(305 ILCS 5/5-5) (from Ch. 23, par. 5-5)

Sec. 5-5. Medical services. The Illinois Department, by rule, shall determine the quantity and quality of and the rate of reimbursement for the medical assistance for which payment will be authorized, and the medical services to be provided, which may include all or part of the following: (1) inpatient hospital services; (2) outpatient hospital services; (3) other laboratory and X-ray services; (4) skilled nursing home services; (5) physicians' services whether furnished in the office, the patient's home, a

hospital, a skilled nursing home, or elsewhere; (6) medical care, or any other type of remedial care furnished by licensed practitioners; (7) home health care services; (8) private duty nursing service; (9) clinic services; (10) dental services, including prevention and treatment of periodontal disease and dental caries disease for pregnant women, provided by an individual licensed to practice dentistry or dental surgery; for purposes of this item (10), "dental services" means diagnostic, preventive, or corrective procedures provided by or under the supervision of a dentist in the practice of his or her profession; (11) physical therapy and related services; (12) prescribed drugs, dentures, and prosthetic devices; and eyeglasses prescribed by a physician skilled in the diseases of the eye, or by an optometrist, whichever the person may select; (13) other diagnostic, screening, preventive, and rehabilitative services, including to ensure that the individual's need for intervention or treatment of mental disorders or substance use disorders or co-occurring mental health and substance use disorders is determined using a uniform screening, assessment, and evaluation process inclusive of criteria, for children and adults; for purposes of this item (13), a uniform screening, assessment, and evaluation process refers to a process that includes an appropriate evaluation and, as warranted, a referral; "uniform" does not mean the use of a singular instrument, tool, or process that all must utilize; (14) transportation and such other expenses as may be necessary; (15) medical treatment of sexual assault survivors, as defined in Section 1a of the Sexual Assault Survivors Emergency Treatment Act, for injuries sustained as a result of the sexual assault, including examinations and laboratory tests to discover evidence which may be used in criminal proceedings arising from the sexual assault; (16) the diagnosis and treatment of sickle cell anemia; and (17) any other medical care, and any other type of remedial care recognized under the laws of this State, but not including abortions, or induced miscarriages or premature births, unless, in the opinion of a physician, such procedures are necessary for the preservation of the life of the woman seeking such treatment, or except an induced premature birth intended to produce a live viable child and such procedure is necessary for the health of the mother or her unborn child. The Illinois Department, by rule, shall prohibit any physician from providing medical assistance to anyone eligible therefor under this Code where such physician has been found guilty of performing an abortion procedure in a wilful and wanton manner upon a woman who was not pregnant at the time such abortion procedure was performed. The term "any other type of
remedial care" shall include nursing care and nursing home service for persons who rely on treatment by spiritual means alone through prayer for healing.

Notwithstanding any other provision of this Section, a comprehensive tobacco use cessation program that includes purchasing prescription drugs or prescription medical devices approved by the Food and Drug Administration shall be covered under the medical assistance program under this Article for persons who are otherwise eligible for assistance under this Article.

Notwithstanding any other provision of this Code, the Illinois Department may not require, as a condition of payment for any laboratory test authorized under this Article, that a physician's handwritten signature appear on the laboratory test order form. The Illinois Department may, however, impose other appropriate requirements regarding laboratory test order documentation.

Upon receipt of federal approval of an amendment to the Illinois Title XIX State Plan for this purpose, the Department shall authorize the Chicago Public Schools (CPS) to procure a vendor or vendors to manufacture eyeglasses for individuals enrolled in a school within the CPS system. CPS shall ensure that its vendor or vendors are enrolled as providers in the medical assistance program and in any capitated Medicaid managed care entity (MCE) serving individuals enrolled in a school within the CPS system. Under any contract procured under this provision, the vendor or vendors must serve only individuals enrolled in a school within the CPS system. Claims for services provided by CPS's vendor or vendors to recipients of benefits in the medical assistance program under this Code, the Children's Health Insurance Program, or the Covering ALL KIDS Health Insurance Program shall be submitted to the Department or the MCE in which the individual is enrolled for payment and shall be reimbursed at the Department's or the MCE's established rates or rate methodologies for eyeglasses.

On and after July 1, 2012, the Department of Healthcare and Family Services may provide the following services to persons eligible for assistance under this Article who are participating in education, training or employment programs operated by the Department of Human Services as successor to the Department of Public Aid:

(1) dental services provided by or under the supervision of a dentist; and

New matter indicated by italics - deletions by strikeout
(2) eyeglasses prescribed by a physician skilled in the
diseases of the eye, or by an optometrist, whichever the person may
select.

Notwithstanding any other provision of this Code and subject to
federal approval, the Department may adopt rules to allow a dentist who is
volunteering his or her service at no cost to render dental services through
an enrolled not-for-profit health clinic without the dentist personally
enrolling as a participating provider in the medical assistance program. A
not-for-profit health clinic shall include a public health clinic or Federally
Qualified Health Center or other enrolled provider, as determined by the
Department, through which dental services covered under this Section are
performed. The Department shall establish a process for payment of claims
for reimbursement for covered dental services rendered under this
provision.

The Illinois Department, by rule, may distinguish and classify the
medical services to be provided only in accordance with the classes of
persons designated in Section 5-2.

The Department of Healthcare and Family Services must provide
coverage and reimbursement for amino acid-based elemental formulas,
regardless of delivery method, for the diagnosis and treatment of (i)
eosinophilic disorders and (ii) short bowel syndrome when the prescribing
physician has issued a written order stating that the amino acid-based
elemental formula is medically necessary.

The Illinois Department shall authorize the provision of, and shall
authorize payment for, screening by low-dose mammography for the
presence of occult breast cancer for women 35 years of age or older who
are eligible for medical assistance under this Article, as follows:

(A) A baseline mammogram for women 35 to 39 years of
age.

(B) An annual mammogram for women 40 years of age or
older.

(C) A mammogram at the age and intervals considered
medically necessary by the woman's health care provider for
women under 40 years of age and having a family history of breast
cancer, prior personal history of breast cancer, positive genetic
testing, or other risk factors.

(D) A comprehensive ultrasound screening of an entire
breast or breasts if a mammogram demonstrates heterogeneous or

dense breast tissue, when medically necessary as determined by a physician licensed to practice medicine in all of its branches.

(E) A screening MRI when medically necessary, as determined by a physician licensed to practice medicine in all of its branches.

All screenings shall include a physical breast exam, instruction on self-examination and information regarding the frequency of self-examination and its value as a preventative tool. For purposes of this Section, "low-dose mammography" means the x-ray examination of the breast using equipment dedicated specifically for mammography, including the x-ray tube, filter, compression device, and image receptor, with an average radiation exposure delivery of less than one rad per breast for 2 views of an average size breast. The term also includes digital mammography and includes breast tomosynthesis. As used in this Section, the term "breast tomosynthesis" means a radiologic procedure that involves the acquisition of projection images over the stationary breast to produce cross-sectional digital three-dimensional images of the breast. If, at any time, the Secretary of the United States Department of Health and Human Services, or its successor agency, promulgates rules or regulations to be published in the Federal Register or publishes a comment in the Federal Register or issues an opinion, guidance, or other action that would require the State, pursuant to any provision of the Patient Protection and Affordable Care Act (Public Law 111-148), including, but not limited to, 42 U.S.C. 18031(d)(3)(B) or any successor provision, to defray the cost of any coverage for breast tomosynthesis outlined in this paragraph, then the requirement that an insurer cover breast tomosynthesis is inoperative other than any such coverage authorized under Section 1902 of the Social Security Act, 42 U.S.C. 1396a, and the State shall not assume any obligation for the cost of coverage for breast tomosynthesis set forth in this paragraph.

On and after January 1, 2016, the Department shall ensure that all networks of care for adult clients of the Department include access to at least one breast imaging Center of Imaging Excellence as certified by the American College of Radiology.

On and after January 1, 2012, providers participating in a quality improvement program approved by the Department shall be reimbursed for screening and diagnostic mammography at the same rate as the Medicare program's rates, including the increased reimbursement for digital mammography.

New matter indicated by italics - deletions by strikeout
The Department shall convene an expert panel including representatives of hospitals, free-standing mammography facilities, and doctors, including radiologists, to establish quality standards for mammography.

On and after January 1, 2017, providers participating in a breast cancer treatment quality improvement program approved by the Department shall be reimbursed for breast cancer treatment at a rate that is no lower than 95% of the Medicare program's rates for the data elements included in the breast cancer treatment quality program.

The Department shall convene an expert panel, including representatives of hospitals, free standing breast cancer treatment centers, breast cancer quality organizations, and doctors, including breast surgeons, reconstructive breast surgeons, oncologists, and primary care providers to establish quality standards for breast cancer treatment.

Subject to federal approval, the Department shall establish a rate methodology for mammography at federally qualified health centers and other encounter-rate clinics. These clinics or centers may also collaborate with other hospital-based mammography facilities. By January 1, 2016, the Department shall report to the General Assembly on the status of the provision set forth in this paragraph.

The Department shall establish a methodology to remind women who are age-appropriate for screening mammography, but who have not received a mammogram within the previous 18 months, of the importance and benefit of screening mammography. The Department shall work with experts in breast cancer outreach and patient navigation to optimize these reminders and shall establish a methodology for evaluating their effectiveness and modifying the methodology based on the evaluation.

The Department shall establish a performance goal for primary care providers with respect to their female patients over age 40 receiving an annual mammogram. This performance goal shall be used to provide additional reimbursement in the form of a quality performance bonus to primary care providers who meet that goal.

The Department shall devise a means of case-managing or patient navigation for beneficiaries diagnosed with breast cancer. This program shall initially operate as a pilot program in areas of the State with the highest incidence of mortality related to breast cancer. At least one pilot program site shall be in the metropolitan Chicago area and at least one site shall be outside the metropolitan Chicago area. On or after July 1, 2016, the pilot program shall be expanded to include one site in western Illinois.

New matter indicated by italics - deletions by strikeout
one site in southern Illinois, one site in central Illinois, and 4 sites within metropolitan Chicago. An evaluation of the pilot program shall be carried out measuring health outcomes and cost of care for those served by the pilot program compared to similarly situated patients who are not served by the pilot program.

The Department shall require all networks of care to develop a means either internally or by contract with experts in navigation and community outreach to navigate cancer patients to comprehensive care in a timely fashion. The Department shall require all networks of care to include access for patients diagnosed with cancer to at least one academic commission on cancer-accredited cancer program as an in-network covered benefit.

Any medical or health care provider shall immediately recommend, to any pregnant woman who is being provided prenatal services and is suspected of drug abuse or is addicted as defined in the Alcoholism and Other Drug Abuse and Dependency Act, referral to a local substance abuse treatment provider licensed by the Department of Human Services or to a licensed hospital which provides substance abuse treatment services. The Department of Healthcare and Family Services shall assure coverage for the cost of treatment of the drug abuse or addiction for pregnant recipients in accordance with the Illinois Medicaid Program in conjunction with the Department of Human Services.

All medical providers providing medical assistance to pregnant women under this Code shall receive information from the Department on the availability of services under the Drug Free Families with a Future or any comparable program providing case management services for addicted women, including information on appropriate referrals for other social services that may be needed by addicted women in addition to treatment for addiction.

The Illinois Department, in cooperation with the Departments of Human Services (as successor to the Department of Alcoholism and Substance Abuse) and Public Health, through a public awareness campaign, may provide information concerning treatment for alcoholism and drug abuse and addiction, prenatal health care, and other pertinent programs directed at reducing the number of drug-affected infants born to recipients of medical assistance.

Neither the Department of Healthcare and Family Services nor the Department of Human Services shall sanction the recipient solely on the basis of her substance abuse.

The Illinois Department shall establish such regulations governing the dispensing of health services under this Article as it shall deem appropriate. Implementation of this Section may be by demonstration projects in certain geographic areas. The Partnership shall be represented by a sponsor organization. The Department, by rule, shall develop qualifications for sponsors of Partnerships. Nothing in this Section shall be construed to require that the sponsor organization be a medical organization.

The sponsor must negotiate formal written contracts with medical providers for physician services, inpatient and outpatient hospital care, home health services, treatment for alcoholism and substance abuse, and other services determined necessary by the Illinois Department by rule for delivery by Partnerships. Physician services must include prenatal and obstetrical care. Nothing in this Section shall limit the free choice of practitioners, hospitals, and other providers of medical services by clients. The rules and regulations shall require that proof of the receipt of prescription drugs, dentures, prosthetic devices and eyeglasses by eligible persons under this Section accompany each claim for reimbursement submitted by the dispenser of such medical services. No such claims for reimbursement shall be approved for payment by the Illinois Department without such proof of receipt, unless the Illinois Department shall have put into effect and shall be operating a system of post-payment audit and review which shall, on a sampling basis, be deemed adequate by the Illinois Department to assure that such drugs, dentures, prosthetic devices and eyeglasses for which payment is being made are actually being received by eligible

This statement shall indicate what procedures were used in providing such medical services.

Notwithstanding any other law to the contrary, the Illinois Department shall, within 365 days after July 22, 2013 (the effective date of Public Act 98-104), establish procedures to permit skilled care facilities licensed under the Nursing Home Care Act to submit monthly billing claims for reimbursement purposes. Following development of these procedures, the Department shall, by July 1, 2016, test the viability of the new system and implement any necessary operational or structural changes to its information technology platforms in order to allow for the direct acceptance and payment of nursing home claims.

The Illinois Department may require that all dispensers of medical services desiring to participate in the medical assistance program established under this Article disclose, under such terms and conditions as the Illinois Department may by rule establish, all inquiries from clients and attorneys regarding medical bills paid by the Illinois Department, which inquiries could indicate potential existence of claims or liens for the Illinois Department.

Enrollment of a vendor shall be subject to a provisional period and shall be conditional for one year. During the period of conditional enrollment, the Department may terminate the vendor's eligibility to participate in, or may disenroll the vendor from, the medical assistance program without cause. Unless otherwise specified, such termination of eligibility or disenrollment is not subject to the Department's hearing process. However, a disenrolled vendor may reapply without penalty.

The Department has the discretion to limit the conditional enrollment period for vendors based upon category of risk of the vendor.

Prior to enrollment and during the conditional enrollment period in the medical assistance program, all vendors shall be subject to enhanced oversight, screening, and review based on the risk of fraud, waste, and abuse that is posed by the category of risk of the vendor. The Illinois Department shall establish the procedures for oversight, screening, and review, which may include, but need not be limited to: criminal and financial background checks; fingerprinting; license, certification, and authorization verifications; unscheduled or unannounced site visits; database checks; prepayment audit reviews; audits; payment caps; payment suspensions; and other screening as required by federal or State law.

(2) In the case of errors attributable to the Illinois Department or any of its claims processing intermediaries which result in an inability to receive, process, or adjudicate a claim, the 180-day period shall not begin until the provider has been notified of the error.

(3) In the case of a provider for whom the Illinois Department initiates the monthly billing process.

(4) In the case of a provider operated by a unit of local government with a population exceeding 3,000,000 when local government funds finance federal participation for claims payments.

For claims for which the Illinois Department is not the primary payer, claims must be submitted to the Illinois Department within 180 days after the final adjudication by the primary payer.

Such rules shall provide, but not be limited to, the following services: (1) immediate repair or replacement of such devices by recipients; and (2) rental, lease, purchase or lease-purchase of durable medical equipment in a cost-effective manner, taking into consideration the recipient's medical prognosis, the extent of the recipient's needs, and the requirements and costs for maintaining such equipment. Subject to prior approval, such rules shall enable a recipient to temporarily acquire and use alternative or substitute devices or equipment pending repairs or replacements of any device or equipment previously authorized for such recipient by the Department. Notwithstanding any provision of Section 5-5f to the contrary, the Department may, by rule, exempt certain replacement wheelchair parts from prior approval and, for wheelchairs, wheelchair parts, wheelchair accessories, and related seating and positioning items, determine the wholesale price by methods other than actual acquisition costs.

In order to select the minimum level of care eligibility criteria, the Governor shall establish a workgroup that includes affected agency representatives and stakeholders representing the institutional and home and community-based long term care interests. This Section shall not restrict the Department from implementing lower level of care eligibility criteria for community-based services in circumstances where federal approval has been granted.

The Illinois Department shall develop and operate, in cooperation with other State Departments and agencies and in compliance with applicable federal laws and regulations, appropriate and effective systems of health care evaluation and programs for monitoring of utilization of health care services and facilities, as it affects persons eligible for medical assistance under this Code.

Such person shall not charge in addition to the rental rate, taxes, mileage charge, and airport concession charge, if any, any fee which must be paid by the renter as a condition of hiring or leasing the vehicle, such as, but not limited to, required fuel or airport surcharges, nor any fee for transporting the renter to the location where the rented vehicle will be delivered to the renter. In addition to the rental rate, taxes, mileage charge, and airport concession charge, if any, such person may charge for an item or service provided in connection with a particular rental transaction if the renter can avoid incurring the charge by choosing not to obtain or utilize the optional item or service. Items and services for which such person may impose an additional charge include, but are not limited to, optional insurance and accessories requested by the renter, service charges incident to the renter's optional return of the vehicle to a location other than the location where the vehicle was hired or leased, and charges for refueling the vehicle at the conclusion of the rental transaction in the event the renter did not return the vehicle with as much fuel as was in the fuel tank at the beginning of the rental. (j) A public airport may, if approved by its local government corporate authorities or its airport authority, impose a customer facility charge upon customers of rental car companies for the purposes of financing, designing, constructing, operating, and maintaining consolidated car rental facilities and common use transportation equipment and facilities, which are used to transport the customer, connecting consolidated car rental facilities with other airport facilities.

Notwithstanding subsection (f) of this Section, the customer facility charge shall be collected by the rental car company as a separate charge, and clearly indicated as a separate charge on the rental agreement and invoice. Facility charges shall be immediately deposited into a trust account for the benefit of the airport and remitted at the direction of the airport, but not more often than once per month. (2) Clearly and conspicuously disclose in any print rate advertising the existence and amount of the charge if the advertisement is intended for rentals at an airport imposing the charge or, if the print rate advertisement covers an area with multiple airports with different charges, a range of amounts of customer facility charges if the advertisement is intended for rentals at an airport imposing the charge.

(4) Clearly and conspicuously display the charge in any proprietary computer-assisted reservation or transaction directly between the rental car company and the customer, shown or referenced on the same page on the computer screen viewed by the customer as the displayed rental rate and in a print size not smaller than the print size of the rental rate.

(5) Clearly and conspicuously disclose and separately identify the existence and amount of the charge on its rental agreement.

(6) A rental car company that collects from its customers a customer facility charge under subsection (j) and engages in a practice which does not comply with subsections (f), (j), and (k) commits an unlawful practice within the meaning of the Consumer Fraud and Deceptive Business Practices Act.

The licensee shall transfer ownership of the vehicle to the renter within 20 calendar days of the agreed-upon date of completion of the rental-purchase agreement. If the licensee fails to transfer ownership of the vehicle to the renter within the 20 calendar days, then the renter may apply for the vehicle's title to the Secretary of State by providing the Secretary the rental-purchase agreement, an application for title, the required title fee, and any other documentation the Secretary deems necessary to determine ownership of the vehicle. For purposes of this subsection (l-5), "rental-purchase agreement" has the meaning set forth in Section 1 of the Rental-Purchase Agreement Act.

The Department shall, before suspending, revoking, placing on probationary status, or taking any other disciplinary action as the Department may deem proper with regard to any license, at least 30 days prior to the date set for the hearing, notify the applicant or licensee in writing of any charges made and the time and place for a hearing of the charges before the Disciplinary Board, direct him or her to file his or her written answer thereto to the Disciplinary Board under oath within 20 days after the service on him or her of such notice and inform him or her that if he or she fails to file such answer default will be taken against him or her and his or her license may be suspended, revoked, placed on probationary status, or have other disciplinary action, including limiting the scope, nature or extent of his or her practice, as the Department may deem proper taken with regard thereto. Written or electronic notice may be served by personal delivery, email, or certified or registered mail to the applicant or licensee at his or her last address of record or email address of record with the Department. At the time and place fixed in the notice, the Department shall proceed to hear the charges and the parties or their counsel shall be accorded ample opportunity to present such statements, testimony, evidence, and argument as may be pertinent to the charges or to the defense thereto. The Department may continue such hearing from time to time. Sec. 22.6. At the conclusion of the hearing, the Disciplinary Board shall present to the Secretary a written report of its findings of fact, conclusions of law, and recommendations. The report shall contain a finding whether or not the accused person violated this Act or failed to comply with the conditions required in this Act. The Disciplinary Board shall specify the nature of the violation or failure to comply, and shall make its recommendations to the Secretary.

The report of findings of fact, conclusions of law, and recommendation of the Disciplinary Board shall be the basis for the Department's order or refusal or for the granting of a license or permit. If the Secretary disagrees in any regard with the report of the Disciplinary Board, the Secretary may issue an order in contravention thereof. The Secretary shall provide a written report to the Disciplinary Board on any deviation, and shall specify with particularity the reasons for such action in the final order. The finding is not admissible in evidence against the person in a criminal prosecution brought for the violation of this Act, but the hearing and finding are not a bar to a criminal prosecution brought for the violation of this Act.

Sec. 22.7. Hearing officer. Notwithstanding the provisions of Section 22.2 of this Act, the Secretary shall have the authority to appoint any attorney duly licensed to practice law in the State of Illinois to serve as the hearing officer in any action for refusal to issue or renew, or for discipline of, a license. The Secretary shall notify the Disciplinary Board of any such appointment. The hearing officer shall have full authority to conduct the hearing. The hearing officer shall report his or her findings of fact, conclusions of law, and recommendations to the Disciplinary Board and the Secretary. The Disciplinary Board shall have 60 days from receipt of the report to review the report of the hearing officer and present their findings of fact, conclusions of law, and recommendations to the Secretary. If the Disciplinary Board fails to present its report within the 60-day period, the respondent may request in writing a direct appeal to the Secretary, in which case the Secretary shall, within 7 calendar days after the request, issue an order directing the Disciplinary Board to

issue its findings of fact, conclusions of law, and recommendations to the Secretary within 30 calendar days after such order. If the Disciplinary Board fails to issue its findings of fact, conclusions of law, and recommendations within that time frame to the Secretary after the entry of such order, the Secretary shall, within 30 calendar days thereafter, issue an order based upon the report of the hearing officer and the record of the proceedings or issue an order remanding the matter back to the hearing officer for additional proceedings in accordance with the order. If (i) a direct appeal is requested, (ii) the Disciplinary Board fails to issue its findings of fact, conclusions of law, and recommendations within the 30-day mandate from the Secretary or the Secretary fails to order the Disciplinary Board to do so, and (iii) the Secretary fails to issue an order within 30 calendar days thereafter, then the hearing officer's report is deemed accepted and a final decision of the Secretary. Notwithstanding any other provision of this Section, if the Secretary, upon review, determines that substantial justice has not been done in the revocation, suspension, or refusal to issue or renew a license or other disciplinary action taken as the result of the entry of the hearing officer's report, the Secretary may order a rehearing by the same or other examiners. If the Secretary disagrees in any regard with the report of the Disciplinary Board or hearing officer, he or she may issue an order in contravention thereof. The Secretary shall provide a written explanation to the Disciplinary Board on any such deviation, and shall specify with particularity the reasons for such action in the final order.

PUBLIC ACT 100-0460
(Senate Bill No. 1761)

AN ACT concerning criminal law.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Criminal Code of 2012 is amended by changing Sections 9-1 and 9-2 as follows:

(720 ILCS 5/9-1) (from Ch. 38, par. 9-1)
Sec. 9-1. First degree Murder - Death penalties - Exceptions - Separate Hearings - Proof - Findings - Appellate procedures - Reversals.
(a) A person who kills an individual without lawful justification commits first degree murder if, in performing the acts which cause the death:

New matter indicated by italics - deletions by strikeout
(1) he either intends to kill or do great bodily harm to that individual or another, or knows that such acts will cause death to that individual or another; or
(2) he knows that such acts create a strong probability of death or great bodily harm to that individual or another; or
(3) he is attempting or committing a forcible felony other than second degree murder.

(b) Aggravating Factors. A defendant who at the time of the commission of the offense has attained the age of 18 or more and who has been found guilty of first degree murder may be sentenced to death if:

(1) the murdered individual was a peace officer or fireman killed in the course of performing his official duties, to prevent the performance of his official duties, or in retaliation for performing his official duties, and the defendant knew or should have known that the murdered individual was a peace officer or fireman; or
(2) the murdered individual was an employee of an institution or facility of the Department of Corrections, or any similar local correctional agency, killed in the course of performing his official duties, to prevent the performance of his official duties, or in retaliation for performing his official duties, or the murdered individual was an inmate at such institution or facility and was killed on the grounds thereof, or the murdered individual was otherwise present in such institution or facility with the knowledge and approval of the chief administrative officer thereof; or
(3) the defendant has been convicted of murdering two or more individuals under subsection (a) of this Section or under any law of the United States or of any state which is substantially similar to subsection (a) of this Section regardless of whether the deaths occurred as the result of the same act or of several related or unrelated acts so long as the deaths were the result of either an intent to kill more than one person or of separate acts which the defendant knew would cause death or create a strong probability of death or great bodily harm to the murdered individual or another; or
(4) the murdered individual was killed as a result of the hijacking of an airplane, train, ship, bus or other public conveyance; or
(5) the defendant committed the murder pursuant to a contract, agreement or understanding by which he was to receive

money or anything of value in return for committing the murder or procured another to commit the murder for money or anything of value; or

(6) the murdered individual was killed in the course of another felony if:

(a) the murdered individual:
   (i) was actually killed by the defendant, or
   (ii) received physical injuries personally inflicted by the defendant substantially contemporaneously with physical injuries caused by one or more persons for whose conduct the defendant is legally accountable under Section 5-2 of this Code, and the physical injuries inflicted by either the defendant or the other person or persons for whose conduct he is legally accountable caused the death of the murdered individual; and

(b) in performing the acts which caused the death of the murdered individual or which resulted in physical injuries personally inflicted by the defendant on the murdered individual under the circumstances of subdivision (ii) of subparagraph (a) of paragraph (6) of subsection (b) of this Section, the defendant acted with the intent to kill the murdered individual or with the knowledge that his acts created a strong probability of death or great bodily harm to the murdered individual or another; and

(c) the other felony was an inherently violent crime or the attempt to commit an inherently violent crime. In this subparagraph (c), "inherently violent crime" includes, but is not limited to, armed robbery, robbery, predatory criminal sexual assault of a child, aggravated criminal sexual assault, aggravated kidnapping, aggravated vehicular hijacking, aggravated arson, aggravated stalking, residential burglary, and home invasion; or

(7) the murdered individual was under 12 years of age and the death resulted from exceptionally brutal or heinous behavior indicative of wanton cruelty; or

(8) the defendant committed the murder with intent to prevent the murdered individual from testifying or participating in any criminal investigation or prosecution or giving material
assistance to the State in any investigation or prosecution, either against the defendant or another; or the defendant committed the murder because the murdered individual was a witness in any prosecution or gave material assistance to the State in any investigation or prosecution, either against the defendant or another; for purposes of this paragraph (8), "participating in any criminal investigation or prosecution" is intended to include those appearing in the proceedings in any capacity such as trial judges, prosecutors, defense attorneys, investigators, witnesses, or jurors; or

(9) the defendant, while committing an offense punishable under Sections 401, 401.1, 401.2, 405, 405.2, 407 or 407.1 or subsection (b) of Section 404 of the Illinois Controlled Substances Act, or while engaged in a conspiracy or solicitation to commit such offense, intentionally killed an individual or counseled, commanded, induced, procured or caused the intentional killing of the murdered individual; or

(10) the defendant was incarcerated in an institution or facility of the Department of Corrections at the time of the murder, and while committing an offense punishable as a felony under Illinois law, or while engaged in a conspiracy or solicitation to commit such offense, intentionally killed an individual or counseled, commanded, induced, procured or caused the intentional killing of the murdered individual; or

(11) the murder was committed in a cold, calculated and premeditated manner pursuant to a preconceived plan, scheme or design to take a human life by unlawful means, and the conduct of the defendant created a reasonable expectation that the death of a human being would result therefrom; or

(12) the murdered individual was an emergency medical technician - ambulance, emergency medical technician - intermediate, emergency medical technician - paramedic, ambulance driver, or other medical assistance or first aid personnel, employed by a municipality or other governmental unit, killed in the course of performing his official duties, to prevent the performance of his official duties, or in retaliation for performing his official duties, and the defendant knew or should have known that the murdered individual was an emergency medical technician - ambulance, emergency medical technician - intermediate,

emergency medical technician - paramedic, ambulance driver, or other medical assistance or first aid personnel; or

(13) the defendant was a principal administrator, organizer, or leader of a calculated criminal drug conspiracy consisting of a hierarchical position of authority superior to that of all other members of the conspiracy, and the defendant counseled, commanded, induced, procured, or caused the intentional killing of the murdered person; or

(14) the murder was intentional and involved the infliction of torture. For the purpose of this Section torture means the infliction of or subjection to extreme physical pain, motivated by an intent to increase or prolong the pain, suffering or agony of the victim; or

(15) the murder was committed as a result of the intentional discharge of a firearm by the defendant from a motor vehicle and the victim was not present within the motor vehicle; or

(16) the murdered individual was 60 years of age or older and the death resulted from exceptionally brutal or heinous behavior indicative of wanton cruelty; or

(17) the murdered individual was a person with a disability and the defendant knew or should have known that the murdered individual was a person with a disability. For purposes of this paragraph (17), "person with a disability" means a person who suffers from a permanent physical or mental impairment resulting from disease, an injury, a functional disorder, or a congenital condition that renders the person incapable of adequately providing for his or her own health or personal care; or

(18) the murder was committed by reason of any person's activity as a community policing volunteer or to prevent any person from engaging in activity as a community policing volunteer; or

(20) the murdered individual was known by the defendant to be a teacher or other person employed in any school and the teacher or other employee is upon the grounds of a school or grounds adjacent to a school, or is in any part of a building used for school purposes; or

New matter indicated by italics - deletions by strikeout
(21) the murder was committed by the defendant in connection with or as a result of the offense of terrorism as defined in Section 29D-14.9 of this Code.

(b-5) Aggravating Factor; Natural Life Imprisonment. A defendant who has been found guilty of first degree murder and who at the time of the commission of the offense had attained the age of 18 years or more may be sentenced to natural life imprisonment if (i) the murdered individual was a physician, physician assistant, psychologist, nurse, or advanced practice nurse, (ii) the defendant knew or should have known that the murdered individual was a physician, physician assistant, psychologist, nurse, or advanced practice nurse, and (iii) the murdered individual was killed in the course of acting in his or her capacity as a physician, physician assistant, psychologist, nurse, or advanced practice nurse, or to prevent him or her from acting in that capacity, or in retaliation for his or her acting in that capacity.

(c) Consideration of factors in Aggravation and Mitigation. The court shall consider, or shall instruct the jury to consider any aggravating and any mitigating factors which are relevant to the imposition of the death penalty. Aggravating factors may include but need not be limited to those factors set forth in subsection (b). Mitigating factors may include but need not be limited to the following:

(1) the defendant has no significant history of prior criminal activity;
(2) the murder was committed while the defendant was under the influence of extreme mental or emotional disturbance, although not such as to constitute a defense to prosecution;
(3) the murdered individual was a participant in the defendant's homicidal conduct or consented to the homicidal act;
(4) the defendant acted under the compulsion of threat or menace of the imminent infliction of death or great bodily harm;
(5) the defendant was not personally present during commission of the act or acts causing death;
(6) the defendant's background includes a history of extreme emotional or physical abuse;
(7) the defendant suffers from a reduced mental capacity.

Provided, however, that an action that does not otherwise mitigate first degree murder cannot qualify as a mitigating factor for first degree murder because of the discovery, knowledge, or disclosure of the victim's
sexual orientation as defined in Section 1-103 of the Illinois Human Rights Act.

(d) Separate sentencing hearing.
Where requested by the State, the court shall conduct a separate sentencing proceeding to determine the existence of factors set forth in subsection (b) and to consider any aggravating or mitigating factors as indicated in subsection (c). The proceeding shall be conducted:

1. before the jury that determined the defendant's guilt; or
2. before a jury impanelled for the purpose of the proceeding if:
   A. the defendant was convicted upon a plea of guilty; or
   B. the defendant was convicted after a trial before the court sitting without a jury; or
   C. the court for good cause shown discharges the jury that determined the defendant's guilt; or
3. before the court alone if the defendant waives a jury for the separate proceeding.

(e) Evidence and Argument.
During the proceeding any information relevant to any of the factors set forth in subsection (b) may be presented by either the State or the defendant under the rules governing the admission of evidence at criminal trials. Any information relevant to any additional aggravating factors or any mitigating factors indicated in subsection (c) may be presented by the State or defendant regardless of its admissibility under the rules governing the admission of evidence at criminal trials. The State and the defendant shall be given fair opportunity to rebut any information received at the hearing.

(f) Proof.
The burden of proof of establishing the existence of any of the factors set forth in subsection (b) is on the State and shall not be satisfied unless established beyond a reasonable doubt.

(g) Procedure - Jury.
If at the separate sentencing proceeding the jury finds that none of the factors set forth in subsection (b) exists, the court shall sentence the defendant to a term of imprisonment under Chapter V of the Unified Code of Corrections. If there is a unanimous finding by the jury that one or more of the factors set forth in subsection (b) exist, the jury shall consider aggravating and mitigating factors as instructed by the court and shall

New matter indicated by italics - deletions by strikeout
determine whether the sentence of death shall be imposed. If the jury determines unanimously, after weighing the factors in aggravation and mitigation, that death is the appropriate sentence, the court shall sentence the defendant to death. If the court does not concur with the jury determination that death is the appropriate sentence, the court shall set forth reasons in writing including what facts or circumstances the court relied upon, along with any relevant documents, that compelled the court to non-concur with the sentence. This document and any attachments shall be part of the record for appellate review. The court shall be bound by the jury's sentencing determination.

If after weighing the factors in aggravation and mitigation, one or more jurors determines that death is not the appropriate sentence, the court shall sentence the defendant to a term of imprisonment under Chapter V of the Unified Code of Corrections.

(h) Procedure - No Jury.

In a proceeding before the court alone, if the court finds that none of the factors found in subsection (b) exists, the court shall sentence the defendant to a term of imprisonment under Chapter V of the Unified Code of Corrections.

If the Court determines that one or more of the factors set forth in subsection (b) exists, the Court shall consider any aggravating and mitigating factors as indicated in subsection (c). If the Court determines, after weighing the factors in aggravation and mitigation, that death is the appropriate sentence, the Court shall sentence the defendant to death.

If the court finds that death is not the appropriate sentence, the court shall sentence the defendant to a term of imprisonment under Chapter V of the Unified Code of Corrections.

(h-5) Decertification as a capital case.

In a case in which the defendant has been found guilty of first degree murder by a judge or jury, or a case on remand for resentencing, and the State seeks the death penalty as an appropriate sentence, on the court's own motion or the written motion of the defendant, the court may decertify the case as a death penalty case if the court finds that the only evidence supporting the defendant's conviction is the uncorroborated testimony of an informant witness, as defined in Section 115-21 of the Code of Criminal Procedure of 1963, concerning the confession or admission of the defendant or that the sole evidence against the defendant is a single eyewitness or single accomplice without any other corroborating evidence. If the court decertifies the case as a capital case
under either of the grounds set forth above, the court shall issue a written finding. The State may pursue its right to appeal the decertification pursuant to Supreme Court Rule 604(a)(1). If the court does not decertify the case as a capital case, the matter shall proceed to the eligibility phase of the sentencing hearing.

(i) Appellate Procedure.

The conviction and sentence of death shall be subject to automatic review by the Supreme Court. Such review shall be in accordance with rules promulgated by the Supreme Court. The Illinois Supreme Court may overturn the death sentence, and order the imposition of imprisonment under Chapter V of the Unified Code of Corrections if the court finds that the death sentence is fundamentally unjust as applied to the particular case. If the Illinois Supreme Court finds that the death sentence is fundamentally unjust as applied to the particular case, independent of any procedural grounds for relief, the Illinois Supreme Court shall issue a written opinion explaining this finding.

(j) Disposition of reversed death sentence.

In the event that the death penalty in this Act is held to be unconstitutional by the Supreme Court of the United States or of the State of Illinois, any person convicted of first degree murder shall be sentenced by the court to a term of imprisonment under Chapter V of the Unified Code of Corrections.

In the event that any death sentence pursuant to the sentencing provisions of this Section is declared unconstitutional by the Supreme Court of the United States or of the State of Illinois, the court having jurisdiction over a person previously sentenced to death shall cause the defendant to be brought before the court, and the court shall sentence the defendant to a term of imprisonment under Chapter V of the Unified Code of Corrections.

(k) Guidelines for seeking the death penalty.

The Attorney General and State's Attorneys Association shall consult on voluntary guidelines for procedures governing whether or not to seek the death penalty. The guidelines do not have the force of law and are only advisory in nature.

Sec. 9-2. Second degree murder.

(a) A person commits the offense of second degree murder when he or she commits the offense of first degree murder as defined in

New matter indicated by italics - deletions by strikeout
paragraph (1) or (2) of subsection (a) of Section 9-1 of this Code and either of the following mitigating factors are present:

(1) at the time of the killing he or she is acting under a sudden and intense passion resulting from serious provocation by the individual killed or another whom the offender endeavors to kill, but he or she negligently or accidentally causes the death of the individual killed; or

(2) at the time of the killing he or she believes the circumstances to be such that, if they existed, would justify or exonerate the killing under the principles stated in Article 7 of this Code, but his or her belief is unreasonable.

(b) Serious provocation is conduct sufficient to excite an intense passion in a reasonable person provided, however, that an action that does not otherwise constitute serious provocation cannot qualify as serious provocation because of the discovery, knowledge, or disclosure of the victim's sexual orientation as defined in Section 1-103 of the Illinois Human Rights Act.

(c) When evidence of either of the mitigating factors defined in subsection (a) of this Section has been presented, the burden of proof is on the defendant to prove either mitigating factor by a preponderance of the evidence before the defendant can be found guilty of second degree murder. The burden of proof, however, remains on the State to prove beyond a reasonable doubt each of the elements of first degree murder and, when appropriately raised, the absence of circumstances at the time of the killing that would justify or exonerate the killing under the principles stated in Article 7 of this Code.

(d) Sentence. Second degree murder is a Class 1 felony.

AN ACT concerning health.
Be it enacted by the People of the State of Illinois, represented in
the General Assembly:
Section 5. The Comprehensive Lead Education, Reduction, and
Window Replacement Program Act is amended by changing Sections 5,
10, 20, 25, and 30 and by adding Section 16 as follows:
(410 ILCS 43/5)
Sec. 5. Findings; intent; establishment of program.
(a) The General Assembly finds all of the following:
(1) Lead-based paint poisoning is a potentially devastating,
but preventable disease. It is one of the top environmental threats
to children's health in the United States.
(2) The number of lead-poisoned children in Illinois is
among the highest in the nation, especially in older, more
affordable properties.
(3) Lead poisoning causes irreversible damage to the
development of a child's nervous system. Even at low and
moderate levels, lead poisoning causes learning disabilities,
problems with speech, shortened attention span, hyperactivity, and
behavioral problems. Recent research links low levels of lead
exposure to lower IQ scores and to juvenile delinquency.
(4) Older housing is the number one risk factor for
childhood lead poisoning. Properties built before 1950 are
statistically much more likely to contain lead-based paint hazards
than buildings constructed more recently.
(5) While the use of lead-based paint in residential
properties was banned in 1978, the State of Illinois ranks seventh
nationally in the number of housing units built before 1978 and
has the highest risk for lead hazards.
(5) The State of Illinois ranks 10th out of the 50 states in
the age of its housing stock. More than 50% of the housing units in
Chicago and in Rock Island, Peoria, Macon, Madison, and
Kankakee counties were built before 1960. More than 43% of the
housing units in St. Clair, Winnebago, Sangamon, Kane, and Cook
counties were built before 1950.

New matter indicated by italics - deletions by strikeout
(6) There are nearly 1.4 million households with lead-based paint hazards in Illinois.

(7) Most children are lead poisoned in their own homes through exposure to lead dust from deteriorated lead paint surfaces, like windows, and when lead paint deteriorates or is disturbed through home renovation and repainting.

(8) *Children at the highest risk for lead poisoning live in low-income communities and in older housing throughout the State of Illinois.*

(8) Less than 25% of children in Illinois age 6 and under have been tested for lead poisoning. While children are lead poisoned throughout Illinois, counties above the statewide average include: Alexander, Cass, Cook, Fulton, Greene, Kane, Kankakee, Knox, LaSalle, Macon, Mercer, Peoria, Perry, Rock Island, Sangamon, St. Clair, Stephenson, Vermilion, Will, and Winnebago.

(9) The control of lead hazards significantly reduces lead-poisoning rates. Other communities, including New York City and Milwaukee, have successfully reduced lead-poisoning rates by removing lead-based paint hazards on windows.

(10) Windows are considered a higher lead exposure risk more often than other components in a housing unit. Windows are a major contributor of lead dust in the home, due to both weathering conditions and friction effects on paint.

(11) *The Comprehensive Lead Elimination, Reduction, and Window Replacement (CLEAR-WIN) Program was established under Public Act 95-492 as a pilot program to reduce potential lead hazards by replacing windows in low-income, pre-1978 homes. It also provided for on-the-job training for community members in 2 pilot communities in Chicago and Peoria County.*

(12) The CLEAR-WIN Program provided for installation of 8,000 windows in 466 housing units between 2010 and 2014. Evaluations of the pilot program determined window replacement was effective in lowering lead hazards and produced energy, environmental, health, and market benefits. Return on investment was almost $2 for every dollar spent.

(13) There is an insufficient pool of licensed lead abatement workers and contractors to address the problem in some areas of the State.

New matter indicated by italics - deletions by strikeout
(14) (12) Through grants from the U.S. Department of Housing and Urban Development and State dollars, some communities in Illinois have begun to reduce lead poisoning of children. While this is an ongoing effort, it only addresses a small number of the low-income children statewide in communities with high levels of lead paint in the housing stock.

(b) It is the intent of the General Assembly to:

(1) address the problem of lead poisoning of children by eliminating lead hazards in homes;
(2) provide training within communities to encourage the use of lead paint safe work practices;
(3) create job opportunities for community members in the lead abatement industry;
(4) support the efforts of small business and property owners committed to maintaining lead-safe housing; and
(5) assist in the maintenance of affordable lead-safe housing stock.

(c) The General Assembly hereby establishes the Comprehensive Lead Education, Reduction, and Window Replacement Program to assist residential property owners through a Lead Direct Assistance Program loan and grant programs to reduce lead paint hazards in residential properties through window replacement in pilot area communities. Where there is a lack of workers trained to remove lead-based paint hazards, job-training programs must be initiated. The General Assembly also recognizes that training, insurance, and licensing costs are prohibitively high and hereby establishes incentives for contractors to do lead abatement work.

(d) The Department of Public Health is authorized to:

(1) adopt rules necessary to implement this Act;
(2) adopt by reference the Illinois Administrative Procedure Act for administration of this Act;
(3) assess administrative fines and penalties, as established by the Department by rule, for persons violating rules adopted by the Department under this Act;
(4) make referrals for prosecution to the Attorney General or the State's Attorney for the county in which a violation occurs, for a violation of this Act or the rules adopted under this Act; and
(5) establish agreements under the Intergovernmental Cooperation Act with the Department of Commerce and Economic

Sec. 16. Lead Direct Assistance Program.

(a) Subject to appropriation, the Department, in consultation with the Advisory Council, shall establish and operate the Lead Direct Assistance Program throughout the State. The purpose of the Lead Direct Assistance Program is to employ primary prevention strategies to prevent childhood lead poisoning.

(b) The Department shall administer the Lead Direct Assistance Program to remediate lead-based paint hazards and leaded plumbing hazards in residential properties. Conditions for receiving direct assistance shall be developed by the Department of Public Health, in consultation with the Department of Commerce and Economic Opportunity and the Illinois Housing Development Authority. Criteria for receiving direct assistance shall include:

(1) for owner-occupied properties: (i) the property contains lead hazards; (ii) the property is a child-occupied property or the residence of a pregnant woman; and (iii) the owner is low-income; and

(2) for rental properties: (i) the property contains lead hazards and (ii) 50% or more of the renters in the residential property are low-income.

Recipients of direct assistance under this program shall be provided a copy of the Department's Lead Safe Housing Maintenance Standards. Before receiving the direct assistance, the recipient must certify that he or she has received the standards and intends to comply with them. If the property is a rental property, the recipient must also certify that he or she will continue to rent to the same tenant or other low-income recipient.

income tenant for a period of not less than 5 years following completion of the work. Failure to comply with the conditions of the Lead Direct Assistance Program is a violation of this Act.

(c) To identify properties with lead hazards, the Department may prioritize properties where at least one child has been found to have an elevated blood lead level under the Lead Poisoning Prevention Act and the paint or potable water has been tested and found to contain lead exceeding levels established by rule.

(d) All lead-based paint hazard control work performed under the Lead Direct Assistance Program shall comply with the Lead Poisoning Prevention Act and the Illinois Lead Poisoning Prevention Code. All plumbing work performed under the Lead Direct Assistance Program shall comply with the Illinois Plumbing Licensing Act and the Illinois Plumbing Code. Before persons are paid for work conducted under this Act, each subject property must be inspected by a lead risk assessor or lead inspector licensed in Illinois. Prior to payment, an appropriate number of dust samples must be collected from in and around the work areas for lead analysis, with results in compliance with levels set by the Lead Poisoning Prevention Act and the Illinois Lead Poisoning Prevention Code or in the case of leaded plumbing work, be inspected by an Illinois-certified plumbing inspector. All costs associated with these inspections, including laboratory fees, shall be compensable to the person contracted to provide direct assistance, as prescribed by rule. Additional repairs and clean-up costs associated with a failed clearance test, including follow-up tests, shall be the responsibility of the person performing the work under the Lead Direct Assistance Program.

(e) The Department shall issue Lead Safe Housing Maintenance Standards in accordance with this Act. (a) Each designated automatic voter registration agency shall, pursuant to an interagency contract and jointly-adopted rules with the State Board of Elections, agree to participate in an automatic voter registration program established by the State Board of Elections that satisfies the requirements of this Section and other applicable law. If the designated automatic voter registration agency provides applications, applications for renewal, change of address forms, or recertification forms to individuals for services offered by another agency, then the State Board of Elections and the designated automatic voter agency shall consult with the other agency. The State Board of Elections shall consider the current technological capabilities of the designated voter registration agency when drafting interagency contracts and jointly-adopted rules. The State Board of Elections and the designated automatic voter registration agency shall amend these contracts and rules as the technological capabilities of the designated voter registration agencies improve.

(d) The designated automatic voter registration agency shall review information provided to the agency by the State Board of Elections to inform each applicant whether the applicant is currently registered to vote in Illinois and, if registered, at what address.

Before transmitting any personal information about an applicant to the State Board of Elections, the agency shall review its records of the identification documents the applicant provided or that the agency cross-references in order to complete the dual-purpose application, to confirm that nothing in those documents indicates that the applicant does not satisfy the qualifications to register to vote in Illinois at his or her residence address. A completed and signed dual-purpose application, including a completed application under subsection (c) of this Section with a separate signature attesting that the applicant meets the qualifications to register to vote in Illinois at his or her residence address as indicated on his or her application, shall constitute an application to register to vote in Illinois at the residence address indicated in the application unless the person affirmatively declined in the application to register to vote or to change his or her registered residence address or name. If the identification documents provided to complete the dual-purpose application, or that the agency cross-references, indicate that he or she does not satisfy the qualifications to register to vote in Illinois at his or her residence address, the application shall be marked as incomplete.

(10 ILCS 5/1A-16.7 new)

Sec. 1A-16.7. Automatic voter registration.

(a) The State Board of Elections shall establish and maintain a portal for automatic government agency voter registration that permits an eligible person to electronically apply to register to vote or to update his or her existing voter registration as provided in Section 1A-16.1 or Section 1A-16.2. The portal shall interface with the online voter registration system established in Section 1A-16.5 of this Code and shall be capable of receiving and processing voter registration application information, including electronic signatures, from the Office of the Secretary of State and each designated automatic voter registration agency, as defined in Section 1A-16.2. The State Board of Elections may cross-reference voter registration information from any designated automatic voter registration agency, as defined under Section 1A-16.2 of this Code, with information contained in the database of the Secretary of State as provided under subsection (c) of Section 1A-16.5 of this Code. The State Board of Elections shall modify the online voter registration system as necessary to implement this Section.

(b) Voter registration data received from the Office of the Secretary of State or a designated automatic voter registration agency through the online registration application system shall be processed as provided in Section 1A-16.5 of this Code.

(c) The State Board of Elections shall establish technical specifications applicable to each automatic government registration
program, including data format and transmission specifications. The Office of the Secretary of State and each designated automatic voter registration agency shall maintain a data transfer mechanism capable of transmitting voter registration application information, including electronic signatures where available, to the online voter registration system established in Section 1A-16.5 of this Code.

(d) The State Board of Elections shall, by rule, establish criteria and procedures for determining whether an agency of the State or federal government seeking to become a designated automatic voter registration agency has access to reliable personal information, as defined under this subsection (d) and subsection (f) of Section 1A-16.2 of this Code, and otherwise meets the requirements to enter into an interagency contract and to operate as a designated automatic voter registration agency. The State Board of Elections shall approve each interagency contract upon affirmative vote of a majority of its members.

As used in this subsection (d), "reliable personal information" means information about individuals obtained from government sources that may be used to verify whether an individual is eligible to register to vote.

(e) Whenever an applicant's data is transferred from the Office of the Secretary of State or a designated automatic voter registration agency, the agency must transmit a signature image if available. If no signature image was provided by the agency, or if no signature image is available in the Office of the Secretary of State's database or the statewide voter registration database, the applicant must be notified that his or her registration will remain in a pending status, and the applicant will be required to provide identification that complies with the federal Help America Vote Act of 2002 and a signature to the election authority on election day in the polling place or during early voting.

(f) Upon receipt of personal information collected and transferred by the Office of the Secretary of State or a designated automatic voter registration agency, the State Board of Elections shall check the information against the statewide voter registration database. The State Board of Elections shall create and electronically transmit to the appropriate election authority a voter registration application for any individual who is not registered to vote in Illinois and is not disqualified as provided in this Section or whose information reliably indicates a more recent update to the name or address of a person already included in the
statewide voter database. The election authority shall process the application accordingly.

(g) The appropriate election authority shall ensure that any applicant who is registered to vote or whose existing voter registration is updated under this Section is promptly sent written notice of the change. The notice required by this subsection (g) may be sent or combined with other notices required or permitted by law, including, but not limited to, any notices sent pursuant to Section 1A-16.5 of this Code. Any notice required by this subsection (g) shall contain, at a minimum: (i) the applicant's name and residential address as reflected on the voter registration list; (ii) a statement notifying the applicant to contact the appropriate election authority if his or her voter registration has been updated in error; (iii) the qualifications to register to vote in Illinois; (iv) a statement notifying the applicant that he or she may opt out of voter registration or request a change to his or her registration information at any time by contacting an election official; and (v) contact information for the appropriate election authority, including a phone number, address, electronic mail address, and website address.

(h) The appropriate election authority shall ensure that any applicant whose voter registration application is not accepted or deemed incomplete is promptly sent written notice of the application's status. The notice required by this subsection may be sent or combined with other notices required or permitted by law, including, but not limited to, any notices sent pursuant to Section 1A-16.5 of this Code. Any notice required by this subsection (h) shall contain, at a minimum, the reason the application was not accepted or deemed incomplete and contact information for the appropriate election authority, including a phone number, address, electronic mail address, and website address.

(i) If the Office of the Secretary of State or a designated automatic voter registration agency transfers information, or if the State Board of Elections creates and transmits a voter registration application, for a person who does not qualify as an eligible voter, then it shall not constitute a completed voter registration form, and the person shall not be considered to have registered to vote.

(j) If the registration is processed by any election authority, then it shall be presumed to have been effected and officially authorized by the State, and that person shall not be found on that basis to have made a false claim to citizenship or to have committed an act of moral turpitude, nor shall that person be subject to penalty under any relevant laws,

including, but not limited to, Sections 29-10 and 29-19 of this Code. This subsection (j) does not apply to a person who knows that he or she is not entitled to register to vote and who willfully votes, registers to vote, or attests under penalty of perjury that he or she is eligible to register to vote or willfully attempts to vote or to register to vote.

(k) The State Board of Elections, the Office of the Secretary of State, and each designated automatic voter registration agency shall implement policies and procedures to protect the privacy and security of voter information as it is acquired, stored, and transmitted among agencies, including policies for the retention and preservation of voter information. Information designated as confidential under this Section may be recorded and shared among the State Board of Elections, election authorities, the Office of the Secretary of State, and designated automatic voter registration agencies, but shall be used only for voter registration purposes, shall not be disclosed to the public except in the aggregate as required by subsection (m) of this Section, and shall not be subject to the Freedom of Information Act. The following information shall be designated as confidential:

(1) any portion of an applicant's Social Security number;
(2) any portion of an applicant's driver's license number or State identification number;
(3) an applicant's decision to decline voter registration;
(4) the identity of the person providing information relating to a specific applicant; and
(5) the personal residence and contact information of any applicant for whom notice has been given by an appropriate legal authority.

This subsection (k) shall not apply to information the State Board of Elections is required to share with the Electronic Registration Information Center.

(l) The voter registration procedures implemented under this Section shall comport with the federal National Voter Registration Act of 1993, as amended, and shall specifically require that the State Board of Elections track registration data received through the online registration system that originated from a designated automatic voter registration agency for the purposes of maintaining statistics.

Nothing in this Code shall require designated voter registration agencies to transmit information that is confidential client information under State or federal law without the consent of the applicant.

(m) The State Board of Elections, each election authority that maintains a website, the Office of the Secretary of State, and each designated automatic voter registration agency that maintains a website shall provide information on their websites informing the public about the new registration procedures described in this Section. The Office of the Secretary of State and each designated automatic voter registration agency shall display signage or provide literature for the public containing information about the new registration procedures described in this Section.

(n) No later than 6 months after the effective date of this amendatory Act of the 100th General Assembly, the State Board of Elections shall hold at least one public hearing on implementing this amendatory Act of the 100th General Assembly at which the public may provide input.

(o) The State Board of Elections shall submit an annual public report to the General Assembly and the Governor detailing the progress made to implement this Section. The report shall include all of the following: the number of records transferred under this Section by agency, the number of voters newly added to the statewide voter registration list because of records transferred under this Section by agency, the number of updated registrations under this Section by agency, the number of persons who opted out of voter registration, and the number of voters who submitted voter registration forms using the online procedure described in Section 1A-16.5 of this Code. The 2018 and 2019 annual reports may include less detail if election authorities are not equipped to provide complete information to the State Board of Elections. Any report produced under this subsection (o) shall exclude any information that identifies any individual personally.

(p) The State Board of Elections, in consultation with election authorities, the Office of the Secretary of State, designated automatic voter registration agencies, and community organizations, shall adopt rules as necessary to implement the provisions of this Section.

(10 ILCS 5/1A-16.8)

Sec. 1A-16.8. Automatic transfer of registration based upon information from the National Change of Address database and designated automatic voter registration agencies.

(a) The State Board of Elections shall cross-reference the statewide voter registration database against the United States Postal Service's National Change of Address database twice each calendar year, April 15
and October 1 in odd-numbered years and April 15 and December 1 in even-numbered years or with the same frequency as in subsection (b) of this Section, and shall share the findings with the election authorities.

(b) In addition, beginning no later than September 1, 2017, the State Board of Elections shall utilize data provided as part of its membership in the Electronic Registration Information Center in order to cross-reference the statewide voter registration database against databases of relevant personal information kept by designated automatic voter registration agencies, including, but not limited to, driver's license information kept by the Secretary of State, at least 6 times each calendar year and shall share the findings with election authorities.

This subsection (b) shall no longer apply once Sections 1A-16.1 and 1A-16.2 of this Code are fully implemented as determined by the State Board of Elections. Upon a determination by the State Board of Elections of full implementation of Sections 1A-16.1 and 1A-16.2 of this Code, the State Board of Elections shall file notice of full implementation and the inapplicability of this subsection (b) with the Index Department of the Office of the Secretary of State, the Governor, the General Assembly, and the Legislative Reference Bureau.

(b-5) The State Board of Elections shall not be required to share any data on any voter attained using the National Change of Address database under subsection (a) of this Section if that voter has a more recent government transaction indicated using the cross-reference under subsection (b) of this Section. If there is contradictory or unclear data between data obtained under subsections (a) and (b) of this Section, then data obtained under subsection (b) of this Section shall take priority.

(c) An election authority shall automatically register any voter who has moved into its jurisdiction from another jurisdiction in Illinois or has moved within its jurisdiction provided that:

1. the election authority whose jurisdiction includes the new registration address provides the voter an opportunity to reject the change in registration address through a mailing, sent by non-forwardable mail, to the new registration address, and
2. when the election authority whose jurisdiction includes the previous registration address is a different election authority, then that election authority provides the same opportunity through a mailing, sent by forwardable mail, to the previous registration address.

New matter indicated by italics - deletions by strikeout
This change in registration shall trigger the same inter-jurisdictional or intra-jurisdictional workflows as if the voter completed a new registration card, including the cancellation of the voter's previous registration. Should the registration of a voter be changed from one address to another within the State and should the voter appear at the polls and offer to vote from the prior registration address, attesting that the prior registration address is the true current address, the voter, if confirmed by the election authority as having been registered at the prior registration address and canceled only by the process authorized by this Section, shall be issued a regular ballot, and the change of registration address shall be canceled. If the election authority is unable to immediately confirm the registration, the voter shall be permitted to register and vote a regular ballot, provided that he or she meets the documentary requirements for same-day registration. If the election authority is unable to confirm the registration and the voter does not meet the requirements for same-day registration, the voter shall be issued a provisional ballot.

(d) No voter shall be disqualified from voting due to an error relating to an update of registration under this Section.

Section 904. The Election Code is amended by changing Section 28-2 as follows:

New matter indicated by italics - deletions by strikeout
Sec. 28-2. (a) Except as otherwise provided in this Section, petitions for the submission of public questions to referendum must be filed with the appropriate officer or board not less than 92 days prior to a regular election to be eligible for submission on the ballot at such election; and petitions for the submission of a question under Section 18-120 or Section 18-206 of the Property Tax Code must be filed with the appropriate officer or board not more than 10 months nor less than 6 months prior to the election at which such question is to be submitted to the voters.

(b) However, petitions for the submission of a public question to referendum which proposes the creation or formation of a political subdivision must be filed with the appropriate officer or board not less than 122 days prior to a regular election to be eligible for submission on the ballot at such election.

(c) Resolutions or ordinances of governing boards of political subdivisions which initiate the submission of public questions pursuant to law must be adopted not less than 79 days before a regularly scheduled election to be eligible for submission on the ballot at such election.

(d) A petition, resolution or ordinance initiating the submission of a public question may specify a regular election at which the question is to be submitted, and must so specify if the statute authorizing the public question requires submission at a particular election. However, no petition, resolution or ordinance initiating the submission of a public question, other than a legislative resolution initiating an amendment to the Constitution, may specify such submission at an election more than one year, or 15 months in the case of a back door referendum as defined in subsection (f), after the date on which it is filed or adopted, as the case may be. A petition, resolution or ordinance initiating a public question which specifies a particular election at which the question is to be submitted shall be so limited, and shall not be valid as to any other election, other than an emergency referendum ordered pursuant to Section 2A-1.4.

(e) If a petition initiating a public question does not specify a regularly scheduled election, the public question shall be submitted to referendum at the next regular election occurring not less than 92 days after the filing of the petition, or not less than 122 days after the filing of a petition for referendum to create a political subdivision. If a resolution or ordinance initiating a public question does not specify a regularly
scheduled election, the public question shall be submitted to referendum at the next regular election occurring not less than 79 days after the adoption of the resolution or ordinance.

(f) In the case of back door referenda, any limitations in another statute authorizing such a referendum which restrict the time in which the initiating petition may be validly filed shall apply to such petition, in addition to the filing deadlines specified in this Section for submission at a particular election. In the case of any back door referendum, the publication of the ordinance or resolution of the political subdivision shall include a notice of (1) the specific number of voters required to sign a petition requesting that a public question be submitted to the voters of the subdivision; (2) the time within which the petition must be filed; and (3) the date of the prospective referendum. The secretary or clerk of the political subdivision shall provide a petition form to any individual requesting one. The legal sufficiency of that form, if provided by the secretary or clerk of the political subdivision, cannot be the basis of a challenge to placing the back door referendum on the ballot. As used herein, a "back door referendum" is the submission of a public question to the voters of a political subdivision, initiated by a petition of voters or residents of such political subdivision, to determine whether an action by the governing body of such subdivision shall be adopted or rejected.

(g) A petition for the incorporation or formation of a new political subdivision whose officers are to be elected rather than appointed must have attached to it an affidavit attesting that at least 122 days and no more than 152 days prior to such election notice of intention to file such petition was published in a newspaper published within the proposed political subdivision, or if none, in a newspaper of general circulation within the territory of the proposed political subdivision in substantially the following form:

NOTICE OF PETITION TO FORM A NEW........

Residents of the territory described below are notified that a petition will or has been filed in the Office of............requesting a referendum to establish a new........, to be called the............

*The officers of the new...........will be elected on the same day as the referendum. Candidates for the governing board of the new......may file nominating petitions with the officer named above until.......... The territory proposed to comprise the new.......is described as follows:

(description of territory included in petition)

New matter indicated by italics - deletions by strikeout
Name and address of person or persons proposing
the new political subdivision.

* Where applicable.

Failure to file such affidavit, or failure to publish the required
notice with the correct information contained therein shall render the
petition, and any referendum held pursuant to such petition, null and void.

Notwithstanding the foregoing provisions of this subsection (g) or
any other provisions of this Code, the publication of notice and affidavit
requirements of this subsection (g) shall not apply to any petition filed
under Article 7 or 11E of the School Code nor to any referendum held
pursuant to any such petition, and neither any petition filed under any of
those Articles nor any referendum held pursuant to any such petition shall
be rendered null and void because of the failure to file an affidavit or
publish a notice with respect to the petition or referendum as required
under this subsection (g) for petitions that are not filed under any of those
Articles of the School Code.

Section 905. The Economic Development Area Tax Increment
Allocation Act is amended by changing Section 7 as follows:

(20 ILCS 620/7) (from Ch. 67 1/2, par. 1007)

Sec. 7. Creation of special tax allocation fund. If a municipality has
adopted tax increment allocation financing for an economic development
project area by ordinance, the county clerk has thereafter certified the
"total initial equalized assessed value" of the taxable real property within
such economic development project area in the manner provided in
Section 6 of this Act, and the Department has approved and certified the
economic development project area, each year after the date of the
certification by the county clerk of the "total initial equalized assessed
value" until economic development project costs and all municipal
obligations financing economic development project costs have been paid,
the ad valorem taxes, if any, arising from the levies upon the taxable real
property in the economic development project area by taxing districts and
tax rates determined in the manner provided in subsection (b) of Section 6
of this Act shall be divided as follows:

(1) That portion of the taxes levied upon each taxable lot, block,
tract or parcel of real property which is attributable to the lower of the
current equalized assessed value or the initial equalized assessed value of
each such taxable lot, block, tract, or parcel of real property existing at the

time tax increment allocation financing was adopted, shall be allocated to and when collected shall be paid by the county collector to the respective affected taxing districts in the manner required by law in the absence of the adoption of tax increment allocation financing.

(2) That portion, if any, of those taxes which is attributable to the increase in the current equalized assessed valuation of each taxable lot, block, tract, or parcel of real property in the economic development project area, over and above the initial equalized assessed value of each property existing at the time tax increment allocation financing was adopted, shall be allocated to and when collected shall be paid to the municipal treasurer, who shall deposit those taxes into a special fund called the special tax allocation fund of the municipality for the purpose of paying economic development project costs and obligations incurred in the payment thereof.

The municipality, by an ordinance adopting tax increment allocation financing, may pledge the funds in and to be deposited in the special tax allocation fund for the payment of obligations issued under this Act and for the payment of economic development project costs. No part of the current equalized assessed valuation of each property in the economic development project area attributable to any increase above the total initial equalized assessed value, of such properties shall be used in calculating the general State school aid formula, provided for in Section 18-8 of the School Code, or the evidence-based funding formula, provided for in Section 18-8.15 of the School Code, until such time as all economic development projects costs have been paid as provided for in this Section.

When the economic development project costs, including without limitation all municipal obligations financing economic development project costs incurred under this Act, have been paid, all surplus funds then remaining in the special tax allocation fund shall be distributed by being paid by the municipal treasurer to the county collector, who shall immediately thereafter pay those funds to the taxing districts having taxable property in the economic development project area in the same manner and proportion as the most recent distribution by the county collector to those taxing districts of real property taxes from real property in the economic development project area.

Upon the payment of all economic development project costs, retirement of obligations and the distribution of any excess monies pursuant to this Section the municipality shall adopt an ordinance dissolving the special tax allocation fund for the economic development project area, terminating the economic development project area, and

terminating the use of tax increment allocation financing for the economic development project area. Thereafter the rates of the taxing districts shall be extended and taxes levied, collected and distributed in the manner applicable in the absence of the adoption of tax increment allocation financing.

Nothing in this Section shall be construed as relieving property in economic development project areas from being assessed as provided in the Property Tax Code, or as relieving owners of that property from paying a uniform rate of taxes, as required by Section 4 of Article IX of the Illinois Constitution.

the purpose of paying obligations due under, or financing airport facilities required to be acquired, constructed, installed or equipped pursuant to, contracts entered into before March 1, 1996 (but not including any amendments to such a contract taking effect on or after that date); (k) made to fund expenses of providing joint recreational programs for persons with disabilities under Section 5-8 of the Park District Code or Section 11-95-14 of the Illinois Municipal Code; and (l) made for contributions to a firefighter's pension fund created under Article 4 of the Illinois Pension Code, to the extent of the amount certified under item (5) of Section 4-134 of the Illinois Pension Code.

"Debt service extension base" means an amount equal to that portion of the extension for a taxing district for the 1994 levy year, or for those taxing districts subject to this Law in accordance with Section 18-213, except for those subject to paragraph (2) of subsection (e) of Section 18-213, for the levy year in which the referendum making this Law applicable to the taxing district is held, or for those taxing districts subject to this Law in accordance with paragraph (2) of subsection (e) of Section 18-213 for the 1996 levy year, constituting an extension for payment of principal and interest on bonds issued by the taxing district without referendum, but not including excluded non-referendum bonds. For park districts (i) that were first subject to this Law in 1991 or 1995 and (ii) whose extension for the 1994 levy year for the payment of principal and interest on bonds issued by the park district without referendum (but not including excluded non-referendum bonds) was less than 51% of the amount for the 1991 levy year constituting an extension for payment of principal and interest on bonds issued by the park district without referendum (but not including excluded non-referendum bonds), "debt service extension base" means an amount equal to that portion of the extension for the 1991 levy year constituting an extension for payment of principal and interest on bonds issued by the park district without referendum (but not including excluded non-referendum bonds). A debt service extension base established or increased at any time pursuant to any provision of this Law, except Section 18-212, shall be increased each year commencing with the later of (i) the 2009 levy year or (ii) the first levy year in which this Law becomes applicable to the taxing district, by the lesser of 5% or the percentage increase in the Consumer Price Index during the 12-month calendar year preceding the levy year. The debt service extension base may be established or increased as provided under Section 18-212. "Excluded non-referendum bonds" means (i) bonds
authorized by Public Act 88-503 and issued under Section 20a of the Chicago Park District Act for aquarium and museum projects; (ii) bonds issued under Section 15 of the Local Government Debt Reform Act; or (iii) refunding obligations issued to refund or to continue to refund obligations initially issued pursuant to referendum.

"Special purpose extensions" include, but are not limited to, extensions for levies made on an annual basis for unemployment and workers' compensation, self-insurance, contributions to pension plans, and extensions made pursuant to Section 6-601 of the Illinois Highway Code for a road district's permanent road fund whether levied annually or not. The extension for a special service area is not included in the aggregate extension.

