EFFECTIVE DATES OF PUBLIC ACTS

1970 CONSTITUTION, ARTICLE IV

"§ 10. Effective Date of Laws
The General Assembly shall provide by law for a uniform effective date for laws passed prior to June 1 of a calendar year. The General Assembly may provide for a different effective date in any law passed prior to June 1. A bill passed after May 31 shall not become effective prior to June 1 of the next calendar year unless the General Assembly by the vote of three-fifths of the members elected to each house provides for an earlier effective date."

5 ILLINOIS COMPILED STATUTES CHAPTER 75

75/1. Effective Date of Laws
"§1 (a) A bill passed prior to June 1 of a calendar year that does not provide for an effective date in the terms of the bill shall become effective on January 1 of the following year, or upon its becoming a law, whichever is later.

(b) A bill passed prior to June 1 of a calendar year that does provide for an effective date in the terms of the bill shall become effective on that date if that date is the same as or subsequent to the date the bill becomes a law; provided that if the effective date provided in the terms of the bill is prior to the date the bill becomes a law then the date the bill becomes a law shall be the effective date."

75/2. Special Effective Dates
"§2 A bill passed after May 31 of a calendar year shall become effective on June 1 of the next calendar year unless the General Assembly by a vote of three-fifths of the members elected to each house provides for an earlier effective date in the terms of the bill or unless the General Assembly provides for a later effective date in the terms of the bill; provided that if the effective date provided in the terms of the bill is prior to the date the bill becomes a law then the date the bill becomes a law shall be the effective date."

AN ACT concerning criminal law.
Be it enacted by the People of the State of Illinois, represented in
the General Assembly:

ARTICLE 1. BAIL REFORM

Section 1-1. This Article 1 may be referred to as the Bail Reform Act of 2017.

Section 1-3. Legislative findings.
The General Assembly recognizes that the promotion of public safety and protection of crime victim rights are 2 of the main focuses of our State's criminal justice system; it further acknowledges that protecting the rights of the accused is central to the integrity of our State's criminal justice system. With these focuses in mind, this amendatory Act of the 100th General Assembly establishes the Bail Reform Act of 2017 for the citizens of this State, in recognition that the decision-making behind pre-trial release shall not focus on a person's wealth and ability to afford monetary bail but shall instead focus on a person's threat to public safety or risk of failure to appear before a court of appropriate jurisdiction.

Section 1-5. The Criminal Code of 2012 is amended by changing Section 33G-9 as follows:

(720 ILCS 5/33G-9)
(Section scheduled to be repealed on June 11, 2022)
Sec. 33G-9. Repeal. This Article is repealed on June 11, 2022 5 years after it becomes law.

Section 1-10. The Code of Criminal Procedure of 1963 is amended by changing Sections 109-1, 110-5, 110-6, and 110-14 by adding Sections 102-7.1, 102-7.2, and 110-6.4 as follows:

(725 ILCS 5/102-7.1 new)

Sec. 102-7.2. "Category B offense".
"Category B offense" means a business offense, petty offense, Class C misdemeanor, Class B misdemeanor, Class A misdemeanor, Class 3 felony, or Class 4 felony, which is not specified in Category A.

(725 ILCS 5/109-1) (from Ch. 38, par. 109-1)
Sec. 109-1. Person arrested.
(a) A person arrested with or without a warrant shall be taken without unnecessary delay before the nearest and most accessible judge in that county, except when such county is a participant in a regional jail authority, in which event such person may be taken to the nearest and most accessible judge, irrespective of the county where such judge presides, and a charge shall be filed. Whenever a person arrested either with or without a warrant is required to be taken before a judge, a charge may be filed against such person by way of a two-way closed circuit television system, except that a hearing to deny bail to the defendant may not be conducted by way of closed circuit television.

(a-5) A person charged with an offense shall be allowed counsel at the hearing at which bail is determined under Article 110 of this Code. If the defendant desires counsel for his or her initial appearance but is unable to obtain counsel, the court shall appoint a public defender or licensed attorney at law of this State to represent him or her for purposes of that hearing.

(b) The judge shall:

   (1) Inform the defendant of the charge against him and shall provide him with a copy of the charge;
   (2) Advise the defendant of his right to counsel and if indigent shall appoint a public defender or licensed attorney at law of this State to represent him in accordance with the provisions of Section 113-3 of this Code;
   (3) Schedule a preliminary hearing in appropriate cases;
   (4) Admit the defendant to bail in accordance with the provisions of Article 110 of this Code; and
   (5) Order the confiscation of the person's passport or impose travel restrictions on a defendant arrested for first degree murder or other violent crime as defined in Section 3 of the Rights of Crime Victims and Witnesses Act, if the judge determines, based on the factors in Section 110-5 of this Code, that this will reasonably ensure the appearance of the defendant and compliance by the defendant with all conditions of release.

(c) The court may issue an order of protection in accordance with the provisions of Article 112A of this Code.

(d) At the initial appearance of a defendant in any criminal proceeding, the court must advise the defendant in open court that any foreign national who is arrested or detained has the right to have notice of the arrest or detention given to his or her country's consular representatives and the right to communicate with those consular representatives if the notice has not already been provided. The court must make a written record of so advising the defendant.

(e) If consular notification is not provided to a defendant before his or her first appearance in court, the court shall grant any reasonable request for a continuance of the proceedings to allow contact with the defendant's consulate. Any delay caused by the granting of the request by a defendant shall temporarily suspend for the time of the delay the period within which a person shall be tried as prescribed by subsections (a), (b), or (e) of Section 103-5 of this Code and on the day of the expiration of delay the period shall continue at the point at which it was suspended.

Sec. 110-5. Determining the amount of bail and conditions of release.

New matter indicated by italics - deletions by strikeout
(a) In determining the amount of monetary bail or conditions of release, if any, which will reasonably assure the appearance of a defendant as required or the safety of any other person or the community and the likelihood of compliance by the defendant with all the conditions of bail, the court shall, on the basis of available information, take into account such matters as the nature and circumstances of the offense charged, whether the evidence shows that as part of the offense there was a use of violence or threatened use of violence, whether the offense involved corruption of public officials or employees, whether there was physical harm or threats of physical harm to any public official, public employee, judge, prosecutor, juror or witness, senior citizen, child, or person with a disability, whether evidence shows that during the offense or during the arrest the defendant possessed or used a firearm, machine gun, explosive or metal piercing ammunition or explosive bomb device or any military or paramilitary armament, whether the evidence shows that the offense committed was related to or in furtherance of the criminal activities of an organized gang or was motivated by the defendant's membership in or allegiance to an organized gang, the condition of the victim, any written statement submitted by the victim or proffer or representation by the State regarding the impact which the alleged criminal conduct has had on the victim and the victim's concern, if any, with further contact with the defendant if released on bail, whether the offense was based on racial, religious, sexual orientation or ethnic hatred, the likelihood of the filing of a greater charge, the likelihood of conviction, the sentence applicable upon conviction, the weight of the evidence against such defendant, whether there exists motivation or ability to flee, whether there is any verification as to prior residence, education, or family ties in the local jurisdiction, in another county, state or foreign country, the defendant's employment, financial resources, character and mental condition, past conduct, prior use of alias names or dates of birth, and length of residence in the community, the consent of the defendant to periodic drug testing in accordance with Section 110-6.5, whether a foreign national defendant is lawfully admitted in the United States of America, whether the government of the foreign national maintains an extradition treaty with the United States by which the foreign government will extradite to the United States its national for a trial for a crime allegedly committed in the United States, whether the defendant is currently subject to deportation or exclusion under the immigration laws of the United States, whether the defendant, although a United States citizen, is considered under the law of any foreign state a

national of that state for the purposes of extradition or non-extradition to the United States, the amount of unrecovered proceeds lost as a result of the alleged offense, the source of bail funds tendered or sought to be tendered for bail, whether from the totality of the court's consideration, the loss of funds posted or sought to be posted for bail will not deter the defendant from flight, whether the evidence shows that the defendant is engaged in significant possession, manufacture, or delivery of a controlled substance or cannabis, either individually or in consort with others, whether at the time of the offense charged he or she was on bond or pre-trial release pending trial, probation, periodic imprisonment or conditional discharge pursuant to this Code or the comparable Code of any other state or federal jurisdiction, whether the defendant is on bond or pre-trial release pending the imposition or execution of sentence or appeal of sentence for any offense under the laws of Illinois or any other state or federal jurisdiction, whether the defendant is under parole, aftercare release, mandatory supervised release, or work release from the Illinois Department of Corrections or Illinois Department of Juvenile Justice or any penal institution or corrections department of any state or federal jurisdiction, the defendant's record of convictions, whether the defendant has been convicted of a misdemeanor or ordinance offense in Illinois or similar offense in other state or federal jurisdiction within the 10 years preceding the current charge or convicted of a felony in Illinois, whether the defendant was convicted of an offense in another state or federal jurisdiction that would be a felony if committed in Illinois within the 20 years preceding the current charge or has been convicted of such felony and released from the penitentiary within 20 years preceding the current charge if a penitentiary sentence was imposed in Illinois or other state or federal jurisdiction, the defendant's records of juvenile adjudication of delinquency in any jurisdiction, any record of appearance or failure to appear by the defendant at court proceedings, whether there was flight to avoid arrest or prosecution, whether the defendant escaped or attempted to escape to avoid arrest, whether the defendant refused to identify himself or herself, or whether there was a refusal by the defendant to be fingerprinted as required by law. Information used by the court in its findings or stated in or offered in connection with this Section may be by way of proffer based upon reliable information offered by the State or defendant. All evidence shall be admissible if it is relevant and reliable regardless of whether it would be admissible under the rules of evidence applicable at criminal trials. If the State presents evidence that the offense committed by

the defendant was related to or in furtherance of the criminal activities of an organized gang or was motivated by the defendant's membership in or allegiance to an organized gang, and if the court determines that the evidence may be substantiated, the court shall prohibit the defendant from associating with other members of the organized gang as a condition of bail or release. For the purposes of this Section, "organized gang" has the meaning ascribed to it in Section 10 of the Illinois Streetgang Terrorism Omnibus Prevention Act.

(a-5) There shall be a presumption that any conditions of release imposed shall be non-monetary in nature and the court shall impose the least restrictive conditions or combination of conditions necessary to reasonably assure the appearance of the defendant for further court proceedings and protect the integrity of the judicial proceedings from a specific threat to a witness or participant. Conditions of release may include, but not be limited to, electronic home monitoring, curfews, drug counseling, stay-away orders, and in-person reporting. The court shall consider the defendant's socio-economic circumstance when setting conditions of release or imposing monetary bail.

(b) The amount of bail shall be:

(1) Sufficient to assure compliance with the conditions set forth in the bail bond, which shall include the defendant's current address with a written admonishment to the defendant that he or she must comply with the provisions of Section 110-12 regarding any change in his or her address. The defendant's address shall at all times remain a matter of public record with the clerk of the court.

(2) Not oppressive.

(3) Considerate of the financial ability of the accused.

(4) When a person is charged with a drug related offense involving possession or delivery of cannabis or possession or delivery of a controlled substance as defined in the Cannabis Control Act, the Illinois Controlled Substances Act, or the Methamphetamine Control and Community Protection Act, the full street value of the drugs seized shall be considered. "Street value" shall be determined by the court on the basis of a proffer by the State based upon reliable information of a law enforcement official contained in a written report as to the amount seized and such proffer may be used by the court as to the current street value of the smallest unit of the drug seized.
(b-5) Upon the filing of a written request demonstrating reasonable cause, the State's Attorney may request a source of bail hearing either before or after the posting of any funds. If the hearing is granted, before the posting of any bail, the accused must file a written notice requesting that the court conduct a source of bail hearing. The notice must be accompanied by justifying affidavits stating the legitimate and lawful source of funds for bail. At the hearing, the court shall inquire into any matters stated in any justifying affidavits, and may also inquire into matters appropriate to the determination which shall include, but are not limited to, the following:

1. the background, character, reputation, and relationship to the accused of any surety; and
2. the source of any money or property deposited by any surety, and whether any such money or property constitutes the fruits of criminal or unlawful conduct; and
3. the source of any money posted as cash bail, and whether any such money constitutes the fruits of criminal or unlawful conduct; and
4. the background, character, reputation, and relationship to the accused of the person posting cash bail.

Upon setting the hearing, the court shall examine, under oath, any persons who may possess material information.

The State's Attorney has a right to attend the hearing, to call witnesses and to examine any witness in the proceeding. If bail has been previously revoked pursuant to subsection (f) of this Section or if bail has been denied to the defendant pursuant to subsection (e) of Section 110-6.1 or subsection (e) of Section 110-6.3, the defendant shall be required to present a verified application setting forth in detail any new facts not known or obtainable at the time of the previous revocation or denial of bail proceedings. If the court grants bail where it has been previously revoked or denied, the court shall state on the record of the proceedings the findings of facts and conclusion of law upon which such order is based.

(a-5) In addition to any other available motion or procedure under this Code, a person in custody for a Category B offense due to an inability to post monetary bail shall be brought before the court at the next available court date or 7 calendar days from the date bail was set, whichever is earlier, for a rehearing on the amount or conditions of bail or release pending further court proceedings. The court may reconsider conditions of release for any other person whose inability to post monetary bail is the sole reason for continued incarceration, including a person in custody for a Category A offense.

(b) Violation of the conditions of Section 110-10 of this Code or any special conditions of bail as ordered by the court shall constitute grounds for the court to increase the amount of bail, or otherwise alter the conditions of bail, or, where the alleged offense committed on bail is a forcible felony in Illinois or a Class 2 or greater offense under the Illinois Controlled Substances Act, the Cannabis Control Act, or the Methamphetamine Control and Community Protection Act, revoke bail pursuant to the appropriate provisions of subsection (e) of this Section.

(c) Reasonable notice of such application by the defendant shall be given to the State.

(d) Reasonable notice of such application by the State shall be given to the defendant, except as provided in subsection (e).

(e) Upon verified application by the State stating facts or circumstances constituting a violation or a threatened violation of any of the conditions of the bail bond the court may issue a warrant commanding any peace officer to bring the defendant without unnecessary delay before the court for a hearing on the matters set forth in the application. If the actual court before which the proceeding is pending is absent or otherwise unavailable another court may issue a warrant pursuant to this Section.

When the defendant is charged with a felony offense and while free on bail is charged with a subsequent felony offense and is the subject of a proceeding set forth in Section 109-1 or 109-3 of this Code, upon the filing of a verified petition by the State alleging a violation of Section 110-10 (a) (4) of this Code, the court shall without prior notice to the defendant, grant leave to file such application and shall order the transfer of the defendant and the application without unnecessary delay to the court before which the previous felony matter is pending for a hearing as provided in subsection (b) or this subsection of this Section. The defendant shall be held without bond pending transfer to and a hearing before such court. At the conclusion of the hearing based on a violation of the

conditions of Section 110-10 of this Code or any special conditions of bail as ordered by the court the court may enter an order increasing the amount of bail or alter the conditions of bail as deemed appropriate.

(f) Where the alleged violation consists of the violation of one or more felony statutes of any jurisdiction which would be a forcible felony in Illinois or a Class 2 or greater offense under the Illinois Controlled Substances Act, the Cannabis Control Act, or the Methamphetamine Control and Community Protection Act and the defendant is on bail for the alleged commission of a felony, or where the defendant is on bail for a felony domestic battery (enhanced pursuant to subsection (b) of Section 12-3.2 of the Criminal Code of 1961 or the Criminal Code of 2012), aggravated domestic battery, aggravated battery, unlawful restraint, aggravated unlawful restraint or domestic battery in violation of item (1) of subsection (a) of Section 12-3.2 of the Criminal Code of 1961 or the Criminal Code of 2012 against a family or household member as defined in Section 112A-3 of this Code and the violation is an offense of domestic battery against the same victim the court shall, on the motion of the State or its own motion, revoke bail in accordance with the following provisions:

(1) The court shall hold the defendant without bail pending the hearing on the alleged breach; however, if the defendant is not admitted to bail the hearing shall be commenced within 10 days from the date the defendant is taken into custody or the defendant may not be held any longer without bail, unless delay is occasioned by the defendant. Where defendant occasions the delay, the running of the 10 day period is temporarily suspended and resumes at the termination of the period of delay. Where defendant occasions the delay with 5 or fewer days remaining in the 10 day period, the court may grant a period of up to 5 additional days to the State for good cause shown. The State, however, shall retain the right to proceed to hearing on the alleged violation at any time, upon reasonable notice to the defendant and the court.

(2) At a hearing on the alleged violation the State has the burden of going forward and proving the violation by clear and convincing evidence. The evidence shall be presented in open court with the opportunity to testify, to present witnesses in his behalf, and to cross-examine witnesses if any are called by the State, and representation by counsel and if the defendant is indigent to have counsel appointed for him. The rules of evidence applicable in
criminal trials in this State shall not govern the admissibility of evidence at such hearing. Information used by the court in its findings or stated in or offered in connection with hearings for increase or revocation of bail may be by way of proffer based upon reliable information offered by the State or defendant. All evidence shall be admissible if it is relevant and reliable regardless of whether it would be admissible under the rules of evidence applicable at criminal trials. A motion by the defendant to suppress evidence or to suppress a confession shall not be entertained at such a hearing. Evidence that proof may have been obtained as a result of an unlawful search and seizure or through improper interrogation is not relevant to this hearing.

(3) Upon a finding by the court that the State has established by clear and convincing evidence that the defendant has committed a forcible felony or a Class 2 or greater offense under the Illinois Controlled Substances Act, the Cannabis Control Act, or the Methamphetamine Control and Community Protection Act while admitted to bail, or where the defendant is on bail for a felony domestic battery (enhanced pursuant to subsection (b) of Section 12-3.2 of the Criminal Code of 1961 or the Criminal Code of 2012), aggravated domestic battery, aggravated battery, unlawful restraint, aggravated unlawful restraint or domestic battery in violation of item (1) of subsection (a) of Section 12-3.2 of the Criminal Code of 1961 or the Criminal Code of 2012, against a family or household member as defined in Section 112A-3 of this Code and the violation is an offense of domestic battery, against the same victim, the court shall revoke the bail of the defendant and hold the defendant for trial without bail. Neither the finding of the court nor any transcript or other record of the hearing shall be admissible in the State's case in chief, but shall be admissible for impeachment, or as provided in Section 115-10.1 of this Code or in a perjury proceeding.

(4) If the bail of any defendant is revoked pursuant to paragraph (f) (3) of this Section, the defendant may demand and shall be entitled to be brought to trial on the offense with respect to which he was formerly released on bail within 90 days after the date on which his bail was revoked. If the defendant is not brought to trial within the 90 day period required by the preceding sentence, he shall not be held longer without bail. In computing the 90 day
period, the court shall omit any period of delay resulting from a continuance granted at the request of the defendant.

(5) If the defendant either is arrested on a warrant issued pursuant to this Code or is arrested for an unrelated offense and it is subsequently discovered that the defendant is a subject of another warrant or warrants issued pursuant to this Code, the defendant shall be transferred promptly to the court which issued such warrant. If, however, the defendant appears initially before a court other than the court which issued such warrant, the non-issuing court shall not alter the amount of bail herefore set on such warrant unless the court sets forth on the record of proceedings the conclusions of law and facts which are the basis for such altering of another court's bond. The non-issuing court shall not alter another courts bail set on a warrant unless the interests of justice and public safety are served by such action.

(g) The State may appeal any order where the court has increased or reduced the amount of bail or altered the conditions of the bail bond or granted bail where it has previously been revoked.

Sec. 110-6.4. Statewide risk assessment tool.
The Supreme Court may establish a statewide risk-assessment tool to be used in proceedings to assist the court in establishing bail for a defendant by assessing the defendant's likelihood of appearing at future court proceedings or determining if the defendant poses a real and present threat to the physical safety of any person or persons. The Supreme Court shall consider establishing a risk-assessment tool that does not discriminate on the basis of race, gender, educational level, socio-economic status, or neighborhood. If a risk assessment tool is utilized within a circuit that does not require a personal interview to be completed, the Chief Judge of the circuit or the Director of the Pre-trial Services Agency may exempt the requirement under Section 9 and subsection (a) of Section 7 of the Pretrial Services Act.

For the purpose of this Section, "risk assessment tool" means an empirically validated, evidence-based screening instrument that demonstrates reduced instances of a defendant's failure to appear for further court proceedings or prevents future criminal activity.

However, in no case shall the amount so allowed or credited exceed the amount of the fine.

(b) Subsection (a) does not apply to a person incarcerated for sexual assault as defined in paragraph (1) of subsection (a) of Section 5-9-1.7 of the Unified Code of Corrections.

(c) A person subject to bail on a Category B offense shall have $30 deducted from his or her monetary bail every day the person is incarcerated.

Each day of sentence credit shall reduce by one day the prisoner's period of imprisonment or recommitment under Section 3-3-9.

(2.2) A prisoner serving a term of natural life imprisonment or a prisoner who has been sentenced to death shall receive no sentence credit.

(3) The rules and regulations shall also provide that the Director may award up to 180 days additional sentence credit for good conduct in specific instances as the Director deems proper. The good conduct may include, but is not limited to, compliance with the rules and regulations of the Department, service to the Department, service to a community, or service to the State. However, the Director shall not award more than 90 days of sentence credit for good conduct to any prisoner who is serving a sentence for conviction of first degree murder, reckless homicide while under the influence of alcohol or any other drug, or aggravated driving under the influence of alcohol, other drug or drugs, or intoxicating compound or compounds, or any combination thereof as defined in subparagraph (F) of paragraph (1) of subsection (d) of Section 11-501 of the Illinois Vehicle Code, aggravated kidnapping, kidnapping, predatory criminal sexual assault of a child, aggravated criminal sexual assault, criminal sexual assault, deviate sexual assault, aggravated criminal sexual abuse, aggravated indecent liberties with a child, indecent liberties with a child, child pornography, heinous battery as described in Section 12-4.1 or subdivision (a)(2) of Section 12-3.05, aggravated battery of a spouse, aggravated battery of a spouse with a firearm, stalking, aggravated stalking, aggravated battery of a child as described in Section 12-4.3 or subdivision (b)(1) of Section 12-3.05, endangering the life or health of a child, or cruelty to a child. Eligible inmates for an award of sentence credit under this paragraph (3) may be selected to receive the credit at the Director's or his or her designee's sole discretion. Consideration may be based on, but not limited to, any available risk assessment analysis on the inmate, any history of conviction for violent crimes as defined by the Rights of Crime Victims and Witnesses Act, facts and circumstances of the inmate's holding offense or offenses, and the potential for rehabilitation.

The Director shall not award sentence credit under this paragraph (3) to an inmate unless the inmate has served a minimum of 60 days of the sentence; except nothing in this paragraph shall be construed to permit the Director to extend an inmate's sentence beyond that which was imposed by the court. Prior to awarding credit under this paragraph (3), the Director shall make a written determination that the inmate:

(A) is eligible for the sentence credit;
(B) has served a minimum of 60 days, or as close to 60 days as the sentence will allow; and
(C) has met the eligibility criteria established by rule.

The Director shall determine the form and content of the written determination required in this subsection. (3.5) The Department shall provide annual written reports to the Governor and the General Assembly on the award of sentence credit for good conduct, with the first report due January 1, 2014. The Department must publish both reports on its website within 48 hours of transmitting the reports to the Governor and the General Assembly. The reports must include:

(4) The rules and regulations shall also provide that the sentence credit accumulated and retained under paragraph (2.1) of subsection (a) of this Section by any inmate during specific periods of time in which such inmate is engaged full-time in substance abuse programs, correctional industry assignments, educational programs, behavior modification programs, life skills courses, or re-entry planning provided by the Department under this paragraph (4) and satisfactorily completes the assigned program as determined by the standards of the Department, shall be multiplied by a factor of 1.25 for program participation before August 11, 1993 and 1.50 for program participation on or after that date. The rules and regulations shall also provide that sentence credit, subject to the same offense limits and multiplier provided in this paragraph, may be provided to an inmate who was held in pre-trial detention prior to his or her current commitment to the Department of Corrections and successfully completed a full-time, 60-day or longer substance abuse program, educational program, behavior modification program, life skills course, or re-entry planning provided by the county department of corrections or county jail. Calculation of this county program credit shall be done at sentencing as provided in Section 5-4.5-100 of this Code and shall be included in the sentencing order. However, no inmate shall be eligible for the additional sentence credit under this paragraph (4) or (4.1) of this subsection (a) while assigned to a boot camp or electronic detention, or if convicted of an offense enumerated in subdivision (a)(2)(i), (ii), or (iii) of this Section that is committed on or after June 19, 1998 or subdivision (a)(2)(iv) of this Section that is committed on or after June 23, 2005 (the effective date of Public Act 94-71) or subdivision (a)(2)(v) of this Section that is committed on or after August 13, 2007 (the effective date of Public Act 95-134) or subdivision (a)(2)(vi) when the offense is committed on or after June 1, 2008 (the effective date of Public Act 95-625) or subdivision (a)(2)(vii) when the offense is committed on or after July 23, 2010 (the effective date of Public Act 96-1224), or if convicted of aggravated

driving under the influence of alcohol, other drug or drugs, or intoxicating compound or compounds or any combination thereof as defined in subparagraph (F) of paragraph (1) of subsection (d) of Section 11-501 of the Illinois Vehicle Code, or if convicted of aggravated driving under the influence of alcohol, other drug or drugs, or intoxicating compound or compounds or any combination thereof as defined in subparagraph (C) of paragraph (1) of subsection (d) of Section 11-501 of the Illinois Vehicle Code committed on or after January 1, 2011 (the effective date of Public Act 96-1230), or if convicted of an offense enumerated in paragraph (a)(2.4) of this Section that is committed on or after July 15, 1999 (the effective date of Public Act 91-121), or first degree murder, a Class X felony, criminal sexual assault, felony criminal sexual abuse, aggravated criminal sexual abuse, aggravated battery with a firearm as described in Section 12-4.2 or subdivision (e)(1), (e)(2), (e)(3), or (e)(4) of Section 12-3.05, or any predecessor or successor offenses with the same or substantially the same elements, or any inchoate offenses relating to the foregoing offenses. No inmate shall be eligible for the additional good conduct credit under this paragraph (4) who (i) has previously received increased good conduct credit under this paragraph (4) and has subsequently been convicted of a felony, or (ii) has previously served more than one prior sentence of imprisonment for a felony in an adult correctional facility.

Educational, vocational, substance abuse, behavior modification programs, life skills courses, re-entry planning, and correctional industry programs under which sentence credit may be increased under this paragraph (4) and paragraph (4.1) of this subsection (a) shall be evaluated by the Department on the basis of documented standards. The Department shall report the results of these evaluations to the Governor and the General Assembly by September 30th of each year. The reports shall include data relating to the recidivism rate among program participants.

Availability of these programs shall be subject to the limits of fiscal resources appropriated by the General Assembly for these purposes. Eligible inmates who are denied immediate admission shall be placed on a waiting list under criteria established by the Department. The inability of any inmate to become engaged in any such programs by reason of insufficient program resources or for any other reason established under the rules and regulations of the Department shall not be deemed a cause of action under which the Department or any employee or agent of the Department shall be liable for damages to the inmate.

(4.1) The rules and regulations shall also provide that an additional 90 days of sentence credit shall be awarded to any prisoner who passes high school equivalency testing while the prisoner is committed to the Department of Corrections. The sentence credit awarded under this paragraph (4.1) shall be in addition to, and shall not affect, the award of sentence credit under any other paragraph of this Section, but shall also be pursuant to the guidelines and restrictions set forth in paragraph (4) of subsection (a) of this Section. The sentence credit provided for in this paragraph shall be available only to those prisoners who have not previously earned a high school diploma or a high school equivalency certificate. If, after an award of the high school equivalency testing sentence credit has been made, the Department determines that the prisoner was not eligible, then the award shall be revoked. The Department may also award 90 days of sentence credit to any committed person who passed high school equivalency testing while he or she was held in pre-trial detention prior to the current commitment to the Department of Corrections.

(4.5) The rules and regulations on sentence credit shall also provide that when the court's sentencing order recommends a prisoner for substance abuse treatment and the crime was committed on or after September 1, 2003 (the effective date of Public Act 93-354), the prisoner shall receive no sentence credit awarded under clause (3) of this subsection (a) unless he or she participates in and completes a substance abuse treatment program. The Director may waive the requirement to participate in or complete a substance abuse treatment program and award the sentence credit in specific instances if the prisoner is not a good candidate for a substance abuse treatment program for medical, programming, or operational reasons. Availability of substance abuse treatment shall be subject to the limits of fiscal resources appropriated by the General Assembly for these purposes. If treatment is not available and the requirement to participate and complete the treatment has not been waived by the Director, the prisoner shall be placed on a waiting list under criteria established by the Department. The Director may allow a prisoner placed on a waiting list to participate in and complete a substance abuse education class or attend substance abuse self-help meetings in lieu of a substance abuse treatment program. A prisoner on a waiting list who is not placed in a substance abuse program prior to release may be eligible for a waiver and receive sentence credit under clause (3) of this subsection (a) at the discretion of the Director.

(4.6) The rules and regulations on sentence credit shall also provide that a prisoner who has been convicted of a sex offense as defined in Section 2 of the Sex Offender Registration Act shall receive no sentence credit unless he or she either has successfully completed or is participating in sex offender treatment as defined by the Sex Offender Management Board. However, prisoners who are waiting to receive treatment, but who are unable to do so due solely to the lack of resources on the part of the Department, may, at the Director's sole discretion, be awarded sentence credit at a rate as the Director shall determine.

(5) Whenever the Department is to release any inmate earlier than it otherwise would because of a grant of sentence credit for good conduct under paragraph (3) of subsection (a) of this Section given at any time during the term, the Department shall give reasonable notice of the impending release not less than 14 days prior to the date of the release to the State's Attorney of the county where the prosecution of the inmate took place, and if applicable, the State's Attorney of the county into which the inmate will be released. The Department must also make identification information and a recent photo of the inmate being released accessible on the Internet by means of a hyperlink labeled "Community Notification of Inmate Early Release" on the Department's World Wide Web homepage. The identification information shall include the inmate's: name, any known alias, date of birth, physical characteristics, commitment offense and county where conviction was imposed. The identification information shall be placed on the website within 3 days of the inmate's release and the information may not be removed until either: completion of the first year of mandatory supervised release or return of the inmate to custody of the Department.

(b) Whenever a person is or has been committed under several convictions, with separate sentences, the sentences shall be construed under Section 5-8-4 in granting and forfeiting of sentence credit.

(c) The Department shall prescribe rules and regulations for revoking sentence credit, including revoking sentence credit awarded for good conduct under paragraph (3) of subsection (a) of this Section. The Department shall prescribe rules and regulations for suspending or reducing the rate of accumulation of sentence credit for specific rule violations, during imprisonment. These rules and regulations shall provide that no inmate may be penalized more than one year of sentence credit for any one infraction.

When the Department seeks to revoke, suspend or reduce the rate of accumulation of any sentence credits for an alleged infraction of its rules, it shall bring charges therefor against the prisoner sought to be so deprived of sentence credits before the Prisoner Review Board as provided in subparagraph (a)(4) of Section 3-3-2 of this Code, if the amount of credit at issue exceeds 30 days or when during any 12 month period, the cumulative amount of credit revoked exceeds 30 days except where the infraction is committed or discovered within 60 days of scheduled release. In those cases, the Department of Corrections may revoke up to 30 days of sentence credit. The Board may subsequently approve the revocation of additional sentence credit, if the Department seeks to revoke sentence credit in excess of 30 days. However, the Board shall not be empowered to review the Department's decision with respect to the loss of 30 days of sentence credit within any calendar year for any prisoner or to increase any penalty beyond the length requested by the Department.

The Director of the Department of Corrections, in appropriate cases, may restore up to 30 days of sentence credits which have been revoked, suspended or reduced. Any restoration of sentence credits in excess of 30 days shall be subject to review by the Prisoner Review Board. However, the Board may not restore sentence credit in excess of the amount requested by the Director.

Nothing contained in this Section shall prohibit the Prisoner Review Board from ordering, pursuant to Section 3-3-9(a)(3)(i)(B), that a prisoner serve up to one year of the sentence imposed by the court that was not served due to the accumulation of sentence credit.

(d) If a lawsuit is filed by a prisoner in an Illinois or federal court against the State, the Department of Corrections, or the Prisoner Review Board, or against any of their officers or employees, and the court makes a specific finding that a pleading, motion, or other paper filed by the prisoner is frivolous, the Department of Corrections shall conduct a hearing to revoke up to 180 days of sentence credit by bringing charges against the prisoner sought to be deprived of the sentence credits before the Prisoner Review Board as provided in subparagraph (a)(8) of Section 3-3-2 of this Code. If the prisoner has not accumulated 180 days of sentence credit at the time of the finding, then the Prisoner Review Board may revoke all sentence credit accumulated by the prisoner.

(2.5) Except as provided in paragraph (4.7) of this subsection (a), the rules and regulations on sentence credit shall provide that a prisoner who is serving a sentence for aggravated arson committed on or after July 27, 2001 (the effective date of Public Act 92-176) shall receive no more than 4.5 days of sentence credit for each month of his or her sentence of imprisonment.

(2.6) Except as provided in paragraph (4.7) of this subsection (a), the rules and regulations on sentence credit shall provide that a prisoner who is serving a sentence for aggravated driving under the influence of alcohol, other drug or drugs, or intoxicating compound or compounds or any combination thereof as defined in subparagraph (C) of paragraph (1) of subsection (d) of Section 11-501 of the Illinois Vehicle Code committed on or after January 1, 2011 (the effective date of Public Act 96-1230) shall receive no more than 4.5 days of sentence credit for each month of his or her sentence of imprisonment.

(3) Except as provided in paragraph (4.7) of this subsection (a), the rules and regulations shall also provide that the Director may award up to 180 days of earned sentence credit for good conduct in specific instances as the Director deems proper. The good conduct may include, but is not limited to, compliance with the rules and regulations of the Department, service to the Department, service to a community, or service to the State.

Eligible inmates for an award of earned sentence credit under this paragraph (3) may be selected to receive the credit at the Director's or his or her designee's sole discretion. Eligibility for the additional earned sentence credit under this paragraph (3) shall be based on, but is not

The Director shall not award sentence credit under this paragraph (3) to an inmate unless the inmate has served a minimum of 60 days of the sentence; except nothing in this paragraph shall be construed to permit the Director to extend an inmate's sentence beyond that which was imposed by the court. Prior to awarding credit under this paragraph (3), the Director shall make a written determination that the inmate:

(A) is eligible for the earned sentence credit;
(B) has served a minimum of 60 days, or as close to 60 days as the sentence will allow;
(B-1) has received a risk/needs assessment or other relevant evaluation or assessment administered by the Department using a validated instrument; and

The Director shall determine the form and content of the written determination required in this subsection.

(3.5) The Department shall provide annual written reports to the Governor and the General Assembly on the award of earned sentence credit no later than February 1 of each year. The rules and regulations shall also provide that sentence credit, subject to the same offense limits and multiplier provided in this paragraph, may be provided to an inmate who was held in pre-trial detention prior to his or her current commitment to the Department of Corrections and successfully completed a full-time, 60-day or longer substance abuse program, educational program, behavior modification program, life skills course, or re-entry planning provided by the county department of corrections or county jail. Calculation of this county program credit shall be done at sentencing as provided in Section 5-4.5-100 of this Code and shall be included in the sentencing order. However, no inmate shall be eligible for the additional sentence credit under this paragraph (4) or (4.1) of this subsection (a) while assigned to a boot camp or electronic detention, or if convicted of an offense enumerated in subdivision (a)(2)(i), (ii), or (iii) of this Section that is committed on or after June 19, 1998 or subdivision (a)(2)(iv) of this Section that is committed on or after June 23, 2005 (the effective date of Public Act 94-71) or subdivision (a)(2)(v) of this Section that is committed on or after August 13, 2007 (the effective date of Public Act 95-134) or subdivision (a)(2)(vi) when the offense is committed on or after June 1, 2008 (the effective date of Public Act 95-625) or subdivision (a)(2)(vii) when the offense is committed on or after July 23, 2010 (the effective date of Public Act 96-1224), or if convicted of aggravated driving under the influence of alcohol, other drug or drugs, or intoxicating compound or any combination thereof as defined in subparagraph (F) of paragraph (1) of subsection (d) of Section 11-501 of the Illinois Vehicle Code, or if convicted of aggravated driving under the influence of alcohol, other drug or drugs, or intoxicating compound or any combination thereof as defined in subparagraph (C) of paragraph (1) of subsection (d) of Section 11-501 of the Illinois Vehicle Code committed on or after January 1, 2011 (the effective date of Public Act 96-1230), or if convicted of an offense enumerated in paragraph (a)(2.4) of this Section that is committed on or after July 15, 1999 (the effective date of Public Act 91-121), or first degree murder, a Class X felony, criminal sexual assault, felony criminal sexual abuse, aggravated

criminal sexual abuse; aggravated battery with a firearm as described in Section 12-4.2 or subdivision (e)(1), (e)(2), (e)(3), or (e)(4) of Section 12-3.05, or any predecessor or successor offenses with the same or substantially the same elements, or any inchoate offenses relating to the foregoing offenses.

Educational, vocational, substance abuse, behavior modification programs, life skills courses, re-entry planning, and correctional industry programs under which sentence credit may be increased under this paragraph (4) and paragraph (4.1) of this subsection (a) shall be evaluated by the Department on the basis of documented standards. The Department shall report the results of these evaluations to the Governor and the General Assembly by September 30th of each year. The reports shall include data relating to the recidivism rate among program participants.

Availability of these programs shall be subject to the limits of fiscal resources appropriated by the General Assembly for these purposes. Eligible inmates who are denied immediate admission shall be placed on a waiting list under criteria established by the Department. The inability of any inmate to become engaged in any such programs by reason of insufficient program resources or for any other reason established under the rules and regulations of the Department shall not be deemed a cause of action under which the Department or any employee or agent of the Department shall be liable for damages to the inmate.

(4.1) Except as provided in paragraph (4.7) of this subsection (a), the rules and regulations shall also provide that an additional 90 days of sentence credit shall be awarded to any prisoner who passes high school equivalency testing while the prisoner is committed to the Department of Corrections. The sentence credit awarded under this paragraph (4.1) shall be in addition to, and shall not affect, the award of sentence credit under any other paragraph of this Section, but shall also be pursuant to the guidelines and restrictions set forth in paragraph (4) of subsection (a) of this Section. The sentence credit provided for in this paragraph shall be available only to those prisoners who have not previously earned a high school diploma or a high school equivalency certificate. If, after an award of the high school equivalency testing sentence credit has been made, the Department determines that the prisoner was not eligible, then the award shall be revoked. The Department may also award 90 days of sentence credit to any committed person who passed high school equivalency testing while he or she was held in pre-trial detention prior to the current commitment to the Department of Corrections.

(4.5) The rules and regulations on sentence credit shall also provide that when the court's sentencing order recommends a prisoner for substance abuse treatment and the crime was committed on or after September 1, 2003 (the effective date of Public Act 93-354), the prisoner shall receive no sentence credit awarded under clause (3) of this subsection (a) unless he or she participates in and completes a substance abuse treatment program. The Director may waive the requirement to participate in or complete a substance abuse treatment program in specific instances if the prisoner is not a good candidate for a substance abuse treatment program for medical, programming, or operational reasons. Availability of substance abuse treatment shall be subject to the limits of fiscal resources appropriated by the General Assembly for these purposes. If treatment is not available and the requirement to participate and complete the treatment has not been waived by the Director, the prisoner shall be placed on a waiting list under criteria established by the Department. The Director may allow a prisoner placed on a waiting list to participate in and complete a substance abuse education class or attend substance abuse self-help meetings in lieu of a substance abuse treatment program. A prisoner on a waiting list who is not placed in a substance abuse program prior to release may be eligible for a waiver and receive sentence credit under clause (3) of this subsection (a) at the discretion of the Director.

(4.6) The rules and regulations on sentence credit shall also provide that a prisoner who has been convicted of a sex offense as defined in Section 2 of the Sex Offender Registration Act shall receive no sentence credit unless he or she either has successfully completed or is participating in sex offender treatment as defined by the Sex Offender Management Board. However, prisoners who are waiting to receive treatment, but who are unable to do so due solely to the lack of resources on the part of the Department, may, at the Director's sole discretion, be awarded sentence credit at a rate as the Director shall determine.

(4.7) On or after the effective date of this amendatory Act of the 100th General Assembly, sentence credit under paragraph (3), (4), or (4.1) of this subsection (a) may be awarded to a prisoner who is serving a sentence for an offense described in paragraph (2), (2.3), (2.4), (2.5), or (2.6) for credit earned on or after the effective date of this amendatory Act of the 100th General Assembly; provided, the award of the credits under this paragraph (4.7) shall not reduce the sentence of the prisoner to less than the following amounts:

New matter indicated by italics - deletions by strikeout

(ii) 60% of his or her sentence if the prisoner is required to serve 75% of his or her sentence, except if the prisoner is serving a sentence for gunrunning his or her sentence shall not be reduced to less than 75%.

This paragraph (4.7) shall not apply to a prisoner serving a sentence for an offense described in subparagraph (i) of paragraph (2) of this subsection (a).

(5) Whenever the Department is to release any inmate earlier than it otherwise would because of a grant of earned sentence credit under paragraph (3) of subsection (a) of this Section given at any time during the term, the Department shall give reasonable notice of the impending release not less than 14 days prior to the date of the release to the State's Attorney of the county where the prosecution of the inmate took place, and if applicable, the State's Attorney of the county into which the inmate will be released. The Department must also make identification information and a recent photo of the inmate being released accessible on the Internet by means of a hyperlink labeled "Community Notification of Inmate Early Release" on the Department's World Wide Web homepage. The identification information shall include the inmate's: name, any known alias, date of birth, physical characteristics, commitment offense and county where conviction was imposed. The identification information shall be placed on the website within 3 days of the inmate's release and the information may not be removed until either: completion of the first year of mandatory supervised release or return of the inmate to custody of the Department.

(b) Whenever a person is or has been committed under several convictions, with separate sentences, the sentences shall be construed under Section 5-8-4 in granting and forfeiting of sentence credit.

(c) The Department shall prescribe rules and regulations for revoking sentence credit, including revoking sentence credit awarded under paragraph (3) of subsection (a) of this Section. The Department shall prescribe rules and regulations for suspending or reducing the rate of accumulation of sentence credit for specific rule violations, during imprisonment. These rules and regulations shall provide that no inmate may be penalized more than one year of sentence credit for any one infraction.
When the Department seeks to revoke, suspend or reduce the rate of accumulation of any sentence credits for an alleged infraction of its rules, it shall bring charges therefor against the prisoner sought to be so deprived of sentence credits before the Prisoner Review Board as provided in subparagraph (a)(4) of Section 3-3-2 of this Code, if the amount of credit at issue exceeds 30 days or when during any 12 month period, the cumulative amount of credit revoked exceeds 30 days except where the infraction is committed or discovered within 60 days of scheduled release. In those cases, the Department of Corrections may revoke up to 30 days of sentence credit. The Board may subsequently approve the revocation of additional sentence credit, if the Department seeks to revoke sentence credit in excess of 30 days. However, the Board shall not be empowered to review the Department's decision with respect to the loss of 30 days of sentence credit within any calendar year for any prisoner or to increase any penalty beyond the length requested by the Department.

The Director of the Department of Corrections, in appropriate cases, may restore up to 30 days of sentence credits which have been revoked, suspended or reduced. Any restoration of sentence credits in excess of 30 days shall be subject to review by the Prisoner Review Board. However, the Board may not restore sentence credit in excess of the amount requested by the Director.

Nothing contained in this Section shall prohibit the Prisoner Review Board from ordering, pursuant to Section 3-3-9(a)(3)(i)(B), that a prisoner serve up to one year of the sentence imposed by the court that was not served due to the accumulation of sentence credit.

(d) If a lawsuit is filed by a prisoner in an Illinois or federal court against the State, the Department of Corrections, or the Prisoner Review Board, or against any of their officers or employees, and the court makes a specific finding that a pleading, motion, or other paper filed by the prisoner is frivolous, the Department of Corrections shall conduct a hearing to revoke up to 180 days of sentence credit by bringing charges against the prisoner sought to be deprived of the sentence credits before the Prisoner Review Board as provided in subparagraph (a)(8) of Section 3-3-2 of this Code. If the prisoner has not accumulated 180 days of sentence credit at the time of the finding, then the Prisoner Review Board may revoke all sentence credit accumulated by the prisoner.

(a) Statement of purpose. The General Assembly seeks to continue other successful programs that promote public safety, conserve valuable resources, and reduce recidivism by defendants who can lead productive lives by creating the Offender Initiative Program.

(a-1) Whenever any person who has not previously been convicted of, or placed on probation or conditional discharge for, any felony offense under the laws of this State, the laws of any other state, or the laws of the United States, is arrested for and charged with a probationable felony offense of theft, retail theft, forgery, possession of a stolen motor vehicle, burglary, possession of burglary tools, deceptive practices, disorderly conduct, criminal damage or trespass to property under Article 21 of the Criminal Code of 2012, criminal trespass to a residence, obstructing justice, or an offense involving fraudulent identification, or possession of cannabis, possession of a controlled substance, or possession of methamphetamine, the court, with the consent of the defendant and the State's Attorney, may continue this matter to allow a defendant to participate and complete the Offender Initiative Program.

passing high school equivalency testing or to work toward

Sec. 5-6-3.6. First Time Weapon Offender Program.
(a) The General Assembly has sought to promote public safety, reduce recidivism, and conserve valuable resources of the criminal justice system through the creation of diversion programs for non-violent offenders. This amendatory Act of the 100th General Assembly establishes a pilot program for first-time, non-violent offenders charged with certain weapons offenses. The General Assembly recognizes some persons, particularly young adults in areas of high crime or poverty, may have experienced trauma that contributes to poor decision making skills, and the creation of a diversionary program poses a greater benefit to the community and the person than incarceration. Under this program, a court, with the consent of the defendant and the State's Attorney, may sentence a defendant charged with an unlawful use of weapons offense under Section 24-1 of the Criminal Code of 2012 or aggravated unlawful use of a weapon offense under Section 24-1.6 of the Criminal Code of 2012, if punishable as a Class 4 felony or lower, to a First Time Weapon Offender Program.

(b) A defendant is not eligible for this Program if:
(1) the offense was committed during the commission of a violent offense as defined in subsection (h) of this Section;
(2) he or she has previously been convicted or placed on probation or conditional discharge for any violent offense under the laws of this State, the laws of any other state, or the laws of the United States;
(3) he or she had a prior successful completion of the First Time Weapon Offender Program under this Section;
(4) he or she has previously been adjudicated a delinquent minor for the commission of a violent offense;
(5) he or she is 21 years of age or older; or
(6) he or she has an existing order of protection issued against him or her.

New matter indicated by italics - deletions by strikeout
(b-5) In considering whether a defendant shall be sentenced to the First Time Weapon Offender Program, the court shall consider the following:

(1) the age, immaturity, or limited mental capacity of the defendant;
(2) the nature and circumstances of the offense;
(3) whether participation in the Program is in the interest of the defendant's rehabilitation, including any employment or involvement in community, educational, training, or vocational programs;
(4) whether the defendant suffers from trauma, as supported by documentation or evaluation by a licensed professional; and
(5) the potential risk to public safety.

(c) For an offense committed on or after the effective date of this amendatory Act of the 100th General Assembly and before January 1, 2023, whenever an eligible person pleads guilty to an unlawful use of weapons offense under Section 24-1 of the Criminal Code of 2012 or aggravated unlawful use of a weapon offense under Section 24-1.6 of the Criminal Code of 2012, which is punishable as a Class 4 felony or lower, the court, with the consent of the defendant and the State's Attorney, may, without entering a judgment, sentence the defendant to complete the First Time Weapon Offender Program. When a defendant is placed in the Program, the court shall defer further proceedings in the case until the conclusion of the period or until the filing of a petition alleging violation of a term or condition of the Program. Upon violation of a term or condition of the Program, the court may enter a judgment on its original finding of guilt and proceed as otherwise provided by law. Upon fulfillment of the terms and conditions of the Program, the court shall discharge the person and dismiss the proceedings against the person.

(d) The Program shall be at least 18 months and not to exceed 24 months, as determined by the court at the recommendation of the program administrator and the State's Attorney.

(e) The conditions of the Program shall be that the defendant:

(1) not violate any criminal statute of this State or any other jurisdiction;
(2) refrain from possessing a firearm or other dangerous weapon;
(3) obtain or attempt to obtain employment;

(4) attend educational courses designed to prepare the
defendant for obtaining a high school diploma or to work toward
passing high school equivalency testing or to work toward
completing a vocational training program;

(5) refrain from having in his or her body the presence of
any illicit drug prohibited by the Methamphetamine Control and
Community Protection Act, the Cannabis Control Act, or the
Illinois Controlled Substances Act, unless prescribed by a
physician, and submit samples of his or her blood or urine or both
for tests to determine the presence of any illicit drug;

(6) perform a minimum of 50 hours of community service;

(7) attend and participate in any Program activities
deemed required by the Program administrator, including but not
limited to: counseling sessions, in-person and over the phone
check-ins, and educational classes; and

(8) pay all fines, assessments, fees, and costs.

