Advisory referenda. Any group of registered voters may request an advisory question of public policy for consideration by the electors at the annual meeting by giving written notice of the specific advisory question to the township clerk in the same manner as required for an agenda item under subsection (b) of Section 30-10. The agenda published by the township board shall include any such advisory question if the request is timely filed. By a vote of the majority of electors present at a town meeting, the electors may authorize that an advisory question of public policy, for which notice has been given as required by this Section, be placed on the ballot at the next regularly scheduled election in the township. The township board shall certify the question to the proper election officials, who shall submit the question in accordance with the general election law.

(c) A volunteer license shall be granted in accordance with the licensing Act that applies to the health care professional's given health care profession, and the licensure fee shall be set by rule in accordance with subsection (f).

(d) No health care professional shall hold a non-volunteer license in a health care profession and a volunteer license in that profession at the same time. AN ACT concerning public health.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Food Handling Regulation Enforcement Act is amended by changing Sections 3.3 and 4 and by adding Sections 3.4 and 3.5 as follows:

(410 ILCS 625/3.3)
Sec. 3.3. Farmers' markets.
(a) The General Assembly finds as follows:

(1) Farmers' markets, as defined in subsection (b) of this Section, provide not only a valuable marketplace for farmers and food artisans to sell their products directly to consumers, but also a place for consumers to access fresh fruits, vegetables, and other agricultural products.

(2) Farmers' markets serve as a stimulator for local economies and for thousands of new businesses every year, allowing farmers to sell directly to consumers and capture the full retail value of their products. They have become important community institutions and have figured in the revitalization of downtown districts and rural communities.

(3) Since 1999, the number of farmers' markets has tripled and new ones are being established every year. There is a lack of consistent regulation from one county to the next, resulting in confusion and discrepancies between counties regarding how products may be sold.

(4) In 1999, the Department of Public Health published Technical Information Bulletin/Food #30 in order to outline the food handling and sanitation guidelines required for farmers' markets, producer markets, and other outdoor food sales events.

(5) While this bulletin was revised in 2010, there continues to be inconsistencies, confusion, and lack of awareness by consumers, farmers, markets, and local health authorities of required guidelines affecting farmers' markets from county to county.

(b) For the purposes of this Section:
"Department" means the Department of Public Health.
"Director" means the Director of Public Health.

New matter indicated by italics - deletions by strikeout

(d) This Act does not intend and shall not be construed to limit the power of counties, municipalities, and other local government units to regulate farmers' markets for the protection of the public health, safety, morals, and welfare, including, but not limited to, licensing requirements and time, place, and manner restrictions. This Act provides for a statewide scheme for the orderly and consistent interpretation of the Department of Public Health administrative rules pertaining to the safety of food and food products sold at farmers' markets.

(e) The Farmers' Market Task Force shall consist of at least 24 members appointed within 60 days after the effective date of this Section. Task Force members shall consist of:

(f) The Task Force shall be convened by the Director or his or her designee. Members shall elect a Task Force Chair and Co-Chair.

g) Meetings may be held via conference call, in person, or both. Three members of the Task Force may call a meeting as long as a 5-working-day notification is sent via mail, e-mail, or telephone call to each member of the Task Force.

(h) Members of the Task Force shall serve without compensation.

(i) The Task Force shall undertake a comprehensive and thorough review of the current Statutes and administrative rules that define which products and practices are permitted and which products and practices are not permitted at farmers' markets and to assist the Department in developing statewide administrative regulations for farmers' markets.

(j) The Task Force shall advise the Department regarding the content of any administrative rules adopted under this Act prior to adoption of the rules. Any administrative rules, except emergency rules adopted pursuant to Section 5-45 of the Illinois Administrative Procedure Act, adopted without obtaining the advice of the Task Force are null and void. If the Department fails to follow the advice of the Task Force, the Department shall, prior to adopting the rules, transmit a written explanation to the Task Force. If the Task Force, having been asked for its advice, fails to advise the Department within 90 days after receiving the rules for review, the rules shall be considered to have been approved by the Task Force. (m) The following provisions shall apply concerning statewide farmers' market food safety guidelines:

(1) The Director, in accordance with this Section, shall adopt administrative rules (as provided by the Illinois Administrative Procedure Act) for foods found at farmers' markets.

(2) The rules and regulations described in this Act shall be consistently enforced by local health authorities throughout the State.

(2.5) Notwithstanding any other provision of law except as provided in this Act, local public health departments and all other units of local government are prohibited from creating sanitation guidelines, rules, or regulations for farmers' markets that are more stringent than those farmers' market sanitation regulations contained in the administrative rules adopted by the Department for the purposes of implementing Section 3.3 of this Act. Except as provided for in Section 3.4 of this Act, this Act does not intend and shall not be construed to limit the power of local health departments and other government units from requiring licensing and permits for the sale of commercial food products, processed food products, prepared foods, and potentially hazardous foods at farmers' markets or conducting related inspections and enforcement activities, so long as those permits and licenses do not include unreasonable fees or sanitation provisions and rules that are more stringent than those laid out in the administrative rules adopted by the Department for the purposes of implementing Section 3.3 of this Act.

(3) In the case of alleged non-compliance with the provisions described in this Act, local health departments shall issue written notices to vendors and market managers of any noncompliance issues.

(n) Local health department regulatory guidelines may be applied to foods not often found at farmers' markets, all other food products not regulated by the Department of Agriculture and the Department of Public Health, as well as live animals to be sold at farmers' markets.

(o) The Task Force shall issue annual reports to the Secretary of the Senate and the Clerk of the House with recommendations for the development of administrative rules as specified. The first report shall be issued no later than December 31, 2012.

(p) The Department of Public Health and the Department of Agriculture, in conjunction with the Task Force, shall adopt administrative rules necessary to implement, interpret, and make specific the provisions of this Act, including, but not limited to, rules concerning labels, sanitation, and food product safety according to the realms of their jurisdiction in accordance with subsection (j) of this Section. The Task Force shall submit recommendations for administrative rules to the Department no later than December 15, 2014.

(q) The Department and the Task Force shall work together to create a food sampling training and license program as specified in Section 3.4 of this Act.

(2) A prescribing psychologist shall not prescribe narcotic drugs, as defined in Section 102 of the Illinois Controlled Substances Act.

Any prescribing psychologist who writes a prescription for a controlled substance without having valid and appropriate authority may be fined by the Department not more than $50 per prescription and the Department may take any other disciplinary action provided for in this Act.

(e) The written collaborative agreement shall describe the working relationship of the prescribing psychologist with the collaborating physician and shall delegate prescriptive authority as provided in this Act. Collaboration does not require an employment relationship between the collaborating physician and prescribing psychologist. Absent an employment relationship, an agreement may not restrict third-party payment sources accepted by the prescribing psychologist. For the purposes of this Section, "collaboration" means the relationship between a prescribing psychologist and a collaborating physician with respect to the delivery of prescribing services in accordance with (1) the prescribing psychologist's training, education, and experience and (2) collaboration and consultation as documented in a jointly developed written collaborative agreement.

(f) The agreement shall promote the exercise of professional judgment by the prescribing psychologist corresponding to his or her education and experience.

(g) The collaborative agreement shall not be construed to require the personal presence of a physician at the place where services are rendered. Methods of communication shall be available for consultation with the collaborating physician in person or by telecommunications in accordance with established written guidelines as set forth in the written agreement.

(h) Collaboration and consultation pursuant to all collaboration agreements shall be adequate if a collaborating physician does each of the following:

(2) provides collaboration and consultation with the prescribing psychologist in person at least once a month for review of safety and quality clinical care or treatment;

(4) reviews medication orders of the prescribing psychologist no less than monthly, including review of laboratory tests and other tests as available.

(i) The written collaborative agreement shall contain provisions detailing notice for termination or change of status involving a written collaborative agreement, except when the notice is given for just cause.

(j) A copy of the signed written collaborative agreement shall be available to the Department upon request to either the prescribing psychologist or the collaborating physician.

(k) Nothing in this Section shall be construed to limit the authority of a prescribing psychologist to perform all duties authorized under this Act.

(l) A prescribing psychologist shall inform each collaborating physician of all collaborative agreements he or she has signed and provide a copy of these to any collaborating physician.

(m) No collaborating physician shall enter into more than 3 collaborative agreements with prescribing psychologists.

Sec. 7. Board. The Secretary shall appoint a Board that shall serve in an advisory capacity to the Secretary.

The Board shall consist of 11 persons: 4 of whom are licensed clinical psychologists; and actively engaged in the practice of clinical psychology; 2 of whom are licensed prescribing psychologists; 2 of whom are physicians licensed to practice medicine in all its branches in Illinois who generally prescribe medications for the treatment of mental health disease or illness in the normal course of clinical medical practice, one of whom shall be a psychiatrist and the other a primary care or family physician; 2 of whom are licensed clinical psychologists and are full time faculty members of accredited colleges or universities who are engaged in training clinical psychologists; and one of whom is a public member who is not a licensed health care provider. In appointing members of the Board, the Secretary shall give due consideration to the adequate representation of the various fields of health care psychology such as clinical psychology, school psychology and counseling psychology. In appointing members of the Board, the Secretary shall give due consideration to recommendations by members of the profession of clinical psychology and by the State-wide organizations representing the interests of clinical psychologists and organizations representing the interests of academic programs as well as recommendations by approved doctoral level psychology programs in the State of Illinois, and, with respect to the 2 physician members of the Board, the Secretary shall give due consideration to recommendations by the Statewide professional associations or societies representing physicians licensed to practice medicine in all its branches in Illinois. The Secretary may remove any member for cause at any time prior to the expiration of his or her term.

New matter indicated by italics - deletions by strikeout
The 2 initial appointees to the Board who are licensed prescribing psychologists may hold a medical or prescription license issued by another state so long as the license is deemed by the Secretary to be substantially equivalent to a prescribing psychologist license under this Act and so long as the appointees also maintain an Illinois clinical psychologist license. Such initial appointees shall serve on the Board until the Department adopts rules necessary to implement licensure under Section 4.2 of this Act.

The Board shall annually elect one of its members as chairperson and vice chairperson.

The members of the Board shall be reimbursed for all authorized legitimate and necessary expenses incurred in attending the meetings of the Board.

The Secretary shall give due consideration to all recommendations of the Board. In the event the Secretary disagrees with or takes action contrary to the recommendation of the Board, he or she shall provide the Board with a written and specific explanation of his or her actions.

The Board may make recommendations on all matters relating to continuing education including the number of hours necessary for license renewal, waivers for those unable to meet such requirements and acceptable course content. Such recommendations shall not impose an undue burden on the Department or an unreasonable restriction on those seeking license renewal.

The 2 licensed prescribing psychologist members of the Board and the 2 physician members of the Board shall only deliberate and make recommendations related to the licensure and discipline of prescribing psychologists. Four members shall constitute a quorum, except that all deliberations and recommendations related to the licensure and discipline of prescribing psychologists shall require a quorum of 6 members. A quorum is required for all Board decisions.

Members of the Board shall have no liability in any action based upon any disciplinary proceeding or other activity performed in good faith as a member of the Board.

The Secretary may terminate the appointment of any member for cause which in the opinion of the Secretary reasonably justifies such termination.

(14) Willfully making or filing false records or reports, including but not limited to, false records or reports filed with State agencies or departments.

The entry of an order by any circuit court establishing that any person holding a license under this Act is subject to involuntary admission or judicial admission as provided for in the Mental Health and Developmental Disabilities Code, operates as an automatic suspension of that license. That person may have his or her license restored only upon the determination by a circuit court that the patient is no longer subject to involuntary admission or judicial admission and the issuance of an order so finding and discharging the patient and upon the Board's recommendation to the Department that the license be restored. Where the circumstances so indicate, the Board may recommend to the Department that it require an examination prior to restoring any license so automatically suspended.

In enforcing this Section, the Board upon a showing of a possible violation may compel any person licensed to practice under this Act, or who has applied for licensure or certification pursuant to this Act, to submit to a mental or physical examination, or both, as required by and at the expense of the Department. The examining physicians or clinical psychologists shall be those specifically designated by the Board. The Board or the Department may order the examining physician or clinical psychologist to present testimony concerning this mental or physical examination of the licensee or applicant. No information shall be excluded by reason of any common law or statutory privilege relating to communications between the licensee or applicant and the examining physician or clinical psychologist. The person to be examined may have, at his or her own expense, another physician or clinical psychologist of his or her choice present during all aspects of the examination. In instances in which the Secretary immediately suspends a person's license under this Section, a hearing on that person's license must be convened by the Board within 15 days after the suspension and completed without appreciable delay. a pattern of practice or other behavior includes all incidents alleged to be part of the pattern of practice or other behavior that occurred, or a report pursuant to Section 23 of this Act received, within the 10-year period preceding the filing of the complaint. In the event of the settlement of any claim or cause of action in favor of the claimant or the reduction to final judgment of any civil action in favor of the plaintiff, such claim, cause of action or civil action being grounded on the allegation that a person licensed under this Act was negligent in providing care, the Department shall have an additional period of 2 years from the date of notification to the Department under Section 23 of this Act of such settlement or final judgment in which to investigate and commence formal disciplinary proceedings under Section 36 of this Act, except as otherwise provided by law. The time during which the holder of the license was outside the State of Illinois shall not be included within any period of time limiting the commencement of disciplinary action by the Department.

The entry of an order or judgment by any circuit court establishing that any person holding a license under this Act is a person in need of mental treatment operates as a suspension of that license. That person may resume their practice only upon the entry of a Departmental order based upon a finding by the Disciplinary Board that they have been determined to be recovered from mental illness by the court and upon the Disciplinary Board's recommendation that they be permitted to resume their practice.

The Department may refuse to issue or take disciplinary action concerning the license of any person who fails to file a return, or to pay the tax, penalty or interest shown in a filed return, or to pay any final assessment of tax, penalty or interest, as required by any tax Act administered by the Illinois Department of Revenue, until such time as the requirements of any such tax Act are satisfied as determined by the Illinois Department of Revenue.

The Department, upon the recommendation of the Disciplinary Board, shall adopt rules which set forth standards to be used in determining:

(a) when a person will be deemed sufficiently rehabilitated to warrant the public trust;

(b) what constitutes dishonorable, unethical or unprofessional conduct of a character likely to deceive, defraud, or harm the public;

(c) what constitutes immoral conduct in the commission of any act, including, but not limited to, commission of an act of sexual misconduct related to the licensee's practice; and

New matter indicated by italics - deletions by strikeout
(d) what constitutes gross negligence in the practice of medicine.

However, no such rule shall be admissible into evidence in any civil action except for review of a licensing or other disciplinary action under this Act.

In enforcing this Section, the Disciplinary Board or the Licensing Board, upon a showing of a possible violation, may compel, in the case of the Disciplinary Board, any individual who is licensed to practice under this Act or holds a permit to practice under this Act, or, in the case of the Licensing Board, any individual who has applied for licensure or a permit pursuant to this Act, to submit to a mental or physical examination and evaluation, or both, which may include a substance abuse or sexual offender evaluation, as required by the Licensing Board or Disciplinary Board and at the expense of the Department. The Disciplinary Board or Licensing Board shall specifically designate the examining physician licensed to practice medicine in all of its branches or, if applicable, the multidisciplinary team involved in providing the mental or physical examination and evaluation, or both. The multidisciplinary team shall be led by a physician licensed to practice medicine in all of its branches and may consist of one or more or a combination of physicians licensed to practice medicine in all of its branches, licensed chiropractic physicians, licensed clinical psychologists, licensed clinical social workers, licensed clinical professional counselors, and other professional and administrative staff. Any examining physician or member of the multidisciplinary team may require any person ordered to submit to an examination and evaluation pursuant to this Section to submit to any additional supplemental testing deemed necessary to complete any examination or evaluation process, including, but not limited to, blood testing, urinalysis, psychological testing, or neuropsychological testing. The Disciplinary Board, the Licensing Board, or the Department may order the examining physician or any member of the multidisciplinary team to provide to the Department, the Disciplinary Board, or the Licensing Board any and all records, including business records, that relate to the examination and evaluation, including any supplemental testing performed. The Disciplinary Board, the Licensing Board, or the Department may order the examining physician or any member of the multidisciplinary team to present testimony concerning this examination and evaluation of the licensee, permit holder, or applicant, including testimony concerning any supplemental testing or documents relating to the examination and evaluation. No information, report, record, or other documents in any way related to the examination and evaluation. New matter indicated by italics - deletions by strikeout
evaluation shall be excluded by reason of any common law or statutory privilege relating to communication between the licensee or applicant and the examining physician or any member of the multidisciplinary team. No authorization is necessary from the licensee, permit holder, or applicant ordered to undergo an evaluation and examination for the examining physician or any member of the multidisciplinary team to provide information, reports, records, or other documents or to provide any testimony regarding the examination and evaluation. The individual to be examined may have, at his or her own expense, another physician of his or her choice present during all aspects of the examination. Failure of any individual to submit to mental or physical examination and evaluation, or both, when directed, shall result in an automatic suspension, without hearing, until such time as the individual submits to the examination. If the Disciplinary Board finds a physician unable to practice because of the reasons set forth in this Section, the Disciplinary Board shall require such physician to submit to care, counseling, or treatment by physicians approved or designated by the Disciplinary Board, as a condition for continued, reinstated, or renewed licensure to practice. Any physician, whose license was granted pursuant to Sections 9, 17, or 19 of this Act, or, continued, reinstated, renewed, disciplined or supervised, subject to such terms, conditions or restrictions who shall fail to comply with such terms, conditions or restrictions, or to complete a required program of care, counseling, or treatment, as determined by the Chief Medical Coordinator or Deputy Medical Coordinators, shall be referred to the Secretary for a determination as to whether the licensee shall have their license suspended immediately, pending a hearing by the Disciplinary Board. In instances in which the Secretary immediately suspends a license under this Section, a hearing upon such person's license must be convened by the Disciplinary Board within 15 days after such suspension and completed without appreciable delay. The Disciplinary Board shall have the authority to review the subject physician's record of treatment and counseling regarding the impairment, to the extent permitted by applicable federal statutes and regulations safeguarding the confidentiality of medical records.

An individual licensed under this Act, affected under this Section, shall be afforded an opportunity to demonstrate to the Disciplinary Board that they can resume practice in compliance with acceptable and prevailing standards under the provisions of their license.

The Department may promulgate rules for the imposition of fines in disciplinary cases, not to exceed $10,000 for each violation of this Act. Fines may be imposed in conjunction with other forms of disciplinary action, but

New matter indicated by italics - deletions by strikeout
shall not be the exclusive disposition of any disciplinary action arising out of conduct resulting in death or injury to a patient. Any funds collected from such fines shall be deposited in the Medical Disciplinary Fund.

All fines imposed under this Section shall be paid within 60 days after the effective date of the order imposing the fine or in accordance with the terms set forth in the order imposing the fine.

(B) The Department shall revoke the license or permit issued under this Act to practice medicine or a chiropractic physician who has been convicted a second time of committing any felony under the Illinois Controlled Substances Act or the Methamphetamine Control and Community Protection Act, or who has been convicted a second time of committing a Class 1 felony under Sections 8A-3 and 8A-6 of the Illinois Public Aid Code. A person whose license or permit is revoked under this subsection B shall be prohibited from practicing medicine or treating human ailments without the use of drugs and without operative surgery.

(C) The Disciplinary Board shall recommend to the Department civil penalties and any other appropriate discipline in disciplinary cases when the Board finds that a physician willfully performed an abortion with actual knowledge that the person upon whom the abortion has been performed is a minor or an incompetent person without notice as required under the Parental Notice of Abortion Act of 1995. Upon the Board's recommendation, the Department shall impose, for the first violation, a civil penalty of $1,000 and for a second or subsequent violation, a civil penalty of $5,000.

relationship is required. A written collaborative agreement shall conform to the requirements of Section 65-35 of the Nurse Practice Act. The written collaborative agreement shall be for services the collaborating physician generally provides or may provide in his or her clinical medical practice. A written collaborative agreement shall be adequate with respect to collaboration with advanced practice nurses if all of the following apply:

(1) The agreement is written to promote the exercise of professional judgment by the advanced practice nurse commensurate with his or her education and experience. The agreement need not describe the exact steps that an advanced practice nurse must take with respect to each specific condition, disease, or symptom, but must specify those procedures that require a physician's presence as the procedures are being performed.

(2) Practice guidelines and orders are developed and approved jointly by the advanced practice nurse and collaborating physician, as needed, based on the practice of the practitioners. Such guidelines and orders and the patient services provided thereunder are periodically reviewed by the collaborating physician.

(3) The advance practice nurse provides services the collaborating physician generally provides or may provide in his or her clinical medical practice, except as set forth in subsection (b-5) of this Section. With respect to labor and delivery, the collaborating physician must provide delivery services in order to participate with a certified nurse midwife.

(4) The collaborating physician and advanced practice nurse consult at least once a month to provide collaboration and consultation.

(5) Methods of communication are available with the collaborating physician in person or through telecommunications for consultation, collaboration, and referral as needed to address patient care needs.

(6) The agreement contains provisions detailing notice for termination or change of status involving a written collaborative agreement, except when such notice is given for just cause.

(b-5) An anesthesiologist or physician licensed to practice medicine in all its branches may collaborate with a certified registered nurse anesthetist in accordance with Section 65-35 of the Nurse Practice Act for the provision of anesthesia services. With respect to the provision of anesthesia services, the collaborating anesthesiologist or physician shall have training and

experience in the delivery of anesthesia services consistent with Department rules. Collaboration shall be adequate if:

(1) an anesthesiologist or a physician participates in the joint formulation and joint approval of orders or guidelines and periodically reviews such orders and the services provided patients under such orders; and

(2) for anesthesia services, the anesthesiologist or physician participates through discussion of and agreement with the anesthesia plan and is physically present and available on the premises during the delivery of anesthesia services for diagnosis, consultation, and treatment of emergency medical conditions. Anesthesia services in a hospital shall be conducted in accordance with Section 10.7 of the Hospital Licensing Act and in an ambulatory surgical treatment center in accordance with Section 6.5 of the Ambulatory Surgical Treatment Center Act.

(b-10) The anesthesiologist or operating physician must agree with the anesthesia plan prior to the delivery of services.

(c) The supervising physician shall have access to the medical records of all patients attended by a physician assistant. The collaborating physician shall have access to the medical records of all patients attended to by an advanced practice nurse.

(d) (Blank).