"Aggregate extension base" means the taxing district's last preceding aggregate extension as adjusted under Sections 18-135, 18-215, and 18-230, and 18-206. An adjustment under Section 18-135 shall be made for the 2007 levy year and all subsequent levy years whenever one or more counties within which a taxing district is located (i) used estimated valuations or rates when extending taxes in the taxing district for the last preceding levy year that resulted in the over or under extension of taxes, or (ii) increased or decreased the tax extension for the last preceding levy year as required by Section 18-135(c). Whenever an adjustment is required under Section 18-135, the aggregate extension base of the taxing district shall be equal to the amount that the aggregate extension of the taxing district would have been for the last preceding levy year if either or both (i) actual, rather than estimated, valuations or rates had been used to calculate the extension of taxes for the last levy year, or (ii) the tax extension for the last preceding levy year had not been adjusted as required by subsection (c) of Section 18-135.

Notwithstanding any other provision of law, for levy year 2012, the aggregate extension base for West Northfield School District No. 31 in Cook County shall be $12,654,592.

"Levy year" has the same meaning as "year" under Section 1-155.

"New property" means (i) the assessed value, after final board of review or board of appeals action, of new improvements or additions to existing improvements on any parcel of real property that increase the assessed value of that real property during the levy year multiplied by the equalization factor issued by the Department under Section 17-30, (ii) the assessed value, after final board of review or board of appeals action, of real property not exempt from real estate taxation, which real property was

New matter indicated by italics - deletions by strikeout
exempt from real estate taxation for any portion of the immediately preceding levy year, multiplied by the equalization factor issued by the Department under Section 17-30, including the assessed value, upon final stabilization of occupancy after new construction is complete, of any real property located within the boundaries of an otherwise or previously exempt military reservation that is intended for residential use and owned by or leased to a private corporation or other entity, (iii) in counties that classify in accordance with Section 4 of Article IX of the Illinois Constitution, an incentive property's additional assessed value resulting from a scheduled increase in the level of assessment as applied to the first year final board of review market value, and (iv) any increase in assessed value due to oil or gas production from an oil or gas well required to be permitted under the Hydraulic Fracturing Regulatory Act that was not produced in or accounted for during the previous levy year. In addition, the county clerk in a county containing a population of 3,000,000 or more shall include in the 1997 recovered tax increment value for any school district, any recovered tax increment value that was applicable to the 1995 tax year calculations.

"Qualified airport authority" means an airport authority organized under the Airport Authorities Act and located in a county bordering on the State of Wisconsin and having a population in excess of 200,000 and not greater than 500,000.

"Recovered tax increment value" means, except as otherwise provided in this paragraph, the amount of the current year's equalized assessed value, in the first year after a municipality terminates the designation of an area as a redevelopment project area previously established under the Tax Increment Allocation Development Act in the Illinois Municipal Code, previously established under the Industrial Jobs Recovery Law in the Illinois Municipal Code, previously established under the Economic Development Project Area Tax Increment Act of 1995, or previously established under the Economic Development Area Tax Increment Allocation Act, of each taxable lot, block, tract, or parcel of real property in the redevelopment project area over and above the initial equalized assessed value of each property in the redevelopment project area. For the taxes which are extended for the 1997 levy year, the recovered tax increment value for a non-home rule taxing district that first became subject to this Law for the 1995 levy year because a majority of its 1994 equalized assessed value was in an affected county or counties shall be increased if a municipality terminated the designation of an area in
1993 as a redevelopment project area previously established under the Tax Increment Allocation Development Act in the Illinois Municipal Code, previously established under the Industrial Jobs Recovery Law in the Illinois Municipal Code, or previously established under the Economic Development Area Tax Increment Allocation Act, by an amount equal to the 1994 equalized assessed value of each taxable lot, block, tract, or parcel of real property in the redevelopment project area over and above the initial equalized assessed value of each property in the redevelopment project area. In the first year after a municipality removes a taxable lot, block, tract, or parcel of real property from a redevelopment project area established under the Tax Increment Allocation Development Act in the Illinois Municipal Code, the Industrial Jobs Recovery Law in the Illinois Municipal Code, or the Economic Development Area Tax Increment Allocation Act, "recovered tax increment value" means the amount of the current year's equalized assessed value of each taxable lot, block, tract, or parcel of real property removed from the redevelopment project area over and above the initial equalized assessed value of that real property before removal from the redevelopment project area.

Except as otherwise provided in this Section, "limiting rate" means a fraction the numerator of which is the last preceding aggregate extension base times an amount equal to one plus the extension limitation defined in this Section and the denominator of which is the current year's equalized assessed value of all real property in the territory under the jurisdiction of the taxing district during the prior levy year. For those taxing districts that reduced their aggregate extension for the last preceding levy year, except for school districts that reduced their extension for educational purposes pursuant to Section 18-206, the highest aggregate extension in any of the last 3 preceding levy years shall be used for the purpose of computing the limiting rate. The denominator shall not include new property or the recovered tax increment value. If a new rate, a rate decrease, or a limiting rate increase has been approved at an election held after March 21, 2006, then (i) the otherwise applicable limiting rate shall be increased by the amount of the new rate or shall be reduced by the amount of the rate decrease, as the case may be, or (ii) in the case of a limiting rate increase, the limiting rate shall be equal to the rate set forth in the proposition approved by the voters for each of the years specified in the proposition, after which the limiting rate of the taxing district shall be calculated as otherwise provided. In the case of a taxing district that obtained referendum approval for an increased limiting rate on March 20, 2012, the
limiting rate for tax year 2012 shall be the rate that generates the approximate total amount of taxes extendable for that tax year, as set forth in the proposition approved by the voters; this rate shall be the final rate applied by the county clerk for the aggregate of all capped funds of the district for tax year 2012.

Sec. 18-200. School Code. A school district's State aid shall not be reduced under the computation under subsections 5(a) through 5(h) of Part A of Section 18-8 of the School Code or under Section 18-8.15 of the School Code due to the operating tax rate falling from above the minimum requirement of that Section of the School Code to below the minimum requirement of that Section of the School Code due to the operation of this Law.

Sec. 18-206. Decrease in extension for educational purposes.

(a) Notwithstanding any other provision of law, for those school districts whose adequacy targets, as defined in Section 18-8.15 of this Code, exceed 110% for the school year that begins during the calendar year immediately preceding the levy year for which the reduction under this Section is sought, the question of whether the school district shall reduce its extension for educational purposes for the levy year in which the election is held to an amount that is less than the extension for educational purposes for the immediately preceding levy year shall be submitted to the voters of the school district at the next consolidated election but only upon submission of a petition signed by not fewer than 10% of the registered voters in the school district. In no event shall the reduced extension be more than 10% lower than the amount extended for educational purposes in the previous levy year, and in no event shall the reduction cause the school district's adequacy target to fall below 110% for the levy year for which the reduction is sought.

(b) The petition shall be filed with the applicable election authority, as defined in Section 1-3 of the Election Code, or, in the case of multiple election authorities, with the State Board of Elections, not more than 10 months nor less than 6 months prior to the election at which the question is to be submitted to the voters, and its validity shall be determined as provided by Article 28 of the Election Code and general

election law. The election authority or Board, as applicable, shall certify the question and the proper election authority or authorities shall submit the question to the voters. Except as otherwise provided in this Section, this referendum shall be subject to all other general election law requirements.

(c) The proposition seeking to reduce the extension for educational purposes shall be in substantially the following form:

Shall the amount extended for educational purposes by (school district) be reduced from (previous levy year's extension) to (proposed extension) for (levy year), but in no event lower than the amount required to maintain an adequacy target of 110%?

Votes shall be recorded as "Yes" or "No".

If a majority of all votes cast on the proposition are in favor of the proposition, then, for the levy year in which the election is held, the amount extended by the school district for educational purposes shall be reduced as provided in the referendum; however, in no event shall the reduction exceed the amount that would cause the school district to have an adequacy target of 110% for the applicable school year.

Once the question is submitted to the voters, then the question may not be submitted again for the same school district at any of the next 2 consolidated elections.

(d) For school districts that approve a reduction under this Section, the county clerk shall extend a rate for educational purposes that is no greater than the limiting rate for educational purposes. If the school district is otherwise subject to this Law for the applicable levy year, then, for the levy year in which the reduction occurs, the county clerk shall calculate separate limiting rates for educational purposes and for the aggregate of the school district's other funds.

As used in this Section:

"School district" means each school district in the State, regardless of whether or not that school district is otherwise subject to this Law.

"Limiting rate for educational purposes" means a fraction the numerator of which is the greater of (i) the amount approved by the voters in the referendum under subsection (c) of this Section or (ii) the amount that would cause the school district to have an adequacy target of 110% for the applicable school year, but in no event more than the school district's extension for educational purposes in the immediately preceding levy year, and the denominator of which is the current year's equalized

assessed value of all real property under the jurisdiction of the school district during the prior levy year.

(35 ILCS 200/18-249)

Sec. 18-249. Miscellaneous provisions.

(a) Certification of new property. For the 1994 levy year, the chief county assessment officer shall certify to the county clerk, after all changes by the board of review or board of appeals, as the case may be, the assessed value of new property by taxing district for the 1994 levy year under rules promulgated by the Department.

(b) School Code. A school district's State aid shall not be reduced under the computation under subsections 5(a) through 5(h) of Part A of Section 18-8 of the School Code or under Section 18-8.15 of the School Code due to the operating tax rate falling from above the minimum requirement of that Section of the School Code to below the minimum requirement of that Section of the School Code due to the operation of this Law.

(c) Rules. The Department shall make and promulgate reasonable rules relating to the administration of the purposes and provisions of Sections 18-246 through 18-249 as may be necessary or appropriate.

Section 930. The Illinois Pension Code is amended by changing Section 17-127 as follows:

(40 ILCS 5/17-127) (from Ch. 108 1/2, par. 17-127)

Sec. 17-127. Financing; revenues for the Fund.

(a) The revenues for the Fund shall consist of: (1) amounts paid into the Fund by contributors thereto and from employer contributions and State appropriations in accordance with this Article; (2) amounts contributed to the Fund by an Employer; (3) amounts contributed to the Fund pursuant to any law now in force or hereafter to be enacted; (4) contributions from any other source; and (5) the earnings on investments.

(b) The General Assembly finds that for many years the State has contributed to the Fund an annual amount that is between 20% and 30% of the amount of the annual State contribution to the Article 16 retirement system, and the General Assembly declares that it is its goal and intention to continue this level of contribution to the Fund in the future.

(c) Beginning in State fiscal year 1999, the State shall include in its annual contribution to the Fund an additional amount equal to 0.544% of the Fund's total teacher payroll; except that this additional contribution need not be made in a fiscal year if the Board has certified in the previous

fiscal year that the Fund is at least 90% funded, based on actuarial determinations. These additional State contributions are intended to offset a portion of the cost to the Fund of the increases in retirement benefits resulting from this amendatory Act of 1998.

(d) In addition to any other contribution required under this Article, including the contribution required under subsection (c), the State shall contribute to the Fund the following amounts:

(1) For State fiscal year 2018, the State shall contribute $221,300,000 for the employer normal cost for fiscal year 2018 and the amount allowed under paragraph (3) of Section 17-142.1 of this Code to defray health insurance costs. Funds for this paragraph (1) shall come from funds appropriated for Evidence-Based Funding pursuant to Section 18-8.15 of the School Code.

(2) Beginning in State fiscal year 2019, the State shall contribute for each fiscal year an amount to be determined by the Fund, equal to the employer normal cost for that fiscal year, plus the amount allowed pursuant to paragraph (3) of Section 17-142.1 to defray health insurance costs.

(e) The Board shall determine the amount of State contributions required for each fiscal year on the basis of the actuarial tables and other assumptions adopted by the Board and the recommendations of the actuary. On or before November 1 of each year, beginning November 1, 2017, the Board shall submit to the State Actuary, the Governor, and the General Assembly a proposed certification of the amount of the required State contribution to the Fund for the next fiscal year, along with all of the actuarial assumptions, calculations, and data upon which that proposed certification is based.

On or before January 1 of each year, beginning January 1, 2018, the State Actuary shall issue a preliminary report concerning the proposed certification and identifying, if necessary, recommended changes in actuarial assumptions that the Board must consider before finalizing its certification of the required State contributions.

(f) On or before January 15, 2018 and each January 15 thereafter, the Board shall certify to the Governor and the General Assembly the amount of the required State contribution for the next fiscal year. The certification shall include a copy of the actuarial recommendations upon which it is based and shall specifically identify the Fund's projected employer normal cost for that fiscal year. The Board's certification must note any deviations from the State Actuary's recommended changes, the

reason or reasons for not following the State Actuary's recommended changes, and the fiscal impact of not following the State Actuary's recommended changes on the required State contribution.

For the purposes of this Article, including issuing vouchers, and for the purposes of subsection (h) of Section 1.1 of the State Pension Funds Continuing Appropriation Act, the State contribution specified for State fiscal year 2018 shall be deemed to have been certified, by operation of law and without official action by the Board or the State Actuary, in the amount provided in subsection (c) and subsection (d) of this Section.

(g) For State fiscal year 2018, the State Board of Education shall submit vouchers, as directed by the Board, for payment of State contributions to the Fund for the required annual State contribution under subsection (d) of this Section. These vouchers shall be paid by the State Comptroller and Treasurer by warrants drawn on the amount appropriated to the State Board of Education from the Common School Fund in Section 5 of Article 97 of Public Act 100-21. If State appropriations for State fiscal year 2018 are less than the amount lawfully vouchered under this subsection, the difference shall be paid from the Common School Fund under the continuing appropriation authority provided in Section 1.1 of the State Pension Funds Continuing Appropriation Act.

(h) For State fiscal year 2018, the Board shall submit vouchers for the payment of State contributions to the Fund for the required annual State contribution under subsection (c) of this Section. Beginning in State fiscal year 2019, the Board shall submit vouchers for payment of State contributions to the Fund for the required annual State contribution under subsections (c) and (d) of this Section. These vouchers shall be paid by the State Comptroller and Treasurer by warrants drawn on the funds appropriated to the Fund for that fiscal year. If State appropriations to the Fund for the applicable fiscal year are less than the amount lawfully vouchered under this subsection, the difference shall be paid from the Common School Fund under the continuing appropriation authority provided in Section 1.1 of the State Pension Funds Continuing Appropriation Act.

Section 940. The Innovation Development and Economy Act is amended by changing Section 33 as follows:

(50 ILCS 470/33)

Sec. 33. STAR Bonds School Improvement and Operations Trust Fund.

(a) The STAR Bonds School Improvement and Operations Trust Fund is created as a trust fund in the State treasury. Deposits into the Trust Fund shall be made as provided under this Section. Moneys in the Trust Fund shall be used by the Department of Revenue only for the purpose of making payments to school districts in educational service regions that include or are adjacent to the STAR bond district. Moneys in the Trust Fund are not subject to appropriation and shall be used solely as provided in this Section. All deposits into the Trust Fund shall be held in the Trust Fund by the State Treasurer as ex officio custodian separate and apart from all public moneys or funds of this State and shall be administered by the Department exclusively for the purposes set forth in this Section. All moneys in the Trust Fund shall be invested and reinvested by the State Treasurer. All interest accruing from these investments shall be deposited in the Trust Fund.

(b) Upon approval of a STAR bond district, the political subdivision shall immediately transmit to the county clerk of the county in
which the district is located a certified copy of the ordinance creating the district, a legal description of the district, a map of the district, identification of the year that the county clerk shall use for determining the total initial equalized assessed value of the district consistent with subsection (c), and a list of the parcel or tax identification number of each parcel of property included in the district.

(c) Upon approval of a STAR bond district, the county clerk immediately thereafter shall determine (i) the most recently ascertained equalized assessed value of each lot, block, tract, or parcel of real property within the STAR bond district, from which shall be deducted the homestead exemptions under Article 15 of the Property Tax Code, which value shall be the initial equalized assessed value of each such piece of property, and (ii) the total equalized assessed value of all taxable real property within the district by adding together the most recently ascertained equalized assessed value of each taxable lot, block, tract, or parcel of real property within the district, from which shall be deducted the homestead exemptions under Article 15 of the Property Tax Code, and shall certify that amount as the total initial equalized assessed value of the taxable real property within the STAR bond district.

(d) In reference to any STAR bond district created within any political subdivision, and in respect to which the county clerk has certified the total initial equalized assessed value of the property in the area, the political subdivision may thereafter request the clerk in writing to adjust the initial equalized value of all taxable real property within the STAR bond district by deducting therefrom the exemptions under Article 15 of the Property Tax Code applicable to each lot, block, tract, or parcel of real property within the STAR bond district. The county clerk shall immediately, after the written request to adjust the total initial equalized value is received, determine the total homestead exemptions in the STAR bond district as provided under Article 15 of the Property Tax Code by adding together the homestead exemptions provided by said Article on each lot, block, tract, or parcel of real property within the STAR bond district and then shall deduct the total of said exemptions from the total initial equalized assessed value. The county clerk shall then promptly certify that amount as the total initial equalized assessed value as adjusted of the taxable real property within the STAR bond district.

(e) The county clerk or other person authorized by law shall compute the tax rates for each taxing district with all or a portion of its equalized assessed value located in the STAR bond district. The rate per

New matter indicated by italics - deletions by strikeout
cent of tax determined shall be extended to the current equalized assessed value of all property in the district in the same manner as the rate per cent of tax is extended to all other taxable property in the taxing district.

(f) Beginning with the assessment year in which the first destination user in the first STAR bond project in a STAR bond district makes its first retail sales and for each assessment year thereafter until final maturity of the last STAR bonds issued in the district, the county clerk or other person authorized by law shall determine the increase in equalized assessed value of all real property within the STAR bond district by subtracting the initial equalized assessed value of all property in the district certified under subsection (c) from the current equalized assessed value of all property in the district. Each year, the property taxes arising from the increase in equalized assessed value in the STAR bond district shall be determined for each taxing district and shall be certified to the county collector.

(g) Beginning with the year in which taxes are collected based on the assessment year in which the first destination user in the first STAR bond project in a STAR bond district makes its first retail sales and for each year thereafter until final maturity of the last STAR bonds issued in the district, the county collector shall, within 30 days after receipt of property taxes, transmit to the Department to be deposited into the STAR Bonds School Improvement and Operations Trust Fund 15% of property taxes attributable to the increase in equalized assessed value within the STAR bond district from each taxing district as certified in subsection (f).

(h) The Department shall pay to the regional superintendent of schools whose educational service region includes Franklin and Williamson Counties, for each year for which money is remitted to the Department and paid into the STAR Bonds School Improvement and Operations Trust Fund, the money in the Fund as provided in this Section. The amount paid to each school district shall be allocated proportionately, based on each qualifying school district's fall enrollment for the then-current school year, such that the school district with the largest fall enrollment receives the largest proportionate share of money paid out of the Fund or by any other method or formula that the regional superintendent of schools deems fit, equitable, and in the public interest. The regional superintendent may allocate moneys to school districts that are outside of his or her educational service region or to other regional superintendents.

The Department shall determine the distributions under this Section using its best judgment and information. The Department shall be held harmless for the distributions made under this Section and all distributions shall be final.

(i) In any year that an assessment appeal is filed, the extension of taxes on any assessment so appealed shall not be delayed. In the case of an assessment that is altered, any taxes extended upon the unauthorized assessment or part thereof shall be abated, or, if already paid, shall be refunded with interest as provided in Section 23-20 of the Property Tax Code. In the case of an assessment appeal, the county collector shall notify the Department that an assessment appeal has been filed and the amount of the tax that would have been deposited in the STAR Bonds School Improvement and Operations Trust Fund. The county collector shall hold that amount in a separate fund until the appeal process is final. After the appeal process is finalized, the county collector shall transmit to the Department the amount of tax that remains, if any, after all required refunds are made. The Department shall pay any amount deposited into the Trust Fund under this Section in the same proportion as determined for payments for that taxable year under subsection (h).

(j) In any year that ad valorem taxes are allocated to the STAR Bonds School Improvement and Operations Trust Fund, that allocation shall not reduce or otherwise impact the school aid provided to any school district under the general State school aid formula provided for in Section 18-8.05 of the School Code or the evidence-based funding formula provided for in Section 18-8.15 of the School Code.

Section 945. The County Economic Development Project Area Property Tax Allocation Act is amended by changing Section 7 as follows:

Sec. 7. Creation of special tax allocation fund. If a county has adopted property tax allocation financing by ordinance for an economic development project area, the Department has approved and certified the economic development project area, and the county clerk has thereafter certified the "total initial equalized value" of the taxable real property within such economic development project area in the manner provided in subsection (b) of Section 6 of this Act, each year after the date of the certification by the county clerk of the "initial equalized assessed value" until economic development project costs and all county obligations financing economic development project costs have been paid, the ad

valorem taxes, if any, arising from the levies upon the taxable real property in the economic development project area by taxing districts and tax rates determined in the manner provided in subsection (b) of Section 6 of this Act shall be divided as follows:

(1) That portion of the taxes levied upon each taxable lot, block, tract or parcel of real property which is attributable to the lower of the current equalized assessed value or the initial equalized assessed value of each such taxable lot, block, tract, or parcel of real property existing at the time property tax allocation financing was adopted shall be allocated and when collected shall be paid by the county collector to the respective affected taxing districts in the manner required by the law in the absence of the adoption of property tax allocation financing.

(2) That portion, if any, of those taxes which is attributable to the increase in the current equalized assessed valuation of each taxable lot, block, tract, or parcel of real property in the economic development project are, over and above the initial equalized assessed value of each property existing at the time property tax allocation financing was adopted shall be allocated to and when collected shall be paid to the county treasurer, who shall deposit those taxes into a special fund called the special tax allocation fund of the county for the purpose of paying economic development project costs and obligations incurred in the payment thereof.

The county, by an ordinance adopting property tax allocation financing, may pledge the funds in and to be deposited in the special tax allocation fund for the payment of obligations issued under this Act and for the payment of economic development project costs. No part of the current equalized assessed valuation of each property in the economic development project area attributable to any increase above the total initial equalized assessed value of such properties shall be used in calculating the general State school aid formula, provided for in Section 18-8 of the School Code, or the evidence-based funding formula, provided for in Section 18-8.15 of the School Code, until such time as all economic development projects costs have been paid as provided for in this Section.

Whenever a county issues bonds for the purpose of financing economic development project costs, the county may provide by ordinance for the appointment of a trustee, which may be any trust company within the State, and for the establishment of the funds or accounts to be maintained by such trustee as the county shall deem necessary to provide

for the security and payment of the bonds. If the county provides for the appointment of a trustee, the trustee shall be considered the assignee of any payments assigned by the county pursuant to the ordinance and this Section. Any amounts paid to the trustee as assignee shall be deposited in the funds or accounts established pursuant to the trust agreement, and shall be held by the trustee in trust for the benefit of the holders of the bonds, and the holders shall have a lien on and a security interest in those bonds or accounts so long as the bonds remain outstanding and unpaid. Upon retirement of the bonds, the trustee shall pay over any excess amounts held to the county for deposit in the special tax allocation fund.

When the economic development project costs, including without limitation all county obligations financing economic development project costs incurred under this Act, have been paid, all surplus funds then remaining in the special tax allocation funds shall be distributed by being paid by the county treasurer to the county collector, who shall immediately thereafter pay those funds to the taxing districts having taxable property in the economic development project area in the same manner and proportion as the most recent distribution by the county collector to those taxing districts of real property taxes from real property in the economic development project area.

Upon the payment of all economic development project costs, retirement of obligations and the distribution of any excess monies pursuant to this Section and not later than 23 years from the date of adoption of the ordinance adopting property tax allocation financing, the county shall adopt an ordinance dissolving the special tax allocation fund for the economic development project area and terminating the designation of the economic development project area as an economic development project area; however, in relation to one or more contiguous parcels not exceeding a total area of 120 acres within which an electric generating facility is intended to be constructed, and with respect to which the owner of that proposed electric generating facility has entered into a redevelopment agreement with Grundy County on or before July 25, 2017, the ordinance of the county required in this paragraph shall not dissolve the special tax allocation fund for the existing economic development project area and shall only terminate the designation of the economic development project area as to those portions of the economic development project area excluding the area covered by the redevelopment agreement between the owner of the proposed electric generating facility and Grundy County; the county shall adopt an ordinance dissolving the

special tax allocation fund for the economic development project area and terminating the designation of the economic development project area as an economic development project area with regard to the electric generating facility property not later than 35 years from the date of adoption of the ordinance adopting property tax allocation financing. Thereafter the rates of the taxing districts shall be extended and taxes levied, collected and distributed in the manner applicable in the absence of the adoption of property tax allocation financing.

Nothing in this Section shall be construed as relieving property in economic development project areas from being assessed as provided in the Property Tax Code or as relieving owners of that property from paying a uniform rate of taxes, as required by Section 4 of Article IX of the Illinois Constitution of 1970.

Section 950. The County Economic Development Project Area Tax Increment Allocation Act of 1991 is amended by changing Section 50 as follows:

(55 ILCS 90/50) (from Ch. 34, par. 8050)

Sec. 50. Special tax allocation fund.

(a) If a county clerk has certified the "total initial equalized assessed value" of the taxable real property within an economic development project area in the manner provided in Section 45, each year after the date of the certification by the county clerk of the "total initial equalized assessed value", until economic development project costs and all county obligations financing economic development project costs have been paid, the ad valorem taxes, if any, arising from the levies upon the taxable real property in the economic development project area by taxing districts and tax rates determined in the manner provided in subsection (b) of Section 45 shall be divided as follows:

(1) That portion of the taxes levied upon each taxable lot, block, tract, or parcel of real property that is attributable to the lower of the current equalized assessed value or the initial equalized assessed value of each taxable lot, block, tract, or parcel of real property existing at the time tax increment financing was adopted shall be allocated to (and when collected shall be paid by the county collector to) the respective affected taxing districts in the manner required by law in the absence of the adoption of tax increment allocation financing.

(2) That portion, if any, of the taxes that is attributable to
the increase in the current equalized assessed valuation of each
taxable lot, block, tract, or parcel of real property in the economic
development project area, over and above the initial equalized
assessed value of each property existing at the time tax increment
financing was adopted, shall be allocated to (and when collected
shall be paid to) the county treasurer, who shall deposit the taxes
into a special fund (called the special tax allocation fund of the
county) for the purpose of paying economic development project
costs and obligations incurred in the payment of those costs.

(b) The county, by an ordinance adopting tax increment allocation
financing, may pledge the monies in and to be deposited into the special
tax allocation fund for the payment of obligations issued under this Act
and for the payment of economic development project costs. No part of the
current equalized assessed valuation of each property in the economic
development project area attributable to any increase above the total initial
equalized assessed value of those properties shall be used in calculating
the general State school aid formula under Section 18-8 of the School
Code or the evidence-based funding formula under Section 18-8.15 of the
School Code until all economic development projects costs have been paid
as provided for in this Section.

(c) When the economic development projects costs, including
without limitation all county obligations financing economic development

then remaining in the special tax allocation fund shall be distributed by
being paid by the county treasurer to the county collector, who shall
immediately pay the monies to the taxing districts having taxable property
in the economic development project area in the same manner and

taxing districts of real property taxes from real property in the economic
development project area.

(d) Upon the payment of all economic development project costs,
retirement of obligations, and distribution of any excess monies under this
Section, the county shall adopt an ordinance dissolving the special tax
allocation fund for the economic development project area and terminating
the designation of the economic development project area as an economic
development project area. Thereafter, the rates of the taxing districts shall
be extended and taxes shall be levied, collected, and distributed in the

manner applicable in the absence of the adoption of tax increment allocation financing.

(e) Nothing in this Section shall be construed as relieving property in the economic development project areas from being assessed as provided in the Property Tax Code or as relieving owners of that property from paying a uniform rate of taxes as required by Section 4 of Article IX of the Illinois Constitution.

Section 955. The Illinois Municipal Code is amended by changing Sections 11-74.4-3, 11-74.4-8, and 11-74.6-35 as follows:

(65 ILCS 5/11-74.4-3) (from Ch. 24, par. 11-74.4-3)

Sec. 11-74.4-3. Definitions. The following terms, wherever used or referred to in this Division 74.4 shall have the following respective meanings, unless in any case a different meaning clearly appears from the context.

(a) For any redevelopment project area that has been designated pursuant to this Section by an ordinance adopted prior to November 1, 1999 (the effective date of Public Act 91-478), "blighted area" shall have the meaning set forth in this Section prior to that date.

On and after November 1, 1999, "blighted area" means any improved or vacant area within the boundaries of a redevelopment project area located within the territorial limits of the municipality where:

(1) If improved, industrial, commercial, and residential buildings or improvements are detrimental to the public safety, health, or welfare because of a combination of 5 or more of the following factors, each of which is (i) present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) reasonably distributed throughout the improved part of the redevelopment project area:

(A) Dilapidation. An advanced state of disrepair or neglect of necessary repairs to the primary structural components of buildings or improvements in such a combination that a documented building condition analysis determines that major repair is required or the defects are so serious and so extensive that the buildings must be removed.

New matter indicated by italics - deletions by strikeout
(B) Obsolescence. The condition or process of falling into disuse. Structures have become ill-suited for the original use.

(C) Deterioration. With respect to buildings, defects including, but not limited to, major defects in the secondary building components such as doors, windows, porches, gutters and downspouts, and fascia. With respect to surface improvements, that the condition of roadways, alleys, curbs, gutters, sidewalks, off-street parking, and surface storage areas evidence deterioration, including, but not limited to, surface cracking, crumbling, potholes, depressions, loose paving material, and weeds protruding through paved surfaces.

(D) Presence of structures below minimum code standards. All structures that do not meet the standards of zoning, subdivision, building, fire, and other governmental codes applicable to property, but not including housing and property maintenance codes.

(E) Illegal use of individual structures. The use of structures in violation of applicable federal, State, or local laws, exclusive of those applicable to the presence of structures below minimum code standards.

(F) Excessive vacancies. The presence of buildings that are unoccupied or under-utilized and that represent an adverse influence on the area because of the frequency, extent, or duration of the vacancies.

(G) Lack of ventilation, light, or sanitary facilities. The absence of adequate ventilation for light or air circulation in spaces or rooms without windows, or that require the removal of dust, odor, gas, smoke, or other noxious airborne materials. Inadequate natural light and ventilation means the absence of skylights or windows for interior spaces or rooms and improper window sizes and amounts by room area to window area ratios. Inadequate sanitary facilities refers to the absence or inadequacy of garbage storage and enclosure, bathroom facilities, hot water and kitchens, and structural inadequacies preventing ingress and egress to and from all rooms and units within a building.

New matter indicated by italics - deletions by strikeout
(H) Inadequate utilities. Underground and overhead utilities such as storm sewers and storm drainage, sanitary sewers, water lines, and gas, telephone, and electrical services that are shown to be inadequate. Inadequate utilities are those that are: (i) of insufficient capacity to serve the uses in the redevelopment project area, (ii) deteriorated, antiquated, obsolete, or in disrepair, or (iii) lacking within the redevelopment project area.

(I) Excessive land coverage and overcrowding of structures and community facilities. The over-intensive use of property and the crowding of buildings and accessory facilities onto a site. Examples of problem conditions warranting the designation of an area as one exhibiting excessive land coverage are: (i) the presence of buildings either improperly situated on parcels or located on parcels of inadequate size and shape in relation to present-day standards of development for health and safety and (ii) the presence of multiple buildings on a single parcel. For there to be a finding of excessive land coverage, these parcels must exhibit one or more of the following conditions: insufficient provision for light and air within or around buildings, increased threat of spread of fire due to the close proximity of buildings, lack of adequate or proper access to a public right-of-way, lack of reasonably required off-street parking, or inadequate provision for loading and service.

(J) Deleterious land use or layout. The existence of incompatible land-use relationships, buildings occupied by inappropriate mixed-uses, or uses considered to be noxious, offensive, or unsuitable for the surrounding area.

(K) Environmental clean-up. The proposed redevelopment project area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the
development or redevelopment of the redevelopment project area.

(L) Lack of community planning. The proposed redevelopment project area was developed prior to or without the benefit or guidance of a community plan. This means that the development occurred prior to the adoption by the municipality of a comprehensive or other community plan or that the plan was not followed at the time of the area's development. This factor must be documented by evidence of adverse or incompatible land-use relationships, inadequate street layout, improper subdivision, parcels of inadequate shape and size to meet contemporary development standards, or other evidence demonstrating an absence of effective community planning.

(M) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated.

(2) If vacant, the sound growth of the redevelopment project area is impaired by a combination of 2 or more of the following factors, each of which is (i) present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) reasonably distributed throughout the vacant part of the redevelopment project area to which it pertains:

(A) Obsolete platting of vacant land that results in parcels of limited or narrow size or configurations of parcels of irregular size or shape that would be difficult to develop on a planned basis and in a manner compatible with contemporary standards and requirements, or platting that failed to create rights-of-ways for streets or alleys or
that created inadequate right-of-way widths for streets, alleys, or other public rights-of-way or that omitted easements for public utilities.

(B) Diversity of ownership of parcels of vacant land sufficient in number to retard or impede the ability to assemble the land for development.

(C) Tax and special assessment delinquencies exist or the property has been the subject of tax sales under the Property Tax Code within the last 5 years.

(D) Deterioration of structures or site improvements in neighboring areas adjacent to the vacant land.

(E) The area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

(F) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated.

(3) If vacant, the sound growth of the redevelopment project area is impaired by one of the following factors that (i) is present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) is reasonably

distributed throughout the vacant part of the redevelopment project area to which it pertains:

(A) The area consists of one or more unused quarries, mines, or strip mine ponds.

(B) The area consists of unused rail yards, rail tracks, or railroad rights-of-way.

(C) The area, prior to its designation, is subject to (i) chronic flooding that adversely impacts on real property in the area as certified by a registered professional engineer or appropriate regulatory agency or (ii) surface water that discharges from all or a part of the area and contributes to flooding within the same watershed, but only if the redevelopment project provides for facilities or improvements to contribute to the alleviation of all or part of the flooding.

(D) The area consists of an unused or illegal disposal site containing earth, stone, building debris, or similar materials that were removed from construction, demolition, excavation, or dredge sites.

(E) Prior to November 1, 1999, the area is not less than 50 nor more than 100 acres and 75% of which is vacant (notwithstanding that the area has been used for commercial agricultural purposes within 5 years prior to the designation of the redevelopment project area), and the area meets at least one of the factors itemized in paragraph (1) of this subsection, the area has been designated as a town or village center by ordinance or comprehensive plan adopted prior to January 1, 1982, and the area has not been developed for that designated purpose.

(F) The area qualified as a blighted improved area immediately prior to becoming vacant, unless there has been substantial private investment in the immediately surrounding area.

(b) For any redevelopment project area that has been designated pursuant to this Section by an ordinance adopted prior to November 1, 1999 (the effective date of Public Act 91-478), "conservation area" shall have the meaning set forth in this Section prior to that date.

On and after November 1, 1999, "conservation area" means any improved area within the boundaries of a redevelopment project area

located within the territorial limits of the municipality in which 50% or more of the structures in the area have an age of 35 years or more. Such an area is not yet a blighted area but because of a combination of 3 or more of the following factors is detrimental to the public safety, health, morals or welfare and such an area may become a blighted area:

(1) Dilapidation. An advanced state of disrepair or neglect of necessary repairs to the primary structural components of buildings or improvements in such a combination that a documented building condition analysis determines that major repair is required or the defects are so serious and so extensive that the buildings must be removed.

With respect to surface improvements, that the condition of roadways, alleys, curbs, gutters, sidewalks, off-street parking, and surface storage areas evidence deterioration, including, but not limited to, surface cracking, crumbling, potholes, depressions, loose paving material, and weeds protruding through paved surfaces.

(4) Presence of structures below minimum code standards. All structures that do not meet the standards of zoning, subdivision, building, fire, and other governmental codes applicable to property, but not including housing and property maintenance codes.

(5) Illegal use of individual structures. The use of structures in violation of applicable federal, State, or local laws, exclusive of those applicable to the presence of structures below minimum code standards.

(6) Excessive vacancies. The presence of buildings that are unoccupied or under-utilized and that represent an adverse influence on the area because of the frequency, extent, or duration of the vacancies.

(7) Lack of ventilation, light, or sanitary facilities. The absence of adequate ventilation for light or air circulation in spaces or rooms without windows, or that require the removal of dust, odor, gas, smoke, or other noxious airborne materials. Inadequate

natural light and ventilation means the absence or inadequacy of skylights or windows for interior spaces or rooms and improper window sizes and amounts by room area to window area ratios. Inadequate sanitary facilities refers to the absence or inadequacy of garbage storage and enclosure, bathroom facilities, hot water and kitchens, and structural inadequacies preventing ingress and egress to and from all rooms and units within a building.

(8) Inadequate utilities. Underground and overhead utilities such as storm sewers and storm drainage, sanitary sewers, water lines, and gas, telephone, and electrical services that are shown to be inadequate. Inadequate utilities are those that are: (i) of insufficient capacity to serve the uses in the redevelopment project area, (ii) deteriorated, antiquated, obsolete, or in disrepair, or (iii) lacking within the redevelopment project area.

(9) Excessive land coverage and overcrowding of structures and community facilities. The over-intensive use of property and the crowding of buildings and accessory facilities onto a site. Examples of problem conditions warranting the designation of an area as one exhibiting excessive land coverage are: the presence of buildings either improperly situated on parcels or located on parcels of inadequate size and shape in relation to present-day standards of development for health and safety and the presence of multiple buildings on a single parcel. For there to be a finding of excessive land coverage, these parcels must exhibit one or more of the following conditions: insufficient provision for light and air within or around buildings, increased threat of spread of fire due to the close proximity of buildings, lack of adequate or proper access to a public right-of-way, lack of reasonably required off-street parking, or inadequate provision for loading and service.

(10) Deleterious land use or layout. The existence of incompatible land-use relationships, buildings occupied by inappropriate mixed-uses, or uses considered to be noxious, offensive, or unsuitable for the surrounding area.

(11) Lack of community planning. The proposed redevelopment project area was developed prior to or without the benefit or guidance of a community plan. This means that the development occurred prior to the adoption by the municipality of a comprehensive or other community plan or that the plan was not followed at the time of the area's development. This factor must be
documented by evidence of adverse or incompatible land-use relationships, inadequate street layout, improper subdivision, parcels of inadequate shape and size to meet contemporary development standards, or other evidence demonstrating an absence of effective community planning.

(12) The area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

(c) "Industrial park" means an area in a blighted or conservation area suitable for use by any manufacturing, industrial, research or transportation enterprise, of facilities to include but not be limited to factories, mills, processing plants, assembly plants, packing plants, fabricating plants, industrial distribution centers, warehouses, repair overhaul or service facilities, freight terminals, research facilities, test facilities or railroad facilities.

(d) "Industrial park conservation area" means an area within the boundaries of a redevelopment project area located within the territorial limits of a municipality that is a labor surplus municipality or within 1 1/2 miles of the territorial limits of a municipality that is a labor surplus municipality if the area is annexed to the municipality; which area is zoned as industrial no later than at the time the municipality by ordinance designates the redevelopment project area, and which area includes both vacant land suitable for use as an industrial park and a blighted area or conservation area contiguous to such vacant land.

(e) "Labor surplus municipality" means a municipality in which, at any time during the 6 months before the municipality by ordinance designates an industrial park conservation area, the unemployment rate was over 6% and was also 100% or more of the national average unemployment rate for that same time as published in the United States Department of Labor Bureau of Labor Statistics publication entitled "The Employment Situation" or its successor publication. For the purpose of this subsection, if unemployment rate statistics for the municipality are not available, the unemployment rate in the municipality shall be deemed to be the same as the unemployment rate in the principal county in which the municipality is located.

(f) "Municipality" shall mean a city, village, incorporated town, or a township that is located in the unincorporated portion of a county with 3 million or more inhabitants, if the county adopted an ordinance that approved the township's redevelopment plan.

(g) "Initial Sales Tax Amounts" means the amount of taxes paid under the Retailers' Occupation Tax Act, Use Tax Act, Service Use Tax Act, the Service Occupation Tax Act, the Municipal Retailers' Occupation Tax Act, and the Municipal Service Occupation Tax Act by retailers and servicemen on transactions at places located in a State Sales Tax Boundary during the calendar year 1985.

(g-1) "Revised Initial Sales Tax Amounts" means the amount of taxes paid under the Retailers' Occupation Tax Act, Use Tax Act, Service Use Tax Act, the Service Occupation Tax Act, the Municipal Retailers' Occupation Tax Act, and the Municipal Service Occupation Tax Act by retailers and servicemen on transactions at places located within the State Sales Tax Boundary revised pursuant to Section 11-74.4-8a(9) of this Act.

(h) "Municipal Sales Tax Increment" means an amount equal to the increase in the aggregate amount of taxes paid to a municipality from the Local Government Tax Fund arising from sales by retailers and servicemen within the redevelopment project area or State Sales Tax Boundary, as the case may be, for as long as the redevelopment project area or State Sales Tax Boundary, as the case may be, exist over and above the aggregate amount of taxes as certified by the Illinois Department of Revenue and paid under the Municipal Retailers' Occupation Tax Act and the Municipal Service Occupation Tax Act by retailers and servicemen, on transactions at places of business located in the redevelopment project area or State Sales Tax Boundary, as the case may be, during the base year which shall be the calendar year immediately prior to the year in which the
municipality adopted tax increment allocation financing. For purposes of computing the aggregate amount of such taxes for base years occurring prior to 1985, the Department of Revenue shall determine the Initial Sales Tax Amounts for such taxes and deduct therefrom an amount equal to 4% of the aggregate amount of taxes per year for each year the base year is prior to 1985, but not to exceed a total deduction of 12%. The amount so determined shall be known as the "Adjusted Initial Sales Tax Amounts". For purposes of determining the Municipal Sales Tax Increment, the Department of Revenue shall for each period subtract from the amount paid to the municipality from the Local Government Tax Fund arising from sales by retailers and servicemen on transactions located in the redevelopment project area or the State Sales Tax Boundary, as the case may be, the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts for the Municipal Retailers' Occupation Tax Act and the Municipal Service Occupation Tax Act. For the State Fiscal Year 1989, this calculation shall be made by utilizing the calendar year 1987 to determine the tax amounts received. For the State Fiscal Year 1990, this calculation shall be made by utilizing the period from January 1, 1988, until September 30, 1988, to determine the tax amounts received from retailers and servicemen pursuant to the Municipal Retailers' Occupation Tax and the Municipal Service Occupation Tax Act, which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For the State Fiscal Year 1991, this calculation shall be made by utilizing the period from October 1, 1988, to June 30, 1989, to determine the tax amounts received from retailers and servicemen pursuant to the Municipal Retailers' Occupation Tax and the Municipal Service Occupation Tax Act which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For every State Fiscal Year thereafter, the applicable period shall be the 12 months beginning July 1 and ending June 30 to determine the tax amounts received which shall have deducted therefrom the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts, as the case may be.

(i) "Net State Sales Tax Increment" means the sum of the following: (a) 80% of the first $100,000 of State Sales Tax Increment annually generated within a State Sales Tax Boundary; (b) 60% of the

amount in excess of $100,000 but not exceeding $500,000 of State Sales Tax Increment annually generated within a State Sales Tax Boundary; and (c) 40% of all amounts in excess of $500,000 of State Sales Tax Increment annually generated within a State Sales Tax Boundary. If, however, a municipality established a tax increment financing district in a county with a population in excess of 3,000,000 before January 1, 1986, and the municipality entered into a contract or issued bonds after January 1, 1986, but before December 31, 1986, to finance redevelopment project costs within a State Sales Tax Boundary, then the Net State Sales Tax Increment means, for the fiscal years beginning July 1, 1990, and July 1, 1991, 100% of the State Sales Tax Increment annually generated within a State Sales Tax Boundary; and notwithstanding any other provision of this Act, for those fiscal years the Department of Revenue shall distribute to those municipalities 100% of their Net State Sales Tax Increment before any distribution to any other municipality and regardless of whether or not those other municipalities will receive 100% of their Net State Sales Tax Increment. For Fiscal Year 1999, and every year thereafter until the year 2007, for any municipality that has not entered into a contract or has not issued bonds prior to June 1, 1988 to finance redevelopment project costs within a State Sales Tax Boundary, the Net State Sales Tax Increment shall be calculated as follows: By multiplying the Net State Sales Tax Increment by 90% in the State Fiscal Year 1999; 80% in the State Fiscal Year 2000; 70% in the State Fiscal Year 2001; 60% in the State Fiscal Year 2002; 50% in the State Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006; and 10% in the State Fiscal Year 2007. No payment shall be made for State Fiscal Year 2008 and thereafter.

Municipalities that issued bonds in connection with a redevelopment project in a redevelopment project area within the State Sales Tax Boundary prior to July 29, 1991, or that entered into contracts in connection with a redevelopment project in a redevelopment project area before June 1, 1988, shall continue to receive their proportional share of the Illinois Tax Increment Fund distribution until the date on which the redevelopment project is completed or terminated. If, however, a municipality that issued bonds in connection with a redevelopment project in a redevelopment project area within the State Sales Tax Boundary prior to July 29, 1991 retires the bonds prior to June 30, 2007 or a municipality that entered into contracts in connection with a redevelopment project in a redevelopment project area before June 1, 1988 completes the contracts...
prior to June 30, 2007, then so long as the redevelopment project is not completed or is not terminated, the Net State Sales Tax Increment shall be calculated, beginning on the date on which the bonds are retired or the contracts are completed, as follows: By multiplying the Net State Sales Tax Increment by 60% in the State Fiscal Year 2002; 50% in the State Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006; and 10% in the State Fiscal Year 2007. No payment shall be made for State Fiscal Year 2008 and thereafter. Refunding of any bonds issued prior to July 29, 1991, shall not alter the Net State Sales Tax Increment.

(j) "State Utility Tax Increment Amount" means an amount equal to the aggregate increase in State electric and gas tax charges imposed on owners and tenants, other than residential customers, of properties located within the redevelopment project area under Section 9-222 of the Public Utilities Act, over and above the aggregate of such charges as certified by the Department of Revenue and paid by owners and tenants, other than residential customers, of properties within the redevelopment project area during the base year, which shall be the calendar year immediately prior to the year of the adoption of the ordinance authorizing tax increment allocation financing.

(k) "Net State Utility Tax Increment" means the sum of the following: (a) 80% of the first $100,000 of State Utility Tax Increment annually generated by a redevelopment project area; (b) 60% of the amount in excess of $100,000 but not exceeding $500,000 of the State Utility Tax Increment annually generated by a redevelopment project area; and (c) 40% of all amounts in excess of $500,000 of State Utility Tax Increment annually generated by a redevelopment project area. For the State Fiscal Year 1999, and every year thereafter until the year 2007, for any municipality that has not entered into a contract or has not issued bonds prior to June 1, 1988 to finance redevelopment project costs within a redevelopment project area, the Net State Utility Tax Increment shall be calculated as follows: By multiplying the Net State Utility Tax Increment by 90% in the State Fiscal Year 1999; 80% in the State Fiscal Year 2000; 70% in the State Fiscal Year 2001; 60% in the State Fiscal Year 2002; 50% in the State Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006; and 10% in the State Fiscal Year 2007. No payment shall be made for the State Fiscal Year 2008 and thereafter.

Municipalities that issue bonds in connection with the redevelopment project during the period from June 1, 1988 until 3 years after the effective date of this Amendatory Act of 1988 shall receive the Net State Utility Tax Increment, subject to appropriation, for 15 State Fiscal Years after the issuance of such bonds. For the 16th through the 20th State Fiscal Years after issuance of the bonds, the Net State Utility Tax Increment shall be calculated as follows: By multiplying the Net State Utility Tax Increment by 90% in year 16; 80% in year 17; 70% in year 18; 60% in year 19; and 50% in year 20. Refunding of any bonds issued prior to June 1, 1988, shall not alter the revised Net State Utility Tax Increment payments set forth above.

(l) "Obligations" mean bonds, loans, debentures, notes, special certificates or other evidence of indebtedness issued by the municipality to carry out a redevelopment project or to refund outstanding obligations.

(m) "Payment in lieu of taxes" means those estimated tax revenues from real property in a redevelopment project area derived from real property that has been acquired by a municipality which according to the redevelopment project or plan is to be used for a private use which taxing districts would have received had a municipality not acquired the real property and adopted tax increment allocation financing and which would result from levies made after the time of the adoption of tax increment allocation financing to the time the current equalized value of real property in the redevelopment project area exceeds the total initial equalized value of real property in said area.

(n) "Redevelopment plan" means the comprehensive program of the municipality for development or redevelopment intended by the payment of redevelopment project costs to reduce or eliminate those conditions the existence of which qualified the redevelopment project area as a "blighted area" or "conservation area" or combination thereof or "industrial park conservation area," and thereby to enhance the tax bases of the taxing districts which extend into the redevelopment project area, provided that, with respect to redevelopment project areas described in subsections (p-1) and (p-2), "redevelopment plan" means the comprehensive program of the affected municipality for the development of qualifying transit facilities. On and after November 1, 1999 (the effective date of Public Act 91-478), no redevelopment plan may be approved or amended that includes the development of vacant land (i) with a golf course and related clubhouse and other facilities or (ii) designated by federal, State, county, or municipal government as public land for

outdoor recreational activities or for nature preserves and used for that purpose within 5 years prior to the adoption of the redevelopment plan. For the purpose of this subsection, "recreational activities" is limited to mean camping and hunting. Each redevelopment plan shall set forth in writing the program to be undertaken to accomplish the objectives and shall include but not be limited to:

(A) an itemized list of estimated redevelopment project costs;

(B) evidence indicating that the redevelopment project area on the whole has not been subject to growth and development through investment by private enterprise, provided that such evidence shall not be required for any redevelopment project area located within a transit facility improvement area established pursuant to Section 11-74.4-3.3;

(C) an assessment of any financial impact of the redevelopment project area on or any increased demand for services from any taxing district affected by the plan and any program to address such financial impact or increased demand;

(D) the sources of funds to pay costs;

(E) the nature and term of the obligations to be issued;

(F) the most recent equalized assessed valuation of the redevelopment project area;

(G) an estimate as to the equalized assessed valuation after redevelopment and the general land uses to apply in the redevelopment project area;

(H) a commitment to fair employment practices and an affirmative action plan;

(I) if it concerns an industrial park conservation area, the plan shall also include a general description of any proposed developer, user and tenant of any property, a description of the type, structure and general character of the facilities to be developed, a description of the type, class and number of new employees to be employed in the operation of the facilities to be developed; and

(J) if property is to be annexed to the municipality, the plan shall include the terms of the annexation agreement.

The provisions of items (B) and (C) of this subsection (n) shall not apply to a municipality that before March 14, 1994 (the effective date of Public Act 88-537) had fixed, either by its corporate authorities or by a

commission designated under subsection (k) of Section 11-74.4-4, a time
and place for a public hearing as required by subsection (a) of Section 11-
74.4-5. No redevelopment plan shall be adopted unless a municipality
complies with all of the following requirements:

(1) The municipality finds that the redevelopment project
area on the whole has not been subject to growth and development
through investment by private enterprise and would not reasonably
be anticipated to be developed without the adoption of the
redevelopment plan, provided, however, that such a finding shall
not be required with respect to any redevelopment project area
located within a transit facility improvement area established
pursuant to Section 11-74.4-3.3.

(2) The municipality finds that the redevelopment plan and
project conform to the comprehensive plan for the development of
the municipality as a whole, or, for municipalities with a
population of 100,000 or more, regardless of when the
redevelopment plan and project was adopted, the redevelopment
plan and project either: (i) conforms to the strategic economic
development or redevelopment plan issued by the designated
planning authority of the municipality, or (ii) includes land uses
that have been approved by the planning commission of the
municipality.

(3) The redevelopment plan establishes the estimated dates
of completion of the redevelopment project and retirement of
obligations issued to finance redevelopment project costs. Those
dates may not be later than the dates set forth under Section 11-
74.4-3.5.

A municipality may by municipal ordinance amend an
existing redevelopment plan to conform to this paragraph (3) as
amended by Public Act 91-478, which municipal ordinance may be
adopted without further hearing or notice and without complying
with the procedures provided in this Act pertaining to an
amendment to or the initial approval of a redevelopment plan and
project and designation of a redevelopment project area.

(3.5) The municipality finds, in the case of an industrial
park conservation area, also that the municipality is a labor surplus
municipality and that the implementation of the redevelopment
plan will reduce unemployment, create new jobs and by the

provision of new facilities enhance the tax base of the taxing districts that extend into the redevelopment project area.

(4) If any incremental revenues are being utilized under Section 8(a)(1) or 8(a)(2) of this Act in redevelopment project areas approved by ordinance after January 1, 1986, the municipality finds: (a) that the redevelopment project area would not reasonably be developed without the use of such incremental revenues, and (b) that such incremental revenues will be exclusively utilized for the development of the redevelopment project area.

(5) If: (a) the redevelopment plan will not result in displacement of residents from 10 or more inhabited residential units, and the municipality certifies in the plan that such displacement will not result from the plan; or (b) the redevelopment plan is for a redevelopment project area located within a transit facility improvement area established pursuant to Section 11-74.4-3.3, and the applicable project is subject to the process for evaluation of environmental effects under the National Environmental Policy Act of 1969, 42 U.S.C. § 4321 et seq., then a housing impact study need not be performed. If, however, the redevelopment plan would result in the displacement of residents from 10 or more inhabited residential units, or if the redevelopment project area contains 75 or more inhabited residential units and no certification is made, then the municipality shall prepare, as part of the separate feasibility report required by subsection (a) of Section 11-74.4-5, a housing impact study.

Part I of the housing impact study shall include (i) data as to whether the residential units are single family or multi-family units, (ii) the number and type of rooms within the units, if that information is available, (iii) whether the units are inhabited or uninhabited, as determined not less than 45 days before the date that the ordinance or resolution required by subsection (a) of Section 11-74.4-5 is passed, and (iv) data as to the racial and ethnic composition of the residents in the inhabited residential units. The data requirement as to the racial and ethnic composition of the residents in the inhabited residential units shall be deemed to be fully satisfied by data from the most recent federal census.

Part II of the housing impact study shall identify the inhabited residential units in the proposed redevelopment project.
area that are to be or may be removed. If inhabited residential units are to be removed, then the housing impact study shall identify (i) the number and location of those units that will or may be removed, (ii) the municipality's plans for relocation assistance for those residents in the proposed redevelopment project area whose residences are to be removed, (iii) the availability of replacement housing for those residents whose residences are to be removed, and shall identify the type, location, and cost of the housing, and (iv) the type and extent of relocation assistance to be provided.

(6) On and after November 1, 1999, the housing impact study required by paragraph (5) shall be incorporated in the redevelopment plan for the redevelopment project area.

(7) On and after November 1, 1999, no redevelopment plan shall be adopted, nor an existing plan amended, nor shall residential housing that is occupied by households of low-income and very low-income persons in currently existing redevelopment project areas be removed after November 1, 1999 unless the redevelopment plan provides, with respect to inhabited housing units that are to be removed for households of low-income and very low-income persons, affordable housing and relocation assistance not less than that which would be provided under the federal Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 and the regulations under that Act, including the eligibility criteria. Affordable housing may be either existing or newly constructed housing. For purposes of this paragraph (7), "low-income households", "very low-income households", and "affordable housing" have the meanings set forth in the Illinois Affordable Housing Act. The municipality shall make a good faith effort to ensure that this affordable housing is located in or near the redevelopment project area within the municipality.

(8) On and after November 1, 1999, if, after the adoption of the redevelopment plan for the redevelopment project area, any municipality desires to amend its redevelopment plan to remove more inhabited residential units than specified in its original redevelopment plan, that change shall be made in accordance with the procedures in subsection (c) of Section 11-74.4-5.

(9) For redevelopment project areas designated prior to November 1, 1999, the redevelopment plan may be amended

without further joint review board meeting or hearing, provided that the municipality shall give notice of any such changes by mail to each affected taxing district and registrant on the interested party registry, to authorize the municipality to expend tax increment revenues for redevelopment project costs defined by paragraphs (5) and (7.5), subparagraphs (E) and (F) of paragraph (11), and paragraph (11.5) of subsection (q) of Section 11-74.4-3, so long as the changes do not increase the total estimated redevelopment project costs set out in the redevelopment plan by more than 5% after adjustment for inflation from the date the plan was adopted.

(o) "Redevelopment project" means any public and private development project in furtherance of the objectives of a redevelopment plan. On and after November 1, 1999 (the effective date of Public Act 91-478), no redevelopment plan may be approved or amended that includes the development of vacant land (i) with a golf course and related clubhouse and other facilities or (ii) designated by federal, State, county, or municipal government as public land for outdoor recreational activities or for nature preserves and used for that purpose within 5 years prior to the adoption of the redevelopment plan. For the purpose of this subsection, "recreational activities" is limited to mean camping and hunting.

(p) "Redevelopment project area" means an area designated by the municipality, which is not less in the aggregate than 1 1/2 acres and in respect to which the municipality has made a finding that there exist conditions which cause the area to be classified as an industrial park conservation area or a blighted area or a conservation area, or a combination of both blighted areas and conservation areas.

(p-1) Notwithstanding any provision of this Act to the contrary, on and after August 25, 2009 (the effective date of Public Act 96-680), a redevelopment project area may include areas within a one-half mile radius of an existing or proposed Regional Transportation Authority Suburban Transit Access Route (STAR Line) station without a finding that the area is classified as an industrial park conservation area, a blighted area, a conservation area, or a combination thereof, but only if the municipality receives unanimous consent from the joint review board created to review the proposed redevelopment project area.

(p-2) Notwithstanding any provision of this Act to the contrary, on and after the effective date of this amendatory Act of the 99th General Assembly, a redevelopment project area may include areas within a transit facility improvement area that has been established pursuant to Section 11-
(q) "Redevelopment project costs", except for redevelopment project areas created pursuant to subsection subsections (p-1) or (p-2), means and includes the sum total of all reasonable or necessary costs incurred or estimated to be incurred, and any such costs incidental to a redevelopment plan and a redevelopment project. Such costs include, without limitation, the following:

(1) Costs of studies, surveys, development of plans, and specifications, implementation and administration of the redevelopment plan including but not limited to staff and professional service costs for architectural, engineering, legal, financial, planning or other services, provided however that no charges for professional services may be based on a percentage of the tax increment collected; except that on and after November 1, 1999 (the effective date of Public Act 91-478), no contracts for professional services, excluding architectural and engineering services, may be entered into if the terms of the contract extend beyond a period of 3 years. In addition, "redevelopment project costs" shall not include lobbying expenses. After consultation with the municipality, each tax increment consultant or advisor to a municipality that plans to designate or has designated a redevelopment project area shall inform the municipality in writing of any contracts that the consultant or advisor has entered into with entities or individuals that have received, or are receiving, payments financed by tax increment revenues produced by the redevelopment project area with respect to which the consultant or advisor has performed, or will be performing, service for the municipality. This requirement shall be satisfied by the consultant or advisor before the commencement of services for the municipality and thereafter whenever any other contracts with those individuals or entities are executed by the consultant or advisor;

(1.5) After July 1, 1999, annual administrative costs shall not include general overhead or administrative costs of the municipality that would still have been incurred by the municipality if the municipality had not designated a redevelopment project area or approved a redevelopment plan;

(1.6) The cost of marketing sites within the redevelopment project area to prospective businesses, developers, and investors;

(2) Property assembly costs, including but not limited to acquisition of land and other property, real or personal, or rights or interests therein, demolition of buildings, site preparation, site improvements that serve as an engineered barrier addressing ground level or below ground environmental contamination, including, but not limited to parking lots and other concrete or asphalt barriers, and the clearing and grading of land;

(3) Costs of rehabilitation, reconstruction or repair or remodeling of existing public or private buildings, fixtures, and leasehold improvements; and the cost of replacing an existing public building if pursuant to the implementation of a redevelopment project the existing public building is to be demolished to use the site for private investment or devoted to a different use requiring private investment; including any direct or indirect costs relating to Green Globes or LEED certified construction elements or construction elements with an equivalent certification;

(4) Costs of the construction of public works or improvements, including any direct or indirect costs relating to Green Globes or LEED certified construction elements or construction elements with an equivalent certification, except that on and after November 1, 1999, redevelopment project costs shall not include the cost of constructing a new municipal public building principally used to provide offices, storage space, or conference facilities or vehicle storage, maintenance, or repair for administrative, public safety, or public works personnel and that is not intended to replace an existing public building as provided under paragraph (3) of subsection (q) of Section 11-74.4-3 unless either (i) the construction of the new municipal building implements a redevelopment project that was included in a redevelopment plan that was adopted by the municipality prior to November 1, 1999, (ii) the municipality makes a reasonable determination in the redevelopment plan, supported by information that provides the basis for that determination, that the new municipal building is required to meet an increase in the need for public safety purposes anticipated to result from the implementation of the redevelopment plan, or (iii) the new

municipal public building is for the storage, maintenance, or repair of transit vehicles and is located in a transit facility improvement area that has been established pursuant to Section 11-74.4-3.3;

(5) Costs of job training and retraining projects, including the cost of "welfare to work" programs implemented by businesses located within the redevelopment project area;

(6) Financing costs, including but not limited to all necessary and incidental expenses related to the issuance of obligations and which may include payment of interest on any obligations issued hereunder including interest accruing during the estimated period of construction of any redevelopment project for which such obligations are issued and for not exceeding 36 months thereafter and including reasonable reserves related thereto;

(7) To the extent the municipality by written agreement accepts and approves the same, all or a portion of a taxing district's capital costs resulting from the redevelopment project necessarily incurred or to be incurred within a taxing district in furtherance of the objectives of the redevelopment plan and project;

(7.5) For redevelopment project areas designated (or redevelopment project areas amended to add or increase the number of tax-increment-financing assisted housing units) on or after November 1, 1999, an elementary, secondary, or unit school district's increased costs attributable to assisted housing units located within the redevelopment project area for which the developer or redeveloper receives financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the assisted housing sites necessary for the completion of that housing as authorized by this Act, and which costs shall be paid by the municipality from the Special Tax Allocation Fund when the tax increment revenue is received as a result of the assisted housing units and shall be calculated annually as follows:

(A) for foundation districts, excluding any school district in a municipality with a population in excess of 1,000,000, by multiplying the district's increase in attendance resulting from the net increase in new students enrolled in that school district who reside in housing units within the redevelopment project area that have received
financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by the most recently available per capita tuition cost as defined in Section 10-20.12a of the School Code less any increase in general State aid as defined in Section 18-8.05 of the School Code or evidence-based funding as defined in Section 18-8.15 of the School Code attributable to these added new students subject to the following annual limitations:

(i) for unit school districts with a district average 1995-96 Per Capita Tuition Charge of less than $5,900, no more than 25% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act;

(ii) for elementary school districts with a district average 1995-96 Per Capita Tuition Charge of less than $5,900, no more than 17% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act; and

(iii) for secondary school districts with a district average 1995-96 Per Capita Tuition Charge of less than $5,900, no more than 8% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act.

(B) For alternate method districts, flat grant districts, and foundation districts with a district average 1995-96 Per Capita Tuition Charge equal to or more than $5,900, excluding any school district with a population in excess of 1,000,000, by multiplying the district's increase in attendance resulting from the net increase in new students enrolled in that school district who reside in housing units within the redevelopment project area that have received

financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by the most recently available per capita tuition cost as defined in Section 10-20.12a of the School Code less any increase in general state aid as defined in Section 18-8.05 of the School Code or evidence-based funding as defined in Section 18-8.15 of the School Code attributable to these added new students subject to the following annual limitations:

(i) for unit school districts, no more than 40% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act;

(ii) for elementary school districts, no more than 27% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act; and

(iii) for secondary school districts, no more than 13% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act.

(C) For any school district in a municipality with a population in excess of 1,000,000, the following restrictions shall apply to the reimbursement of increased costs under this paragraph (7.5):

(i) no increased costs shall be reimbursed unless the school district certifies that each of the schools affected by the assisted housing project is at or over its student capacity;

(ii) the amount reimbursable shall be reduced by the value of any land donated to the school district by the municipality or developer, and
by the value of any physical improvements made to
the schools by the municipality or developer; and
(iii) the amount reimbursed may not affect
amounts otherwise obligated by the terms of any
bonds, notes, or other funding instruments, or the
terms of any redevelopment agreement.

Any school district seeking payment under this paragraph
(7.5) shall, after July 1 and before September 30 of each
year, provide the municipality with reasonable evidence to
support its claim for reimbursement before the municipality
shall be required to approve or make the payment to the
school district. If the school district fails to provide the
information during this period in any year, it shall forfeit
any claim to reimbursement for that year. School districts
may adopt a resolution waiving the right to all or a portion
of the reimbursement otherwise required by this paragraph
(7.5). By acceptance of this reimbursement the school
district waives the right to directly or indirectly set aside,
modify, or contest in any manner the establishment of the
redevelopment project area or projects;

(7.7) For redevelopment project areas designated (or
redevelopment project areas amended to add or increase the
number of tax-increment-financing assisted housing units) on or
after January 1, 2005 (the effective date of Public Act 93-961), a
public library district's increased costs attributable to assisted
housing units located within the redevelopment project area for
which the developer or redeveloper receives financial assistance
through an agreement with the municipality or because the
municipality incurs the cost of necessary infrastructure
improvements within the boundaries of the assisted housing sites
necessary for the completion of that housing as authorized by this
Act shall be paid to the library district by the municipality from the
Special Tax Allocation Fund when the tax increment revenue is
received as a result of the assisted housing units. This paragraph
(7.7) applies only if (i) the library district is located in a county that
is subject to the Property Tax Extension Limitation Law or (ii) the
library district is not located in a county that is subject to the
Property Tax Extension Limitation Law but the district is
prohibited by any other law from increasing its tax levy rate without a prior voter referendum.

The amount paid to a library district under this paragraph (7.7) shall be calculated by multiplying (i) the net increase in the number of persons eligible to obtain a library card in that district who reside in housing units within the redevelopment project area that have received financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by (ii) the per-patron cost of providing library services so long as it does not exceed $120. The per-patron cost shall be the Total Operating Expenditures Per Capita for the library in the previous fiscal year. The municipality may deduct from the amount that it must pay to a library district under this paragraph any amount that it has voluntarily paid to the library district from the tax increment revenue. The amount paid to a library district under this paragraph (7.7) shall be no more than 2% of the amount produced by the assisted housing units and deposited into the Special Tax Allocation Fund.

A library district is not eligible for any payment under this paragraph (7.7) unless the library district has experienced an increase in the number of patrons from the municipality that created the tax-increment-financing district since the designation of the redevelopment project area.

Any library district seeking payment under this paragraph (7.7) shall, after July 1 and before September 30 of each year, provide the municipality with convincing evidence to support its claim for reimbursement before the municipality shall be required to approve or make the payment to the library district. If the library district fails to provide the information during this period in any year, it shall forfeit any claim to reimbursement for that year. Library districts may adopt a resolution waiving the right to all or a portion of the reimbursement otherwise required by this paragraph (7.7). By acceptance of such reimbursement, the library district shall forfeit any right to directly or indirectly set aside, modify, or contest in any manner whatsoever the establishment of the redevelopment project area or projects;

(8) Relocation costs to the extent that a municipality determines that relocation costs shall be paid or is required to make payment of relocation costs by federal or State law or in order to satisfy subparagraph (7) of subsection (n);

(9) Payment in lieu of taxes;

(10) Costs of job training, retraining, advanced vocational education or career education, including but not limited to courses in occupational, semi-technical or technical fields leading directly to employment, incurred by one or more taxing districts, provided that such costs (i) are related to the establishment and maintenance of additional job training, advanced vocational education or career education programs for persons employed or to be employed by employers located in a redevelopment project area; and (ii) when incurred by a taxing district or taxing districts other than the municipality, are set forth in a written agreement by or among the municipality and the taxing district or taxing districts, which agreement describes the program to be undertaken, including but not limited to the number of employees to be trained, a description of the training and services to be provided, the number and type of positions available or to be available, itemized costs of the program and sources of funds to pay for the same, and the term of the agreement. Such costs include, specifically, the payment by community college districts of costs pursuant to Sections 3-37, 3-38, 3-40 and 3-40.1 of the Public Community College Act and by school districts of costs pursuant to Sections 10-22.20a and 10-23.3a of the School Code;

(11) Interest cost incurred by a redeveloper related to the construction, renovation or rehabilitation of a redevelopment project provided that:

(A) such costs are to be paid directly from the special tax allocation fund established pursuant to this Act;

(B) such payments in any one year may not exceed 30% of the annual interest costs incurred by the redeveloper with regard to the redevelopment project during that year;

(C) if there are not sufficient funds available in the special tax allocation fund to make the payment pursuant to this paragraph (11) then the amounts so due shall accrue and be payable when sufficient funds are available in the special tax allocation fund;

(D) the total of such interest payments paid pursuant to this Act may not exceed 30% of the total (i) cost paid or incurred by the redeveloper for the redevelopment project plus (ii) redevelopment project costs excluding any property assembly costs and any relocation costs incurred by a municipality pursuant to this Act; and

(E) the cost limits set forth in subparagraphs (B) and (D) of paragraph (11) shall be modified for the financing of rehabilitated or new housing units for low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act. The percentage of 75% shall be substituted for 30% in subparagraphs (B) and (D) of paragraph (11); and

(F) instead of the eligible costs provided by subparagraphs (B) and (D) of paragraph (11), as modified by this subparagraph, and notwithstanding any other provisions of this Act to the contrary, the municipality may pay from tax increment revenues up to 50% of the cost of construction of new housing units to be occupied by low-income households and very low-income households as defined in Section 3 of the Illinois Affordable Housing Act. The cost of construction of those units may be derived from the proceeds of bonds issued by the municipality under this Act or other constitutional or statutory authority or from other sources of municipal revenue that may be reimbursed from tax increment revenues or the proceeds of bonds issued to finance the construction of that housing.