(f) The Program may, in addition to other conditions, require that
the defendant:

(1) wear an ankle bracelet with GPS tracking;

(2) undergo medical or psychiatric treatment, or treatment
or rehabilitation approved by the Department of Human Services;

and

(3) attend or reside in a facility established for the
instruction or residence of defendants on probation.

(g) There may be only one discharge and dismissal under this
Section. If a person is convicted of any offense which occurred within 5
years subsequent to a discharge and dismissal under this Section, the
discharge and dismissal under this Section shall be admissible in the
sentencing proceeding for that conviction as evidence in aggravation.

(h) For purposes of this Section, "violent offense" means any
offense in which bodily harm was inflicted or force was used against any
person or threatened against any person; any offense involving the
possession of a firearm or dangerous weapon; any offense involving
sexual conduct, sexual penetration, or sexual exploitation; violation of an
order of protection, stalking, hate crime, domestic battery, or any offense
of domestic violence.

AN ACT concerning business.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Consumer Fraud and Deceptive Business Practices Act is amended by changing Section 2L as follows:

(815 ILCS 505/2L) (from Ch. 121 1/2, par. 262L)
(Text of Section before amendment by P.A. 99-768)
Sec. 2L. Any retail sale of a motor vehicle made after January 1, 1968 to a consumer by a new motor vehicle dealer or used motor vehicle dealer within the meaning of Chapter 5 of the Illinois Vehicle Code is made subject to this Section.

(a) The dealer is liable to the purchasing consumer for the following share of the cost of the repair of Power Train components for a period of 30 days from date of delivery, unless the repairs have become necessary by abuse, negligence, or collision. The burden of establishing that a claim for repairs is not within this Section shall be on the selling dealer. The dealer's share of such repair costs is:

(1) in the case of a motor vehicle which is not more than 2 years old, 50%;
(2) in the case of a motor vehicle which is 2 or more, but less than 3 years old, 25%;
(3) in the case of a motor vehicle which is 3 or more, but less than 4 years old, 10%; and
(4) in the case of a motor vehicle which is 4 or more years old, none.

(b) Notwithstanding the foregoing, such a dealer and a purchasing consumer may negotiate a sale and purchase that is not subject to this Section if there is stamped on any purchase order, contract, agreement, or other instrument to be signed by the consumer as a part of that transaction, in at least 10-point bold type immediately above the signature line, the following:

"THIS VEHICLE IS SOLD AS IS WITH NO WARRANTY AS TO MECHANICAL CONDITION"

(c) As used in this Section, "Power Train components" means the engine block, head, all internal engine parts, oil pan and gaskets, water pump, intake manifold, transmission, and all internal transmission parts,
torque converter, drive shaft, universal joints, rear axle and all rear axle internal parts, and rear wheel bearings.

(d) The repair liability means that the dealer will make necessary Power Train component repairs in his shop, or in the shop of his service affiliate, on the basis of his regular list price charge for parts and labor, where the flat rate list price does not exceed 50% of the selling price of the vehicle at the time repairs are requested.

(e) The age of the vehicle shall be measured according to the manufacturer's model year designation as shown on the Certificate of Title or Registration Certificate. Vehicles shall be designated as current year models, one year old, 2 year old, and so forth according to the time that has elapsed since January 1 of the appropriate model year so designated.

(f) This Section does not preclude the issuance of a warranty or guarantee by a motor vehicle dealer or motor car manufacturer that meets or exceeds the basic provisions of paragraph (a).

(g) After the effective date of this amendatory Act of 1989, executives' and officials' cars when so advertised shall have been used exclusively by executives of the parent motor car manufacturer's personnel or by an executive of an authorized dealer in the same make of car. These cars, so advertised, shall not have been sold to a member of the public prior to the appearance of the advertisement.

Any person who violates this Section commits an unlawful practice within the meaning of this Act.

Sec. 2L. Used motor vehicles; modification or disclaimer of implied warranty of merchantability limited.

(a) Any retail sale of a used motor vehicle made after the effective date of this amendatory Act of the 99th General Assembly to a consumer by a licensed vehicle dealer within the meaning of Chapter 5 of the Illinois Vehicle Code or by an auction company at an auction that is open to the general public is made subject to this Section.

(b) This Section does not apply to any of the following:

(1) a vehicle with more than 150,000 miles at the time of sale;

(2) a vehicle with a title that has been branded "rebuilt" or "flood";

(3) a vehicle with a gross vehicle weight rating of 8,000 pounds or more; or

New matter indicated by italics - deletions by strikeout
(4) a vehicle that is an antique vehicle, as defined in the Illinois Vehicle Code, or that is a collector motor vehicle.

(b-5) This Section does not apply to the sale of any vehicle for which the dealer offers an express warranty that provides coverage that is equal to or greater than the limited implied warranty of merchantability required under this Section 2L.

(c) Except as otherwise provided in this Section 2L, any sale of a used motor vehicle as described in subsection (a) may not exclude, modify, or disclaim the implied warranty of merchantability created under this Section 2L prescribed in Section 2-314 of the Uniform Commercial Code or limit the remedies for a breach of the warranty hereunder before midnight of the 15th calendar day after delivery of a used motor vehicle or until a used motor vehicle is driven 500 miles after delivery, whichever is earlier. In calculating time under this Section, a day on which the warranty is breached and all subsequent days in which the used motor vehicle fails to conform with the implied warranty of merchantability are excluded. In calculating distance under this Section, the miles driven to obtain or in connection with the repair, servicing, or testing of a used motor vehicle that fails to conform with the implied warranty of merchantability are excluded. An attempt to exclude, modify, or disclaim the implied warranty of merchantability or to limit the remedies for a breach of the warranty in violation of this Section renders a purchase agreement voidable at the option of the purchaser.

(d) An implied warranty of merchantability is met if a used motor vehicle functions for the purpose of ordinary transportation on the public highway and substantially free of a defect in a power train component. As used in this Section, "power train component" means the engine block, head, all internal engine parts, oil pan and gaskets, water pump, intake manifold, transmission, and all internal transmission parts, torque converter, drive shaft, universal joints, rear axle and all rear axle internal parts, and rear wheel bearings.

(e) The implied warranty of merchantability expires at midnight of the 15th calendar day after delivery of a used motor vehicle or when a used motor vehicle is driven 500 miles after delivery, whichever is earlier. In calculating time, a day on which the implied warranty of merchantability is breached is excluded and all subsequent days in which the used motor vehicle fails to conform with the warranty are also excluded. In calculating distance, the miles driven to or by the seller to obtain or in connection with the repair, servicing, or testing of a used motor vehicle that fails to
conform with the implied warranty of merchantability are excluded. An implied warranty of merchantability does not extend to damage that occurs after the sale of the used motor vehicle that results from:

1. off-road use;
2. racing;
3. towing;
4. abuse;
5. misuse;
6. neglect;
7. failure to perform regular maintenance; and
8. failure to maintain adequate oil, coolant, and other required fluids or lubricants.

(f) If the implied warranty of merchantability described in this Section is breached, the consumer shall give reasonable notice to the seller no later than 2 business days after the end of the statutory warranty period. Before the consumer exercises another remedy pursuant to Article 2 of the Uniform Commercial Code, the seller shall have a reasonable opportunity to repair the used motor vehicle. The consumer shall pay one-half of the cost of the first 2 repairs necessary to bring the used motor vehicle into compliance with the warranty. The payments by the consumer are limited to a maximum payment of $100 for each repair; however, the consumer shall only be responsible for a maximum payment of $100 if the consumer brings in the vehicle for a second repair for the same defect. Reasonable notice as defined in this Section shall include, but not be limited to:

1. text, provided the seller has provided the consumer with a cell phone number;
2. phone call or message to the seller's business phone number provided on the seller's bill of sale for the purchase of the motor vehicle;
3. in writing to the seller's address provided on the seller's bill of sale for the purchase of the motor vehicle;
4. in person at the seller's address provided on the seller's bill of sale for the purchase of the motor vehicle.

(g) The maximum liability of a seller for repairs pursuant to this Section is limited to the purchase price paid for the used motor vehicle, to be refunded to the consumer or lender, as applicable, in exchange for return of the vehicle.

(h) An agreement for the sale of a used motor vehicle subject to this Section is voidable at the option of the consumer, unless it contains on
its face or in a separate document the following conspicuous statement printed in boldface 10-point or larger type set off from the body of the agreement:

"Illinois law requires that this vehicle will be free of a defect in a power train component for 15 days or 500 miles after delivery, whichever is earlier, except with regard to particular defects disclosed on the first page of this agreement. "Power train component" means the engine block, head, all internal engine parts, oil pan and gaskets, water pump, intake manifold, transmission, and all internal transmission parts, torque converter, drive shaft, universal joints, rear axle and all rear axle internal parts, and rear wheel bearings. You (the consumer) will have to pay up to $100 for each of the first 2 repairs if the warranty is violated.".

(i) The inclusion in the agreement of the statement prescribed in subsection (h) of this Section does not create an express warranty.

(j) A consumer of a used motor vehicle may waive the implied warranty of merchantability only for a particular defect in the vehicle including, but not limited to, a rebuilt or flood-branded title and only if all of the following conditions are satisfied:

(1) the seller subject to this Section fully and accurately discloses to the consumer that because of circumstances unusual to the business, the used motor vehicle has a particular defect;

(2) the consumer agrees to buy the used motor vehicle after disclosure of the defect; and

(3) before the sale, the consumer indicates agreement to the waiver by signing and dating the following conspicuous statement that is printed on the first page of the sales agreement or on a separate document in boldface 10-point or larger type and that is written in the language in which the presentation was made:

"Attention consumer: sign here only if the seller has told you that this vehicle has the following problem or problems and you agree to buy the vehicle on those terms:
1. ......................................................
2. ..................................................
3. ...................................................
"

(k) It shall be an affirmative defense to any claim under this Section that:

(1) an alleged nonconformity does not substantially impair the use and market value of the motor vehicle;

New matter indicated by italics - deletions by strikeout
(2) a nonconformity is the result of abuse, neglect, or unauthorized modifications or alterations of the motor vehicle;
(3) a claim by a consumer was not filed in good faith; or
(4) any other affirmative defense allowed by law.

(l) Other than the 15-day, 500-mile implied warranty of merchantability identified herein, a seller subject to this Section is not required to provide any further express or implied warranties to a purchasing consumer unless:

(1) the seller is required by federal or State law to provide a further express or implied warranty; or
(2) the seller fails to fully inform and disclose to the consumer that the vehicle is being sold without any further express or implied warranties, other than the 15 day, 500 mile implied warranty of merchantability identified in this Section.

(m) This Section does not apply to the sale of antique vehicles, as defined in the Illinois Vehicle Code, or to collector motor vehicles.

Any person who violates this Section commits an unlawful practice within the meaning of this Act.

Sec. 60. Program implementation and enrollment. Except as otherwise provided in Section 93 of this Act, the Program shall be implemented, and enrollment of employees shall begin in 2018 — within 24 months after the effective date of this Act. The Board shall establish an implementation timeline under which employers shall enroll their employees into the Program. The timeline shall include the date by which an employer must begin enrollment of its employees into the Program and the date by which enrollment must be complete. The Board shall adopt the implementation timeline at a public meeting of the Board and shall publicize the implementation timeline. The Board shall provide advance notice to employers of their enrollment date and the amount of time to complete enrollment. The Board's implementation timeline shall ensure that all employees are required to be enrolled into the Program by December 31, 2020. The provisions of this Section shall be in force after the Board opens the Program for enrollment.

(a) Each employer shall establish a payroll deposit retirement savings arrangement to allow each employee to participate in the Program within the timeline set by at most nine months after the Board after opens the Program opens for enrollment.

(b) Employers shall automatically enroll in the Program each of their employees who has not opted out of participation in the Program using the form described in subsection (c) of Section 55 of this Act and shall provide payroll deduction retirement savings arrangements for such employees and deposit, on behalf of such employees, these funds into the Program. Small employers may, but are not required to, provide payroll deduction retirement savings arrangements for each employee who elects to participate in the Program. Small employers' use of automatic enrollment for employees is subject to final rules from the United States Department of Labor. Utilization of automatic enrollment by small

employers may be allowed only if it does not create employer liability under the federal Employee Retirement Income Security Act.

(c) Enrollees shall have the ability to select a contribution level into the Fund. This level may be expressed as a percentage of wages or as a dollar amount up to the deductible amount for the enrollee's taxable year under Section 219(b)(1)(A) of the Internal Revenue Code. Enrollees may change their contribution level at any time, subject to rules promulgated by the Board. If an enrollee fails to select a contribution level using the form described in subsection (c) of Section 55 of this Act, then he or she shall contribute the default contribution rate 3% of his or her wages to the Program, provided that such contributions shall not cause the enrollee's total contributions to IRAs for the year to exceed the deductible amount for the enrollee's taxable year under Section 219(b)(1)(A) of the Internal Revenue Code.

(d) Enrollees may select an investment option from the permitted investment options listed in Section 45 of this Act. Enrollees may change their investment option at any time, subject to rules promulgated by the Board. In the event that an enrollee fails to select an investment option, that enrollee shall be placed in the investment option selected by the Board as the default under subsection (c) of Section 45 of this Act. If the Board has not selected a default investment option under subsection (c) of Section 45 of this Act, then an enrollee who fails to select an investment option shall be placed in the life-cycle fund investment option.

(e) Following initial implementation of the Program pursuant to this Section, at least once every year, participating employers shall designate an open enrollment period during which employees who previously opted out of the Program may enroll in the Program.

(f) An employee who opts out of the Program who subsequently wants to participate through the participating employer's payroll deposit retirement savings arrangement may only enroll during the participating employer's designated open enrollment period or if permitted by the participating employer at an earlier time.

(g) Employers shall retain the option at all times to set up any type of employer-sponsored retirement plan, such as a defined benefit plan or a 401(k), Simplified Employee Pension (SEP) plan, or Savings Incentive Match Plan for Employees (SIMPLE) plan, or to offer an automatic enrollment payroll deduction IRA, instead of having a payroll deposit retirement savings arrangement to allow employee participation in the Program.

New matter indicated by italics - deletions by strikeout
(h) An employee may terminate his or her participation in the Program at any time in a manner prescribed by the Board.

(i) The Board shall establish and maintain an Internet website designed to assist employers in identifying private sector providers of retirement arrangements that can be set up by the employer rather than allowing employee participation in the Program under this Act; however, the Board shall only establish and maintain an Internet website under this subsection if there is sufficient interest in such an Internet website by private sector providers and if the private sector providers furnish the funding necessary to establish and maintain the Internet website. The Board must provide public notice of the availability of and the process for inclusion on the Internet website before it becomes publicly available. This Internet website must be available to the public before the Board opens the Program for enrollment, and the Internet website address must be included on any Internet website posting or other materials regarding the Program offered to the public by the Board.

Effective June 30, 2017.

PUBLIC ACT 100-0007
(House Bill No. 2442)

AN ACT concerning education.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The School Code is amended by changing Section 2-3.64a-5 as follows:

(105 ILCS 5/2-3.64a-5)
Sec. 2-3.64a-5. State goals and assessment.

(a) For the assessment and accountability purposes of this Section, "students" includes those students enrolled in a public or State-operated elementary school, secondary school, or cooperative or joint agreement with a governing body or board of control, a charter school operating in compliance with the Charter Schools Law, a school operated by a regional office of education under Section 13A-3 of this Code, or a public school

administered by a local public agency or the Department of Human Services.

(b) The State Board of Education shall establish the academic standards that are to be applicable to students who are subject to State assessments under this Section. The State Board of Education shall not establish any such standards in final form without first providing opportunities for public participation and local input in the development of the final academic standards. Those opportunities shall include a well-publicized period of public comment and opportunities to file written comments.

(c) Beginning no later than the 2014-2015 school year, the State Board of Education shall annually assess all students enrolled in grades 3 through 8 in English language arts and mathematics.

Beginning no later than the 2017-2018 school year, the State Board of Education shall annually assess all students in science at one grade in grades 3 through 5, at one grade in grades 6 through 8, and at one grade in grades 9 through 12.

The State Board of Education shall annually assess schools that operate a secondary education program, as defined in Section 22-22 of this Code, in English language arts and mathematics. The State Board of Education shall administer no more than 3 assessments, per student, of English language arts and mathematics for students in a secondary education program. One of these assessments shall include a college and career ready determination that shall be accepted by this State's public institutions of higher education, as defined in the Board of Higher Education Act, for the purpose of student application or admissions consideration. The assessment administered by the State Board of Education for the purpose of student application to or admissions consideration by institutions of higher education must be administered on a school day during regular student attendance hours.

Students who are not assessed for college and career ready determinations may not receive a regular high school diploma unless the student is exempted from taking State assessments under subsection (d) of this Section because (i) the student's individualized educational program developed under Article 14 of this Code identifies the State assessment as inappropriate for the student, (ii) the student is enrolled in a program of adult and continuing education, as defined in the Adult Education Act, (iii) the school district is not required to assess the individual student for purposes of accountability under federal No Child Left Behind Act of

2001 requirements, (iv) the student has been determined to be an English learner and has been enrolled in schools in the United States for less than 12 months, or (v) the student is otherwise identified by the State Board of Education, through rules, as being exempt from the assessment.

The State Board of Education shall not assess students under this Section in subjects not required by this Section.

Districts shall inform their students of the timelines and procedures applicable to their participation in every yearly administration of the State assessments. The State Board of Education shall establish periods of time in each school year during which State assessments shall occur to meet the objectives of this Section.

(d) Every individualized educational program as described in Article 14 shall identify if the State assessment or components thereof are appropriate for the student. The State Board of Education shall develop rules governing the administration of an alternate assessment that may be available to students for whom participation in this State's regular assessments is not appropriate, even with accommodations as allowed under this Section.

Students receiving special education services whose individualized educational programs identify them as eligible for the alternative State assessments nevertheless shall have the option of taking this State's regular assessment that includes a college and career ready determination, which shall be administered in accordance with the eligible accommodations appropriate for meeting these students' respective needs.

All students determined to be English learners shall participate in the State assessments, excepting those students who have been enrolled in schools in the United States for less than 12 months. Such students may be exempted from participation in one annual administration of the English language arts assessment. Any student determined to be an English learner shall receive appropriate assessment accommodations, including language supports, which shall be established by rule. Approved assessment accommodations must be provided until the student's English language skills develop to the extent that the student is no longer considered to be an English learner, as demonstrated through a State-identified English language proficiency assessment.

(e) The results or scores of each assessment taken under this Section shall be made available to the parents of each student.

In each school year, the scores attained by a student on the State assessment that includes a college and career ready determination must be
placed in the student's permanent record and must be entered on the student's transcript pursuant to rules that the State Board of Education shall adopt for that purpose in accordance with Section 3 of the Illinois School Student Records Act. In each school year, the scores attained by a student on the State assessments administered in grades 3 through 8 must be placed in the student's temporary record.

(f) All schools shall administer an academic assessment of English language proficiency in oral language (listening and speaking) and reading and writing skills to all children determined to be English learners.

(g) All schools in this State that are part of the sample drawn by the National Center for Education Statistics, in collaboration with their school districts and the State Board of Education, shall administer the biennial academic assessments under the National Assessment of Educational Progress carried out under Section 411(b)(2) of the federal National Education Statistics Act of 1994 (20 U.S.C. 9010) if the U.S. Secretary of Education pays the costs of administering the assessments.

(h) Subject to available funds to this State for the purpose of student assessment, the State Board of Education shall provide additional assessments and assessment resources that may be used by school districts for local assessment purposes. The State Board of Education shall annually distribute a listing of these additional resources.

(i) For the purposes of this subsection (i), "academically based assessments" means assessments consisting of questions and answers that are measurable and quantifiable to measure the knowledge, skills, and ability of students in the subject matters covered by the assessments. All assessments administered pursuant to this Section must be academically based assessments. The scoring of academically based assessments shall be reliable, valid, and fair and shall meet the guidelines for assessment development and use prescribed by the American Psychological Association, the National Council on Measurement in Education, and the American Educational Research Association.

The State Board of Education shall review the use of all assessment item types in order to ensure that they are valid and reliable indicators of student performance aligned to the learning standards being assessed and that the development, administration, and scoring of these item types are justifiable in terms of cost.

(j) The State Superintendent of Education shall appoint a committee of no more than 21 members, consisting of parents, teachers, school administrators, school board members, assessment experts, regional
superintendents of schools, and citizens, to review the State assessments administered by the State Board of Education. The Committee shall select one of its members as its chairperson. to be licensed under this Article. The first year of all licenses ends on June 30 following one full year of the license being issued.

The State Board of Education, in consultation with the State Educator Preparation and Licensure Board, may adopt such rules as may be necessary to govern the requirements for licenses and endorsements under this Section.

1. Professional Educator License. Persons who (i) have successfully completed an approved educator preparation program and are recommended for licensure by the Illinois institution offering the educator preparation program, (ii) have successfully completed the required testing under Section 21B-30 of this Code, (iii) have successfully completed coursework on the psychology of, the identification of, and the methods of instruction for the exceptional child, including without limitation children with learning disabilities, (iv) have successfully completed coursework in methods of reading and reading in the content area, and (v) have met all other criteria established by rule of the State Board of Education shall be issued a Professional Educator License. All Professional Educator Licenses are valid until June 30 immediately following 5 years of the license being issued. The Professional Educator License shall be endorsed with specific areas and grade levels in which the individual is eligible to practice.

Individuals can receive subsequent endorsements on the Professional Educator License. Subsequent endorsements shall require a minimum of 24 semester hours of coursework in the endorsement area, unless otherwise specified by rule, and passage of the applicable content area test.

2. Educator License with Stipulations. An Educator License with Stipulations shall be issued an endorsement that limits the license holder to one particular position or does not require completion of an approved educator program or both.

An individual with an Educator License with Stipulations must not be employed by a school district or any other entity to replace any presently employed teacher who otherwise would not be replaced for any reason.

An Educator License with Stipulations may be issued with the following endorsements:

A. Provisional educator. A provisional educator endorsement in a specific content area or areas on an
Educator License with Stipulations may be issued to an applicant who holds an educator license from another state, U.S. territory, or foreign country and who, at the time of applying for an Illinois license, does not meet the minimum requirements under Section 21B-35 of this Code, but does, at a minimum, meet the following requirements:

(i) Holds the equivalent of a minimum of a bachelor's degree, unless a master's degree is required for the endorsement, from a regionally accredited college or university or, for individuals educated in a country other than the United States, the equivalent of a minimum of a bachelor's degree issued in the United States, unless a master's degree is required for the endorsement.

(ii) Has passed or passes a test of basic skills and content area test prior to or within one year after issuance of the provisional educator endorsement on the Educator License with Stipulations. If an individual who holds an Educator License with Stipulations endorsed for provisional educator has not passed a test of basic skills and applicable content area test or tests within one year after issuance of the endorsement, the endorsement shall expire on June 30 following one full year of the endorsement being issued. If such an individual has passed the test of basic skills and applicable content area test or tests either prior to issuance of the endorsement or within one year after issuance of the endorsement, the endorsement is valid until June 30 immediately following 2 years of the license being issued, during which time any and all coursework deficiencies must be met and any and all additional testing deficiencies must be met.

In addition, a provisional educator endorsement for principals or superintendents may be issued if the individual meets the requirements set forth in subdivisions (1) and (3) of subsection (b-5) of Section 21B-35 of this Code. Applicants who have not been entitled by an Illinois-approved educator preparation program at an Illinois standard.
institution of higher education shall not receive a provisional educator endorsement if the person completed an alternative licensure program in another state, unless the program has been determined to be equivalent to Illinois program requirements.

Notwithstanding any other requirements of this Section, a service member or spouse of a service member may obtain a Professional Educator License with Stipulations, and a provisional educator endorsement in a specific content area or areas, if he or she holds a valid teaching certificate or license in good standing from another state, meets the qualifications of educators outlined in Section 21B-15 of this Code, and has not engaged in any misconduct that would prohibit an individual from obtaining a license pursuant to Illinois law, including without limitation any administrative rules of the State Board of Education.

In this Section, "service member" means any person who, at the time of application under this Section, is an active duty member of the United States Armed Forces or any reserve component of the United States Armed Forces or the National Guard of any state, commonwealth, or territory of the United States or the District of Columbia.

A provisional educator endorsement is valid until June 30 immediately following 2 years of the license being issued, provided that any remaining testing and coursework deficiencies are met as set forth in this Section. Failure to satisfy all stated deficiencies shall mean the individual, including any service member or spouse who has obtained a Professional Educator License with Stipulations and a provisional educator endorsement in a specific content area or areas, is ineligible to receive a Professional Educator License at that time. An Educator License with Stipulations endorsed for provisional educator shall not be renewed for individuals who hold an Educator License with Stipulations and who have held a position in a public school or non-public school recognized by the State Board of Education.

(B) Alternative provisional educator. An alternative provisional educator endorsement on an Educator License

(i) Graduated from a regionally accredited college or university with a minimum of a master's degree in a management field other than education.

(ii) Been employed for a period of at least 5 years in a management level position in a field other than education.

For individuals who were issued the career and technical educator endorsement on an Educator License with Stipulations on or after January 1,
2015, the license may be renewed if the individual passes a test of basic skills or test of work proficiency, as required under Section 21B-30 of this Code.

(F) Part-time provisional career and technical educator or provisional career and technical educator. A part-time provisional career and technical educator endorsement or a provisional career and technical educator endorsement on an Educator License with Stipulations may be issued to an applicant who has a minimum of 8,000 hours of work experience in the skill for which the applicant is seeking the endorsement. It is the responsibility of each employing school board and regional office of education to provide verification, in writing, to the State Superintendent of Education at the time the application is submitted that no qualified teacher holding a Professional Educator License or an Educator License with Stipulations with a career and technical educator endorsement is available and that actual circumstances require such issuance.

The provisional career and technical educator endorsement on an Educator License with Stipulations is valid until June 30 immediately following 5 years of the endorsement being issued and may be renewed only once for 5 years. A transitional bilingual educator endorsement shall be valid for prekindergarten through grade 12, is valid until June 30 immediately following 5 years of the endorsement being issued, and shall not be renewed.

Persons holding a transitional bilingual educator endorsement shall not be employed to replace any presently employed teacher who otherwise would not be replaced for any reason.

The chief school business official endorsement may also be affixed to the Educator License with Stipulations of any holder who qualifies by having a master's degree in business administration, finance, or accounting and who completes an additional 6 semester hours of internship in school business management from a regionally accredited institution of higher education and passes the applicable State tests, including a test of basic skills and applicable content area test. This endorsement shall be required for any individual employed as a chief school business official.

The chief school business official endorsement on an Educator License with Stipulations is valid until June 30 immediately following 5 years of the endorsement being issued and may be renewed if the license holder completes renewal requirements as required for individuals who hold a Professional Educator License endorsed for chief school business official under Section 21B-45 of this Code and such rules as may be adopted by the State Board of Education.

Substitute Teaching Licenses are not eligible for endorsements. Applicants for a Substitute Teaching License must hold a bachelor's degree or higher from a regionally accredited institution of higher education.

Substitute Teaching Licenses are valid for 5 years.

Substitute Teaching Licenses are valid for substitute teaching in every county of this State. If an individual has had his or her Professional Educator License or Educator License with Stipulations suspended or revoked or has not met the renewal requirements for licensure, then that individual is not eligible to obtain a Substitute Teaching License.

A substitute teacher may only teach in the place of a licensed teacher who is under contract with the employing board. If, however, there is no licensed teacher under contract because of an emergency situation, then a district may employ a substitute teacher for no longer than 30 calendar days per each vacant position in the district if the district notifies the appropriate regional office of education within 5 business days after the employment of the substitute teacher in the emergency situation. An emergency situation is one in which an unforeseen vacancy has occurred and (i) a teacher is unable to fulfill his or her contractual duties or (ii) teacher capacity needs of the district exceed previous indications, and the district is actively engaged in advertising to hire a fully licensed teacher for the vacant position.

There is no limit on the number of days that a substitute teacher may teach in a single school district, provided that no substitute teacher may teach for longer than 90 school days for any one licensed teacher under contract in the same school year. A substitute teacher who holds a Professional Educator License or Educator License with Stipulations shall not teach for more than 120 school days for any one licensed teacher under contract in the same school year. (35 ILCS 505/2) (from Ch. 120, par. 418)

Sec. 2. A tax is imposed on the privilege of operating motor vehicles upon the public highways and recreational-type watercraft upon the waters of this State.

(a) Prior to August 1, 1989, the tax is imposed at the rate of 13 cents per gallon on all motor fuel used in motor vehicles operating on the public highways and recreational type watercraft operating upon the waters of this State. Beginning on August 1, 1989 and until January 1, 1990, the rate of the tax imposed in this paragraph shall be 16 cents per gallon. Beginning January 1, 1990, the rate of tax imposed in this paragraph, including the tax on compressed natural gas, shall be 19 cents per gallon.

(b) The tax on the privilege of operating motor vehicles which use diesel fuel, liquefied natural gas, or propane shall be the rate according to paragraph (a) plus an additional 2 1/2 cents per gallon. "Diesel fuel" is defined as any product intended for use or offered for sale as a fuel for engines in which the fuel is injected into the combustion chamber and ignited by pressure without electric spark.

(c) A tax is imposed upon the privilege of engaging in the business of selling motor fuel as a retailer or reseller on all motor fuel used in motor vehicles operating on the public highways and recreational type watercraft operating upon the waters of this State: (1) at the rate of 3 cents per gallon on motor fuel owned or possessed by such retailer or reseller at 12:01 a.m. on August 1, 1989; and (2) at the rate of 3 cents per gallon on motor fuel owned or possessed by such retailer or reseller at 12:01 A.M. on January 1, 1990.

Retailers and resellers who are subject to this additional tax shall be required to inventory such motor fuel and pay this additional tax in a manner prescribed by the Department of Revenue.

The tax imposed in this paragraph (c) shall be in addition to all other taxes imposed by the State of Illinois or any unit of local government in this State.

(d) Except as provided in Section 2a, the collection of a tax based on gallonage of gasoline used for the propulsion of any aircraft is prohibited on and after October 1, 1979.

its classification or uses, is prohibited (i) on and after July 1, 1992 until December 31, 1999, except when the 1-K kerosene is either: (1) delivered into bulk storage facilities of a bulk user, or (2) delivered directly into the fuel supply tanks of motor vehicles and (ii) on and after January 1, 2000. Beginning on January 1, 2000, the collection of a tax, based on gallonage of all products commonly or commercially known or sold as 1-K kerosene, regardless of its classification or uses, is prohibited except when the 1-K kerosene is delivered directly into a storage tank that is located at a facility that has withdrawal facilities that are readily accessible to and are capable of dispensing 1-K kerosene into the fuel supply tanks of motor vehicles. For purposes of this subsection (e), a facility is considered to have withdrawal facilities that are not "readily accessible to and capable of dispensing 1-K kerosene into the fuel supply tanks of motor vehicles" only if the 1-K kerosene is delivered from: (i) a dispenser hose that is short enough so that it will not reach the fuel supply tank of a motor vehicle or (ii) a dispenser that is enclosed by a fence or other physical barrier so that a vehicle cannot pull alongside the dispenser to permit fueling.

Any person who sells or uses 1-K kerosene for use in motor vehicles upon which the tax imposed by this Law has not been paid shall be liable for any tax due on the sales or use of 1-K kerosene.

(35 ILCS 505/2a) (from Ch. 120, par. 418a)

Sec. 2a. Except as hereinafter provided, on and after January 1, 1990 and before January 1, 2025, a tax of three-tenths of a cent per gallon is imposed upon the privilege of being a receiver in this State of fuel for sale or use.

The tax shall be paid by the receiver in this State who first sells or uses fuel. In the case of a sale, the tax shall be stated as a separate item on the invoice.

For the purpose of the tax imposed by this Section, being a receiver of "motor fuel" as defined by Section 1.1 of this Act, and aviation fuels, home heating oil and kerosene, but excluding liquefied petroleum gases, is subject to tax without regard to whether the fuel is intended to be used for operation of motor vehicles on the public highways and waters. However, no such tax shall be imposed upon the importation or receipt of aviation fuels and kerosene at airports with over 300,000 operations per year, for years prior to 1991, and over 170,000 operations per year beginning in 1991, located in a city of more than 1,000,000 inhabitants for sale to or use by holders of certificates of public convenience and necessity or foreign air

carrier permits, issued by the United States Department of Transportation, and their air carrier affiliates, or upon the importation or receipt of aviation fuels and kerosene at facilities owned or leased by those certificate or permit holders and used in their activities at an airport described above. In addition, no such tax shall be imposed upon the importation or receipt of diesel fuel or liquefied natural gas sold to or used by a rail carrier registered pursuant to Section 18c-7201 of the Illinois Vehicle Code or otherwise recognized by the Illinois Commerce Commission as a rail carrier, to the extent used directly in railroad operations. In addition, no such tax shall be imposed when the sale is made with delivery to a purchaser outside this State or when the sale is made to a person holding a valid license as a receiver. In addition, no tax shall be imposed upon diesel fuel or liquefied natural gas consumed or used in the operation of ships, barges, or vessels, that are used primarily in or for the transportation of property in interstate commerce for hire on rivers bordering on this State, if the diesel fuel or liquefied natural gas is delivered by a licensed receiver to the purchaser's barge, ship, or vessel while it is afloat upon that bordering river. A specific notation thereof shall be made on the invoices or sales slips covering each sale.

(35 ILCS 505/5) (from Ch. 120, par. 421)

Sec. 5. Except as hereinafter provided, a person holding a valid unrevoked license to act as a distributor of motor fuel shall, between the 1st and 20th days of each calendar month, make return to the Department, showing an itemized statement of the number of invoiced gallons of motor fuel of the types specified in this Section which were purchased, acquired, received, or exported during the preceding calendar month; the amount of such motor fuel produced, refined, compounded, manufactured, blended, sold, distributed, exported, and used by the licensed distributor during the preceding calendar month; the amount of such motor fuel lost or destroyed during the preceding calendar month; the amount of such motor fuel on hand at the close of business for such month; and such other reasonable information as the Department may require. If a distributor's only activities with respect to motor fuel are either: (1) production of alcohol in quantities of less than 10,000 proof gallons per year or (2) blending alcohol in quantities of less than 10,000 proof gallons per year which such distributor has produced, he shall file returns on an annual basis with the return for a given year being due by January 20 of the following year. Distributors whose total production of alcohol (whether blended or not)
exceeds 10,000 proof gallons per year, based on production during the preceding (calendar) year or as reasonably projected by the Department if one calendar year's record of production cannot be established, shall file returns between the 1st and 20th days of each calendar month as hereinabove provided.

The types of motor fuel referred to in the preceding paragraph are: (A) All products commonly or commercially known or sold as gasoline (including casing-head and absorption or natural gasoline), gasohol, motor benzol or motor benzene regardless of their classification or uses; and (B) all combustible gases, not including liquefied natural gas, which exist in a gaseous state at 60 degrees Fahrenheit and at 14.7 pounds per square inch absolute including, but not limited to, liquefied petroleum gases used for highway purposes; and (C) special fuel. Only those quantities of combustible gases (example (B) above) which are used or sold by the distributor to be used to propel motor vehicles on the public highways, or which are delivered into a storage tank that is located at a facility that has withdrawal facilities which are readily accessible to and are capable of dispensing combustible gases into the fuel supply tanks of motor vehicles, shall be subject to return. Distributors of liquefied natural gas are not required to make returns under this Section with respect to that liquefied natural gas unless (i) the liquefied natural gas is dispensed into the fuel supply tank of any motor vehicle or (ii) the liquefied natural gas is delivered into a storage tank that is located at a facility that has withdrawal facilities which are readily accessible to and are capable of dispensing liquefied natural gas into the fuel supply tanks of motor vehicles. For purposes of this Section, a facility is considered to have withdrawal facilities that are not "readily accessible to and capable of dispensing liquefied natural gas into the fuel supply tanks of motor vehicles" only if the combustible gases or liquefied natural gas are delivered from: (i) a dispenser hose that is short enough so that it will not reach the fuel supply tank of a motor vehicle or (ii) a dispenser that is enclosed by a fence or other physical barrier so that a vehicle cannot pull alongside the dispenser to permit fueling. For the purposes of this Act, liquefied petroleum gases shall mean and include any material having a vapor pressure not exceeding that allowed for commercial propane composed predominantly of the following hydrocarbons, either by themselves or as mixtures: Propane, Propylene, Butane (normal butane or iso-butane) and Butylene (including isomers).

New matter indicated by italics - deletions by strikeout
In case of a sale of special fuel to someone other than a licensed distributor, or a licensed supplier, for a use other than in motor vehicles, the distributor shall show in his return the amount of invoiced gallons sold and the name and address of the purchaser in addition to any other information the Department may require.

All special fuel sold or used for non-highway purposes must have a dye added in accordance with Section 4d of this Law.

In case of a tax-free sale, as provided in Section 6, of motor fuel which the distributor is required by this Section to include in his return to the Department, the distributor in his return shall show: (1) If the sale is made to another licensed distributor the amount sold and the name, address and license number of the purchasing distributor; (2) if the sale is made to a person where delivery is made outside of this State the name and address of such purchaser and the point of delivery together with the date and amount delivered; (3) if the sale is made to the Federal Government or its instrumentalities the amount sold; (4) if the sale is made to a municipal corporation owning and operating a local transportation system for public service in this State the name and address of such purchaser, and the amount sold, as evidenced by official forms of exemption certificates properly executed and furnished by such purchaser; (5) if the sale is made to a privately owned public utility owning and operating 2-axle vehicles designed and used for transporting more than 7 passengers, which vehicles are used as common carriers in general transportation of passengers, are not devoted to any specialized purpose and are operated entirely within the territorial limits of a single municipality or of any group of contiguous municipalities or in a close radius thereof, and the operations of which are subject to the regulations of the Illinois Commerce Commission, then the name and address of such purchaser and the amount sold as evidenced by official forms of exemption certificates properly executed and furnished by the purchaser; (6) if the product sold is special fuel and if the sale is made to a licensed supplier under conditions which qualify the sale for tax exemption under Section 6 of this Act, the amount sold and the name, address and license number of the purchaser; and (7) if a sale of special fuel is made to someone other than a licensed distributor, or a licensed supplier, for a use other than in motor vehicles, by making a specific notation thereof on the invoice or sales slip covering such sales and obtaining such supporting documentation as may be required by the Department.

All special fuel sold or used for non-highway purposes must have a dye added in accordance with Section 4d of this Law.

A person whose license to act as a distributor of motor fuel has been revoked shall make a return to the Department covering the period from the date of the last return to the date of the revocation of the license, which return shall be delivered to the Department not later than 10 days from the date of the revocation or termination of the license of such distributor; the return shall in all other respects be subject to the same provisions and conditions as returns by distributors licensed under the provisions of this Act.

The records, waybills and supporting documents kept by railroads and other common carriers in the regular course of business shall be prima facie evidence of the contents and receipt of cars or tanks covered by those records, waybills or supporting documents.

If the Department has reason to believe and does believe that the amount shown on the return as purchased, acquired, received, exported, sold, used, lost or destroyed is incorrect, or that an amount of motor fuel of the types required by the second paragraph of this Section to be reported to the Department has not been correctly reported the Department shall fix an amount for such receipt, sales, export, use, loss or destruction according to its best judgment and information, which amount so fixed by the Department shall be prima facie correct. All returns shall be made on forms prepared and furnished by the Department, and shall contain such other information as the Department may reasonably require. The return must be accompanied by appropriate computer-generated magnetic media supporting schedule data in the format required by the Department, unless, as provided by rule, the Department grants an exception upon petition of a taxpayer. All licensed distributors shall report all losses of motor fuel sustained on account of fire, theft, spillage, spoilage, leakage, or any other provable cause when filing the return for the period during which the loss occurred. If the distributor reports losses due to fire or theft, then the distributor must include fire department or police department reports and any other documentation that the Department may require. The mere making of the report does not assure the allowance of the loss as a reduction in tax liability. Losses of motor fuel as the result of evaporation or shrinkage due to temperature variations may not exceed 1% of the total gallons in storage at the beginning of the month, plus the receipts of gallonage during the month, minus the gallonage remaining in storage at the end of the month. Any loss reported that is in excess of 1% shall be

subject to the tax imposed by Section 2 of this Law. On and after July 1, 2001, for each 6-month period January through June, net losses of motor fuel (for each category of motor fuel that is required to be reported on a return) as the result of evaporation or shrinkage due to temperature variations may not exceed 1% of the total gallons in storage at the beginning of each January, plus the receipts of gallonage each January through June, minus the gallonage remaining in storage at the end of each June. On and after July 1, 2001, for each 6-month period July through December, net losses of motor fuel (for each category of motor fuel that is required to be reported on a return) as the result of evaporation or shrinkage due to temperature variations may not exceed 1% of the total gallons in storage at the beginning of each July, plus the receipts of gallonage each July through December, minus the gallonage remaining in storage at the end of each December. Any net loss reported that is in excess of this amount shall be subject to the tax imposed by Section 2 of this Law. For purposes of this Section, "net loss" means the number of gallons gained through temperature variations minus the number of gallons lost through temperature variations or evaporation for each of the respective 6-month periods.

impact fee of $60 per 7,500 gallons of fuel, or an equivalent amount per fraction thereof, that is sold or used in Illinois. The fee shall be paid by the receiver in this State who first sells or uses the fuel. The environmental impact fee imposed by this Law replaces the fee imposed under the corresponding provisions of Article 3 of Public Act 89-428. However, no fee shall be imposed upon the importation or receipt of aviation fuels and kerosene at airports with over 170,000 operations per year, located in a city of more than 1,000,000 inhabitants, for sale to or use by holders of certificates of public convenience and necessity or foreign air carrier permits, issued by the United States Department of Transportation, and their air carrier affiliates, or upon the importation or receipt of aviation fuels and kerosene at facilities owned or leased by those certificate or permit holders and used in their activities at an airport described above. In addition, no fee may be imposed upon the importation or receipt of diesel fuel or liquefied natural gas sold to or used by a rail carrier registered under Section 18c-7201 of the Illinois Vehicle Code or otherwise recognized by the Illinois Commerce Commission as a rail carrier, to the extent used directly in railroad operations. A specific notation thereof shall be made on the invoices or sales slips covering each sale.

Sec. 37. Illinois Joining Forces Foundation.

(a) The General Assembly finds that navigating the "sea of goodwill" for those who serve in uniform is one of the greatest challenges that transitioning veterans face; as a result, they risk being unable to access many of the federal, State, and non-profit resources available to them. Recognizing this problem, the Department of Veterans' Affairs and the Department of Military Affairs acted to establish the Illinois Joining Forces initiative, a public-private network of military and veteran-serving organizations that are working together, in person and online, to create a no-wrong-door system of support for the State's military and veteran communities. Illinois Joining Forces is a nation-leading model, awarded by the U.S. Department of Veterans Affairs and the National Association

Board of Director appointments shall be for 2-year terms. Vacancies shall be filled by the official who made the recommendation for the vacated appointment. (a) No one may be licensed to teach or supervise or be otherwise employed in the public schools of this State who is not of good character and at least 20 years of age.

In determining good character under this Section, the State Superintendent of Education shall take into consideration the disciplinary actions of other states or national entities against certificates or licenses issued by those states and held by individuals from those states. In addition, any felony conviction of the applicant may be taken into account.

consideration; however, no one may be licensed to teach or supervise in the public schools of this State who has been convicted of (i) an offense set forth in subsection (b) of Section 21B-80 of this Code until 7 years following the end of the sentence for the criminal offense or (ii) an offense set forth in subsection (c) of Section 21B-80 of this Code. Unless the conviction is for an offense set forth in Section 21B-80 of this Code, an applicant must be permitted to submit character references or other written material before such a conviction or other information regarding the applicant's character may be used by the State Superintendent of Education as a basis for denying the application.

(b) No person otherwise qualified shall be denied the right to be licensed or to receive training for the purpose of becoming an educator because of a physical disability, including, but not limited to, visual and hearing disabilities; nor shall any school district refuse to employ a teacher on such grounds, provided that the person is able to carry out the duties of the position for which he or she applies.

(c) No person may be granted or continue to hold an educator license who has knowingly altered or misrepresented his or her qualifications, in this State or any other state, in order to acquire or renew the license. Any other license issued under this Article held by the person may be suspended or revoked by the State Educator Preparation and Licensure Board, depending upon the severity of the alteration or misrepresentation.

(d) No one may teach or supervise in the public schools nor receive for teaching or supervising any part of any public school fund who does not hold an educator license granted by the State Superintendent of Education as provided in this Article. (e) Notwithstanding any other provision of this Code, the school board of a school district may grant to a teacher of the district a leave of absence with full pay for a period of not more than one year to permit the teacher to teach in a foreign state under the provisions of the Exchange Teacher Program established under Public Law 584, 79th Congress, and Public Law 402, 80th Congress, as amended. national is qualified to teach in that foreign state and if that national is to

teach in a grade level similar to the one that was taught in the foreign state.
The State Board of Education, in consultation with the State Educator

Preparation and Licensure Board, may adopt rules as may be necessary to

implement this subsection (e).

(105 ILCS 5/21B-20)

Sec. 21B-20. Types of licenses. Before July 1, 2013, the State

Board of Education shall implement a system of educator licensure,

whereby individuals employed in school districts who are required to be

licensed must have one of the following licenses: (i) a professional

educator license; (ii) a professional educator license with stipulations; or

(iii) a substitute teaching license. References in law regarding individuals

certified or certificated or required to be certified or certificated under

Article 21 of this Code shall also include individuals licensed or required

to be licensed under this Article. The first year of all licenses ends on June

30 following one full year of the license being issued.

The State Board of Education, in consultation with the State

Educator Preparation and Licensure Board, may adopt such rules as may

be necessary to govern the requirements for licenses and endorsements

under this Section.

(1) Professional Educator License. Persons who (i) have

successfully completed an approved educator preparation program

and are recommended for licensure by the Illinois institution

offering the educator preparation program, (ii) have successfully

completed the required testing under Section 21B-30 of this Code,

(iii) have successfully completed coursework on the psychology of,

the identification of, and the methods of instruction for the

exceptional child, including without limitation children with

learning disabilities, (iv) have successfully completed coursework

in methods of reading and reading in the content area, and (v) have

met all other criteria established by rule of the State Board of

Education shall be issued a Professional Educator License. All

Professional Educator Licenses are valid until June 30 immediately

following 5 years of the license being issued. The Professional

Educator License shall be endorsed with specific areas and grade

levels in which the individual is eligible to practice.

Individuals can receive subsequent endorsements on the

Professional Educator License. Subsequent endorsements shall

New matter indicated by italics - deletions by strikeout
require a minimum of 24 semester hours of coursework in the endorsement area, unless otherwise specified by rule, and passage of the applicable content area test.

(2) Educator License with Stipulations. An Educator License with Stipulations shall be issued an endorsement that limits the license holder to one particular position or does not require completion of an approved educator program or both.

An individual with an Educator License with Stipulations must not be employed by a school district or any other entity to replace any presently employed teacher who otherwise would not be replaced for any reason.

An Educator License with Stipulations may be issued with the following endorsements:

(A) Provisional educator. A provisional educator endorsement in a specific content area or areas on an Educator License with Stipulations may be issued to an applicant who holds an educator license from another state, U.S. territory, or foreign country and who, at the time of applying for an Illinois license, does not meet the minimum requirements under Section 21B-35 of this Code, but does, at a minimum, meet the following requirements:

   (i) Holds the equivalent of a minimum of a bachelor's degree, unless a master's degree is required for the endorsement, from a regionally accredited college or university or, for individuals educated in a country other than the United States, the equivalent of a minimum of a bachelor's degree issued in the United States, unless a master's degree is required for the endorsement.

   (ii) Has passed or passes a test of basic skills and content area test prior to or within one year after issuance of the provisional educator endorsement on the Educator License with Stipulations. If an individual who holds an Educator License with Stipulations endorsed for provisional educator has not passed a test of basic skills and applicable content area test or tests within one year after issuance of the endorsement, the endorsement shall expire on June 30 following one full year of the
endorsement being issued. If such an individual has passed the test of basic skills and applicable content area test or tests either prior to issuance of the endorsement or within one year after issuance of the endorsement, the endorsement is valid until June 30 immediately following 2 years of the license being issued, during which time any and all coursework deficiencies must be met and any and all additional testing deficiencies must be met.

In addition, a provisional educator endorsement for principals or superintendents may be issued if the individual meets the requirements set forth in subdivisions (1) and (3) of subsection (b-5) of Section 21B-35 of this Code. Applicants who have not been entitled by an Illinois-approved educator preparation program at an Illinois institution of higher education shall not receive a provisional educator endorsement if the person completed an alternative licensure program in another state, unless the program has been determined to be equivalent to Illinois program requirements.