(e) A physician shall not be liable for the acts or omissions of a prescribing psychologist, physician assistant, or advanced practice nurse solely on the basis of having signed a supervision agreement or guidelines or a collaborative agreement, an order, a standing medical order, a standing delegation order, or other order or guideline authorizing a prescribing psychologist, physician assistant, or advanced practice nurse to perform acts, unless the physician has reason to believe the prescribing psychologist, physician assistant, or advanced practice nurse lacked the competency to perform the act or acts or commits willful and wanton misconduct.

(f) A collaborating physician may, but is not required to, delegate prescriptive authority to an advanced practice nurse as part of a written collaborative agreement, and the delegation of prescriptive authority shall conform to the requirements of Section 65-40 of the Nurse Practice Act.

(h) For the purposes of this Section, "generally provides or may provide in his or her clinical medical practice" means categories of care or treatment, not specific tasks or duties, that the physician provides individually or through delegation to other persons so that the physician has the experience and ability to provide collaboration and consultation. This definition shall not be construed to prohibit an advanced practice nurse from providing primary health treatment or care within the scope of his or her training and experience, including, but not limited to, health screenings, patient histories, physical examinations, women's health examinations, or school physicals that may be provided as part of the routine practice of an advanced practice nurse or on a volunteer basis.

(i) A collaborating physician shall delegate prescriptive authority to a prescribing psychologist as part of a written collaborative agreement, and the delegation of prescriptive authority shall conform to the requirements of Section 4.3 of the Clinical Psychologist Licensing Act.

AN ACT concerning education.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The School Code is amended by changing Sections 27-23.7 and 27A-5 as follows:

(105 ILCS 5/27-23.7)

Sec. 27-23.7. Bullying prevention.

(a) The General Assembly finds that a safe and civil school environment is necessary for students to learn and achieve and that bullying causes physical, psychological, and emotional harm to students and interferes with students' ability to learn and participate in school activities. The General Assembly further finds that bullying has been linked to other forms of antisocial behavior, such as vandalism, shoplifting, skipping and dropping out of school, fighting, using drugs and alcohol, sexual harassment, and sexual violence. Because of the negative outcomes associated with bullying in schools, the General Assembly finds that school districts, charter schools, and non-public, non-sectarian elementary and secondary schools should educate students, parents, and school district, charter school, or non-public, non-sectarian elementary or secondary school personnel about what behaviors constitute prohibited bullying.

Bullying on the basis of actual or perceived race, color, religion, sex, national origin, ancestry, age, marital status, physical or mental disability, military status, sexual orientation, gender-related identity or expression, unfavorable discharge from military service, association with a person or group with one or more of the aforementioned actual or perceived characteristics, or any other distinguishing characteristic is prohibited in all school districts, charter schools, and non-public, non-sectarian elementary and secondary schools. No student shall be subjected to bullying:

(1) during any school-sponsored education program or activity;

(2) while in school, on school property, on school buses or other school vehicles, at designated school bus stops waiting for the school bus, or at school-sponsored or school-sanctioned events or activities; or

(b) In this Section:

"Bullying" means any severe or pervasive physical or verbal act or conduct, including communications made in writing or electronically, directed toward a student or students that has or can be reasonably predicted to have the effect of one or more of the following:

(2) causing a substantially detrimental effect on the student's or students' physical or mental health;
(3) substantially interfering with the student's or students' academic performance; or
(4) substantially interfering with the student's or students' ability to participate in or benefit from the services, activities, or privileges provided by a school.

Bullying, as defined in this subsection (b), may take various forms, including without limitation one or more of the following: harassment, threats, intimidation, stalking, physical violence, sexual harassment, sexual violence, theft, public humiliation, destruction of property, or retaliation for asserting or alleging an act of bullying. This list is meant to be illustrative and non-exhaustive.

"Policy on bullying" means a bullying prevention policy that meets the following criteria:

(3) Includes procedures for promptly reporting bullying, including, but not limited to, identifying and providing the school e-mail address (if applicable) and school telephone number for the staff person or persons responsible for receiving such reports and a procedure for anonymous reporting; however, this shall not be

construed to permit formal disciplinary action solely on the basis of an anonymous report.

(4) Consistent with federal and State laws and rules governing student privacy rights, includes procedures for promptly informing parents or guardians of all students involved in the alleged incident of bullying and discussing, as appropriate, the availability of social work services, counseling, school psychological services, other interventions, and restorative measures.

(5) Contains procedures for promptly investigating and addressing reports of bullying, including the following:

(A) Making all reasonable efforts to complete the investigation within 10 school days after the date the report of the incident of bullying was received and taking into consideration additional relevant information received during the course of the investigation about the reported incident of bullying.

(B) Involving appropriate school support personnel and other staff persons with knowledge, experience, and training on bullying prevention, as deemed appropriate, in the investigation process.

(C) Notifying the principal or school administrator or his or her designee of the report of the incident of bullying as soon as possible after the report is received.

(D) Consistent with federal and State laws and rules governing student privacy rights, providing parents and guardians of the students who are parties to the investigation information about the investigation and an opportunity to meet with the principal or school administrator or his or her designee to discuss the investigation, the findings of the investigation, and the actions taken to address the reported incident of bullying.

(6) Includes the interventions that can be taken to address bullying, which may include, but are not limited to, school social work services, restorative measures, social-emotional skill building, counseling, school psychological services, and community-based services.

(11) As part of the process of reviewing and re-evaluating the policy under subsection (d) of this Section, contains a policy evaluation process to assess the outcomes and effectiveness of the policy that includes, but is not limited to, factors such as the frequency of victimization; student, staff, and family observations of safety at a school; identification of areas of a school where bullying occurs; the types of bullying utilized; and bystander intervention or participation. The school district, charter school, or non-public, non-sectarian elementary or secondary school may use relevant data and information it already collects for other purposes in the policy evaluation. The information developed as a result of the policy evaluation must be made available on the Internet website of the school district, charter school, or non-public, non-sectarian elementary or secondary school. If an Internet website is not available, the information must be provided to school administrators, school board members, school personnel, parents, guardians, and students.

(12) Is consistent with the policies of the school board, charter school, or non-public, non-sectarian elementary or secondary school.

"Restorative measures" means a continuum of school-based alternatives to exclusionary discipline, such as suspensions and expulsions, that: (i) are adapted to the particular needs of the school and community, (ii) contribute to maintaining school safety, (iii) protect the integrity of a positive and productive learning climate, (iv) teach students the personal and

interpersonal skills they will need to be successful in school and society, (v) serve to build and restore relationships among students, families, schools, and communities, and (vi) reduce the likelihood of future disruption by balancing accountability with an understanding of students' behavioral health needs in order to keep students in school.

"School personnel" means persons employed by, on contract with, or who volunteer in a school district, charter schools, or non-public, non-sectarian elementary or secondary school, including without limitation school and school district administrators, teachers, school guidance counselors, school social workers, school counselors, school psychologists, school nurses, cafeteria workers, custodians, bus drivers, school resource officers, and security guards.

(c) (Blank).

(d) Each school district, charter school, and non-public, non-sectarian elementary or secondary school shall create, and maintain, and implement a policy on bullying, which policy must be filed with the State Board of Education. Every 2 years, each school district, charter school, and non-public, non-sectarian elementary or secondary school shall conduct a review and re-evaluation of its policy and make any necessary and appropriate revisions. Each school district and non-public, non-sectarian elementary or secondary school must communicate its policy on bullying to its students and their parent or guardian on an annual basis. The policy must be updated every 2 years and filed with the State Board of Education after being updated. The State Board of Education shall monitor and provide technical support for the implementation of policies created under this subsection (d).

(e) This Section shall not be interpreted to prevent a victim from seeking redress under any other available civil or criminal law. Nothing in this Section is intended to infringe upon any right to exercise free expression or the free exercise of religion or religiously based views protected under the First Amendment to the United States Constitution or under Section 3 or 4 of Article 1 of the Illinois Constitution.

Beginning on the effective date of this amendatory Act of the 93rd General Assembly, in all new applications submitted to the State Board or a local school board to establish a charter school in a city having a population exceeding 500,000, operation of the charter school shall be limited to one campus. (b-5) In this subsection (b-5), "virtual-schooling" means the teaching of courses through online methods with online instructors, rather than the instructor and student being at the same physical location. "Virtual-schooling" includes without limitation instruction provided by full-time, online virtual schools.

From April 1, 2013 through April 1, 2014, there is a moratorium on the establishment of charter schools with virtual-schooling components in school districts other than a school district organized under Article 34 of this Code. This moratorium does not apply to a charter school with virtual-schooling components existing or approved prior to April 1, 2013 or to the renewal of the charter of a charter school with virtual-schooling components already approved prior to April 1, 2013.

On or before March 1, 2014, the Commission shall submit to the General Assembly a report on the effect of virtual-schooling, including without limitation the effect on student performance, the costs associated with virtual-schooling, and issues with oversight. The report shall include policy recommendations for virtual-schooling.

(c) A charter school shall be administered and governed by its board of directors or other governing body in the manner provided in its charter. The governing body of a charter school shall be subject to the Freedom of Information Act and the Open Meetings Act.

(d) A charter school shall comply with all applicable health and safety requirements applicable to public schools under the laws of the State of Illinois.

(e) Except as otherwise provided in the School Code, a charter school shall not charge tuition; provided that a charter school may charge reasonable fees for textbooks, instructional materials, and student activities.

annually by an outside, independent contractor retained by the charter school. Annually, by December 1, every charter school must submit to the State Board a copy of its audit and a copy of the Form 990 the charter school filed that year with the federal Internal Revenue Service.

(g) A charter school shall comply with all provisions of this Article, the Illinois Educational Labor Relations Act, and its charter. A charter school is exempt from all other State laws and regulations in this the School Code governing public schools and local school board policies, except the following:

(9) Section 27-23.7 of this Code regarding bullying prevention.

The change made by Public Act 96-104 to this subsection (g) is declaratory of existing law.

(h) A charter school may negotiate and contract with a school district, the governing body of a State college or university or public community college, or any other public or for-profit or nonprofit private entity for: (i) the use of a school building and grounds or any other real property or facilities that the charter school desires to use or convert for use as a charter school site, (ii) the operation and maintenance thereof, and (iii) the provision of any service, activity, or undertaking that the charter school is required to perform in order to carry out the terms of its charter. However, a charter school that is established on or after the effective date of this amendatory Act of the 93rd
General Assembly and that operates in a city having a population exceeding 500,000 may not contract with a for-profit entity to manage or operate the school during the period that commences on the effective date of this amendatory Act of the 93rd General Assembly and concludes at the end of the 2004-2005 school year. Except as provided in subsection (i) of this Section, a school district may charge a charter school reasonable rent for the use of the district's buildings, grounds, and facilities. Any services for which a charter school contracts with a school district shall be provided by the district at cost. Any services for which a charter school contracts with a local school board or with the governing body of a State college or university or public community college shall be provided by the public entity at cost.

(i) In no event shall a charter school that is established by converting an existing school or attendance center to charter school status be required to pay rent for space that is deemed available, as negotiated and provided in the charter agreement, in school district facilities. However, all other costs for the operation and maintenance of school district facilities that are used by the charter school shall be subject to negotiation between the charter school and the local school board and shall be set forth in the charter.

(k) If the charter school is approved by the Commission, then the Commission charter school is its own local education agency.

PUBLIC ACT 98-0670
(Senate Bill No. 2761)

AN ACT concerning State government.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Department of Transportation Law of the Civil Administrative Code of Illinois is amended by changing Section 2705-600 as follows:

(20 ILCS 2705/2705-600)

New matter indicated by italics - deletions by strikeout
Sec. 2705-600. Target market program. In order to remedy particular incidents and patterns of egregious race or gender discrimination, the chief procurement officer, in consultation with the Department, shall have the power to implement a target market program incorporating the following terms:

(0.5) Each fiscal year, the Department shall review any and all evidence of discrimination related to transportation construction projects. Evidence of discrimination may include, but is not limited to: (i) the determination of the Department's utilization of minority-owned and female-owned firms in its prime contracts and associated subcontracts; (ii) the availability of minority-owned and female-owned firms in the Department's geographic market areas and specific construction industry markets; (iii) any disparities between the utilization of minority-owned and female-owned firms in the Department's markets and the utilization of those firms on the Department's prime contracts and subcontracts in those markets; (iv) any disparities between the utilization of minority-owned and female-owned firms in the overall construction markets in which the Department purchases and the utilization of those firms in the overall construction economy in which the Department operates; (v) evidence of discrimination in the rates at which minority-owned and female-owned firms in the Department's markets form businesses compared to similar non-minority-owned and non-female-owned firms in the Department's markets and in the dollars earned by such businesses; and (vi) quantitative and qualitative anecdotal evidence of discrimination. If after reviewing such evidence, the Department finds and the chief procurement officer concurs in the findings that the Department has a strong basis in evidence that it has a compelling interest in remedying the identified discrimination against a specific group, race, or gender, and that the only remedy for such discrimination is a narrowly tailored target market, the chief procurement officer, in consultation with the Department, has the power to establish and implement a target market program tailored to address the specific findings of egregious discrimination made by the Department, after a public hearing at which minority, female, and general contractor groups, community organizations, and other interested parties shall have the opportunity to provide comments.

New matter indicated by italics - deletions by strikeout
(1) In January of each year, the Department and the chief procurement officer shall report jointly to the General Assembly the results of any evidentiary inquiries or studies that establish the Department's compelling interest in remedying egregious discrimination based upon strong evidence of the need for a narrowly tailored target market to remedy such discrimination and public hearings held pursuant to this Section, and shall report the actions to be taken to address the findings, including, if warranted, the establishment and implementation of any target market initiatives.

(2) The chief procurement officer shall work with the officers and divisions of the Department to determine the appropriate designation of contracts as target market contracts. The chief procurement officer, in consultation with the Department, shall determine appropriate contract formation and bidding procedures for target market contracts, including, but not limited to, the dividing of procurements so designated into contract award units in order to facilitate offers or bids from minority-owned businesses and female-owned businesses and the removal of bid bond requirements for minority-owned businesses and female-owned businesses. Minority-owned businesses and female-owned businesses shall remain eligible to seek the procurement award of contracts that have not been designated as target market contracts.

(3) The chief procurement officer may make participation in the target market program dependent upon submission to stricter compliance audits than are generally applicable. No contract shall be eligible for inclusion in the target market program unless the Department determines that there are at least 3 minority-owned businesses or female-owned businesses interested in participating in that type of contract. The Department, with the concurrence of the chief procurement officer, may develop guidelines to regulate the level of participation of individual minority-owned businesses and female-owned businesses in the target market program in order to prevent the domination of the target market program by a small number of those entities. The Department may require minority-owned businesses and female-owned businesses to participate in training programs offered by the Department or other State agencies as a condition precedent to participation in the target market program.

(4) Participation in the target market program shall be limited to minority-owned businesses and female-owned businesses and joint
ventures consisting exclusively of minority-owned businesses, female-owned businesses, or both, that are certified as disadvantaged businesses pursuant to the provisions of Section 6(d) of the Business Enterprise for Minorities, Females, and Persons with Disabilities Act. A firm awarded a target market contract may subcontract up to 50% of the dollar value of the target market contract to subcontractors who are not minority-owned businesses or female-owned businesses.

(5) The Department may include in the target market program contracts that are funded by the federal government to the extent allowed by federal law and may vary the standards of eligibility of the target market program to the extent necessary to comply with the federal funding requirements.

(6) If no satisfactory bid or response is received with respect to a contract that has been designated as part of the target market program, the chief procurement officer, in consultation with the Department, may delete that contract from the target market program. In addition, the chief procurement officer, in consultation with the Department, may thereupon designate and set aside for the target market program additional contracts corresponding in approximate value to the contract that was deleted from the target market program, in keeping with the narrowly tailored process used for selecting contracts suitable for the program and to the extent feasible.

(7) The chief procurement officer, in consultation with the Department, shall promulgate such rules as he or she deems necessary to administer the target market program.

If any part, sentence, or clause of this Section is for any reason held invalid or to be unconstitutional, such decision shall not affect the validity of the remaining portions of this Section.

This Section is repealed on June 30, 2017.

AN ACT concerning public utilities.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:
Section 5. The Illinois Power Agency Act is amended by changing Section 1-56 as follows:
(20 ILCS 3855/1-56)
(a) The Illinois Power Agency Renewable Energy Resources Fund is created as a special fund in the State treasury.
(b) The Illinois Power Agency Renewable Energy Resources Fund shall be administered by the Agency to procure renewable energy resources. Prior to June 1, 2011, resources procured pursuant to this Section shall be procured from facilities located in Illinois, provided the resources are available from those facilities. If resources are not available in Illinois, then they shall be procured in states that adjoin Illinois. If resources are not available in Illinois or in states that adjoin Illinois, then they may be purchased elsewhere. Beginning June 1, 2011, resources procured pursuant to this Section shall be procured from facilities located in Illinois or states that adjoin Illinois. If resources are not available in Illinois or in states that adjoin Illinois, then they may be procured elsewhere. To the extent available, at least 75% of these renewable energy resources shall come from wind generation. Of the renewable energy resources procured pursuant to this Section at least the following specified percentages shall come from photovoltaics on the following schedule: 0.5% by June 1, 2012; 1.5% by June 1, 2013; 3% by June 1, 2014; and 6% by June 1, 2015 and thereafter. Of the renewable energy resources procured pursuant to this Section, at least the following percentages shall come from distributed renewable energy generation devices: 0.5% by June 1, 2013, 0.75% by June 1, 2014, and 1% by June 1, 2015 and thereafter. To the extent available, half of the renewable energy resources procured from distributed renewable energy generation shall come from devices of less than 25 kilowatts in nameplate capacity. Renewable energy resources procured from distributed generation devices may also count towards the required percentages for wind and solar photovoltaics. Procurement of renewable energy resources from distributed renewable energy generation devices shall be done on an annual basis through

multi-year contracts of no less than 5 years, and shall consist solely of renewable energy credits.

The Agency shall create credit requirements for suppliers of distributed renewable energy. In order to minimize the administrative burden on contracting entities, the Agency shall solicit the use of third-party organizations to aggregate distributed renewable energy into groups of no less than one megawatt in installed capacity. These third-party organizations shall administer contracts with individual distributed renewable energy generation device owners. An individual distributed renewable energy generation device owner shall have the ability to measure the output of his or her distributed renewable energy generation device.

(c) The Agency shall procure renewable energy resources at least once each year in conjunction with a procurement event for electric utilities required to comply with Section 1-75 of the Act and shall, whenever possible, enter into long-term contracts on an annual basis for a portion of the incremental requirement for the given procurement year.

(d) The price paid to procure renewable energy credits using monies from the Illinois Power Agency Renewable Energy Resources Fund shall not exceed the winning bid prices paid for like resources procured for electric utilities required to comply with Section 1-75 of this Act.

(e) All renewable energy credits procured using monies from the Illinois Power Agency Renewable Energy Resources Fund shall be permanently retired.

(f) The procurement process described in this Section is exempt from the requirements of the Illinois Procurement Code, pursuant to Section 20-10 of that Code.

(g) All disbursements from the Illinois Power Agency Renewable Energy Resources Fund shall be made only upon warrants of the Comptroller drawn upon the Treasurer as custodian of the Fund upon vouchers signed by the Director or by the person or persons designated by the Director for that purpose. The Comptroller is authorized to draw the warrant upon vouchers so signed. The Treasurer shall accept all warrants so signed and shall be released from liability for all payments made on those warrants.

(h) The Illinois Power Agency Renewable Energy Resources Fund shall not be subject to sweeps, administrative charges, or chargebacks, including, but not limited to, those authorized under Section 8h of the State Finance Act, that would in any way result in the transfer of any funds from this Fund to any other fund of this State or in having any such funds utilized for any purpose other than the express purposes set forth in this Section.

(i) Supplemental procurement process.

(1) Within 90 days after the effective date of this amendatory Act of the 98th General Assembly, the Agency shall develop a one-time supplemental procurement plan limited to the procurement of renewable energy credits, if available, from new or existing photovoltaics, including, but not limited to, distributed photovoltaic generation. Nothing in this subsection (i) requires procurement of wind generation through the supplemental procurement.

Renewable energy credits procured from new photovoltaics, including, but not limited to, distributed photovoltaic generation, under this subsection (i) must be procured from devices installed by a qualified person. In its supplemental procurement plan, the Agency shall establish contractually enforceable mechanisms for ensuring that the installation of new photovoltaics is performed by a qualified person.

For the purposes of this paragraph (1), "qualified person" means a person who performs installations of photovoltaics, including, but not limited to, distributed photovoltaic generation, and who: (A) has completed an apprenticeship as a journeyman electrician from a United States Department of Labor registered electrical apprenticeship and training program and received a certification of satisfactory completion; or (B) does not currently meet the criteria under clause (A) of this paragraph (1), but is enrolled in a United States Department of Labor registered electrical apprenticeship program, provided that the person is directly supervised by a person who meets the criteria under clause (A) of this paragraph (1); or (C) has obtained one of the following credentials in addition to attesting to satisfactory completion of at least 5 years or 8,000 hours of documented hands-on electrical experience: (i) a North American Board of Certified Energy Practitioners (NABCEP) Installer Certificate for Solar PV; (ii) an Underwriters Laboratories (UL) PV Systems Installer Certificate; (iii) an Electronics Technicians Association, International (ETAI) Level 3 PV Installer Certificate; or (iv) an Associate in Applied Science degree from an Illinois Community College Board approved community college program in renewable energy or a distributed generation technology.

For the purposes of this paragraph (1), "directly supervised" means that there is a qualified person who meets the qualifications under clause (A) of this paragraph (1) and who is available for

New matter indicated by italics - deletions by strikeout
supervision and consultation regarding the work performed by persons under clause (B) of this paragraph (1), including a final inspection of the installation work that has been directly supervised to ensure safety and conformity with applicable codes.

For the purposes of this paragraph (1), "install" means the major activities and actions required to connect, in accordance with applicable building and electrical codes, the conductors, connectors, and all associated fittings, devices, power outlets, or apparatuses mounted at the premises that are directly involved in delivering energy to the premises' electrical wiring from the photovoltaics, including, but not limited to, to distributed photovoltaic generation.

The renewable energy credits procured pursuant to the supplemental procurement plan shall be procured using up to $30,000,000 from the Illinois Power Agency Renewable Energy Resources Fund. The Agency shall not plan to use funds from the Illinois Power Agency Renewable Energy Resources Fund in excess of the monies on deposit in such fund or projected to be deposited into such fund. The supplemental procurement plan shall ensure adequate, reliable, affordable, efficient, and environmentally sustainable renewable energy resources (including credits) at the lowest total cost over time, taking into account any benefits of price stability.