The eligible costs provided under this subparagraph (F) of paragraph (11) shall be an eligible cost for the construction, renovation, and rehabilitation of all low and very low-income housing units, as defined in Section 3 of the Illinois Affordable Housing Act, within the redevelopment project area. If the low and very low-income units are part of a residential redevelopment project that includes units not affordable to low and very low-income households, only the low and very low-income units shall be eligible for benefits under this subparagraph (F) of paragraph (11). households, as defined in Section 3 of the Illinois Affordable Housing Act, of those units constructed with eligible costs made available under the provisions of this subparagraph (F) of paragraph (11) shall be established by guidelines adopted by the municipality. The responsibility for annually documenting the initial occupancy of the units by low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act, shall be that of the then current owner of the property. For ownership units, the guidelines will provide, at a minimum, for a reasonable recapture of funds, or other appropriate methods designed to preserve the original affordability of the ownership units. For rental units, the guidelines will provide, at a minimum, for the affordability of rent to low and very low-income households. As units become available, they shall be rented to income-eligible tenants. The municipality may modify these guidelines from time to time; the guidelines, however, shall be in effect for as long as tax increment revenue is being used to pay for costs associated with the units or for the retirement of bonds issued to finance the units or for the life of the redevelopment project area, whichever is later; 

(11.5) If the redevelopment project area is located within a municipality with a population of more than 100,000, the cost of day care services for children of employees from low-income families working for businesses located within the redevelopment project area and all or a portion of the cost of operation of day care centers established by redevelopment project area businesses to serve employees from low-income families working in businesses located in the redevelopment project area. For the purposes of this paragraph, "low-income families" means families whose annual income does not exceed 80% of the municipal, county, or regional median income, adjusted for family size, as the annual income and municipal, county, or regional median income are determined from time to time by the United States Department of Housing and Urban Development.

(12) Unless explicitly stated herein the cost of construction of new privately-owned buildings shall not be an eligible redevelopment project cost.

(13) After November 1, 1999 (the effective date of Public Act 91-478), none of the redevelopment project costs enumerated in this subsection shall be eligible redevelopment project costs if those costs would provide direct financial support to a retail entity initiating operations in the redevelopment project area while terminating operations at another Illinois location within 10 miles of the redevelopment project area but outside the boundaries of the redevelopment project area municipality. For purposes of this paragraph, termination means a closing of a retail operation that is directly related to the opening of the same operation or like retail entity owned or operated by more than 50% of the original ownership in a redevelopment project area, but it does not mean closing an operation for reasons beyond the control of the retail entity, as documented by the retail entity, subject to a reasonable finding by the municipality that the current location contained inadequate space, had become economically obsolete, or was no longer a viable location for the retailer or serviceman.

(14) No cost shall be a redevelopment project cost in a redevelopment project area if used to demolish, remove, or substantially modify a historic resource, after August 26, 2008 (the effective date of Public Act 95-934), unless no prudent and feasible alternative exists. "Historic resource" for the purpose of this paragraph item (14) means (i) a place or structure that is included or eligible for inclusion on the National Register of Historic Places or (ii) a contributing structure in a district on the National Register of Historic Places. This paragraph item (14) does not apply to a place or structure for which demolition, removal, or modification is subject to review by the preservation agency of a Certified Local Government designated as such by the National Park Service of the United States Department of the Interior.

If a special service area has been established pursuant to the Special Service Area Tax Act or Special Service Area Tax Law, then any tax increment revenues derived from the tax imposed pursuant to the Special Service Area Tax Act or Special Service Area Tax Law may be used within the redevelopment project area for the purposes permitted by that Act or Law as well as the purposes permitted by this Act.

(q-1) For redevelopment project areas created pursuant to subsection (p-1), redevelopment project costs are limited to those costs in paragraph (q) that are related to the existing or proposed Regional Transportation Authority Suburban Transit Access Route (STAR Line) station.

New matter indicated by italics - deletions by strikeout
(q-2) For a redevelopment project area located within a transit facility improvement area established pursuant to Section 11-74.4-3.3, redevelopment project costs means those costs described in subsection (q) that are related to the construction, reconstruction, rehabilitation, remodeling, or repair of any existing or proposed transit facility.

(r) "State Sales Tax Boundary" means the redevelopment project area or the amended redevelopment project area boundaries which are determined pursuant to subsection (9) of Section 11-74.4-8a of this Act. The Department of Revenue shall certify pursuant to subsection (9) of Section 11-74.4-8a the appropriate boundaries eligible for the determination of State Sales Tax Increment.

(s) "State Sales Tax Increment" means an amount equal to the increase in the aggregate amount of taxes paid by retailers and servicemen, other than retailers and servicemen subject to the Public Utilities Act, on transactions at places of business located within a State Sales Tax Boundary pursuant to the Retailers' Occupation Tax Act, the Use Tax Act, the Service Use Tax Act, and the Service Occupation Tax Act, except such portion of such increase that is paid into the State and Local Sales Tax Reform Fund, the Local Government Distributive Fund, the Local Government Tax Fund and the County and Mass Transit District Fund, for as long as State participation exists, over and above the Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts for such taxes as certified by the Department of Revenue and paid under those Acts by retailers and servicemen on transactions at places of business located within the State Sales Tax Boundary during the base year which shall be the calendar year immediately prior to the year in which the municipality adopted tax increment allocation financing, less 3.0% of such amounts generated under the Retailers' Occupation Tax Act, Use Tax Act and Service Use Tax Act and the Service Occupation Tax Act, which sum shall be appropriated to the Department of Revenue to cover its costs of administering and enforcing this Section. For purposes of computing the aggregate amount of such taxes for base years occurring prior to 1985, the Department of Revenue shall compute the Initial Sales Tax Amount for such taxes and deduct therefrom an amount equal to 4% of the aggregate amount of taxes per year for each year the base year is prior to 1985, but not to exceed a total deduction of 12%. The amount so determined shall be known as the "Adjusted Initial Sales Tax Amount". For purposes of determining the State Sales Tax Increment the Department of Revenue shall for each period subtract from the tax amounts received
from retailers and servicemen on transactions located in the State Sales Tax Boundary, the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or Revised Initial Sales Tax Amounts for the Retailers' Occupation Tax Act, the Use Tax Act, the Service Use Tax Act and the Service Occupation Tax Act. For the State Fiscal Year 1989 this calculation shall be made by utilizing the calendar year 1987 to determine the tax amounts received. For the State Fiscal Year 1990, this calculation shall be made by utilizing the period from January 1, 1988, until September 30, 1988, to determine the tax amounts received from retailers and servicemen, which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For the State Fiscal Year 1991, this calculation shall be made by utilizing the period from October 1, 1988, until June 30, 1989, to determine the tax amounts received from retailers and servicemen, which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For every State Fiscal Year thereafter, the applicable period shall be the 12 months beginning July 1 and ending on June 30, to determine the tax amounts received which shall have deducted therefrom the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts and any other municipal corporations or districts with the power to levy taxes.

(t) "Taxing districts" means counties, townships, cities and incorporated towns and villages, school, road, park, sanitary, mosquito abatement, forest preserve, public health, fire protection, river conservancy, tuberculosis sanitarium and any other municipal corporations or districts with the power to levy taxes.

(u) "Taxing districts' capital costs" means those costs of taxing districts for capital improvements that are found by the municipal corporate authorities to be necessary and directly result from the redevelopment project.

(v) As used in subsection (a) of Section 11-74.4-3 of this Act, "vacant land" means any parcel or combination of parcels of real property without industrial, commercial, and residential buildings which has not been used for commercial agricultural purposes within 5 years prior to the designation of the redevelopment project area, unless the parcel is

included in an industrial park conservation area or the parcel has been subdivided; provided that if the parcel was part of a larger tract that has been divided into 3 or more smaller tracts that were accepted for recording during the period from 1950 to 1990, then the parcel shall be deemed to have been subdivided, and all proceedings and actions of the municipality taken in that connection with respect to any previously approved or designated redevelopment project area or amended redevelopment project area are hereby validated and hereby declared to be legally sufficient for all purposes of this Act. For purposes of this Section and only for land subject to the subdivision requirements of the Plat Act, land is subdivided when the original plat of the proposed Redevelopment Project Area or relevant portion thereof has been properly certified, acknowledged, approved, and recorded or filed in accordance with the Plat Act and a preliminary plat, if any, for any subsequent phases of the proposed Redevelopment Project Area or relevant portion thereof has been properly approved and filed in accordance with the applicable ordinance of the municipality.

(w) "Annual Total Increment" means the sum of each municipality's annual Net Sales Tax Increment and each municipality's annual Net Utility Tax Increment. The ratio of the Annual Total Increment of each municipality to the Annual Total Increment for all municipalities, as most recently calculated by the Department, shall determine the proportional shares of the Illinois Tax Increment Fund to be distributed to each municipality.

(x) "LEED certified" means any certification level of construction elements by a qualified Leadership in Energy and Environmental Design Accredited Professional as determined by the U.S. Green Building Council.

(y) "Green Globes certified" means any certification level of construction elements by a qualified Green Globes Professional as determined by the Green Building Initiative.

Sec. 11-74.4-8. Tax increment allocation financing. A municipality may not adopt tax increment financing in a redevelopment project area after the effective date of this amendatory Act of 1997 that will encompass an area that is currently included in an enterprise zone created under the Illinois Enterprise Zone Act unless that municipality, pursuant to Section 5.4 of the Illinois Enterprise Zone Act, amends the enterprise zone

designating ordinance to limit the eligibility for tax abatements as provided in Section 5.4.1 of the Illinois Enterprise Zone Act. A municipality, at the time a redevelopment project area is designated, may adopt tax increment allocation financing by passing an ordinance providing that the ad valorem taxes, if any, arising from the levies upon taxable real property in such redevelopment project area by taxing districts and tax rates determined in the manner provided in paragraph (c) of Section 11-74.4-9 each year after the effective date of the ordinance until redevelopment project costs and all municipal obligations financing redevelopment project costs incurred under this Division have been paid shall be divided as follows, provided, however, that with respect to any redevelopment project area located within a transit facility improvement area established pursuant to Section 11-74.4-3.3 in a municipality with a population of 1,000,000 or more, ad valorem taxes, if any, arising from the levies upon taxable real property in such redevelopment project area shall be allocated as specifically provided in this Section:

(a) That portion of taxes levied upon each taxable lot, block, tract or parcel of real property which is attributable to the lower of the current equalized assessed value or the initial equalized assessed value of each such taxable lot, block, tract or parcel of real property in the redevelopment project area shall be allocated to and when collected shall be paid by the county collector to the respective affected taxing districts in the manner required by law in the absence of the adoption of tax increment allocation financing.

(b) Except from a tax levied by a township to retire bonds issued to satisfy court-ordered damages, that portion, if any, of such taxes which is attributable to the increase in the current equalized assessed valuation of each taxable lot, block, tract or parcel of real property in the redevelopment project area over and above the initial equalized assessed value of each property in the project area shall be allocated to and when collected shall be paid to the municipal treasurer who shall deposit said taxes into a special fund called the special tax allocation fund of the municipality for the purpose of paying redevelopment project costs and obligations incurred in the payment thereof. In any county with a population of 3,000,000 or more that has adopted a procedure for collecting taxes that provides for one or more of the installments of the taxes to be billed and collected on an estimated basis, the

municipal treasurer shall be paid for deposit in the special tax allocation fund of the municipality, from the taxes collected from estimated bills issued for property in the redevelopment project area, the difference between the amount actually collected from each taxable lot, block, tract, or parcel of real property within the redevelopment project area and an amount determined by multiplying the rate at which taxes were last extended against the taxable lot, block, track, or parcel of real property in the manner provided in subsection (c) of Section 11-74.4-9 by the initial equalized assessed value of the property divided by the number of installments in which real estate taxes are billed and collected within the county; provided that the payments on or before December 31, 1999 to a municipal treasurer shall be made only if each of the following conditions are met:

1. The total equalized assessed value of the redevelopment project area as last determined was not less than 175% of the total initial equalized assessed value.
2. Not more than 50% of the total equalized assessed value of the redevelopment project area as last determined is attributable to a piece of property assigned a single real estate index number.
3. The municipal clerk has certified to the county clerk that the municipality has issued its obligations to which there has been pledged the incremental property taxes of the redevelopment project area or taxes levied and collected on any or all property in the municipality or the full faith and credit of the municipality to pay or secure payment for all or a portion of the redevelopment project costs. The certification shall be filed annually no later than September 1 for the estimated taxes to be distributed in the following year; however, for the year 1992 the certification shall be made at any time on or before March 31, 1992.
4. The municipality has not requested that the total initial equalized assessed value of real property be adjusted as provided in subsection (b) of Section 11-74.4-9.

The conditions of paragraphs (1) through (4) do not apply after December 31, 1999 to payments to a municipal treasurer made by a county with 3,000,000 or more inhabitants that has adopted an estimated billing procedure for collecting taxes. If a
county that has adopted the estimated billing procedure makes an erroneous overpayment of tax revenue to the municipal treasurer, then the county may seek a refund of that overpayment. The county shall send the municipal treasurer a notice of liability for the overpayment on or before the mailing date of the next real estate tax bill within the county. The refund shall be limited to the amount of the overpayment.

It is the intent of this Division that after the effective date of this amendatory Act of 1988 a municipality's own ad valorem tax arising from levies on taxable real property be included in the determination of incremental revenue in the manner provided in paragraph (c) of Section 11-74.4-9. If the municipality does not extend such a tax, it shall annually deposit in the municipality's Special Tax Increment Fund an amount equal to 10% of the total contributions to the fund from all other taxing districts in that year. The annual 10% deposit required by this paragraph shall be limited to the actual amount of municipally produced incremental tax revenues available to the municipality from taxpayers located in the redevelopment project area in that year if: (a) the plan for the area restricts the use of the property primarily to industrial purposes, (b) the municipality establishing the redevelopment project area is a home-rule community with a 1990 population of between 25,000 and 50,000, (c) the municipality is wholly located within a county with a 1990 population of over 750,000 and (d) the redevelopment project area was established by the municipality prior to June 1, 1990. This payment shall be in lieu of a contribution of ad valorem taxes on real property. If no such payment is made, any redevelopment project area of the municipality shall be dissolved.

If a municipality has adopted tax increment allocation financing by ordinance and the County Clerk thereafter certifies the "total initial equalized assessed value as adjusted" of the taxable real property within such redevelopment project area in the manner provided in paragraph (b) of Section 11-74.4-9, each year after the date of the certification of the total initial equalized assessed value as adjusted until redevelopment project costs and all municipal obligations financing redevelopment project costs have been paid the ad valorem taxes, if any, arising from the levies upon the taxable real property in such redevelopment project area by taxing

districts and tax rates determined in the manner provided in paragraph (c) of Section 11-74.4-9 shall be divided as follows, provided, however, that with respect to any redevelopment project area located within a transit facility improvement area established pursuant to Section 11-74.4-3.3 in a municipality with a population of 1,000,000 or more, ad valorem taxes, if any, arising from the levies upon the taxable real property in such redevelopment project area shall be allocated as specifically provided in this Section:

(1) That portion of the taxes levied upon each taxable lot, block, tract or parcel of real property which is attributable to the lower of the current equalized assessed value or "current equalized assessed value as adjusted" or the initial equalized assessed value of each such taxable lot, block, tract, or parcel of real property existing at the time tax increment financing was adopted, minus the total current homestead exemptions under Article 15 of the Property Tax Code in the redevelopment project area shall be allocated to and when collected shall be paid by the county collector to the respective affected taxing districts in the manner required by law in the absence of the adoption of tax increment allocation financing.

(2) That portion, if any, of such taxes which is attributable to the increase in the current equalized assessed valuation of each taxable lot, block, tract, or parcel of real property in the redevelopment project area, over and above the initial equalized assessed value of each property existing at the time tax increment financing was adopted, minus the total current homestead exemptions pertaining to each piece of property provided by Article 15 of the Property Tax Code in the redevelopment project area, shall be allocated to and when collected shall be paid to the municipal Treasurer, who shall deposit said taxes into a special fund called the special tax allocation fund of the municipality for the purpose of paying redevelopment project costs and obligations incurred in the payment thereof. The municipality may pledge in the ordinance the funds in and to be deposited in the special tax allocation fund for the payment of such costs and obligations. project area attributable to any increase above the total initial equalized assessed value, or the total initial equalized assessed value as adjusted, of such properties shall be used in calculating the general State school aid formula, provided for in Section 18-8 of the School Code, or the evidence-based funding formula, provided for in Section 18-8.15 of the School Code, until such time as all redevelopment project costs have been paid as provided for in this Section.

Whenever a municipality issues bonds for the purpose of financing redevelopment project costs, such municipality may provide by ordinance for the appointment of a trustee, which may be any trust company within the State, and for the establishment of such funds or accounts to be maintained by such trustee as the municipality shall deem necessary to provide for the security and payment of the bonds. If such municipality provides for the appointment of a trustee, such trustee shall be considered the assignee of any payments assigned by the municipality pursuant to such ordinance and this Section. Any amounts paid to such trustee as assignee shall be deposited in the funds or accounts established pursuant to such trust agreement, and shall be held by such trustee in trust for the benefit of the holders of the bonds, and such holders shall have a lien on and a security interest in such funds or accounts so long as the bonds remain outstanding and unpaid. Upon retirement of the bonds, the trustee shall pay over any excess amounts held to the municipality for deposit in the special tax allocation fund.

When such redevelopment projects costs, including without limitation all municipal obligations financing redevelopment project costs incurred under this Division, have been paid, all surplus funds then remaining in the special tax allocation fund shall be distributed by being paid by the municipal treasurer to the Department of Revenue, the municipality and the county collector; first to the Department of Revenue and the municipality in direct proportion to the tax incremental revenue received from the State and the municipality, but not to exceed the total incremental revenue received from the State or the municipality less any annual surplus distribution of incremental revenue previously made; with any remaining funds to be paid to the County Collector who shall immediately thereafter pay said funds to the taxing districts in the

redevelopment project area in the same manner and proportion as the most recent distribution by the county collector to the affected districts of real property taxes from real property in the redevelopment project area.

Upon the payment of all redevelopment project costs, the retirement of obligations, the distribution of any excess monies pursuant to this Section, and final closing of the books and records of the redevelopment project area, the municipality shall adopt an ordinance dissolving the special tax allocation fund for the redevelopment project area and terminating the designation of the redevelopment project area as a redevelopment project area. Title to real or personal property and public improvements acquired by or for the municipality as a result of the redevelopment project and plan shall vest in the municipality when acquired and shall continue to be held by the municipality after the redevelopment project area has been terminated. Municipalities shall notify affected taxing districts prior to November 1 if the redevelopment project area is to be terminated by December 31 of that same year. If a municipality extends estimated dates of completion of a redevelopment project and retirement of obligations to finance a redevelopment project, as allowed by this amendatory Act of 1993, that extension shall not extend the property tax increment allocation financing authorized by this Section. Thereafter the rates of the taxing districts shall be extended and taxes levied, collected and distributed in the manner applicable in the absence of the adoption of tax increment allocation financing.

If a municipality with a population of 1,000,000 or more has adopted by ordinance tax increment allocation financing for a redevelopment project area located in a transit facility improvement area established pursuant to Section 11-74.4-3.3, for each year after the effective date of the ordinance until redevelopment project costs and all municipal obligations financing redevelopment project costs have been paid, the ad valorem taxes, if any, arising from the levies upon the taxable real property in that redevelopment project area by taxing districts and tax rates determined in the manner provided in paragraph (c) of Section 11-74.4-9 shall be divided as follows:

(1) That portion of the taxes levied upon each taxable lot, block, tract or parcel of real property which is

attributable to the lower of (i) the current equalized assessed value or "current equalized assessed value as adjusted" or (ii) the initial equalized assessed value of each such taxable lot, block, tract, or parcel of real property existing at the time tax increment financing was adopted, minus the total current homestead exemptions under Article 15 of the Property Tax Code in the redevelopment project area shall be allocated to and when collected shall be paid by the county collector to the respective affected taxing districts in the manner required by law in the absence of the adoption of tax increment allocation financing.

(2) That portion, if any, of such taxes which is attributable to the increase in the current equalized assessed valuation of each taxable lot, block, tract, or parcel of real property in the redevelopment project area, over and above the initial equalized assessed value of each property existing at the time tax increment financing was adopted, minus the total current homestead exemptions pertaining to each piece of property provided by Article 15 of the Property Tax Code in the redevelopment project area, shall be allocated to and when collected shall be paid by the county collector as follows:

(A) First, that portion which would be payable to a school district whose boundaries are coterminous with such municipality in the absence of the adoption of tax increment allocation financing, shall be paid to such school district in the manner required by law in the absence of the adoption of tax increment allocation financing; then

(B) 80% of the remaining portion shall be paid to the municipal Treasurer, who shall deposit said taxes into a special fund called the special tax allocation fund of the municipality for the purpose of paying redevelopment project costs and obligations incurred in the payment thereof; and then

(C) 20% of the remaining portion shall be paid to the respective affected taxing districts, other than the school district described in clause (a)
above, in the manner required by law in the absence of the adoption of tax increment allocation financing.

Nothing in this Section shall be construed as relieving property in such redevelopment project areas from being assessed as provided in the Property Tax Code or as relieving owners of such property from paying a uniform rate of taxes, as required by Section 4 of Article IX of the Illinois Constitution.

Sec. 11-74.6-35. Ordinance for tax increment allocation financing.

(a) A municipality, at the time a redevelopment project area is designated, may adopt tax increment allocation financing by passing an ordinance providing that the ad valorem taxes, if any, arising from the levies upon taxable real property within the redevelopment project area by taxing districts and tax rates determined in the manner provided in subsection (b) of Section 11-74.6-40 each year after the effective date of the ordinance until redevelopment project costs and all municipal obligations financing redevelopment project costs incurred under this Act have been paid shall be divided as follows:

(1) That portion of the taxes levied upon each taxable lot, block, tract or parcel of real property that is attributable to the lower of the current equalized assessed value or the initial equalized assessed value or the updated initial equalized assessed value of each taxable lot, block, tract or parcel of real property in the redevelopment project area shall be allocated to and when collected shall be paid by the county collector to the respective affected taxing districts in the manner required by law without regard to the adoption of tax increment allocation financing.

(2) That portion, if any, of those taxes that is attributable to the increase in the current equalized assessed value of each taxable lot, block, tract or parcel of real property in the redevelopment project area, over and above the initial equalized assessed value or the updated initial equalized assessed value of each property in the project area, shall be allocated to and when collected shall be paid by the county collector to the municipal treasurer who shall deposit that portion of those taxes into a special fund called the special tax allocation fund of the municipality for the purpose of paying redevelopment project costs and obligations incurred in the

payment of those costs and obligations. In any county with a population of 3,000,000 or more that has adopted a procedure for collecting taxes that provides for one or more of the installments of the taxes to be billed and collected on an estimated basis, the municipal treasurer shall be paid for deposit in the special tax allocation fund of the municipality, from the taxes collected from estimated bills issued for property in the redevelopment project area, the difference between the amount actually collected from each taxable lot, block, tract, or parcel of real property within the redevelopment project area and an amount determined by multiplying the rate at which taxes were last extended against the taxable lot, block, track, or parcel of real property in the manner provided in subsection (b) of Section 11-74.6-40 by the initial equalized assessed value or the updated initial equalized assessed value of the property divided by the number of installments in which real estate taxes are billed and collected within the county, provided that the payments on or before December 31, 1999 to a municipal treasurer shall be made only if each of the following conditions are met:

(A) The total equalized assessed value of the redevelopment project area as last determined was not less than 175% of the total initial equalized assessed value.

(B) Not more than 50% of the total equalized assessed value of the redevelopment project area as last determined is attributable to a piece of property assigned a single real estate index number.

(C) The municipal clerk has certified to the county clerk that the municipality has issued its obligations to which there has been pledged the incremental property taxes of the redevelopment project area or taxes levied and collected on any or all property in the municipality or the full faith and credit of the municipality to pay or secure payment for all or a portion of the redevelopment project costs. The certification shall be filed annually no later than September 1 for the estimated taxes to be distributed in the following year.

The conditions of paragraphs (A) through (C) do not apply after December 31, 1999 to payments to a municipal treasurer made by a county with 3,000,000 or more inhabitants that has adopted an estimated billing

procedure for collecting taxes. If a county that has adopted the estimated billing procedure makes an erroneous overpayment of tax revenue to the municipal treasurer, then the county may seek a refund of that overpayment. The county shall send the municipal treasurer a notice of liability for the overpayment on or before the mailing date of the next real estate tax bill within the county. The refund shall be limited to the amount of the overpayment.

(b) It is the intent of this Act that a municipality's own ad valorem tax arising from levies on taxable real property be included in the determination of incremental revenue in the manner provided in paragraph (b) of Section 11-74.6-40.

(c) If a municipality has adopted tax increment allocation financing for a redevelopment project area by ordinance and the county clerk thereafter certifies the total initial equalized assessed value or the total updated initial equalized assessed value of the taxable real property within such redevelopment project area in the manner provided in paragraph (a) or (b) of Section 11-74.6-40, each year after the date of the certification of the total initial equalized assessed value or the total updated initial equalized assessed value until redevelopment project costs and all municipal obligations financing redevelopment project costs have been paid, the ad valorem taxes, if any, arising from the levies upon the taxable real property in the redevelopment project area by taxing districts and tax rates determined in the manner provided in paragraph (b) of Section 11-74.6-40 shall be divided as follows:

(1) That portion of the taxes levied upon each taxable lot, block, tract or parcel of real property that is attributable to the lower of the current equalized assessed value or the initial equalized assessed value, or the updated initial equalized assessed value of each parcel if the updated initial equalized assessed value of that parcel has been certified in accordance with Section 11-74.6-40, whichever has been most recently certified, of each taxable lot, block, tract, or parcel of real property existing at the time tax increment allocation financing was adopted in the redevelopment project area, shall be allocated to and when collected shall be paid by the county collector to the respective affected taxing districts in the manner required by law without regard to the adoption of tax increment allocation financing.

lot, block, tract, or parcel of real property in the redevelopment project area, over and above the initial equalized assessed value of each property existing at the time tax increment allocation financing was adopted in the redevelopment project area, or the updated initial equalized assessed value of each parcel if the updated initial equalized assessed value of that parcel has been certified in accordance with Section 11-74.6-40, shall be allocated to and when collected shall be paid to the municipal treasurer, who shall deposit those taxes into a special fund called the special tax allocation fund of the municipality for the purpose of paying redevelopment project costs and obligations incurred in the payment thereof.

(d) The municipality may pledge in the ordinance the funds in and to be deposited in the special tax allocation fund for the payment of redevelopment project costs and obligations. No part of the current equalized assessed value of each property in the redevelopment project area attributable to any increase above the total initial equalized assessed value or the total initial updated equalized assessed value of the property, shall be used in calculating the general State aid formula provided for in Section 18-8 of the School Code, or the evidence-based funding formula, provided for in Section 18-8.15 of the School Code, until all redevelopment project costs have been paid as provided for in this Section.

Whenever a municipality issues bonds for the purpose of financing redevelopment project costs, that municipality may provide by ordinance for the appointment of a trustee, which may be any trust company within the State, and for the establishment of any funds or accounts to be maintained by that trustee, as the municipality deems necessary to provide for the security and payment of the bonds. If the municipality provides for the appointment of a trustee, the trustee shall be considered the assignee of any payments assigned by the municipality under that ordinance and this Section. Any amounts paid to the trustee as assignee shall be deposited into the funds or accounts established under the trust agreement, and shall be held by the trustee in trust for the benefit of the holders of the bonds. The holders of those bonds shall have a lien on and a security interest in those funds or accounts while the bonds remain outstanding and unpaid. Upon retirement of the bonds, the trustee shall pay over any excess amounts held to the municipality for deposit in the special tax allocation fund.

When the redevelopment projects costs, including without limitation all municipal obligations financing redevelopment project costs incurred under this Law, have been paid, all surplus funds then remaining in the special tax allocation fund shall be distributed by being paid by the municipal treasurer to the municipality and the county collector; first to the municipality in direct proportion to the tax incremental revenue received from the municipality, but not to exceed the total incremental revenue received from the municipality, minus any annual surplus distribution of incremental revenue previously made. Any remaining funds shall be paid to the county collector who shall immediately distribute that payment to the taxing districts in the redevelopment project area in the same manner and proportion as the most recent distribution by the county collector to the affected districts of real property taxes from real property situated in the redevelopment project area.

Upon the payment of all redevelopment project costs, retirement of obligations and the distribution of any excess moneys under this Section, the municipality shall adopt an ordinance dissolving the special tax allocation fund for the redevelopment project area and terminating the designation of the redevelopment project area as a redevelopment project area. Thereafter the tax levies of taxing districts shall be extended, collected and distributed in the same manner applicable before the adoption of tax increment allocation financing. Municipality shall notify affected taxing districts prior to November if the redevelopment project area is to be terminated by December 31 of that same year.

Nothing in this Section shall be construed as relieving property in a redevelopment project area from being assessed as provided in the Property Tax Code or as relieving owners of that property from paying a uniform rate of taxes, as required by Section 4 of Article IX of the Illinois Constitution.

Section 960. The Economic Development Project Area Tax Increment Allocation Act of 1995 is amended by changing Section 50 as follows:

(65 ILCS 110/50)
Sec. 50. Special tax allocation fund.

(1) That portion of the taxes levied upon each taxable lot, block, tract, or parcel of real property that is attributable to the lower of the current equalized assessed value or the initial equalized assessed value of each taxable lot, block, tract, or parcel of real property existing at the time tax increment financing was adopted shall be allocated to (and when collected shall be paid by the county collector to) the respective affected taxing districts in the manner required by law in the absence of the adoption of tax increment allocation financing.

(2) That portion, if any, of the taxes that is attributable to the increase in the current equalized assessed valuation of each taxable lot, block, tract, or parcel of real property in the economic development project area, over and above the initial equalized assessed value of each property existing at the time tax increment financing was adopted, shall be allocated to (and when collected shall be paid to) the municipal treasurer, who shall deposit the taxes into a special fund (called the special tax allocation fund of the municipality) for the purpose of paying economic development project costs and obligations incurred in the payment of those costs.

(b) The municipality, by an ordinance adopting tax increment allocation financing, may pledge the monies in and to be deposited into the special tax allocation fund for the payment of obligations issued under this Act and for the payment of economic development project costs. (d) Upon the payment of all economic development project costs, retirement of obligations, and distribution of any excess monies under this Section and not later than 23 years from the date of the adoption of the ordinance establishing the economic development project area, the municipality shall adopt an ordinance dissolving the special tax allocation fund for the economic development project area and terminating the designation of the economic development project area as an economic development project area. Thereafter, the rates of the taxing districts shall be extended and taxes shall be levied, collected, and distributed in the manner applicable in the absence of the adoption of tax increment allocation financing.

Sec. 1A-8. Powers of the Board in Assisting Districts Deemed in Financial Difficulties. To promote the financial integrity of school districts, the State Board of Education shall be provided the necessary
powers to promote sound financial management and continue operation of the public schools.

(a) The State Superintendent of Education may require a school district, including any district subject to Article 34A of this Code, to share financial information relevant to a proper investigation of the district's financial condition and the delivery of appropriate State financial, technical, and consulting services to the district if the district (i) has been designated, through the State Board of Education's School District Financial Profile System, as on financial warning or financial watch status, (ii) has failed to file an annual financial report, annual budget, deficit reduction plan, or other financial information as required by law, (iii) has been identified, through the district's annual audit or other financial and management information, as in serious financial difficulty in the current or next school year, or (iv) is determined to be likely to fail to fully meet any regularly scheduled, payroll-period obligations when due or any debt service payments when due or both. In addition to financial, technical, and consulting services provided by the State Board of Education, at the request of a school district, the State Superintendent may provide for an independent financial consultant to assist the district review its financial condition and options.

(b) The State Board of Education, after proper investigation of a district's financial condition, may certify that a district, including any district subject to Article 34A, is in financial difficulty when any of the following conditions occur:

1. The district has issued school or teacher orders for wages as permitted in Sections 8-16, 32-7.2 and 34-76 of this Code.

2. The district has issued tax anticipation warrants or tax anticipation notes in anticipation of a second year's taxes when warrants or notes in anticipation of current year taxes are still outstanding, as authorized by Sections 17-16, 34-23, 34-59 and 34-63 of this Code, or has issued short-term debt against 2 future revenue sources, such as, but not limited to, tax anticipation warrants and general State aid or evidence-based funding aid certificates or tax anticipation warrants and revenue anticipation notes.

3. The district has for 2 consecutive years shown an excess of expenditures and other financing uses over revenues and other financing sources and beginning fund balances on its annual

financial report for the aggregate totals of the Educational, Operations and Maintenance, Transportation, and Working Cash Funds.

(4) The district refuses to provide financial information or cooperate with the State Superintendent in an investigation of the district's financial condition.

(5) The district is likely to fail to fully meet any regularly scheduled, payroll-period obligations when due or any debt service payments when due or both.

No school district shall be certified by the State Board of Education to be in financial difficulty solely by reason of any of the above circumstances arising as a result of (i) the failure of the county to make any distribution of property tax money due the district at the time such distribution is due or (ii) the failure of this State to make timely payments of general State aid, evidence-based funding, or any of the mandated categoricals; or if the district clearly demonstrates to the satisfaction of the State Board of Education at the time of its determination that such condition no longer exists. If the State Board of Education certifies that a district in a city with 500,000 inhabitants or more is in financial difficulty, the State Board shall so notify the Governor and the Mayor of the city in which the district is located. The State Board of Education may require school districts certified in financial difficulty, except those districts subject to Article 34A, to develop, adopt and submit a financial plan within 45 days after certification of financial difficulty. The financial plan shall be developed according to guidelines presented to the district by the State Board of Education within 14 days of certification. Such guidelines shall address the specific nature of each district's financial difficulties. Any proposed budget of the district shall be consistent with the financial plan submitted to and approved by the State Board of Education.

A district certified to be in financial difficulty, other than a district subject to Article 34A, shall report to the State Board of Education at such times and in such manner as the State Board may direct, concerning the district's compliance with each financial plan. The State Board may review the district's operations, obtain budgetary data and financial statements, require the district to produce reports, and have access to any other information in the possession of the district that it deems relevant. The State Board may issue recommendations or directives within its powers to the district to assist in compliance with the financial plan. The district shall produce such budgetary data, financial statements, reports and other

information and comply with such directives. If the State Board of Education determines that a district has failed to comply with its financial plan, the State Board of Education may rescind approval of the plan and appoint a Financial Oversight Panel for the district as provided in Section 1B-4. This action shall be taken only after the district has been given notice and an opportunity to appear before the State Board of Education to discuss its failure to comply with its financial plan.

No bonds, notes, teachers orders, tax anticipation warrants or other evidences of indebtedness shall be issued or sold by a school district or be legally binding upon or enforceable against a local board of education of a district certified to be in financial difficulty unless and until the financial plan required under this Section has been approved by the State Board of Education.

Any financial profile compiled and distributed by the State Board of Education in Fiscal Year 2009 or any fiscal year thereafter shall incorporate such adjustments as may be needed in the profile scores to reflect the financial effects of the inability or refusal of the State of Illinois to make timely disbursements of any general State aid, evidence-based funding, or mandated categorical aid payments due school districts or to fully reimburse school districts for mandated categorical programs pursuant to reimbursement formulas provided in this School Code.

Sec. 1B-5. When a petition for emergency financial assistance for a school district is allowed by the State Board under Section 1B-4, the State Superintendent shall within 10 days thereafter appoint 3 members to serve at the State Superintendent's pleasure on a Financial Oversight Panel for the district. The State Superintendent shall designate one of the members of the Panel to serve as its Chairman. In the event of vacancy or resignation the State Superintendent shall appoint a successor within 10 days of receiving notice thereof.

Members of the Panel shall be selected primarily on the basis of their experience and education in financial management, with consideration given to persons knowledgeable in education finance. A member of the Panel may not be a board member or employee of the district for which the Panel is constituted, nor may a member have a direct financial interest in that district.

Panel members shall serve without compensation, but may be reimbursed for travel and other necessary expenses incurred in the performance of their official duties by the State Board. The amount reimbursed Panel members for their expenses shall be charged to the school district as part of any emergency financial assistance and incorporated as a part of the terms and conditions for repayment of such assistance or shall be deducted from the district's general State aid or evidence-based funding as provided in Section 1B-8.

The first meeting of the Panel shall be held at the call of the Chairman. The Panel may elect such other officers as it deems appropriate. The Panel shall prescribe the times and places for its meetings and the manner in which regular and special meetings may be called, and shall comply with the Open Meetings Act.

Two members of the Panel shall constitute a quorum, and the affirmative vote of 2 members shall be necessary for any decision or action to be taken by the Panel.

The Panel and the State Superintendent shall cooperate with each other in the exercise of their respective powers. The Panel shall report not later than September 1 annually to the State Board and the State Superintendent with respect to its activities and the condition of the school district for the previous fiscal year.

Any Financial Oversight Panel established under this Article shall remain in existence for not less than 3 years nor more than 10 years from the date the State Board grants the petition under Section 1B-4. If after 3 years the school district has repaid all of its obligations resulting from emergency State financial assistance provided under this Article and has improved its financial situation, the board of education may, not more frequently than once in any 12 month period, petition the State Board to dissolve the Financial Oversight Panel, terminate the oversight responsibility, and remove the district's certification under Section 1A-8 as a district in financial difficulty. In acting on such a petition the State Board shall give additional weight to the recommendations of the State Superintendent and the Financial Oversight Panel.

Sec. 1B-8. There is created in the State Treasury a special fund to be known as the School District Emergency Financial Assistance Fund (the "Fund"). The School District Emergency Financial Assistance Fund shall consist of appropriations, loan repayments, grants from the federal government, and donations from any public or private source. Moneys in the Fund may be appropriated only to the Illinois Finance Authority and the State Board for those purposes authorized under this Article and Articles 1F and 1H of this Code. The appropriation may be allocated and expended by the State Board for contractual services to provide technical assistance or consultation to school districts to assess their financial condition and to Financial Oversight Panels that petition for emergency financial assistance grants. The Illinois Finance Authority may provide

loans to school districts which are the subject of an approved petition for emergency financial assistance under Section 1B-4, 1F-62, or 1H-65 of this Code. Neither the State Board of Education nor the Illinois Finance Authority may collect any fees for providing these services.

From the amount allocated to each such school district under this Article the State Board shall identify a sum sufficient to cover all approved costs of the Financial Oversight Panel established for the respective school district. If the State Board and State Superintendent of Education have not approved emergency financial assistance in conjunction with the appointment of a Financial Oversight Panel, the Panel's approved costs shall be paid from deductions from the district's general State aid or evidence-based funding.

The Financial Oversight Panel may prepare and file with the State Superintendent a proposal for emergency financial assistance for the school district and for its operations budget. No expenditures from the Fund shall be authorized by the State Superintendent until he or she has approved the request of the Panel, either as submitted or in such lesser amount determined by the State Superintendent.

The maximum amount of an emergency financial assistance loan which may be allocated to any school district under this Article, including moneys necessary for the operations of the Panel, shall not exceed $4,000 times the number of pupils enrolled in the school district during the school year ending June 30 prior to the date of approval by the State Board of the petition for emergency financial assistance, as certified to the local board and the Panel by the State Superintendent. An emergency financial assistance grant shall not exceed $1,000 times the number of such pupils. A district may receive both a loan and a grant.

The payment of an emergency State financial assistance grant or loan shall be subject to appropriation by the General Assembly. Payment of the emergency State financial assistance loan is subject to the applicable provisions of the Illinois Finance Authority Act. Emergency State financial assistance allocated and paid to a school district under this Article may be applied to any fund or funds from which the local board of education of that district is authorized to make expenditures by law.

Any emergency financial assistance grant proposed by the Financial Oversight Panel and approved by the State Superintendent may be paid in its entirety during the initial year of the Panel's existence or spread in equal or declining amounts over a period of years not to exceed the period of the Panel's existence. An emergency financial assistance loan

proposed by the Financial Oversight Panel and approved by the Illinois Finance Authority may be paid in its entirety during the initial year of the Panel's existence or spread in equal or declining amounts over a period of years not to exceed the period of the Panel's existence. All loans made by the Illinois Finance Authority for a school district shall be required to be repaid, with simple interest over the term of the loan at a rate equal to 50% of the one-year Constant Maturity Treasury (CMT) yield as last published by the Board of Governors of the Federal Reserve System before the date on which the district's loan is approved by the Illinois Finance Authority, not later than the date the Financial Oversight Panel ceases to exist. The Panel shall establish and the Illinois Finance Authority shall approve the terms and conditions, including the schedule, of repayments. The schedule shall provide for repayments commencing July 1 of each year or upon each fiscal year's receipt of moneys from a tax levy for emergency financial assistance. Repayment shall be incorporated into the annual budget of the school district and may be made from any fund or funds of the district in which there are moneys available. An emergency financial assistance loan to the Panel or district shall not be considered part of the calculation of a district's debt for purposes of the limitation specified in Section 19-1 of this Code. Default on repayment is subject to the Illinois Grant Funds Recovery Act. When moneys are repaid as provided herein they shall not be made available to the local board for further use as emergency financial assistance under this Article at any time thereafter. All repayments required to be made by a school district shall be received by the State Board and deposited in the School District Emergency Financial Assistance Fund.

In establishing the terms and conditions for the repayment obligation of the school district the Panel shall annually determine whether a separate local property tax levy is required. The board of any school district with a tax rate for educational purposes for the prior year of less than 120% of the maximum rate for educational purposes authorized by Section 17-2 shall provide for a separate tax levy for emergency financial assistance repayment purposes. Such tax levy shall not be subject to referendum approval. The amount of the levy shall be equal to the amount necessary to meet the annual repayment obligations of the district as established by the Panel, or 20% of the amount levied for educational purposes for the prior year, whichever is less. However, no district shall be required to levy the tax if the district's operating tax rate as determined

Sec. 1C-2. Block grants.

(a) For fiscal year 1999, and each fiscal year thereafter, the State Board of Education shall award to school districts block grants as described in subsection (c). The State Board of Education may adopt rules and regulations necessary to implement this Section. In accordance with Section 2-3.32, all state block grants are subject to an audit. Therefore, block grant receipts and block grant expenditures shall be recorded to the appropriate fund code.

(b) (Blank).

(c) An Early Childhood Education Block Grant shall be created by combining the following programs: Preschool Education, Parental Training and Prevention Initiative. These funds shall be distributed to school districts and other entities on a competitive basis, except that the State Board of Education shall award to a school district having a population exceeding 500,000 inhabitants 37% of the funds in each fiscal year. Not less than 14% of the Early Childhood Education Block Grant allocation of funds shall be used to fund programs for children ages 0-3. Beginning in Fiscal Year 2016, at least 25% of any additional Early Childhood Education Block Grant funding over and above the previous fiscal year's allocation shall be used to fund programs for children ages 0-3. Once the percentage of Early Childhood Education Block Grant funding allocated to programs for children ages 0-3 reaches 20% of the overall Early Childhood Education Block Grant allocation for a full fiscal year, thereafter in subsequent fiscal years the percentage of Early Childhood Education Block Grant funding allocated to programs for children ages 0-3 each fiscal year shall remain at least 20% of the overall Early Childhood

Education Block Grant allocation. However, if, in a given fiscal year, the amount appropriated for the Early Childhood Education Block Grant is insufficient to increase the percentage of the grant to fund programs for children ages 0-3 without reducing the amount of the grant for existing providers of preschool education programs, then the percentage of the grant to fund programs for children ages 0-3 may be held steady instead of increased.

Sec. 1D-1. Block grant funding.

(a) For fiscal year 1996 through fiscal year 2017 and each fiscal year thereafter, the State Board of Education shall award to a school district having a population exceeding 500,000 inhabitants a general education block grant and an educational services block grant, determined as provided in this Section, in lieu of distributing to the district separate State funding for the programs described in subsections (b) and (c). The provisions of this Section, however, do not apply to any federal funds that the district is entitled to receive. In accordance with Section 2-3.32, all block grants are subject to an audit. Therefore, block grant receipts and block grant expenditures shall be recorded to the appropriate fund code for the designated block grant.

(b) The general education block grant shall include the following programs: REI Initiative, Summer Bridges, Preschool At Risk, K-6 Comprehensive Arts, School Improvement Support, Urban Education, Scientific Literacy, Substance Abuse Prevention, Second Language Planning, Staff Development, Outcomes and Assessment, K-6 Reading Improvement, 7-12 Continued Reading Improvement, Truants' Optional Education, Hispanic Programs, Agriculture Education, Parental Education, Prevention Initiative, Report Cards, and Criminal Background Investigations. Notwithstanding any other provision of law, all amounts paid under the general education block grant from State appropriations to a school district in a city having a population exceeding 500,000 inhabitants shall be appropriated and expended by the board of that district for any of the programs included in the block grant or any of the board's lawful purposes.

(c) The educational services block grant shall include the following programs: Regular and Vocational Transportation, State Lunch and Free Breakfast Program, Special Education (Personnel, Transportation, Orphanage, Private Tuition), funding for children requiring special

education services, Summer School, Educational Service Centers, and Administrator's Academy. This subsection (c) does not relieve the district of its obligation to provide the services required under a program that is included within the educational services block grant. It is the intention of the General Assembly in enacting the provisions of this subsection (c) to relieve the district of the administrative burdens that impede efficiency and accompany single-program funding. The General Assembly encourages the board to pursue mandate waivers pursuant to Section 2-3.25g.

The funding program included in the educational services block grant for funding for children requiring special education services in each fiscal year shall be treated in that fiscal year as a payment to the school district in respect of services provided or costs incurred in the prior fiscal year, calculated in each case as provided in this Section. Nothing in this Section shall change the nature of payments for any program that, apart from this Section, was on the basis of a payment in a fiscal year in respect of services provided or costs incurred in the prior fiscal year, calculated in each case as provided in this Section.

(d) For fiscal year 1996 through fiscal year 2017 and each fiscal year thereafter, the amount of the district's block grants shall be determined as follows: (i) with respect to each program that is included within each block grant, the district shall receive an amount equal to the same percentage of the current fiscal year appropriation made for that program as the percentage of the appropriation received by the district from the 1995 fiscal year appropriation made for that program, and (ii) the total amount that is due the district under the block grant shall be the aggregate of the amounts that the district is entitled to receive for the fiscal year with respect to each program that is included within the block grant that the State Board of Education shall award the district under this Section for that fiscal year. In the case of the Summer Bridges program, the amount of the district's block grant shall be equal to 44% of the amount of the current fiscal year appropriation made for that program.

(e) The district is not required to file any application or other claim in order to receive the block grants to which it is entitled under this Section. The State Board of Education shall make payments to the district of amounts due under the district's block grants on a schedule determined by the State Board of Education.

(f) A school district to which this Section applies shall report to the State Board of Education on its use of the block grants in such form and
detail as the State Board of Education may specify. In addition, the report must include the following description for the district, which must also be reported to the General Assembly: block grant allocation and expenditures by program; population and service levels by program; and administrative expenditures by program. The State Board of Education shall ensure that the reporting requirements for the district are the same as for all other school districts in this State.

(g) Through fiscal year 2017, this paragraph provides for the treatment of block grants under Article 1C for purposes of calculating the amount of block grants for a district under this Section. Those block grants under Article 1C are, for this purpose, treated as included in the amount of appropriation for the various programs set forth in paragraph (b) above. The appropriation in each current fiscal year for each block grant under Article 1C shall be treated for these purposes as appropriations for the individual program included in that block grant. The proportion of each block grant so allocated to each such program included in it shall be the proportion which the appropriation for that program was of all appropriations for such purposes now in that block grant, in fiscal 1995.

Payments to the school district under this Section with respect to each program for which payments to school districts generally, as of the date of this amendatory Act of the 92nd General Assembly, are on a reimbursement basis shall continue to be made to the district on a reimbursement basis, pursuant to the provisions of this Code governing those programs.

(h) Notwithstanding any other provision of law, any school district receiving a block grant under this Section may classify all or a portion of the funds that it receives in a particular fiscal year from any block grant authorized under this Code or from general State aid pursuant to Section 18-8.05 of this Code (other than supplemental general State aid) as funds received in connection with any funding program for which it is entitled to receive funds from the State in that fiscal year (including, without limitation, any funding program referred to in subsection (c) of this Section), regardless of the source or timing of the receipt. The district may not classify more funds as funds received in connection with the funding program than the district is entitled to receive in that fiscal year for that program. Any classification by a district must be made by a resolution of its board of education. The resolution must identify the amount of any block grant or general State aid to be classified under this subsection (h) and must specify the funding program to which the funds are to be treated.

as received in connection therewith. This resolution is controlling as to the classification of funds referenced therein. A certified copy of the resolution must be sent to the State Superintendent of Education. The resolution shall still take effect even though a copy of the resolution has not been sent to the State Superintendent of Education in a timely manner. No classification under this subsection (h) by a district shall affect the total amount or timing of money the district is entitled to receive under this Code. No classification under this subsection (h) by a district shall in any way relieve the district from or affect any requirements that otherwise would apply with respect to the block grant as provided in this Section, including any accounting of funds by source, reporting expenditures by original source and purpose, reporting requirements, or requirements of provision of services.

(This Section scheduled to be repealed in accordance with 105 ILCS 5/1F-165)

(a) Moneys in the School District Emergency Financial Assistance Fund established under Section 1B-8 of this Code may be allocated and expended by the State Board as grants to provide technical and consulting services to school districts to assess their financial condition and by the Illinois Finance Authority for emergency financial assistance loans to a School Finance Authority that petitions for emergency financial assistance. An emergency financial assistance loan to a School Finance Authority or borrowing from sources other than the State shall not be considered as part of the calculation of a district's debt for purposes of the limitation specified in Section 19-1 of this Code. From the amount allocated to each School Finance Authority, the State Board shall identify a sum sufficient

to cover all approved costs of the School Finance Authority. If the State Board and State Superintendent have not approved emergency financial assistance in conjunction with the appointment of a School Finance Authority, the Authority's approved costs shall be paid from deductions from the district's general State aid or evidence-based funding.

The School Finance Authority may prepare and file with the State Superintendent a proposal for emergency financial assistance for the school district and for its operations budget. No expenditures shall be authorized by the State Superintendent until he or she has approved the proposal of the School Finance Authority, either as submitted or in such lesser amount determined by the State Superintendent.

(b) The amount of an emergency financial assistance loan that may be allocated to a School Finance Authority under this Article, including moneys necessary for the operations of the School Finance Authority, and borrowing from sources other than the State shall not exceed, in the aggregate, $4,000 times the number of pupils enrolled in the district during the school year ending June 30 prior to the date of approval by the State Board of the petition for emergency financial assistance, as certified to the school board and the School Finance Authority by the State Superintendent. However, this limitation does not apply to borrowing by the district secured by amounts levied by the district prior to establishment of the School Finance Authority. An emergency financial assistance grant shall not exceed $1,000 times the number of such pupils. A district may receive both a loan and a grant.

(c) The payment of a State emergency financial assistance grant or loan shall be subject to appropriation by the General Assembly. State emergency financial assistance allocated and paid to a School Finance Authority under this Article may be applied to any fund or funds from which the School Finance Authority is authorized to make expenditures by law.

(d) Any State emergency financial assistance proposed by the School Finance Authority and approved by the State Superintendent may be paid in its entirety during the initial year of the School Finance Authority's existence or spread in equal or declining amounts over a period of years not to exceed the period of the School Finance Authority's existence. The State Superintendent shall not approve any loan to the School Finance Authority unless the School Finance Authority has been unable to borrow sufficient funds to operate the district.

All loan payments made from the School District Emergency Financial Assistance Fund to a School Finance Authority shall be required to be repaid not later than the date the School Finance Authority ceases to exist, with simple interest over the term of the loan at a rate equal to 50% of the one-year Constant Maturity Treasury (CMT) yield as last published by the Board of Governors of the Federal Reserve System before the date on which the School Finance Authority's loan is approved by the State Board.

The School Finance Authority shall establish and the Illinois Finance Authority shall approve the terms and conditions of the loan, including the schedule of repayments. The schedule shall provide for repayments commencing July 1 of each year or upon each fiscal year's receipt of moneys from a tax levy for emergency financial assistance. Repayment shall be incorporated into the annual budget of the district and may be made from any fund or funds of the district in which there are moneys available. Default on repayment is subject to the Illinois Grant Funds Recovery Act. When moneys are repaid as provided in this Section, they shall not be made available to the School Finance Authority for further use as emergency financial assistance under this Article at any time thereafter. All repayments required to be made by a School Finance Authority shall be received by the State Board and deposited in the School District Emergency Financial Assistance Fund.

In establishing the terms and conditions for the repayment obligation of the School Finance Authority, the School Finance Authority shall annually determine whether a separate local property tax levy is required to meet that obligation. The School Finance Authority shall provide for a separate tax levy for emergency financial assistance repayment purposes. This tax levy shall not be subject to referendum approval. The amount of the levy shall not exceed the amount necessary to meet the annual emergency financial repayment obligations of the district, including principal and interest, as established by the School Finance Authority.

Sec. 2-3.25g. Waiver or modification of mandates within the School Code and administrative rules and regulations.

(a) In this Section:

"Board" means a school board or the governing board or administrative district, as the case may be, for a joint agreement.

"Eligible applicant" means a school district, joint agreement made up of school districts, or regional superintendent of schools on behalf of schools and programs operated by the regional office of education.

"Implementation date" has the meaning set forth in Section 24A-2.5 of this Code.

(b) Notwithstanding any other provisions of this School Code or any other law of this State to the contrary, eligible applicants may petition the State Board of Education for the waiver or modification of the mandates of this School Code or of the administrative rules and regulations promulgated by the State Board of Education. Waivers or modifications of administrative rules and regulations and modifications of mandates of this School Code may be requested when an eligible applicant

demonstrates that it can address the intent of the rule or mandate in a more effective, efficient, or economical manner or when necessary to stimulate innovation or improve student performance. Waivers of mandates of the School Code may be requested when the waivers are necessary to stimulate innovation or improve student performance or when the applicant demonstrates that it can address the intent of the mandate of the School Code in a more effective, efficient, or economical manner. Waivers may not be requested from laws, rules, and regulations pertaining to special education, teacher educator licensure, teacher tenure and seniority, or Section 5-2.1 of this Code or from compliance with the Every Student Succeeds Act (Public Law 114-95) No Child Left Behind Act of 2001 (Public Law 107-110). Eligible applicants may not seek a waiver or seek a modification of a mandate regarding the requirements for (i) student performance data to be a significant factor in teacher or principal evaluations or (ii) teachers and principals to be rated using the 4 categories of "excellent", "proficient", "needs improvement", or "unsatisfactory". On September 1, 2014, any previously authorized waiver or modification from such requirements shall terminate.

(c) Eligible applicants, as a matter of inherent managerial policy, and any Independent Authority established under Section 2-3.25f-5 of this Code may submit an application for a waiver or modification authorized under this Section. Each application must include a written request by the eligible applicant or Independent Authority and must demonstrate that the intent of the mandate can be addressed in a more effective, efficient, or economical manner or be based upon a specific plan for improved student performance and school improvement. Any eligible applicant requesting a waiver or modification for the reason that intent of the mandate can be addressed in a more economical manner shall include in the application a fiscal analysis showing current expenditures on the mandate and projected savings resulting from the waiver or modification. Applications and plans developed by eligible applicants must be approved by the board or regional superintendent of schools applying on behalf of schools or programs operated by the regional office of education following a public hearing on the application and plan and the opportunity for the board or regional superintendent to hear testimony from staff directly involved in its implementation, parents, and students. The time period for such testimony shall be separate from the time period established by the eligible applicant for public comment on other matters. If the applicant is a school district or joint agreement requesting a waiver or modification of Section

New matter indicated by italics - deletions by strikeout
27-6 of this Code, the public hearing shall be held on a day other than the day on which a regular meeting of the board is held.

(c-5) If the applicant is a school district, then the district shall post information that sets forth the time, date, place, and general subject matter of the public hearing on its Internet website at least 14 days prior to the hearing. If the district is requesting to increase the fee charged for driver education authorized pursuant to Section 27-24.2 of this Code, the website information shall include the proposed amount of the fee the district will request. All school districts must publish a notice of the public hearing at least 7 days prior to the hearing in a newspaper of general circulation within the school district that sets forth the time, date, place, and general subject matter of the hearing. Districts requesting to increase the fee charged for driver education shall include in the published notice the proposed amount of the fee the district will request. If the applicant is a joint agreement or regional superintendent, then the joint agreement or regional superintendent shall post information that sets forth the time, date, place, and general subject matter of the public hearing on its Internet website at least 14 days prior to the hearing. If the joint agreement or regional superintendent is requesting to increase the fee charged for driver education authorized pursuant to Section 27-24.2 of this Code, the website information shall include the proposed amount of the fee the applicant will request. All joint agreements and regional superintendents must publish a notice of the public hearing at least 7 days prior to the hearing in a newspaper of general circulation within the school district that is a member of the joint agreement or that is served by the educational service region that sets forth the time, date, place, and general subject matter of the hearing, provided that a notice appearing in a newspaper generally circulated in more than one school district shall be deemed to fulfill this requirement with respect to all of the affected districts. Joint agreements or regional superintendents requesting to increase the fee charged for driver education shall include in the published notice the proposed amount of the fee the applicant will request. The eligible applicant must notify in writing the affected exclusive collective bargaining agent and those State legislators representing the eligible applicant's territory of its intent to seek approval of a waiver or modification and of the hearing to be held to take testimony from staff. The affected exclusive collective bargaining agents shall be notified of such public hearing at least 7 days prior to the date of the hearing and shall be allowed to attend such public hearing. The eligible
applicant shall attest to compliance with all of the notification and procedural requirements set forth in this Section.

(d) A request for a waiver or modification of administrative rules and regulations or for a modification of mandates contained in this School Code shall be submitted to the State Board of Education within 15 days after approval by the board or regional superintendent of schools. The application as submitted to the State Board of Education shall include a description of the public hearing. Except with respect to contracting for adaptive driver education, an eligible applicant wishing to request a modification or waiver of administrative rules of the State Board of Education regarding contracting with a commercial driver training school to provide the course of study authorized under Section 27-24.2 of this Code must provide evidence with its application that the commercial driver training school with which it will contract holds a license issued by the Secretary of State under Article IV of Chapter 6 of the Illinois Vehicle Code and that each instructor employed by the commercial driver training school to provide instruction to students served by the school district holds a valid teaching certificate or teaching license, as applicable, issued under the requirements of this Code and rules of the State Board of Education. Such evidence must include, but need not be limited to, a list of each instructor assigned to teach students served by the school district, which list shall include the instructor's name, personal identification number as required by the State Board of Education, birth date, and driver's license number. If the modification or waiver is granted, then the eligible applicant shall notify the State Board of Education of any changes in the personnel providing instruction within 15 calendar days after an instructor leaves the program or a new instructor is hired. Such notification shall include the instructor's name, personal identification number as required by the State Board of Education, birth date, and driver's license number. If a school district maintains an Internet website, then the district shall post a copy of the final contract between the district and the commercial driver training school on the district's Internet website. If no Internet website exists, then the district shall make available the contract upon request. A record of all materials in relation to the application for contracting must be maintained by the school district and made available to parents and guardians upon request. The instructor's date of birth and driver's license number and any other personally identifying information as deemed by the federal Driver's Privacy Protection Act of 1994 must be redacted from any public materials. Following receipt of the waiver or modification request,
the State Board shall have 45 days to review the application and request. If the State Board fails to disapprove the application within that 45 day period, the waiver or modification shall be deemed granted. The State Board may disapprove any request if it is not based upon sound educational practices, endangers the health or safety of students or staff, compromises equal opportunities for learning, or fails to demonstrate that the intent of the rule or mandate can be addressed in a more effective, efficient, or economical manner or have improved student performance as a primary goal. Any request disapproved by the State Board may be appealed to the General Assembly by the eligible applicant as outlined in this Section.

A request for a waiver from mandates contained in this School Code shall be submitted to the State Board within 15 days after approval by the board or regional superintendent of schools. The application as submitted to the State Board of Education shall include a description of the public hearing. The description shall include, but need not be limited to, the means of notice, the number of people in attendance, the number of people who spoke as proponents or opponents of the waiver, a brief description of their comments, and whether there were any written statements submitted. The State Board shall review the applications and requests for completeness and shall compile the requests in reports to be filed with the General Assembly. The State Board shall file reports outlining the waivers requested by eligible applicants and appeals by eligible applicants of requests disapproved by the State Board with the Senate and the House of Representatives before each March 1 and October 1.

The report shall be reviewed by a panel of 4 members consisting of:

(1) the Speaker of the House of Representatives;
(2) the Minority Leader of the House of Representatives;
(3) the President of the Senate; and
(4) the Minority Leader of the Senate.

The State Board of Education may provide the panel recommendations on waiver requests. The members of the panel shall review the report submitted by the State Board of Education and submit to the State Board of Education any notice of further consideration to any waiver request within 14 days after the member receives the report. If 3 or more of the panel members submit a notice of further consideration to any waiver request contained within the report, the State Board of Education shall

New matter indicated by italics - deletions by strikeout
submit the waiver request to the General Assembly for consideration. If less than 3 panel members submit a notice of further consideration to a waiver request, the waiver may be approved, denied, or modified by the State Board. If the State Board does not act on a waiver request within 10 days, then the waiver request is approved. If the waiver request is denied by the State Board, it shall submit the waiver request to the General Assembly for consideration.

The General Assembly may disapprove any waiver request submitted to the General Assembly pursuant to this subsection (d) the report of the State Board in whole or in part within 60 calendar days after each house of the General Assembly next convenes after the waiver request is submitted report is filed by adoption of a resolution by a record vote of the majority of members elected in each house. If the General Assembly fails to disapprove any waiver request or appealed request within such 60 day period, the waiver or modification shall be deemed granted. Any resolution adopted by the General Assembly disapproving a report of the State Board in whole or in part shall be binding on the State Board.

(e) An approved waiver or modification (except a waiver from or modification to a physical education mandate) may remain in effect for a period not to exceed 5 school years and may be renewed upon application by the eligible applicant. However, such waiver or modification may be changed within that 5-year period by a board or regional superintendent of schools applying on behalf of schools or programs operated by the regional office of education following the procedure as set forth in this Section for the initial waiver or modification request. If neither the State Board of Education nor the General Assembly disapproves, the change is deemed granted.

An approved waiver from or modification to a physical education mandate may remain in effect for a period not to exceed 2 school years and may be renewed no more than 2 times upon application by the eligible applicant. An approved waiver from or modification to a physical education mandate may be changed within the 2-year period by the board or regional superintendent of schools, whichever is applicable, following the procedure set forth in this Section for the initial waiver or modification request. If neither the State Board of Education nor the General Assembly disapproves, the change is deemed granted.

(105 ILCS 5/2-3.33) (from Ch. 122, par. 2-3.33)

Sec. 2-3.33. Recomputation of claims. To recompute within 3 years from the final date for filing of a claim any claim for general State aid reimbursement to any school district and one year from the final date for filing of a claim for evidence-based funding if the claim has been found to be incorrect and to adjust subsequent claims accordingly, and to recompute and adjust any such claims within 6 years from the final date for filing when there has been an adverse court or administrative agency decision on the merits affecting the tax revenues of the school district. However, no such adjustment shall be made regarding equalized assessed valuation unless the district's equalized assessed valuation is changed by greater than $250,000 or 2%. Any adjustments for claims recomputed for the 2016-2017 school year and prior school years shall be applied to the apportionment of evidence-based funding in Section 18-8.15 of this Code beginning in the 2017-2018 school year and thereafter. However, the recomputation of a claim for evidence-based funding for a school district shall not require the recomputation of claims for all districts, and the State Board of Education shall only make recomputations of evidence-based funding for those districts where an adjustment is required.

Except in the case of an adverse court or administrative agency decision, no recomputation of a State aid claim shall be made pursuant to this Section as a result of a reduction in the assessed valuation of a school district from the assessed valuation of the district reported to the State Board of Education by the Department of Revenue under Section 18-8.05 or 18-8.15 of this Code unless the requirements of Section 16-15 of the Property Tax Code and Section 2-3.84 of this Code are complied with in all respects.

This paragraph applies to all requests for recomputation of a general State aid or evidence-based funding claim received after June 30, 2003. In recomputing a general State aid or evidence-based funding claim that was originally calculated using an extension limitation equalized assessed valuation under paragraph (3) of subsection (G) of Section 18-8.05 of this Code or Section 18-8.15 of this Code, a qualifying reduction in equalized assessed valuation shall be deducted from the extension limitation equalized assessed valuation that was used in calculating the original claim.

From the total amount of general State aid or evidence-based funding to be provided to districts, adjustments as a result of recomputation under this Section together with adjustments under Section 2-3.84 must not exceed $25 million, in the aggregate for all districts under both Sections combined, of the general State aid or evidence-based funding appropriation in any fiscal year; if necessary, amounts shall be prorated among districts. If it is necessary to prorate claims under this paragraph, then that portion of each prorated claim that is approved but not paid in the current fiscal year may be resubmitted as a valid claim in the following fiscal year.

Sec. 2-3.51.5. School Safety and Educational Improvement Block Grant Program. To improve the level of education and safety of students from kindergarten through grade 12 in school districts and State-recognized, non-public schools. The State Board of Education is authorized to fund a School Safety and Educational Improvement Block Grant Program.

(1) For school districts, the program shall provide funding for school safety, textbooks and software, electronic textbooks and the technological equipment necessary to gain access to and use electronic textbooks, teacher training and curriculum development, school improvements, school report cards under Section 10-17a, and criminal history records checks under Sections 10-21.9 and 34-18.5. For State-recognized, non-public schools, the program shall provide funding for secular textbooks and software, criminal history records checks, and health and safety mandates to the extent that the funds are expended for purely secular purposes. A school district or laboratory school as defined in Section 18-8, or 18-8.05, or 18-8.15 is not required to file an application in order to receive the categorical funding to which it is entitled under this Section. Funds for the School Safety and Educational Improvement Block Grant Program shall be distributed to school districts and laboratory schools based on the prior year's best 3 months average daily attendance. Funds for the School Safety and Educational Improvement Block Grant Program shall be distributed to State-recognized, non-public schools based on the average daily attendance figure for the previous school year provided to the State Board of Education. The State Board of Education shall develop an application that requires State-recognized, non-public schools to submit average daily attendance figures. A State-recognized,
non-public school must submit the application and average daily attendance figure prior to receiving funds under this Section. The State Board of Education shall promulgate rules and regulations necessary for the implementation of this program.

(2) Distribution of moneys to school districts and State-recognized, non-public schools shall be made in 2 semi-annual installments, one payment on or before October 30, and one payment prior to April 30, of each fiscal year.

(3) Grants under the School Safety and Educational Improvement Block Grant Program shall be awarded provided there is an appropriation for the program, and funding levels for each district shall be prorated according to the amount of the appropriation.

(4) The provisions of this Section are in the public interest, are for the public benefit, and serve secular public purposes.

Sec. 2-3.66. Truants' alternative and optional education programs.