Notwithstanding any other requirements of this Section, a service member or spouse of a service member may obtain a Professional Educator License with Stipulations, and a provisional educator endorsement in a specific content area or areas, if he or she holds a valid teaching certificate or license in good standing from another state, meets the qualifications of educators outlined in Section 21B-15 of this Code, and has not engaged in any misconduct that would prohibit an individual from obtaining a license pursuant to Illinois law, including without limitation any administrative rules of the State Board of Education.

In this Section, "service member" means any person who, at the time of application under this Section, is an active duty member of the United States Armed Forces or any reserve component of the United States Armed Forces or the National Guard of any state, commonwealth, or territory of the United States or the District of Columbia.
A provisional educator endorsement is valid until June 30 immediately following 2 years of the license being issued, provided that any remaining testing and coursework deficiencies are met as set forth in this Section. Failure to satisfy all stated deficiencies shall mean the individual, including any service member or spouse who has obtained a Professional Educator License with Stipulations and a provisional educator endorsement in a specific content area or areas, is ineligible to receive a Professional Educator License at that time. An Educator License with Stipulations endorsed for provisional educator shall not be renewed for individuals who hold an Educator License with Stipulations and who have held a position in a public school or non-public school recognized by the State Board of Education.

(B) Alternative provisional educator. An alternative provisional educator endorsement on an Educator License with Stipulations may be issued to an applicant who, at the time of applying for the endorsement, has done all of the following:

(ii) Enrolled in an approved Illinois educator preparation program.

(iii) Passed a test of basic skills and content area test, as required under Section 21B-30 of this Code.

An individual who holds a valid career and technical educator endorsement on an Educator License with Stipulations but does not hold a bachelor's degree may substitute teach in career and technical education classrooms.

(F) Part-time provisional career and technical educator or provisional career and technical educator. A part-time provisional career and technical educator endorsement or a provisional career and technical educator endorsement on an Educator License with Stipulations may be issued to an applicant who has a minimum of 8,000 hours of work experience in the skill for which the applicant is seeking the endorsement. It is the responsibility of each employing school board and regional office of education to provide verification, in writing, to the State Superintendent of Education at the time the application is submitted that no qualified teacher holding a Professional Educator License or an Educator License with Stipulations with a career and technical educator endorsement is available and that actual circumstances require such issuance.

that all rules and standards are being followed for entitlement or when endorsements are being recommended.

(1) The State Board of Education, in consultation with the State Educator Preparation and Licensure Board, shall establish, by rule, the grade level and subject area endorsements to be added to the Professional Educator License. These rules shall outline the requirements for obtaining each endorsement.

(2) In addition to any and all grade level and content area endorsements developed by rule, the State Board of Education, in consultation with the State Educator Preparation and Licensure Board, shall develop the requirements for the following endorsements:

(A) General administrative endorsement. A general administrative endorsement shall be added to a Professional Educator License, provided that an approved program has been completed. An individual holding a general administrative endorsement may work only as a principal or assistant principal or in a related or similar position, as determined by the State Superintendent of Education, in consultation with the State Educator Preparation and Licensure Board.

Beginning on September 1, 2014, the general administrative endorsement shall no longer be issued except to individuals who completed all coursework requirements for the receipt of the general administrative endorsement by September 1, 2014, who have completed all testing requirements by June 30, 2016, and who apply for the endorsement on or before June 30, 2016. Individuals who hold a valid and registered administrative certificate with a general administrative endorsement issued under Section 21-7.1 of this Code or a Professional Educator License with a general administrative endorsement issued prior to September 1, 2014 and who have served for at least one full year during the 5 years prior in a position requiring a general administrative endorsement shall, upon request to the State Board of Education and through July 1, 2015, have their respective general administrative endorsement converted to a principal endorsement on the Professional Educator License. All other individuals holding a valid and registered administrative certificate with a general administrative endorsement issued pursuant to Section 21-7.1 of this Code or a general administrative endorsement on a Professional Educator License issued prior to September 1, 2014 shall have the general administrative endorsement converted to a principal endorsement on a Professional Educator License upon request to the State Board of Education and by completing one of the following pathways:

(ii) Through July 1, 2019, completion of an Illinois Educators’ Academy course designated by the State Superintendent of Education.

The general administrative endorsement on the Professional Educator License is available only to individuals who, prior to September 1, 2014, had such an endorsement on the administrative certificate issued pursuant to Section 21-7.1 of this Code or who already have a Professional Educator License and have completed a general administrative program and who do not choose to convert the general administrative endorsement to a principal endorsement pursuant to the options in this Section.

The superintendent endorsement shall allow individuals to serve only as a superintendent or assistant superintendent.

(E) Teacher leader endorsement. It shall be the policy of this State to improve the quality of instructional leaders by providing a career pathway for teachers interested in serving in leadership roles, but not as principals. The State Board of Education, in consultation with the State Educator Preparation and Licensure Board, may issue a teacher leader endorsement under this subdivision (E). The school support personnel endorsement shall be affixed to the Professional Educator License and shall meet all of the requirements established in any rules adopted to implement this subdivision (G). (a) Individuals holding a Professional Educator License are required to complete the licensure renewal requirements as specified in this Section, unless otherwise provided in this Code. Individuals holding a Professional Educator License shall meet the renewal requirements set forth in this Section, unless otherwise provided in this Code. If an individual holds a license endorsed in more than one area that has different renewal requirements, that individual shall follow the renewal requirements for the position for which he or she spends the majority of his or her time working.

(b) All Professional Educator Licenses not renewed as provided in this Section shall lapse on September 1 of that year. Illinois Administrators' Academy course, as described in Article 2 of this

licensee may create a professional development plan each year. The plan 
shall address one or more of the endorsements that are required of his or 
her educator position if the licensee is employed and performing services 
in an Illinois public or State-operated school or cooperative. If the licensee

For any renewal cycle in which a licensee retires during the renewal cycle, the licensee must complete professional development activities on a prorated basis depending on the number of years during the renewal cycle the educator held an active license. If a licensee retires during a renewal cycle, the licensee must notify the State Board of Education using ELIS that the licensee wishes to maintain the license in retired status and must show proof of completion of professional development activities on a prorated basis for all years of that renewal cycle for which the license was active. An individual with a license in retired status shall not be required to complete professional development activities or pay registration fees until returning to a

Beginning on January 6, 2017 (the effective date of Public Act 99-920), this amendatory Act of the 99th General Assembly through December 31, 2017, any licensee who has retired and whose license has lapsed for failure to renew as provided in this Section may reinstate that license and maintain it in retired status upon providing proof to the State Board of Education using ELIS that the licensee is retired and is not working in a position that requires a Professional Educator License.

(7) For any renewal cycle in which professional development hours were required, but not fulfilled, the licensee shall complete any missed hours to total the minimum professional development hours required in this Section prior to September 1 of that year. For any fiscal year or renewal cycle in which an Illinois Administrators' Academy course was required but not completed, the licensee shall complete any missed Illinois Administrators' Academy courses prior to September 1 of that year. (9) If professional development opportunities were unavailable to a licensee, proof that opportunities were unavailable and request for an extension of time beyond August 31 to complete the renewal requirements may be submitted from April 1 through June 30 of that year to the State Educator Preparation and Licensure Board. If an extension is approved, the license shall remain valid during the extension period.

(11) Notwithstanding any other provision of this subsection (e), if a licensee earns more than the required number of professional development hours during a renewal cycle, then the licensee may carry over any hours earned from April 1 through June 30 of the last year of the renewal cycle. Any hours carried over in this manner must be applied to the next renewal cycle. Illinois Administrators' Academy courses or hours earned in those courses may not be carried over.

PUBLIC ACT 100-0015
(Senate Bill No. 0069)

AN ACT concerning civil law.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 1. Section 505 of the Illinois Marriage and Dissolution of Marriage Act was amended by Public Act 99-763, effective January 1, 2017, and Public Act 99-764, effective July 1, 2017. One of these Public Acts used a version of Section 505 that had not yet incorporated the changes made by Public Act 99-90, effective January 1, 2016. This bill incorporates the changes made to Section 505 by Public Acts 99-90, 99-763, and 99-764, and makes additional changes.

Section 5. The Illinois Marriage and Dissolution of Marriage Act is amended by changing Sections 505 and 510 as follows:

New matter indicated by italics - deletions by strikeout
Sec. 505. Child support; contempt; penalties.

(a) In a proceeding for dissolution of marriage, legal separation, declaration of invalidity of marriage, dissolution of a civil union, a proceeding for child support following dissolution of the marriage or civil union by a court that lacked personal jurisdiction over the absent spouse, a proceeding for modification of a previous order for child support under Section 510 of this Act, or any proceeding authorized under Section 501 or 601 of this Act, the court may order either or both parents owing a duty of support to a child of the marriage or civil union to pay an amount reasonable and necessary for support. The duty of support owed to a child includes the obligation to provide for the reasonable and necessary physical, mental and emotional health needs of the child. For purposes of this Section, the term "child" shall include any child under age 18 and any child age 19 or younger who is still attending high school. For purposes of this Section, the term "obligor" means the parent obligated to pay support to the other parent.

(1) Child support guidelines. The Illinois Department of Healthcare and Family Services shall adopt rules establishing child support guidelines which include worksheets to aid in the calculation of the child support obligations award and a schedule of basic child support obligations table that reflects the percentage of combined net income that parents living in the same household in this State ordinarily spend on their child children. The child support guidelines have the following purposes:

(A) to establish as State policy an adequate standard of support for a child children, subject to the ability of parents to pay;

(B) to make child support obligations awards more equitable by ensuring more consistent treatment of parents persons in similar circumstances;

(C) to improve the efficiency of the court process by promoting settlements and giving courts and the parties guidance in establishing levels of child support awards;

(D) to calculate child support based upon the parents' combined adjusted net income estimated to have been allocated for the support of the child if the parents and child children were living in an intact household;

New matter indicated by italics - deletions by strikeout
(E) to adjust the child support based upon the needs of the children; and

(F) to allocate the amount of child support to be paid by each parent based upon a parent's net income the child support and the child's physical care arrangements.

(1.5) Computation of basic child support obligation. The court shall compute the basic child support obligation by taking the following steps:

(A) determine each parent's monthly net income;
(B) add the parents' monthly net incomes together to determine the combined monthly net income of the parents;
(C) select the corresponding appropriate amount from the schedule of basic child support obligations based on the parties' combined monthly net income and number of children of the parties; and
(D) calculate each parent's percentage share of the basic child support obligation.

Although a monetary obligation is computed for each parent as child support, the receiving parent's share is not payable to the other parent and is presumed to be spent directly on the child.

(2) Duty of support. The court shall determine award child support in each case by applying the child support guidelines unless the court makes a finding that application of the guidelines would be inappropriate, after considering the best interests of the child and in light of evidence which shows relevant factors including, but not limited to, one or more of the following:

(A) the financial resources and needs of the child;
(B) the financial resources and needs of the parents;
(C) the standard of living the child would have enjoyed had the marriage or civil union not been dissolved;
(D) the physical and emotional condition of the child and his or her educational needs; and
(E) the financial resources and needs of the noncustodial parent.

(3) Income.

New matter indicated by italics - deletions by strikeout
(A) As used in this Section, "gross income" means the total of all income from all sources, except "gross income" does not include (i) benefits received by the parent from means-tested public assistance programs, including, but not limited to, Temporary Assistance to Needy Families, Supplemental Security Income, and the Supplemental Nutrition Assistance Program or (ii) benefits and income received by the parent for other children in the household, including, but not limited to, child support, survivor benefits, and foster care payments. Social security disability and retirement benefits paid for the benefit of the subject child must be included in the disabled or retired parent's gross income for purposes of calculating the parent's child support obligation, but the parent is entitled to a child support credit for the amount of benefits paid to the other party for the child. "Gross income" also includes spousal support or spousal maintenance received pursuant to a court order in the pending proceedings or any other proceedings that must be included in the recipient's gross income for purposes of calculating the parent's child support obligation.

(B) As used in this Section, "net income" means gross income minus either the standardized tax amount calculated pursuant to subparagraph (C) of this paragraph (3) or the individualized tax amount calculated pursuant to subparagraph (D) of this paragraph (3), and minus any adjustments pursuant to subparagraph (F) of this paragraph (3). The standardized tax amount shall be used unless the requirements for an individualized tax amount set forth in subparagraph (E) of this paragraph (3) are met.

(C) As used in this Section, "standardized tax amount" means the total of federal and state income taxes for a single person claiming the standard tax deduction, one personal exemption, and the applicable number of dependency exemptions for the minor child or children of the parties, and Social Security tax and Medicare tax calculated at the Federal Insurance Contributions Act rate.

New matter indicated by italics - deletions by strikeout
(I) Unless a court has previously determined otherwise or the parties otherwise agree, the party with the majority of parenting time shall be deemed entitled to claim the dependency exemption for the parties’ minor children.

(II) The Illinois Department of Healthcare and Family Services shall promulgate a standardized net income conversion table that computes net income by deducting the standardized tax amount from gross income.

(D) As used in this Section, "individualized tax amount" means the aggregate of the following taxes:

(I) federal income tax (properly calculated withholding or estimated payments);

(II) State income tax (properly calculated withholding or estimated payments); and

(III) Social Security or self-employment tax, if applicable (or, if none, mandatory retirement contributions required by law or as a condition of employment) and Medicare tax calculated at the Federal Insurance Contributions Act rate.

(E) In lieu of a standardized tax amount, a determination of an individualized tax amount may be made under items (I), (II), or (III) below. If an individualized tax amount determination is made under this subparagraph (E), all relevant tax attributes (including filing status, allocation of dependency exemptions, and whether a party is to claim the standard deduction or itemized deductions for federal income tax purposes) shall be as the parties agree or as the court determines. To determine a party’s reported income, the court may order the party to complete an Internal Revenue Service Form 4506-T, Request for Tax Transcript.

(I) Agreement. Irrespective of whether the parties agree on any other issue before the court, if they jointly stipulate for the record their concurrence on a computation method for the individualized tax amount that is different from the method set forth under subparagraph (D), the
stipulated method shall be used by the court unless the court rejects the proposed stipulated method for good cause.

(II) Summary hearing. If the court determines child support in a summary hearing under Section 501 and an eligible party opts in to the individualized tax amount computation method under this item (II), the individualized tax amount shall be determined by the court on the basis of information contained in one or both parties' Supreme Court approved Financial Affidavit (Family & Divorce Cases) financial disclosure statement, financial affidavit, or similar instrument and relevant supporting documents under applicable court rules. No party, however, is eligible to opt in unless the party, under applicable court rules, has served the other party with the required Supreme Court approved Financial Affidavit (Family & Divorce Cases) and has substantially produced supporting documents required by the applicable court rules statement, affidavit, or other instrument and has also substantially turned over supporting documents to the extent required by the applicable rule at the time of service of the statement, affidavit, or other instrument.

(III) Evidentiary hearing. If the court determines child support in an evidentiary hearing, whether for purposes of a temporary order or at the conclusion of a proceeding, item (II) of this subparagraph (E) does not apply. In each such case (unless item (I) governs), the individualized tax amount shall be as determined by the court on the basis of the record established.

(F) Adjustments to gross income.

(I) Multi-family adjustment. If a parent also is also legally responsible for support of a child children not shared with the other parent and not subject to the present proceeding, there shall be an adjustment to net gross income as follows:

New matter indicated by italics - deletions by strikeout
(i) Multi-family adjustment with court order. The court shall deduct from the parent's net income the amount of child support actually paid by the parent pursuant to a support order unless the court makes a finding that it would cause economic hardship to the child shall be deducted from the parent's gross income.

(ii) Multi-family adjustment without court order. Upon the request or application of a parent actually supporting a presumed, acknowledged, or adjudicated child living in or outside of that parent's household, there shall be an adjustment to child support. The court shall deduct from the parent's net income the amount of financial support actually paid by the parent for the children living in or outside of that parent's household or 75% of the support the parent should pay under the child support guidelines (before this adjustment), whichever is less, unless the court makes a finding that it would cause economic hardship to the child. The adjustment shall be calculated using that parent's income alone shall be deducted from that parent's gross income.

(II) Spousal Maintenance adjustment. Obligations pursuant to a court order for spousal maintenance in the pending proceeding actually paid or payable under Section 504 to the same party to whom child support is to be payable or actually paid to a former spouse pursuant to a court order shall be deducted from the parent's gross income.

(3.1) Business income. For purposes of calculating child support, net business income from the operation of a business means gross receipts minus ordinary and necessary expenses required to carry on the trade or business. As used in this paragraph, "business" includes, but is not limited to, sole

New matter indicated by italics - deletions by strikeout
proprietorships, closely held corporations, partnerships, other flow-through business entities, and self-employment. The court shall apply the following:

(A) The accelerated component of depreciation and any business expenses determined either judicially or administratively to be inappropriate or excessive shall be excluded from the total of ordinary and necessary business expenses to be deducted in the determination of net business income from gross business income.

(B) Any item of reimbursement or in-kind payment received by a parent from the business, including, but not limited to, a company car, reimbursed meals, free housing, or reimbursed meals, shall be counted as income if not otherwise included in the recipient's gross income, if the item is significant in amount and reduces personal expenses.

(3.2) Unemployment or underemployment. If a parent is voluntarily unemployed or underemployed, child support shall be calculated based on a determination of potential income. A determination of potential income shall be made by determining employment potential and probable earnings level based on the obligor's work history, occupational qualifications, prevailing job opportunities, the ownership by a parent of a substantial non-income producing asset, and earnings levels in the community. If there is insufficient work history to determine employment potential and probable earnings level, there shall be a rebuttable presumption that the parent's potential income is 75% of the most recent United States Department of Health and Human Services Federal Poverty Guidelines for a family of one person.

(3.3) Rebuttable presumption in favor of guidelines. There is a rebuttable presumption in any judicial or administrative proceeding for child support that the amount of the child support obligation that would result from the application of the child support guidelines is the correct amount of child support to be awarded.

(3.3a) Minimum child support obligation. There is a rebuttable presumption that a minimum child support obligation of $40 per month, per child, will be entered for a parent who has actual or imputed gross income at or less than 75%
of the most recent United States Department of Health and Human Services Federal Poverty Guidelines for a family of one person, with a maximum total child support obligation for that obligor of $120 per month to be divided equally among all of the obligor's children.

(3.3b) Zero dollar child support order. For parents with no gross income, including those who receive only means-tested assistance, or who cannot work due to a medically proven disability, incarceration, or institutionalization, there is a rebuttable presumption that the $40 per month minimum support order is inappropriate and a zero dollar order shall be entered.

(3.4) Deviation factors. In any action to establish or modify child support, whether pursuant to a temporary or final administrative or court order permanent, the child support guidelines shall be used as a rebuttable presumption for the establishment or modification of the amount of child support. The court may deviate from the child support guidelines if the application would be inequitable, unjust, or inappropriate. Any deviation from the guidelines shall be accompanied by written findings by the court specifying the reasons for the deviation and the presumed amount under the child support guidelines without a deviation. These reasons may include:

(A) extraordinary medical expenditures necessary to preserve the life or health of a party or a child of either or both of the parties;

(B) additional expenses incurred for a child subject to the child support order who has special medical, physical, or developmental needs; and

(C) any other factor the court determines should be applied upon a finding that the application of the child support guidelines would be inappropriate, after considering the best interest of the child.

(3.5) Income in excess of the schedule of basic child support obligation table. A court may use its discretion to determine child support if the combined adjusted net gross income of the parties exceeds the highest level uppermost levels of the schedule of basic child support obligation obligations, except that the basic child support obligation shall not be less than it would be based on the highest level of combined net

(3.6) Extracurricular activities and school expenses. The court, in its discretion, in addition to the basic child support obligation, may order either or both parents owing a duty of support to the child to contribute to the reasonable school and extracurricular activity expenses incurred which are intended to enhance the educational, athletic, social, or cultural development of the child.

(3.7) Child care expenses. The court, in its discretion, in addition to the basic child support obligation, may order either or both parents owing a duty of support to the child to contribute to the reasonable child care expenses of the child. The child care expenses shall be made payable directly to a party or directly to the child care provider at the time of child care services.

(A) "Child care expenses" means actual annualized monthly child care expenses reasonably necessary to enable a parent or non-parent custodian to be employed, to attend educational or vocational education and training programs to improve employment opportunities, or to search for employment. "Child care expenses" also includes after-school care and all work-related child care expenses incurred while receiving education or training to improve employment opportunities. "Child care expenses" includes deposits for the retention of securing placement in a child care program, the cost of before and after school care, and day programs. "Child care expenses" may include camps when school is not in session. Parties may agree on additional day camps. Child care expenses due to a child's special needs shall be a consideration in determining reasonable child care expenses for a child with special needs.

(B) Child care expenses shall be calculated as set forth in this paragraph. Child care expenses shall be prorated in proportion to each parent's percentage share of combined parental net income, and may be added to the basic child support obligation if not paid directly by each parent to the provider of child care services. The obligor's

New matter indicated by italics - deletions by strikeout
and obligee's portion of actual child care expenses shall appear in the support order. If allowed, the value of the federal income tax credit for child care shall be subtracted from the actual cost to determine the net child care costs. The obligee's share of child care expenses shall be paid by the obligee directly to the child care provider.

(C) The amount of child care expenses shall be adequate to obtain reasonable and necessary child care. The family's actual child care expenses shall be used to calculate the child care expenses expense contributions, if available. When actual child care expenses vary, the actual child care expenses may shall be averaged over the most recent 12-month period. When a the parent is temporarily unemployed or temporarily not attending educational or vocational training programs, future school, then child care expenses shall be based upon prospective expenses to be incurred upon return to employment or educational or vocational training programs.

(D) An order for child care expenses may be modified upon a showing of a substantial change in circumstances. The party Persons incurring child care expenses shall notify the other party obligor within 14 days of any change in the amount of child care expenses that would affect the annualized child care amount as determined in the support order.

(3.8) Shared physical care parenting. If each parent exercises 146 or more overnights per year with the child, the basic child support obligation is multiplied by 1.5 to calculate the shared care child support obligation. The court shall determine each parent's share of the shared care child support obligation based on the parent's percentage share of combined net income. The child support obligation is then computed for each parent by multiplying that parent's portion of the shared care support obligation by the percentage of time the child spends with the other parent. The respective child support obligations are then offset, with the parent owing more child support paying the difference between the child support amounts. The Illinois Child support for cases with shared physical care are calculated using a child support worksheet promulgated by the Department of Healthcare and Family Services.

New matter indicated by italics - deletions by strikeout
shall promulgate a worksheet to calculate child support in cases in which the parents have shared physical care and use the standardized tax amount to determine net income. An adjustment for shared physical care is made only when each parent has the child for 146 or more overnights per year:

(3.9) Split physical care. When Split care refers to a situation in which there is more than one child and each parent has physical care of at least one but not all of the children. In a split care situation, the support is calculated by using 2 child support worksheets to determine the support each parent owes the other. The resulting obligations are then offset, with one parent owing the other the difference as a child support order. The support shall be calculated as follows:

(A) compute the support the first parent would owe to other parent as if the child in his or her care was the only child of the parties; then

(B) compute the support the other parent would owe to the first parent as if the child in his or her care were the only child of the parties; then

(C) subtract the lesser support obligation from the greater.

The parent who owes the greater obligation shall be ordered to pay the difference in support to the other parent, unless the court determines, pursuant to other provisions of this Section, that it should deviate from the guidelines.

(4) Health care.

(A) A portion of the basic child support obligation is intended to cover basic ordinary out-of-pocket medical expenses. The court, in its discretion, in addition to the basic child support obligation, shall also provide for the child's current and future medical needs by ordering either or both parents to initiate health insurance or medical coverage for the child through currently effective health or medical insurance policies held by the parent or parents, purchase one or more either or all of health, or medical, dental, or vision insurance policies for the child, or provide for the child's current and future medical needs through some other manner.
(B) The court, in its discretion, may also order either or both parents to contribute to the reasonable health care needs of the child not covered by insurance, including, but not limited to, unreimbursed medical, dental, orthodontic, or vision expenses and any prescription medication for the child not covered under the child's health or medical insurance.

(C) If neither parent has access to appropriate private health insurance care coverage, the court may order:
   
   (I) one or both parents to provide health insurance care coverage at any time it becomes available at a reasonable cost; or
   
   (II) the parent or non-parent custodian with primary physical responsibility for the child to apply for public health insurance care coverage for the child and require either or both parents the other parent to pay a reasonable amount of the cost of health insurance for the child for medical support.

The If cash medical support is ordered, the order may also provide that any time private health insurance care coverage is available at a reasonable cost to that party it will be provided instead of cash medical support. As used in this Section, "cash medical support" means an amount ordered to be paid toward the cost of health insurance provided by a public entity or by another person through employment or otherwise or for other medical costs not covered by insurance.

(D) The amount to be added to the basic child support obligation shall be the actual amount of the total health insurance premium that is attributable to the child who is the subject of the order. If this amount is not available or cannot be verified, the total cost of the health insurance premium shall be divided by the total number of persons covered by the policy. The cost per person derived from this calculation shall be multiplied by the number of children who are the subject of the order and who are covered under the health insurance policy. This amount shall be added to the basic child support obligation and
shall be allocated divided between the parents in proportion to their respective net adjusted gross incomes.

(E) After the health insurance premium for the child is added to the basic child support obligation and allocated divided between the parents in proportion to their respective incomes for child support purposes, if the obligor is paying the premium, the amount calculated for the obligee's share of the health insurance premium for the child shall be deducted from the obligor's share of the total child support obligation. If the obligee is paying for private health insurance for the child, the child support obligation shall be increased by the obligor's share of the premium payment. The obligor's and obligee's portion of health insurance costs shall appear in the support order the premium, no further adjustment is necessary.

(F) Prior to allowing the health insurance adjustment, the parent requesting the adjustment must submit proof that the child has been enrolled in a health insurance plan and must submit proof of the cost of the premium. The court shall require the parent receiving the adjustment to annually submit proof of continued coverage of the child to the child support enforcement unit and to the other parent, or as designated by the court.

(G) A reasonable cost for providing health insurance care coverage for the child or children may not exceed 5% of the providing parent's gross income. Parents with a net income below 133% of the most recent United States Department of Health and Human Services Federal Poverty Guidelines or whose child is covered by Medicaid based on that parent's income may not be ordered to contribute toward or provide private coverage, unless private coverage is obtainable without any financial contribution by that parent.

(H) If dental or vision insurance is included as part of the employer's medical plan, the coverage shall be maintained for the child. If not included in the employer's medical plan, adding the dental or vision insurance for the child is at the discretion of the court.

New matter indicated by italics - deletions by strikeout
(I) If a parent has been directed to provide health insurance pursuant to this paragraph and that parent's spouse or legally recognized partner provides the insurance for the benefit of the child either directly or through employment, a credit on the child support worksheet shall be given to that parent in the same manner as if the premium were paid by that parentparents and, including, but not limited to, student loans.

(4.5) In a proceeding for child support following dissolution of the marriage or civil union by a court that lacked personal jurisdiction over the absent spouse, and in which the court is requiring payment of support for the period before the date an order for current support is entered, there is a rebuttable presumption that the obligor's supporting party's net income for the prior period was the same as his or her net income at the time the order for current support is entered.

(5) If the net income cannot be determined because of default or any other reason, the court shall order support in an amount considered reasonable in the particular case. The final order in all cases shall state the support level in dollar amounts. However, if the court finds that the child support amount cannot be expressed exclusively as a dollar amount because all or a portion of the obligor's supporting parent's net income is uncertain as to source, time of payment, or amount, the court may order a percentage amount of support in addition to a specific dollar amount and enter such other orders as may be necessary to determine and enforce, on a timely basis, the applicable support ordered.

(6) If (i) the obligor supporting parent was properly served with a request for discovery of financial information relating to the obligor's supporting parent's ability to provide child support, (ii) the obligor supporting parent failed to comply with the request, despite having been ordered to do so by the court, and (iii) the obligor supporting parent is not present at the hearing to determine support despite having received proper notice, then any relevant financial information concerning the obligor's supporting parent's ability to provide child support that was obtained pursuant to subpoena and proper notice shall be admitted into evidence without the need to establish any further foundation for its admission.

New matter indicated by italics - deletions by strikeout
(a-5) In an action to enforce an order for child support based on the obligor’s failure of the supporting parent to make support payments as required by the order, notice of proceedings to hold the obligor supporting parent in contempt for that failure may be served on the obligor supporting parent by personal service or by regular mail addressed to the last known address of the obligor supporting parent. The last known address of the obligor supporting parent may be determined from records of the clerk of the court, from the Federal Case Registry of Child Support Orders, or by any other reasonable means.

(b) Failure of either parent to comply with an order to pay support shall be punishable as in other cases of contempt. In addition to other penalties provided by law the court may, after finding the parent guilty of contempt, order that the parent be:

(1) placed on probation with such conditions of probation as the court deems advisable;
(2) sentenced to periodic imprisonment for a period not to exceed 6 months; provided, however, that the court may permit the parent to be released for periods of time during the day or night to:
   (A) work; or
   (B) conduct a business or other self-employed occupation.

The court may further order any part or all of the earnings of a parent during a sentence of periodic imprisonment paid to the Clerk of the Circuit Court or to the parent having physical possession of the child receiving the support or to the non-parent custodian having custody guardian receiving the support of the child children of the sentenced parent for the support of the child said children until further order of the court.

If a parent who is found guilty of contempt for failure to comply with an order to pay support is a person who conducts a business or who is self-employed, the court in addition to other penalties provided by law may order that the parent do one or more of the following: (i) provide to the court monthly financial statements showing income and expenses from the business or the self-employment; (ii) seek employment and report periodically to the court with a diary, listing, or other memorandum of his or her employment search efforts; or (iii) report to the Department of Employment Security for job search services to find employment that will be subject to withholding for child support.

If there is a unity of interest and ownership sufficient to render no financial separation between an obligor a supporting parent and another

person or persons or business entity, the court may pierce the ownership veil of the person, persons, or business entity to discover assets of the obligor supporting parent held in the name of that person, those persons, or that business entity. The following circumstances are sufficient to authorize a court to order discovery of the assets of a person, persons, or business entity and to compel the application of any discovered assets toward payment on the judgment for support:

1. the obligor supporting parent and the person, persons, or business entity maintain records together.
2. the obligor supporting parent and the person, persons, or business entity fail to maintain an arm's length relationship between themselves with regard to any assets.
3. the obligor supporting parent transfers assets to the person, persons, or business entity with the intent to perpetrate a fraud on the obligee parent receiving the support.

With respect to assets which are real property, no order entered under this paragraph shall affect the rights of bona fide purchasers, mortgagees, judgment creditors, or other lien holders who acquire their interests in the property prior to the time a notice of lis pendens pursuant to the Code of Civil Procedure or a copy of the order is placed of record in the office of the recorder of deeds for the county in which the real property is located.

The court may also order in cases where the parent is 90 days or more delinquent in payment of support or has been adjudicated in arrears in an amount equal to 90 days obligation or more, that the parent's Illinois driving privileges be suspended until the court determines that the parent is in compliance with the order of support. The court may also order that the parent be issued a family financial responsibility driving permit that would allow limited driving privileges for employment and medical purposes in accordance with Section 7-702.1 of the Illinois Vehicle Code. The Clerk of the Circuit Court shall certify the order suspending the driving privileges of the parent or granting the issuance of a family financial responsibility driving permit to the Secretary of State on forms prescribed by the Secretary of State. Upon receipt of the authenticated documents, the Secretary of State shall suspend the parent's driving privileges until further order of the court and shall, if ordered by the court, subject to the provisions of Section 7-702.1 of the Illinois Vehicle Code, issue a family financial responsibility driving permit to the parent.
In addition to the penalties or punishment that may be imposed under this Section, any person whose conduct constitutes a violation of Section 15 of the Non-Support Punishment Act may be prosecuted under that Act, and a person convicted under that Act may be sentenced in accordance with that Act. The sentence may include but need not be limited to a requirement that the person perform community service under Section 50 of that Act or participate in a work alternative program under Section 50 of that Act. A person may not be required to participate in a work alternative program under Section 50 of that Act if the person is currently participating in a work program pursuant to Section 505.1 of this Act.

A support obligation, or any portion of a support obligation, which becomes due and remains unpaid as of the end of each month, excluding the child support that was due for that month to the extent that it was not paid in that month, shall accrue simple interest as set forth in Section 12-109 of the Code of Civil Procedure. An order for support entered or modified on or after January 1, 2006 shall contain a statement that a support obligation required under the order, or any portion of a support obligation required under the order, that becomes due and remains unpaid as of the end of each month, excluding the child support that was due for that month to the extent that it was not paid in that month, shall accrue simple interest as set forth in Section 12-109 of the Code of Civil Procedure. Failure to include the statement in the order for support does not affect the validity of the order or the accrual of interest as provided in this Section.

(c) A one-time charge of 20% is imposable upon the amount of past-due child support owed on July 1, 1988 which has accrued under a support order entered by the court. The charge shall be imposed in accordance with the provisions of Section 10-21 of the Illinois Public Aid Code and shall be enforced by the court upon petition.

(d) Any new or existing support order entered by the court under this Section shall be deemed to be a series of judgments against the person obligated to pay support thereunder, each such judgment to be in the amount of each payment or installment of support and each such judgment to be deemed entered as of the date the corresponding payment or installment becomes due under the terms of the support order. Each such judgment shall have the full force, effect and attributes of any other judgment of this State, including the ability to be enforced. Notwithstanding any other State or local law to the contrary, a lien arises

by operation of law against the real and personal property of the obligor supporting parent for each installment of overdue support owed by the obligor supporting parent.

(e) When child support is to be paid through the Clerk of the Court in a county of 1,000,000 inhabitants or less, the order shall direct the obligor supporting parent to pay to the Clerk, in addition to the child support payments, all fees imposed by the county board under paragraph (3) of subsection (u) of Section 27.1 of the Clerks of Courts Act. Unless paid in cash or pursuant to an Income Withholding Order/Notice for Support order for withholding, the payment of the fee shall be by payment acceptable to the clerk a separate instrument from the support payment and shall be made to the order of the Clerk.

(f) All orders for support, when entered or modified, shall include a provision requiring the obligor supporting parent to notify the court and, in cases in which a party is receiving child and spouse services under Article X of the Illinois Public Aid Code, the Department of Healthcare and Family Services, within 7 days, (i) of the name and address of any new employer of the obligor, (ii) whether the obligor supporting parent has access to health insurance coverage through the employer or other group coverage and, if so, the policy name and number and the names of persons covered under the policy, except only the initials of any covered minors shall be included, and (iii) of any new residential or mailing address or telephone number of the obligor supporting parent. In any subsequent action to enforce a support order, upon a sufficient showing that a diligent effort has been made to ascertain the location of the obligor supporting parent, service of process or provision of notice necessary in the case may be made at the last known address of the obligor supporting parent in any manner expressly provided by the Code of Civil Procedure or this Act, which service shall be sufficient for purposes of due process.

(g) An order for support shall include a date on which the current support obligation terminates. The termination date shall be no earlier than the date on which the child covered by the order will attain the age of 18. However, if the child will not graduate from high school until after attaining the age of 18, then the termination date shall be no earlier than the earlier of the date on which the child's high school graduation will occur or the date on which the child will attain the age of 19. The order for support shall state that the termination date does not apply to any arrearage that may remain unpaid on that date. Nothing in this subsection shall be
construed to prevent the court from modifying the order or terminating the order in the event the child is otherwise emancipated.

(g-5) If there is an unpaid arrearage or delinquency (as those terms are defined in the Income Withholding for Support Act) equal to at least one month's support obligation on the termination date stated in the order for support or, if there is no termination date stated in the order, on the date the child attains the age of majority or is otherwise emancipated, the periodic amount required to be paid for current support of that child immediately prior to that date shall automatically continue to be an obligation, not as current support but as periodic payment toward satisfaction of the unpaid arrearage or delinquency. That periodic payment shall be in addition to any periodic payment previously required for satisfaction of the arrearage or delinquency. The total periodic amount to be paid toward satisfaction of the arrearage or delinquency may be enforced and collected by any method provided by law for enforcement and collection of child support, including but not limited to income withholding under the Income Withholding for Support Act. Each order for support entered or modified on or after the effective date of this amendatory Act of the 93rd General Assembly must contain a statement notifying the parties of the requirements of this subsection. Failure to include the statement in the order for support does not affect the validity of the order or the operation of the provisions of this subsection with regard to the order. This subsection shall not be construed to prevent or affect the establishment or modification of an order for support of a minor child or the establishment or modification of an order for support of a non-minor child or educational expenses under Section 513 of this Act.

(h) An order entered under this Section shall include a provision requiring either parent to report to the other parent and to the Clerk of Court within 10 days each time either parent obtains new employment, and each time either parent's employment is terminated for any reason. The report shall be in writing and shall, in the case of new employment, include the name and address of the new employer. Failure to report new employment or the termination of current employment, if coupled with nonpayment of support for a period in excess of 60 days, is indirect criminal contempt. For either parent arrested for failure to report new employment bond shall be set in the amount of the child support that should have been paid during the period of unreported employment. An order entered under this Section shall also include a provision requiring either obligor and obligee parent to advise the other of

Sec. 510. Modification and termination of provisions for maintenance, support, educational expenses, and property disposition.

(a) Except as otherwise provided in paragraph (f) of Section 502 and in subsection (b), clause (3) of Section 505.2, the provisions of any judgment respecting maintenance or support may be modified only as to installments accruing subsequent to due notice by the moving party of the filing of the motion for modification. An order for child support may be modified as follows:

(1) upon a showing of a substantial change in circumstances; and

(2) without the necessity of showing a substantial change in circumstances, as follows:

(A) upon a showing of an inconsistency of at least 20%, but no less than $10 per month, between the amount of the existing order and the amount of child support that results from application of the guidelines specified in Section 505 of this Act unless the inconsistency is due to the fact that the amount of the existing order resulted from a deviation from the guideline amount and there has not been a change in the circumstances that resulted in that deviation; or

(B) upon a showing of a need to provide for the health care needs of the child under the order through health insurance or other means. In no event shall the eligibility for or receipt of medical assistance be considered to meet the need to provide for the child's health care needs.

The provisions of subparagraph (a)(2)(A) shall apply only in cases in which a party is receiving child support enforcement services from the Department of Healthcare and Family Services under Article X of the Illinois Public Aid Code, and only when at least 36 months have elapsed since the order for child support was entered or last modified.

(a-5) An order for maintenance may be modified or terminated only upon a showing of a substantial change in circumstances. In all such proceedings, as well as in proceedings in which maintenance is being reviewed, the court shall consider the applicable factors set forth in subsection (a) of Section 504 and the following factors:

1. any change in the employment status of either party and whether the change has been made in good faith;
2. the efforts, if any, made by the party receiving maintenance to become self-supporting, and the reasonableness of the efforts where they are appropriate;
3. any impairment of the present and future earning capacity of either party;
4. the tax consequences of the maintenance payments upon the respective economic circumstances of the parties;
5. the duration of the maintenance payments previously paid (and remaining to be paid) relative to the length of the marriage;
6. the property, including retirement benefits, awarded to each party under the judgment of dissolution of marriage, judgment of legal separation, or judgment of declaration of invalidity of marriage and the present status of the property;
7. the increase or decrease in each party's income since the prior judgment or order from which a review, modification, or termination is being sought;
8. the property acquired and currently owned by each party after the entry of the judgment of dissolution of marriage, judgment of legal separation, or judgment of declaration of invalidity of marriage; and
9. any other factor that the court expressly finds to be just and equitable.

(a-6) In a review under subsection (b-4.5) of Section 504 of this Act, the court may enter a fixed-term maintenance award that bars future maintenance only if, at the time of the entry of the award, the marriage had lasted 10 years or less at the time the original action was commenced.

New matter indicated by italics - deletions by strikeout
(b) The provisions as to property disposition may not be revoked or modified, unless the court finds the existence of conditions that justify the reopening of a judgment under the laws of this State.

(c) Unless otherwise agreed by the parties in a written agreement set forth in the judgment or otherwise approved by the court, the obligation to pay future maintenance is terminated upon the death of either party, or the remarriage of the party receiving maintenance, or if the party receiving maintenance cohabits with another person on a resident, continuing conjugal basis. A payor's obligation to pay maintenance or unallocated maintenance terminates by operation of law on the date the recipient remarries or the date the court finds cohabitation began. The payor is entitled to reimbursement for all maintenance paid from that date forward. Any termination of an obligation for maintenance as a result of the death of the payor party, however, shall be inapplicable to any right of the other party or such other party's designee to receive a death benefit under such insurance on the payor party's life. A party receiving maintenance must advise the payor of his or her intention to marry at least 30 days before the remarriage, unless the decision is made within this time period. In that event, he or she must notify the other party within 72 hours of getting married.

(c-5) In an adjudicated case, the court shall make specific factual findings as to the reason for the modification as well as the amount, nature, and duration of the modified maintenance award.

(d) Unless otherwise provided in this Act, or as agreed in writing or expressly provided in the judgment, provisions for the support of a child are terminated by emancipation of the child, or if the child has attained the age of 18 and is still attending high school, provisions for the support of the child are terminated upon the date that the child graduates from high school or the date the child attains the age of 19, whichever is earlier, but not by the death of a parent obligated to support or educate the child. An existing obligation to pay for support or educational expenses, or both, is not terminated by the death of a parent. When a parent obligated to pay support or educational expenses, or both, dies, the amount of support or educational expenses, or both, may be enforced, modified, revoked or commuted to a lump sum payment, as equity may require, and that determination may be provided for at the time of the dissolution of the marriage or thereafter.

(e) The right to petition for support or educational expenses, or both, under Sections 505 and 513 is not extinguished by the death of a parent.
parent. Upon a petition filed before or after a parent's death, the court may award sums of money out of the decedent's estate for the child's support or educational expenses, or both, as equity may require. The time within which a claim may be filed against the estate of a decedent under Sections 505 and 513 and subsection (d) and this subsection shall be governed by the provisions of the Probate Act of 1975, as a barrable, noncontingent claim.

(f) A petition to modify or terminate child support or allocation of parental responsibilities shall not delay any child support enforcement litigation or supplementary proceeding on behalf of the obligee, including, but not limited to, a petition for a rule to show cause, for non-wage garnishment, or for a restraining order.

The court may grant a petition for modification that seeks to apply the changes made to subsection (a) of Section 505 by Public Act 99-764 to an order entered before the effective date of this amendatory Act of the 99th General Assembly only upon a finding of a substantial change in circumstances that warrants application of the changes. The enactment of this amendatory Act of the 99th General Assembly itself does not constitute a substantial change in circumstances warranting a modification.

(a-5) An order for maintenance may be modified or terminated only upon a showing of a substantial change in circumstances. An obligor's obligation to pay maintenance or unallocated maintenance terminates by operation of law on the date the obligee remarries or the date the court finds cohabitation began. The obligor is entitled to reimbursement for all maintenance paid from that date forward. Any termination of an obligation for maintenance as a result of the death of the obligor, however, shall be inapplicable to any right of the other party or such other party's designee to receive a death benefit under such insurance on the obligor's life. AN ACT concerning regulation.

Be it enacted by the People of the State of Illinois, represented in the General Assembly:

Section 5. The Public Utilities Act is amended by changing Section 16-128A as follows:

(220 ILCS 5/16-128A)
(Text of Section before amendment by P.A. 99-906)
Sec. 16-128A. Certification of installers, maintainers, or repairers.
(a) Within 18 months of the effective date of this amendatory Act of the 97th General Assembly, the Commission shall adopt rules, including emergency rules, establishing certification requirements ensuring that entities installing distributed generation facilities are in compliance with the requirements of subsection (a) of Section 16-128 of this Act.

For purposes of this Section, the phrase "entities installing distributed generation facilities" shall include, but not be limited to, all entities that are exempt from the definition of "alternative retail electric supplier" under item (v) of Section 16-102 of this Act. For purposes of this Section, the phrase "self-installer" means an individual who (i) leases or purchases a cogeneration facility for his or her own personal use and (ii) installs such cogeneration or self-generation facility on his or her own premises without the assistance of any other person.

(b) In addition to any authority granted to the Commission under this Act, the Commission is also authorized to: (1) determine which entities are subject to certification under this Section; (2) impose reasonable certification fees and penalties; (3) adopt disciplinary procedures; (4) investigate any and all activities subject to this Section, including violations thereof; (5) adopt procedures to issue or renew, a certification or to revoke, suspend, place on probation, reprimand, or otherwise discipline a certified entity under this Act or take other enforcement action against an entity subject to this Section; and (6) prescribe forms to be issued for the administration and enforcement of this Section.

(c) No electric utility shall provide a retail customer with net metering service related to interconnection of that customer's distributed generation facility unless the customer provides the electric utility with (i)
a certification that the customer installing the distributed generation facility was a self-installer or (ii) evidence that the distributed generation facility was installed by an entity certified under this Section that is also in good standing with the Commission. For purposes of this subsection, a retail customer includes that customer's employees, officers, and agents. An electric utility shall file a tariff or tariffs with the Commission setting forth the documentation, as specified by Commission rule, that a retail customer must provide to an electric utility. The provisions of this subsection (c) shall apply on or after the effective date of the Commission's rules prescribed pursuant to subsection (a) of this Section.

(d) Within 180 days after the effective date of this amendatory Act of the 97th General Assembly, the Commission shall initiate a rulemaking proceeding to establish certification requirements that shall be applicable to persons or entities that install, maintain, or repair electric vehicle charging stations. The notification and certification requirements of this Section shall only be applicable to individuals or entities that perform work on or within an electric vehicle charging station, including, but not limited to, connection of power to an electric vehicle charging station.

For the purposes of this Section "electric vehicle charging station" means any facility or equipment that is used to charge a battery or other energy storage device of an electric vehicle.

Rules regulating the installation, maintenance, or repair of electric vehicle charging stations, in which the Commission may establish separate requirements based upon the characteristics of electric vehicle charging stations, so long as it is in accordance with the requirements of subsection (a) of Section 16-128 and Section 16-128A of this Act, shall:

(1) establish a certification process for persons or entities that install, maintain, or repair of electric vehicle charging stations;

(2) require persons or entities that install, maintain, or repair electric vehicle stations to be certified to do business and to be bonded in the State;

(3) ensure that persons or entities that install, maintain, or repair electric vehicle charging stations have the requisite knowledge, skills, training, experience, and competence to perform functions in a safe and reliable manner as required under subsection (a) of Section 16-128 of this Act;

(4) impose reasonable certification fees and penalties on persons or entities that install, maintain, or repair of electric vehicle charging stations;
vehicle charging stations for noncompliance of the rules adopted under this subsection;

(5) ensure that all persons or entities that install, maintain, or repair electric vehicle charging stations conform to applicable building and electrical codes;

(6) ensure that all electric vehicle charging stations meet recognized industry standards as the Commission deems appropriate, such as the National Electric Code (NEC) and standards developed or created by the Institute of Electrical and Electronics Engineers (IEEE), the Electric Power Research Institute (EPRI), the Detroit Edison Institute (DTE), the Underwriters Laboratory (UL), the Society of Automotive Engineers (SAE), and the National Institute of Standards and Technology (NIST);

(7) include any additional requirements that the Commission deems reasonable to ensure that persons or entities that install, maintain, or repair electric vehicle charging stations meet adequate training, financial, and competency requirements;

(8) ensure that the obligations required under this Section and subsection (a) of Section 16-128 of this Act are met prior to the interconnection of any electric vehicle charging station;

(9) ensure electric vehicle charging stations installed by a self-installer are not used for any commercial purpose;

(10) establish an inspection procedure for the conversion of electric vehicle charging stations installed by a self-installer if it is determined that the self-installed electric vehicle charging station is being used for commercial purposes;

(11) establish the requirement that all persons or entities that install electric vehicle charging stations shall notify the servicing electric utility in writing of plans to install an electric vehicle charging station and shall notify the servicing electric utility in writing when installation is complete;

(12) ensure that all persons or entities that install, maintain, or repair electric vehicle charging stations obtain certificates of insurance in sufficient amounts and coverages that the Commission so determines and, if necessary as determined by the Commission, names the affected public utility as an additional insured; and

(13) identify and determine the training or other programs by which persons or entities may obtain the requisite training,

skills, or experience necessary to achieve and maintain compliance with the requirements set forth in this subsection and subsection (a) of Section 16-128 to install, maintain, or repair electric vehicle charging stations.

Within 18 months after the effective date of this amendatory Act of the 97th General Assembly, the Commission shall adopt rules, and may, if it deems necessary, adopt emergency rules, for the installation, maintenance, or repair of electric vehicle charging stations.