To the extent available, 50% of the renewable energy credits procured from distributed renewable energy generation shall come from devices of less than 25 kilowatts in nameplate capacity. Procurement of renewable energy credits from distributed renewable energy generation devices shall be done through multi-year contracts of no less than 5 years. The Agency shall create credit requirements for counterparties. In order to minimize the administrative burden on contracting entities, the Agency shall solicit the use of third parties to aggregate distributed renewable energy. These third parties shall enter into and administer contracts with individual distributed renewable energy generation device owners. An individual distributed renewable energy generation device owner shall have the ability to measure the output of his or her distributed renewable energy generation device.

In developing the supplemental procurement plan, the Agency shall hold at least one workshop open to the public within 90 days after the effective date of this amendatory Act of the 98th General

New matter indicated by italics - deletions by strikeout
Assembly and shall consider any comments made by stakeholders or the public. Upon development of the supplemental procurement plan within this 90-day period, copies of the supplemental procurement plan shall be posted and made publicly available on the Agency's and Commission's websites. All interested parties shall have 14 days following the date of posting to provide comment to the Agency on the supplemental procurement plan. All comments submitted to the Agency shall be specific, supported by data or other detailed analyses, and, if objecting to all or a portion of the supplemental procurement plan, accompanied by specific alternative wording or proposals. All comments shall be posted on the Agency's and Commission's websites. Within 14 days following the end of the 14-day review period, the Agency shall revise the supplemental procurement plan as necessary based on the comments received and file its revised supplemental procurement plan with the Commission for approval.

(2) Within 5 days after the filing of the supplemental procurement plan at the Commission, any person objecting to the supplemental procurement plan shall file an objection with the Commission. Within 10 days after the filing, the Commission shall determine whether a hearing is necessary. The Commission shall enter its order confirming or modifying the supplemental procurement plan within 90 days after the filing of the supplemental procurement plan by the Agency.

(3) The Commission shall approve the supplemental procurement plan of renewable energy credits to be procured from new or existing photovoltaics, including, but not limited to, distributed photovoltaic generation, if the Commission determines that it will ensure adequate, reliable, affordable, efficient, and environmentally sustainable electric service in the form of renewable energy credits at the lowest total cost over time, taking into account any benefits of price stability.

(4) The supplemental procurement process under this subsection (i) shall include each of the following components:

(A) Procurement administrator. The Agency may retain a procurement administrator in the manner set forth in item (2) of subsection (a) of Section 1-75 of this Act to conduct the supplemental procurement or may elect to use the

same procurement administrator administering the Agency’s annual procurement under Section 1-75.

(B) Procurement monitor. The procurement monitor retained by the Commission pursuant to Section 16-111.5 of the Public Utilities Act shall:

(i) monitor interactions among the procurement administrator and bidders and suppliers;

(ii) monitor and report to the Commission on the progress of the supplemental procurement process;

(iii) provide an independent confidential report to the Commission regarding the results of the procurement events;

(iv) assess compliance with the procurement plan approved by the Commission for the supplemental procurement process;

(v) preserve the confidentiality of supplier and bidding information in a manner consistent with all applicable laws, rules, regulations, and tariffs;

(vi) provide expert advice to the Commission and consult with the procurement administrator regarding issues related to procurement process design, rules, protocols, and policy-related matters;

(vii) consult with the procurement administrator regarding the development and use of benchmark criteria, standard form contracts, credit policies, and bid documents; and

(viii) perform, with respect to the supplemental procurement process, any other procurement monitor duties specifically delineated within subsection (i) of this Section.

(C) Solicitation, pre-qualification, and registration of bidders. The procurement administrator shall disseminate information to potential bidders to promote a procurement event, notify potential bidders that the procurement administrator may enter into a post-bid price negotiation with bidders that meet the applicable benchmarks, provide supply requirements, and otherwise explain the competitive

procurement process. In addition to such other publication as the procurement administrator determines is appropriate, this information shall be posted on the Agency's and the Commission's websites. The procurement administrator shall also administer the prequalification process, including evaluation of credit worthiness, compliance with procurement rules, and agreement to the standard form contract developed pursuant to item (D) of this paragraph (4). The procurement administrator shall then identify and register bidders to participate in the procurement event.

(D) Standard contract forms and credit terms and instruments. The procurement administrator, in consultation with the Agency, the Commission, and other interested parties and subject to Commission oversight, shall develop and provide standard contract forms for the supplier contracts that meet generally accepted industry practices as well as include any applicable State of Illinois terms and conditions that are required for contracts entered into by an agency of the State of Illinois. Standard credit terms and instruments that meet generally accepted industry practices shall be similarly developed. Contracts for new photovoltaics shall include a provision attesting that the supplier will use a qualified person for the installation of the device pursuant to paragraph (1) of subsection (i) of this Section. The procurement administrator shall make available to the Commission all written comments it receives on the contract forms, credit terms, or instruments. If the procurement administrator cannot reach agreement with the parties as to the contract terms and conditions, the procurement administrator must notify the Commission of any disputed terms and the Commission shall resolve the dispute. The terms of the contracts shall not be subject to negotiation by winning bidders, and the bidders must agree to the terms of the contract in advance so that winning bids are selected solely on the basis of price.

(E) Requests for proposals; competitive procurement process. The procurement administrator shall design and issue requests for proposals to supply renewable energy credits in accordance with the supplemental procurement

plan, as approved by the Commission. The requests for proposals shall set forth a procedure for sealed, binding commitment bidding with pay-as-bid settlement, and provision for selection of bids on the basis of price, provided, however, that no bid shall be accepted if it exceeds the benchmark developed pursuant to item (F) of this paragraph (4).

(F) Benchmarks. Benchmarks for each product to be procured shall be developed by the procurement administrator in consultation with Commission staff, the Agency, and the procurement monitor for use in this supplemental procurement.

(G) A plan for implementing contingencies in the event of supplier default, Commission rejection of results, or any other cause.

(5) Within 2 business days after opening the sealed bids, the procurement administrator shall submit a confidential report to the Commission. The report shall contain the results of the bidding for each of the products along with the procurement administrator's recommendation for the acceptance and rejection of bids based on the price benchmark criteria and other factors observed in the process. The procurement monitor also shall submit a confidential report to the Commission within 2 business days after opening the sealed bids. The report shall contain the procurement monitor's assessment of bidder behavior in the process as well as an assessment of the procurement administrator's compliance with the procurement process and rules. The Commission shall review the confidential reports submitted by the procurement administrator and procurement monitor and shall accept or reject the recommendations of the procurement administrator within 2 business days after receipt of the reports.

(6) Within 3 business days after the Commission decision approving the results of a procurement event, the Agency shall enter into binding contractual arrangements with the winning suppliers using the standard form contracts.

(7) The names of the successful bidders and the average of the winning bid prices for each contract type and for each contract term shall be made available to the public within 2 days after the supplemental procurement event. The Commission, the procurement

monitor, the procurement administrator, the Agency, and all participants in the procurement process shall maintain the confidentiality of all other supplier and bidding information in a manner consistent with all applicable laws, rules, regulations, and tariffs. Confidential information, including the confidential reports submitted by the procurement administrator and procurement monitor pursuant to this Section, shall not be made publicly available and shall not be discoverable by any party in any proceeding, absent a compelling demonstration of need, nor shall those reports be admissible in any proceeding other than one for law enforcement purposes.

(8) The supplemental procurement provided in this subsection (i) shall not be subject to the requirements and limitations of subsections (c) and (d) of this Section.

(9) Expenses incurred in connection with the procurement process held pursuant to this Section, including, but not limited to, the cost of developing the supplemental procurement plan, the procurement administrator, procurement monitor, and the cost of the retirement of renewable energy credits purchased pursuant to the supplemental procurement shall be paid for from the Illinois Power Agency Renewable Energy Resources Fund. The Agency shall enter into an interagency agreement with the Commission to reimburse the Commission for its costs associated with the procurement monitor for the supplemental procurement process.

or upon entrance into any public, private, or parochial school or nursery school, each child shall present proof of having been examined in accordance with this Section and the rules and regulations promulgated hereunder. Any child who received a health examination within one year prior to entering the fifth grade for the 2007-2008 school year is not required to receive an additional health examination in order to comply with the provisions of Public Act 95-422 when he or she attends school for the 2008-2009 school year, unless the child is attending school for the first time as provided in this paragraph.

A tuberculosis skin test screening shall be included as a required part of each health examination included under this Section if the child resides in an area designated by the Department of Public Health as having a high incidence of tuberculosis. Additional health examinations of pupils, including eye examinations, may be required when deemed necessary by school authorities. Parents are encouraged to have their children undergo eye examinations at the same points in time required for health examinations.

(1.5) In compliance with rules adopted by the Department of Public Health and except as otherwise provided in this Section, all children in kindergarten and the second and sixth grades of any public, private, or parochial school shall have a dental examination. Each of these children shall present proof of having been examined by a dentist in accordance with this Section and rules adopted under this Section before May 15th of the school year. If a child in the second or sixth grade fails to present proof by May 15th, the school may hold the child's report card until one of the following occurs: (i) the child presents proof of a completed dental examination or (ii) the child presents proof that a dental examination will take place within 60 days after May 15th. The Department of Public Health shall establish, by rule, a waiver for children who show an undue burden or a lack of access to a dentist. Each public, private, and parochial school must give notice of this dental examination requirement to the parents and guardians of students at least 60 days before May 15th of each school year.

(1.10) Except as otherwise provided in this Section, all children enrolling in kindergarten in a public, private, or parochial school on or after the effective date of this amendatory Act of the 95th General Assembly and any student enrolling for the first time in a public, private, or parochial school on or after the effective date of this amendatory Act of the 95th General Assembly shall have an eye examination. Each of these children shall present proof of having been examined by a physician licensed to practice medicine in all of its branches or a licensed optometrist within the previous year, in

accordance with this Section and rules adopted under this Section, before October 15th of the school year. If the child fails to present proof by October 15th, the school may hold the child's report card until one of the following occurs: (i) the child presents proof of a completed eye examination or (ii) the child presents proof that an eye examination will take place within 60 days after October 15th. The Department of Public Health shall establish, by rule, a waiver for children who show an undue burden or a lack of access to a physician licensed to practice medicine in all of its branches who provides eye examinations or to a licensed optometrist. Each public, private, and parochial school must give notice of this eye examination requirement to the parents and guardians of students in compliance with rules of the Department of Public Health. Nothing in this Section shall be construed to allow a school to exclude a child from attending because of a parent's or guardian's failure to obtain an eye examination for the child.

(2) The Department of Public Health shall promulgate rules and regulations specifying the examinations and procedures that constitute a health examination, which shall include the collection of data relating to obesity (including at a minimum, date of birth, gender, height, weight, blood pressure, and date of exam), and a dental examination and may recommend by rule that certain additional examinations be performed. The rules and regulations of the Department of Public Health shall specify that a tuberculosis skin test screening shall be included as a required part of each health examination included under this Section if the child resides in an area designated by the Department of Public Health as having a high incidence of tuberculosis. The Department of Public Health shall specify that a diabetes screening as defined by rule shall be included as a required part of each health examination. Diabetes testing is not required.

Physicians licensed to practice medicine in all of its branches, advanced practice nurses who have a written collaborative agreement with a collaborating physician which authorizes them to perform health examinations, or physician assistants who have been delegated the performance of health examinations by their supervising physician shall be responsible for the performance of the health examinations, other than dental examinations, eye examinations, and vision and hearing screening, and shall sign all report forms required by subsection (4) of this Section that pertain to those portions of the health examination for which the physician, advanced practice nurse, or physician assistant is responsible. If a registered nurse performs any part of a health examination, then a physician licensed to practice medicine in all of its branches must review and sign all required

New matter indicated by italics - deletions by strikeout
Licensed dentists shall perform all dental examinations and shall sign all report forms required by subsection (4) of this Section that pertain to the dental examinations. Physicians licensed to practice medicine in all its branches or licensed optometrists shall perform all eye examinations required by this Section and shall sign all report forms required by subsection (4) of this Section that pertain to the eye examination. For purposes of this Section, an eye examination shall at a minimum include history, visual acuity, subjective refraction to best visual acuity near and far, internal and external examination, and a glaucoma evaluation, as well as any other tests or observations that in the professional judgment of the doctor are necessary. Vision and hearing screening tests, which shall not be considered examinations as that term is used in this Section, shall be conducted in accordance with rules and regulations of the Department of Public Health, and by individuals whom the Department of Public Health has certified. In these rules and regulations, the Department of Public Health shall require that individuals conducting vision screening tests give a child's parent or guardian written notification, before the vision screening is conducted, that states, "Vision screening is not a substitute for a complete eye and vision evaluation by an eye doctor. Your child is not required to undergo this vision screening if an optometrist or ophthalmologist has completed and signed a report form indicating that an examination has been administered within the previous 12 months."

(3) Every child shall, at or about the same time as he or she receives a health examination required by subsection (1) of this Section, present to the local school proof of having received such immunizations against preventable communicable diseases as the Department of Public Health shall require by rules and regulations promulgated pursuant to this Section and the Communicable Disease Prevention Act.

(4) The individuals conducting the health examination, dental examination, or eye examination shall record the fact of having conducted the examination, and such additional information as required, including for a health examination data relating to obesity (including at a minimum, date of birth, gender, height, weight, blood pressure, and date of exam), on uniform forms which the Department of Public Health and the State Board of Education shall prescribe for statewide use. The examiner shall summarize on the report form any condition that he or she suspects indicates a need for special services, including for a health examination factors relating to obesity. The individuals confirming the administration of required immunizations
shall record as indicated on the form that the immunizations were administered.

(5) If a child does not submit proof of having had either the health examination or the immunization as required, then the child shall be examined or receive the immunization, as the case may be, and present proof by October 15 of the current school year, or by an earlier date of the current school year established by a school district. To establish a date before October 15 of the current school year for the health examination or immunization as required, a school district must give notice of the requirements of this Section 60 days prior to the earlier established date. If for medical reasons one or more of the required immunizations must be given after October 15 of the current school year, or after an earlier established date of the current school year, then the child shall present, by October 15, or by the earlier established date, a schedule for the administration of the immunizations and a statement of the medical reasons causing the delay, both the schedule and the statement being issued by the physician, advanced practice nurse, physician assistant, registered nurse, or local health department that will be responsible for administration of the remaining required immunizations. If a child does not comply by October 15, or by the earlier established date of the current school year, with the requirements of this subsection, then the local school authority shall exclude that child from school until such time as the child presents proof of having had the health examination as required and presents proof of having received those required immunizations which are medically possible to receive immediately. During a child's exclusion from school for noncompliance with this subsection, the child's parents or legal guardian shall be considered in violation of Section 26-1 and subject to any penalty imposed by Section 26-10. This subsection (5) does not apply to dental examinations and eye examinations. If the student is an out-of-state transfer student and does not have the proof required under this subsection (5) before October 15 of the current year or whatever date is set by the school district, then he or she may only attend classes (i) if he or she has proof that an appointment for the required vaccinations has been scheduled with a party authorized to submit proof of the required vaccinations. If the proof of vaccination required under this subsection (5) is not submitted within 30 days after the student is permitted to attend classes, then the student is not to be permitted to attend classes until proof of the vaccinations has been properly submitted. No school district or employee of a school district shall be held liable for any injury or illness to

New matter indicated by italics - deletions by strikeout
another person that results from admitting an out-of-state transfer student to class that has an appointment scheduled pursuant to this subsection (5).

(6) Every school shall report to the State Board of Education by November 15, in the manner which that agency shall require, the number of children who have received the necessary immunizations and the health examination (other than a dental examination or eye examination) as required, indicating, of those who have not received the immunizations and examination as required, the number of children who are exempt from health examination and immunization requirements on religious or medical grounds as provided in subsection (8). On or before December 1 of each year, every public school district and registered nonpublic school shall make publicly available the immunization data they are required to submit to the State Board of Education by November 15. The immunization data made publicly available must be identical to the data the school district or school has reported to the State Board of Education.

Every school shall report to the State Board of Education by June 30, in the manner that the State Board requires, the number of children who have received the required dental examination, indicating, of those who have not received the required dental examination, the number of children who are exempt from the dental examination on religious grounds as provided in subsection (8) of this Section and the number of children who have received a waiver under subsection (1.5) of this Section.

Every school shall report to the State Board of Education by June 30, in the manner that the State Board requires, the number of children who have received the required eye examination, indicating, of those who have not received the required eye examination, the number of children who are exempt from the eye examination as provided in subsection (8) of this Section, the number of children who have received a waiver under subsection (1.10) of this Section, and the total number of children in noncompliance with the eye examination requirement.

The reported information under this subsection (6) shall be provided to the Department of Public Health by the State Board of Education.

(7) Upon determining that the number of pupils who are required to be in compliance with subsection (5) of this Section is below 90% of the number of pupils enrolled in the school district, 10% of each State aid payment made pursuant to Section 18-8.05 to the school district for such year may be withheld by the State Board of Education until the number of students in compliance with subsection (5) is the applicable specified percentage or higher.

(8) Parents or legal guardians who object to health, dental, or eye examinations or any part thereof, or to immunizations, on religious grounds shall not be required to submit their children or wards to the examinations or immunizations to which they so object if such parents or legal guardians present to the appropriate local school authority a signed statement of objection, detailing the grounds for the objection. If the physical condition of the child is such that any one or more of the immunizing agents should not be administered, the examining physician, advanced practice nurse, or physician assistant responsible for the performance of the health examination shall endorse that fact upon the health examination form. Exempting a child from the health, dental, or eye examination does not exempt the child from participation in the program of physical education training provided in Sections 27-5 through 27-7 of this Code.

(9) For the purposes of this Section, "nursery schools" means those nursery schools operated by elementary school systems or secondary level school units or institutions of higher learning.

Section 10. The Illinois School Student Records Act is amended by changing Section 8.1 as follows:

(105 ILCS 10/8.1) (from Ch. 122, par. 50-8.1)

Sec. 8.1. (a) No school may refuse to admit or enroll a student because of that student's failure to present his student permanent or temporary record from a school previously attended.

(b) When a new student applies for admission to a school and does not present his school student record, such school may notify the school or school district last attended by such student, requesting that the student's school student record be copied and sent to it; such request shall be honored within 10 days after it is received. Within 10 days after receiving a request from the Department of Children and Family Services, the school district last attended by the student shall send the student's school student record to the receiving school district.

(c) In the case of a transfer between school districts of a student who is eligible for special education and related services, when the parent or guardian of the student presents a copy of the student's then current individualized education program (IEP) to the new school, the student shall be placed in a special education program in accordance with that described in the student's IEP.

(d) Out-of-state Until June 30, 2015, out-of-state transfer students, including children of military personnel that transfer into this State, may use
unofficial transcripts for admission to a school until official transcripts are obtained from his or her last school district, *including children of military personnel that transfer into this State, subject to Section 32 of the Educational Opportunity for Military Children Act.*

(Source: P.A. 96-953, eff. 6-28-10; 97-216, eff. 1-1-12.)

(105 ILCS 70/5)

(Section scheduled to be repealed on June 30, 2015)

Sec. 5. Purpose. It is the purpose of this Act to remove barriers to educational success imposed on children of *active duty military personnel families* because of frequent moves and deployment of their parents by:

(1) facilitating the timely enrollment of children of *active duty military personnel families* and ensuring that they are not placed at a disadvantage due to difficulty in the transfer of educational records from the previous school district;

(2) facilitating the student placement process through which children of *active duty military personnel families* are not disadvantaged by variations in attendance requirements, scheduling, sequencing, or assessment;

(3) facilitating the qualification and eligibility for enrollment and educational programs of *children of active duty military personnel*;

(4) facilitating the on-time graduation of children of *active duty military personnel families*; and

(5) promoting flexibility and cooperation between the educational system, parents, and the student in order to achieve educational success for the student.

Sec. 10. Findings; authority to enter into compact. The General Assembly finds and declares that this State recognizes that there is created an Interstate Commission on Educational Opportunity for Military Children through the Council of State Governments, in cooperation with the U.S. Department of Defense Office of Personnel and Readiness, for addressing the needs of students in transition. The Interstate Commission on Educational Opportunity for Military Children is a group of member states who have
joined to create laws easing the transition of children of active duty military personnel families. The Governor of this State is authorized and directed to enter into a compact governed by this Act on behalf of this State with any of the United States legally joining therein.

(105 ILCS 70/20)
Sec. 20. Definitions. For purposes of this Act:
"Active duty military personnel" means active duty members of the uniformed military services, including any of the following:
(1) Members of the National Guard and Reserve that are on active duty pursuant to 10 U.S.C. 1209 and 10 U.S.C. 1211.
(2) Members or veterans of the uniformed services who are severely injured and medically discharged or retired for a period of one year after medical discharge or retirement.
(3) Members of the uniformed services who die on active duty for a period of one year after death.
"Non-custodial parent" means a person who has temporary custody of the child of any active duty military personnel and who is responsible for making decisions for that child.
"State Council" means the Illinois P-20 Council and additional representatives appointed by the Illinois P-20 Council as provided under Section 40 of this Act.
(Source: P.A. 96-953, eff. 6-28-10.)

(105 ILCS 70/25)
Sec. 25. Tuition for children of active duty military personnel who are transfer students. (a) For purposes of this Section, "non-custodial parent" means a person who has temporary custody of the child of active duty military personnel and who is responsible for making decisions for that child.
(b) If a student who is a child of active duty military personnel is (i) placed with a non-custodial parent and (ii) as a result of placement, must attend a non-resident school district, then the student must not be charged the tuition of the school that the student attends as a result of placement with the non-custodial parent and the student must be counted in the calculation of average daily attendance under Section 18-8.05 of the School Code.
(Source: P.A. 96-953, eff. 6-28-10.)

(105 ILCS 70/32 new)
Sec. 32. Educational records for children of active duty military personnel.

(a) In the event that official educational records cannot be released to parents for the purpose of transfer, the custodian of the records in the sending state shall prepare and furnish to the parent a complete set of unofficial educational records to the extent feasible. Upon receipt of the unofficial educational records by a school in the receiving state, the school shall enroll and appropriately place the student based on the information provided in the unofficial records, pending validation by the official records as quickly as possible. This subsection (a) does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement and continued enrollment of the student in a course or courses.