To establish projects to offer modified instructional programs or other services designed to prevent students from dropping out of school, including programs pursuant to Section 2-3.41, and to serve as a part time or full time option in lieu of regular school attendance and to award grants to local school districts, educational service regions or community college districts from appropriated funds to assist districts in establishing such projects. The education agency may operate its own program or enter into a contract with another not-for-profit entity to implement the program. The projects shall allow dropouts, up to and including age 21, potential dropouts, including truants, uninvolved, unmotivated and disaffected students, as defined by State Board of Education rules and regulations, to enroll, as an alternative to regular school attendance, in an optional education program which may be established by school board policy and is in conformance with rules adopted by the State Board of Education. Truants' Alternative and Optional Education programs funded pursuant to this Section shall be planned by a student, the student's parents or legal guardians, unless the student is 18 years or older, and school officials and shall culminate in an individualized optional education plan. Such plan shall focus on academic or vocational skills, or both, and may include, but not be limited to, evening school, summer school, community college courses, adult education, preparation courses for high school equivalency testing, vocational training, work experience, programs to enhance self

concept and parenting courses. School districts which are awarded grants pursuant to this Section shall be authorized to provide day care services to children of students who are eligible and desire to enroll in programs established and funded under this Section, but only if and to the extent that such day care is necessary to enable those eligible students to attend and participate in the programs and courses which are conducted pursuant to this Section. School districts and regional offices of education may claim general State aid under Section 18-8.05 or evidence-based funding under Section 18-8.15 for students enrolled in truants' alternative and optional education programs, provided that such students are receiving services that are supplemental to a program leading to a high school diploma and are otherwise eligible to be claimed for general State aid under Section 18-8.05 or evidence-based funding under Section 18-8.15, as applicable.

Sec. 2-3.66b. IHOPE Program.

(a) There is established the Illinois Hope and Opportunity Pathways through Education (IHOPE) Program. The State Board of Education shall implement and administer the IHOPE Program. The goal of the IHOPE Program is to develop a comprehensive system in this State to re-enroll significant numbers of high school dropouts in programs that will enable them to earn their high school diploma.

(b) The IHOPE Program shall award grants, subject to appropriation for this purpose, to educational service regions and a school district organized under Article 34 of this Code from appropriated funds to assist in establishing instructional programs and other services designed to re-enroll high school dropouts. From any funds appropriated for the IHOPE Program, the State Board of Education may use up to 5% for administrative costs, including the performance of a program evaluation and the hiring of staff to implement and administer the program.

The IHOPE Program shall provide incentive grant funds for regional offices of education and a school district organized under Article 34 of this Code to develop partnerships with school districts, public community colleges, and community groups to build comprehensive plans to re-enroll high school dropouts in their regions or districts.

Programs funded through the IHOPE Program shall allow high school dropouts, up to and including age 21 notwithstanding Section 26-2 of this Code, to re-enroll in an educational program in conformance with rules adopted by the State Board of Education. Programs may include

New matter indicated by italics - deletions by strikeout
without limitation comprehensive year-round programming, evening school, summer school, community college courses, adult education, vocational training, work experience, programs to enhance self-concept, and parenting courses. Any student in the IHOPE Program who wishes to earn a high school diploma must meet the prerequisites to receiving a high school diploma specified in Section 27-22 of this Code and any other graduation requirements of the student's district of residence. Any student who successfully completes the requirements for his or her graduation shall receive a diploma identifying the student as graduating from his or her district of residence.

(c) In order to be eligible for funding under the IHOPE Program, an interested regional office of education or a school district organized under Article 34 of this Code shall develop an IHOPE Plan to be approved by the State Board of Education. The State Board of Education shall develop rules for the IHOPE Program that shall set forth the requirements for the development of the IHOPE Plan. Each Plan shall involve school districts, public community colleges, and key community programs that work with high school dropouts located in an educational service region or the City of Chicago before the Plan is sent to the State Board for approval. No funds may be distributed to a regional office of education or a school district organized under Article 34 of this Code until the State Board has approved the Plan.

(d) A regional office of education or a school district organized under Article 34 of this Code may operate its own program funded by the IHOPE Program or enter into a contract with other not-for-profit entities, including school districts, public community colleges, and not-for-profit community-based organizations, to operate a program.

A regional office of education or a school district organized under Article 34 of this Code that receives an IHOPE grant from the State Board of Education may provide funds under a sub-grant, as specified in the IHOPE Plan, to other not-for-profit entities to provide services according to the IHOPE Plan that was developed. These other entities may include school districts, public community colleges, or not-for-profit community-based organizations or a cooperative partnership among these entities.

(e) In order to distribute funding based upon the need to ensure delivery of programs that will have the greatest impact, IHOPE Program funding must be distributed based upon the proportion of dropouts in the educational service region or school district, in the case of a school district organized under Article 34 of this Code, to the total number of dropouts in
this State. This formula shall employ the dropout data provided by school districts to the State Board of Education.

A regional office of education or a school district organized under Article 34 of this Code may claim State aid under Section 18-8.05 or 18-8.15 of this Code for students enrolled in a program funded by the IHOPE Program, provided that the State Board of Education has approved the IHOPE Plan and that these students are receiving services that are meeting the requirements of Section 27-22 of this Code for receipt of a high school diploma and are otherwise eligible to be claimed for general State aid under Section 18-8.05 of this Code or evidence-based funding under Section 18-8.15 of this Code, including provisions related to the minimum number of days of pupil attendance pursuant to Section 10-19 of this Code and the minimum number of daily hours of school work and any exceptions thereto as defined by the State Board of Education in rules.

(f) IHOPE categories of programming may include the following:

(1) Full-time programs that are comprehensive, year-round programs.

(2) Part-time programs combining work and study scheduled at various times that are flexible to the needs of students.

(3) Online programs and courses in which students take courses and complete on-site, supervised tests that measure the student's mastery of a specific course needed for graduation. Students may take courses online and earn credit or students may prepare to take supervised tests for specific courses for credit leading to receipt of a high school diploma.

(4) Dual enrollment in which students attend high school classes in combination with community college classes or students attend community college classes while simultaneously earning high school credit and eventually a high school diploma.

(g) In order to have successful comprehensive programs re-enrolling and graduating low-skilled high school dropouts, programs funded through the IHOPE Program shall include all of the following components:

(1) Small programs (70 to 100 students) at a separate school site with a distinct identity. Programs may be larger with specific need and justification, keeping in mind that it is crucial to keep programs small to be effective.
(2) Specific performance-based goals and outcomes and measures of enrollment, attendance, skills, credits, graduation, and the transition to college, training, and employment.

(3) Strong, experienced leadership and teaching staff who are provided with ongoing professional development.

(4) Voluntary enrollment.

(5) High standards for student learning, integrating work experience, and education, including during the school year and after school, and summer school programs that link internships, work, and learning.

(6) Comprehensive programs providing extensive support services.

(7) Small teams of students supported by full-time paid mentors who work to retain and help those students graduate.

(8) A comprehensive technology learning center with Internet access and broad-based curriculum focusing on academic and career subject areas.

(9) Learning opportunities that incorporate action into study.

(h) Programs funded through the IHOPE Program must report data to the State Board of Education as requested. This information shall include, but is not limited to, student enrollment figures, attendance information, course completion data, graduation information, and post-graduation information, as available.

(i) Rules must be developed by the State Board of Education to set forth the fund distribution process to regional offices of education and a school district organized under Article 34 of this Code, the planning and the conditions upon which an IHOPE Plan would be approved by State Board, and other rules to develop the IHOPE Program.

Sec. 2-3.170. Property tax relief pool grants.

(a) As used in this Section,

"Property tax multiplier" equals one minus the square of the school district's Local Capacity Percentage, as defined in Section 18-8.15 of this Code.

"State Board" means the State Board of Education.

"Unit equivalent tax rate" means the Adjusted Operating Tax Rate, as defined in Section 18-8.15 of this Code, multiplied by a factor of 1 for unit school districts, 13/9 for elementary school districts, and 13/4 for high school districts.

(b) Subject to appropriation, the State Board shall provide grants to eligible school districts that provide tax relief to the school district's residents, up to a limit of 1% of the school district's equalized assessed value, as provided in this Section.

(c) By August 1 of each year, the State Board shall publish an estimated threshold unit equivalent tax rate. School districts whose adjusted operating tax rate, as defined in this Section, is greater than the estimated threshold unit equivalent tax rate are eligible for relief under this Section. This estimated tax rate shall be based on the most recent available data provided by school districts pursuant to Section 18-8.15 of

this Code. The State Board shall estimate this property tax rate based on
the amount appropriated to the grant program and the assumption that a
set of school districts, based on criteria established by the State Board,
will apply for grants under this Section. The criteria shall be based on
reasonable assumptions about when school districts will apply for the
grant.

(d) School districts seeking grants under this Section shall apply to
the State Board by October 1 of each year. All applications to the State
Board for grants shall include the amount of the grant requested.

(e) By December 1 of each year, based on the most recent
available data provided by school districts pursuant to Section 18-8.15 of
this Code, the State Board shall calculate the unit equivalent tax rate,
based on the applications received by the State Board, above which the
appropriations are sufficient to provide relief and publish a list of the
school districts eligible for relief.

(f) The State Board shall publish a final list of grant recipients and
provide payment of the grants by January 15 of each year.

(g) If payment from the State Board is received by the school
district on time, the school district shall reduce its property tax levy in an
amount equal to the grant received under this Section.

(h) The total grant to a school district under this Section shall be
calculated based on the total amount of reduction in the school district's
aggregate extension, up to a limit of 1% of a district's equalized assessed
value for a unit school district, 0.69% for an elementary school district,
and 0.31% for a high school district, multiplied by the property tax
multiplier or the amount that the unit equivalent tax rate is greater than
the rate determined by the State Board, whichever is less.

(i) If the State Board does not expend all appropriations allocated
pursuant to this Section, then any remaining funds shall be allocated
pursuant to Section 18-8.15 of this Code.

(j) The State Board shall prioritize payments under Section 18-8.15
of this Code over payments under this Section, if necessary.

(k) Any grants received by a school district shall be included in
future calculations of that school district's Base Funding Minimum under
Section 18-8.15 of this Code.

(l) In the tax year following receipt of a Property Tax Pool Relief
Grant, the aggregate levy of any school district receiving a grant under
this Section, for purposes of the Property Tax Extension Limitation Law,

Sec. 3-14.21. Inspection of schools.

(a) The regional superintendent shall inspect and survey all public schools under his or her supervision and notify the board of education, or the trustees of schools in a district with trustees, in writing before July 30, whether or not the several schools in their district have been kept as required by law, using forms provided by the State Board of Education which are based on the Health/Life Safety Code for Public Schools adopted under Section 2-3.12. The regional superintendent shall report his or her findings to the State Board of Education on forms provided by the State Board of Education.

(b) If the regional superintendent determines that a school board has failed in a timely manner to correct urgent items identified in a previous life-safety report completed under Section 2-3.12 or as otherwise previously ordered by the regional superintendent, the regional superintendent shall order the school board to adopt and submit to the regional superintendent a plan for the immediate correction of the building violations. This plan shall be adopted following a public hearing that is conducted by the school board on the violations and the plan and that is preceded by at least 7 days' prior notice of the hearing published in a newspaper of general circulation within the school district. If the regional superintendent determines in the next annual inspection that the plan has not been completed and that the violations have not been corrected, the regional superintendent shall submit a report to the State Board of Education with a recommendation that the State Board withhold from payments of general State aid or evidence-based funding due to the district an amount necessary to correct the outstanding violations. The State Board, upon notice to the school board and to the regional superintendent, shall consider the report at a meeting of the State Board, and may order that a sufficient amount of general State aid or evidence-based funding be withheld from payments due to the district to correct the violations. This amount shall be paid to the regional superintendent who shall contract on behalf of the school board for the correction of the outstanding violations.

(c) The Office of the State Fire Marshal or a qualified fire official, as defined in Section 2-3.12 of this Code, to whom the State Fire Marshal has delegated his or her authority shall conduct an annual fire safety inspection of each school building in this State. The State Fire Marshal or

the fire official shall coordinate its inspections with the regional superintendent. The inspection shall be based on the fire safety code authorized in Section 2-3.12 of this Code. Any violations shall be reported in writing to the regional superintendent and shall reference the specific code sections where a discrepancy has been identified within 15 days after the inspection has been conducted. The regional superintendent shall address those violations that are not corrected in a timely manner pursuant to subsection (b) of this Section. The inspection must be at no cost to the school district.

(d) If a municipality or, in the case of an unincorporated area, a county or, if applicable, a fire protection district wishes to perform new construction inspections under the jurisdiction of a regional superintendent, then the entity must register this wish with the regional superintendent. These inspections must be based on the building code authorized in Section 2-3.12 of this Code. The inspections must be at no cost to the school district.

The school report card shall also provide information that allows for comparing the current outcome, progress, and environment data to the State average, to the school data from the past 5 years, and to the outcomes, progress, and environment of similar schools based on the type of school and enrollment of low-income students, special education students, and English learners.

Sec. 10-19. Length of school term - experimental programs. Each school board shall annually prepare a calendar for the school term, specifying the opening and closing dates and providing a minimum term of at least 185 days to insure 176 days of actual pupil attendance, computable under Section 18-8.05 or 18-8.15, except that for the 1980-1981 school year only 175 days of actual pupil attendance shall be required because of the closing of schools pursuant to Section 24-2 on January 29, 1981 upon the appointment by the President of that day as a day of thanksgiving for the freedom of the Americans who had been held hostage in Iran. Any days allowed by law for teachers' institutes but not used as such or used as parental institutes as provided in Section 10-22.18d shall increase the minimum term by the school days not so used. Except as provided in Section 10-19.1, the board may not extend the school term beyond such closing date unless that extension of term is necessary to provide the minimum number of computable days. In case of such necessary extension school employees shall be paid for such additional time on the basis of their regular contracts. A school board may specify a closing date earlier than that set on the annual calendar when the schools of the district have provided the minimum number of computable days under this Section. Nothing in this Section prevents the board from employing superintendents of schools, principals and other nonteaching personnel for a period of 12 months, or in the case of superintendents for a period in accordance with Section 10-23.8, or prevents the board from employing other personnel before or after the regular school term with payment of salary proportionate to that received for comparable work during the school term.

A school board may make such changes in its calendar for the school term as may be required by any changes in the legal school holidays prescribed in Section 24-2. A school board may make changes in its calendar for the school term as may be necessary to reflect the utilization of teachers' institute days as parental institute days as provided in Section 10-22.18d.

The calendar for the school term and any changes must be submitted to and approved by the regional superintendent of schools before the calendar or changes may take effect.

With the prior approval of the State Board of Education and subject to review by the State Board of Education every 3 years, any school board may, by resolution of its board and in agreement with affected exclusive collective bargaining agents, establish experimental educational programs, including but not limited to programs for e-learning days as authorized under Section 10-20.56 of this Code, self-directed learning, or outside of formal class periods, which programs when so approved shall be considered to comply with the requirements of this Section as respects numbers of days of actual pupil attendance and with the other requirements of this Act as respects courses of instruction.

School districts and community college districts may assess students up to $3.00 per credit hour, for classes other than Adult Basic Education level programs, if needed to meet program costs.

(f) An education plan shall be established for each adult or youth whose schooling has been interrupted and who is participating in the instructional programs provided under this Section.

Each school board and community college shall keep an accurate and detailed account of the students assigned to and receiving instruction under this Section who are subject to State reimbursement and shall submit reports of services provided commencing with fiscal year 1997 as required by the Illinois Community College Board.

have obtained employment and to other persons in the community whose
children require care and supervision while the parent or other person in
charge of the children is employed or otherwise absent from the home
during all or part of the day. It may make the facilities available before and
after as well as during regular school hours to school age and preschool
age children who may benefit thereby, including children who require care
and supervision pending the return of their parent or other person in charge
of their care from employment or other activity requiring absence from the
home.

The Illinois Community College Board shall pay to the board the
cost of care in the facilities for any child who is a recipient of financial aid
under the Illinois Public Aid Code.

The board may charge for care of children for whom it cannot
make claim under the provisions of this Section. The charge shall not
exceed per capita cost, and to the extent feasible, shall be fixed at a level
which will permit utilization by employed parents of low or moderate

only the prorated costs of care and training provided in the Center for the
remaining period shall be charged to the Illinois Department of Human

21 who is enrolled in courses accepted for graduation from elementary or
high school and who otherwise meets the requirements of Section 18-8.05
or 18-8.15, as applicable.

Sec. 11E-135. Incentives. For districts reorganizing under this Article and for a district or districts that annex all of the territory of one or more entire other school districts in accordance with Article 7 of this Code, the following payments shall be made from appropriations made for these purposes:

(a)(1) For a combined school district, as defined in Section 11E-20 of this Code, or for a unit district, as defined in Section 11E-25 of this Code, for its first year of existence, the general State aid and supplemental general State aid calculated under Section 18-8.05 of this Code or the evidence-based funding calculated under Section 18-8.15 of this Code, as applicable, shall be computed for the new district and for the previously existing districts for which property is totally included within the new district. If the computation on the basis of the previously existing districts is greater, a supplementary payment equal to the difference shall be made for the first 4 years of existence of the new district.

(2) For a school district that annexes all of the territory of one or more entire other school districts as defined in Article 7 of this Code, for the first year during which the change of boundaries attributable to the annexation becomes effective for all purposes, as determined under Section 7-9 of this Code, the general State aid and supplemental general State aid calculated under Section 18-8.05 of this Code or the evidence-based funding calculated under Section 18-8.15 of this Code, as applicable, shall be computed for the annexing district as constituted after the annexation and for the annexing and each annexed district as constituted prior to the annexation; and if the computation on the basis of the annexing and annexed districts as constituted prior to the annexation is greater, then a supplementary payment equal to the difference shall be made for the first 4 years of existence of the annexing school district as constituted upon the annexation.

(3) For 2 or more school districts that annex all of the territory of one or more entire other school districts, as defined in Article 7 of this

New matter indicated by italics - deletions by strikeout
Code, for the first year during which the change of boundaries attributable to the annexation becomes effective for all purposes, as determined under Section 7-9 of this Code, the general State aid and supplemental general State aid calculated under Section 18-8.05 of this Code or the evidence-based funding calculated under Section 18-8.15 of this Code, as applicable, shall be computed for each annexing district as constituted after the annexation and for each annexing and annexed district as constituted prior to the annexation; and if the aggregate of the general State aid and supplemental general State aid or evidence-based funding, as applicable, as so computed for the annexing districts as constituted after the annexation is less than the aggregate of the general State aid and supplemental general State aid or evidence-based funding, as applicable, as so computed for the annexing and annexed districts, as constituted prior to the annexation, then a supplementary payment equal to the difference shall be made and allocated between or among the annexing districts, as constituted upon the annexation, for the first 4 years of their existence. The total difference payment shall be allocated between or among the annexing districts in the same ratio as the pupil enrollment from that portion of the annexed district or districts that is annexed to each annexing district bears to the total pupil enrollment from the entire annexed district or districts, as such pupil enrollment is determined for the school year last ending prior to the date when the change of boundaries attributable to the annexation becomes effective for all purposes. The amount of the total difference payment and the amount thereof to be allocated to the annexing districts shall be computed by the State Board of Education on the basis of pupil enrollment and other data that shall be certified to the State Board of Education, on forms that it shall provide for that purpose, by the regional superintendent of schools for each educational service region in which the annexing and annexed districts are located.

(4) For a school district conversion, as defined in Section 11E-15 of this Code, or a multi-unit conversion, as defined in subsection (b) of Section 11E-30 of this Code, if in their first year of existence the newly created elementary districts and the newly created high school district, from a school district conversion, or the newly created elementary district or districts and newly created combined high school - unit district, from a multi-unit conversion, qualify for less general State aid under Section 18-8.05 of this Code or evidence-based funding under Section 18-8.15 of this Code than would have been payable under Section 18-8.05 or 18-8.15, as applicable, for that same year to the previously existing districts, then a
supplementary payment equal to that difference shall be made for the first 4 years of existence of the newly created districts. The aggregate amount of each supplementary payment shall be allocated among the newly created districts in the proportion that the deemed pupil enrollment in each district during its first year of existence bears to the actual aggregate pupil enrollment in all of the districts during their first year of existence. For purposes of each allocation:

(A) the deemed pupil enrollment of the newly created high school district from a school district conversion shall be an amount equal to its actual pupil enrollment for its first year of existence multiplied by 1.25;

(B) the deemed pupil enrollment of each newly created elementary district from a school district conversion shall be an amount equal to its actual pupil enrollment for its first year of existence reduced by an amount equal to the product obtained when the amount by which the newly created high school district's deemed pupil enrollment exceeds its actual pupil enrollment for its first year of existence is multiplied by a fraction, the numerator of which is the actual pupil enrollment of the newly created elementary district for its first year of existence and the denominator of which is the actual aggregate pupil enrollment of all of the newly created elementary districts for their first year of existence;

(C) the deemed high school pupil enrollment of the newly created combined high school - unit district from a multi-unit conversion shall be an amount equal to its actual grades 9 through 12 pupil enrollment for its first year of existence multiplied by 1.25; and

(D) the deemed elementary pupil enrollment of each newly created district from a multi-unit conversion shall be an amount equal to each district's actual grade K through 8 pupil enrollment for its first year of existence, reduced by an amount equal to the product obtained when the amount by which the newly created combined high school - unit district's deemed high school pupil enrollment exceeds its actual grade 9 through 12 pupil enrollment for its first year of existence is multiplied by a fraction, the numerator of which is the actual grade K through 8 pupil enrollment of each newly created district for its first year of existence and the denominator of which is the actual aggregate pupil enrollment

grade K through 8 pupil enrollment of all such newly created districts for their first year of existence.

The aggregate amount of each supplementary payment under this subdivision (4) and the amount thereof to be allocated to the newly created districts shall be computed by the State Board of Education on the basis of pupil enrollment and other data, which shall be certified to the State Board of Education, on forms that it shall provide for that purpose, by the regional superintendent of schools for each educational service region in which the newly created districts are located.

(5) For a partial elementary unit district, as defined in subsection (a) or (c) of Section 11E-30 of this Code, if, in the first year of existence, the newly created partial elementary unit district qualifies for less general State aid and supplemental general State aid under Section 18-8.05 of this Code or less evidence-based funding under Section 18-8.15 of this Code, as applicable, than would have been payable under those Sections that Section for that same year to the previously existing districts that formed the partial elementary unit district, then a supplementary payment equal to that difference shall be made to the partial elementary unit district for the first 4 years of existence of that newly created district.

(6) For an elementary opt-in, as described in subsection (d) of Section 11E-30 of this Code, the general State aid or evidence-based funding difference shall be computed in accordance with paragraph (5) of this subsection (a) as if the elementary opt-in was included in an optional elementary unit district at the optional elementary unit district's original effective date. If the calculation in this paragraph (6) is less than that calculated in paragraph (5) of this subsection (a) at the optional elementary unit district's original effective date, then no adjustments may be made. If the calculation in this paragraph (6) is more than that calculated in paragraph (5) of this subsection (a) at the optional elementary unit district's original effective date, then the excess must be paid as follows:

(A) If the effective date for the elementary opt-in is one year after the effective date for the optional elementary unit district, 100% of the calculated excess shall be paid to the optional elementary unit district in each of the first 4 years after the effective date of the elementary opt-in.

(B) If the effective date for the elementary opt-in is 2 years after the effective date for the optional elementary unit district, 75% of the calculated excess shall be paid to the optional
elementary unit district in each of the first 4 years after the effective date of the elementary opt-in.

(C) If the effective date for the elementary opt-in is 3 years after the effective date for the optional elementary unit district, 50% of the calculated excess shall be paid to the optional elementary unit district in each of the first 4 years after the effective date of the elementary opt-in.

(D) If the effective date for the elementary opt-in is 4 years after the effective date for the optional elementary unit district, 25% of the calculated excess shall be paid to the optional elementary unit district in each of the first 4 years after the effective date of the elementary opt-in.

(E) If the effective date for the elementary opt-in is 5 years after the effective date for the optional elementary unit district, the optional elementary unit district is not eligible for any additional incentives due to the elementary opt-in.

(6.5) For a school district that annexes territory detached from another school district whereby the enrollment of the annexing district increases by 90% or more as a result of the annexation, for the first year during which the change of boundaries attributable to the annexation becomes effective for all purposes as determined under Section 7-9 of this Code, the general State aid and supplemental general State aid or evidence-based funding, as applicable, calculated under this Section shall be computed for the district gaining territory and the district losing territory as constituted after the annexation and for the same districts as constituted prior to the annexation; and if the aggregate of the general State aid and supplemental general State aid or evidence-based funding, as applicable, as so computed for the district gaining territory and the district losing territory as constituted after the annexation is less than the aggregate of the general State aid and supplemental general State aid or evidence-based funding, as applicable, as so computed for the district gaining territory and the district losing territory as constituted prior to the annexation, then a supplementary payment shall be made to the annexing district for the first 4 years of existence after the annexation, equal to the difference multiplied by the ratio of student enrollment in the territory detached to the total student enrollment in the district losing territory for the year prior to the effective date of the annexation. The amount of the total difference and the proportion paid to the annexing district shall be computed by the State Board of Education on the basis of pupil enrollment

The changes to this Section made by Public Act 95-707 are intended to be retroactive and applicable to any annexation taking effect on or after July 1, 2004. For annexations that are eligible for payments under this paragraph (6.5) and that are effective on or after July 1, 2004, but before January 11, 2008 (the effective date of Public Act 95-707), the first required yearly payment under this paragraph (6.5) shall be paid in the fiscal year of January 11, 2008 (the effective date of Public Act 95-707). Subsequent required yearly payments shall be paid in subsequent fiscal years until the payment obligation under this paragraph (6.5) is complete.

(7) Claims for financial assistance under this subsection (a) may not be recomputed except as expressly provided under Section 18-8.05 or 18-8.15 of this Code.

(8) Any supplementary payment made under this subsection (a) must be treated as separate from all other payments made pursuant to Section 18-8.05 or 18-8.15 of this Code.

(b)(1) After the formation of a combined school district, as defined in Section 11E-20 of this Code, or a unit district, as defined in Section 11E-25 of this Code, a computation shall be made to determine the difference between the salaries effective in each of the previously existing districts on June 30, prior to the creation of the new district. For the first 4 years after the formation of the new district, a supplementary State aid reimbursement shall be paid to the new district equal to the difference between the sum of the salaries earned by each of the certificated members of the new district, while employed in one of the previously existing districts during the year immediately preceding the formation of the new district, and the sum of the salaries those certificated members would have been paid during the year immediately prior to the formation of the new district if placed on the salary schedule of the previously existing district with the highest salary schedule.

(2) After the territory of one or more school districts is annexed by one or more other school districts as defined in Article 7 of this Code, a computation shall be made to determine the difference between the salaries effective in each annexed district and in the annexing district or districts as they were each constituted on June 30 preceding the date when the change of boundaries attributable to the annexation became effective for all purposes, as determined under Section 7-9 of this Code. For the first 4 years after the annexation, a supplementary State aid reimbursement...
shall be paid to each annexing district as constituted after the annexation equal to the difference between the sum of the salaries earned by each of the certificated members of the annexing district as constituted after the annexation, while employed in an annexed or annexing district during the year immediately preceding the annexation, and the sum of the salaries those certificated members would have been paid during the immediately preceding year if placed on the salary schedule of whichever of the annexing or annexed districts had the highest salary schedule during the immediately preceding year.

(3) For each new high school district formed under a school district conversion, as defined in Section 11E-15 of this Code, the State shall make a supplementary payment for 4 years equal to the difference between the sum of the salaries earned by each certified member of the new high school district, while employed in one of the previously existing districts, and the sum of the salaries those certified members would have been paid if placed on the salary schedule of the previously existing district with the highest salary schedule.

(4) For each newly created partial elementary unit district, the State shall make a supplementary payment for 4 years equal to the difference between the sum of the salaries earned by each certified member of the newly created partial elementary unit district, while employed in one of the previously existing districts that formed the partial elementary unit district, and the sum of the salaries those certified members would have been paid if placed on the salary schedule of the previously existing district with the highest salary schedule. The salary schedules used in the calculation shall be those in effect in the previously existing districts for the school year prior to the creation of the new partial elementary unit district.

(5) For an elementary district opt-in, as described in subsection (d) of Section 11E-30 of this Code, the salary difference incentive shall be computed in accordance with paragraph (4) of this subsection (b) as if the opted-in elementary district was included in the optional elementary unit district at the optional elementary unit district's original effective date. If the calculation in this paragraph (5) is less than that calculated in paragraph (4) of this subsection (b) at the optional elementary unit district's original effective date, then no adjustments may be made. If the calculation in this paragraph (5) is more than that calculated in paragraph (4) of this subsection (b) at the optional elementary unit district's original effective date, then the excess must be paid as follows:

(A) If the effective date for the elementary opt-in is one year after the effective date for the optional elementary unit district, 100% of the calculated excess shall be paid to the optional elementary unit district in each of the first 4 years after the effective date of the elementary opt-in.

(B) If the effective date for the elementary opt-in is 2 years after the effective date for the optional elementary unit district, 75% of the calculated excess shall be paid to the optional elementary unit district in each of the first 4 years after the effective date of the elementary opt-in.

(C) If the effective date for the elementary opt-in is 3 years after the effective date for the optional elementary unit district, 50% of the calculated excess shall be paid to the optional elementary unit district in each of the first 4 years after the effective date of the elementary opt-in.

(D) If the effective date for the elementary opt-in is 4 years after the effective date for the partial elementary unit district, 25% of the calculated excess shall be paid to the optional elementary unit district in each of the first 4 years after the effective date of the elementary opt-in.

(E) If the effective date for the elementary opt-in is 5 years after the effective date for the optional elementary unit district, the optional elementary unit district is not eligible for any additional incentives due to the elementary opt-in.

(5.5) After the formation of a cooperative high school by 2 or more school districts under Section 10-22.22c of this Code, a computation shall be made to determine the difference between the salaries effective in each of the previously existing high schools on June 30 prior to the formation of the cooperative high school. For the first 4 years after the formation of the cooperative high school, a supplementary State aid reimbursement shall be paid to the cooperative high school equal to the difference between the sum of the salaries earned by each of the certificated members of the cooperative high school while employed in one of the previously existing high schools during the year immediately preceding the formation of the cooperative high school and the sum of the salaries those certificated members would have been paid during the year immediately prior to the formation of the cooperative high school if placed on the salary schedule of the previously existing high school with the highest salary schedule.

(5.10) After the annexation of territory detached from another school district whereby the enrollment of the annexing district increases by 90% or more as a result of the annexation, a computation shall be made to determine the difference between the salaries effective in the district gaining territory and the district losing territory as they each were constituted on June 30 preceding the date when the change of boundaries attributable to the annexation became effective for all purposes as determined under Section 7-9 of this Code. For the first 4 years after the annexation, a supplementary State aid reimbursement shall be paid to the annexing district equal to the difference between the sum of the salaries earned by each of the certificated members of the annexing district as constituted after the annexation while employed in the district gaining territory or the district losing territory during the year immediately preceding the annexation and the sum of the salaries those certificated members would have been paid during such immediately preceding year if placed on the salary schedule of whichever of the district gaining territory or district losing territory had the highest salary schedule during the immediately preceding year. To be eligible for supplementary State aid reimbursement under this Section, the intergovernmental agreement to be submitted pursuant to Section 7-14A of this Code must show that staff members were transferred from the control of the district losing territory to the control of the district gaining territory in the annexation. The changes to this Section made by Public Act 95-707 are intended to be retroactive and applicable to any annexation taking effect on or after July 1, 2004. For annexations that are eligible for payments under this paragraph (5.10) and that are effective on or after July 1, 2004, but before January 11, 2008 (the effective date of Public Act 95-707), the first required yearly payment under this paragraph (5.10) shall be paid in the fiscal year of January 11, 2008 (the effective date of Public Act 95-707). Subsequent required yearly payments shall be paid in subsequent fiscal years until the payment obligation under this paragraph (5.10) is complete.

(5.15) After the deactivation of a school facility in accordance with Section 10-22.22b of this Code, a computation shall be made to determine the difference between the salaries effective in the sending school district and each receiving school district on June 30 prior to the deactivation of the school facility. For the lesser of the first 4 years after the deactivation of the school facility or the length of the deactivation agreement, including any renewals of the original deactivation agreement, a supplementary State aid reimbursement shall be paid to each receiving district equal to the

difference between the sum of the salaries earned by each of the certificated members transferred to that receiving district as a result of the deactivation while employed in the sending district during the year immediately preceding the deactivation and the sum of the salaries those certificated members would have been paid during the year immediately preceding the deactivation if placed on the salary schedule of the sending or receiving district with the highest salary schedule.

(6) The supplementary State aid reimbursement under this subsection (b) shall be treated as separate from all other payments made pursuant to Section 18-8.05 of this Code. In the case of the formation of a new district or cooperative high school or a deactivation, reimbursement shall begin during the first year of operation of the new district or cooperative high school or the first year of the deactivation, and in the case of an annexation of the territory of one or more school districts by one or more other school districts or the annexation of territory detached from a school district whereby the enrollment of the annexing district increases by 90% or more as a result of the annexation, reimbursement shall begin during the first year when the change in boundaries attributable to the annexation becomes effective for all purposes as determined pursuant to Section 7-9 of this Code, except that for an annexation of territory detached from a school district that is effective on or after July 1, 2004, but before January 11, 2008 (the effective date of Public Act 95-707), whereby the enrollment of the annexing district increases by 90% or more as a result of the annexation, reimbursement shall begin during the fiscal year of January 11, 2008 (the effective date of Public Act 95-707). Each year that the new, annexing, or receiving district or cooperative high school, as the case may be, is entitled to receive reimbursement, the number of eligible certified members who are employed on October 1 in the district or cooperative high school shall be certified to the State Board of Education on prescribed forms by October 15 and payment shall be made on or before November 15 of that year.

(c)(1) For the first year after the formation of a combined school district, as defined in Section 11E-20 of this Code or a unit district, as defined in Section 11E-25 of this Code, a computation shall be made totaling each previously existing district's audited fund balances in the educational fund, working cash fund, operations and maintenance fund, and transportation fund for the year ending June 30 prior to the referendum for the creation of the new district. The new district shall be paid supplementary State aid equal to the sum of the differences between the

deficit of the previously existing district with the smallest deficit and the
deficits of each of the other previously existing districts.

(2) For the first year after the annexation of all of the territory of
one or more entire school districts by another school district, as defined in
Article 7 of this Code, computations shall be made, for the year ending
June 30 prior to the date that the change of boundaries attributable to the
annexation is allowed by the affirmative decision issued by the regional
board of school trustees under Section 7-6 of this Code, notwithstanding
any effort to seek administrative review of the decision, totaling the
annexing district's and totaling each annexed district's audited fund
balances in their respective educational, working cash, operations and
maintenance, and transportation funds. The annexing district as constituted
after the annexation shall be paid supplementary State aid equal to the sum
of the differences between the deficit of whichever of the annexing or
annexed districts as constituted prior to the annexation had the smallest
deficit and the deficits of each of the other districts as constituted prior to
the annexation.

(3) For the first year after the annexation of all of the territory of
one or more entire school districts by 2 or more other school districts, as
defined by Article 7 of this Code, computations shall be made, for the year
ending June 30 prior to the date that the change of boundaries attributable
to the annexation is allowed by the affirmative decision of the regional
board of school trustees under Section 7-6 of this Code, notwithstanding
any action for administrative review of the decision, totaling each
annexing and annexed district's audited fund balances in their respective
educational, working cash, operations and maintenance, and transportation
funds. The annexing districts as constituted after the annexation shall be
paid supplementary State aid, allocated as provided in this paragraph (3),
in an aggregate amount equal to the sum of the differences between the
deficit of whichever of the annexing or annexed districts as constituted
prior to the annexation had the smallest deficit and the deficits of each of
the other districts as constituted prior to the annexation. The aggregate
amount of the supplementary State aid payable under this paragraph (3)
shall be allocated between or among the annexing districts as follows:

(A) the regional superintendent of schools for each
educational service region in which an annexed district is located
prior to the annexation shall certify to the State Board of
Education, on forms that it shall provide for that purpose, the value
of all taxable property in each annexed district, as last equalized or

assessed by the Department of Revenue prior to the annexation, and the equalized assessed value of each part of the annexed district that was annexed to or included as a part of an annexing district;

(B) using equalized assessed values as certified by the regional superintendent of schools under clause (A) of this paragraph (3), the combined audited fund balance deficit of each annexed district as determined under this Section shall be apportioned between or among the annexing districts in the same ratio as the equalized assessed value of that part of the annexed district that was annexed to or included as a part of an annexing district bears to the total equalized assessed value of the annexed district; and

(C) the aggregate supplementary State aid payment under this paragraph (3) shall be allocated between or among, and shall be paid to, the annexing districts in the same ratio as the sum of the combined audited fund balance deficit of each annexing district as constituted prior to the annexation, plus all combined audited fund balance deficit amounts apportioned to that annexing district under clause (B) of this subsection, bears to the aggregate of the combined audited fund balance deficits of all of the annexing and annexed districts as constituted prior to the annexation.

(4) For the new elementary districts and new high school district formed through a school district conversion, as defined in Section 11E-15 of this Code or the new elementary district or districts and new combined high school - unit district formed through a multi-unit conversion, as defined in subsection (b) of Section 11E-30 of this Code, a computation shall be made totaling each previously existing district's audited fund balances in the educational fund, working cash fund, operations and maintenance fund, and transportation fund for the year ending June 30 prior to the referendum establishing the new districts. In the first year of the new districts, the State shall make a one-time supplementary payment equal to the sum of the differences between the deficit of the previously existing district with the smallest deficit and the deficits of each of the other previously existing districts. A district with a combined balance among the 4 funds that is positive shall be considered to have a deficit of zero. The supplementary payment shall be allocated among the newly formed high school and elementary districts in the manner provided by the petition for the formation of the districts, in the form in which the petition

is approved by the regional superintendent of schools or State Superintendent of Education under Section 11E-50 of this Code.

(5) For each newly created partial elementary unit district, as defined in subsection (a) or (c) of Section 11E-30 of this Code, a computation shall be made totaling the audited fund balances of each previously existing district that formed the new partial elementary unit district in the educational fund, working cash fund, operations and maintenance fund, and transportation fund for the year ending June 30 prior to the referendum for the formation of the partial elementary unit district. In the first year of the new partial elementary unit district, the State shall make a one-time supplementary payment to the new district equal to the sum of the differences between the deficit of the previously existing district with the smallest deficit and the deficits of each of the other previously existing districts. A district with a combined balance among the 4 funds that is positive shall be considered to have a deficit of zero.

(6) For an elementary opt-in as defined in subsection (d) of Section 11E-30 of this Code, the deficit fund balance incentive shall be computed in accordance with paragraph (5) of this subsection (c) as if the opted-in elementary was included in the optional elementary unit district at the optional elementary unit district's original effective date. If the calculation in this paragraph (6) is less than that calculated in paragraph (5) of this subsection (c) at the optional elementary unit district's original effective date, then no adjustments may be made. If the calculation in this paragraph (6) is more than that calculated in paragraph (5) of this subsection (c) at the optional elementary unit district's original effective date, then the excess must be paid as follows:

(A) If the effective date for the elementary opt-in is one year after the effective date for the optional elementary unit district, 100% of the calculated excess shall be paid to the optional elementary unit district in the first year after the effective date of the elementary opt-in.

(B) If the effective date for the elementary opt-in is 2 years after the effective date for the optional elementary unit district, 75% of the calculated excess shall be paid to the optional elementary unit district in the first year after the effective date of the elementary opt-in.

(C) If the effective date for the elementary opt-in is 3 years after the effective date for the optional elementary unit district,
50% of the calculated excess shall be paid to the optional elementary unit district in the first year after the effective date of the elementary opt-in.

(D) If the effective date for the elementary opt-in is 4 years after the effective date for the optional elementary unit district, 25% of the calculated excess shall be paid to the optional elementary unit district in the first year after the effective date of the elementary opt-in.

(E) If the effective date for the elementary opt-in is 5 years after the effective date for the optional elementary unit district, the optional elementary unit district is not eligible for any additional incentives due to the elementary opt-in.

(6.5) For the first year after the annexation of territory detached from another school district whereby the enrollment of the annexing district increases by 90% or more as a result of the annexation, a computation shall be made totaling the audited fund balances of the district gaining territory and the audited fund balances of the district losing territory in the educational fund, working cash fund, operations and maintenance fund, and transportation fund for the year ending June 30 prior to the date that the change of boundaries attributable to the annexation is allowed by the affirmative decision of the regional board of school trustees under Section 7-6 of this Code, notwithstanding any action for administrative review of the decision. The annexing district as constituted after the annexation shall be paid supplementary State aid equal to the difference between the deficit of whichever district included in this calculation as constituted prior to the annexation had the smallest deficit and the deficit of each other district included in this calculation as constituted prior to the annexation, multiplied by the ratio of equalized assessed value of the territory detached to the total equalized assessed value of the district losing territory. The regional superintendent of schools for the educational service region in which a district losing territory is located prior to the annexation shall certify to the State Board of Education the value of all taxable property in the district losing territory and the value of all taxable property in the territory being detached, as last equalized or assessed by the Department of Revenue prior to the annexation. To be eligible for supplementary State aid reimbursement under this Section, the intergovernmental agreement to be submitted pursuant to Section 7-14A of this Code must show that fund balances were transferred from the district losing territory to the district gaining territory in the annexation. The

changes to this Section made by Public Act 95-707 are intended to be retroactive and applicable to any annexation taking effect on or after July 1, 2004. For annexations that are eligible for payments under this paragraph (6.5) and that are effective on or after July 1, 2004, but before January 11, 2008 (the effective date of Public Act 95-707), the required payment under this paragraph (6.5) shall be paid in the fiscal year of January 11, 2008 (the effective date of Public Act 95-707).

(7) For purposes of any calculation required under paragraph (1), (2), (3), (4), (5), (6), or (6.5) of this subsection (c), a district with a combined fund balance that is positive shall be considered to have a deficit of zero. For purposes of determining each district's audited fund balances in its educational fund, working cash fund, operations and maintenance fund, and transportation fund for the specified year ending June 30, as provided in paragraphs (1), (2), (3), (4), (5), (6), and (6.5) of this subsection (c), the balance of each fund shall be deemed decreased by an amount equal to the amount of the annual property tax theretofore levied in the fund by the district for collection and payment to the district during the calendar year in which the June 30 fell, but only to the extent that the tax so levied in the fund actually was received by the district on or before or comprised a part of the fund on such June 30. For purposes of determining each district's audited fund balances, a calculation shall be made for each fund to determine the average for the 3 years prior to the specified year ending June 30, as provided in paragraphs (1), (2), (3), (4), (5), (6), and (6.5) of this subsection (c), of the district's expenditures in the categories "purchased services", "supplies and materials", and "capital outlay", as those categories are defined in rules of the State Board of Education. If this 3-year average is less than the district's expenditures in these categories for the specified year ending June 30, as provided in paragraphs (1), (2), (3), (4), (5), (6), and (6.5) of this subsection (c), then the 3-year average shall be used in calculating the amounts payable under this Section in place of the amounts shown in these categories for the specified year ending June 30, as provided in paragraphs (1), (2), (3), (4), (5), (6), and (6.5) of this subsection (c). Any deficit because of State aid not yet received may not be considered in determining the June 30 deficits. The same basis of accounting shall be used by all previously existing districts and by all annexing or annexed districts, as constituted prior to the annexation, in making any computation required under paragraphs (1), (2), (3), (4), (5), (6), and (6.5) of this subsection (c).
(8) The supplementary State aid payments under this subsection (c) shall be treated as separate from all other payments made pursuant to Section 18-8.05 of this Code.

(d)(1) Following the formation of a combined school district, as defined in Section 11E-20 of this Code, a new unit district, as defined in Section 11E-25 of this Code, a new elementary district or districts and a new high school district formed through a school district conversion, as defined in Section 11E-15 of this Code, a new partial elementary unit district, as defined in Section 11E-30 of this Code, or a new elementary district or districts formed through a multi-unit conversion, as defined in subsection (b) of Section 11E-30 of this Code, or the annexation of all of the territory of one or more entire school districts by one or more other school districts, as defined in Article 7 of this Code, a supplementary State aid reimbursement shall be paid for the number of school years determined under the following table to each new or annexing district equal to the sum of $4,000 for each certified employee who is employed by the district on a full-time basis for the regular term of the school year:

The State Board of Education shall make a one-time calculation of a reorganized district's quintile ranks. The average daily attendance used in this calculation shall be the best 3 months' average daily attendance for the district's first year. The equalized assessed value per pupil shall be the district's real property equalized assessed value used in calculating the district's first-year general State aid claim, under Section 18-8.05 of this Code, or first-year evidence-based funding claim, under Section 18-8.15 of this Code, as applicable, divided by the best 3 months' average daily attendance.

No annexing or resulting school district shall be entitled to supplementary State aid under this subsection (d) unless the district acquires at least 30% of the average daily attendance of the district from which the territory is being detached or divided.

If a district results from multiple reorganizations that would otherwise qualify the district for multiple payments under this subsection (d) in any year, then the district shall receive a single payment only for that year based solely on the most recent reorganization.

(2) For an elementary opt-in, as defined in subsection (d) of Section 11E-30 of this Code, the full-time certified staff incentive shall be computed in accordance with paragraph (1) of this subsection (d), equal to the sum of $4,000 for each certified employee of the elementary district that opts-in who is employed by the optional elementary unit district on a full-time basis for the regular term of the school year. The calculation from this paragraph (2) must be paid as follows:

(A) If the effective date for the elementary opt-in is one year after the effective date for the optional elementary unit district, 100% of the amount calculated in this paragraph (2) shall be paid to the optional elementary unit district for the number of years calculated in paragraph (1) of this subsection (d) at the optional elementary unit district's original effective date, starting in the second year after the effective date of the elementary opt-in.

(B) If the effective date for the elementary opt-in is 2 years after the effective date for the optional elementary unit district, 75% of the amount calculated in this paragraph (2) shall be paid to the optional elementary unit district for the number of years calculated in paragraph (1) of this subsection (d) at the optional elementary unit district's original effective date, starting in the second year after the effective date of the elementary opt-in.

(C) If the effective date for the elementary opt-in is 3 years after the effective date for the optional elementary unit district, 50% of the amount calculated in this paragraph (2) shall be paid to the optional elementary unit district for the number of years calculated in paragraph (1) of this subsection (d) at the optional elementary unit district's original effective date, starting in the second year after the effective date of the elementary opt-in.

(D) If the effective date for the elementary opt-in is 4 years after the effective date for the optional elementary unit district, 25% of the amount calculated in this paragraph (2) shall be paid to
the optional elementary unit district for the number of years calculated in paragraph (1) of this subsection (d) at the optional elementary unit district's original effective date, starting in the second year after the effective date of the elementary opt-in.

(E) If the effective date for the elementary opt-in is 5 years after the effective date for the optional elementary unit district, the optional elementary unit district is not eligible for any additional incentives due to the elementary opt-in.

(2.5) Following the formation of a cooperative high school by 2 or more school districts under Section 10-22.22c of this Code, a supplementary State aid reimbursement shall be paid for 3 school years to the cooperative high school equal to the sum of $4,000 for each certified employee who is employed by the cooperative high school on a full-time basis for the regular term of any such school year. If a cooperative high school results from multiple agreements that would otherwise qualify the cooperative high school for multiple payments under this Section in any year, the cooperative high school shall receive a single payment for that year based solely on the most recent agreement.

(2.10) Following the annexation of territory detached from another school district whereby the enrollment of the annexing district increases 90% or more as a result of the annexation, a supplementary State aid reimbursement shall be paid to the annexing district equal to the sum of $4,000 for each certified employee who is employed by the annexing district on a full-time basis and shall be calculated in accordance with subsection (a) of this Section. To be eligible for supplementary State aid reimbursement under this Section, the intergovernmental agreement to be submitted pursuant to Section 7-14A of this Code must show that certified staff members were transferred from the control of the district losing territory to the control of the district gaining territory in the annexation. The changes to this Section made by Public Act 95-707 are intended to be retroactive and applicable to any annexation taking effect on or after July 1, 2004. For annexations that are eligible for payments under this paragraph (2.10) and that are effective on or after July 1, 2004, but before January 11, 2008 (the effective date of Public Act 95-707), the first required yearly payment under this paragraph (2.10) shall be paid in the second fiscal year after January 11, 2008 (the effective date of Public Act 95-707). Any subsequent required yearly payments shall be paid in subsequent fiscal years until the payment obligation under this paragraph (2.10) is complete.

(2.15) Following the deactivation of a school facility in accordance with Section 10-22.22b of this Code, a supplementary State aid reimbursement shall be paid for the lesser of 3 school years or the length of the deactivation agreement, including any renewals of the original deactivation agreement, to each receiving school district equal to the sum of $4,000 for each certified employee who is employed by that receiving district on a full-time basis for the regular term of any such school year who was originally transferred to the control of that receiving district as a result of the deactivation. Receiving districts are eligible for payments under this paragraph (2.15) based on the certified employees transferred to that receiving district as a result of the deactivation and are not required to receive at least 30% of the deactivating district's average daily attendance as required under paragraph (1) of this subsection (d) to be eligible for payments.

(3) The supplementary State aid reimbursement payable under this subsection (d) shall be separate from and in addition to all other payments made to the district pursuant to any other Section of this Article.

(4) During May of each school year for which a supplementary State aid reimbursement is to be paid to a new, annexing, or receiving school district or cooperative high school pursuant to this subsection (d), the school board or governing board shall certify to the State Board of Education, on forms furnished to the school board or governing board by the State Board of Education for purposes of this subsection (d), the number of certified employees for which the district or cooperative high school is entitled to reimbursement under this Section, together with the names, certificate numbers, and positions held by the certified employees.

(5) Upon certification by the State Board of Education to the State Comptroller of the amount of the supplementary State aid reimbursement to which a school district or cooperative high school is entitled under this subsection (d), the State Comptroller shall draw his or her warrant upon the State Treasurer for the payment thereof to the school district or cooperative high school and shall promptly transmit the payment to the school district or cooperative high school through the appropriate school treasurer.

(105 ILCS 5/13A-8)
Sec. 13A-8. Funding.
(a) The State of Illinois shall provide funding for the alternative school programs within each educational service region and within the Chicago public school system by line item appropriation made to the State Board of Education for that purpose. This money, when appropriated, shall be provided to the regional superintendent and to the Chicago Board of Education, who shall establish a budget, including salaries, for their alternative school programs. Each program shall receive funding in the amount of $30,000 plus an amount based on the ratio of the region's or Chicago's best 3 months' average daily attendance in grades pre-kindergarten through 12 to the statewide totals of these amounts. For purposes of this calculation, the best 3 months' average daily attendance for each region or Chicago shall be calculated by adding to the best 3 months' average daily attendance the number of low-income students identified in the most recently available federal census multiplied by one-half times the percentage of the region's or Chicago's low-income students to the State's total low-income students. The State Board of Education shall retain up to 1.1% of the appropriation to be used to provide technical assistance, professional development, and evaluations for the programs.

(a-5) Notwithstanding any other provisions of this Section, for the 1998-1999 fiscal year, the total amount distributed under subsection (a) for an alternative school program shall be not less than the total amount that was distributed under that subsection for that alternative school program for the 1997-1998 fiscal year. If an alternative school program is to receive a total distribution under subsection (a) for the 1998-1999 fiscal year that is less than the total distribution that the program received under that subsection for the 1997-1998 fiscal year, that alternative school program shall also receive, from a separate appropriation made for purposes of this subsection (a-5), a supplementary payment equal to the amount by which its total distribution under subsection (a) for the 1997-1998 fiscal year exceeds the amount of the total distribution that the alternative school program receives under that subsection for the 1998-1999 fiscal year. If the amount appropriated for supplementary payments to alternative school programs under this subsection (a-5) is insufficient for that purpose, those supplementary payments shall be prorated among the alternative school programs entitled to receive those supplementary payments according to the aggregate amount of the appropriation made for purposes of this subsection (a-5).

(b) An alternative school program shall be entitled to receive general State aid as calculated in subsection (K) of Section 18-8.05 or

evidence-based funding as calculated in subsection (g) of Section 18-8.15 upon filing a claim as provided therein. Any time that a student who is enrolled in an alternative school program spends in work-based learning, community service, or a similar alternative educational setting shall be included in determining the student's minimum number of clock hours of daily school work that constitute a day of attendance for purposes of calculating general State aid or evidence-based funding.

(c) An alternative school program may receive additional funding from its school districts in such amount as may be agreed upon by the parties and necessary to support the program. In addition, an alternative school program is authorized to accept and expend gifts, legacies, and grants, including but not limited to federal grants, from any source for purposes directly related to the conduct and operation of the program.

(1) The district plan submitted under Section 13B-25.15 of this Code establishes that a program providing the required minimum number of days of attendance or daily hours of school work would not serve the needs of the program's students.

(2) Each day of attendance shall provide no fewer than 3 clock hours of school work, as defined under paragraph (1) of subsection (F) of Section 18-8.05 of this Code.

(3) Each day of attendance that provides fewer than 5 clock hours of school work shall also provide supplementary services, including without limitation work-based learning, student assistance programs, counseling, case management, health and fitness programs, or life-skills or conflict resolution training, in order to provide a total daily program to the student of 5 clock hours. A program may claim general State aid or evidence-based funding for up to 2 hours of the time each day that a student is receiving supplementary services.

(4) Each program shall provide no fewer than 174 days of actual pupil attendance during the school term; however, approved evening programs that meet the requirements of Section 13B-45 of this Code may offer less than 174 days of actual pupil attendance during the school term.

Sec. 14-7.02b. Funding for children requiring special education services. Payments to school districts for children requiring special education services documented in their individualized education program regardless of the program from which these services are received, excluding children claimed under Sections 14-7.02 and 14-7.03 of this Code, shall be made in accordance with this Section. Funds received under this Section may be used only for the provision of special educational facilities and services as defined in Section 14-1.08 of this Code.

The appropriation for fiscal year 2005 through fiscal year 2017 and thereafter shall be based upon the IDEA child count of all students in the State, excluding students claimed under Sections 14-7.02 and 14-7.03 of this Code, on December 1 of the fiscal year 2 years preceding, multiplied by 17.5% of the general State aid foundation level of support established for that fiscal year under Section 18-8.05 of this Code.

Beginning with fiscal year 2005 and through fiscal year 2007, individual school districts shall not receive payments under this Section totaling less than they received under the funding authorized under Section 14-7.02a of this Code during fiscal year 2004, pursuant to the provisions of Section 14-7.02a as they were in effect before the effective date of this amendatory Act of the 93rd General Assembly. This base level funding shall be computed first.

Beginning with fiscal year 2008 through fiscal year 2017 and each fiscal year thereafter, individual school districts must not receive payments under this Section totaling less than they received in fiscal year 2007. This funding shall be computed last and shall be a separate calculation from any other calculation set forth in this Section. This amount is exempt from the requirements of Section 1D-1 of this Code.

Through fiscal year 2017, an amount equal to 85% of the funds remaining in the appropriation shall be allocated to school districts based upon the district's average daily attendance reported for purposes of Section 18-8.05 of this Code for the preceding school year. Fifteen percent of the funds remaining in the appropriation shall be allocated to school districts based upon the district's low income eligible pupil count used in the calculation of general State aid under Section 18-8.05 of this Code for the same fiscal year. One hundred percent of the funds computed and allocated to districts under this Section shall be distributed and paid to school districts.

For individual students with disabilities whose program costs exceed 4 times the district's per capita tuition rate as calculated under Section 10-20.12a of this Code, the costs in excess of 4 times the district's per capita tuition rate shall be paid by the State Board of Education from unexpended IDEA discretionary funds originally designated for room and board reimbursement pursuant to Section 14-8.01 of this Code. The amount of tuition for these children shall be determined by the actual cost of maintaining classes for these children, using the per capita cost formula set forth in Section 14-7.01 of this Code, with the program and cost being pre-approved by the State Superintendent of Education. Reimbursement for individual students with disabilities whose program costs exceed 4 times the district's per capita tuition rate shall be claimed beginning with costs encumbered for the 2004-2005 school year and thereafter.

The State Board of Education shall prepare vouchers equal to one-fourth the amount allocated to districts, for transmittal to the State Comptroller on the 30th day of September, December, and March, respectively, and the final voucher, no later than June 20. The Comptroller shall make payments pursuant to this Section to school districts as soon as possible after receipt of vouchers. If the money appropriated from the General Assembly for such purposes for any year is insufficient, it shall be apportioned on the basis of the payments due to school districts.

Nothing in this Section shall be construed to decrease or increase the percentage of all special education funds that are allocated annually under Article 1D of this Code or to alter the requirement that a school district provide special education services.

Nothing in this amendatory Act of the 93rd General Assembly shall eliminate any reimbursement obligation owed as of the effective date of this amendatory Act of the 93rd General Assembly to a school district with in excess of 500,000 inhabitants.

Sec. 14-13.01. Reimbursement payable by State; amounts for personnel and transportation.

(a) Through fiscal year 2017, for Fee staff working on behalf of children who have not been identified as eligible for special education and for eligible children with physical disabilities, including all eligible children whose placement has been determined under Section 14-8.02 in hospital or home instruction, 1/2 of the teacher's salary but not more than $1,000 annually per child or $9,000 per teacher, whichever is less.

(a-5) A child qualifies for home or hospital instruction if it is anticipated that, due to a medical condition, the child will be unable to attend school, and instead must be instructed at home or in the hospital, for a period of 2 or more consecutive weeks or on an ongoing intermittent basis. For purposes of this Section, "ongoing intermittent basis" means that the child's medical condition is of such a nature or severity that it is anticipated that the child will be absent from school due to the medical condition for periods of at least 2 days at a time multiple times during the school year totaling at least 10 days or more of absences. There shall be no requirement that a child be absent from school a minimum number of days before the child qualifies for home or hospital instruction. In order to establish eligibility for home or hospital services, a student's parent or guardian must submit to the child's school district of residence a written statement from a physician licensed to practice medicine in all of its branches stating the existence of such medical condition, the impact on the child's ability to participate in education, and the anticipated duration or nature of the child's absence from school. Home or hospital instruction may commence upon receipt of a written physician's statement in accordance with this Section, but instruction shall commence not later than 5 school days after the school district receives the physician's statement.

New matter indicated by italics - deletions by strikeout
Special education and related services required by the child's IEP or services and accommodations required by the child's federal Section 504 plan must be implemented as part of the child's home or hospital instruction, unless the IEP team or federal Section 504 plan team determines that modifications are necessary during the home or hospital instruction due to the child's condition.

(a-10) Through fiscal year 2017, eligible children to be included in any reimbursement under this paragraph must regularly receive a minimum of one hour of instruction each school day, or in lieu thereof of a minimum of 5 hours of instruction in each school week in order to qualify for full reimbursement under this Section. If the attending physician for such a child has certified that the child should not receive as many as 5 hours of instruction in a school week, however, reimbursement under this paragraph on account of that child shall be computed proportionate to the actual hours of instruction per week for that child divided by 5.

(a-15) The State Board of Education shall establish rules governing the required qualifications of staff providing home or hospital instruction.

(b) For children described in Section 14-1.02, 80% of the cost of transportation approved as a related service in the Individualized Education Program for each student in order to take advantage of special educational facilities. Transportation costs shall be determined in the same fashion as provided in Section 29-5 of this Code. For purposes of this subsection (b), the dates for processing claims specified in Section 29-5 shall apply.

(c) Through fiscal year 2017, for each qualified worker, the annual sum of $9,000.

(d) Through fiscal year 2017, for one full time qualified director of the special education program of each school district which maintains a fully approved program of special education the annual sum of $9,000. Districts participating in a joint agreement special education program shall not receive such reimbursement if reimbursement is made for a director of the joint agreement program.

(e) (Blank).

(f) (Blank).

(g) Through fiscal year 2017, for readers, working with blind or partially seeing children 1/2 of their salary but not more than $400 annually per child. Readers may be employed to assist such children and
shall not be required to be certified but prior to employment shall meet standards set up by the State Board of Education.

(h) Through fiscal year 2017, for non-certified employees, as defined by rules promulgated by the State Board of Education, who deliver services to students with IEPs, 1/2 of the salary paid or $3,500 per employee, whichever is less.

(i) The State Board of Education shall set standards and prescribe rules for determining the allocation of reimbursement under this section on less than a full time basis and for less than a school year.

When any school district eligible for reimbursement under this Section operates a school or program approved by the State Superintendent of Education for a number of days in excess of the adopted school calendar but not to exceed 235 school days, such reimbursement shall be increased by 1/180 of the amount or rate paid hereunder for each day such school is operated in excess of 180 days per calendar year.

Notwithstanding any other provision of law, any school district receiving a payment under this Section or under Section 14-7.02, 14-7.02b, or 29-5 of this Code may classify all or a portion of the funds that it receives in a particular fiscal year or from evidence-based funding general State aid pursuant to Section 18-8.15 of this Code as funds received in connection with any funding program for which it is entitled to receive funds from the State in that fiscal year (including, without limitation, any funding program referenced in this Section), regardless of the source or timing of the receipt. The district may not classify more funds as funds received in connection with the funding program than the district is entitled to receive in that fiscal year for that program. Any classification by a district must be made by a resolution of its board of education. The resolution must identify the amount of any payments or evidence-based funding general State aid to be classified under this paragraph and must specify the funding program to which the funds are to be treated as received in connection therewith. This resolution is controlling as to the classification of funds referenced therein. A certified copy of the resolution must be sent to the State Superintendent of Education. The resolution shall still take effect even though a copy of the resolution has not been sent to the State Superintendent of Education in a timely manner. No classification under this paragraph by a district shall affect the total amount or timing of money the district is entitled to receive under this Code. No classification under this paragraph by a district shall in any way relieve the district from or affect any requirements that
otherwise would apply with respect to that funding program, including any
accounting of funds by source, reporting expenditures by original source
and purpose, reporting requirements, or requirements of providing
services.

No funding shall be provided to school districts under this Section
after fiscal year 2017. In fiscal year 2018 and each fiscal year thereafter,
all funding received by a school district from the State pursuant to Section
18-8.15 of this Code that is attributable to personnel reimbursements for
special education pupils must be used for special education services
authorized under this Code.

Sec. 14C-1. The General Assembly finds that there are large
numbers of children in this State who come from environments where the
primary language is other than English. Experience has shown that public
school classes in which instruction is given only in English are often
inadequate for the education of children whose native tongue is another
language. The General Assembly believes that a program of transitional
bilingual education can meet the needs of these children and facilitate their
integration into the regular public school curriculum. Therefore, pursuant
to the policy of this State to ensure equal educational opportunity to every
child, and in recognition of the educational needs of English learners, it is
the purpose of this Act to provide for the establishment of transitional
bilingual education programs in the public schools, to provide
supplemental financial assistance through fiscal year 2017 to help local
school districts meet the extra costs of such programs, and to allow this
State through the State Board of Education to directly or indirectly
provide technical assistance and professional development to support
transitional bilingual education or a transitional program of instruction
programs statewide through contractual services by a not-for-profit entity
for technical assistance, professional development, and other support to
school districts and educators for services for English learner pupils. In
no case may aggregate funding for contractual services by a not-for-profit
entity for support to school districts and educators for services for English
learner pupils be less than the aggregate amount expended for such
purposes in Fiscal Year 2017. Not-for-profit entities providing support to
school districts and educators for services for English learner pupils must
have experience providing those services in a school district having a
population exceeding 500,000; one or more school districts in any of the
counties of Lake, McHenry, DuPage, Kane, and Will; and one or more school districts elsewhere in this State. Funding for not-for-profit entities providing support to school districts and educators for services for English learner pupils may be increased subject to an agreement with the State Board of Education. Funding for not-for-profit entities providing support to school districts and educators for services for English learner pupils shall come from funds allocated pursuant to Section 18-8.15 of this Code.

Sec. 14C-12. Account of expenditures; Cost report; Reimbursement. Each school district with at least one English learner shall keep an accurate, detailed and separate account of all monies paid out by it for the programs in transitional bilingual education required or permitted by this Article, including transportation costs, and shall annually report thereon for the school year ending June 30 indicating the average per pupil expenditure. Through fiscal year 2017, each school district shall be reimbursed for the amount by which such costs exceed the average per pupil expenditure by such school district for the education of children of comparable age who are not in any special education program. No funding shall be provided to school districts under this Section after fiscal year 2017. In fiscal year 2018 and each fiscal year thereafter, all funding received by a school district from the State pursuant to Section 18-8.15 of this Code that is attributable to instructions, supports, and interventions for English learner pupils must be used for programs and services authorized under this Article. At least 60% of transitional bilingual education funding received from the State must be used for the instructional costs of programs and services authorized under this Article transitional bilingual education.

Applications for preapproval for reimbursement for costs of transitional bilingual education programs must be submitted to the State Superintendent of Education at least 60 days before a transitional bilingual education program is started, unless a justifiable exception is granted by the State Superintendent of Education. Applications shall set forth a plan for transitional bilingual education established and maintained in accordance with this Article.

Through fiscal year 2017, reimbursement claims for transitional bilingual education programs shall be made as follows:

Each school district shall claim reimbursement on a current basis for the first 3 quarters of the fiscal year and file a final adjusted claim for the school year ended June 30 preceding computed in accordance with rules prescribed by the State Superintendent's Office. The State Superintendent of Education before approving any such claims shall determine their accuracy and whether they are based upon services and facilities provided under approved programs. Upon approval he shall transmit to the Comptroller the vouchers showing the amounts due for school district reimbursement claims. Upon receipt of the final adjusted claims the State Superintendent of Education shall make a final determination of the accuracy of such claims. If the money appropriated by the General Assembly for such purpose for any year is insufficient, it shall be apportioned on the basis of the claims approved.

Failure on the part of the school district to prepare and certify the final adjusted claims due under this Section may constitute a forfeiture by the school district of its right to be reimbursed by the State under this Section.

Sec. 17-1. Annual Budget. The board of education of each school district under 500,000 inhabitants shall, within or before the first quarter of each fiscal year, adopt and file with the State Board of Education an annual balanced budget which it deems necessary to defray all necessary expenses and liabilities of the district, and in such annual budget shall specify the objects and purposes of each item and amount needed for each object or purpose.

The budget shall be entered upon a School District Budget form prepared and provided by the State Board of Education and therein shall contain a statement of the cash on hand at the beginning of the fiscal year, an estimate of the cash expected to be received during such fiscal year from all sources, an estimate of the expenditures contemplated for such fiscal year, and a statement of the estimated cash expected to be on hand at the end of such year. The estimate of taxes to be received may be based upon the amount of actual cash receipts that may reasonably be expected by the district during such fiscal year, estimated from the experience of the district in prior years and with due regard for other circumstances that may substantially affect such receipts. Nothing in this Section shall be construed as requiring any district to change or preventing any district from changing from a cash basis of financing to a surplus or deficit basis.

of financing; or as requiring any district to change or preventing any district from changing its system of accounting. The budget shall conform to the requirements adopted by the State Board of Education pursuant to Section 2-3.28 of this Code.

To the extent that a school district's budget is not balanced, the district shall also adopt and file with the State Board of Education a deficit reduction plan to balance the district's budget within 3 years. The deficit reduction plan must be filed at the same time as the budget, but the State Superintendent of Education may extend this deadline if the situation warrants.

If, as the result of an audit performed in compliance with Section 3-7 of this Code, the resulting Annual Financial Report required to be submitted pursuant to Section 3-15.1 of this Code reflects a deficit as defined for purposes of the preceding paragraph, then the district shall, within 30 days after acceptance of such audit report, submit a deficit reduction plan.

The board of education of each district shall fix a fiscal year therefor. If the beginning of the fiscal year of a district is subsequent to the time that the tax levy due to be made in such fiscal year shall be made, then such annual budget shall be adopted prior to the time such tax levy shall be made. The failure by a board of education of any district to adopt an annual budget, or to comply in any respect with the provisions of this Section, shall not affect the validity of any tax levy of the district otherwise in conformity with the law. With respect to taxes levied either before, on, or after the effective date of this amendatory Act of the 91st General Assembly, (i) a tax levy is made for the fiscal year in which the levy is due to be made regardless of which fiscal year the proceeds of the levy are expended or are intended to be expended, and (ii) except as otherwise provided by law, a board of education's adoption of an annual budget in conformity with this Section is not a prerequisite to the adoption of a valid tax levy and is not a limit on the amount of the levy.

Such budget shall be prepared in tentative form by some person or persons designated by the board, and in such tentative form shall be made conveniently available to public inspection for at least 30 days prior to final action thereon. At least 1 public hearing shall be held as to such budget prior to final action thereon. Notice of availability for public inspection and of such public hearing shall be given by publication in a newspaper published in such district, at least 30 days prior to the time of such hearing. If there is no newspaper published in such district, notice of
such public hearing shall be given by posting notices thereof in 5 of the
most public places in such district. It shall be the duty of the secretary of
such board to make such tentative budget available to public inspection,
and to arrange for such public hearing. The board may from time to time
make transfers between the various items in any fund not exceeding in the
aggregate 10% of the total of such fund as set forth in the budget. The
board may from time to time amend such budget by the same procedure as
is herein provided for its original adoption.

Beginning July 1, 1976, the board of education, or regional
superintendent, or governing board responsible for the administration of a
joint agreement shall, by September 1 of each fiscal year thereafter, adopt
an annual budget for the joint agreement in the same manner and subject
to the same requirements as are provided in this Section.