All retail customers who own, maintain, or repair an electric vehicle charging station shall provide the servicing electric utility (i) a certification that the customer installing the electric vehicle charging station was a self-installer or (ii) evidence that the electric vehicle charging station was installed by an entity certified under this subsection (d) that is also in good standing with the Commission. For purposes of this subsection (d), a retail customer includes that retail customer's employees, officers, and agents. If the electric vehicle charging station was not installed by a self-installer, then the person or entity that plans to install the electric vehicle charging station shall provide notice to the servicing electric utility prior to installation and when installation is complete and provide any other information required by the Commission's rules established under subsection (d) of this Section. An electric utility shall file a tariff or tariffs with the Commission setting forth the documentation, as specified by Commission rule, that a retail customer who owns, uses, operates, or maintains an electric vehicle charging station must provide to an electric utility.

For the purposes of this subsection, an electric vehicle charging station shall constitute a distribution facility or equipment as that term is used in subsection (a) of Section 16-128 of this Act. The phrase "self-installer" means an individual who (i) leases or purchases an electric vehicle charging station for his or her own personal use and (ii) installs an electric vehicle charging station on his or her own premises without the assistance of any other person.

(e) Fees and penalties collected under this Section shall be deposited into the Public Utility Fund and used to fund the Commission's compliance with the obligations imposed by this Section.

(f) The rules established under subsection (d) of this Section shall specify the initial dates for compliance with the rules.

stations as set forth in this Section is an exclusive power and function of the State. A home rule unit or other units of local government authority may subject persons or entities that install, maintain, or repair distributed generation facilities or electric vehicle charging stations as set forth in this Section to any applicable local licensing, siting, and permitting requirements otherwise permitted under law so long as only Commission-certified persons or entities are authorized to install, maintain, or repair distributed generation facilities or electric vehicle charging stations. This Section is a limitation under subsection (h) of Section 6 of Article VII of the Illinois Constitution on the exercise by home rule units of powers and functions exclusively exercised by the State.

Sec. 16-128A. Certification of installers, maintainers, or repairers.

(a) Within 18 months of the effective date of this amendatory Act of the 97th General Assembly, the Commission shall adopt rules, including emergency rules, establishing certification requirements ensuring that entities installing distributed generation facilities are in compliance with the requirements of subsection (a) of Section 16-128 of this Act.

For purposes of this Section, the phrase "entities installing distributed generation facilities" shall include, but not be limited to, all entities that are exempt from the definition of "alternative retail electric supplier" under item (v) of Section 16-102 of this Act. For purposes of this Section, the phrase "self-installer" means an individual who (i) leases or purchases a cogeneration facility for his or her own personal use and (ii) installs such cogeneration or self-generation facility on his or her own premises without the assistance of any other person.

Section 15. The Emergency Telephone System Act is reenacted and is amended by changing Sections 2, 8, 10, 10.3, 12, 14, 15.2a, 15.3, 15.3a, 15.4, 15.4a, 15.6a, 19, 20, 30, 35, 40, 55, and 99 and by adding Sections 17.5 and 80 as follows:

(50 ILCS 750/Act title)
An Act in relation to the designation of an emergency telephone number for use throughout the State.

(50 ILCS 750/0.01) (from Ch. 134, par. 30.01)
Sec. 0.01. This Act shall be known and may be cited as the "Emergency Telephone System Act".

(Source: P.A. 85-978.)

(50 ILCS 750/1) (from Ch. 134, par. 31)
Sec. 1. The General Assembly finds and declares that it is in the public interest to shorten the time required for a citizen to request and receive emergency aid. There currently exist thousands of different emergency phone numbers throughout the state, and present telephone exchange boundaries and central office service areas do not necessarily correspond to public safety and political boundaries. Provision of a single, primary three-digit emergency number through which emergency services can be quickly and efficiently obtained would provide a significant contribution to law enforcement and other public service efforts by making it less difficult to quickly notify public safety personnel. Such a simplified means of procuring emergency services will result in the saving of life, a reduction in the destruction of property, quicker apprehension of criminals, and ultimately the saving of money. The General Assembly further finds and declares that the establishment of a uniform, statewide emergency number is a matter of statewide concern and interest to all inhabitants and citizens of this State. It is the purpose of this Act to establish the number "9-1-1" as the primary emergency telephone number for use in this State and to encourage units of local government and combinations of such units to develop and improve emergency communication procedures and

facilities in such a manner as to be able to quickly respond to any person calling the telephone number "9-1-1" seeking police, fire, medical, rescue, and other emergency services. (Source: P.A. 85-978.)

a public safety agency responding emergency service refuses, once dispatched, to render aid to the requester because the requester is outside of the jurisdictional boundaries of the public safety agency emergency service. Therefore, in implementing a 9-1-1 system under this Act, all 9-1-1 authorities public agencies in a single system shall enter into call handling and aid outside jurisdictional boundaries agreements with each participating agency and adjacent 9-1-1 system a joint powers agreement or any other form of written cooperative agreement which is applicable when need arises on a day-to-day basis. (i) in a municipality with a population of 500,000 or less or in any county, 5 such surcharges per network connection, as determined in accordance with subsections (a) and (d) of Section 2.12 of this Act, for both regular service and advanced service provisioned trunk lines;

(ii) in a municipality with a population, prior to March 1, 2010, of 500,000 or more, 5 surcharges per network connection, as determined in accordance with subsections (a) and (d) of Section 2.12 of this Act, for both regular service and advanced service provisioned trunk lines;

(iv) for an advanced service provisioned trunk line connected between the subscriber's premises and the public switched network through a P.B.X., where the advanced service provisioned trunk line is capable of transporting at least 2 but fewer than 23 simultaneous VGC's per trunk line, the telecommunications carrier collecting the surcharge may elect to impose surcharges in accordance with the table provided in this Section, without limiting any telecommunications carrier's obligations to otherwise keep and maintain records. Any telecommunications carrier electing to impose fewer than 12 surcharges per an advanced service provisioned trunk line shall keep and maintain records adequately to demonstrate the VGC

Subsections (i), (ii), (iii), and (iv) are not intended to make any change in the meaning of this Section, but are intended to remove possible ambiguity, thereby confirming the intent of paragraph (a) as it existed prior to and following the effective date of this amendatory Act of the 97th General Assembly.

For mobile telecommunications services, if a surcharge is imposed it shall be imposed based upon the municipality or county that encompasses the customer's place of primary use as defined in the Mobile Telecommunications Sourcing Conformity Act. A municipality may enter into an intergovernmental agreement with any county in which it is partially located, when the county has adopted an ordinance to impose a surcharge as provided in subsection (c), to include that portion of the municipality lying outside the county in that county's surcharge referendum. If the county's surcharge referendum is approved, the portion of the municipality identified in the intergovernmental agreement shall automatically be disconnected from the county in which it lies and connected to the county which approved the referendum for purposes of a surcharge on telecommunications carriers.

(b) For purposes of computing the surcharge imposed by subsection (a), the network connections to which the surcharge shall apply shall be those in-service network connections, other than those network connections assigned to the municipality or county, where the service address for each such network connection or connections is located within the corporate limits of the municipality or county levying the surcharge. Except for mobile telecommunication services, the "service address" shall mean the location of the primary use of the network connection or connections. For mobile telecommunication services, "service address" means the customer's place of primary use as defined in the Mobile Telecommunications Sourcing Conformity Act.

(c) Upon the passage of an ordinance to impose a surcharge under this Section the clerk of the municipality or county shall certify the question of whether the surcharge may be imposed to the proper election authority who shall submit the public question to the electors of the municipality or county in accordance with the general election law; provided that such question shall not be submitted at a consolidated primary election. The public question shall be in substantially the following form:

```
-------------------------------------------------------------
Shall the county (or city, village
or incorporated town) of ..... impose
a surcharge of up to ...¢ per month per
network connection, which surcharge will
be added to the monthly bill you receive
for telephone or telecommunications
charges, for the purpose of installing
(or improving) a 9-1-1 Emergency
Telephone System?                         YES

-------------------------------------------------------------
```

If a majority of the votes cast upon the public question are in favor thereof, the surcharge shall be imposed.

However, if a Joint Emergency Telephone System Board is to be created pursuant to an intergovernmental agreement under Section 15.4, the ordinance to impose the surcharge shall be subject to the approval of a majority of the total number of votes cast upon the public question by the electors of all of the municipalities or counties, or combination thereof, that are parties to the intergovernmental agreement.

The referendum requirement of this subsection (c) shall not apply to any municipality with a population over 500,000 or to any county in which a proposition as to whether a sophisticated 9-1-1 Emergency Telephone System should be installed in the county, at a cost not to exceed a specified monthly amount per network connection, has previously been approved by a majority of the electors of the county voting on the proposition at an election conducted before the effective date of this amendatory Act of 1987.

(d) A county may not impose a surcharge, unless requested by a municipality, in any incorporated area which has previously approved a surcharge as provided in subsection (c) or in any incorporated area where the corporate authorities of the municipality have previously entered into a
binding contract or letter of intent with a telecommunications carrier to provide sophisticated 9-1-1 service through municipal funds.

(e) A municipality or county may at any time by ordinance change the rate of the surcharge imposed under this Section if the new rate does not exceed the rate specified in the referendum held pursuant to subsection (c).

(f) The surcharge authorized by this Section shall be collected from the subscriber by the telecommunications carrier providing the subscriber the network connection as a separately stated item on the subscriber's bill.

(g) The amount of surcharge collected by the telecommunications carrier shall be paid to the particular municipality or county or Joint Emergency Telephone System Board not later than 30 days after the surcharge is collected, net of any network or other 9-1-1 or sophisticated 9-1-1 system charges then due the particular telecommunications carrier, as shown on an itemized bill. The telecommunications carrier collecting the surcharge shall also be entitled to deduct 3% of the gross amount of surcharge collected to reimburse the telecommunications carrier for the expense of accounting and collecting the surcharge.

(h) Except as expressly provided in subsection (a) of this Section, on or after the effective date of this amendatory Act of the 98th General Assembly and until December 31, 2017, July 1, 2017, a municipality with a population of 500,000 or more shall not impose a monthly surcharge per network connection in excess of the highest monthly surcharge imposed as of January 1, 2014 by any county or municipality under subsection (c) of this Section. Beginning January 1, 2018 and until December 31, 2020, a municipality with a population over 500,000 may not impose a monthly surcharge in excess of $5.00 per network connection. On or after January 1, 2021, July 1, 2017, a municipality with a population over 500,000 may not impose a monthly surcharge in excess of $2.50 per network connection.

(i) Any municipality or county or joint emergency telephone system board that has imposed a surcharge pursuant to this Section prior to the effective date of this amendatory Act of 1990 shall hereafter impose the surcharge in accordance with subsection (b) of this Section.

(j) The corporate authorities of any municipality or county may issue, in accordance with Illinois law, bonds, notes or other obligations secured in whole or in part by the proceeds of the surcharge described in this Section. The State of Illinois pledges and agrees that it will not limit or alter the rights and powers vested in municipalities and counties by this

Section to impose the surcharge so as to impair the terms of or affect the security for bonds, notes or other obligations secured in whole or in part with the proceeds of the surcharge described in this Section. The pledge and agreement set forth in this Section survive the termination of the surcharge under subsection (l) by virtue of the replacement of the surcharge monies guaranteed under Section 20; the State of Illinois pledges and agrees that it will not limit or alter the rights vested in municipalities and counties to the surcharge replacement funds guaranteed under Section 20 so as to impair the terms of or affect the security for bonds, notes or other obligations secured in whole or in part with the proceeds of the surcharge described in this Section.

(k) Any surcharge collected by or imposed on a telecommunications carrier pursuant to this Section shall be held to be a special fund in trust for the municipality, county or Joint Emergency Telephone Board imposing the surcharge. Except for the 3% deduction provided in subsection (g) above, the special fund shall not be subject to the claims of creditors of the telecommunication carrier.

(l) On and after the effective date of this amendatory Act of the 99th General Assembly, no county or municipality, other than a municipality with a population over 500,000, may impose a monthly surcharge under this Section in excess of the amount imposed by it on the effective date of this Act. Any surcharge imposed pursuant to this Section by a county or municipality, other than a municipality with a population in excess of 500,000, shall cease to be imposed on January 1, 2016.

(a) Notwithstanding any other provision of this Act, a unit of local government or emergency telephone system board providing wireless 9-1-1 service and imposing and collecting a wireless carrier surcharge prior to July 1, 1998 may continue its practices of imposing and collecting its wireless carrier surcharge, but, except as provided in subsection (b) of this Section, in no event shall that monthly surcharge exceed $2.50 per commercial mobile radio service (CMRS) connection or in-service telephone number billed on a monthly basis. For mobile telecommunications services provided on and after August 1, 2002, any surcharge imposed shall be imposed based upon the municipality or county that encompasses the customer's place of primary use as defined in the Mobile Telecommunications Sourcing Conformity Act.

(b) Until December 31, 2017, the corporate authorities of a municipality with a population in excess of 500,000 on the effective date of this amendatory Act of the 99th General Assembly may by ordinance continue to impose and collect a monthly surcharge per commercial mobile radio service (CMRS) connection or in-service telephone number billed on a monthly basis that does not exceed the highest monthly surcharge imposed as of January 1, 2014 by any county or municipality under subsection (c) of Section 15.3 of this Act. Beginning January 1, 2018, and until December 31, 2020, a municipality with a population in excess of 500,000 may by ordinance continue to impose and collect a monthly surcharge per commercial mobile radio service (CMRS) connection or in-service telephone number billed on a monthly basis that does not exceed $5.00. Sec. 15.4. Emergency Telephone System Board; powers.
(a) Except as provided in subsection (e) of this Section, the corporate authorities of any county or municipality may establish an Emergency Telephone System Board.

The corporate authorities shall provide for the manner of appointment and the number of members of the Board, provided that the board shall consist of not fewer than 5 members, one of whom must be a public member who is a resident of the local exchange service territory included in the 9-1-1 coverage area, one of whom (in counties with a population less than 100,000) may be a member of the county board, and at least 3 of whom shall be representative of the 9-1-1 public safety agencies, including but not limited to police departments, fire departments, emergency medical services providers, and emergency services and disaster agencies, and appointed on the basis of their ability or experience.
In counties with a population of more than 100,000 but less than 2,000,000, a member of the county board may serve on the Emergency Telephone System Board. Elected officials, including members of a county board, are also eligible to serve on the board. Members of the board shall serve without compensation but shall be reimbursed for their actual and necessary expenses. Any 2 or more municipalities, counties, or combination thereof, may, instead of establishing individual boards, establish by intergovernmental agreement a Joint Emergency Telephone System Board pursuant to this Section. The manner of appointment of such a joint board shall be prescribed in the agreement. On or after the effective date of this amendatory Act of the 100th General Assembly, any new intergovernmental agreement entered into to establish or join a Joint Emergency Telephone System Board shall provide for the appointment of a PSAP representative to the board.

Upon the effective date of this amendatory Act of the 98th General Assembly, appointed members of the Emergency Telephone System Board shall serve staggered 3-year terms if: (1) the Board serves a county with a population of 100,000 or less; and (2) appointments, on the effective date of this amendatory Act of the 98th General Assembly, are not for a stated term. The corporate authorities of the county or municipality shall assign terms to the board members serving on the effective date of this amendatory Act of the 98th General Assembly in the following manner: (1) one-third of board members' terms shall expire on January 1, 2015; (2) one-third of board members' terms shall expire on January 1, 2016; and (3) remaining board members' terms shall expire on January 1, 2017. Board members may be re-appointed upon the expiration of their terms by the corporate authorities of the county or municipality.

The corporate authorities of a county or municipality may, by a vote of the majority of the members elected, remove an Emergency Telephone System Board member for misconduct, official misconduct, or neglect of office.

(b) The powers and duties of the board shall be defined by ordinance of the municipality or county, or by intergovernmental agreement in the case of a joint board. The powers and duties shall include, but need not be limited to the following:

(1) Planning a 9-1-1 system.
(2) Coordinating and supervising the implementation, upgrading, or maintenance of the system, including the establishment of equipment specifications and coding systems.

New matter indicated by italics - deletions by strikeout
(3) Receiving moneys from the surcharge imposed under Section 15.3, or disbursed to it under Section 30, and from any other source, for deposit into the Emergency Telephone System Fund.

(4) Authorizing all disbursements from the fund.

(5) Hiring any staff necessary for the implementation or upgrade of the system.

(6) (Blank).

(c) All moneys received by a board pursuant to a surcharge imposed under Section 15.3, or disbursed to it under Section 30, shall be deposited into a separate interest-bearing Emergency Telephone System Fund account. The treasurer of the municipality or county that has established the board or, in the case of a joint board, any municipal or county treasurer designated in the intergovernmental agreement, shall be custodian of the fund. All interest accruing on the fund shall remain in the fund. No expenditures may be made from such fund except upon the direction of the board by resolution passed by a majority of all members of the board.

(d) The board shall complete a Master Street Address Guide database before implementation of the 9-1-1 system. The error ratio of the database shall not at any time exceed 1% of the total database.

(e) On and after January 1, 2016, no municipality or county may create an Emergency Telephone System Board unless the board is a Joint Emergency Telephone System Board. The corporate authorities of any county or municipality entering into an intergovernmental agreement to create or join a Joint Emergency Telephone System Board shall rescind the ordinance or ordinances creating the original Emergency Telephone System Board and shall eliminate the single Emergency Telephone System Board, effective upon the creation of the Joint Emergency Telephone System Board, with regulatory approval by the Administrator, or joining of the Joint Emergency Telephone System Board. Nothing in this Section shall be construed to require the dissolution of an Emergency Telephone System Board that is not succeeded by a Joint Emergency Telephone System Board or is not required to consolidate under Section 15.4a of this Act.

(f) Within one year after the effective date of this amendatory Act of the 100th General Assembly, any corporate authorities of a county or municipality, other than a municipality with a population of more than 500,000, operating a 9-1-1 system without an Emergency Telephone
System Board or Joint Emergency Telephone System Board shall create or join a Joint Emergency Telephone System Board.

(1) In any county with a population of at least 250,000 that has a single Emergency Telephone System Board, or qualified governmental entity and more than 2 PSAPs, shall reduce the number of PSAPs by at least 50% or to 2 PSAPs, whichever is greater. Nothing in this paragraph shall preclude consolidation resulting in one PSAP in the county.

(2) In any county with a population of at least 250,000 that has more than one Emergency Telephone System Board, Joint Emergency Telephone System Board, or qualified governmental entity, any 9-1-1 Authority serving a population of less than 25,000 shall be consolidated such that no 9-1-1 Authority in the county serves a population of less than 25,000.

(3) In any county with a population of at least 250,000 but less than 1,000,000 that has more than one Emergency Telephone System Board, Joint Emergency Telephone System Board, or qualified governmental entity, each 9-1-1 Authority shall reduce the number of PSAPs by at least 50% or to 2 PSAPs, whichever is greater. Nothing in this paragraph shall preclude consolidation of a 9-1-1 Authority into a Joint Emergency Telephone System Board, and nothing in this paragraph shall preclude consolidation resulting in one PSAP in the county.

(4) In any county with a population of less than 250,000 that has a single Emergency Telephone System Board or qualified governmental entity and more than 2 PSAPs, the 9-1-1 Authority shall reduce the number of PSAPs by at least 50% or to 2 PSAPs, whichever is greater. Nothing in this paragraph shall preclude consolidation resulting in one PSAP in the county.

(5) In any county with a population of less than 250,000 that has more than one Emergency Telephone System Board, Joint
Emergency Telephone System Board, or qualified governmental entity and more than 2 PSAPS, the 9-1-1 Authorities shall be consolidated into a single joint board, and the number of PSAPs shall be reduced by at least 50% or to 2 PSAPs, whichever is greater. Nothing in this paragraph shall preclude consolidation resulting in one PSAP in the county.

(6) Any 9-1-1 Authority that does not have a PSAP within its jurisdiction shall be consolidated through an intergovernmental agreement with an existing 9-1-1 Authority that has a PSAP to create a Joint Emergency Telephone Board.

(7) The corporate authorities of each county that has no 9-1-1 service as of January 1, 2016 shall provide enhanced 9-1-1 wireline and wireless enhanced 9-1-1 service for that county by either (i) entering into an intergovernmental agreement with an existing Emergency Telephone System Board to create a new Joint Emergency Telephone System Board, or (ii) entering into an intergovernmental agreement with the corporate authorities that have created an existing Joint Emergency Telephone System Board.

(b) By July 1, 2016, each county required to consolidate pursuant to paragraph (7) of subsection (a) of this Section and each 9-1-1 Authority required to consolidate pursuant to paragraphs (1) through (6) of subsection (a) of this Section shall file a plan for consolidation or a request for a waiver pursuant to subsection (c) of this Section with the Division of the Statewide 9-1-1 Administrator.

(1) No county or 9-1-1 Authority may avoid the requirements of this Section by converting primary PSAPs to secondary or virtual answering points. Any county or 9-1-1 Authority not in compliance with this Section shall be ineligible to receive consolidation grant funds issued under Section 15.4b of this Act or monthly disbursements otherwise due under Section 30 of this Act, until the county or 9-1-1 Authority is in compliance.

(2) Within 60 calendar days of receiving a consolidation plan, the Statewide 9-1-1 Advisory Board shall hold at least one public hearing on the plan and provide a recommendation to the Administrator. Notice of the hearing shall be provided to the respective entity to which the plan applies.

(3) Within 90 calendar days of receiving a consolidation plan, the Administrator shall approve the plan, approve the plan as
modified, or grant a waiver pursuant to subsection (c) of this Section. In making his or her decision, the Administrator shall consider any recommendation from the Statewide 9-1-1 Advisory Board regarding the plan. If the Administrator does not follow the recommendation of the Board, the Administrator shall provide a written explanation for the deviation in his or her decision.

(4) The deadlines provided in this subsection may be extended upon agreement between the Administrator and entity which submitted the plan.

(c) A waiver from a consolidation required under subsection (a) of this Section may be granted if the Administrator finds that the consolidation will result in a substantial threat to public safety, is economically unreasonable, or is technically infeasible.

(d) Any decision of the Administrator under this Section shall be deemed a final administrative decision and shall be subject to judicial review under the Administrative Review Law.

(a) The Administrator, with the advice and recommendation of the Statewide 9-1-1 Advisory Board, shall administer a 9-1-1 System Consolidation Grant Program to defray costs associated with 9-1-1 system consolidation of systems outside of a municipality with a population in excess of 500,000. The awarded grants will be used to offset non-recurring costs associated with the consolidation of 9-1-1 systems and shall not be used for ongoing operating costs associated with the consolidated system. The Department, in consultation with the Administrator and the Statewide 9-1-1 Advisory Board, shall adopt rules defining the grant process and criteria for issuing the grants. The grants should be awarded based on criteria that include, but are not limited to:

Sec. 15.6. Enhanced 9-1-1 service; business service.

(a) After June 30, 2000, or within 18 months after enhanced 9-1-1 service becomes available, any entity that installs or operates a private business switch service and provides telecommunications facilities or services to businesses shall assure that the system is connected to the public switched network in a manner that calls to 9-1-1 result in automatic number and location identification. For buildings having their own street address and containing workspace of 40,000 square feet or less, location identification shall include the building's street address. For buildings having their own street address and containing workspace of more than 40,000 square feet, location identification shall include the building's street address and one distinct location identification per 40,000 square feet of workspace. Separate buildings containing workspace of 40,000 square feet or less having a common public street address shall have a distinct location identification for each building in addition to the street address.

(b) Exemptions. Buildings containing workspace of more than 40,000 square feet are exempt from the multiple location identification requirements of subsection (a) if the building maintains, at all times, alternative and adequate means of signaling and responding to emergencies. Those means shall include, but not be limited to, a telephone system that provides the physical location of 9-1-1 calls coming from within the building. Health care facilities are presumed to meet the requirements of this paragraph if the facilities are staffed with medical or nursing personnel 24 hours per day and if an alternative means of providing information about the source of an emergency call exists. Buildings under this exemption must provide 9-1-1 service that provides the building's street address.

Sec. 15.6a. Wireless emergency 9-1-1 service.

(a) The digits "9-1-1" shall be the designated emergency telephone number within the wireless system.

(b) The Department may set non-discriminatory and uniform technical and operational standards consistent with the rules of the Federal Communications Commission for directing calls to authorized public safety answering points. These standards shall not in any way prescribe the technology or manner a wireless carrier shall use to deliver wireless 9-1-1 or wireless E9-1-1 calls, and these standards shall not exceed the requirements set by the Federal Communications Commission; however, standards for directing calls to the authorized public safety answering point shall be included. The authority given to the Department in this

Sec. 45. Wireless Carrier Reimbursement Fund.
(a) A special fund in the State treasury known as the Wireless Carrier Reimbursement Fund, which was created previously under Section 30 of the Wireless Emergency Telephone Safety Act, shall continue in existence without interruption notwithstanding the repeal of that Act. Moneys in the Wireless Carrier Reimbursement Fund may be used, subject to appropriation, only (i) to reimburse wireless carriers for all of their costs incurred in complying with the applicable provisions of Federal Communications Commission wireless enhanced 9-1-1 service mandates, and (ii) to pay the reasonable and necessary costs of the Illinois Commerce Commission in exercising its rights, duties, powers, and functions under this Act. This reimbursement to wireless carriers may include, but need not be limited to, the cost of designing, upgrading, purchasing, leasing, programming, installing, testing, and maintaining necessary data, hardware, and software and associated operating and administrative costs and overhead.

(b) To recover costs from the Wireless Carrier Reimbursement Fund, the wireless carrier shall submit sworn invoices to the Illinois Commerce Commission. In no event may any invoice for payment be approved for (i) costs that are not related to compliance with the requirements established by the wireless enhanced 9-1-1 mandates of the Federal Communications Commission, or (ii) costs with respect to any wireless enhanced 9-1-1 service that is not operable at the time the invoice is submitted.

(c) If in any month the total amount of invoices submitted to the Illinois Commerce Commission and approved for payment exceeds the amount available in the Wireless Carrier Reimbursement Fund, wireless carriers that have invoices approved for payment shall receive a pro-rata share of the amount available in the Wireless Carrier Reimbursement Fund based on the relative amount of their approved invoices available that month, and the balance of the payments shall be carried into the following months until all of the approved payments are made.

(d) A wireless carrier may not receive payment from the Wireless Carrier Reimbursement Fund for its costs of providing wireless enhanced 9-1-1 services in an area when a unit of local government or emergency telephone system board provides wireless 9-1-1 services in that area and was imposing and collecting a wireless carrier surcharge prior to July 1, 1998.

(e) The Illinois Commerce Commission shall maintain detailed records of all receipts and disbursements and shall provide an annual accounting of all receipts and disbursements to the Auditor General.

(f) The Illinois Commerce Commission must annually review the balance in the Wireless Carrier Reimbursement Fund as of June 30 of each year and shall direct the Comptroller to transfer into the Statewide 9-1-1 Fund for distribution in accordance with subsection (b) of Section 30 of this Act any amount in excess of outstanding invoices as of June 30 of each year.

Sec. 50. Fund audits. The Auditor General shall conduct as a part of its bi-annual audit, an audit of the Statewide 9-1-1 Fund and the Wireless Carrier Reimbursement Fund for compliance with the requirements of this Act. The audit shall include, but not be limited to, the following determinations:

(1) Whether detailed records of all receipts and disbursements from the Statewide 9-1-1 Fund and the Wireless Carrier Reimbursement Fund are being maintained.

(2) Whether administrative costs charged to the funds are adequately documented and are reasonable.

(3) Whether the procedures for making disbursements and grants and providing reimbursements in accordance with the Act are adequate.

(4) The status of the implementation of statewide 9-1-1 service and Next Generation 9-1-1 service in Illinois.

The Illinois Commerce Commission, the Department of State Police, and any other entity or person that may have information relevant to the audit shall cooperate fully and promptly with the Office of the Auditor General in conducting the audit. The Auditor General shall commence the audit as soon as possible and distribute the report upon completion in accordance with Section 3-14 of the Illinois State Auditing Act.

about surcharge moneys paid by wireless carriers could have the effect of stifling competition to the detriment of the public and the delivery of wireless 9-1-1 services. Therefore, the Illinois Commerce Commission, the Department of State Police, governmental agencies, and individuals with access to that information shall take appropriate steps to prevent public disclosure of this information. Information and data supporting the amount and distribution of surcharge moneys collected and remitted by an individual wireless carrier shall be deemed exempt information for purposes of the Freedom of Information Act and shall not be publicly disclosed. Section 20. The Prepaid Wireless 9-1-1 Surcharge Act is amended by changing Section 15 as follows:

(50 ILCS 753/15)

Sec. 15. Prepaid wireless 9-1-1 surcharge.

New matter indicated by italics - deletions by strikeout
(a) Until September 30, 2015, there is hereby imposed on consumers a prepaid wireless 9-1-1 surcharge of 1.5% per retail transaction. Beginning October 1, 2015, the prepaid wireless 9-1-1 surcharge shall be 3% per retail transaction. The surcharge authorized by this subsection (a) does not apply in a home rule municipality having a population in excess of 500,000.

(a-5) On or after the effective date of this amendatory Act of the 98th General Assembly and until December 31, 2020, July 1, 2017, a home rule municipality having a population in excess of 500,000 on the effective date of this amendatory Act may impose a prepaid wireless 9-1-1 surcharge not to exceed 9% per retail transaction sourced to that jurisdiction and collected and remitted in accordance with the provisions of subsection (b-5) of this Section. On or after January 1, 2021, July 1, 2017, a home rule municipality having a population in excess of 500,000 on the effective date of this Act may only impose a prepaid wireless 9-1-1 surcharge not to exceed 7% per retail transaction sourced to that jurisdiction and collected and remitted in accordance with the provisions of subsection (b-5).

(b) The prepaid wireless 9-1-1 surcharge shall be collected by the seller from the consumer with respect to each retail transaction occurring in this State and shall be remitted to the Department by the seller as provided in this Act. The amount of the prepaid wireless 9-1-1 surcharge shall be separately stated as a distinct item apart from the charge for the prepaid wireless telecommunications service on an invoice, receipt, or other similar document that is provided to the consumer by the seller or shall be otherwise disclosed to the consumer. If the seller does not separately state the surcharge as a distinct item to the consumer as provided in this Section, then the seller shall maintain books and records as required by this Act which clearly identify the amount of the 9-1-1 surcharge for retail transactions.

For purposes of this subsection (b), a retail transaction occurs in this State if (i) the retail transaction is made in person by a consumer at the seller's business location and the business is located within the State; (ii) the seller is a provider and sells prepaid wireless telecommunications service to a consumer located in Illinois; (iii) the retail transaction is treated as occurring in this State for purposes of the Retailers' Occupation Tax Act; or (iv) a seller that is included within the definition of a "retailer maintaining a place of business in this State" under Section 2 of the Use Tax Act makes a sale of prepaid wireless telecommunications service to a

consumer located in Illinois. In the case of a retail transaction which does not occur in person at a seller's business location, if a consumer uses a credit card to purchase prepaid wireless telecommunications service online or over the telephone, and no product is shipped to the consumer, the transaction occurs in this State if the billing address for the consumer's credit card is in this State.

(b-5) The prepaid wireless 9-1-1 surcharge imposed under subsection (a-5) of this Section shall be collected by the seller from the consumer with respect to each retail transaction occurring in the municipality imposing the surcharge. The amount of the prepaid wireless 9-1-1 surcharge shall be separately stated on an invoice, receipt, or other similar document that is provided to the consumer by the seller or shall be otherwise disclosed to the consumer. If the seller does not separately state the surcharge as a distinct item to the consumer as provided in this Section, then the seller shall maintain books and records as required by this Act which clearly identify the amount of the 9-1-1 surcharge for retail transactions.

For purposes of this subsection (b-5), a retail transaction occurs in the municipality if (i) the retail transaction is made in person by a consumer at the seller's business location and the business is located within the municipality; (ii) the seller is a provider and sells prepaid wireless telecommunications service to a consumer located in the municipality; (iii) the retail transaction is treated as occurring in the municipality for purposes of the Retailers' Occupation Tax Act; or (iv) a seller that is included within the definition of a "retailer maintaining a place of business in this State" under Section 2 of the Use Tax Act makes a sale of prepaid wireless telecommunications service to a consumer located in the municipality. In the case of a retail transaction which does not occur in person at a seller's business location, if a consumer uses a credit card to purchase prepaid wireless telecommunications service online or over the telephone, and no product is shipped to the consumer, the transaction occurs in the municipality if the billing address for the consumer's credit card is in the municipality.

(c) The prepaid wireless 9-1-1 surcharge is imposed on the consumer and not on any provider. The seller shall be liable to remit all prepaid wireless 9-1-1 surcharges that the seller collects from consumers as provided in Section 20, including all such surcharges that the seller is deemed to collect where the amount of the surcharge has not been separately stated on an invoice, receipt, or other similar document

New matter indicated by italics - deletions by strikeout
provided to the consumer by the seller. The surcharge collected or deemed collected by a seller shall constitute a debt owed by the seller to this State, and any such surcharge actually collected shall be held in trust for the benefit of the Department.

For purposes of this subsection (c), the surcharge shall not be imposed or collected from entities that have an active tax exemption identification number issued by the Department under Section 1g of the Retailers' Occupation Tax Act.

(d) The amount of the prepaid wireless 9-1-1 surcharge that is collected by a seller from a consumer, if such amount is separately stated on an invoice, receipt, or other similar document provided to the consumer by the seller, shall not be included in the base for measuring any tax, fee, surcharge, or other charge that is imposed by this State, any political subdivision of this State, or any intergovernmental agency.

(e) (Blank).

(e-5) Any changes in the rate of the surcharge imposed by a municipality under the authority granted in subsection (a-5) of this Section shall be effective on the first day of the first calendar month to occur at least 60 days after the enactment of the change. The Department shall provide not less than 30 days' notice of the increase or reduction in the rate of such surcharge on the Department's website.

(f) When prepaid wireless telecommunications service is sold with one or more other products or services for a single, non-itemized price, then the percentage specified in subsection (a) or (a-5) of this Section 15 shall be applied to the entire non-itemized price unless the seller elects to apply the percentage to (i) the dollar amount of the prepaid wireless telecommunications service if that dollar amount is disclosed to the consumer or (ii) the portion of the price that is attributable to the prepaid wireless telecommunications service if the retailer can identify that portion by reasonable and verifiable standards from its books and records that are kept in the regular course of business for other purposes, including, but not limited to, books and records that are kept for non-tax purposes. However, if a minimal amount of prepaid wireless telecommunications service is sold with a prepaid wireless device for a single, non-itemized price, then the seller may elect not to apply the percentage specified in subsection (a) or (a-5) of this Section 15 to such transaction. For purposes of this subsection, an amount of service denominated as 10 minutes or less or $5 or less is considered minimal.
(g) The prepaid wireless 9-1-1 surcharge imposed under subsections (a) and (a-5) of this Section is not imposed on the provider or the consumer for wireless Lifeline service where the consumer does not pay the provider for the service. Where the consumer purchases from the provider optional minutes, texts, or other services in addition to the federally funded Lifeline benefit, a consumer must pay the prepaid wireless 9-1-1 surcharge, and it must be collected by the seller according to subsection (b-5).

Sec. 13-102. Findings. With respect to telecommunications services, as herein defined, the General Assembly finds that:

(a) universally available and widely affordable telecommunications services are essential to the health, welfare and prosperity of all Illinois citizens;

(b) federal regulatory and judicial rulings in the 1980s caused a restructuring of the telecommunications industry and opened some aspects of the industry to competitive entry, thereby necessitating revision of State telecommunications regulatory policies and practices;

(c) revisions in telecommunications regulatory policies and practices in Illinois beginning in the mid-1980s brought the benefits of competition to consumers in many telecommunications markets, but not in local exchange telecommunications service markets;

(d) the federal Telecommunications Act of 1996 established the goal of opening all telecommunications service markets to competition and accords to the states the responsibility to establish and enforce policies necessary to attain that goal;

(e) it is in the immediate interest of the People of the State of Illinois for the State to exercise its rights within the new framework of federal telecommunications policy to ensure that the economic benefits of competition in all telecommunications service markets are realized as effectively as possible;

(f) the competitive offering of all telecommunications services will increase innovation and efficiency in the provision of telecommunications services and may lead to reduced prices for consumers, increased investment in communications infrastructure, the creation of new jobs, and the attraction of new businesses to Illinois; and

New matter indicated by italics - deletions by strikeout
(g) protection of the public interest requires changes in the regulation of telecommunications carriers and services to ensure, to the maximum feasible extent, the reasonable and timely development of effective competition in all telecommunications service markets;

(h) Illinois residents rely on today's modern wired and wireless Internet Protocol (IP) networks and services to improve their lives by connecting them to school and college degrees, work and job opportunities, family and friends, information, and entertainment, as well as emergency responders and public safety officials; Illinois businesses rely on these modern IP networks and services to compete in a global marketplace by expanding their customer base, managing inventory and operations more efficiently, and offering customers specialized and personalized products and services; without question, Illinois residents and our State's economy rely profoundly on the modern wired and wireless IP networks and services in our State;

(i) the transition from 20th century traditional circuit switched and other legacy telephone services to modern 21st century next generation Internet Protocol (IP) services is taking place at an extraordinary pace as Illinois consumers are upgrading to home communications service using IP technology, including high speed Internet, Voice over Internet Protocol, and wireless service;

(j) this rapid transition to IP-based communications has dramatically transformed the way people communicate and has provided significant benefits to consumers in the form of innovative functionalities resulting from the seamless convergence of voice, video, and text, benefits realized by the General Assembly when it chose to transition its own telecommunications system to an all IP communications network in 2016;

(k) the benefits of the transition to IP-based networks and services were also recognized by the General Assembly in 2015 through the enactment of legislation requiring that every 9-1-1 emergency system in Illinois provide Next Generation 9-1-1 service by July 1, 2020, and requiring that the Next Generation 9-1-1 network must be an IP-based platform; and

(l) completing the transition to all IP-based networks and technologies is in the public interest because it will promote continued innovation, consumer benefits, increased efficiencies, and increased investment in IP-based networks and services.

Sec. 13-103. Policy. Consistent with its findings, the General Assembly declares that it is the policy of the State of Illinois that:

(a) telecommunications services should be available to all Illinois citizens at just, reasonable, and affordable rates and that such services should be provided as widely and economically as possible in sufficient variety, quality, quantity and reliability to satisfy the public interest;

(b) consistent with the protection of consumers of telecommunications services and the furtherance of other public interest goals, competition in all telecommunications service markets should be pursued as a substitute for regulation in determining the variety, quality and price of telecommunications services and that the economic burdens of regulation should be reduced to the extent possible consistent with the furtherance of market competition and protection of the public interest;

(c) all necessary and appropriate modifications to State regulation of telecommunications carriers and services should be implemented without unnecessary disruption to the telecommunications infrastructure system or to consumers of telecommunications services and that it is necessary and appropriate to establish rules to encourage and ensure orderly transitions in the development of markets for all telecommunications services;

(d) the consumers of telecommunications services and facilities provided by persons or companies subject to regulation pursuant to this Act and Article should be required to pay only reasonable and non-discriminatory rates or charges and that in no case should rates or charges for non-competitive telecommunications services include any portion of the cost of providing competitive telecommunications services, as defined in Section 13-209, or the cost of any nonregulated activities;

(e) the regulatory policies and procedures provided in this Article are established in recognition of the changing nature of the telecommunications industry and therefore should be subject to systematic legislative review to ensure that the public benefits intended to result from such policies and procedures are fully realized; and

(f) development of and prudent investment in advanced telecommunications services and networks that foster economic development of the State should be encouraged through the implementation and enforcement of policies that promote effective and sustained competition in all telecommunications service markets; and:

(g) completion of the transition to modern IP-based networks should be encouraged through relief from the outdated regulations that

require continued investment in legacy circuit switched networks from which Illinois consumers have largely transitioned, while at the same time ensuring that consumers have access to available alternative services that provide quality voice service and access to emergency communications.

(b) The Commission shall adopt rules under which it will make grants out of funds appropriated from the Digital Divide Elimination Infrastructure Fund to eligible entities as specified in the rules for the construction of high-speed data transmission facilities in eligible areas of the State. For purposes of determining whether an area is an eligible area, the Commission shall consider, among other things, whether (i) in such area, advanced telecommunications services, as defined in subsection (c) of Section 13-517 of this Act, are under-provided to residential or small business end users, either directly or indirectly through an Internet Service Provider, (ii) such area has a low population density, and (iii) such area has not yet developed a competitive market for advanced services. In addition, if an entity seeking a grant of funds from the Digital Divide Elimination Infrastructure Fund is an incumbent local exchange carrier having the duty to serve such area, and the obligation to provide advanced services to such area pursuant to Section 13-517 of this Act, the entity shall demonstrate that it has sought and obtained an exemption from such obligation pursuant to subsection (b) of Section 13-517. Any entity seeking a grant of funds from the Digital Divide Elimination Infrastructure Fund shall demonstrate to the Commission that the grant shall be used for the construction of high-speed data transmission facilities in an eligible area and demonstrate that it satisfies all other requirements of the Commission's rules. The Commission shall determine the information that it deems necessary to award grants pursuant to this Section.

The Commission may express its opinion in a resolution based upon whatever factual information has come to its attention and may issue the resolution ex parte and without holding any administrative hearing before bringing suit. Except in cases involving an imminent threat to the public health and safety, no such resolution shall be adopted until 48 hours after the telecommunications carrier has been given notice of (i) the substance of the alleged violation, including citation to the law, order, decision, rule, regulation, or direction of the Commission alleged to have been violated and (ii) the time and the date of the meeting at which such resolution will first be before the Commission for consideration.

(a) The Commission shall assess and collect all civil penalties established under this Act against telecommunications carriers, corporations other than telecommunications carriers, and persons acting as telecommunications carriers. Except for the penalties provided under Section 2-202, civil penalties may be assessed only after notice and opportunity to be heard. Any such civil penalty may be compromised by the Commission. In determining the amount of the civil penalty to be assessed, or the amount of the civil penalty to be compromised, the Commission is authorized to consider any matters of record in aggravation or mitigation of the penalty, including but not limited to the following:

1. the duration and gravity of the violation of the Act, the rules, or the order of the Commission;
2. the presence or absence of due diligence on the part of the violator in attempting either to comply with requirements of the Act, the rules, or the order of the Commission, or to secure lawful relief from those requirements;
3. any economic benefits accrued by the violator because of the delay in compliance with requirements of the Act, the rules, or the order of the Commission; and
4. the amount of monetary penalty that will serve to deter further violations by the violator and to otherwise aid in enhancing voluntary compliance with the Act, the rules, or the order of the Commission by the violator and other persons similarly subject to the Act.

(b) If timely judicial review of a Commission order that imposes a civil penalty is taken by a telecommunications carrier, a corporation other than a telecommunications carrier, or a person acting as a telecommunications carrier on whom or on which the civil penalty has been imposed, the reviewing court shall enter a judgment on all amounts upon affirmance of the Commission order. If timely judicial review is not taken and the civil penalty remains unpaid for 60 days after service of the order, the Commission in its discretion may either begin revocation proceedings or bring suit to recover the penalties. Unless stayed by a reviewing court, interest shall accrue from the 60th day after the date of service of the Commission order to the date full payment is received by the Commission.

(c) Actions to recover delinquent civil penalties under this Section shall be brought in the name of the People of the State of Illinois in the circuit court in and for the county in which the cause, or some part thereof,
arose, or in which the entity complained of resides. The action shall be commenced and prosecuted to final judgement by the Commission. In any such action, all interest incurred up to the time of final court judgment may be recovered in that action. In all such actions, the procedure and rules of evidence shall be the same as in ordinary civil actions, except as otherwise herein provided. Any such action may be compromised or discontinued on application of the Commission upon such terms as the court shall approve and order.

(d) Civil penalties related to the late filing of reports, taxes, or other filings shall be paid into the State treasury to the credit of the Public Utility Fund. Except as otherwise provided in this Act, all other fines and civil penalties shall be paid into the State treasury to the credit of the General Revenue Fund.

Sec. 13-401. Certificate of Service Authority.

(a) No telecommunications carrier not possessing a certificate of public convenience and necessity or certificate of authority from the Commission at the time this Article goes into effect shall transact any business in this State until it shall have obtained a certificate of service authority from the Commission pursuant to the provisions of this Article.

No telecommunications carrier offering or providing, or seeking to offer or provide, any interexchange telecommunications service shall do so until it has applied for and received a Certificate of Interexchange Service Authority pursuant to the provisions of Section 13-403. No telecommunications carrier offering or providing, or seeking to offer or provide, any local exchange telecommunications service shall do so until it has applied for and received a Certificate of Exchange Service Authority pursuant to the provisions of Section 13-405.

Notwithstanding Sections 13-403, 13-404, and 13-405, the Commission shall approve a cellular radio application for a Certificate of Service Authority without a hearing upon a showing by the cellular
applicant that the Federal Communications Commission has issued to it a construction permit or an operating license to construct or operate a cellular radio system in the area as defined by the Federal Communications Commission, or portion of the area, for which the carrier seeks a Certificate of Service Authority.

No Certificate of Service Authority issued by the Commission shall be construed as granting a monopoly or exclusive privilege, immunity or franchise. The issuance of a Certificate of Service Authority to any telecommunications carrier shall not preclude the Commission from issuing additional Certificates of Service Authority to other telecommunications carriers providing the same or equivalent service or serving the same geographical area or customers as any previously certified carrier, except to the extent otherwise provided by Sections 13-403 and 13-405.

Any certificate of public convenience and necessity granted by the Commission to a telecommunications carrier prior to the effective date of this Article shall remain in full force and effect, and such carriers need not apply for a Certificate of Service Authority in order to continue offering or providing service to the extent authorized in such certificate of public convenience and necessity. Any such carrier, however, prior to substantially altering the nature or scope of services provided under a certificate of public convenience and necessity, or adding or expanding services beyond the authority contained in such certificate, must apply for a Certificate of Service Authority for such alterations or additions pursuant to the provisions of this Article.

The Commission shall review and modify the terms of any certificate of public convenience and necessity issued to a telecommunications carrier prior to the effective date of this Article in order to ensure its conformity with the requirements and policies of this Article. Any Certificate of Service Authority may be altered or modified by the Commission, after notice and hearing, upon its own motion or upon application of the person or company affected. Unless exercised within a period of two years from the issuance thereof, authority conferred by a Certificate of Service Authority shall be null and void.

(b) The Commission may issue a temporary Certificate which shall remain in force not to exceed one year in cases of emergency, to assure maintenance of adequate service or to serve particular customers, without notice and hearing, pending the determination of an application for a Certificate, and may by regulation exempt from the requirements of this Article.

Sec. 13-401.1. Interconnected voice over Internet protocol (VoIP) service provider registration.

(a) An Interconnected VoIP provider providing fixed or non-nomadic service in Illinois on December 1, 2010 shall register with the Commission no later than January 1, 2011. All other Interconnected VoIP providers providing fixed or non-nomadic service in Illinois shall register with the Commission at least 30 days before providing service in Illinois. The Commission shall prescribe a registration form no later than October 1, 2010. The registration form prescribed by the Commission shall only require the following information:

1. the provider's legal name and any name under which the provider does or will do business in Illinois, as authorized by the Secretary of State;
2. the provider's address and telephone number, along with contact information for the person responsible for ongoing communications with the Commission;
3. a description of the provider's dispute resolution process and, if any, the telephone number to initiate the dispute resolution process; and
4. a description of each exchange of a local exchange company, in whole or in part, or the cities, towns, or geographic areas, in whole or in part, in which the provider is offering or proposes to offer Interconnected VoIP service.

A provider must notify the Commission of any change in the information identified in paragraphs (1), (2), (3), or (4) of this subsection (a) within 5 business days after any such change.

(b) A provider shall charge and collect from its end-user customers, and remit to the appropriate authority, fees and surcharges in the same manner as are charged and collected upon end-user customers of local exchange telecommunications service and remitted by local exchange telecommunications companies for local enhanced 9-1-1 surcharges.

(c) A provider may designate information that it submits in its registration form or subsequent reports as confidential or proprietary,
provided that the provider states the reasons the confidential designation is necessary. The Commission shall provide adequate protection for such information pursuant to Section 4-404 of this Act. If the Commission or any other party seeks public disclosure of information designated as confidential, the Commission shall consider the confidential designation in a proceeding under the Illinois Administrative Procedure Act, and the burden of proof to demonstrate that the designated information is confidential shall be upon the provider. Designated information shall remain confidential pending the Commission's determination of whether the information is entitled to confidential treatment. Information designated as confidential shall be provided to local units of government for purposes of assessing compliance with this Article as permitted under a protective order issued by the Commission pursuant to the Commission's rules and to the Attorney General pursuant to Section 6.5 of the Attorney General Act. Information designated as confidential under this Section or determined to be confidential upon Commission review shall only be disclosed pursuant to a valid and enforceable subpoena or court order or as required by the Freedom of Information Act.

(d) Notwithstanding any other provision of law to the contrary, the Commission shall have the authority, after notice and hearing, to revoke or suspend the registration of any provider that fails to comply with the requirements of this Section.

(e) The provisions of this Section are severable under Section 1.31 of the Statute on Statutes.