(b) Simultaneous with the enrollment and conditional placement of a student, the school in the receiving state shall request the student's official educational record from the school in the sending state. Upon receipt of this request, the school in the sending state shall process and furnish the official educational records to the receiving state within 15 days.

(105 ILCS 70/33 new)

Sec. 33. Enrollment and entrance age for children of active duty military personnel. Students must be allowed to continue their enrollment at grade level in the receiving state commensurate with their grade level (including kindergarten) at the school in the sending state at the time of transition. A student who has satisfactorily completed the requisite grade level in the school in the sending state is eligible for enrollment in the next highest grade level in the receiving state. A student transferring after the start of the school year in the receiving state shall enter the school in the receiving state at his or her validated grade level at an accredited school in the sending state. This Section does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement of the student.

(105 ILCS 70/35)

(Section scheduled to be repealed on June 30, 2015)

Sec. 35. Course placement; program placement; placement flexibility; graduation; extracurricular activities; absences related to deployment activities for children of active duty military personnel.

(a) If a student transfers before or during the school year, the school in the receiving state shall initially honor placement of the student in...
educational courses based on the student's enrollment in the school in the sending state or educational assessments conducted at the school in the sending state if the courses are offered and space is available. Course placement includes, but is not limited to, honors, International Baccalaureate, Advanced Placement, vocational, and technical and career pathways courses. Continuing the student's academic program from the school in the sending state and promoting placement in academically and career-challenging courses must be paramount when considering placement. This subsection (a) does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement and continued enrollment of the student in the course or courses. A student that transfers to a new school district may transfer into a comparable course to continue credit work for a course from which the student transferred out of only if the new school district offers the course and space is available. This subsection (a) includes courses offered for gifted and talented children pursuant to Article 14A of the School Code and courses for English as a Second Language program.

(b) The receiving school shall initially honor the placement of the student in educational programs based on current educational assessments conducted at the school in the sending state or participation or placement in like programs in the school in the sending state. Such programs include, but are not limited to, gifted and talented programs and English as a Second Language (ESL). This subsection (b) does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement of the student. The school district of a school may determine if courses taken by a transfer student at his or her old school satisfy the pre-requisite course requirements for any courses that the transfer student wishes to take at his or her current school. The school district may determine a current and future schedule that is appropriate for the student that satisfies any pre-requisite course requirements in order for that student to take any courses that he or she wishes to attend:

(c) The school district of a school shall have flexibility in waiving course or program prerequisites or other preconditions for placement in offered courses or programs. The school district of a school may work with a transfer student to determine an appropriate schedule that ensures that a student will graduate, provided that the student has met the district's minimal graduation requirements, which may be modified provided that the modifications are a result of scheduling issues and not a result of the student's academic failure.
(d) If a student transfers to a new school district during his or her senior year and the receiving school district cannot make reasonable adjustments under this Section to ensure graduation, then the school district shall make every reasonable effort to ensure that the school district from where the student transfers issues the student a diploma.

(e) Schools shall facilitate the opportunity for transitioning military children's inclusion in extracurricular activities, to the extent the children are otherwise qualified and space is available as determined by the school principal.

(f) A student whose parent or legal guardian is an active duty member of the uniformed services and has been called to duty for, is on leave from, or has immediately returned from deployment to a combat zone or combat-support posting must be granted additional absences, at the discretion of the school district's superintendent, to visit with his or her parent or legal guardian relative to such leave or deployment of the parent or guardian.

(Section scheduled to be repealed on June 30, 2015)

Sec. 40. State coordination.

(a) Each member state of the Interstate Commission on Educational Opportunity for Military Children shall, through the creation of a State Council or use of an existing body or board, provide for the coordination among its agencies of government, local education agencies, and military installations concerning the State's participation in and compliance with the compact and Interstate Commission activities. The State Council shall be comprised of the Illinois P-20 Council, a representative from a school district associated with U.S. Army Garrison - Rock Island Arsenal having the highest percentage of students who are children of active duty military personnel, a representative from a school district associated with Scott Air Force Base having the highest percentage of students who are children of active duty military personnel, a representative from a school district associated with Naval Station Great Lakes having the highest percentage of students who are children of active duty military personnel, a representative from the school district with the highest percentage of students who are children of active duty military personnel not already represented in the State Council, representatives appointed by the Illinois P-20 Council from the 3 school districts in this State with the highest percentage of children from military families; and a one non-voting representative appointed by each active-duty military installation commander in this State.

PUBLIC ACT 98-0674
(Senate Bill No. 0220)

AN ACT concerning State government.
Be it enacted by the People of the State of Illinois, represented in the
General Assembly:
ARTICLE 1. SHORT TITLE; PURPOSE
Section 1-1. Short title. This Act may be cited as the FY2015 Budget
Implementation Act.
Section 1-5. Purpose. It is the purpose of this Act to make changes in
State programs that are necessary to implement the Governor's Fiscal Year
2015 budget recommendations.
ARTICLE 20. AMENDATORY PROVISIONS
Section 20-5. The I-FLY Act is amended by changing Section 25 as
follows:
(20 ILCS 3958/25)
Sec. 25. I-FLY Program.
(a) The Department shall establish the I-FLY Program, in cooperation
with the Commission. The Program shall consist of the following
components:
(1) air carrier recruitment and retention grants as described in
subsection (c); and
(2) planning grants under subsection (d).

(b) During any one-year period, an airport may receive a grant for
only one of the 2 components specified in subsection (a).

New matter indicated by italics - deletions by strikeout
(c) Air carrier recruitment and retention program grants.

(1) An airport may receive an air carrier recruitment and retention program grant from the Department only if:

(A) it is capable of supporting takeoffs and landings by aircraft that have at least 19 passenger seats or have made improvements or commitments to the Department to provide this capability; and

(B) it has a commitment from an air carrier to start or continue air service to the community that the airport serves subject to financial support from the State and from the airport or unit of local government that the airport serves. The commitment must specify that the air carrier would not provide or continue to provide service to the community if financial assistance were not available.

(2) An application for an air carrier recruitment and retention program grant must contain commitments from the airport or the unit of local government in which the airport is located as to the amount of the total project cost, the contribution from the unit of local government or airport, the method in which the contribution from the airport or unit of local government will be generated, and the requested State contribution.

(3) The air carrier recruitment and retention program grant shall be used to guarantee the financial viability of air carriers providing reasonable air service at the airport. A grant under this subsection (c) to a particular airport may be in only one of the following 3 forms:

(A) A grant may be used to guarantee that an air carrier shall receive an agreed amount of revenue per flight.

(B) A grant may be used to guarantee a reduced or subsidized consumer ticket price.

(C) A grant may be used to guarantee a profit goal established by the air carrier and airport.

(4) During the first year of a grant under this subsection (c), the grant shall pay 80% of the total cost of the guarantee and the airport or unit of local government in which the airport is located shall pay 20% of the total cost of the guarantee. During the second year of a grant under this subsection (c), the grant shall pay 80% of the total cost of the guarantee and the airport or the unit of local government in which the airport is located shall pay 20% of the total cost.
cost of the guarantee. During the third year of a grant under this subsection (c), the grant shall pay 80% of the total cost of the guarantee and the airport or the unit of local government in which the airport is located shall pay 20% of the total cost of the guarantee.

(5) The total State funding for a grant under this subsection (c) to a particular airport may not exceed $1,500,000 $1,000,000 in any year.

(6) An airport that has received a 3-year 2-year grant under this subsection (c) may apply for another grant for an additional 3-year 2-year period; however, the Department shall, in determining whether to make a grant for an additional 3-year 2-year period, give priority to other airports that have not previously received a grant under this subsection (c). The Department shall also give priority in making grants under this subsection (c) to airports at which the Department determines that a 3-year 2-year grant may result in the creation of stable and reliable commercial air service without an additional grant.

(d) Planning grants. An airport may apply for and receive a planning grant to conduct feasibility studies or business plans designed to study the recruitment, retention, or expansion of an air carrier at the airport. To be eligible for a grant under this subsection (d), the airport must have the potential for initial or expanded air service as the Department determines through its evaluation process. The grant shall pay 70% of the total cost of the feasibility studies or business plans and the airport or the unit of local government in which the airport is located shall pay 30% of the total cost of the feasibility studies or business plans. An airport may receive only one planning grant.

(30 ILCS 105/6z-64)

Sec. 6z-64. The Workers' Compensation Revolving Fund.

(a) The Workers' Compensation Revolving Fund is created as a revolving fund, not subject to fiscal year limitations, in the State treasury. The following moneys shall be deposited into the Fund:

1. amounts authorized for transfer to the Fund from the General Revenue Fund and other State funds (except for funds classified by the Comptroller as federal trust funds or State trust funds) pursuant to State law or Executive Order;
2. federal funds received by the Department of Central Management Services (the "Department") as a result of expenditures from the Fund;
3. interest earned on moneys in the Fund;
4. receipts or inter-fund transfers resulting from billings issued to State agencies and universities for the cost of workers' compensation services that are not compensated through the specific fund transfers authorized by this Section, if any;
5. amounts received from a State agency or university for workers' compensation payments for temporary total disability, as provided in Section 405-105 of the Department of Central Management Services Law of the Civil Administrative Code of Illinois; and
6. amounts recovered through subrogation in workers' compensation and workers' occupational disease cases.

(b) Moneys in the Fund may be used by the Department for reimbursement or payment for:
(1) providing workers' compensation services to State agencies and State universities; or

(2) providing for payment of administrative and other expenses (and, beginning January 1, 2013, fees and charges made pursuant to a contract with a private vendor) incurred in providing workers' compensation services. The Department, or any successor agency designated to enter into contracts with one or more private vendors for the administration of the workers' compensation program for State employees pursuant to subsection 10b of Section 405-105 of the Department of Central Management Services Law of the Civil Administrative Code of Illinois, is authorized to establish one or more special funds, as separate accounts provided by any bank or banks as defined by the Illinois Banking Act, any savings and loan association or associations as defined by the Illinois Savings and Loan Act of 1985, or any credit union as defined by the Illinois Credit Union Act, to be held by the Director outside of the State treasury, for the purpose of receiving the transfer of moneys from the Workers' Compensation Revolving Fund. The Department may promulgate rules further defining the methodology for the transfers. Any interest earned by moneys in the funds or accounts shall be deposited into the Workers' Compensation Revolving Fund. The transferred moneys, and interest accrued thereon, shall be used exclusively for transfers to contracted private vendors or their financial institutions for payments to workers' compensation claimants and providers for workers' compensation services, claims, and benefits pursuant to this Section and subsection 9 of Section 405-105 of the Department of Central Management Services Law of the Civil Administrative Code of Illinois. The transferred moneys, and interest accrued thereon, shall not be used for any other purpose including, but not limited to, reimbursement or payment of administrative fees due the contracted vendor pursuant to its contract or contracts with the Department.

(c) State agencies may direct the Comptroller to process inter-fund transfers or make payment through the voucher and warrant process to the Workers' Compensation Revolving Fund in satisfaction of billings issued under subsection (a) of this Section.

(d) Reconciliation. For the fiscal year beginning on July 1, 2004 only, the Director of Central Management Services (the "Director") shall order that each State agency's payments and transfers made to the Fund be reconciled with actual Fund costs for workers' compensation services provided by the

Department and attributable to the State agency and relevant fund on no less than an annual basis. The Director may require reports from State agencies as deemed necessary to perform this reconciliation.

Beginning in fiscal year 2011, moneys in the Road Fund shall be appropriated to the Secretary of State for the exclusive purpose of paying refunds due to overpayment of fees related to Chapter 3 of the Illinois Vehicle Code unless otherwise provided for by law.

It shall not be lawful to circumvent this limitation on appropriations by governmental reorganization or other methods.

No new program may be initiated in fiscal year 1991 and thereafter that is not consistent with the limitations imposed by this Section for fiscal year 1984 and thereafter, insofar as appropriation of Road Fund monies is concerned.

Nothing in this Section prohibits transfers from the Road Fund to the State Construction Account Fund under Section 5e of this Act; nor to the General Revenue Fund, as authorized by this amendatory Act of the 93rd General Assembly.

The additional amounts authorized for expenditure in this Section by Public Acts 92-0600, 93-0025, 93-0839, and 94-91 shall be repaid to the Road Fund from the General Revenue Fund in the next succeeding fiscal year that the General Revenue Fund has a positive budgetary balance, as determined by generally accepted accounting principles applicable to government.

(30 ILCS 105/13.2) (from Ch. 127, par. 149.2)

Sec. 13.2. Transfers among line item appropriations.

(a) Transfers among line item appropriations from the same treasury fund for the objects specified in this Section may be made in the manner provided in this Section when the balance remaining in one or more such line item appropriations is insufficient for the purpose for which the appropriation was made.

(a-1) No transfers may be made from one agency to another agency, nor may transfers be made from one institution of higher education to another institution of higher education except as provided by subsection (a-4).
(a-2) Except as otherwise provided in this Section, transfers may be made only among the objects of expenditure enumerated in this Section, except that no funds may be transferred from any appropriation for personal services, from any appropriation for State contributions to the State Employees' Retirement System, from any separate appropriation for employee retirement contributions paid by the employer, nor from any appropriation for State contribution for employee group insurance. During State fiscal year 2005, an agency may transfer amounts among its appropriations within the same treasury fund for personal services, employee retirement contributions paid by employer, and State Contributions to retirement systems; notwithstanding and in addition to the transfers authorized in subsection (c) of this Section, the fiscal year 2005 transfers authorized in this sentence may be made in an amount not to exceed 2% of the aggregate amount appropriated to an agency within the same treasury fund. During State fiscal year 2007, the Departments of Children and Family Services, Corrections, Human Services, and Juvenile Justice may transfer amounts among their respective appropriations within the same treasury fund for personal services, employee retirement contributions paid by employer, and State contributions to retirement systems. During State fiscal year 2010, the Department of Transportation may transfer amounts among their respective appropriations within the same treasury fund for personal services, employee retirement contributions paid by employer, and State contributions to retirement systems. During State fiscal years 2010 and 2014 only, an agency may transfer amounts among its respective appropriations within the same treasury fund for personal services, employee retirement contributions paid by employer, and State contributions to retirement systems. Notwithstanding, and in addition to, the transfers authorized in subsection (c) of this Section, these transfers may be made in an amount not to exceed 2% of the aggregate amount appropriated to an agency within the same treasury fund.

(a-2.5) During State fiscal year 2015 only, the State's Attorneys Appellate Prosecutor may transfer amounts among its respective appropriations contained in operational line items within the same treasury fund. Notwithstanding, and in addition to, the transfers authorized in subsection (c) of this Section, these transfers may be made in an amount not to exceed 4% of the aggregate amount appropriated to the State's Attorneys Appellate Prosecutor within the same treasury fund.

(a-3) Further, if an agency receives a separate appropriation for employee retirement contributions paid by the employer, any transfer by that
agency into an appropriation for personal services must be accompanied by a corresponding transfer into the appropriation for employee retirement contributions paid by the employer, in an amount sufficient to meet the employer share of the employee contributions required to be remitted to the retirement system.

(a-4) Long-Term Care Rebalancing. The Governor may designate amounts set aside for institutional services appropriated from the General Revenue Fund or any other State fund that receives monies for long-term care services to be transferred to all State agencies responsible for the administration of community-based long-term care programs, including, but not limited to, community-based long-term care programs administered by the Department of Healthcare and Family Services, the Department of Human Services, and the Department on Aging, provided that the Director of Healthcare and Family Services first certifies that the amounts being transferred are necessary for the purpose of assisting persons in or at risk of being in institutional care to transition to community-based settings, including the financial data needed to prove the need for the transfer of funds. The total amounts transferred shall not exceed 4% in total of the amounts appropriated from the General Revenue Fund or any other State fund that receives monies for long-term care services for each fiscal year. A notice of the fund transfer must be made to the General Assembly and posted at a minimum on the Department of Healthcare and Family Services website, the Governor's Office of Management and Budget website, and any other website the Governor sees fit. These postings shall serve as notice to the General Assembly of the amounts to be transferred. Notice shall be given at least 30 days prior to transfer.

(b) In addition to the general transfer authority provided under subsection (c), the following agencies have the specific transfer authority granted in this subsection:

The Department of Healthcare and Family Services is authorized to make transfers representing savings attributable to not increasing grants due to the births of additional children from line items for payments of cash grants to line items for payments for employment and social services for the purposes outlined in subsection (f) of Section 4-2 of the Illinois Public Aid Code.

The Department of Children and Family Services is authorized to make transfers not exceeding 2% of the aggregate amount appropriated to it within the same treasury fund for the following line items among these same line items: Foster Home and Specialized Foster Care and Prevention,

The State Board of Education is authorized to make transfers from line item appropriations within the same treasury fund for General State Aid and General State Aid - Hold Harmless, provided that no such transfer may be made unless the amount transferred is no longer required for the purpose for which that appropriation was made, to the line item appropriation for Transitional Assistance when the balance remaining in such line item appropriation is insufficient for the purpose for which the appropriation was made.

(c-1) Special provisions for State fiscal year 2003. Notwithstanding any other provision of this Section to the contrary, for State fiscal year 2003 only, transfers among line item appropriations to an agency from the same treasury fund may be made provided that the sum of such transfers for an agency in State fiscal year 2003 shall not exceed 3% of the aggregate amount appropriated to that State agency for State fiscal year 2003 for the following objects: personal services, except that no transfer may be approved which reduces the aggregate appropriations for personal services within an agency; extra help; student and inmate compensation; State contributions to retirement systems; State contributions to social security; State contributions for employee group insurance; contractual services; travel; commodities; printing; equipment; electronic data processing; operation of automotive equipment; telecommunications services; travel and allowance for committed, paroled, and discharged prisoners; library books; federal matching grants for student loans; refunds; workers' compensation, occupational disease, and tort claims; and, in appropriations to institutions of higher education, awards and grants.

treasury fund for any objects or purposes, without limitation, when the balance remaining in one or more such line item appropriations is insufficient for the purpose for which the appropriation was made, provided that the sum of those transfers by a State agency shall not exceed 4% of the aggregate amount appropriated to that State agency for fiscal year 2005.

(d) Transfers among appropriations made to agencies of the Legislative and Judicial departments and to the constitutionally elected officers in the Executive branch require the approval of the officer authorized in Section 10 of this Act to approve and certify vouchers. Transfers among appropriations made to the University of Illinois, Southern Illinois University, Chicago State University, Eastern Illinois University, Governors State University, Illinois State University, Northeastern Illinois University, Northern Illinois University, Western Illinois University, the Illinois Mathematics and Science Academy and the Board of Higher Education require the approval of the Board of Higher Education and the Governor. Sec. 12. Personal Property Tax Replacement Fund. There is hereby created the Personal Property Tax Replacement Fund, a special fund in the State Treasury into which shall be paid all revenue realized:
(a) all amounts realized from the additional personal property tax replacement income tax imposed by subsections (c) and (d) of Section 201 of the Illinois Income Tax Act, except for those amounts deposited into the Income Tax Refund Fund pursuant to subsection (c) of Section 901 of the Illinois Income Tax Act; and

In the event that the total of the allocations made as above provided for all taxing districts, during either of such 3 years, exceeds the amount available for distribution the allocation of each taxing district shall be proportionately reduced. Except as provided in Section 13 of this Act, the Department shall then certify, pursuant to appropriation, such allocations to the State Comptroller who shall pay over to the several taxing districts the respective amounts allocated to them.

(1) The portion of the Personal Property Tax Replacement Fund required to be distributed as of the time allocation is required to be made shall be the amount available in such Fund as of the time allocation is required to be made.

The amount available for distribution shall be the total amount in the fund at such time minus the necessary administrative and other authorized expenses as limited by the appropriation and the amount determined by: (a) $2.8 million for fiscal year 1981; (b) for fiscal year 1982, .54% of the funds distributed from the fund during the preceding fiscal year; (c) for fiscal year 1983 through fiscal year 1988, .54% of the funds distributed from the fund during the preceding fiscal year less .02% of such fund for fiscal year 1983 and less .02% of such funds for each fiscal year thereafter; (d) for fiscal year 1989 through fiscal year 2011 no more than 105% of the actual administrative expenses of the prior fiscal year; (e) for fiscal year 2012 and beyond, a sufficient amount to pay (i) stipends, additional compensation, salary reimbursements, and other amounts directed to be paid out of this Fund for local officials as authorized or required by statute and (ii) no more than 105% of the actual administrative expenses of the prior fiscal year, including payment of the ordinary and contingent expenses of the Property Tax Appeal Board and payment of the expenses of the Department of Revenue incurred in administering the collection and distribution of moneys paid into the

Fund; or (f) for fiscal years 2012 and 2013 only, a sufficient amount to pay stipends, additional compensation, salary reimbursements, and other amounts directed to be paid out of this Fund for regional offices and officials as authorized or required by statute. Such portion of the fund shall be determined after the transfer into the General Revenue Fund due to refunds, if any, paid from the General Revenue Fund during the preceding quarter. If at any time, for any reason, there is insufficient amount in the Personal Property Tax Replacement Fund for payments for regional offices and officials or local officials or payment of costs of administration or for transfers due to refunds at the end of any particular month, the amount of such insufficiency shall be carried over for the purposes of payments for regional offices and officials, local officials, transfers into the General Revenue Fund, and costs of administration to the following month or months. The Downstate Tax Base is the personal property tax collections for all taxing districts in the State outside of Cook County for the 1977 tax year. The Department of Revenue shall have authority to review for accuracy and completeness the personal property tax collections for each taxing district outside Cook County for the 1977 tax year.

The Personal Property Replacement Ratio of each Cook County taxing district shall be the ratio which the Tax Base of that taxing district bears to the Cook County Tax Base. The Cook County Tax Base is the personal property tax collections for all taxing districts in Cook County for the 1976 tax year. The Department of Revenue shall have authority to review for accuracy and completeness the personal property tax collections for each taxing district within Cook County for the 1976 tax year.

For all purposes of this Section 12, amounts paid to a taxing district for such tax years as may be applicable by a foreign corporation under the provisions of Section 7-202 of the Public Utilities Act, as amended, shall be deemed to be personal property taxes collected by such taxing district for such tax years as may be applicable. The Director shall determine from the Illinois Commerce Commission, for any tax year as may be applicable, the amounts so paid by any such foreign corporation to any and all taxing districts. The Illinois Commerce Commission shall furnish such information to the Director. For all purposes of this Section 12, the Director shall deem such amounts to be collected personal property taxes of each such taxing district for the applicable tax year or years.