The State Board of Education shall exercise powers and duties
relating to budgets as provided in Section 2-3.27 of this Code and shall
require school districts to submit their annual budgets, deficit reduction
plans, and other financial information, including revenue and expenditure
reports and borrowing and interfund transfer plans, in such form and
within the timelines designated by the State Board of Education.

By fiscal year 1982 all school districts shall use the Program
Budget Accounting System.

In the case of a school district receiving emergency State financial
assistance under Article 1B, the school board shall also be subject to the
requirements established under Article 1B with respect to the annual
budget.

Sec. 17-1.5. Limitation of administrative costs.
(a) It is the purpose of this Section to establish limitations on the growth of administrative expenditures in order to maximize the proportion of school district resources available for the instructional program, building maintenance, and safety services for the students of each district.

(b) Definitions. For the purposes of this Section:

"Administrative expenditures" mean the annual expenditures of school districts properly attributable to expenditure functions defined by the rules of the State Board of Education as: 2320 (Executive Administration Services); 2330 (Special Area Administration Services); 2490 (Other Support Services - School Administration); 2510 (Direction of Business Support Services); 2570 (Internal Services); and 2610 (Direction of Central Support Services); provided, however, that "administrative expenditures" shall not include early retirement or other pension system obligations required by State law.

"School district" means all school districts having a population of less than 500,000.

(c) For the 1998-99 school year and each school year thereafter, each school district shall undertake budgetary and expenditure control actions so that the increase in administrative expenditures for that school year over the prior school year does not exceed 5%. School districts with administrative expenditures per pupil in the 25th percentile and below for all districts of the same type, as defined by the State Board of Education, may waive the limitation imposed under this Section for any year following a public hearing and with the affirmative vote of at least two-thirds of the members of the school board of the district. Any district waiving the limitation shall notify the State Board within 45 days of such action.

(d) School districts shall file with the State Board of Education by November 15, 1998 and by each November 15th thereafter a one-page report that lists (i) the actual administrative expenditures for the prior year from the district's audited Annual Financial Report, and (ii) the projected administrative expenditures for the current year from the budget adopted by the school board pursuant to Section 17-1 of this Code.

If a school district that is ineligible to waive the limitation imposed by subsection (c) of this Section by board action exceeds the limitation solely because of circumstances beyond the control of the district and the district has exhausted all available and reasonable remedies to comply with the limitation, the district may request a waiver pursuant to Section 2-3.25g. The waiver application shall specify the amount, nature, and reason

New matter indicated by italics - deletions by strikeout
for the relief requested, as well as all remedies the district has exhausted to comply with the limitation. Any emergency relief so requested shall apply only to the specific school year for which the request is made. The State Board of Education shall analyze all such waivers submitted and shall recommend that the General Assembly disapprove any such waiver requested that is not due solely to circumstances beyond the control of the district and for which the district has not exhausted all available and reasonable remedies to comply with the limitation. The State Superintendent shall have no authority to impose any sanctions pursuant to this Section for any expenditures for which a waiver has been requested until such waiver has been reviewed by the General Assembly.

If the report and information required under this subsection (d) are not provided by the school district in a timely manner, or are subsequently determined by the State Superintendent of Education to be incomplete or inaccurate, the State Superintendent shall notify the district in writing of reporting deficiencies. The school district shall, within 60 days of the notice, address the reporting deficiencies identified.

(e) If the State Superintendent determines that a school district has failed to comply with the administrative expenditure limitation imposed in subsection (c) of this Section, the State Superintendent shall notify the district of the violation and direct the district to undertake corrective action to bring the district's budget into compliance with the administrative expenditure limitation. The district shall, within 60 days of the notice, provide adequate assurance to the State Superintendent that appropriate corrective actions have been or will be taken. If the district fails to provide adequate assurance or fails to undertake the necessary corrective actions, the State Superintendent may impose progressive sanctions against the district that may culminate in withholding all subsequent payments of general State aid due the district under Section 18-8.05 of this Code or evidence-based funding due the district under Section 18-8.15 of this Code until the assurance is provided or the corrective actions taken.

(f) The State Superintendent shall publish a list each year of the school districts that violate the limitation imposed by subsection (c) of this Section and a list of the districts that waive the limitation by board action as provided in subsection (c) of this Section.

(105 ILCS 5/17-2.11) (from Ch. 122, par. 17-2.11)
Sec. 17-2.11. School board power to levy a tax or to borrow money and issue bonds for fire prevention, safety, energy conservation, accessibility, school security, and specified repair purposes.

(a) Whenever, as a result of any lawful order of any agency, other than a school board, having authority to enforce any school building code applicable to any facility that houses students, or any law or regulation for the protection and safety of the environment, pursuant to the Environmental Protection Act, any school district having a population of less than 500,000 inhabitants is required to alter or reconstruct any school building or permanent, fixed equipment; the district may, by proper resolution, levy a tax for the purpose of making such alteration or reconstruction, based on a survey report by an architect or engineer licensed in this State, upon all of the taxable property of the district at the value as assessed by the Department of Revenue and at a rate not to exceed 0.05% per year for a period sufficient to finance such alteration or reconstruction, upon the following conditions:

(1) When there are not sufficient funds available in the operations and maintenance fund of the school district, the school facility occupation tax fund of the district, or the fire prevention and safety fund of the district, as determined by the district on the basis of rules adopted by the State Board of Education, to make such alteration or reconstruction or to purchase and install such permanent, fixed equipment so ordered or determined as necessary. Appropriate school district records must be made available to the State Superintendent of Education, upon request, to confirm this insufficiency.

(2) When a certified estimate of an architect or engineer licensed in this State stating the estimated amount necessary to make the alteration or reconstruction or to purchase and install the equipment so ordered has been secured by the school district, and the estimate has been approved by the regional superintendent of schools having jurisdiction over the district and the State Superintendent of Education. Approval must not be granted for any work that has already started without the prior express authorization of the State Superintendent of Education. If the estimate is not approved or is denied approval by the regional superintendent of schools within 3 months after the date on which it is submitted to him or her, the school board of the district may

New matter indicated by italics - deletions by strikeout
submit the estimate directly to the State Superintendent of Education for approval or denial.

In the case of an emergency situation, where the estimated cost to effectuate emergency repairs is less than the amount specified in Section 10-20.21 of this Code, the school district may proceed with such repairs prior to approval by the State Superintendent of Education, but shall comply with the provisions of subdivision (2) of this subsection (a) as soon thereafter as may be as well as Section 10-20.21 of this Code. If the estimated cost to effectuate emergency repairs is greater than the amount specified in Section 10-20.21 of this Code, then the school district shall proceed in conformity with Section 10-20.21 of this Code and with rules established by the State Board of Education to address such situations. The rules adopted by the State Board of Education to deal with these situations shall stipulate that emergency situations must be expedited and given priority consideration. For purposes of this paragraph, an emergency is a situation that presents an imminent and continuing threat to the health and safety of students or other occupants of a facility, requires complete or partial evacuation of a building or part of a building, or consumes one or more of the 5 emergency days built into the adopted calendar of the school or schools or would otherwise be expected to cause such school or schools to fall short of the minimum school calendar requirements.

(b) Whenever any such district determines that it is necessary for energy conservation purposes that any school building or permanent, fixed equipment should be altered or reconstructed and that such alterations or reconstruction will be made with funds not necessary for the completion of approved and recommended projects contained in any safety survey report or amendments thereto authorized by Section 2-3.12 of this Act; the district may levy a tax or issue bonds as provided in subsection (a) of this Section.

(c) Whenever any such district determines that it is necessary for accessibility purposes and to comply with the school building code that any school building or equipment should be altered or reconstructed and that such alterations or reconstruction will be made with funds not necessary for the completion of approved and recommended projects contained in any safety survey report or amendments thereto authorized under Section 2-3.12 of this Act, the district may levy a tax or issue bonds as provided in subsection (a) of this Section.

(d) Whenever any such district determines that it is necessary for school security purposes and the related protection and safety of pupils and

New matter indicated by italics - deletions by strikeout
school personnel that any school building or property should be altered or reconstructed or that security systems and equipment (including but not limited to intercom, early detection and warning, access control and television monitoring systems) should be purchased and installed, and that such alterations, reconstruction or purchase and installation of equipment will be made with funds not necessary for the completion of approved and recommended projects contained in any safety survey report or amendment thereto authorized by Section 2-3.12 of this Act and will deter and prevent unauthorized entry or activities upon school property by unknown or dangerous persons, assure early detection and advance warning of any such actual or attempted unauthorized entry or activities and help assure the continued safety of pupils and school staff if any such unauthorized entry or activity is attempted or occurs; the district may levy a tax or issue bonds as provided in subsection (a) of this Section.

(e) If a school district does not need funds for other fire prevention and safety projects, including the completion of approved and recommended projects contained in any safety survey report or amendments thereto authorized by Section 2-3.12 of this Act, and it is determined after a public hearing (which is preceded by at least one published notice (i) occurring at least 7 days prior to the hearing in a newspaper of general circulation within the school district and (ii) setting forth the time, date, place, and general subject matter of the hearing) that there is a substantial, immediate, and otherwise unavoidable threat to the health, safety, or welfare of pupils due to disrepair of school sidewalks, playgrounds, parking lots, or school bus turnarounds and repairs must be made; then the district may levy a tax or issue bonds as provided in subsection (a) of this Section.

(f) For purposes of this Section a school district may replace a school building or build additions to replace portions of a building when it is determined that the effectuation of the recommendations for the existing building will cost more than the replacement costs. Such determination shall be based on a comparison of estimated costs made by an architect or engineer licensed in the State of Illinois. The new building or addition shall be equivalent in area (square feet) and comparable in purpose and grades served and may be on the same site or another site. Such replacement may only be done upon order of the regional superintendent of schools and the approval of the State Superintendent of Education.

(g) The filing of a certified copy of the resolution levying the tax when accompanied by the certificates of the regional superintendent of
schools and State Superintendent of Education shall be the authority of the county clerk to extend such tax.

(h) The county clerk of the county in which any school district levying a tax under the authority of this Section is located, in reducing raised levies, shall not consider any such tax as a part of the general levy for school purposes and shall not include the same in the limitation of any other tax rate which may be extended.

Such tax shall be levied and collected in like manner as all other taxes of school districts, subject to the provisions contained in this Section.

(i) The tax rate limit specified in this Section may be increased to .10% upon the approval of a proposition to effect such increase by a majority of the electors voting on that proposition at a regular scheduled election. Such proposition may be initiated by resolution of the school board and shall be certified by the secretary to the proper election authorities for submission in accordance with the general election law.

(j) When taxes are levied by any school district for fire prevention, safety, energy conservation, and school security purposes as specified in this Section, and the purposes for which the taxes have been levied are accomplished and paid in full, and there remain funds on hand in the Fire Prevention and Safety Fund from the proceeds of the taxes levied, including interest earnings thereon, the school board by resolution shall use such excess and other board restricted funds, excluding bond proceeds and earnings from such proceeds, as follows:

(1) for other authorized fire prevention, safety, energy conservation, required safety inspections, school security purposes, sampling for lead in drinking water in schools, and for repair and mitigation due to lead levels in the drinking water supply; or

(2) for transfer to the Operations and Maintenance Fund for the purpose of abating an equal amount of operations and maintenance purposes taxes.

Notwithstanding subdivision (2) of this subsection (j) and subsection (k) of this Section, through June 30, 2020, the school board may, by proper resolution following a public hearing set by the school board or the president of the school board (that is preceded (i) by at least one published notice over the name of the clerk or secretary of the board, occurring at least 7 days and not more than 30 days prior to the hearing, in a newspaper of general circulation within the school district and (ii) by posted notice over the name of the clerk or secretary of the board, at least 48 hours

before the hearing, at the principal office of the school board or at the
building where the hearing is to be held if a principal office does not exist,
with both notices setting forth the time, date, place, and subject matter of
the hearing), transfer surplus life safety taxes and interest earnings thereon
to the Operations and Maintenance Fund for building repair work.

(k) If any transfer is made to the Operation and Maintenance Fund,
the secretary of the school board shall within 30 days notify the county
clerk of the amount of that transfer and direct the clerk to abate the taxes
to be extended for the purposes of operations and maintenance authorized
under Section 17-2 of this Act by an amount equal to such transfer.

(l) If the proceeds from the tax levy authorized by this Section are
insufficient to complete the work approved under this Section, the school
board is authorized to sell bonds without referendum under the provisions
of this Section in an amount that, when added to the proceeds of the tax
levy authorized by this Section, will allow completion of the approved
work.

(m) Any bonds issued pursuant to this Section shall bear interest at
a rate not to exceed the maximum rate authorized by law at the time of the
making of the contract, shall mature within 20 years from date, and shall
be signed by the president of the school board and the treasurer of the
school district.

(n) In order to authorize and issue such bonds, the school board
shall adopt a resolution fixing the amount of bonds, the date thereof, the
maturities thereof, rates of interest thereof, place of payment and
denomination, which shall be in denominations of not less than $100 and
not more than $5,000, and provide for the levy and collection of a direct
annual tax upon all the taxable property in the school district sufficient to
pay the principal and interest on such bonds to maturity. Upon the filing in
the office of the county clerk of the county in which the school district is
located of a certified copy of the resolution, it is the duty of the county
clerk to extend the tax therefor in addition to and in excess of all other
taxes heretofore or hereafter authorized to be levied by such school
district.

(o) After the time such bonds are issued as provided for by this
Section, if additional alterations or reconstructions are required to be made
because of surveys conducted by an architect or engineer licensed in the
State of Illinois, the district may levy a tax at a rate not to exceed .05% per
year upon all the taxable property of the district or issue additional bonds,
whichever action shall be the most feasible.

(p) This Section is cumulative and constitutes complete authority for the issuance of bonds as provided in this Section notwithstanding any other statute or law to the contrary.

(q) With respect to instruments for the payment of money issued under this Section either before, on, or after the effective date of Public Act 86-004 (June 6, 1989), it is, and always has been, the intention of the General Assembly (i) that the Omnibus Bond Acts are, and always have been, supplementary grants of power to issue instruments in accordance with the Omnibus Bond Acts, regardless of any provision of this Act that may appear to be or to have been more restrictive than those Acts, (ii) that the provisions of this Section are not a limitation on the supplementary authority granted by the Omnibus Bond Acts, and (iii) that instruments issued under this Section within the supplementary authority granted by the Omnibus Bond Acts are not invalid because of any provision of this Act that may appear to be or to have been more restrictive than those Acts.

(r) When the purposes for which the bonds are issued have been accomplished and paid for in full and there remain funds on hand from the proceeds of the bond sale and interest earnings therefrom, the board shall, by resolution, use such excess funds in accordance with the provisions of Section 10-22.14 of this Act.

(s) Whenever any tax is levied or bonds issued for fire prevention, safety, energy conservation, and school security purposes, such proceeds shall be deposited and accounted for separately within the Fire Prevention and Safety Fund.

Except during the period from July 1, 2003 through June 30, 2020 and except as otherwise provided in subsection (b) of this Section, any other permanent interfund transfers authorized by any provision or judicial interpretation of this Code for which the transferee fund is not precisely and specifically set forth in the provision of this Code authorizing such transfer shall be made to the fund of the school district most in need of the funds being transferred, as determined by resolution of the school board.

(c) Notwithstanding subsection (a) of this Section or any other provision of this Code to the contrary, the school board of any school district (i) that is subject to the Property Tax Extension Limitation Law, (ii) that is an elementary district servicing students in grades K through 8, (iii) whose territory is in one county, (iv) that is eligible for Section 7002 Federal Impact Aid, and (v) that has no more than $81,000 in funds remaining from refinancing bonds that were refinanced a minimum of 5 years prior to January 20, 2017 (the effective date of Public Act 99-926) this amendatory Act of the 99th General Assembly may make a one-time transfer of the funds remaining from the refinancing bonds to the Operations and Maintenance Fund of the district by proper resolution following a public hearing set by the school board or the president of the school board, with notice as provided in subsection (a) of this Section, so long as the district meets the qualifications set forth in this subsection (c) on January 20, 2017 (the effective date of Public Act 99-926) this amendatory Act of the 99th General Assembly.

Sec. 18-4.3. Summer school grants. Through fiscal year 2017, grants shall be determined for pupil attendance in summer schools conducted under Sections 10-22.33A and 34-18 and approved under Section 2-3.25 in the following manner.

The amount of grant for each accredited summer school attendance pupil shall be obtained by dividing the total amount of apportionments determined under Section 18-8.05 by the actual number of pupils in average daily attendance used for such apportionments. The number of credited summer school attendance pupils shall be determined (a) by counting clock hours of class instruction by pupils enrolled in grades 1 through 12 in approved courses conducted at least 60 clock hours in summer sessions; (b) by dividing such total of clock hours of class instruction by 4 to produce days of credited pupil attendance; (c) by dividing such days of credited pupil attendance by the actual number of days in the regular term as used in computation in the general apportionment in Section 18-8.05; and (d) by multiplying by 1.25.

The amount of the grant for a summer school program approved by the State Superintendent of Education for children with disabilities, as defined in Sections 14-1.02 through 14-1.07, shall be determined in the manner contained above except that average daily membership shall be utilized in lieu of average daily attendance.

In the case of an apportionment based on summer school attendance or membership pupils, the claim therefor shall be presented as a separate claim for the particular school year in which such summer school session ends. On or before November 1 of each year the superintendent of each eligible school district shall certify to the State Superintendent of Education the claim of the district for the summer session just ended. Failure on the part of the school board to so certify shall constitute a forfeiture of its right to such payment. The State Superintendent of Education shall transmit to the Comptroller no later than December 15th of each year vouchers for payment of amounts due school districts for summer school. The State Superintendent of Education shall direct the

Comptroller to draw his warrants for payments thereof by the 30th day of December. If the money appropriated by the General Assembly for such purpose for any year is insufficient, it shall be apportioned on the basis of claims approved.

However, notwithstanding the foregoing provisions, for each fiscal year the money appropriated by the General Assembly for the purposes of this Section shall only be used for grants for approved summer school programs for those children with disabilities served pursuant to Section 14-7.02 or 14-7.02b of this Code.

No funding shall be provided to school districts under this Section after fiscal year 2017. In fiscal year 2018 and each fiscal year thereafter, all funding received by a school district from the State pursuant to Section 18–8.15 of this Code that is attributable to summer school for special education pupils must be used for special education services authorized under this Code.

Sec. 18-8.05. Basis for apportionment of general State financial aid and supplemental general State aid to the common schools for the 1998-1999 through the 2016-2017 and subsequent school years.

(A) General Provisions.

(1) The provisions of this Section relating to the calculation and apportionment of general State financial aid and supplemental general State aid apply to the 1998-1999 through the 2016-2017 and subsequent school years. The system of general State financial aid provided for in this Section is designed to assure that, through a combination of State financial aid and required local resources, the financial support provided each pupil in Average Daily Attendance equals or exceeds a prescribed per pupil Foundation Level. This formula approach imputes a level of per pupil Available Local Resources and provides for the basis to calculate a per pupil level of general State financial aid that, when added to Available Local Resources, equals or exceeds the Foundation Level. The amount of per pupil general State financial aid for school districts, in general, varies in inverse relation to Available Local Resources. Per pupil amounts are based upon each school district's Average Daily Attendance as that term is defined in this Section.

(2) In addition to general State financial aid, school districts with specified levels or concentrations of pupils from low income households are eligible to receive supplemental general State financial aid grants as

New matter indicated by italics - deletions by strikeout
provided pursuant to subsection (H). The supplemental State aid grants provided for school districts under subsection (H) shall be appropriated for distribution to school districts as part of the same line item in which the general State financial aid of school districts is appropriated under this Section.

(3) To receive financial assistance under this Section, school districts are required to file claims with the State Board of Education, subject to the following requirements:

(a) Any school district which fails for any given school year to maintain school as required by law, or to maintain a recognized school is not eligible to file for such school year any claim upon the Common School Fund. In case of nonrecognition of one or more attendance centers in a school district otherwise operating recognized schools, the claim of the district shall be reduced in the proportion which the Average Daily Attendance in the attendance center or centers bear to the Average Daily Attendance in the school district. A "recognized school" means any public school which meets the standards as established for recognition by the State Board of Education. A school district or attendance center not having recognition status at the end of a school term is entitled to receive State aid payments due upon a legal claim which was filed while it was recognized.

(b) School district claims filed under this Section are subject to Sections 18-9 and 18-12, except as otherwise provided in this Section.

(c) If a school district operates a full year school under Section 10-19.1, the general State aid to the school district shall be determined by the State Board of Education in accordance with this Section as near as may be applicable.

(d) (Blank).

(4) Except as provided in subsections (H) and (L), the board of any district receiving any of the grants provided for in this Section may apply those funds to any fund so received for which that board is authorized to make expenditures by law.

School districts are not required to exert a minimum Operating Tax Rate in order to qualify for assistance under this Section.

(5) As used in this Section the following terms, when capitalized, shall have the meaning ascribed herein:

New matter indicated by italics - deletions by strikeout
(a) "Average Daily Attendance": A count of pupil attendance in school, averaged as provided for in subsection (C) and utilized in deriving per pupil financial support levels.

(b) "Available Local Resources": A computation of local financial support, calculated on the basis of Average Daily Attendance and derived as provided pursuant to subsection (D).

(c) "Corporate Personal Property Replacement Taxes": Funds paid to local school districts pursuant to "An Act in relation to the abolition of ad valorem personal property tax and the replacement of revenues lost thereby, and amending and repealing certain Acts and parts of Acts in connection therewith", certified August 14, 1979, as amended (Public Act 81-1st S.S.-1).

(d) "Foundation Level": A prescribed level of per pupil financial support as provided for in subsection (B).

(e) "Operating Tax Rate": All school district property taxes extended for all purposes, except Bond and Interest, Summer School, Rent, Capital Improvement, and Vocational Education Building purposes.

(B) Foundation Level.

(1) The Foundation Level is a figure established by the State representing the minimum level of per pupil financial support that should be available to provide for the basic education of each pupil in Average Daily Attendance. As set forth in this Section, each school district is assumed to exert a sufficient local taxing effort such that, in combination with the aggregate of general State financial aid provided the district, an aggregate of State and local resources are available to meet the basic education needs of pupils in the district.

(2) For the 1998-1999 school year, the Foundation Level of support is $4,225. For the 1999-2000 school year, the Foundation Level of support is $4,325. For the 2000-2001 school year, the Foundation Level of support is $4,425. For the 2001-2002 school year and 2002-2003 school year, the Foundation Level of support is $4,560. For the 2003-2004 school year, the Foundation Level of support is $4,810. For the 2004-2005 school year, the Foundation Level of support is $4,964. For the 2005-2006 school year, the Foundation Level of support is $5,164. For the 2006-2007 school year, the Foundation Level of support is $5,334. For the 2007-2008 school year, the Foundation Level of support is $5,734. For the 2008-2009 school year, the Foundation Level of support is $5,959.
(3) For the 2009-2010 school year and each school year thereafter, the Foundation Level of support is $6,119 or such greater amount as may be established by law by the General Assembly.

(C) Average Daily Attendance.

(1) For purposes of calculating general State aid pursuant to subsection (E), an Average Daily Attendance figure shall be utilized. The Average Daily Attendance figure for formula calculation purposes shall be the monthly average of the actual number of pupils in attendance of each school district, as further averaged for the best 3 months of pupil attendance for each school district. In compiling the figures for the number of pupils in attendance, school districts and the State Board of Education shall, for purposes of general State aid funding, conform attendance figures to the requirements of subsection (F).

(2) The Average Daily Attendance figures utilized in subsection (E) shall be the requisite attendance data for the school year immediately preceding the school year for which general State aid is being calculated or the average of the attendance data for the 3 preceding school years, whichever is greater. The Average Daily Attendance figures utilized in subsection (H) shall be the requisite attendance data for the school year immediately preceding the school year for which general State aid is being calculated.

(D) Available Local Resources.

(1) For purposes of calculating general State aid pursuant to subsection (E), a representation of Available Local Resources per pupil, as that term is defined and determined in this subsection, shall be utilized. Available Local Resources per pupil shall include a calculated dollar amount representing local school district revenues from local property taxes and from Corporate Personal Property Replacement Taxes, expressed on the basis of pupils in Average Daily Attendance. Calculation of Available Local Resources shall exclude any tax amnesty funds received as a result of Public Act 93-26.

(2) In determining a school district's revenue from local property taxes, the State Board of Education shall utilize the equalized assessed valuation of all taxable property of each school district as of September 30 of the previous year. The equalized assessed valuation utilized shall be obtained and determined as provided in subsection (G).

(3) For school districts maintaining grades kindergarten through 12, local property tax revenues per pupil shall be calculated as the product of the applicable equalized assessed valuation for the district multiplied by...
3.00%, and divided by the district's Average Daily Attendance figure. For school districts maintaining grades kindergarten through 8, local property tax revenues per pupil shall be calculated as the product of the applicable equalized assessed valuation for the district multiplied by 2.30%, and divided by the district's Average Daily Attendance figure. For school districts maintaining grades 9 through 12, local property tax revenues per pupil shall be the applicable equalized assessed valuation of the district multiplied by 1.05%, and divided by the district's Average Daily Attendance figure.

For partial elementary unit districts created pursuant to Article 11E of this Code, local property tax revenues per pupil shall be calculated as the product of the equalized assessed valuation for property within the partial elementary unit district for elementary purposes, as defined in Article 11E of this Code, multiplied by 2.06% and divided by the district's Average Daily Attendance figure, plus the product of the equalized assessed valuation for property within the partial elementary unit district for high school purposes, as defined in Article 11E of this Code, multiplied by 0.94% and divided by the district's Average Daily Attendance figure.

(4) The Corporate Personal Property Replacement Taxes paid to each school district during the calendar year one year before the calendar year in which a school year begins, divided by the Average Daily Attendance figure for that district, shall be added to the local property tax revenues per pupil as derived by the application of the immediately preceding paragraph (3). The sum of these per pupil figures for each school district shall constitute Available Local Resources as that term is utilized in subsection (E) in the calculation of general State aid.

(E) Computation of General State Aid.

(1) For each school year, the amount of general State aid allotted to a school district shall be computed by the State Board of Education as provided in this subsection.

(2) For any school district for which Available Local Resources per pupil is less than the product of 0.93 times the Foundation Level, general State aid for that district shall be calculated as an amount equal to the Foundation Level minus Available Local Resources, multiplied by the Average Daily Attendance of the school district.

(3) For any school district for which Available Local Resources per pupil is equal to or greater than the product of 0.93 times the Foundation Level and less than the product of 1.75 times the Foundation Level, the
general State aid per pupil shall be a decimal proportion of the Foundation Level derived using a linear algorithm. Under this linear algorithm, the calculated general State aid per pupil shall decline in direct linear fashion from 0.07 times the Foundation Level for a school district with Available Local Resources equal to the product of 0.93 times the Foundation Level, to 0.05 times the Foundation Level for a school district with Available Local Resources equal to the product of 1.75 times the Foundation Level. The allocation of general State aid for school districts subject to this paragraph 3 shall be the calculated general State aid per pupil figure multiplied by the Average Daily Attendance of the school district.

(4) For any school district for which Available Local Resources per pupil equals or exceeds the product of 1.75 times the Foundation Level, the general State aid for the school district shall be calculated as the product of $218 multiplied by the Average Daily Attendance of the school district.

(5) The amount of general State aid allocated to a school district for the 1999-2000 school year meeting the requirements set forth in paragraph (4) of subsection (G) shall be increased by an amount equal to the general State aid that would have been received by the district for the 1998-1999 school year by utilizing the Extension Limitation Equalized Assessed Valuation as calculated in paragraph (4) of subsection (G) less the general State aid allotted for the 1998-1999 school year. This amount shall be deemed a one time increase, and shall not affect any future general State aid allocations.

(F) Compilation of Average Daily Attendance.

(1) Each school district shall, by July 1 of each year, submit to the State Board of Education, on forms prescribed by the State Board of Education, attendance figures for the school year that began in the preceding calendar year. The attendance information so transmitted shall identify the average daily attendance figures for each month of the school year. Beginning with the general State aid claim form for the 2002-2003 school year, districts shall calculate Average Daily Attendance as provided in subdivisions (a), (b), and (c) of this paragraph (1).

(a) In districts that do not hold year-round classes, days of attendance in August shall be added to the month of September and any days of attendance in June shall be added to the month of May.

(b) In districts in which all buildings hold year-round classes, days of attendance in July and August shall be added to the...
month of September and any days of attendance in June shall be added to the month of May.

(c) In districts in which some buildings, but not all, hold year-round classes, for the non-year-round buildings, days of attendance in August shall be added to the month of September and any days of attendance in June shall be added to the month of May. The average daily attendance for the year-round buildings shall be computed as provided in subdivision (b) of this paragraph (1). To calculate the Average Daily Attendance for the district, the average daily attendance for the year-round buildings shall be multiplied by the days in session for the non-year-round buildings for each month and added to the monthly attendance of the non-year-round buildings.

Except as otherwise provided in this Section, days of attendance by pupils shall be counted only for sessions of not less than 5 clock hours of school work per day under direct supervision of: (i) teachers, or (ii) non-teaching personnel or volunteer personnel when engaging in non-teaching duties and supervising in those instances specified in subsection (a) of Section 10-22.34 and paragraph 10 of Section 34-18, with pupils of legal school age and in kindergarten and grades 1 through 12. Days of attendance by pupils through verified participation in an e-learning program approved by the State Board of Education under Section 10-20.56 of the Code shall be considered as full days of attendance for purposes of this Section.

Days of attendance by tuition pupils shall be accredited only to the districts that pay the tuition to a recognized school.

(2) Days of attendance by pupils of less than 5 clock hours of school shall be subject to the following provisions in the compilation of Average Daily Attendance.

(a) Pupils regularly enrolled in a public school for only a part of the school day may be counted on the basis of 1/6 day for every class hour of instruction of 40 minutes or more attended pursuant to such enrollment, unless a pupil is enrolled in a block-schedule format of 80 minutes or more of instruction, in which case the pupil may be counted on the basis of the proportion of minutes of school work completed each day to the minimum number of minutes that school work is required to be held that day.

(b) (Blank).
(c) A session of 4 or more clock hours may be counted as a day of attendance upon certification by the regional superintendent, and approved by the State Superintendent of Education to the extent that the district has been forced to use daily multiple sessions.

(d) A session of 3 or more clock hours may be counted as a day of attendance (1) when the remainder of the school day or at least 2 hours in the evening of that day is utilized for an in-service training program for teachers, up to a maximum of 5 days per school year, provided a district conducts an in-service training program for teachers in accordance with Section 10-22.39 of this Code; or, in lieu of 4 such days, 2 full days may be used, in which event each such day may be counted as a day required for a legal school calendar pursuant to Section 10-19 of this Code; (1.5) when, of the 5 days allowed under item (1), a maximum of 4 days are used for parent-teacher conferences, or, in lieu of 4 such days, 2 full days are used, in which case each such day may be counted as a calendar day required under Section 10-19 of this Code, provided that the full-day, parent-teacher conference consists of (i) a minimum of 5 clock hours of parent-teacher conferences, (ii) both a minimum of 2 clock hours of parent-teacher conferences held in the evening following a full day of student attendance, as specified in subsection (F)(1)(c), and a minimum of 3 clock hours of parent-teacher conferences held on the day immediately following evening parent-teacher conferences, or (iii) multiple parent-teacher conferences held in the evenings following full days of student attendance, as specified in subsection (F)(1)(c), in which the time used for the parent-teacher conferences is equivalent to a minimum of 5 clock hours; and (2) when days in addition to those provided in items (1) and (1.5) are scheduled by a school pursuant to its school improvement plan adopted under Article 34 or its revised or amended school improvement plan adopted under Article 2, provided that (i) such sessions of 3 or more clock hours are scheduled to occur at regular intervals, (ii) the remainder of the school days in which such sessions occur are utilized for in-service training programs or other staff development activities for teachers, and (iii) a sufficient number of minutes of school work under the direct supervision of teachers are added to the school days between such regularly scheduled sessions to accumulate not less than the

number of minutes by which such sessions of 3 or more clock hours fall short of 5 clock hours. Any full days used for the purposes of this paragraph shall not be considered for computing average daily attendance. Days scheduled for in-service training programs, staff development activities, or parent-teacher conferences may be scheduled separately for different grade levels and different attendance centers of the district.

(e) A session of not less than one clock hour of teaching hospitalized or homebound pupils on-site or by telephone to the classroom may be counted as 1/2 day of attendance, however these pupils must receive 4 or more clock hours of instruction to be counted for a full day of attendance.

(f) A session of at least 4 clock hours may be counted as a day of attendance for first grade pupils, and pupils in full day kindergartens, and a session of 2 or more hours may be counted as 1/2 day of attendance by pupils in kindergartens which provide only 1/2 day of attendance.

(g) For children with disabilities who are below the age of 6 years and who cannot attend 2 or more clock hours because of their disability or immaturity, a session of not less than one clock hour may be counted as 1/2 day of attendance; however for such children whose educational needs so require a session of 4 or more clock hours may be counted as a full day of attendance.

(h) A recognized kindergarten which provides for only 1/2 day of attendance by each pupil shall not have more than 1/2 day of attendance counted in any one day. However, kindergartens may count 2 1/2 days of attendance in any 5 consecutive school days. When a pupil attends such a kindergarten for 2 half days on any one school day, the pupil shall have the following day as a day absent from school, unless the school district obtains permission in writing from the State Superintendent of Education. Attendance at kindergartens which provide for a full day of attendance by each pupil shall be counted the same as attendance by first grade pupils. Only the first year of attendance in one kindergarten shall be counted, except in case of children who entered the kindergarten in their fifth year whose educational development requires a second year of kindergarten as determined under the rules and regulations of the State Board of Education.

(i) On the days when the assessment that includes a college and career ready determination is administered under subsection (c) of Section 2-3.64a-5 of this Code, the day of attendance for a pupil whose school day must be shortened to accommodate required testing procedures may be less than 5 clock hours and shall be counted towards the 176 days of actual pupil attendance required under Section 10-19 of this Code, provided that a sufficient number of minutes of school work in excess of 5 clock hours are first completed on other school days to compensate for the loss of school work on the examination days.

(j) Pupils enrolled in a remote educational program established under Section 10-29 of this Code may be counted on the basis of one-fifth day of attendance for every clock hour of instruction attended in the remote educational program, provided that, in any month, the school district may not claim for a student enrolled in a remote educational program more days of attendance than the maximum number of days of attendance the district can claim (i) for students enrolled in a building holding year-round classes if the student is classified as participating in the remote educational program on a year-round schedule or (ii) for students enrolled in a building not holding year-round classes if the student is not classified as participating in the remote educational program on a year-round schedule.

(G) Equalized Assessed Valuation Data.

(1) For purposes of the calculation of Available Local Resources required pursuant to subsection (D), the State Board of Education shall secure from the Department of Revenue the value as equalized or assessed by the Department of Revenue of all taxable property of every school district, together with (i) the applicable tax rate used in extending taxes for the funds of the district as of September 30 of the previous year and (ii) the limiting rate for all school districts subject to property tax extension limitations as imposed under the Property Tax Extension Limitation Law.

The Department of Revenue shall add to the equalized assessed value of all taxable property of each school district situated entirely or partially within a county that is or was subject to the provisions of Section 15-176 or 15-177 of the Property Tax Code (a) an amount equal to the total amount by which the homestead exemption allowed under Section 15-176 or 15-177 of the Property Tax Code for real property situated in that school district exceeds the total amount that would have been allowed.
in that school district if the maximum reduction under Section 15-176 was (i) $4,500 in Cook County or $3,500 in all other counties in tax year 2003 or (ii) $5,000 in all counties in tax year 2004 and thereafter and (b) an amount equal to the aggregate amount for the taxable year of all additional exemptions under Section 15-175 of the Property Tax Code for owners with a household income of $30,000 or less. The county clerk of any county that is or was subject to the provisions of Section 15-176 or 15-177 of the Property Tax Code shall annually calculate and certify to the Department of Revenue for each school district all homestead exemption amounts under Section 15-176 or 15-177 of the Property Tax Code and all amounts of additional exemptions under Section 15-175 of the Property Tax Code for owners with a household income of $30,000 or less. It is the intent of this paragraph that if the general homestead exemption for a parcel of property is determined under Section 15-176 or 15-177 of the Property Tax Code rather than Section 15-175, then the calculation of Available Local Resources shall not be affected by the difference, if any, between the amount of the general homestead exemption allowed for that parcel of property under Section 15-176 or 15-177 of the Property Tax Code and the amount that would have been allowed had the general homestead exemption for that parcel of property been determined under Section 15-175 of the Property Tax Code. It is further the intent of this paragraph that if additional exemptions are allowed under Section 15-175 of the Property Tax Code for owners with a household income of less than $30,000, then the calculation of Available Local Resources shall not be affected by the difference, if any, because of those additional exemptions.

This equalized assessed valuation, as adjusted further by the requirements of this subsection, shall be utilized in the calculation of Available Local Resources.

(2) The equalized assessed valuation in paragraph (1) shall be adjusted, as applicable, in the following manner:

(a) For the purposes of calculating State aid under this Section, with respect to any part of a school district within a redevelopment project area in respect to which a municipality has adopted tax increment allocation financing pursuant to the Tax Increment Allocation Redevelopment Act, Sections 11-74.4-1 through 11-74.4-11 of the Illinois Municipal Code or the Industrial Jobs Recovery Law, Sections 11-74.6-1 through 11-74.6-50 of the Illinois Municipal Code, no part of the current equalized assessed valuation of real property located in any such project area which is

attributable to an increase above the total initial equalized assessed valuation of such property shall be used as part of the equalized assessed valuation of the district, until such time as all redevelopment project costs have been paid, as provided in Section 11-74.4-8 of the Tax Increment Allocation Redevelopment Act or in Section 11-74.6-35 of the Industrial Jobs Recovery Law. For the purpose of the equalized assessed valuation of the district, the total initial equalized assessed valuation or the current equalized assessed valuation, whichever is lower, shall be used until such time as all redevelopment project costs have been paid.

(b) The real property equalized assessed valuation for a school district shall be adjusted by subtracting from the real property value as equalized or assessed by the Department of Revenue for the district an amount computed by dividing the amount of any abatement of taxes under Section 18-170 of the Property Tax Code by 3.00% for a district maintaining grades kindergarten through 12, by 2.30% for a district maintaining grades kindergarten through 8, or by 1.05% for a district maintaining grades 9 through 12 and adjusted by an amount computed by dividing the amount of any abatement of taxes under subsection (a) of Section 18-165 of the Property Tax Code by the same percentage rates for district type as specified in this subparagraph (b).

(3) For the 1999-2000 school year and each school year thereafter, if a school district meets all of the criteria of this subsection (G)(3), the school district's Available Local Resources shall be calculated under subsection (D) using the district's Extension Limitation Equalized Assessed Valuation as calculated under this subsection (G)(3).

For purposes of this subsection (G)(3) the following terms shall have the following meanings:

"Budget Year": The school year for which general State aid is calculated and awarded under subsection (E).

"Base Tax Year": The property tax levy year used to calculate the Budget Year allocation of general State aid.

"Preceding Tax Year": The property tax levy year immediately preceding the Base Tax Year.

"Base Tax Year's Tax Extension": The product of the equalized assessed valuation utilized by the County Clerk in the Base Tax Year multiplied by the limiting rate as calculated under the

New matter indicated by italics - deletions by strikeout
"Preceding Tax Year's Tax Extension": The product of the equalized assessed valuation utilized by the County Clerk in the Preceding Tax Year multiplied by the Operating Tax Rate as defined in subsection (A).

"Extension Limitation Ratio": A numerical ratio, certified by the County Clerk, in which the numerator is the Base Tax Year's Tax Extension and the denominator is the Preceding Tax Year's Tax Extension.

"Operating Tax Rate": The operating tax rate as defined in subsection (A).

If a school district is subject to property tax extension limitations as imposed under the Property Tax Extension Limitation Law, the State Board of Education shall calculate the Extension Limitation Equalized Assessed Valuation of that district. For the 1999-2000 school year, the Extension Limitation Equalized Assessed Valuation of a school district as calculated by the State Board of Education shall be equal to the product of the district's 1996 Equalized Assessed Valuation and the district's Extension Limitation Ratio. Except as otherwise provided in this paragraph for a school district that has approved or does approve an increase in its limiting rate, for the 2000-2001 school year and each school year thereafter, the Extension Limitation Equalized Assessed Valuation of a school district as calculated by the State Board of Education shall be equal to the product of the Equalized Assessed Valuation last used in the calculation of general State aid and the district's Extension Limitation Ratio. If the Extension Limitation Equalized Assessed Valuation of a school district as calculated under this subsection (G)(3) is less than the district's equalized assessed valuation as calculated pursuant to subsections (G)(1) and (G)(2), then for purposes of calculating the district's general State aid for the Budget Year pursuant to subsection (E), that Extension Limitation Equalized Assessed Valuation shall be utilized to calculate the district's Available Local Resources under subsection (D). For the 2009-2010 school year and each school year thereafter, if a school district has approved or does approve an increase in its limiting rate, pursuant to Section 18-190 of the Property Tax Code, affecting the Base Tax Year, the Extension Limitation Equalized Assessed Valuation of the school district, as calculated by the State Board of Education, shall be equal to the product of the Equalized Assessed Valuation last used in the calculation of general State aid.
State aid times an amount equal to one plus the percentage increase, if any, in the Consumer Price Index for all Urban Consumers for all items published by the United States Department of Labor for the 12-month calendar year preceding the Base Tax Year, plus the Equalized Assessed Valuation of new property, annexed property, and recovered tax increment value and minus the Equalized Assessed Valuation of disconnected property. New property and recovered tax increment value shall have the meanings set forth in the Property Tax Extension Limitation Law.

Partial elementary unit districts created in accordance with Article 11E of this Code shall not be eligible for the adjustment in this subsection (G)(3) until the fifth year following the effective date of the reorganization.

(3.5) For the 2010-2011 school year and each school year thereafter, if a school district's boundaries span multiple counties, then the Department of Revenue shall send to the State Board of Education, for the purpose of calculating general State aid, the limiting rate and individual rates by purpose for the county that contains the majority of the school district's Equalized Assessed Valuation.

(4) For the purposes of calculating general State aid for the 1999-2000 school year only, if a school district experienced a triennial reassessment on the equalized assessed valuation used in calculating its general State financial aid apportionment for the 1998-1999 school year, the State Board of Education shall calculate the Extension Limitation Equalized Assessed Valuation that would have been used to calculate the district's 1998-1999 general State aid. This amount shall equal the product of the equalized assessed valuation used to calculate general State aid for the 1997-1998 school year and the district's Extension Limitation Ratio. If the Extension Limitation Equalized Assessed Valuation of the school district as calculated under this paragraph (4) is less than the district's equalized assessed valuation utilized in calculating the district's 1998-1999 general State aid allocation, then for purposes of calculating the district's general State aid pursuant to paragraph (5) of subsection (E), that Extension Limitation Equalized Assessed Valuation shall be utilized to calculate the district's Available Local Resources.

(5) For school districts having a majority of their equalized assessed valuation in any county except Cook, DuPage, Kane, Lake, McHenry, or Will, if the amount of general State aid allocated to the school district for the 1999-2000 school year under the provisions of subsection (E), (H), and (J) of this Section is less than the amount of
general State aid allocated to the district for the 1998-1999 school year under these subsections, then the general State aid of the district for the 1999-2000 school year only shall be increased by the difference between these amounts. The total payments made under this paragraph (5) shall not exceed $14,000,000. Claims shall be prorated if they exceed $14,000,000.

(H) Supplemental General State Aid.

(1) In addition to the general State aid a school district is allotted pursuant to subsection (E), qualifying school districts shall receive a grant, paid in conjunction with a district's payments of general State aid, for supplemental general State aid based upon the concentration level of children from low-income households within the school district. Supplemental State aid grants provided for school districts under this subsection shall be appropriated for distribution to school districts as part of the same line item in which the general State financial aid of school districts is appropriated under this Section.

(1.5) This paragraph (1.5) applies only to those school years preceding the 2003-2004 school year. For purposes of this subsection (H), the term "Low-Income Concentration Level" shall be the low-income eligible pupil count from the most recently available federal census divided by the Average Daily Attendance of the school district. If, however, (i) the percentage decrease from the 2 most recent federal censuses in the low-income eligible pupil count of a high school district with fewer than 400 students exceeds by 75% or more the percentage change in the total low-income eligible pupil count of contiguous elementary school districts, whose boundaries are coterminous with the high school district, or (ii) a high school district within 2 counties and serving 5 elementary school districts, whose boundaries are coterminous with the high school district, has a percentage decrease from the 2 most recent federal censuses in the low-income eligible pupil count and there is a percentage increase in the total low-income eligible pupil count of a majority of the elementary school districts in excess of 50% from the 2 most recent federal censuses, then the high school district's low-income eligible pupil count from the earlier federal census shall be the number used as the low-income eligible pupil count for the high school district, for purposes of this subsection (H). The changes made to this paragraph (1) by Public Act 92-28 shall apply to supplemental general State aid grants for school years preceding the 2003-2004 school year that are paid in fiscal year 1999 or thereafter and to any State aid payments made in fiscal year 1994 through fiscal year 1998 pursuant to subsection 1(n) of Section 18-8
of this Code (which was repealed on July 1, 1998), and any high school
district that is affected by Public Act 92-28 is entitled to a recomputation
of its supplemental general State aid grant or State aid paid in any of those
fiscal years. This recomputation shall not be affected by any other funding.

(1.10) This paragraph (1.10) applies to the 2003-2004 school year
and each school year thereafter through the 2016-2017 school year. For
purposes of this subsection (H), the term "Low-Income Concentration
Level" shall, for each fiscal year, be the low-income eligible pupil count as
of July 1 of the immediately preceding fiscal year (as determined by the
Department of Human Services based on the number of pupils who are
eligible for at least one of the following low income programs: Medicaid,
the Children's Health Insurance Program, TANF, or Food Stamps,
excluding pupils who are eligible for services provided by the Department
of Children and Family Services, averaged over the 2 immediately
preceding fiscal years for fiscal year 2004 and over the 3 immediately
preceding fiscal years for each fiscal year thereafter) divided by the
Average Daily Attendance of the school district.

(2) Supplemental general State aid pursuant to this subsection (H)
shall be provided as follows for the 1998-1999, 1999-2000, and 2000-
2001 school years only:

(a) For any school district with a Low Income
Concentration Level of at least 20% and less than 35%, the grant
for any school year shall be $800 multiplied by the low income
eligible pupil count.

(b) For any school district with a Low Income
Concentration Level of at least 35% and less than 50%, the grant
for the 1998-1999 school year shall be $1,100 multiplied by the
low income eligible pupil count.

(c) For any school district with a Low Income
Concentration Level of at least 50% and less than 60%, the grant
for the 1998-99 school year shall be $1,500 multiplied by the
low income eligible pupil count.

(d) For any school district with a Low Income
Concentration Level of 60% or more, the grant for the 1998-99
school year shall be $1,900 multiplied by the low income eligible
pupil count.

(e) For the 1999-2000 school year, the per pupil amount
specified in subparagraphs (b), (c), and (d) immediately above shall
be increased to $1,243, $1,600, and $2,000, respectively.
(f) For the 2000-2001 school year, the per pupil amounts specified in subparagraphs (b), (c), and (d) immediately above shall be $1,273, $1,640, and $2,050, respectively.

(2.5) Supplemental general State aid pursuant to this subsection (H) shall be provided as follows for the 2002-2003 school year:

(a) For any school district with a Low Income Concentration Level of less than 10%, the grant for each school year shall be $355 multiplied by the low income eligible pupil count.

(b) For any school district with a Low Income Concentration Level of at least 10% and less than 20%, the grant for each school year shall be $675 multiplied by the low income eligible pupil count.

(c) For any school district with a Low Income Concentration Level of at least 20% and less than 35%, the grant for each school year shall be $1,330 multiplied by the low income eligible pupil count.

(d) For any school district with a Low Income Concentration Level of at least 35% and less than 50%, the grant for each school year shall be $1,362 multiplied by the low income eligible pupil count.

(e) For any school district with a Low Income Concentration Level of at least 50% and less than 60%, the grant for each school year shall be $1,680 multiplied by the low income eligible pupil count.

(f) For any school district with a Low Income Concentration Level of 60% or more, the grant for each school year shall be $2,080 multiplied by the low income eligible pupil count.

(2.10) Except as otherwise provided, supplemental general State aid pursuant to this subsection (H) shall be provided as follows for the 2003-2004 school year and each school year thereafter:

(a) For any school district with a Low Income Concentration Level of 15% or less, the grant for each school year shall be $355 multiplied by the low income eligible pupil count.

(b) For any school district with a Low Income Concentration Level greater than 15%, the grant for each school year shall be $294.25 added to the product of $2,700 and the square of the Low Income Concentration Level, all multiplied by the low income eligible pupil count.

For the 2003-2004 school year and each school year thereafter through the 2008-2009 school year only, the grant shall be no less than the grant for the 2002-2003 school year. For the 2009-2010 school year only, the grant shall be no less than the grant for the 2002-2003 school year multiplied by 0.66. For the 2010-2011 school year only, the grant shall be no less than the grant for the 2002-2003 school year multiplied by 0.33. Notwithstanding the provisions of this paragraph to the contrary, if for any school year supplemental general State aid grants are prorated as provided in paragraph (1) of this subsection (H), then the grants under this paragraph shall be prorated.

For the 2003-2004 school year only, the grant shall be no greater than the grant received during the 2002-2003 school year added to the product of 0.25 multiplied by the difference between the grant amount calculated under subsection (a) or (b) of this paragraph (2.10), whichever is applicable, and the grant received during the 2002-2003 school year. For the 2004-2005 school year only, the grant shall be no greater than the grant received during the 2002-2003 school year added to the product of 0.50 multiplied by the difference between the grant amount calculated under subsection (a) or (b) of this paragraph (2.10), whichever is applicable, and the grant received during the 2002-2003 school year. For the 2005-2006 school year only, the grant shall be no greater than the grant received during the 2002-2003 school year added to the product of 0.75 multiplied by the difference between the grant amount calculated under subsection (a) or (b) of this paragraph (2.10), whichever is applicable, and the grant received during the 2002-2003 school year.

(3) School districts with an Average Daily Attendance of more than 1,000 and less than 50,000 that qualify for supplemental general State aid pursuant to this subsection shall submit a plan to the State Board of Education prior to October 30 of each year for the use of the funds resulting from this grant of supplemental general State aid for the improvement of instruction in which priority is given to meeting the education needs of disadvantaged children. Such plan shall be submitted in accordance with rules and regulations promulgated by the State Board of Education.

(4) School districts with an Average Daily Attendance of 50,000 or more that qualify for supplemental general State aid pursuant to this subsection shall be required to distribute from funds available pursuant to this Section, no less than $261,000,000 in accordance with the following requirements:

New matter indicated by italics - deletions by strikeout
(a) The required amounts shall be distributed to the attendance centers within the district in proportion to the number of pupils enrolled at each attendance center who are eligible to receive free or reduced-price lunches or breakfasts under the federal Child Nutrition Act of 1966 and under the National School Lunch Act during the immediately preceding school year.

(b) The distribution of these portions of supplemental and general State aid among attendance centers according to these requirements shall not be compensated for or contravened by adjustments of the total of other funds appropriated to any attendance centers, and the Board of Education shall utilize funding from one or several sources in order to fully implement this provision annually prior to the opening of school.

(c) Each attendance center shall be provided by the school district a distribution of noncategorical funds and other categorical funds to which an attendance center is entitled under law in order that the general State aid and supplemental general State aid provided by application of this subsection supplements rather than supplants the noncategorical funds and other categorical funds provided by the school district to the attendance centers.

(d) Any funds made available under this subsection that by reason of the provisions of this subsection are not required to be allocated and provided to attendance centers may be used and appropriated by the board of the district for any lawful school purpose.

(e) Funds received by an attendance center pursuant to this subsection shall be used by the attendance center at the discretion of the principal and local school council for programs to improve educational opportunities at qualifying schools through the following programs and services: early childhood education, reduced class size or improved adult to student classroom ratio, enrichment programs, remedial assistance, attendance improvement, and other educationally beneficial expenditures which supplement the regular and basic programs as determined by the State Board of Education. Funds provided shall not be expended for any political or lobbying purposes as defined by board rule.

(f) Each district subject to the provisions of this subdivision (H)(4) shall submit an acceptable plan to meet the educational

needs of disadvantaged children, in compliance with the requirements of this paragraph, to the State Board of Education prior to July 15 of each year. This plan shall be consistent with the decisions of local school councils concerning the school expenditure plans developed in accordance with part 4 of Section 34-2.3. The State Board shall approve or reject the plan within 60 days after its submission. If the plan is rejected, the district shall give written notice of intent to modify the plan within 15 days of the notification of rejection and then submit a modified plan within 30 days after the date of the written notice of intent to modify. Districts may amend approved plans pursuant to rules promulgated by the State Board of Education.

Upon notification by the State Board of Education that the district has not submitted a plan prior to July 15 or a modified plan within the time period specified herein, the State aid funds affected by that plan or modified plan shall be withheld by the State Board of Education until a plan or modified plan is submitted.

If the district fails to distribute State aid to attendance centers in accordance with an approved plan, the plan for the following year shall allocate funds, in addition to the funds otherwise required by this subsection, to those attendance centers which were underfunded during the previous year in amounts equal to such underfunding.

For purposes of determining compliance with this subsection in relation to the requirements of attendance center funding, each district subject to the provisions of this subsection shall submit as a separate document by December 1 of each year a report of expenditure data for the prior year in addition to any modification of its current plan. If it is determined that there has been a failure to comply with the expenditure provisions of this subsection regarding contravention or supplanting, the State Superintendent of Education shall, within 60 days of receipt of the report, notify the district and any affected local school council. The district shall within 45 days of receipt of that notification inform the State Superintendent of Education of the remedial or corrective action to be taken, whether by amendment of the current plan, if feasible, or by adjustment in the plan for the following year. Failure to provide the expenditure report or the notification of

remedial or corrective action in a timely manner shall result in a withholding of the affected funds.

The State Board of Education shall promulgate rules and regulations to implement the provisions of this subsection. No funds shall be released under this subdivision (H)(4) to any district that has not submitted a plan that has been approved by the State Board of Education.

(K) Grants to Laboratory and Alternative Schools.

In calculating the amount to be paid to the governing board of a public university that operates a laboratory school under this Section or to any alternative school that is operated by a regional superintendent of schools, the State Board of Education shall require by rule such reporting requirements as it deems necessary.

As used in this Section, "laboratory school" means a public school which is created and operated by a public university and approved by the State Board of Education. The governing board of a public university which receives funds from the State Board under this subsection (K) or subsection (g) of Section 18-8.15 of this Code may not increase the number of students enrolled in its laboratory school from a single district, if that district is already sending 50 or more students, except under a mutual agreement between the school board of a student's district of residence and the university which operates the laboratory school. A laboratory school may not have more than 1,000 students, excluding students with disabilities in a special education program.

As used in this Section, "alternative school" means a public school which is created and operated by a Regional Superintendent of Schools and approved by the State Board of Education. Such alternative schools may offer courses of instruction for which credit is given in regular school programs, courses to prepare students for the high school equivalency testing program or vocational and occupational training. A regional superintendent of schools may contract with a school district or a public community college district to operate an alternative school. An alternative school serving more than one educational service region may be established by the regional superintendents of schools of the affected educational service regions. An alternative school serving more than one educational service region may be operated under such terms as the
regional superintendents of schools of those educational service regions may agree.

Each laboratory and alternative school shall file, on forms provided by the State Superintendent of Education, an annual State aid claim which states the Average Daily Attendance of the school's students by month. The best 3 months' Average Daily Attendance shall be computed for each school. The general State aid entitlement shall be computed by multiplying the applicable Average Daily Attendance by the Foundation Level as determined under this Section.

(L) Payments, Additional Grants in Aid and Other Requirements.

(1) For a school district operating under the financial supervision of an Authority created under Article 34A, the general State aid otherwise payable to that district under this Section, but not the supplemental general State aid, shall be reduced by an amount equal to the budget for the operations of the Authority as certified by the Authority to the State Board of Education, and an amount equal to such reduction shall be paid to the Authority created for such district for its operating expenses in the manner provided in Section 18-11. The remainder of general State school aid for any such district shall be paid in accordance with Article 34A when that Article provides for a disposition other than that provided by this Article.

(2) (Blank).

(3) Summer school. Summer school payments shall be made as provided in Section 18-4.3.

(M) (Blank). Education Funding Advisory Board:

meeting of the Board that is held after all 5 members are appointed, shall determine 2 of their number to serve for terms that commence on the date of their respective appointments and expire on the third Monday of January, 2001, and 2 of their number to serve for terms that commence on the date of their respective appointments and expire on the third Monday of January, 2000. All members appointed to serve on the Board shall serve until their respective successors are appointed and confirmed. Vacancies shall be filled in the same manner as original appointments. If a vacancy in membership occurs at a time when the Senate is not in session, the Governor shall make a temporary appointment until the next meeting of the Senate, when he or she shall appoint, by and with the advice and consent of the Senate, a person to fill that membership for the unexpired term. If the Senate is not in session when the initial appointments are made, those appointments shall be made as in the case of vacancies.

The Education Funding Advisory Board shall be deemed established, and the initial members appointed by the Governor to serve as members of the Board shall take office, on the date that the Governor makes his or her appointment of the fifth initial member of the Board, whether those initial members are then serving pursuant to appointment and confirmation or pursuant to temporary appointments that are made by the Governor as in the case of vacancies.

The recommended foundation level shall be determined based on a methodology which incorporates the basic education expenditures of low-spending schools exhibiting high academic performance. The Education Funding Advisory Board shall make such recommendations to the General Assembly on January 1 of odd numbered years, beginning January 1, 2001.

(P) Public Act 93-838 and Public Act 93-808 make inconsistent changes to this Section. Under Section 6 of the Statute on Statutes there is an irreconcilable conflict between Public Act 93-808 and Public Act 93-838. Public Act 93-838, being the last acted upon, is controlling. The text of Public Act 93-838 is the law regardless of the text of Public Act 93-808.

(Q) State Fiscal Year 2015 Payments.

For payments made for State fiscal year 2015, the State Board of Education shall, for each school district, calculate that district's pro-rata share of a minimum sum of $13,600,000 or additional amounts as needed from the total net General State Aid funding as calculated under this Section that shall be deemed attributable to the provision of special educational facilities and services, as defined in Section 14-1.08 of this Code, in a manner that ensures compliance with maintenance of State financial support requirements under the federal Individuals with Disabilities Education Act. Each school district must use such funds only for the provision of special educational facilities and services, as defined in Section 14-1.08 of this Code, and must comply with any expenditure verification procedures adopted by the State Board of Education.

(R) State Fiscal Year 2016 Payments.

Sec. 18-8.10. Fast growth grants.

(a) If there has been an increase in a school district's student population over the most recent 2 school years of (i) over 1.5% in a district with over 10,000 pupils in average daily attendance (as defined in Section 18-8.05 or 18-8.15 of this Code) or (ii) over 7.5% in any other district, then the district is eligible for a grant under this Section, subject to appropriation.

(b) The State Board of Education shall determine a per pupil grant amount for each school district. The total grant amount for a district for any given school year shall equal the per pupil grant amount multiplied by the difference between the number of pupils in average daily attendance for the 2 most recent school years.

(c) Funds for grants under this Section must be appropriated to the State Board of Education in a separate line item for this purpose. If the amount appropriated in any fiscal year is insufficient to pay all grants for a school year, then the amount appropriated shall be prorated among eligible districts. As soon as possible after funds have been appropriated to the State Board of Education, the State Board of Education shall distribute the grants to eligible districts.

(d) If a school district intentionally reports incorrect average daily attendance numbers to receive a grant under this Section, then the district shall be denied State aid in the same manner as State aid is denied for intentional incorrect reporting of average daily attendance numbers under Section 18-8.05 or 18-8.15 of this Code.

Sec. 18-8.15. Evidence-based funding for student success for the 2017-2018 and subsequent school years.

(a) General provisions.

(1) The purpose of this Section is to ensure that, by June 30, 2027 and beyond, this State has a kindergarten through grade 12 public education system with the capacity to ensure the educational development of all persons to the limits of their capacities in accordance with Section 1 of Article X of the Constitution of the State of Illinois. To accomplish that objective, this Section creates a method of funding public education that is...
evidence-based; is sufficient to ensure every student receives a meaningful opportunity to learn irrespective of race, ethnicity, sexual orientation, gender, or community-income level; and is sustainable and predictable. When fully funded under this Section, every school shall have the resources, based on what the evidence indicates is needed, to:

(A) provide all students with a high quality education that offers the academic, enrichment, social and emotional support, technical, and career-focused programs that will allow them to become competitive workers, responsible parents, productive citizens of this State, and active members of our national democracy;

(B) ensure all students receive the education they need to graduate from high school with the skills required to pursue post-secondary education and training for a rewarding career;

(C) reduce, with a goal of eliminating, the achievement gap between at-risk and non-at-risk students by raising the performance of at-risk students and not by reducing standards; and

(D) ensure this State satisfies its obligation to assume the primary responsibility to fund public education and simultaneously relieve the disproportionate burden placed on local property taxes to fund schools.

(2) The evidence-based funding formula under this Section shall be applied to all Organizational Units in this State. The evidence-based funding formula outlined in this Act is based on the formula outlined in Senate Bill 1 of the 100th General Assembly, as passed by both legislative chambers. As further defined and described in this Section, there are 4 major components of the evidence-based funding model:

(A) First, the model calculates a unique adequacy target for each Organizational Unit in this State that considers the costs to implement research-based activities, the unit's student demographics, and regional wage difference.

(B) Second, the model calculates each Organizational Unit's local capacity, or the amount each
Organizational Unit is assumed to contribute towards its adequacy target from local resources.

(C) Third, the model calculates how much funding the State currently contributes to the Organizational Unit, and adds that to the unit's local capacity to determine the unit's overall current adequacy of funding.

(D) Finally, the model's distribution method allocates new State funding to those Organizational Units that are least well-funded, considering both local capacity and State funding, in relation to their adequacy target.

(3) An Organizational Unit receiving any funding under this Section may apply those funds to any fund so received for which that Organizational Unit is authorized to make expenditures by law.

(4) As used in this Section, the following terms shall have the meanings ascribed in this paragraph (4):

"Adequacy Target" is defined in paragraph (1) of subsection (b) of this Section.

If an Organizational Unit's corresponding fiscal year State of Illinois scheduled payments excluding net adjustments for prior years for regular, vocational, or special education transportation reimbursement pursuant to Section 29-5 or subsection (b) of Section 14-13.01 of this Code exceed the total transportation

New matter indicated by italics - deletions by strikeout
For the purposes of this paragraph (3), "teacher" includes core teachers, specialist and elective teachers, instructional facilitators, tutors, special education teachers, pupil support staff teachers, English learner teachers, extended-day teachers, and summer school teachers. Where specific grade data is not required for the Essential Elements, the average salary for corresponding positions shall apply. For substitute teachers, the average teacher salary for grades K through 12 shall apply.

For calculating the salaries included within the Essential Elements for positions not included within EIS Data, the following salaries shall be used in the first year of implementation of Evidence-Based Funding:

(i) school site staff, $30,000; and
(ii) non-instructional assistant, instructional assistant, library aide, library media tech, or supervisory aide: $25,000.

In the second and subsequent years of implementation of Evidence-Based Funding, the amounts in items (i) and (ii) of this paragraph (3) shall annually increase by the ECI.

The salary amounts for the Essential Elements determined pursuant to subparagraphs (A) through (L), (S) and (T), and (V) through (X) of paragraph (2) of subsection (b) of this Section shall be multiplied by a Regionalization Factor.

(c) Local capacity calculation.

(1) Each Organizational Unit's Local Capacity represents an amount of funding it is assumed to contribute toward its Adequacy Target for purposes of the Evidence-Based Funding formula calculation. "Local Capacity" means either (i) the Organizational Unit's Local Capacity Target as calculated in accordance with paragraph (2) of this subsection (c) if its Real Receipts are equal to or less than its Local Capacity Target or (ii) the Organizational Unit's Adjusted Local Capacity, as calculated in accordance with paragraph (3) of this subsection (c) if Real Receipts are more than its Local Capacity Target.

(2) "Local Capacity Target" means, for an Organizational Unit, that dollar amount that is obtained by multiplying its Adequacy Target by its Local Capacity Ratio.

(A) An Organizational Unit's Local Capacity Percentage is the conversion of the Organizational Unit's
Local Capacity Ratio, as such ratio is determined in accordance with subparagraph (B) of this paragraph (2), into a normal curve equivalent score to determine each Organizational Unit's relative position to all other Organizational Units in this State. The calculation of Local Capacity Percentage is described in subparagraph (C) of this paragraph (2).

(B) An Organizational Unit's Local Capacity Ratio in a given year is the percentage obtained by dividing its Adjusted EAV or PTELL EAV, whichever is less, by its Adequacy Target, with the resulting ratio further adjusted as follows:

(i) for Organizational Units serving grades kindergarten through 12 and Hybrid Districts, no further adjustments shall be made;

(ii) for Organizational Units serving grades kindergarten through 8, the ratio shall be multiplied by 9/13;

(iii) for Organizational Units serving grades 9 through 12, the Local Capacity Ratio shall be multiplied by 4/13; and

(iv) for an Organizational Unit with a different grade configuration than those specified in items (i) through (iii) of this subparagraph (B), the State Superintendent shall determine a comparable adjustment based on the grades served.

(C) Local Capacity Percentage converts each Organizational Unit's Local Capacity Ratio to a normal curve equivalent score to determine each Organizational Unit's relative position to all other Organizational Units in this State. The Local Capacity Percentage normal curve equivalent score for each Organizational Unit shall be calculated using the standard normal distribution of the score in relation to the weighted mean and weighted standard deviation and Local Capacity Ratios of all Organizational Units. If the value assigned to any Organizational Unit is in excess of 90%, the value shall be adjusted to 90%. For Laboratory Schools, the Local Capacity Percentage shall be set at 10% in recognition of

New matter indicated by italics - deletions by strikeout
the absence of EAV and resources from the public university that are allocated to the Laboratory School. The weighted mean for the Local Capacity Percentage shall be determined by multiplying each Organizational Unit's Local Capacity Ratio times the ASE for the unit creating a weighted value, summing the weighted values of all Organizational Units, and dividing by the total ASE of all Organizational Units. The weighted standard deviation shall be determined by taking the square root of the weighted variance of all Organizational Units' Local Capacity Ratio, where the variance is calculated by squaring the difference between each unit's Local Capacity Ratio and the weighted mean, then multiplying the variance for each unit times the ASE for the unit to create a weighted variance for each unit, then summing all units' weighted variance and dividing by the total ASE of all units.

(D) For any Organizational Unit, the Organizational Unit's Adjusted Local Capacity Target shall be reduced by either (i) the school board's remaining contribution pursuant to paragraph (ii) of subsection (b-4) of Section 16-158 of the Illinois Pension Code in a given year, or (ii) the board of education's remaining contribution pursuant to paragraph (iv) of subsection (b) of Section 17-129 of the Illinois Pension Code absent the employer normal cost portion of the required contribution and amount allowed pursuant to subdivision (3) of Section 17-142.1 of the Illinois Pension Code in a given year. In the preceding sentence, item (i) shall be certified to the State Board of Education by the Teachers' Retirement System of the State of Illinois and item (ii) shall be certified to the State Board of Education by the Public School Teachers' Pension and Retirement Fund of the City of Chicago.

(3) If an Organizational Unit's Real Receipts are more than its Local Capacity Target, then its Local Capacity shall equal an Adjusted Local Capacity Target as calculated in accordance with this paragraph (3). The Adjusted Local Capacity Target is calculated as the sum of the Organizational Unit's Local Capacity Target and its Real Receipts Adjustment. The Real Receipts

New matter indicated by italics - deletions by strikeout
Adjustment equals the Organizational Unit's Real Receipts less its Local Capacity Target, with the resulting figure multiplied by the Local Capacity Percentage.

As used in this paragraph (3), "Real Percent of Adequacy" means the sum of an Organizational Unit's Real Receipts, CPPRT, and Base Funding Minimum, with the resulting figure divided by the Organizational Unit's Adequacy Target.

(d) Calculation of Real Receipts, EAV, and Adjusted EAV for purposes of the Local Capacity calculation.

(1) An Organizational Unit's Real Receipts are the product of its Applicable Tax Rate and its Adjusted EAV. An Organizational Unit's Applicable Tax Rate is its Adjusted Operating Tax Rate for property within the Organizational Unit.