Sec. 13-402. The Commission is authorized, in connection with the issuance or modification of a Certificate of Interexchange Service Authority or the modification of a certificate of public convenience and necessity for interexchange telecommunications service, to waive or modify the application of its rules, general orders, procedures or notice requirements when such action will reduce the economic burdens of regulation and such waiver or modification is not inconsistent with the law or the purposes and policies of this Article.

Any such waiver or modification granted to any interexchange telecommunications carrier which has, or any group of such carriers any one of which has annual revenues exceeding $10,000,000 shall be automatically applied fully and equally to all such carriers with annual revenues exceeding $10,000,000 unless the Commission specifically finds,
after notice to all such carriers and a hearing, that restricting the application of such waiver or modification to only one such carrier or some group of such carriers is consistent with and would promote the purposes and policies of this Articale and the protection of telecommunications customers.

The removal from this Section of the dialing restrictions by this amendatory Act of 1992 does not create any legislative presumption for or against intra-Market Service Area presubscription or changes in intra-Market Service Area dialing arrangements related to the implementation of that presubscription, but simply vests jurisdiction in the Illinois Commerce Commission to consider after notice and hearing the issue of presubscription in accordance with the policy goals outlined in Section 13-103.

The Commission shall have authority to alter the boundaries of Market Service Areas when such alteration is consistent with the public interest and the purposes and policies of this Article. A determination by the Commission with respect to Market Service Area boundaries shall not modify or affect the rights or obligations of any telecommunications carrier with respect to any consent decree or agreement with the United States Department of Justice, including, but not limited to, the Modification of Final Judgment in United States v. (b) On and after July 1, 2005, it shall be unlawful for any prepaid calling service provider to offer or provide or seek to offer or provide to any distributor, prepaid calling service reseller, prepaid calling service retailer, or end user any prepaid calling service unless the prepaid calling service provider has applied for and received a Certificate of Prepaid Calling Service Provider Authority from the Commission. The Commission shall approve an application for a Certificate of Prepaid Calling Service Provider Authority upon a showing by the applicant, and a finding by the Commission, after notice and hearing, that the applicant possesses sufficient technical, financial, and managerial resources and abilities to provide prepaid calling services. The Large Electing Provider may cease to offer or provide the requested service to existing customers who do not make a request for investigation beginning 30 days after issuance of the notice required by paragraph (5) of this subsection (c).

(A) In response to all requests and investigations under this paragraph (2), the Commission shall conduct a single investigation to be commenced 75 days after the receipt of notice under paragraph (1) of this subsection (c), and completed within 135 days after commencement. The Commission shall, within 135 days after commencement of the investigation, make one of the findings described in subdivisions (i) and (ii) of this subparagraph (A) for each requesting existing customer.

(i) If, as a result of the investigation, the Commission finds that service from at least one provider offering alternative voice service including reliable access to 9-1-1 through any technology or medium is available to one or more requesting existing customers, the Commission shall declare by order that, with respect to each requesting existing customer for which such a finding is made, the Large Electing Provider may cease to offer or provide the requested service beginning 30 days after the issuance of the notice required by paragraph (5) of this subsection (c).

(ii) If, as a result of the investigation, the Commission finds that service from at least one provider offering alternative voice service, including reliable access to 9-1-1, through any technology or medium is not available to one or more requesting existing customers, the Commission shall declare by order that an emergency exists with respect to each requesting existing customer for which such a finding is made.

The willing provider may utilize any form of technology that is capable of providing alternative voice service including reliable access to 9-1-1, including, without limitation, Voice over Internet Protocol services and wireless services. The Commission shall, within 45 days after the issuance of an order finding that an emergency exists, make one of the determinations described in subdivisions (i) and (ii) of this subparagraph (B) for each requesting existing customer for which an emergency has been declared.

(i) If the Commission determines that another provider is willing and capable of providing alternative voice service including reliable access to 9-1-1 to one or more requesting existing customers for which an emergency has been declared, the Commission shall declare by order that, with respect to each requesting existing customer for which such a determination is made, the Large Electing Provider may cease to offer or provide the requested service beginning 30 days after the issuance of the notice required by paragraph (5) of this Section.

(ii) If the Commission determines that for one or more of the requesting existing customers for which an emergency has been declared there is no other provider willing and capable of providing alternative voice service including reliable access to 9-1-1, the Commission shall issue an order requiring the Large Electing Provider to provide alternative voice service including reliable access to 9-1-1 to each requesting existing customer utilizing any form of technology capable of providing alternative voice service including reliable access to 9-1-1, including, without limitation, continuation of the requested service, Voice over Internet Protocol services, and wireless services.

The Large Electing Provider may request that such an order be rescinded upon a showing that an alternative voice service including reliable access to 9-1-1 has become available to the requesting existing customer from another provider.

(3) If the Commission receives no requests for investigation from any existing customer under paragraph (2) of this subsection (c) within 60 days after issuance of the notice under paragraph (1) of this subsection (c), the Commission shall provide written notice to the Large Electing Provider of that fact no later than 75 days after receipt of notice under paragraph (1) of this subsection (c). Notwithstanding any provision of this subsection (c) to the contrary, if no existing customer requests an investigation under paragraph (2) of this subsection (c), the Large Electing Provider may immediately provide the notice to the Federal Communications Commission as described in paragraph (4) of this subsection (c).

(4) At the same time that it provides notice to the Federal Communications Commission of its intent to discontinue the interstate-access component of the requested service, the Large Electing Provider shall:

(A) file a notice of proposal to cease to offer and provide the requested service with the Commission; and

(B) provide a notice of proposal to cease to offer and provide the requested service to existing customers and new customers receiving the service at the time of the notice within each affected geographic area, with the notice made by first-class mail or within customer bills delivered by mail or equivalent means of notice, including electronic means if the customer has elected to receive electronic billing. (5) Upon approval by the Federal Communications Commission of its request to discontinue the interstate-access component of the requested service and subject to the requirements of any order issued by the Commission under subdivision (ii) of subparagraph (B) of paragraph (2) of this subsection (c), the Large Electing Provider may immediately cease to offer the requested service to all customers not receiving the service on the date of the Federal Communications Commission's approval and may cease to offer and provide the requested service to all customers receiving the service at the time of the Federal Communications Commission's approval upon 30 days' notice to the Commission and affected customers. Notice to affected customers under this paragraph (5) shall be provided by first-class mail separate from customer bills. The notice provided under this paragraph (5) shall describe the requested service, identify the date on which the Large Electing Provider intends to cease offering or providing the telecommunications service, and provide a telephone number by which the existing customer may contact a service representative of the Large Electing Provider.

(6) The notices provided for in paragraph (1) of this subsection (c) are not required as a prerequisite for the Large Electing Provider to cease to offer or provide a telecommunications service in a geographic area where there are no residential customers taking service from the Large Electing Provider on the date that the Large Electing Provider files notice to the Federal Communications Commission of its intent to discontinue the interstate-access component of the requested service in that geographic area.

(7) For a period of 45 days following the date of a notice issued under paragraph (5) of this Section, an existing customer (i) who is located in the affected geographic area subject to that notice; (ii) who was receiving the requested service as of the date of the Federal Communications Commission's approval of the Large Electing Provider's request to discontinue the interstate-access component of the requested service; (iii) who did not make a timely request for investigation under paragraph (2) of this subsection (c); and (iv) whose service will be or has been
discontinued under paragraph (5), may request assistance from the Large Electing Provider in identifying providers of alternative voice service including reliable access to 9-1-1. Within 15 days of the request, the Large Electing Provider shall provide the customer with a list of alternative voice service providers.

(8) Notwithstanding any other provision of this Act, except as expressly authorized by this subsection (c), the Commission may not, upon its own motion or upon complaint, investigate, suspend, disapprove, condition, or otherwise regulate the cessation of a telecommunications service to an identifiable class or group of customers once initiated by a Large Electing Provider under subsection (b) or (b-5) of this Section or this subsection (c).

(4) the technologies or methods by which these firms provide these services, including descriptions of technologies in place and under development, and the degree to which firms rely on other wholesale providers to provide service to their own customers.

The Commission shall at a minimum assess the variability in this information according to geography, examining variability by exchange, wirecenter, or zip code, and by customer class, examining, at a minimum, the variability between residential and small, medium, and large business customers. The Commission shall provide an analysis of market trends by collecting this information from certificated telecommunications carriers, registered Interconnected VoIP providers, and Facilities-based Providers of Broadband Connections to End User Locations within the State. The Commission shall also collect all information, in a format determined by the Commission, that the Commission deems necessary to assist in monitoring and analyzing the telecommunications markets and broadband market, along with the status of competition and deployment of telecommunications services and broadband services to consumers in the State.

Notwithstanding any other provision of this Act, certificated telecommunications carriers and registered Interconnected VoIP providers shall report to the Commission such information, with the exception of broadband information, requested by the Commission necessary to satisfy the reporting requirements of items (1) through (4) of this Section. The Commission may coordinate and work with the Department of Commerce and Economic Opportunity to avoid duplication of collection of information that is collected pursuant to the High Speed Internet Services and Information Technology Act.

For the purposes of this Section:

"Broadband connections" include wired lines or wireless channels that enable the end user to receive information from or send information to the Internet at information transfer rates exceeding 200 kbps in at least one direction.

"End user" includes a residential, business, institutional, or government entity who uses broadband services for its own purposes and who does not resell such services to other entities or incorporate such services into retail Internet-access services. For purposes of this Section, an Internet Service Provider (ISP) is not an end user of a broadband connection.

"Facilities-based Provider of Broadband Connections to End User Locations" means an entity that meets any of the following conditions:

(i) It owns the portion of the physical facility that terminates at the end user location.

(ii) It obtains unbundled network elements (UNEs), special access lines, or other leased facilities that terminate at the end user location and provisions or equip them as broadband.

(iii) It provisions or equips a broadband wireless channel to the end user location over licensed or unlicensed spectrum.

"Facilities-based Provider of Broadband Connections to End User Locations" does not include providers of terrestrial fixed wireless services (such as Wi-Fi and other wireless Ethernet, or wireless local area network, applications) that only enable local distribution and sharing of a premises broadband facility and does not include air-to-ground services.

Sec. 13-501. Tariff; filing.

(a) No telecommunications carrier shall offer or provide noncompetitive telecommunications service, telecommunications service subject to subsection (g) of Section 13-506.2 or Section 13-900.1 or 13-900.2 of this Act, or telecommunications service referred to in an interconnection agreement as a tariffed service unless and until a tariff is filed with the Commission which describes the nature of the service, applicable rates and other charges, terms and conditions of service, and the exchange, exchanges or other geographical area or areas in which the

service shall be offered or provided. The Commission may prescribe the form of such tariff and any additional data or information which shall be included therein.

(b) After a hearing regarding a telecommunications service subject to subsection (a) of this Section, the Commission has the discretion to impose an interim or permanent tariff on a telecommunications carrier as part of the order in the case. When a tariff is imposed as part of the order in a case, the tariff shall remain in full force and effect until a compliance tariff, or superseding tariff, is filed by the telecommunications carrier and, after notice to the parties in the case and after a compliance hearing is held, is found by the Commission to be in compliance with the Commission's order.

(c) A telecommunications carrier shall offer or provide telecommunications service that is not subject to subsection (a) of this Section pursuant to either a tariff filed with the Commission or a written service offering that shall be available on the telecommunications carrier's website as required by Section 13-503 of this Act and that describes the nature of the service, applicable rates and other charges, terms and conditions of service. Revenue from competitive retail telecommunications service received by a telecommunications carrier pursuant to either a tariff or a written service offering shall be gross revenue for purposes of Section 2-202 of this Act.

Sec. 13-501.5. Directory assistance service for the blind. A telecommunications carrier that provides directory assistance service shall provide in its tariffs or its written service offering pursuant to subsection (c) of Section 13-501 of this Act for that service that directory assistance shall be provided at no charge to its customers who are legally blind for telephone numbers of customers located within the same calling area, as described in the telecommunications carrier's tariff.

Sec. 13-502. Classification of services.

(a) All telecommunications services offered or provided under tariff by telecommunications carriers shall be classified as either competitive or noncompetitive. A telecommunications carrier may offer or provide either competitive or noncompetitive telecommunications services, or both, subject to proper certification and other applicable

New matter indicated by italics - deletions by strikeout
provisions of this Article. Any tariff filed with the Commission as required by Section 13-501 shall indicate whether the service to be offered or provided is competitive or noncompetitive.

(b) A service shall be classified as competitive only if, and only to the extent that, for some identifiable class or group of customers in an exchange, group of exchanges, or some other clearly defined geographical area, such service, or its functional equivalent, or a substitute service, is reasonably available from more than one provider, whether or not any such provider is a telecommunications carrier subject to regulation under this Act. All telecommunications services not properly classified as competitive shall be classified as noncompetitive. The Commission shall have the power to investigate the propriety of any classification of a telecommunications service on its own motion and shall investigate upon complaint. In any hearing or investigation, the burden of proof as to the proper classification of any service shall rest upon the telecommunications carrier providing the service. After notice and hearing, the Commission shall order the proper classification of any service in whole or in part. The Commission shall make its determination and issue its final order no later than 180 days from the date such hearing or investigation is initiated. If the Commission enters into a hearing upon complaint and if the Commission fails to issue an order within that period, the complaint shall be deemed granted unless the Commission, the complainant, and the telecommunications carrier providing the service agree to extend the time period.

(c) In determining whether a service should be reclassified as competitive, the Commission shall, at a minimum, consider the following factors:

1. the number, size, and geographic distribution of other providers of the service;
2. the availability of functionally equivalent services in the relevant geographic area and the ability of telecommunications carriers or other persons to make the same, equivalent, or substitutable service readily available in the relevant market at comparable rates, terms, and conditions;
3. the existence of economic, technological, or any other barriers to entry into, or exit from, the relevant market;
4. the extent to which other telecommunications companies must rely upon the service of another

New matter indicated by italics - deletions by strikeout
telecommunications carrier to provide telecommunications service; and

(5) any other factors that may affect competition and the public interest that the Commission deems appropriate.

(d) No tariff classifying a new telecommunications service as competitive or reclassifying a previously noncompetitive telecommunications service as competitive, which is filed by a telecommunications carrier which also offers or provides noncompetitive telecommunications service, shall be effective unless and until such telecommunications carrier offering or providing, or seeking to offer or provide, such proposed competitive service prepares and files a study of the long-run service incremental cost underlying such service and demonstrates that the tariffed rates and charges for the service and any relevant group of services that includes the proposed competitive service and for which resources are used in common solely by that group of services are not less than the long-run service incremental cost of providing the service and each relevant group of services. Such study shall be given proprietary treatment by the Commission at the request of such carrier if any other provider of the competitive service, its functional equivalent, or a substitute service in the geographical area described by the proposed tariff has not filed, or has not been required to file, such a study.

(e) In the event any telecommunications service has been classified and filed as competitive by the telecommunications carrier, and has been offered or provided on such basis, and the Commission subsequently determines after investigation that such classification improperly included services which were in fact noncompetitive, the Commission shall have the power to determine and order refunds to customers for any overcharges which may have resulted from the improper classification, or to order such other remedies provided to it under this Act, or to seek an appropriate remedy or relief in a court of competent jurisdiction.

(f) If no hearing or investigation regarding the propriety of a competitive classification of a telecommunications service is initiated within 180 days after a telecommunications carrier files a tariff listing such telecommunications service as competitive, no refunds to customers for any overcharges which may result from an improper classification shall be ordered for the period from the time the telecommunications carrier filed such tariff listing the service as competitive up to the time an investigation of the service classification is initiated by the Commission's own motion or the filing of a complaint. Where a hearing or an investigation regarding
the propriety of a telecommunications service classification as competitive is initiated after 180 days from the filing of the tariff, the period subject to refund for improper classification shall begin on the date such investigation or hearing is initiated by the filing of a Commission motion or a complaint.

Sec. 13-502.5. Services alleged to be improperly classified.

(a) Any action or proceeding pending before the Commission upon the effective date of this amendatory Act of the 92nd General Assembly in which it is alleged that a telecommunications carrier has improperly classified services as competitive, other than a case pertaining to Section 13-506.1, shall be abated and shall not be maintained or continued.

(b) All retail telecommunications services provided to business end users by any telecommunications carrier subject, as of May 1, 2001, to alternative regulation under an alternative regulation plan pursuant to Section 13-506.1 of this Act shall be classified as competitive as of the effective date of this amendatory Act of the 92nd General Assembly without further Commission review. Rates for retail telecommunications services provided to business end users with 4 or fewer access lines shall not exceed the rates the carrier charged for those services on May 1, 2001. This restriction upon the rates of retail telecommunications services provided to business end users shall remain in force and effect through July 1, 2005; provided, however, that nothing in this Section shall be construed to prohibit reduction of those rates. Rates for retail telecommunications services provided to business end users with 5 or more access lines shall not be subject to the restrictions set forth in this subsection.

(c) All retail vertical services, as defined herein, that are provided by a telecommunications carrier subject, as of May 1, 2001, to alternative regulation under an alternative regulation plan pursuant to Section 13-506.1 of this Act shall be classified as competitive as of June 1, 2003 without further Commission review. Retail vertical services shall include, for purposes of this Section, services available on a subscriber's telephone line that the subscriber pays for on a periodic or per use basis, but shall not include caller identification and call waiting.

(d) Any action or proceeding before the Commission upon the effective date of this amendatory Act of the 92nd General Assembly, in which it is alleged that a telecommunications carrier has improperly
classified services as competitive, other than a case pertaining to Section 13-506.1, shall be abated and the services the classification of which is at issue shall be deemed either competitive or noncompetitive as set forth in this Section. Any telecommunications carrier subject to an action or proceeding in which it is alleged that the telecommunications carrier has improperly classified services as competitive shall be deemed liable to refund, and shall refund, the sum of $90,000,000 to that class or those classes of its customers that were alleged to have paid rates in excess of noncompetitive rates as the result of the alleged improper classification. The telecommunications carrier shall make the refund no later than 120 days after the effective date of this amendatory Act of the 92nd General Assembly.

(e) Any telecommunications carrier subject to an action or proceeding in which it is alleged that the telecommunications carrier has improperly classified services as competitive shall also pay the sum of $15,000,000 to the Digital Divide Elimination Fund established pursuant to Section 5-20 of the Eliminate the Digital Divide Law, and shall further pay the sum of $15,000,000 to the Digital Divide Elimination Infrastructure Fund established pursuant to Section 13-301.3 of this Act. The telecommunications carrier shall make each of these payments in 3 installments of $5,000,000, payable on July 1 of 2002, 2003, and 2004. The telecommunications carrier shall have no further accounting for these payments, which shall be used for the purposes established in the Eliminate the Digital Divide Law.

(f) All other services shall be classified pursuant to Section 13-502 of this Act.

With respect to rates or other charges made, demanded, or received for any telecommunications service offered, provided, or to be provided, that is subject to subsection (a) of Section 13-501 of this Act, telecommunications carriers shall comply with the publication and filing provisions of Sections 9-101, 9-102, 9-102.1, and 9-201 of this Act. Except for the provision of services offered or provided by payphone providers pursuant to a tariff, telecommunications carriers shall make all tariffs and all written service offerings for competitive telecommunications service available electronically to the public without requiring a password or other means of registration. Sec. 13-504. Application of ratemaking provisions of Article IX.

(a) Except where the context clearly renders such provisions inapplicable, the ratemaking provisions of Article IX of this Act relating to public utilities are fully and equally applicable to the rates, charges, tariffs and classifications for the offer or provision of noncompetitive telecommunications services. However, the ratemaking provisions do not apply to any proposed change in rates or charges, any proposed change in any classification or tariff resulting in a change in rates or charges, or the establishment of new services and rates therefor for a noncompetitive local exchange telecommunications service offered or provided by a local exchange telecommunications carrier with no more than 35,000 subscriber access lines. Proposed changes in rates, charges, classifications, or tariffs meeting these criteria shall be permitted upon the filing of the proposed tariff and 30 days notice to the Commission and all potentially affected customers. The proposed changes shall not be subject to suspension. The Commission shall investigate whether any proposed change is just and reasonable only if a telecommunications carrier that is a customer of the local exchange telecommunications carrier or 10% of the potentially affected access line subscribers of the local exchange telecommunications carrier shall file a petition or complaint requesting an investigation of the proposed changes. When the telecommunications carrier or 10% of the potentially affected access line subscribers of a local exchange telecommunications carrier file a complaint, the Commission shall, after notice and hearing, have the power and duty to establish the rates, charges, classifications, or tariffs it finds to be just and reasonable.

(b) Subsection (c) of Section 13-502 and Sections 13-505.1, 13-505.4, 13-505.6, and 13-507 of this Article do not apply to rates or charges or proposed changes in rates or charges for applicable competitive or interexchange services when offered or provided by a local exchange telecommunications carrier with no more than 35,000 subscriber access lines. In addition, Sections 13-514, 13-515, and 13-516 do not apply to telecommunications carriers with no more than 35,000 subscriber access...
lines. The Commission may require telecommunications carriers with no more than 35,000 subscriber access lines to furnish information that the Commission deems necessary for a determination that rates and charges for any competitive telecommunications service are just and reasonable.

(c) For a local exchange telecommunications carrier with no more than 35,000 access lines, the Commission shall consider and adjust, as appropriate, a local exchange telecommunications carrier's depreciation rates only in ratemaking proceedings.

(d) Article VI and Sections 7-101 and 7-102 of Article VII of this Act pertaining to public utilities, public utility rates and services, and the regulation thereof are not applicable to local exchange telecommunication carriers with no more than 35,000 subscriber access lines.

Sec. 13-505.3. Services for resale. A telecommunications carrier that offers both noncompetitive and competitive services shall offer all noncompetitive services, together with each applicable optional feature or functionality, subject to resale; however, the Commission may determine under Article IX of this Act that certain noncompetitive services, together with each applicable optional feature or functionality, that are offered to residence customers under different rates, charges, terms, or conditions than to other customers should not be subject to resale under the rates, charges, terms, or conditions available only to residence customers.

Sec. 13-505.4. Provision of noncompetitive services.

(a) A telecommunications carrier that offers or provides a noncompetitive service, service element, feature, or functionality on a separate, stand-alone basis to any customer shall provide that service, service element, feature, or functionality pursuant to tariff to all persons, including all telecommunications carriers and competitors, in accordance with the provisions of this Article.

(b) A telecommunications carrier that offers or provides a noncompetitive service, service element, feature, or functionality to any customer as part of an offering of competitive services pursuant to tariff or contract shall publicly disclose the offering or provisioning of the noncompetitive service, service element, feature, or functionality by filing with the Commission information that generally describes the offering or provisioning and that shows the rates, terms, and conditions of the noncompetitive service, service element, feature, or functionality. The information shall be filed with the Commission concurrently with the filing of the tariff or not more than 10 days following the customer's acceptance of the offering in a contract.

(c) A telecommunications carrier that is not subject to regulation under an alternative regulation plan pursuant to Section 13-506.1 of this Act may reduce the rate or charge for a noncompetitive service, service element, feature, or functionality offered to customers on a separate, stand-alone basis or as part of a bundled service offering by filing with the Commission a tariff that shows the reduced rate or charge and all applicable terms and conditions of the noncompetitive service, service element, feature, or functionality or bundled offering. The reduction of

rates or charges shall be permitted upon the filing of the proposed rate, charge, classification, tariff, or bundled offering. The total price of a bundled offering shall not attribute any portion of the charge to services subject to the jurisdiction of the Commission and shall not be binding on the Commission in any proceeding under Article IX of this Act to set the revenue requirement or to set just and reasonable rates for services subject to the jurisdiction of the Commission. Prices for bundles shall not be subject to Section 13-505.1 of this Act. For purposes of this subsection (c), a bundle is a group of services offered together for a fixed price where at least one of the services is an interLATA service as that term is defined in 47 U.S.C. 153(21), a cable service or a video service, a community antenna television service, a satellite broadcast service, a public mobile service as defined in Section 13-214 of this Act, or an advanced telecommunications service as "advanced telecommunications services" is defined in Section 13-517 of this Act.

A telecommunications carrier that provides both noncompetitive and competitive telecommunications services shall provide all noncompetitive telecommunications services on an unbundled basis to the same extent the Federal Communications Commission requires that carrier to unbundle the same services provided under its jurisdiction. The Illinois Commerce Commission may require additional unbundling of noncompetitive telecommunications services over which it has jurisdiction based on a determination, after notice and hearing, that additional unbundling is in the

Sec. 13-506.1. Alternative forms of regulation for noncompetitive services.

(a) Notwithstanding any of the ratemaking provisions of this Article or Article IX that are deemed to require rate of return regulation, the Commission may implement alternative forms of regulation in order to establish just and reasonable rates for noncompetitive telecommunications services including, but not limited to, price regulation, earnings sharing, rate moratoria, or a network modernization plan. The Commission is authorized to adopt different forms of regulation to fit the particular characteristics of different telecommunications carriers and their service areas.

In addition to the public policy goals declared in Section 13-103, the Commission shall consider, in determining the appropriateness of any alternative form of regulation, whether it will:

(1) reduce regulatory delay and costs over time;
(2) encourage innovation in services;
(3) promote efficiency;
(4) facilitate the broad dissemination of technical improvements to all classes of ratepayers;
(5) enhance economic development of the State; and
(6) provide for fair, just, and reasonable rates.

(b) A telecommunications carrier providing noncompetitive telecommunications services may petition the Commission to regulate the rates or charges of its noncompetitive services under an alternative form of regulation. The telecommunications carrier shall submit with its petition its plan for an alternative form of regulation. The Commission shall review and may modify or reject the carrier's proposed plan. The Commission also may initiate consideration of alternative forms of regulation for a telecommunications carrier on its own motion. The Commission may approve the plan or modified plan and authorize its implementation only if it finds, after notice and hearing, that the plan or modified plan at a minimum:

(1) is in the public interest;
(2) will produce fair, just, and reasonable rates for telecommunications services;

New matter indicated by italics - deletions by strikeout
(3) responds to changes in technology and the structure of the telecommunications industry that are, in fact, occurring;

(4) constitutes a more appropriate form of regulation based on the Commission's overall consideration of the policy goals set forth in Section 13-103 and this Section;

(5) specifically identifies how ratepayers will benefit from any efficiency gains, cost savings arising out of the regulatory change, and improvements in productivity due to technological change;

(6) will maintain the quality and availability of telecommunications services; and

(7) will not unduly or unreasonably prejudice or disadvantage any particular customer class, including telecommunications carriers.

(c) An alternative regulation plan approved under this Section shall provide, as a condition for Commission approval of the plan, that for the first 3 years the plan is in effect, basic residence service rates shall be no higher than those rates in effect 180 days before the filing of the plan. This provision shall not be used as a justification or rationale for an increase in basic service rates for any other customer class. For purposes of this Section, "basic residence service rates" shall mean monthly recurring charges for the telecommunications carrier's lowest priced primary residence network access lines, along with any associated untimed or flat rate local usage charges. Nothing in this subsection (c) shall preclude the Commission from approving an alternative regulation plan that results in rate reductions provided all the requirements of subsection (b) are satisfied by the plan.

(d) Any alternative form of regulation granted for a multi-year period under this Section shall provide for annual or more frequent reporting to the Commission to document that the requirements of the plan are being properly implemented.

(e) Upon petition by the telecommunications carrier or any other person or upon its own motion, the Commission may rescind its approval of an alternative form of regulation if, after notice and hearing, it finds that the conditions set forth in subsection (b) of this Section can no longer be satisfied. Any person may file a complaint alleging that the rates charged by a telecommunications carrier under an alternative form of regulation are unfair, unjust, unreasonable, unduly discriminatory, or are otherwise not consistent with the requirements of this Article; provided, that the

complainant shall bear the burden of proving the allegations in the complaint.

(f) Nothing in this Section shall be construed to authorize the Commission to render Sections 9-241, 9-250, and 13-505.2 inapplicable to noncompetitive services.

(220 ILCS 5/13-506.2)

Sec. 13-506.2. Market regulation for competitive retail services.

(a) Definitions. As used in this Section:

(1) "Electing Provider" means a telecommunications carrier that is subject to either rate regulation pursuant to Section 13-504 or Section 13-505 or alternative regulation pursuant to Section 13-506.1 and that elects to have the rates, terms, and conditions of its competitive retail telecommunications services solely determined and regulated pursuant to the terms of this Article.

(2) "Basic local exchange service" means either a stand-alone residential network access line and per-call usage or, for any geographic area in which such stand-alone service is not offered, a stand-alone flat rate residence network access line for which local calls are not charged for frequency or duration. Extended Area Service shall be included in basic local exchange service.

(3) "Existing customer" means a residential customer who was subscribing to one of the optional packages described in subsection (d) of this Section as of the effective date of this amendatory Act of the 99th General Assembly. A customer who was subscribing to one of the optional packages on that date but stops subscribing thereafter shall not be considered an "existing customer" as of the date the customer stopped subscribing to the optional package, unless the stoppage is temporary and caused by the customer changing service address locations, or unless the customer resumes subscribing and is eligible to receive discounts on monthly telephone service under the federal Lifeline program, 47 C.F.R. Part 54, Subpart E.

(4) "New customer" means a residential customer who was not subscribing to one of the optional packages described in subsection (d) of this Section as of the effective date of this amendatory Act of the 99th General Assembly and who is eligible to receive discounts on monthly telephone service under the federal Lifeline program, 47 C.F.R. Part 54, Subpart E.

(b) Election for market regulation. Notwithstanding any other provision of this Act, an Electing Provider may elect to have the rates, terms, and conditions of its competitive retail telecommunications services solely determined and regulated pursuant to the terms of this Section by filing written notice of its election for market regulation with the Commission. The notice of election shall designate the geographic area of the Electing Provider's service territory where the market regulation shall apply, either on a state-wide basis or in one or more specified Market Service Areas ("MSA") or Exchange areas. An Electing Provider shall not make an election for market regulation under this Section unless it commits in its written notice of election for market regulation to fulfill the conditions and requirements in this Section in each geographic area in which market regulation is elected. Immediately upon filing the notice of election for market regulation, the Electing Provider shall be subject to the jurisdiction of the Commission to the extent expressly provided in this Section.

(c) Competitive classification. Market regulation shall be available for competitive retail telecommunications services as provided in this subsection.

(1) For geographic areas in which telecommunications services provided by the Electing Provider were classified as competitive either through legislative action or a tariff filing pursuant to Section 13-502 prior to January 1, 2010, and that are included in the Electing Provider's notice of election pursuant to subsection (b) of this Section, such services, and all recurring and nonrecurring charges associated with, related to or used in connection with such services, shall be classified as competitive without further Commission review. For services classified as competitive pursuant to this subsection, the requirements or conditions in any order or decision rendered by the Commission pursuant to Section 13-502 prior to the effective date of this amendatory Act of the 96th General Assembly, except for the commitments made by the Electing Provider in such order or decision concerning the optional packages required in subsection (d) of this Section and basic local exchange service as defined in this Section, shall no longer be in effect and no Commission investigation, review, or proceeding under Section 13-502 shall be continued, conducted, or maintained with respect to such services, charges, requirements, or conditions. If an Electing Provider has

New matter indicated by italics - deletions by strikeout
ceased providing optional packages to customers pursuant to subdivision (d)(8) of this Section, the commitments made by the Electing Provider in such order or decision concerning the optional packages under subsection (d) of this Section shall no longer be in effect and no Commission investigation, review, or proceeding under Section 13-502 shall be continued, conducted, or maintained with respect to such packages.

(2) For those geographic areas in which residential local exchange telecommunications services have not been classified as competitive as of the effective date of this amendatory Act of the 96th General Assembly, all telecommunications services provided to residential and business end users by an Electing Provider in the geographic area that is included in its notice of election pursuant to subsection (b) shall be classified as competitive for purposes of this Article without further Commission review.

(3) If an Electing Provider was previously subject to alternative regulation pursuant to Section 13-506.1 of this Article, the alternative regulation plan shall terminate in whole for all services subject to that plan and be of no force or effect, without further Commission review or action, when the Electing Provider's residential local exchange telecommunications service in each MSA in its telecommunications service area in the State has been classified as competitive pursuant to either subdivision (c)(1) or (c)(2) of this Section.

(4) The service packages described in Section 13-518 shall be classified as competitive for purposes of this Section if offered by an Electing Provider in a geographic area in which local exchange telecommunications service has been classified as competitive pursuant to either subdivision (c)(1) or (c)(2) of this Section.

(5) Where a service, or its functional equivalent, or a substitute service offered by a carrier that is not an Electing Provider or the incumbent local exchange carrier for that area is also being offered by an Electing Provider for some identifiable class or group of customers in an exchange, group of exchanges, or some other clearly defined geographical area, the service offered by a carrier that is not an Electing Provider or the incumbent local exchange carrier for that area shall be classified as competitive without further Commission review.

(6) Notwithstanding any other provision of this Act, retail telecommunications services classified as competitive pursuant to Section 13-502 or subdivision (c)(5) of this Section shall have their rates, terms, and conditions solely determined and regulated pursuant to the terms of this Section in the same manner and to the same extent as the competitive retail telecommunications services of an Electing Provider, except that subsections (d), (g), and (j) of this Section shall not apply to a carrier that is not an Electing Provider or to the competitive telecommunications services of a carrier that is not an Electing Provider. The access services of a carrier that is not an Electing Provider shall remain subject to Section 13-900.2. The requirements in subdivision (e)(3) of this Section shall not apply to retail telecommunications services classified as competitive pursuant to Section 13-502 or subdivision (c)(5) of this Section, except that, upon request from the Commission, the telecommunications carrier providing competitive retail telecommunications services shall provide a report showing the number of credits and exemptions for the requested time period.

(d) Consumer choice safe harbor options.

(1) Subject to subdivision (d)(8) of this Section, an Electing Provider in each of the MSA or Exchange areas classified as competitive pursuant to subdivision (c)(1) or (c)(2) of this Section shall offer to all residential customers who choose to subscribe the following optional packages of services priced at the same rate levels in effect on January 1, 2010:

(A) A basic package, which shall consist of a stand-alone residential network access line and 30 local calls. If the Electing Provider offers a stand-alone residential access line and local usage on a per call basis, the price for the basic package shall be the Electing Provider's applicable price in effect on January 1, 2010 for the sum of a residential access line and 30 local calls, additional calls over 30 calls shall be provided at the current per call rate. However, this basic package is not required if stand-alone residential network access lines or per-call local usage are not offered by the Electing Provider in the geographic area on January 1, 2010 or if the Electing Provider has not increased its stand-alone network access line and local...
usage rates, including Extended Area Service rates, since January 1, 2010.

(B) An extra package, which shall consist of residential basic local exchange network access line and unlimited local calls. The price for the extra package shall be the Electing Provider's applicable price in effect on January 1, 2010 for a residential access line with unlimited local calls.

(C) A plus package, which shall consist of residential basic local exchange network access line, unlimited local calls, and the customer's choice of 2 vertical services offered by the Electing Provider. The term "vertical services" as used in this subsection, includes, but is not limited to, call waiting, call forwarding, 3-way calling, caller ID, call tracing, automatic callback, repeat dialing, and voicemail. The price for the plus package shall be the Electing Provider's applicable price in effect on January 1, 2010 for the sum of a residential access line with unlimited local calls and 2 times the average price for the vertical features included in the package.

(2) Subject to subdivision (d)(8) of this Section, for those geographic areas in which local exchange telecommunications services were classified as competitive on the effective date of this amendatory Act of the 96th General Assembly, an Electing Provider in each such MSA or Exchange area shall be subject to the same terms and conditions as provided in commitments made by the Electing Provider in connection with such previous competitive classifications, which shall apply with equal force under this Section, except as follows: (i) the limits on price increases on the optional packages required by this Section shall be extended consistent with subsection (d)(1) of this Section and (ii) the price for the extra package required by subsection (d)(1)(B) shall be reduced by one dollar from the price in effect on January 1, 2010. In addition, if an Electing Provider obtains a competitive classification pursuant to subsection (c)(1) and (c)(2), the price for the optional packages shall be determined in such area in compliance with subsection (d)(1), except the price for the plus package required by subsection (d)(1)(C) shall be the lower of the price for such area or the price of the plus package in effect on
January 1, 2010 for areas classified as competitive pursuant to subsection (c)(1).

(3) To the extent that the requirements in Section 13-518 applied to a telecommunications carrier prior to the effective date of this Section and that telecommunications carrier becomes an Electing Provider in accordance with the provisions of this Section, the requirements in Section 13-518 shall cease to apply to that Electing Provider in those geographic areas included in the Electing Provider's notice of election pursuant to subsection (b) of this Section.

(4) Subject to subdivision (d)(8) of this Section, an Electing Provider shall make the optional packages required by this subsection and stand-alone residential network access lines and local usage, where offered, readily available to the public by providing information, in a clear manner, to residential customers. Information shall be made available on a website, and an Electing Provider shall provide notification to its customers every 6 months, provided that notification may consist of a bill page message that provides an objective description of the safe harbor options that includes a telephone number and website address where the customer may obtain additional information about the packages from the Electing Provider. The optional packages shall be offered on a monthly basis with no term of service requirement. An Electing Provider shall allow online electronic ordering of the optional packages and stand-alone residential network access lines and local usage, where offered, on its website in a manner similar to the online electronic ordering of its other residential services.

(5) Subject to subdivision (d)(8) of this Section, an Electing Provider shall comply with the Commission's existing rules, regulations, and notices in Title 83, Part 735 of the Illinois Administrative Code when offering or providing the optional packages required by this subsection (d) and stand-alone residential network access lines.

(6) Subject to subdivision (d)(8) of this Section, an Electing Provider shall provide to the Commission semi-annual subscribership reports as of June 30 and December 31 that contain the number of its customers subscribing to each of the consumer choice safe harbor packages required by subsection (d)(1) of this Section and the number of its customers subscribing to retail

residential basic local exchange service as defined in subsection (a)(2) of this Section. The first semi-annual reports shall be made on April 1, 2011 for December 31, 2010, and on September 1, 2011 for June 30, 2011, and semi-annually on April 1 and September 1 thereafter. Such subscribership information shall be accorded confidential and proprietary treatment upon request by the Electing Provider.

(7) The Commission shall have the power, after notice and hearing as provided in this Article, upon complaint or upon its own motion, to take corrective action if the requirements of this Section are not complied with by an Electing Provider.

(8) On and after the effective date of this amendatory Act of the 99th General Assembly, an Electing Provider shall continue to offer and provide the optional packages described in this subsection (d) to existing customers and new customers. On and after July 1, 2017, an Electing Provider may immediately stop offering the optional packages described in this subsection (d) and, upon providing two notices to affected customers and to the Commission, may stop providing the optional packages described in this subsection (d) to all customers who subscribe to one of the optional packages. The first notice shall be provided at least 90 days before the date upon which the Electing Provider intends to stop providing the optional packages, and the second notice must be provided at least 30 days before that date. The first notice shall not be provided prior to July 1, 2017. Each notice must identify the date on which the Electing Provider intends to stop providing the optional packages, at least one alternative service available to the customer, and a telephone number by which the customer may contact a service representative of the Electing Provider. After July 1, 2017 with respect to new customers, and upon the expiration of the second notice period with respect to customers who were subscribing to one of the optional packages, subdivisions (d)(1), (d)(2), (d)(4), (d)(5), (d)(6), and (d)(7) of this Section shall not apply to the Electing Provider. Notwithstanding any other provision of this Article, an Electing Provider that has ceased providing the optional packages under this subdivision (d)(8) is not subject to Section 13-301(1)(c) of this Act. Notwithstanding any other provision of this Act, and subject to subdivision (d)(7) of this Section, the Commission's authority over the discontinuance of the

optional packages described in this subsection (d) by an Electing Provider shall be governed solely by this subsection (d)(8).

(e) Service quality and customer credits for basic local exchange service.

(1) An Electing Provider shall meet the following service quality standards in providing basic local exchange service, which for purposes of this subsection (e), includes both basic local exchange service and any consumer choice safe harbor options that may be required by subsection (d) of this Section.

(A) Install basic local exchange service within 5 business days after receipt of an order from the customer unless the customer requests an installation date that is beyond 5 business days after placing the order for basic service and to inform the customer of the Electing Provider's duty to install service within this timeframe. If installation of service is requested on or by a date more than 5 business days in the future, the Electing Provider shall install service by the date requested.

(B) Restore basic local exchange service for the customer within 30 hours after receiving notice that the customer is out of service.

(C) Keep all repair and installation appointments for basic local exchange service if a customer premises visit requires a customer to be present. The appointment window shall be either a specific time or, at a maximum, a 4-hour time block during evening, weekend, and normal business hours.

(D) Inform a customer when a repair or installation appointment requires the customer to be present.

(2) Customers shall be credited by the Electing Provider for violations of basic local exchange service quality standards described in subdivision (e)(1) of this Section. The credits shall be applied automatically on the statement issued to the customer for the next monthly billing cycle following the violation or following the discovery of the violation. The next monthly billing cycle following the violation or the discovery of the violation means the billing cycle immediately following the billing cycle in process at the time of the violation or discovery of the violation, provided the total time between the violation or discovery of the violation and

the issuance of the credit shall not exceed 60 calendar days. The Electing Provider is responsible for providing the credits and the customer is under no obligation to request such credits. The following credits shall apply:

(A) If an Electing Provider fails to repair an out-of-service condition for basic local exchange service within 30 hours, the Electing Provider shall provide a credit to the customer. If the service disruption is for more than 30 hours, but not more than 48 hours, the credit must be equal to a pro-rata portion of the monthly recurring charges for all basic local exchange services disrupted. If the service disruption is for more than 48 hours, but not more than 72 hours, the credit must be equal to at least 33% of one month's recurring charges for all local services disrupted. If the service disruption is for more than 72 hours, but not more than 96 hours, the credit must be equal to at least 67% of one month's recurring charges for all basic local exchange services disrupted. If the service disruption is for more than 96 hours, but not more than 120 hours, the credit must be equal to one month's recurring charges for all basic local exchange services disrupted. For each day or portion thereof that the service disruption continues beyond the initial 120-hour period, the Electing Provider shall also provide an additional credit of $20 per calendar day.

(B) If an Electing Provider fails to install basic local exchange service as required under subdivision (e)(1) of this Section, the Electing Provider shall waive 50% of any installation charges, or in the absence of an installation charge or where installation is pursuant to the Link Up program, the Electing Provider shall provide a credit of $25. If an Electing Provider fails to install service within 10 business days after the service application is placed, or fails to install service within 5 business days after the customer's requested installation date, if the requested date was more than 5 business days after the date of the order, the Electing Provider shall waive 100% of the installation charge, or in the absence of an installation charge or where installation is provided pursuant to the Link Up program, the Electing Provider shall provide a credit of $50. For each day that the

failure to install service continues beyond the initial 10 business days, or beyond 5 business days after the customer's requested installation date, if the requested date was more than 5 business days after the date of the order, the Electing Provider shall also provide an additional credit of $20 per calendar day until the basic local exchange service is installed.

(C) If an Electing Provider fails to keep a scheduled repair or installation appointment when a customer premises visit requires a customer to be present as required under subdivision (e)(1) of this Section, the Electing Provider shall credit the customer $25 per missed appointment. A credit required by this subdivision does not apply when the Electing Provider provides the customer notice of its inability to keep the appointment no later than 8:00 pm of the day prior to the scheduled date of the appointment.

(D) Credits required by this subsection do not apply if the violation of a service quality standard:

(i) occurs as a result of a negligent or willful act on the part of the customer;

(ii) occurs as a result of a malfunction of customer-owned telephone equipment or inside wiring;

(iii) occurs as a result of, or is extended by, an emergency situation as defined in 83 Ill. Adm. Code 732.10;

(iv) is extended by the Electing Provider's inability to gain access to the customer's premises due to the customer missing an appointment, provided that the violation is not further extended by the Electing Provider;

(v) occurs as a result of a customer request to change the scheduled appointment, provided that the violation is not further extended by the Electing Provider;

(vi) occurs as a result of an Electing Provider's right to refuse service to a customer as provided in Commission rules; or

(vii) occurs as a result of a lack of facilities where a customer requests service at a geographically remote location, where a customer requests service in a geographic area where the Electing Provider is not currently offering service, or where there are insufficient facilities to meet the customer's request for service, subject to an Electing Provider's obligation for reasonable facilities planning.

(3) Each Electing Provider shall provide to the Commission on a quarterly basis and in a form suitable for posting on the Commission's website in conformance with the rules adopted by the Commission and in effect on April 1, 2010, a public report that includes the following data for basic local exchange service quality of service:

(A) With regard to credits due in accordance with subdivision (e)(2)(A) as a result of out-of-service conditions lasting more than 30 hours:

(i) the total dollar amount of any customer credits paid;
(ii) the number of credits issued for repairs between 30 and 48 hours;
(iii) the number of credits issued for repairs between 49 and 72 hours;
(iv) the number of credits issued for repairs between 73 and 96 hours;
(v) the number of credits used for repairs between 97 and 120 hours;
(vi) the number of credits issued for repairs greater than 120 hours; and
(vii) the number of exemptions claimed for each of the categories identified in subdivision (e)(2)(D).

(B) With regard to credits due in accordance with subdivision (e)(2)(B) as a result of failure to install basic local exchange service:

(i) the total dollar amount of any customer credits paid;

(ii) the number of installations after 5 business days;
(iii) the number of installations after 10 business days;
(iv) the number of installations after 11 business days; and
(v) the number of exemptions claimed for each of the categories identified in subdivision (e)(2)(D).

(C) With regard to credits due in accordance with subdivision (e)(2)(C) as a result of missed appointments:
(i) the total dollar amount of any customer credits paid;
(ii) the number of any customers receiving credits; and
(iii) the number of exemptions claimed for each of the categories identified in subdivision (e)(2)(D).

(D) The Electing Provider's annual report required by this subsection shall also include, for informational reporting, the performance data described in subdivisions (e)(2)(A), (e)(2)(B), and (e)(2)(C), and trouble reports per 100 access lines calculated using the Commission's existing applicable rules and regulations for such measures, including the requirements for service standards established in this Section.

(4) It is the intent of the General Assembly that the service quality rules and customer credits in this subsection (e) of this Section and other enforcement mechanisms, including fines and penalties authorized by Section 13-305, shall apply on a nondiscriminatory basis to all Electing Providers. Accordingly, notwithstanding any provision of any service quality rules promulgated by the Commission, any alternative regulation plan adopted by the Commission, or any other order of the Commission, any Electing Provider that is subject to any other order of the Commission and that violates or fails to comply with the service quality standards promulgated pursuant to this subsection (e) or any other order of the Commission shall not be subject to any fines, penalties, customer credits, or enforcement mechanisms other than

New matter indicated by italics - deletions by strikeout
such fines or penalties or customer credits as may be imposed by the Commission in accordance with the provisions of this subsection (e) and Section 13-305, which are to be generally applicable to all Electing Providers. The amount of any fines or penalties imposed by the Commission for failure to comply with the requirements of this subsection (e) shall be an appropriate amount, taking into account, at a minimum, the Electing Provider's gross annual intrastate revenue; the frequency, duration, and recurrence of the violation; and the relative harm caused to the affected customers or other users of the network. In imposing fines and penalties, the Commission shall take into account compensation or credits paid by the Electing Provider to its customers pursuant to this subsection (e) in compensation for any violation found pursuant to this subsection (e), and in any event the fine or penalty shall not exceed an amount equal to the maximum amount of a civil penalty that may be imposed under Section 13-305.

(5) An Electing Provider in each of the MSA or Exchange areas classified as competitive pursuant to subsection (c) of this Section shall fulfill the requirements in subdivision (e)(3) of this Section for 3 years after its notice of election becomes effective. After such 3 years, the requirements in subdivision (e)(3) of this Section shall not apply to such Electing Provider, except that, upon request from the Commission, the Electing Provider shall provide a report showing the number of credits and exemptions for the requested time period.

(f) Commission jurisdiction over competitive retail telecommunications services. Except as otherwise expressly stated in this Section, the Commission shall thereafter have no jurisdiction or authority over any aspect of competitive retail telecommunications service of an Electing Provider in those geographic areas included in the Electing Provider's notice of election pursuant to subsection (b) of this Section or of a retail telecommunications service classified as competitive pursuant to Section 13-502 or subdivision (c)(5) of this Section, heretofore subject to the jurisdiction of the Commission, including but not limited to, any requirements of this Article related to the terms, conditions, rates, quality of service, availability, classification or any other aspect of any competitive retail telecommunications services. No telecommunications carrier shall commit any unfair or deceptive act or practice in connection

with any aspect of the offering or provision of any competitive retail telecommunications service. Nothing in this Article shall limit or affect any provisions in the Consumer Fraud and Deceptive Business Practices Act with respect to any unfair or deceptive act or practice by a telecommunications carrier.

(g) Commission authority over access services upon election for market regulation.