Taxing districts located both in Cook County and in one or more other counties shall receive both a Cook County allocation and a Downstate allocation determined in the same way as all other taxing districts.

If any taxing district in existence on July 1, 1979 ceases to exist, or discontinues its operations, its Tax Base shall thereafter be deemed to be zero. If the powers, duties and obligations of the discontinued taxing district are assumed by another taxing district, the Tax Base of the discontinued taxing district shall be added to the Tax Base of the taxing district assuming such powers, duties and obligations.

If two or more taxing districts in existence on July 1, 1979, or a successor or successors thereto shall consolidate into one taxing district, the Tax Base of such consolidated taxing district shall be the sum of the Tax Bases of each of the taxing districts which have consolidated.

If a single taxing district in existence on July 1, 1979, or a successor or successors thereto shall be divided into two or more separate taxing districts, the tax base of the taxing district so divided shall be allocated to each of the resulting taxing districts in proportion to the then current equalized assessed value of each resulting taxing district.

If a portion of the territory of a taxing district is disconnected and annexed to another taxing district of the same type, the Tax Base of the taxing district from which disconnection was made shall be reduced in proportion to the then current equalized assessed value of the disconnected territory as compared with the then current equalized assessed value within the entire territory of the taxing district prior to disconnection, and the amount of such reduction shall be added to the Tax Base of the taxing district to which annexation is made.

If a community college district is created after July 1, 1979, beginning on the effective date of this amendatory Act of 1995, its Tax Base shall be

3.5% of the sum of the personal property tax collected for the 1977 tax year within the territorial jurisdiction of the district.

The amounts allocated and paid to taxing districts pursuant to the provisions of this amendatory Act of 1979 shall be deemed to be substitute revenues for the revenues derived from taxes imposed on personal property pursuant to the provisions of the "Revenue Act of 1939" or "An Act for the assessment and taxation of private car line companies", approved July 22, 1943, as amended, or Section 414 of the Illinois Insurance Code, prior to the abolition of such taxes and shall be used for the same purposes as the revenues derived from ad valorem taxes on real estate.

Monies received by any taxing districts from the Personal Property Tax Replacement Fund shall be first applied toward payment of the proportionate amount of debt service which was previously levied and collected from extensions against personal property on bonds outstanding as of December 31, 1978 and next applied toward payment of the proportionate share of the pension or retirement obligations of the taxing district which were previously levied and collected from extensions against personal property. For each such outstanding bond issue, the County Clerk shall determine the percentage of the debt service which was collected from extensions against real estate in the taxing district for 1978 taxes payable in 1979, as related to the total amount of such levies and collections from extensions against both real and personal property. For 1979 and subsequent years' taxes, the County Clerk shall levy and extend taxes against the real estate of each taxing district which will yield the said percentage or percentages of the debt service on such outstanding bonds. The balance of the amount necessary to fully pay such debt service shall constitute a first and prior lien upon the monies received by each such taxing district through the Personal Property Tax Replacement Fund and shall be first applied or set aside for such purpose. In counties having fewer than 3,000,000 inhabitants, the amendments to this paragraph as made by this amendatory Act of 1980 shall be first applicable to 1980 taxes to be collected in 1981.

shall be reserved each month for the Department of
Transportation to be used in accordance with the provisions
of Sections 6-901 through 6-906 of the Illinois Highway
Code;
(2) Until January 1, 2000, 41.6%, and beginning January 1,
2000, 54.4% shall be transferred to the Department of Transportation
to be distributed as follows:
(A) 49.10% to the municipalities of the State,
(B) 16.74% to the counties of the State having
1,000,000 or more inhabitants,
(C) 18.27% to the counties of the State having less
than 1,000,000 inhabitants,
(D) 15.89% to the road districts of the State.
As soon as may be after the first day of each month the Department
of Transportation shall allot to each municipality its share of the amount
apportioned to the several municipalities which shall be in proportion to the
population of such municipalities as determined by the last preceding
municipal census if conducted by the Federal Government or Federal census.
If territory is annexed to any municipality subsequent to the time of the last
preceding census the corporate authorities of such municipality may cause a
census to be taken of such annexed territory and the population so ascertained
for such territory shall be added to the population of the municipality as
determined by the last preceding census for the purpose of determining the

allotment for that municipality. If the population of any municipality was not
determined by the last Federal census preceding any apportionment, the
apportionment to such municipality shall be in accordance with any census
taken by such municipality. Any municipal census used in accordance with
this Section shall be certified to the Department of Transportation by the
clerk of such municipality, and the accuracy thereof shall be subject to
approval of the Department which may make such corrections as it ascertains
to be necessary.

As soon as may be after the first day of each month the Department
of Transportation shall allot to each county its share of the amount
apportioned to the several counties of the State as herein provided. Each
allotment to the several counties having less than 1,000,000 inhabitants shall
be in proportion to the amount of motor vehicle license fees received from
the residents of such counties, respectively, during the preceding calendar
year. The Secretary of State shall, on or before April 15 of each year, transmit
to the Department of Transportation a full and complete report showing the
amount of motor vehicle license fees received from the residents of each
county, respectively, during the preceding calendar year. The Department of
Transportation shall, each month, use for allotment purposes the last such
report received from the Secretary of State.

As soon as may be after the first day of each month, the Department
of Transportation shall allot to the several counties their share of the amount
apportioned for the use of road districts. The allotment shall be apportioned
among the several counties in the State in the proportion which the total
mileage of township or district roads in the respective counties bears to the
total mileage of all township and district roads in the State. Funds allotted to
the respective counties for the use of road districts therein shall be allocated
to the several road districts in the county in the proportion which the total
mileage of such township or district roads in the respective road districts
bears to the total mileage of all such township or district roads in the county.
After July 1 of any year prior to 2011, no allocation shall be made for any
road district unless it levied a tax for road and bridge purposes in an amount
which will require the extension of such tax against the taxable property in
any such road district at a rate of not less than either .08% of the value
thereof, based upon the assessment for the year immediately prior to the year
in which such tax was levied and as equalized by the Department of Revenue
or, in DuPage County, an amount equal to or greater than $12,000 per mile
of road under the jurisdiction of the road district, whichever is less.
Beginning July 1, 2011 and each July 1 thereafter, an allocation shall be made

New matter indicated by italics - deletions by strikeout
for any road district if it levied a tax for road and bridge purposes. In counties other than DuPage County, if the amount of the tax levy requires the extension of the tax against the taxable property in the road district at a rate that is less than 0.08% of the value thereof, based upon the assessment for the year immediately prior to the year in which the tax was levied and as equalized by the Department of Revenue, then the amount of the allocation for that road district shall be a percentage of the maximum allocation equal to the percentage obtained by dividing the rate extended by the district by 0.08%. In DuPage County, if the amount of the tax levy requires the extension of the tax against the taxable property in the road district at a rate that is less than the lesser of (i) 0.08% of the value of the taxable property in the road district, based upon the assessment for the year immediately prior to the year in which such tax was levied and as equalized by the Department of Revenue, or (ii) a rate that will yield an amount equal to $12,000 per mile of road under the jurisdiction of the road district, then the amount of the allocation for the road district shall be a percentage of the maximum allocation equal to the percentage obtained by dividing the rate extended by the district by the lesser of (i) 0.08% or (ii) the rate that will yield an amount equal to $12,000 per mile of road under the jurisdiction of the road district.

Prior to 2011, if any road district has levied a special tax for road purposes pursuant to Sections 6-601, 6-602 and 6-603 of the Illinois Highway Code, and such tax was levied in an amount which would require extension at a rate of not less than .08% of the value of the taxable property thereof, as equalized or assessed by the Department of Revenue, or, in DuPage County, an amount equal to or greater than $12,000 per mile of road under the jurisdiction of the road district, whichever is less, such levy shall, however, be deemed a proper compliance with this Section and shall qualify such road district for an allotment under this Section. Beginning in 2011 and thereafter, if any road district has levied a special tax for road purposes under Sections 6-601, 6-602, and 6-603 of the Illinois Highway Code, and the tax was levied in an amount that would require extension at a rate of not less than 0.08% of the value of the taxable property of that road district, as equalized or assessed by the Department of Revenue or, in DuPage County, an amount equal to or greater than $12,000 per mile of road under the jurisdiction of the road district, whichever is less, that levy shall be deemed a proper compliance with this Section and shall qualify such road district for a full, rather than proportionate, allotment under this Section. If the levy for the special tax is less than 0.08% of the value of the taxable property, or, in DuPage County if the levy for the special tax is less than the lesser of (i) 0.08% or (ii) $12,000

New matter indicated by italics - deletions by strikeout
per mile of road under the jurisdiction of the road district, and if the levy for the special tax is more than any other levy for road and bridge purposes, then the levy for the special tax qualifies the road district for a proportionate, rather than full, allotment under this Section. If the levy for the special tax is equal to or less than any other levy for road and bridge purposes, then any allotment under this Section shall be determined by the other levy for road and bridge purposes.

Prior to 2011, if a township has transferred to the road and bridge fund money which, when added to the amount of any tax levy of the road district would be the equivalent of a tax levy requiring extension at a rate of at least .08%, or, in DuPage County, an amount equal to or greater than $12,000 per mile of road under the jurisdiction of the road district, whichever is less, such transfer, together with any such tax levy, shall be deemed a proper compliance with this Section and shall qualify the road district for an allotment under this Section.

In counties in which a property tax extension limitation is imposed under the Property Tax Extension Limitation Law, road districts may retain their entitlement to a motor fuel tax allotment or, beginning in 2011, their entitlement to a full allotment if, at the time the property tax extension limitation was imposed, the road district was levying a road and bridge tax at a rate sufficient to entitle it to a motor fuel tax allotment and continues to levy the maximum allowable amount after the imposition of the property tax extension limitation. Any road district may in all circumstances retain its entitlement to a motor fuel tax allotment or, beginning in 2011, its entitlement to a full allotment if it levied a road and bridge tax in an amount that will require the extension of the tax against the taxable property in the road district at a rate of not less than 0.08% of the assessed value of the property, based upon the assessment for the year immediately preceding the year in which the tax was levied and as equalized by the Department of Revenue or, in DuPage County, an amount equal to or greater than $12,000 per mile of road under the jurisdiction of the road district, whichever is less.

As used in this Section the term "road district" means any road district, including a county unit road district, provided for by the Illinois Highway Code; and the term "township or district road" means any road in the township and district road system as defined in the Illinois Highway Code. For the purposes of this Section, "township or district road" also includes such roads as are maintained by park districts, forest preserve districts and conservation districts. The Department of Transportation shall determine the mileage of all township and district roads for the purposes of

making allotments and allocations of motor fuel tax funds for use in road districts.

Payment of motor fuel tax moneys to municipalities and counties shall be made as soon as possible after the allotment is made. The treasurer of the municipality or county may invest these funds until their use is required and the interest earned by these investments shall be limited to the same uses as the principal funds.

Section 20-50. The Illinois Pension Code is amended by changing Section 16-158 as follows:

(40 ILCS 5/16-158) (from Ch. 108 1/2, par. 16-158)
(Text of Section before amendment by P.A. 98-599)
Sec. 16-158. Contributions by State and other employing units.
(a) The State shall make contributions to the System by means of appropriations from the Common School Fund and other State funds of amounts which, together with other employer contributions, employee contributions, investment income, and other income, will be sufficient to meet the cost of maintaining and administering the System on a 90% funded basis in accordance with actuarial recommendations.

The Board shall determine the amount of State contributions required for each fiscal year on the basis of the actuarial tables and other assumptions adopted by the Board and the recommendations of the actuary, using the formula in subsection (b-3).

(a-1) Annually, on or before November 15 until November 15, 2011, the Board shall certify to the Governor the amount of the required State contribution for the coming fiscal year. The certification under this subsection (a-1) shall include a copy of the actuarial recommendations upon which it is based and shall specifically identify the System's projected State normal cost for that fiscal year.

On or before May 1, 2004, the Board shall recalculate and recertify to the Governor the amount of the required State contribution to the System for State fiscal year 2005, taking into account the amounts appropriated to and received by the System under subsection (d) of Section 7.2 of the General Obligation Bond Act.

On or before July 1, 2005, the Board shall recalculate and recertify to the Governor the amount of the required State contribution to the System for State fiscal year 2006, taking into account the changes in required State contributions made by this amendatory Act of the 94th General Assembly.

On or before April 1, 2011, the Board shall recalculate and recertify to the Governor the amount of the required State contribution to the System for State fiscal year 2011, applying the changes made by Public Act 96-889 to the System's assets and liabilities as of June 30, 2009 as though Public Act 96-889 was approved on that date.

(a-5) On or before November 1 of each year, beginning November 1, 2012, the Board shall submit to the State Actuary, the Governor, and the General Assembly a proposed certification of the amount of the required State contribution to the System for the next fiscal year, along with all of the actuarial assumptions, calculations, and data upon which that proposed certification is based. On or before January 1 of each year, beginning January 1, 2013, the State Actuary shall issue a preliminary report concerning the proposed certification and identifying, if necessary, recommended changes in actuarial assumptions that the Board must consider before finalizing its certification of the required State contributions. On or before January 15, 2013 and each January 15 thereafter, the Board shall certify to the Governor and the General Assembly the amount of the required State contribution for the next fiscal year. The Board's certification must note any deviations from the State Actuary's recommended changes, the reason or reasons for not following the State Actuary's recommended changes, and the fiscal impact of not following the State Actuary's recommended changes on the required State contribution.

(b) Through State fiscal year 1995, the State contributions shall be paid to the System in accordance with Section 18-7 of the School Code.

(b-1) Beginning in State fiscal year 1996, on the 15th day of each month, or as soon thereafter as may be practicable, the Board shall submit vouchers for payment of State contributions to the System, in a total monthly amount of one-twelfth of the required annual State contribution certified under subsection (a-1). From the effective date of this amendatory Act of the 93rd General Assembly through June 30, 2004, the Board shall not submit vouchers for the remainder of fiscal year 2004 in excess of the fiscal year 2004 certified contribution amount determined under this Section after taking into consideration the transfer to the System under subsection (a) of Section 6z-61 of the State Finance Act. These vouchers shall be paid by the State Comptroller and Treasurer by warrants drawn on the funds appropriated to the System for that fiscal year.

If in any month the amount remaining unexpended from all other appropriations to the System for the applicable fiscal year (including the appropriations to the System under Section 8.12 of the State Finance Act and

New matter indicated by italics - deletions by strikeout
Section 1 of the State Pension Funds Continuing Appropriation Act) is less than the amount lawfully vouchered under this subsection, the difference shall be paid from the Common School Fund under the continuing appropriation authority provided in Section 1.1 of the State Pension Funds Continuing Appropriation Act.

(b-2) Allocations from the Common School Fund apportioned to school districts not coming under this System shall not be diminished or affected by the provisions of this Article.

(b-3) For State fiscal years 2012 through 2045, the minimum contribution to the System to be made by the State for each fiscal year shall be an amount determined by the System to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of State fiscal year 2045. In making these determinations, the required State contribution shall be calculated each year as a level percentage of payroll over the years remaining to and including fiscal year 2045 and shall be determined under the projected unit credit actuarial cost method.

For State fiscal years 1996 through 2005, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments so that by State fiscal year 2011, the State is contributing at the rate required under this Section; except that in the following specified State fiscal years, the State contribution to the System shall not be less than the following indicated percentages of the applicable employee payroll, even if the indicated percentage will produce a State contribution in excess of the amount otherwise required under this subsection and subsection (a), and notwithstanding any contrary certification made under subsection (a-1) before the effective date of this amendatory Act of 1998:

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2006 is $534,627,700.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2007 is $738,014,500.

For each of State fiscal years 2008 through 2009, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments from the required State contribution for State fiscal year 2007, so that by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2010 is $2,089,268,000 and shall be

made from the proceeds of bonds sold in fiscal year 2010 pursuant to Section 7.2 of the General Obligation Bond Act, less (i) the pro rata share of bond sale expenses determined by the System's share of total bond proceeds, (ii) any amounts received from the Common School Fund in fiscal year 2010, and (iii) any reduction in bond proceeds due to the issuance of discounted bonds, if applicable.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2011 is the amount recertified by the System on or before April 1, 2011 pursuant to subsection (a-1) of this Section and shall be made from the proceeds of bonds sold in fiscal year 2011 pursuant to Section 7.2 of the General Obligation Bond Act, less (i) the pro rata share of bond sale expenses determined by the System's share of total bond proceeds, (ii) any amounts received from the Common School Fund in fiscal year 2011, and (iii) any reduction in bond proceeds due to the issuance of discounted bonds, if applicable. This amount shall include, in addition to the amount certified by the System, an amount necessary to meet employer contributions required by the State as an employer under paragraph (e) of this Section, which may also be used by the System for contributions required by paragraph (a) of Section 16-127.

Beginning in State fiscal year 2046, the minimum State contribution for each fiscal year shall be the amount needed to maintain the total assets of the System at 90% of the total actuarial liabilities of the System.

Amounts received by the System pursuant to Section 25 of the Budget Stabilization Act or Section 8.12 of the State Finance Act in any fiscal year do not reduce and do not constitute payment of any portion of the minimum State contribution required under this Article in that fiscal year. Such amounts shall not reduce, and shall not be included in the calculation of, the required State contributions under this Article in any future year until the System has reached a funding ratio of at least 90%. A reference in this Article to the "required State contribution" or any substantially similar term does not include or apply to any amounts payable to the System under Section 25 of the Budget Stabilization Act.

Notwithstanding any other provision of this Section, the required State contribution for State fiscal year 2005 and for fiscal year 2008 and each fiscal year thereafter, as calculated under this Section and certified under subsection (a-1), shall not exceed an amount equal to (i) the amount of the required State contribution that would have been calculated under this Section for that fiscal year if the System had not received any payments under subsection (d) of Section 7.2 of the General Obligation Bond Act, minus (ii)

New matter indicated by italics - deletions by strikeout
the portion of the State's total debt service payments for that fiscal year on the bonds issued in fiscal year 2003 for the purposes of that Section 7.2, as determined and certified by the Comptroller, that is the same as the System's portion of the total moneys distributed under subsection (d) of Section 7.2 of the General Obligation Bond Act. In determining this maximum for State fiscal years 2008 through 2010, however, the amount referred to in item (i) shall be increased, as a percentage of the applicable employee payroll, in equal increments calculated from the sum of the required State contribution for State fiscal year 2007 plus the applicable portion of the State's total debt service payments for fiscal year 2007 on the bonds issued in fiscal year 2003 for the purposes of Section 7.2 of the General Obligation Bond Act, so that, by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

(c) Payment of the required State contributions and of all pensions, retirement annuities, death benefits, refunds, and other benefits granted under or assumed by this System, and all expenses in connection with the administration and operation thereof, are obligations of the State.

If members are paid from special trust or federal funds which are administered by the employing unit, whether school district or other unit, the employing unit shall pay to the System from such funds the full accruing retirement costs based upon that service, which, beginning July 1, 2014, shall be at a rate, expressed as a percentage of salary, equal to the total minimum contribution to the System to be made by the State for that fiscal year, including both normal cost and unfunded liability components, expressed as a percentage of payroll, as determined by the System under subsection (b-3) of this Section. Employer contributions, based on salary paid to members from federal funds, may be forwarded by the distributing agency of the State of Illinois to the System prior to allocation, in an amount determined in accordance with guidelines established by such agency and the System. Any contribution for fiscal year 2015 collected as a result of the change made by this amendatory Act of the 98th General Assembly shall be considered a State contribution under subsection (b-3) of this Section.

(d) Effective July 1, 1986, any employer of a teacher as defined in paragraph (8) of Section 16-106 shall pay the employer's normal cost of benefits based upon the teacher's service, in addition to employee contributions, as determined by the System. Such employer contributions shall be forwarded monthly in accordance with guidelines established by the System.

New matter indicated by italics - deletions by strikeout
However, with respect to benefits granted under Section 16-133.4 or 16-133.5 to a teacher as defined in paragraph (8) of Section 16-106, the employer's contribution shall be 12% (rather than 20%) of the member's highest annual salary rate for each year of creditable service granted, and the employer shall also pay the required employee contribution on behalf of the teacher. For the purposes of Sections 16-133.4 and 16-133.5, a teacher as defined in paragraph (8) of Section 16-106 who is serving in that capacity while on leave of absence from another employer under this Article shall not be considered an employee of the employer from which the teacher is on leave.

(e) Beginning July 1, 1998, every employer of a teacher shall pay to the System an employer contribution computed as follows:

1. Beginning July 1, 1998 through June 30, 1999, the employer contribution shall be equal to 0.3% of each teacher's salary.
2. Beginning July 1, 1999 and thereafter, the employer contribution shall be equal to 0.58% of each teacher's salary.

The school district or other employing unit may pay these employer contributions out of any source of funding available for that purpose and shall forward the contributions to the System on the schedule established for the payment of member contributions.

These employer contributions are intended to offset a portion of the cost to the System of the increases in retirement benefits resulting from this amendatory Act of 1998.

Each employer of teachers is entitled to a credit against the contributions required under this subsection (e) with respect to salaries paid to teachers for the period January 1, 2002 through June 30, 2003, equal to the amount paid by that employer under subsection (a-5) of Section 6.6 of the State Employees Group Insurance Act of 1971 with respect to salaries paid to teachers for that period.

The additional 1% employee contribution required under Section 16-152 by this amendatory Act of 1998 is the responsibility of the teacher and not the teacher's employer, unless the employer agrees, through collective bargaining or otherwise, to make the contribution on behalf of the teacher.

If an employer is required by a contract in effect on May 1, 1998 between the employer and an employee organization to pay, on behalf of all its full-time employees covered by this Article, all mandatory employee contributions required under this Article, then the employer shall be excused from paying the employer contribution required under this subsection (e) for the balance of the term of that contract. The employer and the employee

New matter indicated by italics - deletions by strikeout
organization shall jointly certify to the System the existence of the contractual requirement, in such form as the System may prescribe. This exclusion shall cease upon the termination, extension, or renewal of the contract at any time after May 1, 1998.