(2) The State Superintendent shall calculate the Equalized Assessed Valuation, or EAV, of all taxable property of each Organizational Unit as of September 30 of the previous year in accordance with paragraph (3) of this subsection (d). The State Superintendent shall then determine the Adjusted EAV of each Organizational Unit in accordance with paragraph (4) of this subsection (d), which Adjusted EAV figure shall be used for the purposes of calculating Local Capacity.

(3) To calculate Real Receipts and EAV, the Department of Revenue shall supply to the State Superintendent the value as equalized or assessed by the Department of Revenue of all taxable property of every Organizational Unit, together with (i) the applicable tax rate used in extending taxes for the funds of the Organizational Unit as of September 30 of the previous year and (ii) the limiting rate for all Organizational Units subject to property tax extension limitations as imposed under PTELL.

(A) The Department of Revenue shall add to the equalized assessed value of all taxable property of each Organizational Unit situated entirely or partially within a county that is or was subject to the provisions of Section 15-176 or 15-177 of the Property Tax Code (i) an amount equal to the total amount by which the homestead exemption allowed under Section 15-176 or 15-177 of the Property Tax Code for real property situated in that Organizational Unit exceeds the total amount that would have been allowed in that Organizational Unit if the

maximum reduction under Section 15-176 was (I) $4,500 in Cook County or $3,500 in all other counties in tax year 2003 or (II) $5,000 in all counties in tax year 2004 and thereafter and (ii) an amount equal to the aggregate amount for the taxable year of all additional exemptions under Section 15-175 of the Property Tax Code for owners with a household income of $30,000 or less. The county clerk of any county that is or was subject to the provisions of Section 15-176 or 15-177 of the Property Tax Code shall annually calculate and certify to the Department of Revenue for each Organizational Unit all homestead exemption amounts under Section 15-176 or 15-177 of the Property Tax Code and all amounts of additional exemptions under Section 15-175 of the Property Tax Code for owners with a household income of $30,000 or less. It is the intent of this subparagraph (A) that if the general homestead exemption for a parcel of property is determined under Section 15-176 or 15-177 of the Property Tax Code rather than Section 15-175, then the calculation of EAV shall not be affected by the difference, if any, between the amount of the general homestead exemption allowed for that parcel of property under Section 15-176 or 15-177 of the Property Tax Code and the amount that would have been allowed had the general homestead exemption for that parcel of property been determined under Section 15-175 of the Property Tax Code. It is further the intent of this subparagraph (A) that if additional exemptions are allowed under Section 15-175 of the Property Tax Code for owners with a household income of less than $30,000, then the calculation of EAV shall not be affected by the difference, if any, because of those additional exemptions.

(B) With respect to any part of an Organizational Unit within a redevelopment project area in respect to which a municipality has adopted tax increment allocation financing pursuant to the Tax Increment Allocation Redevelopment Act, Division 74.4 of the Illinois Municipal Code, or the Industrial Jobs Recovery Law, Division 74.6 of the Illinois Municipal Code, no part of the current EAV of real property located in any such project area which is

New matter indicated by italics - deletions by strikeout
attributable to an increase above the total initial EAV of such property shall be used as part of the EAV of the Organizational Unit, until such time as all redevelopment project costs have been paid, as provided in Section 11-74.4-8 of the Tax Increment Allocation Redevelopment Act or in Section 11-74.6-35 of the Industrial Jobs Recovery Law. For the purpose of the EAV of the Organizational Unit, the total initial EAV or the current EAV, whichever is lower, shall be used until such time as all redevelopment project costs have been paid.

(C) For Organizational Units that are Hybrid Districts, the State Superintendent shall use the lesser of the equalized assessed valuation for property within the partial elementary unit district for elementary purposes, as defined in Article 11E of this Code, or the equalized assessed valuation for property within the partial elementary unit district for high school purposes, as defined in Article 11E of this Code.

(4) An Organizational Unit's Adjusted EAV shall be the average of its EAV over the immediately preceding 3 years or its EAV in the immediately preceding year if the EAV in the immediately preceding year has declined by 10% or more compared to the 3-year average. In the event of Organizational Unit reorganization, consolidation, or annexation, the Organizational Unit's Adjusted EAV for the first 3 years after such change shall be as follows: the most current EAV shall be used in the first year, the average of a 2-year EAV or its EAV in the immediately preceding year if the EAV declines by 10% or more compared to the 2-year average for the second year, and a 3-year average EAV or its EAV in the immediately preceding year if the adjusted EAV declines by 10% or more compared to the 3-year average for the third year.

"PTELL EAV" means a figure calculated by the State Board for Organizational Units subject to PTELL as described in this paragraph (4) for the purposes of calculating an Organizational Unit's Local Capacity Ratio. Except as otherwise provided in this paragraph (4), for an Organizational Unit that has approved or does approve an increase in its limiting rate, the PTELL EAV of an Organizational Unit shall be equal to the
product of the equalized assessed valuation last used in the calculation of general State aid under Section 18-8.05 of this Code or Evidence-Based Funding under this Section and the Organizational Unit's Extension Limitation Ratio. If an Organizational Unit has approved or does approve an increase in its limiting rate, pursuant to Section 18-190 of the Property Tax Code, affecting the Base Tax Year, the PTLL EAV shall be equal to the product of the equalized assessed valuation last used in the calculation of general State aid under Section 18-8.05 of this Code or Evidence-Based Funding under this Section multiplied by an amount equal to one plus the percentage increase, if any, in the Consumer Price Index for All Urban Consumers for all items published by the United States Department of Labor for the 12-month calendar year preceding the Base Tax Year, plus the equalized assessed valuation of new property, annexed property, and recovered tax increment value and minus the equalized assessed valuation of disconnected property.

As used in this paragraph (4), "new property" and "recovered tax increment value" shall have the meanings set forth in the Property Tax Extension Limitation Law.

(e) Base Funding Minimum calculation.

(1) For the 2017-2018 school year, the Base Funding Minimum of an Organizational Unit, other than a Specially Funded Unit, shall be the amount of State funds distributed to the Organizational Unit during the 2016-2017 school year prior to any adjustments and specified appropriation amounts described in this paragraph (1) from the following Sections, as calculated by the State Superintendent: Section 18-8.05 of this Code (general State aid); Section 5 of Article 224 of Public Act 99-524 (equity grants); Section 14-7.02b of this Code (funding for children requiring special education services); Section 14-13.01 of this Code (special education facilities and staffing), except for reimbursement of the cost of transportation pursuant to Section 14-13.01; Section 14C-12 of this Code (English learners); and Section 18-4.3 of this Code (summer school), based on an appropriation level of $13,121,600. For a school district organized under Article 34 of this Code, the Base Funding Minimum also includes (i) the funds allocated to the school district pursuant to Section 1D-1 of this Code attributable to funding programs.
authorized by the Sections of this Code listed in the preceding sentence; and (ii) the difference between (I) the funds allocated to the school district pursuant to Section 1D-1 of this Code attributable to the funding programs authorized by Section 14-7.02 (non-public special education reimbursement), subsection (b) of Section 14-13.01 (special education transportation), Section 29-5 (transportation), Section 2-3.80 (agricultural education), Section 2-3.66 (truants' alternative education), Section 2-3.62 (educational service centers), and Section 14-7.03 (special education – orphanage) of this Code and Section 15 of the Childhood Hunger Relief Act (free breakfast program) and (II) the school district's actual expenditures for its non-public special education, special education transportation, transportation programs, agricultural education, truants' alternative education, services that would otherwise be performed by a regional office of education, special education orphanage expenditures, and free breakfast, as most recently calculated and reported pursuant to subsection (f) of Section 1D-1 of this Code. For Specially Funded Units, the Base Funding Minimum shall be the total amount of State funds allotted to the Specially Funded Unit during the 2016-2017 school year. The Base Funding Minimum for Glenwood Academy shall be $625,500.

(2) For the 2018-2019 and subsequent school years, the Base Funding Minimum of Organizational Units and Specially Funded Units shall be the sum of (i) the amount of Evidence-Based Funding for the prior school year and (ii) the Base Funding Minimum for the prior school year.

(f) Percent of Adequacy and Final Resources calculation.

(1) The Evidence-Based Funding formula establishes a Percent of Adequacy for each Organizational Unit in order to place such units into tiers for the purposes of the funding distribution system described in subsection (g) of this Section. Initially, an Organizational Unit's Preliminary Resources and Preliminary Percent of Adequacy are calculated pursuant to paragraph (2) of this subsection (f). Then, an Organizational Unit's Final Resources and Final Percent of Adequacy are calculated to account for the Organizational Unit's poverty concentration levels pursuant to paragraphs (3) and (4) of this subsection (f).

New matter indicated by italics - deletions by strikeout
(2) An Organizational Unit's Preliminary Resources are equal to the sum of its Local Capacity Target, CPPRT, and Base Funding Minimum. An Organizational Unit's Preliminary Percent of Adequacy is the lesser of (i) its Preliminary Resources divided by its Adequacy Target or (ii) 100%.

(3) Except for Specially Funded Units, an Organizational Unit's Final Resources are equal the sum of its Local Capacity, CPPRT, and Adjusted Base Funding Minimum. The Base Funding Minimum of each Specially Funded Unit shall serve as its Final Resources, except that the Base Funding Minimum for State-approved charter schools shall not include any portion of general State aid allocated in the prior year based on the per capita tuition charge times the charter school enrollment.

(4) An Organizational Unit's Final Percent of Adequacy is its Final Resources divided by its Adequacy Target. An Organizational Unit's Adjusted Base Funding Minimum is equal to its Base Funding Minimum less its Supplemental Grant Funding, with the resulting figure added to the product of its Supplemental Grant Funding and Preliminary Percent of Adequacy.

(g) Evidence-Based Funding formula distribution system.

(1) In each school year under the Evidence-Based Funding formula, each Organizational Unit receives funding equal to the sum of its Base Funding Minimum and the unit’s allocation of New State Funds determined pursuant to this subsection (g). To allocate New State Funds, the Evidence-Based Funding formula distribution system first places all Organizational Units into one of 4 tiers in accordance with paragraph (3) of this subsection (g), based on the Organizational Unit’s Final Percent of Adequacy. New State Funds are allocated to each of the 4 tiers as follows: Tier 1 Aggregate Funding equals 50% of all New State Funds, Tier 2 Aggregate Funding equals 49% of all New State Funds, Tier 3 Aggregate Funding equals 0.9% of all New State Funds, and Tier 4 Aggregate Funding equals 0.1% of all New State Funds. Each Organizational Unit within Tier 1 or Tier 2 receives an allocation of New State Funds equal to its tier Funding Gap, as defined in the following sentence, multiplied by the tier's Allocation Rate determined pursuant to paragraph (4) of this subsection (g). For Tier 1, an Organizational Unit's Funding Gap equals the tier's Target Ratio, as specified in paragraph (5) of this subsection (g),

New matter indicated by italics - deletions by strikeout
multiplied by the Organizational Unit's Adequacy Target, with the resulting amount reduced by the Organizational Unit's Final Resources. For Tier 2, an Organizational Unit's Funding Gap equals the tier's Target Ratio, as described in paragraph (5) of this subsection (g), multiplied by the Organizational Unit's Adequacy Target, with the resulting amount reduced by the Organizational Unit's Final Resources and its Tier 1 funding allocation. To determine the Organizational Unit's Funding Gap, the resulting amount is then multiplied by a factor equal to one minus the Organizational Unit's Local Capacity Target percentage. Each Organizational Unit within Tier 3 or Tier 4 receives an allocation of New State Funds equal to the product of its Adequacy Target and the tier's Allocation Rate, as specified in paragraph (4) of this subsection (g).

(2) To ensure equitable distribution of dollars for all Tier 2 Organizational Units, no Tier 2 Organizational Unit shall receive fewer dollars per ASE than any Tier 3 Organizational Unit. Each Tier 2 and Tier 3 Organizational Unit shall have its funding allocation divided by its ASE. Any Tier 2 Organizational Unit with a funding allocation per ASE below the greatest Tier 3 allocation per ASE shall get a funding allocation equal to the greatest Tier 3 funding allocation per ASE multiplied by the Organizational Unit's ASE. Each Tier 2 Organizational Unit's Tier 2 funding allocation shall be multiplied by the percentage calculated by dividing the original Tier 2 Aggregate Funding by the sum of all Tier 2 Organizational Unit's Tier 2 funding allocation after adjusting districts' funding below Tier 3 levels.

(3) Organizational Units are placed into one of 4 tiers as follows:

(A) Tier 1 consists of all Organizational Units, except for Specially Funded Units, with a Percent of Adequacy less than the Tier 1 Target Ratio. The Tier 1 Target Ratio is the ratio level that allows for Tier 1 Aggregate Funding to be distributed, with the Tier 1 Allocation Rate determined pursuant to paragraph (4) of this subsection (g).

(B) Tier 2 consists of all Tier 1 Units and all other Organizational Units, except for Specially Funded Units, with a Percent of Adequacy of less than 0.90.

New matter indicated by italics - deletions by strikeout
(C) Tier 3 consists of all Organizational Units, except for Specially Funded Units, with a Percent of Adequacy of at least 0.90 and less than 1.0.

(D) Tier 4 consists of all Organizational Units with a Percent of Adequacy of at least 1.0 and Specially Funded Units, excluding Glenwood Academy.

(4) The Allocation Rates for Tiers 1 through 4 is determined as follows:

(A) The Tier 1 Allocation Rate is 30%.

(B) The Tier 2 Allocation Rate is the result of the following equation: Tier 2 Aggregate Funding, divided by the sum of the Funding Gaps for all Tier 2 Organizational Units, unless the result of such equation is higher than 1.0. If the result of such equation is higher than 1.0, then the Tier 2 Allocation Rate is 1.0.

(C) The Tier 3 Allocation Rate is the result of the following equation: Tier 3 Aggregate Funding, divided by the sum of the Adequacy Targets of all Tier 3 Organizational Units.

(D) The Tier 4 Allocation Rate is the result of the following equation: Tier 4 Aggregate Funding, divided by the sum of the Adequacy Targets of all Tier 4 Organizational Units.

(5) A tier's Target Ratio is determined as follows:

(A) The Tier 1 Target Ratio is the ratio level that allows for Tier 1 Aggregate Funding to be distributed with the Tier 1 Allocation Rate.

(B) The Tier 2 Target Ratio is 0.90.

(C) The Tier 3 Target Ratio is 1.0.

(6) If, at any point, the Tier 1 Target Ratio is greater than 90%, then all Tier 1 funding shall be allocated to Tier 2 and no Tier 1 Organizational Unit's funding may be identified.

(7) In the event that all Tier 2 Organizational Units receive funding at the Tier 2 Target Ratio level, any remaining New State Funds shall be allocated to Tier 3 and Tier 4 Organizational Units.

(8) If any Specially Funded Units, excluding Glenwood Academy, recognized by the State Board do not qualify for direct funding following the implementation of this amendatory Act of the

100th General Assembly from any of the funding sources included within the definition of Base Funding Minimum, the unqualified portion of the Base Funding Minimum shall be transferred to one or more appropriate Organizational Units as determined by the State Superintendent based on the prior year ASE of the Organizational Units.

(9) The Minimum Funding Level is intended to establish a target for State funding that will keep pace with inflation and continue to advance equity through the Evidence-Based Funding formula. The target for State funding of New Property Tax Relief Pool Funds is $50,000,000 for State fiscal year 2019 and subsequent State fiscal years. The Minimum Funding Level is equal to $350,000,000. In addition to any New State Funds, no more than $50,000,000 New Property Tax Relief Pool Funds may be counted towards the Minimum Funding Level. If the sum of New State Funds and applicable New Property Tax Relief Pool Funds are less than the Minimum Funding Level, than funding for tiers shall be reduced in the following manner:

(A) First, Tier 4 funding shall be reduced by an amount equal to the difference between the Minimum Funding Level and New State Funds until such time as Tier 4 funding is exhausted.

(B) Next, Tier 3 funding shall be reduced by an amount equal to the difference between the Minimum Funding Level and New State Funds and the reduction in Tier 4 funding until such time as Tier 3 funding is exhausted.

(C) Next, Tier 2 funding shall be reduced by an amount equal to the difference between the Minimum Funding Level and New State Funds and the reduction in Tier 4 and Tier 3.

(D) Finally, Tier 1 funding shall be reduced by an amount equal to the difference between the Minimum Funding Level and New State Funds and the reduction in Tier 2, 3, and 4 funding. In addition, the Allocation Rate for Tier 1 shall be reduced to a percentage equal to 50%, multiplied by the result of New State Funds divided by the Minimum Funding Level.

(9.5) For State fiscal year 2019 and subsequent State fiscal years, if New State Funds exceed $300,000,000, then any amount in excess of $300,000,000 shall be dedicated for purposes of Section 2-3.170 of this Code up to a maximum of $50,000,000.

(10) In the event of a decrease in the amount of the appropriation for this Section in any fiscal year after implementation of this Section, the Organizational Units receiving Tier 1 and Tier 2 funding, as determined under paragraph (3) of this subsection (g), shall be held harmless by establishing a Base Funding Guarantee equal to the per pupil kindergarten through grade 12 funding received in accordance with this Section in the prior fiscal year. Reductions shall be made to the Base Funding Minimum of Organizational Units in Tier 3 and Tier 4 on a per pupil basis equivalent to the total number of the ASE in Tier 3-funded and Tier 4-funded Organizational Units divided by the total reduction in State funding. The Base Funding Minimum as reduced shall continue to be applied to Tier 3 and Tier 4 Organizational Units and adjusted by the relative formula when increases in appropriations for this Section resume. In no event may State funding reductions to Organizational Units in Tier 3 or Tier 4 exceed an amount that would be less than the Base Funding Minimum established in the first year of implementation of this Section. If additional reductions are required, all school districts shall receive a reduction by a per pupil amount equal to the aggregate additional appropriation reduction divided by the total ASE of all Organizational Units.

(11) The State Superintendent shall make minor adjustments to the distribution formula set forth in this subsection (g) to account for the rounding of percentages to the nearest tenth of a percentage and dollar amounts to the nearest whole dollar.

(h) State Superintendent administration of funding and district submission requirements.

(1) The State Superintendent shall, in accordance with appropriations made by the General Assembly, meet the funding obligations created under this Section.

(2) The State Superintendent shall calculate the Adequacy Target for each Organizational Unit and Net State Contribution Target for each Organizational Unit under this Section. The State Superintendent shall also certify the actual amounts of the New
State Funds payable for each eligible Organizational Unit based on the equitable distribution calculation to the unit's treasurer, as soon as possible after such amounts are calculated, including any applicable adjusted charge-off increase. No Evidence-Based Funding shall be distributed within an Organizational Unit without the approval of the unit's school board.

(3) Annually, the State Superintendent shall calculate and report to each Organizational Unit the unit's aggregate financial adequacy amount, which shall be the sum of the Adequacy Target for each Organizational Unit. The State Superintendent shall calculate and report separately for each Organizational Unit the unit's total State funds allocated for its students with disabilities. The State Superintendent shall calculate and report separately for each Organizational Unit the amount of funding and applicable FTE calculated for each Essential Element of the unit's Adequacy Target.

(4) Annually, the State Superintendent shall calculate and report to each Organizational Unit the amount the unit must expend on special education and bilingual education pursuant to the unit's Base Funding Minimum, Special Education Allocation, and Bilingual Education Allocation.

(5) Moneys distributed under this Section shall be calculated on a school year basis, but paid on a fiscal year basis, with payments beginning in August and extending through June. Unless otherwise provided, the moneys appropriated for each fiscal year shall be distributed in 22 equal payments at least 2 times monthly to each Organizational Unit. The State Board shall publish a yearly distribution schedule at its meeting in June. If moneys appropriated for any fiscal year are distributed other than monthly, the distribution shall be on the same basis for each Organizational Unit.

(6) Any school district that fails, for any given school year, to maintain school as required by law or to maintain a recognized school is not eligible to receive Evidence-Based Funding. In case of non-recognition of one or more attendance centers in a school district otherwise operating recognized schools, the claim of the district shall be reduced in the proportion that the enrollment in the attendance center or centers bears to the enrollment of the school district. "Recognized school" means any public school that

meets the standards for recognition by the State Board. A school
district or attendance center not having recognition status at the
end of a school term is entitled to receive State aid payments due
upon a legal claim that was filed while it was recognized.

(7) School district claims filed under this Section are
subject to Sections 18-9 and 18-12 of this Code, except as
otherwise provided in this Section.

(8) Each fiscal year, the State Superintendent shall
calculate for each Organizational Unit an amount of its Base
Funding Minimum and Evidence-Based Funding that shall be
deemed attributable to the provision of special educational
facilities and services, as defined in Section 14-1.08 of this Code,
in a manner that ensures compliance with maintenance of State
financial support requirements under the federal Individuals with
Disabilities Education Act. An Organizational Unit must use such
funds only for the provision of special educational facilities and
services, as defined in Section 14-1.08 of this Code, and must
comply with any expenditure verification procedures adopted by
the State Board.

(9) All Organizational Units in this State must submit
annual spending plans by the end of September of each year to the
State Board as part of the annual budget process, which shall
describe how each Organizational Unit will utilize the Base
Minimum Funding and Evidence-Based funding it receives from
this State under this Section with specific identification of the
intended utilization of Low-Income, English learner, and special
education resources. Additionally, the annual spending plans of
each Organizational Unit shall describe how the Organizational
Unit expects to achieve student growth and how the
Organizational Unit will achieve State education goals, as defined
by the State Board. The State Superintendent may, from time to
time, identify additional requisites for Organizational Units to
satisfy when compiling the annual spending plans required under
this subsection (h). The format and scope of annual spending plans
shall be developed by the State Superintendent in conjunction with
the Professional Review Panel.

(10) No later than January 1, 2018, the State
Superintendent shall develop a 5-year strategic plan for all
Organizational Units to help in planning for adequacy funding
under this Section. The State Superintendent shall submit the plan to the Governor and the General Assembly, as provided in Section 3.1 of the General Assembly Organization Act. The plan shall include recommendations for:

(A) a framework for collaborative, professional, innovative, and 21st century learning environments using the Evidence-Based Funding model;

(B) ways to prepare and support this State’s educators for successful instructional careers;

(C) application and enhancement of the current financial accountability measures, the approved State plan to comply with the federal Every Student Succeeds Act, and the Illinois Balanced Accountability Measures in relation to student growth and elements of the Evidence-Based Funding model; and

(D) implementation of an effective school adequacy funding system based on projected and recommended funding levels from the General Assembly.

(i) Professional Review Panel.

(1) A Professional Review Panel is created to study and review the implementation and effect of the Evidence-Based Funding model under this Section and to recommend continual recalibration and future study topics and modifications to the Evidence-Based Funding model. The Panel shall elect a chairperson and vice chairperson by a majority vote of the Panel and shall advance recommendations based on a majority vote of the Panel. A minority opinion may also accompany any recommendation of the majority of the Panel. The Panel shall be appointed by the State Superintendent, except as otherwise provided in paragraph (2) of this subsection (i) and include the following members:

(A) Two appointees that represent district superintendents, recommended by a statewide organization that represents district superintendents.

(B) Two appointees that represent school boards, recommended by a statewide organization that represents school boards.

(M) One representative from a school district organized under Article 34 of this Code.

The State Superintendent shall ensure that the membership of the Panel includes representatives from school districts and communities reflecting the geographic, socio-economic, racial, and ethnic diversity of this State. The State Superintendent shall additionally ensure that the membership of the Panel includes representatives with expertise in bilingual education and special education. Staff from the State Board shall staff the Panel.

(2) In addition to those Panel members appointed by the State Superintendent, 4 members of the General Assembly shall be

appointed as follows: one member of the House of Representatives appointed by the Speaker of the House of Representatives, one member of the Senate appointed by the President of the Senate, one member of the House of Representatives appointed by the Minority Leader of the House of Representatives, and one member of the Senate appointed by the Minority Leader of the Senate. There shall be one additional member appointed by the Governor. All members appointed by legislative leaders or the Governor shall be non-voting, ex officio members.

(3) On an annual basis, the State Superintendent shall recalibrate the following per pupil elements of the Adequacy Target and applied to the formulas, based on the Panel's study of average expenses as reported in the most recent annual financial report:

(A) gifted under subparagraph (M) of paragraph (2) of subsection (b) of this Section;

make recommendations for the further study of maintenance and operations costs, including capital maintenance costs, and recommend any additional reporting data required from Organizational Units.

(D) "At-risk student" definition. Within 5 years after the implementation of this Section, the Panel shall make recommendations for the further study and determination of an "at-risk student" definition. Within 5 years after the implementation of this Section, the Panel shall evaluate and make recommendations regarding adequate funding for poverty concentration under the Evidence-Based Funding model.

(E) Benefits. Within 5 years after the implementation of this Section, the Panel shall make recommendations for further study of benefit costs.

(F) Technology. The per pupil target for technology shall be reviewed every 3 years to determine whether current allocations are sufficient to develop 21st century learning in all classrooms in this State and supporting a one-to-one technological device program in each school. Recommendations shall be made no later than 3 years after the implementation of this Section.

(G) Local Capacity Target. Within 3 years after the implementation of this Section, the Panel shall make recommendations for any additional data desired to analyze possible modifications to the Local Capacity Target, to be based on measures in addition to solely EAV and to be completed within 5 years after implementation of this Section.

regarding funding levels to support college and career acceleration strategies in high school that have been demonstrated to result in improved secondary and postsecondary outcomes, including Advanced Placement, dual-credit opportunities, and college and career pathway systems.

(J) Special education investments. By the beginning of the 2021-2022 school year, the Panel shall study and make recommendations on whether and how to account for disability types within the special education funding category.

(K) Early childhood investments. In collaboration with the Illinois Early Learning Council, the Panel shall include an analysis of what level of Preschool for All Children funding would be necessary to serve all children ages 0 through 5 years in the highest-priority service tier, as specified in paragraph (4.5) of subsection (a) of Section 2-3.71 of this Code, and an analysis of the potential cost savings that that level of Preschool for All Children investment would have on the kindergarten through grade 12 system.

(5) Within 5 years after the implementation of this Section, the Panel shall complete an evaluative study of the entire Evidence-Based Funding model, including an assessment of whether or not the formula is achieving State goals. The Panel shall report to the State Board, the General Assembly, and the Governor on the findings of the study.

school district is owned by a person or corporation that is the subject of bankruptcy proceedings or that has been adjudged bankrupt and, as a result thereof, has not paid taxes on the property, then the district may amend its general State aid or evidence-based funding claim (i) back to the inception of the bankruptcy, not to exceed 6 years, in which time those taxes were not paid and (ii) for each succeeding year that those taxes remain unpaid, by adding to the claim an amount determined by multiplying the assessed valuation of the property on which taxes have not been paid due to the bankruptcy by the lesser of the total tax rate for the district for the tax year for which the taxes are unpaid or the applicable rate used in calculating the district's general State aid under paragraph (3) of subsection (D) of Section 18-8.05 of this Code or evidence-based funding under Section 18-8.15 of this Code, as applicable. If at any time a district that receives additional State aid under this Section receives tax revenue from the property for the years that taxes were not paid, the district's next claim for State aid shall be reduced in an amount equal to the taxes paid on the property, not to exceed the additional State aid received under this Section. Claims under this Section shall be filed on forms prescribed by the State Superintendent of Education, and the State Superintendent of Education, upon receipt of a claim, shall adjust the claim in accordance with the provisions of this Section. Sec. 18-12. Dates for filing State aid claims. The school board of each school district, a regional office of education, a laboratory school, or a State-authorized charter school shall require teachers, principals, or superintendents to furnish from records kept by them such data as it needs in preparing and certifying to the State Superintendent of Education its report of claims provided in Section 18-8.05 of this Code. The claim shall be based on the latest available equalized assessed valuation and tax rates, as provided in Section 18-8.05 or 18-8.15, shall use the average daily attendance as determined by the method outlined in Section 18-8.05 or 18-8.15, and shall be certified and filed with the State Superintendent of Education by June 21 for districts and State-authorized charter schools with an official school calendar end date before June 15 or within 2 weeks following the official school calendar end date for districts, regional

New matter indicated by italics - deletions by strikeout
offices of education, laboratory schools, or State-authorized charter schools with a school year end date of June 15 or later. Failure to so file by these deadlines constitutes a forfeiture of the right to receive payment by the State until such claim is filed. The State Superintendent of Education shall voucher for payment those claims to the State Comptroller as provided in Section 18-11.

Except as otherwise provided in this Section, if any school district fails to provide the minimum school term specified in Section 10-19, the State aid claim for that year shall be reduced by the State Superintendent of Education in an amount equivalent to 1/176 or .56818% for each day less than the number of days required by this Code.

If the State Superintendent of Education determines that the failure to provide the minimum school term was occasioned by an act or acts of God, or was occasioned by conditions beyond the control of the school district which posed a hazardous threat to the health and safety of pupils, the State aid claim need not be reduced.

If a school district is precluded from providing the minimum hours of instruction required for a full day of attendance due to an adverse weather condition or a condition beyond the control of the school district that poses a hazardous threat to the health and safety of students, then the partial day of attendance may be counted if (i) the school district has provided at least one hour of instruction prior to the closure of the school district, (ii) a school building has provided at least one hour of instruction prior to the closure of the school building, or (iii) the normal start time of the school district is delayed.

If, prior to providing any instruction, a school district must close one or more but not all school buildings after consultation with a local emergency response agency or due to a condition beyond the control of the school district, then the school district may claim attendance for up to 2 school days based on the average attendance of the 3 school days immediately preceding the closure of the affected school building or, if approved by the State Board of Education, utilize the provisions of an e-learning program for the affected school building as prescribed in Section 10-20.56 of this Code. The partial or no day of attendance described in this Section and the reasons therefore shall be certified within a month of the closing or delayed start by the school district superintendent to the regional superintendent of schools for forwarding to the State Superintendent of Education for approval.

New matter indicated by italics - deletions by strikeout
Other than the utilization of any e-learning days as prescribed in Section 10-20.56 of this Code, no exception to the requirement of providing a minimum school term may be approved by the State Superintendent of Education pursuant to this Section unless a school district has first used all emergency days provided for in its regular calendar.

If the State Superintendent of Education declares that an energy shortage exists during any part of the school year for the State or a designated portion of the State, a district may operate the school attendance centers within the district 4 days of the week during the time of the shortage by extending each existing school day by one clock hour of school work, and the State aid claim shall not be reduced, nor shall the employees of that district suffer any reduction in salary or benefits as a result thereof. A district may operate all attendance centers on this revised schedule, or may apply the schedule to selected attendance centers, taking into consideration such factors as pupil transportation schedules and patterns and sources of energy for individual attendance centers.

Electronically submitted State aid claims shall be submitted by duly authorized district individuals over a secure network that is password protected. The electronic submission of a State aid claim must be accompanied with an affirmation that all of the provisions of Sections 18-8.05, 10-22.5, and 24-4 of this Code are met in all respects.

Subject to available funds, students may apply for reimbursement of up to 100% of tuition costs upon a showing of employment within 6 months after completion of a vocational or job training program. The qualifications for reimbursement shall be established by the State Superintendent of Education by rule.

(4) Job and career programs approved by the State Superintendent of Education that are available through Illinois-accredited private business and vocational schools. Subject to available funds, pupils may apply for reimbursement of up to 100% of tuition costs upon a showing of employment within 6 months after completion of a job or career program. The State Superintendent of Education shall establish, by rule, the qualifications for reimbursement, criteria for determining reimbursement amounts, and limits on reimbursement.

(5) Adult education courses that offer preparation for high school equivalency testing.

(d) Graduation incentives programs established by school districts are entitled to claim general State aid and evidence-based funding, subject to Sections 13B-50, 13B-50.5, and 13B-50.10 of this Code. Graduation incentives programs operated by regional offices of education are entitled to receive general State aid and evidence-based funding at the foundation level of support per pupil enrolled. (a) Pupils enrolled in the public schools and State universities engaged in preparing teachers shall be required to engage daily during the school day, except on block scheduled days for those public schools engaged in block scheduling, in courses of physical education for such periods as are compatible with the optimum growth and developmental needs of individuals at the various age levels except when appropriate excuses are submitted to the school by a pupil's parent or guardian or by a person licensed under the Medical Practice Act of 1987 and except as provided in subsection (b) of this Section. A school board may determine the schedule or frequency of physical education courses, provided that a pupil engages in a course of physical education for a minimum of 3 days per 5-day week.

Special activities in physical education shall be provided for pupils whose physical or emotional condition, as determined by a person licensed under the Medical Practice Act of 1987, prevents their participation in the courses provided for normal children.

(b) A school board is authorized to excuse pupils enrolled in grades 11 and 12 from engaging in physical education courses if those pupils request to be excused for any of the following reasons: (1) for ongoing participation in an interscholastic athletic program; (2) to enroll in academic classes which are required for admission to an institution of higher learning, provided that failure to take such classes will result in the pupil being denied admission to the institution of his or her choice; or (3) to enroll in academic classes which are required for graduation from high school, provided that failure to take such classes will result in the pupil being unable to graduate. A school board may also excuse pupils in grades 9 through 12 enrolled in a marching band program for credit from engaging in physical education courses if those pupils request to be excused for ongoing participation in such marching band program. A school board may also, on a case-by-case basis, excuse pupils in grades 7 through 12 who participate in an interscholastic or extracurricular athletic program from engaging in physical education courses. In addition, a pupil in any of grades 3 through 12 who is eligible for special education may be excused if the pupil's parent or guardian agrees that the pupil must utilize the time set aside for physical education to receive special education support and services or, if there is no agreement, the individualized education program team for the pupil determines that the

pupil must utilize the time set aside for physical education to receive special education support and services, which agreement or determination must be made a part of the individualized education program. However, a pupil requiring adapted physical education must receive that service in accordance with the individualized education program developed for the pupil. If requested, a school board is authorized to excuse a pupil from engaging in a physical education course if the pupil has an individualized educational program under Article 14 of this Code, is participating in an adaptive athletic program outside of the school setting, and documents such participation as determined by the school board. A school board may also excuse pupils in grades 9 through 12 enrolled in a Reserve Officer's Training Corps (ROTC) program sponsored by the school district from engaging in physical education courses. School boards which choose to exercise this authority shall establish a policy to excuse pupils on an individual basis.

Any child who received a health examination within one year prior to entering the fifth grade for the 2007-2008 school year is not required to receive an additional health examination in order to comply with the provisions of Public Act 95-422 when he or she attends school for the 2008-2009 school year, unless the child is attending school for the first time as provided in this paragraph.

(1.10) Except as otherwise provided in this Section, all children enrolling in kindergarten in a public, private, or parochial school on or after the effective date of this amendatory Act of the 95th General Assembly and any student enrolling for the first time in a public, private, or parochial school on or after the effective date of this amendatory Act of the 95th General Assembly shall have an eye examination. Each of these children shall present proof of having been examined by a physician licensed to practice medicine in all of its branches or a licensed optometrist within the previous year, in accordance with this Section and rules adopted under this Section, before October 15th of the school year. If the child fails to present proof by October 15th, the school may hold the child's report card until one of the following occurs: (i) the child presents proof of a completed eye examination or (ii) the child presents proof that an eye examination will take place within 60 days after October 15th. The Department of Public Health shall establish, by rule, a waiver for children who show an undue burden or a lack of access to a physician licensed to practice medicine in all of its branches who provides eye examinations or to a licensed optometrist. Each public, private, and parochial school must give notice of this eye examination requirement to the parents and guardians of students in compliance with rules of the Department of Public Health. Nothing in this Section shall be construed to allow a school to exclude a child from attending because of a parent's or guardian's failure to obtain an eye examination for the child.

(2) The Department of Public Health shall promulgate rules and regulations specifying the examinations and procedures that constitute a health examination, which shall include an age-appropriate developmental screening, an age-appropriate social and emotional screening, and the collection of data relating to obesity (including at a minimum, date of birth, gender, height, weight, blood pressure, and date of exam), and a dental examination and may recommend by rule that certain additional examinations be performed. The rules and regulations of the Department of Public Health shall specify that a tuberculosis skin test screening shall be included as a required part of each health examination included under this Section if the child resides in an area designated by the Department of Public Health as having a high incidence of tuberculosis. With respect to the developmental screening and the social and emotional screening, the Department of Public Health must develop rules and appropriate revisions to the Child Health Examination form in conjunction with a statewide organization representing school boards; a statewide organization

representing pediatricians; statewide organizations representing individuals holding Illinois educator licenses with school support personnel endorsements, including school social workers, school psychologists, and school nurses; a statewide organization representing children's mental health experts; a statewide organization representing school principals; the Director of Healthcare and Family Services or his or her designee, the State Superintendent of Education or his or her designee; and representatives of other appropriate State agencies and, at a minimum, must recommend the use of validated screening tools appropriate to the child's age or grade, and, with regard to the social and emotional screening, require recording only whether or not the screening was completed. The rules shall take into consideration the screening recommendations of the American Academy of Pediatrics and must be consistent with the State Board of Education's social and emotional learning standards. The Department of Public Health shall specify that a diabetes screening as defined by rule shall be included as a required part of each health examination. Diabetes testing is not required.

Physicians licensed to practice medicine in all of its branches, licensed advanced practice nurses, or licensed physician assistants shall be responsible for the performance of the health examinations, other than dental examinations, eye examinations, and vision and hearing screening, and shall sign all report forms required by subsection (4) of this Section that pertain to those portions of the health examination for which the physician, advanced practice nurse, or physician assistant is responsible. If a registered nurse performs any part of a health examination, then a physician licensed to practice medicine in all of its branches must review and sign all required report forms. Licensed dentists shall perform all dental examinations and shall sign all report forms required by subsection (4) of this Section that pertain to the dental examinations. Physicians licensed to practice medicine in all its branches or licensed optometrists shall perform all eye examinations required by this Section and shall sign all report forms required by subsection (4) of this Section that pertain to the eye examination. For purposes of this Section, an eye examination shall at a minimum include history, visual acuity, subjective refraction to best visual acuity near and far, internal and external examination, and a glaucoma evaluation, as well as any other tests or observations that in the professional judgment of the doctor are necessary. Vision and hearing screening tests, which shall not be considered examinations as that term is used in this Section, shall be conducted in accordance with rules and

regulations of the Department of Public Health, and by individuals whom
the Department of Public Health has certified. In these rules and
regulations, the Department of Public Health shall require that individuals
conducting vision screening tests give a child's parent or guardian written
notification, before the vision screening is conducted, that states, "Vision
screening is not a substitute for a complete eye and vision evaluation by an
eye doctor. Your child is not required to undergo this vision screening if
an optometrist or ophthalmologist has completed and signed a report form
indicating that an examination has been administered within the previous
12 months."

(2.5) With respect to the developmental screening and the social
and emotional screening portion of the health examination, each child may
present proof of having been screened in accordance with this Section and
the rules adopted under this Section before October 15th of the school
year. With regard to the social and emotional screening only, the
examining health care provider shall only record whether or not the
screening was completed. If the child fails to present proof of the
developmental screening or the social and emotional screening portions of
the health examination by October 15th of the school year, qualified
school support personnel may, with a parent's or guardian's consent, offer
the developmental screening or the social and emotional screening to the
child. Each public, private, and parochial school must give notice of the
developmental screening and social and emotional screening requirements
to the parents and guardians of students in compliance with the rules of the
Department of Public Health. Nothing in this Section shall be construed to
allow a school to exclude a child from attending because of a parent's or
guardian's failure to obtain a developmental screening or a social and
emotional screening for the child. Once a developmental screening or a
social and emotional screening is completed and proof has been presented
to the school, the school may, with a parent's or guardian's consent, make
available appropriate school personnel to work with the parent or
guardian, the child, and the provider who signed the screening form to
obtain any appropriate evaluations and services as indicated on the form
and in other information and documentation provided by the parents,
guardians, or provider.

(3) Every child shall, at or about the same time as he or she
receives a health examination required by subsection (1) of this Section,
present to the local school proof of having received such immunizations
against preventable communicable diseases as the Department of Public

New matter indicated by italics - deletions by strikeout
Health shall require by rules and regulations promulgated pursuant to this Section and the Communicable Disease Prevention Act.

(4) The individuals conducting the health examination, dental examination, or eye examination shall record the fact of having conducted the examination, and such additional information as required, including for a health examination data relating to obesity (including at a minimum, date of birth, gender, height, weight, blood pressure, and date of exam), on uniform forms which the Department of Public Health and the State Board of Education shall prescribe for statewide use. The examiner shall summarize on the report form any condition that he or she suspects indicates a need for special services, including for a health examination factors relating to obesity. The duty to summarize on the report form does not apply to social and emotional screenings. The confidentiality of the information and records relating to the developmental screening and the social and emotional screening shall be determined by the statutes, rules, and professional ethics governing the type of provider conducting the screening. The individuals confirming the administration of required immunizations shall record as indicated on the form that the immunizations were administered.

(5) If a child does not submit proof of having had either the health examination or the immunization as required, then the child shall be examined or receive the immunization, as the case may be, and present proof by October 15 of the current school year, or by an earlier date of the current school year established by a school district. To establish a date before October 15 of the current school year for the health examination or immunization as required, a school district must give notice of the requirements of this Section 60 days prior to the earlier established date. If for medical reasons one or more of the required immunizations must be given after October 15 of the current school year, or after an earlier established date of the current school year, then the child shall present, by October 15, or by the earlier established date, a schedule for the administration of the immunizations and a statement of the medical reasons causing the delay, both the schedule and the statement being issued by the physician, advanced practice nurse, physician assistant, registered nurse, or local health department that will be responsible for administration of the remaining required immunizations. If a child does not comply by October 15, or by the earlier established date of the current school year, with the requirements of this subsection, then the local school authority shall exclude that child from school until such time as the child

presents proof of having had the health examination as required and
presents proof of having received those required immunizations which are
medically possible to receive immediately. During a child's exclusion from
school for noncompliance with this subsection, the child's parents or legal
guardian shall be considered in violation of Section 26-1 and subject to
any penalty imposed by Section 26-10. This subsection (5) does not apply
to dental examinations, eye examinations, and the developmental
screening and the social and emotional screening portions of the health
examination. If the student is an out-of-state transfer student and does not
have the proof required under this subsection (5) before October 15 of the
current year or whatever date is set by the school district, then he or she
may only attend classes (i) if he or she has proof that an appointment for
the required vaccinations has been scheduled with a party authorized to
submit proof of the required vaccinations. If the proof of vaccination
required under this subsection (5) is not submitted within 30 days after the
student is permitted to attend classes, then the student is not to be
permitted to attend classes until proof of the vaccinations has been
properly submitted. No school district or employee of a school district
shall be held liable for any injury or illness to another person that results
from admitting an out-of-state transfer student to class that has an
appointment scheduled pursuant to this subsection (5).

(6) Every school shall report to the State Board of Education by
November 15, in the manner which that agency shall require, the number
of children who have received the necessary immunizations and the health
examination (other than a dental examination or eye examination) as
required, indicating, of those who have not received the immunizations
and examination as required, the number of children who are exempt from
health examination and immunization requirements on religious or
medical grounds as provided in subsection (8). On or before December 1
of each year, every public school district and registered nonpublic school
shall make publicly available the immunization data they are required to
submit to the State Board of Education by November 15. The
immunization data made publicly available must be identical to the data
the school district or school has reported to the State Board of Education.

Every school shall report to the State Board of Education by June
30, in the manner that the State Board requires, the number of children
who have received the required dental examination, indicating, of those
who have not received the required dental examination, the number of
children who are exempt from the dental examination on religious grounds

as provided in subsection (8) of this Section and the number of children who have received a waiver under subsection (1.5) of this Section.

Every school shall report to the State Board of Education by June 30, in the manner that the State Board requires, the number of children who have received the required eye examination, indicating, of those who have not received the required eye examination, the number of children who are exempt from the eye examination as provided in subsection (8) of this Section, the number of children who have received a waiver under subsection (1.10) of this Section, and the total number of children in noncompliance with the eye examination requirement.

The reported information under this subsection (6) shall be provided to the Department of Public Health by the State Board of Education.

(7) Upon determining that the number of pupils who are required to be in compliance with subsection (5) of this Section is below 90% of the number of pupils enrolled in the school district, 10% of each State aid payment made pursuant to Section 18-8.05 or 18-8.15 to the school district for such year may be withheld by the State Board of Education until the number of students in compliance with subsection (5) is the applicable specified percentage or higher.

(8) Children of parents or legal guardians who object to health, dental, or eye examinations or any part thereof, to immunizations, or to vision and hearing screening tests on religious grounds shall not be required to undergo the examinations, tests, or immunizations to which they so object if such parents or legal guardians present to the appropriate local school authority a signed Certificate of Religious Exemption detailing the grounds for objection and the specific immunizations, tests, or examinations to which they object. The grounds for objection must set forth the specific religious belief that conflicts with the examination, test, immunization, or other medical intervention. The signed certificate shall also reflect the parent's or legal guardian's understanding of the school's exclusion policies in the case of a vaccine-preventable disease outbreak or exposure. The certificate must also be signed by the authorized examining health care provider responsible for the performance of the child's health examination confirming that the provider provided education to the parent or legal guardian on the benefits of immunization and the health risks to the student and to the community of the communicable diseases for which immunization is required in this State. However, the health care provider's signature on the certificate reflects only that education was provided and

does not allow a health care provider grounds to determine a religious exemption. Those receiving immunizations required under this Code shall be provided with the relevant vaccine information statements that are required to be disseminated by the federal National Childhood Vaccine Injury Act of 1986, which may contain information on circumstances when a vaccine should not be administered, prior to administering a vaccine. A healthcare provider may consider including without limitation the nationally accepted recommendations from federal agencies such as the Advisory Committee on Immunization Practices, the information outlined in the relevant vaccine information statement, and vaccine package inserts, along with the healthcare provider's clinical judgment, to determine whether any child may be more susceptible to experiencing an adverse vaccine reaction than the general population, and, if so, the healthcare provider may exempt the child from an immunization or adopt an individualized immunization schedule. The Certificate of Religious Exemption shall be created by the Department of Public Health and shall be made available and used by parents and legal guardians by the beginning of the 2015-2016 school year. Parents or legal guardians must submit the Certificate of Religious Exemption to their local school authority prior to entering kindergarten, sixth grade, and ninth grade for each child for which they are requesting an exemption. The religious objection stated need not be directed by the tenets of an established religious organization. However, general philosophical or moral reluctance to allow physical examinations, eye examinations, immunizations, vision and hearing screenings, or dental examinations does not provide a sufficient basis for an exception to statutory requirements. The local school authority is responsible for determining if the content of the Certificate of Religious Exemption constitutes a valid religious objection. The local school authority shall inform the parent or legal guardian of exclusion procedures, in accordance with the Department's rules under Part 690 of Title 77 of the Illinois Administrative Code, at the time the objection is presented.

If the physical condition of the child is such that any one or more of the immunizing agents should not be administered, the examining physician, advanced practice nurse, or physician assistant responsible for the performance of the health examination shall endorse that fact upon the health examination form.

New matter indicated by italics - deletions by strikeout
Exempting a child from the health, dental, or eye examination does not exempt the child from participation in the program of physical education training provided in Sections 27-5 through 27-7 of this Code.

Sec. 27-24.2. Safety education; driver education course. Instruction shall be given in safety education in each of grades one through 8, equivalent to one class period each week, and any school district which maintains grades 9 through 12 shall offer a driver education course in any such school which it operates. Its curriculum shall include content dealing with Chapters 11, 12, 13, 15, and 16 of the Illinois Vehicle Code, the rules adopted pursuant to those Chapters insofar as they pertain to the operation of motor vehicles, and the portions of the Litter Control Act relating to the operation of motor vehicles. The course of instruction given in grades 10 through 12 shall include an emphasis on the development of knowledge, attitudes, habits, and skills necessary for the safe operation of motor vehicles, including motorcycles insofar as they can be taught in the classroom, and instruction on distracted driving as a major traffic safety issue. In addition, the course shall include instruction on special hazards existing at and required safety and driving precautions that must be observed at emergency situations, highway construction and maintenance zones, and railroad crossings and the approaches thereto. Beginning with the 2017-2018 school year, the course shall also include instruction concerning law enforcement procedures for traffic stops, including a demonstration of the proper actions to be taken during a traffic stop and appropriate interactions with law enforcement. The course of instruction required of each eligible student at the high school level shall consist of a minimum of 30 clock hours of classroom instruction and a minimum of 6 clock hours of individual behind-the-wheel instruction in a dual control car on public roadways taught by a driver education instructor endorsed by the State Board of Education. Both the classroom instruction part and the practice driving part of such driver education course shall be open to a resident or non-resident student attending a non-public school in the district wherein the course is offered. Each student attending any public or non-public high school in the district must receive a passing grade in at

least 8 courses during the previous 2 semesters prior to enrolling in a driver education course, or the student shall not be permitted to enroll in the course; provided that the local superintendent of schools (with respect to a student attending a public high school in the district) or chief school administrator (with respect to a student attending a non-public high school in the district) may waive the requirement if the superintendent or chief school administrator, as the case may be, deems it to be in the best interest of the student. A student may be allowed to commence the classroom instruction part of such driver education course prior to reaching age 15 if such student then will be eligible to complete the entire course within 12 months after being allowed to commence such classroom instruction.

A school district may offer a driver education course in a school by contracting with a commercial driver training school to provide both the classroom instruction part and the practice driving part or either one without having to request a modification or waiver of administrative rules of the State Board of Education if the school district approves the action during a public hearing on whether to enter into a contract with a commercial driver training school. The public hearing shall be held at a regular or special school board meeting prior to entering into such a contract. If a school district chooses to approve a contract with a commercial driver training school, then the district must provide evidence to the State Board of Education that the commercial driver training school with which it will contract holds a license issued by the Secretary of State under Article IV of Chapter 6 of the Illinois Vehicle Code and that each instructor employed by the commercial driver training school to provide instruction to students served by the school district holds a valid teaching license issued under the requirements of this Code and rules of the State Board of Education. Such evidence must include, but need not be limited to, a list of each instructor assigned to teach students served by the school district, which list shall include the instructor's name, personal identification number as required by the State Board of Education, birth date, and driver's license number. Once the contract is entered into, the school district shall notify the State Board of Education of any changes in the personnel providing instruction either (i) within 15 calendar days after an instructor leaves the program or (ii) before a new instructor is hired. Such notification shall include the instructor's name, personal identification number as required by the State Board of Education, birth date, and driver's license number. If the school district maintains an Internet website, then the district shall post a copy of the final contract

between the district and the commercial driver training school on the district's Internet website. If no Internet website exists, then the school district shall make available the contract upon request. A record of all materials in relation to the contract must be maintained by the school district and made available to parents and guardians upon request. The instructor's date of birth and driver's license number and any other personally identifying information as deemed by the federal Driver's Privacy Protection Act of 1994 must be redacted from any public materials.

Such a course may be commenced immediately after the completion of a prior course. Teachers of such courses shall meet the licensure certification requirements of this Code Act and regulations of the State Board as to qualifications.

Subject to rules of the State Board of Education, the school district may charge a reasonable fee, not to exceed $50, to students who participate in the course, unless a student is unable to pay for such a course, in which event the fee for such a student must be waived. However, the district may increase this fee to an amount not to exceed $250 by school board resolution following a public hearing on the increase, which increased fee must be waived for students who participate in the course and are unable to pay for the course. The total amount from driver education fees and reimbursement from the State for driver education must not exceed the total cost of the driver education program in any year and must be deposited into the school district's driver education fund as a separate line item budget entry. All moneys deposited into the school district's driver education fund must be used solely for the funding of a high school driver education program approved by the State Board of Education that uses driver education instructors endorsed by the State Board of Education.

Sec. 27A-9. Term of charter; renewal.

(a) For charters granted before January 1, 2017 (the effective date of Public Act 99-840) this amendatory Act of the 99th General Assembly, a charter may be granted for a period not less than 5 and not more than 10 school years. For charters granted on or after January 1, 2017 (the effective date of Public Act 99-840) this amendatory Act of the 99th General Assembly, a charter shall be granted for a period of 5 school years. For charters renewed before January 1, 2017 (the effective date of

Public Act 99-840) this amendatory Act of the 99th General Assembly, a charter may be renewed in incremental periods not to exceed 5 school years. For charters renewed on or after January 1, 2017 (the effective date of Public Act 99-840) this amendatory Act of the 99th General Assembly, a charter may be renewed in incremental periods not to exceed 10 school years; however, the Commission may renew a charter only in incremental periods not to exceed 5 years. Authorizers shall ensure that every charter granted on or after January 1, 2017 (the effective date of Public Act 99-840) this amendatory Act of the 99th General Assembly includes standards and goals for academic, organizational, and financial performance. A charter must meet all standards and goals for academic, organizational, and financial performance set forth by the authorizer in order to be renewed for a term in excess of 5 years but not more than 10 years. If an authorizer fails to establish standards and goals, a charter shall not be renewed for a term in excess of 5 years. Nothing contained in this Section shall require an authorizer to grant a full 10-year renewal term to any particular charter school, but an authorizer may award a full 10-year renewal term to charter schools that have a demonstrated track record of improving student performance.

(b) A charter school renewal proposal submitted to the local school board or the Commission, as the chartering entity, shall contain:

(1) A report on the progress of the charter school in achieving the goals, objectives, pupil performance standards, content standards, and other terms of the initial approved charter proposal; and

(2) A financial statement that discloses the costs of administration, instruction, and other spending categories for the charter school that is understandable to the general public and that will allow comparison of those costs to other schools or other comparable organizations, in a format required by the State Board.

(c) A charter may be revoked or not renewed if the local school board or the Commission, as the chartering entity, clearly demonstrates that the charter school did any of the following, or otherwise failed to comply with the requirements of this law:

(1) Committed a material violation of any of the conditions, standards, or procedures set forth in the charter.

(2) Failed to meet or make reasonable progress toward achievement of the content standards or pupil performance standards identified in the charter.
(3) Failed to meet generally accepted standards of fiscal management.

(4) Violated any provision of law from which the charter school was not exempted.

In the case of revocation, the local school board or the Commission, as the chartering entity, shall notify the charter school in writing of the reason why the charter is subject to revocation. The charter school shall submit a written plan to the local school board or the Commission, whichever is applicable, to rectify the problem. The plan shall include a timeline for implementation, which shall not exceed 2 years or the date of the charter's expiration, whichever is earlier. If the local school board or the Commission, as the chartering entity, finds that the charter school has failed to implement the plan of remediation and adhere to the timeline, then the chartering entity shall revoke the charter. Except in situations of an emergency where the health, safety, or education of the charter school's students is at risk, the revocation shall take place at the end of a school year. Nothing in Public Act 96-105 this amendatory Act of the 96th General Assembly shall be construed to prohibit an implementation timetable that is less than 2 years in duration.

(d) (Blank).

(e) Notice of a local school board's decision to deny, revoke, or not to renew a charter shall be provided to the Commission and the State Board. The Commission may reverse a local board's decision if the Commission finds that the charter school or charter school proposal (i) is in compliance with this Article, and (ii) is in the best interests of the students it is designed to serve. The Commission may condition the granting of an appeal on the acceptance by the charter school of funding in an amount less than that requested in the proposal submitted to the local school board. Final decisions of the Commission shall be subject to judicial review under the Administrative Review Law.

(f) Notwithstanding other provisions of this Article, if the Commission on appeal reverses a local board's decision or if a charter school is approved by referendum, the Commission shall act as the authorized chartering entity for the charter school. The Commission shall approve the charter and shall perform all functions under this Article otherwise performed by the local school board. The State Board shall determine whether the charter proposal approved by the Commission is consistent with the provisions of this Article and, if the approved proposal complies, certify the proposal pursuant to this Article. The State Board

shall report the aggregate number of charter school pupils resident in a school district to that district and shall notify the district of the amount of funding to be paid by the State Board to the charter school enrolling such students. The Commission shall require the charter school to maintain accurate records of daily attendance that shall be deemed sufficient to file claims under Section 18-8.05 or 18-8.15 notwithstanding any other requirements of that Section regarding hours of instruction and teacher certification. The State Board shall withhold from funds otherwise due the district the funds authorized by this Article to be paid to the charter school and shall pay such amounts to the charter school.

(g) For charter schools authorized by the Commission, the Commission shall quarterly certify to the State Board the student enrollment for each of its charter schools.

(h) For charter schools authorized by the Commission, the State Board shall pay directly to a charter school any federal or State aid attributable to a student with a disability attending the school.

Sec. 27A-11. Local financing.

(a) For purposes of the School Code, pupils enrolled in a charter school shall be included in the pupil enrollment of the school district within which the pupil resides. Each charter school (i) shall determine the school district in which each pupil who is enrolled in the charter school resides, (ii) shall report the aggregate number of pupils resident of a school district who are enrolled in the charter school to the school district in which those pupils reside, and (iii) shall maintain accurate records of daily attendance that shall be deemed sufficient to file claims under Section 18-8 or 18-8.15 notwithstanding any other requirements of that Section regarding hours of instruction and teacher certification.

(b) Except for a charter school established by referendum under Section 27A-6.5, as part of a charter school contract, the charter school and the local school board shall agree on funding and any services to be provided by the school district to the charter school. Agreed funding that a charter school is to receive from the local school board for a school year shall be paid in equal quarterly installments with the payment of the installment for the first quarter being made not later than July 1, unless the charter establishes a different payment schedule. However, if a charter school dismisses a pupil from the charter school after receiving a quarterly payment, the charter school shall return to the school district, on a
quarterly basis, the prorated portion of public funding provided for the education of that pupil for the time the student is not enrolled at the charter school. Likewise, if a pupil transfers to a charter school between quarterly payments, the school district shall provide, on a quarterly basis, a prorated portion of the public funding to the charter school to provide for the education of that pupil.

All services centrally or otherwise provided by the school district including, but not limited to, rent, food services, custodial services, maintenance, curriculum, media services, libraries, transportation, and warehousing shall be subject to negotiation between a charter school and the local school board and paid for out of the revenues negotiated pursuant to this subsection (b); provided that the local school board shall not attempt, by negotiation or otherwise, to obligate a charter school to provide pupil transportation for pupils for whom a district is not required to provide transportation under the criteria set forth in subsection (a)(13) of Section 27A-7.

In no event shall the funding be less than 97% or more than 103% of the school district's per capita student tuition multiplied by the number of students residing in the district who are enrolled in the charter school.

It is the intent of the General Assembly that funding and service agreements under this subsection (b) shall be neither a financial incentive nor a financial disincentive to the establishment of a charter school.

The charter school may set and collect reasonable fees. Fees collected from students enrolled at a charter school shall be retained by the charter school.

(c) Notwithstanding subsection (b) of this Section, the proportionate share of State and federal resources generated by students with disabilities or staff serving them shall be directed to charter schools enrolling those students by their school districts or administrative units. The proportionate share of moneys generated under other federal or State categorical aid programs shall be directed to charter schools serving students eligible for that aid.

(d) The governing body of a charter school is authorized to accept gifts, donations, or grants of any kind made to the charter school and to expend or use gifts, donations, or grants in accordance with the conditions prescribed by the donor; however, a gift, donation, or grant may not be accepted by the governing body if it is subject to any condition contrary to applicable law or contrary to the terms of the contract between the charter

school and the local school board. Charter schools shall be encouraged to solicit and utilize community volunteer speakers and other instructional resources when providing instruction on the Holocaust and other historical events.

(e) (Blank).

(f) The Commission shall provide technical assistance to persons and groups preparing or revising charter applications.

(g) At the non-renewal or revocation of its charter, each charter school shall refund to the local board of education all unspent funds.

(h) A charter school is authorized to incur temporary, short term debt to pay operating expenses in anticipation of receipt of funds from the local school board.

(105 ILCS 5/29-5) (from Ch. 122, par. 29-5)

Sec. 29-5. Reimbursement by State for transportation. Any school district, maintaining a school, transporting resident pupils to another school district's vocational program, offered through a joint agreement approved by the State Board of Education, as provided in Section 10-22.22 or transporting its resident pupils to a school which meets the standards for recognition as established by the State Board of Education which provides transportation meeting the standards of safety, comfort, convenience, efficiency and operation prescribed by the State Board of Education for resident pupils in kindergarten or any of grades 1 through 12 who: (a) reside at least 1 1/2 miles as measured by the customary route of travel, from the school attended; or (b) reside in areas where conditions are such that walking constitutes a hazard to the safety of the child when determined under Section 29-3; and (c) are transported to the school attended from pick-up points at the beginning of the school day and back again at the close of the school day or transported to and from their assigned attendance centers during the school day, shall be reimbursed by the State as hereinafter provided in this Section.

The State will pay the cost of transporting eligible pupils less the prior year assessed valuation in a dual school district maintaining secondary grades 9 to 12 inclusive times a qualifying rate of .05%; in elementary school districts maintaining grades K to 8 times a qualifying rate of .06%; and in unit districts maintaining grades K to 12, including optional elementary unit districts and combined high school - unit districts, times a qualifying rate of .07%; provided that for optional elementary unit

districts and combined high school - unit districts, prior year assessed valuation for high school purposes, as defined in Article 11E of this Code, must be used. To be eligible to receive reimbursement in excess of 4/5 of the cost to transport eligible pupils, a school district shall have a Transportation Fund tax rate of at least .12%. If a school district does not have a .12% Transportation Fund tax rate, the amount of its claim in excess of 4/5 of the cost of transporting pupils shall be reduced by the sum arrived at by subtracting the Transportation Fund tax rate from .12% and multiplying that amount by the district's prior year districts equalized or assessed valuation, provided, that in no case shall said reduction result in reimbursement of less than 4/5 of the cost to transport eligible pupils.

The minimum amount to be received by a district is $16 times the number of eligible pupils transported.

When calculating the reimbursement for transportation costs, the State Board of Education may not deduct the number of pupils enrolled in early education programs from the number of pupils eligible for reimbursement if the pupils enrolled in the early education programs are transported at the same time as other eligible pupils.

Any such district transporting resident pupils during the school day to an area vocational school or another school district's vocational program more than 1 1/2 miles from the school attended, as provided in Sections 10-22.20a and 10-22.22, shall be reimbursed by the State for 4/5 of the cost of transporting eligible pupils.

School day means that period of time which the pupil is required to be in attendance for instructional purposes.

If a pupil is at a location within the school district other than his residence for child care purposes at the time for transportation to school, that location may be considered for purposes of determining the 1 1/2 miles from the school attended.

Claims for reimbursement that include children who attend any school other than a public school shall show the number of such children transported.

Claims for reimbursement under this Section shall not be paid for the transportation of pupils for whom transportation costs are claimed for payment under other Sections of this Act.

The allowable direct cost of transporting pupils for regular, vocational, and special education pupil transportation shall be limited to the sum of the cost of physical examinations required for employment as a school bus driver; the salaries of full or part-time drivers and school bus

maintenance personnel; employee benefits excluding Illinois municipal retirement payments, social security payments, unemployment insurance payments and workers' compensation insurance premiums; expenditures to independent carriers who operate school buses; payments to other school districts for pupil transportation services; pre-approved contractual expenditures for computerized bus scheduling; the cost of gasoline, oil, tires, and other supplies necessary for the operation of school buses; the cost of converting buses' gasoline engines to more fuel efficient engines or to engines which use alternative energy sources; the cost of travel to meetings and workshops conducted by the regional superintendent or the State Superintendent of Education pursuant to the standards established by the Secretary of State under Section 6-106 of the Illinois Vehicle Code to improve the driving skills of school bus drivers; the cost of maintenance of school buses including parts and materials used; expenditures for leasing transportation vehicles, except interest and service charges; the cost of insurance and licenses for transportation vehicles; expenditures for the rental of transportation equipment; plus a depreciation allowance of 20% for 5 years for school buses and vehicles approved for transporting pupils to and from school and a depreciation allowance of 10% for 10 years for other transportation equipment so used. Each school year, if a school district has made expenditures to the Regional Transportation Authority or any of its service boards, a mass transit district, or an urban transportation district under an intergovernmental agreement with the district to provide for the transportation of pupils and if the public transit carrier received direct payment for services or passes from a school district within its service area during the 2000-2001 school year, then the allowable direct cost of transporting pupils for regular, vocational, and special education pupil transportation shall also include the expenditures that the district has made to the public transit carrier. In addition to the above allowable costs school districts shall also claim all transportation supervisory salary costs, including Illinois municipal retirement payments, and all transportation related building and building maintenance costs without limitation.

Special education allowable costs shall also include expenditures for the salaries of attendants or aides for that portion of the time they assist special education pupils while in transit and expenditures for parents and public carriers for transporting special education pupils when pre-approved by the State Superintendent of Education.

Indirect costs shall be included in the reimbursement claim for districts which own and operate their own school buses. Such indirect
costs shall include administrative costs, or any costs attributable to transporting pupils from their attendance centers to another school building for instructional purposes. No school district which owns and operates its own school buses may claim reimbursement for indirect costs which exceed 5% of the total allowable direct costs for pupil transportation.

The State Board of Education shall prescribe uniform regulations for determining the above standards and shall prescribe forms of cost accounting and standards of determining reasonable depreciation. Such depreciation shall include the cost of equipping school buses with the safety features required by law or by the rules, regulations and standards promulgated by the State Board of Education, and the Department of Transportation for the safety and construction of school buses provided, however, any equipment cost reimbursed by the Department of Transportation for equipping school buses with such safety equipment shall be deducted from the allowable cost in the computation of reimbursement under this Section in the same percentage as the cost of the equipment is depreciated.

On or before August 15, annually, the chief school administrator for the district shall certify to the State Superintendent of Education the district's claim for reimbursement for the school year ending on June 30 next preceding. The State Superintendent of Education shall check and approve the claims and prepare the vouchers showing the amounts due for district reimbursement claims. Each fiscal year, the State Superintendent of Education shall prepare and transmit the first 3 vouchers to the Comptroller on the 30th day of September, December and March, respectively, and the final voucher, no later than June 20.

If the amount appropriated for transportation reimbursement is insufficient to fund total claims for any fiscal year, the State Board of Education shall reduce each school district's allowable costs and flat grant amount proportionately to make total adjusted claims equal the total amount appropriated.

For purposes of calculating claims for reimbursement under this Section for any school year beginning July 1, 1998, or thereafter, the equalized assessed valuation for a school district used to compute reimbursement shall be computed in the same manner as it is computed under paragraph (2) of subsection (G) of Section 18-8.05.

All reimbursements received from the State shall be deposited into the district's transportation fund or into the fund from which the allowable expenditures were made.

Notwithstanding any other provision of law, any school district receiving a payment under this Section or under Section 14-7.02, 14-7.02b, or 14-13.01 of this Code may classify all or a portion of the funds that it receives in a particular fiscal year or from general State aid pursuant to Section 18-8.05 of this Code as funds received in connection with any funding program for which it is entitled to receive funds from the State in that fiscal year (including, without limitation, any funding program referenced in this Section), regardless of the source or timing of the receipt. The district may not classify more funds as funds received in connection with the funding program than the district is entitled to receive in that fiscal year for that program. Any classification by a district must be made by a resolution of its board of education. The resolution must identify the amount of any payments or general State aid to be classified under this paragraph and must specify the funding program to which the funds are to be treated as received in connection therewith. This resolution is controlling as to the classification of funds referenced therein. A certified copy of the resolution must be sent to the State Superintendent of Education. The resolution shall still take effect even though a copy of the resolution has not been sent to the State Superintendent of Education in a timely manner. No classification under this paragraph by a district shall affect the total amount or timing of money the district is entitled to receive under this Code. No classification under this paragraph by a district shall in any way relieve the district from or affect any requirements that otherwise would apply with respect to that funding program, including any accounting of funds by source, reporting expenditures by original source and purpose, reporting requirements, or requirements of providing services.

Any school district with a population of not more than 500,000 must deposit all funds received under this Article into the transportation fund and use those funds for the provision of transportation services.

1. (A) To annually evaluate the performance of the principal of the attendance center using a Board approved principal evaluation form, which shall include the evaluation of (i) student academic improvement, as defined by the school improvement plan, (ii) student absenteeism rates at the school, (iii) instructional leadership, (iv) the effective implementation of programs, policies, or strategies to improve student academic achievement, (v) school management, and (vi) any other factors deemed relevant by the local school council, including, without limitation, the principal's communication skills and ability to create and maintain a student-centered learning environment, to develop opportunities for professional development, and to encourage parental involvement and community partnerships to achieve school improvement;

(B) to determine in the manner provided by subsection (c) of Section 34-2.2 and subdivision 1.5 of this Section whether the performance contract of the principal shall be renewed; and

(C) to directly select, in the manner provided by subsection (c) of Section 34-2.2, a new principal (including a new principal to fill a vacancy) -- without submitting any list of candidates for that position to the general superintendent as provided in paragraph 2 of this Section -- to serve under a 4 year performance contract; provided that (i) the determination of whether the principal's performance contract is to be renewed, based upon the evaluation required by subdivision 1.5 of this Section, shall be made no later than 150 days prior to the expiration of the current performance-based contract of the principal, (ii) in cases where such performance contract is not renewed -- a direct selection of a new principal -- to serve under a 4 year performance contract shall be made by the local school council no later than 45 days prior to the expiration of the current performance contract of the principal, and (iii) a selection by the local school council of a new principal to fill a vacancy under a 4 year performance contract shall be made within 90 days after the date such vacancy occurs. A Council shall be required, if requested by the principal, to provide in writing the reasons for the council's not renewing the principal's contract.