(1) As part of its Notice of Election for Market Regulation, the Electing Provider shall reduce its intrastate switched access rates to rates no higher than its interstate switched access rates in 4 installments. The first reduction must be made 30 days after submission of its complete application for Notice of Election for Market Regulation, and the Electing Provider must reduce its intrastate switched access rates by an amount equal to 33% of the difference between its current intrastate switched access rates and its current interstate switched access rates. The second reduction must be made no later than one year after the first reduction, and the Electing Provider must reduce its then current intrastate switched access rates by an amount equal to 41% of the difference between its then current intrastate switched access rates and its then current interstate switched access rates. The third reduction must be made no later than one year after the second reduction, and the Electing Provider must reduce its then current intrastate switched access rates by an amount equal to 50% of the difference between its then current intrastate switched access rates and its then current interstate switched access rates. The fourth reduction must be made on or before June 30, 2013, and the Electing Provider must reduce its intrastate switched access rate to mirror its then current interstate switched access rates and rate structure. Following the fourth reduction, each Electing Provider must continue to set its intrastate switched access rates to mirror its then current interstate switched access rates and rate structure. For purposes of this subsection, the rate for intrastate switched access service means the composite, per-minute rate for that service, including all applicable fixed and traffic-sensitive charges, including, but not limited to, carrier common line charges.

(2) Nothing in paragraph (1) of this subsection (g) prohibits an Electing Provider from electing to offer intrastate switched
access service at rates lower than its interstate switched access rates.

(3) The Commission shall have no authority to order an Electing Provider to set its rates for intrastate switched access at a level lower than its interstate switched access rates.

(4) The Commission's authority under this subsection (g) shall only apply to Electing Providers under Market Regulation. The Commission's authority over switched access services for all other carriers is retained under Section 13-900.2 of this Act.

(h) Safety of service equipment and facilities.

(1) An Electing Provider shall furnish, provide, and maintain such service instrumentalities, equipment, and facilities as shall promote the safety, health, comfort, and convenience of its patrons, employees, and public and as shall be in all respects adequate, reliable, and efficient without discrimination or delay. Every Electing Provider shall provide service and facilities that are in all respects environmentally safe.

(2) The Commission is authorized to conduct an investigation of any Electing Provider or part thereof. The investigation may examine the reasonableness, prudence, or efficiency of any aspect of the Electing Provider's operations or functions that may affect the adequacy, safety, efficiency, or reliability of telecommunications service. The Commission may conduct or order an investigation only when it has reasonable grounds to believe that the investigation is necessary to assure that the Electing Provider is providing adequate, efficient, reliable, and safe service. The Commission shall, before initiating any such investigation, issue an order describing the grounds for the investigation and the appropriate scope and nature of the investigation, which shall be reasonably related to the grounds relied upon by the Commission in its order.

(i) (Blank).

(j) Application of Article VII. The provisions of Sections 7-101, 7-102, 7-104, 7-204, 7-205, and 7-206 of this Act are applicable to an Electing Provider offering or providing retail telecommunications service, and the Commission's regulation thereof, except that (1) the approval of contracts and arrangements with affiliated interests required by paragraph (3) of Section 7-101 shall not apply to such telecommunications carriers provided that, except as provided in item (2), those contracts and

arrangements shall be filed with the Commission; (2) affiliated interest contracts or arrangements entered into by such telecommunications carriers where the increased obligation thereunder does not exceed the lesser of $5,000,000 or 5% of such carrier's prior annual revenue from noncompetitive services are not required to be filed with the Commission; and (3) any consent and approval of the Commission required by Section 7-102 is not required for the sale, lease, assignment, or transfer by any Electing Provider of any property that is not necessary or useful in the performance of its duties to the public.

Sec. 13-507. In any proceeding permitting, approving, investigating, or establishing rates, charges, classifications, or tariffs for telecommunications services offered or provided by a telecommunications carrier that offers or provides both noncompetitive and competitive services, the Commission shall not allow any subsidy of competitive services or nonregulated activities by noncompetitive services. In the event that facilities are utilized or expenses are incurred for the provision of both competitive and noncompetitive services, the Commission shall apportion

the facilities and expenses between noncompetitive services in the aggregate and competitive services in the aggregate and shall allow or establish rates or charges for the noncompetitive services which reflect only that portion of the facilities or expenses that it finds to be properly and reasonably apportioned to noncompetitive services. An apportionment of facilities or expenses between competitive and noncompetitive services, together with any corresponding rate changes, shall be made in general rate proceedings and in other proceedings, including service classification proceedings, that are necessary to ensure against any subsidy of competitive services by noncompetitive services. The Commission shall have the power to take or require such action as is necessary to ensure that rates or charges for noncompetitive services reflect only the value of facilities, or portion thereof, used and useful, and the expenses or portion thereof reasonably and prudently incurred, for the provision of the noncompetitive services. The Commission may, in such event, also establish, by rule, any additional procedures, rules, regulations, or mechanisms necessary to identify and properly account for the value or amount of such facilities or expenses.

The Commission may establish, by rule, appropriate methods for ensuring against cross-subsidization between competitive services and noncompetitive services as required under this Article, including appropriate methods for calculating the long-run service incremental costs of providing any telecommunications service and, when appropriate, group of services and methods for apportioning between noncompetitive incremental costs of providing both competitive and noncompetitive services, for example, common overheads that are not accounted for in the long-run service incremental costs of individual services or groups of services. The Commission may order any telecommunications carrier to conduct a long-run service incremental cost study and to provide the results thereof to the Commission. Any cost study provided to the Commission pursuant to the provisions of this Section may, in the Commission's discretion, be accorded proprietary treatment. In addition to the requirements of subsection (c) of Section 13-502 and of Section 13-505.1 applicable to the rates and charges for individual competitive services, the aggregate gross revenues of all competitive services shall be equal to or greater than the sum of the long-run service incremental costs for all competitive services as a group and the value of

However, not later than 270 days after the effective date of this amendatory Act of 1997, and every 2 years thereafter, the Commission shall review all rules issued under this Article that apply to the operations or activities of any telecommunications carrier. The Commission shall, after notice and hearing, repeal or modify any rule it determines to be no longer in the public interest as the result of the reasonable availability of competitive telecommunications services.

(220 ILCS 5/13-513)

Sec. 13-513. Waiver of rules. A telecommunications carrier may petition for waiver of the application of a rule issued pursuant to this Act. The burden of proof in establishing the right to a waiver shall be upon the petitioner. The petition shall include a demonstration that the waiver would not harm consumers and would not impede the development or operation of a competitive market. Upon such demonstration, the Commission may waive the application of a rule, but not the application of a provision of this Act. The Commission may conduct an investigation of the petition on its own motion or at the request of a potentially affected person. If no investigation is conducted, the waiver shall be deemed granted 30 days after the petition is filed.

(220 ILCS 5/13-514)

Sec. 13-514. Prohibited actions of telecommunications carriers. A telecommunications carrier shall not knowingly impede the development of competition in any telecommunications service market. The following prohibited actions are considered per se impediments to the development of competition; however, the Commission is not limited in any manner to these enumerated impediments and may consider other actions which impede competition to be prohibited:

(1) unreasonably refusing or delaying interconnections or collocation or providing inferior connections to another telecommunications carrier;

New matter indicated by italics - deletions by strikeout
(2) unreasonably impairing the speed, quality, or efficiency of services used by another telecommunications carrier;

(3) unreasonably denying a request of another provider for information regarding the technical design and features, geographic coverage, information necessary for the design of equipment, and traffic capabilities of the local exchange network except for proprietary information unless such information is subject to a proprietary agreement or protective order;

(4) unreasonably delaying access in connecting another telecommunications carrier to the local exchange network whose product or service requires novel or specialized access requirements;

(5) unreasonably refusing or delaying access by any person to another telecommunications carrier;

(6) unreasonably acting or failing to act in a manner that has a substantial adverse effect on the ability of another telecommunications carrier to provide service to its customers;

(7) unreasonably failing to offer services to customers in a local exchange, where a telecommunications carrier is certificated to provide service and has entered into an interconnection agreement for the provision of local exchange telecommunications services, with the intent to delay or impede the ability of the incumbent local exchange telecommunications carrier to provide inter-LATA telecommunications services;

(8) violating the terms of or unreasonably delaying implementation of an interconnection agreement entered into pursuant to Section 252 of the federal Telecommunications Act of 1996;

(9) unreasonably refusing or delaying access to or provision of operation support systems to another telecommunications carrier or providing inferior operation support systems to another telecommunications carrier;

(10) unreasonably failing to offer network elements that the Commission or the Federal Communications Commission has determined must be offered on an unbundled basis to another telecommunications carrier in a manner consistent with the Commission's or Federal Communications Commission's orders or rules requiring such offerings;

(11) violating the obligations of Section 13-801; and

(12) violating an order of the Commission regarding matters between telecommunications carriers.

Sec. 13-515. Enforcement.

(a) The following expedited procedures shall be used to enforce the provisions of Section 13-514 of this Act, provided that, for a violation of paragraph (8) of Section 13-514 to qualify for the expedited procedures of this Section, the violation must be in a manner that unreasonably delays, increases the cost, or impedes the availability of telecommunications services to consumers. However, the Commission, the complainant, and the respondent may mutually agree to adjust the procedures established in this Section.

(b) (Blank).

(c) No complaint may be filed under this Section until the complainant has first notified the respondent of the alleged violation and offered the respondent 48 hours to correct the situation. Provision of notice and the opportunity to correct the situation creates a rebuttable presumption of knowledge under Section 13-514. After the filing of a complaint under this Section, the parties may agree to follow the mediation process under Section 10-101.1 of this Act. The time periods specified in subdivision (d)(7) of this Section shall be tolled during the time spent in mediation under Section 10-101.1.

(d) A telecommunications carrier may file a complaint with the Commission alleging a violation of Section 13-514 in accordance with this subsection:

(1) The complaint shall be filed with the Chief Clerk of the Commission and shall be served in hand upon the respondent, the executive director, and the general counsel of the Commission at the time of the filing.

(2) A complaint filed under this subsection shall include a statement that the requirements of subsection (c) have been fulfilled and that the respondent did not correct the situation as requested.

(3) Reasonable discovery specific to the issue of the complaint may commence upon filing of the complaint. Requests for discovery must be served in hand and responses to discovery must be provided in hand to the requester within 14 days after a request for discovery is made.

New matter indicated by italics - deletions by strikeout
(4) An answer and any other responsive pleading to the complaint shall be filed with the Commission and served in hand at the same time upon the complainant, the executive director, and the general counsel of the Commission within 7 days after the date on which the complaint is filed.

(5) If the answer or responsive pleading raises the issue that the complaint violates subsection (i) of this Section, the complainant may file a reply to such allegation within 3 days after actual service of such answer or responsive pleading. Within 4 days after the time for filing a reply has expired, the hearing officer or arbitrator shall either issue a written decision dismissing the complaint as frivolous in violation of subsection (i) of this Section including the reasons for such disposition or shall issue an order directing that the complaint shall proceed.

(6) A pre-hearing conference shall be held within 14 days after the date on which the complaint is filed.

(7) The hearing shall commence within 30 days of the date on which the complaint is filed. The hearing may be conducted by a hearing examiner or by an arbitrator. Parties and the Commission staff shall be entitled to present evidence and legal argument in oral or written form as deemed appropriate by the hearing examiner or arbitrator. The hearing examiner or arbitrator shall issue a written decision within 60 days after the date on which the complaint is filed. The decision shall include reasons for the disposition of the complaint and, if a violation of Section 13-514 is found, directions and a deadline for correction of the violation.

(8) Any party may file a petition requesting the Commission to review the decision of the hearing examiner or arbitrator within 5 days of such decision. Any party may file a response to a petition for review within 3 business days after actual service of the petition. After the time for filing of the petition for review, but no later than 15 days after the decision of the hearing examiner or arbitrator, the Commission shall decide to adopt the decision of the hearing examiner or arbitrator or shall issue its own final order.

(e) If the alleged violation has a substantial adverse effect on the ability of the complainant to provide service to customers, the complainant may include in its complaint a request for an order for emergency relief. The Commission, acting through its designated hearing examiner or

New matter indicated by italics - deletions by strikeout
arbitrator, shall act upon such a request within 2 business days of the filing of the complaint. An order for emergency relief may be granted, without an evidentiary hearing, upon a verified factual showing that the party seeking relief will likely succeed on the merits, that the party will suffer irreparable harm in its ability to serve customers if emergency relief is not granted, and that the order is in the public interest. An order for emergency relief shall include a finding that the requirements of this subsection have been fulfilled and shall specify the directives that must be fulfilled by the respondent and deadlines for meeting those directives. The decision of the hearing examiner or arbitrator to grant or deny emergency relief shall be considered an order of the Commission unless the Commission enters its own order within 2 calendar days of the decision of the hearing examiner or arbitrator. The order for emergency relief may require the responding party to act or refrain from acting so as to protect the provision of competitive service offerings to customers. Any action required by an emergency relief order must be technically feasible and economically reasonable and the respondent must be given a reasonable period of time to comply with the order.

(f) The Commission is authorized to obtain outside resources including, but not limited to, arbitrators and consultants for the purposes of the hearings authorized by this Section. Any arbitrator or consultant obtained by the Commission shall be approved by both parties to the hearing. The cost of such outside resources including, but not limited to, arbitrators and consultants shall be borne by the parties. The Commission shall review the bill for reasonableness and assess the parties for reasonable costs dividing the costs according to the resolution of the complaint brought under this Section. Such costs shall be paid by the parties directly to the arbitrators, consultants, and other providers of outside resources within 60 days after receiving notice of the assessments from the Commission. Interest at the statutory rate shall accrue after expiration of the 60-day period. The Commission, arbitrators, consultants, or other providers of outside resources may apply to a court of competent jurisdiction for an order requiring payment.

(g) The Commission shall assess the parties under this subsection for all of the Commission's costs of investigation and conduct of the proceedings brought under this Section including, but not limited to, the prorated salaries of staff, attorneys, hearing examiners, and support personnel and including any travel and per diem, directly attributable to the complaint brought pursuant to this Section, but excluding those costs

provided for in subsection (f), dividing the costs according to the resolution of the complaint brought under this Section. All assessments made under this subsection shall be paid into the Public Utility Fund within 60 days after receiving notice of the assessments from the Commission. Interest at the statutory rate shall accrue after the expiration of the 60 day period. The Commission is authorized to apply to a court of competent jurisdiction for an order requiring payment.

(h) If the Commission determines that there is an imminent threat to competition or to the public interest, the Commission may, notwithstanding any other provision of this Act, seek temporary, preliminary, or permanent injunctive relief from a court of competent jurisdiction either prior to or after the hearing.

(i) A party shall not bring or defend a proceeding brought under this Section or assert or controvert an issue in a proceeding brought under this Section, unless there is a non-frivolous basis for doing so. By presenting a pleading, written motion, or other paper in complaint or defense of the actions or inaction of a party under this Section, a party is certifying to the Commission that to the best of that party's knowledge, information, and belief, formed after a reasonable inquiry of the subject matter of the complaint or defense, that the complaint or defense is well grounded in law and fact, and under the circumstances:

1. it is not being presented to harass the other party, cause unnecessary delay in the provision of competitive telecommunications services to consumers, or create needless increases in the cost of litigation; and
2. the allegations and other factual contentions have evidentiary support or, if specifically so identified, are likely to have evidentiary support after reasonable opportunity for further investigation or discovery as defined herein.

(j) If, after notice and a reasonable opportunity to respond, the Commission determines that subsection (i) has been violated, the Commission shall impose appropriate sanctions upon the party or parties that have violated subsection (i) or are responsible for the violation. The sanctions shall be not more than $30,000, plus the amount of expenses accrued by the Commission for conducting the hearing. Payment of sanctions imposed under this subsection shall be made to the Common School Fund within 30 days of imposition of such sanctions.

(k) An appeal of a Commission Order made pursuant to this Section shall not effectuate a stay of the Order unless a court of competent jurisdiction.

jurisdiction specifically finds that the party seeking the stay will likely succeed on the merits, that the party will suffer irreparable harm without the stay, and that the stay is in the public interest.

Sec. 13-516. Enforcement remedies for prohibited actions by telecommunications carriers.

(a) In addition to any other provision of this Act, all of the following remedies may be applied for violations of Section 13-514, provided that, for a violation of paragraph (8) of Section 13-514 to qualify for the remedies in this Section, the violation must be in a manner that unreasonably delays, increases the cost, or impedes the availability of telecommunications services to consumers:

(1) A Commission order directing the violating telecommunications carrier to cease and desist from violating the Act or a Commission order or rule.

(2) Notwithstanding any other provision of this Act, for a second and any subsequent violation of Section 13-514 committed by a telecommunications carrier after the effective date of this amendatory Act of the 92nd General Assembly, the Commission may impose penalties of up to $30,000 or 0.00825% of the telecommunications carrier's gross intrastate annual telecommunications revenue, whichever is greater, per violation unless the telecommunications carrier has fewer than 35,000 subscriber access lines, in which case the civil penalty may not exceed $2,000 per violation. The second and any subsequent violation of Section 13-514 need not be of the same nature or provision of the Section for a penalty to be imposed. Matters resolved through voluntary mediation pursuant to Section 10-101.1 shall not be considered as a violation of Section 13-514 in computing eligibility for imposition of a penalty under this subdivision (a)(2). Each day of a continuing offense shall be treated as a separate violation for purposes of levying any penalty under this Section. The period for which the penalty shall be levied shall commence on the day the telecommunications carrier first violated Section 13-514 or on the day of the notice provided to the telecommunications carrier pursuant to subsection (c) of Section 13-515, whichever is later, and shall continue until the telecommunications carrier is in compliance with the Commission.

New matter indicated by italics - deletions by strikeout
order. In assessing a penalty under this subdivision (a)(2), the Commission may consider mitigating factors, including those specified in items (1) through (4) of subsection (a) of Section 13-304.

(3) The Commission shall award damages, attorney's fees, and costs to any telecommunications carrier that was subjected to a violation of Section 13-514.

(b) The Commission may waive penalties imposed under subdivision (a)(2) if it makes a written finding as to its reasons for waiving the penalty. Reasons for waiving a penalty shall include, but not be limited to, technological infeasibility and acts of God.

(c) The Commission shall establish by rule procedures for the imposition of remedies under subsection (a) that, at a minimum, provide for notice, hearing and a written order relating to the imposition of remedies.

(d) Unless enforcement of an order entered by the Commission under Section 13-515 otherwise directs or is stayed by the Commission or by an appellate court reviewing the Commission's order, at any time after 30 days from the entry of the order, either the Commission, or the telecommunications carrier found by the Commission to have been subjected to a violation of Section 13-514, or both, is authorized to petition a court of competent jurisdiction for an order at law or in equity requiring enforcement of the Commission order. The court shall determine (1) whether the Commission entered the order identified in the petition and (2) whether the violating telecommunications carrier has complied with the Commission's order. A certified copy of a Commission order shall be prima facie evidence that the Commission entered the order so certified. Pending the court's resolution of the petition, the court may award temporary or preliminary injunctive relief, or such other equitable relief as may be necessary, to effectively implement and enforce the Commission's order in a timely manner.

If after a hearing the court finds that the Commission entered the order identified in the petition and that the violating telecommunications carrier has not complied with the Commission's order, the court shall enter judgment requiring the violating telecommunications carrier to comply with the Commission's order and order such relief at law or in equity as the court deems necessary to effectively implement and enforce the Commission's order in a timely manner. The court shall also award to the

New matter indicated by italics - deletions by strikeout
petitioner, or petitioners, attorney's fees and costs, which shall be taxed and collected as part of the costs of the case.

If the court finds that the violating telecommunications carrier has failed to comply with the timely payment of damages, attorney's fees, or costs ordered by the Commission, the court shall order the violating telecommunications carrier to pay to the telecommunications carrier or carriers awarded the damages, fees, or costs by the Commission additional damages for the sake of example and by way of punishment for the failure to timely comply with the order of the Commission, unless the court finds a reasonable basis for the violating telecommunications carrier's failure to make timely payment according to the Commission's order, in which instance the court shall establish a new date for payment to be made.

(e) Payment of damages, attorney's fees, and costs imposed under subsection (a) shall be made within 30 days after issuance of the Commission order imposing the penalties, damages, attorney's fees, or costs, unless otherwise directed by the Commission or a reviewing court under an appeal taken pursuant to Article X. Payment of penalties imposed under subsection (a) shall be made to the Common School Fund within 30 days of issuance of the Commission order imposing the penalties.

Sec. 13-517. Provision of advanced telecommunications services.
(a) Every Incumbent Local Exchange Carrier (telecommunications carrier that offers or provides a noncompetitive telecommunications service) shall offer or provide advanced telecommunications services to not less than 80% of its customers by January 1, 2005.

(b) The Commission is authorized to grant a full or partial waiver of the requirements of this Section upon verified petition of any Incumbent Local Exchange Carrier ("ILEC") which demonstrates that full compliance with the requirements of this Section would be unduly economically burdensome or technically infeasible or otherwise impractical in exchanges with low population density. Notice of any such petition must be given to all potentially affected customers. If no potentially affected customer requests the opportunity for a hearing on the waiver petition, the Commission may, in its discretion, allow the waiver request to take effect without hearing. The Commission shall grant such petition to the extent that, and for such duration as, the Commission determines that such waiver:

(1) is necessary:

New matter indicated by italics - deletions by strikeout
(A) to avoid a significant adverse economic impact on users of telecommunications services generally;
(B) to avoid imposing a requirement that is unduly economically burdensome;
(C) to avoid imposing a requirement that is technically infeasible; or
(D) to avoid imposing a requirement that is otherwise impractical to implement in exchanges with low population density; and
(2) is consistent with the public interest, convenience, and necessity.

The Commission shall act upon any petition filed under this subsection within 180 days after receiving such petition. The Commission may by rule establish standards for granting any waiver of the requirements of this Section. The Commission may, upon complaint or on its own motion, hold a hearing to reconsider its grant of a waiver in whole or in part. In the event that the Commission, following hearing, determines that the affected ILEC no longer meets the requirements of item (2) of this subsection, the Commission shall by order rescind such waiver, in whole or in part. In the event and to the degree the Commission rescinds such waiver, the Commission shall establish an implementation schedule for compliance with the requirements of this Section.

(c) As used in this Section, "advanced telecommunications services" means services capable of supporting, in at least one direction, a speed in excess of 200 kilobits per second (kbps) to the network demarcation point at the subscriber's premises.

Sec. 13-518. Optional service packages.

(a) It is the intent of this Section to provide unlimited local service packages at prices that will result in savings for the average consumer. Each telecommunications carrier that provides competitive and noncompetitive services, and that is subject to an alternative regulation plan pursuant to Section 13-506.1 of this Article, shall provide, in addition to such other services as it offers, the following optional packages of services for a fixed monthly rate, which, along with the terms and conditions thereof, the Commission shall review, pursuant to Article IX of this Act, to determine whether such rates, terms, and conditions are fair, just, and reasonable.

(1) A budget package, which shall consist of residential access service and unlimited local calls.

(2) A flat rate package, which shall consist of residential access service, unlimited local calls, and the customer's choice of 2 vertical services as defined in this Section.

(3) An enhanced flat rate package, which shall consist of residential access service for 2 lines, unlimited local calls, the customer's choice of 2 vertical services as defined in this Section, and unlimited local toll service.

(b) Nothing in this Section or this Act shall be construed to prohibit any telecommunications carrier subject to this Section from charging customers who elect to take one of the groups of services offered pursuant to this Section, any applicable surcharges, fees, and taxes.

(c) The term "vertical services", when used in this Section, includes, but is not necessarily limited to, call waiting, call forwarding, 3-way calling, caller ID, call tracing, automatic callback, repeat dialing, and voicemail.

(d) The service packages described in this Section shall be defined as noncompetitive services.

When a telecommunications carrier initiates a discontinuance of service on a known emergency system or fire alarm system that is required by the local authority to be a dedicated phone line circuit to the central dispatch of the fire department or fire protection district or, if applicable, the police department, the telecommunications carrier shall also transmit a copy of the written notice of discontinuance to that local authority.

(220 ILCS 5/13-703) (from Ch. 111 2/3, par. 13-703)

Sec. 13-703. (a) The Commission shall design and implement a program whereby each telecommunications carrier providing local exchange service shall provide a telecommunications device capable of servicing the needs of those persons with a hearing or speech disability together with a single party line, at no charge additional to the basic exchange rate, to any subscriber who is certified as having a hearing or speech disability by a hearing care professional, as defined in the Hearing Instrument Consumer Protection Act, a speech-language pathologist, or a qualified State agency and to any subscriber which is an organization serving the needs of those persons with a hearing or speech disability as determined and specified by the Commission pursuant to subsection (d).

(b) The Commission shall design and implement a program, whereby each telecommunications carrier providing local exchange
service shall provide a telecommunications relay system, using third party intervention to connect those persons having a hearing or speech disability with persons of normal hearing by way of intercommunications devices and the telephone system, making available reasonable access to all phases of public telephone service to persons who have a hearing or speech disability. In order to design a telecommunications relay system which will meet the requirements of those persons with a hearing or speech disability available at a reasonable cost, the Commission shall initiate an investigation and conduct public hearings to determine the most cost-effective method of providing telecommunications relay service to those persons who have a hearing or speech disability when using telecommunications devices and therein solicit the advice, counsel, and physical assistance of Statewide nonprofit consumer organizations that serve persons with hearing or speech disabilities in such hearings and during the development and implementation of the system. The Commission shall phase in this program, on a geographical basis, as soon as is practicable, but no later than June 30, 1990.

(c) The Commission shall establish a competitively neutral rate recovery mechanism that establishes charges in an amount to be determined by the Commission for each line of a subscriber to allow telecommunications carriers providing local exchange service to recover costs as they are incurred under this Section. Beginning no later than April 1, 2016, and on a yearly basis thereafter, the Commission shall initiate a proceeding to establish the competitively neutral amount to be charged or assessed to subscribers of telecommunications carriers and wireless carriers, Interconnected VoIP service providers, and consumers of prepaid wireless telecommunications service in a manner consistent with this subsection (c) and subsection (f) of this Section. The Commission shall issue its order establishing the competitively neutral amount to be charged or assessed to subscribers of telecommunications carriers and wireless carriers, Interconnected VoIP service providers, and purchasers of prepaid wireless telecommunications service on or prior to June 1 of each year, and such amount shall take effect June 1 of each year.

Telecommunications carriers, wireless carriers, Interconnected VoIP service providers, and sellers of prepaid wireless telecommunications service shall have 60 days from the date the Commission files its order to implement the new rate established by the order.
(d) The Commission shall determine and specify those organizations serving the needs of those persons having a hearing or speech disability that shall receive a telecommunications device and in which offices the equipment shall be installed in the case of an organization having more than one office. For the purposes of this Section, "organizations serving the needs of those persons with hearing or speech disabilities" means centers for independent living as described in Section 12a of the Rehabilitation of Persons with Disabilities Act and not-for-profit organizations whose primary purpose is serving the needs of those persons with hearing or speech disabilities. The Commission shall direct the telecommunications carriers subject to its jurisdiction and this Section to comply with its determinations and specifications in this regard.

(e) As used in this Section:

"Prepaid wireless telecommunications service" has the meaning given to that term under Section 10 of the Prepaid Wireless 9-1-1 Surcharge Act.

"Retail transaction" has the meaning given to that term under Section 10 of the Prepaid Wireless 9-1-1 Surcharge Act.

"Seller" has the meaning given to that term under Section 10 of the Prepaid Wireless 9-1-1 Surcharge Act.

"Telecommunications carrier providing local exchange service" includes, without otherwise limiting the meaning of the term, telecommunications carriers which are purely mutual concerns, having no rates or charges for services, but paying the operating expenses by assessment upon the members of such a company and no other person.

"Wireless carrier" has the meaning given to that term under Section 210 of the Wireless Emergency Telephone System Safety Act.

(f) Interconnected VoIP service providers, sellers of prepaid wireless telecommunications service, and wireless carriers in Illinois shall collect and remit assessments determined in accordance with this Section in a competitively neutral manner in the same manner as a telecommunications carrier providing local exchange service. However, the assessment imposed on consumers of prepaid wireless telecommunications service shall be collected by the seller from the consumer and imposed per retail transaction as a percentage of that retail transaction on all retail transactions occurring in this State. The assessment on subscribers of wireless carriers and consumers of prepaid wireless telecommunications service shall not be imposed or collected prior to June 1, 2016.

New matter indicated by italics - deletions by strikeout
Sellers of prepaid wireless telecommunications service shall remit the assessments to the Department of Revenue on the same form and in the same manner which they remit the fee collected under the Prepaid Wireless 9-1-1 Surcharge Act. For the purposes of display on the consumers' receipts, the rates of the fee collected under the Prepaid Wireless 9-1-1 Surcharge Act and the assessment under this Section may be combined. In administration and enforcement of this Section, the provisions of Sections 15 and 20 of the Prepaid Wireless 9-1-1 Surcharge Act (except subsections (a), (a-5), (b-5), (e), and (e-5) of Section 15 and subsections (c) and (e) of Section 20 of the Prepaid Wireless 9-1-1 Surcharge Act and, from June 29, 2015 (the effective date of Public Act 99-6), the seller shall be permitted to deduct and retain 3% of the assessments that are collected by the seller from consumers and that are remitted and timely filed with the Department) that are not inconsistent with this Section, shall apply, as far as practicable, to the subject matter of this Section to the same extent as if those provisions were included in this Section. The Department shall deposit all assessments and penalties collected under this Section into the Illinois Telecommunications Access Corporation Fund, a special fund created in the State treasury. On or before the 25th day of each calendar month, the Department shall prepare and certify to the Comptroller the amount available to the Commission for distribution out of the Illinois Telecommunications Access Corporation Fund. The amount certified shall be the amount (not including credit memoranda) collected during the second preceding calendar month by the Department, plus an amount the Department determines is necessary to offset any amounts which were erroneously paid to a different taxing body or fund. The amount paid to the Illinois Telecommunications Access Corporation Fund shall not include any amount equal to the amount of refunds made during the second preceding calendar month by the Department to retailers under this Section or any amount that the Department determines is necessary to offset any amounts which were payable to a different taxing body or fund but were erroneously paid to the Illinois Telecommunications Access Corporation Fund. The Commission shall distribute all the funds to the Illinois Telecommunications Access Corporation and the funds may only be used in accordance with the provisions of this Section. The Department shall deduct 2% of all amounts deposited in the Illinois Telecommunications Access Corporation Fund during every year of remitted assessments. Of the 2% deducted by the Department, one-half shall be transferred into the Tax Compliance and...
Administration Fund to reimburse the Department for its direct costs of administering the collection and remittance of the assessment. The remaining one-half shall be transferred into the Public Utility Fund to reimburse the Commission for its costs of distributing to the Illinois Telecommunications Access Corporation the amount certified by the Department for distribution. The amount to be charged or assessed under subsections (c) and (f) is not imposed on a provider or the consumer for wireless Lifeline service where the consumer does not pay the provider for the service. Where the consumer purchases from the provider optional minutes, texts, or other services in addition to the federally funded Lifeline benefit, a consumer must pay the charge or assessment, and it must be collected by the seller according to this subsection (f).

Interconnected VoIP services shall not be considered an intrastate telecommunications service for the purposes of this Section in a manner inconsistent with federal law or Federal Communications Commission regulation.

(g) The provisions of this Section are severable under Section 1.31 of the Statute on Statutes.

(h) The Commission may adopt rules necessary to implement this Section.

assigned to any telecommunication device for the deaf in use within the geographic area of coverage for the directory, unless the telephone company is notified by the telecommunication device subscriber that the subscriber does not wish the TDD number to be listed in the directory. Such listing shall include, but is not limited to, residential, commercial and governmental numbers with telecommunication device access and shall include a designation if the device is for print or display communication only or if it also accommodates voice transmission. In addition to the aforementioned requirements each telephone directory so distributed shall also contain a listing of any city and county emergency services and any police telecommunication device for the deaf calling numbers in the coverage area within this State which is included in the directory as well as the listing of the Illinois State Police emergency telecommunication device for the deaf calling number in Springfield. This emergency numbers listing shall be preceded by the words "Emergency Assistance for Deaf Persons" which shall be as legible and printed in the same size as all other emergency subheadings on the page; provided, that the provisions of this Section do not apply to those directories distributed solely for business advertising purposes, commonly known as classified directories.

(b) Upon receiving notification from the Department of Public Health that a telecommunications carrier has failed to comply with an order of correction, the Illinois Commerce Commission shall enforce the order.

Sec. 13-712. Basic local exchange service quality; customer credits.
(a) It is the intent of the General Assembly that every telecommunications carrier meet minimum service quality standards in providing noncompetitive basic local exchange service on a non-discriminatory basis to all classes of customers.

(b) Definitions:
(1) (Blank).
(2) "Basic local exchange service" means residential and business lines used for local exchange telecommunications service as defined in Section 13-204 of this Act, that have not been classified as competitive pursuant to either Section 13-502 or subdivision (c)(5) of Section 13-506.2 of this Act, excluding:
   (A) services that employ advanced telecommunications capability as defined in Section 706(c)(1) of the federal Telecommunications Act of 1996;
   (B) vertical services;
   (C) company official lines; and
   (D) records work only.
(3) "Link Up" refers to the Link Up Assistance program defined and established at 47 C.F.R. Section 54.411 et seq. as amended.
(c) The Commission shall promulgate service quality rules for basic local exchange service, which may include fines, penalties, customer credits, and other enforcement mechanisms. In developing such service quality rules, the Commission shall consider, at a minimum, the carrier's gross annual intrastate revenue; the frequency, duration, and recurrence of the violation; and the relative harm caused to the affected customer or other users of the network. In imposing fines, the Commission shall take into account compensation or credits paid by the telecommunications carrier to its customers pursuant to this Section in compensation for the violation found pursuant to this Section. These rules shall become effective within one year after the effective date of this amendatory Act of the 92nd General Assembly.

(d) The rules shall, at a minimum, require each telecommunications carrier to do all of the following:

1. Install basic local exchange service within 5 business days after receipt of an order from the customer unless the customer requests an installation date that is beyond 5 business days after placing the order for basic service and to inform the customer of its duty to install service within this timeframe. If installation of service is requested on or by a date more than 5 business days in the future, the telecommunications carrier shall install service by the date requested. A telecommunications carrier offering basic local exchange service utilizing the network or network elements of another carrier shall install new lines for basic local exchange service within 3 business days after provisioning of the line or lines by the carrier whose network or network elements are being utilized is complete. This subdivision (d)(1) does not apply to the migration of a customer between telecommunications carriers, so long as the customer maintains dial tone.

2. Restore basic local exchange service for a customer within 30 hours of receiving notice that a customer is out of service. This provision applies to service disruptions that occur when a customer switches existing basic local exchange service from one carrier to another.

3. Keep all repair and installation appointments for basic local exchange service, when a customer premises visit requires a customer to be present.

4. Inform a customer when a repair or installation appointment requires the customer to be present.
(e) The rules shall include provisions for customers to be credited by the telecommunications carrier for violations of basic local exchange service quality standards as described in subsection (d). The credits shall be applied on the statement issued to the customer for the next monthly billing cycle following the violation or following the discovery of the violation. The performance levels established in subsection (c) are solely for the purposes of consumer credits and shall not be used as performance levels for the purposes of assessing penalties under Section 13-305. At a minimum, the rules shall include the following:

(1) If a carrier fails to repair an out-of-service condition for basic local exchange service within 30 hours, the carrier shall provide a credit to the customer. If the service disruption is for over 30 hours but less than 48 hours, the credit must be equal to a pro-rata portion of the monthly recurring charges for all local services disrupted. If the service disruption is for more than 48 hours, but not more than 72 hours, the credit must be equal to at least 33% of one month's recurring charges for all local services disrupted. If the service disruption is for more than 72 hours, but not more than 96 hours, the credit must be equal to at least 67% of one month's recurring charges for all local services disrupted. If the service disruption is for more than 96 hours, but not more than 120 hours, the credit must be equal to one month's recurring charges for all local services disrupted. For each day or portion thereof that the service disruption continues beyond the initial 120-hour period, the carrier shall also provide an additional credit of $20 per day.

(2) If a carrier fails to install basic local exchange service as required under subdivision (d)(1), the carrier shall waive 50% of any installation charges, or in the absence of an installation charge or where installation is pursuant to the Link Up program, the carrier shall provide a credit of $25. If a carrier fails to install service within 10 business days after the service application is placed, or fails to install service within 5 business days after the customer's requested installation date, if the requested date was more than 5 business days after the date of the order, the carrier shall waive 100% of the installation charge, or in the absence of an installation charge or where installation is provided pursuant to the Link Up program, the carrier shall provide a credit of $50. For each day that the failure to install service continues beyond the initial 10 business days, or beyond 5 business days after the customer's
requested installation date, if the requested date was more than 5 business days after the date of the order, the carrier shall also provide an additional credit of $20 per day until service is installed.

(3) If a carrier fails to keep a scheduled repair or installation appointment when a customer premises visit requires a customer to be present, the carrier shall credit the customer $25 per missed appointment. A credit required by this subsection does not apply when the carrier provides the customer notice of its inability to keep the appointment no later than 8 p.m. of the day prior to the scheduled date of the appointment.

(4) If the violation of a basic local exchange service quality standard is caused by a carrier other than the carrier providing retail service to the customer, the carrier providing retail service to the customer shall credit the customer as provided in this Section. The carrier causing the violation shall reimburse the carrier providing retail service the amount credited the customer. When applicable, an interconnection agreement shall govern compensation between the carrier causing the violation, in whole or in part, and the retail carrier providing the credit to the customer.

(5) (Blank).

(6) Credits required by this subsection do not apply if the violation of a service quality standard:
   (i) occurs as a result of a negligent or willful act on the part of the customer;
   (ii) occurs as a result of a malfunction of customer-owned telephone equipment or inside wiring;
   (iii) occurs as a result of, or is extended by, an emergency situation as defined in Commission rules;
   (iv) is extended by the carrier's inability to gain access to the customer's premises due to the customer missing an appointment, provided that the violation is not further extended by the carrier;
   (v) occurs as a result of a customer request to change the scheduled appointment, provided that the violation is not further extended by the carrier;
   (vi) occurs as a result of a carrier's right to refuse service to a customer as provided in Commission rules; or
   (vii) occurs as a result of a lack of facilities where a customer requests service at a geographically remote

location, a customer requests service in a geographic area where the carrier is not currently offering service, or there are insufficient facilities to meet the customer's request for service, subject to a carrier's obligation for reasonable facilities planning.

(7) The provisions of this subsection are cumulative and shall not in any way diminish or replace other civil or administrative remedies available to a customer or a class of customers.

(f) The rules shall require each telecommunications carrier to provide to the Commission, on a quarterly basis and in a form suitable for posting on the Commission's website, a public report that includes performance data for basic local exchange service quality of service. The performance data shall be disaggregated for each geographic area and each customer class of the State for which the telecommunications carrier internally monitored performance data as of a date 120 days preceding the effective date of this amendatory Act of the 92nd General Assembly. The report shall include, at a minimum, performance data on basic local exchange service installations, lines out of service for more than 30 hours, carrier response to customer calls, trouble reports, and missed repair and installation commitments.

(g) The Commission shall establish and implement carrier to carrier wholesale service quality rules and establish remedies to ensure enforcement of the rules.

Sec. 13-713. Consumer complaint resolution process.

(a) It is the intent of the General Assembly that consumer complaints against telecommunications carriers shall be concluded as expeditiously as possible consistent with the rights of the parties thereto to the due process of law and protection of the public interest.

(b) The Commission shall promulgate rules that permit parties to resolve disputes through mediation. A consumer may request mediation upon completion of the Commission's informal complaint process and prior to the initiation of a formal complaint as described in Commission rules.

(c) A residential consumer or business consumer with fewer than 20 lines shall have the right to request mediation for resolution of a dispute.
with a telecommunications carrier. The carrier shall be required to participate in mediation at the consumer's request.

(d) The Commission may retain the services of an independent neutral mediator or trained Commission staff to facilitate resolution of the consumer dispute. The mediation process must be completed no later than 45 days after the consumer requests mediation.

(e) If the parties reach agreement, the agreement shall be reduced to writing at the conclusion of the mediation. The writing shall contain mutual conditions, payment arrangements, or other terms that resolve the dispute in its entirety. If the parties are unable to reach agreement or after 45 days, whichever occurs first, the consumer may file a formal complaint with the Commission as described in Commission rules.

(f) If either the consumer or the carrier fails to abide by the terms of the settlement agreement, either party may exercise any rights it may have as specified in the terms of the agreement or as provided in Commission rules.

(g) All notes, writings and settlement discussions related to the mediation shall be exempt from discovery and shall be inadmissible in any agency or court proceeding.

Sec. 13-801. Incumbent local exchange carrier obligations.

(a) This Section provides additional State requirements contemplated by, but not inconsistent with, Section 261(c) of the federal Telecommunications Act of 1996, and not preempted by orders of the Federal Communications Commission. A telecommunications carrier not subject to regulation under an alternative regulation plan pursuant to Section 13-506.1 of this Act shall not be subject to the provisions of this Section, to the extent that this Section imposes requirements or obligations upon the telecommunications carrier that exceed or are more stringent than those obligations imposed by Section 251 of the federal Telecommunications Act of 1996 and regulations promulgated thereunder.

An incumbent local exchange carrier shall provide a requesting telecommunications carrier with interconnection, collocation, network elements, and access to operations support systems on just, reasonable, and nondiscriminatory rates, terms, and conditions to enable the provision of any and all existing and new telecommunications services within the LATA, including, but not limited to, local exchange and exchange access. The Commission shall require the incumbent local exchange carrier to

provide interconnection, collocation, and network elements in any manner technically feasible to the fullest extent possible to implement the maximum development of competitive telecommunications services offerings. As used in this Section, to the extent that interconnection, collocation, or network elements have been deployed for or by the incumbent local exchange carrier or one of its wireline local exchange affiliates in any jurisdiction, it shall be presumed that such is technically feasible in Illinois.

(b) Interconnection.

(1) An incumbent local exchange carrier shall provide for the facilities and equipment of any requesting telecommunications carrier's interconnection with the incumbent local exchange carrier's network on just, reasonable, and nondiscriminatory rates, terms, and conditions:

(A) for the transmission and routing of local exchange, and exchange access telecommunications services;

(B) at any technically feasible point within the incumbent local exchange carrier's network; however, the incumbent local exchange carrier may not require the requesting carrier to interconnect at more than one technically feasible point within a LATA; and

(C) that is at least equal in quality and functionality to that provided by the incumbent local exchange carrier to itself or to any subsidiary, affiliate, or any other party to which the incumbent local exchange carrier provides interconnection.

(2) An incumbent local exchange carrier shall make available to any requesting telecommunications carrier, to the extent technically feasible, those services, facilities, or interconnection agreements or arrangements that the incumbent local exchange carrier or any of its incumbent local exchange subsidiaries or affiliates offers in another state under the terms and conditions, but not the stated rates, negotiated pursuant to Section 252 of the federal Telecommunications Act of 1996. Rates shall be established in accordance with the requirements of subsection (g) of this Section. An incumbent local exchange carrier shall also make available to any requesting telecommunications carrier, to the extent technically feasible, and subject to the unbundling

New matter indicated by italics - deletions by strikeout
provisions of Section 251(d)(2) of the federal Telecommunications Act of 1996, those unbundled network element or interconnection agreements or arrangements that a local exchange carrier affiliate of the incumbent local exchange carrier obtains in another state from the incumbent local exchange carrier in that state, under the terms and conditions, but not the stated rates, obtained through negotiation, or through an arbitration initiated by the affiliate, pursuant to Section 252 of the federal Telecommunications Act of 1996. Rates shall be established in accordance with the requirements of subsection (g) of this Section.

(c) Collocation. An incumbent local exchange carrier shall provide for physical or virtual collocation of any type of equipment for interconnection or access to network elements at the premises of the incumbent local exchange carrier on just, reasonable, and nondiscriminatory rates, terms, and conditions. The equipment shall include, but is not limited to, optical transmission equipment, multiplexers, remote switching modules, and cross-connects between the facilities or equipment of other collocated carriers. The equipment shall also include microwave transmission facilities on the exterior and interior of the incumbent local exchange carrier's premises used for interconnection to, or for access to network elements of, the incumbent local exchange carrier or a collocated carrier, unless the incumbent local exchange carrier demonstrates to the Commission that it is not practical due to technical reasons or space limitations. An incumbent local exchange carrier shall allow, and provide for, the most reasonably direct and efficient cross-connects, that are consistent with safety and network reliability standards, between the facilities of collocated carriers. An incumbent local exchange carrier shall also allow, and provide for, cross connects between a noncollocated telecommunications carrier's network elements platform, or a noncollocated telecommunications carrier's transport facilities, and the facilities of any collocated carrier, consistent with safety and network reliability standards.

(d) Network elements. The incumbent local exchange carrier shall provide to any requesting telecommunications carrier, for the provision of an existing or a new telecommunications service, nondiscriminatory access to network elements on any unbundled or bundled basis, as requested, at any technically feasible point on just, reasonable, and nondiscriminatory rates, terms, and conditions.

New matter indicated by italics - deletions by strikeout
(1) An incumbent local exchange carrier shall provide unbundled network elements in a manner that allows requesting telecommunications carriers to combine those network elements to provide a telecommunications service.

(2) An incumbent local exchange carrier shall not separate network elements that are currently combined, except at the explicit direction of the requesting carrier.

(3) Upon request, an incumbent local exchange carrier shall combine any sequence of unbundled network elements that it ordinarily combines for itself, including but not limited to, unbundled network elements identified in The Draft of the Proposed Ameritech Illinois 271 Amendment (I2A) found in Schedule SJA-4 attached to Exhibit 3.1 filed by Illinois Bell Telephone Company on or about March 28, 2001 with the Illinois Commerce Commission under Illinois Commerce Commission Docket Number 00-0700. The Commission shall determine those network elements the incumbent local exchange carrier ordinarily combines for itself if there is a dispute between the incumbent local exchange carrier and the requesting telecommunications carrier under this subdivision of this Section of this Act.

The incumbent local exchange carrier shall be entitled to recover from the requesting telecommunications carrier any just and reasonable special construction costs incurred in combining such unbundled network elements (i) if such costs are not already included in the established price of providing the network elements, (ii) if the incumbent local exchange carrier charges such costs to its retail telecommunications end users, and (iii) if fully disclosed in advance to the requesting telecommunications carrier. The Commission shall determine whether the incumbent local exchange carrier is entitled to any special construction costs if there is a dispute between the incumbent local exchange carrier and the requesting telecommunications carrier under this subdivision of this Section of this Act.

(4) A telecommunications carrier may use a network elements platform consisting solely of combined network elements of the incumbent local exchange carrier to provide end to end telecommunications service for the provision of existing and new local exchange, interexchange that includes local, local toll, and intraLATA toll, and exchange access telecommunications services

New matter indicated by italics - deletions by strikeout
within the LATA to its end users or payphone service providers without the requesting telecommunications carrier's provision or use of any other facilities or functionalities.

(5) The Commission shall establish maximum time periods for the incumbent local exchange carrier's provision of network elements. The maximum time period shall be no longer than the time period for the incumbent local exchange carrier's provision of comparable retail telecommunications services utilizing those network elements. The Commission may establish a maximum time period for a particular network element that is shorter than for a comparable retail telecommunications service offered by the incumbent local exchange carrier if a requesting telecommunications carrier establishes that it shall perform other functions or activities after receipt of the particular network element to provide telecommunications services to end users. The burden of proof for establishing a maximum time period for a particular network element that is shorter than for a comparable retail telecommunications service offered by the incumbent local exchange carrier shall be on the requesting telecommunications carrier. Notwithstanding any other provision of this Article, unless and until the Commission establishes by rule or order a different specific maximum time interval, the maximum time intervals shall not exceed 5 business days for the provision of unbundled loops, both digital and analog, 10 business days for the conditioning of unbundled loops or for existing combinations of network elements for an end user that has existing local exchange telecommunications service, and one business day for the provision of the high frequency portion of the loop (line-sharing) for at least 95% of the requests of each requesting telecommunications carrier for each month.

In measuring the incumbent local exchange carrier's actual performance, the Commission shall ensure that occurrences beyond the control of the incumbent local exchange carrier that adversely affect the incumbent local exchange carrier's performance are excluded when determining actual performance levels. Such occurrences shall be determined by the Commission, but at a minimum must include work stoppage or other labor actions and acts of war. Exclusions shall also be made for performance that is governed by agreements approved by the Commission and

New matter indicated by italics - deletions by strikeout
containing timeframes for the same or similar measures or for when a requesting telecommunications carrier requests a longer time interval.

(6) When a telecommunications carrier requests a network elements platform referred to in subdivision (d)(4) of this Section, without the need for field work outside of the central office, for an end user that has existing local exchange telecommunications service provided by an incumbent local exchange carrier, or by another telecommunications carrier through the incumbent local exchange carrier's network elements platform, unless otherwise agreed by the telecommunications carriers, the incumbent local exchange carrier shall provide the requesting telecommunications carrier with the requested network elements platform within 3 business days for at least 95% of the requests for each requesting telecommunications carrier for each month. A requesting telecommunications carrier may order the network elements platform as is for an end user that has such existing local exchange service without changing any of the features previously selected by the end user. The incumbent local exchange carrier shall provide the requested network elements platform without any disruption to the end user's services.