(f) If the amount of a teacher's salary for any school year used to determine final average salary exceeds the member's annual full-time salary rate with the same employer for the previous school year by more than 6%, the teacher's employer shall pay to the System, in addition to all other payments required under this Section and in accordance with guidelines established by the System, the present value of the increase in benefits resulting from the portion of the increase in salary that is in excess of 6%. This present value shall be computed by the System on the basis of the actuarial assumptions and tables used in the most recent actuarial valuation of the System that is available at the time of the computation. If a teacher's salary for the 2005-2006 school year is used to determine final average salary under this subsection (f), then the changes made to this subsection (f) by Public Act 94-1057 shall apply in calculating whether the increase in his or her salary is in excess of 6%. For the purposes of this Section, change in employment under Section 10-21.12 of the School Code on or after June 1, 2005 shall constitute a change in employer. The System may require the employer to provide any pertinent information or documentation. The changes made to this subsection (f) by this amendatory Act of the 94th General Assembly apply without regard to whether the teacher was in service on or after its effective date.

Whenever it determines that a payment is or may be required under this subsection, the System shall calculate the amount of the payment and bill the employer for that amount. The bill shall specify the calculations used to determine the amount due. If the employer disputes the amount of the bill, it may, within 30 days after receipt of the bill, apply to the System in writing for a recalculation. The application must specify in detail the grounds of the dispute and, if the employer asserts that the calculation is subject to subsection (g) or (h) of this Section, must include an affidavit setting forth and attesting to all facts within the employer's knowledge that are pertinent to the applicability of that subsection. Upon receiving a timely application for recalculation, the System shall review the application and, if appropriate, recalculate the amount due.

The employer contributions required under this subsection (f) may be paid in the form of a lump sum within 90 days after receipt of the bill. If the employer contributions are not paid within 90 days after receipt of the bill,
then interest will be charged at a rate equal to the System's annual actuarially
assumed rate of return on investment compounded annually from the 91st day
after receipt of the bill. Payments must be concluded within 3 years after the
employer's receipt of the bill.

(g) This subsection (g) applies only to payments made or salary
increases given on or after June 1, 2005 but before July 1, 2011. The changes
made by Public Act 94-1057 shall not require the System to refund any
payments received before July 31, 2006 (the effective date of Public Act 94-
1057).

When assessing payment for any amount due under subsection (f), the
System shall exclude salary increases paid to teachers under contracts or
collective bargaining agreements entered into, amended, or renewed before
June 1, 2005.

When assessing payment for any amount due under subsection (f), the
System shall exclude salary increases paid to a teacher at a time when the
teacher is 10 or more years from retirement eligibility under Section 16-132
or 16-133.2.

When assessing payment for any amount due under subsection (f), the
System shall exclude salary increases resulting from overload work, including
summer school, when the school district has certified to the System, and the
System has approved the certification, that (i) the overload work is for the
sole purpose of classroom instruction in excess of the standard number of
classes for a full-time teacher in a school district during a school year and (ii)
the salary increases are equal to or less than the rate of pay for classroom
instruction computed on the teacher's current salary and work schedule.

When assessing payment for any amount due under subsection (f), the
System shall exclude a salary increase resulting from a promotion (i) for
which the employee is required to hold a certificate or supervisory
endorsement issued by the State Teacher Certification Board that is a
different certification or supervisory endorsement than is required for the
teacher's previous position and (ii) to a position that has existed and been
filled by a member for no less than one complete academic year and the
salary increase from the promotion is an increase that results in an amount no
greater than the lesser of the average salary paid for other similar positions
in the district requiring the same certification or the amount stipulated in the
collective bargaining agreement for a similar position requiring the same
certification.

When assessing payment for any amount due under subsection (f), the
System shall exclude any payment to the teacher from the State of Illinois or

New matter indicated by italics - deletions by strikeout
the State Board of Education over which the employer does not have discretion, notwithstanding that the payment is included in the computation of final average salary.

(h) When assessing payment for any amount due under subsection (f), the System shall exclude any salary increase described in subsection (g) of this Section given on or after July 1, 2011 but before July 1, 2014 under a contract or collective bargaining agreement entered into, amended, or renewed on or after June 1, 2005 but before July 1, 2011. Notwithstanding any other provision of this Section, any payments made or salary increases given after June 30, 2014 shall be used in assessing payment for any amount due under subsection (f) of this Section.

(i) The System shall prepare a report and file copies of the report with the Governor and the General Assembly by January 1, 2007 that contains all of the following information:

(1) The number of recalculations required by the changes made to this Section by Public Act 94-1057 for each employer.

(2) The dollar amount by which each employer's contribution to the System was changed due to recalculations required by Public Act 94-1057.

(3) The total amount the System received from each employer as a result of the changes made to this Section by Public Act 94-4.

(4) The increase in the required State contribution resulting from the changes made to this Section by Public Act 94-1057.

(j) For purposes of determining the required State contribution to the System, the value of the System's assets shall be equal to the actuarial value of the System's assets, which shall be calculated as follows:

As of June 30, 2008, the actuarial value of the System's assets shall be equal to the market value of the assets as of that date. In determining the actuarial value of the System's assets for fiscal years after June 30, 2008, any actuarial gains or losses from investment return incurred in a fiscal year shall be recognized in equal annual amounts over the 5-year period following that fiscal year.

(k) For purposes of determining the required State contribution to the system for a particular year, the actuarial value of assets shall be assumed to earn a rate of return equal to the system's actuarially assumed rate of return. (a) The State shall make contributions to the System by means of appropriations from the Common School Fund and other State funds of amounts which, together with other employer contributions, employee contributions, investment income, and other income, will be sufficient to meet the cost of maintaining and administering the System on a 100% funded basis in accordance with actuarial recommendations by the end of State fiscal year 2044.

The Board shall determine the amount of State contributions required for each fiscal year on the basis of the actuarial tables and other assumptions adopted by the Board and the recommendations of the actuary, using the formula in subsection (b-3).

(a-1) Annually, on or before November 15 through November 15, 2011, the Board shall certify to the Governor the amount of the required State contribution for the coming fiscal year. The certification under this subsection (a-1) shall include a copy of the actuarial recommendations upon which it is based.

On or before May 1, 2004, the Board shall recalculate and recertify to the Governor the amount of the required State contribution to the System for State fiscal year 2005, taking into account the amounts appropriated to and received by the System under subsection (d) of Section 7.2 of the General Obligation Bond Act.

On or before July 1, 2005, the Board shall recalculate and recertify to the Governor the amount of the required State contribution to the System for State fiscal year 2006, taking into account the changes in required State contributions made by this amendatory Act of the 94th General Assembly.

On or before April 1, 2011, the Board shall recalculate and recertify to the Governor the amount of the required State contribution to the System for State fiscal year 2011, applying the changes made by Public Act 96-889 to the System's assets and liabilities as of June 30, 2009 as though Public Act 96-889 was approved on that date.

(a-5) On or before November 1 of each year, beginning November 1, 2012, the Board shall submit to the State Actuary, the Governor, and the General Assembly a proposed certification of the amount of the required State contribution to the System for the next fiscal year, along with all of the actuarial assumptions, calculations, and data upon which that proposed certification is based. On or before January 1 of each year, beginning January 1, 2013, the State Actuary shall issue a preliminary report concerning the proposed certification and identifying, if necessary, recommended changes

in actuarial assumptions that the Board must consider before finalizing its certification of the required State contributions.

On or before January 15, 2013 and each January 15 thereafter, the Board shall certify to the Governor and the General Assembly the amount of the required State contribution for the next fiscal year. The certification shall include a copy of the actuarial recommendations upon which it is based and shall specifically identify the System's projected State normal cost for that fiscal year. The Board's certification must note any deviations from the State Actuary's recommended changes, the reason or reasons for not following the State Actuary's recommended changes, and the fiscal impact of not following the State Actuary's recommended changes on the required State contribution.

(a-10) For purposes of Section (c-5) of Section 20 of the Budget Stabilization Act, on or before November 1 of each year beginning November 1, 2014, the Board shall determine the amount of the State contribution to the System that would have been required for the next fiscal year if this amendatory Act of the 98th General Assembly had not taken effect, using the best and most recent available data but based on the law in effect on May 31, 2014. The Board shall submit to the State Actuary, the Governor, and the General Assembly a proposed certification, along with the relevant law, actuarial assumptions, calculations, and data upon which that certification is based. On or before January 1, 2015 and every January 1 thereafter, the State Actuary shall issue a preliminary report concerning the proposed certification and identifying, if necessary, recommended changes in actuarial assumptions that the Board must consider before finalizing its certification. On or before January 15, 2015 and every January 1 thereafter, the Board shall certify to the Governor and the General Assembly the amount of the State contribution to the System that would have been required for the next fiscal year if this amendatory Act of the 98th General Assembly had not taken effect, using the best and most recent available data but based on the law in effect on May 31, 2014. The Board's certification must note any deviations from the State Actuary's recommended changes, the reason or reasons for not following the State Actuary's recommended changes, and the impact of not following the State Actuary's recommended changes.

(b) Through State fiscal year 1995, the State contributions shall be paid to the System in accordance with Section 18-7 of the School Code.

(b-1) Beginning in State fiscal year 1996, on the 15th day of each month, or as soon thereafter as may be practicable, the Board shall submit vouchers for payment of State contributions to the System, in a total monthly amount of one-twelfth of the required annual State contribution certified.
under subsection (a-1). From the effective date of this amendatory Act of the 93rd General Assembly through June 30, 2004, the Board shall not submit vouchers for the remainder of fiscal year 2004 in excess of the fiscal year 2004 certified contribution amount determined under this Section after taking into consideration the transfer to the System under subsection (a) of Section 6z-61 of the State Finance Act. These vouchers shall be paid by the State Comptroller and Treasurer by warrants drawn on the funds appropriated to the System for that fiscal year.

If in any month the amount remaining unexpended from all other appropriations to the System for the applicable fiscal year (including the appropriations to the System under Section 8.12 of the State Finance Act and Section 1 of the State Pension Funds Continuing Appropriation Act) is less than the amount lawfully vouchered under this subsection, the difference shall be paid from the Common School Fund under the continuing appropriation authority provided in Section 1.1 of the State Pension Funds Continuing Appropriation Act.

(b-2) Allocations from the Common School Fund apportioned to school districts not coming under this System shall not be diminished or affected by the provisions of this Article.

(b-3) For State fiscal years 2015 through 2044, the minimum contribution to the System to be made by the State for each fiscal year shall be an amount determined by the System to be equal to the sum of (1) the State's portion of the projected normal cost for that fiscal year, plus (2) an amount sufficient to bring the total assets of the System up to 100% of the total actuarial liabilities of the System by the end of State fiscal year 2044. In making these determinations, the required State contribution shall be calculated each year as a level percentage of payroll over the years remaining to and including fiscal year 2044 and shall be determined under the projected unit cost method for fiscal year 2015 and under the entry age normal actuarial cost method for fiscal years 2016 through 2044.

For State fiscal years 2012 through 2014, the minimum contribution to the System to be made by the State for each fiscal year shall be an amount determined by the System to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of State fiscal year 2045. In making these determinations, the required State contribution shall be calculated each year as a level percentage of payroll over the years remaining to and including fiscal year 2045 and shall be determined under the projected unit credit actuarial cost method.
For State fiscal years 1996 through 2005, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments so that by State fiscal year 2011, the State is contributing at the rate required under this Section; except that in the following specified State fiscal years, the State contribution to the System shall not be less than the following indicated percentages of the applicable employee payroll, even if the indicated percentage will produce a State contribution in excess of the amount otherwise required under this subsection and subsection (a), and notwithstanding any contrary certification made under subsection (a-1) before the effective date of this amendatory Act of 1998:

- 10.02% in FY 1999;
- 10.77% in FY 2000;
- 11.47% in FY 2001;
- 12.16% in FY 2002;
- 12.86% in FY 2003; and

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2006 is $534,627,700.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2007 is $738,014,500.

For each of State fiscal years 2008 through 2009, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments from the required State contribution for State fiscal year 2007, so that by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2010 is $2,089,268,000 and shall be made from the proceeds of bonds sold in fiscal year 2010 pursuant to Section 7.2 of the General Obligation Bond Act, less (i) the pro rata share of bond sale expenses determined by the System's share of total bond proceeds, (ii) any amounts received from the Common School Fund in fiscal year 2010, and (iii) any reduction in bond proceeds due to the issuance of discounted bonds, if applicable.

Notwithstanding any other provision of this Article, the total required State contribution for State fiscal year 2011 is the amount recertified by the System on or before April 1, 2011 pursuant to subsection (a-1) of this Section and shall be made from the proceeds of bonds sold in fiscal year 2011 pursuant to Section 7.2 of the General Obligation Bond Act, less (i) the pro rata share of bond sale expenses determined by the System's share of total bond proceeds, (ii) any amounts received from the Common School Fund in fiscal year 2011, and (iii) any reduction in bond proceeds due to the issuance of discounted bonds, if applicable. This amount shall include, in addition to the amount certified by the System, an amount necessary to meet employer

contributions required by the State as an employer under paragraph (e) of this Section, which may also be used by the System for contributions required by paragraph (a) of Section 16-127.

Beginning in State fiscal year 2045, the minimum State contribution for each fiscal year shall be the amount needed to maintain the total assets of the System at 100% of the total actuarial liabilities of the System.

Amounts received by the System pursuant to Section 25 of the Budget Stabilization Act or Section 8.12 of the State Finance Act in any fiscal year do not reduce and do not constitute payment of any portion of the minimum State contribution required under this Article in that fiscal year. Such amounts shall not reduce, and shall not be included in the calculation of, the required State contributions under this Article in any future year until the System has reached a funding ratio of at least 100%. A reference in this Article to the "required State contribution" or any substantially similar term does not include or apply to any amounts payable to the System under Section 25 of the Budget Stabilization Act.

Notwithstanding any other provision of this Section, the required State contribution for State fiscal year 2005 and for fiscal year 2008 and each fiscal year thereafter through State fiscal year 2014, as calculated under this Section and certified under subsection (a-1), shall not exceed an amount equal to (i) the amount of the required State contribution that would have been calculated under this Section for that fiscal year if the System had not received any payments under subsection (d) of Section 7.2 of the General Obligation Bond Act, minus (ii) the portion of the State's total debt service payments for that fiscal year on the bonds issued in fiscal year 2003 for the purposes of that Section 7.2, as determined and certified by the Comptroller, that is the same as the System's portion of the total moneys distributed under subsection (d) of Section 7.2 of the General Obligation Bond Act. In determining this maximum for State fiscal years 2008 through 2010, however, the amount referred to in item (i) shall be increased, as a percentage of the applicable employee payroll, in equal increments calculated from the sum of the required State contribution for State fiscal year 2007 plus the applicable portion of the State's total debt service payments for fiscal year 2007 on the bonds issued in fiscal year 2003 for the purposes of Section 7.2 of the General Obligation Bond Act, so that, by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

or assumed by this System, and all expenses in connection with the administration and operation thereof, are obligations of the State.

If members are paid from special trust or federal funds which are administered by the employing unit, whether school district or other unit, the employing unit shall pay to the System from such funds the full accruing retirement costs based upon that service, which, beginning July 1, 2014, shall be at a rate, expressed as a percentage of salary, equal to the total minimum contribution to the System to be made by the State for that fiscal year, including both normal cost and unfunded liability components, expressed as a percentage of payroll, as determined by the System under subsection (b-3) of this Section. Employer contributions, based on salary paid to members from federal funds, may be forwarded by the distributing agency of the State of Illinois to the System prior to allocation, in an amount determined in accordance with guidelines established by such agency and the System. Any contribution for fiscal year 2015 collected as a result of the change made by this amendatory Act of the 98th General Assembly shall be considered a State contribution under subsection (b-3) of this Section.

(d) Effective July 1, 1986, any employer of a teacher as defined in paragraph (8) of Section 16-106 shall pay the employer's normal cost of benefits based upon the teacher's service, in addition to employee contributions, as determined by the System. Such employer contributions shall be forwarded monthly in accordance with guidelines established by the System.

However, with respect to benefits granted under Section 16-133.4 or 16-133.5 to a teacher as defined in paragraph (8) of Section 16-106, the employer's contribution shall be 12% (rather than 20%) of the member's highest annual salary rate for each year of creditable service granted, and the employer shall also pay the required employee contribution on behalf of the teacher. For the purposes of Sections 16-133.4 and 16-133.5, a teacher as defined in paragraph (8) of Section 16-106 who is serving in that capacity while on leave of absence from another employer under this Article shall not be considered an employee of the employer from which the teacher is on leave.

(e) Beginning July 1, 1998, every employer of a teacher shall pay to the System an employer contribution computed as follows:

1. Beginning July 1, 1998 through June 30, 1999, the employer contribution shall be equal to 0.3% of each teacher's salary.
2. Beginning July 1, 1999 and thereafter, the employer contribution shall be equal to 0.58% of each teacher's salary.

The school district or other employing unit may pay these employer contributions out of any source of funding available for that purpose and shall forward the contributions to the System on the schedule established for the payment of member contributions.

These employer contributions are intended to offset a portion of the cost to the System of the increases in retirement benefits resulting from this amendatory Act of 1998.

Each employer of teachers is entitled to a credit against the contributions required under this subsection (e) with respect to salaries paid to teachers for the period January 1, 2002 through June 30, 2003, equal to the amount paid by that employer under subsection (a-5) of Section 6.6 of the State Employees Group Insurance Act of 1971 with respect to salaries paid to teachers for that period.

The additional 1% employee contribution required under Section 16-152 by this amendatory Act of 1998 is the responsibility of the teacher and not the teacher's employer, unless the employer agrees, through collective bargaining or otherwise, to make the contribution on behalf of the teacher.

If an employer is required by a contract in effect on May 1, 1998 between the employer and an employee organization to pay, on behalf of all its full-time employees covered by this Article, all mandatory employee contributions required under this Article, then the employer shall be excused from paying the employer contribution required under this subsection (e) for the balance of the term of that contract. The employer and the employee organization shall jointly certify to the System the existence of the contractual requirement, in such form as the System may prescribe. This exclusion shall cease upon the termination, extension, or renewal of the contract at any time after May 1, 1998.

(f) If the amount of a teacher's salary for any school year used to determine final average salary exceeds the member's annual full-time salary rate with the same employer for the previous school year by more than 6%, the teacher's employer shall pay to the System, in addition to all other payments required under this Section and in accordance with guidelines established by the System, the present value of the increase in benefits resulting from the portion of the increase in salary that is in excess of 6%. This present value shall be computed by the System on the basis of the actuarial assumptions and tables used in the most recent actuarial valuation of the System that is available at the time of the computation. If a teacher's salary for the 2005-2006 school year is used to determine final average salary under this subsection (f), then the changes made to this subsection (f) by
Public Act 94-1057 shall apply in calculating whether the increase in his or her salary is in excess of 6%. For the purposes of this Section, change in employment under Section 10-21.12 of the School Code on or after June 1, 2005 shall constitute a change in employer. The System may require the employer to provide any pertinent information or documentation. The changes made to this subsection (f) by this amendatory Act of the 94th General Assembly apply without regard to whether the teacher was in service on or after its effective date.

Whenever it determines that a payment is or may be required under this subsection, the System shall calculate the amount of the payment and bill the employer for that amount. The bill shall specify the calculations used to determine the amount due. If the employer disputes the amount of the bill, it may, within 30 days after receipt of the bill, apply to the System in writing for a recalculation. The application must specify in detail the grounds of the dispute and, if the employer asserts that the calculation is subject to subsection (g) or (h) of this Section, must include an affidavit setting forth and attesting to all facts within the employer's knowledge that are pertinent to the applicability of that subsection. Upon receiving a timely application for recalculation, the System shall review the application and, if appropriate, recalculate the amount due.

The employer contributions required under this subsection (f) may be paid in the form of a lump sum within 90 days after receipt of the bill. If the employer contributions are not paid within 90 days after receipt of the bill, then interest will be charged at a rate equal to the System's annual actuarially assumed rate of return on investment compounded annually from the 91st day after receipt of the bill. Payments must be concluded within 3 years after the employer's receipt of the bill.

(g) This subsection (g) applies only to payments made or salary increases given on or after June 1, 2005 but before July 1, 2011. The changes made by Public Act 94-1057 shall not require the System to refund any payments received before July 31, 2006 (the effective date of Public Act 94-1057).

When assessing payment for any amount due under subsection (f), the System shall exclude salary increases paid to teachers under contracts or collective bargaining agreements entered into, amended, or renewed before June 1, 2005.

When assessing payment for any amount due under subsection (f), the System shall exclude salary increases paid to a teacher at a time when the

teacher is 10 or more years from retirement eligibility under Section 16-132 or 16-133.2.

When assessing payment for any amount due under subsection (f), the System shall exclude salary increases resulting from overload work, including summer school, when the school district has certified to the System, and the System has approved the certification, that (i) the overload work is for the sole purpose of classroom instruction in excess of the standard number of classes for a full-time teacher in a school district during a school year and (ii) the salary increases are equal to or less than the rate of pay for classroom instruction computed on the teacher's current salary and work schedule.

When assessing payment for any amount due under subsection (f), the System shall exclude a salary increase resulting from a promotion (i) for which the employee is required to hold a certificate or supervisory endorsement issued by the State Teacher Certification Board that is a different certification or supervisory endorsement than is required for the teacher's previous position and (ii) to a position that has existed and been filled by a member for no less than one complete academic year and the salary increase from the promotion is an increase that results in an amount no greater than the lesser of the average salary paid for other similar positions in the district requiring the same certification or the amount stipulated in the collective bargaining agreement for a similar position requiring the same certification.

When assessing payment for any amount due under subsection (f), the System shall exclude any payment to the teacher from the State of Illinois or the State Board of Education over which the employer does not have discretion, notwithstanding that the payment is included in the computation of final average salary.

(h) When assessing payment for any amount due under subsection (f), the System shall exclude any salary increase described in subsection (g) of this Section given on or after July 1, 2011 but before July 1, 2014 under a contract or collective bargaining agreement entered into, amended, or renewed on or after June 1, 2005 but before July 1, 2011. Notwithstanding any other provision of this Section, any payments made or salary increases given after June 30, 2014 shall be used in assessing payment for any amount due under subsection (f) of this Section.

(i) The System shall prepare a report and file copies of the report with the Governor and the General Assembly by January 1, 2007 that contains all of the following information:

New matter indicated by italics - deletions by strikeout
(1) The number of recalculations required by the changes made to this Section by Public Act 94-1057 for each employer.

(2) The dollar amount by which each employer's contribution to the System was changed due to recalculations required by Public Act 94-1057.

(3) The total amount the System received from each employer as a result of the changes made to this Section by Public Act 94-4.