1.5. The local school council's determination of whether to renew the principal's contract shall be based on an evaluation to assess the educational and administrative progress made at the school during the principal's current performance-based contract. The local school council shall base its evaluation on (i) student academic improvement, as defined by the school improvement plan, (ii) student absenteeism rates at the

school, (iii) instructional leadership, (iv) the effective implementation of programs, policies, or strategies to improve student academic achievement, (v) school management, and (vi) any other factors deemed relevant by the local school council, including, without limitation, the principal's communication skills and ability to create and maintain a student-centered learning environment, to develop opportunities for professional development, and to encourage parental involvement and community partnerships to achieve school improvement. If a local school council fails to renew the performance contract of a principal rated by the general superintendent, or his or her designee, in the previous years' evaluations as meeting or exceeding expectations, the principal, within 15 days after the local school council's decision not to renew the contract, may request a review of the local school council's principal non-retention decision by a hearing officer appointed by the American Arbitration Association. A local school council member or members or the general superintendent may support the principal's request for review. During the period of the hearing officer's review of the local school council's decision on whether or not to retain the principal, the local school council shall maintain all authority to search for and contract with a person to serve as interim or acting principal, or as the principal of the attendance center under a 4-year performance contract, provided that any performance contract entered into by the local school council shall be voidable or modified in accordance with the decision of the hearing officer. The principal may request review only once while at that attendance center. If a local school council renews the contract of a principal who failed to obtain a rating of "meets" or "exceeds expectations" in the general superintendent's evaluation for the previous year, the general superintendent, within 15 days after the local school council's decision to renew the contract, may request a review of the local school council's principal retention decision by a hearing officer appointed by the American Arbitration Association. The general superintendent may request a review only once for that principal at that attendance center. All requests to review the retention or non-retention of a principal shall be submitted to the general superintendent, who shall, in turn, forward such requests, within 14 days of receipt, to the American Arbitration Association. The general superintendent shall send a contemporaneous copy of the request that was forwarded to the American Arbitration Association to the principal and to each local school council member and shall inform the local school council of its rights and responsibilities under

the arbitration process, including the local school council's right to representation and the manner and process by which the Board shall pay the costs of the council's representation. If the local school council retains the principal and the general superintendent requests a review of the retention decision, the local school council and the general superintendent shall be considered parties to the arbitration, a hearing officer shall be chosen between those 2 parties pursuant to procedures promulgated by the State Board of Education, and the principal may retain counsel and participate in the arbitration. If the local school council does not retain the principal and the general superintendent requests a review of the retention decision, the local school council and the principal shall be considered parties to the arbitration and a hearing officer shall be chosen between those 2 parties pursuant to procedures promulgated by the State Board of Education. The hearing shall begin (i) within 45 days after the initial request for review is submitted by the principal to the general superintendent or (ii) if the initial request for review is made by the general superintendent, within 45 days after that request is mailed to the American Arbitration Association. The hearing officer shall render a decision within 45 days after the hearing begins and within 90 days after the initial request for review. The Board shall contract with the American Arbitration Association for all of the hearing officer's reasonable and necessary costs. In addition, the Board shall pay any reasonable costs incurred by a local school council for representation before a hearing officer.

1.10. The hearing officer shall conduct a hearing, which shall include (i) a review of the principal's performance, evaluations, and other evidence of the principal's service at the school, (ii) reasons provided by the local school council for its decision, and (iii) documentation evidencing views of interested persons, including, without limitation, students, parents, local school council members, school faculty and staff, the principal, the general superintendent or his or her designee, and members of the community. The burden of proof in establishing that the local school council's decision was arbitrary and capricious shall be on the party requesting the arbitration, and this party shall sustain the burden by a preponderance of the evidence. The hearing officer shall set the local school council decision aside if that decision, in light of the record developed at the hearing, is arbitrary and capricious. The decision of the hearing officer may not be appealed to the Board or the State Board of Education. If the hearing officer decides that the principal shall be retained, the retention period shall not exceed 2 years.

2. In the event (i) the local school council does not renew the performance contract of the principal, or the principal fails to receive a satisfactory rating as provided in subsection (h) of Section 34-8.3, or the principal is removed for cause during the term of his or her performance contract in the manner provided by Section 34-85, or a vacancy in the position of principal otherwise occurs prior to the expiration of the term of a principal's performance contract, and (ii) the local school council fails to directly select a new principal to serve under a 4 year performance contract, the local school council in such event shall submit to the general superintendent a list of 3 candidates -- listed in the local school council's order of preference -- for the position of principal, one of which shall be selected by the general superintendent to serve as principal of the attendance center. If the general superintendent fails or refuses to select one of the candidates on the list to serve as principal within 30 days after being furnished with the candidate list, the general superintendent shall select and place a principal on an interim basis (i) for a period not to exceed one year or (ii) until the local school council selects a new principal with 7 affirmative votes as provided in subsection (c) of Section 34-2.2, whichever occurs first. If the local school council fails or refuses to select and appoint a new principal, as specified by subsection (c) of Section 34-2.2, the general superintendent may select and appoint a new principal on an interim basis for an additional year or until a new contract principal is selected by the local school council. There shall be no discrimination on the basis of race, sex, creed, color or disability unrelated to ability to perform in connection with the submission of candidates for, and the selection of a candidate to serve as principal of an attendance center. No person shall be directly selected, listed as a candidate for, or selected to serve as principal of an attendance center (i) if such person has been removed for cause from employment by the Board or (ii) if such person does not hold a valid administrative certificate issued or exchanged under Article 21 and endorsed as required by that Article for the position of principal. A principal whose performance contract is not renewed as provided under subsection (c) of Section 34-2.2 may nevertheless, if otherwise qualified and certified as herein provided and if he or she has received a satisfactory rating as provided in subsection (h) of Section 34-8.3, be included by a local school council as one of the 3 candidates listed in order of preference on any candidate list from which one person is to be selected to serve as principal of the attendance center under a new performance contract. The initial candidate list required to be submitted by

a local school council to the general superintendent in cases where the local school council does not renew the performance contract of its principal and does not directly select a new principal to serve under a 4 year performance contract shall be submitted not later than 30 days prior to the expiration of the current performance contract. In cases where the local school council fails or refuses to submit the candidate list to the general superintendent no later than 30 days prior to the expiration of the incumbent principal's contract, the general superintendent may appoint a principal on an interim basis for a period not to exceed one year, during which time the local school council shall be able to select a new principal with 7 affirmative votes as provided in subsection (c) of Section 34-2.2. In cases where a principal is removed for cause or a vacancy otherwise occurs in the position of principal and the vacancy is not filled by direct selection by the local school council, the candidate list shall be submitted by the local school council to the general superintendent within 90 days after the date such removal or vacancy occurs. In cases where the local school council fails or refuses to submit the candidate list to the general superintendent within 90 days after the date of the vacancy, the general superintendent may appoint a principal on an interim basis for a period of one year, during which time the local school council shall be able to select a new principal with 7 affirmative votes as provided in subsection (c) of Section 34-2.2.

2.5. Whenever a vacancy in the office of a principal occurs for any reason, the vacancy shall be filled in the manner provided by this Section by the selection of a new principal to serve under a 4 year performance contract.

3. To establish additional criteria to be included as part of the performance contract of its principal, provided that such additional criteria shall not discriminate on the basis of race, sex, creed, color or disability unrelated to ability to perform, and shall not be inconsistent with the uniform 4 year performance contract for principals developed by the board as provided in Section 34-8.1 of the School Code or with other provisions of this Article governing the authority and responsibility of principals.

4. To approve the expenditure plan prepared by the principal with respect to all funds allocated and distributed to the attendance center by the Board. The expenditure plan shall be administered by the principal. Notwithstanding any other provision of this Act or any other law, any expenditure plan approved and administered under this Section 34-2.3 shall be consistent with and subject to the terms of any contract for

services with a third party entered into by the Chicago School Reform Board of Trustees or the board under this Act.

Via a supermajority vote of 7 members of the local school council or 8 members of a high school local school council, the Council may transfer allocations pursuant to Section 34-2.3 within funds; provided that such a transfer is consistent with applicable law and collective bargaining agreements.

Beginning in fiscal year 1991 and in each fiscal year thereafter, the Board may reserve up to 1% of its total fiscal year budget for distribution on a prioritized basis to schools throughout the school system in order to assure adequate programs to meet the needs of special student populations as determined by the Board. This distribution shall take into account the needs catalogued in the Systemwide Plan and the various local school improvement plans of the local school councils. Information about these centrally funded programs shall be distributed to the local school councils so that their subsequent planning and programming will account for these provisions.

Beginning in fiscal year 1991 and in each fiscal year thereafter, from other amounts available in the applicable fiscal year budget, the board shall allocate a lump sum amount to each local school based upon such formula as the board shall determine taking into account the special needs of the student body. The local school principal shall develop an expenditure plan in consultation with the local school council, the professional personnel leadership committee and with all other school personnel, which reflects the priorities and activities as described in the school's local school improvement plan and is consistent with applicable law and collective bargaining agreements and with board policies and standards; however, the local school council shall have the right to request waivers of board policy from the board of education and waivers of employee collective bargaining agreements pursuant to Section 34-8.1a.

The expenditure plan developed by the principal with respect to amounts available from the fund for prioritized special needs programs and the allocated lump sum amount must be approved by the local school council.

The lump sum allocation shall take into account the following principles:

a. Teachers: Each school shall be allocated funds equal to the amount appropriated in the previous school year for compensation for teachers (regular grades kindergarten through

Adjustments shall be made due to layoff or reduction in force, lack of funds or work, change in subject requirements, enrollment changes, or contracts with third parties for the performance of services or to rectify any inconsistencies with system-wide allocation formulas or for other legitimate reasons.

b. Other personnel: Funds for other teacher certificated and uncertificated personnel paid through non-categorical funds shall be provided according to system-wide formulas based on student enrollment and the special needs of the school as determined by the Board.

c. Non-compensation items: Appropriations for all non-compensation items shall be based on system-wide formulas based on student enrollment and on the special needs of the school or factors related to the physical plant, including but not limited to textbooks, electronic textbooks and the technological equipment necessary to gain access to and use electronic textbooks, supplies, electricity, equipment, and routine maintenance.

d. Funds for categorical programs: Schools shall receive personnel and funds based on, and shall use such personnel and funds in accordance with State and Federal requirements applicable to each categorical program provided to meet the special needs of the student body (including but not limited to, Federal Chapter I, Bilingual, and Special Education).

d.1. Funds for State Title I: Each school shall receive funds based on State and Board requirements applicable to each State Title I pupil provided to meet the special needs of the student body. Each school shall receive the proportion of funds as provided in Section 18-8 or 18-8.15 to which they are entitled. These funds shall be spent only with the budgetary approval of the Local School Council as provided in Section 34-2.3.

e. The Local School Council shall have the right to request the principal to close positions and open new ones consistent with the provisions of the local school improvement plan provided that these decisions are consistent with applicable law and collective bargaining agreements. If a position is closed, pursuant to this

paragraph, the local school shall have for its use the system-wide average compensation for the closed position.

f. Operating within existing laws and collective bargaining agreements, the local school council shall have the right to direct the principal to shift expenditures within funds.

g. (Blank).

Any funds unexpended at the end of the fiscal year shall be available to the board of education for use as part of its budget for the following fiscal year.

5. To make recommendations to the principal concerning textbook selection and concerning curriculum developed pursuant to the school improvement plan which is consistent with systemwide curriculum objectives in accordance with Sections 34-8 and 34-18 of the School Code and in conformity with the collective bargaining agreement.

6. To advise the principal concerning the attendance and disciplinary policies for the attendance center, subject to the provisions of this Article and Article 26, and consistent with the uniform system of discipline established by the board pursuant to Section 34-19.

7. To approve a school improvement plan developed as provided in Section 34-2.4. The process and schedule for plan development shall be publicized to the entire school community, and the community shall be afforded the opportunity to make recommendations concerning the plan. At least twice a year the principal and local school council shall report publicly on progress and problems with respect to plan implementation.

8. To evaluate the allocation of teaching resources and other certificated and uncertificated staff to the attendance center to determine whether such allocation is consistent with and in furtherance of instructional objectives and school programs reflective of the school improvement plan adopted for the attendance center; and to make recommendations to the board, the general superintendent and the principal concerning any reallocation of teaching resources or other staff whenever the council determines that any such reallocation is appropriate because the qualifications of any existing staff at the attendance center do not adequately match or support instructional objectives or school programs which reflect the school improvement plan.

9. To make recommendations to the principal and the general superintendent concerning their respective appointments, after August 31, 1989, and in the manner provided by Section 34-8 and Section 34-8.1, of persons to fill any vacant, additional or newly created positions for

teachers at the attendance center or at attendance centers which include the attendance center served by the local school council.

10. To request of the Board the manner in which training and assistance shall be provided to the local school council. Pursuant to Board guidelines a local school council is authorized to direct the Board of Education to contract with personnel or not-for-profit organizations not associated with the school district to train or assist council members. If training or assistance is provided by contract with personnel or organizations not associated with the school district, the period of training or assistance shall not exceed 30 hours during a given school year; person shall not be employed on a continuous basis longer than said period and shall not have been employed by the Chicago Board of Education within the preceding six months. Council members shall receive training in at least the following areas:

1. school budgets;
2. educational theory pertinent to the attendance center's particular needs, including the development of the school improvement plan and the principal's performance contract; and
3. personnel selection.

Council members shall, to the greatest extent possible, complete such training within 90 days of election.

11. In accordance with systemwide guidelines contained in the System-Wide Educational Reform Goals and Objectives Plan, criteria for evaluation of performance shall be established for local school councils and local school council members. If a local school council persists in noncompliance with systemwide requirements, the Board may impose sanctions and take necessary corrective action, consistent with Section 34-8.3.

12. Each local school council shall comply with the Open Meetings Act and the Freedom of Information Act. Each local school council shall issue and transmit to its school community a detailed annual report accounting for its activities programmatically and financially. Each local school council shall convene at least 2 well-publicized meetings annually with its entire school community. These meetings shall include presentation of the proposed local school improvement plan, of the proposed school expenditure plan, and the annual report, and shall provide an opportunity for public comment.
13. Each local school council is encouraged to involve additional non-voting members of the school community in facilitating the council's exercise of its responsibilities.

14. The local school council may adopt a school uniform or dress code policy that governs the attendance center and that is necessary to maintain the orderly process of a school function or prevent endangerment of student health or safety, consistent with the policies and rules of the Board of Education. A school uniform or dress code policy adopted by a local school council: (i) shall not be applied in such manner as to discipline or deny attendance to a transfer student or any other student for noncompliance with that policy during such period of time as is reasonably necessary to enable the student to acquire a school uniform or otherwise comply with the dress code policy that is in effect at the attendance center into which the student's enrollment is transferred; and (ii) shall include criteria and procedures under which the local school council will accommodate the needs of or otherwise provide appropriate resources to assist a student from an indigent family in complying with an applicable school uniform or dress code policy. A student whose parents or legal guardians object on religious grounds to the student's compliance with an applicable school uniform or dress code policy shall not be required to comply with that policy if the student's parents or legal guardians present to the local school council a signed statement of objection detailing the grounds for the objection.

15. All decisions made and actions taken by the local school council in the exercise of its powers and duties shall comply with State and federal laws, all applicable collective bargaining agreements, court orders and rules properly promulgated by the Board.

15a. To grant, in accordance with board rules and policies, the use of assembly halls and classrooms when not otherwise needed, including lighting, heat, and attendants, for public lectures, concerts, and other educational and social activities.

15b. To approve, in accordance with board rules and policies, receipts and expenditures for all internal accounts of the attendance center, and to approve all fund-raising activities by nonschool organizations that use the school building.

The appropriate geographical area in which such open enrollment may be exercised shall be determined by the board of education. Such children may be admitted to any such attendance center on a space available basis after all children residing within such attendance center's area have been accommodated. If the number of applicants from outside the attendance area exceed the space available, then successful applicants shall be selected by lottery. Open enrollment shall be in compliance with the provisions of the Consent Decree and Desegregation Plan cited in Section 34-1.01;

The high school shall notify its students and their parents or guardians of the provisions of this subsection (b).

(105 ILCS 5/34-43.1) (from Ch. 122, par. 34-43.1)

Sec. 34-43.1. (A) Limitation of noninstructional costs. It is the
purpose of this Section to establish for the Board of Education and the
general superintendent of schools requirements and standards which
maximize the proportion of school district resources in direct support of
educational, program, and building maintenance and safety services for the
pupils of the district, and which correspondingly minimize the amount and
proportion of such resources associated with centralized administration,
administrative support services, and other noninstructional services.

For the 1989-90 school year and for all subsequent school years,
the Board of Education shall undertake budgetary and expenditure control
actions which limit the administrative expenditures of the Board of
Education to levels, as provided for in this Section, which represent an
average of the administrative expenses of all school districts in this State
not subject to Article 34.

(B) Certification of expenses by the State Superintendent of
Education. The State Superintendent of Education shall annually certify,
on or before May 1, to the Board of Education and the School Finance
Authority, for the applicable school year, the following information:

(1) the annual expenditures of all school districts of the
State not subject to Article 34 properly attributable to expenditure
functions defined by the rules and regulations of the State Board of
Education as: 2210 (Improvement of Instructional Services); 2300
(Support Services - General Administration) excluding, however,
2320 (Executive Administrative Services); 2490 (Other Support
Services - School Administration); 2500 (Support Services -
Business); 2600 (Support Services - Central);

New matter indicated by italics - deletions by strikeout
(2) the total annual expenditures of all school districts not subject to Article 34 attributable to the Education Fund, the Operations, Building and Maintenance Fund, the Transportation Fund and the Illinois Municipal Retirement Fund of the several districts, as defined by the rules and regulations of the State Board of Education; and

(3) a ratio, to be called the statewide average of administrative expenditures, derived by dividing the expenditures certified pursuant to paragraph (B)(1) by the expenditures certified pursuant to paragraph (B)(2).

For purposes of the annual certification of expenditures and ratios required by this Section, the "applicable year" of certification shall initially be the 1986-87 school year and, in sequent years, each succeeding school year.

The State Superintendent of Education shall consult with the Board of Education to ascertain whether particular expenditure items allocable to the administrative functions enumerated in paragraph (B)(1) are appropriately or necessarily higher in the applicable school district than in the rest of the State due to noncomparable factors. The State Superintendent shall also review the relevant cost proportions in other large urban school districts. The State Superintendent shall also review the expenditure categories in paragraph (B)(1) to ascertain whether they contain school-level expenses. If he or she finds that adjustments to the formula are appropriate or necessary to establish a more fair and comparable standard for administrative cost for the Board of Education or to exclude school-level expenses, the State Superintendent shall recommend to the School Finance Authority rules and regulations adjusting particular subcategories in this subsection (B) or adjusting certain costs in determining the budget and expenditure items properly attributable to the functions or otherwise adjust the formula.

(C) Administrative expenditure limitations. The annual budget of the Board of Education, as adopted and implemented, and the related annual expenditures for the school year, shall reflect a limitation on administrative outlays as required by the following provisions, taking into account any adjustments established by the State Superintendent of Education: (1) the budget and expenditures of the Board of Education for the 1989-90 school year shall reflect a ratio of administrative expenditures to total expenditures equal to or less than the statewide average of administrative expenditures for the 1986-87 school year as certified by the
State Superintendent of Education pursuant to paragraph (B)(3); (2) for the
1990-91 school year and for all subsequent school years, the budget and
expenditures of the Board of Education shall reflect a ratio of
administrative expenditures to total expenditures equal to or less than the
statewide average of administrative expenditures certified by the State
Superintendent of Education for the applicable year pursuant to paragraph
(B)(3); (3) if for any school year the budget of the Board of Education
reflects a ratio of administrative expenditures to total expenditures which
exceeds the applicable statewide average, the Board of Education shall
reduce expenditure items allocable to the administrative functions
enumerated in paragraph (B)(1) such that the Board of Education's ratio of
administrative expenditures to total expenditures is equal to or less than
the applicable statewide average ratio.

For purposes of this Section, the ratio of administrative
expenditures to the total expenditures of the Board of Education, as
applied to the budget of the Board of Education, shall mean: the budgeted
expenditure items of the Board of Education properly attributable to the
expenditure functions identified in paragraph (B)(1) divided by the total
budgeted expenditures of the Board of Education properly attributable to
the Board of Education funds corresponding to those funds identified in
paragraph (B)(2), exclusive of any monies budgeted for payment to the
Public School Teachers' Pension and Retirement System, attributable to
payments due from the General Funds of the State of Illinois.

The annual expenditure of the Board of Education for 2320
(Executive Administrative Services) for the 1989-90 school year shall be
no greater than the 2320 expenditure for the 1988-89 school year. The
annual expenditure of the Board of Education for 2320 for the 1990-91
school year and each subsequent school year shall be no greater than the
2320 expenditure for the immediately preceding school year or the 1988-
89 school year, whichever is less. This annual expenditure limitation may
be adjusted in each year in an amount not to exceed any change effective
during the applicable school year in salary to be paid under the collective
bargaining agreement with instructional personnel to which the Board is a
party and in benefit costs either required by law or such collective
bargaining agreement.

(D) Cost control measures. In undertaking actions to control or
reduce expenditure items necessitated by the administrative expenditure
limitations of this Section, the Board of Education shall give priority
consideration to reductions or cost controls with the least effect upon

New matter indicated by italics - deletions by strikeout
direct services to students or instructional services for pupils, and upon the
safety and well-being of pupils, and, as applicable, with the particular
costs or functions to which the Board of Education is higher than the
statewide average.

For purposes of assuring that the cost control priorities of this
subsection (D) are met, the State Superintendent of Education shall, with
the assistance of the Board of Education, review the cost allocation
practices of the Board of Education, and the State Superintendent of
Education shall thereafter recommend to the School Finance Authority
rules and regulations which define administrative areas which most impact
upon the direct and instructional needs of students and upon the safety and
well-being of the pupils of the district. No position closed shall be
reopened using State or federal categorical funds.

(E) Report of Audited Information. For the 1988-89 school year
and for all subsequent school years, the Board of Education shall file with
the State Board of Education the Annual Financial Report and its audit, as
required by the rules of the State Board of Education. Such reports shall be
filed no later than February 15 following the end of the school year of the
Board of Education, beginning with the report to be filed no later than

As part of the required Annual Financial Report, the Board of
Education shall provide a detailed accounting of the central level, district,
bureau and department costs and personnel included within expenditure
functions included in paragraph (B)(1). The nature and detail of the
reporting required for these functions shall be prescribed by the State
Board of Education in rules and regulations. A copy of this detailed
accounting shall also be provided annually to the School Finance
Authority and the public. This report shall contain a reconciliation to the
board of education's adopted budget for that fiscal year, specifically
delineating administrative functions.

If the information required under this Section is not provided by
the Board of Education in a timely manner, or is initially or subsequently
determined by the State Superintendent of Education to be incomplete or
inaccurate, the State Superintendent shall, in writing, notify the Board of
Education of reporting deficiencies. The Board of Education shall, within
60 days of such notice, address the reporting deficiencies identified. If the
State Superintendent of Education does not receive satisfactory response to
these reporting deficiencies within 60 days, the next payment of general
State aid or evidence-based funding due the Board of Education under

New matter indicated by italics - deletions by strikeout
Section 18-8 or Section 18-8.15, as applicable, and all subsequent payments, shall be withheld by the State Superintendent of Education until the enumerated deficiencies have been addressed.

Utilizing the Annual Financial Report, the State Superintendent of Education shall certify on or before May 1 to the School Finance Authority the Board of Education's ratio of administrative expenditures to total expenditures for the 1988-89 school year and for each succeeding school year. Such certification shall indicate the extent to which the administrative expenditure ratio of the Board of Education conformed to the limitations required in subsection (C) of this Section, taking into account any adjustments of the limitations which may have been recommended by the State Superintendent of Education to the School Finance Authority. In deriving the administrative expenditure ratio of the Chicago Board of Education, the State Superintendent of Education shall utilize the definition of this ratio prescribed in subsection (C) of this Section, except that the actual expenditures of the Board of Education shall be substituted for budgeted expenditure items.

(F) Approval and adjustments to administrative expenditure limitations. The School Finance Authority organized under Article 34A shall monitor the Board of Education's adherence to the requirements of this Section. As part of its responsibility the School Finance Authority shall determine whether the Board of Education's budget for the next school year, and the expenditures for a prior school year, comply with the limitation of administrative expenditures required by this Section. The Board of Education and the State Board of Education shall provide such information as is required by the School Finance Authority in order for the Authority to determine compliance with the provisions of this Section. If the Authority determines that the budget proposed by the Board of Education does not meet the cost control requirements of this Section, the Board of Education shall undertake budgetary reductions, consistent with the requirements of this Section, to bring the proposed budget into compliance with such cost control limitations.

If, in formulating cost control and cost reduction alternatives, the Board of Education believes that meeting the cost control requirements of this Section related to the budget for the ensuing year would impair the education, safety, or well-being of the pupils of the school district, the Board of Education may request that the School Finance Authority make adjustments to the limitations required by this Section. The Board of Education shall specify the amount, nature, and reasons for the relief
required and shall also identify cost reductions which can be made in expenditure functions not enumerated in paragraph (B)(1), which would serve the purposes of this Section.

The School Finance Authority shall consult with the State Superintendent of Education concerning the reasonableness from an educational administration perspective of the adjustments sought by the Board of Education. The School Finance Authority shall provide an opportunity for the public to comment upon the reasonableness of the Board's request. If, after such consultation, the School Finance Authority determines that all or a portion of the adjustments sought by the Board of Education are reasonably appropriate or necessary, the Authority may grant such relief from the provisions of this Section which the Authority deems appropriate. Adjustments so granted apply only to the specific school year for which the request was made.

In the event that the School Finance Authority determines that the Board of Education has failed to achieve the required administrative expenditure limitations for a prior school year, or if the Authority determines that the Board of Education has not met the requirements of subsection (F), the Authority shall make recommendations to the Board of Education concerning appropriate corrective actions. If the Board of Education fails to provide adequate assurance to the Authority that appropriate corrective actions have been or will be taken, the Authority may, within 60 days thereafter, require the board to adjust its current budget to correct for the prior year’s shortage or may recommend to the members of the General Assembly and the Governor such sanctions or remedial actions as will serve to deter any further such failures on the part of the Board of Education.

To assist the Authority in its monitoring responsibilities, the Board of Education shall provide such reports and information as are from time to time required by the Authority.

(G) Independent reviews of administrative expenditures. The School Finance Authority may direct independent reviews of the administrative and administrative support expenditures and services and other non-instructional expenditure functions of the Board of Education. The Board of Education shall afford full cooperation to the School Finance Authority in such review activity. The purpose of such reviews shall be to verify specific targets for improved operating efficiencies of the Board of Education, to identify other areas of potential efficiencies, and to assure
full and proper compliance by the Board of Education with all requirements of this Section.

In the conduct of reviews under this subsection, the Authority may request the assistance and consultation of the State Superintendent of Education with regard to questions of efficiency and effectiveness in educational administration.

(H) Reports to Governor and General Assembly. Sec. 34-53. Tax levies; purpose; rates. For the purpose of establishing and supporting free schools for not fewer than 9 months in each year and defraying their expenses the board may levy annually, upon all taxable property of such district for educational purposes a tax for the fiscal years 1996 and each succeeding fiscal year at a rate of not to exceed the sum of (i) 3.07% (or such other rate as may be set by law independent of the rate difference described in (ii) below) and (ii) the difference between .50% and the rate per cent of taxes extended for a School Finance Authority organized under Article 34A of the School Code, for the calendar year in which the applicable fiscal year of the board begins as determined by the county clerk and certified to the board pursuant to Section 18-110 of the Property Tax Code, of the value as equalized or assessed by the Department of Revenue for the year in which such levy is made.

Beginning on the effective date of this amendatory Act of the 99th General Assembly, for the purpose of making an employer contribution to the Public School Teachers' Pension and Retirement Fund of Chicago, the board may levy annually for taxable years prior to 2017, upon all taxable property located within the district, a tax at a rate not to exceed 0.383.

employer contribution to the Public School Teachers' Pension and Retirement Fund of Chicago, the board may levy annually, upon all taxable property within the district, a tax at a rate not to exceed 0.567%. The proceeds from this additional tax shall be paid, as soon as possible after collection, directly to Public School Teachers' Pension and Retirement Fund of Chicago and not to the Board of Education. The rate under this paragraph is not a new rate for the purposes of the Property Tax Extension Limitation Law. Notwithstanding any other provision of law, for the 2016 tax year only, the board shall certify the rate to the county clerk on the effective date of this amendatory Act of the 99th General Assembly, and the county clerk shall extend that rate against all taxable property located within the district as soon after receiving the certification as possible.

Nothing in this amendatory Act of 1995 shall in any way impair or restrict the levy or extension of taxes pursuant to any tax levies for any purposes of the board lawfully made prior to the adoption of this amendatory Act of 1995.

Notwithstanding any other provision of this Code and in addition to any other methods provided for increasing the tax rate the board may, by proper resolution, cause a proposition to increase the annual tax rate for educational purposes to be submitted to the voters of such district at any general or special election. The maximum rate for educational purposes shall not exceed 4.00%. The election called for such purpose shall be governed by Article 9 of this Act. If at such election a majority of the votes cast on the proposition is in favor thereof, the Board of Education may thereafter until such authority is revoked in a like manner, levy annually the tax so authorized.

For purposes of this Article, educational purposes for fiscal years beginning in 1995 and each subsequent year shall also include, but not be limited to, in addition to those purposes authorized before this amendatory Act of 1995, constructing, acquiring, leasing (other than from the Public Building Commission of Chicago), operating, maintaining, improving, repairing, and renovating land, buildings, furnishings, and equipment for school houses and buildings, and related incidental expenses, and provision of special education, furnishing free textbooks and instructional aids and school supplies, establishing, equipping, maintaining, and operating supervised playgrounds under the control of the board, school extracurricular activities, and stadia, social center, and summer swimming pool programs open to the public in connection with any public school;

Educational purposes also includes student transportation expenses.

All collections of all taxes levied for fiscal years ending before 1996 under this Section or under Sections 34-53.2, 34-53.3, 34-58, 34-60, or 34-62 of this Article as in effect prior to this amendatory Act of 1995 may be used for any educational purposes as defined by this amendatory Act of 1995 and need not be used for the particular purposes for which they were levied. The levy and extension of taxes pursuant to this Section as amended by this amendatory Act of 1995 shall not constitute a new or increased tax rate within the meaning of the Property Tax Extension Limitation Law or the One-year Property Tax Extension Limitation Law.

The rate at which taxes may be levied for the fiscal year beginning September 1, 1996, for educational purposes shall be the full rate authorized by this Section for such taxes for fiscal years ending after 1995. (Source: P.A. 99-521, eff. 6-1-17.)

(Text of Section before amendment by P.A. 99-927)

Sec. 27A-5. Charter school; legal entity; requirements.

(a) A charter school shall be a public, nonsectarian, nonreligious, non-home based, and non-profit school. A charter school shall be organized and operated as a nonprofit corporation or other discrete, legal, nonprofit entity authorized under the laws of the State of Illinois.

(b) A charter school may be established under this Article by creating a new school or by converting an existing public school or attendance center to charter school status. Beginning on April 16, 2003 (the effective date of Public Act 93-3), in all new applications to establish a charter school in a city having a population exceeding 500,000, operation of the charter school shall be limited to one campus. The changes made to this Section by Public Act 93-3 do not apply to charter schools existing or approved on or before April 16, 2003 (the effective date of Public Act 93-3).

(b-5) In this subsection (b-5), "virtual-schooling" means a cyber school where students engage in online curriculum and instruction via the Internet and electronic communication with their teachers at remote locations and with students participating at different times.

From April 1, 2013 through December 31, 2016, there is a moratorium on the establishment of charter schools with virtual-schooling components in school districts other than a school district organized under Article 34 of this Code. This moratorium does not apply to a charter school with virtual-schooling components existing or approved prior to April 1, 2013 or to the renewal of the charter of a charter school with virtual-schooling components already approved prior to April 1, 2013.

On or before March 1, 2014, the Commission shall submit to the General Assembly a report on the effect of virtual-schooling, including without limitation the effect on student performance, the costs associated with...
with virtual-schooling, and issues with oversight. The report shall include
policy recommendations for virtual-schooling.

c) A charter school shall be administered and governed by its
board of directors or other governing body in the manner provided in its
charter. The governing body of a charter school shall be subject to the
Freedom of Information Act and the Open Meetings Act.

d) For purposes of this subsection (d), "non-curricular health and
safety requirement" means any health and safety requirement created by
statute or rule to provide, maintain, preserve, or safeguard safe or healthful
conditions for students and school personnel or to eliminate, reduce, or
prevent threats to the health and safety of students and school personnel.
"Non-curricular health and safety requirement" does not include any
course of study or specialized instructional requirement for which the State
Board has established goals and learning standards or which is designed
primarily to impart knowledge and skills for students to master and apply
as an outcome of their education.

A charter school shall comply with all non-curricular health and
safety requirements applicable to public schools under the laws of the
State of Illinois. On or before September 1, 2015, the State Board shall
promulgate and post on its Internet website a list of non-curricular health
and safety requirements that a charter school must meet. The list shall be
updated annually no later than September 1. Any charter contract between
a charter school and its authorizer must contain a provision that requires
the charter school to follow the list of all non-curricular health and safety
requirements promulgated by the State Board and any non-curricular
health and safety requirements added by the State Board to such list during
the term of the charter. Nothing in this subsection (d) precludes an
authorizer from including non-curricular health and safety requirements in
a charter school contract that are not contained in the list promulgated by
the State Board, including non-curricular health and safety requirements of
the authorizing local school board.

e) Except as otherwise provided in the School Code, a charter
school shall not charge tuition; provided that a charter school may charge
reasonable fees for textbooks, instructional materials, and student
activities.

(f) A charter school shall be responsible for the management and
operation of its fiscal affairs including, but not limited to, the preparation
of its budget. An audit of each charter school's finances shall be conducted

To ensure financial accountability for the use of public funds, on or before December 1 of every year of operation, each charter school shall submit to its authorizer and the State Board a copy of its audit and a copy of the Form 990 the charter school filed that year with the federal Internal Revenue Service. In addition, if deemed necessary for proper financial oversight of the charter school, an authorizer may require quarterly financial statements from each charter school.

(g) A charter school shall comply with all provisions of this Article, the Illinois Educational Labor Relations Act, all federal and State laws and rules applicable to public schools that pertain to special education and the instruction of English learners, and its charter. A charter school is exempt from all other State laws and regulations in this Code governing public schools and local school board policies; however, a charter school is not exempt from the following:

(1) Sections 10-21.9 and 34-18.5 of this Code regarding criminal history records checks and checks of the Statewide Sex Offender Database and Statewide Murderer and Violent Offender Against Youth Database of applicants for employment;
(2) Sections 10-20.14, 10-22.6, 24-24, 34-19, and 34-84a of this Code regarding discipline of students;
(3) the Local Governmental and Governmental Employees Tort Immunity Act;

(h) A charter school may negotiate and contract with a school district, the governing body of a State college or university or public community college, or any other public or for-profit or nonprofit private entity for: (i) the use of a school building and grounds or any other real property or facilities that the charter school desires to use or convert for use as a charter school site, (ii) the operation and maintenance thereof, and (iii) the provision of any service, activity, or undertaking that the charter school is required to perform in order to carry out the terms of its charter. However, a charter school that is established on or after April 16, 2003 (the effective date of Public Act 93-3) and that operates in a city having a population exceeding 500,000 may not contract with a for-profit entity to manage or operate the school during the period that commences on April 16, 2003 (the effective date of Public Act 93-3) and concludes at the end of the 2004-2005 school year. Except as provided in subsection (i) of this Section, a school district may charge a charter school reasonable rent for the use of the district's buildings, grounds, and facilities. Any services for which a charter school contracts with a school district shall be provided by the district at cost. Any services for which a charter school contracts with a local school board or with the governing body of a State college or university or public community college shall be provided by the public entity at cost.

   (i) In no event shall a charter school that is established by converting an existing school or attendance center to charter school status be required to pay rent for space that is deemed available, as negotiated and provided in the charter agreement, in school district facilities. However, all other costs for the operation and maintenance of school district facilities that are used by the charter school shall be subject to negotiation between the charter school and the local school board and shall be set forth in the charter.

   (j) A charter school may limit student enrollment by age or grade level.

   (k) If the charter school is approved by the Commission, then the Commission charter school is its own local education agency.

Beginning on April 16, 2003 (the effective date of Public Act 93-3), in all new applications to establish a charter school in a city having a population exceeding 500,000, operation of the charter school shall be limited to one campus. The changes made to this Section by Public Act 93-3 do not apply to charter schools existing or approved on or before April 16, 2003 (the effective date of Public Act 93-3).

From April 1, 2013 through December 31, 2016, there is a moratorium on the establishment of charter schools with virtual-schooling components in school districts other than a school district organized under Article 34 of this Code. This moratorium does not apply to a charter school with virtual-schooling components existing or approved prior to April 1, 2013 or to the renewal of the charter of a charter school with virtual-schooling components already approved prior to April 1, 2013.

On or before March 1, 2014, the Commission shall submit to the General Assembly a report on the effect of virtual-schooling, including without limitation the effect on student performance, the costs associated with virtual-schooling, and issues with oversight. Section 5. The Illinois Insurance Code is amended by changing Sections 132.5, 143.14, 143.15, 143.16, 143.17, and 143.17a as follows:

(a) General description. All examination reports shall be comprised of only facts appearing upon the books, records, or other documents of the company, its agents, or other persons examined or as ascertained from the testimony of its officers, agents, or other persons examined concerning its affairs and the conclusions and recommendations as the examiners find reasonably warranted from those facts.

(b) Filing of examination report. No later than 60 days following completion of the examination, the examiner in charge shall file with the Department a verified written report of examination under oath. Upon receipt of the verified report, the Department shall transmit the report to the company examined, together with a notice that affords the company examined a reasonable opportunity of not more than 30 days to make a written submission or rebuttal with respect to any matters contained in the examination report.

(c) Adoption of the report on examination. Within 30 days of the end of the period allowed for the receipt of written submissions or rebuttals, the Director shall fully consider and review the report, together with any written submissions or rebuttals and any relevant portions of the examiners work papers and enter an order:

(1) Adopting the examination report as filed or with modification or corrections. If the examination report reveals that

the company is operating in violation of any law, regulation, or prior order of the Director, the Director may order the company to take any action the Director considers necessary and appropriate to cure the violation.

(2) Rejecting the examination report with directions to the examiners to reopen the examination for purposes of obtaining additional data, documentation, or information and refiling under subsection (b).

(3) Calling for an investigatory hearing with no less than 20 days notice to the company for purposes of obtaining additional documentation, data, information, and testimony.

(d) Order and procedures. All orders entered under paragraph (1) of subsection (c) shall be accompanied by findings and conclusions resulting from the Director's consideration and review of the examination report, relevant examiner work papers, and any written submissions or rebuttals. The order shall be considered a final administrative decision and may be appealed in accordance with the Administrative Review Law. The order shall be served upon the company by certified mail, together with a copy of the adopted examination report. Within 30 days of the issuance of the adopted report, the company shall file affidavits executed by each of its directors stating under oath that they have received a copy of the adopted report and related orders.

Any hearing conducted under paragraph (3) of subsection (c) by the Director or an authorized representative shall be conducted as a nonadversarial confidential investigatory proceeding as necessary for the resolution of any inconsistencies, discrepancies, or disputed issues apparent upon the face of the filed examination report or raised by or as a result of the Director's review of relevant work papers or by the written submission or rebuttal of the company. Within 20 days of the conclusion of any hearing, the Director shall enter an order under paragraph (1) of subsection (c).

The Director shall not appoint an examiner as an authorized representative to conduct the hearing. The hearing shall proceed expeditiously with discovery by the company limited to the examiner's work papers that tend to substantiate any assertions set forth in any written submission or rebuttal. The Director or his representative may issue subpoenas for the attendance of any witnesses or the production of any documents deemed relevant to the investigation, whether under the control of the Department, the company, or other persons. The documents

Nothing contained in this Section shall require the Department to disclose any information or records that would indicate or show the existence or content of any investigation or activity of a criminal justice agency.

The hearing shall proceed with the Director or his representative posing questions to the persons subpoenaed. Thereafter the company and the Department may present testimony relevant to the investigation. Cross-examination shall be conducted only by the Director or his representative. The company and the Department shall be permitted to make closing statements and may be represented by counsel of their choice.

(e) Publication and use. Upon the adoption of the examination report under paragraph (1) of subsection (c), the Director shall continue to hold the content of the examination report as private and confidential information for a period of 35 days, except to the extent provided in subsection (b). Thereafter, the Director may open the report for public inspection so long as no court of competent jurisdiction has stayed its publication.

Nothing contained in this Code shall prevent or be construed as prohibiting the Director from disclosing the content of an examination report, preliminary examination report or results, or any matter relating thereto, to the insurance department of any other state or country or to law enforcement officials of this or any other state or agency of the federal government at any time, so long as the agency or office receiving the report or matters relating thereto agrees in writing to hold it confidential and in a manner consistent with this Code.

In the event the Director determines that regulatory action is appropriate as a result of any examination, he may initiate any proceedings or actions as provided by law.

(f) Confidentiality of ancillary information. All working papers, recorded information, documents, and copies thereof produced by, obtained by, or disclosed to the Director or any other person in the course of any examination must be given confidential treatment, are not subject to subpoena, and may not be made public by the Director or any other persons, except to the extent provided in subsection (e). The Council shall select a Chairperson.

The Chairperson and a majority of the members of the Council shall be persons who are individuals with disabilities. At least one member shall be a senior citizen age 60 or over, and at least one member shall be at least 18 but not more than 25 years old. A majority of the Council members shall not be employees of the Department of Human Services.

Members appointed to the Council for full terms on or after the effective date of this amendatory Act of the 98th General Assembly shall
be appointed for terms of 3 years. No Council member, other than the vocational rehabilitation administrator and the representative of the Client Assistance Program, shall serve for more than 2 consecutive terms as a representative of one of the 13 enumerated categories. If an individual, other than the vocational rehabilitation administrator and the representative of the Client Assistance Program, has completed 2 consecutive terms and is eligible to seek appointment as a representative of one of the other enumerated categories, then that individual may be appointed to serve as a representative of one of those other enumerated categories after a meaningful break in Council service, as defined by the Council through its by-laws.

Vacancies for unexpired terms shall be filled. Individuals appointed by the appointing authority to fill an unexpired term shall complete the remainder of the vacated term. When the initial term of a person appointed to fill a vacancy is completed, the individual appointed to fill that vacancy may be re-appointed by the appointing authority to the vacated position for one subsequent term.

If an excessive number of expired terms and vacated terms combine to place an undue burden on the Council, the appointing authority may appoint members for terms of 1, 2, or 3 years. The appointing authority shall determine the terms of Council members to ensure the number of terms expiring each year is as close to equal as possible.

Notwithstanding the foregoing, a member who is serving on the Council on the effective date of this amendatory Act of the 98th General Assembly and whose term expires as a result of the changes made by this amendatory Act of the 98th General Assembly may complete the unexpired portion of his or her term.

Members shall be reimbursed in accordance with State laws, rules, and rates for expenses incurred in the performance of their approved, Council-related duties, including expenses for travel, child care, or personal assistance services. A member who is not employed or who must forfeit wages from other employment may be paid reasonable compensation, as determined by the Department, for each day the member is engaged in performing approved duties of the Council.

The Council shall meet at least 4 times per year at times and places designated by the Chairperson upon 10 days written notice to the members. Special meetings may be called by the Chairperson or 7 members of the Council upon 7 days written notice to the other members. Nine members shall constitute a quorum. No member of the Council shall

cast a vote on any matter that would provide direct financial benefit to the member or otherwise give the appearance of a conflict of interest under Illinois law.

The Council shall prepare and submit to the vocational rehabilitation administrator the reports and findings that the vocational rehabilitation administrator may request or that the Council deems fit. The Council shall select jointly with the vocational rehabilitation administrator a pool of qualified persons to serve as impartial hearing officers. The Council shall, with the vocational rehabilitation unit in the Department, jointly develop, agree to, and review annually State goals and priorities and jointly submit annual reports of progress to the federal Commissioner of the Rehabilitation Services Administration.

To the extent that there is a disagreement between the Council and the unit within the Department of Human Services responsible for the administration of the vocational rehabilitation program, regarding the resources necessary to carry out the functions of the Council as set forth in this Section, the disagreement shall be resolved by the Governor.

by the Department, shall never be less than the federal poverty standard, and shall be adjusted each year to reflect changes in the Consumer Price Index For All Urban Consumers as determined by the United States Department of Labor. The standards must provide that a person may not have more than $10,000 in assets to be eligible for the services, and the Department may increase or decrease the asset limitation by rule. The Department may not decrease the asset level below $10,000.

The services shall be provided, as established by the Department by rule, to eligible persons to prevent unnecessary or premature institutionalization, to the extent that the cost of the services, together with the other personal maintenance expenses of the persons, are reasonably related to the standards established for care in a group facility appropriate to their condition. bargaining with an exclusive representative of home care and home health workers who function as personal assistants and individual maintenance home health workers working under the Home Services Program concerning their terms and conditions of employment that are within the State's control. Nothing in this paragraph shall be understood to limit the right of the persons receiving services defined in this Section to hire and fire home care and home health workers who function as personal assistants and individual maintenance home health workers working under the Home Services Program or to supervise them within the limitations set by the Home Services Program. The State shall not be considered to be the employer of home care and home health workers who function as personal assistants and individual maintenance home health workers working under the Home Services Program for any purposes not specifically provided in Public Act 93-204 or Public Act 97-1158, including but not limited to, purposes of vicarious liability in tort and purposes of statutory retirement or health insurance benefits. Protected income shall not be considered by the Department in its determination of the recipient's ability to pay a share of the cost of services. The level of cost-sharing shall be adjusted each year to reflect changes in the "protected income" level. The Department shall deduct from the recipient's share of the cost of services any money expended by the recipient for disability-related expenses.

This paragraph, however, shall not bar recovery, at the death of the person, of moneys for services provided to the person or in behalf of the person under this Section to which the person was not entitled; provided that such recovery shall not be enforced against any real estate while it is occupied as a homestead by the surviving spouse or other dependent, if no claims by other creditors have been filed against the estate, or, if such claims have been filed, they remain dormant for failure of prosecution or failure of the claimant to compel administration of the estate for the purpose of payment. This paragraph shall not bar recovery from the estate of a spouse, under Sections 1915 and 1924 of the Social Security Act and Section 5-4 of the Illinois Public Aid Code, who precedes a person receiving services under this Section in death. All moneys for services paid to or in behalf of the person under this Section shall be claimed for recovery from the deceased spouse's estate. The requirement for reporting to the General Assembly shall be satisfied by filing copies of the report with the Speaker, the Minority Leader and the Clerk of the House of Representatives and the President, the Minority Leader and the Secretary of the Senate and the Legislative Research Unit, as required by Section 3.1 of the General Assembly Organization Act, and filing additional copies with the State Government Report Distribution Center for the General Assembly as required under paragraph (t) of Section 7 of the State Library Act.

Department offices and personnel throughout the State shall also assist in the operation of the Statewide Housing Clearinghouse. Cooperation with local, State and federal housing managers shall be sought and extended in order to frequently and promptly update the Clearinghouse's information.

(m) To assure that the names and case records of persons who received or are receiving services from the Department, including persons receiving vocational rehabilitation, home services, or other services, and those attending one of the Department's schools or other supervised facility shall be confidential and not be open to the general public. Section 55. The Higher Education Student Assistance Act is amended by changing Section 35 as follows:

(110 ILCS 947/35)
Sec. 35. Monetary award program.
(a) The Commission shall, each year, receive and consider applications for grant assistance under this Section. Subject to a separate appropriation for such purposes, an applicant is eligible for a grant under this Section when the Commission finds that the applicant:

(1) is a resident of this State and a citizen or permanent resident of the United States; and

(2) in the absence of grant assistance, will be deterred by financial considerations from completing an educational program at the qualified institution of his or her choice.

(b) The Commission shall award renewals only upon the student's application and upon the Commission's finding that the applicant:

(1) has remained a student in good standing;
(2) remains a resident of this State; and
(3) is in a financial situation that continues to warrant assistance.

New matter indicated by italics - deletions by strikeout
(c) All grants shall be applicable only to tuition and necessary fee costs. The Commission shall determine the grant amount for each student, which shall not exceed the smallest of the following amounts:

1. subject to appropriation, $5,468 for fiscal year 2009, $5,968 for fiscal year 2010, and $6,468 for fiscal year 2011 and each fiscal year thereafter, or such lesser amount as the Commission finds to be available, during an academic year;
2. the amount which equals 2 semesters or 3 quarters tuition and other necessary fees required generally by the institution of all full-time undergraduate students; or
3. such amount as the Commission finds to be appropriate in view of the applicant's financial resources.

Subject to appropriation, the maximum grant amount for students not subject to subdivision (1) of this subsection (c) must be increased by the same percentage as any increase made by law to the maximum grant amount under subdivision (1) of this subsection (c).

"Tuition and other necessary fees" as used in this Section include the customary charge for instruction and use of facilities in general, and the additional fixed fees charged for specified purposes, which are required generally of nongrant recipients for each academic period for which the grant applicant actually enrolls, but do not include fees payable only once or breakage fees and other contingent deposits which are refundable in whole or in part. The Commission may prescribe, by rule not inconsistent with this Section, detailed provisions concerning the computation of tuition and other necessary fees.

(d) No applicant, including those presently receiving scholarship assistance under this Act, is eligible for monetary award program consideration under this Act after receiving a baccalaureate degree or the equivalent of 135 semester credit hours of award payments.

(e) The Commission, in determining the number of grants to be offered, shall take into consideration past experience with the rate of grant funds unclaimed by recipients. The Commission shall notify applicants that grant assistance is contingent upon the availability of appropriated funds.

(e-5) The General Assembly finds and declares that it is an important purpose of the Monetary Award Program to facilitate access to college both for students who pursue postsecondary education immediately following high school and for those who pursue postsecondary education later in life, particularly Illinoisans who are dislocated workers with

financial need and who are seeking to improve their economic position through education. For the 2015-2016 and 2016-2017 academic years, the Commission shall give additional and specific consideration to the needs of dislocated workers with the intent of allowing applicants who are dislocated workers an opportunity to secure financial assistance even if applying later than the general pool of applicants. The Commission's consideration shall include, in determining the number of grants to be offered, an estimate of the resources needed to serve dislocated workers who apply after the Commission initially suspends award announcements for the upcoming regular academic year, but prior to the beginning of that academic year. For the purposes of this subsection (e-5), a dislocated worker is defined as in the federal Workforce Innovation and Opportunity Act.

(f) The Commission may request appropriations for deposit into the Monetary Award Program Reserve Fund. Moneys deposited into the Monetary Award Program Reserve Fund may be expended exclusively for one purpose: to make Monetary Award Program grants to eligible students. Amounts on deposit in the Monetary Award Program Reserve Fund may not exceed 2% of the current annual State appropriation for the Monetary Award Program.

The purpose of the Monetary Award Program Reserve Fund is to enable the Commission each year to assure as many students as possible of their eligibility for a Monetary Award Program grant and to do so before commencement of the academic year. Moneys deposited in this Reserve Fund are intended to enhance the Commission's management of the Monetary Award Program, minimizing the necessity, magnitude, and frequency of adjusting award amounts and ensuring that the annual Monetary Award Program appropriation can be fully utilized.

(g) The Commission shall determine the eligibility of and make grants to applicants enrolled at qualified for-profit institutions in accordance with the criteria set forth in this Section. The eligibility of applicants enrolled at such for-profit institutions shall be limited as follows:

(1) Beginning with the academic year 1997, only to eligible first-time freshmen and first-time transfer students who have attained an associate degree.

(2) Beginning with the academic year 1998, only to eligible freshmen students, transfer students who have attained an associate degree, and students who receive a grant under paragraph (1) for
the academic year 1997 and whose grants are being renewed for the academic year 1998.

(3) Beginning with the academic year 1999, to all eligible students.

Section 70. The Unemployment Insurance Act is amended by changing Sections 500 and 502 as follows:

(820 ILCS 405/500) (from Ch. 48, par. 420)

Sec. 500. Eligibility for benefits. An unemployed individual shall be eligible to receive benefits with respect to any week only if the Director finds that:

A. He has registered for work at and thereafter has continued to report at an employment office in accordance with such regulations as the Director may prescribe, except that the Director may, by regulation, waive or alter either or both of the requirements of this subsection as to individuals attached to regular jobs, and as to such other types of cases or situations with respect to which he finds that compliance with such requirements would be oppressive or inconsistent with the purposes of this Act, provided that no such regulation shall conflict with Section 400 of this Act.

B. He has made a claim for benefits with respect to such week in accordance with such regulations as the Director may prescribe.

C. He is able to work, and is available for work; provided that during the period in question he was actively seeking work and he has certified such. Whenever requested to do so by the Director, the individual shall, in the manner the Director prescribes by regulation, inform the Department of the places at which he has sought work during the period in question. Nothing in this subsection shall limit the Director's approval of alternate methods of demonstrating an active search for work based on regular reporting to a trade union office.

1. If an otherwise eligible individual is unable to work or is unavailable for work on any normal workday of the week, he shall be eligible to receive benefits with respect to such week reduced by one-fifth of his weekly benefit amount for each day of such
inability to work or unavailability for work. For the purposes of this paragraph, an individual who reports on a day subsequent to his designated report day shall be deemed unavailable for work on his report day if his failure to report on that day is without good cause, and on each intervening day, if any, on which his failure to report is without good cause. As used in the preceding sentence, "report day" means the day which has been designated for the individual to report to file his claim for benefits with respect to any week. This paragraph shall not be construed so as to effect any change in the status of part-time workers as defined in Section 407.

2. An individual shall be considered to be unavailable for work on days listed as whole holidays in "An Act to revise the law in relation to promissory notes, bonds, due bills and other instruments in writing," approved March 18, 1874, as amended; on days which are holidays in his religion or faith, and on days which are holidays according to the custom of his trade or occupation, if his failure to work on such day is a result of the holiday. In determining the claimant's eligibility for benefits and the amount to be paid him, with respect to the week in which such holiday occurs, he shall have attributed to him as additional earnings for that week an amount equal to one-fifth of his weekly benefit amount for each normal work day on which he does not work because of a holiday of the type above enumerated.

3. An individual shall be deemed unavailable for work if, after his separation from his most recent employing unit, he has removed himself to and remains in a locality where opportunities for work are substantially less favorable than those in the locality he has left.

4. An individual shall be deemed unavailable for work with respect to any week which occurs in a period when his principal occupation is that of a student in attendance at, or on vacation from, a public or private school.

5. Notwithstanding any other provisions of this Act, an individual shall not be deemed unavailable for work or to have failed actively to seek work, nor shall he be ineligible for benefits by reason of the application of the provisions of Section 603, with respect to any week, because he is enrolled in and is in regular attendance at a training course approved for him by the Director:

New matter indicated by italics - deletions by strikeout
(a) but only if, with respect to that week, the individual presents, upon request, to the claims adjudicator referred to in Section 702 a statement executed by a responsible person connected with the training course, certifying that the individual was in full-time attendance at such course during the week. The Director may approve such course for an individual only if he finds that (1) reasonable work opportunities for which the individual is fitted by training and experience do not exist in his locality; (2) the training course relates to an occupation or skill for which there are, or are expected to be in the immediate future, reasonable work opportunities in his locality; (3) the training course is offered by a competent and reliable agency, educational institution, or employing unit; (4) the individual has the required qualifications and aptitudes to complete the course successfully; and (5) the individual is not receiving and is not eligible (other than because he has claimed benefits under this Act) for subsistence payments or similar assistance under any public or private retraining program: Provided, that the Director shall not disapprove such course solely by reason of clause (5) if the subsistence payment or similar assistance is subject to reduction by an amount equal to any benefits payable to the individual under this Act in the absence of the clause. In the event that an individual's weekly unemployment compensation benefit is less than his certified training allowance, that person shall be eligible to receive his entire unemployment compensation benefits, plus such supplemental training allowances that would make an applicant's total weekly benefit identical to the original certified training allowance.

(b) The Director shall have the authority to grant approval pursuant to subparagraph (a) above prior to an individual's formal admission into a training course. Requests for approval shall not be made more than 30 days prior to the actual starting date of such course. Requests shall be made at the appropriate unemployment office.

(c) The Director shall for purposes of paragraph C have the authority to issue a blanket approval of training programs implemented pursuant to the federal Workforce...
Innovation and Opportunity Act of 1998 if both the training program and the criteria for an individual's participation in such training meet the requirements of this paragraph C.

(d) Notwithstanding the requirements of subparagraph (a), the Director shall have the authority to issue blanket approval of training programs implemented under the terms of a collective bargaining agreement.

6. Notwithstanding any other provisions of this Act, an individual shall not be deemed unavailable for work or to have failed actively to seek work, nor shall he be ineligible for benefits, by reason of the application of the provisions of Section 603 with respect to any week because he is in training approved under Section 236 (a)(1) of the federal Trade Act of 1974, nor shall an individual be ineligible for benefits under the provisions of Section 601 by reason of leaving work voluntarily to enter such training if the work left is not of a substantially equal or higher skill level than the individual's past adversely affected employment as defined under the federal Trade Act of 1974 and the wages for such work are less than 80% of his average weekly wage as determined under the federal Trade Act of 1974.

D. If his benefit year begins prior to July 6, 1975 or subsequent to January 2, 1982, he has been unemployed for a waiting period of 1 week during such benefit year. If his benefit year begins on or after July 6, 1975, but prior to January 3, 1982, and his unemployment continues for more than three weeks during such benefit year, he shall be eligible for benefits with respect to each week of such unemployment, including the first week thereof. An individual shall be deemed to be unemployed within the meaning of this subsection while receiving public assistance as remuneration for services performed on work projects financed from funds made available to governmental agencies for such purpose. No week shall be counted as a week of unemployment for the purposes of this subsection:

1. Unless it occurs within the benefit year which includes the week with respect to which he claims payment of benefits, provided that, for benefit years beginning prior to January 3, 1982, this requirement shall not interrupt the payment of benefits for consecutive weeks of unemployment; and provided further that the week immediately preceding a benefit year, if part of one uninterrupted period of unemployment which continues into such

benefit year, shall be deemed (for the purpose of this subsection only and with respect to benefit years beginning prior to January 3, 1982, only) to be within such benefit year, as well as within the preceding benefit year, if the unemployed individual would, except for the provisions of the first paragraph and paragraph 1 of this subsection and of Section 605, be eligible for and entitled to benefits for such week.

2. If benefits have been paid with respect thereto.

3. Unless the individual was eligible for benefits with respect thereto except for the requirements of this subsection and of Section 605.

E. With respect to any benefit year beginning prior to January 3, 1982, he has been paid during his base period wages for insured work not less than the amount specified in Section 500E of this Act as amended and in effect on October 5, 1980. With respect to any benefit year beginning on or after January 3, 1982, he has been paid during his base period wages for insured work equal to not less than $1,600, provided that he has been paid wages for insured work equal to at least $440 during that part of his base period which does not include the calendar quarter in which the wages paid to him were highest.

F. During that week he has participated in reemployment services to which he has been referred, including but not limited to job search assistance services, pursuant to a profiling system established by the Director by rule in conformity with Section 303(j)(1) of the federal Social Security Act, unless the Director determines that:

1. the individual has completed such services; or

2. there is justifiable cause for the claimant's failure to participate in such services.

This subsection F is added by this amendatory Act of 1995 to clarify authority already provided under subsections A and C in connection with the unemployment insurance claimant profiling system required under subsections (a)(10) and (j)(1) of Section 303 of the federal Social Security Act as a condition of federal funding for the administration of the Unemployment Insurance Act.

Sec. 502. Eligibility for benefits under the Short-Time Compensation Program.

New matter indicated by italics - deletions by strikeout
A. The Director may by rule establish a short-time compensation program consistent with this Section. No short-time compensation shall be payable except as authorized by rule.

B. As used in this Section:

"Affected unit" means a specified plant, department, shift, or other definable unit that includes 2 or more workers to which an approved short-time compensation plan applies.

"Health and retirement benefits" means employer-provided health benefits and retirement benefits under a defined benefit pension plan (as defined in Section 414(j) of the Internal Revenue Code) or contributions under a defined contribution plan (defined in Section 414(i) of the Internal Revenue Code), which are incidents of employment in addition to the cash remuneration earned.

"Short-time compensation" means the unemployment benefits payable to employees in an affected unit under an approved short-time compensation plan, as distinguished from the unemployment benefits otherwise payable under this Act.

"Short-time compensation plan" means a plan submitted by an employer, for approval by the Director, under which the employer requests the payment of short-time compensation to workers in an affected unit of the employer to avert layoffs.

"Usual weekly hours of work" means the usual hours of work for full-time or part-time employees in the affected unit when that unit is operating on its regular basis, not to exceed 40 hours and not including hours of overtime work.

"Unemployment insurance" means the unemployment benefits payable under this Act other than short-time compensation and includes any amounts payable pursuant to an agreement under any Federal law providing for compensation, assistance, or allowances with respect to unemployment.

C. An employer wishing to participate in the short-time compensation program shall submit a signed written short-time compensation plan to the Director for approval. The Director shall develop an application form to request approval of a short-time compensation plan and an approval process. The application shall include:

1. The employer's unemployment insurance account number, the affected unit covered by the plan, including the number of full-time or part-time workers in such unit, the percentage of workers in the affected unit covered by the plan,

New matter indicated by italics - deletions by strikeout
identification of each individual employee in the affected unit by name and social security number, and any other information required by the Director to identify plan participants.

2. A description of how workers in the affected unit will be notified of the employer's participation in the short-time compensation plan if such application is approved, including how the employer will notify those workers in a collective bargaining unit as well as any workers in the affected unit who are not in a collective bargaining unit. If the employer will not provide advance notice to workers in the affected unit, the employer shall explain in a statement in the application why it is not feasible to provide such notice.

3. The employer's certification that it has the approval of the plan from all collective bargaining representatives of employees in the affected unit and has notified all employees in the affected unit who are not in a collective bargaining unit of the plan.

4. The employer's certification that it will not hire additional part-time or full-time employees for, or transfer employees to, the affected unit, while the program is in operation.

5. A requirement that the employer identify the usual weekly hours of work for employees in the affected unit and the specific percentage by which their hours will be reduced during all weeks covered by the plan. An application shall specify the percentage of reduction for which a short-time compensation application may be approved which shall be not less than 20% and not more than 60%. If the plan includes any week for which the employer regularly provides no work (due to a holiday or other plant closing), then such week shall be identified in the application.

6. Certification by the employer that, if the employer provides health and retirement benefits to any employee whose usual weekly hours of work are reduced under the program, such benefits will continue to be provided to the employee participating in the short-time compensation program under the same terms and conditions as though the usual weekly hours of work of such employee had not been reduced or to the same extent as other employees not participating in the short-time compensation program. For defined benefit retirement plans, the hours that are reduced under the short-time compensation plan shall be credited for purposes of participation, vesting, and accrual of benefits as

though the usual weekly hours of work had not been reduced. The dollar amount of employer contributions to a defined contribution plan that are based on a percentage of compensation may be less due to the reduction in the employee's compensation. Notwithstanding any other provision to the contrary, a certification that a reduction in health and retirement benefits is scheduled to occur during the duration of the plan and will be applicable equally to employees who are not participating in the short-time compensation program and to those employees who are participating satisfies this paragraph.

7. Certification by the employer that the aggregate reduction in work hours is in lieu of layoffs (temporary or permanent layoffs, or both). The application shall include an estimate of the number of workers who would have been laid off in the absence of the short-time compensation plan.

8. Agreement by the employer to: furnish reports to the Director relating to the proper conduct of the plan; allow the Director or his or her authorized representatives access to all records necessary to approve or disapprove the plan application, and after approval of a plan, to monitor and evaluate the plan; and follow any other directives the Director deems necessary for the agency to implement the plan and which are consistent with the requirements for plan applications.

9. Certification by the employer that participation in the short-time compensation plan and its implementation is consistent with the employer's obligations under applicable Federal and Illinois laws.

10. The effective date and duration of the plan, which shall expire no later than the end of the 12th full calendar month after the effective date.

11. Any other provision added to the application by the Director that the United States Secretary of Labor determines to be appropriate for purposes of a short-time compensation program.

D. The Director shall approve or disapprove a short-time compensation plan in writing within 45 days of its receipt and promptly communicate the decision to the employer. A decision disapproving the plan shall clearly identify the reasons for the disapproval. The disapproval shall be final, but the employer shall be allowed to submit another short-
time compensation plan for approval not earlier than 30 days from the date of the disapproval.

E. The short-time compensation plan shall be effective on the mutually agreed upon date by the employer and the Director, which shall be specified in the notice of approval to the employer. The plan shall expire on the date specified in the notice of approval, which shall be mutually agreed on by the employer and Director but no later than the end of the 12th full calendar month after its effective date. However, if a short-time compensation plan is revoked by the Director, the plan shall terminate on the date specified in the Director's written order of revocation. An employer may terminate a short-time compensation plan at any time upon written notice to the Director. Upon receipt of such notice from the employer, the Director shall promptly notify each member of the affected unit of the termination date. An employer may submit a new application to participate in another short-time compensation plan at any time after the expiration or termination date.

F. The Director may revoke approval of a short-time compensation plan for good cause at any time, including upon the request of any of the affected unit's employees or their collective bargaining representative. The revocation order shall be in writing and shall specify the reasons for the revocation and the date the revocation is effective. The Director may periodically review the operation of each employer's short-time compensation plan to assure that no good cause exists for revocation of the approval of the plan. Good cause shall include, but not be limited to, failure to comply with the assurances given in the plan, termination of the approval of the plan by a collective bargaining representative of employees in the affected unit, unreasonable revision of productivity standards for the affected unit, conduct or occurrences tending to defeat the intent and effective operation of the short-time compensation plan, and violation of any criteria on which approval of the plan was based.

G. An employer may request a modification of an approved plan by filing a written request to the Director. The request shall identify the specific provisions proposed to be modified and provide an explanation of why the proposed modification is appropriate for the short-time compensation plan. The Director shall approve or disapprove the proposed modification in writing within 30 days of receipt and promptly communicate the decision to the employer. The Director, in his or her discretion, may approve a request for modification of the plan based on conditions that have changed since the plan was approved provided that

New matter indicated by italics - deletions by strikeout
the modification is consistent with and supports the purposes for which the plan was initially approved. A modification may not extend the expiration date of the original plan, and the Director must promptly notify the employer whether the plan modification has been approved and, if approved, the effective date of modification. An employer is not required to request approval of plan modification from the Director if the change is not substantial, but the employer must report every change to plan to the Director promptly and in writing. The Director may terminate an employer's plan if the employer fails to meet this reporting requirement. If the Director determines that the reported change is substantial, the Director shall require the employer to request a modification to the plan.

H. An individual is eligible to receive short-time compensation with respect to any week only if the individual is eligible for unemployment insurance pursuant to subsection E of Section 500, not otherwise disqualified for unemployment insurance, and:

1. During the week, the individual is employed as a member of an affected unit under an approved short-time compensation plan, which was approved prior to that week, and the plan is in effect with respect to the week for which short-time compensation is claimed.

2. Notwithstanding any other provision of this Act relating to availability for work and actively seeking work, the individual is available for the individual's usual hours of work with the short-time compensation employer, which may include, for purposes of this Section, participating in training to enhance job skills that is approved by the Director, including but not limited to as employer-sponsored training or training funded under the federal Workforce Innovation and Opportunity Act Workforce Investment Act of 1998.

3. Notwithstanding any other provision of law, an individual covered by a short-time compensation plan is deemed unemployed in any week during the duration of such plan if the individual's remuneration as an employee in an affected unit is reduced based on a reduction of the individual's usual weekly hours of work under an approved short-time compensation plan.