Absent a contrary agreement between the telecommunications carriers entered into after the effective date of this amendatory Act of the 92nd General Assembly, as of 12:01 a.m. on the third business day after placing the order for a network elements platform, the requesting telecommunications carrier shall be the presubscribed primary local exchange carrier for that end user line and shall be entitled to receive, or to direct the disposition of, all revenues for all services utilizing the network elements in the platform, unless it is established that the end user of the existing local exchange service did not authorize the requesting telecommunications carrier to make the request.

(e) Operations support systems. The Commission shall establish minimum standards with just, reasonable, and nondiscriminatory rates, terms, and conditions for the preordering, ordering, provisioning, maintenance and repair, and billing functions of the incumbent local exchange carrier's operations support systems provided to other telecommunications carriers.

New matter indicated by italics - deletions by strikeout
(f) Resale. An incumbent local exchange carrier shall offer all retail telecommunications services, that the incumbent local exchange carrier provides at retail to subscribers who are not telecommunications carriers, within the LATA, together with each applicable optional feature or functionality, subject to resale at wholesale rates without imposing any unreasonable or discriminatory conditions or limitations. Wholesale rates shall be based on the retail rates charged to end users for the telecommunications service requested, excluding the portion thereof attributable to any marketing, billing, collection, and other costs avoided by the local exchange carrier. The Commission may determine under Article IX of this Act that certain noncompetitive services, together with each applicable optional feature or functionality, that are offered to residence customers under different rates, charges, terms, or conditions than to other customers should not be subject to resale under the rates, charges, terms, or conditions available only to residence customers.

(g) Cost based rates. Interconnection, collocation, network elements, and operations support systems shall be provided by the incumbent local exchange carrier to requesting telecommunications carriers at cost based rates. The immediate implementation and provisioning of interconnection, collocation, network elements, and operations support systems shall not be delayed due to any lack of determination by the Commission as to the cost based rates. When cost based rates have not been established, within 30 days after the filing of a petition for the setting of interim rates, or after the Commission's own motion, the Commission shall provide for interim rates that shall remain in full force and effect until the cost based rate determination is made, or the interim rate is modified, by the Commission.

(h) Rural exemption. This Section does not apply to certain rural telephone companies as described in 47 U.S.C. 251(f).

(i) Schedule of rates. A telecommunications carrier may request the incumbent local exchange carrier to provide a schedule of rates listing each of the rate elements of the incumbent local exchange carrier that pertains to a proposed order identified by the requesting telecommunications carrier for any of the matters covered in this Section. The incumbent local exchange carrier shall deliver the requested schedule of rates to the requesting telecommunications carrier within 2 business days for 95% of the requests for each requesting carrier.

(j) Special access circuits. Other than as provided in subdivision (d)(4) of this Section for the network elements platform described in that

New matter indicated by italics - deletions by strikeout
subdivision, nothing in this amendatory Act of the 92nd General Assembly is intended to require or prohibit the substitution of switched or special access services by or with a combination of network elements nor address the Illinois Commerce Commission's jurisdiction or authority in this area.

(k) The Commission shall determine any matters in dispute between the incumbent local exchange carrier and the requesting carrier pursuant to Section 13-515 of this Act.

Sec. 13-802.1. Depreciation; examination and audit; agreement conditions; federal Telecommunications Act of 1996.

(a) In performing any cost analysis authorized pursuant to this Act, the Commission may ascertain and determine and by order fix the proper and adequate rate of depreciation of the property for a telecommunications carrier for the purpose of such cost analysis.

(b) The Commission may provide for the examination and audit of all accounts. Items subject to the Commission's regulatory requirements shall be so allocated in the manner prescribed by the Commission. The officers and employees of the Commission shall have the authority under the direction of the Commission to inspect and examine any and all books, accounts, papers, records, and memoranda kept by the telecommunications carrier.

(c) The Commission is authorized to adopt rules and regulations concerning the conditions to be contained in and become a part of contracts for noncompetitive telecommunications services in a manner consistent with this Act and federal law.

(d) The Commission shall have the authority to, and shall engage in, all state regulatory actions needed to implement and enforce the federal Telecommunications Act of 1996 consistent with federal law, including, but not limited to, the negotiation, arbitration, implementation, resolution of disputes and enforcement of interconnection agreements arising under Sections 251 and 252 of the federal Telecommunications Act of 1996.

Sec. 13-804. Broadband investment. Increased investment into broadband infrastructure is critical to the economic development of this State and a key component to the retention of existing jobs and the creation of new jobs. The removal of regulatory uncertainty will attract
greater private-sector investment in broadband infrastructure. Notwithstanding other provisions of this Article:

(A) the Commission shall have the authority to certify providers of wireless services, including, but not limited to, private radio service, public mobile service, or commercial mobile service, as those terms are defined in 47 U.S.C. 332 on the effective date of this amendatory Act of the 96th General Assembly or as amended thereafter, to provide telecommunications services in Illinois;

(B) the Commission shall have the authority to certify providers of wireless services, including, but not limited to, private radio service, public mobile service, or commercial mobile service, as those terms are defined in 47 U.S.C. 332 on the effective date of this amendatory Act of the 96th General Assembly or as amended thereafter, as eligible telecommunications carriers in Illinois, as that term has the meaning prescribed in 47 U.S.C. 214 on the effective date of this amendatory Act of the 96th General Assembly or as amended thereafter;

(C) the Commission shall have the authority to register providers of fixed or non-nomadic Interconnected VoIP service as Interconnected VoIP service providers in Illinois in accordance with Section 401.1 of this Article;

(D) the Commission shall have the authority to require providers of Interconnected VoIP service to participate in hearing and speech disability programs; and

(E) the Commission shall have the authority to access information provided to the non-profit organization under Section 20 of the High Speed Internet Services and Information Technology Act, provided the Commission enters into a proprietary and confidentiality agreement governing such information.

Except to the extent expressly permitted by and consistent with federal law, the regulations of the Federal Communications Commission, this Article, Article XXI or XXII of this Act, or this amendatory Act of the 96th General Assembly, the Commission shall not regulate the rates, terms, conditions, quality of service, availability, classification, or any other aspect of service regarding (i) broadband services, (ii) Interconnected VoIP services, (iii) information services, as defined in 47 U.S.C. 153(20) on the effective date of this amendatory Act of the 96th General Assembly or as amended thereafter, or (iv) wireless services, including, but not

(a) The General Assembly finds that it is necessary to require the certification of 9-1-1 system providers to ensure the safety of the lives and property of Illinoisans and Illinois businesses, and to otherwise protect and promote the public safety, health, and welfare of the citizens of this State and their property.

(b) For purposes of this Section:

"9-1-1 system" has the same meaning as that term is defined in Section 2.19 of the Emergency Telephone System Act.

"Emergency Telephone System Board" has the same meaning as that term is defined in Sections 2.11 and 15.4 of the Emergency Telephone System Act.

"Public safety agency personnel" means personnel employed by a public safety agency, as that term is defined in Section 2.02 of the Emergency Telephone System Act, whose responsibilities include responding to requests for emergency services.

The Commission shall approve an application for a Certificate of 9-1-1 System Provider Authority.
Authority upon a showing by the applicant, and a finding by the Commission, after notice and hearing, that the applicant possesses sufficient technical, financial, and managerial resources and abilities to provide network service and database services that it seeks authority to provide in its application for service authority, in a safe, continuous, and uninterrupted manner.

(d) No incumbent local exchange carrier that provides, as of the effective date of this amendatory Act of the 96th General Assembly, any 9-1-1 network and 9-1-1 database service used or intended to be used by any Emergency Telephone System Board or 9-1-1 system, shall be required to obtain a Certificate of 9-1-1 System Provider Authority under this Section. No entity that possesses, as of the effective date of this amendatory Act of the 96th General Assembly, a Certificate of Service Authority and provides 9-1-1 network and 9-1-1 database services to any incumbent local exchange carrier as of the effective date of this amendatory Act of the 96th General Assembly shall be required to obtain a Certificate of 9-1-1 System Provider Authority under this Section.

(e) Any and all enforcement authority granted to the Commission under this Section shall apply exclusively to 9-1-1 system providers granted a Certificate of Service Authority under this Section and shall not apply to incumbent local exchange carriers that are providing 9-1-1 service as of the effective date of this amendatory Act of the 96th General Assembly.

New matter indicated by italics - deletions by strikeout
(a) This Section shall apply to switched access rates charged by all carriers other than Electing Providers whose switched access rates are governed by subsection (g) of Section 13-506.2 of this Act.

(b) Except as otherwise provided in subsection (c) of this Section, the rates of any telecommunications carrier, including, but not limited to, competitive local exchange carriers, providing intrastate switched access service shall be reduced to rates no higher than the carrier's rates for interstate switched access service as follows:

   (1) by January 1, 2011, each telecommunications carrier must reduce its intrastate switched access rates by an amount equal to 50% of the difference between its then current intrastate switched access rates and its then current interstate switched access rates;

   (2) by January 1, 2012, each telecommunications carrier must further reduce its intrastate switched access rates by an amount equal to 50% of the difference between its then current intrastate switched access rates and its then current interstate switched access rates;

   (3) by July 1, 2012, each telecommunications carrier must reduce its intrastate switched access rates to mirror its then current interstate switched access rates and rate structure.

Following 24 months after the effective date of this amendatory Act of the 96th General Assembly, each telecommunications carrier must continue to set its intrastate switched access rates to mirror its interstate switched access rates and rate structure. For purposes of this Section, the rate for intrastate switched access service means the composite, per-minute rate for that service, including all applicable fixed and traffic-sensitive charges, including, but not limited to, carrier common line charges.

(c) Subsection (b) of this Section shall not apply to incumbent local exchange carriers serving 35,000 or fewer access lines.

(d) Nothing in subsection (b) of this Section prohibits a telecommunications carrier from electing to offer intrastate switched access service at rates lower than its interstate rates.

(e) The Commission shall have no authority to order a telecommunications carrier to set its rates for intrastate switched access at a level lower than its interstate switched access rates.

(a) For purposes of this Section, "Regional Pilot Project" to implement next generation 9-1-1 has the same meaning as that term is defined in Section 2.22 of the Emergency Telephone System Act.

(b) For the limited purpose of a Regional Pilot Project to implement next generation 9-1-1, as defined in Section 13-900 of this Article, the Commission may forbear from applying any rule or provision of Section 13-900 as it applies to implementation of the Regional Pilot Project to implement next generation 9-1-1 if the Commission determines, after notice and hearing, that: (1) enforcement of the rule is not necessary to ensure the development and improvement of emergency communication procedures and facilities in such a manner as to be able to quickly respond to any person requesting 9-1-1 services from police, fire, medical, rescue, and other emergency services; (2) enforcement of the rule or provision is not necessary for the protection of consumers; and (3) forbearance from applying such provisions or rules is consistent with the public interest. The Commission may exercise such forbearance with respect to one, and only one, Regional Pilot Project as authorized by Sections 10 and 11 of the Emergency Telephone Systems Act to implement next generation 9-1-1.

Sec. 13-901. Operator Service Provider.
(a) For the purposes of this Section:

(1) "Operator service provider" means every telecommunications carrier that provides operator services or any other person or entity that the Commission determines is providing operator services.

(2) "Aggregator" means any person or entity that is not an operator service provider and that in the ordinary course of its operations makes telephones available to the public or to transient users of its premises including, but not limited to, a hotel, motel, hospital, or university for telephone calls between points within this State that are specified by the user using an operator service provider.

(3) "Operator services" means any telecommunications service that includes, as a component, any automatic or live assistance to a consumer to arrange for billing or completion, or both, of a telephone call between points within this State that are specified by the user through a method other than:

New matter indicated by italics - deletions by strikeout
(A) automatic completion with billing to the telephone from which the call originated;
(B) completion through an access code or a proprietary account number used by the consumer, with billing to an account previously established with the carrier by the consumer; or
(C) completion in association with directory assistance services.

(b) The Commission shall, by rule or order, adopt and enforce operating requirements for the provision of operator-assisted services. The rules shall apply to operator service providers and to aggregators. The rules shall be compatible with the rules adopted by the Federal Communications Commission under the federal Telephone Operator Consumer Services Improvement Act of 1990. These requirements shall address, but not necessarily be limited to, the following:

1. oral and written notification of the identity of the operator service provider and the availability of information regarding operator service provider rates, collection methods, and complaint resolution methods;
2. restrictions on billing and charges for operator services;
3. restrictions on "call splashing" as that term is defined in 47 C.F.R. Section 64.708;
4. access to other telecommunications carriers by the use of access codes including, but not limited to 800, 888, 950, and 10XXX numbers;
5. the appropriate routing and handling of emergency calls;
6. the enforcement of these rules through tariffs for operator services and by a requirement that operator service providers withhold payment of compensation to aggregators that have been found to be noncomplying by the Commission.

(c) The Commission shall adopt any rule necessary to make rules previously adopted under this Section compatible with the rules of the Federal Communications Commission no later than one year after the effective date of this amendatory Act of 1993.

(d) A violation of any rule adopted by the Commission under subsection (b) is a business offense subject to a fine of not less than $1,000 nor more than $5,000. In addition, the Commission may, after notice and hearing, order any telecommunications carrier to terminate service to any aggregator found to have violated any rule.

Sec. 13-902. Authorization and verification of a subscriber's change in telecommunications carrier.

(a) Definitions; scope.

(1) "Submitting carrier" means any telecommunications carrier that requests on behalf of a subscriber that the subscriber's telecommunications carrier be changed and seeks to provide retail services to the end user subscriber.

(2) "Executing carrier" means any telecommunications carrier that effects a request that a subscriber's telecommunications carrier be changed.

(3) "Authorized carrier" means any telecommunications carrier that submits a change, on behalf of a subscriber, in the subscriber's selection of a provider of telecommunications service with the subscriber's authorization verified in accordance with the procedures specified in this Section.

(4) "Unauthorized carrier" means any telecommunications carrier that submits a change, on behalf of a subscriber, in the subscriber's selection of a provider of telecommunications service but fails to obtain the subscriber's authorization verified in accordance with the procedures specified in this Section.

(5) "Unauthorized change" means a change in a subscriber's selection of a provider of telecommunications service that was made without authorization verified in accordance with the verification procedures specified in this Section.

(6) "Subscriber" means:

(A) the party identified in the account records of a common carrier as responsible for payment of the telephone bill;

(B) any adult person authorized by such party to change telecommunications services or to charge services to the account; or

(C) any person contractually or otherwise lawfully authorized to represent such party.

This Section does not apply to retail business subscribers served by more than 20 lines.

(b) Authorization from the subscriber. "Authorization" means an express, affirmative act by a subscriber agreeing to the change in the

New matter indicated by italics - deletions by strikeout
subscriber's telecommunications carrier to another carrier. A subscriber's telecommunications service shall be provided by the telecommunications carrier selected by the subscriber.

(c) Authorization and verification of orders for telecommunications service.

(1) No telecommunications carrier shall submit or execute a change on behalf of a subscriber in the subscriber's selection of a provider of telecommunications service except in accordance with the procedures prescribed in this subsection.

(2) No submitting carrier shall submit a change on the behalf of a subscriber in the subscriber's selection of a provider of telecommunications service prior to obtaining:

(A) authorization from the subscriber; and

(B) verification of that authorization in accordance with the procedures prescribed in this Section.

The submitting carrier shall maintain and preserve records of verification of subscriber authorization for a minimum period of 2 years after obtaining such verification.

(3) An executing carrier shall not verify the submission of a change in a subscriber's selection of a provider of telecommunications service received from a submitting carrier. For an executing carrier, compliance with the procedures described in this Section shall be defined as prompt execution, without any unreasonable delay, of changes that have been verified by a submitting carrier.

(4) Commercial mobile radio services (CMRS) providers shall be excluded from the verification requirements of this Section as long as they are not required to provide equal access to common carriers for the provision of telephone toll services, in accordance with 47 U.S.C. 332(c)(8).

(5) Where a telecommunications carrier is selling more than one type of telecommunications service (e.g., local exchange, intraLATA/intrastate toll, interLATA/interstate toll, and international toll), that carrier must obtain separate authorization from the subscriber for each service sold, although the authorizations may be made within the same solicitation. Each authorization must be verified separately from any other authorizations obtained in the same solicitation. Each authorization

must be verified in accordance with the verification procedures prescribed in this Section.

(6) No telecommunications carrier shall submit a preferred carrier change order unless and until the order has been confirmed in accordance with one of the following procedures:

(A) The telecommunications carrier has obtained the subscriber's written or electronically signed authorization in a form that meets the requirements of subsection (d).

(B) The telecommunications carrier has obtained the subscriber's electronic authorization to submit the preferred carrier change order. Such authorization must be placed from the telephone number or numbers on which the preferred carrier is to be changed and must confirm the information in subsections (b) and (c) of this Section. Telecommunications carriers electing to confirm sales electronically shall establish one or more toll-free telephone numbers exclusively for that purpose. Calls to the toll-free telephone numbers must connect a subscriber to a voice response unit, or similar mechanism, that records the required information regarding the preferred carrier change, including automatically recording the originating automatic number identification.

(C) An appropriately qualified independent third party has obtained, in accordance with the procedures set forth in paragraphs (7) through (10) of this subsection, the subscriber's oral authorization to submit the preferred carrier change order that confirms and includes appropriate verification data. The independent third party must not be owned, managed, controlled, or directed by the carrier or the carrier's marketing agent; must not have any financial incentive to confirm preferred carrier change orders for the carrier or the carrier's marketing agent; and must operate in a location physically separate from the carrier or the carrier's marketing agent.

(7) Methods of third party verification. Automated third party verification systems and three-way conference calls may be used for verification purposes so long as the requirements of paragraphs (8) through (10) of this subsection are satisfied.

New matter indicated by italics - deletions by strikeout
(8) Carrier initiation of third party verification. A carrier or a carrier's sales representative initiating a three-way conference call or a call through an automated verification system must drop off the call once the three-way connection has been established.

(9) Requirements for content and format of third party verification. All third party verification methods shall elicit, at a minimum, the identity of the subscriber; confirmation that the person on the call is authorized to make the carrier change; confirmation that the person on the call wants to make the carrier change; the names of the carriers affected by the change; the telephone numbers to be switched; and the types of service involved. Third party verifiers may not market the carrier's services by providing additional information, including information regarding preferred carrier freeze procedures.

(10) Other requirements for third party verification. All third party verifications shall be conducted in the same language that was used in the underlying sales transaction and shall be recorded in their entirety. In accordance with the procedures set forth in paragraph (2)(B) of this subsection, submitting carriers shall maintain and preserve audio records of verification of subscriber authorization for a minimum period of 2 years after obtaining such verification. Automated systems must provide consumers with an option to speak with a live person at any time during the call.

(11) Telecommunications carriers must provide subscribers the option of using one of the authorization and verification procedures specified in paragraph (6) of this subsection in addition to an electronically signed authorization and verification procedure under paragraph (6)(A) of this subsection.

(d) Letter of agency form and content.

(1) A telecommunications carrier may use a written or electronically signed letter of agency to obtain authorization or verification, or both, of a subscriber's request to change his or her preferred carrier selection. A letter of agency that does not conform with this Section is invalid for purposes of this Section.

(2) The letter of agency shall be a separate document (or an easily separable document) or located on a separate screen or webpage containing only the authorizing language described in paragraph (5) of this subsection having the sole purpose of

New matter indicated by italics - deletions by strikeout
authorizing a telecommunications carrier to initiate a preferred carrier change. The letter of agency must be signed and dated by the subscriber to the telephone line or lines requesting the preferred carrier change.

(3) The letter of agency shall not be combined on the same document, screen, or webpage with inducements of any kind.

(4) Notwithstanding paragraphs (2) and (3) of this subsection, the letter of agency may be combined with checks that contain only the required letter of agency language as prescribed in paragraph (5) of this subsection and the necessary information to make the check a negotiable instrument. The letter of agency check shall not contain any promotional language or material. The letter of agency check shall contain in easily readable, bold-face type on the front of the check, a notice that the subscriber is authorizing a preferred carrier change by signing the check. The letter of agency language shall be placed near the signature line on the back of the check.

(5) At a minimum, the letter of agency must be printed with a type of sufficient size and readability to be clearly legible and must contain clear and unambiguous language that confirms:

(A) The subscriber's billing name and address and each telephone number to be covered by the preferred carrier change order;

(B) The decision to change the preferred carrier from the current telecommunications carrier to the soliciting telecommunications carrier;

(C) That the subscriber designates (insert the name of the submitting carrier) to act as the subscriber's agent for the preferred carrier change;

(D) That the subscriber understands that only one telecommunications carrier may be designated as the subscriber's interstate or interLATA preferred interexchange carrier for any one telephone number. To the extent that a jurisdiction allows the selection of additional preferred carriers (e.g., local exchange, intraLATA/intrastate toll, interLATA/interstate toll, or international interexchange) the letter of agency must contain separate statements regarding those choices,
although a separate letter of agency for each choice is not necessary; and

(E) That the subscriber may consult with the carrier as to whether a fee will apply to the change in the subscriber's preferred carrier.

(6) Any carrier designated in a letter of agency as a preferred carrier must be the carrier directly setting the rates for the subscriber.

(7) Letters of agency shall not suggest or require that a subscriber take some action in order to retain the subscriber's current telecommunications carrier.

(8) If any portion of a letter of agency is translated into another language then all portions of the letter of agency must be translated into that language. Every letter of agency must be translated into the same language as any promotional materials, oral descriptions, or instructions provided with the letter of agency.

(9) Letters of agency submitted with an electronically signed authorization must include the consumer disclosures required by Section 101(c) of the Electronic Signatures in Global and National Commerce Act.

(10) A telecommunications carrier shall submit a preferred carrier change order on behalf of a subscriber within no more than 60 days after obtaining a written or electronically signed letter of agency.

(11) If a telecommunications carrier uses a letter of agency, the carrier shall send a letter to the subscriber using first class mail, postage prepaid, no later than 10 days after the telecommunications carrier submitting the change in the subscriber's telecommunications carrier is on notice that the change has occurred. The letter must inform the subscriber of the details of the telecommunications carrier change and provide the subscriber with a toll free number to call should the subscriber wish to cancel the change.

(e) A switch in a subscriber's selection of a provider of telecommunications service that complies with the rules promulgated by the Federal Communications Commission and any amendments thereto shall be deemed to be in compliance with the provisions of this Section.

(f) The Commission shall promulgate any rules necessary to administer this Section. The rules promulgated under this Section shall

New matter indicated by italics - deletions by strikeout
comport with the rules, if any, promulgated by the Attorney General pursuant to the Consumer Fraud and Deceptive Business Practices Act and with any rules promulgated by the Federal Communications Commission.

(g) Complaints may be filed with the Commission under this Section by a subscriber whose telecommunications service has been provided by an unauthorized telecommunications carrier as a result of an unreasonable delay, by a subscriber whose telecommunications carrier has been changed to another telecommunications carrier in a manner not in compliance with this Section, by a subscriber's authorized telecommunications carrier that has been removed as a subscriber's telecommunications carrier in a manner not in compliance with this Section, by a subscriber's authorized submitting carrier whose change order was delayed unreasonably, or by the Commission on its own motion. Upon filing of the complaint, the parties may mutually agree to submit the complaint to the Commission's established mediation process. Remedies in the mediation process may include, but shall not be limited to, the remedies set forth in this subsection. In its discretion, the Commission may deny the availability of the mediation process and submit the complaint to hearings. If the complaint is not submitted to mediation or if no agreement is reached during the mediation process, hearings shall be held on the complaint. If, after notice and hearing, the Commission finds that a telecommunications carrier has violated this Section or a rule promulgated under this Section, the Commission may in its discretion do any one or more of the following:

1. Require the violating telecommunications carrier to refund to the subscriber all fees and charges collected from the subscriber for services up to the time the subscriber receives written notice of the fact that the violating carrier is providing telecommunications service to the subscriber, including notice on the subscriber's bill. For unreasonable delays wherein telecommunications service is provided by an unauthorized carrier, the Commission may require the violating carrier to refund to the subscriber all fees and charges collected from the subscriber during the unreasonable delay. The Commission may order the remedial action outlined in this subsection only to the extent that the same remedial action is allowed pursuant to rules or regulations promulgated by the Federal Communications Commission.

2. Require the violating telecommunications carrier to refund to the subscriber charges collected in excess of those that
would have been charged by the subscriber's authorized telecommunications carrier.

(3) Require the violating telecommunications carrier to pay to the subscriber's authorized telecommunications carrier the amount the authorized telecommunications carrier would have collected for the telecommunications service. The Commission is authorized to reduce this payment by any amount already paid by the violating telecommunications carrier to the subscriber's authorized telecommunications carrier for those telecommunications services.

(4) Require the violating telecommunications carrier to pay a fine of up to $1,000 into the Public Utility Fund for each repeated and intentional violation of this Section.

(5) Issue a cease and desist order.

(6) For a pattern of violation of this Section or for intentionally violating a cease and desist order, revoke the violating telecommunications carrier's certificate of service authority.

The rules promulgated under this Section shall comport with the rules, if any, promulgated by the Attorney General pursuant to the Consumer Fraud and Deceptive Business Practices Act and with any rules promulgated by the Federal Communications Commission or Federal Trade Commission.

(a) The economy in the State of Illinois will be enhanced by investment in new communications, cable services, and video services infrastructure, including broadband facilities, fiber optic, and Internet protocol technologies.

(b) Cable services and video services bring important daily benefits to Illinois consumers by providing news, education, and entertainment.

(c) Competitive cable service and video service providers are capable of providing new video programming services and competition to Illinois consumers and of decreasing the prices for video programming services paid by Illinois consumers.

(d) Although there has been some competitive entry into the facilities-based video programming market since current franchising requirements in this State were enacted, further entry by facilities-based providers could benefit consumers, provided cable and video services are equitably available to all Illinois consumers at reasonable prices.

(e) The provision of competitive cable services and video services is a matter of statewide concern that extends beyond the boundaries of individual local units of government. Notwithstanding the foregoing, public rights-of-way are limited resources over which the municipality has a custodial duty to ensure that they are used, repaired, and maintained in a manner that best serves the public interest.

(f) The State authorization process and uniform standards and procedures in this Article are intended to enable rapid and widespread entry by competitive providers, which will bring to Illinois consumers the benefits of video competition, including providing consumers with more choice, lower prices, higher speed and more advanced Internet access, more diverse and varied news, public information, education, and entertainment programming, and will bring to this State and its local units of government the benefits of new infrastructure investment, job growth, and innovation in broadband and Internet protocol technologies and deployment.

(g) Providing an incumbent cable or video service provider with the option to secure a State-issued authorization through the termination of existing cable franchises between incumbent cable and video service providers and any local franchising authority is part of the new regulatory framework established by this Article. This Article is intended to best ensure equal treatment and parity among providers and technologies.

Sec. 21-101.1. Applicability. The provisions of Public Act 95-9 shall apply only to a holder of a cable service or video service authorization issued by the Commission pursuant to this Article, and shall not apply to any person or entity that provides cable television services under a cable television franchise issued by any municipality or county pursuant to Section 11-42-11 of the Illinois Municipal Code (65 ILCS 5/11-42-11) or Section 5-1095 of the Counties Code (55 ILCS 5/5-1095), unless specifically provided for herein. A local unit of government that has an existing agreement for the provision of video services with a company or entity that uses its telecommunications facilities to provide video service as of May 30, 2007 may continue to operate under that agreement or may, at its discretion, terminate the existing agreement and require the video provider to obtain a State-issued authorization under this Article.

(220 ILCS 5/21-301)
Sec. 21-301. Eligibility.

(a) A person or entity seeking to provide cable service or video service in this State after June 30, 2007 (the effective date of Public Act 95-9) shall either (1) obtain a State-issued authorization pursuant to Section 21-401 of the Public Utilities Act (220 ILCS 5/21-401); (2) obtain authorization pursuant to Section 11-42-11 of the Illinois Municipal Code (65 ILCS 5/11-42-11); or (3) obtain authorization pursuant to Section 5-1095 of the Counties Code (55 ILCS 5/5-1095).

(b) An incumbent cable operator shall be eligible to apply for a State-issued authorization as provided in subsection (c) of this Section. Upon expiration of its current franchise agreement, an incumbent cable operator may obtain State authorization from the Commission pursuant to this Article or may pursue a franchise renewal with the appropriate local franchise authority under State and federal law. An incumbent cable operator and any successor-in-interest that receives a State-issued authorization shall be obligated to provide access to cable services or video services within any local unit of government at the same levels
required by the local franchising authorities for the local unit of
government on June 30, 2007 (the effective date of Public Act 95-9).

(c)(1) An incumbent cable operator may elect to terminate its
agreement with the local franchising authority and obtain a State-issued
authorization by providing written notice to the Commission and the
affected local franchising authority and any entity authorized by that
franchising authority to manage public, education, and government access
at least 180 days prior to its filing an application for a State-issued
authorization. The existing agreement shall be terminated on the date that
the Commission issues the State-issued authorization.

(2) An incumbent cable operator that elects to terminate an
existing agreement with a local franchising authority under this
Section is responsible for remitting to the affected local franchising
authority and any entity designated by that local franchising
authority to manage public, education, and government access
before the 46th day after the date the agreement is terminated any
accrued but unpaid fees due under the terminated agreement. If that
incumbent cable operator has credit remaining from prepaid
franchise fees, such amount of the remaining credit may be
deducted from any future fees the incumbent cable operator must
pay to the local franchising authority pursuant to subsection (b) of
Section 21-801 of this Act.

(3) An incumbent cable operator that elects to terminate an
existing agreement with a local franchising authority under this
Section shall pay the affected local franchising authority and any
entity designated by that franchising authority to manage public,
education, and government access, at the time that they would have
been due, all monetary payments for public, education, or
government access that would have been due during the remaining
term of the agreement had it not been terminated as provided in
this paragraph. All payments made by an incumbent cable operator
pursuant to the previous sentence of this paragraph may be credited
against the fees that that operator owes under item (1) of
subsection (d) of Section 21-801 of this Act.

(d) For purposes of this Article, the Commission shall be the
franchising authority for cable service or video service providers that apply
for and obtain a State-issued authorization under this Article with regard to
the footprint covered by such authorization. Notwithstanding any other
provision of this Article, holders using telecommunications facilities to
provide cable service or video service are not obligated to provide that service outside the holder's telecommunications service area.

(e) Any person or entity that applies for and obtains a State-issued authorization under this Article shall not be subject to Section 11-42-11 of the Illinois Municipal Code (65 ILCS 5/11-42-11) or Section 5-1095 of the Counties Code (55 ILCS 5/5-1095), except as provided in this Article. Except as provided under this Article, neither the Commission nor any local unit of government may require a person or entity that has applied for and obtained a State-issued authorization to obtain a separate franchise or pay any franchise fee on cable service or video service. (a)(1) A person or entity seeking to provide cable service or video service pursuant to this Article shall not use the public rights-of-way for the installation or construction of facilities for the provision of cable service or video service or offer cable service or video service until it has obtained a State-issued authorization to offer or provide cable or video service under this Section, except as provided for in item (2) of this subsection (a). All cable or video providers offering or providing service in this State shall have authorization pursuant to either (i) the Cable and Video Competition Law of 2007 (220 ILCS 5/21-100 et seq.); (ii) Section 11-42-11 of the Illinois Municipal Code (65 ILCS 5/11-42-11); or (iii) Section 5-1095 of the Counties Code (55 ILCS 5/5-1095).

(2) Nothing in this Section shall prohibit a local unit of government from granting a permit to a person or entity for the use of the public rights-of-way to install or construct facilities to provide cable service or video service, at its sole discretion. No unit of local government shall be liable for denial or delay of a permit prior to the issuance of a State-issued authorization.

(b) The application to the Commission for State-issued authorization shall contain a completed affidavit submitted by the applicant and signed by an officer or general partner of the applicant affirming all of the following:

(1) That the applicant has filed or will timely file with the Federal Communications Commission all forms required by that agency in advance of offering cable service or video service in this State.

New matter indicated by italics - deletions by strikeout
(2) That the applicant agrees to comply with all applicable federal and State statutes and regulations.

(3) That the applicant agrees to comply with all applicable local unit of government regulations.

(4) An exact description of the cable service or video service area where the cable service or video service will be offered during the term of the State-issued authorization. The service area shall be identified in terms of either (i) exchanges, as that term is defined in Section 13-206 of this Act; (ii) a collection of United States Census Bureau Block numbers (13 digit); (iii) if the area is smaller than the areas identified in either (i) or (ii), by geographic information system digital boundaries meeting or exceeding national map accuracy standards; or (iv) local unit of government. The description shall include the number of low-income households within the service area or footprint. If an applicant is an incumbent cable operator, the incumbent cable operator and any successor-in-interest shall be obligated to provide access to cable services or video services within any local units of government at the same levels required by the local franchising authorities for the local unit of government on June 30, 2007 (the effective date of Public Act 95-9), and its application shall provide a description of an area no smaller than the service areas contained in its franchise or franchises within the jurisdiction of the local unit of government in which it seeks to offer cable or video service.

(5) The location and telephone number of the applicant's principal place of business within this State and the names of the applicant's principal executive officers who are responsible for communications concerning the application and the services to be offered pursuant to the application, the applicant's legal name, and any name or names under which the applicant does or will provide cable services or video services in this State.

(6) A certification that the applicant has concurrently delivered a copy of the application to all local units of government that include all or any part of the service area identified in item (4) of this subsection (b) within such local unit of government's jurisdictional boundaries.

(7) The expected date that cable service or video service will be initially offered in the area identified in item (4) of this subsection (b). In the event that a holder does not offer cable service or video service within 60 days of the date identified in item (7), the holder's authorization shall be automatically annulled.
services or video services within 3 months after the expected date, it shall amend its application and update the expected date service will be offered and explain the delay in offering cable services or video services.

(8) For any entity that received State-issued authorization prior to this amendatory Act of the 98th General Assembly as a cable operator and that intends to proceed as a cable operator under this Article, the entity shall file a written affidavit with the Commission and shall serve a copy of the affidavit with any local units of government affected by the authorization within 30 days after the effective date of this amendatory Act of the 98th General Assembly stating that the holder will be providing cable service under the State-issued authorization.

The application shall include adequate assurance that the applicant possesses the financial, managerial, legal, and technical qualifications necessary to construct and operate the proposed system, to promptly repair any damage to the public right-of-way caused by the applicant, and to pay the cost of removal of its facilities. To accomplish these requirements, the applicant may, at the time the applicant seeks to use the public right-of-way in that jurisdiction, be required by the State of Illinois or later be required by the local unit of government, or both, to post a bond, produce a certificate of insurance, or otherwise demonstrate its financial responsibility.

The application shall include the applicant's general standards related to customer service required by Section 22-501 of this Act, which shall include, but not be limited to, installation, disconnection, service and repair obligations; appointment hours; employee ID requirements; customer service telephone numbers and hours; procedures for billing, charges, deposits, refunds, and credits; procedures for termination of service; notice of deletion of programming service and changes related to transmission of programming or changes or increases in rates; use and availability of parental control or lock-out devices; complaint procedures and procedures for bill dispute resolution and a description of the rights and remedies available to consumers if the holder does not materially meet their customer service standards; and special services for customers with visual, hearing, or mobility disabilities.

(c)(1) The applicant may designate information that it submits in its application or subsequent reports as confidential or proprietary, provided that the applicant states the reasons the confidential designation

is necessary. The Commission shall provide adequate protection for such
information pursuant to Section 4-404 of this Act. If the Commission, a
local unit of government, or any other party seeks public disclosure of
information designated as confidential, the Commission shall consider the
confidential designation in a proceeding under the Illinois Administrative
Procedure Act, and the burden of proof to demonstrate that the designated
information is confidential shall be upon the applicant. Designated
information shall remain confidential pending the Commission's
determination of whether the information is entitled to confidential
treatment. Information designated as confidential shall be provided to local
units of government for purposes of assessing compliance with this Article
as permitted under a Protective Order issued by the Commission pursuant
to the Commission's rules and to the Attorney General pursuant to Section
6.5 of the Attorney General Act (15 ILCS 205/6.5). Information designated
as confidential under this Section or determined to be confidential upon
Commission review shall only be disclosed pursuant to a valid and
enforceable subpoena or court order or as required by the Freedom of
Information Act. Nothing herein shall delay the application approval
timeframes set forth in this Article.

(2) Information regarding the location of video services that have
been or are being offered to the public and aggregate information included
in the reports required by this Article shall not be designated or treated as
confidential.

(d)(1) The Commission shall post all applications it receives under
this Article on its web site within 5 business days.

(2) The Commission shall notify an applicant for a cable service or
video service authorization whether the applicant's application and
affidavit are complete on or before the 15th business day after the
applicant submits the application. If the application and affidavit are not
complete, the Commission shall state in its notice all of the reasons the
application or affidavit are incomplete, and the applicant shall resubmit a
complete application. The Commission shall have 30 days after
submission by the applicant of a complete application and affidavit to
issue the service authorization. If the Commission does not notify the
applicant regarding the completeness of the application and affidavit or
issue the service authorization within the time periods required under this
subsection, the application and affidavit shall be considered complete and
the service authorization issued upon the expiration of the 30th day.

(e) Any authorization issued by the Commission will expire on December 31, 2023 and shall contain or include all of the following:

1. A grant of authority, including an authorization issued prior to this amendatory Act of the 98th General Assembly, to provide cable service or video service in the service area footprint as requested in the application, subject to the provisions of this Article in existence on the date the grant of authority was issued, and any modifications to this Article enacted at any time prior to the date in Section 21-1601 of this Act, and to the laws of the State and the ordinances, rules, and regulations of the local units of government.

2. A grant of authority to use, occupy, and construct facilities in the public rights-of-way for the delivery of cable service or video service in the service area footprint, subject to the laws, ordinances, rules, or regulations of this State and local units of governments.

3. A statement that the grant of authority is subject to lawful operation of the cable service or video service by the applicant, its affiliated entities, or its successors-in-interest.

(e-5) The Commission shall notify a local unit of government within 3 business days of the grant of any authorization within a service area footprint if that authorization includes any part of the local unit of government's jurisdictional boundaries and state whether the holder will be providing video service or cable service under the authorization.

(f) The authorization issued pursuant to this Section by the Commission may be transferred to any successor-in-interest to the applicant to which it is initially granted without further Commission action if the successor-in-interest (i) submits an application and the information required by subsection (b) of this Section for the successor-in-interest and (ii) is not in violation of this Article or of any federal, State, or local law, ordinance, rule, or regulation. A successor-in-interest shall file its application and notice of transfer with the Commission and the relevant local units of government no less than 15 business days prior to the completion of the transfer. The Commission is not required or authorized to act upon the notice of transfer; however, the transfer is not effective until the Commission approves the successor-in-interest's application. A local unit of government or the Attorney General may seek to bar a transfer of ownership by filing suit in a court of competent jurisdiction predicated on the existence of a material and continuing breach of this

Article by the holder, a pattern of noncompliance with customer service standards by the potential successor-in-interest, or the insolvency of the potential successor-in-interest. If a transfer is made when there are violations of this Article or of any federal, State, or local law, ordinance, rule, or regulation, the successor-in-interest shall be subject to 3 times the penalties provided for in this Article.

(g) The authorization issued pursuant to this Section by the Commission may be terminated, or its cable service or video service area footprint may be modified, by the cable service provider or video service provider by submitting notice to the Commission and to the relevant local unit of government containing a description of the change on the same terms as the initial description pursuant to item (4) of subsection (b) of this Section. The Commission is not required or authorized to act upon that notice. It shall be a violation of this Article for a holder to discriminate against potential residential subscribers because of the race or income of the residents in the local area in which the group resides by terminating or modifying its cable service or video service area footprint. It shall be a violation of this Article for a holder to terminate or modify its cable service or video service area footprint if it leaves an area with no cable service or video service from any provider.

(h) The Commission's authority to administer this Article is limited to the powers and duties explicitly provided under this Article. Its authority under this Article does not include or limit the powers and duties that the Commission has under the other Articles of this Act, the Illinois Administrative Procedure Act, or any other law or regulation to conduct proceedings, other than as provided in subsection (c), or has to promulgate rules or regulations. The Commission shall not have the authority to limit or expand the obligations and requirements provided in this Section or to regulate or control a person or entity to the extent that person or entity is providing cable service or video service, except as provided in this Article.

Sec. 21-601. Public, education, and government access. For the purposes of this Section, "programming" means content produced or provided by any person, group, governmental agency, or noncommercial public or private agency or organization.

(a) Not later than 90 days after a request by the local unit of government or its designee that has received notice under subsection (a) of
Section 21-801 of this Act, the holder shall (i) designate the same amount of capacity on its network to provide for public, education, and government access use as the incumbent cable operator is required to designate under its franchise terms in effect with a local unit of government on January 1, 2007 and (ii) retransmit to its subscribers the same number of public, education, and government access channels as the incumbent cable operator was retransmitting to subscribers on January 1, 2007.

(b) If the local unit of government produces or maintains the public education or government programming in a manner or form that is compatible with the holder's network, it shall transmit such programming to the holder in that form provided that form permits the holder to satisfy the requirements of subsection (c) of this Section. If the local unit of government does not produce or maintain such programming in that manner or form, then the holder shall be responsible for any changes in the form of the transmission necessary to make public, education, and government programming compatible with the technology or protocol used by the holder to deliver services. The holder shall receive programming from the local unit of government (or the local unit of government's public, education, and government programming providers) and transmit that public, education, and government programming directly to the holder's subscribers within the local unit of government's jurisdiction at no cost to the local unit of government or the public, education, and government programming providers. If the holder is required to change the form of the transmission, the local unit of government or its designee shall provide reasonable access to the holder to allow the holder to transmit the public, education, and government programming in an economical manner subject to the requirements of subsection (c) of this Section.

(c) The holder shall provide to subscribers public, education, and government access channel capacity at equivalent visual and audio quality and equivalent functionality, from the viewing perspective of the subscriber, to that of commercial channels carried on the holder's basic cable or video service offerings or tiers without the need for any equipment other than the equipment necessary to receive the holder's basic cable or video service offerings or tiers.

(d) The holder and an incumbent cable operator shall negotiate in good faith to interconnect their networks, if needed, for the purpose of providing public, education, and government programming.

New matter indicated by italics - deletions by strikeout
Interconnection may be accomplished by direct cable, microwave link, satellite, or other reasonable method of connection. The holder and the incumbent cable operator shall provide interconnection of the public, education, and government channels on reasonable terms and conditions and may not withhold the interconnection. If a holder and an incumbent cable operator cannot reach a mutually acceptable interconnection agreement, the local unit of government may require the incumbent cable operator to allow the holder to interconnect its network with the incumbent cable operator's network at a technically feasible point on their networks. If no technically feasible point for interconnection is available, the holder and an incumbent cable operator shall each make an interconnection available to the public, education, and government channel originators at their local origination points and shall provide the facilities necessary for the interconnection. The cost of any interconnection shall be borne by the holder unless otherwise agreed to by the parties. The interconnection required by this subsection shall be completed within the 90-day deadline set forth in subsection (a) of this Section.

(e) The public, education, and government channels shall be for the exclusive use of the local unit of government or its designee to provide public, education, and government programming. The public, education, and government channels shall be used only for noncommercial purposes. However, advertising, underwriting, or sponsorship recognition may be carried on the channels for the purpose of funding public, education, and government access related activities.

(f) Public, education, and government channels shall all be carried on the holder's basic cable or video service offerings or tiers. To the extent feasible, the public, education, and government channels shall not be separated numerically from other channels carried on the holder's basic cable or video service offerings or tiers, and the channel numbers for the public, education, and government channels shall be the same channel numbers used by the incumbent cable operator, unless prohibited by federal law. After the initial designation of public, education, and government channel numbers, the channel numbers shall not be changed without the agreement of the local unit of government or the entity to which the local unit of government has assigned responsibility for managing public, education, and government access channels, unless the change is required by federal law. Each channel shall be capable of carrying a National Television System Committee (NTSC) television signal.

(g) The holder shall provide a listing of public, education, and government channels on channel cards and menus provided to subscribers in a manner equivalent to other channels if the holder uses such cards and menus. Further, the holder shall provide a listing of public, education, and government programming on its electronic program guide if such a guide is utilized by the holder. It is the public, education, and government entity's responsibility to provide the holder or its designated agent, as determined by the holder, with program schedules and information in a timely manner.

(h) If less than 3 public, education, and government channels are provided within the local unit of government as of January 1, 2007, a local unit of government whose jurisdiction lies within the authorized service area of the holder may initially request the holder to designate sufficient capacity for up to 3 public, education, and government channels. A local unit of government or its designee that seeks to add additional capacity shall give the holder a written notification specifying the number of additional channels to be used, specifying the number of channels in actual use, and verifying that the additional channels requested will be put into actual use.

(i) The holder shall, within 90 days of a request by the local unit of government or its designated public, education, or government access entity, provide sufficient capacity for an additional channel for public, education, and government access when the programming on a given access channel exceeds 40 hours per week as measured on a quarterly basis. The additional channel shall not be used for any purpose other than for carrying additional public, education, or government access programming.

(j) The public, education, and government access programmer is solely responsible for the content that it provides over designated public, education, or government channels. A holder shall not exercise any editorial control over any programming on any channel designed for public, education, or government use or on any other channel required by law or a binding agreement with the local unit of government.

(k) A holder shall not be subject to any civil or criminal liability for any program carried on any channel designated for public, education, or government use.

(l) A court of competent jurisdiction shall have exclusive jurisdiction to enforce any requirement under this Section or resolve any dispute regarding the requirements set forth in this Section, and no

Sec. 21-701. Emergency alert system. The holder shall comply with all applicable requirements of the Federal Communications Commission involving the distribution and notification of federal, State, and local emergency messages over the emergency alert system applicable to cable operators. The holder will provide a requesting local unit of government with sufficient information regarding how to submit, via telephone or web listing, a local emergency alert for distribution over its cable or video network. To the extent that a local unit of government requires incumbent cable operators to provide emergency alert system messages or services in excess of the requirements of this Section, the holder shall comply with any such additional requirements within the jurisdiction of the local franchising authority. The holder may provide a local emergency alert to an area larger than the boundaries of the local unit of government issuing the emergency alert.

Sec. 21-801. Applicable fees payable to the local unit of government.
(a) Prior to offering cable service or video service in a local unit of government's jurisdiction, a holder shall notify the local unit of government. The notice shall be given to the local unit of government at least 10 days before the holder begins to offer cable service or video service within the boundaries of that local unit of government.
(b) In any local unit of government in which a holder offers cable service or video service on a commercial basis, the holder shall be liable for and pay the service provider fee to the local unit of government. The local unit of government shall adopt an ordinance imposing such a fee. The holder's liability for the fee shall commence on the first day of the calendar month that is at least 30 days after the holder receives such ordinance. For any such ordinance adopted on or after the effective date of this amendatory Act of the 99th General Assembly, the holder's liability shall commence on the first day of the calendar month that is at least 30 days after the adoption of such ordinance. The ordinance shall be sent by mail, postage prepaid, to the address listed on the holder's application.
provided to the local unit of government pursuant to item (6) of subsection (b) of Section 21-401 of this Act. The fee authorized by this Section shall be 5% of gross revenues or the same as the fee paid to the local unit of government by any incumbent cable operator providing cable service. The payment of the service provider fee shall be due on a quarterly basis, 45 days after the close of the calendar quarter. If mailed, the fee is considered paid on the date it is postmarked. Except as provided in this Article, the local unit of government may not demand any additional fees or charges from the holder and may not demand the use of any other calculation method other than allowed under this Article.

(c) For purposes of this Article, "gross revenues" means all consideration of any kind or nature, including, without limitation, cash, credits, property, and in-kind contributions received by the holder for the operation of a cable or video system to provide cable service or video service within the holder's cable service or video service area within the local unit of government's jurisdiction.

(1) Gross revenues shall include the following:

   (i) Recurring charges for cable service or video service.

   (ii) Event-based charges for cable service or video service, including, but not limited to, pay-per-view and video-on-demand charges.

   (iii) Rental of set-top boxes and other cable service or video service equipment.

   (iv) Service charges related to the provision of cable service or video service, including, but not limited to, activation, installation, and repair charges.

   (v) Administrative charges related to the provision of cable service or video service, including but not limited to service order and service termination charges.

   (vi) Late payment fees or charges, insufficient funds check charges, and other charges assessed to recover the costs of collecting delinquent payments.

   (vii) A pro rata portion of all revenue derived by the holder or its affiliates pursuant to compensation arrangements for advertising or for promotion or exhibition of any products or services derived from the operation of the holder's network to provide cable service or video service within the local unit of government's jurisdiction.