(4) The increase in the required State contribution resulting from the changes made to this Section by Public Act 94-1057.

(j) For purposes of determining the required State contribution to the System, the value of the System's assets shall be equal to the actuarial value of the System's assets, which shall be calculated as follows:

As of June 30, 2008, the actuarial value of the System's assets shall be equal to the market value of the assets as of that date. In determining the actuarial value of the System's assets for fiscal years after June 30, 2008, any actuarial gains or losses from investment return incurred in a fiscal year shall be recognized in equal annual amounts over the 5-year period following that fiscal year.

(k) For purposes of determining the required State contribution to the system for a particular year, the actuarial value of assets shall be assumed to earn a rate of return equal to the system's actuarially assumed rate of return.

Section 20-55. The Illinois Police Training Act is amended by changing Section 9 as follows:

(50 ILCS 705/9) (from Ch. 85, par. 509)

Sec. 9. A special fund is hereby established in the State Treasury to be known as "The Traffic and Criminal Conviction Surcharge Fund" and shall be financed as provided in Section 9.1 of this Act and Section 5-9-1 of the "Unified Code of Corrections", unless the fines, costs or additional amounts imposed are subject to disbursement by the circuit clerk under Section 27.5 of the Clerks of Courts Act. Moneys in this Fund shall be expended as follows:

(1) A portion of the total amount deposited in the Fund may be used, as appropriated by the General Assembly, for the ordinary and contingent expenses of the Illinois Law Enforcement Training Standards Board;

amount equaling 1/2 of the total sum paid by such agencies during the State's previous fiscal year for mandated training for probationary police officers or probationary county corrections officers and for optional advanced and specialized law enforcement or county corrections training. These reimbursements may include the costs for tuition at training schools, the salaries of trainees while in schools, and the necessary travel and room and board expenses for each trainee. If the appropriations under this paragraph (2) are not sufficient to fully reimburse the participating local governmental agencies, the available funds shall be apportioned among such agencies, with priority first given to repayment of the costs of mandatory training given to law enforcement officer or county corrections officer recruits, then to repayment of costs of advanced or specialized training for permanent police officers or permanent county corrections officers;

(3) A portion of the total amount deposited in the Fund may be used to fund the "Intergovernmental Law Enforcement Officer's In-Service Training Act", veto overridden October 29, 1981, as now or hereafter amended, at a rate and method to be determined by the board;

(4) A portion of the Fund also may be used by the Illinois Department of State Police for expenses incurred in the training of employees from any State, county or municipal agency whose function includes enforcement of criminal or traffic law;

(5) A portion of the Fund may be used by the Board to fund grant-in-aid programs and services for the training of employees from any county or municipal agency whose functions include corrections or the enforcement of criminal or traffic law; and

All payments from the Traffic and Criminal Conviction Surcharge Fund shall be made each year from moneys appropriated for the purposes specified in this Section. No more than 50% of any appropriation under this Act shall be spent in any city having a population of more than 500,000. The State Comptroller and the State Treasurer shall from time to time, at the direction of the Governor, transfer from the Traffic and Criminal Conviction Surcharge Fund to the General Revenue Fund in the State Treasury such

Sec. 3-5. Amount of aid. The amount and nature of financial aid granted to or in behalf of aged, blind, or disabled persons shall be determined in accordance with the standards, grant amounts, rules and regulations of the Illinois Department. Due regard shall be given to the requirements and conditions existing in each case, and to the amount of property owned and the income, money contributions, and other support, and resources received or obtainable by the person, from whatever source. ARTICLE 25. RETIREMENT CONTRIBUTIONS

Section 25-5. The State Finance Act is amended by changing Sections 8.12 and 14.1 as follows:

(30 ILCS 105/8.12) (from Ch. 127, par. 144.12)

(a) The moneys in the State Pensions Fund shall be used exclusively for the administration of the Uniform Disposition of Unclaimed Property Act and for the expenses incurred by the Auditor General for administering the provisions of Section 2-8.1 of the Illinois State Auditing Act and for the funding of the unfunded liabilities of the designated retirement systems. Beginning in State fiscal year 2016, payments to the designated retirement systems under this Section shall be in addition to, and not in lieu of, any State contributions required under the Illinois Pension Code.

"Designated retirement systems" means:

(1) the State Employees' Retirement System of Illinois;
(2) the Teachers' Retirement System of the State of Illinois;
(3) the State Universities Retirement System;
(4) the Judges Retirement System of Illinois; and
(5) the General Assembly Retirement System.

(b) Each year the General Assembly may make appropriations from the State Pensions Fund for the administration of the Uniform Disposition of Unclaimed Property Act.

Each month, the Commissioner of the Office of Banks and Real Estate shall certify to the State Treasurer the actual expenditures that the Office of Banks and Real Estate incurred conducting unclaimed property examinations under the Uniform Disposition of Unclaimed Property Act during the immediately preceding month. Within a reasonable time following the acceptance of such certification by the State Treasurer, the State Treasurer shall pay from its appropriation from the State Pensions Fund to the Bank and Trust Company Fund and the Savings and Residential Finance Regulatory Fund an amount equal to the expenditures incurred by each Fund for that month.

Each month, the Director of Financial Institutions shall certify to the State Treasurer the actual expenditures that the Department of Financial Institutions incurred conducting unclaimed property examinations under the Uniform Disposition of Unclaimed Property Act during the immediately preceding month.

preceding month. Within a reasonable time following the acceptance of such certification by the State Treasurer, the State Treasurer shall pay from its appropriation from the State Pensions Fund to the Financial Institution Fund and the Credit Union Fund an amount equal to the expenditures incurred by each Fund for that month.

(c) As soon as possible after the effective date of this amendatory Act of the 93rd General Assembly, the General Assembly shall appropriate from the State Pensions Fund (1) to the State Universities Retirement System the amount certified under Section 15-165 during the prior year, (2) to the Judges Retirement System of Illinois the amount certified under Section 18-140 during the prior year, and (3) to the General Assembly Retirement System the amount certified under Section 2-134 during the prior year as part of the required State contributions to each of those designated retirement systems; except that amounts appropriated under this subsection (c) in State fiscal year 2005 shall not reduce the amount in the State Pensions Fund below $5,000,000. If the amount in the State Pensions Fund does not exceed the sum of the amounts certified in Sections 15-165, 18-140, and 2-134 by at least $5,000,000, the amount paid to each designated retirement system under this subsection shall be reduced in proportion to the amount certified by each of those designated retirement systems.

(c-5) For fiscal years 2006 through 2014, the General Assembly shall appropriate from the State Pensions Fund to the State Universities Retirement System the amount estimated to be available during the fiscal year in the State Pensions Fund; provided, however, that the amounts appropriated under this subsection (c-5) shall not reduce the amount in the State Pensions Fund below $5,000,000.

(c-6) For fiscal year 2015 and each fiscal year thereafter, as soon as may be practical after any money is deposited into the State Pensions Fund from the Unclaimed Property Trust Fund, the State Treasurer shall apportion the deposited amount among the designated retirement systems as defined in subsection (a) to reduce their actuarial reserve deficiencies. The State Comptroller and State Treasurer shall pay the apportioned amounts to the designated retirement systems to fund the unfunded liabilities of the designated retirement systems. The amount apportioned to each designated retirement system shall constitute a portion of the amount estimated to be available for appropriation from the State Pensions Fund that is the same as that retirement system's portion of the total actual reserve deficiency of the systems, as determined annually by the Governor's Office of Management and Budget at the request of the State Treasurer. The amounts apportioned

under this subsection shall not reduce the amount in the State Pensions Fund below $5,000,000.

(d) The Governor's Office of Management and Budget shall determine the individual and total reserve deficiencies of the designated retirement systems. For this purpose, the Governor's Office of Management and Budget shall utilize the latest available audit and actuarial reports of each of the retirement systems and the relevant reports and statistics of the Public Employee Pension Fund Division of the Department of Insurance.

(d-1) As soon as practicable after the effective date of this amendatory Act of the 93rd General Assembly, the Comptroller shall direct and the Treasurer shall transfer from the State Pensions Fund to the General Revenue Fund, as funds become available, a sum equal to the amounts that would have been paid from the State Pensions Fund to the Teachers' Retirement System of the State of Illinois, the State Universities Retirement System, the Judges Retirement System of Illinois, the General Assembly Retirement System, and the State Employees' Retirement System of Illinois after the effective date of this amendatory Act during the remainder of fiscal year 2004 to the designated retirement systems from the appropriations provided for in this Section if the transfers provided in Section 6z-61 had not occurred. The transfers described in this subsection (d-1) are to partially repay the General Revenue Fund for the costs associated with the bonds used to fund the moneys transferred to the designated retirement systems under Section 6z-61.

(e) The changes to this Section made by this amendatory Act of 1994 shall first apply to distributions from the Fund for State fiscal year 1996.

(a) Appropriations for State contributions to the State Employees' Retirement System of Illinois shall be expended in the manner provided in this Section. Except as otherwise provided in subsections (a-1), (a-2), (a-3), and (a-4) at the time of each payment of salary to an employee under the personal services line item, payment shall be made to the State Employees' Retirement System, from the amount appropriated for State contributions to the State Employees' Retirement System, of an amount calculated at the rate certified for the applicable fiscal year by the Board of Trustees of the State Employees' Retirement System under Section 14-135.08 of the Illinois Pension Code. If a line item appropriation to an employer for this purpose is

exhausted or is unavailable due to any limitation on appropriations that may apply, (including, but not limited to, limitations on appropriations from the Road Fund under Section 8.3 of the State Finance Act), the amounts shall be paid under the continuing appropriation for this purpose contained in the State Pension Funds Continuing Appropriation Act.

(a-1) Beginning on the effective date of this amendatory Act of the 93rd General Assembly through the payment of the final payroll from fiscal year 2004 appropriations, appropriations for State contributions to the State Employees’ Retirement System of Illinois shall be expended in the manner provided in this subsection (a-1). At the time of each payment of salary to an employee under the personal services line item from a fund other than the General Revenue Fund, payment shall be made for deposit into the General Revenue Fund from the amount appropriated for State contributions to the State Employees’ Retirement System of an amount calculated at the rate certified for fiscal year 2004 by the Board of Trustees of the State Employees' Retirement System under Section 14-135.08 of the Illinois Pension Code. This payment shall be made to the extent that a line item appropriation to an employer for this purpose is available or unexhausted. No payment from appropriations for State contributions shall be made in conjunction with payment of salary to an employee under the personal services line item from the General Revenue Fund.

(a-2) For fiscal year 2010 only, at the time of each payment of salary to an employee under the personal services line item from a fund other than the General Revenue Fund, payment shall be made for deposit into the State Employees' Retirement System of Illinois from the amount appropriated for State contributions to the State Employees' Retirement System of Illinois of an amount calculated at the rate certified for fiscal year 2010 by the Board of Trustees of the State Employees' Retirement System of Illinois under Section 14-135.08 of the Illinois Pension Code. This payment shall be made to the extent that a line item appropriation to an employer for this purpose is available or unexhausted. For fiscal year 2010 only, no payment from appropriations for State contributions shall be made in conjunction with payment of salary to an employee under the personal services line item from the General Revenue Fund.

(a-3) For fiscal year 2011 only, at the time of each payment of salary to an employee under the personal services line item from a fund other than the General Revenue Fund, payment shall be made for deposit into the State Employees' Retirement System of Illinois from the amount appropriated for State contributions to the State Employees' Retirement System of Illinois of

an amount calculated at the rate certified for fiscal year 2011 by the Board of Trustees of the State Employees' Retirement System of Illinois under Section 14-135.08 of the Illinois Pension Code. This payment shall be made to the extent that a line item appropriation to an employer for this purpose is available or unexhausted. For fiscal year 2011 only, no payment from appropriations for State contributions shall be made in conjunction with payment of salary to an employee under the personal services line item from the General Revenue Fund.

(a-4) In fiscal years 2012 through 2014 only, at the time of each payment of salary to an employee under the personal services line item from a fund other than the General Revenue Fund, payment shall be made for deposit into the State Employees' Retirement System of Illinois from the amount appropriated for State contributions to the State Employees' Retirement System of Illinois of an amount calculated at the rate certified for the applicable fiscal year by the Board of Trustees of the State Employees' Retirement System of Illinois under Section 14-135.08 of the Illinois Pension Code. In fiscal years 2012 through 2014 only, no payment from appropriations for State contributions shall be made in conjunction with payment of salary to an employee under the personal services line item from the General Revenue Fund.

(b) Except during the period beginning on the effective date of this amendatory Act of the 93rd General Assembly and ending at the time of the payment of the final payroll from fiscal year 2004 appropriations, the State Comptroller shall not approve for payment any payroll voucher that (1) includes payments of salary to eligible employees in the State Employees' Retirement System of Illinois and (2) does not include the corresponding payment of State contributions to that retirement system at the full rate certified under Section 14-135.08 for that fiscal year for eligible employees, unless the balance in the fund on which the payroll voucher is drawn is insufficient to pay the total payroll voucher, or unavailable due to any limitation on appropriations that may apply, including, but not limited to, limitations on appropriations from the Road Fund under Section 8.3 of the State Finance Act. If the State Comptroller approves a payroll voucher under this Section for which the fund balance is insufficient to pay the full amount of the required State contribution to the State Employees' Retirement System, the Comptroller shall promptly so notify the Retirement System.

(b-1) For fiscal year 2010 and fiscal year 2011 only, the State Comptroller shall not approve for payment any non-General Revenue Fund payroll voucher that (1) includes payments of salary to eligible employees in
the State Employees' Retirement System of Illinois and (2) does not include the corresponding payment of State contributions to that retirement system at the full rate certified under Section 14-135.08 for that fiscal year for eligible employees, unless the balance in the fund on which the payroll voucher is drawn is insufficient to pay the total payroll voucher, or unavailable due to any limitation on appropriations that may apply, including, but not limited to, limitations on appropriations from the Road Fund under Section 8.3 of the State Finance Act. If the State Comptroller approves a payroll voucher under this Section for which the fund balance is insufficient to pay the full amount of the required State contribution to the State Employees' Retirement System of Illinois, the Comptroller shall promptly notify the retirement system.

(c) Notwithstanding any other provisions of law, beginning July 1, 2007, required State and employee contributions to the State Employees' Retirement System of Illinois relating to affected legislative staff employees shall be paid out of moneys appropriated for that purpose to the Commission on Government Forecasting and Accountability, rather than out of the lump-sum appropriations otherwise made for the payroll and other costs of those employees.

These payments must be made pursuant to payroll vouchers submitted by the employing entity as part of the regular payroll voucher process.

For the purpose of this subsection, "affected legislative staff employees" means legislative staff employees paid out of lump-sum appropriations made to the General Assembly, an Officer of the General Assembly, or the Senate Operations Commission, but does not include district-office staff or employees of legislative support services agencies.

Section 25-10. The Illinois Pension Code is amended by changing Section 14-131 as follows:

(40 ILCS 5/14-131)

Sec. 14-131. Contributions by State.

(a) The State shall make contributions to the System by appropriations of amounts which, together with other employer contributions from trust, federal, and other funds, employee contributions, investment income, and other income, will be sufficient to meet the cost of maintaining and administering the System on a 90% funded basis in accordance with actuarial recommendations.

New matter indicated by italics - deletions by strikeout
For the purposes of this Section and Section 14-135.08, references to State contributions refer only to employer contributions and do not include employee contributions that are picked up or otherwise paid by the State or a department on behalf of the employee.

(b) The Board shall determine the total amount of State contributions required for each fiscal year on the basis of the actuarial tables and other assumptions adopted by the Board, using the formula in subsection (e).

The Board shall also determine a State contribution rate for each fiscal year, expressed as a percentage of payroll, based on the total required State contribution for that fiscal year (less the amount received by the System from appropriations under Section 8.12 of the State Finance Act and Section 1 of the State Pension Funds Continuing Appropriation Act, if any, for the fiscal year ending on the June 30 immediately preceding the applicable November 15 certification deadline), the estimated payroll (including all forms of compensation) for personal services rendered by eligible employees, and the recommendations of the actuary.

For the purposes of this Section and Section 14.1 of the State Finance Act, the term "eligible employees" includes employees who participate in the System, persons who may elect to participate in the System but have not so elected, persons who are serving a qualifying period that is required for participation, and annuitants employed by a department as described in subdivision (a)(1) or (a)(2) of Section 14-111.

(c) Contributions shall be made by the several departments for each pay period by warrants drawn by the State Comptroller against their respective funds or appropriations based upon vouchers stating the amount to be so contributed. These amounts shall be based on the full rate certified by the Board under Section 14-135.08 for that fiscal year. From the effective date of this amendatory Act of the 93rd General Assembly through the payment of the final payroll from fiscal year 2004 appropriations, the several departments shall not make contributions for the remainder of fiscal year 2004 but shall instead make payments as required under subsection (a-1) of Section 14.1 of the State Finance Act. The several departments shall resume those contributions at the commencement of fiscal year 2005.

(c-1) Notwithstanding subsection (c) of this Section, for fiscal years 2010, 2012, 2013, and 2014, and 2015 only, contributions by the several departments are not required to be made for General Revenue Funds payrolls processed by the Comptroller. Payrolls paid by the several departments from all other State funds must continue to be processed pursuant to subsection (c) of this Section.

New matter indicated by italics - deletions by strikeout
(c-2) For State fiscal years 2010, 2012, 2013, and 2014, and 2015 only, on or as soon as possible after the 15th day of each month, the Board shall submit vouchers for payment of State contributions to the System, in a total monthly amount of one-twelfth of the fiscal year General Revenue Fund contribution as certified by the System pursuant to Section 14-135.08 of the Illinois Pension Code.

(d) If an employee is paid from trust funds or federal funds, the department or other employer shall pay employer contributions from those funds to the System at the certified rate, unless the terms of the trust or the federal-State agreement preclude the use of the funds for that purpose, in which case the required employer contributions shall be paid by the State. From the effective date of this amendatory Act of the 93rd General Assembly through the payment of the final payroll from fiscal year 2004 appropriations, the department or other employer shall not pay contributions for the remainder of fiscal year 2004 but shall instead make payments as required under subsection (a-1) of Section 14.1 of the State Finance Act. The department or other employer shall resume payment of contributions at the commencement of fiscal year 2005.

(e) For State fiscal years 2012 through 2045, the minimum contribution to the System to be made by the State for each fiscal year shall be an amount determined by the System to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of State fiscal year 2045. In making these determinations, the required State contribution shall be calculated each year as a level percentage of payroll over the years remaining to and including fiscal year 2045 and shall be determined under the projected unit credit actuarial cost method.

For State fiscal years 1996 through 2005, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments so that by State fiscal year 2011, the State is contributing at the rate required under this Section; except that (i) for State fiscal year 1998, for all purposes of this Code and any other law of this State, the certified percentage of the applicable employee payroll shall be 5.052% for employees earning eligible creditable service under Section 14-110 and 6.500% for all other employees, notwithstanding any contrary certification made under Section 14-135.08 before the effective date of this amendatory Act of 1997, and (ii) in the following specified State fiscal years, the State contribution to the System shall not be less than the following indicated percentages of the applicable employee payroll, even if the indicated percentage will produce a State contribution in excess of the amount
otherwise required under this subsection and subsection (a): 9.8% in FY 1999; 10.0% in FY 2000; 10.2% in FY 2001; 10.4% in FY 2002; 10.6% in FY 2003; and 10.8% in FY 2004.

Notwithstanding any other provision of this Article, the total required State contribution to the System for State fiscal year 2006 is $203,783,900.

Notwithstanding any other provision of this Article, the total required State contribution to the System for State fiscal year 2007 is $344,164,400.

For each of State fiscal years 2008 through 2009, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments from the required State contribution for State fiscal year 2007, so that by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

Notwithstanding any other provision of this Article, the total required State General Revenue Fund contribution for State fiscal year 2010 is $723,703,100 and shall be made from the proceeds of bonds sold in fiscal year 2010 pursuant to Section 7.2 of the General Obligation Bond Act, less (i) the pro rata share of bond sale expenses determined by the System's share of total bond proceeds, (ii) any amounts received from the General Revenue Fund in fiscal year 2010, and (iii) any reduction in bond proceeds due to the issuance of discounted bonds, if applicable.

Notwithstanding any other provision of this Article, the total required State General Revenue Fund contribution for State fiscal year 2011 is the amount recertified by the System on or before April 1, 2011 pursuant to Section 14-135.08 and shall be made from the proceeds of bonds sold in fiscal year 2011 pursuant to Section 7.2 of the General Obligation Bond Act, less (i) the pro rata share of bond sale expenses determined by the System's share of total bond proceeds, (ii) any amounts received from the General Revenue Fund in fiscal year 2011, and (iii) any reduction in bond proceeds due to the issuance of discounted bonds, if applicable.

Beginning in State fiscal year 2046, the minimum State contribution for each fiscal year shall be the amount needed to maintain the total assets of the System at 90% of the total actuarial liabilities of the System.

Amounts received by the System pursuant to Section 25 of the Budget Stabilization Act or Section 8.12 of the State Finance Act in any fiscal year do not reduce and do not constitute payment of any portion of the minimum State contribution required under this Article in that fiscal year. Such amounts shall not reduce, and shall not be included in the calculation of, the required State contributions under this Article in any future year until the System has reached a funding ratio of at least 90%. A reference in this Article

to the "required State contribution" or any substantially similar term does not include or apply to any amounts payable to the System under Section 25 of the Budget Stabilization Act.