I. The short-time compensation weekly benefit amount shall be the product of the percentage of reduction in the individual's usual weekly hours of work multiplied by the sum of the regular weekly benefit amount

New matter indicated by italics - deletions by strikeout
for a week of total unemployment plus any applicable dependent allowance pursuant to subsection C of Section 401.

1. An individual may be eligible for short-time compensation or unemployment insurance, as appropriate, except that no individual shall be eligible for combined benefits (excluding any payments attributable to a dependent allowance pursuant to subsection C of Section 401) in any benefit year in an amount more than the maximum benefit amount, nor shall an individual be paid short-time compensation benefits for more than 52 weeks under a short-time compensation plan.

2. The short-time compensation paid to an individual (excluding any payments attributable to a dependent allowance pursuant to subsection C of Section 401) shall be deducted from the maximum benefit amount established for that individual's benefit year.

3. Provisions applicable to unemployment insurance claimants shall apply to short-time compensation claimants to the extent that they are not inconsistent with short-time compensation provisions. An individual who files an initial claim for short-time compensation benefits shall receive a monetary determination.

4. The following provisions apply to individuals who work for both a short-time compensation employer and another employer during weeks covered by the approved short-time compensation plan:

   i. If combined hours of work in a week for both employers do not result in a reduction of at least 20% of the usual weekly hours of work with the short-time compensation employer, the individual shall not be entitled to benefits under this Section.

   ii. If combined hours of work for both employers results in a reduction equal to or greater than 20% of the usual weekly hours of work for the short-time compensation employer, the short-time compensation benefit amount payable to the individual is reduced for that week and is determined by multiplying the percentage by which the combined hours of work have been reduced by the sum of the weekly benefit amount for a week of total unemployment plus any applicable dependent allowance pursuant to subsection C of Section 401. A week for which
benefits are paid under this subparagraph shall be reported as a week of short-time compensation.

iii. If an individual worked the reduced percentage of the usual weekly hours of work for the short-time compensation employer and is available for all his or her usual hours of work with the short-time compensation employer, and the individual did not work any hours for the other employer either because of the lack of work with that employer or because the individual is excused from work with the other employer, the individual shall be eligible for short-time compensation for that week. The benefit amount for such week shall be calculated as provided in the introductory clause of this subsection I.

iv. An individual who is not provided any work during a week by the short-time compensation employer, or any other employer, and who is otherwise eligible for unemployment insurance shall be eligible for the amount of regular unemployment insurance determined without regard to this Section.

v. An individual who is not provided any work by the short-time compensation employer during a week, but who works for another employer and is otherwise eligible may be paid unemployment insurance for that week subject to the disqualifying income and other provisions applicable to claims for regular unemployment insurance.

J. Short-time compensation shall be charged to employers in the same manner as unemployment insurance is charged under Illinois law. Employers liable for payments in lieu of contributions shall have short-time compensation attributed to service in their employ in the same manner as unemployment insurance is attributed. Notwithstanding any other provision to the contrary, to the extent that short-term compensation payments under this Section are reimbursed by the federal government, no benefit charges or payments in lieu of contributions shall be accrued by a participating employer.

K. A short-time compensation plan shall not be approved for an employer that is delinquent in the filing of any reports required or the payment of contributions, payments in lieu of contributions, interest, or penalties due under this Act through the date of the employer's application.

L. Overpayments of other benefits under this Act may be recovered from an individual receiving short-time compensation under this Act in the manner provided under Sections 900 and 901. Overpayments under the short-time compensation plan may be recovered from an individual receiving other benefits under this Act in the manner provided under Sections 900 and 901.

M. An individual who has received all of the short-time compensation or combined unemployment insurance and short-time compensation available in a benefit year shall be considered an exhaustee for purposes of extended benefits, as provided under the provisions of Section 409, and, if otherwise eligible under those provisions, shall be eligible to receive extended benefits.

The State Guardian shall provide a training program that outlines the duties and responsibilities of guardians appointed under Article XIa of the Probate Act of 1975. The training program shall be offered to courts at no cost, and shall outline the responsibilities of a guardian and the rights of a person with a disability in a guardianship proceeding under Article XIa of the Probate Act of 1975. In developing the training program content, the State Guardian shall consult with the courts, State and national guardianship organizations, public guardians, advocacy organizations, and persons and family members with direct experience with adult guardianship. In the preparation and dissemination of training materials, the State Guardian shall give due consideration to making the training materials accessible to persons with disabilities.

Section 10. The Probate Act of 1975 is amended by changing Sections 11a-12, 11a-21, 13-1, and 13-1.2 as follows:

(755 ILCS 5/11a-12) (from Ch. 110 1/2, par. 11a-12)

Sec. 11a-12. Order of appointment.)

(a) If basis for the appointment of a guardian as specified in Section 11a-3 is not found, the court shall dismiss the petition.

(b) If the respondent is adjudged to be a person with a disability and to lack some but not all of the capacity as specified in Section 11a-3, and if the court finds that guardianship is necessary for the protection of the person with a disability, his or her estate, or both, the court shall appoint a limited guardian for the respondent's person or estate or both. The court shall enter a written order stating the factual basis for its findings and specifying the duties and powers of the guardian and the legal disabilities to which the respondent is subject.

(c) If the respondent is adjudged to be a person with a disability and to be totally without capacity as specified in Section 11a-3, and if the court finds that limited guardianship will not provide sufficient protection
for the person with a disability, his or her estate, or both, the court shall
appoint a plenary guardian for the respondent's person or estate or both.
The court shall enter a written order stating the factual basis for its
findings.

(d) The selection of the guardian shall be in the discretion of the
court, which shall give due consideration to the preference of the person
with a disability as to a guardian, as well as the qualifications of the
proposed guardian, in making its appointment. However, the paramount
concern in the selection of the guardian is the best interest and well-being
of the person with a disability.

(e) The order of appointment of a guardian of the person in any
county with a population of less than 3 million shall include the
requirement that the guardian of the person complete the training
program as provided in Section 33.5 of the Guardianship and Advocacy
Act that outlines the responsibilities of the guardian of the person and the
rights of the person under guardianship and file with the court a
certificate of completion one year from the date of issuance of the letters
of guardianship, except that: (1) the chief judge of any circuit may order
implementation of another training program by a suitable provider
containing substantially similar content; (2) employees of the Office of the
State Guardian, public guardians, attorneys currently authorized to
practice law, corporate fiduciaries, and persons certified by the Center for
Guardianship Certification are exempt from this training requirement;
and (3) the court may, for good cause shown, exempt from this
requirement an individual not otherwise listed in item (2). For the
purposes of this subsection (e), good cause may be proven by affidavit. If
the court finds good cause to exempt an individual from the training
requirement, the order of appointment shall so state.

The Governor may designate, without the advice and consent of the Senate, the Office of State Guardian as an interim public guardian to fill a vacancy in one or more counties having a population of 500,000 or less if the designation:

(1) is specifically designated as an interim appointment for a term of the lesser of one year or until the Governor appoints, with the advice and consent of the Senate, a county public guardian to fill the vacancy;

(2) requires the Office of State Guardian to affirm its availability to act in the county; and

The Governor may appoint the same person to serve as public guardian and public administrator in one or more counties. In considering

administrator to travel to multiple counties and manage estates in multiple
counties. Each person so appointed holds his office for 4 years from the
first Monday of December, 1977 and every 4 years thereafter or until his
successor is appointed and qualified.

(820 ILCS 405/1507.1)

Sec. 1507.1. Transfer of trade or business; contribution rate. Notwithstanding any other provision of this Act:

A.(1) If an individual or entity transfers its trade or business, or a portion thereof, to another individual or entity and, at the time of the transfer, there is any substantial common ownership, management, or control of the transferor and transferee, then the experience rating record attributable to the records of the transferred trade or business transferor and transferee shall be transferred to the transferee combined for the purpose of determining their rates of contribution. For purposes of this subsection,
a transfer of trade or business includes but is not limited to the transfer of some or all of the transferor's workforce. For purposes of calculating the contribution rates of the transferor and transferee pursuant to this paragraph, within 30 days of the date of a transfer to which this paragraph applies, the transferor and transferee shall provide to the Department such information, as the Director by rule prescribes, which will show the portion of the transferor's experience rating record that is attributable to the transferred trade or business.

(1.5) If, following a transfer of experience rating records under paragraph (1), the Director determines that a substantial purpose of the transfer of trade or business was to obtain a reduced liability for contributions, the experience rating accounts of the employers involved shall be combined into a single account and a single rate shall be assigned to the account.

(2) For the calendar year in which there occurs a transfer to which paragraph (1) or (1.5) applies:

(a) If the transferor or transferee had a contribution rate applicable to it for the calendar year, it shall continue with that contribution rate for the remainder of the calendar year.

(b) If the transferee had no contribution rate applicable to it for the calendar year, then the contribution rate of the transferee shall be computed for the calendar year based on the experience rating record of the transferor or, where there is more than one transferor, the combined experience rating records of the transferors, subject to the 5.4% rate ceiling established pursuant to subsection G of Section 1506.1 and subsection A of Section 1506.3.

B. If any individual or entity that is not an employer under this Act at the time of the acquisition acquires the trade or business of an employing unit, the experience rating record of the acquired business shall not be transferred to the individual or entity if the Director finds that the individual or entity acquired the business solely or primarily for the purpose of obtaining a lower rate of contributions. Evidence that a business was acquired solely or primarily for the purpose of obtaining a lower rate of contributions includes but is not necessarily limited to the following: the cost of acquiring the business is low in relation to the individual's or entity's overall operating costs subsequent to the acquisition; the individual or entity discontinued the business enterprise of the acquired business immediately or shortly after the acquisition; or the

New matter indicated by italics - deletions by strikeout
individual or entity hired a significant number of individuals for performance of duties unrelated to the business activity conducted prior to acquisition.

C. An individual or entity to which subsection A applies shall pay contributions with respect to each calendar year at a rate consistent with that subsection, and an individual or entity to which subsection B applies shall pay contributions with respect to each calendar year at a rate consistent with that subsection. If an individual or entity knowingly violates or attempts to violate this subsection, the individual or entity shall be subject to the following penalties:

(1) If the individual or entity is an employer, then, in addition to the contribution rate that would otherwise be calculated (including any fund building rate provided for pursuant to Section 1506.3), the employer shall be assigned a penalty contribution rate equivalent to 50% of the contribution rate (including any fund building rate provided for pursuant to Section 1506.3), as calculated without regard to this subsection for the calendar year with respect to which the violation or attempted violation occurred and the immediately following calendar year. In the case of an employer whose contribution rate, as calculated without regard to this subsection or Section 1506.3, equals or exceeds the maximum rate established pursuant to paragraph 2 of subsection E of Section 1506.1, the penalty rate shall equal 50% of the sum of that maximum rate and the fund building rate provided for pursuant to Section 1506.3. In the case of an employer whose contribution rate is subject to the 5.4% rate ceiling established pursuant to subsection G of Section 1506.1 and subsection A of Section 1506.3, the penalty rate shall equal 2.7%. If any product obtained pursuant to this subsection is not an exact multiple of one-tenth of 1%, it shall be increased or reduced, as the case may be, to the nearer multiple of one-tenth of 1%. If such product is equally near to 2 multiples of one-tenth of 1%, it shall be increased to the higher multiple of one-tenth of 1%. Any payment attributable to the penalty contribution rate shall be deposited into the clearing account.

(2) If the individual or entity is not an employer, the individual or entity shall be subject to a penalty of $10,000 for each violation. Any penalty attributable to this paragraph (2) shall be deposited into the Special Administrative Account.
D. An individual or entity shall not knowingly advise another in a way that results in a violation of subsection C. An individual or entity that violates this subsection shall be subject to a penalty of $10,000 for each violation. Any such penalty shall be deposited into the Special Administrative Account.

E. Any individual or entity that knowingly violates subsection C or D shall be guilty of a Class B misdemeanor. In the case of a corporation, the president, the secretary, and the treasurer, and any other officer exercising corresponding functions, shall each be subject to the aforesaid penalty for knowingly violating subsection C or D.

F. The Director shall establish procedures to identify the transfer or acquisition of a trade or business for purposes of this Section.

G. For purposes of this Section:

"Experience rating record" shall consist of years during which liability for the payment of contributions was incurred, all benefit charges incurred, and all wages paid for insured work, including but not limited to years, benefit charges, and wages attributed to an individual or entity pursuant to Section 1507 or subsection A.

"Knowingly" means having actual knowledge of or acting with deliberate ignorance of or reckless disregard for the statutory provision involved.

"Transferee" means any individual or entity to which the transferor transfers its trade or business or any portion thereof.

"Transferor" means the individual or entity that transfers its trade or business or any portion thereof.

H. This Section shall be interpreted and applied in such a manner as to meet the minimum requirements contained in any guidance or regulations issued by the United States Department of Labor. Insofar as it applies to the interpretation and application of the term "substantial", as used in subsection A, this subsection H is not intended to alter the meaning of "substantially", as used in Section 1507 and construed by precedential judicial opinion, or any comparable term as elsewhere used in this Act.

In the case of an erroneous payment that occurred on or after January 1, 2015 and prior to the effective date of this amendatory Act of the 100th General Assembly, the employing unit may file the claim for adjustment or refund not later than June 30, 2018 or 3 years after the date of the erroneous payment, whichever is later, subject to all of the conditions otherwise applicable pursuant to this Section regarding a claim for adjustment or refund. Nothing herein contained shall prohibit the Director from making adjustment or refund upon his own initiative, within the time allowed for filing claim therefor, provided that the Director shall make no refund or adjustment of any contribution, the amount of which he has previously determined and assessed, if such contribution was paid after the determination and assessment became final.

If this State should not be certified for any year by the Secretary of Labor of the United States of America, or other appropriate Federal agency, under Section 3304 of the Federal Internal Revenue Code of 1954, the Director shall refund without interest to any instrumentality of the United States subject to this Act by virtue of permission granted in an Act of Congress, the amount of contributions paid by such instrumentality with respect to such year.

The Director may by regulation provide that, if there is a total credit balance of less than $2 in an employer's account with respect to contributions, interest, and penalties, the amount may be disregarded by the Director; once disregarded, the amount shall not be considered a credit balance in the account and shall not be subject to either an adjustment or a refund.

Sec. 17.1. Closing or settlement protection; independent escrowees.

(a) Notwithstanding the provisions of item (iii) of paragraph (B) of subsection (1) and subsection (9) of Section 3 of this Act, an independent escrowee is not authorized to act pursuant to subsection (9) of Section 3 of this Act in a nonresidential real property transaction where the amount of

settlement funds on deposit with the escrow agent is less than $2,000,000 or in a residential real property transaction unless, as part of the same transaction, closing protection letters protecting the buyer's or borrower's, lender's, and seller's interests have been issued by the independent escrowee.

(b) Unless otherwise agreed to between an independent escrowee and a protected person or entity, a closing protection letter under this Section shall indemnify all parties to a real property transaction against actual loss, not to exceed the amount of the settlement funds deposited with the independent escrowee. The closing protection letter shall in any event indemnify all parties to a real property transaction when such losses arise out of:

(1) failure of the independent escrowee to comply with written closing instructions to the extent that they relate to (A) the status of the title to an interest in land or the validity, enforceability, and priority of the lien of a mortgage on an interest in land, including the obtaining of documents and the disbursement of funds necessary to establish the status of title or lien or (B) the obtaining of any other document specifically required by a party to the real property transaction, but only to the extent that the failure to obtain such other document affects the status of the title to an interest in land or the validity, enforceability, and priority of the lien of a mortgage on an interest in land; or

(2) fraud, dishonesty, or negligence of the independent escrowee in handling funds or documents in connection with closings to the extent that the fraud, dishonesty, or negligence relates to the status of the title to the interest in land or to the validity, enforceability, and priority of the lien of a mortgage on an interest in land or, in the case of a seller, to the extent that the fraud, dishonesty, or negligence relates to funds paid to or on behalf of, or which should have been paid to or on behalf of, the seller.

(c) The indemnification under a closing protection letter may include limitations on the liability of the independent escrowee for any of the following:

(1) Failure of the independent escrowee to comply with closing instructions that require title insurance protection inconsistent with that set forth in the title insurance commitment for the real property transaction. Instructions that require the
removal of specific exceptions to title or compliance with the requirements contained in the title insurance commitment shall not be deemed to be inconsistent.

(2) Loss or impairment of funds in the course of collection or while on deposit with a bank due to bank failure, insolvency, or suspension, except such as shall result from failure of the independent escrowee closer to comply with written closing instructions to deposit the funds in a bank that is designated by name by a party to the real property transaction.

(3) Mechanics' and materialmen's liens in connection with sale, purchase, lease, or construction loan transactions, except to the extent that protection against such liens is afforded by a title insurance commitment or policy issued by the title insurance agent or title insurance company.

(4) Failure of the independent escrowee to comply with written closing instructions to the extent that such instructions require a determination by the independent escrowee of the validity, enforceability, or effectiveness of any document described in item (B) of paragraph (1) of subsection (b) of this Section.

(5) Fraud, dishonesty, or negligence of an employee, agent, attorney, or broker, who is not also the independent escrowee or an independent contract closer of the independent escrowee, of the indemnified party to the real property transaction.

(6) The settlement or release of any claim by the indemnified party to the real property transaction without the written consent of the independent escrowee.

(7) Any matters created, suffered, assumed, or agreed to by, or known to, the indemnified party to the real property transaction without the written consent of the independent escrowee.

The closing protection letter may also include reasonable additional provisions concerning the dollar amount of protection, provided the limit is no less than the amount deposited with the independent escrowee, arbitration, subrogation, claim notices, and other conditions and limitations that do not materially impair the protection required by this Section.

(d) The Secretary shall adopt and amend rules as may be required for the proper administration and enforcement of this Section consistent with the federal Real Estate Settlement Procedures Act and Section 24 of this Act.

*(House Bill No. 2820)*

AN ACT concerning health.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Food Handling Regulation Enforcement Act is amended by changing Section 3.3 as follows:

(410 ILCS 625/3.3)

Sec. 3.3. Farmers' markets.

(a) The General Assembly finds as follows:

(1) Farmers' markets, as defined in subsection (b) of this Section, provide not only a valuable marketplace for farmers and food artisans to sell their products directly to consumers, but also a place for consumers to access fresh fruits, vegetables, and other agricultural products.

New matter indicated by italics - deletions by strikeout
(2) Farmers' markets serve as a stimulator for local economies and for thousands of new businesses every year, allowing farmers to sell directly to consumers and capture the full retail value of their products. They have become important community institutions and have figured in the revitalization of downtown districts and rural communities.

(3) Since 1999, the number of farmers' markets has tripled and new ones are being established every year. There is a lack of consistent regulation from one county to the next, resulting in confusion and discrepancies between counties regarding how products may be sold.

(4) In 1999, the Department of Public Health published Technical Information Bulletin/Food #30 in order to outline the food handling and sanitation guidelines required for farmers' markets, producer markets, and other outdoor food sales events.

(5) While this bulletin was revised in 2010, there continues to be inconsistencies, confusion, and lack of awareness by consumers, farmers, markets, and local health authorities of required guidelines affecting farmers' markets from county to county.

(6) Recognizing that farmers' markets serve as small business incubators and that farmers' profit margins frequently are narrow, even in direct-to-consumer retail, protecting farmers from costs of regulation that are disproportionate to their profits will help ensure the continued viability of these local farms and small businesses.

(b) For the purposes of this Section:
"Department" means the Department of Public Health.
"Director" means the Director of Public Health.
"Farmers' market" means a common facility or area where the primary purpose is for farmers to gather to sell a variety of fresh fruits and vegetables and other locally produced farm and food products directly to consumers.

"Task Force" means the Farmers' Market Task Force.

(c) In order to facilitate the orderly and uniform statewide implementation and affordability of the standards established in the Department of Public Health's administrative rules for this Section, the Farmers' Market Task Force shall be formed by the Director to assist the
Department in implementing statewide administrative regulations for farmers' markets.

(d) This Section does not intend and shall not be construed to limit the power of counties, municipalities, and other local government units to regulate farmers' markets for the protection of the public health, safety, morals, and welfare, including, but not limited to, licensing requirements and time, place, and manner restrictions, except as specified in this Act. This Section provides for a statewide scheme for the orderly and consistent interpretation of the Department's administrative rules pertaining to the safety of food and food products sold at farmers' markets.

(e) The Farmers' Market Task Force shall consist of at least 24 members appointed within 60 days after August 16, 2011 (the effective date of this Section). Task Force members shall consist of:

1. one person appointed by the President of the Senate;
2. one person appointed by the Minority Leader of the Senate;
3. one person appointed by the Speaker of the House of Representatives;
4. one person appointed by the Minority Leader of the House of Representatives;
5. the Director of Public Health or his or her designee;
6. the Director of Agriculture or his or her designee;
7. a representative of a general agricultural production association appointed by the Department of Agriculture;
8. three representatives of local county public health departments appointed by the Director and selected from 3 different counties representing each of the northern, central, and southern portions of this State;
9. four members of the general public who are engaged in local farmers' markets appointed by the Director of Agriculture;
10. a representative of an association representing public health administrators appointed by the Director;
11. a representative of an organization of public health departments that serve the City of Chicago and the counties of Cook, DuPage, Kane, Kendall, Lake, McHenry, Will, and Winnebago appointed by the Director;
12. a representative of a general public health association appointed by the Director;

New matter indicated by italics - deletions by strikeout
(13) the Director of Commerce and Economic Opportunity
or his or her designee;
(14) the Lieutenant Governor or his or her designee; and
(15) five farmers who sell their farm products at farmers' markets appointed by the Lieutenant Governor or his or her designee; and:
(16) one person appointed by the Mayor of Chicago. Task Force members' terms shall be for a period of 2 years, with ongoing appointments made according to the provisions of this Section.
(f) The Task Force shall be convened by the Director or his or her designee. Members shall elect a Task Force Chair and Co-Chair.
(g) Meetings may be held via conference call, in person, or both. Three members of the Task Force may call a meeting as long as a 5-working-day notification is sent via mail, e-mail, or telephone call to each member of the Task Force.
(h) Members of the Task Force shall serve without compensation.
(i) The Task Force shall undertake a comprehensive and thorough review of the current Statutes and administrative rules that define which products and practices are permitted and which products and practices are not permitted at farmers' markets and to assist the Department in developing statewide administrative regulations for farmers' markets.
(j) The Task Force shall advise the Department regarding the content of any administrative rules adopted under this Section and Sections 3.4, 3.5, and 4 of this Act prior to adoption of the rules. Any administrative rules, except emergency rules adopted pursuant to Section 5-45 of the Illinois Administrative Procedure Act, adopted under this Section without obtaining the advice of the Task Force are null and void. If the Department fails to follow the advice of the Task Force, the Department shall, prior to adopting the rules, transmit a written explanation to the Task Force. If the Task Force, having been asked for its advice, fails to advise the Department within 90 days after receiving the rules for review, the rules shall be considered to have been approved by the Task Force.
(k) The Department of Public Health shall provide staffing support to the Task Force and shall help to prepare, print, and distribute all reports deemed necessary by the Task Force.
(l) The Task Force may request assistance from any entity necessary or useful for the performance of its duties. The Task Force shall
issue a report annually to the Secretary of the Senate and the Clerk of the House.

(m) The following provisions shall apply concerning statewide farmers' market food safety guidelines:

(1) The Director, in accordance with this Section, shall adopt administrative rules (as provided by the Illinois Administrative Procedure Act) for foods found at farmers' markets.

(2) The rules and regulations described in this Section shall be consistently enforced by local health authorities throughout the State.

(2.5) Notwithstanding any other provision of law except as provided in this Section, local public health departments and all other units of local government are prohibited from creating sanitation guidelines, rules, or regulations for farmers' markets that are more stringent than those farmers' market sanitation regulations contained in the administrative rules adopted by the Department for the purposes of implementing this Section and Sections 3.4, 3.5, and 4 of this Act. Except as provided for in Sections 3.4 and 4 of this Act, this Section does not intend and shall not be construed to limit the power of local health departments and other government units from requiring licensing and permits for the sale of commercial food products, processed food products, prepared foods, and potentially hazardous foods at farmers' markets or conducting related inspections and enforcement activities, so long as those permits and licenses do not include unreasonable fees or sanitation provisions and rules that are more stringent than those laid out in the administrative rules adopted by the Department for the purposes of implementing this Section and Sections 3.4, 3.5, and 4 of this Act.

(3) In the case of alleged non-compliance with the provisions described in this Section, local health departments shall issue written notices to vendors and market managers of any noncompliance issues.

(4) Produce and food products coming within the scope of the provisions of this Section shall include, but not be limited to, raw agricultural products, including fresh fruits and vegetables; popcorn, grains, seeds, beans, and nuts that are whole, unprocessed, unpackaged, and unsprouted; fresh herb springs and dried herbs in bunches; baked goods sold at farmers' markets; cut

fruits and vegetables; milk and cheese products; ice cream; syrups; wild and cultivated mushrooms; apple cider and other fruit and vegetable juices; herb vinegar; garlic-in-oil; flavored oils; pickles, relishes, salsas, and other canned or jarred items; shell eggs; meat and poultry; fish; ready-to-eat foods; commercially produced prepackaged food products; and any additional items specified in the administrative rules adopted by the Department to implement Section 3.3 of this Act.

(n) Local health department regulatory guidelines may be applied to foods not often found at farmers' markets, all other food products not regulated by the Department of Agriculture and the Department of Public Health, as well as live animals to be sold at farmers' markets.

(o) The Task Force shall issue annual reports to the Secretary of the Senate and the Clerk of the House with recommendations for the development of administrative rules as specified. The first report shall be issued no later than December 31, 2012.

(p) The Department of Public Health and the Department of Agriculture, in conjunction with the Task Force, shall adopt administrative rules necessary to implement, interpret, and make specific the provisions of this Section, including, but not limited to, rules concerning labels, sanitation, and food product safety according to the realms of their jurisdiction in accordance with subsection (j) of this Section.

(q) The Department and the Task Force shall work together to create a food sampling training and license program as specified in Section 3.4 of this Act.

(r) In addition to any rules adopted pursuant to subsection (p) of this Section, the following provisions shall be applied uniformly throughout the State, including to home rule units, except as otherwise provided in this Act:

(1) Farmers market vendors shall provide effective means to maintain potentially hazardous food, as defined in Section 4 of this Act, at 41 degrees Fahrenheit or below. As an alternative to mechanical refrigeration, an effectively insulated, hard-sided, cleanable container with sufficient ice or other cooling means that is intended for the storage of potentially hazardous food shall be used. Local health departments shall not limit vendors' choice of refrigeration or cooling equipment and shall not charge a fee for use of such equipment. Local health departments shall not be precluded from requiring an effective alternative form of cooling if

a vendor is unable to maintain food at the appropriate temperature.

(2) Handwashing stations may be shared by farmers' market vendors if handwashing stations are accessible to vendors.

(3) Charges deemed filed with the Department pursuant to subsection (A-1) of this Section shall be deemed to be in compliance with this subsection.

(1) If a charge is filed with the Equal Employment Opportunity Commission (EEOC) within 180 days after the date of the alleged civil rights violation, the charge shall be deemed filed with the Department on the date filed with the EEOC. If the EEOC is the governmental agency designated to investigate the charge first, the Department shall take no action until the EEOC makes a determination on the charge and after the complainant notifies the Department of the EEOC's determination. In such cases, after receiving notice from the EEOC that a charge was filed, the Department shall notify the parties that (i) a charge has been received by the EEOC and has been sent to the Department for dual filing purposes; (ii) the EEOC is the governmental agency responsible for investigating the charge and that the investigation shall be conducted pursuant to the rules and procedures adopted by the EEOC; (iii) it will take no action on the charge until the EEOC issues its determination; (iv) the complainant must submit a copy of the EEOC's determination within 30 days after service of the determination by the EEOC on complainant; and (v) that the time period to investigate the charge contained in subsection (G) of this Section is tolled from the date on which the charge is filed with the EEOC until the EEOC issues its determination.

(2) If the EEOC finds reasonable cause to believe that there has been a violation of federal law and if the Department is timely notified of the EEOC's findings by complainant, the Department shall notify complainant that the Department has adopted the EEOC's determination of reasonable cause and that complainant has the right, within 90 days after receipt of the Department's notice, to either file his or her own complaint with the Illinois Human Rights Commission or commence a civil action in the appropriate circuit court or other appropriate court of competent jurisdiction. The Department's notice to complainant that the Department has adopted the EEOC's determination of reasonable cause shall constitute the Department's Report for purposes of subparagraph (D) of this Section.

(3) For those charges alleging violations within the jurisdiction of both the EEOC and the Department and for which the EEOC either (i) does not issue a determination, but does issue the complainant a notice of a right to sue, including when the right to sue is issued at the request of the complainant, or (ii) determines that it is unable to establish that illegal discrimination has occurred and issues the complainant a right to sue notice, and if the Department is timely notified of the EEOC's determination by complainant, the Department shall notify the parties that the Department will adopt the EEOC's determination as a dismissal for lack of substantial evidence unless the complainant requests in writing within 35 days after receipt of the Department's notice that the Department review the EEOC's determination.

(a) If the complainant does not file a written request with the Department to review the EEOC's determination within 35 days after receipt of the Department's notice, the Department shall notify complainant that the decision of the EEOC has been adopted by the Department as a dismissal for lack of substantial evidence and that the complainant has the right, within 90 days after receipt of the Department's notice, to commence a civil action in the appropriate circuit court or other appropriate court of competent jurisdiction. (b) If the complainant does file a written request with the Department to review the EEOC's determination, the Department shall review the EEOC's determination and any evidence obtained by the EEOC during its investigation. If, after reviewing the EEOC's determination and any evidence obtained by the EEOC, the Department determines there is no need for further investigation of the charge, the Department shall issue a report and the Director shall determine whether there is substantial evidence that the alleged civil rights violation has been committed pursuant to subsection (D) of Section 7A-102. (4) Pursuant to this Section, if the EEOC dismisses the charge or a portion of the charge of discrimination because, under federal law, the EEOC lacks jurisdiction over the charge, and if, under this Act, the Department has jurisdiction over the charge of discrimination, the Department shall investigate the charge or portion of the charge dismissed by the EEOC for lack of jurisdiction pursuant to subsections (A), (A-1), (B), (B-1), (C), (D), (E), (F), (G), (H), (I), (J), and (K) of Section 7A-102 of this Act.

The term "good cause" shall be defined by rule promulgated by the Department. Within 30 days of receipt of the respondent's response, the complainant may file a reply to said response and shall serve a copy of said reply on the respondent or his or her representative. by registered or certified mail at least 10 days prior thereto and
either or both parties shall appear at the conference in person or by
attorney.
(3) The place fixed for the conference shall be within 35

(G) Time Limit.

(1) When a charge of a civil rights violation has been properly filed, the Department, within 365 days thereof or within any extension of that period agreed to in writing by all parties, shall issue its report as required by subparagraph (D). (2) If the Department has not issued its report within 365 days after the charge is filed, or any such longer period agreed to in writing by all the parties, the complainant shall have 90 days to either file his or her own complaint with the Human Rights Commission or commence a civil action in the appropriate circuit court. If the complainant files a complaint with the Commission, the form of the complaint shall be in accordance with the provisions of paragraph (F)(1). (1) The Department shall conduct a full investigation of the allegations set forth in the charge and complete such investigation within 100 days after the filing of the charge, unless it is impracticable to do so. The Department's failure to complete the

(3) The Director or his or her designated representative shall have authority to request any member of the Commission to issue subpoenas to compel the attendance of a witness or the production for examination of any books, records or documents whatsoever.

(D) Report.

(1) Each investigated charge shall be the subject of a report to the Director. (2) Upon review of the report and within 100 days of the filing of the charge, unless it is impracticable to do so, the Director shall determine whether there is substantial evidence that the alleged civil rights violation has been committed or is about to be committed. If the Director is unable to make the determination within 100 days after the filing of the charge, the Director shall notify the complainant and respondent in writing of the reasons for not doing so. The Director's failure to make the determination within 100 days after the proper filing of the charge does not deprive the Department of jurisdiction over the charge.

(a) If the Director determines that there is no substantial evidence, the charge shall be dismissed and theaggrieved party notified that he or she may seek review of the dismissal order before the Commission. (2) The place fixed for the conference shall be within 35 miles of the place where the civil rights violation is alleged to have been committed.

(3) Nothing occurring at the conference shall be made public or used as evidence in a subsequent proceeding for the purpose of proving a violation under this Act unless the complainant and respondent agree in writing that such disclosure be made.

(4) A conciliation agreement arising out of such conciliation shall be an agreement between the respondent and the complainant, and shall be subject to approval by the Department and Commission.

(5) A conciliation agreement may provide for binding arbitration of the dispute arising from the charge. Any such arbitration that results from a conciliation agreement may award appropriate relief, including monetary relief.

(6) Each conciliation agreement shall be made public unless the complainant and respondent otherwise agree and the Department determines that disclosure is not required to further the purpose of this Act.

(F) Complaint.

(1) When there is a failure to settle or adjust any charge through a conciliation conference and the charge is not dismissed, the Department shall prepare a written complaint, under oath or affirmation, stating the nature of the civil rights violation and the relief sought on behalf of the aggrieved party. Such complaint shall be based on the final investigation report and need not be limited to the facts or grounds alleged in the charge filed under subsection (A).

(2) The complaint shall be filed with the Commission.

(3) The Department may not issue a complaint under this Section regarding an alleged civil rights violation after the beginning of the trial of a civil action commenced by the aggrieved party under any State or federal law, seeking relief with respect to that alleged civil rights violation.

(G) Time Limit.

(1) When a charge of a civil rights violation has been properly filed, the Department, within 100 days thereof, unless it is impracticable to do so, shall either issue and file a complaint in the
manner and form set forth in this Section or shall order that no complaint be issued. Any such order shall be duly served upon both the aggrieved party and the respondent. The Department's failure to either issue and file a complaint or order that no complaint be issued within 100 days after the proper filing of the charge does not deprive the Department of jurisdiction over the charge.

(2) The Director shall make available to the aggrieved party and the respondent, at any time, upon request following completion of the Department's investigation, information derived from an investigation and any final investigative report relating to that investigation.

(H) This amendatory Act of 1995 applies to causes of action filed on or after January 1, 1996.

Sec. 28. Returned checks; fines. Any person who delivers a check or other payment to the Department that is returned to the Department unpaid by the financial institution upon which it is drawn shall pay to the Department, in addition to the amount already owed to the Department, a fine of $50. The fines imposed by this Section are in addition to any other discipline provided under this Act for unlicensed practice or practice on a nonrenewed license. The Department shall notify the person that payment of fees and fines shall be paid to the Department by certified check or money order within 30 calendar days of the notification. If, after the expiration of 30 days from the date of the notification, the person has failed to submit the necessary remittance, the Department shall automatically terminate the license or certificate or deny the application, without hearing. If, after termination or denial, the person seeks a license or certificate, he or she shall apply to the Department for restoration or issuance of the license or certificate and pay all fees and fines due to the Department. The Department may establish a fee for the processing of an application for restoration of a license or certificate to pay all expenses of processing this application. The Secretary Director may waive the fines due under this Section in individual cases where the Secretary Director finds that the fines would be unreasonable or unnecessarily burdensome.

The individual to be examined may have, at his or her own expense, another physician of his or her choice present during all aspects of the examination. Failure of any individual to submit to a mental or physical examination when directed shall result in the automatic suspension of his or her license until such time as the individual submits to the examination if the Board finds, after notice and hearing, that the refusal to submit to the examination was without reasonable cause. The Attorney General shall defend all such actions unless he or she determines either that there would be a conflict of interest in such representation or that the actions complained of were not in good faith or were willful and wanton.

If the Attorney General declines representation, the member shall have the right to employ counsel of his or her choice, whose fees shall be provided by the State, after approval by the Attorney General, unless there is a determination by a court that the member's actions were not in good faith or were willful and wanton.

The member must notify the Attorney General within 7 days of receipt of notice of the initiation of any action involving services of the Board. Failure to so notify the Attorney General shall constitute an absolute waiver of the right to a defense and indemnification.

The citation shall be issued to the licensee or other person alleged to have committed one or more violations and shall contain the licensee's or other person's name and address, the licensee's license number, if any, a brief factual statement, the Sections of this Act or the rules allegedly violated, and the penalty imposed, which shall not exceed $1,000. The citation must clearly state that if the cited person wishes to dispute the citation, he or she may request in writing, within 30 days after the citation is served, a hearing before the Department. If the cited person does not request a hearing within 30 days after the citation is served, then the citation shall become a final, non-disciplinary order and any fine imposed is due and payable. If the cited person requests a hearing within 30 days after the citation is served, the Department shall afford the cited person a hearing conducted in the same manner as a hearing provided in this Act for any violation of this Act and shall determine whether the cited person
committed the violation as charged and whether the fine as levied is warranted. If the violation is found, any fine shall constitute discipline and be due and payable within 30 days of the order of the Secretary. Failure to comply with any final order may subject the licensed person to further discipline or other action by the Department or a referral to the State's Attorney.

(b) A citation must be issued within 6 months after the reporting of a violation that is the basis for the citation.

(c) Service of a citation shall be made in person, electronically, or by mail to the licensee at the licensee's address of record or email address of record.

AN ACT concerning public aid.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Illinois Public Aid Code is amended by changing Section 5B-4 as follows:

Sec. 5B-4. Payment of assessment; penalty.

(a) The assessment imposed by Section 5B-2 shall be due and payable monthly, on the last State business day of the month for occupied bed days reported for the preceding third month prior to the month in which the tax is payable and due. A facility that has delayed payment due to the State's failure to reimburse for services rendered may request an extension on the due date for payment pursuant to subsection (b) and shall pay the assessment within 30 days of reimbursement by the Department. The Illinois Department may provide that county nursing homes directed and maintained pursuant to Section 5-1005 of the Counties Code may meet their assessment obligation by certifying to the Illinois Department that county expenditures have been obligated for the operation of the county nursing home in an amount at least equal to the amount of the assessment.

(a-5) The Illinois Department shall provide for an electronic submission process for each long-term care facility to report at a minimum the number of occupied bed days of the long-term care facility for the reporting period and other reasonable information the Illinois Department requires for the administration of its responsibilities under this Code. Beginning July 1, 2013, a separate electronic submission shall be completed for each long-term care facility in this State operated by a long-term care provider. The Illinois Department shall prepare an assessment bill stating the amount due and payable each month and submit it to each long-term care facility via an electronic process. Each assessment payment shall be accompanied by a copy of the assessment bill sent to the long-term care facility by the Illinois Department. To the extent practicable, the

Department shall coordinate the assessment reporting requirements with other reporting required of long-term care facilities.

(b) The Illinois Department is authorized to establish delayed payment schedules for long-term care providers that are unable to make assessment payments when due under this Section due to financial difficulties, as determined by the Illinois Department. The Illinois Department may not deny a request for delay of payment of the assessment imposed under this Article if the long-term care provider has not been paid for services provided during the month on which the assessment is levied or the Medicaid managed care organization has not been paid by the State.

(c) If a long-term care provider fails to pay the full amount of an assessment payment when due (including any extensions granted under subsection (b)), there shall, unless waived by the Illinois Department for reasonable cause, be added to the assessment imposed by Section 5B-2 a penalty assessment equal to the lesser of (i) 5% of the amount of the assessment payment not paid on or before the due date plus 5% of the portion thereof remaining unpaid on the last day of each month thereafter or (ii) 100% of the assessment payment amount not paid on or before the due date. For purposes of this subsection, payments will be credited first to unpaid assessment payment amounts (rather than to penalty or interest), beginning with the most delinquent assessment payments. Payment cycles of longer than 60 days shall be one factor the Director takes into account in granting a waiver under this Section.

(c-5) If a long-term care facility fails to file its assessment bill with payment, there shall, unless waived by the Illinois Department for reasonable cause, be added to the assessment due a penalty assessment equal to 25% of the assessment due. After July 1, 2013, no penalty shall be assessed under this Section if the Illinois Department does not provide a process for the electronic submission of the information required by subsection (a-5).

(d) Nothing in this amendatory Act of 1993 shall be construed to prevent the Illinois Department from collecting all amounts due under this Article pursuant to an assessment imposed before the effective date of this amendatory Act of 1993.

(e) Nothing in this amendatory Act of the 96th General Assembly shall be construed to prevent the Illinois Department from collecting all amounts due under this Code pursuant to an assessment, tax, fee, or

penalty imposed before the effective date of this amendatory Act of the 96th General Assembly.

(f) No installment of the assessment imposed by Section 5B-2 shall be due and payable until after the Department notifies the long-term care providers, in writing, that the payment methodologies to long-term care providers required under Section 5-5.4 of this Code have been approved by the Centers for Medicare and Medicaid Services of the U.S. Department of Health and Human Services and the waivers under 42 CFR 433.68 for the assessment imposed by this Section, if necessary, have been granted by the Centers for Medicare and Medicaid Services of the U.S. Department of Health and Human Services. Upon notification to the Department of approval of the payment methodologies required under Section 5-5.4 of this Code and the waivers granted under 42 CFR 433.68, all installments otherwise due under Section 5B-4 prior to the date of notification shall be due and payable to the Department upon written direction from the Department within 90 days after issuance by the Comptroller of the payments required under Section 5-5.4 of this Code.

determined the insurer does not have the appropriate preferred providers due to insufficient number, type, or unreasonable travel distance or delay, the insurer shall ensure, directly or indirectly, by terms contained in the payer contract, that the beneficiary will be provided the covered service at no greater cost to the beneficiary than if the service had been provided by a preferred provider. This paragraph (6) does not apply to: (A) a beneficiary who willfully chooses to access a non-preferred provider for health care services available through the panel of preferred providers, or (B) a beneficiary enrolled in a health maintenance organization. In these circumstances, the contractual requirements for non-preferred provider reimbursements shall apply.

(7) A provision that the beneficiary shall receive emergency care coverage such that payment for this coverage is not dependent upon whether the emergency services are performed by a preferred or non-preferred provider and the coverage shall be at the same benefit level as if the service or treatment had been rendered by a preferred provider. (c) The network plan shall demonstrate to the Director a minimum ratio of providers to plan beneficiaries as required by the Department.

These standards shall consist of the maximum minutes or miles to be traveled by a plan beneficiary for each county type, such as large counties, metro counties, or rural counties as defined by Department rule.

The maximum travel time and distance standards must include standards for each physician and other provider category listed for which ratios have been established.

New matter indicated by italics - deletions by strikeout
The Director shall establish a process for the review of the adequacy of these standards along with an assessment of additional specialties to be included in the list under this subsection (d).

(e) Except for network plans solely offered as a group health plan, these ratio and time and distance standards apply to the lowest cost-sharing tier of any tiered network.

(f) The network plan may consider use of other health care service delivery options, such as telemedicine or telehealth, mobile clinics, and centers of excellence, or other ways of delivering care to partially meet the requirements set under this Section.

(g) Insurers who are not able to comply with the provider ratios and time and distance standards established by the Department may request an exception to these requirements from the Department. The Department may grant an exception in the following circumstances:

1. if no providers or facilities meet the specific time and distance standard in a specific service area and the insurer (i) discloses information on the distance and travel time points that beneficiaries would have to travel beyond the required criterion to reach the next closest contracted provider outside of the service area and (ii) provides contact information, including names, addresses, and phone numbers for the next closest contracted provider or facility;

2. if patterns of care in the service area do not support the need for the requested number of provider or facility type and the insurer provides data on local patterns of care, such as claims data, referral patterns, or local provider interviews, indicating where the beneficiaries currently seek this type of care or where the physicians currently refer beneficiaries, or both; or

3. other circumstances deemed appropriate by the Department consistent with the requirements of this Act.

(h) Insurers are required to report to the Director any material change to an approved network plan within 15 days after the change occurs and any change that would result in failure to meet the requirements of this Act. Upon notice from the insurer, the Director shall reevaluate the network plan's compliance with the network adequacy and transparency standards of this Act.

Section 15. Notice of nonrenewal or termination.

(a) A network plan must give at least 60 days' notice of nonrenewal or termination of a provider to the provider and to the beneficiaries served

by the provider. The notice shall include a name and address to which a beneficiary or provider may direct comments and concerns regarding the nonrenewal or termination and the telephone number maintained by the Department for consumer complaints. Immediate written notice may be provided without 60 days' notice when a provider's license has been disciplined by a State licensing board or when the network plan reasonably believes direct imminent physical harm to patients under the providers care may occur.

(b) Primary care providers must notify active affected patients of nonrenewal or termination of the provider from the network plan, except in the case of incapacitation.

Section 20. Transition of services.
(a) A network plan shall provide for continuity of care for its beneficiaries as follows:

(1) If a beneficiary's physician or hospital provider leaves the network plan's network of providers for reasons other than termination of a contract in situations involving imminent harm to a patient or a final disciplinary action by a State licensing board and the provider remains within the network plan's service area, the network plan shall permit the beneficiary to continue an ongoing course of treatment with that provider during a transitional period for the following duration:

(A) 90 days from the date of the notice to the beneficiary of the provider's disaffiliation from the network plan if the beneficiary has an ongoing course of treatment; or

(B) if the beneficiary has entered the third trimester of pregnancy at the time of the provider's disaffiliation, a period that includes the provision of post-partum care directly related to the delivery.

(2) Notwithstanding the provisions of paragraph (1) of this subsection (a), such care shall be authorized by the network plan during the transitional period in accordance with the following:

(A) the provider receives continued reimbursement from the network plan at the rates and terms and conditions applicable under the terminated contract prior to the start of the transitional period;

(B) the provider adheres to the network plan's quality assurance requirements, including provision to the beneficiary.

network plan of necessary medical information related to such care; and

(C) the provider otherwise adheres to the network plan's policies and procedures, including, but not limited to, procedures regarding referrals and obtaining preauthorizations for treatment.

(3) The provisions of this Section governing health care provided during the transition period do not apply if the beneficiary has successfully transitioned to another provider participating in the network plan, if the beneficiary has already met or exceeded the benefit limitations of the plan, or if the care provided is not medically necessary.

(b) A network plan shall provide for continuity of care for new beneficiaries as follows:

(1) If a new beneficiary whose provider is not a member of the network plan's provider network, but is within the network plan's service area, enrolls in the network plan, the network plan shall permit the beneficiary to continue an ongoing course of treatment with the beneficiary's current physician during a transitional period:

(A) of 90 days from the effective date of enrollment if the beneficiary has an ongoing course of treatment; or

(B) if the beneficiary has entered the third trimester of pregnancy at the effective date of enrollment, that includes the provision of post-partum care directly related to the delivery.

(2) If a beneficiary, or a beneficiary's authorized representative, elects in writing to continue to receive care from such provider pursuant to paragraph (1) of this subsection (b), such care shall be authorized by the network plan for the transitional period in accordance with the following:

(A) the provider receives reimbursement from the network plan at rates established by the network plan;

(B) the provider adheres to the network plan's quality assurance requirements, including provision to the network plan of necessary medical information related to such care; and

(C) the provider otherwise adheres to the network plan's policies and procedures, including, but not limited to,
procedures regarding referrals and obtaining preauthorization for treatment.

(3) The provisions of this Section governing health care provided during the transition period do not apply if the beneficiary has successfully transitioned to another provider participating in the network plan, if the beneficiary has already met or exceeded the benefit limitations of the plan, or if the care provided is not medically necessary.

(c) In no event shall this Section be construed to require a network plan to provide coverage for benefits not otherwise covered or to diminish or impair preexisting condition limitations contained in the beneficiary's contract.

Section 25. Network transparency.

(a) A network plan shall post electronically an up-to-date, accurate, and complete provider directory for each of its network plans, with the information and search functions, as described in this Section.

(1) In making the directory available electronically, the network plans shall ensure that the general public is able to view all of the current providers for a plan through a clearly identifiable link or tab and without creating or accessing an account or entering a policy or contract number.

(2) The network plan shall update the online provider directory at least monthly. Providers shall notify the network plan electronically or in writing of any changes to their information as listed in the provider directory. The network plan shall update its online provider directory in a manner consistent with the information provided by the provider within 10 business days after being notified of the change by the provider. Nothing in this paragraph (2) shall void any contractual relationship between the provider and the plan.

(3) The network plan shall audit periodically at least 25% of its provider directories for accuracy, make any corrections necessary, and retain documentation of the audit. The network plan shall submit the audit to the Director upon request. As part of these audits, the network plan shall contact any provider in its network that has not submitted a claim to the plan or otherwise communicated his or her intent to continue participation in the plan's network.

PUBLIC ACT 100-0504
(House Bill No. 2810)

AN ACT concerning animals.
Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Humane Care for Animals Act is amended by changing Sections 3.04, 3.05, and 4 as follows:

(510 ILCS 70/3.04)
Sec. 3.04. Arrests and seizures; penalties.
(a) Any law enforcement officer making an arrest for an offense involving one or more companion animals under Section 3.01, 3.02, or 3.03, 4.01, or 7.1 of this Act may lawfully take possession of some or all of the companion animals in the possession of the person arrested. The officer, after taking possession of the companion animals, must file with the court before whom the complaint is made against any person so arrested an affidavit stating the name of the person charged in the complaint, a description of the condition of the companion animal or companion animals taken, and the time and place the companion animal or companion animals were taken, together with the name of the person from whom the companion animal or companion animals were taken and name of the person who claims to own the companion animal or companion animals if different from the person from whom the companion animal or companion animals were seized. He or she must at the same time deliver an inventory of the companion animal or companion animals taken to the court of competent jurisdiction. The officer must place the companion animal or companion animals in the custody of an animal control or animal shelter and the agency must retain custody of the companion animal or companion animals subject to an order of the court adjudicating the charges on the merits and before which the person complained against is required to appear for trial. If the animal control or animal shelter owns no facility capable of housing the companion animals, has no space to house the companion animals, or is otherwise unable to house the companion animals or the health or condition of the animals prevents their removal, the animals shall be impounded at the site of the violation pursuant to a court order authorizing the impoundment, provided that the person charged is an owner of the property. Employees or agents of the

animal control or animal shelter or law enforcement shall have the authority to access the on-site impoundment property for the limited purpose of providing care and veterinary treatment for the impounded animals and ensuring their well-being and safety. Upon for an on-site impoundment, a petition for posting of security may be filed under Section 3.05 of this Act. Disposition of the animals shall be controlled by Section 3.06 of this Act. The State's Attorney may, within 14 days after the seizure, file a "petition for forfeiture prior to trial" before the court having criminal jurisdiction over the alleged charges, asking for permanent forfeiture of the companion animals seized. The petition shall be filed with the court, with copies served on the impounding agency, the owner, and anyone claiming an interest in the animals. In a "petition for forfeiture prior to trial", the burden is on the prosecution to prove by a preponderance of the evidence that the person arrested violated Section 3.01, 3.02, 3.03, or 4.01, or 7.1 of this Act or Section 26-5 or 48-1 of the Criminal Code of 1961 or the Criminal Code of 2012.

(b) An owner whose companion animal or companion animals are removed by a law enforcement officer under this Section must be given written notice of the circumstances of the removal and of any legal remedies available to him or her. The notice must be delivered in person, posted at the place of seizure, or delivered to a person residing at the place of seizure or, if the address of the owner is different from the address of the person from whom the companion animal or companion animals were seized, delivered by registered mail to his or her last known address.

(c) In addition to any other penalty provided by law, upon conviction for violating Sections 3, 3.01, 3.02, or 3.03, 4.01, or 7.1 of this Act or Section 26-5 or 48-1 of the Criminal Code of 1961 or the Criminal Code of 2012, the court may order the convicted person to forfeit to an animal control or animal shelter the animal or animals that are the basis of the conviction. Upon an order of forfeiture, the convicted person is deemed to have permanently relinquished all rights to the animal or animals that are the basis of the conviction, if not already. The forfeited animal or animals shall be adopted or humanely euthanized. In no event may the convicted person or anyone residing in his or her household be permitted to adopt or otherwise possess the forfeited animal or animals. The court, additionally, may order that the convicted person and persons dwelling in the same household as the convicted person who conspired, aided, or abetted in the unlawful act that was the basis of the conviction, or who knew or should have known of the unlawful act, may not own,
harbor, or have custody or control of any other animals for a period of time that the court deems reasonable.

(510 ILCS 70/3.05)
Sec. 3.05. Security for companion animals and animals used for fighting purposes.
(a) In the case of companion animals as defined in Section 2.01a or animals used for fighting purposes in violation of Section 4.01 of this Act or Section 26-5 or 48-1 of the Criminal Code of 1961 or the Criminal Code of 2012 or a violation of 3.01, 3.02, 3.03, or 7.1 of this Act, the animal control or animal shelter having custody of the animal or animals may file a petition with the court requesting that the person from whom the animal or animals are seized, or the owner of the animal or animals, be ordered to post security. The security must be in an amount sufficient to secure payment of all reasonable expenses expected to be incurred by the animal control or animal shelter in caring for and providing for the animal or animals pending the disposition of the charges. Reasonable expenses include, but are not limited to, estimated medical care and boarding of the animal or animals for 30 days. The amount of the security shall be determined by the court after taking into consideration all of the facts and circumstances of the case, including, but not limited to, the recommendation of the impounding organization having custody and care of the seized animal or animals and the cost of caring for the animal or animals. If security has been posted in accordance with this Section, the animal control or animal shelter may draw from the security the actual costs incurred by the agency in caring for the seized animal or animals.

(b) Upon receipt of a petition, the court must set a hearing on the petition, to be conducted within 5 business days after the petition is filed. The petitioner must serve a true copy of the petition upon the defendant and the State's Attorney for the county in which the animal or animals were seized. The petitioner must also serve a true copy of the petition on any interested person. For the purposes of this subsection, "interested person" means an individual, partnership, firm, joint stock company, corporation, association, trust, estate, or other legal entity that the court determines may have a pecuniary interest in the animal or animals that are the subject of the petition. The court must set a hearing date to determine any interested parties. The court may waive for good cause shown the posting of security.

(c) If the court orders the posting of security, the security must be posted with the clerk of the court within 5 business days after the hearing. If the person ordered to post security does not do so, the animal or animals are forfeited by operation of law and the animal control or animal shelter having control of the animal or animals must dispose of the animal or animals through adoption or must humanely euthanize the animal. In no event may the defendant or any person residing in the defendant's household adopt the animal or animals.

(d) The impounding organization may file a petition with the court upon the expiration of the 30-day period requesting the posting of additional security. The court may order the person from whom the animal or animals were seized, or the owner of the animal or animals, to post additional security with the clerk of the court to secure payment of reasonable expenses for an additional period of time pending a determination by the court of the charges against the person from whom the animal or animals were seized.

(e) In no event may the security prevent the impounding organization having custody and care of the animal or animals from disposing of the animal or animals before the expiration of the 30-day period covered by the security if the court makes a final determination of the charges against the person from whom the animal or animals were seized. Upon the adjudication of the charges, the person who posted the security is entitled to a refund of the security, in whole or in part, for any expenses not incurred by the impounding organization.

(f) Notwithstanding any other provision of this Section to the contrary, the court may order a person charged with any violation of this Act to provide necessary food, water, shelter, and care for any animal or animals that are the basis of the charge without the removal of the animal or animals from their existing location and until the charges against the person are adjudicated. Until a final determination of the charges is made, any law enforcement officer, animal control officer, Department investigator, or an approved humane investigator may be authorized by an order of the court to make regular visits to the place where the animal or animals are being kept to ascertain if the animal or animals are receiving necessary food, water, shelter, and care. Nothing in this Section prevents any law enforcement officer, Department investigator, or approved humane investigator from applying for a warrant under this Section to seize any animal or animals being held by the person charged pending the

adjudication of the charges if it is determined that the animal or animals are not receiving the necessary food, water, shelter, or care.

(g) Nothing in this Act shall be construed to prevent the voluntary, permanent relinquishment of any animal by its owner to an animal control or animal shelter in lieu of posting security or proceeding to a forfeiture hearing. Voluntary relinquishment shall have no effect on the criminal charges that may be pursued by the appropriate authorities.

(h) If an owner of a companion animal is acquitted by the court of charges made pursuant to this Act, the court shall further order that any security that has been posted for the animal shall be returned to the owner by the impounding organization.

(i) The provisions of this Section only pertain to companion animals and animals used for fighting purposes.

(a-5) A predatory lending database program shall be established within Cook County. The program shall be administered in accordance with this Article. The inception date of the program shall be July 1, 2008. A predatory lending database program shall be expanded to include Kane, Peoria, and Will counties. The inception date of the expansion of the program as it applies to Kane, Peoria, and Will counties shall be July 1, 2010. Until the inception date, none of the duties, obligations, contingencies, or consequences of or from the program shall be imposed. The program shall apply to all mortgage applications that are governed by this Article and that are made or taken on or after the inception of the program.
(b) The database created under this program shall be maintained and administered by the Department. The database shall be designed to allow brokers, originators, counselors, title insurance companies, and closing agents to submit information to the database online. The database shall not be designed to allow those entities to retrieve information from the database, except as otherwise provided in this Article. Information submitted by the broker or originator to the Department may be used to populate the online form submitted by a counselor, title insurance company, or closing agent.

(c) Within 10 business days after taking a mortgage application, the broker or originator for any mortgage on residential property within the program area must submit to the predatory lending database all of the information required under Section 72 and any other information required by the Department by rule. Within 7 business days after receipt of the information, the Department shall compare that information to the housing counseling standards in Section 73 and issue to the borrower and the broker or originator a determination of whether counseling is recommended for the borrower. The borrower may not waive counseling. If at any time after submitting the information required under Section 72 the broker or originator (i) changes the terms of the loan or (ii) issues a new commitment to the borrower, then, within 5 business days thereafter, the broker or originator shall re-submit all of the information required under Section 72 and, within 4 business days after receipt of the information re-submitted by the broker or originator, the Department shall compare that information to the housing counseling standards in Section 73 and shall issue to the borrower and the broker or originator a new determination of whether re-counseling is recommended for the borrower based on the information re-submitted by the broker or originator. Within 7 business days after interviewing the borrower, the counselor must submit to the predatory lending database all of the information required under Section 74 and any other information required by the Department by rule. Reasonable and customary costs not to exceed $300 associated with counseling provided under the program shall be paid by the broker or originator and shall not be charged back to, or recovered from, the borrower. The Department shall annually calculate to the nearest dollar an adjusted rate for inflation. A counselor shall not recommend or suggest that a borrower contact any specific mortgage origination company, financial institution, or entity that deals in mortgage finance to obtain a loan, another quote, or for any other reason related to the specific mortgage transaction; however, a counselor may suggest that the borrower seek an opinion or a quote from another mortgage origination company, financial institution, or entity that deals in mortgage finance. insurance company or closing agent shall attach to the mortgage a certificate of exemption, as generated by the database. Each certificate of compliance or certificate of exemption must contain, at a minimum, one of the borrower's names on the mortgage loan and the property index number for the subject property. If the title insurance company or closing agent fails to attach the certificate of compliance or exemption, whichever is required, then the mortgage is not recordable. In addition, if any lis pendens for a residential mortgage foreclosure is recorded on the property within the program area, a certificate of service must be simultaneously recorded that affirms that a copy of the lis pendens was filed with the Department. A lis pendens filed after July 1, 2016 shall be filed with the Department electronically. If the certificate of service is not recorded, then the lis pendens pertaining to the residential mortgage foreclosure in question is not recordable and is of no force and effect.

(h) All information provided to the predatory lending database under the program is confidential and is not subject to disclosure under the Freedom of Information Act, except as otherwise provided in this Article. Information or documents obtained by employees of the Department in the course of maintaining and administering the predatory lending database are deemed confidential. Employees are prohibited from making disclosure of such confidential information or documents. Any request for production of information from the predatory lending database, whether by subpoena, notice, or any other source, shall be referred to the Department of Financial and Professional Regulation. Any borrower may authorize in writing the release of database information. The Department may use the information in the database without the consent of the borrower: (i) for the purposes of administering and enforcing the program; (ii) to provide relevant information to a counselor providing counseling to a borrower under the program; or (iii) to the appropriate law enforcement agency or the applicable administrative agency if the database information demonstrates criminal, fraudulent, or otherwise illegal activity.

(35 ILCS 5/704A)

Sec. 704A. Employer's return and payment of tax withheld.

(a) In general, every employer who deducts and withholds or is required to deduct and withhold tax under this Act on or after January 1, 2008 shall make those payments and returns as provided in this Section.

(b) Returns. Every employer shall, in the form and manner required by the Department, make returns with respect to taxes withheld or required to be withheld under this Article 7 for each quarter beginning on or after January 1, 2008, on or before the last day of the first month following the close of that quarter.

(c) Payments. With respect to amounts withheld or required to be withheld on or after January 1, 2008:

(1) Semi-weekly payments. For each calendar year, each employer who withheld or was required to withhold more than $12,000 during the one-year period ending on June 30 of the immediately preceding calendar year, payment must be made:

(A) on or before each Friday of the calendar year, for taxes withheld or required to be withheld on the immediately preceding Saturday, Sunday, Monday, or Tuesday;

(B) on or before each Wednesday of the calendar year, for taxes withheld or required to be withheld on the immediately preceding Wednesday, Thursday, or Friday.

Beginning with calendar year 2011, payments made under this paragraph (1) of subsection (c) must be made by electronic funds transfer.

(2) Semi-weekly payments. Any employer who withholds or is required to withhold more than $12,000 in any quarter of a calendar year is required to make payments on the dates set forth under item (1) of this subsection (c) for each remaining quarter of that calendar year and for the subsequent calendar year.

New matter indicated by italics - deletions by strikeout
(3) Monthly payments. Each employer, other than an employer described in items (1) or (2) of this subsection, shall pay to the Department, on or before the 15th day of each month the taxes withheld or required to be withheld during the immediately preceding month.

(4) Payments with returns. Each employer shall pay to the Department, on or before the due date for each return required to be filed under this Section, any tax withheld or required to be withheld during the period for which the return is due and not previously paid to the Department.

(d) Regulatory authority. The Department may, by rule:

(1) Permit employers, in lieu of the requirements of subsections (b) and (c), to file annual returns due on or before January 31 of the year for taxes withheld or required to be withheld during the previous calendar year and, if the aggregate amounts required to be withheld by the employer under this Article 7 (other than amounts required to be withheld under Section 709.5) do not exceed $1,000 for the previous calendar year, to pay the taxes required to be shown on each such return no later than the due date for such return.

(2) Provide that any payment required to be made under subsection (c)(1) or (c)(2) is deemed to be timely to the extent paid by electronic funds transfer on or before the due date for deposit of federal income taxes withheld from, or federal employment taxes due with respect to, the wages from which the Illinois taxes were withheld.

(3) Designate one or more depositories to which payment of taxes required to be withheld under this Article 7 must be paid by some or all employers.

(4) Increase the threshold dollar amounts at which employers are required to make semi-weekly payments under subsection (c)(1) or (c)(2).

(e) Annual return and payment. Every employer who deducts and withholds or is required to deduct and withhold tax from a person engaged in domestic service employment, as that term is defined in Section 3510 of the Internal Revenue Code, may comply with the requirements of this Section with respect to such employees by filing an annual return and paying the taxes required to be deducted and withheld on or before the 15th day of the fourth month following the close of the employer's taxable

year. The Department may allow the employer's return to be submitted with the employer's individual income tax return or to be submitted with a return due from the employer under Section 1400.2 of the Unemployment Insurance Act.

(f) Magnetic media and electronic filing. Any W-2 Form that, under the Internal Revenue Code and regulations promulgated thereunder, is required to be submitted to the Internal Revenue Service on magnetic media or electronically must also be submitted to the Department on magnetic media or electronically for Illinois purposes, if required by the Department.

(g) For amounts deducted or withheld after December 31, 2009, a taxpayer who makes an election under subsection (f) of Section 5-15 of the Economic Development for a Growing Economy Tax Credit Act for a taxable year shall be allowed a credit against payments due under this Section for amounts withheld during the first calendar year beginning after the end of that taxable year equal to the amount of the credit for the incremental income tax attributable to full-time employees of the taxpayer awarded to the taxpayer by the Department of Commerce and Economic Opportunity under the Economic Development for a Growing Economy Tax Credit Act for the taxable year and credits not previously claimed and allowed to be carried forward under Section 211(4) of this Act as provided in subsection (f) of Section 5-15 of the Economic Development for a Growing Economy Tax Credit Act. The credit or credits may not reduce the taxpayer's obligation for any payment due under this Section to less than zero. If the amount of the credit or credits exceeds the total payments due under this Section with respect to amounts withheld during the calendar year, the excess may be carried forward and applied against the taxpayer's liability under this Section in the succeeding calendar years as allowed to be carried forward under paragraph (4) of Section 211 of this Act. The credit or credits shall be applied to the earliest year for which there is a tax liability. If there are credits from more than one taxable year that are available to offset a liability, the earlier credit shall be applied first. Each employer who deducts and withholds or is required to deduct and withhold tax under this Act and who retains income tax withholdings under subsection (f) of Section 5-15 of the Economic Development for a Growing Economy Tax Credit Act must make a return with respect to such taxes and retained amounts in the form and manner that the Department, by rule, requires and pay to the Department or to a depositary designated by the Department those withheld taxes not retained by the taxpayer. purposes of this subsection (g), the term taxpayer shall include taxpayer and members of the taxpayer's unitary business group as defined under paragraph (27) of subsection (a) of Section 1501 of this Act. This Section is exempt from the provisions of Section 250 of this Act. No credit awarded under the Economic Development for a Growing Economy Tax Credit Act for agreements entered into on or after January 1, 2015 may be credited against payments due under this Section.

(h) An employer may claim a credit against payments due under this Section for amounts withheld during the first calendar year ending after the date on which a tax credit certificate was issued under Section 35 of the Small Business Job Creation Tax Credit Act. The credit shall be equal to the amount shown on the certificate, but may not reduce the taxpayer's obligation for any payment due under this Section to less than zero. If the amount of the credit exceeds the total payments due under this Section with respect to amounts withheld during the calendar year, the excess may be carried forward and applied against the taxpayer's liability under this Section in the 5 succeeding calendar years. The credit shall be applied to the earliest year for which there is a tax liability. If there are credits from more than one calendar year that are available to offset a liability, the earlier credit shall be applied first. This Section is exempt from the provisions of Section 250 of this Act.

Sec. 5-5. Definitions. As used in this Act:

"Applicant" means a Taxpayer that is operating a business located or that the Taxpayer plans to locate within the State of Illinois and that is engaged in interstate or intrastate commerce for the purpose of manufacturing, processing, assembling, warehousing, or distributing products, conducting research and development, providing tourism services, or providing services in interstate commerce, office industries, or agricultural processing, but excluding retail, retail food, health, or professional services. relocates substantially the same operation to another location in the State. This does not prohibit a Taxpayer from expanding its operations at another location in the State, provided that existing operations of a similar nature located within the State are not closed or substantially reduced. This also does not prohibit a Taxpayer from moving its operations from one location in the State to another location in the State for the purpose of expanding the operation provided that the Department determines that expansion cannot reasonably be accommodated within the municipality in which the business is located, or in the case of a business located in an incorporated area of the county, within the county in which the business is located, after conferring with the chief elected official of the municipality or county and taking into consideration any evidence offered by the municipality or county regarding the ability to accommodate expansion within the municipality or county.

"Committee" means the Illinois Business Investment Committee created under Section 5-25 of this Act within the Illinois Economic Development Board.

"Credit" means the amount agreed to between the Department and Applicant under this Act, but not to exceed the lesser of: (1) the sum of (i) 50% of the Incremental Income Tax attributable to New Employees at the Applicant's project and (ii) 10% of the training costs of New Employees; or (2) 100% of the Incremental Income Tax attributable to New Employees at the Applicant's project. However, if the project is located in an underserved area, then the amount of the Credit may not exceed the lesser of: (1) the sum of (i) 75% of the Incremental Income Tax attributable to New Employees at the Applicant's project and (ii) 10% of the training costs of New Employees; or (2) 100% of the Incremental Income Tax attributable to New Employees at the Applicant's project. If an Applicant agrees to hire the required number of New Employees, then the maximum amount of the Credit for that Applicant may be increased by an amount not to exceed 25% of the Incremental Income Tax attributable to retained employees at the Applicant's project; provided that, in order to receive the increase for retained employees, the Applicant must provide the additional evidence required under paragraph (3) of subsection (b) of Section 5-25.

"Department" means the Department of Commerce and Economic Opportunity.

"Director" means the Director of Commerce and Economic Opportunity.

"Full-time Employee" means an individual who is employed for consideration for at least 35 hours each week or who renders any other standard of service generally accepted by industry custom or practice as full-time employment. An individual for whom a W-2 is issued by a Professional Employer Organization (PEO) is a full-time employee if employed in the service of the Applicant for consideration for at least 35 hours each week or who renders any other standard of service generally accepted by industry custom or practice as full-time employment to Applicant.