New matter indicated by italics - deletions by strikeout
The allocation shall be based on the number of subscribers in the local unit of government divided by the total number of subscribers in relation to the relevant regional or national compensation arrangement.

(viii) Compensation received by the holder that is derived from the operation of the holder's network to provide cable service or video service with respect to commissions that are received by the holder as compensation for promotion or exhibition of any products or services on the holder's network, such as a "home shopping" or similar channel, subject to item (ix) of this paragraph (1).

(ix) In the case of a cable service or video service that is bundled or integrated functionally with other services, capabilities, or applications, the portion of the holder's revenue attributable to the other services, capabilities, or applications shall be included in gross revenue unless the holder can reasonably identify the division or exclusion of the revenue from its books and records that are kept in the regular course of business.

(x) The service provider fee permitted by subsection (b) of this Section.

(2) Gross revenues do not include any of the following:

(i) Revenues not actually received, even if billed, such as bad debt, subject to item (vi) of paragraph (1) of this subsection (c).

(ii) Refunds, discounts, or other price adjustments that reduce the amount of gross revenues received by the holder of the State-issued authorization to the extent the refund, rebate, credit, or discount is attributable to cable service or video service.

(iii) Regardless of whether the services are bundled, packaged, or functionally integrated with cable service or video service, any revenues received from services not classified as cable service or video service, including, without limitation, revenue received from telecommunications services, information services, or the provision of directory or Internet advertising, including yellow pages, white pages, banner advertisement, and
electronic publishing, or any other revenues attributed by the holder to noncable service or nonvideo service in accordance with the holder's books and records and records kept in the regular course of business and any applicable laws, rules, regulations, standards, or orders.

(iv) The sale of cable services or video services for resale in which the purchaser is required to collect the service provider fee from the purchaser's subscribers to the extent the purchaser certifies in writing that it will resell the service within the local unit of government's jurisdiction and pay the fee permitted by subsection (b) of this Section with respect to the service.

(v) Any tax or fee of general applicability imposed upon the subscribers or the transaction by a city, State, federal, or any other governmental entity and collected by the holder of the State-issued authorization and required to be remitted to the taxing entity, including sales and use taxes.

(vi) Security deposits collected from subscribers.

(vii) Amounts paid by subscribers to "home shopping" or similar vendors for merchandise sold through any home shopping channel offered as part of the cable service or video service.

(3) Revenue of an affiliate of a holder shall be included in the calculation of gross revenues to the extent the treatment of the revenue as revenue of the affiliate rather than the holder has the effect of evading the payment of the fee permitted by subsection (b) of this Section which would otherwise be paid by the cable service or video service.

(d)(1) Except for a holder providing cable service that is subject to the fee in subsection (i) of this Section, the holder shall pay to the local unit of government or the entity designated by that local unit of government to manage public, education, and government access, upon request as support for public, education, and government access, a fee equal to no less than (i) 1% of gross revenues or (ii) if greater, the percentage of gross revenues that incumbent cable operators pay to the local unit of government or its designee for public, education, and government access support in the local unit of government's jurisdiction. For purposes of item (ii) of paragraph (1) of this subsection (d), the
percentage of gross revenues that all incumbent cable operators pay shall be equal to the annual sum of the payments that incumbent cable operators in the service area are obligated to pay by franchises and agreements or by contracts with the local government designee for public, education and government access in effect on January 1, 2007, including the total of any lump sum payments required to be made over the term of each franchise or agreement divided by the number of years of the applicable term, divided by the annual sum of such incumbent cable operator's or operators' gross revenues during the immediately prior calendar year. The sum of payments includes any payments that an incumbent cable operator is required to pay pursuant to item (3) of subsection (c) of Section 21-301.

(2) A local unit of government may require all holders of a State-issued authorization and all cable operators franchised by that local unit of government on June 30, 2007 (the effective date of this Section) in the franchise area to provide to the local unit of government, or to the entity designated by that local unit of government to manage public, education, and government access, information sufficient to calculate the public, education, and government access equivalent fee and any credits under paragraph (1) of this subsection (d).

(3) The fee shall be due on a quarterly basis and paid 45 days after the close of the calendar quarter. Each payment shall include a statement explaining the basis for the calculation of the fee. If mailed, the fee is considered paid on the date it is postmarked. The liability of the holder for payment of the fee under this subsection shall commence on the same date as the payment of the service provider fee pursuant to subsection (b) of this Section.

(e) The holder may identify and collect the amount of the service provider fee as a separate line item on the regular bill of each subscriber.

(f) The holder may identify and collect the amount of the public, education, and government programming support fee as a separate line item on the regular bill of each subscriber.

(g) All determinations and computations under this Section shall be made pursuant to the definition of gross revenues set forth in this Section and shall be made pursuant to generally accepted accounting principles.

(h) Nothing contained in this Article shall be construed to exempt a holder from any tax that is or may later be imposed by the local unit of government, including any tax that is or may later be required to be paid by or through the holder with respect to cable service or video service. A State-issued authorization shall not affect any requirement of the holder...
with respect to payment of the local unit of government's simplified municipal telecommunications tax or any other tax as it applies to any telephone service provided by the holder. A State-issued authorization shall not affect any requirement of the holder with respect to payment of the local unit of government's 911 or E911 fees, taxes, or charges.

(i) Except for a municipality having a population of 2,000,000 or more, the fee imposed under paragraph (1) of subsection (d) by a local unit of government against a holder who is a cable operator shall be as follows:

(1) the fee shall be collected and paid only for capital costs that are considered lawful under Subchapter VI of the federal Communications Act of 1934, as amended, and as implemented by the Federal Communications Commission;

(2) the local unit of government shall impose any fee by ordinance; and

(3) the fee may not exceed 1% of gross revenue; if, however, on the date that an incumbent cable operator files an application under Section 21-401, the incumbent cable operator is operating under a franchise agreement that imposes a fee for support for capital costs for public, education, and government access facilities obligations in excess of 1% of gross revenue, then the cable operator shall continue to provide support for capital costs for public, education, and government access facilities obligations at the rate stated in such agreement.

(220 ILCS 5/21-901)
Sec. 21-901. Audits.
(a) A holder that has received State-issued authorization under this Article is subject to an audit of its service provider fees derived from the provision of cable or video services to subscribers within any part of the local unit of government which is located in the holder's service territory. Any such audit shall be conducted by the local unit of government or its agent for the sole purpose of determining any overpayment or underpayment of the holder's service provider fee to the local unit of government.

(b) Beginning on or after the effective date of this amendatory Act of the 99th General Assembly, any audit conducted pursuant to this Section by a local government shall be governed by Section 11-42-11.05 of the Illinois Municipal Code or Section 5-1095.1 of the Counties Code.

Sec. 21-1001. Local unit of government authority.
(a) The holder of a State-issued authorization shall comply with all the applicable construction and technical standards and right-of-way occupancy standards set forth in a local unit of government's code of ordinances relating to the use of public rights-of-way, pole attachments, permit obligations, indemnification, performance bonds, penalties, or liquidated damages. The applicable requirements for a holder that is using its existing telecommunications network or constructing a telecommunications network shall be the same requirements that the local unit of government imposes on telecommunications providers in its jurisdiction. The applicable requirements for a holder that is using or constructing a cable system shall be the same requirements the local unit of government imposes on other cable operators in its jurisdiction.

(b) A local unit of government shall allow the holder to install, construct, operate, maintain, and remove a cable service, video service, or telecommunications network within a public right-of-way and shall provide the holder with open, comparable, nondiscriminatory, and competitively neutral access to the public right-of-way on the same terms applicable to other cable service or video service providers or cable operators in its jurisdiction. Notwithstanding any other provisions of law, if a local unit of government is permitted by law to require the holder of a State authorization to seek a permit to install, construct, operate, maintain, or remove its cable service, video service, or telecommunications network within a public right-of-way, those permits shall be deemed granted within 45 days after being submitted, if not otherwise acted upon by the local unit of government, provided the holder complies with the requirements applicable to the holder in its jurisdiction.

(c) A local unit of government may impose reasonable terms, but it may not discriminate against the holder with respect to any of the following:

(1) The authorization or placement of a cable service, video service, or telecommunications network or equipment in public rights-of-way.
(2) Access to a building.
(3) A local unit of government utility pole attachment.

(d) If a local unit of government imposes a permit fee on incumbent cable operators, it may impose a permit fee on the holder only to the extent it imposes such a fee on incumbent cable operators. In all

other cases, these fees may not exceed the actual, direct costs incurred by the local unit of government for issuing the relevant permit. In no event may a fee under this Section be levied if the holder already has paid a permit fee of any kind in connection with the same activity that would otherwise be covered by the permit fee under this Section provided no additional equipment, work, function, or other burden is added to the existing activity for which the permit was issued.

(e) Nothing in this Article shall affect the rights that any holder has under Section 4 of the Telephone Line Right of Way Act (220 ILCS 65/4).

(f) In addition to the other requirements in this Section, if the holder installs, upgrades, constructs, operates, maintains, and removes facilities or equipment within a public right-of-way to provide cable service or video service, it shall comply with the following:

(1) The holder must locate its equipment in the right-of-way as to cause only minimum interference with the use of streets, alleys, and other public ways and places, and to cause only minimum impact upon and interference with the rights and reasonable convenience of property owners who adjoin any of the said streets, alleys, or other public ways. No fixtures shall be placed in any public ways in such a manner to interfere with the usual travel on such public ways, nor shall such fixtures or equipment limit the visibility of vehicular or pedestrian traffic, or both.

(2) The holder shall comply with a local unit of government's reasonable requests to place equipment on public property where possible and promptly comply with local unit of government direction with respect to the location and screening of equipment and facilities. In constructing or upgrading its cable or video network in the right-of-way, the holder shall use the smallest suitable equipment enclosures and power pedestals and cabinets then in use by the holder for the application.

(3) The holder's construction practices shall be in accordance with all applicable Sections of the Occupational Safety and Health Act of 1970, as amended, as well as all applicable State laws, including the Civil Administrative Code of Illinois, and local codes, where applicable, as adopted by the local unit of government. All installation of electronic equipment shall be of a permanent nature, durable, and, where applicable, installed in accordance with the provisions of the National Electrical Safety...

PUBLIC ACT 100-0020

Code of the National Bureau of Standards and National Electrical Code of the National Board of Fire Underwriters.

(4) The holder shall not interfere with the local unit of government's performance of public works. Nothing in the State-issued authorization shall be in preference or hindrance to the right of the local unit of government to perform or carry on any public works or public improvements of any kind. The holder expressly agrees that it shall, at its own expense, protect, support, temporarily disconnect, relocate in the same street or other public place, or remove from such street or other public place any of the network, system, facilities, or equipment when required to do so by the local unit of government because of necessary public health, safety, and welfare improvements. In the event a holder and other users of a public right-of-way, including incumbent cable operators or utilities, are required to relocate and compensation is paid to the users of such public right-of-way, such parties shall be treated equally with respect to such compensation.

(5) The holder shall comply with all local units of government inspection requirements. The making of post-construction, subsequent or periodic inspections, or both, or the failure to do so shall not operate to relieve the holder of any responsibility, obligation, or liability.

(6) The holder shall maintain insurance or provide evidence of self insurance as required by an applicable ordinance of the local unit of government.

(7) The holder shall reimburse all reasonable make-ready expenses, including aerial and underground installation expenses requested by the holder to the local unit of government within 30 days of billing to the holder, provided that such charges shall be at the same rates as charges to others for the same or similar services.

(8) The holder shall indemnify and hold harmless the local unit of government and all boards, officers, employees, and representatives thereof from all claims, demands, causes of action, liability, judgments, costs and expenses, or losses for injury or death to persons or damage to property owned by, and Worker's Compensation claims against any parties indemnified herein, arising out of, caused by, or as a result of the holder's construction, lines, cable, erection, maintenance, use or presence of, or removal of any poles, wires, conduit, appurtenances thereto, or equipment

or attachments thereto. The holder, however, shall not indemnify the local unit of government for any liabilities, damages, cost, and expense resulting from the willful misconduct, or negligence of the local unit of government, its officers, employees, and agents. The obligations imposed pursuant to this Section by a local unit of government shall be competitively neutral.

(9) The holder, upon request, shall provide the local unit of government with information describing the location of the cable service or video service facilities and equipment located in the unit of local government's rights-of-way pursuant to its State-issued authorization. If designated by the holder as confidential, such information provided pursuant to this subsection shall be exempt from inspection and copying under the Freedom of Information Act and shall not be disclosed by the unit of local government to any third party without the written consent of the holder.

Sec. 21-1101. Requirements to provide video services.

(a) The holder of a State-issued authorization shall not deny access to cable service or video service to any potential residential subscribers because of the race or income of the residents in the local area in which the potential subscribers reside.

(b) (Blank).

(c)(1) If the holder of a State-issued authorization is using telecommunications facilities to provide cable or video service and has more than 1,000,000 telecommunications access lines in this State, the holder shall provide access to its cable or video service to a number of households equal to at least 35% of the households in the holder's telecommunications service area in the State within 3 years after the date a holder receives a State-issued authorization from the Commission and to a number not less than 50% of these households within 5 years after the date a holder receives a State-issued authorization from the Commission; provided that the holder of a State-issued authorization is not required to meet the 50% requirement in this paragraph (1) until 2 years after at least 15% of the households with access to the holder's video service subscribe to the service for 6 consecutive months.

The holder's obligation to provide such access in the State shall be distributed, as the holder determines, within 3 designated market areas, one in each of the northeastern, central, and southwestern portions of the State.

New matter indicated by italics - deletions by strikeout
holder's telecommunications service area in the State. The designated market area for the northeastern portion shall consist of 2 separate and distinct reporting areas: (i) a city with more than 1,000,000 inhabitants, and (ii) all other local units of government on a combined basis within such designated market area in which it offers video service.

If any state, in which a holder subject to this subsection (c) or one of its affiliates provides or seeks to provide cable or video service, adopts a law permitting state-issued authorization or statewide franchises to provide cable or video service that requires a cable or video provider to offer service to more than 35% of the households in the cable or video provider's service area in that state within 3 years, holders subject to this subsection (c) shall provide service in this State to the same percentage of households within 3 years of adoption of such law in that state.

Furthermore, if any state, in which a holder subject to this subsection (c) or one of its affiliates provides or seeks to provide cable or video service, adopts a law requiring a holder of a state-issued authorization or statewide franchises to offer cable or video service to more than 35% of its households if less than 15% of the households with access to the holder's video service subscribe to the service for 6 consecutive months, then as a precondition to further build-out, holders subject to this subsection (c) shall be subject to the same percentage of service subscription in meeting its obligation to provide service to 50% of the households in this State.

(2) Within 3 years after the date a holder receives a State-issued authorization from the Commission, at least 30% of the total households with access to the holder's cable or video service shall be low-income.

Within each designated market area listed in paragraph (1) of this subsection (c), the holder's obligation to offer service to low-income households shall be measured by each exchange, as that term is defined in Section 13-206 of this Act in which the holder chooses to provide cable or video service. The holder is under no obligation to serve or provide access to an entire exchange; however, in addition to the statewide obligation to provide low-income access provided by this Section, in each exchange in which the holder chooses to provide cable or video service, the holder shall provide access to a percentage of low-income households that is at least equal to the percentage of the total low-income households within that exchange.

(d)(1) All other holders shall only provide access to one or more exchanges, as that term is defined in Section 13-206 of this Act, or to local

units of government and shall provide access to their cable or video service to a number of households equal to 35% of the households in the exchange or local unit of government within 3 years after the date a holder receives a State-issued authorization from the Commission and to a number not less than 50% of these households within 5 years after the date a holder receives a State-issued authorization from the Commission, provided that if the holder is an incumbent cable operator or any successor-in-interest company, it shall be obligated to provide access to cable or video services within the jurisdiction of a local unit of government at the same levels required by the local franchising authorities for that local unit of government on June 30, 2007 (the effective date of Public Act 95-9).

(2) Within 3 years after the date a holder receives a State-issued authorization from the Commission, at least 30% of the total households with access to the holder's cable or video service shall be low-income.

Within each designated exchange, as that term is defined in Section 13-206 of this Act, or local unit of government listed in paragraph (1) of this subsection (d), the holder's obligation to offer service to low-income households shall be measured by each exchange or local unit of government in which the holder chooses to provide cable or video service. Except as provided in paragraph (1) of this subsection (d), the holder is under no obligation to serve or provide access to an entire exchange or local unit of government; however, in addition to the statewide obligation to provide low-income access provided by this Section, in each exchange or local unit of government in which the holder chooses to provide cable or video service, the holder shall provide access to a percentage of low-income households that is at least equal to the percentage of the total low-income households within that exchange or local unit of government.

(e) A holder subject to subsection (c) of this Section shall provide wireline broadband service, defined as wireline service, capable of supporting, in at least one direction, a speed in excess of 200 kilobits per second (kbps), to the network demarcation point at the subscriber's premises, to a number of households equal to 90% of the households in the holder's telecommunications service area by December 31, 2008, or shall pay within 30 days of December 31, 2008 a sum of $15,000,000 to the Digital Divide Elimination Infrastructure Fund established pursuant to Section 13-301.3 of this Act, or any successor fund established by the General Assembly. In that event the holder is required to make a payment pursuant to this subsection (e), the holder shall have no further accounting
for this payment, which shall be used in any part of the State for the purposes established in the Digital Divide Elimination Infrastructure Fund or for broadband deployment.

(f) The holder of a State-issued authorization may satisfy the requirements of subsections (c) and (d) of this Section through the use of any technology, which shall not include direct-to-home satellite service, that offers service, functionality, and content that is demonstrably similar to that provided through the holder's video service system.

(g) In any investigation into or complaint alleging that the holder of a State-issued authorization has failed to meet the requirements of this Section, the following factors may be considered in justification or mitigation or as justification for an extension of time to meet the requirements of subsections (c) and (d) of this Section:

1. The inability to obtain access to public and private rights-of-way under reasonable terms and conditions.
2. Barriers to competition arising from existing exclusive service arrangements in developments or buildings.
3. The inability to access developments or buildings using reasonable technical solutions under commercially reasonable terms and conditions.
4. Natural disasters.
5. Other factors beyond the control of the holder.

(h) If the holder relies on the factors identified in subsection (g) of this Section in response to an investigation or complaint, the holder shall demonstrate the following:

1. what substantial effort the holder of a State-issued authorization has taken to meet the requirements of subsection (a) or (c) of this Section;
2. which portions of subsection (g) of this Section apply;
and

3. the number of days it has been delayed or the requirements it cannot perform as a consequence of subsection (g) of this Section.

(i) The factors in subsection (g) of this Section may be considered by the Attorney General or by a court of competent jurisdiction in determining whether the holder is in violation of this Article.

(j) Every holder of a State-issued authorization, no later than April 1, 2009, and annually no later than April 1 thereafter, shall report to the Commission for each of the service areas as described in subsections (c)
and (d) of this Section in which it provides access to its video service in the State, the following information:

(1) Cable service and video service information:
   (A) The number of households in the holder's telecommunications service area within each designated market area as described in subsection (c) of this Section or exchange or local unit of government as described in subsection (d) of this Section in which it offers video service.

   (C) The number of households in the holder's telecommunications service area in the State.
   (D) The number of households in the holder's telecommunications service area in the State that are offered access to video service by the holder.

(2) Low-income household information:
   (A) The number of low-income households in the holder's telecommunications service area within each designated market area as described in subsection (c) of this Section, as further identified in terms of exchanges, or exchange or local unit of government as described in subsection (d) of this Section in which it offers video service.
   (B) The number of low-income households in the holder's telecommunications service area within each designated market area as described in subsection (c) of this Section, as further identified in terms of exchanges, or exchange or local unit of government as described in subsection (d) of this Section in the State that are offered access to video service by the holder.
   (C) The number of low-income households in the holder's telecommunications service area in the State.

New matter indicated by italics - deletions by strikeout
(D) The number of low-income households in the holder's telecommunications service area in the State that are offered access to video service by the holder.

(j-5) The requirements of subsection (c) of this Section shall be satisfied upon the filing of an annual report with the Commission in compliance with subsection (j) of this Section, including an annual report filed prior to this amendatory Act of the 98th General Assembly, that demonstrates the holder of the authorization has satisfied the requirements of subsection (c) of this Section for each of the service areas in which it provides access to its cable service or video service in the State. Notwithstanding the continued application of this Article to the holder, upon satisfaction of the requirements of subsection (c) of this Section, only the requirements of subsection (a) of this Section 21-1101 of this Act and the following reporting requirements shall continue to apply to such holder:

(1) Cable service and video service information:

(j-10) The requirements of subsection (d) of this Section shall be satisfied upon the filing of an annual report with the Commission in compliance with subsection (j) of this Section, including an annual report filed prior to this amendatory Act of the 98th General Assembly, that demonstrates the holder of the authorization has satisfied the requirements of subsection (d) of this Section for each of the service areas in which it provides access to its cable service or video service in the State. Notwithstanding the continued application of this Article to the holder, upon satisfaction of the requirements of subsection (d) of this Section, only the requirements of subsection (a) of this Section and the following reporting requirements shall continue to apply to such holder:

   (1) 3 years after the date a communication sent by the holder by first-class United States mail to the apparent owner is returned to the holder undelivered by the United States Postal Service; however, if such returned communication is re-sent within one month to the apparent owner, the 3-year period does not begin to run until the day the resent item is returned as undeliverable; or
   (2) 5 years after the date of the apparent owner's last indication of interest in the security.
(b) If the holder does not send communications to the apparent owner of a security by first-class United States mail on at least an annual basis, the holder shall attempt to confirm the apparent owner's interest in the security by sending the apparent owner an electronic-mail communication not later than 3 years after the apparent owner's last indication of interest in the security. However, the holder promptly shall attempt to contact the apparent owner by first-class United States mail if:
   (1) the holder does not have information needed to send the apparent owner an electronic-mail communication or the holder believes that the apparent owner's electronic-mail address in the holder's records is not valid;
   (2) the holder receives notification that the electronic-mail communication was not received; or
   (3) the apparent owner does not respond to the electronic-mail communication within 30 days after the communication was sent.
(c) If first-class United States mail sent under subsection (b) is returned to the holder undelivered by the United States Postal Service, the security is presumed abandoned in accordance with subsection (a)(2) above.
(d) If a holder in the ordinary course of its business receives notice or an indication of the death of an apparent owner, the holder shall attempt not later than 90 days after receipt of the notice or indication to confirm whether the apparent owner is deceased. Notwithstanding the standards set forth in paragraphs (a), (b) and (c), if the holder either receives confirmation of the death of the apparent owner in the ordinary course of
its business or confirms the death of the apparent owner under this subsection (d), then, the property shall be presumed abandoned 2 years after the date of death of the owner.

Section 15-209. When related property presumed abandoned. At and after the time property is presumed abandoned under this Act, any other property right or interest accrued or accruing from the property and not previously presumed abandoned is also presumed abandoned.

Section 15-210. Indication of apparent owner interest in property.
(a) The period after which property is presumed abandoned is measured from the later of:
   (1) the date the property is presumed abandoned under this Article; or
   (2) the latest indication of interest by the apparent owner in the property.
(b) Under this Act, an indication of an apparent owner's interest in property includes:
   (1) a record communicated by the apparent owner to the holder or agent of the holder concerning the property or the account in which the property is held;
   (2) an oral communication by the apparent owner to the holder or agent of the holder concerning the property or the account in which the property is held, if the holder or its agent contemporaneously makes and preserves a record of the fact of the apparent owner's communication;
   (3) presentment of a check or other instrument of payment of a dividend, interest payment, or other distribution, or evidence of receipt of a distribution made by electronic or similar means, with respect to an account, underlying security, or interest in a business association;
   (4) activity directed by an apparent owner in the account in which the property is held, including accessing the account or information concerning the account, or a direction by the apparent owner to increase, decrease, or otherwise change the amount or type of property held in the account;
   (5) a deposit into or withdrawal from an account at a financial organization, except for a recurring Automated Clearing House (ACH) debit or credit previously authorized by the apparent owner or an automatic reinvestment of dividends or interest; and

(6) subject to subsection (e), payment of a premium on an insurance policy.

(c) An action by an agent or other representative of an apparent owner, other than the holder acting as the apparent owner's agent, is presumed to be an action on behalf of the apparent owner.

(d) A communication with an apparent owner by a person other than the holder or the holder's representative is not an indication of interest in the property by the apparent owner unless a record of the communication evidences the apparent owner's knowledge of a right to the property.

(e) If the insured dies or the insured or beneficiary of an insurance policy otherwise becomes entitled to the proceeds before depletion of the cash surrender value of the policy by operation of an automatic-premium-loan provision or other nonforfeiture provision contained in the policy, the operation does not prevent the policy from maturing or terminating.

(f) If the apparent owner has another property with the holder to which Section 201(6) applies, then activity directed by an apparent owner in any other accounts, including loan accounts, at a financial organization holding an inactive account of the apparent owner shall be an indication of interest in all such accounts if:

(A) the apparent owner engages in one or more of the following activities:

(i) the apparent owner undertakes one or more of the actions described in subsection (b) of this Section regarding any account that appears on a consolidated statement with the inactive account;

(ii) the apparent owner increases or decreases the amount of funds in any other account the apparent owner has with the financial organization; or

(iii) the apparent owner engages in any other relationship with the financial organization, including payment of any amounts due on a loan; and

(B) the foregoing apply so long as the mailing address for the apparent owner in the financial organization's books and records is the same for both the inactive account and the active account.

Section 15-211. Knowledge of death of insured or annuitant.

New matter indicated by italics - deletions by strikeout
(a) In this Section, "death master file" means the United States Social Security Administration Death Master File or other database or service that is at least as comprehensive as the United States Social Security Administration Death Master File for determining that an individual reportedly has died.

(b) With respect to a life or endowment insurance policy or annuity contract for which an amount is owed on proof of death, but which has not matured by proof of death of the insured or annuitant, the company has knowledge of the death of an insured or annuitant when:

1. the company receives a death certificate or court order determining that the insured or annuitant has died;
2. the company:
   A. receives notice of the death of the insured or annuitant from the administrator or an unclaimed property administrator of another state, a beneficiary, a policy owner, a relative of the insured, a representative under the Probate Act of 1975, or from an executor or other legal representative of the insured's or annuitant's estate; and
   B. validates the death of the insured or annuitant;
3. the company conducts a comparison for any purpose between a death master file and the names of some or all of the company's insureds or annuitants, finds a match that provides notice that the insured or annuitant has died; or
4. the administrator or the administrator's agent conducts a comparison for the purpose of finding matches during an examination conducted under Article 10 between a death master file and the names of some or all of the company's insureds or annuitants, finds a match that provides notice that the insured or annuitant has died.

(c) The following rules apply under this Section:

1. A death-master-file match under subsection (b)(3) or (4) occurs if the criteria for an exact or partial match are satisfied as provided by either:
   A. the Unclaimed Life Insurance Benefits Act or other law of this State other than this Act; or
   B. a rule or policy adopted by the Director of the Department of Insurance.
2. The death-master-file match does not constitute proof of death for the purpose of submission to an insurance company of a

claim by a beneficiary, annuitant, or owner of the policy or contract for an amount due under an insurance policy or annuity contract.

(3) The death-master-file match or validation of the insured's or annuitant's death does not alter the requirements for a beneficiary, annuitant, or owner of the policy or contract to make a claim to receive proceeds under the terms of the policy or contract.

(4) An insured or an annuitant is presumed dead if the date of his or her death is indicated by the death-master-file match under either subsection (b)(3) or (b)(4), unless the insurer has competent and substantial evidence that the person is living, including, but not limited to, a contact made by the insurer with the person or his or her legal representative.

(d) This Act does not affect the determination of the extent to which an insurance company before the effective date of this Act had knowledge of the death of an insured or annuitant or was required to conduct a death-master-file comparison to determine whether amounts owed by the company on a life or endowment insurance policy or annuity contract were presumed abandoned or unclaimed.

Section 15-212. Deposit account for proceeds of insurance policy or annuity contract. If proceeds payable under a life or endowment insurance policy or annuity contract are deposited into an account with check or draft-writing privileges for the beneficiary of the policy or contract and, under a supplementary contract not involving annuity benefits other than death benefits, the proceeds are retained by the insurance company or the financial organization where the account is held, the policy or contract includes the assets in the account.

Section 15-213. United States savings bonds.

(a) As used in this Section, "United States savings bond" means property, tangible or intangible, in the form of a savings bond issued by the United States Treasury, whether in paper, electronic, or paperless form, along with all proceeds thereof in the possession of the administrator.

(b) Notwithstanding any provision of this Act to the contrary, a United States savings bond subject to this Section or held or owing in this State by any person is presumed abandoned when such bond has remained unclaimed and unredeemed for 5 years after its date of final extended maturity.

(c) United States savings bonds that are presumed abandoned and unclaimed under subsection (b) shall escheat to the State of Illinois and all property rights and legal title to and ownership of the United States

savings bonds, or proceeds from the bonds, including all rights, powers, and privileges of survivorship of any owner, co-owner, or beneficiary, shall vest solely in the State according to the procedure set forth in subsections (d) through (f).

(d) Within 180 days after a United States savings bond has been presumed abandoned, in the absence of a claim having been filed with the administrator for the savings bond, the administrator shall commence a civil action in the Circuit Court of Sangamon County for a determination that the United States savings bonds has escheated to the State. The administrator may postpone the bringing of the action until sufficient United States savings bonds have accumulated in the administrator's custody to justify the expense of the proceedings.

(e) The administrator shall make service by publication in the civil action in accordance with Sections 2-206 and 2-207 of the Code of Civil Procedure, which shall include the filing with the Circuit Court of Sangamon County of the affidavit required in Section 2-206 of that Code by an employee of the administrator with personal knowledge of the efforts made to contact the owners of United States savings bonds presumed abandoned under this Section. In addition to the diligent inquiries made pursuant to Section 2-206 of the Code of Civil Procedure, the administrator may also utilize additional discretionary means to attempt to provide notice to persons who may own a United States savings bond registered to a person with a last known address in the State of Illinois subject to a civil action pursuant to subsection (d).

(f) The owner of a United States savings bond registered to a person with a last known address in the State of Illinois subject to a civil action pursuant to subsection (d) may file a claim for such United States savings bond with either the administrator or by filing a claim in the civil action in the Circuit Court of Sangamon County in which the savings bond registered to that person is at issue prior to the entry of a final judgment by the Circuit Court pursuant to this subsection, and unless the Circuit Court determines that such United States savings bond is not owned by the claimant, then such United States savings bond shall no longer be presumed abandoned. If no person files a claim or appears at the hearing to substantiate a disputed claim or if the court determines that a claimant is not entitled to the property claimed by the claimant, then the court, if satisfied by evidence that the administrator has substantially complied with the laws of this State, shall enter a judgment that the United States savings bonds have escheated to this State, and all property rights and legal title to

and ownership of such United States savings bonds or proceeds from such bonds, including all rights, powers, and privileges of survivorship of any owner, co-owner, or beneficiary, shall vest in this State.

(g) The administrator shall redeem from the Bureau of the Fiscal Service of the United States Treasury the United States savings bonds escheated to the State and deposit the proceeds from the redemption of United States savings bonds into the Unclaimed Property Trust Fund.

(h) Any person making a claim for the United States savings bonds escheated to the State under this subsection, or for the proceeds from such bonds, may file a claim with the administrator. Upon providing sufficient proof of the validity of such person's claim, the administrator may, in his or her sole discretion, pay such claim. If payment has been made to any claimant, no action thereafter may be maintained by any other claimant against the State or any officer thereof for or on account of such funds.

Section 15-301. Address of apparent owner to establish priority. In this Article, the following rules apply:

(1) The last-known address of an apparent owner is any description, code, or other indication of the location of the apparent owner which identifies the state, even if the description, code, or indication of location is not sufficient to direct the delivery of first-class United States mail to the apparent owner.

(2) If the United States postal zip code associated with the apparent owner is for a post office located in this State, this State is deemed to be the state of the last-known address of the apparent owner unless other records associated with the apparent owner specifically identify the physical address of the apparent owner to be in another state.

(3) If the address under paragraph (2) is in another state, the other state is deemed to be the state of the last-known address of the apparent owner.

(4) The address of the apparent owner of a life or endowment insurance policy or annuity contract or its proceeds is presumed to be the address of the insured or annuitant if a person other than the insured or annuitant is entitled to the amount owed under the policy or contract and the address of the other person is not known by the insurance company and cannot be determined under Section 15-302. The address of the apparent owner of other

(a) Except as in subsection (b) or Section 15-302 or 15-303, the administrator may take custody of property presumed abandoned, whether located in this State, another state, or a foreign country, if the holder is domiciled in this State or is this State or a governmental subdivision, agency, or instrumentality of this State, and

(1) another state or foreign country is not entitled to the property because there is no last-known address of the apparent owner or other person entitled to the property in the records of the holder; or

(2) the state or foreign country of the last-known address of the apparent owner or other person entitled to the property does not provide for custodial taking of the property.

Section 15-305. Custody if transaction took place in this State. Except as in Section 15-302, 15-303, or 15-304, the administrator may take custody of property presumed abandoned whether located in this State or another state if:

(2) the holder is domiciled in a state that does not provide for the custodial taking of the property, except that if the property is specifically exempt from custodial taking under the law of the state of the holder's domicile, the property is not subject to the custody of the administrator; and
(3) the last-known address of the apparent owner or other person entitled to the property is unknown or in a state that does not provide for the custodial taking of the property, except that if the property is specifically exempt from custodial taking under the law of the state of the last-known address, the property is not subject to the custody of the administrator.

(1) the amount of the property;
(2) the property is presumed abandoned; and
(3) the property is subject to the custody of the administrator.

ARTICLE 4. REPORT BY HOLDER
Section 15-401. Report required by holder.
(a) A holder of property presumed abandoned and subject to the custody of the administrator shall report in a record to the administrator concerning the property. A holder shall report via the internet in a format approved by the administrator, unless the administrator gives a holder specific permission to file a paper report.

(b) A holder may contract with a third party to make the report required under subsection (a).

(c) Whether or not a holder contracts with a third party under subsection (b), the holder is responsible:

(10) contain other information the administrator prescribes by rules.

(b) A report under Section 15-401 may include in the aggregate items valued under $5 each. If the report includes items in the aggregate valued under $5 each, the administrator may not require the holder to provide the name and address of an apparent owner of an item unless the information is necessary to verify or process a claim in progress by the apparent owner.

(c) A report under Section 15-401 may include personal information as defined in Section 15-1401(a) about the apparent owner or the apparent owner's property.

(d) If a holder has changed its name while holding property presumed abandoned or is a successor to another person that previously held the property for the apparent owner, the holder must include in the report under Section 15-401 its former name or the name of the previous holder, if any, and the known name and address of each previous holder of the property.

The administrator may grant an extension. If the extension is granted, the holder may pay or make a partial payment of the amount the holder estimates ultimately will be due. The payment or partial payment terminates accrual of interest on the amount paid.

Section 15-404. Retention of records by holder. A holder required to file a report under Section 15-401 shall retain records for 10 years after
the later of the date the report was filed or the last date a timely report was

(d) In addition to other indications of an apparent owner's interest in property pursuant to Section 15-210, a signed return receipt in response to a notice sent pursuant to this Section by certified United States mail shall constitute a record communicated by the apparent owner to the holder concerning the property or the account in which the property is held.

(b) In providing notice under subsection (a), the administrator shall:
(1) except as otherwise provided in paragraph (2), send written notice by first-class United States mail to each apparent owner of property valued at $100 or more held by the administrator, unless the administrator determines that a mailing by first-class United States mail would not be received by the apparent owner, and, in the case of a security held in an account for which the apparent owner had consented to receiving electronic mail from the holder, send notice by electronic mail if the electronic-mail address of the apparent owner is known to the administrator instead of by first-class United States mail; or
(2) send the notice to the apparent owner's electronic-mail address if the administrator does not have a valid United States mail address for an apparent owner, but has an electronic-mail address that the administrator does not know to be invalid.

(2) The administrator shall maintain a website accessible by the public and electronically searchable which contains the names reported to the administrator of apparent owners for whom property is being held by the administrator. The administrator need not list property on such website when: no owner name was reported, a claim has been initiated or is pending for the property, the administrator has made direct contact with the apparent owner of the property, and in other instances where the administrator reasonably believes exclusion of the property is in the best interests of both the State and the owner of the property.

(d) The website or database maintained under subsection (c)(2) must include instructions for filing with the administrator a claim to property and a printable claim form with instructions for its use.

(e) Tax return identification of apparent owners of abandoned property.

(2) The Department of Revenue shall notify the administrator if any person under subsection (e)(1) has filed an Illinois income tax return and shall provide the administrator with the last known address of the person as it appears in Department of Revenue records, except as prohibited by federal law. The Department of Revenue may also provide additional addresses for the same taxpayer from the records of the Department, except as prohibited by federal law.

(3) In order to facilitate the return of property under this subsection, the administrator and the Department of Revenue may
enter into an interagency agreement concerning protection of confidential information, data match rules, and other issues.

(4) The administrator may deliver, as provided under Section 15-904 of this Act, property or pay the amount owing to a person matched under this Section without the person filing a claim under Section 15-903 of this Act if the following conditions are met:

(5) If the value of the property that is owed the person is greater than $2,000, or is tangible property or securities the administrator shall provide notice to the person, informing the person that he or she is the owner of abandoned property held by the State and may file a claim with the administrator for return of the property.

(f) The administrator may use additional databases to verify the identity of the person and that the person currently resides at the last known address. The administrator may utilize publicly and commercially available databases to find and update or add information for apparent owners of property held by the administrator.

(g) In addition to giving notice under subsection (b), publishing the information under subsection (c)(1) and maintaining the website or database under subsection (c)(2), the administrator may use other printed publication, telecommunication, the Internet, or other media to inform the public of the existence of unclaimed property held by the administrator.

of this Act. The administrator may also enter into data sharing agreements
to enable such other governmental agencies to provide an additional notice
to apparent owners of property held by the administrator.

ARTICLE 6. TAKING CUSTODY OF PROPERTY BY
ADMINISTRATOR

Section 15-601. Definition of good faith. In this Article, payment
or delivery of property is made in good faith if a holder:

(1) had a reasonable basis for believing, based on the facts
then known, that the property was required or permitted to be paid

(2) made payment or delivery:

(A) in response to a demand by the administrator or

(B) under a guidance or ruling issued by the
administrator which the holder reasonably believed

Section 15-602. Dormancy charge.

(a) A holder may deduct a dormancy charge from property required

(2) the holder regularly imposes the charge and regularly
does not reverse or otherwise cancel the charge.

(b) The amount of the deduction under subsection (a) is limited to
an amount that is not unconscionable considering all relevant factors,
including the marginal transactional costs incurred by the holder in
maintaining the apparent owner's property and any services received by the
apparent owner.

(c) A holder may not deduct an escheat fee or other charges
imposed solely by virtue of property being reported as presumed

New matter indicated by italics - deletions by strikeout
(a) Except as otherwise provided in this Section, on filing a report under Section 15-401, the holder shall pay or deliver to the administrator the property described in the report.

(b) If property in a report under Section 15-401 is an automatically renewable deposit and a penalty or forfeiture in the payment of interest would result from paying the deposit to the administrator at the time of the report, the date for payment of the property to the administrator is extended until a penalty or forfeiture no longer would result from payment, if the holder informs the administrator of the extended date.

(c) Tangible property in a safe-deposit box may not be delivered to the administrator until a mutually agreed upon date that is no sooner than 60 days after filing the report under Section 15-401.

(d) If property reported to the administrator under Section 15-401 is a security, the administrator may:

(1) make an endorsement, instruction, or entitlement order on behalf of the apparent owner to invoke the duty of the issuer, its transfer agent, or the securities intermediary to transfer the security; or

(2) dispose of the security under Section 15-702.

(e) If the holder of property reported to the administrator under Section 15-401 is the issuer of a certificated security, the administrator may obtain a replacement certificate in physical or book-entry form under Section 8-405 of the Uniform Commercial Code. An indemnity bond is not required.

(f) The administrator shall establish procedures for the registration, issuance, method of delivery, transfer, and maintenance of securities delivered to the administrator by a holder.

(g) An issuer, holder, and transfer agent or other person acting in good faith under this Section under instructions of and on behalf of the issuer or holder is not liable to the apparent owner for a claim arising with respect to property after the property has been delivered to the administrator.

(h) A holder is not required to deliver to the administrator a security identified by the holder as a non-freely transferable security in a report filed under Section 15-401. If the administrator or holder determines that a security is no longer a non-freely transferable security, the holder shall report and deliver the security on the next regular date prescribed for delivery of securities under this Act. The holder shall make a determination annually whether a security identified in a report filed

Section 15-604. Effect of payment or delivery of property to administrator.

(a) On payment or delivery of property to the administrator under this Act, the administrator as agent for the State assumes custody and responsibility for safekeeping the property. A holder that pays or delivers property to the administrator in good faith and substantially complies with Sections 15-501 and 15-502 is relieved of all liability which thereafter may arise or be made in respect to the property to the extent of the value of the property so paid or delivered.

(b) If legal proceedings are instituted by any other state or states in any state or federal court with respect to unclaimed funds or abandoned property previously paid or delivered to the administrator, the holder shall give written notification to the administrator and the Attorney General of this State of such proceedings within 10 days after service of process, or in the alternative at least 10 days before the return date or date on which an answer or similar pleading is due (or any extension thereof secured by the holder). The Attorney General may take such action as he or she deems necessary or expedient to protect the interests of this State. The Attorney General by written notice prior to the return date or date on which an answer or similar pleading is due (or any extension thereof secured by the holder), but in any event in reasonably sufficient time for the holder to comply with the directions received, shall either direct the holder actively to defend in such proceedings or that no defense need be entered in such proceedings. If a direction is received from the Attorney General that the holder need not make a defense, such shall not preclude the holder from entering a defense in its own name if it should so choose. However, any defense made by the holder on its own initiative shall not entitle the holder to reimbursement for legal fees, costs and other expenses as is hereinafter provided in respect to defenses made pursuant to the directions of the Attorney General. If, after the holder has actively defended in such proceedings pursuant to a direction of the Attorney General, or has been notified in writing by the Attorney General that no defense need be made with respect to such funds, a judgment is entered against the holder for any amount paid to the administrator under this Act, the administrator shall, upon being furnished with proof of payment in satisfaction of such judgment, reimburse the holder the amount so paid. The administrator shall also reimburse the holder for any legal fees, costs and other directly

Section 15-605. Recovery of property by holder from administrator.

(a) A holder that under this Act pays money to the administrator may file a claim for reimbursement from the administrator of the amount paid if the holder:

(1) paid the money in error; or
(2) after paying the money to the administrator, paid money to a person the holder reasonably believed entitled to the money.

(b) If a claim for reimbursement under subsection (a) is made for a payment made on a negotiable instrument, including a traveler's check, money order, or similar instrument, the holder must submit proof that the instrument was presented and payment was made to a person the holder reasonably believed entitled to payment. The holder may claim reimbursement even if the payment was made to a person whose claim was made after expiration of a period of limitation on the owner's right to receive or recover property, whether specified by contract, statute, or court order.

(c) If a holder is reimbursed by the administrator under subsection (a)(2), the holder may also recover from the administrator income or gain under Section 15-607 that would have been paid to the owner if the money had been claimed from the administrator by the owner to the extent the income or gain was paid by the holder to the owner.

(d) A holder that under this Act delivers property other than money to the administrator may file a claim for return of the property from the administrator if:

(1) the holder delivered the property in error; or
(2) the apparent owner has claimed the property from the holder.

(e) If a claim for return of property under subsection (d) is made, the holder shall include with the claim evidence sufficient to establish that the apparent owner has claimed the property from the holder or that the property was delivered by the holder to the administrator in error.

(f) The administrator may determine that an affidavit submitted by a holder is evidence sufficient to establish that the holder is entitled to reimbursement or to recover property under this Section.

(g) A holder is not required to pay a fee or other charge for reimbursement or return of property under this Section.

New matter indicated by italics - deletions by strikeout
(h) Unless extended for reasonable cause, not later than 90 days after a holder's claim is complete the administrator shall allow or deny the claim and give the holder notice in a record of the decision. If a holder fails to provide all the information and documentation requested by the administrator as necessary to establish legal ownership of the property and the claim is inactive for at least 90 days, then the administrator may close the claim without issuing a final decision. However, if the claimant makes a request in writing for a final decision prior to the administrator's closing of the claim, the administrator shall issue a final decision. A claim will be considered complete when a holder has provided all the information and documentation requested by the administrator as necessary to establish legal ownership and such information or documentation is entered into the administrator's unclaimed property system.

(i) The claimant may initiate a proceeding under the Illinois Administrative Procedure Act for review of the administrator's decision or the deemed denial under subsection (h) not later than:

1. 30 days following receipt of the notice of the administrator's decision; or
2. 120 days following the filing of a claim under subsection (a) or (d) in the case of a deemed denial under subsection (h).

Section 15-606. Property removed from safe-deposit box. Property removed from a safe-deposit box and delivered under this Act to the administrator under this Act is subject to the holder's right to reimbursement for the cost of opening the box and a lien or contract providing reimbursement to the holder for unpaid rent charges for the box. Upon application by the holder, after the sale of the property, and after deducting the expense incurred by the administrator in selling the property, the administrator shall reimburse the holder from the proceeds remaining. The administrator shall promulgate administrative rules concerning the reimbursement process under this Section.

Section 15-607. Crediting income or gain to owner's account. Section 15-608. Administrator's options as to custody.

New matter indicated by italics - deletions by strikeout
(a) The administrator may decline to take custody of property reported under Section 15-401 if the administrator determines that:

(2) taking custody of the property would be unlawful.

(b) A holder may pay or deliver property to the administrator before the property is presumed abandoned under this Act if the holder:

(1) provides the apparent owner of the property any notice required by Section 15-501 and provides the administrator evidence of the holder's compliance with this paragraph;
(2) includes with the payment or delivery a report regarding the property conforming to Section 15-402; and
(3) first obtains the administrator's consent in a record to accept payment or delivery.

(c) A holder's request for the administrator's consent under subsection (b)(3) must be in a record. If the administrator fails to respond to the request not later than 30 days after receipt of the request, the administrator is deemed to consent to the payment or delivery of the property and the payment or delivery is considered to have been made in good faith.

(d) On payment or delivery of property under subsection (b), the property is presumed abandoned.

Section 15-609. Disposition of property having no substantial value; immunity from liability.

(a) If the administrator takes custody of property delivered under this Act and later determines that the property has no substantial commercial value or that the cost of disposing of the property will exceed the value of the property, the administrator may return the property to the holder or destroy or otherwise dispose of the property.

(b) An action or proceeding may not be commenced against the State, an agency of the State, the administrator, another officer, employee, or agent of the State, or a holder for or because of an act of the administrator under this Section, except for intentional misconduct or malfeasance.

Section 15-610. Periods of limitation and repose.

(a) Expiration, before, on, or after the effective date of this Act, of a period of limitation on an owner's right to receive or recover property, whether specified by contract, statute, or court order, does not prevent the property from being presumed abandoned or affect the duty of a holder
under this Act to file a report or pay or deliver property to the administrator.

(b) An action or proceeding may not be maintained by the administrator to enforce this Act in regard to the reporting, delivery, or payment of property more than 10 years after the holder specifically identified the property in a report filed with the administrator or gave express notice to the administrator of a dispute regarding the property. In the absence of such a report or other express notice, the period of limitation is tolled. The period of limitation is also tolled by the filing of a report that is fraudulent.

(2) on the Internet; or
(3) on another forum the administrator determines is likely to yield the highest net proceeds of sale.

(d) The administrator may decline the highest bid at a sale under this Section and reoffer the property for sale if the administrator determines the highest bid is insufficient.

(e) If a sale held under this Section is to be conducted other than on the Internet, the administrator must cause to be published at least one notice of the sale, at least 2 weeks but not more than 5 weeks before the sale, in a newspaper of general circulation in the county in which the property is to be sold. For purposes of this subsection, the reasonable description of property to be sold required by subsection (b) above may be satisfied by posting such information on the administrator's website so long as the newspaper notice includes the website address where such information is posted.

1. replacement of the security;
2. the market value of the security at the time the claim is filed, plus dividends, interest, and other increments on the security up to the time the claim is paid; or

1. the security the holder delivered to the administrator, if it is in the custody of the administrator, plus dividends, interest,
(2) the net proceeds of the sale of the security, plus dividends, interest, and other increments on the security up to the time the security was sold.

(1) The administrator, in cooperation with the Department of State Police, shall develop a procedure to determine whether a firearm delivered to the administrator under this Act has been stolen or used in the commission of a crime. The Department of State Police shall determine the appropriate disposition of a firearm that has been stolen or used in the commission of a crime. The administrator shall attempt to return a firearm that has not been stolen or used in the commission of a crime to the rightful owner if the Department of State Police determines that the owner may lawfully possess the firearm.

(2) If the administrator is unable to return a firearm to its owner, the administrator shall transfer custody of the firearm to the Department of State Police.