Notwithstanding any other provision of this Section, the required State contribution for State fiscal year 2005 and for fiscal year 2008 and each fiscal year thereafter, as calculated under this Section and certified under Section 14-135.08, shall not exceed an amount equal to (i) the amount of the required State contribution that would have been calculated under this Section for that fiscal year if the System had not received any payments under subsection (d) of Section 7.2 of the General Obligation Bond Act, minus (ii) the portion of the State's total debt service payments for that fiscal year on the bonds issued in fiscal year 2003 for the purposes of that Section 7.2, as determined and certified by the Comptroller, that is the same as the System's portion of the total moneys distributed under subsection (d) of Section 7.2 of the General Obligation Bond Act. In determining this maximum for State fiscal years 2008 through 2010, however, the amount referred to in item (i) shall be increased, as a percentage of the applicable employee payroll, in equal increments calculated from the sum of the required State contribution for State fiscal year 2007 plus the applicable portion of the State's total debt service payments for fiscal year 2007 on the bonds issued in fiscal year 2003 for the purposes of Section 7.2 of the General Obligation Bond Act, so that, by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

(f) After the submission of all payments for eligible employees from personal services line items in fiscal year 2004 have been made, the Comptroller shall provide to the System a certification of the sum of all fiscal year 2004 expenditures for personal services that would have been covered by payments to the System under this Section if the provisions of this amendatory Act of the 93rd General Assembly had not been enacted. Upon receipt of the certification, the System shall determine the amount due to the System based on the full rate certified by the Board under Section 14-135.08 for fiscal year 2004 in order to meet the State's obligation under this Section. The System shall compare this amount due to the amount received by the System in fiscal year 2004 through payments under this Section and under Section 6z-61 of the State Finance Act. If the amount due is more than the amount received, the difference shall be termed the "Fiscal Year 2004 Shortfall" for purposes of this Section, and the Fiscal Year 2004 Shortfall shall be satisfied under Section 1.2 of the State Pension Funds Continuing Appropriation Act. If the amount due is less than the amount received, the
difference shall be termed the "Fiscal Year 2004 Overpayment" for purposes of this Section, and the Fiscal Year 2004 Overpayment shall be repaid by the System to the Pension Contribution Fund as soon as practicable after the certification.

(g) For purposes of determining the required State contribution to the System, the value of the System's assets shall be equal to the actuarial value of the System's assets, which shall be calculated as follows:

    As of June 30, 2008, the actuarial value of the System's assets shall be equal to the market value of the assets as of that date. In determining the actuarial value of the System's assets for fiscal years after June 30, 2008, any actuarial gains or losses from investment return incurred in a fiscal year shall be recognized in equal annual amounts over the 5-year period following that fiscal year.

(h) For purposes of determining the required State contribution to the System for a particular year, the actuarial value of assets shall be assumed to earn a rate of return equal to the System's actuarially assumed rate of return.

(i) After the submission of all payments for eligible employees from personal services line items paid from the General Revenue Fund in fiscal year 2010 have been made, the Comptroller shall provide to the System a certification of the sum of all fiscal year 2010 expenditures for personal services that would have been covered by payments to the System under this Section if the provisions of this amendatory Act of the 96th General Assembly had not been enacted. Upon receipt of the certification, the System shall determine the amount due to the System based on the full rate certified by the Board under Section 14-135.08 for fiscal year 2010 in order to meet the State's obligation under this Section. The System shall compare this amount due to the amount received by the System in fiscal year 2010 through payments under this Section. If the amount due is more than the amount received, the difference shall be termed the "Fiscal Year 2010 Shortfall" for purposes of this Section, and the Fiscal Year 2010 Shortfall shall be satisfied under Section 1.2 of the State Pension Funds Continuing Appropriation Act. If the amount due is less than the amount received, the difference shall be termed the "Fiscal Year 2010 Overpayment" for purposes of this Section, and the Fiscal Year 2010 Overpayment shall be repaid by the System to the General Revenue Fund as soon as practicable after the certification.

(j) After the submission of all payments for eligible employees from personal services line items paid from the General Revenue Fund in fiscal year 2011 have been made, the Comptroller shall provide to the System a certification of the sum of all fiscal year 2011 expenditures for personal

services that would have been covered by payments to the System under this Section if the provisions of this amendatory Act of the 96th General Assembly had not been enacted. Upon receipt of the certification, the System shall determine the amount due to the System based on the full rate certified by the Board under Section 14-135.08 for fiscal year 2011 in order to meet the State's obligation under this Section. The System shall compare this amount due to the amount received by the System in fiscal year 2011 through payments under this Section. If the amount due is more than the amount received, the difference shall be termed the "Fiscal Year 2011 Shortfall" for purposes of this Section, and the Fiscal Year 2011 Shortfall shall be satisfied under Section 1.2 of the State Pension Funds Continuing Appropriation Act. If the amount due is less than the amount received, the difference shall be termed the "Fiscal Year 2011 Overpayment" for purposes of this Section, and the Fiscal Year 2011 Overpayment shall be repaid by the System to the General Revenue Fund as soon as practicable after the certification.

(k) For fiscal years 2012 through 2014 only, after the submission of all payments for eligible employees from personal services line items paid from the General Revenue Fund in the fiscal year have been made, the Comptroller shall provide to the System a certification of the sum of all expenditures in the fiscal year for personal services. Upon receipt of the certification, the System shall determine the amount due to the System based on the full rate certified by the Board under Section 14-135.08 for the fiscal year in order to meet the State's obligation under this Section. The System shall compare this amount due to the amount received by the System for the fiscal year. If the amount due is more than the amount received, the difference shall be termed the "Prior Fiscal Year Shortfall" for purposes of this Section, and the Prior Fiscal Year Shortfall shall be satisfied under Section 1.2 of the State Pension Funds Continuing Appropriation Act. Sec. 14-131. Contributions by State.

(a) The State shall make contributions to the System by appropriations of amounts which, together with other employer contributions from trust, federal, and other funds, employee contributions, investment income, and other income, will be sufficient to meet the cost of maintaining and

administering the System on a 100% funded basis in accordance with actuarial recommendations by the end of State fiscal year 2044.

For the purposes of this Section and Section 14-135.08, references to State contributions refer only to employer contributions and do not include employee contributions that are picked up or otherwise paid by the State or a department on behalf of the employee.

(b) The Board shall determine the total amount of State contributions required for each fiscal year on the basis of the actuarial tables and other assumptions adopted by the Board, using the formula in subsection (e).

The Board shall also determine a State contribution rate for each fiscal year, expressed as a percentage of payroll, based on the total required State contribution for that fiscal year (less the amount received by the System from appropriations under Section 8.12 of the State Finance Act and Section 1 of the State Pension Funds Continuing Appropriation Act, if any, for the fiscal year ending on the June 30 immediately preceding the applicable November 15 certification deadline), the estimated payroll (including all forms of compensation) for personal services rendered by eligible employees, and the recommendations of the actuary.

For the purposes of this Section and Section 14.1 of the State Finance Act, the term "eligible employees" includes employees who participate in the System, persons who may elect to participate in the System but have not so elected, persons who are serving a qualifying period that is required for participation, and annuitants employed by a department as described in subdivision (a)(1) or (a)(2) of Section 14-111.

(c) Contributions shall be made by the several departments for each pay period by warrants drawn by the State Comptroller against their respective funds or appropriations based upon vouchers stating the amount to be so contributed. These amounts shall be based on the full rate certified by the Board under Section 14-135.08 for that fiscal year. From the effective date of this amendatory Act of the 93rd General Assembly through the payment of the final payroll from fiscal year 2004 appropriations, the several departments shall not make contributions for the remainder of fiscal year 2004 but shall instead make payments as required under subsection (a-1) of Section 14.1 of the State Finance Act. The several departments shall resume those contributions at the commencement of fiscal year 2005.

(c-1) Notwithstanding subsection (c) of this Section, for fiscal years 2010, 2012, 2013, and 2014, and 2015 only, contributions by the several departments are not required to be made for General Revenue Funds payrolls processed by the Comptroller. Payrolls paid by the several departments from

New matter indicated by italics - deletions by strikeout
all other State funds must continue to be processed pursuant to subsection (c) of this Section.

(c-2) For State fiscal years 2010, 2012, 2013, and 2015 only, on or as soon as possible after the 15th day of each month, the Board shall submit vouchers for payment of State contributions to the System, in a total monthly amount of one-twelfth of the fiscal year General Revenue Fund contribution as certified by the System pursuant to Section 14-135.08 of the Illinois Pension Code.

(d) If an employee is paid from trust funds or federal funds, the department or other employer shall pay employer contributions from those funds to the System at the certified rate, unless the terms of the trust or the federal-State agreement preclude the use of the funds for that purpose, in which case the required employer contributions shall be paid by the State. From the effective date of this amendatory Act of the 93rd General Assembly through the payment of the final payroll from fiscal year 2004 appropriations, the department or other employer shall not pay contributions for the remainder of fiscal year 2004 but shall instead make payments as required under subsection (a-1) of Section 14.1 of the State Finance Act. The department or other employer shall resume payment of contributions at the commencement of fiscal year 2005.

(e) For State fiscal years 2015 through 2044, the minimum contribution to the System to be made by the State for each fiscal year shall be an amount determined by the System to be equal to the sum of (1) the State's portion of the projected normal cost for that fiscal year, plus (2) an amount sufficient to bring the total assets of the System up to 100% of the total actuarial liabilities of the System by the end of State fiscal year 2044. In making these determinations, the required State contribution shall be calculated each year as a level percentage of payroll over the years remaining to and including fiscal year 2044 and shall be determined under the projected unit cost method for fiscal year 2015 and under the entry age normal actuarial cost method for fiscal years 2016 through 2044.

For State fiscal years 2012 through 2014, the minimum contribution to the System to be made by the State for each fiscal year shall be an amount determined by the System to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of State fiscal year 2045. In making these determinations, the required State contribution shall be calculated each year as a level percentage of payroll over the years remaining to and including fiscal year 2045 and shall be determined under the projected unit credit actuarial cost method.

For State fiscal years 1996 through 2005, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments so that by State fiscal year 2011, the State is contributing at the rate required under this Section; except that (i) for State fiscal year 1998, for all purposes of this Code and any other law of this State, the certified percentage of the applicable employee payroll shall be 5.052% for employees earning eligible creditable service under Section 14-110 and 6.500% for all other employees, notwithstanding any contrary certification made under Section 14-135.08 before the effective date of this amendatory Act of 1997, and (ii) in the following specified State fiscal years, the State contribution to the System shall not be less than the following indicated percentages of the applicable employee payroll, even if the indicated percentage will produce a State contribution in excess of the amount otherwise required under this subsection and subsection (a): 9.8% in FY 1999; 10.0% in FY 2000; 10.2% in FY 2001; 10.4% in FY 2002; 10.6% in FY 2003; and 10.8% in FY 2004.

Notwithstanding any other provision of this Article, the total required State contribution to the System for State fiscal year 2006 is $203,783,900.

Notwithstanding any other provision of this Article, the total required State contribution to the System for State fiscal year 2007 is $344,164,400.

For each of State fiscal years 2008 through 2009, the State contribution to the System, as a percentage of the applicable employee payroll, shall be increased in equal annual increments from the required State contribution for State fiscal year 2007, so that by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

Notwithstanding any other provision of this Article, the total required State General Revenue Fund contribution for State fiscal year 2010 is $723,703,100 and shall be made from the proceeds of bonds sold in fiscal year 2010 pursuant to Section 7.2 of the General Obligation Bond Act, less (i) the pro rata share of bond sale expenses determined by the System's share of total bond proceeds, (ii) any amounts received from the General Revenue Fund in fiscal year 2010, and (iii) any reduction in bond proceeds due to the issuance of discounted bonds, if applicable.

Notwithstanding any other provision of this Article, the total required State General Revenue Fund contribution for State fiscal year 2011 is the amount recertified by the System on or before April 1, 2011 pursuant to Section 14-135.08 and shall be made from the proceeds of bonds sold in fiscal year 2011 pursuant to Section 7.2 of the General Obligation Bond Act, less (i) the pro rata share of bond sale expenses determined by the System's...
share of total bond proceeds, (ii) any amounts received from the General Revenue Fund in fiscal year 2011, and (iii) any reduction in bond proceeds due to the issuance of discounted bonds, if applicable.

Beginning in State fiscal year 2045, the minimum State contribution for each fiscal year shall be the amount needed to maintain the total assets of the System at 100% of the total actuarial liabilities of the System.

Amounts received by the System pursuant to Section 25 of the Budget Stabilization Act or Section 8.12 of the State Finance Act in any fiscal year do not reduce and do not constitute payment of any portion of the minimum State contribution required under this Article in that fiscal year. Such amounts shall not reduce, and shall not be included in the calculation of, the required State contributions under this Article in any future year until the System has reached a funding ratio of at least 100%. A reference in this Article to the "required State contribution" or any substantially similar term does not include or apply to any amounts payable to the System under Section 25 of the Budget Stabilization Act.

Notwithstanding any other provision of this Section, the required State contribution for State fiscal year 2005 and for fiscal year 2008 and each fiscal year thereafter through State fiscal year 2014, as calculated under this Section and certified under Section 14-135.08, shall not exceed an amount equal to (i) the amount of the required State contribution that would have been calculated under this Section for that fiscal year if the System had not received any payments under subsection (d) of Section 7.2 of the General Obligation Bond Act, minus (ii) the portion of the State's total debt service payments for that fiscal year on the bonds issued in fiscal year 2003 for the purposes of that Section 7.2, as determined and certified by the Comptroller, that is the same as the System's portion of the total moneys distributed under subsection (d) of Section 7.2 of the General Obligation Bond Act. In determining this maximum for State fiscal years 2008 through 2010, however, the amount referred to in item (i) shall be increased, as a percentage of the applicable employee payroll, in equal increments calculated from the sum of the required State contribution for State fiscal year 2007 plus the applicable portion of the State's total debt service payments for fiscal year 2007 on the bonds issued in fiscal year 2003 for the purposes of Section 7.2 of the General Obligation Bond Act, so that, by State fiscal year 2011, the State is contributing at the rate otherwise required under this Section.

(f) After the submission of all payments for eligible employees from personal services line items in fiscal year 2004 have been made, the Comptroller shall provide to the System a certification of the sum of all fiscal

year 2004 expenditures for personal services that would have been covered by payments to the System under this Section if the provisions of this amendatory Act of the 93rd General Assembly had not been enacted. Upon receipt of the certification, the System shall determine the amount due to the System based on the full rate certified by the Board under Section 14-135.08 for fiscal year 2004 in order to meet the State's obligation under this Section. The System shall compare this amount due to the amount received by the System in fiscal year 2004 through payments under this Section and under Section 6z-61 of the State Finance Act. If the amount due is more than the amount received, the difference shall be termed the "Fiscal Year 2004 Shortfall" for purposes of this Section, and the Fiscal Year 2004 Shortfall shall be satisfied under Section 1.2 of the State Pension Funds Continuing Appropriation Act. If the amount due is less than the amount received, the difference shall be termed the "Fiscal Year 2004 Overpayment" for purposes of this Section, and the Fiscal Year 2004 Overpayment shall be repaid by the System to the Pension Contribution Fund as soon as practicable after the certification.

(g) For purposes of determining the required State contribution to the System, the value of the System's assets shall be equal to the actuarial value of the System's assets, which shall be calculated as follows:

As of June 30, 2008, the actuarial value of the System's assets shall be equal to the market value of the assets as of that date. In determining the actuarial value of the System's assets for fiscal years after June 30, 2008, any actuarial gains or losses from investment return incurred in a fiscal year shall be recognized in equal annual amounts over the 5-year period following that fiscal year.

(h) For purposes of determining the required State contribution to the System for a particular year, the actuarial value of assets shall be assumed to earn a rate of return equal to the System's actuarially assumed rate of return.

(i) After the submission of all payments for eligible employees from personal services line items paid from the General Revenue Fund in fiscal year 2010 have been made, the Comptroller shall provide to the System a certification of the sum of all fiscal year 2010 expenditures for personal services that would have been covered by payments to the System under this Section if the provisions of this amendatory Act of the 96th General Assembly had not been enacted. Upon receipt of the certification, the System shall determine the amount due to the System based on the full rate certified by the Board under Section 14-135.08 for fiscal year 2010 in order to meet the State's obligation under this Section. The System shall compare this
amount due to the amount received by the System in fiscal year 2010 through payments under this Section. If the amount due is more than the amount received, the difference shall be termed the "Fiscal Year 2010 Shortfall" for purposes of this Section, and the Fiscal Year 2010 Shortfall shall be satisfied under Section 1.2 of the State Pension Funds Continuing Appropriation Act. If the amount due is less than the amount received, the difference shall be termed the "Fiscal Year 2010 Overpayment" for purposes of this Section, and the Fiscal Year 2010 Overpayment shall be repaid by the System to the General Revenue Fund as soon as practicable after the certification.

(j) After the submission of all payments for eligible employees from personal services line items paid from the General Revenue Fund in fiscal year 2011 have been made, the Comptroller shall provide to the System a certification of the sum of all fiscal year 2011 expenditures for personal services that would have been covered by payments to the System under this Section if the provisions of this amendatory Act of the 96th General Assembly had not been enacted. Upon receipt of the certification, the System shall determine the amount due to the System based on the full rate certified by the Board under Section 14-135.08 for fiscal year 2011 in order to meet the State's obligation under this Section. The System shall compare this amount due to the amount received by the System in fiscal year 2011 through payments under this Section. If the amount due is more than the amount received, the difference shall be termed the "Fiscal Year 2011 Shortfall" for purposes of this Section, and the Fiscal Year 2011 Shortfall shall be satisfied under Section 1.2 of the State Pension Funds Continuing Appropriation Act. If the amount due is less than the amount received, the difference shall be termed the "Fiscal Year 2011 Overpayment" for purposes of this Section, and the Fiscal Year 2011 Overpayment shall be repaid by the System to the General Revenue Fund as soon as practicable after the certification.

(k) For fiscal years 2012 through 2014 only, after the submission of all payments for eligible employees from personal services line items paid from the General Revenue Fund in the fiscal year have been made, the Comptroller shall provide to the System a certification of the sum of all expenditures in the fiscal year for personal services. Upon receipt of the certification, the System shall determine the amount due to the System based on the full rate certified by the Board under Section 14-135.08 for the fiscal year in order to meet the State's obligation under this Section. The System shall compare this amount due to the amount received by the System for the fiscal year. If the amount due is more than the amount received, the difference shall be termed the "Prior Fiscal Year Shortfall" for purposes of this Section,
and the Prior Fiscal Year Shortfall shall be satisfied under Section 1.2 of the State Pension Funds Continuing Appropriation Act. If the amount due is less than the amount received, the difference shall be termed the "Prior Fiscal Year Overpayment" for purposes of this Section, and the Prior Fiscal Year Overpayment shall be repaid by the System to the General Revenue Fund as soon as practicable after the certification. Section 25-15. The State Pension Funds Continuing Appropriation Act is amended by changing Section 1.2 as follows:

(40 ILCS 15/1.2)

Sec. 1.2. Appropriations for the State Employees' Retirement System.
(a) From each fund from which an amount is appropriated for personal services to a department or other employer under Article 14 of the Illinois Pension Code, there is hereby appropriated to that department or other employer, on a continuing annual basis for each State fiscal year, an additional amount equal to the amount, if any, by which (1) an amount equal to the percentage of the personal services line item for that department or employer from that fund for that fiscal year that the Board of Trustees of the State Employees' Retirement System of Illinois has certified under Section 14-135.08 of the Illinois Pension Code to be necessary to meet the State's obligation under Section 14-131 of the Illinois Pension Code for that fiscal year, exceeds (2) the amounts otherwise appropriated to that department or employer from that fund for State contributions to the State Employees' Retirement System for that fiscal year. From the effective date of this amendatory Act of the 93rd General Assembly through the final payment from a department or employer's personal services line item for fiscal year 2004, payments to the State Employees' Retirement System that otherwise would have been made under this subsection (a) shall be governed by the provisions in subsection (a-1).

(a-1) If a Fiscal Year 2004 Shortfall is certified under subsection (f) of Section 14-131 of the Illinois Pension Code, there is hereby appropriated to the State Employees' Retirement System of Illinois on a continuing basis from the General Revenue Fund an additional aggregate amount equal to the Fiscal Year 2004 Shortfall.

(a-2) If a Fiscal Year 2010 Shortfall is certified under subsection (i) (g) of Section 14-131 of the Illinois Pension Code, there is hereby appropriated to the State Employees' Retirement System of Illinois on a

continuing basis from the General Revenue Fund an additional aggregate amount equal to the Fiscal Year 2010 Shortfall.

(b) The continuing appropriations provided for by this Section shall first be available in State fiscal year 1996.

(c) Beginning in Fiscal Year 2005, any continuing appropriation under this Section arising out of an appropriation for personal services from the Road Fund to the Department of State Police or the Secretary of State shall be payable from the General Revenue Fund rather than the Road Fund.

(d) For State fiscal year 2010 only, a continuing appropriation is provided to the State Employees' Retirement System equal to the amount certified by the System on or before December 31, 2008, less the gross proceeds of the bonds sold in fiscal year 2010 under the authorization contained in subsection (a) of Section 7.2 of the General Obligation Bond Act.

(e) For State fiscal year 2011 only, the continuing appropriation under this Section provided to the State Employees' Retirement System is limited to an amount equal to the amount certified by the System on or before December 31, 2009, less any amounts received pursuant to subsection (a-3) of Section 14.1 of the State Finance Act.

(f) For State fiscal year 2011 only, a continuing appropriation is provided to the State Employees' Retirement System equal to the amount certified by the System on or before April 1, 2011, less the gross proceeds of the bonds sold in fiscal year 2011 under the authorization contained in subsection (a) of Section 7.2 of the General Obligation Bond Act.

Sec. 18. Deposit of funds received under the Act.

(a) The State Treasurer shall retain all funds received under this Act, including the proceeds from the sale of abandoned property under Section 17, in a trust fund. The State Treasurer may deposit any amount in the Trust Fund into the State Pensions Fund during the fiscal year at his or her discretion; however, he or she shall, on April 15 and October 15 of each year, deposit any amount in the trust fund exceeding $2,500,000 into the State Pensions Fund. If on either April 15 or October 15, the State Treasurer determines that a balance of $2,500,000 is insufficient for the prompt payment of unclaimed

property claims authorized under this Act, the Treasurer may retain more than $2,500,000 in the Unclaimed Property Trust Fund in order to ensure the prompt payment of claims. Beginning in State fiscal year 2015, all amounts that are deposited into the State Pensions Fund from the Unclaimed Property Trust Fund shall be apportioned to the designated retirement systems as provided in subsection (c-6) of Section 8.12 of the State Finance Act to reduce their actuarial reserve deficiencies. He or she shall make prompt payment of claims he or she duly allows as provided for in this Act for the trust fund. Before making the deposit the State Treasurer shall record the name and last known address of each person appearing from the holders' reports to be entitled to the abandoned property. The record shall be available for public inspection during reasonable business hours.

(b) Before making any deposit to the credit of the State Pensions Fund, the State Treasurer may deduct: (1) any costs in connection with sale of abandoned property, (2) any costs of mailing and publication in connection with any abandoned property, and (3) any costs in connection with the maintenance of records or disposition of claims made pursuant to this Act. The State Treasurer shall semiannually file an itemized report of all such expenses with the Legislative Audit Commission.
